

## **God of Fishing #Chapter 2474 - 2474 Participant, Please Challenge Again - Read God of Fishing Chapter 2474 - 2474 Participant, Please Challenge Again**

Han Fei's action stunned the countless spectators of the Divine Capital Dynasty.

As people who could watch the game every day, they knew that Han Fei had controlled the entire population of the Star Sea Metal-eating Ants.

Now, when the queen ant stopped Zhao Qinglong and ten thousand Star Sea Metal-eating Ants surrounded him, Zhao Qinglong sat cross-legged. Anyone with a brain would know that Zhao Qinglong had been tricked by Han Fei.

More importantly, Zhao Qinglong would probably be infuriated to death if he knew that Han Fei had set him up.

Someone shook his head. "Shameless! Han Fei is simply shameless!"

Someone said, "Shameless? Didn't Zhao Qinglong cooperate with the people of the big clans to trick Han Fei and the others? Now it's only fair that he is tricked by Han Fei."

Someone agreed. "That's right! So what if he is on the God Roll? Isn't he still slower than Han Fei? If Han Fei hadn't gone to that star, he would have been the champion now."

In the Sky Opening realm arena, Cao Mengde and the others clapped their hands and cheered.

"Puff... Huff..."

Holding his big pipe, Wu Bufan laughed and said, "So what if Zhao Qinglong is tenth place of the God Roll? He's just an ordinary person in front of my Brother Fei. How dare he scheme against my Brother Fei? I'm afraid he won't be on the God Roll for long."

Cao Mengde laughed out loud. "That's right. How can a mere Zhao Qinglong stop Brother Fei? If it weren't for the fact that Brother Fei hadn't shown his strength when the God Roll was released, how could he have had a place?"

Li Chen echoed, "That's right. Who does he think he is? In the fourth round, this guy competed with Brother Fei for first place and even joined forces with some nasty things. What happened in the end? He only got a slap in the face."

Zhou Run said to them via voice transmission, "Alright, enough chit chat. If you want to curse, curse after we leave the Divine Capital Dynasty."

At the mention of leaving the Divine Capital Dynasty, they all stopped. Yes, now was not the time to relax.

...

On the other side, in the courtyard of the Sky Opening Realm, in front of the hot pot, Feng Xingliu was pointing at the Divine Curtain and cursing, "It's all this b\*stard's fault. If it weren't for him, I wouldn't have been eliminated. How could I be among the first to be eliminated?"

Seemingly still angry, Feng Xingliu raised its head and shouted at the Divine Curtain, "Han Fei, kill this b\*stard."

Feng Qingcheng shook her head slightly and said, "That's enough. You still can't keep up with them in the realm. The ultimate reward is not open to you after all."

Feng Xingliu was immediately unhappy. "Hey! Stupid sister, make yourself clear. What do you mean? Look, Han Fei is guarding the finish line now. Anyone who comes will be cheated by him. If one comes, he will cheat one. If a pair comes, he will cheat a pair. More than five million ants are enough for him to destroy everyone. With my relationship with Han Fei, if I were still there, wouldn't I get second place? Believe or not, maybe Han Fei can give me first place..."

Feng Qingcheng rolled her eyes at Feng Xingliu, wondering where his confidence came from.

However, what Feng Xingliu said was true. If Feng Xingliu was really here, maybe Han Fei could really give him third place or something. In this way, the Phoenix Divine Race would get two Origin Grounds for free, which was not a bad result. As for now, it was impossible.

...

The Shattered Star Sea.

Zhao Qinglong rested for a long time and felt that he had returned to his peak state. He rose and said to the shadow of the queen ant, "I can start anytime."

The queen ant said emotionlessly, "Okay, the challenge will begin in ten seconds. This challenge must be fair and just. Participant, please be prepared."

As soon as the queen ant said so, the ten thousand Star Sea Metal-eating Ants had already gathered around.

However, a thousand of them were emitting blue flames in different shapes. They were none other than the Star Sea Blue Fire Ants. Zhao Qinglong didn't have the Demon Purification Pot anyway, so he couldn't see their information. Besides, Star Sea Blue Fire Ants were also Star Sea Metal-eating Ants.

After ten seconds, ten thousand Star Sea Metal-eating Ants swarmed up in batches. There were only a hundred Star Sea Blue Fire Ants and a thousand Star Sea Metal-eating Ants in the first batch.

Zhao Qinglong was wearing armor and holding a spear. He immediately charged at the ants.

Bang! Bang! Bang!

However, Zhao Qinglong didn't know that the Star Sea Blue Fire Ants were self-explosive ants in the first place. Under orders, they could only charge at Zhao Qinglong with the determination of perishing together with the enemy.

Besides, the level of the Star Sea Blue Fire Ants was much higher than that of the Star Sea Metal-eating Ants. Nearly fifty of them detonated themselves in close combat with Zhao Qinglong.

That terrifying power blew up hundreds of Star Sea Metal-eating Ants.

Zhao Qinglong, who was completely caught off guard, felt dizzy under the explosion.

Then Zhao Qinglong appeared a thousand kilometers away, but he looked disheveled, his high-quality battle suit was badly damaged, and he was dripping with blood.

He didn't expect that he would be blown up so quickly. Fortunately, he reacted faster and managed to dodge it. Otherwise, he would have been dead.

"Huh!"

Through the queen ant's vision, Han Fei discovered, to his shock, that Zhao Qinglong was indeed quite strong. He failed to seriously injure him even though he took him by surprise.

Besides, the speed of this guy just now was a little terrifying! Han Fei confirmed that if he didn't see wrongly, his speed should be about 15 times the speed of light, right?

He could only reach 14 times the speed of light, so this guy was indeed very strong.

However, so what? This kind of outburst consumed mental strength, will, combat power, and resources. [nOvelnext.cOm](http://nOvelnext.cOm)

No matter how strong Zhao Qinglong was, he immediately re-evaluated the difficulty of the challenge. It would take him a long time to kill these 10,000 Star Sea Metal-eating Ants even if they stood still and let him kill. If he wanted to kill more than 3,000 in a day, on average, he had to kill one every five seconds.

Of course, it would be easy for him to beat them at the beginning, but that was only at the beginning. The only purpose of the existence of the Star Sea Blue Fire Ants was to blow themselves up.

On the other hand, Han Fei watched Zhao Qinglong attack crazily through the queen ant's vision. This time, he killed more than 300 Star Sea Metal-eating Ants in only a hundred seconds, which made Han Fei nod repeatedly.

"Good job. Keep it up and try to kill 10,000 in a day."

Han Fei was enjoying the show. He controlled a dozen Star Sea Blue Fire Ants to blow themselves up from time to time. With the fastest speed of the Star Sea Blue Fire Ants, five times the speed of light, they certainly couldn't touch Zhao Qinglong.

However, Zhao Qinglong's goal was to kill 10,000 Star Sea Metal-eating Ants. Killing them was his goal. It was meaningless to avoid them and would only waste his energy. After all, it was annoying to hide here and there!

Just like that.

In just half a day, Zhao Qinglong had killed 3,000 Star Sea Metal-eating Ants. When he encountered Star Sea Blue Fire Ants, he could only attack remotely and blow up the Blue Fire Ants.

When Zhao Qinglong killed 6,000 Star Sea Metal-eating Ants in a day, Han Fei realized the problem. Although this guy was very tired, he could still fight. Was his spiritual will so strong that it couldn't be exhausted?

Although the will of a perfected Star Transformation Realm cultivator might be stronger than that of a late-stage Star Transformation Realm cultivator, it shouldn't be so strong, right?

Soon, Han Fei found that something was wrong, because Zhao Qinglong's eyes were glazed as if he was numb to killing. But Han Fei knew that this guy must have given his body to the black dragon.

"Damn it."

Han Fei was immediately unhappy. What's so great about the black dragon? Just because it was a black dragon didn't mean it could control Zhao Qinglong's body to fight and cheat!

Unhappy, Han Fei reminded, "Participant, congratulations on killing more than half of them. Please keep it up."

Han Fei said that to see Zhao Qinglong's reaction.

The black dragon was speechless. Congratulations my ass. Do I need you to remind me of this?

However, in the next moment, the remaining 600 plus Star Sea Blue Fire Ants were divided into six teams and launched a group chase on Zhao Qinglong. Although they couldn't catch up to him, they would still chase him and affect his operation and battle. If he dared to stop, they would blow him up.

Half a day later, there were only less than a thousand of the 10,000 Star Sea Metal-eating Ants left. It was such a result because the black dragon didn't try its best. He didn't dare to kill them too quickly, because he knew that there were guardians watching. He didn't know if there were any Monarchs guarding this finish line, so he just imitated Zhao Qinglong's battle.

At the last moment, the black dragon controlled Zhao Qinglong to unleash the Dragon Flame Wave, a lost divine technique. In an instant, Han Fei saw that two groups of Blue Fire Ants were killed in a row.

In the end, there were only 200 Blue Fire Ants left. Of course, they couldn't withstand the attacks. In less than half an hour, they were completely destroyed.

Upon seeing this scene, Han Fei was very unhappy. Look at the sleeping big shot in Zhao Qinglong's body who killed tens of thousands of Star Sea Metal-eating Ants in one breath. But for the one in his body, hehe, no matter what, sleep came first.

Zhao Qinglong replaced the black dragon's consciousness and said, "Senior, I've passed the challenge."

However, the queen ant replied mechanically, "The contestant was fighting by replacing your own consciousness with an unknown force, so the fighting result is invalid. Participant, please challenge again."

Zhao Qinglong: "???"

Zhao Qinglong was dumbfounded. Are you f\*cking kidding me? Again?

However, Zhao Qinglong did borrow the power of the black dragon. Could it be that this wasn't allowed?

Even the black dragon was stunned. I've been fighting and pretending so hard for two days. But now Zhao Qinglong has to start all over again?

The queen ant released another ten thousand Star Sea Metal-eating Ants with the same composition as before, which charged at Zhao Qinglong.

Neither Zhao Qinglong nor the black dragon realized what was going on, because the queen ant had declared without hesitation and released another 10,000 Star Sea Metal-eating Ants in one go, which made him doubt himself.

However, this time, Zhao Qinglong didn't dare to let the black dragon kill the ants for him.

However, this time, the Star Sea Metal-eating Ants attacked in a different way. The thousand Star Sea Blue Fire Ants scattered and launched suicide charges at Zhao Qinglong.

No matter where you run, as long as I touch you, I will blow myself up. This forced Zhao Qinglong to be in a high-speed state all the time.

!!

Besides, all the other Star Sea Metal-eating Ants swarmed up on him, so the difficulty this time was actually greater than last time, because Han Fei had been exhausting Zhao Qinglong from the beginning.

This scene dumbfounded the audience of the Divine Capital Dynasty.

Someone was lost for words. "What happened? Why did he fight twice?"

Someone sighed. "Even God can't resist such a fighting style! Shameless, simply too shameless."

Someone was curious. "Why did Zhao Qinglong fight the Star Sea Metal-eating Ants head-on? He must have been deceived, right? But why could he be deceived a second time?"

At this time, Cao Mengde and the others were also shocked.

Wu Bufan asked, "Is Zhao Qinglong out of his mind? He didn't notice anything wrong?"

Cao Mengde nodded quickly. "Exactly, I think even we are much smarter than him!"

Zhou Run said, "I can understand that he was tricked the first time. Brother Fei must have taken advantage of the loophole in the rules. He must have made Zhao Qinglong mistakenly think that this was the ultimate challenge. But... why there is a second round, no one knows."

On the other side, Zhao Qinglong and the Black Dragon didn't find anything different, but Zhao Qinglong's guardians did.

He had been surprised since the last time. He knew the Star Sea Metal-eating Ants, but they shouldn't be here!

It was reasonable to take the Star Sea Metal-eating Ants as the final test, but the second time was a bit ridiculous.

Even if Zhao Qinglong did borrow other powers, he had passed the checkpoint. This was just a test. It wasn't supposed to be so strict. This kind of test had nothing to do with rewards. *novelnext.com*

Therefore, the guardian of the Heavenly Race discovered something. He quietly disappeared for a moment, and finally, he discovered that there were dozens of queen ants hidden in the depths of the star fragments.

"No! Even if this is a checkpoint, there shouldn't be so many queen ants. All of this is fake."

Unfortunately, outsiders were not allowed to interfere in the battle. The strong master of the Heavenly Race thought for a while and decided to help Zhao Qinglong find his hidden opponent.

Because he knew that he couldn't interfere in the battle, this expert didn't directly send a voice transmission or soul warning to Zhao Qinglong.

He had actually transmitted some of his telepathic thoughts to the Star Sea Metal-eating Ants. It was impossible to defend against the means of a Monarch.

However, when this Heavenly Race powerhouse tried to tamper with one of the Star Sea Metal-eating Ants, he heard a leisure voice, "How dare the Heavenly Race cheat in front of our Time Temple? Who gave you the courage?"

Buzz!

The Heavenly Race powerhouse suddenly turned around, only to see Elder Guo of the Time Temple looking at him with a smile.

At that moment, he realized that Han Fei was here. Han Fei was the first to reach the finish line, but Han Fei didn't choose to enter the finish line.

It was also at this moment that he understood that everything was over. Based on Han Fei's personality, no one from the Heavenly Race could reach the finish line. Han Fei was going to use this method to wipe out all his enemies.

...

When Elder Guo fought the strong masters of the Heavenly Race, Han Fei suddenly felt that something was wrong.

"Has the black dragon noticed something?"

"This shouldn't be the case! The rule I set is quite comprehensible. As long as Zhao Qinglong fights seriously, he will probably be able to defeat ten thousand Star Sea Metal-eating Ants that are barely in the Sky Opening Realm."

"No! Zhao Qinglong is a scourge after all. Let me continue to weaken him."

Han Fei's heart did a flip. Since he could be exposed at any time, he might as well do it from the dark. So far, Zhao Qinglong hadn't shown his Associated Spirit. This guy's sudden rise three hundred years ago must have something to do with the black dragon. Being able to enter the God Roll meant that he wasn't very old, and he couldn't be over thirty thousand years old. Therefore, his Associated Spirit couldn't be in the perfected Star Transformation Realm.

However, Little Black and Little White were strong enough now. After practicing the World Devouring many times, Little Black and Little White were already level 106, which was equivalent to the late-stage of the Star Transformation Realm. He didn't believe that Zhao Qinglong's Associated Spirit could resist Little Black and Little White.

Another moment later.

In the Soul Sea, Han Fei, who was attached to Little Black, finally saw a two-headed flying dragon.

"Heh! He's really related to the dragon race. No wonder the black dragon chose Zhao Qinglong as its host."

However, this two-headed flying dragon was actually on the same level as Little Black and Little White. This was interesting. The other party was a

primitive ferocious beast, and Little Black and Little White were mysterious creatures.

At this moment, Little White hid far away, and Little Black quietly swam over.

Suddenly, Han Fei opened Little Black's bloody mouth and bit him.

The Two-Headed Flying Dragon was stunned by the bite. It didn't know why one of its wings was suddenly gone.

The Two-Headed Flying Dragon wailed subconsciously, and then, its head was gone. For Little Black and Little White, it didn't take long to swallow a big star now, not to mention that Little Black had been good at devouring. When the Two-Headed Flying Dragon realized that it was attacked, half of its body was gone.

Besides, the Two-Headed Flying Dragon couldn't run away. Even if Little Black didn't have time to eat it, the Frenzying Eye of the Emperor Sparrow was enough to keep him in the Spiritual Sea.

In the outside world.

Zhao Qinglong suddenly felt that something was wrong. He sensed that the Two-Headed Flying Dragon was crying for help. They were connected in mind. What happened to the Two-Headed Flying Dragon?

He hurriedly summoned the Two-Headed Flying Dragon, but he failed.

Zhao Qinglong, whose face changed greatly, summoned the Two-Headed Flying Dragon five times in a row before it appeared.

However, when he saw that his Two-Headed Flying Dragon had become a level-one baby, he was stunned. Where is my dragon?

At the moment when Zhao Qinglong was stunned, Han Fei finally seized the opportunity and the Star Sea Blue Fire Ants swarmed up.

Boom Boom Boom ~

The series of explosions left Zhao Qinglong unkempt and disfigured. His battle suit was broken and he was bleeding.

"Who is it?"

“Hehe ~”

At that moment, a figure appeared in the darkness.

When Zhao Qinglong saw Han Fei’s face, he knew that he had been deceived.

At that moment, the furious Zhao Qinglong was about to activate a divine technique. He was not worried about Han Fei’s stealing power, because the black dragon would block it for him.

But what he didn’t expect was that Han Fei didn’t intend to use the Void Stealing Technique at all. He had already used it on Zhao Qinglong several times, and every time, he suffered a backlash. He was not stupid. He had already known that the Void Stealing Technique was useless against Zhao Qinglong.

Therefore, Han Fei grinned and said, “All laws forbidden in this space.”

At that moment, Zhao Qinglong’s divine technique was forcibly suppressed and he couldn’t release it at all. As Han Fei had all laws in this space forbidden, Zhao Qinglong couldn’t unleash 15 times the speed of light at all.

The next moment, the God Sealing Spear Array fell, and Zhao Qinglong felt that his strength had been crazily reduced to only 30%. And this was because the black dragon had helped him block part of it.

Zhao Qinglong said, “Senior Black Dragon.”

However, Han Fei was not stupid. He shouted, “Zhao Qinglong, don’t think I don’t know that there is a mysterious power in your body. You can’t resist my divine technique with your own strength. If you have the ability, unleash that power. There are countless people watching this battle. Let’s see if you dare.”

Zhao Qinglong didn’t know what to say. The black dragon didn’t feel good either. He wasn’t afraid of facing the Monarchs of the East Sea Divine Realm, but he was afraid that his identity would be exposed and the Dragon Race would find out. Once the powerhouses of the Dragon Race found out that he was in Zhao Qinglong’s body, he would be doomed. He probably wouldn’t be able to escape no matter where he ran.

At this moment, the black dragon really didn’t dare to come out.

Although he could control Zhao Qinglong's body, this spear array was probably a divine technique that suppressed the fundamental power of Zhao Qinglong's body.

Even if he controlled Zhao Qinglong's body, he could only exert about 70% of the normal state of this body.

However, if he didn't control Zhao Qinglong's body at this moment, he would be doomed. In this state, Zhao Qinglong was no match for Han Fei.

The two of them had fought for two rounds. He felt that although Han Fei was not strong enough, he was not comparable to Zhao Qinglong whose strength was only 30% left.

Therefore, the black dragon thought for a moment and controlled Zhao Qinglong's body. As long as he didn't show up, it wouldn't be considered cheating!

However, in the next moment, a phantom of the God of War holding two axes suddenly appeared behind Han Fei. The phantom of the God of War appeared and then fused with Han Fei. Instantly, Han Fei's strength soared.

Bang! Bang! Bang!

Inside the God Sealing Spear Array was Han Fei's territory. The Infinity Water was bombarding Zhao Qinglong indiscriminately, and Han Fei held two axes in his hands and slashed out the power of the God of War Axe.

In the blink of an eye, he was chopped dozens of times by Han Fei.

This wasn't the first time Han Fei fought Zhao Qinglong when he was still weak. At that time, his soul and strength hadn't exceeded 10 million, and the operating limit of his Great Dao was only 3.5 times.

In the end, the power he unleashed was only 30 million waves, which was much weaker than Zhao Qinglong in his peak state.

But now, Han Fei's strength had reached 13 million waves, and the outburst of the God of War Seal could raise Han Fei's strength to 40 million waves. And Zhao Qinglong, who was suppressed by the God Sealing Spear Array, could only exert the power of 30 million waves even if he was possessed by the black dragon. How could this gap be resolved so easily?

Therefore, before the black dragon appeared, Zhao Qinglong's skin and flesh were lacerated.

Han Fei stretched out his hand and punched. The Star Fist Technique burst out like a star exploding, and the lower half of Zhao Qinglong's body was directly blasted into ashes by Han Fei.

Han Fei laughed out loud. "You call yourself the tenth place on the God Roll? Trash."

In the Divine Capital Dynasty, countless people stopped what they were doing and watched the scene in the Divine Curtain in shock.

It was too violent. At that moment, Han Fei was like a real god of war. When the power of his axe fell on Zhao Qinglong, the void distorted.

After that punch, there were only dazzling divine light fist marks left on the Divine Curtain, so dazzling that countless people's eyes water.

"Shoot! What happened? Why did Han Fei suddenly come out to fight?"

!!

"He's too strong! That's a powerhouse on the God Roll! There are only ten people on the God Roll in the entire Sea Realm, but he can't resist Han Fei at all."

Someone scoffed. "Zhao Qinglong was clearly tricked by Han Fei. That spear array must have weakened Zhao Qinglong. Otherwise, he wouldn't have been able to defeat Zhao Qinglong."

Someone said, "What do you know? This is called strategy. Do you have to fight all your enemies head-on? If you think Han Fei is not capable enough, come on, try it."

Someone shouted, "If Zhao Qinglong is defeated, will Han Fei replace his place on the God Roll?"

Someone shook his head. "Definitely not. Unless Han Fei can defeat Zhao Qinglong head-on, he can't replace Zhao Qinglong on the God Roll."

In a certain courtyard.

Feng Xingliu clenched his fists and shouted, "Hit him! Hit him! Kill this ant..."

Cao Mengde, Wu Bufan, Li Chen, and the others roared in the arena.

"Brother Fei is awesome! Brother Fei is invincible... Hahaha! So what if he is on the God Roll? Our Brother Fei will definitely be on the God Roll someday."

The Queen of Horror thought to herself, No wonder Nannan wants to make this kid owe her a favor. Interesting. If he obtains the reward of the Origin Ground, will it take long for him to prove his Dao?

The eyes of the Queen of Horror lit up. When people like Han Fei didn't lack resources and their strength steadily increased, it was almost inevitable for them to prove their Daos.

Although there were few Monarchs in the Sea Realm, it didn't mean that there had always been few Monarchs born in generations. In the Age of Gods, there were many Monarchs in the Sea Realm.

However, even in that era, how many people had such talent?

...

The Shattered Star Sea.

Han Fei finally showed his brutality. With the Demon Purification Pot, he couldn't be worse than Zhao Qinglong in terms of divine techniques. Even this black dragon couldn't be compared to him if they were in the same realm.

In terms of physique, although he hadn't condensed Dao Bones, he must be stronger than Zhao Qinglong.

However, there was one thing, that was, the black dragon's soul was extremely powerful. Under Han Fei's crazy bombardment, the black dragon suddenly launched a soul attack, trying to directly crush Han Fei's soul.

Han Fei didn't care at first. He thought, Anyway, I have the Demon Purification Pot. No matter how strong your soul attack is, how can I be shaken?

However, to his surprise, the Qualification Token in his hand suddenly glowed.

In the next moment, a majestic voice entered the black dragon's ears. "That's too much. I don't kill you because I don't bother. But if you destroy the

competition with the power of a Monarch, do you really think I can't do anything to you?"

"Puff ~"

Instantly, blood spurted out of Zhao Qinglong's eyes, nose and mouth, and his strength dropped instantly. Zhao Qinglong's original consciousness immediately returned, and the black dragon disappeared without a trace.

"Great Monarch East Martial?"

Han Fei's heart did a flip. So strong! The black dragon's consciousness was shaken back by a voice, suppressed into Zhao Qinglong's body.

Also, it turned out that Great Monarch East Martial had been watching the show! The qualification token was indeed transformed from his spiritual will. Fortunately, he hadn't shown anything special so far.

Without the black dragon, Zhao Qinglong's strength had dropped to 30%. The result could be imagined. Even if he was possessed by the black dragon, he couldn't beat Han Fei, let alone that his strength was only 30% left now.

When Han Fei activated a series of Ultimate Hammers, Zhao Qinglong's guardian of the Heavenly Race suddenly took action, blocking all Han Fei's attacks.

The strong master of the Heavenly Race glanced at Han Fei indifferently. "This battle is over. Zhao Qinglong, withdraw from the finals."

"F\*ck..."

Han Fei hadn't had enough yet. He was just about to seriously injure Zhao Qinglong's soul and prevent him from recovering in the short term, when his guardian of the Heavenly Race suddenly appeared, making Han Fei's plan fail.

How could Han Fei be convinced? He grinned coldly and looked at the Heavenly Race expert. "The hands of the Heavenly Race are quite long. You really meddle in other people's business. I guarantee that if any Heavenly Race participant can jump over this place, I will personally offer my head to your Heavenly Race."

“Hmph!”

The Heavenly Race expert snorted and left with Zhao Qinglong. In fact, even if he hadn't taken action, would Han Fei have let the Heavenly Race participants pass through?

The answer was clearly no. If it weren't for the fact that the finals were guarded by guardians, Zhao Qinglong, the strong masters of the Heavenly Race, and the strong masters of the big clans, none of them would have been able to escape and would have been killed by Han Fei.

He didn't understand where Han Fei got the confidence to challenge so many major forces. Even if he was from the Wild Ancient Race, so what? Even if he was the direct disciple of the God of War, so what? Even if he had the bloodline of a divine race, so what? After pissing off so many people, who could protect him?

Zhao Qinglong was eliminated. This was something that no one had expected. Who would have thought that the first place would be eliminated because of Han Fei?

However, a game was a game. It was common for the strong to make mistakes. Just because Zhao Qinglong was a strong master on the God Roll didn't mean he could be an exception.

The moment his guardian appeared, Zhao Qinglong knew that he failed this game. Therefore, he didn't say a word until he left.

However, he looked at Han Fei as if looking at a dead person.

Han Fei didn't care at all. In a good mood, he hid himself again and waited for the next group of people to come.

More than twenty days later.

Out of Han Fei's expectation, the first to arrive turned out to be Ruo Youhe and Ruo Youran from the Ghost Strait. Han Fei was surprised that they arrived only less than a month after Zhao Qinglong did.

However, it was a pity that they came early. The top three could only belong to him, Feng Yu and Wushuang. When they arrived, he would no longer interfere.

As for Ruo Youhe and Ruo Youran, they were naturally stunned after hearing the queen ant's words.

Ruo Youran asked, "Senior, has anyone reached the finish line yet?"

"Yes."

Ruo Youran asked, "Senior, have they killed ten thousand Star Sea Metal-eating Ants?"

The queen ant simply said, "No comment."

The siblings breathed a sigh of relief.

They took it for granted that the queen ant didn't say anything. However, they guessed that the other party might not have really killed 10,000 Star Sea Metal-eating Ants. After all, it was quite difficult.

Besides, the queen ant said that the result could be judged by the number of kills, so they just needed to work hard to kill them.

Therefore, they chose to challenge.

As for the result, it was obvious. Although the two of them were powerful, 10,000 Star Sea Metal-eating Ants were too many. And they didn't have any strong masters in their bodies.

However, these two people were not weak either. Each of them had killed nearly 6,000 Star Sea Metal-eating Ants. This number made Han Fei click his tongue. It seemed that the spiritual will of those in the perfected Star Transformation Realm was extraordinarily strong!

Of course, Ruo Youhe and Ruo Youran were tricked into withdrawing from the competition by Han Fei. When they learned the truth, they were traumatized.

When their guardian told them the truth, the two children went crazy. Damn it, Han Fei tricked them into withdrawing from the competition!!!

They had already reached the finish line, and they were the earliest batch. At the very least, they would be able to get a ranking, but they were tricked by Han Fei.

Ruo Youhe's face turned green and his body trembled. "Han Fei, Han Fei... I swear that I will fight this person to the death. Ahhhh..."

Ruo Youran almost went crazy. The usually quiet girl grabbed her hair and her eyes were bloodshot. "B\*stard, b\*stard, b\*stard, you're too much! You're so shameless... I, I..."

"Sigh!"

The guardian of the Ghost Strait sighed. "Let me tell you another thing. Zhao Qinglong has also been eliminated because of him."

"Huh?"

"Uh ~"

Instantly, Ruo Youhe and Ruo Youran stopped cursing, and they felt much better. Although they were still angry, Zhao Qinglong was also scammed. It seemed that they weren't the most miserable ones.

Zhao Qinglong was a strong master on the God Roll! How humiliating was it for him to be tricked by Han Fei into withdrawing from the competition?

Feng Yu, Yi Cai, Cao Bumie, Zhou Mi, and two other people arrived almost at the same time. To be precise, these five people had come here while fighting Feng Yu.

These people were all the top ten strong masters in the fourth round of qualifiers. Of course, their strength was not weak. Furthermore, the children of the big clans had many godly weapons and means.

Yi Cai said, "Miss Feng Yu, you can't win. The first place on the Heaven Roll is only for others to see. It's first place under limited conditions. But no matter how strong you are, how can you fight five alone?"

Feng Yu was indeed restrained along the way, but it was precisely because of her powerful combat power that Yi Cai and the others had never gained any advantage.

Now, seeing that the finishing line was coming, they were no longer focused on fighting but on restraining the other party. *NovelNext.com*

But Feng Yu knew very well that two of the five people on the other side had the guardians of big clans, so they would definitely leave someone to hold her off. It didn't need to be long. At a critical moment, it would only take a few seconds to decide the winner.

Just as they were about to pass through, suddenly, a queen ant appeared in front of them.

The queen ant said, "All contestants, please wait. I will announce the rules of the final challenge..."

"Huh?"

Yi Cai and the others were dumbfounded. Was there still a final challenge?

The queen ant said emotionlessly, "Participants, please crush 10,000 ordinary Star Sea Metal-eating Ants head-on. The results of this final will be judged according to the time of your arrival and the number of Star Sea Metal-eating Ants you will kill... Once this challenge begins, the challenge will end within three days and then the results will be calculated."

Then, 60,000 Star Sea Metal-eating Ants appeared behind the queen ant and were divided into six camps.

Feng Yu frowned. Along the way, they had to fight while walking, and now they had to face so many Star Sea Metal-eating Ants? These ants were probably at the early stage of the Sky Opening realm, but 10,000 was too many, right?

Not just Feng Yu, Yi Cai and the others were also shocked. How many? One person against ten thousand?

While everyone was stunned, a voice suddenly sounded in Feng Yu's mind. "Senior Sister, it's me! It's time to show your acting skill..."

Feng Yu's eyelids twitched. I was almost tricked.

But then, Yi Cai and the others saw that Feng Yu seemed to have made a major decision and said, "I want to start the challenge right away."

Yi Cai and the others were surprised. Aren't you tired after fighting all the way here? Start the challenge right away? Are you crazy?

However, they thought that Feng Yu was just trying to catch the timing.

Zhou Mi immediately shouted, "Stop her. Don't let her start the challenge."

However, when they were about to attack, they saw tens of thousands of Star Sea Metal-eating Ants blocking them.

The queen ant said, "Participants, please respect the rules and don't ruin the assessment..."

Everyone : "..."

Cao Bumie and the others didn't know that there would be such a challenge in the end. If they had known this would happen, they would have thought of a way to delay Feng Yu.

They weren't late. In fact, they felt that they were already very fast.

When they set traps for Han Fei and Feng Yu, they had thought that these people would definitely not be able to catch up, but to their surprise, their speed was not slow at all.

Furthermore, in their opinions, Zhao Qinglong should have arrived long ago, or he might be the first to arrive. And the rewards of the Origin Ground were only given to the top three. Now that Zhao Qinglong had taken one, no matter what, they couldn't give one of the remaining Origin Grounds to Feng Yu.

Unfortunately, now was the time for everyone to show their true strength. As the number one on the Heaven Roll, since Feng Yu dared to choose to fight, it meant that she had the ability to continue fighting.

At this moment, they had to fight no matter what!

Therefore, when Han Fei stopped Yi Cai and Cao Bumie, they all said, "We also choose to start the challenge."

"Okay!"

In the next moment, everyone was surrounded by ten thousand Star Sea Metal-eating Ants.

The queen ant said mechanically, "The challenge will begin in ten seconds. Participants, please be prepared."

Another moment later.

Buzz!

Feng Yu, Yi Cai, and the others took action one after another, competing in combat efficiency at full speed. When the battle started, it was difficult for ordinary people to be distracted. They didn't notice that the level of the Star Sea Gold-Eating Ants on Feng Yu's side was very low.

They were all Star Sea Metal-eating Ants that had just advanced to the Sky Opening Realm, and the Star Sea Blue Fire Ants were the weakest group Han Fei could find.

But that wasn't the point. The point was that Feng Yu' Star Sea Metal-eating Ants seemed to be attacking ferociously, but they stopped fighting when they approached Feng Yu.

Feng Yu said via voice transmission, "Little Junior Brother, why bother? Let's join forces and beat them all."

Han Fei said, "Senior Sister, no rush. After all, they all have trump cards. It will be tiring for us to beat them personally! Besides, even if we want to attack, we have to take them by surprise and defeat them at the same time. Now just let them consume their energy first."

Feng Yu thought to herself, You really know how to fool around. You can even pretend to be the host of the competition and revise the rules. Aren't you afraid that these people will be furious and take revenge on you like crazy?

One day later.

Feng Yu seemed to be having a hard time. Although she had killed more than 3,000 ants, her condition had dropped by 30%, and her killing efficiency had decreased.

This gave Yi Cai and the others a signal. Feng Yu had consumed a lot of spiritual energy fighting them alone along the way.

Yi Cai said, "Feng Yu isn't in a good state. Clearly, she consumed a lot of energy fighting us. At this time, we might be stronger than her. Kill."

After that, Yi Cai took the lead to show her trump card. A door appeared behind her, and a ray of light swept out of the door. This was a unique talent. It actually covered all the Star Sea Metal-eating Ants in the area in a ray of light, making them lose their target and fight each other. [novelnext.com](http://novelnext.com)

At this moment, Yi Cai was seriously carrying out this challenge. She thought that with Feng Yu's current state, she might not be able to finish the challenge faster than her. Although she was also very tired and her mental state wasn't good, she hadn't shown her trump card!

Less than an hour after she used her trump card, Yi Cai had killed more than two thousand Star Sea Metal-eating Ants. However, Yi Cai's trump card should have limited power. She could barely last for an hour against so many Star Sea Metal-eating Ants.

Seeing that Yi Cai's kill number soared to first place, Cao Bumie unleashed his strength and split into seven. The problem was that each body had the same combat power as the original body. This scene stunned Han Fei.

However, he soon got the answer that it was impossible. If he guessed right, these clones should have been prepared in advance in case of emergencies.

The seven Cao Bumies attacked together, and their killing speed immediately soared by several levels, crazily catching up to Feng Yu.

However, not everyone had such a trump card to quickly kill the enemy. It seemed simple to use, but in fact, to kill more than 2,000 people in an hour, even if they were in the early-stage Sky Opening realm, how strong must their trump card be?

Even the black dragon had never done this before. Therefore, Yi Cai was in the lead for now, followed closely by Cao Bumie, and Zhou Mi only killed 2,000 Star Sea Metal-eating Ants in a day.

Two days later.

Yi Cai's face was pale. Although her kill count exceeded 6,000, she was still suppressed by Yi Cai and Cao Bumie.

As for Cao Bumie's seven clones, they only lasted for four hours. At present, his killing progress was less than 200 slower than Yi Cai's.

And Yi Cai had already killed 8,000 Star Sea Metal-eating Ants.

At this moment, Han Fei's voice suddenly sounded in Feng Yu's mind. "Senior Sister, get ready to fight. I'll deal with Yi Cai and Cao Bumie. You deal with Zhou Mi. As for the other two, I'll use the Star Sea Metal Swallowing Ants to temporarily block them."

Feng Yu asked, "Why do you want to attack them now?"

Han Fei said, "We'll be exposed if we don't do anything. Senior Sister, do you think they'll believe that you, a disciple of the Phoenix Divine Race, the strongest person on the Heaven Roll, have so few kills? Look at Zhou Mi. He has almost stopped fighting. His kills are only less than 4,000 now."

"Okay!"

While Han Fei and Feng Yu were communicating, Zhou Mi was transmitting a message to one of the two itinerant cultivators recruited by the Zhou Family.

Zhou Mi said, "Listen to me carefully. Don't show any surprise. Something will definitely happen to Yi Cai and Cao Bumie in no more than four hours. Burn your bloodline with me and unleash your strongest speed. Use all your trump cards and rush out of this area at full speed."

Upon hearing this, the itinerant cultivator glanced at Zhou Mi and asked calmly, "What happened?"

Zhou Hai: "The challenge to kill the Star Sea Metal-Eating Ants is fake. I wasn't sure at first, but Feng Yu's performance was too calm, and her kill count was very stable. Her purpose here is the final reward. She can't give the reward to Yi Cai and Cao Bumie for free... Therefore, she has the means to break the rules of this challenge. The only explanation is that this so-called challenge is fake."

There was no telling if it was because of the Zhou Family's talent for intelligence, but Zhou Mi vaguely noticed something at the end of the first day. Therefore, he kept it a secret until about a day and a half later, when he confirmed that there was something wrong with this challenge.

However, he didn't inform Yi Cai and the others immediately. The rewards for the Sky Opening Realm finals were limited. If Zhao Qinglong took one, there would only be two left. He definitely couldn't compare to Feng Yu and Yi Cai.

Now even if he exposed this scene, he wouldn't be able to get into the top three, so why should he expose it?

At this time, Yi Cai and Cao Bumie both felt that something was wrong. With suspicion, their killing efficiency immediately dropped.

At this moment, on Cao Bumie's side, he suddenly felt that he was in a trance. Before he had any reaction, the guardian of the Cao Family suddenly stood in front of him and punched through Han Fei's All Great Daos in One Sword.

The moment the guardian of the Cao family appeared, Yi Cai's heart skipped a beat. She finally realized that something was wrong. It seemed that she had been scammed.

When she saw All Great Daos in One Sword, she knew what the problem was. This was Han Fei's trap.

Instead of running, she suddenly took a step back and entered the door of light.

In the next moment, thousands of rays of light burst out of the door.

"All laws forbidden in this space."

The colorful light suddenly dissipated, leaving only a purple light that was still charging.

"Steal her speed."

Bang!

Yi Cai quickly retreated and used the Soul Killing Technique on Han Fei, buying herself some time.

However, Han Fei pointed his finger. "Steal her consciousness."

However, in the next moment, Han Fei saw Yi Cai's body fly into the air. It turned out that Yi Cai had chosen to separate her soul from her body. She had already refined a Yang soul.

Unfortunately, so what? Han Fei chuckled. "Steal the distance."

What Han Fei stole was not what Yi Cai had, but the distance between him and Yi Cai.

The most terrifying thing about a body cultivator was to be approached. Han Fei's sudden appearance gave Yi Cai a fright. She was burning her essence blood and even took out a leaf, preparing to escape.

The leaf was about to be activated, but as Han Fei issued an order in his heart, time stopped here.

Unfortunately, just as the leaf shone, it was stolen by Han Fei with a thought in the moment of time freeze.

Han Fei glanced at the information.

<Name > A Small Boat

<Introduction > A leaf condensed from Speed Dao Patterns and light. This leaf can be used as a boat. It can travel at the speed of light in a short period of time, accompanied by short-term invincible defense (unbreakable for people under the Great Monarch realm ). It's one of the best tools for escape.

<Quality > High-Quality godly weapon (One-time use godly weapon)

< Attached Soul > None

<Effect > The speed of light explosion, invincible defense

< Recastable >

< Unrefined >

<Note > If it weren't a one-time use godly weapon, it would've been rated as an ultra-quality one.

When Han Fei saw the attributes of "A Small Boat", his mouth almost cracked. Damn, this was simply an ultra-quality godly weapon!

The speed of light explosion was 18 times the speed of light. If Yi Cai really used it, where could he find her? Not only would he fail to catch her, but he might even lose the first place.

Fortunately, he reacted quickly. In the next moment, Han Fei blasted out a Star Fist Technique, and the guardian of the Heavenly Race finally appeared in front of Yi Cai.

Furthermore, the guardian of the Heavenly Race said, "Return the godly weapon."

The moment this person appeared, Han Fei gave up on Yi Cai and chased after another person. Hearing the words of this guy, he sneered. "Are you crazy? This is my godly weapon."

How could he return the things he had obtained? Han Fei guessed that this guardian was stupid. In such a situation, wouldn't he be asking for trouble if he still asked for things from him?

Sure enough, the Heavenly Race guardian's face was ashen, but there was nothing he could do.

Everything happened in a short period of time. But on the other side, Zhou Mi and the strong masters protected by the Zhou family burned their blood and fled at the same time.

Furthermore, with a jade slip, Zhou Mi unleashed 14 times the speed of light.

With this speed, it was very difficult to catch up. Even the one running with Zhou Mi had unleashed ten times the speed of light.

However, Feng Yu that had been prepared wouldn't let them go so easily.

At that moment, a phoenix appeared. For the first time, Han Fei saw the speed of a phoenix. In an instant, it illuminated the starry river and silently rumbled, sweeping a million kilometers away.

"Hiss! Light Explosion?"

Not just Han Fei, many strong masters of the big clans were shocked and rose quickly. The speed of the light explosion meant that Feng Yu had a chance to enter the top six of the God Roll.

It was said that the sixth place on the God Roll had once reached the limit speed, the speed of light explosion, in a certain battle.

Anyway, Han Fei saw the three figures flash away in front of him.

Han Fei sent a message to the queen ants, "Seal the last road."

The dozens of queen ants didn't dare to be negligent. They were the last line of defense.

On Feng Yu's side, she was dealing with the two. On Han Fei's side, there was another person who tried to escape, but he knew that he had no chance. No one told him or informed him. He was trying to avoid the Star Sea Blue Fire Ants.

However, when three Star Sea Blue Fire Ants self-destructed, good lord, Yi Cai was eliminated, and so was Cao Bumie.

He, who was exhausted from the battle, had his consciousness stolen after Han Fei glanced at him. When all the Star Sea Blue Fire Ants rushed at this person, his guardian had to appear.

Seeing that this person had been eliminated, Han Fei chased after Feng Yu and the others at ten times the speed of light.

However, Han Fei didn't chase for long. After only about thirty seconds, he found that Zhou Mi had been nailed through by a feather, and the other person had been protected by his guardian.

As soon as Han Fei stopped, the guardian of the Zhou family appeared and stood in front of Zhou Mi.

The person from the Zhou family said coldly, "Han Fei, the Phoenix Divine Race, very good. We'll remember you!"

With that, the man left with Zhou Mi. However, what Han Fei and Feng Yu didn't know was that the man had just appeared in a corner of the Sea of Stars when he heard a rough voice. "What's wrong? From your tone just now, you seem to be threatening our Phoenix Divine Race? You're just a mere big clan. Do you want to challenge our Phoenix Divine Race?"

The guardian of the Zhou Family didn't say anything, but his eyes were cold. Some people wouldn't keep being arrogant even if they were arrogant for a while. If the Phoenix Divine Race wanted to become enemies with many forces in the East Sea Divine Realm because of Han Fei, they might as well fight them and see where their confidence came from.

...

After the battle here was over, Feng Yu finally heaved a long sigh of relief and said, "Healing Technique."

This was not the time for Feng Yu and Han Fei to greet each other. Han Fei threw out the Heaven Enlightenment Divine Technique without hesitation, and Feng Yu's body relaxed at a visible speed. *novelnext.com*

After a while, Feng Yu asked, "Have you met Zhao Qinglong?"

Han Fei said indifferently, "He has already been eliminated by me."

Feng Yu suddenly raised her head. "???"

For a moment, Feng Yu didn't know what to say. She had thought that she might not be able to get into the top three this time, but she didn't expect that Zhao Qinglong would be eliminated by Han Fei.

Feng Yu couldn't help but say, "Then... why did you stay here..."

Seeing Han Fei's smile, Feng Yu knew that her junior brother was waiting for her. He eliminated Zhao Qinglong first and then waited for her to come.

For a moment, Feng Yu was a little touched. As expected of her dear junior brother! The champion was right before his eyes, but he could still hold back and wait until now. Wasn't he afraid of accidents?

However, thinking of Han Fei's trickery, Feng Yu knew how Han Fei eliminated Zhao Qinglong. She didn't know how he dared to think of such an abnormal rule.

If it weren't for the abnormal rules of this hundred-thousand-year competition, no one would have believed this rule.

Feng Yu couldn't help but look at the surrounding Star Sea Blue Fire Ants and ask, "What's going on?"

Han Fei smiled and said, "Well, I found the queen ants, then communicated with them about life, and touched them, so they decided to follow me for the time being."

Feng Yu: "..."

In a corner in the Sea of Stars, Uncle Nine of the Phoenix Divine Race grinned and nodded quickly. “This kid is not bad! Although he can cause trouble, he’s really extraordinary. He even tricked a strong master on the God Roll. If he marries Xiao Yu, wouldn’t they be a perfect match? Maybe they can become two Monarchs. Tsk, tsk... I’ll tell this to my Eldest Brother when I go back...”

In the Divine Capital Dynasty, Feng Qingcheng was hopping in the yard, not caring about her manners at all.

She shouted, “Sister and Brother Han Fei’s top two places are secured! Two Origin Grounds!”

Feng Xingliu looked calm and even curled his lips. “Heh! Let me tell you, it’s all Zhao Qinglong’s fault. If it weren’t for this b\*stard targeting me, I would definitely have a place in the top three! Han Fei is my brother. How can he not give me a place? Alas, what a pity! Zhao Qinglong, that b\*stard, don’t even think about coming to our South Sea Divine Realm in the future. Otherwise, I will definitely skin him alive.”

Feng Qingcheng said unconcernedly, “You’re not strong enough. Even if you make it to the top three, it’s not your real strength.”

Feng Xingliu was immediately unhappy. “What are you talking about? Look, didn’t Feng Yu rely on Han Fei to save a place for her? Why can’t I? Alas, you girl, have you forgotten who took you out?”

...

On the other side.

Zhou Run and the others were very excited!

Wu Bufan said, “I think with Brother Fei’s methods, our Avengers will definitely reach glory in the future!”

Cao Mengde nodded. “Yes, I’ve learned this trick! This time the Phoenix Divine Race owes Brother Fei a big favor!”

Zhou Run added, “Favor is secondary. Think about it. When Brother Fei first conquered the Dragon Fighting Street and killed Yi Qianxing, was he so strong?”

Li Chen nodded. “Yes!”

Zhou Run was speechless. “Are you blind? It only took him three seconds to defeat the three strong masters just now. Although they are already very tired, three seconds is too much. I think maybe the first Monarch of our Avengers Alliance will be him.”

Cao Mengde smiled and said, “That’s great! It’s a good thing to have a Monarch guarding our alliance.”

Zhou Run shook his head slightly. “In the short term, it’s a good thing, but in the long term, it won’t be the case. If Brother Fei goes too fast, and we can’t keep up with him, or we’re too far behind, we will be eliminated in the end. Therefore, after leaving the Divine Capital Dynasty this time, we have to enter the peak-level late-stage Star Transformation Realm within a hundred years and strive to reach the perfected Star Transformation Realm within five hundred years.”

“Puff ~”

“Five hundred years?”

Everyone looked at Zhou Run in shock. What are you talking about? It’s not a problem to advance to the peak-level late-stage Star Transformation Realm in a hundred years, but to advance to the perfected Star Transformation Realm in five hundred years is a little too much!

Zhou Run said, “We’ve been suppressing our strength for too long. In fact, as long as the seal in our bodies is unlocked, we’ll be in the peak-level late-stage Star Transformation Realm. But it isn’t enough. We have resources and potential. After so many years of suppression, our cultivation speed will definitely be very fast. Besides, we need to fight, we need to take trials. Do not think that leaving the Divine Capital Dynasty is the final success. If we don’t grow up and prove our Daos, how can we shake these big clans in the Divine Capital Dynasty?”

Puff! Huff~

Wu Bufan took a deep breath of his pipe and said, “Buddy! Even so, Aren’t you overestimating us to expect us to reach the perfected Star Transformation Realm in five hundred years?”

Zhou Run put on a smile. “Who do you think Brother Fei will give the third place to?”

Wu Bufan and the others were stunned, but they said without thinking, “It must be Wushuang! Brother Fei is ruthless to his enemies, but he treats his own people very well. Wushuang followed him for a while, so the third place must be Wushuang.”

Zhou Run nodded. “This is equivalent to giving her an Origin Ground for free. Which side owes whom a favor now?”

Cao Mengde leaned his head close. “So?”

Zhou Run added, “I heard that there is a time cultivation field in the Capital of Horror. If we have a chance to cultivate there...”

When Zhou Run said this, everyone widened their eyes in joy and surprise.

...

Three days later.

In the Capital of Horror, the Queen of Horror slammed the table several times.

When she saw Wushuang appear at the finish line, she knew that whether it was Han Fei owing Wushuang a favor or Han Fei owing her a favor, at this moment, he had already paid them back.

A complete Origin Ground was more meaningful than accepting Cao Mengde and the others. This almost meant that Han Fei had given a Monarch to the Capital of Horror. How could she not know how big a favor this was?

“Alas!”

The Queen of Horror’ face darkened. “Damn the Time Temple. They stole my identity as the guardian of Han Fei.”

The Queen of Horror was very unhappy. Han Fei owed her nothing now.

Suddenly, the Queen of Horror’s eyes shone.

On the Crossing.

“Nannan, can you transfer the favor Han Fei owes you to me?”

“F\*ck off.”

In the Shattered Star Sea.

When Wushuang arrived, she saw Han Fei and Feng Yu sitting cross-legged on a queen ant. This scene stunned her.

“What are you doing?”

Wushuang looked at Han Fei in confusion and said, “Waiting for you!”

“Waiting for me?”

Wushuang was stunned. She knew that she might be slow, but this was already her fastest speed. But to her surprise, Han Fei and Feng Yu arrived early, but instead of going to the finish line, they were waiting for her. What the hell?

Wushuang wondered, “Why don’t you wait for me at the finish line?”

Han Fei smiled and said, “If we do, your third place will be gone.”

“Hiss!”

Wushuang’s beautiful eyes froze, and she couldn’t think straight. After a few seconds, she widened her eyes and said, “Ah! Have the others not arrived yet?”

Han Fei smiled mysteriously. “The others didn’t form a team with me, so of course I sent them away. Okay, enough chit chat. Let’s go!” *nOveLnext.coM*

After a long while, Wushuang finally accepted the fact that she had won without doing anything. She was a little flattered that he had given her a third place.

When she teamed up with Han Fei early on, Wushuang had thought that something would happen. In fact, something did happen.

However, she didn’t expect Han Fei to wait for her before the finish line. Especially when she knew that Han Fei had stopped seven or eight people

and even Zhao Qinglong had been eliminated by him, her thoughts almost froze and she couldn't come back to herself for a long time.

At this moment.

Han Fei patted the queen ant under him and said, "I know that you have swallowed a lot of other queen ants' inheritance crystals. Your strength has been growing. Be it your body or your physique, your evolution speed is astonishing. I think you're not far from proving your Dao, right?"

Over the years, Han Fei had enslaved the queen ant and knew that she was accumulating strength. Because of her oath, the queen ant had always listened to Han Fei even though a huge number of her herds had been consumed.

After a few years, this queen ant had become the absolute queen of the remaining queen ants.

And now, the three-year pact was about to come to an end. The queen ant knew that she could finally escape control. However, she couldn't help but have a strange feeling. Han Fei had killed many powerful creatures along the way, which benefited her too. Such a person would probably be very strong in the future!

The queen ant said, "It takes more than a day to prove Dao. The number of my race has plummeted by 80%. If I can prove Dao, I'll only get a chance to recuperate in the future. If I can't, I'm afraid my race can only return to where we came from and recuperate."

Han Fei said, "If my guess is correct, this path is not only my path, but also the path of all the races living in the Shattered Star Sea. If you can complete this path, you might be able to prove Dao, rise and go to a powerful and unknown realm like us. This is your fate."

The queen ant said, "Maybe you're right."

Feng Yu and Wushuang were very curious, thinking that it was unbelievable that Han Fei could conquer a race alone.

However, on second thought, the key was whether they could take them down. Once they did, the benefits would undoubtedly be huge. They

wondered if they would embark on this path again in the future. If they came again, would they meet these creatures again?

Han Fei said, "Help me stop the designated people. Let's call it a day for our cooperation! I made you lose 80% of your clan, but you've also got a great opportunity. It's needless to say who's right and who's wrong. In the future, even if you want to take revenge on me, it'll be fine, but now I hope you can fulfill our three-year agreement."

The queen ant: "Okay."

One day later.

Han Fei and the others came to the star system again. Feng Yu and Wushuang were both fascinated.

The middle-aged man, who had been waiting for the contestants, looked at Han Fei strangely again. How could he not know what Han Fei had done? But a game was a game. He would not interfere.

He just felt a little surprised. This guy had set so many people up and eliminated them effortlessly by simply fabricating a rule. If he could pass the Shattered Star Sea this time, he would definitely be a big shot one day.

The middle-aged man said, "Why? You're not stopping the contestants anymore?"

Han Fei grinned. "That's no longer necessary. Senior, will we be considered to have reached the destination if we go to the star?"

The middle-aged man nodded slightly. "Go on your own! If you choose to go in, you'll have passed the finish line. When you reach the star, familiarize yourself with it and wait for the notice. You can go wherever you want and do whatever you want. As long as you don't fight, cause trouble or wreak havoc, you can do anything. However, the Star Sea Metal-Eating Ants can only stay for a short time at most. After that, they only have two choices. One is to continue walking forward, and the other is to go back."

The queen ant was smart. She said, "My lord, can you give my clan 300 years? During these 300 years, my clan will stay in the Sea of Stars here and we will definitely leave in 300 years."

Han Fei couldn't help but look at the middle-aged man. He knew why the queen ant wanted these three hundred years. There was no other possibility except to prove her Dao.

Perhaps the queen ant understood that with the current size of her race, there was a high chance that they would be destroyed after entering the rear of the Scattered Stars Sea. But since she already had a chance to prove her Dao, it represented a possibility.

Once she proved Dao, she wouldn't be afraid of the other races.

However, the middle-aged man sneered. "Three hundred years? You only have thirty years. After thirty years, you must leave. Also, although the rear of the Shattered Star Sea is dangerous, it's not that dangerous. All dangers are relative, and all chances of survival are relative. Besides, it's wishful thinking if you want to prove Dao in three hundred years. You won't be able to do it without endless tempering."

The middle-aged man sounded very firm and affirmative as if he had seen through the queen ant at a glance. However, he still let the queen ant stay here for 30 years.

If it was just thirty years, it would only be enough for this queen ant to consolidate her recent crazy improvement. It was impossible for her to prove Dao.

In the end, Han Fei glanced at the queen ant casually and said, "By the way, maybe I will embark on this path again in the future. If you can't make it all the way out, wait for me. We cooperate quite well. What do you think?"

...

Saying goodbye to the middle-aged man and the queen ant, Feng Yu said, "I don't think you treat these Star Sea Metal-eating Ants as creatures. You've been sending them to their deaths. Are you sure they won't hate you in the future?"

Wushuang nodded. "That's right! Those who are not our kind are bound to have different thoughts."

Han Fei laughed. “Which race are we from? We are part of the myriad of races. How do you know that the Star Sea Metal-eating Ants are not part of the myriad of races too?”

After that, Han Fei looked at Feng Yu and said, “The queen ant doesn’t care about the lackeys. Along the way, more than ten million Star Sea Metal-eating Ants have died. Every time one dies, it will feed a trace of its energy back to the queen ant. This is why she needs to recuperate for three hundred years.”

Feng Yu shook her head. “Unfortunately, she doesn’t know the difficulty of proving Dao.”

Wushuang nodded. “According to the races we’ve met, their growth is tower-type. The longer they cultivate and the more energy they absorb, the more they will slowly undergo a metamorphosis. Perhaps in tens of thousands of years, the queen ant will naturally grow and have a chance of proving Dao. However, if she shortened the time to three hundred years, it seems good, but some of her insights will be lost in the process.”

Feng Yu couldn’t help but ask curiously, “Why does this look like an extremely huge Origin Star?”

Wushuang asked, “Why is there such a place in the Shattered Star Sea? Without a Monarch guarding it, this place wouldn’t have existed.”

Han Fei smiled. “You’ll find out when you get there.”

...

This was the first time Han Fei had descended directly from the Sea of Stars to an unknown star.

After Han Fei and the others arrived, they all took a breath. The gravity here was abnormal, the spiritual energy here was rich, and they could even feel the chaotic energy circulating here.

Due to the excessive nourishment of spiritual energy, the mountains and rivers here were lush with vegetation.

There were towering trees that were tens of thousands of feet tall. There were also wild monsters in the mountains, but on a closer look, they were all

cultivators. Their strength was at least in the peak-level late-stage Star Transformation Realm.

In the lake and sea, there were creatures of all races. Although there weren't many of them, their strength was at least in the peak-level late-stage Star Transformation Realm or even the perfected Star Transformation Realm.

Han Fei and the others flew all the way and saw that there were even Explorers here. They didn't understand why there were Explorers here.

However, on a closer look, he found that these Explorers only had cultivated for less than ten years.

“Sh\*t!”

“Hiss!”

“Huh? Well~”

For a moment, the three of them were dumbfounded. What the hell was this?

Gulp!

Han Fei swallowed and said, “Can... can the members of your Phoenix Divine Race reach this level after cultivating for only more than ten years?”

Feng Yu rolled her eyes at Han Fei. “Impossible!”

Wushuang was shocked. “How is this possible? Isn't this growth too fast?”

Han Fei said, “Although there aren't many people here, they are all too strong. They can become Explorers in more than ten years. I would believe it if I am told they are all divine beasts.”

Feng Yu said, “That's not right! Their growth is very abnormal. If they're really growing so fast, why are there so few of them? Can't they just nurture these rare geniuses? There are less than a hundred of them in total.”

Han Fei and the others had already crossed tens of millions of kilometers. In total, they had seen no more than a hundred people who could become Explorers or even Venerables in more than ten years. Therefore, apart from being shocked, they suspected that these people had extraordinary bloodlines and were all geniuses among geniuses.

However, at this moment, someone suddenly flew over from afar.

The comer was a female perfected Star Transformation Realm cultivator. She said, "I think you've misunderstood. They're just ordinary creatures."

"How is that possible?"

Han Fei and the others exclaimed in unison, thinking that this person was just here to talk.

However, the woman smiled and said, "This is an experiment. The Lone Star City is trying the method of rapid rise of all races. You think what you see are monsters, but you don't know that their upper limit of growth is too low. At present, they can only quickly grow to the advanced Venerable realm. It's almost impossible for them to continue to grow. They might not be able to establish the sea for the rest of their lives."

The woman followed the gazes of Han Fei and the others and sighed slightly. After all, this act was like pulling up seedlings to help them grow and their potential had been released in advance. How could they still grow in such a situation?

Suddenly, Han Fei said, "This Fellow Daoist, you are?"

The woman came back to herself and said with a smile, "Oh! I'm in charge of receiving you temporarily. My name is Zhang Yue. This hundred-thousand-year competition hasn't ended yet. There are still some contestants who haven't arrived. It's estimated that there's still a year or even longer before the end. So, the higher-ups asked me to give you a simple introduction to Lone Star City."

Feng Yu asked, "Fellow Daoist Zhang, you said this is Lone Star City? Is this a city?"

Zhang Yue smiled. "That's right. No matter what this place looks like to outsiders, it's actually a city, a city on the Scattered Stars Road. It's mostly used as a relay station for supplies."

"A relay station?"

Zhang Yue said, "Perhaps you don't know this, but every year, thousands of strong masters come to Lone Star City from the Sea Realm. Their goal is naturally the path after the Shattered Star Sea."

Wushuang said in surprise, "Thousands? Are they all in the peak-level late-stage Star Transformation Realm or perfected Star Transformation Realm?"

Zhang Yue nodded slightly. "Yes! Occasionally, there will be late-stage Star Transformation Realm cultivators, but that's too few. Most of them are in the peak-level late-stage Star Transformation Realm or perfected Star Transformation Realm."

Wushuang asked, "How can there be so many strong masters in the Sea Realm? Thousands of them every year? Isn't that too much?"

Han Fei and Feng Yu also nodded. They were also surprised. How could there be so many strong masters?

Zhang Yue smiled and said, "Everyone, you should know that the Sea Realm has been peaceful for more than 100,000 years. There are still many strong masters who have existed since the Age of the Gods. The number of them exceeds your imagination. For example, how many people in the Sky Opening Realm have participated in this hundred-thousand-year competition?"

Han Fei said, "Nearly eight hundred thousand."

Zhang Yue nodded. "Alright, these 800,000 people all cultivated for less than 30,000 years, right? But how long can Sky Openers live?"

Feng Yu narrowed her eyes slightly and said, "Under normal circumstances, they can live a million years. Even if there is some damage to their foundation and potential due to battles, adventures, and so on when they're young, the average lifespan of a Sky Opener is still more than 720,000 years."

Han Fei looked at Feng Yu in shock. Just 720,000 years?

Feng Yu said, "Don't look at me this way. At least, that's the data we obtained in the South Sea Divine Realm. Of course, this only represents ordinary humanoids. As for some special beasts, turtles, demon plants, and so on, they can live for more than two million years. Even if they have hidden injuries or something like that, they can still live for 1.5 million years or so."

Therefore, there were already more than 800,000 people who could participate in the 100,000-year competition. Then how many other Sky Opening Realm powerhouses were still alive?

“Gulp ~”

Han Fei couldn't help but swallow. He couldn't help but wonder why there were so few Sky Openers in the Chaotic Wasteland.

Or rather, it couldn't be considered few, but there were definitely not many of them. There were only a few hundred of them. Then how could it be worthy of being a dangerous place in the East Sea Divine Realm?

At this moment, Han Fei felt that something was amiss. The Chaotic Wasteland couldn't be so lousy. How could there be only a few hundred Sky Opening Realm powerhouses over there? Was it a joke?

It seemed that he had to re-evaluate the Chaotic Wasteland. He would ask Feng Yu to quickly investigate if there was any secret there.

At this moment, Zhang Yue said, “So, the reason why we usually see few Sky Openers is that they have long passed the age of fighting, so they don't go out at all. Some live in the wilderness. You should know how many camps there are in the wilderness, right? There are too many to count. Basically, which camp doesn't have a Sky Opening Realm expert? Do you really think they want to stay there? They just gather forces, build their own base, and then gather resources and treasures through the nearby creatures...”

Zhang Yue's words pointed out the nature of the wilderness camp.

If the Crossing was the South Monarch's tool for making money, then the ordinary small wilderness camps were the tool for making money for the Sky Openers. In essence, they were the same.

Therefore, Zhang Yue's words made Han Fei and the others realize how many Sky Openers there were in the Sea Realm.

Even Han Fei couldn't help but sigh. His exploration of the Sea Realm was still too little and he knew too little.

Therefore, more than a hundred thousand years had passed since the last battle of the gods. Assuming that only ten million Sky Openers set foot in the

Shattered Star Sea every ten thousand years, there had been at least a hundred million cultivators who had embarked on this path in a hundred thousand years.

Even if the Shattered Star Sea was perilous, at least ten million people had already crossed it.

Therefore, there were far more strong masters in this world than he had imagined.

Even Feng Yu was a little puzzled. “Why have so many people set foot in the Sea of Stars, but we have never heard of it?”

Zhang Yue said with a smile, “You can’t set foot in the Sea of Stars as you please. Most of the time, you have to be screened before you can come. Or rather, those who know that they don’t have long to live rarely appear in the Sea Realm. How can others know that they have set foot in the Shattered Star Sea?”

Feng Yu couldn’t help but say, “No wonder. No wonder every year there are some peak-level late-stage Star Transformation Realm or even perfected Star Transformation Realm ancestors in our clan who are said to die in battle. Now it turns out that they didn’t die in battle at all, but came here.”

Wushuang also nodded slightly. “There are often some hidden strong masters in the Capital of Horror who disappear for no reason. I always thought they were traveling outside. I didn’t expect there to be such a secret.”

Han Fei was not from the Sea Realm and didn’t have much say. He knew too little about the Sea Realm at this moment, so he was naturally dumbfounded to hear such a big secret about the Sea of Stars.

However, there was one thing that Han Fei suddenly realized.

For example, in the Sky Crater World, those creatures were fighting and killing all day long, and an endless stream of soldiers was pouring in. Were they really fighting?

Very long ago, he had known that the ultimate goal of the Three Temples was the same. Then why did the Immortal Temple have to fight everyone and launch invasion wars everywhere? Was it to replenish their undead army?

Han Fei and Feng Yu looked at each other. Both of them seemed to sense something different and seemed to have some doubts about the world they were in.

And this answer should be able to be obtained in Lone Star City, right?

Feng Yu said, "Fellow Daoist Zhang Yue, I have something to ask you. How did you come to Lone Star City after being selected?"

Zhang Yue shook her head slightly. "Sorry, I can't tell you for now. You can come to the Lone Star City because you are participants, so you can return to the Sea Realm. But we came here because of the most important decision in our lives. Most people here can never go back after they come, unless one day they prove Dao and have the ability to travel back and forth freely... However, to be honest, if some people really prove Dao, they might not want to return to the Sea Realm because on the other side of the Shattered Star Sea, there must be places more attractive than the Sea Realm waiting for them."

Han Fei and Feng Yu were both alarmed. In other words, these people had signed an agreement to set foot in the Shattered Star Sea. If they didn't prove their Dao, they would never go back and might even die outside!

Han Fei suddenly realized why so many people wanted to refine their Origin Stars and set foot in the Shattered Star Sea with them, and why there were so many broken stars here.

In any case, God knew how many people had died on this path, and how many strange races in the Scattered Stars Sea had been fed by their Origin Stars.

However, Han Fei and Feng Yu both felt that they should ask about this matter later.

Without giving Han Fei and the others much time to think, Zhang Yue said, "Let me tell you about Lone Star City..."

...

While Han Fei and the others were in the Lone Star City, Zhang Yue had been following them. They could get to know ordinary information, but not some in-depth information.

Han Fei and the others only knew that the current resident population of Lone Star City was more than 30 million, and the floating population was more than a billion. Why were there so many? That was because people in the Lone Star City were not only from the Sea Realm, but also from the races in the Shattered Star Sea who had succeeded in cultivation.

But why didn't the middle-aged man let the queen ant and the others in earlier? It was because ordinary Star Sea Metal-eating Ants weren't qualified to land in the Lone Star City. If only the queen ants wanted to come in, the middle-aged man wouldn't stop them.

But in any case, this permanent and floating population really shocked Han Fei and the others. More than a billion, this number almost stunned them.

If it weren't for the fact that they had experienced too many Sky Opening realm sea creatures along the way, their hearts would probably not have been able to take it.

Therefore, relatively speaking, the people from the Sea Realm weren't the bulk.

While they were waiting for the end of the game, Han Fei and the others visited the trading market in the Lone Star City. Because most of the people here were not the residents of the city, they would explore the road behind the Shattered Star Sea. Some people were not strong enough and didn't explore deeply, so they often returned after hunting for some treasures. Some people treated this place as a safe area. When they were tired in the Shattered Star Sea, they would come back to take a rest and then explore again.

*nOvelNext.com*

Han Fei and the others had roughly learned that the road behind the Lone Star City was completely different from the road ahead. The road ahead was normal and more like a test. Han Fei thought that as long as he was careful and had some real ability, he could quietly pass through. Although it was dangerous, it wasn't to the point of death.

However, the road behind the Lone Star City was chaotic. All kinds of creatures killed people, snatched treasures, competed for resources, and hunted Star Sea Giant Beasts. It was much more complicated.

But this part of the journey was said to be good because there was a relay station in the middle of the Scattered Stars Sea. Behind the relay station was

the source of the peril. But Zhang Yue didn't tell him much because she herself didn't know.

One year and two months later, Zhang Yue seemed to have received a notice and suddenly said to Han Fei and the others, "Three Fellow Daoists, the 100,000-year competition is over. Please follow me. Great Monarch East Martial wants to see you."

"Who?"

### *Chapter 2475 - 2475 Number Ten on the God Roll, Trash*

2475 Number Ten on the God Roll, Trash

Neither Zhao Qinglong nor the black dragon realized what was going on, because the queen ant had declared without hesitation and released another 10,000 Star Sea Metal-eating Ants in one go, which made him doubt himself.

However, this time, Zhao Qinglong didn't dare to let the black dragon kill the ants for him.

However, this time, the Star Sea Metal-eating Ants attacked in a different way. The thousand Star Sea Blue Fire Ants scattered and launched suicide charges at Zhao Qinglong.

No matter where you run, as long as I touch you, I will blow myself up. This forced Zhao Qinglong to be in a high-speed state all the time.

!!

Besides, all the other Star Sea Metal-eating Ants swarmed up on him, so the difficulty this time was actually greater than last time, because Han Fei had been exhausting Zhao Qinglong from the beginning.

This scene dumbfounded the audience of the Divine Capital Dynasty.

Someone was lost for words. "What happened? Why did he fight twice?"

Someone sighed. "Even God can't resist such a fighting style! Shameless, simply too shameless."

Someone was curious. "Why did Zhao Qinglong fight the Star Sea Metal-eating Ants head-on? He must have been deceived, right? But why could he be deceived a second time?"

At this time, Cao Mengde and the others were also shocked.

Wu Bufan asked, "Is Zhao Qinglong out of his mind? He didn't notice anything wrong?"

Cao Mengde nodded quickly. "Exactly, I think even we are much smarter than him!"

Zhou Run said, "I can understand that he was tricked the first time. Brother Fei must have taken advantage of the loophole in the rules. He must have made Zhao Qinglong mistakenly think that this was the ultimate challenge. But... why there is a second round, no one knows."

On the other side, Zhao Qinglong and the Black Dragon didn't find anything different, but Zhao Qinglong's guardians did.

He had been surprised since the last time. He knew the Star Sea Metal-eating Ants, but they shouldn't be here!

It was reasonable to take the Star Sea Metal-eating Ants as the final test, but the second time was a bit ridiculous.

Even if Zhao Qinglong did borrow other powers, he had passed the checkpoint. This was just a test. It wasn't supposed to be so strict. This kind of test had nothing to do with rewards. **novelnext.com**

Therefore, the guardian of the Heavenly Race discovered something. He quietly disappeared for a moment, and finally, he discovered that there were dozens of queen ants hidden in the depths of the star fragments.

"No! Even if this is a checkpoint, there shouldn't be so many queen ants. All of this is fake."

Unfortunately, outsiders were not allowed to interfere in the battle. The strong master of the Heavenly Race thought for a while and decided to help Zhao Qinglong find his hidden opponent.

Because he knew that he couldn't interfere in the battle, this expert didn't directly send a voice transmission or soul warning to Zhao Qinglong.

He had actually transmitted some of his telepathic thoughts to the Star Sea Metal-eating Ants. It was impossible to defend against the means of a Monarch.

However, when this Heavenly Race powerhouse tried to tamper with one of the Star Sea Metal-eating Ants, he heard a leisure voice, "How dare the Heavenly Race cheat in front of our Time Temple? Who gave you the courage?"

Buzz!

The Heavenly Race powerhouse suddenly turned around, only to see Elder Guo of the Time Temple looking at him with a smile.

At that moment, he realized that Han Fei was here. Han Fei was the first to reach the finish line, but Han Fei didn't choose to enter the finish line.

It was also at this moment that he understood that everything was over. Based on Han Fei's personality, no one from the Heavenly Race could reach the finish line. Han Fei was going to use this method to wipe out all his enemies.

...

When Elder Guo fought the strong masters of the Heavenly Race, Han Fei suddenly felt that something was wrong.

"Has the black dragon noticed something?"

"This shouldn't be the case! The rule I set is quite comprehensible. As long as Zhao Qinglong fights seriously, he will probably be able to defeat ten thousand Star Sea Metal-eating Ants that are barely in the Sky Opening Realm."

"No! Zhao Qinglong is a scourge after all. Let me continue to weaken him."

Han Fei's heart did a flip. Since he could be exposed at any time, he might as well do it from the dark. So far, Zhao Qinglong hadn't shown his Associated Spirit. This guy's sudden rise three hundred years ago must have something to do with the black dragon. Being able to enter the God Roll meant that he wasn't very old, and he couldn't be over thirty thousand years old. Therefore, his Associated Spirit couldn't be in the perfected Star Transformation Realm.

However, Little Black and Little White were strong enough now. After practicing the World Devouring many times, Little Black and Little White were already level 106, which was equivalent to the late-stage of the Star Transformation Realm. He didn't believe that Zhao Qinglong's Associated Spirit could resist Little Black and Little White.

Another moment later.

In the Soul Sea, Han Fei, who was attached to Little Black, finally saw a two-headed flying dragon.

"Heh! He's really related to the dragon race. No wonder the black dragon chose Zhao Qinglong as its host."

However, this two-headed flying dragon was actually on the same level as Little Black and Little White. This was interesting. The other party was a

primitive ferocious beast, and Little Black and Little White were mysterious creatures.

At this moment, Little White hid far away, and Little Black quietly swam over. Suddenly, Han Fei opened Little Black's bloody mouth and bit him.

The Two-Headed Flying Dragon was stunned by the bite. It didn't know why one of its wings was suddenly gone.

The Two-Headed Flying Dragon wailed subconsciously, and then, its head was gone. For Little Black and Little White, it didn't take long to swallow a big star now, not to mention that Little Black had been good at devouring. When the Two-Headed Flying Dragon realized that it was attacked, half of its body was gone.

Besides, the Two-Headed Flying Dragon couldn't run away. Even if Little Black didn't have time to eat it, the Frenzying Eye of the Emperor Sparrow was enough to keep him in the Spiritual Sea.

In the outside world.

Zhao Qinglong suddenly felt that something was wrong. He sensed that the Two-Headed Flying Dragon was crying for help. They were connected in mind. What happened to the Two-Headed Flying Dragon?

He hurriedly summoned the Two-Headed Flying Dragon, but he failed.

Zhao Qinglong, whose face changed greatly, summoned the Two-Headed Flying Dragon five times in a row before it appeared.

However, when he saw that his Two-Headed Flying Dragon had become a level-one baby, he was stunned. Where is my dragon?

At the moment when Zhao Qinglong was stunned, Han Fei finally seized the opportunity and the Star Sea Blue Fire Ants swarmed up.

Boom Boom Boom ~

The series of explosions left Zhao Qinglong unkempt and disfigured. His battle suit was broken and he was bleeding.

"Who is it?"

"Hehe ~"

At that moment, a figure appeared in the darkness.

When Zhao Qinglong saw Han Fei's face, he knew that he had been deceived.

At that moment, the furious Zhao Qinglong was about to activate a divine technique. He was not worried about Han Fei's stealing power, because the black dragon would block it for him.

But what he didn't expect was that Han Fei didn't intend to use the Void Stealing Technique at all. He had already used it on Zhao Qinglong several times, and every time, he suffered a backlash. He was not stupid. He had already known that the Void Stealing Technique was useless against Zhao Qinglong.

Therefore, Han Fei grinned and said, "All laws forbidden in this space."

At that moment, Zhao Qinglong's divine technique was forcibly suppressed and he couldn't release it at all. As Han Fei had all laws in this space forbidden, Zhao Qinglong couldn't unleash 15 times the speed of light at all.

The next moment, the God Sealing Spear Array fell, and Zhao Qinglong felt that his strength had been crazily reduced to only 30%. And this was because the black dragon had helped him block part of it.

Zhao Qinglong said, "Senior Black Dragon."

However, Han Fei was not stupid. He shouted, "Zhao Qinglong, don't think I don't know that there is a mysterious power in your body. You can't resist my divine technique with your own strength. If you have the ability, unleash that power. There are countless people watching this battle. Let's see if you dare."

Zhao Qinglong didn't know what to say. The black dragon didn't feel good either. He wasn't afraid of facing the Monarchs of the East Sea Divine Realm, but he was afraid that his identity would be exposed and the Dragon Race would find out. Once the powerhouses of the Dragon Race found out that he was in Zhao Qinglong's body, he would be doomed. He probably wouldn't be able to escape no matter where he ran.

At this moment, the black dragon really didn't dare to come out.

Although he could control Zhao Qinglong's body, this spear array was probably a divine technique that suppressed the fundamental power of Zhao Qinglong's body.

Even if he controlled Zhao Qinglong's body, he could only exert about 70% of the normal state of this body.

However, if he didn't control Zhao Qinglong's body at this moment, he would be doomed. In this state, Zhao Qinglong was no match for Han Fei.

The two of them had fought for two rounds. He felt that although Han Fei was not strong enough, he was not comparable to Zhao Qinglong whose strength was only 30% left.

Therefore, the black dragon thought for a moment and controlled Zhao Qinglong's body. As long as he didn't show up, it wouldn't be considered cheating!

However, in the next moment, a phantom of the God of War holding two axes suddenly appeared behind Han Fei. The phantom of the God of War appeared and then fused with Han Fei. Instantly, Han Fei's strength soared.

Bang! Bang! Bang!

Inside the God Sealing Spear Array was Han Fei's territory. The Infinity Water was bombarding Zhao Qinglong indiscriminately, and Han Fei held two axes in his hands and slashed out the power of the God of War Axe.

In the blink of an eye, he was chopped dozens of times by Han Fei.

This wasn't the first time Han Fei fought Zhao Qinglong when he was still weak. At that time, his soul and strength hadn't exceeded 10 million, and the operating limit of his Great Dao was only 3.5 times.

In the end, the power he unleashed was only 30 million waves, which was much weaker than Zhao Qinglong in his peak state.

But now, Han Fei's strength had reached 13 million waves, and the outburst of the God of War Seal could raise Han Fei's strength to 40 million waves. And Zhao Qinglong, who was suppressed by the God Sealing Spear Array, could only exert the power of 30 million waves even if he was possessed by the black dragon. How could this gap be resolved so easily?

Therefore, before the black dragon appeared, Zhao Qinglong's skin and flesh were lacerated.

Han Fei stretched out his hand and punched. The Star Fist Technique burst out like a star exploding, and the lower half of Zhao Qinglong's body was directly blasted into ashes by Han Fei.

Han Fei laughed out loud. "You call yourself the tenth place on the God Roll? Trash."

*Chapter 2476 - 2476 Participant, Please Respect the Rules*

2476 Participant, Please Respect the Rules

In the Divine Capital Dynasty, countless people stopped what they were doing and watched the scene in the Divine Curtain in shock.

It was too violent. At that moment, Han Fei was like a real god of war. When the power of his axe fell on Zhao Qinglong, the void distorted.

After that punch, there were only dazzling divine light fist marks left on the Divine Curtain, so dazzling that countless people's eyes water.

“Shoot! What happened? Why did Han Fei suddenly come out to fight?”

!!

“He's too strong! That's a powerhouse on the God Roll! There are only ten people on the God Roll in the entire Sea Realm, but he can't resist Han Fei at all.”

Someone scoffed. “Zhao Qinglong was clearly tricked by Han Fei. That spear array must have weakened Zhao Qinglong. Otherwise, he wouldn't have been able to defeat Zhao Qinglong.”

Someone said, “What do you know? This is called strategy. Do you have to fight all your enemies head-on? If you think Han Fei is not capable enough, come on, try it.”

Someone shouted, “If Zhao Qinglong is defeated, will Han Fei replace his place on the God Roll?”

Someone shook his head. “Definitely not. Unless Han Fei can defeat Zhao Qinglong head-on, he can't replace Zhao Qinglong on the God Roll.”

In a certain courtyard.

Feng Xingliu clenched his fists and shouted, “Hit him! Hit him! Kill this ant...”

Cao Mengde, Wu Bufan, Li Chen, and the others roared in the arena.

“Brother Fei is awesome! Brother Fei is invincible... Hahaha! So what if he is on the God Roll? Our Brother Fei will definitely be on the God Roll someday.”

The Queen of Horror thought to herself, No wonder Nannan wants to make this kid owe her a favor. Interesting. If he obtains the reward of the Origin Ground, will it take long for him to prove his Dao?

The eyes of the Queen of Horror lit up. When people like Han Fei didn't lack resources and their strength steadily increased, it was almost inevitable for them to prove their Daos.

Although there were few Monarchs in the Sea Realm, it didn't mean that there had always been few Monarchs born in generations. In the Age of Gods, there were many Monarchs in the Sea Realm.

However, even in that era, how many people had such talent?

...

The Shattered Star Sea.

Han Fei finally showed his brutality. With the Demon Purification Pot, he couldn't be worse than Zhao Qinglong in terms of divine techniques. Even this black dragon couldn't be compared to him if they were in the same realm.

In terms of physique, although he hadn't condensed Dao Bones, he must be stronger than Zhao Qinglong.

However, there was one thing, that was, the black dragon's soul was extremely powerful. Under Han Fei's crazy bombardment, the black dragon suddenly launched a soul attack, trying to directly crush Han Fei's soul.

Han Fei didn't care at first. He thought, Anyway, I have the Demon Purification Pot. No matter how strong your soul attack is, how can I be shaken?

However, to his surprise, the Qualification Token in his hand suddenly glowed.

In the next moment, a majestic voice entered the black dragon's ears. "That's too much. I don't kill you because I don't bother. But if you destroy the competition with the power of a Monarch, do you really think I can't do anything to you?"

"Puff ~"

Instantly, blood spurted out of Zhao Qinglong's eyes, nose and mouth, and his strength dropped instantly. Zhao Qinglong's original consciousness immediately returned, and the black dragon disappeared without a trace.

"Great Monarch East Martial?"

Han Fei's heart did a flip. So strong! The black dragon's consciousness was shaken back by a voice, suppressed into Zhao Qinglong's body.

Also, it turned out that Great Monarch East Martial had been watching the show! The qualification token was indeed transformed from his spiritual will. Fortunately, he hadn't shown anything special so far.

Without the black dragon, Zhao Qinglong's strength had dropped to 30%. The result could be imagined. Even if he was possessed by the black dragon, he couldn't beat Han Fei, let alone that his strength was only 30% left now.

When Han Fei activated a series of Ultimate Hammers, Zhao Qinglong's guardian of the Heavenly Race suddenly took action, blocking all Han Fei's attacks.

The strong master of the Heavenly Race glanced at Han Fei indifferently. "This battle is over. Zhao Qinglong, withdraw from the finals."

"F\*ck..."

Han Fei hadn't had enough yet. He was just about to seriously injure Zhao Qinglong's soul and prevent him from recovering in the short term, when his guardian of the Heavenly Race suddenly appeared, making Han Fei's plan fail.

How could Han Fei be convinced? He grinned coldly and looked at the Heavenly Race expert. "The hands of the Heavenly Race are quite long. You really meddle in other people's business. I guarantee that if any Heavenly Race participant can jump over this place, I will personally offer my head to your Heavenly Race."

"Hmph!"

The Heavenly Race expert snorted and left with Zhao Qinglong. In fact, even if he hadn't taken action, would Han Fei have let the Heavenly Race participants pass through?

The answer was clearly no. If it weren't for the fact that the finals were guarded by guardians, Zhao Qinglong, the strong masters of the Heavenly Race, and the strong masters of the big clans, none of them would have been able to escape and would have been killed by Han Fei.

He didn't understand where Han Fei got the confidence to challenge so many major forces. Even if he was from the Wild Ancient Race, so what? Even if he was the direct disciple of the God of War, so what? Even if he had the bloodline of a divine race, so what? After pissing off so many people, who could protect him?

Zhao Qinglong was eliminated. This was something that no one had expected. Who would have thought that the first place would be eliminated because of Han Fei?

However, a game was a game. It was common for the strong to make mistakes. Just because Zhao Qinglong was a strong master on the God Roll didn't mean he could be an exception.

The moment his guardian appeared, Zhao Qinglong knew that he failed this game. Therefore, he didn't say a word until he left.

However, he looked at Han Fei as if looking at a dead person.

Han Fei didn't care at all. In a good mood, he hid himself again and waited for the next group of people to come.

More than twenty days later.

Out of Han Fei's expectation, the first to arrive turned out to be Ruo Youhe and Ruo Youran from the Ghost Strait. Han Fei was surprised that they arrived only less than a month after Zhao Qinglong did.

However, it was a pity that they came early. The top three could only belong to him, Feng Yu and Wushuang. When they arrived, he would no longer interfere.

As for Ruo Youhe and Ruo Youran, they were naturally stunned after hearing the queen ant's words.

Ruo Youran asked, "Senior, has anyone reached the finish line yet?"

"Yes."

Ruo Youran asked, "Senior, have they killed ten thousand Star Sea Metal-eating Ants?"

The queen ant simply said, "No comment."

The siblings breathed a sigh of relief.

They took it for granted that the queen ant didn't say anything. However, they guessed that the other party might not have really killed 10,000 Star Sea Metal-eating Ants. After all, it was quite difficult.

Besides, the queen ant said that the result could be judged by the number of kills, so they just needed to work hard to kill them.

Therefore, they chose to challenge.

As for the result, it was obvious. Although the two of them were powerful, 10,000 Star Sea Metal-eating Ants were too many. And they didn't have any strong masters in their bodies.

However, these two people were not weak either. Each of them had killed nearly 6,000 Star Sea Metal-eating Ants. This number made Han Fei click his tongue. It seemed that the spiritual will of those in the perfected Star Transformation Realm was extraordinarily strong!

Of course, Ruo Youhe and Ruo Youran were tricked into withdrawing from the competition by Han Fei. When they learned the truth, they were traumatized.

When their guardian told them the truth, the two children went crazy. Damn it, Han Fei tricked them into withdrawing from the competition!!!

They had already reached the finish line, and they were the earliest batch. At the very least, they would be able to get a ranking, but they were tricked by Han Fei.

Ruo Youhe's face turned green and his body trembled. "Han Fei, Han Fei... I swear that I will fight this person to the death. Ahhhh..."

Ruo Youran almost went crazy. The usually quiet girl grabbed her hair and her eyes were bloodshot. "B\*stard, b\*stard, b\*stard, you're too much! You're so shameless... I, I..."

"Sigh!"

The guardian of the Ghost Strait sighed. "Let me tell you another thing. Zhao Qinglong has also been eliminated because of him."

"Huh?"

"Uh ~"

Instantly, Ruo Youhe and Ruo Youran stopped cursing, and they felt much better. Although they were still angry, Zhao Qinglong was also scammed. It seemed that they weren't the most miserable ones.

Zhao Qinglong was a strong master on the God Roll! How humiliating was it for him to be tricked by Han Fei into withdrawing from the competition?

Feng Yu, Yi Cai, Cao Bumie, Zhou Mi, and two other people arrived almost at the same time. To be precise, these five people had come here while fighting Feng Yu.

These people were all the top ten strong masters in the fourth round of qualifiers. Of course, their strength was not weak. Furthermore, the children of the big clans had many godly weapons and means.

Yi Cai said, "Miss Feng Yu, you can't win. The first place on the Heaven Roll is only for others to see. It's first place under limited conditions. But no matter how strong you are, how can you fight five alone?"

Feng Yu was indeed restrained along the way, but it was precisely because of her powerful combat power that Yi Cai and the others had never gained any advantage.

Now, seeing that the finishing line was coming, they were no longer focused on fighting but on restraining the other party. *NovelNext.com*

But Feng Yu knew very well that two of the five people on the other side had the guardians of big clans, so they would definitely leave someone to hold her off. It didn't need to be long. At a critical moment, it would only take a few seconds to decide the winner.

Just as they were about to pass through, suddenly, a queen ant appeared in front of them.

The queen ant said, "All contestants, please wait. I will announce the rules of the final challenge..."

"Huh?"

Yi Cai and the others were dumbfounded. Was there still a final challenge?

The queen ant said emotionlessly, "Participants, please crush 10,000 ordinary Star Sea Metal-eating Ants head-on. The results of this final will be judged according to the time of your arrival and the number of Star Sea Metal-eating Ants you will kill... Once this challenge begins, the challenge will end within three days and then the results will be calculated."

Then, 60,000 Star Sea Metal-eating Ants appeared behind the queen ant and were divided into six camps.

Feng Yu frowned. Along the way, they had to fight while walking, and now they had to face so many Star Sea Metal-eating Ants? These ants were probably at the early stage of the Sky Opening realm, but 10,000 was too many, right?

Not just Feng Yu, Yi Cai and the others were also shocked. How many? One person against ten thousand?

While everyone was stunned, a voice suddenly sounded in Feng Yu's mind. "Senior Sister, it's me! It's time to show your acting skill..."

Feng Yu's eyelids twitched. I was almost tricked.

But then, Yi Cai and the others saw that Feng Yu seemed to have made a major decision and said, "I want to start the challenge right away."

Yi Cai and the others were surprised. Aren't you tired after fighting all the way here? Start the challenge right away? Are you crazy?

However, they thought that Feng Yu was just trying to catch the timing.

Zhou Mi immediately shouted, "Stop her. Don't let her start the challenge."

However, when they were about to attack, they saw tens of thousands of Star Sea Metal-eating Ants blocking them.

The queen ant said, "Participants, please respect the rules and don't ruin the assessment..."

Everyone : "..."

2477 This Is My Godly Weapon

Cao Bumie and the others didn't know that there would be such a challenge in the end. If they had known this would happen, they would have thought of a way to delay Feng Yu.

They weren't late. In fact, they felt that they were already very fast.

When they set traps for Han Fei and Feng Yu, they had thought that these people would definitely not be able to catch up, but to their surprise, their speed was not slow at all.

Furthermore, in their opinions, Zhao Qinglong should have arrived long ago, or he might be the first to arrive. And the rewards of the Origin Ground were only given to the top three. Now that Zhao Qinglong had taken one, no matter what, they couldn't give one of the remaining Origin Grounds to Feng Yu.

Unfortunately, now was the time for everyone to show their true strength. As the number one on the Heaven Roll, since Feng Yu dared to choose to fight, it meant that she had the ability to continue fighting.

At this moment, they had to fight no matter what!

Therefore, when Han Fei stopped Yi Cai and Cao Bumie, they all said, "We also choose to start the challenge."

"Okay!"

In the next moment, everyone was surrounded by ten thousand Star Sea Metal-eating Ants.

The queen ant said mechanically, "The challenge will begin in ten seconds. Participants, please be prepared."

Another moment later.

Buzz!

Feng Yu, Yi Cai, and the others took action one after another, competing in combat efficiency at full speed. When the battle started, it was difficult for ordinary people to be distracted. They didn't notice that the level of the Star Sea Gold-Eating Ants on Feng Yu's side was very low.

They were all Star Sea Metal-eating Ants that had just advanced to the Sky Opening Realm, and the Star Sea Blue Fire Ants were the weakest group Han Fei could find.

But that wasn't the point. The point was that Feng Yu' Star Sea Metal-eating Ants seemed to be attacking ferociously, but they stopped fighting when they approached Feng Yu.

Feng Yu said via voice transmission, "Little Junior Brother, why bother? Let's join forces and beat them all."

Han Fei said, "Senior Sister, no rush. After all, they all have trump cards. It will be tiring for us to beat them personally! Besides, even if we want to attack, we have to take them by surprise and defeat them at the same time. Now just let them consume their energy first."

Feng Yu thought to herself, You really know how to fool around. You can even pretend to be the host of the competition and revise the rules. Aren't you afraid that these people will be furious and take revenge on you like crazy?

One day later.

Feng Yu seemed to be having a hard time. Although she had killed more than 3,000 ants, her condition had dropped by 30%, and her killing efficiency had decreased.

This gave Yi Cai and the others a signal. Feng Yu had consumed a lot of spiritual energy fighting them alone along the way.

Yi Cai said, "Feng Yu isn't in a good state. Clearly, she consumed a lot of energy fighting us. At this time, we might be stronger than her. Kill."

After that, Yi Cai took the lead to show her trump card. A door appeared behind her, and a ray of light swept out of the door. This was a unique talent. It actually covered all the Star Sea Metal-eating Ants in the area in a ray of light, making them lose their target and fight each other. [novelnext.com](http://novelnext.com)

At this moment, Yi Cai was seriously carrying out this challenge. She thought that with Feng Yu's current state, she might not be able to finish the challenge faster than her. Although she was also very tired and her mental state wasn't good, she hadn't shown her trump card!

Less than an hour after she used her trump card, Yi Cai had killed more than two thousand Star Sea Metal-eating Ants. However, Yi Cai's trump card should have limited power. She could barely last for an hour against so many Star Sea Metal-eating Ants.

Seeing that Yi Cai's kill number soared to first place, Cao Bumie unleashed his strength and split into seven. The problem was that each body had the same combat power as the original body. This scene stunned Han Fei.

However, he soon got the answer that it was impossible. If he guessed right, these clones should have been prepared in advance in case of emergencies.

The seven Cao Bumies attacked together, and their killing speed immediately soared by several levels, crazily catching up to Feng Yu.

However, not everyone had such a trump card to quickly kill the enemy. It seemed simple to use, but in fact, to kill more than 2,000 people in an hour, even if they were in the early-stage Sky Opening realm, how strong must their trump card be?

Even the black dragon had never done this before. Therefore, Yi Cai was in the lead for now, followed closely by Cao Bumie, and Zhou Mi only killed 2,000 Star Sea Metal-eating Ants in a day.

Two days later.

Yi Cai's face was pale. Although her kill count exceeded 6,000, she was still suppressed by Yi Cai and Cao Bumie.

As for Cao Bumie's seven clones, they only lasted for four hours. At present, his killing progress was less than 200 slower than Yi Cai's.

And Yi Cai had already killed 8,000 Star Sea Metal-eating Ants.

At this moment, Han Fei's voice suddenly sounded in Feng Yu's mind. "Senior Sister, get ready to fight. I'll deal with Yi Cai and Cao Bumie. You deal with Zhou Mi. As for the other two, I'll use the Star Sea Metal Swallowing Ants to temporarily block them."

Feng Yu asked, "Why do you want to attack them now?"

Han Fei said, "We'll be exposed if we don't do anything. Senior Sister, do you think they'll believe that you, a disciple of the Phoenix Divine Race, the strongest person on the Heaven Roll, have so few kills? Look at Zhou Mi. He has almost stopped fighting. His kills are only less than 4,000 now."

"Okay!"

While Han Fei and Feng Yu were communicating, Zhou Mi was transmitting a message to one of the two itinerant cultivators recruited by the Zhou Family.

Zhou Mi said, "Listen to me carefully. Don't show any surprise. Something will definitely happen to Yi Cai and Cao Bumie in no more than four hours. Burn

your bloodline with me and unleash your strongest speed. Use all your trump cards and rush out of this area at full speed.”

Upon hearing this, the itinerant cultivator glanced at Zhou Mi and asked calmly, “What happened?”

Zhou Hai: “The challenge to kill the Star Sea Metal-Eating Ants is fake. I wasn’t sure at first, but Feng Yu’s performance was too calm, and her kill count was very stable. Her purpose here is the final reward. She can’t give the reward to Yi Cai and Cao Bumie for free... Therefore, she has the means to break the rules of this challenge. The only explanation is that this so-called challenge is fake.”

There was no telling if it was because of the Zhou Family’s talent for intelligence, but Zhou Mi vaguely noticed something at the end of the first day. Therefore, he kept it a secret until about a day and a half later, when he confirmed that there was something wrong with this challenge.

However, he didn’t inform Yi Cai and the others immediately. The rewards for the Sky Opening Realm finals were limited. If Zhao Qinglong took one, there would only be two left. He definitely couldn’t compare to Feng Yu and Yi Cai.

Now even if he exposed this scene, he wouldn’t be able to get into the top three, so why should he expose it?

At this time, Yi Cai and Cao Bumie both felt that something was wrong. With suspicion, their killing efficiency immediately dropped.

At this moment, on Cao Bumie’s side, he suddenly felt that he was in a trance. Before he had any reaction, the guardian of the Cao Family suddenly stood in front of him and punched through Han Fei’s All Great Daos in One Sword.

The moment the guardian of the Cao family appeared, Yi Cai’s heart skipped a beat. She finally realized that something was wrong. It seemed that she had been scammed.

When she saw All Great Daos in One Sword, she knew what the problem was. This was Han Fei’s trap.

Instead of running, she suddenly took a step back and entered the door of light.

In the next moment, thousands of rays of light burst out of the door.

“All laws forbidden in this space.”

The colorful light suddenly dissipated, leaving only a purple light that was still charging.

“Steal her speed.”

Bang!

Yi Cai quickly retreated and used the Soul Killing Technique on Han Fei, buying herself some time.

However, Han Fei pointed his finger. “Steal her consciousness.”

However, in the next moment, Han Fei saw Yi Cai’s body fly into the air. It turned out that Yi Cai had chosen to separate her soul from her body. She had already refined a Yang soul.

Unfortunately, so what? Han Fei chuckled. “Steal the distance.”

What Han Fei stole was not what Yi Cai had, but the distance between him and Yi Cai.

The most terrifying thing about a body cultivator was to be approached. Han Fei’s sudden appearance gave Yi Cai a fright. She was burning her essence blood and even took out a leaf, preparing to escape.

The leaf was about to be activated, but as Han Fei issued an order in his heart, time stopped here.

Unfortunately, just as the leaf shone, it was stolen by Han Fei with a thought in the moment of time freeze.

Han Fei glanced at the information.

<Name > A Small Boat

<Introduction > A leaf condensed from Speed Dao Patterns and light. This leaf can be used as a boat. It can travel at the speed of light in a short period of time, accompanied by short-term invincible defense (unbreakable for people under the Great Monarch realm ). It’s one of the best tools for escape.

<Quality > High-Quality godly weapon (One-time use godly weapon)

< Attached Soul > None

<Effect > The speed of light explosion, invincible defense

< Recastable >

< Unrefined >

<Note > If it weren’t a one-time use godly weapon, it would’ve been rated as an ultra-quality one.

When Han Fei saw the attributes of “A Small Boat”, his mouth almost cracked. Damn, this was simply an ultra-quality godly weapon!

The speed of light explosion was 18 times the speed of light. If Yi Cai really used it, where could he find her? Not only would he fail to catch her, but he might even lose the first place.

Fortunately, he reacted quickly. In the next moment, Han Fei blasted out a Star Fist Technique, and the guardian of the Heavenly Race finally appeared in front of Yi Cai.

Furthermore, the guardian of the Heavenly Race said, “Return the godly weapon.”

The moment this person appeared, Han Fei gave up on Yi Cai and chased after another person. Hearing the words of this guy, he sneered. “Are you crazy? This is my godly weapon.”

#### 2478 Transfer the Favor to Me

How could he return the things he had obtained? Han Fei guessed that this guardian was stupid. In such a situation, wouldn't he be asking for trouble if he still asked for things from him?

Sure enough, the Heavenly Race guardian's face was ashen, but there was nothing he could do.

Everything happened in a short period of time. But on the other side, Zhou Mi and the strong masters protected by the Zhou family burned their blood and fled at the same time.

Furthermore, with a jade slip, Zhou Mi unleashed 14 times the speed of light.

With this speed, it was very difficult to catch up. Even the one running with Zhou Mi had unleashed ten times the speed of light.

However, Feng Yu that had been prepared wouldn't let them go so easily.

At that moment, a phoenix appeared. For the first time, Han Fei saw the speed of a phoenix. In an instant, it illuminated the starry river and silently rumbled, sweeping a million kilometers away.

“Hiss! Light Explosion?”

Not just Han Fei, many strong masters of the big clans were shocked and rose quickly. The speed of the light explosion meant that Feng Yu had a chance to enter the top six of the God Roll.

It was said that the sixth place on the God Roll had once reached the limit speed, the speed of light explosion, in a certain battle.

Anyway, Han Fei saw the three figures flash away in front of him.

Han Fei sent a message to the queen ants, "Seal the last road."

The dozens of queen ants didn't dare to be negligent. They were the last line of defense.

On Feng Yu's side, she was dealing with the two. On Han Fei's side, there was another person who tried to escape, but he knew that he had no chance. No one told him or informed him. He was trying to avoid the Star Sea Blue Fire Ants.

However, when three Star Sea Blue Fire Ants self-destructed, good lord, Yi Cai was eliminated, and so was Cao Bumie.

He, who was exhausted from the battle, had his consciousness stolen after Han Fei glanced at him. When all the Star Sea Blue Fire Ants rushed at this person, his guardian had to appear.

Seeing that this person had been eliminated, Han Fei chased after Feng Yu and the others at ten times the speed of light.

However, Han Fei didn't chase for long. After only about thirty seconds, he found that Zhou Mi had been nailed through by a feather, and the other person had been protected by his guardian.

As soon as Han Fei stopped, the guardian of the Zhou family appeared and stood in front of Zhou Mi.

The person from the Zhou family said coldly, "Han Fei, the Phoenix Divine Race, very good. We'll remember you!"

With that, the man left with Zhou Mi. However, what Han Fei and Feng Yu didn't know was that the man had just appeared in a corner of the Sea of Stars when he heard a rough voice. "What's wrong? From your tone just now, you seem to be threatening our Phoenix Divine Race? You're just a mere big clan. Do you want to challenge our Phoenix Divine Race?"

The guardian of the Zhou Family didn't say anything, but his eyes were cold. Some people wouldn't keep being arrogant even if they were arrogant for a while. If the Phoenix Divine Race wanted to become enemies with many forces in the East Sea Divine Realm because of Han Fei, they might as well fight them and see where their confidence came from.

...

After the battle here was over, Feng Yu finally heaved a long sigh of relief and said, "Healing Technique."

This was not the time for Feng Yu and Han Fei to greet each other. Han Fei threw out the Heaven Enlightenment Divine Technique without hesitation, and Feng Yu's body relaxed at a visible speed. [novelnext.com](http://novelnext.com)

After a while, Feng Yu asked, "Have you met Zhao Qinglong?"

Han Fei said indifferently, "He has already been eliminated by me."

Feng Yu suddenly raised her head. "???"

For a moment, Feng Yu didn't know what to say. She had thought that she might not be able to get into the top three this time, but she didn't expect that Zhao Qinglong would be eliminated by Han Fei.

Feng Yu couldn't help but say, "Then... why did you stay here..."

Seeing Han Fei's smile, Feng Yu knew that her junior brother was waiting for her. He eliminated Zhao Qinglong first and then waited for her to come.

For a moment, Feng Yu was a little touched. As expected of her dear junior brother! The champion was right before his eyes, but he could still hold back and wait until now. Wasn't he afraid of accidents?

However, thinking of Han Fei's trickery, Feng Yu knew how Han Fei eliminated Zhao Qinglong. She didn't know how he dared to think of such an abnormal rule.

If it weren't for the abnormal rules of this hundred-thousand-year competition, no one would have believed this rule.

Feng Yu couldn't help but look at the surrounding Star Sea Blue Fire Ants and ask, "What's going on?"

Han Fei smiled and said, "Well, I found the queen ants, then communicated with them about life, and touched them, so they decided to follow me for the time being."

Feng Yu: "..."

In a corner in the Sea of Stars, Uncle Nine of the Phoenix Divine Race grinned and nodded quickly. "This kid is not bad! Although he can cause trouble, he's really extraordinary. He even tricked a strong master on the God Roll. If he marries Xiao Yu, wouldn't they be a perfect match? Maybe they can become two Monarchs. Tsk, tsk... I'll tell this to my Eldest Brother when I go back..."

In the Divine Capital Dynasty, Feng Qingcheng was hopping in the yard, not caring about her manners at all.

She shouted, "Sister and Brother Han Fei's top two places are secured! Two Origin Grounds!"

Feng Xingliu looked calm and even curled his lips. "Heh! Let me tell you, it's all Zhao Qinglong's fault. If it weren't for this b\*stard targeting me, I would definitely have a place in the top three! Han Fei is my brother. How can he not give me a place? Alas, what a pity! Zhao Qinglong, that b\*stard, don't even think about coming to our South Sea Divine Realm in the future. Otherwise, I will definitely skin him alive."

Feng Qingcheng said unconcernedly, "You're not strong enough. Even if you make it to the top three, it's not your real strength."

Feng Xingliu was immediately unhappy. "What are you talking about? Look, didn't Feng Yu rely on Han Fei to save a place for her? Why can't I? Alas, you girl, have you forgotten who took you out?"

...

On the other side.

Zhou Run and the others were very excited!

Wu Bufan said, "I think with Brother Fei's methods, our Avengers will definitely reach glory in the future!"

Cao Mengde nodded. "Yes, I've learned this trick! This time the Phoenix Divine Race owes Brother Fei a big favor!"

Zhou Run added, "Favor is secondary. Think about it. When Brother Fei first conquered the Dragon Fighting Street and killed Yi Qianxing, was he so strong?"

Li Chen nodded. "Yes!"

Zhou Run was speechless. "Are you blind? It only took him three seconds to defeat the three strong masters just now. Although they are already very tired, three seconds is too much. I think maybe the first Monarch of our Avengers Alliance will be him."

Cao Mengde smiled and said, "That's great! It's a good thing to have a Monarch guarding our alliance."

Zhou Run shook his head slightly. "In the short term, it's a good thing, but in the long term, it won't be the case. If Brother Fei goes too fast, and we can't

keep up with him, or we're too far behind, we will be eliminated in the end. Therefore, after leaving the Divine Capital Dynasty this time, we have to enter the peak-level late-stage Star Transformation Realm within a hundred years and strive to reach the perfected Star Transformation Realm within five hundred years."

"Puff ~"

"Five hundred years?"

Everyone looked at Zhou Run in shock. What are you talking about? It's not a problem to advance to the peak-level late-stage Star Transformation Realm in a hundred years, but to advance to the perfected Star Transformation Realm in five hundred years is a little too much!

Zhou Run said, "We've been suppressing our strength for too long. In fact, as long as the seal in our bodies is unlocked, we'll be in the peak-level late-stage Star Transformation Realm. But it isn't enough. We have resources and potential. After so many years of suppression, our cultivation speed will definitely be very fast. Besides, we need to fight, we need to take trials. Do not think that leaving the Divine Capital Dynasty is the final success. If we don't grow up and prove our Daos, how can we shake these big clans in the Divine Capital Dynasty?"

Puff! Huff~

Wu Bufan took a deep breath of his pipe and said, "Buddy! Even so, Aren't you overestimating us to expect us to reach the perfected Star Transformation Realm in five hundred years?"

Zhou Run put on a smile. "Who do you think Brother Fei will give the third place to?"

Wu Bufan and the others were stunned, but they said without thinking, "It must be Wushuang! Brother Fei is ruthless to his enemies, but he treats his own people very well. Wushuang followed him for a while, so the third place must be Wushuang."

Zhou Run nodded. "This is equivalent to giving her an Origin Ground for free. Which side owes whom a favor now?"

Cao Mengde leaned his head close. "So?"

Zhou Run added, "I heard that there is a time cultivation field in the Capital of Horror. If we have a chance to cultivate there..."

When Zhou Run said this, everyone widened their eyes in joy and surprise.

...

Three days later.

In the Capital of Horror, the Queen of Horror slammed the table several times.

When she saw Wushuang appear at the finish line, she knew that whether it was Han Fei owing Wushuang a favor or Han Fei owing her a favor, at this moment, he had already paid them back.

A complete Origin Ground was more meaningful than accepting Cao Mengde and the others. This almost meant that Han Fei had given a Monarch to the Capital of Horror. How could she not know how big a favor this was?

“Alas!”

The Queen of Horror’s face darkened. “Damn the Time Temple. They stole my identity as the guardian of Han Fei.”

The Queen of Horror was very unhappy. Han Fei owed her nothing now.

Suddenly, the Queen of Horror’s eyes shone.

On the Crossing.

“Nannan, can you transfer the favor Han Fei owes you to me?”

“F\*ck off.”

2479 Lone Star City

In the Shattered Star Sea.

When Wushuang arrived, she saw Han Fei and Feng Yu sitting cross-legged on a queen ant. This scene stunned her.

“What are you doing?”

Wushuang looked at Han Fei in confusion and said, “Waiting for you!”

“Waiting for me?”

Wushuang was stunned. She knew that she might be slow, but this was already her fastest speed. But to her surprise, Han Fei and Feng Yu arrived early, but instead of going to the finish line, they were waiting for her. What the hell?

Wushuang wondered, “Why don’t you wait for me at the finish line?”

Han Fei smiled and said, “If we do, your third place will be gone.”

“Hiss!”

Wushuang's beautiful eyes froze, and she couldn't think straight. After a few seconds, she widened her eyes and said, "Ah! Have the others not arrived yet?"

Han Fei smiled mysteriously. "The others didn't form a team with me, so of course I sent them away. Okay, enough chit chat. Let's go!" *nOVeLnext.coM*

After a long while, Wushuang finally accepted the fact that she had won without doing anything. She was a little flattered that he had given her a third place.

When she teamed up with Han Fei early on, Wushuang had thought that something would happen. In fact, something did happen.

However, she didn't expect Han Fei to wait for her before the finish line. Especially when she knew that Han Fei had stopped seven or eight people and even Zhao Qinglong had been eliminated by him, her thoughts almost froze and she couldn't come back to herself for a long time.

At this moment.

Han Fei patted the queen ant under him and said, "I know that you have swallowed a lot of other queen ants' inheritance crystals. Your strength has been growing. Be it your body or your physique, your evolution speed is astonishing. I think you're not far from proving your Dao, right?"

Over the years, Han Fei had enslaved the queen ant and knew that she was accumulating strength. Because of her oath, the queen ant had always listened to Han Fei even though a huge number of her herds had been consumed.

After a few years, this queen ant had become the absolute queen of the remaining queen ants.

And now, the three-year pact was about to come to an end. The queen ant knew that she could finally escape control. However, she couldn't help but have a strange feeling. Han Fei had killed many powerful creatures along the way, which benefited her too. Such a person would probably be very strong in the future!

The queen ant said, "It takes more than a day to prove Dao. The number of my race has plummeted by 80%. If I can prove Dao, I'll only get a chance to recuperate in the future. If I can't, I'm afraid my race can only return to where we came from and recuperate."

Han Fei said, "If my guess is correct, this path is not only my path, but also the path of all the races living in the Shattered Star Sea. If you can complete this

path, you might be able to prove Dao, rise and go to a powerful and unknown realm like us. This is your fate.”

The queen ant said, “Maybe you’re right.”

Feng Yu and Wushuang were very curious, thinking that it was unbelievable that Han Fei could conquer a race alone.

However, on second thought, the key was whether they could take them down. Once they did, the benefits would undoubtedly be huge. They wondered if they would embark on this path again in the future. If they came again, would they meet these creatures again?

Han Fei said, “Help me stop the designated people. Let’s call it a day for our cooperation! I made you lose 80% of your clan, but you’ve also got a great opportunity. It’s needless to say who’s right and who’s wrong. In the future, even if you want to take revenge on me, it’ll be fine, but now I hope you can fulfill our three-year agreement.”

The queen ant: “Okay.”

One day later.

Han Fei and the others came to the star system again. Feng Yu and Wushuang were both fascinated.

The middle-aged man, who had been waiting for the contestants, looked at Han Fei strangely again. How could he not know what Han Fei had done? But a game was a game. He would not interfere.

He just felt a little surprised. This guy had set so many people up and eliminated them effortlessly by simply fabricating a rule. If he could pass the Shattered Star Sea this time, he would definitely be a big shot one day.

The middle-aged man said, “Why? You’re not stopping the contestants anymore?”

Han Fei grinned. “That’s no longer necessary. Senior, will we be considered to have reached the destination if we go to the star?”

The middle-aged man nodded slightly. “Go on your own! If you choose to go in, you’ll have passed the finish line. When you reach the star, familiarize yourself with it and wait for the notice. You can go wherever you want and do whatever you want. As long as you don’t fight, cause trouble or wreak havoc, you can do anything. However, the Star Sea Metal-Eating Ants can only stay for a short time at most. After that, they only have two choices. One is to continue walking forward, and the other is to go back.”

The queen ant was smart. She said, “My lord, can you give my clan 300 years? During these 300 years, my clan will stay in the Sea of Stars here and we will definitely leave in 300 years.”

Han Fei couldn't help but look at the middle-aged man. He knew why the queen ant wanted these three hundred years. There was no other possibility except to prove her Dao.

Perhaps the queen ant understood that with the current size of her race, there was a high chance that they would be destroyed after entering the rear of the Scattered Stars Sea. But since she already had a chance to prove her Dao, it represented a possibility.

Once she proved Dao, she wouldn't be afraid of the other races.

However, the middle-aged man sneered. “Three hundred years? You only have thirty years. After thirty years, you must leave. Also, although the rear of the Shattered Star Sea is dangerous, it's not that dangerous. All dangers are relative, and all chances of survival are relative. Besides, it's wishful thinking if you want to prove Dao in three hundred years. You won't be able to do it without endless tempering.”

The middle-aged man sounded very firm and affirmative as if he had seen through the queen ant at a glance. However, he still let the queen ant stay here for 30 years.

If it was just thirty years, it would only be enough for this queen ant to consolidate her recent crazy improvement. It was impossible for her to prove Dao.

In the end, Han Fei glanced at the queen ant casually and said, “By the way, maybe I will embark on this path again in the future. If you can't make it all the way out, wait for me. We cooperate quite well. What do you think?”

...

Saying goodbye to the middle-aged man and the queen ant, Feng Yu said, “I don't think you treat these Star Sea Metal-eating Ants as creatures. You've been sending them to their deaths. Are you sure they won't hate you in the future?”

Wushuang nodded. “That's right! Those who are not our kind are bound to have different thoughts.”

Han Fei laughed. “Which race are we from? We are part of the myriad of races. How do you know that the Star Sea Metal-eating Ants are not part of the myriad of races too?”

After that, Han Fei looked at Feng Yu and said, “The queen ant doesn’t care about the lackeys. Along the way, more than ten million Star Sea Metal-eating Ants have died. Every time one dies, it will feed a trace of its energy back to the queen ant. This is why she needs to recuperate for three hundred years.”

Feng Yu shook her head. “Unfortunately, she doesn’t know the difficulty of proving Dao.”

Wushuang nodded. “According to the races we’ve met, their growth is tower-type. The longer they cultivate and the more energy they absorb, the more they will slowly undergo a metamorphosis. Perhaps in tens of thousands of years, the queen ant will naturally grow and have a chance of proving Dao. However, if she shortened the time to three hundred years, it seems good, but some of her insights will be lost in the process.”

Feng Yu couldn’t help but ask curiously, “Why does this look like an extremely huge Origin Star?”

Wushuang asked, “Why is there such a place in the Shattered Star Sea? Without a Monarch guarding it, this place wouldn’t have existed.”

Han Fei smiled. “You’ll find out when you get there.”

...

This was the first time Han Fei had descended directly from the Sea of Stars to an unknown star.

After Han Fei and the others arrived, they all took a breath. The gravity here was abnormal, the spiritual energy here was rich, and they could even feel the chaotic energy circulating here.

Due to the excessive nourishment of spiritual energy, the mountains and rivers here were lush with vegetation.

There were towering trees that were tens of thousands of feet tall. There were also wild monsters in the mountains, but on a closer look, they were all cultivators. Their strength was at least in the peak-level late-stage Star Transformation Realm.

In the lake and sea, there were creatures of all races. Although there weren’t many of them, their strength was at least in the peak-level late-stage Star Transformation Realm or even the perfected Star Transformation Realm.

Han Fei and the others flew all the way and saw that there were even Explorers here. They didn’t understand why there were Explorers here.

However, on a closer look, he found that these Explorers only had cultivated for less than ten years.

“Sh\*t!”

“Hiss!”

“Huh? Well~”

For a moment, the three of them were dumbfounded. What the hell was this?

Gulp!

Han Fei swallowed and said, “Can... can the members of your Phoenix Divine Race reach this level after cultivating for only more than ten years?”

Feng Yu rolled her eyes at Han Fei. “Impossible!”

Wushuang was shocked. “How is this possible? Isn’t this growth too fast?”

Han Fei said, “Although there aren’t many people here, they are all too strong. They can become Explorers in more than ten years. I would believe it if I am told they are all divine beasts.”

Feng Yu said, “That’s not right! Their growth is very abnormal. If they’re really growing so fast, why are there so few of them? Can’t they just nurture these rare geniuses? There are less than a hundred of them in total.”

Han Fei and the others had already crossed tens of millions of kilometers. In total, they had seen no more than a hundred people who could become Explorers or even Venerables in more than ten years. Therefore, apart from being shocked, they suspected that these people had extraordinary bloodlines and were all geniuses among geniuses.

However, at this moment, someone suddenly flew over from afar.

The comer was a female perfected Star Transformation Realm cultivator. She said, “I think you’ve misunderstood. They’re just ordinary creatures.”

“How is that possible?”

Han Fei and the others exclaimed in unison, thinking that this person was just here to talk.

However, the woman smiled and said, “This is an experiment. The Lone Star City is trying the method of rapid rise of all races. You think what you see are monsters, but you don’t know that their upper limit of growth is too low. At present, they can only quickly grow to the advanced Venerable realm. It’s almost impossible for them to continue to grow. They might not be able to establish the sea for the rest of their lives.”

## 2480 The Mystery of the Disappearance of the Sky Openers

The woman followed the gazes of Han Fei and the others and sighed slightly. After all, this act was like pulling up seedlings to help them grow and their potential had been released in advance. How could they still grow in such a situation?

Suddenly, Han Fei said, "This Fellow Daoist, you are?"

The woman came back to herself and said with a smile, "Oh! I'm in charge of receiving you temporarily. My name is Zhang Yue. This hundred-thousand-year competition hasn't ended yet. There are still some contestants who haven't arrived. It's estimated that there's still a year or even longer before the end. So, the higher-ups asked me to give you a simple introduction to Lone Star City."

Feng Yu asked, "Fellow Daoist Zhang, you said this is Lone Star City? Is this a city?"

Zhang Yue smiled. "That's right. No matter what this place looks like to outsiders, it's actually a city, a city on the Scattered Stars Road. It's mostly used as a relay station for supplies."

"A relay station?"

Zhang Yue said, "Perhaps you don't know this, but every year, thousands of strong masters come to Lone Star City from the Sea Realm. Their goal is naturally the path after the Shattered Star Sea."

Wushuang said in surprise, "Thousands? Are they all in the peak-level late-stage Star Transformation Realm or perfected Star Transformation Realm?"

Zhang Yue nodded slightly. "Yes! Occasionally, there will be late-stage Star Transformation Realm cultivators, but that's too few. Most of them are in the peak-level late-stage Star Transformation Realm or perfected Star Transformation Realm."

Wushuang asked, "How can there be so many strong masters in the Sea Realm? Thousands of them every year? Isn't that too much?"

Han Fei and Feng Yu also nodded. They were also surprised. How could there be so many strong masters?

Zhang Yue smiled and said, "Everyone, you should know that the Sea Realm has been peaceful for more than 100,000 years. There are still many strong masters who have existed since the Age of the Gods. The number of them

exceeds your imagination. For example, how many people in the Sky Opening Realm have participated in this hundred-thousand-year competition?”

Han Fei said, “Nearly eight hundred thousand.”

Zhang Yue nodded. “Alright, these 800,000 people all cultivated for less than 30,000 years, right? But how long can Sky Openers live?”

Feng Yu narrowed her eyes slightly and said, “Under normal circumstances, they can live a million years. Even if there is some damage to their foundation and potential due to battles, adventures, and so on when they’re young, the average lifespan of a Sky Opener is still more than 720,000 years.”

Han Fei looked at Feng Yu in shock. Just 720,000 years?

Feng Yu said, “Don’t look at me this way. At least, that’s the data we obtained in the South Sea Divine Realm. Of course, this only represents ordinary humanoids. As for some special beasts, turtles, demon plants, and so on, they can live for more than two million years. Even if they have hidden injuries or something like that, they can still live for 1.5 million years or so.”

Therefore, there were already more than 800,000 people who could participate in the 100,000-year competition. Then how many other Sky Opening Realm powerhouses were still alive?

“Gulp ~”

Han Fei couldn’t help but swallow. He couldn’t help but wonder why there were so few Sky Openers in the Chaotic Wasteland.

Or rather, it couldn’t be considered few, but there were definitely not many of them. There were only a few hundred of them. Then how could it be worthy of being a dangerous place in the East Sea Divine Realm?

At this moment, Han Fei felt that something was amiss. The Chaotic Wasteland couldn’t be so lousy. How could there be only a few hundred Sky Opening Realm powerhouses over there? Was it a joke?

It seemed that he had to re-evaluate the Chaotic Wasteland. He would ask Feng Yu to quickly investigate if there was any secret there.

At this moment, Zhang Yue said, “So, the reason why we usually see few Sky Openers is that they have long passed the age of fighting, so they don’t go out at all. Some live in the wilderness. You should know how many camps there are in the wilderness, right? There are too many to count. Basically, which camp doesn’t have a Sky Opening Realm expert? Do you really think they

want to stay there? They just gather forces, build their own base, and then gather resources and treasures through the nearby creatures...”

Zhang Yue’s words pointed out the nature of the wilderness camp.

If the Crossing was the South Monarch’s tool for making money, then the ordinary small wilderness camps were the tool for making money for the Sky Openers. In essence, they were the same.

Therefore, Zhang Yue’s words made Han Fei and the others realize how many Sky Openers there were in the Sea Realm.

Even Han Fei couldn’t help but sigh. His exploration of the Sea Realm was still too little and he knew too little.

Therefore, more than a hundred thousand years had passed since the last battle of the gods. Assuming that only ten million Sky Openers set foot in the Shattered Star Sea every ten thousand years, there had been at least a hundred million cultivators who had embarked on this path in a hundred thousand years.

Even if the Shattered Star Sea was perilous, at least ten million people had already crossed it.

Therefore, there were far more strong masters in this world than he had imagined.

Even Feng Yu was a little puzzled. “Why have so many people set foot in the Sea of Stars, but we have never heard of it?”

Zhang Yue said with a smile, “You can’t set foot in the Sea of Stars as you please. Most of the time, you have to be screened before you can come. Or rather, those who know that they don’t have long to live rarely appear in the Sea Realm. How can others know that they have set foot in the Shattered Star Sea?”

Feng Yu couldn’t help but say, “No wonder. No wonder every year there are some peak-level late-stage Star Transformation Realm or even perfected Star Transformation Realm ancestors in our clan who are said to die in battle. Now it turns out that they didn’t die in battle at all, but came here.”

Wushuang also nodded slightly. “There are often some hidden strong masters in the Capital of Horror who disappear for no reason. I always thought they were traveling outside. I didn’t expect there to be such a secret.”

Han Fei was not from the Sea Realm and didn't have much say. He knew too little about the Sea Realm at this moment, so he was naturally dumbfounded to hear such a big secret about the Sea of Stars.

However, there was one thing that Han Fei suddenly realized.

For example, in the Sky Crater World, those creatures were fighting and killing all day long, and an endless stream of soldiers was pouring in. Were they really fighting?

Very long ago, he had known that the ultimate goal of the Three Temples was the same. Then why did the Immortal Temple have to fight everyone and launch invasion wars everywhere? Was it to replenish their undead army?

Han Fei and Feng Yu looked at each other. Both of them seemed to sense something different and seemed to have some doubts about the world they were in.

And this answer should be able to be obtained in Lone Star City, right?

Feng Yu said, "Fellow Daoist Zhang Yue, I have something to ask you. How did you come to Lone Star City after being selected?"

Zhang Yue shook her head slightly. "Sorry, I can't tell you for now. You can come to the Lone Star City because you are participants, so you can return to the Sea Realm. But we came here because of the most important decision in our lives. Most people here can never go back after they come, unless one day they prove Dao and have the ability to travel back and forth freely... However, to be honest, if some people really prove Dao, they might not want to return to the Sea Realm because on the other side of the Shattered Star Sea, there must be places more attractive than the Sea Realm waiting for them."

Han Fei and Feng Yu were both alarmed. In other words, these people had signed an agreement to set foot in the Shattered Star Sea. If they didn't prove their Dao, they would never go back and might even die outside!

Han Fei suddenly realized why so many people wanted to refine their Origin Stars and set foot in the Shattered Star Sea with them, and why there were so many broken stars here.

In any case, God knew how many people had died on this path, and how many strange races in the Scattered Stars Sea had been fed by their Origin Stars.

However, Han Fei and Feng Yu both felt that they should ask about this matter later.

Without giving Han Fei and the others much time to think, Zhang Yue said, "Let me tell you about Lone Star City..."

...

While Han Fei and the others were in the Lone Star City, Zhang Yue had been following them. They could get to know ordinary information, but not some in-depth information.

Han Fei and the others only knew that the current resident population of Lone Star City was more than 30 million, and the floating population was more than a billion. Why were there so many? That was because people in the Lone Star City were not only from the Sea Realm, but also from the races in the Shattered Star Sea who had succeeded in cultivation.

But why didn't the middle-aged man let the queen ant and the others in earlier? It was because ordinary Star Sea Metal-eating Ants weren't qualified to land in the Lone Star City. If only the queen ants wanted to come in, the middle-aged man wouldn't stop them.

But in any case, this permanent and floating population really shocked Han Fei and the others. More than a billion, this number almost stunned them.

If it weren't for the fact that they had experienced too many Sky Opening realm sea creatures along the way, their hearts would probably not have been able to take it.

Therefore, relatively speaking, the people from the Sea Realm weren't the bulk.

While they were waiting for the end of the game, Han Fei and the others visited the trading market in the Lone Star City. Because most of the people here were not the residents of the city, they would explore the road behind the Shattered Star Sea. Some people were not strong enough and didn't explore deeply, so they often returned after hunting for some treasures. Some people treated this place as a safe area. When they were tired in the Shattered Star Sea, they would come back to take a rest and then explore again.

*nOvelNext.com*

Han Fei and the others had roughly learned that the road behind the Lone Star City was completely different from the road ahead. The road ahead was normal and more like a test. Han Fei thought that as long as he was careful and had some real ability, he could quietly pass through. Although it was dangerous, it wasn't to the point of death.

However, the road behind the Lone Star City was chaotic. All kinds of creatures killed people, snatched treasures, competed for resources, and hunted Star Sea Giant Beasts. It was much more complicated.

But this part of the journey was said to be good because there was a relay station in the middle of the Scattered Stars Sea. Behind the relay station was the source of the peril. But Zhang Yue didn't tell him much because she herself didn't know.

One year and two months later, Zhang Yue seemed to have received a notice and suddenly said to Han Fei and the others, "Three Fellow Daoists, the 100,000-year competition is over. Please follow me. Great Monarch East Martial wants to see you."

"Who?"
