

### Chapter 191 Five Bone Players

While running, Zhang Xuanyu shouted, "Han Fei, didn't we ask you to stall him there?"

Han Fei said angrily, "Stall him? Do you really think I'm capable of that?"

The two dragon bones were heavy enough for Han Fei, and he couldn't move the dragon head at all. What could he do? But maybe he could try the Water-Stirring Seal later.

In a less big cave, Luo Xiaobai shouted, "Disperse... Han Fei, give me a dragon bone."

Han Fei tossed a dragon bone to Luo Xiaobai, and a vine picked it up. Seeing that everybody else had a dragon bone, Han Fei said in relief, "This dude is vulnerable to cold. Let's just hit him with dragon bones instead of any other weapons."

Hardly had he finished when the corpse arrived, but it briefly stopped when he came in as if it had sensed the coldness.

Han Fei shouted, "Let's go and crush him!"

"Scar of War Shadows."

Han Fei led the charge and smashed the corpse with his dragon bone relentlessly.

BAM!

The corpse punched back, and Han Fei was forced to step back quickly.

The other people all changed their expression. Five dragon bones were still enough? Han Fei was still punched back?

Luo Xiaobai roared and whipped the corpse with her vines that had enveloped a dragon bone.

She shouted, "Let's attack together! This corpse only has basic battle instincts. Let's see if we can suppress him together."

Xia Xiaochan said, "That's not exactly what a hunter should do, but I agree with the plan."

Zhang Xuanyu bellowed to summon his courage. "My rod was bent by him. I must let him answer for it!"

Le Renkuang shouted, his lips shivering, "Take him down!"

They pressed forward with the bones of the Blue Sea Wandering Dragon. When the five dragon bones were gathered, their coldness finally extinguished the fire on this expert's body and revealed his true self.

Everybody saw that a crimson stone had been placed where the heart of the corpse was supposed to be.

Zhang Xuanyu shrieked, "Blow the stone out! It must be the source of his power!"

"Supreme Stab!"

Using the dragon bone as a dagger, Xia Xiaochan accelerated and stabbed the corpse in its back. The corpse nearly fell off, but the stone was still stuck inside its body.

“Bind!”

Now that the fire died out, Luo Xiaobai’s vines could finally be applied. They tied the corpse up crazily.

Le Renkuang took out a black glove from his box and put it on, before he reached for the stone.

“Ouch!”

Le Renkuang quickly moved his hand back, and a huge hole had been left in his glove. His hand was full of blisters too.

Le Renkuang trembled and almost shed tears. “We can’t touch it. My hand would’ve been wasted if I hadn’t reacted as quickly.”

Zhang Xuanyu was lost for words. “Then what do we do? We can’t be separated, or fire will surge from him again, which would worsen things again.”

Xia Xiaochan kicked the corpse that had been tied up by vines and said, “If only we could build the dragon bones into a container.”

Everybody looked at Xia Xiaochan.

Luo Xiaobai remarked, “That’s actually a good idea, but none of us is a refiner.”

Seeing the situation, Han Fei interjected, “Actually, I know a thing or two about refining.”

Everyone: “???”

Han Fei smiled awkwardly. “Don’t stare at me like that. But I need a furnace. Do you remember the furnace we saw when we had just come in? I may need to go there.”

Xia Xiaochan looked at him weirdly. “Han Fei, do you have more secrets? It’s time to reveal them all!”

“I really don’t. I taught myself refining because weapons were too expensive for me in the old days.”

Everybody chuckled, unconvinced. A self-taught refiner? Are you implying that you’re the only genius here?

Luo Xiaobai simply said, “You go there now. We’ll keep him here for a while.”

Le Renkuang’s eyes flashed. “Han Fei, I’ve lost a lot of weapons on this trip...”

Han Fei ran off with a bone. Before he left, he noticed that fire was reemerging on the surface of the corpse. He didn’t think that they could resist it for long.

Han Fei certainly did not really go to the furnace. After taking a turn, he looked back to ensure that nobody followed him. Then, he absorbed the dragon bone with his calabash.

The Demon Purification Pot’s speed of refining was remarkable, and Han Fei didn’t think that a container would consume much spiritual energy. But as it turned out, he lost twenty thousand points of spiritual energy, which was two low-quality spiritual stones.

“Ahh! So expensive?”

Han Fei trembled. Twenty thousand points of spiritual energy for a container? The first spiritual weapon that he ever crafted turned out to be a minor container! Then, in order to craft all the blades required in the Million Knife Art, wouldn't he need billions of points of spiritual energy?

“Damn it...”

Only a tiny part of the dragon bone was used, and the rest of the bone was discharged. Han Fei waited a bit before he returned to the cave.

When Han Fei returned, he found that Le Renkuang and his teammates were jumping and knocking the corpse with their dragon bones.

Luo Xiaobai was delighted to see Han Fei. “Did you make it?”

“Pu...”

Han Fei pretended to vomit blood. He said palely, “I was almost killed. This dragon box container drained me and cost me one of my spiritual fruits.”

As he spoke, Han Fei tossed the dragon box container to them.

Nobody suspected him. They didn't know how strong the Blue Sea Wandering Dragon had been exactly, but they knew that it couldn't have been easy for Han Fei to refine its bones.

Luo Xiaobai immediately roared, “Give me the rest of the bone!”

Han Fei threw the leftover to her, and Le Renkuang picked it up. With two dragon bones, Le Renkuang extinguished the fire on the corpse, and Luo Xiaobai seized the chance to stick the container to the corpse's chest.

The crimson stone was sealed, and the corpse crumbled into pieces after the stone was gone.

Everybody looked at each other in shock.

Zhang Xuanyu asked in shock, “It's been killed so easily?”

Xia Xiaochan said, “It was dead in the first place!”

Le Renkuang hurried to throw the container to Han Fei. “Keep it in the Sea Swallowing Seashell. I don't want to hold this.”

Han Fei stored the container and stared at Le Renkuang. “Where were you a moment ago?”

Le Renkuang said innocently, “I was going to ask you the same question. You vanished in the middle of the battle. I was searching for you when I accidentally walked into a cave that was occupied by a mutated hermit crab, which almost killed me.”

Luo Xiaobai said solemnly, “We followed you into the aisle when we couldn't hear you anymore. But we only found Le Renkuang. Where were you?”

Han Fei snorted. "I met a mutated Human-Faced Crab and was caught in illusions the whole time. After I killed it, you were all gone."

Zhang Xuanyu chuckled. "It's great that you're fine. We were truly lucky this time. The bones of the Blue Sea Wandering Dragon are not unusual. Han Fei, you can build a few decent spiritual weapons for each of us later."

"Pu..."

Han Fei kicked Zhang Xuanyu. "You wish! Crafting a small container almost killed me, and you want me to build spiritual weapons for you?"

Zhang Xuanyu quickly dodged him. "I was just kidding..."

Staring at the dragon bones for a long time, Xia Xiaochan said slowly, "I think the tailbone is missing here."

"The tailbone?"

Everybody looked at Xia Xiaochan.

Xia Xiaochan rolled her eyes. "It's a dragon, alright? Dragons have tails. What we're holding right now are the bones of the torso, but where is the tailbone?"

Luo Xiaobai nodded. "That's right. Not just the tailbone, we haven't seen the skull either."

Everybody trembled, and Zhang Xuanyu quickly shook his hand. "Forget it. Let's just leave the skull behind. If one bone of the dragon has created a mutated creature as strong as a Dangling Fisher, what kind of monster would its skull make?". Le Renkuang said, "I agree. We can look for the tailbone, but I'm not interested in the skull. It's too scary."

Han Fei knew that he'd better not tell them that he had already collected the skull. He hurried to change the topic. "Where did you find the body of this expert?"

Xia Xiaochan snorted. "It jumped on us from one of the numerous caves in here. However, since he's already dead, I think we can continue our exploration."

Han Fei said quickly, "Let's take a rest first. Let me tell you, a tail of a dragon is as good as its skull. We can't be more careful."

Xia Xiaochan said, "Well, I've never seen a dragon, and I don't really know what a dragon's skull looks like."

Han Fei thought for a moment and remembered that the dragon head he found had no horns and was quite ugly. He began to wonder if the Blue Sea Wandering Dragon was really a dragon.

A moment later, Zhang Xuanyu asked excitedly, "Can we go now?"

Han Fei said hopefully, "Let's go."

## **Chapter 192 Dragon Terrain**

Considering the route that everybody had just walked, the dragon tail was the only missing part now. After all, Han Fei had collected the dragon head.

The channel was very long this time, and to everyone's surprise, no special creatures attacked them.

Luo Xiaobai frowned. "Don't you find this weird?"

Xia Xiaochan nodded, "Yes, the spiritual energy here is more intense."

Le Renkuang shivered. "It's rather cold."

Han Fei had also been considering why there were so many caves here and why the Fire Cloud Cave was so deep. Then, Han Fei realized something else: why was the dragon head placed in the front? Did the expert arrange the bones of the dragon in the shape of a dragon after it died?

"Huhh! Dragon Terrain?"

Shocked, Han Fei said in a hurry, "Dragon Terrain. Based on the distribution of the dragon bones, we must be walking on a Dragon Terrain."

Everybody was curious. "What's a Dragon Terrain?"

Han Fei said, "You really don't know? The Dragon Terrain is a terrain made in the shape of a dragon. It's perfect to preserve bodies... Damn it, let's move faster!"

Han Fei seemed to have realized something and started rushing.

His teammates didn't quite understand what was going on, but they quickly followed him.

After several thousand meters, an enormous cave bigger than all the previous caves showed up.

However, everybody stopped at the entrance of the cave, not even daring to breathe aloud.

Xia Xiaochan prodded Han Fei and asked, "Why, is someone sitting there?"

Han Fei swallowed and replied, "If my guess is correct, he is the real dragonslayer, and the corpse before wasn't..."

"Hiss..."

Everybody stepped back subconsciously. Was it some kind of joke? The tough guy from before was not the dragonslayer?

However, they all believed Han Fei, because it seemed to be a living person who was in a posture of cultivation at the center of the cave. His face was fair, and his skin and flesh were intact. There was no telling if he was alive. More importantly, he was facing the entrance of the cave.

"Gudu!"

Le Renkuang swallowed and said, "Should we slip away? This guy killed a dragon by pointing at it. I don't think we're as good as a dragon..."

Everybody considered retreating except Han Fei, because the dragon tail was two meters before the expert, and there was a circular pit around the expert that was full of spiritual energy.

Han Fei's heart raced. The spiritual spring was more attractive to him than the dragon tail was. He had practically run out of spiritual energy, and it would take forever if he were to cultivate spiritual energy on his own to become an advanced great fishing master or craft the blades for the Million Knife Art.

However, there were millions of points of spiritual energy in the spring. He would be rich again if he could get it.

Luo Xiaobai whispered, "Look, there's a door on the other side."

Zhang Xuanyu asked, "Could it be an exit?"

Xia Xiaochan said, "It's possible. We're at the end of the cave, so there should be a way out or we would have to return to the furnace."

Le Renkuang asked, "What if it's not an exit behind the door?"

Everybody fell silent, because they would be doomed if they opened the door only to discover that it was not an exit.

Right when everybody was hesitating, an enormous noise burst out, and the cave was shaking with falling rocks.

"Not good. The channel is collapsing."

All five of them looked awful. The earthquake couldn't have happened at a worse timing.

While the cave trembled, the expert at the center of the cave suddenly opened his eyes.

Han Fei screamed, "Let's go! The door is our only way out now!"

Le Renkuang roared, "I told you to stop exploring! Look, we will all end up like dead fish now!"

Luo Xiaobai suggested, "Let's pass through the cave before the expert is fully woken up."

They ran hundreds of meters in the blink of an eye. In the next second, Le Renkuang and Han Fei lifted the door as they did with the first door, and it was easily opened.

Xia Xiaochan and Luo Xiaobai quickly passed the gap that had been opened, followed by Zhang Xuanyu. Then, Le Renkuang blushed and pleaded, "Work harder. I can't squeeze through this."

Han Fei said, "I told you to lose weight, and you wouldn't listen. Now you know how troublesome it is, don't you?"

"Shields!"

Le Renkuang activated his box and summoned multiple shields to support the gate, but he and Han Fei both felt that their back was cold in the next second, as someone was standing right behind him.

Han Fei cursed. "Shoot!"

Zhang Xuanyu shouted on the other side of the door, "Come here!"

Boom...

The stone door collapsed and resulted in a dull noise when it hit the ground. In the meantime, rocks were falling in all directions, blocking not just this door but also the entrance through which Han Fei's team came in.

In the meantime, Le Renkuang was kicked out of the cave through the gap. The force was so powerful that Le Renkuang rolled along the ground.

Le Renkuang's face changed greatly. He ran to the door and roared, "Violent War Body!"

At this point, not just Le Renkuang, everybody was trying to lift the stone door palely.

However, they could only achieve no more than an extra ten centimeters.

His eyes bloodshot, Le Renkuang roared anxiously, "Han Fei, you idiot. Was your head hit by an Iron-Head Fish?"

"Han Fei, say something!"

"Han Fei, make a sound! Don't leave us alone!"

BAM!

An enormous force was blasted at the door, and Le Renkuang was blown several meters away.

Luo Xiaobai's face was pale. "Not good."

Le Renkuang's voice was shivering. He roared with tears, "Let's lift the door! We can do this. We can certainly do this..."

Han Fei's face changed greatly. Holding the dragon bone, he confronted the man who was half a meter away from him with his back against the wall.

"Gudu!"

"Brother, let's just talk nicely. We're both civilized people. Fighting is too demeaning for us, isn't it?"

The man gave no response and simply stared at Han Fei's dragon bone.

Han Fei hurried to extend his dragon bone forward. "Senior, do you want this? I can offer it to you as a gift."

"Pa!"

Han Fei didn't even see how the man attacked, but his dragon bone had been blown away and it stabbed into the wall.

"Hiss! Sweet mother of God!"

"Senior, I'm sure we can work out something by talking!"

Han Fei was sweating hard. He considered whether or not he should attack this man with his Water-Stirring Seal, but if he could hurt this man with the Water-Stirring Seal, wouldn't he be in a terrible situation when the man was infuriated?

Han Fei slightly stepped aside, as it was not pleasant to confront a dragonslayer face to face. More importantly, Han Fei found that the dragonslayer's vigorous face seemed to be decaying.

"Corpses can change?"

Han Fei was lost for words as the treasure hunting had escalated into tomb robbing. He wondered if the man was dead. How old would the man be if he was still alive? He seemed absolutely healthy even when the dragon had rotten into bones.

BAM!

Crack!

Han Fei was slapped away into the spring of spiritual energy.

Han Fei's head was dizzy and his ribs were broken by the slapping. Han Fei was shocked at the enormous power.

Wait, it's not really unimaginably powerful. Has this man not fully recovered yet?

He remembered that the man was heavily wounded and bordering on death on the murals. Thinking about that, he began to wonder if the spiritual spring was the source of his power, and he decided to absorb it. As Han Fei thought about that, half of the spring was gone, and Forge the Universe was full. All six cubic meters in it was filled up by the spiritual spring. Han Fei was immediately shocked. How much spiritual energy was out there?

"Master Calabash, absorb now!"

"Forge the Universe, expand!"

"Little Black, Little White... Nine-Tailed Mantis Shrimp... It's time to have some food!"

The man, on the other hand, stared at Han Fei gravely and walked to him step by step.

Han Fei extended his hand and activated the Demon Purification Pot. "The dragon head is too big. I should make it into blades now."

After that, an enormous dragon head appeared before Han Fei, and the man stopped when it appeared. He seemed enraged.

Immediately, the dragon head was absorbed into the calabash, and Han Fei shouted at the man, "Illusion! It was only an illusion! What you saw was not a dragon head, but that of a serpent..."

### **Chapter 193 Million Knife Art**

At this point, Han Fei saw that the man's skin was darkening quickly and there were spots on his face, indicating that he was aging fast.

Han Fei's eyes glowed. His guess was correct. The man's body never decayed because of the intense spiritual energy here, but he was actually already dead. He was only a moving corpse.

"Hoooooo!"

The moment the dragon head disappeared, the man took action. Seeing his punch, Han Fei hurried to jump aside in shock and he roared.

“Attach.”

“Fuse.”

“Fury.”

“Spiritual Energy Protective Cover.”

“Water-Stirring Seal Technique.”

For a moment, Han Fei’s capabilities were skyrocketing. As an intermediate great fishing master, he was approaching the level of a peak-level great fishing master. In the meantime, a Water-Stirring Seal appeared and smashed the man’s fist.

Boom...

The mountain was shaking and the rocks were falling. Outside of the door, Le Renkuang was quite anxious about the terrifying battle inside.

Luo Xiaobai said calmly, “Zhang Xuanyu, Xiaochan, you find a way out and go to our master.”

Xia Xiaochan looked awful. “How long is that going to take? Han Fei can’t sustain the battle that long.”

Luo Xiaobai said, “Since Han Fei decided to fight him, Han Fei must have other trump cards. Go now. It’s the only way to save him now.”

Zhang Xuanyu rushed to the cave outside with his stick in silence. There had to be a way out on this particularly damp path.

Inside the door...

Han Fei was knocked away in one attack. His spiritual energy protective cover was broken too. Also, the Nine-Tailed Mantis Shrimp was separated from him because of injury.

His state of fusion collapsed too. Little Black and Little White were flung away, probably back to the ocean of spiritual energy.

Han Fei vomited a mouthful of blood himself.

After the punch, the man was aging quickly as if he had grown old by decades in one moment.

Han Fei cast the Divine Healing Technique to himself unhesitatingly, while he jumped to the spiritual spring at a weird angle and murmured, “Please let me in.”

BAM!

Han Fei was punched right in the back. He spewed out blood and felt that he was almost blown up.

“Forge the Universe...”

Han Fei disappeared from this enormous cave in the next movement.

Forge the Universe had been filled by the spiritual spring at this point. Han Fei vomited blood the moment he came in. The mark of the punch spread from his back to his front. There was no telling how many of his ribs were broken.

Damn it. Why can't I come inside instantly?

Han Fei couldn't be more regretful. While it was easy to store lifeless items in Forge the Universe, there would be resistance if he wanted to put living things in, which would take Han Fei more time to deal with.

He was certain that if the guy outside was aware of this, he wouldn't be given a chance to enter Forge the Universe at all.

At this moment, Forge the Universe was expanding not very fast. It hadn't spread out by half a meter yet.

Han Fei imposed the Divine Healing Technique on himself hurriedly. He wasn't healed until more than an hour later. At this moment, Forge the Universe had expanded by around six meters, and the water level of the spiritual spring slightly dropped.

After a moment...

The spiritual energy kept dwindling, and more than ten daggers which cost almost five hundred thousand points of spiritual energy appeared before Han Fei. But Han Fei was still delighted as they were all spiritual weapons.

Han Fei grabbed a dagger randomly and showed its data.

<Name> Blue Sea Wandering Dragon Dagger

<Introduction> Made of the bones of the Blue Sea Wandering Dragon, this blade is extremely cold and can freeze the enemy if it cuts into the enemy's body.

<Quality> Low-quality Spiritual Weapon

<Enchantment> None

<Can be reforged>

<Unrefined>

Note: Because of the restrictions of its materials, it can only be reforged into a low-quality spiritual weapon at best.

Han Fei took a deep breath as it seemed quite awesome. What did enchantment mean? Han Fei wasn't clear. He had never created a spiritual weapon before, and he couldn't have done so without this huge spiritual spring.

Since there was a lot left of the spiritual spring in Forge the Universe, Han Fei decided to go one step further. Since he couldn't defeat the guy outside, he would absorb the corpse's spiritual spring so that he couldn't be replenished.

As it happened, his Spiritual Heritage, which was level four, low-quality, was below the average of his team. Even Zhang Xuanyu had a level-six Spiritual Heritage at this point. It was time that he improved his Spiritual Heritage again.

“Upgrade.”

All of a sudden, Han Fei’s body seemed to have turned into a bottomless hole, and the spiritual spring flooded in.

When Han Fei advanced from a level three Spiritual Heritage to a level four Spiritual Heritage, Han Fei didn’t consume any spiritual energy; the lightning helped him. Now that he was voluntarily seeking a breakthrough, he needed much more than just two hundred thousand points of spiritual energy. At this point, every minor level would take five hundred thousand points of spiritual energy.

After a long time, after Han Fei spent a million points of spiritual energy to improve his Spiritual Heritage to level four, high quality, the mark that suggested he could upgrade was gone.

<Owner> Han Fei

<Level> 26 (Mid-level Grand Fishing Master)

<Spiritual Energy> 122,561 (2,499)

<Spiritual Heritage> Level Four, High Quality

<Spiritual Beast> Twin Yin-Yang Spirit Swallowing Fish (level 23)

Weapon: None

<Main Art> Water Vein Technique, Volume Three of Void Fishing (Spirit-Level, Divine-Quality)

Han Fei grinned in delight after reading his data. He probably couldn’t upgrade his Spiritual Heritage anymore, but his storage of spiritual energy had increased.

When Han Fei opened his eyes, more than forty Blue Sea Wandering Dragon Daggers were floating before him. Even more surprisingly, the spiritual spring that filled up Forge the Universe was now only one meter deep. Of course, it had to do with the expansion of Forge the Universe, which had covered a hundred square meters and was still spreading

Han Fei said, “Stop spreading.”

Han Fei was rather regretful. He thought that the spiritual spring that filled up Forge the Universe could sustain him for a while, but it had been used up after only six hours.

Han Fei calculated the numbers. One million points for my Spiritual Heritage upgrade, two million to forge the spiritual weapons, four hundred thousand to expand Forge the Universe, and plus the spiritual energy absorbed by myself and the Demon Purification Pot...

Han Fei gasped hard. Had he just spent five million points of spiritual energy?

Han Fei was lost for words. Everything had to stop. He didn't need to consume the spiritual spring anymore. He had to find a chance to pack the rest of the spiritual spring. However, he didn't know if the guy outside was drained yet. In order to be safe, Han Fei began to practice the Million Knife Art.

He thought that it would take him at least a year or two to gather enough resources to build an array of blades, but it was much faster than he expected.

Of course, before his practice, he had to make the spiritual weapons acknowledge him as a master first.

Han Fei grabbed a random dagger and cut his palm with it. Though not entirely smoothly, his skin was still easily injured, which immediately taught Han Fei a lesson. He didn't know the toughness of spiritual weapons until just now. Even though his body was quite sturdy, such weapons were still sharp enough to hurt him.

Similar to the Water-Stirring Seal, after the spiritual weapons acknowledged him as a master, he could store them in his body. Han Fei didn't know where they were stored, but he couldn't feel anything uncomfortable.

Very soon, Han Fei stored all the fifty Blue Sea Wandering Dragon Daggers in his body.

Han Fei tried unleashing all the fifty blades, but most of them fell immediately and only a handful of them were sent flying.

Han Fei couldn't have looked more awful. Was this art not only costly but also difficult to grasp?

Four hours later, Han Fei could control ten daggers simultaneously. He decided to take a break as he had hit a bottleneck. He felt that his spiritual power was running out.

"It's time to go out."

In the cave, the young man who lost his target had become middle-aged. His body was shrinking due to the separation of the spiritual spring

"Shua..."

Han Fei appeared where he disappeared previously, and the man three meters away didn't take any action.

"Damn it..."

Han Fei immediately lunged at the spiritual spring

"Come here!"

The remaining part of the spring was instantly gone.

"Hoooooo!"

The man behind chased after him and punched him so hard that the cave was shaking. Han Fei chuckled and ran to the dragon bones that were stabbed into the wall. While drawing out the bones, he also summoned ten Blue Sea Wandering Dragon Daggers.

Hiu! Hiu! Hiu!

The power of the spiritual weapons was demonstrated. Although they were blown away by the man, they still froze his arms. But of course, it was nothing for him as he freed himself easily.

The Blue Sea Wandering Dragon Daggers flew and slashed the man crazily, but they couldn't break the man's defense even though they were spiritual weapons.

While running, Han Fei shouted, "Bro, stop fighting! You're losing your wisdom in this fight!"

"Bro! Let's just each take one step back, alright? I'll go out and you can keep meditating in here!"

### **Chapter 194 Spectacular Show**

If the man could talk, he would've burst into rage. How could I possibly meditate when you have absorbed my spiritual spring?

Han Fei wasn't familiar with the Million Knife Art. Now and then, the daggers were dropping, but their coldness still affected the man, which gave Han Fei some time to look for a way out.

Humph...

The Nine-Tailed Mantis Shrimp was set free.

Han Fei shouted, "Nine-Tailed Mantis Shrimp, dig through those rocks!"

The Nine-Tailed Mantis Shrimp dug in the front, and Han Fei ran fast behind it. Even though the Blue Sea Wandering Dragon Daggers were blocking the man, the man still almost caught up to Han Fei several times.

After half a minute later, when the Nine-Tailed Mantis Shrimp had just broken through a rock, the door was blown away from the outside with an explosion. The Nine-Tailed Mantis Shrimp was blown away and injured too.

Han Fei simply retracted the Nine-Tailed Mantis Shrimp and looked at the door while he ran.

"Han Fei, I knew that you wouldn't die. Come here!"

Le Renkuang shouted with his hands raised high. His eyes were swollen.

Xia Xiaochan also jumped and waved her hands. "Han Fei, get out of the way."

Realizing their intent, Han Fei stepped on a wall and dodged the man's attack. In the meantime, Han Fei took the Blue Sea Wandering Dragon Daggers back and melted them into his body.

At the door, Wenren Yu, Zhang Xuanyu, and Luo Xiaobai were all relieved.

Wenren Yu roared, "Han Fei, get out of the way... Sword Slash!"

As Wenren Yu roared, infinite green leaves appeared out of nowhere, but the seemingly fragile leaves cut the air apart and left countless white marks.

Clang! Clang! Clang!

In the blink of an eye, the man was cut more than a hundred times.

“Hooo000!”

The man punched heavily, unleashing torrents at his enemy.

Wenren Yu sneered. “You want to change your fate when you’re already dead? Who do you think you are?”

Wenren Yu walked forward gracefully. Behind her and below her, thousands of leaves charged out like swords and cut the torrents into pieces, before they stabbed into the man and knocked him back. The man’s skin was slitted, but he didn’t shed any blood.

“Ho00000!”

“You’re too noisy! Sunset Sword Slash!”

Wenren Yu stomped, and a red leaf sword was erected before her, absorbing all the spiritual energy nearby and shaking the mountain.

Hiu! Boom!

To Han Fei’s shock, the man’s chest was torn apart, and his guts were chopped into smithereens.

Han Fei subconsciously scratched his head after witnessing the brutal attack, which heavily wounded the man and made it impossible for him to counterattack. He was amazed by the unbelievable strength of his teacher.

“Glowing sword leaves...”

There were still sword leaves in the man’s body at this point. After Wenren Yu clenched her fists, the sword leaves exploded and caused a huge hole in the man’s chest. The blast forced Han Fei to take multiple steps back.

Seeing that the man had been taken down by Wenren Yu, Zhang Xuanyu and the rest of them hurried to go forward.

“Han Fei, you were good! How did you survive?”

His eyes were bloodshot, Le Renkuang roared at Han Fei, “Han Fei, you really think you’re unparalleled? You were bold enough to kick me out?”

Xia Xiaochan looked at Han Fei weirdly. “How did you survive?”

Luo Xiaobai was puzzled. “Huh? The spiritual spring is gone?”

Han Fei said, “It’s a long story. I’ll explain it to you later. I think this place is collapsing.”

Wenren Yu suddenly said, “He’s not dead yet.”

Shocked, everybody looked at the rocks and saw a hand that was struggling.

Han Fei asked in shock, “What is this thing? It’s not dead after it exploded?”

Wenren Yu answered, "He forged himself into an undying creature, but it didn't succeed. You go first. I'll catch up later."

Luo Xiaobai held Han Fei's hand and pulled him out. Their adventure turned out to be too risky. They thought a treasure in a level-two fishery couldn't be too terrifying, but they were almost killed by what they had met.

A moment later, on the boat above the ocean...

Wenren Yu said on the boat with an awful look on her face, "You're really idiots. You knew that there were dragon bones there, but you were still bold enough to walk to the end... The secret lands of such a level are beyond your abilities, did you know this? If this cave were in a level-three fishery, you could've easily been killed by a dangerous mutated creature in

it."

Luo Xiaobai said in embarrassment, "Master, we know we were wrong."

Han Fei asked, "Master, why are you here?"

Wenren Yu snorted. "Humph! To protect you, of course. I thought you went out to catch exotic creatures, but you didn't return hours later. I looked for you but couldn't find you. If Xiaochan hadn't broken through the soil with her Giant Arowana, I wouldn't have found you, and you would've been dead for sure."

Han Fei smiled awkwardly. "Master, how strong was that man? I couldn't have survived if he had remembered more things than his instincts."

Wenren Yu said casually, "What could a half-dead creature do? The hardness of his body was in the level of a beginner Hidden Fisher."

Then, Wenren Yu stared at Han Fei with obvious confusion, How did Han Fei survive the man's attack?

The other people looked at Han Fei too. They couldn't even resist a Dangling Fisher, much less a Hidden Fisher. While Han Fei's body was sturdy enough to resist a Dangling Fisher, it was still rather miraculous that he survived attacks from a Hidden Fisher...

Han Fei said, "Don't overthink it. Actually, he blew the channel out for a while."

Wenren Yu, however, turned to Han Fei. "Did you find the dragon head?"

Han Fei was going to deny it, but then he realized that he had probably been seen through. He could only nod. "I was lucky enough to find the dragon head. There was also a mutated Dragon Eel."

en

e was

Wenren Yu nodded. "Okay, everybody has their own fortune. If you're unwilling to talk, just keep it to yourself. However, let me know if you're going to explore another secret land next time."

Han Fei said, "Of course we will."

The dragon head was exposed, but Wenren Yu didn't ask further questions. Han Fei was quite relieved, as he couldn't afford any investigations. Besides, the dragon head was incomplete now after fifty Blue Sea Wandering Dragon Daggers were forged out of it. He could be caught in many problems if anybody investigated it.

After the adventure, Han Fei lost his pride. A great fishing master was too weak. All his trump cards were nothing compared to the man's punch, and that was only the physical strength of a Hidden Fisher. Wenren Yu, on the other hand, blew up a Hidden Fisher more than easily, and such an awesome teacher was only from a school in a town.

Han Fei took a deep breath. The Fourth Academy must be more powerful than he thought.

Wenren Yu, however, changed the topic and asked, "I've learned of your study on spiritual beasts, but what's your progress on the study of the true meaning of fishing?"

Le Renkuang murmured, "Master, I really don't understand any true meaning."

Zhang Xuanyu smiled bitterly. "Master, I think the true meaning of fishing is treasure hunting."

Smack!

Wenren Yu slapped Zhang Xuanyu's head with a fishing pole. "Like the treasure hunting today?"

Han Fei actually had the same opinion, but seeing that Zhang Xuanyu was smacked, he immediately shut up.

Xia Xiaochan blinked her eyes. "Master, can you give us a clue? It's too hard for us to understand it on our own!"

Han Fei said, "I agree with her."

Luo Xiaobai didn't say anything, but she also looked at Wenren Yu hopefully.

Wenren Yu heaved a long sigh and shook her head. "There are infinite caves like this in the boundless ocean. You think you've found valuable treasures, but they're not. You've risked your life for some common things. You really think the bones of the Blue Sea Wandering Dragon are good? To be honest, it's more of a serpent than a dragon. Fishing, on the other hand, is the eternal theme on this boundless ocean. Do you think it's not worth it to study it?"

After that, Wenren Yu waved his fishing pole, and the hook darted far away. The spiritual energy on Wenren Yu's hand tied the fishing pole like a thread, and the hook seemed to have been thrown to the horizon.

Wenren Yu said casually, "I didn't cast the hook very far. It's only no more than five hundred kilometers away."

"Wow..."

Everybody was stunned. No more than five hundred kilometers was not very far? Then what about a hundred meters when they were fishing? A child's game?

Wenren Yu bellowed, "A hook can move a hundred kilometers away in all directions within one breath. You need to discover what you want during this breath and pull your pole back."

"Buzz..."

The fishing line glittered and moved back crazily, and something seemed to have been caught.

Han Fei was lost for words. This is truly a spectacular show!

### **Chapter 195 Fishing Practice**

Everyone raised their heads and looked to the horizon, only to see that the fishing line in Wenren Yu's hand was moving back at an unbelievable speed. Dozens of breaths later, a black spot appeared.

When it was closer, everybody saw that it was a Red Spider Crab flying at them. Or rather, it was pulled back by a hook.

Wenren Yu was as casual as before. "You must use the hook as part of your body, like you use your hands and your eyes. Only by doing so can you become a qualified fisher."

Sword leaves appeared before Wenren Yu and they cut the Red Spider Crab when it approached. Then, the spider crab was ruthlessly cut apart, and the blood red thread in it was caught.

Wenren Yu looked at Han Fei. "The thread of the Red Spider Crab is used on your fishing pole. You can repair your fishing pole with this."

In everybody's admiration, Wenren Yu jumped to her own boat and looked at everyone. "Your training is not complete yet. You should focus on fishing skills now. If you find any secret lands later, let the Giant Arowana roar to inform me, unless you think you can defeat everything in them on your own."

In the end, Wenren Yu gazed at them. "Don't aim too far. Fishing is not about how far away you can cast the hook, but about your reflexes and your skills. Start with the easy part!"

Wenren Yu was gone. There was no telling where she was, but everybody knew that she was around.

Luo Xiaobai said, "Let's cast our hooks as far away as possible first."

While other people cast their hooks, Han Fei fixed his fishing line absentmindedly. He believed that he was capable of Wenren Yu's fishing skill. Catching something during movement was exactly what his Hook Kiss or Flash Hook could do. What Wenren Yu did was similar to the Winding Snake Technique, but not even as good as that.

As to catch prey without alarming them, he could use the Water Vein Technique. When the hook was melted into water, it could catch prey escaping their attention. The only thing that really amazed Han Fei was Wenren Yu's speed, which was too high. How could she have cast a hook so far away within a breath? Was it a mysterious technique?

Suddenly, Han Fei's eyes glittered. Was it a fishing skill brought by the fourth level of Void Fishing? Han Fei was not sure, but he thought it was possible that he would be better and better at fishing as Void Fishing was upgraded.

Out of the blue, Han Fei heard a voice.

Le Renkuang secretly spoke to him, "You scared me just now. I would've felt guilty if you had died."

Han Fei whispered back, "You almost sound like you want me to be dead. Rest assured, I'll still be alive when you're dead."

Then, Xia Xiaochan asked, "Where's the spiritual energy inside? I didn't see it after our teacher broke the door."

Han Fei replied, "It was absorbed by that corpse. Didn't you see that he grew from a handsome teenager into a middle-aged man?"

Xia Xiaochan was stunned. Was that really possible? But where could such a pool of spiritual energy have gone to? Did Han Fei take it? Unlikely. He couldn't have packed it away even if all his Sea Swallowing Seashells were full.

Zhang Xuanyu also asked, "Han Fei, have you picked up the Million Knife Art? I just saw your performance, which seemed rather lousy, but it still limited that man. What blades did you use?"

Han Fei was lost for words. "Can you ask something else? They were just regular daggers."

Zhang Xuanyu was obviously not convinced. Luo Xiaobai was the only one who didn't talk to Han Fei, the rest bombarded Han Fei with questions until Han Fei simply replied with silence.

Looking at everybody gloomily, Han Fei declared openly, "Let's start fishing and stop whispering to each other. Don't talk to me until you've become a fisher as excellent as me."

Xia Xiaochan asked, "How excellent are you?"

Zhang Xuanyu said, "I have the same question too. Why don't you catch a spider crab and show it to us?"

Le Renkuang joined them. "You're really not bragging? Just get us one!"

Han Fei examined his fixed fishing line and snorted. "Watch and learn. I'll show you how to cast a thousand meters away within a single breath."

Han Fei's face was slightly red, as he was not as good as his teacher and a thousand meters was his maximal range.

"Hiu!"

The hook was cast out and sank into the water under everybody's eyes, and Han Fei was shaking the fishing pole confidently.

Zhang Xuanyu asked, "Han Fei, are you sure you can do this? It doesn't seem as powerful as our teacher's demonstration."

Han Fei scoffed. "Just keep quiet."

Han Fei could clearly sense the creatures within five meters from his hook in the water, but he couldn't see anything further away.

Suddenly, Han Fei laughed. "I'll catch a Treasure Digging Fish for you!"

Le Renkuang said, "I'm 100% sure that you're bragging."

Han Fei said, "Bragging? I'm most certainly not. Observe..."

In the water, the hook and the fishing line seemed to have melted. Instantly, Han Fei activated Flash Hook and caught a Treasure Digging Fish.

"Come here!"

Han Fei pulled the line back. Within two breaths, the hook broke out of the water with a Treasure Digging Fish on it.

"Hiss!"

Everybody including Luo Xiaobai was dumbfounded. Was it luck, or was Han Fei really so good?

Xia Xiaochan's eyes widened. "How did you do that?"

Le Renkuang was suspicious. "That's just a coincidence. Why don't you catch another one?"

Han Fei became gloomy. "You think I can just create fish? I only caught the Treasure Digging Fish because it happened to be down there!"

Le Renkuang pursued further. "How did you know that it was a Treasure Digging Fish? Do you have second vision like Zhang Xuanyu does?"

Han Fei said, "Concentrate your spiritual power on the fishing pole and sense the picture within several meters from the hook. It's very easy."

Zhang Xuanyu asked in shock, "So, it's still second vision? Wait, I can't have second vision without attaching myself to a fish, and you're telling me that you can be attached to a hook?"

Luo Xiaobai asked, "How can you concentrate your spiritual power on the fishing pole?"

Luo Xiaobai personally trusted Han Fei. After all, however strong Wenren Yu was, she couldn't have predicted what she was catching unless she could see the things in the water.

Wenren Yu herself was quite surprised too. She couldn't believe that Han Fei picked it up so quickly.

Her reaction was similar to Le Renkuang's. It took her more than almost a year to pick up such senses at the beginning, but Han Fei had succeeded after the first attempt?

Xia Xiaochan asked, "Like this?"

Xia Xiaochan seemed to be deep in thought. She cast the hook in a completely different method from Han Fei's, but the fishing line was slipping away just as fast. A moment later, a Yellow-Bone Fish was caught.

The moment the fish appeared, it spewed its gold aura at Xia Xiaochan, only to be slashed into pieces by her easily.

Xia Xiaochan complained, "It didn't work! I could only see a foot in the water. It was not as expansive as several meters at all."

Wenren Yu nearly tripped herself over. Are these two people monsters? Spiritual vision is completely different from vision with eyes, but both of them succeeded after their first attempt?

Of course, the other three people except Han Fei and Xia Xiaochan were all stunned.

Le Renkuang asked, "Well, isn't the spiritual power in your head? How can you release it to the hook?"

Xia Xiaochan said, "You just focus your attention and unleash it like spiritual energy."

Zhang Xuanyu said, "So simple? Let me have a try."

A moment later, Zhang Xuanyu shook the fishing pole in confusion. "It doesn't feel right! I can separate my spiritual power from myself, but why can't I see anything?"

Luo Xiaobai was also trying. "I can't see anything either."

Le Renkuang, on the other hand, had been too baffled by the mysterious spiritual power at this point to utilize it, much less passing it to his hook.

Han Fei simply said, "Just try a few more times. Like Xia Xiaochan said, throw it out like you use your spiritual energy..."

### **Chapter 196 Moon-Watching Eel**

While fishing, Han Fei's team sailed the boat back into the range of the level-two fishery.

The level-two fishery was quite huge and included many weird places. It took Han Fei's team seven days to sail throughout the level-two fishery and record the places that other people were unwilling to visit.

Zhang Xuanyu wrote on his notebook made of fish skin and said, "This place is a coral reef. The water here is 98 meters deep on average. It's said that a special fish named the Moon-Watching Eel lives here. Because of the shallow water, the Moon-Watching Eels are able to absorb the essence of the moon, but such eels are said to be highly poisonous."

Han Fei was reminded of something. According to A Complete Collection of Spiritual Plants in the Infinite Ocean, the Moon-Watching Eel gathered the essence of the moon and transformed it into poison, so Moon Spirit Fruits often grew in their nests. These fruits were not venomous but could resolve poisons. They were often used to make antidote pills. Such fruits were not as effective if taken orally, but they could still increase the body's resistance to poison.

Xia Xiaochan asked curiously, "Is there any treasure here?"

Zhang Xuanyu read his notebook carefully and said, "I don't know, but the Moon-Watching Eels are not really a threat to us although they're highly aggressive and territorial."

Han Fei said, "There are Moon Spirit Fruits in their nests. Such fruits can resist the venom of Little White."

Xia Xiaochan's eyes glittered. "We should catch the fish. I don't like the feeling of being paralyzed."

Xia Xiaochan remembered how she was poisoned in the Blue Sea Arena. At that time, her face was hideously blue.

Luo Xiaobai frowned. "Moon Spirit Fruit? Where did you learn that?"

Han Fei said, "You people don't farm, so of course you don't know. You'll find it in the Encyclopedia of Spiritual Plants."

Le Renkuang immediately shouted, "I saw the book before. There's just too much information in the book for me to read, you've read all of it?"

Han Fei said to himself gloatingly, I don't mean to brag, but I learned the whole book by heart after only a day.

Zhang Xuanyu, however, asked unenthusiastically, "It doesn't sound very appealing. We can buy fruits that can increase our immunity to poison also."

Xia Xiaochan glared at him. "I don't have so much money!"

Luo Xiaobai said, "Let's try catching them up first."

Everybody cast their hooks. After seven days, besides Han Fei and Xia Xiaochan, Zhang Xuanyu was the only one who was getting the hang of the trick, and Luo Xiaobai and Le Renkuang still hadn't picked it up yet. They were only fishing randomly.

Only Han Fei could see clearly what was around his hook. As he retracted his fishing line, an abalone the size of a basin was pulled to the boat by him.

Xia Xiaochan and Luo Xiaobai hurried to step back in displeasure.

Le Renkuang said, "Huh? A Sea-Ear? That's quite rare. But they're not very valuable although they're rare. Also, I'm told that even other fish don't feed on them because they're too ugly."

Xia Xiaochan said in disdain, "It's hideous. I thought you got a Moon-Watching Eel."

Han Fei laughed at them. "What do you know? This fish is very precious. I've never encountered it before. Now that I've got one, I'll cook an abalone meal for you today."

Zhang Xuanyu asked in confusion, "What meal?"

Han Fei said, "Abalone meal. Nothing is as delicious as that."

Le Renkuang immediately leaned close. "More delicious than barbecue?"

Han Fei smiled mysteriously. "That will depend on my culinary skills."

Le Renkuang rubbed his hands delightedly. "I believe in you. Hahaha. I've never had a Sea-Ear before. I'll find out how it tastes today."

Xia Xiaochan said with a sour face, "I won't eat it. It's too ugly."

Luo Xiaobai nodded. "I'll pass too."

Zhang Xuanyu said, "You're all distracted when you're supposed to be training, I'm not like you. I'll definitely be able to see with my mind in ten days."

An hour passed.

The boat was filled with the fragrance from the marinated abalone in the pot, and Han Fei and Le Renkuang were enjoying the meat before the pot.

Han Fei asked, "Are you really not going to try it?"

Xia Xiaochan, Zhang Xuanyu, and Luo Xiaobai were all swallowing. How could something so hideous be so delicious? Xia Xiaochan even wiped her drool.

Le Renkuang said without any hesitation, "I'll eat it for them..."

The fatty picked up a piece of abalone meat and sent it into his mouth. His cheeks were shivering as he chewed the hot, newly-cooked abalone. He seemed so content that other people might've thought that he was high.

"Yummy!"

Le Renkuang shouted with glowing eyes and greasy lips. The rest of them were all drooping.

Zhang Xuanyu put his fishing pole down and said solemnly, "I don't think we should spend all of our time fishing. I'll try this meat too."

Xia Xiaochan, on the other hand, simply sat down before the pot. The fish didn't look as ugly anymore after it was cooked. Besides, it was too delicious for her to refuse.

Luo Xiaobai struggled for a moment and decided to join the crowd.

Only one moment later...

Xia Xiaochan said with a huge smile, "It's delicious, Han Fei. We'll have more of this tonight."

Zhang Xuanyu agreed with her. "I despise those who prioritize training over a good life."

Le Renkuang said quickly, "Hey, don't steal it. It's mine..."

Luo Xiaobai's eyes were flashing as she gazed at Han Fei. Where did this guy learn his culinary skills? Can he turn everything into delicious food?

After they were full, they continued wandering in the area of the coral reefs, not to really catch Moon-Watching Eels but to practice fishing skills.

The fishing skills that came with Han Fei's Void Fishing were far better than other people's techniques. The only shortcoming was that Han Fei could not cast his hook beyond a thousand meters.

Xia Xiaochan, on the other hand, was quite surprising. It was not unusual for someone to pick up spiritual vision after one attempt. But was there such an art in the Heavenly Water Village? Han Fei didn't think so. Besides, he had never seen anyone else with double spiritual beasts. So, Xia Xiaochan's background must be sophisticated.

Zhang Xuanyu was also from another village. His art was obviously not the common True Spirit Fishing Art either. Besides, he could separate his mind from his body, which was something that even Han Fei couldn't do.

As for Luo Xiaobai, she had always been mysterious.

Le Renkuang might seem to be a gourmet, but he had an unusual Madness Spiritual Heritage.

In conclusion, Han Fei found that all of his teammates seemed complicated. Was it a coincidence that he ran into them, or was it luck?

At the sunset on the seventh day, the sky was enshrouded by the afterglow.

On the boat, all the five of them were fishing carefully.

Suddenly, Zhang Xuanyu roared. "Gotcha!"

Then, Zhang Xuanyu shook his hand and soon picked up a Singing Conch.

Everybody looked at him, and Zhang Xuanyu was grinning hard. "I saw it. I knew that I could make it in ten days."

Xia Xiaochan asked curiously, "How far can you see?"

"Well, about half a foot."

Xia Xiaochan was relieved. "Then keep trying! I can see half a meter now."

Zhang Xuanyu: "..."

Luo Xiaobai and Le Renkuang: "..."

Le Renkuang grew anxious and ran to Han Fei. "Help! Why can't I see anything? I've been trying so hard!"

Han Fei extended his hand and pinched Le Renkuang's belly, and Le Renkuang hurried to step back. "Why did you pinch me?"

Han Fei said, "You sensed pain when I pinched you because of neural reflex, or in other words, sense of the spirit. If you don't have spiritual power, it's possible that you couldn't have felt the pain. Just regard the hook as part of your flesh and try again."

Le Renkuang was dumbfounded. "Regard the hook as my flesh?"

Han Fei didn't really know whether what he said was correct, but at least he believed so himself.

"When you focus your mind on something, you will definitely receive responses..."

Han Fei taught his friend a mysterious lesson.

But right after that, Xia Xiaochan said in his head, "Actually, you don't understand what's going on either, do you?"

Han Fei replied, "You can only learn the trick on your own. What I said was only a piece of friendly advice that might be helpful."

Scratching his head, Le Renkuang returned and started thinking. Luo Xiaobai was also trying, deep in thought.

Three moons were in the sky at night, but ever since he learned the Water Vein Technique, Han Fei was no longer worried that other fish would disturb him.

Suddenly, Han Fei's eyes glowed. A Moon-Watching Eel?

### **Chapter 197 Departure**

It was a pleasant surprise. They had fished among the coral reefs for a week but met no Moon-Watching Eels until just now.

The eel was quite huge. Its head was more than a meter long, and its body was thicker than Le Renkuang's thigh. When it inhaled water, the water rippled, and a wave dashed into the Moon-Watching Eel's mouth in the next second.

"Up!"

Han Fei shouted, "Xiaobai, help me tie it up!"

Before anybody realized what was going on, a gigantic fish almost seven meters long had been pulled to the surface by Han Fei.

Zhang Xuanyu said in shock, "A Moon-Watching Eel?"

Dozens of vines dashed to the Moon-Watching Eel and they tied it up, but in the next second, all the vines were withering.

Luo Xiaobai was not scared. When the first batch of vines was broken, a second batch replaced it. In the meantime, paralyzing poison leaked from the vines too, turning the Moon-Watching Eel into a source of poisons.

Zhang Xuanyu shouted, "Cut its head! We'll ignore its meat, but there's an invaluable pearl in its head that can help with the practice of Pupil Spells."

Han Fei was not interested in this pearl but in the spiritual fruit because he was intimidated by poison, which could hurt him despite his body's sturdiness, like how Xia Xiaochan was paralyzed by Su Yebai earlier.

However, Han Fei still listened to Zhang Xuanyu as he lashed out with his two daggers, one at its neck and the other at its head.

In the blink of an eye, the Moon-Watching Eel was executed, and the yellow pearl that dropped was picked up and delivered back by the vines.

Splash!

The body of the Moon-Watching Eel sank into the ocean. Han Fei said, "I'll go down and pick the Moon Spirit Fruit."

Han Fei leaped into the ocean, and dozens of daggers appeared around him, mincing the fish that surrounded him.

Han Fei's destination was the cave of the Moon-Watching Eel. Such creatures did not live in groups, and there wouldn't be other things in their cave.

"Little Black, get the fruit out for me."

A few minutes later...

Han Fei broke out of the water, with a bright yellow fruit the size of a fist in his hand.

Xia Xiaochan asked, "There's only one?"

Han Fei was amused. "Maybe every Moon-Watching Eel only has one fruit."

Han Fei waved his blade quickly and cut the fruit into five pieces.

"Let's split it evenly! It's not the best stuff, but it can help you resist the experts who are good with poisons."

Everybody simply accepted their part of the fruit and ate it.

Luo Xiaobai gave the pearl from the eel to Han Fei, but it was not of any use to Han Fei. He asked casually, "Do any of you need to practice Pupil Spells? I don't need this."

Le Renkuang asked, "Huh? Don't spirit gatherers all practice Pupil Spells?"

Han Fei said, "I've already grasped it. Also, I don't fight with my eyes. This is useless for me."

Everybody else shook their heads too. Nobody here practiced Pupil Spells.

Luo Xiaobai suggested, "You can sell it in the Linglong Tower or exchange it for something you need. Just keep it!"

It was not a treasure for them, but for those in need, especially for those who needed to practice Pupil Spells, the pearl was extremely valuable.

For Han Fei, it was just a minor treasure. While he was fishing, he also looked for unusual creatures along the way. There were already three big shots in the Demon Purification Pot, and he intended to find out, hoping that he could melt them into something that was even more powerful than the Nine-Tailed Mantis Shrimp.

Another half month passed quickly.

Han Fei did encounter some unusual creatures, and he asked everybody else to capture them with him, but all of them escaped by digging holes.

During the half month, they fished exploring almost every part of the level-two fishery. Han Fei fed almost all of the rare fish that he caught to Little Black and the Nine-Tailed Mantis Shrimp.

They came across many people in the fishery. Some of the strangers knew them, and some intended to rob them, but after discovering that there were five people on the boat, the robbers dropped the idea.

There was a three-person group who did try to rob Han Fei's team seeing how young they were. However, before Han Fei took action, the rest of the team had crushed the robbers in the blink of an eye with their contractual spiritual beasts. If Luo Xiaobai hadn't stopped her teammates, the robbers would've ended up in their fish's stomach.

It had been almost a month since Han Fei's team came to the level-two fishery, but Le Renkuang and Luo Xiaobai still hadn't grasped spiritual vision. It seemed that not everybody was talented with such an ability.

There was no telling why Xia Xiaochan succeeded, but Zhang Xuanyu learned the ability because of his magnificent spiritual power and Bloodthirsty Shark that he awakened.

Zhang Xuanyu asked, "Well, I've got a basic understanding of the level-two fishery in the Blue Sea Town. I've marked 38 dangerous places in the past month, and 21 of them have been explored. The other 17 are slightly more dangerous. Are we going to explore them or not?"

Le Renkuang said, "Let's go. I don't want to fish anymore, not without bait. I can only slightly shake my hook with my spiritual power at this moment, and I can't see anything."

Han Fei said, "No objection here. However, can we narrow down our vision? Seventeen places would take a lot of time."

Zhang Xuanyu said with a smile, "I knew you would say that. Of those seventeen places, thirteen are less dangerous, but all the people who explored the other four places are dead."

Xia Xiaochan asked, "What are these places?"

Looking at his notebook, Zhang Xuanyu introduced them, "The Piercing Electricity Zone, famous for the Piercing Electricity Jellyfish there. The Stone Forest, which is said to be occupied by Stone Spirit Crabs which live in stones and store spiritual energy in their nests. So, the stones there are perfect weapon materials, but few people have ever really excavated them."

Browsing through his notebook, Zhang Xuanyu continued, "The other two places are more famous. One of them is the Deep-Sea Jungle, which is covered by trees that can tie you up while you're diving. It's said that nobody ever survived them. The other place is the Fiery Mountain. According to the records, no great fishing masters have ever returned from there alive."

Han Fei was shocked. "Fiery Mountain?"

Luo Xiaobai said, "It's a congregation of fiery corals. They're very weird."

Han Fei was greatly relieved to know that it was corals. He was wondering why there was a mountain in the ocean.

Xia Xiaochan asked, "So, which of the four places is the least dangerous?"

Zhang Xuanyu closed his notebook. "The Piercing Electricity Zone. Our odds of survival are highest there."

Le Renkuang said, "Don't mistake us for great fishing masters! Do you think we're really capable of that? If not, I think we can just go to the thirteen less dangerous places!"

Zhang Xuanyu said, "I think we can try the Piercing Electricity Zone."

Han Fei agreed with him. "Let's go to the Piercing Electricity Zone. Only dangerous places have treasures. The places frequented by other people have nothing but leftovers. We must go to places that other people dare not go to."

Xia Xiaochan chuckled and said, "Han Fei, you've forgotten your fair share of pain haven't you?"

Le Renkuang rolled his eyes quickly. "I still think we should go to the other thirteen places."

Zhang Xuanyu snorted. "Those places are boring. They've been visited by other people. Although there might be spiritual fruits left, those fruits won't be very effective for us now."

Luo Xiaobai shook her head. "Spiritual fruits are still important. If we have a spiritual fruit when we make a breakthrough, the odds of success will be increased by at least twenty percent."

Han Fei thought of a solution. "Show of hands. Whoever thinks we should explore the Piercing Electricity Zone, raise your hand."

"Shua... Shua... Shua..."

Everybody except Luo Xiaobai and Le Renkuang raised their hand.

Han Fei said with a smile, "Three to two. The motion is passed. We should gladly face challenges on our path of cultivation. If we're intimidated by a level-two fishery, wouldn't we be too scared to move in a level-three fishery?"

Han Fei and Zhang Xuanyu had a high-five, and Le Renkuang rolled his eyes at them, wondering if they had forgotten what happened in the Fire Cloud Cave.

Xia Xiaochan declared proudly, "Even ordinary fishers go out on the ocean fearlessly every day. Why should we be scared? Let's go!"

Zhang Xuanyu's face lit up. "Let's go!"

Han Fei nodded. "Let's go!"

## **Chapter 198 The Piercing Electricity Zone**

Piercing Electricity Jellyfish were not rare in the level-two fishery, but because of the massive population of jellyfish, some of them had mutated and gained unusual abilities. In ancient times, there were even legendary Piercing Electricity Jellyfish.

In the ocean, jellyfish were like umbrellas and mushrooms. As could be told from their name, Piercing Electricity Jellyfish could unleash electricity.

However, some people argued that Piercing Electricity Jellyfish were cute and playful.

When Han Fei reached the Piercing Electricity Zone, he saw several dead Piercing Electricity Jellyfish in the ocean. Their blue hats were beautiful even if they were dead.

Le Renkuang swallowed hard. "Are we going to dive down?"

Zhang Xuanyu shook his head. "Don't be hasty. This is just the edge. We'll dive when we reach the center."

Le Renkuang was lost for words. "I'm told that the jellyfish are all in groups of thousands or even more."

Zhang Xuanyu said unconcernedly, "What are you scared of? Your Thousand Blade Tortoise can mince them easily. Xiaobai can protect us with her vines too. Xia Xiochan can escape. Han Fei and I are the ones that should be worried here, alright?"

Han Fei clicked his tongue and said, "Don't worry about me. I can control water."

Zhang Xuanyu: "..."

Everybody discussed for a moment before diving into the water.

They sensed something wrong the moment they dived. They had seen fish every time they dove into water, but here, there were few fish. After descending more than ten meters, they saw nothing except a Bony Spur Fish swimming past them unhurriedly and passively.

Staring at the fish as if it were an idiot, the five of them watched the fish pass them and leave.

Luo Xiaobai whispered to them, "Everybody, be careful. We're in a dangerous place. Let's descend prudently."

Everybody nodded and descended for another fifty meters, before they finally saw Piercing Electricity Jellyfish, which had blue hats and white stripes, floating in the water.

There were only a handful of them nearby, so they were not really scary. Han Fei and his team approached them as they had never seen the Piercing Electricity Jellyfish in a level-two fishery before.

Data flashed in Han Fei's eyes.

<Name> Piercing Electricity Jellyfish

<Level> 25

<Quality> Regular

<Spiritual Energy> 250 points

<Effect> It can increase one's resistance to electricity if it's eaten over a long period of time.

<Collectible> None

<Absorbable>

Han Fei showed no response, and Zhang Xuanyu moved to get a closer look at the creature. However, the Piercing Electricity Jellyfish floated at him after spotting the stranger. The long tail behind it was quite beautiful.

In everybody's eyes, the Piercing Electricity Jellyfish swam slowly and passively and even tried to rub Zhang Xuanyu with its head.

Xia Xiochan said, "It's so cute. Can I touch it?"

Luo Xiaobai warned, "Don't..."

Before Luo Xiaobai finished, Xia Xiaochan had been electrified when she laid her hand on the Piercing Electricity Jellyfish. She immediately shivered under the shock.

Xia Xiaochan hurried to step back, but the Piercing Electricity Jellyfish rubbed where she was with its cute little head and, sensing nobody there, it chased after Xia Xiaochan after its eyes flashed.

Xia Xiaochan was shocked. "Go away, you monster!"

Xia Xiaochan ran and the Piercing Electricity Jellyfish chased her. Now and then, electric currents were popping up from it, as if it were playing hide and seek with her.

Han Fei was deep in thought. Jellyfish had eyes, not real eyes but primitive optical organs that were similar to the complex eyes of insects. Such eyes did not have a focus but could sense the change of light.

However, this Piercing Electricity Jellyfish was different from the jellyfish that Han Fei saw in the level-one fishery that it had developed four eyes in its evolution.

Han Fei whispered, "Be careful. The Piercing Electricity Jellyfish has eyes and can locate us with their eyes. Xiaochan, kill it."

Xia Xiaochan was briefly stunned. "Really? It's very cute even though it shocks people."

Han Fei asked, "Do you want thousands of cute Piercing Electricity Jellyfish to play with you?"

Xia Xiaochan trembled. She would probably be electrocuted to death if thousands of jellyfish shocked her simultaneously.

Xia Xiaochan waved her dagger, and the Piercing Electricity Jellyfish was cut into multiple parts before it sank slowly.

Le Renkuang asked in confusion, "Huh? I don't think they're really aggressive, are they?"

Luo Xiaobai whispered, "Yes, they are. But the Piercing Electricity Jellyfish are too slow, so it seems that it was only playing a game with Xiaochan."

Xia Xiaochan was stunned. "Is that so? I thought that it was really playing a game with me..."

They kept diving. When they were eighty meters deep, they saw hundreds of Piercing Electricity Jellyfish, and the deeper they went, the more Piercing Electricity Jellyfish they saw.

Soon, their eyes were blocked by the long tails of the jellyfish. The Piercing Electricity Jellyfish had tails that were almost thirty meters long. Those tails floated in the water, making it impossible for Han's team to see through.

They tried to swim through the shoal of Piercing Electricity Jellyfish, but they sensed something wrong the moment they got in.

Luo Xiaobai's face changed greatly. "Dodge now. All the jellyfish are coming to us."

Zhang Xuanyu said ruthlessly, "Dive down. If we go back, our trip would be for nothing."

While the jellyfish surrounded them, everybody kept descending, but they were more and more scared because there were still more Piercing Electricity Jellyfish down below.

They saw that there were so many jellyfish that their tails were almost entangled. They couldn't help but wonder what would happen if all the jellyfish discharged at the same time.

Crack...

Exactly when that thought occurred to them, the whole area within a hundred meters was plagued by electricity. Luo Xiaobai was fast enough to cover everybody with her vines, but how could vines block electricity in the water?

In a moment, everybody was trembling because of the electric shock.

"Ughhhhhhhh..."

Zhang Xuanyu rolled his eyes beyond his control under the shock while he tried to fight back.

Same as Zhang Xuanyu, Le Renkuang unleashed the Thousand Blade Tortoise while he was being shocked.

As the blades swept out, a tremendous number of Piercing Electricity Jellyfish were cut apart, but the whole area had been electrified, and the electric current was still there even though the Piercing Electricity Jellyfish were dead!

Everybody trembled for a long time. Finally, Zhang Xuanyu coughed out blood and foam, and Luo Xiaobai followed him. Le Renkuang threw up so hard that his eyes were nothing but white.

Han Fei and Xia Xiaochan were fine. Han Fei had been used to electrification. Having experienced the Ninth Heaven Thunder and the electricity of the Dragon Eel, he found that the discharge of all the Piercing Electricity Jellyfish combined was not as threatening as the one shock from the Dragon Eel.

As for Xia Xiaochan, she had been hit by the lightning with Han Fei on the mountaintop earlier. Although Han Fei took most of the lightning, Xia Xiaochan managed to take the rest without being hurt, which suggested that her body was unusual.

At this point, everybody finally understood why no great fishing masters ever returned from this place. They must've been stunned by electricity here, just like Le Renkuang who was foaming and almost passing out!

While shivering, Han Fei performed the Divine Healing Technique, but because of his shivering, he couldn't really cast it. All his friends looked at him gloomily.

Han Fei whispered, "It's... Not... My... Fault. It's... Hard... To... Control... My spiritual energy."

Outside, the Thousand Blade Tortoise was half dizzy because of the electrification, and its attack was not as aggressive as before. Everybody wasn't back to themselves until one minute later.

Han Fei immediately cast the Divine Healing Technique on everybody and shouted, "Let's go! What are you waiting for? Fatty, take your Thousand Blade Tortoise back and use your own armor, or your Thousand Blade Tortoise might be killed!"

Le Renkuang suggested, "Why don't we go back?"

Everybody raised their head, only to see that the Piercing Electricity Jellyfish were all above them, and it was impossible for them to return.

Xia Xiaochan roared, "Run!"

### **Chapter 199 Blue-Hat Jellyfish**

Everybody ran as fast as possible. Without any hesitation, they dove down crazily.

Le Renkuang's Torrents of Knives and Swords even raised turbulence in the water. He unleashed all the weapons in his box, leaving nothing but pieces of the Piercing Electricity Jellyfish on his way.

After only one moment, the whole area was enshrouded by broken pieces of the jellyfish. Transparent meat that looked like jelly was everywhere.

Like a monster of tentacles, Luo Xiaobai swung infinite vines to clear the pieces on the way and the Piercing Electricity Jellyfish that luckily survived the turbulences

The water was deep here. They went all the way down to three hundred meters, but they still couldn't see the bottom.

Three hundred meters was not a big thing even for fishing masters, and certainly not for great fishing masters. However, it should be below the water level in which the Piercing Electricity Jellyfish could live.

At this moment, everybody had passed the jellyfish's territory.

Han Fei said, "Stop. Fatty, stop churning. The Piercing Electricity Jellyfish are gone."

Hearing that, Le Renkuang recalled his weapons, and Luo Xiaobai's vines were gone too.

Then, everybody saw an amazing scene. Infinite jellyfish that looked like yachts were floating above and around them.

The moment he saw those jellyfish, Han Fei remembered a jellyfish that he had seen before, the Portuguese Man O' War, except that the Portuguese Man O' War floated on the surface of the ocean and this jellyfish lived at the bottom of it.

The Portuguese Man O' War was terrifying. There were infinite stings on their tentacles, and those stings carried venom, powerful venom. More importantly, those tentacles were so tensile that ordinary people couldn't break free if they were tied up.

The jellyfish that Han Fei was seeing were even more unbelievable than the Portuguese Man O' War. They had infinitely long tentacles that were full of hooks.

Data popped up again in Han Fei's eyes. <Name> Blue-Hat Jellyfish

<Introduction> The Blue-Hat Jellyfish carried airbags that contained poisonous gas. When the airbags explode, the gas will be resolved in the water. Cannot be killed easily.

<Level> 27

<Quality> Rare

<Spiritual Energy> 640 Points <Effect> Inedible <Collectible> Beard of the Blue-Hat Jellyfish, which can be used to weave low-level fishing nets.

<Absorbable>

Han Fei raised his eyebrow at the abundant information. Explosion? Rare? Fishing net?

Han Fei looked around and saw a hundred Blue-Hat Jellyfish and still more further away. He had never seen so many rare creatures at once. Didn't all rare creatures live independently?

However, Han Fei didn't have the time to think. He simply said, "Xiaobai, don't let their tentacles reach us. Fatty, don't mince them. Their airbags are weird. We'd better keep descending and avoid them."

Xia Xiaochan said, "They're extending their tentacles to us."

Luo Xiaobai hurried to block the tentacles with her vines, stopping the tentacles from approaching them. Suddenly, Luo Xiaobai exclaimed in shock, "Their tentacles are poisonous."

Xia Xiaochan cut the tentacles with her Shadowless Blade. Everybody heard cracks. Though the tentacles were cut apart, they were still shocked at the tentacles' hardness.

Not good.

Suddenly, Le Renkuang pointed down. "Look over there."

Everybody looked down, only to see a web made of countless tentacles. They were of different layers but woven together like infrared rays.

Luo Xiaobai said solemnly, "This must be the real danger. The electric current of the Piercing Electricity Jellyfish can kill a common great fishing master, but those Blue-Hat Jellyfish can tie anyone up easily until they die."

Le Renkuang asked, "Should I try to cut the tentacles apart?"

Zhang Xuanyu said, "You can have a try."

Han Fei hurried to stop him, "Wait!" Everybody looked at Han Fei, but Han Fei darted out a Blue Sea Wandering Dragon Dagger through the hat of a Blue-hat Jellyfish. BAM!

After an explosion, airwaves spread out at the bottom of the ocean, but to everyone's surprise, the gas in the airbags disappeared after only ascending for several meters. Luo Xiaobai's face changed greatly. "The gas can dissolve in water. We can't kill the jellyfish."

Xia Xiaochan asked, "Then do we just watch them surround us?"

Le Renkuang said, "Let's kill them. We just had the Moon Spirit Fruit."

Luo Xiaobai said, "Don't forget that we each only had one fifth of a Moon Spirit Fruit."

Han Fei considered for a moment and took out a few fruits. "You can each have one of these Exotic Poisonous Fruits, but I don't know if they can resist the poison of the Blue-Hat Jellyfish." Xia Xiaochan asked in surprise, "Is this the spiritual fruit that detoxified me last time?"

Han Fei nodded. "They're Exotic Poisonous Fruits. They can resist mortal-level poisons. I don't know how strong the Blue-Hat Jellyfish are, but let's be careful. If the area is enshrouded by their poison and we can't resist the poison, we'll be screwed."

Suddenly, Luo Xiaobai whispered to everyone. "Let me do it. Han Fei, give me spiritual energy."

"Deep blue, vine explosion."

Out of nowhere, an enormous flower appeared below Luo Xiaobai, and thousands of vines spread out into the gaps of the net of tentacles down below.

Han Fei simply poured his spiritual energy into Luo Xiaobai's body. A moment later, the whole area was almost occupied by vines. Han Fei could barely see anything. "Huala!"

All the vines blossomed from down to top like flowers that were opening their petals, creating a channel that was in the shape of an upside-down piton.

Luo Xiaobai said palely, "Let's go down now."

Xia Xiaochan grabbed Luo Xiaobai and descended with everybody else. On their way, they saw countless tentacles of the Blue-hat Jellyfish that had been torn off. The vines that surrounded them were also turning deep blue quickly. Luo Xiaobai said, "I can't sustain them long. Hurry up."

Bam! Bam! Bam!

Everybody heard explosions from outside of the vines. They were shocked that the jellyfish just detonated themselves after failing to catch their enemy.

The explosions gradually declined. Everybody took a breath in relief. But when they thought that everything was fine, Luo Xiaobai's vines were shredded.

Everybody felt that the channel was illuminated. They all ran crazily in the next second.

Le Renkuang shouted while he ran, "Zhang Xuanyu, didn't you say that this is the least dangerous place? What was that?"

Zhang Xuanyu was running even faster than Le Renkuang. "But it's still a dangerous place! It's only safe compared to other dangerous places."

Luo Xiaobai said, "Wait, there's more than one of them."

Yes, everybody had seen a super huge jellyfish that was probably almost twenty meters long. More importantly, they could see three such jellyfish within their sight.

Han Fei glanced at them, only to be dumbfounded.

<Name> Soul-Attracting Jellyfish

<Introduction> This is a creature that is talented in soul attacks and can be reborn. The Soul Resistance Pearls in them make them ignore regular soul attacks.

<Level> 31

<Quality> Exotic

<Spiritual Energy> 1936

<Effect> Inedible

<Collectible> Soul Resistance Pearls<Absorbable>

On the other side, before Han Fei said anything, Zhang Xuanyu had declared, "Let's find a lone one. This will be my second contractual spiritual beast." Luo Xiaobai said, "We can't dodge the soul attacks from the Soul-Attracting Jellyfish but can only take their attacks the hard way. We have to get out of here first."

Xia Xiaochan replied, "I'm in stealth. You can run now."

Le Renkuang was almost weeping. "Why are there so many Soul-Attracting Jellyfish? My spiritual power is not very high!"

Han Fei asked, "Do you all know that they're Soul-Attracting Jellyfish?"

Zhang Xuanyu said, "Of course. My teacher said during class that Soul-Attracting Jellyfish are legends that are closest to reality. Many have seen them, but none have ever captured them."

Le Renkuang was speechless. "How can you capture them? You will turn into a retard if they attack you and wreck your mind..."

Zhang Xuanyu said, "I'm not scared of them! I can't resist all three of them, but I can defeat one of them. Help me capture one, please. After it becomes my second contractual spiritual beast, I can help you get the Soul Resistance Pearls."

## **Chapter 200 Soul-Attracting Jellyfish**

There was no telling whether or not it was his illusion, but Han Fei discovered that everybody in his team had their own personalities. Luo Xiaobai was slightly cold, but she was mature, reliable, patient, and meticulous as a manipulator.

Xia Xiaochan was mysterious and smart. She hid herself the moment she saw the Soul-Attracting Jellyfish. Han Fei suspected that she intended to kill a Soul-Attracting Jellyfish on her own.

As for Zhang Xuanyu, he was not scared of these jellyfish at all.

Le Renkuang was also a madman when it came to battles.

When they were discussing, they suddenly heard an enormous clap of thunder and their head almost exploded.

Under the hit, Le Renkuang's eyes, ears, nose and mouth were all bleeding. He stopped moving and floated in the water.

Everybody was greatly shocked. Luo Xiaobai bound a vine to Le Renkuang and stuffed him into the vine, where there was air that he could breathe.

Her face changed greatly. "Run!"

But before Luo Xiaobai ran away, she had started trembling in the water while holding his head. She lost her grace and became crazy under the soul attack.

Silently, Zhang Xuanyu began to escape with Luo Xiaobai in one hand and the vine that stored Le Renkuang in the other hand. He also asked Han Fei to run.

Han Fei had experienced mental attacks before. Back in the Thug Academy, Zhang Xuanyu had taught him a lesson. However, Zhang Xuanyu's soul attacks could only briefly pause him and slightly sting his head. Han Fei never felt that such attacks were good until this moment.

Han Fei felt that an invisible tide was raging in his head. His head seemed to be falling apart during the moment. The pain was excruciating.

It was not until seconds later that the agony finally began to dwindle.

"Damn it... The attacks of the Soul-Attracting Jellyfish are this powerful?"

Han Fei discovered, to his surprise, that he weathered through the attacks. Before he was able to think, a hand had pulled him away.

Xia Xiaochan said half invisibly, "Huh? You can resist the spiritual attacks of the Soul-Attracting Jellyfish?"

Han Fei was briefly stunned. "Aren't they soul attacks?"

Xia Xiaochan said, "That means the same thing. Only those with high spiritual power can resist it. Xiaobai can deal with it as a manipulator, but the fatty can't. I didn't expect that you could resist it too. Are spirit gatherers talented in spiritual power too?"

Han Fei simply lied. "Have you forgotten that I practice the Million Knife Art? I'm not only controlling the knives with spiritual energy."

Xia Xiaochan found Han Fei's explanation reasonable and didn't question him further.

Everybody moved quickly, but after a while, they realized that there were a couple of Soul-Attracting Jellyfish every thousand meters. They never thought that they would see so many unusual creatures at once. Of course, they also understood why few great fishing masters ever returned from here alive.

This place was precarious for those who were not good at dealing with soul or spiritual attacks.

Luo Xiaobai came back to herself. "Stop. Let's find an empty place. Zhang Xuanyu will stand before me while I pull one of them to us."

Xia Xiaochan said, "I'll kill one on my own, while you pull it. Then we'll kill the last of the jellyfish together."

Luo Xiaobai asked, "Are you sure you can deal with it, Xiaochan?" Xia Xiaochan waved her dagger and said, "Of course. It can't find me before I attack it, and it won't stand a chance anymore after I attack it."

Han Fei said, "Xiaochan, it's time to use the Supreme Stab. After all, those Soul-Attracting Jellyfish are all above level thirty."

Xia Xiaochan nodded and suddenly disappeared.

Holding back her discomfort, Luo Xiaobai unleashed her vines towards a Soul-Attracting Jellyfish. In the meantime, Zhang Xuanyu and Han Fei stopped before her to protect her.

Zhang Xuanyu asked, "Han Fei, are you sure you can do this?"

Han Fei glanced at him. "A real man is always ready."

The Soul-Attracting Jellyfish were not very fast. Or rather, most jellyfish were all very slow. It was easy to catch them.

However, the moment the jellyfish was caught, everybody sensed a spiritual blast. Zhang Xuanyu's face suddenly turned red as he summoned the Bloodthirsty Shark and blew out a spiritual wave.

BAM!

The invisible powers collided, and water was surging within a hundred meters. Zhang Xuanyu's face was pale, but he had weathered through the jellyfish's attack.

Seeing that the Soul-Attracting Jellyfish's first attack was over, Han Fei immediately summoned dozens of Blue Sea Wandering Dragon Daggers.

Hiu! Hiu! Hiu!

The daggers penetrated through the Soul-Attracting Jellyfish in the blink of an eye, but to Han Fei's surprise, the jellyfish was absolutely fine despite all the wounds on it. It was like a jelly with many tiny holes, but the jelly was still intact.

"Humph! I don't believe it... You can block a couple of attacks, but can you block hundreds of attacks? Break now!"

While Zhang Xuanyu and Luo Xiaobai watched him in surprise, Han Fei performed the Million Knife Art that he wasn't familiar with for the first time. Though he hadn't fully grasped it yet, it was still rather terrifying when a dozen daggers cut the Soul-Attracting Jellyfish crazily.

Humph...

The spiritual attacks came again, and Zhang Xuanyu took action again coldly.

BAM!

BAM!

After attacking a couple of times, Zhang Xuanyu vomited blood. He had run out of his spiritual energy and was in need of a rest. He hurried to speak to Han Fei, "Kill it and wake up Le Renkuang first. His Thousand Blade Slash will be handy."

Han Fei nodded. This Soul-Attracting Jellyfish was too heavily wounded to be contracted by Zhang Xuanyu. Besides, the situation was still dangerous, and Le Renkuang could help with his range attacks after he woke up.

Since this Soul-Attracting Jellyfish was dying, Han Fei simply charged at it fearlessly and tore it apart, taking out the Soul Resistance Pearl in the jellyfish.

Han Fei threw the pearl to Zhang Xuanyu and said, "I'll go check Xia Xiaochan."

Luo Xiaobai said, "Be careful."

Zhang Xuanyu was exhausted and needed a rest. He didn't stop Han Fei either.

Han Fei swam a thousand meters away, before he summoned Little White and Little Black.

He pointed at a Soul-Attracting Jellyfish not far away and said, "Little Black, bite through it and get me the pearl inside."

Little Black darted out, but when it saw the enormous jellyfish, it wondered whether or not its master had overestimated the capacity of its stomach.

Little Black's body size increased multiple times. Then it opened its mouth and bit the jellyfish.

Then, Han Fei saw an amazing thing. A large piece of the supposedly powerful Soul-Attracting Jellyfish was bitten off like jelly.

Because Little Black was in stealth mode, the Soul-Attracting Jellyfish did not where the enemy was at all and could only attack randomly. As a result, the water nearby was surging

In no more than ten breaths, Little Black returned with the Soul Resistance Pearl and affectionately rubbed Han Fei's arm.

Han Fei took the Soul Resistance Pearl and simply swallowed it.

This Soul-Attracting Jellyfish was probably the most tragic one in history. It didn't understand what was going on at all when Little Black devoured it like jelly.

Seizing the chance, Han Fei swam forward and gathered another two Soul Resistance Pearls soon.

At this point, Little Black was mauling another Soul-Attracting Jellyfish, when Han Fei shouted, "Little Black, don't kill it, just cripple it. I have other purposes for this jellyfish."

When the Soul-Attracting Jellyfish was half dead, Han Fei reached it unhurriedly and smiled at the creature that had just been tortured by its natural enemy.

Immediately, the Soul-Attracting Jellyfish launched a spiritual attack on Han Fei, but Han Fei sensed nothing special except slight discomfort and a minor headache. He couldn't help but feel that the Soul Resistance Pearls were really good stuff. He wondered if he could be stronger if he had a few more of them. Then, Han Fei took out another Soul Resistance Pearl and put it in his mouth. The cool pearl was quickly digested by the spiritual energy in his body.

When the Soul-Attracting Jellyfish attacked him again, Han Fei felt nothing except a quiver.

Han Fei's eyes glowed. "This works. Two pearls are enough for me to resist the spiritual attacks of the Soul-Attracting Jellyfish. They're totally worth it!"

The Soul-Attracting Jellyfish was rather stunned. If it could speak, it would've cursed Han Fei loudly for cheating.

"Come here!"

A calabash appeared in Han Fei's hand and he absorbed the half dead Soul-Attracting Jellyfish, sending it to the company of the Dragon Eel and other creatures in the calabash.
