Chapter 1951: Dharma Idol World

After reading the information of the Deep Sea Demonic Manta Ray, Han Fei sneered. Since this guy's swallowing power couldn't catch him, how could he snatch the second divine pill?

Han Fei shouted, "Since you're here, don't leave."

The Deep Sea Demonic Manta Ray was also shocked. He had thought that under his absolute devouring, this human shouldn't be able to escape. Who could have expected that with a golden flash, this guy would appear on his back?

Seeing that the situation was not good, the Deep Sea Demonic Manta Ray immediately mobilized all the power in his body, and a green lightning bolt shot straight at Han Fei's body. Its power was so terrifying that Han Fei's body was slightly paralyzed. Besides, in his soul, the Nine Poison Treasure Silkworm began to spontaneously swallow part of the power in the lightning bolt.

Han Fei shouted, "Evil creature, die!"

Han Fei clenched his fist, activated his Great Dao, and his combat power soared. He punched the back of the Deep Sea Demonic Manta Ray with all his strength.

Boom ~

Ka ka ka ~

The place where Han Fei stood sank dozens of kilometers, and the sound of bones breaking was endless. The huge Deep Sea Demonic Manta Ray fell to the bottom of the sea, raising waves and currents that swept tens of thousands of kilometers away.

The Deep Sea Demonic Manta Ray didn't expect Han Fei to be so strong. He almost dug out his heart with one punch!

In order to get rid of Han Fei, countless steel needles and bone spurs seemed to stand on the body of the Deep Sea Demonic Manta Ray. The bone spurs had a dark green sheen, which was obviously poisonous.

Swish! Swish! Swish...

Clank, Clank, Clank ~

.....

Han Fei said disdainfully, "Do you think others are weak just because your physique is strong? Today, you shouldn't have come to find trouble with me. All Great Daos in One, kill..."

Han Fei pointed two fingers, and the Dao runes steamed. He minced the infinite steel spikes and stabbed them into the body of the Deep Sea Demonic Manta Ray.

Bang!

The body of the Deep Sea Demonic Manta Ray was collapsing at a visible speed. With Han Fei as the center, the body of the Deep Sea Demonic Manta Ray was crushed by Han Fei.

However, even so, Han Fei was shocked to find that this guy didn't completely collapse. Perhaps because his defense power was too strong and he was too big, the power of his sword only left a huge hole in the body of the Deep Sea Demonic Manta Ray, but it didn't completely kill him.

In other words, this guy had completely resisted All Great Daos in One Sword. This made Han Fei speechless. This was the first ordinary king he had met who could withstand All Great Daos in One Sword.

However, the Deep Sea Demonic Manta Ray was also stunned at this moment. He didn't even have the time to run before his body was almost shattered by Han Fei's attack. Just as he reacted and was about to flap his wings to run, he suddenly felt that his soul seemed to be grabbed, and a feeling of death attacked his heart.

"Oh no ~"

When the Deep Sea Demonic Manta Ray realized that something was wrong with his soul, he couldn't escape anymore.

In terms of soul power, Han Fei was also stronger than the Deep Sea Demonic Manta Ray. At this moment, he activated the Void Lines and controlled the Deep Sea Demonic Manta Ray to consume his own reserve to restore his body.

A moment later, when Han Fei controlled the huge Deep Sea Demonic Manta Ray to return to the Avenger, Nine Tails and the others were dumbfounded. Their master had caught such a huge creature so easily?

Perhaps because Han Fei had caught the Deep Sea Demonic Manta Ray back, the Venerable-level ferocious beasts that were trying to besiege him all fled.

Han Fei had an idea. He summoned a guy who hadn't appeared for a long time. This person was Ji Chen, who was controlled by Han Fei with the Dao Devouring Insect King in the Land of King Death. Ji Chen only had the strength of a Half-King, so Han Fei didn't have any chance to use him.

So Han Fei had almost forgotten him.

Now that he had caught a living giant beast whose combat power was much higher than Ji Chen's, it was time for the Dao Devouring Insect King to change its host.

Han Fei pointed at the center of Ji Chen's eyebrows, and then a green fat worm crawled out of Ji Chen's mouth.

The moment the Dao Devouring Insect King came out, Ji Chen's eyes gradually recovered some clarity.

Han Fei glanced at him casually. "Since you're already asleep, sleep forever!"

As Han Fei slapped him, Ji Chen was crushed by Han Fei without even taking the last look of this world.

The Dao Devouring Insect King followed Han Fei into the body of the Deep Sea Demonic Manta Ray.

This time, it took Han Fei about half an hour to establish a connection with the Dao Devouring Insect King again, which meant that the Deep Sea Demonic Manta Ray had been parasitized and controlled.

Han Fei put away the Void Lines and put on a bright smile. Not only had he obtained the second divine pill, but he had also caught a Sea Establishment realm giant beast. Good things came in pairs!

Not to mention anything else, the defense power of this Deep Sea Demonic Manta Ray was definitely among the top thirty of the Sea Establishment List in the Raging Sea.

At this time, the eighth heavenly tribulation of the second divine pill had just ended. Han Fei saw that a large amount of tribulation lightning was gathering in the sky. Thunder fire emerged, and in less than five seconds, the ninth lightning struck down.

At this point, the second divine pill's tribulation was completed.

With a thought, Han Fei put the Demon Purification Pot back into the Origin Sea. Just as he was about to enter the Origin Sea, he looked at the huge Deep Sea Demonic Manta Ray and thought to himself, This thing should be able to turn into a human, right? Otherwise, how could he stuff such a huge creature into the Origin Sea? He would occupy an area with at least a radius of six or seven hundred kilometers in his Origin Sea world, which would seriously affect his Origin Sea's development.

Fortunately, as Han Fei transmitted his thoughts, the giant body of the Deep Sea Demonic Manta Ray began to shrink, replaced by a five-meter-tall monster fishman with two wings and a hollow chest.

Han Fei nodded in satisfaction. This time, with a thought, he put the Deep Sea Demonic Manta Ray into his Origin Sea.

...

The second divine pill had matured. When Han Fei extended his hand, a small red pill fell lightly into Han Fei's hand.

When this pill was ripe and fell, a large amount of spiritual energy poured into the Demon Purification Pot from the billions of ultra-quality spiritual stones where the Demon Purification Pot was. The third divine pill began to absorb resources.

Han Fei couldn't help but sigh. This thing was ridiculous. As long as he had enough resources, he could enjoy such super benefits seven times. The first time was the Golden Light Movement Technique, which allowed his speed to reach the limit of speed.

There was no telling what effect the second divine pill would have.

Han Fei couldn't wait to swallow the second divine pill. The next moment, he felt that his soul seemed to be extracted to another world.

When Han Fei came back to himself, he found himself among the white clouds. In front of him was a super giant of unknown height.

The giant's body was emitting golden light, and Han Fei was at the height of his waist. When Han Fei lowered his head, he saw that under the white clouds ten thousand feet high, the vast was surging and the giant's body was submerged in the water.

As Han Fei looked up again, he saw the giant's explosive muscles, the arms that looked like two azure dragons, and the solemn face looking like a Buddha.'s Han Fei seemed to have a hunch that if this thing punched out, even he couldn't easily block its punch.

"Is this the Dharma Idol World?"

Han Fei couldn't help but think that this thing was much stronger than the Dharmakaya.

Han Fei still remembered the introduction to the second pill. It said that one had to comprehend the world of the Dharma idol, and use the body as the Dharma idol. With the nine heavens above his head, he would step on the Abyssal Sea, and his Dharma idol was 33,000 feet long, swallowing all the images into his own.

After exclaiming at the height and power of this Dharma idol, Han Fei couldn't help but sit cross-legged, spontaneously wanting to summon the Dharmakaya.

Buzz!

Perhaps because of the inexplicable resonance between the Dharma Idol World and the Dharmakaya, when the Dharmakaya appeared, Han Fei felt that the two seemed to be fusing.

Yes, Han Fei's eyes blurred, and he gradually couldn't see clearly. However, he seemed to be able to see the vague shadow of a giant again.

Han Fei wanted to see the giant's true body through the mist. However, no matter how hard he tried, he couldn't.

Until Han Fei felt the feedback from his Dharmakaya. He seemed to have reestablished a connection with his Dharmakaya.

In the next moment, Han Fei felt that he had become another person. He controlled a body that didn't belong to him. This body seemed to be standing in the sea.

Han Fei extended his hand to push away the mist, only to see that he was reflected on the calm sea.

Golden skin, a burly body, and perfect muscle lines. At that moment, Han Fei felt that he was like an old Buddha. With a wave of his hand, terrifying power would pour out.

However, before Han Fei could feel much, he felt a complicated golden inscription appear in his mind. Although Han Fei didn't recognize these words, he vaguely understood them.

The Dharma idol could be Buddha, devil, giant, or monster. And the most fundamental state of the Dharma idol was himself.

Therefore, Han Fei looked at the water again and found that his face was reflected on the sea.

Han Fei realized that the Dharmakaya, as the first Dharmakaya he cultivated, had been assimilated by the Dharma Idol. Now, he was the manifestation of the Dharmakaya, and his Dharma Idol had swallowed the Dharmakaya.

"Hiss ~"

In addition to this comprehension, with a thought from Han Fei, his reflection had three heads and six arms.

With another thought from Han Fei, he became a devil fuming with black flames.

Han Fei shook his head and looked at Han Fei again. It was still him.

At that moment, Han Fei seemed to understand that the so-called Dharma Idols were formless. His Dharma Idols were different in the eyes of different people.

Some people could feel that he was a Buddha, and some could feel that he was a demon. What they saw was what they saw, but Han Fei knew that he was himself and had never changed.

Chapter 1952: Taiyuan

The magical effect of the second divine pill was to make Han Fei realize that his Dharma Idol World had fused with his Dharmakaya.

From now on, he didn't have a Dharmakaya, but only his own Dharma Idol.

When Han Fei's soul returned to reality, he took a deep breath and left the Origin Sea.

After coming out, Han Fei immediately tried to summon his Dharmakaya. This time, a giant more than 5,000 meters tall appeared behind Han Fei.

Han Fei looked over. This was indeed not his Dharmakaya, but an enlarged version of him. At the same time, his consciousness descended into the Dharma Idol.

Han Fei raised his hand, looked at his palm, checked his arm, and pinched his muscles.

"So hard."

Han Fei flicked his arm with his finger, only to hear a loud clang.

"Where did this Dharma idol come from?"

Han Fei was also confused. He could feel that the Dharma Idol seemed to have stronger power than his Dharmakaya. However, Han Fei really didn't understand the source of this power.

Han Fei could only guess that this was the descent of a Heavenly Dao power, or that he had borrowed some indescribable power.

As for how strong the Dharma Idol could be...

Han Fei clenched his fist and tried to punch out, but the surrounding void collapsed, and the void cracks cut his body, making clank sounds.

And the power of his punch directly crossed more than 60,000 kilometers on the sea, leaving a fist mark on the sea.

"Hiss! It's even stronger than the power of my Great Dao?"

At this moment, the old turtle said, "Is this huge body your Dharma Idol?"

Han Fei's heart did a flip. "Old Yuan, do you know this?"

The old turtle said in surprise, "I've heard of it and seen others use it, but it doesn't seem to be used like this."

"It doesn't seem to be used like this?"

Han Fei was stunned. "Then how should I use it?"

The old turtle asked in confusion, "Why don't you stand on the Dharma Idol and feel it yourself?"

Han Fei: "???"

Hearing what the old turtle said, Han Fei suddenly realized something. Yes, whether it was the Dharmakaya or the Dharma Idol, he had never tried to stand on it.

Swish ~

When Han Fei appeared above the Dharma Idol, before his feet touched its head, he felt that he seemed to have established a completely synchronized connection with the Dharma Idol, unlike just now when his consciousness was separated from this Dharma Idol. Now he could control himself and the Dharma Idol at the same time.

Han Fei punched again, and this punch blasted out more than 80,000 kilometers, more than 20,000 kilometers more than before, which was much more than his own strength.

At this time, the old turtle roared, "I've seen people fight like this before. They stand on their Dharma Idols and fight with the power of their Dharma Idols. Different Dharma Idols are different in strength. The power you're unleashing now doesn't seem to be able to exert the real power of your Dharma Idol."

Han Fei asked, "How can I exert the full power of my Dharma Idol?"

The old turtle said, "I once heard from a Demon Emperor that he cultivates a Dharma Idol, and in the end, he and his Dharma Idol are fused. The moment you completely fuse with your Dharma Idol is the moment you truly control it. But clearly, you are still far away from it."

Han Fei couldn't help but think of the saying, "Your body is the Dharma idol and the Dharma Idol is your body." Did it mean that the body and the Dharma idol fused?

Unfortunately, he didn't know much about this aspect and wasn't very good at using it. He could only gradually learn to use it in the future.

All in all, the most basic benefit of swallowing the second divine pill was that he had a super fighter who was even stronger than him. And this fighter might be able to completely fuse with him in the future.

...

At this point, the hunt for the Dream Weaving World was officially over.

Han Fei didn't dwell on the Dharma idol thing anymore. Although it wasn't as useful as the Golden Light Movement Technique, it was probably because he hadn't learned how to use it yet.

When he had the chance to enter the Void Temple again, he would definitely ask how to use the Dharma Idol.

Now, Han Fei had already threatened those who should be threatened and fought those who could be fought. It wouldn't get him anywhere to continue to attack the Thirty-Six Heavenly Palaces.

Han Fei thought for a long time, and with a flash of golden light, he disappeared into the vast sea.

...

The Chaos World.

This was an extremely powerful Heavenly Palace independent of Supreme Clearness and Infinity. The overall strength of the Chaos World was ranked second among the Thirty-Six Heavenly Palaces. However, the Chaos World didn't collude with Supreme Clearness and Infinity.

The main city of the Chaos World was called the Origin City. Among them, the most famous was the Primordial Chaos Palace, the highest academy in the Chaotic World. In terms of structure, architectural characteristics, and clothing culture, it was not much different from other Heavenly Palaces.

The cultivation of the Chaotic World was not on the path of body refinement. Its complexity was no less than that of Supreme Clearness and Infinity. All kinds of Heavenly Talents could be born here.

It just happened that Wu Hao, whom Han Fei had once met, was a body refiner.

At this moment, Han Fei's purpose was clear. He was here to ask for reinforcements. The Chaos World was aloof from everything, but no matter what, he had to try. At least, it wasn't his enemy.

Above the Origin City, Han Fei deliberately revealed a wisp of his aura.

Buzz!

Almost immediately, three Sea Establishers appeared in the sky.

Someone smiled. "Oh! Fellow Daoist, what brings you here?"

Someone smiled and said, "So it's the master of the Yin-Yang World, Fellow Daoist Han Fei. I wonder why you're here?"

The other person stood in the distance and began to use the power of the Sea Establishment realm to seal all perceptions. Ordinary people could no longer find Han Fei.

Han Fei said, "I'm Han Fei. I'm here to meet the master of the Chaos World, Senior Taiyuan."

The three kings narrowed their eyes. If it were an ordinary person who said this, they would definitely be beaten out. But this Han Fei was too domineering and arrogant. They had just learned that the Dream Weaving World was almost destroyed by this person.

Although the Chaos World never got involved in the affairs of other Heavenly Palaces, they were all humans after all. They certainly didn't like Han Fei causing a civil war among humans.

However, because the Han Fei here was only a projection, the three kings knew that it was useless to kill him. They wouldn't attack him, but how could they just let him meet the palace master so easily?

Just as one of them was about to drive Han Fei away, he heard a voice say, "Let him in!"

The three kings were slightly stunned. Although they were unhappy, one of them still said, "Fine! Since the palace master is willing to see you, go!"

With that, a teleportation array appeared in the void. Han Fei smiled and walked in without hesitation.

The void flashed, and the scene in front of Han Fei's eyes changed. What came at him was billowing heat waves. The Heavenly Palace in the Chaos World seemed to attract the essence of the sun to calcine it from time to time, and the heat was even stronger than the Yin-Yang World enveloped by the Heavenly Dao Dharma Eye.

In this fiery heat, a burly white-haired topless old man was sitting cross-legged on a red stone that looked like a soldering iron.

Han Fei couldn't feel any aura of a strong master from this person, but at first glance, Han Fei knew that this was the master of the Chaotic Qi, Taiyuan.

Han Fei stopped a hundred meters away from Taiyuan and then cupped his hands. "Junior Han Fei greets Senior Taiyuan."

The old man was looking at Han Fei up and down, his voice loud and clear. "It's a pity that your original body is not here. I heard that your physique is extremely strong. You had already cultivated the Indestructible Golden Body when you were still in the Sea Establishment Realm. You even gave Wu Hao some pointers. I've seen your insights. Not bad."

Han Fei said, "Senior, you flatter me. I've long heard that you are the best in body refinement in the Raging Sea. I think you will only be stronger."

Taiyuan nodded noncommittally and said, "Okay, don't stand on ceremony. Tell me! Why are you looking for me?"

Han Fei said, "I want to make a deal with you, Senior."

"Oh? Tell me about it."

Han Fei asked, "Senior Taiyuan, since the Age of Doom, we humans have yet to step out of the Raging Sea, right?"

Taiyuan nodded. "Yes. From what you said, the thing that Han Guanshu planned to make has been made?"

Han Fei was briefly stunned. Why does everyone know this? But he still nodded. "Yes. As long as I want, I can leave the Raging Sea at any time."

Taiyuan said, "Your deal is quite attractive to me. However, this is not enough for me to stand on your side and deal with Supreme Clearness and Infinity. It's not that I can't, but that once I stand on your side, the two forces of the human race will be evenly matched, and internal strife will rise. Then the hundred demons, the undersea human race, and the Merman Royal Family will have a chance to take advantage of it."

Han Fei thought to himself, Taiyuan knows the situation very well. He knows why I'm here and has already come to a conclusion.

Han Fei was silent for a moment and said casually, "In that case, I have nothing to say. Goodbye."

Originally, Han Fei just came to give it a try and wasn't completely confident. After all, Old Man Taiyuan was different from others. He was a Sky Opener and his lifespan was incomparable to a king's. He didn't have to start a war with other emperors.

Hearing Han Fei's words, Taiyuan smiled and said, "You really don't know how to persist. Although I refuse, don't you give it another try?"

Han Fei: "???"

Han Fei smiled bitterly. "Senior, you know the situation very well. What else can I say? Yes, I caused the internal strife of the human race, but since the division of the Thirty-Six Mystic Worlds, the human race has actually become a heap of loose sand. In troubled times, we should unite and reorganize the human race. Since Senior doesn't want to fight, I will work out another way to deal with it. I can still defeat Supreme Clearness and Infinity, but it will take more time."

"Hahaha! Interesting kid, you're so young, but you're quite arrogant. Including Supreme Clearness, Infinity, and Soul Sealing, there are a total of three Sky Openers, while you only have a Sword God on your side. I can't figure out where you get your confidence from. Has your Nine Palace World produced a Sky Opening Realm cultivator?"

Han Fei smiled and said, "No, but even Senior and Supreme Clearness and Infinity might have underestimated my potential."

"Oh?"

Taiyuan couldn't help but say, "Good boy, you're really arrogant. Do you mean that it's not difficult for you to open the sky?"

Han Fei smiled and said, "To tell the truth, it's not difficult indeed."

Chapter 1953: The Wild Abyss Broke

Han Fei dared to say that it was not difficult to open the sky because he had already figured out the cultivation method of the Sea Establishment Realm. To be honest, because of the existence of the Demon Purification Pot, he had already made a schedule of his cultivation progress in the Sea Establishment Realm.

If he cultivated with his current strength, if his Origin Sea reached 100,000 kilometers, he would definitely take the first place in the Sea Establishment Realm.

Hearing Han Fei's words, Taiyuan couldn't help but take a deep look at Han Fei. Although Han Fei didn't seem to be a good person so far, he wouldn't deny Han Fei's talent.

As a junior, few people could reach Han Fei's level. Han Fei had only been a king for a few years, but he could already integrate the ten pirate groups. What he lacked was time.

However, this was not the reason for Taiyuan to help. Old Man Taiyuan said simply, "You are interesting, but the Chaos World has never cared about these messy things. Since you are confident to fight with Supreme Clearness and Infinity, you can fight them yourself. But I also want to use your navigator. Fine, I'll give you some additional help."

Han Fei's heart did a flip. He didn't expect Old Man Taiyuan to be so easy to talk to.

Han Fei said, "I'm all ears."

Taiyuan said, "At that time, if the battle between you and Supreme Clearness and Infinity involves too many human forces, the hundred demons and the undersea human race will definitely cause trouble. I can take action and suppress these people, giving you a fair and pure environment to fight Supreme Clearness and Infinity. As for who wins and who loses, I won't interfere..."

With that said, Taiyuan waved his hand, and a teleportation array appeared beside Han Fei. He said, "That's not really helping you. I'm helping the human race. If you don't die, we'll meet again."

Han Fei thought to himself, That's not bad. Han Fei had planned to lead the kings of the Heavenly Palaces in the outer domain to resist the hundred demons and the undersea human race. Anyway, most of these people wouldn't participate in the battle, so they certainly wouldn't let go of the chance to restrain the hundred demons and the undersea human race.

After all, the Heavenly Palaces in the outer domain didn't want to get involved in the battle between the Yin-Yang World and Supreme Clearness and Infinity.

What Han Fei was doing now was just to prevent the other Heavenly Palaces from getting involved. In this way, only a few Heavenly Palaces like Supreme Clearness and Infinity would take the initiative to attack the Yin-Yang World, which was much better than the entire Thirty-Six Mystic Worlds attacking the Yin-Yang World.

"I'll take my leave, Senior."

.....

...

More than three months passed.

In the outer sea, the Avenger pirate ship was on a public route to the Wild Abyss.

On the deck, Han Fei said to Luo Xiaobai and the others, "In a few days, the Yin-Yang World or the Water-Wood World may appear. At that time, combat power below the Sea Establishment Realm may be useless. Therefore, you don't have to fight for the time being."

Luo Xiaobai frowned and said, "No! If even Venerables don't participate in the battle, then you'd have to face the entire Infinity alone!"

Xia Xiaochan also said, "That's right. If even Venerables can't help, wouldn't only kings or even emperors come? How can there be so many kings in the Raging Sea?"

Zhang Xuanyu said, "Feifei! How can we sit by and watch you face such a crisis alone at such a critical moment?"

Le Renkuang nodded. "At least take us with you."

Han Fei sighed slightly. "Okay! Then let me see. If there is a battle of Venerables, I will let you out. Let's see how powerful Bei Luo Chen can be! Can he swallow the entire Yin-Yang World and Water-Wood World?"

Luo Xiaobai nodded and asked, "How long before the Monarch Palace opens?"

Han Fei smiled. "A year."

"Huh?"

Luo Xiaobai and the others were surprised. Didn't they say that the Infinity World had grasped the time? Why did they release the Yin-Yang World and the Water-Wood World in a year?

Han Fei said with a smile, "The Infinity World certainly doesn't want the cage of the Yin-Yang World and the Water-Wood World to break so early. However, he is only an emperor, and he is not the only emperor in this world."

Xia Xiaochan raised her eyebrows. "Did you turn to the Martial King for help?"

The only one Xia Xiaochan could think of was the Martial King. Only the power of the Martial Emperor City could make the Yin-Yang World and the Water-Wood World appear in advance.

Han Fei grinned. "Anyway, the Martial Emperor City still owes us two favors. It's a waste not to use them."

...

Three days passed.

In the depths of the Desolate Abyss, Bei Luo Chen was cultivating in the sky above the abyss. There was only one year left before the Monarch Palace opened. According to his calculations, in about eight months, he would be able to gradually break through the seal of the Yin-Yang World.

When the seal was broken, if Han Fei came, he would die, and if he didn't, they would just slaughter the people in the Yin-Yang World and the Water-Wood World and seized the two worlds. No one would dare to say anything.

Suddenly, a figure stepped out of the void. When Bei Luo Chen took a closer look, he found that it was the Martial King.

Bei Luo Chen immediately narrowed his eyes and said, "Martial King, are you here to intervene in the battle between the Yin-Yang World and the Infinity World?"

The Martial King smiled faintly. "You should know that after Han Fei finishes the trial of the Martial Emperor's inheritance, our Martial Emperor City has promised him to do three things for him."

Bei Luo Chen's face turned cold. "So you even agree to help that brat save two Heavenly Palaces?"

The Martial King said indifferently, "Not really. However, you're really petty to threaten a junior with two Heavenly Palaces. Don't you dare to fight him with your Sky Opening realm strength? Why do you still need to use such despicable means? I'm here today to break the cage. Do you have any objections?"

Bei Luo Chen's face immediately turned cold. "Martial King, your Martial Emperor City's better mind your own business!"

The Martial King glanced at him sideways. "Why? You want to stop me? Do you think you can?"

Bei Luo Chen: "So, Your Excellency, you've decided to be on Han Fei's side?"

The Martial King snorted. "So what? Do I need to explain my actions to you?"

Just as the Martial King was about to enter the vortex, Bei Luo Chen said, "Your Excellency, if I've guessed right, Han Fei has already used the Martial Emperor City twice, right? I'd like to see how he will use the third favor! If he used up the three opportunities, I'd like to see what reason your Martial Emperor City has to protect Han Fei."

"Humph ~"

Ignoring the threat of Bei Luo Chen, the Martial King jumped into the eye of energy in the Wild Abyss.

In fact, the existence of the Yin-Yang World had never been a secret to these real big shots. However, in the past, because the Yin-Yang World had the Yin-Yang Heavenly Millstone, which was as firm as a rock, even those in the Sky Opening realm couldn't break it.

But to this day, the Yin-Yang Great Millstone's strength was declining, and its internal structure had been greatly destroyed. As long as one cast his projection into it and exerted a power that could shatter the structure of the cage, it would be fine. Not only Bei Luo Chen but any other sky opener could also do this.

Han Fei had asked the Martial King before if he could protect the Yin-Yang World and the Water-Wood World. However, Han Fei was told that the Martial Emperor City wouldn't take the initiative to help any force. This was the principle of the Martial Emperor City.

Otherwise, once the Martial Emperor City broke this rule, not only would the Thirty-Six Mystic Worlds have to deal with the Martial Emperor City, but the Hundred Demon Clan, the Merman Royal Family, and the undersea human race would also deal with it.

Especially the Hundred Demon Clan and the undersea human race, they had actually been waiting for the human race to have internal strife. If the Martial Emperor City took action, the human race would have no internal strife. Then it would be strange if they didn't hate the Martial Emperor City.

Of course, this wasn't the most important reason. If the Martial King was afraid of them joining forces, the Martial Emperor City wouldn't have existed in this world.

In fact, up to now, no one knew the real significance of the existence of the Martial Emperor City.

...

Bei Luo Chen couldn't do anything about the Martial King's interference. However, he wasn't very angry, because he had long guessed that Han Fei would ask the Martial Emperor City to take action.

If the Martial Emperor City took action directly, he would directly give up this operation.

But now it seemed that although the Martial King had agreed to release the Yin-Yang World and the Water-Wood World in advance, he had no intention of directly interfering. This was already good news, which meant that although the Martial King disdained his actions, he wouldn't stop him.

One day passed.

Rumble! Rumble!

Suddenly, a terrifying bang sounded in the wild abyss, as if a giant beast was roaring in the abyss. The area within tens of millions of kilometers trembled, and countless deep-sea vortexes formed at the same time.

The entrance to the Wild Abyss suddenly opened, and the Martial King stepped out on the waves, choosing to escape immediately.

Even the Martial King had to quickly leave the center of this place. How could Bei Luo Chen stay here?

Infinite energy poured into the Wild Abyss crazily. The suction force at the entrance was so strong that it could kill a Venerable in an instant.

Buzz!

In the Thirty-Six Heavenly Palaces, many kings looked at the Wild Abyss.

Someone said in surprise, "So loud? Is the Yin-Yang World about to come out?"

Someone was puzzled. "Why did the Infinity World let the Yin-Yang World and the Water-Wood World come out at this time? Isn't it too early?"

Someone's expression was ugly. "Just let the Yin-Yang World and the Infinity World fight! What does it matter to me who wins or loses?"

Hundred Demon Clan.

A green shark suddenly said, "The human race is finally in internal strife. If this battle involves Sky Openers, it will be even more interesting. Let's go and take a look."

An old man from the undersea human race opened his eyes. "The human race is finally in chaos? Unfortunately, it was before the Monarch Palace opened. Let's see how big this battle can be."

At this moment, at the edge of the huge vortex in the Wild Abyss, Han Fei felt the crazy suction force and said, "How can I get the Heavenly Palace out with such a suction force?"

Chapter 1954: Yin-Yang and Water Wood Reappeared (1)

Yin-Yang World.

Xue Shenqi was dealing with the Spirit Awakening of the new generation.

In the Yin-Yang World today, with the recovery of spiritual energy, the talent of newborns had significantly improved. Level-three spiritual heritage had become the most ordinary spiritual heritage, and now more than half of the children had level-four spiritual heritage.

Of course, under such circumstances, the Yin-Yang World would inevitably be developing rapidly. As Han Fei and the others had expected, the quality of the cultivators in the Yin-Yang World was rapidly improving. However, as more and more strong masters appeared, the demand for spiritual energy in this world would increase.

Although the overall spiritual energy level of the Yin-Yang World was several times higher than before, because of the disappearance of the enemy and the supply of spiritual energy, the number of cultivators who could become Hanging Fishers was more than ten times higher than before.

However, it was at the cost of the cage cracking that more and more energy was supplied.

This year, the number of cage cracks was three times more than when Han Fei left.

The Yin-Yang World was like this, and the Water-Wood World was even more so.

As for the Water-Wood World, a few years ago, Ma Youhun failed to transcend the tribulation and died under his king's tribulation. However, when Ma Youhun transcended the king's tribulation, hundreds of cracks appeared in the cage, so no one in the Water-Wood World dared to transcend the tribulation now.

On the Yin-Yang World's side, it was actually not much better. When Cao Tianzhi transcended the tribulation and became a king, he also caused seventy or eighty cage cracks, causing no one in the Yin-Yang World to dare transcend the tribulation until now.

After Xue Shenqi finished reading the latest Spirit Awakening Fluid supply plan, he couldn't help but rub his eyebrows, somehow feeling a little irritated.

Rumble! Rumble!

Ka ka ka ~

.....

Bang!

Suddenly, there was the sound of collapse in the sky. The extremely obvious cracking sound shocked many people.

"Hiss ~"

"Not good."

Xue Shenqi's expression changed drastically. His figure flashed and he stepped out of the sky. The sky was colorful and cracks appeared occasionally.

Xue Shenqi tried to find Tang Yan and Cao Tianzhi, only to find that neither of them was there.

Xue Shenqi quickly calculated the time and his expression was extremely ugly. "The 21st year?"

He still remembered what Han Fei said before he left. If the cage collapsed 22 years after he left, he would come back.

Why was it stuck in the 21st year?

Judging from what Han Fei said, there must be something he didn't know.

Now it was obvious that there was something wrong with the cage, which made Xue Shenqi nervous.

On the Scattered Stars Island, everyone was discussing.

Someone was shocked. "What's going on? The sky suddenly changed. The thunder doesn't sound like thunder. Is this sound..."

Someone shouted, "Don't talk nonsense. The cage should be able to last for decades. How many years has it been?"

However, the man's tone became more and more unconfident. There were too many cracking sounds. In everyone's ears, it was like a mirror full of cracks, ready to shatter at any time.

A hundred seconds passed.

Tang Yan had already returned. He glanced at Xue Shenqi and said, "The cage is breaking. At this speed, I'm afraid it will be broken in less than a day."

"Hiss! So fast?"

Xue Shenqi was stunned. No one knew what a broken cage meant, but why did Han Fei have to go out to find a way out? Xue Shenqi didn't dare to think too much.

Tang Yan said, "I'm going to the Water-Wood World."

Ten seconds after Tang Yan left, Cao Tianzhi returned. He said with an ugly expression, "The cage has shattered, and a massive storm of spiritual energy and energy has swept over. We have to arrange for Venerables to protect the 36 towns and the Thousand Star City immediately."

Xue Shenqi's expression changed again. "So serious?"

Cao Tianzhi said, "The violent spiritual energy and energy are not something ordinary people can resist. As long as we block this wave, the situation will be much better when the spiritual energy completely dissipates here."

At this moment, Xue Shenqi couldn't care less. The sky curtain opened, and Xue Shenqi's solemn face appeared in the sky curtain.

Xue Shenqi said, "Attention, everyone. The Wall of Death is broken, and violent spiritual energy and energy are sweeping over. Those who are training outside must return to the island as soon as possible... All Venerables, immediately go to the Thousand Star City and the 36 towns to resist the energy storm..."

Half a month later.

The Yin-Yang World and the Water-Wood World had barely blocked the impact of the cage breaking.

But on that day, billions of creatures in the Yin-Yang World and the Water-Wood World died in the energy impact.

The survivors had either adapted to this new environment or made a breakthrough.

It was also from that day that the Yin-Yang World and the Water-Wood World completely connected, and the cage that blocked the two worlds completely disappeared.

In the cage, millions of explorers and the Venerables of the two worlds began to attack the sea demons of the Black Blood City.

Now that the cage was broken, no one knew where the Yin-Yang World and the Water-Wood World would go in the future. The Black Blood City should be wiped out as soon as possible.

A month later.

Suddenly, in the sky of the Yin-Yang World and the Water-Wood World, the sky was torn apart, revealing endless darkness. Then, some illusory threads spread in the sky, and countless people looked up at the sky, watching the scene where day became night, as if the sky had been opened.

Even the Venerables were dumbfounded. What was going on?

Tang Yan and the others were gathered.

Tang Yan said, "It seems that our entire world is moving."

Queen Life nodded. "Yes, the Cloud Sea Divine Tree has awakened. It said that the entire space we are in is migrating. As for where to migrate..."

Everyone gasped. "The Raging Sea?"

They learned the name of the Raging Sea from Han Fei.

Bear Handsome said, "Didn't Han Fei say that we seem to have many enemies in the outside world?"

Jing'er said, "Yes, it's said that they're very powerful. Is it really okay for us to go to the outside world now?"

Everyone couldn't help but look up at the sky worriedly.

Tang Yan said, "No matter what, the top priority is to gather everyone immediately. The people living on the Cloud Sea Divine Tree are fine, but in our Yin-Yang World, all the people have evacuated from the Scattered Stars Island and returned to the Thousand Star City. Even so, the 36 towns can't be completely protected."

...

The Yin-Yang World was facing an unprecedented event. Just as Tang Yan and the others were actively dealing with the outside world.

Outside, Han Fei had been wandering outside the Wild Abyss for nearly half a month. In this month, the suction force of the Wild Abyss gradually slowed down.

However, as the suction force slowed down, it also meant that the depths of the Wild Abyss were returning to peace. Once everything returned to peace, it meant that it was time for the Yin-Yang World and the Water-Wood World to come out.

However, although it seemed calm now, Han Fei hadn't shown up yet. If Han Fei showed up now, it meant that the hunt had begun.

Rumble! Rumble!

All of a sudden, Han Fei felt the suction force suddenly stop.

"Here it comes."

With a thought, the Vast Ocean Navigator in his hand pointed to a direction, which was where the Merman Royal Family was.

With the Vast Ocean Navigator, Han Fei had long come to the place where the Merman Royal Family stayed. He was only waiting for the right time to fulfill the agreement with Chun Huangdian.

As Han Fei flashed several times in a row, he felt someone looking at him.

Han Fei shouted, "Chun Huangdian, it's time to fulfill your promise. I have to enter the Wild Abyss."

However, Chun Huangdian said, "So, you don't know?"

Han Fei was puzzled. "What should I know?"

Chun Huangdian said, "Back then, Jiang Linxian and Han Guanshu snatched a world and stuffed the two Heavenly Palaces into it. Then, they forcibly stuffed this small world into the Wild Abyss and sealed it with the Yin-Yang Great Millstone. Now, the Yin-Yang Great Millstone has collapsed. That world doesn't have the power to seal it, so it will automatically be spat out."

Chun Huangdian was millions of kilometers away from Han Fei. He glanced at the direction of Han Fei and said, "If you go with us mermen, you will become a traitor of the human race. Have you thought it through?"

Han Fei sneered. "Cut the crap..."

Swish!

With a golden flash, Han Fei had already taken action.

In the center of the Wild Abyss billions of kilometers away, cracks were tearing open. The waves here were tens of thousands of meters high, and a crystal ball sealed by a barrier and emitting dazzling white light flew out of the sea. This was a small world in the real sense.

...

Yin-Yang World.

On this day, everyone looked up at the sky, only to see a dark night. In the darkness, cracks filled the sky, and crisp cracking sounds could be heard from time to time.

It was as if their entire world was about to shatter.

The Thousand Star City was already overcrowded. This was because everyone agreed that at this moment, the human race should be united. If there was only one Thousand Star City, under the joint efforts of the Venerables, they could still carry the Thousand Star City to run. But if the human beings were too scattered, they wouldn't be able to save them.

At this moment, in the Thousand Star City, someone was uneasy. "Why do I feel that the world we live in seems to be fake? Isn't the Wall of Death already broken? Why is the sky shattered and even the endless darkness full of cracks?"

Someone sighed. "Don't think too much. The kings have clarified that where we are is an independent world. The outside world is also an independent world. The two worlds can fuse."

Someone shouted, "But our world is clearly about to be broken. Will we die?"

Someone said, "The Human King said that he would go out to seek a way for us to survive, but for some reason, he hasn't returned yet. The Human King has never been away for so long!"

Among the billions of people, an old man took a group of children to live in a remote house outside the Su family on Pure Sun Island.

A boy asked, "Grandpa Village Chief, will the Human King really come back?"

The village leader smiled and said, "Don't worry. I watched the Human King grow up. He will definitely return..."

Chapter 1955: Yin-Yang and Water Wood Reappeared (2)

Outside the Wild Abyss.

Bei Luochen and the other powerhouses were already standing here. They didn't intend to find Han Fei. For them, if they could directly control the Yin-Yang World and the Water-Wood World, they could force Han Fei to show up.

There were as many as ten Sea Establishers here, as well as a Sky Opener, Bei Luochen.

Among them, the Golden Crow Heavenly Palace Master, Huo Bulie, was among them. This person's strength couldn't be underestimated.

To be honest, Han Fei alone certainly couldn't resist so many Sea Establishers, and the kings in the Yin-Yang World and Water-Wood World like Tang Yan were far inferior to the kings of the Heavenly Palaces in the outer domain in strength.

After all, in the Yin-Yang World and the Water-Wood World, how many resources could a king have to improve himself? The extreme lack of resources made it almost impossible for their strength to improve greatly. No matter how talented they were, it was useless.

Therefore, in Han Fei's opinion, it was already not bad that Tang Yan and the other kings could resist the two kings outside. In fact, the ones they could resist would only be the most ordinary kings in the

outside world. As for the masters of the Heavenly Palaces, even the master of a Heavenly Palace in the outer domain was not someone they could resist.

Therefore, Han Fei didn't count on them from the beginning.

At this moment, the suction force of the Wild Abyss paused for a rare moment, because the small world where Yin-Yang World and Water-Wood World were located was being spat out.

Seeing this world descend, Bei Luochen snorted. "Since you've come out, let the Yin-Yang World and the Water-Wood World reappear in the Raging Sea!"

Bei Luochen turned into a void hand and slapped at the transparent crystal ball that was no longer full of cracks.

Ka ka ka ~

In the void, cracks were repaired, but how could a world that could accommodate two Heavenly Palaces be ordinary?

Bei Luochen certainly couldn't break it with a slap.

However, inside the world, billions of creatures were horrified. This was because at that moment, they felt that in the sky, there seemed to be a roar of the Great Dao. The terrifying roar almost deafened ordinary people.

For the people of the Yin-Yang World and the Water-Wood World, this feeling was no less than the end of the world. It was as if someone had hammered their hearts, causing their lives to be in danger.

Rumble! Rumble!

Since one slap didn't work, another slap followed. The power of a Sky Opener was extraordinary. No matter how strong this small world was, it might not be able to block a hundred or a thousand slaps.

Knock, knock, knock!

Not only the Yin-Yang World and the Water-Wood World in the small world felt the terrifying rumbling of the Great Dao, but Han Fei could also feel the energy impacts from tens of millions of kilometers away.

A hundred seconds later.

Crack ~

An obvious black crack appeared on the crystal ball.

Instantly, the eyes of the kings around Bei Luochen lit up. "A crack appeared."

Bei Luochen said, "This is a small world snatched from the Monarch Palace. It's only one crack, and it can't reveal the small world's original appearance. I'm also curious about how sturdy this small world in their hands is."

...

Yin-Yang World.

Countless people pointed at the sky in shock. "Look, the sky is cracking!"

Everyone's eyes were filled with shock. The originally dark sky was torn open at this moment, revealing a white light that spanned the sky. This light was like a crack, opening above everyone's heads.

But at this moment, a voice that everyone had been eagerly waiting for vaguely came from the void crack.

The voice shouted, "Old B*stard, Bei Luochen, are you f*cking going to cut off your own cultivation path?"

Swish! Swish! Swish!

A golden light leaped in the void. When the cracking sound resounded between the heavens and earth, Han Fei finally arrived. A million kilometers away, Han Fei cursed.

In the Yin-Yang World.

Someone was puzzled. "I don't know if it's my illusion, but why do I hear the Human King's voice?"

Someone was surprised. "Did you hear that too? I thought I was hallucinating."

Ordinary people were asking each other questions, seeming to be talking about the voice. However, the strong cultivators above the Venerable realm heard it very clearly.

Queen Life: "It's him! But... the situation doesn't seem good."

Jing'er asked, "Your Majesty, why do I feel that he seems to be fighting someone?"

Queen Life frowned. "What I'm wondering is, what is this space we're in? Why can we still hear the outside world? What was that Great Dao rumbling just now?"

In the outside world.

Swish ~

Han Fei suddenly stood a million kilometers away from where Bei Luochen and the others were. Almost at the moment Han Fei arrived, he suddenly had a premonition. Then he saw an arrow shadow break through the void, penetrate the sky, and arrive in an instant as if it was about to nail him to death.

At this moment, Han Fei had nothing to hide. In front of him, a blue halo circulated, and the terrifying arrow's speed plummeted by ten times. As Han Fei extended his hand and pulled, the endless void was torn apart, and the arrow pierced through and disappeared.

Han Fei couldn't help sneering. "You're a Sky Opening realm powerhouse, but you're playing dirty tricks on me. Bei Luochen, how did you reach the Sky Opening realm?"

Han Fei scolded an emperor as if he were scolding an Iron-Headed Fish. He cursed eloquently without any hesitation, which made the people around look at each other, thinking that this guy was really tired of living!

Bei Luochen sneered. "Han Fei, it seems that you're just bluffing. Even if the Yin-Yang World and the Water-Wood World appear in advance, I can still suppress this place. Hurry up and surrender. Perhaps I can show some mercy to the billions of creatures in this small world."

Han Fei's soul was vigilant of his surroundings. He didn't know who shot that arrow just now. It was so strong that it almost seriously injured his Time Technique. That guy's strength was definitely extraordinary.

Han Fei said, "Old B*stard, do you think I have no means to do anything to you?"

Han Fei kept calling him old b*stard, which made Bei Luochen very unhappy.

He shouted, "You sharp-tongued brat, you want to save your human race? Let me see how you can do it."

Bang!

Rumble! Rumble!

Bei Luochen attacked again, hitting the crystal ball three times in a row. The crystal ball was full of cracks, and the void ripples spread out more than a hundred thousand kilometers.

Han Fei's heart skipped a beat. Seeing this scene, his face turned green. How strong was this b * stard? If this small world really collapsed, it would mean the death of billions of creatures. Then how could he continue his cultivation to reach the Sky Opening Realm?

However, while Han Fei was stunned, his heart tightened again. He felt that the surrounding void was instantly sealed.

"Huh? How is it possible?"

Han Fei had been secretly paying attention to the person who attacked him just now. Unfortunately, he didn't find him, but the other party could seal the void while he was so vigilant. This made his expression change.

"Sky Opening Realm?"

This guy must be a Sky Opener. If he was in the Sea Establishment realm, with Han Fei's soul perception and current strength, it was almost impossible for him not to notice what he was doing.

At this moment, a middle-aged man in a black robe suddenly appeared in the void. This person was holding a big bow.

After glancing at Han Fei, the man said indifferently, "You're quite vigilant, but your perception range is limited."

Bei Luochen couldn't help but sneer. "In the end, a Sea Establisher is still a Sea Establisher. Thank you for your help, Brother Jingyuan."

Han Fei suddenly looked up at this person. "Huang Jingyuan, the master of the Soul Sealing World?"

A Sea Establisher on Bei Luochen's side scolded, "How dare you! How dare you call the palace master's name?"

Huang Jingyuan said, "Han Fei, hand over Xia Xiaochan and I'll leave this place."

With a thought, Bei Luochen quickly stepped to where Han Fei was. Huang Jingyuan was willing to come because of Xia Xiaochan. If Han Fei was really willing to sacrifice Xia Xiaochan, he would be in a passive position.

Han Fei said, "Dream on. I'll flatten the Soul Sealing World someday."

Hearing this, Bei Luochen was relieved. Han Fei was really arrogant. He was only in the Sea Establishment Realm, but he dared to challenge two people in the Sky Opening Realm.

Today, no matter how capable Han Fei was, the void was sealed this time. Even if he had a way to escape, with two Sky Openers around, how could he escape?

Huang Jingyuan also snorted and said, "You refuse a toast only to drink a forfeit. That arrow just now was just to test if you had used the Twin Divine Technique. Now, how can you escape?"

Han Fei, however, looked weird. "Do you really think you are bound to win?"

Swish ~

At this moment, Han Fei had even used the Time Technique. How would he hide his Golden Light Movement Technique?

Although Huang Jingyuan could seal the void, how could he seal time? Golden light flashed on Han Fei's body, and he jumped into the river of time.

In the next moment, Han Fei appeared 600,000 kilometers away, looking indifferently at Bei Luochen who was charging at him like a clown.

Bei Luochen's pupils were constricted, and he shouted from his throat, "Han Fei is Wang Yijian. Stop him."

Everyone was still wondering how Han Fei escaped, but when they heard what Bei Luochen said, they were all shocked.

"Han Fei is Wang Yijian?"

At this moment, Han Fei flew into the void and grabbed at the crystal ball.

Chapter 1956: You Ally with Sea Demons?

Han Fei had seen Bei Luochen slapping the crystal ball. Han Fei wondered why his Yin-Yang World and Water-Wood World, which spanned tens of millions of kilometers, could be contained in such a small ball.

However, thinking that the Demon Purification Pot could establish Forge the Universe, Han Fei didn't dwell on this question.

The old turtle suddenly said, "Hiss! Is this the legendary Primordial Spirit Earth?"

Han Fei was about to say what the Primordial Spirit Earth was, but the old turtle immediately denied his judgment. "It can't be the Primordial Spirit Earth. Otherwise, it's impossible for a mere Sky Opener to destroy it. At most, it's a small world mixed with the residue of the Primordial Spirit Earth and the Mystic Yellow Soil."

Han Fei was lost for words. "Is it appropriate for you to tell me this at this critical moment?"

At this time, Huo Bulie attacked. Han Fei had never fought this person, but this person stomped his feet, and sky burning raging flames swept thousands of kilometers. In the flames, a giant python vomited red flames and aimed at him with a locking technique.

Han Fei roared and activated his Great Dao. He extended his two fingers and unleashed All Great Daos in One Sword. Such a sword couldn't be blocked without the combat power of the top ten of the Raging Sea.

The pillar of flames was directly pierced through by this sword. The sword intent stretched out for eight thousand kilometers, like a beam of light, blasting at Huo Bulie.

"Fir Sea Cage."

Huo Bulie didn't care about the power of this sword. The fire snake behind him attached to him, and twelve fire walls appeared in front of him like shields.

At the same time, Huo Bulie retreated quickly, made a seal with his hands, and roared. The endless sea of fire was like wisps of flame needles, shining brightly, and covered with some strange dark red colors.

"Fire poison?"

The Nine Poison Treasure Silkworm was moving, and Han Fei's body was absorbing the flame poison. But how could Han Fei waste his time here?

.....

Swish ~

The golden light flashed again, passed the kings, and appeared on the transparent ball.

The moment Han Fei reached out to grab it, the old turtle shouted, "No."

However, Han Fei was too fast now. Although the old turtle shouted, he was still a step slower. Han Fei wanted to grab the ball away.

However, under Han Fei's terrifying speed, his entire arm exploded, golden blood splashed, and his severed arm turned into a bloody mist.

The old turtle shouted, "This thing is too heavy. It contains two Heavenly Palaces. It's not something you can carry at all!"

However, as soon as the old turtle said so, the transparent bead was dragged hundreds of thousands of kilometers away.

Buzz!

Almost instantly, a blue light flashed on Han Fei's body, and the severed hand was gone. Han Fei had already recovered to his strongest state with the Time Technique.

At that moment, Han Fei was shocked. This thing was so terrifyingly heavy. Fortunately, he was a Sea Establisher. Otherwise, his body might have collapsed when he was yanking it.

Buzz!

Bei Luo Chen charged at him again and shouted, "Ignorant brat, how dare you hold back a world with one hand? You must be dreaming."

Huo Bulie also shouted, "Han Fei, you're already caught in the net today. Do you still want to escape?"

Huang Jingyuan said, "Han Fei, hand over Xia Xiaochan, or I'll kill you."

The battle outside had already begun, but the Yin-Yang World and the Water-Wood World were still calm. The crystal ball swept out for a hundred thousand kilometers but the inside of this world didn't seem to be affected.

However, countless people inside heard the shouts of Bei Luo Chen and Huang Jingyuan from the gap. Han Fei's name was mentioned frequently, which shocked countless people in the Yin-Yang World and Water-Wood World.

From a certain perspective, the sound they heard through the obvious crack on the crystal ball seemed to be the sound of the Heavenly Dao.

For the people in the small worlds, it was like there were invisible gods standing in the sky, cursing and communicating with each other.

Of course, although they could hear it, the sound wasn't that clear. After all, although this small world was broken, it hadn't completely lost the protection of the Heavenly Dao.

The so-called small worlds and the outside world were just spaces. Since they were spaces, there were Heavenly Dao rules. In a sense, they hadn't left this main world but existed attached to it.

The most typical example was this Sun-Moon Shell. This crystal ball was like an ultra-large Sun-Moon Shell, but much more advanced than the Sun-Moon Shell.

At this time, Xue Shenqi and the others pricked up their ears. In terms of the situation outside, Han Fei seemed to be very passive.

The ordinary people also had ugly expressions. Someone said with a black face, "The Human King has indeed been seeking a way out for us. Although we don't know what the outside world is like, it seems to be very unfavorable for the Human King."

Someone roared, "The Human King will win!"

Someone said in a low voice, "The survival of our human race all counts on the Human King. I wish I could go to the outer domain and fight alongside the Human King."

Gradually, in the 36 towns and the Thousand Star City, wherever there were statues of Han Fei, there were people kneeling in front of them.

The Heavenly Dao collapsed, the sun and moon dimmed, and in this doomsday-like situation, they could do nothing but pray.

Of course, everyone was listening attentively. Although most people couldn't hear clearly, some of the stronger ones could. They knew that Han Fei seemed to be fighting.

...

Han Fei failed to hold the crystal ball, and a black moon rose to the sky beside him. He immediately activated the golden light leap. He had to ensure his own safety first. Otherwise, if he really fought Bei Luochen or Huang Jingyuan head-on, he would probably be instantly defeated.

But although Han Fei retreated, he didn't panic. In the void, Han Fei said, "Chun Huangdian, have you watched enough? Come out and work."

"Huh?"

"What?"

Bei Luochen and Huang Jingyuan both frowned. Chun Huangdian? How was Han Fei related to Chun Huangdian? Wasn't the princess of the Mermaid Royal Family abducted by Han Fei? Did Han Fei surrender himself to the Mermaid Royal Family?

Not only were Bei Luochen and the others surprised, but there were also other strong masters secretly watching the battle.

For example, a big octopus hidden in the void, surrounded by a group of kings. At this moment, his voice shook. "Has Han Fei betrayed his race?"

An old man from the undersea human race also frowned slightly. "If Han Fei is a traitor, is this still an internal strife in the human world? Won't he become the public enemy of the human race? Then how can there be internal strife?"

As soon as Bei Luochen's black moon rose, a figure came out of the void. It was none other than Chun Huangdian.

Chun Huangdian was still quite relaxed at this moment, with an evil smile on his lips. He immediately glanced at Huang Jingyuan and then chuckled. "One is the Heavenly Palace ranked third in the Thirty-Six Mystic Worlds, and the other is the Soul Sealing World World that is said to know the God Descending Art. Neither of the two Sky Openers can take down a Sea Establisher. What a pity! You've missed the best opportunity. Han Fei has cooperated with the Merman Royal Family. The Merman Royal Family will protect the Yin-Yang World and the Water-Wood World."

Bei Luochen narrowed his eyes and looked at Han Fei who had already escaped, saying coldly, "Good, good. The master of the Yin-Yang World actually betrayed the human race and colluded with the sea demons. Not to mention that Chun Huangdian can't protect the Yin-Yang World and the Water-Wood World, your behavior has angered everyone."

Han Fei cursed back, "I, Han Fei, have a clear conscience. Why do I need to explain to others? Instead, you old bastards, who doesn't know that you want to scheme against the Yin-Yang World? I haven't

opened the sky, so I'll let you live a few more years. Let's wait and see. After I open the sky, I'll definitely grind your bones to dust..."

Han Fei's breath vibrated as he glanced at the surrounding void. He knew that there were actually many Sea Establishers watching the battle in secret. As far as he knew, Taiyuan was here too, although his goal was to intimidate the Hundred Demon Clan and the undersea human race. There were many strong masters in the Wild Abyss today.

Some people didn't come out, and you didn't know if they were watching the show or had other purposes.

It was as if the Infinity World insisted on killing him. In fact, when he was still in the Half-King realm, the old b * stard Bei Luochen had already stopped him once.

To be honest, as a Sky Opener, would he really care about a mere Half-King? At that time, Bei Luochen didn't know that Han Fei was talented, nor did he know that Han Fei would become so strong in such a short period of time.

Therefore, Han Fei suspected that many people wanted to kill him for a purpose. The only reason Han Fei could think of was that he held the Vast Ocean Navigator and grasped the way to leave the Raging Sea.

Bei Luochen snorted. "You overestimate yourself. You want to reach the Sky Opening Realm? Humph, let's see if you can survive today!"

Han Fei couldn't help but look at Chun Huangdian, wondering if the Merman Royal Family only sent him over. Then what was the use of that? The opponent had two sky openers!

At this moment, millions of kilometers away, in the tide, there was an extremely huge whale. Along the way, the surging tide it stirred carried the power of the Dao runes.

From afar, everyone saw that on the head of the giant whale that was thousands of kilometers long, a man in green stood holding a sword. His hair fluttered in the wind, looking extremely extraordinary.

The moment Bei Luochen saw this person, his eyes turned cold and he gritted his teeth. "Mermen King, Li Qingdi?"

Chapter 1957: Battle Begins

Han Fei's heart did a flip. This person was Li Qingdi?

Xia Xiaochan had told him that when Chun Huangdian was still pretending to be in the Sea Establishment Realm, the only Sky Opening Realm powerhouse of the Merman Royal Family Xia Xiaochan knew of was Li Qingdi.

This person was said to be mysterious. It was said that few people in the entire Merman Royal Family had seen his true face.

There was a reason why Li Qingdi could intimidate the inner and outer domains alone and make the sky openers of the 36 Heavenly Palaces not dare to attack.

Firstly, no one thought that there was only one Sky Opening realm powerhouse in the Merman Royal Family. In fact, their guess was true. For example, Chun Huangdian was a hidden Sky Opener.

The other was related to the history of Li Qingdi. There was a period of time, which was said to be nearly 50,000 years ago.

At that time, there were no Sky Openers in the Raging Sea, but people like Bei Luo Chen had almost reached the peak of the Sea Establishment Realm. At that time, in order to open the sky, Li Qingdi challenged the thirteen worlds in the outer domain alone and even defeated He Daoyuan, the master of Supreme Clearness.

At that time, the Heavenly Palaces had besieged this person once, but no one could kill him.

After this person escaped, he didn't stop but went straight to the Martial Emperor City to challenge the Martial King. It was said that no one knew the result of the battle. The news was that the Martial King won a small victory, but Li Qingdi wasn't defeated. Instead, he got an epiphany. Three months later, Li Qingdi reached the Sky Opening Realm, and since then no one attacked the Merman Royal Family again.

But it was strange. It was rare for Li Qingdi to take action. Even if Bei Luo Chen had a guess, he only guessed that Long Youjun hid his strength and had actually reached the Sky Opening realm. He didn't expect that Li Qingdi would personally appear.

A million kilometers away, Li Qingdi nodded slightly in a direction. "Martial King."

The Martial King nodded slightly in return.

Then, Li Qingdi looked at Han Fei from a distance, and a voice appeared in Han Fei's mind. "After this matter, the princess must return. Otherwise, I can destroy you. No matter how talented you are, you are no match for me now."

.....

From what Li Qingdi said, it could be seen that he completely agreed with the agreement between Chun Huangdian and Han Fei. However, even such a figure had come out, which made Han Fei wonder why the Merman Royal Family was so desperate to revive Xia Xiaochan's mother. It could be imagined how strong her mother was.

According to what Chun Huangdian said about Xia Xiaochan's mother, Han Fei couldn't help wondering whether she would object to him being with Xia Xiaochan? That was a real child of a god. If she was unwilling, he wouldn't be able to be with Xia Xiaochan until he reached the Sky Opening realm.

Han Fei was speechless. His mother-in-law's status was too high. It didn't seem to be a good thing!

Han Fei replied, "After this matter, I will go to the Merman Royal Family with Xiaochan."

Li Qingdi looked at Han Fei. "Do you dare to go?"

Han Fei said, "I have an avatar."

Li Qingdi couldn't help being a little disappointed. "It seems that I overestimated you."

Han Fei said without blushing, "I don't need your approval."

In Han Fei's opinion, if his original body went with Xia Xiaochan, what if he died? Could he revive and blame the Merman Royal Family for not keeping their word?

It was already a great sacrifice for him to send his avatar over. If anything went wrong, he would cultivate hard and destroy the Merman Royal Family when his strength reached the peak.

Therefore, Han Fei didn't think there was anything wrong with his answer.

Seeing Li Qingdi come out, Bei Luo Chen frowned and said, "Li Qingdi, what you want is just the princess of your Merman Royal Family. If you catch Han Fei, how can the princess of your Merman Royal Family escape? I didn't expect that you, a royal merman, would cooperate with a human brat!"

Li Qingdi smiled faintly. "The Merman Royal Family has always been open and aboveboard. There's a reason for us to cooperate with him. We can't be as scheming as you humans. However, our Merman Royal Family only protects the Yin-Yang World and the Water-Wood World. As for the grudges between you humans, you'll have to resolve them yourself."

Chun Huangdian said, "Um, Huang Jingyuan, if you know what's good for you, get lost. We both know your purpose. Aren't you afraid that I'll kill you here?"

Chun Huangdian was not so polite to the Soul Sealing World. Their target was Xia Xiaochan. Once Xia Xiaochan died, his plan would fall through. At that time, even if he destroyed the Soul Sealing World, he wouldn't be able to get back this loss.

Li Qingdi also looked at Huang Jingyuan and said, "If you stay, the Soul Sealing World will be destroyed."

Huang Jingyuan seemed to have expected that Han Fei had reached an agreement with the Merman Royal Family. He said, "Xuan Qingzi, since you're here, why don't you come out and join us?"

When Bei Luo Chen saw Emperor Li Qing, he had already wanted to retreat. But who could have expected that Huang Jingyuan would refuse to let go at this moment?

Xuan Qingzi was here, but if it wasn't Li Qingdi, this battle could still be fought. But now that Li Qingdi was here, they would have no chance to win!

Buzz!

A figure crossed the void. This white-haired old man looked a bit annoyed.

Xuan Qingzi said, "Huang Jingyuan, why did you call me?"

Huang Jingyuan said disdainfully, "Do you really think no one will notice you here? Anyway, the matter of you already reaching the Sky Opening Realm will be known sooner or later. What's the difference?"

Xuan Qingzi said angrily, "How do you want to fight the battle?"

Huang Jingyuan said, "Li Qingdi, right? You all say that our Soul Sealing World has the God Descending Art, so I'll use this method to see how strong you have become in the past tens of thousands of years."

With that, Huang Jingyuan looked at Bei Luo Chen. "You want to kill Han Fei, and I want to kill Xia Xiaochan. Let's cooperate then. Unless the Merman Royal Family can send a third Sky Opener today, I won't retreat."

With that said, Huang Jingyuan clasped his hands, and a purple triangle appeared behind him. It looked like the halo behind the Buddha. However, his was triangular and larger, enclosing himself in it.

“God Sealing Seal, open!”

Instantly, it was as if a divine might had descended between the heavens and earth. In the vast divine splendor, Huang Jingyuan pointed two fingers, and a phantom appeared. The phantom had a human head and a snake body, looking extremely sinister.

“Yu God, fuse.”

This was something that even Bei Luochen didn't expect. He didn't expect Huang Jingyuan to have the ability to fight Li Qingdi head-on. If he had known that Huang Jingyuan was so strong, he and He Daoyuan wouldn't have underestimated the Soul Sealing World. And the status of the Soul Sealing World wouldn't be like now.

Bei Luochen couldn't help but think, Does Han Fei have a secret, or does Xia Xiaochan have a secret? Is it worth it for Huang Jingyuan to expose his real strength?

It seemed that they were not here for Han Fei!

But in any case, both Han Fei and Xia Xiaochan were banes.

Han Fei's cultivation speed was too fast, his combat power was astonishing, he had mastered the time technique, and he could even pretend to be Wang Yijian. He had only been a king for a few decades, but he was already ranked in the top ten of the Sea Establishment Realm in the Raging Sea. How could he let go of such a monster?

Bei Luochen and Xuan Qingzi looked at each other. “Kill!”

Han Fei's face turned green. What the hell is going on? Why is this happening? Isn't Huang Jingyuan too strong?

No wonder the Soul Sealing World was so arrogant. They were indeed not easy to deal with.

Bei Luochen's black moon bloomed in front of the transparent crystal ball. Then, he stepped on the crystal and struck down with all his strength.

At this moment, Bei Luochen was no longer tempting Han Fei to appear, but forcing Han Fei to come and die.

He shouted, “Han Fei, are you going to give up the billions of creatures in these two Heavenly Palaces?”

Han Fei glared at him. “Bei Luochen, your behavior today will bring a disaster to the Infinity World... Chun Huangdian, if you can't even keep your promise, don't blame me for breaking my promise.”

“Hmph!”

Chun Huangdian pointed at the sky, and the black moon was shattered at his fingertips.

Xuan Qingzi's sword cut through the sky like a waterfall, trying to stop Chun Huangdian. The latter knocked with one hand, grabbed the sword momentum, and crushed it.

Rumble! Rumble!

The battle began in an instant. The power of the blow caused the void to collapse for tens of thousands of kilometers, and seawater filled the sky.

Chun Huangdian had already landed in front of Bei Luo Chen. Their fingers and palms collided, and Bei Luo Chen seemed to be defeated and was pushed back.

Chun Huangdian casually pushed the crystal-ball small world that Han Fei couldn't carry more than a hundred thousand kilometers closer to Han Fei.

In the blink of an eye, whether it worked or not, Han Fei felt that at least he could release Tang Yan and the other kings out first to help him.

However, Huo Bulie led a group of kings to pounce at him.

Yes, even if all the Sky Openers were stopped, at least there was still the master of the Golden Crow World and the other nine kings here. How could Han Fei resist them alone?

Han Fei shouted, "The sky openers of the Hundred Demons and the undersea human race, don't say that you aren't here. Now, He Daoyuan is besieging the four palaces of the Sword God, and all the Sky Opening powerhouses of the Thirty-Six Mystic Worlds are here. If you hunt them now, you will gain a lot."

Chapter 1958: Attack the Enemies with the Stench

Perhaps in the Yin-Yang World, Han Fei's mission was to destroy sea demons and protect the human race.

However, in the Raging Sea, the so-called enemies and friends were just relative. Perhaps he and the Hundred Demon Race were still enemies, but under the current circumstances, they might join forces.

In the Yin-Yang World, Tang Yan and the others looked at each other. The battle outside had already involved the Sky Opening realm? How strong was the combat power?

Hearing Han Fei's shout, a brawny white-haired old man suddenly appeared above the sea. The old man looked at Han Fei. "Boy, your method is to ally with sea demons?"

Han Fei shouted, "Senior, are you just watching the three Sky Openers of the Thirty-Six Heavenly Palaces attack me? Is this your so-called fairness?"

"Hahaha!"

A big octopus tentacle tore through the void and appeared on the battlefield.

"Taiyuan! Han Fei is right! Bei Luo Chen and the others are really shameless. As Sky Openers, they're bullying a Sea Establishment Realm junior. In this case, why do you have to maintain the so-called fairness here?"

Old Man Taiyuan snorted. "It seems that you are going to stand on Han Fei's side today, right? Fine. Four against four. Now it's fair, isn't it?"

On the other side, an old man who looked very much like a human came with a spear in his hand. He said in a deep voice, "It's indeed been a long time since the last Sky Opening realm war. As for the Sea Establishment realm war, it's none of our business."

The big octopus of the Hundred Demon Clan also said, "The Sea Establishers of our race, just watch the human race's internal strife."

Han Fei was relieved. That's right! If he were a member of the hundred demon race or an undersea human, he would also create opportunities for the human race to kill each other.

Not only that, he would even send Sea Establishers to ambush some human Sea Establishers.

It was just that there was no need for an ambush today.

It just so happened that in Han Fei's current state, it was obvious that he couldn't take the crystal-ball small world. This crystal ball was too heavy. If he pulled it with the golden light jumping technique, even his palm would shatter. Even if he used all his strength, he could at most move the crystal ball. If he wanted to take it away, the success rate was minimal.

At this moment, Huo Bulie and the nine kings had arrived at the same time. Even Han Fei couldn't help being shocked. It would be fine if he was to only deal with one person, but ten Sea Establishers had come at the same time. Besides, none of these people looked weak. It was extremely difficult to kill them instantly.

But Han Fei had the Invincible Heart. How would he be afraid?

Seeing that the kings were approaching, Han Fei made up his mind and a golden light flashed between his eyebrows. "Invincible Eye, open."

Buzz!

Han Fei's momentum soared again. In an instant, he flipped his hand, and two strange powers were grabbed in his hand. The Immortal Qi and the Fiendish energy instantly intertwined and were released.

Immediately, Huo Bulie's pupils were constricted, and he shouted, "All kings, help me. Try your best to resist this blow."

As the master of the Golden Crow World, Huo Bulie instantly judged the power of Han Fei's blow, so he immediately changed from attack to defense.

He shouted, "Golden Crow Sun, Fire Sun Divine Wheel, suppress."

A dazzling flame divine disc extended from the sea, like a miniature planet materializing.

At the same time, one Sea Establishment power after another blocked in front of Huo Bulie, forming a nine-level king barrier.

The attack of the Immortal Fiend Saber was like the power of an immortal. Although it was extremely powerful, it was just an attack after all. Breaking the defense of ten kings in a row was still a little difficult.

Crack! Crack! Crack! Crack!

Shattering eight barriers in a row, the power of the Immortal Fiend Saber didn't really break through the ninth level of the Sea Establishment Realm protective power. But even so, these kings were all shocked. This guy had such ferocious power. How long had it been since he became a king? He actually wanted to fight ten kings alone?

More importantly, he almost did it.

"Tweet ~"

In the sun-like fire disc, a fire bird flew out, and the flames of the world rushed to Han Fei in an instant. This was an attack, and the bird form was just a form.

"Attach."

The only thing Han Fei had time to do was to fuse with Little Fatty. Although Little Fatty hadn't reached the level of a Half-King yet, its ability was very strong and could block 90% of the attacks. In addition, he had fused with Little Fatty's body and should be able to block king-level attacks several times.

Of course, that being said, Han Fei had already put on his battle suit. The battle suit he was wearing was forged from the Divine Demon Vine Grass Leaf and the Ancient Mystic Turtle Shell Armor he bought in the Martial Emperor City. In terms of quality, it was comparable to a mid-quality Sea Quelling Bizarre Treasure.

In this way, Han Fei's defense power could be said to have reached an astonishing height.

In the blink of an eye, Han Fei's attack didn't work out, and Huo Bulie's Golden Crow Fire Bird had already arrived.

Rumble!

The terrifying explosion directly collapsed the space where Han Fei was, creating an endless void. But in the aftermath of the explosion, Han Fei's battle suit was slightly tattered, blood oozed from the corner of his mouth, and Little Fatty's phantom directly lost two tentacles.

Huo Bulie felt a chill down his spine. This person's defense power was so terrifying and his physique was so strong. Under his powerful bombardment, Han Fei was only slightly injured. It could be seen how strong he was.

...

On the other side, Chen Guangjia, Xue Ran, Zhou Chen, and Black Phoenix, who were also secretly observing, looked at each other, especially Black Phoenix who looked shocked and angry.

In the end, Han Fei still had to fight these people alone?

Black Phoenix asked, "Should we help?"

Xue Ran said, "Help? Black Phoenix! Look at the level of this battle. On Huo Bulie's side, any random person is enough to kill one of us, and he has nine such people with him. Look at us, how many of us are there?"

Chen Guangjia nodded slightly. "Xue Ran is right. The ten pirate groups sound powerful, and each of them has a king, but who really dares to fight these Heavenly Palace powerhouses?"

Zhou Chen frowned. No one knew what he was thinking. He looked at Black Phoenix and asked, "Will it work if we attack?"

Black Phoenix made up her mind. "Everyone, don't forget how keen Han Fei's perception is. He knows that we are nearby. At this moment, the Sky Openers are blocked, and only he is left fighting the kings. We have four kings here, but we don't help him at all. How do you think Han Fei will deal with us if he survives?"

Chen Guangjia said, "Didn't they say that we just need to deal with the kings of the thirteen worlds in the outer domain?"

Black Phoenix said, "Are you stupid? Which king of the thirteen worlds in the outer domain dare to attack? I bet a batch of them must have come and are hiding in the dark. If they don't take action now, they probably won't."

In fact.

As Black Phoenix said, in this battle in the Wild Abyss, at least seven or eight kings had secretly come. Among them were Snow Lady and Huang Jie, as well as Hong Yue and Yan Wen.

It could be said that they were all thinking about whether to fight or not.

As for the Snow Lady and Huang Jie, they were considering whether to help or not. But if the two of them took action today, as mere Heavenly Palaces in the outer domain, once this matter ended, they would probably be crushed to death. This made it difficult for them to choose.

Although allies were allies, Han Fei had obviously not been full-fledged enough yet. If they exposed that they were his allies at this moment, they might be killed.

In the field, Han Fei was already fighting Huo Bulie and the others with great techniques. If he didn't use a fatal move to fight the enemy, no matter how strong he was, he could only blow the enemy back but not kill them.

In particular, there were three jerks from the Soul Sealing World among them. The three of them used the God Descending Art at the same time. Each of them carried a triangular halo on his back and attacked Han Fei. One bombarded his soul, one caused an abnormality in his blood Qi, and the other attacked him head-on.

And these were only the three people from the Soul Sealing World. There were also kings from the Infinity World and the Golden Crow World. Which of them could be weak?

Clang! Clang! Clang!

Bang! Bang! Bang!

When the kings besieged Han Fei, they bombarded the crystal ball from time to time to distract Han Fei. Once he was distracted in the Sea Establishment battle, he might give the other party a chance.

Even though Han Fei and the others were in a melee, he couldn't defend against their bombardment on the crystal ball.

"Son of a b * tch!"

Han Fei was furious. He activated the Infinity Water and shouted, "Explode!"

In an instant, a large cloud of black smoke swept hundreds of thousands of kilometers around. Han Fei cursed, "Come on, let me smoke you to death."

"Ew..."

"Ew..."

Even Huo Bulie kept vomiting. It felt like he had eaten a jar of shit. Even a king couldn't withstand it!

This black mist was the stink that Han Fei collected in the Land of King Death. Anyway, he had eaten the Sun Suppressing Pearl that suppressed filth, but these people didn't!

Although they were all Sea Establishers, they would definitely be affected by this stench.

It couldn't hurt them, but it was enough to disgust them.

Therefore, at this moment, Han Fei burst out and used all his strength to stab a king closest to him with All Great Daos in One Sword.

Roar!

When the Void Lines pressed down so fiercely, Han Fei let out a dragon roar that shook the sky and directly shattered this person's soul. Even so, Han Fei pretended to shatter half of this person's body and smashed him to the side of another king.

Seeing that this guy was thrown at him, the man instinctively wanted to help, but the moment he touched this person, Han Fei shouted again, "Explode!"

Chapter 1959: I, Han Fei, Can Be the Human King Or A Demon

Rumble! Rumble!

In the sky, Great Dao cracks appeared, the sky wept, and a rain of blood fell.

This was the self-destruction of a king. The power could be imagined. The entire void collapsed, revealing an endless void passage.

Killing the king from the Soul Sealing World, Han Fei used the Golden Light Movement Technique and appeared beside the king who was implicated. With a Sacrificing Punch, this person was punched into the endless void.

Originally, it was very difficult to exile a king through this kind of void collapse, because at the moment he was exiled, he would have a way to come back.

Of course, if this road was blocked, it would be a different story.

Blue light circulated in front of Han Fei, and the void was repaired. The king was finally exiled and had no chance of returning.

“Hiss ~”

At this moment, Bei Luo Chen and the others who were fighting fiercely were all shocked. Han Fei was fighting against ten kings alone but still had a chance to kill two kings in a row? It must be noted that being exiled to the endless void basically meant death. Not to mention that the probability of death after a king was exiled was extremely high, even if a sky opener was exiled into the void and couldn't return, the probability of death was equally high.

Of course, this was just a guess. Anyway, those who were exiled would never return.

“Hahaha!”

The old man from the undersea human race laughed. “This guy is indeed ferocious. He fought ten alone and even killed kings. Bei Luo Chen, you have to be careful in the future.”

The nine brains of the big octopus of the Hundred Demon Clan were racing. Was Han Fei so strong? If he grew up, he wouldn't be easy to deal with! However, his existence might break the rule of the Thirty-Six Mystic Worlds, which was what they wanted to see.

.....

As for Han Fei, he had just become a king and they weren't in a hurry to deal with him. Besides, since Han Fei could cooperate with the Merman Royal Family, he must have no bottom line. He should be much easier to get along with than sanctimonious guys like Bei Luo Chen.

With this in mind, the big octopus shouted while fighting Tianyuan, “I didn't expect that the people of the Infinity World are all trash. I'm afraid they will all be killed by Han Fei today.”

On the other side.

Black Phoenix shouted, “We can't wait any longer. We are pirates in the first place. In the eyes of these people, we are an existence to bully at will. Besides, our rankings are not high. As the saying goes, a good bird chooses a fine tree to perch on. It's better to help when needed.”

Swish ~

Black Phoenix tried to persuade Chen Guangjia and the other kings. Seeing Black Phoenix rush out, the three of them couldn't help but look at each other in deep thought.

Xue Ran said, “Han Fei is really powerful. He can kill two kings under such circumstances...”

Chen Guangjia said, “The four of us can stop the four kings, but can the remaining four be a match for Han Fei?”

Zhou Chen said, “Let's go! Let's attack together. Han Fei gave us hundreds of millions of resources for free. This money is not so easy to take. If we don't help him now, we'll be punished later.”

Chen Guangjia: “Fine, kill...”

On this side, Han Fei and the others were fighting crazily around the crystal ball. Because everyone felt that the crystal-ball world was extremely hard and couldn't be shaken by ordinary battles, they didn't care about the crystal ball at all in combat.

From time to time, Huo Bulie would slap the crystal ball to provoke Han Fei.

At this moment, Han Fei suddenly heard something and then looked at Black Phoenix that was rushing over, speechless. Why are you stupidly rushing up alone?

However, then Han Fei found that Chen Guangjia and the other two also rushed up. Seeing this, Han Fei couldn't help but grin.

He looked at Huo Bulie and said, "Humph! You aren't even a sky opener. Do you think you can kill me?"

Huo Bulie also saw Chen Guangjia and the others. He couldn't help but shout, "Han Fei, very good. You not only betrayed the human race and colluded with the Merman Royal Family, but you also allied with the ten pirate groups! It seems that your Yin-Yang World is going to completely betray the Thirty-Six Mystic Worlds."

Han Fei cursed, "F*ck you! Do you think you guys deserve to rule the Thirty-Six Mystic Worlds? Do you think you deserve to rule the human world? If I'm strong enough, I'll beat you through one by one so that you know that you're nothing more than rotten fish and shrimp."

Unfortunately, the stinky smell could only work once. The human kings immediately cut off a wisp of their soul and directly broke the power of this stench.

Almost everyone activated their secret techniques, trying to kill Han Fei with their own Great Daos.

However, Han Fei had an invincible heart and walked the path of body refinement. With the Nine Poison Treasure Silkworm and the Demon Purification Pot guarding his soul, his body was as hard as an iron wall. The Great Daos of these people were basically useless to him.

If he attacked head-on, these people couldn't even withstand a single punch of his. They had to use the power of their Great Daos to withstand it. Therefore, although Han Fei was constantly besieged, every time he counterattacked, a king would be shaken back.

Huo Bulie's expression was ugly. "No! We can't gain the upper hand even in this situation. What the hell is going on?"

Huo Bulie shouted, "The guys from the Soul Sealing World, use the God Sealing Seal!"

The remaining two kings of the Soul Sealing World looked at each other and suddenly stepped back. They made a strange gesture, and the triangular marks behind them instantly enlarged infinitely.

"God Sealing Seal, God's Eye."

Buzz!

In the sky, two cracks appeared, like a pair of big eyeballs. Han Fei felt the pressure on his body getting heavier and heavier, and an extremely terrifying pressure descended.

Han Fei instinctively jumped a hundred thousand kilometers away with the golden light technique.

However, the power didn't decrease at all. A king of the Soul Sealing World shouted, "Han Fei, stop struggling. The gods are watching you. Unless you escape this time and give up the Yin-Yang World and the Water-Wood World, don't even think about escaping it."

Han Fei sensed that his strength had been suppressed by at least 30%.

At this moment, Huo Bulie's body underwent a violent change, and then a strange creature with a human head and fire feathers appeared above the sea.

Huo Bulie shouted, "Golden Crow Demon Subduing, Heaven and Earth Soul Separation Claw."

Ka ka ka ~

Han Fei could see with his naked eye that in the sky, a terrifying golden aura was descending crazily. Little Fatty's voice echoed in his mind, "I can't resist it at all!"

At this moment, Black Phoenix and the others were still 500,000 kilometers away, still some distance away from him.

The other five Half-Kings all attacked with all their strength, taking the opportunity to attack Han Fei. Some arrows hit the soul, some spears cut through the void, some saber beams tore through the void, and some sword Qi swept across. Han Fei seemed to have become a target. Who could withstand this?

Bei Luochen snorted. "He hasn't reached the limit of the Sea Establishment Realm yet. No matter how talented he is, how can he resist these kings?"

Roar!

However, as soon as Bei Luochen ridiculed him, he saw a huge bronze-colored figure that was 500 meters tall and emitting a brilliant yellow light appear on the sea.

"Huh?"

When the Martial King saw Han Fei's Dharma Idol, he was stunned. He thought to himself, Didn't I teach him Dharmakaya? Does the Dharmakaya look like this?

The Martial King was stunned. This was not the Dharmakaya at all, but an enlarged version of Han Fei!

Buzz!

Han Fei's figure appeared above the Dharma idol.

"Huff!"

Han Fei felt the violent power all over his body, and the pressure of being stared at by the Eyes of God was instantly minimal. Han Fei raised his hand, and so did his Dharma Idol.

"All Great Daos in One Sword."

Han Fei hadn't tried to use his Dharma Idol to use All Great Daos in One Sword. This power was 50% stronger than when he used it.

At this moment, Han Fei felt that his strength might have reached 800,000 waves. Such a blow caused endless ripples when it collided with the Heaven and Earth Soul Separation Claw. In the blink of an eye, its power radiated more than 100,000 kilometers.

Crack!

But at this moment, another obvious crack appeared on the crystal ball. It turned out that under their continuous attacks, the crystal ball would also be broken.

The destruction of the crystal ball immediately attracted the attention of Huo Bulie and Han Fei.

Huo Bulie wanted to threaten Han Fei with the small world, and Han Fei wanted to take the small world away.

The two collided but failed. At this moment, they charged at the crystal ball at the same time. At this moment, Black Phoenix and the others arrived. Huo Bulie shouted, "Stop them."

In an instant, those who were fighting Han Fei were only Huo Bulie, two strong masters from the Soul Sealing World, and a king from the Infinity World who was using a saber.

Han Fei couldn't care less. Seeing that the God's Eye was still looking at him and there was a person guarding there, he counterattacked with the Immortal Fiend Saber.

Han Fei shouted, "I, Han Fei, can be the Human King or a demon. Anyone who stands in my way deserves to die. Kill..."

At that moment, Han Fei blocked the crystal ball with a hand, and a black knife with the strange Mystic Yellow Power slashed at Huo Bulie.

"Dragon-Subduing World, Dragon Slaying Technique?"

Chi la!

Huo Bulie immediately retreated, and the Great Sun Disc blocked the dragon slaying slash in front of him.

"Puff... Crack..."

At this moment, Han Fei had no time to care about these hidden powers. He pressed his hand on the crystal ball, trying to pull it away.

However, without the speed enhancement, although Han Fei managed to move this small world, he could only pull it a thousand kilometers away a second.

Han Fei was lost for words. "How did Old Han and my mother get such a heavy thing into the Wild Abyss? They were probably not as strong as me back then. Did they have the strength to take it?"

Chapter 1960: Third Condition

Han Fei instantly thought of the key point. Old Han and his mother definitely couldn't take this thing away back then. Bei Luo Chen had been slapping the crystal ball crazily. Although there were dense cracks on the crystal ball, in fact, there was only one real crack.

Now, perhaps because the battle was too fierce, and Huo Bulie was not weak either, after a few attacks, another crack appeared.

At this moment, Han Fei realized something. What sealed this thing before was the energy that was constantly absorbed by the Wild Abyss, and the terrifying energy managed to suppress the crystal-ball small world because of the Yin-Yang Great Millstone.

Now, as soon as the Yin-Yang Millstone disappeared, this small world was spat out, which meant that the power that suppressed it was gone.

However, just the energy from the outside world was definitely not enough, because the Yin-Yang Great Millstone was connected to the cage in this small world.

Therefore, Han Fei suspected that he probably needed to establish a connection with this thing.

And the way Han Fei could think of establishing a connection was to bind the crystal ball with his blood.

“If my mother could drive this thing back then, then now, with my strength, there’s no reason I can’t.”

Han Fei decided to have a try.

Of course, before he tried, Han Fei still had something to do. Huo Bulie was knocked back by the Dragon Slaying Technique, and on the other side, the three kings tried to resist Han Fei’s Immortal Fiend Saber together.

Unfortunately, they could resist it just now because there were nine kings. Now, there were only three of them. How could they resist it? “Please reading on newnovel.org”

Boom Boom Boom ~

Three consecutive bell-like impacts sounded as the Immortal Fiend Saber passed through three barriers in a row. The third king tried to wrap the Immortal Fiend Saber in the void by collapsing the void.

.....

However, Han Fei smiled and thought to himself, How can my ultimate move be solved by you so easily?

At the moment the void collapsed, the Immortal Fiend Saber dispersed, jumped out of the void, and condensed again. The power was controlled by Han Fei’s will. Without powerful means, how could it be easily broken?

The king of the Soul Sealing World ignited his essence blood and drew a strange seal in the air, summoning a triangular god-sealing seal.

Unfortunately, any power was relative. It was true that the people from the Soul Sealing World were strong, but they were not strong enough compared to Han Fei. People like Huang Jingyuan were really rare.

Even Huang Jingyuan, who could summon the God Sealing Seal to fight Li Qingdi, was sent flying. If it weren’t for the divine might he summoned, he wouldn’t be a match for Li Qingdi at all.

Crack... Boom...

Under the powerful attack of Han Fei, the powerhouse of the Soul Sealing World died, and the God's Eye was full of cracks. In the end, it failed to escape the fate of collapse.

As soon as the so-called God's Eye was shattered, Han Fei felt that his strength came back by at least ten percent. He looked up at the Great Dao crack in the sky.

Han Fei grinned. "Do you want to see me slaughter all the strong masters of Soul Sealing and Infinity today?"

Another king had died. This was already the third Sea Establisher that Han Fei had killed alone. This shocked everyone.

But at this moment, he was not arrogant. Instead, he was vigilant. He couldn't really count on the Hundred Demon Clan and the undersea human race. If he showed his real strength so early, were they really not afraid?

This was impossible. If he really had the strength to defeat Huo Bulie and the other kings, they might stop and even want to see how Bei Luo Chen and the others would fight him.

This was because in their opinion, the battle between Han Fei and Supreme Clearness and Infinity was just an internal strife of the human race. It was just that Supreme Clearness and Infinity were too strong, so they wanted to keep a balance so that the two parties could kill each other better.

If Han Fei guessed right, if he could kill two or three more kings, one of the hundred demons and the undersea human race would stop fighting.

Therefore, Han Fei split his soul, and his original body separated from his Dharma Idol and appeared next to the crystal ball.

Han Fei's Dharma Idol punched on the sea and attacked Huo Bulie.

And Han Fei's original body extended his hand and pressed it against the crystal ball, and his hand was dripping with blood.

Han Fei had made a judgment. If his mother could control the crystal ball in this way, so could he.

Of course, he had also prepared a time technique. If anything went wrong, he would immediately reverse time to protect himself.

When Han Fei pressed his bloody hand on the crystal ball, he immediately felt that his soul seemed to be extracted and sucked into the crystal ball.

At that moment, Han Fei seemed to be able to see everything in the crystal ball. He saw the Cloud Sea Divine Tree, the Thousand Star City, the deserted Scattered Stars Island, and the crowded Thousand Star City.

As soon as Han Fei sensed this, he felt that almost 90% of the blood in his body had dried up, but not completely.

However, at this moment, his blood and Qi had plummeted. How could Huo Bulie not tell it?

Huo Bulie shouted, "Come on, attack him with all your strength. He is triggering the small world, and he is at his weakest now."

Huo Bulie was right. At this moment, Han Fei's strength was weakened by at least 30%. Although his Dharma idol could still use All Great Daos in One Sword, it could only block Huo Bulie.

As for the other two, one was a powerhouse from the Infinity World, and the other was a powerhouse from the Soul Sealing World. The Sea Quelling Bizarre Treasure in the hand of the powerhouse from the Infinity World shattered, and blood splashed as he shouted, "Bloody Infinite Slash."

The king of the Soul Sealing World knew that this was his last chance. If he couldn't even kill Han Fei this time, he would never have another chance.

He roared and a faint blue arrow condensed above his head. "God Slaying Crossbow."

"Pfft!"

"Hiss ~"

Han Fei was speechless. The Bloody Infinite Slash of the Infinity World was nothing, but the God Slaying Crossbow of the Soul Sealing World made him feel a sense of crisis.

"F*ck! How can he do that?"

Han Fei felt that his head was very heavy now. He didn't know if it was because of the lack of blood or because he had forcibly controlled the crystal ball. Anyway, he was very uncomfortable now, feeling as if a mountain was pressing on him.

But with a thought from Han Fei, a humanoid manta ray that was a hundred meters long appeared on the sea and wrapped Han Fei's tiny body with its own.

Clang!

"Pfft!"

"Heaven Enlightenment Divine Technique."

Buzz!

In the sky, a healing divine light descended.

"Heaven Enlightenment Divine Technique?"

Instantly, Taiyuan, the Martial King, Bei Luo Chen, Xuan Qingzi, Huang Jingyuan, the Octopus Emperor, and the other Sky Openers, as well as the Sea Establishers, all exclaimed in surprise.

Even Black Phoenix was stunned. How did Han Fei even know the Heaven Enlightenment Divine Technique?

"Is he the reincarnation of the Human King?"

Taiyuan couldn't help narrowing his eyes. When the human race traveled to the east, the strongest cultivator in the world was the Human King. He decisively decided to step out of the sea to find a pure land for the human race.

Back then, the Human King built a divine ship and led his people to the east, which was controversial.

Some people said that the Human King was afraid of battle and took the opportunity to escape for his life.

Some people said that the Human King was very decisive. Although no one knew what would happen, what the Human King had done would eventually pave a way for the human race and he was like a lighthouse, illuminating a direction for countless people.

No one had learned the Heaven Enlightenment Divine Technique before because this Dao was too heaven-defying. Back then, it was known as the Undying Divine Technique. No one expected to see this Dao here today.

Immediately, the Octopus Emperor and the old emperor of the undersea human race stopped fighting. So it turned out that this guy was the reincarnation of a human king?

The Human King was so powerful. No one was his match back then. When Han Fei shouted that he was the Human King, everyone thought he was just bluffing.

Now it seemed that this guy was probably really the Human King.

The situation was immediately reversed. The moment the two retreated, Xuan Qingzi charged at Han Fei, but Taiyuan turned around and stood in his way. "Now we have to be fair."

Xuan Qingzi shouted, "Taiyuan, what do you know about fairness? If he is really the reincarnation of the Human King, how many people did he abandon back then? No matter what, this person should be executed."

Taiyuan didn't retreat at all. "It's just a fight between taking risks and not taking risks. Back then, countless people stayed voluntarily. Don't confuse the public."

Bei Luochen said, "Shi Pohuang, Kong Shen, this guy is the reincarnation of the Human King. How dare you let him grow up?"

Shi Pohuang was the Octopus Emperor, a Sky Opener of the Hundred Demon Race, and Kong Shen was a Sky Opener of the undersea human race.

These two people helped Han Fei just to increase the internal consumption of the human race. But now that Han Fei's identity had changed, the two of them directly stopped without hesitation. This showed how much the two of them were afraid of the Human King.

Now, hearing what Bei Luochen said, the two of them were tempted.

If the Raging Sea remained the same, no one could do anything to the other. But if the Human King rose, Bei Luochen and the others would probably be wiped out. However, if the Human King rose, they might as well keep Bei Luochen and the others. At least they had been fighting these people for tens of thousands of years and were familiar with them.

Immediately, the two of them made a decision.

Han Fei was not stupid. He didn't expect the Heaven Enlightenment Divine Technique to cause such a huge uproar.

At this moment, Han Fei held the crystal ball and felt that he could carry it, but it was still difficult. The soul of the Deep Sea Demonic Manta Ray was penetrated by the God Slaying Crossbow, and Han Fei found that he had even lost contact with the Dao Devouring Insect King.

With a thought from him, the Deep Sea Demonic Manta Ray was recalled into his Origin Sea, and Han Fei's Dharma Idol dissipated. His original body held the crystal ball and flashed more than 80,000 kilometers away.

Han Fei was shocked. He couldn't bind this thing with his blood, but could only increase his control over it with his essence blood. Now he could only carry this world away.

However, his speed was four times slower.

Han Fei wanted to flash more than 300,000 kilometers away, but he could only flash 80,000 kilometers away, which made him very embarrassed.

As soon as Han Fei ran, Shi Pohuang and Kong Shen moved.

Han Fei gritted his teeth. "Martial King, the third condition is to help me block these two."

The Martial King smiled. "With pleasure."

The Martial King had been watching and waiting. In the end, even if Han Fei didn't ask him, he might take action. However, he didn't want the Martial Emperor City to owe Han Fei a favor, so when Han Fei asked for help, the Martial King smiled.
