

GOF 1641

## Chapter 1641: A Talk at the Mountain Peak

'What annoyed Han Fei most was dealing with all kinds of trivial matters... Like Xue Shengi, sitting in the Marshal's Mansion for 50 years? That was impossible for Han Fei.

For example, now that the Thousand Star City had just been conquered, Han Fei's first reaction was to find the person he trusted most to handle these things

Therefore, he came to Luo Xiaobai.

At this moment, even Luo Xiaobai's father, Luo Tianhe, retreated far away. The master of the Heavenly Sword went back to recuperate. Mu Tianfang was waiting far away for Han Fei and Luo Xiaobai to finish talking.

Seeing Luo Xiaobai, Han Fei immediately praised her. "Oh! You're a big girl now! I almost didn't recognize you."

Luo Xiaobai snorted. "Yes, you can kill a king now. Of course, you won't recognize me."

Han Fei smiled awkwardly. "No, I'm afraid that in a few more years, it'll be your turn to kill a king."

Han Fei was not kidding.

Luo Xiaobai's cultivation speed had always been the fastest among everyone. Now with the influence of the ancient seed, Luo Xiaobai's current strength had reached the realm of an advanced explorer.

Would ordinary people dare to imagine such a cultivation speed?

This was potential.

Although Old Bai and Old Jiang were not strong enough, they were from the Pure Sun Dao Palace after all.

Selected by them from the entire Yin-Yang World, how could Luo Xiaobai and the others be weak?

Han Fei said, "Okay, you know, I can fight, but I really can't clean up this mess... I have something to tell you... Hey, wait, Fatty?"

Han Fei looked back, only to see that Le Renkuang had emerged from the void more than 6,000 kilometers away.

On the other side, Zhang Xuanyu also ran to Pure Sun Island.

Lost for words, Han Fei scanned the area with his perception. "Hey, where are you two going? We're in the Heavenly Sword Sect."

Buzz!

Zhang Xuanyu and Le Renkuang were shocked.

Zhang Xuanyu asked, "Why did you go to the Heavenly Sword Sect? Wait for me. I'll be there soon."

Le Renkuang: "Wait for me..."

A smile appeared on Luo Xiaobai's cold face. In terms of feelings, even her father and brothers weren't as close to her as Han Fei and the others.

On the other hand, they grew up together and had special feelings for each other.

A moment later.

As soon as they met, Zhang Xuanyu hugged Han Fei and punched him on the shoulder. "Wow, you can kill a king now? I almost peed... Let me ask you, how do you cultivate?"

Le Renkuang was also lost for words. "You killed eleven Venerables in a row alone! To be honest, I'm too ashamed to come out now."

Zhang Xuanyu heaved a long sigh. "I tried my best, but I'm only an intermediate peak-level Explorer now. Alas... I still have a long way to go!"

Han Fei said disdainfully, "Okay, cut the crap. I have a lot of things to tell you, and I have to make it clear now."

Seeing that Han Fei was no longer joking, Luo Xiaobai said, "OK, tell us."

Le Renkuang took out an advanced explorer-level turtle, skillfully skinned it, put it into a hot pot, and began to cook it.

It was their habit to eat and chat.

Half an hour later, the four of them sat around the stove and listened to Han Fei talk nonstop.

Le Renkuang and Zhang Xuanyu exclaimed, and Luo Xiaobai's eyes flickered. Obviously, she was shocked by Han Fei's experience.

Zhang Xuanyu asked, "So, there are indeed two kings in the Water-Wood World?"

Luo Xiaobai narrowed her eyes and said, "The problem is not the two kings of the Water-Wood World. After all, one of the kings can be considered our friend, or ally. However, the sea demon king must be an enemy. What I'm more concerned about is the cage... Are there really thousands of Venerables there?"

Le Renkuang took a deep breath and said, "It's fine there are more than a thousand Venerables, but what did you just say? As many as a million explorers? Don't lie to me."

Han Fei looked at Le Renkuang with pity and said, "Well... I don't have to lie to you. I fought a battle there and deployed 300,000 explorers..."

Le Renkuang: "..."

Luo Xiaobai: "..."

Zhang Xuanyu : "..."

Zhang Xuanyu said leisurely, "What's wrong with this world? In the past, an explorer was already a top existence. But one day, you told me that there were millions of such people in this world? My young heart can't bear it!"

Luo Xiaobai said, "Actually, I had guessed it. When you mentioned the Thirty-Six Mystic Worlds, I estimated that the combat power level here should be relatively low. Such a large territory doesn't even have a king... This is a problem."

"However, we can't improve our strength as quickly as you! Even if we were given another ten years, our strength would probably only be between the peak of the Explorer level or the Half-Venerable level. The only advantage of the three of us is that we know our own path clearly. In this aspect, we've saved a lot of time."

At the mention of the road, Han Fei's expression suddenly changed. He said, "Xiaobai, let me ask you, from which generation is the Luo Family's Divine Manipulation Technique passed down?"

Luo Xiaobai didn't know why Han Fei asked this question. She shook her head and said, "Well... I've asked about it too, but no one in my family knows. I only know that this bloodline may be passed on from generation to generation. That's all I know..."

Han Fei said solemnly, "Now, you must remember what I told you."

Seeing Han Fei's serious expression, the three of them couldn't help but stop their chopsticks.

Zhang Xuanyu said, "Just tell me... Why are you so serious?"

Han Fei rolled his eyes at him and said, "There may be problems with the five major professions of human cultivators."

Luo Xiaobai asked, "What do you mean?"

Han Fei immediately explained the old turtle's theory to them.

Han Fei said that the higher-level cultivators of a Great Dao could absorb the power of lower-level ones of the same Great Dao. The five major professions were probably passed down by the ancient powerhouses to "cut the leek"! Otherwise, why were the five major professions so popular? It seemed they were really a "perfect" combination

In fact, the old turtle wasn't 100% sure about this. Needless to say, the five major professions were indeed very strong. For example, as a spirit gatherer, Han Fei embarked on the path of the Heaven Enlightenment.

The Great Dao of Heaven Enlightenment was obviously a very high-end Great Dao.

Such a Great Dao might only exist in the human race among the tens of thousands of races in the sea.

Then, if he only walked the path of the Heaven Enlightenment in the future, became a king, or even an emperor, and then met a Prime Emperor who walked the path of the Heaven Enlightenment too... and killed him... then who could he cry to?

Hearing Han Fei's analysis, Luo Xiaobai asked, "Han Fei, do you know... the realm above the king?"

Han Fei was stunned too. He didn't know what Luo Xiaobai wanted to say.

However, there was nothing to hide.

Therefore, Han Fei nodded and said, "A king establishes the sea, an emperor opens the sky, a monarch lives forever, and a god fuses with the Dao. That's all I know. However, it's hard to tell what the exact realms are."

Luo Xiaobai murmured, "A monarch lives forever, and a god fuses with the Dao? Did we guess that there was an era... called the Age of Gods?"

Han Fei nodded. "Yes. Besides, I can now tell you that this era does exist."

Luo Xiaobai was stunned for a while. "I don't think there might be a problem with the path of cultivation. Obviously, there must be human ancestors who created the five major professions. However, we know that the five major professions were born in wars. The five major professions are about

cooperation and combat. This probably means that there were five human pioneers who created the five major professions in order to resist certain forces. They needed the five major professions to nurture talents who could fight together with them."

Zhang Xuanyu said, "But that doesn't mean that those people didn't swallow... low-level cultivators!"

Luo Xiaobai nodded. "However, according to what you said, our human race has Thirty-Six Mystic Worlds. This is what we already know. The Yin-Yang World and Water-Wood World are only in the wasteland. As for the other Thirty-Six Mystic Worlds, there might be more Venerables and kings there. The

people there should have five major professions too, right? As for the Thirty-Six Mystic Worlds, according to you, they were created by the earliest people who stayed behind. Then, in this vast sea, will there still be other humans living? If there are, will there be a large number of kings, emperors, and the like? If they follow the same Great Dao and attract each other, these people will probably have long fought each other and a top powerhouse has been produced from them..."

In the end, Luo Xiaobai said, "One's Great Dao isn't fixed. At least I don't think there are so many cruel killings among people in the Sea Establishment Realm... After all, there are two kings in the Water-Wood World alone. But in order to prevent people from hunting others of the same Great Dao as them,

we can study an extra Great Dao. In this way, after we become a king, we'll still have another Great Dao... Besides, we are still far from the peak of the Venerable realm. By then, you might have already learned more information."

Han Fei thought for a moment. That was true. When he became stronger, he would know more secrets. At that time, if any reapers wanted to attack Luo Xiaobai and the others, he wouldn't just sit by. In any case, his cultivation speed was much faster than theirs.

At this moment, there were still many things waiting for Han Fei to do.

'When the mess in Yin-Yang World was mostly cleaned up, he would have to find Yin'er... At the very least, the probability of him becoming a king in Yin-Yang World was still too low.

If he wanted to become a king, he had to find Yin'er back and rewalk the reincarnation circle.

Only in this way could he unlock the river of time in the Ideal Palace and let it return to the natural timeline. Only then would the Heavenly Dao Dharma Eye disappear! Once the Heavenly Dao Dharma Eye disappeared, it would be the time for him to transcend the tribulation and become a king.

Han Fei couldn't help sighing... His path to becoming a king was really not simple!

### **Chapter 1642 Ask the Cao Family**

As they chatted at the mountain peak of the Heavenly Sword Sect, Han Fei told Luo Xiaobai and the others almost everything he knew.

These secrets, in the eyes of others, were shocking secrets... But even if they knew them, it wouldn't make much difference.

Now, even if Luo Xiaobai and the others knew these secrets, they only knew the outside world better. They would still have to rely on themselves to cultivate. No one else could help them.

However, on the other hand, they knew that there were millions of explorers in the so-called cage, which gave them a sense of urgency. How many people could they resist at their current levels?

To stand on the top of this sea, they needed to become Venerables! Only Venerables had certain life-saving abilities.

Of course, that was only relative to the ordinary creatures in the sea. If they were faced with kings, emperors, or even stronger existences, Venerables were just ants.

However, without a doubt, becoming a Venerable was a basic requirement.

The higher the realm, the fewer people there would be. Although Han Fei easily killed dozens of Venerables, it was not easy for a Venerable to die...

In the Venerable realm, they were usually evenly matched.

Taking risks in the vast sea would be easier for a Venerable to grow. At that time, you would be faced with dangers everywhere.

After dinner and wine.

Han Fei got up. "Xiaobai, I still have something to do. During this period, I need the three of you to help me handle the big clans in the Thousand Star City and plan the use of the Thousand Star Proving Ground... And preside over the construction of the teleportation array between the 36 towns and the Thousand Star City."

Luo Xiaobai nodded slightly and extended her hand.

Han Fei: "???"

Luo Xiaobai said, "I have to have a token to command your subordinates."

Han Fei slapped his thigh and scanned around with his perception, only to see that Wang Lin was recruiting a small family two islands away...

Han Fei immediately shouted, "Wang Lin, come to the Heavenly Sword Sect."

Hearing Han Fei's call, Wang Lin immediately responded and ran to the Heavenly Sword Sect.

When Wang Lin arrived, he saw that Han Fei and the other three were eating around a big hot pot.

Wang Lin bowed. The first thing he did was to hand over Han Fei's badge. Wang Lin had always been very conscious.

"Marshal Han, I'm here. What can I do for you?"

Han Fei said indifferently, "Well! You did a good job. These people are my teammates. In the days when I'm not around, take orders from Luo Xiaobai."

As Han Fei spoke, he took the badge and casually handed it to Luo Xiaobai.

Han Fei even felt that if it were Luo Xiaobai who was the supreme commander of the Scattered Stars Island, she would be much more competent than him.

Wang Lin certainly knew who Luo Xiaobai was. She was Han Fei's teammate, a genius of the Thug Academy and a Heavenly Talent of the Luo family.

Besides, Luo Xiaobai was not weak and had already reached the realm of an advanced explorer.

These three people were all at Han Fei's age. Becoming an advanced explorer at such a young age meant that she had a great potential!

Wang Lin immediately cupped his fists. "I understand. I'll listen to Miss Luo."

Luo Xiaobai said to Han Fei via voice transmission, "What did you mean when you said that you wanted to integrate the people above the Law Enforcer realm of the big clans into an army? Are you going to the Water-Wood World? Is the cage really going to collapse?"

Han Fei's heart did a flip. Luo Xiaobai was indeed smart. She knew his intentions without him saying it.

The Yin-Yang World didn't have enough combat power.

It was necessary to use the people of the big clans. The Water-Wood World only had the White Shell Royal City and the Cloud Sea Divine Tree left. In the future, there would be endless battles.

Originally, he could ignore their battle for the time being

However, the cage was brimmed with energy, which could cause problems at any time. Once the cage had a problem, could the thirty-five Venerables of the Yin-Yang World guard the Yin-Yang World?

Therefore, if anything happened, he had to be prepared in advance.

Yin-Yang World and Water-Wood World always helped each other.

Now that the Yin-Yang World's crisis was over, if he could overthrow the White Shell Royal City, the only thing he had to do was to deal with the unstable cage.

And he would help Queen Life get rid of her enemy first. Then, when the crisis came, Queen Life would help him in return. Han Fei nodded. "Yes! At least they can be counted as a combat power. We'll definitely have to fight a battle in the future. I haven't figured out how to fight it yet, but it won't be too far away."

Luo Xiaobai nodded. "Okay, understood."

The tacit understanding they had developed since childhood could save them a lot of trouble.

After giving everything here to Luo Xiaobai, Han Fei gave all his Sun-Moon Shells to Le Renkuang Han Fei only left one for himself, which contained a lot of spiritual spring, spiritual stones, demonic stones, and spiritual fruits.

After all, Le Renkuang had worked in the Logistics Division. Han Fei said, "Wang Lin, mobilize all personnel that the Logistics Division can mobilize." Wang Lin nodded. "Yes, Marshal Han."

Le Renkuang was stunned and swallowed crazily.

"Feifei! There are too many resources here!"

Han Fei patted Le Renkuang's shoulder and said, "You can keep some for yourself... But don't take too much! Too much free stuff might not be a good thing... Xiaobai, take care!"

Luo Xiaobai grunted in understanding.

Zhang Xuanyu looked at Han Fei. "Feifei! What about me?"

Han Fei said leisurely, "Xiaobai will arrange it for you. Why do you ask me?" Zhang Xuanyu : "..."

While the Thousand Star City was having a party, Han Fei had a meal and then came to the Cao family.

All this time, although Han Fei's impression of the Cao Family was not bad, it was definitely not good.

The Cao Family didn't take sides in every major event. For example, when the faceless men attacked the Thousand Star City, Old Han wanted Cao Tianzhi to take action, but this guy didn't do anything.

Han Fei could roughly understand the Cao Family.

Most of the time, by taking no sides, they could protect themselves.

However, it didn't do them any good either. You didn't have an enemy, but you didn't have any friends either.

Therefore, Han Fei wasn't kind to them.

Han Fei said, "Cao Tianzhi, come out." The Cao Family. The Venerables were waiting nervously. Han Fei's strength had been fully revealed. The combined attack of the five peak-level advanced Venerables was instantly shattered by Han Fei.

Such combat power was beyond description.

It could be said that Han Fei was invincible in the Thousand Star City at this moment.

“Patriarch...”

The Venerables’ faces darkened, and some of them sighed. They should have taken action earlier.

Cao Tianzhi’s eyes were cold.

**were**

After more than ten seconds, he sighed. “I’m going to meet this guy.” Outside the Cao Family.

Cao Tianzhi removed the family-protecting array. At this moment, Han Fei was the leader of the Thousand Star City. Since Han Fei could even kill Old Demon Chu, the Cao Family certainly wouldn’t be a problem for him.

Therefore, it didn’t matter if there was a family-protecting array or not. Seeing Cao Tianzhi, Han Fei was even more certain that the Cao Family must be related to the war giants... He was tall, brawny, and much taller than ordinary people.

Cao Tianzhi looked at Han Fei. “What brings you here, Marshal Han?”

The corners of Han Fei’s mouth curled up. “What brings me here? I should have made it clear just now... From now on, there will be no big clans in the Thousand Star City. Your Cao family is no exception.”

Cao Tianzhi narrowed his eyes. “Marshal Han, what are you going to do to the Cao Family?”

Han Fei said, “All the resources of the Cao Family are to be handed over. All Hidden Fishers and above are to assemble and wait to be deployed, including you.” Cao Tianzhi asked, “Aren’t you too aggressive, Marshal Han? The Cao Family is not the Chu Sect.”

Han Fei said, “In my eyes, your Cao family is no different from the Chu Sect. If you refuse, I don’t mind slaughtering the Cao family. To me, having a few more Venerables or a few less is no different. I can nurture Venerables, but I don’t need any disobedient family.”

Cao Tianzhi’s heart sank. Han Fei was even more domineering than Han Guanshu, Ren Tianfei, and Patriarch Thug.

Others might care about the peak combat power of the entire Thousand Star City and the human race.

However, what about Han Fei? He had no scruples at all. He was ready to kill all the time.

More importantly, Cao Tianzhi had fought Old Demon Chu.

In terms of strength, Old Demon Chu wasn’t much stronger than him. However, Old Demon Chu’s Time Technique was too disgusting and was almost impossible to break!

Now, Han Fei had broken it! Old Demon Chu was also killed.

If Han Fei wanted to destroy the Cao family, it wouldn’t be a big problem.

Cao Tianzhi took a deep breath. “Okay! It’ll be at your disposal, Marshal Han. The Cao family can hand over everything... But, can the Cao family keep a few core disciples?”

Han Fei grinned. "You mean Cao Qiu, right? Cao Qiu inherited some of the God of War's heritage, so you must want to protect him."

Seeing that Cao Tianzhi didn't speak, Han Fei snorted coldly. "Does your Cao Family know about the war giants?"

Suddenly, Cao Tianzhi's pupils were constricted. "I don't know what Marshal Han is talking about."

Han Fei chuckled. "Perhaps, your race found the place where the Giant King perished and accidentally found the news of the God of War. However, you can't contact the God of War at all... You can only hope that the bloodline works. How sad..."

Cao Tianzhi stared at Han Fei. "It seems that Marshal Han knows a lot."

Han Fei said disdainfully, "I can even tell you that the God of War hasn't died yet."

Looking at Cao Tianzhi's gradually stiff expression, Han Fei sneered. "Even I'm somewhat related to the Giant King. But my relationship with the War Giants has nothing to do with your Cao Family. Cao Qiu also needs to participate in the battle! Even I have to fight! Who do you think your Cao Family is? This matter has been decided. No one can be the exception. Just wait for someone to come and take you in."

Cao Tianzhi thought for a long time and said, "The Thousand Star City is already conquered by you. What war is still there? Why do we need so much combat power?" Han Fei smiled but didn't answer. Instead, he extended his hand and said, "Give me your Star Beads."

Cao Tianzhi: "..."

### **Chapter 1643 Nine-Star Star Beads**

Before coming, Han Fei felt that the battle between him and Old Demon Chu might not end overnight.

After all, Old Demon Chu had claimed to be a king, and he had never fought a fake king head-on.

Therefore, Han Fei didn't expect that it would be so easy to wipe out the big clans in the Thousand Star City... However, Han Fei wasn't surprised. After all, the heritage he had accumulated was enough. He earned his strength by risking his life. If it were an ordinary person, they would have been dead after experiencing the king-level tribulation twice.

Han Fei knew that his luck was indeed good. Otherwise, he didn't know how many times he would have died...

Although luck was elusive, it wasn't something he couldn't grasp at all. For example, he promised Queen Life that he would deal with the White Shell Royal City. This was his promise! If he completed it, he would get a share of luck. If he failed, he wouldn't have any luck!

When dealing with the White Armor Emperor, as long as Queen Life could hold off the White Armor Emperor, there was a high chance of victory.

Even if they couldn't kill the White Armored Emperor in the end, the White Shell Royal City wouldn't be able to resist the Cloud Sea Divine Tree in the future.

When the time came, the battle would be over. He had to find a way to quickly go to Glazed Glass World and bring back Yin'er's Yang body. With Yin and Yang combined, he could cross the cycle of reincarnation and become a king.

Unfortunately, all his plans were not as fast as changes. Han Fei didn't know that his mentality would change so much after he destroyed the big clans!

At this moment, Han Fei felt that he could break through to the peak of the Venerable realm at any time.

As soon as he reached the peak, he was only one step away from becoming a Half King.

However, he couldn't make a breakthrough yet. Besides, he had always wondered where Old Demon Chu transcended the tribulation.

Although Han Fei didn't know the origin of the fake king, he guessed that either the heavenly tribulation was suddenly interrupted or there was a lack of special power somewhere, so it produced a fake king.

The cage might be that kind of place. Then, the place where Old Demon Chu transcended his tribulation might be a place similar to the cage?

At this moment, Han Fei had three nine-star star beads, which were from Chu Sect. These Venerable-level Star Beads were very likely where Old Demon Chu successfully transcended the tribulation.

At this time, very few people came to the Thousand Star Proving Ground. After all, Han Fei had swept the Thousand Star City and caused heavy rain of blood. It was the best time to make a breakthrough.

Therefore, there were many cultivators in the Thousand Star City.

Han Fei used the Deceit Technique to change his appearance into that of a stranger and found an empty corner. Holding a nine-star star bead in one hand and the Nine Palace Luck Ruler in the other, he tested the danger of each nine-star star bead.

However, the first Star Bead showed "Ominous".

"Ominous?"

Perhaps for ordinary people, this was really a dangerous divination result, but for Han Fei, he had experienced it countless times.

The danger of this star bead was not high, and he could completely bear it.

Han Fei licked his lips and chose to enter. Han Fei didn't use the Vast Ocean Navigator to find the Star Bead where Old Demon Chu transcended the tribulation because he planned to enter every one of the star beads.

Plus the ones he got from the Cao family and the Thug Academy, he had a total of nine star beads.

Han Fei intended to go in one by one.

Buzz!

sar

After Han Fei entered the first Star Bead, he saw a large area of blue light. According to the flow speed of this light, Han Fei asked in surprise, "The river of time?" Yes, this space couldn't be scanned with perception. Han Fei didn't know how big it was. There was chaos everywhere, and only blue light could be seen.

**Se**

Han Fei could also see many rotten bones in the blue time light. Some had turned into powder, some shattered, and some were relatively new...

Han Fei sneered. "That idiot, Old Demon Chu, wants to let people step into the river of time? However, none of them can withstand the erosion of time."

As he talked, Han Fei walked forward and extended his hand wearing the Time Ring into the blue light.

However, after holding on for about ten seconds, Han Fei saw that his hand was decaying and quickly took it out.

It seemed that the Time Ring was not omnipotent!

It could only block the ordinary Great Dao of Time. If Old Demon Chu had reached the King Realm and used the Great Dao of Time... He might not be able to block it with this Time Ring alone.

Many thoughts suddenly popped up in Han Fei's mind. In fact, it wasn't that the Great Dao of Time wasn't powerful. If he didn't have the Time Ring, he might really be no match for Old Demon Chu.

Besides, even though his strength completely overwhelmed Old Demon Chu, this guy held on for a long time.

Han Fei couldn't help but think that if he could use the Time Technique, it might be a great technique even comparable to the Heaven Enlightenment Divine Technique.

While Han Fei was still immersed in his imagination, the old turtle said, "No, this is not the river of time. This is the periphery of the river of time. However, this space seems to be connected to the river of time. As a result... the flow of time here has changed."

Han Fei quickly came back to himself. "How do you judge the flow of time here?"

"Why don't you go out and have a try?"

Han Fei thought to himself, That's true!

So, he activated the Twin Divine Technique. After calculating the time, Han Fei reopened this space.

Han Fei quickly concluded, "Ten times! Ten times the speed of time here. One day here, ten days outside..."

Han Fei couldn't help taking a breath. No wonder there were so many strong masters in the Chu Sect. Was it because of this nine-star star bead?

The old turtle said, "It's very likely. The Time Technique might also be derived from this place! It's not impossible to comprehend the Time Technique staying in such a special flow of time for a long time."

Han Fei's heart did a flip. This place was actually very suitable for Zhang Xuanyu. If this guy came in, he would definitely poke Time with his spear. With his talent, maybe one day, he might be able to poke a wisp of Time away with his spear. As for Han Fei, he didn't need to study it. He could directly pass the jade stone bridge and pretend to walk on the Great Dao of Time... By cheating, he could directly turn the Great Dao of Time into one of his Great Dao.

Han Fei licked his lips. With a thought, the green jade bridge appeared.

Han Fei walked quickly to the center of the bridge and went down the steps.

Han Fei fantasized, Let me walk Old Demon Chu's Time Great Dao!

However, this time, Han Fei only walked three steps before he couldn't continue.

On the other side of the green jade bridge, the old turtle couldn't see Han Fei, so he didn't know what Han Fei was doing.

The first time, Han Fei failed.

The second time, Han Fei set his goal as being able to reverse time and return to a moment earlier. This time, when he reached the fifth floor, he couldn't hold on anymore.

The third time, Han Fei set the target as a time freeze and controlling time to accelerate and slow down.

However, this time, Han Fei walked directly to the bottom of the bridge.

From then on, Han Fei saw that the path of the Heaven Enlightenment had a faint blue halo of the Great Dao of Time.

When the green jade bridge disappeared, the old turtle asked, "What were you doing?"

Han Fei smiled casually. "To comprehend the Great Dao of Time."

The old turtle exclaimed, "Wait... can it be comprehended so easily?"

The old turtle didn't know how powerful the green jade bridge was.

Hearing what Han Fei said, he was shocked. F\*ck, there is such a heaven-defying bridge in this world?

Han Fei didn't intend to hide it from the old turtle. After all, if he needed to use the Time Technique in future battles, the old turtle would find out sooner or later that he had mastered the Great Dao of Time.

However, Han Fei didn't explain much.

It seemed that this Star Bead was just a cultivation space. The river of time couldn't be passed. After all, the corrosive power was too dangerous.

One day passed.

Han Fei grabbed the Nine Palace Luck Ruler and pointed it at the second nine-star star bead.

However, the Nine Palace Luck Ruler showed "Greatly Auspicious".

"Shoot "

Han Fei was shocked. This was the first time he had seen a “Greatly Auspicious” divination result! Could it be that the Chu Sect hadn’t discovered the secret of this Star Bead?

Delighted, Han Fei entered without hesitation.

As soon as he entered, Han Fei saw a world.

“Hiss...”

At this moment, Han Fei took a deep breath. Is this... the City of Justice?

Han Fei was shocked. Yes, this was the real City of Justice, the former Yu City. Although it wasn’t the entire City of Justice, it occupied at least 3,000 kilometers.

However, when Han Fei looked up, it was a sunny day.

Han Fei scanned around with his perception and found that there were still marine creatures in the surrounding sea.

Han Fei extended his hand and a fishing pole appeared.

Swish!

The fish hook was cast three thousand kilometers away. As soon as the fish hook was withdrawn, an Explorer-level Thunder Fire Green Shark was pulled back by Han Fei.

The Thunder Fire Green Shark was probably stunned too. I was swimming in the sea. How did I suddenly get caught?

When it saw Han Fei, the Thunder Fire Green Shark was about to attack him when it felt its soul freeze and its body suddenly straighten. Its soul was controlled.

Han Fei pointed at it and killed this unlucky Thunder Fire Green Shark. In Han Fei’s eyes, fish were for eating, so there was no reason to let it go.

When Han Fei clearly sensed that his soul power was growing, he was sure that this world was real.

Han Fei frowned. “Old Yuan, where are we now?”

The old turtle didn’t answer the question but said, “This is a real world. I sensed that there seemed to be strong masters in this city...”

“Huh?”

Han Fei scanned it with his perception. “No! The city is a mess... Alas, I failed to change the fate of this city in the end, and countless people died here.”

Han Fei could guess why some of the islands disappeared.

Back then, the City of Justice and the Grand Myriad Mountains were split by the ground veins. The Grand Myriad Mountains were split into many pieces, and a large part of them was in this star bead. And part of the city and the surrounding villages should have become the Thousand Star City!

At that time, the floating stone that Ximen Linghan obtained wasn't enough to make the entire City of Justice float. However, part of it might have been used.

Han Fei closed his eyes and compared the remaining City of Justice with the Thousand Star City. It was like a jigsaw puzzle and he instantly took a tumble!

After such a long time, although he felt that the Thousand Star City was derived from the land in the City of Justice, it was just an estimate. However, because of the vicissitudes of life, those floating islands had changed... Oh, no, the topography of the floating islands had also changed drastically because of human activities.

"Huh..."

Han Fei took a deep breath. How many Floating Stones did Ximen Linghan find to create the current Yin-Yang World? Unfortunately, she didn't succeed in the last battle, or it might have ended differently.

Thinking about it, Han Fei entered the city and went straight to the mayor's residence. The ruins and part of the broken walls had mostly turned into dust in history.

Dang! Dang! Dang! Suddenly, Han Fei saw a large number of phantoms in front of him, which looked like an army. He could even feel a murderous aura. For a moment, Han Fei understood that this was an independent time secret realm...

If so, it all made sense. If it was a time secret realm, who could say that this place wasn't real? For example, the space where Little Time lived. Who could say it was not real?

However, what puzzled Han Fei was that if this was a time secret realm, had he crossed the time line?

### **Chapter 1644 Blade of Hope**

Knowing Han Fei's confusion, the old turtle explained, "This should be a separate time fragment, which can't be compared with the real river of time. It should exist... just to preserve something." Han Fei nodded. "Also, some of the traces here were just destroyed, containing a lot of lightning power. Heh, Old Demon Chu must be transcending his tribulation here. However, there is a strong knife intent here. I don't know where it came from."

Logically speaking, Chu Sect had already obtained this Star Bead. Old Demon Chu didn't transcend the tribulation here because he didn't dare. He might have discovered that this was a time secret realm, and he didn't know the success rate of transcending the tribulation here.

Of course, from the looks of it, the result was obvious. This secret realm didn't have the conditions to make him successfully transcend the tribulation and become a king.

Han Fei grinned. "If it's just for preserving things, it's easy to find."

With that, Han Fei held the Vast Ocean Navigator and it began to spin quickly.

Buzz!

A moment later, Han Fei stood on a small island outside the City of Justice.

Here, there were also broken walls, but this place was even more dilapidated than the City of Justice.

If there were occasional walls among the ruins of the City of Justice, the walls on this island had already turned to dust. However, when Han Fei landed on this small island, his face turned livid and then slightly pale. This was because he discovered that this small island was actually the original Great Wilderness Village!

Gulp!

At this moment, Han Fei was quite complicated.

What exactly was in these nine-star star beads?

There was almost no danger in the last nine-star star bead, but it was impossible that every nine-star star bead was safe. Had the danger here been eliminated by Chu Sect?

Han Fei walked a hundred kilometers with a single step and came directly to the small courtyard where he used to live. There, he had left a stone monument. However, Han Fei's perception scanned the place several times and only found some remnants of arrays.

**ev**

There was nothing else!

Next door was the small courtyard where Ximen Linglan used to live. Han Fei scanned it many times with his perception, but still found nothing

Han Fei frowned slightly. He was about to take out the Vast Ocean Navigator when he suddenly appeared on the reef.

Although the reef was no longer a reef, most of the reefs had been exposed when the seawater receded.

However, there were still reefs everywhere.

Han Fei was very familiar with this place. Even the location of some reefs hadn't changed.

Han Fei scanned the place with his perception. Although he didn't find anything, he found a large, flat slab. Han Fei grabbed and lifted the stone slab.

There was a bone in the stone slab... a rib.

Who would take such a thing? Even Old Demon Chu and the others wouldn't have any interest in a bone buried on the shore!

Han Fei, on the other hand, frowned. His hands were shaking. When he grabbed the ribs, he suddenly turned around.

Two black lights shot at him from the City of Justice.

Han Fei was about to attack, but the two black lights stopped half a meter away from him.

Han Fei only made a move, but he immediately realized that something was wrong. He recognized the two black beams. "Blade of Vengeance?"

Han Fei was shocked.

This was Ximen Linglan's Law Enforcement Blade, an extremely rare weapon-type law enforcement ability. Han Fei took a step forward and arrived at the City of Justice in the blink of an eye.

Han Fei shouted, "Ximen Linglan, Linglan..."

Swish ~

The Blade of Vengeance followed Han Fei to the City of Justice.

At this time, the old turtle said, "The source of the danger I sensed was these two knives. However, there seems to be no one here."

Frowning, Han Fei looked down at the Blade of Vengeance and touched it.

Logically speaking, the double knives were the law enforcement ability of Ximen Linglan. How could they exist alone?

The moment Han Fei touched them...

With a clang, the two sabers collided. The black weapon was fading, turning from black to silver.

At this moment, information popped up in Han Fei's eyes.

< Name > Blade of Hope

< Introduction > It's a Great Dao spiritual treasure. Someone sacrificed her life for the knives and was willing to become the knife spirit. It's a human sacred weapon polished by time. Holding the Blade of Hope can enhance one's luck. Nurtured with hope, this blade can enter the Primordial Chaos.

< Quality > Unknown

< Recastable >

< Unrefined >

< Remark 1 > As long as there is hope, the blade won't be destroyed < Remark 2 > The Blade of Hope is looking for its owner over the long river of time.

Han Fei took a deep breath. When he saw the Blade of Hope, he couldn't help but tremble.

He remembered that on the day the City of Justice was destroyed, Ximen Linglan must be fighting sea demon Venerables.

She fought three Venerables alone and lost in the end.

However, no one saw where Ximen Linglan died.

Therefore, if he hadn't experienced the War Soul Realm, he wouldn't know.

Ximen Linglan probably knew that she couldn't cross the river of time before she died! Therefore, she chose to sacrifice herself for the knives and put her hope in the Blade of Vengeance.

She hoped to use this to cross the river of time... Because the Blade of Hope was essentially invisible. It was a law of the Great Dao, a power of the Great Dao.

Therefore, it was indeed possible for Ximen Linglan to do this.

Han Fei's hands trembled slightly...

So, this Blade of Hope was Ximen Linglan?

Han Fei's hands touched the blades. As if they were melted, the Blade of Hope naturally flowed into Han Fei's body, and a scimitar tattoo appeared on each of Han Fei's wrists.

The old turtle asked in surprise, "It acknowledged you as its master? Isn't it too easy to do that? It didn't even suck your blood!"

Han Fei ignored the old turtle. What does this guy know?

Han Fei smiled bitterly. With a thought, the Blade of Hope appeared in his hands again. Although they were invisible, they felt warm in his hands.

Ximen Linglan sacrificed herself for the knives and turned them into the Blade of Hope.

Han Fei felt extremely complicated.

After reading the introduction and quality of the Blade of Hope, Han Fei asked, "Old Yuan, what is Primordial Chaos?"

The old turtle was stunned for a long time. "Primordial Chaos?"

The old turtle asked in surprise, "Where did you hear this word? These knives?"

Han Fei asked, "What's the problem?"

The old turtle said, "I don't know, but it should be impossible. I only saw an explanation in an ancient book. Primordial Chaos is a mysterious world that was created even before the existence of this universe. It's an era that existed even longer than the primordial age. It can't even be called an era, because it doesn't have the concept of time and space... Maybe it can only be called an existence."

Although the old turtle didn't say anything, Han Fei already knew how extraordinary the Blade of Hope was. It was an indestructible knife!

As long as there was hope, the double knives would be there.

Even the Demon Purification Pot couldn't tell its quality. It meant that the Blade of Hope's level had surpassed the concept of a human sacred weapon or a Sea Quelling Bizarre Treasure, and it had reached a level that even the Demon Purification Pot couldn't confirm.

This was probably why the Nine Palace Luck Ruler showed "Greatly Auspicious".

However, Han Fei was not very happy.

As if thinking of something, Han Fei suddenly summoned the Vast Ocean Navigator and asked, Is Ximen Linglan's soul body still hidden in the Blade of Hope?

However, Han Fei was greatly disappointed. The Vast Ocean Navigator didn't spin at all.

Han Fei took a deep breath and asked the Vast Ocean Navigator again, "Is Ximen Linglan in this nine-star star bead?" But the Vast Ocean Navigator still didn't spin.

At this point, he had used up the number of times he could use the Vast Ocean Navigator today.

The Blade of Hope was his greatest opportunity and others' greatest danger.

Han Fei thought that if it were someone else, the result might be completely different.

He had lived with Ximen Linglan for so long. Except for him, no one else had ever touched the Blade of Vengeance.

Han Fei threw this nine-star star bead into Forge the Universe and put it away. This time secret realm would never appear in the world again.

Although he didn't want to admit it, Han Fei couldn't find any reason why Ximen Linglan was still alive!

"Heh, time..."

After a long silence, Han Fei suddenly took a deep breath. The Great Dao of Time was indeed terrifying! He wondered... If he reached the peak of the Great Dao of Time, would he be able to enter the river of time, break the rules of the Great Dao, and change fate? Unfortunately, this was not what he could imagine. Without the Time Dragon Carp and the Time Ring, he might not even be able to defeat Old Chu!

Fortunately, Han Fei met Old Demon Chu now and realized the horror of the Great Dao of Time.

Only by walking on this Great Dao could he avoid being tricked by others in future battles...

Sitting cross-legged in the City of Justice for a day, Han Fei gathered his thoughts and left the world of this star bead.

For Han Fei, he still had a lot of things to do. Being immersed in the memories of the past would only make him weak.

Recalling his thoughts, Han Fei opened the third nine-star star bead.

As for this one, the Nine Palace Luck Ruler's divination directly showed the "Greatly Ominous" divination result. Furthermore, this marker seemed to be a little unstable, shaking slightly towards the "Impasse".

Seeing this scene, Han Fei threw out a stream of Chaotic Qi.

Seeing that it didn't work, Han Fei threw six streams of Chaotic Qi in a row, turning the "Greatly Ominous" into the "Ominous".

Han Fei couldn't help but smile. As expected of the Nine Palace Luck Ruler. This ability to change one's luck was really remarkable!

When the divination result showed "Ominous", Han Fei stepped into the world of the star bead without hesitation.

Buzz!

As soon as Han Fei entered this space, he felt infinite murderous aura.

The deathly aura here was thick, and the pressure in the air shocked Han Fei.

Han Fei exclaimed, "What a terrifying suppressing pressure!"

### **Chapter 1645: Corpse Nurturing Ground**

For the first two nine-star star beads, one was not dangerous in itself, and the other was not dangerous for him...

At this moment, Han Fei knew that it was extremely dangerous.

When Han Fei took a closer look, he found that it was a wasteland that had been destroyed by the flames of war. There was no sky in this wasteland, but the entire space was dark red and extremely hot.

This place was quite big!

Unfortunately, his perception was limited.

Han Fei's perception range had been greatly reduced. He could only perceive that this world was more than 300 kilometers high and unknown.

It seemed to be another strange world.

And this was not what shocked Han Fei the most.

'What shocked Han Fei was that the energy and spiritual energy in this world were so abundant that the spiritual energy here was as viscous as wisps of silk and the energy was overwhelming.

Bang!

Han Fei landed on this piece of land and looked down, only to discover, to his shock, that he was standing in a pool of Spirit Awakening Fluid.

"Shoot! What kind of place is this?"

The old turtle said leisurely, 'I'm afraid you're in trouble.'

"Huh?"

The old turtle said, "This is a Corpse Nurturing Ground, a perfect Corpse Nurturing Ground where energy, spiritual energy, and Spirit Awakening Fluid gather. This shows that a king must have died here a long time ago. However, the time and space here are clearly limited. If so much energy and spiritual energy keeps flowing in, this space will definitely be unstable and explode someday. Then, why hasn't it exploded yet?"

Han Fei frowned. "Someone is cultivating here."

‘The old turtle: “But there is a lot of death aura and decay energy here besides energy, spiritual energy, and Spirit Awakening Fluid?”

Han Fei’s face changed slightly. “Corpse Nurturing Ground?”

The old turtle said, “Is there any Corpse Nurturing Ground in your Yin-Yang World?”

“Shoot...”

Han Fei shivered. “Under the Steps into the Sea.”

At this moment, Han Fei knew where he was.

‘At this moment, he was under the Steps into the Sea, where the so-called corpse puppets were raised.

When he was at the peak of the junior Venerable, he had been here. At that time, he measured it with the Nine Palace Luck Ruler, which was the first time Han Fei encountered an “Impasse”.

At that time, Han Fei gave up this place, thinking that he was probably not strong enough to solve the danger under the Steps into the Sea.

Even though he had reached the peak of the advanced Venerable realm, it still showed the “Greatly Ominous” when measured with the Nine Mansions Luck Ruler. This meant that the strength of the corpse puppets here was at least in the fake king realm.

With his current strength, as long as it wasn’t a top-level danger like transcending the king-level tribulation, he shouldn’t encounter any “Impasse” divination result.

But this divination result shook between “Greatly Ominous’ and “Impasse”. This meant that the corpse was at least in the fake king realm.

Dong!

Suddenly, Han Fei felt that something stepped on the ground a hundred kilometers away.

In the next moment, Han Fei saw a corpse puppet extending its claws at him.

“F\*ck!”

“Sacrificing Punch.”

Without hesitation, Han Fei turned around and punched.

Because there was too much energy in this space, the void energy followed the Sacrificing Punch and bombarded it.

Bang!

‘The corpse puppet was blown back more than ten meters by Han Fei. However, it didn’t slow down and reached Han Fei in the next second.

“What a strong body.”

Han Fei had no time to be shocked, because the corpse puppet was slapping at him.

Boom!

Han Fei felt that he seemed to be hit by a sledgehammer and was knocked back a kilometer.

At this moment, Han Fei finally saw the corpse clearly.

To Han Fei's surprise, the corpse didn't look rotten at all. Instead, it looked like an evil playboy and could even be said to be handsome.

His face was well-defined, his eyes were beautiful, and his pupils were bright and shining.

It clearly had a soul...

Buzz!

While retreating, Han Fei activated the power of the Great Dao and managed to stabilize himself.

At this moment, Han Fei looked down at his arm that was covered in blood and looked awful. It was just one attack!

Han Fei had already concluded that this guy's strength was the strongest among all the people he had met. The power of this blow had even exceeded the power of Old Demon Chu.

"Son of a b\*tch, this guy's body seems to be no weaker than mine."

As he spoke, the corpse charged at him again.

Han Fei didn't dodge but punched a thousand times head-on.

This was a real melee battle where the braver one would win! This was the first freak who could fight him head-on in terms of physique.

Bang! Bang! Bang!

Bam! Bam! Bam!

The two fought for three seconds, and Han Fei felt that his flesh had been shattered. Although this corpse puppet had been forced to retreat eight hundred kilometers, the strength of its body was almost about the same as his.

Han Fei said, "This guy's strength exceeds 30,000 waves. His body is very strong, and his bones are no weaker than mine. However, he is also absorbing energy. This shows that I might still be able to defeat him."

The old turtle said, "Imagine what would happen if you cultivated for tens of thousands of years in such an environment?"

Han Fei's heart sank. "Tens of thousands of years? I can't imagine, but at least ... it would be as easy as a breeze for me to transcend the heavenly tribulation."

The old turtle continued, "You might not be able to beat him. Although you can suppress him now, that's because you've used the power of the Great Dao. However, you can't maintain this combat power forever. Once your time is up, who do you think will be beaten up?"

Han Fei's face sank, and he roared and cut the void with his knife, trying to cut the corpse into pieces with the power of space.

However, the corpse clasped its hands and shattered the space with its sharp claws.

"F\*ck!"

Han Fei was shocked. "This guy can even shatter space?"

'The old turtle said, "You can use a space crack as a weapon! It's just the same... It can only mean that your understanding of space is not strong enough."

'The old turtle said, "This won't do. The energy and spiritual energy here are endless. He can keep fighting. You have to see if he has a soul."

Han Fei took a step back.

He instantly grabbed the Embroidery Needle and activated the Knock on the Heavenly Gate, creating a cylindrical energy vortex.

Boom ~

At the same time, Han Fei launched the Heavenly God Stab.

Boom!

However, this corpse seemed to be very sensitive to this kind of attack and actually detonated its soul in advance.

Roar!

'The Hundred Beast Soul Devouring roared, but the corpse's eyes were shining with a strange light, and a layer of light burst out of its eyes, blocking Han Fei's Hundred Beast Soul Devouring Roar.

At that moment, the corpse chuckled. "Finally, someone is here again? I've been starving for a long time... You're very strong. You're the strongest person I've ever met. However, you're still not strong enough even though you used the power of the Great Dao."

Han Fei's eyes turned cold. "You can talk? You seem quite smart."

The corpse stood still and said leisurely, "I'm flattered. My intelligence was awakened early. When the first person came in, I learned the knowledge of you humans from him. I knew that I was a corpse, being raised here.."

A muffled roar came from the corpse's throat. "Why.. do I have to be kept here? Trapped here for endless years? Human, if you can take me out, I won't kill you.

The old turtle said, "Don't believe him. If he could get out, he would have done so long ago. He won't tell you until you come... This means that he can't go out through the Star Bead."

Han Fei responded, "Of course I know. I even know.. he can actually go out! As long as he possesses the soul of the Chu Sect people who came in the past, it's easy for him to go out. However, he can't bear to abandon his own body. This corpse puppet body is undoubtedly the strongest in the Yin-Yang World!

It's even comparable to mine now."

'The old turtle: "His bones are not as strong as your Indestructible Body."

Han Fei rolled his eyes. But my strength is not enough! If I can break through to the peak of the Venerable realm and increase my strength, it will definitely be much better than now.

Han Fei roared, "A corpse puppet is a corpse puppet. You want to go out? In your dreams."

"Supreme Yin-Yang Wheel."

Han Fei certainly wouldn't let this guy go. However, he couldn't wait too long. He had to quickly find a way to kill this guy.

Splash!

Seeing that Han Fei was ignoring him, the corpse puppet was pissed, but when he saw the Yin-Yang Diagram directly appeared in front of him ignoring the space, he was horrified.

"Roar! Why do I have to be trapped here..."

Chi la!

Knock, knock, knock!

Infinite murderous aura and death aura gathered and blocked in front of the corpse, forming a stalemate with the Supreme Yin-Yang Wheel.

"Hahaha... Do you think I didn't do anything? Although this world is a cage, it has long fused with me. This world is me, and I am this world."

In the outside world.

'The Steps into the Sea in the level-three fishery.

Countless people scrambled out of the Steps into the Sea.

Knock, knock, knock!

'Waves of oscillating sounds spread out from around the Steps into the Sea.

"Puff ~"

Many people vomited blood, flustered by the noise.

Most people took their fishing boats to the sky.

Someone asked, "What's wrong with the Steps into the Sea? Did something happen there?"

Someone shouted, "Everybody, leave! Something is wrong with the Steps into the Sea again."

An old man roared, "The Steps into the Sea are unstable. Don't search for treasures anymore."

Toot...

Suddenly, on the surface of the sea, there were howls.

Someone exclaimed, "The Evil Shield is here! Something big is going to happen here. Everybody, retreat!"

On the ghost ship, Li Daxian frowned and said, "The problem with the Steps into the Sea? Are you sure it's your son? When did he go down to this place?"

'The elegant man next to Li Daxian was certainly Han Guanshu.

He said, "There are only a few secrets of the Yin-Yang World. It's not a surprise. He'll meet them sooner or later."

Han Guanshu said with a smile, "There will be no more place in the Yin-Yang World that can stop him after he passes the Corpse Nurturing Ground."

### **Chapter 1646: Death of the Corpse Puppet**

Under the Steps into the Sea, in the Corpse Nurturing Ground.

Han Fei discovered, to his disappointment, that the battle here was quite disadvantageous to him. Perhaps because the corpse puppets had been cultivating for too long, he could freely control the deathly aura and the boundless murderous aura in this place.

Although the Supreme Yin-Yang Wheel was extremely powerful, it was only the power of Han Fei alone and couldn't resist this small world.

Buzz!

The collapse of the Supreme Yin-Yang Wheel made Han Fei's heart sink.

"Heaven Enlightenment Divine Technique."

Swish ~

When a white light shone and the black smoke dispersed, Han Fei was quite gratified. It seemed that the Great Dao of Heaven Enlightenment was stronger than the Supreme Yin-Yang Wheel when dealing with evil things.

Roar!

Enshrouded by the pillar of light, the corpse puppet wailed in pain as if it had suffered tremendous pain.

However, this pain only lasted for about ten seconds before the corpse puppet broke free from the restraints of the Heaven Enlightenment Divine Technique.

The old turtle said, "Corpse puppets are not undead creatures, so your purification is not very effective. You just purified the death energy he swallowed."

Han Fei rolled his eyes and changed his Great Dao again. This time, Han Fei used the Great Dao of Time that he had just obtained.

The next moment, the two began to fight crazily.

This time, Han Fei's every punch could slow down the speed of the corpse with the Great Dao of Time.

Bang! Bang! Bang!

Crack! Crack! Crack!

After more than twenty seconds, Han Fei almost used all his strength.

Han Fei had already heard that the corpse puppet's bones... were broken in more than one place. Its flesh and blood had been smashed to smithereens in many places. It was like a pile of human-shaped rotten flesh.

However, after twenty seconds, Han Fei's face changed drastically. Not good! The time for his Great Dao was up. And he couldn't hold on anymore!

Taking advantage of the last moment, Han Fei retreated quickly, setting up arrays.

Boom ~

One array after another quickly appeared. In the blink of an eye, hundreds of arrays appeared, enveloping Han Fei.

"Huff!"

Han Fei set up arrays in a row and launched another round of attacks without any time to catch his breath. He planned to exhaust the corpse puppet like this until he could use the power of the Great Dao again.

However, in the next moment, Han Fei felt terrible. The corpse slowly got up, and endless black fog, energy, and spiritual energy were surging into his body.

Ka ka ka!

Click, click.

With a series of cracking sounds, the corpse puppet's body quickly recovered.

This scene made Han Fei's blood freeze.

He failed to kill his opponent in this round of attacks and ended up like this. Once this corpse puppet held on until the end of this round of attacks, he could use the power of the Corpse Nurturing Ground to quickly recover his strength.

In the end, the corpse's body was too strong. Otherwise, he would have died under Han Fei's indiscriminate attacks.

'When the corpse puppets recovered, Han Fei had set up three thousand arrays, including defense arrays, maze arrays, and killing arrays.

The corpse swallowed a large amount of energy and said angrily, "Human, you pissed me off."

At this point, Han Fei couldn't help sneering, "Sooner or later, I'll beat the hell out of you."

Seeing the corpse puppets rush into the array and blow up one array after another, Han Fei took a deep breath.

Three seconds later, seeing that only one third of the array was destroyed, Han Fei smiled and disappeared.

Considering the recovery time in Forge the Universe, he could come out and fight again after only one day in the outside world. On average, it wouldn't even take him an hour to fully recover.

Upon entering Forge the Universe, Han Fei was lost for words. "Old Yuan, if a corpse puppet can be nurtured to be so powerful with time, couldn't most people become so strong as long as they had enough time?"

The old turtle said, "Do you remember what I told you... some old farts re-cultivate a stronger body for themselves to facilitate their possession or reincarnation? However, it's not like what you said. Except for some races, the lifespan of the Venerable realm is limited. How many people can cultivate into this realm in such a limited time? Besides, it's difficult to find a corpse nurturing ground. Even if there is a corpse nurturing ground, it might not be able to nurture many powerful corpse puppets in thousands of years... However, the one you meet now has been here for countless years. He certainly should be very strong!

Han Fei curled his lips. "His body is indeed strong. Just now, I felt that my skin and flesh had been tempered. It seems that this kind of head-on clash, coupled with the recovery power of my body, strengthened my flesh and blood... Well, maybe the accumulated energy was slowly absorbed by my body!

This feeling was not very obvious when I didn't meet a strong opponent, but now that we're evenly matched, this kind of hand-to-hand combat is a good opportunity to temper my body, but I wonder how much it can be tempered?"

The old turtle said, "It's true that the energy you accumulated wasn't fully digested by your flesh and blood... But I estimate that it can at most increase your strength by one or two tenths."

Han Fei licked the corner of his mouth and said, "It's okay. It's rare that it can be improved even by 10%..."

'When Han Fei appeared for the second time, he quickly adjusted his combat style. Han Fei used the Great Dao of Time as a backup and fought the corpse with his physique first.

If he fought with his body, he would be beaten too.

'The recovery ability and the toughness of Han Fei's flesh and blood were both extraordinary. Although he hadn't made a breakthrough yet, his strength had increased greatly.

To be honest, this was digging out potential. In every realm, one had to dig their potential to the extreme! In that case, every breakthrough would bring the highest improvement.

'The corpse thought that Han Fei had escaped, but Han Fei appeared again? This made him furious.

In the end, he was just a corpse puppet.

Although he had learned human language and information about the outside world from human beings, a corpse puppet was still a corpse puppet who was easily irritable.

Han Fei shouted, "Come on, let's fight another 3,000 rounds."

Bang! Bang! Bang!

This time, Han Fei didn't use the power of his Great Dao but fought the corpse puppet with his most basic strength. This resulted in Han Fei's comprehensive strength being several times weaker than the corpse!

With a series of bangs, Han Fei was beaten up by the corpse puppet.

The corpse puppet was surprised. "Your strength has weakened? It seems that you can't use your so-called Great Dao again!"

Han Fei didn't answer. He was beaten by him because he wanted to tap into the potential of his body through the attacks of the corpse puppet. Of course, this was only one of the reasons. On the other hand, the corpse puppet had consumed so much. It would be his turn to attack soon!

After being bombarded for more than three hundred seconds, the Corpse Nurturing Ground had been reduced to ruins.

The corpse puppet was shocked. Why is this guy's body sturdier than mine?

He had felt Han Fei's power. When Han Fei went all out, the power was so terrifying that he couldn't fight back at all.

Fortunately, the Corpse Nurturing Ground ground could continuously provide him with strength.

Therefore, as long as he was in this corpse nurturing ground, he was almost immortal.

But now, after beating this guy with all his strength for more than 300 seconds, he still failed to crush this guy? Why?

Han Fei, on the other hand, was chatting with the old turtle. "Old Yuan, I think the Nine Palace Luck Ruler can be wrong sometimes... Although this corpse is indeed powerful and almost invincible, it's not at the level of being 'Greatly Ominous'! Because he can't kill me. If it were me, I would at most give him an "Ominous" evaluation."

'The old turtle said, "This can't be called 'Greatly Ominous'?! Then why don't you let it out?"

Han Fei rolled his eyes. Let it out? I'm not out of my mind, OK? If I release this kind of thing, wouldn't it cause disasters?

"Roar... Who are you? Why didn't you fight back?"

Han Fei sneered. "It's none of your business. Why don't you let me hit you without fighting back?"

At this moment, Han Fei's face was swollen and bruised, but he was still very arrogant.

After half an hour, the corpse's power was exhausted.

With a thought, Han Fei activated the Art of Invincibility and punched out.

If the corpse puppet had human beings' complicated feelings, he must have been devastated.

When I hit you, you didn't fight back. Now that my strength has weakened, you're fighting back? Are you a masochist?

The two fought fiercely.

Half an hour later, Han Fei's flesh and blood had been smashed hundreds of thousands of times by the corpse puppet. At this time, Han Fei used all his strength to blow the corpse back.

Then, he set up an array and entered Forge the Universe again.

Seeing Han Fei leave, the corpse puppet let out a long breath, thinking, This guy is finally gone. I just hope he doesn't come again.

Even though he was just a corpse, he felt tired.

However, after only half an hour, the void vibrated, and Han Fei reappeared in the corpse nurturing ground

The corpse puppet: "..."

'One day.

Three days passed.

Half a month.

Yes, it only took half a month. Except for the time when Han Fei entered Forge the Universe to rest, the corpse had been fighting.

The corpse also discovered that Han Fei seemed to have never left. He just hid in a place that he couldn't find.

In the past half month, no matter how stupid the corpse was, it knew that Han Fei regarded him as a sparring partner.

However, he had to fight because he couldn't give Han Fei a chance.

If Han Fei was given a chance, he might really be killed under Han Fei's violent bombardment!

On this day.

Han Fei reappeared, and the corpse was already waiting. It didn't even want to launch a sneak attack.

However, unlike before, Han Fei said, "Twenty percent! Because of you, my flesh and blood hardness has increased by twenty percent. Unfortunately, this is the limit of your strength. Now, I can only send you to hell."

The corpse puppet roared, "Human, if I don't die, I will tear you into pieces one day."

Han Fei sneered. "You're dead meat."

This time, Han Fei still didn't use the power of the Great Dao. He jumped forward and fought the corpse for more than 300 seconds. When he was blasted to smithereens, a holy pillar of light descended.

At that moment, Han Fei quickly returned to his peak state. He stomped and activated the power of his Great Dao, and a terrifying aura suddenly emerged.

And around Han Fei, the Ancient Desolate War Body erupted.

Bang! Bang! Bang!

This time, Han Fei's strength was slightly improved, but not much.

The corpse roared, "You can't kill me. Your realm is not enough."

But in the next moment, blue light circulated in Han Fei's hand.

The corpse puppet discovered that its power was melting...its own body under this strange power. Every time it fought Han Fei, its body seemed to be collapsing.

"Roar!"

Han Fei jumped up and attacked with all his strength for a hundred seconds. The impact was so powerful that even the seabed was shaking.

'When the corpse puppet couldn't fight back, Han Fei's Time Great Dao circled the surrounding space.

Han Fei activated the Hundred Beast Soul Devouring, Knock on the Heavenly Gate and the Heavenly God Stab at the same time.

Although a tremendous amount of energy attempted to pour into the corpse, under Han Fei's time barrier, its speed slowed down.

At this moment, the Void Lines were launched, and the Monkey King's Three Thousand Rods were launched.

After a thousand blows, although the corpse didn't completely collapse... Its soul had almost been obliterated by Han Fei.

However, just as Han Fei was about to kill the corpse puppet, he suddenly heard the dry voice of the Emperor Sparrow in his mind.

"Lwant to go out.."

### **Chapter 1647: Emperor Sparrow Transcend the Tribulation**

Since Emperor Sparrow grew up a little, he had been very lazy but also very proud.

In Forge the Universe, the Emperor Sparrow liked being with Little Black and Little White, but didn't like Nine Tails and the others.

'The Emperor Sparrow had never taken the initiative to talk to him before.

Boom ~

Han Fei blocked the energy and spiritual energy around the corpse puppet, and then released the Emperor Sparrow.

Han Fei had always felt that the Emperor Sparrow despised him

He wondered if it was his illusion.

At this moment, as soon as the Emperor Sparrow came out, he raised his head high and let out a cry towards the sky.

Whoosh!

As soon as the Emperor Sparrow spread his wings, the murderous aura in this space suddenly surged and crazily drilled into the Emperor Sparrow's body. The scene was like with the Emperor Sparrow as the center, there were wisps of blood floating in the sky.

In the bottom of his heart, the old turtle said, "The Emperor Sparrow is a great fierce beast from the Primordial Age. This kind of land full of blood and murderous aura can definitely temper his body and make him grow."

Han Fei understood what the old turtle meant. The power here was like the Emperor Sparrow's exclusive food. When the corpse puppet was still around, the Emperor Sparrow, who was only a peak-level Hidden Fisher, certainly dared not come out.

But at this moment, the corpse puppet was almost disabled by Han Fei.

Therefore, the Emperor Sparrow proudly came out to eat.

Han Fei remembered that the Emperor Sparrow had been stuck at this level for a long time.

Earlier, Han Fei had guessed that maybe it was because the Emperor Sparrow grew too fast in the beginning, which caused him to be stuck at the peak of the Hidden Fisher level and had to be digested slowly

Now, it seemed that he had met his favorite food. He wondered if this would trigger his evolution.

However, after only half an hour, with a crack, the Emperor Sparrow was making a breakthrough.

Han Fei was not surprised at this scene. The growth of the Emperor Sparrow was much faster than all his other contractual spiritual beasts, even Little Black and Little White.

However, the breakthrough wasn't over yet.

After half an hour, there was another crack.

An hour later, there was another crack.

An hour later, there was another click.

Then, four hours, three hours, half a day.

During this period, Han Fei had been guarding this world, and the more he watched, the more shocked he became.

The growth of the Emperor Sparrow was simply unbelievable! It seemed to be as easy as pie to him... In just nine days, it had reached level-69.

However, up to level-69, Han Fei didn't see any abilities that the Emperor Sparrow had acquired. It seemed that only his levels had increased

On the tenth day, Han Fei felt that the murderous aura on the Emperor Sparrow was getting more and more intense. It was so intense that it was about to erupt... Then with a click.

Han Fei suspected that like Little Black and Little White, this Emperor Sparrow didn't need to transcend the tribulation and was about to directly become an Explorer.

Right then, suddenly, a thousand kilometers away, a boulder cracked.

Ka ka ka ~

Han Fei came here in a few steps and found that it was not a boulder but a small mountain under a boulder.

'The murderous aura here was even more intense. A large number of red threads spread out from the cracks.

Boom!

In less than a hundred seconds, the small mountain collapsed.

Han Fei was shocked to find that the mountain was empty.

Under the mountain was a dark cave, just like the big hole in the Transverse Mountain.

Not only did Han Fei see a lot of murderous threads overflowing from the hole... Spirit Awakening Fluid was also slowly flowing out.

Han Fei could sense a deep fear in it.

Han Fei immediately took out the Nine Palace Luck Ruler that didn't even spin before the marker fell on the "Impassable" sign.

Han Fei's eyelids twitched. That's unbelievable!

For a moment, Han Fei didn't dare to rush into this exploration ground.

Although he had survived two "Impasse" situations... this didn't mean that the "Impasse" situation wasn't dangerous. On the contrary, every time, Han Fei had a narrow escape.

Even though Han Fei forcibly changed his luck, he still almost died.

This time, Han Fei certainly wouldn't rush in recklessly.

The old turtle said, "I can't sense what's down here either. However, the pressure here is so powerful that even I'm scared. You'd better not barge in."

Han Fei nodded slightly.

Now that he had taken over the Thousand Star City, he had a clear plan to become a king, which might not be difficult, so he didn't have to get involved in an "Impasse" situation again

"Ah

Just as Han Fei decided not to go into this cave, he heard the Emperor Sparrow cry.

Immediately afterward, Han Fei heard the Emperor Sparrow say, "I want to eat this person's soul."

Han Fei was shocked. Can you eat it? It's a fake king!

Swish!

Han Fei stepped back and saw that the Emperor Sparrow seemed to wake up from his breakthrough.

Han Fei was lost for words. "Are you sure you can eat the soul of this fake king?"

The Emperor Sparrow: "If you kill him, I can eat his soul!"

Han Fei:

Come on, the Emperor Sparrow had begged him... After all, this was his own bird!

Han Fei muttered in his heart, This is my bird. Don't be angry! Don't be mad at him!

The corpse puppet had been sealed by Han Fei. Because its energy was exhausted, it was still half dead... Neither its body nor its soul could recover.

After all, Han Fei had tied it up with arrays. It couldn't even mobilize the power around it

Han Fei entered the array and went up to bombard it. After beating it for half an hour, he finally killed the corpse puppet.

Boom!

In the outside world, the Great Dao crack appeared in the sky again. It abruptly appeared, catching people off guard.

On the ghost ship, Li Daxian's face changed and he looked at Han Guanshu.

As for Han Guanshu, he was calculating with his fingers. Then, the corners of his mouth curled up slightly. "It's resolved. It seems that the corpse puppet was nurtured for too long! It took almost months before it was completely killed."

Li Daxian squinted at Han Guanshu. Are you kidding me? You're bragging about your son! Damn it, why didn't I have a son?

However, although Han Guanshu and the others knew what happened, the people on the Scattered Stars Island and in the 36 towns and the Thousand Star City didn't.

This corpse puppet had intelligence after all.

In terms of strength, it was already as strong as a fake king. In fact, it was much stronger than ordinary fake kings. Its death caused a greater uproar even than the death of Old Demon Chu

On the Scattered Stars Island, in the Thousand Star City, in the 36 towns, countless people looked up at the sky, stunned.

Someone exclaimed, "Another Venerable died? Who is it this time?"

Someone was surprised. "The death of this Venerable must be related to Marshal Han. Where did he go?"

Someone exclaimed, "Marshal Han is truly powerful! It's like a breeze to him to kill a Venerable. Judging from the Great Dao crack, the person who just died must not be ordinary."

None of them thought that the one who died... would be Han Fei.

After all, the power that Han Fei showed was too strong. He single-handedly destroyed the Thousand Star City! They didn't think anyone could kill him.

Han Fei knew this too. He had to get out of here as soon as possible! Otherwise, people might really think that he died. Some big clans who wanted to rebuild their families might do something!

At this moment, Han Fei felt that his power of faith was growing again.

Han Fei couldn't help being dumbfounded. You can't even see me, but you're giving me so much power of faith?

As for the Emperor Sparrow, he opened his mouth like a vortex, absorbing a large amount of murderous aura and some souls that should have dissipated.

Han Fei saw that the body of the Emperor Sparrow was slowly expanding at a visible speed. Every feather of his was glittering.

It wasn't until he puffed himself up into a big fat bird like a ball that Han Fei realized how similar the Emperor Sparrow was to how he used to be.

His body had reached its limit, and his realm was stuck! He was clearly about to make a breakthrough again.

Han Fei immediately said, "Enter Forge the Universe first. I'll take you out to transcend the tribulation."

Han Fei confirmed that, unlike Little Black and Little White, the Emperor Sparrow needed to transcend the tribulation.

This time, the Emperor Sparrow didn't refuse but flew into the middle of Han Fei's eyebrows.

Han Fei glanced at the corpse puppet's body that was almost crushed, grabbed it, and threw it into Forge the Universe. Only then did Han Fei leave the Corpse Nurturing Ground.

Han Fei, who appeared in the Thousand Star Proving Ground, found that there were more people around.

However, Han Fei couldn't care less. His figure flashed and disappeared. In a moment, he appeared in front of the Monument of Gods.

This time, Han Fei already knew the way to the Central Holy City without using the Vast Ocean Navigator. Therefore, Han Fei's action this time was extremely fast.

After only half an hour, Han Fei reappeared in the Central Holy City.

'When the Monument of Gods shook and Han Fei appeared, Ren Tianfei appeared too. He said leisurely, "I thought... you would have a lot of things to do! Who died just now? Why are you here now?"

However, a white light flashed between Han Fei's eyebrows, and the Emperor Sparrow spread its wings and came out.

The next moment, the weather changed.

The billowing heavenly tribulation spanned more than 3,000 kilometers, which was much more powerful than the minor tribulation Han Fei transcended.

Ren Tianfei was surprised but didn't say anything.

Obviously, Han Fei came in a hurry for his spiritual beast to transcend the heavenly tribulation.

'When Ren Tianfei saw the Emperor Sparrow, he narrowed his eyes and figured it out.

Han Fei looked at Ren Tianfei and said, "Just pretend you have never seen him!"

Ren Tianfei nodded.. "Okay!"

#### **Chapter 1648: The Emperor Sparrow's Combat Skills**

Little Black and Little White didn't transcend the tribulation, but the Emperor Sparrow seemed different. It became the first to transcend the tribulation among all Han Fei's spiritual beasts and contractual spiritual beasts.

In the sky, thunder rumbled.

This was clearly not an ordinary lightning bolt, because an abnormal blood red color appeared in the sky. This was different from the purple color of Han Fei's tribulation.

Han Fei couldn't help asking, "Old Yuan, what kind of heavenly tribulation does this color represent?"

The old turtle paused for a moment and said, "A blood-colored heavenly tribulation! The Emperor Sparrow is worthy of his fame... This is a Six Nine Emperor Tribulation!"

Han Fei asked in surprise, "Six Nine Emperor Tribulation?"

The old turtle said, "Different species and different creatures may have different tribulations. The Explorers' heavenly tribulation is minor heavenly tribulations, but minor heavenly tribulations have three, four, or six lightning strikes. At present, the strongest heavenly tribulation of the Explorer level I

know... is the Six Nine Emperor Tribulation. All the people who pass this tribulation are extremely powerful and have infinite potential. Of course... it's the most difficult to transcend."

Han Fei's face changed slightly. "Six lightning strikes?"

Han Fei's face changed greatly. Back then, his heavenly tribulation only had four lightning strikes, and he was almost struck into a pulp. However, the Emperor Sparrow's heavenly tribulation had six lightning strikes?

Han Fei threw a Sun-Moon Shell without hesitation. "Emperor Sparrow, there are countless resources here, as well as the bones of a king. They can definitely support you in transcending the tribulation."

The Emperor Sparrow grabbed Han Fei's Sun-Moon Shell without hesitation, raised his head, and cawed.

At this time, the entire Thousand Star City was in an uproar.

Countless people were attracted by the terrifying heavenly tribulation, especially on the periphery of the three Holy Lands.

Someone exclaimed, "Holy City... Central Holy City, someone is transcending a tribulation?"

Someone was shocked. "How is it possible? In the history of the Thousand Star City, no one has ever reached the Central Holy City... Who is this person?"

"F\*ck! I've finally seen someone enter the Central Holy City in my life! Is the Central Holy City about to open?"

Someone asked suspiciously, "Just now, a strong master died. Now, someone is trying to transcend the tribulation... Is this person Marshal Han?"

Many people were intrigued. It might be true!

Someone said, "It must be Marshal Han! He can even wipe out the big clans. What's the big deal for him to transcend tribulations in the Central Holy City?"

Not just ordinary people, even the seven major sects, including Old Bai and Old Jiang on Pure Sun Island, were dumbfounded. Is Han Fei really transcending the tribulation?

'They knew that although Han Fei was very strong, he wasn't that strong yet

However, it was hard to say what would happen to Han Fei! The problem this time was that it was in the Central Holy City. Except for a few people, no one knew what there was.

Old Bai said, "I'm going to the level-three fishery to ask our patriarch... Stay here and watch it."

On Pure Sun Island, the group of students could finally stop.

'The Door-Carrying Marshal, Bai Lu, Chu Linyuan, Mu Qingchuan, Xiao Zhan, Wenren Yu, Qu Jinnan, Ling Yuan, Su Daiji, Yi Xiyan, and company had already boarded their fishing boats and flew towards the Three Holy Lands.

These people were all excited.

‘Wang Dashuai said with a shivering face, “Is Junior Brother really going to become a king?”

Bai Lu said enviously, “I knew Junior Brother Han Fei was extraordinary the first time I met him, but I didn’t expect him to be so extraordinary! His strength has probably exceeded our imagination.”

Xiao Zhan and Wenren Yu looked at each other. They had just become Explorers.

‘When they taught Han Fei, Han Fei was just a brat.

When they first met, Han Fei was two heads shorter than Xiao Zhan.

However, only a few years had passed, and this kid was going to transcend the king-level tribulation? This was really unbelievable

Qu Jinnan exclaimed, “As expected of Senior Brother Han Fei! His growth speed is really beyond our imagination!”

Ling Yuan looked back at Yi Xiyan and company. “We have to work harder! If we don’t work hard, we will be eclipsed.”

As for Yi Xiyan and Su Daiji, they were already chattering.

Yi Xiyan screamed, “I’m going to have a king-level Senior Brother. Let’s see who dares to bully me in the future! I’ll go to those people who bullied our Yi family one by one... kick their doors and seize their resources!”

iji: “The big clans have already been destroyed by Senior Brother.”

Yi Xiyan was taken aback for a moment. “That’s right! Then who should I bully?”

Everyone :”

While people were discussing outside, the first heavenly tribulation had arrived.

Boom!

The crimson lightning was gorgeous.

The sky was dyed crimson... It was like a magnificent sunset!

Han Fei wondered if the following tribulations would be difficult for the Emperor Sparrow.

At this moment, Han Fei saw the Emperor Sparrow open his wings and extend his body more than 30 meters.

“Huff ~”

‘The Emperor Sparrow opened his mouth and swallowed the lightning.

As if he was generating electricity, countless arcs of lightning drilled into his body and then flowed out. The terrifying lightning of the heavenly tribulation was completely swallowed by the Emperor Sparrow.

“P ¥ ck!”

Han Fei was stunned for a moment. Although the first heavenly tribulation wasn't very powerful... it shouldn't be weak. Swallowing lightning?

The Emperor Sparrow swayed his body and shook his feathers, seeming to be stretching his body.

The second one.

'The Emperor Sparrow continued to swallow the lightning.

The third.

He was still swallowing.

Han Fei was dumbfounded

When the fourth blood-color lightning struck down, the feathers on the bird exploded, but he didn't retreat at all. Carrying the lightning, he rose and cried to the sky.

At this time, the Emperor Sparrow still didn't use Han Fei's Sun-Moon Shell. His feathers were quickly repaired by the power of the Great Dao in the lightning.

'The fifth lightning bolt was still blood red like a pillar of blood.

Bang! Bang! Bang!

At that moment, the thousands of feathers on the Emperor Sparrow's body swirled in an instant, interweaving like a garment in front of him, At the same time, his pupils glowed as he swallowed the dissipating heavenly tribulation.

This time, he held on again.

Yes, this guy actually survived it.

Han Fei and the old turtle were all shocked.

The old turtle had only heard of the Emperor Sparrow, but had never seen one.

Gosh! Now that he saw it with his own eyes, he found that it wasn't just terrifying, The Emperor Sparrow had passed five of the Six Nine Tribulations without using anything!

Han Fei was the most surprised. At this moment, he believed what the old turtle said. Different races had their own talents. Obviously, the talent of the Emperor Sparrow race far exceeded the understanding of ordinary creatures.

Perhaps, for the Emperor Sparrow, transcending a tribulation might not be difficult?

Of course, in addition to talent, Han Fei also saw the pride of the Emperor Sparrow.

'That kind of pride was the kind of pride that although the heavens press down on me, I'm still fearless! Up to now, five heavenly tribulations had struck down, but the Emperor Sparrow hadn't retreated at all. He even flew dozens of meters high in the sky.

Han Fei still remembered that when he was transcending the king-level tribulation, he fell into the seabed again and again... God knew how many times he fell!

At this moment, Han Fei's pride soared too.

Han Fei thought to himself, Even my spiritual beast is so brave! Faced with the heavenly tribulation, he was not afraid at all... Why should I be scared?

"Huff!"

Han Fei's body suddenly trembled. As the Emperor Sparrows master, how could he lose to him in terms of momentum?

Seeing that Han Fei was excited, the old turtle couldn't help but ask, "Well...what are you going to do?"

Han Fei thought for a moment and said, "I want to make use of this tribulation cloud that hasn't dissipated..."

The old turtle was stunned. Can you make use of it?

Ren Tianfei, who was not far away, was already dumbfounded. If he saw it right, this was only a minor heavenly tribulation, right? Five lightning strikes for a minor heavenly tribulation, and it wasn't over yet? Could it be... an imperial tribulation?

Gulp!

Ren Tianfei swallowed. For thousands of years, someone finally rose in the Yin-Yang World!

Boom!

The moment the sixth heavenly tribulation appeared, with a cry, the Emperor Sparrow spread his wings and soared into the sky. Behind the Emperor Sparrow, spiritual energy followed and ten thousand spiritual fruits shattered and drilled into his body.

It was a wonderful scene.

So, Han Fei didn't even know how to describe the tribulation of the Emperor Sparrow. It was simply crazy

"Ah

In the sky, a handsome bird that was charred and blood-trenched flew back.

Bang!

As soon as he landed, the Emperor Sparrow threw the Sun-Moon Shell to Han Fei and said proudly, "I just used a little bit of the resources."

Han Fei:

Han Fei asked, "Do you need healing?"

The bird tilted his head and looked at Han Fei. "What do you think?"

Han Fei knew that at this moment, although the body of the Emperor Sparrow was undergoing a terrifying change, he was definitely weak. Therefore, a Heaven Enlightenment Divine Technique descended and enveloped the Emperor Sparrow.

This time, Han Fei was shocked when he read the information on the Emperor Sparrow. Did this guy finally acquire combat skills?

Information popped up in Han Fei's eyes.

< Name > Emperor Sparrow

< Introduction > This is a mysterious ancient creature. All races regard it as ominous. The Emperor Sparrow is born to be an Emperor, looking down upon everything, Among the ancient ferocious beasts, the Emperor Sparrow ranks first.

< Level > 70

< Quality > Mysterious

< Great Dao > Invincibility

< Chaos Qi Stored > 1 wisp

< Food > It depends on his mood.

< Battle Technique > Eye of Disaster, Heart Demon Summoning, Heavenly Fiend Battle Body

< Remarks > Follow the will of the Emperor, or disaster will happen.

< Remarks 2 > Rumor has it that whoever kills the Emperor Sparrow dies..

### **Chapter 1649: Level Seven of Void Fishing**

'What kind of creature could cross an entire major realm after a breakthrough?

Han Fei had never heard of it before!

'The Emperor Sparrow, on the other hand, directly became an Explorer from a peak-level Hidden Fisher.

'The Heart Demon Summoning and the Heavenly Fiend Battle Body were the two combat skills that the Emperor Sparrow had obtained this time.

'Heart Demon Summoning', as the name suggested, was a skill to summon inner demons. When fighting an enemy, it would cause the enemy to be trapped in inner demons. If it succeeded, the result could be imagined.

The Heavenly Fiend Battle Body wasn't hard to understand either.

The Emperor Sparrow was originally a primeval ferocious beast, and the murderous aura in the Corpse Nurturing Ground was crazily swallowed by it. It seemed that it had eaten enough and awakened this combat skill, which was a bit similar to the Ancient Desolate War Body.

At this moment, the Emperor Sparrow returned with his head held high like a victorious general. Although his body was broken, he was still majestic and intimidating.

Han Fei didn't intend to try the abilities of the Emperor Sparrow now. Ren Tianfei was still around, so after using the Heaven Enlightenment Divine Technique, he recalled the Emperor Sparrow into Forge the Universe.

Ren Tianfei was about to speak, when Han Fei shook his finger, indicating him to keep quiet.

Han Fei stepped into the place where the Emperor Sparrow was transcending the tribulation and sat cross-legged.

Ren Tianfei was dumbfounded. What are you doing? Are you going to break through to the peak of the Venerable level?

Ren Tianfei couldn't help being speechless. He was going to break through to the peak of the Venerable realm so quickly?

'What Ren Tianfei didn't know was that as soon as Han Fei sat down, he issued an order in his heart. "Deduce."

Buzz!

To Han Fei's surprise, this deduction didn't consume the spiritual spring, For a long time, Han Fei seemed to be used to using the spiritual spring to deduce, forgetting that Void Fishing had reached the king level.

Therefore, when a hundred wisps of Chaotic Qi were extracted from Han Fei's body, the old turtle rolled his eyes. What a spendthrift!

However, the moment Han Fei deduced it, an even more terrifying heavenly might came.

Whoosh!

Swish... Swish... Swish.

Within hundreds of thousands of kilometers around the Thousand Star City, the sky was shaking. That was not all. In the 36 towns and the Scattered Stars Island, a storm was brewing almost one third of the Yin-Yang World.

Boom Boom Boom ~

In the Thousand Star City, above the Central Holy City, lightning zigzagged like dragons among the clouds.

The entire Thousand Star City was enshrouded by dark clouds, and almost everyone was watching this shocking scene.

Someone exclaimed, "There are already six heavenly tribulations! This must be a king-level tribulation. Otherwise, why would there be six heavenly tribulations?"

Someone said in shock, "I heard that the king-level tribulation will have six lightning strikes, but it has already been transcended! Then why does it seem that there are more and more lightning strikes in the sky?"

On the Thug Academy's side, Yi Xiyan exclaimed, "It seems that Senior Brother Han Fei is really going to transcend the king-level tribulation... Heavens! I'm going to have a king-level senior brother."

The others didn't speak but felt that it was a little dreamy.

Especially Qu Jinnan and the others, Han Fei didn't enter the Thug Academy much earlier than them. Why was the gap so huge?

Chu Linyuan said leisurely, "It seems that our Thug Academy has recruited the strongest genius in history!"

The level-three fishery.

Li Daxian looked at Han Guanshu. "Who is transcending the tribulation? This is clearly a king-level tribulation. Don't tell me you don't know!"

However, Han Guanshu frowned and thought for a long time. "This is definitely not a king-level tribulation. It's impossible for him to pass it now. Let's wait and see..."

Central Holy City.

At this moment, Han Fei was completely prepared.

He had looted countless resources from the Zhang family, but he only got a random Sea Swallowing Seashell.

The resources here made Han Fei feel that they were enough for him to reach the level of a Half-King!

Boom!

'When a blue electric arc descended, Han Fei was enveloped by lightning. His body trembled, and the lightning moistened his flesh and blood. Han Fei even opened his mouth to swallow it.

Whoosh!

As he absorbed it, Han Fei's internal organs were set on fire, and his body was enshrouded by the invincible will. Some parts of Han Fei's body cracked even more, and golden blood oozed out, but it wasn't charred.

"Huff ~"

Han Fei took the lightning head-on to temper his body.

Boom! Boom!

However, deducing Void Fishing was completely different from transcending a tribulation.

As soon as the first lightning struck down, the second lightning followed.

Based on Han Fei's experience, such lightning would last between half an hour and an hour.

Han Fei estimated that if he deduced Void Fishing directly, his body strength would be increased by at least 30%.

The old turtle had never seen Han Fei deduce the Void Fishing Art. The last time Han Fei deduced it was in the Age of Doom.

Now, under the bombardment of more than 30 bolts of lightning in a row, Han Fei's body cracked under the bombardment of the dense lightning despite his sturdy physique.

At this time, Han Fei's physique was already strong enough and his recovery ability was extremely fast. Han Fei casually grabbed a massive amount of flexibility and spiritual spring from the Sun-Moon Shell, which could basically keep his body from collapsing.

This deduction was a little easier than Han Fei imagined.

Although the seventh level of Void Fishing corresponded to the Sea Establishment Realm, the power of lightning was not as powerful as a king-level tribulation.

On one hand, this was a kind of cultivation; on the other hand, Han Fei's physical strength was indeed ridiculously strong.

After a hundred lightning strikes, the old turtle was dumbfounded, so was Ren Tianfei. Countless people outside the Thousand Star City were dumbfounded too.

Not far away from the Monument of Gods, Luo Xiaobai and the other two were standing in the void.

Zhang Xuanyu said in shock, "Is there a problem with this tribulation? How many lightning strikes have there been? There are already hundreds... Is it endless?"

Le Renkuang kept nodding, "Who can withstand so many Heavenly Tribulations?"

However, Luo Xiaobai frowned and said, "No... The first six might be heavenly tribulations... However, the last hundred are definitely not heavenly tribulations... It's a bit like..."

Suddenly, Luo Xiaobai said, "Do you remember... on a rainy day in the school of the Blue Sea Town, Han Fei was alone in the back mountain. At that time, lightning struck one after another almost ceaselessly... which made us very curious."

"Hiss ~"

Zhang Xuanyu and Le Renkuang looked at each other and then gasped. "Did Feifei start transcending the heavenly tribulation so early?"

Luo Xiaobai rolled her eyes and said, "It might not be a tribulation, but a cultivation technique! Practicing this technique will be struck by lightning."

Le Renkuang shook the fat on his face and said, "Even if it's a technique, ordinary people won't be able to withstand so many lightning strikes, right? After all, there are countless bolts of lightning!"

Zhang Xuanyu narrowed his eyes and said, "It seems that Feifei is working harder than we thought!"

Luo Xiaobai was lost for words. "When have you ever seen him not working hard?"

Half an hour later, Han Fei had used no less than 50,000 spiritual fruits and no less than a million kilograms of spiritual spring, And his body was getting stronger and stronger every time it collapsed.

At this moment, there were only slight cracks left on Han Fei's body, which meant that Han Fei's flesh and blood were almost comparable to his own bones.

Even if there was still a gap, the lightning was not over yet.

However, at this moment, the frequency of the lightning strikes was decreasing too.

One hour later.

After being struck by the last lightning bolt, the cracks on Han Fei's body almost disappeared.

In the end, the scabs on Han Fei's body shattered.

Han Fei suddenly got up... Sure enough, he was still not in the perfect state.

The old turtle was already shocked.

At this moment, when the lightning completely disappeared, he sighed. "Did you make an exchange with the calabash? Why can it attract lightning? Since it can attract lightning, why don't you hold on for a little longer? If you persist for a while longer, your body will be perfected. When you flesh, blood, bones, and soul are perfectly integrated, you will break through the peak of the Venerable realm easily."

Han Fei curled his lips. "Do you think it's easy to make a deal with it? Forget it. I'm not in a hurry. I can take time to... repair my body. By the way, I'll check the other nine-star star beads."

Han Fei thought to himself, I've just seen the three nine-star star beads of the Chu Sect and already got so many benefits. Will there be any more opportunities for me to get in the remaining six?

Of course, Han Fei had already looked at the seventh level of Void Fishing.

Existing Arts: Void Fishing

Level Seven: Void Descending Art

Remarks: The first generic art in ancient times. It was co-authored by the nine king-level experts. On the day the book was written, the heavens and earth cried, and the waves surged. It is the king of all arts.

"Descending art?"

Han Fei didn't quite understand. This didn't seem to have anything to do with fishing techniques.

When Han Fei scanned the technique named Void Descending in his head, he gasped.

"Peck!"

Han Fei was dumbfounded. Is this a technique or a combat skill?

The so-called Void Descending Art was like easily producing tens of thousands of clones.

In other words, this was a clone technique!

Besides, the Void Descending Art was different from ordinary clone techniques. The user could create clones of different levels according to his own strength. The lower the realm, the stronger the clone.

In addition, this Void Descending Art had an incredible ability. As long as he didn't take the initiative to take back his clones, the clones could exist forever, just like avatars.

Of course, compared to real avatars, the clones' strength was fixed.

However, if the clones were killed but their soul wasn't destroyed, the soul could still exist in this world.

'When he was free, he could take the soul power back.

And these were just the clone ability of the Void Descending Art.

In addition, it had another additional ability. In the range of his vision, he can cast his projections anywhere, which was like a miracle..

### **Chapter 1650: Cultivation and Arrangement**

Deducing Void Fishing didn't make Han Fei's body reach a perfect state.

However, the Void Descending he got this time was indeed a pleasant surprise. Although he hadn't used it yet, he was still tempted by it.

Han Fei's cultivation was over. The clouds in the sky dissipated, but the rain didn't stop.

At this point, Han Fei got up and cast the Heaven Enlightenment Divine Technique on himself to restore himself to his most perfect state.

At this time, Han Fei looked at Ren Tianfei and said, "There are many people outside. I'm going to cultivate in seclusion for a few days."

Ren Tianfei really wanted to roll his eyes at Han Fei. Is this how you cultivate in seclusion?

Ren Tianfei said, "Outside, you made such a big mess, but you're leaving it to a little girl?"

Han Fei grinned. "I believe her!"

Ren Tianfei shook his head slightly and said, "About the Heavenly Dao Dharma Eye, do you have any ideas?"

Han Fei nodded slightly. "It's in my plan. However, it can't be very fast. After all, my strength hasn't reached its peak yet! If the problem with the Heavenly Dao Dharma Eye is resolved, it may cause new trouble."

suddenly, Han Fei asked, "Old Ren, you haven't reached the peak of the Indestructible Body Art, have you? In other words, your soul hasn't completely fused with your blood, flesh and bones..."

Ren Tianfei smiled. "It seems that you've come this far? Of course it's not that simple. As I expected, those who can cultivate the Indestructible Body require great luck. I should be able to fuse my flesh, soul, and bones soon. Once this technique is completed, I can become a half-king immediately, and my physique will be comparable to a king's. See, I've treated you very well, right?"

Han Fei curled his lips. "Humph! A Half-King is a Half-King after all. Even if your physique has reached the Sea Establishment Realm, what about your soul? I thought that one would immediately become a king after he mastered the Indestructible Body..."

Ren Tianfei rolled his eyes. "What do you think becoming a king is? The Indestructible Body only makes you infinitely close to being a king, Whether you can become a king or not depends on whether you can transcend the tribulation. As long as you can safely transcend the tribulation, when the Indestructible Body is mastered by you, you will become a king."

Han Fei curled his lips. "By the way, I'm going to cultivate in seclusion for a while."

Ren Tianfei pointed at the Central Temple. "You can go by yourself, but don't go to the Heavenly Palace. The energy there is impure and the Heavenly Dao Dharma Eye is still there. If you go there... you can't do anything except fight."

Han Fei grunted and stepped out, arriving at the third floor of the Central Temple, which was also the place leading to the Heavenly Palace.

Just as Ren Tianfei said, it was meaningless for him to cultivate in the Heavenly Palace now.

Although a long period of cultivation could also improve his strength, it would take a lot of time. What he lacked most now was time!

As soon as Han Fei entered the third floor, he set up all kinds of seals and entered Forge the Universe.

Since his return, one thing had been delayed for a long time... That was the use of faith power.

After all, he had obtained a lot of power of faith recently. It could be said that the people of the entire Yin-Yang World were contributing their power of faith to him. The amount he had obtained in the past few days was more than the total amount he had obtained in the past few years. Furthermore, his

strength was almost at the peak of the Venerable realm. He should make some progress in disassembling spiritual energy, shouldn't he?

Therefore, at this moment, Han Fei sat cross-legged and entered the deduction state again.

Three months later.

'When Han Fei consumed the last trace of the power of faith, his disassembling degree of spiritual energy finally reached 88%.

This time, his disassembling degree soared, making Han Fei very excited.

At the same time, Han Fei's heart became heavy.

This was the power of faith provided by the people of the entire Yin-Yang World! However, it was consumed in a few days! And the disassembling degree of spiritual energy only increased by 7%, which made him feel frustrated.

Although people still worshiped him... in the future, he wouldn't get as much as the power of faith he received when he swept across the big clans. In the future, if he wanted to use the power of faith again, he would have to save up.

Besides, after the spiritual energy was disassembled to different levels, the amount of faith energy consumed for each improvement was obviously different. Therefore, it required more accumulation.

Han Fei sighed. "It seems that I still have a long way to go! Old Yuan, as you know, what is the highest disassembling degree of spiritual energy?"

The old turtle quietly listened to Han Fei's bragging and said, "Generally speaking, 95% is enough. It's extremely difficult to go any higher. As far as I know, there was once a Monarch who reached 98%. I think you should restrain yourself and spend a hundred years polishing your strength. In this way, with your talent and confidence, it won't be a problem for you to reach 95%..."

Han Fei curled his lips. A hundred years? Do you know how long it will take? If I have the time, I've long become the strongest person under the king realm! I'll just search for treasures and opportunities everywhere. I don't believe that I can't make it to 98%!

Han Fei left Forge the Universe and ended his cultivation.

Just as Han Fei was about to leave, the Emperor Sparrow suddenly said, "Give me that bead. I'm going back to that place to devour the demonic Qi."

Han Fei was stunned and asked in surprise, "You mean the corpse refining ground?"

The Emperor Sparrow nodded proudly. "That's a treasure place. Not only I, they can go there too."

He was referring to the Nine-Tailed Mantis Shrimp and the others. He had so many opportunities that they couldn't keep up with his pace.

Other people's contractual spiritual beasts could cooperate with their masters. After all, they were all old monsters that had lived for thousands of years.

However, the gap between his contractual spiritual beast and him was getting bigger and bigger... He should work out a solution!

In fact, in terms of time, they had stayed in Forge the Universe for more than a hundred years and were already peak-level law enforcers.

However, since he entered the cage, he basically had no time to consider their training. At this moment, when the Emperor Sparrow mentioned it, Han Fei realized the problem.

Han Fei nodded. "Okay!"

He quickly made a decision.

The Corpse Nurturing Ground was indeed a good place. There was endless murderous aura and death energy there, and the density of energy and spiritual energy was beyond imagination!

Earlier, because there was the corpse puppet there, even Old Demon Chu couldn't get any benefits in it. Now, the corpse puppet had been killed. Except for the hole that appeared from nowhere, it was simply a perfect cultivation place.

Han Fei immediately nodded. "When they transcend their tribulation, they will all go to cultivate with you there."

Outside Forge the Universe.

Han Fei walked out of the Central Temple and found that Ren Tianfei was repairing a house in a certain building.

Han Fei couldn't help but ask, "Old Ren! What are you doing?"

Ren Tianfei scoffed. "Heh! Are you blind? What else can I do except repair my house?"

Han Fei was lost for words. "Hey... you're a peak-level Venerable. Why are you building a house here? Why don't you go out?"

Ren Tianfei sneered. "I'm the controller of the Yin-Yang World. Anyone can go out, but I can't. Even if I go out, it's only occasional. The Central Holy City can't be empty."

Han Fei's heart did a flip. Old Ren seems quite persistent!

Han Fei suddenly remembered that there was another person from the Heavenly Palace living in the Yin-Yang World.

So he asked, "By the way, Old Ren, do you want me to find Little Ci to accompany you?"

Ren Tianfei stopped what he was doing and looked at Han Fei. "Su Jiuci? It doesn't matter if she goes back or not... However, her body has been dormant for too long. I'm afraid she has to cultivate a reincarnation body. Let her reincarnate! Keep her memories and live another life. Otherwise, she won't live

long."

Han Fei couldn't help but ask, "How do you know that?"

Ren Tianfei curled his lips and smiled. "I know exactly when she left. Back then, she was only a junior peak-level Venerable. After being ambushed by Chu Sect, her body was basically crippled. She was kept in a coffin for so long just to facilitate her reincarnation..."

Han Fei's eyelids twitched. "Do you know where she is?"

Ren Tianfei looked at Han Fei and suddenly grinned. "I showed her the way. Later, her Star Bead was obtained by the Thug Academy. How could I not know?"

Han Fei was speechless. In the Venerable realm, there were really too many things to do.

He had thought that Su Jiuci survived herself, but it turned out that it was Ren Tianfei who helped her!

However, he should save this person.

However, a reincarnation body was usually weak... Although their cultivation speed was extremely fast, he didn't have the time to carry a burden around, right?

But no matter what, he'd better let her reincarnate. At least Old Ren could still take care of her.

'When Han Fei left the Central Holy City and reappeared in the Thousand Star Proving Ground, he found thousands of people waiting there.

According to the level of the Star Beads, Luo Xiaobai divided the Thousand Star Proving Ground into different levels. The number of people entering each time was limited, but the Thousand Star Proving Ground could accommodate tens of thousands of people at a time.

Because all the Star Beads controlled by the big clans in the Thousand Star City had been taken by Luo Xiaobai, there were no independent Star Beads at all now, unless those held by Han Fei.

In this square, if Han Fei wanted to open the Star Beads without authorization, he would probably be immediately surrounded.

After a while, Han Fei returned to his original appearance. He withdrew his peak-level Advanced Venerable strength, but he still wore his battle suit.

In the square of the Thousand Star Proving Ground.

Suddenly, someone exclaimed and pointed at the sky. "Look, Marshal Han... Am I seeing right? Is that Marshal Han?"

Someone looked up and exclaimed in shock, "It's Marshal Han. Yes, I remember what Marshal Han looks like."

Someone roared, "Who doesn't remember it?!"

Someone cursed, "I don't know which bastard told me that Marshal Han might not be able to survive the king-level tribulation... Look, he did!"

"Marshal Han ~"

"Marshal Han ~"

"Marshal Han, are you a king now?"

'The Thousand Star Proving Ground was in an uproar because of Han Fei's arrival.

Han Fei didn't answer these people's questions. Standing in midair, he said with a smile, "Everyone, don't disturb the order. In a few days, I will tell you some things. But now, there are some nine-star star beads in the Thousand Star Proving Ground that are too dangerous inside, so I need to go in and clear the way. When I'm done, I can release these Star Beads."
