Chapter 181 Golden Squid

As Han Fei cultivated, the day had turned to night.

Today, the sea was billowy and the wind was roaring. The three moons were almost shaded by clouds and Han Fei's fishing boat drifted on the sea.

During the day, he didn't feel the difference between the level-two and the level-one fisheries. Although occasionally there were some stupid big fish jumping from the water and attacking him, they were not his opponents at all, and there were no big shrimps like Tentacle Shrimps climbing up the fishing boat.

At night, everything was different. The waves were surging and from time to time, some squids attached to the fishing boat. Unlike the squids in ordinary fisheries, these squids were very fierce.

Smack...

A few tens of meter-long tentacles slammed on the deck and Han Fei almost never stopped waving his double knives. Since dark, he had been slashing and hundreds of tentacles had been stuffed in Forge the Universe.

"Shit, aren't you done yet? Can't you just let me sleep?"

"Little Black, bite them! Bite these bastards to death."

Han Fei slashed these annoying tentacles while cursing. Although it seemed easy to chop off these tentacles, in fact, each of them were very powerful. If the double knives weren't magic weapons, it definitely wouldn't have been as easy as it was now.

About two hours later, Han Fei gaped. The whole ship was almost full of squid.

Fortunately, squid were not octopus, which were much more terrifying.

There were so many squid tentacles that he didn't even bother to stuff them into Forge the Universe. The whole boat was full of this stuff, which was too many for Little Black to eat up, so Han Fei could only kick them all into the sea.

Suddenly, Han Fei saw Little White twirling around him anxiously. Is there something special?

At the next moment, he saw a pale gold shadow. In the blink of an eye, a tentacle swept over and swept away the countless tentacles on the deck. A squid that had climbed on the ship was cut in half.

The huge force dragged the fishing boat forward. Han Fei's face slightly changed. "Is it that Golden Squid?"

Han Fei was shocked. I had been searching for you for so long and failed to find you. Now you actually sent yourself to me?

"Hiu..."

Ignoring the tentacles, while the Golden Squid was hunting, Han Fei put his fishhook into the water and activated the Thousand Twining to tie up the Golden Squid as well as the squid that was dragged into the water.

The moment the fishhook entered the water, the Golden Squid hadn't discovered it. As soon as the Thousand Twining started, it immediately released the squid and tried to escape.

"Haha! You won't be able to run away!"

The Thousand Twining technique immediately took effect and bound the three tentacles of the Golden Squid at once.

"Squeak..."

There seemed to be a strange sound underwater. Han Fei was surprised. Can the squid call? What kind of squid are you?

"Hum..."

In the blink of an eye, Han Fei was pulled forward and the fishing rod was almost pulled out of his hand. When Han Fei stabilized himself, he discovered that the fishing line was pulled out 100 meters.

"Damn! So fast..."

He almost lost his balance and there were too many tentacles around, so he gritted his teeth, and the fishing boat disappeared instantly. He was dragged out dozens of meters.

Flop...

Han Fei fell into the sea. At the moment he entered the sea, countless claws stretched out at him.

"Slash... Little Black..."

A cold glint flashed and five or six tentacles were cut off. Immediately, a water wall appeared in the water, and he used the Water Control Technique to block dozens of tentacles.

Then, Han Fei was dragged into the deep sea. Along the way, Han Fei activated the Wandering Dragon Art and he grabbed the fishing rod with one hand and made various strange movements to block various tentacles.

Strip Fish, Bony Spur Fish, Big-Headed Prawn, and schools of fish... There were countless sea creatures, which were much more than those in the ordinary fisheries. Here, although the sea surface was billowy, there were still so many fishes underwater.

However, Han Fei was not afraid at all. Since he had caught this Golden Squid, he certainly wouldn't let go of it. He activated the Hook Kiss and made the fish hook go deep into the body of the Golden Squid. Han Fei retracted the fishing line with a jerk, but he was pulled flying towards the Golden Squid.

"Hiu..."

Han Fei gritted his teeth. Too fast, this squid is running too fast.

The fish nearby could not catch up. Some squids had just stretched out their tentacles, but Han Fei was already 20 meters away.

“What the hell is this squid? How can it run so f*cking fast?”

After a moment, Han Fei didn't know where he was, but he saw a large group of coral underfoot, and the squid dragged him to bump against the reef.

BAM!

Thud...

The sand on the bottom of the sea was flying, and the coral shattered. Han Fei didn't know how many coral groups had been damaged. He was pissed off and tried harder to retract the fishing rod.

After a while, he finally saw the Golden Squid more than ten meters away. It was nearly three meters long. Because it was running too fast, the water marks drawn along the way were like knives.

But he was overjoyed to see a series of data.

<Name> Golden Squid

<Introduction> Mutated Lightning Squid, as timid as a hare, and incredibly fast. It has a bone, which can be used to refine spiritual weapons.

<Level> Level 23

<Quality> Exotic

<Contained Spiritual Energy> 468 Points

<Edible Effect> Eating it can awaken a talent for speed.

<Collectable> Thief Bone

<Absorbable>

Han Fei beamed with a smile. It's an exotic creature. No wonder it's so awesome. If he hadn't sent himself to me, I wouldn't have been able to catch it.

Pu...

While Han Fei was smiling, with a thud, a great mass of ink appeared in the water.

“Shoot...”

Squid, also known as cuttlefish, had an ink sac in its body. Normally, it would eject ink to escape when it was in danger. Han Fei plunged into the mass of black ink and immediately felt dizzy and almost vomited.

“Poisonous? Paralysis effect...”

Han Fei felt his head was spinning. Although he had taken the Exotic Poisonous Fruit, this ink itself was not poisonous, or to be exact, half poisonous, so it could not be completely resisted.

Fortunately, the paralysis effect of the body was fading, but he still wanted to throw up.

“Squeak...”

The Golden Squid in front was anxious and seemed to be wondering why it couldn't get rid of this thing!

“Universe Machete.”

“Hiu...”

In the water, a cold light flashed and the body of the Golden Squid was penetrated in an instant.

BAM!

The Golden Squid crashed into a pile of coral. Han Fei put away the knife and quickly came to it. At this time, the squid finally remembered to use its tentacles.

“Puchi...”

When a tentacle was chopped off by Han Fei, the Golden Squid squeaked again in pain and began to run again.

But this time, it wouldn't be so easy for it to run away. After about ten minutes, the ten tentacles of the Golden Squid were cut off by Han Fei, leaving only the three entangled by the fishing line.

Han Fei stood in front of this big squid. Run, keep running! Humph, you can't escape me today!

“Collect.”

The Golden Squid, the seven of whose tentacles had been severed, was hacked by Han Fei. Now, it was extremely feeble, so it was easily collected into the Demon Purification Pot. Han Fei swam to the sea surface contentedly. There were many underwater creatures in the level-two fishery. At this moment, he suddenly saw a spooky Dragon-Headed Fish ramming at him.

BAM!

Han Fei smashed the Dragon-Headed Fish with the Water-Stirring Seal and swam upward without stopping. Along the way, he met Dragon-Headed Fish, Human-Faced Crab, and...

He was more scared than hurt along the way. To his scare, he was almost injured by a Human-Faced Crab. At that moment, he saw hallucinations. There seemed to be countless tentacles around him, so dense that he couldn't even count. If it weren't for Little Black who immediately attacked the Human-Faced Crab, he might have to stay in the water for a while.

“Pu...”

The white fishing boat appeared on the sea. Han Fei lay on the boat and gasped. It was really not easy to catch exotic creatures, much more difficult than catching rare creatures.

Chapter 182 Everyone Showing Their Special Abilities

After lying on the fishing boat for less than 5 minutes, Han Fei felt movement on the bottom of the boat. Needless to say, it was definitely those damn squids.

“Little Black, bite them.”

“Oh, no, I seem to have forgotten Nine Tails.”

With a flash on his arm, Nine Tails appeared. He froze for a moment and then saw a tentacle stretch over from the side of the boat.

Without any hesitation at all, Nine Tails immediately caught the tentacle with its two claws and bit at it.

“Guard the goddamn ship, understood?!”

Han Fei knew why he chose to ‘forget’ this bastard. As soon as he was released, he began to run amuck

The squid underwater were also stunned. Oh, what happened to my tentacle?

Five or six tentacles suddenly stuck out in rage. Nine Tails froze for a while and waved his tails with a jerk and four or five tentacles were cut off and fell on the deck.

Han Fei leaned on the cabin, and shouted to Nine Tails, “Hey, over here, tentacles are here.”

Maybe Nine Tails hadn’t been out for a long time. He was very excited and ran around on the boat energetically. Although the tentacles were not weak, they couldn’t resist Nine Tails, a legend-level creature at all.

At this moment, Forge the Universe had been stuffed with tentacles. Han Fei decided to take these tentacles back to the Fish Dragon barbecue stall as they could probably sell for a lot of money.

It was about early morning, two hours before dawn. Han Fei saw a big fish bouncing out of the sea, which was dozens of meters long.

Han Fei was stunned. What the hell was that? How could there be such a big whale in the level-two fishery? Are you kidding me?

The big fish went straight to Han Fei’s fishing boat. Han Fei was startled, quickly preparing to steer the fishing boat to escape.

“Roar...”

He suddenly heard a dragon howling. Han Fei turned back. Dragon? Giant Arowana?

The only big fish that could howl this way that he had seen was Xia Xiaochan’s Giant Arowana.

After a while, Han Fei saw Xia Xiaochan sitting diagonally on the back of the fish, casually kicking the water with her feet. And those squids, when encountering the Giant Arowana, immediately escaped.

Xia Xiaochan waved at him.

When Xia Xiaochan jumped onto the fishing boat, Nine Tails was still running around, sweeping his tails wildly. There were so many tentacles on the boat that Han Fei didn’t have time to pick them up.

Xia Xiaochan immediately sat on the deck. “Fortunately, your boat is sturdy.”

Han Fei was shocked. “Why are you here? Where is your boat?”

Xia Xiaochan looked at the tentacles. "It sank!"

"... Why is the level-two fishery like this? I heard that people often stay in the level-two fishery for many days. How come so many squids have come out when we came here?"

Xia Xiaochan shrugged. "Who knows? Perhaps we're out of luck. Anything can happen in the fisheries. If in danger, we can steer our fishing boats into the air or to the mixed zone."

"Then why didn't you?"

Xia Xiaochan shrugged again. "There will be growth only when there are challenges. Ah... Do you have any barbecue? I'm hungry."

Han Fei took a few skewers from the Sea Swallowing Seashell and handed them to Xia Xiaochan.

Han Fei couldn't imagine how she sunk her boat, but her Giant Arowana was really magical, a bit too strong.

Xia Xiaochan took a bite of garlic prawns. "Yum! Tasty! By the way, how did you come here? I remember you seem to be going south or west? You were not in the same direction as me, right?"

Han Fei grunted. "I just let my fishing boat float on the sea. How do I know where I am floating to?"

It was not that Han Fei didn't want to tell her what he had done just now. The Golden Squid was lying inside the Demon Purification Pot, and he couldn't take it out now.

Xia Xiaochan looked at Nine Tails. "You Mantis Shrimp is pretty good. With him guarding the boat, you don't need to do anything."

Han Fei asked with a smile, "Have you considered catching a contractual spiritual fish?"

Xia Xiaochan shook her head indifferently. "No fish is good enough. The rare ones are useless and I can't catch any exotic fish. But I do want to catch a contractual spiritual fish in the level-two fishery."

Han Fei nodded. That was true. Among the five of them, only he had a contractual spiritual beast, although only Han Fei knew that his relationship with Nine Tails was not a contractual one. The other four should all be waiting to catch a powerful contractual spiritual beast.

Xia Xiaochan suddenly said, "Let's go find Kuangkuang..."

"What about Xiaobai and Zhang Xuanyu?"

"Xiaobai is a manipulator! These squids won't be able to hurt her. Zhang Xuanyu has a Bloodthirsty Shark. Even if his fishing boat sinks, he can ride the shark like me. Kuangkuang is different, his Spiritual Clam can't swim."

Han Fei nodded. Now that he had met Xia Xiaochan, he had to stop practicing the Water Vein Technique. Han Fei felt that he had learned a lot more about his spiritual beast. As for the true meaning of fishing Old Bai said, he really had no clue.

He couldn't just throw the fishhook into the sea, right?

Le Renkuang was very helpless. What was wrong with these squids? Why did they keep climbing onto his boat?

In the dark night, a magical scene appeared. Weapons floated around his fishing boat. When it came to group battles, an armorer even had greater advantages over a soul warrior. Various kinds of swords and knives danced in the air and tentacles flew across the sky.

By the time Han Fei arrived, Le Renkuang's fishing boat was full of holes, not torn by the squids, but penetrated by his own weapons.

Seeing Han Fei's fishing boat, Le Renkuang immediately waved at him. "Hey! Han Fei, I miss you so much! Come and help me out."

A few minutes later, the three of them sat on Han Fei's fishing boat and ate barbecue. Le Renkuang's fishing boat began to leak and had sunk by half.

Le Renkuang muttered, "Why is my fishing boat such a piece of junk? No, we've gotta find a way to dig some wood from the seafloor and build our own fishing boats."

After the night.

Three of the five of them had their fishing boats sunk. Shortly after dawn, Zhang Xuanyu came back on his shark.

Then, within half an hour, Luo Xiaobai came back.

Luo Xiaobai's fishing boat was almost broken. She got on Han Fei's fishing boat and asked, "When did you come back?"

Zhang Xuanyu looked annoyed. "I was back when my fishing boat sank. The fishing boat is too fragile. I almost got dragged into the sea by the damn squids!"

"Last night was a special situation, but since there is only this fishing boat left, let's just work together?"

Han Fei suggested, "How about discussing what we've found out about our spiritual beasts?"

Le Renkuang nodded. "Nothing surprising. My Spiritual Clam can quickly absorb aura and has very strong defensive power. Well, but yesterday I found out that it can change color. It can turn the same color as a squid."

Zhang Xuanyu said helplessly, "There are so many creatures that can change color in the sea. What kind of ability is this?"

Luo Xiaobai's eyes turned cold. "No! This is an ability. At least, it proves that the Spiritual Clam has the camouflage ability. My Blue Cannibal Flower can release paralyzing venom over a wide range. It was just because of the venom last night that I wasn't injured."

Xia Xiaochan said casually as if not impressed, "It seems that we all have some new knowledge of our spiritual beasts..."

With that, Xia Xiaochan suddenly disappeared and then appeared on the bow of the ship almost at the same time.

“Shoot, what kind of ability is this?”

Everyone was stunned. Did she move that fast, or was it a shadow? This was too fast!

Xia Xiaochan’s face was beaming with pride. “It’s the special ability of my Shadow Shrimp. With it, I can instantly move to any place within 100 meters.”

Everyone: “...”

Zhang Xuanyu suddenly pointed at the big shark in the water and scolded, “Did you see that?! Oh, I’m really disappointed with you! You’re so big but completely useless...”

Then Zhang Xuanyu shrugged. “I can control some low-level creatures by putting a trace of my consciousness into their bodies. But exotic species are more difficult to control and the probability of failure is too great”

Everyone: “...”

Han Fei was curious. “Do you mean you can become a fish?”

Zhang Xuanyu explained, “It’s not that I become a fish. I am still me, but I control a fish. I will have two visions at the same time.”

Everyone was amazed. What is it like to have the vision of a fish? Only Han Fei was pondering. I know what it’s like. It’s not funny at all.

Of course, Han Fei was unsure whether these guys really said all the information they had learned. For example, it was only one night and Xia Xiaochan already had the teleportation ability! Seriously?

Luo Xiaobai asked, “Han Fei, what about you?”

Chapter 183 Telephony

Everyone was staring at Han Fei at the moment.

Han Fei thought to himself, I can’t just tell them that I can enter the Soul Ocean! This ability seems a bit excessive.

So Han Fei said, “My Little White can look for exotic species in the sea. Last night, I was chasing an exotic creature and somehow met Xia Xiaochan.”

“Exotic creatures?”

Everyone exclaimed in unison as they looked at Han Fei with shining eyes.

Han Fei gave a wry smile. “Don’t be excited. If exotic creatures are discovered, they will hide and cannot be found again. With their ability to react and escape, it’s extremely difficult to catch them.”

Zhang Xuanyu said excitedly, “But there are five of us! As long as we find their positions, they won’t be able to escape from us!”

Xia Xiaochan was itching to try. "I have the ability to teleport! As long as I'm within 100 meters away from them, I can catch them."

Han Fei paused. Yes! This ability of Xia Xiaochan is way too powerful! Teleportation, this really is a magical skill!

Luo Xiaobai added, "I can release paralytic toxins in an area too."

Le Renkuang waved. "I can..."

Zhang Xuanyu scoffed. "No, you can't... Your Spiritual Clam can only change color. What the hell is the use of that? I can control the weakest fishes in the level-two fishery, which can help monitor the exotic creatures."

Le Renkuang: "..."

The discussion was buzzing until suddenly, everyone looked at Han Fei again.

Xia Xiaochan's eyes were shining. "Well, Hottie, we're counting on you to get our contractual spiritual beasts."

Han Fei shivered. "Don't call me that!"

"Humph!"

Han Fei smiled awkwardly. "Shall we go to the level-three fishery to find contractual spiritual beasts? The exotic creatures in the level-two fishery may not be strong enough."

Luo Xiaobai shook her head. "No. Contractual spiritual beasts can grow with their masters, and won't be weaker than those in the level-three fishery."

Xia Xiaochan echoed, "Their strength doesn't depend on the fishery. Exotic creatures are not common in the level-two fishery."

Soon, they reached a consensus and all looked at Han Fei expectantly.

Han Fei agreed, "Okay! I'm not sure if Little White can find any. I will have a try."

Luo Xiaobai hesitated and said, "Can you give it another name?" Luo Xiaobai was jealous as 'Xiaobai' means Little White.

Han Fei: "???"

Han Fei didn't take Luo Xiaobai's words seriously, he touched Little White's head and said, "Little White, can you still find a creature like the Golden Squid yesterday? Have a try..."

Little White got into the water and turned around for a while in confusion. In the end, it chose a direction with some uncertainty.

Although the others didn't know whether Little White was reliable, they were very happy that he began to lead the way so they began to talk about what kind of exotic creatures they could get.

Le Renkuang shouted, "I want a turtle, an exotic turtle! Then my defense power can certainly catch up with Han Fei."

Zhang Xuanyu showed a yearning look. "I want a fast one, the faster the better, whatever it is."

Luo Xiaobai jumped in, "I need one that can both attack and defend to make up for the defects of a manipulator."

Xia Xiaochan's eyes widened. "I want one with great attack power!"

Zhang Xuanyu was helpless. "Isn't your attack power strong enough? There are very few great fishing masters who can block your daggers..."

Xia Xiaochan looked at Han Fei. "No, he can. I want to pierce his body."

Han Fei said helplessly, "Hey, you speak as if the exotic creatures are already in your pocket. And you, Xia Xiaochan, can you stop thinking of how to stab me every day?! Did I offend you?"

"Yes, you did."

Han Fei: "..."

Suddenly, Luo Xiaobai said, "Well, everyone, let's learn telephony."

Everyone: "???"

Luo Xiaobai explained, "Before we left, our teachers guessed that we would go into the water, so they prepared a small technique for us with which we can communicate in the water."

Han Fei was surprised. "Is there such a technique?"

Han Fei was shocked. When he went to sea, he was either alone or gesturing with others. So was there such an advanced technique? How did it work?

The others were also dumbfounded. They seemed to hear this for the first time too.

Luo Xiaobai continued, "I didn't expect we would get into the sea so quickly, but just in a day..."

With that said, Luo Xiaobai took out a jade slip. "Telephony is easy to learn. We just need to practice it a little bit."

The others took the jade slip suspiciously, and when they saw the so-called telephony technique, they all looked dazed.

The technique was actually a kind of energy fluctuation produced by the combination of spiritual power and spiritual energy. The magical part was that the operation was simple but the demand was high. Spiritual power was not easy to control. However, it was basically impossible for a fisher or fishing master to acquire this technique because they lacked spiritual power.

But great fishing masters could easily use the combination of spiritual power and spiritual energy to transmit a thought to a specific person's mind. Although Han Fei didn't find out what the principle was, he tried it and shouted, "Hey hey," to Xia Xiaochan.

Xia Xiaochan patted Han Fei hard. "What the heck are you doing?! Stop making that stupid sound!"

"I'm just trying it out on you."

"Why did you all try it on me? Now I have three voices in my head!"

Everyone: "..."

And then, two voices appeared in Han Fei's mind.

Le Renkuang had an eager tone. "I want to eat barbecue..."

Zhang Xuanyu's voice then interrupted, "Are you and Xia Xiaochan in love?"

Han Fei was helpless. "Okay, no need to try this anymore. Very simple, very low consumption."

But the four others all looked around. No one knew what exactly they said to each other but they all looked awkward anyway.

Han Fei thought that maybe only he said something simple while the others, like Zhang Xuanyu, were gossiping.

Han Fei suddenly looked at Zhang Xuanyu. "What did you do to Hu Keren from the First Academy? I heard that you stayed with her alone for a whole night?"

Zhang Xuanyu scoffed. "What about you? I heard you abducted He Xiaoyu. What did you do to her?"

"I just said a few words to He Xiaoyu, but you stayed with her alone for a whole night!"

Zhang Xuanyu's eyes narrowed. "Don't two-time girls! Otherwise, I'll beat the hell out of you."

Han Fei and Zhang Xuanyu exchanged a glance as if they were eyeing up one another.

Xia Xiaochan butted in, "Are you two secretly chatting? What are you talking about?"

Han Fei snorted. "No! What, can I not chat with him? I'd rather chat with you!"

Zhang Xuanyu disdained. "I don't want to chat with him! I was just in a daze."

Little White swam for more than an hour and crossed nearly a thousand miles. During this period, Han Fei received all kinds of weird problems from the four others from time to time.

He looked at the others, who seemed to be chatting with each other for fun. This was literally even more convenient than making a phone call.

Suddenly, Little White stopped.

Han Fei shouted, "Stop chatting. We've got something."

They all got excited and stuck their heads out of the boat.

"We can't just throw the fishing rod at the fish. That's how I sacred away the Golden Squid yesterday."

Zhang Xuanyu suggested, "Take it easy. Drop the fishing rod three meters underwater and catch a small fish first."

Luo Xiaobai immediately waved her fishing rod. After a minute, a Yellow-Bone Fish was caught. Yellow-Bone fish, like Strip Fish, were common fish in the level-two fishery. It was named so because its bones were extremely hard and could be used to make weapons.

Zhang Xuanyu's face changed slightly, and his eyes became glassy. In the next moment, the Yellow-Bone Fish twitched and looked at them with its fish eyes.

Zhang Xuanyu took a deep breath. "So ugly... Fine, throw it into the water."

Everyone: "???"

After a moment, while everyone was nervous and excited, Zhang Xuanyu suddenly said, "It is a turtle, a silver one. Oh, no, it has a lot of knives in its body, so many that I can't count them all."

Le Renkuang snapped his thigh immediately. "Mine, mine. Haha, the first one is mine."

The others were not disappointed that this one was not theirs but were even more excited. Since Little White could really find exotic creatures, it was just a matter of time until they found others.

Chapter 184 The Terror of An Exotic

Creature

Now that they learned that it was a turtle and the purpose of detection was achieved, Han Fei hurriedly said, "Don't let your Yellow-Bone Fish get too close to it. Stay away from it."

He Xiaoyu asked, "How deep is it under the water?"

Zhang Xuanyu analyzed, "About 200 meters below the water, lying on a stone platform in the middle of a coral bush."

Luo Xiaobai nodded. "I'll go underwater first to release paralytic toxins within 100 meters."

Han Fei quickly said, "Expand the range a bit more! We don't know anything about this turtle. What if it is a fast turtle and swishes away?"

Everyone was speechless. How could there be so many fast creatures?

Zhang Xuanyu sounded again, "Wait a minute, the turtle found me. Damn, I'm dozens of meters away from it. How could it have discovered me?! Let me swim away..."

Luo Xiaobai stopped. "Then shall I go underwater or not? This turtle seems very smart!"

Han Fei asked, "Can you release the toxins from the water's surface?"

"No, maybe Zhang Xuanyu can follow me down and my vines can walk from the bottom of the sea."

"No, as soon as your vines emerge, other creatures in the vicinity will notice them. And this big turtle will definitely discover them."

Le Renkuang was anxious. "Why don't we just go up and fight it?"

Zhang Xuanyu nodded. "That sounds feasible. We can surround it in five directions."

Han Fei thought about it but he had no experience with it, so he nodded and said, "To be on the safe side, let's approach it from 500 meters away. Zhang Xuanyu, monitor the turtle from a distance. We must approach it fast. Otherwise, it will be very troublesome just to get rid of the fish and shrimp in the sea."

Xia Xiaochan suggested, "I can get close to it in stealth mode and wait for you at a distance of 100 meters. If it wants to escape, I can teleport to it."

"Isn't there a limit to your teleportation?"

"It only takes me a second."

Everyone was speechless. Teleportation was already a powerful ability and now you said it only takes a second?!

Then everyone used their respective means to run 500 meters away. Luo Xiaobai used vines, Zhang Xuanyu used sea waves, Xia Xiaochan used her stealth ability, Han Fei stepped through the air, and Le Renkuang stood on a big knife...

As soon as Han Fei entered the water, a Strip Fish came up to attack him. Han Fei just ordered Little Black to eat it and escaped other attacking fishes with various postures.

Han Fei talked to Le Renkuang with telephony. Fortunately, the distance was not too far, although on and off, they could still hear each other.

Han Fei asked, "Have you reached the seabed?"

Le Renkuang sounded flustered, "Yes, but a large group of demonic fish is attacking me."

"Quickly kill them."

On the other side, Xia Xiaochan said, "I'm in place."

Luo Xiaobai instructed, "Everyone, sprint after three seconds."

"Three!"

"Two!"

"One!"

"Hum..."

Han Fei instantly activated the Wandering Dragon Art.

As soon as Le Renkuang activated the Torrents of Knives and Swords, the surrounding demonic fish shattered.

Zhang Xuanyu summoned the Bloodthirsty Shark and began to sprint.

Luo Xiaobai sped forward, carried by thousands of vines like a siren in the sea.

Han Fei had just swum nearly 200 meters, and the others were around 300 meters. Suddenly, Xia Xiaochan shouted, "Xiaobai, in your direction. It has discovered you and is going to run away..."

Everyone got anxious and they all swam forward as fast as they could. They all activated their most powerful combat skills and killed any demonic fish in their path.

Luo Xiaobai said in surprise, "Its speed is very fast, almost similar to mine. Let me block him."

Then the others only felt a violent spiritual energy wave a few hundred meters away. The next moment, they saw that the water was full of broken vines.

"Roar..."

Dragon howling?

Han Fei was shocked. Xia Xiaochan summoned her Giant Arowana for this turtle?

Within just a dozen seconds, there seemed to be a big battle there. Han Fei saw not only vines but countless blades in the water. These blades seemed to have consciousness, stirring in the water.

Luo Xiaobai said anxiously, "Hurry up! I can't block it."

Han Fei rushed forward with all his strength, and when he looked closer, thousands of knives were spinning around the big turtle. Luo Xiaobai's vines were almost all shattered. At this moment, she was vomiting blood and kept producing new vines to block the turtle.

"Little Black, bite it."

Clang, Clang, Clang...

Han Fei rushed over and dozens of knives hit his body, making clunking sounds.

"Torrents of Knives and Swords."

Le Renkuang was so anxious that he activated the Torrents of Knives and Swords two hundred meters away.

When Han Fei was within 100 meters away from the big turtle, he found countless swords attacking Xia Xiaochan.

It was a big turtle nearly five meters long, and a string of data flashed in front of Han Fei's eyes.

<Name> Thousand Blade Turtle

<Introduction> It has a thousand blades on its body, which evolves with its growth, and currently, each blade is a mortal-level ultra-quality weapon.

<Level> Level 28

<Quality> Exotic

<Contained Spiritual Energy> 662 Points

<Edible Effect> Qi and blood will soar after consumption.

<Collectable> Turtle Blade, Turtle shell, Turtle Pill.

<Absorbable>

Han Fei said firmly, "Xiaobai, retreat. Let me handle it."

The Thousand Blade Turtle had apparently discovered Han Fei and seemed to feel his threat. At the moment, hundreds of knives darted at Han Fei frantically.

Clank, Clank, Clank...

"Water-Stirring Seal."

A large seal smashed down in the water and crushed all the blades.

Seeing it, the Thousand Blade Turtle seemed to find that Han Fei wasn't easy to deal with and immediately chose to escape. But in that direction, Zhang Xuanyu was already waiting for it.

"Soul Strike."

"Seven-Layered Waves in Furious Sea."

On the other side, Le Renkuang activated the Torrents of Knives and Swords again. And the sea was full of flying swords and knives.

BAM...

Han Fei quickly hit the turtle shell with the seal.

Clang...

The violent sound of metal knocking almost deafened the others in the water.

The Thousand Blade Turtle was sent flying and bumped into a coral clump, in which various fish, crabs, and other creatures didn't have the time to run out and were instantly crushed by the thousands of blades.

To Han Fei's shock, the Thousand Bladed Turtle was still able to run after being hit by the seal.

However, at this time, Zhang Xuanyu hit the turtle seven times in a row.

After the seventh blow, Zhang Xuanyu was bounced away flying.

Taking this opportunity, Han Fei hit the turtle with the seal again.

Clang...

Finally, the thousands of blades seemed to be under control. Some had returned to the turtle shell, and some were scattered around.

Luo Xiaobai's vines flew over and directly bundled the Thousand Bladed Turtle into a big ball.

After a moment.

On the fishing boat.

They sat on the deck.

Zhang Xuanyu gasped for breath. "This turtle is too powerful! It even bounced the Seven-Layered Waves in Furious Sea back to me. Oh, I was almost killed!"

Xia Xiaochan muttered, "Han Fei, heal me."

Not only Xia Xiaochan, Luo Xiaobai was the most seriously injured, with at least dozens of wounds on her body.

Two showers of energy fell on them. Le Renkuang gazed at the Thousand Bladed Turtle as if looking at his little lover. He kept chucking eerily. "Hoho, baby, wait for me..."

The Thousand Blade Turtle was stunned by the Water-Stirring Seal. Le Renkuang cut his finger, sprinkled his blood over the turtle, and was muttering incantations. After a moment, the Thousand Blade Turtle woke up. It struggled hard and roared, only to find that an invisible force was controlling it.

Le Renkuang laughed out loud. "Haha! Thousand Blade Turtle... It's too strong. It's simply too strong..."

Le Renkuang was beside himself with joy and the others were looking at him enviously. This turtle was indeed very strong. The five of them added together almost couldn't catch it, which showed how strong it was!

After a moment, when the Thousand Blade Turtle finally accepted its reality, Luo Xiaobai loosened the vines and Le Renkuang put it into the water, muttering, "Come on, go and get all your knives. Don't miss a single one, understood?"

Xia Xiaochan jumped cheerfully. "Come on, let's go get the next one..."

Han Fei looked at Little White. The latter wandered in the water for a long while and ran to Han Fei, spitting a mouthful of spiritual energy to him.

Xia Xiaochan asked, "What does Little White mean?"

Han Fei said helplessly, "It has not found any exotic creature for the time being. Shall we change spots? There may not be two exotic creatures in such a small area."

Luo Xiaobai nodded. "Yes, we ran a thousand miles away before finding this Thousand Blade Turtle. Perhaps exotic creatures have a sense of territory."

Zhang Xuanyu yelled out, "I'm going to steer the fishing boat. Which direction?"

"South..."

Chapter 185 Mysterious Cave

They floated for six days on the ocean.

On the fourth day, Zhang Xuanyu finally got a Gold Water Cocoon, a speed-type exotic contractual spiritual beast that was even faster than the Gold Squid. It was an insect that could fly extremely fast. However, it did not have many advantages apart from its high speed.

Of course, not everybody got the exotic contractual spiritual beast that they wanted. Luo Xiaobai, for example, only caught a stealthy jellyfish. She offered it to Xia Xiaochan, but Xia Xiaochan said that she didn't need it because she could go stealthy on her own, so Luo Xiaobai kept the jellyfish for herself.

A stealthy manipulator could be dreadful in battles when they performed crowd control invisibly, and the enemy would be frightened.

Xia Xiaochan was less fortunate. She hadn't encountered an exotic creature suitable for herself yet.

Holding Little White, Xia Xiaochan said, "Little White, please help me find one. Don't leave me aside now that you've found something for each and every one of them..."

"Bo!"

Little White kissed Xia Xiaochan on the lips.

Xia Xiaochan giggled. "Ah, goodbye. When you find an exotic contractual spiritual beast for me, I'll kiss you back."

Han Fei was lost for words. "Hehe. Little White is a female."

Xia Xiaochan glared at Han Fei. "It's none of your business."

Luo Xiaobai proposed again, "Han Fei, you really should change its name."

Han Fei said, "Should we call it Little Little White then?"

Luo Xiaobai was speechless.

While everybody was making fun of each other, Little White dashed into the ocean and swam north.

Xia Xiaochan immediately shouted at Zhang Xuanyu, "Sail the boat! Little Little White found something!"

Their teamwork had been honed in the past days, and they were certain that they could catch the contractual spiritual beast if they found it. Everybody smiled as few people in the whole Blue Sea Town were as lucky as them to have so many exotic contractual spiritual beasts.

More than two hours later, they reached a desolate area.

Xia Xiaochan was still excited.

Luo Xiaobai, however, frowned. "No, wait a moment... I think we're out of the level-two fishery."

Everybody hurried to gather around her.

Luo Xiaobai pointed at the map and said, "According to the map, we were here at the edge of the level-two fishery just now, and we've just sailed outward for more than seven hundred kilometers. Our current location is not marked on the map."

Le Renkuang was enjoying barbecue. He said unconcernedly, "It doesn't matter! We're not too far away anyway. Besides, isn't it a mixed area outside of the level-two fishery? We can't go to a level-three fishery without a portal."

Luo Xiaobai shook her head. "No. It's true that the area outside of the level-two fishery is a mixed area, but most of it hasn't been explored yet. We've already gone too far in these six days. Although we took multiple turns, we've been sailing south in general."

Han Fei was puzzled. "Why didn't you notice it earlier?"

Luo Xiaobai replied, "I thought that we were going east and only slightly down south, but I realized that the direction of the sun was not right when I checked the map. We're indeed going south."

Han Fei asked with a smile, "Can you estimate how far away we've gone?"

Luo Xiaobai said gravely, "More than ten thousand kilometers, I'm afraid."

"Pu..."

Everybody gasped. Ten thousand kilometers? They didn't feel it at all, and they had been too busy playing with their new contractual spiritual beasts to care about their course.

Xia Xiaochan said without worries, "Let's not be bothered. We can't stay here now that Little Little White has found a target. It's absolutely impossible."

Zhang Xuanyu nodded. "It's just a mixed area. There's nothing to be scared of."

Han Fei was not nervous either. "Let's just dive down and see. The five of us can explore a level-three fishery, not to mention a mixed area next to the level-two fishery."

Luo Xiaobai slightly nodded. "Alright, we'll return after we catch this one. Then we'll study the fishing skill that the president mentioned."

Very soon, Zhang Xuanyu saw something through his second vision. "It's a lobster. It's red and half a meter long... Huh, it also has wings on its back. I assume that it's very fast."

Xia Xiaochan asked, "A lobster? Can't be anything bad..."

In the water, the five people surrounded the target in a circle, with many more helpers than previous, including six spiritual beasts and four contractual spiritual beasts.

After the previous hunts, they had found that the exotic creatures were highly vigilant and would be alarmed whenever a battle started. So, they simply showed all their strength and surrounded such creatures openly.

A moment later, Zhang Xuanyu whispered, "Le Renkuang, it's going towards your direction. Note that the lobster is fast and agile."

Le Renkuang was waving thousands of blades and shouting, "However agile it might be, can it survive the Torrents of Knives and Swords made by me and the Thousand Blade Tortoise?"

Xia Xiaochan asked nervously, "Le Renkuang, be careful and don't kill my contractual spiritual beast by accident!"

From their position, they suddenly saw that the lobster took a weird turn in the water and left a red track behind it. When they approached, they found the red track to be flames that were burning in the ocean.

Not far away before Le Renkuang, the lobster flashed like a dancing sprite and passed through the dense blades, leaving a weird trajectory in the dark water.

Le Renkuang shouted, "Not good! I can't stop it! It's too great a runner!"

Xia Xiaochan was lost for words. "You're truly a useless fatty... Let's go after it."

They chased after the lobster crazily. Thankfully, it was not as fast as they expected, and it was better at dodging than it was at swimming. Since it left red flames behind, everybody was able to follow the creature easily.

Han Fei led the pursuit and attacked a few times, to no avail. Suddenly, he saw an enormous trench ahead that looked like a cliff in the ocean. It reminded him of the Boat Burying Pit in the general fishery. It was also narrow and steep, but it was longer than the pit Han Fei remembered.

Han Fei said to his teammates, "Attention, it's going down to a deep trench whose depth I can't tell. Also, there are few gregarious fish nearby. Be careful."

A moment later, everybody ran into the trench and descended for almost a thousand meters. There were few fish around them now.

Luo Xiaobai came back to herself. "Something is not right. This place is weird."

Zhang Xuanyu said, "I can probably endure only a little further before I have to go up for air."

Luo Xiaobai threw a vine and said, "Bite it. There's air in it."

Everybody looked at Luo Xiaobai in surprise. They did not know that the girl had so many tricks.

Le Renkuang said, "There's a cave down there. The lobster just ran into the cave. Do we go after it?" Xia Xiaochan said, "Of course, but be careful."

Everybody barged into the cave. Suddenly, Han Fei frowned as he sensed something wrong.

His eyebrow furrowed, Han Fei asked, "Do you feel that the temperature in the cave is too high?"

Luo Xiaobai said, "It's indeed higher than normal, probably because of the fiery lobster."

However, everybody came to a stop a minute later as they were shocked by what they saw. In front of their eyes, an assortment of creatures of different colors had occupied this cave. They could easily spot more than a thousand creatures. However, all the creatures were lowly ones. Even the sea anemones here were only regular ones.

The red lobster had nowhere to run to now. It was dashing randomly in a corner of the cave.

Xia Xiaochan's eyes glowed. "You're finally mine, my contractual spiritual beast."

Luo Xiaobai said, "I'll block its way, you will attack it, and Xiaochan will capture it. This place is not right. Let's just catch it and leave as soon as possible."

Chapter 186 Undersea Tomb

Everybody took action together. Xia Xiaochan flashed and knocked the red lobster into the rocks.

Xia Xiaochan said, "It's burning. I'll beat it up before I sign a contract with it."

About fifteen minutes later, the fiery lobster finally compromised.

The contract was made soon after. Xia Xiaochan remarked, "Red Fire Tricky Lobster, what a weird name."

Xia Xiaochan was going to test the Red Fire Tricky Lobster's abilities, when she saw that Han Fei ran to the end of the cave and slashed randomly.

Luo Xiaobai asked, "Han Fei, what's going on?"

Xia Xiaochan exclaimed, "Are you crazy?"

Han Fei pointed at the wall. "Something is strange here. Based on my years of experience on the ocean, I can tell that there's something here."

Everybody felt like rolling their eyes. Years of experience on the ocean? Just keep bragging!

But their mockery was gone when they saw that a green jade door carved with stripes resembling grasses was revealed after the rocks were broken.

When the door showed up, everybody sensed that the temperature was rising again.

Zhang Xuanyu said excitedly, "Treasure! There must be treasures behind it! We've found a treasure trove!"

Han Fei was excited too. He didn't expect that he would find treasures while he was hunting contractual spiritual beasts. The ocean was indeed the most mysterious place full of treasures.

Han Fei said, "Help me break the rocks nearby and see if there are other things near the door."

Luo Xiaobai said, "Be careful. There might be something scorching behind the door."

Very soon, the door was revealed completely. The words, "Fire Cloud Cave" were written above the door.

Le Renkuang observed the door for a long time and said, "Is this place an ancient relic? It seems quite good."

seen

Han Fei pulled him back and said, "Step back. I'll try to open the door."

Everybody else stepped back, and Luo Xiaobai said, "Le Renkuang, prepare the shield armor."

While everybody looked at him anxiously, Han Fei stomped and tried to push the door open with all his strength, but the door simply wouldn't budge.

Le Renkuang hurriedly went forward. "Let me give you a hand."

Both of them exerted all their strength, but the door was still absolutely still.

Zhang Xuanyu said, "I'll join you."

But the result was the same.

Suddenly, Xia Xiaochan said, "Try pulling the door up."

"Pull it up?"

Han Fei, Le Renkuang, and Zhang Xuanyu looked at each other and tried that. The moment they exerted their strength, the door was pulled up, and hot air as well as an enormous attraction force came from behind the door.

Everybody leaned forward beyond their control. In the blink of an eye, they were already behind the door.

Xia Xiaochan remarked, "Three idiots."

Han Fei and his buddies couldn't argue, and nor did they intend to, because they had been shocked by the view before their eyes.

Behind the door was a scorching furnace, which was the source of the unusual heat that they had sensed. This place was a round space with a coverage of around five hundred square meters. Apart from the furnace at the door, there was nothing but gray rocks and an irregular rock at the center that separated this place into two parts.

"Dear Sea God! Have we really found a treasure trove?"

Zhang Xuanyu approached the furnace in excitement, but he was blown away by a weird scorching force when he was two meters away. Thankfully, Luo Xiaobai was able to pull him back with her vines in time.

Luo Xiaobai said, frowning, "Be careful. This place is well hidden. It's not like a common treasure trove. Let's be prudent."

Clang...

Everybody looked at the source of the noise, only to see that Le Renkuang was cutting green jade, which seemed to contain some spiritual energy, on the rocks with a knife.

Han Fei was lost for words. "Le Renkuang, you're truly unwise. You're interested in the rocks when there's such a huge furnace here?"

Le Renkuang said scornfully, "There's nothing in the furnace. Just swim up and look into it."

Unconvinced, Han Fei took a look himself, only to see nothing but magma in the cave.

Luo Xiaobai said, "It's Earthly Fire. This place is connected to Earthly Fire."

“Come here and take a look.”

Xia Xiaochan was standing before a wall. She seemed to have found something.

Everybody gathered around her and saw murals on this wall. In the murals, a man with wings on his back was confronting a dragon with a lance. By reading the murals, they basically learned what happened.

According to the murals, a dragon whose name was unknown once arrived at this level-two fishery, causing a tremendous number of boats here to be missing. Later, an expert came from the clouds with a group of warriors. The expert valiantly fought the dragon with his subordinates. Though the dragon was killed, his men all died, and the expert too was heavily wounded. Then, the expert found this place which was connected to Earthly Fire and tried to rest here...

Xia Xiaochan shook her head. “It couldn’t have been a dragon. If it were, those people would’ve been killed instantly. It must’ve been something like my Giant Arowana. Few people can resist its roar.”

Han Fei nodded in agreement. “I don’t think it was a dragon either, but it must’ve been very strong since it killed so many winged guys.”

“Winged guys? Show them some respect, alright? So many Hidden Fishers were slaughtered. I don’t think it’s going to be easy for us to get the treasure.”

Zhang Xuanyu clicked his tongue and speculated, pretending to be knowledgeable.

Boom...

Han Fei turned around, only to see that Le Renkuang and Xia Xiaochan had accidentally triggered a switch on another wall dozens of meters away. At this moment, a stone door was opening noisily.

Le Renkuang looked at everybody apologetically. “It was only an accident. I’m sorry.”

Xia Xiaochan was about to crane her head behind the door, when a vine stopped her.

Luo Xiaobai looked at them with a strong headache. “Would you please hold your curiosity back? This place is too weird.”

Xia Xiaochan giggled. “If we can’t get out, we can only press forward. The real dangers are behind us.”

Han Fei found that everybody besides him loved treasuring hunting. His teammates seemed even more enthusiastic than himself.

Zhang Xuanyu licked his lips. “Let’s go in! I don’t think it’s dangerous here.”

Han Fei approached the door. Seeing the dark aisle and the candles on its two sides that had died out, he narrowed his eyes and said, “Wait... Xia Xiaochan, can you light the candles?”

Xia Xiaochan snapped her fingers, and flames popped up from them. Han Fei was truly amazed. It felt great that you could make use of the special abilities from contractual spiritual beasts after you acquired them. Xia Xiaochan’s fingers were even handier than real lighters now.

Then, the candles were ignited and spread all the way down the aisle.

Han Fei was briefly stunned. “Huh? Eternal Lamps? Why am I under the impression that this is a tomb?”

“A tomb?”

Han Fei nodded. “Yes. According to the murals, an expert recovered himself through Earthly Fire in here, but if that’s true, why did he build the slots for candles on the walls here?”

Luo Xiaobai thought for a moment and said, “Don’t move. Let me have a try.”

Luo Xiaobai extended her hand, and vines sprawled out along the floor and the walls.

A few minutes later, all the vines suddenly broke apart, and Luo Xiaobai shivered palely.

Xia Xiaochan gave her a hand and asked, “Xiaobai, what did you see?”

Luo Xiaobai said awfully, “Human-Faced Crabs. A lot of them. They live in the crevices nearby, and I just alarmed them.”

“Hiss...”

Everybody gasped hard. Human-Faced Crabs could create illusions. How could they deal with so many Human-Faced Crabs?

Xia Xiaochan, Luo Xiaobai, and Zhang Xuanyu all stepped back.

Le Renkuang was dumbfounded. “Why are you all staring at me?” Han Fei rolled his eyes and was about to step back too.

But Xia Xiaochan poked him with a knife and said, “Why are you backing off? The Human-Faced Crabs can’t break your defenses.”

Han Fei said innocently, “What if I start to attack you because of my illusions? Wouldn’t it be simpler if Le Renkuang just cleared the crabs with his Torrents of Knives and Swords?”

Zhang Xuanyu patted Han Fei’s shoulder and said solemnly, “Han Fei, considering your fatness, all the crabs will be attracted to you and ignore us if you stay here.”

Han Fei’s face darkened. “You are a mean friend. That’s outrageous.”

Le Renkuang said, “Also, if Le Renkuang is bewildered, only you can completely block his Torrents of Knives and Swords.”

Le Renkuang: “???”

Han Fei: “???”

Chapter 187 Human-Faced Ghost Crabs

Han Fei and Le Renkuang were sold out ruthlessly just like that. Shoulder to shoulder, they walked into the aisle.

Le Renkuang said, “I’m scared of darkness. Why don’t you lead the way?” Han Fei was lost for words. “Seriously? Why weren’t you scared of darkness when you caught turtles in the ocean?”

Le Renkuang said, “My disease is intermittent.”

Han Fei: "..."

Han Fei simply walked forward, somewhat enjoyably. When one didn't know what was ahead of them in adventure, they tended to feel either frightened or excited.

Obviously, Han Fei was more excited than frightened. He wasn't really intimidated by the Human-Faced Crabs.

After fifty meters, Han Fei suddenly came to a stop.

Le Renkuang craned his head and asked, "Why are you stopping?"

Han Fei rigidly turned his head back and put on a cold, creepy smile, before he started laughing weirdly. "S*it!"

"Haha!"

Han Fei was suddenly normal again and he pointed at Le Renkuang and laughed. "You should look at your face!"

"Han Fei, I'm going to kill you!"

Outside of the aisle, Luo Xiaobai's face changed slightly. "Is Le Renkuang enchanted?"

Zhang Xuanyu listened and said, "I don't think so. Didn't you hear Han Fei's laughter?" Xia Xiaochan nodded and refused to enter the aisle too.

Han Fei enjoyed the prank. They horsed around for a while in the aisle, and Le Renkuang suddenly stopped and took out his box.

Han Fei blinked his eyes and stopped laughing. He heard rustling sounds behind him.

Instead of looking back, Han Fei simply gazed at Le Renkuang and said, "Really? Are you going to perform Torrents of Knives and Swords?"

Le Renkuang trembled and said, "Hang in there! Or, do you want to attack with me? As I recall, your Blade Storm is not bad at all."

Han Fei felt that his fishing pole was being grabbed. He simply cut back with two daggers and slashed a Human-Faced Crab into halves. But then his blood was freezing, as he had seen the Human-Faced Crabs that Luo Xiaobai mentioned. They were so dense that they were like a swarm of locusts.

"Torrents of Knives and Swords."

"Blade Storm."

Both of them reacted simultaneously.

During the few seconds at the beginning, Han Fei felt that he was mincing meat, and a lot of broken shells were hitting his face. Then, he found himself in a different location.

The aisle and the Human-Faced Crabs were the same, but Le Renkuang was gone.

"Illusion. This is just an illusion."

The moment Han Fei recited that, he found his name in a different place again. It was a sphere full of iron stingers from which infinite Marching Sea Leeches were crawling out while the iron stingers stabbed into him.

“You’re trying to fool me? You think you’re as good as the Marching Sea Leeches?”

“Explode!”

After Han Fei dealt a Spiritual Energy Explosion, the sphere of iron stingers were gone, but Han Fei found that he was not in an aisle at all and he couldn’t sense any pain. Instead, he saw dozens of green eyes the size of basins.

“Hiss... Damn it. That’s one huge crab.”

Han Fei swallowed. He had seen a crab dozens of meters long which had a creepy face on its back. More importantly, the face was even grinning at Han Fei.

Han Fei would be lying if he were to claim that he was not nervous. Strength and fear for the unknown were not contradictory.

Han Fei stepped back quickly.

“Brother Crab, how have you been doing?”

Humph...

One of the crab’s legs attacked him, and Han Fei flipped back in a weird posture. His head was dizzy as the crab leg was only one centimeter from his nose just now.

Boom...

Han Fei turned back, only to see that the cave had been collapsed by the crab leg, and that rocks were falling.

“Damn it! Brother Crab, you don’t have to be so brutal to a passer-by, do you?”

The previous attack was too fast. If he hadn’t been fully alert, his head might’ve been chopped off.

“Huh? Wait.”

Han Fei realized something wrong, as he should’ve been able to read the data of the monster. Even if its level was too high for him to read, he should at least be seeing a question mark. But there was nothing. Was this monster fake?

When the crab leg attacked him again, Han Fei raised his daggers and slashed it.

Crack...

The enormous crab leg was cut apart easily.

“Hu! You were truly scary.”

Han Fei yelled, “Don’t scare other people if you’re not good enough. For a moment, I really thought you were this huge.”

When Han Fei attacked the huge crab, it quickly collapsed into many minor crabs, and they attacked Han Fei together.

“Explode! The more explosions, the better! Let me absorb you...”

Han Fei could clearly sense the income of spiritual energy, which meant that some Human-Faced Crabs must’ve been killed by him. It did make sense, as the minor crabs couldn’t have just disappeared.

However, when the crabs were eliminated by Spiritual Energy Explosions, Han Fei didn’t return to reality. Instead, he found himself on a boat above the ocean.

“Captain, we’re arriving at our destination. Do we go into the water?”

“Hiss!”

Han Fei gasped hard and pinched himself, only to sense real pain. He was amazed by the vividness of the illusion.

“Captain?”

“Puchi...”

Han Fei stabbed his dagger into the guy behind him without thinking.

Han Fei remarked, “You think such a lousy illusion can fool me? Attach!”

The Nine-Tailed Mantis Shrimp was attached to him, and the seven chains began sweeping. Immediately, Han Fei was brought back to reality. He found broken shells of Human-Faced Crabs all over the ground. It felt real this time.

But he didn’t see Le Renkuang, which was abnormal. Was he still in an illusion?

“Wait, if Le Renkuang was still here, he must’ve hit me with his Torrents of Knives and Swords, but I can’t sense anything right now.”

Han Fei felt that he was lost. He shouted, “Le Renkuang!” There were no response. He shouted for Xia Xiaochan, but nobody answered either.

“Hehe! I’ll just go down this aisle. Do you think I’m scared?”

Han Fei pressed forward. There was no telling whether the Human-Faced Crabs had been intimidated, but fewer of them attacked Han Fei. Han Fei was not as casual as before, as he found that the journey was getting colder and colder while he moved on.

“Isn’t there Earthly Fire here? But the temperature is below zero... This fire is obviously not good enough!”

At the end of the cold and damp aisle, Han Fei saw a green dragon that was nesting in a huge cave. At this point, the dragon craned its head and roared at him as shockingly as the Giant Arowana did.

“F*ck...”

“Huh... No data? Is it fake too?” Han Fei murmured to himself. He had learned his lesson and knew that the illusions of the Human-Faced Crabs were predictable. The dragon before him was fake, but he saw data above a rock near the tail of the dragon.

<Name> Human-Faced Ghost Crab

<Introduction> This is the mutated Human-Faced Crab which has swallowed the remains of the Blue Sea Wandering Dragon. It’s highly hallucinatory.

<Level> 31<Quality> Exotic (mutated)

<Spiritual Energy> 982 Points

<Effect> It may result in hysteria and delirium if it’s eaten.

<Collectible> Phantom Pearl

<Absorbable>

Han Fei sneered. So, it’s you who have been behind all this. That explains my confusion because regular Human-Faced Crabs couldn’t have created such vivid illusions.

The dragon roared again and spewed a cold pillar of water at Han Fei, but Han Fei didn’t resist it. Though he was covered in ice, the ice fell apart the moment Han Fei released his spiritual energy.

Han Fei shouted, “Crab, it’s time to die!”

Chapter 188 Bones of the Blue Sea Wandering Dragon

Han Fei charged forward fearlessly, and the Human-Faced Ghost Crab didn’t see it coming that his opponent would be so relentless as to challenge a beast not caring about his own life.

But the moment before Han Fei approached the dragon, he suddenly took a turn and lashed out his seven chains, tying up the rock that the Human-Faced Ghost Crab was pretending to be.

“Fatal blow.”

His blades stabbed into the Human-Faced Ghost Crab dazzlingly.

In the next moment, the illusion was gone, and Han Fei saw a super huge crab that was almost eight meters tall slowly rising. The rock he just saw turned out only to be one of the crab’s pincers.

“F*ck...”

The big crab was obviously infuriated when Han Fei’s blades left holes in its pincer. When the crab rose, Han Fei finally realized why it was named Human-Faced Ghost Crab. It was because there was a weird and creepy face on its abdomen. Though the seven chains restrained the Human-Faced Ghost Crab, the crab was above level thirty, which meant that it was as strong as a Dangling Fisher. Also, the crab had enormous strength in the first place, and it easily flung Han Fei away into the rocks.

“Hehe... Little Black, go inside.”

Han Fei was not panicked at all, because Human-Faced Crabs were better at creating illusions than they were at fighting. Now that he had broken the illusions, he was not scared even though the Human-Faced Ghost Crab was level 31.

Little Black crawled into the crab through the holes that Han Fei just caused. In the next moment, the crab began to wail, and Han Fei saw all kinds of illusions.

In the illusions, he saw the battle between the dragon and the Hidden Fishers. Dozens of Hidden Fishers, including manipulators, soul warriors and manipulators, showed all kinds of techniques, but they were all frozen by the blue gas spewed out by the green dragon.

Then, Han Fei saw that the best of the Hidden Fishers absorbed the power of his partners and pointed at the dragon's head. The enormous energy that his finger contained was dreadful for Han Fei even though it was only an illusion.

Dozens of pictures were changing. The Human-Faced Ghost Crab seemed to have lost control of itself because of Little Black's biting as it replayed its whole life, and Han Fei felt that he was watching an immersive movie.

Han Fei saw that the expert almost collapsed after killing the dragon. The man managed to treat his wounds by having the dragon meat and the dragon liver, but he was too heavily hurt to be recovered. So, he established this Fire Cloud Cave with his remaining power.

To prevent the dragon from resurrecting, he separated the dragon bones in the cave. When he created this residence, he discovered the Earthly Fire by chance, so he engaged himself in alchemy with the Earthly Fire and the dragon corpse. But his attempt failed and he died in the end. All of these things were witnessed by this crab.

At first, this Human-Faced Ghost Crab was only a common Human-Faced Crab and it dare not approach the furnace or the dragon corpse, but after it grew stronger because of the nourishment of the dragon aura, it began to chew on the dragon corpse and eventually mutated into a Human-Faced Ghost Crab.

Suddenly, Han Fei called stop.

"Little Black, enough."

Little Black emerged from the shell of the Human-Faced Ghost Crab, whose pincers were dangling. Obviously, it had been mostly eaten up.

Han Fei said, "Collect the demon."

Perhaps because the Human-Faced Ghost Crab was too scared, and perhaps it sensed that its doom was inevitable, but Han Fei didn't sense any resistance when the Demon Purification Pot took it in. The Human-Faced Ghost Crab ended up in the calabash in the company of the Gold Squid.

After the Human-Faced Ghost Crab was collected, the regular Human-Faced Crabs immediately ran to their nests, and a bone more than three meters long appeared where the Human-Faced Ghost Crab had been standing

Having watched the Human-Faced Ghost Crab's movie, Han Fei recognized that it was a dragon bone. He excitedly picked up the bone.

But Han Fei almost tossed it away the moment he touched it because it was freezingly cold.

Bone of the Blue Sea Wandering Dragon: such dragon bones are extremely cold. Its spiritual energy has dropped over the years, but it's still the best material to forge spiritual weapons.

Han Fei was excited. Could it be forged into spiritual weapons? Were there really dragon bones in this cave? I've only found one of the bones, but it is so huge that it can be made into dozens of daggers.

Han Fei's heart raced after he collected the bone. By logic, there should be bones of a whole dragon here. Where were the rest? If he could collect all the dragon bones, he could craft a set of blades for his Million Knife Art.

When Han Fei was about to continue his exploration, he hesitated and wondered if he should search for Le Renkuang.

But when he turned around, he found that the entrance that he came from became three entrances.

"Damn it... Which one of them did I come from?"

Han Fei looked at the only exit behind the Human-Faced Ghost Crab. Was it meant to stop intruders from returning?

Han Fei thought for a moment. Le Renkuang, as well as everybody else, has their trump cards. Xia Xiaochan even has her Giant Arowana. Things like the Human-Faced Ghost Crab wouldn't be a major problem for them.

Thinking that, Han Fei strode forward into the exit.

Unfortunately, Han Fei was not a fire manipulator and couldn't light the candles, so he could only walk in darkness. But thanks to his excellent sight, the darkness was not scary for him.

The pathway was very long. Han Fei stopped halfway as he found a fiery crystal on the wall. He couldn't see its quality, but it felt hot enough to resist the coldness in the cave, so Han Fei dug it out with his knives.

One, two...

Han Fei had dug more than a hundred fiery crystals, when he found that he had reached a spacious cave. It was bigger than the cave where the Human-Faced Ghost Crab was located. It was dozens of meters high and embedded with fiery crystals. Also, it was connected to the ocean.

Essentially, it was a round swimming pool with a circular path on the periphery. The water in it was so clear that Han Fei saw a huge skull more than ten meters long easily.

"Huh... A dragon head?"

Near the dragon head were corals and seaweeds. There were no fish or shrimp.

"Gudu!"

Han Fei swallowed hard. Have I just found a dragon head?

Han Fei saw that the Demon Purification Pot on his wrist glittered although it had been unusually quiet recently. Then, Han Fei realized that the water was full of spiritual energy.

Han Fei took a deep breath and still felt cold, but thanks to the abundance of spiritual energy, his senses were keen. If he were to cultivate here, he would make progress very fast.

He ignored the fiery crystals on the wall, because they couldn't be of a high quality when there were so many of them. He didn't want to collect them at all.

Staring at the dragon head, Han Fei suddenly changed his face, as the pebbles below the dragon head seemed familiar to him.

"Hiss! Spiritual stones, shoot!"

Han Fei was immediately hooked. He had been wondering where he could gather spiritual energy, and those spiritual stones would definitely be handy!

Han Fei stepped out but then stopped. He found it odd that there were no creatures around the dragon head. Were there really none, or were they invisible? Han Fei took out his fishing pole and tried pulling the dragon head up. He felt that the place was weird and decided to be careful.

Hiu...

The hook went for the dragon head in the water.

"Come here!"

"Uhhh... So heavy."

While Han Fei was using all his strength, a long enormous shadow flashed in the water. Han Fei couldn't tell what it was at all except that it was around ten meters long.

Before Han Fei could react, his fishing line had been cut off.

Han Fei took a few steps back in shock. He hurried to return to the pool to see what this thing was exactly.

Chapter 189 Dragon Eel

Han Fei slightly shivered. Sometimes, a surprising enemy was more scary than a strong enemy. Han Fei was certainly scared by the creature that had swum past him quickly like a shadow.

Han Fei looked at his fishing pole. It was the first time that the fishing line was cut off. Was it because the pole was too lousy? No, his pole wasn't the best product but was still one of mortal level, high quality. Han Fei suspected that the creature in the sea was either very strong or had a sharp blade like a Blade Fish or Swordfish.

"Attach."

Han Fei decided to use the Nine-Tailed Mantis Shrimp, whose tails were highly sturdy. Even if the creature in the water was as strong as a Dangling Fisher, it couldn't cut the Seven Star Chain easily.

"Pu... Pu... Pu..."

The chain clutched the dragon head from seven directions, and Han Fei immediately felt chilled. Why was the dragon head so cold?

“Hula...”

The creature down below appeared again and passed the chain with a huge noise. Han Fei even saw sparks in the water.

But he was glad to see that the Seven Star Chain could resist the attack of the monster in the water, which meant that the monster was not unimaginably strong, or at least not strong enough to overpower the Nine-Tailed Mantis Shrimp.

“Come here!”

Han Fei exerted all his strength and pulled the dragon head away from the coral, but the chain was frozen the moment the dragon head was moved. Even Han Fei was covered in ice too.

That was not the end of it. The agile monster appeared again. Han Fei saw nothing but a widely-opened mouth, when electricity flowed through the ice and shocked Han Fei.

The high-voltage electricity crumbled the ice and flooded into Han Fei’s body, and Han Fei almost failed to weather through it. He felt that he had just been hit by a lightning bolt. Stiffened, he fell into the pool.

At this point, Han Fei finally saw the monster.

<Name> Dragon Eel

<Introduction> This is a demonic fish mixed with dragon blood. They live on dragon bones and are highly resistant to coldness. They have a sturdy body and high-voltage electricity.

<Level> 33

<Quality> Exotic

<Spiritual Energy> 2,064 Points

<Effect> It can strengthen the bones and improve your look when eaten.

<Absorbable>

Clash...

Han Fei fell into the water, but he still felt stiff and frozen. He felt that a long tail was slapping him.

BAM!

The whole cave was shaking, and Han Fei was blown dozens of meters away in the water and didn’t regain balance until a long time later. The rigidity in his body was finally gone after the attack.

“What immense power!”

Han Fei’s nose and mouth were bleeding. He was appalled by the monster’s power. How could he defeat it when he had been hurt with his Indestructible Body?

This time, Han Fei did not release Little Black to bite it, because he was not sure that Little Black could withstand the monster's discharge.

The monster came at him again as quickly as lightning, and Han Fei was knocked away again even though he had tried to dodge it.

"Chila!"

Han Fei was stiffened again by another discharge and blown away in the next second. This time, he bumped into the rocks above his head and rolled on the ground.

"Pu..."

Han Fei spewed out blood and couldn't have looked more awful. He had never encountered a more formidable opponent or suffered such heavy wounds since he obtained the Indestructible Body Art.

Han Fei immediately drew out his blades. When the Dragon Eel reached him, he unleashed his spiritual energy and the seven chains.

BAM!

Han Fei was knocked away. The Dragon Eel had swum past him before he was able to stab his blades into it, but he managed to lock the Dragon Eel with two chains.

"Ahh!"

The electricity was as powerful as before, but Han Fei merely gritted his teeth and wouldn't let go of the chains even though he was bleeding. He knew that he couldn't be killed by electricity after the lightning strikes he endured at the mountain top.

But because of his stubbornness, Han Fei was now thrown into the rocks, whipped into the coral, and shocked by the Dragon Eel.

The Spiritual Energy Protective Cover on Han Fei was broken again and again. He even felt that the Nine-Tailed Mantis Shrimp couldn't sustain this much longer. Five minutes later, Han Fei's face became pale, as he had been shocked dozens of times and his skin had been shredded by the Dragon Eel.

"Fuse."

Han Fei chose to fuse. He knew that fusion wouldn't help much. He could see through the enemy's attack more easily with the Yin-Yang Divine Eyes, but they couldn't help him avoid the discharge of the Dragon Eel at all.

However, after Han Fei became bloodthirsty, his attack and defense abilities were slightly improved, and while the Dragon Eel was not discharging, he bound the remaining chains to it and pulled the chains hard. Finally, Han Fei caught the Dragon Eel in the middle of an electric shock.

"Hum..."

Han Fei trembled when he grabbed the Dragon Eel. He was so electrified that his soul almost left his body.

“Absorb now!”

Han Fei felt that he couldn't endure it much longer. He would die first if he couldn't kill this Dragon Eel.

Thankfully, the Demon Purification Pot was glittering as if it were breathing, and the flow of electricity from the Dragon Eel was declining. It was still hitting Han Fei crazily, but it was not as powerful as before.

“Huh? It can resist the absorption of the Demon Purification Pot?”

Han Fei clearly sensed the plummet of spiritual energy in the Dragon Eel, but it stopped dropping when it was reduced by half.

“Hiss... Collect the demon!”

BAM!

Han Fei was slapped into the wall, and the first collection failed.

Han Fei stabbed the Dragon Eel with both blades, but he could barely penetrate its skin. This creature was unimaginably tough.

“Keep absorbing! You little bastard, just behave and enter my calabash if you don't want to die...”

“Collect the demon!”

After five minutes of trying, the Dragon Eel was finally absorbed into the calabash when it ran out of spiritual energy.

The moment the Dragon Eel was absorbed, Han Fei lay at the bottom of the ocean with all his limbs stretched out, feeling like crying. He had dozens of wounds, and all his bones seemed broken. He felt as though he had been crippled.

After a long time, Han Fei finally found an exit of the cave. He surfaced and took a deep breath, before he sat cross-legged in the water.

“No, I have to make a breakthrough or I will be too heavily wounded to continue my exploration.”

Digging dozens of low-quality spiritual stones from the dragon's head, Han Fei imposed the Divine Healing Technique on himself and chose to make a breakthrough.

Tremendous spiritual energy surged out from him. A few minutes later, more than thirty low-quality spiritual stones had been broken, but they were not enough. Han Fei's wounds were healing, and spiritual energy was running in his body.

A moment later, another fifty spiritual stones were broken. Han Fei's wounds were healed and his internal organs were stabilized. Spiritual energy was raging hotly in his body.

Crack!

For a moment, Han Fei's power and level were soaring significantly.

It was not until all the spiritual stones before him were broken that Han Fei finally stopped the absorption of spiritual energy. He was rather shocked. There was no telling whether it was because he was heavily wounded or because he made a three-level breakthrough in a row, but it cost him a million points of spiritual energy to go from the peak of a junior fishing master to the peak of an intermediate fishing master.

Han Fei knew that other people needed about seventy thousand points of spiritual energy for an advancement, so three levels would require no more than three hundred thousand points of spiritual energy. However, he had just spent more than twice that. How could he make more breakthroughs in the future?

He looked at his data.

<Owner> Han Fei

<Level> 26 (Mid-level Great Fishing Master)<Spiritual Energy> 6,466 (2,499)

<Spiritual Heritage> Level-Four, Low-Quality (Upgradable)

<Spiritual Beast> Twin Yin-Yang Spirit Swallowing Fish (level 23)

<Weapon>: Purple Bamboo Rod

<Main Art> Water Vein Technique, Volume Three of Void Fishing (Spirit-Level, Divine-Quality)

“Hu!”

The capacity of his spiritual energy had been increased by four hundred points? It meant a comprehensive improvement of his body. However, Han Fei was still regretful because he only had 6,246 points of spiritual energy left, which was not enough for one battle. The battle with the Dragon Eel, for example, had cost more than six thousand points of spiritual energy with all the Spiritual Energy Protective Covers.

Han Fei immediately looked at the dragon head, hoping that it wouldn't be a disappointment.

Chapter 190 Reunion of the Team

When Han Fei laid his hand on the skull of the Blue Sea Wandering Dragon, his hand began to freeze. He hurried to let it go.

“Impressive!”

The bone that could forge spiritual weapons was indeed extraordinary! But could he use them even if it was made into such weapons?

Han Fei stored the dragon head into Forge the Universe. Instantly, all the crops in Forge the Universe were frozen. Even the white boat was covered in frost.

Han Fei scratched his head. His crops had been wasted; however, it was still worth it because this huge skull could be made into a thousand blades.

After collecting the dragon head, Han Fei searched the mud at the bottom of the water and finally found twelve low-quality spiritual stones. Plus with those he just absorbed, he had got almost seventy low-quality spiritual stones from the dragon head.

“This won’t do! I’m running out of spiritual energy, and twelve stones are not nearly enough!”

Boom...

Sensing the earthquake, Han Fei jumped to the surface of water and saw a hot wave flooding in from the entrance.

Han Fei was immediately stunned. This pathway was not short at all, but the fire had pressed to the end of it. What was happening on the other side?

Having no time to think, Han Fei immediately rushed over. He was sure that it was caused by Le Renkuang and his other teammates.

Because of the blast of fire, all the candles in the pathway were lit, and Han Fei didn’t run into anything on his way.

Han Fei didn’t see anyone until he ran for almost two kilometers.

After he jumped out of a hole, he found himself in a spacious cave that was ten times larger than the previous caves.

This cave was half filled with fire. Han Fei finally understood why this place was called Fire Cloud Cave. Also, something was roaring in the fire.

Xia Xiaochan was vomiting blood against the wall.

Zhang Xuanyu was also wiping his blood while supporting himself with a rod on one of his knees.

Luo Xiaobai was protecting herself with vines. There was a dragon bone in her body.

As for Le Renkuang, he was struggling to resist the fire with a dozen shields.

“Hiu!”

Han Fei threw out the dragon bone he picked up earlier, which immediately suppressed the incoming fire.

Le Renkuang looked back and was excited. “Han Fei, you’re not dead?”

Zhang Xuanyu was excited too. “Han Fei, hurry up! There’s a monster in the fire! A body!”

Xia Xiaochan said in a hurry, “Be careful! It’s likely the body of the dragonslayer.”

Han Fei was stunned. What was going on? The dragonslayer? How could he defeat such a tough guy who killed a Blue Sea Wandering Dragon?

Luo Xiaobai roared, “Han Fei, spiritual energy!”

Han Fei came back to himself and instilled spiritual energy into his teammates’ body. They all took a long breath of relief.

However, before Han Fei joined the battle, he saw that a slim corpse that was on fire walked out of the flames and punched Zhang Xuanyu.

BAM!

After an explosion, Zhang Xuanyu's stick was bent, and he was blown away like a cannonball.

Luo Xiaobai hurried to pick Zhang Xuanyu up with her vines, but the corpse turned its head at Han Fei.

The Demon Purification Pot, which had usually been helpful, showed nothing. It seemed incapable of reading humans.

Han Fei took a deep breath. He had just become an intermediate great fishing master. Couldn't he defeat a corpse? Immediately, he drew his Purple Bamboo Rod and smashed the enemy.

Clang...

Crack!

The noise echoed throughout the cave when Han Fei was punched away and his Purple Bamboo Rod was broken. The corpse, on the other hand, was knocked away too and rolled on the ground.

Han Fei asked in shock, "What's this thing? Why is it so powerful?"

Xia Xiaochan said anxiously, "I told you to be careful! Though it's a corpse, it's as strong as an advanced Dangling Fisher, or we wouldn't have been crushed like this!"

e

Luo Xiaobai said, "One dragon bone can shelter one person at most. We need to distract this guy and find more dragon bones in order to suppress him."

Han Fei was lost for words. "Why don't you keep him occupied while I look for dragon bones."

Le Renkuang and Luo Xiaobai, however, simply tossed the dragon bone to Han Fei and shouted, "You'll fight him while we search for more dragon bones!"

Han Fei: "???"

Xia Xiaochan left with a flash. "You're the sturdiest one here. Of course it's your job to stall him. Huh. Have you made a breakthrough?"

Han Fei was much thinner than previously, which indicated that he made a breakthrough. He would probably be slim again after he reached the peak-level of a great fishing master.

But nobody else was interested in that. Han Fei was sturdy before his breakthrough and should be sturdier after it.

Actually, Han Fei was indeed sturdier, but not as much as they imagined. After all, it was not so easy to improve the Indestructible Body polished by lightning. This improvement was only a natural improvement from a junior great fishing master to an intermediate great fishing master.

Zhang Xuanyu shouted, "Han Fei, the Hidden Fisher slew a dragon in the ocean, and you're now slaying him with two bones. You will be a legend in the Fourth Academy. Go now... The door is behind this guy."

Han Fei: "???"

Han Fei couldn't have looked more awful when he looked at the two dragon bones. His disloyal friends were abandoning him the moment they saw him. Thankfully, he just advanced after the battle against the Dragon Eel, or he wouldn't have been able to resist this corpse.

Han Fei unwillingly picked up the dragon bones and rushed into the flames. Wherever he went, the flames backed off, as was the power of the bones of the Blue Sea Wandering Dragon.

"Ho000000..."

The corpse of the expert was subconsciously avoiding the dragon bones, but Han Fei's marching infuriated him.

For a moment, flames were gathered towards Han Fei, and Han Fei felt that he was almost broiled. On the other side, Xia Xiaochan and his other teammates hurried to slip into the cave behind the corpse.

Han Fei shouted, "Hurry and return with more dragon bones! I can't kill him on my own!"

Xia Xiaochan's voice echoed in the cave. "We'll come back in 15 minutes."

Han Fei felt like vomiting blood. 15? You want me to fight this thing for that long?

However, when all his teammates were gone, Han Fei immediately took out his dragon head.

The flames in the cave dwindled the moment the dragon head appeared. Even the corpse stopped briefly as if scared.

"Attach."

All the chains were released. Han Fei tried his best to wave the dragon head, but it was too heavy and freezing, so Han Fei couldn't hit anything with the dragon head.

"Hey, the dragon head is here to protect me. Are you still coming?"

Han Fei gave up pulling the dragon head. He simply waved the dragon bones as if they were hammers.

Clang! Clang! Clang!

The corpse seemed to be suppressed and lost the power that he broke the Purple Bamboo Rod with. Han Fei seized the chance to smite it dozens of times.

"Damn it. This corpse is too hard for me to break!"

Standing next to the dragon head, Han Fei was almost frozen, but thankfully, the corpse did not attack him. They reached a stalemate. Han Fei scratched his head and wondered if he should run first since he obviously couldn't defeat his enemy.

Han Fei hauled the dragon head to the exit of the cave, and the corpse moved out of the way. Then, Han Fei was standing right before the exit.

Time passed, and there was no response from his teammates.

Han Fei shouted, "Are you back?"

"Huh? Nobody?"

He immediately retreated the dragon head. But the moment the dragon head disappeared, the corpse seemed revived and charged at Han Fei after a roar.

Han Fei ran and shouted, "Bro, stop chasing me. I'm not your wife. Why are you chasing me?" The corpse of the expert followed Han Fei into the channel. One in the front and the other behind, they sprinted crazily.

A moment later, Han Fei rushed into another cave and found debris of tentacles as well as footprints all over the ground. It seemed that his teammates just passed through here. Han Fei kept running, followed by fire.

One cave, two caves...

Lost for words, Han Fei shouted back, "Bro, you are truly a great digger. Why did you dig so many caves?"

It was not until Han Fei ran into the fourth channel that he finally encountered his teammates.

They all came to a stop and looked at each other in surprise.

Xia Xiaochan asked, "Why are you here?"

Luo Xiaobai looked at Han Fei's back and said, "Run!"
