

GOF 1931

Chapter 1932: Try Fair Means Before Resorting to Force

“What? Brother Han wants to deal with Supreme Clearness and Infinity and unify the Thirty-Six Heavenly Palaces of the human race?”

Xie Yu and Li Yingtian were both surprised. They knew that Han Fei was a combative person, but they didn't expect him to be so bold.

These words were enough to make them shudder.

However, Han Fei said slowly, “Don't be scared. Perhaps you can change the words. Join forces with the other Heavenly Palaces of the Thirty-Six Heavenly Palaces of human beings to achieve internal unity and walk together to the Infinite Ocean.”

Xie Yu and Li Yingtian were speechless. Was there any difference? In the world of cultivators, strength was everything.

Han Fei was probably here not for rebuilding Heavenly Desolate City. His real purpose was to invite the Flying Feather World and the Ashless World to participate in the battle. After all, after the exploration of the Monarch Palace, the internal strife of the human race began. Some people had good opportunities, their strength grew quickly, and some had bad opportunities, so their strength grew slowly. The difference in strength gradually manifested, and many Heavenly Palaces had no choice but to choose to live in seclusion.

Their purpose of hiding was to avoid fighting. Now that Han Fei came to ask them to fight, who would be willing?

Xie Yu said, “Brother Han, this matter is too big. What we decide is the future of billions of human beings.”

Li Yingtian's expression turned ugly. “Brother Han, if you want to rebuild the Heavenly Desolate City and remove the curse, perhaps we can think of a way. With the relationship between the Yin-Yang World and Ashless World back then, we can help you. However, it's impossible for us to push our clansmen to the Raging Sea to fight the Heavenly Palaces like Supreme Clearness and Infinity.”

Han Fei didn't expect the two of them to agree immediately. He had already prepared an excuse.

Han Fei said, “Well, when I found the Flying Feather World and the Ashless World, there is only the Ten Color World among the Thirty-Six Heavenly Palaces that I haven't found. At present, there are already ten Heavenly Palaces that have formally allied with me. Some of them are just fence sitters. They will only side with the winner... I don't ask the entire Flying Feather World and the Ashless World to come out, but it would be great if the two of you and your Venerables can come out. In this way, when the human race is unified in the future, the two Heavenly Palaces will be considered to make contributions and are entitled to enjoy the benefits you deserve. It will be only natural for you two worlds to come out again and share the rich resources of the Raging Sea.”

Li Yingtian said with a straight face, "Brother Han, that's easy for you to say. There are only so many strong masters in the Flying Feather World and the Ashless World. If they come out, it's a question whether we can survive in the Violent Wind Domain, let alone the future."

Search VipNovel/ COM on google

Xie Yu also said, "Brother Han, although we rarely go out, it doesn't mean that we haven't gone out. More than 10,000 years ago, I secretly went to the Raging Sea, but after asking around, I learned that there are already Sky Opening Realm powerhouses in Supreme Clearness and Infinity. Brother Han, if you want to compete with Supreme Clearness and Infinity, your strength is probably still lacking!"

Han Fei said, "I'm not asking you to come out now. Although Supreme Clear and Infinity are strong, they're not invincible. You have to know that in the Age of Doom, the human race didn't have the Thirty-Six Heavenly Palaces. The human race should be united to explore a new territory and walk out of this domain. It wasn't until the appearance of the Monarch Palace that the Thirty-Six Heavenly Palaces were created. It's time for the human race to unite again. Supreme Clearness and Infinity fail their obligation and don't plan for the human race's future. They don't deserve to be the leader of the human race anymore. You don't have to fight for the time being. However... the Raging Sea will definitely have to witness a gory war in the future. The human race is a whole who shares weal and woe. How can you two sit by and watch as onlookers?"

At this moment, Han Fei's aura was extremely powerful. "When the war breaks out one day, no one can stay out of it!"

Xie Yu was silent for a long time. "Brother Han, why does the human race have to fight each other? Wouldn't it only benefit those sea demons?"

Han Fei grinned. "Do you think my goal is only Supreme Clearness and Infinity?"

The two of them couldn't help but be shocked. Who else could it be?

Han Fei said with a smile, "If it's just to deal with Supreme Clearness and Infinity, I, Han Fei, wouldn't have to find the disappeared Heavenly Palaces. When the human race is in danger, the sea demons are eyeing us covetously. They never give up the plan of wiping us out. How can this battle just be an internal strife of the human race?"

Xie Yu and Li Yingtian were horrified. Han Fei was going to launch a large-scale battle that would sweep the entire Raging Sea! Hearing his words, God knew how many people would die!

Li Yingtian immediately retorted, "Brother Han, do you know how many people your determination will sacrifice? Not to mention that the entire human race is not in your hands yet, even if it is, aren't you afraid that the entire human race will be destroyed?"

"Shortsighted."

Han Fei didn't give Li Yingtian any face at all and scolded, "The human race can't be reborn without destruction. If we don't unite, the situation here won't change in another hundred thousand years. If no one in the world wants to do it, I, Han Fei, will do it. I'll unify the human world, kill sea demons, break

through the mist, and leave the Monarch Palace. Since the two of you can become kings, you shouldn't be so timid. Don't you want your clansmen to have a better life?"

Han Fei's impassioned words made Xie Yu and Li Yingtian feel that this person was a lunatic. They never expected Han Fei to be so crazy. He was only in the Sea Establishment Realm. If he were in the Sky Opening Realm, they might have believed him, but he wasn't even in the Sky Opening Realm!

Li Yingtian and Xie Yu looked at each other. In their opinion, no matter what Han Fei said, he was just a stranger.

No matter how provocative Han Fei's words were, their strength was limited. They might observe the situation outside, but it was impossible for them to bet with their clansmen's lives.

Xie Yu said, "Brother Han, since you've made up your mind, we'll pay attention to the future battles. If it's really inevitable, we won't just watch. However, it's too early to talk about this. Let's see the result of the fight between you and Supreme Clearness and Infinity first, OK?"

Seeing that Xie Yu had already said it, Li Yingtian didn't say anything. Although he didn't like Han Fei's way of doing things, he acquiesced.

However, Han Fei said, "Brother Xie, although I have the capital to fight Supreme Clearness and Infinity, you two can't just sit by and do nothing, right? At least, you two need to show an attitude."

Li Yingtian immediately said, "If we show our attitude now, doesn't it mean that our two heavenly palaces need to come out first to meet the people in the Raging Sea?"

Han Fei smiled and said, "Just send one or two representatives at the right time. You just need to prove that you haven't disappeared and can still play a role."

Li Yingtian sneered. "In the end, you are still forcing us to come out. If you're really confident, why did you bother to come to us?"

Xie Yu said, "Hey... Brother Li, Brother Han is a guest after all. Don't be rude."

Li Yingtian shouted, "Humph! Han Fei, I've been tolerating you for a long time. If you respect us, we will try our best to entertain you. But what you do concerns billions of creatures, and even the entire human race. How can it be decided so easily?"

"Alas..."

Han Fei sighed slightly. "In the end, no matter which world I talk to, I can't avoid such a situation! However, there are only a handful of like-minded people. Although you have reached the Sea Establishment realm, you are just mediocre people. One is playing the good cop, and the other is playing the bad cop, trying to brush this matter off. As humans, you would rather hide like mice than take the human race to prosperity. You don't even want to show up. Do you really think I came all the way here just to chat with you?"

At this moment, Han Fei suddenly rose and looked at the sky. "Since there's another king, come out! Let me measure the strength of the three of you and see if you can really survive in the Raging Sea?"

“Chi la ~”

Han Fei pointed his finger, and a void vortex appeared in the sky, from which a big bird emerged.

Xie Yu’s expression was ugly. “Brother Han, aren’t you too impatient? We’ve just met.”

Han Fei snorted. “You’re idle all day long, but my time is precious. Since I can’t convince you, I’ll let you know that I can suppress you with strength.”

Li Yingtian shouted angrily, “Don’t talk big! As I guessed, You’re really up to no good! You want a fight just because you can’t convince us?”

Han Fei said, “Don’t worry. I won’t kill you. I just want you to know that there are still many people in this Raging Sea who can suppress and even slaughter you. Don’t think that you can get by for another tens of thousands of years just by holding a seemingly hidden Violent Wind Domain. Even without me, you will eventually disappear in the tide of history.”

Chapter 1933: Suppressing Two Heavenly Palaces Alone

As Han Fei released his aura, the appearance of the third king on the Flying Feather World’s side made them turn from friendly to fighting.

The main reason was that Han Fei was too domineering and directly suppressed Xie Yu and Li Yingtian.

In the eyes of cultivators, strength was everything. If Han Fei could only persuade them, it wouldn’t work.

This was Han Fei’s principle. Since he couldn’t convince them, he would just beat them into surrender. He was here to find power. If they refused to give it to him, he would just snatch it. Who could stop him?

Xie Yu shouted, “Since Brother Han wants to try, try it.”

They didn’t fight in the sky above the Flying Feather World. If the battle of the four kings really started, it would be earth-shaking. The Flying Feather World certainly couldn’t withstand it.

Fortunately, Han Fei only wanted to suppress them and didn’t intend to kill them, so the two parties still had some leeway.

In the void.

Swish swish swish!

The three people and one hawk fought into the void.

Xie Yu shouted in a low voice, “Fuse!”

Han Fei saw a huge manta ray enter Xie Yu’s body. His wings changed, turning black and gold, and a pair of bone blades was grabbed in his hand.

A huge wind-shaped bird appeared under Li Yingtian. He was holding a pair of scissors in his hand.

Li Yingtian shouted, "I'd like to see how strong you are. Can you really suppress the three kings alone? The Scorching Sun Scissors can cut anything in its way."

Han Fei found that his body began to burn, and a void sun locked his position like a Demon Revealing Mirror.

These people had been together for tens of thousands of years, so their teamwork was not bad.

In the void, when a huge pair of scissors burning with blazing sun locked onto him, Xie Yu's two bone blades spread infinitely like vines, as if they had become two bone whips.

Han Fei felt that his Qi and blood were being stimulated. This bone blade seemed to have the power to stimulate his Qi and blood. Once he was pierced by it, it would probably keep absorbing his blood.

At this moment, the two bone blades crossed and blocked his way.

As for the Storm Dragon Hawk, it flapped its wings. "Thousand Feathers Fusion Slash..."

Han Fei thought to himself, It seems that the Storm Dragon Hawk in the Sea Establishment Realm has more means. The Thousand Feathers Fusion Slash is indeed extraordinary.

However, Han Fei only exclaimed for a second.

When the so-called Scorching Sun Scissors were about to catch Han Fei, Li Yingtian couldn't help but hesitate, wondering why this person didn't fight back.

But in the next moment, with two clangs, Han Fei grabbed the scissors with both hands.

Li Yingtian's face changed drastically. The scissors were like red hot iron, and their temperature had reached an extremely high level. However, Han Fei didn't care and just resisted them with his body.

Bang!

The scissors were suddenly pulled apart by Han Fei, and the phantom was shattered. There were two bone blades behind him, which were so sharp that Han Fei could feel their piercing power from afar.

Hundreds of strange arrays appeared behind Han Fei. After they fused, a big shield appeared behind him.

Clang! Clang!

When the bone blades stabbed over, Han Fei didn't even look back. Instead, he raised his hand and opened his palm at the knife light of Thousand Feather Blade in the sky.

Clank ~

Han Fei pinched the knife light with one hand and suddenly slapped. With a bang, the ferocious slash was instantly shattered.

"Hiss ~"

After only a wave of tentative attacks, Xie Yu, Li Yingtian, and the Storm Dragon Hawk were all dumbfounded. Was this guy still a human? The three of them had unleashed their ultimate techniques,

but they couldn't even break this person's body. The other party could easily destroy their power attack?

It was also at this moment that the three of them seemed to realize why Han Fei had the confidence and capital to challenge Supreme Clearness and Infinity. This strength was really terrifying.

Li Yingtian shouted, "There's no need to test it. Attack directly. Fierce Gale Sun Explosion."

In the blink of an eye, a big hole was opened in the void by Li Yingtian. There was a dazzling sun, and essence fire shot into the void like a pillar. The illusory sparrow under Li Yingtian flapped its wings, and a storm followed in the void.

Outside, Luo Xiaobai and the others, who had just been entertained by some Half-Kings, suddenly looked up at the sky. The void pillar that suddenly appeared was obviously not Han Fei's doing.

Zhang Xuanyu was lost for words. "It seems that he still has to use force! Like what I said, since he can suppress people with force, why did he bother to try to persuade them?"

Le Renkuang said, "I knew it would be like this. Feifei is so hot-tempered."

Luo Xiaobai slightly shook her head. "Fortunately, it won't affect the overall situation."

Compared to the calmness of the crew of the Avenger, the people from the Flying Feather World and the Ashless World were not so calm. Many people secretly activated their strength in case something unexpected happened.

In the void, when the wind and fire mixed, a magnificent sea of fire burned Han Fei up. The scorching flames were no longer ordinary flames, but flames that had contained the Great Dao of Fire after they were condensed.

"You think you can live in seclusion with this little strength? How long has it been since you last walked out? Do you know how many strong masters there are in the Raging Sea?"

Han Fei walked out of the flames, his body shining with golden light. He didn't look like he was being roasted at all.

"Secret technique ~"

Xie Yu and the Storm Dragon Hawk immediately used secret techniques.

In the half of the void, there was only a claw shadow, which seemed to be the strongest attack of the Storm Dragon Hawk. When the hawk claw grabbed at Han Fei, Xie Yu held the bow, and the longbow had already exploded nine times in a row, which seemed to contain an extremely terrifying blow. Faced with their attack, Han Fei raised his hand and pointed. "All Great Daos in One Sword."

The sword dazzled the void and the hawk's claw collapsed. Han Fei sensed that the strength of this Storm Dragon Hawk was at most about the same as Mad Fourth King. In fact, it should be weaker than Mad Fourth King.

As for Li Yingtian, his Great Dao was ineffective against him. In Han Fei's opinion, Li Yingtian was the weakest of the three. Even with a secret technique, it was hard to say if his strength could compare to Feng Xinlan's.

The last one was Xie Yu. A black shadow thousands of meters tall was behind Xie Yu. Han Fei saw the huge manta ray open its mouth and suck the power of the world.

"Bo ~"

The manta ray spewed out its power, and arrows shot out. Han Fei could see dragon roars coming out of the arrows, and green phoenixes flying around the arrows. The void shattered layer after layer, and in the blink of an eye, the arrows arrived in front of him.

Han Fei suddenly raised his head, and his aura soared. He extended one hand and grabbed the swift arrow. This arrow made Han Fei retreat more than ten kilometers. Han Fei seemed to be almost pierced by the dragon and phoenix shadows, but in fact, he was still intact.

At this moment, Han Fei held the arrow in his hand to make it move another inch forward.

Buzz!

Seeing the arrow struggling, Han Fei extended his hands and suddenly broke it...

Crack ~

The arrow shattered, and power surged hundreds of thousands of kilometers.

Xie Yu looked shocked. Even this couldn't work? Taking an arrow with his bare hands? Was this really a Sea Establisher?

Han Fei sighed. "It must be hard for you to survive in the Raging Sea. You are weak, but if you trust me, there may be a chance for you in the future. Your attack is over. It's my turn."

All of a sudden, Li Yingtian, Xie Yu, and the Storm Dragon Hawk's expressions changed drastically.

Han Fei punched three times in a row, his fist marks rumbling with terrifying murderous aura.

Xie Yu tried his best. He shot 99 arrows in a row, but still failed to destroy Han Fei's attack.

Li Yingtian's Scorching Sun Scissors tried to break Han Fei's punch. However, the moment the Scorching Sun Scissors touched the Sacrificing Punch, they collapsed and couldn't even close.

As for the Storm Golden Hawk, it launched a void storm and managed to break this punch with the power of the void storm. But when it turned its head, it found that Han Fei was standing above its head.

At this moment, Han Fei put his hands behind his back and said leisurely, "How weak... The power you have been pursuing all your lives turns out to be so vulnerable. Let me tell you, with your current strength, it's almost impossible for you to become a Sky Opener. But if I reorganize the human race, perhaps you still have a chance."

Xie Yu and Li Yingtian were both sent flying thousands of kilometers away by Han Fei before they managed to rush back, dripping with blood.

With a thought, Xie Yu looked at Li Yingtian and the Storm Dragon Hawk, and they stopped. With Han Fei's strength, there was no need for them to ask for insults.

"Cough, cough ~"

Xie Yu said, "Thank you for your mercy, Brother Han. If the battle begins in the future, we won't sit idle. When the time comes, we will take action."

Han Fei casually threw out three jade slips and said, "When the jade slips shatter, it will be the time when I need manpower. Before I can clearly resist and attack a Sky Opener, I won't use you easily."

At this point, what else could Xie Yu and Li Yingtian say? As long as this person was willing, he could destroy the Flying Feather World with his bare hands. Even if the three of them joined forces, they had no chance of winning. At this moment, they had no choice but to surrender.

Han Fei mumbled in a voice that only he could hear, "You just asked for a beating."

Chapter 1934: Chaos in the Human Race

Although Han Fei had planned to suppress them with force, he always asked for their opinion first. Unfortunately, the long years had worn out their fighting spirit.

The arrival of Han Fei and the Avenger wasn't widely publicized.

The only anomaly was that the Sun Essence Fire penetrated the void, and they told the others that it was a king cultivating.

Han Fei scanned the Flying Feather World with his perception and found that there were not many Venerables here. There were only about 600 Venerables in the Flying Feather World and the Ashless World, and there were only seven or eight more Half-Kings than on the Avenger.

After the battle, Xie Yu and Li Yingtian became polite to Han Fei.

Li Yingtian even said, "Brother Han, you can decide when to rebuild the Heavenly Desolate City. We just need to find a floating island. All the Heavenly Palaces have taught how to draw the array of floating islands. I think you know how to draw it, right?"

Han Fei said, "No rush! Since the Ashless World is still there, there will be a day when the Heavenly Desolate City will be rebuilt. When the Ash Sky really reappears, I will rebuild the Heavenly Desolate City."

Hearing this, Li Yingtian hurriedly nodded. If Han Fei didn't mention it, he would have forgotten that Heavenly Desolate City was his original main city.

Since he had already subdued Xie Yu and Li Yingtian, Han Fei certainly wouldn't stay long. It had been almost 21 years since he left the Yin-Yang World. It was time to go back.

Half a month later.

On the Avenger, Xia Xiaochan and Han Fei sat on the mast, and Xia Xiaochan said, "When will the Heavenly Desolate City be rebuilt? If it needs a floating island, I know that there are seabed floating stones in the Sea of Fog."

Han Fei smiled. "Do you remember what Li Huang shouted at us?"

Xia Xiaochan nodded. "When Heavenly Desolate City is built again, my name will return to the Heavenly Palace."

Xia Xiaochan tilted her head and said, "Now that I think about it, although Li Huang was strong back then, he was at most in the Venerable realm, right?"

Han Fei shook his head. "I think so. But maybe he was seriously injured and couldn't exert his peak strength? Or maybe, Heavenly Desolate City fell and all the strong masters were killed. Li Huang was the last Venerable, so he roared like that before he died."

Xia Xiaochan said, "I really don't understand. Humans are plagued by internal and external troubles. How can they be in the mood for these messy internal conflicts?"

Han Fei shook his head helplessly. He could only say that the treasures they found in the Monarch Palace were very tempting. After all, those treasures created more than a hundred kings.

Later, these kings entered the Imperial Palace again. Although most of them died, the survivors found a way to build the Thirty-Six Heavenly Palaces. At least they got a peerless path, with which they could continue to walk on for a long time.

As for going to the Monarch Palace again, these kings probably didn't dare to go there. Perhaps some had gone there, but no one said anything. As for whether the Sky Opening realm powerhouses were also related to the Monarch Palace, no one knew.

All in all, the resources in the Monarch Palace were precious. Any random treasure could cause chaos for tens of thousands of years.

Suddenly, Song Kaiyuan appeared on the deck, holding a broken jade in his hand with an ugly expression.

Han Fei frowned. "What happened?"

Song Kaiyuan said, "Something might have happened to the Raging Sea. This is the warning talisman of our Supreme Mystic World. It will only break when something serious happens in our Supreme Mystic World. It's a warning to the disciples outside to protect themselves."

Han Fei frowned. The Supreme Mystic World and the others had been standing firmly in the inner domain for tens of thousands of years. With the Sword God World around, who dared to touch them?

But even so, there was still a problem. It was only a year or so before the Monarch Palace opened.

Han Fei's face immediately changed. "We're not looking for the Ten Color World anymore. Let's go back."

Han Fei made a prompt decision and scanned around with his perception, transmitting his voice to the crew of the Avenger who were training in all directions.

"Everyone, return. Let's go back to the Raging Sea."

...

In the 13 years since they came out of the Nine Palace World, the Avenger seemed to have disappeared in the Raging Sea, and no robbery had anything to do with them.

This made many people think that Han Fei and his crew had been secretly solved by someone.

The Avenger quickly retreated from everyone's vision, but now a new big event occurred. The Grand Pure Palace used the excuse that the four Heavenly Palaces of the Sword God didn't fulfill their duty to resist the sea demons as an excuse and launched an attack on the Sword God World.

When the soldiers of the Supreme Clearness World attacked the Sword God World, the Infinity World was patrolling the thirteen worlds in the outer domain.

There was a Sky Opening realm powerhouse in the Sky Opening Realm powerhouse, who was enough to stop the Sword God, and Patriarch Infinity, Bei Luo Chen, who was also in the Sky Opening realm, was patrolling the thirteen worlds in the outer domain. People immediately smelled a conspiracy.

Supreme Clearness and Infinity, one was attacking the inner domain, and the other was suppressing the outer domain. What was their purpose of doing this before the opening of the Monarch Palace?

Thirteen days passed.

In the Raging Sea, a golden light flashed every hundreds of thousands of kilometers. The frequency was so high and the speed was so fast that anyone who saw it would be dumbfounded.

In the thirteen worlds in the outer domain, Han Fei was only familiar with two. One was the Snow God's Temple, and the other was the Million Poison World.

In terms of intimacy, it was the Snow God's Temple. The Snow Lady had already formed an alliance with him, and the Snow Lady was extremely dissatisfied with Supreme Clearness and Infinity.

Therefore, Han Fei's first stop was the Snow God's Temple.

Of course, Han Fei could also go to the Martial Emperor City to get some information, but once he appeared in the Martial Emperor City, it meant that the news of his return had been leaked. Therefore, Han Fei didn't do that.

Snow God's Temple.

Ice Snow Chuling was drawing some arrays in the Snow Academy when suddenly, a golden light flashed in front of her.

"Who is it?"

In an instant, Snowmourned stabbed at the golden light. However, Snowmourned couldn't be pushed forward at all. When the golden light dissipated, Han Fei's figure appeared in front of Ice Snow Chuling.

Snowmourned was held by Han Fei with a finger and couldn't move at all.

"You?"

Han Fei was not in the mood to chat with Ice Snow Chuling at all. Because he didn't know the real location of the Snow God's Temple, even if he had the Vast Ocean Navigator, it was inconvenient for him to break into it, so he came to Ice Snow Chuling.

Han Fei said, "Ask your master to come out. Hurry up!"

As he spoke, hundreds of arrays were stacked under Han Fei's feet, which was to conceal him. What if he met Yun Tianhe from the Infinity World like last time?

This time, the one who came was not Yun Tianhe but Beiluo Chen, who was a real Sky Opener.

Hearing this, Ice Snow Chuling immediately summoned a snowflake. With a thought, in less than three seconds, a pile of snow in the courtyard turned into a human.

The Snow Lady said, "There you are!"

Han Fei asked, "What happened while I was away?"

The Snow Lady said, "The human race is in chaos."

Han Fei's eyelids twitched. "What happened?"

The Snow Lady said, "You should know that the Monarch Palace will open in less than a year and a half, right?"

Han Fei said, "Of course I know, but what does it have to do with the chaos of the human race?"

The Snow Lady said simply, "Supreme Clearness and Infinity want to take this opportunity to kill their enemies, or rather, to kill you. Supreme Clearness, Golden Crow, Dream Weaving, and Dragon Subduing attacked the four heavenly palaces of the Sword God and restrained the four heavenly palaces from doing anything. The Infinity World took the opportunity to patrol the thirteen worlds in the outer domain because they wanted to take down the Yin-Yang World and the Water-Wood World. In the end, it's because you grew too fast and were too combative. Your existence threatens their dominance. And the Monarch Palace is about to open, so at this moment, they used some method to shake the Wild Abyss. This means that they have long since had the ability to shake the Wild Abyss, but they just erupted at this moment to lure you out."

The more Han Fei listened, the uglier his expression became. The old dog Infinity was really sinister. Last time, he thought that he got nothing. It turned out that the purpose of the projection was probably not to cause trouble at all, but to destroy the two worlds, or to transmit the information about the situation inside to the outside.

In the past, the cage was normal. Even if he could project a projection over, it was useless and couldn't have much effect.

Now that the Yin-Yang World and the Water-Wood World's cage were seriously broken, this guy came up with this evil plan.

Why did they start at this point of time? Han Fei could guess their purpose. Perhaps it was because of his performance in the Land of King Death and the Martial Emperor City that Supreme Clearness and Infinity wanted to solve this unstable factor before the Monarch Palace opened.

And he had the Twin Divine Technique and an extremely brilliant disguise technique, so with ordinary methods, they couldn't catch him. Therefore, they came up with such a vicious plan.

They attacked the four heavenly palaces of Sword God probably just to stop the Sword God from helping him again. Bei Luo Chen was patrolling the outer domain, on one hand, to overawe the thirteen worlds in the outer domain not to cause trouble, and on the other hand, to solve the Yin-Yang World and the Water-Wood World.

Han Fei frowned slightly. "How many people from the Infinity World have come? Is it only Bei Luo Chen, or are Yun Tianhe and the other kings all here?"

The Snow Lady said, "They didn't all come. The Infinity World needs a strong master to guard it anyway. After all, they are in the inner domain. If the Merman Royal Family takes this opportunity to attack, wouldn't the Infinity World be destroyed? Therefore, if Bei Luo Chen comes, Yun Tianhe will definitely guard the Infinity World. As for the other kings, even if they come, we won't know. But conservatively speaking, one or two kings will definitely come. In addition to the Infinity World, there are also the Golden Crow World and the Dream Weaving World. They will definitely send kings over secretly."

Han Fei asked, "Will Bei Luo Chen ask the kings of the thirteen worlds in the outer domain to take action?"

The Snow Lady looked at Han Fei. "What do you think?"

Han Fei's heart sank. He probably would. Since he, a Sky Opener had come, he would definitely ask the worlds in the outer domain to do this.

Han Fei asked, "Has Bei Luo Chen been to the Ice Snow World in person?"

Seeing the Snow Lady nod slightly, Han Fei smiled coldly. "In that case, don't blame me for being ruthless. I'll handle this. Don't worry..."

Chapter 1935: Luo Xiaobai's Precise Analysis

After learning the basic situation of the Raging Sea, Han Fei stopped training his soldiers. It was meaningless to train them at this time.

Han Fei only called Luo Xiaobai and the others out for a simple discussion.

For Han Fei, Luo Xiaobai was the one he thought had the highest intelligence among his men. More importantly, even if the others were highly intelligent, he might not listen to them.

At this moment, the five of them were sitting around the hot pot and listening to Han Fei's simple explanation.

Zhang Xuanyu cursed, "A*shole, how can a Sky Opener be so shameless? One of the top two Heavenly Palaces is blocking our reinforcements, and the other is ambushing for us. They're obviously trying to kill us."

While chewing the garlic sea cucumber, Le Renkuang scolded, "These people are too bad. They are also human beings. How can they attack the billions of human beings in the Yin-Yang World and the Water-Wood World?"

Xia Xiaochan said, "There are countless creatures in this world. It's said that the human race is only one of the millions of races in the sea. The rise and fall of races might be nothing in the eyes of the real strong masters. It's said that when the Raging Sea was in chaos back then, although many strong masters died, even more ordinary creatures died. Therefore, they might really attack the Yin-Yang World and the Water-Wood World."

Zhang Xuanyu said, "Feifei! You have to listen to me. We can't walk into the trap. You're not the savior. If Bei Luo Chen really dares to attack the Yin-Yang World and the Water-Wood World, we'll kill him when we rise up in the future."

Le Renkuang nodded quickly. "Yes! Their purpose is actually to kill you alone. In fact, they might not really slaughter all living beings."

Xia Xiaochan said, "Yes! They might divide the power of the Yin-Yang World and the Water-Wood World, but they might not be so ruthless to the entire human race."

Han Fei took a bite of the lobster meat and then looked at Luo Xiaobai. "What do you think?"

Luo Xiaobai came back to herself and said, "Oh! I'm thinking about a question."

Han Fei asked, "What?"

Everyone looked at Luo Xiaobai.

Luo Xiaobai asked, "Is Bei Luo Chen going back to the Monarch Palace?"

Zhang Xuanyu immediately slapped his thigh and said, "Then there's a 99% chance that he won't. How many Sky Openers are there in the Raging Sea? Isn't it because there are Sky Openers guarding the Infinity World that it can rank among the top three? Who will guard the Infinity World if he goes to the Monarch Palace? Isn't he afraid that the Infinity World will be destroyed?"

Luo Xiaobai said, "That's right. Bei Luo Chen won't go to the Monarch Palace, so he came to the outer domain to patrol and try to break through the Wild Abyss. The Supreme Clearness World's Sky Opener won't go to the Monarch Palace, so he led a few Heavenly Palaces to attack the four heavenly palaces of the Sword God."

Han Fei seemed to understand. "What do you mean?"

Luo Xiaobai said, "You said earlier that the four heavenly palaces of the Sword God and the heavenly palaces led by Supreme Clearness and Infinity seem to be united, but in fact, they are fighting against each other. Then, even without you, they won't allow anyone from the four heavenly palaces of the Sword God to go to the Monarch Palace, right?"

Han Fei nodded. "Yes! The Sword God guards a sea area and the four heavenly palaces alone. Supreme Clearness and Infinity are also quite afraid of him. If another one appears... Oh, did the appearance of Wang Yijian change their minds?"

Yes, Han Fei's heart trembled. Wang Yijian he pretended to be was too eye-catching. He killed a king with one slash, and what he was using was a higher-level power. This inevitably made Bei Luo Chen and the Old Demon Supreme Clearness feel a sense of crisis. They must have thought that if Wang Yijian reached the Sky Opening Realm, wouldn't the Sword God World have two Sky Openers?

Therefore, there might be another reason for them to seal the four heavenly palaces of the Sword God now. They wanted to take down Wang Yijian, or to make sure no one from the four heavenly palaces could enter the Monarch Palace this time.

However, Han Fei asked in confusion, “Are they going to reestablish the absolute dominance of Supreme Clearness and Infinity in the Raging Sea?”

Luo Xiaobai said, “Let’s not think about their intentions for now. They didn’t take action for decades but chose to do so now. Why?”

Before anyone could give an answer, Luo Xiaobai said, “In fact, they aren’t sure if you will go to the Wild Abyss to fight them because of the reappearance of the Yin-Yang World and the Water-Wood World. Therefore, in the first few decades, they didn’t take action because you had too much time to make a choice. If they couldn’t catch you, they might slaughter some people, but wouldn’t their Dao heart be covered in dust if they kill all the people?”

Xia Xiaochan said, “Speaking of Dao hearts, if Han Fei doesn’t go, will he...”

Xia Xiaochan looked at Han Fei. She wasn’t sure either. Because Han Fei often mentioned the Dao heart, everyone realized the importance of the Dao heart.

Han Fei was silent for a while. “Maybe, maybe not.”

Han Fei estimated that there was a great chance that his Dao Heart would be affected. He wasn’t sure just because he didn’t feel that deep about the Yin-Yang World and the Water-Wood World.

Of course, it wasn’t that he didn’t have any feelings for them. He was the one who contributed the most to the development of the Yin-Yang World. Besides, he came out with the hope of the billions of creatures in the Yin-Yang World and Water-Wood World. If they didn’t see him at the last moment, how disappointed would they be?

Luo Xiaobai was silent for a while and didn’t dwell on the question. Instead, she continued, “I don’t think they paid such a huge price just to affect Han Fei’s Dao heart. They chose to take action at this time probably because it will take them time to break the cage of the Wild Abyss. And I’m afraid it will take more than a year... Why? If the Wild Abyss opens at the last moment before the Monarch Palace opens...”

Luo Xiaobai looked at Han Fei. “If that’s the case, are you going to the Monarch Palace or not?”

Han Fei: “...”

Everyone :”...”

“Hiss ~”

Zhang Xuanyu couldn’t help taking a breath. “So this is their purpose? These old b*stard prepares to attack the Yin-Yang World right before the Monarch Palace opens to prevent Feifei and us from going to the Monarch Palace!”

Xia Xiaochan was lost for words. “Only Han Fei, not you. They won’t care if you go to the Monarch Palace or not.”

Zhang Xuanyu :” ...”

Le Renkuang patted Zhang Xuanyu’s shoulder and said, “Brother, accept reality.”

Zhang Xuanyu :” ...”

Han Fei, on the other hand, pondered for a long time, and then the corner of his mouth trembled a few times as he cursed, “Son of a b * tch, why didn’t I think of this? There must be a time limit for the opening of the Monarch Palace. If I’m late, I probably won’t be able to enter. Anyway, that old b * stard, Bei Luo Chen, isn’t going. He doesn’t care at all. If I don’t go to the Wild Abyss, he can seize the Yin-Yang World and the Water-Wood World. No matter what, he won’t suffer a loss... This old sinister b*stard.”

Luo Xiaobai said, “No, if you don’t go to the Wild Abyss, he will definitely slaughter all the strong masters in the Yin-Yang World and the Water-Wood World and force you to come out. At that time, you will be caught in a difficult choice. Not only will your Dao heart be covered in dust, but it will also be difficult for you to rationally take control of the situation.”

Everyone couldn’t help but look at Han Fei. The pressure was too great. They couldn’t help but pity Han Fei. Although Han Fei was really strong, he hadn’t reached the Sky Opening realm yet. Faced with such a choice, no one except Luo Xiaobai could make a choice.

After a long time, Han Fei took a deep breath and said, “Well, there’s still more than a year before the opening of the Monarch Palace and the Wild Abyss. They are really cunning, but whether I go or not, how can I let them get away with it easily... They want to force me? Heh, in their dreams...”

Luo Xiaobai asked, “What are you going to do?”

Han Fei grinned. “Let’s wait and see.”

...

After the meal, Han Fei turned back into Wang Yijian, with fluttering white hair, carrying a broken sword on his back, and looking gloomy.

He chose to go to the Wild Abyss first.

Since Bei Luo Chen had come to destroy the Wild Abyss, he would definitely wait for him. Therefore, Han Fei wasn’t afraid that he wouldn’t discover him. And with the Golden Light Movement Technique, he wasn’t afraid of Bei Luo Chen.

One day passed.

Han Fei made sure that he was at his peak before he used the Golden Light Movement Technique and rushed to the center of the Wild Abyss. This would definitely expose the golden light movement technique, or rather, the Golden Light Movement Technique would be identified as Wang Yijian’s unique technique.

Several hours later, Han Fei subconsciously pinched his fingers and stopped moving. He stopped in the vortex storm.

Han Fei took the Nine Palace Luck Ruler, and the marker soon fell on the “Ominous”. Although it tried to move towards the “Greatly Ominous”, it still pointed at the “Ominous” in the end.

Now.

Han Fei smiled and flashed another hundred thousand kilometers.

Suddenly, Han Fei’s eyes met a gaze in midair.

Han Fei had seen this gaze more than once. Last time, in the Wild Abyss, his eyes had met Bei Luochen’s once, but at that time, he was Han Fei. Now, he was Wang Yijian.

Similarly, with a quick glance, Bei Luochen disappeared.

As the saying went, enemies see red the moment they meet. Han Fei pretended to be Wang Yijian and killed Bei Xuanbing with one slash in the Medicine King World. Bei Luochen hated him to his guts.

Now, seeing that Wang Yijian had walked into the trap, how could he not come?

In just one second, Bei Luochen appeared 200,000 kilometers away from Han Fei. At this speed, Bei Luochen’s speed was actually not much different from Han Fei’s. However, Han Fei’s Golden Light Movement Technique hadn’t reached its limit.

When Bei Luochen was a hundred thousand kilometers away, Han Fei immediately said, “Okay, stop there. Otherwise, I won’t talk to you.”

However, how could Bei Luochen listen to Han Fei? He still rushed forward with all his strength, but Han Fei flashed with golden light in disdain and retreated 200,000 kilometers.

Seeing this, Bei Luochen was stunned. He looked around and found that Wang Yijian had appeared more than 200,000 kilometers away. This speed was probably not much slower than his!

Han Fei said, “Old b * stard, you’re not qualified to catch up with me.”

Bei Luochen certainly didn’t believe it. He accelerated, but after three seconds, Han Fei didn’t move at all. With a flash of golden light, he disappeared on the spot and appeared hundreds of thousands of kilometers away. Bei Luochen was surprised. What kind of combat skill was this?

Chapter 1936: Shakes A Sky Opener with A Slash

Bei Luochen was not stupid. After chasing for two or three seconds, he stopped. His purpose here was to deal with Han Fei. He didn’t know why Wang Yijian appeared.

Besides, wasn’t Wang Yijian in the Sword God World?

Bei Luochen stood in the void, and his voice fell into Han Fei’s ears from more than 200,000 kilometers away. “Wang Yijian, how dare you appear in front of me? Even if you have a magical movement technique, if I’m willing to pay the price, do you think I can’t catch up with you?”

Han Fei said indifferently, “Try it.”

Han Fei’s voice was indifferent and firm, as if inviting Bei Luochen to fight him.

Bei Luochen's eyelids twitched. "Why are you here? Since you're not here to challenge me or stop me from attacking the Wild Abyss, are you here for Han Fei?"

Han Fei crossed his arms and raised his head, looking at Bei Luochen disdainfully and said, "You blocked the Sword God World and attacked the Yin-Yang World. Do you Supreme Clearness and Infinity really think you're invincible?"

Bei Luochen sneered. "The ones blocking your four palaces are the Supreme Clearness World, right? What does it have to do with our Infinite World?"

Han Fei said, "We both know it. Why pretend?"

Bei Luochen snorted. "Then did you kill Xuanbing in order to protect Han Fei back then?"

Han Fei said indifferently, "Yes, so what?"

Bei Luochen's breath trembled. Although he was furious, he really couldn't do anything. As he said, even if Wang Yijian's movement technique was astonishing, if he really used his full speed, he might be able to take him down. But the price...

Bei Luochen said with a straight face, "Tell me, why are you here? Don't tell me you came to chat with me!"

Han Fei's eyes were cold. "I'm here to help Han Fei deliver a message. Listen... Old b * stard Infinity, if you want to touch my Yin-Yang World, don't blame me for being unscrupulous. From today on, the human world will be in chaos, so will be the Thirty-Six Mystic Worlds. I hope you, Infinity World, can bear with it."

Hearing this, Bei Luochen couldn't help but laugh. "Han Fei, you brat, you don't even dare to say a word to me in person. This is the first time I've heard such ridiculous words... Let's see what he, a mere new king, can do to disturb the human world."

Han Fei was unmoved and kept a cold face. He said, "Oh! By the way, those who are going to disturb the human world also include me."

"Hmph!"

All of a sudden, Han Fei felt a black moon rise in the sea.

Swish ~

Han Fei's face changed slightly, and he felt that the void within a hundred thousand kilometers became sticky. How could Bei Luochen launch an attack from such a distance? Was an emperor so powerful?

In an instant, Han Fei activated the golden movement technique and began to escape.

However, Han Fei found that the black moon was glowing with a hazy yellow light. Wherever the yellow light shone, there seemed to be a barrier being born.

However, Han Fei didn't expect this change, so this time, he was supposed to jump 300,000 kilometers each time the golden light flashed.

But the real distance was only 60,000 kilometers.

"Hiss ~"

"Hiss ~"

Han Fei gasped. The Sky Opening realm was indeed extraordinary. He thought that he could ignore the Sky Opening powerhouses with his golden light movement technique, but now it seemed that he had underestimated his opponent.

Bei Luochen came extremely fast. After all, for a powerhouse like Bei Luochen, his speed had long reached the upper limit. However, as the old turtle said, they wouldn't do that.

Han Fei only ran 60,000 kilometers this time, which gave Bei Luochen a chance. The moment Han Fei's golden light flashed, Bei Luochen arrived.

Not knowing where Han Fei was going, Bei Luochen only chased him to the place where Han Fei escaped.

At this point, the two were 60,000 kilometers away, and Bei Luochen laughed. "Wang Yijian, do you really think I want to listen to your nonsense? Black Moon in the Sky."

Within a hundred thousand kilometers, a strange black fog descended, and a pair of scarlet eyes aimed at Han Fei.

In the blink of an eye, Han Fei was targeted by these scarlet eyes. Han Fei felt his body stiffen.

Immediately, Han Fei said, "This place can't be sealed."

Swish!

Another golden light appeared, and Han Fei broke through the black curtain in an instant. However, because of the black moon, Han Fei's speed was still not fast enough. After leaving the black curtain, he only appeared thirty thousand kilometers away from the black curtain.

Was this distance considered a distance for Bei Luochen?

But Han Fei didn't panic. The shattered sword was in his hand, and the Immortal Qi and the Fiendish Qi surged. The sword fell like a Great Dao, flashed in the sky, and shattered the void layer by layer, slashing directly at Bei Luochen.

Bei Luochen had long known that Wang Yijian had immortal energy and fiendish energy, but he had never seen how he used them. This time, he was shocked. This sword contained both the Great Dao and infinite killing intent, like the combination of immortals and fiends. Bei Luochen could almost predict that only a handful of Sea Establishers could withstand this power.

However, Bei Luochen was a Sky Opening Realm powerhouse after all. He waved his hand, and a black full moon instantly disappeared into the void.

Faced with his slash, Bei Luochen shouted, "The Sea Establishment realm is the Sea Establishment realm. Even if you've mastered the power of the Sky Opening realm in advance, you're still in the Sea Establishment realm."

Bang!

The Immortal Fiend Saber erupted, and the boundless void shattered. However, when it collided with the black moon, it failed to advance an inch. Furthermore, the sword runes shattered as if it was about to break apart at any time.

Seeing the pair of scarlet eyes continue to look at him, Han Fei took advantage of the fact that his body could still move and used all his strength to increase the speed of the golden light movement technique to the fastest, which was the speed of light.

At that moment, Han Fei saw his spiritual sea, his past life, and everything else flash before his eyes. But Han Fei clearly knew that these were his memories, his spiritual world.

But apart from that, Han Fei saw a faint blue color. Han Fei's heart stirred. It was the river of time. Having experienced the river of time, he recognized it immediately.

In addition to the flowing river of time, Han Fei also saw a void with starlight specks like a sea of stars.

Apart from the sea of stars, there was also a white hole that led to nowhere.

Apart from the white hole, there was a staircase, leading to nowhere too.

Han Fei was stunned. At extreme speed, he seemed to be able to choose where he wanted to go? However, Han Fei had no idea what this choice meant.

Han Fei didn't know what the white hole, the sea of stars, and the stairs meant.

The only thing Han Fei was familiar with was the river of time.

At this moment, although Han Fei's thoughts seemed to stop for a moment, he could feel that he was rushing into the sea star void.

Han Fei gritted his teeth. He wasn't strong enough now. There might be great secrets in these places. If he wanted to visit those places, there would be plenty of opportunities in the future. He wasn't in a hurry at this critical moment.

Therefore, Han Fei rushed to the river of time without hesitation. Although Han Fei wasn't that proficient in the Great Dao of Time, Nian'er had grown up now. Every once in a while, he would discuss the secret uses of the Time Technique with Nian'er.

But this was the first time Han Fei had entered the river of time.

Nian'er also mentioned the river of time, saying that if one entered the river of time, he couldn't be attracted by anything outside of time, nor could one swim along the river of time. The former would

easily cause him to go to unknown eras and places, which would be noticed by the Heavenly Dao. And following the river of time, one could easily get lost.

Therefore, Han Fei would only come in for a moment.

“Bo ~”

The moment Han Fei rushed into the river of time, his body suddenly showed signs of exhaustion. He felt that his vitality was being consumed by time.

Immediately, Han Fei activated the Great Dao of Time to resist the destructive power of the river of time. At the same time, he made the Dao runes of time flow backward to resist the flow of time so that he wouldn't deviate from the current world.

Buzz!

After entering for at most a second, Han Fei rushed out of the river of time. Seeing that his body was covered with some time Dao runes, which was a sign that he hadn't returned to normal time, Han Fei issued an order in his heart and disappeared.

When Han Fei came out again, he glanced around and saw the scene of the Immortal Fiend Saber shattering and the void collapsing 600,000 kilometers away.

Bei Luochen, on the other hand, looked at Han Fei indifferently and in surprise. How did this guy do it? He could reach the limit of speed?

Han Fei didn't stop. Golden light appeared on his body as he kept fleeing. Even if Bei Luochen chased after him, he wouldn't be able to catch up unless he kept maintaining the limit of speed.

Above the sea, the black moon dissipated, and the scarlet eyes disappeared. Bei Luochen took a deep look in the direction where Han Fei left.

He murmured, “This guy is half a step into the Sky Opening realm. He's a bane after all. Sword God World...”

...

Millions of kilometers away, Han Fei appeared. The moment he appeared, he activated the Heaven Enlightenment Divine Technique and his stiff body recovered.

“What a terrifying spiritual beast. Black Moon Void Sky Leech, Infinity Wheel... It's indeed terrifying.”

Han Fei twisted his body, and the Vast Ocean Navigator appeared in his hand. As the Vast Ocean Navigator spun, golden light flashed, and Han Fei disappeared.

Chapter 1937: Slaying the Five Elements World, Shaking the Outer Domain

After the battle between Han Fei and Bei Luochen, Bei Luochen didn't dare to leave the Wild Abyss. He was afraid that this was Wang Yijian's trick to lure him away.

Therefore, Bei Luochen only summoned a king of the Infinity World closest to him and asked him to inform others.

About two hours later, in less than half a day.

The Five Elements World.

In the Heavenly Palace.

Gong Zhan was drinking with a middle-aged man when he said, "Brother Chaofeng, if the Infinity World can quell the chaos in the Wild Abyss and force Han Fei to appear and kill him, the Thirty-Six Heavenly Palaces will definitely return to peace and we can take down the four heavenly palaces of the Sword God in one fell swoop. Wonderful!"

The middle-aged man smiled. "This time, the patriarch has personally taken action. If Han Fei dares to appear, he won't be able to escape. I'm just afraid that he will give up the Yin-Yang World and the Water-Wood World."

Gong Zhan's face also sank. "We can't rule out this possibility. This guy is quite ferocious, strong, and lawless. It's hard to figure out what he's thinking. The Yin-Yang World has returned for revenge. In the past decades, Han Fei never stopped causing trouble to us!"

With that said, Gong Zhan cupped his hands at the middle-aged man and said, "Brother Chaofeng, thank you for your help during this period of time. However, with you here, the Five Elements World will be safe, and I won't have to worry."

The middle-aged man laughed. "Brother Gong, don't be frightened by that brat. Let him jump around. Let's see how long he can jump around after the Yin-Yang World reappears. As for the safety of the Five Element World, if that brat Han Fei really dares to come, it'll be a great opportunity for me, Li Chaofeng. I'll kill him, seize his resources, and search his soul. Wouldn't that be great?"

The two of them looked at each other and laughed.

As soon as the two of them emptied a cup of liquor, the void suddenly shattered, and a golden light rushed in.

"Who is it?"

"How dare you! Who dares to break into the Five Elements Realm?"

When the golden light appeared, Han Fei appeared in the Five Elements Heavenly Palace.

When Gong Zhan saw that it was Han Fei, his expression changed drastically. The scene of Han Fei forcibly killing Yu Meng was still vivid in his mind. Although he told Li Chaoyu that although he was no match for Han Fei at that time, he escaped calmly, in fact, who would have known that he escaped like a stray dog back then?

Gong Zhan shouted, "Not good! Brother Chaofeng, it's Han Fei."

Li Chaofeng was also stunned. Talked of the devil and he came.

Li Chaofeng grinned ferociously. "Han Fei, you brat, there's a ready path to heaven, but you chose to barge into hell. Come and die."

After a slight shock, Li Chaofeng was excited. In the Infinity World, his strength was actually not weak, even stronger than Bei Xuanbing's, but he didn't have a Sky Opening realm father like Bei Xuanbing. Otherwise, how could he let Bei Xuanbing take the lead?

At this moment, Li Chaofeng extended his hand, and a three-meter-long Fish Slaying Knife appeared. With a low roar of him, a purple thousand-foot-long scorpion disappeared into his body. Above Li Chaofeng's head, a purple cone shadow was ready to attack. On both sides of his body, there were two purple lights, which were special effects brought about by his fusion with his spiritual beasts.

Li Chaofeng was not stupid. Han Fei had dared to break into the Five Elements World. How could he be weak?

It must be because Han Fei felt that even if Gong Zhan used all the power of the Five Elements World, he was still no match for him, so he came.

Li Chaofeng knew Gong Zhan's strength very well. If he borrowed the power of this Heavenly Palace, his strength wouldn't be weaker than his.

Therefore, Li Chaofeng knew that the variable was him. Because he came to the Five Elements World with Bei Luo Chen, it was impossible for Han Fei to know it in advance. His purpose here was to deal with any emergencies when the Wild Abyss shattered.

Li Chaofeng shouted, "Brother Gong, seal this place. Activate the Five Elements Array. Let's take him down."

Before Li Chaofeng said anything, Gong Zhan had already done so. Gong Zhan raised two fingers, and five pillars of fire of red, yellow, green, blue and white rose to the sky from five directions of the Heavenly Palace.

At the moment the pillars of fire were ignited, Han Fei took a long breath and muttered to himself, "If it weren't for the fact that I've been searching for the location of the Five Elements World for a long time, I would have reached it long ago. Old b * stard Infinity, the game starts now."

Han Fei had reached his strongest state. In addition, Han Fei's glabella cracked, and the Invincible Eye appeared.

All of a sudden, Han Fei's strength was so strong that his battle suit began to shake.

Roar!

As Han Fei roared, a giant-like avatar more than 200 meters long appeared behind him. As soon as the avatar appeared, this space was full of ferocious and murderous aura.

Han Fei chuckled. "Well, there are actually two kings guarding this place. It seems that I am indeed very lucky. Gong Zhan, you ran away 21 years ago. Try running away again this time."

"A Dharmakaya?"

Li Chaofeng gasped. Perhaps others didn't know about Dharmakayas, but it was impossible for him not to know. Any king knew of the existence of Dharmakayas.

This was an unfathomable super power. The power of the Dharmakaya might be stronger than the original body. Furthermore, this Dharmakaya was from the Martial Emperor City and must be even more ferocious.

Li Chaofeng shouted, "Brother Gong, leave Han Fei to me. Lock his Dharmakaya with the Five Elements Array."

Gong Zhan's face turned green. What the f*ck is this? Do you mean I'll have to deal with this thing alone? This is the first time I've seen such a thing. Judging from its ferocious look, it's definitely not easy to beat.

Besides, Li Chaofeng chose so quickly, obviously not wanting to face this Dharmakaya.

However, Li Chaofeng hadn't fought Han Fei before, so he didn't know how terrifying Han Fei was. If he knew that Han Fei was Wang Yijian, if he knew that Han Fei's current combat power could enter the top ten of the Sea Establishment realm, he would have begged to fight the Sky Dharmakaya.

However, in their haste, neither of them had the time to react. The first thing they did was to fight with all their strength.

Gong Zhan ordered, "Five Elements Myriad Forms, Life and Death Mystic Gate, Five Ultimate Divine Fire Array."

Li Chaofeng's attack was not as complicated as Gong Zhan, because he had no time to prepare when facing Han Fei. Therefore, at the first moment, the purple light behind Li Chaofeng, which was actually a poisonous tail, flashed like a star, trying to penetrate Han Fei.

Han Fei grabbed the poisonous tail with one hand like the way he grabbed Xie Yu's arrow.

However, when fighting Xie Yu and the others, Han Fei didn't use the Invincible Eye, but this battle was to win quickly and kill both of them, and Han Fei didn't intend to let any of them go, so he used the Invincible Eye. Han Fei certainly wouldn't be pushed back by a poisonous needle.

Li Chaofeng was horrified. How could Han Fei take his poisonous tail attack with his bare hands? But then he laughed. "Han Fei, how dare you take my Purple Dragon Demon Scorpion's poisonous sting? The heavens don't even want to spare your life."

Han Fei's right hand was quickly dyed purple. In the purple poison, black threads tried to rush at Han Fei.

However, Han Fei smiled. "Use poison? Who do you think you are?"

Crack ~

As Han Fei clenched his hand, the entire scorpion tail phantom was full of cracks, and the purple poison in Han Fei's hand was quickly fading.

Li Chaofeng was horrified. "How is it possible?"

At the moment when the entire scorpion tail shattered, the two purple lights on Li Chaofeng's body attacked the two sides of Han Fei's Dantian respectively. The golden sharpness had the power to crack his body.

At this moment, a blue light appeared in front of Han Fei. He grabbed with his left hand and drew out a Time Blade. He slashed out and cut off the two spikes.

“Roar! Six Extreme Thunder Blade, slash...”

Li Chaofeng was horrified, but he still thought that the poison hadn't worked yet, so he needed to try harder.

So he jumped and slashed down with the Fish Slaying Knife. As the blade fell, the void was torn apart like paper, and the huge spatial blade and the rich lightning Dao runes charged at Han Fei.

Before the knife arrived, six lightning strikes had fallen. Even Han Fei felt a little numb.

But Han Fei didn't care at all. He extended two fingers. “All Great Daos in One Sword.”

Swish ~

Han Fei turned into a golden light and suddenly appeared in front of Li Chaofeng in the next second. This time, Han Fei stabbed Li Chaofeng's Dantian with All Great Daos in One Sword like the way Xia Xiaochan used her daggers.

Bang!

Li Chaofeng had never thought that he would be defeated by a Sea Establisher so quickly. Their battle was as short as a flash of lightning and finished in an instant. However, he had already lost.

Gong Zhan had just activated the array and hadn't started to fight the Sky Dharmakaya when he was shocked to find that Li Chaofeng had exploded.

However, Li Chaofeng, who was stronger than him, couldn't even stand a second. How strong was Han Fei?

At the moment when Li Chaofeng exploded, he turned into thousands of blood shadows and tried to break through the void. But Han Fei was already prepared. A four-sided array appeared and locked onto the void, and closely following it was the Void Lines. When the Void Lines constantly pierced the blood shadows and soul bodies in the void, Li Chaofeng's death was already certain.

At this point, Han Fei looked up at Gong Zhan and smiled. “The moment you failed to ambush me, you shouldn't have stayed in the Five Elements World. Unfortunately, you don't understand me...”

Chapter 1938: Two Kings Died In A Row

At this moment, Gong Zhan was on the verge of a mental breakdown. He had never thought that Han Fei would come to his door at this moment. This was clearly a slap to Bei Luo Chen's face!

However, that was how it happened.

Li Chaofeng probably didn't expect that he would die here. Seeing that Li Chaofeng's soul was collapsing and shattering at a terrifying speed, Gong Zhan knew that Li Chaofeng was dead for sure.

Roar!

At this moment, the Five-Elemental Divine Fire turned into a five-colored knife light and was attacking Han Fei's Sky Dharmakaya crazily. However, the Sky Dharmakaya also had a body, which was as strong as its master's.

With a thought from Han Fei, the Sky Dharmakaya condensed two axes and hacked down angrily. On the axes, the Great Dao of Gravity was added. As the saying went, strength was everything. Although the axes were blocked by an invisible barrier, the Hundred War Divine Hammer turned into an axe strike and struck down continuously.

Knock, knock, knock!

In the Five Elements World, above the main city, in the sky, power shook.

Everyone looked up, wondering what had happened in the sky.

Ordinary people couldn't understand, but many Venerables in the Five Elements World were shocked. What happened in the Heavenly Palace?

In the Five Element Sect, the top school in the Five Element World, several youths looked surprised.

Someone exclaimed, "Zi Liu, did something happen in the Heavenly Palace?"

The guy called Zi Liu was one of the Five Elements Disciples. He looked solemn, thinking to himself, This is clearly the sign of a battle. The power of vibration is actually transmitted from the Heavenly Palace to the outside world. How powerful is it?

At this moment, not to mention going to the Heavenly Palace to take a look, even approaching it would probably be crushed to death by that terrifying power.

Zi Liu thought of something. "I'll find a way to take a look. You stay here."

With that, the guy disappeared. A moment later, he popped his head out from afar and muttered, "How can a powerhouse who can enter the Heavenly Palace be ordinary? With the identity of the Five Elements Disciple, I have to run!"

...

In the Heavenly Palace.

Gong Zhan knew that Han Fei was here to kill, so he didn't expect Han Fei to let him go. At this moment, he couldn't care less.

In the Heavenly Palace, a five-colored ring of fire suddenly emerged, wrapped around Gong Zhan, and disappeared into his body.

Han Fei felt that the power of the entire Five Elements World was pressing down on the Sky Dharmakaya. No matter how strong the Sky Dharmakaya was, it couldn't break the confinement power.

With a thought, a drop of Infinity Water in front of Han Fei, like a nail, nailed directly at Gong Zhan who was in the middle of an outbreak.

"Roar!"

At that moment, a Five Elements Dragon Fish erupted. The dragon fish spewed out strange flames, but it couldn't resist the penetration of the Infinity Water.

In the end, it slapped its tail hard.

“Explode!”

Rumble! Rumble!

How strong the Infinity Water was depended on how strong Han Fei was. Therefore, when the Infinity Water exploded, a destructive power erupted in the Heavenly Palace.

Bang! Bang! Bang!

Ka ka ka!

Two of the five pillars of fire of the Five Elements Heavenly Palace were destroyed, and hundreds of cracks appeared in this small world.

Han Fei was surprised. He didn't expect the small world to be so strong that it could withstand such a violent explosion.

However, the self-destruction of the Infinity Water crushed all the means Gong Zhan used to control the Sky Dharmakaya.

Li Chaofeng, who was about to die, failed to survive the terrifying explosion.

Rumble! Rumble!

In the sky above the Five Elements World, a blood-colored crack that stretched across the sky appeared with a bang, and a rain of blood poured down. This was the typical sign of a king dying.

“Hiss ~”

Someone was stunned. “Who died?”

Someone was shocked. “Our king is dead?”

It was not until this moment that countless Venerables realized that something was wrong and prepared to leave the Five Elements World for the time being. Suddenly, a king died, and it was in the Five Elements Heavenly Palace. Any normal person would think that Gong Zhan had died.

Zi Liu, who had just run out, sweated and looked horrified. “Teacher died?”

At this moment, in the entire outer sea, many kings of the Heavenly Palaces sensed something. Sea Establishers in the Raging Sea had the same status as Venerables in the Yin-Yang World.

A Sea Establisher had died, and there were too many people who could perceive it.

The kings of the Heavenly Palaces were all stunned. What had happened in recent years? One Sea Establishment realm powerhouse after another had died. Why did another one suddenly die today?

The Hundred Demons and the undersea humans in the outer sea were all surprised.

A sea demon looked at the sky. "Does the human race have an internal strife again?"

An undersea human elder sneered. "The Thirty-Six Mystic Worlds only exist in name. Let's see what will happen this time."

Bei Luo Chen held a broken jade slip in his hand and looked at the trace of blood in the sky. His face was livid. Li Chaofeng was dead, and another Sea Establisher of the Infinity World had died. How long had it been? In just a few decades, two Sea Establishers had died in a row. Which world could stand it?

"Five Elements World?"

Buzz!

Bei Luo Chen's figure moved, and a projection stayed here, while his original body flashed towards the Five Elements World.

He knew that Wang Yijian would take revenge, but he didn't expect Wang Yijian's revenge to be so precise and come so quickly. If he let a strong master like Wang Yijian slaughter wantonly outside, who could stop him?

However, Bei Luo Chen didn't have much hope. Even if he rushed over at full speed, the battle might have already ended when he reached the Five Elements World. However, he still had to go.

At this moment, Gong Zhan's Five Elements Dragon Fish was blown to pieces, and Gong Zhan himself was dripping with blood.

With a flash of golden light, Han Fei came to him. But as soon as Han Fei appeared, five-colored mystic light erupted from Gong Zhan's body and rushed at Han Fei.

However, Han Fei didn't even look at the five-colored mystic light but thrust his sword through Gong Zhan.

Although he was also pierced by All Great Daos in One Sword, Gong Zhan wouldn't die so easily. Although he couldn't beat Han Fei, this was his Heavenly Palace after all. An invisible array in the Heavenly Palace lit up, and Gong Zhan's body recovered somewhere.

Han Fei sneered. "Smash you."

The Sky Dharmakaya was like a violent Hercules, and the giant axe in his hand never stopped.

Clang! Clang! Clang!

The Hundred Array Divine Hammer struck thousands of times, and Han Fei controlled the Infinity Water to drill into the array like a drill.

Although Han Fei really wanted to beat Gong Zhan out with the Immortal Fiend Saber, that was his trump card and the cover of Wang Yijian's identity.

Therefore, Han Fei also went to battle. He grabbed the Embroidery Needle and activated the Monkey King's Three Thousand Sticks. At this moment, the Embroidery Needle was different from before. Every time it struck down, shadows would appear. The full power of the Sea Quelling Bizarre Treasure was fully unleashed here.

“Pfft!”

Faced with the powerful attacks of Han Fei, the Sky Dharmakaya, and the Infinity Water, Gong Zhan was no match for Han Fei. He vomited blood.

Ka ka ka ~

Seeing that the small world was about to collapse, Gong Zhan had no choice but to decisively abandon this void and intended to directly let the Heavenly Palace descend.

At the moment of life and death, Gong Zhan shouted, “Han Fei, if you’re not afraid of karmic fire, destroy the entire Five Element World if you have the guts.”

Crack ~

At this moment, the void shattered. Above the Five Elements World, the Five Elements Heavenly Palace appeared in front of everyone. Gong Zhan tried to make the Heavenly Palace descend.

However, the Sky Dharmakaya actually held the Heavenly Palace with his shoulders and desperately tried to push it back to the sky, preventing the Heavenly Palace from descending.

Under the shocked gaze of countless people, Han Fei’s voice was icy. “The lackey of Supreme Clearness and Infinity should be executed. I, Han Fei, am the human king. How can I allow you to destroy the Five Elements World? Kill...”

“Supreme Yin-Yang Wheel.”

In the distant sky, a huge Yin-Yang symbol pressed down, and cracking sounds kept ringing.

This time, it was a real battle between the Great Dao of Yin-Yang and the Great Dao of the Five Elements. In fact, in the Sea Establishment Realm, the strength of the Great Dao couldn’t be seen because individuals had different degrees of mastery of the Great Dao.

But the power that Han Fei erupted with was too strong. It completely crushed Gong Zhan.

Therefore, the Five Elements Barrier failed to block the impact of the Supreme Yin-Yang Wheel and was shattered.

However, at the last moment, Gong Zhan roared, “Han Fei, even if I die, I must destroy your Dao heart... Explode...”

Han Fei secretly cursed. This guy is crazy.

Gong Zhan was going to take the billions of human beings in the entire Five Element World to be buried with him, so as to create a karmic fire in his heart.

But how could Han Fei let him?

Blue light intersected in front of him, and golden light flashed on Han Fei’s body, and he and Gong Zhan disappeared from the Heavenly Palace at the same time.

In the next moment, 600,000 kilometers away from the Five Elements World, Han Fei’s golden blood was dripping.

Rumble! Rumble!

In the sky, another bright red crack appeared.

“Hiss!”

This time, countless people were shocked.

“Another king has died?”

In the Ice Snow World, the Snow Lady’s hands trembled. Han Fei had caused such a huge uproar the moment he appeared? Which world had he slaughtered?

In the Million Poison World, Huang Jie looked up at the sky and murmured, “Chaos, the human race is going to be in chaos. I don’t know if Han Fei is a lucky star or a jinx!”

Bei Luochen was still on the way. Seeing that another king had died, he knew that something had happened to Gong Zhan. It seemed that even with the power of the Heavenly Palace, Gong Zhan couldn’t resist Wang Yijian for long!

An hour later.

Han Fei reappeared in the sky above the Five Elements World.

At that moment, Han Fei’s hundreds of projections descended on all the places of the Five Elements World where important supplies were kept.

Then, Han Fei’s voice shook the world, and he said, “My name is Han Fei, the current Human King. I’m going to destroy the Supreme Clearness and Infinity, and unify the Thirty-Six Heavenly Palaces of the human race. Gong Zhan of the Five Elements World helped them do evil and deserved to die, and I’ve finished him...”

Chapter 1939: Demon Han

Han Fei entered the Origins Sea of Gong Zhan and Li Chaofeng and obtained countless resources. He had basically taken all that he could.

Han Fei roughly calculated the number of resources. According to his standards, they should be barely enough to fill his 30,000- kilometers Origin World.

Therefore, Han Fei didn’t think it was enough and continued to plunder the Five Elements World. Anyway, the Five Elements World would probably be divided up. It wasn’t too much for him to scrape off a layer of oil first.

In addition to resources, what made Han Fei even more excited was that the Demon Purification Pot had absorbed more than 7,000 wisps of Chaotic Qi from the two’s Origin Seas.

This number really made Han Fei happy. When he killed Yu Meng and Mad Fourth King, he didn’t get so much Chaotic Qi. And among them, more than 4,000 wisps were from Gong Zhan.

“Is it because of the Heavenly Palace?”

In addition, Han Fei accidentally obtained a new Sea Quelling Painting. This painting was about the size of his own. However, the spiritual energy inside was higher than his. After all, this was the Raging Sea, not the Yin-Yang World.

Having no time to study the Sea Quelling Painting, Han Fei turned around and went to the Five Elements Heavenly Palace. Just like the Yin-Yang Heavenly Palace, the belly of the Heavenly Palace was the place where many powers gathered.

Han Fei sensed that the spiritual energy here was full of Chaotic Qi. If he were to absorb it here for three or five years, he would probably be able to absorb thousands of wisps of Chaotic Qi.

Unfortunately, he didn't have the time.

Han Fei could only sigh. These people don't even know that they are sitting on a treasure mountain. If the Yin-Yang Heavenly Palace had these powers gathering, my strength would have definitely improved.

After doing all this, Han Fei's projections returned one after another. Han Fei glanced at the resources they brought back and found that they were worth about 500 million ultra-quality spiritual stones.

After all, these were looted from the entire Five Elements World. If it weren't for the fact that there wasn't enough time, he could have looted more than a billion more.

But now, if Bei Luochen wasn't lost, he should be arriving soon. Only then did Han Fei leave with a flash of golden light.

...

Han Fei left, but the people of the Five Element World were stunned.

God knew what had happened. Two kings died in a row, and even the Heavenly Palace came out. Now, it was floating in the sky of the Five Elements Realm. Their king had been killed by Han Fei on the spot, and the latter even dared to clamor after doing that.

Han Fei's way of doing things frightened many people in the Five Elements World.

Someone was shocked. "Demon, Han Fei from the Avenger Pirates is a big demon."

Someone was horrified. "Demon Han killed the king of our Five Elements World and robbed us of our resources. How dare he call himself the Human King?"

Someone hurriedly said, "Keep your voice down. I don't know if Demon Han has left or not."

Someone was already crying. "Our king died just like that? Where is the Supreme Clearness World? Where is the Infinity World? Who can punish Demon Han?"

However, the death of a strong master was such a big event that only the strong could interfere. Among the Venerables who hadn't left the Five Elements World, someone was tempted. If Gong Zhan died, would the various great techniques and ultimate techniques of the Five Elements World still be in the Heavenly Palace?

If it weren't for the fear of Han Fei, the Heavenly Palace would have been full of Venerables.

As for ordinary people, they only knew that a king had died and the sky had collapsed, which made them panic. However, ordinary people didn't know what had happened at all. Except for Han Fei who shouted that he was the human king, no one else spoke.

All ordinary people could do was to wait. Wait for someone to say something to reassure them. At least let them know what had happened. Where should they go?

Of course, while waiting for someone to take charge of the situation, most people chose to cultivate. After two kings died in a row, there was a massive amount of king-level Dao runes here, and the spiritual energy between the heavens and earth became much richer. When they were sitting cross-legged in the rain of blood, their chances of a breakthrough were not small.

About half an hour later, seeing that there was no noise at all, a Venerable boarded the Heavenly Palace. However, there was nothing!

However, the moment he boarded the Heavenly Palace, someone immediately shouted, "Leave! This is the Five Elements Heavenly Palace. How can ordinary Venerables climb it?"

Buzz!

Seeing that someone could board the Heavenly Palace, Ziliu ran back.

Ziliu shouted, "I am Huang Ziliu, a Five Elements Disciple. My teacher died at the hands of the great demon, Han Fei. I'm very sad, but the dragons must have a leader. Not everyone can step into the Five Elements Heavenly Palace. I will guard the Five Elements World and wait for the strong masters of the Infinity World to come and uphold justice..."

As a Five Elements Disciple, no matter what his personality was, he couldn't be weak. Otherwise, he wouldn't have become a Five Elements Disciple.

Therefore, when Huang Ziliu appeared and presided over this place, the others didn't come to the Heavenly Palace for a while because the situation was unclear.

After another half an hour, the void was broken, and Bei Luochen finally arrived.

Huang Ziliu was relatively more knowledgeable than the others. The moment he saw Bei Luochen, he was stunned for a moment. Then he thought of something and immediately shouted, "Master Emperor, please uphold justice for my teacher! Han Fei, that demon, broke into our Five Elements World and killed my teacher Gong Zhan. As a result, the Five Elements World is now leaderless. Although I'm a Five Elements Disciple, I can't take charge of the Heavenly Palace. Please help me..."

Huang Ziliu shouted in a tearful voice. Those who didn't know him would think that he was really sad.

However, from the meaning between the lines, how could Bei Luochen not know his meaning?

Bei Luochen said, "You said it was Han Fei who broke into the Five Elements World by force? Not Wang Yijian?"

"Wang Yijian?"

Huang Ziliu shook his head quickly. "Master Emperor, I saw Han Fei appear in the Heavenly Palace with my own eyes. It's impossible for me to be mistaken. Han Fei is extremely arrogant and even said that he is the current Human King who wants to wipe out Supreme Clearness and Infinity, and unify the Thirty-Six Heavenly Palaces..."

"Hmph!"

Bei Luochen snorted coldly, and Huang Ziliu felt his legs go limp and he immediately fell to his knees. This was the first time he had felt the suppressing pressure of an emperor.

Bei Luochen said indifferently, "How dare he call himself the Human King? He really overestimated himself."

With that, Bei Luochen casually threw a jade slip to Huang Ziliu. "This is the power of my slash. It can help you suppress the Five Elements World for a period of time. Sea Establishers won't attack the weak rashly. Don't panic. I'll arrange for someone to help you."

Huang Ziliu's heart trembled, and was overjoyed. Did this mean that he had obtained the approval of the emperor, could rightfully control the Heavenly Palace, and could freely dominate the power in the Heavenly Palace?

"Thank you, my lord."

Bei Luochen ignored Huang Ziliu and glanced around. Indeed, he didn't feel any Immortal Qi or Fiendish energy.

At this moment, he had a bad feeling. Wasn't Han Fei too strong? It was not impossible for him to slaughter Li Chaofeng, but he had only been a king for decades. How could he slaughter Li Chaofeng and Gong Zhan in a row? After all, this was Gong Zhan's Heavenly Palace.

Gong Zhan had lost in his own territory. Was Gong Zhan too weak, or was Han Fei too strong?

If Han Fei could kill two kings in such a short time without Wang Yijian's help, he would have to remeasure Han Fei's strength.

Unfortunately, Bei Luochen lost track of Han Fei and Wang Yijian again.

At this moment, Bei Luochen remembered the tough words Han Fei asked Wang Yijian to deliver to him and couldn't help frowning. This guy was a scourge after all!

He had wanted to force him to reveal himself, but he didn't expect to drive him crazy first.

With a thought, Bei Luochen's phantom enlarged infinitely, almost covering half of the Five Elements World.

Seeing this scene, many people from the Five Elements World knelt down, feeling that this was really a miracle.

However, Bei Luochen said, "I'm the emperor from the Infinity World. Han Fei from the human race has already fallen into the demonic Dao and intends to cause internal strife in the human race. I'll lead the

kings of the Thirty-Six Mystic Worlds to capture this demon, but this battle won't affect the lives of the ordinary people. Don't panic. When I kill that demon, I'll revive the Five Elements World..."

"Is this an emperor?"

"The legendary Sky Opening Emperor?"

"Since he's an emperor, he can't be wrong. Han Fei doesn't know his place and claims to be the human king. It turns out that he has entered the demonic Dao."

"It's obvious that Han Fei is a big demon. He slaughtered our Five Elements World for no reason. How strange."

Countless people were discussing. Of course, there were also people who had doubts. Han Fei blamed Supreme Clearness and Infinity, and Supreme Clearness and Infinity said that Han Fei had entered the demonic Dao. Who could decide which side was bad? Did the strong have the final say?

However, amidst the fury, these people thought to themselves. Since neither side would threaten the lives of ordinary people, at least this was a blessing.

As he said so, Bei Luo Chen turned around, turned into three people, and went straight to the Mad Corpse, Blood Fiend, and Spirit Refining Heavenly Palaces. Since he couldn't catch Han Fei and Wang Yijian, he couldn't let them threaten the safety of the Infinity World.

Half a month later.

Han Fei appeared in the Martial Emperor City and declared to the world that he would kill anyone who blindly followed Supreme Clearness and Infinity and tried to persecute his Yin-Yang World.

At the same time, in the Martial Emperor City, Han Fei sold a large number of treasures he had obtained from the Medicine King World, the Five Elements World, and the other kings. Except for the real Sea Quelling Bizarre Treasures, he sold everything that was ineffective for constructing the Origin World.

The top resources that Han Fei looted were sold for more than 500 million ultra-quality spiritual stones.

There was still a large portion that didn't meet the standards and weren't accepted. Han Fei planned to distribute this portion to the people of the Yin-Yang World as a benefit when he saved the Yin-Yang World in the future.

Han Fei only stayed in the Martial Emperor City for a day before disappearing again.

Instantly, in the thirteen worlds in the outer domain, the kings were like ants on a hot pan and even began to visit each other. Han Fei was crazy. He would kill whoever dared to be close to Supreme Clearness and Infinity.

The key was what they could do if Han Fei really came!

Therefore, many Heavenly Palaces immediately expressed that they wouldn't participate in this matter. They couldn't afford it. No matter how bad the Infinity World was, it was still one of the leaders of the 36 Mystic Worlds of the human race. It was impossible for them to attack the Heavenly Palaces without justified reasons.

But Han Fei was different. When this guy went crazy, he wouldn't mind killing one or two kings.

But because of this, Han Fei's name gradually spread in the Thirty-Six Mystic Worlds, from the captain of the Avenger Pirates to Demon Han.

Chapter 1940: Submit or Die?

The Sea of Mist.

In a certain space node, Han Fei stood in his origin world.

Beiluo Chen's strength made him realize that he wasn't strong enough yet, so he needed to continue to strengthen his origin world first.

Before that, information popped up in Han Fei's eyes.

Owner: Han Fei

Level: 93 (Sea Establishment)

Bloodline Ranking among the Clans in the Infinite Ocean: the 980,006th

Chaotic Qi: 17,156 wisps

Spiritual Power: 6,655,68

Perception range: 700,000 kilometers

Strength: 183,209 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unknown

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level 87)

Second spiritual beast: Emperor Sparrow (level 89)

Main Art: The Seventh Level of Void Fishing, Void Descending Art (King Level, Divine Quality)

...

"Huh?"

Suddenly, Han Fei was stunned. It was true that he was in the Sea Establishment Realm, but he was level-90 before, but now he was level-93. He hadn't looked at his state for a long time, but now looking at it, he suddenly realized something.

Yes, his cultivation level hadn't disappeared, but the calculation method in the Sea Establishment realm had changed. When he reached the Sea Establishment realm, his level would be calculated according to the size of his Origin Sea.

But on second thought, Han Fei felt that something was wrong. This was because he remembered that the Water Immortal once told him that she almost transcended the tribulation to become an emperor.

However, how big was the Origin Sea of the Water Immortal? If it was 10,000 kilometers a level, wouldn't the Origin Sea have to be as large as 100,000 kilometers for its owner to reach the level of transcending the emperor-level tribulation? Therefore, it might be that most Sea Establishers didn't know the real cultivation method in the Sea Establishment Realm. They thought that it was time for them to become an emperor, so they tried to open the sky, but they actually couldn't.

In places like the Yin-Yang World and the Water-Wood World, talents were scarce, and their history was too short. Even if one crossed the river of time, he couldn't know this secret. Therefore, cultivation in the Sea Establishment Realm was like the blind touching an elephant.

In addition, after he reached the Sea Establishment Realm, his Origin Sea had exceeded ten thousand kilometers, but why didn't it show level 91? Did it mean that the calculation of the Sea Establishment Realm not only depended on the size of the Origin Sea, but also on the amount of Chaotic Qi?

Han Fei's eyes lit up. Therefore, if he was willing to use all the resources he got to expand the Origin World, he could actually level up quickly.

However, Han Fei glanced at his Origin World and found that there was a slight mist growing there. This made him realize that this was probably because the Origin Sea wasn't condensed enough in the nearly 20,000 kilometers he explored later, so mist was produced.

Thinking of this reason, Han Fei didn't intend to expand his Origin Sea immediately. Anyway, as long as he had energy and ultra-quality spiritual stones, he could expand his Origin Sea. Forge the Universe had already fused with his Origin Sea.

In addition to the change in level, Han Fei immediately understood the way to quickly improve in the Sea Establishment Realm.

Although the amount of Chaotic Qi had increased, his Origin Sea had also become larger. Although he really wanted to spend ten thousand wisps of Chaotic Qi to upgrade the time chain of his Origin Sea, he couldn't help but feel a little worried if there were only more than 7,000 wisps of Chaotic Qi left to support the 30,000 kilometer-wide Origin World.

He would consider upgrading the Time Chain when he had more Chaotic Qi in the future.

The improvement of his soul power was expected. After all, he had killed more than one king and obtained many magic spiritual pills.

His strength had increased because he had made a big breakthrough in the Void Fire Refining Technique.

To Han Fei's surprise, there seemed to be no upper limit to his strength in the Sea Establishment Realm. Even when he was at level-90, his strength could only reach 160,000 waves.

It seemed that this level could only measure the realm.

But no matter what, his secondary spiritual heritage was still unknown, and Han Fei was used to it.

As for the Emperor Sparrow breaking through to the Half-King realm, that was a long time ago, and Little Black and Little White's cultivation speed was not slow either. Even Nine Tails and the others had all improved after so many years of tempering. Nine Tails even surpassed Little Black and Little White to reach level 88. Little Gold, Little Fatty, and Licking Dog had also reached level 87, 86, and 86 respectively.

After all, they were all legend creatures. With enough experience, they could still catch up.

It was just that the time given to them was too short. Otherwise, if Han Fei was given another ten years, he was confident that he could grind them all to the Half-King realm.

After examining his information, Han Fei issued an order in his heart. In this Origin World, the ground was collapsing in some places, and in some places, the ground was bulging; there were fire meteor strange stones, and on the mountain pass, volcanic areas appeared; there were strange peaks and high mountains, covered with cold crystals, which turned them into snow mountains; there were rivers appearing on the ground, as well as desolate swamps. Sea water was surging, earth springs were flowing, plants were growing, and gardens were opened...

Long dragons made of ultra-quality spiritual stones were placed in this land.

Han Fei seemed to be immersed in the pleasure of creating a world. He didn't realize that the mist in his origin world was quickly dissipating.

Among the crew members of the Avenger who were cultivating in Han Fei's Origin Sea, the Insect King and Zi Luo were the first to notice that something was wrong.

The Insect King said, "Have you noticed that the Human King's Origin Sea seems to be more spiritual than before?"

Zi Luo said, "Huh? You feel that too? So do I, but the place where we are doesn't seem to have changed much. I feel an inexplicable vitality that seems to connect the place where we are."

Among the others, Luo Xiaobai frowned slightly. She tried to investigate with her perception, but found nothing.

The Void Vine also said, "I didn't find anything wrong! The Human King doesn't want us to leave this island. Otherwise, I can investigate it."

Zhang Xuanyu said crossly, "Why? Is Han Fei's Origin Sea for you to explore?"

The Void Vine hurriedly chuckled. "Of course not. How would I dare to explore Master Human King's Origin Sea?"

Zhang Xuanyu nudged Le Renkuang and said, "Do you feel anything wrong?"

Le Renkuang shrugged. "No! Who cares? Just ask him later."

Hearing this, Zhang Xuanyu immediately gave Le Renkuang a high-five. He thought to himself, That's true. We're brothers. Why don't we just ask him?

They were too lazy to think about it. Even Luo Xiaobai was relieved to hear that. Since the Insect King and Zi Luo said that there was a change, this change was probably a good change. Han Fei would tell them anyway.

Time passed.

Han Fei was immersed in creating the world for more than ten days before he suddenly woke up.

However, when Han Fei woke up and looked at the mountains and rivers here, he felt that this world seemed a little familiar.

However, after Han Fei came back to his senses, the first thing he found was that the mist had disappeared. If it weren't for the bright sky, Han Fei would have thought that he was in a paradise.

In addition to the beauty of the paradise, Han Fei could also feel that his origin world was slowly producing power, and Dao runes seemed to be born invisibly.

In addition, Han Fei felt that his extremely strong physique had been soothed. It wasn't that his physique became weak, but that it used to be tense, but now it was much more relaxed.

It was like before it was a river of water being stuffed into a stream, but now it was a river of water being stuffed into a river. He felt much more comfortable, but it still felt a little cramped.

Han Fei seemed to understand that with his current strength, level-93 might not be enough, so he still felt a little cramped.

But when Han Fei wanted to use resources to expand the Origin Sea, he was dumbfounded to find that he only had less than 100 million ultra-quality spiritual stones left.

Han Fei couldn't help cursing, "I knew that I would lack ultra-quality spiritual stones no matter what. It seems that I still don't have enough resources!"

Han Fei's lips curled, but it didn't matter. He had many enemies now, so there were many people he could rob.

He couldn't help but wonder if the Sky Opening powerhouses had already understood this principle, so they had long since started to expand their Origin Sea.

Unfortunately, no one would tell him. He had to walk this path himself.

After sorting out his situation, Han Fei took out a fish skin map. On it, thousands of routes were marked with the Martial Emperor City as the center, and the residences of the Heavenly Palaces, the Hundred Demons, the Undersea Human Clan, and the Merman Royal Family were noted.

This was the route map that Han Fei bought in the Martial Emperor City. It was slowly developed by countless ancestors generation after generation.

Han Fei took out the Vast Ocean Navigator. In the blink of an eye, the Vast Ocean Navigator pointed at an area between the Hundred Flowers World and the Million Poison World.

...

Outside the Hundred Flowers World.

Three big ships with flame symbols were wandering.

On the boat, the leader of the Crimson Fire Pirates, Xue Ran, was shouting, "Remember to be fast, accurate, and ruthless in this trip to the Hundred Flowers World. I will hold back Hua Qianyue. And you must quickly take down the cargo ship."

“Yes, Captain!”

Amidst the shouts, Xue Ran smiled in satisfaction. Business was not good now. The outer domain was getting more and more turbulent. While the Five Elements World was in chaos and the other Heavenly Palaces were in an uproar, it shouldn't be difficult for him to plunder and make a fortune.

While Xue Ran was giddy with self-satisfaction, he suddenly heard a voice, “Xue Ran, long time no see!”

Buzz!

As if struck by lightning, Xue Ran didn't even dare to look back. In an instant, he felt cold sweat all over his body.

Hearing this voice, he knew who had come.

At this moment, all the Venerables on the three ships of the Crimson Fire Pirates were shocked.

Xue Ran looked back with difficulty, only to see that Han Fei was standing on the mast of his Fire God and looking at him with a smile.

“Gulp ~”

Xue Ran said with difficulty, “Han Fei.”

Han Fei smiled. “Well! I'll give you a choice. Submit to me, or die.”
