

GOF 1071

Chapter 1071: Killing Monsters

Han Fei was a little scared.

Just now, the Demon Purification Pot trembled a little. Although it was only a little, it gave Han Fei a bad feeling. This at least proved that the Blue Sea Soul Realm was not as simple as others said.

In front, Luo Xiaobai had just said what would happen if they encountered a Wind Thunder Flood Dragon. But soon, Han Fei and the others encountered one.

Wind Thunder Flood Dragon could produce wind and lightning waving wings, spit gusts and control the ocean waves into tornadoes.

The crucial problem was: Wind Thunder Flood Dragons were much stronger than dragon eels in all aspects. It could be said that these were two creatures of different levels.

Boom!

Thunder roared. Le Renkuang and the others were fully armed and ready.

“Roar!”

In the strong wind, Luo Xiaobai held the giant vine in her hand like a whip. She moved forward in the strong wind.

Zhang Xuanyu took a step forward and held the spear in his hand. He thrust the spear forward and time froze.

Ding!

The Momentary Time only pierced a few inches in, but Zhang Xuanyu was blown away by the tremendous force.

Le Renkuang took a deep breath and slashed hard. Suddenly, a white shadow hit the Ultimate Defence.

“Pfft!”

Crack!

Le Renkuang spat out a mouthful of blood and the Ultimate Defence was shattered. The True Martial Devil Blade was only half a meter deep into the body of the Wind Thunder Flood Dragon before it was hit by a thunderbolt. Then, the strong wind blew Le Renkuang to the bottom of the sea like a cannonball.

Luo Xiaobai’s eyes turned white. “Netherblue, soul-eating!”

Thousands of tentacles extended out of the void and drilled into the Wind Thunder Flood Dragon like straws.

This time, Li Luoluo had already flashed away. Taking advantage of this opportunity, she directly transformed into a large bug and entered the Wind Thunder Flood Dragon's body.

Holding the tail in his hands, Han Fei directly lifted the Wind Thunder Flood Dragon that was more than a hundred meters long and whipped it to the ground. The Void Line had already been attached to it. The Infinity Water drilled into the body of the Wind Thunder Flood Dragon and exploded.

The five of them took advantage of the situation and went all out, killing this Wind Thunder Flood Dragon.

Han Fei did not exert much strength. Facing these large creatures, Han Fei was confident that he could deal with them alone. They did not have any special ability to avoid the Void Lines. As long as he hit them, they would die.

So, although it might be difficult for others to reach this stage in the Blue Sea Soul Realm, it was not difficult for Han Fei.

At this moment, Han Fei cast a Divine Healing Technique on Le Renkuang and said, "Fatty, you are still too weak. Yuyu, you are too weak. I'm afraid that you can't go on like this."

Le Renkuang was lost for words. "Do you think I'm you? It's good enough that I can fight like this in front of such a huge monster."

Zhang Xuanyu sighed. "If I had known, I would've tempered my body too. Feifei, do you think I can do it now?"

Han Fei rolled his eyes. "What are you refining now? Unless you recultivate, you'd better think about where to get some Heavenly Materials and Earthly Treasures to eat!"

Zhang Xuanyu said helplessly, "Everything you can get in this damn place will improve your soul. If only the Three Holy Lands had a place to improve my physique."

Luo Xiaobai glanced at Zhang Xuanyu. "If physique is so easy to train, strong masters will be everywhere."

Han Fei pondered for a while. In fact, it was not impossible to give the Indestructible Body to Zhang Xuanyu and the others. However, it was not easy to cultivate the Indestructible Body. Without enough terrifying energy, it would be very difficult for Zhang Xuanyu to break through the second level.

As for the 108 Desolate God Body, it was useless to give it to them when it was not perfect before, because Zhang Xuanyu and the others had already formed their styles at that time. It was unlikely that they could master it now. After all, the 108 Desolate God Body required time to cultivate, and it was not something that could be done overnight.

Han Fei thought for a long time. "Forget it. Let's find another way! Let's keep moving forward..."

They looked bitter. Luo Xiaobai said, "Han Fei, don't attack the next one. Let's fight it out."

Han Fei thought for a moment and agreed. Just now, even if he didn't do anything, Luo Xiaobai and the others could have killed the Wind Thunder Flood Dragon with a little more time.

Le Renkuang took out the soul crystal and said, "This crystal is a bit bigger!"

Han Fei asked, "Do you still need it?"

Le Renkuang shook his head and threw the soul crystal to Li Luoluo. "I ate too much. I need to consolidate my base."

Li Luoluo took the soul crystal and stuffed it into her mouth. "I suddenly realized that the students of the Thug Academy are all monsters."

This was what Li Luoluo felt after exploring with them once. The perception and strength of this group of people was really too much for her. She kept feeling like she was dragging them down.

After all, Han Fei wasn't that strong when he was still in the Empyrean Waterfall. Luo Xiaobai and the others had been there a few times, and Zhang Xuanyu couldn't even defeat Du Jiangliu.

But now, Li Luoluo felt that she was a burden.

Han Fei was not interested in any of this. What he noticed was that the weird shadow cast by the Wind Thunder Flood Dragon just now was the ability of the Wind Thunder Flood Dragon? He didn't remember it!

After half an hour.

When Han Fei saw a Purple Sand Eel and a big turtle, he knew that it was not so simple.

Han Fei asked, "You guys fight and I won't take any move?"

Luo Xiaobai's face changed slightly. "Take the turtle away."

Han Fei touched his nose and reminded, "Pay attention to this Purple Sand Eel and see if it has any power that exceeds its own ability..."

With that, Han Fei punched the black-shelled turtle. The latter opened its mouth and a bubble-like compressed water ball shot out, shattering Han Fei's golden fist.

Han Fei smiled and his footwork changed. His body was like a shadow as he punched out. Waves of water surged in the air and fist imprints were like mountains.

Boom!

With a single punch, a black armored shadow burst forth. Even the turtle and its people rushed out three to five miles away.

Behind him, Luo Xiaobai could only say, "Le Renkuang, Primordial Sky Swallowing Technique. Zhang Xuanyu, wait for my soul explosion. Leave Luoluo, control the worm and swallow the sand..."

Han Fei didn't intend to fight for long. He planned to control the turtle with the Void Line, but when the Void Line reached the black barrier, it was blocked.

"Eh!"

Han Fei was surprised. Was there something wrong with the turtle's armor?

Buzz!

When the Golden Giant appeared, Han Fei punched again and blew up dozens of compressed bubbles, shattering the black armor. Then he hit the old turtle with the Void Line.

Han Fei thought, can you stop me now?

However, to Han Fei's surprise, although he was already on the old turtle's body, there was a low roar. Invisibly, a strange force directly swept away the Void Line and condensed a faint white mist on the old turtle's body.

"No, that's not the turtle's power."

At this moment, the turtle started to spin and hit Han Fei like a small mountain.

However, Han Fei, who had grasped the power of willpower, was not afraid. Even without the Void Line, this old turtle could not withstand a direct blow.

The fist was like a great bell. The bulge on the turtle shell was shattered, and half of the turtle shell was full of cracks. Even though the giant tail swept across, the turtle shell was like a mountain, and its strength still couldn't shake Han Fei.

"Explode!"

The Infinity Water self-destructed. Han Fei grabbed the head of the turtle and tore it apart, pinching a spiritual crystal.

At this time, a stone tablet appeared in the void. Han Fei's name was reflected on it, but it was the 100th place. After several failed attempts, the stone tablet disappeared again.

"Huh! A stone tablet appeared here?"

Han Fei looked at the four people fighting behind him.

Compared with the violent battle on his side, Luo Xiaobai's battle was even more intense. Zhang Xuanyu was fine, but he couldn't really kill his opponent with his Tertiary Body.

The Purple Sand Eel was as tough as black sand, and Le Renkuang was the strongest one among the four. No matter what it was, Le Renkuang just kept biting at the eel and had eaten half of it.

Li Luoluo's bug had swallowed a lot of the black sand, but Luo Xiaobai had used a soul-sucking method.

At this moment, a huge Spirit Absorbing Sea Anemone exploded from the Purple Sand Eel's body and extended thousands of tentacles.

Luo Xiaobai shouted, "Soul Explosion."

Zhang Xuanyu hurried to attack. With a violent explosion, the Purple Sand Eel exploded again. Le Renkuang opened his mouth and swallowed a lot of the scattered black sand.

At this point, the Purple Sand Eel was powerless to reverse the situation.

A moment later, the Purple Sand Eel died.

However, the stone tablet did not even appear this time. It could be because Luo Xiaobai and the other three attacked together.

Luo Xiaobai said, "There is indeed a problem. I don't know why, but the living beings in the Blue Sea Soul Realm seem to have a special spiritual power."

Zhang Xuanyu said gloomily, "I've decided to refine my body when we're back."

Le Renkuang turned his head. "No. It's not so hard to fight in the outside world. The creatures here are beyond the level of peak Hidden Fishers."

Li Luoluo chimed in, "There's definitely a law enforcement realm, it's just that there's no law, but it's essentially law enforcement."

Han Fei said with a smile, "I don't know if they are law-enforcers or not. I just know that it's useless to be big. We haven't reached the depths of the realm yet."

Zhang Xuanyu said unhurriedly, "But we don't have enough strength to fight now! I don't think the members of the big clans can fight one-on-one, can they? You weren't on the list just now."

Luo Xiaobai said, "But it'll be soon. This means that the Blue Sea Soul Realm is different from the previous two Soul Realms. In terms of one-on-one combat, they have an advantage."

Han Fei pondered. Although he didn't know where the danger came from, he could continue fighting. Anyway, only the first place could get the golden page.

Although he did not know what it was, it was definitely extraordinary.. He could not give up.

Chapter 1072: First Encounter with a Dragon Soul

A day later.

Luo Xiaobai and the others couldn't fight anymore.

The Void Tablet had appeared many times, but Le Renkuang was ranked 68th, Luo Xiaobai 86th, and Zhang Xuanyu and Li Luoluo were not on it.

Han Fei was ranked 35th. In fact, the Soul Realm was very suitable for him who had a strong body and many tricks.

The team's results were already very good, and Han Fei helped them several times.

However, this Blue Sea Soul Realm also fully proved another thing: the importance of body tempering.

Was Zhang Xuanyu and Li Luoluo not strong enough here?

Of course not.

Zhang Xuanyu was definitely not weak now, but Han Fei didn't know how to make up for his weakness.

As for Li Luoluo, she was still under observation. For Han Fei, she was not one of his people yet, so it didn't matter.

Zhang Xuanyu waved his hand, his chest heaving. "I can't. I can't poke these things anymore. No! I have to go back and study Armor Break. If this goes on, I'm afraid I won't be able to keep up with you."

Luo Xiaobai said, "Not really. Every one of these creatures is very strong. The result of different people meeting different creatures is unknown. Yang Nanxi took the same path as Han Fei, so her ranking is very high. We are not body refiners, and we can enter the top 100 because of Han Fei's help. With my experience with Chu Qingyan, it's only because her methods are special that she can enter the top 100."

Zhang Xuanyu cursed, "Now, who told me that the Blue Sea Soul Realm is not difficult? I'll stab them to death."

Han Fei sneered. "Come on! It's not like we can only come here once. Forget it. I'll go to the front and try. We've walked deep enough here."

Luo Xiaobai thought for a moment and said, "Go and try. We'll wait here."

Han Fei moved forward alone. It was like challenging a trial. There were countless minor barriers among the seven major barriers.

In the outside world.

On the stone tablet.

Seeing that Han Fei's ranking was not rising very fast, many people were relieved. They couldn't understand Han Fei. Some even said that he was a rare genius, and he was aiming to be first.

Suddenly, someone said, "Look, he's already 31. Does this fellow want to take first place even in the Blue Sea Soul Realm?"

Someone clicked his tongue and said with a smile, "Yang Nanxi is probably in trouble. Her ranking will probably be surpassed sooner or later."

Everyone agreed. "Of course. Yang Nanxi doesn't have the ability to pass the Undying Soul Realm! Since Han Fei took first place, it means that his talent is above hers."

Another hour passed.

The ranking on the stone tablet jumped again, and it just happened to squeeze Yang Nanxi out of the list.

Someone said with a smile, "Well, this time, Han Fei can be considered an absolute master on the Genius List no matter what. His overall strength is probably better than Chu Qingyan and Diwu Weiguang."

Someone shook his head. "I'm afraid it's more than that. What if Han Fei can still get first place in the Blue Sea Soul Realm?"

It was the first time in so many years in the Ideal Palace that someone had been ranked first in all the three Soul Realms. It would be unreasonable if Han Fei couldn't compete with the top three on the Genius List.

Another hour passed.

Han Fei's ranking jumped again to 18th place.

Once.

Twice.

Three times.

...

When Han Fei was ranked eighth, many people began to sigh. It seemed that he was going to the first place again.

Someone was waiting for this ranking. If Han Fei was really so strong, perhaps the big families would have to deal with him in a different way.

At this moment.

Within the Blue Sea Soul Realm.

Han Fei's hair stood on end, because he hadn't encountered any creatures here for a long time. However, he sensed a strange aura now. It wasn't a suppression of strength, nor was it a suppression of the soul. It was a fear that burst out from the depths of his heart.

It was as if the cat was fuming.

Han Fei felt that his blood was turning cold, as if a terrifying existence was standing in front of him.

Buzz!

At this moment, although Han Fei didn't see any ocean creatures or hear anything, he subconsciously performed the Devil Change and unleashed his invincible will. It seemed that he would be braver if the golden giant was on him.

"It shouldn't be! How could the Invincible Heart be afraid?"

Han Fei frowned. Although he felt better, he found it strange. When he walked on the path of invincibility, he felt that nothing in this world could give him the courage to advance!

However, at this moment, even the invincible will find it difficult to resist.

While Han Fei hesitated, the Demon Purification Pot in his mind trembled again. At the same time, the Void Stone Tablet appeared.

Han Fei's face changed. The stele appeared before he even saw any living creatures?

Also, the Demon Purification Pot trembled again, which gave Han Fei a bad feeling.

Seeing that his ranking had risen from eighth to seventh, Han Fei's pupils constricted and his eyes fell on the pitch-black ocean.

At this moment, Han Fei saw that in the darkness, a pair of eyes burning with blue soul fire slowly became real.

The moment he saw the pair of eyes, Han Fei actually wanted to run, but this path didn't teach him to run without fighting.

In front of him, those blue eyes were too big. Just one eye was dozens of meters wide, probably not much smaller than the library of the Thug Academy.

Han Fei swallowed.

The two eyes were almost 200 meters wide. What kind of creature was this? How big was this creature's head? How big was its body?

When the pair of big eyes approached, Han Fei had prepared the Infinity Water. The Void Lines were scattered all around him, and the Sacrificing Punch was ready.

But then, Han Fei saw the most shocking scene in history. He couldn't forget that scene for a long time.

This creature had a long beard that was more than a thousand meters long. It had two horns that resembled a deer's horns, and its long eyebrows hung down all the way to its shoulders. Its face was long and narrow, and its body was covered in crystal green and yellow scales.

"Holysh*t... a dragon?"

Han Fei's eyelids were twitching. If he was right, this seemed to be a real dragon, not a flood serpent or a giant venomous snake, but a real dragon.

At that moment, Han Fei felt that his body was turning cold and the Demon Purification Pot was trembling slightly.

Han Fei finally realized why he was afraid. It seemed to be the fear of life. It was not because of his Invincible Path, but because he had seen a legendary creature.

Someone had told Han Fei that the Blue Sea Soul Realm was simple!

Now Han Fei just wanted to kill that person just like Zhang Xuanyu.

This was a f*cking creature from myth! He had already guessed that there might be such creatures in this world, because he had met many creatures that were said to have a trace of dragon bloodline.

However, it was only a trace of a bloodline or a trace of a dragon soul.

For example, the Green Touring Wurm that he had encountered in the underground city had accidentally obtained a trace of a dragon soul. That was only a trace, but now, there was a real dragon in front of him! How was he supposed to fight it?

On the Void Stone Tablet, Han Fei's name had risen to fifth and was still advancing to fourth.

Han Fei never knew that the improvement of his ranking could be done without fighting. All he needed to do was to stay in front of the dragon.

Han Fei took a deep breath. Fighting a dragon? No experience! Also, the guy in front of him didn't seem to be easy to fight. Han Fei felt goosebumps just by looking at him.

This guy was at least a thousand meters long!

Just its head alone was probably several hundred meters long. As for its body size, it was at least a thousand meters!

At this moment, Han Fei suddenly thought of his encounter with the Rock Holding Turtle in the level-two fishery.

Luo Xiaobai said, "I saw a ten-thousand-meter tall tree."

Xia Xiaochan said, "I saw that the fish's body covered the sky and was tens of thousands of feet long."

Great! Now a creature of this level really appeared in front of him. How could Han Fei not be shocked?

At this point, Han Fei thought of the creatures he had seen before and felt they were like toys.

As for Han Fei, he was not even a toy, like a shrimp in front of a whale. Han Fei felt that he wouldn't be able to explode the dragon to death with the Infinity Water. The range of the explosion of the Infinity Water and the effective shockwave were probably about the size of the dragon's body.

Han Fei froze. His body suddenly became heavy and his invincible will was fading. There was no pressure, only a tremor from his soul.

"Roar!"

Han Fei started to burn his blood and stared at the head of the azure dragon with a struggling expression.

At this moment, he was certain of one thing: This dragon before his eyes could not be beaten by him. Because... he absolutely had no chance of winning. At this moment, he was afraid that he would not be able to unleash even ten percent of his strength.

Han Fei immediately understood why his ranking could rise. If it were anyone else, they wouldn't even have the chance to stand here.

"Huh!"

The azure dragon let out a low voice and was slightly surprised. It stared at Han Fei for a while and slowly said in a low voice, "A familiar aura."

As the azure dragon spoke, the seawater began to vibrate. It seemed to vibrate at a certain frequency as it radiated dozens of kilometers.

Han Fei was shocked. Can this dragon talk?

Han Fei braced himself. "Senior, you still have memories?"

The Azure Dragon's head moved slightly, as if recalling something. After a long time, it said, "So, I'm dead."

Han Fei thought to himself, Isn't that obvious? If you weren't dead, would you be here? Did you only find out that you're dead now?

The azure dragon said, "Your body is not bad."

“Pfft!”

Han Fei was scared. “Senior, my body is not here.”

The azure dragon didn’t seem to hear Han Fei. Instead, it said, “But it’s too weak to contain me.”

Han Fei nodded. How can I contain you?

The azure dragon seemed to be thinking. Han Fei’s name was third on the Void Stone Tablet now, but it was no longer rising.

Suddenly, the azure dragon said slowly, “Where is my body?”

Chapter 1073: A Real Dragon

Han Fei was lost for words. How would I know where your body is? Besides, which era are you from? Your body might have been long gone.

However, on the surface, Han Fei said sincerely, “Senior, it depends on where you’ve died. I can help you find it. I’m not bragging, but I, Han Fei, am known as the best treasure hunter in Thousand Star City. Searching for secrets is easy for me... But as you know, my... strength...”

The azure dragon opened its mouth slightly, and a golden sheet appeared, floating in midair.

“You want this, don’t you?”

Han Fei’s eyes lit up and he nodded. The page was right in front of him. How could he not want it? Although he didn’t know what it was, it was definitely extraordinary. How could it be simple to have a dragon guard here?

The azure dragon said slowly: “I have forgotten where I died. If you can bring my body to me, I will give this to you.”

Han Fei was speechless. I don’t even know where you died. How can I bring your body to you?

Han Fei smiled bitterly. “Senior, do you have no memory at all? I’m not bragging, but if you can give me some clues, I can dig your body out for you. People call me Treasure Hunter Han because of my ability.”

“Hu!”

A column of white smoke came out from the nose of the azure dragon. This breath was like a miniature tsunami, causing the ocean waves to surge.

Han Fei didn’t dare to interrupt the azure dragon’s train of thought. Otherwise, he would be blown away by the dragon’s breath.

“Heavenly Palace, Heavenly Dao’s Dharma Eye.”

“Huh?”

Han Fei was stunned. “Heavenly Palace?”

The azure dragon said leisurely, "I've been to the Heavenly Palace and seen the Heavenly Dao's Dharma Eye."

Han Fei swallowed. What a joke! It seemed that he wouldn't be able to get the golden page any time soon, and his ranking wouldn't increase.

I came to the ideal palace to take a look. It's best to walk to the Monument of Gods and see if I can enter the central Holy City and the Heavenly Palace through there.

Now, this fellow spoke of the Heavenly Palace and the Heavenly Dao's Dharma Eye. I can't even go to the Heavenly Palace, and I have to hide from the Heavenly Dao's Dharma Eye!

However, on the surface, Han Fei nodded. "Okay, senior. Give me a few years and I'll find a way to go to the Heavenly Palace."

"You know about the Heavenly Palace?"

Han Fei patted his chest and said, "Of course, I have a close relationship with Little Ci, the maid of Yin-Yang World, and the controller of the Heavenly Palace is my buddy. However, I'm still too weak to enter the Heavenly Palace. It'll take me two more years to enter the Heavenly Palace."

"Um!"

The azure dragon looked at him leisurely. "I know you are bragging, but since you know about the Heavenly Palace and the existence of the Controller, you must have had a lot of luck. Go..."

Han Fei's back was covered in cold sweat. How could this dragon tell I was bragging?

The azure dragon closed its mouth and swallowed the golden page.

In Han Fei's eyes, the azure dragon was retreating and fading until it finally disappeared.

"Hu!"

Han Fei was relieved. It was good that he didn't have to fight! Just now, he was afraid that the azure dragon would eat him. If that happened, he would have to use the Demon King's Contract again.

However, he felt that even if he used the Demon King's Contract, he might not be able to kill the azure dragon.

"Son of a b*tch, why would such a mythical creature appear here?"

Han Fei hurried to leave. He would take the golden page if he had the chance. Although it must be a top-notch good, he had to have the ability to take it!

However, Han Fei didn't know who got this dragon here and who threw the golden page to it.

"Could it be Mom?"

Han Fei thought it was very possible, but he didn't know why she did that. Why did she set such a difficult problem? Was there some secret in the golden page?

Sevensoul realms, why were there seven soul realms? What was the meaning behind each soul realm?

The Demon Plant Soul Realm was meant to increase the strength of the soul.

The Undying Soul realm allowed one to comprehend new powers after reaching the end of a battle technique.

The Blue Sea Soul Realm didn't seem to have any meaning. Could it be that she wanted someone to find the dragon's physical body?

If he found the dragon's physical body, what would happen? Would it be able to revive?

Han Fei ran back with mixed feelings.

"Sigh, it seems that not only does my father know how to set things up, but also my mother!"

It felt like there was a giant hand covering a secret buried in dust.

Han Fei couldn't help but think, I'm ranked third. Who are the first and second? I have to take a look. This means that at least two people before me talked to this dragon.

It was even possible that those two had gone to help the dragon search for its body. However, it was apparent that they had not succeeded. If they had succeeded, there should be nothing left for him to do. Perhaps, the azure dragon had already burrowed into its body and escaped.

Half a day later.

After Han Fei met up with the other four, Li Luoluo waved her hand. "Han Fei, where did you go?"

Zhang Xuanyu leaned back. "Don't tell me that you're first place again... I can't stand it."

Le Renkuang nodded quickly. "The Blue Sea Soul Realm is not easy to fight at all."

Luo Xiaobai didn't say anything but looked at Han Fei quietly, waiting for his answer.

Han Fei said casually, "Not first."

"Hu!"

Everyone was slightly relieved, but they also felt a little regretful. Even a freak like Han Fei couldn't get first place. It seemed that the Blue Sea Soul Realm was indeed not simple.

However, Han Fei's next question stunned them. "Well, do you believe that there are dragons in this world?"

"Huh?"

Everyone was stunned.

Then, Zhang Xuanyu looked at Han Fei in shock. "Are you serious?"

With that, Zhang Xuanyu looked at the darkness in the distance. "Fei, don't scare me. Are you sure that you're not talking about a flood serpent?"

Han Fei pondered for a moment. It might be a bit shocking if he told them. He said, "I didn't see it, but I heard a dragon roar."

“Hu!”

Li Luoluo immediately heaved a sigh of relief. “Next time you speak, just finish it all at once, okay? There are many living beings that can let out dragon roars while panting heavily.”

Le Renkuang nodded. “I’ve only heard of it in legends. I think it must be a very powerful serpent.”

Luo Xiaobai was slightly confused. However, she didn’t think too much about it, because she also thought that it was unlikely.

Luo Xiaobai said, “Such creatures definitely exist. However, no one has ever seen them before. However, it’s not that there are no records of them in the ancient books. It’s just that there are very few people who have seen them. However, what happened after they saw them? No one knows.”

Han Fei nodded slightly. “Yes! I’m just asking. There might be a very powerful dragon inside. It’s hard to fight.”

Zhang Xuanyu smiled and put his hand on Han Fei’s shoulder. “That’s right. I think this soul realm is hard to fight. This is not a fight with people or sea demons. The strength of the ocean creatures is different from that of human beings.”

Han Fei sneered. “That’s because you’re too weak. Let’s go. This soul realm is only for people to hunt soul crystals. Let’s go to the next one.”

What Han Fei didn’t say was that the only purpose and meaning of this so-called Blue Sea Soul Realm was probably the dragon. As for finding its physical body? Forget it. If he could go to the Heavenly Palace, he would definitely be very powerful. By then, it didn’t matter if he found its physical body for it or not.

Outside the Blue Sea Soul Realm.

While people were discussing, someone sighed and said, “The third place hasn’t been moved for a day. Looks like there’s no hope of Han Fei getting first place.”

Someone agreed. “That’s right. Han Fei took a long time from the eighth place to the third place, but after the third place, he didn’t make any progress and his name was fixed. He must have lost.”

In the eyes of these people, as long as he was defeated, it meant that Han Fei still had the limit of his strength. As long as there was a limit, it was acceptable.

If Han Fei had always been first, these people would have doubted their lives. However, in this Thug Academy, Han Fei’s personal strength had reached a level that even the top geniuses could not compare.

Of course, even though Han Fei was only ranked third, he had already made them feel that a super strong master was rising. A person who crushed his peers, seniors, and seniors of seniors.

At the very least, he was the first one in Thousand Star City who could achieve this in the ideal palace.

In fact, some members of the big clans thought to themselves. "If I can bring my memories out of the ideal palace, I'm afraid that the big clans will directly fall out with the Thug Academy and not care about anything else."

Buzz!

Han Fei and company walked out, and countless people looked at them. They were either surprised, silent, shocked, or simply left.

More than half of the crowd dispersed. Some people tried to buy intelligence from them, but were scared away by Luo Xiaobai's glance.

Zhang Xuanyu and the others stared at the stone tablet and looked at Han Fei in confusion. Third place? That's almost the same as first and second place.

"Sigh!"

Zhang Xuanyu sighed. Luo Xiaobai tilted her head and looked at Han Fei without saying anything. However, in their eyes, this ranking was already very high.

It was very likely that Han Fei was only stopped by the flood dragon. Otherwise, he could still reach the top.

Han Fei looked at the first two on the stele.

The first was someone named Tang Yan.

Ranked second was a very strange name, Li Daxian.

"Tang Yan? His surname is Tang?"

Han Fei didn't think too much about it and only remembered the names.

He felt that there was a problem!

With the appearance of the azure dragon, he would only be able to make it to the third place. The two people would not be able to fight against the azure dragon because they had no chance of winning.

However, they were ahead of him!

This was worth thinking about.

Luo Xiaobai said, "The seven Soul realms are getting more and more difficult to pass. Only the beginning part of the Blue Sea Soul Realm is suitable for training. Moreover, it's mostly for team battles. Therefore, it's easier to utilize it in terms of individual combat strength and team performance. Therefore, it gives everyone the illusion that the Blue Sea Soul Realm is simple."

Li Luoluo agreed. "I just want to know if the so-called prehistoric soul realm is like the place we encountered in the ancient battlefield? If it's that kind of environment, I'm afraid it's not simple."

Le Renkuang seemed to have remembered something. "As long as I don't need to eat worms."

Zhang Xuanyu curled his lips and said with a smile, "We'll find out when we go there. But let's not split up this time.. I still think that the big clans won't stop here."

Chapter 1074: Prehistoric Soul Realm

One thing that Han Fei was sure of now was that this ideal palace was not just to improve the power of the soul. If so, it would be too easy.

If this ideal palace was only meant to increase the strength of a trial challenger's divine soul, then perhaps one Demon Plant Soul Realm was enough. Why would there be a need for seven soul realms?

At this moment, Han Fei no longer cared about his ranking. If he didn't get first place, or even if he did, he wouldn't get the golden page if he couldn't do what he had to do.

At the very least, he wouldn't be able to obtain the Azure Dragon's portion. As for the soul realms, there were seven. Did this mean that there were seven golden pages?

If there were seven golden pages, perhaps it would be one set. Even if he could open the remaining few, he probably wouldn't be able to collect all seven. So, Han Fei rationally delayed the plan to collect the golden pages.

However, what he was curious about was the secret in the depths of the soul realms.

Back in the Demon Plant Soul Realm, perhaps because he had been demonized, he had missed out on what it was finally shown.

However, the Undying Soul Realm had battlefield scenes, the Blue Sea Souls a had dragon, so what did the prehistoric Souls have?

With this in mind, Han Fei's desire to explore was immediately aroused. After all, he had always been an adventurous person.

On the outside of the prehistoric Soul Realm, there was a large hole in the ground. This was similar to the way they entered the underground city.

In front of the cave, a monument appeared.

Han Fei narrowed his eyes and saw Li Daxian's name again, but this time, his name was first.

As for the first ranker of the Blue Sea Soul Realm, Tang Yan, he wasn't on the rankings at all.

Han Fei immediately looked around. He was used to being watched and followed, so it didn't matter now. Anyway, those big clans seemed to have put aside their disputes for the time being.

Han Fei suddenly raised his hand. "Who has intelligence?"

Luo Xiaobai asked, "Do we need to buy intelligence about the Prehistoric Soul Realm? We should have experienced it."

Han Fei said, "I have some questions."

Whoosh! Whoosh! Whoosh!

Five or six people jumped out at once.

Someone shouted, "My, my information is accurate."

Someone quickly said, "Accurate my ass! I specialize in intelligence. I know everything about the prehistoric soul realm."

Someone shouted, "Han Fei, I have news about the big clans."

Unfortunately, Han Fei didn't see Wang Santie. This guy didn't follow up? Wasn't he supposed to be his exclusive intelligence officer?

However, Han Fei didn't care. I can buy intelligence from anyone.

Han Fei pointed at the stele and said, "If anyone can tell me who Li Daxian is, I'll give him a spiritual crystal."

Someone was stunned.

Han Fei had paid enough money, but Li Daxian was an ancient person. After so many years, who would know who he was?

Immediately, Zhang Xuanyu asked in surprise, "Why are you asking this person? Well, it seems that he's ranked second in the Blue Sea Soul Realm. He's ranked first in the prehistoric Soul Realm?"

Luo Xiaobai narrowed her eyes and transmitted her voice to everyone. "No, the number one in the Blue Sea Soul Realm, Tang Yan, is not on the list."

Everyone was stunned for a moment. Yes! Even a freak like Han Fei couldn't get first place in the Blue Sea Soul Realm, but it was won by an unknown Tang Yan.

This meant that this person must be extremely strong.

However, since that person was so strong, why wasn't he on the list of the prehistoric soul realm?

Li Luoluo immediately cried out in surprise, "That Tang Yan seems to only be ranked at the Blue Sea Soul Realm."

Luo Xiaobai said, "There's something wrong with Li Daxian's ranking as well. He's not on the lists of the Demon Plant Soul Realm and the Undying Soul Realm either, but ranked second and first in the third and fourth Soul Realms. They are extraordinary."

Someone said helplessly, "I'm afraid no one in the entire ideal palace knows who Li Daxian is... He might be a top prodigy in the long river of time. However, after so long, history has long been obliterated. There's no way to verify it."

Han Fei was not disappointed. He was just curious.

Han Fei said with a smile, "Well... who can tell me the rankings of Tang Yan and Li Daxian in the last three soul realms? But the price is one low-level Soul Fruit per person."

The low-level Soul Fruits were already useless to Han Fei and the others, so he didn't need to save them at all.

Then, Han Fei threw out six low-level Soul Fruits.

These people were instantly delighted. Even this information could be sold?

They only needed to check the rankings. Obviously, Han Fei and the others were too lazy to check it out.

Someone said, "War Soul Realm, Tang Yan third, Li Daxian first."

Someone added, "In the sixth soul realm, Tang Yan is first, and Li Daxian is second."

Some people were afraid that if they spoke too slowly, there would be nothing left to say. They immediately spoke up, "In the seventh soul realm, neither of them are on the list."

Han Fei and Luo Xiaobai looked at each other. Why?

Someone felt that he could not take a low-level soul fruit for nothing, so he said, "I know that you've noticed that these two people are a little strange. Everyone already knew about this matter. They all felt that they did not enter the Soul Realms one by one back then. Otherwise, they would definitely be ranked at the top of the lists of all the seven Soul Realms."

Someone chimed in, "That's right. For example, some people with exceptionally powerful divine souls might not necessarily challenge the Demon Plant Soul Realm. Instead, they might directly go to the Prehistoric Soul Realm. Another example would be some people with powerful battle techniques, but they can't challenge the Undying Soul realm, so they might choose not to challenge it."

Han Fei interrupted, "Let me ask you, don't we have to challenge all seven soul realms?"

Someone who didn't say anything immediately said, "Of course not. Everyone may challenge different soul realms based on their own needs. They felt there was no need to go to some soul realms, so they chose not to go to them."

Han Fei nodded. "Okay, got it. No problem."

Seeing that Han Fei and the others didn't have any other questions, they dispersed. A low-level Soul Fruit was also a Soul Fruit. This business was worth it.

Under everyone's eyes, Han Fei and the others smiled at each other and jumped into the entrance.

Immediately, someone sighed. "Sigh, I'm afraid this prehistoric soul realm might not be able to stop them from entering the list again."

Someone shook his head. "Not necessarily. The prehistoric soul realm is rather dangerous. Even prodigies may die in it. Isn't that common?"

Someone sneered. "Do you think someone like Han Fei will die in the Prehistoric Soul Realm?"

"Haha! Of course not!"

...

When there was light in front of them, they found a vast grassland. There was blue sky and white clouds, flowers and trees in the distance, as well as insects, birds, fish, beasts, exotic plants, mushrooms, and gravel.

It was similar to the Underground City.

Luo Xiaobai said, "Let's not go in for now. Han Fei, what do you think Tang Yan and Li Daxian want?"

In any case, it was not because they were weak. In that case, it could only be that these soul realms were useful to them, or that they could obtain some information.

However, what puzzled Han Fei was that he couldn't bring the information of the ideal palace out! So why did they bother to get the information here?

Take himself for example. Although he knew that the Azure Dragon needed his body, if he left the Ideal Palace and lost his memory, he would not be able to find its body.

Han Fei thought for a moment and said, "I don't know the specific reason. Maybe there are other opportunities here?"

Le Renkuang scratched his belly and asked in confusion, "Why did they appear at the same time?"

Luo Xiaobai shook her head. "No, they might not have appeared at the same time. They might have made the same choice because of something in the long river of time. Therefore, they might have happened to appear on these lists."

Zhang Xuanyu said, "I don't know how long ago it was. There are no records of it outside the Ideal Palace."

As Li Luoluo summoned the bug army, she absentmindedly said, "That's right, it might just be a coincidence."

Han Fei didn't believe in coincidences. What seemed to be coincidences often hid some unknown secret behind them. It was just like when he met Yang Ruoyun repeatedly in the level-three fishery. In fact, it was not a coincidence. In the end, this woman turned into a fish and ran away.

Suddenly, Li Luoluo said, "There are creatures underground."

The few of them shivered slightly.

Luo Xiaobai grabbed with one hand and a large number of demon thorns reached out from the ground. What was pierced on the demon thorns was a meaty thing. At this moment, it had been stabbed to death and its soul had been destroyed by Luo Xiaobai.

"A rat?"

Han Fei couldn't help but smile.

That made sense. It would be strange if there were no rats here

Han Fei's ears twitched and he heard rustling sounds. There seemed to be people fighting in all directions, but his vision was blocked by an arc-shaped slope ahead.

Han Fei said, "Let's go and take a look."

Crossing the curved slope, Han Fei was shocked to find that there were rabbits as fast as lightning. The nearest one was fighting a rabbit.

However, the rabbit could jump into the air and flash. Because it was very fast, it could occasionally ambush intruders. Therefore, it seemed that the rabbit wasn't very weak.

Of course, in the eyes of Han Fei and the others, they weren't very strong.

Although the chances of dying in the Soul Realm were very high and they could kill and steal treasures, those who could stay here to hunt rabbits were obviously not strong. Which strong master would hunt rabbits for no reason? Of course, there would not be strong masters who would rob these bored people.

Those who could rob each other were mostly evenly matched in terms of strength. Neither of them was much stronger than the other, so the probability of dying was low.

Han Fei pointed at the forest in the south and said, "That way, let's go into the forest first.. There are only ordinary creatures on this vast grassland."

Chapter 1075: A Rich and Colorful Prehistoric World

Han Fei pointed at the forest because he saw a shadow in the distance. It didn't seem far. He really didn't care about the ordinary mice and rabbits on the grassland.

Li Luoluo said, "I haven't seen these creatures before, but they look different from those in the Underground City. What are they? They look cute."

Li Luoluo pointed at a rabbit that was half-squatting on the ground. The rabbit was looking at Han Fei and the others curiously, as if it thought that there were too many of them. Seeing that Han Fei and the others were looking at it, it turned around and ran away.

Han Fei thought to himself, Don't make a fuss! It's perfectly normal for there to be rabbits on the grassland, but I can't tell them. Obviously, I'll expose my knowledge.

Han Fei immediately said, "Why do you care? It's delicious anyway."

Le Renkuang was refreshed. "Is this edible?"

Han Fei said unhurriedly, "Any living creatures with flesh can be eaten. But right now... they are all souls. They are all fake."

Le Renkuang looked at Han Fei. "Why didn't you get some back in the underground city?"

Han Fei snorted. "I was too busy traveling. Who would remember this? Forget it. If I have the chance to return to the Scattered Stars Island, I'll collect some."

Li Luoluo said, "Why are you two like this? I said it was cute, so cute, but all you think about is eating?"

Le Renkuang mumbled, "What's the use of being cute? It can't be eaten."

Luo Xiaobai said, "Let's stop chatting and go inside first. It's said that there are many visualization stones in the prehistoric Soul Realm. Let's go and take a look... If it doesn't work, let's take a look and then go to the War Soul Realm!"

After running for about twenty kilometers, they suddenly said to Luoluo, "Look, it's that furry creature just now."

Han Fei and the others also noticed it. However, a nest of rabbits had come instead of a rabbit.

Luo Xiaobai asked in confusion, "Are these creatures after us?"

Han Fei found it funny. He never thought that he would be targeted by a group of rabbits one day.

However, soon, Han Fei saw a weird rabbit jumping behind the rabbits.

To be precise, if it hadn't been with the rabbits, Han Fei would have wondered if it was a rabbit. It was bigger than his impression of a calf. Its two huge ears were hanging on the ground, and it walked with its ears.

Yes, the rabbit had no feet. Or rather, its feet were almost negligible. Its ears were covered in red and white stripes, and its two buck teeth were exposed with a ferocious look.

Oh no, because its head and body were indistinguishable, the body looked like the head.

Pa!

Pa!

That strange rabbit walked as if it was fighting. With a slap, a small pit was formed on the ground.

Li Luoluo said, "This is not cute at all."

Zhang Xuanyu said, "The land creatures are so strange! I just want to ask, are they ears?"

Luo Xiaobai said, "Don't underestimate the enemy. Ears are not the key. The key is that these creatures are very fast, and this big one is probably their king."

Han Fei scratched his head. "Well... Who will solve it?"

Swish! Swish! Swish!

Vines and flowers were already sprouting from the ground. Vines slithered across the ground like snakes, trying to reach the rabbits.

"Yi, Yi!"

The moment Luo Xiaobai made her move, the ordinary rabbits darted out at lightning speed.

As for the rabbit, it stretched out its ears and released tens of thousands of red and white hair. However, the hair was like needles that shot directly at Luo Xiaobai.

The hairless rabbit ears looked even stranger. The edges of the ears looked like they were embedded with a golden edge. One could only see that the rabbit was spinning around itself like a top.

However, perhaps because it was too fast, it formed a blade storm.

Han Fei was shocked. How could a rabbit be so strong? No matter how strange it looked, it was just a rabbit.

Le Renkuang shouted, and everyone put on their armor, but he did not activate the Ultimate Defence.

Ding ding ding!

Just like flowers falling on their armor, their armor turned red and white like fog.

Zhang Xuanyu was surprised. "That's not right. The hair has a strong penetrating power! Although it can't pierce through the armor completely, it can weaken Kuangkuang's armor quickly."

Bang!

From time to time, vines would stretch out from the void or open their large mouths. Those ordinary rabbits would almost certainly die if they were hit.

Luo Xiaobai said, "Don't waste time here, Zhang Xuanyu."

Zhang Xuanyu grinned and struck out with his rod. Time was frozen. A spear gleam pierced through almost a hundred meters and pierced through the crazily spinning rabbit.

"Pfft!"

The big rabbit didn't expect that Zhang Xuanyu and the others would be so strong. It rolled on the ground and a hole was blown out of its body.

However, to the surprise of Han Fei and the others, the rabbit cried and all the rabbits returned to protect the big rabbit. The dancing rabbit fur approached the big rabbit-like mist.

Now, how could Luo Xiaobai let the rabbit go?

The rabbit did not even notice that a palm-sized blue flower bud could block its path. In the next second, a dark blue flower appeared and enveloped the rabbit before swallowing it whole.

Luo Xiaobai seemed to have done something insignificant. She said casually, "It's not weak at all. It's a peak-level Hidden Fisher. It will take some effort, but we shouldn't lose."

Zhang Xuanyu licked his lips and said, "We just came in. It's much easier than when we entered the underground city. When we first entered that damn place, there were creatures everywhere."

Luo Xiaobai sensed it. "There are no so-called visualization fossils, not even soul crystals."

Han Fei said, "Maybe it's too weak. Let's go inside."

A moment later.

The five of them traveled together, not scattering. Not only did they have to face Soul Realm creatures, they also had to prevent the big clans' sneak attacks.

Once he was alone, it would be extremely dangerous.

At this moment, the grassland had already become a true grassland. The grass here was almost as tall as a person, and there were even taller ones ahead.

In this unfathomable Soul Realm, such a terrain was obviously disadvantageous. Han Fei didn't even know why such tall grass grew on the grassland.

Han Fei heard a low growl.

Han Fei's first thought was that he had encountered a wolf! According to the land creatures of this world, wolves should be powerful creatures.

Besides, only wolves would travel in packs, right?

Han Fei: "Be careful. There are many creatures here."

Luo Xiaobai nodded. "I know. Let's go through this area quickly and reach the forest."

The five of them started to run wildly. However, the moment they started running, they heard howling sounds. It seemed like the wolves had attacked at the same time.

"Woof!"

Han Fei: "???"

Han Fei was stunned for a moment. Not wolves, but dogs?

Roar!

"Woof woof."

At that time, Han Fei was in a bad mood. Were they surrounded by a group of dogs? Dogs did call for friends.

Perhaps it was because they were too bored. With a loud howl, howls sounded from all directions.

Han Fei cursed, Why were a bunch of dogs lurking here? Shouldn't you go to the grassland to catch rabbits?

In the blink of an eye, from the left, right, and front, many grey haired mutts surrounded them. These things were extremely fast, their fangs were bared, and their drool was dripping down.

Luo Xiaobai said, "Charge."

Chi la!

A mutt leapt into the air. Three fierce claws tore through the void.

Le Renkuang roared and sent his shields flying. However, ordinary shields were torn apart by a claw.

"Damn!"

Zhang Xuanyu fell to his knees and slid on the ground. As the rod pierced through the air, waves rose and he shouted, "This claw is weird. It seems to be able to tear my soul apart."

Boom!

Han Fei punched a mutt into smithereens and said, "It seems that it's still the same as the underground city."

Luo Xiaobai said, "Ultimate Defence."

"Roar!"

Le Renkuang bit a mutt in half with his Sky Swallowing Technique. Then, the Infinite Tortoise Shell appeared, and the five of them rushed into the range of Ultimate Defence.

Roar! Roar!

Roar!

Chi! Chi!

There were fifty to sixty mutts leaving dark red claw marks. Even Le Renkuang's Ultimate Defence was sometimes weak and sometimes strong.

Fortunately, he was in the Ideal Palace. Otherwise, Le Renkuang might not have been able to stabilize his armor at all times.

Han Fei and Zhang Xuanyu attacked from time to time.

Li Luoluo's bug army followed, occasionally wrapping around a mutt and gnawing it.

The moment Han Fei and his team rushed out of the grassland, the grassland became a shallow layer again. However, because they were too fast, the grass on the ground stood up and turned into steel needles.

Luo Xiaobai's reaction was very fast. Five vines carried five people as they moved through the needle grass like skateboards.

Pop! Pop! Pop!

Before they even crossed the grassland, they saw a large patch of dandelions that were at least two to three meters wide floating in the air. Their fluffs spread out in an instant, covering the entire sky.

Le Renkuang wailed, "I knew it. The land is not simple.. We haven't even entered the forest, and so many things have already happened."

Chapter 1076: Tiger in the Mountain

In the blink of an eye.

The mutts behind them had stopped their pursuit, but the mass of dandelion fluffs was drifting toward them.

The color of the fluffs was changing. At first, it was white, but in the blink of an eye, it turned bright red. By the time it reached the others, it had turned dark red.

Bang! Bang! Bang!

There was a seed under the feather. These seeds exploded when they hit Han Fei.

Even though the power wasn't comparable to the detonation of a spiritual weapon, the frequency of the explosion was just too high. It was as if fireworks were being set off.

No matter how small a mosquito was, it could still hurt people.

When such a high-frequency explosion occurred, Han Fei felt that this path was not easy to take.

However, Luo Xiaobai was surprised and said frankly, "What a strange spiritual plant. I can use it, but it seems to require a lot of energy."

As the saying went, "When eight immortals crossed the sea, each showed their own power." At this moment, Luo Xiaobai waved her hand in the air, and a large amount of sword grass was pushed away. That was Wenren Yu's usual method.

Although Luo Xiaobai did not use grass swords, there were a lot of them. They were like locusts passing by, blowing up the dandelion fluffs in the distance.

When the vines stopped moving, Han Fei and the others passed through the dandelion-filled area.

Han Fei also looked back. "This is a challenge! Ordinary Hidden Fishers can't enter."

Luo Xiaobai said, "It's not absolute. If it's a good combination, it won't be a problem for you to come in. However, I don't think ordinary people can handle the danger after coming in."

Zhang Xuanyu said, "In any case, I think it's easier than the Blue Sea Soul Realm."

Luo Xiaobai shook her head. "Not necessarily. Right now, we are only in the middle of the prehistoric Soul Realm at best. We haven't even found a Visualization Stone."

Han Fei was also curious. The fossils should be underground, right? Weren't they dug out?

Just as Han Fei and the others were about to go in, Li Luoluo suddenly said, "Something's wrong. There are bugs."

"Bugs?"

Han Fei said, "There are many bugs and snakes in the forest. Are they dangerous?"

As he spoke, Han Fei suddenly twisted his neck. A finger-thick worm fell to the ground, coiling like a mutated earthworm. However, it looked more disgusting than an earthworm.

Han Fei was speechless. Worms?

He certainly wouldn't care about such powerless insects that could be crushed with a single step, just like how no one would care about the ants on the roadside. Even if he activated his perception, Han Fei would automatically ignore it.

However, as soon as the worm landed on the ground, it began to melt into a puddle of yellow water and smoke.

"Ow! I hate bugs."

Le Renkuang shook off two bugs that fell on his head with spiritual energy.

Luo Xiaobai was surrounded by spiritual plants. Any bugs that fell would be eaten by the spiritual plants first.

However, when these worms fell, they turned into water. It looked like poison.

Li Luoluo frowned. "Not good, it's the poison of the soul. This poison can directly harm the soul."

Everyone was horrified. Zhang Xuanyu hurried to say, "Fatty, activate your shield and let me dodge these bugs."

Le Renkuang covered everyone with armor and shouted, "Why are you hiding? Run!"

Li Luoluo sighed. "Actually, I don't think these bugs are dangerous."

Han Fei was also sprinting. "It's not what? These bugs are like rain. Are they attacking people with their lives? If we don't leave now, we will be poisoned to death."

The further they ran, the more they found that there were many bugs on the ground. Some of them twisted and bounced, trying to land on Han Fei and the others.

Of course, this was almost impossible.

At this moment, they were all peak-level Hidden Fishers. How could this happen?

As they ran, Luo Xiaobai said, "That's not right! There are too many bugs."

Han Fei glanced at the green and sticky trees that they passed. At this moment, they looked gloomy.

Zhang Xuanyu said, "Why do I feel that we're in the wrong place? This is different from the underground city. At least the forest in the underground city is normal."

Suddenly, everyone keenly noticed that not far away, there were three small mounds rising from the ground and crawling towards Han Fei.

Luo Xiaobai pressed the air and hundreds of vines grabbed at the three mounds.

However, as soon as the vines sank into the soil, they seemed to melt. However, they also lifted the ground.

What they saw then made them feel dizzy. Han Fei immediately remembered the wormhole under the seaweed wall of the level-three fishery. Yes, it was exactly the same.

Countless small, twisted worms were tangled together, forming a big worm that seemed to want to swallow Han Fei and the others.

"Damn!"

"F*ck!"

Li Luoluo cried out, "This is a bit troublesome."

A large number of seven-colored bugs drilled towards these bugs. For a time, there was a fierce battle.

In other words, a large number of Li Luoluo's seven-colored bugs had withered and it seemed that their souls were directly crushed. Of course, there were also a large number of bugs that had been bitten to death by the seven-colored bugs. In any case, they were evenly matched. However, Li Luoluo could not withstand the large number of the bugs!

She was not here to enforce the law. With the control of the insects, even if she could get rid of these three groups of countless insects, what if a few more came? She would still have to run.

Li Luoluo shouted, "Run!"

The five of them had just stopped and started running again.

This time, it was Li Luoluo's home ground.

The insects that fell from the trees turned into colorful ones and gradually gathered together, running after Han Fei.

Fortunately, the bugs were rather slow. The only thing they had to worry about was the annoying rain-like bugs. They had to guard against them! Otherwise, if they accidentally poisoned them, they might die.

Luo Xiaobai said, "We haven't reached the center yet. These bugs are slow and easy to dodge."

As soon as Luo Xiaobai finished speaking, they saw a long-nosed creature that was as fat as a pig and covered in armor picking up bugs to eat.

"Hmm? Ant-eating beast? No, I don't know this thing."

When the creature saw Han Fei and the others, its scales erected, as if it felt that Han Fei and the others had invaded its territory.

Then it curled up into a ball and rolled toward Han Fei and the others with dazzling golden light.

Han Fei threw a punch back. However, layers of ripples appeared on the surface of the creature's body, which seemed to be some kind of counterforce. Han Fei's punch failed.

Le Renkuang shouted, "What creature is that?"

Han Fei asked, "How do I know? Anyway, it's weird."

Zhang Xuanyu said, "What's strange? We've seen many strange creatures in the underground city! Look, there are three more balls over there."

Li Luoluo was speechless. "Why are these creatures all living in groups?"

Han Fei replied, "Otherwise, wouldn't so many insects eat the entire forest? There must be creatures that can restrain them."

After the "balls" failed hitting them many times, Han Fei finally arrived at the real forest.

Why was it called a real forest? It was because there were more plants here. There were exotic flowers and small amounts of fruits.

However, Han Fei was a bit confused. In this world of souls, would they feel anything after eating these fruits?

Le Renkuang followed the creed that Han Fei taught him. Anything black could be eaten. He immediately grabbed one of the spiritual plants.

However, the moment he stretched out his hand, the fruit that was originally a fruit suddenly split open its mouth and eyes.

“What the hell?”

Han Fei chopped the black fruit, and much green liquid spurted out. It looked more like blood. The fruit turned out to be a snake.

Han Fei was lost for words. “You idiot, all you know is to eat.”

Le Renkuang was speechless. “They’re disguised too much like fruit!”

“Ga ga ga ~”

Suddenly, a burst of laughter was heard. It was from a tree not far away. A red-backed monkey was laughing while pointing at Le Renkuang.

Le Renkuang’s face turned red, and he slashed over

The monkey grabbed the branch with one hand and jumped onto another tree at lightning speed. Le Renkuang’s attack seemed to have angered it. The monkey bared its teeth at Han Fei and threw the banana in its hand at them like a cannonball.

Luo Xiaobai waved her vines to block the banana. At the same time, blue flowers appeared beside the monkey.

Bang! Bang! Bang!

The flower exploded, giving the monkey a fright. It quickly ran away. Occasionally, it would stop and scratch its butt, baring its teeth at Han Fei and the others.

Le Renkuang shouted, “Don’t run if you dare! Otherwise, I’ll kill you.”

Han Fei looked at Le Renkuang in disdain. “Enough. You’re quite capable of quarreling with a monkey.”

Luo Xiaobai immediately looked at Han Fei. “Monkey?”

Han Fei’s heart skipped a beat and he thought to himself, I’ve let it slip!

So, Han Fei hurried to say, “Oh, I’ve seen such creatures in the Snow God’s Temple. They seem to be called monkeys.”

Zhang Xuanyu asked, “Why are there all kinds of creatures in the Snow God’s Temple?”

Han Fei sneered. “It’s a prehistoric secret realm too. Isn’t it normal to have these creatures there? Besides, I don’t know all of those creatures.”

“Roar!”

Han Fei was still talking!

Suddenly, deep within the forest, there seemed to be a thunderous roar.

Han Fei thought it sounded familiar, but he couldn't hear it clearly because it was too far away. Anyway, it was at least 500 kilometers away.

"Why does it feel like a tiger's roar?"

Chapter 1077: Fierce Tiger Descends the Mountain

Han Fei didn't think too much about it. Even if it was a large creature, he should be able to defeat it, right? Anyway, it was just the first stage of the Prehistoric Soul Realm.

Everyone continued forward. There were definitely demons in the forest.

Along the way, the slaying of snakes and exterminating insects happened more than 30 times.

The most powerful one was a three-headed python that could spew three kinds of strange flames. More than half of Luoluo's insect swarm had been destroyed in one go. Even Luo Xiaobai had suffered a little.

Le Renkuang finally picked the fruit that he wanted to eat. It was the loquat that Han Fei gave him. It also grew here, so he recognized it.

Le Renkuang munched on the fruit and said, "And juice! I feel that there's no difference between the state of the soul and the normal state."

With a thought, a peach appeared in Han Fei's hand and he took a bite. "Are you stupid? Where are we? This is the ideal palace. Can't you think of something to eat?"

Le Renkuang, who was stuffing loquat into his mouth, froze and was dumbfounded. Yes! I'm in the ideal palace now. Can't I think about what I want to eat?

At that time, Le Renkuang vomited loquat, and two grilled fish appeared in his hand.

Luo Xiaobai rolled her eyes. "Stop eating. This is a Soul Realm, after all. You have to be careful. Your imagination will consume your mind!"

Squeak, Squeak!

Han Fei's ears twitched. He seemed to have heard a commotion. It sounded like monkeys.

Han Fei immediately shouted, "Wait, there's something."

Luo Xiaobai and the others looked at Han Fei.

Zhang Xuanyu mumbled, "You have good hearing."

Han Fei's ears twitched again, only to find that the voice was gone. He thought for a moment and said, "We might have broken into... the territory of some creature."

Thinking of territory, Han Fei thought of the playful husky he met in the underground city. Creatures with their own territories were usually not easy to deal with.

As expected, there wasn't even a single large-scale battle after traveling for over a hundred kilometers. It was as if the surrounding creatures had suddenly become much weaker.

Suddenly, Li Luoluo pointed at a shadow in the distance and said, "Look, isn't that a monkey?"

Han Fei turned around and saw that it was really a monkey! A monkey was casually eating bananas on a tree.

The monkey seemed to have noticed Han Fei and the others. It bared its teeth at them and Le Renkuang pretended to raise his knife to cut it.

Zhang Xuanyu thought for a moment and said, "That thing doesn't seem to like fighting. Other creatures want to kill us, but that monkey seems to like eating. His personality is similar to Fatty's."

Le Renkuang was lost for words. "I look like it? How can I look like it? I can cut that skinny thing with one slash."

Han Fei said with a smile, "However, this monkey seems to be very familiar with the environment here. We can follow its trail and walk inside."

Luo Xiaobai nodded. It was rare to meet a creature that did not seem hostile. Besides, the monkey did not seem very strong. Since it was safe here, the route it chose might be safer.

They immediately changed directions and chased after the monkey.

Seeing that Han Fei and the others were running towards him, the monkey jumped onto a tree branch and roared. With its hands on its waist, it pointed at someone, bared its teeth, and threw the banana skin over.

However, Han Fei and the others were definitely not slow.

When the monkey saw Han Fei and the others rushing over, it immediately ran for its life. Its agile movements were like Spiderman's, and the monkey could even enter the void.

After running for more than a hundred miles, the monkey was anxious when it saw that it hadn't escaped from Han Fei and the others. It quickly changed directions and started running.

After about half an hour, the monkey suddenly jumped off of a nearby tree.

Roar!

In an instant, whistling sounds shook the forest, and all living things were terrified.

That roar was like rolling thunder, raising a cloud of dust.

A colorful tiger more than ten meters long jumped out. When the tiger's face, sharp teeth, and its overbearing aura were shown in front of Han Fei and the others, even Luo Xiaobai was scared away.

Zhang Xuanyu jumped backward in shock. "What is it?"

"Tiger, King of the Forest."

Hearing that, Le Renkuang immediately covered them with armor and said with a trembling face, "I can tell that it's not simple! It has already written the word 'King' on its head. How can it not be powerful?"

Han Fei didn't understand Le Renkuang's logic. That was just the way tigers looked. They didn't write that word on their heads, OK?

"Squeak, Squeak..."

The monkey had climbed to a tree far away and pointed at Han Fei and the others, especially Le Renkuang. Then it threw a banana at him.

"Roar!"

In an instant, a fierce wind howled through the forest. The wind carried a terrifying vibrating force, and the tiger's roar directly attacked everyone's souls.

Han Fei spread his Phantom Glass Wings, stepped on the Coiled Turtle Array, and punched directly.

However, in everyone's eyes, they saw the tiger strike out and tear the void apart. A fierce claw mark dozens of meters long directly shattered Han Fei's attack, but it was completely fine.

However, Han Fei's punch provoked the King of the Forest. The tiger growled again, and an illusion that was at least five times larger than itself appeared on its body. With a pounce, the tiger came down from the mountain.

"Divine Turtle Shield, Ultimate Defence."

"Sacrificial Punch."

Han Fei didn't dare to take it lightly.

Previously, he had thought it might be his illusion instead of a tiger's roar. But now, he really did not expect it!

In Han Fei's impression, this thing could easily dominate the ocean if it could have swum.

Han Fei dodged in the air, ignoring Le Renkuang's Ultimate Defence. The moment the tiger lunged at him, he unleashed the Sacrificing Punch.

Crack!

Ultimate Defence that Le Renkuang had always been proud of was slapped so hard that cracks covered it like broken glass.

The violent quake caused Le Renkuang to vomit blood.

Fortunately, Luo Xiaobai was quick enough to pull Le Renkuang and the other two out.

Han Fei's Sacrificing Punch burst out with the help of the array and the law of gravity. He first pressed the tiger down with the law of gravity, but it didn't fall to the ground.

That fierce tiger turned its head and roared. A wave of yellow shockwaves hit the Sacrificial Fist.

However, Brother Tiger was not as powerful as that azure dragon. The explosion was so powerful that it flattened everything within a hundred meters. Within a thousand meters, there were broken branches and trees.

Squeak, Squeak!

The monkey was blown away. When it managed to jump out of the chaos, it pointed at Han Fei and cursed.

In the blast, the Tiger King's blast failed to block the Sacrificial Fist. Its body was sent flying and rolled on the ground for dozens of meters.

To Han Fei's surprise, the tiger shook its head and growled. The huge shadow disappeared, leaving only a body emitting a faint golden light.

"Hiss!"

Not only Han Fei was stunned, but even Zhang Xuanyu and the others were also stunned. How could this Prehistoric Soul Realm be so powerful? Was a random creature here a king? Even Han Fei's punch was useless?

However, although Han Fei was surprised, he was not afraid at all. His figure flashed in the void and he shot out the Void Line, ready to take down the tiger directly.

However, when that tiger raised its head, the lines on its forehead transformed into a strange king shield to protect its body. The Void Line returned empty-handed and could not hold the soul of this tiger.

Buzz!

Han Fei's body shook and the Gravity Law that he had just cast was shattered.

However, Han Fei took the opportunity to drip the Infinity Water on the tiger.

"Explode!"

Rumble!

The tiger was blown more than a hundred meters high. Finally, a large part of its belly was blown up by Han Fei.

"Roar!"

The roar of a tiger shook the heavens as a gigantic tiger shadow descended from the sky.

Le Renkuang was shocked. "It's still alive?"

Swish! Swish! Swish!

Vines drilled out, quickly forming giant vines that lashed at the void like giant whips.

With Zhang Xuanyu's Time Freeze, the giant vine was instantly turned into ashes.

Luo Xiaobai frowned and pointed at the air. "Parasite!"

Zhang Xuanyu took the opportunity to freeze time, and he suddenly stabbed the tiger in the stomach.

With a thought from Han Fei, the Golden Giant appeared. He formed the Sacrificing Punch with his hand, and the array was condensed at the mouth of his fist.

Le Renkuang was dumbfounded. He opened his mouth and tried to eat the tiger with Sky Swallowing Technique.

However, in the next moment, everyone was dumbfounded. They saw the giant tiger suddenly grow a pair of wings on its back. It flapped its wings and actually jumped up to avoid the attack.

As for the Sky Swallowing Technique, it was useless. The tiger's body rolled in midair as its body suddenly enlarged ten times. Its claws tore through the void where the Sky Swallowing Technique was.

Han Fei's terrifying punch collided with the enormous shadow of the tiger claw and exploded in midair, creating ripples in the air.

However, the tiger was once again sent flying high into the sky by the Sacrificial Fist.

In an instant, everyone was in the air. The ground battle had turned into an air battle.

Li Luoluo was dumbfounded the entire time. She had wanted to hit that tiger! However, the battle happened in that split second, and the attack was too fast and too fierce! In just a moment, the surrounding hundred meters and hundreds of meters had been flattened.

"Is this the fighting speed of the Thug Academy?"

Chapter 1078: Visualization Fossils

In the sky, all kinds of weird branches and leaves were growing on the tiger's body. They were all Luo Xiaobai's masterpiece of parasitism.

However, the tiger's body shook. Yes, it shook. All the spiritual herbs that were parasitizing it shattered. This was the difference between the king of the forest and ordinary creatures.

The first thing Han Fei thought of was the monkey. He was sure that the monkey was up to something. They had taken a different path, thinking that following the monkey would save them some trouble.

Who would know then they directly bumped into this damned tiger king?

At this moment, the tiger had grown a hundred meters long. It opened its bloody mouth, and a strong wind raged. It seemed to be working hard, but Han Fei injured it repeatedly. This made the tiger king lose face.

Therefore, the Tiger King just ignored Luo Xiaobai and the other three. It simply struck out with its claws, causing the void to vibrate. Its might was unparalleled.

Seeing that the tiger had its eyes on him, Han Fei dodged in midair and saw explosions in the sky.

From time to time, the tiger would turn around and let out a roar.

“Netherblue, soul-eating.”

“True Martial Fiend Saber.”

“Momentary...”

“Hehehe, worm-eating.”

The sky was filled with spiritual plants and seven-colored lights.

As the saying went, two fists couldn't defeat four hands. Even though the tiger was very strong and its claws were powerful, it couldn't defend against so many people at the same time.

Therefore, it was hit by Han Fei and company more than once.

However, the heavens were fair. If they gave you flaws, they would also give you strengths.

Although this tiger did not have many tricks, its strength was unparalleled. Its physique was very strong. Besides, it still had a strange soul protecting power. It was like a super fighter that could both defend and fight.

Zhang Xuanyu exclaimed, “Is the Prehistoric Soul Realm so dangerous? It's only the middle stage, right?”

Han Fei said in a low voice, “Shut up, we're probably going the wrong way.”

As soon as Han Fei finished speaking, a void stone tablet appeared in the sky.

Instantly, Han Fei's name was branded on the 91th place. Le Renkuang was at the 98th place. The others were not on the list yet.

The moment they saw the Void Stone Tablet appear, the five of them perked up.

Indeed, they had taken the wrong path.

This monkey had probably directly brought them to the latter part of the prehistoric soul realm.

However, Han Fei was surprised. They hadn't gone far, so how did they suddenly encounter such a powerful creature?

At this moment, the tiger king roared. Four golden wheels appeared under his four claws, resembling an array diagram.

Shua!

With a leap, the Tiger King disappeared into the void.

Han Fei and the others immediately went back to their defense. Han Fei widened his eyes. “It just disappeared?”

Zhang Xuanyu shouted, “Over here.”

As he spoke, Zhang Xuanyu used Soul Explosion and aimed at a corner in the void. Then a giant tiger claw reached out of the void.

The soul explosion and spear light were directly shattered, and the tiger claw phantom was also pierced through.

Le Renkuang raised his saber and shattered the claw.

On the other side of the void, the shadow of the tiger claw reached out again. Luo Xiaobai's vines wrapped around the void. The vines collapsed, and a thousand blue flowers bloomed. They exploded one after another and shattered the tiger claw again.

However, in the void, the shadow of the tiger claws extended faster and faster. Han Fei stood proudly and punched in all directions.

Luo Xiaobai said, "Something's wrong. Where is it hiding?"

Han Fei shouted, "Fuse!"

When the Yin-Yang Eye appeared, Han Fei saw a thousand-meter-long invisible tiger flapping its claws in the sky. He was stunned.

"What ability is this?"

Swish swish swish!

Han Fei activated the Agility of Wind and continued to rush forward. With his invincible will and the Sacrificing Punch, he punched at the void.

Zhang Xuanyu shouted, "Fei, where are you going?"

The scarlet red Sacrificing Punch imprint was like a stream of fire in the sky, streaking across the sky, leaving behind blazing traces, even the sonic boom clouds were dyed red.

"Roar!"

In the void, a pillar of light descended. The huge pillar of light was more than ten meters wide and enveloped both Han Fei and the Self-Sacrificial Fist.

Rumble!

On the void stone tablet, Han Fei's name directly appeared above the 68th place.

The giant shadow dissipated and a brightly colored tiger jumped back into the battlefield.

It was not until this moment that they realized how terrifying the creatures on land were! In terms of toughness, they seemed to be even stronger than Han Fei.

The battle lasted for an hour.

Even though Han Fei was also attacking, they failed to take down this powerful tiger.

Of course, with Han Fei around, they cooperated well and the tiger couldn't do anything to them.

Han Fei was horrified. This was the first time he had encountered an unkillable creature! After all, it was only a soul, and all his methods were useless.

Even if he used his full strength, he couldn't kill the tiger! Han Fei was speechless.

However, this also made Han Fei realize the benefits of body tempering. As long as his body was strong enough, no matter how others bombarded him, it would be very difficult for him to die.

Below, the monkey nearly fell asleep from watching. In the beginning, it clapped its hands in excitement and even ate a banana. However, as it fought, it lost interest when it saw that even a tiger couldn't beat those people.

Squeak, Squeak!

In the end, the tiger seemed to realize that these people were too powerful to fight. Thus, it jumped and ran.

Han Fei and the others were also stunned. Why did it just leave after fighting for so long?

After the tiger ran away, the Void Tablet also disappeared. In the end, Han Fei was only ranked 57th.

Perhaps because the battle had lasted for too long, even Li Luoluo had entered the rankings and was ranked 98th.

And once the tiger ran, the monkey ran as well.

Under everyone's gaze, the monkey dashed through the trees in the distance, heading deep into the forest.

The direction that the monkey was heading toward was within the mountain range. Everyone could not help but feel curious about that mountain range.

Luo Xiaobai's face was slightly pale. "This creature is too strong. Its body is far stronger than any other creature we have encountered so far."

Han Fei nodded and couldn't help feeling amazed. For the first time, Han Fei felt that his body and strength were not strong enough.

He felt that if he could use the power of law enforcement, he might have a chance of winning.

Han Fei said, "Forget it. Some creatures can't be beaten! This shows that we are not strong enough."

Li Luoluo grimaced.

As a bystander, she was quite speechless. Is this not strong enough? What kind of power do you want then?

Le Renkuang sighed. "This is the first time I've found a creature that can crush my Ultimate Defence with two slaps! This creature is too terrifying."

Han Fei glanced at the direction where the monkey had just run and said casually, "Shall we go over and check it out?"

Luo Xiaobai suddenly said, "I'm thinking about something. It's said that there are a lot of visualization fossils in the Prehistoric Soul Realm. Why haven't we seen them yet?"

Le Renkuang nodded. "Yes! Did we go to the wrong place from the beginning?"

Han Fei looked at the distant mountain range and asked, "Is it there?"

Zhang Xuanyu was lost for words. "How many people can get the visualization fossils if it's over there?"

Han Fei thought that it made sense. They thought that the so-called visualization fossils were just there and they could get them as long as they came in.

However, even now, they only fought, not even seeing the fossils' shadow.

Han Fei said, "Then let's go in another direction! At least find other trainers first."

Two hour passed.

Han Fei and his team ran to a mountain range where many people were digging in groups of five.

The arrival of Han Fei's team did not attract anyone's attention at first, because they were all five-person teams. They were equally matched in strength, so they would not panic if they really fought.

Li Luoluo said, "As expected, we went in the right direction. That monkey led us the wrong way."

Han Fei scratched his head. It seemed that he proposed to follow the monkey.

Also, the visualization fossils were indeed dug from the mountains.

The five of them landed and blocked the entrance of a cave.

Immediately, the expressions of the five people digging the mountain changed.

These people seemed to have been digging here for a long time, so they didn't know Han Fei. The woman in the lead looked at them coldly. "What do you mean?"

Han Fei thought for a moment and smiled. "I have a few questions."

Before the woman could say anything, the others were already prepared for battle.

Someone shouted in a low voice, "Don't try to find trouble! There are opportunities below the mine. Everyone mind their own business. If you want to find trouble, I'm afraid you've found the wrong place."

Buzz!

As the law of gravity descended upon them, their bodies suddenly went limp, and they were extremely shocked.

Someone cried out in alarm, "The power of laws, that's impossible! How could you use the power of Laws in the ideal palace?"

Han Fei smiled. "Well, I really just want to ask a few questions. It's very simple."

The woman's attitude softened. "What do you want to ask?"

Luo Xiaobai said, "Are the visualization fossils dug out?"

Those people were stunned. This was the first time these people came to the Prehistoric Soul Realm?

That woman nodded. "Most of them were dug out. The deeper we go into the mountain range, the better the visualization fossils we can dig. It's even said that there's a visualization cliff in the deepest part of the mountain range that allows us to comprehend the Dao."

Another person said, "But digging the visualization fossils can also be dangerous. When digging, you must stay clear-headed and not get lost."

Han Fei and the others looked at each other. Lost?

Han Fei asked, "What do you mean?"

The woman said, "Being lost means being attracted by the Visualization Stone and entering an illusory space. There's a chance of dying there."

Han Fei and the others looked at each other tacitly.

Luo Xiaobai continued, "Is there any level of visualization fossils?"

The woman didn't mind answering such a simple question. She said straightforwardly, "There are several types of visualization fossils. One is the enlightenment visualization fossil which can be used at any time after being dug out. It can be used to comprehend certain characteristics of prehistoric living beings and strengthen one's comprehensive strength and the power of the soul. Another type is visualization skeletons, which are the fossil remains of prehistoric living beings. They can be forged into weapons, but you must distinguish the difference between the remains and fossil remains. Even outside the Soul Realm, they can be extremely lethal to the soul. As for the third type..."

Han Fei asked, "And?"

The woman said, "They're quite peculiar. I heard that someone was lucky and obtained one before. They said that he obtained an entire visualization bone and had the chance to comprehend a certain ability of that prehistoric creature, but we've never seen it before."

Han Fei and the others were surprised. Zhang Xuanyu's eyes glittered. "Is there a way to improve one's physique?"

The woman shook her head. "I don't know. Even if there is, it's not in the ideal palace."

"No more?"

The woman nodded. "Visualizing fossils are already very powerful. With ordinary visualizing fossils, one can already comprehend some characteristics. Although the effect might not be ideal, it accumulates! Comprehending a little of all the characteristics and raising one's overall strength might not necessarily be weaker than comprehending the ability of a prehistoric creature.. Therefore, every visualization fossil is very precious and rare."

Chapter 1079: Where Are They?

Han Fei didn't intend to rob them directly, because he had just arrived at the foot of the mountain and hadn't even gone up yet. What could they dig up?

However, Luo Xiaobai asked, "What dangers are there in this mountain range?"

After experiencing the ferocious tiger, Luo Xiaobai felt that monkeys and tigers were not ordinary creatures. Even though monkeys were much weaker, they seemed to have high intelligence! Therefore, she felt that she had to be careful.

That woman said, "There are naturally some powerful creatures in the mountain range. However, with your strength, I don't think you are afraid. However, there are two things you need to pay attention to."

Luo Xiaobai asked, "Which two points?"

The woman said, "Do not enter the territory of some powerful creatures. If you reach Death Valley, do not enter."

Han Fei and the others were slightly stunned. They certainly knew about territorial awareness. For example, in the territory of the powerful tiger just now, they couldn't kill the tiger even with their combined strength. It seemed that creatures with territories were not weak.

However, what kind of place was Death Valley?

Luo Xiaobai asked, "Where is Death Valley?"

The woman shook her head. "No one knows where Death Valley is, but there will always be people who meet it. Most of the people who went in didn't come out, so no one knows what's inside Death Valley."

Han Fei asked, "How do we know what Death Valley is like?"

The woman was silent for a moment before she said, "It's said that it's a low valley in a mountain range. No one knows exactly where it is until now. Although the mountain range looks like it's only this big, there's fog in the depths of the mountain range. Therefore, it's unknown where you'll go and what you'll see. After all, it's shrouded in fog and no one knows where to go. In short, unless you're strong, you can't barge in recklessly."

Han Fei withdrew the law of gravity and looked at Luo Xiaobai before they left.

The five people in the cave heaved a sigh of relief.

After a long time, someone said, "Who are these people? They can actually use the power of laws in the Ideal Palace... Is there any precedent?"

Someone shook his head. "It might not be the power of law. This doesn't make sense. Even the top ten geniuses probably don't have this ability, right?"

The woman pondered for a moment. "No matter what, we should dig somewhere else. Did you guys notice? When they heard about the creatures with territories, they didn't take it to heart at all. They didn't even ask. What does this mean?"

Someone took a deep breath. "Does that mean that they've been to those territories?"

The woman nodded. "To be able to survive under the hands of those territorial creatures, they are definitely not ordinary people. We shall not mess with them."

...

Han Fei and the others were already climbing the mountain.

Of course, they were not the kind of people who would retreat just because of a word from someone else. Besides, they did not believe that they could encounter terrifying creatures like the tiger just by entering a random territory.

If that was the case, how should they continue challenging the prehistoric soul realm?

Le Renkuang suggested, "Should we dig somewhere first? We have to see what we can dig out first, right?"

Li Luoluo raised her hand. "I agree."

Zhang Xuanyu sneered. "Are you stupid? Good things are usually in the most dangerous places, so what good treasures can be here? Even if we want to dig, it's not here! Don't you think so, Fei?"

Han Fei nodded. "Yes. What we're looking for is no ordinary opportunity. But we can look for the complete visualization bone. If we can find it, we might be able to figure out something from it."

Zhang Xuanyu nodded quickly. "Yes! It would be best if we can dig out the visualization bone of the king of the forest just now. That body is too strong. If I can figure out how it strengthened its body, my strength will definitely change drastically."

Luo Xiaobai rolled her eyes at Zhang Xuanyu. "You're thinking too much. If you can get it so easily, who knows how many peerless geniuses will appear from the Prehistoric Soul Realm."

Zhang Xuanyu chuckled. "I was just thinking."

After crossing a mountain, the mountains were covered in mist from the second mountain. However, Han Fei could still hear the sounds of digging.

Han Fei thought to himself, I didn't bring Nine Tails with me. Otherwise, I would have him dig through this mountain in a minute.

Han Fei said, "Let's go to the third mountain."

When the few of them entered the fog, they passed two mountains in a row and arrived at the peak of the fourth mountain. Only then did the knocking gradually disappear.

Luo Xiaobai asked, "Is there a problem with the direction we're going?"

Le Renkuang asked, "The direction of the mountain range seems to be the direction we just crossed, right?"

Han Fei scratched his head and narrowed his eyes. "It doesn't make sense! Did we just enter the deepest part of the mountain range?"

Luo Xiaobai said, "That's not bad. That tiger is too strong. We don't know if there will be stronger creatures in the depths. Also, it won't be easy to find Visualization Stones there. We have to start from the beginning."

"I dug something up."

Suddenly, they heard Li Luoluo shout. Then they saw the narrow crack in the stone turn. A moment later, a large bug crawled out with a light red stone.

Li Luoluo picked up the red stone. On it was actually a conch.

However, after seeing the shell fossil, Han Fei was surprised. "Nautilus?"

Everyone looked at Han Fei. "Nautilus?"

Of course, Han Fei recognized it.

It was called the "Panda in the Sea". The Nautilus was memorable because it had a golden screw called the Fibonacci Spiral Lines. Even the famous Monalisa portrait followed the Fibonacci Spiral Lines.

Of course, this was just an ordinary conch for Han Fei, so he was not surprised.

Han Fei thought for a long time and didn't find such a fossil useful. But why was the Nautilus here?

That could only mean one thing: The scenes created by the Prehistoric Soul Realm were either on land before land was drowned by the seawater, or this place was at the bottom of the sea before becoming land.

However, Han Fei didn't think so. From various signs, it was clear that the ocean must have swallowed the land during the Age of Doom. Therefore, Li Luoluo easily found the Nautilus.

Han Fei smiled. "Then you can visualize it and see if it can give you any enlightenment."

Li Luoluo didn't mind this little thing. Instead, she really tried to visualize it.

However, when Li Luoluo put her soul power on the shell, Han Fei and the others suddenly saw that the Visualization Stone was emitting a faint milky halo.

All of a sudden, their eyes lit up. Even something so small could react?

In just a short span of ten breaths, the Nautilus in Li Luoluo's hand silently shattered into dust and dissipated in the wind.

Li Luoluo suddenly opened her eyes and said in surprise, "I seem to have become this Nautilus. How magical."

Everyone was stunned. Turn into a Nautilus?

Han Fei asked hurriedly, "What did you learn?"

Li Luoluo's expression immediately became somewhat awkward. She hurriedly shook her head and said, "No, there's nothing. This thing is too small."

Han Fei and the others didn't believe her. If so, why was your expression so strange?

Han Fei seemed to remember something. When the Nautilus was swimming, it swam through the air bubble circulation in its body like a diving propeller. Were these characteristic skills left behind?

Han Fei changed the topic. "Well, if you want to dig, you should dig from the bottom of the mountain. Since this is the ocean, the good stuff must be below!"

Thus, the group of five arrived at the valley between the fourth and fifth mountain peaks, preparing to dig.

In fact, the boundaries between mountains were not clear. It would be more accurate to describe them as “He should just be in the mountains there. Deep, way deep in the clouds somewhere.” After all, there were tall mountains all over here.

It was dead silent.

With a thought of Han Fei, the Infinity Water turned into a drill and drilled into the mountain.

Le Renkuang directly used the Sky Swallowing Technique and started devouring the rocks and plants.

Han Fei was surprised. “Fatty, why do you eat everything?”

Le Renkuang mumbled, “I’m not the one eating anyway.”

Everyone had their own methods.

Zhang Xuanyu had to rely on himself while Luo Luoluo dug with worms and Luo Xiaobai drilled with vines. He wielded a long rod and unleashed the Nine-Layered Waves of the Furious Sea at the mountain.

Han Fei was lost for words. “Yu! Why don’t you dig further away?”

Zhang Xuanyu sighed. “I’m not as capable as you, sigh...”

With that, Zhang Xuanyu ran away.

...

On the other side.

The woman who answered their questions suddenly said in surprise, “Oh, I forgot to tell them something.”

Someone asked, “What’s the matter?”

The woman said, “You must not open the mountain alone.”

Someone laughed and said, “One look and you can tell that they’re a team. They will definitely team up together!”

The woman thought for a moment. “That’s true.”

...

Han Fei soon drilled a big hole in the mountain. There should be many ancient fossils here.

However, Han Fei had already crushed several pieces of visualization fossils because he wasn’t careful enough. Of course, these fragile fossils weren’t of high quality, so Han Fei didn’t feel sorry at all. However, he definitely couldn’t be an outstanding archaeologist...

About half an hour later, Han Fei dug out a curved white horn that looked like ivory a hundred meters away from the belly of the mountain.

Han Fei was delighted. Sure enough, it was better to dig deeper into the mountain range. Perhaps he might even dig out a dragon horn.

“Huh?”

Suddenly, Han Fei was stunned. Why is it so quiet? Weren't Luo Xiaobai and the others digging the mountain? Why is there no sound?

Han Fei came out of the cave with the ivory. “Fatty, Xiaobai...”

In the end, Han Fei's face changed. It was quiet and peaceful here. There were no signs of digging around. Where were they?

Chapter 1080: I Turn into an Elephant

“F*ck, what happened?”

Han Fei was in a bad mood. He just dug into the belly of the mountain, but why did all of the others disappear?

Han Fei looked back at the cave he dug out. That was nothing wrong!

The cave was right here. Luo Xiaobai, Le Renkuang, and Zhang Xuanyu were digging next to him just now. Why were they gone?

“No! Is the mountain in the ideal palace really a mountain?”

Immediately, Han Fei had a bad feeling.

The entire Ideal Palace was actually created out of thin air. If the mountains here were dug casually, wouldn't they have collapsed long ago with the capability of all these peak-level Hidden Fishers? If not, they should be riddled with holes! Why were these mountains intact? There was no cave at all.

“Damn it, I seem to have overlooked something...”

Han Fei didn't care about the ivory in his hand, because he found that something was wrong with the place where he was standing.

There was death energy here, extremely rich.

There weren't many plants here but mountain rocks and earth everywhere, some of the rocks even dyed red.

“Blood?”

Han Fei narrowed his eyes and his heart sank. They didn't go far, did they? They had only passed four mountains, but they couldn't see anything when they looked outside.

He could not hear anything either. No one was mining, no one was talking, and no one was fighting. It was extremely quiet.

Holding the ivory in his hand, Han Fei walked into the mist step by step. After a thousand meters, Han Fei saw the bones of an animal scattered on a rock not far ahead.

Who knew how long this creature had been dead for? It was like a wolf, most of the flesh on its body already rotten. The entire skeleton was made from the remains of fur and bones.

But it was unexpectedly complete.

If that woman hadn't lied to him before, anyone who could obtain a complete Visualization Stone could use it to comprehend the abilities of prehistoric creatures.

Han Fei thought that it would be extremely difficult to find such a skeleton. If he could find it so easily, strong masters would have been everywhere.

But now, a complete corpse was right in front of him. The only thing Han Fei didn't know was whether the corpse was a visualization fossil or not.

Looking down at the ivory in his hand, Han Fei extended his hand and a fishing rod appeared in the air. With a wave of his hand, he hooked the wolf corpse over.

Han Fei didn't intend to go further in. Instead, he slowly retreated after he hooked over the corpse. He decided to observe and see if he could comprehend anything from the corpse.

After retreating for a thousand meters, Han Fei suddenly realized that something was wrong, because not far away from him, another corpse appeared, which looked like a pig.

Han Fei: "???"

Han Fei immediately looked back.

In the end, what he saw sent a chill down his spine. That was not a f*cking mountain behind him but a dense fog. He could not see any mountain at all.

"F*ck! Where's the mountain?"

Han Fei took a deep breath. Is this... Death Valley?

It wasn't that he was afraid of this place, nor was it that he couldn't get out of the Valley of Death just because others couldn't get out. Han Fei believed that there was no real danger in this world. The terrifying scene created by the danger spot was either that the explorer was not strong enough or that some secrets had not been discovered.

Han Fei looked at the intact corpse that could only be a porcupine. On the back of the corpse, there were large thorns scattered like steel needles.

Han Fei took a breath and summoned Little Fatty and Little Gold.

They didn't think they were in their soul form. Han Fei had never told them about this.

Han Fei said, "Guard me."

Han Fei began to think and spiritual energy lines appeared on the ground one after another. After about five minutes, Han Fei set up a Great Killing Array and seven layers of Defense Arrays around him. Among them, there were three layers of Great Coiled Turtle Arrays.

Seeing that there was still no movement around, Han Fei was relieved.

Little Fatty was looking around and asked curiously, "There's an ominous feeling. The smell of blood here is too strong."

Han Fei nodded indifferently. "I know. I'll cultivate for a short time later. Don't act rashly."

While speaking, Han Fei patted Little Gold's head, who rubbed his head against him.

The reason why he wanted to cultivate now was because there was still no movement in the valley. He suspected that there was something wrong with the ivory in his hand. Perhaps he would know why he was here.

At this point, Han Fei sat cross-legged. He didn't look at the wolf corpse, but held the ivory and branded it with his spiritual power.

The next second, when Han Fei felt something again, he suddenly noticed that the world in his eyes had changed. The changes were more vast and his vision was clearer, but there were bumps.

In his vision, there was a cliff, and he was standing at the edge of the cliff. Looking at the scenery, there were mountains in the distance, clouds and mist could be seen, there were valleys and orchids under the cliff, it was like a paradise on earth.

He subconsciously wanted to move his limbs, only to find that it was difficult for him to control his body.

When he looked down, he saw a long nose and two long tusks.

"Holy shit."

Han Fei was dumbfounded. Did I become an elephant?

For some reason, Han Fei suddenly felt that there were some strange memories in his mind, a kind of absorption technique.

"Roar!"

Han Fei heard a voice behind him. He turned around and looked at it. However, he was not used to this body, so it was not convenient at all.

So, when Han Fei turned around, he found that a strange creature covered in scales was attacking him.

Han Fei instinctively attacked.

As an elephant, Han Fei didn't know how he attacked. Anyway, he instinctively flicked his nose and saw a divine whip of the void piercing through the sky. It directly cut open a crack in the void. The monster was sent flying and rolled hundreds of meters on the ground, leaving a long gully.

"That powerful?"

Han Fei was a little stunned. Are elephants that powerful?

Han Fei wanted to swallow, but a strong wind blew around him and he swallowed a lot of spiritual energy.

Roar!

Sonic waves rippled through the air. Each ripple was like a layer of wind blades.

At this moment, Han Fei finally saw the creature in front of him. It was a weird creature that looked like a snake but had a turtle shell. Its head resembled an oval bun. It was obviously a freak.

The other party twisted his body and used his tortoise shell to block the sound wave.

Clang! Clang! Clang!

The impact was continuous, but the elephant cry contained a strange sound wave.

It was as if there was some kind of magic in this world. A furious roar shook the air and twisted it. The snake tail exploded with a loud bang.

Han Fei was shocked. "Wow, so f*cking strong!"

After a short period of discomfort, Han Fei found that as an elephant, it was really powerful.

However, in less than three seconds, Han Fei saw seven or eight more strange creatures coming out of the forest.

"Gosh, so many?"

Roar!

Another burst of sound waves swept over.

However, this time, the seven or eight strange creatures actually began to spin. A shield appeared on the surface of their bodies and actually blocked his sound wave attack.

Han Fei panicked.

Evidently, it was these creatures that had forced the elephant to the edge of the cliff.

Han Fei wanted to kill these creatures.

As a result, Han Fei raised his feet. His feet, which were like pillars, turned into a hundred-meter footprint in the air and stomped down from the sky.

Even Han Fei was a bit confused. Does that work?

However, on the other side, huge void turtle shell shields appeared in midair, trying to block the footprint.

Rumble...

The shields exploded in the air as a strong wind swept across.

At some point in time, a living being had bitten down on his chest.

“Ouch! Ouch, ouch, ouch...”

Buzz!

Han Fei’s body shook subconsciously and the tremendous force sent the creature flying. However, a large piece of flesh was bitten off.

“F*ck! This is too much. Am I going to be eaten to death?”

Seven or eight of these living beings pounced on him.

However, Han Fei could only use his nose, mouth and feet now!

However, it would be difficult for him to make a move now that they were so close.

“That’s not right. I can still poke them with my teeth.”

Han Fei immediately charged at one of the creatures. No matter what he was now, he couldn’t wait to die, right?

Crack!

“Pfft!”

A white light shot out of the ivory and a white beam of light appeared a hundred meters away. Han Fei pierced a turtle shell and left a big hole in its body. It was dead for sure.

However, after seeing Han Fei’s attack, those strange creatures turned into fireballs and rolled in the air, crashing into Han Fei crazily.

“Hit me? Are you f*cking crazy? Who am I? I’m an elephant. I have thick skin. Let me kill you!”

Han Fei immediately turned into a crazy elephant with two white teeth and charged forward.

“Ouch! It hurts! I’m gonna kill you!”

“F*ck you, chase me away and bite my butt. I’ll crush you to death.”

“Hey, bite my nose? I’ll slap you to death.”

Bang!

After half a day of fighting, Han Fei was crippled. The seven or eight creatures on the other side were all torn apart by his crazy strength.

Of course, the price wasn’t small. One of his elephant tusks was broken, and two of his large ears were torn off. His entire body was dripping with blood, and some of the wounds were so deep that even the bones could be seen.

Han Fei wanted to curse, “Son of a b*tch! Ouch! It hurts!”

Crack!

Han Fei was stunned. "Huh? What's that sound?"

The next moment, the cliff broke and a huge crack appeared on the ground. It was caused by the destructive power of the battle just now.

"F*ck, so am I going to die from falling?"

The ground collapsed and Han Fei fell down the cliff.

Han Fei thought to himself, Can't an elephant fly? Just as he was about to try and see if he could fly, he saw a huge mouth stretching out from the cliff.

"Smack!"
