

GOF 1501

## Chapter 1501: A Speech that Shocked the Thousand Star City

The Zhao family had clearly received some sort of notice and was about to flee.

However, Han Fei came too fast. The guardians outside the chain bridge of Pure Sun Island couldn't even stop him for a few seconds.

When Han Fei arrived here, many fishing boats had already started to take off.

Someone shouted, "Come on, let's go. Don't wait for anyone. Take off and leave."

Whoosh!

All of a sudden, a gale rose within a hundred kilometers, and countless people discovered, to their horror, that the wind became visible, with dazzling knife lights emerging in the wind. There was water mist as a knife, plants as a knife, as if everything in the world could become a knife.

In midair, Han Fei's voice echoed, "Where is the head of the Zhao family? Come out."

At this moment, everyone saw someone walking over from the sky. With his hands behind his back, he walked dozens of kilometers with each step. His aura made them panic.

On the ground, the Blade Inferno had just been launched. Whoever was above a Hidden Fisher would be killed. If Han Fei wanted to establish prestige in the Thousand Star City today, he had to be on a killing spree today.

"Ahhh!"

"Family Head, save me!"

Someone's body was cut off, but he was still alive, crying for help.

Someone cursed, "Devil, who wants to destroy our Zhao family?"

Han Fei chuckled and said, "My name is Han Fei. I'm from Pure Sun Island, Thug Academy."

"My lord, please spare the Zhao family. It's I who occupied the Su family and entered the Thug Academy. Please punish me, my lord."

An old man flew over. His strength was only that of an intermediate Explorer, but his hair was already gray. Even if he wasn't killed, he wouldn't live long.

"Pfft!"

Ignoring the old man's words, Han Fei waved his knife and killed the old man.

"Patriarch ~"

"Villain, how have we Zhao family ever offended you? Why do you have to do this?"

Seeing this scene, many people were dumbfounded and fled in panic.

Someone was furious. There was no telling if he knew that he couldn't escape, and he began to curse.

Han Fei sneered. "Let me say it again. Master of the Zhao Family, come out. You only have three seconds. Don't make me take the initiative to find you."

After Han Fei said this, in less than two minutes, he saw a fat guy flying in the air. This person was only a junior Explorer.

Coming with him was an old woman who was an advanced Explorer. However, the old woman was about to die too. The Zhao Family's situation wasn't much better than the Su Family's.

Seeing these two people, Han Fei shook his head slightly. "A family that only has three Explorers dares to participate in the matters of the Thug Academy and the big clans? How dare you!"

The head of the Zhao family panicked and his body was trembling. "Zhao... Zhao You greets Marshal Han. Marshal Han, please punish the Zhao family for making this big mistake. But this matter... was all up to me. Please let the Zhao family's descendants go. They know nothing at all!"

Han Fei curled his lips. "Shut up. Do you think I'm a fool? How is it possible the Zhao family's descendants know nothing about this matter at all?"

The old woman hurriedly said, "Marshal Han, the two explorers of the Su Family weren't killed by our Zhao Family. However, I and Zhao You can pay with our lives... The three explorers of the Zhao Family have all died here today. Please spare the Zhao Family, Marshal Han."

Han Fei was not in a hurry. He didn't withdraw the Blade Inferno but said casually, "Which family is the Zhao family attached to?"

While speaking, Han Fei looked at the distant void and said, "Which big clan wants to stand up? I, Han Fei, am here. Does anyone want to fight me?"

Hearing Han Fei's casual provocation, Zhao You and the old woman were shocked. Why did Han Fei dare to provoke the big clans of the Thousand Star City so blatantly?

The old woman looked down at her family. More than half of the disciples above the Hidden Fisher level had died. If this continued, all the strong disciples would die.

The old woman shouted, "Marshal Han, it's the Sun family... Marshal Han, please spare our disciples..."

Han Fei smiled. "Why didn't you tell me earlier? Why did you run away? If you hadn't run away, I might not have attacked you."

Han Fei roared, "The Zhao family is immoral and despicable. Today, I, Han Fei, will enforce justice on behalf of the heavens, destroy the Zhao family, and return peace to the people. From now on, the Zhao family will no longer exist on Drifting Cloud Island."

"Pu! Pu! Pu! Pu!"

At that moment, the infinite blades revealed their sharpness in the sky. Zhao You, the old woman and the disciples in the Law Enforcer realm were instantly executed.

For a moment, everybody in the Zhao family was crying. Countless people glared at Han Fei with hatred, but Han Fei didn't care. If you have the ability, come and take revenge. Otherwise, I'll kill you again.

Han Fei extended his hand and reached into the Zhao family's treasury. A large number of resources were taken away. Han Fei discovered that even in this family that was about to decline, there were many resources, such as spiritual spring, which numbered in the millions. There were really countless combat skills, techniques, weapons, and spiritual fruits.

However, apart from the spiritual spring and a few materials, Han Fei sprinkled everything else into the wind on the Drifting Cloud Island.

At that moment, Han Fei extended his hand, and a piece of Divine Weapon material quickly melted and transformed into a gigantic megaphone!

Han Fei shouted, "The big clans are ruthless and exploit the people. Today, I, Han Fei, will return the Zhao family's ill-gotten gains to the people on the Drifting Cloud Island."

As he spoke, Han Fei grabbed a million kilograms of spiritual spring and controlled them to move. The spiritual spring flew in the sky and fell like rain.

Someone was looking up at the sky and suddenly saw something falling from the sky. He couldn't help but ask, "What is that?"

The man rose to the sky, grabbed it, and found a spiritual fruit in his hand. He gasped and then exclaimed, "Is the Zhao family really gone?"

Someone was still waiting to watch the show when he saw a spear stabbing at him. After hurriedly dodging it, the spear at least at the Semi-Divine level stabbed into the ground before him.

"Holy sh \* t, who is this Han Fei? The Zhao family has a huge amount of resources, and he just threw them out?"

Someone exclaimed, "I got a heaven-level technique!"

Someone laughed. "I got a heaven-level, low-quality combat skill too."

Someone said helplessly, "It's a pity that I only got a demon-level mid-quality combat skill."

For a moment, the sky was full of people, and many people were fighting for it. The Zhao family had been wiped out. These things were ownerless and belonged to whoever grabbed them. Why didn't they grab them?

Someone scrambled and asked, "Who can tell us who Han Fei is?"

Someone replied, "I don't know! I've never heard of him."

Someone shouted, "You guys are really uninformed! Do you forget that the Scattered Stars Island has become a paradise of adventure! Han Fei is the supreme commander of the Scattered Stars Island, Marshal Han."

"Hiss, really?"

“Oh my god, how unlucky the Zhao family is to offend such a powerhouse!”

“I don’t sympathize with the Zhao family at all. They always play dirty. They deserve it.”

...

Han Fei didn’t kill all the remaining people of the Zhao family. He knew that no matter how bad a crowd was, there would always be good people. No matter how good a crowd was, there would always be bad people.

Good and bad were meaningless under certain circumstances. He, Han Fei, was not a good person. Faced with a family that was mostly bad, even if he wiped out the family, so what?

Amidst the cries, standing in the sky, Han Fei raised his hand and the Infinity Water appeared, attracting a river over. The river turned into a water dragon hundreds of meters long, with vivid scales on its body. On a closer look, it seemed to stride hundreds of kilometers away and disappear in the sky above the Zhao family.

Han Fei had the greatest grudge against the Sun Family first and then the Chu Sect. Therefore, he wasn’t surprised at all when the old woman said that the Zhao Family was attached to the Sun Family.

However, Han Fei didn’t want to cause trouble for the time being. He would take this chance to make his thoughts clear to the entire Thousand Star City today!

Han Fei put the trumpet Divine weapon he had just made to his mouth and shouted, “All citizens within the Thousand Star City, listen to me... All citizens within the Thousand Star City, listen to me...”

At that moment, Han Fei’s voice spread throughout the Thousand Star City. Although it took some time for the sound waves to spread out, it didn’t affect his speech.

Han Fei said, “My name is Han Fei, the current supreme commander of the Scattered Stars Island and the acting president of the Thug Academy. I have something to tell you...”

In the Thousand Star City, on the various islands, countless people looked up at the sky one after another, listening to the surging sound waves that rippled across the sky.

For a moment, countless people were discussing, surprised at the supreme commander of the Scattered Stars Island, and curious about what Han Fei wanted to say to them.

Han Fei said, “I was the supreme commander of the Scattered Stars Island for a year, but I’ve slaughtered more than ten Venerables, and killed countless sea demons. A year ago, I launched an unprecedented war, uprooted the sea demons’ base, the Ten Thousand Demon Valley, and killed the clones of the king of sea demons, the Black Evil Conch King and destroyed his henchmen... Of course, this is not my credit alone, but the credit of the millions of soldiers on the Scattered Stars Island. Today, I am not here to brag, but to tell you a few things...”

When Han Fei said that, many people were moved.

In the Thousand Star City, countless people had participated in the war on the Scattered Stars Island, and many people on the various islands were still taking veteran subsidies. They even regarded

themselves as members of the Scattered Stars Island. Hearing the big event of the Scattered Stars Island, how could they not be moved?

These people all rose and listened to Han Fei carefully and solemnly.

Han Fei's voice continued to float over, "Now, the Scattered Stars Island has been transformed into a world of adventurers by me. Countless people from the Thousand Star City and the Thirty-Six Towns have gone to the Scattered Stars Island to explore it. There are peak-level combat skills, infinite treasures, and infinite secret realms waiting for you to explore... First of all, I need to call on you. If you want to become strong, you can go to the Scattered Stars Island to take a look. You won't suffer any loss..."

Han Fei paused and continued, "The second thing is that I'm from the Thug Academy, which used to be the leader of the eight academies in the Thousand Star City... The big clans in the Thousand Star City covet the resources of the Thug Academy and gang up on us. Therefore, I will never let off the big clans in the Thousand Star City until I die.. In the future, I'll definitely flatten the big clans in the Thousand Star City and create a great world that has no exploitation, oppression but only fairness, justice and morality... Today, I'd like to ask the billions of humans in the Thousand Star City to bear witness to me. When I, Han Fei, come to the Thousand Star City again, it will be the day the big clans disappear..."

### **Chapter 1502: Challenge**

Han Fei's voice floated in the sky above the Thousand Star City, as if it had great magical power, making countless people stop and watch.

Han Fei was not in a hurry.

He could successfully leave the Chu Sect. In the vast sea of people in the Thousand Star City, no one could find him, unless someone had a treasure like the Vast Ocean Navigator.

While Han Fei talked, he waited to see if anyone would attack him.

However, no one attacked him at all.

Han Fei stood high in the sky, his voice echoing, "The Sea Clan wants to annihilate the human race, and the big clans want to exploit us. With internal and external troubles, I, Han Fei, hereby swear on my Great Dao... that I'll kill the sea demons first and then destroy the big clans. In this chaotic world, I, Han Fei, should enforce justice on behalf of the heavens and liberate human beings... I want the Thousand Star City, the Thirty-Six Towns, the Scattered Stars Island... to be free of exploitation, infighting and oppression... Everyone is a free person, and everyone can go to sea, hunt, and grow up freely..."

After a long while, Han Fei's voice stopped.

The people of the Thousand Star City were in an uproar, and many people were excited.

Someone exclaimed, "Han Fei... Is he the supreme commander of the Scattered Stars Island? He's really domineering! If he can wipe out the big clans, I'll worship him forever!"

Someone's body trembled. "Although I don't know this person, from now on, I'll remember him. A person called Han Fei, a school called the Thug Academy, and the entire Scattered Stars Island are all enemies of the big clans."

"Okay! I will do everything I can to destroy the big clans!"

Someone murmured in his heart, Han Fei, Han Fei, Han Fei...

In the Thousand Star City, if people didn't go to the Scattered Stars Island, then they could only go to the Thousand Star Proving Ground, the Three Holy Lands, and the Arena to cultivate.

The spiritual energy in the Thousand Star City was quite rich. They could temper themselves in the arena and occasionally spend some money to go to the Thousand Star Proving Ground to gain experience, which was their way of life.

However, this method was completely different from the Thirty-Six Towns and the Scattered Stars Island.

Perhaps the people from the Thousand Star City were quite strong, but this was only because they had a high starting point and had generally learned more than the people from the 36 towns. That was why they were strong. In a real life-and-death battle, unless they were Heavenly Talents, who dared to say that they could defeat the people from the 36 towns?

And now, although the Scattered Stars Island was open, the number of people who could go there every day was limited. After all, there were not many teleportation arrays. Even if they lined up, they would have to wait for several years.

Therefore, the big clans in the Thousand Star City just looked on coldly, seeming not to be very worried.

Scattered Stars Island? It was just a small island. How many people could it accommodate? As long as the big clans controlled the exit and entrance of the Thousand Star City, how many people could go out? If the Scattered Stars Island cut off the resources of the Thousand Star City, the Thousand Star City would also cut off the flow of people.

However, Han Fei didn't think so.

The Scattered Stars Island was expanding, and he didn't need to care about the big clans at all. People who wanted to go to the Scattered Stars Island needed to be strictly screened. Many people wanted to go there but couldn't. Even if the big clans wanted to stop them, it was meaningless. After all, Han Fei could still take reinforcements from the 36 towns.

Although the people in the Thirty-Six Towns were not as strong as the people in the Thousand Star City, the Scattered Stars Island no longer had to fight sea demons, and people didn't have to worry every day. Therefore, even if the people of the Thirty-Six Towns were relatively weak, it wasn't a big problem. They could still grow up!

At this moment, Han Fei had finished his speech and flew to the inner part of the Thousand Star City. Along the way, he didn't withdraw the Blade Inferno and flew blatantly across the sky.

Han Fei went straight to the Sun Family without hiding at all.

Today, no matter what, he must fight a battle. He must show everyone in the Thousand Star City how he, Han Fei, was a man of his word!

Han Fei's recklessness made Ren Tianfei, who was in the void, a little dumbfounded. Is this kid so simple-minded? Does he have to teach the Sun Family a lesson under public stare today?

Three Light Island was one of the three big islands located at the periphery of the three Holy Lands. On this island, there were three big families, which were the Sun Family, Yang Family, and Mo Family.

Among these three families, the Sun Family was shrewd, the Yang Family was simple-minded, and the Mo Family was led by women. They were all the largest families in the Thousand Star City.

One of the Venerables of the Sun Family died, but Han Fei was also tricked by Sun Xiaotian, one of the three patriarchs of the Sun Family. In the battle Tang Yan participated in a year ago, Sun Xiaotian even aroused Ning Jing's anger.

In fact, Ning Jing was also watching. Other people couldn't come to the Thousand Star City, but she could come and eat and drink along the way.

Seeing that Han Fei was so arrogant and domineering, Ning Jing shook her head and said to Han Fei's black-mist body, "Are you crazy? How dare you just charge into the enemy's home alone?"

Han Fei picked up the fish head meat in the big pot in front of him and said, "Anyway, they can't kill me! It feels weird. In this state, I can't eat as happily as usual."

Ning Jing snorted. "Then don't eat. I'll eat alone."

Next to the two of them was the Fire Moon Fairy who had fought on the Scattered Stars Island. At this moment, Han Fei was in the Sea Cloud Tower.

The Fire Moon Fairy watched the fish head fly up by itself, feeling very uncomfortable. Han Fei was sitting right next to her, but she couldn't feel his existence at all.

She said, "Han Fei, shall I send the five disciples of the Thug Academy back or just let them stay in the Water-Wood World?"

Han Fei shrugged. "Why didn't I meet them when I was in the Water-Wood World? Send them back! The Scattered Stars Island is different from before. They have been cultivating in the Water-Wood World long enough. Now, it's time to return to the Yin-Yang World..."

Han Fei already knew that the Sea Cloud Tower was from the Water-Wood World.

When Han Fei looked for Ning Jing but the Vast Ocean Navigator pointed to the Sea Cloud Tower, he had already known it.

At this moment, Han Fei simply dropped his chopsticks. Someone from the three big families had already appeared on the Three Light Island.

...

Han Fei rode on a dragon, and under the eyes of countless people, he walked ostentatiously. As the big dragon underneath him was flying in the sky, the swishing sound of flying knives never stopped.

On the Three Light Island, there were already four Venerables waiting for Han Fei.

A Venerable from the Yang family glared at him. "Han Fei, are you going to fight us now?"

Han Fei glanced at the brawny man contemptuously. "Yang Kun has died. Who are you? None of you big clans are trustworthy. You said your family only had one Venerable, but how come there is another Venerable after Yang Kun died..."

The brawny man was furious. "Han Fei, are you provoking us?"

Han Fei raised his megaphone and roared, "I'm just provoking you. What can you do? Shut up! Otherwise, I'll destroy the Yang family first and then the Sun family. Son of a b \* tch, how dare you speak to me like this? Have you lost your mind?"

The Venerable from the Yang family was about to flare up, but seeing that the Venerable from the Mo family was looking at him, he immediately swallowed his words.

Yes, Han Fei broke into the Chu Sect alone and even came out safely! After he came out, he still dared to stay here! So, the one who came now must be his clone!

Killing a clone? It was meaningless to the big clans. On the contrary, once Han Fei was angered, they would be in danger.

"Hmph!"

The Venerable of the Yang family snorted heavily, but he didn't say any more.

Two people from the Sun Family came out, one was Sun Xiaotian, and the other was Sun Baisheng.

Sun Baisheng was indeed still alive. When they were fighting on the Scattered Stars Island, these two people must have swapped with each other.

Han Fei ignored the Yang and Mo families and walked straight to the Sun Family's camp.

In the Yang family, Yang Deyu kept swallowing saliva and even sent a voice transmission to Yang Nanxi. "Sister Nanxi! I think our family should find a smart family to establish a marital relationship with in the future. Fortunately, our patriarch didn't join the battle against him. Otherwise, we would have suffered losses too."

Yang Nanxi rolled her eyes at Yang Deyu. "What losses? Han Fei won't attack us. If he attacks us, he's bullying the weak. More importantly, I'm the only one who can compete with him. He will definitely wait for me to grow up before dealing with us."

Yang Deyu couldn't help but open his mouth. F\*ck, what kind of brain do you have? Han Fei is right. Your head must have been hit by an Iron-Head Fish! If you have the potential to become a king, the first person he should kill is you. How can he possibly give you time to grow up? Do you think Han Fei's head has been hit by an Iron-Head Fish?

On the Three Light Island, countless people looked up, and many people had already run far away.

If there was a Venerable-level battle, any random shock wave could crush ordinary people like them.

Han Fei stepped directly above the Sun Family and raised his chin at Sun Xiaotian. "You're Sun Xiaotian, right? Today, I'm here to fight you so that I can experience the strength of an advanced Venerable."

Sun Xiaotian narrowed his eyes slightly. "Han Fei, you're just a junior Venerable. Are you sure you want to fight me? You should know that you can't touch my Sun Family today no matter what."

As the saying went, when the lips die, the teeth turn cold. No matter how stupid the Yang and Mo families were, they would definitely understand this truth.

Therefore, even if he was no match for Han Fei, there would still be people coming to save him. Even if the Yang and Mo families couldn't save him, there would still be Chu Sect and other races to save him... Anyway, he wouldn't die!

The corners of Han Fei's mouth curled up. "Don't get me wrong. I'm here today to challenge you one-on-one so that I can have a taste of the strength of an advanced Venerable... As for attacking your Sun Family? Don't worry. You won't be able to run away. I'll settle scores with the big clans in the Thousand Star City one by one."

The two of them spoke without hiding anything. Their voices were so loud that countless people heard them.

Many ordinary people gasped. Has Han Fei become a Venerable? Does the Sun Family have an advanced Venerable expert? Han Fei wants to challenge them as soon as he becomes a Venerable?

The ordinary people knew nothing but that Han Fei was cool and awesome. Although this provocation was a bit unreasonable, they didn't care.

Sun Xiaotian knew that if he failed to kill Han Fei with a sneak attack, he would definitely be retaliated. However, he didn't expect Han Fei to come so quickly under such circumstances...

He didn't want to fight Han Fei. In his opinion, this was not Han Fei's real body at all. It was just a clone. Even if he won, so what?

However, Han Fei had invited him to fight on the spot. With billions of people watching, how could he not fight?

Sun Xiaotian shouted, "Come on, let's fight!"

### **Chapter 1503: I'll Harvest Your Lives**

Han Fei caused a great uproar today.

He slaughtered a small family.

He gave an exciting speech.

He came to challenge the advanced Venerable of the Sun Family.

Among them, it was not a big deal to wipe out a small family. Eight years ago, as many as dozens of families were wiped out.

Ren Tianfei, this old b \* stard, had killed several of them alone. However, their actions were not as blatant and loud as Han Fei's...

After all, that kind of battle was a life-and-death battle. Both parties sent out a lot of forces, which was a group battle. In a Venerable-level battle, the Venerables fought in the void. No one was as ostentatious as Han Fei.

Therefore, ordinary people couldn't see the whole process of the battle, and only the strong could.

This time, no one stopped Han Fei's challenge.

What had happened in the Chu Sect? Everyone knew it the moment the million people left the Cold Moon. With the departure of a million people, news spread everywhere.

Now, all the big clans knew that Han Fei had the ability to hunt other people's spiritual beasts.

This also meant that Han Fei could directly or indirectly hunt in the Soul Sea. This matter was already terrifying enough. No one in the entire Thousand Star City had ever solved the mystery of the Soul Sea. Why did Han Fei have this ability?

In addition, Han Fei, a mere Venerable, had sneaked into Chu Sect.

Old Demon Chu and Chu Menwang had even activated the great guardian array, but after half a month, they didn't even catch Han Fei's shadow. In the end, they were forced to let Han Fei out!

It could be said that the Chu Sect had lost all face.

Chi la!

The void opened, and Han Fei and Sun Xiaotian stepped into the void one after another.

Of course, Sun Xiaotian wouldn't treat Han Fei as an ordinary person. Which ordinary person could kill a Half-King in the realm of a Half-Venerable? Which junior Venerable could escape from a Half-King several times? And which Venerable could sneak into Chu Sect and crazily hunt other people's spiritual beasts?

Han Fei could do all this.

Therefore, Sun Xiaotian would use all his strength. He would even treat Han Fei as a peak-level Venerable. After all, he knew that if Han Fei could kill him today, he would definitely not show any mercy. On the contrary, it was impossible for him to kill Han Fei today no matter what. It was his home ground, but he was restrained in every respect. This was what made him uncomfortable.

As soon as he entered the void, Sun Xiaotian stretched out his hand and waved, and an ultra-quality divine sword appeared in his hand.

Swish! Swish! Swish!

Sun Xiaotian held the long sword in his hand, and a hundred swords flew in the air, forming a large array. This was the Sun Family's Immortals Slaying Array. Han Fei had already recognized it as soon as Sun Xiaotian attacked.

When Sun Mu was still alive, he had a lot of interactions with this Immortals Slaying Array.

However, the Immortals Slaying Array Sun Mu used was on a completely different level from the one Sun Xiaotian used.

The first blow was still the Immortals Slaying Sword Qi.

In Sun Xiaotian's hand, since the moment he held the long sword, the Immortals Slaying Sword Qi had covered hundreds of kilometers, forming a Sword Qi domain.

Han Fei didn't stop him. He secretly activated his Great Dao, and his strength had already increased. At least, in terms of strength, Han Fei could already match an advanced Venerable. However, in terms of soul strength, he was definitely still inferior.

According to Ren Tianfei's theory, Sun Xiaotian lived older than you, cultivated longer than you, had a higher realm than you, so how could his soul strength be lower than yours?

Han Fei admitted this. At least, he admitted this when his soul power hadn't been restored at all.

However, Han Fei didn't panic. After all, he had the Demon Purification Pot. Sun Xiaotian wouldn't be able to hurt his soul unless he used extremely special methods.

Back in the Ideal Palace, it was completely an accident. Back then, he was circulating the Supreme Yin-Yang Wheel, and the weapon Chu Qingyan obtained was extremely special. It was something unique to the Ideal Palace. Most importantly, those who could stay in the Ideal Palace were soul bodies.

With a thought from Han Fei, in the void, in the array of the Immortals Slaying Array, the Blade Inferno also rolled up, and the knife light and sword Qi instantly scattered all around.

Different from Sun Xiaotian's Immortals Slaying Sword Qi, Han Fei's Blade Inferno could trigger void cracks. Its strength could completely shatter the Immortals Sword Qi. If a Venerable-level divine-quality combat skill couldn't even do this, how could it be called Venerable-level divine-quality?

Sun Xiaotian had clearly realized this too. Even all the Venerables who were watching the battle realized this too.

The Venerable of the Yang family who was closest to them asked in surprise, "What combat skill is Han Fei using? It could even trigger a void crack?"

The Venerable from the Mo Family said, "The key is not whether he can trigger the void cracks, but this combat skill is too strong! In group battles, the Immortals Slaying Array should be the strongest group combat skill we know. However, this combat skill of Han Fei is even better than the Immortals Slaying Array. We can only see what will happen next..."

Sun Xiaotian had already fallen behind in the first area-of-effect combat skill.

Sun Xiaotian's second move, Immortal Shows the Way, had already been launched. Four red lights shot at Han Fei from four directions.

The corners of Han Fei's mouth curled up slightly, and he stood still. The void cracks overlapped and spread out from Han Fei. The four red lights couldn't escape the swallowing of the void at all and were directly swallowed.

It could be said that using the void cracks was also a space combat skill, which made all of Sun Xiaotian's moves sink into different spaces. If Sun Xiaotian's attack power was not enough to crush these void cracks, how could his attack get close to Han Fei?

At this moment, Han Fei said casually, "Well, I've told Sun Mu before that he'd better use his trump card at the very beginning of a fight. But it seems that you Sun Family people never accept my suggestion. Do you have to use it step by step to make me realize how powerful your Immortals Slaying Array is... Haha, what's there to show off? Is it really so powerful?"

He looked at the third move of the Immortals Slaying Array, which was glowing with red light, and the void was filled with red lines.

Each of the red lines was extremely fast.

Han Fei knew that the Blade Inferno couldn't resist it anymore. The Infinity Water in front of him turned into ten thousand knives and flew around Han Fei, protecting him like an azure dragon.

Clank, Clank, Clank ~

Clang! Clang! Clang!

The red light that could tear the void apart couldn't tear the azure dragon that surrounded Han Fei.

The Infinity Water grew with Han Fei.

Now that Han Fei had become a Venerable, the Infinity Water had almost reached the level of a high-quality Divine weapon. Even if he let these sword currents attack the Infinity Water, they could cause no harm to it.

When Sun Xiaotian tried to besiege Han Fei, the endless space cracks also swept at Sun Xiaotian at the same time. The latter had a main sword in his hand and he brandished it to shatter these void cracks.

The corners of Han Fei's mouth curled up in disdain. He suddenly moved towards Sun Xiaotian, walking dozens of miles with each step.

Chi la!

Han Fei reached out and grabbed at the air, drew out a 100-meter-long void crack, and slashed at Sun Xiaotian.

"Protect my body with the sword aura. Dragons and snakes, retreat."

Sun Xiaotian condensed a sword aura around him. The 108 swords returned and turned into one as he activated Ten Thousand Swords in One.

But Han Fei still extended his hand and grabbed at the void.

Chi la!

Chi la!

Chi la!

Huge spatial cracks appeared one after another.

Who would have thought that Han Fei could turn the space crack into a long knife in his hand and pull it out of the void?

In the Grand Void Academy, many elders sighed. "What kind of knife technique is this? Why does it look like our Grand Void Academy's ultimate technique, the Void Sword Qi?"

Someone shook his head slightly. "It seems to be different. Han Fei seems to be slashing in the air, but in fact, every time he attacks, he needs to be fast, accurate, and ruthless. And the consumption is huge! However, the power of this blow is really difficult to resist."

Someone sighed. "What a strong knife technique. The people of the Heavenly Sword Sect will probably have a headache when they see it."

The Heavenly Sword Sect was better at using swords than the Grand Void Academy.

In the Heavenly Sword Sect, ordinary people couldn't play with swords because they had to find their own path of the sword and get the sword in their heart first.

At this moment, the Sky Sword Master and Mu Tianfang were shocked to see Han Fei's terrifying knife light.

The Sky Sword Master said lightly, "Han Fei is just using the knife by force. If he finds the knife soul and the knife in his heart, Sun Xiaotian is no match for him."

Mu Tianfang said, "Even so, he's already very powerful. At least, I can't compare to him in saber technique."

The Sky Sword Master said, "He will find it. This child is a quick-learner."

The battle in the void was thrilling.

Under the knife light and sword shadow, even mountains and seas were cut apart.

If such an attack appeared on the Three Light Island, the island would be reduced to ruins in a moment. Therefore, the battle of the strong was always in the void.

At this moment, the battle was over.

Sun Xiaotian blocked Han Fei's attack with the Sky Sealing Tide. At the same time, he was shocked to find that Han Fei was too talented. If he had a chance to choose again, he really didn't want to be enemies with a guy like Han Fei.

Sun Xiaotian shouted in a low voice, "Deity Slaying 108 Swords..."

At this time, even the long sword in Sun Xiaotian's hand had joined the battle. As the sword entered the void, Sun Xiaotian directly took action. With the power of the Immortal Slaying Array, a terrifying sword wave darted at Han Fei with a swoosh.

Under the 108 sword shadows, the void seemed to be cut open.

What Han Fei sensed was a weird technique that could cut into the soul.

Han Fei twisted his body and felt that he had been hit by a sword. His head hurt. If this went on, his soul would be greatly damaged.

Han Fei issued an order in his heart, and the Infinity Water transformed into 108 small dragons, each of which fought a sword of the 108 swords.

Han Fei smiled ferociously. "Interesting. Although Sun Mu also knows this sword technique, it's not powerful."

Boom boom boom...

The Infinity Water suddenly exploded, and most of the 108 swords were instantly blown up. In terms of quality, they were now inferior to the Infinity Water.

Han Fei looked at Sun Xiaotian with a smile. "What else have you got? I'm running out of patience."

After that, Han Fei roared, "Hundred Beast Soul Devouring!"

It was also a soul attack, but different from the Deity Slaying 108 Swords, this kind of power was directly used in Sun Xiao's consciousness.

"Immortal Slaying Spike!"

Chi la!

"Puff ~"

Han Fei and Sun Xiaotian both vomited blood. Both of them seemed to be seriously injured.

Han Fei failed to block the last stab. Sun Xiaotian seemed to withstand the soul attack to get the chance to stab Han Fei.

A big hole was pierced through Han Fei's chest, but Han Fei didn't care. Instead, he grinned and shattered the Immortal Slaying Array with a punch.

When Han Fei wanted to continue to pounce at Sun Xiaotian, he saw several Venerables come to Sun Xiaotian's side.

Chi la!

Han Fei tore the void and looked down at the Three Light Island.

"Hahaha... The big clans are nothing more than this. Today, you have more people, so I'll spare your life... but in the future, I, Han Fei, will come to harvest your lives one by one..."

#### **Chapter 1504: Marshal Han Returns**

Boom...

Han Fei's black mist body disappeared in front of everyone as if it had never appeared. Or maybe, Han Fei went to a place that no one knew in an unknown way.

Sea Cloud Tower.

Buzz!

Han Fei's body trembled, and his two bodies became one. He picked up the chopsticks again, picked up a large piece of fish meat, and stuffed it into his mouth.

The Fire Moon Fairy was naturally surprised. What kind of technique did Han Fei use? His two clones could be thousands of kilometers away, but they were combined in the blink of an eye...

More importantly, even Ning Jing was dumbfounded. Han Fei had defeated Sun Xiaotian with only his clone. Wasn't his strength improving too fast?

In fact, the two of them didn't know that Han Fei's use of strength had reached its limit. He couldn't hold on anymore with the Twin Divine Technique!

It only took him about ten minutes to finish the whole battle.

Han Fei discovered that when he activated the Great Dao, the pressure the Twin God Technique could withstand became greater. After ten minutes, he was almost at his limit.

However, Han Fei secretly smiled. He was indeed strong enough. He couldn't expect himself to leap a major realm in just one year and be comparable to a Half-King, right?

After the meal, Han Fei said, "Miss Fire Moon, there should be a way to the Scattered Stars Island from the Sea Cloud Tower, right?"

Han Fei had plenty of means to return to the Scattered Stars Island through normal means.

However, it wasn't absolutely safe. Who knew if Old Chu and the others would suddenly take action? Would they find out something?

The path of the Sea Cloud Tower was convenient and fast. Why should he bother to continue to fight the big clans?

The Fire Moon Fairy nodded slightly. "Of course. Please follow me..."

After a while, Han Fei and Ning Jing stood in a teleportation array inside a mountain and disappeared from the Thousand Star City with a swish.

The Thousand Star City was in a different space from the Thirty-Six Towns, which was why the people in the Thirty-Six Towns couldn't fly to the Thousand Star City. The teleportation array only broke the thin film of this space, allowing them to cross this barrier.

Clatter ~

The two of them appeared on the sea. The sea wind was strong and the waves were surging. This place should be a distance away from the Scattered Stars Island.

When there were only the two of them left, Ning Jing said, "Have you been to the Yin-Yang Heavenly Palace? How is it? Is it fun?"

Han Fei smiled and looked at her weirdly. "Fun? I almost lost my life."

Ning Jing blinked and thought to herself, That's true. The Yin-Yang World has been in chaos for so long. It's definitely not that easy to enter the Yin-Yang Heavenly Palace.

...

On the Scattered Stars Island.

The construction work was still going on.

Earlier, Han Fei's original plan was to temporarily expand the Scattered Stars Island by thousands of kilometers.

Although it was just a thousand kilometers, they had to reclaim land from the sea by a thousand kilometers. Besides, how could ordinary people do this job? Only the strong could do that.

After that, countless people would receive missions from the mission hall and go to the new land in all directions to kill marine creatures.

Because there were all sand and Flash Stones from the sea on the new land, many marine creatures would drill into them.

A year had passed, and this task had probably just been completed.

At this moment, the Scattered Stars Island was more than 3,000 kilometers long and less than 4,000 kilometers wide. This area had suddenly become a lot larger.

Now, countless people from the Thirty-Six Towns were rushing to the Scattered Stars Island, let alone from the Thousand Star City. Whoever could come to the Scattered Stars Island was very excited.

This caused the population of the Scattered Stars Island to increase at a terrifying speed.

At least 30 million people were on the island now.

After all, it was only one year before Han Fei announced the establishment of the City of Justice.

It could be said that every day, tens of thousands of people came to the Scattered Stars Island from the 36 towns and the Thousand Star City. Among them, most were from the 36 towns.

The population was soaring, which meant that the sea reclamation had to continue.

After Xue Shenqi's secret manipulation, the leadership of the City of Justice had decided to expand the Scattered Stars Island into a five-thousand-kilometer area, with an estimated future population of as many as two hundred million.

The population couldn't grow too fast.

This required the support of various facilities and an effective planning of the city. The expansion of the various departments required time.

For the past year, all the departments had been busy.

Although the former Skeleton Shore was still called the Skeleton Shore at this moment, it had expanded too much. Just this place alone expanded by more than 500 miles of sea.

Countless newcomers, who were only Dangling Fishers, led by Hanging Fishers, hunted creatures such as King Worms and Big-Eyed Crabs on the Skeleton Shore.

All along the coast, fighting went on ceaselessly.

The sea creatures that were the lowest-level creatures for the soldiers stationed on the Scattered Stars Island were so intimidating to countless newcomers that they were trying their best to fight them.

Many of the former soldiers who were assigned to watch over newcomers were cursing.

Someone shouted, "Attack! Spirit gatherer, what are you doing? Supply spiritual energy! Do you want to kill your teammates?"

Someone shouted angrily, "Soul warrior, why don't you dare to attack? It's just a King Worm. Why are you so scared? You coward, I'll give you ten seconds to finish the fight quickly."

This scene was everywhere.

Han Fei spread out his perception and found that people were fighting on the new land of the Scattered Stars Island. There seemed to be endless sea creatures that could burrow holes. After killing a batch, another batch emerged.

Outside the City of Justice, countless people came and went. Some were hunting, some were going to sea, some were doing business, some were looking for treasures, and some were doing missions...

Han Fei saw a prosperous scene.

Ning Jing disappeared as soon as they came back. She had already blended into the crowd.

As there were more people, there were more food stalls.

The Scattered Stars Island's population had exploded, and the specialty foods of the 36 towns could be seen here. They were completely mixed.

At the same time, a new Linglong Tower appeared in the City of Justice.

Seeing this, Han Fei smiled coldly. These guys hadn't run away? They probably hadn't known what happened in the Thousand Star City yet.

...

Zhang Teng was busy supervising the Scattered Stars Island.

In the past year, too many people had come. Zhang Teng's frank and outspoken personality was very popular. The supervisors recruited people every day and didn't have enough manpower...

As for the supervision department of the Scattered Stars Seventh Unit, they had even fewer manpower. After all, it was extremely difficult to enter the Scattered Stars Seventh Unit.

At this moment, everyone's desk in the two supervision departments was filled with files. They were extremely busy.

Zhang Teng was reading a document when a voice suddenly sounded in his mind. "Zhang Teng, contact the Scattered Stars Fifth Unit immediately and tell them to remove the Linglong Tower. That's Chu Sect's business."

Boom!

Zhang Teng jumped up from his chair with a swish and blushed. "Yes, Marshal Han."

Zhang Teng frowned and glanced at a young Hidden Fisher in the department.

With a bang, the Hidden Fisher was slapped into the wall.

"Come on, throw Hu Chong into the Scattered Stars Prison immediately!"

Hu Chong, who was kicked away by Zhang Teng, was stunned. "My lord, did I do anything wrong?"

On the side, many people were stunned too. Zhang Teng's sudden attack was quite scary.

Zhang Teng shouted, "You tried to persuade me to agree to the construction of the Linglong Tower several times in a row. Son of a b \* tch, that's the Chu Sect's business. Then who are you?"

"Hiss!"

Many people gasped. Everybody who worked in the supervision department knew that Han Fei had a nasty relationship with the big clans in the Thousand Star City.

If the Linglong Tower that was so famous was the Chu Sect's business, then what about the other businesses on the island? Because on the surface, it was the business of the Million Gold Town of the 36 towns.

Someone immediately grabbed Hu Chong. "Boss, what do we do now?"

Zhang Teng's mind was racing. "Put everything you're doing on hold. Detain everyone in the Linglong Tower immediately. Within an hour, I want to know the top customers of the Linglong Tower and its referrer from the Million Gold Town..."

After that, Zhang Teng looked at one of his subordinates and said via voice transmission, "Inform the secret department to prepare to go to the Million Gold Town. We must eliminate the Chu Sect spies all at once."

Half a day later, the powerful supervision system of the Scattered Stars Island showed their strong ability to take action.

The supervision department joined forces with the Scattered Stars Fifth Unit and the Law Enforcers, led by the inspectors, and instantly captured 326 Chu Sect spies.

These spies were lurking and wouldn't take any action normally.

However, their existence would eventually become a threat.

These 326 people were only the number of people caught on the Scattered Stars Island. There were still many people who hadn't been caught in the Million Gold Town .

At this moment, Zhang Teng and the leader of the Scattered Stars Fifth Unit were standing at the gate of the Marshal's Mansion. They had failed their duty! Hundreds of spies blatantly hid under their noses, but they didn't know it until Han Fei told them.

Zhang Teng said, "Please forgive me for my negligence, Marshal Han."

At this moment, Han Fei was discussing matters with Star Turtle and Xue Shenqi in the mansion. Hearing that Zhang Teng was here, he knew that the matter had been settled.

Xue Shenqi said, "Go about your business. The City of Justice is newly founded. You need to handle many things."

The Star Turtle also said in a hurry, "Since you're back, I'll return the position of the supreme commander to you. You can handle it yourself!"

Han Fei said with a smile, "Senior Star Turtle, no need to be humble. I may still have to trouble you in the future."

The Star Turtle's eyelids shivered. Trouble me? I'm most afraid of trouble.

After the Star Turtle and Xue Shenqi left, Han Fei said, "Come in."

As soon as Zhang Teng and the leader of the Scattered Stars Fifth Unit entered the mansion, they asked Han Fei to punish them.

Han Fei said with a smile, "The City of Justice has developed too fast. The Scattered Stars Island is completely different from the one a year ago. As the population increases, there will inevitably be some fish that slip through the net. You don't have to feel guilty. Come on... Sit..."

Seeing that Han Fei was so enthusiastic, Zhang Teng was stunned. This was the first time in a year that Han Fei had officially appeared, right?

Han Fei said, "As it happens, I have something to tell them. I need to call a meeting..."

### **Chapter 1505: Department of Construction · A Show**

After returning to the Scattered Stars Island, Han Fei didn't intend to stay long.

The position of supreme commander on the Scattered Stars Island was actually not very important in Han Fei's eyes. After all, he had once managed a true city of justice, whose territory was far more vast than the Thousand Star City.

Therefore, after taking over the Scattered Stars Island, Han Fei was very proficient in his operations.

After Han Fei established the City of Justice, everybody on the Scattered Stars Island was shocked by what he did, including Xue Shenqi.

Could it be that this talent to govern a city was also born? After all, Han Fei didn't have any experience in management and only knew to rob all day long. How could Xue Shenqi not know this? Not to mention Xue Shenqi, how many people in the upper echelon of the Scattered Stars Island didn't know this?

Therefore, at first, many people were suspicious of Han Fei. However, a year later, when the expanded City of Justice was placed in front of them, no one said a word...

Many people who had once suspected Han Fei, if they were not hostile forces, would often raise their thumbs and praise Han Fei, feeling proud from the bottom of their hearts!

At this time, Han Fei returned and immediately summoned hundreds of inspectors and leaders of the major departments on the Scattered Stars Island for a meeting in the Marshal's Mansion.

Everyone was very convinced by Han Fei.

At this moment, there were a hundred people sitting under the hall, and Han Fei was standing in front of the sea chart with his back to the crowd, looking up at it.

Everybody was still confused. Did the marshal have another idea?

After a long time, Han Fei said, "Everyone, why do you think the Scattered Stars Island can't draw a map of the entire sea area?"

After waiting for a few seconds, a middle-aged man said, "Marshal Han, the sea is so big. How can we really finish drawing it? Before, we only drew it about 2 million kilometers, because our battle with the sea demons is only in this range. No matter how far away it is, I'm afraid it's beyond our reach."

Han Fei turned around and looked at the person who spoke. "The inspector of the Pioneer Group, Qin Muzhi?"

The middle-aged man nodded with a smile. "Does Marshal Han know me?"

Han Fei nodded slightly. "The Pioneer Group, have you ever been further away? For example, five million kilometers away? Or, have you ever reached the level-three fishery or the 36 towns?"

Qin Muzhi was stunned for a moment. Seeing that Han Fei was talking about this topic, he immediately said, "The Thirty-Six Towns are about 2 million kilometers east of the Scattered Stars Island, which is also the place we protect. The existence of the level-three fishery is actually a protection for the Thirty-Six Towns. It completely keeps the Thirty-Six Towns behind."

Han Fei smiled and said, "Look, the sea area is only so big. Even if the Unknown Place is unknown, it's relative. This is because there were no ordinary people who could cross the sea area of millions of kilometers. There are too many powerful creatures along the way."

As he spoke, Han Fei looked at these people and said, "You are all the backbone of the Scattered Stars Island. There should be many people who know the secrets of this sea area, right?"

Hearing Han Fei's words, Qin Mu and the others all revealed subtle expressions.

Of course, some people were stunned, wondering if there was any big secret in this sea.

Without waiting for the others to ask, Han Fei simply said, "This sea area stretches for eight million kilometers and is surrounded by an enormous seal. In other words, the space we depend on for survival is only eight million kilometers."

Hearing this, many people were shocked. They had never heard of this secret!

However, they soon understood from the expressions of the people around them. It seemed that they just didn't know it yet. Some experienced people knew this secret.

Han Fei said with a smile, "Actually, it's not a big deal! In my opinion, it's not a secret at all. Eight million kilometers is very large, but it's also small. I can't let sea demon Venerables survive in this sea area. Therefore, I'm going to sea to hunt the remaining sea demons and kill the Black Evil Conch King..."

"Hiss..."

The people in front of him were dumbfounded. Marshal Han, are we going to start a war again? Isn't the war just finished? Oh my god, last year, so many sea demon Venerables died, causing the Scattered Stars Island to rain blood continuously for months. Some places were still red even now.

Now, Han Fei was going to fight them again? Hunting the Black Evil Conch King? Weren't his projections at the level of a Half-King? How dare Han Fei be so reckless?

Immediately, Tian Heng, who was in the Command Center, said, "Marshal Han, I think that the top priority now is for the human race to recuperate. The power of the sea demons is gone. In the next hundred years, the entire human race will develop at an extremely fast speed. At that time, strong masters will constantly be born. Marshal Han, you are the commander of everyone on the Scattered Stars Island. You must not take the risk..."

When Han Fei heard this, he couldn't have felt worse. Damn it, I'm not here to be a mascot! I'm here to get the power of faith. Do you think I am asking for your opinion?

Han Fei directly retorted, "Tian Heng! Remember, I am not asking for your opinion. I am just telling you that I have already decided on this matter. Only by hunting the remnants of the sea demons can the Scattered Stars Island develop steadily. Otherwise, once the sea demons catch their breath and a king comes over, the entire Scattered Stars Island will be a piece of cake."

Wang Lin from the Logistics Division thought to himself, Tian Heng is really stubborn. Marshal Han is truly determined to solve this problem once and for all!

Wang Lin said, "Marshal Han is wise! If we can eliminate the sea demon Venerable, all the billions of human beings can come to the Scattered Stars Island to develop. There are countless secret realms accumulated on the Scattered Stars Island over the years. We can gain experience just by going to the sea dozens of kilometers away. Even if we don't go to sea, just in the reclaimed land, ordinary people can gain experience."

Han Fei nodded and thought to himself, This Wang Lin is reliable and sensible.

Han Fei nodded slightly and thought of something. "Yes, that's exactly what I want. For the sake of the long-term stability of the Scattered Stars Island, I've called you here for another reason..."

Tian Heng was a little depressed. As far as he knew, Han Fei was too reckless! However, as the supreme commander, Han Fei was also strong enough. As long as the purpose was achieved, he was willing to do anything, but the effect of his actions were all very good. Because of this, he even began to doubt his own thinking.

Han Fei said, "OK! Wang Lin, listen..."

"Huh?"

Wang Lin paused and quickly said, "Yes, sir."

Han Fei said, "I'm planning to build a new department on the Scattered Stars Island called the Department of Construction. You'll be in charge of this department. As for your jobs in the Logistics Division, find someone to take them over..."

Everyone was stunned.

The Scattered Stars Island had been expanded for a year without any construction department. Now, such a department had been established. Did Marshal Han want to further expand the scale of the construction?

While Wang Lin was still stunned, Han Fei said, "The Department of Construction will build an arena in the City of Justice, a defensive position around the island, and rearrange the land resources on the Scattered Stars Island. On the Scattered Stars Island, a teleportation temple must be built to connect many secret realms that the Scattered Stars Island has already mastered... This task is definitely not small. I don't trust others to do it. If you need manpower, you can pick people from other department..."

Han Fei chatted for a long time and said leisurely in the end, "Oh! Right, by the way, tear down the statues of the Sea God!"

"OK... Huh?"

Wang Lin was stunned. F\*ck, is the construction department so powerful that they can even tear down the statue of the Sea God?

Immediately, someone said, "Marshal Han, look, the Sea God is the god in everyone's heart. It's not good to tear down the statue of the Sea God, right?"

Someone said, "Marshal Han, should we give it a second thought?"

Han Fei looked indifferent and inadvertently glanced at Wang Lin. Wang Lin trembled when he saw the look in Han Fei's eyes. At that moment, Wang Lin seemed to understand what Han Fei meant. He, he, he... Did he want to erect a statue for himself?

Wang Lin couldn't have felt worse. This matter is too shocking, isn't it? There has never been a supreme commander who erected his own statue before! It seems that with Han Shuai's prestige, no one would say anything even if he erected his statue. However, how many people will I offend if I do this?

However, Wang Lin was very smart and cunning. No matter who he offended, he couldn't offend Marshal Han! This person was a ruthless person who could even threaten the big clans with his own strength. If he wasn't careful, he might be killed for no reason.

Wang Lin immediately said, "Okay! Marshal Han's suggestion is great..."

Everyone looked at Wang Lin with a puzzled look. What's going on here?

Wang Lin immediately said eloquently, "Everyone, what is Marshal Han going to do this time? It's to eliminate the remnants of the sea demons and kill the projections of the Black Evil Conch King. This is an unparalleled heroic undertaking! A year ago, Marshal Han fought a shocking battle to save the future of our human race. A year later, Marshal Han wanted to put an end to future troubles and fought for the rise of our human race. I thought that the Sea God statue had to be replaced with Marshal Han's. Otherwise, how could Marshal Han's unparalleled contributions be known?"

Many people looked at Wang Lin sideways, thinking, Are you out of your mind? Worshiping the Sea God is something that human beings have been doing since ancient times. What will the ordinary people say if we take down the Sea God's statue?

Everyone looked at Han Fei, wondering if Han Fei made Wang Lin say this.

Han Fei smiled casually and pretended to decline. "Alas! This is not good! How can I, Han Fei, replace the statues of the Sea God all over the world with mine? My merits are still not enough!"

"Hiss..."

Hearing this, the others didn't know what to say. You don't just want to set up your own statue on the Scattered Stars Island but on the entire human world?

Everyone's expression changed. How could a person be treated like this if he was not a king yet?

"Yes, you can!"

Wang Lin roared, "Who has ever achieved more than destroying the Sea Clan? Isn't that enough? The statue of the Sea God is just a memento..."

Han Fei refused again. "I've just entered the Venerable realm. How can I have such an honor? Forget it, forget it..."

"Venerable?"

Many people were shocked again. They immediately knew why Han Fei wanted to go to sea to hunt.

Before, when Han Fei hadn't become a Venerable, he could already kill Venerables. Now that he had become a Venerable, how strong was he?

Besides, everyone knew Han Fei's background. He grew up fast, too fast! In just a dozen years, he had surpassed the realms of Hanging Fishers, Hidden Fishers, Law Enforcers, and Explorers... Now, he was already a Venerable.

This speed shocked them.

Wang Lin confirmed his judgment again. Han Fei was determined to become a king. He wanted to make great contributions to the world... The existence of the Sea God statues would affect Han Fei's road to becoming a king.

Immediately, Wang Lin shouted again, "Everyone, no Heavenly Talent in the world has as many achievements as Marshal Han! Destroying the sea demons is an unparalleled act. Where is your consciousness? Decisiveness?"

Looking at Wang Lin, Han Fei thought to himself, This Wang Lin is not bad. He can be my confidant and I'll nurture him well in the future.

Hearing Wang Lin's words, someone finally echoed him.

Someone said, "I think so too. Marshal Han's contribution is extraordinary."

Someone agreed. "With Marshal Han's contribution, we should erect his statues for people to worship."

Someone echoed, "I second..."

At this time, Han Fei soothed their emotions and said leisurely, "Everyone, although the scourge of sea demons has been resolved for now, it's not time to annihilate out yet. I'll go to sea in the next few days to wipe out the remaining sea demons..."

### **Chapter 1506: Jiuyin Ling's Tribulation**

After the meeting, Han Fei didn't go to sea to hunt immediately but began to wander in the City of Justice.

Han Fei casually walked on a road that had just been built but he didn't know where it led...

He looked at the stores on the street that sold spiritual fruits, materials, fishing poles, and various delicacies.

Perhaps because Han Fei was too high-profile and had appeared in front of millions of soldiers with the Sky Screen more than once, many people rubbed their eyes at this moment.

Someone exclaimed, "Han... Marshal Han?"

Someone couldn't hide his excitement as he ran to Han Fei and bowed. "Nice to meet you, Marshal Han."

Many people came to the City of Justice after the war. They didn't know Han Fei yet! However, in the past year, they had heard Han Fei's story many times and regarded him as an idol...

"Where is he? Where is Marshal Han?"

For a moment, someone shouted, someone stopped, someone waved at Han Fei, and someone's eyes glowed.

However, most people still didn't dare to approach.

In the hearts of many people, Han Fei had already become an invincible figure.

Who would expect such a strong master to walk on the street? Even the village leader and the mayor were not easy to meet in the villages and towns...

Han Fei smiled. "Everyone, do what you should do. I'm here to see this new City of Justice as an ordinary person. You don't have to care about me..."

"Marshal Han, you are truly wise. The City of Justice is the best city I have ever seen."

"Marshal Han, I'm not bragging, but the City of Justice has already surpassed the Thousand Star City."

"Marshal Han, we are so grateful for you..."

Han Fei passed the crowd with a smile.

As the supreme commander of the Scattered Stars Island, he hadn't shown up for nearly a year. Before going to sea this time, he must show up everywhere.

Therefore...

All kinds of rumors were flying around.

Someone said, "Marshal Han came to my stall to buy a fish skewer and gave me money. How could I take it?"

Someone said, "Marshal Han had a drink with me at the carnival shop but I never bragged about it!"

Someone said, "Marshal Han personally instructed me to refine weapons. You might not believe it, but I can be counted as Marshal Han's disciple."

Someone said, "Marshal Han was sitting on the beach watching the scenery. It's now a tourist attraction..."

In the past two or three days, because of Han Fei's appearance, the people on the Scattered Stars Island had much more to gossip about.

At this moment, more than 10,000 kilometers away in the outer sea, many fishing boats were flying over. Among them, there were as many as a dozen explorers, including Xue Shenqi.

Today was the day of Jiuyin Ling's tribulation.

Jiuyin Ling was standing on a black hull, which was engraved with strange patterns. While everyone was waiting, so was Han Fei.

Han Fei and Big Yellow were sitting on a boat not far away, fishing.

Han Fei's fishing hook was thrown thousands of kilometers away, and Big Yellow was very envious. He squatted beside Han Fei with a group of cats.

Big Yellow asked, "Han Fei, have you caught any powerful big fish? You're already a Venerable. Why don't you catch a Dao Seeking big fish and let me have a try?"

Swish ~

Han Fei retracted his fishing rod, the void trembled, and a silver light cut through the sky. In the void, ice spears shot out. The temperature between the heavens and earth seemed to drop by dozens of degrees.

Han Fei casually grabbed it and squeezed the ice spear, and then a big hand grabbed the big fish.

Many people looked at Han Fei.

Someone said in surprise, "Huh... Ice Kiss? This kind of creature is really rare!"

"Meow... Meow..."

Big Yellow shouted, "Han Fei, is it an Ice Kiss of the Dao Seeking realm? Come on, give it to me..."

Han Fei sneered. "This is just a ten-thousand-kilometer radius. Where can I go to catch a Dao Seeking big demon? Sea Spirit, take it!"

Big Yellow was not disappointed to hear that it was a Sea Spirit. It meowed and bit off a piece of meat from the Ice Kiss that Han Fei had pinched to death. The rest were all stored in the Sea Swallowing Seashell.

Han Fei couldn't help shaking his head. Big Yellow, why are you getting more and more stingy?

At this moment, dark clouds gathered and the waves surged. Above the sky, lightning flashed like dragons and snakes.

Only then did Han Fei put away the fishing rod in his hand and look at Jiuyin Ling. "The lightning tribulation is not difficult to transcend. With your physique, you can weather through it. Try to withstand the first and second lightning bolts with your body. If you can't resist the third one, use the boat array to block it."

Big Yellow stopped eating. He was going to transcend a tribulation in the future. It was extremely rare to have a chance to watch others transcend a tribulation.

Hundreds of peak-level Law Enforcers were present to observe and learn.

After waiting for another half an hour, when the furious waves were surging on the sea and the thunder streaks in the sky were about to overflow, the first thunderbolt finally struck.

Boom!

Boom ~

In an instant, Jiuyin Ling's hair was disheveled, electric currents surged throughout her body, and she was enveloped in a bloody mist. A lightning pillar enveloped Jiuyin Ling for more than ten seconds before she crashed into the sea.

This scene shocked many people. They knew very well how strong Jiuyin Ling was. It was just a lightning bolt, but her body was full of cracks and blood spurted out. A large area of her body was burnt and scabs formed all over her body.

After taking the first lightning strike, Jiuyin Ling glanced at Han Fei. Probably knowing that she didn't look too good now, she looked a little shy.

Boom!

The second lightning struck, and thousands of cracks appeared on Jiuyin Ling's body as she crashed to the bottom of the sea. All the ordinary marine creatures around her that didn't escape in advance were crushed into slag in an instant.

Han Fei saw that many parts of Jiuyin Ling's battle suit were broken. Her flesh and blood were disappearing and drying up, and her bones were broken. However, when the power of lightning destroyed Jiuyin Ling's body, it was also repairing her body.

Han Fei narrowed his eyes and said, "It's time to take your medicine."

Hearing Han Fei's words, Jiuyin Ling struggled to take out a green pill and quickly swallowed it.

Her wounds healed at a visible speed.

This pill was not only used to heal wounds, but also to transform the power of heavenly tribulation. Old Jiang had personally refined it.

Boom!

When the third lightning bolt arrived, its color changed subtly into a pale purple. Seeing this heavenly tribulation, Han Fei shouted, "Use the boat array."

However, Jiuyin Ling didn't listen to Han Fei. Instead, she protected herself with all her strength.

When the purple heavenly tribulation enshrouded her, the beautiful girl was instantly burnt to a crisp.

In the City of Justice in his previous life, Han Fei had helped many people transcend tribulations. At this time, he pinched his fingers and calculated, trying to figure it out. However, how could a thing like heavenly tribulation be calculated?

One second, two seconds, three seconds... Seeing that Jiuyin Ling's breath was getting weaker and weaker, Han Fei immediately shouted, "Enter the boat array."

Boom ~

Jiuyin Ling fell heavily on the boat.

At that moment, there was still a huge amount of lightning that wrapped the hull of the black ship. The lightning kept bombarding, shattering the array one after another. Only after more than 300 cracks did the power of the lightning gradually weaken.

After more than ten minutes, the lightning finally stopped.

At the moment when the lightning disappeared, Han Fei had already appeared on the boat. With a buzz, a holy pillar of light descended from the sky, and the Heaven Enlightenment Divine Technique poured down.

Ka ka ka ~

Jiuyin Ling's scorched exterior quickly cracked, and the flesh and skin inside grew rapidly. Her damaged five viscera were recovering at an incredible speed.

At the same time, Jiuyin Ling's physique was growing at an incredible speed. This was the benefit of transcending a tribulation with one's own physical body!

Because they knew the relationship between Han Fei and Jiuyin Ling, all the onlookers just watched.

They knew that with Han Fei here, it wouldn't be easy for Jiuyin Ling to die.

Sure enough, after about half an hour, Jiuyin Ling walked out of the boat array. However, at this moment, she had already changed into a battle suit and had restored herself to her original state.

However, after the tribulation, the spiritual energy in her body was rapidly transforming, and Jiuyin Ling couldn't control the dissipation of her aura. The strength of an Explorer was fully revealed at this moment.

Immediately, everyone bowed. "Xiao Jiu, you're finally an Explorer."

Granny Yin smiled and said, "I used to wonder if you could become a Law Enforcer, Xiao Jiu. Now, it's only been a dozen years, but you have transcended the tribulation. The world and the future belong to you young people."

Someone ridiculed, "Don't you see who's protecting her? With Marshal Han around, what Heavenly Tribulation can hurt Xiao Jiu?"

Someone sighed. "However, this lightning is really powerful. Even Xiao Jiu almost failed to block the third lightning bolt."

Xue Shenqi said indifferently, "It's not necessarily impossible, but there's no need to take that risk. Alright, this tribulation has been transcended. There is one more explorer on the Scattered Stars Island. Everyone, go back!"

...

After everyone left, Jiuyin Ling said, "Are you going to hunt sea demon Venerables?"

Han Fei smiled. "Yes!"

Jiuyin Ling sighed. "Be careful."

Han Fei said, "OK! Go back. The human race has been planning for generations. We haven't even taken the first step yet."

Jiuyin Ling opened her mouth slightly, as if she wanted to say something, but she didn't say it in the end.

As early as after Han Fei became the supreme commander of the Scattered Stars Island, she knew that Han Fei was already on the path of becoming a king. She had been to the Marshal's Mansion frequently in the past year. Although many people had misunderstood her, it was just to cover up the fact that Han Fei was no longer on the Scattered Stars Island.

And now, Han Fei had returned and become a Venerable.

Such a growth rate could be described as terrifying.

Below the Law Enforcer realm, talent mattered. However, above the Law Enforcer realm, talent alone was useless. After all, the Yin-Yang World lacked some top cultivation techniques, so it was difficult to give a full play to a person's talent.

Therefore, Jiuyin Ling had asked the Star Turtle more than once.

The Star Turtle said that it was impossible for a person to grow so fast unless he had experienced unimaginable difficulties and opportunities and had enough luck!

### **Chapter 1507: I'll Give You One**

Scattered Stars Island, Thug Academy.

This academy was created by Han Fei alone, so no one felt that there was anything wrong with it. Han Fei led everyone to defeat the Sea Clan. Even if the district was given to the Thug Academy, so what?

There was another reason: this academy was close to the Twisted Jungle, which was a place that ordinary people were unwilling to go to.

Therefore, the Thug Academy's occupation of a place here didn't affect the lives of ordinary cultivators.

Like in the Blue Sea Town, the Thug Academy had a large plantation at the gate.

However, this plantation wasn't very large, only spanning more than 200 kilometers. After all, the space on the Scattered Stars Island was limited, so the Thug Academy couldn't ask for too much.

At this moment, five youths were rushing towards the Thug Academy.

A girl shouted, "We're finally back! Is this the Scattered Stars Island? Ah, it's much more comfortable than living in a tree."

On the side, Su Sanqian said, "It's said that Senior Brother Han Fei is now the supreme commander of the Scattered Stars Island. I wonder if he's in the Thug Academy."

Gu Qi said, "Of course! Senior Sister Xiaobai and Senior Brother Kuangkuang are definitely there. We can have delicious food."

Su Daiji clapped her hands and said, "And my darling, I haven't seen him in a long time. If my darling sees me, he definitely won't recognize me."

Xing Yue said, "Senior Brother Han Fei is too much. He has already gone to the Water-Wood World. When he left, he didn't bring us back."

Su Sanqian said, "Senior Brother is very busy in Water-Wood World. He probably didn't notice that we were in Water-Wood World, right?"

"Woo ~"

When they saw the plantation, they couldn't help but scream and rushed in happily.

The petite one among the five picked seasonings from the fields and stuffed them into her Sea Swallowing Seashell.

Yi Xiyan said, "Daji, there's no need to pick them. These are all ours. We can eat as much as we want in the future."

Hearing that, Su Daiji grabbed a loquat and bit it.

While the five of them were having fun, suddenly, a piece of seaweed flew over.

The five people's faces changed slightly as Su Sanqian shouted, "Who is it?"

Boom ~

Everyone saw that at their feet, Sea God Grass had already covered the ground.

Su Daiji let out a cry of regret as two hammers appeared in her hand. With a bang, the two hammers struck the ground.

The two hammers struck down, and the ground rolled. All the spiritual plants within hundreds of meters were smashed into powder.

Su Sanqian and the others took the opportunity to jump up, and spider silk clutched the others.

Xing Yue shouted, "Qiqi ~"

Gu Qi swung her armor box, and a Blade Storm surrounded the five of them. At this moment, several sword shadows attacked horizontally and broke the Blade Storm with three swords.

Clang! Clang! Clang!

Su Daiji took action. Her hammers roared as wind and thunder rumbled. Seven or eight sword shadows were sent flying one after another.

Yi Xiyan held her bow and closed her eyes. With a swish, a string of spiritual energy arrows shot out.

However, as soon as these arrows flew out, a piece of Sea God Grass appeared in the void. These Sea God Grass, like living tentacles, could actually buckle these spiritual energy arrows.

Swish! Swish! Swish!

In the blink of an eye, a cloud appeared on the plantation. The cloud was filled with Sea God Grass, which looked like meridians in the air.

Gu Qi flipped her armor box again. "The opponent's Sea God Grass is very tough and very powerful."

The five of them were about to team up and fight back.

A burly figure seemed to be standing in the sky, holding the Sea God Grass back. The tentacle-like Sea God Grass disappeared, and the figure shot over like an arrow.

Yi Xiyan's speed was extremely fast as she moved stealthily in midair, trying to kill from the side.

However, with a swish, a long sword fell from the sky, blocking the void and sealing Yi Xiyan's path.

Su Sanqian unleashed Thousands of Threads and swept across in midair. However, the person in the air had already exploded into thousands of Sea God Grass tentacles.

Su Daiji's sledgehammer appeared in the air as she spun around, which sounded like a dragon's roar.

Rumble!

In the plantation, a storm roared as Su Daiji was sent flying hundreds of meters away.

However, a few spider silks caught her immediately.

The moment Su Daiji was pulled back, the corners of Xing Yue's mouth curled into a smile. "It's done. Spirit Forbidden..."

Within two hundred meters, all the Sea God Grass withered and the spiritual energy disappeared.

This instant battle of encounter was temporarily halted.

Xing Yue and the other four immediately stood together with solemn expressions.

They knew that the visitor was very strong. Only two people had stopped all of them.

When they took a closer look, they saw a man and a woman standing in front of them.

Yi Xiyan asked, "Who are you?"

On the opposite side, the young man said, "I'm Qu Jinnan from the Thug Academy. I should be the one asking this question. Who are you?"

Yi Xiyan and the others looked at each other and Xing Yue said, "Senior Brother? Senior Brother Qu, we are also disciples of the Thug Academy. We've just returned and haven't seen Senior Brother and Senior Sister."

Qu Jinnan and Ling Yuan looked at each other. When did they have five junior brothers and sisters? Where did they come from?

However, after the brief confrontation just now, the five of them cooperated very well and were not weak. They were all Hidden Fishers, although they seemed to be new Hidden Fishers.

Qu Jinnan nodded slightly and looked at Ling Yuan. "What do you think?"

Ling Yuan looked at them and said, "How can you prove that you are disciples of the Thug Academy?"

Yi Xiyan said, "Senior Brother! Han Fei is our senior brother. If Senior Brother Han Fei is here, he can recognize us."

Xing Yue nodded. "Senior Brother Han Fei, Senior Sister Xiaobai, and Senior Brother Kuangkuang all know us."

Yi Xiyan said, "Oh, Zhang Xuanyu is my husband."

"Husband?"

Qu Jinnan and Ling Yuan looked at each other again. Damn, why was Zhang Xuanyu's girlfriend here?

Gu Qi was the first to react. "Senior Brother Qu, Senior Brother Han Fei took us as the disciples of the Thug Academy in the Thousand Star City. After the war in the Thousand Star City, we went to the Water-Wood World to gain experience and didn't return until today..."

Ling Yuan asked, "Water-Wood World?"

Although they didn't know what the Water-Wood World was, Qu Jinnan and Ling Yuan both thought that it was a rather mysterious secret realm. If these junior brothers and sisters were recruited by Han Fei in the Thousand Star City, they were indeed much younger than them.

Ling Yuan put away the armor box and glanced at Gu Qi. "I am Ling Yuan, your senior sister. The Thug Academy of the Scattered Stars Island hasn't been fully activated yet. Now, Senior Brother Han Fei and Senior Sister Luo Xiaobai are not around. You guys, come back with us."

Swish!

Yi Xiyan quickly stepped forward. "Senior Sister Ling Yuan, how did you know where I was?"

Ling Yuan smiled. "You're not just a hunter, are you? Senior Sister Xia Xiaochan, one of the most talented hunters, once told me that all hunters have traces to follow. First of all, we need to judge their purpose. Then, think like a hunter. This is more important than discovering their positions. After all, their position might be fake."

Qu Jinnan looked at them with a smile. "Let's go back to school first. Senior Brother Han Fei has just returned to the Scattered Stars Island and should come back soon."

As he spoke, Qu Jinnan glanced at Su Daiji and Yi Xinyan, thinking, "These two junior sisters are quite good-looking!"

However, at the next moment, Qu Jinnan felt a fierce stare, and he trembled in fright.

When they returned to the Thug Academy, they were surprised to see a girl standing at the entrance of the Thug Academy. When this girl saw Qu Jinnan and Ling Yuan, her expression was calm.

Qu Jinnan said, "Lin Wu, I've told you that you can't prove that you are a disciple of the Thug Academy. Even if you are fated to receive the guidance of a strong master of the Thug Academy, you are only an unregistered disciple or half disciple of the Thug Academy. If you want to enter the school, you have to wait for the strong master of the school to return."

Lin Wu couldn't help but look at Yi Xinyan and the others. "What about them?"

Ling Yuan said ruthlessly, "Every one of them is stronger than you. You have only learned the 108 Spirit-Absorbing War Bodies. Now, this body-refining technique has been known throughout the Scattered Stars Island. This alone cannot prove your identity."

Lin Wu wasn't frustrated. Instead, he picked up his long stick and pointed it at the five of Yi Xinyan. "I want to challenge the soul warrior among them."

When Su Sanqian and the others heard that Lin Wu was going to challenge the soul warrior among them, the corners of their mouths twitched as they looked at Su Daiji and said via voice transmission, "Daji, don't use too much strength. Don't go too far. Got it?"

Su Daiji walked out with two large copper hammers in her hands, asking a bit stupidly, "Do you really want to fight me?"

Lin Wu looked at the girl whose eyes were a little dreamy and thought to himself, Is this girl younger than me? She's already a Hidden Fisher?

Lin Wu immediately raised his rod. "Please advise."

Bang!

A huge pit appeared under Su Daiji's feet as hammer shadows suddenly scattered across the sky. For a moment, it seemed as though thousands of hammers were striking the sky.

And this was the result after Su Daiji suppressed her strength to the same realm as Lin Wu.

Lin Wu had never seen such a powerful hammer technique before.

She raised her rod and collided with it. Then she felt her internal organs shake and instantly knew that she was no match for it.

At that moment, Lin Wu moved his body and activated all kinds of strange movement techniques.

As for Su Daiji, she was already familiar with this movement technique. As she struck the ground with a hammer, the ground trembled as soil and rocks flew.

Su Daiji punched out, and the flying soil and rocks were like flying shells, instantly smashing Lin Wu's body.

"Puff~"

Lin Wu slid dozens of meters on the ground.

Only then did she get up with difficulty, shocked. How strong is this woman?

Click...

At this moment, a small square object fell to the ground.

Lin Wu's face turned pale and she immediately squatted down, hurriedly holding the broken Cube. This was something Lin Wu carried with him every day in order not to forget that his teacher was very strong.

At this moment, the Cube was broken, and she, who had always been proud, was at a loss for what to do.

Ling Yuan said, "Did you see that? If you are really a disciple of the Thug Academy, we can immediately tell. And my judgment is that you are not..."

"Huh!"

Su Daiji was taken aback for a moment. She walked to Lin Wu and squatted down, tilting her head and looking at her. "Do you like to play this too?"

Lin Wu: "???"

While Qu Jinnan and Ling Yuan were puzzled, Su Daiji suddenly took out seventeen or eighteen Cube cubes. They were from level three to level ten.

Click, click, click...

Su Daiji's petite hands were as fast as lightning as they made a sixth-order Cube.

This technique stunned Lin Wu. How could this be possible?

Su Daiji carefully handed over a third-order Cube.. "Here! I'll give you one."

### **Chapter 1508: Exam from Senior Brother**

Watching Su Daiji's terrifying speed at playing Rubik's cube, Lin Wu felt ashamed at her speed.

"Gosh, is this the speed of a human's hand?"

At that time, Lin Wu's face flushed red. Indeed, her teacher was related to the Thug Academy.

Su Daiji looked at Lin Wu and snorted. "This is a toy Senior Brother made for me. However, even if you know how to use the third-order Cube, it doesn't prove that you are a disciple of the Thug Academy! However, it's certain that you are related to Senior Brother."

Lin Wu couldn't help but ask, "Who is your senior brother?"

Su Daiji said, "Senior Brother Han Fei! Only Senior Brother Han Fei can make a Cube. No one else can."

Qu Jinnan and Ling Yuan looked at each other. It seemed that these junior brothers and sisters were on good terms with Senior Brother Han Fei! Senior Brother Han Fei even made toys for her? Back then, the two of them had been tortured by Han Fei a lot!

Qu Jinnan looked at Lin Wu seriously. "Although we haven't acknowledged you for the time being, it doesn't mean that your strength is weak. On the contrary, you are very strong, but you don't have your own special talent. Perhaps you have seen Senior Brother Han Fei or other people in the Thug Academy. However, I guess they haven't taken you as a disciple. Otherwise, they would have told you clearly."

Only then did Lin Wu come to a realization. Back then, her teacher didn't accept her as his disciple indeed.

She had thought that it was just that her teacher traveled round the world and didn't have time to accept disciples. But in fact, it wasn't... The real reason was that her talent was poor and she wasn't qualified.

Lin Wu took a deep breath and also looked at Qu Jinnan seriously. "What kind of talent do I have to have to enter the Thug Academy?"

Qu Jinnan said, "In the same realm, hold on for ten seconds under the attack of Ling Yuan and me or under the attack of these junior brothers and sisters."

Lin Wu gasped slightly. Are you kidding me? It only took Su Daiji three seconds to defeat me. How can I last ten seconds under the combined attacks of the five of them? Who can do that?

Ling Yuan couldn't help but look at Su Daiji and the others. She said indifferently, "Perhaps you think this is very difficult, but I don't think it was easy for them to be accepted as our academy's disciples either."

Ling Yuan looked at Xing Yue and Su Sanqian.

Su Sanqian immediately said, "Of course it was not simple. Among the five of us, Yanyan has a level-eight spiritual heritage, Daiji is born with great strength, and Xing Yue's learning ability is extremely strong. Qi Qi's will is the strongest. Only I was barely accepted as a disciple."

Lin Wu gasped again. A level-eight spiritual heritage? In her life, she had never met a genius with such a high level of spiritual heritage. But now, there was one in front of her.

Furthermore, even Su Sanqian who was barely accepted as a disciple was definitely extraordinary.

In fact, Lin Wu felt that her talent, will, and cultivation speed weren't bad in all aspects. But now, she didn't even have the qualifications to be admitted!

Buzz!

"Oh! Xiao Nan! Sometimes you need to be a little more flexible. She is strong in comprehensive strength, so you should assess her strength differently."

When Lin Wu was in a daze, he saw a figure walking over from afar. At the moment when everyone looked over, he had already stood beside them.

Qu Jinnan: "Senior Brother Han Fei."

Ling Yuan said, "Greetings, Senior Brother."

Su Sanqian, Xing Yue, and Gu Qi said, "Greetings, Senior Brother Han Fei."

"Ahhh~"

Yi Xiyan screamed and jumped over. "Senior Brother, where's my husband? Where's Brother Yu..."

The corner of Han Fei's mouth twitched. "You'll have to ask your parents."

Yi Xiyan was taken aback for a moment before she said in delight, "They've finally done something reliable. Lah, Lah, I'll wait at the school."

Su Daiji had already run to Han Fei's side and extended her hand. It seemed that she was here to ask for something.

Han Fei casually threw a nine-linked ring over and patted Su Daiji's head.

After that, Han Fei looked at Lin Wu and said, "It's not that you have to be in the Thug Academy to receive systematic and comprehensive training. If you want to enter the Thug Academy, you do need to show some of your talent. This talent doesn't necessarily mean strength. Any talent can make you a member of the Thug Academy. Of course, if you insist on fighting with your strength, you can try to hold on for five minutes in the hands of any of the two teams. If you can do it, then you can be admitted."

From the moment Han Fei walked over, Lin Wu had recognized Han Fei. This was because she had participated in the battle last year. Seeing Han Fei casually greeted Qu Jinnan, Su Daiji, and the others, she couldn't help but feel a little envious. This feeling was very different.

Lin Wu pursed her lips. "Lin Wu greets Marshal Han. Marshal Han, is there an old gentleman in the Thug Academy who likes to travel around the world? Can I know his name?"

Han Fei chuckled. "You'll find out when you're admitted."

Some things required opportunities.

Lin Wu had opportunities. Han Fei had given her opportunities, and she also used them well. However, Lin Wu was too dependent on these opportunities, so she lost her goal of growth.

Although Lin Wu had already distinguished herself, it wasn't enough. She was only an ordinary Heavenly Talent.

Compared to ordinary people, she might be very strong, but when compared to these one in a million students in the Thug Academy, Lin Wu didn't seem strong enough.

And the more it was like this, the more she needed to polish her strength. As the saying went, jade must be chiseled before it could be considered a gem. This was exactly what Lin Wu was like.

In the Thug Academy, Han Fei led the crowd into the school.

While walking, Han Fei asked, "Where are Old Bai and Old Jiang? Why are neither of them here?"

Qu Jinnan said, "Senior Brother Han Fei and the two presidents have just entered the Venerable realm and need to consolidate their strength. The president said that some opportunities should belong to them and they need to find them."

Han Fei asked, "Where are the others? Where are Dashuai and Bai Wu? Where are Chu Qingyan and Mu Qingchuan?"

Qu Jinnan said, "Senior Brother, they went to sea for training too. Only Senior Brother Yang Xie and Senior Sister Jiang Qin are still at the Thug Academy in the Blue Sea Town. Junior Uncle Jiang Chao is controlling the dragon boat in the level-three fishery."

The corner of Han Fei's mouth twitched slightly. There were too few people in the Thug Academy! Each of them had their own matters to tend to. Who could they leave such a big stall to?

Han Fei suddenly asked, "Where are Ms. Wenren and Mr. Xiao Zhan?"

Qu Jinnan replied, "They'll arrive next month. They were assisting in the level-three fishery, but because the situation is not clear enough, they didn't come to the Scattered Stars Island immediately."

Han Fei knew why they stayed in the level-three fishery. The conflict between the Thug Academy and the Thousand Star City had long been heated. Perhaps a big battle would suddenly break out at any moment. Therefore, they stayed there to control the level-three fishery in advance and ensure that the level-three fishery and the 36 towns were all under control. In this way, they wouldn't hold him back.

Why would they be free next month? They must have already known what he had done in the Thousand Star City. Therefore, they felt that a war wouldn't break out. And he had completely grown up, so they could come to the Scattered Stars Island without worry.

Han Fei smiled. "That's good."

Yi Xiyan said, "Senior Brother, we often heard about you in the Water-Wood World. However, you didn't go to the Cloud Sea Divine Tree to find us even once."

Han Fei smiled. "I didn't know you were in the Water-Wood World."

After that, Han Fei looked at Xing Yue and said, "In the past eight years, no one has tested your strength. I'll stay in the academy for three days... Qu Jinnan, Ling Yuan, you too. Although you were with the President and the others before, I guess they didn't have time to teach you anything in the past few years. In these three days, I can test your studying results."

"Hiss!"

Su Sanqian and the others looked at each other and everyone hurriedly said, "Senior Brother, no Nine Tails, OK?"

Han Fei smiled casually. "I'll do it myself."

...

After half an hour.

There were screams in the Thug Academy.

In the Blade Inferno, everyone, including Qu Jinnan and Ling Yuan, was beaten to a mass of bruises.

Within the range of all of them, there were blades everywhere. Fine sand, air, vegetation... everything was attacking them.

In an instant, thousands of knife lights shot out. Who could withstand this?

Han Fei said, "This is just the first test. It tests your reaction ability, physical strength, comprehensive skills, and combat skills. Now it seems that it's a mess..."

Everyone : "..."

Yi Xiyan said, "Senior Brother, aren't there too many saber beams? There's no way to dodge them!"

Han Fei didn't care. He said, "Next, it will be a team battle. Qu Jinnan and Ling Yuan, as senior brothers and sisters, you should come first."

Qu Jinnan and Ling Yuan felt a strong headache. What could they do? They could only bite the bullet.

A moment later, Yi Xiyan and company sat on the grass to watch.

Qu Jinnan turned into Sea God Grass and Ling Yuan's armor box fell to the ground. Ten thousand rays of light rose and fell, and the sword net formed an array, sweeping at Han Fei like a rainbow.

Qu Jinnan's Sea God Grass was attached to Han Fei but was shattered by Han Fei. Then the shattered pieces of Sea God Grass condensed into knives in the air, forming a storm, and swept towards Han Fei.

Han Fei casually slashed with his Invincible Knife Intent, breaking the technique.

And Qu Jinnan controlled the Sea God Grass that filled the sky, turning it into countless threads, trying to entangle Han Fei.

Han Fei, on the other hand, fully carried out his close-quarter combat skills...

At that moment, Su Sanqian and the others were speechless. Indeed, they deserved to be the senior brothers and sisters of the Thug Academy. Their way of attacking directly drove people to a dead end. Their attacks, without any blind spots, made people unable to take them lightly.

But even so, Qu Jinnan and Ling Yuan tried their best but failed to shake Han Fei at all.

The two of them fought Han Fei for about thirty seconds, which fully demonstrated the hard work they had put in over the years.

After the battle, Han Fei looked at Su Sanqian and the others. "Come, it's your turn."

Everyone : "..."

### **Chapter 1509: The Hunting Starts**

Three days passed in a flash.

Han Fei left a few great techniques for them and then flashed away.

The Thug Academy had always been like this.

Han Fei felt that he was kind enough. After all, he was still teaching! Before, Xiao Zhan and Wenren Yu taught him actual combat and told him to experience it in the fisheries.

Han Fei left them the 108 Desolate God Body, a low-quality Divine weapon and a God Scaring Painting for each of them.

Yes, Han Fei had even left the God Scaring Painting behind. This was a divine technique, which was definitely not something they could master overnight. Even he hadn't fully grasped it.

As for the others...

Han Fei also left behind the 64-Dimensional Fish Dragon Dance and the Hundred War Divine Hammer. Among them, the Hundred War Divine Hammer was only left to Su Daiji.

When Han Fei left, the Thug Academy was full of complaints.

No matter who it was, they wouldn't feel good after being abused for three days! And the God Scaring Painting and the 64-Dimensional Fish Dragon Dance were extremely difficult to learn.

However, this had nothing to do with Han Fei.

...

On the outer sea.

After Han Fei left the Scattered Stars Island, Ning Jing appeared on Han Fei's fishing boat. "Are you really going to hunt the projection of the king who escaped last time?"

"Why, can't I?"

Ning Jing was lost for words. "That's the projection of a king. You're still too far away from the Half-King realm. You can't win without the combat power of a real Half-King."

Han Fei tilted his head and looked at Ning Jing. "I'll leave the projection of the Black Evil Conch King to you."

Ning Jing said in surprise, "I can only help you three times!"

Han Fei smiled. "We're good friends. This is the first time. The projection of the Black Evil Conch King relies on his corrosive blood to maintain. Therefore, he can't afford to fight a battle in the Half-King realm."

Han Fei didn't explain further.

Before, he felt that he had enough time. But after going to the Heavenly Palace and seeing his mother, he immediately realized that he was shortsighted.

The two Heavenly Palaces, Yin-Yang World and Water-Wood World, had finally declined and couldn't be compared to the past. This led to him not being very knowledgeable.

At this moment, Han Fei held the Vast Ocean Navigator, quickly chose a direction, and left.

Three days later.

Han Fei appeared somewhere in the deep sea near the Wall of Death.

This was a sea area generally deeper than 10,000 meters, covering an area of tens of thousands of kilometers.

At this moment, in the darkness, a black shadow was slowly sinking to the bottom of the sea.

After about an hour, Han Fei gradually approached the Black Evil Conch King and the others without alarming them. This search was relatively easy. After all, he had the Vast Ocean Navigator.

To be precise, there were six people here.

The Black Evil Conch King was a Half-King, and there were also a peak-level Venerable, an advanced Venerable, two intermediate Venerables, and a junior Venerable.

At this moment, these people were cultivating. As a projection of the Half-King realm, the speed of recovery of the Black Evil Conch King wasn't slow.

These people were definitely not weak. Han Fei slowly approached one of them.

Han Fei remembered this person.

When he entered the so-called sage realm, he had seen this person. If he wasn't mistaken, this person should be Mo Lin, with the strength of an advanced Venerable.

Mo Lin couldn't have been weak as a high-level Venerable. Otherwise, he wouldn't have been assigned to guard the Sea Demon Sage Realm with Yin Ge.

Han Fei smacked his lips. This battle is indeed a bit difficult to fight!

As Han Fei's heart stirred, Ning Jing stepped into this domain. At the moment Ning Jing appeared, the Black Evil Conch King suddenly opened his eyes and shouted, "A human Half-King?"

To the Black Evil Conch King's surprise, he was still discovered even though the sea area was so big.

He had been thinking that human beings should be busy with internal strife, and he had time to restore his strength and connect to the inside of the Wall of Death. Who could have expected that human experts would come so quickly?

Ning Jing appeared and looked at the Black Evil Conch King. She extended her hand, crossed the space, and appeared directly in front of the Black Evil Conch King.

"King!"

The Black Evil Conch King shook open the void, and the sea demon at the peak of the Venerable realm also attacked.

Han Fei remembered this person's name was Cao Xuan. The Sky Sword Master had once fought him. Although this person's strength had reached the peak of the Venerable realm, he had failed to defeat the Sky Sword Master.

Obviously, his strength wasn't much higher than that of an advanced Venerable.

This was just like the peak-level Explorers and advanced Explorers.

In fact, their strength levels were similar, but the comprehension of laws was a little different.

Although the master of the Heavenly Sword was an advanced Venerable, he had been stuck in this realm for many years and had deep insights about this realm. Even if he hadn't reached the peak of the Venerable realm, he was only one step away from it. Therefore, he wasn't much weaker than Cao Xuan.

At this moment, when Ning Jing attacked, the Black Evil Conch King shouted, "Human, are you alone? Are you sure you can beat me?"

The Black Evil Conch King was extremely confident, tearing through the void and attacking Ning Jing.

When facing Han Fei, the main reason why he couldn't exert enough strength was that there was something wrong with Han Fei's Great Dao.

Han Fei could seal all the techniques in this space. Besides, Han Fei had a golden body and had an astonishing physique. The projection of the Black Evil Conch King couldn't blow Han Fei up at all.

However, just because Han Fei could block him didn't mean others could block him too.

Therefore, the Black Evil Conch King wasn't worried about Ning Jing's attack. He simply turned his head and yelled at Cao Xuan, "You lead the people to evacuate first."

Even the Black Evil Conch King cared about the Venerables under his command. Presumably, Venerables were extremely high-level existences in the Black Blood Royal City.

Ning Jing only took away the projection of the Black Evil Conch King, leaving the rest to Han Fei.

But since it was a hunt, how could Han Fei not be prepared?

Hearing this, Cao Xuan led everyone to quickly escape into the void.

Cao Xuan knew that it was not easy for the projection of the Black Evil Conch King to die. Even if it died, it was just a projection. However, they were all real.

If another Half-King came, it would be difficult for them to resist him. Therefore, they had to retreat to a safe place quickly.

However, at the moment Cao Xuan led the others to quickly escape into the void, suddenly, in the depths of the void, a space crack appeared, and thousands of knife lights flew out. At the same time, a Sacrificing Punch bloomed, blasting at Cao Xuan with an unstoppable force.

Cao Xuan shouted, "Not good! Mo Lin, split up. The human race has come prepared."

Cao Xuan was so panicked because Han Fei had used his strongest combat power. This combat skill could only last for a hundred seconds even if Han Fei was in his best state.

Furthermore, Han Fei deliberately let the old turtle show some of his aura, making Cao Xuan think that the human race had sent many Venerables this time to kill them all in one fell swoop.

In fact, Han Fei was only trying to disperse them so that they could be defeated one by one.

"All laws forbidden in this space!"

When Han Fei felt his body begin to tremble, he knew that the other party's Great Dao was working. This Great Dao should be related to the frequency of the world.

After solving this technique, Han Fei held Snowmourn and slashed out ten kilometers of frost, and Cao Xuan was quickly frozen into ice.

Bang!

A peak-level Venerable was a peak-level Venerable anyway. No matter how weak he was, he couldn't be suppressed by a mere ice seal.

Cao Xuan shattered Snowmourn's naturally-endowed ability and directed the countless algae vines in the deep sea to roll towards Han Fei like a waterfall.

"Pu! Pu! Pu! Pu!"

The Blade Inferno was activated.

The algae vines were cut into pieces immediately.

And before they fell apart, these countless leaves turned into countless sword Qi and swept towards Cao Xuan.

“Ah ~”

When one attack failed, another came.

Cao Xuan opened his mouth, and his body changed into a fish. He opened his mouth and roared, and a sharp soul attack tried to enter Han Fei’s mind.

“Roar!”

Not to be outdone, Han Fei roared the Hundred Beast Soul Devouring, which also invaded Cao Xuan’s mind.

The two of them fought quickly, and after a hundred seconds, both of them were injured. Han Fei forcibly activated his Great Dao but could only fight for a hundred seconds.

When Han Fei found that the power of his Great Dao was about to collapse, he immediately tore the void and retreated.

Han Fei said, “Wait for me. I’ll come back!”

Cao Xuan looked solemn. Han Fei’s speed and strength were very strong, but his soul power seemed to be weaker, much weaker than his own. However, the other party’s soul attack technique was not weak, so he didn’t have the advantage. If his soul combat skill was better, he might have had the ability to kill this person just now.

At this moment, the battle had stopped, and Cao Xuan was going to find Mo Lin and the others.

However, everyone’s concealment methods were different. Just now, they were in a hurry to escape. Now, it was probably inappropriate to rush over to find them.

Cao Xuan thought to himself, Forget it, let me wait a while longer. We’ll just gather at the agreed place when the battle today dies down.

In Cao Xuan’s view, as long as Han Fei didn’t succeed in the hunt this time, humans would have to make preparations for a long time for the next hunt. This time, the other party clearly came in a hurry. Otherwise, they would have sent more than one Half-King.

They must have discovered them by accident. Human beings didn’t have enough hands, but they didn’t want to let them go, so they chose to take action.

However, what Cao Xuan didn’t know was that as soon as Han Fei stopped fighting with him, he had already found a direction with the Vast Ocean Navigator.

Han Fei asked in his heart, Where is the weakest Venerable on the other side?

### **Chapter 1510: The Death of a Venerable**

Yu Qianmo was the only junior Venerable among the Sea Demon Venerables.

He panicked now!

Generally speaking, people who had just entered the Venerable realm wouldn't come out to fight casually. They needed to consolidate their cultivation and improve their strength.

After all, if someone who had just entered the Venerable realm participated in a Venerable-level battle, it was very likely that he was the weakest in this group of combatants. If the enemy was at this level, it would be fine, but the enemy was probably not.

For example, their king was now occupied by the Half-King of the human race, Lord Cao Xuan was occupied by the supreme commander of the Scattered Stars Island, Han Fei, and the rest of them were fleeing in all directions.

Among them, he was the weakest.

Therefore, Yu Qianmo didn't dare to stay for long. He just wanted to run as far away as possible.

It wasn't until he traveled 300,000 kilometers that Yu Qianmo breathed a sigh of relief. The supreme commander of the Scattered Stars Island was simply too terrifying. He had never heard of a human expert taking the initiative to hunt a sea demon Venerable...

Bang!

Yu Qianmo turned into an octopus and quickly shrank to a size of more than ten meters.

As he sucked, a large number of clam shell fragments swirled at the bottom of the sea. After a moment, a ball made of broken clam shells completely enveloped him.

On the broken clam shells, there were spots of spiritual energy and strange array seals surrounding them.

This was a concealment array, and also his talent.

In order to avoid being hunted by humans, Yu Qianmo completely sealed himself in this ball.

But even at this point, Yu Qianmo was still worried. The ball quickly turned on the sand on the seabed, and after only a moment, the whole ball drilled into the bottom of the sea and was completely buried by the sand.

An hour later.

Buzz!

At the bottom of the sea, the void was torn apart, and Han Fei stepped out of the void.

As soon as Han Fei appeared, he spread out his perception and found that there was no one here.

Han Fei secretly smiled. A sea demon was a sea demon anyway, and sea creatures were born with great disguising abilities. In this world, he was not the only one who was good at disguising.

After searching three or four times in a row, Han Fei examined everything within a kilometer.

Then, he focused his eyes a hundred meters below him.

Under the sand, there was a clam shell ball. This was the only thing in this area that he didn't see clearly.

At this moment, Han Fei was 100% sure that there was something wrong with the ball.

Han Fei didn't conceal his strength. He even smiled. He bet that the one below didn't dare to use his perception to investigate the outside world. At this moment, he had no choice but to bet that he wouldn't be discovered...

In fact, that was exactly what Yu Qianmo thought. He had certainly sensed that someone was coming and was still in a panic, fearing that Han Fei would see through him.

All of a sudden, when Yu Qianmo was praying not to be found, Han Fei's voice sounded from the bottom of the sea, "All laws forbidden in this space."

Swish!

He activated the Draw Technique, and the cold light penetrated the ground.

The clam shell sand instantly collapsed.

The ball suddenly opened, and Yu Qianmo sensed the danger of death.

Yu Qianmo knew that he had been exposed. He didn't even understand how he was exposed. In this vast sea, there were billions of creatures. As long as he wasn't discovered at the beginning, it was impossible for him to be discovered after he hid himself.

But now, Han Fei had locked onto him after only a few seconds?

Did Han Fei watch him hide?

This didn't make sense! If Han Fei had watched him hide, he should have taken action when he was hiding! Why did he wait until now?

Immediately, Yu Qianmo had an answer in her heart: Han Fei had a tracking treasure.

"Pfft!"

However, although Yu Qianmo found something, Han Fei had already attacked.

Now, it was Yu Qianmo's life and death moment. He could only pray that he could survive.

Venerables couldn't die so easily, especially a Venerable like Yu Qianmo. As an octopus, he had as many as three hearts and nine brains. As long as one escaped, he could survive.

Han Fei cut down, only to see an octopus tentacle being cut off. Yu Qianmo didn't seem to want to fight but only wanted to escape quickly.

Bang!

With a puff, everything within a hundred miles was pitch black.

As a Venerable of the octopus species, his escaping skills had evolved beyond imagination. His ink spewing technique turned the area within a hundred kilometers into a domain.

However, at the moment the black ink space appeared, a holy pillar of light suddenly fell from the sky.

Swish!

The black fog space was broken.

The Blade Inferno was launched and the Infinity Water flew out.

“Pu... Pu... Pu... Pu...”

In an instant, six tentacles were cut off by Han Fei, and the Void Lines clutched these tentacles and controlled the brains. Even Yu Qianmo couldn't resist Han Fei, let alone a few tentacles.

With the Star Teleportation Technique, the distance between them was shortened.

Han Fei had already stood in front of Yu Qianqian. “Where are you going?”

...

At this moment, the Black Evil Conch King was chilled. This human expert is so strong! He has mastered the Great Dao of Space to the fullest.

Ning Jing could transform the power of space for her own use? Twisting space to withstand the irregular gravity in her place.

Boom!

All of a sudden, the Black Evil Conch King saw a red bloody mark across the sky.

At that moment, a Venerable died.

This was not a good sign!

Judging from the attacks of the human experts today, the one who died could only be a Venerable on their side.

Even Ning Jing was very surprised. Han Fei's speed was too fast! How long had it been since he killed a Venerable?

“No wonder this guy asked me to attack the sea demon king. It seems that he wants to solve all future troubles at once.”

As a Venerable died, a rain of blood fell.

Under the same sky, everyone could feel it even though it was millions of kilometers away. After all, the Venerable died in the Yin-Yang World.

Of course, it was too far away, so the weather phenomena weren't that obvious.

However, on the Scattered Stars Island, many people looked up at the sky too, only to see crimson cracks in the sky and a storm. Occasionally, they saw redness in the storm.

Someone laughed. “I don't know why, but such weather reminds me of the death of a Venerable. Tsk, tsk...”

An old man on the Scattered Stars Island explained to the newcomers, "You kids have no idea that when a Venerable has died, there'll be wounds in the sky. As the heaven and the earth are sad, there will be a rain of blood, just like this scene."

A newcomer asked curiously, "Has a Venerable died?"

Many people explained with a smile, "I don't think so. How can a Venerable die so easily? After all, the rain is not red. I think it just looks like that."

However, while many people were exclaiming, all kinds of hearsay spread from the major departments of the Scattered Stars Island. And this kind of hearsay spread widely from each person's waist tag.

In the carnival shop, someone exclaimed, "What? Marshal Han went to sea to hunt the sea demon Venerables?"

In a certain mission hall, someone was shocked. "Huh? Marshal Han secretly went out to hunt?"

Someone exclaimed, "Damn, I was wondering why the rain was so weird. Look at the red mark in the sky. It's so obvious. A Venerable must have died."

Someone remarked, "Marshal Han is truly domineering. He killed a sea demon just because he said so."

Someone was puzzled. "I don't think so. If a Venerable died, wouldn't the Heavenly Phenomena be too weak?"

Someone retorted, "It's not near the Scattered Stars Island. It's in the deep sea, which is very far away."

Someone said, "We'll see in a few days. As far as I know, there are several sea demon Venerables who escaped."

...

In addition to the Black Evil Conch King, there were also Cao Xuan, Mo Lin, and two other intermediate Venerables.

At this moment, they were also dumbfounded.

They didn't know who had died. But in short, someone among them had died.

In the past, for thousands of years, it was not easy for a Venerable to die.

However, in just a few years, the Black Blood Royal City suffered heavy losses.

"Hiss ~"

Han Fei raised his head and absorbed Yu Qianmo's vitality and soul power.

The soul supply of a Venerable completely made up for the consumption of the Soul Splitting Technique that Han Fei used in Chu Sect.

Han Fei's soul returned to 58,600 points again, although it was still more than 20,000 points away from its peak state.

However, apart from Yu Qianmo, Han Fei had other hunting targets.

Han Fei took out the Vast Ocean Navigator. "Next, where are the intermediate Sea Demon Venerables..."

...

Yu Shuo, an intermediate sea demon Venerable, was a Mirror Fish. This was why he could survive the battle on the Scattered Stars Island a year ago. It was because of his special characteristics that he was born with clones.

When facing an intermediate Venerable, Han Fei wasn't as casual as before.

The strength of a Venerable needed to be taken seriously. Just because he was strong didn't mean he could easily kill a Venerable. It depended on what their Great Daos were.

Although he could temporarily seal Great Daos, it would be troublesome if the other party was prepared in advance.

Han Fei, in his black-mist body, quietly approached a place where there were ice mines everywhere. This kind of terrain was very rare, with prism-like crystals everywhere.

When Han Fei found this place, he scanned it with his perception, but he still didn't find where the Sea Demon Venerable was.

Once, twice, three times...

Han Fei was puzzled. Something is not right! The Vast Ocean Navigator wouldn't make any mistakes. The Venerable Sea Demon was definitely here.

But now, no matter how he perceived it, he couldn't find the other party's figure. How did the other party hide?

Bang!

Han Fei landed on the beach and stood in front of a big crystal, ready to check if there were any special arrays around.

However, Han Fei's heart suddenly stirred, and his body was dragged into the crystal by an enormous force.

When Han Fei came back to himself, he found himself in a mirror.

Han Fei looked back and found that there were mirrors everywhere in this space, reflecting thousands of himself in the mirror.

"The mirror world?"
