

Godly Choice 901

Chapter 901: Zhong's House, Wanbao Court

Wanbao Court.

Yu Congde, 58 years old, is a housekeeper personally assigned to Gong Qingyu by the family head of the palace family. Although he only has the cultivation of the Houtian realm, he is extremely capable. He takes care of most of the affairs of the palace family in Zhonghai City.

At this moment, the butler sits in the living room of Wanbao Pavilion and personally pushes a bunch of jewellery to a middle-aged man. He smiles and says, "Guardian Zhong, this is what my palace family is participating in this auction. Could you please be firm, please. Add them to the sale this time."

Although it is called an auction, because there are too many items involved in the sale, in addition to some expensive items to participate in the auction, there is also a small sales event dedicated to the rich to taste and buy.

The steward Zhong sitting in front of Yu Congde's steward is the person in charge of this auction of Wanbao Pavilion. Only after he nods, these precious jewellery items can enter the ranks of the auction's merchandise!

"these are.....?"

Dressed appropriately, wearing a tie and an unusually rigorous style, Guan Guan frowned slightly at a glance. The small pile of jewellery in front of him was not stored in a special box, but only wrapped in a piece of cloth. This palace family brought it to auction.

With such a crude preservation method, it is suspected that these jewellery treasures are all from the roadside stalls, and one hundred dollars can buy a large bag.

"This is a very important friend of the Gong family who entrusted my lady to bring me the items for appraisal and auction!"

Yu Butler said in an emphasized tone.

Originally, he didn't need to personally present this kind of gift to the auction, but these jewellery treasures came from the hands of Sage Fanqing. After knowing this, Yu Guanjia did not dare to neglect, and took two innate masters as bodyguards. , Came to Wanbao Pavilion in person, in order to be foolproof.

"so it is."

Guanshi Zhong nodded. Guanjia Yu meant that the origin of these goods was guaranteed by the palace family, and there was absolutely no worries about them, and they could be traded with confidence.

"I need to appraise these goods before I can make a preliminary price for them."

"Uncle Zhong!"

While Guan Zhong was doing business, the door of the living room was pushed open, and a young man wearing a top Prada custom shirt walked in. His handsome face had a hint of eagerness and he had no scruples that Guan Zhong was entertaining guests. , Walked in directly.

"Uncle Zhong, the pearl of the auction tomorrow night will come, do you have any..."

The young man was halfway through his words, his eyes were attracted by the pile of jewelry on the table. There was a white and delicately textured bracelet inside. Isn't it what he wanted? !

"Uncle Zhong, who is this?" The young man put his gaze on the housekeeper, with a slight condescending look in his eyes, which was extremely uncomfortable.

"Master, this is the housekeeper Yu of the palace family."

Guanshi Zhong gave a brief introduction, and then introduced the arrogant young man to Guanxia Yu, but his tone was extremely respectful: "Guanxia Yu, this is the eldest son of my Patriarch, and the next owner of Wanbao Pavilion."

Butler Yu nodded lightly, "Hello, Master Zhong."

Zhong Nansheng, the future master of the Zhong family, looked at him up and down and snorted insignificantly.

When this person saw him still sitting in his seat, his tone was extremely arrogant, which made Zhong Nansheng very upset.

"Gong Family?"

Zhong Nansheng sneered at the corner of his mouth. What is the Gong family, why has he never heard of it?

Looking at the jade bracelet on the table, a trace of greed flashed in Zhong Nansheng's eyes.

Chapter 902: Hey, who are you looking for
the next day.

After Li Yun got up early, the girls were still asleep. After a big fight yesterday, Qingyu and Lianyi couldn't support going back to the room at nine o'clock last night. They haven't woken up yet.

Li Yun didn't wake them up and asked the servant to drive the jeep out. He drove away after breakfast.

With his current status, he is basically equal to the third owner in Mansion No. 3. The maid guards up and down all treat him respectfully, and sometimes make Li Yun think that he has become a little boy again.

——Relying on the relationship between Qing Yulian and the sisters to become the third master, isn't it just a little white face?

"Damn, what am I thinking!"

Li Yun shook his head and smiled bitterly. He hasn't eaten any meat from his sisters so far, so Xiao Bailian is not qualified.

In the morning, Li Yun went to understand the situation with Liao Hua and learned that He Canghu had actually returned to Feihumen and showed up in public, as if he had not been affected by the latest series of events.

In addition, Song Yuan is missing, and Liao Hua is sending someone to track down his whereabouts.

After all, Song and Yuan's revenge targets were people from several families, and the bad influence he brought was not limited to the scope of the feuds, and the relevant ministries and families of the country could not sit idly by.

In the afternoon, Li Yun went to the company, Mingyu Building, 30th floor.

"Hello, who are you looking for?"

As soon as Li Yun walked into the door of Baiyun Technology Company, the lady at the front desk asked with a standard professional smile.

"Uh....."

Li Yun was speechless for a while, looked up at the wall behind the lady at the front desk, and said to himself: "Yes, it's Baiyun Technology Company."

"Yes, this is Baiyun Technology Co., Ltd.!"

The front desk lady who is 20 years old keeps smiling and can be used as a front desk. Her appearance and figure are conservatively estimated to be about 7 points. The smile is definitely sweet and pleasant. Although it is a little worse than Tang Anxi, it can be seen. I feel very comfortable.

"Ahem, my name is Li Yun." Li Yun said sternly.

There are already many people in the company who are sitting in their positions and looking over. They all showed surprised expressions when they saw Li Yun.

"OK."

The lady at the front desk nodded very understandingly. She lowered her head and rummaged through a notebook, but finally said in a puzzled manner: "Mr. Li Yun, I don't have your name here. Are you here to apply?"

"..."

"Hahaha!"

In the company, more than a dozen people laughed loudly, making many new employees and the front desk lady bewildered.

"what's the situation?"

"What are these old employees laughing at?"

"Are bonuses given out?"

"Speaking of which, the bonus for Vanguard Strike hasn't been paid yet!"

"I, Cao, you don't even know?"

There was a commotion in the company, and the sweet smile of the lady at the front desk froze. Li Yun smiled at her and said, "My name is Li Yun and this company is Baiyun Technology. Don't you think it's a coincidence?"

".....what?"

The lady at the front desk continued to be confused, thinking about the relationship between Bai Yun and Li Yun in her mind, could it be said..

"Hello, Chairman!"

In the company, the group of old employees finally cheered and waved their hands vigorously to welcome Li Yun. They still remembered Li Yun's promise.

bonus!

"Chairman!?"

The lady at the front desk screamed in surprise and looked at Li Yun in disbelief.

This man who is younger than her is actually the biggest boss of Baiyun Technology? ?

Chapter 903: Chairman with a net worth of 50 billion

Li Yun shrugged and said helplessly: "If there is no second Baiyun Technology company, then I will be the chairman."

"No, sorry, Chairman, I..."

The lady at the front desk was at a loss, blushing on her pretty face, and whispered, "I didn't know you were the chairman."

"Haha, it's okay, just kidding."

Li Yun smiled, "I don't need to register now, right?"

"Of course, of course not!" The lady at the front desk became more shy, and quickly walked out from behind the round table at the front desk and said respectfully: "Chairman, who are you looking for, shall I take you?"

"No, you continue to work, I'll go in and take a look, and I'll leave soon."

"Yes, Chairman, you have worked hard!"

The lady at the front desk felt that her performance was extremely poor!

In front of Li Yun, she couldn't say a word sharply, she was extremely nervous!

It's no wonder that she is not so flustered and uneasy, because the lady at the front desk knows how strong Baiyun Technology is now.

Nowadays, Baiyun Technology can only produce one product, that is, the anti-virus and anti-plug software, Pioneer Strike.

But it is just one product, but it has done what few companies in Huang Xuanguo can do!

Over 1.5 billion downloads worldwide, over 200 million monthly active users (the number of active users per month), and an exaggerated data of 50 million daily activations!

You know, this is not a social or financial software, but an anti-virus software!

A piece of anti-virus software can do this, and in less than half a year, or even only two months, Baiyun Technology can be called a dark horse in the Internet IT circle.

"It is said that Tiantian Security previously wanted to spend several million to buy the boss's company, but after the results were passed out, it suddenly became a laughing stock."

"The worth of the boss now..."

The lady at the front desk looked at Li Yun's tall and handsome figure with envy, and muttered: "Chairman Li Yun is worth more than 50 billion, right?"

Thinking of such a young chairman, whose net worth exceeded 50 billion, the lady at the front desk couldn't help but pound.

Just now she was chatting with a handsome guy with a net worth of 50 billion yuan.

The boss with a net worth of 50 billion actually smiled at her in person! !

Handsome guys with a net worth of 50 billion are so handsome on the road.

Net worth 50 billion...

——The front desk lady is now full of 50 billion.

"Hi boss!"

"Hello, Chairman!"

"Long live the chairman! Long live 1.5 billion downloads"

"Chairman, Pioneer Attack has a full 700 million downloads this month!"

When Li Yun walked into the company, a group of employees greeted each other, and they all made clear hints: Chairman, boss, boss, it's time to talk about downloads!

"It's rare, our big boss actually inspected the old company himself!"

Just as Li Yun smiled at them and wanted to speak, a middle-aged man walked out of the office, who was the president of Baiyun Technology, Wu Ke.

He is the CTO of the former Nantian Group and one of the slightly technical tycoons in the Internet circle, but he was defeated by Li Yun in a certain competition, so he joined Baiyun Technology and worked hard for Li Yun.

Therefore, after Wu Ke saw Li Yun's appearance, behind the seemingly springy smile, there was a deep resentment.

"Ahem, it just happened to be free today!" Li Yun said positively: "After all, I still have to take the college entrance examination. I have been very nervous to review these months."

"The college entrance examination?"

Among the new employees, those who don't know the chairman well, and the lady at the front desk standing in the distance, Quan Ou showed a look of consternation.

Chapter 904: The game is complete

The big boss in charge of a company with a market value of more than 100 billion is still worrying about the college entrance examination! ?

This is almost like a beggar holding a golden rice bowl and begging for food. Although the metaphor is not right, it is probably the case!

"Let's come!"

Wu Ke gave Li Yun a fist on the shoulder, and said dumbfounded: "You guys are terrifyingly talented. You can get a full score in the college entrance examination. You still use the college entrance examination? I'm afraid I am immersed in the gentle country and can't extricate myself? Tsk tsk, young man. , Be restrained!"

Thinking that the daughter of the old club was so fascinated by Li Yun, Wu Ke couldn't help but admire Li Yun. This little boss was indeed beyond his expectations.

Not only does his academic performance go against the sky, plus his programming skills are unparalleled in the world, his fate is also unique in the world, so that countless beautiful girls love him to death.

Li Yun shrugged, "It's not what you want...Forget it, don't talk about it, I heard that there will be a press conference tomorrow?"

Wu Ke rolled Li Yun's eyes, "I'm guessing if you remember that you have a company, and I want to call you again at night and ask if you are coming."

"Am I here?"

"It's probably on a whim, right?"

"Hahaha, let's not talk about this, but I can't tell you." Li Yun smiled bitterly, "Tomorrow there will be a big man coming to the scene, not the big leader you think, she is a very beautiful woman and also my friend. , Come to support our press conference at that time."

"Pretty woman?"

"By then you will understand!"

Li Yun smiled slightly, turned his head to look at a middle-aged man who had already arrived in front of him and waited, and smiled: "Have you finished your game?"

"It's done, boss!"

The middle-aged man immediately replied excitedly that he was Feng Rongchen, the developer of the cube game that Li Yun had acquired before.

Li Yun used one million to buy out the game he developed. Therefore, Feng Rongchen can be said to be 120,000 points of respect for Li Yun. These days, he has been working hard to make the game the best.

"Okay, let me try it?"

"Yes, please here, boss!"

Baiyun Technology now has more than one hundred employees. This does not include the employees of the subsidiary that developed Xuanyuan Zhidun. They are all involved in the maintenance of pioneer strikes and the technical department, marketing department, and planning department of the production of "Xiao Ming's World." Plus people from finance, front desk, testing and other departments.

They are the core members of Baiyun Technology and are much more important than the employees of Xuanyuan Zhidun's subsidiaries. After Xuanyuan Zhidun's software development is completed, it is equivalent to going out independently. As the parent company, Baiyun Technology only has equity income, but no control.

"Well, it's not bad, it's fun."

After trying it out on the computer for a while, Li Yun nodded. He doesn't have time to play games for a long time now. Besides, a group of employees looked at him eagerly.

"Everyone!"

Li Yun sat on the computer chair and turned his head to look at them. He smiled and asked, "I have been busy recently. It seems that I have forgotten one thing. Does anyone remember?"

"I, I remember!"

A young woman who seemed to be married immediately raised her hand, and there was a hand-painted board in front of her desk, which should be an artist.

Suddenly, many old employees looked at her with anticipation and fiery eyes, waiting for the young woman to say 'that sentence'!

Watched by many people, the young woman artist is not stage fright, but smiled and said: "Boss, I heard from the old employees before that Pioneer's crackdown on downloads is amazing, is it true?"

Chapter 905: 150 months bonus

"Cough cough cough!"

A group of old employees expecting her to tell the 'truth' all coughed, this young woman said nothing at all!

"Yes?"

Li Yun pretended not to know, and asked: "How many downloads are there now? Is there 10 million?"

"Boss, we have more than 10 million downloads a day!"

Someone could not wait to say that Li Yun vaguely remembered him, as if he was a senior programmer writing C language, and his salary was conservatively estimated at 20,000 a month.

"Yes, boss, we have a full 700 million downloads a month, not at least 20 million downloads!"

"There must be ten million, much higher than ten million!"

"There are 1.5 billion downloads in total now, rounded up, there are at least 1 billion... right?"

"Your math is taught by your physical education teacher! Rounded up, at most 300 million downloads, besides, two months have passed!"

"Well, three hundred million is three hundred million, and three hundred million is also pretty good, 30 times more than ten million."

"I think we rounded up to 100 million downloads, right? Now the data is very falsified, what do you think of the boss?"

"One hundred million... also works!"

More than one hundred employees, at least thirty or forty employees all looked at Li Yun with eager eyes.

The lady at the front desk was confused at a distance. What is rounded to 100 million? Obviously, Pioneer's crackdown is 1.5 billion downloads. Why do these people talk about it?

Li Yun showed a puzzled expression: "1.5 billion or 100 million? Why are you not clear about each one? Feng Rongchen, tell me how many downloads are there!"

All the employees calmed down. Feng Rongchen became nervous and slowly said, "Although I am not involved in maintenance, it should be 1.5 billion downloads."

"Well, 1.5 billion, very good!" Li Yun smiled and glanced at everyone, "But it's not what I forgot about. Can someone remind me?"

Thirty or forty old employees looked at Li Yun blankly again.

Finally, the young woman artist Anna kept shouting: "Boss, it's time to give out bonuses!"

In an instant, the Baiyun Technology Company became quiet.

Bonus, these two extremely exciting words, deeply stimulated the minds of many migrant workers.

"Have I ever talked about giving out bonuses?" Li Yun asked pretendingly.

"have!!!"

This time, as many as ten people shouted together.

"really have?"

"really have!!!"

Twenty people shouted together.

"Then who can tell me, what are the rules for bonus distribution?"

The old employees looked at each other and shouted together: "Boss, 10 million downloads, reward one month salary!"

"what!?"

Many of the other new employees didn't know about it yet, and when they heard this sentence suddenly, they were all shocked.

Ten million downloads reward one month's salary, 1.5 billion downloads...how much?

"Ahem!" Li Yun coughed, "I'm not good at math, how many months should I give out bonuses in total?"

"150 months!!!"

The sound shook the sky and swallowed thousands of miles of anger, causing the entire building to shake.

As the president of the company, Wu Ke gave a wry smile and shook his head. It seems that the boss is determined to pay a bonus.

"Can't hear clearly, what's the bonus?"

Li Yun asked again.

"Boss, the bonus is, one, one hundred, five, ten months!!!"

The crowd was hoarse, blushing, and they all looked at the boss with red eyes, looking forward to the exciting answer.

"it is good!"

Li Yun smiled and slapped his palms, "Your boss, I, if I say that I can do what I say, if you say you send it for one hundred and fifty months, then you send it for one hundred and fifty months!"

"..."

The air seemed to be quiet, and after a while, cheers thundered.

Chapter 906: The pattern is different

"Long live the boss!!!"

"Long live the third year chairman!!!"

"Long live Baiyun Technology!!!"

"Long live Boss Li Yun!!!"

The employees cheered, and some even shed tears in excitement, embracing each other with joy.

"Boss, I love you, I love you to death!!!"

The young woman artist cast a wink at Li Yun, not hesitating to betray her hue to express her inner excitement, but in fact, the young woman looks so average, so the so-called wink is just like that.

"Boss, I want to give you a monkey!"

The one who was talking was a fat man weighing one hundred and eighty jins, and he was a man.

"Go away." Li Yun scolded with a smile.

"Boss, I want to add jio to you!!"

"Ahem, no need."

"Boss, I want to give you what and what, let the boss be what and what, hehehe!"

A group of employees were so excited that they all squeezed in from the finance department and the test team working on the other side to sing praises around Li Yun.

After hearing the news, Qian Hu and a group of his former gangsters were all stunned when they learned of the situation.

"Old, boss!" A gangster wearing a security uniform looked at Qian Hu in surprise. "The big boss really pays 150 months' salary?"

He is now a security guard and is in charge of the janitorial work, but he has a salary of 8,000 a month.

Calculated in 150 months, a small security guard can get 1.2 million in bonuses at once, deducting taxes, and also one million, which is enough to buy a boutique house in Longyang County!

"nonsense!"

Qian Hu slapped his head with excitement, and said with a smile: "Do you think the boss is the old stingy casino bastard? The boss's company now earns 10 billion a month, will you lose a little money? What the **** are you thinking? Woolen cloth?"

After speaking, he punched the gangster again, and the gangster held his head and smiled, looking at Li Yun with admiration.

The big boss is indeed not an ordinary person. If he still mixes with the boss in Longyang County, he will never know how the real rich people in this world make money.

Comparing with Li Yun, the previous boss Xue opened a casino in Longyang County, just like playing with children, the pattern is too far apart!

"Boss, we are really right to follow the big boss to Zhonghai City!" The other gangsters slapped Qian Hu's flattery. It's not that they don't want to flatter Li Yun, but as they are now, they have long been unable to follow suit. Li Yun can only look up at any intersection.

"Nonsense! I saw that Brother Li was awesome at first glance, so I immediately took refuge in Brother Li and worked for him when he was not developed!"

Qian Hu looked at Li Yun with a look of yearning, and calculated it in his heart. He now earns a monthly salary of 20,000 yuan, 150 months, and finally got at least 2.5 million yuan. He could not make such a big profit in the past 20 years. Money!

Originally, he was a security leader who could not get a salary of 20,000 yuan, but because of his relationship with him, Qian Hu got twice the salary.

"Chairman!"

The lady at the front desk tried hard to squeeze in front of Li Yun, her pure and lovely face flushed, and she asked excitedly: "Chairman, do I and our new employees also have bonuses?"

When I asked this sentence, the scene suddenly became a lot quieter, and many new employees who joined later looked at Li Yun blankly.

Old employees get a bonus of one hundred and fifty months' salary, can't they have nothing, right?

"Both."

Many new employees were suddenly excited.

"but--"

Then they raised their hearts to their throats again.

Chapter 907: New employees also have

Li Yun smiled slightly: "New employees will have less bonuses. After all, there is a saying that there is no shortage of problems and unevenness. New and old employees still need some distinction."

Fair distribution does not mean that everyone has the same amount, but that they are paid for as much credit as they make.

"Then...what is our bonus? Chairman, I'm still an intern." A female college student who had joined the company for a month and had not graduated asked weakly.

In her senior year of this year, in the second half of the school year, she was doing internships abroad. The internship salary offered by Baiyun Technology was only 3,000, which was only enough for her monthly living expenses.

She is quite satisfied with the salary. After all, the interns can not create much value, and HR has promised that as long as she graduates, the salary can be raised to 12 thousand.

"There are also interns." Li Yun thought a little, and said: "Internships are calculated based on the minimum bonus, which is 60 months. The rest of them can get a bonus of 60 to 150 months according to the length of their employment!"

In an instant, the new employees only felt that they were hit by the big pie from the sky, and everyone was dizzy.

"The company has been established for three months, and I joined in from the second month, so I can get a bonus of 120 months!?"

"Oh my God, take my elementary school mathematics now...I can get 100 months too!?"

"Woo, so happy, I'm only half a month away from the old staff!"

"Long live the boss! It's not wasted that we have worked overtime every day recently, long live!"

The new employees jumped and screamed with excitement. The female college student who asked the question just now had a smile on her face. After all, she can get at least 200,000 bonuses just after her internship, which is impossible in any other company!

Even for sales, some companies cannot give you such a high commission!

"Cough cough, cough cough cough!"

Wu Ke stood up, pressed his hand imaginarily, stopped the excited crowd, calmed them down, and smiled: "Everyone must be very happy about the bonus, after all, our boss is too generous!"

The crowd laughed, then slapped Li Yun's flattery.

"But I want to say one thing!"

Suddenly, everyone looked at Wu Ke nervously. After all, he is also the company's president and has a strong voice.

"There is an additional condition for the distribution of bonuses." Wu Ke laughed: "Although the company has achieved certain achievements, it is still in its infancy stage, plus so many bonuses. If the popularity of the company fluctuates, then the company It will go bankrupt soon. So I propose to add a restriction."

He looked at Li Yun, asked his opinion, and said, "Those who have received bonuses must not leave their jobs in the next year, and half of the bonuses can only be received in the second year. Boss, what do you think?"

Wu Ke was only a suggestion, and Li Yun was the one who made the decision.

The employees breathed a sigh of relief, and the president and chairman agreed that the bonus matter can be confirmed to be true!

"Boss!" An employee smiled: "I don't think no one wants to leave now, and he can't drive away, hehe."

Everyone laughed in agreement, for such a generous company, they would leave their job if they were stupid.

Li Yun asked Wu Ke: "Are we short of funds for the company?"

"No shortage for the time being."

"The bonus will be paid directly, and only the restriction of not leaving the job within one year will do."

Li Yun smiled, he didn't lack the money, so he didn't need to hold it down.

Wu Ke reluctantly agreed: "Okay, that's it, but this 150-month bonus is big news. Let's make a hype and prepare for tomorrow's press conference!"

Chapter 908: Ding, golden gift bag

When Wu Ke mentioned tomorrow's game conference, Li Yun saw the prompt sent by the system.

"Ding, trigger the option event, please choose from the host:

Option 1: Continue to promise to give out bonuses for the sale of "My Game". On the day of sale, for every 200,000 copies sold, one month's salary bonus will be given to employees to reward employees for increased loyalty. Purple gift bags*1, game sales are small Increased.

Option 2: Give employees one month's salary for every 100,000 games sold, and promise to the society to donate 10 yuan of charity funds for every game sold. Reward: employee loyalty is greatly improved, golden gift bag*1 , Justice value +5000, the popularity of Baiyun Technology is improved.

Option 3: Do nothing, no reward. "

Golden gift bag?

Li Yun was shocked. The most recent golden gift bags were given to the strong who killed the Six Demon Gates. He even suspected that the system was the only way to give golden rewards. He almost forgot that the system helped him reach the pinnacle of life and marry him. White and rich things.

There is no doubt that Li Yun chose the second option!

"Everyone!"

Li Yun smiled brightly, as if seeing the golden gift bag, "Don't get excited, the bonus will be more than once, and don't forget that we will release the product tomorrow!"

"Could it be that....."

Everyone was breathing quickly, and Wu Ke was also shocked. Does the boss have to give out bonuses twice in a row? This is too ridiculous!

An average company, even if it releases products continuously, it will only issue a bonus once, not to mention that Li Yun has given out bonuses ranging from 60 to 150 months in one go.

Such boldness is rare in the world.

But the chairman actually said there was a bonus! ?

For a while, the employees of Baiyun Technology opened their eyes wide.

"good!"

A smile appeared at the corner of Li Yun's mouth, "After the press conference, as of 12 o'clock tomorrow night, every 100,000 games sold will be rewarded with a bonus of 1 month's salary for all employees. Moreover, for every game sold, our company will donate 10 yuan of public welfare funds!"

Everyone took a breath, but fortunately, it was not very outrageous.

Because 100,000 games are no longer a small number. Normally, a game that can sell 1 million sets on the day of the game's release is already a very successful game, and this number is definitely a lot.

Wu Ke looked strange, "Donated 10 yuan to the charity fund for a game? What is your proposal? New marketing plan?"

"Just leave it alone, just follow this plan to promote it!"

Li Yun was full of confidence. After all, it was a prompt given by the system and couldn't be wrong.

"Old, boss." The female college student who had spoken before raised her hand and said shyly: "It seems that the reward is a bit too much. I calculate it, 100,000 copies of the game, each sold for 98 yuan, deducted from the donation. For the 10 yuan I went, the company made only 8.8 million yuan, and for our more than 100 employees, if the bonus is one month's salary, they have to give out an average bonus of 2 million yuan. This..."

It is equivalent to saying that for every game, employees participate in nearly 20% of the share, which is definitely a very exaggerated bonus ratio!

All the employees also agreed. They even said that they would not want to receive a bonus tomorrow, and that the previous ones are enough.

Because Baiyun Technology is too generous, the employees are consciously maintaining the company's healthy development and preventing the company from getting into financial difficulties.

Li Yun smiled and said: "You are right, rewards... well, tomorrow's bonus will be calculated according to the salary of the interns after conversion!"

Chapter 909: Handsome boy, hee hee

"Hey?"

The female college student intern was dumbfounded. Instead of accepting her suggestion, the chairman gave more than a dozen interns more rewards?

A group of interns were dumbfounded, and then looked at her gratefully. After all, it was her reason that caused the intern bonus to increase.

"I didn't say it was all sales."

Li Yun smiled and said: "It's just the sales calculation bonus for the first day of tomorrow. Tomorrow's sales will be regarded as the company's reward for everyone!"

Hearing this, Feng Rongchen couldn't laugh or cry, and reminded: "Boss, the first week of the game's sales is the most important, because stand-alone games will only arouse topics when they are released, so the first week's sales accounted for almost 50% of the total sales. The sales on the first day accounted for more than 30% of the sales in the first week!"

Feng Rongchen was very grateful for Li Yun's kindness, so he reminded him.

"fine!"

Li Yun waved his hand, "Although I don't pay attention to game sales, I also know that if a game is good enough, subsequent sales will be endless!"

Feng Rongchen, and a group of game programmers and designers are silent. They can't think that the boss trusts their games so much!

"boss!"

Feng Rongchen bowed deeply to Li Yun, "Thank you for your trust. We will definitely keep the game updated and strive to make the game perfect, so that more people will buy this game in the future, I promise!"

"Okay." Li Yun stood up, patted him on the shoulder, smiled and said: "It's enough to have you. Let's stop here today. Go to work and prepare for tomorrow's press conference."

"Yes! Boss, go slowly!"

Everyone is high-spirited, ready to start a big fight from now to tomorrow, to return the company's praise of these amount of bonuses!

Li Yun couldn't laugh or cry. It seemed that they all knew that he was staying soon, so they said goodbye directly.

"Okay, don't be tired, I'm leaving now, I have to go back and review my homework."

"...Boss, go slowly."

Seeing the chairman leave in great strides, all the employees were dumbfounded. Boss, you gave us a bonus of 100 million in one day. Are you worried about the college entrance examination?

"Ding, the host makes a choice and rewards: employee loyalty is greatly improved, golden gift bag*1, justice value +5000, Baiyun Technology's popularity will be greatly improved."

After leaving the building, Li Yun received a reward from the system, which made him extremely comfortable.

Li Yun is basically satisfied with the current development of Baiyun Technology.

Not only can it meet his needs for making money, but he can also occasionally provide one or two golden gift bags to strengthen his own strength. The most important thing is that there is a master like Wu Ke to manage him, which is simply not cool!

"Handsome guy, do you want to be cool?"

Just as Li Yun was about to walk to the parking lot in front of the building, a gorgeously dressed, thick lip gloss, and sex-sensitive short skirt with black silk and a slouchy body, a beautiful lady who walked away and threw him at him. A winks, asked in a delicate tone.

Li Yun glanced at this glamorous beauty, and wondered in his heart, when did the salon girls' business develop to the public? Shouldn't it be in a village in the city, or in some secluded alleys, when the hair salon girls stand in front of the door, looking at the passing men to greet them?

Could it be said that the competition in the hair salon industry is fierce, and it is compelling to come out soliciting customers?

"Little handsome guy, do you want~~?" said the girl in the hair salon.

Um? Little handsome guy?

Chapter 910: Witch, it's you

"Hehehe~"

The coquettish hair salon girl chuckled, with an intoxicating expression on her face. She walked a few steps closer, her mouth with less than fifty yuan a bottle of lipstick almost stuck to Li Yun's ear, and said softly and softly: "Three hundred at a time, including eight hundred nights, little handsome guy, what are you~?"

Hearing the term "little handsome", 'little handsome' thought of someone.

"Ding, trigger the option event, please choose from the host:

Option 1: Do it, reward experience value +100,000, free attribute points +500, blue gift bag*1, additional reward: Dayang Durable Pill (increasing the duration of a man's battle).

Option 2: Don't do it, reward skill: Sunshine sluggish (combat time -100%). "

roll!

Li Yun gave the cheating system a **** in his heart. What is Dayang Durable Pill? He is a dragon and a fierce player. Li Feng is not his opponent at all. He still needs this thing to increase endurance? !

"Little handsome guy, what are you doing?" The coquettish hair salon girl hid her mouth with inferior lip gloss and chuckled. A pair of soft hands lightly touched Li Yun's face in a charming and enchanting tone. Softly said: "Do you want to do it? Do you want to do it~? Little handsome guy, eight hundred a night, do you want to do it or not?"

"...Dry!"

Li Yun squeezed a word between his teeth.

"Hahaha, okay, it looks like this is the first time for the little handsome guy. Come on, my sister will teach you something for adults~~!"

With a triumphant look, the coquettish hair salon girl took Li Yun's hand and left.

"Ding, the host makes a choice, rewards experience value +100,000, free attribute points +500, blue gift bag*1, additional reward: Dayang Durable Pill. Hidden reward: Consort Wanqing favorability +10."

Yes, the glamorous hair salon girl in front of me is the saint of the six magic gates, the miracle girl with a thousand faces, Qing concubine!

When Li Yun recognized her, he almost couldn't believe that the girl in the hair salon in front of him could be called the same saint as Fan Qingsheng!

Concubine Wan Qing, unlike the Saint Vatican, who has always been celestial and beautiful, she can do whatever it takes to achieve her goal, even dressing up like this kind of street girl, and she doesn't care about her identity as a demon saint.

I don't know what kind of weird eyes the people of the Six Demon Sects will show when they know that their saints have such a side!

"Hey, handsome boy, shall we do it?"

The two got into a second-hand ordinary car parked on the side of the road. After closing the windows and doors, Concubine Wan Qing lay on her back in the seat and crossed it apart, as if you were getting done soon.

Three black lines appeared on Li Yun's forehead, and he stretched out his hand and flicked it on Concubine Wan Qing's forehead, "Devil, don't show her true shape quickly!"

"Huh?" Concubine Wan Qing showed a shocked expression, suddenly rushed towards Li Yun, and shouted: "This demon girl's transformation technique was unexpectedly seen by you. It seems that you can't keep you. I want to take away your spirit. Annoyance, let you * die!"

"Who died?! I'm still afraid of you?"

"Hmph, don't think that you have done a great job with Fan Qingsheng, tell you, that saint also has to bow her head in front of me!"

"Cough cough cough, don't make trouble."

After finally holding on to the chaotic Concubine Wan Qing, after seeing the current situation clearly, Li Yun only felt that there was an evil fire in his heart.

Concubine Wan Qing lay all over him, and she kept moving around, making him very uncomfortable and angry.

"Hehe, did the little handsome guy think about it again?"

After feeling something was wrong, Concubine Wan Qing flushed her face and cast a wink at Li Yun, pretending to catch him.
