

GOF 1371

Chapter 1371: Spare None

The so-called Heavenly Talent of the Royal City was shocked. He didn't notice the sudden appearance of this voice at all. There was a powerhouse of the same realm on the human side?

"I heard that you are very arrogant?"

The Half-Merman was shocked to hear the sound.

Without even turning his head, he exerted strength in his hands, intending to directly hold the two people down to use them to fight.

However, he discovered, to his shock, that he couldn't move anymore! The terrifying pressure and the strong killing intent directly made his legs go limp.

In the void, a voice shouted, "How dare you! How can you, an explorer, fight the Sea Demon Realm? Do you want to be besieged by all of us?"

Han Fei grinned. "Besiege?"

"Hehe, I'm right here. Come on, try besieging me!"

Beside him, Song Yi and the other man, who were saved by Han Fei, looked at Han Fei in shock.

Song Yi took a breath. "Are you... Han Fei?"

Han Fei glanced at her casually and didn't remember this person. Then he turned around and stepped out. In an instant, he appeared in front of a sea demon. Without even doing anything, Han Fei directly smashed him into pieces with his physical strength.

Swish swish swish!

Han Fei's figure shot out like an arrow, killing one person with each step he took. What kind of shitty king vs king, general vs general, and soldier vs soldier? As long as the other party couldn't escape, what was the big deal of bullying?

Buzz buzz buzz!

With a flash between Han Fei's eyebrows, Nine Tails, Little Fatty, Little Gold, Little Black, and Little White appeared.

The only one who didn't appear was the Licking Dog. Firstly, it was because he had too many contractual spiritual beasts. Although the humans were allies, he didn't know what would happen if the people in the Thousand Star City heard it?

Han Fei stepped into the air, and the illusion of mountains and rivers appeared.

Han Fei shouted, "Everyone, hold off your opponents. Don't let them escape."

Countless human Hidden Fishers were stunned.

The law enforcers also turned their eyes to him. Who is this guy? Have we met before? Why are you giving orders?

An Explorer asked telepathically, Who are you? Do you know what you're doing? How can you stop the enemies multiple times more than us?

Swish! Swish!

Blue and red colors appeared at the same time.

Han Fei shouted, "Water Luster, Fire Seed, seal this place. Let nobody escape."

Immediately afterward, green vines spread out in all directions, and knife light shot through the air.

"Tree Spirit Demon Entanglement, Punishing Saber Slash!"

"Nine Tails, Little Gold, Little Fatty, attack at will."

As Han Fei spoke, he activated the Beast King Technique, the Agility of Wind, the Heavenly Void Divine Movement, and the Void Lines.

Puff, puff, puff!

In the battle not far ahead.

In the blink of an eye, three Sea Spirits were instantly killed by Han Fei.

The three law enforcers who were fighting them didn't even see Han Fei. They saw that although the enemies in front of them were moving, their bodies split and they had already died.

This speed was too fast, so fast that even these Sea Spirit Half-Mermen... didn't realize what happened.

"A*shole, stop..."

"Not good, this guy is strong."

In the void, someone had just stepped out when he saw this scene. He immediately shouted, "Not good. The humans are already resorting to all means. They're actually bullying the weak and breaking the rules? Quickly go back and spread the news."

"Heh!"

Shua!

A cold glint flashed between the heavens and earth.

Before this person could escape, he was killed by a sword.

In the sky, some sea demon could see a corner of the outside world. Seeing this, he shouted, "Xue Shenqi is lawless. He is literally announcing the arrival of a big war in advance. Retreat!"

Among the humans, there was a middle-aged man who was surprised. Is that Han Fei?

He had met Han Fei only once before, but he had worked under Xue Shenqi. He knew that Xue Shenqi's attitude towards Han Fei was different.

He was also present at the ancient battlefield back then. It was all because Han Fei obtained the Sea Quelling Painting, which caused many Venerables to beat up the strong masters in the Thousand Star City.

It could be seen that Han Fei's identity was not ordinary.

At this moment, Xue Shenqi was not here, and he was in charge. He immediately shouted, "Everyone, entangle your opponents. Don't let anyone go."

As soon as this person said so, a shadow swept across the void. A spear beam exploded, and an advanced Dao Seeking demon exploded in an instant.

Instantly, many Dao Seeking realm demons panicked. Where is he? We can't even see him!

Unfortunately, when all of them scanned with their perceptions, they still didn't find a single person. Even the humans were dumbfounded. What kind of method was this? Could it be that there was also an unknown powerhouse here?

Jing'er, on the other hand, watched in detail from a distance.

The battlefield in front of her wasn't very big in her eyes. In the Fiery Sea or the Dark War Port, such battlefields were common.

However, at this moment, there was a huge gap in strength between the two parties.

Han Fei had actually tried to change the situation of the battle alone and didn't want to let any sea demon escape? Even a junior Venerable might not be able to do that.

In particular, Han Fei's sneak attack in the void almost fooled her.

When her perception swept across the void, she found a humanoid shadow in the normal void.

That figure didn't have a real body at all, just an illusion. If it hadn't attacked just now, she wouldn't have noticed it.

"Huh? A clone?"

Jing'er was somewhat dumbfounded. Where did this clone come from? What kind of clone was this? She had been by the queen's side for so long and had heard a lot about clones! But she had never seen this one.

Boom... Boom...

When two great demons at the Dao Seeking realm died, the sea demons were only surprised but didn't retreat.

They should have had a chance to retreat. In the beginning, even if Han Fei attacked with all his strength, there would definitely be people who could escape from this place.

But at this moment, Han Fei's white mist body had already stepped into the void. As he activated the Draw Technique and Star Teleportation Technique, in an instant, another two great demons in the Dao seeking realm had died.

And this was just the record of the white mist body. The black mist body was even more unbelievable, killing the enemies at will without being noticed at all.

With cracking sounds, explosions rang out.

Anyway, at the moment Han Fei entered the void, five Dao Seeking realm demons died. This number stunned everyone.

Someone shouted, "Run!"

But the sea demon only had time to shout before he was enshrouded by a black mist that suddenly descended. He felt that his vitality was slipping away crazily.

"Ahhh~"

On the human side, they didn't know if Han Fei was launching a sneak attack or something. Anyway, he had killed eight Dao Seeking realm demons in a row in the blink of an eye. This strength was really terrifying.

The leader shouted, "Kill! No sea demon shall leave."

In fact, some people had already done so. Even if they had to burn their essence blood and consume their vitality and longevity, they had to hold their opponent back for a moment.

At least, this group of people on the Scattered Stars Island could definitely be called united. If they could kill their enemies, how could they let them go?

In Han Fei's heart, the old turtle said, "Let's finish this quickly. With so many Dao Seeking creatures dead, the other party's Venerables must have noticed it."

Swish swish swish!

Under the Agility of Wind and the Heavenly Void Divine Movement, Han Fei was extremely fast.

There were no Half-Venerables here, not even a peak Dao Seeking powerhouse. If Han Fei let them run away, how embarrassing would it be in front of Jing'er?

After all, the strongest person here was only at the same level as him, not even half a realm above him.

Han Fei didn't even know where these great demons at the Dao Seeking realm came from.

Logically speaking, when he was in the Ten Thousand Demon Valley, only Blue Feather was at the peak of the Dao Seeking realm. Or rather, he might be at the level of a Half-Venerable.

Among the Eight Wings of Blue Feather, only Qiannian Ying, who was ranked first, had broken through to the Dao Seeking realm.

Jiuhong Hai, who was ranked second, was crushed by Old Jiang.

As for the third place, Hailv Changfeng, he might have broken through to the Dao Seeking realm. However, how many years had it been?

Of course, those were the strong masters of the Ten Thousand Demon Valley that Han Fei knew. But he hadn't seen any of these sea demons here. Besides, there were more than ten of them in the Dao Seeking realm. There was definitely something wrong!

Han Fei's first reaction was that the Yin-Yang World also had a Royal City!

When he was in the Ten Thousand Demon Valley, many people used the chance to go to the Royal City as bait to encourage people to cultivate and become stronger.

"Pfft!"

Surrounded by two people, Han Fei suddenly appeared and blasted the last person to death with a punch. Then he stepped out of the void with an ugly expression.

"The Ten Thousand Demon Valley is really not the original Ten Thousand Demon Valley!"

In an instant, he had killed more than a dozen great demons in the Dao Seeking realm. This was why Han Fei was confident. This was the power of a Half-Venerable.

Ordinary Half-Venerables couldn't compare to Han Fei.

In the sea, Nine Tails and Punishing Saber were the fastest at killing sea demons.

Han Fei saw that Nine Tails' latest inherited combat skill was the Nine-Tailed Soul Stab, which was extremely extraordinary. The nine tails turned into nine void spears, which pierced almost one person at a time. With nine stabs, at most one person could survive.

The man survived only because he had a soul protection technique, but even so, he couldn't withstand Nine Tails' second stab.

Although Little Gold couldn't use the new combat skills of the Thunder Prison, his wings were sharp and he was extremely fast! Wherever he went, the sea demons were shattered. Even Semi-Divine weapons couldn't resist Little Gold's wings.

Little Fatty's defense was slow, but he was truly the most terrifying one. Every time the sucker caught a target, one would die. The error rate was zero.

As for Punishing Saber and Water Luster, because they had both reached the Explorer realm, the speed at which they executed their enemies was extremely fast. Especially Punishing Saber, he shuttled like a shadow and almost cleaned the battlefield.

Under the charge of them, on the battlefield, which was originally in an imbalanced state, the tide was turned.

Seeing this, Han Fei grabbed a few Dao Seeking great demons with one hand and shouted, "The sea demon powerhouses are dead. Kill them all, spare none."

At this moment, a human powerhouse came over.

Among them, the middle-aged man who had seen Han Fei said, "Han Fei, this is inappropriate. The other party's strong master must have known it and must be on his way over here."

Chapter 1372: Intimidation

The battle went on very quickly.

Han Fei wasn't worried at all about how fast the Sea Demon Venerables would come. At least, within a radius of 100,000 kilometers, there shouldn't be any powerful Sea Demon Venerables.

The only thing that made Han Fei a bit concerned was that the old turtle said that fifty thousand kilometers away, there were two Half-Venerables or junior Venerables fighting.

In fact, this was not a threat.

Otherwise, with Ning Jing's personality, she would've told him even if she didn't do anything. Besides, the old turtle's perception of the heavenly secrets and his divination didn't detect any danger at all.

Therefore, Han Fei was certain that this seemingly powerful battle was actually just a large-scale local battle.

Perhaps the real purpose of the sea demons was to consume the basic combat power of human beings. Therefore, even though this battle seemed huge, it was just a large-scale harassment battle of sea demons, just like those in the Water-Wood World.

For the real powerhouses in the Royal City, the lives of the sea demons in the front line were not important at all. After all, there were infinite sea demon cannon fodder in this vast sea.

However, human beings were different. Their population was much lower than that of marine creatures. Also, due to the limitation of their talent, their growth was very slow. Even Hidden Fishers were extremely rare.

Therefore, when hearing someone's doubt, Han Fei shouted, "Just do what I tell you to. Cut the crap! End the battle quickly."

At this moment, Han Fei's cold voice and cold eyes shocked this person.

The fighting scene just now appeared in the man's mind. More than a dozen sea demons in the Dao Seeking realm were killed by Han Fei in an instant. From beginning to end, the other party didn't even have a chance to escape. He killed them so easily that it didn't seem like the power of an Explorer at all!

He still remembered what Han Fei was like when he met him. But in less than ten years, the little guy who was only a Hidden Fisher back then had grown to the point of easily slaughtering dozens of great demons!

The middle-aged man thought to himself, Since things have come to this point, Han Fei has already started to kill all the enemies regardless of the means. Even if he stops now, there will be people who have seen it, so they might as well kill them all.

The middle-aged man shouted, "Kill! Attack now!"

Seeing this, Han Fei couldn't help sneering. Their years of tacit understanding in battle had made these people restrained by the rules. Little did they know that if they didn't take action, more than half of this group of human Hidden Fishers would be killed or injured.

Although Han Fei didn't know who arranged this battle, in his heart, Han Fei was a bit cautious about the Sea Demon Royal City. The other party was more foxy than he thought. In any case, such a battle must have been included in the other party's strategic system. What was funny was that some human powerhouses didn't notice it at all.

Therefore, in terms of the strategy of the Sea Demon Royal City alone, Han Fei had to take it seriously. The intelligence of sea demon powerhouses was not inferior to that of human powerhouses.

At this moment.

Above the water, thousands of human Hidden Fishers felt their blood boiling.

Unfortunately, few people remembered Han Fei after so many years. After all, among this group of Hidden Fishers, only a few seniors knew Han Fei.

Someone shouted, "It's Han Fei, the one who forged the Fei-Yan-Mu Furnace. He's back."

Someone was shocked. "He's so strong! What kind of means did he just use?"

Ordinary people couldn't see Punishing Saber and Little Gold's attacks because it was too fast. They could only see the frequent appearance of void cracks and the flickering of golden light.

Nine Tails and Little Fatty were powerful creatures that they could see. Nine Tails' Void Chains extended out one after another like spears.

No matter what the opponent did, almost no one could resist the stab of Nine Tails.

Little Fatty, on the other hand, had sucked dry all the sea demons that were attracted to him in an instant. All kinds of attacks fell on them but caused no harm to them at all.

At this moment, Han Fei finally stopped hiding. In the past, he would hide some trump cards and was even unwilling to reveal his contractual spiritual beast. Now, it didn't matter.

After all, nobody could stop him except Venerables.

If a Venerable really attacked him, he still had Ning Jing help him even if he was in danger.

Han Fei even wanted to announce that he had reappeared. It would be best if someone in the Thousand Star City noticed him and came to ambush him.

Thinking back, among the big families in the Thousand Star City, even a peak-level Explorer could easily kill him. Even if he tried his best, he still couldn't resist a casual blow from the enemy.

Now, if a peak-level Explorer were to try again, he wouldn't know who would crush whom.

All the explorers were taking action. The sea demons of the Sea Spirit Realm were running for their lives desperately. Unfortunately, they couldn't tear through the void. Even if some of them could escape from the void, how could they escape from the hands of the explorers?

Therefore, within a short while, the sea demon army collapsed, and the sea spirit creatures died one after another.

The remaining nearly 4,000 sea demon-realm Half-Mermen were being harvested.

A Half-Merman roared, "Human, you are shameless. How dare you attack us when our strong master is not around?"

"Pfft!"

As soon as the Half-Merman said so, Han Fei suddenly appeared. Facing these sea demons, Han Fei had no mercy at all. Since you bully us with numbers, I'll bully you with strength.

After only a moment, when many explorers joined the battle, Han Fei heard a voice echoing in the void.

"Human, how dare you attack the weak? Do you want to break the rules?"

Han Fei stood proudly with his hands behind his back. "Which eye of yours saw me attack? What rules are you talking about? Who do you think you are? In the territory of the Scattered Stars Island, the rules are set by the Scattered Stars Island."

Jing'er said, "A Half-Venerable has come. In the distance, two junior Venerables are also rushing over. Do you need me to take action? That person's strength shouldn't be weak. He has already comprehended a Great Dao."

Han Fei curled his lips and smiled. "Then I have to hurry up, but you'd better take a rest."

Chi la!

A crack was torn in the void, and a Half-Merman just shattered the space with a harpoon, leaving a dazzling and scorching blow like a shooting star in the sky.

At that moment, on the surface of the sea, countless people even forgot to fight. This was because that strike traversed the sky and was extremely powerful. Seeing this scene, many human explorers were horrified.

Someone said in shock, "Not good. He's a Half-Venerable."

"Hmph!"

Boom ~

As soon as the person said so, Han Fei raised his foot and walked ten kilometers with a single step. The golden fist mark radiated like a blazing sun. The Beast King Technique was activated, and Han Fei's Invincible Fist shattered the meteor-like blow with a single blow. A bright flame exploded in the sky.

The sea demon Half-Venerable thought that he could defeat Han Fei with one blow. After all, in his opinion, Han Fei was only an advanced Explorer, two levels weaker than him. How could he be a match for him?

However, Han Fei easily crushed his full-strength blow. Besides, he was shocked by Han Fei's magical footwork technique.

“Hiss! Not good. What a strong human being.”

The Half-Venerable’s heart stirred as a battle suit appeared on his body. Faced with a powerhouse like Han Fei, he had to be careful.

Roar!

But the moment he put on the battle suit, a loud roar resounded through the sky. In the eyes of thousands of people, hundreds of huge ferocious beasts that seemed to come from ancient times stepped on the void and roared.

The Half-Venerable had never seen such a scene before. The terrifying mental impact alone had exceeded the level of the so-called Half-Venerable, not to mention the hundred beast phantoms.

After Han Fei roared, the Half-Venerable knew that Han Fei probably hid his strength. He endured a splitting headache, and the two shields in his body flew out and exploded.

How could Han Fei allow the two High-quality Divine Weapons to explode here? Otherwise, many humans in the sea would be seriously injured...

“Draw!”

The swords cut through the void, and most of the terrifying explosions went into the void cracks. With cracking sounds, armor shattered, producing horrible sounds.

Han Fei shouted, “A mere Half-Venerable dares to mess around on the Scattered Stars Island? Die!”

Everyone in the sky and on the sea was dumbfounded. Wasn’t this person Han Fei? How could he easily crush a Half-Venerable?

The few Explorers were also horrified. When they heard about Han Fei, they had already remembered his record.

After all, the Thug Academy had caused a huge uproar in the Thousand Star City. Others might not know, but as explorers, how could they not know?

Today, Han Fei had killed a Half-Venerable so casually. They had to be alarmed.

In the void.

Half of the big demon’s body was cut open. Han Fei held the Embroidery Needle in both hands and pierced his body, destroying his internal organs. His vitality and soul were being forcibly absorbed by Han Fei.

After another minute, with a rip, the void was torn apart.

Han Fei held the Half-Venerable in his hand and shouted, “The sea demons are ruthless and bully us with numbers. They tried to attack the weak human beings, only to be executed by me. You saw it with your own eyes, didn’t you?”

He had clearly sensed that the void was trembling, so the Venerable-level great demon must be arriving soon. Han Fei said casually and punched out angrily.

Bang!

Blood of the Half-Venerable was spilled on the battlefield.

In an instant, all the sea demon realm Half-Mermen on the entire battlefield fled with blood on their bodies. With such a strong enemy as Han Fei around, how could they not run?

“Xue Shenqi, do you know what you are doing?”

Buzz! Buzz! Buzz!

When the void tore apart, Han Fei finally saw an acquaintance. However, Xue Shenqi had already become a Venerable, which was a little beyond Han Fei’s expectations.

As for the other person, he held a harpoon and shot three times in a row, intending to nail Nine Tails, Little Fatty, and Little Gold to death.

Because Xue Shenqi was a step late and didn’t have the time to attack, he just reminded him, “Han Fei.”

Han Fei smiled. With a thought, the three of them turned into streaks of light and returned into his body.

Han Fei clenched a fist and punched at the sky. “How dare you, a mere junior Venerable, try to slaughter my contractual spiritual beast? Who the f*ck do you think you are?”

Chapter 1373: Slaying a Venerable

Seeing Han Fei attack, the Venerable couldn’t help frowning. If he wasn’t mistaken, this human should only be an advanced Explorer. Why did he dare to attack him?

He slapped him and was about to turn around to deal with Xue Shenqi. Obviously, although he was angry that Han Fei attacked low-level sea demons, he didn’t take Han Fei seriously at all.

But at the next moment, his face suddenly changed. His palm mark was shattered by Han Fei in an instant. He couldn’t even block Han Fei’s punch?

“What?”

Han Fei had already appeared not far away from him, holding the Embroidery Needle in his hand, and a series of shocking stick shadows smashed down.

Xue Shenqi was also very surprised. Han Fei could easily block the attack of a Venerable?

However, Xue Shenqi was used to big scenes. His surprise was only for an instant. Originally, Han Fei was the son of Han Guanshu, which was already enough to impress him.

Besides, Han Fei had inherited the Sea Quelling Painting and was reputed to be the most likely to become a king.

At this moment, it seemed natural that Han Fei could fight a Venerable. Otherwise, how could he become a king?

However, the Sea Demon Venerable was horrified.

His first reaction was that Han Fei hid his strength. However, according to the power that Han Fei blasted at him, there didn't seem to be any Dao runes fused in it.

"No Dao runes?"

Xue Shenqi said, "Han Fei, attack together. Keep him here."

Boom... Crack!

The Sea Demon Venerable blocked with one hand, thinking that no matter how strong Han Fei was, his combat power could pose no threat without any Dao runes in it.

However, when Han Fei's rod fell on his arm, he knew he was terribly wrong!

"How is that possible?"

The corners of Han Fei's mouth curled up. After activating the Beast King Technique, his strength had already reached nearly 2,000 waves, which had long exceeded the so-called level of a Half-Venerable.

It could be said that Han Fei's current strength could crush this Venerable to the ground.

Even Xue Shenqi couldn't help taking a breath. The short hammer in his hand stabbed out, leaving a big hole in the man's battle suit.

With a crack, the man's forearm was broken.

Han Fei didn't stop. The Monkey King's Three Thousand Sticks fell like raindrops.

After Xue Shenqi attacked, he had already flashed below the two of them and tore the void. "Don't fight here."

However, Han Fei had already blasted out ripples, which caused surging waves in the void, and the sea surface was slightly sunken.

On the human side, eight explorers were roaring and blocking the terrifying tide for human beings in midair.

As for the sea demons, they weren't so lucky. This was because they were all weaklings and didn't have a big demon protect them. Even if they immediately dove into the sea, at least hundreds of them were crushed to pieces by the aftershock of the battle between the Venerables.

And that was after Xue Shenqi blocked some of the aftershock.

The sea demons were fleeing, and Punishing Saber and the others were chasing them. As Tree Spirit was relatively slow, in addition to entangling the enemies, he was collecting the scattered Sea Swallowing Seashells.

Although these Sea Swallowing Seashells were no longer useful to Han Fei, after all, Han Fei had already surpassed the level of a Hidden Fisher.

However, for the thousands of ordinary people on the Scattered Stars Island, these were all treasures and resources.

In midair, the Sea Demon Venerable took a hundred attacks from Han Fei in a few seconds, and cracking sounds came from his body nonstop.

He also didn't expect Han Fei's strength to be so terrifying! This wasn't a power that a Dao Seeking realm could possess at all. A thousand waves was the peak, and the realm of a Half-Venerable wasn't just a strength increase, but comprehension and use of the Great Dao.

Everyone's Great Dao would eventually transform into power, which would be added to them and make them stronger.

However, Han Fei launched a hundred overlapping waves in a row, which were extremely powerful. If it were a Half-Venerable, he would have been killed by Han Fei.

At this moment, Han Fei also experienced an obscure power, which was like a stacked wave, pushing a force out of this sea demon's body to stick to his Embroidery Needle.

However, even so, Han Fei's power still passed through the tide-like power of Dao runes and landed on the Venerable.

The Infinity Water stirred, and Han Fei forcibly pulled him into the void.

Xue Shenqi shouted, "Everyone, return to the Scattered Stars Island immediately."

Xue Shenqi immediately rushed into the void.

However, the moment he rushed into the void, he was faced with a terrifying tide impact.

A stream of water hit his face, forcing him to step back.

Han Fei detonated the Infinity Water. The terrifying power of the blow caused the sea demon to bleed all over.

In this terrifying wave of explosion, Han Fei carried the sword in his hand. The silver light was like lightning, the spiritual energy was overwhelming, and the dazzling sword light was disappearing into a sea tide.

"Hula..."

Boom ~

Xue Shenqi saw a pair of legs flying towards him.

Seeing this scene, he couldn't help being horrified. What kind of f*cking combat efficiency was this? Han Fei was too fast.

On Han Fei's side, a large black fog had already enveloped the Venerable and Han Fei.

"Roar!"

The Hundred Beast Soul Subduing Roar was activated.

The explosions continued.

Suddenly, Han Fei was sent flying.

A golden carp rushed out of the black fog. The Venerable summoned his Companion Spirit.

At that moment, the black fog shattered. The old turtle couldn't withstand the impact of the Venerable realm alone.

However, Han Fei, who was pushed back, twisted in midair and appeared in the black fog that was about to collapse.

Han Fei didn't intend to hide his means this time. Since he had encountered this battle and had a chance to fight a Venerable, he had to try the best he could.

The Water-Wood World was different. It had many strong masters, and the three parties each had nearly a hundred Venerables. The Water-Wood World had relatively few Venerables, and there were countless Venerables in the White Shell Royal City and the Blood Sea Divine Wood City.

However, in the Yin-Yang World, a Venerable was a very important figure.

Therefore, Han Fei found it incredible that he met an unfamiliar sea demon Venerable the moment he came back.

If this Venerable appeared sooner, wouldn't Xue Shenqi have to call for reinforcements from the Thousand Star City?

Seeing this scene, Xue Shenqi wasn't in a rush. After going to that world, Han Fei's strength had improved a lot. In just three years, he could even challenge a Venerable? What kind of opportunity did Han Fei obtain there to grow to this point?

Xue Shenqi stood proudly in the air, his voice dignified. "Do you need help?"

Han Fei grinned. "No, I've always wanted to try challenging a Venerable. I didn't expect to have this opportunity today."

The other party was wrapped with Dao runes and the surrounding waves couldn't move forward.

Han Fei activated his Dao Seed and shouted, "Forbid laws here!"

After more than two years, Han Fei had gained some insight into his Dao Seed. He could use some of the Great Dao rules that didn't change much in a small range. For example, by sealing laws in this space, the other party's Dao runes would be weakened by more than half in an instant.

BAM!

Of course, after forbidding laws here, Han Fei couldn't use any great techniques either, including the Draw Technique and the Sacrificing Punch.

However, this was exactly what Han Fei wanted. Without many techniques, he could only rely on his physical strength. This was a special usage he had discovered, but it couldn't last long.

In the old turtle's words, this was interfering with the rules of the Great Dao. And the Great Dao had the power of self-repair. Therefore, with Han Fei's current understanding of the Great Dao, he couldn't make this situation last long.

However, a moment was enough for Han Fei to fight a fierce battle.

The sea demon was horrified to see that his Dao was blocked and wanted to escape...

However, Han Fei was so fast. How could he let him succeed?

BAM!

Han Fei punched the sea demon Venerable in the head, knocking him dozens of meters back as if he were hitting a sandbag.

Xue Shenqi's eyelids twitched slightly. A punch from him deformed the face of a Venerable-level sea demon? How much strength did he use?

Although the Sea Demon Venerable was hit by Han Fei, he immediately realized that his physical strength could still be used. He immediately counterattacked and also threw a punch at Han Fei.

"Idiot!"

In Han Fei's heart, the old turtle muttered, An ordinary Venerable is actually fighting a body refiner? Is his brain clamped by a void crack?

Even Han Fei smiled. He watched the punch land on his mouth, but he didn't care. Because at this moment, his big fist had already blasted out.

Knock, knock, knock!

In an instant, hundreds or thousands of fists hit the head of the Sea Demon Venerable like raindrops. In the blink of an eye, the head of a giant black fish was blasted out by Han Fei.

Clearly, the sea demon Venerable had been stunned.

Each of Han Fei's punches carried a terrifying force of nearly 2,000 waves. No one could resist it! On the fish head, its scales were shattered and there were dents everywhere.

"Roar!"

Hundred Beast Soul Subduing Roar.

Void Lines.

The old turtle's black fog descended.

The body of the Sea Demon Venerable was aging at a visible speed. Xue Shenqi immediately discovered the sea demon's vitality was losing.

Xue Shenqi shouted, "Han Fei, have you practiced an evil technique?"

Han Fei looked back. "An evil technique? Of course not. I walk the righteous path, the path of a king. What you see is just the power of time."

Regardless of whether Xue Shenqi believed him or not, Han Fei continued to absorb. This was a Venerable. After swallowing this guy, his soul power would exceed 40,000 points.

In his heart, the old turtle said, "I've swallowed seventy to eighty percent of his vitality, and some of it has been extracted by you. It's impossible for him to be reborn with his blood."

Han Fei smiled and two sledgehammers appeared in his hands.

With a clang, the sea demon Venerable's fish head was shattered.

Rumble!

At this moment, the sun was blocked by the black clouds. Above the sea, the wind and clouds surged, the black clouds gathered, and a red crack stretched across thousands of kilometers. The heavy rain suddenly fell, turning into a rain of blood in an instant.

At that moment.

Scattered Stars Island, Pearl Divers' Port, ancient battlefield, Ten Thousand Demon Valley...

One strong master after another rose and looked up at the vast sky. A Venerable died today?

At this moment, Han Fei felt very comfortable! He had finally killed a Venerable.

After killing the Venerable, Han Fei grinned and tilted his head to look at Xue Shenqi. "How is it?"

Chapter 1374: Battle of the Scattered Stars Island

After killing a Venerable head-on, Han Fei didn't feel anything special.

In his heart, Han Fei felt that it was as if he had defeated a top Heavenly Talent. There seemed to be no difference.

Perhaps because his strength had reached this point, when he faced a Venerable, he no longer had the fascination he had before.

After all, the Venerable realm was just a realm. He had yearned for it in the past, but now, although he hadn't become a Venerable yet, he wasn't afraid of Venerables at all.

In the three years in the Water-Wood World, especially in the first year, Han Fei's strength increased too fast. In the following years, Han Fei was only consolidating and polishing his foundation.

Holding the Venerable's Sun-Moon Shell, Han Fei glanced at it and found that there were very few spiritual fruits and spiritual springs in it. However, it did make sense. Venerables weren't interested in spiritual spring or spiritual fruits.

However, in this Venerable's Sun-Moon Shell, there were some top materials and a different sea chart.

"Huh?"

Han Fei glanced at it without taking it out. After all, Xue Shenqi was still here.

Seeing this, Han Fei had already concluded that behind the Ten Thousand Demon Valley, there was indeed a royal city. However, the location of this royal city was extremely mysterious, and the rest had already broken into the Wall of Death.

On this map, Han Fei saw a wall. On the map, there was even a map about the inside of the wall.

However, Han Fei was a little puzzled. The Wall of Death was such a powerful seal that even the battle between the two kings failed to break it. How could the royal city of the Yin-Yang World break into the Wall of Death?

Without paying much attention to the sea chart, Han Fei turned to Xue Shenqi.

Xue Shenqi and the others must have explored the Scattered Stars Island countless times. If he knew the existence of the Wall of Death well, Xue Shenqi and the others definitely knew it.

Besides, there were suddenly so many strong masters in the Ten Thousand Demon Valley. Han Fei didn't believe that there was no royal city behind them.

Xue Shenqi and the others should be able to guess it, but they didn't know how much Xue Shenqi knew about this so-called royal city.

Seeing Han Fei again under such circumstances, Xue Shenqi sighed.

The two of them looked at each other for a moment, and Xue Shenqi slowly said, "You were right. The Ten Thousand Demon Valley is up to something indeed. If I've guessed right, they should have opened a channel to the royal city. Today, the Venerables and Dao Seeking great demons you killed should have come from the so-called sea demon royal city."

Han Fei asked, "Do you know where it is?"

Xue Shenqi said, "I don't know. If I had known it earlier, I would have done something."

After a pause, Xue Shenqi said, "Did you come back alone?"

Han Fei thought for a moment. Although Jing'er came back with him, her junior sister instructed that Jing'er shouldn't take action easily. Therefore, he'd better not tell Xue Shenqi.

Therefore, Han Fei nodded. "Yes! But at least I'm much stronger, right?"

However, Xue Shenqi shook his head slightly. "I'm afraid it's not enough."

Han Fei frowned. "Not enough?"

Han Fei thought to himself, Xue Shenqi, are you out of your mind? I just killed more than a dozen Dao Seeking great demons, a Half-Merman and a Half-Merman who had just become Venerables. Isn't that enough?

Han Fei immediately looked in the direction of the Scattered Stars Island. "What's the problem?"

Xue Shenqi said, "You should know the strength of the Scattered Stars Island. Without your father, there are no Venerables on the Scattered Stars Island. In order to resist the suppression of the Thousand Star City, I have to make a breakthrough. But even if I make a breakthrough and become a Venerable, I'm

only a junior Venerable and can only suppress Venerables at the same level. However, if an intermediate Venerable or above comes, my say will be divided.”

Han Fei couldn't help narrowing his eyes. “Someone is here to seize power?”

Xue Shenqi said, “That's right. However, the result isn't that bad. Some people from the big clans have come, and some powerhouses from the seven major sects have also come. They balance each other, so I can continue to control the Scattered Stars Island.”

Han Fei thought to himself, The complicated situation in the Thousand Star City has finally spread to the Scattered Stars Island.

Han Fei frowned. “Many?”

Xue Shenqi said, “There are four intermediate Venerables and four junior Venerables. Including me, there are a total of nine Venerables. Although you are only an advanced Explorer, your combat power... Heh, I didn't expect so many Venerables to appear on the Scattered Stars Island one day...”

Han Fei curled his lips. “You could've destroyed the Ten Thousand Demon Valley a long time ago, right? However, without the Ten Thousand Demon Valley, where could you find so many sea demons to temper human children?”

A smile appeared on Xue Shenqi's face. “You seem to have grown a lot. Indeed, it's not difficult to wipe out the Ten Thousand Demon Valley, and our human race is not that weak. But now, whether the Ten Thousand Demon Valley exists or not doesn't matter. In the end, the Empyrean Waterfall can't hold on anymore. You came back a little early, but in less than three months, or half a year, the so-called sea demon royal city will definitely appear. At that time, war will be inevitable.”

Han Fei said, “No matter what, the Ten Thousand Demon Valley must be destroyed. There are too many sea demons in the Ten Thousand Demon Valley, far more than the so-called royal city. If we kill them, at least the ordinary people on the Scattered Stars Island will be safe.”

Xue Shenqi asked, “Have you seen the royal city over there?”

Han Fei thought to himself, I've seen more than that. I've already been inside, become a Heavenly Talent of them, and explored their forbidden-level secret realms.

Of course, Han Fei wouldn't tell Xue Shenqi that, so he said, “I know the general situation. The royal city isn't as big as we think. There are two royal cities over there, with about 100,000 people in one of them.”

“Only a hundred thousand?”

Xue Shenqi couldn't help but frown. This doesn't seem right. What can a mere hundred thousand people do?

However, Han Fei said, “Don't underestimate these 100,000 people. The minimum requirement to enter the royal city is a level-six demonic heritage, which is equivalent to the level-six spiritual heritage of our human race.”

“Hiss!”

Even Xue Shenqi was shocked when he heard this. What kind of standard was this? A level-five spiritual heritage equaled the qualification to enter the seven major academies. If what Han Fei said was true, wouldn't the power of the Sea Demon Royal City be... unbelievable?

Tang Ge, who only had a level-7 spiritual heritage back then, was regarded as a treasure by the Thousand Star City. However, only those with level-6 demonic heritage could enter the Sea Demon Royal City?

What did it mean? And there were 100,000 of them?!

Of course, what Han Fei was talking about was the White Shell Royal City. As for the other Sea Demon Royal Cities, they might not be the same. However, it could be seen that the strength of the Sea Demon Royal City couldn't be underestimated!

Han Fei continued, "The lowest level in the capital is the Sea Spirit. This means that there are 100,000 Sea Spirits in the capital."

Buzz!

Xue Shenqi's face suddenly changed. He glared at Han Fei. "What did you say?"

Han Fei said, "You didn't hear it wrong. In the royal city, the weakest one is in the Sea Spirit realm. Those below this realm are not even qualified to enter it. Something might be wrong with the royal city in our world, or they would have flattened the Scattered Stars Island long ago. Therefore, since they are still tentatively fighting us, it means that their difficulties have not been resolved."

Xue Shenqi suddenly raised his head, looked in the direction of the Scattered Stars Island, and interrupted, "This matter is important. Let's discuss it later. The Scattered Stars Island has been fighting for seven days in a row, and everyone is exhausted. Since this battle is over and you have broken the rules, quickly return to support us."

...

Scattered Stars Island.

They still didn't know the news that Han Fei had returned and went on a killing spree on the battlefield.

After all, the battle on the front line was not something ordinary people could participate in at all.

On the west side, the battle between the Skeleton Shore and the Path of Giants was fiercest.

In the tide, there were densely packed Giant Feathered Scorpions and King Worms, rushing forward as if they were fearless of death.

It was fine on the Path of Giants because there was a smooth defense line there. Even the red tide impact was blocked by countless people within the range of the Path of Giants, so these ordinary sea creatures couldn't take a step forward.

However, things were not so easy on the Skeleton Shore.

The battle on the Skeleton Shore had expanded to involve more than 5,000 people. On the coastline, more than 3,000 people were resting. Spirit gatherers were undoubtedly the most difficult ones among this group of people. Their spiritual energy was almost exhausted.

Above the coast, a red figure, holding two swords, was fighting on the battlefield. From afar, she looked like a beautiful red flame, killing from south to north, from east to west.

“Commander, don’t we have any reinforcements? This battle has been going on for three days and three nights, and the last batch only took half an hour to rest. This is not enough!”

“Captain You, I’m Ling You, from the Command Center. You can’t consume spiritual energy anymore. The enemy’s law enforcers retreated in defeat three hours ago and may come back again.”

Shua! Shua!

The fiery figure threw out two slashes and killed more than 30 enemies. Then she stepped in the void, panting. “Others can rest, but I can’t. I have to maintain my momentum! Spirit gatherers, replenish my spiritual energy.”

Two spirit gatherers at the Hidden Fisher level quickly crossed the battlefield and went straight ahead.

You Lingyun heaved a sigh. “The Scattered Stars Island, year after year, day after day. Are they cultivating talents, or are they really resisting sea demons? Where are the powerhouses? Where have they gone?”

You Lingyun extended her hand, and two red long swords flew back.

She held the long sword in her hand, her long hair fluttering in the wind, and looked into the distance. “Daliang, Leng Hui, you should learn from Xiaoxiao. Fine, I’m afraid I’m going to take your old path. Wait a while longer. Wait for me to defend the Skeleton Shore.”

“Ahhh~”

“Pu! Pu! Pu!”

Suddenly, six life spears flew out of the ground. The two spirit gatherers who were replenishing You Lingyun with spiritual energy were penetrated in an instant.

“A*shole!”

You Lingyun’s face changed, and she slashed at the ground.

“Hey! You’re finally tired.”

At the moment when You Lingyun attacked the ground, a King Worm not far from her feet suddenly exploded. A harpoon hit the sky, white light bloomed, and the Sea King Strike was launched.

You Lingyun still wanted to wave her sword, but her spiritual energy was exhausted when half of the sword wave had just formed. The backlash made her vomit a mouthful of blood.

Looking at the white harpoon, You Lingyun’s eyes dimmed slightly. Sure enough, she couldn’t avoid death.

“Xiaoxiao... There’s only you left. Live on.”

“Pfft!”

You Lingyun couldn’t be more familiar with the sound of sharp blades tearing flesh. She couldn’t help closing her eyes, but...

One breath.

Two breaths.

Three breaths.

Three seconds had passed, but she didn’t feel any pain?

You Lingyun opened her eyes slowly, only to see a familiar figure standing on the sea, looking at her with a smile. “Why? Will the You Lingyun I know give up on herself too?”

Looking at the Half-Mermaid that had been torn in half under Han Fei’s feet, You Lingyun’s eyes welled up. “Ca... Captain?”

Chapter 1375: Be Careful or I’ll Beat You into an Iron-Headed Fish

You Lingyun couldn’t believe her eyes. She had long heard that Han Fei had gone to the Thousand Star City. However, not long after, some news spread that the Thug Academy had a revolt and attacked the Thousand Star City.

Regarding this, You Lingyun and the others were shocked and secretly prayed that Han Fei was fine.

At that time, Leng Hui said that he was going to ask around about this matter. However, not long after, Leng Hui died in the outer sea and they didn’t even bring back his body.

At this moment, Han Fei appeared quietly like a god.

Seeing You Lingyun’s surprised look, Han Fei smiled. “Why? We haven’t seen each other for a few years. Do you forget about me?”

“Watch out.”

You Lingyun was about to speak, when her face changed, and she shouted.

Swish! Swish! Swish!

Life spears were flying at them and five Red Demons were attacking Han Fei. They couldn’t confirm Han Fei’s strength, but Han Fei could kill a Sea Spirit, so they had to use all their strength.

The corners of Han Fei’s mouth curled up. Without even looking back, he casually waved his hand, and there were continuous explosions.

The five life spears, as well as the five Red Demons hiding underground, exploded in an instant. Almost half of the Skeleton Shore saw this scene.

Han Fei said casually, "How troublesome."

Han Fei turned around, and the seawater within a kilometer was flowing backward and suspended in the sky. In the blink of an eye, it turned into thin water blades.

Swish! Swish! Swish!

The Million Knife Spiral swept like a dragon, and a huge number of water blades flew on the surface of the sea, even piercing into the beach and the bottom of the sea.

"Pu! Pu! Pu! Pu!"

Bang! Bang! Bang!

How could these ordinary Giant Feathered Scorpions and King Worms resist the Million Knife Art that the Infinity Water transformed into? They were basically cut into pieces with one slash.

With Han Fei's current soul power, it might be a little difficult for him to control the ten thousand knives. After all, it would consume him a lot of brain power.

However, the Infinity Water had almost become a part of his body.

Therefore, this problem didn't exist at this moment. Every time a blade passed by, there would be residual knife Qi, and then tens of thousands of knives flowed out like a stream, like wind sweeping away clouds, and leaving bodies everywhere.

"Damn it..."

"Who... Who is he?"

The knives were like flying locusts. In the blink of an eye, they had cleared up all the Giant Feathered Scorpions and King Worms within a radius of dozens of kilometers.

After ten seconds, there was no living sea creature on the Skeleton Shore.

Under the horrified gaze of tens of thousands of people, Han Fei stepped in the air, holding Snowmourne, and walked a thousand meters and left a sword mark with each step.

Ten steps and ten sword marks. In the end, Han Fei stomped and a large spirit gathering array appeared. Behind him, seawater flowed backward and flew into the sky, and a huge wave rose more than 200 meters into the sky.

"Sea as a Sword."

In the face of a powerhouse of the same level, it was basically impossible to kill a great demon at the peak of the Dao Seeking realm with this kind of power. However, this was the Skeleton Shore, a coastal area near the Scattered Stars Island. The sea creatures who could rush here were not strong.

Han Fei kept slashing Snowmourne, and Spirit Gathering Arrays rose crazily from under his feet. The terrifying sword tide spread out dozens of kilometers.

Splash!

The huge tide was pushing against the sea.

In the blink of an eye, everybody on the Skeleton Shore discovered, to their shock, that the seawater had been completely enshrouded by the worm corpses and crab shells. The horrible sword wave pushed to a place that nobody could see with their naked eye, and then collapsed.

And before that, wherever this wave passed, almost all died.

Han Fei had killed countless creatures with this blow.

Han Fei could even crazily absorb the spiritual energy contained in these creatures through the Demon Purification Pot. However, for the current him, he could absorb spiritual energy from the void at any time, so he didn't need to covet the spiritual energy. After all, spiritual energy was everywhere, so he didn't have to obtain it from sea creatures.

Besides, the people on the Scattered Stars Island had been fighting for seven days and seven nights and needed a lot of spiritual energy.

Han Fei didn't want to snatch their spiritual energy. After all, these people couldn't absorb spiritual energy from the void and could only feed on these marine creatures.

After a few steps, Han Fei returned to the Skeleton Shore.

Everyone on the shore, including the guardians and scouts who had just been replaced, stood up.

These people all widened their eyes, shocked. Our tens of thousands of people have fought so difficultly on this battlefield.

The young man had swept away all the enemies with a single slash? Was he really a human?

Gulp!

Someone sighed. "Oh my god! Is this, is this Marshal Xue Shenqi?"

Someone said in shock, "I don't know who he is, but he will be my idol for the rest of my life."

Some people on the battlefield even sat down, blinking their eyes and murmuring, "A strong master. Is this the power of a strong master?"

"It's him, Han Fei, Commander Han Fei. He used to be the commander of our scouts team..."

"What? Old Hu, take it easy. Don't talk nonsense."

A newcomer exclaimed and hurriedly stopped the guy who shouted.

Someone was dumbfounded. "Old Hu, are you serious? Are you talking about Captain Han Fei who created the Fei-Yan-Mu Furnace?"

Someone asked quickly, "Is it Han Fei who attacked the Dark Hunter Legion twice?"

The middle-aged man called Old Hu said, "It can't be wrong. When I first came to the 38th Battalion, Captain Han Fei was already a commander. Now... I don't know how strong he is!"

Han Fei came to You Lingyun and pointed at her, and spiritual energy was quickly injected into her body.

Then, Han Fei waved his hand, and a white chain suddenly descended and began to flow crazily among the injured people.

Those who were touched by the white light all recovered at a visible speed.

It was the first time Han Fei used the Holy Light Chains.

He had never had a chance to use it before, but it was useful now. He didn't expect it to work so well!

The Holy Light Chains could cure nearly a hundred people at one time. Of course, the consumption was also a lot. However, Han Fei could totally afford it now.

Han Fei shouted, "Whoever is seriously injured, gather here within ten seconds."

Under the watch of You Lingyun and a group of Hidden Fisher commanders and members of the Command Center, the crowd quickly gathered.

With swishes, Holy Light Chains fell one after another. As if the beach was cracking, in an instant, the injuries of thousands of people were recovering in order.

However, Han Fei couldn't help those who had the most serious injuries, with broken hands and feet. It was said that Venerables could heal such injuries.

Amid the discussion sounds, Han Fei frowned and looked at You Lingyun. "Why are you still here?"

You Lingyun took a deep breath and looked at the powerful healing techniques one after another, thinking, This is Han Fei, a peerless Heavenly Talent and a legendary figure on the Scattered Stars Island. Isn't it natural that he can become so strong?

You Lingyun heaved a sigh. "Leng Hui, Daliang, and I have the same purpose. We all want to become stronger. So we don't want to go back to the town."

Han Fei asked, "Where are Leng Hui and Gu Daliang?"

You Lingyun smiled bitterly. "Leng Hui perished in the outer sea, and Daliang died in a battle with sea demons a year ago. I thought it would be my turn today, but it didn't expect... you came."

Han Fei sighed.

However, Han Fei just nodded slightly, took out a Sea Swallowing Seashell, and handed it over. "You've been growing up fast. You've been in combat all the time, so your foundation should be good. However, fighting all the time is not a good choice. Cultivation requires thinking, epiphany, and understanding... Rest for a few years!"

You Lingyun accepted the Sea Swallowing Seashell in confusion, only to find that there was a lot of spiritual spring, spiritual fruits, energy fruits, combat skills, and techniques in it. She even saw two long swords that were emitting flames.

"Captain!"

You Lingyun quickly came back to herself, but when she raised her head, she found that Han Fei was already a thousand meters away.

Han Fei's voice fell in her ears. "I don't want my former teammates to all die. Okay, that's it. Go back to your town to cultivate for a few years! Now it's my battle."

Since Han Fei left, every time they met, it was a short while. She still remembered when Han Fei returned from the sea, the first thing he did was to appear on the Skeleton Shore and eat hot pot with them.

You Lingyun knew that Han Fei had completely changed since then, and he had already distinguished himself back then.

Swish swish swish!

Dozens of people flew to You Lingyun and asked telepathically, "Commander, is this... Captain Han?"

"Sister Lingyun, how... strong is he exactly?"

"Isn't it said that Han Fei rose only a dozen years ago? He is still under the age of thirty! How did he become so strong?"

Someone else said, "Sister Lingyun, Captain Han is your old captain. What good stuff did he give you?"

You Lingyun looked at Han Fei's back and then at the sea that was full of bodies in the distance and shouted, "Everybody, clear up the battlefield in half an hour and be ready to support other lines of defense."

Han Fei, who had already disappeared from everybody's sight, put on a smile. You Lingyun was still You Lingyun. No matter what happened, she would always put business first.

Suddenly, a voice sounded in Han Fei's ears, "I was wondering who it was. A person actually cleared up a battlefield in a few seconds with a single slash. It turns out to be the traitor of the Thug Academy."

Han Fei scanned with his perception and didn't recognize the man. He was in the Mayor's Mansion at the moment.

Han Fei frowned slightly. "Say that again? Anyway, I just killed a Venerable. I don't mind killing another one."

In the mayor's residence, the man's face turned cold. "Han Fei, since you had escaped, why did you come back?"

Han Fei curled his lips. "Which family are you from? Shut up if you don't know how to speak.. Say it a third time, I'll beat the hell out of you."

Chapter 1376: Attack!

Han Fei was as aggressive as before!

When he had just entered the Thousand Star City, Han Fei had once forcibly taken back the land of the Thug Academy and slapped the faces of several big families. Now, this was not the Thousand Star City, but this person actually dared to mock him. How could Han Fei not be angry?

If it weren't for the fact that he was faced with a powerful enemy, based on Han Fei's personality, he would have been attacked the moment he spoke. After all, the Thug Academy had a deep grudge with these big clans!

Therefore, Han Fei was still holding himself back at this moment for the sake of the sea demons. The battle had just ended and countless ordinary cultivators were still cultivating. He didn't want to implicate them.

Otherwise, how could Han Fei let this person speak so arrogantly?

Back then, Han Fei said that he left the Thousand Star City to seek for chances, but in fact, he escaped.

Now, Han Fei felt that he had made some progress in his strength. Although he couldn't fight those intermediate and peak-level Venerables head-on, at least in the Scattered Stars Island, there should be few people who could threaten him.

If those people from the Thousand Star City broke the rules and wanted to attack him, Han Fei certainly wouldn't ignore them.

This person was so rude to Han Fei, so Han Fei certainly didn't flinch. He tore the void and arrived at the Central City Mayor's Mansion in a moment.

When Han Fei walked out of the void, many people scanned him with their perceptions, and a Venerable snorted.

The Mayor's Mansion.

At this moment, there were six Venerables here.

Among them, Xue Shenqi had just returned. As for the person who ridiculed him, he was burly and looked muscular. From his look, in the Thousand Star City, only the Yang Family people had such a style. His identity was undoubtedly confirmed.

In addition to this Venerable, there were two other Venerables wearing special clothes, who were undoubtedly from the Jade Fairy Palace and Grand Void Academy. Han Fei didn't know the remaining two. However, one of them made Han Fei feel a sense of danger. He shouldn't be a junior Venerable.

In his heart, the old turtle said, "There are only two intermediate Venerables here. One of them wants to kill you, so there's nothing to be afraid of."

The moment Han Fei entered the Mayor's Mansion, his eyes had been fixed on the young man who was full of killing intent.

It could be said that the people here basically all looked young. There wasn't even one who looked middle-aged. Perhaps in the Venerable realm, they could change their appearance at will.

Han Fei sneered. "You want to kill me so badly? Are you from the Chu Sect?"

The young man certainly wouldn't answer. He said coldly, "I didn't expect you to grow so fast after hiding for six or seven years. You've even transcended the tribulation."

Han Fei chuckled. "Why? Are you scared?"

The Yang family Venerable sneered. "Brat, although I don't know how you transcended the tribulation, transcending the tribulation and becoming a Venerable are two different concepts. Aren't you a little too arrogant now?"

Boom ~

Han Fei drew his saber and pointed it at the Venerable of the Yang family. "It's none of your business whether I'm arrogant or not. If you don't like me, come and fight me. Let's see how strong the Yang Family's old monster is after cultivating for a thousand years!"

Boom ~

The Venerable of the Yang family pressed a hand, and a green jade table was crushed into pieces.

However, the corners of Han Fei's mouth curled up slightly. "Why? You don't dare to fight, so you're venting your anger on a table? After living for thousands of years, is this all you've got? The Yang family is really weak."

"How dare you!"

A big axe appeared in the hand of the Venerable from the Yang family. He glared at Han Fei angrily and almost wanted to hack him.

However, a thin man next to him glanced at him and snorted. "If it weren't for the fact that it's a critical moment for human beings and sea demons to fight, and the death of a Venerable would've caused a great change, you would've been killed."

Han Fei said in disdain, "Do you think I'm scared of you? How dare you, a junior Venerable, talk so arrogantly? You think you can kill me? Who do you think you are?"

The Venerable of the Yang family was about to burst into fury, when the thin man said, "Young man, don't be too arrogant. Your talent is indeed not weak, and you did kill a Venerable. However, we all know that the Venerable has been fighting with Marshal Xue for several days, and his strength is no longer at the peak. I'm afraid that killing him doesn't mean anything..."

The Venerable of the Chu Sect said lightly, "Han Fei, it's said that you are going to be a king and have even received an inheritance... Why don't you guard the Scattered Stars Island? I think you should be able to handle it with your means."

Before Han Fei said anything, Xue Shenqi said telepathically, "Don't be provoked."

The beautiful woman from Jade Fairy Palace also said via voice transmission, "The situation on this island is complicated, and the situation on the sea demons' side is also unpredictable. At this moment, we need the powerhouses to hold the line."

The Chu Sect Venerable smiled as if he wanted to see how Han Fei would respond. If Han Fei agreed, he might really leave. Then he would see how Han Fei would deal with this mess.

However, Han Fei looked at the Chu Sect Venerable with a smile. "You want to leave? Then leave. The Chu Sect has always been timid, hiding in the Thousand Star City and daring not to go out. However, if you leave now, don't come back. All supply of the Scattered Stars Island to the Chu Sect will be cut off. If

the Chu Sect finds that the Scattered Stars Island is profitable and wants to have a finger in the pie in the future, I'm sorry but anyone who comes will be killed."

The Chu Sect Venerable's face turned cold. "Young man, do you know what you're talking about?"

The Venerable of the Yang family said, "What's the matter? Xue Shenqi, since when did a brat still wet behind his ears have the say on the Scattered Stars Island?"

Chi la!

The void was instantly torn apart. The Yang family's Venerable didn't expect Han Fei to take action under such circumstances. Caught off guard, he was smashed into the void by Han Fei.

At that moment, many other Venerables stepped into the void.

Han Fei held Snowmourne and slashed down, and snow fell. In the void, a freezing mark was left. The power of extreme coldness and the domineering sharpness of the invincibility intent slashed at the Yang family's Venerable.

Clang!

The Venerable of the Yang family blocked Han Fei's attack with his axe, only to be sent flying a thousand meters away by Han Fei's sword. His flesh and blood exploded on his hand, and his hand was bleeding.

Han Fei, on the other hand, had already replaced Snowmourne with the Embroidery Needle. Then, the Monkey King's Three Thousand Sticks smashed down crazily, and a wave of spiritual energy surged in the air, like a real wave of rod, hitting the enemy head-on.

Clang! Clang! Clang!

"War God Demonic Axe."

Han Fei sneered. "Forbid laws in this place."

The Venerable from the Yang family suddenly stopped breathing as if he had been frightened. His expression changed drastically.

On the other side, Xue Shenqi and the others were all shocked.

The Chu Sect Venerable gritted his teeth. "It's actually a space sealing technique!"

The beautiful woman from the Jade Fairy Palace couldn't help but sigh. "This Dao is extraordinary. In the entire Thousand Star City, there are less than five people who can match this Dao."

The Venerable of the Grand Void Academy also nodded slightly. "That's right! It's not just the Great Dao, but the time it took him to comprehend the Great Dao. It's too fast! How many years has it been? He's even able to shake a junior Venerable as an advanced Explorer! I've never heard of it..."

At this moment, Han Fei's fists shot out like dragons, bombarding the enemy with his physical strength alone.

Boom Boom Boom ~

The biggest feature of body refiners was that their heads were iron hard, their flesh was hard, and their punches were fierce.

The Venerable from the Yang family was sent staggering.

Han Fei kept punching him brutally.

There was no trick in it. This was purely a burst of strength.

In a moment, the Venerable of the Yang family was beaten to a pulp. His head was swollen, and his bones were broken in countless places.

Han Fei suddenly felt that it was about time. If he continued, the restraints of the Dao runes would disappear. Then, wouldn't he be exposed?

Bang!

Han Fei kicked the Venerable from the Yang family to the Venerable from the Chu Sect and then glared at him coldly. "I said I would beat you into an Iron-Headed Fish. I, Han Fei, always keep my word. Remember to show me respect next time. Who do you think you are? How dare you speak to me like this? If it happens again, even if we have to fight the sea demons, I will still kill you on the spot first."

The Venerables from the Jade Fairy Palace and the Grand Void Academy looked at each other speechlessly. What kind of monster was this? For the first time in their life, they saw someone blow a Venerable half to death with pure strength!

The body of the Venerable of the Yang family was recovering with cracking sounds. However, there was a trace of horror in his eyes. He thought that Han Fei is using his fists now. What if he uses a weapon?

Without the restraints on laws, the Venerable recovered very quickly.

No matter how hard Han Fei hit, he just broke the opponent's bones. Healing the wounds would only consume a large amount of energy.

Looking at the Venerable Yang who was about to go crazy, Han Fei said casually, "I've told you that you can leave now. But if you leave, from today on, you have nothing to do with the Scattered Stars Island. The Scattered Stars Island will stop supplying resources to you. And if you dare to set foot on the Scattered Stars Island again, I'll kill you."

Han Fei couldn't help looking at Xue Shenqi, thinking, Since you want to support me, you should have seen this day coming when I went to the Water-Wood World, when you were making deals with my father, and when you bet that I would become a king.

Seeing Han Fei's strength, Xue Shenqi couldn't help feeling shocked. He nodded slightly and said, "Everyone, when Han Fei left the Scattered Stars Island, he had already become a nine-star inspector. He was also one of the strongest on the Scattered Stars Island. Now, Han Fei has returned and slaughtered a Venerable. In a single battle, he killed more than a dozen Dao Seekers and more than a thousand Sea Spirits. With this battle record, he can become a commander."

A commander was at the twelve-star ranking. So far, Xue Shenqi was the only one at this ranking on the Scattered Stars Island.

At this moment, Xue Shenqi had already taken sides.

Han Fei's strength was comparable to that of a Venerable, so Xue Shenqi had to take a side. As for the big families, they were from different sects. Even if he offended a few of them, he wasn't afraid.

The Venerable of the Chu Sect snorted coldly. "Good, good! Xue Shenqi, have you completely betrayed the Thousand Star City?"

Xue Shenqi said solemnly, "Why do you say that, Venerable Chu? The Scattered Stars Island has always been fair in rewards and punishments. Han Fei made the Fei-Yan-Mu Furnace, so he can be listed as an invisible refiner and a general. This time, he killed a massive number of enemies in one battle. He can even be granted a thirteen-star ranking and canonized as the Guardian War God. After all, I haven't even hunted a Venerable yet."

The Venerable of the Chu Sect narrowed his eyes. "In that case, it's all up to Marshal Xue. Our big clans are here to help in the battle. There are many defensive lines on the Scattered Stars Island, and we can defend one.. Farewell."

Chapter 1377: From Today On, You'll Take My Place

In fact, if it were somewhere else, Han Fei would have directly killed the Yang family's Venerable.

However, not on the Scattered Stars Island.

Firstly, if he really tried to kill him, the others would definitely not sit idle. Secondly, if a Venerable died on the Scattered Stars Island, the weather would change and the sea demons would definitely take action.

Therefore, Han Fei knew that the grand plan of the human race was more important than his own honor.

At this moment, after the Venerable of the Chu Sect left, the Venerables of the Yang and Ye families naturally left. Only the two Venerables of the Grand Void Academy and Jade Fairy Palace stayed behind.

After all, the seven major academies were still somewhat related to the Thug Academy and weren't hostile to them.

Xue Shenqi said indifferently, "Okay, now that things have come to this point, let's go to the Mayor's Mansion to talk!"

...

In the Mayor's Mansion.

As soon as the four of them sat down, Xue Shenqi said, "The three people just now are Chu Qing from the Chu Sect, an intermediate Venerable. Yang Kun from the Yang Family, a junior Venerable. Ye Kai from the Ye Family, an intermediate Venerable. Now, there are nine Venerables on the Scattered Stars Island, including me. There are three intermediate Venerables. The other intermediate Venerable is from the Heavenly Sword Sect."

As he spoke, Xue Shenqi glanced at Han Fei indifferently, implying, Don't worry, the big clans aren't completely without opponents. The Heavenly Sword Sect has always been strong and won't let the Venerables of the big clans run rampage.

Han Fei nodded slightly and looked at the two people from the Jade Fairy Palace and Grand Void Academy.

Xue Shenqi said, "Elder Bingyun of the Jade Fairy Palace has just reached the Venerable realm and her strength is on par with mine. Patriarch Six Swords of the Grand Void Academy is a peak-level junior Venerable. He may break through to the intermediate Venerable realm at any time."

Han Fei cupped his hands. "Greetings, Seniors."

The two returned the salute.

In fact, they also knew that Han Fei called them seniors because he was too young.

However, Han Fei's growth was so fast that they dared not underestimate him.

Han Fei asked, "There are others?"

Xue Shenqi said, "Sun Baisheng from the Sun Family, Cao Shuang from the Cao Family, and Jian Sanqing from the Heavenly Sword Sect. Most of the people here are figures who have lived in seclusion for a long time. The only person you know is probably Sun Baisheng."

Han Fei was slightly surprised. "Sun Baisheng has become a Venerable?"

Xue Shenqi said, "He became Venerable two years ago."

Han Fei didn't really care. He had just become a Venerable. With his current strength, he should be able to kill him in one fell swoop.

Even in a head-on battle, Sun Baisheng couldn't easily resist his attack.

However, there were too many Venerables on the Scattered Stars Island.

At this time, the battle hadn't started yet, but a lot of Venerables had come. Since the Scattered Stars Island had summoned some Venerables over, the sea demons would send their strong masters over too.

Therefore, if he guessed right, these people's target was not the Scattered Stars Island but the Emyrean Waterfall.

Elder Bingyun of the Jade Fairy Palace said, "You are both new strong masters. We don't know much about the situation. Since one of you has controlled the Scattered Stars Island alone for many years and the other has the potential to become a king, we'll leave you two alone!"

In the Grand Void Academy, Patriarch Six Swords also nodded slightly. "I'll take my leave first."

After the two of them left, Xue Shenqi waved his hand and sealed the Mayor's Mansion.

Seeing this, Han Fei hurriedly asked, "Where are the other Venerables?"

Xue Shenqi said, "Jian Sanqing of the Heavenly Sword Sect is confronting a sea demon Venerable on the ancient battlefield. Sun Baisheng is guarding the periphery of the Twisted Jungle. He probably knows that you have returned and doesn't want to meet you. Cao Shuang of the Cao Family is indifferent to others' affairs. But when there is a big battle, he will appear."

Han Fei frowned. "Has the situation reached the point where even the big clans of the Thousand Star City and the seven major sects have to send people over?"

Xue Shenqi looked into Han Fei's eyes and said, "What do you think?"

Han Fei's heart sank. "The Emyrean Waterfall?"

Xue Shenqi nodded. "It's not just the big clans. Do you think the seven major sects have no such intentions? They do too. However, they are slightly better than the big clans and are also considerate of humans."

Han Fei said, "What's the situation on the sea demons' side now? They sent over so many Sea Spirits and Venerables this time. A few years ago, more than 5,000 sea demons died on the ancient battlefield. Have they recovered after only a few years?"

Xue Shenqi said, "About two years ago, a huge earthquake near the Ten Thousand Demon Valley set off a tide that even hit the area within 50,000 kilometers of the Scattered Stars Island."

Han Fei raised his eyebrows. "The range of the shock is more than 500,000 kilometers?"

Xue Shenqi shook his head slightly. "I'm not sure. When the tide came to the Scattered Stars Island, it wasn't very strong. However, after that incident, four explorers died on the Scattered Stars Island. They all went to investigate in different directions, but none of them came back."

Han Fei frowned. "Explorers' perception range is limited after all. Since there are Venerables in the Ten Thousand Demon Valley, it's normal that they died there."

Xue Shenqi nodded. "Yes. Since that time, I knew something must have happened in the Ten Thousand Demon Valley. Because of a strong hunch, I found a strong master from the Heavenly Sword Sect to guard me to enter the Venerable realm. Later, I guessed that the Ten Thousand Demon Valley and the Sea Demon Royal City should have established a direct connection."

Han Fei didn't pay much attention to the Royal City, but was quite curious about Xue Shenqi's strength. He asked in surprise, "You could become a Venerable at any time?"

Xue Shenqi said, "The longer it takes to nurture the Great Dao, the smoother the path of the Great Dao will be."

After a pause, Xue Shenqi said, "Later, three sea demon venerables came to attack us, and the Thousand Star City butted in at that time. At that time, your father and the Thug Academy had already gone into hiding. Therefore, I had to accept the people from the Thousand Star City. The good thing was that there were many Venerables, but the bad thing was that these people were not sincere and their goal was the Emyrean Waterfall."

Han Fei took a deep breath. "Can't we find the location of the Royal City?"

Xue Shenqi said with a straight face, "It must have appeared, but we can't find it. The Scattered Stars Island doesn't have enough manpower to find it. Besides, even if we find it, so what? What do you think will happen if a junior Venerable finds it?"

Han Fei certainly knew what would happen.

The Scattered Stars Island needed to be guarded, and if they found the Royal City, there must be many strong masters there. Besides, the Royal City was called the Royal City because of the existence of Deep Sea Giant Demons.

Although in the Yin-Yang World, with the Heavenly Dao Dharma Eye, it might be impossible for a king to be born, it was still possible for a half king to appear.

Han Fei couldn't help but think of the Old Monster of the Chu Sect.

That guy was probably already a Half-King. The Sky Dissecting Finger, the owner of the Heavenly Sword, and Old Han were all blocked by him, which showed his strength.

If the Scattered Stars Island also had a strong enemy at the Half-King realm, it would probably be wiped out in the blink of an eye.

Not appearing now? It didn't mean it wouldn't appear in the future.

Han Fei couldn't help but remember that the Venerable he killed had a map in his Sun-Moon Shell.

Other people were afraid that if they found the Royal City, it was impossible for them to come back alive, but he was different. He had the ability to come back.

Even without the Twin Divine Technique, he had a personal bodyguard now, didn't he?

These thoughts flashed in Han Fei's mind, and he immediately said, "Shall I go find it?"

Xue Shenqi shook his head slightly. "Even if you find it, so what? Besides, do you think there are still unknown places in this sea area? If there are, I'm afraid I have to tell you one thing. This sea area has a range. We are trapped within this world as if a huge seal is locking us here. Its range, roughly estimated, is about 8 million kilometers. In the past, many Explorers tried to walk out of that seal. However, no one ever came back after entering..."

Han Fei's heart did a flip. "Wait a minute! Are you saying that we can enter the Wall of Death here?"

"The Wall of Death?"

Xue Shenqi's eyes suddenly narrowed. "You mean this seal is called the Wall of Death?"

Han Fei didn't keep it a secret. "The Wall of Death is also known as the Rampant Sea. There is indeed a barrier there, like a circular band, in which there are ancient creatures and some ferocious beasts and demons that might never have appeared in this world. It's not only in our world, but also in the Water-Wood World, but we can't even enter it in the Water-Wood World."

Xue Shenqi frowned. "What is it like on the other side?"

Han Fei wanted to explain a little bit about the Water-Wood World. In fact, he didn't need to keep it a secret, just like the people of the Water-Wood World had long known that there was a Yin-Yang World next door...

However, just as Han Fei was about to say it, suddenly, the entire Mayor's Mansion was enveloped by a powerful pressure.

Xue Shenqi felt that his body suddenly tightened, and he couldn't even stand up.

"A great Venerable?"

According to Xue Shenqi, the so-called great Venerables were at the level of advanced Venerables or even peak-level Venerables.

Han Fei tilted his head and looked at the void, saying, "Jing'er, there's no need to make such a big noise, right?"

Ning Jing was hiding somewhere, but her voice was echoing, "The queen said that you can't say anything until the two worlds are connected."

Han Fei shrugged. "Okay! Remove the pressure first, okay?"

Shua!

Xue Shenqi was already covered in cold sweat. He suddenly felt as if a heavy burden had been lifted from his shoulders, and the pressure on his body was relieved.

As the supreme commander of the Scattered Stars Island, the Guardian War God, he didn't get up or look for Jing'er. Instead, he raised his eyelids and stared at Han Fei's eyes. "Did someone come over from that world?"

Han Fei nodded. Xue Shenqi knew what was going on. He had already guessed it. Why bother to keep it a secret?

Therefore, Han Fei said, "Don't worry. There's only one person, who is on my side. Under normal circumstances, she won't do anything."

Xue Shenqi pondered for a long time. There was no king in the Yin-Yang World. The existence of a great Venerable was enough to change many things. Sure enough, Han Fei didn't go there for nothing. He had returned with such a strong master hidden behind him!

Xue Shenqi asked, "How strong is she?"

After all, he was the supreme commander. Xue Shenqi's first thought was not fear, but how to make use of this person.

Han Fei said, "She's already a Half-King, but don't think too much. She won't do anything unless it's necessary."

Xue Shenqi clenched his fists even more tightly in his sleeves.

Obviously, the level of a Half-King had stunned him.

However, he quickly analyzed the pros and cons. Behind Han Fei, there was already the Thug Academy, Han Guanshu, and Ren Tianfei. Now there was also a Half-King.

It seemed that no one could stop him from becoming a king.

Slightly relieved, Xue Shenqi said calmly, "Okay, no third person will know this."

With that, Xue Shenqi raised his head and looked at the void, saying indifferently, "I hope you don't release your suppressing power at will. The situation here is complicated. The sudden appearance of a Half-King will change many things. It might not be good for Han Fei."

After that, Xue Shenqi looked at Han Fei again.. "From today on, you take my position."

Chapter 1378: Thousand Seal Star Turtle

"What?"

Han Fei, who had been calm, was shocked to hear that. After all, he had no management experience at all.

Han Fei quickly said, "Wait a moment... Do I look like a leader to you?"

Xue Shenqi said indifferently, "Don't forget your identity. You're going to be the king, not me. Do you think you can steal the throne by hiding behind it?"

Han Fei said, "Then can I achieve that by taking over your position? Besides, I don't know much about the Scattered Stars Island, nor am I familiar with management. If I spend all my time on management, how can I have the time to cultivate?"

Xue Shenqi didn't change his mind. Instead, he slowly got up and pointed at a red area on a sea chart in the hall. "There's no time for you to prepare. This battle will inevitably break out in a few months or half a year. Do you want to take over the Scattered Stars Island until the battle begins?"

Han Fei paused for a moment. "So, have you been ready from the beginning to let me take over the Scattered Stars Island?"

Xue Shenqi shook his head slightly. "If you hadn't grown to this level, even if I had a deal with your father, I wouldn't have given the Scattered Stars Island to you so easily."

Han Fei pondered for a moment. "At least give me some buffer time."

Xue Shenqi: "Three days."

Han Fei shook his head. "No, I have an idea. You can decide after you hear it."

...

After a while, Xue Shenqi took a deep breath.

What Han Fei said just now shocked him even more than the fact that he had a Half-King following him. Can he absorb demonic energy to cultivate?

If others knew this, such as the big clans in the Thousand Star City or even the seven major sects, the consequences would be disastrous.

This made Xue Shenqi think of a very ancient story.

It was said that in the history of human beings, there was a period where human beings tried to transform into sea demons. At that period, it was said that sea demons were transformed from humans, and the two parties were locked in a fierce battle.

Han Fei could absorb demonic energy to cultivate? This didn't make sense. Even Xue Shenqi couldn't help being a little frightened at this moment.

What if he made a wrong bet?

After another long silence, Xue Shenqi said, "Don't tell the second person about this, or I won't be able to protect you. You will be hunted by the entire Thousand Star City. No one is willing to give such great power to a person with a problematic identity."

Han Fei grinned. "Believe me, you will be glad for your choice today."

Han Fei told this secret just to test Xue Shenqi.

In Han Fei's view, Xue Shenqi was completely on his side. It seemed that he had no choice.

However, Han Fei couldn't be sure. If even the current supreme commander on the Scattered Stars Island didn't trust him, what would happen if anything happened in the future?

Han Fei would definitely snatch the king's corpse. And Han Fei didn't plan to snatch the king's corpse until the final battle erupted.

Therefore, he planned to do it now. And since he had the ability to cultivate with demonic energy, he could directly absorb it instead of giving it to the sea demons or trading it for resources with them...

In fact, Han Fei had this idea when he obtained the Twin Divine Technique.

Since the old turtle under the Emyrean Waterfall could gather Spirit Awakening Fluid and other things from the pit, it meant that the outside world was related to the place where the king's corpse was sealed.

Han Fei believed that with his current strength, he might as well go into the lake and snatch the king's corpse first...

However, his idea required some people's cooperation, not just from the turtle under the lake. Xue Shenqi had been in charge of the Scattered Stars Island for many years and knew this place very well. It would be best if he could cooperate with him.

Therefore, Han Fei took the risk and revealed some secrets that were actually not important in the first place.

...

Han Fei disappeared from the Mayor's Mansion.

Although Chu Qing, Yang Kun, and the others had already left the vicinity, the perception range of Venerables was extremely large. As the top experts on the Scattered Stars Island, their strength even exceeded Xue Shenqi's by a lot.

Therefore, their soul perception had never left the Mayor's Mansion.

Han Fei's return was too coincidental!

Why did he have to come back on the eve of the battle? These Venerables certainly didn't believe it was just a coincidence.

Furthermore, Han Fei's strength was too terrifying. He actually used the strength of an advanced Explorer to defeat Yang Kun, and he had even comprehended the Great Dao of confinement...

This kind of confinement Dao was too terrifying!

Just imagine: If a Venerable's techniques were all sealed in a certain area, how could he fight? With his physical strength alone?

Therefore, no matter what, they would not let Han Fei leave their sight.

But after a long time, Xue Shenqi had already left the Mayor's Mansion to patrol the battlefield and ask around. But Han Fei seemed to have disappeared.

Realizing that something was wrong, Chu Qing stepped into the Mayor's Mansion and his heart sank. No one is here?

Immediately, Chu Qing asked telepathically, "Marshal Xue, where is Han Fei?"

Xue Shenqi curled his lips and said disdainfully, "Everyone on the Scattered Stars Island has their own things to do. As the commander, although I haven't given him the star token yet, he has his own things to do. Venerable Chu, you don't have to ask about this."

Ye Kai, the Venerable of the Ye family, heard their conversation and couldn't help saying, "Marshal Xue, do you know what you are doing?"

Xue Shenqi said with a straight face, "I know what I'm doing. What I'm afraid of is that you don't know what you are doing! In the Scattered Stars Island, I am the supreme commander and the Guardian War God. Even if you are advanced Venerables, you have to behave yourselves. Otherwise, the people of the entire Scattered Stars Island will teach you a lesson."

A commander-level figure, even if he wasn't that strong, wasn't someone these idle Venerables who lived in comfort in the big clans of the Thousand Star City all day long could scold.

On the Scattered Stars Island, Xue Shenqi meant everything.

If they dared to attack Xue Shenqi, it would be disastrous. They would be the ones who buried and destroyed the Scattered Stars Island.

At that time, the big clans would become the enemy of the world.

No matter how many strong masters they had, they would eventually be annihilated in the hearts of all humans. In the future, if they wanted to travel in the Yin-Yang World, they would have to face the hunting of anyone at all times.

Yang Kun asked, "What do we do now? Xue Shenqi has always acted his own way. He has been in charge of the Scattered Stars Island for so many years and has never cared about us. Now, has he decided to fall out with us?"

Ye Kai also said with an ugly expression, "Han Fei is a big threat. He has grown up too fast, and his strength has grown so terrifyingly. How many years has it been? He's already so strong. If he is given a few more years and becomes a Venerable, what will happen?"

Chu Qing snorted. "How can it be so simple to become a Venerable? Don't think too much. However, Han Fei is indeed a genius. We need to report this matter to the clan. Now, I don't know what Xue Shenqi and Han Fei are plotting. This is what I'm most worried about."

Yang Kun said, "It doesn't matter what they're up to. Han Fei will definitely come out when the battle starts. Isn't he going to become a king? Since he claims he is going to be a king, how can he leave the Scattered Stars Island alone?"

Chu Qing and the others complained, but they couldn't find Han Fei, nor could they do anything.

While they were complaining, under the Emyrean Waterfall.

A black fog drilled into the deep pool.

Han Fei even saw Big Yellow who was eating fish on a rock. Big Yellow ate fish from time to time and looked at the entrance of the Emyrean Waterfall, muttering to himself, "I heard that Han Fei seems to be back?"

Han Fei was puzzled. Didn't Mrs. Yin become a Law Enforcer long ago? Why was Big Yellow still here?

However, this was not a good time to meet him.

He could fight and return in a high profile, but he couldn't be under the watch of others all the time. Otherwise, even cultivation and breakthroughs would become a problem.

Han Fei was even less willing to take over the battle as soon as he came back.

At this moment, the situation in the Ten Thousand Demon Valley was still unclear. Since he had taken over the Scattered Stars Island, he might not even have the time to go to the outer sea. Then how could he investigate the Ten Thousand Demon Valley?

How much time was there before the battle? In the end, it was up to the old turtle at the bottom of the lake.

A moment later.

The black shadow, Han Fei, appeared not far in front of the old turtle. This was because Han Fei was purely black at this moment, which the old turtle didn't notice at all.

At this moment, Han Fei met the old turtle for the first time.

Information popped up in his eyes.

< Name > Thousand Seal Star Turtle

< Introduction > The legendary seal turtle. This turtle shell is full of strange patterns, like millions of human hands entwined together, which are actually born seals that can suppress all Great Daos. Star turtles are born with arrays and are good at sealing, escaping, and fighting. They are extremely rare.

< Level > 79

< Quality > Legend

< Enforcing law > Law of Gravity

< Contained Spiritual Energy > 189,808 Points

< Effect > Eating it has a certain chance of entering the Great Dao of Arrays.

< Collectable > Seal Pearl

< Unabsorbable >

< Remarks > If you are not an array master, try not to be enemies with the Thousand Seal Star Turtle.

“Huh? Legend?”

Even Han Fei was shocked after reading the old turtle’s information. He didn’t expect the old turtle to be a legend creature.

This was the second legend creature Han Fei had met in the wild.

Last time, it was the Triple-Blazing Cold Shrimp he encountered under the Ice God Canyon, but now, he met another legend creature under the Empyrean Waterfall!

No wonder legend creatures were always hard to find...

The old turtle couldn’t help but exclaim, “Wow! Is this... the Thousand Seal Star Turtle?”

Han Fei asked in surprise, “Do you know him?”

The old turtle immediately said, “Of course. He’s a turtle too. I’ve once seen a king-level Star Turtle, which suppresses the sea and seals the sky. He’s even no weaker than me. Han Fei, can I possess this turtle?”

Han Fei immediately shouted in his heart, “Don’t even think about it. This turtle has helped our human race a lot. He has been staying here for tens of thousands of years. How can I let you possess him? What do you take me for?”

The old turtle said, “Think about it. If I possess this turtle, I can become a Venerable in a few days. With my accumulation, I can reach the advanced Venerable realm in ten years. Then I’ll be a great help to you!”

Han Fei snorted. "I don't need it! Old turtle, remember, although I, Han Fei, seem to be a devil and evil in the eyes of sea demons, in the human race, I, Han Fei, am a legend, a Heavenly Talent, and even their king. As a king, I won't allow you to attack the creatures who have helped our human race.. No one can."

Chapter 1379: Worthless Spirit Awakening Fluid

At the bottom of the Empyrean Waterfall.

The Thousand Seal Star Turtle was still closing its eyes. Strength was surging in its body now and then, but then a yellow and white color would appear on the Star Turtle, and a stripe that looked like an arm would light up.

Immediately afterward, the power that was about to surge out was suppressed and returned to peace.

Han Fei couldn't help sighing. If he guessed right, this Star Turtle's strength should have reached the level of a Half-Venerable. And he was about to make a breakthrough.

Furthermore, Han Fei could even think that if this turtle became a Venerable, it would cause a huge uproar. Besides, it had absorbed the power of the Deep Sea Giant Demon for too long, so once it made a breakthrough, it would definitely not be weak.

The Thousand Seal Star Turtle didn't know that someone had come to it. All of a sudden, it saw a star token appear in the water.

Buzz!

The Thousand Seal Star Turtle suddenly opened its eyes and perceived the token in front of it in an instant. But then, its eyes began to roll as if it were looking for something.

Han Fei said, "Senior Turtle, don't make a sound. I'm Han Fei..."

Han Fei used to live next to this waterfall and accompany this old turtle for a while. Although they didn't have many interactions, the Star Turtle's perception far exceeded Han Fei's back then. The old turtle actually knew Han Fei's life in the Empyrean Waterfall.

Besides, Han Fei had made deals with the old turtle more than once. Therefore, the old turtle seemed to be slightly relieved when it heard Han Fei's name.

The old turtle asked, "Where are you?"

Han Fei said, "I'm ten meters away from you. Don't use your eyes. Just scan around with your perception."

In the next second, Han Fei sensed that a perception was scanning him quickly.

After scanning dozens of times, the Star Turtle finally said, "Before my eyes, there is only a mass of black shadow matter that cannot be detected with the naked eye or even perception. Are you really Han Fei?"

Han Fei said, "If you don't trust me, you should know Marshal Xue's thirteen-star token, right? This token is a keepsake."

The old turtle said softly, "Okay, I believe you. Recently, many Venerables have come to the island. If you are an enemy, it's impossible for you to steal Xue Shenqi's star token without him knowing."

The old turtle continued, "Xue Shenqi's token is the highest token on the island. Tell me, what's your purpose?"

Han Fei said, "Well, I want to go to the hole under you."

"Huh?"

Stunned, the Star Turtle couldn't help but ask, "Didn't he tell you that I can't leave this place at all? If I leave here, the mountain may shake, and the seal may be broken in advance."

Han Fei said, "I know, but look at my current state, I'm no different from lake water. Even if there is a slight gap, I can enter it. If it doesn't work, I can drill a small hole in your body and then go down."

The Star Turtle was surprised. "A tiny crack will do?"

Han Fei said, "A small hole the size of a drop of water will do."

The Star Turtle pondered for a moment. "Even if you can go down, there are a thousand seals under me. You won't be able to come out after you go down. You can only leave when I become a Venerable."

Han Fei said, "Marshal Xue has already told me about it. I have my own way to return."

The Star Turtle said, "There's one more thing. Do you know that what is being suppressed below is not a human king, but a Deep Sea Giant Demon? The demonic energy is surging, the pressure is heavy, and even the tentacle flesh still has some vitalities. If you go down rashly as a human, I am afraid you will die."

Han Fei said, "It doesn't matter. You just need to give me a small opening and let me go down. I have a way to ensure my survival. Also, Senior Turtle, if you help me, I'll stand on your side when this place is unsealed in the future. Otherwise, when the day comes, only Marshal Xue, a Venerable, will guard you. It's obviously not enough. I also have the strength of a Venerable. I can guard you too."

"You? Have the strength of a Venerable?"

The Thousand Seal Star Turtle felt as if it had heard a joke. How many years has it been? When you first came, you were only a Hidden Fisher, but only a dozen years have passed, and you tell me that you have already had the strength of a Venerable?

Han Fei said, "Senior Turtle, you'll know everything when I go to the cave below you."

The Thousand Seal Star Turtle issued an order in its heart, and the thirteen-star token flew to its eyes. With a seal, the Thousand Seal Star Turtle said to the token, "Did you give this to him?"

Xue Shenqi's voice came out of the token. "Yes, this is a secret plan. Only you, Han Fei, and I know it. Do you want to fight both the sea demon Venerables and the human Venerables the day the seal is broken? Then who will guard you when you become a Venerable? If this corpse can be destroyed now, we'll just need to put on a show when the time comes. At that time, you'll have more than one person guard you."

The old turtle said, "Okay, I believe you."

Having dealt with Xue Shenqi for so long, the Thousand Seal Star Turtle trusted Xue Shenqi.

It also knew that Xue Shenqi only had one goal, which was to eliminate sea demons. This was different from the Venerables who came recently.

Besides, after so many years, the old turtle even knew that not all human beings were on the human side. In this world, there were definitely many cowards. Even a Venerable or a Venerable family would join the sea demons in the face of absolute strength.

In fact, the old turtle had betrayed the sea demons because it didn't like the behavior of sea demons. It didn't want the sea demons to conquer the world and wipe out other races.

They just represented the interests of a small group of people!

Removing the seal, the Star Turtle returned the star token to Han Fei and said, "Come into my mouth."

Han Fei immediately moved forward. Seeing the Star Turtle opened its mouth, he went straight in.

At this moment, Han Fei also sensed that a perception had scanned this place. It couldn't be anyone except a Venerable. Han Fei didn't know which Venerable it was.

However, neither he nor the Star Turtle would give him a chance to detect anything.

Inside the Star Turtle, there was a crack under its shell, which was caused by the power of the Deep Sea Giant Demon all year round. The old turtle would also absorb the Spirit Awakening Fluid from these cracks on a daily basis.

Han Fei's black-fog body quickly drilled into the crack. He saw a green liquid pouring into it bit by bit. It was Spirit Awakening Fluid.

Han Fei couldn't help but wonder, "Senior Turtle, since there is all Spirit Awakening Fluid under your body, why don't you take more of it? By dispersing it into the hands of countless humans on the Scattered Stars Island, it can relieve your pressure!"

The Star Turtle said, "Although I'm suppressing this place, it doesn't mean that I can absorb as much as I want from the gap. Once I absorb too much, it will be easier for more king-level demonic energy to attack my body. The more difficult it will be for me to control myself, the less time it will take to break the seal."

Hearing this, Han Fei didn't say anything more. With a thought, a white mist suddenly appeared.

The Twin God Technique was also a technique to break seals. It was like the Star Teleportation Technique. As long as the space wasn't completely blocked, one could escape.

It was difficult to find the body of black fog, but it was Han Fei's plan to sneak in with the body of white fog.

The Star Turtle asked in surprise, "An avatar?"

Han Fei said, "That's none of your business. Please allow me to live in your body for a while."

Then Han Fei said bluntly, "Senior, be careful. I'm going over."

When Han Fei's wisp of white mist entered the nail-like gap, he immediately felt a terrifying power rush into his body.

Although he was in the white-mist body, Han Fei still felt that even his soul was blurred.

The Star Turtle said, "Guard your mind. Don't make my crevice bigger. Drill down slowly."

Han Fei thought of something and said, "Calabash, absorb it."

Before coming, Han Fei had already turned into a Half-Mermaid.

Furthermore, because his Demon Heritage was quite high-leveled and had already exceeded the boundary of mortal meridians, he only nearly fainted because of the demonic Qi at the beginning.

While crawling out, Han Fei asked, "Senior Turtle, since there is so much demonic Qi and so much horror down below, why do you still want demonic stones?"

The Star Turtle said, "You'll find out when you reach the bottom of this cave."

Han Fei was confused. After half an hour, he finally passed through the tiny gap.

When Han Fei was completely immersed in the pit that was filled with Spirit Awakening Fluid and demonic Qi, he felt extremely complicated.

"F*ck! Can a king give birth to so much Spirit Awakening Fluid?"

Han Fei was about to ask the old turtle about it, when he felt that a power like a wandering thread was entering his body accompanied by demonic Qi.

Han Fei immediately said, "Old Yuan, don't go too far. I haven't started yet, and you've already taken action?"

The old turtle said, "Han Fei, this place is very suitable for my recovery. There is some Chaos Energy here that you can't use at the moment. Why don't you give it to me? Then I can help you at critical moments in the future."

"Chaos Energy?"

Han Fei frowned slightly. "How do you know I can't use it?"

Although he was questioning him, Han Fei didn't stop the old turtle. Last time, the old turtle's shell was cracked by the Demon Purification Pot when he tried to do something secretly. If the old turtle were smart, he wouldn't have done anything this time.

Besides, Han Fei was more convinced that the old turtle couldn't resist the suppression of the Demon Purification Pot although he could steal something from the outside world. Therefore, he didn't really care.

Han Fei's white mist body quickly turned into the appearance of a Half-Merman. Because he was used to the appearance of the Fish Dragon King, he still looked like it.

The Star Turtle, on the other hand, found that Han Fei had changed from a mist into a human form.

In its view, it was quite amazing that this magical technique could help Han Fei transform at will. It actually had the ability to fuse with special contractual spiritual beasts. But what surprised him more was not the transformation ability.

The Star Turtle asked in surprise, "You can resist the horrible demonic Qi?"

Han Fei grinned and thought to himself, Hell no! My body is already swollen. A massive amount of demonic energy has already been injected into Forge the Universe.

Seizing the opportunity, Han Fei swooshed to the bottom of the cave.

He had planned to use the Near at Hand Technique, but then he discovered that he couldn't use it, neither could he use the Star Teleportation Technique or the Heavenly Void Divine Movement.

The old turtle said, "Don't try anymore. You can't use any of your power when you're suppressed by the King's Dao runes. I sense a massive amount of demonic energy crystals down below. They're good things. You can take them."

What Han Fei released now was demonic energy, which condensed into a dazzling shield. With the demonic energy so intense, how could Han Fei care about the release of this little bit of demonic energy?

Not only that, Han Fei waved his hand and hundreds of Sea Swallowing Seashells appeared. Columns of Spirit Awakening Fluid crazily poured into the Sea Swallowing Seashells.

This was much easier than stealing Spirit Awakening Fluid from the Undersea Chimneys.

He was now soaking in seawater diluted by Spirit Awakening Fluid. It wouldn't be an exaggeration to say that the seawater was Spirit Awakening Fluid.

Other people wanted Spirit Awakening Fluid? They usually took it by kilogram.

But when he wanted Spirit Awakening Fluid, he took it by tons. Oh, no, now by Sea Swallowing Seashells.

One Sea Swallowing Seashell could accommodate more Spirit Awakening Fluid than the total capacity of an Undersea Chimney. In other words, a random Sea Swallowing Seashell contained millions of kilograms of Spirit Awakening Fluid.

This number stunned Han Fei.

He didn't know that Spirit Awakening Fluid was so cheap. The total amount of these hundred Sea Swallowing Seashells added up to a hundred million kilograms of Spirit Awakening Fluid.

Of course, this Spirit Awakening Fluid was not as thick as pure Spirit Awakening Fluid. If the diluted part was removed, there would be about one-fifth left.

However, even so, there were at least 20 million kilograms.

Han Fei thought to himself, Even a king couldn't have released so much Spirit Awakening Fluid at once. It must have been accumulated over countless years!

"Huff!"

The Star Turtle heaved a long sigh, feeling that the pressure on it had been greatly reduced. "Han Fei, collect all the Spirit Awakening Fluids now.. If you had told me that you were capable of that, I would've let you in long ago."

Chapter 1380: Make A Fortune Overnight

Han Fei controlled the Sea Swallowing Seashells with the Void Lines, and he was swimming quickly to the bottom of the cave.

While swimming, Han Fei's body became fat.

This cave was not big at first, with a radius of less than 300 meters. Around the cave, the rock walls had turned jade, forming a solid demonic Qi barrier.

Han Fei even suspected that if this place was exposed, the horrible demonic Qi would probably cover the entire Scattered Stars Island.

After swimming for another twenty kilometers, Han Fei suddenly found a demonic stone.

"Huh?"

Information popped up in Han Fei's eyes.

< Name > Ultra-Quality Demonic Stone

< Introduction > Condensed from the essence of spiritual energy and demonic energy, containing a huge amount of spiritual energy and demonic energy. But because the demonic energy is violent and conflicts with ordinary demonic energy, it is extremely difficult to absorb.

< Spiritual Energy > 5,60,666 Points

< Edible Effect > Inedible

<Absorbable>

Seeing this situation, Han Fei was a little stunned, not because of this ultra-quality demonic stone, but because the number of ultra-quality demonic stones had already filled the entire bottom of the cave.

"F*ck..."

Han Fei had never seen anything like this before.

There was a reason why the Spirit Awakening Fluid and the demonic stone appeared at the same time!

At this moment, the Star Turtle said, "Now you know why I need so many demonic stones, right? I don't want ultra-quality demonic stones, but ordinary demonic stones. As long as I put those ordinary low-level demonic stones down, they can absorb demonic Qi and relieve some pressure."

Han Fei grabbed an ultra-quality demonic stone and observed it while asking, “How do you throw them down? Through the gaps the size of fingernails?”

The Star Turtle said, “All I need to do is to eat and shit them.”

Han Fei: “...”

“Ew...”

Han Fei couldn't have felt worse. He thought to himself, Do you mean that these ultra-quality demonic stones were all your poops? Damn it, did I just enter your pit of excrement?

The Star Turtle: “...”

The Star Turtle was stunned too. It said angrily, “What are you thinking of? I don't need to poo. I'm a Half-Venerable, okay?”

Han Fei immediately activated a demonic energy protective cover. Holding back his disgust, he thought to himself, As long as there is treasure in the fecal pit, why can't I go down?

However, Han Fei was a little puzzled. “That's not right! If that's the case, why didn't you use this method before? In this way, wouldn't you be able to clean up this place infinitely?”

The Star Turtle said, “If you hadn't had the ability to split your body into two, you wouldn't have dared to come in. The sea race and human beings are two different races after all. Not everyone can swallow demonic Qi like you. Once they can't swallow demonic Qi, there will be conflicts until their bodies explode and they die. Even Venerables are no exception.”

Han Fei asked, “Can't it be cleaned up?”

The Star Turtle continued, “In the past, some dying people entered this place in this way before they died, hoping to use their Sea Swallowing Seashells to help me clear this place. However, when they entered and were still alive, they could indeed clear this place. However, once they die, their Sea Swallowing Seashells and Sun-Moon Shells will be corroded by the power of the king. When a huge amount of power comes out, it will be even more impactful to me.”

Hearing that, Han Fei nodded. It was f*cking weird.

These were all real ultra-quality demonic stones. Once he used the body of a sea demon, he could immediately use them for cultivation, and there was an endless supply of them.

Han Fei took out a Sun-Moon Shell.

“Collect, collect, collect!”

The tremendous amount of ultra-quality demonic stones disappeared one after another, and the Sun-Moon Shell was filled after he descended for hundreds of meters.

The space of the Sun-Moon Shell was completely different from that of the Sea Swallowing Seashell.

The largest Sun-Moon Shell was hundreds of thousands of times larger than the Sea Swallowing Seashell.

With a thought, Han Fei took a quick glance and found that the number of ultra-quality demonic stones he collected had exceeded 100,000.

Han Fei scratched his head. He was shocked by the number! What did it mean? An ultra-quality demonic stone was no different from an ultra-quality spiritual stone. Perhaps others couldn't use it, but he could! After all, he could transform into a sea demon.

These 100,000 ultra-quality demonic stones equaled the total demonic energy of 50 billion.

In other words, this was the biggest opportunity he had ever had in his life. He probably wouldn't be able to use up all the demonic energy!

Besides, he hadn't finished cleaning up this place.

Han Fei took out another Sun-Moon Shell and absorbed the demonic stones crazily again. He sank more than 600 meters before he collected all the demonic stones.

Now Han Fei became super rich.

The total amount of demonic energy he had exceeded 100 billion.

What the hell did it mean? No wonder the sea demons were determined to conquer the Scattered Stars Island. The total demonic energy contained in this place alone had reached a terrifying number.

Han Fei hadn't counted the jade-like rock wall yet.

After the last ultra-quality demonic stone was absorbed by Han Fei, the Star Turtle breathed a sigh of relief. If you had this ability ten years ago, I could've held on for another hundred years.

Unfortunately, you came too late.

Even if you have collected all the ultra-quality demonic stones here, I can't hold on much longer because I'm already at my limit.

At this moment, Han Fei's body had become fatter.

This had nothing to do with demonic energy. It was the energy contained in demonic energy and Spirit Awakening Fluid. Every time it brushed against him, there would be some left.

As a result, after he came in for a while, his body was crazily filled with energy. If it weren't for the Demon Purification Pot, he would have exploded and died.

The old turtle said, "Han Fei, if you don't mind, you can let me absorb this energy for a while. Then you don't have to suffer from the pain of digesting the energy entering your body."

Han Fei was lost for words. "You're quite thoughtful. Fine, if you're capable of that, you can absorb it. However, don't absorb it too quickly or excessively. You have to absorb it as regularly as my body does."

The old turtle said, "No problem."

Immediately, Han Fei felt that the energy that was absorbed into his body formed a vortex between his eyebrows and was quickly absorbed by the old turtle. And the environment here would no longer bring him energy suppression.

Han Fei thought to himself, This place is damn suitable for cultivation.

He had just come in and hadn't seen the corpse of the Deep Sea Giant Demon yet, but he had already obtained so many benefits! What was down below? Han Fei didn't dare to imagine!

Further down, Han Fei extracted the water from the Sea Swallowing Seashell that was filled with Spirit Awakening Fluid, leaving only the pure Spirit Awakening Fluid.

Han Fei's Water Control Technique was very powerful, so it was not a problem.

It only took half an hour for Han Fei to fill a hundred Sea Swallowing Seashells.

However, the lower he went, the less concentrated the Spirit Awakening Fluid became. Before, its concentration was only 20%, but now it was less than 5%.

Realizing that the Spirit Awakening Fluid's concentration was plummeting, Han Fei stopped collecting it and then stuffed the Sea Swallowing Seashells and the Sun-Moon Shells into Forge the Universe.

And Han Fei's eyes also glanced at the green cave.

Han Fei took a breath. He knew that although he had collected a lot of Spirit Awakening Fluid and the ultra-quality demonic stones, the real benefit was the corpse.

A corpse coveted by the experts of the Sea Demon Royal City and the Thousand Star City was right before his eyes. How could Han Fei let it go?

"Pfft!"

Han Fei dove into the green mist.

However, when Han Fei drilled into the mist, he suddenly felt a terrifying pressure fall on him.

"Not good! A king-level suppressing power!"

"Pfft!"

Han Fei immediately vomited blood. His invincible will instantly condensed a golden body phantom. He wanted to use the power of law enforcement, but he couldn't.

All the veins in Han Fei's body bulged, and he jumped out of the green mist.

"Phew ~"

Han Fei was horrified. "Old Yuan, can you feel it? Is that the pressure of a king?"

The old turtle said, "It's indeed beyond my expectations. It's not just the pressure of an ordinary king. The strength of this Deep Sea Giant Demon should not be weak. It should have reached the intermediate or advanced Sea Establishment realm! Although you are not weak now, your realm is still low. Although your soul is strong, it is still too weak compared to a king's. The king's aura here has accumulated for tens of thousands of years. It's reasonable that you can't withstand it for now. You have to slowly adapt to it. Don't be hasty."

Han Fei's heart sank. He had planned to steal the king's corpse first, but he still couldn't resist the power!

Han Fei immediately said, "No, it's not easy for me to come here. I can't just go back. Otherwise, it won't change anything. Old Yuan, I have to make a breakthrough."

The old turtle was speechless. "A breakthrough? You've almost crossed an entire major realm in just three years. If you make another breakthrough now, your foundation will be unstable."

Han Fei said solemnly, "I know if my foundation is steady or not. In the past two years, I had been fighting and polishing my foundation. Although there may be some shortcomings, as long as I don't break through to the peak, it won't affect me much."

The old turtle said, "If you want to make a breakthrough now, you can do it here, but you'll have to get used to the king-level suppressing power first. In this way, if you can hold on for three months, it's possible for you to enter the peak."

Han Fei looked at the green mist and sat cross-legged on it. Then he could feel the pressure overwhelming him.

However, fortunately, the pressure didn't directly enter his meridians.

Therefore, the pressure was bearable for him.

After all, his true physique and soul were indeed comparable to the Venerable realm.

The Star Turtle asked, "What happened? Can you break through the king-level pressure?"

Han Fei said casually, "No rush. Let me adapt to it for a few days."

Han Fei frowned slightly and moved his body bit by bit into the hazy green aura of kings. In his body, he activated the Demon God Scripture, and the billowing demonic energy around was crazily pouring into his body.

With so many ultra-quality demonic stones, Han Fei naturally didn't care about the demonic Qi.

However, he had to make a breakthrough with the demonic Qi in the end. Although it wasn't a breakthrough in the realm, his strength would still be increased.

His combat power, soul, and physique would grow too, which could also swallow a lot of power!

Because Han Fei's physique was too strong, if he wanted to make a breakthrough now, he had to cleanse his body, temper his soul, and stretch out his spiritual heritage first. The consumption was far beyond ordinary people.

This place could be called a perfect place to make a breakthrough.
