### **Chapter 1881: Yin'er Comes Out**

The effect of the Dragon Transformation Technique was beyond Han Fei's expectations. He didn't expect it to be a great technique that could transform a human being into a dragon and double his strength. Wasn't it a magical technique?

After all, his Invincible Eye could only double his combat power.

The Dragon Transformation Technique should be a technique that all dragons had mastered. This might be the simplest technique for the azure dragon.

Although Han Fei still wanted to blackmail him, the azure dragon was not a human after all.

This Dragon Transformation Technique could only be used with the essence blood of a dragon. The other techniques were probably not simple!

When leaving the Ideal Palace this time, he would extract more essence blood from the azure dragon's body. Anyway, he just needed to return its corpse to it in the end.

...

The trip to the Ideal Palace went very smoothly, which was beyond Han Fei's expectations.

It had only been less than a day since Han Fei entered.

When he left the Ideal Palace, Han Fei thought that his memories would disappear. However, when he felt a power trying to interfere with his memories, the Demon Purification Pot took the initiative to move and collect the power.

Han Fei was lost for words. If he had known this would happen, he wouldn't have been afraid of losing his memory!

In the outside world.

The old turtle was surprised to see Han Fei. "So fast? It's only been less than a day."

Han Fei said, "It's nothing serious in the first place. I'm going to Forge the Universe to cultivate. You continue to wait here. It's been a month. She should be out soon."

In the past, the old turtle lay in Forge the Universe cultivating all day long like a master. He should teach him who the master was.

In Forge the Universe.

Han Fei came directly to the corpse of the azure dragon, which was thousands of meters long. Han Fei grinned.

Han Fei put his hand on the corpse of the azure dragon, and vines extended out from the calabash on his palm. Han Fei said, "Suck."

The old turtle asked in surprise, "Are you using the Chaotic Qi in its body? Didn't you say you wouldn't use it?"

Han Fei said, "Times have changed. Now, I'm going to be a king. Didn't you say that the Chaotic Qi is very useful? Then why don't I absorb more?"

The old turtle was shocked and sighed for the dragon in his heart. How unlucky are you to meet Han Fei?

Han Fei's absorption speed was quite fast.

After only half a day, when Han Fei's Chaotic Qi reached 5,206 wisps, the entire azure dragon body had shriveled.

The old turtle couldn't stand it anymore. He said, "You almost turned its corpse into a molting snake. If you release it later, won't you two fight?"

Han Fei sneered. "How can I be so stupid?"

Han Fei shouted, "Heaven Enlightenment."

At that moment, the Heaven Enlightenment Divine Technique descended, and the flesh and blood of the azure dragon corpse began to recover, spontaneously absorbing spiritual energy and energy from Han Fei's Forge the Universe.

After only a moment, the corpse of the azure dragon turned into a corpse with a terrifying aura and infinite power.

However, with a swish, Han Fei slashed the azure dragon's body and began to bleed it. He specially made a pond on the ground to contain the blood.

While the corpse was bleeding, Han Fei walked around the azure dragon holding a knife.

Clang! Clang! Clang!

A moment later, four dragon teeth, two dragon horns, hundreds of dragon scales, and tons of dragon meat were placed in front of Han Fei.

The old turtle said, "Are you going to cut its corpse into pieces? Although your Heaven Enlightenment Divine Technique is very powerful, what grows back is new after all. It has to nourish these with its Dragon Essence Energy. You can do this once or twice, but if you keep doing this, this dragon will be crippled."

Han Fei was stunned for a moment. "Oh! Really? Then I'll stop. It should be enough. I'll leave it a complete body anyway!"

The old turtle was lost for words. Looking at the pool of dragon blood and hundreds or thousands of tons of dragon meat, he thought to himself, If you didn't have the Heaven Enlightenment Divine Technique, this dragon corpse would have been chopped into bones by you.

Han Fei patted the dragon corpse, which rumbled like thunder, and he said leisurely, "Not bad. It's quite sturdy."

The old turtle: "..."

...

Half a month later.

Han Fei couldn't stand it anymore. He had already read all the books and studied all the techniques he could.

In Forge the Universe, with the acceleration of time, half a month was more than a year. With Han Fei's current strength, he couldn't cultivate anymore. Now he could only wait to go to the Heavenly Palace to fight the Heavenly Dao Dharma Eye.

Another five days passed.

Suddenly, the old turtle reminded him, "Something is wrong with the Ideal Palace."

Swish ~

With a swish, Han Fei instantly appeared outside the Ideal Palace.

Recently, the Sky Meditation Garden was overcrowded.

It was relatively quiet here.

However, at this moment, the entire Ideal Palace began to shake.

Above the Ideal Palace, a large blue light shadow appeared. Gradually, this blue light shadow formed a huge pillar of light hundreds of kilometers in diameter, soaring directly to the sky.

"Wow! What's going on? Is there a problem with the Ideal Palace again?"

"It must be Marshal Han. The Sky Meditation Garden is over-crowded now. It's said that all the old visualization objects there have been cleared. It's said that the new visualization objects can work within a day, and the effect is ten times better than before. Now, there's a problem with the Ideal Palace. Marshal Han must be modifying it too."

"Hurry up. Go to the Ideal Palace and occupy a seat."

"Damn it. I missed the Sky Meditation Garden, but I must not miss the new Ideal Palace."

Swish! Swish! Swish!

In the sky, countless fishing boats flew up and headed for the Ideal Palace at full speed.

However, at this moment, Han Fei's voice sounded in the sky above the Thousand Star City. "Everyone, stop heading to the Ideal Palace. Everyone around the Ideal Palace, leave quickly... Something big is going to happen to the Ideal Palace. I don't even know what will happen here. Don't come over."

"Huh?"

As soon as Han Fei said this, the people who were rushing to the Ideal Palace were all stunned. What was going on? Hadn't the Sky Meditation Garden been successfully transformed? Was there a problem with the transformation of the Ideal Palace?

“What’s going on?”

A large number of locust-like fishing boats stopped in midair, not knowing where to go.

With a bang, the blue pillar of light expanded and the color became more intense.

“At this moment, everyone in the Thousand Star City saw it. A blue beam of light shot into the sky.”

Han Fei had never seen such a scene before!

The blue pillar of light shot into the sky and seemed unreachable.

Han Fei wanted to chase it with his perception.

However, when his perception reached the sky, it failed to catch up with the blue pillar of light.

Boom ~

When a loud bang erupted, a huge eye appeared in the sky above the Thousand Star City.

The eyes were bigger than Han Fei imagined.

It was no longer the size Han Fei saw in the Yin Sky Heavenly Palace. This time, it appeared like the sun, the moon, or a big star in the sky.

Everyone in the entire Yin-Yang World that spanned eight million kilometers could see it.

Scattered Stars Island.

Xia Xiaochan was chatting with Luo Xiaobai about what happened in the Raging Sea and supervising Yi Xiyan and the others’ cultivation.

Suddenly, everyone subconsciously looked up.

In the sky, there was a huge eyeball, with magma-like turbid liquid flowing out of its pupil.

“Heavenly Dao Dharma Eye?”

Instantly, Xia Xiaochan and Luo Xiaobai looked at each other.

They had heard this name countless times, but this was the first time they saw the Heavenly Dao Dharma Eye with their own eyes.

At this moment, countless people in the Scattered Stars Island, the 36 towns, and the level-three fishery were looking up at the eye.

On the Cloud Whale’s back, Tang Yan appeared with a solemn expression.

Cao Tianzhi stood in the sea hundreds of thousands of kilometers away and walked to the Thousand Star City.

At this moment, Han Fei issued a second warning. “Everyone near the Ideal Palace, evacuate.”

In fact, the noise had exceeded most people’s imagination.

The people who were rushing to the Ideal Palace just now all stopped their fishing boats and began to retreat.

Someone exclaimed, "Seriously? Not again! A while ago, the entire Yin-Yang World was almost moved away. This time, here comes a big eyeball?"

"What's going on? Is it an enemy?"

"This eye looks too evil. It doesn't look like a good thing, does it?"

"What did Marshal Han do? How did he get this thing out?"

Swish ~

Next to Han Fei, Ren Tianfei appeared immediately. "Why did the Heavenly Dao Dharma Eye appear?"

Han Fei said, "How would I know? However, it seems that Yin'er is coming out. I just want to know if what's disappearing now is the river of time."

Ren Tianfei said, "From the looks of it, it probably is."

Han Fei said, "If the river of time returns, the Heavenly Dao Dharma Eye should disappear, right?"

Ren Tianfei said, "That should be the case! But I haven't experienced it either!"

Bang!

A second explosion sounded from the pillar of time.

At this moment, a group of people appeared with swishes.

Xia Xiaochan was relieved to see Han Fei and then asked, "What happened? Where is Yin'er?"

Old Bai asked, "Where is Yin'er?"

Old Jiang asked, "What's wrong with the Ideal Palace?"

Tang Yan asked, "Is this the Heavenly Dao Dharma Eye?"

Bang!

Bang!

Immediately afterward, explosions sounded again and again. The Heavenly Dao Dharma Eye seemed to just be watching coldly like an onlooker.

The pillar of time lasted for half an hour and exploded seven times.

After the last time, the strange mist outside the Ideal Palace began to disperse.

"Brother ~"

Suddenly, a voice sounded from the gray fog.

Then, Han Fei felt a special power, which was the power of time.

Han Fei's heart stirred and he quickly said to Xia Xiaochan, "Wait for me outside. I'm going there."

Before Xia Xiaochan responded, Han Fei had disappeared into the gray mist.

"Alas..."

Xia Xiaochan was about to call him, when Ren Tianfei said, "It doesn't matter. The power of time has basically been extracted. Now, this little power can't stop him."

In the next moment, Han Fei saw the Time Dragon Carp and two people who were fusing in the gray mist. Who else could it be but Yin'er?

### **Chapter 1882: Birth of the Heavenly Palace**

Sure enough, the Ideal Palace was never prepared for others, but for Han Fei and his sister.

The same scene, the same process.

He had walked through it once, and now, Yin'er had walked through it again. Her old body had fused with her current body, so she could be considered a real modern person now.

The plan that spanned a section of the river of time finally came to an end today.

When Yin'er's old body fused with her current one, Han Fei felt that Yin'er's strength was soaring crazily.

In a short moment, she broke through three realms and reached the peak of the Explorer realm.

When she was still a peak-level Explorer, after about a hundred seconds, Yin'er directly broke through to the Half-Venerable realm.

This scene was very similar to his own back then.

However, back then, he went from a junior law enforcer to a peak-level law enforcer.

As for Yin'er, she went from a junior Explorer to a Half-Venerable. They were of the same nature. It could be said that Yin'er's gap was larger.

The Time Dragon Carp glanced at Han Fei and said, "This section of the river of time has returned to the real river of time. Even the Heavenly Dao Dharma Eye can't discover the secret of you and your sister. In a few minutes, the Heavenly Dao Dharma Eye will dissipate. You can prepare to transcend the tribulation."

Buzz!

When he finally heard the news, Han Fei felt that his head was about to explode. Could he finally reach the Sea Establishment realm?

Han Fei was excited, expectant, and a little nervous about entering the Sea Establishment realm.

He had never been in the Sea Establishment realm. He didn't know what he would be like when he reached the Sea Establishment realm.

At this moment, Yin'er's fusion was basically completed.

And Yin'er's appearance had undergone some subtle changes.

Her skin was fairer. Although her facial features didn't seem to have changed much, they seemed to be much more exquisite. And she was also slightly taller.

If Yin'er was still an ordinary girl before... now, she could completely be called a beauty.

The problem was that you didn't feel she had had many changes!

"Brother!"

Yin'er woke up and looked at Han Fei, and her heart welled up with complicated feelings. In the end, she smiled. "Brother, I'm back."

Han Fei didn't know much about women. Although he somehow felt that something was wrong with Yin'er, he didn't have time to think about it at this moment.

Han Fei said, "Let's go out first!"

Swish ~

When the two of them appeared outside the Ideal Palace, everyone's eyes lit up.

Xia Xiaochan was relieved. "It's good that you're out."

Luo Xiaobai said, "Huh? Yin'er's strength has almost crossed an entire realm."

With that, Luo Xiaobai glanced at Han Fei. Han Fei was in the same situation back then.

Although everyone knew that Yin'er must have triggered something big in the Ideal Palace, this was a relatively private matter. Unless Yin'er was willing to tell them, they wouldn't ask.

At this moment, Han Fei and Yin'er looked up at the huge eye in the sky.

Yin'er narrowed her eyes. "What's that?"

Han Fei said, "The Heavenly Dao Dharma Eye. It has suppressed the Yin-Yang World for tens of thousands of years and doesn't allow any king to appear in the Yin-Yang World."

Yin'er looked at the river of time that was disappearing and then at Han Fei. "Is it all because of this?"

Han Fei nodded slightly. "Yes!"

At this moment, Tang Yan said, "The Heavenly Dao Dharma Eye seems to be shrinking."

Hearing Tang Yan's reminder, everyone finally noticed.

The Heavenly Dao Dharma Eye was indeed slowly shrinking. However, because it was too big, no one noticed it immediately.

At this moment.

Ren Tianfei glanced at Han Fei and said, "Is it time?"

Everyone couldn't help looking at Han Fei. What did Ren Tianfei mean?

Although everyone was guessing that Ren Tianfei was talking about Han Fei's king-level tribulation, they didn't say anything but just watched Han Fei's reaction.

Han Fei took a slight breath and slowly said, "Yes, it's time."

With that, Han Fei looked back at everyone and said, "I'm going to the Central Holy City. The gray mist of the Ideal Palace is about to dissipate, and it's very close to the Central Holy City. Wait here."

Xia Xiaochan said, "I'll go with you."

Han Fei shook his head slightly and said via voice transmission, "I'm going to the Heavenly Palace. That place may still be covered by the Heavenly Dao Dharma Eye. Wait for me here."

His tribulation wouldn't come so fast. He had to make sure that the Heavenly Dao Dharma Eye disappeared first.

Buzz!

Han Fei strode thousands of kilometers away in one step.

In a few steps, he disappeared at the entrance of the Monument of Gods.

Xia Xiaochan stomped slightly in worry, and Ren Tianfei said, "We will see it when he transcends the tribulation, but now is indeed not the time to follow him. Now, no one knows if the Heavenly Palace is dangerous. If we go there, we may become his burden."

Zhang Xuanyu took a deep breath. "Is he going to the legendary Heavenly Palace?"

Luo Xiaobai said, "Believe him. He must have a reason to go alone."

Old Bai sighed slightly. "This kid has a heavy burden on him! If he still can't become a king, who else can?"

As for Tang Yan and Cao Tianzhi, they were not in a hurry to ask if they could transcend the tribulation.

Han Fei had told them about the danger outside. If what Han Fei said was true, even if Han Fei could transcend the tribulation and become a king, there were still too few kings in the Yin-Yang World and the Water-Wood World.

Therefore, they could predict that after Han Fei transcended the tribulation, maybe they could become kings too, so they shouldn't fight to be the first to become a king.

...

On the Central Holy City, Han Fei stepped into the teleportation array to the Heavenly Palace without hesitation.

He didn't come until the Heavenly Dao Dharma Eye completely disappeared because the river of time had returned. Logically speaking, the Heavenly Dao Dharma Eye wouldn't stop others from going to the Heavenly Palace.

Secondly, there was too much energy and spiritual energy above the Heavenly Palace.

Last time, he could absorb less than one percent of it even if he tried his best. Han Fei was afraid that those energies would dissipate with the Heavenly Dao Dharma Eye.

If that was the case, it would be a huge loss.

Although these powers were not very pure, there were a lot of them. Perhaps his path to becoming a king lay here.

How could Han Fei allow them to dissipate?

However, when Han Fei appeared in the Heavenly Palace, intense fire origin energy instantly filled his body. Here, the energy was still extremely violent.

But to Han Fei's horror, the Heavenly Dao Dharma Eye didn't completely disappear.

At least, above the Heavenly Palace, this Heavenly Dao Dharma Eye still existed. However, it began to move away, and its size didn't seem to be as big as before.

Most importantly, when he appeared in the Heavenly Palace, no Sky Fiend appeared.

"Huff~"

Han Fei was relieved.

As he expected, the power of the Heavenly Palace was dissipating. Infinite energy and spiritual energy were dissipating crazily into the void.

"Son of a b \* tch, you're all mine. No one is allowed to escape."

Boom ~

Han Fei instantly projected hundreds of projections. Each projection immediately set up multiple large Spirit Gathering Arrays.

Bang! Bang! Bang!

However, to Han Fei's surprise, these Spirit Gathering Arrays began to collapse the moment they appeared. It seemed that they couldn't stop the energy from dissipating at all.

"Damn it, this is my Heavenly Palace. Why is the spiritual energy dissipating?"

The old turtle said, "Something doesn't seem right. Although I feel that a huge amount of energy is dissipating, there seems to be a huge amount of energy pouring in. I wonder where the energy comes from."

"Huh?"

Han Fei was briefly stunned.

Hearing what the old turtle said, Han Fei's perception instantly swept across the entire Heavenly Palace.

When his perception entered the Heavenly Palace, Han Fei discovered that a Heaven and Earth Array had formed here and was absorbing power from the void.

“Huh? The power imprisoned by the Heavenly Dao Dharma Eye seems to be the power gathered to maintain the existence of the Heavenly Dao Dharma Eye. However, the power gathered in the Heaven and Earth Array has nothing to do with the Heavenly Dao Dharma Eye. That seems to be the real source of power of the Heavenly Palace.”

Han Fei flipped his hand, and the Vast Ocean Navigator appeared in his hand, but the needle pointed at the void.

With a thought, Han Fei immediately took out the array pestle of the Heaven and Earth Array in the Heavenly Palace. With a thought, he appeared in the palace in the center of the island.

In front of Han Fei was the Heaven and Earth Array he saw before, which was also the core array that controlled the entire Yin-Yang Heavenly Palace.

Han Fei said, “The Heavenly Dao Dharma Eye has suppressed the Yin-Yang World for tens of thousands of years. Even if this power is going to dissipate, it shouldn’t be in this independent small world.”

...

Outside, the whole world was looking up at the sky.

The Heavenly Dao Dharma Eye shocked the world. Ordinary people would never see such a scene in their entire lives.

Under countless uneasy and fearful gazes, a huge shadow wrapped in a white mist suddenly appeared in the sky.

Thousand Star City, above the Central Holy City.

Suddenly, a large swath of white mist appeared.

Immediately afterward, the mist began to disperse, revealing a large area of red light in the mist.

At that moment, a tremendous amount of energy and spiritual energy dispersed.

“Heavenly fire?”

At this moment, countless people exclaimed.

At this moment, the Thousand Star City was as hot and full of spiritual energy as in the Heavenly Fire Festival every year.

For most people, this was the best time to cultivate.

At this moment, in the sky, Han Fei’s voice resounded like thunder.

Han Fei said, “My name is Han Fei. Today, I’m going to transcend the king-level tribulation... Considering the spiritual energy is thin and the energy is weak in the Yin-Yang World, I’ll bring the Heavenly Palace to the world and bring benefits to all living beings...”

### **Chapter 1883: Han Fei Entered the Sea Establishment Realm**

Buzz!

When the Heavenly Palace appeared, the huge eye in the sky had become very small.

The Heavenly Dao Dharma Eye was meant to patrol for the heavens. There was a problem in the Yin-Yang World before, and there was a power here that was out of the control of the Heavenly Dao, so the Heavenly Dao Dharma Eye had been supervising and suppressing this place.

Now, the seven soul realms of the Ideal Palace were shattered one after another.

The intercepted section of the river of time returned to the boundless flow of time, so the Heavenly Dao Dharma Eye disappeared.

When the Heavenly Palace appeared, Han Fei no longer controlled the dissipation of energy and spiritual energy above the Heavenly Palace.

At that moment, the energy storm emitted by the Yin-Yang Heavenly Palace swept the entire Thousand Star City in an instant.

The Yin-Yang Heavenly Palace had accumulated too much power for too long!

At this moment, it was like a leaking ball, bursting out at an incredible speed.

Han Fei knew that he had to use these powers quickly. They were dissipating at a terrifying speed, but according to the state of Xue Fan's tribulation that he had seen...

Han Fei felt that the energy and spiritual energy stored in the Yin-Yang Heavenly Palace should be completely enough for him to transcend the tribulation.

In the Thousand Star City, countless people shouted, "Marshal Han is invincible!"

"Transcend the tribulation to become a king! Han Fei has already reached this point, but he still hasn't transcended the tribulation to become a king?"

"A king! A king might appear in our Yin-Yang World."

"In the past tens of thousands of years, no king has appeared in the Yin-Yang World. Is this curse going to be broken?"

On Pure Sun Island, Su Yang cried and shouted in a low voice, "Patriarch, did you see that? You won the bet. Han Fei is going to be a king."

In the Heavenly Sword Sect, Sky Sword Master sighed. "Sure enough, from this kid's understanding of the Sword Dao, I can tell that no one in this world can stop him."

Li Daxian murmured, "The Heavenly Palace has descended. As long as he succeeds in transcending his tribulation, the Pure Sun Dao Palace will rise again."

Zhang Xuanyu said, "All the so-called Heavenly Talents seem to be eclipsed by Feifei!"

Luo Xiaobai said, "Don't underestimate yourself. Think about it. Who can become a Venerable at this age? There will still be time for us in the future. We should try our best to catch up."

Xia Xiaochan said, "Xiaobai is right. It's not that you can't do it, but that you lack opportunities. The fact that you are able to cultivate to the Venerable realm in the Yin-Yang World means that you are not weak

even in the Raging Sea. If you were born in the Raging Sea, you would at least be above the advanced Venerable realm at this moment.”

Old Jiang and Jiang Qin stood together, and he said leisurely, “I knew that this kid might be promising, but I didn’t expect that after only a few decades, this kid is going to reach the Sea Establishment realm. I still remember that when he had just become a spirit gatherer, he was really naughty...”

Jiang Qin rolled her eyes at Old Jiang and said, “Show off. I remember you were frequently amazed by him back then...”

Old Jiang immediately blew his beard. “How could I possibly be amazed by him?”

...

At first, the outline of the Heavenly Palace could be seen, but in the blink of an eye, it was enveloped by surging energy.

Suddenly, someone said in surprise, “Look, the Heavenly Palace is releasing energy.”

“Hiss! What is Marshal Han doing? Didn’t he say that he was going to break through and become a king? With the energy dispersing, how can he transcend the tribulation?”

Someone sneered. “What do you know? Marshal Han is about to transcend the tribulation. How can he not know the danger of transcending the tribulation? Since he can let the energy disperse, it means that he is not afraid of the energy escaping.”

Someone was puzzled. “I wonder if the Heavenly Palace can descend for us to see?”

Someone was lost for words. “What are you talking about? Have you seen the energy tide in the sky? To put it bluntly, you can’t even withstand the energy impact. Do you still want to see it?”

As for the presidents and teachers of the seven major sects, they all shouted, “All disciples, hurry up, prepare to make a breakthrough. When the Heavenly Palace descends, spiritual energy will be like waves and energy will be like tides. If you make a breakthrough now, it will be twice as easy.”

At this moment, hundreds of thousands of people in the Thousand Star City were sitting cross-legged and making breakthroughs, and the number was increasing.

As for the Heavenly Palace, it was like a red phoenix spreading its wings, hovering in the sky, dazzling but unapproachable.

At this moment, the Steps into the Sea in the level-three fishery stirred. In the Thousand Star Proving Ground, a few rays of light rose from the ground like soaring murderous auras.

“Tweet ~”

Murderous red lights rushed towards the Heavenly Palace.

They were Emperor Sparrow, Little Fatty, Nine Tails, the Licking Dog, and Little Gold who jumped into the air and flew straight to the Heavenly Palace.

In the Heavenly Palace, Han Fei didn't care about the return of the Emperor Sparrow and the others. They all disappeared between his eyebrows, including the Emperor Sparrow.

After all, it was a king-level tribulation. Even the Emperor Sparrow with an extraordinary bloodline couldn't welcome a king-level tribulation in his current realm.

Therefore, Han Fei knew that he could only rely on himself for this tribulation.

Even if Little Black, Little White, and the Emperor Sparrow could share some of the power of the lightning tribulation, it was at most a little bit.

Han Fei said, "Come, my tribulation."

How terrifying was the tribulation of a king?

Besides the Thousand Star City, in the Thirty-Six Towns and the Scattered Stars Island, in the daytime, everyone saw a red star appear in the sky.

Accompanied by the stars, a dragon roar was heard. It was Han Fei's shout.

"Come, my tribulation~"

Buzz!

On the Scattered Stars Island, everyone stopped what they were doing and looked up. Although they couldn't see clearly... they could see that a huge circle of light had formed around the red nebula.

How far away was it? It was probably millions of kilometers away.

When the tribulation clouds began to gather in the boundless sky above the Thousand Star City, it was as if the doomsday had arrived. The sky was covered by black clouds, and day became night. The brightest thing in the night was the red light spot in the sky and the surrounding halo.

Even Ren Tianfei was shocked. "This tribulation is extraordinary! It covers an area of ten thousand kilometers, and the tribulation clouds are still condensing. I wonder what methods he has prepared?"

...

At this moment, Han Fei was standing proudly in the sky a hundred kilometers away from the Heavenly Palace.

The old turtle said, "Remember, the king-level tribulation has nine levels. Don't resist it if you can't withstand it. Prepare more vitality-type spiritual fruits. Don't be afraid of wasting the Heaven Enlightenment Divine Technique."

Han Fei asked, "Old Yuan, how should I use the Chaotic Qi? You made me accumulate so much. I have to know how to use it to establish a sea, right?"

The old turtle said, "You don't need me to teach you. The heavenly tribulation you experienced will tell you. When the time comes, you'll know what you should do. Everyone's situation is different. Therefore, I can't explain it to you now. You can only comprehend it in your heavenly tribulation. Even if you don't

open your Origin Sea well when transcending the tribulation, you can make up for it later. Your first priority is to survive the heavenly tribulation. I have to focus, or I'll be gone when the lightning strikes."

"F\*ck..."

Han Fei took a deep breath and looked at the dull but surging heavenly tribulation waves. He would be lying if he said he wasn't nervous.

After all, it was the first tribulation. After the tribulation, he would become a king...

Old Han's years of planning, his own years of pursuit, and the expectations of countless people were about to be fulfilled at this day, this time.

After more than 50 seconds, lightning was already rolling in the sky. However, the rolling lightning was clearly purple and red.

"Hiss ~"

Tang Yan said, "Is he going to start with a purple heavenly tribulation?"

Ren Tianfei shook his head. "I don't think so. Those purple heavenly tribulations are still gathering. If it starts with a purple heavenly tribulation, it's too ridiculous. Who can resist it?"

Ren Tianfei had once reached the king realm.

Back then, in his tribulation, only the last lightning bolt was purple. Therefore, he had this estimate.

On this side, Luo Xiaobai held Xia Xiaochan's hand and said, "It's okay. Relax. You know this guy. It's just a tribulation. It's not a problem for him."

Le Renkuang wiped the sweat off his head and swallowed. "I hope he will be fine. I believe in Feifei's physique. As long as he doesn't forcibly resist the nine heavenly tribulations, he will definitely be fine."

Zhang Xuanyu nodded solemnly.

Yin'er, on the other hand, clenched her hands. However, her eyes were firm as if she remembered something from the Age of Doom. At this moment, she just gritted her teeth and believed that Han Fei could survive this tribulation.

Boom!

While everyone was nervous, they saw hundreds of lightning bolts in the sky, and the thickest one fell on Han Fei.

Roar!

In the sky, Han Fei activated the Purity Mystic Body.

The heavenly tribulation was a test of the Heavenly Dao.

To become the most powerful person, you would have to withstand the most difficult tribulation. It was a simple truth.

In the hundred-meter lightning pillar, the battle suit on Han Fei's body was instantly shattered. But Han Fei was fearless. Every pore on his body was crazily swallowing the power of the lightning tribulation.

From the moment he began to transcend the tribulation, it meant that Han Fei's bottleneck had been broken. Someone could become a fake king because he failed halfway through the tribulation.

At this moment, Han Fei's blood and Qi was soaring, and he was pressed down by the lightning for more than a hundred kilometers. On the surface of his body, many places were charred, and there was blood flowing out of his body. His internal organs were all shaken by lightning.

"Huff!"

Han Fei had withstood the first lightning bolt, but his face was slightly pale. He had seen others transcend a king-level heavenly tribulation, but his heavenly tribulation seemed to be terrifyingly strong!

Xue Fan's first lightning bolt was much weaker than this.

In the Raging Sea, his strength had doubled, and his physique and bloodline had increased by several levels.

When he took the first lightning bolt, Han Fei was still slightly injured. It could be seen how powerful this lightning bolt was!

Han Fei didn't dare to imagine. If the first one was already so powerful, what about the rest?

#### **Chapter 1884: Origin Sea Appeared**

After the first heavenly tribulation, Han Fei didn't feel the comprehension that the old turtle mentioned.

Han Fei only knew that from the moment he transcended the tribulation, his potential seemed to be increasing! This was a magical feeling.

At this moment, Han Fei's body was like a river that was constantly being expanded. Although the speed of expansion was very fast, the speed at which energy was filled was also very fast.

A Holy Light Technique descended. Before Han Fei's minor injuries were healed, a second lightning bolt fell.

However, to everyone's surprise, Han Fei's second lightning bolt was of two colors. A faint purple color had already appeared in the lightning tribulation.

"What? Purple appeared on the second heavenly tribulation?"

"Not good! This king-level tribulation is more powerful than I imagined."

"What a terrifying lightning tribulation! It's so far away, but it's still so powerful."

Roar!

Han Fei immediately knew that something was wrong.

Immediately, Han Fei roared, and the Purity Mystic Body was running crazily. Ten thousand spiritual fruits appeared around him and instantly shattered.

“Huff~”

Han Fei opened his mouth and took a deep breath, and all the power of the spiritual fruit entered his body. Han Fei’s bloodline kept growing, and his vitality was surging. He soared five hundred kilometers into the sky and faced the lightning tribulation.

Rumble! Rumble!

Han Fei’s soaring blood Qi was shattered into pieces in less than half a second.

The lightning enveloped Han Fei.

The Purity Mystic Body directly stirred the violent power of lightning into a vortex.

After five seconds, Han Fei retreated 300 kilometers and barely resisted the lightning.

Although Han Fei blocked this tribulation, thunder rumbled from his body.

Han Fei’s seven orifices instantly scabbed over. Half of his skin was destroyed after this disaster.

“Huff~”

When the Heaven Enlightenment Divine Technique was activated, Han Fei’s body quickly recovered.

However, this terrifying king tribulation still shocked Han Fei.

Han Fei had thought that he had seen others transcend a king’s tribulation and was already well-prepared to face his own this time, to temper his body with the heavenly tribulation.

However, Han Fei didn’t expect that his king tribulation would be so terrifying! This level was almost comparable to the power of Xue Fan’s sixth heavenly tribulation.

Fortunately, Han Fei was no longer someone this kind of heavenly tribulation could shake. Unless the level of the third heavenly tribulation could directly rise to the level of Xue Fan’s ninth heavenly tribulation, he could still resist it.

Swish ~

In the sky, lightning flashed like dragons.

In the Thousand Star City, the billions of humans looked solemn and felt shocked.

Many people wondered, “Can human strength really resist this thing?”

...

Boom!

The third heavenly tribulation had almost turned pure light purple.

Han Fei was already a little crazy. He flew into the air again and roared, “What can you do to me?”

At that moment, spiritual fruits fell like rain, turning into a red mist that filled the sky, and followed Han Fei.

As for Han Fei, he opened his arms, golden light surged from his body, and he embraced the heavenly tribulation.

Sizzle~

Boom Boom Boom ~

At this moment, Han Fei was already covered in purple light.

The energy tide of the spiritual fruit had been drained by Han Fei.

However, after the third lightning tribulation, Ren Tianfei and Xia Xiaochan were shocked to see some fine cracks on Han Fei's body.

Although these cracks were not deep, this was only the third heavenly tribulation!

Tang Yan was shocked. He had once transcended the king-level tribulation.

To put it bluntly, this heavenly tribulation of Han Fei was already as powerful as the eighth lightning tribulation that killed him!

Tang Yan looked solemn. How strong was Han Fei? How could he attract such a terrifying king-level tribulation?

Cao Tianzhi was even more shocked.

He hadn't even transcended the heavenly tribulation. Seeing Han Fei transcend the tribulation this time, he wondered if he could withstand such a heavenly tribulation. But now seeing this heavenly tribulation, he didn't think he could.

Zhang Xuanyu's face changed. "Xiaochan, can Feifei's body withstand it?"

Xia Xiaochan nodded heavily. "Yes!"

Le Renkuang heaved a sigh of relief. "That's great. I was so worried about him."

However, Xia Xiaochan was also worried. Although she knew that Han Fei had great potential and could even obtain the supreme inheritance of the Martial Emperor City, she was still worried.

At this moment.

Two women appeared here respectively.

Jiuyin Ling stood on the roof of the Jiuyin family.

He Xiaoyu, who was in the crowd, clenched her fists and watched the scene.

Jing'er stood in the Sea Cloud Tower, watching the heavenly tribulation.

The Heavenly Sword Sect.

Tang Ge and Mu Ling stood in the Hidden Sword Pavilion. Mu Ling comforted him, "He is no longer the Han Fei from back then. You should believe him."

Tang Ge nodded. "I know. I believe him."

...

The Heaven Enlightenment Divine Technique appeared again.

However, Han Fei's injuries hadn't fully recovered when the fourth lightning struck.

This time, there was no trace of ordinary lightning at all. The faint purple lightning fell like a crack in the sky.

Rumble! Rumble!

This time, Han Fei's face changed drastically.

When he found that the power of the spiritual fruits around him was not enough to repair his vitality, he immediately shouted.

A total of 11 Dragon Blood Fruits shattered.

The Dragon Blood Fruit was originally a body-refining fruit, but at critical moments, it could also promote the body's absorption of energy.

Although Han Fei's strength was rapidly increasing, the absorption speed of his body was far slower than the destruction caused by the lightning strikes.

Therefore, Han Fei either used some kind of power to block the heavenly tribulation, replenish his vitality, or accelerate his absorption of energy.

Although ordinary spiritual fruits were effective, their replenishing speed was far from enough. As for the Dragon Blood Fruit, it was enough.

Of course, he couldn't just use the Dragon Blood Fruit. Han Fei still had some Earth Vein Spring Water that he hadn't used. At this moment, all of it poured out.

Infinite vitality enveloped Han Fei.

When the fourth lightning bolt dissipated, some of the power of the Earth Vein Spring Water remained in the void.

Of course, Han Fei was still injured.

The moment the lightning tribulation dissipated, Han Fei used the Heaven Enlightenment Divine Technique.

While using the Heaven Enlightenment Divine Technique, he absorbed the power of the Earth Vein Spring Water. In less than three seconds, Han Fei recovered.

At this moment, Han Fei's injuries were completely healed, and the Earth Vein Spring Water was completely absorbed by Han Fei.

Of course, Han Fei knew that if he continued to withstand the power of the heavenly tribulation head on, he might have to use the important resources he had.

Suddenly, Han Fei felt that the Chaotic Qi in his body began to stir.

The Chaotic Qi began to entangle, as if trying to open a mysterious door.

Han Fei couldn't help but think of what the old turtle said. He said that he would know how to establish a sea when he was transcending the tribulation.

Now, the Chaotic Qi was moving to his Dantian, where his Dao Seed was. Even now, Han Fei still didn't know how to establish a sea.

However, it didn't matter. The next heavenly tribulation was coming, so it was better to transcend it first.

This time, Han Fei took out more than 30,000 spiritual fruits and a large amount of demonic energy essence to replenish his vitality.

Boom!

When the fifth heavenly tribulation descended, the faint purple lightning had already begun to turn purple.

The sky was crimson.

When the spiritual fruits and demonic energy essence were all annihilated by the heavenly tribulation, Han Fei suddenly felt that the Chaotic Qi suddenly drilled into his Dao Seed.

His mind suddenly opened.

Han Fei seemed to see a barren land.

This was a desolate land only about a hundred meters long. However, after streams of Chaotic Qi poured in, this desolate land was opening up.

The land seemed to become fertile too. Some water oozed out of the barren land.

Han Fei thought to himself, Is this the so-called Origin Sea?

Wasn't this too small?

The speed at which the Chaotic Qi entered was not fast. On average, only two or three wisps could enter every second. At this speed, even if the heavenly tribulation was over, he couldn't stuff all the Chaotic Qi into the Origin Sea!

However, Han Fei had another feeling: he seemed to be able to establish this place at the same time. When transcending the tribulation, he could multitask.

Therefore, half of Han Fei's mind was immersed in the desolate land, and the other half was resisting the heavenly tribulation.

Ka ka ka ~

After holding on for about four seconds, Han Fei discovered that the vitality brought by the power of the spiritual fruit and the demonic energy essence had basically been consumed.

With a thought, the Heavenly Imperial Star Fruit appeared. This was the treasure he snatched from the Grand Pure Palace.

The Heavenly Imperial Star Fruit itself contained 30 wisps of Chaotic Qi. After consuming it, there was a certain chance that the bloodline power in the body would be activated.

However, Han Fei's bloodline wasn't activated, but triggered by the Heavenly Imperial Star Fruit.

Unfortunately, although this fruit was powerful, it only worked for about half a second before its overall strength was exhausted.

Half a second later, Han Fei's body cracked, and golden blood was dissipating.

At this point, the fifth heavenly tribulation was over.

Han Fei smiled bitterly and discovered that there were only five f\*cking heavenly tribulations! But now there were only less than 50,000 spiritual fruits left.

These 50,000 spiritual fruits would probably be all consumed in the sixth heavenly tribulation.

Buzz!

The Heaven Enlightenment Divine Technique was activated at all costs, and the cracks on Han Fei's body were rapidly healing. Golden blood interweaved in the void and flowed backward.

After transcending this heavenly tribulation, Han Fei suddenly discovered that in the Origin Sea he established, the speed at which Chaotic Qi flowed in was twice as fast.

Just now, only three wisps of Chaotic Qi could enter it in one second. Now, six wisps of Chaotic Qi could enter it in one second.

However, even so, it was still too slow!

Han Fei saw that the Origin Sea was expanding, but the speed was slow. It could only expand dozens of meters in one second.

Are you kidding me?

His Origin Sea was thousands of kilometers long! But his Origin Sea was only a few hundred meters long?!

Han Fei thought to himself, the degree of tribulation transcending must be directly connected with the speed at which the Origin Sea was opened.

Of course, apart from the autonomous opening of the Origin Sea, the other half of Han Fei's spiritual will was triggered.

Grabbing a wisp of Chaotic Qi that seeped in, Han Fei roared and slashed at the boundless black fog that enveloped the Origin Sea. The black fog was slashed out a radius of ten thousand feet.

"It worked."

Chapter 1885: Resisting the Heavenly Tribulation Head-on (1)

Han Fei seemed to have found a way to open the Origin Sea.

However, his method seemed a little clumsy.

The opening of the Origin Sea reminded Han Fei of the expansion of Forge the Universe. The opening of the two seemed to be the same.

However, one was based on the Demon Purification Pot, and the other was based on his own Dao Seed.

However, the Origin Sea was not the Demon Purification Pot, so Han Fei could only keep hacking to open it with all his strength.

At this moment, the sixth heavenly tribulation was about to descend. Although the healing speed of the Heaven Enlightenment Divine Technique was fast, it couldn't heal Han Fei's seriously injured body in just two or three seconds.

Therefore, Han Fei released all his spiritual fruits in advance.

These were all the resources Han Fei had accumulated in the Raging Sea. It would be good if he could resist the sixth heavenly tribulation with these resources.

After all, while resisting the heavenly tribulation, the energy of these energy fruits and the heavenly tribulation had almost been absorbed by him. The heavenly tribulation was both a tribulation and a way for him to grow on the way to becoming a king.

Han Fei knew that the vitality and gentle energy provided by the 50,000 spiritual fruits were not enough. Therefore, Han Fei couldn't help but hold a small bottle in his hand.

Crack ~

As Han Fei crushed it, the small bottle shattered, and a pill with three patterns appeared in Han Fei's hand.

Old Jiang was the best at refining pills here.

However, when he saw the pill in Han Fei's hand, he couldn't help but ask in surprise, "Is that a tribulation pill? A tribulation pill that has experienced a heavenly tribulation?"

Xia Xiaochan clenched her fists nervously.

At this moment, she tried her best to calm herself down and said, "The Three-Layered Dao Pattern Pill has experienced three tribulations. However, I don't know if it can withstand such a powerful heavenly tribulation."

Le Renkuang said, "The sky is full of spiritual fruits and there is also this tribulation pill. They should be able to help Feifei make it, right?"

Zhang Xuanyu sighed. "This king-level tribulation is too terrifying! How many spiritual fruits has Feifei prepared to transcend this tribulation?"

Ren Tianfei said, "It's just because he chose to resist it head-on. If he hadn't chosen that, he wouldn't have needed to consume so many resources."

"Resist it head-on?"

Everyone couldn't help looking at Ren Tianfei in confusion. This was what they didn't understand! Was it really better to resist the tribulation head-on than to transcend the tribulation with props?

Ren Tianfei said, "Heavenly tribulation is the purest killing power in the world, which represents the Heavenly Dao. Similarly, because the heavenly tribulation is pure, it also contains extremely huge power.

Every time the heavenly tribulation strikes, any part of it that is absorbed by the body will transform the body of the person transcending the tribulation. And the more the body absorbs the heavenly tribulation, the stronger his strength and potential will be than the kings who have blocked the heavenly tribulation with props...”

Zhang Xuanyu said, “Doesn’t it mean that... whoever has a stronger physique will be stronger after becoming a king? In the future, will they be far ahead of those who don’t transcend the tribulation with their bodies?”

Ren Tianfei shook his head. “No, you can’t say that. Physical tribulation can only make you stronger than others after you transcend the tribulation and become a king. However, becoming a king is an improvement in life level, an improvement in bloodline. Bloodline and life level are the foundation. If your foundation is not as good as others’, then even if you transcend the tribulation with your body, others will catch up with you in the future. This is potential...”

“OK”

Even Tang Yan and Ren Tianfei didn’t quite understand what Ren Tianfei said.

Although they had already guessed it, they were not kings after all. Therefore, they couldn’t understand the difference between kings at all.

At this moment, they were enlightened by what Ren Tianfei said.

Luo Xiaobai said, “He has already withstood the sixth heavenly tribulation with his body? Does he... want to withstand all the heavenly tribulations with his body?”

Everyone fell silent. According to Han Fei’s personality, it was very likely.

Rumble! Rumble!

While they were communicating quickly, countless purple lightning veins descended. The thickest one was completely purple lightning. Even ten thousand kilometers away, it was covered by black clouds.

Within a hundred thousand kilometers, in the sky, there was a strong wind and lightning interweaving. It seemed that the quality of the lightning was getting stronger and stronger.

Perhaps, there was another reason: the power of the Heavenly Dao lightning tribulation in the Yin-Yang World was not enough, so it covered a larger area to absorb a larger area of power.

Therefore, Han Fei's tribulation caused a huge uproar.

The tribulation pill entered his body. In an instant, Han Fei's body was filled with the power that burst out of the pill. This power crazily overflowed from his body, helping Han Fei's body neutralize and resist the heavenly tribulation.

Of course, energy was not the key.

The Triple Dao Pattern Pill was a pill that had experienced heavenly tribulations. Therefore, if he swallowed it now, it could give Han Fei a lot of Great Dao power in a short period of time.

Although this was not his Great Dao but a manifestation of the Dao runes of the world, even so, it still stimulated Han Fei's body to its most resilient state in an instant.

One breath.

Two breaths.

Three breaths.

In the third second, all the power provided by the spiritual fruits was consumed by Han Fei.

The moment the vitality provided by the spiritual fruit completely disappeared, Han Fei shouted in the lightning tribulation, "Heaven Enlightenment Divine Technique."

This time, Han Fei couldn't care less. A thousand years of vitality was poured on him. Coupled with the Triple Tribulation Pill, he protected his body and endured the heavenly tribulation.

Buzz!

When the sixth heavenly tribulation dissipated, Han Fei was panting and cursing, "Son of a b \* tch, it completely exceeded Xue Fan's ninth lightning bolt. God, are you kidding me?"

Han Fei was recovering from his injuries. At this moment, he discovered that every second, the Chaotic Qi that could enter the Origin Sea doubled.

Now, every second, about twelve seconds of Chaotic Qi drilled into the Origin Sea.

Han Fei sensed the world in his Origin Sea while trying to work out ways to quickly expand this place.

However, Han Fei discovered that no matter how fast he opened it, it was impossible for him to open thousands of kilometers at once! Back then, the Water Immortal definitely didn't open so small an area, neither did the Divine Son.

"That shouldn't be the case! Logically speaking, after transcending the first six levels of the heavenly tribulation, I should already know how to establish my Origin Sea. The Chaotic Qi entered the Origin Sea and instantly melted here, so I can't interfere. Then my mind can only open hundreds of kilometers here?"

Suddenly, Han Fei's heart stirred. Above his head, a small vine extended out. This small vine was trying to drill into his Origin Sea.

Around the vine, Han Fei also saw that the sprouts of a few other vines seemed to be struggling to open a barrier, trying to get in.

Han Fei: "???"

Han Fei's eyelids twitched. The Demon Purification Pot could enter his Origin Sea at this time?

Han Fei thought to himself, What does this guy want to do? Does he want to change where he lives?

At this moment, Han Fei had no time to care about the Origin Sea.

He could take his time to expand the Origin Sea.

Even if he became a king, he could still establish it.

However, the seventh heavenly tribulation had already appeared.

Han Fei saw a big purple mass, which stunned him.

"F\*ck! Do you think you can stop me with this?"

Han Fei grabbed two jade bottles.

Crack! Crack!

With two crisp sounds, two Triple Tribulation Pills appeared in Han Fei's hand.

Han Fei slapped his mouth and swallowed the two Triple Tribulation Pills in a row.

Below, Xia Xiaochan was finally nervous. She quickly looked at Ren Tianfei. "A Great Purple Heavenly Tribulation, this is a sign of a demonic tribulation."

"Demonic tribulation?"

Everyone looked at Xia Xiaochan and Luo Xiaobai asked, "What is a demonic tribulation?"

Ren Tianfei said, "Something must be wrong. Han Fei's heavenly tribulation has completely exceeded the level that ordinary heavenly tribulations can withstand. Every heavenly tribulation he experiences now is comparable to the ultimate heavenly tribulation of ordinary kings. The so-called demonic tribulation is an impermanent tribulation. No one knows how strong this heavenly tribulation will be."

"Gulp ~"

At this moment, everyone's heart sank.

However, among everyone, only one person had a firm gaze. This person was Han Yin'er. She firmly believed that it was impossible for Han Fei to fail this tribulation.

Boom!

The seventh purple heavenly tribulation seemed to erect a pillar of lightning between the heavens and earth.

Everyone in the Thousand Star City was dumbfounded. There was only a purple pillar of light left in the entire world. The halo spread out infinitely.

In the eyes of ordinary people, This was not a f\*cking heavenly tribulation but that the heavens were trying to kill.

However, Han Fei roared, stepped in the air, and came at it.

Bang!

The moment Han Fei collided with this heavenly tribulation, the two tribulation pills in his body erupted crazily, as if they were going to burst out all the medicinal effects at this moment...

“Shoot ~”

Han Fei’s face changed drastically. Even his soul was affected by this heavenly tribulation!

At the same time, Han Fei also felt that the power of the two tribulation pills was not enough.

Immediately, Han Fei knew that he couldn’t hesitate anymore!

In the heavenly tribulation, a pill with five Dao patterns suddenly appeared in Han Fei’s hand.

Han Fei only had one five-level Dao Pattern Pill.

This pill was not used to transcend the tribulation, but to make him stronger.

Han Fei roared and his strength soared in an instant. His combat power doubled, which greatly improved Han Fei in all aspects except combat power.

Han Fei didn’t dare to use the power of his Great Dao and the Invincible Eye, fearing that he would run out of resources.

Now, to Han Fei’s surprise, only the seventh heavenly tribulation required five Dao Pattern Pills! Then what about the next two?

One breath.

Two breaths.

Three breaths.

By the fourth second, Han Fei’s seven orifices were no longer bleeding, but spurting blood.

Han Fei was shocked. His soul must not be injured!

Once his soul was injured, it was hard to say if he could survive this tribulation.

Han Fei didn't hesitate at all. He used a sixth-grade soul pill he bought from the Martial Emperor City without hesitation. As soon as the soul pill appeared, it was immediately imprinted between Han Fei's eyebrows.

Han Fei's soul seemed to have an additional barrier. However, the light of the barrier flickered and was extremely unstable. After two seconds, cracks appeared on the Soul Pill barrier.

But at this moment, the seventh heavenly tribulation had already dissipated.

"Puff ~"

Han Fei vomited a mouthful of blood.

However, he didn't stop at all but immediately shouted, "Heaven Enlightenment Divine Technique."

### **Chapter 1886: Resisting the Heavenly Tribulation Head-on(2)**

Han Fei looked solemn.

It was difficult to establish a sea!

The four vines of the Demon Purification Pot had already entered, and the amount of Chaotic Qi that could be poured in every second reached about 25 wisps.

At this moment, the Origin Sea had opened into a hundred-mile-long irregular lake.

However, compared to the real Origin Sea, this was too f\*cking small!

However, the Demon Purification Pot entering the Origin Sea meant that there should be plenty of ways to open the Origin Sea in the future.

Now, the key problem for Han Fei was that he had used up the three-level Dao Pattern Pills and the five-level Dao Pattern Pills.

Now, Han Fei only had two sixth-grade soul pills and 500 catties of Deep Sea Nether Spring left.

Of course, in addition to this, what was left was the energy and spiritual energy that was crazily spreading out from the Heavenly Palace.

Boom ~

This was one of Han Fei's trump cards, so Han Fei landed on the Heavenly Palace and opened all his pores.

"Huff~"

As Han Fei took a deep breath, he turned into a big energy cocoon, and tremendous energy and spiritual energy hit Han Fei's body crazily.

"Huff~"

"Huff~"

At this moment, Han Fei's big mouth and all the pores on his body were like bottomless abysses. Almost every second, he could swallow nearly one percent of the energy and spiritual energy of the Heavenly Palace.

After the spiritual energy entered Han Fei's body, it wasn't used to fill his flesh, temper his meridians, or improve his bones and blood...

These powers were only used by Han Fei to block the heavenly tribulation and resist the power of the heavenly tribulation. Of course, when the two powers became gentle, they could stay in his body.

In Han Fei's perception, the absorption of the tribulation clouds had exceeded his perception range. And in the sky, the eighth heavenly tribulation was still accumulating power.

At this moment, there were already some dark purple signs.

Han Fei's eyelids twitched, the corner of his mouth trembled, and he took out two more bottles. These were Han Fei's last sixth-grade soul pills.

The Purity Body was still circulating crazily, and the Origin Sea was still being opened. Han Fei felt that his physical strength was rising crazily at an extremely fast speed.

Han Fei would rather this stalemate last for at least an hour. If it was really possible, Han Fei felt that his strength would increase by 50%.

However, the heavenly tribulation wouldn't give Han Fei this chance.

The eighth heavenly tribulation came.

When the dark purple lightning fell, the sky was full of lightning nets.

Han Fei stood on the Heavenly Palace and didn't move at all, letting the heavenly tribulation bombard him. Almost in an instant, the level-six tribulation pills he didn't use up last time immediately shattered.

However, Han Fei didn't panic at all. He used two level-six soul pills at the same time. He couldn't care less about the last heavenly tribulation. He had to survive the eighth heavenly tribulation first.

“Ahhh ~”

Han Fei roared, his voice shaking the world.

Hearing the furious roar, who wouldn't be moved? This was the first king-level tribulation in the history of the Thousand Star City.

Han Fei's name had long been engraved in everyone's hearts. No one hoped that Han Fei would fail the tribulation. This was because the stronger Han Fei was, the better the Thousand Star City would be. The better the Scattered Stars Island was, the better the entire human race would be.

“Marshal Han, hold on.”

“Marshal Han is invincible.”

“Marshal Han, a mere heavenly tribulation can't stop you at all.”

“Marshal Han, even the heavenly tribulation is not worthy of being your opponent.”

“Marshal Han...”

...

Ka ka ka ~

Cracks appeared on Han Fei's body.

However, Han Fei didn't care at all.

On Han Fei's glabella, a golden eye slowly opened.

At that moment, Han Fei's low roar resounded throughout the world.

“Among the thousands of tribulations in this world, only I, Han Fei, am invincible. All Great Daos in one. Roar...”

Swish ~

At that moment, Han Fei finally took action.

Although his body was full of cracks, he pointed at the sky. In the Heavenly Palace, energy was like a tide, and spiritual energy was like a sea. At this moment, they all turned into a sword, piercing into the sky and going against the tribulation.

In the Thousand Star City, in the entire Yin-Yang World, everyone saw stars colliding in the sky. Whether it was the Scattered Stars Island, the 36 towns, or the level-three fishery, they could all see this amazing scene.

The sound of the Great Dao swept across the world.

In the Heavenly Water Village, the old village leader climbed on his roof, raised his hands high, and muttered, “You have to win ~”

In the Blue Sea Town, Li Gang and the entire Fish Dragons were shouting, "Leader is invincible. Leader will definitely become a king..."

On the Scattered Stars Island, the Heavenly Vine was waving its vines. The Sky Survey Sword was bald at this moment, but still held its big sword high in the air, as if it were cheering for Han Fei.

On the Forest of Terror's side, the strong masters had all arrived at the Thousand Star City.

To be honest, they were already shocked.

They couldn't imagine that all the living beings were supporting this person. And this person could last until now under this horrible power. Was he still a human?

In fact, while the people from the Forest of Terror were surprised... some people from the Immortal City and the Demon Beast Union also came to the Yin-Yang World.

Earlier, Han Fei had promised that some of them could come to the Yin-Yang World to take a look. Who knew that as soon as they came, they would see Han Fei transcending the tribulation?

On the Immortal City's side, Chen Xiang and Han Fei's former subordinates were exclaiming. This was the first time they had seen someone transcend the tribulation and become a king.

The scene was so grand!

Yun Tianhe exclaimed, "Marshal Han is far stronger than we imagined!"

Hua Meng said, "I heard that the Black Evil Conch King couldn't even withstand a single blow from Marshal Han. Unfortunately, I didn't witness that battle. Otherwise, I would have bragged about it for the rest of my life."

Chen Xiang was secretly shocked. Is this Han Fei's real strength? It was funny that she doubted if he had the ability to become the supreme commander of the Scattered Stars Island. He was actually the master of the Yin-Yang World.

On the Demon Beast Union's side, Serpent Mengyue, Bear Handsome, and the others came over.

Golden Tiger shouted, "What a pity! We should have called all the Half-Kings over to observe. A king-level tribulation is a once-in-a-thousand-year occasion!"

Serpent Mengyue shook her head and said, "It's useless to look. Did you see the power of his king-level tribulation? I estimate that from the third heavenly tribulation onwards, it's not something ordinary people can withstand. Did you see purple lightning when the old sheep was transcending the tribulation?"

...

At this moment, Han Fei pointed his sword at the heavenly tribulation, and the entire Heavenly Palace was providing him with power.

Then dense cracks appeared on Han Fei's body from his fingers to his entire arm and then to his body.

And the Heaven Enlightenment Divine Technique didn't stop at all during this tribulation. Even if the Heaven Enlightenment Divine Technique didn't stop for a moment, it couldn't completely cure Han Fei.

All Great Daos in One Sword couldn't compare to the dark purple lightning in the end. It only lasted for three seconds.

Fortunately, the power of faith of the human race was crazily pouring into Han Fei. With the continuous consumption of the power of faith, Han Fei's body was kept intact. Otherwise, he would probably be blown to pieces at this moment.

Although Han Fei wasn't afraid of his body shattering, it would be a waste of time to recover. What he lacked most now was time.

Three breaths.

Four seconds.

At the fifth second, with cracking sounds, Han Fei's bones were broken in many places, and the Soul Pill barrier was dim.

The Invincible Eye collapsed.

His third eye was injured, and Han Fei coughed out a few mouthfuls of blood. Finally, the heavenly tribulation dissipated.

At this moment, Xia Xiaochan and the others were the most worried.

At this moment, Han Fei didn't look very good. His body was full of cracks. There were even a few terrifying cracks as if his body was about to crack.

Fortunately, the Heaven Enlightenment Divine Technique was supplying healing brilliance continuously. It was also because Han Fei had swallowed too much of the vitality of strong masters that he could use the Heaven Enlightenment Divine Technique to heal his body so unscrupulously.

Xia Xiaochan shouted, "Idiot, stop resisting it. It's already the ninth heavenly tribulation. You don't have to become a king with your body!"

Ren Tianfei shouted, "Brat, although I said that you would be more powerful if you transcended the tribulation only with your body, you're playing with fire. It's almost the ninth heavenly tribulation. That's enough."

Old Bai and Old Jiang also shouted to remind Han Fei.

However, cracking sounds came from Han Fei's body, which was the sound of bones recovering.

Han Fei said, "I want to walk the path of a real strong master. What I want is to suppress the entire Raging Sea; what I want is to break the cage; what I want is to walk to the extreme and stand on the other side of the Infinite Ocean..."

Roar!

Han Fei waved his hand, and thousands of ultra-quality spiritual stones were scattered on the Heavenly Palace.

Han Fei had used too much energy and spiritual energy from the Heavenly Palace just now.

Now, there was less than half of this power left. And to resist the last tribulation? Han Fei really had to fight it out.

“Huff~”

“Huff~”

Han Fei opened his mouth and swallowed like a devil whale swallowing the sea. Every second, countless energy poured into his body.

The sky suddenly opened, revealing a crimson color. Was that a red heavenly tribulation? It interweaved in the sky.

At this moment, Han Fei had no time to care... His Origin Sea’s intake of Chaotic Qi had become more than 50 wisps per second.

Han Fei also didn’t notice that a familiar scene appeared in the Origin Sea... Here, there was land, big pits, rivers, and fertile soil...

Roar!

At this moment, Han Fei suddenly grinned.

In his Dantian, the Dao Seed trembled, so did the Great Dao. Han Fei’s overall strength instantly soared three times...

That was not all. Han Fei shouted, “Fuse!”

Then black and white light burst out of Han Fei’s eyes.

“Dragon Transformation Technique!”

“Roar!”

A dragon roar resounded throughout the Yin-Yang World.

Han Fei’s body began to swell. Immediately afterward, spiritual energy surged like a hurricane, and dragon scales appeared in the storm.

Han Fei disappeared from the sky and a hundred-foot-long azure dragon baring its fangs and brandishing its claws, soaring up to the sky.

The people exclaimed.

“Is that... the legendary dragon?”

“Oh my god! Is Marshal Han the reincarnation of a true dragon?”

“How ferocious! Is this what a king is like?”

Rumble! Rumble!

In the sky, bright red lightning was interweaving, producing loud bangs.

When Han Fei turned into a point in the darkness, a red heavenly pillar fell, as if a line had opened in the world and broken through the starry sky.

### **Chapter 1887: I am the Sky Fiend**

The moment the red heavenly tribulation descended, everyone closed their eyes. This strange power was really dazzling!

Under such circumstances, only Venerables could barely open their eyes.

However, even if Xia Xiaochan and the others could still observe, Han Fei was completely enveloped by the heavenly tribulation. They could only see a shock wave that was about to smash down at the center of the tribulation clouds.

Except for that, they couldn't see anything!

At this moment, Xia Xiaochan, Zhang Xuanyu, Luo Xiaobai, Le Renkuang, Ren Tianfei... Their palms and foreheads were all sweaty, and they didn't dare to relax for a moment.

Even Ren Tianfei was horrified. If he were to transcend such a heavenly tribulation, he would be crushed into pieces in less than a second.

In fact, although Han Fei used the power of his Great Dao and the Dragon Transformation Technique, he didn't gain any benefits.

Perhaps because he had just learned the Dragon Transformation Technique, he only lasted for a second before he was beaten back to his original form.

In the third second, Han Fei felt that his Great Dao enhancement couldn't hold on anymore and was about to collapse.

The Heaven Enlightenment Divine Technique was still shining, but others couldn't see it.

Buzz!

Having no choice, Han Fei activated the Supreme Yin-Yang Wheel. However, this method only lasted for half a second.

Han Fei tried to use the Great Dao of Time, but it couldn't be used here.

At this moment, Han Fei couldn't return to his strongest state.

After holding on for five seconds, Han Fei saw an invisible figure pouncing on him from the lightning tribulation.

It was like the demonic energy that the old turtle had once used, which seemed to be about to penetrate his mind.

At this moment, the Demon Purification Pot that was establishing the Origin Sea was trembling.

Han Fei knew that if he didn't use defensive weapons or arrays, he might really not be able to hold on.

"Forget it..."

Han Fei had planned to survive this tribulation in the most perfect state, relying on his body and his massive resources.

However, he underestimated the power of the heavenly tribulation, causing him to not prepare enough resources.

If he had known this would happen, he wouldn't have stopped until he had no more money to buy in the Martial Emperor City.

But now, it was too late.

With a thought from Han Fei, the last 500 catties of Deep Sea Nether Spring were all absorbed into his body.

Otherwise, if his soul power couldn't withstand this Sky Fiend, wouldn't he fail the tribulation? This was something he couldn't tolerate.

He had taken the first 99 steps. How could he allow his plan to be ruined at the last step?

However, just as Han Fei was about to activate a dragon bone umbrella he had been preparing for a long time, his glabella suddenly flashed again.

With a tweet, boundless murderous aura suddenly enveloped Han Fei's body. A pair of black wings spread out a hundred meters and he roared at the sky.

In Han Fei's heart, the Emperor Sparrow said, "Heavenly Fiend Battle Body."

Han Fei was shocked. He had considered using the power of the Emperor Sparrow, but the Emperor Sparrow hadn't become a Venerable yet. He was probably only a Half-Venerable.

Even if the Emperor Sparrow had a powerful background, it was impossible for him to face a king's heavenly tribulation as a Half-Venerable, right?

However, at this moment, the Emperor Sparrow took the initiative to appear.

"Heavenly Fiend Battle Body."

"Huff~"

This time, Han Fei didn't absorb energy but gasped. Han Fei seemed to feel that behind him, there were hundreds of thousands of soldiers and horses stepping on the desolate land.

Han Fei felt that infinite terrifying murderous aura was erupting from his body.

At this moment, the Sky Fiends in Han Fei's eyes seemed to no longer be terrifying.

Han Fei's Yin-Yang Divine Eyes disappeared, replaced by a pair of black pupils.

"Eye of Disaster."

A crimson murderous aura burst out of Han Fei's eyes.

The voice of the Emperor Sparrow appeared in Han Fei's heart. "Are you imitating the Sky Fiends again? The power of the heavenly tribulation remains unchanged. Do you know... I am the Sky Fiend?"

"Tweet ~"

Han Fei opened his mouth, and two interweaving powers, one black and one yellow, soared to the sky.

This was the Immortal Fiend Saber intertwined with the Immortal Qi and Fiendish energy that Han Fei had accumulated.

As soon as this attack was launched, a ball seemed to rise to the sky from the red lightning pillar.

Even the heavenly tribulation couldn't stop it.

The power of the Immortal Fiend Saber reached the sky and then turned into a huge ripple, shaking hundreds of thousands of kilometers.

At this moment, the world lost its color, and the sun and moon dimmed!

At this moment, the entire world seemed to be caught in a hazy white mist.

The heavenly tribulation was gone, and the last thing Han Fei heard was, "You are not strong enough!"

After a long time, everyone came back to their senses.

The moment they came back to their senses, Xia Xiaochan, Ren Tianfei, and the others couldn't care less about the dazzling light and forced themselves to look at the sky...

Until...

Xia Xiaochan saw that Han Fei's figure was standing proudly in midair above the Heavenly Palace. The surrounding spiritual energy intertwined and poured into his body. Beside Han Fei, rays of light enshrouded him, which was the manifestation of the power of the Great Dao.

Xia Xiaochan let out a long breath. "Heh... this brat only knows how to show off. He's really worrisome."

Hearing Xia Xiaochan's complaint, Luo Xiaobai and the others were relieved.

They were all crying, not because they were excited, but because of the dazzling white light. After all, with their strength, they really couldn't resist it.

Ren Tianfei cursed, "Brat, you scared me... However, can you even withstand the last heavenly tribulation?! Does it mean that you have comprehended the Indestructible Divine Body? No, I have to ask you later..."

Seeing that Xia Xiaochan and Ren Tianfei were relieved, everyone understood.

Old Bai laughed. "Haha, the Thug Academy has finally had a king."

Old Jiang shouted, "I taught a king!"

Jiang Qin glanced at Old Jiang. "Okay, don't flatter yourself. Try teaching another one?"

Old Jiang snorted. "Girl, don't bicker with me."

After another few hundred seconds, the seven major sects finally reacted to what had happened.

The master of the Heavenly Sword said to Tang Ge telepathically, "He has become a king."

Tang Ge grinned and felt happy from the bottom of his heart.

Serpent Mengyue, Zi Luo, and the others were also horrified.

Zi Luo said, "Go back and warn everyone in the Forest of Terror to behave themselves and surrender to the human race sincerely from today on. This person is too strong! Even if a king can be born in the Forest of Terror in the future, we are no match for him."

Serpent Mengyue sighed and patted Niu Dali's shoulder. "Dali, forget about him. If he is really a bull, it's fine... but he is a human. Now, he is a real king, the master of Yin-Yang World."

...

While everyone was exclaiming at the fact that Han Fei became a king, Han Fei was exclaiming about something else.

When he fully focused on transcending the tribulation, he found that his calabash was hovering in his Origin Sea, which had f\*cking become Forge the Universe!

Han Fei was dumbfounded. When I transcended the eighth level of tribulation, the Origin Sea was only a hundred kilometers wide. How did it become Forge the Universe in the blink of an eye?

Han Fei confirmed it again and again. He discovered that when he immersed his mind into the Dao Seed, he directly entered Forge the Universe... Oh, no, entered the Origin Sea.

And when he wanted to directly go to Forge the Universe from his mind, it didn't work.

"Hiss... So, have I f\*cking established the Origin Sea or not?"

However, Han Fei scanned this place with his perception and somehow felt that something was wrong.

His perception extended and he found that the Origin Sea was 6,000 kilometers in radius. In terms of diameter, it was 12,000 kilometers.

Han Fei's eyelids twitched.

Although he was surprised, Han Fei thought of something else. If Forge the Universe became his Origin Sea, could he let others enter it?

Han Fei felt that he had to find someone to try this idea.

If he could, it would be terrifying. In his Origin Sea, time was accelerated 32 times. One year of cultivation was equivalent to 32 years in the outside world. How could this be a joke?

Of course, he would have to try it later.

At this moment, Han Fei felt that the power in his body was changing. It was no longer spiritual energy modifying his body, but Dao runes nourishing his body.

This was the Dao runes of a powerhouse born by him, the power of the Great Dao.

Han Fei felt that he could see 500,000 kilometers at a glance.

At this moment, he felt that in the Thousand Star City, countless people were exclaiming, praying, asking, and exclaiming.

In an instant, too much information could be gathered in his mind. Only then did Han Fei know why the old turtle said that a king could monitor the world...

What he said was true.

Han Fei heard his name from the mouths of countless people. He could even follow a certain voice and instantly send down his spiritual perception to speak to him alone.

Just like among the countless voices, he heard Jiuyin Ling say in a gentle voice, "I know you will become a king. Congratulations, and wait for me..."

Han Fei could see Jiuyin Ling shed tears as she was dazzled by the dazzling white light, but she didn't care.

"Alas..."

Then he saw that on Pure Sun Island, Su Yang knelt on the ground and said with a trembling voice, "Patriarch, we won the bet. The best decision we made in this life was to send Daji and Su Sanqian to the Thug Academy. Now that Marshal Han has become a king, one day, our Su family may finally have a real strong master."

Outside the Ideal Palace, Han Fei heard Ren Tianfei and Old Jiang bragging that he was their disciple.

In addition to this, Han Fei sensed that there was a dragon ball hidden underground on the original site of the Ideal Palace.

Feeling Han Fei's gaze, the azure dragon said leisurely, "Congratulations on transcending the tribulation and becoming a king. I hope you keep your promise."

Han Fei replied, "Sure. I won't go back on my word."

Han Fei was also excited. He had just transcended the tribulation and had a lot to consider. He still needed to consolidate his strength.

Han Fei immediately focused his mind, and information popped up.

### **Chapter 1888: Call Himself the Human King**

Han Fei was overjoyed when he saw the message.

Finally, the heavens did not disappoint the determined.

His strength had soared several times. In terms of strength alone, it had soared more than three times.

He remembered that Old Yuan had said that his strength after he reached the Sea Establishment realm was more than 80,000 waves, which was already beyond the reach of ordinary people.

What about him? 120,000 waves. With a little cultivation, 130,000 waves would be nothing.

With this strength, if he entered the Raging Sea again, he wouldn't be afraid of any of the top ten pirate groups, Bei Xuanbing? Feng Xinlan? None of them would be his opponent.

Of course, in addition to the improvement in strength, Han Fei discovered that the ranking of his bloodline had risen a lot.

This time, it rose from 2.72 million to 1.32 million, rising by a terrifying number of 1.4 million.

"Gulp ~"

Han Fei immediately swallowed.

Han Fei knew that the 1.32 millionth place should be an extremely terrifying number.

Only by transcending such a terrifying heavenly tribulation could he reach such a ranking. It could be seen how many strong bloodlines there were in the Infinite Ocean.

This ranking also made Han Fei realize that he wasn't the top existence among the countless races in the Infinite Ocean.

Therefore, he had to continue to work hard.

At this moment, the simplest way was to directly devour stronger bloodlines.

Han Fei's heart did a flip, and information popped up.

Number of clans in the Infinite Ocean: 29620223

Master: the 13,212,19th

Nearby Bloodlines: Ancient Azure Dragon, Time Dragon Carp, Golden Crow Blood, Twin Yin-Yang Spirit Swallowing Fish, Emperor Sparrow, Hexagon Starfish...

Recommended Bloodline: Ancient Azure Dragon

Han Fei's lips twitched when he saw the information. The most suitable bloodline for him to swallow now was actually the Ancient Azure Dragon's bloodline?

Did this mean that the bloodline of the Hexagon Starfish was stronger than that of the ancient azure dragon?

This was quite beyond Han Fei's expectations. The Hexagon Starfish basically didn't cultivate but relied on his inheritance and Clam Girls' massage...

If Han Fei hadn't forced him to cultivate every now and then, this guy might still be lying leisurely. In terms of enjoying life, no one could compare to the Hexagon Starfish.

But this guy's bloodline was even stronger than that of the ancient azure dragon?

This surprised Han Fei. What level were these mysterious creatures at?

Han Fei had encountered a mysterious one before, but it was far inferior to Master Hexagon, Little Black, and Little White.

Now, the Emperor Sparrow had also become a mysterious creature.

Logically speaking, the Emperor Sparrow was the number one ferocious beast in the Primordial Age. He was a monster who led a group of ferocious beasts to fight divine beasts for 3,000 years. However, this guy also wanted to transform into a mysterious creature now?

He wondered what was so good about this mysterious creature.

When Han Fei thought of the Emperor Sparrow, his heart stirred. In the last heavenly tribulation, the Emperor Sparrow actually helped him kill the Sky Fiend?

From what the Emperor Sparrow said, he was a Sky Fiend himself? Was this guy a devil? He was only a Half-Venerable now... No, wait...

Han Fei looked again and suddenly found that the Emperor Sparrow was already level-80. When did he become a Venerable?

Han Fei couldn't help being surprised. Could it be that when he fused with the Emperor Sparrow just now, this guy also swallowed a lightning tribulation? Therefore, he directly became a Venerable?

His speed had already caught up with Little Black and Little White.

Han Fei was lost for words. At this speed, would this guy become a king in a few years?

In addition to the improvement of his strength and his ranking in the Infinite Ocean, Han Fei discovered that his soul power had increased by about 100,000 points.

Compared to his strength, the improvement of his soul power was not much. His strength had tripled, and his soul power had increased by about 30%.

However, Han Fei was already very satisfied.

After all, he had just entered the Sea Establishment Realm. Once he stabilized his strength as a king, his combat power would increase more than the number on the surface.

After reading the basic information, Han Fei sensed that he still had spiritual energy in his body, but the quality of the spiritual energy was completely different from before.

Besides, what guided the operation of these pure spiritual energies was the Dao runes, which were produced by him.

Suddenly, Han Fei was a little surprised. Why did his Chaotic Qi not decrease but increase?

Han Fei's eyelids twitched. The tribulation wouldn't consume the Chaotic Qi?

Han Fei said, "Old Yuan, can you hear me?"

The old turtle's voice sounded leisurely, "I can hear you. When the heavenly tribulation appeared, I retracted all my aura. Those were Pure Yang Lightning. If I'm touched by it, I'm afraid I'll be directly annihilated."

In fact, the old turtle was amazed too.

How did this guy survive such a heavenly tribulation?

When the old turtle saw the purple lightning and the bright red lightning that were full of the sky, he even felt that he was going to die. He even wanted to remind Han Fei not to resist it.

Who could have expected that Han Fei could survive it?

Needless to say, Han Fei's current strength, soul, perception, and all other aspects were far above his when he had just become a king.

This was because Han Fei had endured his heavenly tribulation with his body and absorbed the most power of the heavenly tribulation. How many people in this world could do this?

However, Han Fei didn't care about that.

Han Fei asked, "Old Yuan, what's going on with my Origin Sea?"

The old turtle said, "I don't know. Your calabash world has fused with your Origin Sea. Or rather, the two are connected in the first place. You might as well ask the calabash why... I really can't answer this. But..."

Han Fei asked, "But what?"

The old turtle said, "If the calabash space becomes the Origin Sea, it is a great thing. In the Origin Sea, you are the master. Unlike in the calabash space, you can even use the time here. Of course, it has to be according to the range of time acceleration in the calabash space, which can't be exceeded or shortened."

"Huh?"

Han Fei couldn't help but think, Sure enough, the time acceleration in the Origin Sea had become ten times.

However, Han Fei was only surprised for a moment. On second thought, he felt that this should be an accumulated skill. He could definitely reach the full time-acceleration state in his own Origin Sea!

Han Fei said, "Old Yuan, this Origin Sea is mine. Can I enter the Origin Sea to cultivate now?"

The old turtle said, "Of course. The Origin Sea is every king's most mysterious place. Of course, when you come in, you need to be in an absolutely quiet state to calm your mind down, unlike before when you could easily enter the calabash space within three seconds."

"Huh? Is that so?"

Han Fei couldn't help frowning.

If that was the case, it would be inconvenient for him to escape. If he was in battle, it wouldn't be as convenient as before. Therefore, he had to be more careful in the future.

Han Fei asked, "So, when I enter the Origin Sea, no one can perceive me, right?"

The old turtle said, "In theory, it should be this case. That's because others can't find your Origin Sea. However, the space node you left when you entered the Origin Sea is fixed. Therefore, when you come out, you can only come out from there. Besides, if there is really an extremely strong master of the Space Great Dao, he may directly dig out your Origin Sea from the space node."

Han Fei's heart sank. It seemed that he couldn't enter the Origin Sea recklessly when he was in battle in the future. Otherwise, he would be easily ambushed. If he couldn't beat his opponent, it would be over.

Han Fei asked, "Last question, why was the Chaotic Qi not decreased?"

The old turtle said, "The Chaotic Qi is used to support the existence of the Origin Sea. The more Chaotic Qi there is, the more the Origin Sea is like a normal small world. And a normal small world can not only store your own Dao runes, but also produce new Dao runes and feed them to you for emergencies."

Han Fei raised his eyebrows. "You make it sound like I'm creating a world."

At this moment, the energy and spiritual energy used to support the Heavenly Dao Dharma Eye above the Yin-Yang Heavenly Palace had basically been swallowed by Han Fei.

The leftovers basically dissipated with the blazing white mist.

It could be said that on this day, in the sky above the Thousand Star City, the spiritual energy and energy were almost ten times more intense. All the smart people had already sat down cross-legged to cultivate.

In the Thousand Star City, countless people made breakthroughs.

Han Fei looked at the desolate Heavenly Palace and then at the courtyard protected by the Heaven and Earth Array. Holding the array pestle, Han Fei suddenly discovered that he seemed to be able to activate the real power of the Heaven and Earth Array.

At this moment, Han Fei's eyes could see more clearly and even his brain was spinning much faster than before.

At this moment, Han Fei passed through the seal and found that a map appeared in the Heaven and Earth Array. This was the map of the entire Yin-Yang World.

According to the location of the map, Han Fei discovered that this thing seemed to be in real time. In other words, it could reflect the situation of the Yin-Yang World in real time.

This feeling made Han Fei think of the Sea Quelling Painting immediately.

Back then, they were watching the changes in the stars in the Sea Quelling Painting. Back then, when they were looking for the star map in the pool on the floating island in the painting, they could appear where they should appear with a thought.

With a thought from Han Fei, a projection fell directly into the painting. However, at the next moment, Han Fei's projection appeared on the level-three fishery.

"As I expected."

With this thing, it meant that as long as he had the Heaven and Earth Array in the Heavenly Palace, he could reach any place in the Yin-Yang World in an instant.

Han Fei suddenly came up with an idea.

...

The white mist of light didn't dissipate so quickly.

Therefore, at this moment, only some people could see that Han Fei was safe and sound. Most of them had their eyes closed and couldn't open them.

"Does anyone know what happened?"

"Has Marshal Han made a breakthrough?"

"I don't know! Han Fei didn't say anything."

"Alas, this white mist doesn't seem to be as dazzling as just now."

"I can already see some."

"Hiss! Look at the sky."

Many people narrowed their eyes or covered their eyes as they looked up.

The Heavenly Palace was surrounded by clouds and mist, full of immortal aura.

With a thought from Han Fei, the sound of the Great Dao spread throughout the Yin-Yang World.

Han Fei said, "I'm Han Fei from the human race. Now that I've reached the Sea Establishment Realm, I've comprehended a lot. I'm bold enough to tell the human race that I, Han Fei, call myself the Human King... Although I'm glad that I've become a king, the human race is still in deep trouble. We're still trapped in a cage. Outside the cage, there are countless enemies. There, groups of kings rise, Venerables are everywhere, and there are countless explorers... Since I've become a king, I'll lead the human race to prosperity. One day, we'll go to the outside world. One day, everyone in the Yin-Yang World will be a strong master..."

Roar!

"Break the cage and walk to the outside world."

"Human King, Human King, Human King..."

Billions of humans were howling and Power of Will was gathering.

Whether it was the Forest of Terror, the human race, or the Demon Beast Union.

At this moment, everyone was dumbfounded...

Those who were familiar with Han Fei all had strange looks on their faces. Call himself the Human King? Only Han Fei could do that.

### **Chapter 1889: Ten Years Later**

Ten years later.

It had been ten years since Han Fei transcended the tribulation and became a king.

The Yin-Yang World welcomed the first true king in its history.

Most people still felt that the title of Human King was well deserved for Han Fei.

After all, it was Han Fei who wiped out the big clans, suppressed the sea demons, and saved the human race.

Han Fei had created too many firsts. His name was already known by everyone in the Yin-Yang World.

Half a year after Han Fei became a king, the cage channel between the Yin-Yang World and the Water-Wood World was completely broken, and the two worlds were truly connected.

The Immortal City of the human race and the Demon Beast Union had respectively migrated a group of people to the Yin-Yang World.

In fact, everyone knew that the territory of the Heavenly Palace was only so big and there was only so much spiritual energy. Moving too many people in was not good for the cultivation and development of the various races.

In fact, many people of the Immortal City, the Demon Beast Union, and the Forest of Terror were still staying in the cage.

After all, although Han Fei and the others had killed more than 80 Venerables and even the Black Evil Conch King, there were still a hundred sea demon Venerables in the Black Blood City.

There were also countless explorers.

How could these people not understand that they were trapped in the cage as whetstones? All these years, they had been living in fear.

Whether it was the Demon Beast Union, the Immortal City of the human race, or the Forest of Terror, they could all surrender to humans or establish ties with humans.

However, sea demons couldn't.

Sea demons were born against all races.

In the past, they could establish diplomatic relations with the Forest of Terror mainly because there were few strong masters in the Forest of Terror and they were threatened by the Demon Beast Union, so they had to find a force to ally with.

Now, the Forest of Terror simply ignored the Black Blood City.

In the past ten years, while countless people were immersed in the beautiful life of spiritual energy rising and cultivation accelerating, they didn't know that there were dozens of cracks in the cage.

And this meant that... the cage was really slowly collapsing.

Han Fei's conclusion was that the cage would collapse within a hundred years.

But now, as the number of cracks increased, the cage would inevitably collapse in advance.

Of course, there were disadvantages and benefits.

In the past ten years, the overall spiritual energy level of the Yin-Yang World and the Water-Wood World had increased more than twice.

The increase of spiritual energy by two times meant that the number of human cultivators was increasing, and the potential and spiritual heritage of human beings were improving.

...

At this moment, Luo Xiaobai was sitting in the Marshal's Mansion.

Someone was reporting, "Marshal, according to the latest data, we've tested all the children between eight and ten years old in the Thousand Star City and the 36 towns and got a shocking discovery. Children below level-two spiritual heritage only account for less than 20% of the total. As for those children below eight years old, we've tested them in different age groups and found that the later the children are born, the higher the level of their spiritual heritage. Our human race will definitely welcome a new rise!"

Luo Xiaobai nodded slightly. "Continue to track and investigate. Whether it's the Thousand Star City or the 36 towns, set up special branches to calculate the latest data in real time."

"Yes, Marshal."

At this moment, someone suddenly shouted, "Report! Marshal, it's urgent."

Luo Xiaobai said, "Come in."

An Explorer hurriedly entered.

Ignoring the fact that there was still someone here, he said, "Marshal, another crack appeared in the Wall of Death in the north. It's more than 300 feet high and more than 40 meters wide."

Before Luo Xiaobai said anything, the other person was shocked. "So big?"

Luo Xiaobai took a slight breath and said, "Got it. I'll handle this matter personally. Continue to patrol. If anything happens, report to me immediately."

"Yes, Marshal..."

After the two of them left, Luo Xiaobai sat on a chair and rubbed her eyebrows.

Everyone could slack off, but she couldn't. The Yin-Yang World had just welcomed a turning point in the rise of the human race, but at this important moment, the problem with the Wall of Death was getting more and more serious.

Knock! Knock!

Luo Xiaobai said indifferently, "Come in!"

Luo Xiaobai perked up, but no one came in.

But at the next moment, she felt a pair of cold little hands covering her eyes.

Luo Xiaobai didn't know whether to laugh or cry. "When did you come out of seclusion? Childish. If my strength was comparable to yours, I would have discovered you immediately..."

"Giggle ~"

Who else could it be but Xia Xiaochan?

She said, "I asked you to step down as the supreme commander, but you refused. How tiring is it to be here every day?"

Luo Xiaobai rolled her eyes at Xia Xiaochan and said, "It's not that I don't want to, but the situation is serious. We can't take it lightly. If the cage is broken, the Yin-Yang World won't be able to stop the strong masters outside. At that time, if we encounter the strong enemies from the outside world, humans might still not be able to survive this disaster. By the way, where is our human king?"

Xia Xiaochan said, "He went to seal that crack and check on Nine Tails and the others' cultivation in the cage?"

Luo Xiaobai immediately closed the stack of documents on the table and said, "Let's go! I'll give myself half a day off and go back to school."

Xia Xiaochan said, "I'm here to call you. Zhang Xuanyu and Kuangkuang are out too. They're waiting for you."

Luo Xiaobai was surprised. "What day is it today? Why are you all out of seclusion?"

Xia Xiaochan said, "I'll tell you later. You're so busy and under so much pressure. You should learn to relax. It would be better if you can find a boy you like. Then your life will be interesting."

Luo Xiaobai's lips twitched. "I'm different from you. I'm not interested in romance."

Xia Xiaochan said, "Yes, yes, you're a woman who wants to become infinitely stronger. You want to become a king as soon as possible... It's been ten years. You've accumulated a lot of Power of Will, right? Why are you only an intermediate peak-level Venerable?"

Luo Xiaobai smiled. "Of course it's because I'm cultivating the Purity Mystic Body. After ten years of polishing, I feel that I've reached the limit in the intermediate Venerable realm. As for Kuangkuang and Zhang Xuanyu, what's their current realm with the help of the Star Beads?"

Xia Xiaochan said, "You'll find out later."

...

Thug Academy.

The Thug Academy at this time was no longer the Thug Academy of the past.

Even Wenren Yu and Xiao Zhan had reached the Explorer realm. After all, no one who could enter the Thug Academy was weak.

Although Wenren Yu and Xiao Zhan were not the strongest, as teachers, they were not something ordinary people could compare to. Now, they were leading at least 30 people to cultivate.

These more than 30 people were the best seedlings that Old Bai, Old Jiang, Jiang Chao, and the others had found from the Thousand Star City and the 36 towns.

The Thug Academy on the Scattered Stars Island had become their permanent residence.

When Luo Xiaobai and Xia Xiaochan passed by the training ground, many people exclaimed, "It's Senior Sister Luo."

"Senior Sister Luo is so intimidating now that no one dares to approach her."

"Huh? Who's the one beside Senior Sister Luo?"

Someone immediately patted him on the shoulder. "Idiot, that's Senior Sister Xiaochan! Who else can be so intimate and talk so cheerfully with Senior Sister Luo?"

"Huh? Senior Sister Martial Goddess? Didn't she go into seclusion with Senior Brother Human King? Why is she out today?"

Someone exclaimed, "Senior Sister Xiaochan is out of seclusion. What about Senior Brother Han Fei?"

Someone frowned. "Senior Brother Han Fei? How rude. He's Senior Brother Human King."

Someone secretly said, "Let me tell you, I saw Senior Brother Yu and Senior Brother Kuang today. Do you think today is the day of their gathering?"

Someone suggested, "Should we sneak over and take a look?"

Slap!

As soon as he said so, a slap fell on the student's head.

"Pa! You want to sneak away? Who gave you the courage?"

"Pa! Concentrate on your cultivation. As soon as your senior brothers and sisters appear, your souls are gone!"

The boy covered his head and twisted his body, turning into dozens of afterimages. "Mr. Xiao Zhan, I know I was wrong. I just said that."

Slap!

A fishing line swept across, instantly extinguishing the dozens of afterimages. Then, a palm continued to slap down. "You're still dodging? Can you dodge it?"

...

At this moment, the void suddenly trembled, and a figure walked out of the void.

The visitor smiled. "Hey! Mr. Xiao Zhan, are you in class?"

When Xiao Zhan saw him, he grinned and said, "Just like you guys before, they are always disobedient and like to cause trouble. If I don't teach them a lesson, they won't grow up!"

Seeing the shocked junior brothers and sisters who were full of admiration, Han Fei couldn't help but laugh. "You should respect Mr. Xiao Zhan. He is the teacher of a king."

Xiao Zhan immediately blushed and said, "You're embarrassing me, aren't you? Go away. The two girls just went over."

Han Fei nodded with a smile and said, "Oh! Just now, I went to the cage and got you a Buddha Black Mountain Conch. I left it here!"

With that, Han Fei waved his hand, and the seventy or eighty-meter-long giant conch corpse rolled to the ground, making the ground shake with a bang.

Xiao Zhan curled his lips and said, "I can hunt it myself. Do I need you to do that?"

Han Fei chuckled and disappeared, going to the backyard of the academy.

Xiao Zhan walked to the conch and knocked at it.

Then he waved his hand and put away the black conch.

His heart warmed. This brat must have known that he was about to make a breakthrough, so he specially went to get this thing for him.

This Buddha Black Mountain Conch was a big conch in the Half-Venerable realm.

With his current strength, even if he went with Wenren Yu together, they might not be able to take it down. He probably had to ask Wang Dashuai and the others to help.

“Brat, you’re quite considerate...”

“Teacher Xiao Zhan, can we have a day off today?”

Someone said, and Xiao Zhan immediately frowned. “A day off? Are you out of your mind? The Wall of Death is full of cracks and you still want a vacation?”

The man muttered, “Senior Brother Han Fei even gets a day off occasionally.”

Xiao Zhan immediately scolded jokingly, “When you become a king, I won’t stop you... No, even if you can become a Venerable, I won’t be able to control you. But now, prepare to go to sea with me.”

### **Chapter 1890: Suggestion to Go to the Outside World**

In the backyard of the Thug Academy.

Luo Xiaobai was also surprised to see Zhang Xuanyu and Le Renkuang. “You two are also intermediate peak-level Venerables now?”

Zhang Xuanyu smiled. “Why are you also an intermediate peak-level Venerable?”

Luo Xiaobai immediately understood. It turned out that not only was she trying to reach the limit of every realm, but they were also doing this.

Luo Xiaobai couldn’t help but look at Xia Xiaochan. “Don’t tell me that you were also suppressing your realm, so you were stuck in the Half-King realm for ten years?”

Xia Xiaochan shrugged. “I started it earlier than you guys.”

In fact, Xia Xiaochan really wanted to say that in the past ten years, when her strength was at its lowest, she almost fell to the peak of the Venerable realm.

Old Jiang said, “Little Fatty, come and cook.”

Le Renkuang nodded. “OK, I’m coming.”

Old Bai was holding a handful of peanuts in his hand. While chewing, he said, “We’re traveling. Why did you call us back?”

Xia Xiaochan said, “Let’s wait for Han Fei. He has something to say.”

Zhang Xuanyu smiled. “Why? Did he learn some ultimate move again?”

Suddenly, a voice said leisurely, “I haven’t mastered the ultimate move. Have you?”

Zhang Xuanyu immediately said, “Hey! I’ve fused great techniques and created a self-strengthening rod technique. Let me show you later.”

Han Fei said, “You don’t have to spar with me. My attacks carry the aura of Dao runes. However, if you want to find someone to spar with you, you can find a lot of people.”

Zhang Xuanyu said, "You mean in the cage? Over the years, as many as ten Venerables have died under my hands. If Xiaobai hadn't forcibly forbidden me from entering the cage, I would have killed all of them. Do you believe me?"

Luo Xiaobai immediately said angrily, "The people in the Black Blood City are left for others to gain experience. If you kill them all, where can others find someone to fight?"

Zhang Xuanyu shrugged. "There's nothing I can do! Now, the Yin-Yang World and the Water-Wood World are on good terms. We're friends with the Water-Wood World, the Demon Beast Union, and even the Immortal City. Even the Forest of Terror has submitted to us. Who else can we fight except the Black Blood City?"

Not far away, Le Renkuang was cleaning a big squid. Hearing this, he said, "Yu is right. Except for the Black Blood City, the Venerables in the Yin-Yang World and the Water-Wood World basically have nothing to do."

Han Fei said, "Nonsense, Venerables need to cultivate a lot. Are their disassembling degrees of spiritual energy very high? Have they figured out all the combat skills? How can they have nothing to do..."

Old Bai said, "Han Fei is right. How many Venerables do we have now? In ten years, less than 20 Venerables have been born, and more than 2,000 explorers have been born. That's not enough."

Old Jiang said, "Don't stand there chatting. Come and make dumplings."

They chatted while making dumplings.

Everyone, including Luo Xiaobai, the marshal, and Han Fei, the Human King, was making dumplings.

Han Fei asked, "Where are Nian'er and Yin'er? Why don't I see them?"

Old Bai asked, "Didn't you meet these two when you went to the cage?"

Han Fei: "I..."

Without continuing to discuss this, Han Fei said while making dumplings, "Now, the spiritual energy density in the Yin-Yang World is getting higher and higher. However, there are more and more strong masters. Therefore, the spiritual energy is still not enough. In another ten years, there will be many strong masters, right?"

Luo Xiaobai said, "If the Wall of Death continues to send spiritual energy to the Yin-Yang World, with the current growth rate and the newborn's spiritual heritage foundation, I estimate that there will be 50,000 to 100,000 explorers in the future. The number of Venerables of our human race will probably increase to about 80."

Han Fei asked, "What if someone transcends the king tribulation?"

Buzz!

Everyone stopped what they were doing and looked at Han Fei. "A king-level tribulation?"

Han Fei said, "In the Water-Wood World, Jing'er transcended the tribulation and became a king, so did Bear Handsome from the Demon Beast Union."

Luo Xiaobai and the others knew what Han Fei said.

However, the strong masters of the Yin-Yang World were basically all in the big clans, and the big clans were basically all killed by Han Fei.

Therefore, although there were two more kings in the Water-Wood World, the Yin-Yang World could only watch.

Han Fei said, "Tang Yan is going to transcend the tribulation. He will definitely succeed."

When everyone heard that it was Tang Yan, they all expressed that they understood and didn't seem surprised.

Luo Xiaobai asked, "Then what about Tang Ge?"

Everyone knew that Han Fei and Tang Ge were good brothers.

Over the years, Tang Ge had made rapid progress.

Especially after he found his sword Dao, he even had the strength to cross realms to fight. This was the terrifying thing about sword cultivators.

Han Fei said, "I've talked to Tang Ge about this. He said that he had cultivated the Sword Dao and had severed Tang Yan's memories. From then on, he is him, and Tang Yan is Tang Yan. Therefore, it's not a big problem."

Luo Xiaobai asked, "So, you came out of seclusion this time because Tang Yan is going to transcend the tribulation?"

Han Fei said, "Partly because of this."

Zhang Xuanyu asked, "What about the other part?"

Han Fei smiled. "I want to go out."

"Hiss ~"

Everyone couldn't help but stop what they were doing.

Luo Xiaobai's eyelids twitched. "Will the cage collapse immediately if you go out now?"

Han Fei said, "Xiaobai, our place can't withstand many people transcending the king-level tribulation! This time it's Tang Yan, and next time it will definitely be Cao Tianzhi's turn... As the population is denser, the cultivation speed is faster, and the various races in the cage are cultivating crazily. I'm afraid we won't be able to last a hundred years."

Old Bai said, "Do you mean that you want to take some people out?"

Han Fei nodded slightly. "Yes! Except for us, I'm going to preach to the two worlds and the various races."

"Preach?"

Everyone couldn't help but feel refreshed.

Everyone in the Thug Academy had enjoyed the benefits of Han Fei's preaching, although they would fall asleep as soon as they began to hear it.

However, every time they fell asleep and woke up, they could feel that they had more or less gained some insights.

Among them, the greatest benefit was that after Han Fei preached many times, the disassembling degree of Zhang Xuanyu and the others had all reached 90%.

Han Fei was sure that as long as he preached more, they would eventually gain something.

For example, after hearing the monarch's preaching, his disassembling degree of spiritual energy was directly increased to 100%.

In fact, it wasn't that they didn't know how to disassemble spiritual energy, but that they lacked a person who could disassemble spiritual energy 100% to teach them how to do it better.

Luo Xiaobai was slightly surprised. "Which people will you preach to this time?"

Han Fei pondered for a moment. "All the Venerables in the two worlds."

Luo Xiaobai said, "Too few. A total of 542 people. Why don't you include Half-Venerables?"

Han Fei couldn't help but ask in surprise, "Then how many people will there be?"

Luo Xiaobai said, "It's simple. Just select ten thousand people. I'll finish it in a day."

Han Fei paused for a while. "Okay!"

Old Bai asked in surprise, "Are you taking them all away?"

Han Fei shook his head. "Of course not. Select some of them. We can't just sit still and wait for the cage to break. To put it bluntly, no matter how many explorers there are, it's useless. It's not enough even if we can use a hundred years to create a power comparable to the Heavenly Palaces in the outside world. When the time comes, the Heavenly Palaces in the outside world may join forces to kill us... Perhaps they will successfully take over all the humans in the Water-Wood World and the Yin-Yang World... Of course, they may also slaughter them all."

Everyone's heart sank.

What Han Fei was worried about was the future of the Yin-Yang World.

As Han Fei said, it was indeed time to walk out.

Luo Xiaobai said, "I'll do it! Your prestige in the Water-Wood World is high enough. The people who come for this preaching won't be weak."

Han Fei said, "By the way, give your position as the supreme commander to Xue Shenqi! Old Xue has been managing the Scattered Stars Island for a long time. He won't make any big mistakes. Of course, unless you don't want to go outside."

Luo Xiaobai said, "I want to... Even if I continue to be the supreme commander, I still can't save the entire human race. My path is not here! If we have thousands of years and enough resources, maybe the Yin-Yang World can rise. But we don't have those..."

Luo Xiaobai seemed to be relieved and smiled. No one knew the overall layout of the Yin-Yang World better than her.

The growth of the Yin-Yang World was too fast.

It was like a dry desert, crazily absorbing the moisture of the rain. There were even towering trees snatching water resources.

At this rate, the spiritual energy here couldn't be improved anymore.

Unless more cracks appeared in the cage, but that would inevitably cause the cage to break in advance.

Luo Xiaobai said, "I'm going now."

Xia Xiaochan shouted, "Don't be hasty! Let's set off after dinner, OK?"

Old Jiang snorted. "As for this matter, it's up to Han Fei and Xiaochan. Also, some people have to stay behind to guard the two worlds. Old Bai and I are too old. Even if we can still make a breakthrough, it will be extremely difficult for us to transcend the tribulation and become kings. However, we can still take care of the Scattered Stars Island."

Han Fei nodded slightly. "Tang Yan has to stay too. We can't give him resources and let him become a king for nothing. He has to do something. And we also need someone to keep Cao Tianzhi in check..."

Old Jiang said, "Alright, as a Human King, it's your business to consider these things. Now, let's not talk about this. You can deal with it after dinner."

Han Fei: "..."
