

GOF 1711

Chapter 1711 Manual of Ten Thousand Clans

Han Fei waited for more than six hours after the Manual of Ten Thousand Clans was finally opened.

Six hours later, when the words were lit up, Han Fei saw a message that made him feel terrible.

In the gray fog space, the information displayed:

Clans in the Infinite Ocean: 29620223

Master: the 5065890th

Nearby Bloodlines: Dao Querying Fish, Water Luster, Azure Mystic Turtle, Ancient Azure Dragon, Time Dragon Carp, Sea Controlling White Shell, Ancient Essence Shell, King Ba Crab, Twin Yin-Yang Spirit Swallowing Fish...

Recommended Bloodlines: Dao Querying Fish, Water Luster, Azure Mystic Turtle, Sea Controlling White Shell, Ancient Essence Shell, King Ba Crab...

Han Fei couldn't have felt worse when he saw this message. Didn't Old Yuan say that there were only eight million species in the Vast Sea, less than ten million? Why did the Demon Purification Pot show there were actually nearly thirty million species?

This was a total of 30 million creatures! And he had swallowed the blood essence of the God of War and was ranked even after 5 millionth in bloodline! It was really a waste of his golden blood.

However, at this moment, Han Fei also understood one thing. Old Yuan said that he knew much about this world, but it was just his wishful thinking.

Old Yuan warned himself based on his experience. Although bloodline did not represent combat power, it represented life potential and life level.

He was ranked below the five millionth among the clans in the Infinite Ocean. Even if he squeezed his potential to the limit, he was still ranked after the five millionth. There might be many creatures in this world who were very strong when they were born and could crush you.

At this moment, Han Fei realized that he was indeed ignorant. He thought that he was so powerful that he could kill a king as a Half-King.

However, at this moment, Han Fei believed that there were definitely many creatures in this world who could kill a king in the Half-King realm.

"Huff"

Han Fei took a deep breath. If he hadn't opened the Manual of Ten Thousand Clans today, he wouldn't even know what level he was at.

Now, Han Fei knew.

Before, Han Fei despised the 5,000th place ranking of the Supreme Mystic Scripture.

Now, Han Fei had a complicated look on his face. He probably still had a long way to go. At least, he wondered if he should become a king now.

Although the “Bloodline Devouring” divine technique could make up for his lack of bloodline and could be used in any realm, the effect of the king-level tribulation would definitely be different.

For example, how could the king-level tribulation of a creature whose life level is in the top million be the same as one whose life level is in the top ten thousand?

Tribulation Transcendence was a form and method to improve one’s bloodline.

If he could increase his life level as much as possible before transcending the king tribulation, would the effect of transcending the tribulation be better?

Of course, the first thing he had to do now was not to transcend the tribulation, but to try devouring the blood of other creatures...

Han Fei reached out and took a wisp of blood essence from the Dao Querying Fish. When the drop of blood essence was swallowed by Han Fei, all the blood essence in his body suddenly began to move crazily. They instantly tore the drop of blood essence into pieces.

At this moment, golden blood threads slowly appeared in Han Fei’s dantian. A moment later, a small fish phantom appeared in his dantian.

After only a moment, the fish was covered by Han Fei’s golden blood and finally disappeared.

Clans in the Infinite Ocean: 29620223 (in progress)

Master: the 4865894th

Nearby Bloodlines: Water Luster, Ancient Azure Dragon, Time Dragon Carp, Sea Controlling White Shell, Ancient Essence Shell, King Ba Crab, Twin Yin-Yang Spirit Swallowing Fish...

Recommended Bloodlines: Water Luster, Sea Controlling White Shell, Ancient Essence Shell, King Ba Crab... This time, Han Fei keenly discovered that the Azure Mystic Turtle option had disappeared.

This meant that after he devoured the Dao Querying Fish’s bloodline, there was no need for him to devour the Azure Mystic Turtle.

As for the Azure Mystic Turtle, it was Gui Sanqing’s body that Old Yuan was using.

The Dao Querying Fish was of legendary quality, but Gui Sanqing might not even be a legend. However, what surprised Han Fei was that his life level had improved a lot!

With just one increase, his ranking had increased by nearly 200,000.

Immediately, Han Fei remembered that the effect of devouring creatures of similar level to improve one’s bloodline was extremely low. And even if he swallowed a powerful bloodline, he wouldn’t immediately be upgraded to the same level as that race.

However, Han Fei had at least grasped one thing, which was that legendary creatures should be ranked around five million among the clans in the infinite ocean.

And the human race's ranking was probably below ten millionth.

He was ranked five millionth in the beginning probably because he had fused with the blood essence of the God of War. At the same time, he kept refining his flesh and blood. Otherwise, his ranking would probably be much worse than now.

Han Fei put on a smile. The illusion of mountains and rivers appeared, and Han Fei walked into the Sea Quelling Painting and appeared on the sea.

Buzz!

Water Luster suddenly rushed out of the sea. In the waves, a water ball protected King Ba's egg.

"Master, why are you here?". Han Fei said casually, "Well, nothing. Water Luster, give me a drop of your essence blood."

Water Luster's life belonged to Han Fei, so she didn't care about a drop of blood essence. Therefore, she gave it to Han Fei without hesitation.

Han Fei returned to Forge the Universe.

However, Han Fei didn't swallow the essence blood of the Water Luster immediately, because swallowing essence blood required his body to completely adapt to the bloodline that had just been replaced. This required time, and Han Fei wasn't sure how long it would take. Therefore, he still needed to wait.

At least, for the time being, Han Fei didn't have to worry about not having bloodlines to help him improve his bloodline. With the bloodlines of Water Luster, Sea Controlling White Shell, the White Armor Emperor, and King Ba, Han Fei estimated that it shouldn't be a problem to improve his bloodline by a million.

To be precise, on the 27th day, Han Fei felt that he had completely adapted to the devouring this time.

Of course, less than two days had passed in the outside world.

Han Fei's personal information began to change.

Owner: Han Fei

Level: 89 (Half-King)

Bloodline Ranking among the Clans in the Infinite Ocean: 4865894th

Chaotic Qi: 1,483 wisps

Spiritual Power: 199,999

Perception range: 80,000 kilometers

Strength: 21,201 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unknown

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level 78)

Second Spiritual Beast: Emperor Sparrow (Level 75)

Main Art: The Seventh Level of Void Fishing, Void Descending Art (King Level, Divine Quality)

Among them, the biggest change was that now there was his bloodline ranking in the information.

The effect of devouring the Dao Querying Fish's bloodline did not seem to improve his soul power much. It seemed that his spiritual power had only increased by less than 800 points, which was just stuck in the 200,000 mark.

It also improved his strength a little, but it was less than 300 waves.

Therefore, Han Fei felt that there was not much difference between the five millionth place and the 4.8 millionth place in terms of life level or bloodline ranking.

Of course, perhaps because the Dao Querying Fish was only a legendary creature, and Han Fei's bloodline level was similar to it, it didn't make much difference.

The Emperor Sparrow, on the other hand, had reached level 75, which made Han Fei speechless. How long had it been since he came out? The Emperor Sparrow had grown so fast that it was unreasonable!

Han Fei thought to himself, When I return to the Yin-Yang World and get the essence blood of the Emperor Sparrow and the others, I'll definitely be in the top 10,000 among the clans in the Infinite Ocean...

At this moment, Han Fei immediately swallowed the blood essence of Water Luster. When the shadow of a big bird appeared in his Dantian, Han Fei's information changed.

Owner: Han Fei

Level: 89 (Half-King)

Bloodline Ranking among the Clans in the Infinite Ocean: 4,865,894th (Evolution: 0/133 days)

Chaotic Qi: 1,483 wisps

Spiritual Power: 199,999 Perception range: 80,000 kilometers

Strength: 21,201 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unknown

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level 78) Second Spiritual Beast: Emperor Sparrow (Level 75)

Main Art: The Seventh Level of Void Fishing, Void Descending Art (King Level, Divine Quality)

At this point, Han Fei finally understood that devouring the bloodline of other races wasn't as fast as he had imagined. When he swallowed the Dao Querying Fish, there was no evolution countdown.

However, this thing appeared the second time. It seemed that the first time he swallowed a bloodline, it was just looking for a reference.

It actually took 133 days to devour the essence blood of Water Luster Fish? That was almost five times more than the Dao Querying Fish.

Although it would only take eight days, Han Fei couldn't help but smile bitterly. It seemed that it was much more difficult than he had imagined!

If he devoured the bloodline of the Sea Controlling White Shell, King Ba, and even the Azure Dragon, wouldn't it take several years to devour one? Even if it was converted to accelerated time, it would take at least a few months, right?

However, he did not know how much he would improve after swallowing the essence blood of Water Luster Swamp. Would his realm drop?

On the fifth day, Han Fei was studying the Supreme Mystic Divine Body.

Han Fei thought that the Demon Purification Pot also had the ability to fuse techniques. If he put many body-refining techniques of the same level together, would he be able to deduce a more powerful body-refining technique?

However, he currently only had one Venerable-level divine-quality refining technique, which was the Ancient Desolate War Body, and the Indestructible Overlord Body was directly deduced into the Supreme Mystic Body.

Before, Han Fei looked down on the "Supreme Mystic Body", but compared to his bloodline level in the Manual of Ten Thousand Clans, the level of the "Supreme Mystic Body" was much higher.

However, when Han Fei finished reading the cultivation method of the "Supreme Mystic Body", he realized that he had to cultivate himself boneless... which meant that he had no bones and was no longer human.

Just as Han Fei was speechless about the "Supreme Mystic Body", the old turtle reminded him, "We've arrived in the Thunder Fire World."

Chapter 1712 Thunder Fire City, Myriad Treasures Pavilion

With a sea route, the ships of the various Heavenly Palaces that could teleport through the void traveled very quickly.

The reason why it took five days was that every time he teleported, he had to extract energy from the void and wait for the next teleportation.

This was the first time Han Fei came to the territory of the third Heavenly Palace other than the Yin-Yang World and the Water-Wood World.

When Han Fei appeared in the outside world, the big ship was flying in the sky. In the sky, there was a floating island about a thousand kilometers long. On this floating island, there were special docking places for large ships and also floating ports for small ships.

Han Fei scanned the sea with his perception and found that there were safe places within tens of thousands of kilometers. The layout here was similar to the layout of the Yin-Yang World.

The only difference was that Venerable-level super boats and ordinary fishing boats appeared on the same island. This meant that the island they were on might be equivalent to a teleportation point or a relay station.

After the ship stopped, Han Fei left quietly. He simulated his aura to the Law Enforcer realm and walked on the floating island.

Han Fei walked a few steps and found that this island clearly lacked ordinary fishermen. It seemed that it was just a simple relay station and a place to trade basic supplies.

Countless people set up stalls and opened shops here.

There were strong people and weak people here, but in general, there were not many weak people. Otherwise, Han Fei wouldn't have appeared here as a Law Enforcer.

A moment later, Han Fei met an advanced Explorer drinking tea in a restaurant.

Yes, no matter what realm he was in, the strong wouldn't be exempted from the secular world. From afar, the Void Lines reached into this person's soul.

In fact, as early as on the ship of the Thunder Fire, Han Fei had wanted to catch a person and see his memory. However, the soul power of a Half-Venerable would resist. Besides, there were many Venerables on the ship, so he was easy to be suspected.

But after getting off the boat, the crowd dispersed, and no one could find out what Han Fei had done.

An advanced Explorer couldn't do anything under Han Fei's control. Han Fei's soul quickly scanned the man's memory. A moment later, Han Fei quietly erased the man's memory about being controlled by him.

The old turtle said, "It's not good to probe the memories of others often."

Han Fei smiled. "It's okay. I haven't done it much."

Han Fei saw the general layout of the Thunder Fire World from the man's memory. The place he was in was called the Thunder Fire Bazaar, where trading flourished most in the entire Thunder Fire Sky.

In the thirteen worlds in the outer domain, Heavenly Palaces were no secret to the public. There were also huge cities and towns here, but there were some more markets.

This giant city of the Thunder Fire World was known as the Thunder City. The master of Thunder Fire was an extremely powerful refiner. Although he was a king, he would appear in Thunder City every ten years to show his power as a king.

There were very few refiners in the Thirty-Six Mystic Worlds. Therefore, Thunder City was also known as the hometown of refiners. In both the thirteen worlds in the inner domain and the thirteen worlds in the outer domain, all refiners couldn't avoid Thunder City if they wanted to grow into stronger refiners.

Speaking of which, the main city of Thunder City was much larger than the main city of the Yin-Yang World, at least twice as large. Thunder City also governed 36 towns, and each town ruled a few more villages.

In terms of structure, this Thunder City was actually similar to the Yin-Yang World.

Of course, Han Fei could understand. After all, the Thirty-Six Mystic Worlds had been together since the beginning. It must be the same for every world...

As for the Water-Wood World, it might be an exception! After all, it was a world controlled by plants. How could it be the same as the human world?

Perhaps, a long time ago, the Water-Wood World was also created by humans. However, after coming to the Wild Abyss, they gradually adapted to plant creatures.

Thunder City's refining skills were quite good, but Han Fei didn't plan to stay here for long. However, since he was already here, he had to learn some of the forging skills of the Thunder Fire World.

It was just that on the big ship, he heard that the "Heaven-Seeking Lightning Drawing Technique" and the "Thunder God Hammer" seemed to be relatively rare refining techniques.

It was Han Fei's first time in the outside world, so he hoped to compare his combat skills, refining skills, and arrays with the outside world. By making up for his shortcomings and quickly adapting to the outside world, Han Fei could better improve his strength.

After thinking for a moment, Han Fei decided to go to Thunder City. Anyway, from the memory of the man just now, it seemed that if he wanted to go to the inner domain, he had to take a boat from Thunder City.

As for identity, it didn't matter. He could use his black-mist body to get on the ship. As long as he got on the ship, he could cultivate in seclusion all the way to the inner domain.

â€

Half a day later.

Heavenly South Island, Thunder City.

Han Fei held Nian'er's hand and Xiao Se followed behind him. Old Yuan was cultivating in seclusion in Forge the Universe for the time being, so he didn't come out. When Nian'er came out, she exclaimed in shock, "Brother, there are so many people!"

"Nian'er, this is human society."

Thunder City was indeed the City of Weapon Refinement.

Along the way, he saw many weapon workshops.

The place Han Fei and the others were going to was the Heavenly South Myriad Treasures Pavilion in Thunder City. It was said to be the top consumer place on the Heavenly South Island, mainly selling various divine weapons.

Perhaps because it was close to the Myriad Treasures Pavilion, there were many small workshops nearby.

On the side of the road, someone often shouted, "Brother, the weapon refinery of the Peng brothers is of high quality and cheap. Our weapons are comparable to the Myriad Treasures Pavilion."

Someone shouted, "It's an authentic high-quality pill from the Medicine King World. You won't regret buying it."

Perhaps it was because refining and alchemy were essentially the same. In any case, they were both about fire, and there were also many body refiners in the Thunder Fire World, so there were various kinds of pills for sale here. After walking for a long time, Han Fei found that there were many foreign people in Thunder City.

Han Fei discovered this when he came to Thunder City. The clothes of each of the 36 Heavenly Palaces were different, which might be a custom of the 36 Heavenly Palaces. Han Fei had seen more than ten kinds of exotic clothes in the Heavenly South Island Bazaar.

This meant that there were at least people from ten other Heavenly Palaces coming and going from the Thunder Fire World.

Crunch!

Nian'er chewed on her potato chips while looking around curiously.

"Brother! That person is hammering. What is he doing?"

Han Fei smiled. "That's refining."

"Oh... Brother, I saw something delicious... I saw someone put a fish into a big furnace." Han Fei smiled. "That's grilled fish. It doesn't taste as good as the potato chips on your hand."

"Oh! Brother, their clothes are so strange. They always have one arm exposed."

Han Fei was silent for a moment. It's not that their clothes are strange, but... our clothes are very strange! The men from the Thunder Fire World habitually revealed an arm, as if to show off their muscles.

As for the woman from the Thunder Fire World, they habitually tied their hair into a long braid. Behind the braid, there was usually a long pendant. Some of the pendants were knives, some were short swords, and some were hammers. He wondered if their hair would be tangled up in the hairpins.

The people from the other Heavenly Palaces were dressed differently.

For example, the people from Ice Snow World that Han Fei had once met! They were wearing thick furry clothes, so they looked particularly eye-catching in the crowd.

For cultivators, wearing clothes was only for image and had nothing to do with temperature. No matter what, their characteristics were the most important.

Nian'er was wearing a blue lace dress made by Han Fei, and he was wearing a black robe, as was Xiao Se. Therefore, many people looked at them.

When Han Fei saw a tall building made of green crystals, he knew that he had found the place.

Myriad Treasures Pavilion.

Han Fei had already suppressed his strength to the junior Venerable realm. In fact, the people of the Myriad Treasures Pavilion had seen all kinds of customers.

Seeing Han Fei coming over with Nian'er and looking behind Han Fei, the shopkeeper immediately knew that Han Fei and this little girl were not simple.

They even felt that this little girl might have a powerful background. "Welcome to our Thunder City's Heavenly South Myriad Treasures Pavilion."

Han Fei glanced at the man casually. Obviously, they regarded him as a member of the other Heavenly Palaces. Han Fei didn't mind that. He wasn't from the Thunder Fire World anyway.

Han Fei nodded and said, "I came to have a look, and sell something by the way."

Faced with Han Fei's indifferent attitude, the waiter still greeted him with a smile. "What do you want to see? Myriad Treasures Pavilion is full of treasures. You'll be satisfied." Han Fei said, "Take me around first."

"Alright, guest. With your temperament and realm, you should start from the third floor. Please follow me."

Of course, this person couldn't tell Han Fei's strength, but just now, someone said to him via voice transmission, "Take them to the third floor. I'll receive them myself."

On the third floor of the Myriad Treasures Pavilion, as soon as Han Fei came up with Nian'er, he saw a slightly chubby middle-aged man. He immediately cupped his hands at Han Fei and said, "Fellow Daoist, with your strength, the things on the second floor won't suit your identity. What do you want to see? I've already asked my men to take out a portion of the treasures of our Myriad Treasures Pavilion."

Han Fei looked at the man. A junior peak-level Venerable, but this was just the manager of a shop. Sure enough, there were indeed many strong masters in the outside world.

Han Fei smiled. "Let me take a look first."

Chapter 1713 Heavenly South Auction

No matter where one was, as long as he had money and resources, he could get anything he wanted. Of course, there were also things that he couldn't get, things that wouldn't be leaked under normal circumstances.

The middle-aged manager of the Myriad Treasure Pavilion waved his hand gently, and a dozen large boxes appeared in front of Han Fei.

Bang! Bang! Bang!

He opened the box and saw nine boxes of weapons and battle suits. Han Fei had more than 9,000 of these items in Forge the Universe. What did he need them for?

Therefore, Han Fei walked straight to the other three boxes, which respectively contained spiritual fruits, array books, and fire crystals.

Seeing that Han Fei had no interest in ultra-quality divine weapons at all, the middle-aged man immediately realized that this man must have seen a lot of ultra-quality divine weapons, so he was not interested in weapons at all.

The middle-aged man smiled and said, "Sir, this spiritual fruit is hard to come by. This is a Dragon Blood Fruit, a top-quality spiritual fruit obtained from the Dragon-Subduing World. It's born from dragon blood and is very valuable. It's very beneficial to body-tempering."

Information also appeared in Han Fei's eyes.

<Name> Dragon Blood Fruit

<Introduction> This is an ultra-quality fruit that grows in a land irrigated with dragon blood. It has the effect of increasing physical strength, improving blood essence, boosting strength, and stimulating potential. <Level> Sea Establishment

<Quality > Ultra-Quality

<Spiritual Energy> 826,000 points <Effect> When eaten directly, it can increase a lot of strength and stimulate the potential of the body for a period of time. It can also increase the strength of blood and Qi and can be eaten repeatedly. Han Fei found the fruit interesting.

However, Han Fei still looked at the other two items.

The middle-aged man introduced, "Sir, this array book is said to come from the Nine Palace World. As you know, the Nine Palace World has been sealed for tens of thousands of years. You can imagine how valuable this book is."

Han Fei said with a faint smile, "The array books of the Nine Palace World might not be the best array books. Besides, I don't know how many copies it has. Let me take a look..."

The middle-aged man hesitated. However, he guessed that Han Fei's identity was not simple, so he immediately said, "Customer, you can only read three pages at most. If you want to read more, you must buy it."

Han Fei nodded slightly. "Okay!"

Han Fei looked at the array book. The pages turned, and dense patterns appeared on the pages.

However, Han Fei immediately found that these complicated array patterns were just the idea of array fusion. He could draw them himself, so there was nothing special about them.

One page, two pages, three pages...

Han Fei shook his head slightly and asked, "What about this stone?"

When Han Fei was reading the array book, his careless look couldn't be hidden from the middle-aged man's eyes.

After all, he had been doing business for so many years. The middle-aged man immediately suspected that this person was also an array master.

The middle-aged man hurriedly said, "Sir, this stone is a special item of our Thunder Fire World. It's called the Thunder Fire Stone. It's a strange stone made of mystic crystal that absorbs thunder. It can be used to refine weapons and as thunder fire. Of course, a Thunder Fire Stone can only be used for about a hundred seconds. After all, thunder fire is a rare spiritual flame."

Han Fei's heart did a flip. "I heard that thunder fire can refine Sea Quelling Bizarre Treasures. Is it true?"

The middle-aged man grinned. "Haha! Sir, it's true that thunder fire can refine Sea Quelling Bizarre Treasures. You have to know that in the entire Thirty-Six Mystic Worlds, we have the most Sea Quelling Bizarre Treasures here. Most of them are forged with thunder fire. Of course, we can't see it. After all, it's the power of Thunder Master."

Han Fei nodded slightly. "I want that Dragon Blood Fruit. Do you have anything better?"

The middle-aged man was slightly stunned. With so many treasures in front of him, this person only wanted one Dragon Blood Fruit? It seemed that this person's standards were very high! Besides, Han Fei only asked about the Sea Quelling Bizarre Treasure and didn't care about the ultra-quality Divine weapons. One had to know that a treasure like the Sea Quelling Bizarre Treasure would be fought over by the thirty-six worlds as soon as it came out. Even in the Thunder Fire World, an ultra-quality divine weapon was already considered a top-notch treasure that ordinary people could not reach.

The middle-aged man pondered for a moment. "Sir, to be honest, we still have six Dragon Blood Fruits. As for the rest..."

Han Fei suddenly asked, "What about techniques? Doesn't the Myriad Treasures Pavilion have all kinds of supreme techniques apart from weapons?"

The middle-aged man was stunned for a moment. "Great technique? Yes, but they are not that precious. Please take a look."

The middle-aged man waved his hand and several great techniques appeared in front of Han Fei.

The middle-aged man said, "Sir, these books are the strongest techniques that our Thunder Fire World can sell to the outside world. We don't know any stronger techniques. I'm afraid the higher-ups won't let them spread..."

Han Fei glanced at the books. They read, "Thunder Strike Technique, Nine Forged Thunder Hammer, Thunder Devouring Body, and Heavenly Fire Body Tempering Technique."

The middle-aged man said, "Sir, to be honest, the Thunder Devouring Body and the Heavenly Fire Body Tempering Technique are the best body-tempering techniques for the Venerables in the Thunder Fire.

You should also be a body-tempering cultivator. You should know the difficulty and extravagance of body-tempering. Is that why you bought the Dragon Blood Fruit?" Han Fei glanced at them and said with a smile, "I want all of these books."

"All of them?"

The middle-aged man couldn't help but say, "Sir, although these books are not as valuable as Sea Quelling Bizarre Treasures, they are much more precious than ultra-quality Divine weapons..."

Han Fei smiled casually. "Does the Myriad Treasures Pavilion buy things?"

The middle-aged man said, "Of course, as long as your things are good enough." Han Fei waved his hand and threw out 30 ultra-quality Divine weapons. "Hiss"

The middle-aged man was stunned. F*ck, is this guy really not here to cause trouble? He is not even from the Thunder Fire World, but he took out 30 ultra-quality Divine weapons?

The ultra-quality divine weapons that Han Fei picked were not forged by the Thunder Fire World, because in terms of forging techniques, many of them were made with spiritual energy forging techniques, not the forging techniques of the Thunder Fire World.

Therefore, when the middle-aged man glanced at Han Fei's batch of ultra-quality divine weapons, he immediately asked, "Sir, do you want all the Dragon Blood Fruits?"

Han Fei nodded. "Yes."

The middle-aged man immediately grinned. "Sir, the value of a Dragon Blood Fruit is comparable to an ultra-quality Divine weapon!"

Han Fei nodded slightly. "Reasonable."

In Han Fei's eyes, this Dragon Blood Fruit might be more valuable to him than an ultra-quality Divine weapon.

In the end, the seven Dragon Blood Fruits and four great techniques were traded for nine ultra-quality divine weapons.

Of course, Han Fei wanted to sell the remaining 21 ultra-quality Divine weapons. He had too many of them!

The middle-aged man said, "Sir, the prices of the ultra-quality Divine weapons are different because of their different designs. I'll quote you a price based on ultra-quality spiritual stones. Do you have any objections?"

Han Fei shook his head. "No."

The middle-aged man said, "Sir, in terms of ultra-quality spiritual stones, your 21 ultra-quality divine weapons are worth about 590,000 ultra-quality spiritual stones. I'll give you 600,000."

Han Fei thought to himself, On average, 30,000 ultra-quality spiritual stones are paid for an ultra-quality Divine weapon. This price is not bad. After all, ultra-quality spiritual stones contain a million points of

spiritual energy. They are much more useful than ultra-quality Divine weapons. Besides, I need them more.

Han Fei nodded. "Okay!"

With more than 600,000 ultra-quality spiritual stones, Han Fei knew that he wouldn't be short of spiritual energy resources for a long time in the future. However, he still lacked some energy fruits.

Han Fei asked, "Do you have any spiritual fruits for sale?"

The middle-aged man immediately smiled and said, "Sure. What kind of spiritual fruit do you want, Sir?"

Han Fei thought for a moment. "Vitality fruits, energy fruits, and poisonous fruits."

"Poisonous fruits?"

The middle-aged man was slightly stunned. It was understandable that he wanted vitality and energy fruits, but why did he want poisonous spiritual fruits? Shouldn't he want anti-poison fruits? Was the person also a poison cultivator?

However, he would provide whatever the customers wanted in his shop. After all, Han Fei was quite rich.

Immediately, the middle-aged man stopped guessing what Han Fei was going to do with the poisonous fruits and said, "Everyone, take out all the vitality, energy fruits, and poisonous herbs in the shop. Remember, all of them."

A moment later, in a hall of the Myriad Treasure Pavilion, Han Fei saw more than 12,000 spiritual fruits.

The middle-aged man grinned and said, "Sir, these are all we've got."

Han Fei nodded. "Are these all?"

Under the envious gazes of the waiters, the middle-aged man said to Han Fei with a smile. "Sir, these 12,000 spiritual fruits are already the best stock in Heavenly South. I don't think you'll be interested in the low-quality ones... These spiritual fruits are worth 192,342 ultra-quality spiritual stones. I'll only charge you 190,000, so I will pay you 410,000 ultra-quality spiritual stones. What do you think?"

Han Fei nodded slightly. "No problem."

The middle-aged man was excited.

Even in the Thunder Fire World, ultra-quality divine weapons couldn't be made easily. Of the hundreds of islands in the Thunder City, which one didn't have a Myriad Treasure Pavilion? After collecting these ultra-quality divine weapons from Han Fei, his Heavenly South Myriad Treasure Pavilion could provide more than 50 ultra-quality divine weapons at once.

This would definitely cause a small uproar.

One had to know that in order to refine an ultra-quality divine weapon, one had to first have the materials, and secondly, one had to have a refiner. And the refiner would have to spend months to forge...

Therefore, in the vast Thunder City, the supply of ultra-quality divine weapons could not meet the demand.

This time, the middle-aged man calculated in his heart. This time, he could earn at least a million ultra-quality spiritual stones. He could earn two percent of commission, it would be 200,000 ultra-quality spiritual stones. Just thinking about it made him very excited.

The middle-aged man smiled and paid the rest of the money to Han Fei. He said to Han Fei warmly, "Sir, the auction of the Heavenly South Myriad Treasures Pavilion will be held in seven days. If you're not in a hurry, I can arrange the best accommodation for you. At that time, many people will come from the thirteen worlds in the outer domain, which is a rare event. What do you think?"

Han Fei's heart did a flip. There should be a lot of good stuff in this auction in the outer domain. He could take a look.

Han Fei smiled. "Will anyone come from the thirteen worlds in the inner domain?"

The middle-aged man smiled awkwardly. "That's rare, but it's not impossible. Sometimes, it happens."

Han Fei nodded. "Okay! Then I'll stay here for now!"

The middle-aged man was stunned. What he said just now was just a polite greeting. Generally speaking, after doing such a big business, most customers would be worried about their own safety and would not ask the shop owner to arrange accommodation for them.

However, Han Fei was very relaxed, as if he didn't take it seriously at all.

Immediately, the middle-aged man was overjoyed. This customer couldn't be an ordinary person!

Therefore, the middle-aged man hurriedly gave a look and waved at an attendant. "Tian'er, come here. Bring the guest to the Myriad Treasure Tower's No.1 Room to rest. During this period, you should serve the guest personally. Do serve the guest well." A girl who was only a peak-level Hidden Fisher hurried over and bowed to Han Fei.

"Guest, let me take you to rest..."

"Huh?"

At this moment, a cold aura suddenly hit over.

Han Fei and the others turned their heads, only to hear Nian'er whisper, "Brother, look, what a beautiful sister!"

Chapter 1714 Ice Snow Chuling

Unlike the others, Han Fei felt that Snowmourne suddenly trembled.

Logically speaking, Snowmourne was his weapon. How could it start trembling for no reason when it saw others?

Han Fei looked back and saw a woman in white fur, whose strength had reached the peak of the Venerable realm, followed by two junior peak-level Venerables.

This woman had a graceful bearing and was dressed in a white cloak. Her face was fair and cold, but there was a hint of warmth in the corners of her eyebrows. Beside her was a peak-level Venerable.

Perhaps because of Snowmourne, when Han Fei looked at the woman, the woman was also looking at Han Fei.

The two of them looked at each other in surprise.

The man next to the woman frowned slightly and seemed to dislike Han Fei.

Han Fei didn't take it seriously.

However, when the woman passed Han Fei, she stopped and looked at Han Fei. "Did we meet before?"

Han Fei had already scanned his memory and shook his head slightly. "No."

The woman nodded and said nothing more.

The man next to her seemed to want to stop her from looking at Han Fei again, so he asked, "Shopkeeper, I heard that your Heavenly South Myriad Treasures Pavilion has several Dragon Blood Fruits. Take them out! We want them

all."

The middle-aged man paused and looked at Han Fei.

How would he know that so many people wanted the Dragon Blood Fruits today? Although the Dragon Blood Fruit was precious, no one had bought it in the past. After all, a fruit was comparable to an ultra-quality divine weapon. Ordinary people could not afford it! The middle-aged man said, "Well, our Dragon Blood Fruits have all been sold."

The young man's face changed greatly. "What? None of them are left? Who bought them?"

The middle-aged man said awkwardly, "Well, sorry... We won't disclose the privacy of any guest. If you want a treasure like the Dragon Blood Fruit, you can wait a few days. The Heavenly South Auction will be held in seven days. If you're not in a hurry..."

"Hmph!"

However, the young man snorted. "Rules are set by people. We only want the Dragon Blood Fruits. You just need to tell me who bought them..."

The woman said, "Forget it. Since they have been bought by someone else, we can wait for the auction."

The young man's face darkened. "No! Ling'er, your body is more important. Only the Dragon Blood Fruit is effective. One can ease your illness for nearly ten years. How can I let it

go?"

Han Fei frowned. I hope the owner of the Myriad Treasures Pavilion doesn't make a mistake. He held Nian'er's hand and said, "Nian'er, let's

go."

But Nian'er looked at Han Fei, then at the beautiful woman, and couldn't help but ask, "Brother, this sister seems to be sick. Should we give her one of those red fruits?"

Hearing Nian'er's words, Han Fei couldn't help but shrug.

It seemed that he had to talk to Nian'er about not abusing her compassion... Sure enough, in the next moment, the young man behind him shouted, "Stop!"

Holding Nian'er's hand, Han Fei slowly turned around and asked casually, "What's the matter?"

The young man was angry. "Brat, are you the one who bought the Dragon Blood Fruits?" Han Fei chuckled. "Yes, so what?"

The young man glanced at the woman and lowered his voice. "I can buy the Dragon Blood Fruits at double the price. Please sell them to

me!"

Han Fei smiled. "This thing is useful to me, so I'm not selling it."

"You..."

The young man was about to flare up when he saw a layer of frost blocking in front of him.

The woman took two steps forward and said apologetically, "Fellow Daoist, my friend was anxious to treat me, so he was a little impulsive. I apologize on his behalf. However, the Dragon Blood Fruit is very useful to me. I wonder if you can spare one for me. Thank you very much."

Han Fei grinned and sneered. "You only want one?"

The young man also said, "Ling'er, one is not enough!"

The woman nodded slightly. "One is enough. The Dragon Blood Fruit can only delay time."

At this moment, the old turtle's voice sounded in Han Fei's heart. "This person's body is extremely cold because she lacks a wisp of soul. If she takes an extreme Yang object, it will only offset her cold energy and consume her lifespan faster."

Han Fei replied, "No wonder... This person is a peak-level Venerable, but she looks quite weak. Can my Heaven Enlightenment Great Dao save her?"

The old turtle said, "No. She has a congenital physical defect. The power of extreme Yin and extreme cold can help her break through at an inhuman speed, but it will also consume her lifespan at an inhuman speed. Your Great Dao of Heaven Enlightenment can't summon souls, so its effect on her is actually similar to the Dragon Blood Fruit."

Han Fei nodded.

In the Myriad Treasures Pavilion, under the gaze of these people, Han Fei shook his head slightly. "No!" "How dare you! Kid, you're only a junior Venerable. Do you believe that I won't let you leave Thunder City?"

The young man was furious and almost exploded.

Han Fei glanced at the young man in disdain. "A mere peak-level Venerable dares to say that to me? Are the people of the Ice Snow World so arrogant now?"

"Mere?"

Immediately, the middle-aged man and the people around him, including the woman, looked at Han Fei in surprise.

Nian'er clenched her fists and said, "My brother is very powerful. He's not afraid of you."

The young man narrowed his eyes. Could it be that this person's identity was also extraordinary? He snorted coldly. "If the Ice Snow World is not qualified, what about my Golden Crow World?"

"Hiss!"

"A strong master from the inner domain?"

The middle-aged man gasped. Why were even Inner Domain experts here?

Seeing the woman frown, Han Fei understood.

Han Fei said, "You can ask the people of the Golden Crow World to try me."

Then Han Fei looked at the woman from the Ice Snow World and said, "You want to borrow the fire of the Golden Crow World to treat your illness... only to find that your lifespan is consumed even faster and they can't do anything about it, right?"

The man shouted, "What do you know? Don't talk nonsense again. Only we Golden Crow World can save Ling'er."

But the woman suddenly narrowed her eyes and looked at Han Fei in surprise. "Are you from the Medicine King World?"

Han Fei asked, "Can the Medicine King World save you?"

The woman shook her head. "No!"

Han Fei said, "You have a body of extreme yin and extreme cold. Because you lack a wisp of soul, any Extreme Yang Spiritual Treasure is poisonous to you. Therefore, I'm actually helping you by not exchanging the Dragon Blood Fruit with you. Otherwise, it will only accelerate the reduction of your lifespan."

With that, Han Fei took Nian'er's hand and was about to leave.

Han Fei said as he walked, "Nian'er, sometimes, helping others depends on specific situation. You can't just come up to help a person as soon as you see he is in trouble. Most of the time, if you help them, you might harm them."

"OK!"

The two junior Venerables beside the woman were shocked. "How can this be? Holy Lady Chuling, is your lifespan really decreasing?"

The man was shocked too. "How is that possible? Nonsense! Ling'er, you can't believe him. When I become a Half-King, I can trigger the Golden Crow Fire Seed and save you."

"Huh?"

After a few steps, Han Fei stopped and frowned. Han Fei looked back at the woman and asked, "Young lady, what's your name?" The Golden Crow man said, "What are you going to do?"

The woman bowed slightly. "I'm Ice Snow Chuling from the Snow God's Temple of the Ice Snow World."

Han Fei: "..."

Han Fei was stunned for a long time. It turned out that Ice Snow Chuling was the Holy Lady of the Ice Snow World, but he met her in the Thunder Fire World.

Han Fei really didn't know what to say... Perhaps everything in this world was somewhat connected by fate.

Han Fei hesitated for a moment and said via voice transmission, "I might be able to help you, but I don't like this idiot around you. I'll stay here to participate in the auction these days. It won't be difficult for you to find me..." "A Half-King?" Ice Snow Chuling's pupils were constricted again. Han Fei's strength was clearly that of a junior Venerable, but only a Half-King could avoid everyone and send a voice transmission to her.

No wonder this person wasn't worried or afraid at all when he heard about the Golden Crow World.

He was already a Half-King. Unless he was killed by multiple Half-Kings or a King, who could easily shake a Half-King?

Han Fei turned to Tian'er, who had been worried sick, and smiled. "Okay, lead the way!"

Among those present.

The middle-aged man of the Myriad Treasures Pavilion secretly remembered that Han Fei was not an ordinary person!

Facing the Holy Maiden of the Snow God's Temple, his expression didn't even change, and he refused her firmly.

Facing a strong master from the Golden Crow World, he actually showed contempt!

He was definitely powerful from the bottom of his heart!

As a businessman, although his cultivation level was not high, he had seen all kinds of people. Therefore, the middle-aged man immediately confirmed that Han Fei was definitely not an ordinary person. Ice Snow Chuling was also surprised. She had lost a wisp of soul, which was the same as what the Medicine King said. But he said he could help her? Could he help her summon her soul back?

The most annoyed person was the man from the Golden Crow World.

At this moment, he gnashed his teeth. If it weren't for the fact that Ice Snow Chuling was still here, he would have gone up to kill Han Fei.

At this moment, he said, "Ling'er, this guy is arrogant. Let me investigate him."

Ice Snow Chuling frowned and looked at the young man. "Stop it, Jin Quan. This person is right. I do lack a wisp of soul. Perhaps he's right. The power of Yang is only accelerating my death."

Chapter 1715 Murderous Intent

In fact, the Myriad Treasure Tower was often the place where distinguished guests from the thirteen worlds in the outer domain were arranged to stay.

Those who could visit the Heavenly Palaces next door were usually not simple people and had some family background. For example, Han Fei, who sold thirty ultra-quality divine weapons at once, was a VIP. The Myriad Treasure Tower was not far from the Myriad Treasure Pavilion and had more than thirty floors.

Han Fei was arranged to live on the highest level of the Myriad Treasure Tower, which represented his status.

Half of the top floor was for Han Fei to live in. All the facilities here were ready, and it was like a super luxurious hotel here.

Standing on the roof, he could see everything in the distance.

Outside the Myriad Treasure Tower, other than the refining shops, there were mostly some bazaars. However, the types of bazaars were no different from those in the other heavenly palaces except that they had more local characteristics.

Nian'er: "Brother, I want to go out and have fun."

Han Fei smiled and looked at Xiao Se. "I have something to do. Take Nian'er to play nearby. Don't go too far."

Xiao Se nodded slightly. As an intermediate Venerable, it was easy for him to take care of Nian'er.

Nian'er: "Brother, aren't you going?"

Han Fei said with a smile, "Nian'er, be a good girl. I still have something to do. Go out and buy whatever you need. Don't worry about money."

Han Fei threw out a Sun-Moon Shell.

After Xiao Se left with Nian'er, Han Fei waved his hand. The four great techniques he bought from the Myriad Treasures Pavilion were placed in front of Han Fei.

On the boat, Han Fei had planned to learn the refining techniques of the Thunder Fire World. This was actually very simple for him. He just needed to find two mainstream refining techniques of the Thunder Fire World.

The Lightning Strike Technique that he had bought from the Myriad Treasure Pavilion was extraordinary. Although it was a mid-quality Venerable-level technique, it should be possible to deduce the Heaven-Seeking Lightning Drawing Technique with it...

Sure enough, Han Fei only used a wisp of Chaotic Qi, and the Heaven-Seeking Lightning Drawing Technique was deduced in one go.

Heaven-Seeking Lightning Drawing Technique (Venerable-level, Ultra-quality)

Remark: Gathering the power of the heavens, attracting lightning. Draw the power of the lightning in the nine heavens into the hammer body and hammer it with force. Through the power of lightning, eliminate impurities to achieve the effect of pure heavenly power. This is a great refining technique. Unless one is a body refiner, don't try this technique easily. Deduction Cost: 10 wisps of Chaotic Qi

Note: This lightning is only ordinary lightning

When Han Fei saw that the lightning was just ordinary lightning, he immediately lost interest.

It seemed that this Heaven-Seeking Lightning Drawing Technique was still not strong enough!

His refining skills were not bad, and he could already forge ultra-quality divine weapons. If it was just ordinary lightning, he still couldn't make a Sea Quelling Bizarre Treasure... Therefore, Han Fei didn't plan to stay here.

"Continue deducing!"

A moment later, a new technique appeared in Han Fei's mind.

Sky Lightning-Seeking Technique <Venerable-Level, Divine-Quality>

Note: By gathering the power of the heavens to form a lightning array, it can trigger the Great Dao in the sky and seek the lightning of the nine heavens. Draw the power of the lightning in the nine heavens into the hammer body and hammer it with force. Through the power of lightning, eliminate impurities to achieve the effect of pure heavenly power. This is a great refining technique. Unless one is a powerful body refiner, don't try this technique easily.

Deduction Cost: 100 wisps of Chaotic Qi

Note: When this technique is mastered, there is a certain chance of obtaining purple lightning.

Han Fei nodded in satisfaction when he saw the Sky Lightning-Seeking Technique. If purple lightning appeared, it would be very beneficial for his body tempering. At this moment, Han Fei felt that there was no need to continue deducing. If he continued deducing, it would be a technique in the Sea Establishment Realm. Besides, it consumed a lot of Chaotic Qi.

He should be accumulating Chaotic Qi instead of consuming it.

After obtaining the Sky Lightning-Seeking Technique, Han Fei still needed the hammer technique.

Originally, Han Fei could deduce the Hundred War Divine Hammer, but he was used to using knives, and the Hundred War Divine Hammer was a combat technique. He probably wouldn't use this technique much in the future, so he didn't deduce it.

Han Fei also deduced the Nine Forged Thunder Hammer, the Thunder Devouring Body, and the Heavenly Fire Body Tempering Technique.

The results were:

Treasure Form Thunder Hammer (Venerable-Level, Divine-Quality)

Note: When cultivating this hammer technique, one will have the appearance of the Thunder God. It requires the cultivator to have an extremely strong physique and be able to wield this hammer with at least ten thousand waves of strength. This technique can also be used as a body-tempering technique.

Shortcoming: This technique consumes a lot of hammers.

Deduction Cost: 100 wisps of Chaotic Qi

Remarks: It may induce lightning. This great technique was both a hammer technique and a body-tempering technique.

He kept reading:

Thunder Body (Venerable Level, Divine Quality)

Remark: It can be used to refine weapons and attract lightning, and can also be used to temper the body and create a thunder body. Once one gains a thunder body, his spiritual heritage is no longer mortal but becomes heavenly. Those who cultivate the thunder body can withstand thunder and lightning. Its effect is more than double that of ordinary people in the same realm.

Shortcoming: When practicing the Thunder Body, you need to use thunder drawing techniques a lot or find a place with more thunder and lightning to temper your body.

Deduction Cost: 100 wisps of Chaotic Qi

Note: The main problem with this technique is finding thunder and lightning.

Han Fei felt that he should be able to refine this Thunder Body after he returned to the Wild Abyss and tempered it in the Thunder Prison for several years.

The next one:

Heavenly Fire Body (Venerable-Level, Divine-Quality) Note: Draw the Heavenly Fire to temper the body and set up the Heavenly Barrier. Using the world as a furnace and the body as a weapon, you can build a place of extreme Yang but it will take 49 years to finish it. Before cultivating this technique, cultivate the Thunder Body. The effect may be doubled.

Shortcoming: Cultivating the Heavenly Fire Body requires an extremely strong physique. Otherwise, you won't be able to survive the cultivation.

Deduction Cost: 100 wisps of Chaotic Qi

Note: Taking Heavenly Fire as strength, it's not to be underestimated.

Looking at the Heavenly Fire Body, Han Fei remembered that the Body Tempering Technique that the Giant King gave him was also to draw the Heavenly Fire to temper his body. However, it was to draw the Heavenly Fire to refine a stone first, which was different from directly drawing the Heavenly Fire.

However, it would take 49 years to finish the cultivation of the Heavenly Fire Body. Who could afford so much time? It was 49 years in the outside world!

After reading the three techniques, Han Fei's heart did a flip. If he added the Ancient Desolate War Body, he should have four body-tempering techniques for peak-level Venerable, right?

He wondered what the Demon Purification Pot's fusion technique was like. If he could collect some body-tempering techniques, deduce them to the same realm, and fuse them, he wondered if he could create a body-tempering technique stronger than the Supreme Mystic Body.

If he could deduce it, the Thunder Body and the Heavenly Fire Body were just transitions.

At that time, once he cultivated the super body tempering technique, his strength would definitely advance by leaps and bounds, and the effects would be incomparable. Sitting cross-legged, Han Fei smiled. Obviously, these great techniques of the Thunder Fire World were slowly released by the Lord of Thunder Fire after some modifications.

Therefore, when he deduced to the end, the results would be alike.

Or perhaps, the cultivation technique of the Master of Thunder Fire would be different from what he had deduced.

The master of thunder fire probably had at most one cultivation technique that had entered the Sea Establishment realm.

Otherwise, if he had many cultivation techniques that had reached the Sea Establishment Realm, the Thunder Fire World would not have become one of the thirteen worlds in the outer domain, but one of the thirteen worlds in the inner domain. It would even be comparable to a powerful heavenly palace like the Immeasurability World.

However, Han Fei didn't panic. He had just come to the outer domain, and the Thunder Fire World was the first Heavenly Palace he had come to.

After finding Yin'er, he still had to make a trip to the Supreme Mystic World.

It was said that the Supreme Mystic Body had collected all the unique techniques in the world, so there might be some good body-tempering techniques. If he could get some for himself, he might be able to create an unparalleled technique.

While Han Fei was still immersed in his fantasy, Xiao Se suddenly said, "Han Fei..." Xiao Se simply called Han Fei's name, and Han Fei's perception had already been cast over.

At the same time, a perception swept over, and the two perceptions collided in the void.

Han Fei sensed that the other party's soul was tough and seemed to want to fight him.

"Humph ~"

Han Fei's soul turned into a thorn and pierced through the man's soul.

In the next moment, Han Fei activated the Near at Hand Technique and appeared outside a restaurant.

When Han Fei arrived, he saw a trace of blood at the corner of Xiao Se's mouth.

Nian'er was being held by a young woman.

There were three people on the other side, a young man, a young woman, and a white-haired old man.

The young man was bleeding from the corner of his mouth and staring at Han Fei fiercely.

"Brother!"

Nian'er shouted at Han Fei anxiously, trying to break free from the young woman's hand.

In an instant, monstrous killing intent enveloped the three people opposite Han Fei.

The young man and the young woman felt as if they had fallen into a demonic altar, shocked.

The woman's face was pale, and she was shocked. "What a terrible killing intent! How many people have died under his hands?"

The man tried to resist Han Fei's killing intent, but his mouth was bleeding. Han Fei might have killed more people than the rice he had eaten. How could he resist him?

Compared to the two of them, the old man opposite them could still stabilize his figure.

Han Fei looked at the young woman coldly. "Let go."

The young woman subconsciously let go and did not dare to grab Nian'er again. Nian'er quickly broke free from the woman and ran to Han Fei.

Nian'er was crying. "Brother, they want to take me away."

Han Fei wasn't afraid of killing in the Thunder Fire World. Even if the Lord of Thunder Fire came, he could still escape. Once he entered the Infinite Ocean, no one could do anything to him.

The old man hurriedly cupped his hands and said, "Fellow Daoist, it's all a misunderstanding... Please listen to my explanation."

"Hmph!"

Han Fei snorted and his killing intent disappeared. Then he looked at the old man coldly and said, "You'd better think about how to explain it... Whether you can walk out of the Thunder Fire World depends on your explanation."

Chapter 1716 Han Fei, the Baby-sitter

Han Fei was domineering. With his personality, he wouldn't be bullied even in the outside world. As the Ninth Immortal Master, how could he be bullied by a group of Venerables?

At this moment, Han Fei looked at the old man coldly. As he said, if this old man couldn't give him a good explanation, these people would be robbed when they left the Thunder Fire World.

Although the old man was a peak-level Venerable, he couldn't resist Han Fei's pressure.

He said slowly, "Fellow Daoist, we are from the Medicine King World. We came to the Thunder Fire City to participate in the Heavenly South Auction. Today, we saw this girl and knew that she was extraordinary. She might be qualified to join the Medicine King World or even our Heavenly Palace. Just now, we were just checking her aptitude."

"Hmph!"

Han Fei sneered. "Do I need you to check Nian'er's aptitude? Besides, how can you hurt my servant?"

The woman said in surprise, "This person attacked us first. We just checked the girl's aptitude, but he acted as if we were going to snatch her."

Han Fei looked back at Xiao Se, who said with a dark face, "No one is allowed to investigate Little Master."

Han Fei said casually, "Have they done that?"

This time, before Xiao Se could speak, the woman said, "No. He sent a voice transmission to you the moment he attacked, and then you arrived. How could I have time to check her?"

Han Fei: "Then why did Nian'er say that you were taking her away?"

The old man said, "It's just that this girl thinks we're taking her away."

"Hmph!"

Han Fei retracted his fierce stare and said leisurely, "This is just a warning to you. Don't think that just because the Medicine King World belongs to the inner domain, you can do whatever you want. If you do it again, I'll kill you."

Han Fei secretly used the power of the Hundred Beast Soul Devouring when he said "kill". How could the three of them resist it? Therefore, at almost the same time, the three people, including the white-haired old man, felt a tightness in their chest. A mouthful of blood was directly held in their throats.

The white-haired old man was shocked. What the hell is this? Judging from his clothes, this person is definitely not from the Thunder Fire World, but his strength is so strong. He is at least a Half-King.

Han Fei turned his head and smiled. "Nian'er, shall we continue shopping? I'll show you around..."

"Yes, yes ~"

Nian'er was still afraid of strangers. In the end, she glanced at these people from the Medicine King World, as if she still had lingering fear. A moment later, Xiao Se looked at Han Fei. "These people seem extraordinary. Is it okay to offend them?"

Han Fei chuckled. "Offend them? If it weren't for the fact that this is Thunder City, they would be floating on the sea now. Besides, the Medicine King World belongs to the inner domain. The people of the inner domain have to return to the inner domain sooner or later. By then, we might have to borrow their route." On the other side, the three of them were still in shock.

The woman said in horror, "Grandpa Xu, how strong is this person? He's so terrifying."

The young man also gritted his teeth and said, "Elder Xu, are we just going to let this matter go? If others know that our Medicine King was bullied on the street in Thunder City, they will laugh at us!"

The old man shouted, "That's enough. Shao Fan, just because you're a Venerable doesn't mean you're powerful. Although the Thunder Fire World is weak, its refining skills are unparalleled. There are many strong masters in Thunder City. If this person can make you vomit blood with a thought, he can kill you with a thought. You should be glad that you didn't meet him at sea."

The young man's expression changed, but the woman was still scared. "This person's killing intent is so strong. He's probably not a good person!" The old man said indifferently, "How many good people do you think can reach the Venerable realm?"

Three days later.

Han Fei had completely swallowed the power of Water Luster's bloodline. The consumption of a legend bloodline boosted Han Fei's bloodline.

The data showed:

Owner: Han Fei

Level: 89 (Half-King)

Bloodline Ranking among the Clans in the Infinite Ocean: the 4,086,214th

Chaotic Qi: 1,439 wisps

Spiritual Power: 200,001

Perception range: 100,000 kilometers

Strength: 21,709 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unknown

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level 78)

Second Spiritual Beast: Emperor Sparrow (Level 75)

Main Art: The Seventh Level of Void Fishing, Void Descending Art (King Level, Divine Quality)

As expected of a legend bloodline, Han Fei's overall strength improved again. Not to mention that his ranking among the races in the Infinite Ocean had increased by nearly 800,000, his soul power had exceeded 200,000, and his perception power had increased from 80,000 to 100,000, which surprised Han Fei.

In the Venerable realm, his soul power could break through the 200,000 mark. That was wonderful!

In terms of strength, the bloodline devour this time increased his strength by about 500 waves.

After all, Han Fei had only swallowed bloodlines and hadn't practiced any body-refining techniques. Now, looking at this information, it seemed to tell him that his potential was increasing.

At this moment, Han Fei felt that he had to find a great technique to cultivate as soon as possible.

The three body refinement techniques that he had just obtained from Thunder City were actually not suitable for cultivation in the city. After all, one was about refining weapons, one required him to be struck by lightning, and the other required him to be roasted by the Sun Essence Fire.

Han Fei needed a technique similar to the Ancient Desolate War Body or the Indestructible Body. As long as he had resources, he could cultivate it...

Of course, Han Fei needed to find another bloodline to devour. These different advanced bloodlines were indeed beneficial to him in all aspects. Han Fei glanced again. In the black mist of the Demon Purification Pot, the information showed:

Clans in the Infinite Ocean: 29620223

Master: the 4086214th

Nearby Bloodlines: Ancient Azure Dragon, Time Dragon Carp, Sea Controlling White Shell, Ancient Essence Shell, King Ba Crab, Twin Yin-Yang Spirit Swallowing Fish...

Recommended Bloodlines: Sea Controlling White Shell, Ancient Essence Shell, King Ba Crab...

Han Fei narrowed his eyes slightly. From the recommended bloodlines, the Ancient Azure Dragon, the Time Dragon Carp, and Little Black and Little White didn't seem to be bloodlines that he could devour now.

Fortunately, he still had the blood essence of the Sea Controlling White Shell and the Ancient Essence Shell.

The bloodline of legendary creatures was only ranked around five millionth.

Now that he had swallowed the blood essence of a legend creature, his bloodline was ranked around four millionth.

The Sea Controlling White Shell was an ancient mutant. Although its level was not much better than that of the legends, it was still higher. Since the Demon Purification Pot had recommended him to devour it, there was no need to continue devouring the blood essence of other legend creatures.

Therefore, Han Fei continued to devour without hesitation.

A moment later.

When a phantom of a small shell appeared in Han Fei's dantian, the words "In evolution" also appeared in the information. However, this time, it was 508 days. Han Fei narrowed his eyes slightly. It seemed that the higher the level of the bloodline, the longer it would take to devour it. And this was only the Sea Controlling White Shell!

As for the Ancient Essence Shell and the King Ba Crab, they were both powerhouses who had become kings. After being baptized by the Heavenly Tribulation, their life levels were much higher than those below the Venerable realm.

It would probably take even longer to devour them.

Han Fei couldn't help but frown. 508 days was equivalent to more than a month in the outside world. If it became a few years, decades, or even hundreds of years, it would probably be a long time in the outside world.

Han Fei couldn't help but look at his Chaotic Qi. He really wanted to continue strengthening the Time Chain now. If the old turtle hadn't reminded him that to become a king, he would have to consume a lot of Chaotic Qi, he would have used it long ago. Seven days passed.

Han Fei was sitting opposite Nian'er.

At this moment, Han Fei was teaching Nian'er all kinds of knowledge that almost drove Xiao Se crazy.

For example, Han Fei asked, "Nian'er, if you want to cultivate, what's the best way for you to get resources?"

Nian'er: "Catch fish and find treasures."

Han Fei shook his head. "No! It's robbery. In the world of cultivators, the strong prey on the weak. If you have resources, many people will come to rob you. You can only count on people to restrain themselves when there are no bystanders. Good people sometimes become bad people, and bad people may sometimes become good people. So, don't believe in good people."

Nian'er asked, "Then... should we just rob anyone with resources?"

Han Fei said with a smile, "Of course not. Some people are weaker than you and aren't very talented. They usually have nothing worth snatching. If you want to rob, you should rob those who are talented and have a strong background. Even if you rob these people, they can still earn the resources back. You're just a small obstacle to their cultivation path."

Nian'er said, "Oh... Will robbery involve life and death battles? Brother Xiao Se said that the outside world is filled with killing."

Han Fei said with a smile, "That depends. If you find some people pleasing to the eye and there's no need to kill them, you don't have to do it. If some people look bad, like the pirates we saw last time, you don't have to hesitate. Just kill them."

The Time Dragon Carp asked Han Fei to take care of her child, but he soon denied everything that Xiao Se had taught Nian'er. At least, Xiao Se wouldn't teach Nian'er to rob.

Over the past few days, Xiao Se had tried to interrupt Han Fei more than once, but was all stopped by Han Fei's stare.

Han Fei was about to continue his lecture, when he heard the voice of Tian'er outside the door. "Guest, the Heavenly South Auction will begin in two hours. Do you want to go over now?"

Han Fei thought for a moment. He just wanted to take a look at the auction. There was no need to hide it.

Therefore, Han Fei slowly stood up and said, "Let's go, Nian'er... I'll teach you how to spend money today."

Chapter 1717 Heavenly South Auction

Han Fei had participated in auctions before.

Han Fei had participated in auctions when he was on the Scattered Stars Island. He spent so much money that he almost had a nosebleed.

However, the standard of the Scattered Stars Island was very different from here.

The auction here was held underground. Whether it was from the Myriad Treasure Pavilion or the Myriad Treasure Tower, there was a direct passage to the auction house.

Han Fei and the others took the "elevator" directly from the Myriad Treasure Tower.

Tian'er said, "Sir, because you made a big deal in the Heavenly South Myriad Treasures Pavilion, the manager specially arranged an independent auction room for you. The room has an independent shield array that even Venerables can't detect. Of course, if you don't mind, you can remove the array."

Han Fei smiled. "Great."

Han Fei thought to himself, As expected of a big city. The specifications are indeed different.

When Han Fei arrived at the so-called private room, he found that although the room was not big, it was quite elegantly-furnished. There was tea on the table.

Tian'er said, "Sir, this is Heavenly Treasure Dew and Vein Opening Tea specially bought from the Medicine King World. Please enjoy. If you have any orders, please call me."

However, Han Fei frowned slightly and said casually, "Give me a new tea set. This pot of tea is yours."

"Huh?"

Tian'er was stunned. This pot of tea was worth a hundred ultra-quality spiritual stones! How could he throw it away so easily?

However, Tian'er was indeed delighted.

These days, Han Fei and the others didn't need her at all, so they didn't give her any tips.

Unexpectedly, when the auction began, the other party felt that the Medicine King World's precious tea was not good enough and gave it all to her...

At this moment, Tian'er knew why the steward asked her to serve Han Fei and company. She was new to the Myriad Treasures Pavilion and was still too weak. If she served such a guest, this pot of tea would be enough for her to enter the Law Enforcer realm. Perhaps she could even quickly stabilize the Law Enforcer realm.

A moment later, a brand new tea set was served.

Han Fei waved his hand and the Earth Vein Spring Water appeared in the pot.

As for Nian'er's cup, Han Fei specially put a few drops of demonic energy essence in it. Then Han Fei began to drink the remaining bottle of demonic energy essence.

Perhaps it was because of the improvement of his bloodline that his life level and potential had improved too. The power that Old Yuan had given him previously was slowly being absorbed.

At this rate, only about a month later, he could ask Old Yuan to release a little more.

Tian'er was shocked. Is that... Earth Vein Spring Water?

She felt that she was crazy. She had only seen a small bottle of Earth Vein Spring Water in the five months she had been in the Myriad Treasures Pavilion, but Han Fei drank it as tea? Was this the world of the strong?

The Heavenly South Auction House was divided into three levels.

Among them, there were countless private rooms. Those with status were basically on the top floor with a total of 36 rooms. There were 72 rooms on the middle floor, and the bottom floor was the hall.

In fact, there were many rich people who were in the hall. These people purely came to seek treasures.

A skinny old man was hosting the auction. His strength had actually reached the peak of the Venerable realm. Obviously, this also showed the power of the Myriad Treasure Pavilion in Thunder City.

To be able to control such a big scene in the Myriad Treasure Pavilion, he certainly had a Half-King behind him. Perhaps it was even related to the Master of Thunder Fire.

The old man introduced, "Everyone, I'm Zhou Qinglei from the Myriad Treasures Pavilion of the Thunder City. Today, I'll host the Heavenly South Auction. Today, there are a few extraordinary treasures about to be revealed. You may feast your eyes on them."

This old man was so mysterious.

Immediately, someone said, "Master Qing, can you tell us what the treasures are?"

The old auctioneer smiled faintly. "Don't worry. Even if I tell you, you don't know what they are!"

"Hahaha!"

Many people in the hall laughed. Someone said, "You're only a Half-Venerable. Can you afford a Sea Quelling Bizarre Treasure?"

Someone sneered. "Forget about the Sea Quelling Bizarre Treasure. You might not be able to buy an ultra-quality Divine weapon with all your wealth."

Han Fei couldn't see the situation in other private rooms, so he glanced at Tian'er. "Go out and wait. I'll call you if I need you."

Tian'er said, "Yes! Customer."

Han Fei sat at the table, drinking and waiting. The auction started in advance.

Zhou Qinglei said, "Everyone, we can't be slow today. The Heavenly South Auction always has treasures to tell. Please pay attention. Next is the first item..."

A platform covered in red silk appeared in front of Zhou Qinglei.

Someone immediately said, "It's indeed the usual auction style. It's an ultra-quality divine weapon."

Zhou Qinglei smiled and raised the red silk.

Immediately, green light flashed and thunder arcs flashed. Zhou Qinglei shouted, "The first auction item is an ultra-quality divine weapon, the Purple Lightning Green Fire Hook. It's an offensive weapon that can break through evil aura. It has a powerful suppressing effect on undead creatures and evil energy. The starting price is 10,000 ultra-quality spirit stones."

Someone said with a smile, "It's always like this. The ultra-quality Divine weapon should have been worth at least 20,000 ultra-quality spiritual stones, but they only bid 10,000 in the beginning. Isn't the atmosphere here hot enough? Let me warm it up. I'll pay 20,000."

Someone sneered. "Humph, Add ten thousand ultra-quality spiritual stones at one go? You think you are rich? Twenty-one thousand." Someone shouted, "Twenty-two thousand..."

"Twenty-three thousand..."

"Thirty thousand." Seeing this scene, Han Fei felt that he was too stingy before. Were the people in the outside world so rich? ultra-quality spiritual stones! Spend twenty to thirty thousand of them at a time. How much spiritual energy was that?

Clang!

In the end, Zhou Qinglei shouted, "Purple Thunder Green Fire Hook, 38,000 once, 38,000 twice... Deal."

After the deal was made, the atmosphere was even more heated. Zhou Qinglei raised his head and looked up. The people above did not bid, especially the people at the top floor. Until now, no one had bid. It seemed that the treasures were still not good enough. Zhou Qinglei waved his hand, and a purple fishing rod appeared. "The second auction item is the Purple Dragon Void Shattering Rod. This rod is forged with the blood-colored Purple Dragon Bone, with the Heavenly Thunder God Iron as the hook and the Heavenly Carp's whisker as the silk. It was forged in 49 days by a six-star refiner in the Thunder City. The starting price is 20,000..."

"Hiss! Heavenly Thunder God Iron as the hook? Isn't it said that the Heavenly Thunder God Iron is forged by the Master of Thunder Fire?"

"Damn, I'll definitely take this rod. I'll pay 25,000."

"It's rare to see a blood-colored purple dragon. This pole is good for cultivating a Hook Kill Technique. I'll take it. Thirty thousand."

meo

This time, someone from the top level made a move.

Anyway, Han Fei didn't know who it was. As soon as the man opened his mouth, he offered 50,000 ultra-quality spiritual stones, which shocked everyone and the fishing rod was easily taken by him.

Logically speaking, although the fishing rod was good, as one became stronger and stronger, ordinary people wouldn't be able to use such a strong fishing rod unless they encountered extremely strong fishing techniques and hook killing techniques. However, Han Fei couldn't help but sigh. Refiners made so much money! They seemed to be making money even faster than him.

Han Fei couldn't help but click his tongue in wonder. In the end, he knew too little of the world before. Fortunately, he had been in the outside world for a while. If it were before, he would have been shocked by the massive amount of resources.

Next.

As if to attract the upper-class guests to make a move, this auction started with five ultra-quality Divine weapons. In order to take care of the people in the hall, more than 20 high-quality Divine weapons, heaven-level ultra-quality cultivation techniques, Venerable-level cultivation techniques, and top-quality spiritual fruits were thrown out.

But Han Fei was getting impatient. When Zhou Qinglei saw that someone on the top floor had activated the array, he frowned and knew it was time.

The old man shouted, "Guys, what's next is really rare."

A small bottle appeared on the platform.

Zhou Qinglei spread out his hands and looked around. "There are three pills in this bottle. These are the Heavenly Power Pills refined by a Half-King in the Medicine King World. After taking them, within three months, your understanding of the spiritual energy of heaven and earth and your affinity with the power of the Great Dao will double. Whether it's practicing cultivation techniques, great techniques, body tempering, or absorbing the power of chaos, the effect will double. Seeing is believing. In order to prevent any loss of medicinal effect, it will be specially displayed for ten breaths."

"Hiss!"

"Heavenly Power Pill? That's a divine medicine for Venerables!"

Someone said, "What do you know? That's a divine medicine for those below the Venerable realm. It's said that anyone who consumes it can definitely break through a realm."

Someone said, "However, it's also very useful for Venerables. It's said that this one can save ten years of hard work."

Zhou Qinglei opened the box, and a golden pill floated in the air, and information appeared in Han Fei's eyes.

<Name> Heavenly Power Pill

<Introduction> An auxiliary cultivation pill refined by an alchemist with a wisp of Chaotic Qi and 300 precious materials. After taking it, your potential will be stimulated and you can cultivate quickly in a short period of time.

<Level> Venerable

< Quality > Ultra-Quality <Chaotic Qi> One wisp

<Note> The effect on advanced Venerables and above is average.

When Han Fei saw the last description, he smiled. It was useless even for advanced Venerables, let alone him.

Moreover, this thing looked expensive. It would cost at least 50,000 ultra-quality spirit stones. He couldn't buy it and give it to Xiao Se, right? After all, Old Yuan didn't need it. Old Yuan was an emperor. Han Fei was not interested, but the audience was shouting crazily. Even on the top floor, more than half of the private rooms had begun to bid.

Someone shouted, "Sixty thousand."

"Seventy thousand."

"Seventy-five thousand."

"Eighty thousand." "A hundred thousand."

Suddenly, someone shouted in the private room next to Han Fei.

The three pills were directly quoted at a sky-high price of 100,000 ultra-quality spirit stones, shocking everyone present.

A young man walked out of the private room. There was a line of fire between his eyebrows and five colors spinning behind him.

"Hiss! It's a Five Elements Disciple." "What? Such a heavenly talent is also participating in the Heavenly South Auction?"

"He has already shown himself. It seems that we can't compete for the Heavenly Power Pill."

Chapter 1718 Spend Money Like Water

The auction of the Heavenly Power Pill pushed the auction to its climax.

In the end, the Five Elements Disciples obtained the three Heavenly Power Pills.

"Tian'er!"

Han Fei called out, and Tian'er immediately walked in and said respectfully, "Sir, what can I do for you?"

Han Fei said casually, "Tell me about the Five Elements Disciples."

Tian'er was slightly stunned. She thought to herself, Since the guest is so rich and strong, how can he not know the Five Elements Disciples?

However, she was just a waitress. If a customer asked, she would answer.

Tian'er said, "The Five Elements Disciples are disciples of the Five Elements World. In the Thirty-Six Mystic Worlds, some kings of the Heavenly Palace personally teach disciples. This Five Elements Disciple

is called Ban Yi, and he has the strength of an intermediate peak-level Venerable. It is said that he can fight across realms and control the five elements at the same time. He is recognized as a Heavenly Talent in the thirteen worlds in the outer domain for close combat and long-range combat. Even in the thirteen worlds in the inner domain, some people say that he can be ranked in the top ten in his realm.”

“Huh? How many people are like this guy in the Five Elements World?”

Tian’er said, “I don’t know about that, but there are three Five Elements Disciples who have appeared.”

“Okay! Alright, you can leave now!”

“Yes, Customer.”

After Tian’er left, Nian’er said, “Brother, it sounds awesome. He can control five elements. But I can only control time...”

Han Fei didn’t know whether to laugh or cry. “You can control time. Even if he can control a hundred elements, he will be no match for you. Nian’er, you have to remember that the Great Dao of Time is one of the most powerful Great Daos in the world. Don’t underestimate yourself.”

“Really?”

“Uh-huh!”

While Han Fei listened to Tian’er’s explanation, Zhou Qinglei took out another bottle of pills.

Amidst the exclamations, someone was shocked. “What? Triple Dao Pattern Pill?”

While Han Fei was wondering about the pill, Zhou Qinglei said with a smile, “It seems that you’ve long heard of it. As the name implies, the Triple Dao Pattern Pill is a supreme pill that has experienced the Pill Tribulation. Also, the triple dao patterns mean that it has experienced triple pill tribulations. It’s only one step away from four dao patterns. You can evaluate its value. This pill has a spirit and can’t be displayed. Its effect is mainly to improve one’s physique, strengthen one’s Qi, blood, and physique, which will greatly help one break through. You can trust the credibility of the Myriad Treasures Pavilion... The starting price of this pill is 100,000 ultra-quality spiritual stones.”

“Hiss “

Han Fei gasped. F*ck, is alchemy so profitable? The starting price is 100,000? Then won’t it be 200,000 in the end?

Spending hundreds of thousands of ultra-quality spirit stones in exchange for a pill? Was there something wrong with his brain?

However, the old turtle suddenly said, “Buy it.”

Han Fei immediately said, “No, isn’t this a bit expensive? He didn’t even show it to me.”

The old turtle said, “This Triple Dao Pattern Pill should be a third-level Tribulation Pill from the Age of Gods. It contains the rules of the Heavenly Dao, and the power of the Great Dao is rich, which is not

comparable to ordinary pills. Although I don't know which aspect this pill focuses on, it can't be wrong to buy it."

Han Fei asked, "What is the Pill Tribulation?"

The old turtle said, "If you are that pill, then the Pill Tribulation represents the Heavenly Tribulation."

Han Fei's eyelids twitched. "So it's a pill that has passed the Heavenly Tribulation?"

The old turtle sneered. "This is nothing. If a pill transcends six Pill Tribulations, it can even transform into a living creature. Therefore, in the Age of Gods, alchemists made much more money than refiners."

Han Fei: "..."

Han Fei was speechless. Old Jiang seemed to know how to refine pills too. However, he didn't know that refining pills could be so profitable! If he had known that refining pills was so profitable, he might have changed his profession.

However, this time, many people in the hall looked at the private rooms upstairs. Ordinary people couldn't afford such a divine pill.

Next to Han Fei, the disciple of the Five Elements World shouted, "For such a treasure, you only need to auction within a small range. I offer 150,000."

The audience was in an uproar.

However, most people had already expected this outcome.

If one didn't have money, he couldn't participate in such a high-end auction.

As soon as Ban Yi finished shouting, someone said, "160,000."

A woman added, "It's meaningless to raise the price like this. 200,000. Don't bid below this price."

Then, Ban Yi shouted, "210,000." At this moment, one private room on the top floor directly removed the seal. A familiar voice sounded, "250,000. I want this Triple Dao Pattern Pill."

This was none other than the Heavenly Talent of the Golden Crow World, Jin Quan.

The pupils of the Five Elements Disciple were immediately constricted, and he cupped his hands. "I didn't expect the Holy Maiden of the Snow God's Temple to come in person. The other one is probably Fellow Daoist Jin Quan from the Golden Crow World, right?"

Jin Quan smiled faintly. "Yes."

"Hiss!"

"Even a strong master from the Golden Crow World is here?"

"Is that Ice Snow World's Holy Maiden? Oh my, it's said that she's engaged to a man from the Golden Crow World. With this person's status, I'm afraid we have no chance to get this pill."

However, someone also sighed. "It's already 250,000 ultra-quality spiritual stones. Even if you want to keep bidding, you won't have the capital to do it!"

Zhou Qinglei looked around and sighed in his heart, shouting, "250,000, once. Anyone else?"

"Two hundred and fifty thousand, twice..."

When Zhou Qinglei was about to shout again, Han Fei said casually, "Two hundred and sixty thousand."

Instantly, everyone looked at Heavenly Thunder Room 9 where Han Fei was.

Jin Quan's smile disappeared in an instant. He said in a cold voice, "Don't you know that our Golden Crow World has already bid?"

Han Fei said leisurely, "I know! You bid your price, and I call mine. What's wrong?"

The entire auction house was silent. The Five Elements Disciple looked at the private room next door and thought to himself, Who is this big shot? He actually openly challenged a Golden Crow powerhouse?

Others didn't know Jin Quan's identity, but he knew a little about him. He was one of the candidates for the Palace Master of the Golden Crow World. How could ordinary people dare to provoke such a person?

Jin Quan said, "270,000."

Han Fei said leisurely, "280,000."

Jin Quan: "Three hundred thousand."

Han Fei said casually, "310,000."

Jin Quan suddenly stood up and looked straight at Heavenly Thunder Room 9. "Why don't we meet? Even if you want to continue bidding, you have to prove that you have the money, right? 320,000. Do you dare to continue to compete with me?"

Han Fei laughed. "OK, then 330,000."

Hearing it, Jin Quan's eyes were about to spit fire. Ice Snow Chuling frowned. "Forget it. This pill is already too expensive."

However, how could Jin Quan listen to her? He said, "Do you really have the money? 330,000 ultra-quality spiritual stones are enough to buy ten ultra-quality Divine weapons."

Swish!

All of a sudden, a three-meter-wide broken shell that looked like a door shot through the auction platform from Room 9.

Han Fei asked leisurely, "Is this enough?" Jin Quan sneered. "What makes you think this shell fragment worth 330,000 ultra-quality spiritual stones?"

It had become a contest between Jin Quan and Han Fei.

Even the Five Elements Disciple was willing to wait and was watching with interest.

Han Fei said leisurely, "What? Such a large piece of King Shell can't even be worth hundreds of thousands of ultra-quality spiritual stones?"

Buzz!

When Han Fei said “King Shell”, the entire auction house exploded.

Zhou Qinglei half-squatted in front of the shell. “This, this is... a King’s Shell? Wait a minute, I’ve never seen a King’s Treasure before. Let me call someone...”

“No need. I’m here.”

A figure suddenly appeared in the auction house.

This person was 2.5 meters tall and carried a golden hammer. After landing, he flashed to the side of the shell.

Someone was surprised. “Is this Master Yue Qianchui, a seven-star refiner in Thunder City?”

“That’s right. In the entire Thunder City, there are only a handful of seven-star refiners. Lord Yue Qianchui is one of them.”

“It’s undoubtedly Lord Yue. One of the three great refiners of the Myriad Treasure Pavilion, the Heavenly South Myriad Treasure Pavilion is in the charge of Lord Yue.”

asure

Clang!

Yue Qianchui flicked his finger, and waves of air rolled. Even Explorers present couldn’t stand steadily.

Yue Qianchui’s eyes lit up. He narrowed his eyes and his hands lit up.

The King Shell was a peerless treasure for refining Sea Quelling Bizarre Treasures. If one could refine a Sea Quelling Bizarre Treasure, its value could never be measured with ultra-quality spirit stones.

A moment later, under Jin Quan’s threatening gaze, Yue Qianchui nodded. “Yes, this is a king’s shell. If I’m not wrong, this shell is at least an ancient mutant, which is extremely rare. Such a big piece, if converted to the market price, is worth at least 250,000 ultra-quality spirit stones.”

After all, this was only a shell fragment, and it was impossible to refine a Sea Quelling Bizarre Treasures with only mutant materials. Therefore, the price of 250,000 was already extremely high.

Swish!

Han Fei casually threw out another shell of about the same size.

As soon as he threw out the two pieces of shell, Han Fei said leisurely, “Hey, the guy from the Golden Crow World, do you want to continue bidding? It’s fine. You can continue...”

Jin Quan couldn’t have felt worse. How could he continue? These two pieces of shell were worth nearly 500,000 ultra-quality spiritual stones. What if Han Fei still had more? If he kept bidding but Han Fei took the shell fragments back, he would suffer a great loss!

Immediately, Jin Quan snorted. “Humph, why don’t you show your face? You must have found a secret realm somewhere, right? Just wait and see...”

Facing Jin Quan's threat, Han Fei didn't care at all, nor did Yue Qianchui. He simply said, "Fellow Daoist from Heavenly Thunder Room 9, are you selling the king shells?" Han Fei said, "Yes."

Yue Qianding was overjoyed. "In that case, our Heavenly South Myriad Treasures Pavilion can buy them for 500,000 ultra-quality spirit stones. It's definitely higher than the market price. What do you think?"

Han Fei smiled. "OK."

Han Fei was happy to make more money.

Once his life level increased and he found a body-tempering technique, the consumption of resources would definitely not be small.

Besides, he still had a bunch of such shell fragments.

However, the moment Han Fei took out the king shell, Jin Quan, the Five Elements Disciple, and some others had already set their eyes on Heavenly Thunder Room 9.

Chapter 1719 How Much Do You Think It's Worth?

In fact, Han Fei didn't care what these people thought.

Would these people target him? Then so be it!

The people present today were all very rich. A few hundred thousand ultra-quality spiritual stones was like a drizzle to them. If they didn't target him, how could he earn money?

In the following auction, another seven or eight ultra-quality Divine weapons were taken out. And then the auction ended.

After all, the level of this auction was not high. At this moment, people had already left one after another. The auction house was not stupid. There were not many people left, so they wouldn't take out anything good. After all, the more people there were, the easier it was for the price to be raised. If they wanted to make money, they would only wait for the next time. When everyone present had spare money, they could cut another wave of leeks.

Han Fei drank the Earth Vein Spring Water in his cup and held Nian'er's hand. "Let's go back."

Xiao Se whispered, "Master Han Fei, if we go out now, I'm afraid..."

Han Fei grinned. "Don't worry. These fish can't eat me."

Less than an hour later.

Someone came to Jin Quan's side and said in a low voice, "Master, this person's name is unknown. He lives in the southern half of the Myriad Treasure Tower's top floor. His background shouldn't be weak. He has a seven or eight-year-old girl and an intermediate Venerable with him."

"It's him?"

Jin Quan's pupils were constricted slightly. He happened to meet someone who took a little girl. That person's arrogant aura really annoyed him.

Jin Quan sneered and smiled coldly. "Inform Old Eight to be on standby."

"Yes, Master."

Jin Quan laughed in his heart. "Brat, how dare you sabotage my relationship with Chuling? You deserve to die! Poor you, your king-level materials will be all mine."

Then, Jin Quan continued, "Are you sure you can't find out his identity?"

The man nodded. "Young Master, I only know that this person seems to have come from the Thunder Fire Bazaar Island. As for why he is there and what his background is, I have no idea."

Jin Quan nodded slightly. "Let's change the direction of the investigation and see if any big ships have come to the Thunder Fire World recently. If there is, find out which heavenly palace it's from and what level it is."

On the other side.

The Five Elements Disciple, Ban Yi, was also listening to his men's reporting. He murmured, "He took a little girl with him? His background unknown?"

At this moment, Han Fei was playing with a small bottle, which contained the Triple Dao Pattern Pill. In order to see what kind of pill was worth such a high price... Han Fei opened the bottle without hesitation.

Buzz!

The moment the bottle was opened, the fragrance filled the entire room. Han Fei felt refreshed. Just smelling the fragrance, he felt extremely comfortable from head to toe.

The pill was light red in color. Other than a strange four-sided symbol on the pill, there were three strange Dao patterns.

Information popped up in Han Fei's eyes.

<Name> Third-Grade Tribulation Pill

<Introduction> An ultra-quality pill refined by an alchemist that is to transcend the heavenly tribulation. This pill contains a lot of energy and the power of the Great Dao. It can help you break through the cultivation barrier and quickly increase your strength. If you take it during the heavenly tribulation, you may be able to resist one heavenly tribulation.

<Level> Venerable

< Quality > Ultra-Quality

<Chaotic Qi> 8 wisps

<Remarks> It has miraculous effects on breaking through realms and transcending tribulations.

Han Fei's eyelids twitched. This thing is so powerful? It can even resist the Heavenly Tribulation? It seems to be a waste to use it now. I'd better keep it for now... Anyway, I don't need to use it now.

Knock, knock, knock!

“Sir...”

Han Fei put away the third-grade tribulation pill and replied casually, “Come in!”

In the next moment, the manager of the Myriad Treasures Pavilion walked in with Tian’er with a smile.

As soon as he came in, the manager felt that something was wrong. The medicinal fragrance here was astonishing! It seemed that Han Fei was looking at the Triple Dao Pattern Pill just now!

As for Tian’er, she immediately felt dizzy.

Han Fei casually pointed. “You’re about to make a breakthrough. Don’t hold on.” The manager said, “Thank you for your consideration.”

Then, the manager sent a voice transmission to Tian’er. The girl sat cross-legged on the ground and began her breakthrough.

The manager said, “Sir, I’m here to deliver ultra-quality spiritual stones to you. There are still 170,000 ultra-quality spiritual stones left from the two pieces of King Shell you paid earlier. In addition, Master Yue Qianchui said that after the auction, all the big ships will start to return. If you need, the Myriad Treasures Pavilion can arrange a route for you to ensure your safety.”

Han Fei thought to himself, I never need anyone to ensure my safety. Han Fei said, “Well, I just want to know how many ships in the Thunder Fire World are going to the inner domain? Which Heavenly Palaces are they going to?”

The manager thought to himself, Han Fei is indeed from the inner domain. He decided to go to the inner domain without thinking.

The manager immediately said, “Sir, after all, the Heavenly South Auction is not a large-scale auction. Therefore, there are not many ships from the inner domain this time. Currently, there are only ships to the Medicine King World and the Golden Crow World.”

Han Fei couldn’t help but ask, “Does the Thunder Fire World have a ship to the Glazed Glass World?”

The manager couldn’t help but say in surprise, “The Glazed Glass World? Sir, the big ships of the Glazed Glass World, the Immeasurability World, the Sword God World, and the Supreme Mystic World are very few. They rarely come to the outer domain. However, if you go to the Medicine King World or the Golden Crow World, it’s another story.”

In other words, if you want to go to these places, you have to go to the inner domain first, because these Heavenly Palaces seem to only have intercourse with the Heavenly Palaces in the inner domain.

Just as Han Fei was considering whether he should go to the Medicine King World first or not...

Suddenly, Han Fei felt Snowmourn move slightly.

Han Fei immediately looked at the door and said to the manager, “Okay, I got it. I’ll ask Miss Tian’er to find you if I need it.”

“Okay, Sir.”

The manager seemed to have noticed Han Fei’s eyes and guessed that someone was coming. However, he didn’t release his perception to investigate. The Myriad Treasure Pavilion only did business and wouldn’t get involved in customers’ personal affairs.

For Han Fei’s convenience, the manager grabbed Tian’er and left through the void.

After the manager left, Han Fei hooked his finger and opened the seal on the door, only to see that Ice Snow Chuling came alone.

Han Fei smiled. “Please come in.”

Nian’er called, “Pretty Sister.”

Ice Snow Chuling smiled shyly at Nian’er. “You must be very beautiful when you grow up.”

After Ice Snow Chuling entered, Han Fei extended his hand and a green liquid appeared in the cup.

“Huh? Earth Vein Spring Water?”

Han Fei smiled. “I thought you wouldn’t come. I didn’t expect you to come when I was about to leave.”

Ice Snow Chuling: “May I know your name?”

Han Fei smiled. “I’m Fan Datong, a wandering refiner.”

Ice Snow Chuling: “...’

Ice Snow Chuling was lost for words. Why is there someone with this name? Also, a wandering refiner? Do you think I’m stupid?

However, it was meaningless to expose Han Fei now. So, whatever Han Fei said!

Ice Snow Chuling said, “Fellow Daoist, you said in a voice transmission that you might be able to treat my illness... Can I take it seriously?”

Han Fei glanced at the teacup in front of her, then picked up his own cup and took a sip. “How many years do you have left?”

Originally, this kind of privacy was the last thing she would tell outsiders.

However, Han Fei seemed to know her condition very well, so she didn’t hide it. She said, “About 300 years, if my condition doesn’t worsen.”

Han Fei frowned and pressed down the Snowmourne that was trembling in Forge the Universe, thinking, if I’m not mistaken, the last wisp of Ice Snow Chuling’s soul should be related to Snowmourne.

In Snowmourne, it was either the human-shaped soul body that he had forcefully absorbed, or Snowmourne itself hid secrets.

Han Fei asked, “How powerful is the Holy Maiden of the Snow God’s Temple?”

“Huh?”

Ice Snow Chuling was dumbfounded. What does that mean?

Han Fei said, "You need to pay a lot to cure your illness."

Ice Snow Chuling was shocked. "What? If you can heal me, I can get anything for you."

Han Fei smiled casually. "Don't speak too soon. At least, you will owe me a Sea Quelling Bizarre Treasure."

"Huh?"

Ice Snow Chuling looked surprised, but then said, "If you can cure me, I can think of a way to get a Sea Quelling Bizarre Treasure for you."

Buzz!

Han Fei waved his hand and Snowmourne floated in the air.

Ice Snow Chuling lunged to her feet. A rare blush appeared on her face, and Snowmourne came up to her.

Ice Snow Chuling looked at Han Fei in shock. When she touched Snowmourne, she no longer felt weak.

At this moment, Ice Snow Chuling knew what Han Fei meant when he said that she would owe him a Sea Quelling Bizarre Treasure. So, his Sea Quelling Bizarre Treasure could cure her illness... Then she couldn't let him lose a Sea Quelling Bizarre Treasure for nothing, right?

Moreover, this Sea Quelling Bizarre Treasure seemed to be very different to him.

She felt that she had seen this sword somewhere. It was a strange feeling.

She seemed to feel a sense of echo, as if something was calling to her.

She had a feeling that if the Sea Quelling Bizarre Treasure recognized her as its master, her illness might be cured immediately.

Swish~

Han Fei extended his hand and forcibly took back Snowmourne. No matter what, this was his sword. It almost sucked him to death when he found it.

Putting away Snowmourne, Han Fei asked, "How much do you think it's worth?"

Chapter 1720 Welcome to Rob Me

Now in Ice Snow Chuling's eyes, Han Fei was a mysterious and powerful big shot.

Not to mention that he was already a Half-King... Han Fei's ability to take out King Shells and a Sea Quelling Bizarre Treasure indicated that he was definitely not an ordinary person.

She came to Han Fei just to tell him that many people already knew that he was the guest in the Thunder Room No.9 at the auction.

Although Han Fei said he could cure her, she didn't have much hope. After all, even the Medicine King couldn't save her. How could ordinary people save her?

But at this moment, she believed it because she had seen hope.

Ice Snow Chuling said, "The Snow God's Temple has three Sea Quelling Bizarre Treasures. In addition to the Ice Snow Scepter and the Ice Snow Crown in my master's hand, I have an Ice Snow Lotus Throne. Cultivating on this Lotus Throne can calm one's mind and yield twice the results with half the effort. Over time, the Lotus Throne will faintly temper the body and even improve the resistance to extreme cold."

Han Fei tilted his head and asked, "What level?"

"Mid-quality."

Han Fei's heart did a flip. This was a level higher than Snowmourn. Something that could improve one's cultivation should be something good.

Han Fei said, "What else? Although my sword is only low-quality, it can save your life. It's the only one in the world." Ice Snow Chuling thought for a long time and said, "I have a Life Pill with three Dao patterns that can extend your life by five hundred years."

Han Fei thought to himself, I'm still young. Why do I need that?

So, Han Fei shook his head and said, "I drink Earth Vein Spring Water every day. Why do I need that?"

Ice Snow Chuling said, "Perhaps you don't need it, but even in the Thirty-Six Mystic Worlds, a life pill is an extremely rare item. Fellow Daoist, what do you need? I can try to get it for you"

Han Fei thought for a moment. What he lacked now were treasures that contained energy and Chaotic Qi, as well as powerful body tempering techniques.

Void Fishing was a growth technique, which was equivalent to a cultivation method. It would only increase one's realm and not strengthen his physique.

The path of body refinement had always been his focus. He could not abandon it.

The Chaotic Qi was quite expensive and rare. However, he could absorb it from the bodies of great demons in the Venerable realm. If it was a great demon in the Half-King realm, he would be able to absorb much Chaotic Qi from it. Therefore, Han Fei didn't need her to give him Chaotic Qi.

Han Fei said, "I need treasures that contain extremely high energy and a Venerable-level body tempering technique. How much can you provide?"

"Huh?"

Ice Snow Chuling said, "Because the Ice Snow World is not famous for body-tempering, there are only two Venerable-level body-tempering techniques in Ice Snow World. However, if I trade with Life Pills, I should be able to get a few more."

Han Fei smiled. "Then you'd better hurry up. I don't have much time."

Ice Snow Chuling nodded. "Okay, I'll do it right away. As for the treasures that contain energy, they're usually spiritual fruits, and the place with the most abundant spiritual fruits is definitely the Hundred Flowers Palace in the outer domain. 100,000 energy spiritual fruits is the limit I can get with my identity. Any more and it will inevitably attract the attention of others, which may affect our transaction."

Han Fei grinned. "Deal!"

Ice Snow Chuling said, "It may take me some time to prepare these. If you don't mind, you can follow my big ship to visit the Ice Snow World for some time, Fellow Daoist."

Han Fei thought for a moment. If he asked the Myriad Treasure Pavilion to arrange for him to go to the Golden Crow World and the Medicine King World, he might as well go to the Ice Snow World.

Han Fei pretended to hesitate and said, "Is there a big ship to the Glazed Glass World in the Ice Snow World? After this, I have to go to the Glazed Glass World."

"Glazed Glass World?"

Ice Snow Chuling said, "The locations of the Glazed Glass World and the Supreme Mystic World have always been difficult to find in the inner domain, and there are few routes to the two worlds. Even in the thirteen worlds in the inner domain, it's not easy to go to the Glazed Glass World and the Supreme Mystic World. We don't have a route to the Glazed Glass World, but the Glazed Glass World, the Immeasurability World, the Sword God World, and the Supreme Mystic World are allies. If you go to the Immeasurability World or the Sword God World, you may be able to find a way to the Glazed Glass World. We Ice Snow World do have a route to the Sword God World."

"Sword God World?"

Han Fei was slightly stunned. F*ck, is it so troublesome to find a way in the Raging Sea?

It was fine if it was difficult to find the Supreme Mystic World. After all, all kinds of combat skills and cultivation techniques were kept in the Supreme Mystic World, but what the hell was the Glazed Glass World? Why was it so difficult to find?

Han Fei nodded. "Okay, then help me arrange a big ship to the Sword God World later."

Han Fei felt that he had earned a lot this time. Even if he couldn't find the Supreme Mystic World in a short time, he could still have many body-tempering techniques.

If he fused them with the Demon Purification Pot, it might be able to create a great ancient technique.

However, Ice Snow Chuling said, "I'll arrange our deal. However, Fellow Daoist, your situation is not good. The Myriad Treasure Pavilion is just an auction house after all. They don't have the ability to isolate all the news and hide you. Therefore, I'm afraid that someone has already found out that you are the one in the Heavenly Thunder Room Nine just now."

Han Fei grinned. "I'll take care of my own business. You just need to prepare the ship, and I'll come..."

Han Fei spent a very short time in the Thunder Fire World, but he had gained a lot.

In fact, Han Fei felt that this was because he knew too little about the outside world. It would probably be the same in other Heavenly Palaces.

Therefore, Han Fei didn't stick to one place. He liked traveling. If he stayed in the same place for too long, he might attract the attention of the top powerhouses.

For example, would the Master of Thunder Fire come to him when he discovered that he had the King Shells? That was the material to refine a Sea Quelling Bizarre Treasures! And Sea Quelling Bizarre Treasures were rare resources in the entire Raging Sea.

The next day.

Han Fei controlled the boat alone and entered a general route.

In the Raging Sea, general routes were the most commonly used routes. Such general routes could usually be bought with money, and were the most common routes.

Usually, the general route did not belong to any faction, so the route was ordinary and lacked opportunities.

Generally speaking, if it was a transaction of a large amount of supplies, very few people would take a general route openly. Even if they did, they would walk carefully or be protected by powerhouses.

For ordinary pirates, this kind of general route was their favorite. However, for large pirate groups, the risk of plundering a general route was far higher than the benefits.

After all, most people on the general route didn't have much money. How many people would have to share the money if they mobilized a pirate ship? And those who dared to take the general route were basically guaranteed to be strong, and they were the kind of people who couldn't afford to lose. Pirates might not necessarily win, right? If they were beaten by others, they would lose everything

Therefore, great pirate groups generally disdained plundering the general routes. They would usually plunder those dedicated private routes.

A

When Han Fei set foot on a general route to the Wind Slashing World alone, he immediately attracted the attention of many people.

Why did he choose the Wind Slashing World? That was because if he deviated slightly on this route, he would be able to reach the Ice Snow World's route. And when Ice Snow Chuling traded with him, she had already given him the Ice Snow World's route.

Although a dedicated route was also a general route in a sense, there were more experts on this kind of route. If something happened, a king might even take action. However, this didn't mean that a dedicated route was mysterious. It was just safer than ordinary general routes.

In the evening, violent energy wreaked havoc on the sea.

In terms of the environment, the outer domain wasn't very good. Han Fei was continuing to modify the Avenger. He had refined about two-thirds of it, and the rest still needed to be perfected.

This place was already very far from the Thunder Fire World.

On the extremely vast sea, although it was a general route, the distance between ships was still very far. After all, a big ship on the sea was only a drop in the ocean and extremely difficult to find.

However, under such circumstances, a ship appeared near Han Fei's Avenger. The Avenger hadn't hung its flag yet, so in the eyes of others, it was just a big black ship.

To be precise, it was a big partly-black ship, and part of it hadn't been modified yet.

Nian'er had been digesting her strength for the past two days.

Perhaps Nian'er had been a peak-level law enforcer for a long time. In terms of overall strength, Nian'er had completely adapted. And after Han Fei's long education and Xiao Se's explanation, Nian'er had a general understanding of the world.

In addition, Han Fei had opened the Triple Tribulations Pill yesterday, which seemed to have triggered Nian'er's epiphany. In a few months, Nian'er would have to transcend the tribulation and make a breakthrough. Suddenly, Xiao Se's face changed slightly. "Oh no, a boat is coming."

Han Fei smiled. "Take Nian'er to play with Earth Nine."

Buzz!

Han Fei opened the boat array and the Sea Quelling Painting at the same time. The phantom of mountains and rivers wrapped Xiao Se and Nian'er and sent them into the Sea Quelling Painting.

Han Fei wasn't worried at all. Instead, he mumbled, "This array is quite complicated! It's refined on the core of an ultra-quality Divine weapon, but it's still too weak. It seems that I'll have to refine it myself another day."

Buzz!

At this moment, the void opened, and a big ship broke through the void.

Buzz ~ Buzz ~

When a big ship arrived, two other big ships came. One of them even had a flag, which was the symbol of the Medicine King World.

Jin Quan stood on the deck and faced Han Fei directly. "Brat, I was almost bluffed by you. I thought you were a top Heavenly Talent from the Supreme Clearness World, the Primordial Chaos World, or the Infinity World, but you're nothing. You want to leave the Thunder Fire Heaven? Dream on!"

With that, Jin Quan looked at the other two ships and said, "What a coincidence. Why are you here too? Tell me, what do you mean?"

On the ship with the Five Elements Flag of Metal, Wood, Water, Fire, and Earth, the disciple of the Five Elements Sect, Ban Yi, stood up and said, "Brother Jin, this person has many treasures on him. Anyone who sees him will have a share, right?"

On the other side was the young man from the Medicine King World who Han Fei met last time.

At this moment, he looked at Han Fei with a cold smile. "I know you will definitely die, but the child is innocent. You can give the child to

me."

The young man said, "You can take the treasures on this person. I only want the little girl with him."

Because Han Fei's ship array was on, they couldn't see through the Avenger, so they didn't know that Nian'er was no longer here.

"Keke..."

"Are you done?"

At this moment, Han Fei smiled. "Are you done? Is it my turn?"

Han Fei smiled. "Welcome to rob me."
