

GOF 1961

Chapter 1961: Settled

Han Fei was already ready to run. He didn't want to fight anymore. The Sea Establishment Realm fighter he had just got was killed by an arrow. Now that Shi Pohuang and Kong Shen were still chasing him, it was meaningless to keep fighting.

As soon as Han Fei ran, Zhou Chen and the others shouted, "Let's go! Let's go!"

Even Black Phoenix began to escape. Even Han Fei had run. They certainly couldn't stop the enemy here!

However, Zhou Chen and the others might have overestimated their status in the hearts of Bei Luo Chen and the others. Just as someone wanted to stop them from running, Bei Luo Chen shouted, "Idiot, why are you chasing them? Chase Han Fei."

Zhou Chen, Chen Guangjia, and the others looked at each other. Are our statuses so low?

They ran away as fast as they could. As they ran, Xue Ran said, "Thanks to Black Phoenix's reminder, this time, we helped Han Fei in times of need. Although we only stopped the enemy for a moment, we helped him, didn't we?"

Chen Guangjia said, "Sure. Otherwise, Han Fei wouldn't have killed that king so easily. Therefore, we still have credit."

Black Phoenix looked worriedly in the direction where Han Fei escaped. Although Han Fei ran faster than them, he didn't seem to be much faster. Could he really escape?

At this moment, Bei Luo Chen shouted, "The thirteen worlds in the outer domain, the Human King once wreaked havoc in the world. How can you let him leave? Aren't you afraid of me?"

However, before he finished speaking, he heard a voice refute, "Great! Old b * stard, you've finally exposed your real intention, haven't you? You just want to use your power to suppress others? If you weren't an emperor, guess how many people would listen to you? Didn't you claim to represent the Thirty-Six Mystic Worlds? Who do you think dares to touch me today?"

Han Fei shouted, "The kings of the thirteen worlds in the outer domain, listen carefully. Whoever dares to stop me shall be executed. Even if I don't kill him today, I'll kill him someday. Old b * stard Bei Luo Chen is sanctimonious, but I never hesitate to kill my enemy. Let's see who has the ability to stop me today."

Swish ~

Relying on his grasp of the Great Dao of Time, Han Fei was crazily testing the limit of speed. The extreme speed that Han Fei showed was the extreme speed of the Golden Light Movement Technique.

.....

Unfortunately, he was holding a small world, so his speed was severely slowed down, and he could only run 150,000 kilometers at a time.

However, even so, Han Fei could run more than 400,000 kilometers every second, and his speed was still astonishing.

However, as soon as Han Fei ran a million kilometers, he heard Shi Pohuang shout, "All kings of the Hundred Demon Clan, chase and kill Han Fei."

Kong Shen said, "All the kings of the undersea human race, kill Han Fei."

"F*ck..."

Han Fei shouted angrily, "You old b * stards, if you can't kill me today, I'll wipe out your entire races someday."

The battlefield was full of changes. Han Fei had just tricked them into helping him, but now these two people were persuaded by Bei Luo Chen.

However, as soon as they shouted, Han Fei sensed that within a million kilometers, four kings had appeared.

"Hiss ~"

Han Fei certainly wouldn't underestimate the kings of the Hundred Demon Clan and the undersea human race. There were definitely a lot of them. To be honest, there were at least 20 of them. Of course, there wouldn't be many. Otherwise, how could the thirteen worlds in the outer domain be peaceful until now?

But at this critical moment, let alone 20 kings, he didn't even have the time to deal with two.

For the Hundred Demon Clan and the undersea human race, they had already fallen out with Han Fei when they decided to take Han Fei down. In fact, even if they hadn't, it was impossible for them to become allies with Han Fei.

No matter who had said anything in the past, even if these two races used to call Han Fei brother and would do anything for him, at this moment, they had to turn around and stab Han Fei in the back.

Therefore, they were very decisive. After discovering Han Fei's real identity, they began to hunt him down without hesitation.

Bei Luo Chen grinned. No matter what the reason was, as long as Han Fei was dead, everything would be fine.

The Sky Openers didn't really fight, but as long as Li Qingdi was standing there, Huang Jingyuan had to stay here.

For them, they didn't know Han Fei well. Even if there was an agreement, they just needed to ensure that Han Fei could run away. Of course, it would be best if Han Fei could look worse, get injured, or suffer some losses before running away.

So at this moment, the kings were fighting but the emperors were just watching the show.

Han Fei thought to himself, None of you are good except for Taiyuan who has some principles. When I survive this tribulation, I'll settle scores with you one by one.

Roar!

As Han Fei ran, his body began to twist, and in the end, he turned into an azure dragon. His dragon claws clasped a pearl, and his speed increased by another 20%.

All kinds of arrays appeared on the dragon, which were all acceleration arrays.

At this moment, Han Fei had almost used all his strength. As long as the emperors didn't take action, basically no king could catch up with him.

Even Bei Luo Chen and the others were speechless. Why did this guy still have a trump card?

Xuan Qingzi said with an ugly expression, "Is it the Dragon-Subduing Technique of the Dragon-Subduing World?"

...

Han Fei ran for millions of kilometers before he breathed a sigh of relief. However, he didn't stop. Han Fei's goal was very clear. He might not have been prepared when he came, but he was fully prepared when he left.

After fleeing for 30 million kilometers, he smiled. Because the suction force of the Wild Abyss here was weakened, he set up a long-distance teleportation array nearby.

Although his Golden Light Movement Technique was very fast, the teleportation array he set up was faster. It could send him 2 million kilometers away at a time, and it was not easy for him to be discovered along the way.

As soon as he came here, Han Fei scanned around with his perception and was relieved to see a hidden array here. "Uncle Xuan, has anyone discovered it?"

The gravels on the ground began to move, and Han Fei's figure disappeared into the sea.

When Han Fei entered the array, Han Xuan looked at Han Fei strangely. "Nephew, where did you learn the Heaven Enlightenment Divine Technique?"

Han Fei couldn't help but ask, "Uncle Xuan, did you go to watch the show?"

Han Xuan said, "What's so difficult about that? My Thousand Opportunities Divine Ghost Compass can directly reflect tens of millions of kilometers. I can see the situation on your side from thousands of kilometers away."

Han Fei couldn't help but say, "Believe it or not, I figured it out myself."

Han Xuan couldn't help but take a deep look at Han Fei. "Yes, I believe you! Let's go! This is not a place to stay for long. The Wild Abyss has only been temporarily restored to peace. In a few days, a vortex will form here again."

Three days later.

The Sea of Fog.

Han Fei held the crystal ball in his hand. He was thinking about where to release the Yin-Yang World and the Water-Wood World. This place had to be hidden.

In the Raging Sea, the most hidden places were either far away from the core of the Raging Sea or in the Sea of Fog.

The Flying Feather World was too far away. In the Raging Sea, one would get lost if he wasn't careful. Without the Vast Ocean Navigator, he wouldn't have been able to reach the Flying Feather World at all.

Of course, Han Fei could let the Yin-Yang World and the Water-Wood World go to the Nine Palace World.

However, although the Nine Palace World was hidden, there were only more than 20 million people cultivating there. However, the Yin-Yang World and the Water-Wood World had billions of creatures.

At that time, the cultivation consumption, combat training, and marine exploration of these billions of creatures would be easily discovered.

Seeing that Han Fei seemed to be in a dilemma, Han Xuan couldn't help but ask, "Are you thinking about where to put them? The Raging Sea is huge, but it's also extremely dangerous. All the good places have actually been occupied. But don't you have a navigator? It shouldn't be difficult for you to find a safe place."

Han Fei thought that it made sense. Instead of thinking about which world to attach to, he might as well use the Vast Ocean Navigator to find a relatively safe location. After the trip to the Monarch Palace in the future, he would come back anyway.

As long as he could ensure that the Yin-Yang World and the Water-Wood World wouldn't be discovered in the short term, for example, in a thousand years, then his strength would definitely have reached the peak of the Sea Establishment Realm. He might even have already opened the sky.

It wasn't that Han Fei was too conceited, but that he had already had a clear way to make progress in the Sea Establishment Realm. Besides, he had gained so many resources that it wasn't difficult for him to advance.

Therefore, Han Fei nodded slightly. "That's good. Uncle Xuan, it's a good thing that the Nine Palace World doesn't have to appear this time. In the future, I'll have a battle with Supreme Clearness and Infinity, so with the Hundred Demon Clan and the undersea human race. There are still many battles to fight in the future, but the top priority is to get through the Monarch Palace first!"

Han Xuan said, "Han Fei, don't underestimate the trip to the Monarch Palace! The stronger you are, the more you can't underestimate it. You will find that the difficulty of the Monarch Palace is beyond imagination. Over the tens of thousands of years, do you know how many people have died in it? Among them, there are many Sea Establishers, and even some Sky Openers have died in it. It's just that ordinary people don't know it."

Han Fei asked, "Uncle Xuan, the Nine Palace World hasn't appeared for so long. How do you know the situation in the Monarch Palace so well?"

Han Xuan said, "Do you really think your uncle has disappeared from the world? Every time the Monarch Palace opened, the Nine Palace World would send people in. It's just that others don't know it."

Han Fei couldn't help but wonder, "But why are you the only king in the Nine Palace World? If you send people in every time it opens, at least a few Sea Establishers can be born, right?"

Han Xuan said with a faint smile, "Who told you that there are no other kings in the Nine Palace World? Just because you didn't see them doesn't mean they don't exist..."

Chapter 1962: Time Dao Fruit

Han Xuan didn't go to find a place with Han Fei. On one hand, Han Fei was more mobile alone. On the other hand, Han Fei still had a lot of things to do, and Han Xuan couldn't help him much.

Because Han Fei was getting more and more familiar with the Vast Ocean Navigator, he was getting better and better at finding the way. He still took out the route map he bought from the Martial Emperor City, reciting in his heart the safe place he needed to find.

The Vast Ocean Navigator pointed at the end of an abandoned route very close to the Sea of Mist. This route was only half way, and when it reached the place the Vast Ocean Navigator pointed at, there was no road.

Han Fei estimated that there must be a reason why this route wasn't fully developed. Since even the Vast Ocean Navigator felt that this place was most suitable for Yin-Yang World and Water-Wood World, Han Fei certainly wouldn't doubt it.

Because the time for the Monarch Palace to open was drawing near, Han Fei was very fast and didn't dare to waste too much time.

It only took Han Fei two days to find this abandoned route among the complicated routes.

Just like other abandoned routes, he often encountered some Venerables on this route, but fortunately, he hadn't encountered any Sea Establishers yet.

Of course, it would be great if he could meet a Sea Establisher. Han Fei felt that he had consumed a lot of energy in this battle in the Wild Abyss and needed to replenish his energy.

Unfortunately, he didn't get what he wanted this time. Although there might be many kings in the Raging Sea, they weren't common on abandoned routes. So far, Han Fei had walked a lot of non-route areas but encountered Sea Establisher-level giant beasts less than five times.

Swish ~

In the void, with a flash of golden light, Han Fei appeared in the sea with the crystal ball in his arms. Looking around, there was nothing but water.

"Huh? There seems to be no road."

Han Fei scanned around with his perception and found an endless Seaborne Prairie about 500,000 kilometers away.

.....

“Hiss ~”

Han Fei couldn't help raising his eyebrows. “Is there really such a huge Seaborne Prairie? I can't see the end of it. It's probably a million kilometers wide!”

Swish ~

After a few seconds, Han Fei rushed into the Seaborne Prairie. He sensed it and found that the spiritual energy here didn't seem to be much higher than outside!

Suddenly, Han Fei's heart did a flip. This was strange. Because this was an endless Seaborne Prairie and there were few people here, the spiritual energy here should be richer than elsewhere. But in fact, the spiritual energy here was comparable to the outside world.

This meant that in the depths of this Seaborne Prairie, there was a place or something that swallowed spiritual energy. Only this could explain why this route was only developed by half.

Obviously, the developers couldn't continue anymore. They even sold this route to the Martial Emperor City for money, but the Martial Emperor City didn't expand this route either, which meant that there might be something here that even the Martial Emperor City was afraid of.

Han Fei didn't break in rashly. Although the Vast Ocean Navigator pointed here, which meant that this was the most suitable and safest place in the Yin-Yang World and the Water-Wood World, the Vast Ocean Navigator didn't say if this place was safe for him.

Han Fei couldn't help but take out the Nine Palace Luck Ruler, and the ruler fell on the “Greatly Auspicious” divination result. This surprised Han Fei. Was this what it meant by “One who survives a great disaster is destined to good fortune”?

Han Fei had guessed that this place might be dangerous, but he never expected it to be a “Greatly Auspicious” place for him. Anything that could be said to be “Greatly Auspicious” for him now must be a very useful resource for Sea Establishers.

Since the Vast Ocean Navigator and the Nine Palace Luck Ruler both showed that he could enter this place, Han Fei didn't hesitate and went straight into the depths of the Seaborne Prairie.

Han Fei perceived that too many creatures had appeared, including many Venerables. But this was not the key. When Han Fei entered about 5 million kilometers away, he suddenly stopped.

However, at the end of his perception, a city appeared where spiritual energy was abnormally gathering.

“A giant city?”

The city Han Fei saw was at the bottom of the sea. Too many places had been covered by algae. The city didn't seem to be small. It had a radius of tens of thousands of kilometers. Many buildings had collapsed, but he could vaguely distinguish the outline of the city.

If it was just an abandoned city, Han Fei wouldn't be surprised. However, this map of the Martial Emperor City had been sold countless times, so there were definitely many people who had explored this place. If they had discovered this place, wouldn't they come here to search?

However, this place seemed to be quite primitive. There were no signs of battle, which meant that the intruders had either retreated or died quietly.

Han Fei was vigilant. All the spiritual energy here was gathered in this city, but it was clearly a ruin. Where was the spiritual energy flowing to?

“Twin Divine Technique.”

Han Fei didn’t dare to advance rashly. Although the divination result was “Greatly Auspicious”, he was always cautious.

Anyway, he’d rather be more careful.

His black-mist body quietly entered the city. However, what Han Fei didn’t expect was that the moment his body entered the city, a faint blue light seemed to appear in front of his eyes, and his body began to age.

“Hiss, flow of time?”

Almost in an instant, Han Fei understood the problem here. No wonder no one came here even though this place was abandoned. It turned out that this city was enveloped by the Great Dao of Time.

Han Fei wanted to leave the city immediately, but to his shock, he couldn’t.

Han Fei suddenly understood. He looked down, his strength shook, and smoke and dust filled the air. He found that under the moss-covered seabed sand, there were piles of bones.

“Hiss... Once people come in, they can’t leave anymore. Because the time acceleration has been activated, time here is different from the outside world. The time in this world is faster. Although the flow of time here doesn’t seem to be very fast, it has also separated this place from the outside world.”

Therefore, the history of this city shouldn’t have been long. It was just that the flow of time accelerated the aging of the city that the city declined.

Similarly, because of the time acceleration, the growth speed of all plants in the entire city was several times or even dozens of times that of the plants outside. Under such circumstances, of course, this place would continuously absorb spiritual energy from the outside world. Only in this way could the spiritual plants in the city grow quickly!

Han Fei figured out the cause and effect in a moment, and blue light circulated on the black-mist body and began to reverse time. A moment later, Han Fei left the city after time stabilized.

“I see.”

Han Fei smiled and immediately fused his twin bodies. Since he already knew that this place was strange, this city couldn’t stop him anymore.

There must be a reason for the time problem here. Han Fei stepped into this space, blue light circulating on his body, and he was not disturbed by this place.

As the saying went, there must be a reason for a strange place to appear. There must be a special reason for this place to be like this.

And this reason was too easy to find. Han Fei just scanned around with his perception and found out that the reason came from a spiritual fruit, which was a pure blue flowers tha bore a sapphire-like fruit.

However, this spiritual fruit was obviously not so easy to pick, because Han Fei found that within thousands of kilometers around the spiritual fruit, there were bones everywhere.

Not only humans, but there were also sea demons and ordinary marine creatures. They all failed to pick the spiritual fruit, so they left their corpses behind. As time went by, these people's corpses were almost reduced to dust.

Han Fei didn't care about it. He took a look, and information popped up in his eyes.

< Name > Time Dao Fruit

< Introduction > A spiritual treasure of heaven and earth, growing in a place of time disorder. If you take this fruit, you may have a chance to comprehend the Great Dao of Time. This fruit is surrounded by a time barrier produced by heaven and earth. Don't take it forcibly. Once you touch the time barrier, complicated time changes will happen.

< Quality > Spiritual Treasure of Heaven and Earth

< Contained Chaotic Qi > 1,065 Points

< Effect > Eating it, you can comprehend at least one time technique. It can be eaten repeatedly.

Seeing that it was a spiritual treasure of such a high level, Han Fei knew that it wasn't easy to get. Han Fei looked at the small barrier that emitted a faint blue halo for a long time.

The old turtle said, "Can you? Do you want to call Nian'er out?"

Han Fei nodded slightly. "The Great Dao of Time is too profound and complicated. Although I might not die if I take it myself, the result might not be good. I'll let Nian'er take it."

Chapter 1963: Come to the Outside World

??

Nian'er was now a Half-King and was sleeping in Han Fei's Origin Sea. Her cultivation was different from others. In terms of the Great Dao of Time, no one, including Han Fei, could give her guidance.

Therefore, what Nian'er had been learning had always been ordinary combat methods. She cultivated the Purity Mystic Body with others, fought with Zhang Xuanyu and the others, and hunted marine creatures with them. As for the Great Dao of Time, it was like her instinct. Every time Nian'er grew up a little, her self-knowledge would improve, and her understanding of the Great Dao of Time would become deeper.

At this moment, Nian'er appeared outside and was still rubbing her eyes in a daze. Suddenly, she opened her eyes. "The smell of time."

Nian'er opened her mouth and sucked in a large swath of blue light.

Seeing this scene, Han Fei's scalp was tingling. Comparisons are odious! The Dao runes of time were absorbed so easily by her in one breath?

"Huh? Brother, what is this?"

Without Han Fei saying anything, Nian'er looked at the Time Dao Fruit enveloped by the barrier in confusion.

Han Fei said, "It's a spiritual fruit about time. After eating it, one can understand how to use the Great Dao of Time, but it's very dangerous. Once this barrier is touched in the wrong way, it may produce complicated time changes."

With that said, Han Fei kicked the bones under his feet, reminding Nian'er that it was very dangerous.

However, Nian'er asked in confusion, "Does one need to comprehend the Great Dao of Time? Isn't this fruit completely useless?"

Han Fei: "..."

Hearing Nian'er's words, Han Fei felt as if ten thousand Iron-Headed Fish were galloping in his heart. Do you know how many people in this world can comprehend the Great Dao of Time? How can you say it's useless?

However, it made sense. The Time Dragon Carp could control time when they were born, so Nian'er didn't care about this fruit. But ordinary people would only think that this was a precious treasure. Once eating this fruit, they might be able to walk a new and powerful Great Dao. This was simply what countless people dreamed of.

Therefore, so many people had died here because of their greed.

Han Fei said impatiently, "Stop bragging and see if you can break this barrier. I sensed it just now, but I can't detect any time power in this barrier. I don't know how it's operating, so there's no way to break it."

Nian'er squatted in front of the barrier, her eyes turning blue as if she could see the secret of the barrier.

Han Fei thought that Nian'er would spend half a day cracking this barrier, but after only ten seconds, she suddenly extended her hand.

Han Fei hurriedly said, "No, no..."

But at this moment, Nian'er's hand had turned into a blue light, and then Han Fei saw the barrier suddenly shake. Nian'er quickly opened her mouth and sucked, and a small blue bead flew out of the barrier and was sucked into Nian'er's mouth.

Crunch ~

Nian'er ate happily, and the time Dao runes on her body surged. The Time Barrier disappeared just like that.

Han Fei: "???"

Han Fei didn't understand at all. "Nian'er, how did you do it? What is that bead?"

Nian'er said, "This is a time spiral barrier. Time is spinning in a spiral, forming a barrier. If you can't find the center of the spiral, you won't be able to crack this barrier. However, even if you find the center of the barrier, you have to penetrate it with pure time power, or you will be sucked in by the time spiral and eventually minced."

The time Dao runes on Nian'er's body surged, and she couldn't help but say in surprise, "This barrier might have existed for too long. A time crystal was born inside. Brother, I want to sleep..."

Han Fei's heart did a flip. Nian'er looked a little flushed and couldn't even walk steadily.

Han Fei quickly said, "Then go to sleep! I'll eat this fruit!"

Nian'er said, "Just eat it! This fruit is useless."

Han Fei: "..."

Speechless, Han Fei sent Nian'er back into his Origin Sea. As soon as Nian'er appeared, she staggered and said, "I want to sleep."

Zhang Xuanyu couldn't help but ask, "What's wrong with Nian'er? Is she drunk?"

Luo Xiaobai said, "Don't talk nonsense. Judging from the rich Dao runes on her body, she must have obtained some kind of opportunity."

Le Renkuang couldn't help but ask, "Feifei, what are you doing? Didn't you say that you were going to release the Yin-Yang World and the Water-Wood World? We're all waiting here. Why do you still have the time to find opportunities?"

Xia Xiaochan said, "Maybe he encountered an opportunity on the way."

At this moment, no one knew that the battle in the Wild Abyss had already ended. All of them were tense and ready to participate in the battle and sacrifice themselves at any time.

...

In the outside world.

Han Fei didn't take the Time Dao Fruit immediately, because he didn't know the price of taking this fruit. What if he had to sleep too?

Even if he wanted to take it, he had to wait until he made arrangements for the new home before entering his Origin World to take it.

At that time, when the time chain was fully opened, he still had decades to absorb this spiritual fruit.

Han Fei easily picked the Time Dao Fruit without any danger. This must be why the divination result was "Greatly Auspicious".

Han Fei put away the Time Dao Fruit with a smile and strolled around the abandoned city. It could be estimated that this place was at least a hundred thousand kilometers long. There must have once been an important human civilization here.

Now that the barrier had been broken, the time flow here had already stopped. Obviously, the previous time flow was caused by this barrier. Now that the barrier was broken and the Time Dao Fruit was taken away, the effect of the time flow naturally began to slowly stop.

However, it would probably take some time for it to stop completely. Just now, Nian'er took a breath of the Dao runes of time, and Han Fei sat cross-legged and activated the Great Dao of Time too. The Dao runes of time within hundreds of thousands of kilometers were slowly absorbed into his body.

Three days passed.

When Han Fei recovered from his cultivation and left the city, there was no time barrier.

Immediately, Han Fei grinned. "It's really an ideal place! Once the time barrier disappears, the creatures around here will gradually increase. At that time, with kings guarding the Yin-Yang World and Water-Wood World, they will be stable for at least a hundred years!"

...

Yin-Yang World and Water-Wood World.

In the past half month, everyone had been waiting eagerly. Many people probably knew that Han Fei was fighting fiercely, but except for that day, there was basically no sound.

Countless people were uneasy. They didn't know if Han Fei was dead or alive. For a moment, rumors were everywhere.

Someone said, "I heard that the Human King is fighting a powerhouse above the King Realm. It's said that he's in the Sky Opening realm. I wonder what the result will be."

Someone said anxiously, "Does the long silence mean that we are safe?"

Someone sneered. "Safe my ass! The sun and moon are dim here, and the sky above our heads is dark except for the two big cracks. How is this safe?"

Someone firmly believed, "At least, so much time has passed, but we're still fine. This means that the Human King must have temporarily protected us."

Ren Tianfei, Li Daxian, Tang Yan, Cao Tianzhi, Queen Life, and the others had already gathered, trying to listen to the outside world through the crack.

Unfortunately, since the battle, even the vague voices were gone, as if the battle had already ended.

Thug Academy.

Old Bai and Old Jiang looked serious. Old Jiang said, "I don't know about others, but it's impossible for Han Fei to die. That kid is very cunning. Even if he can't beat his enemy, he can definitely escape."

Old Bai nodded. "That's right. How long has it been since he became a king? If he really encountered a Sky Opener, it's fine as long as he can escape. It's not that the Yin-Yang World and Water-Wood World can't be sacrificed. Anyway, this kid has already tried his best."

"Hey! Hey, hey..."

“Can you hear me?”

Han Fei’s voice suddenly sounded in the Yin-Yang World and the Water-Wood World.

Old Bai and Old Jiang’s eyes lit up as they exclaimed, “He’s fine. It seems that he’s fine.”

Old Jiang cursed with a smile. “I knew it. This brat is very cunning. He’ll be fine!”

Queen Life heaved a long sigh of relief. “Fortunately, it seems that we are safe now.”

Tang Yan and the others also nodded slightly, relieved. This long wait felt like a year.

As for the Thousand Star City or the Cloud Sea Divine Tree, everyone went crazy.

“Roar! Roar...”

“The Human King is invincible. The Human King is still here.”

“I knew it. Who can stop the Human King?”

“Hahaha! I was almost scared to death. I thought I was going to die, but the Human King really found a way for us to survive.”

Countless people shouted at the sky, “Yes, Human King, we are all here.”

The deafening cheers and the outrageous enthusiasm made Han Fei immediately feel a large amount of power of faith growing.

To be honest, in the past few days, Han Fei had already received a lot of power of faith. Han Fei estimated that if he digested all this power of faith, his strength would increase by more than 10%.

Of course, he wouldn’t waste the power of faith. He had already made up his mind to use it on his physique. This was his absolute advantage. He had to maintain this advantage and cultivated the strongest physique.

Amid the enthusiastic cheers, Han Fei’s voice sounded in the small world, “Everyone, don’t be afraid. We are safe now. Later, I will take you to the outside world. No matter what happens, don’t be surprised...”

Chapter 1964: Spirit Earth Residue

Before Han Fei was about to open the small world, with a thought from him, everyone on the Avenger appeared.

Buzz!

Everyone looked surprised as soon as they appeared.

Luo Xiaobai asked, “Where is this? Seaborne Prairie? City ruins?”

Zhang Xuanyu said, “Feifei, aren’t we going to the Wild Abyss? This doesn’t seem to be the Wild Abyss?”

Xia Xiaochan said, “Of course. This is obviously the Seaborne Prairie. According to the spiritual energy standards here, this... seems to be the inner domain?”

Han Fei said, “Well, let me tell you something!”

Xia Xiaochan asked, "Tell me! Huh? What's that crystal ball in your hand?"

However, Han Fei said, "Well... In fact, this is the Yin-Yang World and the Water-Wood World."

Everyone: "???"

Everyone looked at Han Fei in confusion. What? They felt that they were hallucinating.

Han Fei said, "In fact, the battle in the Wild Abyss has already been fought. The weakest one is in the Sea Establishment Realm, and eight are in the Sky Opening Realm. Do you think I can let you out if the battle doesn't end?"

Everyone : "..."

.....

The group of people stared at each other as if they were listening to a heavenly book. F*ck, we are still preparing to fight, but you suddenly said that it's over?

Even Luo Xiaobai was speechless. "That's it?"

Wang Dashuai, Insect King, Zi Luo, and the others all looked at Han Fei speechlessly. What kind of efficiency was this?

Most people were amazed. Eight Sky Openers? Was the Raging Sea so dangerous now? They hadn't even seen many kings, but Han Fei was snatching things in front of eight Sky Openers alone?

Le Renkuang's mouth trembled. "I... Damn..."

Xia Xiaochan glared at Han Fei. "Why did you fight them alone?! Why didn't you tell me?"

Han Fei shrugged. "I told you! If there's room for you to exert yourselves, I'll let you out. But there wasn't a single Venerable in the entire process. How could I let you out to die? Okay, okay... Now I'm going to let out the Yin-Yang World and the Water-Wood World."

Zhang Xuanyu hurriedly said, "No, Feifei! Do you have a wrong understanding of space? Yin-Yang World, Water-Wood World... They're in this ball? What kind of ball is this?"

Han Fei held the ball with difficulty and said, "You don't believe me? Come on, try holding it up. This ball carries the weight of the two worlds. If you can hold it up an inch, I'll give you a Sea Quelling Bizarre Treasure."

Zhang Xuanyu's eyes glittered. "Keep your word! Don't move. Let me hold it up."

Zhang Xuanyu was overjoyed. He thought to himself, I've been cultivating the Purity Mystic Body to this day. Few people can compare to me in physique.

However, when Zhang Xuanyu held the crystal ball with both hands and tried to hold it up, his face flushed and the veins on his neck bulged, but the crystal ball didn't move at all.

Zhang Xuanyu said, "Don't move. Watch my three heads and six arms."

After a few seconds, nothing happened.

Zhang Xuanyu transformed and the Tertiary Body appeared. The three Zhang Xuanyus tried to hold up the crystal ball at the same time, but it still didn't move.

Yi Xiyan said, "Honey, stop it. There are so many people watching."

Zhang Xuanyu blushed. "Kuangkuang! Do you want to have a try?"

Le Renkuang shook his head quickly. "I can't. It's obvious I can't hold it up."

Zhang Xuanyu : "..."

Han Fei said impatiently, "Go away... As the saying goes, a flower is a world, and a leaf is a universe. This thing is extraordinary. It carries the weight of two domains. I almost can't carry it. How can you hold it up?"

Luo Xiaobai's heart did a flip. A flower is a world, and a leaf is a universe?

"Hiss ~"

Zhang Xuanyu couldn't help but ask, "Did this thing really contain the Yin-Yang World and the Water-Wood World? How can they be released?"

Han Fei said, "Watch."

Han Fei was now in half control of the small world. What he could move away was the creatures in this small world.

Yin-Yang World.

Someone exclaimed, "Look, we're taking off."

At that moment, everyone from the Yin-Yang World and the Water-Wood World saw a huge white light curtain open in the sky. The Thousand Star City was flying towards the sky.

In fact, that was not the case. The reason why people thought they were taking off was actually that the sky was descending.

Or rather, it couldn't be said that the sky here was gradually fusing with the sky outside. The two skies were gradually fusing, so people thought they were flying, but in fact, they were transitioning to the outside world.

Bang!

On the Water-Wood World's side, the Cloud Sea Divine Tree seemed to have come alive. The roots that stretched for hundreds of thousands of kilometers under the tree began to break or pull out.

On the surface of the sea, deep whirlpools appeared, and ravines were torn open at the bottom of the sea.

This scene was like the opening of the sky or the collapse of the sky. It looked extremely scary, and many people sat on the ground in fright.

The sky gradually became clear, and everyone saw the sun appear again. They all cheered. They hadn't seen the sun for more than half a month.

First, the sun reappeared, and then the spiritual energy between the heavens and earth suddenly soared several times. Yes, the quality of the spiritual energy in the Yin-Yang World and the Water-Wood World was several times higher. This number was estimated to be about two times.

Han Fei knew that this was because the massive amount of spiritual energy had been absorbed by the flow of time. In a few years, the quality of the spiritual energy here would be four or five times that of the Yin-Yang World and the Water-Wood World.

What did this mean? To put it another way, it might take a person five years to become a fishing master in the past, but now it might only take a year.

This was the benefit of abundant spiritual energy. The strong masters of the Yin-Yang World and the Water-Wood World would be born at an incredible speed.

When the worlds in the crystal ball world overlapped with the outside world, all creatures were thrown into the Seaborne Prairie where Han Fei was now.

Han Fei shouted, "Attention, everyone. It's dangerous outside. Don't enter the sea without permission. The strong masters, sweep the surroundings first..."

Then, Han Fei said to Luo Xiaobai and the others, "Everyone on the Avenger, clear up the powerful creatures within a hundred thousand kilometers. Prepare for the coming-out of the Yin-Yang World."

Luo Xiaobai nodded. "Okay! Let's go."

Swish! Swish! Swish!

At that moment, Queen Life, Jing'er, Bear Handsome, Tang Yan, Cao Tianzhi, and the others were the first to break through the seal and appear in the Raging Sea.

They could see that the two worlds were overlapping. To be precise, the creatures of the Yin-Yang World and the Water-Wood World, including the coral reefs, were all released.

However, they also saw a cruel scene. The moment the creatures were thrown out, the battle began. There were billions of creatures hidden in this Seaborne Prairie. These were all creatures that lived in the Raging Sea. Their strength was generally stronger than those in the Yin-Yang World and the Water-Wood World. Therefore, when some strange things were suddenly stuffed into their home, they would certainly clear them up immediately.

Of course, it didn't mean that the creatures in this Seaborne Prairie were necessarily strong. In fact, there were ordinary creatures everywhere, and there were also powerful creatures in the Yin-Yang World and the Water-Wood World.

The battle between the two parties was more like the manifestation of the survival of the fittest, forcing some powerful creatures or creatures who hid their real strength well to fight fiercely to survive.

Buzz!

The Cloud Sea Divine Tree suddenly appeared in the Seaborne Prairie. Its countless roots instantly stabbed into the ground, and the spiritual energy within a million kilometers was helping the Cloud Sea Divine Tree take root.

Seeing this scene, Queen Life was suspicious. Where did we just come out of?

Han Fei said, "Don't worry about where you came out of. You've basically been transferred from one world to another."

In fact, Han Fei had thought about how to fuse the two worlds. But now it seemed that the world in the crystal ball still existed. Only the living creatures and things like the floating islands inside could be transferred out, because they might not belong to this crystal ball in the first place.

Therefore, there was no such thing like two worlds fusing. It was just that the Yin-Yang World and the Water-Wood World had moved out of the crystal-ball small world.

In the sky, the appearance of the Thousand Star City and the massive spiritual energy impact made many people fall into a state of breakthrough.

Millions of explorers, whether from the Demon Beast Union, the Immortal City of the human race, or the Forest of Terror, appeared, and joined the battle for territory as soon as they came out.

Han Fei's voice was still echoing, "All strong masters, clear the surroundings. This is your home from now on. But there are many creatures around and you need to clear them up. All the supplies you snatch from them will belong to you."

Zhang Xuanyu and the others all exclaimed, "F*ck! How did they come out? Did they appear out of thin air?"

The Insect King shouted, "My queen."

Serpent Mengyue: "Old bear."

When Bear Handsome saw them, he immediately shouted, "Everyone is here? It seems that we really came out!"

...

One day passed.

With the Cloud Sea Divine Tree as the center, there was a lot of fighting. At first, it was the explorers who joined the battle, followed by the law enforcers, and even the Hidden Fishers.

Luo Xiaobai and the others had cleared the surroundings and were telling Xue Shenqi and the others about the Raging Sea.

Han Fei was standing on the surface of the sea alone, holding a crystal ball that had become dozens of times lighter.

At this moment, his face was full of confusion. The small world was still the small world, but the space inside was cracking for some reason. Was this why it became lighter?

It didn't make sense! Did the creatures add weight to this small world?

Crack!

While Han Fei was studying this small world, he saw that it was full of cracks and seemed to be about to break at any time.

Han Fei hurriedly said to Luo Xiaobai via voice transmission, "Take care of them for the time being. I need to cultivate in seclusion for a few days."

Chapter 1965: Spirit Earth Residue, Time Arcane Technique

The people of the Yin-Yang World and the Water-Wood World were all curious about the Raging Sea.

In addition to curiosity, they just wanted to see Han Fei. Although they had never seen any danger, everyone knew that it was all thanks to Han Fei that they could appear in the Raging Sea safe and sound.

But Han Fei was no longer interested in meeting the people from the Yin-Yang World and the Water-Wood World. Now that they had been rescued, he had to do his own thing.

As it happened, Luo Xiaobai and the others had been idle for a long time. Having stayed in the Raging Sea for decades, they knew a lot about it. Luo Xiaobai cooperated with Xue Shenqi to use the sky curtain to spread knowledge about the Raging Sea to people above the Thousand Star City.

Zhang Xuanyu and the others returned to the Thug Academy. Similarly, Serpent Mengyue, Insect King, Zi Luo, and the others had returned to their respective races to spread knowledge.

It wouldn't just take them a day or two to get used to such a brand-new environment.

In particular, after Han Fei released the two Heavenly Palaces, the clearing of the surrounding sea area started. To be honest, this job was extremely dangerous, comparable to the epic war in the history of the Yin-Yang World and the Water-Wood World.

Besides, this kind of battle would definitely not only last for a short period of time. In the future, it might become the cultivation method of the people of the Yin-Yang World and Water-Wood World.

Han Fei's Origin World.

As soon as Han Fei entered the origin world, the crystal ball shattered. Han Fei felt terrible. This was a small world! If it shattered and the small world collapsed, would it affect his origin world?

However, to Han Fei's surprise, when the crystal ball shattered, the small world inside seemed to disappear, and the crystal ball turned into powder and dissipated in the origin world.

Han Fei could roughly understand. Under the storm of attacks of the Sky Openers, it was already not bad that it could hold on until now, but how could it be reduced to dust?

While Han Fei was puzzled, the old turtle said, "You opened the small world, and the spiritual energy and energy in this small world have basically been reflected into the outside world by you, so it doesn't have any energy to support it now, which is why it's broken. This is normal."

.....

Han Fei was lost for words. "It's broken so thoroughly. How can it be normal?"

The old turtle said, "If this is the residue of the Primordial Spirit Earth..."

Before the old turtle finished speaking, Han Fei suddenly felt that his strength was increasing. Yes, it was increasing for no reason at all.

Then, he felt that his entire origin world suddenly seemed to be "soft". Even the land turned soft.

Previously, his Origin Sea was made of resources and was relatively stiff. But now, for some reason, all the resources in the Origin World seemed to have fused with the Origin Sea, looking extremely natural as if this place was born like this.

Han Fei couldn't help but look at the information popping up in his eyes.

Owner: Han Fei

Level: 93 (Sea Establishment)

Bloodline Ranking among the Clans in the Infinite Ocean: the 980,006th

Chaotic Qi: 25,001 wisps

Spiritual Power: 755,568

Perception range: 800,000 kilometers

Strength: 2,513,02 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unknown

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level 87)

Second spiritual beast: Emperor Sparrow (level 90)

Main Art: The Seventh Level of Void Fishing, Void Descending Art (King Level, Divine Quality)

...

When he saw this information, Han Fei couldn't help taking a breath. What was going on? His strength had soared nearly 70,000 waves, and his soul power had soared more than 80,000 points.

Han Fei's heart trembled. Was it related to the crystal powder just now?

Han Fei couldn't help but ask, "Old Yuan, what is the Primordial Spirit Earth you mentioned just now? Explain it to me."

The old turtle said, "Well! I heard from a big Demon Lobster that when it served as a Demon Emperor's mount, it heard about the Primordial Spirit Earth. This thing is said to be the treasure soil of the Primordial Age. Anything planted in this soil is at least a Chaotic Spirit Treasure. One can even plant the legendary Primordial Spirit Treasure with it. But yours obviously can't be the Primordial Spirit Earth. Otherwise, how could a mere emperor destroy it?"

Han Fei asked, "Didn't you say residue?"

The old turtle said, "This is just my guess. I think most of it is just Mystic Yellow Soil! That thing is actually quite extraordinary too."

Han Fei asked, "What's the Mystic Yellow Soil? It sounds much lower in level."

The old turtle said, "Don't mind it. Most spiritual treasures are planted with the Mystic Yellow Soil. Just like your Mystic Yellow Stone, the energy level in it is higher than the Chaotic Qi. And the Mystic Yellow Soil is also a kind of spiritual treasure. I once found a large mass, which is bigger than yours. You know, I was actually quite strong in the Demon World."

Han Fei: "..."

Han Fei rolled his eyes. "Okay, stop bragging. What's the use of the Mystic Yellow Soil?"

The old turtle said, "Strengthen the Origin Sea! Don't you feel that your Origin Sea has changed? It feels like... water and milk blending, right?"

Han Fei thought to himself, This description is appropriate. I do feel that way.

He thought to himself, This piece alone made my strength soar so much. This is too magical. If there were more of this thing, wouldn't I be invincible in the Sea Establishment Realm in a minute?

Han Fei twisted his body and made cracking sounds. After a while, he finally looked at the Deep Sea Demonic Manta Ray.

The God Slaying Crossbow from the Soul Sealing World was indeed terrifying. The Deep Sea Demonic Manta Ray, whose defense power was so astonishing, was almost killed by the arrow.

If he hadn't been healing himself with the Heaven Enlightenment Divine Technique, the Deep Sea Demonic Manta Ray would have been killed.

Up to now, Han Fei hadn't been able to communicate with the Dao Devouring Insect King. Han Fei pressed his hand on the wings of the Deep Sea Demonic Manta Ray and attached the Void Lines. Then, he discovered, to his shock, that the soul of the Deep Sea Demonic Manta Ray was basically in a disorderly state and had completely collapsed. It was basically equivalent to brain death.

The Dao Devouring Insect King had turned into a pool of water.

"A*shole!"

Han Fei was furious. This damn precious bug, which was so rare, was killed by an arrow. This was a precious bug that could even control Sea Establishers!

Since the Dao Devouring Insect King had died, what was the use of the Deep Sea Demonic Manta Ray? Apart from using it as food, what else could he do with it?

Han Fei was so angry that his heart hurt. He had suffered a huge loss this time. Not only did he lose the Dao Devouring Insect King, but he also lost a Sea Establishment Realm fighter.

“What a great Soul Sealing World. Once I become a sky opener, I’ll definitely destroy your Heavenly Palace.”

Han Fei had no choice but to absorb the Chaotic Qi of the Deep Sea Demonic Manta Ray with the Demon Purification Pot and its vitality and soul with the Void Lines.

Fortunately, there were more than 5,000 wisps of Chaotic Qi in the huge body of the Deep Sea Demonic Manta Ray. After absorbing them, Han Fei’s Chaotic Qi and soul power had improved a lot, with 30,000 wisps of Chaotic Qi.

Rumble! Rumble!

In the end, the Deep Sea Demonic Manta Ray died in his Origin Sea. It seemed to be no different from the outside world. There was also a rain of blood in his Origin Sea.

Xiao Se, who was looking at Nian’er, looked at the sky in surprise, as if wondering why the sky was crying here.

Han Fei asked the old turtle, “Old Yuan, can the sky cry in the Origin Sea too?”

The old turtle said, “As for the so-called sky crying, it’s not that the sky is crying. It’s just that the Great Dao between the heavens and earth has shattered, and the shattered Great Dao has dissipated with its Dao runes. The falling rain thus formed is not of much use. It’s definitely useless to you, but it can somewhat nourish the Origin Sea.”

Han Fei shrugged. He didn’t expect such a huge beast to be so useless in the end. Fortunately, his bones were still worth some money.

At this time, only one day had passed since Han Fei entered the Origin Sea. Now only less than an hour had passed in the outside world.

Han Fei extended his hand and grabbed the Time Dao Fruit.

Anyway, it was just about comprehension. He had eaten such things before. No matter how precious it was, he would just eat it.

Therefore, Han Fei stuffed it into his mouth. As soon as it entered his mouth, the Time Dao Fruit turned into a blue stream of light.

“What is this? It’s tasteless.”

However, before Han Fei had time to think, he was surrounded by time. His eyes turned blue, and there seemed to be blue flames escaping from them.

Then, Han Fei found that everything in his eyes was double-imaged. He opened his hand and found that this hand had become two. In fact, he knew very well that it was only one hand.

“Illusion? Double vision?”

“No, no, it’s two entities appearing at the same time.”

“No, it can’t be the same time. It’s a superimposed state with a positive time and a negative time and both are trying to approach normal time!”

“Hiss ~”

Han Fei took a deep breath as if deprived of oxygen, and the blue in his eyes quickly faded, leaving him with a surprised look.

Han Fei quickly looked down at his hands. When he saw that there was only one, he couldn’t help being relieved. But as he thought of something, he seemed to see two hands again.

“F*ck!”

Han Fei was taken aback. With a thought, his hand returned to normal.

At this moment, he couldn’t help but wonder if he had mastered this power.

He casually waved a sword Qi. At the same time he waved this sword Qi, the sword Qi hit the ground, and there was a clang.

However, although the sound was only once, Han Fei saw that the attack was double.

This meant that in an instant, the sword Qi hit the ground almost twice.

“Hiss! One attack can be used as two? Interesting... The second attack is of the same intensity, but it’s completely untraceable. It’s really strange. Wow! This technique is not weak. Let’s call it the Time Arcane Technique.”

Chapter 1966: Leave Quietly

The more Han Fei comprehended the Time Arcane Technique, the more terrifying he felt the Time Technique was. In an instant, the two time states superimposed on each other for the strongest blow.

This meant that when he unleashed the Immortal Fiend Saber in the future, he could actually unleash it twice in an instant, but the consumption would only be once. This was because one of the attacks was simulated by the Great Dao of Time.

Or rather, it couldn’t be called a simulation, but stealing and copying. What was stolen was the Dao runes of the heavens and earth, and what was copied was the Immortal Fiend Saber.

It could be imagined that if he were to fight someone else, one blow would be equivalent to two blows. Who could react in time? It was simply a must-have skill to jump levels to fight.

“Although ‘Greatly Auspicious’ divination is rare, this harvest is indeed terrifying.”

Han Fei couldn’t help but exclaim. Then he smiled and asked, “Old Yuan, how long has it been?”

Although it seemed to be a simple comprehension just now, he wasn’t sure how much time he had spent on it.

The old turtle said, “Not long. Only three days have passed.”

“Just three days?”

Han Fei couldn't help being relieved. Three days in the Origin Sea was only more than an hour outside.

Han Fei didn't care at all. He had only entered the Origin Sea for two hours, but in these two hours, his soul power had increased by more than 80,000 points, his pure strength had increased by 70,000 waves, and he had also comprehended a time technique that could be deemed as a magical technique.

Han Fei didn't leave the Origin Sea immediately. Anyway, it wouldn't take much time. He might as well try walking the green jade bridge again.

With such a huge breakthrough this time, the power provided by the green jade bridge must be more limited.

.....

As Han Fei activated his Dao Seed, the green jade bridge appeared. The last time Han Fei walked on the green jade bridge, his strength increased by about 2.7 times.

At that time, Han Fei concluded that it must be because he didn't comprehend his Origin Great Dao enough. Otherwise, there shouldn't be such a restriction.

Now, Han Fei quickly climbed seven steps and came to the center of the green jade bridge.

Then, one floor, two floors... All the way to the seventh floor, Han Fei couldn't hold on anymore and was shaken out of the green jade bridge.

Han Fei couldn't help frowning. Not even two and a half times?

Han Fei gritted his teeth and went up again.

Once, twice, three times...

On the fourth time, Han Fei finally passed the green jade bridge, but his strength only increased by 2.2 times. This meant that even if his strength increased greatly, the strength erupted by his origin Great Dao didn't increase much, only about 10%.

"No! This can't go on. As I become stronger and stronger, if the power of the Great Dao becomes less and less, this Great Dao will be no different from a secret technique. It's definitely impossible. Origin Great Dao, what is my Origin Great Dao?"

Han Fei summoned the green jade bridge again, but this time, he walked to the center of the bridge and didn't continue.

Instead, he looked down from the center of the bridge. There was still a figure on the road in the middle. Han Fei knew that it should be him at this moment.

But now, because the path of invincibility had turned into the Invincible Heart and the Invincible Eye, it didn't seem to appear here anymore. Therefore, Han Fei's two regular Great Daos were the Great Dao of Heaven Enlightenment and the Great Dao of Time.

The Great Dao of Heaven Enlightenment was known as the immortal Great Dao.

Han Fei felt that the Great Dao of Time was stronger than his current Yin-Yang Great Dao in terms of escape and combat ability.

However, Han Fei vaguely felt that the Yin-Yang Great Dao couldn't be weak. The Twin Divine Technique was indeed powerful, but he hadn't used the Yin-Yang Millstone yet. At present, he only used the Yin-Yang Millstone to obtain Immortal Qi and Fiendish Qi.

Of course, now was not the time to study other Great Daos.

Han Fei had never known what to call his Origin Great Dao. Was it making something out of nothing? Or was it predicting the future?

For this reason, Han Fei sat cross-legged on the bridge.

Then he looked at his shadow under the bridge. Or rather, he didn't know if the shadow under the bridge was looking at him.

But anyway, it felt like you were standing on the bridge looking at the scenery, and the person under the bridge who was looking at the scenery was looking at you. The two of them should be the same person, but why did they always feel a sense of distance?

The distance between the two of them became his Great Dao. What Great Dao could be like this?

After a fruitless day, Han Fei didn't have much time to waste here. Putting away the green jade bridge, Han Fei issued an order in his heart, and the massive resources he snatched turned into endless spiritual energy and began to expand his Origin Sea.

Expanding the Origin Sea consumed a lot of resources. Besides, as the Origin Sea grew larger and larger, the resources consumed would increase relatively, just like Forge the Universe in the past.

Of course, this kind of consumption was still a little less than the consumption of cultivation. Han Fei certainly wouldn't touch the resources that had already been arranged. However, the resources that he hadn't arranged were the resources looted from the Dream Weaving World and from the Origin Sea of Wan Qingling. Even if he used all of them, it wouldn't be enough to expand his Origin Sea to 50,000 kilometers. However, the total resources snatched from the Dream Weaving World, plus the resources given by the three pirate groups of Fierce Wind, Crimson Fire, and Misfortune, would be enough to expand his Origin Sea to 50,000 kilometers, but it would be difficult to finish arranging the entire expanded Origin Sea with these resources.

Because it expanded from a center, the more it expanded outward, the more resources it would consume. This was because the more the land, the more resources it would consume.

Han Fei sighed. "What a pity. If I had enough resources..."

Suddenly, Han Fei's eyes glittered. Yes, he had killed three kings in the Wild Abyss. Although one of them had been exiled to the endless void, there were at least two kings whose Origins Sea hadn't been harvested yet.

There were two kings after all, and they were not weak. Even if he couldn't collect much resources from them, it shouldn't be a problem to collect 5,000 wisps of Chaotic Qi.

With this in mind, Han Fei couldn't help but grin. At least in a short period of time, he would have enough resources.

...

In the outside world.

Han Fei stayed in the Origin Sea for about three hours. When Han Fei came out, the moon was rising.

Sweeping around with his perception, Han Fei was surprised to find that none of the kings, including Queen Life, were around.

Han Fei didn't think of looking for them. They probably had just come to a new world and wanted to explore it.

The battle between the insect race, human race, the sky race, and the aboriginal sea creatures hadn't ended yet. However, the intensity of the battle had abated, and it wasn't as fierce as when they first came out.

After all, no matter how weak the Water-Wood World and Yin-Yang World were, they still had five kings and more than 500 Venerables. Furthermore, they had so many strong masters from the Avenger Pirates.

Therefore, it was only a matter of time before this area stabilized. As for the marine creatures that Han Fei brought over from the Yin-Yang World and the Water-Wood World, after experiencing the battle with the native creatures, those who could basically survive more or less had the means to survive.

Seeing that everything was going well, Han Fei scanned around with his perception and saw that another million explorers had gathered on the Scattered Stars Island.

The people of the Thug Academy were cooperating with Xue Shenqi and some human executives to develop a plan to restore the operation of the Scattered Stars Island.

Han Fei didn't care. Suddenly, he saw Xia Xiaochan flash in the air and find him.

Xia Xiaochan said, "I saw you enter the Origin Sea here, so I thought you would appear at this void node too. I thought I would have to wait a few days, but it only took three hours."

Han Fei couldn't help but ask, "Why are you waiting for me? Why don't you go to work with Xiaobai and the others?"

Xia Xiaochan curled her lips. "I can't do that... I want to go back."

"Huh?"

Han Fei was stunned for a moment and then understood. Xia Xiaochan wanted to leave by herself because she was too familiar with Luo Xiaobai and the other two. She didn't want to experience such a parting again, neither did he.

Han Fei glanced at the Scattered Stars Island and nodded slightly. "Okay, let's go now."

"Us?"

Xia Xiaochan hurriedly said, "It's not us, it's me. You just need to send me to the merman's route. You can't go there."

Xia Xiaochan put on a serious expression. Han Fei couldn't go. This was her bottom line.

Buzz!

However, with a thought from Han Fei, an identical him appeared beside Xia Xiaochan. This was Han Fei's avatar.

Although it was an avatar, it had been cultivating with Luo Xiaobai and the others. When he returned to the Yin-Yang World 31 years ago, his avatar was already a junior Venerable.

In the Yin-Yang World, during the ten-year-long recuperation, his avatar cultivated in the Origin Sea most of the time.

Then, when his avatar came to the Raging Sea with him, he never stopped cultivating. He basically stayed in the Origin Sea for another ten years, which was equivalent to more than 600 years of cultivation.

Then, he stayed in the Nine Palace World to gain experience. At this point, because Han Fei had long planned to take Xia Xiaochan back to the Merman Royal Family, he specially went to the Nine Palace World to pick up his avatar before going to the Wild Abyss.

Xia Xiaochan understood as soon as she saw Han Fei's avatar. She frowned and said, "This is your avatar you spent more than 600 years building step by step from the Demon Subduing Tower. Its talent and combat power are extremely high. If anything happens to it..."

Han Fei shouted, "What can happen? I'll just send my avatar over, but you don't have an avatar. If anything happens, I'll regret it. Okay, it's settled. My original body will stay and continue to cultivate in preparation for the trip to the Monarch Palace. And if anything really happens to you, I'll definitely kill all the royal mermen..."

Chapter 1967: Merman Royal Family

??

In a certain sea area in the inner domain of the Raging Sea.

Han Fei looked at the map and said, "We've arrived. If your route is fine, we've already entered the domain of the Merman Royal Family."

Xia Xiaochan said, "It should be right. We encountered many large marine creatures on the way. Although they are not giant beasts, they are not weak. These are all creatures attached to the Merman Royal Family."

As soon as Han Fei said so, hundreds of thousands of kilometers away, a black python sea monster was rolling over on the sea. On the head of the python, a team of mermen was holding something that looked like a saddle.

Xia Xiaochan said, "That's the patrol team of the Merman Royal Family. Since we encountered the patrol team, it means that we are already under the supervision of the Merman Royal Family. Among the marine creatures we encountered before, there must be supervising creatures, so the patrol team can know the exact direction and find our location."

Han Fei smiled. "I wonder how they will react when they find that you, the princess, have returned."

After a few seconds, seven people flew over and surrounded Han Fei and Xia Xiaochan. The leading peak-level Venerable shouted, "Who are you? How dare you break into the Merman Royal Family? Take them down!"

Han Fei couldn't help looking at Xia Xiaochan with a strange look. "They don't know you?"

Xia Xiaochan said awkwardly, "Maybe I don't go out often. The Merman Royal Family is so big. It's normal that they don't know me."

Han Fei scratched his head and asked, "Then what are you going to do with these people?"

Xia Xiaochan stepped forward and shouted, "All of you, back off. I am Princess Mingzhu. Go back and call someone who knows me."

When those people heard this, they all sneered. "Princess Mingzhu? Princess Mingzhu has already run away with a human. How can she return? Go, take them down."

Swish! Swish! Swish!

Xia Xiaochan's figure flashed, and a strange blade swept across the void. The seven people, including the leader, were all cut in half.

Xia Xiaochan snorted. "Get lost."

Han Fei watched with interest and commented, "What level are these people at in the Merman Royal Family? Chun Huangdian once told me about the Heavenly Talents of the Merman Royal Family. He said that I'm not even a Heavenly Talent. Any one of the Heavenly Talents of the Merman Royal Family is stronger than me."

Xia Xiaochan said, "They're just ordinary."

The seven people were horrified. In the blink of an eye, they had been chopped up. Even a Half-King couldn't do that, right? Could this person really be Princess Mingzhu?

Just as they were about to retreat, they found that Xia Xiaochan and Han Fei had disappeared.

The leader's face changed drastically. "Not good! They are too fast. I'm afraid we can't stop them."

The man immediately took out a big black conch and shouted at it, "Captain, we found two suspicious people in the patrolling area. One of them claimed to be Princess Mingzhu and killed seven of us in an instant... Now, they seem to be heading towards the Royal City."

The Merman Royal Family lived in the deep sea of the Raging Sea. The place where they lived was actually not much different from human cities.

It could only be said that the two races lived in different places, had different customs and secret realms, and received different education.

Han Fei thought that the Merman Royal Family would be like the White Shell Royal City, where the social structure was similar.

However...

The Merman Royal City seemed to be much more developed and advanced than he had imagined.

At this moment, there was a team of more than 300 people guarding in Han Fei and Xia Xiaochan's way.

However, the team was obviously not waiting to fight them, but to greet them. When Han Fei and Xia Xiaochan appeared, the Half-King in the lead half-squatted and bowed. "I am Li Aofeng. Greetings, Your Highness. Welcome back, Your Highness."

Han Fei took a look. Not bad. It seemed that Xia Xiaochan's identity as the princess was still useful!

However, as soon as Li Aofeng bowed, he waved his hand and shouted, "Take the human Han Fei down!"

Han Fei was quite surprised. Didn't your emperor tell you why I came here?

Xia Xiaochan's face also turned cold. "How dare you? Han Fei is a guest of the Mermaid Royal Family. Who gave you the courage to attack him?"

However, Li Aofeng said firmly, "Your Highness, I haven't received any news that any human is coming to visit our Merman Royal Family. This person abducted you and should be the public enemy of our race. He should be executed."

At this time, before Xia Xiaochan could speak, Han Fei said with a smile, "Just these 300 people? What makes you think you can take me down?"

Han Fei took a step forward and motioned Xia Xiaochan not to intervene. Then he looked at the distant void with a smile and said, "Such low-level means really make me look down upon the so-called Merman Royal Family. Since no one is here to manage today, let me test your real strength."

As soon as he said so, Han Fei immediately turned into a three-headed, six-armed humanoid monster and punched out, shattering the void cracks into knives.

Bang!

Li Aofeng thought he was very strong. Seeing that Han Fei was only a peak-level Venerable, he tried to block it. However, when he really met Han Fei's punch, he realized how terrifying Han Fei's strength was. It was equivalent to a small void storm.

"Pu! Pu! Pu! Pu!"

Li Aofeng was sent flying, dripping with blood. He was forced to return to his original state, most of his scales were broken, and half of his arm had been ripped off by Han Fei.

However, Li Aofeng still shouted angrily, "Attack together. I'd like to see how many of us this clone can fight.."

Han Fei's heart did a flip. "Oh! So you know that I'm not my original body?"

Han Fei shouted in a low voice, "Where are the kings of the Merman Royal Family? If you still don't take action, don't blame me for killing your men."

No one responded. Han Fei snorted. "Do you really think I came to ask for a beating?"

"Puff ~"

A spear appeared in Han Fei's hand at some point in time, and he stabbed out, directly piercing through a peak-level Venerable merman guard. As Han Fei twisted his spear, the void shattered, and a wisp of soul was strangled by the void.

After just one blow, a peak-level Venerable died.

In another instant, a round wheel fell and wrapped around a merman. Hundreds of arrays erupted from the wheel, trapping the man inside. The power of shock erupted, and the man turned into a bloody mist, dying on the spot.

Almost at the same time, a long dark red ribbon appeared like a ghost and strangled a person. When the long ribbon passed, the person dried up and turned into a corpse.

Seeing the attacks that filled the sky, Han Fei smiled in disdain. Nine fire dragons burst out of his body and swept away many attacks. Then, a flame barrier directly enveloped three mermen. The terrifying flames rolled, and the three people inside had already turned into ashes.

Although Han Fei's original body didn't come, who dared to underestimate his avatar? After more than 600 years of training, he had already had many treasures. He had three heads and six arms, a fire spear, a Universe Ring, a Chaotic Sky Silk, and a Nine Dragon Divine Fire Barrier. And Han Fei had almost created the Wind Fire Wheel. His avatar was not weak at all. How could these mermen resist him?

In less than three seconds, more than 20 guards of the Merman Royal Family were killed by Han Fei without being given a chance to have a Blood Rebirth.

The more Han Fei fought, the braver he became. The fiery spear instantly pierced through tens of thousands of meters, and two peak-level Venerables were instantly pierced through.

"Okay, all of you, retreat!"

Suddenly, a burly merman stood in front of Han Fei. He slapped back Han Fei's Universe Ring and grabbed the Chaotic Sky Silk with one hand.

He shouted, "Han Fei, don't go too far."

Han Fei sneered. "Go too far? Why don't you say that you fail to discipline your men? Since they dare to come to mess with me, they should be prepared to die."

Seeing that a king had come, Han Fei certainly couldn't continue the battle, so he put away the Fiery Spear, the Universe Ring, and the Nine Dragon Divine Fire Barrier. In the end, he looked at the king holding the Chaotic Sky Silk and said coldly, "Let go."

Xia Xiaochan also said, "How dare you! Li Dian, who gave you the courage to stop me?"

The Merman King named Li Dian narrowed his eyes, snorted, and threw away the Chaotic Sky Silk. He said coldly, "Your Highness! Your reputation in the city is not good in the first place. Now you even brought a human back. Take care!"

Passing Li Dian and the others, Xia Xiaochan led Han Fei directly to the depths of the sea. Xia Xiaochan said, "The Merman Royal City is very big. Since we have an agreement with Chun Huangdian, let's go straight to him."

Han Fei nodded slightly. "Are you afraid that if you take me around the city, everyone will come up to kill me?"

Xia Xiaochan rolled her eyes. "What do you think?"

The Merman Royal Family and human beings had always been like fire and water, and because of Xia Xiaochan, mermen hated Han Fei even more. Even Xia Xiaochan was disliked by many merfolks. Some people were respectful to her just because of Xia Xiaochan's identity.

Although they were disdainful of Xia Xiaochan, they didn't dare to disobey Chun Huangdian.

Soon, Han Fei saw the city of the Merman Royal Family hiding under the deep sea, which was made up of ground veins, trenches, and forests.

Or rather, it could be called a city cluster, like a human city, composed of the inner core city and the satellite villages and fields.

He often saw dragons rampaging, clam girls stepping on the water, old turtles swimming slowly, and strange glowing jellyfish rising and falling, looking gorgeous.

Xia Xiaochan led Han Fei around, but they didn't meet anyone along the way.

Han Fei couldn't help but ask, "Why is there no one on the road?"

Xia Xiaochan said, "When I tried to escape back then, I managed to avoid all the surveillances. What we are walking is a top-secret route that I developed myself."

Han Fei: "..."

Chapter 1968: The Princess Is Crazy

The first half of the path Xia Xiaochan led did avoid the merfolks.

However, when Xia Xiaochan was about to continue to take Han Fei to walk the path, she was stopped by Han Fei.

Xia Xiaochan: "???"

Although it was Han Fei's avatar, it was still his original soul. Realizing that someone was paying attention to them, he said, "There's no need to hide! No matter how we hide, the people who should find us can still find us. Besides, we came to make a deal. Why do we have to hide?"

Xia Xiaochan was lost for words. "Are you stupid? In this Merman Royal City, not to mention that I have a lot of enemies, you have even more enemies, which are all over the city. Do you really want to fight your way through?"

Han Fei asked, "Why not?"

Han Fei grinned and said, "Let's fight our way through. Girl, why are the human race and the Merman Royal Family enemies?"

Xia Xiaochan said, "Haven't we always been like this? We were born like this."

Han Fei shook his head. "No! No race in this world has unreasonable hatred. There must be a reason for all the hatred. The mermen are hostile to humans mostly because of people's inherent beliefs. That's passed down from ancient history, but who can tell the fundamental reason?"

Xia Xiaochan asked, "So? Even if there is a reason, can you persuade these people?"

Han Fei smiled and said, "Of course not. I just want to tell them that I, Han Fei, can come to the Merman Royal City and get out alive."

Although Xia Xiaochan curled her lips, she was still pulled by Han Fei to the main city of the Merman Royal City.

Han Fei said, "Where is Chun Huangdian's palace, or where is your palace?"

Xia Xiaochan said, "We're actually still in the outer city. Do you see the three extremely high mountains 100,000 kilometers away?" Han Fei nodded slightly. "Yes."

Xia Xiaochan said, "That's the entrance to the inner city. The inner city is blocked by a huge barrier. Ordinary people generally can't enter the inner city, but I have a way to enter it."

Han Fei shook his head. "No, we'll just enter from there. If anyone tries to stop us, let's fight our way through."

Seeing that Han Fei was so confident, Xia Xiaochan was lost for words. Men really cared about their faces. He could have detoured to avoid a lot of trouble, but he just refused.

Xia Xiaochan had no choice. Fortunately, it wasn't Han Fei's original body, or the Merman Royal City would have been overturned.

Swish ~

Above the Merman Royal City, Han Fei and Xia Xiaochan appeared above board.

In order to avoid some unnecessary trouble, Xia Xiaochan no longer hid it. She turned into the Mermaid Princess.

Han Fei couldn't help but pinch her tail and say leisurely, "So soft!"

“Ahh! Go your way. We’re outside.”

Han Fei asked, “What’s wrong with being outside? I’m just pinching your tail.”

The two of them muttered as they flew towards the inner city. However, perhaps because Xia Xiaochan’s bloodline level was too high, or Xia Xiaochan was too beautiful, no one came in their way. The two of them flew towards the inner city openly and passed countless buildings and people. How could no one discover them?

Although most people treated Han Fei and Xia Xiaochan as passers-by and didn’t pay much attention to them, after flying less than 50,000 kilometers, someone suddenly shouted, “Look, isn’t that Princess Mingzhu?”

“Princess Mingzhu? Where is she?”

“Don’t talk nonsense. Wasn’t Princess Mingzhu abducted by humans?”

Someone said in surprise, “Look, isn’t that a human being?”

“F*ck, a human has entered our Merman Royal City?”

“A*shole, when did our Merman Royal Family become a place where humans can step on at will?”

“Who will stop them?”

Countless mermen were roaring and discussing via voice transmission, but Han Fei and Xia Xiaochan ignored them and flew forward. However, countless mermen suddenly appeared behind them and were chasing them crazily.

These people were not strong enough to catch up with them, but they didn’t give up. Although Xia Xiaochan was their princess, they still had to condemn her.

This time, the noise immediately became louder. Those who didn’t notice Han Fei and Xia Xiaochan had all seen them. It could be said that the entire city’s eyes were on them, except for those whose perception range was not enough.

Swish! Swish! Swish!

Along the way, countless people blocked their way.

Someone shouted, “Your Highness, since you ran away with a human, why did you come back?”

“Your Highness, do you still care about the face of the Merman Royal Family?”

“Han Fei, where do you think the Merman Royal City is? Do you think you can come as you please?”

“Han Fei, if you want to cross this road, come and fight me.”

They were still more than 30,000 kilometers away from the inner city, and a large group of people blocked Han Fei and Xia Xiaochan’s way.

Li Dian and the others who blocked Han Fei and Xia Xiaochan just now were watching the show from a distance.

Li Aofeng asked, "King Dian, are we just watching?"

Li Dian said, "If they take a detour to avoid the crowd, they might be able to reach the inner city easily. But aren't they capable? Isn't the princess arrogant? Let's see how they can continue to be arrogant."

At this moment, in the outer city, several old mermen who had reached the Half-King realm stood in front of Han Fei and Xia Xiaochan, and behind them were dense mermen.

An old woman shouted, "Your Highness, no matter what, you are still our princess. Even if you don't behave yourself, we can still tolerate you. Even if you have a bad reputation, we can pretend not to hear it. But today, you brought a human to our Merman Royal City. What's the meaning of this? Princess Mingzhu, are you trying to disgrace our Merman Royal Family?"

Xia Xiaochan frowned and was about to say that Han Fei was here to cooperate with Chun Huangdian, but when she saw how angry these people were. Xia Xiaochan was furious. Is this the way they treat their princess? Since she came to the Merman Royal City, she hadn't had a comfortable day. Now she was even stopped and scolded by some people from the outer city.

Therefore, Xia Xiaochan immediately said coldly, "Get lost, or don't blame me for being rude."

However, the leading old woman didn't give in at all. She looked at Xia Xiaochan indifferently without the slightest respect.

Han Fei thought to himself, How dare this old woman push my wife like this? I have to kill her.

However, before Han Fei attacked, Xia Xiaochan shouted coldly, "Do you really think I dare not kill you?"

With a thought from Xia Xiaochan, a sharp knife light tore through the void and slashed at the old woman, and the latter exploded.

Xia Xiaochan's voice was cold. "No matter what you think of me, since I am the princess, I can decide your fate. If you want to die, stand there and don't move. Let's see if I dare to kill you."

This was just like in human society, humans would also fight each other. Under absolute strength, the strong would rarely reason with the weak.

Although Xia Xiaochan was irritable and combative, she didn't have that kind of arrogance. Otherwise, how could she allow these ordinary people to stop her, the princess?

Swish swish swish!

Xia Xiaochan's figure appeared frequently in the void, and every time a knife light swept past, a person would be killed.

The old woman who had just been killed by Xia Xiaochan had been reborn with blood. Her voice resounded. "Princess Mingzhu, it seems that you have indeed been bewitched by humans. If you have the ability, just kill me. Let's see how the people of this city will look at you."

Xia Xiaochan suddenly turned her head. "Do you think I don't dare? I, Xia Xiaochan, never care about how others look at me. I am me, the princess. If you dare to go against my will, you shall be executed."

With that, the knife light slashed down. This time, Xia Xiaochan didn't hold back and directly cut off the old woman's soul. When the old woman was about to be reborn with blood again, Xia Xiaochan suddenly appeared in front of the drop of essence blood, raised the knife, and slashed down.

The old woman didn't expect Xia Xiaochan to really kill her in public. She couldn't help but shout, "Traitor, the princess has betrayed us."

"Puff ~"

The old woman died.

Roar!

At that moment, the Giant Arowana suddenly appeared, and Xia Xiaochan stood indifferently on the head of the Giant Arowana. "Whoever stands in my way will die."

As the Giant Arowana roared, the dragon roar shook the sky. Among the people closest to Xia Xiaochan, hundreds of people who were not strong enough exploded. And Xia Xiaochan slashed with the Shadowless Blade, and hundreds of people died.

This scene terrified countless mermen. Who dared to stop Xia Xiaochan if she wanted to kill someone?

Someone was furious and cursed from afar, "The princess has betrayed us. I propose to abolish her."

Swish ~

A stream of light flashed, and the person shattered and died.

Among the countless shouting people, Xia Xiaochan was not afraid at all. I'm the princess. Why should I give in to you? Since I have a lot of power and a high status, aren't you just like ants to me?

Seeing this, Han Fei chuckled. It seemed that Xia Xiaochan had been suppressing herself for a long time. If it were him, no one would dare to offend him from the beginning. He would just kill them one by one until they were frightened.

Even Li Dian couldn't help but exclaim, "Princess Mingzhu is crazy!"

Chapter 1969: Who Dared to Fight?

Xia Xiaochan got serious, and these mermen were all shocked.

The people Xia Xiaochan killed were all Venerables, but she still butcher them. More importantly, no one could do anything to stop her.

It would be fine if these mermen were not cultivators, but the longer they lived and the stronger they were, the more reluctant they were to die, especially to die so meaninglessly.

After all, Xia Xiaochan was Xia Xiaochan. Even if she was the princess of the Merman Royal Family, what did it have to do with them? Those big shots didn't stop her when she brought her man back. Why should small fries like them try so hard to stop her?

For a moment, everyone retreated. Those who dared to yell at Xia Xiaochan had been ruthlessly killed by her. Who still dared to cause trouble?

Han Fei lightly landed on the head of the Giant Arowana. As the Giant Arowana moved forward, no one dared to stop it.

Han Fei said, "These are only temporary. They don't dare to provoke you, but they will put pressure on others. Of course, Sea Establishers or Chun Huangdian won't care."

Xia Xiaochan said, "I don't care about them. I've long been annoyed by these people. It's easier to deal with the outer city. The people here are not very strong, and I can just crush them, but the inner city..."

Han Fei was puzzled. "Is the inner city more dangerous than this?"

...

It was only a hundred thousand kilometers in total. Without anyone stopping them, they covered the distance in a moment.

To enter the inner city, one had to enter through the seal at the top of the mountain in the middle of the three mountains.

There were certainly people guarding this place, but the inner city wouldn't completely forbid passage. It wasn't uncommon to see people coming and going here.

.....

When Han Fei and Xia Xiaochan arrived, the guard looked complicated, but seeing Xia Xiaochan bring Han Fei in, he could only watch, fearing that he would be killed by Xia Xiaochan too.

At the top of the mountain, Han Fei and Xia Xiaochan stepped into the invisible seal. And Han Fei's eyes lit up as he saw two huge statues a thousand meters tall standing on both sides.

Han Fei discovered that all marine races, whether ordinary Half-Mermen or noble mermen, liked to make themselves a big statue. Although it looked quite magnificent, he didn't know what it was for.

The two statues, a man and a woman, both had human bodies and fish tails. The man raised his head and pointed at the sky, and the woman held a trident in front of her.

Xia Xiaochan said, "It's said that this male merman is the only god in the history of the Merman Royal Family. Because no one knows what he looks like, his face is not engraved. This female merman is said to be my mother, the war queen of the Merman Royal Family. She is still alive but sleeping."

Han Fei's heart did a flip. "Your mother is the child of a god. It's understandable that her statue is here."

Han Fei moved his eyes away from the statue. This was a world of flashing strange lights. The buildings here were all glowing. In the distance, Han Fei saw a huge clam that emitted milky light. It was probably more than 500 kilometers long. Floating in midair, its light was like the sun in the sea, almost illuminating the entire Merman Royal City. "Please reading on newnovel.org"

Xia Xiaochan said, "That's a dead Sea Establishment Realm clam. His shell can absorb the essence of the sun and moon in the outside world. Every year, someone takes him to the surface of the sea to absorb the essence of the world for months to illuminate the city."

Han Fei thought to himself, So a Sea Establishment-level behemoth was reduced to an electric lamp in the end.

“Your Highness.”

At this time, two people were rushing over. Even Han Fei recognized them. One was Bai Muling, and the other was Situ Yuhong.

The two of them looked at Han Fei in surprise while calling Xia Xiaochan. When they landed in front of Han Fei, their eyelids twitched in surprise.

Situ Yuhong said, “Did you really come to the Royal City?”

Bai Muling looked back. “It’s over. It seems that what happened in the outer city is true.”

Bai Muling said, “Your Highness, I heard that you were on a killing spree in the outer city. The disciples of the inner city’s kings and various Heavenly Talents are extremely angry and want to challenge you two when you’re here.”

Han Fei curled his lips and said, “Aren’t we already here?”

In the distance, Han Fei saw another large group of people coming over, clearly here to cause trouble.

Situ Yuhong said, “Your Highness, why don’t you go to the princess’ residence first? The people who want to challenge you are led by Long Youjun’s disciple, Feng Qing.”

“Long Youjun?”

Bai Muling said, “Feng Qing hates you because of Jiao Xiaoxiao’s death and has long wanted revenge.”

Xia Xiaochan sneered. “Why would I be afraid of him? If he dares to stop me, I’ll kill him.”

Situ Yuhong said, “Feng Qing certainly doesn’t dare to attack you blatantly, but...”

With that said, he looked at Han Fei, thinking, You have the identity as the princess, but Han Fei doesn’t!

However, Han Fei grinned. “Do you think I’m afraid of the Heavenly Talents of the Merman Royal Family? I’d like to know how strong you are.”

Han Fei had always remembered what happened back then. Chun Huangdian said that he was not talented and couldn’t even compare to the ordinary Heavenly Talents of the Merman Royal Family. Today, he wanted to see how strong this Heavenly Talent of the Merman Royal Family was.

Besides, since he had chosen to let his avatar come, he was prepared that his avatar couldn’t go back. Anyway, his avatar was here. Whoever could take its life away could take it away. After taking it away, he would kill the killer’s entire race.

Therefore, Han Fei was fearless and grinned. “Let me see who dares to keep me here today.”

As soon as Han Fei said so, someone shouted, “Talking big! How dare a mere clone be so arrogant in our Merman Royal Family?”

Han Fei extended his hand and pointed at the person who spoke with a spear. "You blind b * stard, watch carefully. I'm an avatar, not much different from my original body. You want to fight me, don't you? Fine, I'll fight you with only one hand. I can still beat the hell out of you."

"A*shole!"

"Arrogant!"

"Human villain, how dare you're so arrogant here?! Let me fight you."

"Humph! Your original body doesn't even dare to come. Who do you, a mere avatar, think you are?"

Xia Xiaochan glanced at Han Fei and thought to herself, This is my territory. Let me fight them. However, as soon as she took a step forward, she saw Han Fei wave his spear and his voice resounded in the void. "Today, I, Han Fei, beg to be defeated. All Heavenly Talents below the Sea Establishment realm can come to fight me. Who will be the first?"

Xia Xiaochan was stunned. Han Fei had become more and more hot-tempered over the years, but this was not bad. Han Fei's avatar was very strong, and his combat power was not much weaker than his original body's. Besides, Han Fei's avatar took the Great Dao of berserk combat.

This Dao was chosen by his avatar, namely, by the other half of Han Fei. He chose this path because he was very good at combat.

However, this so-called berserk combat didn't mean entering a berserk state like Le Renkuang, but erupted from the beginning to the end. Once he was exhausted, it would be the time for Han Fei to lose. But the premise was that someone could block his outburst.

Han Fei's voice rumbled, stunning Bai Muling and Situ Yuhong. Is this guy crazy? How can you, a human, be so arrogant in the Merman Royal Family?

Although the two of them really wanted to challenge it, so what if it was an avatar? Would an avatar really be weak?

In the dark, the kings didn't move, but they all frowned.

Someone snorted. "How arrogant. How dare a mere avatar challenge the Heavenly Talents of our race? Lin Can, go cripple him."

"Yes, Teacher."

Not just this person, but many others had also received the same instructions.

In the distance, Long Youjun looked at his disciple, Feng Qing. He was thinking about a question. Could Feng Qing survive if he challenged Han Fei?

Chun Huangdian glanced at Han Fei and shook his head slightly.

"That guy is extremely strong. He is indeed a rare talent. I'm afraid no one in the current Merman Royal Family can beat him."

Li Qingdi watched everything indifferently with his hands behind his back.

Chun Huangdian smiled faintly. "The Merman Royal Family is no longer the same as before. Do they still think they are the overlords of the sea? It's time for them to learn a lesson."

Li Qingdi asked, "Are you sure the cooperation with Han Fei can continue? We need his navigator."

Chun Huangdian said indifferently, "It doesn't matter. Even if we need it, don't show it. Besides, once the queen wakes up, there might be a way to leave."

Li Qingdi frowned slightly. "You're too obsessed with the queen. Have you ever thought that even if the queen awakens and the divine blood returns, can she still recover her peak combat power?"

Chun Huangdian smiled. "You underestimate the child of a god."

At this moment, a voice echoed in the sky, "Han Fei, I, Lin Can of the Mermaid Royal Family, want to fight you to the death."

Chapter 1970: The So-called Heavenly Talent Is Nothing But A Weakling

With a loud roar, a person flew over from the sky, looking ferocious.

In the crowd, someone was surprised. "He's the seventh disciple of King Ming, the most combative one among the disciples of King Ming. He's a peak-level Venerable who once killed a Half-King and escaped from a giant beast."

Someone smiled and said, "Lin Can is not weak. Although he usually doesn't show his strength, his strength can't be underestimated."

Someone sneered. "This battle will be interesting. I heard that Lin Can is also a body refiner and is extremely good at Instant Movement."

Hearing the praises, Han Fei said disdainfully, "A peak-level Venerable? Who gave you the courage to challenge me? I advise you to get lost. You're no match for me until you become a Half-King."

Lin Can hadn't arrived yet. Hearing that Han Fei was so arrogant and felt that he wasn't worthy of being his opponent, he felt as if it was a slap in his face.

Lin Can cursed coldly, "Arrogant! Today, I'll let you know the real strength of the Heavenly Talents of the Merman Royal Family!"

Buzz!

Thousands of kilometers away, this person disappeared silently. In less than the blink of an eye, a knife was almost against Han Fei's chest.

Someone exclaimed, "Instant Movement!"

But as soon as the man shouted, he saw that the void behind Han Fei was shattered, but Han Fei didn't move at all. Then he saw that Han Fei's hand was holding the blade of the long knife, so that the tip of the knife was only half an inch away from Han Fei's chest but couldn't go any further.

Lin Can was horrified. How could this guy block his powerful blow with his body? He was also a body refiner. Since Han Fei could hold his long knife with one hand, his body must be comparable to that of a Sea Establishment cultivator!

Lin Can had no time to think. The moment his attack failed, he controlled the Chaotic Qi to explode from the tip of the knife, but at the same time, Han Fei suddenly moved two meters to the side and brushed past him.

.....

“Hiss ~”

Lin Can didn't find anything, but the onlookers gasped. Lin Can's chest was pierced through by Han Fei with one hand, and a round steel ring wrapped him.

Rumble!

At this moment, the wisp of Chaotic Qi exploded, but the aftershock of the explosion was locked by the Universe Ring. An explosive pillar rose to the sky.

Before Lin Can was reborn with his blood, Han Fei extended his fingers, shattered the void, and destroyed his soul. This so-called king's disciple died on the spot. From the beginning to the end, he only had time to attack once. He probably didn't even know how he died.

Lin Can's death made many peak-level Venerables break out in cold sweat.

“So strong!”

Someone was horrified. He didn't even see clearly how Han Fei attacked at all, but the casual blow was too powerful. Even a Half-King couldn't have attacked so easily.

Someone was sweating. Fortunately, he didn't act rashly just now. After all, he wasn't even as strong as Lin Can.

Even Bai Muling and Situ Yuhong looked at each other in bewilderment. They had seen this battle very clearly. In fact, Han Fei didn't use any profound combat skills. It was just that his physique was stronger and his speed was faster. The other reason was because of Han Fei's Universe Ring.

But even so, Han Fei's casual killing of a Heavenly Talent was enough to intimidate too many people. At least, after this blow, who would dare to attack him except for Half-Kings?

Sure enough, a half-king merman stood out. He had seen Han Fei's combat style clearly. In terms of physique, Han Fei was indeed strong, but his attack wasn't that strong.

When this person stood out, someone was surprised. “Bansha? He actually chose to challenge Han Fei?”

Someone said via voice transmission, “Don't underestimate Bansha. This guy has experienced 13 dangerous secret realms in a row. As many as seven or eight Half-Kings have died at his hands. It's just that his presence is very low.”

Bansha extended his hands and threw two long whips to the ground. He said, “I, Bansha of the Mermaid Royal Family, want to fight you.”

Han Fei held his spear and thrust it into the ground. "Come!"

In the blink of an eye, the two long whips of Bansha exploded, turned into gravel, and tried to wrap Han Fei up.

"Huh?"

Han Fei had thought that this person was going to use whips, but it turned out that he wanted to use the sand to seal him. In this way, as long as he limited his freedom, he could attack at will. Therefore, the whips were deliberately revealed for him to see.

But Han Fei certainly wouldn't be tricked easily. He stomped, and the Nine Dragon Divine Fire appeared and enveloped him.

The weird gravel tried to wrap the Nine Dragon Divine Fire Barrier, but everyone saw that Han Fei was holding the Fiery Spear.

On the tip of the fiery spear, a cold light burst out, as if it was about to attack.

Someone asked in surprise, "Didn't he seal himself in this state? How could he launch an attack?"

Situ Yuhong and Bai Muling couldn't help but glance at Xia Xiaochan, who looked calm. To be honest, she didn't think many people could beat Han Fei in a fight.

Han Fei's avatar's combat style was more like the combination of Zhang Xuanyu, Le Renkuang, and Han Fei's original body. Those who knew Zhang Xuanyu knew that they couldn't let Zhang Xuanyu attack with a spear. If he attacked with a spear, it meant that he had won half of the battle.

Now, Han Fei's attack also gave Bansha a bad feeling.

Swish!

All of a sudden, Han Fei disappeared, and then a spear mark appeared in the air behind Bansha.

However, when everyone saw the spear mark, Bansha had already exploded. Therefore, Han Fei's spear basically crossed time and space and fell directly on Bansha.

However, when Bansha exploded, he turned into sand. This made Han Fei and Xia Xiaochan think of a person, an opponent they met in the Seaborne Prairie in the level-three fishery who could also turn into sand and be difficult to kill.

Back then, that person was crushed by his Sacrificing Punch.

Now, Bansha's sand gathered and didn't seem to give Han Fei a chance to kill him.

However, Han Fei's reaction was fast. Seeing that his attack didn't work, he punched the void crack where Bansha was. The Chaotic Sky Silk flew out of the void like a ribbon, and instantly, the Chaotic Sky Silk and the sand began to chase each other more than 20 times.

However, someone shouted, "Not good! Bansha, retreat!"

Before Bansha realized what happened, at some point, the area within ten kilometers of him was filled with arrays. He looked up and saw nine dragon flames landing in nine directions. He wanted to run, but the void was already locked down.

Clang!

The Nine Dragon Divine Fire Barrier pressed down.

Han Fei's lips curled. "It's nothing. I've already met someone like you when I was still a Hanging Fisher. How do you deserve to be a Heavenly Talent?"

Han Fei extended his hand and pressed on the Nine Dragon Divine Fire Barrier. As if a nuclear bomb exploded inside, flames filled the air, and the sand was directly crushed into dust. Bansha was deader than dead, with no chance of rebirth.

Han Fei put away the Nine Dragon Divine Fire Barrier with one hand behind his back. "Is this the strength of the Merman Royal Family? Is this the Heavenly Talent you are so proud of?"

Han Fei's words made countless people crazy.

Someone shouted, "You just have a lot of weapons. What qualifications do you have to judge our Heavenly Talent? Without those weapons, you will only be a peak-level Venerable."

Han Fei grinned. "Okay! This time, I won't use any weapons. Who wants to fight me?"

"Huh?"

For a moment, Xia Xiaochan was anxious. She said via voice transmission, "Be steady."

Han Fei replied, "I'm very stable."

At this moment, the Half-King who led the crowd here walked out.

He said solemnly, "I am Feng Qing, the disciple of Long Youjun, and Jiao Xiaoxiao is my junior sister. Today, let's settle old and new scores together."

Han Fei raised his eyebrows. "Oh? How?"

Feng Qing clasped his hands, and a scorpion shadow appeared behind him, and a poisonous stinger was hooked up.

Han Fei said disdainfully, "I heard that you are the strongest here?"

Feng Qing said, "We'll find out whether I'm strong or not in combat."

Han Fei said disdainfully, "There's no need for that. If you can survive a single blow of mine, you win."

Boom~

The crowd was in an uproar. Is Han Fei really that arrogant? You couldn't even kill Bansha with one blow. Feng Qing can rank among the top ten half-kings in the Merman Royal Family. How dare you say you can kill him with a single blow?

Feng Qing was furious. "How arrogant! I'd like to see how you can kill me in one blow."

Han Fei smiled. His body was not his original body, but in fact, his soul was still his original soul.

He had a move that he had never used in front of others.

The Dao of his avatar was different from that of his original body. His avatar was born for fighting, so there were some things that his original body couldn't comprehend, but his avatar could.

Han Fei stood there and with a bang, a green crack appeared in the sky.

Han Fei grinned. "Sword Opening the Heavenly Gate."

Swish ~

This sword came very slowly, like a huge pillar of light. It couldn't be called a sword, but only infinite killing intent. However, when Feng Qing saw this sword, he seemed to fall into a state of dementia.

Bang!

There was a loud noise in the distance, and someone was angered by Han Fei.

Long Youjun said coldly, "What a sword opening the Heavenly Gate. It's actually the long-lost Sky Opening Sword Manual of the Supreme Clearness World."

Behind Long Youjun, someone asked in shock, "Master, what is the Sky Splitting Sword Manual?"

Seeing that Feng Qing didn't move for a full second, Long Youjun knew that Feng Qing couldn't survive. He said, "Sky Opening Sword Manual, a magical sword technique that can directly slash the Great Dao."

At the gate of the inner city, everyone was still waiting for Feng Qing to fight back.

Han Fei smiled contemptuously. "The so-called Heavenly Talent is nothing but a weakling. There's no need to wait. He's already dead."
