

Chapter 1181: There You Are!

Inside the Stealth Array.

Han Fei asked, "Well, Xiaoman! If I have too many resources, is there any way for me to sell them quickly?"

Shu Xiaoman said, "Don't you want to repay thousands of creatures?"

Han Fei couldn't have felt worse. "If I repay them, they should repay me too, right? I don't ask for much. It doesn't matter if I suffer a loss."

Shu Xiaoman felt that she had seen through Han Fei's mind. This guy was here to rob.

However, up to now, even Shu Xiaoman was shocked by Han Fei's combat efficiency. It was really too fast.

Just now, there were 9 Sea Spirit Realm powerhouses. If ordinary law enforcers encountered them, they would be lucky to be able to escape. However, in Han Fei's hands, the tables had turned.

At this moment, Shu Xiaoman had a rough idea of why Master Chen lost to him, and why Han Fei dared to explore the outer waters of the Ice Domain alone.

Shu Xiaoman said leisurely, "If, in fact, you're not afraid of losses, there are two ways to sell your resources. One is the human market; the other is to exchange with Venerable Xue. However, most people can't afford what Xue Zun has."

Han Fei narrowed his eyes. "Oh! Really?"

Han Fei thought to himself, There are only two situations where I can't afford it. Either the quality is not enough, or the quantity is not enough. I should be able to afford it. Worst comes to worst, I'll just grab more! This is my old profession.

...

Under the cover of the array, Han Fei waited for a full hour. Except for the Sea Spirit creatures passing by, most of them were Sea Demon Realm creatures who would cry that something happened here.

However, none of the Dao Seeking-realm powerhouses appeared.

Han Fei grew impatient. "Is the Royal City so capricious? Sea Spirit creatures are nothing in their eyes? They don't even bother to send someone over to take a look?"

Shu Xiaoman took a deep breath and said, "Maybe this place is too close to the Ice City Wall."

"...Why didn't you tell me earlier? You made me wait for so long."

Immediately, Han Fei removed the Concealment Array and the Breath Concealing Array and said, "Let's go. Let's continue heading to the outer sea."

Little Tree frowned and reminded him, "Han Fei, I know you are very strong. However, nine Sea Spirits almost died at the same time. It's impossible that no one noticed it. Someone must have guessed that an Explorer on the ice city wall took action."

Han Fei glanced at her silently. "Why don't you go back? I always like to act alone. You are too slow."

Shu Xiaomu felt that she was despised. She must be despised.

BUt she still shook her head firmly. "No, I want to follow you."

Han Fei was speechless. The people of Water-Wood World are a bit simple-minded! Why are they so simple-minded?

Han Fei immediately said, "It's fine if you want to follow me. Then no matter what happens in the future, listen to me!"

Shu Xiaomu nodded and thought to herself, If you're not afraid, I can't disgrace the Water-Wood World.

The two set off again. Because they were both peak-level law enforcers, the sea demons didn't notice them at all.

After fifty thousand kilometers away from the ice city wall, Han Fei discovered that there were mines and spiritual fruits under the ice in the outer sea area. There were also many creatures here.

However, the creatures here usually had one thing in common. Except for some special species, most of them were conchs and carapace. Besides, they were mostly ice blue and white and had basically sharp blades or spikes on their bodies. There was no telling if they evolved like this to break the ice.

Several times, Shu Xiaoman said, "Han Fei, I found spiritual fruits."

Han Fei was unmoved. "Just ignore it."

"You don't even want spiritual fruits? We only need a little time to get them."

Han Fei curled his lips. "A few spiritual fruits are not worth the time. By the way, which part is remote in the Ice Domain? I mean, where the creatures in the Water-Wood World don't usually go."

Shu Xiaoman pointed to the west. "Go west. The Fiery Sea is to the west side of the Ice Domain, so the temperature and environment there are better. However, it's usually more dangerous there."

At this moment, Shu Xiaomang no longer resisted Han Fei's question. She felt that Han Fei was not the kind of person who would risk his life easily.

Han Fei said, "Let's go west."

An hour later, Shu Xiaoman saw Han Fei slow down.

She sensed many Sea Spirit creatures.

Besides, these Sea Spirit creatures were relatively more concentrated. Although there were no peak-level Sea Spirits, three Sea Spirit creatures appeared within a thousand kilometers, which meant that this place was getting more and more dangerous.

Suddenly, one of the crabs raised its eyes.

Shua!

In an instant, Han Fei disappeared with a swish. Without even breaking the ice, he appeared directly in front of the cave.

Smack!

Under Shu Xiaoman's perception, Han Fei set up a Breath Concealing Array. Immediately afterward, the crab suddenly lay on the ground and was cut into halves.

Han Fei said to her via voice transmission, "Your soul power is too weak. Don't perceive anything beyond three hundred kilometers. If you are discovered and the other party cries for help, I won't be able to arrive in time no matter how fast I am."

Shu Xiaoman: "..."

Han Fei emptied the crab's den, dug out three spiritual fruits, grabbed a Sea Swallowing Seashell, and then stuffed the whole crab into Forge the Universe.

Gulp!

Shu Xiaoman swallowed.

She couldn't imagine what she would do if she met an opponent like Han Fei on the battlefield.

She had a rough judgment: if Han Fei launched a sneak attack, within 500 kilometers, she might not even be able to use her law enforcement ability before she was killed by Han Fei.

What frightened Shu Xiaoman the most was that Han Fei's control of space ignored the ice and he could appear directly under the ice without a sound. Those Sea Spirit creatures probably couldn't imagine it at all.

Han Fei didn't come up. Instead, he set up a Breath Concealing Array and a Stealth Array and went straight in.

Shu Xiaoman didn't dare to release her perception anymore. She simply put her perception on Han Fei.

"Pfft!"

"Pfft!"

In less than ten seconds, three sea demons of the Sea Spirit Realm were killed before they could react.

When Han Fei reappeared on the Wind God Boat, he said casually, "These sea demons are relatively weak. I'll set up a Stealth Array, a Stealth Array, and a Breath Concealing Array on the boat. Act according to the situation. I won't be on the boat."

If he were in the Ten Thousand Demon Valley, he wouldn't have encountered such a situation. Nor would there be a Sea Spirit cultivating within a mere 100,000 miles from the human camp.

Therefore, Han Fei's confidence was greatly increased at this moment. As long as he was fast enough, he could rob the other party before they could react.

In just two hours, Han Fei had secretly killed 27 Sea Spirit Realm powerhouses, including six who were at the peak of the Sea Spirit Realm.

At this moment, Han Fei was digging an undersea cave of a Half-Merman.

From the man's Sea Swallowing Seashell, he found more than 300 spiritual fruits, more than 10,000 catties of Spirit Awakening Fluid, a mid-quality Divine weapon, six low-quality Divine weapons, and a few high-quality ores.

"Tsk, nothing is more profitable than robbing!"

Han Fei exclaimed

Suddenly, he perceived that a Half-Merman in a dark blue battle suit was tearing the void more than 800 kilometers away.

It was a cave that Han Fei had just robbed.

Seeing this scene, Han Fei knew that some strong masters couldn't sit still anymore. So many Sea Spirit powerhouses had been killed in a row. The other party couldn't be unconcerned.

Han Fei immediately said to Shu Xiaoman via voice transmission, "There is a great demon at the Dao Seeking realm. Don't do anything. Hold your breath. Don't move.

Shu Xiaoman's heart trembled. Has a great demon at the Dao Seeking realm finally come?

In Shu Xiaoman's view, Han Fei's robbing speed was too fast. If there were hundreds of abnormally strong masters like Han Fei in the Water-Wood World, the Sea Clan would definitely not be so unscrupulous.

According to Han Fei, Shu Xiaoman didn't dare to move at all. No matter how strong he was, he couldn't resist a great demon in the Dao Seeking realm.

Han Fei looked very casual. When the Half-Merman in the Dao Seeking realm appeared, Han Fei knew that he didn't have much time left in this robbery.

However, he didn't panic at all.

Just now, he had sent a voice transmission to Shu Xiaoman just to see if the Half-Merman at the Dao Seeking realm could perceive it.

If he was at the peak of the Dao Seeking realm, he would definitely be able to sense it.

However, the other party didn't, which meant that the other party's perception wasn't enough to know what happened thousands of kilometers away in an instant.

In that case, Han Fei was naturally relieved. Even if the other party was an advanced Explorer, even if he couldn't beat him, he could escape easily.

Han Fei pretended that he didn't notice it at all, put away the things, and slightly loosened his Breath Concealing Array and Stealth Array.

Immediately, the Half-Mermaid looked in Han Fei's direction.

"Humph! I've finally found you. Huh? A peak-level law enforcer?"

The eyes of the Half-Merman who was at the Dao Seeking realm narrowed. Could it be that those Sea Spirit sea demons were all killed by this peak-level law enforcer?

How could a person who could kill a Sea Spirit at such a high frequency be merely a peak-level Law Enforcer?

But after sensing it again, he confirmed that it was only Han Fei here. Besides, there was blood flowing on the ground of that cave. It must be him.

"A human Heavenly Talent? Humph, don't even think about leaving."

The half-merman tore through the void and disappeared more than 900 kilometers away.

Buzz!

At the moment when the Half-Merman at the Dao Seeking realm tore through the void, Han Fei sneered.

"You dare to come alone? To deliver a package?"

"Chila!"

The void was suddenly torn apart, and Han Fei pretended to shiver in horror and ran away.

The Half-Merman roared, "Can you run away?"

The Half-Merman appeared in front of Han Fei and thrust a harpoon at him.

But at the next moment, Han Fei suddenly turned his head and grinned. "There you are!"

Chapter 1182: Escape into the Void

Han Fei's smile gave the big demon a shock. What did he mean?

His first reaction was that there was an ambush here, so he hurriedly retreated.

But the moment he tried to perceive his surroundings, he heard a deafening roar.

At that moment, a hundred beasts charged forward and roared.

"Hmph!"

The Half-Merman felt as if his head was exploding, and he immediately grunted and blood erupted into his throat.

When he managed to come back to his senses, he suddenly felt a life-and-death crisis. Not only was someone fighting with him for control of his body, but he also felt a strong sense of danger.

He even felt that his vitality was being crazily devoured. He felt that his skin was tightening and his strength was weakening.

Han Fei was very calm at this moment. This time, he specially waited for a great demon at the Dao Seeking realm to test his Sky Stealing Technique.

The sixth level of Void Fishing was called the Sky Stealing Technique. Its predecessor was called the Luck Stealing Technique.

In terms of name alone, the Luck Stealing Technique might be easier to understand, but when the Sky Stealing Technique was used, Han Fei knew how powerful a powerful technique could be.

The so-called Sky Stealing Technique wasn't really to steal the Heavenly Dao or anything, but to steal other people's luck and fate. It could be intuitively understood as stealing life, stealing other people's fate.

Different from the time law, the time law was to control time within a small range, making time accelerate or slow down. The strong could make time flow crazily in a certain area, killing people.

But the Sky Stealing Technique was different. It directly stole the life of others and forcibly absorbed their life potential.

The old turtle said leisurely, "Your technique is not weak, but unfortunately, the vitality you can transform is not much. In addition, your body is extremely young, so this trick doesn't mean much to you. Even if you suck him dry, I'm afraid it won't increase your lifespan by ten years. This has to do with your age."

This was the first time Han Fei had used the Sky Swallowing Technique on a great demon at the Dao Seeking realm. He could control his soul with the Void Lines before, but now he could use the Void Lines to devour vitality.

Besides, the void lines didn't seem to be so sensitive to soul treasures.

Han Fei responded, "So this technique is useless to me?"

The old turtle said, "It's useful. Maybe after another thousand years, when your body becomes old, you can use this technique to keep yourself young. For example, in the Venerable realm, perhaps others have a lifespan of 10,000 years. Then, if you have this technique, you can extend your life to 20,000 years, or even longer."

Han Fei was shocked. "In that case, this Sky Stealing Technique is definitely a divine technique! Other people need Life Fruits or something to maintain their life, but I can just steal others' vitality."

The old turtle chuckled. "However, I'm afraid you will definitely be treated as a monster."

Han Fei curled his lips. I don't care about it at all. The main reason is that my goal has never been the Venerable realm, but the King realm. Then I can easily live tens of thousands of years.

Therefore, Han Fei didn't feel much about the Sky Stealing Technique. He didn't intend to devour anyone's vitality at this moment. He'd better keep the Sky Stealing Technique to himself first.

On the other side.

The Dao Seeking realm demon was horrified. He still wanted to escape, but he couldn't. Then he saw a sword light that could tear the sky and the earth suddenly light up.

"Pfft!"

Before he died, the Half-Merman still didn't understand who killed him.

He didn't believe that a brat at the peak of the Law Enforcer realm could be so strong.

Unfortunately, he couldn't see anything now.

Shu Xiaoman, who was sitting on the Wind God Boat, watched this scene in shock, his mouth open and his eyes widened. A Dao Seeking-realm powerhouse had died just like that? He had just come out!

Having witnessed the whole battle, Shu Xiaoman didn't know how to describe such a battle.

After the Dao Seeking realm demon tore through the void, he only had time to take a step forward and shoot out a spear. Then, he was inexplicably killed by Han Fei's sword.

Who wouldn't be horrified?

Not to mention whether or not the Half-Merman had fully revealed his strength.

His battle suit aside, he probably couldn't be seriously injured even if she shot with all her strength.

However, under Han Fei's attack, the battle suit that was at least at the Divine level and the strong physique of the Dao Seeking realm was as fragile as paper?

At this moment, Shu Xiaoman felt that she had underestimated Han Fei's strength.

The Dao Seeking Realm and the Sea Spirit Realm were on completely different levels.

Under normal circumstances, a peak-level law enforcer, no matter how talented he was, could at most match a cultivator who had just entered the Dao Seeking realm. He could fight the latter but probably lose.

But Han Fei had completely exceeded her understanding of power.

Han Fei directly took out the Sun-Moon Shell of this Half-Merman.

Yes, ordinary sea demons used Sea Swallowing Seashells, but this guy used the Sun-Moon Shell!

However, before Han Fei checked it, he heard a voice in his heart, "Boy, why aren't you running? I feel the smell of a peak-level Dao Seeking-realm powerhouse."

Han Fei was stunned. "A great demon at the peak of the Dao Seeking realm has already appeared?"

Shua!

Han Fei appeared on the Wind God Boat, put away the Wind God Boat, and grabbed Shu Xiaomang who was in a daze. "Let's go."

Shu Xiaoman: "???"

Han Fei decided that he would definitely not take this burden with him when he went back this time. If Shu Xiaoman was not around, with his abilities, he could definitely snatch a lot more if he disguised himself as a sea demon.

However, as soon as Han Fei ran for a hundred seconds, the old turtle reminded him, "Enter the void. Someone has caught up with us."

Buzz!

Han Fei used the Phantom Glass Wings and the Heavenly Void Divine Movement, and Shu Xiaoman suddenly saw brilliant colors appear in front of her eyes.

At the next moment, before Shu Xiaoman could react, with a swish, she saw nothing but the boundless dark void.

Shu Xiaoman was shocked. "A law enforcer can tear the void?"

Han Fei said, "I can't, but I can break into the void when I'm extremely fast."

More than 5,000 kilometers away, the void trembled, and a strong master who looked like an Inferior Man-Fish broke out of the void. If Han Fei saw this person, he would definitely discover that he was an Azure Sea Blue Demon.

In the Ten Thousand Demon Valley, it was said that it was extremely difficult for Azure Sea Blue Demons to cultivate to a high level. If Han Fei saw this sea demon, he might have other thoughts about the ice domain.

"Humph! You want to run after killing so many members of the Sea Clan? I'll wait for you at the Ice City Wall."

A long conch appeared in the Azure Sea Blue Demon's hand, and a bubbling sound echoed. In the next moment, he tore the void again. It was not that he didn't want to chase and fight in the void, but he was afraid of being ambushed.

Han Fei rushed forward and shouted in a low voice, "I told you not to follow me! Otherwise, it would be much more convenient for me to run alone."

Shu Xiaoman gritted her teeth and said, "You are a visitor from the Yin-Yang World. Master Chen instructed me to follow you."

Han Fei was speechless. Stupid.

About half an hour later, the old turtle in his heart suddenly said, "You can't go back. Someone is blocking your way."

Buzz!

Seeing that Han Fei suddenly changed his direction, Shu Xiaoman asked in confusion, "Isn't this the way to the Ice City Wall?"

Han Fei: "The way is blocked. Let's go to the Fiery Sea."

Relying on his memory of the map of the Cloud Sea Divine Tree, Han Fei changed his direction and went straight to the Fiery Sea.

As for the ice wall, Han Fei wasn't worried at all.

There were strong masters there. Since the Ice City Wall had been erected there for thousands of years, it was definitely not something a few great demons at the peak of the Dao Seeking realm could break through.

Otherwise, the ice domain would have long been broken through.

...

Outside, within ten thousand kilometers of the Ice City Wall, seven or eight peak Dao Seeking powerhouses broke through the void and came over.

A Half-Merman asked grimly, "Green Demon, where is he?"

The Azure Sea Blue Demon frowned and said, "He ran in the direction of the Ice City Wall. By logic, he should be arriving soon."

Someone looked back at the Ice City Wall. "This place is too close to the Ice City Wall. We can't stay long."

Someone roared, "It's been a long time since a large-scale war broke out on the Ice City Wall. The Water-Wood World is provoking us by slaughtering as many as 50 Sea Spirit Realm powerhouses at once. We must teach them a lesson."

Toot! Toot!

On the Ice City Wall, a loud horn suddenly sounded.

A peak-level Explorer shouted, "Prepare for battle!"

"Tweet! Tweet!"

Swish! Swish!

Buzz—

The creatures that were setting up stalls on the city wall immediately cleaned up their stalls and stood on the city wall.

In an instant, the sky was occupied by the Sky Clan and the Insect Clan. Little treemen's roots were stuck to the city wall, some were hanging on the city wall, and some had their bodies parallel to the ground.

Several peak-level Explorers crossed the city wall and stood in midair.

Someone shouted, "Does the Sea Clan want to start a war?"

Someone was puzzled. "Huh? No more sea demons are coming. There are only a few great demons at the peak of the Dao Seeking realm. They seem to be blocked outside."

Someone pondered and said, "How many people have gone to the outer sea recently? Humph, no matter what, wait a moment. When everyone is here, just drive them away."

At this time, someone from the Sea Clan shouted angrily, "Water-Wood World, don't you know what you've done? You sent people to plunder the outer waters and slaughter our Sea Spirit Realm powerhouses? This matter can't be over!"

On the Water-Wood World's side, many creatures were dumbfounded. When did we slaughter your Sea Clan members? We didn't even send anyone out, OK?

A big bird asked telepathically, "Could it be that a powerhouse passed the outer sea and destroyed a sea demon's lair?"

Some Tree Demons shook their branches and leaves. "Those who dare to kill people in the outer sea area are at least peak-level Explorers. Once they are surrounded, they will suffer a great loss."

A bug buzzed. "Could it be that a Venerable passed by and casually crushed some sea demons?"

Someone was speechless. "What's wrong with your brain? If it's really a Venerable, why would they dare to chase him? The Venerable's battlefield is never the Ice Domain."

Someone shouted in a low voice, "No matter what, just wait a moment and then drive them away."

...

While the Ice City Wall was preparing for battle, Han Fei was quarreling with the big turtle.

The big turtle said, "Idiot, there aren't many strong masters in this damn place. Now that those people have gone to block you, can't you go rob their home?"

Han Fei said, "You damn turtle, I can tell that you're up to no good. I don't believe that they don't have anyone guarding their base camp in the Ice Domain! Old turtle, do you want me to die? Then, you can come out again and try to steal my soul?"

The old turtle scolded, "With this calabash, how can I attack you? Sometimes, you're bold but sometimes extremely timid."

"You stupid turtle, you are the timid one. Your whole family is timid."

"Roar! I'm just kindly reminding you, you ingrate!"

After bickering with the big turtle for a moment, Han Fei thought quickly.

Actually, what the old turtle said wasn't impossible.

However, he had a burden with him. He didn't want that kind of thing like Lin Miaomiao to happen again.

Besides, if he really wanted to rob a great demon at the Dao Seeking realm, he had to wait until he became an Explorer. The old turtle definitely didn't have any good intentions.

The old turtle's eyes glittered. This human being is so greedy, but why is he not greedy now? He is not tempted by such a good opportunity. Has he really seen through me?

The old turtle looked up at the Demon Purification Pot, horrified.

If he didn't think of a way to escape from Han Fei's body now, when this kid really became an Explorer, his strength would probably double, at that time, it would be even more difficult for him to escape.

...

Han Fei didn't panic. This was only the first day he came to the Water-Wood World. He had three years to cause trouble here, so he wasn't in a hurry.

Han Fei turned his head and asked, "What should I know about the Fiery Sea?"

Shu Xiaomang was stunned and said blankly, "The Fiery Sea is similar to the Ice Domain. However, the Wall of Fire in the Fiery Sea is just a way to select the strongest. If you want to pass the Wall of Fire, you have to be at least a peak-level Hidden Fisher. Therefore, the Wall of Fire is close to the Ultimately Fierce Battlefield. There are battles there all year round, so there are Venerables from both human beings and sea demons' side guarding there."

Han Fei was surprised. "Are there Venerables guarding there all the time?"

Shu Xiaomang replied, "Venerables usually don't take action. To be more precise, the Ultimately Fierce Battlefield is more like a life-and-death arena. Explorers fight Explorers, and law enforcers fight law enforcers. It's a strategic location where the Sea Clan intends to continuously consume our Water-Wood World's combat power."

Han Fei's eyes glittered again. "Why didn't you tell me that earlier? Do they carry resources with them?"

Shu Xiaoman shrank her head and looked at Han Fei in shock. "What do you want to do again?"

Chapter 1183: Fiery Sea

Han Fei's speed was so fast that it frightened Shu Xiaoman.

For the first time, she felt that speed was so important under the same realm.

After running for more than an hour, Han Fei didn't know how far he had run. According to his own estimation, he had probably flown more than 200,000 kilometers away.

When he was still a Hidden Fisher, he didn't even dare to imagine that he could run so far in only one hour. Therefore, the Wind God Boat was no longer useful.

Of course, he was only in the Law Enforcer realm at present. He just relied on his speed to forcefully rush into the void.

Otherwise, with the Explorer's knowledge of tearing space, his speed would be faster.

On the surface of the sea where there was no ice, a Single-Horned Red Shark was biting the corpses of unknown creatures.

All of a sudden, a sword light cut out of the void.

With a swish, the shark that was already at the Initial Sea Spirit Realm was cut in half.

From the beginning to the end, the big shark didn't even have the time to respond. He was just having a meal. Who did he piss off? Why was he killed?

Han Fei and Shu Xiaoman walked out of the void rift.

Shu Xiaoman looked at the shark that was killed by Han Fei in shock and asked, "How do you know that there are sea creatures outside?"

Han Fei said leisurely, "Believe it or not, I rely on my senses."

Shu Xiaoman immediately shook her head. The sea area is so big. How can you kill sea demons so easily? Then why don't you do that every day?

Han Fei unhurriedly put the shark into Forge the Universe and said, "Don't be surprised. It's just a sea spirit shark that just made a breakthrough. The temperature here is indeed a bit high. I think we will arrive at the Fiery Sea soon."

This time, Han Fei took out the Wind God Boat because he didn't want to rush to the Fiery Sea.

Besides, this was the border between the Ice Domain and the Fiery Sea. He wanted to see if there were any sea demons' nests nearby that he could rob.

On the Wind God Boat, Han Fei lay on the big sofa and said lazily, "Tell me more about the Fiery Sea! Are they here just for fighting? Will they carry their Sea Swallowing Seashells with them?"

Shu Xiaoman said with a black face, "Of course they will, but there won't be many good things in them. Think about it, they must have used all the good things and felt that they were very powerful, so they went to the Fiery Sea to ask for a battle. No one will bring all his treasures to go to a battle, right? If they die, wouldn't they give them away for nothing? Therefore, if there is really good stuff, they must have used it immediately!"

Han Fei frowned. "That's true. If that's the case, fighting alone won't mean much."

However, Shu Xiaoman added, "However, among the sea demons fighting in the Fiery Sea, there are many special marine creatures, and Half-Mermen only account for a small proportion."

Han Fei was puzzled. "Why?"

Shu Xiaoman explained, "Because although the Half-Mermen can resist the high-intensity flames, they are not very adapted to it. Except for a few Half-Mermen who specialize in this, the Fiery Sea has restrictions on their abilities, as well as on human manipulators and Tree Demons. They generally don't want to go to the Fiery Sea."

Han Fei raised his eyebrows. "Then who will go there?"

"The Insect Clan! And the fire-attribute Sky Clan. As for the sea demons, the creatures among them that are extremely heat-resistant or have similar attributes usually like to go to the Fiery Sea."

Han Fei took a deep breath and said, "So there are only monsters there? There aren't many humans there, right?"

Shu Xiaoman: "The insect race members are not monsters. Most of the insect race creatures are very cute!"

Han Fei curled his lips. He really couldn't associate the insect race with cuteness.

Shu Xiaomang hurriedly said, "Han Fei, don't be racist. The Queen Insect is guarding the Fiery Sea. Be careful not to let her hear you."

"Pfft!"

Han Fei was shocked. He asked in surprise, "Queen Insect? Is there a Queen Insect?"

Han Fei thought to himself, If my memory is not bad, when I first came to the Water-Wood World, I heard a child mention the Queen Insect. Even if she's not a King, she should be at least a peak-level Venerable!

Shu Xiaomang quickly waved her hand. "No, Queen Insect is a designation. The growth of the Insect race has no obstacles before the King Realm. They all develop towards the Queen Insect. There are 28 Insect Venerables in the Water-Wood World. Except for one King Insect, the rest are all Queens Insect."

Han Fei was stunned. He took a deep breath and said, "There are so many Venerables in the insect race?"

Why didn't he know about the Insect race before? They were quite strong!

Apart from Jing'er, there were only 72 Venerables in the Water-Wood World. The insect race alone accounted for 28 of them.

In other words, the Insect race was the race with the most number of Venerables. Their Venerables outnumbered the human race, the sky race, and the Tree Demons.

While controlling the Wind God Boat to fly to the Fiery Sea, Han Fei asked, "How many Queens Insect are there in the Fiery Sea?"

Shu Xiaoman said, "No more than five. They are all around the fiery tree, rotating once a year."

Han Fei asked in confusion, "What about the other Queens Insect? Are they all in the Dark War Port?"

Shu Xiaoman shook her head. "No. Half of them are in the Dark War Port, and most are in the Cave Sea in the south."

Han Fei frowned and said, "Didn't you say that the Cave Sea is a place for ordinary creatures to gain experience? Why are there so many Venerables in the Cave Sea?"

Shu Xiaomang also sighed. "The Insect race is good at 'soldier explosion', so it's the strongest race in the Water-Wood World. Their Venerables are only responsible for the 'soldier explosion'."

"Wait a moment, wait a moment... Let me ask you, what do you mean by 'soldier explosion'?"

Shu Xiaoman hurriedly explained, "Well... You are not from the Water-Wood World. It may sound a little surprising. Queens Insect can devour energy and give birth to various low-level insects, or they can directly give birth to peak-level Law Enforcers at a high price. It's said that the current strongest Queen

Insect can give birth to more than 300 Hanging Fisher-level insects a day, more than 50 Hidden Fisher-level insects, or less than 5 Law Enforcers. If the time is enough, some Queen Insect will spend nearly half a year or more giving birth to a Law Enforcer-level insect with high potential...”

“Hiss...”

Han Fei was stunned. This was too much! What kind of race was this? He had to fight so hard to become a Hanging Fisher.

However, one Queen Insect could give birth to three hundred in a day. How could there be such an unreasonable race in this world?

So this was the so-called soldier explosion?

Damn it. If it were in the Yin-Yang World, it would only take three or five years for these worms to blow up the Ten Thousand Demon Valley. It was simply terrifying.

Gulp!

Han Fei swallowed and looked around. No matter whether the Queen Insects had noticed him or not, he said, “The insect race is good.”

“Pfft!”

Shu Xiaoman said with a smile, “Actually, it’s not that serious. The insect race occupies the Cave Sea mainly to train their soldiers. Although the insect race reproduces very quickly, like the creatures of other races, they also need to gain fighting experience. For example, although the Strongest Queen Insect can reproduce 300 Hanging Fishers in a day, only one-fifth of them can survive to the Hidden Fisher realm. There are at most four or five who can survive to the Hidden Fisher realm and grow to the Law Enforcer realm. But the remaining few worms are all real strong masters.”

Shu Xiaoman rambled on about the growth and history of the insect race, but Han Fei felt like a duck was quacking in his ears.

From the beginning to the end, he had only understood that the Queens Insect were very fertile.

If it weren’t for the fact that an Explorer needed to transcend the tribulation, there might be Queen Insect that would directly give birth to an Explorer.

One day passed.

Han Fei and Shu Xiaoman entered the Fiery Sea.

The so-called Fiery Sea was really burnt red whether in the sky or in the sea.

Have you ever seen a sea surface burning?

Han Fei saw it. In Han Fei’s perception, the mountains here were undulating and magma was surging in them.

But this was not the origin of the name Fiery Sea.

The Fiery Sea actually originated from a big tree, which was naturally not as tall as the Cloud Sea Divine Tree, nor could it cover such a large area.

In comparison, the tree was only one hundredth the size of the Cloud Sea Divine Tree. But even so, it was not small.

Han Fei didn't understand. Why was there a tree here? Wasn't the Cloud Sea Divine Tree afraid of heat?

There were flames floating even in the air.

The temperature here had risen to a terrifying level, probably no less than the temperature of magma. And Han Fei had just entered the Fiery Sea.

Shu Xiaomang said solemnly, "If we want to enter the Fiery Sea from the outside, we need to break through the wall of flames in one fell swoop. The Sea Clan Venerables won't take action. This is the tacit understanding between the Water-Wood World and the Sea Clan. Once the Sea Clan Venerables take action, the Queens Insect will also take action."

Han Fei frowned. "What about the sea demons at the peak of the Dao Seeking realm?"

Shu Xiaoman took a deep breath and said, "They may attack us. Therefore, we have to find a relatively weak place to rush in. After all, a peak-level Dao Seeking-realm sea demon can't do what a Venerable can do."

Shu Xiaoman looked solemn.

Although she felt that Han Fei should be able to enter the Wall of Flames, who could say for sure? She had to be prepared for battle.

Han Fei's first thought was to ask the old turtle, but then he thought, What if the old turtle set me up?

Shua!

With a thought from Han Fei, Little Black and Little White appeared.

Shu Xiaoman was puzzled. "Is this the legendary Spirit Swallowing Fish?"

Han Fei raised his eyebrows. "Legendary?"

Shu Xiaoman shook her head quickly. "Oh, no, I know there are such creatures, but in the waters of the Water-Wood World, there are very few Spirit Swallowing Fish, because it is difficult for them to survive here."

Han Fei said, "Oh! That's right. Spirit Swallowing Fish are indeed very weak. I usually only let my daughter find the way."

Under the puzzled gaze of Shu Xiaoman, Han Fei touched Little White's head and said, "Girl, can you feel which side is the most dangerous?"

Little White circled several times before flying to Han Fei's cheek. "Dad! They're all dangerous."

Shu Xiaoman's eyes widened. "The book doesn't say that Spirit Swallowing Fish can talk! And this Spirit Swallowing Fish can even call you dad?"

Han Fei said, "Well, relatively speaking, which direction is the least dangerous?"

Little White glanced at the thirty-degree angle to Han Fei's left. "There!"

"Okay! Go back first. Daddy will let you come out to play later."

Shu Xiaoman was stunned. "That's it?"

Han Fei grinned. "I trust my daughter!"

Chapter 1184: Charge the Wall of Flame

As a person of the Water-Wood World, Shu Xiaoman had known to guard the Cloud Sea Divine Tree since childhood. She never thought that she could actually rampage in the outer sea like Han Fei.

At this moment, the two of them entered the void crack again.

After about half an hour, Han Fei found a large number of peak-level Sea Demon Realm and even Sea Spirit Realm creatures.

It could be seen that on the other side of the Wall of Flame, resources were extremely abundant.

However, he couldn't do anything here. Otherwise, how could the other party's Venerable sit idle?

After rushing forward for another hundred seconds, Han Fei passed a Dao Seeking-realm great demon, a dragon snake, who was floating in the water. There was no telling if it was cultivating or doing something.

Only a thousand kilometers away, when Han Fei and the others passed the dragon snake, the dragon snake suddenly opened its eyes and lashed its tail through the void.

"Roar!"

Han Fei's face changed slightly. Damn it. How could he be discovered?

"Beast King Technique."

Han Fei turned into a Sky Survey Golden Hawk, grabbed Shu Xiaoman, and began to run at full speed, which was almost five times faster.

"Hiss!"

Shu Xiaoman was dumbfounded again. Han Fei had become a member of the Sky Clan? And his speed had increased so much all of a sudden?

Shu Xiaoman discovered, to her shock, that she was shocked all the time today.

Every time, she felt that she already knew the limits of Han Fei's strength. However, every time, Han Fei broke her understanding.

Chi la!

"Hiss!"

Han Fei, who was racing, suddenly saw two rays of light appear in the infinite darkness almost at the same time. Subconsciously, Han Fei pinched his fingers to calculate and found that the light on his left front was not dangerous.

A voice echoed in the void, "When the juniors are fighting, Venerables shall not interfere."

"Humph! There's something wrong with this Sky Survey Golden Hawk. How can a peak-level law enforcer enter the void?"

The voice on the other side said, "Even so, it's not something a Venerable like you should ask."

Han Fei immediately ran away.

Racing under the watch of a Sea Clan Venerable, he was quite bold. He was ready to send a message to Jing'er at any time.

Once the other party attacked him at all costs, he didn't know if Jing'er could arrive in time.

However, the Sea Clan Venerable didn't take action but closed the void rift.

Immediately afterward, rays of light appeared, which were all the Sea Clan's Dao Seeking-realm powerhouses.

Han Fei thought for a moment. At this moment, he could see 17 cracks, which probably didn't include the big demons in the distance.

Swish! Swish! Swish!

In the dark void, Han Fei shouted, "Hold on tight."

Like an arrow of light, Han Fei looked at the void crack in the front and rushed out frantically. Some peak-level Explorers were even faster than Han Fei and tried to block him.

"Chirp!"

In Han Fei's eyes, an array appeared, and with a swish, Han Fei disappeared.

Han Fei's Stealth Array and Breath Concealing Technique were not very powerful before, but he had learned the Breath Concealing Technique from the tiger king for a while. After all, cats were naturally good at this. In terms of Breath Concealing, they were no weaker than human powerhouses.

Therefore, Han Fei's current performance stunned the other party who was at the peak of the Dao Seeking realm.

"Humph! Do you think this is useful? Devour..."

In the void, a terrifying suction force suddenly burst out. It was the power of the other party's law.

If it was the other party's Dao, it would become invisible and its strength would be boosted. At this moment, even if Han Fei was invisible, it was useless. After all, the Devouring Technique didn't care about invisibility.

However, Han Fei grinned. "I know the Devour Art too!"

“Absorb!”

After two seconds, Han Fei finally saw the full appearance of the big demon in the Dao Seeking realm. It turned out to be a shrimp soldier. However, unlike ordinary shrimp soldiers, this one seemed to be cooked.

Buzz!

Seeing that the opponent’s spear hit the void, Han Fei twisted his body and suddenly disappeared.

“Huh?”

The Shrimp Soldier shouted, “This Sky Survey Golden Hawk knows a space secret technique.”

When he passed the Shrimp Soldier, Han Fei grinned. “Speed up!”

Buzz buzz buzz!

One speed array after another was attached to him, and Han Fei’s speed increased a bit more.

Seeing that the other peak-level Dao Seeking-realm demons probably couldn’t catch up with him, Han Fei laughed. “I’m only a peak-level law enforcer. You sea demons are shameless bullies.”

“Nonsense! How can a peak-level law enforcer be so fast? You are at least an advanced Explorer.”

A purple fish that looked like sharp knives dashed at him with a secret technique.

But immediately, space trembled, and Han Fei twisted his body and dodged again.

Han Fei sneered. In terms of running, the Star Teleportation Technique was the strongest escape technique he had seen so far. Even if he could sweep across the elites of the big clans in the past, he generally wouldn’t attack the Ye family people because he couldn’t catch them at all.

Back in the Grand Myriad Mountains, even though he was stronger than the Sky Swimming Falcon, it still took him more than half a year to touch the Sky Swimming Falcon. This was the power of Star Teleportation Technique.

Ten seconds passed in an instant, and a sea race Venerable immediately realized that something was wrong.

Several Venerables glanced at Han Fei and discovered, to their shock, that this Sky Survey Golden Hawk seemed to have a big problem. It was really a peak-level law enforcer, but its speed was too fast...

At that moment, a sea race Venerable realized that this might be the Heavenly Talent of the Water-Wood World.

Chi la!

A claw mark stabbed into the void, trying to kill Han Fei.

Han Fei’s heart suddenly chilled. He immediately activated the Venerable Token, and a phantom suddenly appeared in the void.

Jing’er shouted, “Who dares to touch the people of the Water-Wood World?”

Rumble!

A sea race Venerable immediately shouted, "Not good, it's Ning Jing. Kill this person."

In the blink of an eye.

Jing'er's phantom collided with the Venerable in the void, but the phantom didn't disappear. She immediately shouted, "Queens Insect, attack."

Buzz buzz buzz!

The void was in chaos.

Han Fei was extremely close to the flame wall. When he was only less than 5,000 kilometers away, he saw a flame spider suddenly rush into the void. The long silk in the void grabbed at Han Fei. At the same time, four spider phantoms rushed in all directions.

Boom Boom Boom...

The void exploded. Han Fei didn't expect that the Sea Clan Venerables would still attack him even though the Queens Insect had issued a warning. Why?

According to his understanding of the Sea Clan, they shouldn't be the kind of people who would start a Venerable-level battle easily. If they really fought, would they be able to take the upper hand of the Queens Insect?

Jing'er shouted, "If anyone from the Sea Clan attacks again, the Fiery Sea will start a war."

When facing Han Fei, Jing'er was like an ignorant girl.

However, when faced with these Sea Clan Venerables, Jing'er showed her strength. She declared war at the slightest disagreement! This was kinda like the style of the Yin-Yang World.

Swish!

Han Fei was pulled to the other side of the Ultimately Fierce Battlefield by the Spider Venerable. Han Fei vaguely heard a cold snort in the air.

At the moment when the Venerables attacked, the Water-Wood World creatures and the Sea Clan on the Ultimately Fierce Battlefield stopped at the same time.

The powerhouses quickly gathered, and the two parties were ready to fight at any time.

Shu Xiaoman was stunned and confused. As a Heavenly Talent, she only had three feelings at this moment.

Who am I?

Where am I?

What am I doing?

When Jing'er came back to herself, she found that Han Fei was staring at the Fiery Tree in a daze.

Little Tree hurriedly said to Han Fei via voice transmission, "Han Fei, are you scared silly? Thank the Sky Spider Venerable for saving you!"

Han Fei came back to himself and looked at the gigantic spider that was burning with fire, whose claws were like red spears, and who was wearing fiery armor.

"Thank you, Venerable Sky Spider."

The Sky Spider asked, "Are you a human or a bird?"

Chi la!

The void was torn apart, and Jing'er appeared in midair with her cheeks puffed out. "Han Fei, change back!"

Buzz!

Han Fei's bird body changed and he revealed his original human form.

The Sky Spider looked at Jing'er. "???"

"He's a visitor from the Yin-Yang World, Han Fei."

The Sky Spider Venerable stared at Han Fei's waist with its multiple big eyes. "Is he the Yin-Yang World's messenger who met the queen? Isn't he here for the first day?"

Jing'er looked at Han Fei helplessly. "Yes! Isn't it your first day here? Why did you come to the Fiery Sea?"

Shu Xiaomang stood respectfully on the side, not daring to speak, but in her heart, she thought to herself, he came to rob people...

Han Fei smiled innocently. "I was going to the Ice Domain to test the strength of the Sea Clan, so I killed dozens of Sea Spirit-realm sea demons and a Dao Seeking-realm sea demon by the way. Then, I was hunted all the way to the Fiery Sea!"

Jing'er rolled her eyes at Han Fei. "You're truly bold! You might as well choose the Ice City Wall rather than the Fiery Sea! Who gave you the idea?"

As Jing'er spoke, she looked at Shu Xiaoman, who trembled.

Han Fei quickly said, "It's not her. I thought it would be more convenient to come to the Fiery Sea from the Ice Domain."

Han Fei was actually briefly stunned. The old turtle was really up to no good. He was trying to trick him into digging the sea demons' den in the Ice Domain? That old b*stard.

If it weren't for the old turtle, so what if a few peak-level Explorers blocked the way? He could just rush into the Ice City Wall.

The Sky Spider Venerable said casually, "Do you know why the Venerable attacked you?"

Han Fei shook his head. "Why?"

The Sky Spider Venerable narrowed their eyes. "Because they can see that you are a peak-level law enforcer, a peak-level law enforcer comparable to an advanced Explorer. If you were him, would you kill that person?"

Jing'er also said, "Before I came, the queen said that if you're too impulsive this time, you'll be punished not to be allowed to become handsome. Also, don't hide the Venerable Token."

Han Fei was stunned. Can I be punished like this?

The Sky Spider Venerable, on the other hand, was stunned. It seemed that this kid had an extraordinary identity! The queen punished him? This was the first time ever.

Shu Xiaomang looked at Han Fei dumbfounded. He saw the queen, and the queen even wants to punish him? What an honor it is!

However, Han Fei's heart did a flip. Of course, he didn't know that being punished was also an honor. And this punishment was a bit harsh. It seemed that the Queen Life was determined to use his appearance to make him sad.

"Heh! How can I, Han Fei... succumb to a mere pretty face?"

Han Fei didn't care and changed the topic. "Well, can I ask if this tree is called a parasol tree?"

Chapter 1185: Han Fei, the Invincible

When Han Fei was rescued, he was shocked by this tree at first glance.

Compared to the Cloud Sea Divine Tree, this tree looked like a parasol tree, which made his imagination run wild.

It was said that a phoenix would nest in a parasol tree. He had seen a dragon before. Would a phoenix appear?

However, to Han Fei's disappointment, Jing'er said, "This is a fire tree. As for what kind of tree it is exactly, that was a long story. The queen said that a natural spiritual fire swept this tree, causing the flames here to burn for ten thousand years. Don't change the topic. The queen said that you are not allowed to go to the Cave Sea to cause trouble. Since you have reached the peak, you should go to the Dark War Port quickly."

"Uh ~"

Han Fei was speechless and thought to himself, This is my first day in the Water-Wood World! I didn't cause any trouble!

The Sky Spider Venerable said, "Wait a moment. Since you are strong enough, why don't you have a fight on the Ultimately Fierce Battlefield first? Tell me how strong you are first."

Han Fei was stunned for a moment. "Is it appropriate for me to say that?"

Jing'er said, "Just tell me if you can kill an advanced Explorer or not."

The corner of Han Fei's mouth twitched. "No, but I can easily kill anyone below this level."

The Sky Spider Venerable looked at Han Fei in surprise. "How many intermediate Explorers can you defeat?"

Han Fei's heart suddenly skipped a beat. He thought to himself, If I kill a batch of them now, will a lot of people come at me when I transcend the tribulation? Wouldn't it be a waste of my time?

Han Fei couldn't help but ask, "Can I fight them after the tribulation?"

The Sky Spider Venerable shook his head. "It will only benefit you if you challenge them now. Just now, you broke into the Wall of Flame. Although you didn't show it in your current appearance, if you show your speed in battle and kill a few Dao Seeking realm demons first, they might be afraid of you and won't send anyone to challenge you when you transcend the heavenly tribulation."

Han Fei's eyes glittered. "This will do."

Han Fei's purpose in the Water-Wood World was to transcend the tribulation.

Endure it for a while and everything will be fine. After transcending the tribulation, he could fight as he pleased.

Han Fei looked back and asked hopefully, "How should I fight?"

The Sky Spider Venerable said, "You can try provoking them. Do you know how to provoke them?"

Han Fei nodded. "Let me try."

Jing'er said, "Don't worry. The queen asked me to watch over you until you succeed in transcending the tribulation. After transcending the tribulation, you can do whatever you want."

Han Fei staggered. Jing'er will watch over me?

A listener might perceive an unintended meaning in what was said.

The Sky Spider Venerable couldn't help but look at Han Fei up and down again, thinking, Is this person so important? Does the queen want to communicate with the Yin-Yang World?

Shu Xiaomang was full of jealousy.

Oh my god!

The queen actually asked Messenger Jing to personally protect Han Fei from the tribulation? How honorable is that?

Han Fei thought to himself, in that case, I'd better directly transcend the tribulation after finishing the battle! Otherwise, I'll feel uncomfortable being watched by a Venerable every day!

A moment later.

On the Ultimately Fierce Battlefield.

"Hiss... Hiss..."

The powerhouses of the Insect Clan and the Sky Clan were ready to fight at any time. They were just waiting for the Venerable to give the order.

At this moment, Han Fei flew over.

Shu Xiaoman didn't follow him because Han Fei needed to pretend.

Before he arrived, Han Fei heard a group of insects buzzing as if they were cursing at the sea demons. And the Sky Clan were chirping, seeming to be quarreling with the sea demons too.

As he expected.

In front of the array, a bald long-necked monster was roaring, "You soft, fuzzy bugs, come here if you have balls. I'll swallow you in one bite."

A bunch of Insect Clan members were buzzing.

"bald head, I'm going to eat you."

"I'm going to gnaw on your bones."

"I want to crawl into your body and gnaw on your internal organs..."

"I'm going to tear your head apart..."

All sorts of curses were heard.

All of them were buzzing nonstop like a swarm of flies buzzing in everyone's ears.

In such an intense situation, no one noticed Han Fei at all.

Therefore, at this moment, Han Fei was standing on the back of a Single-Horned Fire Sky Bull, hiding among the thousands of insects, and joining the scolding battle.

Han Fei's voice was not loud, but it spread far away.

Han Fei shouted, "The Sea Clan is a pile of fish shit, especially the Venerables of the Sea Clan. They are the fish shit among fish shit."

"Huh?"

All of a sudden, the voices in the battlefield became softer. Who was so bold as to insult Venerables? Why was he so bold?

However, how could a group of insects and birds be afraid of such a war of words? After all, the other party had Venerables. They had some too! Anyway, the Venerable battle couldn't affect them!

Therefore, a group of insects buzzed, "The Sea Clan Venerable is just a pile of fish shit..."

"Fish poop, fish poop..."

For some reason, Han Fei suddenly felt that the insects didn't seem to be so scary. They seemed gullible.

On the opposite side, a fire turtle shouted, "Smelly bugs, what are you shouting for? Come to me if you have balls. I'll burn you to ashes."

Han Fei made up his mind. Since he didn't like turtles recently, he immediately shouted, "Shut up, you silly turtle. The Venerable of the Sea Clan are silly too!"

Many insects were taken aback. What he said seemed to make sense.

Immediately, a large swarm of insects buzzed, "Silly, silly..."

In the distance, the Sky Spider Venerable was lost for words. "Why do I feel that this brat is a bad guy?"

Jing'er was also a little stunned. I don't know either!

The Fire Sky Bull under Han Fei tilted its body, trying to see what the person standing on it looked like. The two long whiskers on its head flicked, and it thought to itself, Why is a human being here?

Han Fei stomped. "Stand firm."

Then Han Fei shouted again, "I can kill seven sea demons of the same level as me with one slap."

Suddenly, a lobster soldier pointed its spear at the insect swarm. "That human, hey, you. How dare you speak so arrogantly? You said you could kill seven or eight sea demons with one slap? You're just a peak-level law enforcer. Do you dare to fight me?"

Many insects and birds looked at him in surprise. Was this person shouting?

However, a bug immediately roared, "Come on, smelly shrimp, let me stab you to death with my big horn. I, Chong Wu'er, can stab you to death."

A fire gull flapped its wings and shouted, "Damn you, shrimp soldier! Let me fight you!"

However, Han Fei stomped and the Fire Sky Bull under his feet stumbled.

Han Fei rushed to the front of the array with a swish.

Han Fei pointed at the Lobster Soldier and then at the other sea demons on the opposite side. "I'm not pointing at you. I'm saying that all of you here are fish poop."

"Roar! I'm gonna tear you apart."

"Did you see my pincers? I'm going to cut you into halves ~"

The sea demons immediately roared.

Countless insects and the people of the sky were speechless. Human, do you know how fierce the battle in the Fiery Sea is? How dare you provoke them?

A bug said to the bug beside him, "This person is not only ugly, but also not as smart as ordinary insects..."

In the void, a cold snort echoed. "Kill him."

Han Fei realized that it was the voice of the Venerable who attacked him just now.

Immediately, Han Fei added, "Why? Is there anything wrong with what I said? Even your Venerables are fish poop."

The Lobster Soldier shouted, "Human, don't waste your breath. Come up and fight me if you have what it takes."

Han Fei raised his middle finger at the lobster soldier. "Who do you think you are? I can stab you to death with one finger! I can beat a dozen sea demons like you with one hand."

In terms of provocative postures, magical arrogance, and exaggerated acting skills, how could these sea demons be a match for Han Fei?

Immediately, a crab was so infuriated by Han Fei that its shell turned purple.

The crab crawled out horizontally. "Human, I'm going to smash you."

Han Fei smiled contemptuously. "Who the hell are you? I can beat up seventy or eighty of you."

Behind him, a large group of insects rolled their eyes and the birds were speechless. Come on, you are only a peak-level law enforcer. What can you brag about?

An insect reminded him, "Human, don't overestimate yourself. There are no rules here."

The Sky Spider Venerable was also lost for words. "Doesn't he know that the insect race often fights in groups?"

Jing'er, however, said carelessly, "Well, it's just seventy or eighty crabs. What's so difficult about it?"

Shu Xiaoman put it aside, not daring to speak. He thought to himself, You are a Venerable, so of course it's not difficult for you.

But let's see what would happen if you were an ordinary person?

It would be extremely difficult for one to fight two opponents at the same level as him, let alone seventy or eighty. With her capabilities, if she were to fight a legendary creature, she would be able to beat one at most.

Hardly had Han Fei shouted that when more than thirty crabs crawled out and waved their pincers.

"Human, come and fight me if you've got balls!"

"Human, come on! Don't retreat."

"Human, if you dare to come, I'll kill you."

"Hahaha!"

Han Fei, however, laughed. "Do you think I'll be afraid of dozens of stinky crabs and shrimp? Don't you Sea Clan have any powerhouses?"

Han Fei's face suddenly changed. "I'm going to fight a hundred of you alone today. I don't care if you are a legendary creature or a legend one. As long as you dare to come, I dare to accept your challenge. I have been seeking defeat all my life, and I am invincible among my peers. My nickname is Han Fei, the Invincible. If you can't even find a hundred strong masters, how can you be my opponent? You pieces of fish shit, get the hell out of the Wall of Flame!"

The insects and birds on the side of the Water-Wood World were stunned. Invincible in the same realm? Han Fei, the Invincible? Never heard of him!

The Sky Spider Venerable's lips twitched. "Jing'er, is the queen sure she didn't choose the wrong person?"

Jing'er blinked. "He sounds quite domineering!"

Immediately, some sea demons felt that something was wrong. Some explorers glanced at Han Fei. Indeed, he was a peak-level law enforcer.

But no matter what they thought, they didn't think that Han Fei was really capable of fighting a hundred alone.

Immediately, a great demon at the peak of the Dao Seeking realm shouted, "Okay, since this human is so arrogant, let's satisfy him.. Come on, tear him apart alive."

Chapter 1186: Good Show

Han Fei secretly chuckled. Great! I'm gonna make a fortune. I should have come to the Fiery Sea earlier. I had only killed fifty Sea Spirits back in the Ice Domain.

But he could fight a whole gang of sea demons here.

Although these creatures might not have any good treasures on them, if they were used to make hot pot, they must be highly nutritious.

It would be best if he could hunt a thousand of such creatures. If he ate one every day, he would be unbelievably strong in three years.

Behind Han Fei, the strong masters of the Insect Clan and the Sky Clan were puzzled. One against a hundred? Is this person crazy?

Only a few people knew that Han Fei came from the Yin-Yang World. Were people from the Yin-Yang World so powerful?

When more than a hundred sea demons roared and rushed into the battlefield, Han Fei took a step forward, his eyes fierce. "Let me make it clear that this battle will not end until one of us is dead. If any of you escapes, the Venerable of the Sea Clan is nothing but a piece of garbage."

The sea creatures all wanted to rush up and tear Han Fei apart. However, the Dao Seeking and the Venerable-level powerhouses were puzzled. What was this kid's background?

Immediately, the Sea Clan Venerable shouted in a low voice, "Sky Spider, Ning Jing, if you, Water-Wood World Beings, want to fight, then don't use any abnormal things. Don't borrow force from others, and don't use weapons that don't belong to you."

Han Fei shouted, "There's no need for the Venerable to agree. I, Han Fei, have been cultivating hard for more than 300 years, believing that I am invincible in my realm and can defeat all law-enforcers in the world. Why do I need to use external help? I'll handle this matter myself."

"Han Fei?"

Many creatures looked puzzled. Defeat all law enforcers in the world?... This human is too arrogant!

The Venerable on the opposite side snorted. "That's bulls * it. I can see that you're not even thirty yet!"

Han Fei was speechless. Had he been seen through at a glance?

However, I'm not panicking at all. I was just bragging.

The Sky Spider Venerable shouted, "Okay, enough chit chat. Let's start the battle. We'll fight to the death in this battle."

The Venerable frowned. Was the Sky Spider really confident, or was he sending this human to death? However, no matter how he thought about it, it was impossible for Han Fei to win!

Even if the other party was an intermediate Explorer, it was not easy to win against the combat power condensed by a hundred peak-level law enforcers. Furthermore, if he didn't become an Explorer, his spiritual energy was limited. Even if he had a way to recover in combat, it was impossible for him to do it in time in that kind of intense battle.

The Sea Venerable felt that his analysis was very accurate.

He could feel that this person wasn't weak. The Water-Wood World probably wanted to kill dozens of sea demons at the same level as Han Fei to boost their strength.

In fact, it was just that the Sea Venerable didn't know Han Fei's background or what he had done in the past. Otherwise, he wouldn't have made such a stupid decision.

In the field, under the surprised gaze of countless people, Han Fei walked step by step to the battlefield on the burning sea.

Behind him, the strong masters of the Insect Clan and the Sky Clan were shocked. The Sky Spider Venerable actually agreed? Is this human very strong? Is this a war of attrition?

All the powerhouses in the Fiery Sea knew the purpose of the Sea Clan.

They wanted to consume the powerhouses of the Water-Wood World!

However, they couldn't figure out how Han Fei could survive the siege of a hundred sea demons.

In the sky, the Red Falcon and the other strong masters all speculated. It wasn't easy for a person to come from the Yin-Yang World. Why did the Venerable send him to death? If not, how strong was this person?

On the battlefield, Han Fei looked at the more than a hundred creatures, but instead of taking out the Embroidery Needle, he took out Snowmourne. These were all food. If they were smashed, how would he eat them?

When Snowmourne was taken out, the Sea Clan Venerable shouted, "A Sea Quelling Bizarre Treasure? How can a Law Enforcer subdue a Sea Quelling Bizarre Treasure?"

"A Sea Quelling Bizarre Treasure?"

Immediately, the sea creatures on the opposite side were shocked too. How could a Law Enforcer have a Sea Quelling Bizarre Treasure? Was he kidding?

On the Water-Wood World's side, the group of insects cheered after the initial shock.

Han Fei threw Snowmourne into the air, and the latter revolved around him. "This shows that I'm talented. You are a Venerable. If you mind, I don't have to use it."

Then, Han Fei took out the Blood-Drinking Knife. "I can use this."

Then, Han Fei withdrew Snowmourne. He didn't want to scare these people away.

A big bird shouted, "Why? Use it!"

A bug buzzed. "You tamed it with your own abilities. Why don't you use it?"

Han Fei smiled casually. "Don't panic! Wait until I can't beat them."

Han Fei immediately smiled. "Has the battle started? I'm going to attack."

As he said this, the Void Lines had already been split. He activated Devil Change, the Phantom Glass Wings, and the War Body.

Bang!

It exploded under Han Fei's feet.

He hadn't used the Heavenly Void Divine Movement yet, but his speed was extremely fast, completely exceeding the speed of a normal peak-level law enforcer.

"Sky Splitting Spear!"

"Sea Shattering Cuts..."

"Primordial Chaos Demon Shield."

"Fire Element Impact."

All of a sudden, all kinds of strange techniques were used.

The Ultimately Fierce Battlefield was brightly colored.

A spherical creature turned into a fireball and rolled over first. It seemed to be conceited of its strong physique and wanted to ram Han Fei to death.

Han Fei smiled and extended his hand. The Infinity Water wrapped his arm and condensed into a cone-shaped spear.

Bang!

"Pfft!"

At that moment, Han Fei clearly felt a terrifying rebound force. However, so what? The golden light of the Art of Invincibility flashed, and with a puff, the ball exploded.

The Void Lines buckled. Even if the other party had an Immortal Seal, it was impossible for him to have the time to use it.

“Hiss!”

A unicorn bull said in shock, “He punched through the fish of the mist.”

A big bird was surprised. “He penetrated it? What is that golden light?”

A beetle shouted, “Good! Good job!”

Under this blow, dozens of creatures had surrounded him. All kinds of power of law seemed to be trying to tear Han Fei apart. There was a black-armored turtle who had mastered the Law of Gravity.

With a flip of Han Fei’s hand, terrifying gravity descended. Under the irregular heavy pressure, dozens of creatures staggered.

However, Han Fei seemed to be completely unaffected. Wherever the blade passed, sparks flashed.

“Pu... Pu... Pu... Pu...”

Clang! Clang!

Han Fei couldn’t help frowning. There were three creatures that blocked his attack comparable to that of a junior Explorer?

However, in the blink of an eye, seven or eight sea demons at the peak of the Sea Spirit Realm had died. This had stunned all the creatures present.

All the explorers were shocked. “What a strong body.”

The black-shell turtle turned into a black shield and shouted at the same time, “This person’s physique is astonishing, comparable to my hard armor. Let’s attack him together.”

Immediately, the powerhouses who were about to charge at him behind stopped.

On their bodies, white light flashed, and they integrated into one.

Han Fei narrowed his eyes and shattered the incoming black shield with a golden fist mark. At the same time, he flashed into the air and shouted, “I have a knife that can defeat a thousand soldiers.”

In Han Fei’s body, the terrifying spiritual energy was suddenly sucked dry.

He activated the Draw Technique and slashed at the white array.

“Chiliu...”

The terrifying attack only caused the white light to dim slightly.

However, the attack failed and was easily blocked.

“Hahaha!”

A Dao Seeking-realm sea demon laughed and said, “Hahaha... Human, is this the power of your knife that can defeat a thousand soldiers?”

Han Fei looked solemn. From the fish tide, one spear after another shot through the air. Each blow was extremely powerful and seemed to be a full blow.

Han Fei roared and charged at the fish tide, punching out golden fist marks one after another.

The terrifying spears were all shattered by Han Fei's punch.

However, when the golden fist mark hit the fish tide array, it could only create a big hemispherical pit before it was blocked.

Han Fei's face was grim and he seemed to be shocked by the fish tide.

Countless insects and the sky clan roared, "Use the Sea Quelling Bizarre Treasures now! Don't resist the fish tide head-on!"

The Sky Spider Venerable frowned slightly. "Did he do that on purpose?"

There was no worry on Jing'er's face. "He acts as if he really can't beat them."

Shu Xiaoman looked at this scene dumbfounded. He was already very strong! Except that Han Fei didn't use his speed advantage, the fist marks were extremely terrifying.

However, when she thought that Han Fei could kill nine Sea Spirit powerhouses in the blink of an eye, and how terrifying Han Fei's roar was, it seemed that Han Fei was indeed pretending.

Han Fei shouted as he sprinted, "I am invincible among my peers. A mere fish tide wants to stop me? Then I will tear this fish tide apart."

In an instant, the two sides were within a kilometer of each other.

However, at that moment, the void distorted, and Han Fei's figure suddenly disappeared.

"Where is he?"

"Where is he?"

A sea demon roared, "Has this guy run away?"

A bug was dumbfounded. "What technique is this?"

"Roar!"

Suddenly, a deafening roar blasted a big hole in the fish tide.

All the creatures saw a group of strange creatures with huge bodies trampling the void and roaring.

"Pu! Pu! Pu! Pu!"

At that moment, Han Fei twisted the space and went into the fish tide.

All the sea creatures within a kilometer of Han Fei were bleeding.

In the white light that was shaken off, Han Fei's afterimage filled the sky.

Puff, puff, puff!

In an instant, more than 50 ordinary peak-level Sea Spirits were killed one after another, and the part between their eyebrows was cut open by the knife.

In Han Fei's view, the so-called peak-level Sea Spirits were all ordinary.

"Roar! This person is the Sky Survey Golden Hawk from just now."

On the sea clan's side, a Venerable was furious.

Following that, a Shark-Man appeared in the void.

However, the Sky Spider Venerable and Jing'er were faster than the Sea Clan Venerable.

The Sky Spider Venerable said coldly, "This is a bet and the battle has already started. Do you want to interfere?"

The Insect Clan, the Sky Clan, and the countless creatures of the Sea Clan were all dumbfounded.

They had never seen such a weird technique before.

They were all at the peak of the Sea Spirit Realm! But half of them were killed in an instant.

Many insects fell into the water. "Is he really a human being? He's so strong!"

"Idiot, the Venerable of the Sea Clan said that he is a Sky Survey Golden Hawk, not a human."

"So he's a bird!"

As for the Sky Clan, they were also dumbfounded. What? A bird in the Law Enforcer realm can become a human? Why didn't we know that?

A big bird shouted, "That's impossible! We don't have a Sky Survey Golden Hawk like Han Fei, the Invincible!"

The Red Falcon shouted, "He is originally a human, but he somehow used a technique to become a member of the Sky Clan."

The Venerable of the Sea Clan shouted angrily, "Good, very good. Sky Spider, Ning Jing, you set me up! Is it because there is no big battle in the Fiery Sea for a long time that you've become arrogant?"

Chapter 1187: I Just Want to Transcend the Tribulation Peacefully

In the face of the Sea Clan Venerable's question, Jing'er said proudly, "Who told you to be stupid? If Water-Wood World really had such a peerless genius, why would we let him come here to die?"

"Roar!"

The remaining sea creatures on the field all launched their strongest attacks.

A crab shattered its pincers and condensed half of its life into a strike, trying to tear Han Fei apart.

Buzz!

A golden man stepped in the air, clasped his hands, and violently launched a peak strike that condensed all his blood essence.

Some spears, like blood arrows, shattered the void, trying to pierce Han Fei.

The void twisted, and Han Fei appeared beside a lobster soldier. The white knife went in, and the red knife was drawn out, killing it in one blow.

“Pu... Pu... Pu... Pu...”

On the field, it was a one-sided slaughter. All the Insect Clan and the Sky Clan members were dumbfounded. This battle was too violent!

A Sky Bull touched its horns with its toes. It felt that Han Fei could break its horns bare-handedly.

Some hawks couldn't help retracting their sharp claws. They felt that if their claws were to touch Han Fei, they would very likely break.

The Fire Element Giant Turtle tried to ram Han Fei with its huge turtle shell, but as soon as it hit Han Fei, it froze.

With a bunch of Void Lines attached to it, how could it still move?

The Sea Clan Venerable was horrified. This human is so strong! He's only a peak-level law enforcer, but his physique is outrageously strong, his means are complicated, and he has mastered the power of space, gravity, and speed...

More importantly, how could a peak-level law enforcer endlessly absorb a large amount of spiritual energy and energy from the void?

In the field, as soon as Han Fei opened his mouth, billowing spiritual energy and energy were swallowed by him, which seemed extremely easy to him. Therefore, as long as his realm was in place, it was no longer necessary for him to absorb spiritual energy from fish.

Han Fei had infinite spiritual energy now.

Puff, puff, puff!

When there were only seven or eight legendary creatures left, a sea demon shouted, “Self-destruct yourselves at any time.”

Han Fei certainly wouldn't pretend not to hear him.

He activated the Agility of Wind... However, Han Fei wasn't fighting at all. He was picking up all the creatures that had been killed.

All the creatures: “???”

Han Fei shouted angrily, “You sea demons want to destroy my ingredients? Go to hell!”

“Hiss!”

A large number of sea demons took a deep breath. At this point of time, this human was still thinking of food?

For a moment, many sea creatures were horrified. It wasn't easy for them to cultivate to the peak of the Sea Spirit level! How horrifying it was if they were eaten like this.

After all, they were no longer the ignorant and ordinary sea creatures!

After picking up the "ingredients", Han Fei suddenly looked back and grinned. "Are you going to blow yourselves up? Let's see who's faster."

Hearing this, the creatures were horrified.

Some creatures intended to blow themselves up, and some attempted to let a wisp of their soul escape.

As the void twisted, Han Fei had already attacked at full speed. His speed was comparable to that of an intermediate peak-level Explorer. How could these law enforcers compare to him?

The void constantly distorted, and with bangs, a terrifying wave of explosions swept in all directions.

However, among the more than a hundred peak-level Sea Spirits, only three of them successfully detonated themselves. The rest were taken into Forge the Universe as storage for ingredients.

Han Fei thought to himself, After this battle, I'll sell the large number of ordinary creatures I collected before. In the future, if I want to eat, I'll only eat peak-level Sea Spirits.

Once upon a time, how powerful were the Eight Wings of Blue Feather?

But at this moment, the creatures of this level had already become Han Fei's food.

Only five years had passed since then.

A sudden silence fell.

The insects stopped buzzing, and the Sky Clan was a little frightened. Is there going to be a heaven-defying powerhouse among human beings?

Those who knew Han Fei's background were amazed. What kind of place was the Yin-Yang World exactly?

It was said that there was only one human race there. Could it be that the people there were all as cruel and ruthless as Han Fei? The Yin-Yang World was too terrifying.

The Sea Clan Venerable seemed to be on the verge of erupting.

A hundred peak-level Sea Spirits had all died in this battle. This was the first time in hundreds of years that the Fiery Sea Battlefield suffered a great loss in such a short period of time.

A Shark Venerable shouted in a low voice, "I don't care who this person is. He's not going to become an Explorer in this life. Either that, or he's going to transcend the tribulation at the Cloud Sea Divine Tree in this life!"

Ning Jing suddenly said, "Han Fei, hang up the Venerable Token."

Han Fei was briefly stunned. Was this also part of the plan to awe the crowd?

He couldn't help but smile. "That bucktooth Venerable, yes, you. Let me tell you, I'm going to transcend the tribulation in a few days. The place of the tribulation is at the Dark War Port. You're welcome to visit it."

When Han Fei was done, under the watch of countless people, a token appeared in his hand.

At this moment, Han Fei finally put the Venerable Token on his waist.

"Hiss!"

When the Venerable Token was activated, the Sea Clan Venerable's pupils suddenly constricted.

"Venerable Token? Ning Jing's Venerable Token?"

Ning Jing was an extremely special existence among all the Venerables in the Cloud Sea Divine Tree.

How did her Venerable Token appear on Han Fei?

While the Insect Clan and the Sky Clan were shocked,

Ning Jing smiled slyly. "You're right. Han Fei is the next King's Attendant that the queen wants to nurture."

"Wow!"

"King's Attendant?"

"Hiss! Who is Han Fei? Why haven't I heard of this person before?"

"God, is the queen recruiting a King's Attendant?"

For a moment, the members of the Water-Wood World were in an uproar.

Everybody in the Cloud Sea Divine Tree knew that Ning Jing was the only King's Attendant.

And now, the queen was recruiting another King's Attendant?

Didn't it mean that the queen was very interested in Han Fei?

When these words fell into the ears of the Sea Clan Venerable, it sounded like thunder.

Others might not know, but how could they not know? In the entire Water-Wood World, Ning Jing rarely participated in the battle, but in terms of the combat power, this woman was probably the strongest Venerable in the Water-Wood World.

Han Fei looked at Ning Jing in shock, and the latter chuckled proudly. "So, now you know? If I don't have any ability, how can I serve the queen? In a few days, let's see who you dare to send to the Dark War Port!"

Although Ning Jing seemed to be simple-minded, being a Venerable, she certainly wasn't a fool.

Han Fei would be the King's Attendant?

Come on, the queen was a woman. How could Han Fei, a man, be the King's Attendant? That was completely impossible.

However, the Sea Clan didn't know!

Han Fei had the Venerable Token, and Han Fei had slaughtered more than a hundred Sea Spirits in such a domineering way. This battle record was bound to shake the Royal City of the Sea Clan.

Han Fei thought to himself, What the hell is this King's Attendant? Didn't they say that I could intimidate my opponents only as long as I came to fight today, and then, I can safely transcend the tribulation? What does this King's Attendant mean?

Even the Heavenly Spider Venerable looked at Ning Jing in surprise. Didn't they say that they would help Han Fei transcend the tribulation? Why did you mention the King's Attendant thing? Now the Royal City would definitely send top geniuses to ambush Han Fei.

However, Jing'er pretended not to notice anyone's gaze and even asked with a smile, "Han Fei, do you still want to fight?"

Instantly, many sea creatures shrank back. Fight him? The queen chose him as an attendant and he could easily kill a hundred powerhouses of the same level? Do you think we're stupid?

Ning Jing said leisurely, "Those in the junior or Intermediate Dao Seeking realm can try fighting him. Right, Han Fei?"

The corner of Han Fei's mouth twitched. There was a saying that beautiful women couldn't be trusted. Who the hell pretended to be innocent and vowed to help him transcend the tribulation just now?

The Venerable's heart skipped a beat. If that was the case, everything made sense. The so-called provocation was fake. Queen Life just wanted to test Han Fei.

Since it was a test, it meant that Queen Life attached great importance to Han Fei, believing that he could withstand the attacks of the Heavenly Talents from the Royal City.

Immediately, the Venerable snorted. "In that case, I'd like to see if he can survive the tribulation in the Dark War Port in a few days. Let's retreat for now."

The sea creatures retreated.

As for the hundreds of peak-level Sea Spirits who died, under the stimulation of this news, they were temporarily put aside. If they could kill a figure like Han Fei in the Dark War Port, so what if a hundred peak-level Sea Spirits died?

In a sense, Han Fei's value alone far exceeded that of countless peak-level Sea Spirits.

Once Han Fei successfully transcended the tribulation, if he hid in the Cloud Sea Divine Tree and cultivated to the Venerable realm, the Sea Clan would definitely welcome a new fatal enemy.

Besides, Jing'er had already given Han Fei her Venerable Token.

In a sense, Queen Life had already treated Han Fei as a Venerable.

It was worth it if such a person could be killed no matter how many Sea Spirit creatures died.

...

After the sea demons retreated, Han Fei was about to ask Jing'er what she meant.

However, a large number of insects surrounded Han Fei with buzzs. "Han Fei, Han Fei, Han Fei..."

The sky race landed one after another and looked at Han Fei curiously.

A bug asked, "Han Fei, how did you become so strong?"

A big bird asked, "Han Fei, why can you turn into a Sky Survey Golden Hawk? We can take human forms, but I've never heard of a human being turning into one of us!"

A bug buzzed. "Han Fei, is your body sturdier than my horn?"

"Han Fei..."

As for Shu Xiaomang, witnessing Han Fei easily killing a hundred enemies with her own eyes, she felt her heart was already set ablaze.

When they were in the Ice Domain, Han Fei hunted the Sea Spirit powerhouses with sneak attacks.

However, today's battle was a real head-on one.

But Han Fei could still win in a head-on clash, which showed how strong he was.

At this moment, Shu Xiaomang felt that it was a fair loss for Yi Yuchen. Even Venerable Xue might not have had such combat power in the past.

Shu Xiaoman even wondered if the queen was really going to make Han Fei her attendant.

Half an hour later, when Han Fei crawled out of the pile of worms with disheveled hair, the Sky Spider Venerable and Jing'er were nowhere to be seen.

Only Shu Xiaoman was standing there in a daze.

Han Fei immediately asked, "Where's Jing'er?"

Shu Xiaoman's heart sank. Sure enough, Han Fei had already regarded Messenger Jing as an equal and even called her by her name! This should be the pride of a top genius, right?

Shu Xiaoman said with a sullen face, "The messenger said that she was going back first and she would wait for you to come back to cook.

Han Fei couldn't have felt worse. Cook? This woman only knew food! Damn it, why can't I be at peace wherever I go? I just want to transcend the heavenly tribulation peacefully.

Chapter 1188: Immeasurable Fruit

When Han Fei returned to the Flying Feather Division, it was already night.

As soon as Han Fei returned, Jing'er said to him via voice transmission, "Come on, come cook for us. Still in Xuexue's yard."

Han Fei said to Shu Xiaoman, "I'm going to cook."

Of course, Shu Xiaoman didn't receive his voice transmission.

After all, as a peak-level law enforcer, she didn't have the opportunity to have a meal with Messenger Jing!

Shu Xiaoman: "Okay! I'll go back first. Do you remember the way back?"

"Yes, yes, there is a map."

...

In the courtyard of Wushang Xue, this time there were only Jing'er and Wushang Xue.

Han Fei came to Wushang Xue's home.

When Wu Shangxue saw him, the corner of her mouth twitched. Should I leave? However, the hot pot and barbecue were indeed delicious.

Seeing Han Fei, Jing'er's eyes lit up. "Come on, come on. Didn't you catch many creatures today? Get me some of the best quality ones. I want hot pot and barbecue."

Gloomily, Han Fei took out a grill and a big pot, pondered for a moment, and chose a legendary lobster, which was still burning with flames.

As soon as the lobster appeared, Wushang Xue pointed her finger, and a layer of frost condensed on the lobster.

Holding back her fury, Wushang Xue said, "Why did you take out a twenty-meter-long lobster? Do you want to burn the Cloud Sea Divine Tree? It's just a meal. This lobster is too big for you two!"

Jing'er chuckled and hugged Wushang Xue's arm. "Ah! Being big means that it has a lot of meat! And it's legendary. Its meat must be delicious."

Han Fei quickly shelled the lobster and said leisurely, "Jing'er, I've been sold too thoroughly, haven't I? I feel an ominous aura surrounding me."

Jing'er said carelessly, "The queen said that you're going to be a king! How can you be afraid of a mere tribulation? Don't worry. When the time comes, I'll protect you and help you get more delicious ingredients."

Han Fei thought to himself, I had planned to make a delicious meal to reward you with at least dozens of dishes after the tribulation.

But now, humph, you can only eat hot pot and barbecue! I won't make you any other dishes other than hot pot and barbecue these three years.

The two Venerables watched Han Fei's saber flow like water.

Han Fei had almost known this ingredient to the hilt. The two couldn't help but secretly record in their heart, thinking that there would be another great delicacy in the Water-Wood World from now on.

While cutting the translucent meat, Han Fei said, "Venerable Xue, I have a lot of materials here. Do you want them?"

Wushang Xue was stunned. "What materials?"

Han Fei immediately threw out a pile of hundreds of Sea Swallowing Seashells and said, "This is all the resources I've accumulated over the years. There are all kinds of cultivation techniques, combat skills, and materials in it. I can't count them all. I just want to exchange for something good."

Looking at the hundreds of Sea Swallowing Seashells, Wushang Xue was a little stunned. How many things had this guy looted? He must have done a lot of similar things in the Yin-Yang World.

Jing'er asked in surprise, "Is there food in it?"

Han Fei shook his head quickly. "No, they're all materials that can't be eaten."

Jing'er immediately lost interest. "Then I'm not interested. You can sell it yourself!"

Wushang Xue scanned around with her perception and then felt terrible. She found that many Sea Swallowing Seashells were filled with the sea demons' various weapons, such as golden harpoons, golden battle suits, etc.

Of course, in addition to those sea demon weapons, there were also various ores and materials, as well as a large number of demonic stones, combat skills, etc. There were thousands of them...

"Huh!"

Wushang Xue froze for a moment and then grabbed a Sea Swallowing Seashell. As she waved her hand, a Big Red Trunk more than ten meters long appeared in her hand.

Jing'er didn't even bother to look at the materials, but when she saw the Big Red Trunk, she was stunned. "The Big Red Trunk?"

Han Fei was also stunned. Do they know this thing?

This material was not high-leveled!

As for why this section was in the Sea Swallowing Seashell, it seemed to be used to build a house and then he randomly threw a leftover piece into the Sea Swallowing Seashell.

Wushang Xue couldn't help looking at Han Fei. "Where did you get this tree?"

Han Fei couldn't help but ask, "Is there something wrong with this tree? It's just a material used to refine ultra-quality spiritual weapons. It shouldn't be too precious, right?"

Wushang Xue immediately said, "You don't understand! You don't understand the layout of the Water-Wood World. There are two royal cities here, but in fact, the other royal city is called the Blood Sea Divine Wood. The tree is the city, and the city is the tree. The layout is a little similar to our Cloud Sea Divine Tree. However, the way it grows is slightly different. The Blood Sea Divine Wood is not that big, only extending for more than 300 kilometers from the sea. However, its seed can grow this kind of Big Red Trunk. Therefore, more than 300,000 kilometers near the Blood Sea Divine Wood, it's covered with this kind of ten-thousand-year-old Big Red Trunk. There, a fish named Millennium Snapper lives. Well, it's also a cultivation holy land for fire-attribute creatures."

Han Fei's pupils were constricted, and he suddenly remembered a name: Yang Ruoyun.

Han Fei couldn't help but ask, "Then what's the use of this tree? I have a whole tree here."

“Huh?”

“A whole tree?”

Seeing that Wushang Xue and Jing'er were a little stunned, Han Fei scratched his head and said, “Actually, not entirely. I've used some parts of the tree, such as building houses or making weapons...”

“Build houses?”

For a moment, Wushang Xue just wanted to slap Han Fei to death. Ten-Thousand-Year Big Red Trunk? You f*cking used it to build houses?

Han Fei asked blankly, “Is there a problem with trees being used to build houses?”

Jing'er extended her hand and said, “Hand over the Big Red Trunk.”

Han Fei thought to himself, Wait, is there any value in the Big Red Trunk that I haven't discovered?

Immediately, Han Fei said, “Let's talk nicely. Robbery is not allowed.”

Jing'er was speechless. “It's not me, but the queen.”

Han Fei didn't notice it either. Perhaps because no one had ever robbed him, he immediately said, “Even the queen has to pay!”

Bang!

Han Fei fell to the ground with a thud.

It was not Wushang Xue and Jing'er who attacked him, but a force that appeared naturally in the void and pressed him to the ground.

“Ouch, ouch, ouch, ouch, ouch...”

Then, the queen's voice echoed in the yard, “As a body-refiner, you lack nothing more than energy baptism. I'll give you an Immeasurable Fruit in exchange for your Big Red Trunk.”

Han Fei felt no pressure on his body, so he shivered and jumped up. He looked around, but didn't see Queen Life.

However, he was shocked. The Immeasurable Fruit? The Water Immortal seemed to have told him about the Immeasurable Fruit. The universe was infinite and powerful. In the void chaos, it produced a spiritual fruit called the Immeasurable Fruit.

This was definitely good stuff!

Han Fei immediately nodded. He had really made a fortune this time!

Before, he had thought that the Big Red Trunk took up too much space and almost used all of it to build ships. If he had known this earlier, he would have dug up all the Big Red Trunk in the level-three fishery!

With a thought from Han Fei, two large trees more than 500 meters tall were carried by him side by side. He had to fly above the yard to carry them, or there wouldn't be enough space in the yard.

The void trembled, and the two pieces of the Big Red Trunk were gone.

Then, Queen Life asked, "What else?"

Han Fei chuckled and took out two small pieces, which were about 300 meters in total. He didn't know that this thing was so valuable!

If he had known that a Ten-Thousand-Year Big Red Trunk could be exchanged for an Immeasurable Fruit, he would never have used half of its branch.

The Big Red Trunk that was more than 300 meters long was swept away by the void.

Han Fei immediately patted his chest and said, "My queen, don't worry. I'll find a chance to visit the Blood Sea Divine Wood and give you a few more."

"Um! This fruit can't be used in the Law Enforcer realm. Otherwise, you will die."

After that, Queen Life fell silent.

In the void, a red-green fruit descended.

Han Fei happily grabbed it and was stunned. Isn't this f*cking a Flowerless Fruit?

"Wait."

Han Fei's pupils were constricted, and information popped up.

< Name > Immeasurable Fruit

< Introduction > Produced by Sea Establishment-level demon plants. It gathers the energy of the world and contains a wisp of Chaos Energy that contains a trace of Dao runes. It can't be eaten before you grasp the Dao runes. Otherwise, your body will explode and you will die.

< Level > None

< Quality > Ultra-Quality

< Chaos Energy > 1 wisp

< Effect > Eating it directly can increase a large amount of spiritual energy and obtain a huge amount of natural energy. It is ineffective against creatures above the king level and can be eaten repeatedly.

"Hiss!"

Han Fei took a deep breath. This thing was definitely of a high level, but it seemed that he couldn't use it now. Although the Supreme Yin-Yang Wheel seemed to have some Dao runes, it was a combat skill and had nothing to do with comprehension. Anyway, he still didn't know what Dao runes were.

Besides, what was Chaos Energy? Was it an energy one level higher than spiritual energy?

Whatever!

Han Fei felt that he had already made a fortune from this wave of gains. Although he couldn't use it now, it meant that this fruit was very advanced. Ordinary things weren't very useful to him now. He just lacked such top treasures.

However, Han Fei was slightly puzzled. Didn't they say that the Immeasurable Fruit was born from the chaos? Was the Water Immortal tricking him?

No.

The Water Immortal didn't have any reason to deceive him. Or, could he add that it was something produced by a Sea Establisher in the chaos?

There were only two Sea Establishment powerhouses in the Water-Wood World. One of them was the Cloud Sea Divine Tree, but the Cloud Sea God didn't seem to grow fruits. Then...

Han Fei's heart did a flip. Is it the fruit of Queen Life? Is Queen Life a plant?

Han Fei immediately confirmed this thought. The Water Immortal was also a plant! Who said that plants couldn't become humans?

"Oh my god."

Han Fei thought to himself. Although he didn't know the use of this Big Red Trunk, it was definitely good stuff.

If he had a chance, he would definitely dig a few more. Anyway, he had enough space in Forge the Universe now.

Chapter 1189: Debt

After the transaction with Queen Life was completed, Han Fei chuckled. "Well, Venerable Xue, do you still want to buy these resources?"

Wushang Xue said leisurely, "You're late. I've given most of my resources to Yi Yuchen. He's about to enter the Dao and needs resources."

Han Fei couldn't help but look at Jing'er, who blinked. "I stay in the Heavenly Palace every day. I don't need resources!"

Han Fei: "..."

However, he heard Wushang Xue say, "You want to transcend the tribulation, so you want to quickly settle the resources on you and exchange for something really useful, right?"

Han Fei nodded quickly. Of course! If it weren't for the tribulation, I wouldn't have sold them now! This was the Water-Wood World, and resources were wasted here. After all, they were used in other people's territory.

Wushang Xue said lightly, "Well, since this is a deal, you can ask for what you need first."

Han Fei's eyes glittered.

He immediately said, "What I want is actually very simple... For example, this Candle Dragon Blood, Destiny Holy Grass, level-three Soul Crystal, ultra-quality energy fruit, and the flesh and blood of Venerable-level sea monsters..."

"Stop..."

When Han Fei was counting, Jing'er looked at Han Fei with a complicated look. "Stop it. The queen said that the most terrifying thing about heavenly tribulations is the terrifying energy that can obliterate vitality. Therefore, it's useless for you to ask for energy fruits and Candle Dragon Blood. Leave everything here. The queen can give you ten drops of Spring of Life."

Han Fei: "???"

Wushang Xue looked at Jing'er in shock. "Are these things worth ten drops of Spring of Life?"

Han Fei wanted to ask, What the hell is the Spring of Life? Do you know how many years it took me to accumulate these resources? Only ten drops?

However, after hearing Wushang Xue's question, he immediately understood something: Queen Life, just from the title, he could tell she was related to life.

Han Fei couldn't help asking, "Jing'er! What's the effect of the Spring of Life?"

Jing'er was also a little surprised. "Effect? A drop of the Spring of Life can extend one's life for a hundred years and have the ability to revive the dead. Of course, it's only when the soul is still intact. In addition, life can repair the spiritual heritage and polish the foundation. Therefore, strictly speaking, all the materials here can only be exchanged for about five drops of the Spring of Life."

Han Fei was shocked. So awesome?

However, he was quite conflicted. It took him so many years to have accumulated so many things, but in the end, he only got ten drops of Life Water?

Seeing that Han Fei was silent, Wushang Xue said, "The queen takes you very seriously. This is a blessing for you."

Jing'er said, "Well, the queen said that each of the extra five drops can be counted as ten Dao Seeking demons. In other words, you owe the Water-Wood World 50 Dao Seeking demons... That's really a bargain! 50 Dao Seeking demons can be exchanged for five drops of Life Spring Water. If others knew this, they would probably go crazy."

Han Fei was a little dumbfounded. Am I that lucky?

However, Han Fei didn't really have anything he needed now. Weapons? He had two Sea Quelling Bizarre Treasures and an ultra-quality Divine Blood-Drinking Knife. His fishing pole was a high-quality Divine weapon, so he certainly didn't lack any.

He didn't take out the Spirit Awakening Fluid.

He still wanted to let Nine Tails and his other pets make a breakthrough as quickly as possible, especially the "lapdog".

He had plenty of spiritual spring and spiritual fruits.

However, since he had become a level-nine spiritual heritage and learned the War Body, his demand for spiritual energy and energy wasn't very strong.

However, just in case, he still had to reserve them. In the future, if he had more, he could sell them to others.

However, now that things had come to this point, how could Han Fei not exchange for it?

Han Fei thought to himself, in these Sea Swallowing Seashells, there were more than 300 low-quality Divine weapons and more than 60 mid-quality Divine weapons. All the materials added up, if he had the Hundred War Divine Hammer to refine them, he could refine about 30 mid-quality Divine weapons and more than 300 low-quality Divine weapons.

Just this part alone was an astronomical figure, which couldn't be exchanged with money at all, not to mention Han Fei's ultra-quality materials that could almost arm thousands of people.

Of course, Han Fei still chose to exchange for it without hesitation, because from the reaction of Wushang Xue and Jing'er, the value of the Spring of Life was more than all the resources he had.

When a small bottle shining with crystal-clear brilliance suddenly floated out of the void, Han Fei felt a little regretful. At least 80% of his belongings were exchanged for 10 drops of Life Spring Water. He suddenly became poor.

Han Fei immediately took the bottle. This thing is very precious! In the future, I'll use it drop by drop. I won't use it unless I have to.

He glanced at it but didn't see any information, but Han Fei didn't panic. At least it could be used as a life-saving treasure.

A moment later.

Jing'er was eating the hot pot happily, while Han Fei was counting in his heart all the resources he had left.

First of all, he hadn't taken the Heavenly Heart Pill that Old Bai gave him yet.

It was said that it could increase the success rate of transcending the tribulation by 30%. It should be good.

Secondly, he had exchanged 80 percent of his belongings for ten drops of the Spring of Life. One drop could extend his life for a hundred years, which was very precious! It was even more expensive than the Heavenly Heart Pill.

Apart from these two, Han Fei found that he only had the spiritual spring, spiritual fruit, and Spirit Awakening Fluid left.

...

In the evening.

When Han Fei returned to his residence, he was a little absent-minded. After walking a few times, he felt that he seemed to have taken the wrong path.

Confirming with the map several times, Han Fei scanned with his perception and then saw Shu Xiaoman who was cultivating.

However, at this moment, Shu Xiaoman was walking on the vines of the Cloud Sea Divine Tree. The long bow in her hand was like a butterfly, revolving around her.

Swish! Swish! Swish!

The arrow flow was extremely fast, and Han Fei couldn't help being a little surprised. "What a familiar archery technique... Huh, Shadowless Arrow Stream?"

Han Fei's eyes widened. Wasn't this Diwu Weiguang's Shadowless Arrow Stream?

Suddenly, Han Fei's body stiffened, and he had an extremely bold guess in his heart. Diwu Weiguang was very handsome, almost of the same level as Zhang Xuanyu! Could it be... that guy is from the Water-Wood World?

If Diwu Weiguang was from the Water-Wood World, when did they go there?

Han Fei's heart skipped a beat. Yes! The Leafless Tree was guarding the gate, and the Leafless Tree was a demon plant from the Water-Wood World. Originally, Queen Life was his queen.

Then, wouldn't it be very simple for the Water-Wood World to arrange for someone to go to the Yin-Yang World? Why did he feel that the Water-Wood World and the Yin-Yang World had always been separated?

With a thought, Han Fei summoned the longbow in his hand.

Swish! Swish! Swish!

The War Soul Art was also a bow technique. Although it was not as good as the archeries in the Water-Wood World, it was definitely not weak. However, it was not so fast. At this moment, when it was used by Han Fei, it immediately made Little Tree vigilant.

"Who?"

Swish! Swish! Swish!

In Han Fei's perception, Shu Xiaoman was shooting arrows extremely quickly, the arrows had almost turned into a line and her hand even had afterimages.

Unfortunately, Shu Xiaoman's strength was much weaker than Diwu Weiguang's. She was weaker in the strength of every arrow she shot.

In Han Fei's opinion, Shu Xiaoman couldn't be ranked on the Genius List of the Thousand Star City. However, even if she couldn't, she was probably within the top hundred.

After he broke the War Soul Art, Shu Xiaoman looked at Han Fei in surprise and couldn't help but ask in surprise, "Do you know archery?"

Han Fei said indifferently, "As a soul warrior, isn't it natural for me to know archery? However, what kind of bow technique is this? It does look powerful."

Shu Xiaomang said, "This is one of the ultimate bow techniques of our Water-Wood Heavenly, called Shadowless Arrow Stream. In fact, the arrows you shot just now were very powerful, but they were too slow."

When Han Fei heard it, he immediately narrowed his eyes. "Sure enough, Diwu Weiguang, he's from the Water-Wood World."

Then he thought about the Sea Cloud Tower, which ranked last among the seven major academies in the Thousand Star City...

Sea Cloud Tower, Cloud Sea Divine Tree?

Han Fei immediately narrowed his eyes. It turned out that the people from the Water-Wood World had already infiltrated the Yin-Yang World? And they even became one of the seven major academies?

No wonder the Sea Cloud Tower had always been low-key. It was probably not that they wanted to keep a low profile, but that they didn't fit in with the people from the Yin-Yang World.

However, did Old Han and the others know that the Sea Cloud Tower had repeatedly helped him and the Thug Academy?

Whether they knew it or not, he had to be careful and not trust them too much.

"Han Fei, Han Fei..."

Hearing that, Han Fei came back to his senses. "Oh... You are fast, but you can't crush my arrows that are slow."

Shu Xiaoman was taken aback for a moment and said in confusion, "Because you are strong!"

Han Fei smiled. "So, what's the use of only practicing speed? If your current strength is stronger, your overall strength will definitely increase by 30%. But even if your speed is doubled, it's still not very useful against body refiners."

This was just like the Ye family in the Thousand Star City. They had the Heavenly Void Divine Movement, so their speed was unparalleled. However, their real combat power was really worrying.

Hearing Han Fei's words, Shu Xiaomang trembled slightly. "What I lack is power?"

Han Fei curled his lips. "What you lack is energy, and the physique, with which you can burst out with stronger energy. In essence, your physique is too weak."

Seeing that Shu Xiaomang was stunned, Han Fei thought to himself, This girl has been with me for at least a day. She's quite dedicated.

Therefore, Han Fei reminded her, "If you can't get started with body refining now, try to find spiritual fruits that can change your physique. Although they can't double your physique, it shouldn't be a problem to increase it by 20% or 30%... Think about it. I'm going to bed..."

Chapter 1190: Dark War Port

The next day, when Han Fei got up, he found that Shu Xiaoman was sitting on a leaf not far from his house.

Seeing that Han Fei had woken up, Shu Xiaoman pulled a long vine and landed in front of Han Fei agilely.

Han Fei asked in confusion, "Huh? Haven't you understood what I told you?"

Shu Xiaomang said seriously, "I know what you mean. However, there's no rush. I'll cultivate to the peak of the law enforcer realm until I'm powerless. Then, I'll transcend the tribulation."

Han Fei shrugged and said, "If you don't temper your body, I'm afraid it won't be easy for you to transcend that tribulation."

Shu Xiaoman asked curiously, "Did you sell all the treasures you got to Venerable Xue yesterday?"

Han Fei was stunned for a moment. Didn't I sell it to Queen Life?

However, Han Fei thought that it sounded a bit embarrassing for a king to make deals with him. Therefore, Wushang Xue played the role of the buyer.

However, Han Fei asked in confusion, "How do you know that?"

Shu Xiaomang said, "The news has been spread. Venerable Xue said that the Flying Feather Command has obtained a large amount of resources and is going to set up a large trade fair in the Flying Feather Command. When the time comes, all the creatures of the various families in the Cloud Sea Divine Tree will come."

Han Fei raised his eyebrows. "But my things are not enough to sell to so many people! At most, they are enough for thousands of people. Why will all the creatures in the Cloud Sea Divine Tree come?"

Shu Xiaoman's eyes widened, and the corner of her mouth twitched. "You sold things that could be sold to thousands of people alone?"

Han Fei said, "Uh! Just barely..."

After only one day, Shu Xiaoman had learned that Han Fei was definitely rich.

He had never missed a single penny from the Ice Domain to the Fiery Sea. Even in combat, he didn't forget to collect the corpses.

However, Shu Xiaomang didn't expect Han Fei to be so rich! The resources of one person were enough for thousands of people. This was too unbelievable!

Shu Xiaomang reminded him, "I'm here to remind you that you won't want to go to the large fair. When the time comes, thousands of creatures will fill up the thousand-mile radius of the Flying Feather Command. In addition, Messenger Jing said that you need to go to the Fearless Barrier yourself, so she won't wait for you."

Han Fei couldn't help but ask, "Has she already been there?"

Shu Xiaoman shook her head. "I don't know. I think she must have gone there."

Han Fei asked, "What about Venerable Xue?"

Shu Xiaoman continued shaking her head. "How can I know what the Venerables are doing? So, are you going to the Dark War Port today? If you want, I can go with you."

Although Han Fei still wanted to see what the large fair was like...

However, no matter how much he wanted, he had no money left! Except for the necessary resources, he had almost bankrupted himself overnight.

On the second day after he came to the Water-Wood World, everything went surprisingly smoothly.

It could be said that on this day, Queen Life had contacted him almost three times. He didn't know why.

Now, Han Fei only had a few treasures left. Except for those, he almost had no properties left. However, this also made Han Fei realize a problem: the good treasures in this world were far more advanced than he imagined.

Once upon a time, an intermediate Divine Weapon was a life-threatening weapon. When he broke into the Demon Forest Channel, a few mid-quality Divine Weapons scared the other party away, but the era was over.

Han Fei didn't even know what was good and bad anymore.

The worthless Big Red Trunk was exchanged for a top spiritual fruit, the Immeasurable Fruit.

Ten drops of Spring of Life, in exchange for his bankruptcy, and he still owed the other party 50 heads of Dao-Seeking realm sea demons.

Han Fei immediately made up his mind. "Let's go to the Dark War Port!"

...

The Dark War Port was the most chaotic battlefield in the Water-Wood World.

Its main composition was the Sea Grassland. It was said that a thick layer of seaweed stretched out for more than 200,000 kilometers.

Han Fei stood at the eastmost end of the Cloud Sea Divine Tree, looking into the distance at the huge sun floating in the sky.

However, the spiritual energy here was unstable, and demonic energy was spreading.

Han Fei immediately narrowed his eyes. "Shu Xiaoman, go back. I'll go there by myself."

"You can go to the Fearless Barrier yourself. I'm going to the guardian alliance."

Han Fei: "Huh?"

"Follow me."

After another teleportation array, Han Fei and Shu Xiaoman came to a Seaborne Prairie.

Han Fei scanned with his perception and found that there were many thick roots at the bottom of the sea. Some of the roots even surfaced.

Under the Seaborne Prairie, everything was dark.

Human beings, the Sky Clan, the Insect Clan, and the Tree Demons were scattered everywhere.

There were various big seagull-like birds flying in the air. Occasionally, a big bird would stand on the thick seaweeds on the surface of the sea and hunt. Then, they would continue to fly out of the sea.

Some insects were digging in the pits at the bottom of the sea. These insects that were digging nearby were not strong, and most of them were not at the level of Hidden Fishers.

In Han Fei's perception, there were very few humans within a thousand kilometers, only a few hundred. This meant that human beings should be thousands of miles out in the ocean.

Even the Tree Demons were moving forward slowly. Although they weren't fast, the scene was quite impressive. It was like a forest moving underwater.

Shu Xiaoman: "Go forward. The Guardian Alliance is composed of four races. Normally, most of them will stay here. Today, something is wrong."

The two of them flew for about 5,000 kilometers, and Han Fei had already perceived a large number of creatures of various races, who seemed to be in an intense battle.

Swish! Swish! Swish!

Countless people shot out with their bows, and the arrows exploded in the water.

Sea gulls and hawks flew across the water from time to time, grabbing a big fish or squid and tearing them apart.

Compared to humans and the Sky Clan, the fighting style of the Insect Clan was quite unreasonable.

The dense swarm of insects were all at the level of Hidden Fishers. Wherever they went, nothing grew.

At this moment, it seemed to be the beginning of a round of war.

When Han Fei and Shu Xiaomang arrived, they saw that a large number of sea demons were retreating, and only a few were still struggling at the bottom of the sea. However, their fate was obvious. They would either be dragged away and eaten by the Insect Clan or captured and eaten by the Sky Clan.

Shu Xiaoman said, "The Sea Clan is not stupid. In the Guardian Alliance, the defense line of the Insect Clan and the Tree Demons are the most difficult to break through. Therefore, those who cross the Fearless Barrier need to accumulate enough numbers to launch a big fish tide before they charge."

At this moment, someone shouted in front of them, "Assemble! Sea Spirit creatures can already cross the Fearless Barrier and pass through the dark waters. It means that something is wrong ahead. Everyone, gather quickly."

"Tweet ~"

Just as that person shouted, a falcon flew back from afar and shouted, "In the Fearless Barrier, a large-scale Explorer-level battle is about to break out. The rear line, prepare."

A single-horned bug shouted, "The Spiked Beetles, stay in the front row; the Razor Centipede, walk from the bottom of the sea. The other insects, eat..."

The sky was densely packed with the Sky Clan.

A human cultivator shouted, "Get ready. We'll take care of the upper waters. We can't let any Sea Spirit creatures pass."

Han Fei perceived that the branches of the slowly-moving Tree Demons had already begun to grow frantically. Behind the battlefield, they almost formed a wall.

In other words, even if the human beings, the Insect Clan, and the Sky Clan ahead of them were defeated, there were still the Tree Demons.

Han Fei didn't expect a large-scale battle to break out on the second day he came to the Water-Wood World. This seemed to be related to him too.

Han Fei wondered if he should participate in this battle.

Someone suddenly shouted, "Han Fei, here."

Han Fei looked at the source of the sound and saw a group of people he didn't know. Most of them were wearing blue clothes and didn't seem to be from the Flying Feather Division.

Shu Xiaoman: "They're from the Blue Smoke Division. They're good at creating illusions and have extremely strong spiritual power. Let's go over. I don't see anyone from the Flying Feather Division. They shouldn't be here."

As soon as Han Fei and Shu Xiaomang landed, countless people looked at them. The person who shouted just now looked at Han Fei with a smile. "Sure enough, seeing is better than hearing. Just now, I recognized Brother Han at a glance, haha..."

Han Fei's face turned black. How did he recognize me?

Han Fei twisted his head and looked ahead. "What's the situation now?"

Someone said, "This is mainly because you killed too many sea demons yesterday. Your identity as a candidate for the King's Attendant was exposed too, and you said that you were going to transcend the tribulation. Therefore, from today on, the Sea Clan has responded by charging twice."

Someone interjected, "It's said that some heavenly talents from the royal city have been deployed. A battle has already begun on the fearless battlefield."

Han Fei's pupils were constricted. "Because of me?"

Han Fei was speechless. Just because he was about to transcend the tribulation, the sea clan directly launched a war?

Someone from the Blue Smoke Division smiled and said, "It doesn't matter if it's you or not... As long as someone transcends a tribulation, there will be war. Especially for those who choose to transcend a tribulation in the Dark War Port, the Sea Clan will treat them more seriously."

Han Fei said solemnly, "Should I go to the Fearless Barrier first?"

Shu Xiaoman: "The Fearless Barrier is still far away."

Someone from the Blue Smoke Division said, "You'd better wait for a while. The Seaborne Prairie between the Fearless Barrier and the Guardian Alliance is also called the Dark Waters. There's no telling how many sea demons are hiding there. If you go there now, there will be a lot of sea demons blocking you along the way."

Han Fei smiled contemptuously. "It doesn't matter. I've killed more than a hundred Sea Spirits anyway. Why should I care about killing more?"

Everyone : "..."

A falcon flew over. "Wow, this is Han Fei! Han Fei, do you need me to give you a ride?"

Han Fei laughed. "No. I won't participate in the battles in the rear. You can fight however you want. I'm going to transcend the tribulation."

Then, ignoring the shouts of Shu Xiaoman and the others, Han Fei swished away and disappeared from their sight like a flash of light.

Someone from the Blue Smoke Division sighed. "The strong are indeed strong. He chose to cross the Dark Waters with no hesitation because no one can defeat him."

Shu Xiaoman shook her head. "Yes, after reaching a certain level of strength, the number of enemies is meaningless. Even all the Sea Spirit-level creatures in the Dark Waters are no match for Han Fei."
