At this moment, the Time Dragon Carp noticed Ximen Linglan beside Han Fei and asked in a suppressed tone, "Is this the little girl from back then?"

Ximen Linglan had never seen the Time Dragon Carp, but the Time Dragon Carp had seen her before. The Time Dragon Carp could tell at a glance that Ximen Linglan's realm was comparable to hers, or even... stronger.

"Ximen Linglan greets Senior."

The Time Dragon Carp asked with a complicated expression, "What happened in the past 20,000 years?"

Han Fei shrugged slightly. "Senior, you can go to the Sea Realm on your own. The current Chaotic Star Sea is different. As for the entanglement between you and the Master of Time, I won't get involved and don't want to ask. However, I can guarantee that he won't force Nian'er to do anything outrageous. After all, Nian'er is my sister. As long as you don't want to, the Time Temple can't stop me."

As he spoke, Han Fei looked at the Master of Time warningly. As for the Master of Time, he pretended not to see it.

The Time Dragon Carp was skeptical. Although she more or less felt that Han Fei's words were a little ridiculous, even Ximen Linglan was already so strong. It could be seen that too many things had happened in the past 20,000 years.

The Time Dragon Carp was still a little vigilant. "In that case, I'll take Nian'er to the Sea Realm first. Han Fei, can you help me stop him?"

Han Fei smiled. "Okay."

Seeing that her mother was about to leave again, Nian'er hurriedly said, "Brother Han Fei, where can I find you?"

Han Fei laughed and said, "The Free City of the Sea Divine Realm in the Sea Realm."

After the Time Dragon Carp left with Nian'er, the Master of Time said indifferently, "She is a spirit in time. She is unique."

Han Fei stopped him. "I'm not interested in listening to stories. Anything else?"

The Master of Time was speechless. He couldn't understand how this petty-minded Han Fei could become an Immortal.

He said, "Are you going to the Path of No Return?"

Han Fei nodded. "Someone has to explore the unknown. Generations of strong masters have embarked on that path, including me. Perhaps you are no exception."

The Master of Time nodded slightly. "Good luck."

Han Fei knew that the Chaotic Star Sea was far from absolutely safe. If what the ominous said was true and they still had an original body, it would definitely be extremely difficult to deal with.

He shouldn't become complacent and stuck in his ways. At this point, anyone could stop, except him, Han Fei. He was the hope of too many people.

After the Master of Time left, Ximen Linglan held Han Fei's hand and said, "You know, I will definitely go."

"I know."

...

Sea Realm.

Han Fei and the others only stayed in the Grand Myriad Mountains for a year before returning to the Sea Realm.

This time, Han Fei took his family to cultivate in seclusion for a thousand years.

On a certain evening a thousand years later, the Free City was still noisy. Suddenly, from the location of the Thug Academy, a shocking light soared to the sky.

In the sky, there were a total of 24 golden pages. Great Dao runes surrounded the pages, and Dao sounds rang. The light of laws spread in the Sea Realm, radiating to the five Divine Realms.

Countless people looked up, and all the strong masters of the Sea Realm looked at this place.

A divine voice resounded in the Sea Realm. "I'm Han Fei, the current Human Emperor. May I occupy you a little time... In the 12,001st year of the Origin Era, I consumed a Supreme Nature Treasure to forge 24 pages of the Human Emperor's Book. It records in detail everything I've learned, comprehended, felt, and obtained in my life... Whoever gathers the 24 pages of the Human Emperor's Book can get an unexpected surprise. Now, I've scattered the pages of this book all over the world. I hope those who are fated can obtain them..."

Buzz!

As soon as Han Fei said so, the twenty-four pages of the Human Emperor's Book scattered in all directions at the same time.

Han Fei's words shocked the world, and countless people were shocked.

"Heavens! This book actually contains all the knowledge of the Human Emperor. Doesn't this mean that if anyone can obtain this book, they have a chance to achieve what the Human Emperor has achieved today?"

"Human Emperor refined a Supreme Nature Treasure into a book. Even if one doesn't learn the technique on it, just the page itself is a peerless treasure."

"Did the Human Emperor cast this book to select disciples?"

"Why is it so troublesome for Master Human Emperor to choose a disciple?"

"I wonder who will be so lucky?"

Some superpowers had already begun to take action.

The crown prince of the Divine Capital said, "The intelligence agency of the Divine Capital Dynasty, immediately operate at full strength. I don't care what method you use. Once the Human Emperor's Book appears, I have to know it immediately."

In the Phoenix Divine Race, Feng Xingliu was enjoying the massage of his maidservant while holding a big pipe in his mouth. He raised his head and sighed. "Brother! Shouldn't we digest such a good thing internally first?"

As soon as Feng Xingliu said so, he discovered that a golden jade token had appeared on his fruit plate at some point.

Immediately, Feng Xingliu stood up and signaled the maidservant to retreat. Then, he picked up the golden token with trembling hands and couldn't help swallowing.

Feng Xingliu quickly glanced around and then quietly put away the golden token, with a faint smile on his lips. "You're really my good brother."

...

Sound Ending Mountain.

"Boom, Boom, Boom..."

In the past 20,000 years, the rise of Jiuying Ling was unstoppable. She was already proficient in music, and with the help of the Creation Void Spiritual Drum, she had made rapid progress.
