Chapter 1261: Twin Divine Technique

The big octopus certainly saw Han Fei, but in its eyes, Han Fei was only a peak-level Sea Spirit, which it could easily suck to death.

Similarly, Han Fei didn't panic at all at this moment. Without the suppression of the extremely cold power, he had unlocked all his means. Even if this big octopus was powerful, so what?

He had the old turtle, Yu Wendao, and himself. If he exerted some strength, it would be equivalent to three Half-Venerables. How could he not be able to kill an octopus?

Little Black and Little White made breakthroughs very quickly. When the octopus approached, Han Fei had already heard the crisp sound of a breakthrough.

After that, Little Black and Little White finally entered the Sea Spirit Realm.

However, what surprised Han Fei was why they didn't enforce any law. Did spiritual beasts not need to enforce laws?

However, Han Fei didn't check Little White and Little Black's situation after their breakthrough. The big octopus had already come.

Information popped up in Han Fei's eyes.

< Name > Void Body White Octopus

< Introduction > A special creature that's in between reality and illusion. It can fall into the dark void at any time, and space has no effect on it. It's good at stealth and attacking from the void. One blow to the soul and two blows to the body. It's very difficult to deal with. It's good at cutting its limb to resurrect and its escape speed is extremely fast.

< Level > 77

< Enforcing law > Void Tentacle, Void Eye

< Quality > Legend

< Contained Spiritual Energy > 97,5689 points

< Edible Effect > Swallowing it has a certain chance of understanding the secret law of space.

< Collectable > None

<Absorbable>

Han Fei took a look and immediately realized that although this big octopus didn't seem to be weak, it was still much weaker than the Triple-Blazing Cold Shrimp.

"The void?"

Han Fei couldn't help but smile. The Heavenly Void Divine Movement was refined in such an environment. You want to play that with me?

Without needing the old turtle and Yu Wendao at all, Han Fei stepped into the illusion, clenched his fist, and launched the Sacrificing Punch.

The big octopus was shocked by Han Fei's action. It thought to itself, Half of my body is in the void. Why are you here?

Looking at Han Fei's terrifying punch, as a creature with three hearts and nine brains, it had figured out how strong this enemy was.

The Void Body White Octopus chose to escape immediately.

Han Fei sneered. "How can I let you run away?"

Shua!

In the void, as soon as the big octopus's two tentacles entered the void rift, it felt a life-and-death crisis. The octopus turned its head and shot out a white light at Han Fei.

Han Fei frowned. Do all octopus have laser eyes?

However, this wasn't a special environment, so Han Fei dodged it with Star Teleportation. He didn't even need to use Star Teleportation. Although he had become an Explorer and the Phantom Glass Wings, as a transition weapon, wouldn't grow anymore, he could still easily avoid this light with Infinite Flash.

In his memory, the Hydra Grass's laser beam was really powerful. It was like infrared beams, blasting everywhere.

Without giving the Void Body White Octopus a chance to continue to attack, Han Fei appeared beside it, grabbed one of its tentacles with one hand, and released all Void Lines.

Bang! Bang!

When he grabbed the big octopus, he saw the two tentacles that went deep into the space crack break. Immediately, Han Fei felt that the big octopus lost 30% of its vitality.

The old turtle said, "Some of its body has run away."

Han Fei was lost for words. This octopus was a gecko, wasn't it? Gecko breaks its tail to escape, so does it. However, This octopus broke its body!

Of course, one-third of the octopus had run away, and there were still two hearts and seven brains left.

The creatures living below the Ice God Canyon couldn't be weak in soul. Not to mention that this Void Body White Octopus was a legend creature at level 77, which was equivalent to an advanced Dao Seeking realm sea demon.

It was not that Han Fei couldn't control it, but that it had so many brains, which Han Fei found very difficult to control.

Swish!

Suddenly, he saw a white figure appear. It was none other than Little White.

In fact, Little White wasn't the only one who came. Little Black also came. However, Little Black was so dark now that Han Fei didn't notice it. When Han Fei took a closer look, Little Black had already bitten one of the tentacles of the Void Body White Octopus.

Little White seemed to have gained new abilities too. She opened its mouth and spewed out white gas, which made the big octopus stiffen.

However, the effect made Han Fei speechless. Little Black was gritting his teeth against the tentacle, but he couldn't bite them and could only make ear-piercing gnawing sounds.

Little White was trying to freeze the big octopus. Han Fei felt cold, so did the octopus, but the force was not strong enough! It was much weaker than the real power of the ice sand.

Han Fei was speechless. "Girl, are you still not good at using it?"

"Heh!"

The old turtle said, "It did eat a spiritual treasure of the world. Don't you also have a Sea Quelling Bizarre Treasure? Can you fully use it?"

Han Fei: "..."

Han Fei was speechless. So that was the reason. It was not that the ice sand was weak, but that the power that Little White could exert was too weak.

Han Fei was speechless and summoned Little Fatty.

However, as soon as Little Fatty came out, its body began to freeze, and it hurriedly shouted, "I'm going back, I'm going back..."

Perhaps for Little Black and Little White, they were special, so the freezing power had no effect on them at all. Even the source of the freezing power had been swallowed by Little White.

But Little Fatty was still very weak, not even level-50 yet.

Han Fei ignited the spiritual fire with a swish and wrapped Little Fatty with it. "Your compatriot is here. Suck some blood."

Little Fatty couldn't perceive the strength of a high-level Dao Seeking creature. Seeing that there was a strong master of the same race, he immediately approached the octopus.

Little Fatty had begun to tremble all over but was still unable to suck out a single drop of blood.

Little Fatty said, "Master, can you cut it open?"

Han Fei curled his lips. "Now you call me Master?"

The Infinity Water turned into a knife and cut crazily, and the fate of this Void Body White Octopus was already decided. Little Fatty sucked to its heart's content. When the first drop of essence blood was absorbed by him, he said, "I'm going to make a breakthrough."

Han Fei knew that it was only natural for him to make a breakthrough. He had been stuck for a long time.

Only then did Han Fei have the time to read Little Black and Little White's information.

Information popped up in his eyes.

< Name > Twin Yin-Yang Spirit Swallowing Fish

< Introduction > This is the descendant of the mysterious ancient Yin-Yang Sky-Swallowing Fish. The black and white fish accompany each other. The white fish is docile, whereas the black one is cruel. They are symbiotic. As long as one lives, the other lives.

< Level > 61

< Quality > Mysterious

< Spiritual Energy > 100 million points (Evolving)

< Food > Omnivorous. It can swallow anything.

< Battle Technique > Supreme Yin-Yang Wheel, Spirit Swallowing Body, Combination, Twin Divine Technique

< Remarks > The black fish is invisible. Except for the owner, only people with naturally-born Yin-Yang Divine Eyes can see it. After the two fish fuse, its combat power will increase greatly, comparable to a Divine Weapon.

< Soul Power > 6,506 points

This time, Han Fei was a little stunned. They had just broken through to the Sea Spirit level, but their spiritual energy had skyrocketed 100 million with a swish?

Furthermore, during this breakthrough, Little Black and Little White directly surpassed level 60. It seemed that their realm had quickly stabilized. Could it be that their accumulated base was solid enough?

Of course, in any case, Little Black and Little White had definitely become a lot stronger. Which creature could make a high-level Dao Seeking creature stiffen when she had just entered the Sea Spirit Realm? And which creature dared to bite the tentacles of a high-level Dao Seeking creature crazily? Even if he couldn't bite through them, he still gnawed on them and left teeth marks on them.

Not only that, Han Fei also discovered that Little Black and Little White had a new technique. Twin Divine Technique? The technique of the Spirit Swallowing Body was almost a passive technique, and he rarely used the combination technique.

At this moment, a new technique popped up. Could it be that every time Little Black and Little White advanced a major realm, a new technique would appear?

Han Fei thought to himself, Anyway, there is no one around. I can try the new technique, right?

Then, Han Fei had stabbed the big octopus with Snowmourn a dozen times. Making sure it couldn't have been more dead, he summoned Yu Wendao and ordered, "Kill all intruders!"

The old turtle couldn't help but ask, "What are you doing?"

Han Fei said, "Twin Divine Technique."

Since there was no one around, he might as well give it a try first.

Just as Han Fei was about to fight a big battle and be prepared to control the field at any time, with a thump, Little Black and Little White suddenly became black smoke and white smoke, and the two masses of smoke entangled each other.

"Huh?"

Han Fei was stunned. What was going on? The so-called divine technique turned into two plumes of smoke?

The corners of Han Fei's mouth twitched, and he was at a loss for what to do. However, the black and white smoke that Little Black and Little White turned into pounced at the big octopus.

Han Fei was horrified when he saw the octopus wither at a visible speed.

The black smoke wrapped the tentacles. Little Black couldn't bite through the tentacles just now, but now he was biting them very fast. Han Fei perceived that Little Black wasn't biting but corroding them.

As for Little White, she was even more powerful. She directly swallowed the octopus' soul. According to Han Fei's experience, the soul of this big octopus should have dispersed, but a part of it was still dragged out and swallowed by Little White.

Little Fatty screamed, "Mine, this is mine."

Han Fei immediately shouted, "Stop!"

The old turtle was also a little horrified. "Is this the inherited great technique they awakened? They've already entered the Dao? That's impossible. How can it be... Hiss..."

Suddenly, the old turtle came to a stop, as if it had thought of something.

Han Fei was also stunned for a moment. Seeing Little Black and Little White who had turned back into two fish, he was a little puzzled. "Old Yuan, what's going on?"

After a long silence, the old turtle said slowly, "Are... Are these two fish really born with a Dao Body?"

Chapter 1262: The Scary Power of the Divine Technique (Part I)

Seeing the old turtle's shocked look, Han Fei couldn't help but touch his head and ask, "What do you mean by Innate Dao Body? Do you mean born with Dao runes?"

Although Han Fei was very excellent, he didn't know any of these secrets.

The old turtle suddenly roared, "What do you know? I should've thought of that sooner. Few people can see your little black fish. Little white fish seems only to be able to absorb spiritual energy, but it can produce the essence..."

Han Fei interrupted him, "Okay, okay. I know my son and daughter very well. I don't need you to brag about them. Just tell me, what's that so-called Innate Dao Body? Is it very strong?"

The old turtle said gloomily, "The Innate Dao Body means that from the moment they were born, they were nurtured by the heavens and the earth. They might be nurtured in chaos, or in the rules of the Great Dao, or they might be produced by absorbing the essence of the Dao runes all year round... In short, they have entered the Dao from birth. In this world, there is a unique Great Dao waiting for them to walk."

"A unique Great Dao?"

The old turtle chuckled. "Yes, you heard it right. It's a unique Great Dao. This is the power of the Innate Dao Body. The only ones who can compare to them are the Innate Dao Seed, the ancient Dao Seed, and the Great Dao that no one has walked but if you walk, you can walk far on."

The old turtle said enviously, "I can tell you that as long as such a creature doesn't die, he will definitely become a king."

Han Fei couldn't help but smile. "Old Yuan, don't brag! There are less than five people who I've seen and heard become a king in my life. There are billions of creatures in these two waters. When did it become so easy to be a king?"

The old turtle smiled contemptuously. "Vision decides everything. Your vision is too small, so it's destined that your vision is not large. You have to walk out of this world and take a look. You should know the billions of lives in this vast sea, and there are countless strong masters."

Han Fei quickly interrupted him, "Stop, stop... I understand. You mean that Little Black and Little White have entered the Dao when they were born. Or can it be said that their growth has always been according to their own Dao?"

The old turtle nodded. "Yes."

Gulp!

Han Fei swallowed. Awesome, that's really awesome!

Han Fei even suspected that he got Little Black and Little White because of the calabash.

However, in any case, the Innate Dao Body was very strong!

Han Fei looked at Little Fatty who was still absorbing the essence blood, then at Little Black, Little White, and then at their information. He couldn't help but mutter, "Are fusion combat skills really useless?"

Han Fei was a little puzzled. What if he used the Twin Divine Technique after he fused with Little White and Little Black?

With this in mind, Han Fei grew interested and shouted, "Fuse."

When Han Fei, Little Black, and Little White fused into a big fish, Han Fei shouted again, "Twin Divine Technique."

Buzz!

Han Fei felt that his head went blank in an instant, and the excruciating pain made him come back to himself.

When Han Fei came back to his senses, he saw himself again. Although it was not the first time he had experienced this feeling, he still felt a little strange.

At this moment, Han Fei was certain of one thing: it was not that the fusion was useless, but that he hadn't unlocked the following combat skills of Little Black and Little White.

At this moment, Han Fei found that half of him had turned into black fog, and the other half turned into white fog.

At this moment, he discovered that the black mist was not a real black mist, but an inexplicable matter that made him want to eat something.

When Han Fei charged at the octopus's body, Little Fatty shouted again, "This is mine! Mine!"

Han Fei wanted to speak, but only his spiritual power trembled in the water. "Your level is low. You can only swallow one tentacle at most. Why are you panicking?"

When Han Fei grabbed a tentacle, his perception changed at this moment. The black fog seemed to be activated, and Han Fei felt as if he had been split into thousands of parts, as if he were a whole, and that his whole body was full of sharp teeth.

And he, who had turned into white mist, felt very cool and sensitive to the soul. In the white mist's perception, Han Fei found that there were at least three souls around, which meant that there were at least three creatures nearby.

In short, this feeling was very strange. In any case, the octopus tentacles were disappearing at a visible speed.

What the hell am I? Why is it called a 'divine' technique? It's even unable to transform me!

As soon as Han Fei had this idea, the two bodies that were mist began to deform, and in the blink of an eye, they became two people.

"Huh?"

Han Fei looked at himself in shock.

Looking in Little Black's body, he had turned into a humanoid Han Fei, who was a junior Explorer.

From Little White's point of view, he was black. His face couldn't be seen and his eyes were black. From top to bottom, no decorations could be seen. He was purely black, the kind of black that could even swallow light.

"Huh... Two of me?"

The normal Han Fei and the black Han Fei gasped in shock, making the same movement.

According to Han Fei's experience, although his soul was the same, it was essentially cut apart. Since it was cut apart, he could use different souls to do different things.

Thinking of this, the two Han Fei looked at each other. "Avatars?"

Suddenly, the old turtle's voice sounded, "It's not an avatar, or you wouldn't have split your soul into two. I feel that your soul hasn't changed. In my opinion, your soul is still one because the little black fish and the little white fish are one."

The normal Han Fei said, "Not avatars? Then why do I feel a difference in strength... Uh... Let me experience it."

The two Han Fei clenched their fists, the seawater trembled, and their strength erupted.

Han Fei's eyelids twitched. "It's a little weak. By logic, my current strength has reached more than 200 waves, but I feel we two only have the strength of about 150 waves."

The old turtle said, "Of course. Although your soul is still one, it's still separately used. Therefore, the comprehensive power of a single body will inevitably decline."

Han Fei couldn't wait to read it in his head.

As he expected, both of them could see the information of the Demon Purification Pot.

Information popped up in his eyes.

Owner: Han Fei

Level: 70 (Junior Explorer)

Spiritual Energy: 98,654 / 98,654

Spiritual Power: 13,568 / 13,568

Perception range: 1,000 miles

Enforcing Law: Invincible Vajra

Strength: (Little White) 148 waves, (Little Black) 156 waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unawakened

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level 61)

Second spiritual beast: Unawakened

Main Art: Sky Stealing Technique, level six of Void Fishing (Venerable Level, Divine Quality)

...

Han Fei discovered, to his shock, that what he saw were two sets of templates. Regarding the different bodies of Little Black and Little White, there was only a slight difference in the power of the two templates. Little Black seemed to be born a little stronger than Little White in strength.

This made Han Fei excited again. If there were two independent templates, did it mean that he could use different templates for different cultivation? Then what was the difference between this and avatars?

Besides, although he had become two of himself, neither of them seemed weak. Although they were weaker than his original body, Han Fei knew very well that Little Black and Little White were only level-61 now.

What if Little Black and Little White reached the Dao Seeking realm?

Han Fei's breathing became rapid. It meant that when he used the Twin Divine Technique again, his combat power would be at least twice that of his original body.

Oh, no! The combat power couldn't be calculated with numbers alone. The destructive power and threat produced by two original bodies might be completely different from that of one original body.

For example, he could play the trick of making a feint somewhere and attacking in another place with his enemies.

Another thought occurred to Han Fei. What if he hid in Forge the Universe?

Shua!

The normal Han Fei appeared in Forge the Universe, and the black Han Fei was still outside.

The black Han Fei was stroking his chin, trying to find if there was an entrance to Forge the Universe. This was the first time he had encountered such a situation. Half of him was hiding, and the other half was still outside.

Seeing this, the old turtle couldn't help but mutter, "I really don't know if you are lucky or if you really have the favor of the Great Dao. Although this technique is not an avatar technique, I'm afraid it's not much worse than any avatar technique."

Han Fei said, "I think this is just my avatars."

The old turtle said, "Don't jump to conclusions. Try fighting Yu Wendao without using spiritual energy."

Han Fei thought to himself, That's true. Immediately, the two of him activated Devil Change at the same time but didn't use the Overlord's Technique. It was mainly because Han Fei wanted to see if he could maintain the existence of the two bodies by himself.

Yu Wendao was a Half-Venerable after all, and Han Fei ordered him to only defend against attacks.

Immediately, a battle broke out under the Ice God Canyon. Yu Wendao defended and the two Han Fei attacked.

A hundred seconds later, Han Fei ran out of spiritual energy, so he grabbed spiritual energy from the void with the power of an Explorer.

After half an hour, Han Fei felt a little tired, not physically but mentally.

Then, he found that he had consumed more than half of his spiritual power.

Another half an hour later, when Han Fei's last trace of spiritual power was consumed, the two bodies finally couldn't hold on anymore and shattered into mist again.

Then, Han Fei separated from Little Black and Little White.

Not only did Han Fei feel that his mental state was extremely poor, but he also felt that Little Black and Little White's mental state was poor.

Han Fei took out seven or eight spiritual fruits, threw a few to Little Black, and ate a few for himself, before he immediately put away Little Black and Little White.

Little Fatty, on the other hand, had been staring at him for a long time. Han Fei didn't know what was on his mind, but Han Fei guessed that he didn't understand what was going on here.

The old turtle said, "As I expected, although this technique is not an avatar technique, it may be stronger than avatar techniques. At least the avatar still needs to be cultivated. You don't even need to cultivate but can share your spiritual senses with your clones.. Even I envy you."

Chapter 1263: The Scary Power of the Divine Technique (Part II)

Han Fei's head was swelling. The old turtle was right. This was not an avatar technique.

However, Han Fei still had a lot of things to test...

Now, he was only certain that in a battle, the two of him could exist for half an hour. However, what if it was not a battle but cultivation?

Han Fei felt that there was still a great space for research.

In addition to cultivation, if one of him died, would that part of the soul be crushed? Or would it be like Little Black and Little White? As long as one of them didn't die, the other would resurrect?

Of course, it was not easy to test it out.

Han Fei didn't think he would die. After all, his other half was still alive.

However, he didn't know what would happen if his soul was caught. For example, something like his Void Lines, possession, or other means of capturing souls.

He would rather believe it than not. He might as well try it later!

At this moment, Little Fatty was crazily absorbing the octopus' essence blood.

Han Fei's spiritual power was exhausted now. He quickly took out the God Scaring Painting and visualized it.

In the years in the Wind Rain Village, Han Fei basically did nothing except practicing the God Scaring Painting.

And his perception range was also soaring. Up to now, his perception range had reached an astonishing 1,900 miles.

Han Fei didn't know the range very well.

Logically speaking, an Explorer's perception range should be a thousand miles or so, right?

When he killed an intermediate Dao Seeking great demon in the Ice Domain, the other party's perception range seemed to be more than 800 miles. Han Fei was very sure that it was definitely less than 1,000 miles.

Furthermore, the biggest difference between him and other powerhouses of the same realm was that he had grown too fast. As for those ordinary explorers, it might have taken them hundreds or even thousands of years to become explorers.

But how long did it take him? Twenty-five years?

Han Fei certainly knew that the strength of the soul could be increased through visualization. Therefore, even in the same realm, there was no specific range. As for how strong one's soul was, probably no one except him himself would know.

Han Fei had already memorized half of the God Scaring Painting. At this moment, a big spear had already been revealed.

Yes, it was a spear.

Han Fei had once checked it carefully and found that as for the spear in the God Scaring Painting, its edges were as thin as a cicada's wing, and its tip was golden and murderous.

When Han Fei first saw this sharp tip, he felt that it was so bright that it seemed to be able to penetrate the painting.

Now it seemed that it was simply an embodiment of extreme sharpness.

He retracted his consciousness.

Han Fei glanced at Forge the Universe. He didn't have many Soul Crystals now. After all, Soul Crystals were of little use to him. At this moment, he didn't need Soul Crystals to cultivate his mental strength.

Of course, if it was an extremely powerful soul crystal, it should be useful. However, he hadn't encountered such a thing yet. No matter in Yu Wendao or Gui Sanqing's Sun-Moon Shell, there was no such a thing. It could be seen that the improvement of the soul was getting more and more difficult.

Just now, Han Fei visualized the God Scaring Painting not to continue to increase his soul power, but to restore his soul.

Of course, he could also absorb and refine the ownerless souls that he had drained in the Thousand Mountain Ancient Realm.

Six hours later.

Han Fei took a long breath and slowly opened his eyes, looking helpless. More than a thousand ownerless souls added up to only 2,000 points, and his perception range was increased by less than one tenth.

The old turtle said, "In fact, I told you before that if you really want to cultivate your soul, you should keep absorbing other people's vitality. The speed of your improvement will be amazing."

Han Fei curled his lips. "I'm already amazed at my speed of improvement. You don't have to teach me."

Han Fei thought to himself, Don't be assimilated by the old turtle's thoughts! In the old turtle's world, snatching people's vitality was a matter of course despite reason or race, but Han Fei can't do that.

If it weren't for the fact that he had a lot of secrets, was talented, had great luck, and had strong means, Han Fei felt that the old turtle must have ignored him.

Han Fei said, "Don't disturb me. I'll make a small breakthrough by the way!"

A large amount of spiritual energy flowed out, and millions of points of spiritual energy surrounded Han Fei.

"Huff!"

Under the absorption technique, spiritual energy poured in and cleansed his body. After about half an hour, with a click, Han Fei made a breakthrough.

He opened his eyes and read the information.

Owner: Han Fei

Level: 71 (Junior Explorer)

Spiritual Energy: 130,000 / 130,000

Spiritual Power: 12,348 / 22,066

Perception range: 1,912 kilometers

Enforcing Law: Invincible Vajra

Strength: 216 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unawakened

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level 61)

Second spiritual beast: Unawakened

Main Art: Sky Stealing Technique, level six of Void Fishing (Venerable Level, Divine Quality)

...

Looking at his data, Han Fei was quite gratified. This was his growth during this period of time. He had been suppressing his strength for four years, but in just a few days in the Water-Wood World, his strength had more than tripled.

Although the old turtle kept giving him advice, Han Fei knew very clearly that his own growth speed was not slow at all.

It could even be said that his cultivation speed was extremely fast. In the current Yin-Yang World, there was probably no one who could cultivate faster than him.

The Yin-Yang World was like this, so was the Water-Wood World.

Even if it was the Insect race, the Queen Insects could at most produce law enforcers with soldier explosions, right? It was impossible for them to bypass the tribulation and directly become Explorers.

In fact, many Queen Insects would not directly cultivate a law enforcer because they would have to give him the law enforcing ability, which would undoubtedly limit their development potential.

But if the insect fought all the way up, their law enforcement abilities would be various. This would be beneficial to the reasonable development of the insect race, and only in this way would this race become stronger and stronger.

When Han Fei rose, no creatures came here.

After all, even if they were in the Dao Seeking realm, the death of the Triple-Blazing Cold Shrimp and the Void Body White Octopus was enough to warn the creatures that hadn't appeared yet.

Little Fatty seemed to be in the middle of a breakthrough. With a thought, Han Fei threw tens of thousands of catties of Spirit Awakening Fluid over.

When less than 20,000 catties of Spirit Awakening Fluid was swallowed, Little Fatty had already completed the breakthrough. However, this was only a breakthrough in the Sea Demon Realm, so it was not rather difficult.

When Han Fei was in this realm, he had broken through five or six levels with the help of Spirit Awakening Fluid.

Therefore, Han Fei was going to use the same trick again. Of course, he wouldn't feed Little Fatty the Spirit Awakening Fluid immediately. He would wait for him to stabilize his cultivation base first.

However, this didn't prevent Han Fei from reading Little Fatty's information.

Information popped up in his eyes.

< Name > Nine Death Soul Splitting Octopus

< Introduction > Ancient exotic species, with a weak divine beast bloodline. Its sucking disc can absorb spiritual energy, energy, and essence blood. The Nine Death Soul Splitting Octopus's spiritual power is extremely strong, able to ignore the mental attacks of all creatures within ten levels of itself. It also has great strength and can deflect ninety percent of the attacks when attacked. It also has a super strong self-recovery ability.

< Level > 50

< Quality > Legend (Upgradable)

< Spiritual Energy > 208,68

< Food > Carnivorous, prefers shrimp and crabs

< Battle Technique > Limb Regeneration, Blood Rebirth, Soul Splitting Tentacle

< Remarks > The host can share Blood Rebirth with the Nine Death Soul Splitting Octopus. It can only be used nine times in a lifetime, with seven left.

For Han Fei, Little Fatty had only made a breakthrough. However, for Little Fatty, it had been stuck in this realm for a long time.

What made Han Fei's eyes light up was the additional combat skill of the Soul Splitting Tentacle. It didn't sound simple! However, he didn't have any experimental article, so he didn't study it for the time being.

Perhaps realizing that he was too weak, Little Fatty was sucking the remains of the octopus so hard but only absorbed a little bit of essence blood.

Little Fatty said, "Give me its remains. I want to make breakthroughs quickly."

Han Fei was briefly stunned. "I only have less than 20,000 catties of Spirit Awakening Fluid left."

Little Fatt: "With this octopus' body, it should be enough for me to use for some time."

Perhaps because of the breakthrough, Little Fatty seemed to have become much smarter. He knew that he had accumulated enough resources, and what he urgently needed now was the realm.

Han Fei immediately took Little Fatty and the Void Body White Octopus into Forge the Universe. The Spirit Awakening Fluid and the spiritual spring were both in Forge the Universe, so he could use them as he pleased.

The old turtle said, "Contractual spiritual beasts are not raised like this. They need to fight and kill. Any creature grows up from fighting and killing, even if it's the Nine Death Soul Splitting Octopus."

Han Fei curled his lips. "What if I'm killed? I can be resurrected with Little Fatty around."

The old turtle sneered. "Then you should let him wander on his own. If you separate from him, if something happens to you, others won't be able to find him. Then you can be resurrected, right?"

Han Fei was stunned for a long time. "Wait a moment... don't lie to me! Doesn't the Nine Death Soul Splitting Octopus need to be with his master to resurrect him?"

"Tsk!"

The old turtle said helplessly, "Who told you that? That's the Nine Death Soul Splitting Octopus! The Nine Death Soul Splitting Octopus that has truly grown up is definitely a mutated creature. Even if you are thousands of kilometers away, it can still resurrect you."

Han Fei said in disbelief, “Old Yuan, are you sure you’re talking about the Nine Death Soul Splitting Octopus in the Sea Demon Realm?”

This time, the old turtle was silent for a long time. “I don’t know.”

Han Fei: “ ... ”

Han Fei rolled his eyes. “Then what’s the difference between telling me and not telling me?”

Although Han Fei also felt that Little Fatty was very powerful, he shouldn’t be so powerful. He was only level-50, in the sea demon realm. Could he resurrect someone from a long distance away? Even a Venerable couldn’t do that!

However, he never planned to bring Little Fatty with him at the beginning. Therefore, as long as the opportunity was right, he would throw him out to practice on his own.

...

Above the Ice God Canyon, no one could perceive what was happening below.

In the old turtle’s words, this was a place that could produce the Blue Sea Ice Sand. Because it was extremely cold in the first place, not just any creature could enter.

For example, Little Fatty was frozen the moment he appeared. Han Fei had to warm him with spiritual fire, or he would have been frozen to death.

When Han Fei returned to the white mist, he couldn’t help asking, “Old Yuan, I caused a lot of noise down below. What’s going on up there?”

Chapter 1264: I Want to Swim Back

Faced with Han Fei’s question, the old turtle couldn’t help but ask, “What can possibly happen? The Venerables would just scan here with their perception. Even if you take this opportunity, what can they do?”

Han Fei said, “They will tell the king and the king will notice me. If the king notices me, I’ll be in danger. God knows if the king will see me through.”

The old turtle said, “Even I can’t tell. You are now a sea demon, an authentic sea demon. The only problem is your real strength. If it’s really discovered, as long as you create the illusion that you are going through a tribulation and improve your strength to the junior Dao Seeking realm, most of the problems will be resolved.”

Han Fei was lost for words. “I’ve already transcended the tribulation. How can I trigger thunder and lightning?”

The old turtle said, “It’s none of my business. However, in this vast sea, we’ll meet someone who is transcending the tribulation anyway. What do you think?”

Han Fei's eyes glittered, and he exclaimed, "As I expected, the older the ginger, the spicier it is! As long as I control the creature that is transcending the tribulation, I can deprive it of its tribulation. In this way, I can create an illusion that I'm transcending the tribulation."

The old turtle: "I didn't teach you that."

Han Fei said, "That's what you think. However, it doesn't matter. This method is good. If it doesn't work, I have one last solution. The Fish Dragon King is still in my hands. If I have to, I'll make him transcend the tribulation and then I'll steal his tribulation. It'll be very convenient."

In Forge the Universe, the Fish Dragon King looked at Little Fatty who was holding a big octopus and absorbing its essence blood. For some reason, he had a bad feeling.

The Fish Dragon King lay on the ground in frustration, thinking, Shit, I'm doomed.

...

Han Fei adjusted his state again, and everything seemed to have calmed down. He even practiced the Near at Hand Technique for a day in the white mist, specifically found some creatures to fight for a long time, and fought so loudly as if he was afraid that the people above the Ice God Canyon didn't know what he was doing.

Although this trick was simple, it worked. The Venerables were so confident in themselves that they wouldn't believe Han Fei had taken something that even they couldn't take.

One day later, Han Fei came out of the smoke, looking energetic and powerful.

At this moment, Gui Sanqing, who had been possessed by the old turtle, suddenly opened his eyes and followed Han Fei.

Han Fei turned back into the Fish Dragon King and entered the Ice God Strait. Immediately, a Venerable summoned him.

In the Thousand Star City, not everyone could see a Venerable because Venerables usually appeared as trump cards and were the pillars of a large clan.

In the Water-Wood World, however, not only were there many Venerables on the Sea of Clouds Divine Tree, but there were also many Venerables in the two royal cities.

This meant that there were at least more than 200 Venerables.

The one who summoned Han Fei was the Sea Horse Venerable.

After seeing Han Fei enter his palace, he slowly raised his eyes. "You seem to have made a lot of progress. This time, you should have secured your position on the Genius List in the royal city. In a short period of time, no one can threaten you. I just wonder when you transcend the tribulation."

Han Fei replied respectfully, "This time, I may be able to reach a higher level."

"Oh?"

The eyelids of the Sea Horse Venerable slightly opened, but he didn't take it seriously. How the Fish Dragon King grew up had nothing to do with him. Since the Fish Dragon King chose to gain experience in the Ice God Canyon this time, he was somewhat closer to them.

Besides, Venerables like them didn't stay in the Ice God Canyon all year around. They would return to the Royal City or go to battlefields from time to time.

However, the strong had their own selfish motives.

It was impossible for the Fish Dragon King to become friends with them. However, Yu Cailing and Lan Xue'er had survived this trip to the Thousand Mountain Ancient Realm and were both subordinates of the Fish Dragon King. Their talents were obviously not weak. Although they couldn't compare to the Fish Dragon King, if he could nurture them, he had plenty of ways to subdue them.

He said, "Dragon King, you've gained the full support of the Ice God Canyon this time. You know that the Royal City has always been strict in recruiting people. Yu Cailing and Lan Xue'er may not have a chance to become Venerables, but as long as they don't die, they can definitely become Half-Venerables. If they want to go to the Royal City, they'd better have someone in the city to help them. Otherwise, they won't even know how they died... Since they used to be your subordinates, please take care of them a bit."

Han Fei sneered in his heart. He knew that Venerables weren't so kind as to chat with him. Sure enough, they all had their own purposes. They wanted to nurture their own talents, so they needed someone to cover up for them.

After all, the Venerables were outside, and they couldn't interfere in the affairs of the Royal City.

Besides, how many sea demons in the Royal City didn't have any trump cards? It was said that it was difficult to go to the Royal City, so it should be really difficult. Even a Venerable had to take the back door, which showed how difficult it was to go to the Royal City!

However, this was just a small favor. He didn't have to provoke a Venerable now. It wouldn't be good if the Venerable harbored a grudge against him.

Therefore, Han Fei said indifferently as if he didn't take it seriously, "It's just a small matter. After returning to the Royal City, just let them go there."

The Sea Horse Venerable smiled. "They're your subordinates anyway. Why don't you just let them follow and take care of you?"

Han Fei thought to himself, How can they take care of me?

Han Fei shook his head slightly. "No. This trip to the Thousand Mountain Ancient Realm made me realize that there are many strong masters. The woman from the Water-Wood World and the Blood Demon from the Blood Sea Divine Wood City who ambushed me are both very strong. I still lack experience. I plan to gain experience all the way back to the Royal City."

The Sea Horse Venerable was slightly surprised. "Are you going to swim back in person?"

Han Fei said, "With Gui Sanqing following me, there shouldn't be a problem."

The Sea Horse Venerable thought for a moment and realized that it did make sense. There were powerful creatures in the outer sea, but the truly powerful ones weren't there. With the protection of Gui Sanqing, it shouldn't be a problem for him to return to the Royal City.

However, Yu Cailing and Lan Xue'er couldn't follow him. Whether it was dangerous or not depended on the person. For Han Fei, it was indeed not dangerous, but for these two people, it might be extremely dangerous.

Therefore, the Sea Horse Venerable nodded slightly. "OK, when you return to the Royal City, I'll arrange for someone to send the two of them over."

...

After the trip to the Thousand Mountain Ancient Realm, Yu Cailing and Lan Xue'er became good friends.

At this moment, in Yu Cailing's cave, Lan Xue'er said, "Sister Cailing, are we really going to leave with the Fish Dragon King? This person is heartless, and... Will he really become our pillar of support?"

Yu Cailing's eyes were firm. "Xue'er, people have to rely on themselves. When you reach the Royal City, you'll have to find a way to show your talent, talent in any aspect. If the Fish Dragon King is not reliable, you'll have to find another master. Anyway, as long as you survive and become stronger, the situation will change one day."

However, Yu Cailing was still a little worried and asked in a low voice, "Xue'er, is that Fish Dragon King... dirty?"

Lan Xue'er gritted her teeth. "He is very aggressive and domineering."

Yu Cailing: "..."

Just as the two girls were worried, they suddenly heard a Venerable say via voice transmission, "Okay, the two of you don't need to follow the Fish Dragon King now. This guy is going to swim back to the White Shell Royal City from the Ice God Canyon to gain experience. It's a good thing for you. Otherwise, you may be in danger. When he returns to the Royal City, I'll arrange for you two to go there."

Both of them were surprised and hurriedly said, "Thank you, my lord."

After a while, the two of them looked at each other in relief. They didn't have to go with Han Fei. At least, they didn't have to worry about Han Fei's improper demand.

Although they would still have no choice when they were in the Royal City, at least they didn't have to worry about it now!

Lan Xue'er said in relief, "Fortunately, by the time he returns from his journey, he probably has forgotten about us. And his situation in the Royal City shouldn't be good. When the time comes, he probably won't have the time to bother us."

Yu Cailing nodded slightly. "I'm just a little surprised. This person is indeed arrogant. He wants to swim back to the Royal City?"

Lan Xue'er smiled and said, "What's the big deal? No matter how bad this person is, he's still tenth place on the Genius List. Besides, he should have made some progress this time... However, I'm a little surprised. This person seems to be more domineering and powerful than before he entered the Thousand Mountain Ancient Realm."

Yu Cailing tilted her head and said, "Do you think so too? I feel it too... especially the moment he came out of the Ancient Realm, he was so domineering, much more domineering than when he entered. It was like he was a different person."

...

Han Fei didn't know that two women were studying him.

The main reason was that he felt that the Fish Dragon King had too little contact with Yu Cailing and Lan Xue'er. After only one day, they had almost no contact.

Just when Han Fei was about to leave the Ice God Canyon, he suddenly met the Half-Merman Venerable at the gate. At this moment, he was gazing into the distance, and there was no telling what he was looking at.

Han Fei's heart skipped a beat. Is he waiting for me? Why?

The Half-Merman Venerable looked back at Han Fei. "Dragon King, have you seen Yu Wendao since you came out?"

Han Fei asked in confusion, "I haven't seen Mr. Wendao since I came out. Huh! Hasn't Mr. Wendao been waiting outside the Thousand Mountain Ancient Realm?"

The Half-Merman Venerable shook his head slightly. "He went out to cultivate halfway. I thought he would return before you left. I didn't expect him to never return."

Han Fei said respectfully, "I'm going back to the Royal City to gain experience. When Mr. Wendao returns, he can go find me."

Han Fei thought to himself, Yu Wendao? You'll never see him in your life.

The Half-Merman Venerable nodded slightly.. "OK! That's good. Go!"

Chapter 1265: Someone Visits

Thanks to his identity as the Fish Dragon King, Han Fei was not blocked by anyone.

Besides, with Gui Sanqing following him, no one would suspect him. Unless the Venerables of the Water-Wood World secretly came over, there wouldn't be a problem with the safety of the Fish Dragon King, so no one would pay much attention to him.

After all, it didn't make sense for them to be vigilant all the time, even against their own kind.

This time, Han Fei finally didn't return to the Fire Spring. The Royal City was to the east of the Dark War Port.

Han Fei took a slight turn in the north, but the whole journey was no more than 5 million kilometers.

It took Han Fei a full day to arrive 200,000 kilometers away from the Ice God Canyon. This was mainly to prevent anyone from secretly observing him, so he walked very slowly.

Now and then, he would fight a few battles while walking.

One day passed.

Han Fei said, "Haha! We're finally out of the surveillance range of the Venerables. Hahaha, Old Yuan, this is our world now."

As he spoke, Han Fei triggered a thought, and Little Black, Little White, and Little Fatty appeared in the water.

At this moment, Little Fatty had improved by another level compared to two days ago, probably because of the Spirit Awakening Fluid.

Unsurprisingly, with the remaining Spirit Awakening Fluid and the blood of the Void Body White Octopus, Little Fatty could be upgraded by at least one level.

Han Fei said, "Little Fatty, I'll give you a month to travel a million kilometers to the west. You have to count on yourself."

Little Fatty glanced at Han Fei with its big eyes, pushed its tentacles, and dove to the bottom of the sea.

Little Black and Little White had already surrounded Han Fei. Little Black, as usual, dove directly to the bottom of the sea. After only three minutes, Han Fei saw that he had bitten a crab to pieces at the bottom of the sea.

As for Little White, when she approached him, Han Fei felt a little cold. It seemed that Little White had changed a lot after swallowing the so-called Blue Sea Ice Sand.

Han Fei couldn't help petting Little White's cold head and saying, "My baby girl, your father is going to cultivate now. You and Little Black grow up faster! Along the way, I'll leave the great responsibility of finding treasures to you."

Little White kissed Han Fei's cheek affectionately, then swooshed out and swam to the bottom of the sea.

This was because Little White was no longer the Little White before. Not every creature could approach her. Han Fei saw a Blood Eel trying to rush at Little White, but when it was only a hundred meters away from Little White, its body suddenly stiffened and then quickly froze.

Little White opened its mouth and swallowed a mass of blue soul.

Seeing this scene, Han Fei couldn't help but sigh. Is the effect of a spiritual treasure so great? Although Little White, who never fought, wasn't fighting now, her strength was already terrifying.

If either of them was alive, neither of them would die.

Therefore, Han Fei was quite at ease now. After all, according to Old Yuan, these spiritual beasts and contractual spiritual beasts also needed training. If you kept them in a greenhouse and fed them from time to time, it was equivalent to killing their potential.

The old turtle next to Han Fei said, "Huh? Only a million kilometers a month?"

Han Fei grinned and said, "So what? I told them I was going to return to the Royal City while training. They should have informed the Royal City. We should take this period of time to improve our strength."

To be honest, Han Fei was indeed a little poor now. Although he still had eight or nine hundred million points of spiritual energy, it was useless! He could take this opportunity to plunder the secret realms along the way.

The old turtle said, "That's good. I'm clearing the impurities in this body and his demonic heritage. This process will take about two or three months. When the time comes, I'll build a Heavenly Talent body."

Han Fei grinned. "You've chosen this turtle? He's so old."

The old turtle said disdainfully, "Turtles have a long lifespan in the first place. However, in two months, I need you to give me another Heaven Enlightenment Divine Technique. This time, I don't need much. 50 years of vitality will be enough."

Han Fei curled his lips. "Why again?"

The old turtle said, "This body is too weak after all. There are still a lot of hidden injuries that you didn't cure last time. Besides, my strength has improved again. As long as you give me a little time, few Half-Venerables can be his match. It'll be beneficial for you."

Han Fei waved his hand and said, "Then let's talk about it in two months!"

...

One month passed.

In the boundless sea, in a jungle under the sea, under a decaying old tree, a large number of roots extended out of the mud, and a treeman crawled out.

The moment the Tree-Man came out, holes were drilled out of the void, and Earth Nine, Water Luster, Punishing Saber, and Fire Seed appeared one after another.

In the end, Han Fei slowly crawled out of the cave, looking calm. "This place must have been explored a hundred years ago. There are only twenty thousand catties of spiritual spring, and everything else has rotted. Forget it, let's disperse. Next place."

Fire Seed complained, "Master, call me out to gain experience when there's a fire. I'm really not used to this environment."

Han Fei was lost for words. "This is the sea. Where else can I find a place with fire except for the undersea volcano?"

Water Luster sneered. "Blame it on your wrong species."

Fire Seed said angrily, "If I swallow a volcano, it'll be equivalent to your hundred years of cultivation."

Seeing Water Luster and the others leave, Han Fei didn't bother to listen. He thought to himself, When did Fire Seed start bragging?

Han Fei spread out his perception and found that the old turtle was cultivating on a reef a thousand kilometers away.

As for Little Fatty, it was fighting a big shell.

It was a yellow shell with a body of seventeen or eighteen meters long, but different from ordinary shells, around the opening of this shell were yellow tentacles.

Han Fei had seen this kind of shell before. It was called the Rough Hairy Shell.

Of course, its name was Chrysanthemum Shell here. In the past month, Han Fei had seen Little Fatty and Chrysanthemum Shell fighting more than once.

Out of instinct, the octopus might like the meat of clams and shells, so it often fought shells.

As for this Rough Hairy Shell, it was a shell that Little Fatty could beat but wouldn't easily beat now.

Large swaths of yellow tentacles that looked like floating seaweed and dancing long whips grabbed at Little Fatty.

Little Fatty seemed to have known what the shell was going to do. The sucking discs on its eight tentacles were suddenly activated, and the terrifying suction directly straightened the tentacles of the Chrysanthemum Shell.

The remaining tentacle of Little Fatty suddenly hooked, and it directly extracted a soul.

The sucking discs on Little Fatty's nine tentacles shook and directly sucked the soul.

Chi la!

The soul was torn apart, and this chrysanthemum shell was killed by Little Fatty.

After swallowing its souls, Little Fatty opened the shell of the chrysanthemum shell with his sucking discs and sucked its flesh dry.

Han Fei couldn't help shaking his head. F*ck, I almost made this guy into a foodie. Go fight, go challenge. If you don't fight, how can you improve quickly?

Although Han Fei asked Little Fatty to go out alone to gain experience, in fact, Han Fei had been following him. After all, this was his first time and Han Fei wasn't completely at ease.

Just as Han Fei was about to go over and teach Little Fatty a lesson, the old turtle suddenly shouted, "Take them back! Someone is coming!"

Han Fei said, "Come back."

Upon hearing this, Punishing Saber and the others hurriedly rushed back. Fortunately, they hadn't gone far. Otherwise, if they couldn't rush back in time, they would be doomed.

Swish swish swish!

The Mountain River phantom was retracted, Little Black and Little White disappeared into the center of his eyebrows, Little Fatty got into his body, and the old turtle stood behind Han Fei.

Han Fei grabbed the Sun-Moon Shell and pretended that he was perceiving something.

After about thirty seconds, Han Fei couldn't help but ask, "Where is the coming person?"

The old turtle said, "I saw it through the secrets of the heavens. If he's weak, I can't see him. But if he's strong, I can perceive him in advance."

After another twenty seconds, with a swish, a void crack was opened on the bottom of the sea. Instantly, a Half-Merman Venerable appeared in front of Han Fei.

Han Fei quickly recalled who this person was...

The old turtle's voice appeared in Han Fei's heart. "Changshui Qin, a Venerable, in charge of the secret realm assessment in the White Shell Royal City."

Han Fei hurriedly said, "Greetings, Venerable Changshui. Are you looking for me?"

Changshui Qin said coldly, "Of course. The people at the Ice God Canyon said that you were going to swim back to the Royal City. A month has passed, and I think no matter what, you should be here soon, but you haven't come yet, so I came and took a look."

Han Fei immediately said, "Venerable Changshui, I'm training."

Changshui Qin frowned slightly. Looking at the signs of a secret realm opening not far away, he couldn't help but say, "Do you think the secret realms in the Royal City are not enough for you to explore? Or do you think the secret realms in the outer sea are stronger than those collected by the Royal City?"

Han Fei saw that the Venerable seemed to be dissatisfied at him for going back too slowly. Furthermore, from what he said, he could tell that Changshui Qin wasn't interested in these secret realms in the outer sea at all.

Han Fei immediately said, "I don't think that way. However, on this trip to the front line, I encountered two great enemies in my life, so I want to see how many dangerous and mysterious creatures there are in the outer sea."

Changshui Qin was slightly surprised. "Fish Dragon King, you seem to be talking too much."

Han Fei's heart skipped a beat, and the old turtle reminded him, "The Fish Dragon King has always been simple-minded. He knows no logic."

Han Fei suddenly raised his head. "Master Venerable, to be honest, I feel that there is something wrong with my bloodline. My strength is rapidly increasing. I intend to enter the top five of the Genius List this time, so I stayed outside for a while longer."

"Top five?"

Changshui Qin was a little suspicious. Are you f*cking bragging?

However, hearing what Han Fei said, Changshui Qin felt that he seemed to understand something.

Yes, the tenth place of the Fish Dragon King had always been unstable. According to the people in the Ice God Canyon, the Fish Dragon King had obtained some opportunities. He was probably digesting the opportunities so he returned late.

Besides, this opportunity actually made this guy confident to enter the top five? It seemed that this opportunity was not small. No wonder this guy hadn't returned.

Changshui Qin asked, "How long? Tell me how long it will take you. I will arrange a secret realm assessment for you according to the time you delay. The longer you delay, the more difficult the secret realm assessment will be. You have to think it through."

Han Fei took a deep breath. "Three months."

Changshui Qin's eyes narrowed slightly. "How bold of you... Okay, I'll wait for you in the Royal City."

With that, Changshui Qin tore through the void and flew away.

From the beginning to the end, he didn't even look at Gui Sanqing.

Chapter 1266: Soul-Attracting Technique

After Changshui Qin left, the old turtle cursed, "Although you didn't learn the Soul-Attracting Technique, did you not read the soul of the Fish Dragon King?"

Han Fei smiled bitterly. "I did! But only important things can be read, can't they?"

The old turtle said, "Your soul-attracting technique is not good. The real soul-attracting technique means that you can read all the information you want as if you're repeating someone's memory. I had thought that you didn't learn soul-attracting because you were confident in your own soul-attracting technique, but... You're not guarding against me, are you?"

Han Fei pretended not to hear him and asked in surprise, "Really? Can every detail in his life be read?"

Han Fei suddenly took a deep breath. He seemed to have neglected something. Was the Soul-Attracting Technique really so powerful that it could make him see every little detail in the other party's memory?

Before, the Void Lines could read part of the memories, so Han Fei thought that they were a soul-attracting technique.

After all, these were all methods to read other people's memories, but definitely not to experience the life of others.

At this moment, Han Fei couldn't help but ask, "Is the Soul-Attracting Technique really so powerful?"

The old turtle was lost for words. "I'll teach it to you first. It's up to you whether you want to learn it or not. But don't be like now anymore. You can hardly recognize a person and even need my reminder."

After a while, a new technique appeared in Han Fei's mind.

Soul-Attracting Art (Venerable-Level, Low-Quality)

< Introduction > This is a forbidden technique. It violates the natural law and forcibly peeps at others' memories.

Deduced Art: Soul Search Technique

Deduction Cost: 1 billion

Shortcoming 1: If the soul-attractee is stronger than the soul-attractor, the user may suffer a backlash.

Shortcoming 2: The Soul-Attracting Technique can read memories, but the soul-attractor is easy to be impacted by the soul-attractee's memories, affecting his own memories.

Shortcoming 3: Forcibly attracting one's soul can cause the soul-attractee to become a fool.

After reading the information about this technique, Han Fei took a slight breath. "Is this against the Heavenly Dao?"

The old turtle said disdainfully, "What do you mean by 'against the Heavenly Dao'? Cultivation is against the Heavenly Dao in the first place. Why do you care about soul-attracting?"

Han Fei didn't really care. However, he could deduce the Soul-Attracting Technique! Since the Soul Search Technique was one level higher than the Soul-Attracting Technique, the side effects should be much smaller.

However, Han Fei didn't choose to deduce it.

For him, 1 billion points of spiritual energy was a huge number now. This month, he didn't just explore secret realms and do treasure hunting.

Han Fei also needed a lot of spiritual energy. He had fed Little White a hundred million points of spiritual energy.

Besides, he didn't know what would happen if he went to the Royal City. Therefore, although he still had enough spiritual spring, it wasn't worthwhile to deduce it now.

One day later.

Han Fei appeared in Forge the Universe again.

Seeing Han Fei, the Fish Dragon King gnashed his teeth and asked, "How long are you going to lock me up?"

Han Fei's lips curled. "Don't worry. It won't be long. Three years at most."

Hearing that it would be three years, the Fish Dragon King was desperate. He asked, "Then why are you here?"

Han Fei chuckled. "Nothing. Let me borrow your memories."

The Fish Dragon King: "???"

Before the Fish Dragon King realized what was going on, Han Fei had laid a hand on his head.

The poor Fish Dragon King had basically lost all his strength and was imprisoned here. The space he was in had been independently divided by Han Fei. He didn't even have the slightest spiritual energy, let alone recover.

Without strength, the Fish Dragon King became meat on the chopping block, at Han Fei's mercy.

Han Fei intended to practice the Soul-Attracting Technique on the Fish Dragon King because the latter's realm was not as high as his, his strength was not as strong, and his soul was weaker than his. If even with such an advantage, he still had side effects, it would be a problem if he needed to use the Soul-Attracting Technique in the future. With his personality, he probably wouldn't choose to use it.

He felt that his consciousness was immersed in a sea of memories. There seemed to be a void, where there were various pictures and vivid contents.

Han Fei knew that he was a spectator. As he scanned with his perception, a large number of memories flashed through his mind. He saw the original body of the Fish Dragon King, which turned out to be a sea snake. However, this sea snake was a bit special. It had four front limbs and two horns on its head.

However, this was not a dragon but a snake creature.

Han Fei simply ignored the pre-awakening memories of the Fish Dragon King. He found that the memory could be skip-read. In an instant, Han Fei skipped to the time when the Fish Dragon King was taken into the Royal City.

They got to know different people, the Heavenly Talents of the same realm, and the Fish Dragon King was bullied. He strengthened himself step by step, and had been through many life-threatening crises...

All kinds of information popped up in his head at the same time. After obtaining the information he wanted to know, Han Fei issued an order in his heart and his consciousness returned.

"Huff!"

Han Fei suddenly opened his eyes and took a long breath.

Before Han Fei could do anything, he saw that the Fish Dragon King was rolling his eyes, foaming at the mouth, and convulsing all over.

Han Fei was lost for words. "What happened to him? He's a Heavenly Talent anyway. How can he be so weak?"

The old turtle's voice sounded, "He was disabled for a period of time. He's in very poor shape, so he reacted like this."

Han Fei immediately said, "No, this guy can't die yet. We have to save him."

With that, Han Fei cast the Holy Light Technique over, and the Fish Dragon King stopped convulsing. His complexion was improving at a visible speed.

Han Fei was now stronger than the Fish Dragon King both in terms of strength and realm. With the Holy Light Technique, even the vitality of the Hydra Grass could return crazily, let alone the Fish Dragon King.

About ten seconds later, the Fish Dragon King came back to his senses. After about twenty seconds, the Fish Dragon King felt that the injuries in his body had recovered by half. When the gentle healing brilliance disappeared, the Fish Dragon King felt that his strength had recovered by at least 20%.

The Fish Dragon King was surprised. "What did you just do to me?"

Han Fei frowned and said, "Before I agree to let you go, you are not allowed to have any strength."

With that, Han Fei raised his knife and pierced the Dragon King's Dantian again.

"Ew!"

The Fish Dragon King vomited a mouthful of blood and said with a trembling voice, "Since you don't allow me to have any strength, why did you cure me?"

Han Fei was silent for a while. "I over-cured you."

The Fish Dragon King: "..."

...

Coming out of Forge the Universe, Han Fei took a deep breath. "It seems that I missed a lot of information! Old turtle, how long did it take for me to perform the Soul-Attracting Technique?"

The old turtle said, "Three seconds."

"Huh?"

Han Fei was briefly stunned. "Only three seconds?"

The old turtle said, "Of course, that's because your mind is observing you. Perhaps you think it has been a long time, but in fact, it's only three seconds. This is like having a dream. You think you have been dreaming for a long time, but in fact, it's not long."

Han Fei thought for a moment and accepted it. In reincarnation, he had experienced decades, but it was actually only dozens of days. However, cultivating in a dream seemed to be worthwhile!

Han Fei couldn't help but ask, "Is three months too long?"

After reading the memories of the Fish Dragon King, Han Fei learned the situation of the Royal City.

First of all, there had never been more than 100,000 residents in the Royal City.

Among them, 70% of them only had level-six Demonic Heritage.

Therefore, every powerhouse above level seven had at least one or two followers.

And there were standards to survive in the capital.

First of all, the 70% of them were the 70,000 or so powerhouses with level-six demonic heritages. If they didn't follow someone, it would be fine. But if they followed someone, unless their followers had special arrangements, they had to go out to gain experience every month, during which there was a chance of death. Almost 1% of these people would die every time.

This was not a simple number. They all had level-six spiritual heritages. In any place, they could be called Heavenly Talents. But in the Royal City, they had to work very hard to survive.

This also meant that every month, about 700 sea demons would die. In a year, it would be more than 8,000 sea demons. This number was simply terrifying.

They were all Sea Spirit powerhouses!

Every year, the people eliminated in the Royal City put together would form a very terrifyingly combat power.

However, it was precisely because of this ultra-high elimination rate that every level-six Heavenly Talent who entered the Royal City was trying desperately to strengthen themselves.

Therefore, in the Royal City, there were many Dao Seeking-Realm powerhouses.

The Dao Seeking powerhouses accounted for about 25%.

The remaining half included Venerables, mermen, sea beasts, and other creatures.

Among the 25% sea demons, 15% were ordinary geniuses with level-six demonic heritages, and only 10% had level-seven demonic heritages or above.

But even if it was only ten percent, it was ten thousand people. What a terrifying number! Han Fei clicked his tongue.

Tang Ge's level-seven spiritual heritage alone was enough for the Heavenly Sword Sect to specially send someone to take him back, and now he was already one of the top powerhouses in his generation in the Thousand Star City.

And among the people he had encountered so far, very few had a spiritual heritage above level 7.

Of course, the growth-type spiritual heritage didn't count. He was a genius that the Thug Academy had dug out through all means. He couldn't be judged by common sense.

And this was the composition of people in the Royal City.

Just like ordinary Heavenly Talents, even though the Fish Dragon King and the others were Heavenly Talents, they needed to undergo trial in secret realms regularly. However, unlike ordinary people, these Heavenly Talents with level-7 demonic heritage and above had preferential treatment. In some secret realms, there would be people to rescue them, which greatly reduced the probability of death.

However, reducing the probability of death was different from no death. Some people were unlucky and strong masters failed to treat them in time, so they could only blame their bad luck.

As for the trial secret realms in the Royal City, they were divided into five levels: simple, ordinary, difficult, hell, and forbidden area.

Ordinary Heavenly Talents could choose a simple-level secret realm every month.

For Heavenly Talents like the Fish Dragon King, they were usually assigned with difficult-level secret realms. No one would start from the ordinary level. With the Fish Dragon King's pride, he certainly wouldn't choose that.

However, if a Heavenly Talent with a level-7 demonic heritage or above didn't go to trial for a month, the difficulty of the next trial would automatically rise by one level.

Therefore, Han Fei was already a month behind schedule. Now, he told Changshui Qin that he would return in three months. Didn't it mean that his trial difficulty had jumped to the level of a forbidden area?

Han Fei had just read about forbidden areas in his mind. The Heavenly Talents with the demonic heritages lower than level nine only had a ten percent chance of survival.

Why was it below level nine? It was because a demonic heritage above level nine was hard to come by in a thousand years. If there was one, he would be a treasure.

And who would throw such a treasure into a forbidden area?

The old turtle said leisurely, "I had thought you knew."

Han Fei: "..."

Chapter 1267: Interception

So Han Fei had set himself up.

However, Han Fei didn't quite panic. He had gone through so many dangerous secret realms. Even if it was a forbidden area-level secret realm, so what? At least he had the old turtle with him.

Even if the possessed Gui Sanqing couldn't enter, the old turtle's main soul was still in his sea of consciousness.

After half a day, Han Fei summoned Little Fatty, Punishing Saber and the others again.

At this moment, Han Fei looked solemn. He said to Little Fatty and the others solemnly, "There's not much time left for you. At this time, improve as much as you can. Consolidate your realm first."

Tree Spirit said, "Master, will it be dangerous in three months?"

Han Fei nodded slightly. "Anything can happen if we go deep into the enemy's den. Just be prepared. We can't relax at all."

After that, Han Fei looked at Little Fatty and said, "You are the weakest. You are only equivalent to a peak-level junior sea demon. You have to work harder, understand?"

Little Fatty rolled his big eyes. "If I have enough Spirit Awakening Fluid, I can reach the peak of the intermediate level. That's the highest realm I can reach in three months."

Han Fei certainly knew the principle of more haste less speed. When he used the Spirit Awakening Fluid to accelerate his breakthrough, his realm was very unstable and his strength was not solid. It took him a lot of time to stabilize it.

However, if he could become stronger, why not become stronger? However, Han Fei was a little helpless. There was no more Spirit Awakening Fluid!

Tree Spirit suddenly said, "If it's just Spirit Awakening Fluid, there's still a little bit in the Sea Quelling Painting."

Han Fei couldn't help being surprised. Oh, yes, how could he forget this? When he just entered the Sea Quelling Painting, Tree Spirit used Spirit Awakening Fluid to entertain him.

Now, Han Fei knew clearly that the so-called Spirit Awakening Fluid was just diluted Dao runes, or something born under the influence of the Dao runes.

As for the Sea Quelling Painting, it belonged to the Heavenly Palace or a king. Therefore, it wasn't strange that the Sea Quelling Painting had Spirit Awakening Fluid.

Han Fei asked, "How many are there exactly?"

Tree Spirit said, "There aren't many of them. After all, this thing is only effective on creatures below the Sea Spirit level. Sea Spirits at least have their own path of law enforcement. Generally speaking, they don't need Spirit Awakening Fluid... Therefore, it's probably less than 5 million catties."

Han Fei: "..."

Han Fei was the only one who was surprised. The others were all very calm.

For Tree Spirit and the others, the Spirit Awakening Fluid was of no use at all. They didn't even bother to drink it as tea and only Tree Spirit drank it.

For the old turtle, he probably wouldn't even bother to pick it up when it fell on the ground.

When they heard that Tree Spirit had 5 million catties of Spirit Awakening Fluid, Han Fei and Little Fatty's eyes lit up. Although these two poor b * stars were rich more than once, seeing these things that other people didn't want, they still felt... how fragrant they were.

After getting five million points of Spirit Awakening Fluid from Tree Spirit, Han Fei was too lazy to divide it. Now, only Little Fatty needed Spirit Awakening Fluid.

Han Fei took out a Sun-Moon Shell, filled all the Spirit Awakening Fluid in, and then stuffed it into Little Fatty's mouth. "Drink as much as you can. That's all I can give you."

Han Fei didn't care as he got it for free.

In fact, even if Little Fatty reached the peak-level sea demon realm, it would be useless to him. After all, his level was still a little too low.

Han Fei clearly knew that the reason those people had powerful spiritual beasts and contractual spiritual beasts was that they had lived for too long. And neither he nor Little Fatty had grown up for long. This accumulation was very difficult to make up for.

The old turtle said, "In that case, don't say that I didn't teach you. Although I don't know much about the Nine Death Soul Splitting Octopus, don't take all your trump cards into that so-called forbidden area. Then there's still room for improvement."

Han Fei thought to himself, The old turtle must be quite worried about this trip. Normally speaking, if a super powerhouse who had been sealed for a long time possessed someone and was reborn, he must be desperate to live a peaceful life. Who would want to be in danger?

Han Fei said indifferently, "Fortune comes from danger. If I'm not afraid, what are you afraid of? If we succeed in this trip, our strength will be doubled!"

...

Three months later.

A million kilometers away from the Sea Demon Royal City.

In the past three months, powerhouses had observed Han Fei three times. However, the old turtle reminded Han Fei in time, so Tree Spirit and the others weren't exposed.

Little Fatty did not squander too much Spirit Awakening Fluid. He had been fighting for nearly two months, mostly beating the strong as the weak. Now, he had just stabilized himself as a level 54 creature.

In four months, he had broken through one major realm and four small realms. This was definitely not slow. Although he couldn't completely polish his foundation, it was definitely not unstable.

The most dangerous one was when he challenged a Dark Moon Wolf Fish that had just entered the intermediate Sea Spirit Realm. Little Fatty had three tentacles broken, and in the end, they tied.

Thanks to Little Fatty's own characteristics, he could ignore all mental attacks of enemies of level 10 or below and deflect 90% of the enemy's attack power.

Any creature with either of these two abilities would at least be a legend creature, but Little Fatty had both, which meant he was immune to both soul and physical attacks, so he was very strong.

As for Han Fei, he had been practicing the great technique of the Demon God Scripture along the way.

There were thousands of Great Daos in the technique, which all creatures submitted to.

When Han Fei was practicing this technique, he gradually discovered something. In terms of the effect of cultivation, this was equivalent to a technique that only focused on the realm. It wasn't as high-levelled as a "no-quality" technique. However, it was known as the supreme demonic scripture. How could it not have something special?

The "All Creatures Submit" in the Demon God Scripture was the real value of this technique.

This technique could command creatures of the same level or below. To be precise, it didn't order but hypnotized people.

Han Fei had tried before. With his current abilities, he could hypnotize about ten strong masters of the same realm, provided that the other party's soul wasn't so strong.

Although the Void Lines had been replaced with the three shrimp veins of the Triple-Blazing Cold Shrimp, he still had to control his enemies like controlling puppets.

But the Demon God Scripture was different. It was hypnotism. Whoever was hypnotized could even exert their strongest combat power.

Of course, although the effect was good, there were occasionally some who could break free from hypnosis. This was inevitable. After all, the more hypnotized creatures there were, the more exceptions there would be.

The ability to hypnotize nearly a hundred Sea Spirit creatures showed how terrifying this technique was. If it were a Sea Demon, he might be able to hypnotize hundreds of them. No matter how low the realm was, the number might be even more terrifying.

Of course, the number of hypnosis was one of Han Fei's experiences in cultivation. In fact, he didn't know if he could hypnotize so many of them. Although there were many marine creatures, they weren't all there as experimental articles.

Knowing that he didn't have time to continue cultivating, Han Fei recalled Little Fatty and the others. At this time, Han Fei didn't cross the void.

Mainly because of the old turtle's reminder, Han Fei was now very vigilant of the strong. He had to do some calculations before doing anything.

Just half an hour ago, Han Fei calculated that the road ahead would be dangerous.

Why was it dangerous? Han Fei didn't know.

However, they were already close to the Royal City's territory. A million kilometers was actually very far. Even Venerables couldn't see such a distance. As for the kings, even if they could see them, would they?

Besides, he had great luck, and the old turtle was with him. Logically speaking, even a king couldn't peep at him so remotely.

Seeing that Han Fei seemed to be wary, the old turtle said, "I don't feel any threat from the strong."

Han Fei thought to himself, I just have a hunch. It may be because of the danger in the sea, or I'm overthinking.

For three hours in a row, Han Fei's speed was neither fast nor slow. At this speed, if there was no danger, he would tear the void and go directly to the Royal City.

Just as Han Fei was perceiving his surroundings and checking the situation, he suddenly sensed an aura fluctuation in a secret realm.

"Huh? A secret realm?"

Han Fei couldn't help but frown. Did the danger he foresaw come from here?

Because it was a secret realm, perception range was useless. The old turtle naturally couldn't perceive it either.

The old turtle asked, "Are you going to explore it?"

Han Fei was slightly confused. "This secret realm must be special to make me feel a bit uneasy. Besides, even if there is danger, I have you help me!"

The old turtle said, "It's possible that there are already people in this secret realm. Many auras have been left here. Someone must be exploring it."

Han Fei's eyes flashed. That's it. It turned out that the real danger came from here. However, what was wrong with someone already being here? He, the old turtle, and Yu Wendao, plus Punishing Saber and the other three, could be considered three Half- Venerables.

With this in mind, Han Fei felt that unless a Venerable appeared, who could compete with him?

Immediately, Han Fei grinned. "As it happens, if I fight outside, it's easy for others to spy on me. But in this secret realm, the timing, location, and people are all favorable to me. It's simply a free gift. Why not take it?"

Buzz!

Han Fei stepped in and immediately appeared in an undersea current. He didn't know where it was exactly, but as soon as Han Fei came in, he knew it was not good.

The old turtle also shouted, "Young Master, there is an ambush."

Chapter 1268: Borrowing Someone's Tribulation

In the blink of an eye.

The moment the old turtle's body appeared, an array appeared under his feet and moved him away.

Although the old turtle was strong enough, there was still a limit.

The other party had already set up a trap, waiting for them to take the bait. No matter how strong he was, so what? Besides, the old turtle was still a Half- Venerable at the moment. He had been cleansing Gui Sanqing's body all the way and didn't seem to be cultivating at all.

Han Fei had no time to think at all. At the moment when Gui Sanqing was teleported out, a blade mark swept across the back of Han Fei's neck.

What appeared almost at the same time as the knife mark was a visible water-shaped sound wave and a soul piercing.

Not only that, under the triple bombardment, spider silk entangled Han Fei's feet.

Han Fei's reaction was very quick.

The moment he appeared in this space, he immediately shrank space and activated the Near at Hand Technique.

As if the other party had foreseen Han Fei's move, the void suddenly exploded in the direction where Han Fei fled, full of cracks and full of killing intent.

This was the drawback of the Near at Hand Technique. Although he had the ability to shrink space, he shrank space instead of avoiding it.

As a result, if a void crack appeared, they would cut Han Fei in a faster way.

In the past, the Fish Dragon King would just pay a price to forcibly terminate law enforcement. But even so, it wasn't very safe.

Han Fei decided that he might as well beat them at their own game.

Immediately, Han Fei pretended to fall for the trap, only to see that the Near at Hand Technique came to an abrupt halt.

Han Fei grunted, blood oozed from the corner of his mouth, and his body narrowly dodged several void cracks.

Who could have expected that there were still attacks awaiting him?

Someone was actually afraid that he wouldn't be able to hurt the Fish Dragon King, so he set up a string of red sand-like substances in the void crack.

As soon as this thing appeared, Han Fei felt that the Heaven Spirit Detoxifying Insect in his body moved. A large area of red poison was hooked by the Heaven Spirit Detoxifying Insect and swallowed.

Han Fei said telepathically, Old Yuan, don't be hasty. Let me put on an act. Let's see who set me up.

"Pfft!"

With a thought, Han Fei vomited a mouthful of blood and protected his body with demonic energy, looking as if he was struggling to break through the poisonous mist.

"Cough, cough!"

Han Fei staggered and shouted, "Who set me up? Come out!"

"Fish Dragon King, aren't you usually very arrogant? My brother died in the Thousand Mountain Ancient Realm. Why are you still alive?"

Hearing this voice, a person appeared in Han Fei's mind: Yu Guang, the ninth place on the Genius List.

Yu Guang was Yu Hong's brother. Because he was good at poison, he had once won against the Fish Dragon King by a fluke, so he was ranked ninth. It was also because of that time that many people felt that the Fish Dragon King was too weak.

And the position of the Fish Dragon King was awkward! He was taken as the kind of person who could challenge because they thought he was the weakest among the top ten geniuses.

Besides, the Fish Dragon King happened to separate Yu Guang and Yu Hong on the Genius List.

Now that Yu Hong had died, whether it was done by the Fish Dragon King or not, Yu Guang would only put his hatred on him.

In addition to Yu Guang, there was also a Shark-Man, who was very muscular.

This person was good at spatial cracks. It was precisely because of his spatial crack technique that he was ranked eighth on the Genius List.

The sharkman grinned and said, "Fish Dragon King, I'm told that your bloodline has mutated this time. Hey... If you were still the old you, I wouldn't have attacked you. But now! You can die."

Han Fei gritted his teeth. "Yu Guang, Shark Ball... and a few pieces of junk. What makes you think you can kill me?"

A woman in a black robe shouted in a low voice, "Fish Dragon King, you call me a piece of junk? Last time we fought, we tied, OK?"

A woman appeared in Han Fei's mind, who was evolved from a manta ray. She was extremely ruthless. Her bone spurs were extremely hard. Although she was ranked below 20, her defense was among the top five of the Genius List.

Han Fei gritted his teeth and shouted in a low voice, "Gu Buyu, what abilities do you have other than your hard bones?"

At this moment, another person said, "He has been heavily wounded, poisoned, and shackled by my soul thread. He's dead for sure today. What else does he have to say?"

Bang!

At this moment, dozens of kilometers away, the old turtle was fighting four people alone, and they were evenly matched.

Yu Guang sneered, "Yu Ding is right. Fish Dragon King, you are dead for sure today. Even if it's found out that we kill you, so what? Will the Venerable attack us for you alone? However, your Dragon King bloodline is not bad. It's suitable to become my new poison."

Shark Ball chuckled. "Fish Dragon King, I'm told that you've made a name for yourself this time. I wonder what junks the Cloud Sea Forest and the Blood Sea Divine Wood City had sent over. However, it doesn't matter. As long as you hand over your resources obediently, I won't do anything."

Han Fei glanced at them coldly and said via voice transmission, "Old turtle, will the four servants run away?"

The old turtle replied, "They can't run away. Do you want them to live?"

Han Fei soon decided. "Kill the two weakest ones and let the other two go. I'll only release Gu Buyu, and kill all the others."

The old turtle asked, "Huh? It seems that you've caused a lot of trouble this time!"

Han Fei sneered. "It's a waste not to take the resources that have been offered to us. Besides, the current Fish Dragon King is different from the previous one. We can show them."

After that, Han Fei gritted his teeth and roared, "You four shameless bastards, fight me head-on if you have what it takes!"

Shark Ball scoffed. "Fish Dragon King, you're too conceited. You just have the bloodline of the Dragon King, don't you? In this world of cultivation, the strong prey on the weak. Fight fair and square? Heh, do you think this is the Royal City?"

Han Fei pretended to breathe deeply, and suddenly, demonic energy burst out, and he shrank the ground into an inch, choosing to attack Yu Ding who was performing Soul Piercing.

As if knowing that Han Fei would jump up, Yu Ding was immediately dragged back by invisible threads behind him. At the same time, a large net was thrown at Han Fei.

Han Fei found that it was something similar to a soul lock. Chu Qingyan had once used it on him, but it had been absorbed by the Demon Purification Pot.

Han Fei thought to himself. Not bad. Since these people were all prepared and he didn't want to kill them all, he might as well pretend more convincingly...

Han Fei stepped back and thrust his spear out.

As for Gu Buyu, she flashed a pair of white bone wings and blocked Han Fei's blow. However, she was also sent flying thousands of meters away.

After all, no matter how flustered the Fish Dragon King was, he was ranked tenth. Even if defense power meant everything, no one could compare to Han Fei.

Shark Ball held his knife and grinned ferociously. "Fish Dragon King, I finally don't need to see your arrogant face again."

Knife light bloomed, and a shark phantom with sharp teeth appeared. This was Shark Ball's Companion Spirit, which was also a shark.

Seeing that Han Fei seemed to be weakened by more than half, Yu Guang was overjoyed and immediately thrust his spear at Han Fei's chest.

Bang!

Han Fei swept his spear to block the knife light, but he was still stabbed into the seabed by Yu Ding.

Feeling the soul power absorbed by the Void Lines, Han Fei spurted another mouthful of blood.

When he vomited blood, Han Fei let the Soul Restriction Net cover him.

Han Fei roared, "Gui Sanqing, escape! Report what happened today to the Venerables!"

Shark Ball and the others slightly shivered and shouted almost at the same time.

"Kill Gu Sanqing. He must die."

"Seal the exit. He can't escape."

Yu Guang sneered, "Fish Dragon King, you think too highly of your follower. Although Gui Sanqing is not weak, are our followers weaker than him? Today, even if you two have wings, it will be difficult for you to escape."

As he spoke, Yu Ding had already come to Han Fei and sneered. "Under the Soul Restriction Net, no one can escape. Fish Dragon King, you have nowhere to escape."

Yu Guang, Shark Ball, and the others had already walked to the net and looked at Han Fei contemptuously.

Shark Ball said, "Yu Guang, I'll take my portion."

With that said, Shark Ball walked towards Han Fei step by step, until he was less than two meters away from Han Fei. Then he slashed down with his long knife, leaving a deep cut, intending to kill Han Fei.

Clang!

In the next moment, something shocking happened. Shark Ball's attack landed on Han Fei's shoulder, but Han Fei was looking at them with a faint smile as if he were looking at a fool.

Instantly, Shark Ball and the others felt their hearts skip a beat. What's going on?

Almost subconsciously, they tried to retreat.

However, in the next second, Han Fei had already disappeared.

"Puff!"

With a tearing sound, Yu Ding, who was still immersed in the pleasure of killing the Fish Dragon King, was directly torn in half.

Han Fei waved his hand again and stabbed the Instant Mystic Spear into Yu Guang's chest.

Shark Ball and Gu Buyu were shocked. Wasn't the Fish Dragon King already bound by the Soul Restriction Net? How could he still attack?

Besides, they discovered a problem at the same time: The Fish Dragon King had become stronger, much stronger! Did he get an opportunity at the front line?

Shark Ball shouted, "How is it possible?"

Yu Guang was dumbfounded at the moment. He had been pierced through the moment he heard the sound. But at the critical moment, the purple light burst out, the black smoke dispersed, and a large amount of poison spewed out, trying to stop Han Fei.

However, the Void Lines had already reached him.

Yu Guang felt his soul shake, and part of his soul was controlled. But he was a super powerhouse on the Genius List anyway. His soul condensed into a knife, trying to cut off the soul power that controlled him.

Unfortunately, the gap between the realms was obvious.

Since Han Fei had already taken action, how could he resist?

When Yu Guang was about to shout at Shark Ball, Han Fei's spear had penetrated Yu Guang's chest, and demonic Qi exploded, directly blowing up Yu Guang.

In less than a second.

Two powerhouses were ambushed and died instantly.

Seeing this scene, Gu Buyu felt a chill down her spine and her body was covered with white bones.. She quickly retreated and shouted as she retreated, "Qing She, put down Gu Sanqing and come save me."

Chapter 1269: Dragon King Bloodline, Shocking Dragon Roar

Hearing Gu Buyu's cry for help, the people who were besieging Gu Sanqing all changed their expression. It was four against one, but they still couldn't beat Gui Sanqing! Besides, he was ambushed. There was no reason for them to lose!

Although they were fighting on the side, they had been paying attention to this side. It could only be said that Han Fei had deceived everyone.

At the moment when Yu Ding and Yu Guang died, the Dao Seeking realm sea demons who followed them roared, "Young Master!"

As soon as the two Dao Seeking demons took a step forward, they hit an invisible barrier.

The old turtle said indifferently, "Don't you think it's too late to leave now?"

Han Fei ignored Gu Buyu. After piercing through Yu Guang with his spear, he retreated to his original position. As soon as he dodged, a red light chopped off Yu Guang's remaining body.

Shark Ball took action, but he was still half a step slower.

He knew very well that in terms of speed, no one here could compare to the Fish Dragon King. If the Near at Hand Technique was weak, how could the Fish Dragon King be ranked tenth on the Genius List?

Seeing that his attack failed, Shark Ball let go of the long knife, and then thousands of knife shadows, like a torrent of knives, formed a domain.

The reaction speed and choice of timing of the eighth place of the Genius List, Shark Ball, were both very good.

He knew very well that he couldn't escape from the Fish Dragon King.

Although he didn't know how the Fish Dragon King got rid of the Soul Restriction Net, he believed that Yu Ding and Yu Guang died because they were too close to Han Fei. It would be strange if they didn't die from the sneak attack.

Shark Ball's ranking was higher than that of the Fish Dragon King.

At this moment, he certainly wouldn't be afraid just because Han Fei killed two people.

He made up his mind. The two of them were dead, and Gu Buyu had run away. Not only did the resources on the Fish Dragon King belong to him, but all his properties in the Royal City would also belong to him.

Seeing that Han Fei easily dodged his attack, Shark Ball couldn't help but smile. "Although you're beyond my expectations, you still have to die in my domain."

No matter how strong this Shark Ball's law enforcement ability was, Han Fei was not afraid at all. He didn't care about Gu Buyu who had already run away. This woman was no threat to him at all. He could let her go.

Han Fei raised his eyes, only to see a huge hollow that looked like sharp teeth in all directions. It looked like a mouth full of sawtooth, which looked horrible.

From the outside, Han Fei seemed to be in a strange big mouth, which was full of sharp teeth.

Crack...

The sharp teeth were closing, and the sharp teeth even left white marks on the seawater.

However, Han Fei sneered in his heart. Looking at the sharp teeth that were about to close, he raised his hand and grabbed a huge tooth.

Crack!

The tooth blade shattered, and Han Fei held the long spear back. As he raised his hand, he used the Monkey King's Three Thousand Sticks, and the shadows of the rods spread out.

Bang! Bang! Bang!

Ka ka ka ~

Shark Ball was full of disdain and expectation, but when he saw Han Fei breaking the tooth with one hand, he was dumbfounded.

Shark Ball was dumbfounded. "This... Fish Dragon King?"

Shark Ball wasn't the only one who was dumbfounded. The four Dao Seeking realm demons were also dumbfounded. That was Shark Ball's famous fatal blow.

In the entire Royal City, few people in the same realm as him could withstand this chewing power, not even the former Fish Dragon King.

However, this time, the Fish Dragon King broke it with bare hands?

"Sea Suppression."

While they were distracted, the old turtle took advantage of the moment, and a turtle shell fell like a mountain, enveloping all the four Dao Seeking realm demons. Among them, Yu Ding's follower was the weakest, so his body was directly bent and he fell to the ground.

"Die!"

The old turtle slapped the man's head.

In an instant, the Dao Seeking realm demon was torn to pieces. And in the face of the attacks of others, with the protection of the turtle, the three people besieging Gui Sanqing were speechless.

Few people liked to fight turtles. They had a shell, and the stronger they were, the harder their shell was!

The four of them wanted to catch Gu Sanqing and bombard him a million times, but one of them died first.

The old turtle asked via voice transmission, "When shall I release them?"

Han Fei said, "Wait a moment. Let me get out of the secret realm first."

In Shark Ball's chewing domain, the teeth blades were shattered and the domain was about to be broken.

Shark Ball looked awful.

This time, the Fish Dragon King must have had a great opportunity. Otherwise, he couldn't have broken his domain so easily.

They were both in the top ten of the Genius List.

There had never been a mysterious person on this list. Now, seeing that the Fish Dragon King's strength had improved greatly, Shark Ball turned around to leave.

In this clash, Shark Ball confirmed that this time, the Fish Dragon King must have had a great opportunity. Not to mention how the Fish Dragon King broke free from the Soul Restriction Net, just his strength had already exceeded his own, and his physique was shockingly strong.

Shark Ball shouted, "Uncle Bai, retreat."

However, Shark Ball discovered, to his shock, that the battle dozens of kilometers away was far more intense than his. However, the battle was locked in a space.

Shark Ball took a look and immediately retreated.

Han Fei pretended to be stopped by the chewing domain for the time being. When the Shark Ball was about to reach the exit, the domain was broken with a bang.

Shark Ball was shocked. "So fast! How could he break my domain so quickly?"

Shark Ball had no time to think about that. If he failed this siege, the strength of the Fish Dragon King must be beyond his expectations. He would work out a better plan to kill the Fish Dragon King in the future.

Buzz!

After leaving the secret realm, Shark Ball breathed a sigh of relief. And Gu Buyu had already run away.

Just as Shark Ball was about to escape, before he went ten kilometers out, he perceived that the Fish Dragon King had already left the secret realm.

"Hiss! So soon?"

Swish ~

The distance between them seemed to be shortened by half.

Shark Ball was horrified. He hadn't been able to tear the void yet, so he couldn't escape from the void. Therefore, in terms of speed, he was much slower than the Fish Dragon King.

After only a few seconds, Han Fei had caught up with him and said with a smile, "You want to leave after ambushing me? Do you think you can leave as you please?"

Shark Ball roared, and the void vibrated. The sound waves stacked up and blasted at Han Fei.

Shark Ball said, "Even if you got a great opportunity, so what? Your strength is weaker than mine. Do you think you can make up for it with one opportunity?"

Bam! Bam! Bam!

The one who answered Shark Ball was the Monkey King's Three Thousand Sticks.

The three thousand layers of waves instantly shattered the sound wave. Shark Ball blocked with two long knives in his hand.

However, the moment he touched the spear, Shark Ball was horrified. "How can your strength be so great?"

Boom...

Han Fei's figure flashed in the air, and the long rod in his hand cracked Shark Ball's bones, causing blood to flow.

Shark Ball roared, "Fish Dragon King, you can't kill me. My status is higher than yours! If you kill me, you'll only cause trouble for yourself."

Han Fei said disdainfully, "Perhaps you don't understand your current situation. Unless you transcend the tribulation now and attract the attention of the Venerables or the king in the city, you will die today."

Shark Ball was horrified. At this moment, he was covered in wounds. Wouldn't it be suicide to transcend the tribulation at this moment?

However, on second thought, he realized that the Fish Dragon King must not want to kill him directly, so he asked him to transcend the tribulation and kill him with the power of the tribulation, so that he could get away.

Shark Ball immediately shouted, "Do you think I dare not transcend the tribulation?"

As he talked, Shark Ball's strength suddenly soared, and his strength increased several times. His double knives cut through the air, forcibly blocking Han Fei's attack.

Shark Ball felt that the Fish Dragon King wanted to kill him through the heavenly tribulation, but he could also use the heavenly tribulation to protect himself. Although he might still have some room for improvement in the Sea Spirit Realm, it was not impossible to abandon that little space. A heavenly talent like him transcending a tribulation would definitely attract the attention of the Venerables. At that time, if Han Fei attacked him, someone would certainly stop him.

Besides, during the tribulation, the Fish Dragon King couldn't attack him. Otherwise, the heavenly tribulation would blow him up too.

Made up his mind, Shark Ball released all the suppression he put on himself and his strength surged. He was about to transcend the tribulation.

Han Fei looked at the dark clouds rolling in the sky and was overjoyed. That's it! If you don't transcend the tribulation, why would I kill you?

At the moment when the tribulation clouds began to gather, Han Fei suddenly performed Star Teleportation and rushed directly into the tribulation clouds.

Shark Ball roared in shock, "Are you crazy? Do you want to die with me?"

Han Fei's figure flashed and he had already inserted a hand into Shark Ball's back. The Void Lines began to devour the vitality of Shark Ball frantically.

...

In the White Shell Royal City.

Changshui Qin was calculating the date of the return of the Fish Dragon King.

Suddenly, he got up. "Huh! Someone is transcending a tribulation?"

Changshui Qin frowned. The place of tribulation shouldn't be far away. Choosing to transcend the tribulation here, the guy must be from the Royal City or a great sea demon.

But if it was a wild sea spirit who wanted to transcend the tribulation and enter the royal city, the location he chose was a bit far away.

Immediately, Changshui Qin's pupils were constricted, and she muttered, "Fish Dragon King?"

Not only did Changshui Qin notice it, but many Venerables also noticed it.

They seemed to be a little puzzled about who was transcending the tribulation. However, when someone saw Changshui Qin and another Venerable tearing through the void, they didn't join in.

However, in the Royal City, in a palace on a certain mountain peak, a perception passed through. The tribulation was a heavenly punishment, and even the king couldn't see the Great Dao at this moment. However, he could still see blurry images.

"Huh? The boy who awakened the Dragon King bloodline?"

...

As early as the moment Han Fei entered the range of the heavenly tribulation, the heavenly tribulation had changed. The vitality of the Shark Ball had been swallowed by Han Fei and he had died.

Now, because of the frequent use of the Sky Stealing Technique, his efficiency was nearly twice as high as when he was in the Thousand Mountain Ancient Realm.

Now, Han Fei could absorb one person's vitality and transform it into more than two years of lifespan.

After Shark Ball died, Han Fei pretended to be transcending the tribulation.

This was Han Fei's purpose!

Originally, he had planned to continue to hide his strength, but someone happened to send himself to him, he might as well pretend that the Fish Dragon King was transcending the tribulation.

After that, he could just use the power of the Dao Seeking realm. Then who could see through him?

Roar!

When the tribulation clouds gathered, thunder rumbled in the sky.

When Changshui Qin and the others came across the void, Han Fei was pretending to transcend the third heavenly tribulation. This tribulation was purple. Seeing this, Changshui Qin and the others couldn't help taking a breath.

At this moment, a golden dragon phantom emerged from Han Fei's body and soared to the sky. The deafening dragon roar resounded across the sea.

Chapter 1270: Law Enforcer in the Royal City

Han Fei had transcended the third lightning strike under the watch of Changshui Qin and the others.

At that moment, Han Fei was charred all over. There was no longer any scene of blood splashing into the sea because his body was already charred.

However, when spiritual fruits appeared one after another and were swallowed by Han Fei, he pretended not to see anyone and simply swallowed them.

.

In fact, Han Fei didn't even need to calculate to know that at this moment, there must be someone watching him.

On the other side, in the secret realm.

Seeing that Han Fei had succeeded, the old turtle pretended to make a mistake and let two people go. Then he killed another and snatched his Sun-Moon Shell.

Of course, it was not that the old turtle couldn't kill those people, but that he couldn't.

Otherwise, if he, a Half-Venerable, facing four enemies alone, three of whom were on par with him, killed all of them, wouldn't it mean that he had surpassed many Heavenly Talents?

Therefore, the old turtle killed Yu Ding and Gu Buyu's followers. His acting was quite convincing. His shell seemed to be cracking, which suggested that it took him a lot of effort to kill the two of them.

Bang!

When a shark and a Half-Merman rushed out of the secret realm, the tribulation clouds in the sky hadn't completely dispersed. They could only see that on the sea, someone was charred all over and seemed to have succeeded in transcending the tribulation.

The old turtle appeared on the sea after them.

He glanced around and quickly rushed in Han Fei's direction, looking at the two big demons with bruises all over his body. "Bai Wuzhu, I will report what you did as it is. You tried to ambush Young Master Dragon King, which is against the law of the Royal City."

In the distance.

Several Venerables scanned the area with their perception and looked at each other. They already knew what had happened.

The other Venerable glanced at Changshui Qin. "Will you take care of this matter, or do you want me to enforce the law?"

Changshui Qin glanced at him and said, "You can do it! I'm only in charge of the trial. As long as the Fish Dragon King is not dead."

The person next to Changshui Qin nodded slightly and took a step forward, unleashing his suppressing power. He waved his hand at the sky, and thousands of electric arcs were grabbed back from the tribulation clouds that hadn't dissipated yet.

Han Fei's current charred state was just a disguise.

Of course, he saw this scene and couldn't help but be shocked. This person was very domineering! The power of lightning that escaped from the tribulation clouds was all captured by him.

At that moment, a person appeared in Han Fei's mind: the law enforcer of the Royal City, Hai Tinglei.

He was a Heavenly Spirit Ray who became a Venerable and could swallow all the lightning in the world. He was one of the strongest masters in the White Shell Royal City who had experienced four heavenly tribulations.

Unsurprisingly, this person also transcended a Four Nine King Tribulation.

But some people said that swallowing thunder and eating electricity was just the Great Dao of Hai Tinglei. In fact, the fourth lightning bolt when he transcended the tribulation was swallowed by him.

Either way, Hai Tinglei was a real powerhouse.

At this moment, a thunder rumbled, and a suppressing power descended. Everyone was refreshed.

The old turtle lowered his head and said, "Master Law Enforcer."

Shark Ball and Yu Guang's followers were also frightened. "Greetings, Master Law Enforcer."

With a casual grab, Hai Tinglei reached into the void with one hand and directly grabbed Gu Buyu who had been fleeing in the void for a long time.

Gu Buyu looked horrified.

When she saw that it was Hai Tinglei, her face suddenly changed and she hurriedly said respectfully, "Master Law Enforcer."

Hai Tinglei snorted softly, and Gu Buyu fell to her knees, bleeding from the corner of her mouth.

Then he glanced at the two followers. "Gu Buyu, Yu Guang, Shark Ball... Oh, there's one more person."

As he spoke, he blasted the previous secret realm with his big hand, slightly surprised, and grabbed four bodies.

Among them, Yu Guang and Yu Ding had already died, along with two great demons at the Dao Seeking realm.

Hai Tinglei couldn't help but take a deep look at the old turtle and said in a low voice, "Gui Sanqing, have you also obtained an opportunity?"

Gu Sanqing hurriedly said, "Master Law Enforcer, Young Master had gained an opportunity and sorted out the hidden illness in my body, so my strength has improved."

"Oh?"

Hai Tinglei couldn't help but glance at Han Fei. What Gui Sanqing said seemed to make sense. Gui Sanqing wasn't weak, and it was useless for the four Dao Seekers to besiege him. As a turtle, its defense power was terrifyingly strong. He could even withstand the attacks of Venerables.

However, it was rather surprising that Gui Sanqing could kill two of them under the siege of the four enemies. This was not something ordinary Half-Venerables could do.

Demonic energy surged around Han Fei, and Hai Tinglei glanced at Changshui Qin. "Anyway, he is going to a forbidden area-level secret realm. You can give him some resources now."

Changshui Qin nodded slightly and waved his hand. A huge amount of spiritual spring wrapped Han Fei, and a hundred spiritual fruits were thrown out.

This time, it was really beyond his expectations that the Fish Dragon King could survive. Giving him some spiritual spring and spiritual fruits was nothing. Besides, these things were nothing to a Venerable.

Han Fei had to absorb them cooperatively. Then a spiritual vortex appeared, and the unstable strength of the junior Dao Seeking realm gradually began to stabilize.

Seeing this, Hai Tinglei glanced at the three people who were still alive. "Gu Buyu, Yu Guang, Shark Ball, and Yu Ding conspired to ambush the Fish Dragon King, a Heavenly Talent of the Royal City. Do you have any objection to my verdict?"

At this point, who dared to argue?

The Venerable was not a fool. Gu Buyu immediately shook her head. "I plead guilty. Please punish me, Lord Law Enforcer."

Hai Tinglei snorted expressionlessly. "In view of the fact that the Fish Dragon King is still alive, Shark Ball, Yu Guang, and Yu Ding deserve to die. I sentence you to guard the Wall of Death for 30 years. Any objections?"

Hearing the words "Wall of Death", Gu Buyu trembled and gritted her teeth. "I'll accept my punishment."

Hai Tinglei grunted and ignored Gu Buyu. Instead, he looked at the other two. "Bai Wujiu, Yu Qing, you two follow your masters. Although you are not to blame, choices are very important in the path of cultivation. You will be punished to guard the gate of the Demon Subduing Tower for 30 years. Any objections?"

Both of them were trembling.

Han Fei seemed to be able to feel the fear of the two of them. He thought to himself, What is the Demon Subduing Tower? He knew the Wall of Death was the blank sea area that separated the Thirty-Six Mystic Worlds. The so-called guarding was actually equivalent to exile. Gu Buyu was a Heavenly Talent. After being exiled, she would be left to fend for herself for 30 years, and the Royal City would no longer provide her any resources and trial support.

At that time, if Gu Buyu worked hard enough, she could rely on herself to explore some opportunities near the Wall of Death and might even catch up to the pace of the growth of the Heavenly Talents in the Royal City.

But the Fish Dragon King had no memory about the Demon Subduing Tower at all!

Wait a minute... Han Fei suddenly thought of something. In the Fish Dragon King's memory, there was information about the forbidden areas. It seemed that this Demon Subduing Tower was one of the main forbidden areas.

However, the Fish Dragon King had never challenged any forbidden area because he once challenged a Purgatory-level secret realm and had almost died. After he came out, he was half dead and had to rest for three months.

Seeing that the two Half-Venerables were trembling, Han Fei couldn't help but think that he was going to the forbidden-level trial field too. He smiled bitterly. I'm afraid it's not simple!

Bai Wujiu and Yu Qing bowed their heads and said in unison, "We have no objection."

Han Fei thought to himself, You're already scared to death, and you still have no objection? It seems that Hai Tinglei is very powerful!

Seeing that the two of them had no objection, Hai Tinglei slightly nodded and looked at Changshui Qin. "It seems that the Fish Dragon King had gained a great opportunity this time. Since you're innocent, you can go now. And Shark Ball, Yu Guang, and Yu Ding's properties will be sent to your residence later. But since Gu Yu survived and was sent to guard the Wall of Death, her resources won't be given to you."

Changshui Qin nodded slightly. "Okay, you can decide. I'll just wait here."

Hai Tinglei extended his hand and grabbed, taking the three of them away. The other two Venerables didn't appear but just glanced at them. After knowing the result, they left.

Han Fei didn't wake up until half an hour later. The charred flesh on his body was cracking.

When he saw Changshui Qin, Han Fei pretended to be stunned and hurriedly said, "Master Venerable?"

Changshui Qin smiled faintly. "It seems that the opportunity you gained this time is indeed not small. No wonder you have the courage to challenge a forbidden-level difficulty. Since you want to challenge it and have chosen this path, you'll have to walk it well. In view of the fact that you are forced to transcend the tribulation, I'll give you half a month to consolidate your strength and give you another life-saving method to enter the trial in half a month."

Han Fei complained in his heart, You're mistaken! If I had known that delay would bring me danger, I would have come to the Royal City as quickly as I could. I wouldn't have wasted my time outside!

However, Han Fei certainly couldn't say that now. This was probably God's will, forcing him to go to a so-called forbidden place.

Han Fei seemed to feel a sense of pride from the bottom of his heart. "Thank you, my lord. I've been preparing for this trip for a long time. I must win the forbidden-level trial."

Anyway, going to a forbidden area was inevitable.

Han Fei couldn't do anything to it. Besides, since it could be called a forbidden area, there must be danger and opportunity coexisting. The more dangerous it was, the greater the chance.

Other people might be worried that he would die in it, but as long as the so-called forbidden area wasn't crazily dangerous, why couldn't he give it a try?

Seeing Han Fei's expression, Changshui Qin chuckled. "Fish Dragon King, I haven't seen your strength with my own eyes. However, I find that you're getting more and more arrogant. I hope you can come back from any forbidden place alive.. When the time comes, I'll wait to see if you can enter the top five of the Genius List."
