

GOF 1921

Chapter 1921: I'll Teach You

Han Fei sat cross-legged and cultivated for a full month.

Han Fei had discussed the cultivation methods of the Sea Establishment Realm with the old turtle more than once. However, even the old turtle could only tell him the simplest Sea Establishment Realm knowledge that Han Xuan mentioned.

Obviously, the old turtle was not a smart turtle.

Han Fei had this feeling before.

However, after hearing Han Xuan talk about the origin of power, he was enlightened. It turned out that the Origin Sea... No, the Origin World, could be understood this way.

Han Fei couldn't help but think of Yu Meng's Origin World. When he entered it, it was all mist. The structure and contents of the Origin Sea were much worse than his.

Mad Fourth King's Origin Sea wasn't much better.

As for the Origin Sea of Bei Xuanbing, because of the special situation at that time, he had no time to go there at all. Therefore, he didn't know what it was like.

However, Han Fei had also entered the Origin Seas of the Water Immortal and the Divine Son.

The Origin Sea of the Water Immortal was actually very real.

Besides, what made Han Fei suspicious was that the Water Immortal had almost opened the sky in the past 100,000 years. Could this be related to the many creatures in her origin world? When he first entered, all living beings sacrificed their lives to extend the life of the Water Immortal. However, she had been sleeping for too long. In her origin world, all living beings were already withering. Therefore, the Water Immortal couldn't open the sky?

As for the divine son, there was also nothing in his Origin World. However, the divine son and Xue Fan were fighting with wits and courage in his Origin World. Who knew what the divine son's Origins World was originally like?

However, at this moment, Han Fei had a vague feeling that although Han Xuan hadn't opened the sky, his understanding of the Origin World might be right. After all, cracking this secret and doing this couldn't be regarded as the same thing.

Therefore, it didn't mean that Han Xuan could do it just because he knew it.

However, Han Fei guessed that Han Xuan must be already doing it. Otherwise, he couldn't be confident that he could defeat anyone below the Sky Opening realm.

Han Fei even suspected that with Han Xuan's strength, he might have reached the top of the Sea Establishment Realm in the Raging Sea.

"Oh ~"

Han Fei opened his eyes and was surprised to find that Han Xuan was still there.

Han Fei was lost for words. "Uncle Xuan, have you been here all the time?"

Han Xuan said, "Anyway, I have nothing to do! How is it going? How's the deduction going?"

As Han Xuan said, Han Fei was indeed deducing, wondering if what Han Xuan said was true.

In fact, Han Fei had already done something that conformed to what Han Xuan said to him just now. The massive amount of resources Han Fei snatched from the Medicine King World, except for the part that fed the little vine, were all used to create the Origin World.

Han Fei hadn't opened the Origin World that Han Xuan mentioned, so it could be called the Origin Sea.

Han Fei said, "Uncle Xuan, the so-called sky opening should be to open a sky in the Origin Sea, right?"

Han Xuan nodded slightly. "Yes, that's what sky opening means. However, the sky that opened is not necessarily the same. Everyone's Origin World is different. As long as it's compatible with the natural Heavenly Dao, it's fine."

Han Fei asked, "Uncle Xuan, how long before you can open the sky?"

Han Xuan shrugged slightly. "It's easy to say, but it's not easy to do. Although I've told you so much, if you want to open the sky, you need the Origin World to have the power to open the sky. In other words, the body I emphasize has to be able to withstand it. Otherwise, I'm afraid you won't be able to survive that tribulation."

Han Fei's heart did a flip. So, what Han Xuan actually lacked was a body-refining technique, right? If he gave him the Purity Mystic Body, did it mean that it would be easier for him to open the sky?

Han Fei thought to himself, The insights Han Xuan taught me can be said to be better than a hundred or even a thousand years of cultivation. How many kings can't comprehend it even after cultivating for a hundred thousand years? And what Han Xuan lacks is actually just a technique, a chance.

With Han Xuan's talent, it was probably not difficult for him to become an emperor. What was difficult was only some hard conditions, such as physique. And physique cultivation couldn't be done without powerful techniques.

Han Fei thought for a moment and decided to wait and see how Luo Xiaobai and company's training went.

Han Fei said, "Thank you for your guidance, Uncle Xuan. I'm really enlightened by you."

Han Xuan smiled and said, "I told you this as soon as you came because I know that your physique is extremely strong. This is a huge advantage. Don't waste this talent."

Han Fei said, "Sure... I've been in seclusion for months. I wonder how their trial is going. Let me take a look."

...

Nine Palace Proving Ground.

The trial field of strength.

Li Kaitian was undergoing a unified trial with a group of Half-Kings of the Nine Palace World.

This trial was simple. Under the extreme gravity, one was required to cleverly use his strength to resist the waves.

In the huge warehouse-shaped building, many people were watching this scene.

A few strength-type powerhouses were in the middle of a tide. The gravity around them was extremely heavy. As long as one of them felt that the gravity was not enough, the gravity would increase. There was a wave under each of them. They couldn't crush this wave, but they had to be able to hit the waves that were coming from all directions.

This test not only tested physique and strength, but also tested agility, strength, and control.

Lu Ran asked, "Li Kaitian, it's been three hours. Are you really okay?"

Xue Ran said, "Brother Li is really abnormally strong! I couldn't even hold on for half an hour. How did he hold on?"

Le Renkuang said, "Unfortunately, this is their match. It's my turn next."

Wang Dashuai said, "Why don't we directly try the intermediate Venerable trial first? My strength has soared recently, and I feel that I might be able to improve further."

Bang! Bang! Bang!

Suddenly, in the warehouse, clouds and mist enshrouded. The waves seemed to have disappeared, replaced by the unpredictable power of the clouds and wind.

At this moment, what was tested was the strength control of the trial-takers. Under the attacks, the Half-Kings of the Nine Palace World who were with Li Kaitian almost fell at the same time.

Li Kaitian's figure seemed to be practicing a fist technique in the field. Every time he gently struck, a terrifying power dissipated in the surroundings. In the end, it was absorbed by the array in the warehouse.

However, this situation only lasted for more than 30 seconds. Then, Li Kaitian was attacked by various invisible forces and then defeated.

"Bah!"

Li Kaitian stretched his body and looked at the Avenger Pirates. "At the last moment of the trial of strength, I don't know where the strength is and how strong it is. I have to judge the precise source and the strength of the power the moment I touch the power. This is a good test. If I pass this trial, I'm afraid I won't have many opponents in head-on battles."

Le Renkuang said, "Brother Li, you'd better take a rest! Let us have a try."

Li Kaitian nodded. "That's good."

On the other side, a Nine Palace Half-King said, "I have to admit that your combat experience is more varied than ours since you cultivate in the outside world all year round. In terms of combat experience, our Nine Palace World is still lacking for the time being."

Someone said, "But we don't have to underestimate ourselves. We have Thousand Opportunities Techniques, which can catch our enemies off guard in battle. It can only be said that we all have our own strengths."

Someone said, "I heard that a few of the Avengers have already reached the 33rd level. I really doubt it... It's only been a month."

Someone replied, "Don't be surprised. That's the princess of the Mermaid Royal Family. Because of her identity, status, and bloodline, she can't be weak."

Buzz!

Suddenly, before everyone realized what was going on, Han Fei quietly appeared beside Le Renkuang.

Le Renkuang: "..."

Le Renkuang asked, "Can you make some noise next time you appear?"

Han Fei asked, "This is quite difficult! How many trials have you taken?"

Le Renkuang shrugged helplessly. "This is the 12th trial."

Han Fei couldn't help but ask in surprise, "Are you so efficient? Have you passed 12 Nine Palace Trials in a row?"

Le Renkuang said, "No! This is the 12th trial, but it doesn't mean that we have completely passed 12 trials. I've only passed six. I'm about to spend some time to pass this trial, and then perhaps I can enter the peak of the Venerable realm."

Han Fei was lost for words. "I see! Then which one of you passed the most trials? What about Yuyu and the others?"

Le Renkuang said, "Yu is in the 23rd trial field. He's good at fighting and has passed 11 trials perfectly. Xiaobai and Xia Xiaochan are together. They are in the 33rd trial field. You can take a look."

"The 33rd?"

Han Fei couldn't help raising his eyebrows. It made sense that Xia Xiaochan could quickly pass so many trials, but so could Luo Xiaobai?

Han Fei glanced at the trial of strength. At this moment, it reached the highest difficulty, and the trial field was surrounded by clouds and mist.

Swish ~

Han Fei quietly appeared in the trial.

Le Renkuang immediately shouted, "Alas! Why did you pick the most difficult one in the first place?"

The Insect King asked, "He is going to take the trial in person?"

In the Nine Palace World, many people exclaimed, "Why is Young Master Han Fei here?"

"If he uses the power of a king, of course this trial of strength can't stop him."

However, the next scene was Han Fei's figure moving horizontally within half a meter.

Han Fei pressed a hand on a patch of mist and said, "The trial of strength is about movement technique and direction. Be observant and alert. Use gentle force to touch and measure the strength, and then shatter it with equal strength. It's not difficult..."

Then Han Fei's wrists, elbows, shoulders, waist, knees, and calves moved gently at the same time and a lot of invisible forces were instantly shattered.

Han Fei's attack seemed to be extremely slow, but too much power was shattered at the same time. Therefore, it felt like his speed was extremely fast.

After half an hour, when the last cloud dissipated, Han Fei said, "As for the trial, practicing is not the key but trying. After trying, you have to comprehend and try again until you pass the trial."

With that, Han Fei stepped out of the trial field and left under everyone's surprised gaze.

In the end, Han Fei said to Le Renkuang via voice transmission, "After passing this trial, try the others one by one. I'll teach you how to pass them. What are you waiting for? Do you think I'm demonstrating for others? I'm showing you."

Chapter 1922: Han Fei Breaks the Array

Leaving the trial field of strength, Han Fei went straight to the 33rd trial field.

This trial field was called the Thousand Opportunities Proving Ground.

As soon as Han Fei came in, he saw that the trial field was already crowded with people. These people were all surprised by Xia Xiaochan's trial-passing speed and came to watch.

So what if the people from the Nine Palace World were smart?

Being smart didn't mean that they were talented.

Xia Xiaochan broke through one trial on average every day... it could be said that the entire Nine Palace World was shocked.

Unfortunately, not everyone could watch such a difficult trial.

Han Fei came in and was surprised to find that the so-called Thousand Opportunities Proving Ground was actually a hidden weapon trial ground! He saw Xia Xiaochan flashing around in the trial ground.

In the void, raindrop-like water threads split and collided.

Water threads, of course, were nothing.

However, when water threads collided, they would refract and produce two or three forces. When the entire arena was full of water threads, even the inventor of the Thousand Opportunities Trial couldn't estimate the trajectory of the water threads.

If the water threads were allowed to collide freely, in the end, unless one didn't train here, he would never be able to break this water thread array.

However, the requirement to pass this level was that one couldn't forcibly break through this level. This made the trial-takers seem to be in a melee. In the melee, they had to be very careful.

Logically speaking, this level of array couldn't stop Xia Xiaochan at all.

However, many of the water threads were not simple water threads.

In fact, they could be completely understood as arrays.

When the water threads interacted with each other, a new array might be born. If the trial-takers destroyed the water threads at this moment, they might be touched by the power erupted by the array.

Once an array was not blocked well, it was easy to trigger a series of chain reactions.

In the end, every water thread could be an array.

At that time, there was almost no need to resist the Thousand Opportunities Trial because there was no chance of escape.

At this moment, Xia Xiaochan's figure moved quickly in the trial field. The two daggers in her hands almost turned into threads of light. In just a short while, Han Fei saw that Xia Xiaochan had broken more than 30 arrays.

Among them, a raging wind array triggered the rhythm of the surrounding water threads, creating hundreds of new water threads.

Xia Xiaochan was fast enough. The moment the water threads failed to activate more arrays, they were shattered, but a small number of them escaped.

This kind of exquisite trial had extremely high requirements for the trial-takers.

In fact, they didn't require much spiritual energy, but the difficulty was extremely high.

Luo Xiaobai watched and memorized.

When Luo Xiaobai found that someone had quietly appeared beside her, she couldn't help but look sideways.

When she saw it was Han Fei, she said solemnly, "I don't think a year is enough. The Nine Palace Trial is indeed very special. This is not as simple as a trial, but to dig out the potential of the trial-takers. If we can cultivate here for ten years..."

Han Fei shook his head. "We don't have so much time."

Luo Xiaobai nodded slightly. "But a year is still too short! Even if everyone goes through these trials and experiences them only once, a year is too short."

Bang! Bang! Bang!

In the array, many water threads around Xia Xiaochan exploded, causing the surrounding water threads to tremble. The arrays exploded one after another, and Xia Xiaochan was forced to quit this trial.

Of course, Xia Xiaochan failed this time. This was not a matter of speed, but how to face so many complicated attacks in the air in an instant.

“Huff!”

As soon as Xia Xiaochan came out, Han Fei heard that everyone was relieved. The Venerables in the Nine Palace World might also be shocked by Xia Xiaochan’s terrifying trial-passing speed.

Therefore, Xia Xiaochan’s failure this time gave them great confidence that their Thousand Opportunities Proving Ground was not bad.

However, as soon as Xia Xiaochan came out, she glared at Han Fei and said, “It’s all your fault for distracting me.”

Han Fei: “...”

However, before Han Fei said anything, Luo Xiaobai said, “This level is very difficult in itself. Xiaochan, you are good at speed and explosive power. If you can maintain your high explosive power, you might be able to pass this level. However, once you fail to pass it when your power is exploding, your speed is basically the same as the speed of array forming. Therefore, it’s only a matter of time before you lose. Either you have to change your combat means or continue to strengthen your explosive power.”

Han Fei asked, “Girl, your Great Dao is not as simple as speed, right?”

Xia Xiaochan said, “Of course, speed is just the foundation of my Great Dao.”

There were too many people here, and Xia Xiaochan didn’t want to talk about her Great Dao. Therefore, she pushed Han Fei and said, “Try it. These 42 trials shouldn’t be a problem for you. Let’s see how you break it through.”

Many onlookers were refreshed. Young Master Han Fei was the captain of the Avenger. He was so strong that he could kill several kings in a row. If he took the trial, it would be a great learning opportunity.

Luo Xiaobai’s eyes lit up too. “Xia Xiaochan’s suggestion is good. If someone can provide a new idea, it might greatly shorten the time.”

Many powerhouses from the Nine Palace World said, “Young Master Han Fei, give it a try! Show us how to break the Thousand Opportunities Array.”

Han Fei smiled and said, “Then let me try.”

Xia Xiaochan’s eyes glittered. “Go. Don’t use the power of the Sea Establishment Realm. Otherwise, I’m afraid even I can’t see clearly.”

Han Fei looked at the array that was resetting. He tapped with one foot and appeared in the field the next moment.

At this moment, knowing that it was Han Fei, someone immediately shouted, "Activate the Thousand Array to its greatest difficulty."

Someone was lost for words. "The greatest difficulty is the difficulty for the princess just now."

Someone sighed. "Alas! The Thousand Opportunities Array is probably too simple for Young Master Han Fei. If only King Xuan could use the Thousand Opportunities Divine Ghost Compass."

When Han Fei walked into the Thousand Opportunities Array, all the arrays were activated. For a moment, dense water threads began to bounce off each other and draw arrays.

Han Fei's eyes lit up.

When he saw the water threads intertwine for the first time, he felt the power of arrays contained in the water threads. After the water threads intertwined three times, an array would be condensed.

In the field, hundreds of thousands of water threads kept appearing and colliding with each other.

This meant that thousands of arrays might be born every moment.

Even Han Fei had to admire the way the arrays were condensed. No wonder it was called Thousand Opportunities. It was truly amazing.

However, in the eyes of everyone, Han Fei didn't attack immediately. He waited until the water threads collided for the third time before he chose to attack.

Someone exclaimed, "Young Master Han Fei, isn't he too confident? At this moment, thousands of arrays are condensing without stopping. Besides, as more water threads appear, more arrays will erupt. How can he break them?"

Someone could still remain calm. "Since Young Master Han Fei made such a choice, he must have a reason. Let's just watch. Maybe he just wants to try what the Thousand Opportunities Trial is like..."

Seeing Han Fei stand still, Xia Xiaochan couldn't help but exclaim, "This state is much more difficult than the one I just saw."

Luo Xiaobai said, "No, it's one level more difficult. Although the difficulty for you just now is already the highest difficulty, he deliberately raised the highest difficulty to another level."

Two knives appeared in Han Fei's hands, and he slightly twisted his body to avoid the so-called water threads.

Han Fei looked at Xia Xiaochan and Luo Xiaobai and said, "The main problem of this level is the continuous condensing of these arrays. As long as you destroy them faster than they condense, you can really break this trial."

Outside, even Han Xuan was watching.

The knife in Han Fei's hand was like a phantom.

The knife light swam slightly on the array that was about to erupt, and the array couldn't be triggered. However, Han Fei's speed of breaking the array was far slower than the speed at which the array condensed.

Han Fei said, "There are actually many ways to break this array. One is speed, but that requires one's speed to reach the extreme. However, if his speed is not that fast, he needs to use other methods to break the array."

Han Fei spun his double knives and attracted most of the water threads in the field.

Swish! Swish! Swish!

Countless water threads intertwined more than once in an instant. In an instant, at least dozens or even hundreds of water threads were entangled.

The more water threads there were, the more difficult the array would be.

But at that moment, Han Fei slashed the void and opened a path for himself. He easily dodged it. The water drops that formed the array instantly collided and were annihilated.

Han Fei smiled. "Change your way of thinking and there are many ways to break the array."

However, the corners of Luo Xiaobai's mouth twitched, and she said helplessly, "It's easier said than done. Few Half-Kings can reach your level of control."

Xia Xiaochan shouted, "What else?"

Hearing Xia Xiaochan's words, Han Fei couldn't help but smile. "The other one is even simpler. It suits you."

Han Fei raised his hand, and a mass of water appeared in his hand. This was not the Infinity Water, but a mass of water. As Han Fei reached out and squeezed it, the mass of water turned into countless water threads.

However, Han Fei didn't control them with the power of his soul. He used these water threads as weapons and controlled them with spiritual energy.

When the water threads intertwined again, Han Fei waved his hand and tens of thousands of water threads flashed out.

Han Fei said, "The power of every water thread is different. This water thread is equivalent to a hidden weapon. Only when three water threads are combined can a hidden weapon be formed. Then just break it before the hidden weapon is formed."

Clank, Clank, Clank ~

Han Fei threw out tens of thousands of water threads. In an instant, they hit the hidden weapons that were about to form an array, and more than half of the water threads on the field were instantly destroyed.

Xia Xiaochan frowned. "You have to completely control the void here to grasp void nodes instantly at such a large scale. It's not easy!"

Han Fei asked, "Try attaching your power to your perception?"

"Hiss ~"

Xia Xiaochan's eyes glittered, and she blurted out, "Just like fishing? Use your perception to attack the moment you confirm the void node."

Luo Xiaobai couldn't help but say, "I see."

The Venerables of the Nine Palace World were all stunned. Han Fei used his perception as a net, used spiritual energy or weapons as a hook, and compared the thousands of water threads to fish.

This simple and violent solution was too simple! However, they didn't think of it and only saw the current difficulty.

Suddenly, a voice sounded leisurely, "It's not that you can't think of it, but that you don't want to. You want to use this Thousand Opportunities Trial to achieve the effect of training yourselves. But Han Fei doesn't need to train himself, so he doesn't have to worry about this."

Who else could it be but Han Xuan?

Everyone came back to their senses and bowed. "Greetings, King Xuan."

Han Xuan waved his hand casually and then looked at Han Fei. "With your current strength and comprehension of the Great Dao, it's too easy for you to pass this trial. How about this? I'll use the Thousand Opportunities Divine Ghost Compass and let's have a battle."

Chapter 1923: Thousand Opportunities Divine Ghost Compass

Han Fei had heard of the Thousand Opportunities Divine Ghost Compass several times, but so far, he had never seen it used.

When he first met Han Xuan, Han Fei felt the power of Han Xuan's sword and saw the strange box in his hand. In fact, Han Fei really wanted to find a king to fight and test how strong he was now.

After all, he killed Yu Meng and the other kings too quickly. That wasn't a dogfight, and it actually couldn't show his true strength.

Now, Han Xuan was said to be able to defeat anyone below the Sky Opening realm.

Han Fei felt that even if he used all his means, he might not be a match for Han Xuan.

Besides, this battle was just to measure his real combat power. He didn't have to use his trump cards. Therefore, this sparring battle seemed quite interesting.

Han Fei said, "That's good. I'd like to see the terrifying power of the Thousand Opportunities Divine Ghost Compass."

Han Fei asked again, "I just don't know where to fight."

Han Xuan smiled. "Fight in the void. If we leave this place a hundred thousand kilometers away, the Nine Palace World won't be affected."

Han Fei nodded. "Great!"

When everyone heard that Han Xuan and Han Fei were going to fight, their eyes lit up. A battle between kings was extremely rare!

Especially in the Nine Palace World, Han Xuan was invincible. Who had ever seen Han Xuan attack personally?

Luo Xiaobai and the others were also shocked.

Han Xuan didn't look simple.

After they experienced the Nine Palace Trial, who wouldn't be amazed by the person who invented these trials? His strength and ingenuity were probably unparalleled.

At this moment, Luo Xiaobai and the others were no longer as ignorant as when they had just entered the Venerable realm. In the past few years in the Raging Sea, they had been fighting and hunting day and night. Their vision and knowledge were rapidly increasing, so was their combat strength.

Hearing that Han Fei was going to fight Han Xuan, they couldn't help being curious.

Although Han Fei was strong, in their opinion, Han Fei had no match. Therefore, they couldn't measure Han Fei's strength at all.

But Han Xuan was different. He had ruled the Nine Palace World for tens of thousands of years. No one would believe that he was not strong!

Han Xuan raised his hand, and on the strange square box in his hand, some rectangular cubes protruded and folded from time to time.

Outside the trial field, a thousand-meter-long array broke through the sky, and a huge teleportation array appeared.

Han Xuan's leisurely voice resounded in the sky above the trial field. "Those in the Venerable realm can enter this array. Those below the Venerable realm must not enter in case of accidental injuries."

After that, Han Xuan glanced at some people in the crowd. "You can inform the others to come to watch. A Sea Establishment-level war is extremely rare. Maybe it can provide some insights to others."

In fact, Han Xuan didn't need to say anything. Many people were walking out of the trial fields to see what was going on outside.

Han Fei also looked at Luo Xiaobai and the others. "We have to inform Kuangkuang, Yuyu and the others."

Xia Xiaochan said, "They've come."

Le Renkuang and Zhang Xuanyu followed the others out of the trial field. Seeing that something was wrong here, they soon appeared beside Luo Xiaobai.

Zhang Xuanyu asked in surprise, "What happened?"

Luo Xiaobai said, "There is going to be a sea establishment-level war here. We can watch the battle."

Zhang Xuanyu's eyes heated up. "Really? Good, good... Feifei should have fought such a battle to show us his strength long ago."

Le Renkuang couldn't help but say, "We can finally see how strong Feifei is. It's still a mystery."

Many people nodded when they heard that.

Han Fei's strength had long been a mystery.

Han Fei's annihilation of the Predators was still fresh in their minds.

With a single slash, he broke a big ship and killed dozens of Venerables. The Mad Fourth King didn't even dare to block it.

Buzz—

When Han Xuan and Han Fei entered the teleportation array one after another, the Venerables followed them in.

A moment later.

In the void.

Han Xuan said, "This used to be the place where the Heavenly Palace of the Nine Palace World was located. In the space cracks, its endurance can completely withstand a Sea Establishment realm battle. Just try your best."

As he spoke, the Thousand Opportunities Divine Ghost Compass in Han Xuan's hand was moving as if there were countless mechanisms being activated.

Tens of thousands of kilometers away, a large group of Venerables arrived one after another.

However, some people's perception range was not so large, so they got closer.

Someone shouted, "Don't get too close. When Sea Establishers fight, even the aftershock is not something ordinary people can resist. Stand further away and watch."

Han Xuan and Han Fei provided this opportunity to watch the battle, but not everyone could see it. However, the two of them didn't care about this now.

Han Xuan said, "Han Fei, if you can't hold on, tell me, in case I hurt you."

Han Fei grinned. "Uncle Xuan, I'm afraid you won't hear me say that. Let's begin!"

Han Fei was confident that with his current physique, he was definitely among the top five in the Raging Sea.

Those who could surpass him could only be old guys who had tempered their bodies for tens of thousands of years.

Han Fei estimated that it was more likely that no matter how much time one had, he couldn't build such an abnormal physique. Therefore, he had the ability to shake the kings.

Ka ka ka ~

Han Fei had always been proud of his array skills, but in front of Han Xuan, he was indeed far inferior in array.

All kinds of arrays fell like raindrops. At the same time, hundreds of arrays were born.

However, Han Fei couldn't be distracted, because he found that a thousand kilometers in front of him, there was a chaotic power in the void, which condensed into a huge figure. The figure appeared extremely fast as if it had appeared out of thin air.

Han Xuan said, "Nephew, the giant body you used before is quite extraordinary. See who this is."

When the giant completely appeared, Han Fei was lost for words. Isn't this my sky avatar? How did Han Xuan learn it so quickly?

"No! It's fake. It's just a shape."

Han Fei chuckled. "Uncle Xuan, you should pay more attention to the battle! Don't take this fake and inferior product out."

"Oh? Then try it."

Han Fei's body flashed with golden light. In the next second, a golden light appeared in front of the giant. Han Fei raised his knife, and spiritual energy followed in the air, instantly turning into a thousand-foot-long blade and slashing at the giant.

As for the fake avatar, it extended its hands and pulled out two giant axes from the void. As the axes chopped down, spiritual light flashed, and it seemed to be able to split the world.

Clang!

The shocking power spread out in an instant.

Those who were close, including Luo Xiaobai and Jian Hui, felt a powerful force coming at them. If they didn't have some strength, they probably wouldn't be able to stand steadily.

Han Fei's face changed slightly. His avatar had changed after being simulated by Han Xuan. This power was given to this avatar by Han Xuan.

In a sense, what Han Xuan created was not an avatar, but a combat skill, because he was giving the avatar power.

As for the real sky avatar, it was an independent power that could separate from the original body.

The huge avatar blocked Han Fei's slash, but most of its body was obliterated.

Just as Han Fei was about to punch the avatar again and kill it, with a bang, the avatar shattered and turned into thousands of array lines.

Han Fei felt that his body was suddenly enshrouded by mist. In an instant, eight huge avatars appeared and surrounded him, and sixteen giant axes fell from the sky.

"Illusion?"

Han Fei frowned.

In the blink of an eye, the array lines that constructed the avatar turned into layers of illusions? With this strength, it would be a pity if Han Xuan didn't go to the Dream Weaving World to compete for the position of palace master with Sha Zhimeng.

"Fuse!"

Buzz!

Han Fei was enshrouded in black gas and his aura became indifferent. There was no emotion in his black and white eyes. With a flip of his hand, the Infinity Water that Han Fei hadn't used for a long time seeped out of his body.

However, at this moment, the Infinity Water was no longer used as a weapon by Han Fei, but condensed into lines of arrays. In an instant, it penetrated the mist around him.

Bang! Bang! Bang!

When the mist exploded, before Han Fei could see the situation clearly, Han Xuan said, "You broke it quite fast! However, you gave me too much time."

As soon as Han Xuan said so, the void cracks condensed into a storm and enveloped Han Fei.

Han Fei was slightly surprised. Could this Thousand Opportunities Divine Ghost Compass even simulate a space technique?

Swish!

Han Fei's body flashed with golden light again, and he left the storm.

With a flip of his hand, he slashed out. The void was shattered, and the void cracks were sucked into the endless void. The entire space returned to peace.

Han Fei was outside the void storm.

What awaited Han Fei was sword Qi and saber beams. In addition to these two powers, there were also whip shadows, sound waves, soul attacks, and illusions.

For a moment, Han Fei saw hundreds of attack means, all of which were attacking him.

"F*ck!"

Although Han Fei could continue to run with the golden avatar, he couldn't keep running! This was just a spar. If he kept running, how could he test his strength?

Han Fei smiled. "Uncle Xuan, more attacks doesn't mean stronger!"

Buzz!

Han Fei didn't move but stretched out his hands, letting the terrifying power hit him.

Ding ding ding!

Clang! Clang! Clang!

...

“Hiss! Wow... what a strong physique.”

“How did Young Master Han Fei refine his physique?”

“This is too terrifying! He withstood King Xuan’s attack with his physique alone?”

...

When Han Fei resisted Han Xuan’s countless attacks with his body, Zhang Xuanyu, Luo Xiaobai, and the others were all fascinated.

Zhang Xuanyu said, “That’s too much! Feifei’s body is already so strong that even a king can’t beat him?”

Le Renkuang said, “Feifei shows me how strong the body can be. It seems that in the future, no matter what realm I reach, I have to refine my body first!”

Xia Xiaochan was lost for words. “Do we have to refine our body to his level in cultivation?”

Li Kaitian sighed. “I wonder how the one from the Chaotic World will feel after seeing his physique.”

On the Nine Palace World’s side, a large number of people revealed thoughtful expressions.

Someone said, “Sure enough, in our judgment, body cultivators are the most difficult cultivators to deal with. It can be seen from the battle between King Xuan and Young Master Han Fei! If it were an ordinary king, he wouldn’t have been able to escape King Xuan’s control after being forced to this extent by King Xuan. However, Young Master Han Fei survived with his physique. This battle will be interesting.”

Someone sighed. “Unfortunately, body cultivation has always been the most difficult cultivation system. So far, no one has reached the peak of body refinement. If Young Master Han Fei is willing to share the body refinement technique, the strength of our Nine Palace World will probably improve greatly.”

Someone shook his head. “Don’t think about it. Young Master Han Fei’s path can’t be replicated. Besides, I heard that body refinement is achieved with multiple opportunities and repeated training. Our Nine Palace Trial is missing something.”

Many strong masters of the Nine Palace World fell silent.

In fact, they had always known that no matter how enriched the Nine Palace Trial was, it always lacked real battles.

This was because the powerhouses of the Nine Palace World were all nurtured in the same way. Therefore, their battles were actually similar. Their strength was also relatively evenly matched.

Han Xuan’s method was more like a training method. The soldiers trained were of the same strength.

...

At this moment, tens of thousands of arrays were useless against Han Fei.

Han Fei smiled. “Uncle Xuan, how about something more powerful? Let me see how strong my body is.”

Han Xuan said, "As you wish."

The black box in Han Xuan's hand began to spin slightly. On it, huge cubes protruded and gathered more and more frequently.

It seemed that it was about to explode.

Han Xuan said, "This is the first form of the Thousand Opportunities Divine Ghost Compass. It surrounds the enemy with infinite arrays and finally extracts all available power to forcibly kill the enemy."

As soon as Han Xuan explained, Han Fei saw that countless small arrays were gathering into large arrays.

Han Xuan was not in a hurry. First, dozens of small arrays gathered into a medium-sized array, which was certainly more powerful.

Of course, the power that erupted was still not enough to injure Han Fei.

Han Xuan sighed slightly. Hundreds of arrays gathered again, sucking up the energy and spiritual energy in the void. At this time, the power that erupted had far exceeded the power of ordinary kings.

Clang!

Bang!

When a sword Qi stabbed over, the sword Qi was finally shattered.

Han Fei retreated a hundred meters, and a bloody mark appeared on his chest.

Under this sword, Han Fei sensed the power of the sword Qi and the Dao runes contained in it.

Han Fei immediately understood that such an experiment couldn't test his real foundation. This was because everyone's Great Dao was different, so the result would be different.

For example, some people were strong, but their Great Dao was not good at fighting. It was very likely that they couldn't break his physique.

Another example was that some people were weak, but their Great Dao was good at fighting. It was very likely that they could break his physique.

Han Xuan obviously didn't use his full strength.

After tens of thousands of years of accumulation, Han Xuan might somewhat rely on the Thousand Opportunities Divine Ghost Compass, but he also had his own means. Therefore, Han Xuan's true strength couldn't be denied.

The Thousand Opportunities Divine Ghost Compass was strong, but if Han Xuan wasn't strong, how could he hurt Han Fei?

Han Xuan said, "To be able to withstand my sword, your strength can already be ranked in the top 30 of the Sea Establishment Realm in the Raging Sea. However, it's not enough. The higher the realm is, the greater the gap in strength. Next, I will use the combat power of the top 20 to fight you. Let me show you the second form of the Thousand Opportunities Divine Ghost Compass."

The Thousand Opportunities Divine Ghost Compass in Han Xuan's hand disappeared, and a black battle suit appeared on Han Xuan's body. From head to toe, from his eyes to his fingers, it was wrapped tightly.

Bang!

Han Xuan flew thousands of kilometers away in an instant.

He raised his hand, and a hundred array shadows condensed on his fist, intending to fight Han Fei in close combat.

Han Fei certainly wouldn't refuse. The combat power of the top twenty in the Sea Establishment realm? He hadn't really experienced it yet.

Bang!

Under this blow, Han Fei was blown thousands of kilometers away in an instant, feeling that his arm was almost broken.

"No, I have to use the power of the Great Dao. Otherwise, we aren't on the same level at all."

Han Fei's momentum soared, and his strength soared nearly three times.

As for Han Xuan, he jumped up and threw another punch. This time, Han Fei's strength soared, so he certainly wouldn't be sent flying.

Han Fei stood still, and the void behind him broke again, revealing the connection between the real world and the endless void.

Bang! Bang! Bang!

Han Fei counterattacked with 80% of his strength, which was nearly 400,000 waves.

But when he punched out, Han Xuan opened his hand, and thousands of arrays seemed to have turned into one.

Han Xuan was pushed back a hundred meters by the punch, but he said with a smile, "Remember what I said? Strength doesn't mean everything. Your strength is indeed powerful, but it has been reduced to less than 200,000 waves by me. If you can't break my Great Dao, how can you win with strength?"

Han Fei frowned. In this case, even if he used all his strength, there would only be 250,000 waves left!

He didn't use all his strength, but neither did Han Xuan!

Since he had casually taken his violent blow, he probably didn't unleash at least 50% of his strength.

More importantly, the power of that Thousand Opportunities Divine Ghost Compass was too strong. He could easily create thousands or tens of thousands of arrays.

These arrays were randomly combined and created different powers according to Han Xuan's will.

If Han Xuan mastered enough arrays, he could almost simulate all the array techniques he saw.

Although the simulation was just simulation, he could simulate anything! This was simply crazy.

Bang! Bang! Bang!

Knock, knock, knock!

At this point, the Venerables couldn't see through the strength of the two parties.

They even felt that this was not as exciting as before. However, they didn't expect that the power unleashed by this seemingly boring close combat was several times stronger than before.

After a while, Han Fei shouted, "Uncle Xuan, show me the strength of the top ten, OK?"

Han Xuan smiled and said, "Watch carefully."

Swish!

Han Xuan grabbed an electric arc and hit it out with a spear.

The lightning arcs were so strong that they left thousands of electric arcs in the void. They looked ordinary, but Han Fei was very wary as if facing a great enemy.

Han Fei counterattacked with the Draw Technique.

However, the saber that Han Fei condensed with the Infinity Water was directly shattered. He was pushed back dozens of kilometers in an instant. Han Fei's hand trembled slightly, and the web between his thumb and index finger was torn.

Han Xuan said, "In terms of pure strength, the top ten Sea Establishers might not be comparable to you. However, the power shown through the Great Dao can repel you. This shows that the Dao you walk is more meaningful than your strength. This also shows that the top ten's Origin Seas are not weak. After all, they can produce such powerful strength."

After the lightning spear, Han Xuan's combat form changed again.

Still in that black armor, Han Xuan casually picked up a battle axe that seemed to be condensed from an array... but it didn't seem so.

However, the moment the giant axe was held in Han Xuan's hand, Han Fei felt a violent killing intent.

Han Xuan jumped up, held the axe with both hands, and slashed down. The strength might not have reached 400,000 waves yet.

However, Han Fei knew that if he took this blow head-on, he would be instantly cut in half.

Han Fei immediately activated All Great Daos in One Sword.

Bang!

Rumble! Rumble!

The two of them were instantly thrown tens of thousands of kilometers away.

At the place of the battle, the endless void was blasted out. A huge hole thousands of kilometers long appeared, and the onlookers were dumbfounded.

Gulp!

Xue Ran said, "Damn it! What kind of strength is this to produce such a terrifying power?"

Jian Hui said, "Captain's combat power is probably in the top ten of the Sea Establishment realm. I've only seen my teacher slash out such a huge endless void."

Mushui Sisi: "Really? Jian Hui, don't joke around. That's the power of a sky opener."

Lu Ran: "Yes!"

Jian Hui said, "That's certainly not my teacher's full strength. However, to be able to fight to this point, I'm afraid ordinary Sea Establishers can't resist them. I'm afraid the strength of these two people has entered... the top twenty of the Sea Establishers in the Raging Sea."

"Top twenty?"

Many people looked at each other. Wasn't this the top power in the Raging Sea?

However, Jian Hui didn't know that his estimation was still a little conservative. Their current strength had long reached the top ten of the Sea Establishment realm.

Han Xuan was pushed back and instantly rushed back, so was Han Fei.

The two collided seven or eight times in a row.

Han Xuan said, "This is the third form of the Thousand Opportunities Divine Ghost Compass. Han Fei, do you have any other means? If this sword is already your strongest one... then let's stop here. There are some special combat skills that we don't have to use here..."

Han Fei thought for a moment and nodded slightly. "Then that's it!"

Han Xuan knew that Han Fei still had trump cards. However, trump cards were trump cards and couldn't be used casually. Therefore, as Han Xuan said so, the battle was over.

Han Xuan sighed. Han Fei's physique was really strong, and his strength was really great. With the power of his Great Dao, he could easily crush many Sea Establishers. If Han Fei were to cultivate for another ten thousand years... Oh, no, as long as he cultivated for another thousand years, his strength would probably improve greatly again.

At that time, not only would Han Fei steadily stand in the top ten, but he might also enter the top five.

In the spectator area, everyone saw a battle that was not fancy, but the level of strength was completely beyond imagination. This made everyone feel that Sea Establishers were really too strong!

However, most people didn't know that ordinary Sea Establishers couldn't be so strong.

...

After the sparring, Han Xuan and Han Fei took everyone back to the Nine Palace World. The uncle and nephew immediately went to drink tea.

Han Fei couldn't help but ask, "The Thousand Opportunities Divine Ghost Compass is indeed extraordinary. I want to know, were the armor and the battle axe transformed from the Thousand Opportunities Divine Ghost Compass?"

Han Xuan knew that Han Fei would ask him this question, but he shook his head and said, "Of course not. They are only mid-quality Sea Quelling Bizarre Treasures."

Han Fei was shocked. "Only mid-quality?"

Han Xuan said, "This is the power of the Thousand Opportunities Divine Ghost Compass. It can spread the power of combat skills throughout battle suits and weapons, immediately raising them to ultra-quality or even higher."

Han Fei's eyes flickered. "Uncle Xuan, is it difficult to make this Thousand Opportunities Divine Ghost Compass?"

Han Xuan grinned and said, "Why, do you want it? Hahaha... I won't keep it a secret. I can create another one in 20,000 years. However, you still need to learn and master the basic reserve of a hundred thousand arrays..."

Han Fei: "..."

Chapter 1924: Challenge the Sky Opening Realm

"Twenty thousand years?"

The corner of Han Fei's mouth twitched. It didn't matter if he learned or stored some arrays. Although his current array storage was less than 5,000, Han Fei didn't think it would take him long to learn a hundred thousand arrays.

Anyway, he had the time acceleration!

However, it would take 20,000 years to create a Thousand Opportunities Divine Ghost Compass? Who could wait 20,000 years?

Han Fei immediately shook his head. "Forget it. 20,000 years is too long. I'm only seizing the day."

Han Xuan said, "Young man, don't be so hasty. After all, I haven't reached the Sky Opening Realm yet. Otherwise, it definitely wouldn't take so long. Think about it? You're completely capable of inheriting my mantle."

Han Xuan tried to persuade Han Fei, but how could Han Fei agree?

If it really took twenty thousand years, I would have long reached the Sky Opening Realm.

Just as Han Fei was about to refuse, his heart did a flip. In fact, it didn't seem... impossible!

It might have taken Han Xuan a long time to create the Thousand Opportunities Divine Ghost Compass, but the power of the Thousand Opportunities Divine Ghost Compass was too strong.

With this thing in hand, at least the level of the weapon in his hand immediately soared.

This thing could enhance attack, defense, and speed... Any auxiliary power that could be unleashed by an array could be unleashed by the Thousand Opportunities Divine Ghost Compass.

To put it bluntly, this thing was a great killing weapon.

Having one was like having billions of soldiers. If a Venerable could fully display the power of the Thousand Opportunities Divine Ghost Compass, he might be able to sweep across the cage alone...

However, in the end, this was just an auxiliary weapon, an item fused with arrays.

Since it was a weapon, even if he couldn't make it, what about the Demon Purification Pot?

Now, the fifth vine of the Demon Purification Pot had just returned. Could it refine stronger weapons?

Han Fei couldn't help but wonder, No matter how good I am at refining, it's impossible for me to surpass the Demon Purification Pot in a short period of time!

What if the Demon Purification Pot could refine the Thousand Opportunities Divine Ghost Compass? Then wouldn't he make a fortune?

Han Fei immediately said, "Uncle Xuan, I think we'd better forget it. Besides, I'm still young. It's better for me to refine this Thousand Opportunities Divine Ghost Compass myself. In this way, I can understand the secrets inside, right?"

Han Xuan immediately smiled and said, "Refine it yourself? It's not impossible. Although it may take a longer time, you are still young. Nephew, are you tens of thousands of years old now? Let me see if you can make it in this life."

"Tens of thousands of years old?"

Han Fei couldn't help but look strange, thinking that he was probably hundreds of years old considering the time acceleration.

Han Fei didn't really want to discourage Han Xuan, so he said, "Well... uh! Uncle Xuan, I don't quite remember my age..."

Han Xuan said, "Just give me a rough number!"

Han Fei sighed. "I'm afraid I'm already 500 years old."

"Puff ~"

Han Xuan spat a mouthful of tea on Han Fei's face.

Han Xuan: "???"

Han Xuan exclaimed, "How old?"

Han Fei thought to himself, It seems that I'd better not tell the truth in the future.

Han Xuan was stunned, murmuring, "500 years old? But you're already a Sea Establisher? Aren't you an unparalleled... talent?"

"Gulp ~"

Immediately, Han Xuan rose and pulled Han Fei up. "Come! With your talent, how can you not learn the Nine Palace World's wonderous techniques and arrays..."

Han Fei said, "Uncle Xuan, I think you'd better teach me how to make the Thousand Opportunities Divine Ghost Compass."

Han Xuan said, "Hey! How can you not know the Nine Palace Ten Thousand Array Technique if you want to refine the Thousand Opportunities Divine Ghost Compass? With your talent, you should be able to learn it very quickly."

Han Fei only had time to speak to Luo Xiaobai via voice transmission, "Lead everyone to cultivate first. I need to cultivate in seclusion for a while."

Before Luo Xiaobai could respond, Han Fei had disappeared.

Two years passed.

Han Fei was trapped in a divine tower of the Nine Palace Heavenly Palace.

In this tower, Han Fei seemed to be in a sea of arrays.

Every day, tens of thousands of arrays appeared, which Han Fei all needed to memorize and learn.

In fact, in the first three months, Han Fei had memorized as many as 100,000 arrays. In the following period of time, Han Fei had actually been studying the Dao of arrays.

In Han Xuan's words, if he wanted to refine the Thousand Opportunities Divine Ghost Compass, he had to first know the way to fuse multiple arrays.

Only when he had an epiphany and could use arrays like his ten fingers could he trigger the magical power of the Thousand Opportunities Divine Ghost Compass in an instant.

Han Fei had already fused small-scale arrays and could condense arrays into a line and then connect them. However, arrays were too complicated. There were too many basic arrays! Large arrays were especially difficult to fuse.

After being trapped for two years, Han Fei could at most fuse more than 50 arrays in an instant, far from fusing a hundred arrays in an instant as Han Xuan required, let alone a thousand.

Bang!

On this day, everyone in the Nine Palace World was cultivating and training. Suddenly, they saw a sword reaching the sky above the Heavenly Palace. Many people stopped and looked at it.

Swish!

On the top of the tower, a golden light flashed, and Han Fei had already appeared.

As soon as Han Fei came out, he saw Han Xuan drinking tea.

Han Fei couldn't help but ask, "Uncle Xuan, why are you willing to let me out? If you don't, I'll have to come out myself."

Han Xuan said, "Han Fei, don't be hasty in cultivating this Dao. Combining a hundred arrays is the foundation to operate the Thousand Opportunities Divine Ghost Compass... However, there are some things I need you to know."

"Oh? What is it?"

Han Xuan handed a jade slip to Han Fei, which was like a newspaper, recording all the events in the Raging Sea during the last month.

Han Fei scanned it with his perception, and soon something caught his attention.

The intelligence said that there was a quake in the Wild Abyss, and Bei Luo Chen went there in person but couldn't enter, so he returned.

After Han Fei saw this message, his heart sank. Only a few years had passed, but there was already a turbulence in the Wild Abyss? Then could it hold on until the day the Monarch Palace opened?

Han Fei said solemnly, "Uncle Xuan, it's not that I don't want to, but that I don't have much time. It's only a matter of time for me to fuse a hundred arrays, but my time can't be completely consumed here."

Han Xuan sighed slightly. "Fine! With the foundation of arrays, it's not difficult to learn the Nine Palace Ten Thousand Arrays. The difficulty is in fusing arrays and constructing arrays at will. It's unrealistic to leave you in the Nine Palace World. It's time for you to leave! However, remember what I said. Even if the Yin-Yang World and Water-Wood World are seized by Supreme Clearness and Infinity, so what? As long as you grow strong enough, you can achieve what you want. Don't be hasty... That won't be worth it."

Han Fei nodded slightly. "Thank you for your guidance, Uncle Xuan."

Han Fei scanned the arrays with his perception. "All members of the Avenger, return to your positions."

Han Fei transmitted his voice to everyone.

After two years, when the crew of the Avenger heard Han Fei's voice again, their hearts skipped a beat and they knew that it was time.

Originally, Han Fei said that he would only stay in the Nine Palace World for a year.

How much they could get here depended on them. However, in fact, this time had been extended to about two and a half years.

But even so, everyone still felt that there was not enough time. Even if they had been taking trials day and night, Xia Xiaochan was the only one who passed all 42 trials.

The second most was not the Half-Kings, but Luo Xiaobai.

In the early stages, Luo Xiaobai didn't go to the trials at all, but followed Xia Xiaochan to record and study them one by one. Now, she had completed 31 Nine Palace Trials and was ranked second on the Avenger, even two trials more than Song Kaiyuan.

Swish! Swish! Swish!

When figures appeared under the tower one after another, Han Fei scanned them with his perception and found that half of them had made a breakthrough.

Even Le Renkuang and Luo Xiaobai had entered the peak of the Venerable realm. However, it made sense. They only slowed down because they cultivated the Purity Mystic Body. With enough resources, it was only natural for them to enter the peak of the Venerable realm.

Even if some people didn't make a breakthrough, their basic strength had definitely improved greatly.

Han Fei said, "I've given you enough time. I can tell that you've grown significantly in the past two years. However, this is far from enough."

Le Renkuang mumbled, "The main reason is that all the resources have been used up. Otherwise, our strength will be a level higher."

Han Fei smiled. "Today, we will leave the Nine Palace World. Countless enemies are waiting for us in the Raging Sea. Therefore, we can't stay here for long. Everyone, enter my Origin Sea."

The people Han Fei brought were already extremely strong in terms of perception and strength.

It could be said that they were all the top people in the Water-Wood World, Yin-Yang World, and the cage. If they didn't finish the Nine Palace Trials in more than two years, they probably wouldn't be able to finish it in a short period of time.

A moment later.

When everyone entered the Origin Sea, Yin'er and Nian'er were still outside.

Nian'er was holding Yin'er's hand. "Since we came here together, we should leave together! If you stay here, I won't have anyone to play with."

Yin'er smiled. "Nian'er, I know that you are extremely talented. As long as you are willing, it will only take you a few years to enter the Half-King realm. I don't even find it strange if you transcend the tribulation to reach the Sea Establishment realm. But I am different. Since I know that I can't transcend the tribulation to reach the Sea Establishment realm, I won't be of much use. My brother is outside, so I have to be inside."

Before Nian'er could persuade her, Yin'er said, "Brother! Aren't you going to keep your avatar here?"

Han Fei smiled bitterly and murmured, "If my avatar is left behind, he will probably become the young master of the Nine Palace World. At that time, I'll really have time to study arrays and feel the trials. If I have time in the future, my original body will come back. It'll be a great opportunity for me to comprehend and learn on both sides at the same time."

Han Fei asked, "Yin'er, are you really going to stay?"

Yin'er nodded. "Brother, what Senior Sister Xiaobai and Uncle Xuan said is correct. No matter what, the Yin-Yang World and the Water-Wood World are not the key. You are. I'll stay here with your avatar. At the same time, I need another way to grow."

Han Fei looked at Han Xuan.

Han Xuan smiled. "Don't look at me. Girls have their own thoughts."

Han Fei sighed slightly. "Okay... Nian'er, enter my Origin Sea."

At this moment, Nian'er had grown up into a slender and beautiful girl. She couldn't help but pout.

Han Fei said, "Don't act cute. Hurry up."

"Humph ~"

Nian'er chatted with Yin'er for a while before she reluctantly entered the Origin Sea.

At this time, Han Xuan said, "Han Fei, don't be impulsive when you go out this time. I have something to tell you. I have... news about the Silver Moon World."

...

Half a day later.

On the tower of the Nine Palace World.

Han Xuan and Han Fei's avatar were having a drink, and Han Fei handed over a jade slip. "Uncle Xuan, I wonder if this thing can help you reach the Sky Opening Realm."

"Huh?"

Han Xuan couldn't help being puzzled, but when he scanned it with his perception, the corners of his mouth cracked and he laughed.

"Hahaha..."

"Brat, you didn't tell me about such a divine technique until now. I really want to slap you..."

...

In the Raging Sea, when Han Fei returned to this place again, he didn't immediately release everyone from his Origin Sea.

The Nine Palace World was the greatest opportunity Han Fei had encountered in the Raging Sea except for the Martial Emperor City. However, considering that it was his Heavenly Palace after all, and the one he encountered was his biological uncle, this opportunity was completely based on luck.

Leaving the Nine Palace World, Han Fei flashed with golden light and appeared hundreds of thousands of kilometers away.

He had been in the inner sea for a long time. Now that he had encountered the turbulence in the Wild Abyss, it was time for him to go to the outer sea.

In the past two years, not only had the crew of the Avenger consumed a lot of resources, but even Han Fei's own consumption was an astronomical figure.

Although he had looted the Medicine King World's treasure house and obtained countless treasures and resources, one-third of the resources were used to consolidate his Origin Sea, which was almost turned into a paradise.

Another third of the resources surrounded the Demon Purification Pot, only for the fifth vine of the Demon Purification Pot to swallow energy in order to mature the second divine pill. Although this batch of resources was not consumed quickly, Han Fei wouldn't use them. This was the source of power for his second divine pill.

The remaining one-third of the resources were used to expand his Origin Sea. His Origin Sea was already quite exquisite, with mountains, rivers, lakes, essence of the ground veins, spiritual stone mines, and spiritual heritage. But no matter how exquisite it was, it was only 12,000 kilometers in radius, which was too small.

Since he chatted with Han Xuan last time and learned that the size of the Origin Sea was indeed one of the important sources of Sea Establishment Realm strength, Han Fei had been expanding the Origin Sea for the past two years. Now, with the consumption of a massive amount of resources, the Origin Sea had reached a radius of 30,000 kilometers, but most of the resources in Han Fei's hands had been consumed.

It was not that he didn't rob enough resources from the Medicine King World, nor was it that he didn't rob enough resources, but that the resources were used up too quickly.

Swish ~

Above the boundless sea, if anyone could watch, he would find that every 200,000 kilometers or so, there would be a flash of golden light. The speed was so fast that in a moment, it was millions of kilometers away. It was a miracle of speed.

One day passed.

Near the Wild Abyss, on a big ship of the Fierce Wind Pirates, Han Fei stood alone. In front of Han Fei, an advanced Venerable said in horror, "My lord, what I said is true. The Wild Abyss is indeed trembling, but it's far from enough for anyone to enter it. It's said that Bei Luo Chen personally broke in, but he couldn't pass through the barrier. In the end, he was forced to walk out and return angrily."

Han Fei said leisurely, "Tell me something I don't know! For example, do you know where your captain is?"

The Venerable was horrified. Did Han Fei want to kill his boss? However, at this critical moment, who was willing to die just to cover up his boss' whereabouts?

He said, "My lord, the Wild Abyss has been in turmoil recently. Now everyone knows that there might be a problem here, so everyone who pays attention to this place knows that it's dangerous. It's said that none of the kings of the ten pirate groups came in person this time. They only sent a large ship over, and the number of Venerables who came here is also limited."

Through the soul vibration of this person, Han Fei knew that this person wasn't lying. However, to be honest, the strength he showed was not something ordinary pirate team leaders could compare to.

Although the captains of the pirate teams were also kings, they were not worth mentioning compared to a super powerhouse like Bei Luo Chen. Therefore, except for some people who would definitely go against Han Fei, not many people really paid attention to this place this time.

Han Fei certainly wouldn't go to the center of the Wild Abyss in person, because it was unnecessary. Even if he went there, he wouldn't return. If he encountered an ambush, the other party must be extremely strong. If there was a Sky Opening Realm powerhouse, it wouldn't be easy to deal with.

Sure enough, Han Fei soon found that there was still a big ship from the Infinity World. There were more than 30 Half-Kings on the ship.

"Bait?"

At this moment, there were still people from the Infinity World. They were probably bait, waiting for him to kill his way over so that they could ambush him.

However, Han Fei suddenly grinned. With his bad temper, even if he knew it was a trap, he might still fall for it.

And now, he had learned the Golden Light Movement Technique. Even if there was a Sky Opening Realm powerhouse ambushing him, so what? Could a Sky Opening Realm powerhouse run faster than the Golden Light Movement Technique?

...

On the ship of the Infinity World, a young man stood at the bow.

Behind the man, a subordinate said, "Captain, we've been waiting for almost half a month. Will Han Fei really come?"

The young man shook his head. "It's hard to say. This person is eccentric. It's hard to say if he'll come or not. I hope he'll come to us. If I succeed in catching him, I'll have a bright future."

Someone said, "Captain, in my opinion, the Avenger probably doesn't dare to come. Otherwise, why hasn't he shown up yet?"

The young man sighed slightly. "Whether he comes or not, we can't slack off. Perhaps the patriarch has other arrangements."

All of a sudden, the man felt that the spiritual energy and energy within a thousand kilometers had almost disappeared in an instant. He quickly came back to his senses and saw a void-breaking sword light rushing over. The terrifying sword shadow swept across half of the sea, containing all kinds of Great Dao powers.

The young man hurriedly crushed a jade slip. "Patriarch, Patriarch... He's here. He's here."

Then, the young man shouted, "Come on, activate the ship array."

With that, the young man threw out another jade slip without hesitation. This jade slip shattered in the void and turned into a huge figure.

The figure had white hair. The moment he appeared, his eyes narrowed and he pointed. "Ultimate Black Moon Wheel."

Han Fei's pupils were constricted. A blow of the Sky Opening realm?

“Hmph!”

In the void, Han Fei’s figure appeared, and he shouted, “Old dog Infinity, even if your true body descends, how can you protect the people on this ship?”

Swish!

Han Fei didn’t even look at All Great Daos in One Sword or Bei Luochen’s black wheel. His figure disappeared with a swish, and then with a flash of golden light, he appeared directly on the big ship of the Infinity World.

The moment he landed on the boat, more than 30 of Han Fei’s clones descended. Seeing this scene, the young Half-King couldn’t help being horrified. Why was this person so ferocious? How dare he get on the boat in front of the patriarch?

As Han Fei slashed out, the entire ship was instantly annihilated, and all the Venerables on the ship exploded. No one survived.

Rumble! Rumble!

When Han Fei killed everyone on this ship, a terrifying explosion set off endless waves. At this time, the phantom of Bei Luochen turned around and tried to keep Han Fei.

Han Fei reached out and picked up the Sun-Moon Shells on these people. Then he combined his clones and slapped Bei Luochen.

Bang!

Han Fei’s slap resisted Bei Luochen’s blow for a moment, which made Han Fei smile.

It seemed that Bei Luochen wasn’t that invincible. As a Sky Opening Realm powerhouse, even if it was just a clone that contained a blow of the Great Dao, it wasn’t something he could resist with a single blow. But in fact, he could still resist a little with his strength alone, which meant that Bei Luochen wasn’t invincible. He just took advantage of his higher realm.

Han Fei suddenly pinched his fingers and knew that someone was coming.

At this time, Bei Luochen’s projection was about to dissipate. It was already rare for a projection to release two streams of power to break his All Great Daos in One Sword and fight Han Fei head-on.

At this moment, Han Fei looked sideways. More than 800,000 kilometers away, a figure appeared in the void and disappeared in an instant.

The moment their eyes met, Han Fei sneered in the void. “Old b * stard, I’m here. If you dare to touch my Yin-Yang World, I’ll slaughter your Infinity World. If you dare, let’s have a try.”

With that, Han Fei glowed with golden light and appeared hundreds of thousands of kilometers away.

After a second, a figure broke through the void and arrived. When this person broke through the void, blue light crisscrossed and the void changed, and his figure shook several times before he stabilized. This must be what the old turtle said. In the world, speed had a limit. This old man came too fast.

Bei Luochen looked around but failed to find Han Fei immediately. He had looked around 300,000 kilometers, but Han Fei was nowhere to be seen.

Hearing what Han Fei said, Bei Luochen narrowed his eyes and didn't speak for a long time.

Chapter 1925: I Have A Bold Idea

??

Although the Wild Abyss was turbulent, nothing happened, but Han Fei still came to the Martial Emperor City as soon as possible.

With Han Fei's current speed, it was too fast for him to come and go. As long as he wanted, he could cross the outer domain and the inner domain in a day.

In the Martial Emperor City, Han Fei went straight to the intelligence center, not caring that others would see him. He was here to buy intelligence.

In the inner room of the intelligence center.

Han Fei said, "I want to know about the turbulence in the Wild Abyss this time."

Yan Meng smiled. "That's easy. Three million ultra-quality spiritual stones."

Han Fei threw out a level-five Dao Pattern Pill. "Is this enough?"

Yan Meng: "Yes!"

A fish skin map fell in front of Han Fei. Han Fei took a closer look and was relieved.

It mentioned that there were anomalies in the Wild Abyss, and Bei Luochen personally went there to try to project a projection over, but after half a month, he didn't get anything.

In his fury, Bei Luochen attacked the Wild Abyss but was swallowed by the Yin-Yang Great Millstone. Seeing that it was useless, he waited outside the Wild Abyss.

Seeing this news, Han Fei was relieved. It was too naive for Bei Luochen to try to cast a projection over. Chun Huangdian had done this before, but only an Explorer-level projection could descend.

Han Fei didn't know if Bei Luochen was stronger than Chun Huangdian, but it was impossible for him to shake the Yin-Yang World and the Water-Wood World with his projections.

No matter how weak the Yin-Yang World and the Water-Wood World were, there was more than one king now. How could they be afraid of this mere projection?

Han Fei wasn't worried at all now.

After reading the information, Han Fei smiled and said, "Does the Martial Emperor City have any thoughts about the time when the Yin-Yang World reappears? If you do, how much is it?"

Yan Meng said, "This matter can't be classified as intelligence, its value can't be calculated, and the Martial Emperor City can't see through the Wild Abyss."

Han Fei nodded slightly. It didn't matter. Once he left the Wild Abyss, Han Fei knew nothing about the inside. He didn't know what the cracks in the cage were like at all. He didn't even dare to go in again. Otherwise, if he went in and out, it would affect the structure of the cage and cause the cage to break sooner, which would harm the Yin-Yang World and the Water-Wood World.

Leaving the intelligence center, Han Fei came to the tower and asked, "Is Senior Martial King here?"

Buzz!

A phantom appeared. It was the Martial King. His true body hadn't appeared yet. Even Han Fei couldn't see the king of the Martial Emperor City at any time. It was already a great honor for him to see this phantom.

The Martial King said leisurely, "Are you going to ask the Martial Emperor City to do the second thing for you?"

Han Fei said bluntly, "I want to know if the Martial Emperor City can protect Xia Xiaochan when she is transcending her tribulation."

Xia Xiaochan had been in the Half-King realm for a long time and had stayed in his Origin Sea for more than 300 years. She cultivated and visualized day and night. Whether it was her physique, soul, or even combat power, they had all reached the limit of the Half-King realm.

Xia Xiaochan had broken through all the 42 trials of the Nine Palace World in a row. She could do it so easily because she had reached the limit of this realm. Now, Xia Xiaochan was in a similar situation as Han Fei used to be, and the energy in her body was too much.

Xia Xiaochan had told Han Fei earlier that she was ready.

However, Han Fei felt a little uneasy. It was not that he lacked resources, but that it was probably not easy for her to transcend the tribulation here, so he came to ask the Martial King.

Originally, the Martial Emperor City had promised to do three things for him. Now that one of them had been completed, there were only two left. Normally, the Martial Emperor City would definitely gladly accept it. After all, Xia Xiaochan was going to make a breakthrough in the territory of the Martial Emperor City. Who dared to cause trouble?

However, the Martial King pondered for a moment and said, "No."

Han Fei couldn't help but ask in surprise, "Why?"

The Martial King said indifferently, "Well, when you returned to the Martial Emperor City, Chun Huangdian said something to me. He said that one day you would definitely ask me to protect Princess Mingzhu to transcend the heavenly tribulation. However, the first eight tribulations are easy to transcend, but the ninth tribulation is difficult. This tribulation is an inner demon tribulation. To transcend this tribulation, two things have to be done. One is to destroy the Soul Sealing World, and the other is to revive her mother. The Soul Sealing World is secondary. You can destroy it in the future. However, her mother's recovery has a lot to do with Princess Mingzhu. She has to do it."

Han Fei couldn't help frowning. "Do you mean that she has to return to the Merman Royal Family to transcend the tribulation?"

The Martial King said lightly, "Yes."

Han Fei couldn't help being silent. If these words came from someone else, he definitely wouldn't believe it. But since they were from the Martial King, there was no reason not to believe it.

The Martial King added, "Besides, the Merman Royal Family has already failed once, which was the failed marriage between Princess Mingzhu's mother and the one behind the Soul Sealing World. This time, Princess Mingzhu married you and almost became a traitor of the Merman Royal Family. Even if she wants to go back, she might not be able to go back now. After all, Chun Huangdian doesn't have the final say in the Merman Royal Family."

Han Fei couldn't help but fall into deep thought. If that was the case, wouldn't Xia Xiaochan have no hope of transcending the tribulation?

"Wait a minute ~"

Han Fei suddenly asked, "Why did Chun Huangdian tell you this?"

The Martial King said, "I don't know. You have to ask him yourself. If you make this the second thing you want the Martial Emperor City to do for you, it's almost the same as asking the Martial Emperor City to slaughter the Merman Royal Family, so this matter is impossible."

Han Fei sighed slightly. "Thank you for your information, Senior."

...

Han Fei didn't expect this matter to be so complicated.

Half a day later.

In a non-route area, Han Fei sat cross-legged on the Avenger. Luo Xiaobai, Xia Xiaochan, Zhang Xuanyu, and Le Renkuang were all summoned by Han Fei.

Le Renkuang chuckled. "Are you going to give us extra lessons? Why don't we call Senior Brother Dashuai and the others out too?"

Zhang Xuanyu seemed to find that something was wrong, not to mention Luo Xiaobai. There must be a reason for Han Fei to call them out alone.

Xia Xiaochan couldn't help but ask, "Have you been to the Martial Emperor City?"

Han Fei nodded slightly. "Yes."

Xia Xiaochan immediately frowned. "Why, they didn't agree?"

Luo Xiaobai glanced at Xia Xiaochan and then at Han Fei. "What is it?"

Even Le Renkuang realized that something was wrong. He stopped grilling and looked at Han Fei.

Han Fei said, "The Martial King didn't agree to protect you to transcend the tribulation... Girl, do you know what's the connection between you and your mother?"

When Xia Xiaochan heard this, her face couldn't help but sink. She had wanted to ask Han Fei to have the Martial Emperor City protect her to transcend her heavenly tribulation because her tribulation would definitely be accompanied by the Sky Cicada flapping its wings and chirping. At that time, not only would the Merman Royal Family know, but the people of the Soul Sealing World would also know. There were definitely many people who wanted to ruin her heavenly tribulation.

But now, the Martial King flatly refused. This was a big problem.

Last time, Han Fei wanted to return to the Yin-Yang World and attract so many strong masters, but the Martial Emperor City could solve it. And this time, she just wanted to transcend the heavenly tribulation, but the Martial Emperor City refused. It could be seen that this matter was bigger than she imagined.

"Tribulation?"

Luo Xiaobai was surprised. "Xiaochan, are you going to transcend the tribulation?"

Zhang Xuanyu asked solemnly, "Are you going to transcend the tribulation so soon?"

Le Renkuang asked, "Why is the Martial Emperor City unwilling to protect you?"

Xia Xiaochan said, "I have a feeling that Chun Huangdian wanted to keep me because of my mother. But she's in a deep sleep and no one knows when she can wake up. If I can wake her up, Chun Huangdian should have told me, but he didn't tell me anything before."

Han Fei said, "I called you out this time because I have an immature and bold idea. I was wondering if we could discuss it."

Hearing this, Le Renkuang immediately said, "If you even think it's too immature, I'm afraid it must be quite dangerous. Otherwise, you would have done it long ago."

Everyone nodded. After so many years, they knew each other well. According to Han Fei's personality, if he could solve it, he would have done it long ago.

Luo Xiaobai said, "Tell me about it first."

Han Fei hesitated for a moment and said, "Uncle Xuan told me about the situation in the Raging Sea, and Xiaobai, you've also analyzed it. I know that our current peak combat power is still a little weak. Even if we can barely gather a few Sky Opening Realm powerhouses, it will directly cause internal strife in the human race and give other races a chance. So... I'm thinking, can we cooperate with the Merman Royal Family?"

When Han Fei said the last sentence, Xia Xiaochan looked at Han Fei in shock. Zhang Xuanyu and Le Renkuang looked at each other and widened their eyes.

Only Luo Xiaobai was briefly stunned. Then she composed herself and said, "Let's say we can cooperate. Tell me why first."

Han Fei looked at Xia Xiaochan. "Girl, how many people are in the Sky Opening Realm in the Merman Royal Family?"

Xia Xiaochan thought for a moment. "As far as I know, there is only one on the surface. If what you said is true that Chun Huangdian is really a Sky Opener, then there are two."

Han Fei pondered for a moment and said, "There are two sky openers as we know. Even if there are no hidden sky openers, with two sky openers, the Merman Royal Family is already an extremely terrifying force. Our ally, the Sword God of the Sword God Palace, is also in the Sky Opening realm. In this case, if we can join forces with the Merman Royal Family, at least we can protect the Yin-Yang World and the Water-Wood World, let Xiaochan transcend the tribulation, and resist Supreme Clearness and Infinity."

Xia Xiaochan asked in surprise, "Why do you have such an idea?"

Luo Xiaobai thought for a moment and said, "If the Merman Royal Family agrees, can you persuade our allies to accept it?"

Han Fei shook his head. "I don't know!"

Luo Xiaobai asked, "Why do you think the Merman Royal Family will ally with us? We don't have a sky opener. The Sword God is a powerhouse of the Sword God World after all. Although we are allies, he doesn't have to do so much for us."

Zhang Xuanyu said, "If you do this, will you be despised by the human race?"

Le Renkuang nodded hard. "Why don't we give it a second thought? Didn't you say that we should wait for the Monarch Palace to open? What if we get great opportunities there?"

...

Han Fei had this idea because he wanted to help Xia Xiaochan transcend the tribulation successfully. Even the Martial King had refused his request, so it was probably not easy for Xia Xiaochan to transcend the tribulation. Did Xia Xiaochan have to return to the Merman Royal Family?

As the Martial King said, Xia Xiaochan had been taken away by him for so long. Even if she returned to the Merman Royal Family, she might not be treated well. In that case, why not temporarily ally with the Merman Royal Family?

Except that he was a little unwilling and couldn't beat Chun Huangdian, everything else seemed to be beneficial to him.

The only problem was, why should the Merman Royal Family cooperate with him? He had too few trump cards. The only thing he could use was the power of the Vast Ocean Navigator to find a route.

Han Fei said, "No, if this method works, use it! I have to talk to Chun Huangdian."

Xia Xiaochan was lost for words. "Are you crazy? You'll start fighting as soon as you meet!"

Xia Xiaochan thought to herself, Chun Huangdian is already in the Sky Opening realm and you still want to talk to him? Do you want to be killed by him again?

Luo Xiaobai said, "Have you thought it through? If we really join forces, you will lose your reputation in the Raging Sea and even become a traitor!"

Han Fei chuckled. "Whether I'm a traitor or not, everyone will tell in the end. But this is an opportunity. I have to try. Otherwise, even if all of you on the Avenger become Half-Kings, so what? Even if half of you can become Kings after entering the Monarch Palace, so what? Our peak combat power is still not enough to resist Supreme Clearness and Infinity."

Le Renkuang asked, "Do we have to resist them?"

Han Fei narrowed his eyes and said, "We are real enemies. I have a way to leave the Raging Sea, and Supreme Clearness and Infinity will try their best to get it. In addition, Supreme Clearness and Infinity had led other Heavenly Palaces to attack Yin Yang and Water Wood, so we are really mortal enemies!"

Zhang Xuanyu asked, "Since we can cooperate with the Merman Royal Family, is there a chance for us to cooperate with Supreme Clearness and Infinity?"

Han Fei shook his head. "Even if we reach an agreement, do you think we can be truly united?"

If it weren't for the fact that Xia Xiaochan was the princess of the Merman Royal Family, he wouldn't have cooperated with the Merman Royal Family because the two parties had no basis for cooperation.

However, Xia Xiaochan's identity and the unknown connection between Xia Xiaochan and her mother had set the foundation for cooperation.

Luo Xiaobai said, "Since you've already thought it through, just do it! Anyway, due to Supreme Clearness and Infinity, the Yin-Yang World is trapped in a cage. Tens of thousands of years of accumulated resentment can't be resolved easily."

Xia Xiaochan said, "Even if you want to talk to Chun Huangdian, you can't go to the Merman Royal Family. Chun Huangdian is too temperamental and unpredictable."

Han Fei said, "Am I that stupid?"

...

In the Martial Emperor City, the top ten pirate teams were stationed all year round.

In the Merman Pirates, Jiao Fengxian was floating in the water cultivating. Suddenly, someone said via voice transmission, "Captain, bad news. Han, Han, Han is outside..."

"Humph! What's the big deal? Don't you know that I'm cultivating? Who is outside?!"

The man quickly swallowed and said, "Captain, Han, Han Fei and the princess have come."

"Huh?"

Jiao Fengxian was stunned. Why did Han Fei and the princess come to her?

Immediately, Jiao Fengxian's figure flashed and appeared outside the cultivation field. As she scanned around with her perception, she saw that it was none other than the princess outside.

Outside, Xia Xiaochan and Han Fei said, "I spent some time with Auntie Fengxian, and we were on good terms. Don't bully her later!"

Han Fei rolled his eyes and said, "Can I suppress her? She is a king anyway. How can she be afraid of my suppressing pressure?"

As they talked, a graceful figure in multiple layers of gauze appeared in front of them. Unlike Xia Xiaochan's cute and fierce appearance, Jiao Fengxian was very charming.

Jiao Fengxian bowed slightly to Xia Xiaochan. "Greetings, Your Highness. I didn't expect you to become a Half-King only after decades. Congratulations."

Xia Xiaochan said, "Auntie Fengxian, we're here to ask you to deliver a message to someone!"

Jiao Fengxian was briefly stunned. "Oh? Your Highness, you don't have a good reputation in the clan now. Many Sea Establishers have a bad opinion of you, and even that one is very unhappy about you. You'd better ask me to deliver some valuable message. Otherwise, I'm afraid no one will listen to you."

Han Fei said, "It's simple! Just ask Chun Huangdian to come over for a chat."

Jiao Fengxian glanced at Han Fei and couldn't help but laugh. "Han Fei! Do you think you can meet Master Chun Huangdian as you want? Who do you think you are?"

Han Fei chuckled. "Believe me. This meeting is more important than you think. It will even affect your entire race."

Jiao Fengxian chuckled. "Why should I believe you? Why don't you convince me first?"

However, Han Fei shook his head slightly. "You are not qualified."

For a moment, Han Fei and Jiao Fengxian's auras collided, and everyone around felt the suppressing pressure. Even Xia Xiaochan felt her shoulders sink.

When Xia Xiaochan looked up, she saw that Han Fei and Jiao Fengxian were looking at each other as if they were about to see through the void. After dozens of seconds, Jiao Fengxian snorted and looked at Xia Xiaochan. "For the sake of the princess, I can deliver the message for you. Just wait!"

...

Seven days passed.

In a courtyard in the Martial Emperor City, Han Fei and Xia Xiaochan were making dumplings.

Suddenly, a voice sounded leisurely, "I heard that you have something to tell me? I hope this trip is worth it."

Han Fei and Xia Xiaochan both looked up, only to see Chun Huangdian standing on the roof.

Han Fei didn't care at all. He continued to make dumplings, saying lazily, "I thought you were very hard to invite, but you still came!"

Chun Huangdian didn't respond to Han Fei, but looked at Xia Xiaochan and said, "It seems that you're about to transcend the tribulation? This is a little beyond my expectations. But it's not too surprising. Are you going back to the Merman Royal Family, Your Highness?"

Xia Xiaochan remained silent with a dark face, and Han Fei chuckled. "She can go back, but not now and not in this way."

Chun Huangdian smiled evilly. "I think you're asking me to do you the favor, aren't you?"

Han Fei rolled his eyes and said, "Of course not. Sooner or later, I'll beat you up!"

Chun Huangdian shrugged slightly. "Since you're not asking me to bring the princess back, why did you invite me here?"

Plop, Plop ~

Han Fei waved his hand and threw a pile of dumplings into the pot. Then, Han Fei extended his hand, and the Vast Ocean Navigator appeared in his hand. He said, "Do you recognize this thing?"

Chun Huangdian glanced at the Vast Ocean Navigator. Although he had a guess, he wasn't sure. He said indifferently, "Continue."

Han Fei said, "If my guess is correct, you people know why the Yin-Yang World entered the Wild Abyss. Since you know it, you should know what I'm holding. I'm not afraid to tell you that this is the way to leave the Raging Sea. Supreme Clearness, Infinity, your Merman Royal Family, the hundred demon clan, and the undersea human race, if any of the above know that I have this treasure, they will definitely try their best to snatch it."

Chun Huangdian chuckled. "Do you think I'll believe you?"

Han Fei said, "Let's make a bet, OK?"

Chun Huangdian said, "Tell me about it."

Han Fei said, "There are 36 Heavenly Palaces of the human race. There are respectively thirteen ones in the inner domain and outer domain. I think You know where the Yin-Yang World and the Water Wood World are, right? As for the remaining eight Heavenly Palaces, which are Mindless, Silver Moon, Beast King, Parting Grief, Flying Feather, Ten Color, White Cloud, and Ashless, do you think it's possible for me to find them with this thing in my hand?"

Chun Huangdian: "That's the business of your human race. What does it have to do with our Merman Royal Family?"

Han Fei said, "Stop pretending. Everyone wants this thing, including you Merman Royal Family."

Chun Huangdian chuckled and said, "If you want to trade with this thing, I can let the princess transcend the tribulation safely and even send her back. The question is, are you willing to give it to me?"

Han Fei also smiled. "Of course not. So, I'm here to negotiate with you."

Chun Huangdian smiled. "Tell me. What if I'm tempted?"

Han Fei said, "The Merman Royal Family forms an alliance with the Yin-Yang World to resist Supreme Clearness and Infinity together, and I can take you out of the Raging Sea. After that, we'll go our separate ways. Of course, you'll have to help Xiaochan transcend the tribulation."

Chun Huangdian looked at Han Fei as if looking at a fool. “Nice try, but why should we block the Supreme Clearness and Infinity for you? Just for your empty promise and the Vast Ocean Navigator that hasn’t proved its value?”

Han Fei sneered. “Do you think I would still need you Merman Royal Family when I become an emperor? Do you think I would let you Merman Royal Family off when I conquer the Thirty-Six Mystic Worlds and wipe out all my enemies? If it weren’t for the fact that Xiaochan is from the Merman Royal Family, I wouldn’t have found you as my ally!”

Han Fei poured a big bowl of cold water into the pot and said, “I asked you to come here today, but I didn’t expect you to agree. I can wait for you to come to me when I find all the Heavenly Palaces that disappeared.”

Chun Huangdian smiled contemptuously. “Even if you find all those down-and-out Heavenly Palaces, so what? Can you defeat an emperor?”

Han Fei sneered. “Chun Huangdian, is that all you’ve got?”

Han Fei’s eyes turned cold. “I can sacrifice the Yin-Yang World and the Water-Wood World. When I become an emperor, I can take revenge on my enemies one by one. But if you give up this opportunity, you will forever lose the chance to leave the Raging Sea. Besides, we will be mortal enemies then.”

Chapter 1926: Who Could Expect Whether This Was A Fortune Or A Misfortune?

Chun Huangdian didn’t take Han Fei’s threat seriously.

He said leisurely, “Your Highness, do you know why I nurture you with all my strength, push you to the position of princess, and even become enemies with all the kings for you?”

Xia Xiaochan looked confused. She knew that Chun Huangdian had a purpose, but she didn’t know what it was. But in terms of nurturing, when she was the princess, she did have everything she wanted. Resources and the trials were very abundant, which was a preferential treatment that ordinary people couldn’t get.

Chun Huangdian suddenly smiled. “Your mother is the only pure-blood member of the Merman Royal Family. The rest just have mixed bloodlines. Back then, when the Age of Doom came, some people from the human race, sea demons, and the Merman Royal Family bypassed the Monarch Palace and went to the outside world. The outside world... is no better than the Raging Sea. There, the human heart is equally sinister. Your mother, like you, also fell in love with a human man. At that time, the concept of race was actually not that strong, and the Merman Race did not object to our members marrying people of other races. That man used the excuse of marrying your mother and allowing our Merman Race to have a settlement there to trick your mother. In the end, he used your mother as a tool, pierced her heart, extracted her essence blood, and swallowed her bloodline, trying to become a monarch...”

At this point, Chun Huangdian looked at Han Fei. “Are you sure he’s a good person?”

Hearing this simple description, Xia Xiaochan was shocked. Chun Huangdian’s words sounded simple, but there were countless grudges and sad memories contained in them.

Xia Xiaochan was surprised. “Then why could my mother return to the Merman Royal Family?”

Chun Huangdian chuckled. "As I said, your mother is the only pure-blood member of our Merman Royal Family. Perhaps you don't know what pure-blood is. Only the existence of a godly heritage can give a pure bloodline. Therefore, your mother is the child of a god..."

Buzz!

This time, even Han Fei was stunned. Another divine child?

Han Fei had seen how powerful the children of gods were. For example, the divine son had survived the Age of Doom, the age of Bloodline Divine Wood, and until now..

Why?

As the divine son said, he was a god after all. Although the child of a god was not strong enough, he could still be called a god. Therefore, Xia Xiaochan's mother was still alive probably because of her identity as the divine child.

Sure enough, Chun Huangdian said, "The child of a god is a god too. She guarded her only drop of heart blood and used a divine technique to escape from the outside world with a few people and return to this place... Originally, this drop of heart blood could help her be reborn. However..."

Chun Huangdian looked at Xia Xiaochan. "However, she found that she was pregnant... In order to give birth to you, this drop of heart blood was absorbed by you, and she has been sleeping until now..."

"Heh ~"

At this point, Chun Huangdian looked at Han Fei with a smile. "Han Fei, do you think I really want to go to the outside world? No... What I want is blood. The princess inherited the pure bloodline, so I have to wake your mother up with the royal blood. How dare you make a deal with me without even knowing my basic request?"

Xia Xiaochan's face turned pale. No wonder Chun Huangdian had always been grumpy to her yet used all his resources to improve her strength. It turned out that all this karma was here.

But Han Fei thought of why Chun Huangdian told Xia Xiaochan about this.

Immediately, Han Fei's face changed drastically. "You deceived the Martial King and deliberately made him reject me, tempting me to take the initiative to find you so that you can tell this to Xiaochan and let her have an inner demon tribulation."

Chun Huangdian smiled. "Not stupid. From this moment on, if the princess want to become a king, she has to return to the Merman Royal Family. Otherwise, she can't become a king."

Han Fei's face was extremely gloomy. He hated such a scheming guy the most. This guy had finally accomplished his goal after decades with a few words.

Chun Huangdian looked at Han Fei and said, "I didn't tell the princess before because I was afraid it would affect her cultivation. But I didn't expect you to take her away. Fortunately, the result didn't deviate from my plan. So, how are you going to convince me now?"

While Han Fei was thinking about how to answer him, Xia Xiaochan suddenly said, "What if I return the blood to my mother?"

Chun Huangdian said leisurely, "Your bloodline will no longer be a pure bloodline, but you won't die. You will lose the potential and heritage as a divine child, but at least you still have the bloodline of the Merman Royal Family and the An family. At least you can still live, right?"

Xia Xiaochan's face changed. After a long silence, she suddenly raised her head. "When the Yin-Yang World reappears, you form an alliance with us to block the Supreme Clearness and Infinity... After that, I'll go back with you to the Merman Royal Family to transcend the tribulation and return the blood to my mother."

Han Fei couldn't help looking at Xia Xiaochan. The bloodline of a god was not a joke. Even his current bloodline was far inferior to Xia Xiaochan's.

Han Fei even regretted coming up with this stupid idea. Why was he in such a hurry to find Chun Huangdian?

Chun Huangdian chuckled. "Although you're a member of the Merman Race, how can I believe you now, Your Highness?"

Xia Xiaochan said, "I can swear to my Great Dao."

Chun Huangdian said leisurely, "Let me hear it."

Han Fei frowned, but Xia Xiaochan looked at Han Fei and said, "If what you said is true, I'll definitely return this drop of blood."

Xia Xiaochan cut her palm with a dagger and said solemnly, "I, Xia Xiaochan, swear to the Great Dao. If the Merman Royal Family protects the Yin-Yang World and the Water-Wood World, I will return to the Merman Royal Family and return the divine blood. If I break this oath, I'll have no hope of reaching the Sea Establishment Realm in this life, I'll die in the Infinite Ocean, and the divine blood will return to its source..."

"Um!"

Chun Huangdian grunted and looked at the two of them proudly. "It's not enough."

Han Fei narrowed his eyes. "Chun Huangdian, don't go too far."

Chun Huangdian said, "From the looks of it, we've had the foundation for a preliminary cooperation. However, our Merman Royal Family has suffered such a huge loss in the outside world. How can we stop? Therefore, we still have to go to the outside world, so we still have to use your navigator... Therefore, you have to swear that if there comes a day when you control the Thirty-Six Heavenly Palaces, firstly, you must not become enemies with the Merman Royal Family. Secondly, you have to take the merman race out of the Raging Sea... Oh, right, I'm not sure what Dao you take. Don't swear to your Great Dao. Just swear to the Heavenly Dao. If you disobey your oath, your luck will collapse..."

Han Fei was lost for words. This old fox!

Chun Huangdian laughed. "Luck is the Dao of the heavens. I don't have to worry about you swearing an oath with evil means. Your avatar is useless... Now, let's see what you choose."

Han Fei said with a black face, "Chun Huangdian! You're quite good at scheming. But you have to know that once I swear, the Merman Royal Family must protect the Yin-Yang World and the Water-Wood World."

Chun Huangdian said, "We can protect the Yin-Yang World and the Water-Wood World, but the Mermaid Royal Family won't help either of you, nor will we help you win the internal strife of the human race. As for who will be the winner... it'll have nothing to do with us."

Han Fei: "Deal."

...

Han Fei couldn't blame anyone for being tricked this time. This person was almost as scheming as Old Han.

In fact, he had been waiting for him to jump into the pit. Who could have expected that?

Chun Huangdian laughed. "In that case, Princess, help yourself. Remember to keep your promise."

However, just as Chun Huangdian was about to turn around and leave, his expression suddenly changed slightly, and he saw a figure appear at the gate of the courtyard.

Chun Huangdian narrowed his eyes and said, "Martial King?"

The Martial King said calmly, "Chun Huangdian, you'll have to pay a price for lying to me. You made the Martial Emperor City lose credibility for the first time. Although you've reached an agreement now, you still need to pay this compensation."

Chun Huangdian said indifferently, "Master Martial King, what I told you is the truth."

The Martial King said indifferently, "You made the Martial Emperor City break our promise. This is a lie. Tell me, what are you going to pay as compensation?"

Chun Huangdian's eyes twitched. "100 million ultra-quality spiritual stones, 100,000 spiritual fruits, and one Sea Quelling Bizarre Treasure."

The Martial King looked at Chun Huangdian coldly. "I'm not kidding."

Han Fei couldn't help but feel secretly delighted. Sure enough, strength was everything in this world. The Martial King didn't joke at all. Chun Huangdian's face had even turned green.

Chun Huangdian had to be serious. After a moment of silence, he said, "A billion ultra-quality spiritual stones, a million spiritual fruits, ten Merfolk's Pearls, and two Sea Quelling Bizarre Treasures."

The Martial King nodded slightly and pointed a finger at Han Fei. "Give them to him!"

Chun Huangdian: "..."

Han Fei: "???"

Han Fei was stunned. Was this a fortunate or a misfortune? He had just been tricked by Chun Huangdian, and then he was rewarded with so many resources?

Chun Huangdian: "Three days."

The Martial King said, "Today. If it's not enough, you can borrow it from the Martial Emperor City."

Han Fei was gratified. Chun Huangdian really deserved it.

Chun Huangdian was silent for a moment and glanced at Han Fei indifferently. "Okay!"

A moment later.

When Han Fei held a pile of Sun-Moon Shells in his hand, he had mixed feelings.

He bowed to the Martial King. "Thank you, Martial King."

The Martial King shook his head slightly. "No need to thank me. The Martial Emperor City has always been trustworthy. Chun Huangdian deceived the Martial Emperor City, so he deserves to be punished."

With that, the Martial King's figure flashed and disappeared.

Chapter 1927: Salary

However, considering that he had already expanded his Origin Sea to a radius of 30,000 kilometers, he needed resources. When he got a few more spiritual fruit gardens, ground veins, spiritual heritages, and a spiritual lake in his Origin Sea, he would probably consume half of the resources.

The strong really needed a lot of resources! Especially Sea Establishers, their demand for resources was even more terrifying. God knew where there were so many resources for Sea Establishers to cultivate.

Han Fei thought for a moment and handed Xia Xiaochan five or six Sun-Moon Shells. "Use them to transcend your tribulation!"

Xia Xiaochan was lost for words. "Are you stupid? I've agreed to return to the Merman Royal Family to transcend the tribulation. I'll certainly use their resources. Why do I have to use our own?"

Han Fei's heart did a flip. "That's true! Let's trick Chun Huangdian again when the time comes."

Han Fei reached out and grabbed the Hexagon Starfish out. At this moment, there were six bubbles hanging on the Hexagon Starfish's six tentacles, and he was still sleeping.

Slap!

Bam! Bam! Bam!

The bubbles shattered, and the Hexagon Starfish's eyes widened. "Who, what's wrong? What happened?"

When the Hexagon Starfish saw Han Fei's dark face, he couldn't help but exclaim, "I was too absorbed in cultivation and fell asleep. Look at my strength, it's at the peak of the Venerable realm..."

The corner of Han Fei's mouth twitched. "Master Hexagon, pretend better next time. I can tolerate you stealing my Spiritual Stone Mountain, but why did you steal my Sun-Moon Shell? That's my Origin Sea. How can I not know it? Give it back to me."

The Hexagon Starfish rolled its eyes. "Oh? Huh... Why is there a Sun-Moon Shell in my door? Who put it in? That's strange..."

Seeing the Hexagon Starfish take out the Sun-Moon Shell reluctantly, Han Fei issued an order in his heart and the crew of the Avenger appeared in the courtyard.

Luo Xiaobai and Zhang Xuanyu immediately surrounded him.

Luo Xiaobai asked, "Have you done that?"

Zhang Xuanyu asked, "What's going on? Has Chun Huangdian come?"

Le Renkuang asked, "Where are we now?"

Han Fei sighed slightly and said, "I'll tell you later. I asked you to come out this time because I thought you had run out of resources recently, so I gave you some salary?"

"Salary?"

Le Renkuang and the others were already used to Han Fei's unconventional words. Their eyes glittered.

Hearing it, the others all looked at Han Fei. Nian'er came over. "Brother, what's salary?"

Han Fei thought for a moment and said, "The so-called salary is the dividends you get from the Avenger. In the past few years, your strength has grown too fast, and your resources have been consumed fast too. Many people are about to run out of resources. This can't go on. How can I watch you waste your energy on how to get resources? Come... each of you will be given 2 million ultra-quality spiritual stones to replenish your resources."

"Hiss ~"

"Two million ultra-quality spiritual stones?"

"How rich!"

Yi Xiyang glanced sideways. "Senior Brother, do you have too much money to spend?"

Qu Jinnan asked, "Senior Brother, are you sure we won't leave some for the president?"

The Insect King asked, "How many resources will be distributed?"

Wang Dashuai: "Junior Brother, you know me..."

As for Xue Ning and Xu Can, they were all stunned at this moment. Did the Avenger Pirates pay its members so well? Not only could they keep all the resources they looted, but they were also taken to places like the Nine Palace World for trial. And they even got a f*cking salary?

Han Fei said, "Line up, line up! Two million per person is a small sum. In this Martial Emperor City, with this money, you can't even buy anything good from the super resource store!"

Luo Xiaobai was surprised. "Are we in the Martial Emperor City?"

"Hiss ~"

Although everyone often heard the name of the Martial Emperor City, this was the first time they had really landed in the Martial Emperor City. Immediately, everyone spread out their perception.

However, Han Fei's perception shook and shattered all their perceptions.

Han Fei said huffily, "Don't use your perception for no reason. The strong masters here can kill you with a thought. Don't cause trouble for me."

Yi Xiyan asked, "Senior Brother, I heard that there are all kinds of good things in the super resource shops in the Martial Emperor City. Can we take a look?"

Nian'er: "Brother, I want to go too."

Since Yin'er chose to stay in the Nine Palace World, Nian'er had been with the youngest Yi Xiyan and Gu Qi. Affected by Yi Xiyan, she became more lively now.

Han Fei snorted. "After all, we've been cultivating for several days. You can take a rest today and tomorrow. We'll leave the Martial Emperor City the morning of the day after tomorrow."

"Yay ~"

"Haha ~"

Someone immediately said to Xue Ning and Xu Can, "Brother Xue, you've been to the Martial Emperor City before. Please lead the way for us."

"Brother Xu, can you take me to the bookstore?"

Buzz!

At this moment, a young man suddenly appeared in the yard. He cupped his hands at Han Fei and said, "Master Han Fei, the people on the Avenger haven't registered yet. I need to register them."

Han Fei nodded slightly. "Okay, it saves us a trip. Go register and collect your exclusive identity cards. Then you can come alone next time."

...

A moment later.

Han Fei gave them two million ultra-quality spiritual stones each, which made the Hexagon Starfish's eyes turn green.

Looking at the greedy Hexagon Starfish, Han Fei shook his head slightly. "From now on, gain experience with the Avenger. I'm afraid the time acceleration has spoiled you."

The Hexagon Starfish rolled its big eyes. "No! How slow is it to cultivate in the outside world? I still want to swim in the spiritual lake with Little Black and Little White."

With a thought from Han Fei, dozens of arrays fused, fell on the Hexagon Starfish and sealed his mouth. He said, "Shut up. Just do what I tell you to. I'm afraid you've been spoiled by me."

At this moment, except for Luo Xiaobai and company, the others had already followed Xue Ning and Xu Can out. They really needed someone to guide them in the prosperous Martial Emperor City.

Luo Xiaobai and the others looked at Han Fei, and Han Fei briefly explained the situation to them.

Le Renkuang exclaimed, "Damn that old fox!"

Zhang Xuanyu said, "So, now that you two have sworn to the heavens, we've really allied with the Merman Royal Family? Have you discussed this with your other allies?"

Han Fei said, "Don't mind the others. This is a deal between the Yin-Yang World and the royal family of the mermen. It has nothing to do with the others. Okay, this can't be helped. If Xiaochan wants to transcend the tribulation, she can't bypass the Merman Royal Family. We don't actually have a loss."

Luo Xiaobai said, "The problem is, can Xiaochan go to the Merman Royal Family alone? Can Chun Huangdian represent the entire Merman Royal Family? Will Xiaochan be in danger?"

Han Fei frowned. "I don't think so. Only when Xiaochan becomes a king can she extract that wisp of divine blood."

Xia Xiaochan said, "Since I know this, I have to return this drop of blood. However, at least I haven't gone there yet. I won't go to the Merman Royal Family until the Yin-Yang World reappears. If I die..."

Xia Xiaochan looked at Han Fei.

Han Fei sneered. "If you die, there will be no Merman Royal Family."

The stronger he was, the more he could understand how simple the destruction of a race was. The strong were the rules and the reason. If the strong wanted you to live, you lived. If they wanted you to die, you died. Since this world followed this principle, Han Fei was no exception.

...

On the other side.

On this day.

The information about the members of the Avenger was immediately known by countless people.

When they saw that this fleet of more than 50 people had 15 or 16 Half-Kings and even the weakest one had reached the intermediate Venerable realm, they were surprised. This power could be described as very strong.

Of course, what made the intelligence agents speechless was that the members of the Avenger Pirates were all f*cking rich! These people wandered in the super resource stores of the Martial Emperor City and consumed a million ultra-quality spiritual stones per person. In just one day, it was said that these people had consumed more than 60 million ultra-quality spiritual stones.

Of course, this was not comparable to the consumption of Han Fei back then, but it was definitely not a small number.

These people were dazzled by the products in the super resource stores and even the garbage in the super resource stores was a treasure in their eyes. Although they had tried to control themselves, they still spent a lot.

Among them, Nian'er, Yi Xiyao and her teammates had spent the most money. They spent so much that they didn't even have a single stone left.

That was because Su Daiji said, "Senior Brother said that we can take the back door."

Chapter 1928: Ten Thousand Poison Sky

In order to avoid being ambushed, Han Fei took everyone into his Origin Sea and left the Martial Emperor City.

Now, Han Fei's Origin Sea seemed to have become a small world like the Sea Quelling Painting, causing the latter to be basically useless now.

Although Han Fei knew that every Heavenly Palace had a Sea Quelling Painting, he didn't deliberately collect it. How could he make these people ally with him if he snatched their Sea Quelling Painting?

He might as well wait until he was strong enough to awe the entire Thirty-Six Mystic Worlds before considering collecting all the Sea Quelling Paintings to see if there were any secrets inside.

One day passed.

Million Poison World, Spider King City.

When Han Fei came again, he was no longer as secretive as last time.

Han Fei didn't hide himself, so as soon as he arrived in the Million Poison World, he heard Patriarch Million Poison say via voice transmission, "I thought you ran away with the Supreme Purple Smoke Furnace... I didn't expect you to become a king in just a few decades."

On a certain mountain peak in the Grand Desolate Swamp, Han Fei and Patriarch Million Poison, Huang Jie, stood side by side.

Huang Jie said, "Where is the Supreme Purple Smoke Furnace? Come on, let me take a look."

Han Fei waved his hand, and a pill furnace emitting purple gas flew in the air. Huang Jie's eyes were full of infatuation, and he clicked his tongue. "Yes, it's indeed the Supreme Purple Smoke Furnace, a sacred weapon of the human world, a priceless treasure... Hahaha, is Granny Qiu furious? It's really satisfying!"

Han Fei smiled. "Elder Huang, I'm here to ask for two things."

Huang Jie thought to himself, If you can give the Supreme Purple Smoke Furnace to me, I can even do ten things for you, let alone two.

Han Fei said, "First of all, lend me the Supreme Purple Smoke Furnace for ten years for body tempering."

"Body tempering? You're using a pill furnace to temper your body?"

Han Fei said with a smile, "I find that the body tempering effect seems to be better in this furnace."

Huang Jie narrowed his eyes and said, "You want to refine yourself as a pill? I don't mind, but the day you return the pill furnace is the day we Million Poison World truly form an alliance with you."

Han Fei nodded slightly. "Of course."

Since Han Fei had already allied with the Merman Royal Family, he was no longer in a hurry to have other allies. In order to nurture these people on the Avenger, he had wasted a lot of his time.

Huang Jie was not in a hurry. Although Han Fei had already become a king, he could be sure that Han Fei still needed allies now. From the battle when Han Fei returned to the Wild Abyss, it could be seen that his enemy was not someone Han Fei could resist alone.

And Huang Jie had lost the Supreme Purple Smoke Furnace for tens of thousands of years, and he didn't mind waiting for another ten years.

Huang Jie said, "You have two requests. What's the other one?"

Han Fei smiled. "The Nine Poison Treasure Silkworm, of course."

What Han Fei meant was that he wanted Huang Jie to provide him with a way to resist the soul poison. Since Han Fei had already known the existence of the Nine Poison Treasure Silkworm, he certainly wouldn't let it go.

Although in all his experiences, he rarely encountered poison cultivators and famous poisons, this was not a reason for him to take it lightly. Refining an anti-poison body in every realm was very necessary.

In this Raging Sea, there were countless poisonous creatures. As long as one stood above the sea and scanned around with his perception, he would find a lot of them.

He could crush most poisons now, but it didn't mean that he could do that in the future. Therefore, it was important to take precautions, especially in the soul poison.

Huang Jie said, "Although the Nine Poison Treasure Silkworm is rare, it doesn't mean it doesn't exist. On the day the Supreme Purple Smoke Furnace is returned, the Nine Poison Treasure Silkworm will be given to you. At the same time, I will explain to you the Dao of soul resistance against poison."

Han Fei cupped his hands. "OK, thank you, Senior."

Huang Jie couldn't help but say, "Neither of these two things have been achieved yet. Are you sure that's all you want?"

Han Fei thought for a moment. "There's something else I need to ask."

Huang Jie knew it wasn't that simple. He said, "Just tell me."

Han Fei smiled. "Elder Huang, I wonder if you can develop a top poison that can deal with a Sky Opener?"

Huang Jie: "..."

Huang Jie didn't expect Han Fei to target the Sky Opening realm from the beginning. He thought to himself, There are so many Sea Establishment powerhouses, and you haven't even solved them, but you're already eyeing the Sky Opening realm?

However, in Han Fei's eyes, Huang Jie hesitated, which made his eyes light up. Was there a chance?

Han Fei didn't have any hope in the first place, but Huang Jie's reaction made his heart flutter.

Huang Jie said leisurely, "Poisoning Sky Openers has always been my research direction. Even if there is such a strange poison, I won't give it to you easily. If it doesn't kill the one you want to poison, our Million Poison World will be doomed. Do you understand what I mean?"

Han Fei certainly knew what he meant. The most poisonous poison in the world must come from the Million Poison World. If the enemy wasn't poisoned to death, the Million Poison World would be in big trouble.

However, Han Fei said, "Elder Huang, I'm afraid you haven't realized what kind of battle you're involved in. The Yin-Yang World and Supreme Clearness and Infinity are mortal enemies. Now, I think you should know who to side with."

Huang Jie nodded slightly. "The four Heavenly Palaces of Sword God and Immeasurability, the Ice Snow World, plus the power of your Yin-Yang World and the Water-Wood World. Even with my Million Poison World, it's still much weaker than the other side."

Han Fei grinned. "The Nine Palace World can also be counted."

"Nine Palace World?"

Huang Jie couldn't help looking at Han Fei. The Nine Palace World had disappeared for tens of thousands of years... However, he had guessed Han Fei's identity. He couldn't help but wonder if Han Fei had found the remnants of the Nine Palace World.

Huang Jie said, "How much strength can the Nine Palace World have left? It was almost destroyed back then."

Han Fei said, "In addition to the Nine Palace World, I have other allies. It's not that I want to cause internal strife in the human race, but that the Thirty-Six Mystic Worlds have been falling apart for too long, and a Monarch Palace has sealed this place for 100,000 years. Even if I give you another 100,000 years, so what? Elder Huang, you're betting if I can break the boundary of this place, right..."

Seeing that Huang Jie was silent, Han Fei said, "Senior, it doesn't matter whether you believe me or not. What's important is that if you really have the poison to deal with the Sky Opening realm, remember to prepare it. What if you want to use it? Okay, that's all I'm here for. Goodbye."

"Wait a minute!"

Huang Jie looked at Han Fei but didn't mention the poison. Instead, he asked, "Has Granny Qiu really refined level-nine divine pills?"

Han Fei sneered. "No."

Huang Jie asked, "Eighth-grade?"

Han Fei said, "Only one eighth-grade one. The rest were swept away by Wang Yijian. I risked my life to snatch one."

There was no telling if Huang Jie believed him or not, but the old man turned to look at the Great Desolate Swamp and said leisurely, "I knew it. With that old witch's ability, she must rely on luck to refine a level-eight pill. How could she have the ability to refine level-nine pills?"

While Huang Jie was talking, Han Fei had already disappeared. Huang Jie didn't care but continued to stand on the top of the mountain for a long time.

...

One year later.

On a certain route, a big black ship floated alone on the sea, and on this ship, only one person was sitting at the bow, fishing.

If someone's perception could sweep a hundred thousand kilometers here, he would find that there were fifty or sixty battles happening within a hundred thousand kilometers. There were often waves and ripples that could stir up this big black ship.

Swish ~

A circular dart-like thing flashed past.

Xia Xiaochan threw out a hook, but it didn't catch the thing. In the next moment, Xia Xiaochan shouted, "Big starfish, you're slacking off again. If Han Fei finds out, you'll be punished."

The Hexagon Starfish couldn't help but say, "I've been working very hard. I've fought three battles in a row today. Now, I've even learned to fight."

Xia Xiaochan bared her teeth. "You call that fighting? Let's go. I'll teach you myself."

The Hexagon Starfish: "Hey, hey... Don't! I'm just kidding... No!"

...

In Han Fei's Origin Sea, a purple pill furnace was steaming with purple flames.

In the furnace, Han Fei sat cross-legged, and his flesh and blood were flowing with gold and jade color. On a closer look, it turned out that the gold and jade color had already covered every corner of his body.

Buzz!

The top of the furnace exploded, and a golden light flashed out.

Han Fei's eyes glowed gold, and his soul condensed a big shadow in the void, which looked like a Buddha.

Suddenly, the old turtle's voice sounded, "You've finally come out of seclusion? This time, you've cultivated for more than 31 years. It seems that your physique and soul have made a breakthrough again?"

Han Fei sighed. "I've finally mastered this technique. It's time to set off to find the disappeared Heavenly Palaces."

Chapter 1929: Twelve Years of Wind and Rain

Twelve years later.

Huala... Huala...

In a sea area that was ravaged by gales and almost completely covered by violent hurricanes, a big black ship was bobbing up and down in the tide.

On the deck, a man and a woman stood quietly without moving.

From time to time, a figure flashed past in the violent hurricane. A Wind Demon twisted in the wind and was killed by a sword.

Swish! Swish! Swish!

Ten thousand kilometers away, chains danced in the air. A 5,000-foot-long Mantis Shrimp had killed four Wind Demons and swallowed all the Great Dao Wind Particles. Who else could it be but Nine Tails?

A hundred thousand kilometers away, vines were like a waterfall, wandering in the wind. At this moment, a Wind Demon in the Half-King realm was trapped by lock-like vines. At this moment, it was charging around crazily, and wind blades filled the sky.

However, as the vines constricted, this place was completely sealed by the demonic plants. Without any reinforcements, the Wind Demon was finally strangled by the demonic plants.

Yes, after more than ten years, the Avenger had created many legends in this vast sea. On the way to find the Flying Feather World, it encountered a violent hurricane.

And this violent hurricane was already the fifth violent hurricane they had encountered in the past half month. It seemed that they had walked into an area enveloped by a violent hurricane.

Xia Xiaochan said, "This violent hurricane is getting stronger and stronger."

Swish ~

A golden light flashed, and Luo Xiaobai stood on the golden light. She flew three thousand kilometers and returned to the Avenger in the blink of an eye.

"Tweet ~"

Little Gold hovered on the boat and flew out with a swish. He liked this environment very much because he could fly freely.

Luo Xiaobai glanced at Han Fei and Xia Xiaochan. "This violent hurricane is not ordinary. It's just the beginning, and there are already Half-King Wind Demons. Besides, the number of Half-King Wind Demons has clearly increased."

Han Fei said, "It doesn't matter. I suspect that two violent hurricanes are rolling together. Let's advance slowly and take down the Sea Shaking Wind Pearl first."

Luo Xiaobai said, "I just have an illusion. Do you think this place looks like the Wind Sky Canyon?"

Han Fei frowned and said in confusion, "There are no Wind Sky Wings here..."

Suddenly, Han Fei looked at the front, where the Void Vine burst out a distress signal.

Swish ~

Han Fei flashed with golden light and disappeared from the Avenger.

...

The Void Vine was no longer that lazy Void Vine. After so many years, he had already been a peak-level Venerable for five or six years.

Logically speaking, with the Void Vine's unique ability to travel through the void, it was almost impossible for even a Half-King to catch him.

However, in this violent hurricane, there was a creature that cut the void with the wind and blocked the Void Vine's escape route.

"How dare you, demonic plant! How dare you break into the Violent Wind Domain? You shall be executed!"

The bird spoke in human language, spewed green flames, and tore the void with its sharp claws, grabbing at the Void Vine.

However, the Void Vine instinctively mobilized the void storm, trying to kill this bird. However, the feathers on the giant bird's body were like blades, flying out one after another. The thousand feathers swept out, changing the wind field and disrupting the void.

Seeing that something was wrong, the Void Vine immediately crushed the jade slip and shouted, "Captain, help!"

"Huh? There are accomplices?"

The giant green bird issued an order in its heart and scanned its surroundings with its perception, but it didn't find anyone! However, it didn't know that it was just that its perception range was not large enough.

"Humph! Don't play mysterious! Die..."

Just as the Void Vine was about to be cut into thousands of pieces, a golden light quietly appeared. The giant green bird was startled, and the Thousand Feather Blade had already rushed over.

The small figure casually waved his hand, and the Thousand Feather Blade was sent flying back. The wind field here instantly shattered, and the void returned to normal.

The Void Vine came out with a swish, pointed at the green bird with a vine and said, "Captain, this bird is so unreasonable. It tried to kill me as soon as it saw me! It's definitely not a good bird..."

Han Fei glanced around, and information popped up in his eyes.

< Name > Storm Dragon Hawk

< Introduction > An ancient exotic creature that lives in places where storms are frequent. Its speed is as fast as a star mark, and it has an irregular escape technique in the wind. It can freely control the power of wind. Its feathers are like blades, can disperse like wind blades, and can gather like divine wings. This creature can't be underestimated.

< Level > 89

< Quality > Ancient Mutant

< Realm > Half-King

< Chaotic Qi > 298 wisps

< Battle Technique > Wind Piercing Void, Thousand Feather Divine Blade Slash, Barrier Breaking Demon Claw

< Collectible > Eye of the Dragon Hawk, Claw of the Dragon Hawk, Heart of the Storm...

< Absorbable >

< Remarks > The Storm Dragon Hawk is bad-tempered and difficult to tame.

Han Fei's heart did a flip. It turned out to be a Storm Dragon Hawk in the Half-King realm. It looked extraordinary. Han Fei's suppressing pressure pressed down, and the Storm Dragon Hawk felt a terrifying pressure on its body, making its soul tremble.

Buzz!

The big bird's body suddenly dispersed and turned into a gale, trying to escape.

However, Han Fei smiled. "Seal!"

With a thought from Han Fei, a hundred arrays appeared. The wind suddenly stopped, just like how the Storm Dragon Hawk blocked the Void Vine just now.

Buzz!

The wind gathered and turned into a big bird. The Storm Dragon Hawk said in horror, "A king?"

Bang!

The Storm Dragon Hawk was horrified. After realizing Han Fei's strength, it immediately cowered and hurriedly apologized, "I didn't know that a king was here. I didn't mean to offend you..."

“Um!”

Han Fei didn't care about the life of a Half-King now, but this Half-King seemed a little distracted, which made him a little curious.

Han Fei immediately looked into the distance. Unfortunately, the wind of the violent hurricane could tear apart perception. Even Han Fei's perception couldn't extend far.

But Han Fei was not in a hurry. He said, “Are there more of your kind in this hurricane?”

The Storm Dragon Hawk didn't want to answer, but Han Fei was a king, even if he hid it, Han Fei would still find out.

Therefore, the Storm Dragon Hawk said, “My lord, behind us is the hunting ground of my race and some itinerant humans. Please show mercy to us and let us go.”

“Huh? There are humans?”

Han Fei couldn't help narrowing his eyes. “It seems that... I've found humans who can survive in this wind domain!”

The Storm Dragon Hawk's heart trembled. What did Han Fei mean?

Han Fei was not in a hurry. Instead, he looked at the Void Vine and said, “Inform everyone on the Avenger to approach the Avenger. If you encounter a human-like powerhouse with wings, don't attack blindly.”

Hearing this, the Void Vine immediately realized that they had found the Flying Feather World.

Immediately, the Void Vine was overjoyed. “Yes, Captain.”

The Void Vine flashed and disappeared, and Han Fei frowned slightly. According to the Vast Ocean Navigator, the Flying Feather World and the Ashless World were in the same direction. Now that the Flying Feather World had been found, what about the Ashless World? Could it be that the Ashless World had really perished, or the two Heavenly Palaces had joined forces? Or, they hadn't found the Ashless World yet?

However, in any case, it was a good thing to find the Flying Feather World. In the past twelve years, the Avenger had been looking for people except for training. Now, only the Ten Color World, the Flying Feather World, and the Ashless World hadn't been found.

Now, he had found the Flying Feather World. Finally, before the Monarch Palace opened, he found another Heavenly Palace.

This was because Han Fei had planned to return to the core area of the Raging Sea in half a year at most.

Unexpectedly, he encountered the Flying Feather World at this moment.

In the violent hurricane, Void Vine's shadows appeared everywhere. He shouted, “The captain has ordered us to return to the Avenger and wait for orders.”

Swish! Swish! Swish!

One figure after another shouted, "Void Vine, which direction is the ship?"

The Void Vine turned into a beacon, and as guided by him, everyone immediately returned to the ship.

A moment later.

On the Avenger, the people all returned.

Xia Xiaochan was puzzled. "Why are you all back?"

Zhang Xuanyu asked, "Didn't the Void Vine inform us to come back?"

White Ferret: "It seems that everyone has been informed!"

Swish ~

Le Renkuang came out of the void. "What's up? I was hunting a Wind Demon in the Half-King realm and was about to take it down. What happened?"

At this moment, a blue light flashed, and a beautiful girl seemed to appear out of thin air. The girl's eyes were innocent, her hair was braided, and she was stuffing jerky into her mouth.

Xia Xiaochan asked, "Nian'er, where are Daji and the others?"

At this moment, Nian'er's strength was astonishing. Her technique and speed were so extraordinary that even Luo Xiaobai and the others couldn't see them clearly. And Nian'er seemed to have entered the Half-King realm without any resistance.

Nian'er said, "Ah! I'm not with them... Oh, right, Sister-in-law, I saw someone with wings."

"Someone with wings?"

Luo Xiaobai and Xia Xiaochan looked at each other. "Flying Feather World?"

At this moment, the Void Vine appeared. "Not good. Yi Xiyang and the others are surrounded by a group of birdmen, including three Half-Kings."

Luo Xiaobai's face changed slightly. "Let's go and take a look. Void Vine, tell them not to be hostile first. Just hold them off for a while..."

Chapter 1930: Flying Feather World

Over the years, the Avenger had been training and killing all the way, easily crushing all non-route areas. The crew's strength was many times stronger than when they left the Wild Abyss.

Even Yi Xiyang, Su Daiji, and the others had reached the peak of the intermediate Venerable realm. And most of them were already peak Venerables or Half-Kings.

Han Fei had already used all his resources to nurture them. How could the resources they hunted alone be enough to nurture so many strong masters in just 20 years?

It could be said that everyone here was a seed, an extremely talented person. Any one of them could shake a region.

In the past twelve years, the number of people on the Avenger had dropped to 53.

Now none of these people could be sacrificed.

At this moment, Yi Xiyan and the others were surrounded by seven or eight winged humanoids. There were also several big birds hovering in the wind, and someone was standing on them.

These people were quite special. All the winged humanoids had white hair. As for the people standing on the birds, they were no different from ordinary people.

At this moment, someone shouted at Yi Xiyan and the others, "Who are you? Where are you from? What is that demonic vine that escaped just now?"

Xing Yue said, "Everyone, you should be from the Flying Feather World, right? We are from the core area of the Raging Sea and are here to find the lost Heavenly Palace."

Compared to Yi Xiyan and the others, at this critical moment, they still needed someone calm to speak.

Xing Yue might be the weakest among them, but fortunately, he was smart and flexible, so he could be the leader of the five of them.

When these people from the Flying Feather World heard this, their expressions changed drastically. They are from the core area of the Raging Sea?

It had to be known that the ancient records all read that there were many powers in the Raging Sea and they were in chaotic wars with each other, so some Heavenly Palaces escaped and lived in seclusion for peace.

According to the iron law of the Flying Feather World, no one was allowed to leave the Violent Wind Domain.

Now, outsiders had come, which made them curious.

Most people didn't want to kill them at first. They were more curious. However, in the crowd, someone suddenly shouted, "Take them down. We can't let them leak the location of the Violent Wind Domain."

This person's words immediately reminded everyone, making them break out in a cold sweat. Yes, their ancestors had tried their best to escape the core area of the Raging Sea and find the Violent Wind Domain. Now that outsiders had come, the first thing they needed to worry about was not curiosity, but not to let these people go.

Xing Yue's expression changed slightly, but he didn't panic but said, "Don't attack."

However, a strong master from the Flying Feather World drew his bow and threatened, "Take us to catch the demonic vine that escaped just now. Otherwise, don't blame us for being rude."

Xing Yue suddenly looked up at the man and said, "Um! Ten..."

Everyone: "???"

Xing Yue: "Nine... Eight..."

Even if Xing Yue and the others were not as strong as these people, their calmness made these strong masters from the Flying Feather World shocked. What did he mean?

A woman shouted, "What do you mean? Do you think we dare not attack you?"

Xing Yue: "Five... Four..."

Swish ~

Seeing that Xing Yue didn't respond, a strong master of the Flying Feather World shot out an arrow. As the arrow shot out, Dao runes surged, and a phoenix phantom arrived in an instant.

Su Daiji suddenly roared and the hammer in her hand glowed golden. As she twisted her arm, lightning seemed to explode.

Clank ~

Boom ~

The attacker was an advanced Venerable. He had only wanted to teach Xing Yue a lesson. However, Su Daiji attacked and annihilated the power of the arrow with a hammer, but she didn't even take half a step back. This made the person furious.

Someone from the Flying Feather World was surprised. "That girl is so strong. No matter how weak Ye Feng's arrow is, it should be able to seriously injure her. But she doesn't even move?"

"Are all the people outside so strong?"

A woman who led the people suddenly released her suppressing pressure, trying to suppress Xing Yue and the others. Of course, when the suppressing pressure really came down, the five of them looked normal as if they didn't feel anything at all.

Xing Yue: "Three... Two..."

The leading woman's face turned cold and she attacked. She wanted to take Xing Yue down before he finished counting.

The void hand sealed the void. This was the power of a real Half-King, not giving them any chance at all.

At this moment, Gu Qi opened her armor box and slashed seven sword shadows in the air. This blow looked very similar to Han Fei's All Great Daos in One Sword. Of course, it was not as good as Han Fei in Dao runes. However, Gu Qi was full of fighting intent and cut open the void seal. The sword shadows pressed against the void hand and managed to withstand it.

The woman's face changed slightly. "Ultra-quality divine weapons... seven swords in one?"

As for the others, they were all shocked. A mere intermediate peak-level Venerable actually blocked a blow from a Half-King?

But when they heard this, they couldn't help but exclaim. Which intermediate Venerable was so extravagant as to have seven ultra-quality divine weapons?

Blood oozed from the corner of Gu Qi's mouth as she shouted in a low voice, "I'll borrow your hand to break my barrier."

Crack ~

With a crisp sound, although Gu Qi failed to pierce through the big hand, she made a breakthrough under the pressure of this sword.

This scene immediately made the woman's expression turn ugly. Did I attack just to let you make a breakthrough?

Just as she was about to take down the five of them, with a swish, the void broke open, and a big ship sailed steadily through a hurricane and appeared less than ten kilometers away from them.

As Xing Yue finished counting, he said with a smile, "Everyone, our reinforcements have come. Do you want to kill them all?"

Swish! Swish! Swish!

"Who dares to touch the people of the Avenger?"

"Bullying us with numbers? Is this the style of the Flying Feather World?"

"How dare you bully my junior sister?"

On the Flying Feather World's side, everyone was shocked. Someone said, "Qingxue, not good. They are all Half-Kings."

Someone exclaimed, "Hiss! Master Qingxue, there are so many of them."

On the bird's back, someone was shocked. "Did the outer domain discover us and attack us?"

Someone was horrified. "That ship doesn't look like a good ship. Master Qingxue, let's go."

Zhang Xuanyu quietly appeared in front of the five of them. Yi Xiyan immediately shouted, "Darling, you're finally here. We almost fought them."

Zhang Xuanyu rolled his eyes at Yi Xiyan, but then glanced at the weird people from the Flying Feather World, saying coldly, "Do you think it's fun to bully a few intermediate Venerables? Let's play?"

Qingxue's expression was ugly. The other party was aggressive and looked murderous. It was obvious that they were not good people.

Besides, among these people, there were demonic plants, ferocious beasts, humans, insects, and some guys who might or might not be members of the Sky Clan. Which race were these strange people from?

Qingxue suddenly shouted, "Run! Go back and report to the elders."

However, as soon as Qing Xue said so, she suddenly found that she couldn't move. Not only Qingxue, but all the strong masters of the Flying Feather Sky couldn't move. The ordinary Storm Dragon Eagles couldn't even flap their wings.

Around them, the violent hurricane seemed to have stopped. They wouldn't fall, nor could they move. They were like living fish waiting to be slaughtered.

At this moment, opposite Qingxue, many people shouted, "Captain."

"Brother ~"

"Feifei, don't tell me you just came."

Of course, Han Fei hadn't just come. He had been watching for a while. He came, but he released the Storm Dragon Hawk that was in the Half-King realm.

His intention was very simple. He just wanted the Storm Dragon Hawk to go back and inform them. Otherwise, it would be too presumptuous for the Avenger to suddenly descend.

Qingxue turned her head with difficulty and saw a young man beside her.

She couldn't help being shocked. A Sea Establisher? This was definitely a Sea Establisher.

Han Fei said leisurely, "What are you doing? Can't you be friendlier?"

Everyone was speechless. You want us to be friendly, but are you friendly to us? Under the suppressing pressure of the Sea Establishment realm, they couldn't even move.

Han Fei raised his hand, and these people were suddenly relieved, but they didn't dare to act rashly anymore.

Qingxue's face changed drastically. She quickly stepped back, looked up at Han Fei, and quickly lowered her head. "Greetings, my lord."

Han Fei put his hands behind his back and put on a high air. "Um! Let's just wait here!"

Qingxue and the other strong masters of the Flying Feather World couldn't help but wonder who Han Fei was waiting for. Someone worthy of a king to wait for was certainly their king.

Qingxue didn't dare to ask. If a Sea Establisher came, who could resist him but another Sea Establisher? At this time, she could only wait.

Han Fei asked, "Girl, are you of the same race?"

Han Fei looked at the normal humans standing on the backs of the Storm Dragon Hawks. They had no wings and their hair was not white. They looked just like normal people.

Qingxue gritted her teeth and finally said, "My lord, they are our allies of the Ashless World."

"Oh? No wonder."

No wonder the Vast Ocean Navigator pointed in the same direction when he was looking for the Ashless World and the Flying Feather World. Although he had guessed it before, he had to see it with his own eyes!

Han Fei nodded slightly. "So, the two Heavenly Palaces are hiding here to recuperate?"

This time, Qingxue didn't speak, but it was obvious the truth.

At this moment, two auras suddenly penetrated the storm and descended.

In the gale, a voice spun in the hurricane, and the voice seemed to come from all directions.

“Who are you? Why are you disturbing our Flying Feather World?”
