

GOF 451

## Chapter 451 Brotherhood

The two sat on the ground and Han Fei talked about his experiences over the past two years. There were twists and turns, as well as great opportunities. Tang Ge alternated between smiling and frowning as he listened.

After hearing that Li Jue had recovered quickly after he left, he frowned in worry.

Of course, Han Fei didn't tell him the whole truth.

He said that the Venerable who taught him the Incomplete Monograph on 108 Ways of Body Conditioning appeared again and taught him the 108 Spirit-Absorbing War Bodies after seeing that he was doing well in his cultivation.

And Old Jiang in the plantation was a hidden master, which was true.

Then, with the help of Old Jiang, he became a student of the Fourth Academy of the Blue Sea Town. Tang Ge could tell that the next two years might be the happiest time in Han Fei's life. The teachers of the school were so good, the classmates were so amazing, and the training was so rigorous. As for his strength, Han Fei's spiritual heritage was found useless in the test, but in fact, it was an extremely rare growth-type spiritual heritage.

Hearing this, Tang Ge was stunned. A growth-type spiritual heritage? This was definitely a rare spiritual heritage.

Tang Ge was very excited to hear that. "Good, good! When I go back this time, I will ask my master to recruit you into the Heavenly Sword Sect. With your talent, there would be absolutely no problem."

Han Fei interrupted directly, "Come on! I won't join your sect. My Thug Academy is no worse than your Heavenly Sword Sect."

Tang Ge wondered, "The Thug Academy, is it really that strong?"

Han Fei nodded proudly. "Of course, I'm not bragging. Last time, I killed a descendant of the Sun Family from the Thousand Star City. Then, his father came to kill me from the Thousand Star City to the level-two fishery...". Tang Ge was furious. "Really? The Sun Family are all bastards! OK, I'll avenge you one day..."

Han Fei laughed. "I don't need you to avenge me! That guy is too strong, even stronger than a Hidden Fisher. But guess what happened next? Our principal just slapped him away."

Tang Ge widened his eyes. "Really? Stronger than a Hidden Fisher? Then he must be a Law Enforcer. A Law Enforcer is usually a ruler of a certain area, maintaining the law and order of that place, so is your principal actually a hidden Law Enforcer? There are not many such strong masters even in the Thousand Star City!"

Han Fei was taken back for a moment. In this case, Old Bai was actually a very powerful person.

However, Han Fei said casually, "Don't worry, I'm doing very well at the Thug Academy. See, it's no worse than your Heavenly Sword Sect, right? I will go to the Thousand Star City when I get a chance. By the way, how are you? What have you experienced since you were taken away by Fang Ze?"

Tang Ge chuckled. "Nothing unusual. Fang Ze is actually a student of the Heavenly Sword Sect and he is also one of my senior brothers. After I went to the Thousand Star City, he took me to the Heavenly Sword Sect, and then I have been exploring various secret realms and fighting and wasn't released until I became an advanced Dangling Fisher. My master didn't want to let me out before I became a peak-level Dangling Fisher. Fortunately, my junior sister interceded for me and persuaded my master to release me in advance."

Han Fei smiled and nudged Tang Ge, saying naughtily, "Is it the girl from before? Are you in love?"

"Ahem... No... No..."

Han Fei laughed. "What are you afraid of? That girl looks nice! She is a spirit gatherer and good at formation skills, and even Cao Qiu is afraid of her! She must be from a powerful family. It wouldn't be bad to marry her!" Tang Ge was flush. "Well, no... Ling'er, she is just... My, my junior sister..."

Han Fei patted Tang Ge's shoulder with one hand. "Gee... Ling'er, how sweet! It seems that you're already quite intimate. Don't be shy. You're a man. You need a wife anyway..."

Tang Ge shrugged awkwardly. "By the way, the girl in white just now..."

Han Fei grinned. "She is my little wife. You know what, she is very tame in front of me."

Tang Ge: "???"

"But I saw her pull you by the ear earlier..."

Han Fei blushed slightly. "Cough, cough... You don't understand. We just injected a little fun into our relationship. You'll understand it when you and Ling'er are as intimate as us! Well... Would you like me to pass on some experience? Blah blah..."

More than half an hour later, Han Fei and Tang Ge felt the same as they were in the Heavenly Water Village, without the slightest feeling of alienation!

The two had been bragging for a long while and Tang Ge smiled in surprise. "Han Fei, you seem to have changed a lot and become more cheerful."

Han Fei smiled. "Of course, since knowing that my spiritual heritage is capable of advancing, I have no pressure anymore! By the way, are there many people from your sect on the 199th floor?"

Tang Ge paused. "Not too many. This time, there are not many people here from the Heavenly Sword Sect. There are also some on the next floor, but fighting and killing in the fishery are common. However, you'd better not kill people. Otherwise, it will bring many unknown consequences."

Han Fei nodded lightly. "I see. Don't worry. I'll be careful."

Tang Ge suddenly changed the topic, "So, the Sun Family has been hunting you this whole time?"

Han Fei nodded. "Yes! They caused a lot of trouble before. However, after I explored the Sea Grassland, they can no longer do anything to me!"

Tang Ge nodded slightly. "Some time ago, I saw Sun Mu and the others go to the lower floors. Now they should be on the 200th or 201st floor. Go, let's teach them a good lesson! How dare they touch my brother!"

Han Fei stopped Tang Ge. "Wait a minute. It's none of your business. They can't do anything to me now and I'll avenge myself one day."

Tang Ge immediately shook his head. "How can you say it's none of my business? There are at least dozens of times more people on the 200th floor than on the 198th floor. Most of the people who can go to the lower floors are there. No matter how strong you are, even if you use the secret method you used just now, how many of them can you resist?"

Han Fei shook his head too. "They are not in the same gang. Don't worry. I will make a move according to the situation. Don't expose your relationship with me."

Tang Ge said sternly, "Do you think I will watch you fight alone and stay out of it?"

Han Fei smiled bitterly. "I am not alone. I have Xia Xiaochan on my side. Besides, isn't Wang Zitian also my teammate?"

Tang Ge still shook his head. "Wang Zitian is not weak, but no one on the other side is weak either. Wang Zitian may be able to stop one of them, but probably no more than two. As for Cao Qiuqiu, he has no combat experience at all. He may be able to invent some gadgets but his combat power is zero."

Han Fei bared his teeth. He had already noticed this. Although Cao Qiuqiu's equipment was super, his strength was almost nothing.

Han Fei pondered, and after thinking for a moment, he asked, "Is Mu Ling trustworthy?"

Tang Ge was taken back for a moment and then nodded very surely. "Yes." Han Fei nodded. "That's good! If you really want to join me in the fight, you can't show your real face."

With that, Han Fei threw a jade slip to Tang Ge. "This Thousand Faces Technique is a demon-level divine-quality disguise art, which I accidentally obtained in a secret realm. Don't expose our real relationship, but if you have to make a move in the future, you must learn it first. If Mu Ling is absolutely trustworthy, you can give this to her too."

"Demon-level divine-quality?"

Tang Ge was shocked. Even demon-level high-quality combat skills were very rare. In the town where Han Fei stayed, there were very few demon-level high-quality combat skills no matter how hard you looked for them, let alone demon-level divine-quality ones...

There were many demon-level high-quality combat skills in the Thousand Star City, but demon-level divine-quality ones were very few!

les were

However, Tang Ge shook his head slightly and said, "Even if I use the disguise technique, it will be useless. My fighting style will be easily recognized."

What he said made sense. Not everyone had so many extra-quality combat skills as him.

"Oh, by the way..."

Han Fei took out another jade slip. "This is the 108 Spirit-Absorbing War Bodies, which is an upgraded version of the Incomplete Monograph on 108 Ways of Body Conditioning. Take it."

Tang Ge's face changed slightly and he hurriedly refused. "No, I can't take it. This is what the Venerable gave you. I can learn the Incomplete Monograph, but if I learn the whole art, I might annoy the Venerable. At that time, he is very likely to punish you."

Han Fei pushed Tang Ge's hand away. "Just take it. The Venerable never said to accept me as a disciple. He doesn't care much about this combat skill. In fact, it's not much different from the Incomplete Monograph only with some improvement in the body tempering method, and with it, you can absorb spiritual energy during battle. So, it's nothing special. Just take it!"

"But..."

"It's OK! You are my brother. I don't mind sharing it with you. Don't you remember that you gave all your Spirit Swallowing Fish soup to me back then?"

"That's different. It was just Spirit Swallowing Fish Soup."

Han Fei shook his head. "No, that's very important. Without that Spirit Swallowing Fish soup, who knows if I would have become what I am now!"

### **Chapter 452 Unspoken Rule of the Level – Three Fishery**

In fact, Han Fei had nothing more for Tang Ge.

Perhaps because the Indestructible Body Art was too powerful, although the 108 Spirit-Absorbing War Bodies was a demon-level divine-quality combat skill, Han Fei didn't feel it to be that strong. After all, it was completely outshone by the Indestructible Body Art.

As for the Thousand Faces Technique, it was only a disguise technique. From a practical point of view, it was actually more commonly used than the 108 Spirit-Absorbing War Bodies. Although it didn't help the improvement of strength, with it, one's survivability could be increased tenfold.

As the saying went, people have misfortunes and blessings, and no one knows what will happen in the future. Although Tang Ge looked very powerful, was respected, and a single look from him could overawe his classmates, no one was invincible and he might need to use this technique one day.

Han Fei couldn't talk to Tang Ge for too long. As Cao Qiu said, the further they went down, the more difficult and the more people there would be. It was actually not easy to clear those people up completely. Especially on the 200th floor, Han Fei was wondering if he would have to reveal his true identity. After all, without Nine Tails and Little Gold, he would be much weaker.

Just now in the battle, it was fortunate that Han Fei had the Majestic Mystic Spell to support him. As Tang Ge said, however, the Majestic Mystic Spell consumed his energy very quickly. The energy he gained from the previous hot pot meal had mostly dissipated or been consumed. If he wanted to use it again, he needed to either eat a spiritual fruit or have a big meal.

At this moment.

Han Fei announced, "Let's go downstairs! See you on the 200th floor. I should have no problem dealing with the 199th floor myself."

Tang Ge asked, "Are you going to continue to rob people?" Han Fei grinned. "Of course. I came to the Steps into the Sea to find opportunities, not to fight those big-clan children with Cao Qiu. It's nice if I can rob them, but if not, I won't risk my life. I will just go directly to the 201st floor."

Tang Ge solemnly nodded. "Okay! But it is said that on the 201st floor, the difficulty will rise by one level. Some people say that it is very, very difficult. Even Cao Qiu's brother who has explored the Steps into the Sea many times only made it to the 208th floor the last time. But my master told me that it was not as difficult as it seemed and that if it were me, I might be able to reach the 250th floor."

Han Fei's eyes flashed and he kept this in mind. "I see. I'll do what my strength allows. Okay, don't waste time here. Go down!"

As Tang Ge's body faded, Han Fei did not immediately go to the 199th floor, instead he entered Forge the Universe. With Xia Xiaochan's ability, on the 199th floor, she would be invincible. Besides, the Hexagon Starfish could protect her with the six-gate formation, so ordinary people wouldn't be able to hurt her.

In Forge the Universe, Han Fei spent more than half an hour cooking himself a meal. After all, he consumed too much energy just now!

Half an hour later.

On the 199th floor, when Han Fei appeared, he did not see anyone else. However, the sea was shaking and there were multiple sources of the shaking: fighting seemed to be taking place in multiple places.

Han Fei chose the place of battle closest to him. When he arrived, he discovered that Wang Zitian was fighting against three large-sect disciples alone.

However, these people didn't seem to be from the Heavenly Sword Sect, because their uniforms were different. Besides, among these people, some used hammers and some used armor boxes...

At this moment, the other party didn't seem to take the upper hand. However, this battle seemed to have continued for quite a while. The loss of spiritual energy on both sides seemed to be huge, and neither one took advantage.

When Wang Zitian glimpsed Han Fei, he was slightly relieved. "Help me!"

When the three people on the opposite side found that Han Fei was with Wang Zitian, their expressions changed slightly. "Retreat!"

However, neither Wang Zitian nor Han Fei would give them a chance to retreat.

Wang Zitian thrust his sword out and attacked even more fiercely.

Taking this chance, Han Fei brandished the Embroidery Needle, which almost split the seawater into halves, and launched a spiritual energy explosive strike at those people.

They were locked in the fight in a stalemate before Han Fei appeared. However, after Han Fei who was even stronger than Wang Zitian joined the fight, the outcome could be imagined. In less than ten minutes, they were knocked to the ground by Han Fei.

Han Fei held the whetstone in his left hand and the Embroidery Needle in his right hand, shouting, "I want money, not life. Hand over your Sea Swallowing Seashells."

When Wang Zitian heard this, he couldn't help but roll his eyes. This man is really shameless. Why does he sound as if he's proud of being a robber?

"Wang Zitian, and this one in black, let's wait and see."

Han Fei smiled lightly. "Please remember my face well. I really hope to rob you again."

Wang Zitian put away his sword and looked at Han Fei. "Who won?"

What Wang Zitian cared about was certainly the battle between Han Fei and Tang Ge. Of course, he didn't know that Han Fei and Tang Ge were brothers and were actually reminiscing about the past just now. So, he was eager to know the result of the fight.

Han Fei smiled. "It was a draw. That Tang Ge is really strong."

"Huh? You drew a tie with Tang Ge?"

Han Fei shrugged. "You don't believe it?"

"Humph!"

Wang Zitian snorted. "I'm going to find Cao Qiuqiu."

Then Wang Zitian slipped away.

To be honest, it was not that he didn't believe him, but that he was stunned.

Only those who had fought Tang Ge knew how terrifyingly strong that guy was! He could even go into a frenzy in combat in certain circumstances. When Tang Ge was in his peak state, he couldn't even resist a single blow of his!

But this temporary comrade-in-arms actually drew a tie with Tang Ge? What did that mean? It meant that this guy hid his strength that was definitely greater than what he showed.

As soon as Wang Zitian left, Han Fei immediately swam to the next fighting spot.

However, this time, Han Fei still didn't find Xia Xiaochan. It seemed that some disciples of two sects were fighting each other here and there were a total of 9 people fighting.

There were 5 people on one side and 4 people on the other.

Since everyone was about the same strength, the five-person side clearly took the upper hand, and three people on the other side had been injured and they were about to lose.

When Han Fei arrived, the four-people side immediately shouted, "Brother, help us. If we win, their Sea Swallowing Seashells will be yours."

Someone on the other side shouted, "Brother, don't make a wrong decision."

Han Fei smiled. "Wrong decision? Haha... Hey, let me help you."

Han Fei waved the Blood Drinking Knife and hacked a person down, breaking his high-quality spiritual weapon.

The five people were shocked. "Asshole, which sect are you from?"

Han Fei said, "I'm the chief disciple... Of a sect... My name is Fan Datong. I came out for the first time. Please kindly advise."

Han Fei didn't care about bragging. I said I'm the chief disciple of a sect, but who knows what sect it is... Anyway, when you find out I lied, I'll already be gone. "Chief disciple?"

"You mean you're the chief disciple?"

A hunter disdained and sneaked up to him in stealth mode.

However, as soon as he showed up, he was knocked to the ground by Han Fei with the Embroidery Needle.

"You are shameless. Why did you suddenly use a stick?"

Han Fei sighed. "Are you stupid? Can't I use both a knife and a stick? Are you out of your mind?"

Seeing the situation was reversed, the four people of the other party immediately rose up to fight back.

After half an hour, the five people were all knocked to the ground and reluctantly handed over their Sea Swallowing Seashells.

Because three of these four were seriously injured, and seeing that Han Fei was extremely strong, they kept their word and gave Han Fei all five Sea Swallowing Seashells.

This scene stunned Han Fei. It was the first time he saw this happen in the level-three fishery! He thought that these people would refuse to give them to him and then he could rob them by the way, but now what was he going to do?

"Brother, we would never go back on our word."

Han Fei silently took the Sea Swallowing Seashells, suddenly raised his head, and looked at these people. "Is this the first time you have come to the level-three fishery?"

These people paused and then nodded. "Yes, the first time we left the sect, we came directly to the Steps into the Sea. Is this not yours?"

Han Fei: "... Suddenly, Han Fei said, "Then may I... Teach you a rule of the level-three fishery?"

A girl asked curiously, "What rule?"

Han Fei said indifferently, "Don't trust strangers. So, hand over your Sea Swallowing Seashells now."

Everyone: "???"

After a while, the four people lay on the ground.

The girl shouted indignantly, "You are shameless."

Han Fei tilted his head. "Why do you say that? A fall into the pit, a gain in your wit! I'm teaching you a lesson... I just want money, not life. I, Fan Datong, am the Black Ghost of the White and Black Ghosts... You'll appreciate me one day, because other robbers would not spare your lives..."

Everyone: "..."

### **Chapter 453 A Trap**

Less than an hour after entering the 199th floor, Han Fei got 12 Sea Swallowing Seashells.

The people from those big sects were really rich. Since the 197th floor, among the Sea Swallowing Seashells that Han Fei had obtained, even the worst in quality would be enough for two sacrifices on the 199th floor.

Han Fei found 3 Soul Crystals among the 12 Sea Swallowing Shells that he had just acquired.

Han Fei immediately absorbed them, and after ten minutes or so, all three Soul Crystals disappeared.

When Han Fei opened his eyes, his eyes were very strange. He had remembered the eighth, ninth, and tenth fragments of the God Scaring Painting

However, this time, Han Fei found that his perception range had not increased at all.

Suddenly, Han Fei felt he had discovered a big secret. He felt that unlike others who could improve their perception range with Soul Crystals, he could do that with the God Scaring Painting

Unfortunately, Han Fei had no Soul Crystals in his hands, and could not confirm his conjecture, so he could only continue to plunder.

After half an hour, Han Fei found another fighting spot. This time, it was not people fighting with people, but people fighting with the summoned marine creatures.

After the robbery, no Soul Crystals were found, and Han Fei continued to rush to the next fighting spot.

After robbing five or six people in a row, Han Fei didn't meet Xia Xiaochan or Tang Ge. However, he grabbed another Soul Crystal. This time, Han Fei sat on the ground and immediately absorbed the Soul Crystal. However, this time the problem had not become simple.

In his mind, the God Scaring Painting was still complicated, full of lines, glamorous and magnificent.

However, when Han Fei tried to memorize the 11th fragment, it appeared clearly in his mind only for a while. After the Soul Crystal was consumed, he had no impression of the 11th fragment at all.

"Huh? I didn't remember the picture, nor was my range of perception increased at all!"

Han Fei frowned. Logically speaking, it shouldn't be like this! Just like what Cao Qiu said, after 500 meters, 10 times the number of Soul Crystals was needed to extend the perception range by 50 meters. If this was true, after he used a Soul Crystal, his perception range should extend by 5 meters, right? But no, not the slightest change occurred.

Instead, Han Fei seemed to have hit a bottleneck-like obstacle.

"Huh... Is it possible that soul power also has different realms?"

Without the Soul Crystal, Han Fei couldn't speculate.

He was about to continue robbing, only to see Xia Xiaochan swimming over carrying Cao Qiu.

"Han Fei!"

Han Fei looked at Cao Qiu in surprise, asking, "Well... What happened to him?"

Xia Xiaochan grunted angrily. "Humph! This guy is simply useless. I can't fight so many people alone, so I ran away with him!" Han Fei couldn't help laughing. "Even you can't beat them? How many people were there?"

Xia Xiaochan nodded. "Twelve, suddenly there are a lot of people on this floor. Those 12 people seem to have come from one place. I can't beat them by myself and this guy was just hiding like a turtle retracting its head into its shell."

Cao Qiu said weakly, "I couldn't beat them either! I told you to run away."

Xia Xiaochan glared at Cao Qiu angrily. "Run, run, all you know is to run away! Since I first met you, all you do in combat is run away!"

Cao Qiu stretched his neck and refuted, "I couldn't beat them, and they couldn't break my defense! My killer blow is reserved for the 200th floor. If I use it now, what will I use then?"

Han Fei chuckled. "A killer blow?"

"Yes! Although I am a little weaker than you in combat, I can win by strategy!"

Han Fei sighed. "Don't tell me... You want to blow up the 200th floor!"

Cao Qiu rolled his eyes. "How is that possible? Could I do that kind of uncreative thing? Even if I wanted to blow it up, I can't."

Han Fei's face turned black. "Fine, I don't care what 'strategy' you have, but...12 people... It seems that I still have to use the Majestic Mystic Spell!"

Han Fei thought he'd better reserve his energy. On the bottom of the sea, he wouldn't have so many chances to cook.

Han Fei looked at Xia Xiaochan. "Do you want a spiritual fruit?"

Xia Xiaochan shook her head. "No, I still have enough."

Cao Qiu asked excitedly, "Are we going to kick those people's asses now?" Han Fei glanced at Cao Qiu with contempt. "Shut up! There are 12 people and each of them is stronger than an ordinary peak-level Dangling Fisher! Do you want us to die?"

Cao Qiu blurted out, "That'll be no problem for you! You can even draw a tie with Tang Ge. The 12 people will be a piece of cake for you, won't they? Tang Ge is at the same level as my brother who is able to beat a hundred men alone."

"Wait..."

Han Fei swallowed. "What did you say?" Xia Xiaochan also didn't believe him. "How can it be possible to beat a hundred men alone? A hundred men of the same level?"

Cao Qiu raised his head high. "Not of the same level but of higher levels than him."

"Impossible."

Han Fei and Xia Xiaochan were dumbfounded. Beat a hundred men of higher levels than him? Seriously?

Cao Qiu put his hands behind his back. "Why is it impossible? They threw people like my brother into a secret realm with a radius of at most a thousand kilometers and had a hundred people hunt him. In a hundred years, 101 people have passed this test. The 100th was my brother, and the 101st was Tang Ge. What do you think?"

Han Fei and Xia Xiaochan breathed a sigh of relief at the same time.

Xia Xiaochan rolled her eyes. "Can't you speak more clearly? I thought he fought a hundred men face to face all at once!"

Han Fei shook his head slightly. "It's not that simple. Don't forget, this is a hundred people hunting one person. Perhaps, the hunting people will be separated, but they would definitely be in groups of three to five, or even more."

Cao Qiu nodded. "Yes, yes, so I think you can beat the 12 people because you have two of you."

Han Fei: "..."

Xia Xiaochan: "..."

Xia Xiaochan couldn't help showing a trace of expectation as she looked at Han Fei. "Or, we can have a try?" Han Fei rolled his eyes. "No way! Let me tell you the truth today. If you can fight one on one, you'd better not fight many people alone. If you can fight a person with others, don't fight him alone..."

Xia Xiaochan groaned. "But Tang Ge and the others can fight many people alone."

Han Fei sighed. "Just because they can do it doesn't mean they have to do it. They did it because they had to pass the test, but we are not in a test now. If we are beaten to death, Old Bai won't come save us."

Han Fei kicked Cao Qiu's ass. "Go, act as the bait, and lure a few people over."

“Huh?”

Han Fei smiled. “Take it easy. I won’t trick you.”

After Han Fei explained his plan to Cao Qiu, Cao Qiu understood. However, he was still a little scared, only to be kicked away by Han Fei in the end.

In fact, there was no need for Cao Qiu to be bait. If Xia Xiaochan and he hadn’t run fast enough, they would have been caught by those people. Therefore, when Cao Qiu showed up, those people rushed over yelling and cursing.

Seeing this, Cao Qiu hurriedly ran away, transmitting his voice to those people as he ran, Hey, it’s me! Cao Qiu! What are you chasing me for? “You’re the one we’re after,” someone yelled back.

Cao Qiu ran as fast as he could while yelling, “I didn’t offend you. Why are you chasing me?”

Someone yelled, “You are an accomplice. Just now, that girl robbed our two teams. Cao Qiu, you’ve gotta give us a reasonable explanation!”

Cao Qiu shouted, “This is just a trial. You were robbed because you were not strong enough. What does it matter to me?”

“Humph, so we are going to rob you! That’s because you hang out with freaks every day!” Cao Qiu ran and suddenly saw Xia Xiaochan sitting on the ground cross-legged, so he shouted at her, “Xie Xiaoan, help!”

Xia Xiaochan opened her eyes, pretended to panic, and immediately ran hundreds of meters away. However, then she turned around and rushed towards Cao Qiu.

Behind, those people who were chasing Cao Qiu were overjoyed and some people exclaimed, “I didn’t expect that woman would be so loyal to her friend. OK, I’ll spare her life later.”

At this moment, in the distant sea, a vague figure seemed to be swimming over. However, seeing so many people here, he suddenly stopped.

Of course, these 12 people didn’t panic at all. No matter whether that person was a passer-by or not, even if they added up, there were only three of them. As for combat power, there were only two of them. Cao Qiu was simply useless. Xia Xiaochan picked up Cao Qiu and ran. When these 12 people chased to the place where Xia Xiaochan was just now, six beams of light suddenly rose from the ground.

These people’s reactions were quick. Someone accelerated in an instant and some left the team, so the six-gate formation trapped only five people.

“Damn it, it’s a trap!”

At the moment they were trapped, Xia Xiaochan threw Cao Qiu towards the six-gate formation like throwing a ball. Cao Qiu had the Cloud Dolphin attached to him and had the Poisonous Bubble Fish spit bubbles and then threw a Spirit Forbidden Net into the six-gate formation.

On the other side, at the moment when the six-gate formation rose, Han Fei had already sped up and hurried over.

Xia Xiaochan smiled slyly. "Huh, a bunch of fools, take this..."

### **Chapter 454 The Sects**

Han Fei was not very far from here. When he arrived, Xia Xiaochan had already rushed over.

Normally, Xia Xiaochan wouldn't be able to beat these people. After all, she couldn't use any of her hunter abilities, and it was a bit difficult for her to pretend to be a soul warrior.

However, with the Majestic Mystic Spell, even if Xia Xiaochan only used an ordinary bamboo stick, she was no weaker than any of these people.

Besides, although Xia Xiaochan could not use any of her hunter abilities, she was incomparable to ordinary soul warriors in terms of speed and reaction time. Her Roaming Technique was a heaven-level combat skill and was extremely rare even in the Thousand Star City. In the level-three fishery, on the hundred dragon boats, there would be only one or two heaven-level combat skills occasionally.

When Han Fei arrived, the scene where a real soul warrior who was strengthened by the Majestic Mystic Spell rushing into the battlefield was simply horrifying. However, what surprised Han Fei was that among these seven people, three of them resorted to some secret methods right on the spot, and their combat power soared instantly. At the same time, they fused with their spiritual beasts and had their contractual spiritual beasts attach to them, which increased their strength once again.

Because of this, under the combined efforts of the three people, Han Fei's blow was blocked.

This scene shocked Han Fei. Did they just block my blow?

What surprised Han Fei was that these disciples of some sect from the Thousand Star City actually blocked his blow after his combat power was increased fivefold! Then how strong would the guys be when he reached the 200th floor?

Of course, the three people were even more shocked. They almost exerted all their strength but only blocked a single blow from Han Fei.

But the second blow came soon. The three wanted to block it again, but this blow was even more powerful than the previous one.

BAM!

The three of them were smashed to the ground, their hands bleeding and their internal organs damaged, and they all vomited blood.

Of the other four, two of them were held off by Xia Xiaochan and were about to lose, and seeing this scene, the other two took out a talisman.

"The first door of death."

In front of the two people, a door had suddenly fallen from the sky, blocking Han Fei's path.

Cao Qiu immediately explained to Han Fei, "This is a unique skill of the Death Door Sect in the Thousand Star City. Its defense is so strong that it is even difficult for my brother and Tang Ge to break the door."

Han Fei frowned and thrust out the Embroidery Needle to poke the door that suddenly appeared.

Boom!

The sound was like muffled thunder, lingering and echoing

Several cracks appeared on the door. However, as Cao Qiu said, its defense was horribly strong.

Among the two, a spirit gatherer immediately used the healing technique and at the same time injected wisps of spiritual energy into the bodies of his companions.

However, when the two of them were delaying time with the Death Door, Han Fei suddenly took out his fishing rod.

Everyone: “???”

The two people opposite were still wondering why he suddenly took out his fishing rod.

However, as Han Fei cast the hook, it appeared on the other side of the Death Door in the blink of an eye. Before the two of them had any time to react, Han Fei had activated the Thousand Twining Technique and directly wrapped the two of them up.

“No! How can it be...”

“Thousand-Mile Fishing Technique?”

Cao Qiu also cried out in surprise, “Wow! How did you do that?”

Even Xia Xiaochan was shocked. She had seen Wenren Yu and Xiao Zhan use this kind of technique before. With a wave of the hand, the fish hook would break through the air and appear a thousand kilometers away... When did Han Fei acquire this technique?

These 12 people felt very frustrated, and among them, the most frustrated were the 5 guys who were directly trapped by the six-gate formation. If they were not trapped, they would be able to block a few attacks from Han Fei and buy some time.

At this moment, Han Fei smiled and said, “I want money, not life. Leave your Sea Swallowing Seashells and you can go.”

“Humph! Do you know what you are doing? You are challenging our Death Door Sect.”

Han Fei laughed, walked to the person who spoke, squatted down, and patted his face gently while saying, “I’m a robber. I don’t care if you are from the Death Door Sect or the Life Door Sect? No matter how many doors are in your home, I will still rob you.”

These disciples from large sects had never been subjected to such insults! This guy was giving them a slap in the face, which was completely intolerable!

The man was about to jump up, only to be knocked out by a square brick. Han Fei took out his Sea Swallowing Seashell casually and searched him, complaining, “Why don’t you have any accessories on your body? Not even an amulet?”

Everyone: “???”

The man was distraught. "How can you search me?"

"Because you didn't give your belongings to me! If you gave them to me, why would I have to bother to search you?"

While they were talking, two girls immediately covered their chests. Han Fei's face was black. "Xia Xiaochan, search the girls."

After a while, these 12 people were expelled by Han Fei in batches and their bodies gradually faded in the distance.

Cao Qiu was very excited. Wow, he is so strong! With such a teammate, it will be no problem for me to pass the 199th floor and hit the 200th floor.

A guy looked at Cao Qiu before he left. "Cao Qiuqiu, I'll definitely take revenge on you when I return."

Cao Qiu scoffed. "Go take revenge on Cao Tian. It has nothing to do with me."

Han Fei really envied Cao Qiu to have such a strong brother! No matter what happened, he would pass the buck to his brother. He wondered how Cao Qiu survived and even became an advanced Dangling Fisher...

Before he had the time to check the Sea Swallowing Seashells he had just stolen, the water rippled and another group of people came.

Han Fei was surprised. "Why are there so many people?"

Xia Xiaochan added, "There are a lot of people on this floor, and there are probably close to 30 people who have been driven out by us." The Hexagon Starfish suddenly wailed, "Life is so hard for the starfish! The six-gate formation consumes so much spiritual energy... Also, there are people coming from three directions."

"Three directions?"

Han Fei turned his head and saw that some figures had already appeared in the sea. There seemed to be only one person in one direction, two people in another, and seven or eight people in the third other direction.

Cao Qiu immediately shouted, "Run, we are going to be surrounded."

Xia Xiaochan waved the stick in her hand. "Fortunately, there are only a dozen people in total."

Han Fei wondered, "Is that Two Swords?"

"Two Swords?" Cao Qiu glanced at the figure who was alone, and after a while, he shouted in surprise, "Yes, yes, it is Two Swords. We have a chance, we still have a chance."

Han Fei shook his head. "What chance? You are useless!"

Cao Qiu pouted, "But you are strong." After sensing the fierce fight here, he guessed it must be some disciples of certain large sects, Tang Ge, or Han Fei who could cause such a violent disturbance.

According to his judgment, there was no one else except Han Fei who would fight as soon as he came in. Sure enough, as he had expected, far away, he saw Han Fei, Xia Xiaochan, and Cao Qiu standing in the water. Of course, he also noticed the arrival of others. However, he didn't care. Although they were only three of them, they were strong enough.

However, when Two Swords swam closer, he saw Tang Ge and Mu Ling on one side. All of a sudden, he felt as if there was a sea urchin in his throat... So uncomfortable!

Han Fei was also a little surprised. Tang Ge was here.

With so many people here, Han Fei and Tang Ge pretended not to know each other. However, the expressions of Xia Xiaochan and Mu Ling became strange. Xia Xiaochan said through a voice transmission, Is this guy your buddy? Wow, he beat a hundred men alone!

Han Fei responded, Yes, of course!

Mu Ling was also asking, Is that man really your buddy? Is he really as strong as you say?

Tang Ge replied, Of course, but he is stronger than I thought. Don't forget, he is now hiding his identity and can't use his spiritual beast or contractual spiritual beasts.

On the other side.

A total of 8 people came who seemed to come from neither the Death Door Sect nor the Heavenly Sword Sect but another major sect.

Cao Qiu informed them, "They're from the Sea Cloud Tower."

Han Fei asked, "So... How many sects do you have in the Thousand Star City? Wave after wave, almost endless!"

"There are seven major sects in total. This Sea Cloud Tower is weaker than the Heavenly Sword Sect and Death Door Sect, but only by a little bit. It's still very powerful!"

### **Chapter 455 Poor Master Hexagon**

Two Swords walked into Han Fei's team without hesitation, so the scene turned into a three-way standoff.

The leader of the Sea Cloud Tower team was a young armorist. He frowned at the moment. The situation was beyond his expectations. Who would expect that so many people would come all at once?

On one side, there was the little fatty of the Cao Family, Two Swords, and Han Fei and Xia Xiaochan who were dressed so weirdly that they didn't look like ordinary people at all. On another side, there were Tang Ge. Thus, they would have a very slim chance to win this battle.

Tang Ge said to Han Fei through a voice transmission, I've seen the leader of that team once. His name is Yu Xian and he is already a peak-level Dangling Fisher. His strength is not bad. Do you need me to help you?

No. Find an excuse and leave. I can handle the eight people.

Hearing this, Tang Ge immediately said to Mu Ling, "Let's go!"

"Great!"

Seeing Tang Ge leave, Yu Xian secretly breathed a sigh of relief. If his team fought the team of Two Swords and got injured, no one present could be Tang Ge's opponent! That would be the worst result for them.

Next to Tang Ge, Mu Ling curiously asked, "Aren't you helping him? Yu Xian's strength is not bad! Few people can escape from his knife formation."

A faint smile appeared at the corner of Tang Ge's mouth. "You underestimate my brother. He has a very strong physique. No matter how powerful Yu Xian's knife formation is, it can only trap Two Swords at most but won't work on my brother."

In fact, Han Fei did not start to fight Yu Xian after Tang Ge left.

Wang Zitian instructed, "Leave Yu Xian to me and you two solve the remaining."

Han Fei frowned. "Is that guy very strong?"

Wang Zitian nodded slightly. "Yes, his knife formation is a killer formation. I could leave him to you, but I may not be able to handle the remaining seven."

Wang Zitian didn't know Xia Xiaochan's real strength. At least, for the time being, he hadn't seen anything particularly outstanding about Xia Xiaochan. He unilaterally believed that Xia Xiaochan was just a soul warrior slightly stronger than ordinary ones, but not yet a top-notch Heavenly Talent.

As for Han Fei, he had fought him and witnessed the fight between Han Fei and Tang Ge, so Wang Zitian had recognized his strength.

"Okay! I'll leave the leader to you."

As soon as Tang Ge left, a battle was about to break out.

Yu Xian didn't know the Black and White Ghosts, nor had he ever heard of them. Therefore, his first goal was to intercept Two Swords.

As for Han Fei and Xia Xiaochan, in his eyes, no matter how strong the two intermediate Dangling Fishers were, it was impossible for them to win against his seven fellow brothers and sisters.

As for Cao Qiu, he just ignored him.

Han Fei said to the Hexagon Starfish via voice transmission, Master Hexagon, remember to set up the formation when the perfect moment comes.

The Hexagon Starfish hung on Han Fei's calf and complained, I can't do it! Too frequent, I lack spiritual energy and physical energy...

Cut the crap. When the fight is over, I will give you a little more, a high-quality spiritual stone.

The Hexagon Starfish responded happily, OK then.

Han Fei was very angry. This damn starfish has learned to blackmail me now! He has become a greedy starfish. He is no longer pure!

Two Swords held his swords in both hands, and as sword shadows flashed behind him, he fused with his spiritual beasts instantly. He, like a sharp drawn sword, turned to Yu Xian.

Han Fei and Xia Xiaochan looked at each other and then at Cao Qiu who was idling around before they rushed up.

This was a head-on fight. Unlike the battle just now, they would have to hold the opponent down before they could find a chance to set a trap.

At this moment, Han Fei took the lead to break into the siege single-handedly. However, the moment Han Fei rushed up to those people, he was stunned.

In all directions, there were thousands of knife shadows.

Xia Xiaochan hadn't rushed into the crowd, but seeing this scene, she immediately stepped back several dozen meters.

Xia Xiaochan curled her lips. Only Han Fei, a guy with abnormal physique and strength, could bear this kind of flying snow-type attack.

Even for her, if she didn't use the ability of a hunter, she would barely be able to defend herself in this world of flying knives.

Clang Clang Clang...

When a clanging sound was heard from Han Fei's body, Yu Xian knew something was wrong and immediately rushed back to support his teammates.

Wang Zitian blocked him, and a big sword fell from the sky. "Too late."

Han Fei put all his strength into this blow and the terrifying and explosive force directly smashed the sea. At least four people from the other side jumped up together, working together to resist this blow.

These people were shocked. How can an intermediate Dangling Fisher be so strong?

However...

Before they figured it out, Han Fei smiled, turned the Embroidery Needle and smashed at the other two.

And the four of them were astonished.

But then, the moment the six-gate formation rose, the battle was almost over.

Cao Qiu immediately ran over and cast the Spirit Forbidden Net.

On the other side, Xia Xiaochan was fighting alone, completely suppressing the opponent who had no chance to fight back at all.

In only ten minutes, the seven people were all knocked out.

Yu Xian was dumbfounded. At this moment, being surrounded by Wang Zitian, Han Fei, and Xia Xiaochan, he simply had no chance!

Just now, when he saw how strong Han Fei's physique was, he knew that this person was not simple and it was very likely that his strength exceeded his expectations.

He guessed right. Han Fei didn't even exert his full strength. And to his surprise, Cao Qiu, who had always been ignored in combat, suddenly cast a Spirit Forbidden Net, so their failure was already certain.

Yu Xian immediately put away his knives. "Okay! You win. I surrender."

With that, Yu Xian looked at Han Fei and trembled. "Who are you?" Han Fei shouted, "We Kill!"

Xia Xiaochan added, "You Die!"

"We are the Black and White Ghosts. Next time you see us, just give us your Sea Swallowing Seashell."

Yu Xian took out his Sea Swallowing Seashell sullenly, threw it over, and then looked at his teammates. "Leave your Sea Swallowing Seashells and let's go."

Wang Zitian said lightly, "There are not many teams on the 199th floor. I'm going to the next floor. As for you guys, you'd better think carefully before going to the next floor."

Han Fei responded casually, "Cao Qiu, you can go down too."

"Wait?"

Everyone: "???"

Cao Qiu smirked. "Could you please help me beat my summoned creature?"

Everyone: "..."

After sending Cao Qiu down, Xia Xiaochan said, "Are we really going down and fighting so many people?"

Han Fei thought for a while and shouted, "Master Hexagon, open your gates. Let us go to your door."

"Swish!"

The Hexagon Starfish directly jumped from Han Fei's calf to Xia Xiaochan's back, and his big eyes kept rolling. "The treasures are all my own, and I have earned them."

Han Fei laughed and scolded, "Who wants your treasures? Just let us enter an empty door. I'm going to cook a meal inside! Don't you want energy? I'll satisfy you. Anyway, I have a lot of Yellow-Blooded Sea Cucumbers."

Hearing that Han Fei was not going to his treasury, the Hexagon Starfish relaxed. Xia Xiaochan was confused. "What door?"

Han Fei smiled. "You'll know soon enough."

In the world in the door.

Xia Xiaochan felt incredible. “How is this possible? This is the space inside the door of the starfish? How can it be so big?”

Han Fei was also a little surprised. “Master Hexagon, the area of your inner world has doubled!”

The Hexagon Starfish muttered, “I made breakthroughs! Of course, it will become bigger.” Han Fei exclaimed, “How big can this space get?”

The voice of the Hexagon Starfish wafted in the empty square, “I don’t know. It depends on how many breakthroughs I’ll make.”

Han Fei sat on the ground and took out all his pots and pans.

To be honest, Han Fei was quite satisfied with the Hexagon Starfish. Although this guy was a bit greedy and no longer pure, his six-gate formation was almost invincible!

With the six-gate formation, coupled with the Spirit Forbidden Net, a battle with ten or eight enemies was simply a piece of cake for them.

Han Fei even planned more than once to trick this big starfish into becoming his contractual spiritual beast. With their tacit cooperation now, Han Fei was sure he could make an endless fortune.

Han Fei was cooking.

Xia Xiaochan ran to the deepest part of the door, knocking against the dark border.

Xia Xiaochan said, “Big Starfish, there seems to be another space outside.”

The Hexagon Starfish pleaded, “I know, can you stop knocking? I itch.”

Xia Xiaochan asked suspiciously, “Can you feel it?!”

As she said this, she scratched the dark seal on the border and asked, “Is it itchy?”

“Yes.”

Xia Xiaochan continued to scratch with both hands. “How about this?”

“It’s itchier.”

Han Fei laughed. “Okay, stop it. Time for a meal. Master Hexagon, eat your fill. Don’t hold me back on the floors below...” The Hexagon Starfish asked with hope, “Can I leave?”

Han Fei rolled his eyes. “Do you want your essence blood or not?”

### **Chapter 456 Play Dirty**

After the meal, the energy in Han Fei and Xia Xiaochan was almost overflowing. Even the Hexagon Starfish was red all over after eating and drinking to his satisfaction. This inner space was also a magical world. The Hexagon Starfish could take what he wanted to eat with his consciousness.

In order to boost this starfish’s morale, he gave him two high-quality spiritual stones that contained nearly 700,000 points of spiritual energy.

It was not that Han Fei was generous but that they were going to have a tough battle ahead.

After leaving the six-gate space, Han Fei said to Xia Xiaochan, "The Metamorphosis Water is available. It is said that there are a lot of people on the lower floor. Just disguise yourself as whoever you first see."

Xia Xiaochan was a little excited. After hearing Han Fei's words, she rolled her eyes and said, "You're telling me. I'm not stupid. If I rob people blatantly, I will be beaten to death."

Seeing Xia Xiaochan's figure fading away, Han Fei took out 7 Soul Crystals.

Yes, these Soul Crystals were useless to Xia Xiaochan. They were less than 10 pieces and didn't seem to be able to improve the perception range much.

However, Han Fei needed to have an experiment with these Soul Crystals. He always had a feeling that Soul Crystals worked differently on him.

However, when all the 7 Soul Crystals were absorbed by him, Han Fei was disappointed. Adding the previous one, he had absorbed eight Soul Crystals.

However, his range of perception did not increase at all, nor did he memorize the eleventh fragment of the God Scaring Painting.

Han Fei was a little confused. Is it the same case for others?

Is it a problem with the Soul Crystal, or a problem with the God Scaring Painting? Or both?

With deep doubts, Han Fei glanced at the Hexagon Starfish whose big eyes were rolling like wheels, and he suddenly felt there was a bunch of sticky stuff on his shoulders that had slipped out of the Hexagon Starfish's mouth.

Han Fei's face went dark. "Master Hexagon, what have you done?"

The Hexagon Starfish seemed to be thinking about something, and suddenly being reminded by Han Fei, he woke up and his six eyeballs dangled randomly in the frames of the eyes. Obviously, he was drunk. The Hexagon Starfish complained, "You have eaten so many Soul Crystals without even giving one to me."

Han Fei rolled his eyes "Why do you need it? I am growing up. I need more nutrients."

"I'm growing too!"

Han Fei shook his head. "You are so old, twenty more times older than me! Don't pretend to be young!"

"When you get more Soul Crystals, give me a few, OK?"

Han Fei glared at him. "Don't push your luck! But I will definitely give some to you when they're no longer useful to me."

The Hexagon Starfish hung to Han Fei's shoulder, thinking about the credibility of his words.

While he was still thinking, he faded with Han Fei and entered the next floor.

On the 200th floor, when they got there, there were only 3 people as far as they could see. Among them, one person sat cross-legged on the ground, seeming to be cultivating.

Another one was a spirit gatherer and was absorbing spiritual energy from the spirit gathering formation at his feet.

The third one was fighting with a Basalt Conch and seemed to have been fighting for quite a while. The hard shell of the Basalt Conch was broken by him in three or four places.

These three people all wore uniforms, but the spirit gatherer was wearing a different uniform from the other two.

Seeing Han Fei coming in, the person sitting on the ground immediately opened his eyes. The guy who was fighting just glanced at Han Fei, looked a little surprised, but gave no follow-up reaction.

Han Fei secretly breathed a sigh of relief. These people didn't seem to care much about him, nor did they seem to be hostile towards him. He doubted that if he started a battle with them, would it attract a large group of people

over?

However, the spirit gatherer suddenly said, "Leave quickly and find another place to offer your sacrifice."

Han Fei smiled and walked up to the man. "Brother, may I ask you something?" The man frowned, and seeing Han Fei approaching him, he couldn't help being vigilant as he shouted, "Just stay there. Don't come closer."

Han Fei smiled. "Well, I'd like to borrow something from you."

The spirit gatherer paused. "What is it?"

"Haha... Your Sea Swallowing Seashell."

Han Fei knew that these guys were not ordinary people and even much more powerful than ordinary peak-level Dangling Fishers. Therefore, he exerted all his strength as soon as he attacked.

He smashed the Embroidery Needle at the man and the latter immediately retreated. The soul warrior on the other side galloped over immediately. Han Fei grinned and the Embroidery Needle in his hand shot out.

The spirit gatherer immediately summoned a big turtle, but with a clang, the big turtle was directly hit to the ground by the Embroidery Needle.

The Blue Sea Wandering Dragon Rod in Han Fei's hand had already been shot out. Because it was only a hundred meters away from this spirit gatherer, the fish hook caught him immediately.

However, to Han Fei's surprise, the hunter who was fighting the Basalt Conch disappeared and was approaching him at a very fast speed.

The soul warrior and the hunter were both attacking him and Han Fei grinned. "Six-gate formation."

When the purple light rose, Han Fei entered the six-gate formation. At this moment, a contractual spiritual beast of the spirit gatherer appeared. As a burst of electric light flashed by, the contractual spiritual beast cut at the Blue Sea Wandering Dragon Rod.

Han Fei certainly wouldn't let this happen. The fishing line, as if it had eyes, was suddenly skewed out by dozens of meters. After the spirit gatherer fused with his spiritual beast, Han Fei was already close to him.

As the spirit gatherer held an amulet in his hand, Han Fei had already smashed the whetstone at him.

BAM!

The spirit gatherer was knocked down to the ground, bleeding. However, the amulet was still activated, and his injury was actually not serious.

Han Fei grabbed back the Embroidery Needle, jumped up, and hit him hard. Even if the opponent had an amulet, he still had to endure the shock.

The man stared at him. "Who are you? How dare you attack me? Do you know I'm from the Grand Void Academy?"

Han Fei grinned. "Who am I? I want money, not life. I am the deadliest person in the level-three fishery, the Black Ghost... Hand over your Sea Swallowing Seashells and I will not kill you."

Within the six-gate formation, the soul warrior and the armorist were frantically attacking the formation. However, Han Fei didn't care. It would be impossible for two peak-level Dangling Fishers to shake the six-gate formation.

Even Wang Zitian could not shake the six-gate formation with his full-force slash, let alone these people who were much weaker than him!

This spirit gatherer still wanted to order his spiritual beast to attack Han Fei.

However, Han Fei's Embroidery Needles burst out with billowing spiritual energy. "Smart people don't do stupid things! Which do you think is more important, your Sea Swallowing Seashell or your life? It's a big mistake if you think I can't do anything to you. I know the amulet is good, but I can cripple you even if I can't kill you!"

The spirit gatherer turned pale. He looked at the six-gate formation and said through the voice transmission, This is the 200th floor. There will be some people coming soon...

Han Fei shrugged. "Haha, you are right. So, I'll only give you one minute to consider."

"3... 2...1..."

"OK!"

The spirit gatherer surrendered. Han Fei's stick almost hit his face! What could he do? He was just a spirit gatherer!

Han Fei took the Sea Swallowing Seashell with a smile. "Smart choice... Now take off your clothes."

The spirit gatherer: “???”

“Come on, or I will do it for you.”

The two people in the six-gate formation were so shocked that they forgot to attack when they saw their poor friend start to undress? Was the guy in black gay?

Thinking of this, they shuddered and attacked the six-gate formation even more frantically.

The Hexagon Starfish pleaded, “Hurry up, these two people are so strong.”

“Just a minute.”

Han Fei immediately rushed to the six-gate formation after sending away the spirit gatherer. It only took him two strikes to knock out the two men. Without giving them a chance to speak, he grabbed their Sea Swallowing Seashells and said, “Leave the 200th floor within a minute. Otherwise, I’ll hurt you.”

The two people were shocked. This guy was so strong! Why didn’t they see him before? Was it possible that he was from a powerful family and this was the first time he came to the level-three fishery?

However, now that their Sea Swallowing Seashells had been snatched, they had no choice but to leave. The two immediately communicated with the Steps into the Sea, and their figures gradually faded. The whole process only took Han Fei less than five minutes.

Just two or three minutes after these two people disappeared, two other people swam over from a distance.

Then, they saw a disciple from the Grand Void Academy fighting a Basalt Conch.

One of them wondered, “Huh? Why does this guy make such a loud noise if he is only fighting a Basalt Conch?”

The other person smiled and said, “Look, that disciple of the Grand Void Academy is only an intermediate Dangling Fisher. I think he must be having a hard time fighting the Basalt Conch.”

So this person asked, “Brother, do you need a hand?”

Han Fei was alert for a moment and then pretended to step back a few steps. “Yes.”

“Haha, you are welcome, but we will take the Basalt Conch as the return.”

After five minutes.

Han Fei was holding another set of clothes with one hand and rummaged through two Sea Swallowing Seashells with another, a little disappointed. These five people only had one Soul Crystal? They are so damn poor!

### **Chapter 457 The Stupid Yet Strong Woman in White**

Basalt Conchs were completely different from Xiao Zhan’s Eight-Armed Conch. It had no weird tentacles or sticky suckers.

However, the shell of the Basalt Conch was like a big wheel rolled twice, with little bumps on it. Its fighting method was to control the shell to fight. Therefore, it was also called the Turning Wheel Conch.

Although Han Fei had sent away two waves of people, he did not touch the Basalt Conch whose shell had been damaged in several places, which seemed to be seriously injured.

Instead, he was pretending to fight against the Basalt Conch while moving to other places.

With this method, in the next half hour, with this dying Basalt Conch, he tricked four waves of people and got 7 Sea Swallowing Seashells.

At this moment, Han Fei gently knocked on the Basalt Conch and then pretended to be sent flying hundreds of meters away. The wheel-like Basalt Conch was crushing against Han Fei and he narrowly evaded it.

After performing for less than five minutes, Han Fei saw a girl in white taking a look at this side.

Huh! A woman?

Han Fei was a little disappointed. And this girl is alone! Should I rob her? If not, it will be a waste of my acting, right?

Rob! I don't care if it's a man or a woman...

Han Fei made up his mind and deliberately dodged towards that side. When he was less than 500 meters away from the woman, suddenly, a ray of sword light swept across.

The next moment, a fine sword mark suddenly appeared on the shell of the Basalt Conch. And this Basalt Conch stopped moving. Han Fei: "???"

Han Fei turned around and saw the girl in white only dozens of meters away from him.

"You led it to me because you wanted me to help you, right? Now you can go." Han Fei: "..."

Han Fei was stunned. Is this girl so strong? With a single slash, she killed the Basalt Conch whose defensive power was extremely strong? "Xiaoqiang! Xiaoqiang, what's the matter with you, Xiaoqiang? Xiaoqiang, you can't die! I've been staying with you for three days and three nights, treating you like my dearest spiritual beast! But now you're killed..."

After that, Han Fei suddenly turned his head. "You are so vicious! When did you hear that I asked you to help me? Pay me with a Basalt Conch... Or, pay me with a Soul Crystal."

The girl: "???"

The white-clothed girl was stunned. What's going on here? Why is this guy crying so bitterly at the death of a damn summoned creature?

The girl said coldly, "Are you... Blackmailing me?"

Han Fei certainly wouldn't admit this. He got up angrily and walked towards the girl in white. "Blackmail? How can you say that? I'm just telling you, sometimes good intentions lead to bad results! I'm teaching you the truth of life..."

Han Fei said via voice transmission while talking nonsense, Master Hexagon, is it close enough? Come on!

Just when the girl was off guard, all of a sudden, six purple lights rose into the sky.

But this time, Han Fei's eyeballs almost popped out. With a snap, the girl turned into a wisp of light blue smoke. When the smoke condensed again, the girl had already appeared outside the six-gate formation. The Hexagon Starfish was shocked. She's so fast. I can't trap her. Han Fei secretly said, You're telling me. I saw it too.

The girl frowned and looked at Han Fei. "So, you approached me because you wanted to trap me in the purple formation? If my guess is correct, the starfish on you is the legendary Hexagon Starfish?"

Han Fei felt his heart skip a beat. In fact, he had discovered early that none of the people who recognized the starfish were ordinary people.

The girl in front of her could guess it was a Hexagon Starfish just through the six-gate formation. This woman did not seem simple!

Han Fei held his head high and looked right and left. "Really? I don't know! Actually, I just wanted to try your reaction-time just now. As a girl, you should be vigilant when you're outside alone... Well, OK! Your reaction speed is very good. Keep it up... I have something to do now. I'm leaving..."

However, Han Fei only took two steps before the girl stood in his way. The girl in white with a narrow sword in her hand was elegant but her face was cold. "Do you think I look stupid? You can't snatch my Sea Swallowing Seashell, so you want to run? Since when does the Grand Void Academy have a shameless disciple like you?"

Han Fei sneered. "It's none of your business? Go away. I don't hit girls."

The girl raised one arm horizontally. "Don't you know me?"

Han Fei paused and felt something was wrong. Is this girl very famous? I don't f\*cking know her! I have never been to the Thousand Star City.

Han Fei said awkwardly, "This is the first time I've walked out of the Grand Void Academy. I have been cultivating in secret realms before, so of course, I don't know you." "Bullshit... You are not a disciple of the Grand Void Academy. Who are you?"

Han Fei: "???"

Seeing the Han Fei seemed confused, the white-clothed girl explained, "The Grand Void Academy is the most active sect in the Thousand Star City and has been involved in many aspects of the Thousand Star City, including public security, the school system, etc. You said you hadn't been out of the Grand Void Academy? How is that possible?"

Han Fei's expression remained unchanged. "There are people like me in every sect. Otherwise, what if the other sects get to know how talented I am and get jealous of me?"

The white-clothed girl was at a loss for words and after quite a while, she finally said, "You're... You're really shameless!"

Han Fei said with a black face, "Hey, hey! You're too much! How can you insult me?!"

However, what greeted Han Fei was not the retort of the white-clothed girl, but an arc of sword Qi.

Clang!

Han Fei casually blocked it with the Embroidery Needle and the sword Qi was shattered.

"Huh?"

The girl in white suddenly disappeared. Then, faint blue smoke appeared all around Han Fei. Immediately afterward, sword Qi hacked at him from all directions. "What the hell is this footwork?"

Han Fei had thought Xia Xiaochan's flash was simply one of the most powerful combat skills in the world, but this weird woman's footwork was even more shocking. Han Fei brandished the Embroidery Needle like a wheel and blocked a lot of the sword Qi. At the same time, his spiritual perception spread and swept across every inch within a few hundred meters in the blink of an eye.

What puzzled Han Fei was that he could clearly sense the girl in white but she was moving too fast.

"No, there is a problem with the smoke."

"Hey!"

Han Fei smiled, grabbed the whetstone, and kept smashing at the condensed smoke. During the period, although a few wisps of sword Qi fell on him, he didn't care. The sword Qi could only leave some faint blood marks on his body, which would heal in several minutes with the help of the Divine Healing Technique.

As he expected, when the blue smoke dissipated, the white-clothed woman appeared, pointing her sword at Han Fei.

Han Fei smiled and said, "Girl, your strength is not bad, but you still can't beat me. However, it's true that I am not as fast as you. Let's just go our separate ways and leave each other alone, OK?"

The girl in white pursed her lips. "How did you find that there was a problem with the smoke?"

Han Fei sneered. "I'm not stupid. Although the smoke was floating in the air, you fell on it every time. This shows that your speed is based on the blue smoke. If there is no smoke, where can you hide?" The girl in white shouted, "Take this!"

As she thrust her sword out, there was an explosive sound as if a gale was blowing and thunder rumbling.

Han Fei's face changed slightly. What a strong attack!

Han Fei could clearly feel that such a slash was not at all weaker than Two Swords' full-force blow, or to be exact, it was a bit stronger than that.

"Explode!"

Han Fei picked up Embroidery Needle, and without any fancy, smashed at the powerful sword Qi with the wind and thunder shadow.

Boom...With a bang, the girl in white took three steps back.

A surprised gleam flashed across her eyes. "An Intermediate Dangling Fisher?" Han Fei smiled. "Little girl, I've told you that I am an unrivaled genius of the Grand Void Academy. You don't understand my realm. Go, go, leave me alone..."

Han Fei just wanted to leave, but the girl's second blow came. This attack was even stronger, at least 50% stronger than the last one.

"Shoot..."

Han Fei was speechless. He jumped up and activated the Majestic Mystic Spell to repel the girl dozens of steps away again. Blood oozed from the corner of her mouth.

"Huh! Did you use a secret method?"

"Yes, so what? It's none of your business!"

The white-clothed girl's eyes turned cold. "Take my third attack!"

### **Chapter 458 Trapped Beauty**

Han Fei didn't know which major sect this girl was from; however, her strength was obviously no weaker than that of Two Swords.

When she swung her sword out, there was a dragon phantom rushing at him. There was wind and thunder on either side of the dragon, accompanied by flashing electric arcs, nearly thirty meters long which carried an overwhelming force.

It was only at this moment that Han Fei frowned and he replaced the Embroidery Needle with the Blood Drinking Knife.

"Draw!"

Compared with the wind-thunder dragon from the white-clothed girl, the Drawing Art was simple and unadorned. However, the shining blade light smashed all the way against the wind-thunder dragon.

Rip!

The waves were rolling back, blowing Han Fei's clothes and hair backward. In the billowing tide, Han Fei came on the waves step by step. In his sight, the girl in white launched another strike. Her double swords slashed continuously, blocking his attack.

However, just at the moment, the six-gate formation was launched again. This time, the girl was locked in.

“Ouff...”

The girl vomited a mouthful of blood, and a white seahorse appeared behind her. A ray of radiance fell on her, which was actually a power comparable to the healing technique.

In Han Fei’s eyes, information was displayed.

<Name> Green Cloud Horse (Gong Yuehan’s spiritual beast)

<Introduction> An exotic seahorse, extremely fast and elegant. It can emit icy sword Qi. After activating the Water Moon Cloud Chasing Art, it can even chase clouds and be as swift as a flying dragon.

<Level> 35

<Quality> Legendary <Contained Spiritual Energy> 2,602 points <Food> Algae, shrimp, planktonic

<Combat Skills> Water Moon Cloud Chasing Art

<Contained Soul Power> 808

<Remarks > Just coming of age, still unable to give a full play to the power of the Water Moon Cloud Chasing Art.

Han Fei was a little surprised. Aren’t legendary creatures extremely rare? But how many have I seen today?

The spiritual beast of Gong Yuehan turned out to be a seahorse!

This was the first time he had seen such a big seahorse! It was pure white with a single horn and seemed to have two wings, but it didn’t spread them. On its body, there were circles of light red patterns. This animal was too damn beautiful!

Gong Yuehan was looking at Han Fei blankly. She never thought that one day she would be beaten by others, especially with the other party looking so relaxed and casual while beating her. Gong Yuehan asked, “How much has your secret method increased your strength just now?”

There was a faint smile on Han Fei’s face, but his heart was not at all calm. His strength had increased by 4 times and just now he used 80% of his strength!

However, such a powerful force was blocked by the two slashes of the girl in front of him?

Han Fei was almost certain, this girl definitely had stronger life-saving combat skills.

Han Fei couldn’t help but feel a sense of urgency. Although Gong Yuehan seemed to have also used a certain secret method in her last strike, she was still very strong! What if people like Gong Yuehan and Two Swords also possessed secret methods like the Majestic Mystic Spell?

Then he would have to run away in despair. Otherwise, if their strength was fivefold greater, he would have no chance at all.

Han Fei walked up. “I want money, not life. Hand over your Sea Swallowing Seashell and you can go.”

However, the white-clothed girl didn't seem to panic at all. "You are very strong! Even if you don't use a secret method, you can be regarded as a Heavenly Talent of the Grand Void Academy. But don't even think about snatching my Sea Swallowing Seashell."

Han Fei rolled his eyes. "Don't even think about it? Why not? Your Sea Swallowing Seashell is mine!"

With that, a Spirit Forbidden Net fell from the sky.

y.

When the girl saw the Spirit Forbidden Net, her face suddenly changed. "Where did you get a Spirit Forbidden Net?"

The Hexagon Starfish urged him, "Hurry up, hurry up, here comes someone."

When Han Fei heard this, he rushed into the six-gate formation. No matter what, he would grab her Sea Swallowing Seashell first...

Han Fei said fiercely, "Hand over your Sea Swallowing Seashell! Or I'll take it myself!"

However, Gong Yuehan just pursed her lips. "My fellow sisters are coming. You can't get away! If you rob me, you'll pay a heavy price!"

Han Fei stared at her. "You just don't want to give it to me, do you? Why is a pretty girl like you so stingy?"

With that, Han Fei stretched out his hand with an obscene laugh.

Gong Yuehan turned pale. "Hey! What are you doing? You are shameless..."

Han Fei said indifferently, "Don't worry. I'm not very interested in you, but rather your Sea Swallowing Seashell." Gong Yuehan was still covering her chest with her hands and Han Fei had already taken off her earrings.

Gong Yuehan: "???"

Gong Yuehan was dumbfounded. She had never seen such a rascal since her childhood! When men saw her, they would either hide away or stick to her like a lapdog. But none of them would treat her like this!

In the blink of an eye, two of Gong Yuehan's earrings had been picked off by Han Fei. And he also took off a jade pendant on her waist.

"You thief, stop it."

Han Fei hummed and took Gong Yuehan's little hands, taking off the cyan jade bracelet on her wrist. Then, he looked at Gong Yuehan. "Are you going to give me your Sea Swallowing Seashell or not?"

Gong Yuehan looked at Han Fei with horror in her eyes. When Han Fei saw a figure coming from a distance, he hurriedly reached out to search for her Sea Swallowing Seashell himself. Anyway, Xia Xiaochan was not here and he just wanted her Sea Swallowing Seashell.

"I'll give it to you, I'll give it to you..."

Gong Yuehan felt that she was about to collapse and her tears fell. "Don't look at me!"

Han Fei was helpless. "Cut the crap, OK? Are you trying to delay time? I don't want to look at you..."

Gong Yuehan squatted on the ground and slowly took out her Sea Swallowing Seashell, which was immediately grabbed by Han Fei.

Before Han Fei stood up, dozens of sound transmissions floated over in the distance.

"Gross! Let go of Yuehan."

"How dare you! I will kill you today."

"You scum! You are a dead man!"

"Senior Sister, what did you do to my Senior Sister?"

Han Fei got up, only to see that there were already seven or eight people coming in all directions.

And one of them was also wearing the uniform of the Grand Void Academy.

At the moment, someone was pointing a knife at the Grand Void Academy disciple. "Tell me what this guy's name is! I must make him kneel at the gate of the Jade Fairy Palace and repent for this mistake he made today."

The disciple of the Grand Void Academy was also dumbfounded. However, when he looked at Han Fei, he was stunned. "I don't know him!"

Han Fei's face changed immediately. Oh, he was still using the face of the Black Ghost. He hadn't expected to meet people from the Grand Void Academy so soon, so he forgot to change his face.

But others didn't think so.

"Nonsense! He is also from the Grand Void Academy and you said you don't know him?!"

Han Fei suddenly said, "Junior Brother, I have been wronged! Believe me, I am innocent. We are just fighting normally." The Grand Void Academy disciple shouted angrily, "Who is your junior brother? I don't even know you. Who is your master? I've never seen you before!" Han Fei said brazenly, "Junior Brother, I'm too talented, so I stayed in seclusion in the Grand Void Academy for many years to avoid unnecessary trouble, and my master is the dean! It's not strange that you don't know me. But how can you watch a disciple of our academy being wronged?"

The disciple of the Grand Void Academy was confused. Is this true? Is it possible that this guy is the dean's disciple?

However, this is Gong Yuehan! God's favored one was defeated by this man? Was he really a hidden Heavenly Talent of the academy?

"Everyone, this man..."

Gong Yuehan just wanted to speak, only to be threatened by Han Fei through a voice transmission, If you dare to say a single word, believe it or not, I will tear your clothes!

Upon hearing this, Gong Yuehan didn't dare to speak again and her face was ghastly pale in anger...

Han Fei immediately straightened up and said seriously, "Victory and defeat are both common in battle! I was already going to let her go, but you guys suddenly popped up and tried to besiege me! Fine, I will give you a chance. Anyone who can hold on for three minutes under my attack can leave with their Sea Swallowing Seashells." "Three minutes?"

Someone asked, "Who knows if your words are true?" Han Fei snorted. "As a disciple of the Grand Void Academy, of course, my words are true! You are all from famous sects. Today, I, Fan Datong, a disciple of the Grand Void Academy, am going to sweep across you guys and display our academy's strength!"

Outside the formation, the disciple of the Grand Void Academy was stunned when he heard the words. This man did look like a peerless Heavenly Talent! But... His name... Fan Datong? What a lame name!

However, Gong Yuehan suddenly said, "Don't believe him! He is very strong, and you are no match for him at all."

"Very strong?"

These people hesitated. They might not believe it if others said it. However, these words came out of Gong Yuehan's mouth, so they had to take him seriously.

Han Fei bared his teeth and immediately looked at Gong Yuehan. "Shut up, this is an upright challenge. If you speak again, believe it or not, I will hang you up and beat the hell out of you!"

"Humph."

Gong Yuehan turned her head away. This person is simply shameless! In her life, she had never seen another person as brazen as him...

#### **Chapter 459 Turn A Group Fight into a One-On-One Hit**

Han Fei certainly wouldn't let this group of people give up!

Han Fei walked out of the six-gate formation and pointed his rod at the people. "Come on, two minutes! I will let go of anyone who can hold out for two minutes under my attack. Not only that, but I, Fan Datong, will also immediately leave the Steps into the Sea. But whoever loses must leave their Sea Swallowing Seashell and then get out of here."

Han Fei stood proudly but thought in his heart, Anyway, I am not actually Fan Datong. If I lose, I will... Change to Li Hanyi.

"A-choo..."

On the sea platform, Li Han suddenly sneezed.

He was very depressed. He'd had a bad day recently due to Han Fei. Did he get sick? He was already a Dangling Fisher. If he got sick, the others would laugh at him!

Seeing Han Fei's overbearing and arrogant manner, the disciples of the Grand Void Academy had completely believed him. He exclaimed in his heart, This man is really a worthy disciple of the dean!

Look how powerful and confident he is! He must be so excited to finally be out and exploring. What's all the fuss with the Jade Fairy Palace? Even your most outstanding talent was defeated by us!

He could even imagine, This time, if Han Fei can defeat all his opponents, when he returns to the Thousand Star City, the Grand Void Academy's fame will be greatly boosted up and could even match that of the Heavenly Sword Sect and the Jade Fairy Palace. Seeing they were still hesitating, Han Fei suddenly shouted angrily, "What are you waiting for? If you don't dare to accept my challenge, how can you have the cheek to claim to be strong masters?"

Immediately, someone blushed. "I, Feng Yifei from the Origin Returning Peak, accept this challenge from Fan Datong of the Grand Void Academy."

Han Fei held his head high. "Good!"

Feng Yifei's weapon turned out to be a fan, his spiritual beast was a Blue Tide Turtle, and his two contractual spiritual beasts were a Thorntail Wind Snake and a Butterfly Star Worm.

As the fan danced, flying needles shot at Han Fei all over the sky. And the peculiar ability of that Butterfly Star Worm was flashing, so this young man was confident that he would be able to hold on for two minutes with his flashing ability.

However, to everyone's shock, Han Fei actually pulled out a longbow and shot out three consecutive arrows with his eyes closed. Han Fei didn't dare to use the sixth arrow for fear of accidentally killing this man. However, the fifth arrow of the War Soul Art was more than enough to beat a peak-level Dangling Fisher. Three arrows came out together, consuming nearly ten thousand points of spiritual energy. BAM, BAM, BAM...

In the air, the arrows exploded in three different places. After the three blows, the man lay on the ground drenched in blood, his clothes torn.

"Wow..."

Han Fei defeated the disciple from the Origin Returning peak within a minute. This strength awed everyone present. Now no one doubted Han Fei's identity anymore. They never believed that an ordinary person could have this strength.

The disciple of the Grand Void Academy was puzzled. Can our Dean teach bow skills?

However, then he convinced himself that the Dean was so powerful that he was capable of anything! It was just because the Senior Brother was too excellent that he taught him additional combat skills.

Gong Yuehan, who was still in the Spirit Forbidden Net, opened her eyes wide at this moment. That guy was using a stick and a knife just now... But then, he changed to use a bow and seemed to be so good at it!

Gong Yuehan was dumbfounded.

So were the others. Is this guy a hidden trump card of the Grand Void Academy?

The disciple of the Grand Void Academy was grinning from ear to ear as if it was he who had won a victory.

But Han Fei just calmly put away the Blue Sea Wandering Dragon Bow and said, "Your Sea Swallowing Seashell."

Feng Yifei flushed, panting hard and looking embarrassed. He threw his Sea Swallowing Seashell out and his face turned pale and red. Then he quickly disappeared in the seawater.

"Next!"

Han Fei looked around at everyone, arrogantly lifting his chin high.

In the crowd, a tall, big boy stood up. "Xu Wei from the Mountain Sea Pavilion, armorist, please advise."

Han Fei looked at this man up and down. How many damn sects are there? This is already the seventh, isn't it? Is the Thousand Star City really that big? Can it accommodate so many sects?

"Well... Brother, how old are you?"

The armorist replied, "16."

Han Fei smiled. "But you look like a 26-year-old! Can you find a girlfriend?"

Xu Wei: "???"

Han Fei used the Embroidery Needle this time and said to Xu Wei, "Come on!"

The sea suddenly surged and the armor box was overflowing with colorful radiance. Han Fei frowned. Does this match your sturdy figure?

Little girls liked these bells and whistles, but wasn't it weird for a man to embellish his armor box like this?

However, Han Fei didn't take this man lightly at all, because one wheel after another appeared in the colorful glow.

Han Fei's eyelids flicked. Cool! Clang, Clang, Clang... Han Fei's footwork was very elusive and he managed to narrowly evade the golden wheels every time. In the eyes of everyone, Han Fei was approaching Xu Wei quickly like a shadow. But Xu Wei just smiled. "Sky Wheel Dance!"

In an instant, a hundred golden wheels gushed out, covering all directions, crazily darting at Han Fei.

Han Fei put his foot on a golden wheel, his body floated upwards, and pieces of golden wheels surged up behind him.

When Han Fei was a few hundred meters above the ground, the whetstone grew tens of meters large in the sky, abruptly blocking those golden wheels.

Crack! Crack! Crack!

Han Fei's face changed slightly, and the spiritual energy on the whetstone exploded in an instant. As the seawater surged, a giant rod fell from the sky. The speed was so fast that Xu Wei hurriedly summoned hundreds of the wheels back to block it.

However, Xu Wei underestimated the weight of the Embroidery Needle.

Except for Han Fei, no one present could lift the Embroidery Needle.

Therefore, Xu Wei fell to the ground under this blow and could not get up anymore.

One of the other two female disciples of the Jade Fairy Palace quickly performed a treatment on Xu Wei and stabilized his condition.

The whole process seemed extremely dangerous, but it happened so very fast. It only took Han Fei minimal effort to dodge the golden wheels.

Xu Wei was defeated a minute and a half later.

After the defeat of Feng Yifei and Xu Wei, everyone else was a bit scared.

The young man who kept yelling to save Gong Yuehan had shut up at the moment.

Han Fei pointed the Embroidery Needle at him. "Come! Didn't you say you wanted to kill me? I'll stand still and let you hit me. If you make my feet move within two minutes, you win."

Han Fei was not that broad-minded. This guy yelled the most fiercely just now. He certainly couldn't let him off.

The boy turned pale. Where did this guy pop up? He is too strong! The disciples of the Mountain Sea Pavilion are famous for their incredible strength, but Xu Wei couldn't even resist a single blow from him!

Besides, he saw Han Fei suddenly put away the rod before taking out a kitchen knife.

Yes, he was sure he saw it right. It was definitely a kitchen knife. How could this guy defend himself with such a short knife?

Gong Yuehan rolled her eyes. The kitchen knife was Fan Datong's strongest weapon. However, this time she was not prepared to remind this boy. She didn't like this boy who kept pestering her, so she didn't mind Han Fei teaching him a lesson. Anyway, as a disciple of the Grand Void Academy, Han Fei wouldn't really kill him. "Zhai Shun, come on! Brother Fan is just defending..."

Zhai Shun was speechless. Why don't you f\*cking fight him? Fan Datong is so strong! I am definitely not on par with him...

However, a man would never act like a coward in front of his dream girl. If he flinched at this moment, how could he still have the cheek to chase his goddess?

Therefore, Zhai Shun decided that even if he would lose, he must lose like a real warrior.

Anyway, he just needed to make Han Fei's feet move. Therefore, Zhai Shun directly gave up those fancy combat skills. What he needed to do was just attack him as hard as he could.

"Hum..."

Zhai Shun thrust his spear at Han Fei. The spear danced like a flying dragon, bursting with spiritual energy and wrapped with a centipede phantom, and the seawater burst several times. Han Fei suddenly said to the others, "Junior Brothers, I will teach you the truth today. Attack is the best defense. This is what the Dean taught me."

Swoosh!

“Draw.”

The blade light flashed, and the spear’s momentum was instantly shattered, and Zhai Shun turned pale with fright. The knife light was going to kill him and he was not in the mood to care about the goddamned goddess!

He immediately took out his amulet.

Clang...

The light on the amulet dimmed and Zhai Shun’s feet slid dozens of meters on the ground. “Puff...”

“Gulp...” Seeing this scene, the others all swallowed nervously. Wow, Zhai Shun was defeated so easily. This guy was simply too strong! Only the disciple from the Grand Void Academy said respectfully to Han Fei, “Senior Brother, thank you for your instruction.”

### **Chapter 460 Fan Datong, You Wait and See**

After Han Fei had won three battles and was about to continue to challenge the others, many people retreated.

Someone said, “Brother Fan, you are the disciple of the Dean of the Grand Void Academy. Why do you have to give us a hard time? Let’s just let it go, okay?”

The two girls from the Jade Fairy Palace also said, “Senior Brother Fan, could we take Senior Sister away?”

Han Fei put his hand behind his back and said solemnly, “Cultivators should never be afraid of fighting, cowardice is a demon to us. You don’t understand, but I do. I can’t leave you with regret. So, the battles must go on.”

Everyone: “...”

Han Fei suddenly said, “Oh! By the way, Junior Brother, you have to fight me too, but I won’t take your Sea Swallowing Seashell.”

“Huh?”

The disciple of the Grand Void Academy’s face became stiff and he felt a bit aggrieved. Why do I have to fight you too?

Han Fei secretly transmitted a message to him, Don’t worry. Before I came out, my master told me to remember to suppress other sects without irritating them. So what can I do? I have no choice!

The man responded, Senior Brother, I understand you. Okay, I’ll try my best to fight you so that they can’t find an excuse to blame you.

Han Fei praised him, Junior Brother, you’re so sensible and considerate. When I return to the sect, I will tell my master what you have done for our academy.

The disciple of the Grand Void Academy was very excited and almost shed tears of gratitude. Although he pretended to be nonchalant on the surface, his eyes were full of gratitude.

With Han Fei in front, these people didn't know what to do.

If they ran away, it would be a disgrace to their sects.

If they didn't, they obviously couldn't beat this guy!

However, for the sake of their sects' reputation, they all chose to stay in the end.

Then.

One, two... Seven...

After a while, seven people left seven Sea Swallowing Seashells.

Only the disciple from the Grand Void Academy didn't leave. Han Fei hushed him and asked the Hexagon Starfish to remove the six-gate formation. Then he collected the Spirit Forbidden Net and looked at Gong Yuehan with a smile.

"No offense."

"Shameless."

Han Fei said seriously, "It's just how cultivation is. How can you call me shameless? I, Fan Datong, don't think I did anything wrong. You don't understand it, but I do, and you will also understand it one day."

Gong Yuehan blushed and snorted and her figure gradually faded away. When there were only two people left, Han Fei secretly breathed a sigh of relief. "Junior Brother, may I ask what your name is?"

"Senior Brother, my name is Ji Wenxuan."

Han Fei nodded lightly. "Why are you alone here? Where are your other fellow sisters and brothers?"

Ji Wenxuan's eyes dimmed slightly. "Senior Brother, we ran into the Mountain Sea Pavilion on the 188th floor. After the battle, more than a dozen fellow brothers and sisters were sent out of here. Later, on the 197th, 198th and 199th floors, a few more left. In the end, only I and five other people entered the 200th floor. Among them, one was kicked out by Mo Feiyan and I don't know what happened to the others."

Han Fei had sent out two of them, plus this Ji Wenxuan, so there should still be two more people.

Han Fei nodded slightly. "Yes, I am afraid the 201st floor will be far more difficult than this floor. You'd better not go down rashly." Ji Wenxuan asked, "Senior Brother, why did you come alone? If you came with us, you would have been able to lead a large number of us into the 200th floor."

Han Fei sighed. "This is my master's plan. He said that if I led the team, you wouldn't get enough training. Besides, I have been cultivating for so long, not for the 200th floor. It's said that Cao Tian may have made it to the 250th floor now... By the way, Tang Ge, have you seen him? When I was on the 199th floor, I had a fight with him. This person is really powerful and made me consume a lot of resources. Otherwise, I wouldn't have had to snatch others' Sea Swallowing Seashells."

Upon hearing this, Ji Wenxuan was shocked. "Senior Brother, have you met the monster, Tang Ge? Were you injured?"

Han Fei shook his head slightly. "No, but that guy is very tough. I tried my best but only drew a tie with him, alas..."

"Huh? Senior Brother, you drew a tie with Tang Ge?"

Han Fei pretended to be shy. "Fortunately, I managed to fight to a tie. Otherwise, I wouldn't have been on the 200th floor. By the way, have you ever met him?"

Ji Wenxuan was very excited. How powerful is this strange Senior Brother?!

He fought Tang Ge of the Heavenly Sword Sect to a tie, defeated Gong Yuehan of the Jade Fairy Palace, and also planned to catch up with Cao Tian on the Steps into the Sea, which simply fascinated him. "I haven't met Tang Ge. He has always been a loner and people will avoid him when they meet him. I'm afraid he has already reached the 201st floor at this moment."

Han Fei was noncommittal and then asked, "Then have you met Two Swords? I met him on the 199th floor. He seems to be with the little fatty from the Cao Family."

Ji Wenxuan's eyes lit up. "Senior Brother, have you also fought Two Swords?" Han Fei shook his head. "No, I didn't have time to fight him at the time, but his sword Qi is very strong, so I think he should be a good opponent."

Ji Wenxuan said, "Senior Brother, you will definitely be able to beat him. Two Swords can't beat Tang Ge and Gong Yuehan! However, I haven't met them either."

Han Fei was speechless. How come you haven't met anyone? Then who the f\*ck have you met?

Han Fei narrowed his eyes. "Junior Brother Ji, are there still many people on the 200th floor? I need to snatch some Sea Swallowing Seashells. Which direction do you think I should go in?"

Ji Wenxuan asked in amazement, "Do you still lack Sea Swallowing Seashells, Senior Brother?"

Han Fei shook his head. "Once you enter the 201st floor, there will be fewer people on the lower floors. Although I have some spares, I'm afraid it won't be enough. If I want to catch up with Cao Tian, I may need more resources."

Ji Wenxuan took out his Sea Swallowing Seashell. Han Fei looked at it avidly, but he didn't know if Ji Wenxuan was testing him out or not. After all, it would be strange for a senior brother to snatch his junior brother's resources.

Han Fei shook his head and said, "Junior Brother, I can't take your Sea Swallowing Seashell. Tell me where the other people are and I will get theirs."

Ji Wenxuan couldn't help but think, A strong master is a strong master! Although Senior Brother is only an intermediate Dangling Fisher, he is so damn strong! He doesn't need my Sea Swallowing Seashell.

Ji Wenxuan said, "Senior Brother, if you want to snatch Sea Swallowing Seashells, you definitely can't go this way."

As he said this, Ji Wenxuan pointed to Han Fei's left side. "There are a lot of people gathering there. Sun Mu and Mo Feiyan seem to be there, as well as many disciples from the Heavenly Sword Sects, Death Door Sect, and Origin Returning Peak."

Han Fei was shocked. "Huh! Why are they gathering there?" Ji Wenxuan shrugged. "Most people are offering sacrifices or fighting with summoned creatures. As for people like Sun Mu, they can enter the 201st floor, but I don't know why they stay here."

Han Fei nodded. "Okay, I got it. Then I will start on the other side. As for people like Sun Mu, I will go to meet them later."

Ji Wenxuan was surprised. "Senior Brother, are you going to fight them?"

Han Fei smiled. "Yes. If our Grand Void Academy wants to make a name, we need to take these big-clan children as our stepping stone."

"Good idea, Senior Brother."

"I'm flattered."

Han Fei thought for a moment. Should he just send Ji Wenxuan away? However, he wasn't sure if there were other disciples from the Grand Void Academy here... If there were, he could use Ji Wenxuan as a guise, so he gave up the thought of sending him out.

"Junior Brother Ji, enjoy your trip here. I'm going to go around the 200th floor."

Ji Wenxuan bowed to him. "Senior Brother, take care."

"Take care."

Han Fei left in the direction indicated by Ji Wenxuan.

As for Ji Wenxuan, he might want to kill Han Fei after leaving the Step into the Sea!

In fact, it was not Ji Wenxuan but Gong Yuehan and the disciples of those big sects who wanted to kill him.

There was an uproar on the Steps into the Sea. Many disciples of the major sects in the Thousand Star City were kicked out, not one or two, but groups.

When Gong Yuehan appeared on the Steps into the Sea, many people were stunned and many people even put their business aside and came to watch her.

Ordinary people didn't know Gong Yuehan, but every disciple from the major sects did!

"Oh! Impossible!" Someone hurriedly shouted to Gong Yuehan, "Senior Sister Gong, did you come out for something?"

Gong Yuehan was stunned. The disciples of almost all the major sects were here, no exceptions! Look at the uniforms!

As soon as Gong Yuehan arrived on the shore, some female disciples from the Jade Fairy Palace ran over. "Senior Sister, we were deceived."

“Huh?”

The girls chattered, “That Fan Datong is not a disciple of the Dean from the Grand Void Academy at all. He is a big villain. He is known as the Black Ghost of the Black and White Ghosts in the third-level fishery, who will stop at no evil and even eat humans. He is also on the Wanted List!”

Gong Yuehan: “???”

After a moment.

Gong Yuehan was flushed with anger, clenching her fists, and gnashing her teeth. “Fan Datong, you wait and see...”
