

GOF 1451

Chapter 1451: Time Chain

There were many happy things in this world.

Undoubtedly, Han Fei felt extremely happy to know the power of his Great Dao clearly. More importantly, this power belonged to him alone and would keep growing without any side effects.

Seeing the sudden change in Han Fei's strength, the old turtle immediately asked, "Can your Great Dao enhance your strength?"

Han Fei grinned. "Sort of!"

Han Fei waved his hand and the power dissipated. Then, he waved his hand and shouted, "Break!"

At that moment, spiritual energy surged in his body, and countless energy fruits shattered. After about a hundred seconds, Han Fei opened his eyes and took a long breath.

When he looked at his mind again, information popped up.

Owner: Han Fei

Level: 79 (Half-Venerable)

Spiritual Energy: 360,000 / 360,000

Chaos Energy: Untransformed

< Spiritual Power > 49,999 / 49,999

Perception range: 8,000 kilometers

Strength: 1,912 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unawakened

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level-69)

Second spiritual beast: Unawakened

Main Art: Sky Stealing Technique, level six of Void Fishing (Venerable Level, Divine Quality)

...

Han Fei didn't feel anything when he saw the message. The increase in his spiritual power and perception range was just obtained with the improvement of his realm. After all, there was a "Venerable" in the "Half-Venerable" character.

His strength didn't increase much, which was better than nothing. He believed that when he became a Venerable, his strength would definitely rise greatly.

As for the amount of spiritual energy, it could no longer attract Han Fei.

But when he saw the word “Chaos Energy”, he knew that the Demon Purification Pot had changed.

If he became a Venerable, it would bring a lot of changes.

Now, with the support of a large amount of Power of Will, it was easy for him to become a Half-Venerable. In his heart, Han Fei knew that he could make a breakthrough, as if he had a hunch that he could advance at any time.

Han Fei didn't pay much attention to the changes in the information. What he really needed to figure out in the realm of Half-Venerable was his use of the power of his Great Dao.

This time, after walking through the green jade stone bridge, Han Fei felt that he had some understanding of the Great Dao.

Han Fei was very sure that if he used the Heaven Enlightenment Divine Technique now, the effect would be doubled with half the effort, which was completely different from before where he used to consume decades of vitality every time he used it.

Similarly, he had made clear progress on the path of invincibility too.

Of course, Han Fei hadn't had a chance to use the power of the Great Dao yet. He needed to find a place to try it.

Buzz!

In the next moment, Han Fei stepped directly into Forge the Universe. He hadn't entered Forge the Universe for a long time, mainly because he had been training for the past few years. There was no need to come in, and he didn't need to hide at all.

Originally, Han Fei had hoped that after entering Forge the Universe, he could test his three Great Daos. After all, to become a real Venerable, he had to familiarize himself with his own Great Dao first.

After crossing the stone bridge, Han Fei knew very well that this familiar process was actually very simple. He was different from others. He didn't need to think about it repeatedly or look for his own Great Dao... He accidentally created his own Great Dao. God knew how this Dao seed was born. Anyway, it was born just like that.

The Dao Seed secretly conformed to the path of the specific cultivator.

There must be a reason for Han Fei to give birth to such a strange Dao Seed. This Dao Seed was like a glutton, trying to gain something from nothing.

Copy someone else's Great Dao, steal power from the future, and get three Great Daos at the same time... If this wasn't a glutton, what was it?

But when Han Fei was about to study his own Great Dao, he suddenly discovered that he seemed to find some changes at the border of Forge the Universe.

Before entering, Han Fei didn't pay attention to its border.

But now, as soon as he entered, Han Fei discovered that something was wrong. There seemed to be some blue light twisting at the periphery of Forge the Universe.

Han Fei was very familiar with Forge the Universe but had never discovered this before.

After a brief stun, Han Fei looked at the Demon Purification Pot again.

This time, it was not as simple as reading information. In the dark void, Han Fei saw that in the void, at some point in time, there were two small words: "Time Chain".

These two words lit up, but when did they light up? Han Fei was still stunned.

Suddenly, Han Fei felt his heart skip a beat. The Demon Purification Pot had a change probably when it swallowed the dragon essence energy in the battle on the Water-Wood World.

For a long time, the Demon Purification Pot had been quiet, or rather, the Demon Purification Pot had shown too many abilities.

Han Fei felt that this was already the limit of the Demon Purification Pot. The rest should be to find the remaining small vines of the Demon Purification Pot.

However, it didn't seem to be the case now. It was very likely that the Demon Purification Pot hadn't shown certain abilities before because it wasn't full.

As he grew stronger, he encountered more and more opportunities, and the special energy he could obtain increased. The Demon Purification Pot had actually been growing.

Immediately, Han Fei imprinted his mind on it, hoping to unveil the so-called Time Chain to see what new function it was.

However, when Han Fei scanned with his perception, he found that information emerged.

"It takes ten billion points of spiritual energy or a hundred streams of Chaos Energy to unlock the Time Chain."

"Hiss!"

Han Fei gasped. Are they robbing me?

Ten billion points of spiritual energy? Han Fei did have that. Of course, it would be even better if he could exchange demonic energy for spiritual energy.

Even if he had to use spiritual energy, he had enough. However, compared to his large number of ultra-quality demonic stones, his spiritual energy reserve was not so sufficient.

As for the Chaos Energy? He clearly didn't have it. He had encountered so many opportunities, and Old Yuan had followed him for a long time. However, he didn't seem to have collected much Chaos Energy.

Immediately, Han Fei asked, "Old Yuan, how much Chaos Energy do you have now?"

The old turtle's heart skipped a beat. "Why do you ask this? I've only got two streams of Chaos Energy so far. When I killed the Venerable, I wasted one of them."

Han Fei didn't really want to snatch the old turtle's Chaos Energy. He just wanted to judge the difficulty of obtaining Chaos Energy according to the old turtle's answer.

Now it seemed that this thing was probably not easy to get.

Even if Old Yuan was lying to him, he probably didn't have much Chaos Energy. Even if he had ten, so what? He didn't believe that this guy could hide a hundred.

Obviously, it was more difficult to obtain a hundred streams of Chaos Energy than ten billion points of spiritual energy.

Immediately, with a thought, Han Fei gathered 20,000 ultra-quality demonic stones and extracted the massive amount of demonic energy.

If the Demon Purification Pot could suck demonic energy, it would be fine. If the Demon Purification Pot didn't want it, it didn't matter. He could also cultivate with demonic Qi.

In short, he could use it slowly! Maybe he would use it in future fights.

"Open!"

Buzz!

The massive amount of demonic energy, accompanied by a small amount of spiritual spring, evaporated at the same time and was crazily absorbed by the Demon Purification Pot.

Han Fei was lost for words. So, for the Demon Purification Pot, demonic energy and spiritual energy were actually the same kind of energy? Did it not care which one it was eating?

Seeing this, Han Fei stepped on the Spirit Gathering Array, trying to absorb back the demonic energy that had been absorbed by the Demon Purification Pot. However, the Spirit Gathering Array was not as powerful as the Demon Purification Pot at all.

Fortunately, the Demon Purification Pot absorbed them indiscriminately.

Therefore, in addition to the demonic energy and spiritual spring that had been extracted, a large pile of ultra-quality demonic stones had also been pumped out with a large amount of demonic energy.

After only a hundred seconds, Han Fei discovered that what was consumed most was demonic energy. As for his spiritual energy, it had only consumed less than five hundred million. At this moment, the ten billion points of spiritual energy required by the Demon Purification Pot was already full!

Han Fei was finally relieved.

However, the remaining three billion points of demonic energy still filled Forge the Universe.

Han Fei immediately filled the demonic energy at the edge of Forge the Universe, letting them slowly expand the area of Forge the Universe.

Compared to demonic Qi, Han Fei naturally preferred spiritual energy.

However, Han Fei knew very well that both demonic energy and spiritual energy would slowly be abandoned by him in the near future, and the Chaos Energy he hadn't seen yet would become the mainstream.

The old turtle was dumbfounded by Han Fei's actions. He knew that Han Fei must have made a deal with the Demon Purification Pot again.

It seemed that this little calabash had magic powers. Swallowing ten billion points of demonic energy so easily?

The moment he unlocked the Time Chain, Han Fei immediately discovered that there seemed to be some faint blue light circulating in Forge the Universe. He seemed to have seen this kind of light before.

Before Han Fei realized where he had seen it before, the old turtle suddenly exclaimed, "What? The Great Dao of Time? Your world can modify the Great Dao of Time independently?"

"Huh?"

Han Fei was dumbfounded. Time Great Dao?

However, Han Fei wasn't a fool. Hearing what the old turtle said, he couldn't help but ask, "Old Yuan, make it clear. Does the acceleration of time mean that time in my space has changed?"

The old turtle was silent for a long time before saying, "Yes! This is a forbidden technique. Kings often secretly create such small secret realms. Now, let's see how fast the time is in this world."

Han Fei nodded. "That's easy!"

With a thought from Han Fei, he activated the Twin God Technique, one inside and one outside. After only a few minutes, Han Fei confirmed excitedly, "Twice as much. One day outside, two days here."

"Huff!"

The old turtle breathed a sigh of relief. "I was almost scared to death. It's only twice as fast! That's nothing. Even a ten-time acceleration is acceptable."

After hearing what the old turtle said, Han Fei glanced at the Demon Purification Pot gloomily. At this moment, Han Fei saw the words "2 / 128" under the Time Chain in the void.

Han Fei couldn't help but ask, "What about ten times the acceleration?"

The old turtle said, "That's the taboo. You'll be hunted."

Han Fei's eyelids twitched, and he asked, "Who will hunt me?"

The old turtle subconsciously said, "The Time Temple? How can there be anyone else... Bah, bah... I didn't say anything."

Han Fei was deep in thought. It seemed that he would have one more enemy, which sounded rather strong!

Chapter 1452: The Scattered Stars Island After the War

Han Fei had always thought that time could only be used by mysterious creatures like the Time Dragon Carp, such as Little Black, Little White, and Master Hexagon. The birth of these creatures was irregular but extremely mysterious.

Only in this way could they have some strange abilities.

Now, the Demon Purification Pot gave birth to a power that could delay time, making the time in Forge the Universe completely independent from the outside world. This was undoubtedly beneficial for his cultivation.

And in the current Forge the Universe, with a radius of ten kilometers, it was full of spiritual energy and energy, which was actually enough for cultivation. Han Fei didn't plan to keep expanding Forge the Universe, so he just expanded it randomly. After all, once he became a king in the future, establishing his own Chaotic Sea would be something that really belonged to him.

Just as Han Fei was about to continue experimenting, he suddenly sensed something and found that the Star Turtle had returned. He had moved an undersea mountain back and was going to fill the hole in the Empyrean Waterfall.

Han Fei thought to himself, Anyway, I'm already a Half-Venerable and have mastered the power of the Great Dao. I've also discovered the anomalies in the Demon Purification Pot, and I've disassembled spiritual energy to an acceptable degree.

In a short period of time, he had almost settled all the prerequisites for entering the Venerable realm, so he wasn't in a rush to enter the Venerable realm now.

Han Fei simply left the mansion and went to collect more Power of Will. He had used up half of his spiritual energy to solve the mystery of the Great Dao, and there was still a lot left, but he didn't think that he would have many opportunities to collect the Power of Will in the future, so he might as well collect some of it in advance.

In addition to the Marshal's Mansion, Han Fei scanned with his perception and found that the Star Turtle had gone to move the mountain again. Xue Shenqi was not on the Scattered Stars Island. He must have gone to bring Jiuyin Ling and the others back.

Old Chen returned to the Scattered Stars Archive Room.

The Cloud Whale was floating in the sea 6,000 kilometers away, carrying thousands of people on its back, all soldiers of the Scattered Stars Island who were chasing the enemy.

Seeing those people laughing and talking on the Cloud Whale's back, Han Fei couldn't help but wonder what they would think if they knew that a Half-King was under their butts.

Anyway, apart from the Star Turtle, who was deliberately flying back and forth with rocks, attracting the attention of countless people, no Venerables appeared on the Scattered Stars Island again.

Han Fei couldn't help but feel sorry for the Black Evil Conch King. If that guy had been bolder and came back at this moment... Well, it was still useless. Tang Yan was still here.

For some reason, Han Fei felt very relaxed. He snorted and dashed out.

Outside the west of the city, the Scattered Stars Island was in a mess. Meng Liang of the Trans-Island Inspectors sent ten Hidden Fishers to receive the Thirty-Six Town's tour group.

Meng Liang felt that there must be outsiders to witness such a shocking war on the Scattered Stars Island.

Also, everybody was excited. Although countless soldiers of the Scattered Stars Island had died, most of them were in a state of mixed feelings.

Someone roared at the sky, "The war is finally over."

Someone casually sat on the sand that was full of sea demons' corpses and trembled as he took out a bottle of wine from his Sea Swallowing Seashell.

"Sizzle... Ah!"

The man took a mouthful of liquor and scattered it on the beach. "Liuzi, we've won. Let me take you home."

On some battlefields, some teams were already in a mess, sitting together randomly, and these people laughed and scolded.

Someone shouted, "I've never felt so good in my life. I really want to go back and sleep for three days and three nights."

Someone scolded him jokingly, "If we really let you go back, can you fall asleep? I'm afraid you won't be able to sleep for three hours!"

Someone sighed. "I wonder how Marshal Han and the others are doing. They won the battle on the Scattered Stars Island, but Marshal Han and the others are still fighting. Another two Venerables have died. It's not hard to imagine how fierce the battle between the strong masters is."

Everyone nodded. Up to now, there were still some red raindrops floating in the sky. Those were all Venerables who only appeared in legends. But today, one Venerable after another had died. During Xue Shenqi's rule, no Venerable died.

After the battle, they cleaned up the battlefield and healed their wounds.

The Command Center was arranging some uninjured soldiers to quickly clean up the battlefield. No materials were allowed to be embezzled. The materials would all be counted by the Logistics Division after calculating the casualties.

Of course, there were occasional petty thefts, to which they would just turn a blind eye. However, no one could steal many materials. There were some people secretly observing the battlefield.

The Scattered Stars Island was a military island after all, and the rules were the rules. The victory was not a single person's credit. Embezzling materials was against the rules and would be punished.

It had been more than two hours since the end of the battle, but the cleaning work was still in full swing.

In addition to clearing up the battlefield, the spirit gatherers on the Scattered Stars Island were the busiest. They all swallowed spiritual fruits and began to treat the massive number of wounded people.

Those who were seriously injured were gathered together, and many spirit gatherers were treating them.

In fact, those who couldn't be healed had already died. At that time, Han Fei and the others were in the middle of the battle and couldn't make it in time for treatment. And there were actually many outstanding spirit gatherers on the island. Those who could be saved had mostly been saved.

As long as they could keep their lives, they would basically not die. They were cultivators after all. Except for those who were deeply poisoned and really couldn't be saved, those who were still alive could mostly be saved. However, it was unknown whether the severity of the injuries and the sequela would hurt their cultivation foundation.

On the shore of the defensive line of the Path of Giants, tens of thousands of wounded were lying on the beach.

The spirit gatherers were rotating in batches. Someone shouted, "Hurry up, the next batch of spirit gatherers, go up! Keep them alive and use spiritual fruits!"

Someone's intestines were pierced through, blood oozed out of his mouth and nose, and his muscles were tightened. Under such circumstances, this person was still absorbing spiritual energy, trying to circulate his cultivation technique and slowly recover.

However, the effect was mediocre. His body was almost smashed by a Sea Demon Water Explosion.

"Ah! Is there any spirit gatherer here? Heal me! I don't want to become disabled!"

A spirit gatherer cursed, "Don't f*cking move! After one day, you son of a b * tch can go to the battlefield again."

Next to this person, a man was holding one of his legs and roaring, "Hey, anybody here? Connect my leg! If you don't hurry up, I'll lose my leg."

A spirit gatherer shouted, "F*ck off! You don't even have a piece of flesh left on your upper thigh. We have to wait for your flesh to grow back before we can connect it. Otherwise, if your spiritual heritage is not cleared, there will be a hidden danger."

There were countless such examples, and all kinds of howls and screams were heard.

Shua!

Suddenly, above the tens of thousands of injured people, the void tore, and a figure stepped in the air.

"Hiss!"

"Han, Marshal Han?"

"Marshal?"

"Hi, Marshal Han."

“Marshal, have we really won?”

“Marshal Han, are we going to war again?”

Han Fei shouted, “I’ll answer your questions at the Sea God Square outside Central City tomorrow. Now, all non-injured people, step back a kilometer.”

Immediately, the spirit gatherers retreated one after another. They had long heard that Marshal Han was a top spirit gatherer. Did Marshal Han want to do it himself?

Han Fei stomped and a Spirit Gathering Array appeared, gathering spiritual energy around him.

“Holy Light Chains.”

Sizzle ~ Sizzle ~

Under Han Fei, a holy pillar of light descended. The moment it landed, it turned into thousands of chains of lightning in the blink of an eye and rushed into the bodies of thousands of wounded people.

“Hiss!”

“Ahhh~”

The audience gasped and exclaimed in delight at the magical healing technique.

Someone sighed. “Damn, is this Marshal Han’s healing technique? Isn’t it too powerful?”

“Treating a thousand people at once. Is this something a spirit gatherer can do?”

“Of course not! Do you think any spirit gatherer is as good as Marshal Han? Then let him be the supreme commander.”

Under everyone’s surprised gaze, Holy Light Chains descended one after another. Han Fei’s body surged with spiritual energy, and he took out the Sky Hanging Mirror.

At the next moment, Han Fei appeared in the sky curtain.

Han Fei’s face was cold and his voice resounded, “All soldiers, assemble all the wounded on the Scattered Stars Island at the Sea God Square outside the central city to receive my treatment. And tomorrow morning, all soldiers gather at the Sea God Square outside the central city. I have good news to share with you.”

Someone turned around. “Is Marshal Han back?”

Someone said in delight, “I knew it. Nothing would happen to Marshal Han. The two Venerables who died later must be from the Sea Clan.”

The wounded people all shouted, “Hurry up, send me to the central city. I trust Marshal Han’s healing technique.”

Someone was still being treated, but he immediately shouted, “Bro, stop treating me. I’m going to the Sea God Square to receive Marshal Han’s treatment.”

The spirit gatherer said helplessly, “You only have some scars. Can’t I treat you?”

The man waved his hand. "What do you know? Marshal Han will treat me personally. How can it be the same?"

The spirit gatherer: "..."

Chapter 1453: Huge Group Treatment

In this battle, countless human soldiers died.

Many people were wandering the battlefield, collecting spoils and collecting the remains of their deceased comrades. Those who were injured were sent to the Sea God Square immediately.

Someone was still wailing in the bloody seawater. Being carried up and thrown into a fishing boat, the person was still shouting, "No, I'm the only one left in my team. I'm not leaving..."

The rescue team of the Guild of Fishers roared, "Why the f*ck are you crying? Pull yourself together! Haven't you seen enough deaths on the Scattered Stars Island? Look at you, bleeding like a foaming crab... Marshal Han will treat you personally. Are you still not going?"

The members of the Pioneer Group who were scattered in the sea all ran around to tell each other, "Stop fighting! Go back to the island! The war is over..."

Even with the order to assemble, they were sent to the island in batches. Most of the people who came at the beginning were wounded from the defensive lines of the Scattered Stars Island; some wounded people in the distant sea took a lot of effort to slowly return to the island.

The Sea God Square was jam-packed with people. Across dozens of kilometers, people were everywhere.

When the people of the Trans-Island Inspection Team came with the 36-town tour group, their faces turned green.

After all, the 36 towns didn't have such a large-scale life-and-death battle. Now, they saw so many strong masters in miserable states. These people were all strong masters in their eyes...

Some of the experts were still coming one after another. Some people's wings were torn and some were dripping with blood, with holes all over their bodies.

These people from the 36 towns had never seen a Hidden Fisher so miserable!

There were many such strong masters, and hundreds of them were flying in the sky. As long as they could fly, they would fly back themselves.

Those who couldn't fly were all carried over by fishing boats. They were all Hanging Fishers, and there were almost no Dangling Fishers.

Most of these people had the same injuries, with holes all over their bodies. This was not their fault. Almost all sea demons used harpoons as weapons, so their bodies were full of holes.

There were some people still with harpoons in their bodies. Some people's neck had been pierced. If the harpoons were removed, they would probably die on the spot.

In front of the sightseeing team, the leader of the team shouted, "Okay, I think you have all seen it when you flew over on fishing boats. These are the soldiers of the Scattered Stars Island. In this battle, more than hundreds of thousands of people died. Which of the alive hasn't been injured?"

Wang Jie and He Mingtang trembled slightly. The village leader and Li Gang were comparatively more experienced.

Of course, the village leader was the calmest. After all, he was already old. Having presided over a village for so long, he had seen many strong masters.

Wang Jie said, "Leader, aren't there too many strong masters in this world?"

The village leader sneered. "What do you think? The Blue Sea Town alone has so many strong masters! Where is this place? It's the legendary Unknown Place. You all saw the battle just now. A dozen of the legendary Venerables who occupy the highest places in the world were killed in one fell swoop."

"Leader killed several of them alone."

Li Gang hurriedly interjected. He was so excited as if the Venerables were killed by him.

The sky curtain had long been closed, and no one knew where Han Fei was. Just when the Sea God Square was almost full, with a buzz, Han Fei appeared in the sky.

Roar!

"Marshal Han, Marshal Han!"

"Marshal Han is here."

"Marshal Han, we won..."

As soon as Han Fei arrived, the crowd was in an uproar. The guys who were still lying on the ground groaning suddenly jumped up.

Han Fei shouted, "All of you, lie down! Let me heal your wounds first before you get excited."

Han Fei thought that this might be the last time he harvested the Power of Will these years... Oh, no, tomorrow morning, maybe he could do it again.

However, Han Fei didn't want to miss any chance at all. If he wanted to harvest the Power of Will, he had to make it grand and awe inspiring.

Han Fei's expression was solemn, and his voice was solemn. "Everyone, after you recover from your injuries, rest and enter a state of cultivation."

At this moment, besides the excited wounded, about a million people were watching. They just wanted to see the magical scene of Han Fei's group treatment.

For many people, this was still a rumor. Now that they finally had the chance to see it, how could they not come?

“Roar!”

Han Fei roared, and his body suddenly expanded. In the blink of an eye, he became a giant more than 20 meters tall, whose body was shining with golden light.

Han Fei shouted, “Let there be light.”

At that moment, in the sky, pillars of light shot down. The pillars of light fell to the ground and instantly shattered into thousands of tentacles.

A holy healing sheen rippled among the thousands of wounded people.

At that moment, the rain of blood in the sky stopped instantly. The raindrops floated in the air and the clouds in the sky suddenly dispersed.

Those pillars of light pierced through the clouds and cleansed the blood rain, illuminating a clear sky.

Buzz—

Like the sky and the earth were pulsing, tens of millions of people’s injuries healed at a visible speed.

“Shoot! I’m recovered. My flesh is growing.”

“I feel that my body is light. My hidden illness of years has been cured!”

“Marshal Han, I can see now.”

Bang!

Someone directly made a breakthrough and couldn’t suppress the power in his body anymore. Under Han Fei’s healing technique, he easily made a breakthrough.

Below, every second, thousands of people stood up from the ground. These people looked up one after another. Bathed in this holy light, they were fanatic. Of course, remembering Marshal Han’s words, they immediately sat cross-legged and began to cultivate.

Shocked cries rose one after another among the onlookers. There were a few people who looked at each other weirdly.

Luo Xiaobai’s lips twitched. “He hasn’t become a king yet, but he’s already doing these fancy things?”

Le Renkuang looked envious. “When can I be as domineering as Feifei? It’s only been a few years... If you hadn’t told me, I would have thought that he had become a king. Did you hear what he said? ‘Let there be light’... I’m so f*cking envious!”

Zhang Xuanyu smacked his lips. “How many girls will fall for this b * stard because of this?! No, I want to become a Venerable. When the time comes, I’ll be as cool as him.”

Beside Zhang Xuanyu, a girl was exclaiming. Hearing Zhang Xuanyu’s words, she couldn’t help turning her head. She was first shocked by Zhang Xuanyu’s handsome appearance. After a full two minutes, she snorted. “You can’t compare to Han Fei at all in masculinity.”

Zhang Xuanyu: “???”

...

Even the village leader couldn't hold it back anymore. He said, "Our Heavenly Water Village is going to be famous, going to be famous. Our village has given birth to a top powerhouse. Our Heavenly Water Village... Cough, cough..."

The village leader flushed with excitement as if he were dying.

Han Fei's eyelids twitched, and with a thought, a healing divine sheen fell on the village leader. Instantly, the village leader's hair fluttered, and he felt that his body and mind were cleansed.

Crack!

Almost in an instant, the village leader, who had been stuck at the peak of the great fishing master, made a breakthrough and all the hidden illnesses in his body were cleared up. He became a Dangling Fisher in one fell swoop and felt that he became ten years younger. Even his white hair turned black at a visible speed.

Around the village leader, everyone looked at him in shock. Even the members of the Trans-Island Inspectors who brought them here couldn't help but feel envious. They heard that Marshal Han came from this small village. The village leader must have treated him very well in the past.

...

Chi la!

While Han Fei was treating everyone, the void was suddenly torn open. Many people were taken aback and thought that something had happened.

"Meow!"

Behind Xue Shenqi, a big cat rushed out first. The moment he saw Han Fei, he immediately shouted, "Han Fei, the cat hurts."

Big Yellow was truly covered in wounds at this moment.

His whole body, except for his ears, was covered with wounds. Even his eyelids were cut by something, and his two claws were cut apart.

Behind Big Yellow, one after another person ran out, all dripping with blood. Many people used up their spiritual energy and spiritual fruits to prevent themselves from dying halfway.

Ning Jingyao's arms were broken; Du Jiangliu's Twisted Domain failed to help him avoid the attack. A big hole appeared on his body and his body was pierced through.

Before Xue Shenqi said anything, an Explorer in the crowd shouted, "Marshal Han, we are ordered to attack the Ten Thousand Demon Valley. 3,068 people went there, 2,502 returned, 566 people died, and all the soldiers were injured. We fought the 800,000-strong army of the Ten Thousand Demon Valley and slaughtered a hundred thousand. Fortunately, we survived."

Perhaps Xue Shenqi taught him to say that.

Han Fei was quite moved to hear that.

When the ordinary people heard this, they all gasped. More than 3,000 people? Ambushed an army of 800,000? How strong were these 3,000 people?

Many people looked at them with admiration.

They must be the strongest group of people on the Scattered Stars Island! When they were fighting, many people thought that the battle was already extremely difficult. However, they couldn't imagine what the more than 3,000 people had experienced.

Someone sighed. "Oh my god, if I were there, I must have been burnt to ashes."

Someone exclaimed, "This is what real Heavenly Talents should be! Slaying a hundred thousand enemies? Damn, I admire you guys."

Suddenly, Wang Jie exclaimed, "Xiaoyu, Mr. He, your daughter He Xiaoyu!"

He Mingtang's eyes widened.

When he saw that He Xiaoyu's hair was sticky with blood, and that her body was still dripping with blood, he suddenly felt dizzy.

"Meow!"

As Big Yellow shouted again, the Heaven Enlightenment Divine Technique was activated, and the wounds on the bodies of the 2,500 people healed quickly.

He Xiaoyu was also a little stunned. She didn't know how she came back. Of the five people in her team, three had died. They were having dinner with her a few days ago, but now they were gone.

If it weren't for the fact that Jiuyin Ling had been taking care of her, she might have been beheaded too. She was still far away from being a true Heavenly Talent.

Jiuyin Ling, on the other hand, looked calm.. She had come back alive after all! Seeing Han Fei's magical technique, she couldn't help but smile.

Chapter 1454: Reunion of the Team

After healing the wounded and harvesting a wave of Power of Will, Han Fei returned to the Marshal's Mansion.

The Marshal's Mansion had always been big.

Han Fei did not meet the village leader and Wang Jie immediately. Instead, he asked Luo Xiaobai and the others to have hot pot at the Marshal's Mansion.

However, he only invited the three of them for the hot pot, and even Jiuyin Ling wasn't included.

"Fatty! I just want to know what you've been doing these past few years! Have you become a chef?"

Han Fei looked at the table of fancy and innovative dishes and sighed. They looked damn delicious.

Le Renkuang immediately shook the fat on his face and said, "You might not believe it, but I was caught by a weird old man and could only do two things a day, eating and sleeping. I had to cook on my own! After this period of time, I found that cooking was actually quite simple."

Zhang Xuanyu rolled his eyes and said, "Humph, I've been suffering all this time. I suddenly had a pair of parents-in-law and a cunning old servant. They were torturing me every day."

As he spoke, Zhang Xuanyu suddenly looked at Han Fei. "Feifei! Tell me honestly, where did Yi Xinyan go? Don't let her come back. Otherwise, the three of you will definitely attend my wedding in less than a year."

Luo Xiaobai picked up a piece of squid and stuffed it into her mouth. She said indifferently, "Isn't that what you want? Yanyan is so beautiful. After seven or eight years, she should have become a woman."

Zhang Xuanyu was taken aback by what Luo Xiaobai said. He immediately stroked his chin and said, "Um, what you say makes sense. In my impression, Yi Xinyan is always that naughty little girl."

Hearing Zhang Xuanyu's words, Han Fei reached out and squeezed Zhang Xuanyu's shoulder.

Zhang Xuanyu shouted, "Ouch, it hurts... Don't you know how strong you are now?"

Han Fei asked in confusion, "How did your body become so much stronger? You've practiced the 108 Desolate God Body."

Han Fei grew up with Zhang Xuanyu. In the past, he was a little conservative and didn't give the 108 Spirit-Absorbing War Bodies to Zhang Xuanyu and the others. Later, when he thought about it, he regretted it, but at that time, he had missed the best period and it was already a little late.

However, the more he thought about it, the later it would be. The later it was, the harder it would be for them to cultivate.

Zhang Xuanyu put on a weird look. "It's all because of the old servant of the Yi family. In the past seven years, he shattered my bones seven times. Each time, he was extremely cruel and his technique was intolerable. He crushed all my bones and soaked me in medicine liquid. Every time he shattered my bones, I would cultivate your 108 Desolate God Body! Up to now, I just need to combine my eight acupoints into one."

Han Fei remembered that when he came out of the Ideal Palace, Zhang Xuanyu was beaten the hell out of him. At that time, he had handed over the 108 Desolate God Body. This was because in Han Fei's opinion, he had already mastered this body refinement technique.

Hearing Zhang Xuanyu's description, Le Renkuang and Luo Xiaobai couldn't help but twitch the corners of their mouths as if their scalps were numb.

Le Renkuang hurriedly said, "Fortunately, I don't need to temper my body. As long as I can still eat, my body will become stronger."

Luo Xiaobai said, "The resilience of demonic plants has always been strong. I've awakened the Luo family's divine technique and have the enhancement of my Dao Seed, so my physique is actually not weak."

Seeing that the others were all more relaxed than him, Zhang Xuanyu said with a mournful face, "According to the old servant, my bones will have to be crushed twice more."

Han Fei couldn't help but pat Zhang Xuanyu on the shoulder. "Remember to transcend the tribulation after you fully grasp the Desolate God Body. The effect will definitely be different."

Suddenly, Han Fei patted his head. He waved his hand, and more than 300 energy fruits appeared. Then, he quickly classified them and gave them to the three of them.

Gulp!

Le Renkuang swallowed and said, "they look delicious."

Pa!

Han Fei slapped his head. "All you know is eating. Do you eat everything you see? These are all ultra-quality spiritual fruits. Any of them is invaluable. You'd better not eat them before transcending the tribulation..."

Luo Xiaobai exclaimed, "You gave us these energy fruits for us to transcend the tribulation?"

Han Fei nodded. "Most of these spiritual fruits are ultra-quality spiritual fruits that nurture the flesh and blood spiritual heritage, stimulate the potential of the body, and enhance the physique. Even with your current strength, taking one of them will be very helpful."

Zhang Xuanyu accepted them without hesitation and asked, "With these, my bones don't have to be shattered again, right?"

Han Fei glanced at Zhang Xuanyu contemptuously, thinking to himself, Isn't it just a few times of bone breaking? If I let you practice the Indestructible Body, what will you do?

Looking at Han Fei's eyes, Zhang Xuanyu shrugged. "Okay, okay! There are still two more times. I'll just hold out."

Luo Xiaobai said, "In the past few years, you have crossed a major realm. Now you have the power to kill a Venerable. Are you about to become a Venerable?"

Hearing Luo Xiaobai's question, they all looked at Han Fei.

Han Fei's growth was too fast, unimaginably fast!

They estimated that Han Fei must have transcended the tribulation now. However, they didn't expect that Han Fei could already slaughter Venerables.

Han Fei took a bite of the grilled fish and chuckled. "Are you jealous? I told you that I was a man destined to become a king."

They all looked at Han Fei contemptuously, and Luo Xiaobai said, "We're slower than you in the end. You've just ruled the Scattered Stars Island. Since you're going to start a full-scale war with the Thousand Star City, the 36 towns will be your base. Your path won't be easy to walk."

Luo Xiaobai's frank personality hadn't changed. At first glance, she focused on the situation in front of Han Fei.

Zhang Xuanyu also said, "I think that although you are stronger now, you'll be in a lot of trouble."

Le Renkuang took a mouthful of the shrimp meat and nodded. "The pressure is all on your shoulders."

Han Fei grinned and said straightforwardly, "What are you talking about? Let me tell you, your vision limits your thinking. Do you think it's difficult for me now? When you become real experts and become Venerables, you will find that these so-called difficulties are actually not difficult. You can't imagine how strong a person can be!"

The three of them looked at Han Fei who was a little crazy. How could they not know Han Fei? Seeing Han Fei like this, they knew that he was excited.

This meant that what Han Fei said was what he thought. In his opinion, the burden and pressure on him didn't seem to be very large.

Le Renkuang asked stupidly, "How strong can a person be?"

Han Fei's eyes narrowed into a line. There were some secrets that didn't need to be kept from the three of them. If he told them, he could let them know that this world had infinite pursuits.

Han Fei said, "The world we're in is called the Yin-Yang World. It stretches for eight million kilometers and is sealed by a huge seal. The seal is called the Wall of Death."

"Hiss!"

Instantly, the eyes of the Luo Xiaobai trio lit up as their hearts trembled. This was a secret they had never heard of. In their impression, wasn't the Infinite Ocean in the distant sea?

Han Fei said, "In the Yin-Yang World, there is a sacred place called the Heavenly Palace. Since ancient times, a king has been ruling a domain. There are a total of 36 places in the Infinite Ocean like the Yin-Yang World."

"Pfft!"

Le Renkuang spat out the grilled fish in his mouth and looked at Han Fei in surprise. "How many?"

Han Fei said solemnly, "You didn't hear it wrong. There are thirty-six such places. Each of them may have more than one king."

Luo Xiaobai asked, "What about the king of the Yin-Yang World?"

Han Fei smiled and said, "Do you remember the pair of eyes we saw in the Star Bead? You should know the name of that thing—the Heavenly Dao Dharma Eye. That thing limits the birth of kings in the Yin-Yang World. Therefore, if you want to become a king, either go to the outer domain or the Heavenly Palace."

Zhang Xuanyu said, "The place above the central divine seat of the Thousand Star City?"

Han Fei said, "Although this has always been the guess of the big clans, this guess is very likely to be correct. Not everyone can go to the Heavenly Palace. It's just like that not everyone has enough luck. My father, as you know, has planned for many years, but he can't influence me much... However, now even I believe that I should be the king of this world."

Han Fei spread his hands. "In the eyes of outsiders, the Yin-Yang World is just a desolate land. In other people's worlds, there are hundreds of Venerables, but on our side, there are only dozens. Now, do you still think I'm under a lot of pressure?"

...

After a while, when Han Fei revealed some less important information, the three of them were shocked by Han Fei.

Luo Xiaobai came back to herself first. "Have you been to other domains? How many kings are there?"

Han Fei was transcending the tribulation in the Water-Wood World. This secret was relative. In the eyes of Luo Xiaobai and the others, it was not a secret.

Han Fei said casually, "There are three kings...and hundreds of Venerables."

Zhang Xuanyu cursed, "Son of a b * tch... Okay, that's it. After this meal, I'm going to shatter my bones again. See you in the future."

Luo Xiaobai took a deep breath. "I have been cultivating in the Thousand Star City for a long time, and I happen to be training on the Scattered Stars Island. Now that human beings have won a great victory, I should be able to go to the outer sea."

"Suck!"

Le Renkuang said, "I'm going back to transcend the tribulation."

Chapter 1455: For the Rise of Human Beings

The Luo Xiaobai trio each had their own opportunities.

After only seven years, everyone had reached the threshold of the tribulation. This speed was actually not slow. However, compared to Han Fei's abnormal speed, theirs were far inferior.

However, according to Han Fei's estimation, these three people might need some time to polish their foundation before transcending the tribulation, but it might not be difficult for them to find their Great Daos. After all, the paths they were walking now had their own characteristics.

Even Le Renkuang knew clearly what path he had taken, and it was a very firm one. Luo Xiaobai was so smart, so she certainly knew. As for Zhang Xuanyu, he might have already vaguely confirmed his path when he was still a fishing master.

The meal lasted more than an hour, and Han Fei and Zhang Xuanyu were bragging.

Zhang Xuanyu said, "Feifei! You won't believe it even if I tell you. My spear combat skills are at the peak of perfection now. With a single strike of mine, I can knock down the Heavenly Gate and tear the void apart. I can even kill an Explorer."

Han Fei thought to himself, I'm already proficient at Knock on the Heavenly Gate. Why are you still showing off in front of me?

Therefore, Han Fei couldn't help but sympathize with him. "Isn't your spiritual power very strong? Why don't you use your spiritual power to perform the Knock on the Heavenly Gate?"

Han Fei taught him the knack of the God Scaring Stab, and Zhang Xuanyu waved his hand. "I've tried it, so I got a new technique that can pierce the soul. Not only that, but I also put the Soul Explosion Technique on the tip of the spear and got a Soul Stabbing Technique. Then, the enemy will die before my spear moves."

Han Fei sweated and thought to himself, It makes sense. This is exactly what Zhang Xuanyu is good at.

Zhang Xuanyu chuckled and nudged Han Fei with his shoulder. He said in a low voice, "Feifei! I heard that you created an ultra-quality Divine weapon to freeze the place in the outer sea where the Venerables were fighting?"

Han Fei's eyelids twitched. "F*ck, the old man from the Yi family even told you this... Don't covet it. Wait for it to nurture for more than ten years before pulling it out. It's best to seal a legendary creature in it. There will be a certain chance of it advancing to be a Sea Quelling Bizarre Treasure."

This was the first time Han Fei had made an ultra-quality Divine weapon, so he was quite cautious and set up various arrays around. It was extremely difficult for a Law Enforcer to take it away.

If Venerables wanted to touch it, he'd like to see if they had the courage to come near the Scattered Stars Island.

Hearing the words "Sea Quelling Bizarre Treasure", Zhang Xuanyu exclaimed, "What? You can forge Sea Quelling Bizarre Treasures now?"

Han Fei rolled his eyes. "No! I said it was possible, but the possibility is very low, not high. After all, there is a large amount of residual power of Venerables on that battlefield. I'm using the power of Venerables to nurture it."

Zhang Xuanyu grinned. "Huff, I don't mind taking it! Then let it stay there for a few years."

After talking to Zhang Xuanyu, Le Renkuang craned his head and said, "Feifei! Have you caught any special creatures from that world? How do they taste?"

Thanks to Han Fei, everybody had the habit of collecting ingredients.

The corner of Han Fei's mouth twitched. "I was mainly cultivating, not looking for food. There's actually not much difference between the species of marine creatures in the two worlds. OK, let me share some fresh food with you!"

With that said, Han Fei controlled a Fiery Python and a Fiery Succubus with an array. These were the creatures he had hunted near the Blood Sea Divine Wood City. Even the worst of them were in the Dao Seeking realm.

Le Renkuang immediately rubbed his hands and laughed. "I knew you wouldn't return empty-handed..."

Luo Xiaobai didn't say much throughout.

After the meal, Luo Xiaobai said, "Han Fei, if you want to go to the Thousand Star City again, be careful. Now, the big clans have lost control of the 36 towns and the Scattered Stars Island. The Thousand Star City is their last fortress."

Han Fei said, "Is the Luo family really fine?"

Luo Xiaobai shook her head slightly. "The Luo family's divine technique is extraordinary. The big clans won't attack the Luo family. Furthermore, the Luo family is now like a branch of the seven major sects. We are bound together for good and for bad and will help each other, so my family is temporarily fine."

Suddenly, Luo Xiaobai seemed to think of something. She said, "Han Fei, there's a piece of news. I wonder if it will help you."

Han Fei asked, "What's it?"

Luo Xiaobai said, "That was five years ago. The seniors in my clan saw many strong masters from the Chu Sect enter the Thousand Star Proving Ground through the Parasitic Spirit Plant. When they came out, there were three people missing."

Han Fei's eyelids twitched. "How strong are they?"

Luo Xiaobai said, "The Venerable realm."

...

The next morning, Luo Xiaobai and the others had already left, but Han Fei couldn't leave the Scattered Stars Island for the time being.

Early in the morning, the Sea God Square was already jam-packed with people. Although work was still in full swing after the battle, since Marshal Han had said that the sea demons had been defeated, they didn't want to stay in their posts.

After all, on the first day of the victory, the mood of the people on the Scattered Stars Island began to improve. Although there were many casualties, their sacrifices were valuable.

Yesterday, although Han Fei's Heaven Enlightenment Divine Technique was very effective, he had consumed a lot of energy. Fortunately, Han Fei could use the Great Dao of the Heaven Enlightenment. Otherwise, he wouldn't have been able to heal so many people.

However, the benefits of healing were great. As the Power of Will surged, the hundreds of thousands of people almost became Han Fei's die hard fans.

Buzz!

When Han Fei stepped in the air and appeared in front of everyone.

Someone shouted, "He's here, Marshal Han is here."

Everyone stood still and shouted, "Marshal Han, Marshal Han, Marshal Han..."

Han Fei took out the Sky Hanging Mirror arrogantly, and the Sky Screen was unfolded with a swish, making Xue Shenqi in the Transverse Mountain speechless.

"When the Sky Hanging Mirror was in my hands, it was only used for mobilization in battle. What do you use it for now?"

But now Han Fei just wanted to use the Sky Hanging Mirror every day to show millions of people how awesome he was.

Xue Shenqi clearly didn't know what a celebrity effect was, or to be exact, a hero's influence. When Han Fei's figure appeared in the sky curtain, the cheers were like tides, rising and falling ceaselessly.

If Han Fei opened his mouth and sang a song at this moment, he would definitely become the idol of everyone.

While feeling the influx of the Power of Will, Han Fei flew into the air and waved at the million soldiers.

"Soldiers, fellow soldiers, I'm glad to be with you on the battlefield, eating sea demons' meat and drinking Venerables' blood... We've won an unprecedented victory and made the future of mankind..."

"Roar ~"

"We are honored to fight alongside Marshal Han..."

On the sky screen, Han Fei grinned. "My fellow brothers and sisters, we humans have won this battle. As many as a million sea demons were killed in this battle, including countless Sea Spirits and Dao Seeking great demons, and at least ten Venerables..."

In fact, there were still several sea demon Venerables, and most of the Venerables killed were just the projections of the Black Evil Conch King. But even so, this was still a great victory. If he didn't eliminate the other party this time, they would still appear next time.

Han Fei smiled and said, "Everyone, the battle has been decided. From today on, the Scattered Stars Island is liberated..."

"Roar... Ah? Liberated? Why?"

Someone was dumbfounded. "Liberated?"

Someone was at a loss. "What does it mean?"

Before they could speculate, Han Fei shouted, "Everyone, the Heavenly Dao is heartless and treats all things as menial fish. The Sea Clan invaded, and the human race has been in wars for tens of thousands of years. How many people have lost their families, their wives, and children? How many people have guarded the Scattered Stars Island silently and protected all living beings? However, if the human race is not destroyed, we have to live until the end of the world... In any era, we should have an unyielding

heart and never bow our heads. Nothing in the world can destroy us humans, not even the heavens and earth...”

Han Fei reiterated what he said when he entered the City of Justice. Who knew if this was his wish or Ximen Linglan’s?

After he said that...

The millions of people on the field felt their blood was boiling, and their voices were thunderous.

Some people even cried and laughed. “This is the human race! Nothing in the world can destroy us.”

Countless people looked up at the sky, at Han Fei who was making an impassioned speech .

Jiuyin Ling’s eyes were filled with fascination.

He Xiaoyu, standing next to her father, looked complicated.

The village leader and Li Gang trembled, their minds full of thoughts: A big shot appeared in our village, and our leader is super awesome...

In the crowd, Lin Wu followed the crowd and shouted. She thought to herself, If even my senior brother is so powerful, what about my teacher?

“Wait.” Lin Wu remembered. “Senior Brother seems to be from some Thug Academy. Then, is Teacher also from the Thug Academy?”

On the sky curtain, Han Fei opened his arms. “From today on, I announce that the central city will be combined with the four outer cities and be expanded. From now on, there is only one city on the Scattered Stars Island, called the City of Justice.”

Before the million soldiers and Xue Shenqi asked him via voice transmission, Han Fei immediately added, “In the future, the City of Justice will take in cultivators who come to seek opportunities from the ordinary people of the 36 towns and the Thousand Star City... At the same time, the City of Justice will build a teleportation hall that leads to the 36 towns. What I want is that as long as you want to come, you can come. As long as you want to leave, you can leave... From then on, the City of Justice will become a paradise for adventurers.”

For a moment, many people were stunned because Han Fei’s decision was too f*cking bold. In fact, this was also a good way Han Fei worked out after a night of meditation for him to frequently harvest the Power of Will.

“The city can’t be built in a few days. Haha, I can harvest the Power of Will for a long time in the future...”

The million soldiers on the Scattered Stars Island were not stupid. Once the Scattered Stars City became a place where everyone could come and go, it meant that the Scattered Stars Island’s current system was about to change, which meant that the strength of the people who came to the Scattered Stars Island was no longer limited...

And all this was based on one thing: the sea demons really suffered a complete defeat and didn't dare to come again.

Roar!

"The City of Justice, the City of Justice."

"We support Marshal Han. The City of Justice belongs to everyone, not just us."

Han Fei glanced at them and suddenly said, "Everyone, a new revolution has begun. We humans must rise to prominence. We must become the strong masters of this world. I, Han Fei, hope that everyone on this island can become a Hidden Fisher. I'll work hard for this."

At this moment, almost everyone was attracted by the perfect world that Han Fei painted and were looking forward to it.

Chapter 1456: Motivated

"The City of Justice?"

In the Cloud Whale's body, Tang Yan recited it several times. However, he didn't pay much attention to it. Han Fei's leadership ability was good and he was also fond of fighting. Defeating sea demons in this battle was a real accomplishment of his.

Besides, Han Fei's strength had been skyrocketing several times in a row.

Tang Yan knew Han Fei's needs very well. When people didn't know about the Power of Will, they felt that spiritual energy cultivation was the best choice.

But when he learned the Power of Will, he would know that this kind of cultivation speed was ten times, dozens, or even a hundred times faster than spiritual energy cultivation speed.

Tang Yan could understand: Han Fei was not weak. Once he became a Venerable, ordinary Venerables were no match for him.

Xue Shenqi had a different opinion from Tang Yan. He had a feeling that Han Fei was greedy for greatness and success. Although he knew that Han Fei's purpose was to collect the Power of Will, it was impossible for him to collect the Power of Will every day.

But Han Fei was too popular with the people at this moment. In the sky, the sound waves rolled. "Everyone, there are as many as three million sea demons in the outer sea. Is this number a lot?"

Han Fei shouted, "No, I'm telling you it's not much at all. In the coming year, the City of Justice will fill the sea and make land, and the Scattered Stars Island will be expanded a thousand kilometers. The outer sea area will be opened for cultivation. What I want is for all of you to be like dragons..."

"Roar ~"

Listening to Han Fei's frantic and excited voice, the millions of soldiers were crazy too. Who cares? Marshal Han killed many enemies and won such a great victory for mankind. What Marshal Han said was right.

After the exciting speech, Han Fei said, "From today on, the soldiers of the Scattered Stars Island will be voluntary. You can quit the army, return to the 36 towns, or explore the island alone... This will become a paradise for cultivators."

...

A revolution couldn't be completed overnight.

One month passed.

Among the 36 arrays, there were a total of 520 mission halls constructed. The mission mode of the City of Justice was popular in the human world again.

In the first few days, as soon as the mayors, village leaders, presidents, teachers and clan leaders returned home, they began to mobilize everyone crazily.

For them, witnessing the crazy war in the City of Justice and the victory of the human race, they seemed to have witnessed a legendary epic.

In particular, under Han Fei's instigation, they all clearly sensed that the City of Justice would become a place where human experts gathered.

It would be a place that was easier to grow and get opportunities than the level-three fishery.

Of course, this was just their feeling. Their first task was to publicize the existence of the City of Justice.

Although hundreds of thousands of soldiers from the Unknown Place had returned and told him what the Unknown Place was like, no matter what, no one had come to see it in person!

As for those who had returned to their hometown early, after hearing that the Scattered Stars Island had defeated sea demons and wiped out the Ten Thousand Demon Valley, they all pounded their chests and stomped.

Someone shouted, "I knew it! Nothing good will happen if I come back early. Look, this unprecedented victory is only a few days away from me. Damn it!"

A companion who was with him sneered. "You wish! Ten Venerables have died, ten of them! I've been on the Scattered Stars Island for so long, but I haven't seen any Venerables. It's conceivable how many people have died in this battle. If you go, you'll definitely be beaten to death."

The man immediately stretched his neck. "So what? I would have been scared! You f*cking saw how I killed sea demons with my bare hands."

Similar situations were common.

Cloud Soaring Town, Cloud Soaring Academy.

You Lingyun had been stunned for months. She had only been back for a few days, and the battle over there was over.

“Sister Lingyun.”

Wu Xiaoxiao came over and held You Lingyun’s arm. “Sister Lingyun, the captain has won anyway. The Scattered Stars Island is liberated, and the city has been built as the City of Justice. We don’t have to fight anymore.”

You Lingyun shook her head slightly. “No, this is just the first step of victory for the Scattered Stars Island. The sea demon Venerables have not been eliminated yet, and there are still three million sea demons wandering in the vast sea. Maybe they will ambush us humans.”

Wu Xiaoxiao said, “How is that possible? Their guts have been destroyed by the captain. How can they dare to attack the city of justice again? If they piss off the captain, they’ll definitely be wiped out.”

You Lingyun took a deep breath. “Xiaoxiao, this place is not suitable for me. Where I want to fight is the sea. I want to go back. Right now, countless jobs wait to be done in the City of Justice, and they need manpower. Xiaoxiao, don’t underestimate yourself. As long as you work hard, you can also become a law enforcer or even transcend the tribulation...”

Wu Xiaoxiao was stunned. The City of Justice? Could she really do that?

...

In the mission hall of the 36 towns, the mission trial had already begun.

However, unlike the mission hall of the Scattered Stars Island, most of the missions here were relatively simple!

For example, hunting swordfish in the level-one fishery, looking for Spirit Chasing Shrimp in the level-two fishery, or collecting sea bamboo trees, etc., missions were usually not very dangerous.

The level-three fishery had abundant resources, but few people accepted missions. This was because in the early stages, many people who yearned for the City of Justice took teleportation arrays to go there.

The tickets to the City of Justice were not expensive. It was only one high-quality pearl, which was enough for them to see the legendary Unknown Place.

However, this led to the city of justice being almost overcrowded.

Buzz!

In the sky, many people looked up because a huge turtle was flying to the edge of the Scattered Stars Island carrying a tremendous amount of sand, stones, and mud.

Someone was surprised. “What kind of turtle is that? Isn’t it too big?”

Someone said with a smile, “Why the shock? That’s the Star Turtle. Marshal Han said that it’s the guardian of the City of Justice. He’s carrying sand and stones to fill the sea.”

A newcomer exclaimed, “What? Are Venerables used to carry sand and stones?”

The person who was asked was also stunned. He didn't know either!

However, he casually made up a lie. "Who knows? Venerables might be too bored. Think about it, if you're so strong, you'll become a king if you take one more step."

Buildings were still being built everywhere, but the recruiting never stopped.

Everybody raised their signs and shouted.

"The Fishers' Union is recruiting. Go to sea every day to see the wonders of the Unknown Place. Come on, join our Fishers' Union."

"The Pioneer Group sincerely invites the strong to join us. Don't miss this chance. Our team has Hidden Fishers escorting us on the sea! If you want resources, the Pioneer Group is your best choice."

"The Trans-island Inspectors are recruiting members. We provide generous rewards. Managing the City of Justice is a rare opportunity for ordinary people. Only those who are stronger than Hanging Fishers can apply."

"The Logistics Division is recruiting. Do you want to see the richness of supplies in the Unknown Place? Then join the Logistics Division. There is all kinds of good stuff there."

...

In the City of Justice, there were three huge mission halls. Next to each hall, there was a trading house, just helping people quickly get the resources they wanted.

Since the mission halls and the trading houses appeared, they had always been full of people. Now, they were urgently expanding and people were preparing to build three more.

It was noisy here.

Next door, people were trading in the trading house.

"Dragon Tongue Grass for a Green Spirit Fruit, 1: 1, and half the commission fee."

"Me."

Someone waved his hand, took out a Sea Swallowing Seashell, grabbed a green spirit fruit, and rushed to the counter.

"A damaged Semi-Divine weapon for ten spiritual fruits of any kind. Anyone interested?"

A refiner's eyes immediately lit up. "Come on, I'll trade with you."

Someone shouted, "I'll pay eleven."

"F*ck, first come, first served. Don't you understand?"

It was noisy here, and it was not much better next door.

Every time a sign was hung up, it was almost snatched instantly.

But some tasks were different. For example, the staff shouted, "Marshal Han said that to fill the sea, we need to get rid of the sea creatures. If you kill ten King Worms, you can exchange them for a catty of spiritual spring. If you kill a hundred King Worms, we can exchange them for a catty of Spirit Awakening Fluid. Each person is limited to take this mission once."

This staff member had already been surrounded.

A large group of people held up their star tokens. "Let me, let me go first."

"Shit, don't cut in line."

At this moment, someone broke through the crowd and shouted, "Get out of the way! I've hunted a hundred King Worms and come to collect Spirit Awakening Fluid. This is the certificate of the Logistics Division."

When the man left with a catty of Spirit Awakening Fluid, the rest of the staff were even more excited and almost pushed the staff into flying.

While the Scattered Stars Island was under construction, Han Fei was having a meeting with many people from the Scattered Stars Sixth Unit.

At this moment, a group of people were quarreling.

Someone said, "This currency can circulate in the world, which is slightly different from the current pearls. But if the two currencies both circulate in the world, people will definitely believe in pearls more."

Someone said, "It can't circulate in the Thirty-Six Towns for the time being. People don't trust us yet. Many people value money as a treasure and refuse to spit it out. This is hard!"

Someone sneered. "We can just use it in the City of Justice. We don't need to spread it to the Thousand Star City and the 36 towns from the beginning. As long as it can be popularized in the City of Justice, it will eventually affect others."

Someone said, "I'm afraid it's not the time. Once the Zhang family uses the pearl currency to disrupt the market, what should we do?"

Han Fei felt a headache and shouted, "Be quiet, all of you."

When everyone quieted down, Han Fei said, "This matter should be taken slowly. Whether it is pearls or new coins, they have a deep impact. Now, we'll use new coins in the City of Justice. That's it..."

One month.

Two months.

Three months passed.

In the past few months, Han Fei had been extremely busy. He was the one who created the City of Justice, so he had to be responsible for it to the end.

In the past three months, The Power of Will had condensed into a milky white flame ball in his body. It must be because he had accumulated too much Power of Will.

Han Fei knew that it was time to reach the peak of the Half-Venerable realm.. Without absolute strength, the City of Justice was nothing but a dream.

Chapter 1457: God Slaying Stab

It had been three months since he became a Half-Venerable. In fact, half a year had passed in Forge the Universe.

In the past six months, Han Fei had been nurturing himself with a small amount of Power of Will every day. This was because the leap from the peak of the Dao Seeking realm to the Half-Venerable realm wasn't very large, but his understanding of the Great Dao was different. Therefore, recently, Han Fei could temporarily push himself to the peak.

The Scattered Stars Island was already on track, and what they lacked was time.

Because Han Fei created a new layout, there were actually many people who were bold to try.

Among them, except for the 36 towns, the disciples of the seven major sects came to the Scattered Stars Island in a large scale too. That was because the current open environment of the City of Justice was too suitable for everyone to grow up.

As long as you had the strength, courage, and the ability to explore the sea, there was no reason not to grow up.

On the contrary, the big clans in the Thousand Star City were not so lucky. When the City of Justice recruited people, everyone spontaneously refused the children of the big clans in the Thousand Star City. It could be said that except for some special families, at present, no children of big clans came to the Scattered Stars Island.

Of course, even so, countless people still came from the Thousand Star City. Unlike before, if the people of the Scattered Stars Island wanted to go to the Thousand Star City, they had to take the Sky Ladder. But now, if the people of the Thousand Star City wanted to come to the Scattered Stars Island, they had to answer the Three Enchanting Questions.

In front of the teleportation array, a large array appeared. Anyone from the Thousand Star City had to enter the array to be questioned. In this way, a large number of undercover agents sent by the big clans had been discovered.

These people were all sent back.

Han Fei was very satisfied with the current situation. Xue Shenqi was very familiar with the things on the Scattered Stars Island, so Han Fei specially invited Xue Shenqi to be the guardian of the City of Justice.

After a day of meeting, Han Fei realized that the current City of Justice was very similar to the one in history.

He knew that in the development of such a city, the position of mayor was actually only a symbol. Since he announced the establishment of the City of Justice, although he might be more well-known, the collection of Power of Will had slowed down.

In the past six months of cultivation, the consumption of Power of Will was even greater than the harvest of Power of Will.

Han Fei knew that the City of Justice needed to return to the natural development of a city. The laws of the leaders had played a role. Now it was up to these adventurers.

At the Marshal's Mansion.

Han Fei scanned the new Emyrean Waterfall with his perception, which was built by the Star Turtle.

At this moment, the Star Turtle had occupied a plot of his own in the Emyrean Waterfall. This turtle must have been suppressing itself for too long, so he would sneak into the crowd whenever he was free.

"Senior Star Turtle, can you come to Marshal's Mansion?"

The Star Turtle, who was enjoying the Fiery Wine, looked tense when he heard Han Fei's voice transmission. "What do you want?"

Han Fei said, "Nothing. I just want to arrange a position for you and help you experience the pleasure of living a turtle's life."

The Star Turtle was confused. He wasn't stupid. He could guess that nothing good would come. If he hadn't been used to the Scattered Stars Island and found the change interesting, he might have slipped away by now.

Han Fei sneered. "Are you afraid I'll eat you? Just come. Your strength is a major realm higher than mine. What's there to worry about?"

The Star Turtle wanted to roll his eyes. A major realm above you? Are you kidding me? Dozens of Venerables have been killed by you. How can I not worry?

Han Fei, however, ignored him and simply shouted, "Xiao Jiu, come to the Marshal's Mansion."

Jiuyin Ling was tempering her body. She had been preparing for the tribulation for the past few months. Hearing Han Fei's call, she was overjoyed and went straight to the Marshal's Mansion.

After a while, in the Marshal's Mansion...

"What? You want me to pretend to be the supreme commander? No, no... I can only be a turtle and not the supreme commander. Why don't you ask Xue Shenqi?"

The Star Turtle turned around and was about to leave. Han Fei's words scared it out of its pants. Did Han Fei not know that 80% of the former supreme commanders died in battle, and only 10% died of old age?

Jiuyin Ling looked at Han Fei in surprise too, wondering where he was going.

Having been alone with Han Fei for a few years, Jiuyin Ling knew Han Fei very well. Han Fei was a person who couldn't sit still. Now that Han Fei wanted to temporarily leave the position of supreme commander, it meant that Han Fei must have something to do.

Jiuyin Ling could vaguely guess where Han Fei was going. He was no longer interested in the outer sea, although there were still sea demon armies and sea demon Venerables outside.

However, the Star Turtle had made a breakthrough and the sea demons had lost most of their strength. At this moment, no matter how bold they were, they wouldn't dare to invade. And with Han Fei's strength, it was meaningless to cause trouble for these sea demons. This wouldn't help Han Fei become a Venerable.

Although Jiuyin Ling didn't know how strong one had to be to become a Venerable, it wasn't something that could be done overnight. She had never heard of anyone becoming a Venerable through fighting.

Therefore, Han Fei only had one place to go, which was the Thousand Star City.

Han Fei immediately straightened his face. "Senior Star Turtle, I guess you know some of the secrets of this sea area. You have no place to go. There are sea demon Venerables outside that can't tolerate you. If you don't help me on the Scattered Stars Island, there's no place for you in this vast sea. Don't forget who protected you three months ago."

The Star Turtle paused and looked back in embarrassment. "Then why do you want me to pretend to be the supreme commander?"

Han Fei's lips curled. "You are the one who has the most contact with the former supreme commanders on the Scattered Stars Island. You know how to be a commander... I don't want you to pretend to be me for long. Just wait for me to come back."

The Star Turtle rolled its eyes. "How long will you be gone?"

Han Fei said, "At least, a few months, and at most, a year. It won't be long."

In Han Fei's opinion, time was slow. A year was long. He wouldn't be gone for long. It was just about becoming a Venerable and cracking some secrets. How long could it take?

The Star Turtle pondered for a long time. "Then I'll pretend to be you for a year at most! If you don't return in a year, I'll go to Xue Shenqi."

Han Fei grinned. "No problem. Okay, now I'll teach you a great technique called the Deceit Technique. It's your reward."

After throwing a jade slip to the Star Turtle, Han Fei extended his hand and took Jiuyin Ling away.

In the Transverse Mountain, Han Fei said, "Xiao Jiu, I need you to do something for me."

However, Jiuyin Ling asked, "Are you going to the Thousand Star City?"

Han Fei was briefly stunned. "How do you know that?"

Jiuyin Ling immediately took a breath. "Do you know that the Thousand Star City is now a huge mud pool, and everyone is waiting for you, but you still want to jump in?"

Jiuyin Ling had always been an extremely gentle girl, but at this moment, even she couldn't help but fly into a rage, wondering why Han Fei was in such a rush.

Jiuyin Ling seemed to realize that her tone was too harsh. She calmed down and slowly said, "Why?"

Seeing that Jiuyin Ling was serious, Han Fei immediately said, "I have to become a king as soon as possible. There are some secrets that you don't know. I have a hunch that our world is about to break free from the cage, and the Black Evil Conch King may come back. When he comes back, he will no longer be a Half-King, but a real king, an invincible existence that can sweep across the Thousand Star City..."

Seeing that Han Fei was so serious, Jiuyin Ling and Han Fei looked at each other for a moment, and in the end, she sighed. "Okay! I feel that you are always busy and have been traveling. Perhaps the years in Wind Rain Village were the happiest years of my life..."

Without saying much, Jiuyin Ling raised her head and asked, "What do you need me to do?"

Han Fei's feelings for Jiuyin Ling had never exceeded the limits. He just treated her as a friend like Luo Xiaobai.

Han Fei changed the topic. "Help me go to the Blue Sea Town to call Old Jiang. I gave him a piece of land on the Scattered Stars Island. It's very valuable..."

...

Three days passed.

In Forge the Universe.

Han Fei sat cross-legged on the ground, surrounded by a blue and white mist.

In his mind, small cubes were lifted one after another and memorized.

Crack... Crack... Crack...

"The thousandth..."

Buzz!

Han Fei suddenly opened his eyes, opened his mouth, and took a deep breath. Something flashed, and a picture appeared in front of him.

In this picture, a person was approaching from a distance, from small to large, as if someone was stabbing a spear beam at him from thousands of kilometers away. This spear beam stabbed at the center of his eyebrows, stunning Han Fei.

Almost at that moment, Han Fei felt that he was in an illusory world, standing proudly in the void. There, a blurry figure extended his hand and stabbed at the center of his eyebrows.

The spear shattered the void within thousands of kilometers like a spear tip stabbed into his heart. At that moment, Han Fei felt the center of his eyebrows explode. He didn't even have the chance to dodge as he was stabbed by the spear.

At this moment, the God Scaring Painting was completed.

The God Scaring Stab technique was completely forgotten by Han Fei at this moment. His eyes were filled with this terrifying blow. The power of this spear could ignore distance and directly kill the soul.

At this moment, Han Fei realized a super technique that could launch an attack from a thousand kilometers away, the God Slaying Stab.

Chapter 1458: Arriving at Thousand Star City Again

Although the spear light actually didn't exist, Han Fei felt that he had been defeated the moment the spear light shot out. The opponent's speed was too fast and he couldn't keep up at all.

Of course, although he was defeated, it didn't mean that the Demon Purification Pot was defeated.

However, every time he felt that he was already invincible in the same realm, a new power would appear and then defeat him, telling him that he was not the strongest.

He was stunned for about half an hour.

Han Fei closed his eyes, and a piece of information appeared in his mind.

God Slaying Stab (Venerable Level, Divine Quality)

This is a God Slaying Treasure Art. All spear techniques in the world are integrated into the soul of the spear. If the spear has a soul, it can destroy all gods and demons and break time and space, and nothing can stop it. To use the God Slaying Stab, you have to first refine the soul of the spear. When the spear comes out, it penetrates time, space, and light. With any of the three lacking, this blow may be broken.

Deduced Art: Unknown

Deduction Cost: 10 wisps of Chaos Energy

Shortcoming: This technique can't be mastered in one day.

"God Slaying Treasure Art?"

When Han Fei saw this spear beam, he knew that this technique was definitely not simple. At his current level, there were few techniques that he couldn't parry. And this God Slaying Stab was one of them.

After quickly browsing through the God Slaying Stab, Han Fei smiled bitterly. This technique was still too difficult. As for stabbing through time, he had learned a little bit of it, which was Zhang Xuanyu's exclusive technique, the Momentary Time. But if he worked hard, he should be able to learn it.

As for piercing through the void, it didn't seem to be difficult to do, but it was quite difficult to do from a thousand kilometers away. However, it wouldn't be a problema for him to do it a hundred kilometers away.

He could finish the first two tasks, but what the hell was the last one? What the hell was it about piercing light? Han Fei would never think that it would be as simple as blocking light. After reading the

detailed cultivation methods, Han Fei sweated. He needed to produce a spear beam that could devour light.

Gulp!

Han Fei swallowed and said helplessly, "It's too difficult. Isn't it too f*cking difficult?"

"Are you okay?"

The old turtle noticed Han Fei's confusion. He knew that Han Fei had woken up from cultivation, but he seemed to have been whipped. Was there something wrong with him?

Han Fei quickly came back to himself. "Oh, I'm fine. I'm fine..."

Han Fei thought for a moment. This God Scaring Stab couldn't be mastered in a day or two. However, he had already finished practicing the God Scaring Painting, and this had almost brought his perception to its peak.

Han Fei glanced at his personal information and his eyelids twitched slightly. Although his spiritual power hadn't increased, his perception range had risen from 8,000 miles to 9,999 miles. This was a bottleneck. Unless he made a breakthrough, it was almost impossible to improve his perception range again.

After leaving the Scattered Stars Island for three days, Han Fei felt that he had reached the limit of the Half-Venerable realm.

Originally, the strength of a Half-Venerable and a peak-level Explorer was about the same except for the Great Dao.

However, the power of the Great Dao was the key to success or failure.

Han Fei looked up. "Old Yuan! I'll have to become a Venerable on this journey. Old Han and I think differently. If there's a chance in the future, I will deprive you of your memory about me and then let you out. Therefore, don't slack off on this journey."

The old turtle rolled his eyes and thought to himself, How can you let me go? I dare not believe you!

The old turtle said leisurely, "I'm too weak. I'm not much stronger than you are now. Even if I use Chaos Energy, I won't be much stronger than you."

Han Fei sneered. "What I need is not your strength, but your knowledge..."

...

Thousand Star City.

Recently, prices had been soaring in the Thousand Star City, mainly because there were no goods shipped back from the Scattered Stars Island or the level-three fishery.

Now that these two resource sources were gone, the Thousand Star City were out of supply. When the major supplies were out of stock, the market changed from a buyer's market to a seller's market. As

long as there was something suitable, the price could be shockingly high. Anyway, the seller didn't have to worry that no one would buy it. In the Thousand Star City, there were rich people everywhere.

There was no telling who spread the news about the City of Justice to the Thousand Star City. Immediately, all kinds of rumors flew everywhere and soon swept across the entire Thousand Star City like a tsunami.

For a moment, countless people wanted to go to the lower world, to the City of Justice, to the Scattered Stars Island.

However, the teleportation arrays on the Scattered Stars Island were strictly audited, so only a thousand people passed the test every day. This made the huge descending army slowly feel the hostility towards them.

Especially when some children of big clans pretended to be ordinary people and were discovered and sent back, countless people were furious.

Zhang Tao.

At this moment, he was standing in the middle of the array of Three Enchanting Questions. There were thousands of strange scenes in the array, and a voice, like rolling thunder, rumbled and struck his head. "Zhang Tao, from the Duel Deity Island of the Thousand Star City, an itinerant cultivator, a junior Dangling Fisher..."

When a string of information burst out, there seemed to be a power shaking in the voice.

"Where are you from?"

The center of Zhang Tao's eyebrows was twitching. When the hypnotic power was activated, a white light flashed between his eyebrows and broke through the illusion. Zhang Tao suddenly opened his eyes and looked ecstatic. Immediately, his eyes rolled. "I'm from the Dual Deity Island of the Thousand Star City."

"Which family are you from?"

When the second question was raised, Zhang Tao smiled in disdain and proudly said, "I'm an ordinary resident of the Dual Deity Island. I rely on the Li family of the Dual Deity Island and often spend money to buy the trial rights of the Li family's trial grounds. Recently, I've really run out of money. These big clans are too ruthless..."

Sure enough, Zhang Tao listened carefully. After a while, the third question arrived.

"What's your real purpose for coming to the Thousand Star City?"

Zhang Tao thought to himself, The normal answer is to become stronger or for resources!

Just as Zhang Tao was about to say that, a voice suddenly sounded, "I invented the Three Enchanting Question Array myself. You actually have a way to avoid the power of my array. It seems that you have the help of a mysterious treasure!"

"Who is... Han, Marshal Han?"

Zhang Tao, who had a look of contempt just now, was horrified at this moment. He felt as if ten thousand Iron-Headed Fish were galloping in his heart. He thought to himself, Are Venerables from the Scattered Stars Island f*cking personally guarding the teleportation array and interrogating the visitors one by one? Isn't this supreme commander too f*cking bored?

At the same time, Zhang Tao had a bad feeling. This time, he was doomed. How could he run back?

Shua!

Zhang Tao saw a figure suddenly appear in front of him. When he looked up, he saw a young man sneering.

At the next moment, Zhang Tao felt that his soul no longer belonged to him, and the Immortal Seal in his body was instantly broken.

Han Fei had been waiting here for a day and finally met a member of the Zhang family. How could he not be sure?

At this moment, he activated the Soul Searching Technique, and a soul treasure immediately wanted to self-destruct. However, the soul treasure was directly torn to pieces by the Void Lines, unable to be used at all.

"Zhang Tao, a member of the Zhang family. Hehe, he's actually quite excellent. What a pity..."

Under Han Fei's feet, the illusion of mountains and rivers appeared, and Zhang Tao was thrown in.

Han Fei said, "Tree Spirit, tie him up. Don't let him detonate himself."

"Yes, Master."

After instructing the Tree Spirit, Han Fei issued an order in his heart, and his body began to shorten, and his realm plummeted. He became a junior Hidden Fisher, his skin became whiter, and his body became fatter...

Han Fei carried out the Deceit Technique.

Clash ~

There were only eight entrances to the Scattered Stars Island in the Thousand Star City. Apart from the uninhabited islands, there was only one teleportation array on average every three islands.

However, all the teleportation arrays were crowded.

All of a sudden, a person flew out of the teleportation array leading to the Scattered Stars Island and vomited blood.

Instantly, many people moved aside and saw "Zhang Tao" rolling dozens of times on the ground.

"The big clans really don't want to give up! How many people have been thrown out, and they still want to send people in? Since the Scattered Stars Island has fallen out with the big clans, they certainly have a way to know which people are from your big clans! What is this person thinking?"

Someone shouted, "Shit! You know you can't pass, but you still insist on occupying a seat. Believe it or not, I'll whip you to death!"

Some people took out their knives, and some took out their long swords. In an instant, swords and knives danced wildly. Many people really wanted to kill Zhang Tao. However, they actually didn't dare to attack a member of the big clans.

Zhang Tao hurriedly jumped out with an awful expression. As he looked back, he muttered to himself, "That can't be right! That array can shatter a mysterious treasure?"

Not long after Zhang Tao escaped, a person suddenly appeared beside him. The person was dressed in green and stood beside Zhang Tao. He looked at the crowd and said lightly, "You are the 1078th failure of the Zhang family. I had thought your soul treasure could cover you up, but you still failed. Okay, go back. It seems that the Scattered Stars Island has long been prepared."

"Sigh! Yes, Master Qing, that Soul Enchantment Array is really too terrifying. It seems to be an extraordinary array. It even tore apart my soul treasure. Master Qing, please help me."

The manager impatiently threw a small token to him and said, "Go back to the warehouse and find something to make up for it. That's it."

Han Fei took the token and smiled. "Zhang Mingkun, I promised you that I would come to you sooner or later.. Now, here I am..."

Chapter 1459: Godly Thief Han Fei (1)

Last time, the faceless men's attack on the Thousand Star City was destined to fail. The number of Venerables that appeared last time was far less than the number of Venerables that appeared in the war on the Scattered Stars Island.

This meant that there were still Venerables hiding in this huge city. As for their purpose, it was unknown.

One of the Venerables of the Zhang family had already died, and Zhang Zhihuo appeared afterwards. He was only a junior peak-level Venerable and wasn't very strong. The person who could challenge Old Han and the others back then must be a high-level Venerable of the Zhang family.

In other words, the Zhang family had at least three Venerables before, and now they had at least two.

This was a big clan that had existed for thousands of years. The family was very wealthy, and there were many children in the clan, so there would always be Heavenly Talents born.

Han Fei returned to the Zhang family as Zhang Tao. After completely reading Zhang Tao's life history and personality, Han Fei smiled.

Zhang Tao was a relatively more outstanding disciple of a collateral branch of the Zhang Family. Because he had obtained opportunities in the trial field, he distinguished himself among his peers.

However, even if he was a Heavenly Talent, he was from a collateral branch of the Zhang family and couldn't catch much attention from the Zhang family. And it was very difficult for such a disciple from a collateral branch to enter the Zhang family's treasure house.

Zhang Tao had only entered the Zhang family's treasury twice when he was breaking through to be a Hanging Fisher and a Hidden Fisher, and he only took three things from it.

Han Fei saw the Zhang family's treasure house from Zhang Tao's memory, but then he licked the corner of his mouth. Sure enough, as a big clan that had been existing for thousands of years, the Zhang family was really rich. Although Zhang Tao couldn't enter the depths of the treasure house, there were countless treasures as soon as he got in. Han Fei saw things like Trivariant Golden Ginseng, Semi-Divine weapons, battle suits, protective arts, heaven-level combat skills, and high-level energy fruits.

All things were good, but the big clans wouldn't give too many resources to their disciples. Otherwise, if the disciples just relied on resources, wouldn't they become wastes? So most people who went in could only take three things at most.

As for what the three things were, it depended on the entrant's own choice.

...

The Zhang Family.

This family known as the richest family in the Thousand Star City was in the middle of Money Island, surrounded by eight mountains. On these mountains were the training grounds of the Zhang family's juniors.

The area surrounded by mountains was the Zhang family's main residence, covering an area of more than 500 kilometers. Further out were the Zhang family's collateral branches. With a big river separating them, the main branch and the collateral branches were clearly separated and the latter couldn't trespass.

At this moment, in the Zhang Family's main residence.

The Zhang family's head, Zhang Wanjin, looked at Zhang Tao who came back to report and frowned. "You said that the Enchantment Array broke your soul treasure? Then is your soul alright?"

Han Fei pretended to be respectful and hurriedly said, "Family Head, no. It's just an array. No one is presiding over it. Or to be exact, I was blasted back before I even saw the host."

Zhang Wanjin sat on a big chair and snorted. "Well! Okay, you've done your best. Go to the third level of the treasure house and find three... Well, for the sake of your soul treasure, find five things to take with you."

Hearing this, Han Fei was excited and quickly said, "Thank you, Family Head..."

When Han Fei turned around, his eyes lit up. He thought to himself, This Deceit Technique is really good. With my current abilities, Zhang Wanjin is just a piece of cake to me.

Even if there was an advanced Venerable in the Zhang family, it was impossible for him to distinguish him.

After leaving the main residence, Han Fei went straight to the treasury. The Zhang family's treasury was also known as the Zhang family's pagoda. Only here did Han Fei discover, to his surprise, that the Linglong Tower was actually made by the Zhang family.

In each of the 36 towns, there was a Linglong Tower, but it was said that the Linglong Tower was established by a large chamber of commerce in the 36 towns.

He didn't expect the source to be the Zhang family in the Thousand Star City.

However, unlike the normal Linglong Tower, the tower Han Fei saw was not exquisite at all. It was a black six-story octagonal tower structure. It didn't look big at all. In theory, it shouldn't be a treasure house of the Zhang family at all.

However, judging from its shape, Han Fei knew that there must be some secret in the tower, or at least some special space.

Han Fei came to the bottom of the tower openly. When he entered the treasure house, an Explorer-level old man was drowsy and didn't even respond to Han Fei when he saw him.

Han Fei quickly handed over his token. "Senior, the family head asked me to find five useful items."

The old man seemed to be half asleep. He grunted and said, "On the left side of the door, pass two teleportation arrays in a row. Go find them yourself!"

"Yes, Senior."

In the Zhang family, Zhang Tao, a junior from a collateral branch, certainly didn't know the people guarding the treasure house. Therefore, it was natural for Han Fei to call him Senior.

Just as Han Fei was about to enter the door, he suddenly heard a crisp voice behind him. "Sixth Grandfather, I'm here to return the books I borrowed. Can I borrow a few more books by the way?"

The old man immediately grinned. "Oh, it's Qiaoqiao! Of course. Pick whatever you want on the third floor. Don't be so distant."

The visitor was a pretty girl, and next to the girl were two boys of the same age who seemed to be here to escort her. Han Fei glanced at them and suddenly remembered that this girl seemed to be the little girl who went out of the Sea Quelling Painting. He didn't expect her to grow up so big after decades.

As if seeing Han Fei's gaze, a boy beside Zhang Qiaoqiao immediately shouted, "What are you looking at? As a disciple of a collateral branch, it must be difficult for you to have a chance to enter the treasure house, right? What are you waiting for?"

The old man named Sixth Grandpa also glanced at Han Fei indifferently. "You can go in now!"

Han Fei crossed his hands. "Yes!"

Zhang Qiaoqiao, on the other hand, didn't feel anything. She glanced at Han Fei as if he were a stranger passing by, without any change of mood.

When Han Fei entered the treasure house, he found himself in a huge storage room that had no end. To be precise, it looked more like a unique library or a collection hall.

There were wooden bookshelves here, on which there were various combat skills and secret techniques. There were also sealed pits with halos circulating, as if you needed to break through the layers of halos to get the things inside. There were also various tall and short booths, on which various items were shining.

Han Fei swore that if Master Hexagon saw the treasure house, he wouldn't be able to move at all.

Han Fei asked the old turtle in his heart, "Old Yuan, is there a Venerable in this tower? What's his strength?"

Han Fei certainly didn't believe that the Zhang family's treasure house would be unguarded. How could such an important place not have a Venerable guarding it? As everyone knew, the Zhang family was the wealthiest family in the city. Without a strong master guarding it, how could they defend such a huge fortune?

The old turtle said, "Not on the lower floors, but there's an independent building above the sixth level. The aura of a powerhouse is flowing out. I think the person is at least an advanced peak-level Venerable."

Han Fei was slightly relieved. "That's good."

An advanced peak-level Venerable was already comparable to the Heavenly Sword Master, who was only one step away from the peak-level. He couldn't defeat such an expert unless he had the power of a Half-King.

But Han Fei hadn't become a Venerable yet, so he definitely didn't have this ability. He could only think about how to rob the Zhang family's treasure house.

With an advanced Venerable guarding the treasure house, there was indeed no need for others to guard it. Besides, this treasure house was in the Zhang family. There were other Venerables within a thousand kilometers, so there was naturally no need to worry about anyone robbing the Zhang family's treasure house.

Shua!

Han Fei passed two teleportation arrays and came directly to the third level of the treasure house. Unsurprisingly, this level of treasure house was specifically for Hidden Fishers.

Unlike the first floor, there were not many combat skills on this floor. Most of them were different kinds of weapons, from ultra-quality spiritual weapons to divine weapons, and even ultra-quality divine weapons. There were also various kinds of spiritual fruits, crystals, spiritual springs, Spirit Awakening Fluid, and sea demon corpses...

Han Fei didn't intend to loot the entire treasure house now, which was meaningless. The things in front of him were useless to him. What he wanted was the seventh level of Void Fishing.

This technique was his true pursuit. Once he obtained it, it would be more meaningful than looting the Zhang family's treasury. Of course, it would be best if he could loot the Zhang family's treasury by the way.

The floor for Hidden Fishers extended dozens of kilometers. Han Fei pretended to be walking around inside. He knew that someone was looking at him at this moment. If he took more than five pieces of treasure, the consequences would be disastrous.

However, in fact, Han Fei was just looking for an opportunity to use the Twin Divine Technique.

After half an hour, in a corner of the treasure house.

“Qiaoqiao, this Thousand Silk Technique is a heaven-level high-quality combat skill, which is most suitable for girls to practice. Ordinary Spiritual Heritage talents can’t practice it, but you are different. With a level-seven Spiritual Heritage, you can definitely practice it.”

“Qiaoqiao, there is a Ten Thousand Spirit Bead here. As a spirit gatherer, this thing can allow you to store spiritual energy and save spiritual energy for emergencies. This is a good thing.”

Two boys were trying their best to please the girl, but the girl didn’t seem to hear them at all. She walked forward quickly as if trying to get rid of them.

Suddenly, the girl saw that the man who came in with her was looking at a calligraphy painting circling on a square cabinet.

However, the calligraphy was blocked by a seal. Seeing that the person was staring at the calligraphy motionlessly, Zhang Qiaoqiao couldn’t help but be curious. She had seen this painting before. There shouldn’t be anything special about it, right?

Immediately, Zhang Qiaoqiao went straight over and asked, “This painting is just a killing array, a one-time use item. Do you want me to get it for you?”

Beside Zhang Qiaoqiao, a boy said, “Qiaoqiao, no bother. Let me do it!”

The other said, “Go away. Do you have the ability to take it? Let me take it.”

Han Fei tilted his head and glanced at her.. “This is not a killing array, but a visualization picture.”

Chapter 1460: Godly Thief Han Fei (2)

“Huh?”

The two boys were instantly enraged. One of them said, “What? Are you saying that Qiaoqiao was wrong?”

“That’s right! Brat, I’ll give you a chance to reorganize your language. Is this a killing array or a visualization picture?”

Han Fei said casually, “This painting looks like a killing array, but if you look inside carefully, the ink on the outside is too thick, as if it’s covering something. Arrays usually don’t draw like this. Therefore, there should be another layer below this painting.”

Zhang Qiaoqiao's eyes lit up and she couldn't help but look at Han Fei up and down. Under the angry stare of the two boys beside her, she curiously asked, "Then how did you know that this calligraphy painting was a visualization picture?"

Han Fei chuckled. "Look, if you don't look at the lines and words, doesn't this portrait look like a starfish? This pentagon starfish looks like an array, but what if it's a creature visualization picture?"

One of the boys was slightly shocked. This disciple from a collateral branch was quite capable! However, this person's identity was still too low. The other boys said, "You said this is a visualization picture. Alright, if it's not, you won't be able to take something from the treasure house today."

Yang Qiaoqiao shouted, "Yang Kang, Yang Cheng, can you two be more mature?"

Zhang Qiaoqiao looked at Han Fei. "Sorry, I'm just curious about what kind of visualization picture this is. Can you let me take a look at it after you crack it?"

Han Fei smiled. "I found it first. If you want to see it, how about helping me break the array?"

The two boys were immediately enraged. They had never seen such a shameless person who asked a girl to help him break the array!

Zhang Qiaoqiao smiled faintly, but she looked down upon Han Fei a bit in her heart. She just wanted to take a look at it and didn't want to take it out, but this person asked her to break the array. Obviously, he couldn't open it.

Seeing that Zhang Qiaoqiao didn't respond, Han Fei said lightly, "Could it be that you can't open it either?"

"Son of a b * tch, what are you talking about? Is there anything that Qiaoqiao can't open?"

"A*shole, which collateral branch are you from? You really don't know your place."

Even Zhang Qiaoqiao was surprised. All the people around her had been flattering her, but she didn't expect to meet someone different today.

Seeing that Han Fei was not afraid at all, Zhang Qiaoqiao immediately shouted, "Shut up, you two. Let me see how difficult this seal is first."

At the next moment, a silver needle appeared in each of Zhang Qiaoqiao's hands.

Swish! Swish! Swish!

Clank, Clank, Clank ~

For a moment, on the seal, hundreds of stings appeared, and dense punctures the size of a needle hole appeared on the seal.

At this moment, Han Fei scratched his nose, and suddenly on the seal, there was a flash of spiritual energy, and the silver needles under Zhang Qiaoqiao's control were moved by the seal and accidentally hit each other.

Bang!

Instantly, an explosion occurred, and the silver needle weapon was destroyed along with the seal.

Han Fei, Zhang Qiaoqiao, and the others were shaken dozens of meters away by the sudden explosion.

Bang!

Han Fei knocked over a water cabinet. At the moment of the explosion, a big hand twisted the explosion.

Zhang Qiaoqiao was sent flying, ashamed and angry. She didn't expect that she would make such a big joke today.

Zhang Qiaoqiao said, "Thank you, Grandpa Six."

The old man at the Explorer realm said with a smile, "It's okay. Qiaoqiao, you can continue looking around. Although this painting is a visualization picture, it's actually just so-so for you. It's not a good thing."

The two boys who were sent flying had already got up. Looking around, they immediately looked at Han Fei.

A boy threatened, "Boy, don't tell anyone what happened today."

Han Fei shrugged. "I don't have the habit of bad-mouthing others behind their backs."

Han Fei lunged to his feet, but no one saw that at the moment of the explosion just now, a shadow had already been lurking.

At this moment, the painting had been opened. Hearing Han Fei's words, Zhang Qiaoqiao tried to unveil the painting. Sure enough, she saw a starfish painting below.

Upon seeing this picture, Zhang Qiaoqiao immediately compared it with the one she cultivated.

Instantly, Zhang Qiaoqiao shook her head slightly. The two were about the same. In comparison, this one was a bit worse.

Zhang Qiaoqiao said, "This painting is yours. However, I hope you can be more honest next time. If you can't get this one, you should try another one next time."

The two boys around Zhang Qiaoqiao didn't curse him this time but gloated.

One of them said, "Qiaoqiao, this is what the children of collateral branches usually do. Don't take it to heart."

The other person added, "That's right, Qiaoqiao. These guys are very scheming. Although he set you up this time, don't give him a chance to trick you again."

After Zhang Qiaoqiao and the others left, Han Fei shook his head slightly. She used to be a good girl, but now she had become more like a descendant of the big clans. Her attitude was not right.

Sure enough, the big clans were a place that could corrode the heart.

However, Han Fei didn't take it seriously. His goal had been achieved. He quickly found an energy fruit, a battle suit, a long knife, and a heaven-level high-quality secret technique.

In the eyes of outsiders, with these few things and the visualization picture, Han Fei had definitely gained a lot from this trip.

When leaving the treasure house, Han Fei went to the door again and said respectfully to Grandpa Six, "Senior, I've selected five items."

"Humph! Lucky boy, go now..."

"Yes, Senior."

After leaving the treasure house, no one paid attention to a trivial figure like Han Fei anymore. Even so, Han Fei still pretended to be careful and quickly returned to his home. He closed his door and refused guests, immediately beginning to study the visualization picture.

Late at night.

A black shadow appeared silently on the fourth level of the Zhang family's treasure house. When a teleportation array was activated, there must be a mechanism to trigger it. However, although this treasure house was a small world, it couldn't escape the law of nature. With an array teleportation, there was naturally a normal entrance. Han Fei quietly bypassed this level and immediately said to the old turtle, "Old Yuan, remember one thing. Don't care about anything else. Help me find the seventh level of the True Spirit Fishing Art."

The old turtle was confused. "Did you sneak in just to find a technique?"

Han Fei sneered. "You don't understand. How can what I try so hard to find be bad?"

The old turtle realized that it did make sense. Who was Han Fei? He was a man-eating monster. If it weren't something absolutely important, why would he go deep into the enemy camp to take it by force?

A moment later, the old turtle said, "No, I'm sure of it. The strongest technique on this floor is heaven-level ultra-quality. No stronger one."

Han Fei asked, "Is this name among the heaven-level, low-quality and heaven-level, mid-quality ones?"

"No."

Han Fei's heart sank. "Let's continue. There are two floors above. I don't believe we can't find it."

On the fifth floor, Han Fei stayed at the entrance, his body completely fitting the shadow, which ordinary people couldn't discover at all. Who would scan their own treasury over and over again? Even if they scanned it, they might not be able to find anything!

Han Fei was drooling. This floor was actually exclusively for explorers. Although most things were useless to him, they were still very valuable.

Especially the spiritual fruit warehouse. He didn't need anything else, but he couldn't lack energy fruits. He could use them to become a Venerable.

A moment later, the old turtle said, "Next floor."

The sixth floor was different from the previous floors. When Han Fei found the entrance to this floor, he felt that something was wrong. This floor was enshrouded by the suppressing pressure of a powerhouse. Even the appearance of thin hair would be noticed.

Han Fei said, "Old Yuan, it's up to you."

The old turtle was speechless, but what could he do? Han Fei was already here looking for death. A layer of black fog suddenly descended like a turtle shell.

"Turtle Shell Sky Sealing Technique."

The old turtle said, "I've sealed a space of ten kilometers. It can be said that the entire treasure house is under my control. Release your soul and quickly search for it. Then run away."

Hearing that, Han Fei immediately spread out his perception and found all the techniques on this floor.

He had to admit that the Zhang family was indeed a worthy big clan that had existed for millions of years. There were as many as 2,168 Venerable-level techniques on this floor.

Han Fei spread out his perception and immediately saw the sixth and seventh levels of the True Spirit Fishing Art, arranged in an orderly fashion on this floor.

"Huff!"

Han Fei was relieved. Fortunately, the Zhang family didn't discover the secret of the True Spirit Fishing Art but stored it as an ordinary technique.

However, Han Fei certainly couldn't just take this one.

Han Fei waved his hand and looted all the techniques. Then, he looted a large number of spiritual fruits. Wherever he went, he looted everything.

A Venerable-level fish bone was sealed in a seal. Activating the Star Teleportation Technique, Han Fei entered the seal and collected the Venerable bone.

Some spiritual medicine flashed with a strange light. It was called the Sky Breaking Pill. It must be extraordinary. Collect it.

There were also pills named Enlightenment Pills. There were only three of them in the entire Zhang family. How could Han Fei put them down? Collect them...

In addition, Han Fei found three Sea Quelling Bizarre Treasure remnants, and a complete long whip, which turned out to be a Sea Quelling Bizarre Treasure.

Han Fei smiled. "Whip weapons are most suitable for Luo Xiaobai. Collect..."

After a while, Han Fei's Forge the Universe was filled with all kinds of treasures.

When all the places had been cleaned up, the rest, no matter what was left, were extremely dazzling. And on the highest level of the Zhang family's treasury, there were not many things that Han Fei could ignore.

In Han Fei's eyes, a black bead, covered in dust, rolled to a corner on the ground.

When he saw the pearl, Han Fei was slightly puzzled. Why was there a pearl in the middle of a pile of treasures? Was it left behind?

"Forget it, let me take it away first.."
