

God of Fishing - Chapter 2521 - 2521 Godfiend Formless Technique

Could a person live in the form of Yang Soul?

The answer was yes. As long as he cultivated a Yang Soul, he wouldn't be afraid. Even if his body was destroyed, he would still be extremely powerful.

Therefore, the old turtle didn't intend to continue sleeping. He had to save himself.

An avatar had the fate of an avatar. Although the old turtle didn't want to admit what Han Fei said, if what Han Fei said was true, he felt that he might really be an avatar of someone else, and one that wasn't created with the original body's soul.

!!

Once such an avatar fused with the original body, it was equivalent to being gone. It would definitely be dominated by the original body's soul. Even his various memories would become an experience of the original body's soul.

However, now that the old turtle had come out, he didn't want to return, so he could only become stronger. The best way to get rid of his original body was to become stronger, so strong that the original body didn't dare to fuse with him.

Besides, the old turtle had to create his own body. It was impossible for him to walk his path of cultivation with just the Yang Soul. The Dao of perfect balance, which was a demonic Dao, required a powerful body.

The old turtle said, "Han Fei, I know you have walked the Dao of balance before. I also suggest you walk the Dao of extreme balance. Do you still remember?"

The old turtle had been sleeping, unaware that Han Fei had actually felt extreme balance.

Upon hearing this, Han Fei couldn't help but nod. Then, his heart skipped a beat. "Are you saying that you brought out the cultivation method of this Dao of perfect balance?"

Han Fei never thought that the old turtle's original body would let the old turtle bring this cultivation technique back. Logically speaking, this was impossible! Once the old turtle found out that he was only an avatar, he would definitely think of a way to rebuild his body. As long as he could rebuild his own body, it would be easy for him to break through to the Perfected Star Transformation Realm, or even prove Dao.

Once the old turtle proved Dao, would his original body still have the confidence to fuse with him?

The old turtle said, "You've thought of it? I guessed it too. It's possible that he deliberately stored this cultivation technique in my memories. In this way, I can cultivate in the outside world, become stronger, and even prove Dao. But since he dared to give it to me, he doesn't seem to be afraid of me proving Dao. Therefore, if I am an avatar, my original body might have already been a Monarch-level turtle."

Han Fei clicked his tongue. "You are a Yang Soul body now. Do you know how difficult it is to refine a body comparable to you?"

The old turtle nodded. "I know, but there's actually a chance. There are plenty of treasures in the Infinite Mining Area. I might even be able to find a suitable mine demon. In short, there are many conditions to rebuild my body in the Infinite Mining Area."

Han Fei was astounded to hear that. "F*ck, did your original body design this for you?"

The old turtle looked solemn. It was very likely. He knew that if you told me about this, I would definitely go to the Infinite Mining Area to find a way to rebuild my body. More importantly, as far as I remember, this matter... wasn't difficult.

Han Fei suddenly said, "Then let's play it by ear. But teach me the Dao of perfect balance first. Let me see how perfect it can be."

Although Han Fei had thought of entering the Godfiend Sea to find this cultivation method, after experiencing the horror of the Godfiend Sea, he gave up this idea for the time being. He felt that maybe he wasn't in a hurry. When he became stronger, he could find a way to study this Dao of perfect balance!

But now that the old turtle had coincidentally brought out this cultivation method, how could he not want it?

Han Fei immediately said, "I know what you mean. But you have to take it one step at a time. If this cultivation method is indeed what I want, give it to me, and I'll make a decent body for you on this trip."

The old turtle knew Han Fei too well. This guy was a real genius. From a small world to the Raging Sea and then to the Sea Realm, he grew too fast and had great potential.

The old turtle didn't hide it. He said, "Before I teach you this cultivation method, there's something I have to tell you clearly. That is, anyone who cultivates this Dao of perfect balance is collectively called a demon. Outsiders treat demonic cultivators the same as they treat Extreme Daoists, or even worse."

Han Fei had already known the news, so he waved his hand and said, "It doesn't matter. Do you think I'll be afraid of becoming a demon?"

Not to mention that Senior Sister Green Lotus and Senior Sister Red Lotus were on this path. He had never felt that the double spiritual heritage in his body was of much use, but when Han Fei heard that there was the Dao of perfect balance, he knew that he might embark on this path one day.

This was because this path was too strong, so strong that Han Fei didn't care if it was demonic or not.

Besides, if the Supreme Divine Technique of the human race could be cultivated with the Dao of perfect balance, it meant that he had instantly broken the stalemate of the Star Devouring Technique.

Seeing the zeal in Han Fei's eyes, the old turtle knew that Han Fei really didn't care. Besides, Han Fei had never been a good person. Except for the fact that he had to treat the human race well, he looked like a demon in every aspect.

Because of the trust they had built up on each other over the years, the old turtle didn't hold back.

He shouted, "Don't resist. Accept a drop of my soul heritage."

Because Han Fei's Yang Soul was no weaker than the old turtle's, he immediately received a lot of information when the wisp of spiritual sense entered the center of his eyebrows.

In the end, the information gathered and formed a brand-new cultivation technique in his mind.

Godfiend Formless Technique (Sky Opening, Divine Quality)

Introduction: This is a technique for the myriad races that pursues the ultimate and perfect balance. This technique is suitable for all races and can be compatible with all kinds of Great Daos. Cultivating this technique can make the soul and body cultivate at the same time and evolve in the same body. They can fuse with each other, entangle with each other, and transform into each other to achieve the perfect balance of the soul and body. However, this cultivation technique is too abnormal and contradicts the will of the heavens. All races are born with one spiritual heritage and can't cultivate both the soul and the body. Therefore, cultivating this technique can easily cause a drastic change in temperament, body, and soul. It's even possible for the cultivator to completely become a demonic creature. This technique is not on the technique list of the Infinite Ocean.

Deduced Technique: Demon God Body

Spiritual Energy Consumed for Deduction: 1 million points of Immortal Qi

Effect: A perfect balance between the soul and the physique, perfectly compatible with the Dao of Heaven, transforms into the Heavenly Dao, and takes it as one's true self.

Disadvantage 1: It perfectly conforms to the Heavenly Dao. When in a pass, you will definitely suffer the backlash of the Heavenly Dao.

Disadvantage 2: All races are born with one spiritual heritage, which can't accommodate dual techniques. If you cultivate this technique, it's very easy for you to mutate and fall into the demonic Dao.

Note 1: To cultivate this technique, you must have an extremely powerful spiritual will. Otherwise, you will definitely fall into the Demonic Dao.

Note 2: The creator of this technique is both a god and a demon.

Han Fei couldn't help taking a deep breath when he got a preliminary understanding of the Godfiend Formless Technique. Sure enough, there were many drawbacks to a real ultra-quality technique.

The biggest problem with this technique was actually the fact that everyone was born with one spiritual heritage, making it impossible for the soul and body to cultivate in the same spiritual heritage.

As for the backlash of the Heavenly Dao, Han Fei didn't care much about it. It was already very dangerous to prove Dao. In fact, whether it was establishing the sea, opening the sky, or proving Dao, the heavenly tribulation one experienced was the backlash of the Heavenly Dao.

Whether it was a backlash or a test, there was no difference. At most, the heavenly tribulation caused by the Godfiend Formless Technique was stronger.

After seeing the information about the Godfiend Formless Technique and seeing that this technique could still be deduced, Han Fei was tempted. Although a million points of Immortal Qi was a lot, for techniques, sometimes it was not the higher the level, the better. In the Sky Opening Realm, the Sky Opening Realm technique was actually the most suitable for him.

After Han Fei pondered about the specific cultivation method, he was even more shocked. The cultivation method had a unique adaptability. As a fast cultivation method, it warned him to clear the operation trajectory of the cultivation method and slowly figure it out.

This also told Han Fei that it was not yet the time to deduce into the Demon God Body. If he couldn't even withstand the Godfiend Formless Technique, he would be courting death if he touched the Demon God Body.

While Han Fei was thinking about the Godfiend Formless Technique, he suddenly felt a wave of power. This power wave came too quickly, and he suddenly looked in the direction of the Giant Whale Fortress.

"Huh? Who would come to this place to hunt?"

"Old Yuan, let's go!"

...

Zhou Jingjing, Hong Yue, and the others were waiting for Han Fei. Although they didn't know what Han Fei was going to do, he obviously didn't want them to know.

However, not long after they stopped, suddenly, a Void Breaking Shuttle flashed over.

Before Zhou Jingjing, Hong Yue, and the others could react, someone laughed. "Haha, I didn't expect to encounter a sea monster fortress here. The ignorant are truly fearless."

In fact, there were only five people in the Void Breaking Shuttle. However, these five people were not weak. Among them, there was a peak-level late-stage Star Transformation Realm cultivator, and the other four were all late-stage Star Transformation Realm powerhouses.

In an instant, two of them charged at Zhou Jingjing and the others.

Hong Yue shouted in a low voice, "Yingyue, retreat."

Ying Yue and the others had just opened the sky and their realms weren't stable, so it was impossible for them to resist these people. But he was different. After cultivating for many years, although he had just opened the sky, his strength and physique were extraordinary. Even a late-stage Star Transformation powerhouse probably wouldn't dare to say that he could kill him with one strike.

However, in the face of that person, in an instant, Hong Yue's body was pierced through and half of his body exploded.

Zhou Jingjing's realm was higher than Hong Yue's, and Han Fei had also bestowed a great technique on her. In the blink of an eye, she exchanged injuries with her opponent, and they were evenly matched.

In the blink of an eye, Zhou Jingjing summoned the Blood Fiend Puppet.

The appearance of the Blood Fiend made the other two late-stage Star Transformation Realm cultivators who were trying to kill her retreat.

She shouted, "Whoever dares to take another step will be killed."

God of Fishing - Chapter 2522 - 2522 Bandits in the Mining Area

“Hmph!”

These people who had suddenly rushed over had thought that they could take down Zhou Jingjing and the others in a single clash. But who would have expected that Zhou Jingjing and the others' strength was not as weak as they thought?

They were a little careless. Otherwise, if they had attacked with all their strength at the beginning, things might not have been so troublesome.

This peak-level late-stage Star Transformation Realm cultivator stared at the Blood Fiend Puppet for a moment before sneering. “A puppet, even if it was in the perfected Star Transformation Realm when it was alive, can't really exert the combat power of the perfected Star Transformation Realm. Now, I'll give you a chance. Hand over all the resources you have, the sea monster fortress, and your soul and essence blood, and announce that you have joined our Black Wind Pirates. Then I'll spare your lives.”

!!

Hong Yue snorted coldly. “What a joke. Who do you think you are? How dare you ask us to pledge loyalty to you? I'm afraid you just want to die.”

The peak-level late-stage Star Transformation Realm powerhouse grinned and sneered. “Oh? A guy who hasn't even entered the Star Transformation Realm dares to be arrogant with me? Why don't you ask around? Our Black Wind Pirates are very famous.”

After that, he shouted, “Brothers, I'll contain this puppet! Leave this woman and this man and kill the others all.”

Bang! Bang! Bang!

Knock, knock, knock!

The peak-level late-stage Star Transformation Realm powerhouse really dared to stop the Blood Fiend alone. Holding two axes, his body was filled with monstrous blood Qi and he actually cut open the river of murderous aura.

On the other side, the four powerhouses in the late-stage Star Transformation Realm kept attacking. This time, even Zhou Jingjing was sent flying.

These people were full of killing intent, which stunned Hong Yue and the others. In just one clash, three human powerhouses were pierced through, and Hong Yue was almost crippled.

While Hong Yue and the others were shocked, these people were actually shocked too because they found that these people's physiques were unimaginably strong.

When they just opened the sky, their physique was probably not even 50% of these people's.

It was precisely because of this that no one died at the moment they attacked.

The peak-level late-stage Star Transformation Realm powerhouse had thought that it was only a matter of time for him to win.

However, just a second later, just as Yingyue and the others were about to be killed, a figure suddenly appeared here and stood in front of Yingyue. This person actually blocked this blow with his body.

When he came back to his senses, Han Fei pointed his finger and the head of the late-stage Star Transformation Realm cultivator exploded and his Star Bead shattered. He didn't even have the chance to resist.

The moment Han Fei appeared and killed someone, the members of the Black Wind Pirates immediately retreated, preparing to escape.

Stunned, the peak-level late-stage Star Transformation Realm powerhouse hadn't started running yet when he was locked onto by a terrifying fist mark.

As a peak-level late-stage Star Transformation Realm powerhouse, he was not afraid of battle, but he had never seen such a terrifying fist mark. The power was as if he was hit by an exploding star. His hands tried to resist, but his arms were melted by the punch. Even his flesh and blood exploded under the punch.

At that moment, in order to survive, this person unleashed the full power of the Star Bead between his eyebrows. It was all the power he could use in his Origin Star.

With this blow, this peak-level late-stage Star Transformation Realm powerhouse managed to resist one of Han Fei's Star Fists.

When this person came back to his senses, he found that the other three were already lying flat and their souls had been annihilated.

This peak-level late-stage Star Transformation Realm cultivator was shocked. F*ck, isn't it just an ordinary sea monster fortress? How can there be such a terrifying powerhouse in this damn place?

The tables had instantly turned. This made Zhou Jingjing, Hong Yue, and the others realize that there was an insurmountable gap between them and Han Fei.

An extremely powerful existence in their eyes couldn't even resist a blow of Han Fei. He almost killed the five in an instant.

Especially the punch that Han Fei threw out just now, the extremely explosive power was really like the explosion of stars, making them terrified. How could there be such a terrifying technique in this world?

At this moment, Han Fei put his hands behind his back and said calmly, "You are the first person who dares to rob and kill my men. Now, give me a reason not to kill you."

After that, Han Fei stared at this person.

This person was still in his skeletal state. His flesh and blood had just been annihilated by Han Fei's punch, and even his soul had been seriously injured.

While recovering his flesh and blood, this person cupped his fists at Han Fei in the posture of a puppet. "My lord, please spare my life for the sake of the Black Wind Pirates. I'm willing to give you a mid-quality godly weapon, a low-quality godly weapon, and 300,000 kilometers of resources as compensation."

His words were quite unyielding and bandit-like, as if he felt that a loss was a loss, and now that he lost, he would just spend money to ransom himself. Of course, he was still looking forward to something.

"Oh?"

Han Fei couldn't help but look surprised. Were the people here so rich? It was not the 300,000 kilometers of resources, but that this guy had two godly weapons.

And this was just a random pirate team. What if it was the entire pirate group?

Han Fei looked at the shuttle-shaped thing that looked like a flying boat. It didn't seem bad. After reading the information, Han Fei learned that it could unleash a terrifying speed ten times the speed of light.

It must be noted that this speed was not something that could be achieved easily. To put it bluntly, the Void Breaking Shuttle was as valuable as a mid-quality godly weapon, or even better.

Besides, this thing could be driven with Immortal Qi, which was very convenient.

Han Fei suddenly grinned and said, "Thank you very much for the information you provided. But since your brothers have gone ahead of you, you should go with them!"

The man raised his head. "I'm afraid you can't bear the consequences of killing me."

"Heh ~"

Han Fei sneered and grabbed at the air with one hand, directly depriving this peak-level late-stage Star Transformation Realm powerhouse of his consciousness.

When Han Fei appeared beside him, he cast the Void Lines out and took back two battle axes and a battle suit. These were the godly weapons he mentioned. With a thought, Han Fei could easily sever the connection between the godly weapons and this person.

Han Fei looked around and finally fixed his eyes on Li Tong, who was behind Zhou Jingjing. Han Fei said, "Li Tong, you're the only one here who uses axes. This pair of mid-quality godly weapons are for you. I see that your strength has stopped recently, so I think it's time for you to upgrade. You'd better open up your Origin Sea as soon as possible and prepare to transform it into a star. I'll get you a Star Core then."

Li Tong was flattered. It was a mid-quality godly weapon, and a whole set! He never expected it to fall into his hands.

At that moment, Li Tong was so excited that his voice was trembling. "Thank you, Master Human Emperor. I won't let you down. I actually want to improve my bloodline before I transform my Origin Sea into a star. I will definitely enter the Star Transformation Realm in ten years at most."

Han Fei's heart stirred. "Huh? It's fine. Come to my Origin Star later."

After that, Han Fei looked around and said, "Everyone, you are my first batch of followers. I won't hide some things from you. The Great Dao of Time is also one of my Great Daos. Those who need time acceleration can tell me and enter my Origin Sea to cultivate. I can provide you with a hundred times the time acceleration."

If Han Fei wanted to quickly build a super force of his own, he couldn't take the ordinary path. Otherwise, the cultivation of a strong master would take thousands of years.

Even for the children of the big clans who had enough resources, it would take hundreds of years to build a strong master.

However, if it was a hundred times faster, how terrifying would it be? Anyway, Zhou Jingjing and Yingyue were dumbfounded.

Hong Yue suddenly realized why Han Fei rose so rapidly, which probably had something to do with the Great Dao of Time.

Then, Han Fei put away the low-quality godly weapon-level battle suit and said casually, "You don't need this thing."

Han Fei continued, "From now on, we have encountered pirates from the Infinite Mining Areas. I saw the battle just now, and I believe you felt it too. Zhou Jingjing, what do you think of it?"

Zhou Jingjing took a deep breath. "They're very strong."

Han Fei asked, "In what ways do you think they are strong?"

Zhou Jingjing originally wanted to say that it was the realm, but at the moment of the clash just now, she clearly felt the other party's strong desire to fight.

They were so ferocious and murderous that she was suppressed to the point where she didn't know how to use many great techniques.

Zhou Jingjing frowned. "It's fighting intent."

Han Fei snorted. "It's momentum. You are hunters in the wilderness, so you should be like this. And you, Yingyue, you distinguished yourself from countless people and fought your way out of the City of Scavengers. Why, faced with these few pirates, your momentum was suppressed and you lost your cool. Have you used the great technique I gave you? If you had used it, with your physique, how could you have been injured so badly? Although I have never been to the Infinite Mining Area, I know the general situation there. The people in the Infinite Mining Area are probably comparable to the strong masters in the Sky Crater World. Let me ask you, they dare to risk their lives, but do you dare?"

Hong Yue, Yingyue, Zhou Jingjing, and the others blushed after hearing Han Fei's words. They were all shocked by what Han Fei said. They knew that Proving Dao was still very far away, but who didn't want to prove Dao after cultivating to the Sky Opening realm?

Yingyue and the others were ashamed. Those people were indeed strong, but in fact, only Hong Yue and Zhou Jingjing's performance was not bad. However, that was indeed their first battle of the Sky Opening Realm. At that moment, they were indeed flustered.

Just as Han Fei said, they didn't exert their true strength.

At this moment, Han Fei said, "On this trip to the Infinite Mining Area, I can guarantee you enough resources to help you solve any unfair and unstoppable opponents. However, this doesn't mean that you can survive. At least, in your current state, I don't think you can survive."

After teaching them a lesson, Han Fei said coldly, "Now, I'll give you another chance... From this person's memories, I found a stronghold of the Black Wind Pirates. They have 1 peak-level late-stage Star Transformation Realm cultivator, 5 late-stage Star Transformation Realm cultivators, 12 early-stage Star Transformation Realm cultivators, 83 peak-level Sea Establishers, and 102 other Sea Establishers. This should be an exploration team of the Black Wind Pirates. They specialize in hunting down some lone passers-by who try to sneak into the Infinite Mining Area. These people, except for the peak-level late-stage Star Transformation Realm cultivator, are all yours."

God of Fishing - Chapter 2523 - 2523 Kill the Enemy, Seize the Treasure, and Become Stronger

Outside the Godfiend Sea.

A big ship cut through the thorns and rushed all the way to the edge of the Godfiend Sea. On this ship, there were 1 peak-level late-stage Star Transformation Realm powerhouse, 5 late-stage Star Transformation Realm cultivators, 12 early-stage Star Transformation Realm cultivators, and early-stage Sky Opening Realm cultivators.

Chen Tang was sitting upright and cultivating. Suddenly, he opened his eyes and grabbed five broken life tablets.

“Hiss! Not good!”

!!

They had heard that recently, there might be people from the Chaotic Wasteland heading to the Infinite Mining Area, and it was very likely that they would leave from the periphery of the Godfiend Sea.

In fact, during these days, Chen Tang did see traces of shining stars, but he thought that the other party was not very strong and Old Liu should be able to solve it alone.

But now it seemed that Old Liu and the others had only been away for less than two hours, but they had all died at this moment. This meant that the other party was very strong, and it was very likely that there was a perfected Star Transformation Realm powerhouse guarding them.

Chen Tang suddenly rose and shouted, “Retreat! Retreat! Everyone, enter my Origin Sea and put away the ship.”

In fact, pirates nowadays didn’t use ships. The people on the ship weren’t with the advance team because they had underestimated Han Fei’s team from the beginning.

Furthermore, the people in the advance team saw that Zhou Jingjing and the others were weak, so they wanted to take the initiative to attack and directly take them down. However, they didn’t expect that behind Zhou Jingjing and the others, there was someone like Han Fei.

For a moment, everyone on the ship was a little panicked. Usually, Captain Chen Tang would only react like this when he encountered a strong enemy. And judging from his reaction, this enemy seemed to be very strong.

Therefore, they entered Chen Tang's Origin Sea as soon as possible. If anything happened, they had to run. In a damn place like the Infinite Mining Area, they couldn't be reckless unless they could. Otherwise, they would lose their lives in vain.

After Chen Tang collected everybody and the big ship, he took out a Void Breaking Shuttle and left.

As he ran, Chen Tang was still scared. Fortunately, it was only a small advance team that went to investigate. Otherwise, they would have been completely wiped out.

Sure enough, even if it wasn't in the Infinite Mining Area, the people near the Godfiend Sea couldn't be underestimated! However, the other party probably couldn't catch up with them. After all, they ran very fast.

He had to turn to his boss for help for this kind of enemy. The other party didn't have many people. If he could snipe them, he might gain a lot.

More than six hours later.

"Huff!"

In the void, a Void Breaking Shuttle broke through the void and flew out. Chen Tang took a long breath of relief. He had run for more than six hours and had consumed a lot of Immortal Qi. At such a long distance, even a god wouldn't be able to find him.

Making sure that he was safe now, Chen Tang flew towards the Black Wind Pirates alone. This time they were a little far away. It might take him two days to return to the Black Wind Pirates.

"Yes! I'll just tell Boss that we encountered a powerhouse in the perfected Star Transformation Realm and were really no match for him. Alas, Old Liu! Don't blame me. You had died too quickly. I wouldn't have dared to stay there!"

Suddenly...

Chen Tang immediately felt a chill down his spine. Even though he had subconsciously reacted, in the next second, a knife light brushed past him and one of his arms was crushed into powder.

Buzz!

At that moment, Chen Tang roared, a low-quality godly weapon-level battle suit appeared on his body, and a long sword appeared in his hand.

Bang!

Chen Tang felt as if he was hit by a big star and flew back at an ultra-light speed.

In mid-air, Chen Tang threw out a jade slip, where his Peak Strike was hidden.

When he came back to his senses, he saw a young man crushing the sword light of his Peak Strike with one hand and slashing at him with the other.

Chen Tang's heart did a flip. Although this person was powerful, he wasn't strong enough to kill him instantly.

He felt that he had just been ambushed. As long as he withstood this blow, he would no longer be at the disadvantage.

At that moment, the center of his eyebrows flashed, and the Star Bead shot out of his body, and a beam of light slashed at Han Fei.

Han Fei clenched his fist and blasted out a dazzling fist light. Even the sky and the earth lost color. He actually withstood the full blow of his Star Bead head-on.

"How is that possible?"

Chen Tang was shocked. The full-strength attack from his Star Bead had definitely reached the perfected Star Transformation Realm, or even exceeded it, but it was blocked by the opponent's punch?

Waves surged and a voice sounded leisurely in the void, "You Black Wind Pirates provoked us first. It's not too much for me to come to you, right?"

Han Fei stood in the void and looked down disdainfully. "Let your people out! If your people win, I'll let you go."

Then, figures appeared beside Han Fei, and Hong Yue, Zhou Jingjing, and the others appeared behind him.

Chen Tang took a look. What the hell is this? What is this person doing? Training his men with my soldiers? But the strongest one is only in the Star Transformation realm!

However, no matter what happened to the others, he knew that Han Fei was unbelievably strong. So, Chen Tang vomited a mouthful of blood and admitted defeat. "Fellow Daoist, there's still room for negotiation. The Black Wind Pirates are willing to compensate."

Han Fei sneered. "Did you not understand what I said?"

I'm telling you to let your men out. If you win, I'll let you go.

Chen Tang's expression changed drastically. "Really?"

Han Fei: "Yes."

Chen Tang wasn't sure whether what Han Fei said was true or not, but he had no choice now. The blow just now made his internal organs roll and his strength was slightly damaged. He had to buy some time.

Chen Tang said, "Okay! As you wish."

Buzz!

Chen Tang let his men out, including a group of Sky Openers and a large group of Sea Establishers.

Chen Tang said, "You, spar a few rounds with these fellow Daoists."

These people were dumbfounded and didn't know what happened. But they knew that this might have something to do with Chen Tang's escape. At this moment, they didn't dare to be negligent. They focused their eyes and found that the other party was so weak!

Zhou Jingjing and the others all gasped, knowing that it was time to prove their value.

Hong Yue said to everyone via voice transmission, "Don't forget that you have many kinds of techniques that others can't imagine. Don't underestimate your strength. Don't retreat even if you die."

After all, Hong Yue used to be the master of the Mad Corpse World. He was not afraid of a life-and-death battle. What he was afraid of was a meaningless battle.

Chen Tang thought that this person seemed to want to use them as whetstones to sharpen his knives. However, this person's knives were not very good. What if they accidentally broke?

He said, "Fellow Daoist, since you only have ten Sky Openers, our late-stage Star Transformation Realm cultivators don't have to fight, OK?"

Han Fei smiled. "Don't! You're mistaken. It's eleven."

At this moment, the old turtle's Yang Soul appeared beside Han Fei. However, even Hong Yue was surprised. He had never seen this person before. Where did Han Fei find him?

Upon seeing this, Chen Tang's expression changed slightly as he exclaimed, "Yang Soul?"

Han Fei grinned and said, "I forgot to tell you that you're going to participate in the battle too."

This was proposed by the old turtle, because he didn't know the specific limits of his current combat power. It was probably very strong, so he wanted to test it out with someone.

As for the Sea Establishers, Han Fei didn't plan to take action now. These people were all spoils of war. Didn't the Giant Whale Fortress and the human race need to gain experience? Then they could use these people to gain experience!

Suddenly, Han Fei remembered that there seemed to be more than a hundred Sea Establishers in An Taiping's Origin Sea. But those people were all real strong masters. He estimated that the people of the Giant Whale Fortress would have to fight them five against one or even ten against one. Otherwise, they would probably be killed.

The old turtle appeared, chuckled wickedly, pointed at Chen Tang and the five late-stage Star Transformation Realm cultivators, saying, “The six of you, come at me together!”

Chen Tang knew that it was not good. Those who had cultivated a Yang Soul were not weak, which meant that the other party’s soul power was especially strong. The only thing he could do now was to stall for time and wait for his commander to save him.

If he had to be a whetstone, so be it. As long as he could hold on for two days, someone would definitely come to save them.

On this side, the battle was about to start.

Hong Yue took the lead to attack. Covered in heavenly fire, Hong Yue turned into a fiery god of war, which was a divine-quality technique bestowed by Han Fei. With this heavenly fire body, plus the combat skills he had mastered in the first place, he was very powerful.

After a few clashes, he condensed a wisp of Sword Essence with flames. After only a clash with an early-stage Sky Opening Realm powerhouse, most of Hong Yue’s body was pierced through, but the other party’s body was filled with the Sword Essence and exploded.

Unable to see through the enemy’s soul mark, Hong Yue could only corrode the void with corpse energy and seal the enemy’s soul.

The seemingly simple battle was actually thrilling at that moment. If Hong Yue hadn’t been much sturdier than that person, it was still unknown who would have won.

Han Fei’s heart did a flip when he saw this scene. Hong Yue’s combat power was not bad. If he taught him the Living Dead Puppet technique, his combat power would definitely improve greatly.

On the other side, Zhou Jingjing was talented in the first place. Han Fei had given her a lot of techniques. At this moment, she was fighting fiercely with a Star Transformation Realm powerhouse. The other party seemed to know that he would die anyway, so he just tried to drag Zhou Jingjing to die with him.

Therefore, the other party transformed his soul into a knife. Zhou Jingjing was horrified. The other party was determined to die. She knew that if she backed off, her soul would probably be pierced through by the other party.

“Ahhh~”

For a moment, there seemed to be the sound of a whale ringing in his ears. Zhou Jingjing instantly spat out a mouthful of blood and spewed out an arrow that contained rich soul power.

Bang!

Both of them were almost heavily wounded. Zhou Jingjing was slightly better off. There seemed to be a layer of will power surrounding her body, and the soul of the person opposite her had already dissipated and he had turned into a living dead.

On the contrary, Yingyue and the others were actually in a better situation than Zhou Jingjing. They were one in a million strong masters in the City of Scavengers. They had survived the oppression of the Ten Thousand Scale Race and survived countless trials.

Therefore, to Han Fei’s surprise, even Chu Lingyu, who was the weakest, unleashed the Sky Splitting Technique and killed her opponent unscathed.

The others were the same. Perhaps stimulated by Han Fei, they finally showed their strength this time.

With the advantage of the Purity Mystic Body and the many divine-quality techniques given by Han Fei, it would be strange if they lost.

God of Fishing - Chapter 2524 - 2524 Advance to the Peak-level Late-stage Star Transformation Realm

It could be said that Hong Yue and Zhou Jingjing were having a life-and-death collision with their enemies. Having been scolded by Han Fei before, everyone was holding their breath at this moment, so as soon as the battle started, they went up to fight desperately and didn’t hesitate to use their killer moves at all.

Of course, it was not a complete victory. On Wang Xu’s side, his opponent was very strong and had a strange Great Dao, exceeding Wang Xu’s strength.

Fortunately, the opponent hadn't entered the Star Transformation Realm yet, so although he beat Wang Xu, he couldn't kill him immediately.

After that, Hong Yue, Zhou Jingjing, and the others surrounded and killed the opponents.

!!

As for the old turtle, he actually triggered the enemy's inner demon and used a great technique to attack the soul, easily killing all the opponents in the late-stage Star Transformation Realm.

Even Chen Tang was dying. Chen Tang hurriedly shouted, "Fellow Daoist, let's talk nicely. I know a lot of secrets. I have resources. I..."

Bang!

Before he finished speaking, his soul sea suddenly suffered an unknown impact and exploded.

The old turtle looked back at Han Fei. "Han Fei, I'm very powerful. My Yang Soul is probably comparable to the Perfected Star Transformation Realm."

When the old turtle attacked, Han Fei saw that this guy was indeed very strong. The strength of his soul was probably comparable to his.

Han Fei couldn't help being shocked. It seemed that the old turtle must be in the perfected Star Transformation Realm. It was just that he didn't have a body, so his realm seemed a bit low. Once he found a body and embarked on the Dao of perfect balance again, his strength would probably double.

Then, the old turtle said, "Han Fei, I understand. I'm very strong. If I can rebuild my body, it's not impossible for me to prove Dao."

The more the old turtle said so, the more Han Fei felt that something was wrong, but he didn't know what was wrong.

Because the old turtle sacrificed his body and fused with his original body, he suddenly became so strong?

"Wait, fuse with his original body..."

Han Fei was shocked. Could it be that the soul of the old turtle's original body had replaced the real old turtle?

However, looking at the old turtle's expression, Han Fei didn't think so.

Besides, the old turtle's original body gave off a very oppressive and powerful feeling. More importantly, being trapped by so many chains, he probably couldn't let his soul out, right? Otherwise, his own strength would weaken. If Han Fei couldn't save him, it would be even more impossible for him to save himself.

When all the Sky Opening Realm powerhouses of the Black Wind Pirates perished, the remaining Sea Establishers were all dumbfounded. This was because Han Fei and his men fought very fast, directly, and brutally. So many Sky Opening Realm powerhouses had died.

On Han Fei's side, except for a group of people who seemed to have suffered some injuries of varying degrees, at least they were still alive.

Han Fei raised his hand, and the chains of holy light circulated on Hong Yue, Zhou Jing, and the others and connected. Everyone's injuries were recovering at a visible speed.

Han Fei said, "Jingjing, throw these Sea Establishers into the Giant Whale Fortress as sparring partners. If they surrender and follow us wholeheartedly in three months, keep them. Otherwise, kill them."

Zhou Jingjing subconsciously shivered and nodded quickly. "Yes!"

Now, having seen Han Fei attack again and again, Zhou Jingjing had already developed an instinctive fear towards him.

She realized that Han Fei was not only very strong, but also very ruthless. There were more than a hundred Sea Establishers here, and he decided their fate without batting an eye.

However, she had also heard that Han Fei had killed more than 60,000 Sea Establishers and a dozen Sky Openers in one go, so she was very afraid of Han Fei's bloodthirsty personality now.

Han Fei reached out and picked up the corpses of the Sky Openers. In an instant, more than ten of his clones pierced through some spatial nodes and entered.

If you were strong enough, you could see through the other party's soul. Although these people were killed, including Hong Yue and Zhou Jingjing, they could only obliterate the other party's soul through soul techniques. However, they couldn't find the other party's soul mark, so they couldn't erase the connection between these people's soul mark and their Origin Seas.

After only a moment, Han Fei's multiple clones came out.

At this time, Han Fei brought out a lot of resources, treasures, techniques, materials, etc.

When the clones were combined, 17 sets of resources floated in front of Han Fei, totaling 450,000 kilometers, two low-quality godly weapons, two ultra-quality Sea Quelling Bizarre Treasures, and 67 weapons of other levels.

Those who hadn't entered the Star Transformation Realm were drained of their vitality by Han Fei and fed to him. And these ordinary resources and all the Sea Quelling Bizarre Treasures were all given to Zhou Jingjing!

Han Fei said unconcernedly, "Keep them for now. Reward them to those who can beat ten captives of the Black Wind Pirates alone. As for ordinary resources, they will be evenly distributed to those below the Sea Establishment realm. However, from today on, tell all Sea Establishers that the day when they get resources for free is over. In the future, more and more Sea Establishers will be arrested, and they will need to carry out a large number of Sea Establishment Realm battles. At that time, they'll get resources according to their combat results."

Zhou Jingjing sighed slightly. "Yes!"

Although she knew that doing so might cause a large number of people to die in the Giant Whale Fortress, she knew that Han Fei was right. Everyone needed to be trained. The Giant Whale Fortress was a safe haven. Without Han Fei's iron-blooded methods, they would be eliminated sooner or later.

Then, Han Fei took out twelve shares of resources from his Life Star City.

Han Fei said, “Each portion is 300,000 kilometers of resources. It’s the last free care I’ll give you for now. Take this resource to expand your Origin Seas as soon as possible and cultivate the great techniques to become stronger. The Black Wind Pirates are not strong or weak overall. Cultivate for a year, fight for a year, and beat them within two years.”

At this time, Zhou Jingjing, Yingyue and the others, had nothing but complete obedience to Han Fei. In front of a leader like Han Fei, they didn’t even think they were qualified to make any suggestions.

After all, Han Fei had given them too many benefits so far.

After explaining some simple plans, Han Fei said, “Everyone, enter my Origin Sea to cultivate.”

Earlier, Han Fei had only told Li Tong to go in, but now everyone was allowed to go in, which made many people very happy.

Although they had won this battle, the price they paid was not small, and almost all of them were seriously injured. This showed that even if they had cultivated the Purity Mystic Body and the great techniques given by Han Fei, this was not the only condition for them to win. This was just another reason for them to win.

At present, the most fundamental problem for them was that their realms were too low. Yingyue and the others had almost completely relied on their Purity Mystic Body to win. They hadn’t even completely passed the early-stage of the Sky Opening Realm.

Han Fei wanted them to destroy the Black Wind Pirates in two years. How tight was the time? Even with a hundred times the time acceleration and the resources given by Han Fei, it wouldn’t be easy to enter the Star Transformation Realm. Therefore, cultivating hard and entering the Star Transformation Realm was their subconscious common goal.

As for who the old turtle was, they didn’t know and didn’t dare to ask, because the old turtle was too strong. In their eyes, his strength was second only to Han Fei’s. In the future, as time passed, no one knew how strong he would be.

...

Eight months passed.

In Han Fei's Origin Star.

Han Fei suddenly opened his eyes, and a trace of joy appeared in his eyes.

Finally, on this day, he completely covered the periphery of his Origin Star with a thick layer of "skin". Countless shattered stars densely surrounded his Origin Star.

On this day, his Star Core that he had compressed for a long time was finally squeezed ten times smaller.

Han Fei grinned. He had finally entered the peak-level late-stage Star Transformation Realm.

Han Fei immediately looked at his personal information, only to see that:

Owner: Han Fei

Level: 109 (Sky Opening Ultimate Dao)

Bloodline Ranking among the Clans in the Infinite Ocean: the 10,016th
(Evolving: 7,623/13,064)

Immortal Qi: 1,680,000

Soul: 15.59 Origins (15,591,568 points)

Perception Range: 15 million kilometers

Strength: 16.22 Star Powers (1,642,679 waves)

First Spiritual Heritage: Origin Spiritual Heritage

Second Spiritual Heritage: Eternal Darkness Spiritual Heritage

First spiritual beast: Twin Yin-Yang Sky Swallowing Fish (Level 108)

Second spiritual beast: The Emperor Sparrow (Level 103)

Main Art: Void Fishing Level 9, Void Stealing Technique (Monarch-level, Ultra-Quality)

“Huff!”

After seeing the information, Han Fei frowned slightly. That didn't seem right. His realm was still the Ultimate Dao but not the peak-level late-stage Star Transformation Realm.

Could it be that he had always been in the peak-level late-stage Star Transformation Realm?

Besides, these weren't the key. The problem was that this breakthrough had caused the difference in soul power and physique to widen significantly.

Han Fei knew that he couldn't just let the gap between the two grow bigger and bigger. He had to practice the Godfiend Formless Technique.

God of Fishing - Chapter 2525 - 2525 Two Spiritual Heritage in One, Unacceptable by the Heavens

Han Fei didn't plan to give himself too much time to cultivate. For him, the best cultivation was fighting.

Furthermore, his top priority was not to cultivate, but to find a path that was suitable for him. As for the Godfiend Formless Technique, it seemed to be a path perfectly compatible with him.

Once this path was taken, coupled with the Star Devouring Technique, he might be able to reach the heights where even the God of War hadn't reached. And the greatest disadvantage of the Supreme Divine Technique, the problem of soul and physique incompatibility, might be correspondingly resolved.

Han Fei didn't ask the God of War about this matter. After all, the Godfiend Formless Technique belonged to the demonic path. God knew what taboo it would violate.

!!

Han Fei planned to try it first. If he could really succeed, it wouldn't be too late to tell the God of War after he proved Dao.

Han Fei sat cross-legged in front of his Star Core. Godfiend Formless Technique, one spiritual heritage for gods, and the other for demons. The two auras began to circulate slowly in Han Fei's dual spiritual heritages.

“Pfft!”

However, just as it began to operate, the roar of the Great Dao suddenly sounded in Han Fei's ears.

Boom!

It was a strange power that broke through the protection of his Origin Star from the Sea of Stars, pierced through the ground veins, and descended on him.

“Puff ~”

Han Fei vomited a mouthful of golden blood in shock. He didn't dare to cultivate anymore but appeared on the surface of the star.

At that moment, Han Fei discovered, to his shock, that the thick layer of broken starry barrier around his Origin Star had been penetrated, with a big hole appearing.

As for the star sea mire of his Origin Star, it was also pierced through, leaving a huge hole. Then, a large meridian he had set up was also pierced through.

Han Fei: “...”

“Old Yuan~”

Han Fei immediately roared. F*ck! If this goes on, wouldn't the Origin Star that I built with great difficulty be bombarded into a beehive? More importantly, I don't even know who did this!

Finding the old turtle, Han Fei said with a black face, “Old Yuan, tell me about the Godfiend Formless Technique first. Does it have a lot of side effects?”

The old turtle was dumbfounded. “Side effects? Of course there are side effects! The side effect is to become a demon.”

Han Fei's eyelids twitched. “No other side effects? Like being struck by lightning?”

The old turtle was stunned for a moment and said, “Well, there is such a situation. The Godfiend Formless Technique is not tolerated by the Great Dao of Heaven and Earth. Therefore, without the protection of the Sea Realm, you might have to bear a baptism similar to the Heavenly Tribulation to obtain the recognition of the Heavenly Dao. But on the Origin Star, this is your world. It shouldn’t be as dangerous as cultivating in the Sea of Stars. What are you afraid of?”

Han Fei: “...”

Han Fei’s face turned black. “Heh! You can go now! I’ll try again...”

With this experience, Han Fei certainly didn’t dare to cultivate on his Origin Star anymore. This was scary. I haven’t done anything yet, but the Heavenly Tribulation has struck my Star Core. If I really cultivate this technique, wouldn’t my Star Core explode?

After a while, Han Fei came to the Sea of Stars.

Making sure that he was far away from his Origin Star, he sat cross-legged in the Sea of Stars.

He was ready. Although the old turtle said that he couldn’t cultivate in the Sea of Stars, he could activate the Great Dao of Life Replacement at any time to prevent himself from being struck to death.

This was an attempt just like transcending a tribulation, but transcending a tribulation in the Sea of Stars was naturally better than transcending a tribulation in the Sea Realm.

One failure couldn’t stop Han Fei from pursuing the Dao of perfect balance. Therefore, he began to operate the Godfiend Formless Technique again.

Rumble!

Just now, Han Fei didn’t know what struck him, but now he knew that it wasn’t the lightning tribulation at all.

He had thought that it was a baptism of lightning like the Void Fishing, but it wasn’t. When the rumbling power fell on him, Han Fei realized that it was the Great Dao of the heavens and earth condensing into Great Dao lightning. Yes, the Great Dao was like thunder, trying to kill him.

If this had to be called a lightning tribulation, Han Fei felt that this was probably the most terrifying lightning tribulation in the world.

“Sh*t!”

“Puff! Puff! Puff!”

After the lightning strike, Han Fei spewed out three mouthfuls of essence blood in a row. The Godfiend Formless Technique that he had just activated was shaken and showed signs of instability.

Rumble!

Rumble!

Han Fei endured ten seconds with difficulty and only managed to circulate 1% of the Godfiend Formless Technique. Finally, consecutive Great Dao lightning struck Han Fei’s Great Dao of Life Replacement out.

“F*ck!”

Han Fei didn’t know what to say. This was too much. Did the old turtle not tell him the truth? This thing was so terrifying that it directly killed him. What should he do?

However, although Han Fei felt that the Great Dao Lightning Tribulation was too terrifying, he suddenly discovered that the power of his soul had increased by nearly 3,000 points.

“Huh! If that’s the case, can I slowly replenish my soul power?”

Han Fei thought that if he used this method to replenish the power of his soul, it would be faster than cultivating the Heavenly Dao Art!

However, if he used the Great Dao of Life Replacement and the invincible time after that to resist the lightning strike head-on, it would probably take him more than 800 lives.

And it would take him more than 800 lives to complete the operation of the Godfiend Formless Technique once.

Putting aside the fact that he hadn't more than 800 lives, even if he had, what if the lightning would still strike him after he operated the technique once? What would he do then?

He cast the Heaven Enlightenment Divine Technique on himself to heal his injuries.

Han Fei activated the Godfiend Formless Technique again. But soon, he discovered something different. After about five seconds, Han Fei stopped cultivating and found that his soul power had only increased by less than 500 points.

After repeated experiments, Han Fei was certain that the significant improvement of his soul was only at the moment he activated the Great Dao of Life Replacement. At that moment, because of the shattering of his life, part of the Heavenly Dao lightning seemed to have been transformed. Then, it was absorbed by him and transformed into the power of his soul.

If he didn't activate the Great Dao of Life Replacement, he could obtain about 800 points of soul power on the verge of death.

Although more than 800 was not a small number, he was already on the verge of death and needed to use the Heaven Enlightenment Divine Technique to save himself. This was equivalent to exchanging vitality for the growth of soul power.

Therefore, Han Fei simply gave up and turned around. When Han Fei returned to the sky above his Origin Star, he saw the old turtle sticking out his Yang Soul head and looking at him.

Han Fei said crossly, "What are you looking at? I'm going to the Sea Realm to have a try."

However, the old turtle quickly stopped him. "Hey, don't... Do you want to die? Do you know why there is a Godfiend Sea in this world? It's because someone discovered the secret of the Dao of perfect balance. If you dare to go to the Sea Realm, believe it or not, many Monarchs will immediately come and throw you into the Godfiend Sea!"

Han Fei: "..."

The old turtle sighed. "I didn't expect you to encounter such a terrifying tribulation while cultivating the Godfiend Formless Technique in the Sea of Stars. But I feel that something is wrong. In my memory, someone cultivated this technique in the Sea of Stars, but what happened to you didn't happen to him, and he survived!"

Han Fei glared at the old turtle angrily. "That's impossible. Unless he has countless lives, he would have been killed long ago."

The old turtle asked, "Were you struck in your Origin Star too?"

Han Fei nodded. "Yes! But not as much as in the Sea of Stars... Huh!"

Han Fei was suddenly refreshed. Yes, although his Origin Star couldn't block the Heavenly Dao lightning, it could weaken the power of the lightning. Just now, he only sprayed a mouthful of essence blood in his Origin Star, but in the Sea of Stars, he sprayed three mouthfuls in a row.

What if he was in other people's Origin Stars? For example, Zhao Qinglong's or An Taiping's. These people's Origin Stars were connected to multiple modified stars. Their ability to resist the Great Dao lightning shouldn't be worse than his.

From the looks of it, even if he used the Heaven Enlightenment Divine Technique to exchange for his life, the efficiency would be at least three times higher.

In the blink of an eye, Han Fei pushed the old turtle into his Origin Star and said, "Go about your business. I'll take a look at someone else's Origin Star."

...

Zhao Qinglong's Origin Stars were connected to 72 modified stars. It had to be said that the strength of the powerhouses on the God Roll couldn't be underestimated.

Han Fei came to his Star Core, thought for a long time, and then began to set up arrays. In the face of force majeure, he should take the initiative to use all the power he could exert to help increase his odds of survival.

Once again, Han Fei activated the Godfiend Formless Technique. The feeling was exactly the same as when he was on his own Origin Star.

However, because he was prepared, Han Fei actually managed to withstand the first lightning strike. He even felt that this Origin Star's effect of resisting this lightning strike was better than his Origin Star. Could it be that Zhao Qinglong's Origin Star was connected to many modified stars, so it had an additional resistance?

Although the Heavenly Dao lightning was powerful, Han Fei didn't think it had reached the Monarch level yet. It appeared just to prevent him from practicing the Godfiend Formless Technique. And the power it showed, if he guessed right, was infinitely close to the Monarch level. Just like when he fought Zhao Qinglong, the super-strong combat power he unleashed in the end might be slightly stronger than that.

Now, Han Fei sat cross-legged and endured ten seconds in a row. Finally, he couldn't help but vomit the first mouthful of blood. However, this situation was much better than he had imagined.

Ten seconds, fifty seconds, a hundred seconds...

The Godfiend Formless Technique was activated, and Zhao Qinglong's Origin Star was passively blocking the Heavenly Dao lightning, buying him a lot of time.

Without obstacles, the effect of Han Fei's cultivation of this technique was immediately increased several times.

After a hundred seconds, the dual spiritual heritages had almost circulated by one-tenth.

However, under the continuous impact of the Heavenly Dao lightning, the resistance of Zhao Qinglong's Origin Star was rapidly declining.

Three hundred seconds later, Han Fei felt that he couldn't hold on anymore. He felt that this star was about to be split apart.

Five hundred seconds later, Han Fei felt that the dual spiritual heritages had operated by 50%, and the star was broken and the ground veins were all broken. He raised his head and looked at the Sea of Stars.

"Shoot! Hang in there a little longer!"

God of Fishing - Chapter 2526 - 2526 Demon God Body, Double Strength

Han Fei could clearly sense that the power of the Heavenly Dao lightning was the myriad laws of the world. Although they attacked his body, some of them would remain after they were annihilated.

And this part could broaden his soul. At this point of cultivation, he had already realized that the purpose of cultivating the Godfiend Formless Technique was not to circulate a great cycle, but to perfectly unify the body and soul.

Therefore, Han Fei realized that it wasn't that he had to suffer the impact of the Heavenly Dao lightning, but that his soul was inferior to his physique.

If the power of his soul was stronger than his physique, he might have experienced the lightning tribulation refining his body instead of the Heavenly Dao refining his soul.

!!

At this moment, although it was very dangerous this time, it was very meaningful.

In just five hundred seconds, Han Fei's soul power had increased by about 150,000 points.

According to this calculation, he would have to hold on for more than 2,000 seconds before he could complete the operation of the Godfiend Formless Technique.

However, Zhao Qinglong's Origin Star couldn't withstand the power of the Heavenly Dao lightning at all and was riddled with holes.

At this moment, he had completed more than half of a cycle. Han Fei thought that if Zhao Qinglong's Origin Star was destroyed, he could still use An Taiping's Origin Star.

However, when Han Fei tried to stop cultivating, something shocking happened. In his dual spiritual heritages, the God and Demon techniques no longer needed to be controlled. They actually circulated automatically and couldn't be stopped.

“Sh*t!”

Han Fei sensed that laws were surging over between the heavens and earth, and that the spots of light transformed from tens of thousands of Great Daos turned into Heavenly Dao lightning that rained down on him.

“No, it’s not that the technique can’t be stopped, but that the world won’t let me stop.”

At that moment, Han Fei was shocked. I am actually forced to cultivate? At this moment, Han Fei remembered the old turtle’s words. The Godfiend Formless Technique was originally not tolerated by the Great Dao of Heaven and Earth. Therefore, without the protection of the Sea Realm, one might have to bear a baptism similar to a heavenly tribulation to obtain the recognition of the Heavenly Dao.

He didn’t know if the old turtle hadn’t experienced everything he was experiencing because he hadn’t practiced the Godfiend Formless Technique in the Sea of Stars, but what the old turtle said enlightened him.

Cultivating the Godfiend Formless Technique required the recognition of all laws of the world.

Therefore, he needed to be recognized now, and if he wanted to be recognized, he needed to completely accept the baptism of all laws of the world and reach a perfect balance in the baptism. At that time, the Heavenly Dao would recognize Han Fei as his kind and wouldn’t care about him anymore.

However, the problem was that at his current speed, wouldn’t he have to last more than 1,500 seconds?

If he had known this earlier, he wouldn’t have broken through to the peak-level late-stage Star Transformation Realm first. He should have cultivated this technique as soon as he obtained it. This way, the difference between his soul power and his physique wouldn’t have been greater and greater.

However, it was too late for regrets. Han Fei could only pray that Zhao Qinglong’s Origin Sea could resist it for a while longer.

However, after only two hundred seconds, the star was completely shattered, and the Star Core flew away from him. Once again, Han Fei was completely exposed to the Sea of Stars.

At this time, Han Fei accidentally saw that the 72 modified stars connected to Zhao Qinglong's Origin Star had all been shattered, and the entire defense system had completely collapsed.

“Sh*t!”

In just ten seconds, Han Fei couldn't withstand the Heavenly Dao lightning. If he failed at this moment, even if he used the Great Dao of Life Replacement, the cultivation technique would stop instantly. This might cause backlash to his dual spiritual heritages and might destroy both his divine spiritual heritages.

At that moment, Han Fei thought of a way to resist the Heavenly Dao lightning.

Suddenly, Han Fei's heart trembled. Yes, the Lightning Drawing Platform.

In the Divine Capital Dynasty, he had exchanged for two supreme-quality godly weapons. The Flame of Life was prepared for Feng Yu, but the Lightning Drawing Platform was specially prepared for him.

However, the Lightning Drawing Platform was meant to be used in the Eternal Thunder Prison. He wondered if it would work now.

Buzz!

In any case, Han Fei summoned the Lightning Drawing Platform immediately. He would have a try first.

The moment the Lightning Drawing Platform appeared, it suddenly shrank. Han Fei sat cross-legged in it, and the Heavenly Dao lightning poured over. When it entered the Lightning Drawing Platform, the patterns on the Lightning Drawing Platform shone and turned purple. As for the Heavenly Dao lightning, it turned into a large purple halo and 80% of its power was absorbed.

“Hiss ~”

“It works so well?”

Han Fei felt that the pressure on his body was suddenly reduced. In this case, he seemed to be able to hold out for a long time.

After five hundred seconds, Han Fei saw a flame pattern condensed.

“This is... Hiss! Is this a purple Dao Proving Lightning?”

Han Fei was shocked. After the Lightning Drawing Platform was put in the sea of lightning, a purple Dao Proving lightning could be obtained in ten thousand years. However, under the bombardment of the Heavenly Dao lightning, it only took five hundred seconds to produce a purple Dao Proving lightning.

In an instant, the purple Dao Proving lightning on the Lightning Drawing Platform changed from one to two. The value of the Lightning Drawing Platform had a qualitative leap.

Furthermore, there were seven similar patterns on the Lightning Drawing Platform that hadn't been lit up. This meant that if he wanted the Lightning Drawing Platform to be saturated, he had to fill in the seven patterns at least.

Han Fei was overjoyed. If the Lightning Drawing Platform was filled up by chance, wouldn't it be equivalent to creating a Monarch-level powerhouse?

However, even though the Lightning Drawing Platform had dispersed nearly 80% of the Heavenly Dao lightning, Han Fei still felt that he couldn't withstand it for a long time.

Just as Han Fei was wondering if he should abandon this cultivation through the Great Dao of Life Replacement, he saw a small vine poking out from between his eyebrows.

“Huh, Master Calabash?”

Perhaps because the relationship between Han Fei and the Demon Purification Pot was unusually close, at this moment, a small vine extended out and blocked in front of Han Fei.

Boom!

The Heavenly Dao roared, and a small vine trembled slightly. About half of the Heavenly Dao lightning was absorbed into the vine. As for the other half, most

of them were snatched away by the Lightning Drawing Platform and fell on Han Fei.

“Huh?”

This was the first time Han Fei had seen such a situation. The Demon Purification Pot would always snatch the whole it wanted. Why did he only eat half of it this time?

However, at this moment, Han Fei felt that he didn't have to stop halfway through.

After about two hundred seconds, Han Fei saw that a small green fruit the size of a fingernail grew on this branch.

“Hiss!”

Han Fei's eyes widened. This was the sixth fruit. Since he cultivated a Yang Soul, Han Fei had never known how to condense the sixth fruit. However, at this moment, he somewhat understood.

The Demon Purification Pot was selectively swallowing the Heavenly Dao lightning that bombarded him, and the part swallowed by the Demon Purification Pot might be for the condensation of the sixth divine pill.

After about two thousand seconds, because the Lightning Drawing Platform and the Demon Purification Pot had snatched some of the Heavenly Dao lightning, Han Fei had just completed operating the first Great Circulation.

The moment he completed the first Great Circulation, Han Fei suddenly felt that a large amount of the residual power of the Heavenly Dao lightning on the surface of his body transformed into his soul power.

In an instant, it transformed into nearly 100,000 points of soul power.

As Han Fei expected, everything didn't stop after the first Great Circulation stopped. The second Great Circulation continued, and the Heavenly Dao continued to bombard him.

However, with the help of the Lightning Drawing Platform and the Demon Purification Pot, although Han Fei's body was mangled, his body never collapsed, and his soul never dissipated.

After another two thousand seconds.

Han Fei completed the second round of the Great Circulation. At this time, although Han Fei only bore a little bit of the power of the Heavenly Dao lightning, as time passed, his flesh and blood had long turned into paste, but the Origin Spiritual Heritage and the Eternal Darkness Spiritual Heritage in his body hadn't changed at all.

It seemed that at this moment, the two extraordinary divine spiritual heritages began to show their power. The Heavenly Dao couldn't destroy them, and no laws could shatter them.

The Origin Spiritual Heritage began to release vitality for some reason, consolidating his flesh and blood.

The Eternal Darkness Spiritual Heritage was even more magical. It actually disappeared as if turning into nothingness, but it was still there.

At this time, when Han Fei was halfway through the third round of the Great Circulation, suddenly, infinite power between the heavens and earth gathered in Han Fei's body.

Han Fei's body was recovering at a visible speed. Furthermore, there were Dao patterns that quietly disappeared into Han Fei's flesh and blood.

However, Han Fei hadn't woken up yet. Not long after the second round of the Great Circulation, Han Fei fell into a deep sleep. His dual spiritual heritages were operating nonstop.

He didn't know that in the third round of the Great Circulation, the power of his soul and the power of his physique had reached an instant balance.

There was no telling how long it had been, maybe one day, ten days, or a year.

When Han Fei felt that his body was swelling up, he woke up and found himself sitting cross-legged in the ruins of stars.

Han Fei subconsciously touched his body and was greatly relieved to find that everything was fine.

Seeing that he was fine, he immediately looked at his information.

Information popped up in his eyes.

Owner: Han Fei

Level: 109 (Sky Opening· Extreme Dao Balance)

Bloodline Ranking among the Clans in the Infinite Ocean: the 200, 016th
(Evolving: 7,628/13,064)

Immortal Qi: 1,680,000

Soul: 33.36 Origins (33,377,308 points)

Perception Range: 33 million kilometers

Strength: 33.36 Star Powers (33,377,308 waves)

First Spiritual Heritage: Origin Spiritual Heritage

Second Spiritual Heritage: Eternal Darkness Spiritual Heritage

First spiritual beast: Twin Yin-Yang Sky Swallowing Fish (Level 108)

Second spiritual beast: The Emperor Sparrow (Level 103)

Main Art: Godfiend Formless Technique

“Hiss!”

This time, the information panel changed a little too much, which Han Fei didn't expect.

The realm he was in had changed from extreme Dao to Extreme Dao Balance. And the power of his soul and strength became completely identical at this moment.

Most unbelievably, the power of his soul and physique had undergone an extraordinary change that even he found unbelievable.

“Huh?”

Han Fei took a deep breath, his heart was beating wildly, and his eyes were straight.

33.36 Origins? 33.36 Star Powers?

After being stunned for more than ten seconds, Han Fei came back to himself. He knew that he had succeeded. And this success exceeded his imagination. If he guessed right, the number had doubled.

In the past, Senior Brother Azure Dragon and the others said that the more balanced the soul and physique were, the more power of the Heavenly Dao one could borrow, and the upper limit was their own limit.

He had once felt a perfect balance and was fascinated by it. But at that time, he thought that he had only completely borrowed 100% of the power of the Heavenly Dao, and the borrowed power could be considered his basic combat power.

At that moment, Han Fei felt that he was comparable to a Monarch when he fully unleashed his strength.

However, he didn't expect that after he embarked on this path, his comprehensive soul and combat power would increase by 100%.

Han Fei looked at the dim Star Core fragments around and couldn't help but swallow secretly. These Star Cores had dimmed probably because their energy was forcibly absorbed by him.

As for the growth of the soul, it should be bestowed to him by the myriad laws of the world.

When Han Fei continued to read, he found that his main technique had changed from Void Fishing to the Godfiend Formless Technique.

This change even made Han Fei at a loss. Han Fei thought that there was actually more to the Void Fishing Technique, but his former fellow disciples in the Void Temple hadn't deduced it yet.

Han Fei thought that the last level of the Void Fishing Technique, the Void Stealing Technique, was not fully deduced. Therefore, Void Fishing was reduced to a Monarch-level, Ultra-quality technique instead of a divine-quality one.

But even so, it was still a Monarch-level technique. Now, it had been replaced by the Godfiend Formless Technique as the main technique. But the Godfiend

Formless Technique was clearly not as good as the Void Fishing Technique in level, which made Han Fei quite puzzled.

But Han Fei didn't care. This could only mean that the Godfiend Formless Technique was stronger.

When Han Fei looked down, the Lightning Drawing Platform had turned into a square tripod because there was no Heavenly Dao lightning to absorb. However, the patterns representing purple Dao Proving lightning had become four.

"Hiss! With three more, isn't it equivalent to absorbing 30,000 years more lightning?"

"Not good!"

Suddenly, Han Fei's face changed. How long had he been sleeping?

When Han Fei looked at the time of bloodline evolution, he discovered that more than three years had passed. This was not on his Origin Star, but in the Sea of Stars.

Therefore, more than three years had passed.

Han Fei couldn't have felt worse. He had asked his men to cultivate for a year, fight for a year, and annihilate the Black Wind Pirates, but he, the Human Emperor, was missing. He didn't know how anxious Zhou Jingjing and the others would be in his Origin Star.

God of Fishing - Chapter 2527 - 2527 A Group Tribulation

Han Fei summoned Little Black and Little White and let them swallow all the stars of a peak-level late-stage Star Transformation Realm.

When the last Star Core disappeared from Little Black and Little White's big mouths, the two little guys turned into human beings. However, they didn't grow any taller.

Little White ran over and asked for a hug. "Daddy!"

Han Fei picked up the little girl and looked at Little Black. Little Black said, "I'm only 30% full."

!!

The corners of Han Fei's mouth twitched. Now that his realm had improved, Little Black and Little White could continue to upgrade. The Infinite Mining Area was very dangerous. Upgrading Little Black and Little White at this time would be a huge trump card.

Little Black and Little White were in the same realm as him now.

Half a day later.

When Little Black and Little White fell into a deep sleep of evolution, Han Fei quickly returned.

At this moment, on Han Fei's Origin Star, Han Fei found that the old turtle didn't seem to be interested in sleeping now. With a Yang Soul body, he appeared in the cultivation area of Hong Yue, Yingyue, and the others and guided them in cultivation.

Perhaps because he had nothing better to do, he directed the human powerhouses to spar with the powerhouses of the Giant Whale Fortress.

The old turtle shouted angrily at the people of the Giant Whale Fortress, "How many times have I told you that combat skills are only one aspect of battle, and courage is the most important thing in battle. You people are too short of experience in life-and-death battles. When Han Fei comes back, I'll make him let you go out and comprehend the knacks of battle from life-and-death battles. Forget it, I won't watch it anymore. Without experiencing life-and-death battles, it seems impossible for you to go further."

At this time, Zhou Jingjing said, "Lord Primitive Emperor, Master Human Emperor has been in seclusion for more than three years, right? The Black Wind Pirates may have run away. Can you remind him? After all, we have stayed here for too long and cultivated for more than 300 years. Although our realms have generally improved greatly, we can't go on like this!"

The old turtle snorted. "Who knows where he is? He is completing a major breakthrough. Once he completes this breakthrough, he may be invincible

below the Monarch level. What's such a big deal about these few years? It'll pass after a nap."

Hearing the old turtle's stupid words, Han Fei stopped watching the show. Just now, they had fought seven or eight battles in a row and the human race had won all of them.

This was related to the experiences of the human powerhouses. They had experienced too many battles. As for the Giant Whale Fortress, just a few spars weren't enough and they needed a lot of actual combat.

Furthermore, Han Fei sensed that many peak-level Venerables had been suppressing their realms for too long and were about to make a breakthrough at any time.

But there were not many people who had the opportunity to make a breakthrough from the peak of the Sea Establishment Realm to the Sky Opening realm, but even so, there were nearly 50, which surprised Han Fei.

Buzz!

Han Fei suddenly appeared on their training ground.

The old turtle's eyes lit up when he saw Han Fei return. He immediately said, "You made it?"

Han Fei nodded slightly. "Yes."

The old turtle cracked a smile. He laughed and said, "As early as before, I had thought that you and I were the same kind of people. We would have to... embark on this path anyway. It seems that I really had foresight!"

Han Fei curled his lips. Foresight my ass. Entering the Demonic Dao is just because of need.

At this moment, Hong Yue, Zhou Jingjing, Yingyue, Wang Xu, and the others had already surrounded Han Fei the moment he appeared.

Those who were cultivating or trying to suppress their cultivation stopped cultivating immediately and stood up.

"Master Human Emperor."

Hong Yue arrived immediately and reported, "After serving as whetstones for nearly a hundred years, the Sea Establishers of the Black Wind Pirates we captured only had 72 left. These people have been confirmed by Lord Primitive Emperor to have completely surrendered, so we didn't make things difficult for them."

Han Fei nodded. "How were you doing while I was away?"

Zhou Jingjing said, "Master Human Emperor, we have a total of 31,282 Sea Establishers. Among them, we have 24,043 peak-level Sea Establishers... 47,685 Venerables and 15,682 peak-level Venerables... A total of 56,924 people below the Venerable level, including 54,358 peak-level Explorers... We don't have many newborns, less than a thousand. Perhaps it's because it's not easy for us to have children after we become strong."

After hearing Zhou Jingjing's announcement, what surprised Han Fei most was that there were too many peak-level Explorers. Almost everyone below the Venerable level was a peak-level Explorer.

However, on second thought, this was normal. He had been away for hundreds of years. With sufficient resources, energy, and the guidance of the strong, theoretically, these people should have grown this fast.

It only took him decades to become an Explorer. Back then, resources weren't calculated by area like now.

Hearing that, Han Fei nodded slightly. "Everybody, get ready."

Swish swish swish!

The people gathered. Having witnessed the powerful military formation of the humans, the others had followed suit.

When everyone arrived, Han Fei shouted, "Everyone, prepare to make a breakthrough. Sea Establishers, watch the explorers break through to the Venerable realm. All peak-level Venerables, prepare to transcend the tribulation."

With that, Han Fei waved his hand and more than 6,000 God Sealing Spears were shot at the 6,000 people who were about to make a breakthrough.

Han Fei said, "I won't help you too much with your Sea Establishment Realm Tribulation. If you are in danger, this spear can help you resist one heavenly tribulation. I think Zhou Jingjing has already prepared some resources for you to transcend the tribulation, so it's up to you whether you can establish the sea or not. However, all Sea Establishers will enjoy a free share of resources, body-refining techniques and soul techniques. This is all I have to say... Now, let's go to the sea."

Buzz!

When everyone appeared in the Sea Realm, boundless tribulation clouds were attracted to the sky because there were too many people about to transcend the tribulation.

As a result, as soon as they came out, they sensed the coming heavenly tribulations.

Han Fei shouted, "All Sea Establishers who are about to transcend the tribulation, separate at least a million kilometers from each other."

Zhou Jingjing, Wang Xu, and Li Tong looked at each other in bewilderment. If it were before, they wouldn't have believed that there would be so many people establishing the sea at the same time.

Han Fei shouted, "Hong Yue, Zhou Jingjing, take care of the people who are going to transcend the Sea Establishment Realm tribulation."

With that, Han Fei strode to a small group of peak-level Sea Establishers. These fifty people could open the sky at any time. At this moment, they were all suppressing their cultivation. Among them, Han Fei saw an old acquaintance, Xu Meng.

Han Fei said, "You're all about to open the sky. I'll give you a chance to choose. If you open the sky in the Sea Realm, I guarantee that there's an 80% chance that you can survive, but you might gradually become mediocre in the Sky Opening realm. There are countless people like you in the Sea Realm. The other choice is to open the sky in the Sea of Stars, but the tribulation there is 30 to 50% more dangerous than in the Sea Realm. I can give you some help, but at most, I can guarantee that your success rate is about 50%. However, if you open the sky in the Sea of Stars, your potential will increase by at least 30%. It's up to you to choose."

When Xu Meng and the others heard this, they had mixed feelings. Opening the sky in the Sea of Stars would have 30% more potential than opening the sky in the Sea Realm. And what did potential represent? It represented their room for growth.

Of course, one had to be alive to grow. If they opened the sky in the Sea of Stars, the mortality rate was more than half...

Suddenly, Xu Meng took a step forward, and then another 31 peak-level Sea Establishers of the human race stepped out. Xu Meng said, "Master Human Emperor, we have been facing death since we were born. To us, we will either be strong or die. With your help, we can have a 50% chance of survival. If we still cower, we are not worthy of being called powerhouses."

Behind Xu Meng, everyone shouted, "We're willing to open the sky in the Sea of Stars."

The people of the Giant Whale Fortress, provoked by Xu Meng and the others, also shouted, "We're also willing to open the sky in the Sea of Stars."

Han Fei nodded slightly. "Since you've chosen, there's no reason to cower. Opening the sky is different from establishing the sea. You need to recognize your own Dao and clear your Dao heart."

With that, Han Fei opened his hand and 49 balls of liquid divine brilliance flew out. Then, he grabbed at the void and drew 49 coiling dragon arrays. Then, each of them was given 32 God Sealing Spears, 130,000 spiritual fruits, and an ultra-quality Sea Quelling Bizarre Treasure.

This was the best Han Fei could offer, especially the spiritual fruits. Now he didn't have a single spiritual fruit left. The God Sealing Spear was fine. He still had a lot of materials to refine them.

Unfortunately, Han Fei didn't have things like Tribulation Transcendence Pills. Although he had the Lightning Drawing Platform, he didn't need to use it. He had already helped them enough.

Although Han Fei hoped that they could all transcend the tribulation, he still hoped that they could experience what they should instead of becoming wastes filled with resources.

After these people transcended the tribulation this time, if there was another batch, he wouldn't be able to provide them with enough resources. Therefore, after this time, it was imperative to rob the Black Wind Pirates.

God of Fishing - Chapter 2528 - 2528 Encounter at the Camp

“Hiss ~”

However, when Xu Meng and the others saw this batch of resources, they immediately took a deep breath. Isn't Master Human Emperor having too many resources? 130,000 spiritual fruits per person, wouldn't there be more than 6 million spiritual fruits in total?

Also, each of them would get an ultra-quality Sea Quelling Bizarre Treasure, which many Sky Opening Realm powerhouses didn't have, as a resource for transcending the tribulation. Also, the God Sealing Spears that were engraved with Dao patterns were obviously extraordinary, and arrays were even harder to get. A master of arrays wouldn't easily engrave arrays for others...

For a moment, Xu Meng and the others were all excited. If they couldn't even open the sky with so many resources, they deserved to die.

!!

So what if in the Sea of Stars? With so many resources and treasures, couldn't the additional 30% of danger be eliminated?

When Han Fei left with these people, the old turtle clicked his tongue in wonder. Han Fei was finally going to develop his own faction. Since he knew Han Fei, this guy had basically fought alone. Even when he controlled the Thirty-Six Mystic Worlds, he didn't have his own faction. Instead, he just served as a leader, a symbol.

But this time, the enemies Han Fei had to face were too strong and too many. He needed to consider the future of the human race. His strength alone was limited.

...

Above the Sea of Stars, Xu Meng and the others were refining the ultra-quality Sea Quelling Bizarre Treasures.

Suddenly, pressure swept across the world, and lightning danced in the void.

Han Fei's eyes flashed. "Everyone, disperse. Keep a distance of three million kilometers from each other."

The Heavenly Tribulation would only get harder and harder. The initial Heavenly Tribulation, even if it was the Four Nine Heavenly Tribulation of a peak-level Law Enforcer, was just to prove if you were qualified to cultivate further. When it came to the Nine-level Sea Establishment realm Heavenly Tribulations, it represented the test of the Heavenly Dao.

If you passed the test, you would be a great cultivator. If you didn't, you would be killed.

The tribulation of the Sky Opening realm was completely against the heavens.

Rumble!

Gradually, these people began to transcend the tribulation one after another.

One.

Two.

Three.

In the end, some of these people underestimated the danger of transcending the tribulation in the Sea of Stars.

Someone couldn't withstand the destructive power of the tribulation lightning in the sixth bolt of tribulation and perished in it.

This person should be the weakest among these people, because he was the first to use the Coiling Dragon Array.

In the seventh lightning strike, three people finally couldn't hold on and died under the bombardment of lightning. As for the seventh lightning strike, twelve people used the Coiling Dragon Array.

Seeing this scene, Han Fei couldn't help but sigh. It was actually not bad that these twelve people could last until now. Most of them might die in the eighth heavenly tribulation.

As Han Fei expected, no matter how many resources you gave, not everyone was talented. Eight of the twelve people just now died in the eighth heavenly tribulation.

At this moment, a total of twelve people had died.

However, the ninth heavenly tribulation was the real key.

Most of the people had made it to the ninth level.

At this moment, everyone used all the resources they had. The Coiling Dragon Array was fully activated, the spiritual fruits were all shattered, and the God Sealing Spears rose to the sky...

In the face of the ninth heavenly tribulation, those who had used both the Coiling Dragon Array and the God Sealing Spears in the eighth heavenly tribulation activated all their secret methods with the courage to die. If they didn't succeed in the last one, they would die for their ideal. Surviving and holding on were their only beliefs.

Rumble!

Rumble!

The tribulation clouds began to dissipate, and the fact was that the effect of this tribulation was not much better than Han Fei had expected.

After the ninth Heavenly Tribulation, eleven people disappeared without a trace.

In this tribulation, 23 people died and 26 succeeded.

Han Fei didn't look too good, but if this news was known to many people in the wilderness, they would probably exclaim in shock. This success rate was already comparable to the success rate of a large or medium-sized faction. If they knew that Han Fei had given so many resources for this tribulation, they would probably be shocked and appalled. Damn, the benefits were too good.

Swish! Swish! Swish!

As the Heaven Enlightenment Divine Technique was activated continuously, the 26 people were quickly recovering, and changes were happening in their

bodies. Han Fei directly took them into his Origin Star, activating the Immortal Qi and energy to envelop them and helping them quickly stabilize their realm.

When everyone stabilized their cultivation, they couldn't help but feel utterly excited. Xu Meng knelt on one knee towards Han Fei. "Master Human Emperor, Xu Meng will fight for the rise of the human race for the rest of my life."

Then, everyone, including the humanoids from the Giant Whale Fortress, also promised, "Master Human Emperor, I am willing to fight for the rise of the human race."

Han Fei had complicated feelings at this moment.

To be honest, Hong Yue couldn't be counted as his private army, nor could Zhou Jingjing and the others. Only people like Yingyue and Xu Meng, who he had rescued from the City of Scavengers, could be considered a force he had nurtured alone.

When Han Fei took Xu Meng and the others back to the Sea Realm, the breakthrough frenzy here had died down. Although Han Fei didn't witness it, from the atmosphere here, it could be seen that countless people were overjoyed. Scanning with his perception, he found that almost half of the people had a qualitative leap in strength.

When Han Fei and the others appeared, everyone looked at them. When they saw that there were only 26 people left behind Han Fei, many people gasped.

They felt sorry for the people who had died, but the survival rate of more than 50% was enough to make them exclaim.

In particular, there were already more than 36,000 new Sea Establishers here. These people were not idiots. How many Sky Opening Realm powerhouses had they seen in their daily lives? And what did a 50% success rate mean? It meant that they had at least a 50% chance of surviving the Sky Opening Tribulation.

At that moment, these Sea Establishers were all excited.

Especially on the side of the Giant Whale Stronghold, Han Fei's participation brought them not only nearly 20,000 Sea Establishers, but also seven or eight Sky Opening Realm powerhouses.

Now, there were 26 Sky Opening Realm powerhouses. If they were to go through some big battles more, it was almost certain that there would be 50 Sky Openers in total.

Unlike the people from the Giant Whale Fortress, the humans all saw hope. In the City of Scavengers, no human could enter the Sky Opening Realm.

Han Fei's appearance changed the situation. Many people were only one step away from opening the sky. Without the suppression of the City of Scavengers, their Dao hearts began to become clear.

Han Fei also vaguely felt that some people were showing signs of instability in the realm.

"F*ck! I can't make another breakthrough now. I'll be poor if I make another breakthrough."

No matter how many resources Han Fei had, it was impossible for him to provide for the growth of hundreds of thousands of people.

At this moment, he only had less than 20% of the resources he could use for them to transcend the tribulation. If this went on, he might become a pauper before he reached the Infinite Mining Area.

Han Fei shouted, "Everyone, I know you are very happy now, happy and proud for the growth of your strength. However, becoming stronger and growing can't just be based on resources. We need more resources, we need more battles, and we need more weapons. A hundred years of cultivation is just for one day. Everyone, return to your positions and follow me to conquer the Black Wind Pirates."

"We're willing to fight for Master Human Emperor."

"Sweep the Black Wind Pirates."

Everyone rushed to gather while shouting slogans. They had never experienced such a crazy experience of becoming stronger. They also knew that there was no free lunch in the world. The Human Emperor could help for a while, but not forever. They needed to become stronger and couldn't count on the Human Emperor for everything.

They had been preparing for this battle for more than three hundred years.

At this moment, they were ready to kill the enemies in one blow.

Only the old turtle whispered in Han Fei's ear, "Who can they beat? All of them combined are not even enough to kill a peak-level late-stage Star Transformation Realm. Hong Yue, Yingyue and the others were pushed to the edge of the Star Transformation Realm just by resources."

Han Fei grinned. "That's why they need to fight now. I'll collect the resources. Take care of their battles, OK?"

...

Seven days Later.

He had already left the range of the Godfiend Sea.

In fact, when Han Fei killed Chen Tang and the others, the Black Wind Pirates were already sending reinforcements here.

Unfortunately, Chen Tang and the others died too quickly and couldn't wait for reinforcements to arrive.

For a period of time, the Black Wind Pirates wandered around and didn't return to the Infinite Mining Area until half a year ago.

The pirates here were different from the ten pirate groups in the Raging Sea.

The pirates in the Raging Sea still used boats, but boats were not used here. Boats were used for resting, which was equivalent to a tent erected on a trip. Once something happened, they would just activate their Great Daos and run away quickly.

And the existence of the ultra-light speed Void Breaking Shuttle was a special weapon for a few strong masters to search for prey.

One Void Breaking Shuttle was equivalent to a godly weapon. Ordinary pirates could only afford three or five Void Breaking Shuttles at most.

The Black Wind Pirates were just regular pirates.

Because they also needed to reconnoiter and find prey along the way, their speed was not fast.

At this moment, in a wilderness camp near the Infinite Mining Area, the crew of the Black Wind was resting here.

The wilderness camp was the symbol of the safe zone in the wilderness. Whoever dared to attack the wilderness camps for no reason would be taken as attacking all itinerant cultivators. In the end, they would be hunted by all wilderness camps until they died.

At this moment, in a luxurious tavern on the camp, three people were drinking. In front of them was an old man with gray hair in the perfected Star Transformation Realm.

One of them said, “Old Chen, have there been any strangers in the camp recently?”

The old man said, “How many times have you asked me this question? You’ve asked me three times in the past two months. There are some unfamiliar faces, but they’re all trial-takers in the early stage of the Sky Opening realm and the Sea Establishment realm. If I’ve guessed right, they are from the Chaotic Wasteland. There are already dozens of waves of them. I advise you not to rob them. Whether it’s Zhang Beihai, An Kongsu, or Long Wu, they’re not to be trifled with.”

“Bah ~”

The person who asked the question shouted, “If it wasn’t an accident, one of the three powers attacked our Black Wind Pirates. They destroyed an entire ship of my men. I can’t forget this. Old Chen, inform me if you have any news.”

At this moment, the old man suddenly thought of something and said in confusion, “What a coincidence. A new face in the peak-level late-stage Star Transformation Realm has come.”

God of Fishing - Chapter 2529 - 2529 Buy Information

“A new face?”

These people from the Black Wind Pirates felt inexplicably uncomfortable when they heard the words “a new face”. They subconsciously suspected that these people had something to do with the people who attacked their Black Wind Pirates.

Many of them had died, nearly a quarter of the powerhouses of the Black Wind Pirates.

“Old Chen, which direction are they from?”

!!

The elder said indifferently, “If I say that they came from the direction you came from, are you going to kill them? They’re just a peak-level late-stage Star Transformation Realm cultivator and a powerhouse who has just entered the Star Transformation Realm. How can they kill Chen Tang and the others?”

The captain of the Black Wind Pirates grinned ferociously. “Old Chen, do you really not understand or are you pretending to be stupid? Who will easily appear in the outside world when walking here? There must be countless people hiding in the Origin Sea of the peak-level late-stage Star Transformation Realm cultivator. Since he has reached the level of strength and is following us, he might have something to do with Chen Tang’s death. Hey, no matter what, let’s rob him first.”

...

Han Fei had come at full speed, and Zhang Daqian was much faster than he was. They were probably already approaching the Infinite Mining Area or even meeting Zhang Beihai.

Part of his purpose to come here was to take down Zhang Beihai so that the City of Scavengers and the City of Origin would lose all the resources and support from the Infinite Mining Area.

At this moment, he was very sure that some people of the Black Wind Pirates were in this camp. Not only were they here, but they also didn’t hide it. They put their lackeys here to rest and carry out various resource exchange activities.

After paying a certain amount of camp fees, Han Fei felt three perceptions sweep over him before he walked in.

He pretended not to know it. Instead, he stuffed some resources into a guard’s hand and said, “Boy, who is the manager of our camp? I have something to visit him.”

There were managers in each camp, who generally wouldn't participate in any hunting activities. This was because the camp itself made more money than hunting, and there was no danger.

Therefore, their identities were never a secret. When outsiders asked, people would usually tell them what they knew.

The Sea Establishment Realm guard chuckled and said, "Uncle Xiong is in the Hero Tavern. He likes to drink, so he treats that place as his camp."

Han Fei didn't pay attention to the perceptions scanning him but went straight to the Hero Bar!

There were a lot of people and voices here. There was only a corner of the bar counter protected by an array and not disturbed by noise.

When Han Fei looked over, the latter happened to look at him too.

Han Fei smiled and strode over. Entering the range of the seal, many people cast judgmental glances at Han Fei.

Someone shook his head slightly. "I can't see him through. It's tricky."

Someone nodded. "Forget it. Don't do business for the time being. The Black Wind Pirates are here. How can we have any business here? As for this person, I don't think he can escape."

The group of people continued to drink and brag.

Han Fei casually sat on the chair in front of the counter. At this moment, the old man had handed a cup of blue liquor that was emitting white smoke.

Gulp!

Han Fei picked up his glass and downed it. "Are you Uncle Xiong?"

The old man smiled and said, "Uncle Xiong is called by the juniors. You are not weak and have already reached the peak-level late-stage Star Transformation Realm. Just call me Old Chen."

Han Fei nodded. "Okay, Old Chen, then I'll get straight to the point. I know that the person who can manage a camp here must be extraordinary. At least,

it proves that you're quite capable. I'm here to buy information. Name your price."

"Oh?"

The old man couldn't help but be interested. He had thought that what Han Fei wanted to ask might have something to do with the Black Wind Pirates, because the timing of Han Fei's arrival was too strange.

However, the other party didn't care about this at all. Instead, he directly said that he was here to buy information from him.

The old man couldn't help but say, "What information do you want?"

Han Fei said, "Firstly, I want a map of the periphery and the inside of the Infinite Mining Area and a division map of the major factions here. Of course, it would be even better if there is a rough estimate of the number and strength of the powerhouses here."

This thing sounded simple, but it was actually not simple at all. In the Infinite Mining Area, how many people could go to the major factions to investigate and confirm the identity and strength of their strong masters? This was definitely a dangerous job.

The old man couldn't help but look at Han Fei in surprise. "Huh! Aren't you from one of the forces? If you are, each force has been here for a long time. You can slowly summarize it."

Han Fei smiled and said, "You don't have to worry about that. Just tell me if you have the information I want."

The old man nodded. "The map is fine, but it's impossible to estimate the number and strength of the factions' powerhouses. No faction will leak this information, or they will be courting death."

Han Fei smiled and said, "That's fine. A map will do. Secondly, I want the basic information on all the pirates outside the Infinite Mining Area. It would be best if there's information about their settlements. Well, I'm talking about all the pirates."

The old man frowned slightly. "Sorry, I can't provide this information. Otherwise, once you leak it, you should be able to guess what will happen."

Han Fei didn't care at all. "There's no business in the world that can't be done. Old Chen, if you don't do it, I can find someone else to do it. Why don't you name your price first?"

The old man frowned slightly. "Fellow Daoist, there are strong and weak pirates. The strong ones may exceed your imagination."

Han Fei grinned and said, "No matter how strong the pirates in the periphery are, they can't be too strong, right?"

The old man said, "The periphery always depends on the Infinite Mining Area. How about this? I can give you a rough summary of the distribution of pirate groups in the periphery. Please forgive me for not being able to give you more. This is not a matter of money."

Han Fei nodded slightly. Alright, a basic distribution is fine.

So he responded, "Okay, thirdly, your camp is very close to the Godfiend Sea. I want to know some information about the Godfiend Sea. Any information is fine. Just summarize it for me. You can ask for a price based on its value."

The old man looked at Han Fei in surprise. He could understand buying information about pirates, but why did this person want to buy information about the Godfiend Sea?

However, who wouldn't want money?

The old man said, "If that's the case, do guesses and rumors count?"

"Yes, of course."

Han Fei said firmly. He didn't have the time to study the Godfiend Sea. The fastest way to gain information was to buy.

Han Fei opened his hands. "Just these three things. Name your price!"

The old man pondered for a moment and said, "You can pay with resources, weapons, treasures, techniques, intelligence, etc., including refined stars, Star Cores, etc. I wonder what you have more?"

Han Fei grinned. "I have a little bit of everything."

The old man: "..."

Old Chen thought to himself, I've never seen such a braggart. You have everything? Are you afraid that others don't know that you are a fat fish?

Han Fei grinned. "Just name your price."

Seeing that Han Fei seemed quite rich, the old man didn't refuse. He said, "As for the three things, let me tell you their prices one by one! The first is the map of the periphery and inside of the Infinite Mining Area and the division map of forces in the Infinite Mining Area. They are not easy to get, but it's not difficult to figure them out. After all, many forces have existed here for so long. For them, you can pay me 500,000 kilometers of resources, three low-quality godly weapons, or a refined star with a diameter of at least 250,000 kilometers."

Seeing Han Fei nod, the old man's heart stirred. Sure enough, this guy was rich. He continued, "As for the second, I have to bear a certain risk, so I want three refined Star Beads above 250,000 kilometers. I don't want the others. Don't complain that my price is too high. If you go to other camps, they might not dare to tell you at all."

Han Fei said, "Only Origin Stars? Do you accept modified stars?"

The old man said, "The level of modified stars is different. One Origin Star can be exchanged for two modified stars of the same level."

Han Fei nodded. "Okay! The price of the third."

The old man said, "As for this piece of information, to be honest, the price can be high or low. But if you are willing to give me a 250,000-kilometer refined star, I can even help you collect some information about the Godfiend Sea. It's free."

Han Fei grinned. "Old Chen, how much is a refined star with a diameter of 250,000 kilometers or more?"

The old man's heart did a flip. "It depends. If it's a 250,000-kilometers star transformation Origin Star, its price is equivalent to two non-250,000-kilometers star transformation Origin Stars with less than 360,000-kilometer star transformation. If it's a 360,000-kilometers star transformation Origin Star, its value is equivalent to three 250,000-kilometers star transformation refined stars, or two refined stars with more than 360,000 kilometers and less than 490,000 kilometer star transformation."

Han Fei nodded. "Okay. But Old Chen, let me ask you, how much is a refined star with the 490,000-kilometer star transformation?"

The old man chuckled. "That might not be something I can afford. This kind of refined star will only appear occasionally in the eight camps outside the Infinite Mining Area. Normally, it's auctioned and can be said to be priceless. To be honest, one piece can be exchanged for an ultra-quality godly weapon. Of course, generally speaking, no one will use an ultra-quality godly weapon to exchange for it, but there are many people who are willing to use high-quality godly weapons to exchange for it."

Han Fei grinned. It seemed that the demand for refined stars in the Infinite Mining Area was very high!

In that case, he might be able to make money with this.

The stronger he was, the more interesting it would be for him. Why did he come to the Infinite Mining Area? He was here to kill, and it wasn't difficult to refine Origin Stars.

And he had a way to find other people's Origin Stars, which meant that as long as he killed enough people, he could obtain a huge amount of wealth.

However, since refined stars were regarded as an expensive product here, it meant that there was definitely a way to find the Origin Stars of Star Transformation Realm powerhouses in the Infinite Mining Area.

Otherwise, how could you refine the Origin Stars if you didn't even know where they were? However, Han Fei didn't intend to buy this information, which would show the old man his strength.

As it happened, the Black Wind Pirates had three perfected Star Transformation Realm cultivators here. They should know how to refine the stars, so it was only a matter of time that he knew.

Han Fei smiled casually. "Okay, Old Chen, prepare the things. I'll come back to get them in two days."

Seeing that Han Fei was about to leave, the old man's heart stirred. He couldn't help but remind him, "Fellow Daoist, it seems that you have a grudge against the pirates. Then you have to be careful. There might be danger in the camp at the moment."

Han Fei grinned and threw a godly weapon-level battle suit on the counter. "This is the deposit. Heh, the Black Wind Pirates? I'm here for them..."

God of Fishing - Chapter 2530 - 2530 Doomsday for the Black Wind Pirates

From the moment he saw Han Fei, Old Chen had a strange feeling. He had a very special aura. He had only seen it once or twice from the peerless talents of the superpowers.

When Han Fei openly said that he was here for the Black Wind Pirates, Old Chen became solemn. This was equivalent to admitting that he had killed the brigade of the Black Wind Pirates!

Besides, wasn't this battle suit Chen Tang's? Han Fei threw it out so blatantly. Was he afraid that the Black Wind Pirates didn't know that he was the one who killed them?

Han Fei had just finished discussing business and left the tavern. He wasn't afraid that the Black Wind Pirates wouldn't come. When he took out the battle suit, those people should have already known.

!!

Han Fei stayed in the camp for two days, during which he released Hong Yue, Zhou Jingjing, and the others and asked them to go to the camp on their own to learn some things about the Infinite Mining Area.

At the same time, he inadvertently expressed that they were going to trade for some resources or something. He also specifically asked about the Black Wind Pirates. This was too much. To ask about them in front of their faces was no different from stepping on their faces.

Zhou Jingjing said, "My lord, the Black Wind Pirates are deliberately revealing some information to us. The Black Wind Pirates were established by three perfected Star Transformation Realm cultivators. They are known as the Black Wind Three Fiends. Their people said that their boss is not around for the time being. He went to explore some ruins and took away most of the strong cultivators."

Han Fei nodded. "The three of them did go out and take away a large number of strong masters, but it's impossible for them to explore the ruins. They're

probably waiting for us! After all, they left two peak-level late-stage Star Transformation Realm cultivators here to monitor us. Tell me what's special about them."

Zhou Jingjing said, "I only know that Boss's name is Mo Xuan. He's a powerhouse from a primitive tribe near the Godfiend Sea. His naturally-endowed godly weapon is the Shark Teeth Broadsword. The second brother's name is Qing Tuo, and he specializes in soul attacks. The third brother, Tie Han, is the fiercest. He's a body refiner and a battle maniac."

Han Fei grinned and said, "You didn't find anything else, did you?"

Zhou Jingjing nodded. "The other information about them can only be bought as intelligence. And from the bought intelligence, we know that they have 7 peak-level late-stage Star Transformation Realm cultivators, 17 late-stage Star Transformation Realm cultivators, and 38 other Sky Opening Realm cultivators. My lord, it seems that the Black Wind Pirates are very strong."

Zhou Jingjing knew that Han Fei was very strong, but no matter how strong he was, he wasn't a Monarch. The other party had three perfected Star Transformation Realm powerhouses and seven peak-level late-stage Star Transformation Realm cultivators. No matter how strong Han Fei was, could he resist these ten people alone?

Even with the old turtle, it would be difficult for them to take down such a group of powerful enemies. If Han Fei and the old turtle didn't take action, any one of the peak-level late-stage Star Transformation Realm cultivators could kill all of them.

Even if there were 26 of them who had just advanced to the Sky Opening Realm, so what? They were completely incomparable to peak-level late-stage Star Transformation Realm cultivators. Even if it was a suicide charge, at least 500 early-stage Sky Openers could exhaust a peak-level late-stage Star Transformation Realm cultivator to death.

Even Han Fei had to run when he encountered a peak-level late-stage Star Transformation Realm cultivator when he was not strong enough. Therefore, Zhou Jingjing didn't know how Han Fei would deal with this battle.

Han Fei said indifferently, "So, if you were a member of the Black Wind Pirates, would you think that you could definitely eat us?"

Zhou Jingjing nodded. Any normal person would have this confidence. With so many strong masters here, it was impossible for them to be defeated. They didn't even need to hide anything. As long as Han Fei left the camp, he would have to die.

Han Fei smiled casually. "That's good. Gather everyone. Since they're blocking us, let's give them a chance."

Zhou Jingjing said, "My lord..."

Han Fei raised his hand. "There are some battles that you don't need to fight, nor do you need to fight."

...

The Black Wind Pirates.

A big ship was sailing on the sea.

A powerhouse holding a war hammer said in a muffled voice, "Boss, are we just waiting? Will that brat run away? Old Chen is greedy for money. He will definitely sell our intelligence."

The leader, Mo Xuan, comforted him. "Old Three, don't be so irritable. They will come out sooner or later. Old Chen is not stupid. Otherwise, if we surround the camp, who will dare to come?"

Suddenly, the gloomy man who had been silent said, "He's out. He's in the southwest and heading north. His speed is very fast, eight times the speed of light. It seems that he has guessed that we might be hunting them."

"Hehe!"

Mo Xuan grinned ferociously. "Let's go! Eight times the speed of light is not bad. Unfortunately, where is this? This is the Infinite Mining Area. Let's go all out and get them."

Swish swish swish!

Five Void Breaking Shuttles flew away in a row.

Although Mo Xuan was arrogant, he was not stupid. Even a lion would use its full strength when hunting a rabbit. Han Fei's strength was not weak. Being

able to kill two peak-level late-stage Star Transformation Realm cultivators in a row, he couldn't be simple. Plus the person hiding on his Origin Star, only by attacking with all their strength could they ensure that nothing went wrong.

A hundred seconds later.

Mo Xuan deliberately slowed down and let Han Fei and his men run for a while.

Finally, after confirming that they were very far away from the camp and no one was around, Mo Xuan shouted, "Full speed ahead, surround them."

It was too easy to catch up with eight times the speed of light with ten times the speed of light. Even if they fell behind, it only took them less than three seconds to catch up.

At that moment, the impatient Third Brother, Iron Han, rushed out and smashed the void barrier with his giant hammer, causing a destructive scene.

Han Fei pretended to be shocked and tried to accelerate. However, he immediately felt a wisp of soul power trying to disturb his mind.

Han Fei pretended to be stunned and was caught up by Tie Han. Just when the giant hammer was about to touch Han Fei's face, Han Fei suddenly turned around with a strange smile on his lips. At that moment, Tie Han's eyes lost focus and he fell into a deep sleep. Han Fei's aura soared instantly, and he threw out a burning fist light and burst out more than ten times the speed of light, hitting Tie Han between the eyebrows.

Rumble!

It exploded for hundreds of thousands of kilometers, setting off waves and ripples that blasted through the sky and the sea.

Han Fei sensed that he was indeed very strong now. Although usually a peak-level late-stage Star Transformation Realm cultivator's strength would double when he reached the perfected Star Transformation Realm, Han Fei's strength had increased too many times.

In terms of strength, he was now completely a veteran perfected Star Transformation Realm cultivator.

Even so, it wasn't easy for a perfected Star Transformation Realm cultivator to die. However, in the next second, the old turtle's Yang Soul body suddenly appeared and turned into an armored turtle, smashing Tie Han's soul body into pieces.

"Stop!"

Behind them, Mo Xuan and Qing Tuo were horrified. It was too fast. At the moment when they were about to attack, Tie Han's blood sprinkled in the sky. They wanted to help, but it was too late.

Han Fei punched through Tie Han's Soul-Subduing godly weapon, penetrated Tie Han's Soul Sea, and dug out his Star Bead.

Rumble!

The roar sounded again. However, this time, what appeared was the roar of the Great Dao. There was a rain of blood, indicating the death of a powerhouse.

"A*shole!"

Mo Xuan roared, "Second Brother, stop that Yang soul. The others, cooperate with me to kill him."

At the moment of Tie Han's death, Mo Xuan had already taken action. A spear had already pierced into Han Fei's flesh and blood, but it failed to pierce through. Han Fei was sent flying 50,000 kilometers by the spear. Three peak-level late-stage Star Transformation Realm cultivators attacked simultaneously. Gravity pressed down, fire burned, and soul power tried to disturb, trying to buy Mo Xuan a chance.

However, two of the three fell into a deep sleep instantly. With a thought from Han Fei, the spear in front of him disappeared, and in the next second, it had pierced through the body of one of them.

Another drop of water entered the mouth of another guy who had lost his consciousness. In the blink of an eye, the knife Qi overflowed and he was cut into pieces. If this wasn't Infinity Water, what was it?

There was another person who mainly cultivated the soul. Perhaps he had obtained some special treasure. At that moment, a pearl shattered, and his figure appeared in the distance, his face full of shock and confusion.

The moment he appeared, he roared, "Boss, his soul is abnormally powerful."

This person didn't know that Han Fei had robbed his consciousness, so he couldn't understand the Void Stealing Technique and could only give such an ambiguous answer.

Rumble ~ Rumble ~

Han Fei, whose strength was comparable to that of a perfected Star Transformation Realm cultivator, ran wildly and killed two more people in the blink of an eye.

Unfortunately, he couldn't attack the third person, because Mo Xuan's hand was like a knife and had already slashed at Han Fei's shoulder.

Clang!

Mo Xuan was shocked. His full-strength blow failed to break his shoulder. Is this guy only in the peak-level late-stage Star Transformation Realm? Are you f*cking kidding me?

At this moment, Mo Xuan and Han Fei were facing each other. Mo Xuan saw Han Fei's mouth open, and a trace of golden blood bloomed between his lips and teeth.

Mo Xuan seemed to realize something and wanted to retreat quickly. But in the next moment, he felt that he was about to fall into a deep sleep. Fortunately, he had a Soul Suppressing Weapon, the Soul Suppressing Bell, and the bell in his mind rang, allowing him to regain consciousness.

However, the moment he sobered up, he saw a sword beam containing many Great Daos stabbing into his body.

Bang!

This person suddenly turned into two or three phantoms and retreated quickly.

In a flash, Han Fei suddenly dropped a drop of essence blood into this person's body.

“Huh?”

Han Fei frowned. He could understand the Soul-Subduing godly weapon, but this person had blocked his All Great Daos in One Sword with a great technique. It seemed that this person’s great technique was not weak!

“Snap.”

However, Han Fei suddenly grinned, snapped his fingers in the air, and said casually, “Backlash.”

“Pfft!”

Mo Xuan instantly spurted blood from his seven orifices and essence blood seeped out of his skin. His eyes were filled with red light as he suddenly slashed back. Caught off guard, a peak-level late-stage Star Transformation Realm cultivator who came to help was blown up by his slash.

“Hiss! Not bad.”

For the first time, Han Fei performed the great technique of Karma Distortion. Just now, he injected a drop of the essence blood of a divine beast into the man and gave him language guidance, predicting that he would suffer a backlash. This was the cause. However, Han Fei didn’t know what the outcome would be.
