

## Godly Choice 621

Chapter 621: Professors of the Department of Archaeology (Part 1)

Zhonghai City.

The leader of the national emergency response team, Liao Hua, ate dinner and sat on the sofa to read the newspaper for a while. Recently, he always dealt with weird incidents, which made this tough team leader a little tired.

"Jingle Bell!"

As soon as he sat down, his cell phone rang, and Liao Hua suddenly had a bad feeling in his heart, and his eyelids twitched.

After seeing the caller clearly, Liao Hua frowned.

"Li Yun?"

"I dug 28 ancient tombs."

"What?!"

Liao Hua jumped up directly from the sofa, "Did you dig an ancient tomb?! Or twenty-eight?! What are you doing if you have nothing to do?! No, you are short of money? Wait, now you are caught?!"

"Ahem, it's not... nor can it be called an ancient tomb."

Li Yun's voice on the phone was a little weird, saying: "Explain this to you. The owner here has lived for four hundred years, so it can't be called an ancient tomb. It can only be said to be an ancient city. Do you understand this explanation?"

"...I suspect that there is a problem with your brain, or that my ears have misheard."

Liao Hua was stunned. Who has lived in the ancient tomb for four hundred years? What ancient city? After the Industrial Revolution, how can there be ancient cities in the modern world?

Unless it is a film and television city built specifically to make movies and attract tourists.

"I didn't know it clearly after meeting with you for a while. In short, I met a man with the six magic gates here. You can bring someone to see. By the way, find an archaeological expert. It's best to rescue some antiques. ."

"All right, where are you? I'll contact you right away!"

After hanging up the phone, Liao Hua sighed, and he knew that Li Yun, this guy, must be okay to call him!

But when he arrived with some professors and graduate students from the Department of Archaeology of China Overseas University, as well as several leading archaeological experts in the industry, he felt that everything was worth it!

"These murals...are from the Tang Dynasty?!"

After an old professor named Liu entered the Angri Chicken Tomb, he was so excited that he held a magnifying glass with a trembling hand and carefully observed the murals. He didn't feel anything gloomy in the tomb.

"My God, boss!"

A graduate student exclaimed, and the flashlight light swept the corridor with excitement: "This is the most complete ancient tomb I have ever seen. It is more complete than the tomb of Prince Yide. These murals are vivid and well-preserved. NS!"

"The maids, guards, horses...beautiful, these murals are really amazing!"

"Quick, take pictures! The color of these murals will not change after the air circulates!"

Princess Yongning put her arm around Li Yun, curiously looking at the group of short-haired, excited people holding strange things, then blinked at Li Yun, as if she was asking, husband, what are these people doing?

Li Yun couldn't explain the meaning of archaeology, so he had to say: "They are similar to the tomb thief, but they are official and regular!"

"Oh~~" Princess Yongning nodded, she still knew the tomb thief.

After these professors and graduate students entered the ancient tomb, when they saw the destroyed coffin, they all jumped in pain and accused Li Yun of not being careful.

"This is not my fault!"

Li Yun spread his hands, "This is the owner's corpse in the coffin turned into a zombie!"

Everyone looked like you thought I was a fool. Professor Liu even directly reprimanded: "Where are there zombies in this world!"

Li Yun shrugged and pointed to the hole and said, "If you don't believe it, you can go in and have a look?"

Chapter 622: Professors of the Department of Archaeology (Part 2)

"what is this?"

The professors and students of the Department of Archaeology walked through the long underground hole, and a magnificent artificial underground hole suddenly appeared in front of them. They had already scared them. When a student illuminated with a flashlight to see the ancient houses in the dark below, When there was the shadowy figure, the flashlight fell directly to the ground because of the craftsmanship trembling with fright.

"It seems like a city? How could it be possible!"

"I also saw people...no, it's pottery!!!"

The professors reacted, and a few flashlights shone, and suddenly everyone's mind buzzed, and the scene in front of them completely frightened them!

An intact ancient city, rivers, wine shops, shops, palaces, bridges...

What is even more shocking is that the life-size pottery sculptures, pedestrians, soldiers, bosses, guests, beggars, are vivid and vivid, showing all kinds of postures, which are so exquisite that you can't look away.

for a long time.

Li Yun smiled and said, "Okay, I've come back to my senses, this city already has a master!"

Princess Yongning's face blushed. In fact, this city belongs to her, not hers.

As a royal princess, Zhu Shue naturally knew that after the collapse of the previous dynasty, the things left behind, including the palace, palace, princess mansion and other houses, were naturally seized by the later dynasties, and even the concubines and princesses in the palace would also be turned into slaves. membership.

The tomb that her father built for her used the tax and silver of the time. Is it her belongings?

Everyone was unclear, so Liao Hua smiled helplessly: "I'll talk about this later. I promise to give you a satisfactory distribution plan."

Li Yun nodded, even if he couldn't go back to this tomb all, but at least he would leave some dowry for his princess wife!

Professor Liu and others are very suspicious. Why does Li Yun want the things here? Reward him for discovering this ancient tomb?

Seeing the doubts of this group of people, Jin Liuli snorted, patted her chest, and said triumphantly: "This tomb of the sun, moon and stars can be retaken, and we still have to rely on the efforts of me and the villain. Do you know? ?Humph!"

Alice has left with a group of mercenaries.

She is the princess of country Y. When Liao Hua and others saw her, she came to the tomb as well. Although Li Yun was able to deal with and explain in the middle, it was still very bad. So she obtained the consent of Princess Yongning and chose some funeral objects as a souvenir. Depart soon.

Toothpick also left. He and San Ye were warned by Li Yun that they would not go to the tomb for the rest of their lives, and accumulate good deeds, so as not to be sent to the eighteenth \*\*\*\* after death.

After seeing Li Yun's greatness, and seeing so many zombies with his own eyes, the two of them naturally didn't dare not listen.

Li Yun saw that their attitude was fairly sincere, so he gave San Ye a small recovery pill so that he could enjoy his old age-after being tortured by the curse for so many years, San Ye estimated that he would only have a few years of life left.

Wu Maoping also left, and he had no face to stay on.

Only Jin Liuli stayed and followed Li Yun all the time. Princess Yongning was not stupid, she had already seen what she wanted for Li Yun.

"Let's go down."

Li Yun hugged Princess Yongning and leaped off the platform, followed by Jin Liuli, and the others could only climb down the rope.

After entering the city, the group of professors and graduate students in the archaeology department became more excited. Li Yun suspected that these old professors would just hang up here without breathing.

Fortunately, they are all professionals, no matter how excited they are, they will not destroy the antiques here.

To be honest, every brick here is an antique and has great research value!

Chapter 623: You have a good father

"As long as this city is announced, it will definitely cause a sensation in the world!"

"Oh my God! The preservation here is so perfect, not as perfect as an antique, but as if someone had just built it!"

"My mother, this Tang Sancai ceramic manufacturing technique has long been lost, and I didn't expect to see it here!"

"This city should belong to the Ming Dynasty. Look at the gate of this government."

Everyone went all the way, and the professors of the Department of Archaeology were excitedly talking.

This group of people will probably never know that the archaeological value of the city is very high, but in fact, there is a princess who lived four hundred years ago. She herself knew everything at that time, even the secret palace. She also knows a lot of related things.

Many things worth studying in the archaeological world are just ordinary things for Princess Yongning, not worth mentioning at all.

"Yongning, do you feel uncomfortable in your heart?" Li Yun looked at her, worried that she would be upset because of her being taken away.

Although Li Yun has discussed with her.

Zhu Shue shook his head and said in a low voice: "The Ming Dynasty has been destroyed, and the world is no longer owned by the Zhu family. Everything here... is naturally inherited by future generations."

"My father had already told me this, he said," Zhu Shue's eyes flushed, "If the Ming Dynasty is not there, when I wake up, I will find a way to take away some funerary objects. He hid it in the palace here. Under the pillar."

Jin Liuli's eyes also turned red, and couldn't help but comfort him: "You have a good father."

Li Yun knew that Zhu Shue was probably experiencing the most painful thing in the world. When she woke up, four hundred years have passed. It can be said that Zhu Shue has nowhere else to go except relying on Li Yun.

To comfort her, Li Yun pointed to the Tao Su on the street and smiled: "Look at Yongning, isn't this you?"

On the street, it was Princess Yongning looking out from the sedan chair. After Zhu Shue saw her pottery sculpture, her little face was flushed with shyness again, and she said, "This, this seems to be when I returned to the princess mansion from the palace. , Because there was someone at that time, ah, it was him!"

The shy princess pointed to the drooling rich elder brother, "His name is Zhou Liang. After seeing me, he showed the expression of...the disciple, so he was held by my guard and asked me to punish her.

It's just that I don't think I need to be punished so, so I let him go.

Unexpectedly, this incident would spread..."

Li Yun smiled and said: "Then, in the capital at that time, the kindness of Princess Yongning was rumored, saying that the princesses are more beautiful?"

Zhu Shue blushed and hid behind Li Yun.

Jin Liuli glanced at him and hummed: "I think, if you are a pervert, you will definitely show a more unbearable expression!"

"It will not happen."

Zhu Shue defended Li Yun: "The husband is very good, he is not that kind of..."

At this moment, she thought about Li Yun kissing her in public before, and her tone couldn't help but hesitate.

"I said this big villain is a pervert, right? Hmph, princess, you must be careful with him!" Jin Liuli grinned and gave Li Yun a blank eye.

Zhu Shu'e blushed and nodded, and said naturally: "Sister Jin, don't say that. In the future, after we get married, we will be together..."

"What? Marry, marry, add a family to this guy?!!!"

Jin Liuli's lovely round face immediately turned red, and after a long period of sluggishness, she began to hammer Li Yun's chest with her little pink fist, like a little tiger who became angry and angered.

Chapter 624: Yongning Princess City

Li Yun grabbed Jin Liuli's hands dumbfounded, and glanced at Zhu Shu'e apologetically. Li Yun knew that apart from princesses, there were few ancient concubines who could accept concubines, but Zhu Shue took the initiative to accept Jin Liuli. Is it because of lack of security? ?

"Let's go to the palace first."

Putting these things aside for the time being, Li Yun and the professors of the archaeology department came to the palace again.

In front of the Jinluan Temple, the tragic post-war still remained. Thousands of corpses were scorched by the sky thunder and fell to the ground, their limbs were broken, and the machete and spear fell to the ground. The tragic battle left these professors dumbfounded.

"These are..." Professor Liu looked at the corpses dully. From his professional perspective, these people have been dead for at least three hundred years, but this battle seems to have happened not long ago, very weird. !

"Zombie."

Li Yun said two words faintly, and the excited group of archaeology professors and graduate students closed their mouths. Some even shuddered.

It turns out that there are really corpses in the ancient tomb!

Thinking of their ridicule of Li Yun before, this group of people was very ashamed.

"Everyone!"

Liao Hua stood up and said solemnly: "You are in contact with all things beyond common sense, zombies, Taoism, evil spirits, ghosts, etc.!"

The professor and the students looked at each other, and their reason made them unbelievable, but the situation of the thousands of corpses in front of them after the war made them have to believe.

Because the three views of this group of people have been greatly shaken!

"...This is also the reason why I asked you to sign a confidentiality treaty before I came. Until this matter is perfectly resolved, everything here must not be revealed, otherwise, not only will you be dangerous, this place may also be affected by some people. destroy!"

Liao Hua had already understood what happened. People from the Six Demon Gates peeped at this place, and maybe someone would come back to seize the cemetery.

Although Zhu Shu'e was rescued by Li Yun and the formation dissipated, this ancient tomb was of little value to the people of the Six Demon Sects.

"I don't know if I can go public in the future?" a student asked in a weak tone.

"certainly!"

Liao Hua nodded, "This tomb is not only a glorious symbol of Huang Xuan's ancient civilization, but also a cultural heritage of all mankind. Maybe in a few years, it will become a famous attraction comparable to a pyramid!"

"Yongning Princess City!"

Li Yun said suddenly, seeing everyone looking over in surprise, and repeating it again: "This city is called Princess Yongning. The right and honor to excavate and publish this ancient tomb can be given to you, but it must be called Princess Yongning. become!"

After a pause, Li Yun pointed to the Jinluan Temple: "There is a general named Xu Tiande inside, and his deeds will also be passed on!"

"General Xu Tiande?"

The professors with good history knowledge immediately understood that this was the tomb of the Ming Dynasty Tianqi period, or the city.

Liao Hua smiled and said, "You discovered this tomb by Li Yun. You don't want this kind of honor right now? It can make you famous all over the world!"

"No, I don't care about this." Li Yun shrugged. He believed that he would be famous in the future, and let him be famous for archaeology.

This group of people will work here for several years, carefully preserve the things here, this honor is very suitable for them!

"it is good!"

With a wave of his hand, Liao Hua decided to say: "This city and the 28 ancient tombs will be named after Princess Yongning!"

He looked at the shy and happy little girl. She must be the Princess Yongning who has lived for 400 years, right?

Chapter 625: A pile of gold and silver jewelry

"Husband, I..."

Zhu Shue held Li Yun's big hand tightly, his clear eyes were full of excitement and joy.

She understood that the reason Li Yun did this was to commemorate her identity as Princess Yongning, so that her existence would not be forgotten in history.

Li Yun smiled slightly and said, "Well, don't get too excited, your body hasn't been well adjusted yet."

"Um."

Zhu Shu'e took a few deep breaths. There was no fluctuation in front of the barren, and she had been sick all the time. In addition, she had been sleeping for four hundred years, which caused the princess to develop very slowly now.

When everyone entered the Jinluan Temple, they found that there was a shriveled corpse kneeling inside, wearing armor, bowed heads, and facing serenely, bowing to the coffin in front of the dragon chair.

This person is General Xu Tiande.

Zhu Shu'e's eyes were red again, and she also understood that she would not come back here for a long time. It is best to say goodbye now.

"Father, Yongning has left with your husband, you and your mother will be happy in the nine heavens, and my husband and I will be happy too!"

Wiping her tears, Princess Yongning smiled at Li Yun and said, "Husband, let's go."

Jin Liuli's little mouth pursed again, muttering that the big \*\*\*\* ghost would make girls cry.

Hand it over to Liao Hua. Li Yun and the two girls walked out of the Golden Luang Temple. In the memory of Princess Yongning, they found a very special pillar in the palace. After digging it out, there was a big golden box inside, and it was not locked. .

When you open it, you can see that it is full of gold and silver treasures and precious jewelry. Any one is worth ten million yuan.

These are all antiques!

And they all came from the royal family, and they were buried by the emperor's father-in-law. They were much more expensive than the so-called funeral objects!

"Wow, it's so beautiful!"

Jin Liuli cheered excitedly, and stretched out her hands to stroke them, her small smile blooming.

Probably no woman can resist the temptation of beautiful jewelry.

"Sister Jin." Princess Yongning held up a pile of jewelry with both hands, and said to her: "You want some more, don't you?"

"No, no, no!"

Jin Liuli waved her hand quickly, and said embarrassedly: "I can't ask for your things. This is what your father left for you. How can I ask for it?"

"Take it, I can't use that much, my husband said, he is actually very rich!"

Li Yun couldn't laugh or cry. In the eyes of some modern independent women, they disdain to spend their husband's money.

But Princess Yongning is different. For her, marrying Li Yun is tantamount to being a whole with him. Everyone is prosperous, and every one is damaged. The husband's money is her money, and it is justified to spend it.

The two women declined for a while, and Li Yun said with a smile: "Xiao Liuli, take a few pieces of jewelry. It's not a problem. Yongning can't use that much."

".....Ok."

Jin Liuli blushed and picked up a few pieces of jewelry. She didn't admit defeat to Princess Yongning, but wanted to have a better relationship with her before accepting the gift.

"Humph, don't call me Xiao Liuli!" Jin Liuli turned his head awkwardly.

"Why are you suddenly angry again? Is Xiao Liuli still dissatisfied?"

"Ahhhh, you badass, you are not allowed to call! I am not young!"

"Not young? Didn't you say that you are only sixteen years old?"

"The princess is also sixteen! Why don't you call her Xiao Yongning?"

Princess Yongning smiled, with a little shame on her small face, but more of her yearning for future life. Her husband cured her illness. From now on, she will assume the responsibilities of her wife, help her husband and her son, and raise her eyebrows.

## Chapter 626: Give the princess instant noodles, a death sentence

Wake up from the tent the next day, Li Yun smelled a very special fragrance.

It seems that two beautiful girls' body scents are mixed together, forming a kind of fascinating, enough to arouse the virgin Yuxiang of the most violent flames of a man in the morning. The combination of two body scents is enough to make people crazy.

Li Yun opened his eyes and saw Jin Liuli, who was asleep with her bright red mouth, lying on his body, separated by two sleeping bags, only stretched out her arms around Li Yun and leaned her head against him. On his chest, the saliva that was sleeping sweetly came out.

Turning around, there is another girl in the tent, Princess Yongning.

Her sleeping face looked very quiet and delicate, her cheeks were a little blush, her breathing was steady, her long black hair spread out, and the appearance of the sleeping fairy looked very beautiful.

After kissing Jin Liuli on the forehead, Li Yun patted her sleeping bag:

"Wake up, Xiao Liuli, Yongning, it's time to wake up, the sun is all basking!"

Last night, Jin Liuli made an excuse for fear of zombies, so he blushed and got into Li Yun's tent.

As for Princess Yongning, she is even more inseparable from Li Yun now, for fear that Li Yun will step out of her sight, and of course she will also sleep with him.

"Well."

Princess Yongning woke up soon, and when she saw Li Yun, her face blushed and she hurriedly got up.

Jin Liuli was much more scornful, and her little head burrowed into her sleeping bag.

"Husband, let me change your clothes for you."

Princess Yongning blushed and said, she was wearing a white pajamas, her slender neck was white and delicate, and her snowy skin was so tender that she could see the blue blood vessels, as if she would get a red mark when pinched.

"No." Li Yun refused. Princess Yongning's already raised hands froze, and she lowered her head in a loss, "Husband, husband, is there anything Yongning did not do well? Tell me, Yongning must..."

"What are you thinking about!"

Li Yun laughed dumbly, put his arms around her slender waist, and kissed her on the forehead:

"Modern society has fallen out of the old one. We get along normally, just like ordinary couples."

"Um."

Princess Yongning was happy now and gave Li Yun a sweet smile.

After waking up the sleepy little girl, Jin Liuli, Li Yun cooked a portion of instant noodles for the two of them, plus a snack for each, right for breakfast.

Jin Liuli complained while eating free food, "What a simple breakfast, I doubt what you meant for the princess to eat these breakfasts, hum, it is definitely a sin for the Nine Clan to put it in ancient times!"

Give the princess instant noodles, a death penalty!

This thought flashed in Li Yun's mind and couldn't help laughing.

Princess Yongning quickly said: "In fact, it's delicious. This thing called instant noodles is amazing. As long as you soak in hot water, it will give off a good smell. If you can have such food in the march, it will greatly reduce logistics. Guaranteed!"

Li Yun and Jin Liuli were taken aback. The princess was indeed a princess. They actually saw so many problems from a bucket of instant noodles.

"What, what?" Princess Yongning lowered her head embarrassedly, "Husband, am I wrong?"

"That's right." Li Yun squeezed her blushing face and smiled: "It's just not accurate. The modern army has better alternatives. You will understand when I take you to the city. "

In the barren mountains and wild ridges, Princess Yongning hasn't really seen modern society yet.

After breakfast, the three bid farewell to Liao Hua and the others, and walked towards Fanyang Town together.

On the road, Li Yun was carrying Princess Yongning on her back. Although she was already in good health, she was still very delicate and it was too difficult to walk through the mountains and forests.

Chapter 627: Modern knowledge of the princess (part 1)

Back to the town, retrieve things from the hotel, take a car to the county seat, from the county seat to the city, the three people took a taxi and rushed towards the airport.

Since entering the town, Princess Yongning's eyes have not been used enough, she has been looking at the strange world in surprise.

The weird iron box ran around, making a huge roar.

The inexplicable, but round stone pillars, there are still many threads hanging on the pillars, first used to dry clothes.

There are also square buildings with solid and flat feet, like huge stone slabs dug from a mountain road.

"Husband, is the iron box a fairy in it?"

—Not a fairy, the power inside is similar to boiling water (chemical energy is converted into mechanical energy).

"Husband, it's a long stone road. How many masons does it cost?"

—Because it is a cement road.

"Husband, why do people hold a flat object in their hands, is it the wat board used by the Shang Dynasty?"

--mobile phone.

"Ah! Who is it? What a loud voice."

Li Yun smiled and said, "Yongning, it's called broadcasting. It's a technology that amplifies the sound. Just like you make a horn with your hands, the sound will become louder, right?"

Princess Yongning blushed, ashamed of her ignorance.

But her husband wronged her, so she wouldn't use her hands to make a loudspeaker to shout, and she would be scolded by her mother.

Arriving at the airport, Princess Yongning saw another amazing thing. Those huge iron monsters had wings like a bird, as if they could fly?

Sure enough, after a while, Princess Yongning, who was a little disturbed sitting beside Li Yun, heard a roar. She immediately turned to look and found that the iron bird had been swooping down from the air, scaring her pale face and holding tightly. Li Yun's hand.

"Princess, what's the matter with you?" Jin Liuli looked at her curiously. When an ancient person saw these magical modern things, it was inevitable that he was curious and shocked.

"I, I." Princess Yongning patted her small chest without ups and downs, and said in shame: "I thought the iron bird had fallen, because my husband said that there are many people sitting inside the iron bird!"

"This is called an airplane." Li Yun corrected her call, and clicked on her little nose, making Princess Yongning even more shy: "Well, flying chicken, flying iron rooster, right?"

"Ha ha ha ha!"

Li Yun and Jin Liuli couldn't help but laugh, and the person next to them also laughed, thinking that this little girl was talking silly and cute.

"The country buns from nowhere dare to come by plane!"

Amidst the laughter of everyone, a ridiculous voice suddenly came in, which looked particularly harsh.

Princess Yongning didn't understand Tubaozi, but she probably knew that this was a satirical term used by the city people to ridicule the country folks.

Therefore, the humiliated Princess Yongning lowered her head ashamed and did not dare to speak, for fear of embarrassing her husband.

Li Yun raised his eyebrows, how come there are 'aristocrats' who are consciously superior?

Looking at the man, she was a forty-year-old lady with a full-body brand, wearing bright lipstick, but her face was covered with traces of hyaluronic acid.

"What are you looking at?!"

When the lady saw Li Yun looking over, she immediately glared at him: "What is it that I haven't seen a famous brand? Fortunately, I am sitting in first class when I wait, and I can't sit with you

people with swollen faces and fat people. Otherwise, I won't be stunned by the smell of earth on you!"

"what."

Princess Yongning exclaimed, becoming more ashamed, and sniffed her body quietly to see if there was any smell.

Chapter 628: Modern knowledge of the princess (part 2)

She was kept in a crystal coffin for four hundred years, and she woke up without a bath. Does it really taste great?

"You only have the taste!"

Jin Liuli is not as passive as Princess Yongning. She has a straightforward personality and can't stand the grievances the most. She directly retorted: "Seeing that your face is full of traces after plastic surgery. You must be fifty years old? Huh, she is still dressed up at fifty. You have to show off, do you think you are a girl like us? Shameless!"

Everyone was stunned, this little girl really dare to say!

The lady with a face full of hyaluronic acid was so popular, she pointed her finger at Jin Liuli and cursed: "Do you have a tutor for this stinky girl? How about your grown-up?!"

"Ding, trigger the option event, please choose from the host:

Option 1: Give a lesson to the lady and reward the white gift bag\*3.

Option 2: Slap her face, reward small-sized Jidan, Peiyuandan\*1 (Zhu Shu'e limited), white gift bag\*3. "

A faint smile appeared at the corner of Li Yun's mouth. He stretched out his hand to hold Jin Liuli, and smiled at the lady: "I don't know what the eldest sister is called? What company do you work for now? What is the monthly salary? I can sit in the first class, and I am sure of the monthly salary. Has it exceeded 30,000?"

Everyone was taken aback for a moment, and they all showed expressions of watching the show. Judging from Li Yun's provocative and provocative words, the two sides seemed to want to compete against each other!

"Thirty thousand?"

The lady sneered: "You are not qualified to know my name, but I am in a good mood today, so I will show you what real life in high society is like!"

As she said, she showed her handbag: "You see it? Louis Vuitton's MYLOCKME series, don't you understand? Haha, you don't know if you want to come, Louis Vuitton is abbreviated as LV!"

Li Yun smiled slightly, indifferent, but the women around him showed envious expressions.

"The MYLOCKME series is a boutique series, LV itself is expensive, and the MYLOCKME series is even more expensive!"

"How much is the price? I heard that an ordinary bag starts at 50,000 yuan?"

"One hundred thousand is definitely not available, and there is no discount. Last time I went to a classmate's house, I heard it was about three hundred thousand."

The lady showed a smug expression and pointed to the necklace she wore on her neck again, "Helen Mirren, do you know how much it is?"

Most people expressed doubts, but the person who knew the goods exclaimed and reported a number:

three million!

The waiting hall is quiet. For most people, millions of jewelry may have been seen, but there are very few people who really own them.

Such people are beyond their social circle and belong to the upper-class society that can only look up and fawn.

"Humph!"

The lady snorted disdainfully, "Can I afford these jewelry with a monthly salary of 30,000? You people, you are despised by a slightly higher salary, but you don't know how good a part-time job is, you can only work for me? Employees? Can there be a boss and rich?"

You are still not happy to say that you are a bunny. There is no way. I have to blow your self-confidence and let you know that there are so-called people outside the world, there are outsiders and there are heavens, understand? ! "

Everyone was very embarrassed. The lady was like their boss, and the reprimanding made them unable to raise their heads, and the aura was too strong!

"Don't understand."

Li Yun's tone was indifferent, holding Zhu Shu'e's little hand, and showing her white as jade, slender and graceful hands in front of everyone, "I am a soil bun with little knowledge, but my wife was given a jade bracelet by her father since she was a child. It seems pretty good, does any of you know how much it is worth?"

Chapter 629: Peace bracelet

Princess Yongning blushed, and even the bases of her crystal-clear and small ears became red.

She knows that women in the modern world are very open. It can be seen from the fact that some girls have exposed thighs and wear black stockings.

But Li Yun showed her wrists in front of many singing men at the airport, and still made the conservative Princess Yongning extremely shy, struggling quickly, took off the jade bracelet and handed it to Li Yun. She herself hid her hand and did not dare to give it. People watch.

"Uh, sorry."

Only then did Li Yun come to his senses, his little wife was very conservative.

Zhu Shue shook his head and whispered: "My husband doesn't need to apologize to me."

"it is good."

Li Yun smiled and showed her jade bracelet in front of everyone.

The lady was stunned, the whole body of this jade bracelet was white, delicate and transparent. Judging from the quality and color of the jade and the workmanship, it was at least 500,000 yuan.

Everyone is also whispering, but jade bracelets and jewelry are very difficult to price, and there are very few people who know the goods.

Therefore, no one dared to quote the price of this jade bracelet for a while, fearing that he would be ashamed of not reporting it correctly!

"Does anyone know how much this jade bracelet is?"

Li Yun said loudly, attracting the attention of a woman wearing sunglasses. She pulled down her sunglasses and took a closer look, suddenly surprised.

Jin Liuli gave Li Yun a roll of eyes, this guy would just show off!

Li Yun asked a few more times, but no one dared to stand up.

The lady couldn't help choking: "Okay, I know that your jade bracelet is valuable, worth tens of millions, and it's a treasure that money can't buy. You win this time!"

She conceded defeat on the surface, but actually mocked Li Yun, but she just took out these difficult things to price.

"It is indeed a priceless treasure in the market."

Attracted, the woman wearing sunglasses stood aside and looked at the jade bracelet in Li Yun's hand. She smiled and said, "If I am not mistaken, this jade bracelet is an antique, and it is a very expensive antique!"

Everyone looked at her in astonishment. The woman was tall, wearing jeans and an invisible coat, and wearing sunglasses. She couldn't see her face. But judging from her beautiful lips and white and delicate skin, this woman The girls' looks and figures are all first-class!

And she has a kind of extravagance in her body, belonging to the upper class temperament of a wealthy background, and her words are very convincing.

"Antique? How expensive is it?" the lady said, "Is it worth ten million?"

"Ten million?"

The tall girl shook her head, "Too little."

"Too little?!" The lady was very annoyed. This broken jade bracelet was actually worth ten million?

"My family also has a similar bracelet. It was bought by my dad from a foreign auction. It belongs to the Ming Dynasty imperial princess and concubine. It is said to be the tradition of the Ming Dynasty royal family. It is characterized by exquisite workmanship and the inner ring of the bracelet. A natural pattern."

The girl smiled slightly, "Your jade bracelet should be a safe bracelet, and the oval one is called a royal bracelet. The safe bracelet should be worn by a girl, meaning peace and safety."

Princess Yongning glanced at her and whispered: "This is my mother's queen...My mother gave it to me. It is said that it was made by a master named Jiao in the capital. The concubines and princesses in the palace like this kind of bracelet."

Li Yun was stunned. Combining the words of the two of them, he inferred that there was a jade carving master who was very well-made in the Ming Dynasty. The bracelets he polished were very beautiful, which led to the popularity of such bracelets in the palace. As a result, several pieces have been circulated. Modern people regard it as the tradition of the Ming Dynasty imperial palace.

Chapter 630: 33 million

The lady was very annoyed, her face full of hyaluronic acid twitched a few times, and she smiled sarcastically, "Do you want to buy such a valuable antique for tens of millions?"

"you are right."

Wearing sunglasses, the tall girl showed a bright smile at the corner of her mouth. She turned her head and said to Li Yun, "Handsome man, can you sell this jade bracelet? If I sell it, I will pay you 1.1 times the market price. I really want it. This one, because it happened to be paired with my family."

"Ding, trigger the option event, please choose from the host:

Option 1: Sell the jade bracelet to her to reward the girl with +50 favorability.

Option 2: No sale, no reward. "

Li Yun was speechless, and the system was going to remind him again that this girl in front of him is a beautiful woman who is full of beauty?

But Li Yun now has enough girls around, so he shook his head decisively, "No, this jade bracelet is not for sale."

"Really not for sale?" The girl said again: "My bid is 33 million, I will never miss you, more than the market price!"

"Thirty-three million!"

Everyone gasped, and for a while, the entire terminal was quiet. Everyone looked at the jade bracelet in Li Yun's hand dumbfounded, fearing that Li Yun would accidentally fall on it. Land, threw 33 million away!

The expression on the lady's face is very wonderful. The value of a jade bracelet on the wrist of the girl is actually more than that of her whole body.

But there is a delicate hosta on the head of the soil bun girl, is it also an antique? !

Also, the other stinky girl also has jewelry on her neck and wrist. These are all antiques?

"impossible!!"

The lady screamed, the wrinkles on her face huddled together, and glared at Li Yun and the girl:  
"You want to lie to me?! There are no doors!"

Li Yun is very strange, what lie to her?

"Okay, I know it!" The lady yelled, "You and this girl in sunglasses are a group, specializing in using stalls to pretend to be antiques and trick the big guys into buying your things, just like the world without thieves. The same snippet!"

Listening to her mention A World Without Thieves, Li Yun finally remembered this scam.

The scam is very simple. Someone has a priceless thing in their hands, and it must be announced loudly, so that everyone around them rushes to buy it, but in fact these people are trustees and specialize in attracting passers-by who are tempted to buy it.

The key to the scam is that the thing must be good enough to make passersby be moved by it!

After thinking about it, Li Yun twitched the corner of his mouth and handed the jade bracelet back to Princess Yongning. He lazily said to everyone: "Okay, I won't sell this jade bracelet, you all have to disperse it."

Because of the participation of the girl wearing sunglasses, Li Yun is still confused about the situation now, so he just won't talk about it.

However, the lady became more and more certain that Li Yun was a liar, yelling and screaming, so that the entire waiting hall crowded around and watched.

"I'm Cao, really a liar?"

"Why don't I feel like it, these few temperaments are pretty good."

"The temperament is all pretended, just tens of millions for a bracelet, is it possible?"

"Tsk tusk, seeing the three women look good, I didn't expect to do this kind of activity!"

"Don't tell me, that shy girl in ancient clothes + coat, really has a temperament!"

There were more and more onlookers, and even the airport security was attracted. He asked in a deep voice, "What's the situation?"

Li Yun gave a wry smile, really pretending to be struck by lightning, a lot of trouble.

at this time.

"Miss, let's go."
