

## Godly Choice 601

Chapter 601: Travel through ancient cities

"Kneel to the sky, kneel to the ground, kneel to your parents." Li Yun raised the Sky Thunder Talisman in his hand, with an indifferent tone: "If General Xu you must ask me to kneel, then I have to fight to the death!"

General Xu was silent for a long time, Venerable Black Eyebrow sneered, then he saw General Xu kneeling down facing the dragon coffin, and after three bows he said: "The emperor, the minister asks for your decision!"

Everyone looked at the dragon coffin in astonishment. A general Xu was so powerful. If the emperor was still alive, would it become a flying drought that flies away from the sky?

But the dragon coffin did not burst open, but a beam of light was projected over the Golden Luang Temple, which instantly enveloped everyone.

The alarm bell in Li Yun's heart was overwhelming, and he reached out and took out a detoxification pill. If this thing is a curse or something, the detoxification pill can be effective.

However, before he felt any danger, Li Yun's eyes changed dramatically.

The Golden Luang Temple disappeared and replaced by the bustling streets of the ancient city.

Surrounded by carved beams and painted buildings, all pedestrians are dressed in ancient costumes, or linen coats, or blue gowns, or silks and satin, which are expensive.

All these show the prosperity and excitement here.

"Objective, come and play! Come on, the sisters here are very enthusiastic."

"Walk around and take a look, the yam here is the cheapest!"

"Hometown elders, Zhao Ming is the leader of the Caotai team. He came to the capital today to show his ugliness..."

"A good cloth of the first class, only three pennies!"

Listening to the yelling, laughing, and shouting of people around, Li Yun was shocked. The Detoxification Pill he was holding in his hand almost fell to the ground. Is this... illusion? !

He had already seen illusion in Venerable Black Eyebrow, and he was already wary of this weird thing. It stands to reason that now that Li Yun has divine mind, ordinary illusion can't confuse him at all.

But at this moment, Li Yun's spiritual thoughts unfolded, and he scanned the surroundings, but he didn't notice any abnormality.

What Shennian felt was exactly the same as what he saw with his eyes, which showed that this illusion level was beyond his imagination!

"I shouldn't have crossed it?"

Li Yun gave a wry smile, probably not. It would be terrifying if the formation of the Emperor's Tomb could make people pass through. The owner of the burial was at least a fairy level, not a mortal emperor.

"But how the \*\*\*\* should I crack this illusion? Eat detoxification pills? Eat god-level skill pills, so that my spirit skills can be upgraded to the full level?"

Li Yun quickly thought about the current situation in his mind, but in the end they all denied them one by one, and let's take a look at the purpose of this illusion for the time being.

Seeing what General Xu meant, it didn't seem to be an enemy to him, otherwise, a three-meter-high zombie would be enough to make Li Yun and the others vomit blood.

After thinking of this, Li Yun felt calm and began to observe his surroundings carefully.

I have to say that walking on the streets of ancient cities, experiencing the life of the ancients firsthand, seeing, hearing, and feeling the voice and appearance of the ancestors gave Li Yun a very strong and complex feeling.

Perhaps these people have his ancestors.

"Your eldest man, don't you have long eyes when you walk?!"

"You \*\*\*\* don't have eyes, it's obviously that your foot is sticking out too long!"

Suddenly, there was a quarrel in the wine shop not far away, and Li Yun turned his head to look, unexpectedly felt a little familiar.

After thinking about it carefully, I suddenly recalled, isn't this the scene of the former lady who was sitting in the sedan chair and beating the gong to clear the way, raising the curtains and looking out?

Sure enough, the two people in the wine shop became more and more quarrelsome, and when they fought, a gong rang from the corner of the street.

Chapter 602: The shy princess

"Clang clang clang!"

Li Yun did not deliberately count, but he also counted it in his mind. There were twelve gongs sounded, loud and strong, and the long remaining sound spread throughout the street.

People on the road evaded one after another. Even some of the wealthy children dressed in silk satin, who were probably from official family, could not help but stand aside quickly after hearing the twelve gongs, not daring to stand in the way without authorization.

Not long after, Li Yun saw a group of guards with knives coming from the street in front of them. From the look of their eyes, they were all soldiers of tigers and wolves. They were guarding an eight-carriage sedan chair. The sedan chair was larger than the pottery figurines Li Yun had seen before. The sedan chair is much more beautiful and exquisite.

Around the sedan chair, there are four beautifully dressed maids accompanied, ready to listen to the lady in the sedan chair at any time.

"Princess Yongning is here!"

"The princess is here!"

"I heard that Princess Yongning looks very beautiful, I really want to see it with my own eyes."

"Don't talk nonsense, be careful that the government will arrest you and serve you!"

"Oh, poor Princess Yongning, I heard that she has been ill since she was a child, and the empress has never seen him go to the temple to pray for blessings!"

"What nonsense? Don't talk about royal matters!"

"Hey, it's okay, Princess Yongning is kind-hearted, don't worry about this."

"It is said that Princess Yongning is sixteen years old this year, but the saint is very fond of her, and has never hired a consort."

"That's no one dared to take it, Princess Yongning's disease...well, let's not talk about it."

"Speak carefully!"

The people around him talked a lot, and Li Yun suddenly realized that the lady sitting in the sedan chair was not a lady, but a princess.

The princess and the young lady are too far apart in status.

Even the daughter of the prime minister of the dynasty was still a commoner without marrying a man and getting a great life, but the princess with a title is more expensive than the prince, and the two are completely incomparable.

However, Li Yun carefully recalled the records in the history book, and found that he had not found the so-called Princess Yongning, nor did he know which dynasty was in the illusion.

Soon, the scene of the pottery figurines that Li Yun saw in the city before was shown in front of him.

The two arguing in the hotel scrambled and made a lot of noise. Therefore, the princess Yongning, who is said to be the most beautiful in Beijing, opened the curtain of the sedan chair and looked out.

Just right, I met with Li Yun's eyes looking at her. In an instant, the shyness on the girl's face stained her white cheeks, as if the breeze wrinkled a pool of spring water, and she drew the mandarin duck in the incense path and moved her hand. .

"What a nice view."

Li Yun was in a daze. Princess Yongning's shy and beautiful face was deeply carved into his mind at this moment, which made Li Yun secretly say. It's a pity that this princess is just a woman in illusion, perhaps already dead for five years. It's been a hundred years.

But just as a poem said, why do you have met before, seeing Princess Yongning's delicate and shy beauty, Li Yun felt that this time the magic trick was worth it!

After the princess's sedan chair walked away, Li Yun continued to walk along the street with great intentions. In the illusion, it is probably impossible to see the beautiful princess again. The soldiers around her are probably masters of the acquired realm. , It is very difficult to forcibly meet.

Besides, Li Yun also has more important things to do—how on earth can I get out of this horrible place? !

Just when Li Yun was upset, he unconsciously glanced at the beggar on the street and suddenly noticed something.

"No, here...I'm the only one living?!"

Chapter 603: The key, Princess Yongning

Li Yun stood on the street blankly, frowning and looking around.

The beggar on the street was about 60 years old, his right leg was gone, his clothes were ragged, his face was wrinkled, and his face was yellow and skinny. Li Yun suspected that he was only in his thirties. It was only because of long-term hunger that he was seriously aging.

The beggar kept begging with begging eyes, holding a dirty bowl, and begging for alms to everyone passing by.

But the weird thing was that Li Yun had already come to him, and the beggar still didn't look at him as if he hadn't noticed him, and didn't give him a look!

No, it's not just this beggar.

All the people on the street turned a blind eye to Li Yun, except that they didn't bump into him, they didn't react to Li Yun's weird clothes at all!

"I'm \*\*\*\* 2B!"

Li Yun smiled bitterly and patted his head. He was so stupid that he didn't notice these details.

It is strange that a modern man with short hair and weird dress appeared on the streets of ancient cities without causing commotion.

Helplessly, Li Yun was shocked by this illusion. He didn't expect that this time, he was still full of interest, shopping like a fool!

Thinking of this, Li Yun came to a little brother who sold candied haws and took a candied haws directly. The little brother didn't care, and continued to shout to sell candied haws.

"Sure enough, the people here didn't react at all to me, an outsider, and completely regarded me as air!"

Putting the candied haws back, Li Yun thought about the principle of this illusion, but suddenly thought of something.

"Princess Yongning!"

He immediately turned his head and chased in the direction where the sedan chair had just left. He chased directly in front of the princess mansion. He was about to go directly in to find her, but was stopped by the guard at the door.

"Bold!!" Two soldiers with spears stopped Li Yun, and one of them sternly shouted: "Who is Erna, who dares to trespass into Princess Yongning's Mansion? Don't leave quickly, or you will be killed on the spot! "

Li Yun was taken aback, the two slammed their spears, slapped them at him with the spear handles, and shouted at the same time: "Leave quickly, you can't enter the princess mansion!"

"Uh, sorry sorry."

When Li Yun stepped back, the two soldiers were obviously abnormal. At least they were both innate and late. Li Yun estimated that even if he had been able to fight, once they called for someone to come, he probably had to explain it here.

It's just that Li Yun is depressed, what kind of dynasty is this, it is too extravagant to use the master of the innate late stage as the door guard!

But at the same time, he also confirmed one thing.

Princess Yongning and Princess Mansion must be the most critical place for this illusion.

Because only she showed a shy expression after seeing Li Yun, and only people in the princess mansion would react to Li Yun's existence.

Li Yun thought about it, this large-scale illusion is like a sophisticated computer, but no matter how sophisticated the computer is, there are limits to its running memory.

It is impossible to make it very realistic. If you control hundreds of thousands of people in the city to become lifelike at the same time, it will not accidentally occupy a lot of resources and cause a crash due to insufficient memory.

Therefore, in this city, the vast majority of people are puppets, only the princess mansion, and some important people are NPCs, that is, people with IQ.

After thinking about it, Li Yun looked at this gorgeous princess mansion again, and couldn't help showing a satisfied smile.

"Next, as long as I find out what secrets are hidden in the princess mansion, I may be able to escape from illusion!"

After deciding what to do, Li Yun began to walk around the princess mansion.

Chapter 604: I am a quagmire doctor

It occupies a wide area, four into the palace of the six houses, with towering walls and small doors opening from east to west to provide access for the descendants. Li Yun looked in from a distance and found that many guards were patrolling. It can be seen that it is impossible to force to enter. .

Unless he will be invisible.

While thinking, two 40-year-old mothers walked out of the side door. Li Yun stood not far away on the street, clearly seeing one of the old mothers holding a basket glance at him, as if he was suspicious of Li Yun standing. The motivation here is not pure!

"Ahem!"

Li Yun pretended to be walking and walked towards the street.

Near the princess mansion, even the side entrance, ordinary civilians rarely approach, let alone stop and watch.

But Li Yun didn't give up so simply. He didn't go far, so he followed the two old mothers far behind, eavesdropping on their conversation.

The two chatted for a while and finally came up with something that Li Yun was interested in.

"I heard that after the princess came back from the palace, she vomited blood just after getting off the sedan chair. I'm afraid..."

The two spoke very quietly and looked worried.

"Hey, the emperor has always sent imperial doctors to see the princess, but it seems that there is no good prescription. I think that these imperial doctors are all in a bucket!"

"Neither can it be said that the princess is born weak and sickly, no matter how good the doctor is, it won't work, she can only pray for the bodhisattva's blessing.

"Poor princess, kind and beautiful, good for those of us, and exempted the fief's tax..."

Li Yun stopped, and there was no need to listen to the follow-up words. He thought of a way to get close to Princess Yongning!

Without further ado, Li Yun came to the main entrance of the Princess Mansion again, arched his hands to the two guards, and said, "Excuse me, please inform the two of them. It is said that Li Yun, a quagmire doctor, can cure the princess's illness and restore her healthy!"

The two of them were taken aback and looked at Li Yun several times. This person just rushed to the princess's mansion, but now he suddenly came back and said that he could cure the princess. Isn't he a liar?

But he has already claimed to be a wandering doctor, which makes it difficult for the two to judge whether it is true or false.

"Zhang Hu, look..." One of them looked at the other guard.

"Anyway, go report it to the butler first!"

Zhang Hu glared at Li Yun, "You better don't lie to us, otherwise you will have delicious fruits!"

Li Yun smiled faintly, acting like a fairy tale.

But he has short hair, no beard, and no whisk or fan. The three-piece suit was incomplete in ancient times. Naturally, he couldn't tell the truth.

Fortunately, the people here ignored his modern dress, otherwise, Li Yun's short hair would be enough to make people doubt whether he was a fugitive!

—Because in ancient times, parents who paid attention to the body, hair and skin, only criminals would shave their hair and serve as the army and exiled for 3000 li.

Not long after, a man in his fifties wearing a satin gown walked out, looking very anxious. After seeing Li Yun, he immediately asked, "You said you can cure the princess' disease?"

"Yes." Li Yun replied calmly, muttering in his heart, this person should be the housekeeper of the princess mansion, dressed in a good manner, and not bad at all.

As the old saying goes, the princess's butler is naturally extraordinary as the seventh-rank official in front of the prime minister's door. .

"Do you know what place this is?" The housekeeper asked condescendingly.

"Yongning Princess Mansion."

"The princess is the body of a daughter, and the emperor has always been very distressed by the princess's illness. You have to know," the housekeeper's eyes became more and more fierce: "The crime of deceiving the emperor is to punish the Nine Clan. I will ask you again if you can really cure it. Princess?!"

"If it's right or not, you'll know at a glance."

Chapter 605: Go to the main entrance

The butler's expression eased a lot, and he looked at Li Yun with suspicious eyes.

He doubted the origin of this quagmire doctor, but the princess's condition brooked no delay. When the imperial doctor was helpless, it seemed that he could only hope for the emergence of the genius doctor.

But what is this person's medical skills, you have to cross-examine it carefully!

Thinking of this, the butler had an idea in his heart, his face eased, and he said, "Since you are confident of curing the princess's disease, then come in with me!"

A smile appeared at the corner of Li Yun's mouth, and finally he could see the princess!

In other words, he was a little excited. He had only seen the princess's beautiful face from the window of the sedan chair on the street, but he hadn't even seen her figure.

Keke, no, what are you thinking about!

Li Yun laughed dumbly, the ancients' gowns were very thick, not to mention the princess, she must be wearing a thick and gorgeous long dress. It might be difficult to see the princess' figure.

"Um?"

Li Yun looked at the butler in confusion, and when he saw that instead of entering the door, he walked out instead, he couldn't help but asked in surprise, "Don't you go in?"

The housekeeper's face suddenly darkened, "You are a medical doctor, and you want to go in and out of the main entrance of the princess mansion? What a big face!"

Li Yun just understood now.

Although the front entrance of the ancient giants compound is very large, it is usually not used, and it is used to enter and exit from the side entrance.

The main entrance is only for welcoming important guests, everyone else will go to the side entrance!

"Ding, trigger the option event, please choose from the host:

Choice 1: Go to the main entrance, reward experience value +50,000, spirit +200, blue gift bag\*1, and Princess Yongning's favorability +50.

Option 2: Go to the side door, no reward. "

Um?

Li Yun was a little surprised, the system can also select events for him in the illusion.

However, what is the favorability of Princess Yongning?

Could it be that the system prompts him to leave this world of illusionism only when Princess Yongning's favorability is fully used?

"Are you going or not?!"

The housekeeper became annoyed. Standing on the steps, this man refused to move a step. He was really hateful and arrogant!

"Do not."

Li Yun spit out a word indifferently, and said: "I am confident that I can cure the princess's disease, and I have the face to go to the front door!"

"you!"

The housekeeper was furious and was about to scold Li Yun for not knowing how to promote, but suddenly saw his calm appearance, and his heart was suddenly shocked.

Is the person in front of you really a hidden genius doctor?

Only a genius doctor has such a calm demeanor and temperament!

Thinking of this, the expression on the butler's face eased again, and his face changed several times, making Li Yun amazed. He was indeed the butler of the princess mansion.

"Sir, please forgive me!"

The butler gave a slightly flattering smile, "Before you prove your identity, Xia Xia dare not walk through the front door for you, Mr., casually."

"Oh." Li Yun didn't turn around and left. He had to go through the side door when he had to.

The front entrance and the side entrance are just a matter of face, and the choice of kneeling down to the emperor being forced by General Xu is a different matter.

"but,"

The housekeeper showed a helpless expression, "I can take you through the main entrance, but Mr. Tired must not tell me about it, otherwise, if you can't cure the princess' disease, it will be a trouble for you."

Li Yun nodded and agreed. It is undoubtedly a very compelling thing to promote that he is going to enter and leave the princess mansion through the main entrance, just like some micro-businesses in modern society shamelessly go to the co-production of some business leaders.

Chapter 606: Princess mansion

Of course, not just micro-businesses, some successful businessmen, don't they also spend millions to have lunch with an M stock god?

These are all compelling things, Li Yun disdains to do it!

Under the leadership of the butler, he was able to step into the princess mansion from the main entrance. Zhang Hu and other guards looked at each other, but they could only pretend not to see it.

The front hall, the main hall, the gate of the rite, the four into the six courtyards, the pavilions, the servants are like clouds, the flowers and weeds, the antique...

The scenery along the way made Li Yun a little dumbfounded.

It will not be the royal princess of the feudal era. The place where she lives is absolutely magnificent. It is much better than the modern villas worth hundreds of millions. No, even a whole villa complex is worth hundreds of billions. Add up to this Yongning. Princess Mansion!

Royal luxury and nobility are vividly reflected in the princess mansion.

The butler took Li Yun to bring an ancient house and explained: "Mr. Li, you go and wait first. If you want to see the princess, I need to ask the royal doctor to verify your medical skills, otherwise it is absolutely impossible for outsiders to directly contact the princess's daughter. Body!"

Li Yun smiled and agreed to come down.

The words of the housekeeper are very ambiguous, but in fact, the so-called contact with the princess's daughter's body only refers to the pulse.

The ancients were very conservative. Girls who have not been out of the pavilion (referring to not being married) can never touch a man, nor can they use a finger.

Although it is not so strict in most cases, Princess Yongning, who was born in the royal family, should be an example of an unmarried girl in the world. Naturally, she must observe etiquette and cannot easily touch her wrists.

Going in and sitting down on a chair, Li Yun looked around, looking like a reception room, surrounded by mahogany boards as a screen, making it difficult to see what's inside.

Not long after, a maid served Li Yun tea. Li Yun waited for a while. He felt that many people passed by and seemed to have entered the room next to him. However, as a guest, he didn't ask too much, so he was always angry. Sit calmly.

After waiting for more than two hours, Li Yun drank tea three times before the butler finally appeared.

"Sorry, Mr. Li." The butler said apologetically, "After a little delay, I will introduce you to Yuyi Liu, this is Yuyi Zhang..."

There are a total of five imperial doctors living in the princess mansion for a long time, ready to see the princess at any time.

Li Yun looked at them, and there was nothing to say. They were all in their 50s and 60s, with extraordinary temperaments, but they all looked at him with suspicion, as if to say that this hairy boy actually uttered wild words and said that he could be cured. Princess?

"Everyone, please sit down."

The steward asked everyone to sit down. Soon, a few maids went to tea again and exchanged greetings before entering the topic.

"Since you want to study medical knowledge, the old man is also welcome." Yu-Doctor Zhang was upset, and he was asked by the butler to test whether a quagmire doctor is capable!

This still needs to be refined?

It's not that he looks down on the doctors of the rivers and lakes, but as the imperial doctor, he knows the world's medical skills well. Even at the Tiandan Gate, which is known as the genius doctors in the rivers and lakes, he has not been to the Imperial Doctor Zhang. !

Therefore, in the eyes of Yu-Doctor Zhang, there is no such thing as a quagmire doctor, they are all liars!

"Then I will ask Mr. Li."

Yu-Doctor Zhang was full of mockery of Li Yun's name, "What do you think of the theory that you can reconcile your qi and blood and never get sick?"

Chapter 607: Imperial physician

"Ding, the host made a choice (enter the princess mansion from the main entrance), and the reward (experience value +50,000, spirit +200, blue gift bag\*1, and Princess Yongning's favorability +50) has been issued!"

Li Yun frowned slightly, how come the system rewards are late?

"Ding, trigger the option event, please choose from the host:

Option 1: Let the doctors persuade them, reward Princess Yongning's favorability +20, all attributes +500, purple gift bag\*1, extra bonus: advanced knowledge of Chinese medicine.

Option 2: Talk nonsense, reward Princess Yongning with -15 favorability and -500 for all attributes.  
"

Huh?

Li Yun was very surprised. It was the first time he saw the option of attribute reduction. Could it be because he arrived at Xiantian and the system was updated?

However, both options are closely related to Princess Yongning's favorability. Li Yun probably guessed it when someone came in and out of the room next to him.

Glancing at the back of the red wood board as a screen, Li Yun cleared his throat and said, "The blood is rushed, and there is no disease. In my opinion, it is pure shit!"

"what?!"

Suddenly, a stone caused a thousand waves of waves, but the brothers of the imperial doctors were filled with righteous indignation, and even the people hidden behind the screen couldn't help being stunned.

"you!"

Yu-Doctor Zhang was trembling with anger, and could not speak for a long time while pointing at Li Yun.

The so-called qi-blood harmony refers to the relationship between blood and qi in the human body. Blood depends on the promotion of qi, and qi also depends on the supply of blood to function, which coincides with the cultivation of true qi.

But when applied to pathological knowledge, Li Yun totally disagrees.

"Attention, the \*\*\*\* I said is not a swear word, but a \*\*\*\*\* is to blame others for speaking or writing."

Li Yun smiled slightly and said, "Do you know why farts smell stinky?"

Everyone was surprised again, what the \*\*\*\*\* is this? !

Yu-Doctor Zhang blushed and said angrily: "The fart doesn't smell, isn't the flower smelly?! It's just nonsense, vulgar!"

The butler was full of black lines, thinking that he must be punished this time, and he actually invited such a person in through the front door.

"You're right, people smell bad, but flowers are fragrant, and food is fragrant."

Li Yun glanced at these imperial doctors indifferently, "Have you thought about why this is?"

Everyone was stunned.

Li Yun said again, "Some flowers smell fragrant, some people feel smelly, and the food is the same. Have you ever wondered why?"

"Isn't this taken for granted?" Liu Yuyi asked back, "People are born like this, nothing strange!"

"well said!"

Li Yun nodded in agreement, "Some people are born with stinky tofu, but some people feel appetite after smelling it. That's what they are born to do, right?"

The housekeeper looked confused, but saw that several imperial doctors fell silent, as if they had guessed what Li Yun wanted to say.

"Long gives birth to nine sons, each is different."

"Some people are naturally intelligent and quick-thinking, and some people are born in good health and can eat a large bucket of a meal."

"Therefore, we know that when we come out of the womb, we are born with certain things that are destined to be unchangeable."

Li Yun's words silenced everyone, and even the housekeeper showed a sad look. He had already guessed what Li Yun was talking about.

"Then you think the princess's disease..." Yu-Doctor Zhang hesitated, "It's inherently weak, so no matter how you treat your body, it can't be cured?"

Chapter 608: emperor

God knows how much effort the imperial doctors have made in the past 16 years to cure Princess Yongning.

But it's still useless. No matter what magical medicine is taken, no matter how well the princess's qi and blood is adjusted, it can't prevent her from becoming weak day by day. Even the doctors secretly judged that the princess could not live beyond eighteen. .

Li Yun said: "I haven't seen it personally, and I don't know what her illness is for the time being. But there is a saying that people can conquer the sky, and genetic diseases are not impossible to cure!"

The butler showed a surprised expression, and then asked in doubt: "The chicken is due to...a disease?"

"What kind of disease is this?" Several imperial doctors all looked at Li Yun.

"Well, we need to start with the fart."

"fart?"

Everyone continues to be stunned, how come back to this indecent thing again? Intense vulgarity!

"Yes, it's a fart!" Li Yun started talking nonsense: "The human body is a very delicate creation. What we feel smelly must be harmful to our human body, and the fragrant thing must also be good for our body and mind-most of the time. That's it.

Why is this so? Why do people know this? That's because we have genetic information in our bodies!

What? What is genetic information? I can only answer..."

After talking nonsense, Li Yun used high school and university biological knowledge, combined with some superficial knowledge of Chinese medicine, to give lectures to this group of imperial doctors, and they were stunned for a long time, not knowing what to say.

What human body has billions of tiny pieces, what human body has genetic information, what will happen in the wedding night of the bridal chamber, and so on.

—Li Yun was worried about the people hiding behind to watch, so he deliberately didn't say too rude, only talking about the wedding night in the bridal chamber.

All kinds of novel nouns make the imperial physicians succeed in bewildered.

At this moment, a few people walked out from behind the screen. Among them, a man in his forties with extraordinary temperament asked in a deep voice: "Then do you know how to cure my princess?"

The doctors were startled at first, and then they all knelt to the ground, shouting to the emperor.

The housekeeper was frightened and sweaty. When did the emperor come to the princess mansion? He didn't even receive the message!

But after he noticed that Li Yun just stood up and didn't kneel to the ground, the housekeeper was frightened again!

"knowledge."

Li Yun's tone was flat, and he didn't have the excitement of facing the emperor. After all, the people here are just illusions, as long as they cope well.

However, Li Yun still observed this man. He was very handsome and had the mature charm of a middle-aged uncle. He was a girl killer.

Judging from his eager eyes, it is estimated that Princess Yongning is a good father who really cares and hopes that his daughter will be healthy as soon as possible.

It's just that Li Yun was surprised. He thought the person hiding behind the screen was the princess, but he didn't expect it to be the princess and her father.

"Ding, the host made a choice and successfully convinced the doctors. The reward (Princess Yongning's favorability +20, all attributes +500, purple gift bag\*1, additional reward: advanced knowledge of Chinese medicine.) has been issued!"

With another 20 favorability points, Li Yun smiled slightly. It is estimated that after he is cured, she will be able to achieve a favorability rating of more than 90 points. Whether or not she can perform this illusion depends on that time.

However, does this illusion recognize Li Yun's recovery pill? Doubtful!

"Bold!" The Ouchi guard standing on the emperor screamed, and pointed at Li Yun with the hilt of the knife and shouted: "When you see the emperor, don't hurry up and kneel!"

Li Yun frowned slightly, not because of the Ouchi guard, but because he noticed something.

Chapter 609: Delicate and fragile

There is another person behind the screen. Judging from that person's sudden rapid breathing, the other person seems to know Li Yun and is worried about him?

"Get down."

Before Li Yun spoke, the emperor waved his hand faintly and signaled the Ouchi guard to step back.

Li Yun glanced at the emperor and found that his expression was calm, but his eyes seemed to contain an indifferent killing intent, as if he was waiting for Qiuhou to settle accounts.

"Sure enough, it's not easy to be the emperor."

Li Yun estimated that if the princess is cured, it is better to say that if the Lord is not cured, the Ouchi guards and the guards of the princess mansion will probably be hacked to death on the spot.

It is a pity that the emperor portraits left in the history books are all artistic, and it is impossible to recognize the emperor in front of him.

But Li Yun wasn't about to have a dispute with a man of illusion construction, so he said directly: "It shouldn't be too late. I will see the princess now, right?"

"Okay." The emperor nodded, stretched out his hand and made a please gesture, which surprised the butler and others extremely.

This kind of treatment, the emperor would only do this when he faced a former teacher!

But behind the screen, the butler was even more surprised: "Princess?!"

Li Yun saw the princess who was sitting in the sedan chair with a shy expression.

She just sat quietly on a chair covered with soft animal skins, wearing a pale red, festively ancient skirt, embroidered with plum blossoms on the skirt, and a delicate orchid on her head. hairpin.

The princess lowered her head, her small hands were tensely clenched, and her hands were white and very small. Perhaps because of her years of illness, Li Yun saw a delicate and fragile temperament in her, as if she were a fragile vase. A little touch will turn into dust and dissipate.

[Quiet is like a beautiful flower shining in the water, and the action is like a weak Liu Fufeng. ]

To this beautiful girl like Lin Daiyu, Li Yun couldn't help feeling compassionate and asked easily: "Are you Princess Yongning?"

".....Um."

The princess's voice was small and small, like a lightly flicked string, and the slightly trembling voice seemed more and more delicate.

Moreover, the princess was also very shy, she kept her head down and dared not look at Li Yun.

The emperor walked to her and took his daughter's hand to comfort him: "Yongning, don't worry, the emperor father has found you an invisible genius doctor, he will definitely cure your illness, don't worry!"

Li Yun looked at it with emotion, pitying the parents of the world, and the emperor is the same.

It's just strange that Princess Yongning just raised her head, glanced at the emperor with complicated eyes, and quickly lowered her head without speaking.

It seems to be sad.

"Princess, you..."

The housekeeper was very puzzled, "Didn't you just get up? I was thinking that Mr. Li would wait a few days to see you again. Is the princess better now?"

"Thank you Uncle Wang, I..." Princess Yongning hesitated before saying, "It's fine now."

"Great!"

The emperor was very pleased and comforted her a few more words before calling Li Yun to come to the princess for a pulse.

"Yongning rest assured." The emperor smiled: "Although Mr. Li is also a man, he is a doctor, so men and women are not in the way. You can stretch out your hand and give him a pulse."

Princess Yongning nodded gently, and a maid took out a handkerchief and put it on the table before she put her hand on it.

This detail... worthy of being a princess, Jin Zhi Yu Ye's delicate body can't directly touch the table.

Li Yun complained, and sat next to the princess, putting his hand on her slender and white wrist.

#### Chapter 610: Dying

"what!"

Princess Yongning touched the young man's hand for the first time, and she couldn't help but screamed softly. The voice was really Huang Ying crowing, soft and soft, it was really nice.

Li Yun couldn't help but raised his head and glanced at her, and he happened to meet the princess's panicked gaze. From the look in his eyes, it can be seen that the princess has never been so close to a man of the same age, or even a man under thirty. Extremely flustered and shy, like a frightened little rabbit.

Fragile, shy, uneasy, and a touch of closeness.

The reason for the closeness may be the effect brought by 70 points of favorability.

"Princess, don't be afraid."

Li Yun comforted her softly. This princess Yongning's facial features are very delicate, but her small slap face, small nose, small lips, and white skin can arouse a man's desire for protection. I can't wait to hug her. The gentle comfort in her arms calmed her inner tension and anxiety.

".....Um."

Princess Yongning's voice was as shy and soft as ever.

Li Yun put his hand on her wrist and took her pulse carefully.

It's not that he pretended to be forced, but the system just rewarded advanced knowledge of Chinese medicine, which just happened to be useful!

Soon, Li Yun drew a shocking conclusion from the princess's pulse condition.

"Princess Yongning... is a dying person!?"

The pulse rate is disordered, the pulse shape is scattered, the three to five are not adjusted, and the repetition is only chaotic.

All this shows that Princess Yongning has exhausted her lamp and her heart is beating chaotically, maintaining her final vitality.

Generally, people with this pulse condition usually die within half an hour.

But when Li Yun looked at the princess in front of him, his cheeks were flushed, his eyes flowed, and his small hands were clenched. How could he look like a dying person? !

"Strange, isn't the knowledge of Chinese medicine given to me by the system? Or is it because I am in the world of illusion?"

Seeing Li Yun's suspicious expression, the emperor's face immediately darkened, and he made a calm look, and asked the Ouchi guard to separate him from the princess. Then he asked, "Mr. Li, how is the princess's illness?"

Li Yun was helpless. The ancients said that companionship is like companionship. This is true.

He hasn't said that he cannot be cured, and the dog emperor will turn his face and deny him.

"Ding, trigger the option event, please choose from the host:

Option 1: Suddenly kill Princess Yongning, rewarding evil value +10000, all attributes +1000, the host can directly leave this illusion world, but it will bring unpredictable consequences.

Option 2: Propose to Princess Yongning, reward Princess Yongning with +30 favorability, purple gift bag\*1, the host can leave this illusion world.

Option 3: Use beautiful male tactics to win the favor of the princess, no reward, the host has the probability to leave the illusion world. "

Seeing these three options, Li Yun's lips twitched. What the \*\*\*\* is the proposal? Does anyone propose to a woman who has only met a few times?

Er, Xia Feiyao, Li Yun's young wife, was accidental. She was caught in the medicine, not counting.

"How on earth?!" The Dog Emperor asked directly, even Mr. Li was gone.

"There is a difference between the outside and the inside." Li Yun said lightly.

"What's the meaning?"

"It means that I can save, but whether I can save it depends on the right time and place."

Li Yun talked nonsense, in fact, it was to see whether this illusion technique recognized Recovery Pill.

The emperor's face was darker, and he said solemnly: "You come out and talk to me."

After that, he signaled the Ouchi guard to go out with Li Yun. Obviously, the dog emperor was uneasy and kind, and Li Yun really wanted to slap him.

"Father!"
