

# **God of Fishing #Chapter 2491 - 2491 The Appearance of the Azure Dragon, the Brilliance of A Great Monarch - Read God of Fishing Chapter 2491 - 2491 The Appearance of the Azure Dragon, the Brilliance of A Great Monarch**

Swish! Swish! Swish!

For a moment, everyone looked at Han Fei. Eldest Senior Brother? A Great Monarch?

They were all speechless and slightly nervous. Did this brat really have some unknown heritage? But a Great Monarch! That was on the same level as Great Monarch East Martial!

Although there were strong and weak Great Monarchs, Great Monarchs were still Great Monarchs. That was an insurmountable gap for the Carefree Level and the Immortal Level.

The middle-aged man from the Time Temple also frowned. Do you think you can summon a Great Monarch so easily? There are only a handful of Great Monarchs in the Sea Realm. And those who aren't in the Sea Realm are probably in the depth of the Sea of Stars. Are you bluffing?

However, behind Han Fei, he was suddenly covered by a white mist. After the white mist dissipated, a huge bronze door thousands of meters high appeared.

When he saw the bronze door, the middle-aged man from the Time Temple was stunned and looked extremely surprised.

He secretly clenched his fists and had a bad guess.

At that moment, the battle between Elder Guo and the black dragon suddenly stopped and they looked over.

Yi Jian and the Queen of Horror also stopped fighting and looked at this place from a distance.

Creak~ Rumble~

The bronze door slowly opened, and the door was enveloped in a white mist that emitted a dazzling light. In the mist, a figure stood quietly.

Without moving, the figure's aura rose to the sky. He slowly raised his foot. Just as half his foot appeared, the black clouds shattered and the void closed. As the foot stepped out, a clear aura swept across millions of kilometers of sky, shaking out all filth.

“Hiss ~”

At that moment, someone wanted to retreat. Yes, the Monarchs of the big clans didn't want to see who this person was because they knew that they definitely couldn't beat him.

Someone thought to himself, It's over. This guy has a Great Monarch behind him.

Someone was shocked. The man was already so intimidating before he showed up. If he showed up, would he be silenced after seeing his face?

Some people were shocked. Was this the power of a Great Monarch? It had been tens of thousands of years since the last time a Great Monarch attacked. And most people had never seen it.

They didn't know how powerful a Great Monarch was, but at this moment, they felt fear from the depth of their hearts.

“Gulp ~”

Even Han Fei himself swallowed at this moment. The Eldest Senior Brother had come out in person, which was simply awe-inspiring.

However, just as those people were about to retreat, they suddenly discovered that the Great Dao here was uncontrollable, the void here couldn't be crossed, and even time here was sealed.

A crisp and majestic voice sounded. “My little junior brother said that he wanted to see the power of a Great Monarch. Before seeing it, how can you leave?”

Buzz!

Upon hearing this, everyone felt their scalps tingle, and waves were rising in their hearts. It's over. It's over this time. They didn't expect that they would die here just because they wanted to scheme against a junior.

In the next moment, a figure strode out. He was wearing a green robe and had a tall and straight figure. His forehead was clear, and his eyebrows were ink-black. His eyes carried an inherent dignity. His lips were slightly dark and carried an intimidating aura. His high nose bridge, thin cheeks, and proud expression fascinated Han Fei.

However, at first glance, Han Fei saw that this was definitely not Eldest Senior Brother, but Fourth Senior Brother, which was Senior Brother Azure Dragon.

In the entire Void Temple, there was only one person who matched this temperament. Senior Sister Shen Le was a senior sister, and Senior Brother Undead definitely didn't look like this. Senior Brother Old Desolate was obviously slovenly, and the people ranked sixth or seventh were all senior sisters. Old Jiu was from the insect race, and Old Ten Lei Heng was the domineering type.

To have such a dignified temperament, Han Fei would've twisted his head off if this wasn't Fourth Senior Brother.

At that moment, Han Fei was dumbfounded. He thought that in the Void Temple, only his Eldest Senior Brother and Senior Sister Shen Le were Great Monarchs, because the others were very respectful to them.

But now, Han Fei found that he made a big mistake. It turned out that Senior Brother Azure Dragon was also a Great Monarch.

Han Fei was so excited that he didn't know what to say. Holy sh\*t, there were only four Great Monarchs in the entire Sea Realm, respectively suppressing the four seas. This was already strong enough, right?

However, our Void Temple alone had four Great Monarchs. To put it bluntly, how could the petty-minded Time Temple be compared to this combat power?

Han Fei hurriedly bowed. "Nice to meet you, Fourth Senior Brother. You're much more handsome than I thought."

Han Fei was not lying. Senior Brother Azure Dragon was indeed very handsome. He was not a young man in his early twenties or middle-aged, but about thirty years old.

At first glance, other than dignity, there was also arrogance and high-spiritedness, which completely matched the description of a young talent. *noVELnext.COM*

Fourth Senior Brother glanced at Han Fei with a smile on his face. It seemed that he was happy to see his dear little Junior Brother.

Senior Brother Azure Dragon said, "It's just a trivial matter. Eldest Senior Brother doesn't need to show up. If it weren't for the fact that you want to see the power of a Great Monarch, Old Ten might have been more suitable to be here."

"Huh?"

Han Fei was a little stunned. I already have an Immortal Level enemy here. Let Senior Brother Lei Heng come? Um... are my senior brothers from the Void Temple so strong?

On the side of the Time Temple, the middle-aged man said solemnly, word by word, "Void, Temple?"

Senior Brother Azure Dragon glanced at the middle-aged man, not as kindly at all as when he looked at Han Fei. He snorted. "The Time Temple is indeed petty-minded. Since you're here to help, then send a decent strong master over. Who do you think you are? How dare you order my little junior brother?"

As he spoke, Senior Brother Azure Dragon clasped his hand at the middle-aged man from the Time Temple. Energy surged between the heavens and earth, and Han Fei felt that the energy in the sky gathered and formed a claw.

This claw was extremely huge. To be honest, it was even bigger than an ordinary star. The claw mark seemed slow but was actually fast. The middle-aged man from the Time Temple was shocked. Behind him, a large time wave appeared and slapped at the star hand.

However, this wasn't enough. The middle-aged man closed his hands and a time chain shot out from the Time River, trying to buckle the star claw.

However, as soon as the claw gently waved, the time wave dissipated. The time chain could only withstand it for less than a second before it shattered.

“Puff ~”

The middle-aged man couldn't resist the claw at all and his body was crushed.

At that moment, Han Fei was dumbfounded. The people from the big clans were dumbfounded, and the two strong masters of the Heavenly Race were terrified.

When the words “Void Temple” appeared in their minds, it was like a bolt from the blue.

How long had it been since the Void Temple appeared? When was the last time it appeared?

Yes, it was Lei Heng. 100,000 years ago, Lei Heng appeared and suppressed the Sea Realm. That was the last time a strong master from the Void Temple appeared.

Later, it was said that Lei Heng had barged into the depths of the Sea of Stars, and the Eternal Thunder Prison had never appeared since then.

Now, a new disciple of the Void Temple had appeared? No wonder, no wonder Han Fei was lawless. His strength was only in the late-stage Star Transformation Realm, but he had defeated Zhao Qinglong, a powerhouse on the God Roll.

It turned out that Han Fei was a disciple of the Void Temple. If they had known this earlier, how would the big clans dare to be enemies with Han Fei?

On the Heavenly Race's side, the two powerhouses were horrified. The Immortal Level powerhouses of the Time Temple couldn't even withstand a single claw?

The middle-aged man dared to protect Han Fei here, which showed that he was strong enough to take Han Fei away facing so many Monarchs.

However, even such a strong master couldn't even withstand a single claw from this Fourth Senior Brother... Then what about the Eldest Senior Brother?

“Good lord ~”

The Queen of Horror’s pupils were constricted at this moment. She attacked because the South Monarch couldn’t. She felt that there must be a reason why the South Monarch thought so highly of Han Fei. Perhaps it was because the God of War would return.

Yes, she only thought of the God of War, but she never expected Han Fei to be the little junior brother of the Void Temple. She had wanted to absorb Han Fei into the Capital of Horror. How could he be interested?

The Queen of Horror couldn’t help but feel regretful. She wanted to be Han Fei’s guardian, but she was intercepted by the Time Temple.

If she had known that Han Fei had such a background, she would have done everything to make Han Fei owe her two more favors!

But now, Han Fei had returned the favor in the blink of an eye. What he owed now was South Monarch.

For a moment, everyone panicked. Han Fei’s eyes were filled with the power of Senior Brother Azure Dragon’s claw. It was so terrifying and invincible that he even felt vulnerable.

Senior Brother Azure Dragon said indifferently, “Alright, stop pretending. I hit you because you coerce my little junior brother. It’s because your Time God Temple doesn’t know your place. I attacked you to teach you a lesson. Next time you do something, don’t be so stingy. Why do you expect repayment for such a trivial matter...”

In the end, this middle-aged man from the Time Temple was reborn in time, but at this moment, his face was pale and he didn’t refute Senior Brother Azure Dragon’s words.

More importantly, he didn’t dare...

On the other hand, the middle-aged man was rendered speechless by Senior Brother Azure Dragon’s attack.

Over there, a black light suddenly erupted with unparalleled terrifying power. It broke free from the shackles of time and space, pierced through the endless void, and attempted to enter the void.

However, Senior Brother Azure Dragon sneered and pointed his finger. “Heaven and Earth Closing.”

Just as the black light was about to rush into the endless void, the power of this world turned into an invisible barrier, locking down the endless void.

In the next moment, the entrance to the endless void was closed.

Han Fei knew that the black dragon had no chance of survival now that Senior Brother Azure Dragon was here. As for this black dragon, Senior Brother Azure Dragon had already mentioned him several times. Every time there was a meeting, Senior Brother Azure Dragon would mention him.

Now that the black dragon was right in front of him, it would be a joke if Senior Brother Azure Dragon still let him escape.

Shocked, the black dragon transformed into a dragon and roared, “Ao Qing, I didn’t expect you, the current Dragon Monarch, to be willing to be a disciple of the Void Temple. You’re simply a disgrace to the dragon race!”

Han Fei suddenly looked at Senior Brother Azure Dragon, and so did the others.

“The Dragon Monarch?”

Han Fei sighed. It sounded awesome. The Dragon Monarch sounded like the Human Emperor. Han Fei had reason to suspect that Senior Brother Azure Dragon was the leader of the dragon race.

At this moment, Han Fei was even more certain of his choice. Sure enough, the Void Temple is the most awesome. Any random senior brother of mine is the Dragon Monarch.

Now Han Fei despised the Time Temple even more. He had thought that if the Time Temple could really help, he could serve as a deacon in the Time Temple.

It just so happened that he had something to do in the future and had to go back in time. This was one of the reasons why he came into contact with the Time Temple. But who knew that the Time Temple was so petty-minded!

Senior Brother Azure Dragon said indifferently, “Hei Xuan, you have the seven sins. You were afraid of battle, fled at the last minute, conspired to snatch the treasures of the dragon race, colluded with outsiders, harmed your own kind, caused the ominous to temper your body, and slaughtered innocent people... In the name of the Dragon Monarch, I sentence you to return to the Dragon Transformation Pool.”

Roar!

As soon as he said this, the black dragon seemed to be prepared to risk its life. His aura seemed to be able to contend with Senior Brother Azure Dragon.

This made Han Fei realize that this black dragon might only be at the Immortal Level. He was heavily injured but could break free from Senior Brother Azure Dragon just now, which meant that his current strength might only be at the Immortal Level.

What if this black dragon was in his peak state? Wouldn't he also be a Great Monarch-level powerhouse?

As the black dragon roared, the power seal of this space was almost broken. This guy seemed to have gone crazy and spat a mouthful of black dragon flames at the Azure Dragon.

Because Han Fei was still behind the Azure Dragon, the Azure Dragon couldn't retreat. Senior Brother Azure Dragon reached out and grabbed a shining silver spear.

It was hard to say what level of treasure this spear was. But at that moment, this spear instantly drained the power of the heavens and earth, and several energy chains gathered on the tip of the spear.

At that moment, the world had lost its color. It was as if the most dazzling point in the world was the tip of the long spear in Senior Brother Azure Dragon's hand.

Han Fei could tell that Senior Brother Azure Dragon did it on purpose. He slowed down so that Han Fei could see clearly.

When he saw the spear, Han Fei seemed to see that reality and the endless void had been somewhat connected. Energy gathered at the tip of the spear in the endless void.

“No, not energy.”

Han Fei frowned. No matter how fast the energy was extracted, it was still too slow on the ever-changing battlefield.

If those weird chains were not energy, what could they be?

“It's law, the law of the world.”

Senior Brother Azure Dragon's words suddenly appeared in Han Fei's mind.

Han Fei was suddenly enlightened. Yes, it was law. This was because Han Fei didn't feel the crazy convergence of Dao runes, but a law was an external manifestation of the Great Dao between the heavens and earth.

Therefore, Senior Brother Azure Dragon was using the laws of the heavens and earth as a weapon to attack the black dragon.

Under this spear light, the black dragon flames were purified from head to tail. It wasn't until three black dragon scales appeared that Senior Brother Azure Dragon's spear was blocked.

At this moment, Senior Brother Azure Dragon continued to say to Han Fei, “Little Junior Brother, in the Monarch realm, the combat techniques are varied, but most of them are the

understanding and control of the laws of the world. You can think of them as a world in itself. I am the world, and I dominate the universe...”

Senior Brother Azure Dragon chatted with Han Fei and fought the black dragon. As the two of them fought, the void shattered. Although he was holding a spear, he seemed to be holding a world in his hand.

The black dragon was not weak either. Although his flesh and blood were flying and his scales were shattered every time he was hit, he could still block the attack of a Great Monarch, which showed how powerful and terrifying he was.

As for the other onlookers, apart from Yi Jian and the Queen of Horror who were at the Carefree Level, and even two Monarchs of the big clans who were only at the Dao Proving Level, their bodies were trembling as they watched. Some people didn't understand it at all, and some did, but they became even more horrified.

The news today was too shocking.

Han Fei was a disciple of the Void Temple.

The Dragon Race's Great Monarch had appeared.

The battle between two Great Monarchs broke out.

...

However, just after a hundred rounds, the black dragon's body was covered with wounds. Not only was his dragon soul cut into several pieces, but his scales were almost all shattered.

In the end, the black dragon opened its mouth and spat out a bead. Han Fei thought it was his inner core, but Senior Brother Azure Dragon suddenly trembled and nine dragon souls rushed up to the bead.

The bead seemed to contain terrifying power and almost knocked off two dragon souls as soon as it appeared.

However, when all the nine dragons rushed at the bead, the space was torn into pieces in the blink of an eye.

The black dragon was horrified. Looking at the nine dragons playing with the bead, he shouted, “Impossible, that's the Dragon God Pearl, the Dragon God Pearl!”

Senior Brother Azure Dragon snorted coldly. “Fool. Do you think you can create a new world and become a god by placing all your hopes on the old? You don't know anything at all.”

“Pfft!”

This time, Senior Brother Azure Dragon attacked again. This time, this claw was different from the previous one. This claw seemed to be determined to win. Although Han Fei didn't understand this claw, he knew that Senior Brother Azure Dragon had won.

It was absolute confidence, a victory with no doubt.

Sure enough, the soul of the black dragon seemed to be pierced through at once, and the arrogant black dragon instantly vanished.

When Senior Brother Azure Dragon retracted his claw, a dragon soul was caught back and absorbed into a green teapot.

The black dragon was sealed, but he shouldn't be dead.

At this moment, the nine dragon souls returned and all entered Senior Brother Azure Dragon's body. The treasure that was said to be the Dragon God Pearl flew straight towards Senior Brother Azure Dragon and then landed in front of him.

At this moment, anyone could understand one thing, that was, this bead should be a treasure of the former god of the dragon race.

In other words, it was a treasure of a god, a treasure above the Monarch level.

Han Fei finally understood why Senior Brother Azure Dragon kept mentioning the black dragon and why the black dragon hid in Zhao Qinglong's body. All of this was probably because of this Dragon God Pearl.

However, judging from the black dragon's reaction just now, he seemed to be very surprised that Senior Brother Azure Dragon could suppress the Dragon God Pearl.

Han Fei wondered why he was so surprised. Could it be that Senior Brother Azure Dragon couldn't suppress this Dragon God Pearl before? Could it be that the Senior Brother Azure Dragon had become stronger now?

Han Fei didn't bother to guess. Anyway, Senior Brother Azure Dragon was a Great Monarch-level powerhouse. In an era in which all gods had died, the Great Monarchs were the strongest. Whether it was the Sea Realm or the Sea of Stars, they were absolutely the strongest.

The black dragon was sealed, the Dragon God Pearl was withdrawn, and Zhao Qinglong's body was riddled with holes because he couldn't bear the power of the black dragon.

At this moment, Zhao Qinglong was already destroyed.

Senior Brother Azure Dragon only took a look at Zhao Qinglong and shook his head slightly. "His potential has been overdrawn. He must have been tempted by the black dragon. He might

have had a chance to become a Great Monarch, but now it's already impossible for him to advance again.”

Zhao Qinglong seemed to know that he had no way out. He was completely desperate except for his fury, so he glared at Han Fei and roared, “Han Fei, do you dare to take my final blow?”

Han Fei said casually, “Why not? Like I said, you can't win again after you lost to me once.”

Senior Brother Azure Dragon was quite interested and didn't seem to be in a hurry at all.

Han Fei thought to himself, only Senior Brother Azure Dragon can deal with a Monarch, but wouldn't it be a slap in my face if I ask Senior Brother to deal with Zhao Qinglong?

Therefore, Han Fei strode a thousand kilometers away and said casually, “Come on.”

Zhao Qinglong seemed to have been preparing for a strike for a long time. His flesh and blood exploded all over his body. Then, half of his soul was annihilated, and his essence, spirit, will, and even a trace of his luck were all shattered and condensed in one slash.

Seeing this scene, Senior Brother Azure Dragon couldn't help but frown. In fact, this blow was very unfair. Zhao Qinglong tried to make the last slash with the determination to die in an attempt to break Han Fei's path of invincibility.

He had sacrificed everything for this attack. Therefore, this attack exceeded all his previous means of attack. This attack contained the power of a Monarch. This attack proved his glorious life.

Han Fei also took out a saber, but this saber was different from the saber he had used before.

This was a kitchen knife, a high-quality godly weapon. It was no match for Zhao Qinglong's ultra-quality godly weapon-level double knives.

However, Han Fei's strength was increased by six times, his Dharma Idol burst out, and he held the God Slaying Boxing Gloves in his hand. In his mind, he recalled the power of Senior Brother Azure Dragon's spear just now. The laws of heaven and earth were condensed into one spear.

He had the same idea when he created All Great Daos in One Sword, but he had been stuck at the basic state of All Great Daos in One Sword and had never strengthened and deduced it.

Now, in the same way, Han Fei pulled out a knife.

With this slash, many Great Daos instantly condensed on the body of the saber.

That was not all. Although Han Fei couldn't sense the laws of heaven and earth now, he could condense the Dao runes of heaven and earth at will.

As he visualized Senior Brother Azure Dragon's spear move just now, his absolute confidence and determination to win were intertwined.

Dao patterns of the heavens and earth instantly covered Han Fei's kitchen knife, and an indomitable knife suddenly appeared.

"Huh!"

Senior Brother Azure Dragon couldn't help but grin. Little Junior Brother is so smart.

Han Fei, who had been trying his best, unleashed this unparalleled blow. Two saber beams collided in the air. Everyone thought there would be a fierce fight, but to their surprise, Han Fei's saber suppressed Zhao Qinglong's knife and pressed forward inch by inch.

Han Fei roared, "I am invincible! Even if you prove your Dao, you are still no match for me!"

Crack!

The kitchen knife in Han Fei's hand was blown up, and at the same time, Zhao Qinglong's all-out blow was shattered too.

A Heavenly Talent on the God Roll died.*noVELnext.COM*

Although the high-quality divine kitchen knife in Han Fei's hand was broken, his body was full of cracks, and blood was flowing out. But he had won in this blow.

Perhaps it had something to do with Senior Brother Azure Dragon's demonstration just now. Han Fei didn't know if others could see it clearly, but he could. The momentum of his spear was the strongest Han Fei had ever seen in his life.

The moment he saw the spear, Han Fei knew that he had won. It was unreasonably powerful.

At this moment, Han Fei was a little weak and exhausted after taking the blow that was comparable to a Monarch's strike. His meridians were swollen and painful, and his flesh and blood were even showing signs of collapse.

Han Fei hurriedly stuffed a mass of healing divine light into himself, then picked up Zhao Qinglong's two black-gold long knives, and then grabbed at the void with his hand. A large amount of divine light bloomed, recombining Zhao Qinglong's exploded body.

Even though Zhao Qinglong had died, his Origin Star was still there. It would be a huge waste if it was gone.

Han Fei finished all these unhurriedly. Elder Guo, who had planned to come over to help, sighed. He had reminded the middle-aged man that Han Fei was not a pushover, but the people of the Time Temple were still too proud and felt that it was Han Fei's honor to join the Time Temple.

Now, the worst thing happened. Han Fei had joined the Void Temple.

The people from the three temples knew very well.

The Void Temple had the fewest people, but they were also the strongest. To be able to join the Void Temple, one's potential was definitely not a problem. It could even be said that the disciples of the Void Temple far exceeded the disciples of the other temples.

And Han Fei had already proved his potential and revealed his Great Dao of Time. Logically speaking, if he pretended not to know anything and successfully saved Han Fei this time, although Han Fei would resist going straight to the headquarters of the Time Temple, he might not mind joining the Time Temple and becoming a member of the Time Temple.

In fact, the Time Temple was not averse to this matter. As long as you had the ability, even if you joined the Three Temples at the same time, so what?

But the problem was that Han Fei hadn't come into contact with the real strong masters of the Time Temple yet. Compared to the Azure Dragon, it was obvious that he underestimated the Time Temple. It would be difficult to persuade Han Fei to join the Time Temple now.

At this moment, the Azure Dragon stood straight with his spear erected in front of him.

The Azure Dragon's gaze swept across everyone and finally landed on Yi Jian and Yi Wulang. He said indifferently, "In the past, many powers wanted to kill the disciples of the Void Temple before they grew up. In the past, when the Void Temple was fighting in the Sea of Stars, there was indeed someone who succeeded. This is why it's a tradition of the Void Temple to protect our new disciples. You hit my little junior brother? Fine, then beat me first... You're from the Heavenly Race, right? In the past, when the three gods of your clan were still alive, they were not even comparable to my master alone. Now, you're thinking too much."

Han Fei couldn't help but look at the Azure Dragon in surprise. Were disciples of the Void Temple once assassinated?

The Azure Dragon glanced at Han Fei, and then Senior Brother Azure Dragon's voice appeared in Han Fei's mind. "In the past, before the Age of Doom, before the gods perished, the strong masters of the Void Temple crossed the Sea of Stars and were in deep space. However, at this moment, someone attacked the people left in the Void Temple, causing almost all the younger generation of the Void Temple to die..."

Han Fei couldn't help being moved. He knew how difficult it was for the Void Temple to recruit disciples. Suddenly, he remembered the Void Fishing Technique, which was deduced by nine super powerhouses together.

It could be seen how terrifyingly strong the disciples of the Void Temple were. However, such a group of people had been secretly assassinated?

One had to know that at that time, the Void Temple was fighting. No matter who they were fighting, no matter if it was the ominous or what, it was also for the sake of the myriad races. In the end, someone burned the bridge even before crossing the river. Who could hold back?

Han Fei couldn't help but feel angry, but Senior Brother Azure Dragon comforted him. "Don't worry. How can our Void Temple be so easy to bully? Later, Eldest Senior Brother returned and swept through ten divine races alone. He killed 187 Monarchs and 30,000 emperors. He killed so many that the Sea Realm trembled and the Time Temple and the Immortal Temple didn't dare to appear."

Gulp!

Han Fei was dumbfounded. How many Monarchs were slaughtered? Before the Age of Doom? Wasn't that at least hundreds of thousands of years ago?

Han Fei couldn't help but be shocked. The Eldest Senior Brother was so strong! He couldn't help but imagine the scene back then. Perhaps the entire sky above the Sea Realm was covered in blood.

The more Han Fei thought of it, the more excited he felt. F\*ck, the Void Temple is indeed the best. As for the Time Temple, hehe, trash.

However, Senior Brother Azure Dragon said solemnly, "But Junior Brother, we can't help you move forward. We all have our own paths and hurdles. I'm telling you this to tell you that our Void Temple is very protective of our disciples. Whoever dares to bully the weak will have to consider if they have enough clansmen for us to kill."

Han Fei nodded solemnly. He understood what Senior Brother Azure Dragon meant. He revealed this matter to warn these people that he was a disciple of the Void Temple. If they didn't know it before, they had known it now. If they dared to bully him, they would have to consider if they were qualified.

At this moment, Yi Jian and Yi Wulang felt a chill down their spines. Their bodies were already drenched. The look of the Azure Dragon seemed to bloom with divine power, which was imprinted in their hearts.

A Great Monarch was so strong that they couldn't even breathe.

The other people from the big clans felt their mouths go dry. They really wanted to escape this damn place immediately. It was too terrifying. Being stared at by a Great Monarch made them feel that their lives were about to be lost.

The Monarch of the Zhou Family hurriedly said, "Master Dragon Monarch, we know we were wrong. However, we didn't intend to kill Little Friend Han Fei in the first place. We just wanted to ask Han Fei some questions. We promise that we won't be enemies with Little Friend Han Fei in the future."

“Yes, yes, in the future, Little Friend Han Fei will be a distinguished guest of our big clans.”

“That’s right. Master Dragon Monarch, please don’t be angry.”

These people from the big clans were very tactful, mainly because they were shameless. Since they were young, they had seen many scenes. If they still braced themselves to get involved in such a matter, they would be asking for trouble.

The people from the Ghost Strait also hurriedly responded, “Master Dragon Monarch, our Ghost Strait’s disciple and Han Fei only had some little conflicts. I’m actually just passing by.”

The people from the big clans were speechless. Pass by? How can you pass by like this?

*noVELnext.COM*

Although Yi Jian was angry, he still lowered his head. “Master Dragon Monarch, the grudges between our Heavenly Race and Han Fei are written off from today onwards. What happened today will never happen again.”

“Hmph!”

A cold snort sent a chill down everyone’s spine. Senior Brother Azure Dragon said, “Do you really think the disciples of our Void Temple are afraid of a few clans and the Heavenly Race? Do you think I’m here to beg you to let him off? Since you’re already his enemy, you are. You can just treat him as your enemies. However, this doesn’t mean that you can violate the rules and deal with my little junior brother unfairly. My little junior brother hasn’t even passed the Star Transformation Realm yet, but he is ambushed by so many Immortal Level and Carefree Level Monarchs today. This is a violation of the rules. Therefore, you must take your punishment.”

With that, Senior Brother Azure Dragon suddenly disappeared. In the next moment, the power of heaven and earth formed a huge tail. The few strong masters of the big clans were all smashed by this tail and didn’t dare to dodge.

This was because they could tell from this blow that the Azure Dragon didn’t want to kill them. Since he didn’t kill them but only punished them for breaking the rules, they’d better just take it. Resistance was meaningless. Wouldn’t it stupid to try to resist a Great Monarch??

The six Monarchs of the big clans, and the one of the Ghost Strait, were all whipped to pieces by the tail, and they were also seriously injured. They probably couldn’t recover without a thousand years.

However, for Monarchs, a thousand years was nothing. Cultivating in seclusion for a thousand years was just a small punishment.

As for the Heavenly Race, Yi Jian and Yi Wulang didn’t dare to block it. In fact, they couldn’t.

Just like others, Yi Wulang could recover in a thousand years. But Yi Jian's body and soul had been pierced by a spear. His soul seemed to have been seriously injured and wouldn't recover for at least ten thousand years.

The Azure Dragon said, "Do you know why I attacked you so heavily? It's because you have a strong desire to kill. How dare you have the intention to kill my Little Junior Brother in front of my face? Don't you know what kind of person you are? Even if you become a Great Monarch, I can teach you how to restrain yourself."

The people from the big clans didn't dare to say anything, but they despised Yi Jian in their hearts. Stupid, what's the big deal of reaching the Immortal Level? How dare he still have killing intent in such a situation? What was wrong with his brain?

Yi Jian, who had reshaped his body, blushed, but he didn't dare to refute, nor did he dare to show any killing intent anymore. He was afraid that he would die if he did.

No one dared to say anything. Senior Brother Azure Dragon looked at the Queen of Horror casually, nodded slightly, and said indifferently, "It's not a solution to keep the shackles locked. This road doesn't work."

Buzz!

The Queen of Horror was refreshed and bowed respectfully to Senior Brother Azure Dragon. "Thank you for your advice, Dragon Monarch."

The Queen of Horror sighed inwardly. She knew that this favor was returned by the Dragon Monarch in the blink of an eye. However, the information that he gave her was much more meaningful than helping Han Fei.

Therefore, she felt that she owed Han Fei a favor again.

Senior Brother Azure Dragon turned to look at Han Fei and smiled. "Little Junior Brother, let's go."

"Huh? W-Where are we going?"

Senior Brother Azure Dragon: "The Heavenly Race."

After Han Fei and Senior Brother Azure Dragon left.

The big clans, Yi Jian, and Yi Wulang all heaved a sigh of relief. They couldn't let go of the horror in their hearts for a long time.

Yi Jian and Yi Wulang looked at each other with awful expressions.

This was because Senior Brother Azure Dragon had said that he was going to the Heavenly Race.

They wondered why they were still going to the Heavenly Race since they had vented their anger and beaten them up.

Buzz ~ Buzz ~

The two of them didn't dare to stay any longer and disappeared without a trace in the blink of an eye. Of course, they had to hurry back to their clan now! This was because it wasn't the Dragon Monarch who took Han Fei away just now, but he left at an ultra-light speed.

After Yi Jian and Yi Wulang left, the Monarchs of these big clans immediately looked bitter. This time, they made a big mistake. Han Fei's background was beyond their imagination.

Although Senior Brother Azure Dragon had just said that as long as they didn't violate the rules, he wouldn't interfere with any normal battle. However, the people of the big clans never offended strong masters. They wouldn't do it if there was the slightest threat.

They were not the Heavenly Race, the Fist Light Mountain, or the Ghost Strait. Becoming enemies of the Void Temple? Were they crazy? How could ordinary people do that?

The Ghost Strait didn't have deep hatred towards Han Fei in the first place. It was just because one of their disciples was killed by Han Fei outside the Ruins of God. Although they felt uncomfortable, now that Han Fei's real identity and background had been revealed, how could they still mind such a trivial matter?

The person from the Ghost Strait cupped his hands at them and left without looking back.

As for the remaining people from the big clans, the strong master from the Luo family suddenly said, "They seemed to go to the Heavenly Race. Shall we... go take a look?"

The others looked at this guy as if he were crazy. The one from the Li family was speechless. "Are you crazy? You have to watch this kind of thing? Isn't it good to just wait for the news? If we go there, we might be beaten up again... If you want to go, go. I won't go."

"That's right, Old Luo! The shortcoming of your family is that you're not smart enough. Our Zhou family has an heirloom honeydew that can nourish the brain. Shall I send some to you later?"

"Get lost!"

They survived and were in a good mood. They teased each other for a while, and the strong master of the Zhou family cupped his hands at the two people from the Time Temple and said, "Nice to meet you. We'll take our leave now."

They didn't want to have anything to do with the Time Temple. After all, they might have been enemies a moment ago, and now they hadn't reconciled yet.

It wasn't until they walked far away that the powerhouse from the Wu family said, "Han Fei is right. The Time Temple is indeed not powerful enough. Look at how powerful the Dragon Monarch is! As for the Time Temple, they don't seem to have anything special except that they have many means."

The strong master of the Zhou Family said, "Sure! The Void Temple is famous for their combat power. Have you forgotten the battle back then? The divine races and the super forces were like paper in front of them. The strong masters of the Central Sea Divine Realm were scattered and didn't dare to go home for ten thousand years. Even now, there are still people hiding in the Sea of Stars. What big things have the Time Temple done? All they know is to collect some strange things. If it weren't for their strange methods, they wouldn't have been able to become one of the three Holy Temples."

... *noVELnext.COM*

When there were only Elder Guo and the Immortal-level powerhouse from the Time Temple left on this battlefield, they didn't look too good.

Elder Guo said unhurriedly, "As I said, he's amenable to persuasion but not coercion. I offered him a position as a deacon of the Time Temple, and he had agreed to it. But what you did was really improper! Alas..."

The middle-aged man frowned. "Are you blaming me?"

Elder Guo said unhurriedly, "I'm not blaming you. I just remembered something that Han Fei once said. He said that there has never been a strong master who walked the path of invincibility in the Time Temple, right? Now that I think about it, I'm just a little sentimental."

...

Above the sea, Han Fei's extreme speed was 14 times the speed of light.

Han Fei said, "Senior Brother Azure Dragon, when I become a Dao Bone, I should be able to reach 18 times the speed of light. Then I also obtained a great technique called the Void Wings. Once I reach 18 times the speed of light, I should be able to continue to speed up."

Senior Brother Azure Dragon couldn't help but sigh. "Little Junior Brother, you're really improving fast. Last time, I wanted to ask you about your speed. Who would have expected that you would break through the barrier of ten times the speed of light in the blink of an eye? You're right. The speed of light explosion is a threshold. Very few people can reach this threshold in the Sky Opening Realm, but it doesn't mean that there are few in other places. However, once you exceed the speed of light explosion, you don't have to deliberately pursue speed in itself. You might consider the next definition of speed."

“Next definition of speed?”

Han Fei’s heart skipped a beat. Since Senior Brother Azure Dragon said so, it must be a speed beyond his imagination.

Han Fei couldn’t help but ask, “Senior Brother Azure Dragon, what do you mean? Are you talking about the speed of the Monarch realm?”

The Azure Dragon smiled and said, “Yes and no. But you have to refine the Dao Bone first. Speed exists based on space and time, so what is the essence of speed? You can take this as a reference...”

Han Fei’s heart did a flip. Senior Brother Azure Dragon was right. He knew about wormholes and space folding, but he didn’t know how to realize these conjectures.

Now that Senior Brother Azure Dragon had made it clear that the next realm of speed was related to space and time, he had to pay attention to it.

Han Fei thought for a moment and suddenly heard Senior Brother Azure Dragon say solemnly, “Little Junior Brother, I heard that you have practiced the human race’s Supreme Divine Technique?”

Han Fei nodded. This was not a secret. He had already asked the Eldest Senior Brother about it.

Senior Brother Azure Dragon frowned and said, “That road is an unexplored road and is quite difficult to walk. You have to be mentally prepared.”

Han Fei nodded. “I know. Thank you for your reminder, Senior Brother Azure Dragon.”

Senior Brother Azure Dragon nodded. “If your soul really can’t keep up with the growth of your body, you can come to me. Remember, it’s when your soul really can’t keep up with the growth of your body.”

Han Fei’s heart skipped a beat. It seemed that everyone knew the disadvantage of the human race’s Supreme Divine Technique! According to Senior Brother Azure Dragon’s image as a good senior brother, he definitely wouldn’t be stingy with resources. He didn’t tell him now because there might be some disadvantages to the method he used to help him. Therefore, he wouldn’t use it if he could.

Han Fei nodded seriously and kept this matter in mind.

Seeing this, Senior Brother Azure Dragon slightly restrained his serious image and said, “Little Junior Brother, I’ll show you the power of the next speed level.”

Han Fei was about to respond when he felt that his arm was grabbed. In an instant, a white channel appeared in front of his eyes.

Han Fei was shocked. Wasn't this white channel the one he saw when he reached the edge of the speed of light?

After Han Fei stepped into this passage, he immediately felt a terrifying force crushing his body. It seemed that if he wanted to take this path, he needed a strong resistance.

Senior Brother Azure Dragon, on the other hand, accelerated while observing Han Fei's endurance. He didn't slow down until Han Fei was covered in cracks and blood.

Senior Brother Azure Dragon said, "Little Junior Brother, when you reach the speed of light explosion, you will find that this is the path behind the speed of light explosion. On this path, you have to bear the compression of speed by the void. Your current carrying capacity is 42 times the speed of light, which is related to your strong physique. However, once you enter this stage, it means that you have a speed comparable to that of a Monarch. Of course, I'm talking about the weakest Monarch."

Senior Brother Azure Dragon took Han Fei to experience it, but Han Fei was suddenly refreshed and looked shocked.

Senior Brother Blue Dragon was puzzled. "Little Junior Brother, what's wrong?"

"Gulp ~"

Han Fei suddenly swallowed and said, "Senior Brother Azure Dragon, you said this is a path that can only be taken at the speed of light explosion?"

Senior Brother Azure Dragon nodded. "That's right! Only when you reach the speed of light explosion can you enter this white hole space. In fact, it's a channel formed by the void's suppression on speed."

Han Fei couldn't help but ask, "Senior Brother, can you see it when you're at the edge of the speed of light?"

Senior Brother Azure Dragon said matter-of-factly, "Of course not... Wait, do you mean you can see it when you're at the edge of the speed of light?"

Han Fei nodded awkwardly.

This time, it was finally Senior Brother Azure Dragon's turn to be shocked. He didn't quite understand this either. Logically speaking, it was impossible to see the scene behind the speed of light explosion at the edge of the speed of light, unless Han Fei's innate Dao seed included the way to explore the Great Dao of Speed.

Senior Brother Azure Dragon couldn't help but stop and take Han Fei out of the white hole space. He said solemnly, "Little Junior Brother, you have an innate Dao Seed, right?"

Han Fei thought for a moment. “I don’t know if it’s innate or not, but I did have a Dao Seed a long time ago. At that time, I was still very, very weak.”

Senior Brother Azure Dragon asked, “Is it about speed?”

Han Fei was stunned for a moment. “I don’t know! Senior Brother Azure Dragon, I have a headache too. I still don’t know what my original Great Dao is.”

“Huh?”

Senior Brother Azure Dragon was puzzled. “How can you not know what your original Great Dao is? Don’t you have a Dao Seed?”

Han Fei smiled bitterly. I don’t know it even if I have a Dao Seed! Well... how should I describe it? Can I just say that my original Great Dao is a bridge, a road, and a door?

But in any case, this couldn’t be the Great Dao of Speed. It was absolutely impossible. Han Fei was 100% sure.

Han Fei said ambiguously, “It’s just that I can’t be sure what my Great Dao is exactly. But my Great Dao can make something out of nothing, such as forbidding all laws in a space and doing everything I want to do in a small range.”

Senior Brother Azure Dragon: “???”

Senior Brother Azure Dragon was stunned. Is there such an abnormal Great Dao?

Senior Brother Azure Dragon pondered for a moment and said, “No rush. Tell me if you have entered this white hole by yourself, and then we’ll talk about your Great Dao...”

Han Fei nodded and said, “Yes, and maybe the force I endured at that time was more than 42 times the speed of light you mentioned. I suspected that it might have reached a thousand times the speed of light.”

“How many times?”

Senior Brother Azure Dragon was dumbfounded.

However, after hearing what Han Fei said, he understood.

Han Fei was talking about the time when he walked into the white hole outside Tomorrow Camp to avoid the pursuit of the Heavenly Race. He ran for more than ten seconds and then passed through the white hole by time twisting and returned to Tomorrow Camp.

In terms of distance, the distance crossed in that instant was indeed a thousand times the speed of light.

However, Senior Brother Azure Dragon shook his head slightly. “Little Junior Brother, at that time, you didn’t have the ability to cross the white hole. To be precise, you accidentally touched the advanced usage of time. At that moment, the Great Dao of Time enveloped you. After entering the white hole, the power of time helped you passively offset the pressure from speed. Therefore, at that moment, only a moment might have passed outside, but in fact, what you experienced might be an extended time...”

Hearing what Senior Brother Azure Dragon said, Han Fei wasn’t quite sure and could only nod.

As expected of the knowledgeable Senior Brother Azure Dragon, he immediately explained Han Fei’s doubts.

He said, “Little Junior Brother, bearing capacity represents the limit of your speed, which means that even if you have a way to keep accelerating and can reach 42 times the speed of light at the highest speed, your real speed can’t reach it. To understand more of the mysteries of speed, you have to reach the speed of light explosion first. This can definitely be achieved when you reach the perfected Star Transformation Realm. That’s all I can tell you now.”

“Thank you, Senior Brother.”

Han Fei knew that Senior Brother Azure Dragon didn’t want to use his own understanding to give him too much advice. This was a tradition of the Void Temple.

In the Void Temple, good things could be given to each other, but it was very rare for them to give each other some pointers on the path of cultivation. Unless it was the only path that could be taken.

Or, it was some insights from Eldest Senior Brother’s lectures.

However, he had never heard his Eldest Senior Brother’s lectures clearly. It was probably the same for Feng Yu. Therefore, it wasn’t really guidance but more for him to comprehend on his own.

However, he had already gained a lot today.

Having seen Senior Brother Azure Dragon fight, Han Fei felt that he had benefited a lot.

...

After that, Senior Brother Azure Dragon didn’t let Han Fei walk by himself again. Otherwise, even if Han Fei maintained 14 times the speed of light, it would take him a long time to reach the Heavenly Race.

As for Senior Brother Azure Dragon, he only took Han Fei across a psychedelic space. It felt like ten seconds, or even less. Anyway, when Han Fei opened his eyes, he appeared in front of a

double gate built above the clouds, which was dozens of kilometers long and nearly a hundred kilometers high.

At the top of this huge door, there were four big golden words engraved, which contained a shocking suppressing pressure. At a glance, Han Fei felt an invisible pressure fall on him.

Senior Brother Azure Dragon said, “These are words written by the former god of the Heavenly Race. Although that god is not the strongest, he is indeed extremely powerful. However, very few people can directly sense this suppressing pressure from these four words. If an ordinary person feels a trace of difference or charm, they will be qualified to be absorbed into the Gate of Heaven. But people like you will be directly recognized as Heavenly Talents.”

Sure enough, as soon as Senior Brother Azure Dragon said so, five Sky Openers flew out of the door with swishes.

Among the five of them, the one with the highest realm might only be in the same realm as Han Fei.

These five people arrived first, and then some other people ran out of the gate.

The five of them looked at Han Fei and Senior Brother Azure Dragon up and down, and then everyone’s eyes fell on Han Fei. This was because Senior Brother Azure Dragon didn’t look like he was here to join the Gate of Heaven. Only Han Fei’s image and temperament were a little immature.

One of them said, “Who triggered the suppressing pressure of the god?”

Senior Brother Azure Dragon didn’t speak, and Han Fei smiled. “It’s me, so what?”

The strongest of the five looked at Han Fei for a while and nodded slightly. “Although your realm is a little high, since you can trigger the suppressing pressure of the god, it shouldn’t be a problem for you to join the Gate of Heaven. However, you still have to wait for a while. When the elders come out, they will assess you.”

These people actually regarded Han Fei as an itinerant cultivator who had come to join the Gate of Heaven, so they weren’t hostile at first.

However, the person who spoke looked at Senior Brother Azure Dragon up and down and said, “As for the other irrelevant people, you can go back!”

Han Fei: “...”

Lost for words, Han Fei said, “Hey! Who told you that I’m here to join you?”

The man frowned. “If you’re not here to join the Gate of Heaven, why are you here? Are you provoking us?”

Han Fei's heart stirred. It seemed that the Gate of Heaven didn't know yet. He couldn't help but say with a wicked smile, "I'm told that the Gate of Heaven is full of Heavenly Talents and strong masters. My name is Han Fei. I'm your enemy. I'm here today to crush you... Hehe. So, if there are any strong masters, just call them out! I'll take them all."

"What? Han Fei?"

"A\*shole, are you Han Fei?"

"Brat, you're courting death. How dare you come to us? I think you must be tired of living."

"How dare you be ill-behaved in front of the Gate of Heaven?"

These people scolded loudly, but they didn't come up to fight Han Fei, because they knew that Han Fei was very strong. Therefore, when Han Fei said his name, someone sent a message to the strong masters of the sect.

However, Han Fei didn't care. He was already here. How could he not go in?

Han Fei strode forward and was about to break into the Gate of Heaven. Senior Brother Azure Dragon, on the other hand, slowly followed behind with his hands behind his back, watching this scene quietly.

In fact, he was also curious. Little Junior Brother had only been in the Void Temple for less than 500 years, but he had become much stronger. In terms of combat power, he was already qualified to be listed on the God Roll of the Sea Realm. It took him nearly 3,000 years to get first place in the dragon race. In comparison, Little Junior Brother's growth was unbelievably fast!

Seeing that Han Fei was about to break into the Gate of Heaven, these people all shouted, "How dare you! Stop!" [noVelnext.com](http://noVelnext.com)

"B\*stard, if you dare to take one step into our sect, you will never be able to step out."

However, Han Fei simply ignored them. Those strong masters looked at each other. How could they just watch Han Fei break in? Immediately, the group of people swarmed up.

Bang! Bang! Bang!

The extremely fast fist light exceeded their understanding. These people only saw a flash in front of their eyes, and in the next moment, their bodies exploded. They were no match for Han Fei at all.

By the time their bodies recombined, Han Fei was already half a step into the Gate of Heaven.

However, when Han Fei tried to enter, a terrifying divine might descended. Someone who had reunited his body in advance shouted, “Han Fei, don’t even think about breaking in. This is the race of a god. The god’s eyes are watching here. How can you just enter as you please?”

However, at this moment, Senior Brother Azure Dragon snorted and raised his hand. As he pushed his palm up, the words “Gate of Heaven” instantly dimmed.

Crack!

For a moment, the two kinds of power were fighting, but the god had died for a long time. How could the remaining suppressing pressure shake Senior Brother Azure Dragon?

Senior Brother Azure Dragon’s momentum suddenly soared to the extreme, and cracking sounds resounded.

When he looked again, the four words “Gate of Heaven” were all cracked, and the two words “Heaven” became “Big Mouth”. The majestic “Gate of Heaven” became “Gate of Big Mouth”.

This door was already destroyed.

The people who were scolding just now were all lying on the ground, trembling.

They only had one thought in their hearts. Who was this person? He had actually broken through the will of a god.

Boom! Boom!

When Han Fei stepped into the Gate of Heaven, he happened to meet a large number of late-stage, peak-level late-stage, and perfected Star Transformation Realm powerhouses.

However, since Senior Brother Azure Dragon had taken action, how could the Heavenly Race only send these people?

Immediately, seven Monarchs appeared. Among them, there were Yi Jian and Yi Wulang who had escaped earlier.

The person in the lead might be the current patriarch of the Heavenly Race. He gave Han Fei the feeling that he was extremely powerful, the kind of person who could kill him with a finger.

The middle-aged man cupped his hands. “The current patriarch of the Heavenly Race, Yi Changsheng, greets Great Monarch Ao Qing.”

“Hiss ~”

“What?!”

“Great Monarch?”

At that moment, countless people who rushed up to kill Han Fei and Senior Brother Azure Dragon were dumbfounded. F\*ck, a Great Monarch-level powerhouse? Who the f\*ck can beat him?!

For a moment, everyone stopped and didn't dare to attack.

Han Fei saw Yi Cai, Yi Chen, Yi Xianling, Yi Tianlong, Yi Jiajia, Yi Shuilu, and other old acquaintances in the crowd.

Han Fei even sensed the existence of Nezha in a corner.

At this moment, Yi Cai and the others all looked at them in shock. They probably didn't expect that there was a Great Monarch behind him.

Senior Brother Azure Dragon wasn't here to wipe out the Heavenly Race, but to tell them to behave themselves.

Besides, although Han Fei was strong now, it was impossible for him to beat the Gate of Heaven alone. Perhaps Han Fei could fight ten, eight, or even a hundred enemies, but there were countless strong masters in the entire Gate of Heaven. How many people could Han Fei defeat with his fists?

At this moment, Senior Brother Azure Dragon raised his head proudly. “The Heavenly Race have repeatedly broken the rules. It's fine if you bullied the weak in the Sky Opening Realm, but now you actually used Monarchs to attack my little junior brother. Yi Changsheng, right? Do you think your Heavenly Race is invincible in the world? How dare you trample on the rules like this?”

## 2492 Death of A Heavenly Talent

On the other hand, the middle-aged man was rendered speechless by Senior Brother Azure Dragon's attack.

Over there, a black light suddenly erupted with unparalleled terrifying power. It broke free from the shackles of time and space, pierced through the endless void, and attempted to enter the void.

However, Senior Brother Azure Dragon sneered and pointed his finger. “Heaven and Earth Closing.”

Just as the black light was about to rush into the endless void, the power of this world turned into an invisible barrier, locking down the endless void.

In the next moment, the entrance to the endless void was closed.

Han Fei knew that the black dragon had no chance of survival now that Senior Brother Azure Dragon was here. As for this black dragon, Senior Brother Azure Dragon had already mentioned him several times. Every time there was a meeting, Senior Brother Azure Dragon would mention him.

Now that the black dragon was right in front of him, it would be a joke if Senior Brother Azure Dragon still let him escape.

Shocked, the black dragon transformed into a dragon and roared, "Ao Qing, I didn't expect you, the current Dragon Monarch, to be willing to be a disciple of the Void Temple. You're simply a disgrace to the dragon race!"

Han Fei suddenly looked at Senior Brother Azure Dragon, and so did the others.

"The Dragon Monarch?"

Han Fei sighed. It sounded awesome. The Dragon Monarch sounded like the Human Emperor. Han Fei had reason to suspect that Senior Brother Azure Dragon was the leader of the dragon race.

At this moment, Han Fei was even more certain of his choice. Sure enough, the Void Temple is the most awesome. Any random senior brother of mine is the Dragon Monarch.

Now Han Fei despised the Time Temple even more. He had thought that if the Time Temple could really help, he could serve as a deacon in the Time Temple.

It just so happened that he had something to do in the future and had to go back in time. This was one of the reasons why he came into contact with the Time Temple. But who knew that the Time Temple was so petty-minded!

Senior Brother Azure Dragon said indifferently, "Hei Xuan, you have the seven sins. You were afraid of battle, fled at the last minute, conspired to snatch the treasures of the dragon race, colluded with outsiders, harmed your own kind, caused the ominous to temper your body, and slaughtered innocent people... In the name of the Dragon Monarch, I sentence you to return to the Dragon Transformation Pool."

Roar!

As soon as he said this, the black dragon seemed to be prepared to risk its life. His aura seemed to be able to contend with Senior Brother Azure Dragon.

This made Han Fei realize that this black dragon might only be at the Immortal Level. He was heavily injured but could break free from Senior Brother Azure Dragon just now, which meant that his current strength might only be at the Immortal Level.

What if this black dragon was in his peak state? Wouldn't he also be a Great Monarch-level powerhouse?

As the black dragon roared, the power seal of this space was almost broken. This guy seemed to have gone crazy and spat a mouthful of black dragon flames at the Azure Dragon.

Because Han Fei was still behind the Azure Dragon, the Azure Dragon couldn't retreat. Senior Brother Azure Dragon reached out and grabbed a shining silver spear.

It was hard to say what level of treasure this spear was. But at that moment, this spear instantly drained the power of the heavens and earth, and several energy chains gathered on the tip of the spear.

At that moment, the world had lost its color. It was as if the most dazzling point in the world was the tip of the long spear in Senior Brother Azure Dragon's hand.

Han Fei could tell that Senior Brother Azure Dragon did it on purpose. He slowed down so that Han Fei could see clearly.

When he saw the spear, Han Fei seemed to see that reality and the endless void had been somewhat connected. Energy gathered at the tip of the spear in the endless void.

"No, not energy."

Han Fei frowned. No matter how fast the energy was extracted, it was still too slow on the ever-changing battlefield.

If those weird chains were not energy, what could they be?

"It's law, the law of the world."

Senior Brother Azure Dragon's words suddenly appeared in Han Fei's mind.

Han Fei was suddenly enlightened. Yes, it was law. This was because Han Fei didn't feel the crazy convergence of Dao runes, but a law was an external manifestation of the Great Dao between the heavens and earth.

Therefore, Senior Brother Azure Dragon was using the laws of the heavens and earth as a weapon to attack the black dragon.

Under this spear light, the black dragon flames were purified from head to tail. It wasn't until three black dragon scales appeared that Senior Brother Azure Dragon's spear was blocked.

At this moment, Senior Brother Azure Dragon continued to say to Han Fei, "Little Junior Brother, in the Monarch realm, the combat techniques are varied, but most of them are the understanding and control of the laws of the world. You can think of them as a world in itself. I am the world, and I dominate the universe..."

Senior Brother Azure Dragon chatted with Han Fei and fought the black dragon. As the two of them fought, the void shattered. Although he was holding a spear, he seemed to be holding a world in his hand.

The black dragon was not weak either. Although his flesh and blood were flying and his scales were shattered every time he was hit, he could still block the attack of a Great Monarch, which showed how powerful and terrifying he was.

As for the other onlookers, apart from Yi Jian and the Queen of Horror who were at the Carefree Level, and even two Monarchs of the big clans who were only at the Dao Proving Level, their bodies were trembling as they watched. Some people didn't understand it at all, and some did, but they became even more horrified.

The news today was too shocking.

Han Fei was a disciple of the Void Temple.

The Dragon Race's Great Monarch had appeared.

The battle between two Great Monarchs broke out.

...

However, just after a hundred rounds, the black dragon's body was covered with wounds. Not only was his dragon soul cut into several pieces, but his scales were almost all shattered.

In the end, the black dragon opened its mouth and spat out a bead. Han Fei thought it was his inner core, but Senior Brother Azure Dragon suddenly trembled and nine dragon souls rushed up to the bead.

The bead seemed to contain terrifying power and almost knocked off two dragon souls as soon as it appeared.

However, when all the nine dragons rushed at the bead, the space was torn into pieces in the blink of an eye.

The black dragon was horrified. Looking at the nine dragons playing with the bead, he shouted, "Impossible, that's the Dragon God Pearl, the Dragon God Pearl!"

Senior Brother Azure Dragon snorted coldly. "Fool. Do you think you can create a new world and become a god by placing all your hopes on the old? You don't know anything at all."

"Pfft!"

This time, Senior Brother Azure Dragon attacked again. This time, this claw was different from the previous one. This claw seemed to be determined to win. Although Han Fei didn't understand this claw, he knew that Senior Brother Azure Dragon had won.

It was absolute confidence, a victory with no doubt.

Sure enough, the soul of the black dragon seemed to be pierced through at once, and the arrogant black dragon instantly vanished.

When Senior Brother Azure Dragon retracted his claw, a dragon soul was caught back and absorbed into a green teapot.

The black dragon was sealed, but he shouldn't be dead.

At this moment, the nine dragon souls returned and all entered Senior Brother Azure Dragon's body. The treasure that was said to be the Dragon God Pearl flew straight towards Senior Brother Azure Dragon and then landed in front of him.

At this moment, anyone could understand one thing, that was, this bead should be a treasure of the former god of the dragon race.

In other words, it was a treasure of a god, a treasure above the Monarch level.

Han Fei finally understood why Senior Brother Azure Dragon kept mentioning the black dragon and why the black dragon hid in Zhao Qinglong's body. All of this was probably because of this Dragon God Pearl.

However, judging from the black dragon's reaction just now, he seemed to be very surprised that Senior Brother Azure Dragon could suppress the Dragon God Pearl.

Han Fei wondered why he was so surprised. Could it be that Senior Brother Azure Dragon couldn't suppress this Dragon God Pearl before? Could it be that the Senior Brother Azure Dragon had become stronger now?

Han Fei didn't bother to guess. Anyway, Senior Brother Azure Dragon was a Great Monarch-level powerhouse. In an era in which all gods had died, the Great Monarchs were the strongest. Whether it was the Sea Realm or the Sea of Stars, they were absolutely the strongest.

The black dragon was sealed, the Dragon God Pearl was withdrawn, and Zhao Qinglong's body was riddled with holes because he couldn't bear the power of the black dragon.

At this moment, Zhao Qinglong was already destroyed.

Senior Brother Azure Dragon only took a look at Zhao Qinglong and shook his head slightly. "His potential has been overdrawn. He must have been tempted by the black dragon. He might have had a chance to become a Great Monarch, but now it's already impossible for him to advance again."

Zhao Qinglong seemed to know that he had no way out. He was completely desperate except for his fury, so he glared at Han Fei and roared, "Han Fei, do you dare to take my final blow?"

Han Fei said casually, "Why not? Like I said, you can't win again after you lost to me once."

Senior Brother Azure Dragon was quite interested and didn't seem to be in a hurry at all.

Han Fei thought to himself, only Senior Brother Azure Dragon can deal with a Monarch, but wouldn't it be a slap in my face if I ask Senior Brother to deal with Zhao Qinglong?

Therefore, Han Fei strode a thousand kilometers away and said casually, "Come on."

Zhao Qinglong seemed to have been preparing for a strike for a long time. His flesh and blood exploded all over his body. Then, half of his soul was annihilated, and his essence, spirit, will, and even a trace of his luck were all shattered and condensed in one slash.

Seeing this scene, Senior Brother Azure Dragon couldn't help but frown. In fact, this blow was very unfair. Zhao Qinglong tried to make the last slash with the determination to die in an attempt to break Han Fei's path of invincibility.

He had sacrificed everything for this attack. Therefore, this attack exceeded all his previous means of attack. This attack contained the power of a Monarch. This attack proved his glorious life.

Han Fei also took out a saber, but this saber was different from the saber he had used before.

This was a kitchen knife, a high-quality godly weapon. It was no match for Zhao Qinglong's ultra-quality godly weapon-level double knives.

However, Han Fei's strength was increased by six times, his Dharma Idol burst out, and he held the God Slaying Boxing Gloves in his hand. In his mind, he recalled the power of Senior Brother Azure Dragon's spear just now. The laws of heaven and earth were condensed into one spear.

He had the same idea when he created All Great Daos in One Sword, but he had been stuck at the basic state of All Great Daos in One Sword and had never strengthened and deduced it.

Now, in the same way, Han Fei pulled out a knife.

With this slash, many Great Daos instantly condensed on the body of the saber.

That was not all. Although Han Fei couldn't sense the laws of heaven and earth now, he could condense the Dao runes of heaven and earth at will.

As he visualized Senior Brother Azure Dragon's spear move just now, his absolute confidence and determination to win were intertwined.

Dao patterns of the heavens and earth instantly covered Han Fei's kitchen knife, and an indomitable knife suddenly appeared.

"Huh!"

Senior Brother Azure Dragon couldn't help but grin. Little Junior Brother is so smart.

Han Fei, who had been trying his best, unleashed this unparalleled blow. Two saber beams collided in the air. Everyone thought there would be a fierce fight, but to their surprise, Han Fei's saber suppressed Zhao Qinglong's knife and pressed forward inch by inch.

Han Fei roared, "I am invincible! Even if you prove your Dao, you are still no match for me!"

Crack!

The kitchen knife in Han Fei's hand was blown up, and at the same time, Zhao Qinglong's all-out blow was shattered too.

A Heavenly Talent on the God Roll died.

2493 Rage of the Azure Dragon

Although the high-quality divine kitchen knife in Han Fei's hand was broken, his body was full of cracks, and blood was flowing out. But he had won in this blow.

Perhaps it had something to do with Senior Brother Azure Dragon's demonstration just now. Han Fei didn't know if others could see it clearly, but he could. The momentum of his spear was the strongest Han Fei had ever seen in his life.

The moment he saw the spear, Han Fei knew that he had won. It was unreasonably powerful.

At this moment, Han Fei was a little weak and exhausted after taking the blow that was comparable to a Monarch's strike. His meridians were swollen and painful, and his flesh and blood were even showing signs of collapse.

Han Fei hurriedly stuffed a mass of healing divine light into himself, then picked up Zhao Qinglong's two black-gold long knives, and then grabbed at the void with his hand. A large amount of divine light bloomed, recombining Zhao Qinglong's exploded body.

Even though Zhao Qinglong had died, his Origin Star was still there. It would be a huge waste if it was gone.

Han Fei finished all these unhurriedly. Elder Guo, who had planned to come over to help, sighed. He had reminded the middle-aged man that Han Fei was not a pushover, but the people of the Time Temple were still too proud and felt that it was Han Fei's honor to join the Time Temple.

Now, the worst thing happened. Han Fei had joined the Void Temple.

The people from the three temples knew very well.

The Void Temple had the fewest people, but they were also the strongest. To be able to join the Void Temple, one's potential was definitely not a problem. It could even be said that the disciples of the Void Temple far exceeded the disciples of the other temples.

And Han Fei had already proved his potential and revealed his Great Dao of Time. Logically speaking, if he pretended not to know anything and successfully saved Han Fei this time, although Han Fei would resist going straight to the headquarters of the Time Temple, he might not mind joining the Time Temple and becoming a member of the Time Temple.

In fact, the Time Temple was not averse to this matter. As long as you had the ability, even if you joined the Three Temples at the same time, so what?

But the problem was that Han Fei hadn't come into contact with the real strong masters of the Time Temple yet. Compared to the Azure Dragon, it was obvious that he underestimated the Time Temple. It would be difficult to persuade Han Fei to join the Time Temple now.

At this moment, the Azure Dragon stood straight with his spear erected in front of him.

The Azure Dragon's gaze swept across everyone and finally landed on Yi Jian and Yi Wulang. He said indifferently, "In the past, many powers wanted to kill the disciples of the Void Temple before they grew up. In the past, when the Void Temple was fighting in the Sea of Stars, there was indeed someone who succeeded. This is why it's a tradition of the Void Temple to protect our new disciples. You hit my little junior brother? Fine, then beat me first... You're from the Heavenly Race, right? In the past, when the three gods of your clan were still alive, they were not even comparable to my master alone. Now, you're thinking too much."

Han Fei couldn't help but look at the Azure Dragon in surprise. Were disciples of the Void Temple once assassinated?

The Azure Dragon glanced at Han Fei, and then Senior Brother Azure Dragon's voice appeared in Han Fei's mind. "In the past, before the Age of Doom, before the gods perished, the strong masters of the Void Temple crossed the Sea of Stars and were in deep space. However, at this moment, someone attacked the people left in the Void Temple, causing almost all the younger generation of the Void Temple to die..."

Han Fei couldn't help being moved. He knew how difficult it was for the Void Temple to recruit disciples. Suddenly, he remembered the Void Fishing Technique, which was deduced by nine super powerhouses together.

It could be seen how terrifyingly strong the disciples of the Void Temple were. However, such a group of people had been secretly assassinated?

One had to know that at that time, the Void Temple was fighting. No matter who they were fighting, no matter if it was the ominous or what, it was also for the sake of the myriad races. In the end, someone burned the bridge even before crossing the river. Who could hold back?

Han Fei couldn't help but feel angry, but Senior Brother Azure Dragon comforted him. "Don't worry. How can our Void Temple be so easy to bully? Later, Eldest Senior Brother returned and swept through ten divine races alone. He killed 187 Monarchs and 30,000 emperors. He killed so many that

the Sea Realm trembled and the Time Temple and the Immortal Temple didn't dare to appear."

Gulp!

Han Fei was dumbfounded. How many Monarchs were slaughtered? Before the Age of Doom? Wasn't that at least hundreds of thousands of years ago?

Han Fei couldn't help but be shocked. The Eldest Senior Brother was so strong! He couldn't help but imagine the scene back then. Perhaps the entire sky above the Sea Realm was covered in blood.

The more Han Fei thought of it, the more excited he felt. F\*ck, the Void Temple is indeed the best. As for the Time Temple, hehe, trash.

However, Senior Brother Azure Dragon said solemnly, "But Junior Brother, we can't help you move forward. We all have our own paths and hurdles. I'm telling you this to tell you that our Void Temple is very protective of our disciples. Whoever dares to bully the weak will have to consider if they have enough clansmen for us to kill."

Han Fei nodded solemnly. He understood what Senior Brother Azure Dragon meant. He revealed this matter to warn these people that he was a disciple of the Void Temple. If they didn't know it before, they had known it now. If they dared to bully him, they would have to consider if they were qualified.

At this moment, Yi Jian and Yi Wulang felt a chill down their spines. Their bodies were already drenched. The look of the Azure Dragon seemed to bloom with divine power, which was imprinted in their hearts.

A Great Monarch was so strong that they couldn't even breathe.

The other people from the big clans felt their mouths go dry. They really wanted to escape this damn place immediately. It was too terrifying. Being stared at by a Great Monarch made them feel that their lives were about to be lost.

The Monarch of the Zhou Family hurriedly said, "Master Dragon Monarch, we know we were wrong. However, we didn't intend to kill Little Friend Han Fei in the first place. We just wanted to ask Han Fei some questions. We promise that we won't be enemies with Little Friend Han Fei in the future."

"Yes, yes, in the future, Little Friend Han Fei will be a distinguished guest of our big clans."

"That's right. Master Dragon Monarch, please don't be angry."

These people from the big clans were very tactful, mainly because they were shameless. Since they were young, they had seen many scenes. If they still braced themselves to get involved in such a matter, they would be asking for trouble.

The people from the Ghost Strait also hurriedly responded, "Master Dragon Monarch, our Ghost Strait's disciple and Han Fei only had some little conflicts. I'm actually just passing by."

The people from the big clans were speechless. Pass by? How can you pass by like this? *noVELnext.COM*

Although Yi Jian was angry, he still lowered his head. "Master Dragon Monarch, the grudges between our Heavenly Race and Han Fei are written off from today onwards. What happened today will never happen again."

"Hmph!"

A cold snort sent a chill down everyone's spine. Senior Brother Azure Dragon said, "Do you really think the disciples of our Void Temple are afraid of a few clans and the Heavenly Race? Do you think I'm here to beg you to let him off? Since you're already his enemy, you are. You can just treat him as your enemies. However, this doesn't mean that you can violate the rules and deal with my little junior brother unfairly. My little junior brother hasn't even passed the Star Transformation Realm yet, but he is ambushed by so many Immortal Level and Carefree Level Monarchs today. This is a violation of the rules. Therefore, you must take your punishment."

With that, Senior Brother Azure Dragon suddenly disappeared. In the next moment, the power of heaven and earth formed a huge tail. The few strong masters of the big clans were all smashed by this tail and didn't dare to dodge.

This was because they could tell from this blow that the Azure Dragon didn't want to kill them. Since he didn't kill them but only punished them for breaking the rules, they'd better just take it. Resistance was meaningless. Wouldn't it stupid to try to resist a Great Monarch??

The six Monarchs of the big clans, and the one of the Ghost Strait, were all whipped to pieces by the tail, and they were also seriously injured. They probably couldn't recover without a thousand years.

However, for Monarchs, a thousand years was nothing. Cultivating in seclusion for a thousand years was just a small punishment.

As for the Heavenly Race, Yi Jian and Yi Wulang didn't dare to block it. In fact, they couldn't.

Just like others, Yi Wulang could recover in a thousand years. But Yi Jian's body and soul had been pierced by a spear. His soul seemed to have been seriously injured and wouldn't recover for at least ten thousand years.

The Azure Dragon said, "Do you know why I attacked you so heavily? It's because you have a strong desire to kill. How dare you have the intention to kill my Little Junior Brother in front of my face? Don't you know what kind of person you are? Even if you become a Great Monarch, I can teach you how to restrain yourself."

The people from the big clans didn't dare to say anything, but they despised Yi Jian in their hearts. Stupid, what's the big deal of reaching the Immortal Level? How dare he still have killing intent in such a situation? What was wrong with his brain?

Yi Jian, who had reshaped his body, blushed, but he didn't dare to refute, nor did he dare to show any killing intent anymore. He was afraid that he would die if he did.

No one dared to say anything. Senior Brother Azure Dragon looked at the Queen of Horror casually, nodded slightly, and said indifferently, "It's not a solution to keep the shackles locked. This road doesn't work."

Buzz!

The Queen of Horror was refreshed and bowed respectfully to Senior Brother Azure Dragon. "Thank you for your advice, Dragon Monarch."

The Queen of Horror sighed inwardly. She knew that this favor was returned by the Dragon Monarch in the blink of an eye. However, the information that he gave her was much more meaningful than helping Han Fei.

Therefore, she felt that she owed Han Fei a favor again.

Senior Brother Azure Dragon turned to look at Han Fei and smiled. "Little Junior Brother, let's go."

"Huh? W-Where are we going?"

Senior Brother Azure Dragon: "The Heavenly Race."

2494 White Hole Space

After Han Fei and Senior Brother Azure Dragon left.

The big clans, Yi Jian, and Yi Wulang all heaved a sigh of relief. They couldn't let go of the horror in their hearts for a long time.

Yi Jian and Yi Wulang looked at each other with awful expressions.

This was because Senior Brother Azure Dragon had said that he was going to the Heavenly Race.

They wondered why they were still going to the Heavenly Race since they had vented their anger and beaten them up.

Buzz ~ Buzz ~

The two of them didn't dare to stay any longer and disappeared without a trace in the blink of an eye. Of course, they had to hurry back to their clan now! This was because it wasn't the Dragon Monarch who took Han Fei away just now, but he left at an ultra-light speed.

After Yi Jian and Yi Wulang left, the Monarchs of these big clans immediately looked bitter. This time, they made a big mistake. Han Fei's background was beyond their imagination.

Although Senior Brother Azure Dragon had just said that as long as they didn't violate the rules, he wouldn't interfere with any normal battle. However, the people of the big clans never offended strong masters. They wouldn't do it if there was the slightest threat.

They were not the Heavenly Race, the Fist Light Mountain, or the Ghost Strait. Becoming enemies of the Void Temple? Were they crazy? How could ordinary people do that?

The Ghost Strait didn't have deep hatred towards Han Fei in the first place. It was just because one of their disciples was killed by Han Fei outside the Ruins of God. Although they felt uncomfortable, now that Han Fei's real identity and background had been revealed, how could they still mind such a trivial matter?

The person from the Ghost Strait cupped his hands at them and left without looking back.

As for the remaining people from the big clans, the strong master from the Luo family suddenly said, "They seemed to go to the Heavenly Race. Shall we... go take a look?"

The others looked at this guy as if he were crazy. The one from the Li family was speechless. "Are you crazy? You have to watch this kind of thing? Isn't it

good to just wait for the news? If we go there, we might be beaten up again... If you want to go, go. I won't go."

"That's right, Old Luo! The shortcoming of your family is that you're not smart enough. Our Zhou family has an heirloom honeydew that can nourish the brain. Shall I send some to you later?"

"Get lost!"

They survived and were in a good mood. They teased each other for a while, and the strong master of the Zhou family cupped his hands at the two people from the Time Temple and said, "Nice to meet you. We'll take our leave now."

They didn't want to have anything to do with the Time Temple. After all, they might have been enemies a moment ago, and now they hadn't reconciled yet.

It wasn't until they walked far away that the powerhouse from the Wu family said, "Han Fei is right. The Time Temple is indeed not powerful enough. Look at how powerful the Dragon Monarch is! As for the Time Temple, they don't seem to have anything special except that they have many means."

The strong master of the Zhou Family said, "Sure! The Void Temple is famous for their combat power. Have you forgotten the battle back then? The divine races and the super forces were like paper in front of them. The strong masters of the Central Sea Divine Realm were scattered and didn't dare to go home for ten thousand years. Even now, there are still people hiding in the Sea of Stars. What big things have the Time Temple done? All they know is to collect some strange things. If it weren't for their strange methods, they wouldn't have been able to become one of the three Holy Temples."

... *noVELnext.COM*

When there were only Elder Guo and the Immortal-level powerhouse from the Time Temple left on this battlefield, they didn't look too good.

Elder Guo said unhurriedly, "As I said, he's amenable to persuasion but not coercion. I offered him a position as a deacon of the Time Temple, and he had agreed to it. But what you did was really improper! Alas..."

The middle-aged man frowned. "Are you blaming me?"

Elder Guo said unhurriedly, "I'm not blaming you. I just remembered something that Han Fei once said. He said that there has never been a strong master who walked the path of invincibility in the Time Temple, right? Now that I think about it, I'm just a little sentimental."

...

Above the sea, Han Fei's extreme speed was 14 times the speed of light.

Han Fei said, "Senior Brother Azure Dragon, when I become a Dao Bone, I should be able to reach 18 times the speed of light. Then I also obtained a great technique called the Void Wings. Once I reach 18 times the speed of light, I should be able to continue to speed up."

Senior Brother Azure Dragon couldn't help but sigh. "Little Junior Brother, you're really improving fast. Last time, I wanted to ask you about your speed. Who would have expected that you would break through the barrier of ten times the speed of light in the blink of an eye? You're right. The speed of light explosion is a threshold. Very few people can reach this threshold in the Sky Opening Realm, but it doesn't mean that there are few in other places. However, once you exceed the speed of light explosion, you don't have to deliberately pursue speed in itself. You might consider the next definition of speed."

"Next definition of speed?"

Han Fei's heart skipped a beat. Since Senior Brother Azure Dragon said so, it must be a speed beyond his imagination.

Han Fei couldn't help but ask, "Senior Brother Azure Dragon, what do you mean? Are you talking about the speed of the Monarch realm?"

The Azure Dragon smiled and said, "Yes and no. But you have to refine the Dao Bone first. Speed exists based on space and time, so what is the essence of speed? You can take this as a reference..."

Han Fei's heart did a flip. Senior Brother Azure Dragon was right. He knew about wormholes and space folding, but he didn't know how to realize these conjectures.

Now that Senior Brother Azure Dragon had made it clear that the next realm of speed was related to space and time, he had to pay attention to it.

Han Fei thought for a moment and suddenly heard Senior Brother Azure Dragon say solemnly, "Little Junior Brother, I heard that you have practiced the human race's Supreme Divine Technique?"

Han Fei nodded. This was not a secret. He had already asked the Eldest Senior Brother about it.

Senior Brother Azure Dragon frowned and said, "That road is an unexplored road and is quite difficult to walk. You have to be mentally prepared."

Han Fei nodded. "I know. Thank you for your reminder, Senior Brother Azure Dragon."

Senior Brother Azure Dragon nodded. "If your soul really can't keep up with the growth of your body, you can come to me. Remember, it's when your soul really can't keep up with the growth of your body."

Han Fei's heart skipped a beat. It seemed that everyone knew the disadvantage of the human race's Supreme Divine Technique! According to Senior Brother Azure Dragon's image as a good senior brother, he definitely wouldn't be stingy with resources. He didn't tell him now because there might be some disadvantages to the method he used to help him. Therefore, he wouldn't use it if he could.

Han Fei nodded seriously and kept this matter in mind.

Seeing this, Senior Brother Azure Dragon slightly restrained his serious image and said, "Little Junior Brother, I'll show you the power of the next speed level."

Han Fei was about to respond when he felt that his arm was grabbed. In an instant, a white channel appeared in front of his eyes.

Han Fei was shocked. Wasn't this white channel the one he saw when he reached the edge of the speed of light?

After Han Fei stepped into this passage, he immediately felt a terrifying force crushing his body. It seemed that if he wanted to take this path, he needed a strong resistance.

Senior Brother Azure Dragon, on the other hand, accelerated while observing Han Fei's endurance. He didn't slow down until Han Fei was covered in cracks and blood.

Senior Brother Azure Dragon said, "Little Junior Brother, when you reach the speed of light explosion, you will find that this is the path behind the speed of light explosion. On this path, you have to bear the compression of speed by the void. Your current carrying capacity is 42 times the speed of light, which is related to your strong physique. However, once you enter this stage, it means that you have a speed comparable to that of a Monarch. Of course, I'm talking about the weakest Monarch."

Senior Brother Azure Dragon took Han Fei to experience it, but Han Fei was suddenly refreshed and looked shocked.

Senior Brother Blue Dragon was puzzled. "Little Junior Brother, what's wrong?"

“Gulp ~”

Han Fei suddenly swallowed and said, “Senior Brother Azure Dragon, you said this is a path that can only be taken at the speed of light explosion?”

Senior Brother Azure Dragon nodded. “That’s right! Only when you reach the speed of light explosion can you enter this white hole space. In fact, it’s a channel formed by the void’s suppression on speed.”

Han Fei couldn’t help but ask, “Senior Brother, can you see it when you’re at the edge of the speed of light?”

Senior Brother Azure Dragon said matter-of-factly, “Of course not... Wait, do you mean you can see it when you’re at the edge of the speed of light?”

Han Fei nodded awkwardly.

This time, it was finally Senior Brother Azure Dragon’s turn to be shocked. He didn’t quite understand this either. Logically speaking, it was impossible to see the scene behind the speed of light explosion at the edge of the speed of light, unless Han Fei’s innate Dao seed included the way to explore the Great Dao of Speed.

Senior Brother Azure Dragon couldn’t help but stop and take Han Fei out of the white hole space. He said solemnly, “Little Junior Brother, you have an innate Dao Seed, right?”

Han Fei thought for a moment. “I don’t know if it’s innate or not, but I did have a Dao Seed a long time ago. At that time, I was still very, very weak.”

Senior Brother Azure Dragon asked, “Is it about speed?”

Han Fei was stunned for a moment. “I don’t know! Senior Brother Azure Dragon, I have a headache too. I still don’t know what my original Great Dao is.”

“Huh?”

Senior Brother Azure Dragon was puzzled. “How can you not know what your original Great Dao is? Don’t you have a Dao Seed?”

Han Fei smiled bitterly. I don’t know it even if I have a Dao Seed! Well... how should I describe it? Can I just say that my original Great Dao is a bridge, a road, and a door?

But in any case, this couldn’t be the Great Dao of Speed. It was absolutely impossible. Han Fei was 100% sure.

Han Fei said ambiguously, "It's just that I can't be sure what my Great Dao is exactly. But my Great Dao can make something out of nothing, such as forbidding all laws in a space and doing everything I want to do in a small range."

Senior Brother Azure Dragon: "???"

Senior Brother Azure Dragon was stunned. Is there such an abnormal Great Dao?

Senior Brother Azure Dragon pondered for a moment and said, "No rush. Tell me if you have entered this white hole by yourself, and then we'll talk about your Great Dao..."

Han Fei nodded and said, "Yes, and maybe the force I endured at that time was more than 42 times the speed of light you mentioned. I suspected that it might have reached a thousand times the speed of light."

"How many times?"

2495 Gate of Heaven

Senior Brother Azure Dragon was dumbfounded.

However, after hearing what Han Fei said, he understood.

Han Fei was talking about the time when he walked into the white hole outside Tomorrow Camp to avoid the pursuit of the Heavenly Race. He ran for more than ten seconds and then passed through the white hole by time twisting and returned to Tomorrow Camp.

In terms of distance, the distance crossed in that instant was indeed a thousand times the speed of light.

However, Senior Brother Azure Dragon shook his head slightly. "Little Junior Brother, at that time, you didn't have the ability to cross the white hole. To be precise, you accidentally touched the advanced usage of time. At that moment, the Great Dao of Time enveloped you. After entering the white hole, the power of time helped you passively offset the pressure from speed. Therefore, at that moment, only a moment might have passed outside, but in fact, what you experienced might be an extended time..."

Hearing what Senior Brother Azure Dragon said, Han Fei wasn't quite sure and could only nod.

As expected of the knowledgeable Senior Brother Azure Dragon, he immediately explained Han Fei's doubts.

He said, "Little Junior Brother, bearing capacity represents the limit of your speed, which means that even if you have a way to keep accelerating and can reach 42 times the speed of light at the highest speed, your real speed can't reach it. To understand more of the mysteries of speed, you have to reach the speed of light explosion first. This can definitely be achieved when you reach the perfected Star Transformation Realm. That's all I can tell you now."

"Thank you, Senior Brother."

Han Fei knew that Senior Brother Azure Dragon didn't want to use his own understanding to give him too much advice. This was a tradition of the Void Temple.

In the Void Temple, good things could be given to each other, but it was very rare for them to give each other some pointers on the path of cultivation. Unless it was the only path that could be taken.

Or, it was some insights from Eldest Senior Brother's lectures.

However, he had never heard his Eldest Senior Brother's lectures clearly. It was probably the same for Feng Yu. Therefore, it wasn't really guidance but more for him to comprehend on his own.

However, he had already gained a lot today.

Having seen Senior Brother Azure Dragon fight, Han Fei felt that he had benefited a lot.

...

After that, Senior Brother Azure Dragon didn't let Han Fei walk by himself again. Otherwise, even if Han Fei maintained 14 times the speed of light, it would take him a long time to reach the Heavenly Race.

As for Senior Brother Azure Dragon, he only took Han Fei across a psychedelic space. It felt like ten seconds, or even less. Anyway, when Han Fei opened his eyes, he appeared in front of a double gate built above the clouds, which was dozens of kilometers long and nearly a hundred kilometers high.

At the top of this huge door, there were four big golden words engraved, which contained a shocking suppressing pressure. At a glance, Han Fei felt an invisible pressure fall on him.

Senior Brother Azure Dragon said, "These are words written by the former god of the Heavenly Race. Although that god is not the strongest, he is indeed extremely powerful. However, very few people can directly sense this

suppressing pressure from these four words. If an ordinary person feels a trace of difference or charm, they will be qualified to be absorbed into the Gate of Heaven. But people like you will be directly recognized as Heavenly Talents.”

Sure enough, as soon as Senior Brother Azure Dragon said so, five Sky Openers flew out of the door with swishes.

Among the five of them, the one with the highest realm might only be in the same realm as Han Fei.

These five people arrived first, and then some other people ran out of the gate.

The five of them looked at Han Fei and Senior Brother Azure Dragon up and down, and then everyone’s eyes fell on Han Fei. This was because Senior Brother Azure Dragon didn’t look like he was here to join the Gate of Heaven. Only Han Fei’s image and temperament were a little immature.

One of them said, “Who triggered the suppressing pressure of the god?”

Senior Brother Azure Dragon didn’t speak, and Han Fei smiled. “It’s me, so what?”

The strongest of the five looked at Han Fei for a while and nodded slightly. “Although your realm is a little high, since you can trigger the suppressing pressure of the god, it shouldn’t be a problem for you to join the Gate of Heaven. However, you still have to wait for a while. When the elders come out, they will assess you.”

These people actually regarded Han Fei as an itinerant cultivator who had come to join the Gate of Heaven, so they weren’t hostile at first.

However, the person who spoke looked at Senior Brother Azure Dragon up and down and said, “As for the other irrelevant people, you can go back!”

Han Fei: “...”

Lost for words, Han Fei said, “Hey! Who told you that I’m here to join you?”

The man frowned. “If you’re not here to join the Gate of Heaven, why are you here? Are you provoking us?”

Han Fei’s heart stirred. It seemed that the Gate of Heaven didn’t know yet. He couldn’t help but say with a wicked smile, “I’m told that the Gate of Heaven is full of Heavenly Talents and strong masters. My name is Han Fei. I’m your enemy. I’m here today to crush you... Hehe. So, if there are any strong masters, just call them out! I’ll take them all.”

“What? Han Fei?”

“A\*shole, are you Han Fei?”

“Brat, you’re courting death. How dare you come to us? I think you must be tired of living.”

“How dare you be ill-behaved in front of the Gate of Heaven?”

These people scolded loudly, but they didn’t come up to fight Han Fei, because they knew that Han Fei was very strong. Therefore, when Han Fei said his name, someone sent a message to the strong masters of the sect.

However, Han Fei didn’t care. He was already here. How could he not go in?

Han Fei strode forward and was about to break into the Gate of Heaven. Senior Brother Azure Dragon, on the other hand, slowly followed behind with his hands behind his back, watching this scene quietly.

In fact, he was also curious. Little Junior Brother had only been in the Void Temple for less than 500 years, but he had become much stronger. In terms of combat power, he was already qualified to be listed on the God Roll of the Sea Realm. It took him nearly 3,000 years to get first place in the dragon race. In comparison, Little Junior Brother’s growth was unbelievably fast!

Seeing that Han Fei was about to break into the Gate of Heaven, these people all shouted, “How dare you! Stop!” [noVelNext.com](http://noVelNext.com)

“B\*stard, if you dare to take one step into our sect, you will never be able to step out.”

However, Han Fei simply ignored them. Those strong masters looked at each other. How could they just watch Han Fei break in? Immediately, the group of people swarmed up.

Bang! Bang! Bang!

The extremely fast fist light exceeded their understanding. These people only saw a flash in front of their eyes, and in the next moment, their bodies exploded. They were no match for Han Fei at all.

By the time their bodies recombined, Han Fei was already half a step into the Gate of Heaven.

However, when Han Fei tried to enter, a terrifying divine might descended. Someone who had reunited his body in advance shouted, “Han Fei, don’t even think about breaking in. This is the race of a god. The god’s eyes are watching here. How can you just enter as you please?”

However, at this moment, Senior Brother Azure Dragon snorted and raised his hand. As he pushed his palm up, the words “Gate of Heaven” instantly dimmed.

Crack!

For a moment, the two kinds of power were fighting, but the god had died for a long time. How could the remaining suppressing pressure shake Senior Brother Azure Dragon?

Senior Brother Azure Dragon’s momentum suddenly soared to the extreme, and cracking sounds resounded.

When he looked again, the four words “Gate of Heaven” were all cracked, and the two words “Heaven” became “Big Mouth”. The majestic “Gate of Heaven” became “Gate of Big Mouth”.

This door was already destroyed.

The people who were scolding just now were all lying on the ground, trembling.

They only had one thought in their hearts. Who was this person? He had actually broken through the will of a god.

Boom! Boom!

When Han Fei stepped into the Gate of Heaven, he happened to meet a large number of late-stage, peak-level late-stage, and perfected Star Transformation Realm powerhouses.

However, since Senior Brother Azure Dragon had taken action, how could the Heavenly Race only send these people?

Immediately, seven Monarchs appeared. Among them, there were Yi Jian and Yi Wulang who had escaped earlier.

The person in the lead might be the current patriarch of the Heavenly Race. He gave Han Fei the feeling that he was extremely powerful, the kind of person who could kill him with a finger.

The middle-aged man cupped his hands. “The current patriarch of the Heavenly Race, Yi Changsheng, greets Great Monarch Ao Qing.”

“Hiss ~”

“What?!”

“Great Monarch?”

At that moment, countless people who rushed up to kill Han Fei and Senior Brother Azure Dragon were dumbfounded. F\*ck, a Great Monarch-level powerhouse? Who the f\*ck can beat him?!

For a moment, everyone stopped and didn't dare to attack.

Han Fei saw Yi Cai, Yi Chen, Yi Xianling, Yi Tianlong, Yi Jiajia, Yi Shuiliu, and other old acquaintances in the crowd.

Han Fei even sensed the existence of Nezha in a corner.

At this moment, Yi Cai and the others all looked at them in shock. They probably didn't expect that there was a Great Monarch behind him.

Senior Brother Azure Dragon wasn't here to wipe out the Heavenly Race, but to tell them to behave themselves.

Besides, although Han Fei was strong now, it was impossible for him to beat the Gate of Heaven alone. Perhaps Han Fei could fight ten, eight, or even a hundred enemies, but there were countless strong masters in the entire Gate of Heaven. How many people could Han Fei defeat with his fists?

At this moment, Senior Brother Azure Dragon raised his head proudly. "The Heavenly Race have repeatedly broken the rules. It's fine if you bullied the weak in the Sky Opening Realm, but now you actually used Monarchs to attack my little junior brother. Yi Changsheng, right? Do you think your Heavenly Race is invincible in the world? How dare you trample on the rules like this?"

#### 2496 Dragon Fights in the Sky

At this moment, everyone who should know the situation had known it.

Obviously, the Heavenly Race sent Monarch-level powerhouses to hunt Han Fei, but they didn't expect that Han Fei also had a powerful background, who had a Great Monarch behind him.

The Heavenly Race who were used to being domineering had never encountered such a thing. The Great Monarch of the East Sea Divine Realm was sitting in the Divine Capital Dynasty. Who else dared to call himself a Great Monarch

Now that a Great Monarch had come, most people were dumbfounded.

Yi Changsheng cupped his hands. "Great Monarch Ao Qing, we are in the wrong this time. The Heavenly Race should be punished for breaking the rules. From today on, our Heavenly Race will act according to the rules."

Senior Brother Azure Dragon asked, "That's it?"

Yi Changsheng looked calm but tough. "That's it."

Yi Changsheng was the head of the Heavenly Race after all. He couldn't admit defeat even though he was facing a Great Monarch. He knew that Han Fei and the Heavenly Race were already mortal enemies, and Han Fei hadn't killed into the Heavenly Race just because he wasn't strong enough. One day, when Han Fei was strong enough, he would come to them anyway.

Besides, so what if it was a Great Monarch? You forcefully broke into the Gate of Heaven and ruined our god's handwriting. I compromised just because you're a Great Monarch.

Senior Brother Azure Dragon's face immediately turned cold and he said with a dignified look, "If you break the rules, you have to receive the punishment you deserve. It seems that you're quite arrogant. It seems that you're not reconciled?"

Yi Changsheng's eyes were also cold. "Great Monarch Ao Qing, don't go too far. Isn't it too much for you to barge into our Gate of Heaven today? To put it bluntly, just because you're a Great Monarch doesn't mean you can be unscrupulous."

There were too many disciples of the Gate of Heaven here. Today, too many people saw and heard that Han Fei and Senior Brother Azure Dragon broke in. In such a situation, if he cowered and admitted defeat immediately, wouldn't that be a disgrace to the Heavenly Race?

Therefore, even though Yi Changsheng knew that Senior Brother Azure Dragon was not to be trifled with and that these two people were both disciples of the Void Temple, he still arrogantly spoke to Senior Brother Azure Dragon in a tough tone.

Senior Brother Azure Dragon smiled casually. "Do you think you can talk to me like that because you have a half-dead Great Monarch in your race?"

Buzz!

Yi Changsheng's face suddenly changed, and so did many others present.

Han Fei also looked at Senior Brother Azure Dragon in surprise, so the Heavenly Race had a Great Monarch-level powerhouse?

Senior Brother Azure Dragon snorted and disappeared in place with a step. In the next moment, dragon roars shook the sky, and deep in the void, there were cracks all over, as if a world was collapsing.

Yi Changsheng and the others all looked horrified. This guy actually started a war between two Great Monarchs? Was he crazy?

Han Fei looked up at the distant void, where there seemed to be a boundless dragon shadow flashing past. Some kind of collision ripple swept directly to his side.

The suppressing pressure of Great Monarchs made countless people in the Gate of Heaven kneel or lie down. From their bodies to their souls, they were trembling.

Senior Brother Azure Dragon's voice rumbled in the sky. "When the Void Temple reasons with you, whoever you are, you'd better listen. Otherwise, don't blame me for being unreasonable."

"Puff ~"

"Patriarch ~"

All the Monarchs were shocked.

Although Han Fei couldn't see it, from the expressions of these Monarchs, he knew that the Great Monarch of the Heavenly Race was probably heavily injured by his Senior Brother.

Buzz!

But he didn't dare to move, because Senior Brother Azure Dragon was back after the fight.

Han Fei felt the surging Qi and blood in Senior Brother Azure Dragon. Even he was a little affected by the Qi and blood.

Senior Brother Azure Dragon restored to the dignified image of the Dragon Monarch. His every move was elegant yet domineering.

When he stabilized himself, a huge shadow of an azure dragon appeared above the Gate of Heaven. It was so huge that it covered millions of kilometers and was extremely terrifying. Senior Brother Azure Dragon had already drawn a spear at some point in time and instantly patted Yi Changsheng's shoulder. This person was slapped to the ground by Senior Brother Azure Dragon.

"Ah! Boom!"

Yi Changsheng tried to unleash his overwhelming blood and Qi and use a divine technique to resist it, but he couldn't stand up even when his lower half body exploded.

At this time, Senior Brother Azure Dragon said again, “Now, can you listen to me?”

Yi Changsheng’s eyelids twitched crazily. He didn’t say anything, but he didn’t dare to be tough with Senior Brother Azure Dragon anymore.

Although he was angry, he didn’t dare to provoke him again. He could only say with difficulty, “Great Monarch Ao Qing, please speak.”

Senior Brother Azure Dragon said, “Cultivators all walk on mountains of corpses and in seas of blood. I can understand that. It’s normal for you to be enemies with my little junior brother. However, cultivators can’t cross realms to bully the weak. This is a rule that can’t be broken. I’m here just to tell you this. From today onwards, as long as you abide by the rules, I won’t interfere in the battle between you and my little junior brother. Do you understand? But if you don’t follow the rules, there will be no more Heavenly Race in the Sea Realm, understood?”

Gulp!

Han Fei secretly swallowed. The Heavenly Race was a divine race after all. They had once killed the children of the gods, but Senior Brother Azure Dragon talked about destroying them so casually!

Yi Changsheng finally heaved a sigh of relief. “Great Monarch, do you mean that as long as it’s within the rules, we can do anything? What if Han Fei dies?”

Senior Brother Azure Dragon said, “Then let it be.”

That being said, Senior Brother Azure Dragon despised him in his heart. How can my little junior brother be killed by you if you follow the rules?

Han Fei also understood what Senior Brother Azure Dragon meant. He had exposed his identity as a disciple of the Void Temple today. If he traveled the world in Han Fei’s name in the future, many people probably wouldn’t dare to offend him. This was clearly not good for an ordinary cultivator.

Therefore, Senior Brother Azure Dragon specially came to the Gate of Heaven to tell them not to be afraid. Although Han Fei is my little junior brother, as long as you can kill him within the rules, the Void Temple and I will definitely not cause trouble for you. However, it has to be within the rules.

Thinking of this, Han Fei couldn’t help but feel a little moved. Senior Brother Azure Dragon is really thoughtful!

At this moment, Yi Changsheng gritted his teeth and said, “We have understood what you mean, Great Monarch.”

Senior Brother Azure Dragon nodded slightly. “That’s good! Also, in order to punish you for breaking the rules, give us ten drops of Life Spring Water as punishment.”

Yi Changsheng raised his eyebrows slightly, but didn’t dare to object.

*noVELnext.COM*

“Give it to him!”

The Patriarch’s voice appeared in his mind. He didn’t seem to want to fight this ferocious guy again for ten drops of Life Spring Water.

Han Fei’s heart trembled. His purpose of letting Nezha enter the Gate of Heaven was to sneak into the Heavenly Race and get Life Spring Water. Who would have expected that Senior Brother Azure Dragon seemed to know a lot about the Gate of Heaven and asked for such a good thing?

More importantly, this thing came too easily!

A light cut through the sky and landed beside Senior Brother Azure Dragon. It was a small jasper-colored bottle. Although it was just a small bottle, Han Fei felt that there was a river in it, and the waves seemed to be surging.

Senior Brother Azure Dragon extended two fingers and pushed the bottle to Han Fei. “This is to compensate my Little Junior Brother.”

After that, Senior Brother Azure Dragon looked at Han Fei. “Little Junior Brother, let’s go!”

Han Fei grinned slightly and the two of them turned around and left. Just as Han Fei was about to walk out of the door of the Gate of Heaven, he suddenly turned around, looked at the countless gazes, and smiled. “Heavenly Race, wait for me to return.”

With that, Han Fei turned around and left without looking back.

After Han Fei and Senior Brother Azure Dragon disappeared from the door, Yi Changqing shouted, “As for what happened today, you should know what can and what can’t be revealed.”

The people here were all Sky Openers, because ordinary disciples couldn’t arrive so quickly. They didn’t know what had happened.

Therefore, these Sky Opening experts were still frightened. After being warned by Yi Changsheng, many of them shivered.

After Yi Changsheng said that, the seven Monarchs disappeared at the same time.

In the depths of the void where the Heavenly Race were located, a place that used to be a floating divine mountain had been shattered and dilapidated. An elder sat cross-legged in front of a beam of light, and a mass of blood surged in front of him.

“Patriarch!”

Yi Changsheng’s face changed slightly. This mass of blood Qi had been crushed to the extreme.

The elder slowly opened his eyes and said solemnly, “Don’t worry about the Void Temple. Ao Qing wants to use our Heavenly Race as Han Fei’s stepping stone, but it depends on whether Han Fei is qualified. However, when you fight Han Fei in the future, don’t violate the rules. This time, it’s Ao Qing. He’s easy to talk to and reason with. If it were someone else…”

...

In the wilderness, Senior Brother Azure Dragon also said to Han Fei, “Little Junior Brother, use the void mark as little as possible. After using it once, you only have two left. Let me remind you that the third time, you’d better make it big enough for Eldest Senior Brother to take action.”

Han Fei was surprised. “Eldest Senior Brother to take action?”

Senior Brother Azure Dragon smiled faintly. “Not everything is worth Eldest Senior Brother taking action. Just like today’s matter, except for you and Little Eleven, anyone of our Void Temple can solve it. It’s just because the black dragon is here and you want to see the power of a Great Monarch, so I volunteered to come over. Otherwise, it would have been Old Ten.”

Han Fei’s heart suddenly skipped a beat. So, as he expected, this matter was so trivial that if it weren’t for the black dragon, he wouldn’t have been able to see Fourth Senior Brother.

This made Han Fei curious. If what happened today was only worthy of Senior Brother Lei Heng taking action, what kind of thing would be worthy of Eldest Senior Brother taking action?

Han Fei said solemnly, “Thank you for your reminder, Senior Brother Azure Dragon. I’ll definitely remember your words. I won’t use the void mark if I can handle these trivial matters on my own in the future.”

Senior Brother Green Dragon nodded solemnly. “Okay! That’s good. But this trip was not in vain. At least I solved the black dragon and took back the dragon race’s treasure. By the way, I didn’t ask for any benefits for you today. You won’t blame me, right?”

Of course Han Fei shook his head. “How can that be? The Life Spring Water is already the greatest benefit in the first place, right?”

Senior Brother Azure Dragon smiled and said, “This is the only valuable thing the Heavenly Race has. As for other resources, firstly, it’s not worth it for me to ask for them, and secondly, there’s no need to ask for them. Those things shouldn’t be a problem for you, Junior Brother. You have to walk your own path on your own. The less I interfere, the better.”

Han Fei said respectfully, “I see.”

Senior Brother Blue Dragon straightened his body and nodded slightly. “Since it’s over, I’m leaving.”

When the bronze door suddenly opened, Han Fei knew that it was time to say goodbye.

Senior Brother Azure Dragon nodded and entered the bronze door in one step. Then, the door turned into nothingness in front of his eyes.

Hu...

Looking at the direction where Senior Brother Azure Dragon left, Han Fei couldn’t help but heave a sigh of relief. He wondered what earth-shattering event was worthy of Eldest Senior Brother taking action.

2497 Shocked the World

Han Fei’s identity couldn’t be kept a secret anymore.

The appearance of the Azure Dragon showed the power of a Great Monarch. No one could resist a single blow from him. The big clans in the Divine Capital Dynasty combined couldn’t even stand a whipping of the Azure Dragon’s tail.

But what was even more miserable than the big clans was the Gate of Heaven.

Although the Gate of Heaven was an external force of the Heavenly Race, there were various people in the sect. Which power didn’t have a spy in it? Which big clan didn’t have a few descendants in the Gate of Heaven?

Therefore, the news that Senior Brother Azure Dragon took Han Fei to kill into the Gate of Heaven spread like wildfire.

The Divine Capital Dynasty was the first to seethe.

The moment the news spread, the entire Divine Capital Dynasty was shocked.

Someone exclaimed, "What? Han Fei's a disciple of the legendary Void Temple?"

"Yes, this news is true. I heard that Zhao Qinglong was killed by Han Fei in the wilderness, dead as a doornail." [no1velnext.com](http://no1velnext.com)

"F\*ck, are you serious? Where did you get the information?"

"Heh! My cousin's second uncle's aunt's son's third uncle is from a big clan. Now everyone in the big clans knows this news."

"No wonder. I knew there must be a reason why Han Fei could get first place in the fourth round of qualifiers and the Sky Opening realm finals. Look, this is the reason. He's a disciple of the Void Temple! What's the big deal of the God Roll? Can it compare to the Void Temple?"

...

On Dragon Fighting Street.

The Third Prince frowned. "This person hid his identity very well. He didn't really reveal his identity until he walked out of the Divine Capital Dynasty. I was wrong about him."

Behind the Third Prince, someone said, "Third Master, if Han Fei is a disciple of the Void Temple, then Feng Xingliu..."

The Third Prince shook his head slightly. "Feng Xingliu is not on the same level as Han Fei. They are just good friends. Don't think too much. By the way, I heard that he rejected the Time Temple?"

The person behind him nodded. "That's right. It's said that he despised the Time Temple for not being bold enough. He must have expected the Time Temple to help him, but the Time Temple was too wishy-washy. In the end, he called someone from the Void Temple..."

The Third Prince's lips curled slightly. "Interesting. Um! Arrange for someone to transfer some resources to the Capital of Horror and secretly deliver them to Zhou Run and the others."

"Yes, Third Master."

...

In the team of the Capital of Horror.

They hadn't returned to the Capital of Horror yet.

Wushuang, Zhou Run, and the others were all dumbfounded. Han Fei is a disciple of the Void Temple?

Cao Mengde said, "Holy sh\*t, Brother Fei really has a powerful background! Hahaha, he's a disciple of the Void Temple. It's rare to see one like him even in ten thousand years. We didn't expect that we would be so lucky to meet him."

"Puff... Huff..."

Wu Bufan took a deep breath of his pipe and sighed. "From the moment I saw Brother Fei kill Yi Qianxing, I knew that he had an extraordinary background, but I didn't expect him to have such an extraordinary background."

Li Chen played with the walnut in his hand and swallowed saliva. "Brothers, do you think we can be taken as people of the Void Temple now?"

Immediately, everyone looked at him as if looking at a fool. Are you crazy? Don't you know what your conditions are?

Zhou Run said, "Don't think wildly. Let's just keep this matter to ourselves. Do you remember the purpose of our trip? We have to reach the perfected Star Transformation Realm as soon as possible. Only when we reach that realm can we be called an overlord. Reaching the perfected Star Transformation Realm will be our new starting point."

It wasn't easy to become a Monarch. Therefore, reaching the perfected Star Transformation Realm was their only goal now.

...

On the Crossing, in the Legendary Tavern.

The storyteller shouted, "Hey, hey~ a few years ago, Han Fei, Feng Xingliu, Wushuang, and Wang Beichen were just sitting there and listening to me talk about all kinds of stories in the world. Perhaps it's because I have many stories, they came almost every day. Look, the exclusive private room of the Legendary Tavern was reserved for them."

Someone sneered. "Are you bragging?"

The old man said solemnly, "Do I need to brag to you? Who doesn't know that these people listen to my stories in the Legendary Tavern? Well, although I was on better terms with Feng Xingliu, Han Fei would also nod at me when he saw me."

Instantly, boos were heard.

Someone said, "Come on! Just tell us how Han Fei suddenly became a disciple of the Void Temple!"

The old man chuckled. "That day, Zhao Qinglong found Han Fei in the wilderness and the two strong masters taking the path of invincibility started a round of fighting. That battle was earth-shattering and stirred huge waves on the sea..."

On the top of the Crossing.

South Monarch lay on the chair and looked up at the starry sky. To be honest, the news was and was not beyond her expectations.

She had known from the beginning that his identity as a member of the Wild Ancient Race was just Han Fei's cover. But she really didn't expect that he was actually a disciple of the Void Temple.

This made her feel very good. She had easily made Han Fei owe her two favors. She was indeed the wisest one.

...

"Sh\*t!"

In the Ghost Strait, Zhang Xuanyu was very excited. When he heard of the Time Temple, it was when the Time Temple offered to be Han Fei's guardian. At that time, he only thought that the Time Temple was a force like the Ghost Strait.

However, Han Fei killed Zhao Qinglong, summoned a Great Monarch, and broke into the Gate of Heaven. Just thinking about it made his heart surge.

When he asked his senior brother from the Ghost Strait, he found out that the Time Temple, the Immortal Temple, and the Void Temple were known as the Three Temples. And the Void Temple was recognized as the strongest in the Three Temples. Every generation of their strong masters had super strong combat power that could suppress the world.

"A\*shole! This b\*stard kept it a secret from me!"

"Huh?"

At this moment, a girl suddenly jumped out and looked at Zhang Xuanyu affectionately. "Brother Yu, who offended you? I have White Nectar Wine here. If you don't mind, you can have a drink with me."

On the other side, another woman appeared out of nowhere. “Get lost, Mei’er. Brother Yu is going to open the sky soon. Why should he drink? He should cultivate.”

After that, she said, “Brother Yu, I’ve been at the peak of the Sea Establishment Realm for many years and have done a lot of research on Sky Opening. I hope to discuss it with you.”

“Hmph!”

A cold voice came from afar. Then, the two girls immediately shivered. “Greetings, Senior Sister Yuan Qing.”

The comer had long slender legs and was wearing a purple gauze short skirt. Her skin was fair and her lips were red like flames.

She snorted coldly. “Why aren’t you cultivating? Have you forgotten that Zhang Xuanyu has already been my junior brother?”

“Yes, Senior Sister Yuan Qing, we shouldn’t disturb Brother Yu.”

“Humph! It’s good that you know. Disappear!”

Swish, Swish ~

After the two girls disappeared, Yuan Qing changed her face and said gently, “Junior Brother, Master asked me to come to you and tell you some details about Sky Opening. This matter is very important. Although you are a genius, there is no harm in understanding it. Let’s go, I’ll take you to my room and give you a simulation...”

“Ah! Okay, Senior Sister.”

...

After the news of Han Fei’s true identity spread throughout the Divine Capital Dynasty, the South Sea Divine Realm got the news too.

However, on this day, Feng Yu’s family was also in a mess.

“Shoot! Shoot! Shoot!”

Feng Xingliu shouted, “This guy kept it a secret from me! I treated him as a good brother, but he didn’t even tell me this. Why couldn’t he just tell me?”

Feng Qingcheng said, “Don’t make a fuss. If Brother Han Fei told you, he might spill the beans in a minute. Don’t you know how big your mouth is?”

Feng Xingliu pointed at himself. “My mouth is big? You don’t know anything. I always keep my mouth shut, OK? For example, as for Han Fei’s real identity, you must... Uh...”

Instantly, many people looked at Feng Xingliu.

Someone said, “Xingliu! What is Han Fei’s real identity? Isn’t he a disciple of the Void Temple?”

Feng Xingliu laughed. “I mean, I was the first to know Han Fei’s identity as a member of the Wild Ancient Race. I knew it when I was in the wilderness. I didn’t tell anyone.”

However, Feng Yu, Feng Qingcheng, and a few people who were familiar with Feng Xingliu were already thinking. Feng Xingliu probably knew some other secrets, but this guy knew nothing about lying. He thought that he had covered it up very well.

Outside the house, a loud voice suddenly roared, “Leave! Xiao Yu is going very well on the path of cultivation and is about to prove Dao. It’s not the time to talk about romance... What, your son is a peerless genius? Haha, if I hadn’t known that your son is a peerless genius, you wouldn’t have been able to enter this door. Ha, let me tell you, do you know the recent news from the East Sea Divine Realm? That disciple of the Void Temple pursued Xiao Yu, but she didn’t even agree. Does your family have more heritage than the Void Temple?”

For a moment, Feng Qingcheng and Feng Xingliu all looked at Feng Yus.

Feng Yu’s face turned black. “Uncle Nine is kidding. This is not true at all.”

Feng Xingliu also said, “Fengyu, let me tell you, you’d better not have this idea. Han Fei already has a wife and a child. Don’t step in between him and his wife. Otherwise, it will be difficult for me...”

Bang!

Feng Xingliu flew out and embedded on the Fire Dragon Cliff a thousand kilometers away, leaving a huge human figure.

2498 Giant Beast Divine Dao, Nirvana and Rebirth (3 in 1)

In fact, after the 100,000-year competition, too many things had happened in the wilderness.

For example, someone was ambushing the strong and harvesting resources. Someone caused conflicts in the Divine Capital Dynasty and chased and killed in the wilderness.

Some of the itinerant cultivators quickly fled into the wilderness, and some joined the hunt.

Under the protection of the powerhouses of their own factions, the cultivators of the major fractions who were not itinerant cultivators were safe.

On the Chaotic Wasteland's side, the City of Scavengers occupied two of the top ten places in this hundred-thousand-year competition, which put Pan Litian under a lot of pressure.

He knew that these were the seeds of the City of Scavengers. Such persons couldn't have any accidents on the way.

In fact, as long as he was half a light-year away from the Divine Capital Dynasty, it would be relatively safe. The wilderness was so vast. Who would find him easily?

Therefore, Pan Litian asked Bai Ranran, Zhang Daqian, and the others to enter his Origin Sea. For safety reasons, he would take them a few light-years away first.

Along with Pan Litian was Qi Tonghai, who had just reached the perfected Star Transformation Realm.

Pan Litian took advantage of the chaos in the Divine Capital Dynasty and quickly left.

Five months later.

About four light-years away from the Divine Capital Dynasty, Pan Litian finally stopped because Bai Ranran wanted to open the sky.

Because he had seen Bai Ranran's potential, Pan Litian naturally wouldn't let her open the sky in the Sea Realm. He took her to the Sea of Stars outside his Origin Star and let her open the sky there.

By the way, he wanted to let Zhang Daqian see how a Sea Establisher opened the sky and what kind of situation he would encounter when he opened the sky. It would be easier for him to learn some experience.

For most people, there were many things to prepare before Sky Opening. Pan Litian told Bai Ranran and Zhang Daqian about the knacks of the Sky Opening Realm.

In the end, on the second day after they stopped, Bai Ranran opened the sky in the Sea of Stars.

However, Pan Litian didn't know that Han Fei had seen such a scene many times.

However, the tribulation in the Sea of Stars went very smoothly. Bai Ranran was more ruthless than he thought. Han Fei didn't feel any fear or struggle from her in the last Sky Fiend Tribulation.

After that, Bai Ranran used the resources obtained from the Divine Capital Dynasty to consolidate her foundation for nearly a month.

On this day, Bai Ranran finally came out of seclusion and appeared in the Sea Realm under everyone's envious gaze. Pan Litian would teach her some great techniques that only people in the Sky Opening Realm could learn.

Of course, when teaching Bai Ranran, he would also teach Zhang Daqian, because in Pan Litian's opinion, it was only a matter of time for Han Fei to prove Dao.

...

On this day, Pan Litian said to Han Fei and Bai Ranran, "Once you open the sky, a soul mark will form in the depths of your soul. This mark can connect to your Origin Sea and your Origin Sea can be connected to the Sea of Stars. Therefore, the first step for a Sky Opener is to walk out of the Sea of Stars and get to know himself..."

Suddenly, Pan Litian turned around and shouted, "Bai Ranran, Ye Fengliu, enter my Origin Sea."

However, Han Fei and Bai Ranran's locations seemed to be teleported away by some Great Dao secret technique.

At that moment, Qi Tonghai appeared and cut off the space with a sword. Han Fei and Bai Ranran fell from the void, but they were millions of kilometers away from Pan Litian and Qi Tonghai.

Qi Tonghai snorted coldly. "Who are you? How dare you intercept the people of the City of Scavengers? You're courting death."

Qi Tonghai was one of the top ten lords after all. Now that he had advanced to the perfected Star Transformation Realm, his strength was not to be underestimated.

However, on the opposite side of Qi Tonghai, there seemed to be a strong master descending. At that moment, Bai Ranran grabbed Han Fei and retreated quickly. Fortunately, she had already advanced to the Sky Opening Realm and her strength was several times stronger than before.

But even so, Bai Ranran had just advanced to the Sky Opening Realm, and the other party seemed to have been prepared. Therefore, the moment Bai Ranran pulled Han Fei back, a cold light flashed and instantly severed one of Bai Ranran's arms. Then the void opened, and Han Fei was rolled in.

At this moment, armor spread on Pan Litian's body and the Emperor Armor appeared. The Nine Dragon Sword floated in front of him and he held the Sky Separation Seal in his hand.

The Sky Separation Seal descended around Bai Ranran to protect her. Unfortunately, he was one step late and Han Fei had already been rolled into the void.

Pan Litian snorted with an awful look on his face. "Who the f\*ck are you? Show yourself now that you're here, you coward."

Swish! Swish!

In the next moment, a proud man walked out of the void, and behind him, an abnormally tall and straight cultivator in the perfected Star Transformation Realm appeared.

Pan Litian's pupils were constricted slightly. "An Taiping, An Heng, do you really think you can stop me? You two are just in the perfected Star Transformation Realm!"

"Hehe ~"

Swish, Swish ~

In the next moment, two more people appeared quietly. Pan Litian didn't know them at all, but he found that they were also in the perfected Star Transformation Realm.

Could it be that the perfected Star Transformation Realm cultivators were so worthless now? A random cultivator was in the perfected Star Transformation Realm?

At this time, Pan Litian felt that things were getting tricky. The other side had four people in the perfected Star Transformation Realm, while he only had two. Although he was confident of fighting two alone, Qi Tonghai had just advanced to the perfected Star Transformation Realm after the 10,000-year competition, so it was very difficult for Qi Tonghai to fight two alone.

More importantly, he was not afraid of the two-on-four battle, but Ye Fengliu, the winner of the 10,000-year competition, was dragged into the void and it was unknown if he was dead or alive. This made him very angry. It was not

easy for a peerless Heavenly Talent to appear. If he died just like that, it would be a great pity.

However, the Sky Separation Seal unleashed a suction force and sucked Bai Ranran in.

Then, Pan Litian said to the other two, "I don't think we know each other, do we? Why do you attack us?"

One of the two chuckled. "Why? Let me give you a reminder, Shui Dongze."

Pan Litian's heart suddenly turned cold. He realized that it was the person behind Shui Dongze. He hated Ye Fengliu for breaking Shui Dongze's winning streak. Although Shui Dongze was also among the top ten, he didn't make it to the top three.

Pan Litian frowned. "The two of you are already in the perfected Star Transformation Realm. Isn't it a little too narrow-minded of you to fight us for such a trivial matter?"

However, one of them said, "You don't understand. For a small force like you, it's just a ranking. But for us, there's a series of chain reactions behind the ranking. You don't need to know anything. You just need to know that your people have ruined our plan."

Pan Litian was not stupid. It was easy for them to kill Ye Fengliu, but Ye Fengliu was sucked into the void, which didn't seem right.

Immediately, Pan Litian said, "I think Ye Fengliu has become Shui Dongze's inner demon tribulation, right? So, are you creating opportunities for Shui Dongze? However, one has to solve his inner demon himself. Do you think Shui Dongze can kill Ye Fengliu?"

The comer snorted coldly. "A Sea Establisher is still a Sea Establisher. However, before Ye Fengliu dies, I'll kill the two of you first."

Pan Litian snorted coldly. "Kill me? No one in the perfected Star Transformation Realm dares to say that they can kill me. Do you think four people are enough? If it's just the four of you, heh, I advise you to leave quickly. Don't make me angry."

Pan Litian was very strong. In the City of Scavengers, he was second only to Zhao Honghuang. He was definitely not an ordinary perfected Star Transformation Realm cultivator.

On the City of Origin's side, the two perfected Star Transformation Realm cultivators of the An Family sneered and attacked. So what if he was the first lord of the City of Scavengers? It was two against four. How could he win?

For a moment, this place turned into a killing ground. All kinds of great techniques appeared out of nowhere. In fact, Qi Tonghai could only barely deal with one person. Pan Litian, on the other hand, fought three alone and was not at a disadvantage. Golden light circulated on the Emperor Armor, the Sky Separation Seal suppressed one person, and the Nine Dragon Sword was split into two. These people were all in the perfected Star Transformation Realm. After seeing Pan Litian's true strength, they couldn't help but be horrified. *nOvelnext.cOm*

Far away, Duan Qingsi looked at the guy with messy hair beside her and asked, "Ren Tianfei, why did you stop me when the two nameless powerhouses wanted to cooperate with us just now?"

Yes, Han Fei had already caught up with Duan Qingsi and the others. His original intention was to tell Duan Qingsi something, but he didn't expect to see this scene.

Han Fei said, "Don't underestimate Pan Litian, and don't overestimate the City of Origin and these two nameless cultivators. You should know that there are strong and weak even in the perfected Star Transformation Realm."

Duan Qingsi frowned. "I don't think Pan Litian can win against the three of them. Or rather, I think with me, Pan Litian will definitely die."

Han Fei remembered that even the Ten Thousand Scale Monarch was fake. There was no telling how many things the City of Scavengers was hiding. Compared with rushing forward recklessly, they might as well sit by and take advantage of the situation.

A moment later, when an extremely powerful Dharma Idol appeared, the Star bead of the guy named An Heng from the An family was pierced through by a blood sword that Pan Litian spat out.

Rumble!

In the sky, the Great Dao rumbled, and a rain of blood fell. This was the astronomical phenomenon caused by the death of a perfected Star Transformation Realm cultivator.

Pan Litian's attack was as powerful as that of a Monarch.

In a three-on-one situation, one person from the An family was suddenly killed, and he was in the perfected Star Transformation Realm. Wouldn't the other one go crazy?

“Chirp!”

Sure enough, An Taiping suddenly activated the God's Arrival Technique and broke Pan Litian's armor. Then, at a terrifying speed of 18 times the speed of light, he suddenly appeared next to Qi Tonghai.

“Puff ~”

Rumble!

In the blink of an eye, an eye for an eye. The man of the An family died, and so did Qi Tonghai. The fight was still three against one.

Duan Qingsi was dumbfounded. Pan Litian was stronger than she expected. He killed an enemy instantly although he was fighting three alone. She wouldn't have believed it if she hadn't seen it with her own eyes.

Even Han Fei was surprised at Qi Tonghai's death. An Taiping was stronger than he thought. His strength might be comparable to Pan Litian's.

At the moment when Pan Litian showed his terrifying combat power, An Taiping realized that something was wrong, so he immediately exerted all his strength to kill Qi Tonghai first. This way, the situation would be the same.

Only then did Han Fei look at Duan Qingsi and say, “If you fight them yourself, it will be troublesome! Why don't you let Pan Litian kill two more?”

With that, Han Fei melted into the void and went to watch the battle. He hoped that Shui Dongze could be stronger. If he couldn't kill Zhang Daqian, that would be a problem.

Duan Qingsi looked at Han Fei's departing figure in surprise. She knew that he hadn't gone far and realized what he was doing. She looked at the battle here and then at Han Fei, thinking to herself. This guy is too mysterious. The battle on Pan Litian's side probably won't end anytime soon. I might as well go to see why Han Fei ignored the Sky Opening Realm battle and entered the void.

...

In the void, Zhang Daqian was rolled into this place without the slightest panic.

In the Ten-Thousand-Year Competition, he had indeed deliberately targeted Shui Dongze and attacked him twice, making him even unable to heal himself.

With Shui Dongze's personality, coupled with his mockery and contempt, it was difficult for him not to breed inner demons. It was very difficult for one to break an aura that suppressed him because this pressure had been buried in the depth of his heart and couldn't be released.

Earlier, Zhang Daqian had been trapped in Pan Litian's Origin Star and ran so far away. Even Han Fei felt that Shui Dongze might be useless now.

But who would have thought that this guy could get two perfected Star Transformation Realm cultivators to take action for him?

At this moment, in the void.

Zhang Daqian finally stabilized himself, but he didn't panic at all.

He saw two people. One was Shui Dongze, who was looking at him coldly, and the other should be Shui Dongze's guardian. He wasn't very strong, only in the early-stage Sky Opening Realm and hadn't entered the Star Transformation Realm.

But Han Fei could tell at a glance that this person was only here to pressure him and wouldn't attack him. Sometimes, not attacking was also a form of deterrence.

Unfortunately, this move didn't work on Han Fei.

He knew Shui Dongze's purpose for coming here too well. He was here to get rid of his inner demons. Different from others, when Han Fei fought Jia Tian and even Feng Qingcheng, he solved the battles with one or two blows, so they wouldn't have inner demons. That was because he hadn't shaken the other party's Dao heart, and the other party had lost convincingly.

But Shui Dongze was different. He was obsessed with getting first place in the Sea Establishment Realm. For that, he didn't even hesitate to curse Feng Qingcheng. He was truly bold.

For such a person, there must be a reason for him trying so desperately to obtain the first place of the Sea Establishment Realm. Now that his plan was ruined and he was specially treated by him, it was only natural that he developed inner demons.

When Han Fei saw Shui Dongze, he couldn't help but snort. "You? If the people outside attacked me, I wouldn't be able to resist at all. However, who do you think you are? How dare you come to me when you can't even resist one attack from me?"

Shui Dongze almost exploded. Shouldn't you be panicked? Shouldn't you be horrified? Shouldn't you be scared? Why are you so calm and can even curse?

Looking at Han Fei's proud posture, Shui Dongze gnashed his teeth and said with bloodshot eyes, "Ye Fengliu, don't be arrogant. Do you think I'm still the same as I was in the competition? Today, I'm going to crush you into pieces, turn your bones into ashes, and destroy your soul..."

"Heh ~"

Sensing Shui Dongze's anger, Han Fei put on a disdainful smile. "You? A piece of garbage who only knows how to play tricks, a piece of garbage who claims to be a Heavenly Talent but only has mediocre aptitude, and a piece of garbage who uses curses in combat? Kill me? Are you worthy?"

"A\*shole."

Shui Dongze's fury, accompanied by his blood Qi, swept across thousands of kilometers.

The more he was like this, the happier Han Fei was. The angrier he was, the better. Only anger could become nutrition for his nirvana.

Han Fei smiled. "Do you only know how to roar? You don't even know how to curse. Your incompetent fury is meaningless except to show your failure. If you want to kill me, come on! Today, I'll stand still and take your blow. I bet you can't kill me. Hahaha... If you can't even kill me like this, I advise you to kill yourself. You won't be able to open the sky in this lifetime."

Behind Shui Dongze, the expert in the early stage of the Sky Opening Realm, who was responsible for guarding him and saving his life when he was in danger, frowned slightly. He didn't know if it was an illusion, but he felt that Ye Fengliu was talking too much as if he was deliberately provoking Shui Dongze.

Under normal circumstances, Shui Dongze was very calm and often claimed to be aloof and insightful. However, everyone had a manic side. It was not that they wouldn't flare up, but that they didn't reach that point.

Now, Shui Dongze's rationality was gradually collapsing.

"Roar!"

He took a step forward, and his Associated Spirit, the Green Water Qilin, appeared. With a thunderous roar, it turned into water armor and attached to his body.

He waved his hand, and a jade-green spear, wrapped in water waves, was drawn into his palm. A thin golden pattern appeared between his eyebrows, like a cone sting.

At the same time, Shui Dongze's Qi, blood, and soul grew explosively. He was one head taller than before, and the power of heaven and earth gathered towards him.

Shui Dongze shouted, "Ye Fengliu, I've received the blessing of the Water God. I've used my vitality and soul power to refine the Life Spear. No one in the Sea Establishment realm can resist me. Let alone you standing still, even if you use all your strength, I can still kill you..."

Shui Dongze roared and let Han Fei draw his saber.

However, Han Fei glanced at him casually and said, "Are you proud to become stronger by self-mutilation? Invincible in the Sea Establishment realm? Do you know how high the sky is and how deep the sea is? Before, I thought that although your strength was a little weak, you were at least a little smart. Now, do you actually make yourself stronger in this way? Heh, you aren't even qualified for me to draw my saber."

"Ahhh ~"

At this moment, being despised by Han Fei, Shui Dongze was so angry that he no longer asked Han Fei to draw his saber but just wanted to kill him to prove his strength.

It was also at this moment that Zhang Daqian began to operate the Giant Beast Divine Dao.

Of course, he could see that Shui Dongze had become stronger, not just a little bit stronger, but a lot stronger. He knew Shui Dongze's plan. A Sea Establisher had a lifespan of 100,000 years. It didn't matter even if he lost 90,000 years at this time. As long as he won, he would be able to break through to the Sky Opening realm and live a million years.

And the Heavenly Race had Life Spring Water, so even if Shui Dongze's blood and Qi were consumed a lot now, after he advanced to the Sky Opening Realm, he could still make up for it. There was still a way to replenish his energy without damaging his foundation.

It was also because of this that Shui Dongze's combat power had soared by two times. Even though Zhang Daqian had a natural resistance to external soul power and power, he could hardly withstand Shui Dongze's attack now.

Therefore, Han Fei didn't block it but waited for Shui Dongze's spear.

Han Fei shouted, "Come on! Kill me! Do you think you're strong just because you've consumed some of your lifespan? A piece of trash is a piece of trash. Even if you risk your life to launch a blow, it won't kill me."

"Kill ~"

Shui Dongze, whose eyes had turned bloodshot, clutched his spear angrily and thrust it out. The void changed color as if there were endless huge waves roaring and pouncing. The sky and the earth dimmed. Only the spear beam shook the heavens and the earth as it slashed out.

Behind Shui Dongze, the guardian nodded quickly, feeling that this spear was too powerful. Even he would be easily shattered by this blow. However, Ye Fengliu did not dodge at all and even gave Shui Dongze a middle finger.

He would take advantage of this last moment to infuriate Shui Dongze as much as possible. Otherwise, he wouldn't be able to do it again.

"Puff ~"

Buzz~ Bang~

The spear light was like a tide, surging and falling on Han Fei. As it struck him repeatedly, Zhang Daqian's flesh and blood were melting, his bones were cracking, and his soul was collapsing.

However, even after Zhang Daqian was crushed into nothingness, the disdain on his face didn't disappear.

"Ahhh~"

Shui Dongze ferociously thrust the spear at the place where Han Fei died. However, the disdain at the corner of Han Fei's mouth lingered in his mind.

Shui Dongze roared, "Ye Fengliu, aren't you strong? Aren't you good at fighting? Didn't you say you could take my blow? You piece of trash, you piece of trash, you piece of trash..."

However, at that moment, time seemed to be frozen.

The person behind Shui Dongze looked at the sky. Where was the Great Dao crack?

"Impossible! How could a Sea Establisher block such a blow?"

Bang!

Shui Dongze suddenly flew back. In the surrounding eight thousand kilometers of void, there seemed to be mysterious patterns intertwining. A

strange fire lotus was connected to Shui Dongze, constantly extracting a kind of fire Qi from him.

Shocked, Shui Dongze brandished his spear and tried to cut it off, but the chain of fire on his body couldn't be cut off at all.

In this world, endless spiritual stones, spiritual springs, earth vein spring water, spiritual fruits, and various other treasures were alternating and gathering into mysterious patterns.

In the blink of an eye, a huge octopus eight hundred kilometers long appeared in the void, baring its fangs and brandishing its claws, grabbing the fire lotus and absorbing it into its body.

It was also the first time that Han Fei felt a nirvana. Death and rebirth felt as short as an instant and as long as a century. With raging fire guiding him, the Dao patterns of the heavens and earth were imprinted on his body, and his bloodline, soul, and strength were all strengthened.

At that moment, Han Fei felt that he had become the sky, overlooking everything and watching Shui Dongze rage. With a thought of him, the world condensed a true body for him.

Buzz!

At that moment, Pan Litian, An Taiping, and the others all looked at the void. They could vaguely see an octopus in the sky.

“Bloodline Awakening?”

Yes, An Taiping and the two guardians of Shui Dongze noticed that Han Fei had awakened his bloodline. Pan Litian, on the other hand, was shocked. If this was a bloodline awakening, wouldn't Ye Fengliu be experiencing a third bloodline awakening?

At that moment, someone wanted to fly into the sky and attack him personally.

The Sky Separation Seal smashed down, and Pan Litian roared, “Where are you going? Stay here...”

Pan Litian knew that as long as Ye Fengliu survived this tribulation, his future would be unimaginable. He must not let these people stop Ye Fengliu's awakening.

...

Shui Dongze was dumbfounded. Even his guardian, who was in the early stage of the Sky Opening realm, was dumbfounded. Ye Fengliu could be resurrected? What was Ye Fengliu's background?

Besides, with such a huge body, was this a f\*cking Star Sea Giant Beast? How could this be a human?

In the blink of an eye, the mysterious patterns were imprinted on Zhang Daqian. He felt that his basic combat power had been doubled.

The huge octopus turned into a figure. Who else could it be but Zhang Daqian?

Han Fei sneered. "Is that all?"

Shui Dongze was horrified, shocked and puzzled.

"How can you still be alive? Impossible..."

Shui Dongze lost control and attacked again, burning the last of his lifespan.

Ignoring Shui Dongze, Han Fei spread his arms and felt his full strength. What a powerful Dao! At the moment he stepped on the Giant Beast Divine Dao, he didn't know that the effect of one rebirth would be so powerful.

When the terrifying spear that even a Sky Opening realm expert couldn't understand pounced at Han Fei again, Han Fei raised his hand and drew his saber. That saber contained extraordinary power that Sea Establishers never had. It was completely the power of the Sky Opening Realm.

In the distance, Duan Qingsi was shocked. "What kind of Dao is this? So strong. He's at the peak of the Sea Establishment Realm but has the power of the early stage of the Sky Opening Realm. His physique is also extremely strong. If this person can open the sky..."

Duan Qingsi didn't continue because she realized that if this person opened the sky, he could probably match a Sky Opening Realm expert who was about to have a 250,000-kilometer Star Transformation.

Duan Qingsi's face changed slightly. "No, this man must be killed."

However, Han Fei stopped in front of Duan Qingsi. The latter's eyes turned cold. "You want to stop me? If this person grows up, the consequences will be disastrous. This is an enemy who has a chance to prove his Dao."

Helpless, Han Fei said casually, "Don't worry. He's not from the Ten Thousand Scale Race."

"Huh?"

Duan Qingsi suddenly looked at Han Fei in shock. His meaning was self-evident.

Duan Qingsi looked at Zhang Daqian again and then at Han Fei. "Who is he?"

Han Fei didn't answer, and at that moment, Zhang Daqian didn't draw his saber, allowing Shui Dongze to stab him again. This spear was equally terrifying. It took Shui Dongze a full half a second to pierce the skin of Zhang Daqian, but the power was absorbed by Zhang Daqian in the blink of an eye.

Swish ~

A saber beam bloomed, and the Draw Technique shone again. The infinite energy wave was cut apart by the saber beam. Shui Dongze was so shocked by the saber beam that he forgot to dodge for a moment. The guardian of the Sky Opening Realm hurriedly stood in front of him and thrust out his palm, trying to crush the soul of Zhang Daqian.

However, in the next moment, the other party's soul power seemed to be mired in mud. As for Zhang Daqian, his eyes emitted a blue soul fire light as he activated his innate ability, Immortal Ray. With a single strike, he pierced through the soul of the Sky Opener and directly destroyed the other party's entire soul. Even his soul mark was shattered.

Rumble!

The weather suddenly changed, and this person died on the spot. He had never thought that he would be defeated by a Sea Establisher. He had only come to guard Shui Dongze, protecting him when he was in danger.

But he didn't expect that he would be killed.

Zhang Daqian pierced through the wave of the Great Dao of Water with one hand and put his other hand into Shui Dongze's heart. He grinned. "Life Devour."

He activated two innate talents in a row for others to see his talent and potential, so as to develop better in the City of Scavengers.

Shui Dongze's body was drying up, aged, and withered at a visible speed.

Soon, Shui Dongze perished.

However, Han Fei just nodded indifferently. For now, he was quite satisfied with Zhang Daqian. This breakthrough had raised his bloodline, soul, and strength by a level, and his potential had soared too.

Duan Qingsi finally looked at Han Fei. "Is he your man?"

Han Fei smiled. "Sort of!"

For a moment, Duan Qingsi felt that Han Fei was unfathomable. He was indeed trying to subvert the City of Scavengers. According to this person's mysterious and forbearing personality, she seemed to see another Gu Tingnan, another Master of Silence. Sure enough, anyone who could be called the Human Emperor was not ordinary.

...

On the other side, although Pan Litian was having a hard time fighting, he managed to last for half an hour, fighting from the void to the Sea Realm, and from the Sea Realm to the void.

All of a sudden, he saw Zhang Daqian kill a Sky Opening Realm powerhouse. For a moment, he was refreshed. This guy must not die.

Seeing that the two people behind Shui Dongze changed their expression and tried to break away from the battle, Pan Litian, who had pretended to be at a disadvantage, suddenly jumped up. While the three people on the opposite side were stunned, the center of his eyebrows surged, and then a strange ferocious shadow appeared.

The ferocious shadow pointed at the void and unleashed the power of a Monarch. Even Han Fei would be seriously injured if he blocked this blow.

Sure enough, the 100,000-year competition was just a competition for young people. The real older generation was still extremely powerful.

Rumble!

Pan Litian failed to kill An Taiping because the Heavenly Cicada Family was too fast. He was only able to kill one of them by surprise with the suppressing effect of the Sky Separation Seal.

Therefore, this time, Pan Litian chose to attack the two people behind Shui Dongze.

Sure enough, one of them couldn't resist this blow that was comparable to that of a Monarch at all. Even his body and soul were instantly blown up.

Pan Litian raised the Nine Dragon Sword high. "Kill~"

Hearing the thunderous roar, An Taiping and the nameless expert both cowered.

An Taiping took action because the City of Scavengers was too outstanding this time. They had two people in the top ten. These two people would definitely become a great threat in the future.

That was why they chose to attack.

The nameless expert seemed to be seeking revenge, but the result was far beyond their expectations.

Seeing that Pan Litian still had the strength to fight, the two of them looked at each other and ran away.

Pan Litian could kill even when he was fighting three enemies alone. God knew if they would be killed since he was only fighting two now.

Duan Qingsi was shocked. "Pan Litian was definitely not this strong before. He hid his strength."

Han Fei seemed to have expected it. He simply said, "Let's go. One for each of us."

Duan Qingsi: "???"

Han Fei said, "I mean the two who escaped, one for each of us."

2499 Great Dao Locks

Han Fei was chasing the person behind Shui Dongze. How dare he covet Zhang Daqian's body? Who was he looking down upon?

Therefore, a moment later, when Han Fei stood in front of this person, this person frowned. "Who are you?"

Han Fei looked like Ren Tianfei at this moment. Just as he said, after leaving the Divine Capital Dynasty, the name Han Fei would disappear.

This person didn't recognize Han Fei, so he sneered. "How dare you, who haven't even reached the peak-level late-stage Star Transformation Realm, stop me?"

Han Fei didn't say anything. This person's purpose was pure revenge, so was his purpose, which was to kill.

Han Fei drew out a long saber and slashed out. All Daos combined into one, combined with the invincible will, produced a terrifying power almost equivalent to a Monarch's blow.

The harvesting of the path of invincibility was much more beneficial than Han Fei had imagined. Now, Han Fei's casual slashes carried an invincible momentum, which increased Han Fei's pure combat power by about 20%.

At this moment, Han Fei hadn't completely eaten Zhao Qinglong's path of invincibility. They were of the same origin, but he still needed time to refine it, so at this moment, only his combat power was strengthened.

"What? How is it possible?"

The man was horrified. He had just seen this power from Pan Litian, and now he was seeing it from a stranger. More importantly, this stranger didn't even seem to reach the peak-level late-stage Star Transformation Realm. How could he believe it?

"Ahhh~"

This person erupted, burning his bloodline and unleashing a Star Bead strike. But in the next moment, a fist light, like a starburst, illuminated the sky.

Rumble!

A destructive explosion swept across the surrounding void.

But Han Fei still shook his head slightly. Sure enough, he underestimated a super expert who had reached the perfected Star Transformation Realm. His two outbursts only seriously injured this person.

Sure enough, the people who appeared in the 100,000-year competition were still too young. Even their peak-level combat power was slightly inferior to the senior's.

Without wasting any time, Han Fei issued an order in his heart, and the man paused and fell into a daze. Then, there was nothing else.

...

Pan Litian didn't dare to stay any longer when the two of them retreated. He did not expect Qi Tonghai to be dead, but he must not die.

The forceful outburst just now had loosened the seal in his body. If anything unexpected happened, it would probably be tricky.

Therefore, Pan Litian escaped as quickly as possible. But even so, when Pan Litian sensed that the weather seemed to have changed a little, his heart did a flip. He had run so far, but he could still feel the weak changes in the weather. This was probably the death of at least a peak-level late-stage Star Transformation Realm cultivator.

On the other side, Duan Qingsi just followed An Taiping but didn't attack immediately. An Taiping was too fast, which was the advantage of the Heavenly Cicada family.

Therefore, if possible, it was best to kill An Taiping in one blow or trap him. This was the normal hunting method.

However, less than an hour later, Duan Qingsi suddenly felt that the weather here seemed to have changed slightly.

Duan Qingsi and An Taiping were dumbfounded.

What Duan Qingsi was thinking was that Han Fei solved a perfected Star Transformation Realm cultivator so quickly? Are you kidding me?

An Taiping, on the other hand, was slightly frightened. Could it be that Pan Litian had caught up again? How could this person be so terrifying? Could he fight four alone? Had he completely unlocked the Great Dao Lock?

Thinking about that, An Taiping immediately fled.

Duan Qingsi had no choice but to let go of An Taiping who was running at full speed. If she chased him at full speed, she would alert the enemy, and then it would be extremely difficult for her to hunt An Taiping.

However, not long after An Taiping ran, Han Fei arrived. Seeing Duan Qingsi, he sensed the nearby space and couldn't help but ask in confusion, "You didn't attack?"

Duan Qingsi asked at the same time, "Did you kill that person?"

Han Fei grinned. "It's done. Where's An Taiping?"

Duan Qingsi said, "He was scared away by the abnormal astronomical phenomena. As you know, the people of the An family are too fast. If I attack, I can only launch a sneak attack. Otherwise, I won't be able to take him down."

Han Fei thought to himself, Duan Qingsi, who used to look so strong, was not strong enough in terms of speed alone!

Han Fei: "Then let's chase him! I don't believe he can run for long!"

Duan Qingsi said, "Be careful. An Taiping and Pan Litian are not simple. If I've guessed right, they have both used the Great Dao Locks in their bodies to seal their strength."

"Great Dao Locks?"

Han Fei looked at Duan Qingsi in confusion. It was the first time he had heard this term.

Duan Qingsi said, "When you reach the end of the Star Transformation Realm, your body can't bear the growth of power, and you dare not prove Dao, so you have to find a way to seal your strength, so the Great Dao Lock is

produced. The more Great Dao Locks in one's body, the stronger this person is."

Han Fei was surprised. "What if the locks are lifted? How strong will they be?"

Duan Qingsi said, "It's hard to say. Pan Litian must've unlocked one of the seals just now."

Han Fei tilted his head and looked at Duan Qingsi. "What about you?"

Duan Qingsi said, "No comment. We don't know each other well."

Han Fei: "..."

Three days later.

An Taiping didn't stop until he ran very far away. This time, he suffered a huge loss. Pan Litian was indeed powerful. Just now, he felt that Pan Litian was about to burst his real strength. The other party had at least three Great Dao Locks in his body, which exceeded his guess. He had thought that in the City of Scavengers, only Zhao Daoyang was the peak expert of the Perfected Star Transformation Realm. But now it seemed that the rumors outside that Pan Litian was only slightly weaker than Zhao Daoyang were true.

After another half a day, An Taiping even stayed in a certain camp.

Less than an hour after they set off again, peace prevailed. When they stepped into a sea area, suddenly, countless silver threads appeared in the void.

Buzz!

"Chirp!"

An Taiping was very fast. He had known that Duan Qingsi was coming the moment he saw the silver wire.

Earlier, it was he who hunted Pan Litian, but now it was Duan Qingsi who hunted him. Was there really a retribution? Or had Duan Qingsi been following him all the time?

In the next moment, before the person arrived, a voice came from the void. "An Taiping, once you enter my Silk Domain, your speed will be suppressed to the extreme. Let's see if you can escape."

An Taiping's face changed, and then he snorted coldly. "Duan Qingsi, don't think I don't know. You're the only one from the City of Wanderers who came this time. It's not like we haven't fought before. You can't win. Why bother?"

Duan Qingsi snorted coldly. "Let's see if I can win this time."

Swish ~

Bang!

On the other side, Duan Qingsi and An Taiping instantly entered a battle state. Because they were in Duan Qingsi's Silk Domain, An Taiping was almost completely suppressed.

However, as An Taiping said, he didn't lose either.

An Taiping's speed was too fast, and his physique and soul power were not weak. They were relatively balanced. As for Duan Qingsi, her strength lay in her soul.

However, what surprised Han Fei was that he thought Duan Qingsi's speed was not fast enough, but he was wrong. After the two of them fought for a while and part of the Silk Domain was broken through, in an extremely short period of time, both of them burst out with a terrifying speed that exceeded 15 times the speed of light.

Judging from this, even though Duan Qingsi's physique was weak, she was already very powerful.

Finally, after An Taiping was sure that he couldn't break through the Silk Domain, he roared, "Duan Qingsi, you forced me to do this. God's Arrival..."

At this critical moment, An Taiping suddenly felt a sense of crisis. He subconsciously took out a token.

However, the moment the token appeared, he found that it was gone before he could activate it.

In the next moment, An Taiping felt that his eyes were blurred and he felt dizzy.

Fortunately, God's Arrival Technique protected him. Anping recovered quickly and managed to withstand the power of the Void Stealing Technique.

Hardly had he resisted the Void Stealing Technique when An Taiping roared. With two cracking sounds, something seemed to be broken, and An Taiping's strength soared instantly.

However, it was too late. The moment he came back to his senses, a knife had already crushed most of his body.

Many threads of silk clasped most of his soul.

"Ahhh~"

An Taiping didn't expect that he was taken advantage of and robbed of his consciousness with a magical power because he used the God's Arrival Technique.

When he was dying, he seemed to realize something. Unfortunately, there was no time for him to think. His soul seemed to have suffered a terrifying invasion. Even when he died, he couldn't regain consciousness.

Han Fei put away the Void Lines. He had absorbed a lot of soul and vitality from An Taiping. After making a simple supplement to himself, Han Fei grinned and said, "His corpse is mine." [novelnext.com](http://novelnext.com)

Duan Qingsi looked at Han Fei in surprise, which made Han Fei's hair stand on end.

She was shocked. Han Fei's methods were too strange. An Taiping had already erupted and his strength soared, but he failed to exert his full strength and was killed like a target.

Han Fei asked, "What are you looking at?"

Duan Qingsi took a deep breath and said, "You are Han Fei."

Han Fei was stunned. "Huh? Who?"

Duan Qingsi's eyes were firm. "Stop pretending. You've used that technique many times in the Divine Capital Dynasty. Once or twice, no one noticed anything wrong, but in the end, no one is a fool. Many people know that you have this strange power. They all think it's a divine technique that can deprive others of their consciousness."

Han Fei was silent for a moment. "It's just a coincidence."

Duan Qingsi sneered. "What a coincidence. I knew that you must have participated in the 100,000-year competition of the Sky Opening Realm, but I never found you. Now I know it's because I never thought that you would be so high-profile."

The corners of Han Fei's mouth twitched. "Forget it. Since you've found out, I won't pretend anymore. However, I hope you can keep this matter a secret."

Duan Qingsi was a little shocked. She had seen Han Fei before, when Han Fei met Pan Litian. However, at that time, Han Fei only had a chance to escape. If she hadn't appeared, Han Fei might not have been able to escape.

But now, Han Fei had killed two perfected Star Transformation Realm cultivators in the blink of an eye. What did this mean? This guy was probably already invincible in the Sky Opening Realm.

Duan Qingsi and the others left early, so they didn't know that Han Fei had killed Zhao Qinglong, nor did they know that Han Fei was a disciple of the Void Temple. Otherwise, she would be even more shocked.

She felt a little complicated now. Han Fei, who called himself the Human Emperor, was going to compete with Gu Tingnan for the position of Human Emperor. This guy was growing so fast. Could he really have a chance to become the Human Emperor?

Duan Qingsi said with a complicated expression, "Are we still chasing Pan Litian?"

Han Fei looked at Duan Qingsi with a smile, and the latter suddenly realized, Yes, they didn't need to chase Pan Litian anymore. Someone had to take the blame.

When they went back, they would spread the news that Pan Litian killed An Taiping and the others and revealed Pan Litian's hidden strength, it would naturally cause a rift between the City of Origin and the City of Scavengers.

Han Fei said, "Alright, those who should die are dead. It's time for us to part ways. By the way, let me remind you of something. You must tell it to Gu Tingnan."

Duan Qingsi's face turned cold. "Han Fei, that's the Master of Silence."

Han Fei waved his hand and said, "Don't talk about the Master of Silence. When you go back, tell him that the current Ten Thousand Scale Monarch is fake. There are shocking secrets about the Chaotic Wasteland. Ask him to take the City of Wanderers away from the Chaotic Wasteland as soon as possible."

"What? Is the Ten Thousand Scale Monarch fake? Han Fei, I'm not the only one who has seen the strength of the Ten Thousand Scale Monarch. You must have also..."

Han Fei became serious. "I'm not joking with you. There are secrets in the Chaotic Wasteland that you don't know at all. Just tell Gu Tingnan what I said."

2500 Shocked Zhou Jingjing

Duan Qingsi hurried away at full speed.

She didn't think that Han Fei made such a joke because of the competition for the Human Emperor. The Ten Ten Thousand Scale Monarch was fake? Then where was the real one? Was there a real one?

Besides, when they entered the Chaotic Wasteland in the past, they had felt that there was something wrong with this place. The tidal waves there were too regular. The sea there was like the Place Unknown and seemed to contain many unanswered mysteries.

Therefore, Duan Qingsi had some guesses about the secrets that Han Fei mentioned, so she hurried back.

Han Fei, on the other hand, quietly used the Vast Ocean Navigator to find out the direction where Pan Litian left.

More than three months later.

Having been ambushed once, Pan Litian didn't dare to stay any longer and planned to return to the City of Scavengers at full speed.

On this day, Zhang Daqian suddenly said, "Master Litian, I think it's time for me to open the sky."

Han Fei actually felt a little regretful, because Pan Litian protected them too well. Han Fei actually wanted to slowly go back to the City of Scavengers from the Divine Capital Dynasty. In this way, he might be able to become stronger before he opened the sky.

However, Pan Litian replied, "Hold it back until we return to the City of Scavengers. The wilderness is too dangerous. It's not the right time to stop here."

Pan Litian was afraid that the people from the City of Origin or the City of Wanderers were waiting for him outside the Chaotic Wasteland. If the two parties joined forces, he would be in trouble.

Han Fei wanted to take the opportunity to stop but failed. He could only follow Pan Litian all the way to the Chaotic Wasteland.

After seeing that Pan Litian had successfully entered the Chaotic Wasteland, Han Fei frowned slightly. Forget it. Anyway, he had to return to the City of Scavengers. He didn't know how Hong Yue and the others were doing now. By logic, Hong Yue should be about to open the sky at any time. The others were also going well on the path of Sea Establishment, but they lacked some experience. When he returned, he could see if they had a chance to open the sky.

As for Zhou Jingjing's Sea Monster Fortress, it might also be near the Chaotic Wasteland.

Watching Pan Litian walk all the way towards the Chaotic Wasteland, Han Fei thought for a moment and decided to find Zhou Jingjing and the others first. There were also more than a hundred thousand people in their Giant Whale Fortress. Although those people looked very weak now, they had good potential. What he needed was not to make a bunch of people strong but the entire human race strong.

How could such a huge race cross many steps to become strong all at once? It was a huge step from the Venerable realm to the Sea Establishment realm. It was already not bad to be able to take these steps steadily step by step.

As for Pan Litian, he didn't take a long breath of relief until he entered the Chaotic Wasteland. For some reason, along the way, he felt strange as if someone was secretly watching him. This made him directly reject Ye Fengliu's application to open the sky.

Fortunately, the moment he entered the Chaotic Wasteland, the feeling of being spied on disappeared. Only then did he slowly relax.

After clearing his mind, Pan Litian went straight to the City of Scavengers.

On the other side.

In the Giant Whale Fortress that was wandering in a slightly remote area outside the Chaotic Wasteland, Zhou Jingjing and the others were digging an underground seabed mine.

The miners were the two old men in the Sky Opening Realm of the Giant Whale Fortress. Zhou Jingjing didn't do it personally but had been observing the Sea of Stars. Although this place was very desolate, it didn't mean that there was no danger here. She needed to pay attention at all times.

At this moment, a large number of spiritual stones, mineral veins, and Earth Vein Spring Water were seized. Someone said, "Jingjing, there are really not many resources in this mineral vein! If we keep digging like this, it will take us at least decades to collect enough resources for you to enter the Star Transformation Realm."

Another person also said, "Yes! Jingjing! Let's go to places with abundant resources! It's been more than fifty years, but he hasn't come. I estimate that this round trip may take hundreds of years. If we go to the central area and loot a few more times, it might be enough for you to enter the Star Transformation Realm."

Zhou Jingjing said, "No! Since we've agreed on this, don't think too much. It's indeed slow, but itinerant cultivators like us don't have anything except time. I

know that you two are about to enter the Star Transformation Realm and don't have enough resources. This can't be helped. Since we've already bet, let's not give up halfway through."

One of them said, "Jingjing, do you think that even if we follow Han Fei, he will give us enough resources to enter the Star Transformation Realm? Jingjing, you'll have a 360,000-kilometer star transformation. Although the two of us can't open up such a huge Origin Sea, we'll probably have a 280,000 to 300,000-kilometer star transformation. And the hundreds of thousands of brats in the Giant Whale Fortress, they are crying and begging for food, so the resources we need are a lot. It's not that I don't believe in Han Fei, but I just think that maybe he doesn't have that many resources. Think about it, he hasn't entered the Star Transformation Realm himself. He definitely needs more resources to do that than us!"

The other person sighed slightly. "Li Tong, forget it. Let's take it slow! In fact, it's not good to go to the central area. Have you forgotten how Old Ma and Old Liu died? Now there are only the three of us left. Resources are exchanged with our lives. I think Han Fei's potential is definitely better than ours. As long as he doesn't die in this 10,000-year competition, he will definitely rise to prominence. Perhaps he has already entered the Star Transformation Realm. If we follow him, as long as he can become stronger quickly, we might be able to do better than in the central area in the future."

Li Tong sighed. "Fine, Old Wang, your words make sense. Jingjing, the resources here are almost empty. Shall we dig the roots?"

Digging the roots meant to completely cut off the ground veins here, leaving it no chance of resource regeneration. The advantage was that the resources could be increased by about 20%. The disadvantage was that once the root was dug, the ground veins would be useless and no more resources would be produced, and it would be impossible to obtain any resources from here in the future. Zhou Jingjing shook her head. "No, don't. The resources between the heavens and earth are limited. Besides, we can't get much more resources by digging the roots..."

Suddenly, the void opened, and Zhou Jingjing and the others were shocked. Who was so close to them? They didn't notice at all.

Zhou Jingjing roared, "Come back! Run!"

However, a light figure appeared among the three of them. When they took a closer look, their eyes widened. Wasn't this Han Fei?

Han Fei glanced at them and the resource point that was less than ten thousand kilometers long. He said casually, "I'm back. Why don't you give me some applause or welcome?"

Li Tong and Wang Xu sighed inwardly and then cupped their hands at Han Fei. "Master."

They had no choice but to call Han Fei their master! Although they didn't get much in return, they would have to follow Han Fei in the future, so they had to call him Master no matter what!

Zhou Jingjing's eyes also lit up. "You... Master, you're back?"

Han Fei nodded slightly and looked at Zhou Jingjing. "Huh! I left you some resources before I left. Why haven't you entered the Star Transformation Realm after all these years?"

Zhou Jingjing slightly opened her mouth, and then Li Tong said, "Master, Jingjing has been working very hard. Not just Jingjing, there are still many other people waiting for resources in the Giant Whale Fortress. In order not to affect their cultivation, most of the resources you left behind have been used to maintain their cultivation."

Han Fei heard a trace of complaint in his words, but he couldn't blame him. After all, as his master, he hadn't helped them much all these years.

He looked at the resource point again, thought for a moment, and asked casually, "Zhou Jingjing, how large is your Origin Sea now?"

When Han Fei and the others parted ways, he didn't know much about star transformation, so he didn't ask Zhou Jingjing about the size of her Origin Sea.

Zhou Jingjing was happy and surprised about Han Fei's return, but when she heard Han Fei's question, she was dispirited and said bluntly, "360,000 kilometers."

As she spoke, Zhou Jingjing seemed a little disappointed with the fact that she was going to have a 360,000-kilometer star transformation.

However, Han Fei nodded slightly and said, "Not bad, it's a heavenly-number star transformation. How many resources do you lack now?"

"A heavenly-number star transformation?"

Zhou Jingjing didn't understand this. Han Fei said, "The so-called heavenly-number star transformation means 250,000-kilometer, 360,000-kilometer, 490,000-kilometer, and 640,000-kilometer star transformations. For example,

having a 360,000-kilometer star transformation, one may have greater potential than those who had a 480,000-kilometer star transformation.”

“What?”

Instantly, Zhou Jingjing exclaimed, “Really?”

Li Tong and Wang Xu exclaimed too, “We’ve never heard of it.”

Han Fei nodded and then looked at Li Tong and Wang Xu. “What about you two? How big are your Origin Seas now?”

Li Tong hurriedly said, “Master, mine is 280,000 kilometers.”

Wang Xu said, “Master, mine is 300,000 kilometers.”

Han Fei nodded slightly and then looked at Zhou Jingjing. “What about you? How much resources do you lack?”

Zhou Jingjing’s face was slightly red. “Probably 200,000 kilometers of resources.”

Han Fei’s heart stirred. Zhou Jingjing’s slow progress might not only be because of resources, but also because of energy.

Han Fei asked, “Did you feel that your resources were consumed too quickly when you tried to transform your Origin Sea into a star?”

Upon hearing this, Zhou Jingjing’s eyes lit up, and he quickly nodded. “Yes, Master. Have you already entered the Star Transformation Realm?”

Han Fei didn’t tell them his current level. He nodded slightly. Then, he took out three small worlds and threw them at the three of them. “These three small worlds each have 430,000 kilometers of resources. Take them for your star transformation first.”

“Hiss?”

“Huh?”

For a moment, Zhou Jingjing’s eyes widened. Li Tong and Wang Xu looked at each other, too shocked to say anything. 400,000 kilometers of resources?! That was almost enough for them to directly enter the Star Transformation Realm!

Ignoring their surprise, Han Fei casually threw out another small world and said, “There’s also a small world here. There are also 400,000 kilometers of resources in it. Use it to maintain the cultivation of the people in the Giant Whale Fortress. Also, wait for me for a while.”
