

GOF 1551

Chapter 1551: Human Race

Naturally, the news that Han Fei came out couldn't be kept a secret.

The demon beasts were straightforward. After Old Sheep and Han Fei put on a show, the major demon beasts all believed in Old Sheep unconditionally and agreed with Han Fei.

Also, what Han Fei said was partly true.

It did not seem to be made up.

Some things were even ancient tales of the beast race. In any case, they didn't think that the Bull Demon King could make up such things.

Once these strong masters believed Han Fei, Han Fei didn't need to worry about anything else. These big shots would explain for him.

One day passed.

Outside the Great Splitting Gorge, a hundred Venerables gathered and barbecued together.

Everyone had a tacit understanding. Someone had already told them about the Demon Beast Holy Land. When they learned that the Bull Demon King was going to the Immortal City, they were surprised.

However, on second thought, it seemed reasonable.

The appearance of the Bull Demon King and his slaughter of seven Venerables in the Life and Death Gorge made everyone's jaw drop.

With this strength, it seemed reasonable that Han Fei could enter the depths of the Holy Land and get a prediction that no one understood.

Of course, it was also because of Old Sheep who deliberately connected the prediction with Han Fei and then connected the beast race and the human race.

Therefore, when the Venerables saw Han Fei, many of them cast a "good brother, take care" look at him.

For them, the Bull Demon King was a figure who appeared out of nowhere. His identity and background were all legendary! Could it be that such a figure was the so-called "born of destiny"?

Crocodile Iron patted Han Fei's shoulder and said, "Brother Bull, I didn't expect that fate would put all the burden on you. Don't worry. I will definitely take good care of Niu Dali for you."

Han Fei rolled his eyes. "No... I have nothing to do with Dali!"

Crocodile Iron said contemptuously, "Brother Bull, I'm not criticizing you, but for the sake of the future, you should leave an offspring for yourself now... Otherwise, what if your buffalo race is extinct?"

Han Fei said angrily, "Who are you cursing?"

Crocodile Iron shrugged and said via voice transmission, "Dali is here. You deal with her yourself!"

Han Fei turned his head, only to see Niu Dali leading Niu Kexin and Niu Panpan over.

Because there were only the three of them left in the buffalo race. Because there were no bulls left, as long as Niu Dali didn't marry other beasts, the buffalo race might really decline.

However, Han Fei remembered that there were buffaloes in the swamp in the underground city of the Scattered Stars Island. Although they were relatively weak, there were still bulls.

Niu Dali walked straight to Han Fei. As a domineering cow, Niu Dali stared at Han Fei and asked, "When are you leaving?"

Han Fei smiled. "Today."

Niu Dali was briefly stunned. Did he have to leave in such a hurry?

She looked at the Bull Demon King and said bluntly, "You... aren't you going to say something about the continuation of our race?"

Han Fei's eyes were firm. He didn't care what Niu Dali's purpose was... I'm not a bull in the first place. Even if I'm a bull, I can just sleep with a random woman, OK? You're sacrificing yourself for the continuation of your race? That's too f*cking noble.

Han Fei shook his head. "There's nothing to say! My name is Demon King, born to be a king. And I already have true love, so I can't have another woman. The buffalo race won't be extinct. I believe that outside the cage, there are bulls..."

Niu Panpan snorted. "Sister, let's ignore him."

Niu Kexin also stared at Han Fei. "Go pursue your kingly road! We will live a good life even without a bull. We will grow up in the end."

Han Fei grinned. "That's good!"

...

While the Venerables were drinking and eating, Han Fei and the old sheep stood at the edge of the Great Splitting Gorge for a while. Then he turned around, tore the void, and headed for the Immortal City of the human race.

After Han Fei entered the void, many people sighed.

Someone said, "He's really the chosen one. How can there be such a coincidence? When he came, he made a shocking battle record, then entered the Holy Land, and then left..."

Someone sighed. "I think Brother Bull's path is probably not easy to take. We just know fighting, but Brother Bull is different. He was instructed by the God of War."

The old sheep also looked in the direction Han Fei left and sighed slightly. "I hope you don't disappoint me."

...

The Immortal City of the human race was in the opposite direction of the Life and Death Gorge.

After traveling six million kilometers, Han Fei hunted a lot of marine creatures and refilled the food in Forge the Universe.

During this period, Han Fei met the Venerables of the beast race who were patrolling the sea area three times. Perhaps because the old sheep had warned them or they didn't know each other, they just chatted for a while before Han Fei set off again.

When Han Fei traveled more than 7 million kilometers, he found that there were fewer marine creatures here.

Even in the sea area of the beast race, there were still many sea creatures. In fact, the beast race also needed them. Firstly, the beasts could use them to train soldiers, and secondly, the marine creatures could provide enough food sources for the Ten Thousand Beast Island.

These marine creatures were different from ordinary food. There were a large number of sea beasts at the Explorer level among them. Their essence was in their flesh and blood, which were great tonics.

The beast race never did something like drain the sea to get all the fish, so many sea beasts at least had a living space.

However, at this moment, after sensing that there were only less than three thousand sea creatures living within the surrounding thirty thousand kilometers, Han Fei knew that he should be approaching the area of the Immortal City soon.

Compared to the territory of the beasts, how could a mere three thousand creatures span thirty thousand kilometers?

Han Fei stopped and appeared above the water.

At this moment, he saw an island, a small island with a radius of only a few hundred kilometers.

Compared to the huge sea area, an island only a few hundred kilometers long was naturally considered a small island.

However, this island was not like a normal island. Because there was no seal, this place was eroded by the gale, leaving only bare rock walls and a deathly scene.

Han Fei walked among the cracks in the valley. What surprised him was that a lot of people must've lived here before. The bones of the strong almost covered the entire valley.

"How can there be so many bones?"

The bones could resist the erosion of the gale and violent energy, which meant that these humans were not weak when they were alive!

Being able to stay here after thousands of years meant that these skeletons used to be strong masters more or less. Even if they were not all Explorers, they must be at least Law Enforcers.

Han Fei didn't stay long.

The harsh environment and the lack of vitality suggested that this island was an abandoned dead island. Even undead creatures wouldn't stay here.

After all, violent natural energy was scouring this island at every moment. No one liked it here.

After another 300,000 kilometers, Han Fei found another island.

This time, when Han Fei flew to the void and scanned with his perception, he found that there were dozens of islands around this island...

"Huh? There are many islands in the Immortal City?"

In the Beast King Valley, there were actually not many islands. The Ten Thousand Beast Island was big enough, so Old Sheep and the others were too lazy to get a new island.

Unlike the previous island, there was a seal on the island where Han Fei was now.

This meant that the rampant energy between the heavens and earth could hardly penetrate the island.

Therefore, from the outside, the island looked lush. Although there were not many sea creatures around, Han Fei knew that there must be life inside the island.

Because he knew that this was the territory of the Immortal City, Han Fei had already become a human.

The moment Han Fei landed on the island, he put on a smile. He sensed a dangerous vibe that was full of killing intent.

Han Fei smiled and walked straight to the center of the island.

Less than a hundred kilometers into the forest, Han Fei discovered that the surrounding trees had turned dark green, and a large amount of poisonous mist spewed out.

Han Fei pretended that he couldn't resist it and tried to quickly pass through the poisonous barrier.

However, when Han Fei was about to escape, the surrounding trees, vines, and flowers all moved.

Han Fei saw the black sword hemp shooting out hundreds of sharp spikes; countless vines full of thorns began to gather, trying to roll towards him.

With a thought from Han Fei, several saber beams rolled out and stopped in front of a tree.

Han Fei looked there and walked over casually. He laughed. "Okay, stop acting. Girl, come out!"

"Don't come over! Who are you?"

"Phew ~"

Han Fei opened his mouth and took a breath.

What poison barrier? What spiritual energy? What energy? They were all swallowed by Han Fei.

This scene stunned the woman hidden in the tree.

At this moment, a knife light swept in front of Han Fei.

After the tree was completely torn apart, Han Fei saw a thin woman quickly flash away and appear not far away, looking at him in shock.

Han Fei glanced at this person and frowned slightly. This manipulator's means were not weak, but she was only a peak-level Explorer and had been injured, a rather heavy kind, which had seriously damaged her foundation.

Before Han Fei said anything, the woman had said, "The Immortal City and the Ten Thousand Beast Island have always minded our own business. Why have you come to the Immortal City?"

Han Fei was speechless. "How do you know... I'm from the Ten Thousand Beast Island?"

The girl shouted, "Stop pretending. No matter how much you look like a human, you can't be a human. The cage is closed, and you came from the direction of the Ten Thousand Beast Island. Who else could you be if not a beast?"

Han Fei sneered. "Nonsense. If the Demon Beast Union wants to take the Immortal City, I'm afraid it will be as easy as blowing off dust. Even if I am a beast, what do you think you can do to me?"

The woman gritted her teeth. "If you're not a beast, you're even more suspicious. Tell me where you're from first."

Han Fei grinned. "Are you questioning me? Is the Immortal City ruled by a mere peak-level Explorer now?"

Chapter 1552: A Big Boss

Han Fei didn't need to detain the girl. He just needed to slightly release his suppressing pressure and then the girl couldn't escape.

Han Fei's battle record was not a joke.

To this day, he had killed more than twenty Venerables. Even ordinary Venerables might not be able to withstand his suppressing pressure.

At this moment, the woman was trembling all over in fright, her face ghastly pale.

However, the woman still gritted her teeth and insisted, "If you're my enemy, just kill me! I won't tell you any information no matter what."

Han Fei grinned. "Woman, don't you know that strong masters have ways to pry into the soul? Some people may become fools if their soul is pried into."

The woman trembled visibly, but she still pursed her lips and refused to speak.

Seeing this, Han Fei couldn't help but smile, casually retracting his suppressing power, and said, "Fine! I won't bicker with you. But girl, your persistence is meaningless. If I'm really a bad person, what's the difference whether you tell me or not?"

Seeing that the girl was still silent and looking at him warily, Han Fei smiled and said, "I'm tired after traveling for millions of kilometers. Can I borrow your place?"

With that, Han Fei waved his hand, and a chair and grill appeared in the clearing in the forest. All kinds of seasonings were placed on the side. Then, an Overlord Squid at the advanced Explorer level was casually thrown to the ground by Han Fei.

The girl was dumbfounded. Is this... Overlord Squid at the level of an advanced Explorer?

Before she had time to think about it, she saw a hundred saber beams sweeping past in an instant.

Han Fei waved his hand and a mass of water appeared, washing the squid's internal organs like a spray gun.

After only a moment, the huge grill was laden with squid pieces.

"Hum..."

Clatter!

Han Fei hummed a tune and smeared fish oil on the squid, and a spiritual fire rose. The girl frowned and thought, Is this guy going to eat here?

While brushing the fish oil, Han Fei said, "Girl, I don't know what you have that I can fool you with. As far as I know, the Immortal City of the human race should be in a hard time now, right?"

The woman didn't speak, but she didn't try to escape either.

She knew that with Han Fei's strength, it was impossible for her to escape.

The spiritual fire was roasted evenly.

After a while, Han Fei smelled a fragrance. Then, when Han Fei added a layer of garlic juice, he clearly sensed the sound of the woman swallowing.

However, the woman still didn't speak.

Han Fei wasn't in a rush. He seemed to be talking to himself, "In the cage, the four major powers are the Black Blood City, the Demon Beast Union, the Forest of Terror, and the Immortal City of the human race. In my opinion, no matter what, the human race can't abandon the friendly relationship with the beast race. Otherwise, how can people from the Immortal City survive in the cracks?"

As soon as Han Fei said this, he heard the woman shout, "You don't know anything. You hadn't been to the Immortal City before, right? Who are you?"

Han Fei casually brushed a layer of chili powder on the squid, so that the fish oil could moisturize the chili powders and make the taste better.

Han Fei grinned. "Who am I? You won't know me even if I tell you... Do you recognize this?"

As he spoke, Han Fei casually grabbed the Death Bone Xun.

"Hiss... You... How do you have the Bone Xun of Death? Do you know Lord Jade Girl?"

Han Fei was stunned for a moment. "Jade Girl? Heh... Please call me Golden Boy. Thank you."

"How dare you insult Lord Golden Boy?"

"Uh..."

Han Fei was dumbfounded for a while. Is there really a golden boy? Wait... the one who gave me the Death Bone Xun... didn't look like... a "Jade Girl" at all.

Han Fei said impatiently, "What are you shouting for? Shout again and I'll cut your tongue off and roast you."

The girl trembled and quickly shut up.

Han Fei flipped the barbecue and then said leisurely, "Hey, I'm asking you a question... You know this Death Bone Xun, so you should know that I am not a bad person, right? Do you think Jade Girl will give this thing to a random person?"

The woman was also puzzled. After a moment of silence, she said, "No. However, Senior Jade Girl is on the other side of the Immortal City, so you should have come to the Immortal City from the other side. But the way you came is in the direction of the Demon Beast Union. If you have really met Senior Jade Girl, there is only one way to go to the Demon Beast Union without passing the Immortal City, which is the Black Blood City... Therefore, I already know your identity."

Han Fei sneered. F*ck, I forgot that the cage was stud link-shaped.

Did he have to explain to this woman that he had obtained this Death Bone Xun from the outside world?

Han Fei shook his head slightly. "Idiot."

"Gulp ~"

With that, Han Fei grabbed a large piece of squid meat and began to eat it.

Han Fei ate one bite after another for a full hour, finishing half of the big squid, before he asked, "What's your name?"

The woman thought for a while, because Han Fei's attitude was extremely arrogant, but he didn't seem to have any killing intent, so she said, "Wen Zhu."

Han Fei nodded slightly. "You can go now! I'll go to the Immortal City later. I think your speed should be much slower than mine."

Wen Zhu asked in surprise, "Are you going to the Immortal City alone openly?"

Han Fei shrugged. "Is there anything wrong?"

Wen Zhu was stunned for a long time. "Are you going to turn into an undead creature?"

This time, it was Han Fei's turn to be stunned for a while. He couldn't help saying, "Do I have to turn into an undead creature to go to the Immortal City?"

Wen Zhu said, "Only those who turn into undead creatures will go to the Immortal City. Living people don't live there."

Han Fei scratched his head. "Where do the living live?"

Seeing that Wen Zhu didn't answer, Han Fei suddenly had a feeling that someone was coming from 50,000 kilometers away.

Han Fei couldn't help but laugh. "I see! Living people live on this kind of island full of vitality... I find it strange. Why are you alone on such a big island? With your strength as a peak-level Explorer, how can you resist those sea monsters? It turns out that there are strong masters protecting you!"

Wen Zhu's face changed slightly, and she couldn't help looking at the void.

Han Fei said, "No need to look. He's not here yet!"

50,000 kilometers wasn't very far.

Han Fei continued to eat barbecue.

Suddenly, the void cracked as a silver spear pierced through the void, shining with a dazzling light.

Wen Zhu was shocked by the unexpected stab. She quickly shouted, "Long Xi, no!"

However, when Wen Zhu shouted, the spear light had already arrived.

Han Fei just raised his hand, and without moving his body, a large Coiled Turtle Array appeared around his body.

The ripples shook, Long Xi was shaken away by the blow, blood spurting out, and the barbecue grill in front of Han Fei was not messed up at all, with oil still dripping from the barbecue in his hand.

The visitor was not a man, but a woman, who was holding a spear, looking rather valiant.

This woman was wearing a silver mask that covered half of her face, and a silver armor that emitted a cold glint.

At this moment, her eyes turned white after her attack failed. She punched the tail of the spear as if she wanted to break Han Fei's array.

Crack ~

She punched again, and the surrounding dozens of kilometers were crushed to the ground. Except for a gentle force that protected Wen Zhu, all the other plants were reduced to ash.

"Huh!"

Han Fei turned his head, only to see a small finger-long crack on the Great Coiled Turtle Array. He couldn't help but say in surprise, "It seems that your law enforcement power is related to armor breaking!"

The woman named Long Xi was shocked. How strong is this guy? Although I didn't use all my strength in the first blow, the second blow can't be underestimated. I used all my strength, but I couldn't even break through an array?

Immediately, Long Xi wanted to retreat, but Han Fei flicked his finger and a water blade shot out.

Long Xi made a prompt decision, threw away her spear and drew out two silver blades. She retreated and fought back, intending to shatter Han Fei's knife.

However, Long Xi slashed more than 60 times in a row, and her silver blades were almost broken, but she still failed to shatter the water knife.

Bang!

While Long Xi was thinking about what to do, the water knife suddenly exploded.

"Pfft!"

Long Xi vomited a mouthful of blood. In the next second, she flashed in front of Wen Zhu, grabbed Wen Zhu, and waved her hand. The spear broke through the air and tore the void. It seemed that she was trying to escape.

However, the two had just run a kilometer when the distance between their feet shortened and they appeared in front of Han Fei.

"The Great Dao of Space?"

Long Xi exclaimed, and the center of her eyebrows lit up as if she were trying to summon her spiritual beast.

However, under the pressure of a ferocious aura, even though she had reached the peak of a junior Venerable, she stumbled and her summoning was interrupted.

"Your strength is not bad, but your weapons are too weak. You can't even resist a water knife. As a junior peak-level Venerable, you only use two mid-quality Divine weapons? Doesn't your Immortal City even have a refiner?"

Long Xi was speechless. She knew that even if she summoned her spiritual beast, she would only die. At this moment, she could only grit her teeth and ask, "Who are you?"

Han Fei said impatiently, "Why do you keep asking me who I am? I am the supreme commander of the Scattered Stars Island, Han Fei... Now I've told you who I am, but do you know me?"

Long Xi and Wen Zhu looked at each other, dumbfounded. They had never heard of this place.

Long Xi immediately said, "There is no such island in the entire cage."

Han Fei rolled his eyes. "Did I say I was from the cage? Why didn't you check if I had any killing intent before you attacked me? Why are you so aggressive?"

Han Fei cursed and casually threw out the Holy Light Technique.

"A spirit gatherer? Ah ~"

Long Xi didn't have time to finish speaking before she was enshrouded in the holy light and subconsciously made an indescribable sound.

Both of them quickly recovered from their internal injuries.

Han Fei, however, slightly frowned. "Both of you have your foundation damaged, so your strength is greatly reduced."

Han Fei looked at Long Xi. "If your foundation is intact, you should not be weak in your peak state. Why are there only the two of you on this island?"

Chapter 1553: Immortal City

Han Fei's strength had stunned Long Xi and Wen Zhu.

Especially Long Xi, she was shocked that Han Fei casually blocked her full-strength blow.

More importantly, Han Fei was so talented as a spirit gatherer, but he was also a soul warrior? And he was also a very strong soul warrior.

However, Long Xi immediately believed that Han Fei was a human. Only humans had the profession of spirit gatherer. Only human spirit gatherers would study complicated arrays.

Long Xi immediately cupped her hands and said, "It seems that you are from outside the cage?"

Han Fei grinned. "Do you believe what I say?"

Long Xi nodded. "Wen Zhu might not know, but occasionally some human Venerables will come in from the outside. However, it's easy to come in but extremely difficult to leave. The barriers in cages are not eternal. They can repair themselves. Besides, the difficulty of entering and exiting is completely different. So far, no one has successfully left the Immortal City."

Han Fei thought to himself, I know the difficulty.

When he came in, it also took him a lot of effort. At that time, he used the Twin Divine Technique and an ultra short-distance Dao Pattern teleportation array before he came in.

Han Fei said, "It doesn't matter if it's difficult or not! I need to know how strong the humans in this cage are."

However, Long Xi said, "I won't tell you anything about the Immortal City. If you can really prove that you are on the human side and are here to help us, you can go to the Immortal City. If you have the courage, we can accompany you."

Han Fei smiled. "I didn't expect you. However, I'm curious why you are here, and why you are both seriously injured."

Long Xi didn't keep it a secret. "We're here to recuperate because we were injured. Although the Immortal City and the Demon Beast Union aren't on good terms now, they won't be hostile to each other. Therefore, this is the safest place."

Han Fei didn't ask further but just smiled. "There are quite a few islands nearby... If I've counted correctly, there should be 24 islands of various sizes within these 50,000 miles. There aren't even 50 people living on them... Are there so few people in the Immortal City now?"

Long Xi was shocked. Is this person so terrifying? His perception range is so vast?

Han Fei added, "Or... there are only a few living people but many undead creatures in the Immortal City?"

Long Xi made an inviting gesture. "If you want to ask questions, please go to the Immortal City first."

Han Fei grinned. "Hehe..."

Han Fei was eating barbecue here, only taking a short break. He casually scanned the area with his perception and found that although there were many islands here, there were very few creatures.

In addition, Han Fei was thinking about another question. Was there only one island that emerged from the Wall of Death in the Water-Wood World?

Just now, Han Fei saw that there were not even a few birds on the nearby islands, which were dead silent...

Therefore, Han Fei was puzzled. Could it be that there were few people in the Immortal City in the first place?

Han Fei went straight towards the Immortal City, and Long Xi followed him with Wen Zhu.

Originally, Long Xi didn't want to take Wen Zhu with her. However, she had other thoughts. If Han Fei wasn't an enemy, she might be able to ask him to cure Wen Zhu.

With Long Xi following him, Han Fei slowed down.

However, the further he went, the more islands Han Fei found. However, these islands were several times smaller than before. The smallest island only had a radius of more than ten kilometers.

On each of these islands, there were usually only three or five people living.

Han Fei discovered that all the people living on these islands were injured. Basically, their foundation had been damaged and they could never continue to grow in this life!

Although there were few people on each island, there were still a lot of them added up.

However, Han Fei was still surprised. Although these people didn't form an alliance with the demonic beasts, they seemed to trust the demonic beasts because these islands were just left unguarded!

Han Fei passed hundreds of thousands of kilometers, turned in another direction, and walked nearly four million kilometers more. It was full of islands on the way, some concentrated, and some dispersed.

He had seen at least tens of thousands of injured people along the way. Counting the places he hadn't been to, there were probably hundreds of thousands of people.

During this period, Han Fei also encountered several Venerable powerhouses. However, just like Long Xi, they were all seriously injured and their foundation was damaged.

Therefore, as Han Fei walked, three Venerables followed him in addition to Long Xi and Wen Zhu.

Considering this ratio, he had only taken one road, and with Long Xi, he had encountered four seriously injured Venerables. Then, in total, there were at least twenty or thirty seriously injured Venerables.

Suddenly, Han Fei discovered that there were no more islands where the wounded lived.

There were also very few creatures in the ocean. Within ten thousand kilometers, there were only a hundred sea creatures at the Explorer level, all of which were ordinary sea demons with poor strength.

Even the number of ordinary marine creatures was rapidly decreasing.

Han Fei saw that the seabed was full of bones.

Along the way, Han Fei was quite puzzled. He never would've thought that after flying for a hundred thousand kilometers, there would be bones everywhere and death energy rising to the sky...

Before entering this sea area and after entering it, even the temperature had changed. Han Fei could often see undying souls crying.

Han Fei became solemn.

It wasn't until he traveled another hundred thousand kilometers that Han Fei saw a vast land. The coverage of that land completely exceeded his perception range.

However, Han Fei could clearly see the deathly silence on the huge island.

Although this big island was also protected by seals, there were no fresh green plants inside.

The remaining plants were mostly dark green, dark purple, and black... The coast here was littered with bones. The color of the seal here was also black and gray.

The entire island seemed to be hidden in a thin film in the black fog.

"Huh..."

Han Fei landed casually on the shore, followed by four peak-level junior Venerables and Wen Zhu.

One of them said, "Long Xi, why did you bring her here? The death aura here is too strong. Wen Zhu is seriously injured. It's not good for her to stay here for long."

Long Xi didn't answer but looked at Han Fei. "This is the Immortal City you wanted to come to. We're here now. Please..."

Long Xi and the others had always been vigilant to Han Fei, but they weren't worried.

Even if Han Fei had reached the level of a Half-King, he probably wouldn't be able to shake the Immortal City alone.

Han Fei put on a smile and strode dozens of kilometers into the island.

Han Fei didn't even need to use the Vast Ocean Navigator. He could guess where the Immortal City was based on the intensity of the death aura.

When Han Fei entered the island, a Half-Venerable in a black robe was already waiting. The Half-Venerable hidden under the black robe said, "Guest, please come in. The Venerables are already waiting."

Han Fei grinned. "You learned of my arrival so quickly. It seems that you have a way to send messages!"

After all, after staying on the Scattered Stars Island for a long time, Han Fei knew that some special objects could transmit information to each other. That was the function of the star waist tag.

The black-robed man didn't answer either. Instead, he led the others to walk on this gloomy and dead silent island.

Before long, Han Fei saw a plain of bone jars, which were enshrouded by black gas.

Han Fei was puzzled. These should be people who had just died. He could even see the inside of some bone jars and find that some people's bodies were still intact.

The old turtle said, "These people are indeed fresh dead. However, before they died, they were not hopeless. They just killed themselves and chose to turn into undead creatures."

Han Fei frowned. "So many bone jars, all of which are transformed into undead creatures?"

The old turtle said, "No, only certain bone jars that are enshrouded by black aura can be transformed into undead creatures. When living people switch to undead creatures, the benefit is that they can survive and keep their memories. But the bad thing is... Once they're killed again, their existence will be completely wiped out. Their souls can't be reincarnated, and their souls will be completely shattered. This is the price of switching to undead creatures."

Hearing the old turtle's explanation, Han Fei felt a bit depressed. If it wasn't necessary, who would be willing to switch to an undead creature?

Within a hundred thousand kilometers of the Immortal City, white bones littered all over the sea and the island. God knew how many people had died since the Wall of Death existed.

After half an hour.

After they passed the creepy bone wasteland, Han Fei saw a huge city made of black rocks.

At that moment, more than 30 perceptions swept past Han Fei.

According to these perceptions and the suppressing pressure that fell on him, Han Fei realized that there should be a Half-King among them.

If Han Fei hadn't been to the Demon Beast Union and saw more than 30 Venerables with more than a hundred Half-Venerable and a thousand Explorers, which were all undead creatures... he might have been shocked.

But now... Han Fei had more than a thousand puppets alone.

In terms of the number of Venerables, these 30-odd Venerables couldn't even hold a single gathering on the Ten Thousand Beast Island.

More than ten kilometers away from the giant city, Han Fei stopped and sighed. "Have the human beings in the cage declined to this point?"

On the city wall, someone said in a hoarse voice, "It should still be stronger than the outside world, right?"

Han Fei smiled and said, "There are no opponents like the Black Blood City in the outside world."

Han Fei spoke to a black-robed man on the city wall in the distance, not caring about others.

Behind Han Fei, Long Xi and the others looked at Han Fei with complicated expressions. An outsider barging into the Immortal City alone required more than a little courage.

The black-robed man didn't answer Han Fei, but looked at Han Fei and asked, "Who are you? Why have you come?"

Han Fei casually took out his 13-star token and said loudly, "I am the current supreme commander of the Scattered Stars Island, Han Fei. I'm here to become stronger. However, after seeing the present Immortal City, I've decided to help you solve the threat of the Black Blood City for the time being."

A man in a black robe sneered. "Hehe, what a big tone. More than one or two supreme commanders of the Scattered Stars Island have come, but only one who is still alive and can fight... What makes you think you're special?"

Long Xi and the others were stunned. There was really a place called the Scattered Stars Island? Did Han Fei really come from the outside world?

Han Fei, on the other hand, said in disdain, "My name is Han Fei. I liberated the Scattered Stars Island, slaughtered all sea demons, and killed more than 20 Venerables, including a Half-King... Is this battle record enough?"

Chapter 1554: Seize Power

"Hiss ~"

Hearing that, the few junior Venerables behind him all gasped.

Killed more than 20 Venerables, including a Half-King? This person... How terrifying was he?

Long Xi and Wen Zhu were a little stunned. Is this person so strong? No wonder he is so fearless and has been running amok all the way here.

At the same time, the outside world also made them fantasize endlessly.

The supreme commander must be an extraordinary figure. Did such a figure really come to the cage to help humans?

However, in the Immortal City, an undead creature sneered. "You? You're just an intermediate Venerable. How can you kill a Half-King?"

Hearing this, Long Xi and the others were dumbfounded. F*ck, he turned out to be only an intermediate Venerable? Although he was stronger than them, he said he could slaughter a Half-King? That was simply nonsense!

Another undead creature said, "Han Fei, since you're here, the Immortal City welcomes you. However, your strength alone is too weak."

Another undead creature sighed. "Living people shall not enter the Immortal City because the death energy here is too intense. You can go to the front line to take a look. A mere Intermediate Venerables can't change anything."

"Heh ~"

"It seems that the human race in this cage has indeed declined. It doesn't matter if you don't believe me. However, I'm here today to tell you that I'm already here! I'll reunite the human race. I'll do what you can't do. I'll do what you dare not do... In short, I'll do what you can and can't do."

"Brat, who do you think you are?! Your realm is not high, but your tone is quite arrogant. Let me test your strength?"

A black shadow broke through the air, the black fog steamed, and a ghost shadow flew across the sky. In the thick fog, a white bone hand grabbed at Han Fei.

Bang!

Han Fei stomped on the ground, and the ground caved in. The Sacrificing Punch rumbled out accompanied by a demonic red glow.

In terms of pure strength, Han Fei had already reached the peak of the advanced Venerable, and this was before he activated his Great Dao.

The white bone hand was melted in the blink of an eye.

The ghost shadow formed by the person who attacked was blown away.

The person was shocked. This Han Fei was only an intermediate Venerable. How could he have such powerful strength?

He stabbed out seven white bone spears.

However, with continuous bangs, all the white bone spears were shattered. However, the Sacrificing Punch was still invincible.

In the end, when the Sacrificing Punch was about to hit the undead, a big black hand grabbed the Sacrificing Punch, letting the terrifying power erupt in midair, leaving a layer of red ripples. Even so, the big black hand didn't shake at all.

At this moment, most people were already dumbfounded.

Wen Zhu secretly asked, "Long Xi, what realm is this?"

Long Xi was stunned. How should she answer that? It didn't seem... to be at the level of an intermediate Venerable.

After the punch, an undead creature on the city wall said in a hoarse voice, "You are indeed very strong. If you use your full strength, you should be able to defeat peak-level Venerables... However, you are still far away from becoming a Half-King! You should know... what I mean..."

Even in the Immortal City, many people were dumbfounded when they heard that. They turned to look at the undead creature, wondering if this intermediate Venerable human was comparable to a peak Venerable in strength.

If that was true, then this person must be taken seriously.

An intermediate Venerable might not be able to change the situation.

However, a peak-level Venerable was another completely different kind of deterrence.

There was a difference in the maturity of a peak-level Venerable and a Half-King. However, in the face of ordinary junior, intermediate, and advanced Venerables, they were extremely powerful.

Han Fei grinned. "I think you must have forgotten that human beings can stand strong not only because of strength, but also wisdom, solidarity, and faith... Now, can we have a good talk?"

In fact, the Immortal City was too short of people.

A living person deserved to be cherished more. Therefore, this was why a peak-level Explorer like Wen Zhu could be sent to a safe island for recuperation after being seriously injured...

They couldn't even afford to lose such combat power easily.

Even if they knew that Wen Zhu's foundation had been greatly damaged and she had no hope of making a breakthrough again, she was still a piece of combat power worth preserving.

Therefore, many people were overjoyed that Han Fei, a super powerhouse who could fight a peak-level Venerable, appeared in the Immortal City.

At this moment, they couldn't wait for Han Fei to go to the front line and show the sea demons that human beings still had high combat power...

Therefore, no matter how unreasonable and overbearing Han Fei was, these people would not attack him seriously.

Most of these Venerables didn't know the Scattered Stars Island, let alone where it was.

Although most of the powerhouses who came from the outside world had died, the title of the supreme commander of the Scattered Stars Island was still intimidating, not to mention that he had killed more than 20 Venerables and was commanding millions of human beings. He was definitely not an ordinary person.

As the saying went, "A thousand soldiers are easy to buy, but a general is hard to find." They knew Han Fei's weight.

Immediately, the black-robed Half-King on the city wall said, "You can come, but you'd better activate a protective cover. Otherwise, the death aura will enter your body, which won't be a good thing. Long Xi, you guys retreat from the island for now."

"Yes, Master Netherworld!"

The corners of Han Fei's mouth curled up slightly. He raised his foot and stood on the city tower in one step. And he didn't activate a protective cover.

As early as when Han Fei came to this island, he had already sensed the death aura.

However, the Grand Desolate Body clearly recorded that any energy in the world, in a sense, could be interchanged. That death energy was also a kind of energy, and it was a particularly high-level energy. Its specialness was that it was a Great Dao power about death, which was even higher than spiritual energy and demonic energy.

"Phew ~"

Han Fei took a slight breath of death energy and activated the Grand Desolate Body in his body. The big acupoint in his chest was like a millstone, grinding up the death energy and expelling some of the dark energy out of his body.

Seeing that Han Fei was actually swallowing the death energy, and that some impurities could be discharged in the next moment, the undead creatures were all refreshed.

Someone asked in surprise, "Why can you... absorb death energy?"

Han Fei said with a smile, "In this vast universe, between heaven and earth, all things are energy. The strong dare to absorb all the power in the world."

The old turtle rolled his eyes at Han Fei's mysterious remark.

However, these mysterious words sounded mysterious and awesome to others.

Han Fei wasn't nervous among the Venerables. Instead, he looked straight at the Half-King who had just spoken to him.

Netherworld came to Han Fei, paused, and raised his hand to lift the black hood on his head.

The next moment, Han Fei saw a pale face.

However, unlike the skeleton head that Han Fei thought to be, this person's face was just pale, thinner, and lifeless. Without the thick death energy and pale face, this person was almost no different from a real person.

Of course, this was because Han Fei had already seen Patriarch Thug. He knew that although these people looked fine on the surface, they had a big problem in combat.

Netherworld said, "The Immortal City does lack strong masters. However, you have to know that even if you have the combat power of a peak-level Venerable or even a Half-King, you can't change the situation of the entire Immortal City alone."

But Han Fei looked at Netherworld and said lightly, "Why not ally with the Demon Beast Union? There are many strong masters in the Demon Beast Union. If the two parties form an alliance, at least it can awe the Black Blood City."

Netherworld looked at the people around and didn't answer Han Fei's question, but asked, "Do you know how to switch to an undead creature?"

Han Fei frowned and then shook his head slightly.

Netherworld said, "Since you don't know, don't ask us why we don't ally with the demon beasts. There must be a reason."

Han Fei still wanted to wait for the Netherworld's response, but someone next to him said, "To be precise, anyone who switched to an undead creature can no longer be considered a human. There are some things that we can't say, not because we don't want to. There are some things that once we touch them, we will be annihilated."

Han Fei frowned.

At this time, the old turtle reminded him, "Han Fei, don't pursue this question anymore. Such a secret is indeed not something you can pursue now. Don't ask or mention it."

Han Fei was puzzled. "Old Yuan, do you know it?"

The old turtle said, "I told you not to ask. Remember what I told you... Some names can't be mentioned no matter how far away they are! Otherwise, you'll be in trouble."

Han Fei had never thought about what was behind the undead creatures.

However, from today on, Han Fei knew that this was probably a taboo that he couldn't touch for the time being, a taboo that even the old turtle, an emperor, was extremely afraid of.

Han Fei nodded slightly. "Okay! I won't ask about this matter. Everyone, I came to the Wall of Death... Well, I mean the cage, not for long. I'll keep my word. Some things really don't just depend on strength. I need some commanding rights of the Immortal City."

Han Fei went straight to the point.

As early as before he came to the Immortal City, he had heard that the humans here lived a miserable life. Therefore, from the beginning, he had thought of leading the Immortal City.

Although Han Fei knew that there must be Half-Kings or even a fake king in the Immortal City, he could just demand an outrageous price first!

He would just get as much power as he could.

Therefore, Han Fei immediately heard Netherworld say, "Impossible!"

An undead creature sneered. "You've only been in the Undying City for less than half an hour. Do you think it's possible for us to hand over the Immortal City to you?"

Han Fei grinned and looked back at Long Xi and the others outside the island. "Then I want them..."

Chapter 1555: I Am Going to Be the Human King

“They?”

This was out of the expectations of Netherworld and the others. If Han Fei’s purpose was to seize power, they would never give it to him.

After all, Han Fei’s sudden appearance caught them off guard.

He was a complete stranger to them. Even if he was confirmed to be a human, how could he ask for subordinates and power the first time they met?

They were not fools and certainly wouldn’t agree.

Before Netherworld spoke, someone had already said, “That’s impossible! You should have discovered that their foundation is damaged and their strength has been greatly weakened. They can’t even use 70% of their strength. Besides, you can’t use them. They are the seeds of mankind.”

Han Fei immediately interrupted him, “Don’t be in such a rush to refuse. I said I wanted them, which means that I wanted them who have returned to their peak state.”

“Huh?”

The undead were all puzzled.

Someone said in a low voice, “Are you a spirit gatherer? But even if you are an extremely excellent spirit gatherer, you should know that the foundation damage is not something that can be recovered by ordinary healing techniques. Even if you are a spirit gatherer, our Immortal City doesn’t lack spirit gatherers.”

Han Fei grinned. “Let me ask you, if I make them return to their peak state, will you give them to me? To put it bluntly, I used to command millions of people, and I have my own style of doing things. However, as the commander, I must have soldiers...”

Han Fei could feel that these people were all staring at him.

However, Han Fei’s offer was too tempting.

If Han Fei really had the ability to cure all of them, it meant that the combat power of the Undying City could increase a lot.

Of course, since Han Fei had asked this question, Netherworld believed that he would definitely cure some people. It might be dozens or hundreds, but no matter how many... As long as Han Fei’s actions were still controllable, why not agree?

Blue flames burst out of the robe of Netherworld, and a hoarse voice echoed, “OK, but don’t abuse them even if you cure them. There are not so many human beings in the cage. Sacrifices are not allowed.”

The corners of Han Fei's mouth curled up slightly. "Of course, I'll use my people well. Please summon all the injured people on the battlefield in the rear!"

"Puff..."

Immediately, weird blue and green flames spewed out of the Immortal City.

These undead people thought Han Fei was crazy. Do you know how many they were?

Netherworld immediately said, "Han Fei, do you know what you're talking about? Call them all over? Even if you are a real king, can you cure hundreds of thousands of people at once?"

Han Fei grinned and said, "Who said I was going to cure hundreds of thousands of people at once? If my guess is correct, there should be many islands at the front line of the Immortal City, right? On the front line, pick an island for me."

"No! Do you really think you're here to lead the Immortal City?"

"Han Fei, don't go too far."

As soon as Han Fei said so, two people roared.

However, a ferocious aura burst out of Han Fei's body and his voice resounded. "Why not? You are the weakest of the four forces in the cage. Is it because the human race is incompetent, or is it because you are incompetent? If you can't do it, I'll do it. Why can't I?"

Han Fei's ferocious aura was really intimidating.

Different approaches were needed to deal with different races.

Han Fei had stayed in the Grand Myriad Mountains and knew the personalities of demonic beasts.

However, Han Fei was more familiar with humans because humans were too smart. They had too many things to consider. However, the more they thought, the more restrained they would be.

Before he came, Han Fei didn't intend to spend much time here.

If he had to wait until he was fully integrated into them before he could command a group of people, that would be a waste of time! How could he have so much time to play with them?

Therefore, Han Fei had to be very domineering at this moment.

Han Fei shouted in a low voice, "Give me an island. Once I cure a person, this person will belong to me. I came to the cage to seek opportunities for growth, so killing Venerables is inevitable. I don't have so much time to waste on blending into you!"

Someone scolded, "How arrogant! You speak as if the Immortal City is a place you can come and go as you please... Do you think you are invincible just because you have the combat power of a peak-level Venerable?"

Someone sneered. "Even if you really reach the peak of the Venerable level, do you think you can shake a city alone?"

Han Fei licked the corner of his mouth and said, "What? The Immortal City is already in this state, and you're still afraid that I'll seize your power? Do you think I care about the power of your insignificant Immortal City? What I want is the entire human world... I am going to be the human king."

When Han Fei said the last few words, his voice rumbled like thunder, echoing in the sky.

Buzz!

...

Long Xi and the others retreated outside the Immortal City and waited.

Han Fei could go into the Immortal City, but they couldn't.

Even if they had already become Venerables, their foundation had been damaged. If they were with the undead, once they were contaminated by the death aura, they would be in big trouble.

Someone said, "Long Xi, where is Han Fei from and where is the Scattered Stars Island? He is so arrogant."

Another person also said, "That's right, Long Xi... This man is so arrogant and overbearing. How dare he challenge Grand Venerable Netherworld in the Immortal City? And he even fought the undead? Is he ferocious or stupid?"

Long Xi had been frowning too. "Do you think a fool dares to break into the Immortal City alone?"

The other two junior Venerables shook their heads. Nobody dared to come to the Immortal City alone. There was not even a fish in the hundreds of thousands of kilometers within the Immortal City...

"Roar..."

All of a sudden, the four of them saw the people began to quarrel in the Immortal City.

Wen Zhu asked in surprise, "Long Xi, is that person going to fight Grand Monarch Netherworld and the others?"

Hum...

All of a sudden, four holy white pillars of light appeared in the sky that had been shrouded in darkness all year round. The four rays of light fell and enshrouded the four of them.

"Ahhh~"

At that moment, Long Xi, Wen Zhu, and the other two junior Venerables couldn't help stretching their bodies and exclaiming comfortably.

At that moment, they felt that their foundation was recovering at an unbelievable speed. They had been recuperating for a few years, but they had only recovered one or two percent. However, under this pillar of light, their foundations were restored in the blink of an eye.

At that moment, the four of them, except feeling extremely comfortable, could only hear a few words echoing in the sky, "I am going to be the human king."

Heh, what a domineering remark!

Hearing Han Fei's words, not just Long Xi and the others, even Netherworld was shocked.

Just now, when Han Fei said that, he burst out with an awe-inspiring momentum, which horrified him.

When the Heaven Enlightenment Divine Technique was activated, Netherworld and the others immediately stayed away from Han Fei. At that moment, Han Fei exuded a holy brilliance, which made them unconsciously feel the pain of burning.

However, in the next moment, no one cared about Han Fei's rudeness, because they saw the pillars of light and the auras of the four of Long Xi getting stronger and stronger.

After only several seconds, Wen Zhu exclaimed, "Long Xi, my foundation! Has my foundation been restored?!"

Long Xi and the other two junior Venerables were also so surprised that their eyes almost popped out.

Long Xi looked at the gate tower of the Immortal City and swallowed. "My... my foundation has been restored too."

The other two looked up at the fading brilliance and murmured, "Who is he exactly?"

On the gate tower of the Immortal City.

Someone murmured, "Heaven Enlightenment... The legendary Heaven Enlightenment Divine Technique?"

In the eyes of Netherworld, green flames burned.

Han Fei knew that he was looking at him.

After a while, Netherworld said, "Okay! I agree."

Netherworld shouted, "Long Xi, Hua Meng, Chen Yue... From today on, you will be under Han Fei's command. Summon all the wounded to the Death Island closest to the Immortal City."

Long Xi and the others were stunned for a moment and looked at the man on the gate tower with complicated expressions. Taking a deep breath, they bowed and said, "Yes, sir."

Long Xi looked at Wen Zhu. "You stay here. We'll go notify the wounded."

Wen Zhu was dumbfounded. Who knew what had happened?

For some reason, she intercepted a suspicious person from the Demon Beast Union... Then, when she found that she couldn't beat him, she asked Long Xi for help.

However, even Long Xi couldn't beat him!

In the end, this man broke into the Immortal City and even became her boss?

On the gate tower of the Immortal City, Han Fei bowed slightly. "Thank you, everyone. I may not stay in the Immortal City long, but within a hundred years, I will try my best to take you out of the cage. The day you leave the cage will be the day the Black Blood City is destroyed."

This time, no one retorted what Han Fei said, because there was no way to refute it. Who knew what would happen a hundred years from now? If that happened, it would be great.

At this time, Netherworld still said with a hoarse voice, "It's indeed said that the Heaven Enlightenment Divine Technique is the Human King's Technique, which has never appeared in history. However, the Black Blood City isn't so easy to conquer. A hundred years... is too short."

Han Fei grinned. "Let's wait and see."

Then, Han Fei took a deep look at the Immortal City. This was simply... a dark ancient castle full of decaying air. The death energy inside was too strong!

Trusting the old turtle, Han Fei stopped seeking the secrets of the undead.

Han Fei appeared beside Wen Zhu in a step.

After that, Han Fei looked back and said, "If you are still worried, you can come to my island to take a look in the future. My people won't easily die."

After that, Han Fei looked at Wen Zhu and chuckled. "Okay, now, take me to Death Island!"

Chapter 1556: Han Fei's Troops!

The Death Island was about 300,000 kilometers away from the island where the Immortal City was located.

When Han Fei arrived here, he found thousands of human corpses in a certain area here.

Wen Zhu secretly looked at Han Fei and explained, "They must have died this year. Their bodies are intact, so they were taken back. They have to wait for a while before they are taken to the Immortal City to be corrupted by the death aura. Then, they will be taken to the Death Valley."

"Death Valley?"

Han Fei had heard this name before. He had even seen it with his own eyes. It was also the place where the Death Bone Xun came from, which was the place protected by the Jade Girl.

Han Fei rolled his eyes. "Now, do you believe that I am a human being?"

Wen Zhu blushed and said in a low voice, "Before that... you were suspicious indeed!"

Han Fei said with a smile, "Tell me about the Golden Boy and the Jade Girl, as well as the island where they are. If I'm not wrong, that island should have disappeared more than five years ago, right?"

Wen Zhu looked at Han Fei in surprise. "How do you know that?"

Han Fei casually grabbed the Death Bone Xun and played with it. He said leisurely, "Otherwise, where do you think I got this thing?"

Wen Zhu's expression was complicated. Then it made sense.

Han Fei had obtained the Death Bone Xun outside, so he didn't have to go in the direction of the Black Blood City and the Demon Beast Union.

Wen Zhu said, "I don't know about Lord Golden Boy and Lord Jade Girl, but that island is called the Forbidden Island. It's an absolute restricted area for human beings. Except for the undead, ordinary people are not allowed to approach it."

"Oh? Forbidden Island?"

Han Fei couldn't help being interested. Many people went to the island with him back then.

Han Fei asked, "Why is it called Forbidden Island?"

Wen Zhu said, "It's said that blood and Qi often fill the sky on that island, and there are great ferocious creatures on it. On that island, there are also strange demon plants that hunt indiscriminately. On that island, there is a grassland that will disappear when you step on it. And, as you know, there is the legendary Death Island on that island, which is the place to transform undead creatures. On that island..."

Wen Zhu rambled on.

In the end, Wen Zhu said, "Most of us have never been to that island. You... Grand Venerable Han Fei, haven't you been there?"

Han Fei turned his head and glanced at Wen Zhu. "Call me Han Fei or Marshal Han."

Han Fei thought for a moment and didn't pursue the matter further. He found a random open space and sat on a rock. Then he set up a big pot and picked up a Scattered Crystal Dragon Ball, which was in the advanced Explorer realm. Then he cut its shell and took its meat. His series of actions were as smooth as flowing water.

Gulp!

Wen Zhu swallowed. Instead of looking at the lobster meat, she looked at the shell of the Scattered Crystal Dragon Ball and said carefully, "Grand Venerable Han Fei... Uh, Marshal Han, isn't it a pity to break the shell like this?"

Han Fei was stunned for a moment and then remembered that what Long Xi was using now were all intermediate Divine Weapons, which seemed to be only the level of this lobster shell.

Han Fei couldn't help but look at Wen Zhu. "Do you lack weapons?"

Wen Zhu nodded. "Actually, there is no shortage of weapons, but advanced weapons are lacking. For example, Long Xi originally had an advanced Divine Weapon. However, after she was seriously injured, she gave the weapon to others."

Han Fei: "..."

Han Fei was lost for words. "So, you're short of weapons?"

Han Fei shook his head slightly, glanced at the lobster shell, and curled his lips.

Whoosh!

While making a hot pot, Han Fei raised his left hand and grabbed the lobster shell.

With a whoosh, the spiritual fire boiled.

After more than fifty seconds, Han Fei casually threw out a few materials. The hot pot was still boiling.

Han Fei freed his right hand and picked up a sledgehammer. In an instant, he appeared at an altitude of ten thousand meters.

Clang! Clang! Clang! Clang! Clang!

Wen Zhu saw that in the sky, figures flashed and sledgehammers struck horizontally. The void vibrated and ripples shot out like knives, splitting the sky and earth, but none of them fell into the hot pot.

After another fifty seconds, Han Fei appeared in front of the hot pot with a swish.

He casually threw a long snake-shaped whip at her. "You're a manipulator. It's better to use a whip."

Wen Zhu subconsciously took the long whip and felt the gravity of a mountain. The shining light and the tough feeling showed that the whip was better than all the weapons she had touched.

Wen Zhu looked at Han Fei in shock. "Is this... a high-quality Divine weapon?"

Han Fei curled his lips. "To be honest, ultra-quality Divine weapons are indeed rare and require a lot of materials. The corpse of a Venerable-level demon can only be refined into one or five ultra-quality Divine weapons depending on their realm. Well... let's find a chance to hunt a few Venerable-level demons first before I can make better weapons."

Gulp!

Wen Zhu immediately swallowed. Hunting Venerables? Just to make weapons? Were all the humans outside so ferocious?

She couldn't help but remember that Han Fei said that he had killed more than 20 Venerables, even including a Half-King.

Wen Zhu thought to herself, A Venerable is just a weapon in the eyes of a person like Han Fei?

"Gurgle, gurgle..."

After a while, the hot pot was ready.

Han Fei picked up a large piece of lobster meat and began to eat it. When he finished the two or three catties of meat in his hand, he suddenly remembered that there was another person next to him.

He immediately said to Wen Zhu, "Sit down and have some. It will take at least half a day for them to come over."

Wen Zhu already wanted to eat it when Han Fei was grilling food earlier.

At this moment, she had confirmed that Han Fei was human, and Han Fei had become her leader. She should be fine with a few bites!

When Wen Zhu picked up a piece of shrimp meat and stuffed it into her mouth, she was so fascinated that she even froze.

She looked at Han Fei in shock, wondering how it could be so delicious.

Han Fei, on the other hand, didn't pay attention to Wen Zhu. Instead, he looked at a corner of the void casually and said, "Would you like to have a bite?"

Wen Zhu quickly looked around and found nothing.

However, a voice came from the void, "The undead... has no sense of taste. This is one of the prices."

Han Fei shrugged. "What a pity... By the way, can you ask someone to send a message to the Ten Thousand Beast Island for me?"

Buzz!

An Undead appeared beside Han Fei and said casually, "Are you from the Ten Thousand Beast Island?"

Han Fei smiled and said, "The problem is not where I come from. Ask someone to go to the Ten Thousand Beast Island and tell Sheep Shenji to put some pressure on the Life and Death Gorge in the next few years."

The black-robed Undead asked, "Can you influence the Demon Beast Union's decision?"

Han Fei raised his head and smiled at him. "In this cage, demonic beasts are the natural allies of the human race. Since I'm here, I won't come for nothing. As a general, no matter how strong I am, in the face of a battle with a huge gap in strength, I won't fight alone."

Black Robe pondered for a moment. "Okay!"

However, Han Fei suddenly said, "Forget it. I'll use my own people later!"

The black-robed Undead: "..."

Han Fei overestimated the speed of Long Xi and the others. Maybe the distance of millions of kilometers was too long for them...

Therefore, after a full day, a large group of people flew over.

Swish! Swish! Swish!

A large number of strong masters descended from the sky like putting dumplings in boiling water. These people were all Explorers, none of them below the Explorer realm.

Han Fei also discovered that there were no children here.

Then, logically speaking, the level below Explorer and children should be on the other side of the Immortal City, in the direction of the battlefield.

Han Fei was having breakfast. He made himself a pot of crab roe soup.

At this moment, Hua Meng suddenly landed on the ground.

The brawny bald man said respectfully, "Master Han Fei, everyone has been notified. Because we used a lot of manpower, we came a little late."

Behind Hua Meng, in the open space, groups of people landed. These people all looked at Han Fei who was sitting in the front, drinking soup.

"Xiliu, OK ~"

Without raising his head, Han Fei said casually, "When everyone is here."

Another hour passed.

Figures kept appearing in the sky.

Then, Chen Yue and Long Xi landed.

When all three of them arrived, Han Fei knew that they were all here. At this moment, he had already drunk half a pot of soup.

Han Fei raised his head and glanced at these people. There were 18 junior Venerables, 5 intermediate Venerables, and one advanced Venerable.

Han Fei glanced at the advanced Venerable and thought, Since the advanced Venerable was sent to the rear, he must be seriously injured.

Han Fei couldn't help but sigh. Fortunately, he could use the Great Dao of Heaven Enlightenment now. Furthermore, his strength had already reached the intermediate Venerable realm.

Otherwise, it was impossible to cure these people.

Even now, with his vitality, it was impossible for him to cure all these people.

However, he could spend some time hunting sea demons and swallowing some vitality.

After all, he had upgraded the Void Lines and more vitalities could be obtained.

While Han Fei was sizing these people up, these people were also sizing up Han Fei. In their opinion, since Han Fei could treat Long Xi, Hua Meng, and Chen Yue, then the others were definitely not a problem.

Han Fei waved his hand and put away the pot in front of him.

He didn't get up but said leisurely, "I think you already know that from today on, you are my subordinates. You can call me Marshal Han in the future. It doesn't matter if you don't know me. It doesn't matter if you think I'm an outsider. It doesn't matter if you don't trust me, but..."

Han Fei's face changed, the murderous aura on his body was intense, and his voice was cold. "However, you need to obey my orders unconditionally. Although I won't let you die, no one shall disobey me even if I tell you to die. Do you hear me?"

Han Fei rose suddenly, his eyes narrowed, and like a giant, he slowly stood up.

Chapter 1557: Put On An Act

Unlike when he stayed in the Demon Beast Union, in the territory of the human race, Han Fei was very domineering.

Han Fei firmly believed that he was going to become a king. To become a king of the human race, he had to show the majesty of a king.

If a newcomer wanted to control the overall situation in a direct and effective way, he had to be intimidating enough to suppress everybody.

Of course, when there was oppression, there would be resistance.

Especially a person like Han Fei who popped up from nowhere, no one knew him before. They didn't even know where he came from.

Therefore, as soon as Han Fei shouted, a Venerable said, "If you want us to become your subordinates, firstly, you need to heal us; secondly, you have to tell us your background, right?"

Han Fei glanced at the Venerable and smiled coldly. "Advanced Venerable, you should be Lu Yuntian, right? Why? If I don't tell you my background, you won't follow me, right?"

When Han Fei was waiting for them on Death Island, Wen Zhu had basically told him everything he needed to know.

Lu Yuntian was the only advanced Venerable behind. Because his injuries were too serious and his realm almost dropped, he had to leave the battlefield.

Lu Yuntian narrowed his eyes and looked at Han Fei.

He knew that Han Fei was very extraordinary. When Long Xi explained the situation to him, he knew that Han Fei was definitely very extraordinary. How could an intermediate Venerable with peak combat power be ordinary?

Han Fei grinned and said frankly, "Of course I can tell you my background, but not now..."

"Fuse!"

Han Fei's eyes turned black and white. As soon as he activated the Yin-Yang Divine Eyes, his expression became extremely cold, and he looked as if he didn't want anyone to approach him.

Han Fei glanced at the crowd. There were a total of 326,204 people, much fewer than he expected.

However, these people were at least Explorers. In this case, they were exceptionally powerful. More than 300,000 Explorers. How terrifying was their combat power?

But Han Fei wouldn't be shocked by this number. This was because he knew that these people had no more chance to make a breakthrough.

Some people stopped at the junior Explorer level, and some at the intermediate Explorer level. There wasn't even a thousandth of them who had a chance to become a Venerable.

Even if he cured these people, there were probably very few among them who could really become Venerables.

However, even in such a group, there were still people lurking...

As early as when he was in the level-three fishery, Han Fei had known that it was possible for sea demons to transform into humans and hide among them, cultivating completely with the human race's techniques. Especially the sea demons above level-seven spiritual heritages, they were qualified to come into contact with the top-level Human Transformation Technique.

What was even more terrifying than the Human Transformation Technique was the children of sea demons and humans. This kind of thing couldn't be forbidden. It was the same case for the Scattered Stars Island in the past. It was infiltrated by sea demons and they couldn't be easily detected.

Originally, Han Fei didn't think that there would be any sea demons pretending to be humans in this group of people, because the Immortal City had a Half-King after all.

However, after only a quick glance, Han Fei immediately found a few guys who were not right.

Swish ~

Han Fei instantly disappeared.

In the next second, when Han Fei reappeared, there were four more people around him.

The four of them were stunned and didn't know when they were captured. All in all, their minds suddenly went blank, and they appeared in the open space before the crowd.

Han Fei released the suppressing power, and the four people all fell to their knees.

Immediately, someone shouted, "Bao Shan... Master Han Fei, why did you attack them?"

Someone frowned. "My lord, what's the meaning of this?"

Immediately, the audience was in an uproar.

Someone shouted, "Master Han Fei, why did you suddenly attack them? If you don't give us a proper explanation, we won't accept it."

One of the people controlled by Han Fei shouted, "You bully the weak as you please. Although you are a human Venerable, we are not convinced..."

Another person echoed, "That's right, fellow compatriots, this person has never appeared in the Immortal City before, nor have we seen him on the battlefield. It can be said that this person doesn't exist in the Immortal City at all. Judging this person's attitude, we must not follow him."

The other two also shouted angrily, "We can't accept this!"

Han Fei grinned. "Are you not convinced?"

"Pfft!"

Han Fei carried a knife in his hand and slowly, inch by inch, cut into a person's body.

Amidst the cries, the man's body changed. His limbs were deformed, and his lower body was changing. Soon, he turned into a merman.

"Hiss ~"

Everybody fell quiet.

Buzz!

In the void, a black-robed man appeared. This person reached out and grabbed this merman, pressing him down and searching his body up and down.

Then the undead in black said hoarsely, "Sea demon!"

At this moment, the bodies of the other three trembled at the same time. Their souls seemed to be controlled as they began to transform uncontrollably.

Soon, they became three mermen.

At this moment, Han Fei loosened the Void Lines and let go of the three of them. Then, he smiled and said, "Are you convinced now?"

The three of them were horrified. Who was this person? They had hidden themselves perfectly. How could they be discovered so easily?

However, the moment Han Fei retracted the Void Lines, the first thing the three of them were about to do was to blow themselves up.

The black-robed man clearly wanted to attack, but then he noticed that Han Fei's expression was calm and tranquil. He clearly had a solution.

Therefore, he didn't move, waiting to see what Han Fei was going to do.

However, Han Fei didn't stop them from detonating themselves at all.

These three people were all Half-Venerables. Seeing that they were about to self-destruct but Han Fei didn't stop them, everyone couldn't help but panic.

Some people had even taken out their armor boxes, and many people were already prepared for defense.

Bang! Bang! Bang!

However, when the three of them exploded, spiritual energy burst out from the ground within a hundred meters.

While many people exclaimed and even began to dodge, a green array instantly enveloped the three of them. The terrifying power of the explosion failed to shake the outside world at all.

In front of hundreds of thousands of people, no one saw when Han Fei set up the array! Seeing this array formation technique, many spirit gatherers present gasped.

Lu Yuntian and the other Venerables frowned.

Only Long Xi, Hua Meng, and Chen Yue were unmoved. They thought to themselves, You haven't seen his crazier side yet! He dared to attack Lord Netherworld in the Immortal City... This man is crazy!

Han Fei smiled and said, "Look... everything I tell you may be quickly revealed by these undercover agents after you go to the battlefield. However, I'll still tell you the truth. My name is Han Fei, and I come from outside the cage. You can call me Marshal Han. I'll take you to slaughter ten sea demon Venerables in a year. If I can't do that, I'll resign and treat your wounds for free. You won't suffer a loss, OK?"

Hua!

The audience was in an uproar. Kill ten Venerables in a year?

Wasn't this a joke? The Immortal City was weaker than the Black Blood City in the first place.

All this time, it had been passive defending itself.

If it weren't for the Demon Beast Union, with the strength of the Black Blood City, they would have long conquered the Immortal City.

No one had slaughtered ten sea demons in nearly ten thousand years. Even if Han Fei could do it, how many Venerables would the humans lose?

Lu Yuntian frowned. "Do you know what you are talking about?"

Han Fei glared at him and said coldly, "I don't need you to doubt me. This is the first time. If it happens again, I don't care who you are and you'll have to get lost."

Lu Yuntian's face immediately flushed.

In any case, he was an advanced Venerable. Even if he was seriously injured, he was still an advanced Venerable. At this moment, he was scolded by an intermediate Venerable and couldn't argue...

At this moment, Lu Yuntian really wanted to kill Han Fei.

However, while Lu Yuntian was extremely angry, a voice suddenly sounded in his head. "From now on, you must create conflicts with me. On the surface, you must obey me, but behind my back, you must hate me."

Suddenly, Lu Yuntian stared at Han Fei, wondering what he meant.

Han Fei secretly said via voice transmission, "Make yourself look angry. There's a traitor among the Venerables. Do you want to be seen through?"

Lu Yuntian's heart tightened. There was a traitor among the Venerables?

How could it be? The humans didn't have many Venerables. There were traitors even among the Venerables? He couldn't help being horrified.

So, Han Fei wanted to put on an act with him?

Before Lu Yuntian could think further, Han Fei said, “All Venerables, come a hundred meters before me except for Long Xi, Hua Meng and Chen Yue. Since I’m going to lead you, I’ll heal your wounds first. Let me show you if I’m qualified to lead you...”

Many people were looking at Lu Yuntian!

After all, Han Fei was too domineering, and Lu Yuntian was the strongest among them. Besides, he had a conflict with Han Fei just now.

“Humph ~”

Lu Yuntian shouted, “Okay, I’d like to see how you can cure more than 300,000 of us by yourself!”

With that, Lu Yuntian came a hundred meters in front of Han Fei.

The others watched quietly and followed Lu Yuntian, also wanting to see Han Fei’s abilities.

Han Fei smiled. There were 18 junior Venerables, five intermediate Venerables, and one advanced Venerable in total.

Apart from the Long Xi trio, there were a total of 21 Venerables who needed treatment.

This was not a simple vitality injection. The Long Xi trio alone, plus Wen Zhu whose foundation was damaged, had cost Han Fei nearly 80 years of vitalities.

Among the remaining Venerables, there was still an advanced Venerable like Lu Yuntian. It would take him seven or eight hundred years of vitalities to heal them.

However, Han Fei dared to bet that as long as he killed enough enemies, his vitality could be restored.

Han Fei had no doubt about his ability to kill his enemies.

Therefore, Han Fei raised his arms and mumbled, “Heaven Enlightenment...”

Chapter 1558: War Requires Speed

When Han Fei raised his arms, the black-robed undead next to Han Fei had already disappeared. The Heaven Enlightenment Divine Technique was really not good for undead creatures.

At that moment, everyone looked up at the sky.

A milky halo fell from the sky, and the pillar of light enveloped the 21 Venerables.

“Ahhh~”

Many people subconsciously exclaimed comfortably.

The pillar of light lasted for several minutes.

The ones who recovered first were naturally the junior Venerables. When the pillar of light disappeared, they were all shocked.

Someone murmured, “It’s a miracle! My foundation has actually been completely repaired.”

Someone exclaimed, "Not only has the damage to my foundation been restored, but the countless hidden injuries left on the battlefield have also recovered."

Countless people saw the surprised looks on the faces of these Venerables.

Even the Half-King couldn't heal their wounds because their foundations were damaged. If Han Fei could even treat this, wouldn't it be easier for him to treat those below the Venerable level?

After another ten seconds, the five intermediate Venerables recovered and looked equally shocked.

However, one of them wasn't glad at all although he looked excited. Someone had come from the outside world, and it was such a terrifying figure.

If this person could even repair the damage to a Venerable, the strength of the Venerables in the Immortal City would increase by at least 30%. With this big shot here, human Venerables could almost court death crazily.

"Wang He! How are you? Has your foundation been repaired?"

A Venerable beside him asked him with joy.

Wang He immediately smiled and said, "Of course, I've completely recovered. Even my hidden injuries were healed. I'm just shocked."

The Venerable smiled. "Me too..."

Finally, it was Lu Yuntian.

Advanced Venerables and intermediate Venerables were different after all. It took Han Fei nearly a hundred years of vitality to repair all the hidden wounds in this guy's body.

Han Fei cursed in his heart, How can these b * stars be so injured? Fortunately, there are only twenty of them. If there are a hundred of them, I'm afraid my vitality will be exhausted.

To be honest, Han Fei was certainly unhappy that Lu Yuntian went against him just now. However, on one hand, he was injured when he fought the sea demons, which could be counted as a contribution to the human side; on the other hand, Han Fei really wanted to put on a show.

Therefore, it was good that Lu Yuntian could cooperate with him. If he couldn't, Han Fei wouldn't care about his life in the future.

Just now, after this round of treatment, Han Fei consumed about 650 years of vitality in total, which was slightly less than he had expected.

Fortunately, he took the Great Dao of Heaven Enlightenment now. If it were before, he could only forcibly use the Heaven Enlightenment Divine Technique, which would consume at least twice as much vitality as now.

It would have cost him at least 1,500 years of vitality to save these people.

After rescuing these people, Han Fei was a little tired. After all, he was only an intermediate Venerable now, so his abilities were limited.

However, the show was not over yet.

Han Fei said, "Now, tell me and the 320,000 people here whether your foundation has been restored?"

At this time, the Venerables were naturally happy.

These people all turned their heads and said to the crowd, "This technique is magical. It can indeed repair the damage to the foundation."

Someone said, "Although it's Marshal Han's first time here, he must have consumed a lot of energy to use this miraculous healing technique."

Lu Yuntian crossed his hands. "From the perspective of the entire human race in the Immortal City, thank you."

"Hmph!"

Han Fei didn't even look at Lu Yuntian, who blushed again.

This time, many Venerables frowned, thinking, Lu Yuntian took the initiative to be friendly, but Han Fei didn't like him!

However, Han Fei did have the right to be arrogant.

Besides, it was said that Han Fei was only an intermediate Venerable. With an advanced Venerable above him, it was only natural that he felt uncomfortable.

Some people frowned. He saved us, but he was so arrogant to us. This wasn't what a commander should do! Lu Yuntian must be angry...

However, Han Fei's healing technique was indeed amazing! This shocked hundreds of thousands of people present.

Even so, many people still doubted Han Fei's ability. With the strength of an intermediate Venerable, he could kill ten Venerables in a year? Was it possible?

Of course, at this moment, most people were not paying attention to this.

Everyone hoped that Han Fei could heal them immediately!

As for Han Fei, his voice echoed, "My fellow human beings, I'll treat your injuries as far as I can, but I won't immediately help you repair your foundation. To be honest... repairing the foundation of the more than twenty Venerables has consumed me nearly a thousand years of vitality."

"Hiss..."

Many people gasped. A single treatment cost a thousand years of vitality in only one minute? That's unbelievable!

However, since these people could become Explorers, they were certainly not fools. After calculating, they knew what Han Fei said was probably true.

First of all, among all the Venerables in the Immortal City, no one could directly restore vitality.

Even if there were strong masters who had great means to repair others' foundations, it could only be used on one or two people. Besides, the strong master would have to pay a heavy price every time he used the great means.

There was really no one like Han Fei.

Secondly, no one was a fool.

No matter how strong a spirit gatherer's Great Dao was, how could it reach such a terrifying level without paying anything? There was no such thing as a free lunch.

Looking at the chattering crowd, Han Fei said leisurely, "However, don't panic. It's just some vitality. When I go to the front line to slaughter some sea demons, I'll have a way to extract some vitality and replenish my vitality. So, you don't have to wait long. I can restore you to your peak state... Now, everyone, stay where you are."

At the next moment, Han Fei appeared in the crowd.

Chi la!

The Holy Light Chains descended and dispersed like an electric net, covering hundreds of people at once.

Who had ever seen such a healing technique?

In the end, being a spirit gatherer was just taking a Dao.

This Dao could make people's self-recovery abilities stronger, so they would become tougher. At the same time, it could also be greatly beneficial in arrays and spiritual energy absorption.

However, they had never seen a spirit gatherer who had such terrifying group healing ability!

Therefore, when the spider web-like Holy Light Chains enveloped a large crowd, the surrounding Venerables, the undead Venerables hidden in the dark, and the more than 300,000 explorers present were all stunned.

Long Xi murmured, "He alone saved half of our Venerables. If the Immortal City had had such a figure earlier, how would our human race declined to this point?"

There were too many people who had the same thoughts as Long Xi.

These people were all shocked by Han Fei's magical healing technique.

However, although the Holy Light Technique didn't need to overdraw vitality, it needed a large amount of spiritual energy and spiritual power to support it. Han Fei didn't lack spiritual energy, but if his spiritual power was consumed too much, it would make him tired.

Therefore, Han Fei was exhausted after only treating about 50,000 people.

Han Fei closed his eyes and visualized the God Scaring Painting for a moment, before he took a slight breath of relief.

Han Fei shouted, "Okay! After all, I'm not strong enough to treat all of you at once. However, war requires speed. My hunting plan has been decided! If you want to join me, follow me to the front line. I

won't force you! If you don't want to go, stay. Those who want to follow me to slaughter sea demon Venerables, follow me."

Han Fei looked at a corner of the void, nodded slightly, and then looked at Long Xi. "Let's go. Lead the way."

...

Han Fei said that those who didn't want to go could stay, but who would really stay?

Han Fei had already proved the effect of his powerful healing technique.

This meant that their foundation could be repaired.

Besides, the strength that Han Fei had shown so far was very powerful. He could easily identify the undercover sea demons at a glance, which was something that even the Half-King couldn't do.

Long Xi thought that she and Wen Zhu just happened to meet Han Fei first.

Above her were five intermediate Venerables and Lu Yuntian, an advanced Venerable.

Han Fei actually asked her to lead the way? This was clearly not giving Lu Yuntian any face!

Lu Yuntian clenched his fists. However, now that he had benefited from Han Fei, he couldn't flare up.

Immediately, a few people cast sympathetic glances at Lu Yuntian. Two Venerables even walked up to Lu Yuntian.

One of them said, "Old Lu."

The other person patted Lu Yuntian's shoulder and didn't speak.

Han Fei had already taken the lead and flew out behind Long Xi.

There were a large number of explorers behind him. These explorers didn't have the ability to withstand the void cracks that appeared every short distance.

Therefore, these more than 300,000 people only took the normal route and didn't travel through the void.

Long Xi said via voice transmission, "Han... Marshal Han, since there are undercover sea demons even on the island far away from the battlefield, isn't it inappropriate for us to set off with such a high profile? The undercover sea demons are not easy to be caught. They may leak information."

Han Fei sensed that there were more than one perceptions scattered around him.

Han Fei said frankly, "It doesn't matter! I just can't tolerate traitors among my subordinates. But in fact, this kind of thing is very difficult to avoid. If so many of us go out, we'll be discovered sooner or later. Then why not tell them openly? If traitors are useful, your Immortal City would have long been wiped out."

In fact, the Immortal City had always prioritized defense.

Because of the problem of manpower, they rarely took the initiative to attack. Therefore, the existence of these undercover sea demons was actually not very useful.

It was like a city that was heavily guarded. Although there were undercover agents in the city, they were not strong enough and had to worry about being discovered all the time... That wouldn't do any good!

He was just afraid that they would leak some important information.

In fact, such a march of hundreds of thousands of soldiers would be discovered sooner or later. This was not important intelligence. As long as the undercover agents couldn't get some important intelligence, they would be useless.

Perhaps some sea demon undercover agents would convey some wrong information, which would be used by Han Fei.

Han Fei flew all the way. When he was eight hundred thousand kilometers away from the Immortal City, a large number of islands appeared here.

Han Fei scanned with his perception, and the population on these islands became denser.

In the rear area of the Immortal City, there were only a few people on an island. In the direction from the Immortal City to the battlefield, however, the islands were full of people.

On these islands, there were Explorers, Law Enforcers, Hidden Fishers, and even cultivators below the realm of Hidden Fishers. There were almost people in every realm here.

Sweeping his perception across, Han Fei found that there were no powerful marine creatures in these waters at all. However, there were many ordinary sea demons. This must have been deliberately left by humans for their juniors to gain experience.

In fact, most of these ordinary sea demons were not from the Black Blood Royal City. Only those who had reached a certain level could be accepted by the Royal City.

Han Fei looked at Long Xi and asked, "How many people usually live on an island spanning less than a thousand kilometers?"

Long Xi said, "Usually, there won't be many people stationed on the islands spanning within a thousand miles. There are only about 500,000 people.. There are enough coastlines for them to gain experience."

Chapter 1559: Watch Your Words When You Talk to Me

Han Fei certainly understood.

When he first came to the Scattered Stars Island, the Scattered Stars Island had a coverage of about 1,800 kilometers, and the regular residents ranged from five to six million.

In fact, when the battle between the Scattered Stars Island and the sea demons was relatively quiet, there were not many soldiers stationed at the front line. Most of the people stayed at the center of the island. In fact, most of the people in the city were at higher levels. And the soldiers stationed at the front line needed to gain experience the most.

Compared with the Scattered Stars Island, the islands outside the Immortal City were actually much safer. Therefore, only less than 500,000 residents were needed.

Flying all the way, Han Fei saw forty or fifty such islands.

Han Fei thought it seemed that the total population of the Immortal City would definitely exceed 100 million. However, even so, it was still too little.

Therefore, it could only be forced to a corner by the Black Blood City.

Han Fei led an army of 300,000 soldiers to sweep across the sky, only communicating with Long Xi from time to time the whole time.

After flying more than 3 million kilometers, Han Fei looked at Long Xi again. "Where is the Forbidden Island?"

Long Xi was stunned for a moment. "The Forbidden Island? It's near the front line battlefield, about 500,000 kilometers away. Marshal Han, we can't camp on the Forbidden Island. There will be problems if we live there. There are too many threats on the island! As long as we go to the island, there will be crises."

Han Fei asked, "Are there islands around?"

Long Xi immediately said, "Yes. There are five large islands within 300,000 kilometers of the Forbidden Island. If we go to the front line, it's best to camp on the islands 100,000 kilometers in the front line or directly on the front line islands. Only then can we effectively seize the opportunity to take action."

Han Fei shook his head. "No! Take me to the island of taboo. I want one of the nearby islands."

Han Fei came with the permission of Netherworld. He wanted an island, unconditionally.

According to Netherworld's plan, Han Fei would prefer the islands on the front line of the battlefield. With Han Fei's peak-level combat power, he would definitely be able to defend a territory.

Long Xi and the others were stunned. Han Fei demanded so much power from Lord Netherworld, but when he came to the front line battlefield, he asked for an island 500,000 kilometers away from the front line?

Han Fei didn't hide what he said.

Therefore, Lu Yuntian and all the Venerables could hear him.

At this moment, these people were a little puzzled. Didn't they say that speed was of paramount importance? Was this a battle strategy?

...

It was naturally slow for large troops to travel. The front line had already received news from the Immortal City.

Therefore, when Han Fei's army flew only a million kilometers away from the front line, the major human islands had already begun to transmit orders.

When they were only 500,000 kilometers away from the front line, Han Fei found that someone was already waiting in his way.

Han Fei shouted, "All soldiers, stop!"

Han Fei stepped into the air and strode to those people.

Behind Han Fei, only Long Xi was following him.

Waiting for Han Fei were two peak-level Venerables, one undead creature, and one human female.

The woman looked cold, but she had the demeanor of a strong master. Her hair and robe fluttered in the wind, she wore green armor, and her fists were clenched. She wasn't the beautiful kind, but her slightly square face suited her temperament.

The woman looked at Han Fei. "Are you Han Fei?"

Han Fei smiled. "Who are you?"

The woman raised her head slightly. "The 726th supreme commander of the Scattered Stars Island."

Han Fei grinned. "Oh! Are you testing my memory? The history of the Scattered Stars Island doesn't extend to the Age of Doom, but begins more than 25,000 years ago. Now, I'm the 886th. The 726th, which was 3,800 years ago... Female supreme commander... Heh, are you Chen Xiang?"

In the history of the Scattered Stars Island, many women had come to power. Among the more than 800 supreme commanders, if Han Fei remembered correctly, there were 269 female supreme commanders.

When Han Fei was investigating Tang Yan's information, he had read this part of history and remembered who Chen Xiang was.

It could be said that every generation's supreme commander was a formidable person.

Chen Xiang was famous not for her time in office, but for her last battle.

It was said that in a battle between strong masters, she was besieged.

At that time, she was only a junior Venerable, but she struck five sea demon Venerables with her saber. In the end, three cracks appeared in the sky, and a rain of blood fell...

And then Chen Xiang never appeared again.

Everybody thought that Chen Xiang was dead, but she had already made great contributions. After all, she fought five Venerables alone and had killed three Venerables, which greatly overwhelmed the sea demons.

But now it seemed that the rumor wasn't true. This woman turned out to escape into the Wall of Death after killing three Venerables in a row.

That was more than 3,800 years ago.

At that time, there were still many Venerables. Han Fei recalled all this and smiled. "I know you. Unfortunately, your battle record is not as good as mine."

Han Fei was as domineering as ever when facing Chen Xiang.

Chen Xiang's eyes had already lit up when Han Fei called her name. However, was Han Fei really suitable to be the supreme commander?

Chen Xiang said, "I heard that you freed the Scattered Stars Island? Do you mean that the sea demons outside the Scattered Stars Island were all killed? That's tens of millions of sea demons."

Han Fei sneered. "I'm talking about Venerables. Once the sea demon Venerables die, which ordinary sea demon dares to mess around? They are just stepping stones for human beings to gain experience."

Chen Xiang frowned. "There are many Venerables in the outside world? I don't think so. How many Venerables can be born in a mere 3,800 years?"

Everyone looked at Han Fei, waiting for his answer.

After all, they were the two supreme commanders of the Scattered Stars Island. They should know the Scattered Stars Island well.

Han Fei said, "The three Half-King projections of the Black Evil Conch King arrived, as well as Cao Xuan, Zi Yuchuan, Mo Lin, and so on. There were more than ten Venerables in total... but I killed them all. Why, are you interrogating me?"

Chen Xiang narrowed her eyes slightly. She had naturally heard the news from the undead. Not to mention how the people from the Black Blood City got out, even with the names of people like Cao Xuan and Zi Yuchuan, what could they do?

Chen Xiang was worried that the sea demons had the means to turn into human beings, and Han Fei's appearance was too sudden. As soon as he came, he demanded men and power and claimed that he would kill ten sea demon Venerables. He even brought over all the wounded people of the Immortal City. If anything happened, the price would be painful, which the Immortal City couldn't afford.

Seeing the look on Chen Xiang's face, Han Fei smiled. "Oh! It seems that you don't believe me?"

Chen Xiang said, "If you want me to believe you, give me a convincing reason. Since you can say my name, I admit that you must have something to do with the Scattered Stars Island. But that's not enough. How can I know if the Scattered Stars Island has been destroyed? How can I know if you are a royal Merman?"

Han Fei's heart stirred. Did Chen Xiang know about the royal family of Mermen?

It seemed that mermen could transform into humans perfectly.

Just like Xia Xiaochan, she looked exactly like a human and could even learn the five major professions.

Han Fei tilted his head and asked, "Then what makes you believe me?"

Chen Xiang said, "It depends on what other proof you can show."

Han Fei sneered. "Do you think I have to ask for your permission?"

Chen Xiang said, "This matter concerns the hundreds of thousands of human beings in the Immortal City. Since you are the supreme commander of the Scattered Stars Island, it's only natural for you to prove your identity."

Han Fei said indifferently, "Then I have to see... how much you know about the Scattered Stars Island. First of all, do you know about the Yin-Yang World?"

Chen Xiang frowned slightly. "Where?"

Han Fei sneered. "Above the Thousand Star City, the place the Central Holy City leads to."

Chen Xiang frowned even more. "Are you talking about the Central Holy City that no one has ever entered?"

Han Fei said indifferently, "You don't know the Yin-Yang World. Do you know the Thug Academy?"

Chen Xiang nodded. "Yes. The leader of the eight academies, Li Daxian, crushed the Thousand Star City alone."

Han Fei thought to himself, Old Li has lived quite long! He had already surpassed the Thousand Star City alone 3,800 years ago? Not bad!

Han Fei shrugged. "Well, I'm from the Thug Academy."

Chen Xiang asked, "How do you prove it?"

Han Fei almost burst into fury. His eyelids twitched, and he suddenly asked, "How can you prove that you are Chen Xiang?"

Chen Xiang: "..."

Han Fei curled his lips. "Why should I believe you're the 726th supreme commander?"

Next to him, the Undead said, "Chen Xiang has been in the Immortal City for 3,800 years and has killed ten Venerables. This can prove her identity."

Han Fei sneered. "The Black Evil Conch King can prove my identity, but I don't know if you can believe it or not. I once killed his projections with my own hands! Why don't you ask him and see how he reacts? If you continue to mess around with me, don't blame me for being rude... Get out of the way."

Chen Xiang and the undead didn't move though.

However, in Han Fei's team, Wang He's heart stirred and silently remembered this.

Chen Xiang said, "Okay, you said that you once killed the projections of the Black Evil Conch King? Then let's fight. I'd like to see how you, an intermediate Venerable, can kill a Half-King."

"F*ck..."

Han Fei was speechless. He didn't expect that even the undead believed him but the former supreme commander of the Scattered Stars Island didn't.

More than 3,800 years had passed, and the world had changed. She hadn't experienced the era of mass killing caused by Tang Yan, and she didn't know about the destruction of the Thug Academy.

Even if she knew, as long as she didn't believe it, she could still find countless reasons.

Han Fei's aura soared crazily.

Long Xi and the others were all horrified, feeling that their bodies were trembling slightly, and killing intent was boiling in Han Fei.

"Come on!"

Han Fei walked thousands of miles with one step and reached out to the void with one hand. The 300-mile floating cloud was held in Han Fei's hand, and thousands of knife shadows gathered into one sword.

At that moment, the world turned dark.

All the Venerables who were watching the battle were shocked. Is this guy an intermediate Venerable? Are you kidding me?

Long Xi and the others were dumbfounded.

Someone was stunned. "No wonder he dares to be so arrogant!"

"Oh my god."

Lu Yuntian's eyes widened. How could he take this blow?

Chen Xiang was also shocked. Han Fei's attack was so terrifying that it even sucked the tremendous power around him!

She shouted, "Are you crazy? How can you fight here?"

Han Fei shouted, "The Immortal City is already so useless. Why can't we fight here?"

Chen Xiang activated her Great Dao, and the invisible air around her surged.

It turned out that the Great Dao of Chen Xiang was to control the power of air between the heavens and earth. And this power was nothing more than the use of pressure.

The void exploded crazily. Chen Xiang fully unleashed her power. After seven consecutive explosions, she finally shattered Han Fei's blow.

Swish!

However, at the next moment, all laws were forbidden in this space.

A big rod appeared in the air and Han Fei activated the Knock on the Heavenly Gate. The rod ignored space and time and traversed hundreds of kilometers in an instant.

Chen Xiang couldn't react in time.

Her laws were all forbidden. Half of her body was blown off in an instant, leaving only half her head and a complete golden arm.

Seeing this, Han Fei sneered. "Golden Body? How dare you keep provoking me with such a weak golden body?"

"Stop!"

"Han Fei, hold back."

"Han Fei, are you crazy? Do you want to kill your own kind?"

Although the two were at an altitude of 10,000 meters, the terrifying power shook the world as countless Venerables rushed over. A Half-King crossed the void and stood in front of Han Fei.

In the past few days, Lu Yuntian had been trying his best to resist the void storm. But this bastard could crush any of them into pieces with a single blow.

"Hmph!"

Han Fei snorted coldly. "Prove this, prove that... In the end, it's all about fists. Next time you talk to me, watch your words."

Everyone: "..."

Chapter 1560: Front Line of the Immortal City (1)

A mid-level Venerable had crushed a peak-level Venerable with one punch and one attack. This kind of fantasy actually appeared in front of everyone today.

Everybody fell silent.

Long Xi, Lu Yuntian, and the others were shocked. Han Fei was like a god of death. He could easily crush a peak-level Venerable? Then what about an ordinary Venerable?

Long Xi couldn't help but think of how she attacked Han Fei. From the beginning to the end, Han Fei just curled his finger and snapped it.

As for the Explorers like Wen Zhu, they were already dumbfounded. Their commander was such a tough guy. They didn't know if it was a good thing or a bad thing.

In the void, Chen Xiang's body regathered. When she recovered, her face was full of shock.

This person was so powerful!

The connection between the combat skills was almost flawless. He could even seal the void and block her Great Dao. What kind of Great Dao was this?

No one would have believed that Han Fei, an intermediate Venerable, could kill a Half-King...

However, it seemed that it was not impossible.

Chen Xiang was already a peak-level Venerable, but she couldn't even resist two blows of Han Fei. If it weren't for her golden bones, she would have been reduced to dust.

Even if Han Fei saw an undead Half-King blocking in front of him, his voice was still fierce.

Han Fei's cold voice echoed between the sky and the earth, "From now on, no one shall mess around with me anymore. Think it over before you come to question me. Not everyone is qualified to doubt me."

Han Fei was strong, powerful, domineering, and ferocious.

Chen Xiang's face darkened.

This person was indeed strong, but according to the normal selection criteria of the Scattered Stars Island, this kind of person shouldn't be qualified as the supreme commander of the Scattered Stars Island, right?

Did something really happen outside?

The undead Half-King said, "You went too far. You two came from the same place. There's no need to fight."

Han Fei chuckled. "Yes, but even the people born in the same place are different. I won't pursue what happened today anymore. Now, I want an island near the Forbidden Island. I want to choose it myself."

The Half-King had also witnessed Han Fei's strength.

To be honest, he wasn't confident of taking Han Fei down.

After all, Han Fei's strength was obvious to everyone. Even if he beat such a strong master, what if he ran away? How many people here could catch him? Besides, Han Fei's Great Dao restrained the undead like them!

The Half-King was quite decisive.

Han Fei's words were too blunt, and no one knew what he was capable of. However, Han Fei claimed that he would kill ten sea demon Venerables in a year...

There was no need to stop him. After all, it was just a year, and they just needed to wait.

Giving a cold stare to Chen Xiang, Han Fei turned around and glanced at the others. "Let's go!"

This time, Han Fei had demonstrated his unparalleled strength. Who dared to refute him?

Besides, Han Fei's style of doing things was completely different from when Wen Zhu and the others met him for the first time. He was not gentle at all! However, this kind of domineering style made people dare not resist him.

After Han Fei led the crowd away, many Venerables flew over.

Someone frowned. "Grand Venerable Chen Xiang, have you been injured?"

Chen Xiang shook her head. "This person is indeed terrifyingly strong, especially in terms of strength. He's definitely at the Half-King level."

Someone said, "When Han Fei saw your golden bones, he looked disdainful. Does this mean... he has also embarked on this path? And he has walked quite far?"

Many people were tempted. This possibility was very high.

The Half-King said, "Don't mind this Han Fei. He declared that he would slaughter ten sea demon Venerables in a year. Let's just wait and see. Besides, he's not weak. In this way, the front line of the battlefield is equivalent to four Half-Kings guarding it. It can be said that our strength has indeed increased greatly."

Someone else said, "Sister Xiang, don't hold it against him now. I heard that this person's healing technique is unparalleled in the world and he uses the legendary Heaven Enlightenment Divine Technique. Let's deal with him after he heals all the wounded."

Chen Xiang snorted. "I'm not that petty. What I'm thinking is that this man is too domineering. Will he be too self-opinionated? Will he be a qualified commander?"

Someone was puzzled. "Doesn't he look like a commander? He does look like one!"

Chen Xiang shook her head. "No! He's too aggressive. A commander needs to consider the lives of millions of people. There are too many things for him to consider. Theoretically, he shouldn't be the supreme commander. This is why I'm suspicious."

...

While Chen Xiang and the others were discussing Han Fei, Han Fei had already led the crowd to fly around the island.

There were five islands close to the Forbidden Islands here. Because they were a certain distance from the front line, there was only a peak-level Venerable-level undead creature guarding these five islands.

The others were all Explorers and Law Enforcers. There weren't many of them in total. Among them, there were only tens of thousands of Explorers and hundreds of thousands of Law Enforcers.

At least, the group of people led by Han Fei could easily sweep these five islands.

It could be seen that Han Fei was lucky to come to the Immortal City from the direction of the Ten Thousand Beast Island. He happened to come to the rear of human beings and happened to meet these injured humans who were definitely not weak.

Now, these people were all under his command.

Although Han Fei's leadership style was too tough, as long as they were under his command, Han Fei had a way to win their trust.

When Han Fei and the others arrived, an undead creature who was a peak-level Venerable appeared beside Han Fei and said, "My name is Ye Qian. I was ordered by Master Netherworld to assist you."

Han Fei nodded slightly. It was only natural.

No matter what, he was new here, so they couldn't really give him power all at once.

If he wanted to take these people to the front line battlefield, there would definitely be other strong masters following him. After all, the people he led were extremely important. Even if their foundation was damaged, they could still reproduce and teach their children experience, right?

Han Fei said, "Got it!"

After circling around, Han Fei finally chose an island only 120,000 kilometers away from the Forbidden Island.

There was a green haze on this island. What puzzled him was that this island was not the best of the five islands, but the worst of the five.

The barriers on the island were usually invisible. After being affected by the Immortal City for tens of thousands of years, the barriers on the island were basically perfect on the safe islands.

However, this island only had a radius of eight hundred kilometers. The mountains and forests were dilapidated, some of the beaches had been eroded, and there were still volcanoes on the island. There were some floating particles in the air. The environment was very poor.

Han Fei immediately asked, "What's the name of this island?"

Ye Qian said, "This is the Fiery Stone Island, which is famous for producing useless fiery stones. There are few strong masters who come near the Forbidden Island, so there are many marine creatures around. The closer to the Forbidden Island, the more marine creatures there are. Therefore, some places are already dilapidated."

Han Fei nodded and said, "Okay! We'll take this island. Everybody, camp on Fire Stone Island and clear the area."

When Han Fei chose this island, many people were puzzled. After all, Han Fei's goal was more like the Forbidden Island. Did Han Fei choose this place to go to the Forbidden Island?

Among the crowd, only Wen Zhu knew that Han Fei had already been to the Forbidden Island once. Last time the Forbidden Island disappeared, Han Fei had been to the island in the outside world.

Because of Han Fei's domineering personality, he didn't explain to these people, and it seemed that he didn't bother to explain.

Han Fei shouted, "All those whose foundation hasn't been restored, set up camp for the time being. No one shall leave the island. Long Xi, Chen Yue..."

Long Xi and Chen Yue bowed. "Marshal Han."

Han Fei said, "Let no one leave the island when I'm not around, or you two will be punished."

Han Fei said, "Hua Meng."

The bald man cupped his hands. "Marshal Han."

Han Fei said, "Stay. I have something for you to do later."

Hua Meng was stunned for a moment, but he accepted the order without hesitation. After all, he believed that Han Fei was a real human powerhouse, and he had been awed by the power of the Heaven Enlightenment Divine Technique. The picture of Han Fei blowing up Chen Xiang was still etched in his head.

But Hua Meng didn't know that Han Fei chose him because of the Vast Ocean Navigator, not because of his own choice.

After Han Fei gave the order, he looked at everyone else. "Everyone else, move freely on the island and wait for my return."

After that, Han Fei looked at Ye Qian. "Come with me later. I want to know the environment and the situation of the front line first."

After making all the arrangements, Han Fei took Hua Meng to the side and said, "Go to the Ten Thousand Beast Island..."

...

Han Fei and Ye Qian went straight to the front line.

Ye Qian said, "Are you going to hunt Venerables?"

Han Fei smiled. "I just want to see the battlefield."

Ye Qian frowned and thought to himself, What's the use of just looking at the battlefield? Or rather, the thinking of a commander is different from ordinary people.

Thinking that Han Fei might want to observe something useful, Ye Qian didn't ask anything. Anyway, he had to keep an eye on Han Fei all the time.

After a while, when Han Fei came to the front line of the so-called Immortal City, he found that this battlefield was very different from the Life and Death Gorge.

There were only more than 200,000 kilometers of battle lines in the Life-and-Death Gorge. However, After Han Fei asked, he learned that the human battle lines here were more than 800,000 kilometers wide.

In the 800,000 kilometer front line, there were only seven islands.

However, these seven islands were clearly man-made. On each island, there were at least one or two peak-level Venerables guarding it.

Ye Qian said, "There are a total of three Half-Kings here. They are on the second, fourth, and sixth islands respectively..."

According to Ye Qian's explanation, humans used seven islands to block the territory between humans and sea demons and built the so-called land.

Between the islands, the seabed was very shallow. Obviously, these islands were specially set up, using some special terrain to separate each other.

After all, humans still liked land.. Humans were best at fighting on land. Han Fei estimated that if the terrain allowed it, humans would definitely build this 800,000-mile battle line into a complete island...
