Han Fei thought for a moment. This could be allowed. There were only 800 Star Rivers left in the Primordial Star Sea, and there were as many as billions of Star Rivers covered by the ominous mist. He didn't control Primordial Chaos, so he couldn't purify this place at once.

In that case, the passage between the two worlds couldn't be left open for a long time. At least, he could make an attempt.

Seeing that the Nine Heavens Mystic Fairy and the Heavenly Monarch were also looking at him expectantly, Han Fei thought for a moment and said, "I'll consider it. Wait a moment. I'll talk to your Heavenly Dao."

The three of them: "..."

The three of them felt that it was ridiculous. Could the Heavenly Dao be chatted with?

Han Fei looked up at the sky.

Hongjun's will was branded in his mind. "You made it."

Han Fei smiled. "Yes! I made it. However, I have some bad news. The ominous and your ominous body you and I saw might not be the complete ominous."

Hongjun was silent for a few seconds before saying, "So?"

Han Fei said, "In the distant future, or it might not be that far away, the flames of war might spread again. However, at that time, it might not be my war."

Hongjun sighed. "In that case, I have a presumptuous request."

"Oh? Senior, just tell me."

Hongjun asked, "You're from the six lineages after all. Can you leave some inheritance in the Primordial Star Sea?"

"No problem."

Han Fei didn't hesitate. Eldest Senior Brother had left, Senior Brother Undead had fallen into a deep sleep, and he still owed the Void Temple a disciple. He could leave a test of the Void Temple in the Primordial Star Sea.

Han Fei smiled and said, "I'll arrange this matter later, but my test will be abnormally strict. Perhaps no one will be able to pass it in millions of years. In addition, I'll leave the Reincarnation Path of Six Daos behind. In this way, the passage between the two worlds can be opened for a long time. Now, both worlds have a lot of things to do. It's time to give birth to more children. In addition, the Chaotic Star Sea can provide some combat power that can help

the Primordial Star Sea resist the ominous mist. Although most of the dominators have died, there are still many ominous creatures of various levels. It's still a long way to go to reclaim the Primordial Star Sea."

Hongjun was silent for a moment and then said, "Thank you."

Han Fei paused and said in the end, "By the way, let me give you a suggestion. After the Primordial Star Sea recovers, you can try to create another divine vine."

"Oh?"

Han Fei said, "I've taken your divine vine, so I'd like to give you something in return. You can try reincarnation. Perhaps the Primordial Star Sea will have one more Immortal."

"Thank you."

Han Fei smiled, thinking that if the ominous came again in the future, he didn't want to fight alone. Even if he was still here, it would be a problem whether he could defeat it or not.

...

When Han Fei lowered his head, the Heavenly Monarch hurriedly said, "Fellow Daoist Human Emperor, how is it? Did you have a good chat?"

Buzz!

In the next moment, six purple doors suddenly appeared around Han Fei, which stunned the Heavenly Monarch and the others.

Han Fei patted the Heavenly Monarch's shoulder and said, "This thing is called the Reincarnation Path of Six Daos. Since you are the strongest in the Primordial Star Sea, I'll leave this thing to you! But you have to remember that this thing concerns the reincarnation of billions of people in the Primordial Star Sea. Whoever holds this thing can't pass the passage between the two worlds. This thing can't be obtained by evil people and can't be abused. In

short, before the ominous mist in this vast Sea of Stars is dispelled, this thing is more important than your life."

Immediately, the Heavenly Monarch was refreshed, and the hands in his sleeves were trembling slightly.

"I won't disappoint you, Fellow Daoist Human Emperor."

Han Fei nodded slightly, then turned around and left. He didn't stop until he reached the entrance of the passage between the two worlds. Without looking back, he said casually, "You can send someone over to prepare for the matters regarding the connection between the two worlds."
