Chapter 2017 Cultivate All the Daos

Han Fei couldn't help but look at the Snow Lady and the others. Han Fei certainly didn't know what happened back then. The Snow Lady said, "Back then, we found the tree in the bronze door. That tree and this one were a lot different. Even so, when we were fighting for it, we encountered the Spirit of the Divine Tree. In that battle, as many as a hundred kings died..."

Han Fei's heart did a flip. It was about the time when more than 100 human beings went there, only 36 people returned in the end and established the Thirty-Six Mystic Worlds?

So this was the origin of the Thirty-Six Mystic Worlds.

Huang Jie said, "But there are some differences. At that time, there were many Great Daos on that tree, but this one doesn't seem to have any."

Han Fei was puzzled. "Can you see Great Daos?"

Huang Jie said, "After eating the fruit of the Great Dao, one can awaken different Great Daos depending on his luck or bloodline. Or he can better comprehend his own Great Dao."

Hong Yue said, "When we snatched the treasures from that tree, we encountered a Sky Fiend illusion. I'm afraid it'll be the same this time!"

Seeing that Han Fei was a little confused, Hong Yue continued, "When picking treasures, people would fall into an illusion, or a place that they didn't know if it was an illusion. Anyway, as many as a hundred kings died that time."

m

Han Fei thought to himself, No matter what, he had to go up no matter how dangerous it was. It seemed that the others were in the same situation. The opportunity was already in front of them, and there were only two paths left for them. Either fight or die.

The Snow Lady said, "Don't be greedy. Find the one most suitable for you."

Liang Yin said, "I'm just a little puzzled. Why hasn't the fifth Great Dao appeared yet?"

.....

Not only Liang Yin, but everyone else also had this question. However, in the face of the bronze tree and the treasures all over the tree, everyone spontaneously put this question aside.

Han Fei couldn't help but glance at Pang Jia and Zhou Bai. He decided not to waste too much effort on these two people for the time being. When he got the vine first, he would have plenty of chances to hunt these two people in future.

But Pang Jia and Zhou Bai felt a chill down their spines when Han Fei looked at them. They wondered if Han Fei was trying to kill them before the treasure hunt.

Therefore, with a swish, the two of them shot out and flew towards the bronze tree.

Zhou Bai's goal was a Demon Essence Red Bead that flickered with red light. Although Han Fei didn't recognize it, he knew that if Zhou Bai refined and absorbed it, his strength would definitely soar.

But Han Fei didn't stop him. Even if Zhou Bai got it, so what? If he got it, would he be his match?

Buzz!

However, in everyone's eyes, as soon as Zhou Bai stepped within a hundred kilometers of the Demon Essence Red Bead, a blue ball of light appeared, enveloping him. It was like a huge blue fruit growing on the bronze branch.

The kings looked at each other, and Huang Jie said, "It's probably the same as that time. Let's go hunt treasures."

After that, Huang Jie looked at Han Fei. "Next, it's up to fate. There aren't many kings here, so it's not surprising no matter how many kings die here in the end. If we die, it's just that our luck and strength are not enough."

Han Fei nodded slightly. "Take care."

dh

Huang Jie and the others each found a direction. The Snow Lady went for an invisible ice crystal, Huang Jie for a seven-colored spiritual bug, Liang Yin for a purple bamboo, and Hong Yue for a skeleton... However, no one fought for the jade slip and the vine on the top of the tree.

On the other side, Bai Yue's perception had collided with Han Fei's several times on the top of the tree, so he probably knew Han Fei's goal. Now there were only him and Han Fei left.

The two of them looked at each other, and Bai Yue said, "Although these are all treasures in the world, and perhaps every treasure here can help one reach the Sky Opening Realm, the Martial Emperor City has never lacked treasures. But can that little vine grow a level-nine divine pill?"

Han Fei grinned. "Why? Do you want it?"

Bai Yue shook his head slightly. "It may be good stuff, but it's at the highest point. I haven't opened the sky yet, and I don't want to die yet. I just want to remind you that the fifth Great Dao hasn't appeared yet."

With that, Bai Yue flew towards the sixth treasure from top down, a book.

When everyone had their own goal, Han Fei didn't go up immediately. Instead, he took out his fishing pole and fished out a Soul Subduing Pill for himself to consume. Then, he threw out his fishing pole and fished in the time river for a while. Although he didn't catch anything, he nodded slightly and flew towards the top of the bronze tree.

Like others, when Han Fei was a hundred kilometers away, he was enveloped by a blue ball of light.

In the next moment, Han Fei appeared in the distant starry sky. Yes, in the distance, there were countless stars. There were several large stars closest to him. He scanned around with his perception and found that the desolate scene surrounding the large stars was extremely real.

It was very cold in the void, and he couldn't breathe. He could only absorb the spiritual energy and energy between the heavens and earth. This made Han Fei suspicious. Was he really in the starry sky?

All this was acceptable, but ten thousand kilometers away, a young man in black with a kind smile on his face was standing there, looking at him.

Han Fei couldn't help narrowing his eyes. "Dead or alive?"

At first, Han Fei didn't expect the person on the opposite side to answer. After all, the Monarch Palace had existed for tens of thousands of years. It would be a bit exaggerated if he was told that someone could live here except for the Monarch himself.

However, things were often unexpected. This person actually said, "In the last million years, you are the 13th person to come here. I wonder what abilities you have."

Although Han Fei was surprised, he immediately replied, "13th? Have the first 12 people all inherited more than one Great Daos?"

However, the person on the other side said leisurely, "Perhaps they came from different ways? Since you came from there, you can experience the power of the fifth Dao."

"Huh?"

Han Fei couldn't help being surprised. The fifth Dao? Didn't Huang Jie and the others say that a Sky Fiend illusion would appear? Or was he in an abnormally real illusion?

The person on the opposite side suddenly came in front of Han Fei and slapped him at the same time.

"So fast."

Han Fei suddenly realized that this person walked the Great Dao of extreme speed, which was the same as the Ultimate Blade he collected.

A blue halo appeared in front of Han Fei, and with the power of time, he launched the Sacrificing Punch.

But this time, the power of time failed to stop this person. The hand broke through the time barrier as easily as breaking a water mirror and sent him flying a hundred kilometers away.

The moment the Sacrificing Punch burst out, it was shattered by a rather powerful force, causing violent ripples that spread out.

"Body refining?"

Han Fei frowned slightly. This person's physique was extremely strong, even stronger than his. With such a strong physique and such a fast speed, the other party must have walked many Great Daos at the same time!

After the first clash, Han Fei issued an order in his heart, and the Ultimate Blade left his body, turned into extreme speed, and charged at the mysterious man.

“The ignorant are fearless.”

The mysterious man in black grabbed the Ultimate Blade with one hand, and Han Fei immediately felt the mutual attraction of the same Great Dao. At that moment, Han Fei felt that he was about to lose the Ultimate Blade.

This made him suddenly think of a terrifying thing. The Great Dao harvested the same Great Dao, which was also known as harvesting leek. This was what the old turtle had once said. Harvesting the same Great Dao was a process for the strong to harvest the weak.

With this in mind, Han Fei immediately retracted the Ultimate Blade, but the other party was already held back by the other party. Han Fei thought to himself, I can't let the Ultimate Blade that I spent countless resources and essence blood to get be taken so easily.

Therefore, Han Fei jumped with golden light, activated All Great Daos in One Sword, and forcibly snatched the Ultimate Blade back.

“Huh?”

The man in black seemed a little surprised. He probably didn't expect Han Fei to be so fast. Besides, Han Fei's Great Dao of speed was different from his, so he couldn't swallow it.

However, when Han Fei retracted the Ultimate Blade, he heard the Heavenly Dao Demonic Sound descend, and layers of void ripples were blocking All Great Daos in One Sword, and a purple lightning, like a pillar, was slashing at All Great Daos in One Sword.

Even so, it still took the man three seconds to block All Great Daos in One Sword.

At this time, if Han Fei still didn't figure it out, he would be stupid. He said, “Did you cultivate all the previous Great Daos in your fifth life?”

The man in black smiled. “Yes.”

Han Fei was surprised. So, cultivating multiple Great Daos at the same time was one way to become a Monarch. But if it was so simple, wouldn't all Sky Opening cultivators start to cultivate multiple Great Daos at the same time? How could there be so many people who couldn't reach the longevity realm at all?

Therefore, cultivating multiple Daos at the same time was definitely not the only way to become a Monarch.

At least, if the person in front of him was the Monarch's fifth life, then he also failed to reach the longevity realm in this life. It was just that he had walked many Great Daos.

Amidst the Heavenly Dao Demonic Sound, Han Fei said, “I've experienced all your Great Daos. Is there anything new? If not, it's my turn.”

“Hehe “

At that moment, this person emitted a golden light. In the next moment, he jumped and appeared dozens of kilometers away from Han Fei.

“Hiss!”

Han Fei’s pupils were constricted. Golden light leap? He had only used it once and this guy had learned it?

Chapter 2018 My Sixth Life’s Name Is Chu Hao

Han Fei was certainly stunned. If this person’s learning ability was so strong that he could learn the Golden Light Leap after watching it once, how could he fight him? The man in black charged at him again, and there was wind and thunder in his fist. As he punched out, many Great Daos fused. Han Fei activated his Great Dao and was still forced back more than 500 kilometers.

When Han Fei flew out, he saw the other party appear dozens of kilometers away from him with a golden light leap again. She pointed two fingers at Han Fei and activated Han Fei’s unique technique, All Great Daos in One Sword.

“F*ck!”

Han Fei couldn’t have felt worse. It’s fine if you copy my Golden Light Leap. After all, your speed is indeed fast. But it’s too much if you copy my All Great Daos in One Sword.

Faced with the man in black’s All Great Daos in One Sword, Han Fei pointed with two fingers and unleashed All Great Daos in One Sword at the same time. The two All Great Daos in One Swords collided. Only at this moment did Han Fei discover that although they had both used All Great Daos in One Sword, the Great Daos contained in them were different.

This made Han Fei heave a sigh of relief. In other words, although the person opposite him could imitate his techniques, he couldn’t imitate his Great Dao. He could only use his Great Dao to launch this attack.

But even so, it was enough to shock Han Fei.

Han Fei’s heart did a flip. With a golden light leap, he attempted to cross hundreds of thousands of kilometers, and the black-clothed man followed suit.

However, when they appeared, the other party appeared a little slower.

Han Fei smiled. “So you’ve just been running instead of jumping.”

The man in black wasn’t disappointed that Han Fei saw through him. He said, “Interesting. You’re walking the same path as me.”

.....

Han Fei said, “No, I’m different from you. At most, I dabble in many things.”

The man in black looked at Han Fei with a smile. “Do you have any other great techniques?”

Han Fei didn’t respond but asked, “Are you dead or alive?”

The man in black didn't hide anything. He said, "I'm just a brand. When the energy of the brand is exhausted or I disintegrate on my own, I'll dissipate. Unfortunately, up to now, there hasn't been anyone who can exhaust my energy."

The man in black smiled. "OK! I've had enough fun. Next, I'm really going to attack."

Han Fei's pupils were constricted. You mean you haven't attacked yet?

The two parties looked at each other. Almost at the same time, Han Fei jumped out with golden light, but the man in black didn't jump with golden light anymore, but rushed over at an extremely fast speed.

In terms of strength, the two no longer used All Great Daos in One Sword, but punched each other.

Boom Boom Boom ~

Knock, knock, knock!

In just three or five seconds, Han Fei seemed to have been fighting for thirty or fifty seconds. Each of their blows was equivalent to a Sacrificing Punch.

The two fought from the void to a big star. In the end, the star shattered and the world collapsed.

Buzz!

After only five seconds, blue light circulated in front of Han Fei. The power of the Great Dao was about to be exhausted. He had to reverse time and return to his peak state.

But when Han Fei reversed time, he saw that the man in black rushed into time, intending to reverse time together with him.

"Get lost"

At that moment, Han Fei activated the Immortal Energy and Fiendish Qi in his Origin Sea, and in an instant, the Immortal Fiend Saber and the Time Arcane Technique erupted.

Boom! Boom!

The outburst of the Immortal Fiend Saber finally made the man in black's expression change. However, this person didn't seem to be too panicked. Obviously, he knew these two powers.

Therefore, when facing the Immortal Fiend Saber, the man in black burst out with Mystic Yellow Energy, which turned into a sword and blocked the Immortal Fiend Saber.

However, under the effect of the Time Arcane Technique, the Immortal Fiend Saber had actually erupted twice, so even the black-clothed man couldn't help but take one Immortal Fiend Saber head-on. However, because of his physique and speed, this Immortal Fiend Saber failed to seriously injure him and only destroyed most of his body. When the power intertwined, Han Fei returned to his peak state, and the man in black almost recovered.

In this clash, Han Fei narrowly won.

But the man in black immediately changed his fighting style. This time, Han Fei felt the boundless wind around him, and there was mist in the wind, which was bone-chilling.

In the star ruins, countless Dao patterns were blending, and Han Fei seemed to be in a storm.

Han Fei's face changed drastically. This person's power of the Great Dao had changed so much that Han Fei couldn't react in time.

Swish

In the star ruins, a pillar of light flashed, which turned out to be a sword mark. It darted at Han Fei.

Han Fei condensed the Infinity Water at his fingertips, turned it into a knife, and slashed, barely blocking it.

Then, Han Fei found that the bloodline in his body suddenly turned in two opposite forms, and his spiritual energy was instantly out of control.

Bang!

Han Fei's body exploded, but he activated the Twin Divine Technique at the same time, turning into two wisps of mist, one black and one white.

Then, Han Fei activated the Supreme Yin-Yang Wheel, and the Yin-Yang symbol rotated above this person's head, trying to crush the black-clothed young man.

The latter grinned and said, "Yin-Yang Great Dao? Unfortunately, you haven't comprehended life and death yet."

The man in black also turned into two bodies, one black and one white, which blended into a cone and pierced the Supreme Yin-Yang Diagram.

"Puff"

After a round of fighting, Han Fei retreated quickly, bleeding from his seven orifices. With a thought, he activated the Heaven Enlightenment Divine Technique and was quickly repairing himself.

"You know the Yin-Yang Great Dao too?"

The man in black smiled and said, "Since you discovered that I cultivate multiple Great Daos, it shouldn't be difficult for you to guess."

Han Fei was shocked. Yes, weren't all the Great Daos in the Thirty-Six Mystic Worlds spread from the Monarch Palace? The Great Daos that you regarded as treasures might have been used by others a million years ago. The monarch's mastery of the Great Dao might be even higher than yours.

Han Fei discovered that perhaps the black-clothed man only didn't know the Heaven Enlightenment Divine Technique, the path of invincibility, and the Great Dao of Time. Han Fei wasn't in a hurry to reverse time, because he almost got lost in time just

now.

Han Fei couldn't help but throw out a fishing hook that broke through time. The black-clothed man tried to stop him, but Han Fei punched horizontally and the Void Lines extended crazily.

Although he stopped the man in black, what surprised Han Fei was that the man in black actually caught a Void Line from the void.

However, the man in black didn't attack the Void Lines. Or rather, he didn't know how to break Han Fei's Void Lines.

The man in black said, "Interesting. In terms of Great Dao and means, you're not bad. Unfortunately, it's far from enough to reach the longevity realm."

At this moment, Han Fei fished out the Sky Hanging Ancient Sword from the void. This sword appeared firstly to attack the black-clothed man, and secondly to guard him when he was reversing time.

Sure enough, when Han Fei reversed time again, the man in black unleashed three sword runes at the same time, which looked like the Supreme Clearness World's Three-Foot Sword. The three swords slashed at the Sky Hanging Ancient Sword ferociously.

However, it still gave Han Fei a chance to reverse time again. After returning to his peak state, Han Fei happened to see the scene of the Sky Hanging Ancient Sword exploding.

Han Fei was shocked. Is it so powerful? Although it was fished from time, it was broken in the blink of an eye?

Han Fei immediately retreated and continued fishing

To Han Fei's surprise, the man in black didn't stop Han Fei from fishing, but was curious to see what else Han Fei could fish.

Once, twice, three times...

After fishing five times in a row, on the sixth time, Han Fei finally fished a golden arm.

The golden arm Han Fei fished with the Time Fishing Technique completely listened to his command. Han Fei didn't let it parasitize him but only let it attack the enemy.

Han Fei thought that now he should be able to give the man in black a headache.

However, the man in black said, "You actually found my arm back?"

Han Fei was surprised. "???"

Han Fei couldn't have felt worse. So it turned out that he had fished this man's hand?

But then Han Fei thought, If this golden arm belongs to this person, how strong is he? Has he reached the peak of the Sky Opening realm? Therefore, just one arm can sweep across the Sea Establishment realm.

Therefore, the man in black in front of him was indeed just a brand. Otherwise, Han Fei wouldn't have been able to hold on until now. But since Han Fei couldn't defeat this person with his own strength, he could use this guy's arm. Han Fei used the Twin Divine Technique again. This time, his white-mist body fused with the golden arm.

Buzz!

Immediately, Han Fei felt that his white-mist body was about to explode. A terrifying force swept through his body, directly reaching the upper limit of the power that his white-mist body could withstand.

Han Fei believed that even if he activated the Great Dao, the Invincible Eye, and the Dragon Transformation Technique, he wouldn't be as strong as he was now.

The man in black couldn't help but fall silent. "Interesting. I have to say that you are the strongest among the 13 people. You've seen the Dao of my fifth life. This opportunity is yours."

Han Fei was already prepared to fight and had used all his trump cards. He didn't expect the man in black to suddenly stop fighting. His figure gradually dissipated and became more and more blurred.

Han Fei asked, "Hey! What's your name?"

The man in black smiled faintly. "My name is not important. My sixth life's name is Chu Hao."

Han Fei: "..."

Han Fei was not surprised by the disappearance of the man in black. After all, how could a brand fight the original body? This golden arm had been preserved until now. If it hadn't parasitized a person strong enough, it wouldn't have been able to sweep all the strong masters.

He had thought that it would be a life-and-death battle, but it ended in this strange atmosphere. However, Han Fei was still in the starry sky.

When Han Fei looked again, he keenly discovered that there was a futon floating in the depths of the void.

Uncontrollably, the Demon Purification Pot flew out. The return of the sixth vine quietly began in the starry sky.
