Chapter 1761: Lovey-dovey Couples

Han Fei frowned slightly.

He didn't know until he activated the Heaven Enlightenment Divine Technique that there was a chronic disease in Xia Xiaochan's body.

It seemed that she had been seriously injured before, which was why Xia Xiaochan felt so comfortable when the Heaven Enlightenment Divine Technique was activated.

After the light of the Heaven Enlightenment Divine Technique disappeared, Xia Xiaochan grabbed Han Fei's arm the moment she landed. "What kind of healing technique is this? How can the healing technique of a spirit gatherer be so powerful?"

Han Fei frowned and asked, "What's the matter with the injury in your body? Didn't you say that you've been cultivating all day for the past twenty years? Why is there a serious injury to your foundation?"

"Huh? Really?"

The Hexagon Starfish said, "I know. Eight years ago, you sneaked out and were almost killed. Fortunately, the Fierce King came, or we would have been dead."

Han Fei was puzzled. "Fierce King?"

Xia Xiaochan looked disgusted. "Chun Huangdian always scolds me. Sooner or later, I'll beat him up."

Han Fei thought to himself, It seems that... after knowing Xia Xiaochan's identity, that guy didn't give Xia Xiaochan any face, so it's reasonable for him to scold her.

As for the people who tried to kill Xia Xiaochan? They should be with these people today.

Han Fei said, "I must fight Chun Huangdian. That old b*stard killed me once... If I don't take revenge, I won't be able to get over it. However, the most important thing now is to kill another group of people."

Xia Xiaochan asked, "Who is it?"

Han Fei said coldly, "All the people of the Soul Sealing World must die. The kings of the Soul Sealing World may have become puppets of others. The people who hunted you this time are all from the Soul Sealing World. These people were all peak-level Venerables before they came in, but after they came in, they all became Half-Kings. They must have used some kind of great technique to hide their strength. We've only met ten people now. If I remember correctly, there should be twenty-seven or eight of them."

Xia Xiaochan was shocked. "Soul Sealing World? The people who want to kill me are from the Soul Sealing World?"

Han Fei nodded. "What I saw from that person's memory was that the kill order was issued by the King of the Soul Sealing World. They didn't come here to find keys... They came here to kill you."

“Hiss ~”

Master Hexagon’s six big eyes rolled. “Then what should we do? Only ten people have died... Does it mean that there are still nearly 20 Half-Kings?”

Even Xia Xiaochan was stunned.

All the powerhouses from the Soul Sealing World were here to kill her? Could it be that the whole Heavenly Palace was controlled by outsiders?

Han Fei was also shocked. If it was the king who issued the kill order, what was Xia Xiaochan’s real identity? Why did so many strong masters want to kill her?

However, this environment was clearly not suitable for telling stories.

Han Fei stomped and the illusion of mountains and rivers appeared.

Han Fei said, “Don’t resist. Let’s go to another small world.”

Buzz!

A moment later.

When Xia Xiaochan and the Hexagon Starfish came to the Sea Quelling Painting, Xia Xiaochan asked in surprise, “Is this... a floating island?”

The Hexagon Starfish exclaimed, “Huh? The spiritual energy here is so thin and it’s uncomfortable here.”

With a thought, the Hexagon Starfish disappeared.

In the sky, the echoes did not stop.

Han Fei said leisurely, “Master Hexagon, I’m not kidding. If you don’t make a breakthrough in a month, I’ll help you make a breakthrough myself.”

“No! I don’t want to train!”

Xia Xiaochan blushed. “Actually, the big starfish has been cultivating very diligently these years.”

Han Fei said in disbelief, “He has eaten himself until he’s overnourished... Diligently? He’s just living too comfortably. Someone has to help him do some exercise.”

The floating island in the Sea Quelling Painting was no longer the floating island that had been blasted to pieces during the war. Now, after many years of reproduction, the mountains and rivers here were beautiful and lush, but Han Fei usually didn’t come here.

Without the noise of the starfish, the two of them came to a fresh land from the turbulent seabed. Han Fei and Xia Xiaochan finally looked at each other and could have a good chat.

However, how could they chat in this situation?

Just now, they were both worried because of the urgency of the battle. Now that they were relaxed, Han Fei saw that Xia Xiaochan’s eyelashes trembled slightly and her cheeks were rosy. He could even hear her heartbeat.

Xia Xiaochan was born with the ability to charm when she was young. Now that she had grown up, her coquettish posture was much more mesmerizing than when she was young.

At this time, Han Fei had changed from Fan Datong to his original appearance. His heart was pounding and his throat was dry.

Buzz!

It had been many years since they last met, and they had been missing each other for a long time. How could they control themselves?

Han Fei hugged Xia Xiaochan's waist and kissed her. His long-cherished wish had finally been fulfilled, so he didn't mind indulging himself.

And Xia Xiaochan was no longer the little girl who knew nothing.

Han Fei had taught him a lot back then. Now, he had forgotten everything.

"Chi la ~"

The clothes were torn, the sky was the quilt, and earth was the mat.

...

Half a day later.

Han Fei lay spread-eagled on the grass.

Lying on his side, Xia Xiaochan held her chin with her hands, patted the grass with her calves and feet, and looked at Han Fei with her head tilted.

At this moment, Han Fei was talking. "... At that time, it was really a close call. I blocked a king alone. What could I do? Behind me were the four major races and billions of creatures. I had to block them even if I couldn't... Fortunately, I learned the time technique from Old Demon Chu. In the end, I managed to defeat the king..."

Han Fei was bragging about his glorious deeds, from when Xia Xiaochan left, to when he snatched the Sea Quelling Painting, became an Explorer, became a Venerable, and became a Half-King...

Of course, Han Fei didn't tell every detail. For example, he didn't mention the part in the Ideal Palace. He only said that he lost his memory after entering the Ideal Palace...

There were also some secrets, such as the Demon Purification Pot, which Han Fei didn't mention either. Most importantly, he hadn't figured it out yet himself...

Xia Xiaochan listened with relish. Sometimes she was nervous, sometimes she was happy, and sometimes she didn't even dare to breathe. As she listened, she couldn't help but cry and lay on Han Fei several times.

Of course, she knew how simple Han Fei described it and how difficult it was!

A Law Enforcer attacking a Venerable? That was something only a lunatic would do.

Forced to conceal his identity for so many years... With Han Fei's personality, how forced must he be to compromise like this?

Sweeping through all the great Venerables in the Thousand Star City... That was even more shocking.

She was very clear about the concentration of spiritual energy in the Yin-Yang World.

She also knew that even Xue Shenqi, the supreme commander of the Scattered Stars Island, was only an Explorer.

Han Fei even faced the enemy's Great Dao of Time head-on and killed the enemy. Not to mention that Han Fei fought a real king when he was still a Half-King. If it were anyone else, they would have died long ago.

Xia Xiaochan had never heard of a Venerable who could fight a Half-King.

Therefore, the easier it seemed, the more she knew how difficult it was.

Han Fei tilted his head and asked, "What about you? Who wants to kill you? Why was your identity exposed when the Heavenly Cicada was born?"

Xia Xiaochan sighed. "Chun Huangdian said that it was my father who wanted to kill me because I revealed their bloodline after awakening the Heavenly Cicada. It seems that those people value bloodlines very much. My mother fought with the strong masters in their family because of this and is still sleeping."

As she spoke, Xia Xiaochan's eyes were filled with anger. "If there comes a day when I reach the sea establishment realm or the sky opening realm, I will definitely wipe out the An family and make the Heavenly Cicada bloodline that they are so proud of disappear."

Han Fei frowned. "The An family? You even know their family name? Where did you find out?"

Xia Xiaochan shook her head. "That's what Chun Huangdian said. He said that the An family's power is beyond the Raging Sea, but they can already penetrate into the Raging Sea."

"Hiss!"

Han Fei couldn't help but sit up. "Beyond the Raging Sea? Isn't it said that no one can enter the Raging Sea from the outside? If they can come in, if they're strong enough, can they directly kill their way to the mermen royal family?"

Xia Xiaochan couldn't help shaking her head. "No! The merfolk clan has already come to a conclusion about this. It seems that... they can only descend in a certain way, but they can't come in directly. You said that these people are from the Soul Sealing World, but the Soul Sealing World is one of the 36 Mystic Worlds. Logically speaking, they shouldn't have any contact with the outside world. Therefore, they might have used some means to affect the Soul Sealing World."

Han Fei's heart sank. He had thought that the Thirty-Six Mystic Worlds were already powerful enough! There were many kings here, and the Martial Emperor City could suppress the entire Raging Sea. He didn't believe that there were no emperors here.

Now, he learned from Xia Xiaochan that there were still strong masters outside the Raging Sea. They even knew the existence of the Raging Sea...

But since they knew about the existence of the Raging Sea, why couldn't they enter? Could it be that the Thirty-Six Mystic Worlds was also a super secret realm equivalent to the Wild Abyss?

However, if that was the case, wasn't this Matryoshka doll game too shocking? How big was the entire world?

Han Fei couldn't help but remember what his mother said... she wanted to integrate the Thirty-Six Mysterious Worlds and rule this Raging Sea.

Han Fei couldn't help but sigh. Even if he really ruled this place in the end, there would still be a greater crisis waiting for him...

Chapter 1762: Stealing Three Days of Idleness

Han Fei and Xia Xiaochan hadn't seen each other for years and had a lot to talk about. After Han Fei finished, Xia Xiaochan talked about how she was abused.

She couldn't eat delicious food, and she didn't have any seasonings... She was once thrown into an abyss to fight a huge beast, and was thrown into the fog to survive alone...

And her happiest days were when Chun Huangdian threw her to a pirate group and fought with the pirates.

Han Fei asked in surprise, "You've been to a pirate group? Are you talking about the Merman Pirates?"

Xia Xiaochan nodded. "Yes! The Mermaid Royal City sent out the Mermen Pirates to get all kinds of information. After all, the Martial Emperor City has the most information and is the safest place in the Raging Sea."

Xia Xiaochan sighed. "It's precisely because I've been with the Merman Pirates that a sister sent me a message saying that a new force called the Avengers has appeared outside the top ten pirate groups. Their leader is Han Fei..."

With that, Xia Xiaochan put her arms around Han Fei's neck and said, "I thought it was you and wanted to find you. However, Chun Huangdian said that if I ran away again, he would lock me up for a hundred years after he caught me..."

"A*shole!"

Han Fei snorted. "I'll definitely beat the hell out of this old guy. He's too much. My wife is a princess. How dare he bully you? Who does he think he is?"

Seeing that Han Fei was really determined, Xia Xiaochan hurriedly said, "Alas! We'd better not challenge him before we reach the Sea Establishment Realm. Chun Huangdian is too strong. I once saw him fight with a new king, but the new king couldn't even withstand a single blow from Chun Huangdian before he was defeated."

"Hiss ~"

Han Fei couldn't help but take a breath. "Isn't he also a king? Is there such a big difference between kings?"

At this moment, the old turtle said, "Of course, there is also an insurmountable gap between an ordinary king and the strongest king. If the combat power of the White Armor Emperor is 10, then most of the kings you met in the outer sea are about 20. For example, the king of the Infinity World is at least 50."

Han Fei asked, "Can you be more specific? Let me ask you, what is the strongest combat power of the Sea Establishment Realm?"

Updates by . com

The old turtle said leisurely, "My strongest strength was 400,000 waves when I was a king. However, few people can surpass me."

Han Fei: "..."

Han Fei's heart skipped a beat. 50,000 waves could make one a king. 400,000 waves?! The old turtle could probably kill the White Armor Emperor with one finger when he was still a king.

Xia Xiaochan didn't know that Han Fei was talking to the old turtle and thought that Han Fei was surprised by Chun Huangdian's combat power...

She said, "Besides, I suspect that Chun Huangdian is not a king at all."

Han Fei raised his eyebrows. "Not a king? What do you mean?"

Xia Xiaochan said, "It's just my feeling. Although he's ranked third in the Sea Establishment Realm in the Merman Royal Family, I once used the Water of All Things to become a pillar and saw that even a Sky Opening realm cultivator was very polite to him. It was then that he discovered the secret of my Water of All Things and I could never run out again."

Han Fei asked, "Does the Mermaid Royal Family have Sky Opening realm cultivators?"

Xia Xiaochan said, "Of course. Otherwise, how can we resist the Thirty-Six Mystic Worlds?"

Han Fei fell into deep thought.

He had to think carefully about what Xia Xiaochan said.

Originally, the strength of Sea Establishment Realm Kings was different.

Even if he reached the Sea Establishment Realm, it was impossible for him to become super strong instantly.

Even with the enhancement of the Great Dao, he might only be able to gain a standpoint in this realm.

After all, the old turtle said that when he just broke through to the Sea Establishment Realm, his strength was only 80,000 waves. Even if he was as strong as the old turtle, he couldn't reach the peak of the Sea Establishment Realm.

Therefore, there was still a long way to go!

He had to put the matter of fighting Chun Huangdian aside! He had to think of a way to become a king first.

Xia Xiaochan said, "I can't go back now. You have a small world, and I can wait for you in the small world. When you leave the Land of King Death, let's run! By then, he won't be able to catch us."

Thinking that she could finally leave the Merman Royal Family, Xia Xiaochan grinned happily and gave Han Fei a big kiss.

They stayed in the Sea Quelling Painting for three days.

The two of them didn't seem to be here for a treasure hunt, but for a honeymoon.

Han Fei estimated that it had been three days. The exploration of the various dangerous places should have made some progress. Those Half-Kings and peak-level Venerables must have been fighting fiercely and there must be some people who had died.

Han Fei said, "Girl, it's time to go out. Since the Land of King Death will be open for a full month, we still have to take revenge. After exploring this dangerous place, we can't let those guys from the Soul Sealing World leave alive."

"Yes! Cut them all."

...

In the Nine Sound Array, when Han Fei came to find the Hexagon Starfish, he found that he was sleeping on the ground with his six big eyes narrowed.

Of course, it was impossible for an intermediate peak-level Venerable not to know that Han Fei and the others were here.

The Hexagon Starfish said, "I've passed this tribulation."

Han Fei's eyelids twitched. In the past three days, he didn't feel that the Nine Sounds Array had been triggered. Therefore, this big starfish wasn't afraid of the Nine Sounds Array at all. This guy didn't have any emotions at all... The so-called Supreme Bewitching Sound was nothing to him.

However, if there was a sound about "laziness" in the Nine Sounds, it would definitely be a torture to the starfish. Unfortunately, there was no such sound at all!

Han Fei snapped, "Alright, let's go out!"

The Hexagon Starfish quickly said, "I think it's a good place here. This training is just right for me. I can stay here..."

Xia Xiaochan moved her fingers and stabbed him with a dagger.

However, the Hexagon Starfish was already prepared, and an invisible shield appeared on his body.

Xia Xiaochan said, "Big starfish, I'll skin you if you keep wasting time here."

Buzz!

The illusion of mountains and rivers swayed, and the two people and the starfish appeared in the ruins outside again.

Han Fei asked, "What is this place?"

Xia Xiaochan said, "This is the City of the Dead. A senior who came here once said that this is the place where the living and the dead live together. According to historical records, if we want to talk about the City of the Dead, we have to talk about the Land of King Death."

Han Fei couldn't help but say, "You look like Luo Xiaobai now. You sound so knowledgeable."

Pa!

Xia Xiaochan slapped Han Fei's arm. "I wanted to find the Yin-Yang World! So, I've read all the historical materials available to me. Don't interrupt me."

Han Fei shrugged, and Xia Xiaochan said, "The Land of King Death was a small world snatched from the Monarch Palace by the experts of the Thirty-Six Heavenly Palaces..."

As soon as Xia Xiaochan said the first sentence, Han Fei exclaimed, "Such a big small world?"

Xia Xiaochan waved her hand and said, "No, it's not that big. The real small world isn't very big, maybe not even as big as a city. The other places were all occupied in the kings' war later, right? The cause was that the spoils were not evenly distributed. At that time, those kings all became kings through the Monarch Palace, so their strength was equal, and no one was much stronger than the other. However, they had precious treasures in their hands, so a chaotic battle began... The small world they snatched was broken into pieces, and several kings even self-destructed, including the three forbidden places on the map, which were undoubtedly the places where kings died."

Han Fei asked, "What about here?"

Xia Xiaochan said, "It's said that a strong master defended this place alone to fight all the enemies. In the end, he sacrificed his soul and obtained great power. Here, he slaughtered many strong masters. Later, he also died and left this place behind. However, the kings who didn't die became stronger later, and they came here again. However, a lot of treasures were scattered in the Land of King Death, and no one wanted them to be taken by their opponents. In the end, they agreed to let the Venerables explore it. In this way, the treasures belonged to whoever had the ability, so the king battles of the major forces were avoided."

Han Fei thought to himself, The bloodshed in the world is often caused by treasures.

Xia Xiaochan said, "The City of the Dead is very eerie. That man sacrificed his soul... It's said that he became a living dead in the end. I don't know if it's true. In the past, many strong masters who came to the Land of King Death died in the City of the Dead."

Han Fei was lost for words. "Since you knew it was so dangerous, why did you still come?"

Xia Xiaochan couldn't help but pout. "But I have to break through to the peak of the Venerable realm too! I need a big battle and an opportunity to break through to the Half-King realm. Once I'm a Half-King, I can quickly build up my strength."

Han Fei asked in surprise, "How can you quickly build up your strength?"

Xia Xiaochan grinned and grabbed Han Fei's arm. "I secretly stuffed a lot of good stuff into the doors of the big starfish in the Mermaid Royal City, all the resources I can get. When the time comes, we can just eat the resources. Let's eat together later."

Han Fei: "..."

Han Fei finally understood why the Hexagon Starfish became so fat, why the Hexagon Starfish grew so fast, and why the Chaotic Qi in its body was so rich. It was all fed by Xia Xiaochan!

With the Hexagon Starfish's personality, how could he not steal them?

Seeing that Han Fei was looking at him, the Hexagon Starfish rolled from Xia Xiaochan's shoulder to her calf, feeling uneasy.

He thought to himself, I only ate a little...

Chapter 1763: City of the Dead

According to Xia Xiaochan's description, this city of the dead should be the place where a king died.

As for sacrificing souls? The more Han Fei listened, the more he felt that it was a fantasy. He always felt that there was nothing good about sacrificing...

The sacrifice on the Steps into the Sea could basically be equivalent to a summoning ritual to summon the corresponding creatures.

The sacrificial technique that Yu Wendao invented was meant to possess others' bodies.

The King of the City of the Dead must have been forced too much back then and desperately needed power... That was why he sacrificed himself.

Han Fei said, "Doesn't it mean that... the king's corpse might still be in the dangerous place?"

Xia Xiaochan said, "I'm not sure. I brought a lot of treasures and multiple king-level strikes. I just want to see if the king's corpse is still there. If it is, I can rob him of his treasures and my trip to the Land of King Death will be complete."

Han Fei said, "It's been tens of thousands of years. It might have been snatched away long ago... Although people don't dare to go to the forbidden places, they definitely dare explore the City of the Dead? I don't think there's much hope. However, we can find the keys to the Monarch Palace."

Buzz!

Han Fei frowned, and Little Black and Little White appeared.

Xia Xiaochan's eyes lit up in surprise. "Is this... Little White? Wow, she becomes so beautiful."

Little Black and Little White were more intelligent now and could speak.

When Little White saw Xia Xiaochan, she rubbed her head against Xia Xiaochan. "Mommy~"

"Uh ~"

Updates by . com

Xia Xiaochan blushed and looked at Han Fei reproachfully. "What did you teach her... Little White can talk now? Where's Little Black?"

Xia Xiaochan knew that Han Fei had an invisible black fish.

Therefore, she hugged Little White affectionately and immediately looked around, but she didn't see anything.

"Mommy ~"

It wasn't until Little Black bumped Xia Xiaochan's shoulder with his head that Xia Xiaochan was shocked to find that she had to check this space with her perception to vaguely sense a pure invisible space.

She couldn't even see the black... It was as if something that didn't exist existed beside her.

Han Fei touched Little White's head and said, "Daughter, do you see anything like the stone you found just now?"

With that, Han Fei took out the black origin magnet.

Xia Xiaochan asked in surprise, "You've found a key?"

Han Fei spread his hands and said, "I picked it up by accident. I was too lucky. There was nothing I could do."

At this moment, the Hexagon Starfish came over and hurriedly said, "This is not a good thing. It's said that the Monarch Palace is very dangerous. Only one out of ten people can survive from it."

Han Fei rolled his eyes at the Hexagon Starfish. "You have to work hard to make a breakthrough. We're definitely going to the Monarch Palace. We're not afraid... It's almost certain that you'll become a Half-King. However, you're only an intermediate peak-level Venerable now. Even a worm might kill you there."

"That's terrible."

The Hexagon Starfish raised his claws and covered his eyes, as if he couldn't imagine what would happen to him when he got there.

The Hexagon Starfish thought, No, Han Fei is still too fierce.

This guy used to be fierce. Now that he was so strong, he was even fiercer.

This time, now that Xia Xiaochan had met him, she definitely wouldn't go back to the mermaid royal family. Then, from what he knew of Han Fei, he would probably go to the Monarch Palace!

"No, I can't die. I have to break through to the peak of the Venerable realm..."

...

This underground palace was already dilapidated. After being bombarded by Han Fei and the others, it had almost been turned into a wasteland.

Han Fei and Xia Xiaochan followed Little White hand in hand.

Soon, they found a tower-shaped building that had not been completely destroyed.

Han Fei was very sensitive to arrays. Soon, he discovered that there were some Dao patterns engraved on these stones.

Yes, Han Fei saw the extremely rare Dao pattern again.

Looking at the lines, Han Fei knew that each line was an array. Although there weren't many lines on the tower-shaped stone, there were more than 20 lines.

This meant that this array was formed by more than 20 arrays.

Under normal circumstances, who would look for a big stone lying on the ground in the ruins? Even if someone was rummaging through the ruins, it would be a problem if he could recognize the Dao patterns...

Even if he recognized it, the Dao patterns were not so easy to crack.

Han Fei didn't learn the Universal Dao Patterns for nothing.

Han Fei pointed at the air and drew more than 20 times in a row. The power of the soul rumbled, which surprised Xia Xiaochan. Han Fei had become so powerful! She had never seen such a thing before, but he could easily draw it?

Buzz!

When the void array and the array on the stone matched, a blue spiral ripple shone.

Han Fei grabbed Xia Xiaochan, their figures twisted and the two of them disappeared into the ruins.

Swish ~

When Han Fei and Xia Xiaochan appeared in a humid space, Han Fei knew that he had opened another small world.

This was a small city.

The layout of the town was open, and there were no unusually tall buildings here. It looked like a village. The roads here extended in all directions. Although most of them were broken and there were big pits in many places, some of the roads were still intact.

The two of them released their perception almost at the same time.

To their surprise, this place would not hinder their perception.

Therefore, the two of them soon realized that something was wrong. In this small world that was less than 800 kilometers long, there was a graveyard full of corpses.

Swish! Swish! Swish!

The two wheels let out a ferocious trembling sound as they darted at them.

Xia Xiaochan and Han Fei turned their heads at the same time, and Han Fei grabbed the round wheel. Xia Xiaochan simply disappeared.

On a road a hundred kilometers away from Han Fei, a corpse stood up unsteadily.

Of course, at this moment, Xia Xiaochan had already slashed 17 or 18 times. Every slash was like a thread of light. When Xia Xiaochan stopped, the corpse had already been broken into pieces.

Han Fei grabbed the wheel, shattered the Qi and blood on it, and slashed at the graveyard.

Halfway through, another corpse that had just gotten up tried to block, but it was cut in half.

Han Fei stepped into the air and came to Xia Xiaochan.

At this moment, the two of them frowned, because the corpse that had been cut into 50 or 60 pieces by Xia Xiaochan could still recombine? Its body parts were gathering together.

Master Hexagon shouted, "What the hell is this? It can't be killed! Han Fei, squeeze it to death..."

Han Fei, however, didn't move at all. He just said indifferently, "Before this corpse died, it should have been in the Venerable realm. Now, it's actually rotten, but it was resurrected by some power..."

In Han Fei's heart, the old turtle said, "They are undead creatures."

Han Fei was stunned and quickly replied, "Aren't undead creatures still rational and have memories? These are clearly dead people. How can they be undead creatures?"

The old turtle explained, "Some people become undead creatures through normal means. They specialize in this Dao and try to achieve immortality through this method. However, some people are not. After they die, some of their souls are forcibly absorbed and become a part of other people's power. As for the remaining corpses, because some of their souls are absorbed, they become walking dead. Of course, as long as the supply of death energy to their remnant souls is cut off, they can be killed."

Han Fei looked at the corpse and saw a layer of blue light on it. Then he found that there were some soul fires in its eyes.

Roar!

Han Fei roared and the Hundred Beast Soul Devouring Roar destroyed the last wisp of soul on the corpse.

The half-reassembled corpse collapsed. This time, it couldn't stand up again.

Xia Xiaochan also knew how to kill this kind of corpse.

However, the two of them looked at the cemetery hundreds of kilometers away and saw a man wearing armor and holding a long sword. His body emitted a monstrous death aura.

From afar, Han Fei heard a voice echoing in the void. "Die together, die together, die together..."

Xia Xiaochan was shocked. "Is that... the corpse of a king?"

Swish ~

The man instantly appeared in front of Han Fei, and the sword shadow in his hand had already fallen from the sky with endless death energy.

Clang!

Han Fei had been through countless battles.

The moment the man attacked, Han Fei's Embroidery Needle had already appeared in his hand. He knocked on the Heaven Gate and jumped into the sky.

Bang!

Under this blow, Han Fei retreated more than a thousand meters, which made him heave a long sigh of relief.

Fortunately, this king had just become a king and died. His current strength was not any better than an ordinary king. In fact, he was even weaker than the White Armor Emperor.

Han Fei said, "Girl."

Little Black and Little White rushed out. Xia Xiaochan knew what Han Fei meant.

Xia Xiaochan had just learned that Han Fei could block a king. Now, since Han Fei still had strength, he would let her deal with the remaining corpses and find treasures.

However, when Xia Xiaochan rushed over, she found that there were more than a thousand corpses here.

Swish! Swish! Swish!

"Pu! Pu! Pu! Pu!"

Xia Xiaochan was like an agile elf in the forest, twisting and turning among the countless corpses at an extremely fast speed. Every time the dagger slashed, several corpses would be cut into pieces.

At this moment, Xia Xiaochan didn't feel danger, but excitement.

After more than twenty years, the two of them joined forces again, as powerful as before.

Chapter 1764: Mystic Yellow Stone

This undead creature was once a king. Even though his body was rotten, his strength was not much weaker.

This person even instinctively used a shocking sword intent.

Han Fei and this person were evenly matched.

The man casually stabbed out a terrifying sword Qi comparable to Han Fei's Draw Technique.

Not to be outdone, Han Fei activated his Invincible Golden Body and fused with the Great Dao. His attack only pushed the man back a dozen kilometers.

However, Han Fei didn't look very happy, because he had used the Invincible Great Dao, and the other party had just casually stabbed him.

That strike was natural and casual, but it seemed to contain thousands of profound meanings. Even though this person was dead, his sword technique had already integrated into his body and became his instinctive reaction.

"Dao runes?"

Han Fei had fought more than one king before.

When fighting with other kings, their Great Dao power seemed to be mostly used on themselves, such as strength, defense, seals, and so on...

However, Han Fei had never fought a sword cultivator before.

Han Fei had never thought that the Dao runes would be so powerful on a sword cultivator!

Yes, a casual move of this sword cultivator in the Sea Establishment Realm seemed to contain infinite changes.

For example, the slash just now seemed ordinary, but he couldn't dodge it!

Updates by . com

Of course, Han Fei didn't want to admit defeat.

Before Han Fei's body landed on the ground, he had already rushed forward. This time, he was fighting the opponent's Sword Dao with the Great Dao of Invincibility.

Clang!

Bang!

After another round of collision, Han Fei held the Embroidery Needle against the corpse and pushed it a hundred kilometers away on the ground. Terrifying explosion ripples rolled out and caught up with Xia Xiaochan and the others.

The Hexagon Starfish exclaimed, "It's too terrifying! A king is too terrifying! If this strike falls on the starfish, the starfish will be gone."

Xia Xiaochan's body was like a phantom, flickering occasionally and drawing shadows occasionally. The blade swept past, leaving a pile of dismembered corpses.

She said, "Then think of a way to become a king. There will be no freeloading days in the future."

"The starfish is sad... Hey, there's something shiny over there. It must be a treasure. Go get it."

In the end, the Hexagon Starfish couldn't resist the temptation of treasures, especially the shiny ones.

Han Fei also noticed that the glowing thing seemed to be in the place where the sword-cultivator king was sleeping. It seemed to be a treasure indeed.

Clank, Clank, Clank ~

Han Fei had already felt the power of sword cultivators and at this moment, he came up with an idea. He had been using the power of the Great Dao to increase his strength, but what if he used it differently?

For example, the Heaven Enlightenment Great Dao was used for healing.

The Great Dao of Time was used in battle...

The Great Dao of invincibility could boost his morale and give him endless invincible momentum.

The Great Dao of Gravity was also an application of a specific Great Dao.

However, what would happen if the combat skills he was best at, such as the saber, became a Great Dao?

The sword had its Dao, and the knife had its Dao too.

Han Fei didn't like to use swords, which seemed to be too aloof, but he was very good at using knives.

Han Fei decided that if there was a chance in the future, he would give it a try. If he could create a Knife Dao that belonged to him, he would be able to use knife intent in combat.

With a casual slash, he locked onto the enemy's tracks.

At this moment, Han Fei was not going to fight the king's corpse for long...

After all, the other party had already died and was only a body now. Otherwise, the battle with him wouldn't be so simple... He didn't even dare to challenge him like this.

When Xia Xiaochan's shadow grabbed the green glowing cocoon, Han Fei retreated and said casually, "Explode."

As early as when Han Fei was fighting the king's corpse, the Infinity Water had already drilled into the king's body. After all, the other party was only a corpse without consciousness, so the other party didn't force out the Infinity Water.

At this point, it could be said that the Infinity Water was scattered in every part of the king's corpse.

The moment Han Fei said "explode", he quickly said, "Six-Gate Array."

Master Hexagon's reaction was fast.

Since Han Fei told him to open the array, he had to, or nothing good would happen.

Sure enough, as soon as the purple array was activated, a mushroom cloud of super explosive energy swept through the entire small world.

The Infinity Water was a treasure of a city. It could grow with the user's strength.

At this moment, although Han Fei hadn't become a king yet, he was not far from the weakest king. The power of the Infinity Water was naturally extraordinary.

After all, this sword cultivator king was also a new king, and he was not very strong. Moreover, because he was a sword cultivator and not a body cultivator, in terms of physique, this person should be much weaker than Han Fei.

Therefore, the explosion directly blew him into pieces.

Within eight hundred kilometers, the towns were flattened, and many corpses were shattered.

Han Fei, on the other hand, seemed to be used to the impact of the explosion.

As he walked towards Xia Xiaochan step by step, many corpses that weren't killed by the explosion tried to pounce on him, but Han Fei casually drew his knife and cut the corpses into pieces.

Seeing this scene, the Hexagon Starfish rolled its six big eyes. He knew that Han Fei was a ruthless man, but now he was even more ruthless!

It seemed that he would have to suffer in the future!

Of course, in Xia Xiaochan's eyes, it was different. She was quite excited.

The moment Han Fei appeared here, she knew that Han Fei was the best. He managed to go through countless hardships to reach this place from the Yin-Yang World, where resources were scarce.

After all, she wasn't a child anymore. Back then, she was still secretly in love with him... Now, she had completely taken him as her own man.

Han Fei waved his hand, and the Infinity Water gathered.

In this explosion, Han Fei finally found two Sun-Moon Shells.

Unfortunately, neither of them was from the king.

Crack ~

Suddenly, there was a muffled sound in this small world.

Han Fei's heart skipped a beat. "Let's go. This small world is about to be broken."

The destruction of the small world wasn't a big problem for Han Fei.

Although he would encounter void storms in such a fragmented small world, Han Fei had walked through places like this more than once.

However, Xia Xiaochan and the Hexagon Starfish had never been in such a situation!

Therefore, Han Fei carved an array in the void, and in the blink of an eye, a teleportation array appeared.

Xia Xiaochan landed, glanced at the small world that was about to shatter, and took Han Fei's arm. The next moment, the two of them disappeared from this space.

Swish ~

When the two of them appeared in the outside world, they saw that the small tower-like stone was filled with cracks. In less than three seconds, it shattered into pieces.

Han Fei said, "The treasures on this person have long been taken away. Otherwise, he would have used a Sea Quelling Bizarre Treasure instead of an ultra-quality Divine weapon. However, it's not that we didn't get anything. Let's wait and see."

Han Fei took out the two Sun-Moon Shells he had just obtained and opened them, only to find that there were very few things in them, including ultra-quality spiritual stones, spiritual spring, and spiritual fruits.

This puzzled Han Fei.

No matter what, these people who died there were all Venerables. They should put some spare resources in their Sun-Moon Shells.

However, there was nothing in these two Sun-Moon Shells, but a pile of all kinds of materials.

"Huh ~"

Xia Xiaochan asked, "What did you find?"

Han Fei waved his hand, and a pile of 13 khaki stones fell out.

As soon as these stones appeared, Xia Xiaochan and the Hexagon Starfish discovered that they contained a terrifying power.

Xia Xiaochan asked, "What are these?"

In Han Fei's heart, the old turtle said in surprise, "Mystic Yellow Stone? This thing is extraordinary. Even in the Sky Opening realm, Mystic Yellow Stone is a rare cultivation treasure."

Information also appeared in Han Fei's eyes.

<Name> Mystic Yellow Stone

<Introduction> A strange stone condensed from Mystic Yellow Energy. It can only be formed after countless years in an extremely special environment. It's very precious. Mystic Yellow Stone contains a lot of Mystic Yellow Energy. It's an extremely high-end natural energy that can replace other natural energies.

<Level> Sky opening realm

< Quality > High-Quality

<Contained Mystic Yellow Energy> Unknown

<Note> Cultivating Mystic Yellow Stone-related techniques can use the Mystic Yellow Stones more effectively.

Seeing the explanation of the Mystic Yellow Stones, Han Fei couldn't help but smile. This seems to be a pleasant surprise.

Originally, he was only here to find the keys to the Monarch Palace, but not only did these 13 Mystic Yellow Stone have Dao runes on them, but they were also a kind of high-level energy themselves. More importantly, he had obtained 13 of them at once.

It had to be known that the conditions the Snow Lady had discussed with him were for him to bring back 20 keys to the Monarch Palace, protect the safety of Ice Snow Chuling, and take care of the people of the Ice Snow World.

Now, he had 14 keys to the Monarch Palace. The keys themselves were still useful.

Han Fei didn't know how much Mystic Yellow Energy was in the Mystic Yellow Energy, but he knew that there was a Mystic Yellow Scripture in the Dragon-Subduing World.

If he obtained this cultivation technique, the Mystic Yellow Stone would naturally be useful.

Unknowingly, the Hexagon Starfish's tentacles had already reached a Mystic Yellow Stone.

Han Fei said leisurely, "If you dare to touch it, I'll cut off your tentacles and barbecue them."

The Hexagon Starfish retracted his tentacles and said leisurely, "It's shiny. I can keep it for you. It doesn't take up much space."

Han Fei looked at Xia Xiaochan. "This is a key to the Monarch Palace, and it's a very high-level one. Let's keep them for ourselves."

Xia Xiaochan nodded and showed him the big white cocoon in her hand. "I feel that something is moving inside."

Chapter 1765: Collecting A Nest of Worms

"Moving?"

Han Fei couldn't help but wonder, "It's been tens of thousands of years... What can live so long?"

Xia Xiaochan said, "Open it and you'll know."

With that, Xia Xiaochan pointed at the white cocoon.

As a result, bright flames flickered on the surface of the big cocoon.

"Huh!"

Han Fei and Xia Xiaochan were both surprised. What was this thing that could resist the cut of a Venerable?

A dagger appeared in Xia Xiaochan's hand. She quickly swiped her dagger across the big cocoon and cut a hole in it.

However, at that moment, Xia Xiaochan threw the big cocoon to Han Fei and said with disgust, "Bugs."

"Bugs?"

Although Han Fei didn't like insects, he wasn't afraid of them.

After all, in the Water-Wood World, there was an entire insect race. And he even made friends with them!

When Han Fei looked down, he saw that the big white cocoon was filled with a dark green liquid that was bubbling.

In this liquid, a fat worm rose and fell.

Han Fei thought to himself, Isn't this a Dao Devouring Demon Bug? But the information in his eyes is different.

<Name> Dao Devouring Insect King

<Introduction> An extremely rare ancient worm that can devour the Great Dao and control the soul. The Dao Devouring Insect King can accumulate the power of the Great Dao and unleash the attack of the Great Dao of the strong. As long as it doesn't die, it can often change its host. When the Dao Devouring Insect King swallows its host's power, it can directly replace its host and obtain his strength. When the Dao Devouring Insect King leaves its host, the host has a certain chance of dying.

<Quality> Primeval Worm

<Contained> Sword Dao

< Edible Effect > Inedible

<Collectible> Uncollectable

<Absorbable>

<Remarks> In its current state, drip your blood on it and it can recognize you as its master.

When Han Fei saw this worm, his heart did a flip. This worm's ability was extraordinary!

If he used it properly, he could directly have a helping hand who had the king-level combat power!

However, Han Fei thought to himself, If I become a king, my strength will definitely soar.

At that time, he might not necessarily need this thing.

Therefore, he might as well give it to Xia Xiaochan. Her background was more complicated than he thought. One more king-level helping hand was one more guarantee to her.

As for where to get a king for this insect to swallow, he could only hunt slowly in the future.

Han Fei immediately said, "Girl, you can refine this insect. Its power is extraordinary..."

"I don't want it—"

Han Fei: "???"

Xia Xiaochan said, "I hate bugs. This looks like the one outside the cave. It's obviously not a bug. Refine it yourself."

Han Fei didn't know whether to laugh or cry. "Well, it wasn't easy for me to get it. How can you say you don't want it? Don't the insects want a face?"

Xia Xiaochan snorted. "The Heavenly Cicada is already very powerful. Besides, I have the Giant Arowana, Sea Quelling Bizarre Treasures, and countless resources. I'm rich now. You can refine this little insect, um..."

Han Fei was lost for words. "Wait, how many things did you stuff into Master Hexagon's doors?"

The Hexagon Starfish said, "Not much, not much. They can't be used for long."

Xia Xiaochan glared at the Hexagon Starfish. "Not much? You might not believe it, but I have 10 million ultra-quality spiritual stones, two sets of Sea Quelling Bizarre Treasures, more than 200,000 spiritual fruits, more than 1,700 treasure maps, a small hill of king's blood and flesh, and a hill of floating stones..."

Han Fei: "..."

After hearing Xia Xiaochan's words, Han Fei felt terrible.

Han Fei asked in shock, "Wait, weren't you forced to cultivate every day? Where did you get so many things? You even had the blood and flesh of kings? Two sets of Sea Quelling Bizarre Treasures... and more than 200,000 spiritual fruits?"

Xia Xiaochan couldn't help but blush. "I stayed with the pirates for a while. I robbed a ship of the Supreme Clearness World once and got these."

Han Fei was dumbfounded. "Didn't you give any to the others?"

Xia Xiaochan looked puzzled. "Am I a princess or are they? I saved so many resources just to find a chance to escape back to the Yin-Yang World... Otherwise, I can't go back empty-handed, right?"

The corner of Han Fei's mouth twitched. Those who didn't know better would think that you were going to buy the Yin-Yang World.

Han Fei sweated. "Fine! God knows how many of your resources the starfish has secretly eaten. Look how fat he is... Forget it. Since you don't want this bug, I'll take it. I have a feeling that it's useful in the future."

Han Fei thought that he and Xia Xiaochan would eventually return to the Yin-Yang World.

However, the cage seal of the Yin-Yang World was a big problem.

Han Fei couldn't imagine what would happen to the Yin-Yang World and the Water-Wood World once the seal of the cage was broken. He couldn't tell if it would even affect the outside world of the Wild Abyss.

In fact, would the Yin-Yang World appear in the Raging Sea again one day?

After all, the Yin-Yang World had been hiding in the Wild Abyss for tens of thousands of years. If the time was right, should they go out?

If they wanted to come out, they would have to face the 36 Mystic Worlds, the hostile Heavenly Palaces like Supreme Clearness and Infinity...

And Xia Xiaochan, if her father knew that she went to the Yin-Yang World, would he send someone there?

However, Han Fei wasn't worried about that.

Since his father could not come to the Raging Sea, he should not have the means to go to the Yin-Yang World.

Sending one or two subordinates over occasionally and coming in person... were two different things.

Han Fei said that he didn't care about humans, but the Yin-Yang World belonged to his forces, so he had to care about it. After all, those people were all under his protection, and he had more and more problems to consider.

However, in the blink of an eye, Han Fei's worries were swept away. His original plan was to find his sister and then return to the Yin-Yang World to become a king!

Finding Xia Xiaochan was a pleasant surprise!

This joy was enough to wash away many of his worries.

Seeing that Xia Xiaochan glanced at the insect in the big white cocoon in disdain from time to time, Han Fei couldn't help but laugh. Then, Han Fei pointed his finger, and a drop of golden blood dripped into the cocoon.

When Xia Xiaochan saw Han Fei's golden blood, she subconsciously looked up at Han Fei in surprise.

She thought to herself, Humans' blood shouldn't be golden. However, since Han Fei had experienced so much, he might have accidentally obtained some treasure and improved his bloodline.

It only took him about 20 years to advance to the peak of the Venerable realm in a place where everything was scarce... This was completely different from advancing to the peak of the Venerable realm in the Merman Royal Family...

How could Xia Xiaochan not understand it?

After the Dao Devouring Insect King swallowed Han Fei's blood essence, Han Fei immediately established a spiritual connection with it.

At this moment, this insect was still too weak. Even though it was a primordial worm, which sounded terrifying, it was now a small insect that was at the mercy of others.

Anyway, Han Fei couldn't use it for a while, so he threw it into the Spirit Awakening Fluid in Forge the Universe. It couldn't drink much anyway...

At this point, his harvest was over.

Han Fei summoned Little White out and let her continue to find the way.

Han Fei felt that it was too easy to find this city of the dead. The entrance had been here for tens of thousands of years, but no one had found it. That was really strange.

However, after only two seconds, Little White swam back and said to Han Fei, "Dad, there's a very dangerous place here."

Han Fei asked in surprise, "You found it so quickly? Why didn't we find it just now?"

Han Fei and Xia Xiaochan looked at each other. Xia Xiaochan also said in surprise, "I didn't sense it either. There shouldn't be a second cave entrance here, right?"

The two of them followed Little White in confusion. After swimming for more than ten kilometers, they saw a long and narrow crack in the mountain wall.

Both Xia Xiaochan and Han Fei had discovered this crack long ago.

However, although the crack was long and narrow, it was only about 200 meters deep. It could probably only accommodate two to three people walking side by side.

When Han Fei walked into the crack, he saw that the rock wall was engraved with dense arrays.

Han Fei was immediately surprised. "My perception has been deceived!"

Xia Xiaochan said, "No wonder no one has ever discovered the crisis in the underground palace... because the array to the City of the Dead is here. It turns out that they are all attracted here. Why don't we give it a try?"

Han Fei didn't speak. There were two different worlds inside and outside the crack.

He used to be careful when he was alone, but now with Xia Xiaochan, he had to be even more careful.

Han Fei took out the Nine Palace Luck Ruler. With a swish, he floated in the air and let the ruler move freely.

Han Fei didn't hide it from Xia Xiaochan.

Although the Nine Palace Luck Ruler was good, if he had to keep it a secret even to Xia Xiaochan, how tired would he be?

Xia Xiaochan had heard Han Fei mention the Nine Palace Luck Ruler before, but it was her first time seeing it. At this moment, she found it quite amazing.

But then, when the ruler showed "Greatly Ominous", Han Fei was relieved.

He could completely handle it!

However, Xia Xiaochan looked tense, as if she felt that a battle was imminent.

Han Fei's heart did a flip.

Unfortunately, the Nine Palaces could only change one person's luck. He didn't care about a "Greatly Ominous" situation, but he wouldn't let Xia Xiaochan take the risk.

Therefore, with a thought, Han Fei threw six wisps of Chaotic Qi into it in a row. Finally, he managed to have the marker of the Nine Palace Luck Ruler turn to the “Ominous”.

However, this “Ominous” divination result was not for him, but for Xia Xiaochan.

Chapter 1766: Whale Valley

Over the years, Han Fei had encountered many “Greatly Ominous” situations. He had encountered even “Impasse” situations twice.

Therefore, the “Greatly Ominous” situations might be truly “greatly ominous” to other people in the same realm, but Han Fei didn’t think it could hurt him at all.

Han Fei said, “Let’s go in! As long as it’s not an ‘Impasse’ situation, even if it’s a ‘Greatly Ominous’ one, it will be fine. Master Hexagon, in order to survive, you’d better hurry up. Don’t hesitate when you need to set up the array.”

The Hexagon Starfish rolled his big eyes. “Can I not go? I’m waiting for you outside.”

Han Fei grinned. “Okay! But if a Half-King comes here, do you think you can hide or be caught?”

The Hexagon Starfish froze. “Then, I’d better go!”

In fact, the Hexagon Starfish was quite smart. Staying outside was definitely more dangerous than following Han Fei! Han Fei was a monster who could resist the attacks of a king. It would be unwise for him to stay outside.

Xia Xiaochan snorted. “Come in! I feel comfortable wherever I go now. Anyway, I don’t have to go back to the Mermaid Royal Family anymore.”

As they spoke, the two of them stepped into the crack at the same time.

Sure enough, when the two of them walked in, the scene in front of them immediately changed. There was no crack at all! What was revealed in front of them was an entrance to a cave.

There were three words engraved on the entrance, “Whale Valley”.

At the desolate hole entrance, there were only bare stones left... And the entrance was dilapidated and full of dust.

Han Fei looked back and saw nothing behind him. Obviously, the way he came was cut off.

Xia Xiaochan asked, “There’s no mention of the Whale Valley on the map. Has this place not been explored yet?”

Updates by

Han Fei shook his head. “That’s impossible. The City of the Dead is too conspicuous. There are only 12 such five-star danger zones in total. The small world we just went to should have been explored. Otherwise, it’s impossible for us to find only two Sun-Moon Shells. In my opinion, most people haven’t found the City of the Dead, but they can definitely find the Whale Valley first. The reason why it wasn’t mentioned...”

Xia Xiaochan's face changed slightly. "They're all dead."

Han Fei: "Let's go!"

Both Han Fei and Xia Xiaochan had been audacious since they were young. They had explored countless secret realms, so they walked in without hesitation.

Buzz!

The moment they entered the Whale Valley, the two of them immediately felt the pressure on their bodies increase sharply. The void in all directions seemed to be pressing on. The two of them felt as if they were on a cliff and were about to fall.

Squeak! Squeak!

Behind Xia Xiaochan, the Heavenly Cicada Wings were opened and waved. An inexplicable rhythm of the Great Dao expelled the surrounding power, so that Xia Xiaochan could still fly in the sky.

Han Fei immediately found that he couldn't fly here. With a thought, the Infinity Water rolled like a long dragon. Han Fei stood calmly on the Infinity Water and looked down.

Burble ~

Below him was a pool of water that looked like swamp venom.

When Han Fei found that his clothes were being corroded by the gas here, he was about to remind Master Hexagon...

With a buzz, Master Hexagon set up an array in advance.

This array was surrounded by purple gas and enveloped Han Fei.

Master Hexagon sighed. "It's too dangerous. The water here can corrode the body and the soul... I knew this place wasn't easy to come to... Look, the starfish was right, right?"

Xia Xiaochan snapped, "Shut up! You talk too much! One more word and I'll throw you into the pool!"

Although he knew that Xia Xiaochan was just threatening him, the Hexagon Starfish still chose to shut up.

After all, neither of them had a good temper. Who knew if they would go crazy?

Han Fei secretly pinched his fingers. The starting part was already so weird. If he didn't have enough means, he would've been killed by now.

Crack... Crack...

As soon as they stabilized themselves, they saw huge cone-shaped blades appearing in the sky and in the poisonous swamp. The huge swords that looked like small mountains were charging at Han Fei and Xia Xiaochan.

Han Fei reacted quickly and grabbed at the air, slashing out a void crack.

With three explosions in a row, the huge sword-like cone finally collapsed.

Xia Xiaochan flashed a few times and appeared above a cone. She said in surprise, "It's a Sword Qi Killing Array, which is made with spiritual energy."

Han Fei nodded.

From all directions, more and more such swords appeared. In the beginning, there were only two, but now there were dozens, and the number seemed to be increasing.

Han Fei: "The power of this attack is as strong as a peak-level Venerable's. Let's go. Don't linger."

Amidst the huge sword shadows, Han Fei and Xia Xiaochan passed through the poisonous swamp like a small boat.

The two of them ran for more than 300 kilometers before the sword array slowly disappeared. It seemed that its range was only 300 kilometers.

Xia Xiaochan asked, "Are you okay? Your clothes are tattered."

Han Fei looked down at his clothes, which were almost as torn as a beggar's. Oh, no, a beggar's clothes might be better.

Just now, Han Fei took the initiative to leave the Hexagon Starfish's array to make it easier for him to move. After all, Han Fei was confident that his physique was extremely strong. Although that was the case, he still looked quite miserable. After all, his clothes couldn't compare to Han Fei's current body.

Han Fei smiled awkwardly, and an ultra-quality battle suit appeared on his body again.

Han Fei said, "This place is definitely not that simple. There was such a big commotion just now, but now there's nothing? It doesn't make sense."

Xia Xiaochan flew over and asked in confusion, "I have a feeling that we've come to the wrong place. The City of the Dead has been explored. What kind of secret realm is hidden in another secret realm?"

Han Fei said, "This is just an undersea cave. We think it's a secret realm. However, secret realms are deeply hidden. Otherwise, how can they be called secret realms?"

"Huff~"

As soon as Han Fei said that, a huge suction force suddenly wrapped the two of them.

In the void in all directions, a strong wind blew. This suction force actually had a suction force comparable to the array eye of the Heaven and Earth Array.

Han Fei immediately grabbed Xia Xiaochan's waist with the Void Lines. The two of them flew to the depths of the poisonous swamp almost side by side.

Xia Xiaochan flapped her wings and her expression changed drastically. "What a powerful suction force."

Han Fei didn't look good either. The suction force seemed to have exceeded the power of a Half-King and reached the Sea Establishment Realm.

"All laws forbidden in this space!"

Han Fei tried to stop the suction force, but the usually powerful forbidden technique was useless here.

Han Fei thought to himself, There's only one way to go here, as if everything was set up. So, he and Xia Xiaochan looked at each other and instantly reached a consensus.

In an instant, the two of them gave up resisting and allowed the terrifying suction force to suck them thousands of kilometers away.

When Han Fei and Xia Xiaochan saw a big black hole, Han Fei even teased, "If Kuangkuang were here, he would definitely be shocked. His path is quite extraordinary."

Xia Xiaochan rolled her eyes and thought, Why are you still in a mood to joke in this greatly ominous place?

The two of them were swept into the sea by the hurricane.

However, the two of them immediately realized that something was wrong. Xia Xiaochan said telepathically, "This is not seawater."

Han Fei was also shocked. "It's so corrosive."

Han Fei tried to extend his perception, but his perception was corroded again, so Han Fei quickly withdrew it.

Buzz!

The Hexagon Starfish launched the Six-Gate Array without hesitation, which immediately enveloped Han Fei and Xia Xiaochan. He shouted, "It's over! It's over! I feel that this power is accelerating the erosion of my array."

Han Fei looked down at his damaged battle suit, which was corroded again. Xia Xiaochan wasn't any better. Her battle suit was also corroded.

Whoosh!

However, the corrosive liquid was still surging like a tide.

Suddenly, Han Fei saw a large number of glowing objects not far away. When Han Fei and Xia Xiaochan looked at it together, they found that it was a powerful creature.

Xia Xiaochan asked in surprise, "Is he a Half-King of the Hundred Demons Clan?"

Because the other party appeared in his original form, information immediately appeared in Han Fei's eyes.

<Name> Nightmare Squid (Dying)

<Introduction> It's a Divine Sea Squid that's good at illusions, dreams, hypnosis, and other soul-controlling techniques. It often hides in the dark and creates an illusion to hunt its enemy. The Nightmare Squid has great strength, and its pupils can erupt with dream light, making it impossible to guard against.

< Level > 89

< Quality > Legend

<Realm> Half-King

<Great Dao> Hypnosis

<Chaotic Qi> 268

<Combat Techniques> Dark Decay, Dream Entering, Nightmare Kill

<Collectible> Dream Eating Teeth, Dream Eyes

<Absorbable>

<Remarks> When using the Dream Eye, there is a chance to prevent being hypnotized. The weapon forged with the Dream Eating Teeth can directly attack the soul.

“Hiss~ A dying Half-King?”

Han Fei’s heart did a flip. This Half-King didn’t even survive here, which meant that it was extremely difficult to find the way here. Fortunately, he could still use the Vast Ocean Navigator today. Sure enough, it was useful now.

However, when he saw the Nightmare Sea Squid, Han Fei had a bad feeling. Was he in a fish’s stomach?

Chapter 1767: The Universe in the Belly

Han Fei had this idea because they had encountered too many corrosive solutions along the way.

At first, Han Fei thought it was the Poison Marsh.

However, when the big squid appeared here, Han Fei felt terrible.

He remembered something that whales usually liked to do: swallow squids. It seemed that squid was their favorite food.

More importantly, the name Whale Valley was a bit strange. After all, Han Fei hadn’t seen any whales along the way. However, from the characteristics along the way, this seemed to be a whale’s belly.

Could it be that this king was from tens of thousands of years ago?

However, hadn’t he just killed a king’s corpse? Why was there another one now?

The Nightmare Squid was about to die, but it still had more than 200 wisps of Chaotic Qi.

How could Han Fei bear it? No matter what environment he was in, he could never let go of more than 200 wisps of Chaotic Qi.

Previously, when Han Fei killed the three peak-level Venerables of the Hundred Demons Race, he didn’t even get 200 wisps of Chaotic Qi from them. It could be seen that a Half-King was still a Half-King, which a peak-level Venerable couldn’t be compared to.

The Nightmare Squid also saw Han Fei and Xia Xiaochan, but it didn’t care. At this moment, it seemed to see a life-saving straw.

Moreover, these two were only peak-level Venerables. Even if he was on the verge of death, how could he be weaker than two peak-level Venerables?

Immediately, the Nightmare Squid swam over. Its eyes turned purple and it shouted, "Dream entering."

However, before it could erupt, the Nightmare Squid suddenly felt a life-and-death crisis descend. The crisis came so fast that it couldn't escape at all.

In the next moment, before the Nightmare Squid could complete its dream entering attack, it felt that its soul had been invaded.

The Nightmare Squid was shocked!

What kind of power was this? It was actually more direct than his Dream Entering Technique. At the same time, it also felt that the Chaotic Qi in its body was flowing away.

How could it not understand that the person on the other side was not to be trifled with? How could someone who could survive here be weak?

At this moment, it could only sigh. It was too weak now. Otherwise, it would definitely be able to fight...

However, when Han Fei's Void Lines completely controlled it, it roared, "You will die eventually... It'll be only a little later than me. I'll wait for you in hell..."

Xia Xiaochan said, "Huh, this should be a Nightmare Squid. Its Dream Entering Technique is extremely terrifying. Why didn't it attack?"

Xia Xiaochan looked at Han Fei, probably knowing that Han Fei had made a move.

Han Fei said, "It's dying. I'm just sending it off. However, we have to leave this place as soon as possible."

Xia Xiaochan looked around. The poisonous swamp covered all directions, so she couldn't release her perception!

The Hexagon Starfish also cried out, "I can't hold on much longer! This poison is too powerful. I'm only an intermediate Venerable."

Han Fei glanced at it and said, "Now you know how dangerous it is outside? This is only the Land of King Death. In the future, if we go to the Monarch Palace, how useful will your Six-Gate Array be? It depends on your realm."

Xia Xiaochan added, "There are only 32 years left before we go to the Monarch Palace. Big starfish, this may be the last 32 years of your life."

"Hiss ~"

The Hexagon Starfish was stunned. He had never felt so close to death.

It was said that people would only have a slim chance of survival in the Monarch Palace!

Out of ten Venerables, only one could come out. Was this a joke?

The Hexagon Starfish's six big eyes were spinning. "Then I'll make a breakthrough after I go out. Although it's a little painful, I'm already on the verge of a breakthrough..."

The Nightmare Squid could resist for a while, but after being controlled by Han Fei, its body was being corroded at a visible speed.

The vitality, soul, and Chaotic Qi that Han Fei absorbed from it were endless.

After ten seconds, under the urging of the old turtle, Han Fei finally finished absorbing the Nightmare Squid.

Even so, Han Fei didn't let go of the Dream Eating Teeth and Dream Eyes on the Nightmare Squid. The Dream Eating Teeth were just the teeth of the Nightmare Squid. Because of their special nature, they could directly attack the soul.

As for the Dream Eyes, they were two thumb-sized crystals in its eyes.

Han Fei grabbed the Dream Eyes and handed one to Xia Xiaochan. "Just eat it..."

Xia Xiaochan asked, "Can I cook it before eating it?"

Han Fei thought to himself, Yes, it's indeed tasteless to eat them raw.

Therefore, Han Fei put them away and said, "Then let's cook them when we get out of here."

Xia Xiaochan immediately said, "I'm fast, and I have Cicada Song to explore the way. Wait here for a while. Let me find the way."

Han Fei grabbed Xia Xiaochan's hand. "Don't bother. I have a plan."

Han Fei thought to himself, The Vast Ocean Navigator is really useful. This thing is like his golden finger in the Raging Sea. In terms of finding the way, it is invincible.

This Human Sacred Weapon must be used often, so Han Fei took it out. He didn't want to make up a story for Xia Xiaochan...

As soon as the Vast Ocean Navigator appeared, the five rings inside and outside quickly rotated and soon determined the direction.

Because this was not the foggy sea area of the Raging Sea, the direction would not change. The two of them ran for more than 600 kilometers before finding an exit.

At this moment, the Hexagon Starfish's Six-Gate Array was still intact.

Han Fei thought to himself, Mysterious creatures are indeed powerful. Even a Half-King can't last long here... The Hexagon Starfish kept saying that he couldn't make it, but he's still holding on!

In a sense, the defense of the Hexagon Starfish was actually stronger than that of a Half-King sea demon. And this guy was only an intermediate peak-level Venerable now.

This was already the third hole they had passed. When they entered the hole, they appeared on swamp land.

Yes, this time it really was a swamp. In some places it was green with boiling bubbles, and in others it was land full of grasses.

As soon as they came in, they found several perceptions sweeping over.

The two of them scanned back with their perception, and Han Fei was slightly surprised. He met acquaintances. Ji Chen of the Supreme Clearness World was here... In addition, there was another familiar face. This person seemed to be from the Five Elements World, but he was not familiar with him.

In the competition in the Heavenly Imperial Ancient Tree, Han Fei was mainly fighting with the Golden Crow World. The people of the Five Elements World probably planned to watch the show, so they didn't do anything back then.

If Han Fei remembered correctly, this person's name was... Five Elements Chen Hao.

Apart from these two people, there were two Half-Kings guarding them.

Ji Chen and Five Elements Chen Hao certainly didn't know Han Fei's current appearance, but they would never forget Xia Xiaochan.

She was a Heavenly Talent on Ye Qinglong's ship. Because Xia Xiaochan was too beautiful, she attracted everyone's attention.

Therefore, it was difficult to forget her!

At this moment, there were a large number of puppet corpses surrounding Ji Chen and Five Elements Chen Hao.

Therefore, when they saw Han Fei and Xia Xiaochan, their faces changed slightly. Ji Chen shouted in a low voice, "You four, keep attacking. Chen Hao..."

Five Elements Chen Hao understood what Ji Chen meant. He rose into the air with Ji Chen and faced Han Fei and Xia Xiaochan.

Xia Xiaochan reminded Han Fei, "Han Fei, there is no spiritual energy or energy in this space, and it seems to swallow energy. If we use spiritual fruits, I'm afraid we don't have enough time to take them in a big battle."

Han Fei said, "It's fine. Enemies are bound to meet. I'm a little curious... How did they get ahead of us?"

The Hexagon Starfish muttered, "You've been in the small world for three days."

Han Fei glanced at the Hexagon Starfish and thought to himself, You think I don't know?

On the other side, Ji Chen held the Azure Dragon Sword. The sword trembled, and a faint dragon roar sounded.

Han Fei raised his eyebrows. "A Sea Quelling Bizarre Treasure?"

Five Elements Chen Hao's weapon was also extraordinary. He held a shield in his left hand and a five-colored wheel in his right hand. The huge shield was an ultra-quality divine weapon. However, the five-colored wheel seemed to be of a higher quality than an ultra-quality divine weapon.

Han Fei estimated that it should be a low-quality Sea Quelling Bizarre Treasure.

Han Fei couldn't help but lick the corner of his mouth. A Venerable who could get a Sea Quelling Bizarre Treasure must have a high status.

Han Fei thought to himself, Does the 'Greatly Ominous' refer to them? I don't think so.

The corners of Five Elements Chen Hao's mouth curled up. "Two peak-level Venerables. Tsk, interesting. That girl must have a high status in the Merman Race."

Ji Chen said indifferently, "Those who can sit on Ye Qinglong's boat must be from the royal family of the merfolk. Don't treat them as ordinary peak-level Venerables."

Five Elements Chen Hao said, "Fellow Daoist Ji Chen, in that case, can you leave this woman to me..."

Ji Chen sneered in his heart. "If you can take it, you can try."

Swish ~

Two daggers appeared in Xia Xiaochan's hands, and with a swish, Xia Xiaochan disappeared without a trace.

In the void, Xia Xiaochan's voice echoed, "Where did you get the courage? Are the people of the Five Elements World so arrogant now?"

"Huh? A hunter?"

Seeing that Xia Xiaochan had avoided his perception and disappeared, Five Elements Chen Hao couldn't help but frown. Now, there were also hunters in the Merman Race?

Ji Chen pointed his sword at Han Fei and snorted. "A human is hanging out with a mermaid? Which world are you from?"

"Keke ~"

Han Fei smiled sinisterly. "I'll tell you when you're about to die."

Chapter 1768: Battle of the Heavenly Talents

Even in the Yin-Yang World, where there were internal and external troubles and there was an extreme shortage of manpower, Han Fei didn't hesitate to kill some of the human experts...

Ji Chen had deliberately helped the people of the Golden Crow World under the Heavenly Imperial Ancient Tree that day to embarrass the Snow God's Palace.

How could Han Fei forget this?

Although Han Fei wasn't a member of the Snow God's Temple, at least he appeared as a member of the Snow God's Temple at that time. Ice Snow Chuling being bullied was no different from him being bullied.

Besides, Han Fei didn't like the people of the Supreme Clearness World he met.

At this moment, everyone was in the secret realm, and Ji Chen wanted to use the so-called "righteousness" to suppress him? He even f*cking asked him, "Which world are you from..."

How could Han Fei bear it?

Han Fei's face turned cold. He stretched out his hand and a void crack appeared. Then he pulled out a saber out of it and directly attacked.

Being able to be a Heavenly Talent of the Supreme Clearness World, Ji Chen was certainly not weak. His strength was also terrifying.

The moment Han Fei attacked, Ji Chen reacted extremely quickly. His sword rippled, and his sword intent soared into the sky.

Clang!

The saber and the sword collided, and with a loud bang, sword Qi and saber waves swept in all directions.

After receiving Han Fei's attack, Ji Chen's face changed slightly. "It can be so strong without the power of Dao runes?"

Unfortunately, Han Fei wouldn't answer his question.

Updates by

Han Fei pointed the Embroidery Needle in his hand at him, and Ji Chen instinctively felt that something was wrong. Seeing that there was no power impact, he immediately understood something and condensed his soul power into a wall to resist.

Buzz!

Ji Chen's eyelids trembled and blood flowed from the corner of his mouth. He was shocked. What a powerful soul attack.

But Han Fei was also slightly surprised. This guy blocked his Heavenly God Stab? And he was prepared?

At the moment of life and death, Han Fei didn't hesitate anymore. If the first attack failed, there was still the next one. He took out the Embroidery Needle not just to launch a Heavenly God Stab.

Immediately after, he activated the "Knock on the Heavenly Gate".

At the moment when Ji Chen's soul was damaged, he certainly would do something. He discovered Han Fei's strength, but he had lost the initiative, so he wanted to get it back.

The black hairpin on his head snapped, and a dazzling sword shadow that was filled with the power of the Great Dao stabbed at Han Fei with the king-level suppressing power.

Han Fei raised his eyelids, clenched his fist, and launched the Sacrificing Punch without hesitation.

The moment the Sacrificing Punch exploded, Han Fei had already foreseen the destruction of the fist mark.

As expected, this sword shadow pierced through the Sacrificing Punch with a swish.

Of course, it was impossible to pierce through the Sacrificing Punch without paying a price.

The sword shadow was weakened, and Han Fei took out a huge shield. In an instant, a golden giant gathered in front of Han Fei.

Golden light flashed on the ultra-quality Divine Shield.

Clank ~

Crack ~

Bang... Bang...

This series of decisions was made in the blink of an eye by Han Fei and Ji Chen. It was impossible to make such a decisive move without some combat experience.

Even so, Han Fei was sent flying by the king-level slash, and his body was blasted into the swamp, retreating more than thirty kilometers.

Of course, Ji Chen wasn't any better. Although he knocked Han Fei back with this king-level slash, he also suffered the "Knock on the Heavenly Gate" from Han Fei.

Han Fei had never held back in his attacks. At the beginning, Han Fei used the power of the Great Dao. In the first ten seconds, he could fight with the strength of a king. Therefore, even when facing a king-level attack, Han Fei dared to take it head-on!

At this moment, Ji Chen was forced back more than 200 kilometers together with his weapon. His battle suit was shattered, his arms were broken, and blood spurted out.

Ji Chen was dumbfounded. This person is so domineering. How can he resist the attack of a king of our Supreme Clearness World and still unleash such a powerful force?

Who was he? How could there be such a person in the Thirty-Six Mystic Worlds?

"Wait!"

Ji Chen suddenly thought of the fist mark that burst out when Han Fei bombarded the king-level attack... Why was it so similar to the punch that burst out after Holy Child Han Fei obtained the Heavenly Imperial Star Fruit at the top of the Heavenly Imperial Tree?

At that time, in order to avoid the battle and let others know that the battle was over, Holy Child Xue Zhan punched the Heavenly Imperial Ancient Tree.

However, that punch wasn't as powerful as the one just now. Therefore, that punch was led into the void by him.

Now that he thought about it, could this person be?

"Bah!"

Han Fei spat out a mouthful of blood and then waved his hand, and his blood essence returned.

Han Fei had underestimated the king-level strike of the Supreme Clearness World. Not only did his full-strength Sacrificing Punch fail to block this strike, but his ultra-quality shield enveloped with the invincible will was also cut open!

In the end, the Coiled Turtle Array on his body was also shattered!

Even so, there was still a trace of sword Qi entering his body. Fortunately, Han Fei's physique was strong, so he only suffered minor injuries.

However, Han Fei knew that the kings of the Supreme Clearness World were extremely strong.

This casual attack was already so powerful. If he faced it head-on, he would definitely lose.

However, even if he couldn't defeat a king, he couldn't lose to a Half-King.

"Honey, are you alright?"

Han Fei: "I'm fine. Continue."

At this moment, Xia Xiaochan had just fought with Five Elements Chen Hao.

Xia Xiaochan's speed was very fast. Even Han Fei usually could barely catch her.

Now, holding a Sea Quelling Bizarre Treasure, Xia Xiaochan launched nearly a thousand attacks in an instant. Five Elements Chen Hao's ultra-quality shield, like Han Fei's shield just now, was shattered in the blink of an eye!

Five Elements Chen Hao was dumbfounded. F*ck, what kind of people have I encountered? Why did my ultra-quality Divine weapons become like a piece of shit?

Forced, Five Elements Chen Hao stepped on a lotus flower. In an array of the five elements, a five-colored wheel was spinning. It was his Sea Quelling Bizarre Treasure, the Five Elements Wheel.

Originally, Five Elements Chen Hao had thought that he could win easily, but as soon as they started to fight, he was forced to defend.

Five Elements Chen Hao and Ji Chen were both angry. Two Half-Kings were beaten to a pulp by two peak-level Venerables... Wouldn't it be embarrassing if the news spread out?

Below, the expressions of the other Half-Kings of the Supreme Clearness World and the Five Elements World changed drastically, and they directly gave up on their original battle.

The newcomers were too strong, and Ji Chen and Five Elements Chen Hao were very important figures in the Supreme Clearness World and the Five Elements World. If anything happened to the two of them in this battle, they would be punished.

Seeing the other party all rushed at them, Han Fei and Xia Xiaochan made a decision almost at the same time.

"Blare!"

Xia Xiaochan directly used the Heavenly Cicada Transformation and the Heavenly Cicada Wings opened.

At the same time, she shouted in a low voice, "Fuse."

Roar!

The Giant Arowana let out a low roar that sounded like the roar of a real dragon. The demonic sound shook everyone present, including Han Fei.

Like Xia Xiaochan, Han Fei chose to fuse with Little Black and Little White directly. At this moment, he didn't plan to let anyone go, so he might as well kill them all.

Then all the treasures in the secret realm were his!

Different from the dragon roar of the Giant Arowana, as soon as Han Fei's Yin-Yang Divine Eyes appeared, Ji Xuan exclaimed, "How is this possible? Is this the Yin-Yang Divine Eyes? You're not from the Snow God's Temple, but from the Yin-Yang World."

Chi la!

When Ji Chen shouted this, a jade slip broke.

The surrounding void trembled, and this guy immediately tried to run. Half of his body had already entered the void.

Han Fei didn't expect that this guy could directly escape from here.

Seeing that it was too late for him to block Ji Chen, a black fog suddenly sealed the void.

Han Fei immediately roared, and the Hundred Beast Soul Devouring Technique instantly attacked Ji Xuan's mind. And he used the Heaven Gate Knocking again.

"Don't hurt the Heavenly Talent of our Supreme Clearness World..."

In the blink of an eye, when Han Fei was about to stab Ji Xuan to death, a Half-King came at him with a spear.

Bang!

This person was not an expert of Ji Chen's level. Han Fei's Heaven Gate Knocking had the power of a king. How could he withstand it?

The person directly exploded.

Han Fei pointed again and the Heavenly God Stab hit the mind of another Half-King, and the fist mark in Han Fei's hand rumbled.

When Ji Chen woke up from the soul shock, the first thing he saw was that Han Fei blew up a Half-King he brought with him with one punch.

Ji Chen shouted angrily, "Supreme Clearness Azure Dragon Sword!"

At this moment, Ji Chen tried to buy himself a moment.

Realizing how terrifying the enemy was, Ji Chen wanted to make use of this moment to kill Han Fei, but Han Fei didn't give him the chance.

At this moment, the two Half-Kings blocked Han Fei and won a chance of survival for Ji Chen.

Since he could not escape, he might as well take a gamble!

Ji Chen regained the initiative. He brandished the Sea Quelling Bizarre Treasure, Azure Dragon Sword, in his hand. When the sword danced, it actually had the charm of the Sword Dao. It was as if the power of this sword could pierce through everything in front of him.

Apart from this strike, the two blue rings on Ji Chen's wrists exploded at the same time.

"Damn! He has a lot of tricks up his sleeve!"

Ji Chen's three consecutive attacks were comparable to three consecutive king-level attacks.

Han Fei thought to himself, I've already revealed my identity. How can I let you escape?

On the other side, Xia Xiaochan shouted, and Han Fei rushed into the storm-like bombardment.

Boom!

The pressure of a Half-King instantly overwhelmed the entire battlefield.

The nearby corpses were all crushed. Xia Xiaochan had already assassinated a Half-King and was attacking Five Elements Chen Hao. The two of them were sent flying at the same time.

On the other side, under the three attacks, this world seemed to be frozen in Han Fei's eyes. Han Fei's figure shuttled, blocked a king's attack with two big shields, withstood Ji Chen's full-strength slash, and stabbed his hand into Ji Chen's chest.

"Puff ~"

Ji Chen looked horrified. He felt that his soul was being invaded and his mind was buzzing.

Han Fei grinned. "I'll keep your Sea Quelling Bizarre Treasure for you."

Chapter 1769: Have A Narrow Escape

Han Fei had to admit that Ji Chen was indeed strong. His combat power had been in the Sea Establishment Realm the whole time, but it still took him six seconds to defeat him.

Although two people blocked his attacks twice during this period, Ji Chen's hysterical outburst in the end actually injured him badly.

Although the power of that sword didn't penetrate Han Fei's body, it led a large amount of sword Qi into his body.

Han Fei thought to himself, It seems that I still have opponents in the Venerable realm. When I return to the Half-King realm and continue to push my strength to the peak, I can really become the strongest person under the King realm in the Raging Sea.

"Ahhh~"

Hardly had it ended when Han Fei turned around and saw seven or eight Xia Xiaochans in the sky.

Her attacks were continuous like a storm.

Han Fei could even feel that Xia Xiaochan's every blow was at least at the Half-King level.

“Pu! Pu! Pu! Pu!”

Five Elements Chen Hao also wanted to escape, but he found that his Five Elements Escape Technique was ineffective here.

Five Elements Chen Hao saw that the Half-King on his side were being tortured by Xia Xiaochan. The Heavenly Cicada Wings cut the Half-Kings’ armor into pieces so easily.

Five Elements Chen Hao said, “My friends, have you seen your surroundings? This space has been sealed, and it’s still devouring our energy and vitality. I just tried, but I can’t escape at all. Instead of fighting each other to the death, let’s find a way to get out together... Only by surviving will there be a need to fight.”

At this moment, Five Elements Chen Hao felt his scalp go numb. He had suppressed his arrogance and said these words humbly. Otherwise, he wouldn’t have bullied the two peak-level Venerables with Ji Chen just now.

Five Elements Chen Hao was extremely puzzled. F*ck, where did these two super powerhouses come from? What did Ji Chen’s words mean? What did he mean by saying that you are not from the Snow God’s Temple but from the Yin-Yang World? After that, Ji Chen tried to escape, which startled him.

Five Elements Chen Hao’s reaction speed was fast.

These Heavenly Talents knew about the history of the Thirty-Six Mystic Worlds. He glanced at Ji Chen who was like a living corpse now, and there was a big hole in his chest... But the hole was not enough to kill him. He was clearly controlled!

“Snow God Palace? There’s only one person in the Snow God Palace who can be so powerful, and that’s the Holy Child, Xue Zhan. Could it be that this person is Xue Zhan? Did he take off his mask?”

The more Five Elements Chen Hao thought about it, the more he felt his scalp tingle. This guy might be the Holy Child Xue Zhan... and more importantly, he didn’t seem to be from the Snow God’s Temple, but the Yin-Yang World? The Heavenly Palace that had disappeared for 80,000 years?

Han Fei sneered. “The battle has already begun. It doesn’t matter if we can get out or not... What matters is that you die first.”

“Got it!”

Seven or eight Xia Xiaochans combined into one, and the Heavenly Cicada Wings behind her seemed to turn into countless unusually transparent cicada wings. Like a storm of needles, they darted at Five Elements Chen Hao’s Five Elements Array.

Ding ding ding!

Clang! Clang! Clang!

Although Five Elements Disciple Chen Hao was a Five Elements disciple and the disciple of a king, he was only a Half-King after all. It was already difficult for him to handle Xia Xiaochan.

He had a Sea Quelling Bizarre Treasure, and so did she.

He had a powerful spiritual beast, but the other party had two.

He was the disciple of a king, while the other party was a royal mermaid.

And it was just Xia Xiaochan, and there was also Xue Zhan whose identity was unknown.

Even Ji Chen couldn't last more than a few seconds. It was impossible for him to hold on with his Five Elements Array!

Around them, a large number of puppet corpses were charging at Han Fei, intending to fight.

However, neither Xia Xiaochan nor Han Fei cared about these puppets at all. The puppets had no consciousness anyway, so they couldn't catch them.

Han Fei was about to attack, when Xia Xiaochan reached out and smashed the Hexagon Starfish into the Five Elements Array.

Not to mention Han Fei, even Five Elements Chen Hao was stunned.

Five Elements Chen Hao was speechless, thinking, I admit I can't beat the two of you, but why did you insult me with an intermediate Venerable-level starfish?

The Hexagon Starfish screamed, "Han Fei, save me! I'm not an array-breaking machine!"

Five Elements Chen Hao was shocked. Han Fei?

He was too familiar with this name. Han Fei was the one who killed Ban Yi! Just now this big starfish called Han Fei? Was he Han Fei from the Avengers?

However, when he thought about it carefully, he couldn't help but shiver. Is Han Fei Xue Zhan? But Xue Zhan gave Ban Yi to Han Fei! And Ji Chen also mentioned the Yin-Yang World just now!

"Hiss ~"

Five Elements Chen Hao immediately sucked in a breath of cold air. He couldn't help but think of a top divine technique of the Yin-Yang World, the "Twin Divine Technique" that was said to be the strongest escape technique in the Thirty-Six Mystic Worlds.

So, Holy Child Xue Zhan and Han Fei of the Avengers were the same person?

So, this Han Fei in front of him was the current master of the Yin-Yang World?

Five Elements Chen Hao instantly figured everything out. It turned out that he was fighting the current Palace Master of the Yin-Yang World!

No wonder, no wonder he attacked them right from the start. He didn't even try to reason with them...

No wonder Han Fei wanted to build the Avengers... He came back for revenge!

Buzz!

At that moment, Five Elements Chen Hao wanted to kill the Hexagon Starfish with the Five Elements Reversal Array.

Of course, the moment the Hexagon Starfish approached the Five Elements Array, the array actually drilled into the Hexagon Starfish's body, but then the Five Elements Array failed.

The Hexagon Starfish murmured, "Fortunately, I awakened the Array Swallowing Divine Technique. Otherwise, it would be too dangerous."

Han Fei seized the opportunity and threw out a Heavenly God Stab, followed by the Hundred Beast Soul Subduing Roar, intending to shock the man's soul.

Xia Xiaochan was a born hunter. After awakening the Heavenly Cicada, she was even more elusive.

Han Fei saw a sharp light flash past Five Elements Chen Hao's body.

Ka ka ka ~

At this moment, Five Elements Chen Hao seemed to have turned into a stone and was cut by Xia Xiaochan.

Buzz—

Then, five figures appeared. They were respectively of the five elements.

Five Elements World Chen Hao shouted angrily, "Do you want to die with me? Fine, so what if you are peerless Heavenly Talents? Explode..."

Buzz!

The Hexagon Starfish reacted quickly. With a swish, the Six-Gate Array was activated.

Han Fei reacted equally fast, and the phantom of mountains and rivers appeared.

At this moment, Five Elements Chen Hao detonated all the energy in his Sun-Moon Shell. It was crazy.

Xia Xiaochan exclaimed, "Is he crazy?"

The Hexagon Starfish muttered, "You'll be crazy too in his situation."

Seeing the phantom of mountains and rivers appear, Xia Xiaochan and the Hexagon Starfish knew that they would be safe in the small world. No matter how Five Elements Chen Hao blew them up, they wouldn't be affected.

But seeing Han Fei step on a Coiled Turtle Array, they were puzzled.

The moment the six-gate array was about to collapse, Han Fei smiled at Xia Xiaochan. "Wait for me."

Buzz!

Rumble! Rumble!

Han Fei didn't follow Xia Xiaochan into the Sea Quelling Painting. This wasn't the Yin-Yang World, so he had to remove the source of trouble.

So what if Five Elements Chen Hao detonated all his resources? Did this mean that he must have died?

Only if Han Fei personally confirmed his death could he be considered dead. For example, Ji Chen had been controlled by the Void Lines, which could absolutely guarantee his death.

Of course, the premise was that Ji Chen could survive such a violent explosion.

Han Fei quickly drew one small defensive array after another with the lines of Dao patterns. The moment the six-gate array disappeared, fifty or sixty defensive arrays were broken in a row. Han Fei even took out two giant shields and put them in front of him.

Even so, Han Fei still underestimated the explosion power of the massive amount of resources.

At this moment, Han Fei finally experienced the terrifying power when he detonated the White Shell Royal City. And this time, he was in the center of the explosion! If it weren't for his strong physique and confidence that he could withstand it... Han Fei wouldn't have stayed.

A moment later, when Han Fei got up from the ruins, there were no more puppets here. They had basically all been blown up by Five Elements Chen Hao.

The swamp within hundreds of kilometers was also blown up, creating a huge pit.

The two giant shields in Han Fei's hands only had one handle left, and Han Fei's battle suit was tattered.

Han Fei couldn't help shaking his head. "No! The ultra-quality divine weapons without sealed spirits are not strong enough! It seems that I have to strengthen my refining skills."

A moment later, when the power of the explosion dissipated and only the aftershock was left in the space, Han Fei summoned Little White and explored the ruins.

"Daughter, look for that person's aura..."

However, before he could finish his sentence, Little White rushed towards the sea of fire.

"Daddy, he's in here."

Han Fei sneered. "I knew it. Hmph... does he think he can fool me by doing this?"

Since Little White had found the place, Five Elements Chen Hao certainly couldn't escape.

Soon, Han Fei pulled out a ball of fire from the sea of fire.

The ball of fire twisted crazily and shouted in horror, "Let me go! The Five Elements World is willing to pay anything. We don't have a grudge..."

Buzz!

Casting the Void Lines on him, Han Fei sneered. "Do you really think you're valuable?"

After killing Five Elements Chen Hao, Han Fei glanced at Ji Chen, who was only left with broken limbs, and thought to himself, This person is quite durable!

Buzz!

The phantom of mountains and rivers appeared again, and Han Fei was ready to release Xia Xiaochan and Master Hexagon.

However, a light flashed.

Clang, Clang, Clang, Clang...

Han Fei was hacked seven or eight hundred times in an instant, and his stomach was stabbed from his belly button to his tailbone.

“Hey, hey~ Wait, let’s talk nicely...”

Xia Xiaochan’s eyes were red and her face was full of anger. “Talk nicely?! Do you think you’re not afraid of anything just because you’re a body refiner? How dare you stay outside alone... How dare you leave me behind... Boohoo, don’t leave me behind anymore...”

Xia Xiaochan suddenly burst into tears like a wronged wife who had been bullied.

Han Fei’s heart tightened and he quickly hugged her. “Be good. Don’t cry... I promise, I promise I will never leave you alone...”

Chapter 1770: Stinky to the Point of Injuring the Soul

With Han Fei’s repeated assurance, Xia Xiaochan put away her dagger.

“Huff~”

Han Fei hurriedly held his stomach and thought to himself, Fortunately, I’m a body refiner. Otherwise, I would have been stabbed full of holes.

Of course, Xia Xiaochan didn’t really stab him.

The first few strikes were only the strength of an intermediate Venerable. Then, she found that Han Fei was quite resistant to attacks, so she kept increasing her strength until she reached the peak of the Venerable realm.

Xia Xiaochan was also speechless. Did this guy eat Heaven and Earth Mystic Iron? How could he cultivate his physique to this level?

The Hexagon Starfish seemed to be used to this scene and didn’t take it seriously at all. He was still sighing. “What a powerful explosion. Even such a terrifying explosion still didn’t break this space... Can we still get out?”

Han Fei didn’t know how to answer the Hexagon Starfish’s question.

This space was indeed absorbing the energy in their bodies. Five Elements Chen Hao and the others had been here for a long time, so they concluded that this place could also devour vitality...

Han Fei had experienced such a situation before. After Xia Xiaochan was taken away by Chun Huangdian and he was resurrected, he met Destiny Saint Grass on the way back to the Ten Thousand Demon Valley with Yu Ji!

Now, although the situation was the same, the environment was different.

This space was more than 2,000 kilometers wide.

Previously, Ji Chen and Five Elements Chen Hao were fighting with the puppets here. The question was, where did the puppets come from?

Han Fei's Vast Ocean Navigator could still be used, but he was injured and had yet to recover to his peak state.

Updates by

Han Fei thought to himself, Anyway, there's still a long time before the one-month deadline. It's only the fourth day now! I can stay in the Sea Quelling Painting for one more day... Then I can have an extra day of my honeymoon.

Han Fei snapped, "Do you think only you are afraid of death? Are we just decorations? You want to leave before we find the treasure?"

Xia Xiaochan looked around. "Is there any treasure here?"

Han Fei was also a little guilty. "We're already here anyway. Don't panic. Let me cure Ji Chen first."

Before Xia Xiaochan said anything, Master Hexagon exclaimed, "Why did you treat him? He's obviously not a good guy. Just let him sleep here!"

Han Fei was really amused by the Hexagon Starfish. He knew nothing but fear.

Han Fei looked at Xia Xiaochan and said, "Wait and see."

Han Fei raised his hands and as the Heaven Enlightenment Divine Technique shone down, Ji Chen's limbs were growing rapidly.

This scene made Luo Xiaobai and the Hexagon Starfish widen their eyes.

Last time, Xia Xiaochan was treated.

This time, watching Han Fei heal others, she felt that the healing technique was too powerful. Ji Chen was almost dying, but Han Fei still brought him back to life.

Han Fei consumed 200 years of vitality.

For the current Han Fei, it was nothing. He had absorbed so much vitality in one hunt... He probably wouldn't die even if he lay in a coffin for ten thousand years.

Seeing that Ji Chen had recovered, under Xia Xiaochan and the Hexagon Starfish's confused stare, Han Fei took out the Dao Devouring Insect King that he had just obtained.

Xia Xiaochan couldn't help but ask, "Ew~why did you take out this bug?"

In fact, not only was Xia Xiaochan disgusted, but Han Fei could also feel Ji Chen's resistance.

He was a peerless Heavenly Talent of the Supreme Clearness World. He was disgusted by the bug too.

Han Fei controlled Ji Chen to open his mouth and let the Dao Devouring Insect King enter it.

"Ew..."

Xia Xiaochan felt that her scalp was numb. It was better for Little Kuangkuang to do this. His invincible black hole could absorb anything.

However, feeding a worm to the living? That was hard to accept.

The Hexagon Starfish's tentacles were trembling, thinking that Han Fei was simply too scary.

If you don't like this guy, just kill him. However, Han Fei didn't kill him but feed him a worm... This was a little disgusting.

Seeing the look on Xia Xiaochan and the Hexagon Starfish's faces, Han Fei snapped, "What do you know? You'll find out later. This bug may look weak, but it's terrifying when it parasitizes someone."

Han Fei sensed through the Void Lines that Ji Chen's soul was struggling hard.

However, when the Dao Devouring Insect King entered Ji Chen's mouth, it directly turned into a strange liquid and drilled into Ji Chen's brain.

In just thirty seconds, Han Fei sensed that the Dao Devouring Insect King had dissolved in Ji Chen's brain.

Gulp!

Han Fei couldn't help but swallow. He had thought that the Dao Devouring Insect King would only make a nest in Ji Chen's head, but who knew that it wanted his entire head?

Buzz!

Ji Chen suddenly opened his eyes and his body stiffened slightly.

With the connection between Han Fei and the Dao Devouring Insect King, he knew that the parasitism had been completed.

He quietly retracted the Void Lines. Ji Chen did not move at all. His eyes were dull.

Han Fei asked, "Can you speak?"

Seeing that Ji Chen didn't respond, Han Fei said, "Show me your best swordsmanship."

Swish!

Ji Chen held the Azure Dragon Sword in his hand and slashed out for 2,000 kilometers, leaving a long sword mark on the already dilapidated ground.

Xia Xiaoya said in surprise, "He, he became a puppet?"

Han Fei shrugged. "Yes! As I said before, this worm is very powerful. Although it is very weak in itself, it can parasitize the head. Not to mention controlling a Half-King, it can even control a King."

"Hiss ~"

The Hexagon Starfish shivered. Han Fei was too scary! He would rather sleep in the Mermaid Royal Family than travel with Han Fei.

Xia Xiaochan was surprised. "Can he still use his full strength?"

Han Fei nodded. "In theory, yes. I'll leave this Sea Quelling Bizarre Treasure sword to him for now. Since Ji Chen is a top Heavenly Talent in the Supreme Clearness World, he's certainly not weak. Besides, he had a Sea Quelling Bizarre Treasure, so ordinary Half-Kings are no match for him at all. He's definitely a good helping hand for us."

Xia Xiaochan said, "Then I don't want insects. Why do I need so many bodyguards? I run very fast. If it weren't for the Sea Establishment Realm masters, I would have run away and none of them could catch me."

Han Fei thought to himself, That's true.

Judging from the speed displayed by the Heavenly Cicada Transformation, Han Fei knew that even he couldn't catch up with her. It seemed that it was better to have wings! Unfortunately, his Phantom Glass Wings had long been absorbed by his body. Although he could get himself wings now, he couldn't increase his strength explosively with the wings like the Heavenly Cicada Wings.

Han Fei flipped his hand and six Sun-Moon Shells appeared.

After checking them, Han Fei didn't know whether to laugh or cry. "There isn't a single key to the Monarch Palace. It seems that their goal is very clear. They came directly to the Whale Valley and haven't had time to explore other places..."

Xia Xiaochan had no interest in resources now. She had seen too many good things.

The battle in the Death Valley ended unexpectedly. Xia Xiaochan was relieved, but she remembered that there were still people from the Soul Sealing World outside, so she immediately said, "Let's get Little White out to search for treasures!"

Han Fei nodded, summoned Little Black and Little White, and asked, "Daughter, look, are there any treasures here?"

Little White went to the rock wall on the right without hesitation, but when Han Fei and Xia Xiaochan followed her to the rock wall, Little White swam in another direction.

After swimming through the entire space, Little White returned to the center and looked up and down from time to time.

Han Fei couldn't help but ask, "Daughter! Have you found anything or not?"

Han Fei thought to himself, If you can't find the treasure, I'll use the Vast Ocean Navigator.

However, Little White said, "Dad! It seems to be below us. Besides, it can move. But I don't know how to get out."

Han Fei's heart did a flip. Under our feet?

Since even Little White couldn't find the way, Han Fei didn't want to waste his time. Therefore, he took out the Vast Ocean Navigator.

Ka ka ka ~

The Vast Ocean Navigator spun rapidly.

However, Han Fei noticed the unusual trajectory of the needle. It seemed to be moving irregularly in this space like a broken compass.

Han Fei quickly shouted, "Master Hexagon, can you seal the underground space?"

The Hexagon Starfish said, "Maybe!"

Han Fei said, "Listen to my command. Seal wherever my knife points."

Han Fei knew that the Vast Ocean Navigator could only last for ten seconds at most. Therefore, as the Vast Ocean Navigator turned, Han Fei controlled the Infinity Water to dart out.

In order to get out alive, the Hexagon Starfish worked really hard.

The starfish disappeared silently and appeared silently. In the blink of an eye, its body became a hundred meters long and instantly sealed that place.

At this moment, the Vast Ocean Navigator began to tremble quickly and move around within a hundred meters.

The Hexagon Starfish was immediately amused. "I can still shrink."

The Hexagon Starfish quickly shrank from a hundred meters to half a meter, forcefully controlling the thing underground.

At this moment, the Infinity Water was drilling down crazily like a drill.

After drilling for more than twenty kilometers, Han Fei took out a bead.

Before Han Fei could take out the bead, the air around him changed with a buzz.

Then, Han Fei and Xia Xiaochan found that a gray aura instantly spread to an area of 2,000 kilometers.

In the next moment.

"Ew..."

"Ew..."

"Ew..."

Han Fei, Xia Xiaochan, and the Hexagon Starfish all retched and felt like vomiting. They didn't know what was in the pool. It was so smelly that even their souls were trembling...
