

GOF 1141

Chapter 1141: Declaration of Liberation of the City of Justice

In fact, Han Fei should have known that if the City of Justice was the last territory of human beings, then why would there be the Thousand Star City? Human beings should have long been extinct.

Calming down, Han Fei said to Ximen Linglan, "Let me speak to them."

Ximen Linglan nodded. "OK, I can't handle this."

Han Fei asked, "You once stayed in Yu City. Where is the center of this city?"

Ximen Linglan thought for a moment and said, "The Star Towers, a few very high towers. That's where the big clans in Yu City sell their resources and exchange for resources."

Han Fei smiled. "Then let's go there."

.

Han Fei's voice rumbled. "My compatriots, we'll wait for you on the Star Towers."

"Come on, let's go to the Star Towers."

"Hurry up, grab a seat."

"Brother, wait for me."

After a while, Han Fei and the others came to the Star Towers, which was already overcrowded.

Someone took the best position and said with a smile, "Those who go to the city gate are idiots. Yu City has a huge population. If the Avenger wins against the big clans and takes over Yu City, a series of major events must be announced. Is there a better place than the Star Towers?"

When Han Fei saw the so-called Star Towers, he found that the towers were cylindrical, more than 300 meters high and more than 100 meters wide. There were three of them, standing in a triangle.

"Here they come."

Someone was shouting. There were all sorts of shouting. Some even called him the Saviour.

Han Fei said, "Linglan, Old Jia, one for each of you later. Destroy these three towers."

"Huh?"

Jia Wuxing said in surprise, "Wait... Marshal Han, didn't you just say not to destroy the buildings in the city?"

Han Fei said, "Just do it. Cut the crap."

Han Fei shouted, "Everyone, leave the Star Towers. Make way for a thousand meters."

When the crowd surged and began to retreat, Han Fei shouted in a low voice, "Attack, destroy it."

All of a sudden, under the gaze of countless people, Han Fei, Ximen Linglan, and a ferocious-looking man flew to the three star towers. Among them, Han Fei was the most aggressive.

A sledgehammer appeared in his hand, turning into a shocking hammer shadow. With a few consecutive clangs, the Star Towers shattered and smoke flew.

Holding two knives in her hand, Ximen Linglan quickly passed the Star Towers. Then people took a closer look, only to see that the whole building was full of knife marks, and then fell one after another in pieces.

Jia Wuxing bombarded the Star Towers with his fists to show the strength of an Explorer. He descended from the sky and punched through the Star Towers.

Amidst the cries of countless people, Han Fei shouted, "Human compatriots, don't panic. The Star Towers are where the big clans exchange resources with you. Now that the Star Towers have been destroyed, it means that the era of the big clans has passed. A new era has come."

"Good! Well done!"

Someone raised his arms and shouted, and the roars echoed one after another, raising tides of sound.

"Relieve my hatred."

"This place should have been destroyed long ago."

"It's a pity that everything inside has been taken away."

"As long as there are no big clans."

Han Fei quickly descended, and the Law of Gravity covered a hundred meters with a huge force. These were all ordinary buildings, not spiritual weapons. In an instant, these gravels were crushed into flat ground by Han Fei.

Then, Han Fei casually threw a large rod to the ground. As Han Fei thought of something, the rod quickly rose to a height of 100 meters and stopped, turning into a huge pillar that held up the sky.

Standing on the top of the giant pillar, Han Fei shouted in a low voice, "Everyone, don't panic. Wait for a moment. When everyone arrives."

Ximen Linglan asked via voice transmission, Do we have to wait? Those people's gazes are so hot.

Han Fei replied calmly, "This is called creating a sense of anticipation. It's a good time to pretend... Uh... to unite people."

Looking at the crowd who was whispering or talking via voice transmission, Han Fei smiled. There were really a lot of people! The surrounding buildings and places where people could stand were all full of people. There were also law enforcers flying in the sky, waiting quietly.

Seeing these people, Han Fei couldn't help sighing. If he became a king in the future, it would be great to have so many people watching him.

After about half an hour, those who were supposed to come had all come. Those who couldn't squeeze in could only listen at the periphery. However, after this lecture, everyone inside and outside of Yu City would know the contents.

Two sledgehammers appeared in Han Fei's hands and he struck them with a clang.

Han Fei: "Be quiet."

When the discussion gradually died down, Han Fei put away the sledgehammers and stood aside with the slightly uneasy Ximen Linglan.

Han Fei's voice resounded through the sky like thunder, "Everyone, I think you have already heard the rumors about the Avenger. Yes, just like you, we were once forced to leave our hometown by the big clans. We, as well as the big clans, know very well how the big clans oppressed humans, seizing resources, squeezing out tens of thousands of people, and committing countless crimes. Therefore, we came back, holding our dreams and seeking revenge on them. Fortunately, we won..."

"Roar!"

"Good job."

"The Avenger is invincible."

In the void, the three Venerables' faces were livid. The big clans had just left, and this bastard had come to ruin the reputation of the big clans. Although they didn't have a good reputation, it was embarrassing to be told off like this.

The beast king had come too. How could he miss such a grand event?

Han Fei knocked the hammers and shouted again, "The Sea Clan wants to destroy the human race. Our human race is plagued by internal and external troubles. How can we resist intruders in this case? This move of the Avenger complies with the mandate of heaven. 18 years ago, the Grand Myriad Mountains, human beings, and the Venerables of the Blackstone City joined forces to attack the Sea Clan, winning us the time of 500 years. You can also understand it as a golden age. Out of troubled times come heroes. The person beside me is the abandoned daughter of the Ximen family from Yu City, Ximen Linglan. Her level-eight spiritual heritage was seized when she was young. Unwilling to succumb to fate, she entered the mountains to seek the Dao and explored millions of kilometers of sea. In this chaotic world, she harbors the desire to take revenge and save tens of thousands of people from fire and water. This return of hers is to liberate the entire Yu City and let everyone in Yu City be a free person..."

"Roar! Roar!"

"Ximen Linglan, Ximen Linglan..."

"The heroine of our times, Ximen Linglan..."

"Okay, I swear to follow her to death."

Han Fei didn't care what the audience was shouting about. He was thinking about what to say next.

However, Ximen Linglan was very embarrassed and said via voice transmission, “Why are you talking about me? What do you mean by heroine? I don’t have any ambition!”

Han Fei said, “Don’t panic. Calm down.”

Han Fei continued to shout loudly, “Today, with the joint support of all the senior executives and Venerable-level powerhouses on the Avenger, Ximen Linglan, shall be the city lord of Yu City, teach cultivation techniques and combat skills to everyone, control the fisheries, help villages and towns, reduce taxes, and punish looting... Anyway, she’ll settle all injustice in the world.”

Someone raised his arms and roared.

Countless people shouted at the same time and their sounds were like waves. “We support City Lord Xi’men ~”

Someone shed tears. “The dawn is really the dawn ~”

Behind Han Fei, Jia Wuxing and the others stood straight. So they had become senior executives of the Avenger? Their faces were glowing with pride.

Han Fei chuckled and hammered again. He turned his head to look at Ximen Linglan, then handed over a jade slip. “Read it.”

Ximen Linglan’s head was buzzing. How did she become the city lord? Wasn’t he the city lord?

Ximen Linglan hurriedly said, “How can I be the city lord, not you?”

Han Fei said, “The city should be managed by the strongest. You’re an Explorer, and I’m a Law Enforcer. So you’re more suitable to be the city lord! Hurry up and read it. Don’t make them wait long.”

Ximen Linglan held the jade slip and scanned it with her spiritual power. She immediately became tense, and her head was still buzzing. She felt that besides reading words, she didn’t know anything else. She was just a reading machine.

But she was an Explorer anyway.

Ximen Linglan quickly calmed down, maintaining a cold posture, thinking to herself that there were only fish heads below.

“Yes, they’re all fish heads. I’m reading to fish heads.”

Under the expectant gaze of everyone, Ximen Linglan slowly said, “I am Ximen Linglan. I announce that everyone living in Yu City, no matter in the city or the villages, shall forever be free at this time and in the future...”

Below, a storm of cheers was surging. The shouts were deafening and filled the sky.

Ximen Linglan was taken aback for a moment, and then quickly continued, “Whether it is the big clans of the past, the current Avenger, or the future city lord, they will recognize and guarantee your freedom. When any member of the people strives for their freedom, no one is allowed to do anything to suppress them.”

Amidst the cries of billions of people, Ximen Linglan relaxed a little and continued to read, "However, under the rule of Yu City, there are hundreds of millions of people, so the law must be enforced in case anyone with ill intentions tries to cause harm. Human beings should be wholeheartedly committed to preventing killing, looting, and rioting, and bullying the weak... Human beings should focus their attention on the future, on resisting the Sea Clan. To continue human lifeblood, everyone needs to work together. Only when everyone is united can it be done..."

Under the expectant gaze of everyone, Ximen Linglan took a deep breath. "Now, with my authority, I officially announce that the former Yu City has gone. Today's Yu City will be renamed as the City of Justice, to fight for the rise of the human race and for the justice in our hearts."

Han Fei watched with a smile on the side.

When there were really too many people, he couldn't hear what were they talking about at all. He could only hear one or two voices from them, mostly roars.

What Ximen Linglan wanted to do was to establish the image of the city lord. As for other things, the city lord didn't have to say much, as long as the people regarded her as a god.

Han Fei took over the conversation and shouted, "The City of Justice has just been established and needs talents. The strong have the obligation and responsibility of the strong. Now, the city lord has drafted individual explorers, law enforcers, and talented Hidden Fishers to govern this city."

Swish swish swish!

One figure after another was already in the air, looking quite eager.

At this moment, many people also realized that this was a great opportunity. If they joined the Avengers, they would be allies from now on.

However, Han Fei also saw many people's faces change.

In the crowd, someone shouted, "Don't listen to him. Isn't he just like the big clans? He's trying to win over the strong and exploit the people. Do you really think he's here to liberate us?! They just hide their real intentions a little bit deeper!"

"They just want the strong. What about ordinary people like us?"

"This is unfair!"

"What the f*ck do you know? Do you expect the city lord to manage everything on her own?"

"Are you out of your mind? Do you have anything to exploit?"

For a moment, the crowd was divided into two groups. Han Fei's eyes flickered.

Clang!

Han Fei's voice echoed, "All those who are drafted will be subject to the supervision of the mass, and they will be severely punished if they commit any crimes."

Sure enough, when Han Fei said this, many people relaxed and continued to cheer.

Of course, someone shouted, "Don't listen to him. The strong will only protect the strong. Why would they think about us?"

Shua!

Han Fei suddenly disappeared and captured the person in an instant. Controlling this person with the Void Lines, he curled his lips and thought to himself: What a bunch of fools.

Han Fei controlled the man to show his real appearance and shouted, "Does anyone know this person?"

Immediately, many people exclaimed, "I know this person. He's from the Zhou family."

Someone said angrily, "Damn it, isn't that Zhou Xiaotian?"

Then, Han Fei grinned. "Everyone, there are many people from big clans in the crowd. Pay attention to the people around you. Once you confirm it, you can directly injure them and send them here. Once their identity is confirmed, they will be killed on the spot."

Bang!

The member of the Zhou family controlled by Han Fei was directly shattered into a bloody mist.

Han Fei grinned. "Don't forget that although we are righteous, we are also avengers!"

"Good job."

"The City of Justice cannot be sullied by the big clans."

"Everyone, look for them."

"He is Yang Tai. I can't be wrong. He is from the Yang family."

"I found one too. He's definitely from the Dongfang family. He has a birthmark on his neck."

"Yes, look at this one..."

Instantly, the scene was chaotic.

Ximen Linglan asked telepathically: Will there be a mess?

Han Fei shook his head. "If we want to control the situation, we have to resolve the destabilizing factors first. This is not an era of peace but a chaotic world. In chaotic times, we should be ferocious to seize the people's hearts and get rid of dissidents. Let's nurture the consciousness of the city people first."

Almost in a moment, more than 80 people with swollen noses and faces were thrown out. There were also more who hadn't been caught and had slipped away in the chaos.

Han Fei looked at those people indifferently. "I'll give you a reason to explain in front of the mass. If your reason makes sense, you can leave. You have ten seconds."

Immediately, someone scrambled and shouted, "I'm just a relative of the big clan. I wasn't taken away."

However, as soon as the man finished speaking, someone said, "My lord, don't listen to him. He shouted so loudly just now, telling us not to trust the city lord. What a b * stard."

“Yes, I can prove it.”

“And me.”

“We all heard it.”

Han Fei tilted his head and looked at the man, who choked. “No, I...”

Han Fei sighed. “Thank you for being the first to come out to die.”

“Pfft!”

After killing him, Han Fei looked at the others. “What do you think?”

Those who were caught in public were the ones who didn’t know how to hide themselves. They were the ones who yelled the loudest just now. Therefore, they were basically not wronged at all. They couldn’t come up with a decent reason.

Suddenly, someone shouted, “Explode yourselves!”

Swish!

At the moment when the man shouted, a white light flashed past. With the Draw Technique, these people who didn’t even have the strength of a Hanging Fisher couldn’t defend themselves.

“Good job.”

“These b * stars died too easily.”

“They deserve to die.”

In the void, the Venerables snorted and left.

After executing a group of people, Han Fei turned around and shouted, “Everyone, I only hope that you are vigilant. In the coming period of time, there will be some related decrees in the City of Justice. All the city gates will be put on a fish skin notice. Now, I want to announce something else.”

When the crowd calmed down, Han Fei shouted, “In a month, no matter if it’s the City of Justice or the subordinate towns, all youths who are about to have their spiritual beasts awakened can gather in the city. At that time, it will be the first large-scale free awakening since the founding of the City of Justice. Don’t miss it.”

...

Seven days passed.

In his experience, Han Fei reorganized the City of Justice.

This was something that Ximen Linglan couldn’t do. However, he actually didn’t know much about it. The best way was to use the existing plans of the floating islands and the Scattered Stars Island.

At this moment, in the construction site of a certain big clan, Han Fei and Ximen Linglan were sitting in a large tent.

They certainly had to build the city lord's mansion, but they didn't need to do that. The two of them had been busy these days.

With a swish, someone pushed open the tent and came in. "Marshal Han, the areas in the north, south, east, and west have been divided. The plan for the bazaar follows the previous. It won't change much."

Han Fei said without raising his head, "OK, go and arrange for all the big clans' mansions to be dismantled. Build some Logistics Exchange, Refining Hall, alchemy workshops, Dangling Fishers' Union, and Pioneer Group..."

"Yes, Marshal Han."

Splash!

Another person came into the tent. "Marshal Han, under your command, in the recruiting crowd, according to the will of ordinary people, 100 law enforcers and 800 Hidden Fishers have been assigned to four jurisdictions."

Han Fei said, "It's not enough. How can such a huge city have so few people? However, there's no need to be in a rush. You have to consider the number of people used. The remaining people will be assigned to the law enforcement team to conduct daily city management and be supervised by the people."

"Yes, Marshal Han."

Whoosh!

Yi Yue walked in. "Marshal Han, City Lord, at present, a large number of people have entered the City of Justice from the towns around, saying that they want to learn cultivation techniques and combat skills. However, there are too many people in the city, so it's not easy to arrange. The library at the center of the City of Justice we set up has almost been squeezed through."

Han Fei glanced at Yi Yue. "Put a fish skin notice outside the library and tell them to wait a few days. When the time comes, there will be specialists going to the major villages and towns to teach them in person. In addition, every village and town can arrange for 10 people to come over to copy cultivation techniques and combat skills."

Yi Yue glanced at Ximen Linglan who seemed to be racking her brain and thinking about something, turned around, and quickly left.

Han Fei said, "Phew! It's tiring to be an Emperor!"

Ximen Linglan was puzzled. "What is an Emperor?"

Han Fei waved his hand. "Nothing. How is the employment hall you set up?"

Ximen Linglan shook her head helplessly. "This is very difficult to design!"

Han Fei took the pile of fish skin maps in front of Ximen Linglan and said, "It's actually not difficult. The Employment Hall only needs two functions. Release tasks and accept tasks. Whoever finishes the task will take away the employment money. The Employment Hall only takes away the basic service charge."

"What if, at the same time, many people go to complete missions?"

Han Fei said, "That's simple. It depends on team or individual missions. If an individual mission has been taken, don't release it to the public anymore."

Ximen Linglan asked, "What about credits? Why shall we give credits to the people who take a mission?"

Han Fei said, "Give them something to pursue. If they can increase their employment level with credits and exchange them for resources, more people will accept missions!"

Ximen Linglan pushed all the things to Han Fei. "But do we have enough Spirit Awakening Fluid? What if we can't make ends meet?"

Han Fei thought to himself: I have more than enough of that. But he just said unhurriedly, "This is the first part to earn the people's heart. It doesn't matter what we do. What matters is that we have started to do it."

...

Half a month later.

While Han Fei and Ximen Linglan were discussing, the outside was crowded.

These days were the busiest days in the history of the City of Justice.

The registration office of the law enforcement team was jam-packed with people.

Someone complained, "Isn't this too slow?"

Someone sneered. "If you think it's slow, leave the queue! The city lord is carefully screening the law enforcers. Do you think anyone can enter?"

Cao Xuan came from the village and went to sea. It was said that the current Yu City had changed into the City of Justice. The big clans were gone. The Avenger had liberated the city and brought freedom and justice to everyone.

At first, he didn't believe it. However, since entering the city today, he was stunned. Was this the Yu City he knew?

This was because they saw an announcement at the gate of the city that as long as one joined the law enforcement team, they could read any cultivation techniques or combat skills. If they succeeded in entering the team, they would be rewarded with a low-quality divine weapon.

At that time, Cao Xuan was tempted.

Looking at the long queue at the registration office, Cao Xuan said, "Bro, let me cut in line, OK?"

Immediately, a bunch of people turned around and glared at him. "Which son of a b * tch said he wanted to cut in line?"

Cao Xuan immediately shrank his neck. He couldn't even cut in line now?

Cao Xuan was stunned and quickly laughed. "I'll line up. I'll line up."

Seeing that there were too many people, Cao Xuan was stunned and didn't know where to go.

Someone laughed. “Bro, you just came back from the sea, right? Just forget about joining the law enforcement team. Without the strength of a Hidden Fisher, how can you enter the law enforcement team?”

Cao Xuan was speechless. Are Hidden Fishers so cheap? But I’ll make a breakthrough soon!

Someone said, “You’ve just come back from the sea. You should go to the Logistics Division! There, you can exchange for the materials you want. The service charge is very low, only 10%.”

Cao Xuan’s eyes glittered. “Really?”

...

In the four districts, there were only 120 windows in total in the Logistics Divisions. Every day, these places were overcrowded.

The four Logistics Divisions had a long queue from morning to night. It could be seen that there were definitely a lot of people exchanging for supplies.

In fact, most people couldn’t exchange high-end supplies!

Therefore, the mission of the Logistics Division was to receive a pile of materials from one person, and then give the materials to those who wanted them. The service charge received was only ten percent.

At this moment, Cao Xuan looked at the people who were even more than those in the law enforcement team and was dumbfounded. How long would he have to wait?

Just as Cao Xuan was hesitating whether to wait or not, he suddenly heard someone shout, “Good news, good news, the Logistics Division is expanding. Does anyone want to enter the Logistics Division? Seven days a duty, and the benefits are extremely good. If you come in, you’ll be given 2 catties of spiritual spring, and the benefits are comparable to that of the law enforcement team. You’ll also have a priority to exchange for the resources in the Logistics Division.”

Buzz!

In an instant, Cao Xuan was pushed away by someone, and those people rushed forward like crazy.

In an instant, heads were rolling and people shouted, “Me! I want to join.”

“Me, I came first.”

“Me, I’m a peak-level great fishing master.”

“I’m a peak-level Hanging Fisher.”

“Huh? You’re a Hanging Fisher? Why are you here? Go to the Employment Hall. You can earn more there. There are all kinds of missions.”

“Oh, really? Where is the Employment Hall?”

Cao Xuan asked, “What kind of place is that? Forget it. Anyway, the queue is too long here. Let me go somewhere else first...”

Chapter 1142: Cao Xuan's Opportunity

As a member of the mass, although Cao Xuan knew that he was ordinary, he had been working hard.

To put it more bluntly, although he was mediocre, he also had dreams of becoming a god.

Cao Xuan finally found the Employment Hall among the crowd. This hall was large because it was modified from a large family's residence.

Without much effort, Cao Xuan squeezed in.

Then, he saw that many people were holding a book. In addition to the book, Cao Xuan also saw that the walls of the hall were full of various tasks like advertisements.

"Go to the 2,000 kilometer sea area near the coast to find a Five-step Coral Snake. Requires the body to be complete. One Blue Spirit Fruit as payment, effective for three days.."

Cao Xuan's eyes lit up. He was about to rush over to talk to the waiter, only to see that the fish skin had been taken off. Then, under Cao Xuan's gaze, a waiter handed something to the young woman, and it was over.

Cao Xuan was speechless. The task was taken away so easily?

However, Cao Xuan didn't panic. Anyway, there were still many more. He continued to read the next one.

"Go to the coral reef in the 3,000-mile sea area near the coast, and find a Red Horn Sea Anemone. Requires..."

Before he finished reading the request, the fish skin map was taken off again.

Cao Xuan continued to read, because a new fish skin map was hung up.

"Go to the eight-thousand-mile sea area, the Swirl Valley, and hunt a Black-Scaled Flood Dragon. Requires the body to be complete. One low-quality divine weapon, three spiritual fruits, and one energy fruit as payment. Effective for five days."

Cao Xuan frowned slightly. This was a little difficult. He knew about the Swirl Valley. This seemed a little difficult. However, he could give it a try. He had a trump card, so he should be able to...

However, just as Cao Xuan was about to shout, a man shouted, "I'll accept the mission of the Swirl Valley. It's a small problem. I can complete it in three days."

Cao Xuan: "..."

Cao Xuan was dumbfounded.

He finally understood that the missions here had to be snatched. Many people were like him, eyeing the tasks covetously.

As soon as a waiter took out a fish skin, someone next to him shouted, "Whatever this task is, I'll accept it. I'm an intermediate Hidden Fisher."

Cao Xuan felt his teeth ache. The missions that no one chose were either too low or too difficult. There was even a task requiring hunting exotic creatures. This was not something ordinary people could do.

Cao Xuan keenly noticed that a waiter reached out to take out a fish skin map, and he immediately shouted, "Whatever this task is, I'll take it."

The receptionist glanced at him. "If I take out a difficult task, can you accept it?"

As he said this, the receptionist looked at the fish skin map and shrugged. "Okay! You win."

After that, the receptionist opened the fish skin map and showed it to Cao Xuan. It turned out that it was not a sea mission.

"Go to the Great Wilderness Village on the Reef Shore and give the villagers guidance on cultivation techniques and combat skills. The mission can't be over until you get the approval of the village leader. The reward is one Semi-Divine weapon and a hundred catties of spiritual spring. Approval-type missions have no time limit."

Instantly, Cao Xuan's eyes lit up. A Semi-Divine weapon? And a hundred catties of spiritual spring?

Cao Xuan was overjoyed.

He was in need of a Semi-Divine weapon now. He had planned to get it in the Logistics Division. Who would have expected that he would get it from the first mission he received?

As far as Cao Xuan knew, although the village was weak, there would be strong masters. But usually, the strong masters would go to higher places and not stay long.

Cao Xuan quickly said, "I'll take it, I'll take it."

The receptionist said, "Because it's a special mission, I'll give you this fish skin map. However, if you want to complete the mission and receive the reward, you'll have to get the village leader's seal."

"Okay, okay."

...

Cao Xuan excitedly asked about the location of the Great Wilderness Village and left the city.

The moment he received this task, he immediately fell in love with this city of justice. This was completely different from the Yu City before!

Cao Xuan muttered, "I'm told that the City of Justice is still being reorganized. Perhaps when I come back, it will have been built. When the time comes, I can exchange my resources for something better from the Logistics Division."

In the Great Wilderness Village.

Looking at the village that occupied less than 100 miles, Cao Xuan soon asked where the village leader lived.

When Cao Xuan found the village leader's home, he saw a refiner refining weapons, who turned out to be stronger than him.

Before long, Cao Xuan saw an old man and a young man walking out of the yard together.

The old man said, "In that case, I'll leave the hunting task of the village to you. Our village is relatively remote. In the past, when we were in the war, many men died. Many children haven't had enough food. If their talent is not good enough, they have to eat more."

The young man smiled. "Leader, don't worry. With me here, the children in the village can eat whatever they want. They'll definitely be able to eat to their fill before the Soul Awakening."

After the young man left, the village leader looked at Cao Xuan and smiled. "Phew, here you are! What task have you accepted?"

Cao Xuan asked in surprise, "Leader, are there many missions issued in your village?"

The village leader smiled. "No, not at all. Even if we want to distribute them, we don't have the money to distribute missions. Other villages release dozens of missions or so, but we only distribute a dozen. It's just because the city lord had once lived in our village for a few days that she took care of us."

Cao Xuan asked in surprise, "Has the city lord lived here before?"

The village leader laughed. "That was decades ago. The city lord stayed in our village for a few days after she was kicked out by the Ximen family. Then, she left quietly and took away Marshal Han. Sigh, we didn't know they would grow up to this point!"

"Hiss! Marshal Han?"

Cao Xuan was shocked. Since he returned to the City of Justice, people had been talking about Ximen Linglan and Marshal Han everywhere he went. Although he had never seen them before, he had heard a lot about them.

It was said that City Lord Xi'men defeated all the big clans in the Storm Strait. In terms of strength, she was already at the peak of the Venerable realm.

Cao Xuan certainly didn't dare to imagine such a figure. How strong was a Venerable?

However, Marshal Han was also legendary. He was said to be an intermediate law enforcer who had killed an Explorer. He was the number one warrior on the Avenger.

Hearing it, Cao Xuan was shocked. Are they bragging? A law enforcer can kill an Explorer? What kind of law enforcer is that? So these two people actually went out from the Great Wilderness Village?

It seemed that this was not the first time the village leader saw such an expression. He immediately smiled and said, "Anyway, don't worry. You will be rewarded. By the way, what is your mission?"

"Oh! I'm here to teach the villagers cultivation techniques and combat skills."

The village leader immediately shouted, "So it's this task. It seems that you have to live in the home of the fool... Uh... Marshal Han. Since the news of Marshal Han came, all the children have been there. Even the library is in the city lord's old residence."

Cao Xuan nodded with a smile. "Leader, what should I teach them? Teach them a complete combat skill?"

The village leader said, "It's said my approval is required, but in fact, you just need to teach for three months. When the time comes, the next teacher will come over. However, in these three months, you have to teach seriously. The children must make improvements."

When Cao Xuan heard that he could get a Semi-Divine weapon by staying here for three months, he was overjoyed.

However, when the village leader and Cao Xuan came to the so-called Han Fei's old residence, he was stunned. This little shabby house?

The village leader smiled. "This little house used to belong to Marshal Han. The big house next to it is the former residence of the city lord."

As he said this, the village leader roared, "Boys, come here! Your teacher is here!"

"Hum..."

In all directions, a group of children ran over and some children shouted, "Leader, I'm going to the reef beach to call the others."

Cao Xuan wondered, "Leader, this reef beach seems to be quite famous!"

Cao Xuan couldn't help but be puzzled. After all, the mission stated that the village was next to the reef shore, which meant that the reef shore was more famous than the village.

The village leader said with a smile, "Our small place just has a lot of reefs but few regular sea ports. However, the reef shore is not dangerous. Besides, it's spacious there. You can teach there during the day."

After a moment, Cao Xuan felt terrible. There must be thousands of people here!

The village leader quickly said, "Haha! Well, in fact, we have issued a task to recruit some Dangling Fishers. However, no one has arrived yet. You are the first to come. But it doesn't matter. There will be more people coming later."

Cao Xuan heaved a sigh of relief. That's good. Otherwise, how could he teach so many children?

Since he had accepted the mission and was given a reward, Cao Xuan certainly wouldn't slack off.

Therefore, he said to these children, "Everyone, listen, I have three purposes for teaching. Firstly, I will check your spiritual heritage; then, I will choose cultivation techniques for you; and lastly, I will start to teach you combat skills uniformly. During this period of time, you have to work hard. As long as you work hard, you won't be disappointed."

"Okay, teacher."

"Teacher, are you going to test our spiritual heritages now?"

"Teacher, I want to choose a heaven-level technique."

Cao Xuan was speechless. I don't even have a heaven-level technique. How can you have a heaven-level technique? If there is really a heaven-level technique, why would I teach students here?

However, the village leader shouted, "Be progressive and don't seek speed. No one can get heaven-level cultivation techniques from the beginning. Do you understand? When you become strong masters like the city lord and Marshal Han in the future, we will give you all the heaven-level techniques and combat skills in our village."

"Pfft!"

Cao Xuan was stunned. Huh? What do you mean? There are also heaven-level techniques and combat skills in the Great Wilderness Village?

...

Because he had to prepare the pulse-testing stone and check the library, Cao Xuan decided to teach on the second day.

He couldn't live in the place where the city lord once lived. After all, it had been converted into a library. He could only live in Han Fei's little shabby house.

Cao Xuan glanced at the two peach trees at the door of the house that had lost their peaches. He smiled and immediately pushed the door open. At this moment, a cloud of dust fell. Looking around, he found that the room was covered in dust and damp.

Seeing this, Cao Xuan smiled faintly. He came from the village and had lived in such a house before too.

However, Marshal Han's room was very clean and the furnishings were very neat.

Of course, Cao Xuan didn't take it seriously. As a peak-level Hanging Fisher, he didn't need to sleep in a room. He could sleep anywhere.

After a quick glance, Cao Xuan went to the library next door.

At this moment, the sun was high in the afternoon. When Cao Xuan came in, he saw an old man losing an arm and a leg lying on a chair basking in the sun.

Cao Xuan couldn't see the strength of the old man at a glance, so he thought to himself, it seems that this old man is a strong master.

Therefore, Cao Xuan asked politely, "Sir, I'm the new teacher here. I need to see the cultivation techniques and combat skills in the library."

"Um..."

The old man lay motionlessly. Perhaps he had been lying there for too long and couldn't get up.

Cao Xuan entered the house without saying anything.

After a while, when he saw the rebuilt bookshelf, he casually picked a book.

"Shit!"

Cao Xuan directly threw the book away.

The old man's leisurely voice came from outside, "Don't throw the book away. How can you be a teacher with this personality? Even an idiot is stronger than you."

Cao Xuan quickly picked up the book.

He couldn't be blamed for being surprised. He picked a random book and got a heaven-level combat skill? Did this make sense?

Yes, the heaven-level combat skill was called the Wind Feather Sword Records, and it said heaven-level, low-quality.

Cao Xuan was shocked. He had traveled all over the world and only accidentally obtained a heaven-level, low-quality swimming technique.

Who could have expected that he would get a heavenly-level combat skill so easily in a small village?

In an instant, Cao Xuan felt that he had made a fortune. Three months of teaching time was really too short! It would take him at least a year to exchange for this!

As Cao Xuan flipped through the books, he found six heaven-level, low-quality combat skills. There were more than 30 types of combat skills, and some of the combat skills were better than his.

After confirming the contents, Cao Xuan was not in a rush. He couldn't help but walk out of the door and ask the old man, "Senior, are these techniques and combat skills originally available in the Great Wilderness Village?"

The old man said indifferently, "Isn't it because the villagers came to the city to copy the books? Tsk, I heard that the City of Justice is very lively now, but it's not convenient for me to go there. I'd rather stay here and enjoy my retirement."

Cao Xuan asked in shock, "Are heaven-level combat skills copied too?"

The old man patted the chair. "After all, my miss is the city lord! Isn't it normal for the Great Wilderness Village to copy a few more books?"

Cao Xuan exclaimed, "Ah! You..."

The old man smiled. "Don't be surprised. When she was young, she took the little fool away. She has no feelings for me."

Cao Xuan couldn't help being interested. "Senior, was the city lord extremely talented? How many years has it been since she became so strong?"

The old man said, "Miss is not that talented. The fool is talented."

"Huh?"

Cao Xuan frowned and said, "Who are you talking about?"

The old man smiled and said, "Wang Han! He used to be a fool, but he's talented. In this world, there are few people who are as talented as him."

Cao Xuan felt that something was wrong. If Marshal Han was talented, why was Ximen Linglan the city lord? However, it was said that Marshal Han was the one speaking on the Day of Liberation. Did he not hear enough information?

The old man said, "Actually, it's nothing. There's always a gap in talent. You can't expect everyone to be a genius. In this chaotic world, geniuses sometimes don't live long. By the way, you can't stay here overnight. Go to another place to sleep."

...

His teaching career was not boring, mainly because there were too few teachers in the Great Wilderness Village.

Cao Xuan was very busy every day. He had too many students, so he couldn't take care of everyone. But the process of teaching was very fulfilling. While teaching others, he could also deepen his understanding. When he was free, Cao Xuan would go to the reef shore to take a look. He felt that this kind of life without adventure was good.

Unfortunately, this wasn't his path. He wanted to become strong. Why didn't he want the heaven-level combat skills he picked up for free?

Half a month later, the village leader took a group of 12-year-old children to the city.

Cao Xuan felt the pressure suddenly decrease. He saw that the peaches on the peach tree had grown out. He picked one of them and pushed open Han Fei's door again.

Forget it, I'll just take it as a break. I should find a place to sleep.

The night was as cold as water.

Cao Xuan didn't dare to sleep deeply. Out of his habit, he subconsciously scanned around with his perception.

Suddenly, Cao Xuan felt that something was wrong when he scanned the room. He found that there was an interlayer in the wall.

"Huh? There's something inside."

Cao Xuan rose to his feet. Although he knew it didn't seem right, this room hadn't been occupied for too long and should have been abandoned long ago. It shouldn't be a problem to satisfy his curiosity, right?

Behind a cabinet, Cao Xuan pulled off the dead leaves of the algae and found that there was a book, "Turtle Origin Breathing Technique", a few weapons, and a few dried spiritual fruits hidden in a box.

He felt that these might have been left behind by others when they left earlier. However, there was another layer in this layer. However, the layer inside was covered with mud. If one didn't perceive it, he wouldn't have discovered the layer inside.

Cao Xuan thought to himself, It's been hidden for so long. Marshal Han probably couldn't find it when he was young. What if it's very important?

Of course, Cao Xuan didn't think it was a special treasure. It was just a small box.

After a while, when Cao Xuan took out the small wooden box, he found a letter and a ring inside.

Cao Xuan didn't feel anything special about the ring, because it was too small and only suitable for newborn children. Out of curiosity, Cao Xuan opened the letter that wasn't sealed and took a look.

However, as Cao Xuan looked at it, his expression suddenly became strange.

This was what was written in the letter.

"Han'er, if you can see this letter one day, it means that you have accidentally succeeded in cultivation, your mind should have recovered, and you are very strong. If that's the case, you do need to read this letter. If others see it, please leave the letter here. This is of no value to you."

Cao Xuan sighed and continued reading.

"Han'er, since you have become a strong master, I have to tell you. In fact, I told you that your mother is dead, but I actually have never married a wife. This world is so chaotic. I'm afraid I'll die someday... If you sober up, don't be fooled by others. Let me tell you, there are few people in this world who are trustworthy. Remember, remember..."

In the letter, apart from a lot of nags about not being tricked, the latter half surprised Cao Xuan.

It read:

"Han'er, I picked you up on the reef shore. At that time, you were wrapped in a ball as transparent as jellyfish skin and had nothing except this ring in your hand. Your parents probably left it to you! I don't know whose family you are from. However, this should be a chance given to you by the heavens. You were born with great strength, but the heavens are jealous of geniuses. I tried countless times but still couldn't make you cultivate. I tried my best! Alas, your father's talent is average. I'll probably die in battle. However, I'm not afraid. I'm used to it, but Han'er, don't follow my old path. If you have to go to the battlefield, stay alive. As for whether you can find your biological parents or not, it depends on your ability. By the way, when you see this letter, I must probably have already died. Can you set up a tombstone for me? Right under the peach trees at the door. I want to live a leisurely life for a few days ..."

The whole letter told about Han Fei's mysterious background. Except for this, Cao Xuan was surprised that Marshal Han couldn't cultivate when he was young.

Cao Xuan put away the letter and the ring, and a gleam of light appeared in his eyes. I shall give these to Marshal Han!

He knew that this was a chance, a great chance.

...

Three months later.

On the reef beach, thousands of youths were practicing punching, the air crackling.

Cao Xuan shouted angrily, "Stop!"

Cao Xuan was on a reef, his face fierce. "Today's lesson is about the path... This is a turbulent era. Most of you will eventually walk out of the Great Wilderness Village. Everyone has their own path. Some people want to become strong, some want to live a better life, and some pursue adventure... However, the City of Justice has given you a road. It may become the place where you rise."

Cao Xuan heaved a sigh in his heart and shouted coldly, "This is the best era and the worst era. Some people have died, and some have risen. The current City of Justice is different. I'll lead you to cultivate. The next step will be up to you. My suggestion is to go to the City of Justice. I heard that there is a trial battlefield there. Perhaps, you will rise from there."

Suddenly, a child asked, "Teacher, what's your path?"

Cao Xuan froze for a moment, turned around, and looked at the vast sea.

He knew very well that the weak were not qualified to talk about their path. If they had a path, it must be the Infinite Ocean!

Chapter 1143: Time Ring

The City of Justice, as well as the surrounding islands, had established trial battlefields.

The so-called trial battlefields were actually the beaches of the City of Justice and the surrounding villages and towns. According to the distance from the sea, they were divided into different levels.

For example, the reef beach could be called one of the lowest trial battlefields.

Han Fei's idea was very simple. The later generations could go directly to sea to fish, but there was no so-called safe area in the sea at this time.

Therefore, he simply adopted the fighting style of the Scattered Stars Island.

Of course, after they drafted various policies, Han Fei and Ximen Linglan went to sea again. The reason was simple. The resources of the Avenger had been consumed by more than 60% a month after the establishment of the City of Justice..

The low taxation in the City of Justice could only maintain a daily supply and demand balance.

The Avenger fleet was like ghosts swimming on the sea. They would return once a year. Under normal circumstances, other ships would return, but the main ship wouldn't.

As for Jia Wuxing, because he had broken through to be an Explorer, he was left to supervise in the city, which made him very frustrated.

At this moment, it was about the end of the year. The ten accompanying ships had mostly gone back once.

Unlike the former fleet of the Avenger, the current fleet's array had changed. A powerful embryonic ship had appeared. This was all thanks to Han Fei.

Han Fei was carving arrays at the bottom of the ship, and no creatures dared to approach him.

Ximen Linglan appeared beside Han Fei. “The big clans seem to be really quiet now. After many collisions with the City of Justice, it’s said that the big clans have moved to the north.”

Han Fei said casually, “No, it’s just the big clans’ forbearance. I said that we have 500 years, but in fact, it would be good if we have 50 years. If those Venerables recover, the big clans will definitely infiltrate the City of Justice again.”

“50 years? So soon?”

Han Fei smiled and said, “For Venerables, 50 years is nothing. If necessary, let alone 50 years, they can even endure 500 or 5,000 years. Although I have the support of the people, there are still too few strong masters. You need to make a breakthrough as soon as possible.”

Ximen Linglan frowned. “As long as I can completely devour the Dao runes of those Venerables, it’s only a matter of time for me to become a peak-level law enforcer. 50 years, maybe.”

Han Fei said with a smile, “Don’t underestimate your potential. The quality of spiritual heritage only decided the speed of your cultivation. However, diligence makes up for weakness. You have the bones of Venerables, so it’s impossible for you to be slower than those Heavenly Talents. What’s important is to enter the peak-level Explorer realm and the Venerable realm. That’s what you need to pay attention to. Your Great Dao has been confirmed. Becoming a peak-level Explorer is no problem for you. Breaking through to the Venerable realm is the key to you.”

Ximen Linglan said indifferently, “What about you? Are you suppressing your realm again?”

Han Fei chuckled. “I’m used to it.”

Ximen Linglan asked in confusion, “I’ve never understood why you’re suppressing your realm. If you become an Explorer, I’m afraid few Explorers can match you.”

Han Fei thought to himself, If I continue to make breakthroughs, there will be too many things that will change. At this moment, the City of Justice has just been on the track. I dare not!

Han Fei smiled. “Because I walk a different path. This path is extremely difficult. I have to perfect every realm.”

Ximen Linglan’s eyes were solemn. “So difficult to walk on? What is it?”

Han Fei glanced at her and said casually, “Invincible.”

Ximen Linglan felt like a mountain was slamming against her chest. Invincible? In this world, who dared to say that he was invincible? If Han Fei wanted to take this path, didn’t it mean he wanted to take the path of the strongest?

However, after witnessing Han Fei’s many miracles, she felt that Han Fei had always been the strongest.

“I believe you. I’ll wait for you to become a Venerable and even a King. However, we have plenty of time. We should go back now.”

“Um!”

...

At the port of the City of Justice.

Someone was running wildly at the port. "The Avenger is back."

A large group of law enforcers and Hidden Fishers followed and came to welcome them.

Everyone shouted in unison, "Welcome back to the city, City Lord."

Jia Wuxing stood on the deck. "How is it? Captain, Marshal Han, is there anyone breaking through to be an Explorer? Guarding the city every day, I feel my brain is already rusty."

A thin man among the crew members of the Avenger was pushed out. He looked helpless.

Jia Wuxing roared, "Yang Xiaogao, you're already an Explorer? Good, good. From today on, you'll be in charge of the city. I'm going back to my ship. Hahaha, you're truly my good brother."

Yang Xiaogao was speechless. "No, Old Jia! You're so familiar with the City of Justice. I can't do it!"

Jia Wuxing said angrily, "That's bulls * it. I don't do anything except to sign documents and check inventory every day. Anyone can do this job. If you're my bro, take over this job. I promise I'll have a new explorer replace you next year."

Ximen Linglan said with a black face, "Okay, you're too loud. Anything big happened in the city this year?"

Jia Wuxing waved his hand. "Captain, don't worry. Nothing happened. Marshal Han's plan is being carried out as planned. This year, we had 356 new Law Enforcers and 3108 new Hidden Fishers. We can't remember the rest. Anyway, many people have improved. This is all because of you and Marshal Han."

Han Fei was satisfied with the data. It was already unbelievable that so many strong masters could be born in a year in such an era.

Of course, this was the first year, and the effect of a large number of resources integrating was not necessarily so good in the future.

Ximen Linglan's eyes lit up, and she looked at Han Fei. "So many."

Han Fei smiled casually. "It doesn't matter. This is only the first year. In ten years, Explorers will definitely emerge."

Jia Wuxing shouted, "It's a pity that becoming an Explorer has to pass the heavenly tribulation. This year, three people took the heavenly tribulation and all died."

Han Fei frowned and said, "Next time someone wants to pass a heavenly tribulation, ask him to hold it back for a year, and we'll help him transcend it when the Avenger returns."

Jia Wuxing nodded quickly and suddenly said, "Oh, by the way, Marshal Han, do you know a person named Cao Xuan? This person said that he had your father's last wish and belongings to give to you. However, he insisted on seeing you. I simply locked him in the city lord's mansion."

Ximen Linglan asked in surprise, "Who are you talking about? Wang Han's father?"

Han Fei frowned. "Take me there."

The city lord's mansion.

Cao Xuan was not in a hurry. He knew that as long as Marshal Han didn't return to the Great Wilderness Village, he would definitely not find what his father left him. This was an opportunity. He had to see Marshal Han in person.

Besides, although he stayed in the city lord's mansion, the rich spiritual energy in the city lord's mansion could help him continue to polish his realm. Once he became a Hidden Fisher, he would definitely not be weak.

Buzz!

Suddenly, three figures appeared in Cao Xuan's yard.

Jia Wuxing shouted, "Marshal Han, it's this kid. He doesn't trust me and refuses to give me anything."

Cao Xuan was shocked. If he guessed right, this young man and the cold and arrogant woman were Marshal Han and the city lord.

Cao Xuan rose quickly and said respectfully, "Cao Xuan greets the city lord and Marshal Han."

Han Fei said casually, "You said you had my father's belongings?"

What Han Fei could think of was the wooden turtle and the bag of things that he forgot to take away before he left.

Cao Xuan hurriedly said, "A year ago, I received a teaching task in the Great Wilderness Village. Because the former residence of the city lord and Marshal Han became a place people yearned for, I boldly moved into Marshal Han's home and accidentally discovered a secret. Marshal Han, I don't think you know."

Han Fei's pupils constricted slightly. "Where is it?"

Cao Xuan quickly said, "The thing is actually on me. I've been carrying it with me."

Jia Wuxing was stunned. "That's impossible. I've checked it out. But I didn't find anything!"

Cao Xuan smiled in embarrassment. "Actually, it's nothing special. So, Master Jia didn't notice it."

As he spoke, Cao Xuan took out the letter and the ring from a table in his room.

Jia Wuxing was lost for words. "Why didn't you hide something so important?"

Han Fei patted Jia Wuxing's shoulder and said, "You don't understand. The most dangerous place is the safest place. Your attention has been placed on the most valuable places on him."

When Han Fei saw the ring, his pupils constricted. Is this... the Time Ring?

He had always neglected a problem. He thought that it was his soul that transmigrated through the time, but why did the Time Ring follow him here? But now seeing the Time Ring, he immediately realized something.

Silently, Han Fei put away the ring and opened the letter.

Ximen Linglan and Jia Wuxing were both looking at Han Fei, because Han Fei was frowning.

In fact, Han Fei's mind was filled with thousands of thoughts: Since it was in the Reincarnation Soul Realm, it wasn't a surprise that he was picked up.

He had been thinking, How can I get out of the Reincarnation Soul Realm? However, at this moment, he suddenly thought of the simplest question. Did he really come to the Reincarnation Soul Realm?

After all, the top five Soul Realms all had a way to leave.

However, he didn't know how to return to the Reincarnation Soul Realm. Many of the geniuses of the big clans in the Thousand Star City had entered the secret realm, but had he ever encountered one?

"No, not once, and not even any trace."

At this moment, Han Fei was thinking, The Beast King and the others said that the Time River is extremely difficult to cross. Then, what if the Time River and the normal Reincarnation Soul Realm are two different places?

Han Fei suddenly took a deep breath. The entrance he came in... was inside the Fifth Soul Realm!

At this moment, when he saw the Time Ring, Han Fei thought of the Time Dragon Carp. Could it be that what he accidentally entered was not one of the Soul Realms?

If that was the case, would anything happen if he put on this Time Ring? Could it be that this was the way out?

Ximen Linglan: "What's wrong?"

Han Fei gave the letter to Ximen Linglan without hesitation.

Under the stunned gaze of Ximen Linglan, Han Fei looked at Cao Xuan and said lightly, "Yes, it's quite important. I can give you a few choices. One is to board the Avenger, but I won't give you any compensation; the second is to teach you a heaven-level divine-quality body refining technique; the third is for you to bring it up."

Han Fei knew that Cao Xuan must have been waiting for him for a full year for something. This was human nature. But he didn't know when he had become someone else's opportunity.

The Time Ring Cao Xuan brought was indeed extremely important. He was willing to give this opportunity to him.

Cao Xuan immediately perked up and straightened his body.

Get on the Avenger? Not a random person could board it. It was said that no one on the Avenger was weak.

However, the heaven-level divine-quality body-refining technique was also very desirable.

Even if he took the third choice, he could ask for a large number of resources. Considering Marshal Han and the city lord's generous personality, as long as they could afford it, they would definitely pay.

However, Cao Xuan saw the hope of becoming a real powerhouse from the first choice. Compared to the temptation of the latter two, which was only temporary, if he could enter the Avenger...

Cao Xuan's eyes were firm. "I choose to board the Avenger."

Jia Wuxing rubbed his head and immediately shouted, "Boy, if you choose the latter two, I really want to slap you to death. Do you even need to think about it? Damn it, you are definitely the weakest one on the Avenger."

...

Since the rise of the City of Justice, human beings had been living a better life. Besides, the fancy city planning had revived the city and the surrounding villages.

The reef beach had become a place for the youths of the Great Wilderness Village to cultivate. And this cultivation had changed from the initial training to actual combat. There would be strong masters who took over related missions to come to supervise and prevent accidents.

After a year of development, a bounty hall was built next to the village leader's home. All kinds of bounty missions began to gradually change from the city to the village.

The people in the City of Justice were no longer confined to the City of Justice. Instead, they would travel to the surrounding villages and towns to see if there were suitable missions.

On this morning.

In the Great Wilderness Village, under the peach trees at Han Fei's door.

Hearing the noise outside, Yu Shuai impatiently pushed the door open and said angrily, "What are you all shouting about? The trial will start in half an hour... Huh, who are you?"

Yu Shuai suddenly saw a man and a woman standing under the peach trees at the door. The woman was standing and her momentum was daunting.

The man was squatting and carving a stone tablet. However, there were no words on the tablet. There were complicated lines drawn on it, which looked like an array.

The man looked back at him, and Yu Shuai instantly shivered and exclaimed, "I am Yu Shuai. Nice to meet you, Marshal Han. Nice to meet you, City Lord Xi'men."

Yu Shuai broke into a cold sweat.

A year ago, he had watched the whole process of the Avenger entering the city! Didn't the teachers all live in Han Fei's home? Why were these two here?

"Huh? City Lord?"

"Marshal Han? Are you Marshal Han?"

"Wow! I've met Marshal Han!"

The children were in an uproar. What they idolized most now was Marshal Han, because the people on the Avenger bragged most about Han Fei's story.

After all, Han Fei was more violent. He could tear apart strong enemies with his bare hands.

Whoosh!

The children ran and shouted, "Marshal Han is here, Marshal Han is here."

Han Fei smiled and carved a name with both hands: Wang Lun.

Han Fei put the stele down and put half of it in the soil. He said with a smile, "It's okay. You can continue to live here. I probably won't come back."

Yu Shuai didn't dare to speak either, mainly because he didn't know what to say.

Han Fei glanced at the big house next door and said lightly, "Let's take a look!"

Ximen Linglan nodded slightly.

Han Fei stepped on the array, and mysterious lines appeared. Assisted with a Spirit Gathering Array, a small array was formed after about a hundred seconds.

However, Yu Shuai did not dare to underestimate this array. The spiritual energy here instantly became several times more intense. Furthermore, he could see with his naked eye that there was a knife intent circulating in the array. It was a killing array.

Outside the killing array, there was a barrier. This barrier alone was not something ordinary people could break.

And this was just to guard a stele.

When Yu Shuai was still looking at the stele in a daze, and when the group of children were still excited and thinking whether to come up to greet Marshal Han, they saw the two of them disappear with a swish.

Next door, the library was still closed, but an old man was already sitting on a chair, his face expressionless.

When he saw Han Fei and Ximen Linglan, the old man looked up with a smile. "Miss, you're awesome. You've become the city lord."

Ximen Linglan's eyes were complicated. "Grandpa Xu, I just learned that you actually have the strength of a peak-level Hidden Fisher."

The old man laughed. "It doesn't matter. Wang Han, have you awakened your spiritual senses?"

Han Fei nodded slightly and cast the Divine Healing Technique on the old man, but it didn't work.

The old man shook his head and said, "Don't waste your effort. My injury has existed for too long. It can't be treated. Besides, I was injured by a very strong cultivator. Only the strength of a Venerable can heal it."

Ximen Linglan suddenly said, "So, Grandpa Xu, you knew everything back then?"

The old man grinned and said, "Wang Lun used to be a soldier under me and once asked me to take a look at this boy. When I came, I found out that this boy is very talented. Wang Lun once measured his Spiritual Heritage: Level Seven. But when I came to take a look, his Spiritual Heritage was Level Nine. However, when the Ximen family persecuted you, I came here with you, thinking that if this boy rose to prominence, Miss could rely on him."

The old man said leisurely, "But I didn't expect that as soon as we came, you two met..."

The old man rambled on for a long time before slowly saying, "The big clans won't give up. Miss, you haven't grown enough. Only when you are no longer afraid of Venerables can you really defend the City of Justice."

Ximen Linglan nodded. "Even if I can't, Wang Han can."

The old man was noncommittal and said lightly, "Go back! The City of Justice has just risen. I'm still waiting for its glory."

Ximen Linglan said, "Grandpa Xu, are you not going back with us?"

The old man chuckled. "The Great Wilderness Village is good, really good. I didn't die on the sea before, so I can live the rest of my life in peace. Miss, can you bear to let me go back?"

"Someone can take care of you."

The old man shook his head. "I won't cause trouble for others. Everyone has their own things to do. The same goes for me. If a sea demon dares to set foot in the Great Wilderness Village in the future, I can still kill him."

Han Fei smiled. "Not bad."

The old man looked at Han Fei with a smile. "Right? You know me... Go about your business. I'll wait and see."

The children who came later didn't see Han Fei and Ximen Linglan again. Instead, the tombstone and peach trees in front of Han Fei's house became the holy land for future generations, and many people came to observe.

After leaving the Great Wilderness Village, Han Fei and Ximen Linglan only stayed in the City of Justice for three days to make arrangements for the city planning before going to sea again.

...

Twelve years later.

In the sea outside the City of Justice, Yi Yue flew over. "Captain, it's the Dongfang family's ship. They seem to have encountered a great demon in the Explorer realm and are fighting."

Ximen Linglan's eyes were cold. "Everyone, sail there and grab it."

Yi Yue was already a peak-level law enforcer. She sneered and said, "It's only been 12 years, but they have already begun to take action. They have repeatedly crossed the line. Especially in the past two years, they have snatched many of our resources."

Ximen Linglan said, "This is the nature of big clans. Now they are just scrambling for resources. Once they have enough confidence to plunder resources, internal conflicts will start."

Han Fei flew over from a big black ship and said indifferently, "The City of Justice has already grown into a scale. They just want to pick the fruits of our labor. The civil war will last for a few years at most, but the current City of Justice is no longer what it used to be. Once they succeed, as long as the existing pattern remains unchanged, they have hundreds of years to slowly make people forget the existence of the Avenger."

"Cough!"

Han Fei's body shook slightly, and seeing this, Ximen Linglan's heart trembled, and she quickly asked, "How are you doing?"

Han Fei shook his head. "I'm fine. It's probably just some of my remaining memories."

Ximen Linglan said, "Is it because you can't suppress your realm anymore?"

Han Fei smiled. "Not bad, not bad. After this matter is over, I'll go to the Grand Myriad Mountains and have the beast king give me a body check."

Ximen Linglan nodded. "I'll go with you."

Han Fei waved his hand. "No need. You should guard the Avenger. I'll be back soon. Ten days at most."

On the other side, huge waves were surging, and knife light filled the sky. A Clam Girl was fighting a human.

"Hey! How many years has it been since the battle of the Venerables ended? How dare you come to the human domain? Your shell is not bad. I'm taking it."

The Clam Girl had no desire to continue fighting and retreated while fighting.

Suddenly, the Clam Girl was shocked. She put away the long silk in her hand and closed the shell.

Shua!

However, she was one step too late. A black light appeared instantly and rushed in before the clam shell closed.

"Ahhh~"

A shrill scream came from the clam, "Don't eat me ~"

On the other side, Dongfang Ming's expression changed drastically. The saber beam slashed at the void, facing the two scimitars.

Crack!

"What? An advanced Explorer, Ximen Linglan?"

"Roar!"

A hundred beasts appeared in the sky, and a thought flashed in Dongfang Ming's mind. "Wang Han is here too. Has the Avenger arrived?"

Splash!

A huge Blood Shadow Shark, with thousands of bloody marks appearing in the air, seemed to be blocking Han Fei and Ximen Linglan.

However, he was only an intermediate Explorer. How could he be a match for these two? Han Fei used the Draw Technique with irresistible force, and the Void Lines directly grabbed the Blood Shadow Shark.

As for Ximen Linglan, who was already an advanced Explorer, she turned into a mist and entered the battlefield, her double blades instantly piercing through Dongfang Ming.

"Pfft!"

Chi la!

Half of Dongfang Ming's body exploded, but he managed to block the attack with the Blood Shadow Shark.

Of course, his spiritual beast died in the end. The battle between the strong ended in the blink of an eye, not to mention that he was ambushed by two strong masters.

Dongfang Ming shouted, "Ximen Linglan, the big clans have already moved away. There's no need to kill anyone to compete for resources, right?"

Han Fei turned the Infinity Water into a knife and instantly cut through the void that had just been torn apart by Dongfang Ming. He said coldly, "I'll kill anyone who dares to cross the boundary. Recently, many boats from the City of Justice have disappeared. You did it, right? Kill."

Han Fei's voice rumbled like thunder, echoing hundreds of kilometers away. Nobody dared to approach him.

"Wang Han, you are instigating a war."

"Roar!"

What responded to him was still the Hundred Beast Soul Subduing Roar. When the black fog poured over and the two parties slashed again, Dongfang Ming had no chance to speak anymore and died.

On the other side, Yi Yue had already led her people into the enemy's ship to wipe them out.

As for the Clam Girl, at the moment Little Black swallowed her, Han Fei sensed Little Black was in danger and immediately took Little Black back.

"Humph! Go to hell."

Han Fei's Sacrificing Punch erupted, and terrifying energy dispersed, blasting the Clam Girl into the seabed.

Hum!

When Han Fei was about to attack again, energy escaped from his only major acu-point, making Han Fei's body tremble slightly.

Seeing this scene, Ximen Linglan said, "I'll do it. You take a rest."

Han Fei frowned. He knew that he couldn't hold it anymore.

"Alas, I can't hold on much longer."

Chapter 1144: Han Fei's Setup

On the Avenger, Ximen Linglan solved the seriously injured Clam Girl and immediately rushed back.

Ximen Linglan said anxiously, "Idiot, how are you? I just felt the energy riot in your body. Are you going to make a breakthrough?"

Han Fei nodded slightly. "I can't control my strength in combat now."

Ximen Linglan frowned. "Then you'd better not fight for now."

Han Fei shook his head. "I'm going to the Grand Myriad Mountains. Take the Avenger back to the city. Be careful in case the big clans take revenge. I think they must have already learned the news.."

Ximen Linglan frowned. "Do you really not want me to go? You've never left me in your life."

Han Fei didn't know whether to laugh or cry. "Are you worried that I will be eaten by a big fish halfway through?"

Ximen Linglan snorted. Seeing that Han Fei could still joke on her, she said seriously, "Yang Xiaogao is on the ship. He is also an Explorer. He can handle it."

Han Fei shook his head. "Junior Explorers and Advanced Explorers are two completely different concepts. Don't worry. I'll be back soon."

In the end, Ximen Linglan nodded helplessly. "Then hurry up. If you don't come back in half a month, I'll go to the Grand Myriad Mountains to find you."

Han Fei grinned. "Okay!"

...

Han Fei stopped tens of thousands of kilometers away from the Avenger, his face cold. His strength couldn't be suppressed for long. Once he made a breakthrough, he would definitely reach the peak and be very strong.

At that time, his soul injury would completely recover.

At that time, could he restore the remaining memories? He didn't know! After all, there seemed to be a restriction of the Great Dao.

However, the consequences of this breakthrough were unpredictable. If he really remembered everything, to keep certain secrets, he might be directly sent out of this space. At this moment, Han Fei still had some things to do. After he settled everything here, he could leave in peace.

Of course, even if he made a breakthrough, he might not go back, but Han Fei couldn't take the risk.

Han Fei floated in the air and thought for a full two hours, before he turned around and walked towards the Storm Strait.

...

The Beast King Valley.

"Wang Han, you finally came back?"

"Fool, why are you only an advanced law enforcer?"

"Little Wang Han, let's fight? I'm Ape Six!"

The beast king roared, "Go play. My disciple, come with me."

When nobody was around, the first thing the beast king said was, "You can't hold it back anymore?"

Han Fei nodded. "Master, I'll definitely make a breakthrough in at most half a year."

The Beast King took a deep breath. "If you forcibly seal your strength, it may be useful. However, your soul is protected by a special treasure, so it's a little difficult!"

Han Fei said, "Master, I didn't come here to continue to suppress my realm. I have a feeling that I'm going to leave."

"Huh?"

The beast king's eyes widened. "Have you found a way to cross the river of time?"

Han Fei thought to himself, There are only two possibilities. One is that after I make a breakthrough, my memories will be completely restored and I can't stay in this world. The other is the Time Ring.

Either way, there must be a problem with his breakthrough this time. This feeling was very strong.

Han Fei shook his head slightly. "I'm not sure. I just have a strong hunch."

The Beast King pondered for a moment. "Then why did you come back to our time in the first place?"

A gleam of determination flashed in Han Fei's eyes. "I want to set up a trap. I hope that you can help me when the time comes, Master."

"What trap?"

Han Fei said leisurely, "To kill a Venerable."

...

Han Fei went to the Giant King City and the Demon Plant Mountain respectively. However, at this moment, the Giant King and the others were still sleeping and recovering from their injuries. Perhaps they knew that Han Fei had come, but they didn't talk to him.

Han Fei just bowed and left. He didn't know the divine son well, so he didn't go to see him.

It had only taken Han Fei seven days to leave the Grand Myriad Mountains. This was because Han Fei was only in the Law Enforcer realm. If he were an Explorer, his speed would be at least several times faster than now.

When Han Fei was not around, Ximen Linglan had been sitting on the bow of the ship, looking far away, waiting.

Shua!

Han Fei suddenly appeared and looked at Ximen Linglan with a smile. "I'm back."

Ximen Linglan rose abruptly. "What did the beast king say?"

Han Fei grinned and said, "It's a little difficult, but not a big problem. Master gave me an amazing technique. Maybe I can make a breakthrough and transcend the heavenly tribulation."

"Huh?"

Ximen Linglan was stunned for a moment. He had been suppressing his realm for so long, but now he could make a breakthrough and transcend the heavenly tribulation directly?

If so, didn't it mean that Han Fei was about to break through to the Explorer realm?

Ximen Linglan was overjoyed and quickly asked, "What should you prepare?"

Han Fei said, "I need to choose a place to transcend the heavenly tribulation. My heavenly tribulation might be troublesome. It might not be enough to rely on the Avenger alone. I need to set up an array with the power of the earth veins."

Ximen Linglan frowned. "Do you need to borrow the power of earth veins to transcend the heavenly tribulation? Where can you do that?"

Han Fei sighed. "Originally, the Grand Myriad Mountains was a good choice. With the mountains and dragon veins as the array, I can resolve this disaster. But in that case, the Grand Myriad Mountains will be greatly damaged. Therefore, I have to find a place similar to the earth veins in the sea."

Ximen Linglan frowned. "Are you talking about the Sea of Mystifying Mountains in the north?"

Han Fei nodded. "Yes."

Ximen Linglan said, "But that's the territory of the big clans, right?"

Han Fei snorted coldly. "All places are the outer waters of the City of Justice. Besides, they know my identity, so they shouldn't dare to attack me. Don't worry. After this disaster, I may be able to get out of trouble."

Ximen Linglan thought for a moment. If she went to the Sea of Mystifying Mountains to transcend the heavenly tribulation, there might be a big problem. But Han Fei was indeed different. He was the disciple of the four venerables. If someone dared to mess around with him when he transcended the heavenly tribulation, it would be provoking the Grand Myriad Mountains.

With this in mind, Ximen Linglan nodded. "Okay, let's go."

Han Fei grinned. "I'm in a good mood today. What do you want to eat? I can cook for you."

Ximen Linglan smiled brightly. "Stir-fried Squid!"

"Okay!"

It was also when Han Fei returned that a Venerable suddenly opened his eyes from his cultivation in the place occupied by the big clans in the north. "Huh! Why is the beast king going to the Black Stone City?"

...

The sea area was so vast that the probability of boats bumping into each other was extremely low. Therefore, even when the Avenger reached the waters of the Sea of Mystifying Mountains, they didn't encounter any big clan ships.

After all, this place was still far away from the land and belonged to the deep sea area. What he was more worried about was actually the threat from the big demons in the deep sea.

Half a month had passed, and Han Fei was swimming among the mountains, setting up arrays and making plans. Everyone on the Avenger felt that Han Fei was really going to make a breakthrough this time.

Someone said, "How strong do you think Marshal Han will be after he becomes an Explorer?"

Someone shook his head. "I don't know! I guess he might be comparable to an advanced Explorer."

Someone sighed. "That can't be! After all, he has to surpass the peak of the law enforcer realm. But in any case, he can definitely be comparable to an intermediate Explorer."

Yang Xiaogao said solemnly, "Now, what we should worry about is not how strong he will be when he becomes an Explorer, but how strong the Heavenly Tribulation will be. Haven't you seen that Marshal Han has been setting up arrays for half a month? He plans to resist the Heavenly Tribulation with the power of the mountains... Tsk, I'm afraid only Marshal Han needs to transcend the heavenly tribulation like this."

A newcomer couldn't help asking, "Master Gao, is the heavenly tribulation really so terrifying. How did you feel back then?"

Yang Xiaogao shook his head. "How did I feel? Without Marshal Han's array, I felt that I was going to be killed. How did I feel? It was really horrible!"

Ximen Linglan shouted, "Stop talking. Stay on high alert. If a big demon attacks, open up all the arrays on the boat and ram it."

Everybody shivered and shouted in unison, "Yes, Captain."

Bang!

Han Fei broke out of the water, glanced at the Avenger, and shouted in a low voice, "All ships, step back. When I'm transcending the heavenly tribulation, don't enter within 50 kilometers."

Ximen Linglan came to Han Fei. "Aren't you going to borrow the power of the Avenger?"

Han Fei said, "Have you forgotten what path I took? Since I've embarked on the path of invincibility, even if it's a heavenly tribulation, it's still my enemy. When a danger comes and I have to use it, I will still use it. Just empty out the Avenger and don't have anyone on it."

Ximen Linglan sensed the extreme confidence and dominance in Han Fei's words, but she couldn't help but worry.

Han Fei said, "Remember, don't enter my lightning tribulation area. Otherwise, not only will it attack you, but my heavenly tribulation may even become stronger."

Ximen Linglan took a deep breath. "Okay, stay safe."

Han Fei nodded slightly. "Don't worry. I'll transcend the heavenly tribulation in an hour. Go back to the boat first."

With that, Han Fei sat on the sea.

Seeing this, Ximen Linglan could only retreat.

At this moment, no one was more nervous than her. She knew that if she survived this disaster, Han Fei would probably be unimaginably strong.

On the boat, Yang Xiaogao was shocked. "Captain, won't Marshal Han need the Avenger?"

Ximen Linglan shook her head slightly. "It's none of your business. Just do your job."

As for Han Fei, he sighed inwardly. What heavenly tribulation? I just made it up.

Han Fei never thought that the sixth level of the True Spirit Fishing Art would be deduced under such circumstances.

He was gambling, but he felt that he had the ability to do so.

The deduction of the sixth level required a billion points of spiritual energy, which must be appalling and turbulent. Also, according to the level of Void Fishing, the sixth level of Void Fishing could reach the venerable level, divine-quality.

What did it mean?

Above the Venerable level was the Sea King Realm. And the Demon Purification Pot could only deduce Venerable-level, low-quality at best.

Although he could continue to deduce it, it would damage the Demon Purification Pot.

Han Fei still chose to deduce it because he knew where the third little vine was, and he would get it in the end. Even if the Demon Purification Pot was damaged in this forced deduction, it should be able to withstand it.

He could always find a way to make up for it later.

Besides, this deduction might be a chance. The sixth level of Void Fishing was at least a venerable-level technique. The safest situation was to deduce it when he reached the venerable level.

However, it was impossible for Han Fei to really wait to reach the Venerable level. In fact, the Explorer level would also do. And his physique could be said to have reached the peak. Under his full strength, he could match an intermediate Explorer. Of course, he could give it a try!

...

Han Fei didn't dare to talk to Ximen Linglan anymore.

Otherwise, he would have said a lot similar to the last words. With Ximen Linglan's smartness, she would definitely sense it.

Therefore, he might as well not say it.

He was already prepared. When he made a breakthrough, the deduction would begin.

The two were connected. Even if the Great Dao noticed it, the deduction had already begun. It had to be completed, right?

Half an hour later, Han Fei's body was obviously surging with spiritual energy. 50 kilometers away, everyone looked at the sea nervously.

Ximen Linglan's palms were sweaty, her body was tense, but her face was expressionless.

Buzz buzz buzz!

On the surface of the sea, vortexes appeared one after another, making Han Fei seem to be in them.

A tremendous amount of spiritual energy rose to the sky, forming visible spiritual energy storms.

Gulp!

Everyone swallowed. Is this the beginning?

This scene was shocking enough. Han Fei was just advancing from an advanced law enforcer to a peak-level one, but caused such a huge commotion. Wouldn't his heavenly tribulation scare people to death?

Han Fei had indeed set up arrays on the mountains. However, in addition to the spiritual energy arrays, there were also various killing arrays to prevent other creatures from attacking him. He estimated that if he really made it through, most of the mountains would collapse, which would be a great loss to the Sea Clan.

This deduction was also an opportunity. If Han Fei successfully deduced it, he probably wouldn't have to worry about cultivation techniques until he reached the Venerable realm.

But on the sea, Han Fei didn't make any arrangements.

He wanted to wait for the big clans to take action and destroy his heavenly tribulation.

Han Fei's ideal plan was to successfully deduce the technique, but he would definitely be seriously injured.

If the big clans came to cause trouble and try to stop him from transcending the heavenly tribulation, his plan would be successful. This was because they couldn't break it at all. After all, this wasn't a real heavenly tribulation.

Then, he would put on the Time Ring and pretend that he was already dead.

When the time came, the beast king would show up and kill the Venerables, and everything would go smoothly and he could also avoid Ximen Linglan's eyes.

The other situation was that the big clans didn't take action. But even if they didn't take action, it wouldn't change anything. Coming to the Mystifying Mountains to transcend the heavenly tribulation was just an excuse. As long as he disappeared, or said that the big clans wanted to kill him, even if those big clans didn't take action, the beast king would still take action. Even if he didn't slaughter them, it shouldn't be difficult to suppress the big clans for another hundred years.

Everything was going according to Han Fei's plan. He didn't hesitate.

No matter how beautiful everything was, he was still not from this world. He had left the Thousand Star City for so long. Who knew what changes had happened there?

Buzz!

Thirteen spiritual energy tornadoes crazily poured into Han Fei's body, and the surrounding energy was suddenly emptied.

The sky and the earth suddenly changed.

Han Fei's heart skipped a beat. As he expected, was this realm the limit he left in this world? Even before he started the deduction, the world had changed.

Half an hour later.

Crack!

When the crisp sound of a breakthrough was heard, there was an explosion in the sky.

"Deduce."

Rumble!

In an instant, within tens of thousands of kilometers, the wind and clouds suddenly changed, and black clouds covered the sky. In the sky, lightning kept exploding. Above the sea, furious tides struck, and huge waves rose.

Everyone held their breath and looked at this scene in shock. Is this the scene of Han Fei transcending the heavenly tribulation?

Almost at the same time.

The three human venerables looked at the sky almost at the same time.

“Is someone transcending the heavenly tribulation? No, the Great Dao is roaring?”

Swish swish swish!

All the peak-level Explorers also raised their heads. Something big was bound to happen.

The Beast King stood above the unknown sea area. “The Great Dao doesn’t allow his existence? What did this kid do? Why did he trigger a Heavenly Change? But this change seems to be a little weak.”

...

As if forming a super vortex above the sea, Han Fei was almost wrapped in a spiritual energy cocoon. However, Ximen Linglan and the others who were close could see that the terrifying amount of spiritual energy was entering Han Fei’s body at an incredible speed.

Boom!

A bolt of lightning struck down without any warning, and the electric arc illuminated the dark sky. The weird electric arc could even jump on the sea, forming a large circle that enveloped the sea area for dozens of kilometers.

As an Explorer, he could already see billions of tiny electric arcs flashing in the water and the void.

“Hmph!”

Han Fei’s clothes were torn and he was bleeding from his mouth and nose. Electric arcs were dancing on his body.

Shua!

The Divine Healing Technique was activated. Han Fei turned his hand, and thousands of energy fruits appeared, but they were instantly reduced to dust.

“Huff!”

The Swallowing Technique was activated, and the terrifying energy was sucked into Han Fei’s body in one breath.

Boom! Crack! Crack!

The void was illuminated again, and thick lightning enveloped Han Fei. The lightning was about to disappear when...

Boom Boom Boom ~

Bolts of lightning struck down one after another.

Every time lightning struck down, the eyelids of Ximen Linglan and the others twitched, and their hearts trembled.

Someone exclaimed, "Master Gao, Master Gao, didn't you say that there were only three lightning Tribulations? How many of them are there?"

Yang Xiaogao was stunned too. He looked at Ximen Linglan and asked, "Captain, what happened? Did the Heavenly Tribulation try to kill Marshal Han?"

Ximen Linglan was also stunned. This is a heavenly tribulation? This is torture!

More than 30 bolts of lightning struck down in a row, and it seemed that it needed to accumulate strength before it stopped for a moment. But at that moment, everyone saw that Han Fei's skin cracked, his flesh became blurred, and a terrifying vitality was erupting.

They saw more than a thousand energy fruits appear, but then they were turned to dust. On Han Fei's body, flesh and blood were rapidly growing and repairing.

...

In the sky.

Three Venerables appeared at the same time.

The three of them looked at each other. "It's Wang Han. Why is he here?"

Someone shouted, "It seems that he wants to transcend the Heavenly tribulation with the power of the Sea of Mystifying Mountains. But why did this heavenly tribulation anger the rules of the Great Dao?"

"Don't be hasty. I've never heard of such a heavenly tribulation. It wouldn't be bad if he is killed by it."

"To be able to trigger such a power, how talented is this kid? No wonder the four venerables of the Grand Myriad Mountains took him in as their disciple."

Ximen Tian's eyes were cold. "No, this guy can't survive this heavenly tribulation. Otherwise, once he becomes a Venerable, who can resist him?"

Someone immediately said, "The beast king seems to have something to do and has gone to the Black Stone City. The Grand Myriad Mountains are only guarded by the Divine Son. Shall we take action?"

Another Venerable said, "Look at the sky. The Heavenly Tribulation doesn't seem to be stopping at all. Let's wait and see. If it doesn't work out, we can still take action. It's best not to do it ourselves, or the beast king will be angered."

"Humph, even if we piss off the beast king, we can't let him survive the Heavenly Tribulation!"

The Venerables were chilled. They had seen how domineering Han Fei was. He regarded the big clans as his enemy. Once Han Fei became a Venerable, how could the big clans rise again?

Han Fei didn't dare to use any secret techniques. He first tried to resist the lightning with the War Body and the Swallowing Technique, but after a round of bombardment, he clearly couldn't withstand it. Only then did he try to resist the lightning with the terrifying vitality of the Indestructible Body.

Fortunately, he had a lot of resources, and he was giving out energy fruits ceaselessly.

Boom! Boom! Boom!

After half an hour, Han Fei had directly turned into char. If it weren't for the fact that they could still feel Han Fei's breath, Ximen Linglan and company would have collapsed.

As many as hundreds of lightning bolts had struck him.

In the void, Ximen Tian's eyes were cold. "We can't wait anymore! This kid's physique is amazing and he has infinite resources. If he makes it through, what will happen?"

Someone said, "Don't move. Is there any deeper meaning for this kid to transcend the heavenly tribulation in the Sea of Mystifying Mountains?"

Ximen Tian said, "How is it possible? This kid's heavenly tribulation is so terrifying. If the beast king is here, how can he not come?"

The three of them performed divination at the same time.

However, they were immediately stunned. The world around this brat was in chaos, and they couldn't calculate anything!

Someone suggested, "Each family picks a peak-level Explorer. Don't we have the remains of Venerables? Throw them out and use it as an excuse. Then, we'll compete for it with our own abilities. Even if this guy dies, it won't be our responsibility."

After all, these Venerables all had their own schemes. If the beast king was enraged, they didn't want him to target their families. If they had to be implicated, it would be good if they could take less responsibility.

However, no matter what, Han Fei couldn't survive this heavenly tribulation. This was their consensus!

With Han Fei's personality, he dared to blatantly threaten a Venerable at the Law Enforcer realm. If he really succeeded in transcending the heavenly tribulation, what would happen?

Therefore, they would rather offend the beast king than let Han Fei survive this disaster!

Half an hour later, Han Fei's breath became weaker and weaker. If it weren't for the energy fruits and spiritual energy gathering, even Ximen Linglan felt that Han Fei might not have been able to survive this strange heavenly tribulation.

At this moment, the lightning strikes slowed down, and everyone's eyes lit up.

On the Avenger's side, everyone was shouting, "Marshal Han, hold on!"

"Marshal Han, you are invincible."

"Marshal Han, we'll wait for you to come back and continue to explore the sea."

"..."

Suddenly, three figures tore through the void. The three of them wore battle suits and held giant shields, rushing into the field at an extremely fast speed.

Ximen Linglan shouted angrily, "A*shole, Wang Han is the disciple of the four venerables. If you dare to touch him, you will die."

Ximen Linglan rushed forward, Yang Xiaogao followed closely behind, and a group of peak-level law enforcers roared out.

“F*ck, do you want to die?”

“How dare you touch Marshal Han? Go to hell.”

“B*stard from the big clans, stop!”

However, one of the three shouted, “The remains of a Venerable are here. We are just competing for opportunities.”

As he spoke, a ray of light was smashed into the deep sea.

Han Fei was really dying. In fact, he should become an Explorer before he deduced the sixth level of Void Fishing.

This time, the consumption of resources was terrifying.

He felt that a weird power was really trying to kill him. If it weren't for the Demon Purification Pot's rapid swallowing ability, he probably wouldn't have survived this even with the vitality of the Indestructible Body.

At this moment, seeing the strong masters of the big clans coming at him, no one knew that under the charred skin, Han Fei's lips twitched.

At this moment, a seemingly ordinary ring suddenly appeared at Han Fei's fingertips.

At that moment, the ring, which was originally the size of a baby's finger, became bigger and bigger the moment it touched Han Fei. In an instant, it turned into a dragon-shaped ring and slipped on Han Fei's finger.

Ka ka ka!

Han Fei turned his head with difficulty, his flesh and blood were being torn. He looked at the three peak-level Explorers and opened his mouth with difficulty. “Boom.”

Seeing this scene, the three of them were speechless. What did Wang Han mean? Was he struck silly?

Boom!

Another lightning bolt struck down, and the lightning enveloped Han Fei.

Han Fei felt that there was a power trying to obliterate his vitality.

However, a blue light flashed at his fingertips, and a vortex hole appeared.

Shua!

Everyone saw that in the lightning, the person was twisting and changing.

Buzz!

However, this bolt of lightning seemed to have accumulated some more power. Therefore, it lasted a little longer. When the lightning disappeared, Han Fei was nowhere to be seen.

On the sea, there was only a large amount of coal-like flesh and blood.

“Roar!”

There was a roar, which seemed to come from the endless sky.

Chapter 1145: Time Dragon Carp

The expressions of the three human Venerables changed drastically. Someone shouted, “Not good! Is that brat dead? He has persisted for so long. Why did he die under this lightning bolt?”

“You three, come back. Come back.”

Ximen Tian extended his hand, trying to grab the three of them back. This timing was too f*cking coincidental! This time, the big clans wouldn’t be able to get away with it.

They wanted to stop Han Fei from transcending the heavenly tribulation. However, once they succeeded, they were afraid that the beast king would retaliate. After all, Han Fei was the only disciple of the four venerables!

Even so, at this moment, Ximen Tian still shouted, “Kill Ximen Linglan and the others.”

However, in the distant void, the beast king roared..

“You big clans deserve to die! How dare you kill my disciple! Go to hell!”

The first to take action was not the beast king, but the divine son, the guy who rarely appeared.

As soon as the divine son appeared, he clenched his hand, instantly crushing three peak-level Explorers and the void exploded.

Following that, the divine son scooped it into the sea and frowned. “The three of you, this time, it’s too much.”

Ximen Tian shouted, “A trap! This is a trap!”

Bang!

A huge rod shot out of the void and smashed at Ximen Tian.

The beast king appeared. “Shut up! Old b * stard, I’m just going out for a few days. How dare you attack my disciple? Who gave you the courage?”

Ximen Tian brandished his sword. “If it weren’t a trap, why did you come so quickly?”

“Roar!”

The phantom of a hundred beasts floated in the air, and the beast king roared, "I am a Half-king, and it is easy for me to cross the void. My disciple should have been able to pass this tribulation. If you hadn't done anything, how could he fail?"

The five Venerables shattered the space and entered the void.

Ximen Linglan went crazy. Her perception swept over again and again, and tears kept flowing from her eyes. "Impossible, impossible. How can he die? How can he die?"

"Idiot, come out, come out..."

Ximen Linglan plunged into the water. She felt that her perception had deceived her. A phantom hand picked up the withered flesh and blood fragments and searched for a full half an hour in the sea area.

Yang Xiao and the others all burst into tears. Damn it!

They didn't believe that Marshal Han was dead either.

The lightning was gone! The heavenly tribulation was over!

However, the sky changed color, and the void trembled as if a great battle was about to break out. Yang Xiaogao and the others knew that even the beast king thought that Marshal Han was dead...

Bang!

Ximen Linglan broke out of the water, holding a Venerable's tailbone in her hand. That was the excuse of the big clans to destroy Han Fei's breakthrough. At this moment, it was held in Ximen Linglan's hand.

Yang Xiaogao, Yi Yue, and the others all gathered behind Ximen Linglan, not daring to speak.

They all knew that although Ximen Linglan was the city lord, Marshal Han was the one who had the final say on the Avenger.

This blow was too big. They were afraid that Ximen Linglan would go crazy.

However, Ximen Linglan suddenly said, "That's not right. He's not dead. This Venerable bone is useless. Although those people entered the Heavenly Tribulation, it didn't immediately cause a change in the Heavenly Tribulation. Unless a Venerable took action, it's impossible to kill him without alarming the beast king and the divine son."

Ximen Linglan was suddenly curious. Why did Han Fei go to the Grand Myriad Mountains this time? And why did the beast king ask Han Fei to suppress his realm? Why did he transcend the heavenly tribulation in the Sea of Mystifying Mountains? Why did everything seem so coincidental?

...

Bang!

Suddenly, blood splashed across the sky, and two streams of light suddenly appeared and then disappeared.

Following that, Ximen Tian appeared with half of his body, blocking the shocking stick. Immediately afterward, his figure was wrapped in a red glow, and he tried to escape.

The beast king chased after him, but the divine son stepped on the surface of the sea and pointed at the void. Ximen Tian's heavily wounded body was directly blown up.

But at the next moment, another blood arrow shot out.

The divine son didn't chase her. He glanced at Ximen Linglan indifferently. "I searched the entire world but didn't find him. My condolences."

The divine son only said that. He was not good at acting, so he just cooperated and flew back, leaving the Beast King to act alone!

Boom!

The battle in the sky lasted for half an hour, during which the sky changed several times.

The roar of the beast king resounded through the void. "Good, good, good. I didn't expect that your big clans still have Venerables hidden! Old Ximen, I, the Grand Myriad Mountains, will remember this. Wait for me. After a hundred years, when Old Gu and Tianqing recover, I'll see how you can stop me!"

The beast king returned and stopped a thousand meters away from Ximen Linglan. He said with murderous intent, "Girl, you guard that city. The Grand Myriad Mountains will take revenge against them."

Ximen Linglan looked at the Beast King stubbornly. "He is not dead. I know this is a trap. Senior Beast King, please tell me where he is."

The beast king roared, "How would I know? If that boy is not dead, how could I not know? You little girl, sigh... I've told you I will avenge you."

Ximen Linglan shouted, "Teacher, what did he say to you when he was in the Grand Myriad Mountains? Why did he have to suppress his realm? Who is he?"

Buzz!

The beast king waved his hand, and Ximen Linglan's body softened and she fainted.

The beast king said, "The girl is too sad. Let her sleep."

With that, the beast king disappeared from the boundless sea.

Only Yi Yue, Yang Xiao, and the others were left standing on the sea, their minds blank.

...

Han Fei didn't lose consciousness. He still knew to cast the Divine Healing Technique on himself.

After a full hour, he slowly opened his eyes. During this hour, he seemed to be lying on the cold water.

When Han Fei opened his eyes, he saw a big fish looking at him.

Seeing that Han Fei woke up, the big fish said indifferently, "You're awake?"

"Senior Time?"

The big fish in front of him was the Time Dragon Carp. This was something Han Fei didn't foresee. He thought that with the Time Ring, he might wake up in the Ideal Palace.

Han Fei quickly looked around and found that it seemed to be a blue, glowing cocoon.

Han Fei hurriedly asked, "Senior, where is this?"

The Time Dragon Carp looked at him curiously. "This is a time gap. Human, I didn't expect you to be so lucky."

Han Fei automatically ignored the latter half of the sentence and was shocked. "A time gap? Senior, how was the battle before I came? Do you know?"

The Time Dragon Carp said indifferently, "With the time here, half a month has passed since the battle. A Venerable was seriously injured and it's impossible for him to recover without a hundred years. As for you, fortunately, you are still wearing the Time Ring. Otherwise, in your previous state, not only would you be lost in the river of time, but your old body might also be corroded, leaving only your soul."

Han Fei took a breath. "My old body?"

The Time Dragon Carp sneered. "Well, when I first saw you, I was a little puzzled. You were lacking a period of time in your life. This time, your soul accidentally entered the river of time to interfere with fate and narrowly make up for the missing period of time in your life. If you can take this body back, it will fuse with your original body. You will be a complete you and won't be watched by the Heavenly Dao Dharma Eye again. Do you understand?"

Han Fei shook his head. "No."

The Time Dragon Carp rolled her eyes and seemed to find Han Fei stupid, so she explained again, "It means that you are an ancient person. When you were young, you were sent through the river of time to the future. Therefore, you lack a period of history. Now, you have made up for this period of time by affecting the future. In this way, you won't have any missing part in life. Your current body and your future body are both you. Therefore, when the two are combined, you'll successfully avoid history and become a person of the future."

Han Fei scratched his head. He understood what she said.

Although he understood, he was still dumbfounded. "Is my life so magical?"

The Time Dragon Carp sneered. "Magical? That's because you don't know what price someone has paid to break the time rule in this way. Forget it, this is your business. Since you and I are acquaintances, I'll help send you back! However, you owe me a huge favor. In the future, you must treat my son better, preferably to satisfy all my son's needs."

Han Fei hurriedly said, "Wait a moment."

"Huh?"

Han Fei smiled awkwardly. "Senior, can you actually travel the river of time? Can you show me... That woman?"

The Time Dragon Carp grunted and said, "But you can only see her through time. It's impossible for you two to meet again. Otherwise, if I appear again, the rules of the Great Dao will notice me and try to kill me."

Shua!

As the Time Dragon Carp flicked her tail, an image appeared on the blue light cocoon...

...

Grand Myriad Mountains, the Beast King Valley.

Ape One scratched his butt and said, "King, Little Linglan has been kneeling outside for half a month. Do you really not want to see her?"

Ape Three was swinging his rod. "King, the girl is quite pitiful. You'd better meet her!"

The Beast King roared, "Why? Human beings are the most fickle. That brat didn't set the trap well and was seen through by her, but still wanted me to keep it a secret for him... Bah, I promised to keep it a secret."

Ape One said, "King, why don't we ask her to find the divine son?"

The Beast King's eyes lit up. "Yes, let her go to the divine son. Come on."

Pa!

Ape One was slapped to the ground by a hand that suddenly extended from the void, and a big pit appeared on the ground.

The Beast King grinned. "Ha! Divine son! I agreed to keep it a secret for that brat, but you didn't. Just tell little Linglan what happened then."

Seeing this, Han Fei couldn't have felt worse. Beast king, you are too unreliable!

Outside, Ximen Linglan was still kneeling on the ground stubbornly.

She had watched Han Fei for half of her life, but he died so easily? Something was obviously wrong. The Heavenly Tribulation, although powerful, couldn't kill Han Fei. Why did the last blow kill him... Even his bones were gone.

Ape Three held a big stick and walked out. "Girl, you are really something. Forget it. The king wants you to ask the Divine Son. Perhaps the Divine Son can answer you."

Ximen Linglan's eyes lit up, and her body disappeared.

After a while, on the stormy peak, Ximen Linglan said, "Master Divine Son, Ximen Linglan has something to ask you. Please see me."

The divine son's voice rang slowly. "He doesn't belong to this era. This is the answer you want."

Ximen Linglan was taken aback and braced herself, asking, "Master Divine Son, can you make yourself clearer? I... don't understand."

“Sigh!”

The divine son said leisurely, “He came from millions of years later. It was just a coincidence that he passed through the river of time and came here. He’s not from this era.”

Ximen Linglan was dumbfounded. From millions of years later? Not from this era?

Immediately, she seemed to understand.

Even when Han Fei’s consciousness awakened, he had never told her about his memories, not even once.

It turned out to be so bizarre!

No wonder he refused to have a baby with her.

She had thought that she still had a lot of time, a lot of time in the future.

It turned out that he had known it all along but didn’t tell her, which was why he pretended to be dead.

Ximen Linglan gritted her teeth. “Master Divine Son, can I... transcend the river of time?”

“If you become a king, or even above a king, you might have a chance to see him through time. It’s almost impossible to pass the time. You can’t withstand the erosion of thousands of years.”

After a long silence, Ximen Linglan wiped her eyes. “Then I’ll just wait. I’ll try to live to the age he was in.”

Shua!

All the pictures in front of Han Fei disappeared.

The Time Dragon Carp said, “This is probably your obsession... Let’s go! Although you can stay in the time gap for a long time, it doesn’t mean that your body won’t be corroded by time.”

Han Fei was silent for a moment, nodded slightly, and murmured at the time barrier, “There’s a will in the pirate flag.”

Chapter 1146: Thug Academy’s Crisis

Ideal Palace.

Through the mist of time, Han Fei saw his body still lying there.

He felt very strange. Now he had two bodies? What should he do?

The Time Dragon Carp said, “You can go out by yourself. Because you are always you, your old body will collapse and then fuse with you. Huh! This place is a little strange... So it turns out that someone stole a section of the river of time. No wonder you can run to the other end of the river of time. No wonder the suppression of the Great Dao in that era was so weak... It seems that you have a powerful background!”

Han Fei’s eyes glittered. “Did someone really steal a section of the river of time?”

The Time Dragon Carp said, "It's actually not accurate to say that it was stolen. However, someone sealed this section of the time river.. In a sense, it is isolated from the influence of many Great Dao rules. However, what's strange is that if this person only sealed the river of time for you, at this moment, the seal should have been lifted. Why is this seal still there?"

Han Fei's heart stirred. He suddenly understood.

It must have been his mother who used some method to seal it.

Why was it impossible to lift the seal? Because it required someone else entering. Who was that person? Apart from Yin'er, who else could it be?

Unfortunately, Yin'er's Yin and Yang souls were separated, and her Yang soul and body were still in the Sixth Heavenly Palace. He had to think of a way to go to the Sixth Heavenly Palace to find Yin'er.

However, at this moment, Han Fei didn't have so many questions.

Han Fei cupped his hands and said, "Thank you for your help, Senior. When can I go to Little Time?"

The Time Dragon Carp said lightly, "You don't need to look for her. When the time comes, my daughter will find you."

With that, the time barrier was opened. Han Fei thanked the Time Dragon Carp again and stepped out.

As soon as he entered the mist of the Ideal Palace, Han Fei suddenly felt excruciating pain all over his body.

Crack... Crack...

He felt that all the bones in his body were collapsing inch by inch. He couldn't even stand straight and fell to the ground. Immediately afterward, his flesh and blood were melting, but they did turn into spots of golden light.

The feeling was indescribable.

However, at this moment, Wang Han's body turned into countless golden light particles, which were absorbed by his own body.

Han Fei knew that this was the so-called old body fused with the original body.

Han Fei's soul only lasted for a few minutes before it fused with his body.

There was no telling how much time had passed, but it was still a blur.

When Han Fei suddenly felt that he was completely sober, a dazzling sunlight suddenly shone on his face. However, the warmth of the sun seemed a little strange. It was a little too high.

When Han Fei saw that the sky was blazing like fire and steaming hot, his first reaction was, Am I out of the Ideal Palace?

It made sense. It was impossible for the Time Dragon Carp to send his body through the river of time into the Ideal Palace.

Click!

Han Fei twisted his neck and immediately made a cracking sound.

“Huh? A peak-level law enforcer?”

Han Fei was refreshed. He had brought back Wang Han’s full strength?

Just as Han Fei was about to take a closer look at his current state, he suddenly heard someone shout, “Is... Is that Han Fei?”

Han Fei glanced around. There weren’t many people outside the Ideal Palace today, only about 300.

“Not good. It’s really Han Fei.”

“He’s still alive?”

“No, his realm is no longer that of a junior law enforcer.”

An intermediate law enforcer frowned. “Not good. I can’t see through him.”

Upon hearing this, many people were shocked. What did he mean? If he hadn’t completely withdrawn his strength, his strength must have exceeded that of an intermediate law enforcer.

Swish ~ Swish ~

In an instant, forty or fifty people controlled their fishing boats to fly away in a hurry.

“Huh? Something seems to be wrong.”

Han Fei’s face immediately changed. “Not good. I forgot to ask the Time Dragon Carp how much time has passed. I’ve been in the cycle of reincarnation for decades. Have decades passed here too? That would be terrible.”

“Wait a minute ~”

“Hiss!”

Han Fei gasped, because Senior Time Dragon Carp had directly sent him back to reality. His memories were intact.

Suddenly, someone rushed over quickly. “Han Fei, you’re finally out. Go back to the Thug Academy quickly.”

Han Fei’s face changed. “Who are you?”

The man said, “I’m from the Luo family. Let’s talk on the way.”

Han Fei turned his hand and the Wind God Boat appeared.

At this moment, he didn’t use the Heavenly Void Divine Movement. Once this technique was used, someone in the Thousand Star City would definitely find out. At that time, it would provoke the Ye Family people to look for trouble.

The Wind God Boat erupted at full speed, leaving a long red shadow in the sky.

Han Fei straightened his face and asked eagerly, "Tell me what time it is first."

The man was briefly stunned. "The Heavenly Fire Festival is tomorrow."

Han Fei asked, "Which year? Oh no... Tell me, how long have we been in there?"

The person seemed to understand what Han Fei meant and immediately said, "You have been in the Ideal Palace for a long time. About 40 days have passed."

Han Fei was immediately relieved.

However, he immediately realized that he had been in reincarnation for more than 40 years. To be precise, it had been 48 years! He wondered if there were any connections.

Han Fei asked, "What's wrong with the Thug Academy?"

The person said, "Back then, Diwu Weiguang and Chu Qingyan left the Ideal Palace together. Immediately, more than 50 people came out. Unfortunately, those people didn't have memories, and you and company didn't come out. Therefore, Chu Qingyan made an agreement with the outside world to use the number of times she entered the Ideal Palace to determine if you were still alive."

Han Fei's face immediately changed. "So, I've been confirmed dead?"

The person nodded. "Yes, you were confirmed to have died. Therefore, for a moment, the big clans launched a series of attacks on the Thug Academy. Jiuyin Ling guarded the Thug Academy alone and was seriously injured..."

Killing intent surged from Han Fei. "Who injured her?"

The man said, "Chu Qingyan."

Han Fei immediately shouted angrily, "Damn it! I'm going to kill this woman... Wait, Ren Tianfei didn't do anything?"

The person smiled bitterly. "He did. However, Ren Tianfei only used his clones. One of his clones killed two peak-level Explorers and then was destroyed by a Venerable. However, Jiuyin Ling's life should be safe, but the Jiuyin family suffered a blow. Their family had declined in the first place, but after being forced by Chu Sect, they can't even be considered a family now."

Han Fei frowned. Yes, if I die, who will dare to save the Thug Academy? Perhaps those big clans are waiting for Ren Tianfei.

After all, everything was just Chu Qingyan's one-sided story. Old Han was probably watching.

The main reason was that Old Han was capable of divination. With his ability, how could he not know if he was dead or not?

If Old Han didn't come out, it would be a little difficult for Ren Tianfei to protect the Thug Academy alone. If the big clans set up a trap and waited for him to jump in, he certainly wouldn't jump in!

Han Fei hurriedly said, "Thug Academy, what's its situation now?"

The person smiled bitterly. "Miss and the others came out one after another. Miss was the first to come out, 27 days after you entered. During this period of time, someone wanted to catch the disciples of your school, but fortunately, the explorers of the Su Family and the Luo Family had stopped them."

Han Fei took a deep breath. "Were you hurt?"

The man shook his head. "Although not injured, the library of the Thug Academy was blown up. Some of the Star Beads inside were snatched away."

Han Fei asked in surprise, "The Star Beads won't self-destruct?"

The man shook his head. "No. The Star Bead is just an energy object. When it's broken, it will regather. Therefore, although they can't solve the mystery of the library, they can still forcibly take the Star Beads."

Han Fei thought to himself, Fortunately, I carry the main Star Beads with me. Otherwise, the consequences would be disastrous.

The man said, "However, the Chu Sect also paid a price. Ren Tianfei used three clones in a row to attack the Chu Sect's outer strongholds. He destroyed three families that were attached to the Chu Sect in a row, which made the Chu Sect a little quieter."

Han Fei really wanted to cheer for Ren Tianfei.

If you touch me, although I can't wipe out your entire family, your Chu Sect has a huge business. How can you take care of everything?

However, Han Fei immediately said, "Xiaobai is out. What's the situation now? Where are Zhang Xuanyu and Le Renkuang? And Li Luoluo?"

The man said, "Le Renkuang came out only one day after Miss. Zhang Xuanyu came out five days ago. Because Miss came out and because of Ren Tianfei, it has become a normal challenge now. However, my family master said that this balance won't be maintained for long. The big clans can accept some small sacrifices as long as they can achieve their goal... However, now Miss just claims that each of you has some Star Beads. If they want the Star Beads, they'll have to beat her."

The person continued, "Miss has awakened the Luo family's divine technique. Therefore, no matter who on the Genius List comes, she can fight. However, Zhang Xuanyu and Le Renkuang are also injured. Because they have been in a stalemate for too long a time, a life-and-death battle has begun now. It began on the day Zhang Xuanyu returned."

Han Fei didn't speak.

The big clans always followed this style, bullying the weak and fearing the strong. If it weren't for Ren Tianfei, they would definitely have directly taken the disciples of the Thug Academy away.

However, Han Fei quickly concluded, "They don't want to ask Xiaobai and the others for Star Beads. They just want to slaughter the Thug Academy again. At the same time, they want to lure Ren Tianfei out. Otherwise, Xiaobai and the others would have long been defeated."

Han Fei sneered. So at this moment, they hadn't won just because they wanted to kill Ren Tianfei again.

As long as Ren Tianfei died, they would have enough confidence to ambush Old Han.

It was a bit troublesome, but as long as they could achieve their goal in the end, no matter how complicated the process was, they could accept it.

As for sacrifice? Heh, in the eyes of Venerables, the death of an Explorer was nothing. This time, on the other side of the Time River, Han Fei deeply realized that those Venerables didn't care about the death of an Explorer at all.

Therefore, as long as they had a chance to enter the Heavenly Palace, no matter how great the sacrifice was, it would be worth it.

As for the sea demons, they probably didn't care.

Suddenly, Han Fei thought that maybe these big clans all knew of the existence of the Heavenly Dao Dharma Eye and felt that within the Yin-Yang World, no one could become a king, not even sea monsters. Therefore, they felt that they had plenty of time to go to the Heavenly Palace and find an opportunity to become a king.

The man said, "Those big clans also tried to send people to find your body, but they all failed."

Han Fei gave a cold smile: Why bother to search for my body? Even if they find it, so what?

Han Fei said ruthlessly, "Let's go and kill them. Since we've already shed all pretense of cordiality, let's fight them head-on."

Chapter 1147: I'm Back

At the gate of the Thug Academy.

There was a sea of people.

In front of the spiritual plant maze, there was a huge hole, and a semi-circular battlefield was created.

However, at this moment, there was an intense battle in the square, a battle between law enforcers.

Multicolored spiritual plants densely covered the battlefield, and their attack speed was extremely fast. Some spiritual plants were not weaker than the sword and knives, which were everywhere from the void to the ground.

Of course, no matter how strong Luo Xiaobai was, she was only a junior law enforcer and couldn't fight across a large realm like Han Fei.

Luo Xiaobai's limit was that of an advanced law enforcer, which was only achieved with the help of the Majestic Mystic Spell.

.

At present, the peak-level of law enforcers hadn't appeared because they wanted to set up nets.

In the eyes of many people, the Thug Academy without Han Fei was already under siege.

Among the onlookers, someone said via voice transmission, "This Luo family's divine technique is really terrifying. Unfortunately, the Luo family isn't weak. Otherwise, Luo Xiaobai would definitely be listed as a target to kill."

Someone replied, "Do you think the big clans don't dare to kill her? The Luo family has already made it clear that they aren't on their side. They even dare to offend a Venerable. They don't dare to kill Luo Xiaobai? Humph, they are just luring the enemy."

"Hiss!"

The man gasped. "You mean... To hunt a Venerable?"

The man nodded. "Otherwise, do you think it's possible that so many people can't defeat the Thug Academy? Do you really think the students of the Thug Academy are gods?"

Someone echoed, "That's right. Although Jiuyin Ling's cultivation speed is extremely fast, it doesn't mean that she is strong. Zhang Xuanyu and Le Renkuang are strong, but not strong enough. There are millions of cultivation paths. Do you think the two of them can still fight? The remaining Luo Xiaobai can't last long."

Someone said, "Since it's a hunt, why are we staying here? If a Venerable-level battle really happens here, we probably will be affected..."

Someone sneered. "How can you see a Venerable-level battle? What do you take Venerables for?"

On the Thug Academy's side.

An explorer of the Su Family watched everything solemnly.

Beside him were Su Daiji and company.

At this moment, the five of them were watching the battle nervously.

Yi Xiyao shouted angrily, "Shame on them! Our school only has a few people. There are so many of them!"

Su Daiji raised her fist, her expression angry. "Too much."

Su Sanqian, Xing Yue, and Gu Qi clenched their fists.

Gu Qi shouted, "Senior Sister, you can do it!"

Hearing the cries of Su Daiji and the others, the explorer of the Su family felt very bitter in his heart: Do we lose the bet this time?

These people were all Heavenly Talents among Heavenly Talents! Would the strong masters of the Thug Academy really just watch them die? Would the tragedy of the Thug Academy many years ago repeat?

On the field, an armorist who was fighting Luo Xiaobai, an advanced law enforcer, had three blood-red half-moon knives at his side, which were emitting a soft hum at an extremely fast speed.

Because the Heavenly Fire Festival was approaching, wherever the blades passed, the void was ignited. It was like three huge wheels of fire cutting everything frantically.

The armorer sneered and said, "The Luo family's divine technique is impressive, but your strength is too weak. As a junior law enforcer, even if the Luo family's divine technique is powerful, so what? As long as you hand over your Star Beads obediently, no one will make things difficult for you."

Luo Xiaobai said expressionlessly, "In your dreams."

"Demon Plant Divine Waterfall."

Luo Xiaobai's figure appeared in all directions of the spiritual plants.

The world seemed to form a cage, and vines, like swords and knives, sealed the battlefield.

"Scorching Fire Armor."

The armorer laughed and a fiery turtle shell appeared around him.

Clang, Clang, Clang. Although the attacks were intense, every time the Sword Spirit Plant attacked the Scorching Fire Armor, its needle-like head would turn soft.

The Demon Plant Divine Waterfall looked shocking, but it couldn't achieve anything.

The armorer laughed. "Hahaha! Do you know why I chose to challenge you today? The Heavenly Fire Festival is coming, and my Fiery Origin Turtle can exert its strongest state. At least, in the next two days, my strength is comparable to a peak-level law enforcer. How can you be my opponent?"

"Fire Element Spray."

The flames swept across the entire Demon Plant Divine Waterfall like a wave. The scorching power made Luo Xiaobai's body tremble slightly.

"Pfft!"

Luo Xiaobai vomited a mouthful of blood, and the Demon Plant Divine Waterfall quickly disappeared.

Not far away, Sun Wu sneered. "Luo Xiaobai, your spiritual energy can't hold out much longer, can it? This is a suppression of the realm. If you admit defeat and hand over your Star Beads, we can spare your life."

Chu Qingyan smiled faintly and said, "Luo Xiaobai, Han Fei is already dead. We have already confirmed this matter. There's no need to struggle. With you, can you protect the Thug Academy?"

"Xiaobai."

A strange silk vine appeared. Luo Xiaobai was about to continue when a voice suddenly sounded behind her.

Zhang Xuanyu appeared behind them, his face a little pale.

"Cough, cough!"

Zhang Xuanyu held a Divine Weapon, flexed his body, and said, "Let me! In terms of one-on-one combat, I am the strongest."

Yang Nanxi raised her sledgehammer and pointed it at Zhang Xuanyu. "You are the strongest? Where do you think I am?"

Li Xuan smiled faintly. "Zhang Xuanyu, have you recovered from your injuries? It just so happens that my hands are itchy after watching you fight for several days. Why don't we have a life-and-death battle?"

Suddenly, everyone looked at Li Xuan.

This time, he was going to have a life-and-death fight with Zhang Xuanyu?

Once Zhang Xuanyu died, it meant that the pressure exerted by the big clans would be further increased. If Ren Tianfei didn't come out, they would kill one. If he still didn't show up, they would kill another.

Zhang Xuanyu gritted his teeth. "Okay! Let me kill you."

"Darling."

Zhang Xuanyu said angrily, "Shut up."

Luo Xiaobai frowned. "Retreat."

Zhang Xuanyu hit the ground with his rod. "You think I'm a pushover? I'd like to see how Li Xuan will be killed by me!"

The armorist standing in midair suddenly said, "Zhang Xuanyu, right? I heard that you are the strongest in a one-on-one fight in the Thug Academy now? Why don't you fight me?"

"Hahaha!"

Many people sneered.

A one-on-one fight? It depended on what kind of one-on-one duels! If a soul warrior fought against an armorist, he would have to either crush his opponent with strength or last longer than him. After all, a soul warrior's attack range was too small.

In fact, no soul warrior could win against an armorist of the same realm. Oh, no, Zhang Xuanyu was much weaker than him in terms of the realm.

Zhang Xuanyu clenched his long rod. "Damn it. Do you think I'm so easy to beat?"

The armorist said lightly, "Then come fight me! I can fight a life-and-death battle too."

Zhang Xuanyu was about to go out, only to find that he froze. He was controlled by Luo Xiaobai.

Luo Xiaobai said, "Let me do it."

The armorist smiled again. "Luo Xiaobai, don't waste your effort. Even if Han Fei is here, so what? He's just a junior law enforcer, while I'm a peak-level law enforcer today. Who can defeat me?"

Buzz!

While the man was talking, a shadow flashed across the sky, and the armorist suddenly turned around and slashed out three fire wheels.

He saw a glaze flash past in the blink of an eye. Before he could see clearly, he felt a terrifying force fall on his chest, and the Scorching Fire Armor was instantly shattered.

Crack!

Bang!

The armorist was punched into the sky.

In an instant, everyone was shocked. In the void, a pair of glass wings gently flapped.

Chu Qingyan shouted, "Impossible. How can you still be alive?"

"Hiss! Didn't they say he was dead?"

"How is it possible? So many people have confirmed it. How can he still be alive?"

Behind him, Luo Xiaobai heaved a sigh of relief, and her body suddenly softened. She had been too tired these days.

Zhang Xuanyu exclaimed, "Fei!"

The Su Family Explorer perked up.

However, he immediately discovered: Huh? How could Han Fei's strength be at the peak of the law enforcer realm?

Yi Xiyao shouted, "Senior Brother Han Fei, you're finally back! I knew it. You aren't dead."

Su Daiji clenched her fists, her eyes glowing as she echoed Yi Xiyao's words, "I knew he wasn't dead."

Gu Qi raised her hands high. "Senior Brother Han Fei."

Without looking back, Han Fei waved his hand casually and looked up at the sky. "You want a life-and-death fight? I'm here. Are you ready?"

The man had just stabilized himself and was about to retreat.

However, Han Fei suddenly disappeared from the spot and went straight to the sky.

"Enforce the law, Sea of Fire."

Bang!

A scorching sea of fire instantly exploded, and a figure smashed to the ground at an imperceptible speed from the sky.

Rumble!

In an instant, smoke and dust billowed.

Someone shouted, "Han Fei, this is a sneak attack."

Someone said, "Han Fei, try again if you've got balls."

However, Chu Qingyan and company's pupils constricted as they looked at each other speechlessly.

No, Han Fei's strength was not right. He was a peak-level law enforcer.

However, how was it possible?

Even if Han Fei hadn't died in the Ideal Palace, how could his strength have increased so much? He had jumped from the junior law enforcer realm to the peak of the law enforcer realm with a whoosh. What opportunity could he have had to reach this point?

Yang Nanxi shouted, "Impossible. It's only been less than 2 months. How can you have already become a peak-level law enforcer?"

"What?"

"Hiss..."

The countless children of the big clans who were watching were shocked. What the hell? A peak-level law enforcer?

"Are you kidding me? Han Fei is a peak-level law enforcer?"

After the dust settled, Han Fei stepped on the armorist who was as broken as a porcelain doll in a big pit.

Han Fei raised his head slightly. "I'm also a little surprised. Why am I so strong after coming out of the Ideal Palace? However, this is a good thing."

With that, Han Fei said leisurely, "Xiaobai! Sometimes, you don't have to be so calm. Why don't we take action before they dare to kill us?"

Suddenly, a roar came from the void, "Han Fei, how dare you..."

"Pfft!"

An array appeared under Han Fei's feet, and he stomped heavily, directly crushing the armorist.

As he raised his hand, the Sacrificing Punch erupted, facing the huge hand of the figure who stepped out of the void.

Boom!

The sky exploded, and the Explorer didn't expect Han Fei to be so strong! He was even stronger than an Explorer, and he was blasted back a hundred meters.

Gulp!

Countless people swallowed saliva.

Han Fei killed a Heavenly Talent of a big clan in public! Was he crazy?

"Ah! It feels so good to be back!"

Han Fei's expression suddenly changed, and his eyes turned bloodthirsty as he looked at everyone arrogantly. "I'm back. Welcome to hell."

Chapter 1148: Challenge All of You

At the gate of the Thug Academy on Pure Sun Island, Han Fei kicked away the blood-stained armor box under his feet and walked out of the big pit step by step.

Although Han Fei wasn't wearing any armor or holding any sharp blades at that moment, his gait was like that of a king rising from his throne, looking down at his people arrogantly.

Han Fei said, "I heard that you have besieged the Thug Academy for many days and seriously injured many people in our academy. Since you want to kill me so badly, I'll give you a chance. You can gang up on me. I'll fight all of you alone."

Han Fei's voice was not loud, but it echoed far away.

"Arrogant."

"How dare you! You're looking for death!"

"Han Fei, don't be too arrogant.."

Han Fei grinned and laughed out loud. "I'm arrogant? Yes, I am arrogant! So are you going to fight me or not? Well... Do you want to gang up on me? You should be very strong. I'll give you a chance to kill me."

However, the scene of Han Fei repulsing an Explorer with a single punch was still imprinted in everyone's mind. This meant that in terms of strength, Han Fei was comparable to an Explorer.

This was why Han Fei wanted to challenge all of them alone.

Han Fei's gaze fell on Chu Qingyan and the others.

At this moment, he wasn't supposed to know them. Otherwise, the fact that he was able to come out of the Ideal Palace with memory would be exposed.

Zhang Xuanyu's face changed greatly, and he hurriedly said to Han Fei via voice transmission, "Feifei, you can pick some to fight against. Those people are all on the Genius List. There are no less than 50 strong masters on the Genius List here. You can't fight all of them alone."

Luo Xiaobai said to Han Fei via voice transmission, "Han Fei, you just came out and don't know the situation. You can just order them to retreat first."

Roar!

Suddenly, a fatty crawled out of the teleportation array.

Le Renkuang was limping, his face swollen, and he seemed to be crying. "Fei, you're finally back."

The corner of Han Fei's mouth twitched: How did this damn fatty become like this?

Nine Tails came out with Le Renkuang.

It swooshed to Han Fei and rubbed against his leg.

Having no time to talk to Nine Tails, Han Fei simply withdrew it.

In his mind, Nine Tails seemed to be saying, "Master, why did you come back so late?"

With his back to Luo Xiaobai and the others, Han Fei shook his head and didn't even look at the Explorer in the air. "I killed the people from the big clans. Don't you want to take revenge? Heh, are the so-called strong masters on the Genius List and the children of the big clans all cowards? You don't even dare to fight me? What a bunch of trash."

"A*shole, what did you say?"

Han Fei looked at the person who spoke with a sneer and then looked around. "I said, all of you are trash."

"Ahhh!"

Yang Nanxi was the first to lose her cool.

Being mocked by Han Fei like this, she burst into fury and raised her sledgehammer, shouting angrily, "Han Fei, are you looking for death?"

Many people's faces changed drastically. "Han Fei, do you know what you are saying?"

"Hmph!"

In the sky, the Explorer snorted coldly. "A peak-level law enforcer can take a blow from me with the help of a secret technique. It's nothing."

Pa! Pa!

Han Fei smiled and clapped his hands. "Okay, I didn't expect an Explorer to be a braggart. Tsk, tsk..."

Han Fei's face suddenly changed, and he roared ferociously, "Are you going to fight or not? If not, get the hell out of here! In the future, wherever the Thug Academy people pass, you pieces of garbage, hide!"

Gulp!

Le Renkuang swallowed and murmured, "When can I be like Feifei? So domineering!"

Luo Xiaobai frowned. Han Fei became stronger. Why did he become so much stronger? He had stayed in the Ideal Palace for so long. Did he encounter any special opportunities?

At this moment, not only Luo Xiaobai, but everyone else was thinking the same.

Suddenly, Sun Wu stood out and shouted, "Don't be intimidated by him. He's just a peak-level law enforcer. There are more than 30 peak-level law enforcers here. Why should we be afraid of him? Besides, even if Han Fei has great luck, his strength has increased so much in less than two months... His realm must be unstable."

Seeing that no one moved, and even Yang Nanxi was thinking, Sun Wu had to stand up.

The reason was that she had followed Chu Qingyan's method to enter the Ideal Palace several times in a row, hoping to judge one thing by the number of times.

She wanted to know if Han Fei was the one who killed Sun Mu.

However, the answer was obvious. What Cao Qiu said was all fake.

Han Fei tilted his head, glanced over, and pointed at Sun Wu. "Why? There are so many so-called geniuses here, but you're not as bold as a woman? How dare you challenge the Thug Academy? Believe it or not, I can crush you with one hand!"

The corner of Zhang Xuanyu's mouth twitched as he looked at Luo Xiaobai. "Xiaobai, do you think Feifei is pretending or not?"

Luo Xiaobai glared at Zhang Xuanyu.

There are many people here who can hear you. Don't you know that?

The voice of the Su Family's old man sounded in Han Fei's mind. "Han Fei, don't make it really uncontrollable. Since you're back, the situation might return to the previous balance."

Han Fei's eyes turned cold. Balance?

Heh, Ximen Linglan was right. Once the big clans ruled a city, the ordinary people would be left with no chance. Even if the Thousand Star City looked extremely prosperous on the surface, so what?

The more prosperous the Thousand Star City was, the more resources the big clans had grabbed.

Furthermore, through his experience in the Reincarnation Soul Realm, Han Fei knew that the so-called big clans were just a group of people who bullied the weak and feared the strong. If the four venerables of the Grand Myriad Mountains were here, who would dare to mess around with them?

Chu Qingyan's eyes lit up as she immediately sent a voice transmission to everyone, "Everyone, so what if Han Fei becomes stronger? The Star Beads must be with him. Do you really think he can defeat so many of us alone? As long as we get the Star Beads, we can do anything!"

Chu Qingyan immediately took the lead and stepped forward. "Fight!"

She didn't remember what had happened in the Ideal Palace.

However, she had definitely fought Han Fei in the Ideal Palace. It wasn't just her. Many people here had fought Han Fei.

At this moment, Han Fei's so-called peak-level law enforcer was too weak in her eyes.

Logically speaking, no one in the Thousand Star City would have their strength soar by three small realms, spanning eight or nine levels after coming out of the Ideal Palace.

Yang Nanxi clenched her sledgehammer and stepped out. "Fight, I'm going to break his teeth."

"Fight..."

"Fine! I haven't heard such a ridiculous request in years."

“Hey! There are so many of us here. How can I be afraid of him?”

In the sky, the explorer frowned slightly.

Just now, he used too little strength in his grab, so he hadn't been able to test Han Fei's strength. However, he felt that Han Fei did seem to have the strength of a peak-level law enforcer.

However, he didn't think that Han Fei could challenge so many peak-level Law Enforcers alone.

How could the geniuses of the big clans be defeated so easily?

As for who Han Fei killed in public, it didn't matter. As long as the heavenly talents of the big clans won together, who would care about this matter? At that time, they had already started to compete for the Star Beads. It was normal for one or two people to sacrifice themselves.

Han Fei grinned. “You wanna fight? OK, let's have a try. Do you really dare to kill me?”

Han Fei seemed to shrink back a little bit, but in fact, he was just retreating in order to advance, to lure the enemy.

After leaving the Ideal Palace, Han Fei rushed back to the Thug Academy at full speed. However, the people from the large families outside the Ideal Palace had to return to their families first. Then, he actually had a head start. As long as he was fast enough, he could kill a batch of them.

Luo Xiaobai shouted, “Han Fei.”

Han Fei waved his hand, indicating Luo Xiaobai to stop talking.

Two war hammers suddenly appeared in Han Fei's hands, and airwaves surged around him. “Come, today I'll let you know how powerful the Thug Academy is.”

Whoosh!

Han Fei's figure flew straight to the sky.

Luo Xiaobai and the others followed.

Su Daiji held the Su family's explorer's hand, as though she wanted the explorer to take them up to take a look.

However, the Su family's elder said, “That's a law-enforcer battle. Even if it's shown to you, you can't see it with your eyes. Just wait.”

In the sky.

Han Fei spread his wings. “Why, are there only 47 people participating in the battle? Do you look down upon the Thug Academy, or do you look down upon me? Or your big clans don't have enough people?”

“Roar! B*stard, I'll fight you too.”

“Wait for me. I'm going to kill you.”

Instantly, more than 30 people appeared in the sky.

Han Fei was too arrogant. Even if he was a peak-level law enforcer, so what? Did he think he was invincible?

Han Fei chuckled. "Anyone else?"

At this moment, Han Fei's blood was boiling.

He really wanted to have a good fight. Since he recovered his memories in the Reincarnation Secret Realm, he had been suppressing an inexplicable fury in his heart and needed to vent it.

Han Fei roared, "Is that all? It seems that there aren't many so-called elites of the big clans. There aren't even 100 of you."

"Nonsense, I'm gonna beat the hell out of you."

Yang Nanxi roared and threw out a giant hammer.

Han Fei grinned. "Hehe, Xiaobai, remember to catch her."

Buzz!

Han Fei's figure vanished without a trace. The speed was so fast that Yang Nanxi and the others were dumbfounded. Even tearing through the void wasn't that fast, right?

In the sky, the Explorer suddenly shouted, "Not good, retreat."

However, Han Fei didn't intend to hide anything.

The Heavenly Void Divine Movement, Devil Change, and Agility of Wind were activated at the same time, and his speed was several times faster than that of the Heavenly Talents of the Ye family at the same level as him.

"Pfft!"

Yang Nanxi, who was holding the double hammers, suddenly felt that her arms were weak. When she looked again, she was surprised. Huh? Where are my hands? Why have they flown out?

Boom ~

Crack!

Yang Nanxi's bones were broken and she was drenched in blood. Half of her body was crazily bleeding as she was thrown at Luo Xiaobai's feet.

Luo Xiaobai was stunned for a moment and immediately summoned Void Vines and a hundred demon plants, grabbing Yang Nanxi.

Bang, bang, bang!

The sky was filled with the shadows of the hammers, and energy tornadoes were swirling high in the sky.

The War Body could quickly absorb energy from the air. This was the secret of the Cao family. He had learned it. With such a combat technique, coupled with the Hundred War Divine Hammer, how terrifying would the power be?

Bang!

Masses of blood mist burst out like fireworks in the air one after another.

That scene shocked countless people. Those were not Iron-Headed Fish, but Heavenly Talents from the big clans! Now they were exploding in the air one after another!

Chapter 1149: Slaying Explorers

“Hiss!”

All the people who didn't participate in the battle were stunned and gasped.

For example, the Su Family's explorer's eyes widened as he exclaimed, “How is it possible?”

There were still many Hidden Fishers and Law Enforcers who hadn't participated in the battle. They were all stunned. What the f*ck?!

“Hey, Han Fei, you little b*stard, stop it.”

The Explorer launched an attack.

However, Han Fei smiled and ignored him. That's a mere junior peak-level Explorer. Wait for me to kill these people first and then smash you.

.

“Not good. Han Fei secretly learned the secret technique of our family. Run!”

A peak-level law enforcer of the Ye family shouted.

However, at the next moment, something flashed in front of his eyes, and a giant hammer had already smashed his face.

At the moment of life and death, the Heavenly Talent of the Ye family was shocked. How did Han Fei know the Heavenly Void Divine Movement?

In just one second, with Han Fei's strength and speed, even if someone activated the law, he couldn't resist the Hundred War Divine Hammer.

In particular, Han Fei also had the Void Lines and the Law of Gravity.

In an instant, in the sky, there seemed to be countless figures of Han Fei.

In the sky, as clouds of blood burst out, Li Xuan's arms were blasted apart by the hammer, his chest was pierced, and he was sent flying towards Luo Xiaobai.

The lower half of Sun Wu's body was blasted apart. However, Han Fei didn't let this person go. As the knife light swept past, the so-called genius of the big clans was beheaded.

Zhang Mingkun's chest collapsed.

The so-called Zhang family's body protection technique couldn't even withstand a hammer shadow.

Under the dumbfounded gaze of Le Renkuang, Zhang Xuanyu, and Luo Xiaobai, 23 people were thrown over one after another.

All that was left became a cloud of blood.

Both the big turtle phantom and the Immortal Seal were ineffective.

It could even be said that the Immortal Seal was almost useless to the current Han Fei because his speed was so fast that they couldn't use the Immortal Seal at all.

If it were the Immortal Seal sealed in their bodies, the moment the Void Lines clasped them, this seal would have been blocked.

Chu Qingyan's expression had long changed.

If it weren't for the fact that she had mastered a trace of the time law, it would be impossible for her to block Han Fei's attacks a few times.

However, after only being struck five times, Chu Qingyan discovered, to her shock, that there was no one around but herself.

"Hey!"

Han Fei's figure flashed in the void.

However, the explorer had already stood in front of Chu Qingyan.

"Roar! B*stard, you deserve to die!"

However, even though he had already seen Han Fei, with a flash in the air, two giant hammers smashed down.

Boom!

Bang!

This time, the Explorer was really resisting with all his strength.

There was something wrong with Han Fei's strength. He didn't realize it at the beginning, causing so many Heavenly Talents to die. He couldn't bear this responsibility.

However, the huge force on the double hammers directly blasted him more than 3,000 meters away.

Chu Qingyan was alarmed. "Han Fei, if you kill me, the balance will be broken."

"To hell with balance."

The double hammers in Han Fei's hands disappeared, replaced by Snowmourne.

“Stop!”

In the void, someone drilled out.

Han Fei was a little surprised. Why did they come so fast? Shouldn't they have just set off? Even an Explorer shouldn't have traversed half of the Thousand Star City at once!

However, Han Fei didn't stop.

Shua!

A dazzling silver light flashed in the sky.

Chu Qingyan vomited a mouthful of blood, and the surrounding space distorted as Han Fei's sword slowed down.

However, at the next moment, Han Fei's figure appeared behind Chu Qingyan.

In terms of spatial techniques, Han Fei, who was already proficient in the Star Teleportation Technique, was much stronger than Chu Qingyan's time-based secret technique.

“Pfft!”

Chu Qingyan's long legs were cut off and blood splashed across the sky. As the other party had already sent an Explorer over, Han Fei didn't have time to think too much.

His first reaction was to kill Chu Qingyan. However, as soon as this thought flashed through his mind, he knew that it was wrong. Chu Qingyan was the most valuable person in this group of people. If he killed Chu Qingyan, who could he ask for benefits from?

Boom!

Chu Qingyan felt all the bones in her body snap.

At that moment, her heart and soul were trembling. What kind of existence was he?

Not only was Chu Qingyan trembling, even Luo Xiaobai, who was grabbing people, was trembling.

Earlier, these people had blocked the Thug Academy for so long that she couldn't hold on anymore.

However, as soon as Han Fei returned, almost instantly, the battlefield was cleared. Except for the peak-level law enforcers, the rest were all killed.

“Die!”

A huge hand in the air, crossing the sky, slapped at Han Fei.

Below, the Su Family elder immediately took action. However, he was too slow.

Han Fei's eyes narrowed slightly. An intermediate Explorer?

Han Fei immediately sneered. Are you kidding me? Since when does an intermediate Explorer dare to mess with me?

“Roar!”

The Hundred Beast Soul Subduing Roar erupted.

In the sunny sky, under the steaming hot air, strange scenes appeared in the sky. A hundred beasts flew across the sky, tearing the sky and the earth apart.

The intermediate Explorer froze.

At that moment, all the Void Lines were attached to him. Han Fei didn't have the time to investigate how strong his soul was at this moment. Anyway, he would just use the Void Line first.

Then, Snowmourne instantly drained the spiritual energy in Han Fei's body.

Then, an overwhelming sword light cut him into halves.

In fact, although Han Fei could defeat an intermediate Explorer, it was definitely not that easy.

The reason why Han Fei succeeded so easily this time was that this person underestimated his opponent too much, thinking that a big hand in the air could grasp him.

Who could have expected that Han Fei would first suppress the enemy's soul, then control it with the Void Lines, and then tear him apart with a slash? Everything happened too fast!

Zhang Xuanyu was shocked. "F*ck!"

Le Renkuang's cheeks trembled. "Oh my god!"

However, Han Fei's fighting speed was too fast.

Zhang Xuanyu only had the time to shout that. Halfway through the Su Family's explorer's attack, he discovered that the other party's explorer was already dead?

The junior Explorer who was flying over immediately peed and hurried to tear the void.

"You want to leave? Have I agreed?"

Activating the Star Teleportation Technique, Han Fei suddenly appeared beside the man.

However, the man's reaction speed was extremely fast, and he took the lead to launch a soul attack. Han Fei felt his scalp tingle, but he ignored it and roared again, and the sound of a hundred beast feet stepping in the air shook the sky.

"Stop!"

This time, three people tore through the void and came over. Among them, there were advanced Explorers.

Han Fei extended his hand and stabbed it into the junior Explorer's chest. As the Infinity Water poured into his body, he roared, "Ultimate Defence."

Le Renkuang shivered and immediately activated Ultimate Defence to protect everyone on his side.

Rumble!

Like a nuclear bomb exploding, a mushroom cloud appeared in the sky.

At the moment the explosion appeared, Han Fei had already appeared in Ultimate Defence. At the same time, the array under his feet suddenly popped out.

Unfortunately, the Great Coiled Turtle Array wasn't set up well. He only had time to set up a five-layer Coiled Turtle Array before the power of the violent explosion shook him.

Ka ka ka!

The Coiled Turtle Array was shattered, and the Ultimate Defence lasted for two minutes. Everybody rolled thousands of meters in the sky before they stopped.

In the air, a roar came, "Han Fei, you little thief, you are looking for death."

Han Fei shouted, "Villains of the big clans, your Heavenly Talents are in my hands. Surrender now!"

With that, Han Fei extended his hand and the Infinity Water returned.

As for the Blood-Drinking Knife, it was already placed on Chu Qingyan's neck.

Compete in ruthlessness? What kind of battle have I not seen? Even Venerables have to speak nicely to me. I even dared to kill in front of venerables. How can a few Explorers compare to me?

Gulp!

The moment the Infinity Water exploded, hundreds of Hidden Fishers were crushed by the terrifying explosion.

Han Fei's last blow was intentional.

He just wanted to kill a group of members of the big clans.

Han Fei wasn't afraid of accidentally hurting innocent people, of course because ordinary people didn't dare to participate in the battle between the big clans and the Thug Academy.

Therefore, Han Fei was very sure that no one was mistakenly killed.

As for the so-called balance? It shouldn't mean being suppressed step by step, pressed on step by step, or plotted against step by step.

At most, Old Han and Ren Tianfei would attack at the same time. Besides, he had a Sky Dissecting Finger, so he still had a chance to win. Old Jiang and Old Bai definitely wouldn't sit by and watch. Besides, the Thug Academy must have other trump cards.

He was not afraid of the big clans!

At most, he would ask Ren Tianfei and Old Han to take everyone away.

In this battle, everything within a radius of 50 kilometers was flattened.

Han Fei and the others landed, and Le Renkuang said tremblingly, "Feifei! Were you... possessed?"

"Bah! You're the one who was possessed."

Gulp!

Zhang Xuanyu swallowed too. "Well... then you... you can even kill explorers?"

Le Renkuang added, "What happened just now? I didn't see it clearly! I only saw an Explorer suddenly be cut in halves."

Luo Xiaobai's chest heaved as she looked at Han Fei in shock. What opportunity did this guy obtain in the Ideal Palace? In less than two months, he's already become so strong?

Han Fei said indifferently, "Senior Su, please take Daji and the others to the back mountain."

Su Laocheng was dumbfounded. Without a word, he rolled up Su Daji and company and tore through the void.

Nobody could've possibly imagined what was happening just now.

You said that was because Han Fei was already a peak-level Law Enforcer, and it could be explained with opportunities? You said that Han Fei fought a hundred alone because he was too talented?

However, how could you explain that Han Fei could already kill Explorers after less than two months?

What reason should I make up for myself to believe that this wasn't a lie?

Chapter 1150: Bragging

When the storm dissipated, a total of five explorers walked out of the void.

When they saw this scene, they gasped. What the f*ck, is there a battle between explorers?

The three explorers who came first couldn't have looked more awful.

A large number of their juniors had died, and two explorers had died in front of their eyes. How could they not be shocked?

Someone was immediately furious. "Han Fei, how dare you slaughter the children of the big clans?"

Han Fei's eyes were fierce. "Only you children of the big clans can block the gate of the Thug Academy and severely injure the teachers and students of the Thug Academy?"

The man shouted in a low voice, "Boy, release them quickly. Otherwise, don't blame me for slaughtering your Thug Academy today."

.

Bang!

However, as soon as he said so, the sky exploded, the weather changed, and a figure tore through the void.

Han Fei took a look. Hey, isn't this Ren Tianfei?

Han Fei immediately smiled. "Hey, Senior, you're here?"

Ren Tianfei couldn't have felt worse. "Did you know that I almost couldn't run away? I had a fight with three Venerables. Otherwise, do you really think you could have slaughtered them?"

Han Fei's expression changed slightly when he heard that. He hurriedly said, "Good, good. You big clans are really good. I broke the balance and you ambushed a Venerable here. Heh, if I had known, I would have killed more."

"Hmph!"

A white mist enveloped hundreds of kilometers.

Then, a voice floated out of the void. "Han Fei, do you really think that nobody dares to touch you because Han Guanshu is your father?"

Han Fei held his head high and wasn't afraid at all. "You have to imagine the price of touching me. If you touch me, you'll have to give up the benefits of the dragon boats in the level-three fishery? From now on, who of you dares to go to the Unknown Place again? Can you really afford the loss? The old guy up there, think about the consequences."

Ren Tianfei glanced at Han Fei and smacked his lips. "Boy, you're quite a talker!"

Ren Tianfei laughed. "Only three Venerables came and you want to ambush me? Have you forgotten how I fought my way into the Thousand Star City?"

A Venerable said indifferently, "The Thug Academy must pay a price for slaughtering so many people from our big clans. Hand over the Star Beads of the Thug Academy, and we can settle this matter. Today, if you don't hand over the Star Beads, everyone in the Thug Academy must die except Han Fei."

"Pfft!"

"Ahhh~"

Han Fei cut Chu Qingyan's arm with a swish. "Are you threatening me?"

Chu Qingyan's face was filled with horror. Han Fei was a lunatic. He really dared to kill her.

Chu Qingyan shouted, "Patriarch, save me."

Han Fei said ruthlessly, "Rescue you? Each of the people I captured today is worth an ultra-quality Divine weapon and a million points of spiritual spring. Give them to me and I'll release these people. As for the one in my hand, give me an extra million catties of spiritual spring and an extra hundred thousand spiritual fruits. Otherwise, I'll kill her."

Ren Tianfei glanced at Han Fei again. This kid is really shameless! However, do you know who you're talking to?

Ren Tianfei added, "Do you want to know where my original body went? Maybe I went to some of the big clans. Therefore, at this moment, whoever dares to attack, I don't mind having a life-and-death battle with him! If I can crush the Thousand Star City twice, I can do it a third time."

Han Fei had already secretly hung a Void Line on Chu Qingyan and the others respectively. Furthermore, he was ready to activate the Sky Dissecting Finger at any time.

Even if the Venerable could see it, so what?

When they started to oppress the Thug Academy, they had already openly fallen out.

The so-called balance was only because the two parties were equal in strength and had mutual fear...

As long as Ren Tianfei and Old Han didn't die, the so-called balance would always be there. Whether it would be broken or not depended on whether the big clans dared to fight.

More and more explorers arrived.

However, they didn't act rashly at this moment. They all looked at the sky. Now that even a Venerable had taken action, they could only wait patiently.

A voice said, "Ren Tianfei, have you thought about it? If we take Han Fei down now, we will be able to find the Star Beads sooner or later. Do you think our big clans will be afraid of anything after we get the Star Beads?"

"Heh!"

Before Ren Tianfei could speak, Han Fei pointed at the sky. "Are you so sure that there is what you want in the Star Beads of the Thug Academy? You aren't all from the Chu Sect, right? Then do you know why the Chu Sect has always been looking for Star Beads?"

Buzz!

Crack!

A weird power suddenly pressed down, breaking Han Fei's finger.

However, Ren Tianfei quickly protected Han Fei.

Ren Tianfei shouted, "King Chu, you're a Venerable. How do you have the cheek to attack a junior? Do you still have a face?"

Shua!

He activated the Divine Healing Technique and snapped his fingers back expressionlessly.

Han Fei sneered. "Oh! I'm almost certain that the Chu Sect won't tell you. They are not looking for the Star Beads, but a person."

"Humph! Cunning brat, what nonsense."

Thunder rumbled in the sky. It seemed that the Chu Sect King was angry.

Han Fei already had plans in his heart. Would the other big clans really know about Little Ci?

Han Fei smiled and said, "Old B*stard Chu, you don't even let me speak. Do you feel guilty? How did your Chu Sect rise to prominence? Have you forgotten it? Have the other big families never suspected it?"

In the distance, a voice came close. "Brother Chu, why don't you let us listen to it?"

Ren Tianfei frowned. "Here comes another one. Do you know what you're doing?"

Han Fei said proudly, "This matter has already come to this point. What can't I say? You Venerables, peak-level Explorers, all you want to know is the way to the Heavenly Palace. I'll put this matter in the open today. Since you bullied the Thug Academy, then listen to me."

Instantly, all the explorers, Chu Qingyan and company, and even Luo Xiaobai and the others, looked at Han Fei.

Han Fei said unhurriedly, "The rise of the Chu Sect was just because they ambushed a strong master from the Heavenly Palace and obtained an opportunity from her. Because they obtained this opportunity, the Chu Sect thought that this person could help them enter the Heavenly Palace and become a king!"

Buzz!

A voice echoed, "Brother Chu, is it true?"

King Chu didn't respond directly, but said solemnly, "When we get the Star Beads, you can take a look."

After all, he was a Venerable. He wouldn't fall out with Han Fei just because he was deceived.

Since the Chu Sect King had admitted it and promised to let them check the Star Beads together, that was enough.

However, Han Fei smiled coldly. "Well, Old B*stard Chu, let me ask you a question. If that person can really go back to the Heavenly Palace, what do you think the Thug Academy is for? Would we leave the opportunity to you?"

The Chu Sect King said indifferently, "Brat, do you really think Thug Academy can return to the Thousand Star City?"

Han Fei sneered. "Let's not talk about that for now. Do you really think you can become a king by going to the Heavenly Palace? Then, let me tell you what the Thug Academy's Star Beads show..."

Someone said leisurely, "Oh? If you're willing to tell us, we can listen to you."

Han Fei said unhurriedly, "Then I'll tell you what you want to hear the most. Do you know what a king is? By bearing the luck of the heavens and earth, he can decide the fate of an entire race. This world is watched by the Heavenly Dao Dharma Eye, and the Great Dao is blocked. Therefore, in the Thousand Star City, it is impossible for you to become a king. Therefore, you cast your eyes on the Heavenly Palace."

Someone smiled casually. "It seems that you do know a lot."

Han Fei curled his lips. "But have you ever thought what if the Heavenly Palace is also watched by the Heavenly Dao Dharma Eye?"

The void trembled slightly, and only Ren Tianfei was calm.

A Venerable snorted. "How can you know what we don't know?"

Ren Tianfei suddenly said, "You don't know, I know! I've been there."

Han Fei smiled and said, "Look, it's not that you are strong, so you are omnipotent. Senior Ren doesn't bother to tell you, but I can give you some clues."

Han Fei continued, "Tell you something you don't know. Do you know why the Thousand Star City has 36 towns?"

Someone asked, "Why?"

Han Fei grinned. "Because there are 36 Heavenly Palaces. Otherwise, how do you think this number came about?"

A Venerable said casually, "Continue."

Luo Xiaobai and Zhang Xuanyu looked at Han Fei in shock. Where did he get all this information?

Han Fei sneered. "Do you remember what I just said? A king can decide the fate of an entire race. Under the same sky, it's already rare to have a king. Have you ever thought that even if you can all ascend to the Heavenly Palace, which of you can become a king? Which of you is willing to become a king?"

After a long time, someone said, "When the time comes, we can discuss it."

Han Fei sneered. "Discuss? Not to mention whether you can become a king or not, just look at Senior Ren. Not everyone who has been to the Heavenly Palace can become a king. Think about it, once one of you becomes a king, what about the rest? Will he let the others live?"

Seeing that no one was speaking, Han Fei said indifferently, "Perhaps you will say that the rest of you just need to surrender. However, don't forget, even if one of you becomes a king, you still have to face the Heavenly Dao Dharma Eyes. There are Heavenly Dao Dharma Eyes above and many Venerables below looking at you covetously. Let me ask you, if I give you a chance to become a king now, do you dare to become a king?"

Han Fei was calm. This was called asymmetric information. Although he basically knew nothing about the Heavenly Palace, this didn't stop him from bragging.

Han Fei said, "No one knows if one can become a king by going to the Heavenly Palace... Even if he can, once he becomes a king, he can nurture Venerables again. Therefore, which venerable do you want to become a king? Oh... Chu Sect knew some of the inside information from the beginning. For this reason, they have prepared for millions of years. Aren't you worried?"

"Humph, don't listen to this kid's bullshit. He's just trying to sow discord among us."

"Hahaha!"

Han Fei laughed. "Sow discord? Do the big clans need me to do so? Don't you know what you are like?"
