

GOF 461

Chapter 461 Sister-In-Law

Han Fei didn't care what happened outside.

No matter what, it was none of his business: let everyone hate Fan Datong!

He was disguised as Fan Datong just to get into the Steps into the Sea and did what he wanted to do more conveniently.

However, they met the little fatty of the Cao Family halfway through, causing them not only to safely enter the Steps into the Sea, but also to make a name for themselves.

Han Fei thought now that the Black and White Ghosts were notorious, he might as well rob all the people on the first 200 floors of the Steps into the Sea. At this point, his second goal had almost been achieved. In fact, he could already reveal his real identity.

After all, no matter how strong the Black and White Ghosts were, if he couldn't use all his combat skills, his combat power would be compromised. This problem was particularly evident for Xia Xiaochan.

Although Xia Xiaochan was still very strong even if she didn't use her hunter abilities, it was because of the Majestic Mystic Spell. Once her energy was exhausted, she would have to become her original self.

At this moment.

Han Fei rushed along the way... Or rather... Deceived and robbed along the way. Where he passed, no one was spared.

If people appeared in teams, Han Fei might need to use his brain. If he encountered a single person or a combination of two people, he would just go straight up and rob them.

Of course, many people ran away and some people directly crushed their Flash Stones and escaped. However, most people couldn't escape. After all, no one would take an intermediate Dangling Fisher seriously.

And then the facts told them that even intermediate Dangling Fishers could be unimaginably strong.

Then Han Fei met Mu Ling.

Yes, Han Fei met Mu Ling. At this moment, Mu Ling was fighting with three disciples from the Death Door Sect.

Han Fei was surprised to see that. Judging from the way Mu Ling treated Cao Qiu on the upper level, she should have a powerful background. Why did the people from the Death Door Sect dare to attack her?

However, what surprised Han Fei even more was that Mu Ling, a spirit gatherer could easily resist the attacks of a soul warrior, an armorer, and a hunter.

This was what shocked Han Fei!

Han Fei saw that Mu Ling pushed with one hand and a formation appeared in the air. Then she stomped on the ground and a defensive formation blocked several attacks. As her finger pointed, a killing formation popped up, trapping the armorist.

“Gee, Tang Ge has really got a good girlfriend!”

Without even thinking, Han Fei came up to help Mu Ling, shouting, “Don’t you three feel ashamed to bully a girl together? Let me teach you a lesson.”

The hunter came out, looked at Han Fei, and sneered. “An intermediate Dangling Fisher from the Grand Void Academy? What makes you think you can meddle in our affairs?”

Han Fei smiled faintly. “Do you know why hunters are called hunters? Because they are good at sneak attacks! But, do you want to confront me head-on?”

With that, Han Fei launched an attack at him. Although the hunter disappeared in the next moment, Han Fei didn’t want to chase him, but rather lure him to get close.

One minute later, the six-gate formation rose.

Han Fei stood in the six-gate formation and chuckled. “Look, you are definitely not a qualified hunter.”

BAM! BAM! BAM!

He swept out with the Embroidery Needle three times in a row and knocked the hunter to the ground. Then throwing the Embroidery Needle on him, Han Fei directly snatched his Sea Swallowing Seashell.

Just as Han Fei was about to wound this man and kick him out, a voice suddenly rang in his mind.

Don’t touch him. Remove the purple formation.

Han Fei: “???”

Han Fei didn’t mind letting this guy go. Anyway, he had got his Sea Swallowing Seashell. But why did Mu Ling ask him to do so? Once he had Master Hexagon remove the six-gate formation, this hunter would definitely run away!

Sure enough, as soon as the six-gate formation was removed, the hunter immediately cooperated with the armorist and the soul warrior and shattered the killing formation in one fell swoop, and then the three of them ran away.

Han Fei was puzzled. “Why did you let them go?”

Mu Ling nodded lightly. “It’s OK. Just let them go!”

“Why?”

Mu Ling smiled. “Tang Ge wants to help you, but he can’t do it too blatantly. Now, after we let these three people go, people will think Tang Ge owes you one because you saved me. Then he will have a justified excuse to help

you.”

Han Fei’s eyelids flicked. This woman is so quick-witted and scheming! In such a short time, she had worked out a very smart way to make use of this simple encounter.

Based on this alone, Han Fei knew that this woman was definitely not simple! She was very smart and he felt she was a bit like Yang Ruoyun.

However, Han Fei still frowned. “This doesn’t make much sense! Because of this favor, Tang Ge may help me fight the people of the Death Door Sect, but as for others...”

“No!”

Mu Ling shook her head slightly. “Don’t underestimate this seemingly insignificant favor. Everyone knows that Tang Ge is a person who values affection and righteousness. He can use this excuse to help you fight people of three or four sects. Even if he can’t help you much this time, he can still help you the next time.”

Han Fei was surprised. “So many?”

Mu Ling smiled. “Of course, maybe even more. Actually, there are not many disciples from the Seven Sects in the Thousand Star City who can enter the 200th floor. But as long as they can reach this point, they will not be weak. However, most of them are no match for Tang Ge. Therefore, he and I can help you solve a lot of trouble.”

“Are there only seven major sects in the Thousand Star City?”

Mu Ling nodded. “There are only seven large ones.”

Mu Ling looked at the uniform of the Grand Void Academy that Han Fei was wearing and couldn’t help but smile. “I think you have probably met them all.”

Han Fei calculated in his head, the disciples from the Grand Void Academy were almost all gone. Now he was the leader of the Grand Void Academy team.

Tang Ge and Mu Ling represented the Heavenly Sword Sect, so the people of the Sky Sword Sect would not go against him. The Mountain Sea Tower team had been cleared up on the upper floors. Their team leader, Yu Xian, had been kicked out and there were probably not many of them left.

Gong Yuehan of the Jade Fairy Palace has also gone out, so there should be no top players on this team anymore.

Besides, Xia Xiaochan and Two Swords were still clearing up those marginal figures. In this way, the people of the seven major sects seemed to have been solved.

Han Fei chuckled. “Sister-in-law, why are you here? Why aren’t you with Tang Ge?”

“Uh...”

Mu Ling’s face turned red immediately, and she seemed to be shy because Han Fei called her ‘sister-in-law’.

Seeing this, Han Fei secretly laughed. This girl seemed to really love Tang Ge.

Han Fei didn't feel anything wrong with the girl. Just because she was smart didn't mean she was scheming! And there must be a reason for Tang Ge to choose Mu Ling. He believed that if a man like Tang Ge who was upright and righteous chose her, she must have some merit.

Mu Ling quickly recovered herself. Although she still blushed, Han Fei could see that she seemed very happy. "Well! He should be helping you clear up your opponents now." "Huh?"

Han Fei's face changed slightly. "I told him not to act rashly!"

Mu Ling shook her head slightly. "Since you are his best buddy, you should know him! There are many people on the 200th floor, so he will only let you face so many people alone. He will definitely help you deal with some of them..."

Then Mu Ling added, "Don't worry. There are almost all the children of the big families and disciples of the major sects in the Thousand Star City on the 200th floor. It is common for people to compete for resources. Especially Tang Ge, he has more reasons to snatch because everyone believes that he can definitely enter lower floors. However, the further he goes down, the greater the sacrifice required. It makes sense for him to rob others."

When Han Fei heard what Mu Ling said, he was relieved and then smirked. "Sister-in-law, you can rest assured, when I see him I will talk to him. How can he put aside such a beautiful woman and run to fight? That is a shame!"

"Hehe!"

Mu Ling couldn't help but laugh and then blush. "Since you regard me as your sister-in-law, if you go to the Thousand Star City in the future, don't hesitate to contact me when you need a hand. Even if he doesn't help you, I will help you."

Chapter 462 The Unlucky Yang Deyu

Mu Ling didn't go with Han Fei and didn't seem to care about being besieged.

Han Fei could see that she was confident. Just now, she calmly faced the siege of three fishers and wasn't afraid at all. He guessed Mu Ling must have some trump cards. Han Fei didn't ask her about that. After all, he didn't know Mu Ling well. Whether this woman was trustworthy or not remained to be proven.

Therefore, they simply chatted for a while and then separated. Han Fei continued to rob whoever he came across.

After half an hour or so, Han Fei walked to the end, so he changed direction and continued to rob. After another half an hour, he met Xia Xiaochan.

When he saw Xia Xiaochan, she was fighting with three people listlessly. Because she couldn't reveal her identity as a hunter, she was fighting with difficulty.

Seeing that Xia Xiaochan didn't use the Majestic Mystic Spell, he knew that she must have used up her stored energy. Otherwise, she wouldn't have been fighting for so long with these three people!

Swish! Swish! Swish!

Han Fei had not yet arrived before the spiritual energy arrows had been shot, leaving three flashing spiritual lights in the seawater. "Who is it?"

"Huh! A disciple of the Grand Void Academy? Brother, why did you attack us?"

The three people quickly backed away. Han Fei had cast out the Embroidery Needle, which broke through the water and hit a person's turtle shield.

With a bang, the shield shattered.

By surprise, Xia Xiaochan came up and stabbed, making another person fall to the ground.

The remaining one responded promptly, crushing a Flash Stone and fleeing away.

After receiving the two Sea Swallowing Seashells, Xia Xiaochan didn't speak and she looked angry.

Han Fei waved his hand in front of Xia Xiaochan's eyes. "What's wrong with you? Why this look?"

Xia Xiaochan glared at Han Fei. "My energy has been exhausted and I have already eaten 20 spiritual fruits. I can't hold on anymore. Why did you come so late?"

Han Fei: "..."

"Well... Master Hexagon, open the door. Let's eat hot pot..."

Inside the door, Xia Xiaochan was really hungry and was gobbling down food.

Han Fei was dumbfounded. "Why don't you eat your spiritual fruits? Anyway, you've grabbed so many Sea Swallowing Seashells, in which there are a lot of spiritual fruits. We don't lack that..."

Xia Xiaochan rolled her eyes at Han Fei. "Why don't you try eating 20 spiritual fruits in one go?"

Han Fei froze. He seemed to have forgotten that not everyone could swallow too many spiritual fruits at once. Although the spiritual energy that a spiritual fruit contained was not too much for Dangling Fishers, eating too many of them would cause unstable breath and energy conflicts in the body.

It must be because Xia Xiaochan ate too many spiritual fruits and felt sick that she looked listless.

Han Fei smiled. "How many Sea Swallowing Seashells have you snatched?"

Xia Xiaochan took a large bite of sea cucumber and mumbled, "Only 21... Let's just show our real identities? I think I can grab at least 50 or even more if I can use the abilities of a hunter."

Han Fei shook his head. "Wait! Don't expose it until you can't wait any longer. Otherwise, do you want to be besieged by thousands of people when we go out?"

"We have a disguise!"

"What if someone has a way to see through our disguise? Besides, wouldn't it be a pity to give up the name of the Black and White Ghosts?"

Xia Xiaochan snorted. "I don't care. If I can't use my hunter abilities, you will fight and I will just watch by the side."

The Hexagon Starfish added, "I'll watch by the side too."

Han Fei raised his head and scolded, "It's none of your business! Shut up."

While they were talking, a large piece of sea cucumber meat in the pot flew into the air and was sucked in by the hollow black hole.

Han Fei took out a lot of Sea Swallowing Seashells with a clatter and said, "I think we've got enough Sea Swallowing Seashells. On the 200th floor, I got 52, plus the 21 you got, it's 73... Plus some that Tang Ge got and some Two Swords got... Too many people have disappeared. I am afraid that it will be noticed soon."

Xia Xiaochan muttered, "It has already been noticed. The people I have encountered are getting fewer and fewer! Several times, I saw teams of seven or eight people. If I hadn't run fast enough, I would have been caught by them."

Han Fei chuckled. "This is only temporary. Below the 201st floor, there will be no one."

Xia Xiaochan pouted. "I don't care. I quit. You fight if you want."

Han Fei shrugged. Indeed, after reaching the 200th floor, the battles were indeed getting harder and harder. Above this floor, she could sweep across without the Majestic Mystic Spell. But after reaching the 200th floor, once she encountered more than two people, she would have to use the secret method. Otherwise, even if she could beat them, they would probably escape. Han Fei said leisurely, "It seems that it is time to make a breakthrough to be advanced Dangling Fishers. When we pass the 201st floor, let's find a place where there is no one and start cultivating."

Xia Xiaochan interjected, "I ate a bunch of fruits. I feel I can make a breakthrough now."

Han Fei was puzzled. "Must you make the breakthrough now?"

"No."

"Then wait..."

After Han Fei and Xia Xiaochan came out of the six-gate formation, the two-person team once again started to snatch Sea Swallowing Seashells. At this moment, Xia Xiaochan was no longer Xia Xiaochan, and she had a new face.

But she didn't use the Thousand Faces Technique.

At this moment, Xia Xiaochan covered her whole body with the Metamorphosis Water. Immediately afterward, her appearance was changing, so were her clothes. In the end, Han Fei watched Xia Xiaochan turn into a man.

Han Fei said with a black face, "You're too much! Can't you become a little girl? Why do you have to become a man to disgust me?"

Xia Xiaochan snorted. "So people won't suspect me!"

Han Fei turned his head and refused to look at her. Fortunately, it was on the bottom of the sea and people couldn't distinguish her real gender by voice. Otherwise...

With his head tilted, Han Fei suddenly saw a strange man appear in front of him. The point was, this guy was still pouting for a kiss. "Puff..."

"Go away."

Xia Xiaochan laughed. "Giggle... Scared?"

Han Fei: "..."

While they were horsing around, they met seven or eight people. However, it took nearly an hour before they met seven or eight people, which was obviously abnormal.

Perhaps most people went to the center of the platform.

Or, most people were cleared up...

Han Fei wasn't sure how many people he had sent out, but no matter what, there should be many people in the center of this level.

Quickly.

Han Fei and Xia Xiaochan met Two Swords and Cao Qiu. When they saw that Xia Xiaochan had turned into a man, Cao Qiu was almost dumbfounded. He repeatedly asked, "What the f*ck is this disfigurement?"

He didn't stop asking until Xia Xiaochan smashed him into the air with her stick.

Two Swords looked at Han Fei strangely. "So, now you have become the disciple of the Dean from the Grand Void Academy?"

Han Fei raised an eyebrow. "Do I look like it?" Cao Qiu gave a thumbs up. "Yes, since you can defeat Gong Yuehan, you can pretend to be a disciple of any sect!" Han Fei rolled his eyes. "Cut the crap. There are so many in the center. What are you going to do?"

Xia Xiaochan stated, "You should be responsible for solving half of them. Otherwise, we won't do anything."

Cold and arrogant as Two Swords, he couldn't help but laugh. "He? Solve half of them?"

Han Fei emphasized, "The seven sects can be excluded."

"Why?"

Cao Qiu, Xia Xiaochan, and Two Swords questioned at the same time.

Han Fei smiled mysteriously. "When the time comes, you will know. Now, Cao Qiu, how many people can you solve?"

Cao Qiu said mysteriously, "If I say I can solve 100, will you believe me?"

After he finished boasting, however, he found that the three of them had already gone far and Han Fei was still muttering, "Above all else I hate braggarts."

"Hey! I didn't brag." Han Fei said without looking back, "Okay! Prove it."

At this time, Yang Deyu couldn't bear it anymore and was not going to stay with Sun Mu and the others. Waiting for Han Fei? God knew when Han Fei would come!

Instead of waiting for Han Fei here like an idiot, he might as well go snatch some Sea Swallowing Seashells and rush all the way down. As for the Sea Swallowing Seashells in Han Fei's hand, let Sun Mu grab them! He didn't know Han Fei well.

However, he was familiar with Sun Mu! He would rob Sun Mu after Sun Mu robbed Han Fei. Then he'd like to see what the Sun Family would say!

However, after leaving the center, Yang Deyu was disappointed. Why is no one here? Why haven't I met anyone after so long?

"Young Master, no one is here! How about going to the next floor?"

Yang Deyu glanced sideways at both of his henchmen. "Next Floor? Can you guys go to the next floor?"

Suddenly, Yang Deyu's eyes lit up. "Oh! Finally, some people have appeared and there are four of them! Lucky me!"

Chapter 463 His Hands Were Trembling

When Yang Deyu brought two of his subordinates to rush towards Han Fei, Han Fei and his teammates were also rushing to them!

There weren't many other people around, so both sides wanted to get in on the action. Therefore, no one wanted to let the other party go.

After a moment.

When Yang Deyu saw Cao Qiu, he was so excited. "Come on, it's Cao Qiuqiu. This guy is covered with treasures. Let's rob him."

"Young Master, Young Master Wang is also here."

Yang Deyu disdainfully said, "Two Swords is nothing. I can make him cry like a girl with my big axes. As for the guy from the Grand Void Academy and the man I don't know, I will leave them to you two."

"Yes, Boss."

When Cao Qiu saw Yang Deyu, he hurriedly said, "Not good. It's Crazy Yang. Let's leave here."

However, Han Fei grabbed his belt before he could run. "Don't be such a coward, okay? Yang Deyu is just a stupid brat. Leave him to me."

After that, Han Fei let the Hexagon Starfish hide in his clothes. God knew if Yang Deyu had noticed Master Hexagon when he was in the Sea Grasslands... At such a critical moment, Han Fei didn't want anything out of his control.

Wang Zitian shouted, "Huh! Are you going to fight Yang Deyu?" Han Fei shot him a weird look. "Yes? Come on, solve his two men."

Wang Zitian did not refute. If Yang Deyu wasn't included, he could easily solve the other people alone.

Therefore, Wang Zitian said, "Ten minutes will be enough."

Upon hearing this, Han Fei and Xia Xiaochan didn't react at all. Wang Zitian frowned questioningly. Isn't this speed fast? Why are you not surprised? If Wang Zitian knew that Han Fei defeated Gong Yuehan with only three blows, he would be dumbfounded!

At this moment, with a swoosh, Yang Deyu rushed over. Although his Black Crystal Axes were gone, he had two new axes that were not weaker than the previous ones. The axes were shining with a cold glint.

On this side, Han Fei picked up the Embroidery Needle and sped up, facing Yang Deyu tit for tat.

"Idiot from the Grand Void Academy, f*ck

off!"

"Hey, Crazy Yang, they said your double axes are invincible... Is that true?" "Humph, do you want to die?"

Of these two people, one chopped with double axes and the other thrust with a long stick.

In Yang Deyu's opinion, when it came to fighting, of course close-quarter melee combat was the most exciting! He liked the feeling of chopping and hacking with his axes.

However, when the stick collided with the axes, Yang Deyu felt a huge force pressing at him from the stick.

"Huh? Not bad! Come on!"

Clang! Clang... Yang Deyu chopped three times in a row, setting off ripples in every direction.

a IOW

But Han Fei was different. Being chopped at by Yang Deyu, he backed away, yelling, "Crazy Yang's double axes are nothing more than this!"

How could Yang Deyu bear this? He immediately chopped at him again.

However, just at this time, six purple lights shot up into the sky and Han Fei suddenly slammed him directly into the six-gate formation. "Spirit Forbidden Net."

Cao Qiuqiu rushed over and cast the net into the six-gate formation.

"Boss."

"Asshole, shameless..."

In the six-gate formation, Yang Deyu suddenly howled angrily. The double axes revolved, blasting the seawater upside down, making the Spirit Forbidden Net unable to cover him.

Han Fei shouted angrily, "Cao Qiu, what the f*ck are you doing? Can't you cover him with the net?!"

Cao Qiu: "..."

Immediately afterward, Han Fei's face changed slightly when he saw Yang Deyu's momentum soar suddenly, breaking the Dangling Fisher realm almost instantly and reaching the Hanging Fisher realm in one fell swoop.

"Opening a Way with the First Strike..."

Clang~~

Crack!

The Hexagon Starfish was horrified. "Not good, he is so strong! The six-gate formation can't stop him."

Han Fei also widened his eyes. Is this lunatic so fierce?

But just after the first strike, Yang Deyu shouted again. "Pacifying the Universe with the Second Strike..."

Crack!

In Han Fei's stunned gaze, the six-gate formation suddenly shattered.

This was definitely the first time the six-gate formation was broken. Was the Hexagon Starfish not strong enough? No, absolutely not.

This six-gate formation was the trump card of the Hexagon Starfish. Even the six-gate formation was broken, which showed how strong Yang Deyu was! Cao Qiu cried, "Oh my god! You guys hold out. I'm leaving."

The Hexagon Starfish was shocked. "Not good. I'm injured and my six-gate formation is broken. I wanna go home..."

Han Fei's face turned dark. "Shut up! Watch how I conquer him."

Yang Deyu's face was all red and he was staring at Han Fei fiercely. "You little bastard of the Grand Void Academy! I didn't want to kill you, but now you've really pissed me off. Die! Judging Life and Death with the Third Strike."

When the third strike came, Han Fei and Xia Xiaochan were both stunned. A huge crab like a 50-meter tall phantom with two battle axe-like pincers appeared. <Name> Frantic Axe Crab (Yang Deyu's spiritual beast)

<Introduction> A rare deep-sea demonic crab. It can be called the King Crab when it matures and can cut through mountains and cleave the sea at its peak state, with shocking defense power and terrifying destructive power. Most of them are deep-sea demons.

<Level> 36

<Quality> Legendary <Contained Spiritual Energy> 2,856 points

<Food> Omnivorous

<Combat Skills> Seven Furious Axes

<Contained Soul Power> 888

<Remarks > Variation period

Xia Xiaochan said, "It looks just like the crab that appeared in the big fish tide in the Heavenly Desolate City." Han Fei's face was dark. He had always wondered how Yang Deyu could be in the same league with Mo Feiyan and Sun Mu. It turned out that although this guy was an idiot, his combat power was superb. Very few big-clan children could be his opponents.

"Majestic Mystic Spell."

"Let me send you to hell."

Han Fei didn't understand why these people recited these fancy mantras in fighting! They sounded so stupid!

The Embroidery Needle in his hand became dozens of times thicker in the blink of an eye. He held the Embroidery Needle in both hands as if he was holding a large pillar, and smashed it head-on against the big axes that seemed to be cutting the sky open.

Boom...

On the other side, Wang Zitian's eyelids jumped. What is going on here?! How has this bastard suddenly become so powerful?!

It was not obvious when Han Fei was fighting Tang Ge. While they fought, they set off surging waves, so the others didn't see clearly how powerful they were!

However, the battle between Han Fei and Yang Deyu was a close-quarter melee. When they collided, ripples erupted endlessly. Where the two of them were, the seawater was emptied and filled up quickly, making two huge vortices spinning rapidly.

BAM!

Yang Deyu was sent flying hundreds of meters away, so was Han Fei.

Yang Deyu was bleeding from seven orifices and his arms were drooping. Han Fei's hands were trembling and he poked the Embroidery Needle into the ground, unable to lift it.

Han Fei swore in his heart. With five times his strength, he only fought to a tie with Yang Deyu?! That was simply incredible!

Yang Deyu was no longer excited. Are you f*cking kidding me? Is this truly a disciple of the Grand Void Academy? If you told me that this was a disciple of the Mountain Sea Pavilion, I may believe it. But, a disciple of the Grand Void Academy? Impossible!

Yang Deyu immediately shouted angrily, "Who are you? You are definitely not from the Grand Void Academy."

Han Fei responded, "I am a disciple of the Dean. How can you doubt my identity?"

“Bullshit. The Dean of the Grand Void Academy doesn’t have any disciples! Bastard, how dare you pretend to be from the Grand Void Academy? Wait for their revenge!”

Han Fei yelled, “Nonsense. Is it you or I who knows my master better? Does he have to report to you before he receives a disciple?”

Yang Deyu scoffed. “I will ask him myself when I go back.”

“Go ahead!”

Unable to trick him into telling the truth, Yang Deyu shouted, “If it weren’t for the rush, I would be able to hack you in half.”

Han Fei sneered. “If I were well prepared, I could poke you from the 200th floor to the 300th floor.”

Yang Deyu shouted, “Then do it now!”

“Then come closer.”

Everyone: “...”

Cao Qiu asked, “Why don’t you guys just fight?!” Han Fei shot back, “Shut up! Can’t I rest for a while?”

Yang Deyu added, “Ya, shut up.” Cao Qiu: “...”

Han Fei was thinking at the moment. Not good! I underestimated Yang Deyu. This guy is too fierce! He remembered that Yang Ruoyun made him lie down with a finger, but he drew a tie with him at fivefold his strength!

Han Fei secretly transmitted a voice to the Hexagon Starfish, Master Hexagon, set the six-gate formation again. The Hexagon Starfish’s tentacles twitched. I can’t! I’m hurt. Han Fei was helpless. It’s just a minor injury. I’ll heal you.

Without waiting for the Hexagon Starfish to respond, Two Swords said, “I’ll solve these people soon. Pin down Yang Deyu.”

Upon hearing this, Han Fei pulled out the Embroidery Needle and blasted at Yang Deyu again.

Yang Deyu was stunned and couldn’t believe it. Did this guy recover so soon? That’s damn quick!

“Boss, run.”

Yang Deyu frowned. “Run? So many people are watching and you tell me to run away?”

“Young Master, where there’s life, there’s hope! We can’t hold it anymore.”

Yang Deyu shook his head. “No, I have never surrendered in combat... Hey! Seven Frenzy Axes...”

Chapter 464 The Goddamned WMD

In an instant, Yang Deyu hacked his double axes at Han Fei and his spiritual beast also brandished its pair of claws.

On the other end, Han Fei held the tree trunk-thick stick, which was whirling around like a burning wheel.

BAM!

Both Han Fei and Yang Deyu flew out again. This time, even Han Fei vomited blood. Yang Deyu's two axes almost fell from his hands. Unable to hold them, he simply put them away into his body.

"Cough, cough..."

Yang Deyu spat blood. "Son of a b*tch, who are you? You are definitely not from the Grand Void Academy."

"It's none of your business."

Han Fei's hands were shaking. However, at this moment, he didn't care if his hands were shaking or not. He couldn't flinch anyway.

With no energy in his hands, Han Fei jumped up and kicked Yang Deyu.

Seeing that Han Fei was so aggressive, the latter thought, If I admit defeat, how can I have the face to show up in public again? So he also jumped up and kicked.

However, at this time, the six-door formation rose again.

Yang Deyu was furious. "You're shameless, you bastard."

Han Fei laughed. "All's fair in love and war, you idiot."

Then Han Fei turned his eyes to Cao Qiu. "What are you waiting for? Cast the Spirit Forbidden Net!"

"Oh, ok!"

Cao Qiu hurriedly threw out the Spirit Forbidden Net and Yang Deyu got stuck right in the center of the net.

Han Fei kicked Yang Deyu. "Who do you think you are? You're simply no match for me!"

Yang Deyu was furious. "You cheated, you shameless bastard."

Han Fei sneered. "Don't you know it's the level-three fishery? Don't you know what the level-three fishery is all about?"

Swoosh...

Xia Xiaochan landed next to Han Fei, glanced at Yang Deyu, and squeezed Han Fei's arm. "It's still shaking!"

Han Fei curled his lips. "It's OK. I can still fight."

Yang Deyu cursed, "You're bragging! Are you going to fight with your feet?"

Han Fei shrugged. "Fine, let me show you then. Thousand Star Shadowless Feet!" Then he gave Yang Deyu a series of kicks. At this time, Two Swords walked over holding two Sea Swallowing Seashells in his hand.

Two of Yang Deyu's men were still lying on the ground, groaning. They were really no match for Heavenly Talents! After all, the children of those big families could enjoy abundant resources, but of course, their own efforts were also indispensable. Otherwise, the Thousand Star City would be full of Heavenly Talents.

Han Fei pulled out Yang Deyu's Sea Swallowing Seashell and then snorted. "If you lose, you lose. I'll take your Sea Swallowing Seashell. Now leave the Steps into the Sea."

Yang Deyu was so depressed that he wanted to vomit blood. This was already the second time that his Sea Swallowing Seashell was snatched! But the first time, he fainted and didn't know how it was stolen.

This time, his Sea Swallowing Seashell was taken away right in front of his face, but he could only watch helplessly. It was a disgrace!

Cao Qiu was about to put away the Spirit Forbidden Net but Han Fei suddenly shouted, "Wait a minute!"

Yang Deyu suddenly had a bad hunch. "What are you going to do?"

Han Fei rushed up and took off his clothes.

Yang Deyu immediately panicked. "Hey, what are you doing? We're both men! I'm not gay! Don't touch me... Hey! Cao Qiuqiu, you little bastard, stop him... Hey hey hey... Two Swords... You son of bitch..."

Yang Deyu disappeared as soon as he exited the Spirit Forbidden Net.

Wang Zitian looked strange and murmured, "You have completely offended Yang Deyu this time."

Han Fei disdainfully said, "I offended him a long time ago. It doesn't matter."

Cao Qiu rubbed his hands and said, "Two Swords, what do you think will happen if I spread the news in the Thousand Star City that Yang Deyu was stripped of his clothes?"

Wang Zitian curled his lips. "He will carry his axes and swing them all the way to your home. Even your brother may not be able to stop him..."

Cao Qiu shivered all over. "Then forget it."

"Oh!"

Suddenly, Han Fei shouted, "Damn! I forgot to take his axes!"

Cao Qiu was speechless. "Do you want to impersonate him?"

Han Fei smiled. "You got it. I have an axe in my Sea Swallowing Seashell, but it's not as good as his."

Wang Zitian shook his head. "It's not going to work. When Yang Deyu fights, he always summons his big crab and big turtle. You can pretend to be him, but where can you find his spiritual beasts?"

Han Fei paused and then threw Yang Deyu's clothes on the ground. "Then why did I need to take off his clothes?"

Xia Xiaochan picked up Yang Deyu's clothes and stuffed them into Han Fei's pocket. "It's okay. Although you can't pretend to be him here, you can do it elsewhere." Han Fei's eyes lit up. "That's right!" Cao Qiu: "... Two Swords: "..."

Two Swords always felt that something was wrong. Where did Cao Qiu find these two weirdoes who have such amazing combat power? Yang Deyu is already strong enough, but was still easily defeated by this man...

Outside, before Yang Deyu came out, a spiritual level armor suit appeared on his body. At this moment, his hands were still drooping.

Yang Deyu turned purple with anger and said without looking back, "Keep this matter secret. If any of you dare to mention it again, I'll kill you."

"Young Master, my lips are sealed."

Yang Deyu snorted. "I quit. But even if I can't stay in the Steps into the Sea, I can't just leave like this. That guy is definitely not from the Grand Void Academy. Send someone to wait here until he comes out."

"Young Master, where are you going?"

Yang Deyu's face turned cold. "Where else can I go? I'm going to rob a few people. I don't have any money left."

Han Fei didn't care about Yang Deyu. He was just glad to solve one more opponent.

However, Han Fei was a bit worried. Yang Deyu alone was already so tough! Then could Sun Mu and Mo Feiyan who were in the same rank as him be simple?

It was actually not easy for him to solve Yang Deyu and his hands were still shaking... Then what if there were two or even three opponents equal to Yang Deyu? He wouldn't be able to handle it then!

Han Fei asked, "Cao Qiu, what do you think we can do? If Sun Mu, Mo Feiyan, and other people from the big clans of the Thousand Star City are so strong, let's not go to the center! Just go straight to the next level."

Wang Zitian also frowned. "Cao Qiuqiu, let's be realistic. I know you hate them, but it's almost impossible for you to kill them! You can't just ram at them with your Ghost Speed Divine Boat, right?"

Cao Qiu said seriously, "I can! Trust me."

Xia Xiaochan asked, "Then tell us, quick! You're as timid as a mouse, how can we believe you?"

Han Fei added, "Yes, come on."

By now, Han Fei felt that he had gathered enough Sea Swallowing Seashells. Although he wanted to get revenge on that bastard, Sun Mu, he couldn't fight eight or ten people who were as strong as Yang Deyu at the same time!

Being stared at by three people, Cao Qiu finally surrendered.

Cao Qiu reluctantly took out a few small bottles.

Xia Xiaochan snatched them. "Just these small bottles?"

Seeing that Xia Xiaochan was about to open one, Cao Qiu quickly said, "Don't open it. Don't open it."

Xia Xiaochan paused. "What's in them? Why can't I open it?"

Cao Qi hesitated for quite a while before he said, "It's the ultimate weapon."

Han Fei and the others: "???"

"This is the poison of the poisons that I ran through the entire level-three fishery and nearly a hundred dragon boats and used thousands of species of spiritual grasses to make. It is called the Poison King."

Xia Xiaochan's hand shivered and she immediately threw away the bottle.

But Han Fei grabbed the bottle and asked with glowing eyes, "How do you use it?" Xia Xiaochan: "???"

Wang Zitian: "???"

Xia Xiaochan and Wang Zitian were both speechless. Was Han Fei really going to use it?

Seeing that Han Fei seemed quite interested, Cao Qiu got excited. "This stuff is amazing. It's even more valuable than my Ghost Speed Divine Boat. I tell you... With just a drop, it can make all the creatures within a kilometer of a radius vomit and have diarrhea for at least seven days."

Han Fei trembled, almost throwing away the bottle in his hand.

Xia Xiaochan and Wang Zitian took a few steps immediately, especially Xia Xiaochan. "Don't open it. You can't open it."

Gulp!

Han Fei swallowed. "That's really poisonous! Can you describe how hard they will vomit?"

Cao Qiu proudly said, "I found a crab nest and tried it. It took less than an hour before all the crab's shells turned soft. One day later, there was nothing left in their shells..."

Han Fei was shocked and swallowed again. "How much of it do you have?"

"I have a tank of it!"

Everyone: "..."

Chapter 465 The Central Zone

For some reason, Han Fei once felt that he was shameless enough!

He had firmly believed that no matter what he had done, he was forced by the level-three fishery where no one showed any mercy. Therefore, Han Fei told himself that this was just the most basic law of survival in the level-three fishery when he was killing and plundering

However, at this moment, when he saw what Cao Qiu had done, he began to doubt this law of survival, and Cao Qiu's deeds made his understanding change from what could be called 'shameless and despicable' rise to a new height.

At this moment, Han Fei was staring at Cao Qiu with shining eyes and said eagerly to him, "Show me the tank. Come on!" Cao Qiu was stunned by his reaction and didn't know how to respond.

Xia Xiaochan hurriedly tugged at Han Fei's arm and whispered to him, "Are you crazy? Why do you want so much of this stuff?" Han Fei looked at her and responded with a serious face, "I don't know why, but just now I suddenly had a hunch that this thing was exactly what we entered the Steps into the Sea to look for."

When Xia Xiaochan heard Han Fei's words, she opened her big round eyes and asked in shock, "But I think we entered the Steps into the Sea to look for treasures. Do you mean this is a treasure?"

Han Fei, without missing a beat, nodded with affirmation and asked her with a smile, "Yes, don't you think this is a treasure?"

Xia Xiaochan almost burst into laughter. Looking at him, she said leisurely, "I'm afraid that you have some misunderstanding of the word 'treasure', don't you?"

Listening to their conversation, Cao Qiu was also surprised and asked Han Fei, "Why do you need so much of this poison?"

Han Fei raised his head and said proudly, "Do you think you have the ability to throw this thing on people without them knowing it? Poisoning is not that simple. It requires perfect timing and skill. You need a lot of special abilities to do it successfully, right?"

Cao Qiu said hesitantly, "Well, I think, perhaps, I have those abilities to do it!"

"No, you do not! Give me half of the poison you've got, and I will help you get rid of those b*stards."

Hearing his words, Cao Qiu took two steps back in fright. For some reason, he always had a feeling that Han Fei was going to rob him. However, Cao Qiu also felt a little bit excited. Before meeting Han Fei, even he himself felt that his proud invention seemed to be a little bit unpresentable. He did not expect that Han Fei would be so interested in this poison. Seeing that Han Fei seemed to really like his invention, he could not help but feel a little proud. Cao Qiu cleared his throat and said seriously, "Well, I can only give you half a tank, no more. I have other uses for this stuff."

Han Fei chuckled and said eagerly, "OK, then give me half a tank first."

After a moment.

Getting what he wanted, Han Fei grinned from ear to ear and said high-spiritedly, "OK, now let's go to meet Sun Mu and the others. This son of a bitch really pisses me off. This time, I'm going to kick the hell out of him." Wang Zitian glanced at him and said helplessly, "When you are going to use that poison, you'd better tell me first so that I'll have enough time to escape to the next floor."

Xia Xiaochan couldn't agree more and she hurriedly nodded. "Yes, when you are going to use the Poison King, do tell me in advance in case I am not able to run away in time!"

But at this time, Cao Qiu suddenly chimed in, "Don't worry, you guys. I have the antidote to this poison. It can reduce the pain by ninety percent even if you get poisoned by mistake." Xia Xiaochan rolled her eyes at Cao Qiu and said impatiently, "This is not about the antidote, OK? Have you ever thought that at that time, the water will be full of filthy stuff? That will be really gross! Go ahead and stay there if you want, but I'm going to run as far as I can!" Cao Qiu did not seem to have thought of this. After hearing Xia Xiaochan's words, he patted his head and exclaimed in surprise, "Oh! Yes, you reminded me! How could I forget this... Fan Datong, when you are going to use the Poison King, remember to tell me too, and I will go to the next floor too."

Han Fei looked at them and did not know what to say.

Han Fei was completely speechless. Didn't you just shout out that you would stay with me? However, Han Fei didn't care, although all of them had decided to escape to the next floor before he released the Poison King. After all, he could control water! Even if the water would become very filthy and even disgusting at that time, so what? As soon as he used the Water Controlling Technique, no matter how much dirty excrement there was in the sea water, nothing could contaminate his body even a little bit.

But then Han Fei remembered what Cao Qiu had just said, and he frowned and asked, "Why is the pain only reduced by ninety percent, not a hundred percent?"

Cao Qiu explained to him, "It was mainly because I got the order wrong when I put some ingredients into the pot in making the antidote, so the antidote can only relieve one's pain by ninety percent instead of a hundred."

Han Fei bared his teeth and secretly sighed. This was f*cking unacceptable! He didn't mind others vomiting and having diarrhea, but he did mind it if he himself vomited and had diarrhea. If he was also poisoned, the experience would not be so good.

Han Fei thought for a moment and said, "Let's go to the central zone first."

The central zone of the 200th floor was an area of about 30 kilometers around the center point. There were already about two hundred people who had gathered here, and they were still busy cultivating

Yes, these people were not fighting with each other, but were fighting with various creatures that were summoned here by them by offering sacrifices.

When Han Fei and the others were only fifty kilometers away from the central zone, they had already felt shock waves and ripples that came at them one wave after another and seemed to be ceaseless.

Judging from this effect, Han Fei could be sure that at the same time, there were probably no less than fifty people fighting intensely in the central zone.

When Han Fei and the other three came to the central zone, at a casual glance, they had seen that three or four people were fighting within a kilometer.

Seeing such a scene, Wang Zitian frowned a little bit and asked, "There are a lot of people here. How are you going to poison them all?"

Cao Qiu glanced at him and said in confusion, "Why do we have to poison them all? I don't care about the others, and we just need to poison Sun Mu, Mo Feiyan, Li Baizhou, Li Heiye, and Ye Baiyu! It is a pity that Chen Aochen has already left. Otherwise, I would not have let him off."

Wang Zitian looked around at the crowd and said, "Ye Baiyu is not on the 200th floor. If I am not mistaken, he should be on the next few floors. As for the specific floor where he is in, I don't know."

Cao Qiu and Wang Zitian were hotly discussing which people they should start with.

At this time, Han Fei suddenly said, "Wait a minute. There are so many people here. It is impossible for me to pretend not to see these people and not rob them! Now that we have made up our minds to do something, why don't we do something big? I think the best choice for us is to poison them all. What do you think?"

Cao Qiu hesitated for a while and then said, "I think that would not be a good idea, no?"

Cao Qiu looked at those people who were still fighting attentively and had no clue of what was going to happen, and he could not help but panic. What if these people knew what he had done to them? Would they take revenge on him?

However, Han Fei was not afraid at all. He went straight to the central zone with this most poisonous Poison King and its antidote. The arrival of Han Fei and the other three inevitably attracted the attention of these people. However, unlike before, no one here would escape upon seeing them. When most of the people saw Two Swords, they would subconsciously stay away from him a little bit for the consideration of safety. However, when they saw Cao Qiu, they would not only not be afraid of him, but also have the mood to tease him. "Cao Qiu, how dare you show up here? Do you need a good spanking?"

"Cao Qiu, your sister is not here. She may have gone to the next floor."

"Cao Qiu, what is wrong with you today? You know what, Li Heiye and Li Baizhou are both here. How dare you show up here?"

"Cao Qiu..."

Listening to these people taunt and mock him, Cao Qiu shook his head and glanced at them with pity. These arrogant b*stards! Let's wait and see! I will just wait to see how miserably you will cry later! Han Fei looked at these people and asked in puzzlement, "Do these people really get along so well? They don't even rob each other?"

Wang Zitian answered him, "If someone does not belong to any sect or big clan and appears here, he will certainly be robbed. As for the disciples of the Seven Great Sects and the children of those big clans, as long as they do not get out of the central zone, no one will rob them, because there will always be people to help them." Hearing his words, Han Fei curled up the corners of his mouth. So this was probably one of the benefits of being a member of those large sects and big clans. Just by virtue of identity, they could do a lot of things that countless people were unable to achieve in their lifetime.

All of a sudden, Han Fei caught a glimpse of two disciples from the Grand Void Academy swimming towards him.

Han Fei's expression changed a little bit, and he immediately said to the others through a voice transmission, Wait a moment. Stay where you are and I will solve these guys.

However, when the two of them swam up to him, he found that it was actually Ji Wenxuan and one of his junior brothers. "Senior Brother, there you are." "Yes, Junior Brother, it's nice to see you again." Han Fei raised his head a little bit, with one hand behind his back, and looked at the other person, asking with a smile, "What should I call you, Junior Brother?"

Looking at Han Fei, the other disciple of the Grand Void Academy was a little bit puzzled. After hearing Ji Wenxuan say that the dean had a very awesome disciple, he was very suspicious. Why hadn't he, a disciple of the Grand Void Academy, ever heard of him if there was really such an awesome disciple in the academy?

However, because Ji Wenxuan described to him how this awesome senior brother seriously frustrated the Heavenly Talents of the Jade Fairy Palace and the other major sects, he held down his doubt. After all, if he could easily win against a figure like Gong Yuehan, he might really be a disciple of the dean.

"Hi, Senior Brother, I am Tian Yishan." Han Fei lifted the corners of his mouth into a demure smile and said politely, "Hi, Junior Brother Tian!"

After that, Han Fei turned his eyes to Ji Wenxuan and asked, "Why are you here? And is there anyone else from the Grand Void Academy here?"

Ji Wenxuan shook his head and answered him, "No, Senior Brother, only the three of us are here! When I met Yishan, another disciple from our academy was robbed. It was that Tang Ge who robbed him, and Yishan might not have even been able to escape from Tang Ge if he had not used his Flash Stone."

Suddenly hearing them mention Tang Ge's name, Han Fei felt his heart skip a beat and he immediately looked at Ji Wenxuan and asked, "Did you meet Tang Ge?"

Tian Yishan nodded solemnly and said, "Yes! This person is too fierce and tough. No matter where he goes, he will just rob every single person that comes into his sight, not missing anyone! I'm afraid this person wants to break into the depths of the Steps into the Sea this time."

Han Fei asked him, "Where is he now?"

Tian Yishan thought for a while and said, "He is already coming this way. This man is not easy to deal with, and he even blatantly claims that he is going to snatch the Sea Swallowing Seashell of everyone who he sees on the way. So many people have seen him robbing people."

When Han Fei heard what he said, his eyelids twitched. "Really? Let's go and take a look."

Han Fei didn't know how to comment on Tang Ge's grumpy temper. Come on, buddy! What the hell are you doing? Even I knew to hide my identity before I came into the Steps into the Sea, but you didn't even bother to conceal your real identity? You just slaughtered your way through with your big halberd? What if these people gang up on you? All of a sudden, he heard Cao Qiu say to him through a voice transmission, That's a good chance. There must be a lot of people watching Tang Ge robbing others. Let's go there quickly. While no one is paying attention, we can scatter the Poison King in crowded places.

Han Fei certainly knew that it was a good chance, so he hurriedly beckoned the others to hurry over with him immediately.

On the way, Tian Yishan asked him tentatively, "Senior Brother, where did you cultivate before? Why did I never meet you?"

Han Fei responded in a perfunctory way, "The Unknown place. I was not the only one there, but most of the people there are already dead."

"Wow!"

Tian Yishan was stunned by what Han Fei said to him. The Unknown Place? Really? Can Dangling Fishers go to that place? Ji Wenxuan was also shocked by Han Fei's words, and a scene suddenly popped up in his mind where a group of Heavenly Talents were fighting each other desperately until there was only one person left. Han Fei didn't want Tian Yishan to keep asking him anymore, so he diverted the topic and said through a voice transmission, In a moment, something big is going to happen here. You two, either go to the 201st floor or get out of the Steps into the Sea. Anyway, you can't stay on the 200th floor, understood?

Hearing his words, both Ji Wenxuan and Tian Yishan looked at Han Fei in surprise.

Han Fei curled up the corner of his lips and said meaningfully, "You will find out why later."

When Han Fei and the others were still far away, they felt sea water hit their bodies one wave after another. And in the sea water, the sound of weapon collisions had been ringing ceaselessly. When Han Fei and the other people arrived, they found that Tang Ge was fighting with two men, one in black and one in white. Seeing this scene, Han Fei could not help but exchange a glance with Xia Xiaochan. Did these two guys copy our creativity?

As if seeing their doubt, Cao Qiu explained to them, "They are the twin brothers of the Li Family Li, Li Heiye, which means night, and Li Baizhou, which means day. It is said that they can communicate with each other with their hearts. The two can rank among the top ten of the Heavenly Sword Sect with their Unparalleled Tactics."

Hearing Cao Qiu's explanation, Han Fei almost burst into laughter. Li Heiye and Li Baizhou, night and day? So was that why the two of them were dressed respectively in black and white? So they did not steal the creativity of him and Xia Xiaochan, and it was just a coincidence?

At this time.

On the battlefield, Tang Ge brandished his large halberd so wildly that only the dazzling knife light and the tumbling water waves could be seen in the sea. No human figure could be seen clearly.

The twin brother, Li Heiye and Li Baizhou were extremely fast in speed. Although the two of them were not hunters, they had speeds comparable to top hunters.

Watching them fighting intensely, Xia Xiaochan said to Han Fei in a voice transmission, The technique they are using is kind of like Shadow Shrimp's unique combat skill, Haunting Shadow. Their fighting speed is too fast. If I don't use Flash, I'm afraid that even I may not be able to win against them.

Agreeing with what she said, Han Fei slightly nodded his head. No one could deny that the combat power of the twin brothers was really strong.

No people who came from the big families of the Thousand Star City and had already made a name for themselves could be simple. Even that crazy Yang Deyu, very few people could resist his pair of big axes...

At this moment, everyone saw that on the battlefield, Tang Ge suddenly thrust his big halberd into the ground. And then with his body as the center, the ground was blown up within a kilometer.

Under the huge impact of the big halberd of Tang Ge, Li Heiye and Li Baizhou were forced to retreat hundreds of meters.

Li Heiye stabilized his body and said coldly, "Tang Ge, I admit that you are quite strong in a one-on-one fight, but as the saying goes, you can't beat four hands with two fists. Now that you robbed our men, we certainly can't just pretend nothing has happened."

Li Baizhou said in a voice dripping with sarcasm, "Oh, I've been hearing people say that Tang Ge is as powerful as Cao Tian in physical strength and is comparable to Chen Aochen in combat skills... Gee, why didn't I see either of these abilities?"

Hearing Li Baizhou's words, Li Heiye frowned and said solemnly, "Brother, you are wrong. His physical strength is very strong indeed."

Li Baizhou rolled his eyes and said with a cold face, "But he did not show any advantage in combat skill, did he? If strength is all he has got, I'm afraid that he will not be able to beat us."

Just as everyone was attentively watching the battle, all of a sudden, a woman in a red dress appeared beside Han Fei and the other people.

Han Fei took a closer look at that woman, only to find that it was Mo Feiyan.

Mo Feiyan temptingly twisted her soft waist and lightly landed in front of Cao Qiu, with a big bright smile on her charming face, saying sweetly, "Yo! I was wondering who this was and it turns out to be our little Qiuqiu! Little Qiuqiu, your dear sister is not here, are you here to see me?"

But Cao Qiu didn't seem to be tempted by Mo Feiyan at all. He immediately jumped behind Two Swords, Han Fei, and the others as if trying to escape from this woman as far as he could while shouted loudly, "I am not here for you! I am not going to be seduced by you! Mo Feiyan, did you hear me? You can't seduce me!"

"Hahaha! Why can't I seduce you? Do You think I am not beautiful enough?"

Cao Qiu bared his teeth to Mo Feiyan and snorted. "You are not even close. You are not even as pretty as my sister. I will never ever like you." "Huh?"

The sweet smile on Mo Feiyan's face was instantly gone and her face turned cold. She said coldly, "Say it again if you dare! I am not even as pretty as your sister? Are you kidding me? Now, I'll give you another chance to organize your words."

As if being frightened by her words, Cao Qiu shrank his neck but still said firmly, "You are not as pretty as my sister!"

Just as Mo Feiyan was pissed off by Cao Qiu's words and was about to attack him, a sharp sword Qi suddenly burst out of Wang Zitian's body.

Wang Zitian stared at Mo Feiyan and said coldly, "Mo Feiyan, if you want to fight, I don't mind accompanying you."

The fighting momentum on Mo Feiyan's body suddenly dissipated and she cracked a smile again. "Oh! If you hadn't shown me that sword Qi, I would not have recognized you. Isn't this Wang Xiaoer, the little second son of the Wang Family who is always crying with his nose running? Why? Do you think you can protect Little Qiuqiu with your two swords?" Wang Zitian had already tightly clenched the two swords in his hands, and his eyes were fierce. He stared at Mo Feiyan threateningly and said, "Say it again, if you dare!" "Wang Xiaoer, Wang Xiaoer, Wang Xiaoer... Come on, fight me!"

Completely irritated by her attitude, Wang Zitian broke out in an instant. In an instant, Cao Qiuqiu was sent flying by the powerful aura from Wang Zitian's body. All of a sudden, hundreds of swords appeared around Wang Zitian and his sword Qi shot out sharply one wave after another. The other people who were watching the hot fight between Li Heiye, Li Baizhou, and Tang Ge, cast their sights to this side one after another.

Sun Mu also stepped over. After a deep gaze at Wang Zitian, he glanced at Cao Qiu and then frowned. Xia Xiaochan was almost unable to contain her fighting desire and she said to Han Fei in a voice transmission, Is this guy Sun Mu who has been chasing you? Han Fei replied calmly, No hurry. It is boring to fight with this kind of person, and even if we're going to fight him, it should not be now. Sensing that Xia Xiaochan seemed to be going to join the fight, Sun Mu specially took a look at Han Fei and Xia Xiaochan.

"Huh?"

As if feeling something wrong with Han Fei, Sun Mu's gaze fell on Han Fei and stayed for quite a while. Under his upsetting stare, however, Han Fei did not shy away at all. With no smile on his face either, Han Fei also turned his eyes indifferently to Sun Mu. As if noticing the silent staring competition between the two of them, Mo Feiyan cast a glance at Han Fei and at the same time, asked Sun Mu, "Do you know him?" Only then did Sun Mu move his eyes away and say, "No, I don't know them. But the two people were brought here by Cao Qiu. You know, Cao Qiu has long been planning to kill us. Be careful of the two of them." Hearing his words, Mo Feiyan chuckled. "Little Qiuqiu is always all talk. If he really wants to kill us, why doesn't he ever dare fight us?"

Sun Mu snorted and said, "Don't look down upon him. To tell you the truth, Cao Qiu's aptitude is the best among all of us." At the moment, Cao Qiu was speaking to Han Fei through a voice transmission, Hurry up and scatter the poison. Come on, I can't wait anymore! I must poison these two b*stards to death... Oh, no, I must poison ALL the b*stards here to death.

Han Fei cast a glance at Cao Qiu and responded through a voice transmission, You guys go to the next floor, I will just stay here. Hearing his words, Xia Xiaochan shook her head and said firmly, I'm not going anywhere. I'll just be with you. Let little fatty go to the next floor first. Cao Qiu also refused and shook

his head hard. I am not going to the next floor! I want to watch them being tortured by vomiting and diarrhea. Of course, Han Fei would not care about what Cao Qiu said, who was obviously in utter anger.

But at this time, Tang Ge seemed to be about to start a new round of the fight with Li Heiye and Li Baizhou.

All of a sudden, an Unparalleled Sword Qi darted at Han Fei directly.

On the battlefield, Tang Ge's eyelids suddenly twitched, and he felt his heart skip a beat and he wondered, Is Han Fei's identity exposed?

Han Fei was also very surprised by the attack on him. This attack was launched at him by Sun Mu, without any warning, and he was utterly caught off guard.

Without dodging that Sword Qi at all, Han Fei drew his knife out with a single hand and hacked out, shattering the sword Qi in the sky, before he continued to chop at Sun Mu.

Swoosh, Swoosh, Swoosh...

Sun Mu struck three swords at the sword Qi in a row, exploding his spiritual energy three times before he finally blasted the blade light away. In an instant, the surrounding crowd had scattered, leaving Cao Qiu, Han Fei, and the other four in the middle of the ground. Among the crowd, Ji Wenxuan and Tian Yishan looked shocked and were completely at a loss. They did not know what had happened and why Sun Mu suddenly began to attack their genius senior brother... Besides, what shocked Tian Yishan the most was that this genius senior brother's strength was really beyond his imagination! Sun Mu had to strike four swords in a row to barely defend a casual hack from this genius senior brother. Not far away, Tang Ge also blinked although he did not say anything or move. Before, when he was fighting Han Fei, he did not see Han Fei use a knife. Just now, however, that shocking move from Han Fei seemed to be much stronger than his stick technique. Li Heiye and Li Baizhou were also shocked by Han Fei's surprising strength, and they exchanged a glance with each other and gasped in shock at the same time. "This guy is from the Grand Void Academy? How is it possible?" Han Fei took the lead to take a step outside while looking at Sun Mu proudly, asking coldly, "Why... Did you suddenly attack me? Do I know you?" Han Fei swallowed secretly. He was just about to scatter a few drops of Poison King, but before he could make a move, Sun Mu suddenly struck him with the attack. Han Fei frowned a little bit. Could it be that he sensed my intention to poison them? But that is simply impossible! How could he notice that? Could he read my mind?! Seeing that Sun Mu suddenly launched an attack at Han Fei without the slightest hesitation, Mo Feiyan could not help but start to look at Han Fei up and down, and as she looked at Han Fei, she gradually frowned. "Who the hell are you?"

Sun Mu strode out at this time, and the five or six men behind him also stared at Han Fei aggressively and were poised for a battle.

But Han Fei just grinned at Mo Feiyan and said lightly, "I am from the Grand Void Academy. My name is Fan Datong."

"What nonsense you talk! There is no such person in the Grand Void Academy at all!" "Hey! You are not f*cking faking it, are you?" "You must be bragging! Mountain Sea Pavilion, which is my sect, is not too far away from the Grand Void Academy, so I'm very familiar with the disciples from the Grand Void Academy. Why didn't I know that the Grand Void Academy has such a strong disciple like you?" Han Fei

grinned at the man who was speaking and explained calmly, "My teacher is the dean of the Grand Void Academy. That is why you had never seen me before. I, Fan Datong, have been cultivating in seclusion for three years. Now I finally have a chance to show up in public, so my mission is to seize this chance to sweep all the major sects and academies in the Thousand Star City and make a show of our academy's real strength! As for you guys, just shut up. Come to challenge me when you deserve to be my opponent, OK?" With that said, Han Fei took two steps forward and looked at Sun Mu, asking again, "So, why... Did you suddenly attack me?" Han Fei's words were really ambitious and domineering, and hearing what he said, everyone present fell silent. Even Cao Qiu thought to himself, Can this guy really be the dean's disciple from the Grand Void Academy? I almost believe what he said! Damn it, his acting skills are really superb! When Sun Mu heard Han Fei's words, his frown deepened and at the same time, he secretly said to Mo Feiyan through a voice transmission, For some reason, I have a feeling that... I have seen him somewhere.

Mo Feiyan also put away the charming smile on her pretty face and responded through a voice transmission, Yes... He seems to be a bit familiar to me too. Is he really a great Heavenly Talent hidden by the Grand Void Academy? However, this man is so domineering. I feel I am going to fall in love with him. Sun Mu impatiently rolled his eyes at Mo Feiyan. He still had some doubt in his heart. Why did this guy suddenly pop up from nowhere? Was he really from the Grand Void Academy? He always had a feeling that something was not right...

So Sun Mu raised his sword and said arrogantly, "No reason! I just feel you are such an eyesore to me, so I want to challenge you."

When Sun Mu said this, many people were stunned, including Li Heiye and Li Baizhou who were still fighting Tang Ge. Noticing what was happening on this side, the twin brothers stopped the fight, put away their swords, and turned their eyes to Han Fei curiously almost at the same time.

At this time, Wang Zitian asked Han Fei through a voice transmission, Sun Mu is a very cautious person. Except for a few times, he has never taken the initiative to challenge people. Did you know each other before? Han Fei looked calm on the surface but in his heart, he was very puzzled. Is it because the Thousand Faces technique is not working? Why did this guy only challenge me given that there are so many people here? However, in the face of Sun Mu's challenge, Han Fei was not afraid at all.

Had it not been for the support of the magical technique, Majestic Mystic Spell, Han Fei would not have come with Cao Qiu to the 200th floor to fight so many strong masters. But now that he had the Majestic Mystic Spell, he did not take people like Sun Mu seriously at all.

However, it seemed that he had to give up the previous plan to secretly scatter the Poison King here. Han Fei just smiled faintly and said without any hesitation, "OK! Let's fight!" "Wow..."

Seeing this scene, many of the disciples from the major sects in the Thousand Star City who were watching on the side were surprised. People outside might not know it, but they themselves all knew it very well that although they were all from the Thousand Star City, and might even be in the same sect, there was a very big difference among them in strength, which they knew very clearly. Ordinary disciples of these big sects might be very excellent in other people's eyes, but no matter in terms of resources, experience, combat techniques, or combat skills, they were nowhere comparable to children from the major families in the Thousand Star City. Generally speaking, they were not on the same starting line

with those children who were born with a silver spoon in their mouths, so they could depend on their talent. For example, Tang Ge, he was an exception, a man who swept across all Heavenly Talents in those powerful families with his own peerless talent.

Now, this nameless Fan Datong was obviously not from those big families, which meant that he was also a person who had risen by his talent.

At this time, in Han Fei's mind, the voice of Tang Ge suddenly sounded, Buddy, you know what, Sun Mu is not weak, and he's especially good at sword formations. Do you have the confidence to win against him? Han Fei immediately responded to him through a voice transmission, Don't worry about me. You can ask Mu Ling to seal the surrounding water. I'm going to release some poison on these people. Be careful not to be affected by the poison that I'm going to release.

OK!

When Tang Ge heard that Han Fei was going to release some poison, he was only a little bit surprised and didn't feel anything wrong about it. Anyway, he didn't have any affection for the other people present. Besides, he had faith in Han Fei's morals and did not think Han Fei would indiscriminately slaughter innocent victims, so Tang Ge didn't care although Han Fei said that he was going to release poison on these people. Han Fei jumped up. In the air, he touched the ground with one of his toes, and the next second, he had swum to a place tens of meters away from Sun Mu and shouted loudly, "I have long heard of your swordsmanship. Today, I, Fan Datong, would like to have a fair duel with you."

Boom! Boom! Boom! In front of everyone's eyes, Han Fei's aura was rising at an extremely fast speed. What was surprising was that Han Fei only had his aura soaring, but his realm had not changed at all. Now he was still an Intermediate Dangling Fisher. And Sun Mu did not dare to take Han Fei lightly. Just from the attack that Han Fei had launched at him just now, Sun Mu already knew that he would definitely not be able to win against this guy if he fought him the normal way. Therefore, Sun Mu started off with his trump card. He spread his arms wide, and the next second, from his chest, back, arms and forehead, long swords jumped out one after another. Each sword was a high-quality spiritual weapon. As for why he only used high-quality spiritual weapons, it was not because the Sun Family did not have ultra-quality spiritual weapons, but if they gave ultra-quality spiritual weapons to their children who were only going to have some little practice in the level-three fishery, their children would end up gaining no experience at all. Even if they would give some ultra-quality spiritual weapons to their children, they would only give a handful. There were actually very few people like Cao Qiu who were armed to the teeth with ultra-quality spiritual weapons. At this moment, right in front of Sun Mu, a red long sword was suspended in the air and then began to spin slowly: it was an ultra-quality spiritual weapon. At the sight of this red sword, Han Fei felt as if his heart had skipped a beat. In the previous times when he met Sun Mu, this guy was only using high-quality spiritual weapons. But he had never expected that this man actually had so many spiritual weapons! Plus this red long sword, there were 108 swords in total. Seeing these swords, one of the onlookers exclaimed at this time, "Oh my God, this is the Sun Family's exclusive secret technique, Immortal Slaying Formation. Let's retreat! Come on!" Someone in the crowd was asking in shock while stepping back, "How strong is this Fan Datong? Why was Sun Mu forced to use the Immortals Killing Formation in the very beginning of the duel with him? Is Sun Mu f*cking crazy?" Another person answered him, "I don't know if Sun Mu is crazy or not. I just

know that I must stay away from these guys as far as I can. If the Immortal Killing Formation approaches me, I will crush my Flash Stone as soon as possible, escape is the only right choice to make.” When Han Fei saw that the crowd was scattering at an unbelievable speed, he was stunned. Damn it! I have been preparing so long just to poison these people. But now these people have all scattered away, how can I do it? Han Fei secretly sighed and turned to speak to Xia Xiaochan through a voice transmission, Xia Xiaochan, go straight to the 201st floor. However, Xia Xiaochan refused firmly and said crossly, No, I’m not leaving you. Looking at Xia Xiaochan’s resolute look, Han Fei could only say, Then take the antidote first and then block the poison with Metamorphosis Water. Do not let the sea water touch your body at all. Xia Xiaochan nodded and said happily, Okay! That’s no problem. At this time, Cao Qiu also asked through a voice transmission, Han Fei, are you going to release the poison? Then let’s hide right away. Cao Qiu beckoned Two Swords and Xia Xiaochan to run straight towards the place where Mu Ling was standing.

Mu Ling seemed to know why these people were running at her, and as she stamped gently on the ground, a defense formation appeared. As she stamped on the ground again, a water dungeon formation appeared. As she stamped on the ground the third time, a water shield appeared in front of Cao Qiu and the others to protect them.

This scene, in the eyes of others, was no problem at all. After all, Sun Mu had even activated the horrifying Immortals Slaying Formation, which showed how dangerous this battle would be! It was nothing but a matter of course to take a little bit of precaution.

Mo Feiyan was also far away from Sun Mu at this moment. At the same time, her eyes shone brightly, and she developed a strong curiosity about this Fan Datong.

Sun Mu activated the Immortals Slaying Formation as soon as the duel started, which had never happened before. Li Heiye opened his eyes wide and exclaimed, “That guy seems to be quite strong!”

Cao Qiu beckoned Two Swords and Xia Xiaochan to run straight towards the place where Mu Ling was standing. Mu Ling seemed to know why these people were running at her, and as she stamped gently on the ground, a defense formation appeared. As she stamped on the ground again, a water dungeon formation appeared. As she stamped on the ground the third time, a water shield appeared in front of Cao Qiu and the others to protect them.

This scene, in the eyes of others, was no problem at all. After all, Sun Mu had even activated the horrifying Immortals Slaying Formation, which showed how dangerous this battle would be! It was nothing but a matter of course to take a little bit of precaution.

Mo Feiyan was also far away from Sun Mu at this moment. At the same time, her eyes shone brightly, and she developed a strong curiosity about this Fan Datong.

Sun Mu activated the Immortals Slaying Formation as soon as the duel started, which had never happened before.

Li Heiye opened his eyes wide and exclaimed, “That guy seems to be quite strong!”

Li Baizhou looked at his twin brother and nodded in agreement, saying, “Yes! But I still don’t believe that there is such a person in the Grand Void Academy...”

Li Heiye glanced at Han Fei again and said, "I don't believe it either, but those two disciples of the Grand Void Academy seem to know Fa Datong well."

Li Baizhou thought for a while and said, "Then in a moment, let's catch the two disciples of the Grand Void Academy and question them thoroughly, and then we will be able to find out the truth."

Li Heiye covered his mouth and chuckled in a low voice. "Maybe we can take advantage of this chance and fish in troubled waters."

Li Baizhou smiled at his twin brother and nodded hard. "That's a good idea."

On the other side, to Han Fei's dismay, he found that as soon as Sun Mu activated the Immortals Slaying Formation, there was suddenly no one around. Everyone retreated to at least a kilometer away, with no one left in the area. Even Tang Ge was dragged away.

However, before being dragged away by other people, Tang Ge said to him via voice transmission, Don't worry. Just feel free to fight that b*stard. But if you feel you are going to lose the duel, tell me and I will come help you soon.

Han Fei responded to him through a voice transmission, No, I don't need your help! Have some faith in me! This happens to be a good chance for me to show you my real strength now.

Han Fei himself did not expect that things would turn out to be what it was now just because he exchanged a glance with Sun Mu. However, this was not bad. At least, in this case, the seven major sects would not come to bother him for the time being.

In addition to that, he would go to the Thousand Star City one day, so it would not do him any bad to get to know these children of the powerful families from the Thousand Star City in advance.

Swish! Swish! Swish!

As Sun Mu tapped in the air with his fingertip, except for the long red sword floating in front of him, the other 107 swords all rose into the air at the same time, began to spin around him slowly, circling him three times.

Looking at Sun Mu setting up the Immortals Slaying Formation with a solemn look, even Han Fei couldn't help but exclaim in his head, Damn, this b*stard looks really cool at this moment.

However, this was definitely not the right moment to judge if someone was cool or not! Both Han Fei and Sun Mu were almost brimming with murderous intent.

Clash...

The sword formation above his head suddenly gave off a blinding light and the spiritual swords dropped one after another. The spiritual swords were not directed at Han Fei at all but covered a radius of 500 meters. The drop point of each sword seemed to be carefully designed.

At first, eight swords dropped down corresponding to the eight points of the compass, followed by the other long swords one after another. Han Fei felt that this sword formation was already full of Sword Qi and did not even need any sword at all.

When Han Fei caught a glimpse of a few wisps of sword Qi floating towards him, he did not resist at all. Dropping his hands at the sides of his body, he just let the wisps of sword Qi come to him.

Rip...

In an instant, Han Fei was hit by five or six wisps of sword Qi, but he remained motionless and gave no reaction at all.

were

Looking at this strange scene, many people were surprised and could not help but exclaim, "Gee, why didn't this guy even raise his hands to block the swords?"

"I can't believe his physique is so strong! Is it possible that this guy is even comparable to Cao Tian in physique?"

The crowd was in an uproar and discussing intensely, but Tang Ge's breath fluctuated a bit. Obviously, being worried about Han Fei, he was very nervous.

Noticing that he was worried about Han Fei, Mu Ling slightly tugged at his arm and whispered to him through a voice transmission, Calm down. As we all know, in the Immortals Slaying Formation, random sword Qi can seriously injure an intermediate Dangling Fisher. He certainly could sense it, but he still chose to resist those wisps of sword Qi with his own body, which means that his physical strength must be very strong.

Tang Ge said to her through a voice transmission, I know. I am not worried about him but happy for him. I did not expect that one day, he could grow up to this level! I once thought that he would... At this point, Tang Ge abruptly stopped speaking. Not understanding why he suddenly stopped halfway through, Mu Ling could not help but ask, Huh? He would?

Tang Ge shook his head slightly and did not answer Mu Ling's question.

He once thought that Han Fei might stop in the realm of fisher in this life. But now, he seemed to be a peerless Heavenly Talent rising. Seeing his friend make such an amazing achievement, how could he not be excited?

At this moment, Cao Qiu was also exclaiming, "Xia Xiaochan, what do you say is his greatest advantage? His physique?"

Xia Xiaochan cocked her head and said proudly, "No, you are wrong. He is strong in every way, not just in the physique."

Cao Qiu was speechless at Xia Xiaochan's answer. I should have known that you are a big fan of Han Fei! Why did I bother to ask you? Simply a waste of my time...

On the other side, Han Fei looked down at his body. Those wisps of sword Qi tore his clothes, but were not even able to leave a single cut on his skin.

Seeing this scene, Han Fei couldn't help but laugh out loud. "Come on, continue."

As soon as Han Fei said so, there was a sudden explosion within a radius of 500 meters. Originally, there were only three or five wisps of sword Qi dashing back and forth, but in the blink of an eye, it became thousands and the number was still increasing.

In the distance, someone exclaimed in shock, "Oh, oh, here it comes! Here it comes! The Immortals Slaying Sword Qi is coming out."

Han Fei was also speechless at the moment. Come on, are you kidding me? Do you have to throw so much sword Qi at me at the same time?

However, Han Fei was still not going to make a move. He grabbed the handle of the Blood Drinking Knife with one hand while pouring spiritual energy into it.

Rip... Clang, Clang, Clang... Rip... Han Fei's clothes were still being torn into pieces, and even his head was hit by the wisps of sword Qi.

However, in the eyes of the people who were watching the duel in a distance, Han Fei was still not moving and remained motionless. Gosh, did this guy just want to die? They could not imagine what would have happened if the one who was standing there was them! Even if each wisp of sword Qi could only leave a tiny cut on Han Fei's skin, given that Han Fei had been hit by so much of it, with so many cuts on his body, he would at least bleed to death, wouldn't he?

However, Han Fei raised his hands and looked at them, only to find that streaks of white marks had appeared on his skin.

All of a sudden, Han Fei grinned at Sun Mu casually and asked, "Anything else? If not, I'm going to attack!"

Chapter 466 The 200th Floor of the Desolate World (3 in 1)

At this moment, Han Fei too realized that the Immortals Slaying Formation must be dreadful. However, he knew that his sturdiness had been increased more than five times because the Majestic Mystic Spell was still working.

Therefore, unless those descendants of major families were capable of certain extra powerful battle techniques, it would be impossible for them to hurt him.

When four red glittering aura swords emerged

Fei knew that the show was on.

"Pu..."

The swords were even faster than Xia Xiaochan's Thousand Strike Technique. Greatly surprised, Han Fei subconsciously lowered his body and dodged it, but he failed to jump away.

Two red aura swords almost landed a strike in the blink of an eye.

Han Fei raised his arm, only to see that his arm had been pierced through, and that there was a cut on his thigh.

"Hiss!"

“Shua...”

While everybody watched him looking forward to his performance, Han Fei drew his sword. As a matter of fact, since the sword formation came out, many people had acknowledged Han Fei’s capabilities, because not everybody could have resisted that sword Qi. They couldn’t even stand one second if they were to block such swords with their spiritual energy protective covers.

Therefore, after the red aura swords came out, someone said, “This is the second move! Fan Datong is taking action!”

The Blood Drinking Knife was drawn, but the swords had been shattered before the knife

were destroyed almost in the blink of an eye. Seeing that, Sun Mu frowned even harder. “He’s that good?” Outside, Cao Qiu exclaimed, “We must take action! Kill him!”

Ji Wenxuan and Tian Yishan, who were from the Grand Void Academy, subconsciously swallowed.

Tian Yishan asked, “Was Gong Yuehan defeated by this knife?”

Ji Wenxuan nodded, not recovering from his shock yet. “Exactly. However, Gong Yuehan took three attacks before he was defeated, and Senior Brother Fan seems even stronger than he was back then.”

To everyone’s amazement, Han Fei almost fully carried out his Shadow Swimming Art. While holding his waist with one hand, he dashed towards Sun Mu.

Han Fei would love to draw his weapon immediately, but his Drawing Technique was most powerful when he was closer to the enemy.

It wouldn’t matter if he was slightly at a distance from his opponent when the opponent was mediocre.

However, his opponent in this case was Sun Mu, who was no weaker than him at all in terms of strength and speed. If he wanted to win while concealing his real identity, he would have to get close to the guy.

Clang, Clang, Clang.. Sun Mu didn’t move, but the sword formation moved. The floating spiritual swords all fell, and they weren’t spiritual swords anymore after they fell, but instead turned into red aura swords.

“Red Light Everywhere!”

Mo Feiyan, Li Heiye, Li Baizhou, Wang Erjian, Cao Qiu and the others all exclaimed.

Tang Ge had never fought Sun Mu before, so he frowned and asked, “What does that mean?”

Cao Qiu explained, “There are four moves in

move is Deity Guiding the way, the third move is Red Light Everywhere, and the fourth move is Intimidating Water and Fire! Normal people can’t even make it to the third move, but Sun Mu has already cast the third move? Isn’t it too soon?”

Li Heiye and Li Baizhou were planning to kill the two disciples of the Grand Void Academy first, but they stopped after they saw the scene. They were more interested in finding out if this Fan Datong could

survive the formation, and if he could, it would be best that they showed enough respect for the Grand Void Academy.

Swish...

The seawater trembled when the Blood Drinking Knife was drawn, and a high-quality battle suit appeared on the surface of Han Fei's

anymore, because the red aura swords were really powerful.

Now, rows of red aura swords were pushing at him from all directions threateningly. He couldn't possibly deal with them without setting up a defense for himself.

Han Fei said telepathically, Mr. Hexagon Starfish, get us a defense array.

The Hexagon Starfish was trembling at this moment. While covering Han Fei with a defense array, it replied, Let's run! I think we're dead! We'll be dead in no time!

Han Fei replied, Shut up and see how I kill him!

The Blood Drinking Knife had been completely unleashed. Dozens of balls of energy appeared on Han Fei's side at the same time and exploded one after another.

Han Fei attempted to block the torrents of red swords with an outburst of spiritual energy, but it didn't work at all.

The defense array that the Hexagon Starfish set up had been broken after resisting the red swords for only one second.

The distance between Han Fei and his enemy was only several hundred meters. He would've already swum to the enemy at his usual speed, but here, he had only covered half of the journey. Clank, Clank, Clank...

His battle suit, which was a piece of high-quality spiritual equipment, rustled and was riddled with sword cuts. Some parts on the suit had even been penetrated through. Han Fei's eyes trembled. Considering the intensity of the attack, this high-quality spiritual battle suit would be destroyed after another two waves of attack.

"Damn it. Not enough. I'm not close enough to him."

It had been a long time since Han Fei had the
this moment, he was even somewhat excited.

Tang Ge immediately moved and grabbed his spear, ready to take action. He had seen how terrifying the Immortals Slaying Formation was. The high-quality spiritual battle suit was almost impaled in the blink of an eye. What would happen if the attack had directly landed on the body?

He admitted that Han Fei was very sturdy. However, no matter how sturdy Han Fei was, could he possibly resist the ultimate spiritual weapons of an enemy who was on the same level as himself?

Tang Ge didn't think that he was capable of

had practiced multiple heaven-level battle techniques.

However, right before Tang Ge was going to

stopped him. "Don't worry."

Tang Ge frowned. He grew less fond of Xia

man's attack is so powerful, and you're doing nothing except standing by and watching?" Xia Xiaochan replied casually, "You underestimate Han Fei."

Tang Ge was stunned, as he thought that he had given Han Fei enough credit. Even he might not have been able to weather through the terrifying attack made by the third move of this formation.

As for the other people, they were already dumbfounded.

"Dear Sea God, is that guy crazy? He's still charging forward just in order to carry out his attack?"

"He's truly ferocious and unstoppable! He is the second guy I've seen who charged forward against the Immortals Slaying Formation!" Someone turned aside and remembered that the first guy who charged forward against the formation was Cao Tian, an unusual genius who established his name as the top expert in his generation after that battle. It was certainly worth it.

The reason why Cao Tian was quickly acknowledged as the top expert by his peers was that he was a lunatic who fought and pressed forward even though the Immortals Slaying Formation was lying before him. Cao Qiu was remarking his complicated feelings too, "He is crazy! He is crazy! Fan Datong is definitely worthy enough to be on

Thousand Star City."

However, nobody asked Cao Qiu more about the list of the top ten Heavenly Talents.

That was because the water currents around Han Fei began to flow unusually inside the formation. The turbulence surged in the shape of blades as if they were weapons.

When the second torrent of red swords crashed against Han Fei, the high-quality spiritual battle suit that he looted was shattered.

But when the third torrent of red swords came

that the red swords couldn't press on at all. They were blocked by the turbulence in the seawater.

Han Fei grinned and said, "You're forcing me to do this!"

Ten meters...

Twenty meters...

A hundred meters...

The seawater fell into utter chaos. Everybody

dense that it was impossible to count how many of them were out there.

If one had to describe it, they could only say that there were as many blades as there was seawater. Xia Xiaochan's eyes glittered and narrowed. She curled her lips and said, "Hehe. He's finally using it." Everybody who was watching the battle swallowed.

Tang Ge's eyes glittered, and his body was trembling. Powerful! This is too powerful! Are those swords really launched by my brother that was mocked by countless people in the beginning? He had never thought that Han Fei, who had never been to the Thousand Star City, could've made it this far entirely based on his own strength.

Han Fei was faster and faster, and the Blood Drinking Knife in his hand was fully laden with his determination. The audience could sense the stunning brilliance on the knife that was no less intimidating than the red sword torrents from the Immortals Slaying Formation away.

Sun Mu's face finally changed at this moment. He began to retreat. Sun Mu couldn't think it through at all. What kind of battle technique can possibly turn seawater into such terrifying water blades? A heaven-level high-quality battle technique? But even a heaven-level high-quality battle technique couldn't be so powerful! Sun Mu declared, "The fourth move of Immortals Slaying: Intimidating Water and Fire."

Hiu! Hiu! Hiu!

As Sun Mu retreated, the red aura swords returned to Sun Mu.

Altogether, there were 107 streaks of light. All of them were gathered on the ultimate spiritual sword before Sun Mu.

When Han Fei was only a dozen meters from Sun Mu, the fourth move of the formation was launched. Instantly, all the water was pushed out.

It was as if a nuclear bomb had just exploded at the bottom of the ocean. Han Fei and Sun Mu were enshrouded by a round ball. They couldn't see anything except the continuous explosion was radiating too. At this moment, Xia Xiaochan's face changed, and she was the first one to charge out.

Tang Ge, Wang Erjian and Cao Qiu followed Baizhou and the others.

The last strike was so powerful that they could sense the ferocious and rampant sword Qi when they were three hundred meters from the center of the explosion.

However, before they saw clearly what was going on inside the white water ball, someone suddenly held his stomach and exclaimed, "Ouch! Was I accidentally poisoned?"

Han Fei didn't know how long it would take for Cao Qiu's drug to kick in even though it was known as the Poison King. Therefore, he secretly poured out a bowl of the poison during the attack

When he collided with the fourth move of the Immortals Slaying Formation, Han Fei simply enveloped himself with the Infinity Water. However, the Metamorphosis Water was different from the Infinity Water. While Xia Xiaochan could turn the Metamorphosis Water into anything, Han Fei could only protect himself by transforming the Infinity Water into weapons. It wasn't very handy.

But of course, Han Fei wasn't scared, as Cao Qiu had said that all the herbs were collected from the level-three fishery. Since Han Fei had taken the Venomous Tulip, he should be better than everybody here in terms of resistance to poison, unless they had taken a Venomous Tulip too.

After the round ball collapsed into dense bubbles and gradually disappeared, everybody finally saw what was inside.

Han Fei's clothes had been entirely shattered. He was wearing nothing more than a pair of ragged short pants. The perfect and explosive muscles on his body were fully revealed. Han Fei was half lying on the ground, with dense wounds on the upper half of his body. The seawater before him had been dyed red.

But Sun Mu was much more miserable than Han Fei. Before him, a piece of amulet jade had been cut into halves and fallen on the soil. Only half of his high-quality battle suit was left. An enormous wound had been cut from his shoulder all the way to his waist.

At this moment, Sun Mu was covered by a layer of dim light. Clearly, it was another protective measure, and it was one of the better ones.

Even so, Sun Mu was half lying on the ground. The seawater around him was obviously much bloodier than that on Han Fei's side.

Han Fei secretly cursed. It is really tricky to fight these people! Was this jerk really so powerful? In terms of attack power, Sun Mu is even stronger than Yang Deyu. Instead of casting the Divine Healing Technique on himself, Han Fei exerted strength to his feet and stood up. At the same time, he put on another high-quality spiritual battle suit.

Han Fei turned his neck and pointed at Sun Mu. "You would've been killed without your amulet."

Sun Mu's subordinates swam to him in a hurry, and two spirit gatherers healed Sun Mu in a hurry.

Sun Mu struggled back to his feet and managed to say, "Who are you exactly? If the Grand Void Academy had the battle techniques you performed just now, would it have been suppressed by the other major sects to this day?"

Han Fei ignored him and said to Cao Qiu telepathically, Why is there no reaction at all after such a long time? Should I have put more poison? I only dispersed a bowl of it. Is it not enough?

Cao Qiu's eyes bulged. You released a bowl of it?

Cao Qiu quickly dragged Wang Zitian and said, "Let's go to the next floor. Quickly, quickly, quickly..." As he talked, Cao Qiu gradually disappeared.

Wang Zitian paused for a moment and stared at Han Fei. Then, he gradually disappeared too.

“Huh?”

Mo Feiyan was briefly stunned. “What are they running for? I’m going to the next floor to find it out.”

Mo Feiyan felt that something was off. This guy who appeared out of nowhere turned out to be on Cao Qiu’s side, and everybody knew what Cao Qiu wanted. He had wanted to kill them for a long time. Something must be wrong with this stranger.

After Mo Feiyan’s body faded out, Han Fei noticed that the two guys from the Grand Void Academy still hadn’t left. He thought to himself, Don’t blame me, I warned you a long time ago, I would’ve finished you off if I didn’t want to better disguise myself.

Mu Ling’s face slightly changed. “How powerful is this poison exactly? Why has Cao Qiu run off so quickly?” Xia Xiaochan said, “Don’t cancel the Water Dungeon Technique. This is the Poison King poison.”

Mu Ling was greatly alarmed after hearing that, and she secretly added another barrier

Poison King was, but since Xia Xiaochan was on Han Fei’s side, her warning must be well-grounded.

While Sun Mu was still waiting for Han Fei to reply, Han Fei glanced at the crowd. Seeing that some people were holding their stomach with pale and awful looks on their faces, he looked back at Sun Mu. “It’s exactly because my sect is dwarfed by other major sects that I cannot reveal myself easily. You’ve lost. Are you not giving me your Sea Swallowing Seashells?”

Sun Mu gnashed his teeth. “When did I ever promise that I would give you my Sea Swallowing Seashells if I lost?” Han Fei chuckled and said, “What a gutless man. It’s just a Sea Swallowing Seashell. You think I can’t find them if you hide it well?”

Suddenly, Sun Mu realized something was wrong and instantly backed away dozens of meters.

failed to tell what was wrong exactly.

“Pu! Pu! Pu... Pu...”

“Ew...”

“Ah! Something is wrong with my stomach!” “Not good! There’s something in the water!” “Pu! Pu! Pu... Pu...”

“Gudu... Gudu...”

Almost like a chain reaction, farts echoed in the seawater for a long time without any stop.

Xiaochan, Mu Ling and Tang were holding their bellies, including Sun Mu.

Sun Mu’s eyes were cold. “You used poison...” Han Fei didn’t deny it. He simply spoke to Tang Ge, Xia Xiaochan and Mu Ling telepathically, You go to the next floor first.

Seeing that the situation here was already under control, Tang Ge entered the next floor without hesitation. But his face was weird when he left. He wondered why the poison would make people fart.

Xia Xiaochan already felt strongly uncomfortable. She ran off immediately because she was disgusted.

Han Fei, on the other hand, cackled creepily.

Do you think I would fight each and every one of you to get through? Let me tell you the truth. This poison is made by a thousand spiritual herbs that I collected when I traveled the level-three fishery. Its toxicity is unprecedented. Dreadful and mind-blowing, it will make you vomit and give you diarrhea for seven days. If you don't have the antidote, you might as well start looking for a toilet!" Han Fei shamelessly claimed that he was the inventor of the poison, because it could make him even more intimidating. Li Heiye's voice rang in Han Fei's head, Damn it! It's gross! You've pissed us off!

Li Baizhou added, Fan Datong, come and duel with me if you think you're good! Why do you demean yourself by using such a lowly technique?

Someone cursed angrily, S*it! Give me the antidote. Pu...

Senior Brother! Senior Brother Fan! Antidote... Oh...

Han Fei blinked his eyes. "Stop speaking to me telepathically! My head is a mess when your voices are all in my head at the same time! I'll give the antidote to whoever voluntarily gives their Sea Swallowing Seashell to me. There are only a hundred doses of the antidote, but there are clearly more than a hundred people here. So, let's see which of you are faster!" Someone cursed angrily, "Lunatic, you will make yourself a public enemy of all the major sects!"

Han Fei turned his head, only to see a young man who was glaring at him. Therefore, Han Fei smiled and said, "Okay, no antidote for you. But I won't give you a hard time. You can get the hell out of here!"

The man immediately turned grim. He was

wanted the antidote!

"Senior Brother Fan! Senior Brother Fan! Hurry! Antidote! I can't hold it anymore."

Ji Wenxuan swam close. While he was on his way, obscure substances drifted out his pants.

Han Fei's face instantly changed. He pointed at him and scolded, "Don't come closer! Didn't I ask you to leave? Why are you still here?"

Han Fei hesitated. Damn it. He really didn't want to give them the antidote. His identity as the last disciple of the dean of the Grand Void Academy would be found out to be a lie the moment he got out of the Steps into the Sea...

Wait.

Han Fei suddenly thought of something. He snapped his fingers and gave Ji Wenxuan and Tian Yishan two drops of the antidote. Han Fei simply said, "Junior Brother, finish it already."

Tian Yishan couldn't hold it any longer either. He was lying on the ground when the antidote was thrown to him. Immediately, he jumped with his last strength and swallowed the antidote.

Seeing the filthy seawater behind him, Han Fei almost threw up. Han Fei suddenly took out a black cloak and put it on. Then, he placed the high hat of the threatening ghost above his head too.

Han Fei had transformed back into one of the Black and White Ghosts. Everybody was stunned after seeing that.

Sun Mu remarked, "You are indeed not a disciple of the Grand Void Academy." Han Fei's lips curled. "Wrong. Xie Xiao'an and I laid low for three years in order to reclaim the glory of the Grand Void Academy in the past before today. We, the Black and White Ghosts, are the ultimate weapons that the Grand Void Academy have developed. After today's battle, the Grand Void Academy will return to the peak again..."

Han Fei thought that, since nobody knew the Black and White Ghosts' background, and he was already impersonating the last disciple of the dean of the Grand Void Academy, he might as well attach the Black and White Ghosts to the Grand Void Academy too. It was just another lie anyway.

Immediately, Ji Wenxuan and Tian Yishan couldn't have looked more awful. They wondered if Han Fei was even their senior brother.

Although they had been given the antidote, they both foresaw what would happen later. They would probably be beaten to death by everybody after they left the Steps into the Sea. We're doomed. They looked at each other and instantly faded away.

Han Fei was rather unhappy that two Sea Swallowing Seashells ran away with them, but it didn't matter, because he had blamed everything on the Grand Void Academy. By the time those people figured out that he wasn't with the Grand Void Academy, he and Xia Xiaochan would probably already be out of the Steps into the Sea.

After they returned to the boundless and free level-three fishery, who could possibly catch him?

"Pu... Pu... Pu..." "Gu... Gu..."

"Ew..."

Han Fei kept a distance from them and protected himself well. Then he asked, "Nobody is willing to give their Sea Swallowing Seashells to me? That's fine. I don't want them anymore. I'm leaving. Bye, guys."

"Wait a moment."

It was none other than Sun Mu, who was closest to Han Fei, and Li Heiye and Li Baizhou, who called out to him first.

They could barely hold themselves back anymore. As the disciples of major families, their pride forbade them from being humiliating in front of other people in such a way.

They had even foreseen that everybody in the Thousand Star City would know what in the city.

Immediately, Sun Mu and the Li twins threw their Sea Swallowing Seashells to Han Fei.

The moment he accepted the Sea Swallowing Seashells, Han Fei smiled and tossed out doses of the antidote which were mixed with impurities. However, it shouldn't be a problem for the antidote to suppress the poison for a while.

With Sun Mu and the Li twins setting an example for them, hundreds of other people threw their Sea Swallowing Seashells to Han Fei. Han Fei almost failed to catch them all.

Then, Han Fei tossed out a tremendous number of doses to the crowd.

Then, Han Fei said to everybody telepathically, I'm a man of my word. When I say I'll rob you, I won't kill you. Don't worry about your life. Everything was fine before Han Fei said that, but after he did, everyone wanted to cut him into pieces.

Sun Mu and the Li twins seemed to be communicating telepathically, but Han Fei ability be restored so fast?

However, in case those people got back to themselves, Han Fei continued, "I'll wait another five seconds. Those who don't give your Sea Swallowing Seashells to me won't need to!"

"Pu... Pu..."

Amongst more farting noises, Han Fei received another batch of Sea Swallowing Seashells.

After he collected the last Sea Swallowing Seashell, spiritual energy was already surging he quickly faded out and entered the next level.

"Damn it!"

Li Heiye shouted, "I'll definitely kill him!"

Li Baizhou swore, "He can't get away! I'll kill him the moment he returns to the Thousand Star City!"

Sun Mu had a cold gaze. "Let's get out of here first."

Many people were lost for words, as the filthy seawater couldn't be more disgusting.

for a few Sea Swallowing Seashells after

necessities and threw them into his Sea Swallowing Seashell. He was about to leave, when he heard exclamations bursting out behind him.

Yang Deyu was rather stunned. "Huh? What's this fuss about? Have any extraordinary treasures been found?"

"Young Master, I think someone just came out of the Steps into the Sea."

Yang Deyu was dazed for a moment. "People come out of the Steps into the Sea all the time. Why are they so loud?" "Ho! Hooooo00o!"

"Tell me where the people from the Grand Void Academy are! I'm going to kill them!"

Yang Deyu was surprised to hear the roar that came from a distance. "Huh! I think it's Li Heiye's voice. Let's go and see if it's that son of a bi*ch."

By the time Yang Deyu arrived, he found that a lot of people from the major sects, including Sun Mu, had been gathered. Yang Deyu was instantly amused. "Hey, Sun Mu, why have you left too?" "Pu... Pu... Pu..."

A disciple of the Mountain Sea Pavilion suddenly began to fart in the crowd.

"Ew!"

Following him, someone else began to vomit.

"Shoot..."

The crowd instantly dispersed. How could they still be farting so loudly when they were already peak-level Dangling Fishers? Someone said in despair, "Huh! What's that smell?"

Yang Deyu was lost for words. "Are you done yet? What pills have you taken?"

Right when Yang Deyu mocked them, Li Baizhou farted too.

Sun Mu quickly flashed above the steps into the Sea and vanished.

"Damn it! We were tricked!"

"Ahhhhhhhhh! Son of a bi*ch! This isn't over yet! I'll get back to you!"

"Get me a toilet already. I can't hold back anymore."

Yang Deyu and the other passers-by were all dumbfounded, wondering what could've possibly happened.

After hearing how Fan Datong released poison on the 200th level of the Steps into the Sea, Yang Deyu felt dizzy and chilled. He remarked in complicated feelings, "Thank god I got out earlier, otherwise..." He trembled and laughed out aloud. "Let's go! I feel really happy! Let's visit another treasure trove in a few days. But for now, let's find out which toilet Sun Mu is using."

While Yang Deyu was having fun with the show, other people weren't. They were rather

ghosts made it to the 200th level and drove out the Heavenly Talents of the Thousand Star City. For a moment, the Black and White Ghosts became the most famous celebrities. Scholars even began to investigate the Black and White Ghosts' background.

On the 201st level of the Steps into the Sea, Han Fei patted his chest and grinned. "A bumper harvest! A bumper harvest it is!"

The Hexagon Starfish remarked, "Human being, I have a feeling that you will be beaten to death if you leave this place." Han Fei chuckled. "Don't worry. I have the Thousand Faces Technique."

At this moment, Han Fei was even envious of the little fatty Cao Qiu, who was truly adept at invention and creation even though he was bad at fighting

When hundreds of people farted at the same time a moment earlier, even he almost failed to control himself and stop himself from throwing up.

At this moment, Han Fei scanned the Sea Swallowing Seashells he just obtained. The more carefully he examined them, the more brilliant his smile became.

“Tsk, tsk. As expected of the disciples of the major sects. They really have lots of good stuff! If I sell all these Sea Swallowing Seashells to the Specter, how much money can I get? A hundred million?”

Grinning, Han Fei picked out all the Soul Crystals inside those Sea Swallowing Seashells.

After he examined all the Sea Swallowing Seashells, Han Fei discovered, to his surprise, that he had acquired almost three hundred Soul Crystals. So, those people each had a Soul Crystal on average.

“Hiss! Not bad! Not bad at all! It’s true that robbing is much easier than collecting!”

Han Fei looked around and didn’t sense any shock in the water, so he simply sat down on the ground.

One.

Two.

After two Soul Crystals were absorbed, Han Fei was suddenly refreshed. He had the epiphany that it was possible to remember the God Scaring Painting now.

At this moment, ten Soul Crystals had already been absorbed, but the Soul Crystals had no reaction at all. However, after he absorbed the eleventh Soul Crystal, the God Scaring Painting trembled in his head.

Immediately, Han Fei’s eyes glittered, and he kept having the Soul Crystals.

One...

Two...

Ten...

Absorbing another ten Soul Crystals, Han Fei suddenly opened his eyes and released his mental perception.

In the next second, Han Fei was dumbfounded.

“Huh!”

Han Fei rose quickly. “This isn’t right! Didn’t they say that it’s fifty meters? Why has the range of my perception been increased by five hundred meters?”

The Hexagon Starfish asked, “Can I have a few Soul Crystals for all the contributions I made?”

Han Fei thought of something and immediately took out ten Soul Crystals. “Here, Mr. Hexagon Starfish. What’s the range of your perception right now?”

The Hexagon Starfish found it hard to believe that Han Fei tossed ten Soul Crystals in front of him. It laid its tentacles on the Soul Crystals, and the ten Soul Crystals disappeared in the blink of an eye.

The Hexagon Starfish said, “The range of my perception is very large. It’s even bigger than the Big Red Trunk.”

Han Fei was rather intrigued. "It's that huge?"

However, Han Fei had strong doubts about the Hexagon Starfish's math abilities. So, he took out his fishing pole and said, "You sense the landing point of my fishing pole and tell me if you can feel it."

A thousand meters away.

Han Fei asked, "Is it okay from here?" The Hexagon Starfish replied, "Not a problem at all."

One thousand-five hundred meters away.

Han Fei asked, "What about here?"

The Hexagon Starfish replied, "Not a problem at all."

As it turned out, Han Fei's estimation wasn't wrong at all. The range of the Hexagon Starfish's perception was as far as 2,400 meters.

Having just been increased by five hundred meters, Han Fei only had a perception range of a thousand meters in total. He wondered if it could be further increased if he kept absorbing the Soul Crystals.

Han Fei said, "Mr. Hexagon Starfish, digest them right now, don't keep any of the ten Soul Crystals."

The Hexagon Starfish found it rather unbelievable that Han Fei could be so generous giving away ten Soul Crystals at one time when he was usually mean and petty.

Han Fei sat down and continued absorbing the Soul Crystals excitedly.

One...

Two...

At this moment, Han Fei felt that every single Soul Crystal had some effect. However, since he didn't remember more pieces of the God Scaring Painting, Han Fei's range of perception wasn't really increased.

However, after he absorbed another ten Soul Crystals, and another piece of the God Scaring Painting was remembered, Han Fei realized that his range of perception had been expanded by another five hundred meters.

"Shoot..."

Dumbfounded, Han Fei immediately looked at the Hexagon Starfish. "Mr. Hexagon Starfish, how is it going? How much has your perception range been expanded?" The Hexagon Starfish: "???" "I haven't even begun to absorb them yet."

Han Fei's heart was beating fast.

Cao Qiu had mentioned that even Cao Tian's perception range was only 3,300 meters back then. Even if Cao Tian had grown stronger, he couldn't possibly sense things four thousand meters away.

If Han Fei's guess was correct, the expansion of his perception range had little to do with the Soul Crystals, which were merely keys to the God Scaring Painting.

The God Scaring Painting was the real key to the expansion of his perception range.

The Hexagon Starfish's six big eyes were rolling quickly like wheels, because it found that Han Fei was taking out ten Soul Crystals every few hundred seconds, and he had repeated it almost ten times.

It was rather panicked as a starfish, and it didn't know where to place its tentacles.

How can you be so fast? I haven't even digested the first Soul Crystal yet, but how many Soul Crystals have you taken in? Eighty? A hundred?

Chapter 467 Ye Baiyu, the Fastest (2 in 1)

Han Fei's nose was bleeding because of his excitement.

That was because his perception range had been expanded to five thousand meters. Yes. Five thousand meters, not a meter shorter. Thirty pieces of the God Scaring Painting had been remembered.

At first, he only remembered nineteen pieces, but after the crystals, Han Fei remembered another piece by absorbing yet another ten Soul Crystals.

But this time, the range of his perception wasn't expanded although he remembered a new piece of the God Scaring Painting.

When Han Fei experimented again, he realized that he couldn't remember more of the God Scaring Painting with ten Soul Crystals anymore. Instead, he merely felt that his head was a lot clearer than before. Han Fei couldn't help but look at the Hexagon Starfish and asked suspiciously, "Mr. Hexagon Starfish, do you think there's a bottleneck to perception range?" The Hexagon Starfish stared at Han Fei with all its six big eyes. "Your perception range has already hit the bottleneck?"

Han Fei was briefly stunned. "I'm the one who's asking questions here! Tell me if there is a limit, and what one should do if he hits this limit."

The Hexagon Starfish replied, "That's a tricky question for me. However, I think one's perception range is definitely limited."

Han Fei was slightly intrigued. "Huh? How do you know? What's the reason for your claim?"

The Hexagon Starfish rolled its eyes and said, "Because of the limitation of the soul! When your soul can't bear your immense spiritual power, you will hit the bottleneck, won't you?" "Hiss..."

Han Fei was greatly enlightened. He had always thought that the soul equaled mental power. He was never able to distinguish between them, and nobody had ever told him about their difference.

So, as it turned out, they weren't the same at all?

The improvement of the soul would help the improvement of spiritual power, and the improvement of spiritual power would further expand one's perception range.

"Yes, that must be it."

Han Fei glanced at the Hexagon Starfish and was secretly amazed by the amount of knowledge it possessed. Han Fei chuckled and asked, "Mr. Hexagon Starfish, how can we improve the soul? Or rather, what is the soul exactly?"

The Hexagon Starfish moved its eyes left and right and said, "I don't know! I'm just a starfish that was imprisoned for three hundred years!"

Han Fei: "..."

Han Fei realized that the Hexagon Starfish probably really didn't know, as its perception range was only half of his own. He didn't think that the Hexagon Starfish had hit the bottleneck yet.

After his perception range couldn't be expanded anymore, and he learned that it was impossible to improve his soul, Han Fei did not plan to continue absorbing the Soul Crystals.

If his guess was correct, he was probably the person with the greatest perception range in the Steps into the Sea.

Han Fei released his senses and felt everything within five thousand meters.

However, to his surprise, there was absolutely nobody within this range.

"Huh? Didn't they say that most people were at the 200th and the 201st floor? Why is there nobody here?"

Confused, Han Fei didn't set off to search for Xia Xiaochan and the others immediately. Instead, he took out ten spiritual fruits, and, after thinking for a moment, five more before he began to offer sacrifices.

However, although he offered fifteen spiritual fruits, which contained 1,200,000 points of spiritual energy in total, the sacrificial ritual didn't work.

"Uhh! You're truly greedy!"

Enlightened, Han Fei took out another ten spiritual fruits, making an offering of 25 spiritual fruits in total.

However, it didn't work either.

Han Fei: "..."

"This is downright robbery! I've offered 25 spiritual fruits, not 25 mid-quality pearls, alright?"

Han Fei immediately stored the rest of the spiritual fruits to himself. He didn't want to waste any more of them, as he didn't know how many spiritual fruits he would have to offer. At the current rate, assuming that he made all the offerings with spiritual fruits, he would run out of spiritual fruits in no more than a hundred levels.

I was

Therefore, Han Fei took out a Sea Swallowing Seashell. He was too lazy to appraise the Sea Swallowing Seashell anymore. All he knew was that it contained a bunch of mystic stones, low-quality spiritual weapons, rare materials, uncommon fish, and miscellaneous items.

However, he soon found that the Sea Swallowing Seashells he looted at the beginning weren't enough for the offerings either.

He used seven of the Sea Swallowing Seashells he obtained before the 100th level for the sacrificial ritual.

After the sacrificial ritual was complete, a seed drifted out in the empty seawater.

"Hey! Am I so lucky? We've got a treasure!"

"Huh? Wait!"

Suddenly, Han Fei's face changed greatly. He stomped on the ground and quickly retreated.

Right when he was about to reach for the seed, he found that the seed was quickly expanding and enlarging. In the blink of an eye, the seed had grown to the size of a fist. Crack!

The seed was cracking and turning larger and larger still. In only two seconds, it was already as tall as a kid. Also, it was growing at a quicker and quicker speed.

When the crimson vines burst out from the bulging seed, data popped up in Han Fei's eyes.

<Name> Demon Shattering Vine

<Introduction> This is a predator of the deep sea. It's strongly venomous and very tensile. Its vines are full of thorns. It feeds on large fish and shrimp. It goes on hunting by measuring the water current. It's very responsive to its surroundings. When it's mature, it will yield the Demon Spiritual Fruit, which can increase the power of the soul.

<Level> 38

<Quality> Exotic

<Spiritual Energy> 2,908 Points

<Effect> Inedible

<Collectible> Demon Spiritual Fruit

<Unabsorbable>

Frowning, Han Fei backed off for a few steps. This was the first and the only plant creature that he had summoned in the Steps into the Sea.

"Demon Spiritual Fruit? A spiritual fruit that can improve the power of the soul?" At this moment, the Demon Shattering Vine was growing crazily. It took the plant no more than ten seconds to grow to three meters tall from a seed.

All of a sudden, Han Fei began to attack without considering too much. Who could tell for how long such a weird plant would grow for? It was only three meters tall for now. What if it grew to thirty meters or three hundred meters tall?

Seeing that nobody was around, Han Fei unleashed all the Blue Sea Wandering Dragon Daggers. After the Demon Shattering Vines were cut off, Han Fei saw an astounding scene.

He saw that the Demon Shattering Vines that he cut off were growing too. After only a short while, the Demon Shattering Vines had grown to five meters tall.

“Damn it. What is this thing?”

Suddenly, the Hexagon Starfish said, “This plant seems to have immense spiritual energy, but it’s consuming the energy right now. Do you think you started the battle too early?”

Han Fei slightly backed off and said, “Are you suggesting that I should wait until it grows large before I fight it?”

The Hexagon Starfish said, “Actually, you can fight it right now. Though it has been split into many parts, its vitality is limited overall.”

Han Fei thought of something. Although he didn’t know how the Hexagon Starfish could tell another creature’s vitality, he didn’t think that the Hexagon Starfish would lie to him.

Therefore, Han Fei controlled the Blue Sea Wandering Dragon Daggers and churned crazily again.

Every one of the crimson Demon Shattering Vines was cut into pieces. Although the broken vines were still growing, they seemed to be only large in number and didn’t show anything special.

After several hundred seconds, what lay before Han Fei’s eyes was a forest with a coverage of around fifty meters. At the center of the wood was a ragged main vine, which was surrounded by lesser vines that were dozens of meters long.

All those vines were full of thorns, with red fluids dripping off now and then.

Han Fei curled his lips. “Has it stopped growing?”

The Hexagon Starfish replied, “I think so.”

“Then let’s kill it first.”

There was no telling if it was because Han Fei had cut off the vines earlier, but although the vines were lunging at Han Fei like agile snakes and tentacles, they were chopped into pieces by Han Fei with the Blue Sea Wandering Dragon Daggers before they could reach Han Fei at all. When they were chopped into pieces this time, they were really dead, because the vines that were dozens of meters long all disappeared. After only a second, the Demon Shattering Vines that had a coverage of fifty square meters had been reduced to only ten square meters with only the main vine left under Han Fei’s chopping “Hehe. I thought it would be difficult to deal with this thing!”

The Hexagon Starfish said, “This doesn’t look right. It should be very powerful, but it was cut by you at the very beginning. If you had allowed it to grow, it would’ve been much bigger than right now.” Han Fei said in despire, “It may be big, but so what? It’s just a vine anyway.”

Hardly had he said that when Han Fei shot out an arrow that burst out on the main trunk of the Demon Shattering Vines, causing a huge hole on the trunk.

Right when Han Fei was ready to finish off the Demon Shattering Vines, he suddenly sensed that a young man in white clothes was coming to his place at a high speed.

“Finally, somebody is here?”

Bam! Bam! Bam!

Shooting out almost ten arrows and causing explosions again and again, he shattered the Demon Shattering Vines. After the Demon Shattering Vines disappeared, a crimson fruit floated in the water. It was round and seemed to have a very thin skin.

“This is the Demon Spiritual Fruit?”

Han Fei grabbed the Demon Spiritual Fruit and threw it into Forge the Universe. Then, his bow and the Blue Sea Wandering Dragon Daggers were recalled into his body too.

In Han Fei’s hand, he was only holding a whet stone and a kitchen knife.

Two seconds later, a young man in white came close with a smile.

“Did you summon the Demon Shattering Vines?”

The young man in white looked at Han Fei with a smile like a courteous scholar. He seemed warm, sunny and amicable.

Han Fei curled his lips. “That’s right! How may I help you?”

The young man in white softly extended his hand and waved in the water. Then, he closed his eyes and released his senses. “Sharp daggers and sharp arrows, you are a strong soul warrior. You aren’t from the Thousand Star City, are you?”

Han Fei didn’t say anything, but he thought to himself, What are you trying to say?

The young man chuckled and put his hands back into his long sleeves. “Okay, give me the Demon Spiritual Fruit, and there won’t be any conflict between us.”

Han Fei chuckled. I have a lot of personal experience in robbery, and I’ve never seen a robber who’s so brazen!

Han Fei said casually, “What if I don’t give it to you?”

The young man in white said, “Then why don’t we have a contest? I happen to be feeling bored, and you don’t seem to be weak at all. Should we have a game?” Han Fei said with a faint smile, “Okay! Let’s have a game!”

After he finished, the seawater began to tremble in agitation around them. Swirls appeared out of nowhere between them and revolved crazily.

When the aura in the young man in white soared and gradually reached the level of a peak-level Dangling Fisher, Han Fei frowned.

“This man doesn’t seem very interesting, but I do think that something is wrong.” “Huala!”

Suddenly, Han Fei lowered his head, only to see a weird array under his feet.

Han Fei was puzzled. "Mr. Hexagon Starfish, why did you set up an array for no good reason?" The Hexagon Starfish replied, "I didn't set up any array!"

Han Fei's face slightly changed. It was the young man in white on his opposite side who set up the array! But when exactly did he establish the array under his feet? Also, the array was the simplest confinement array.

Han Fei grunted, and dozens of cracks appeared on the confinement array.

Han Fei said with a smile, "You've given me a gift, and I'll return one to you. Six Gate Array!"

When the purple light emerged, Han Fei saw a white flash in the seawater, and the Six Gate Array missed the target.

Han Fei's eyes almost bulged out after seeing that. He didn't expect that someone could be even faster than himself.

Boom!

Right while the young man in white was dodging the Six Gate Array, Han Fei pointed the confinement array with the needle in his head, and the confinement array broke into pieces after an explosion.

The two of them looked at each other in the water, and neither of them was trapped by the enemy.

The smile on the young man's face was less obvious than before. "If my guess is correct, it was a Hexagon Starfish that set up the array just now, wasn't it?" Han Fei was wearing the same smile. He had met another man who had recognized the Hexagon Starfish through the Six Gate Array without even seeing the Hexagon Starfish for real!

The Hexagon Starfish couldn't be more panicked at this moment. "Let's run! I think my life is at risk."

Han Fei said, "Shut up! We've been through too many things. You think we should run whenever we meet a random person? You should've been named Hexagon Runner instead of Hexagon Starfish..."

The young man in white spoke telepathically, "It's a surprise that you have a mysterious creature! You must be extraordinary. However, are you strong enough?"

Then, the young man in white disappeared in the water. After that, Han Fei could see nothing but overlapping flashes of light around him.

It was not a weapon or a battle technique; the flashes were exactly the young man in white himself.

Han Fei was lost for words. He had never seen anyone who was so fast as to run around him dozens of times in the blink of an eye...

In terms of speed, he had been completely defeated.

But Han Fei simply said telepathically, "You think being a fast runner is something? Idiot."

Not caring about the flashes at all, Han Fei simply walked straight to the bottom of the sea. He already made up his mind. I don't care if you simply run around me, but let's see if you have the courage to hit me.

As it turned out, the flashes circled and suddenly emerged behind Han Fei, and a narrow sword detoured and tried to attack Han Fei's check.

However, Han Fei simply ignored the sword and slashed backwards with his knife.

Unsurprisingly, he missed his target. The young man in white did not anticipate that Han Fei would be so determined to hurt him even if it meant being badly wounded by him.

Han Fei watched the narrow sword brushing past his chest without even breaking his skin. He sneered coldly. "Wussy, have you never fought anyone before? You think being fast is something? I'll cut you into two parts if you dare to show up in front of me again."

The young man's face slightly changed, as if he had been provoked by Han Fei. He turned into a flashing character again and attacked in a similar way to Xia Xiaochan's Thousand Strike Technique.

For a moment, Han Fei really thought that many people were attacking him simultaneously from all directions so fast that he couldn't defend himself at all. "Humph!"

"Huala!"

He swept the Blood Drinking Knife, and all the shadows nearby backed off. A sword blinked dozens of times, and Han Fei finally saw that his attack was blocked.

By the time the young man in white showed up again, Han Fei looked at him with a fake smile. "Does speed mean anything? You are so weak that you can't even resist one attack from me in a head-on clash. Tsk, tsk... Yet you think you can rob me of my Demon Spiritual Fruit? Is there something wrong with your head?"

The young man in white blushed in embarrassment under Han Fei's mockery and completely lost his cool.

He simply asked, "Who are you?"

"Is it your business? You aren't qualified to ask me questions until you can beat me."

After that, Han Fei simply ignored him and swam away in a random direction. He decided to find Xia Xiaochan, Tang Ge, and the others first.

It was needless to say that Tang Ge must be waiting for him somewhere on this level.

However, after he swam for a moment, the young man in white appeared again. At this moment, he seemed to have recovered from his sense of frustration.

Han Fei tilted his head and looked at him. "What do you want? Another fight?"

The young man said, "I've thought it through. I'm not weak. Just now, you attacked with your knife once, but I blocked it by using my sword seventeen times. It's not because my defense was weak. I'm pretty sure that I used the power at least at the level of a peak-level Dangling Fishers every time.

However, it took me seventeen times to block your one time, which means that you're much stronger than you look. Therefore, a man like you can't be anyone ordinary."

Han Fei tilted his head. "That's all you have figured out after such a long time of analysis?"

The young man in white continued, "Although I don't know whether the Hexagon Starfish is your spiritual beast or your contractual spiritual beast, I'm pretty sure that you are definitely as good as any ultimate Heavenly Talent in the seven major sects of your age. I think that we can make friends with each other since we are of similar ages."

"Hah!"

Lost for words, Han Fei glanced at him and said, "Sorry, I'm not interested. I'm going to hit you if you keep following me!" After a brief silence, the young man in white said, "You can't hit me. Nobody in the seven major sects or the eminent families can keep up with my speed."

"Huh?"

Han Fei's eyes slightly constricted. This man was really confident, if not arrogant! However, he had to admit that the man was really fast. But should the man really be so arrogant?

The young man in white said, "I am Ye Baiyu. What's your name?"

Han Fei came to a stop. "You're Ye Baiyu?" Ye Baiyu was briefly stunned. "You know me? Then how come I don't know you?"

On his way, Han Fei had heard Ye Baiyu, Chen Aochen, and other names too many times from Cao Qiu. He had always thought that the people that Cao Qiu couldn't stop talking about must be very strong

Actually, Ye Baiyu was indeed very strong. It was even safe to say that nobody at his level could beat him when he was at his highest speed.

For people like Yang Deyu, they could easily crush Ye Baiyu if Ye Baiyu was frozen. However, once Ye Baiyu started moving, it was absolutely impossible for those people to touch him.

The only difference between Han Fei and Yang Deyu was that Han Fei was much sturdier than him. Ye Baiyu could defeat Yang Deyu but could never defeat Han Fei, because Han Fei wasn't scared of Ye Baiyu's sword at all.

However, if Ye Baiyu was using a Divine Weapon... Han Fei felt rather insecure at the thought of that. No, what if this man does have a Divine Weapon?

He didn't believe that the big families from the Thousand Star City wouldn't have Divine Weapons at all. If Ye Baiyu was holding one of the Divine Weapons, he could probably kill Han Fei in less than a minute.

Seeing that Han Fei was frowning, Ye Baiyu asked, "What's on your mind?"

Han Fei asked, "How fast can you be?"

There was pride on Ye Baiyu's face when he talked about his speed. "I can't tell for sure. If your current speed is one, mine is probably ten, and it can go up to twenty if I were to unleash my extreme abilities."

Han Fei: "..."

Han Fei was instantly dumbfounded. He wasn't slow at all at this moment! He was at about half of his highest speed. Did it mean that Ye Baiyu was ten times faster than himself? His speed could be four times as fast if he fully carried out the Shadow Swimming Art. If he attached Little Gold to himself, the number could go up to six or seven.

Han Fei's eyes cramped. If he was in his best state, after he activated the Majestic Mystic Spell, his speed might be able to surpass ten... While the Majestic Mystic Spell could increase his damage by almost five times, Han Fei wasn't sure how much it could improve his speed. Could it make him faster than Ye Baiyu?

Han Fei suddenly asked, "What would you think if I had your speed?"

"That'd be impossible!"

Chapter 468 Farewell (2 in 1)

Ye Baiyu replied resolutely and bluntly, "I am one of a kind. I have a growing Spiritual Heritage that's focused on speed, and my naturally-endowed spiritual beast... You wouldn't know it even if I told you. In general, it's very fast."

Han Fei grinned. "What if I were as fast as you?"

Ye Baiyu considered it carefully and said, "With your sturdiness and my speed, and considering the intensity of the attack you launched just now, you will be among the top ten experts in the entire Thousand Star City."

"Only the top ten?"

Ye Baiyu trembled and nearly fell off. He said, almost lost for words, "Only the top ten? Do you have any idea how terrifying the top ten experts of the Thousand Star City are? You would be invincible until the day you die!"

Han Fei was intrigued. It did sound rather impressive!

Before he met Ye Baiyu, Han Fei had never thought that he was slow, but at this moment, he had a new understanding.

Earlier, he didn't have enough spiritual energy, and he never had the chance to practice the best speed-type battle techniques.

But things were different now! Now that he had spiritual energy that he probably couldn't use up anytime soon, how could he be the champion of the level-three fishery without making the best use of it? But Han Fei suddenly changed the topic, "You may be fast, but so what? Strength is all that matters. However fast you are, can you escape at ease after you kill anyone on a dragon boat? You can't. But you can do that if you are extremely strong."

"That's pure nonsense."

Ye Baiyu sneered. "The dragon boats are supervised by peak-level Hanging Fishers. Even if you are the strongest peak-level Dangling Fisher who's unbelievably strong, you might find it impossible to get away from experts on that level, but I can! The peak-level Hanging Fishers can't leave the dragon boats, and it's impossible for them to catch me with their fishing techniques... Wait, you're eliciting information from me."

Han Fei grinned wide and said, "Tsk, tsk. I just realized that you are a good fella."

Ye Baiyu thought of something. "Are you planning to kill anyone on the dragon boats? Hehe... You can't do it. You're too slow." Han Fei shrugged. "Did I mention that I would kill anyone on the dragon boats?"

Ye Baiyu stared at Han Fei, as if he were trying to see the secrets in his heart. "Who are you exactly?"

Han Fei's lips suddenly curled. "Me? I am Fan Datong, one of the awe-inspiring Black and White Ghosts in the level-three fishery."

"You are a food bucket?"

Han Fei's face changed. "YOU are a food bucket."

I am

Wandering casually to Han Fei's side, Ye Baiyu opened his hands and asked, "Who gave you your name? Your awesome appearance is completely ruined by your name. Also, why is your name not on the wanted list of the dragon boats?"

Han Fei rolled his eyes. "When was the last time you checked the wanted list?"

Ye Baiyu replied, "About two months ago." "Tsk! Two months is enough time for the wanted list to be completely renewed."

Ye Baiyu nodded. "It does make sense. Huh..." Suddenly, Ye Baiyu's face changed. ""Someone's here."

Ye Baiyu swooshed and disappeared from Han Fei. In the blink of an eye, he was already a thousand meters away. Han Fei was truly impressed by his speed.

However, even though Ye Baiyu was fast, his perception range was not as wide as Han Fei's, and Han Fei had already sensed that Tang Ge was coming.

Hiu...

Ye Baiyu returned as fast as he went away. He said to Han Fei in excitement, "It's going to be bad for you. A strong enemy is coming. If you give me the Demon Spiritual Fruit, I may consider taking you away. How does that sound?"

Han Fei grinned. "If you give me your Sea Swallowing Seashell, I may consider making friends with you."

Ye Baiyu was lost for words. "Courtesy is what matters in friendship. It's outrageous of you to ask for my Sea Swallowing Seashell."

"And it isn't outrageous of you to ask for my Demon Spiritual Fruit?"

Naturally, Han Fei would not give away the Demon Spiritual Fruit easily. He felt that it was quite unusual that he had summoned a plant. If Ye Baiyu weren't here, he would've studied it right here and now.

As they talked, Tang Ge had already entered their sight.

Not just that, Han Fei also sensed Cao Qiu, Wang Zitian, and Mu Ling ten kilometers away.

Tang Ge looked at Ye Baiyu instead of Han Fei first. Frowning, he pointed his spear at Ye Baiyu and said, "Get lost!"

"...Tang Ge, I've never done you wrong. Besides, you can't hit me even if you wanted to. Don't be so cocky."

Han Fei grinned. "But we can work together to hit you!"

Ye Baiyu was stunned. He suddenly asked, "Do you know each other? So you're from the Thousand Star City after all? But why have I never met you before?"

Han Fei said, "It's because you're too fast to make any friends."

Ye Baiyu: "..."

Ye Baiyu smiled and said, "You can't catch me or hit me. So, why don't I exchange Soul Crystals for your Demon Spiritual Fruit?"

Tang Ge frowned. "The Demon Spiritual Fruit?"

Han Fei asked telepathically, Do you know of it?

Tang Ge replied, Yes. It's a spiritual fruit that can build up one's soul. It's extremely rare. Countless people make offerings in the Steps into the Sea every day, but few of them ever get one.

Han Fei looked at Ye Baiyu. "What's the exchange rate exactly?"

Ye Baiyu said, "I'll give you ten Soul Crystals for your Demon Spiritual Fruit."

Han Fei's eyes slightly trembled. This pretty boy has ten Soul Crystals?

Han Fei grinned and said, "Ten Soul Crystals? I can get that by robbing two random guys of their Sea Swallowing Seashells! Why would I give away the Demon Spiritual Fruit for that?"

Ye Baiyu furrowed his brow. "Ten is not a small number. The productivity of the Soul Crystals is no higher than that of the Demon Spiritual Fruit. I'm generous enough to give you ten."

Han Fei spat a bubble at Ye Baiyu and said, "No... If you want to trade for it, you'll have to give one hundred Soul Crystals."

"Pu..."

Ye Baiyu was so infuriated that he actually laughed. "You're truly greedy! You can't get a hundred Soul Crystals unless you rob everybody in the Steps into the Sea! If I had so many Soul Crystals, would I even need to trade with you for the Demon Spiritual Fruit?" Han Fei shrugged. "Then let's forget it."

For a moment, they were caught in an impasse. Ye Baiyu stared at Han Fei and Tang Ge for a while and eventually decided to leave. But then, he sensed that more people were coming.

“Cao Qiu? Mu Ling? Wang Erjian?”

The moment he saw Ye Baiyu, Cao Qiu cried out, “Fan Datong, kill him! Kill him now! He has lots of treasures!”

Ye Baiyu looked at Han Fei. “You all know each other? Am I the only one who doesn’t know you? Why?”

Han Fei grinned and said, “Because... Look at your back.”

As he talked, Han Fei suddenly moved. The whetting stone in his hand was enlarged by dozens of meters, and the Blood Drinking Knife was unleashed.

On Tang Ge’s side, he raised his spear, jumped, and slashed it down. All the seawater within a hundred meters was surging. Wang Erjian’s two swords floated and dispersed into overwhelming shadows, blocking one direction.

With unusual walls, Mu Ling soon created confinement arrays, killing arrays, wall arrays and shield arrays...

As for Cao Qiu, a Blazing Fish appeared before him, and the most brilliant flash glowed in the water. For a moment, nobody could keep their eyes open, and they could only detect the surroundings with their other senses. Then, after a flash, the area within a hundred meters was covered by an illusion.

Ye Baiyu was completely dumbfounded. Who have I possibly pissed off? Why are so many people attacking me all of a sudden?

Although all his four directions were blocked, Ye Baiyu deserved to be the fastest man on his level. He moved as quickly as a lightning bolt in the seawater, and none of the attacks really hurt him.

What made Ye Baiyu even more speechless was the fact that all the water within his sight was turning into swords. He could only sense the overwhelming sword Qi and see swords in all directions.

“I’ll blink!”

BAM!

In the next second, Ye Baiyu crashed into a purple barrier.

Ye Baiyu asked, “When did you set up the Six Gate Array?”

Han Fei grinned. “When you found that you couldn’t escape in any direction, and when you noticed that the swords were coming... Look, like I already told you before, being fast is a good thing, but you’re too weak! You can’t do anything if you’re only fast!”

Actually, Han Fei was having cold sweats, because Ye Baiyu was too fast! If he hadn’t used the Infinity Water at the very beginning, if he hadn’t informed his gang with his extraordinary perception range, if Cao Qiu hadn’t blinded him, and if his partners here weren’t all the best of their professions, it would have been impossible for him to imprison Ye Baiyu...

The Spirit Forbidden Net fell, and Ye Baiyu was about to be caught. Han Fei was already going to laugh out loud, when he saw a white mark appear inside the Six Gate Array, and nothing could be seen except a white fish skin inside the Six Gate Array.

Dumbfounded, Han Fei asked in shock, "He escaped?" The Hexagon Starfish was stunned too. "That can't be right! I didn't sense anything unusual with the array!"

Cao Qiu exclaimed, "Damn it! It's the Star Teleportation Technique of the Ye family! I didn't know that he already picked it up!"

Mu Ling said, "He's a genius."

Tang Ge was silent. He simply gazed at the white fish skin, as if he was thinking if he was really as strong as he thought himself to be.

Han Fei cried, "My Soul Crystals are gone!"

Everyone: "..."

Suddenly, a voice came from far away. "Fan Datong, I'll remember you. Like I said, I'm unparalleled in this world in terms of speed. Let's meet again after I get an offensive technique to kill you."

Ye Baiyu was gone, leaving Han Fei and the others staring at each other...

Seeing that everybody was deep in thought, Han Fei couldn't help but ask, "What exactly is the Star Teleportation Technique?"

Cao Qiu slightly shook his head. "I'm not sure, but every major family in the Thousand Star City has their legacies. Most of those legacies are the weird techniques that can almost be called taboo. They are gradually accumulated over time by the ancestors of those families."

Han Fei suddenly asked, "Is that what Sun Mu's Immortals Slaying Formation is?"

Cao Qiu nodded. "Yes, that formation technique is just like the Star Teleportation Technique. However, it's extremely difficult to practice those battle techniques. More often than not, people give up after a long time of trying to grasp them."

Wang Zitian said casually, "You think the Immortals Slaying Formation you saw was good enough? In fact, Sun Mu might have not fully grasped it yet."

Han Fei's eyes cramped. "What about the Star Teleportation Technique? He escaped when it was impossible for him to flee even with a Flash Stone?"

Cao Qiu said, "I'm not sure. How can I know the technique so clearly? I've not practiced it at all."

Mu Ling smiled and said, "The Flash Stone is only the most basic way of escaping. In fact, there are quite a few arrays that can block Flash Stones. But of course, it's still most cost-effective to use Flash Stones in the level-three fishery. You can hardly be blocked unless you're in special cases."

Tang Ge had been silent the whole time. He spoke to Han Fei alone telepathically, "I don't think anybody is on this floor. Don't hang around with Cao Qiu anymore. He's up to no good. He only cooperates with you because he can blame everything he does on you later..."

Han Fei replied, I know. I was going to dump him anyway.

On the other hand, Han Fei looked at Cao Qiu and the others. "Have you seen Xie Xiaochan?"

Cao Qiu said, "No. Right, where is she now?"

Han Fei said to Tang Ge telepathically, You go away with Mu Ling first. I'll catch up with you later.

Tang Ge simply said to Mu Ling, "Let's go first."

Mu Ling looked at Han Fei and slightly nodded. Then the two of them left quickly.

After they disappeared from his sight, Cao Qiu finally remarked in surprise, "Huh! I don't know when it started, but I have this feeling that Tang Ge has become our ally..."

Han Fei said, "That's because we respect and appreciate each other."

Wang Zitian frowned. "He does not seem hostile to you, which doesn't match his personality."

Han Fei said with a smile, "What's his personality?" Wang Zitian remarked, "He is decent and can't stand any injustice. At the very least, he generally won't hang around with people like you."

Han Fei became gloomy. "Make yourself clear. What kind of person am I?"

Wang Zitian chuckled and said, "You rob everybody you can rob and achieve your purpose through whatever means possible. You and Cao Qiu are the same."

Han Fei snorted. "So what? We folk from the countryside are different from city residents."

He said lazily, "Forget it, forget it. It's time that we split apart. Cao Qiu, you don't really want to kill them, do you? Actually, you only want to annoy them, trick them, and shake their confidence... Hey, I can take that blame for you. However, this 201st level seems to have been cleared by someone. So, this is where our trip together ends. You can decide to stay or leave on your own..."

Cao Qiu said quickly, "Don't! We've been together for so many floors. We're friends."

Han Fei scoffed. "Friends? Fine. Let's talk about our friendship when I become the master of the Thousand Star City."

Chasing after Han Fei, Cao Qiu asked, "That will be a long time that I'll have to wait. We're already great friends right now! I think that if we stick together, we may surpass the 250th floor and break my elder brother's record."

Han Fei stared at Cao Qiu with a faint smile for such a long time that the little fatty felt uncomfortable.

Cao Qiu stepped back and said embarrassedly, "What's wrong?"

Han Fei said with a smile, "You only want us to fight for you for free, right? Surpass the 250th floor? You want me to take you there, or you want Wang Erjian to take you? Enough. You can go to whichever floor you want on your own, but I won't help you. Two hundred floors are already good enough for you. Don't forget that you only made it to the 148th level last time."

Han Fei walked away without looking back, leaving Cao Qiu where he was.

Wang Zitian came close and said, "Let's go and find a place to make offerings."

Cao Qiu snorted. "I thought we were already good friends!"

Wang Zitian slightly shook his head. "You only hung around with us because of your own interests. Do you really think we're friends? You needed him to help you deal with Sun Mu and his partners. We know that he can't kill Sun Mu, but we've basically achieved our purpose. I estimate that Sun Mu and his subordinates must be vomiting and having diarrhea outside. Han Fei seems to hold a grudge against Sun Mu for reasons I don't know, or else there would be no reason for him to accompany you. Or maybe, there's another possibility. He was merely trying to get more Sea Swallowing Seashells..." Cao Qiu secretly glanced at Wang Zitian and thought to himself, if I tell you that Fan Datong is actually Han Fei... But wait, Wang Zitian doesn't know who Han Fei is yet!

Thinking about that, Cao Qiu suddenly said, "Forget it. I don't want to fight anymore. I want to go out."

Wang Zitian's eyes looked straight at him. "We're already on the 200th floor, but you're quitting?" Cao Qiu wiggled and said, "Why should we keep fighting? We can't break my older brother's record anyway even if we are to keep fighting. So why bother? We might as well go out and mock those people... Right, I'm going back to the Thousand Star City and telling everybody how they were humiliated."

Wang Zitian: "..."

Han Fei actually quite liked the little fatty from the Cao family. However, he had noticed since a long time ago that, even though Cao Qiu was self-willed, the seven major sects and the descendants of the big families all went easy on him.

It certainly suggested that the Cao family was quite renowned in the Thousand Star City

Besides, those people kept a respectful attitude when they knew that Cao Qiu was going to attack them, which suggested something even more. Although they robbed and beat Cao Qiu after they saw him, they didn't really hurt him. That was definitely a concession.

If Han Fei made friends with such an influential man as Cao Qiu, he might accidentally get himself killed someday. It was a stupid thing to try to join a circle that one didn't belong to. A moment later, Han Fei already found Tang Ge, who didn't go far away and stayed in Han Fei's range of perception. Seeing Han Fei, Tang Ge grinned and gave Han Fei a bear hug. "How is it going? How do you feel after the 200th floor?"

Han Fei glimpsed aside, and Mu Ling said, "You brothers keep chatting. I'll take a walk."

Watching Mu Ling leave, Han Fei couldn't help but compliment him. "Nice! You've got a considerate girlfriend."

"W-What are you talking about? She's not my..."

Han Fei patted Tang Ge's shoulder. "Okay, stop lying. You obviously like her. If you're bold enough to scold those descendants of the big families, why should you be afraid of having a girlfriend?"

As he spoke, Han Fei waved his hand, and a Sea Swallowing Seashell fell before Tang Ge. "Take this. We're brothers. You used to take good care of me. I certainly can't let you walk away empty-handed now that I've found something."

Tang Ge frowned. "Are you talking about materials with me? How can I take anything from you? I've got lots of spoils myself. I robbed many people on the upper levels."

Han Fei smiled. "Just keep it. I have a tremendous number of Sea Swallowing Seashells in my storage. You can keep the dozens of Sea Swallowing Seashells you have to yourself. Also, what do you mean by 'take anything from me'? Everything I have is shared between us. Inside this Sea Swallowing Seashell are some Soul Crystals. My perception range has already hit its limit, so they're useless to me now. They're all for you."

"Soul Crystals?"

Stunned, Tang Ge accepted the Sea Swallowing Seashell and examined it, only to see a hundred Soul Crystals inside with millions of mid-quality pearls. His eyes cramped as he asked, "Where did you get so many of them?"

Han Fei replied with a smile, "I got them through robbery! The Thousand Star City is not the same as the Blue Sea Town. You think I don't know that? For example, none of the guys on the 200th floor are simple. We don't have rich families to support us like them, so we must make a fortune on our way. In any case, we can't be bested by them."

Tang Ge hesitated. "But..."

"No buts. We've been brothers for life. After the trip to the Steps into the Sea, we'll be separated again and won't meet until I come to the Thousand Star City. I don't want to hear stories of the fall of the unparalleled genius Tang Ge after I reach the Thousand Star City someday..."

Tang Ge laughed. "That's impossible."

Han Fei grinned. "Then keep it. Also, don't go after Sun Mu and his people again. Look, I dared to beat him up, but I don't really have the courage to kill him. However, just because I dare not kill him right now doesn't mean that I dare not do that in the future. One day, I'm going to settle the score with him."

While he was talking, Han Fei noticed that Tang Ge was gazing at him. He couldn't help but ask, "What's wrong?"

Tang Ge said in comfort, "Han Fei, you're different now. You're more confident, optimistic, and powerful. More importantly, you're very smart."

"Pa!"

Han Fei rolled his eyes and said, "Stop bulls*ting me. Okay, I won't be with you for the rest of the journey. I need to find Xia Xiaochan and continue exploring the Steps into the Sea. Our path has only just begun." Holding the Sea Swallowing Seashell, Tang Ge nodded heavily. "Okay! When you come to the Thousand Star City in the future, I want to see her in her real appearance. What kind of girl can possibly make you so enamored?"

"Haha! She's extraordinarily beautiful... But I wouldn't say that I'm enamored. That girl has always been a great troublemaker..."

A moment later...

Seeing that Han Fei and Tang Ge walk to her with a smile, Mu Ling knew that they had finished talking. After he came close, Han Fei said, "Sister-in-law, I'm going. You must invite me to your wedding. Bye..."

Both Mu Ling and Tang Ge blushed. But Han Fei had left without looking back. He waved at them behind his back,

Watching Han Fei leave, Tang Ge clenched his fists and mumbled, "Rest assured. By the time you come to the Thousand Star City, I'll definitely be the best of the city."

Mu Ling softly grabbed Tang Ge's arm. "This brother of yours is truly bighearted."

"Hehehe..."

Chapter 469 Xia Xiaochan and Mo Feiyan

At this moment, Mo Feiyan did not know yet that she had survived a disaster thanks to her wariness.

As far as she knew, it was highly unusual that Cao Qiu and the others would all run away at a crucial moment.

She knew that Cao Qiu was quite nice to his friends even though he could be naughty and mischievous. Many people might want to cut him to pieces when they first meet him, but they will protect him in real emergencies. Therefore, she realized that Cao Qiu definitely had good reasons to escape. Going down to the 201st floor, Mo Feiyan didn't make any offerings. She wasn't here to fight, but to seek answers to her questions. She felt rather weird when she found nobody on the 201st floor. By logic, those who made it to the 201st floor should be stronger than those on the 200st floor. So, who cleared them up?

While she was looking for other people, the seawater began to tremble violently, indicating that an intense battle was happening somewhere.

Mo Feiyan, as another Heavenly Talent, would never miss drama. She immediately swam to the battlefield.

On her way, she found that a slim man was swimming in the same direction.

"Huh? Isn't he the man who was with Cao Qiu earlier?"

"Shua..."

Her soft sword was unsheathed, and it flashed in the water.

Mo Feiyan stopped before the man and giggled. "Hello, handsome. Where are you going?"

Xia Xiaochan was stunned at first after she saw Mo Feiyan. Then she was disgusted by Mo Feiyan's sexy and charming posture. "Ew... Disgusting."

Mo Feiyan immediately had a long face. As a man, shouldn't you compliment a woman as beautiful as me? Why are you disgusted?

Mo Feiyan's face was cold. "Say that again, I dare you."

"Disgusting! Disgusting! Disgusting! Stop twisting your body while you're talking! No guys like that!"

Mo Feiyan: “???”

Mo Feiyan was so amused that she asked back, “What kind of woman do you think men like?”

Xia Xiaochan said straightforwardly, “Women who are good fighters!”

Mo Feiyan: “???”

Mo Feiyan almost laughed out aloud. What kind of man was this? It was truly hilarious! She had never heard a man claiming that he liked a girl who was good at fighting! She wondered whether this man was a masochist, or if there was something wrong with his head.

Xia Xiaochan thought for a moment and realized that Han Fei was exactly like that, so she nodded affirmatively. “That’s right. Women like you are too disgusting.” “Shut up.” “Shua...”

Mo Feiyan launched a sword flash without any hesitation. However, Xia Xiaochan was too strong to be cut by her. She blew up the sword flash with her sword easily.

Xia Xiaochan said coldly, “I knew that you were an evil woman. Now that we’ve met, you have to submit your Sea Swallowing Seashell.”

Mo Feiyan was briefly stunned. Is this man so stupid? Is he really more interested in my Sea Swallowing Seashell than myself?

However, Mo Feiyan’s heart was tightened in the next moment as the man was extraordinarily fast.

Having covered herself in a male appearance with the Metamorphosis Water, Xia Xiaochan resumed her identity as a hunter. She entered her stealth state the moment the battle began.

Almost in the blink of an eye, Xia Xiaochan had stabbed two daggers at Mo Feiyan.

Mo Feiyan didn’t know that Xia Xiaochan had directly teleported herself over. If she had known that, there was no telling how she would react.

Cling... Cling...

Xia Xiaochan’s dagger brushed past Mo Feiyan’s waist and left a huge cut in her clothes. But underneath her clothes was a layer of fish-scale armor.

“Seven Tails!”

Something moved under Mo Feiyan’s feet, and seven chains that looked like centipedes emerged amidst the sword Qi. The two sides of the chains were both sharp edges.

The Seven Tails looked a bit like Han Fei’s Nine-Star Chain, which Xia Xiaochan was so familiar with that she could predict what Mo Feiyan would do next with her eyes closed.

Therefore, while the Seven Tails were sweeping the air, Mo Feiyan discovered, to her surprise, that a wound was left on her body after almost each second. Her spiritual energy protective cover had been shattered, but her Seven Tails hadn’t even touched Xia Xiaochan yet.

“Humph! I’m going to pierce through your iron shell.”

For a moment, the seawater was full of swooshing shadows.

Without any hesitation, Mo Feiyan held her Amulets in her hands, only to watch the Amulets being slashed dozens of times in the blink of an eye.

When two ferocious daggers were stabbed at her, one of Mo Feiyan's Amulets was cut to pieces.

Mo Feiyan couldn't be more shocked, wondering which Heavenly Talent she had run into again, and why she did not recognize this man who must be an extraordinary disciple in the seven major sects with his strength, his battle tricks, and his speed.

Yes, he was just like that Fan Datong, who was strong enough to confront the Immortal Slaying Formation by himself even though nobody recognized him.

"Poison Explosion!" As the black mist spread out, Mo Feiyan narrowed her eyes and observed again, only to see that the man was holding a spiritual fruit and chewing a spiritual fruit a hundred meters away while looking back at her.

Xia Xiaochan asked, "Are you not using your full strength? Why are you so weak?" Mo Feiyan's head almost exploded. I'm weak?

She said coldly, "You obnoxious man, you've infuriated me! You like girls who are good fighters, don't you? Then let me show you what a good fighter should be like..."

After she finished, an enormous eel thirty meters long appeared. However, this eel was a bizarre shape and had seven tails.

"Ew. They're not centipedes, are they?"

Xia Xiaochan frowned in disgust. "Why is your spiritual beast so ugly?"

Mo Feiyan couldn't take it anymore. How many times had she been insulted since they met? The man's scornful eyes and his sounds of disgust were particularly agitating for her.

"Ugly? Ignorant man! Never say 'ugly' to a girl in your next life!"

Shua... Shua... Shua...

The enormous eel was instantly split apart into seven.

Triggered by Mo Feiyan's thought, the seven enormous eels turned into seven overwhelming streams that raised all the seawater within a hundred meters.

Chila!

Electricity suddenly burst out, and blue arcs were spreading out in the water.

Xia Xiaochan disappeared the moment the eel turned into water. She was so fast that she turned into a shadow that escaped Mo Feiyan's attention.

"Puchi..."

While Mo Feiyan was busy looking for her target, she felt that her waist was stabbed. She lowered her head, only to see a hand on her abdomen.

BAM!

Xia Xiaochan was flung away, and a weird and eerie power was taking shape beside Mo Feiyan.

Electric arcs were still flashing around Xia Xiaochan, and her face was slightly pale. "These electric arcs are not bad. They're much better than the electricity from the Piercing Electricity Jellyfish and the Dragon Eels."

Feeding a dosage of healing pills to herself, Mo Feiyan declared angrily, "Don't compare my Seven-Tailed Poisonous Eel to those garbage creatures, you filthy man!"

Xia Xiaochan snorted. "However, it's not exactly irresistibly powerful. What else have you got? I'm told that you're on par with Sun Mu and Yang Deyu, but so far, you look weaker than them."

"Don't say that I'm weak, or that I'm ugly... First Move of the Water Dragon Chant: Twin Dragons Playing Pearls!"

"Hum..."

Xia Xiaochan looked around and quickly entered her stealth state. The seawater on her sides surged, and two enormous water dragons were formed and lunged at her.

"Blink! Huh..."

Xia Xiaochan realized, to her surprise, that she had been restrained by the seawater.

Seeing that Xia Xiaochan was out of her stealth state, Mo Feiyan said coldly, "Sun Mu has the Immortals Slaying Formation, but I have the Water Dragon Chant. Do you really think I'm only pretty?"

The pressure around her grew larger and larger. Also, the two water dragons were too enormous for Xia Xiaochan to flash away.

At this moment, a shadow flashed out of the center of Xia Xiaochan's eyebrow. "Hooo00o!"

Xia Xiaochan opened her mouth and let out a real dragon roar that echoed in the water.

The two water dragons that were going to attack Xia Xiaochan were instantly blown up and annihilated by the dragon roar.

"Pu..."

Mo Feiyan wasn't far away from Xia Xiaochan. Under the unexpected roar, she felt that all her internal organs were trembling, and she vomited three mouthfuls of blood.

"Who are you exactly?"

Mo Feiyan was shocked. Who was this man that had broken the Water Dragon Chant with one attack? Where exactly did Cao Qiu find these two men?

Xia Xiaochan said coldly, "Do you have any more moves? If you don't, it's time for me to attack you!"

Chapter 470 Counting the Spoils

Maybe because the sound transmitted faster in water, but Han Fei had arrived before the battle between Xia Xiaochan and Mo Feiyan was over.

The moment she saw Han Fei, Mo Feiyan squeezed a Flash Stone and escaped without any hesitation.

Mo Feiyan felt that these two people were too uncanny. They were supposed to be geniuses with unusual talents, but they had never been known. She could barely deal with either of them, and now that Fan Datong, who single handedly confronted the Immortals Slaying Formation, was here, she could only run.

Mo Feiyan didn't think that her Water Dragon Chant was as powerful as the fully-deployed Immortals Slaying Formation, so she chose to leave.

After the Flash Stone was crushed, Mo Feiyan faded out and disappeared from the 201st floor.

She could continue going downwards, but she didn't see any point in it. Even Cao Tian couldn't make it beyond the 208th level. She didn't think that Cao Tian could ever reach the 250th.

But did the Steps into the Sea really have only 250 floors in total? Nobody knew because nobody had been beyond the 250th floor. Therefore, Mo Feiyan considered the 250th floor to be a destination for peak-level Dangling Fishers.

After Han Fei arrived, Xia Xiaochan rolled her eyes at him. "Why did you come so quickly? That Mo Feiyan was almost showing her full strength."

Han Fei was almost lost for words. "Where's the Giant Arowana? Did you release the Giant Arowana? I wouldn't have come as fast if I hadn't heard the dragon roar."

The center of Xia Xiaochan's eyebrow flashed, and her vibe immediately became much less daunting.

Xia Xiaochan grimaced at Han Fei. "Don't worry. She didn't see it. I fused with it directly."

Han Fei was relaxed after hearing that. He asked in confusion, "Why did that woman come down here?"

"I don't know, but she is really terrible. Let me tell you, her spiritual beast is an ugly giant eel that has seven tails." "Is that so?" "Yes."

Han Fei looked around. "Forget it. Let's leave her alone. This 201st floor has been cleared, and she's gone already. We can train just ourselves here for a while."

Xia Xiaochan's eyes glittered. "To make a breakthrough?"

Han Fei shook his head. "No, just check how many Soul Crystals you have first..." "Soul Crystals?"

It was not until this moment that Xia Xiaochan finally remembered that she could expand her perception range now.

A moment later...

Xia Xiaochan sat on the ground and paved the Soul Crystals before her. "I have 47 in total. What about you?"

Han Fei also sat on the ground. He casually waved his hand, and 86 Soul Crystals fell on the ground. They were all the Soul Crystals he had left after giving a hundred to Tang Ge.

“You have so many?”

Xia Xiaochan exclaimed and looked at Han Fei in shock.

Han Fei grinned and said, “I didn’t have a lot at first, but back on the 200th floor, they were all having diarrhea, and even the water turned yellow because of them. I coerced them into submitting their Sea Swallowing Seashells with the antidote and got a lot of Soul Crystals.”

“Ew...”

Xia Xiaochan imagined the scene and felt lucky that she wasn’t there back then, or she would’ve thrown up.

“Then let’s split them up.”

She secretly glanced at Han Fei and pulled some of the Soul Crystals from Han Fei’s pile, before she grinned at him.

Han Fei didn’t know what to say. “They’re all yours. I’ve already taken enough.”

Xia Xiaochan: “???”

“That’s exactly what I wanted to tell you. The intensity of the soul determines the amount of your spiritual power, and the amount of your spiritual power decides your perception range. ‘I’ve already hit my limit.’”

“The limit?”

Xia Xiaochan jumped to her feet and looked at Han Fei in disbelief. “What is the limit?”

Han Fei blinked her eyes. “Five thousand meters, for now.”

He didn’t intend to keep it a secret. He felt that the greatest advantage of the Soul Crystals was that they could improve one’s soul power and perception range. He could offer his experience to Xia Xiaochan so she would know what might happen.

Xia Xiaochan’s eyes were bulging out. “How can you be so fast? When did you absorb them? How could you absorb them so quickly?”

Han Fei thought for a moment and said, “That’s probably because of my talent. You absorb them now. Since the 200th floor has been cleared by us, nobody will be here anytime soon. Also, since we’ve been through a lot of battles, I think we can try to become advanced Dangling Fishers.”

Without further ado, Xia Xiaochan simply pulled all the Sea Swallowing Seashells to herself and then tossed out more than a thousand Sea Swallowing Seashells.

Han Fei: “???”

Han Fei felt that her blood was freezing when he saw the thousand Sea Swallowing Seashells. He was truly not as good as Xia Xiaochan in terms of robbing! How exactly did she loot so many? Xia Xiaochan

simply said, "There are too many items inside. Let's take out the good stuff and make offerings with the bad stuff. Those Sea Swallowing Seashells should be enough." Han Fei waved his hand and set up a pile of another five hundred Sea Swallowing Seashells. He couldn't help but rub his hands, as he truly liked opening them like presents.

Then, Han Fei and Xia Xiaochan began their respective work.

At this moment, the Hexagon Starfish ran down from Han Fei's shoulder. Its six big eyes were all glittering as it stared at the Sea Swallowing Seashells.

Han Fei scoffed. "Go away. None of them are for you. I need to calculate the value of these Sea Swallowing Seashells first." The Hexagon Starfish offered, "I gave you a lot of help. I cast the Six Gate Array more than once for you."

Han Fei's eyes glittered. "That's right. You played your part too. How about this. I'll toss the shiny stones to you when I see any, but you can't hide them in your treasury until I evaluate their value first."

The Hexagon Starfish rolled its six big eyes like spinning wheels and said quickly, "I won't. I won't." So, the delightful program of shell exploration began.

"This one contains three mid-quality spiritual weapons, six low-quality spiritual weapons, zero high-quality spiritual weapons, 110,000 mid-quality pearls, one battle suit, and three mediocre battle techniques..."

"This one is full of stones and wood. There is one high-quality spiritual weapon, 260,000 mid-quality pearls, and five battle techniques..."

"Eleven mid-quality spiritual weapons... This one is rich... Three high-quality spiritual weapons. Huh! Ultimate materials... 102 flash stones, and 1,020,000 mid-quality pearls... Sweet mother of god, this Sea Swallowing Seashell is full..."

In the first four hours, Han Fei had great fun rummaging through the shells, but he soon got bored and drowsy. All sorts of stones were heaped before the Hexagon Starfish like a hill.

So, the Hexagon Starfish secretly tossed some of them into its treasury. It thought that Han Fei didn't see it, but Han Fei was too lazy to stop it, because there were too many spoils for him to count!

Eventually, Han Fei simply set the mid-quality spiritual weapons as the boundary. All the treasures in the Sea Swallowing Seashells that were more valuable than spiritual weapons, as well as the special items such as Flash Stones, were kept to himself, and the rest were all sacrificed as offerings.

Two days later.

Han Fei listed the following items:

142 high-quality spiritual weapons, 68 high-quality battle suits.

1,308 mid-quality spiritual weapons, 201 mid-quality battle suits.

1,000 ultra-quality pearls, from an unknown rich guy's Sea Swallowing Seashell.

300,000 high-quality pearls.

800,000,000 mid-quality pearls in total. Han Fei didn't know how to spend the money at all. He thought that he should go to the Specter and buy all the spiritual fruits available.

12,008 flash stones in total. Han Fei didn't know what to do with those flash stones either. He felt that they were enough for the rest of his life.

Apart from these items, there were 51 treasure maps, 386 ultra-quality materials, 2,908 high-quality materials, and altogether 928 battle techniques, 901 of which had been determined to be garbage by Han Fei. Of the remaining 27 techniques, nine were demon-level high-quality techniques, and the rest were all ancillary techniques.

Han Fei also collected the spiritual fruits that could increase his health or mental power. Then, he still had numerous items that were less valuable than mid-quality spiritual weapons. It took him six hundred Sea Swallowing Seashells to pack them up.

That was not counting the items that the Hexagon Starfish stole, but Han Fei was too lazy to care about it. If it were before, he would've skinned the Hexagon Starfish for stealing so many treasures.

But at this moment, it was no biggie.

At first, Han Fei was of a mind to calculate how much worth of money he and Xia Xiaochan had looted exactly, but he felt that his arithmetic was failing him, so he decided to drop it. The items were too many for anyone to calculate!

In the end, Han Fei divided the items more valuable than mid-quality spiritual weapons into two piles, and each pile was packed in eighty Sea Swallowing Seashells. Among the eighty Sea Swallowing Seashells, at least sixty were full of money, and the other twenty contained weapons, materials, Flash Stones, etc.

The rest of the Sea Swallowing Seashells were filled with boats.

Han Fei thought that if he still had as many Sea Swallowing Seashells when he left the Steps into the Sea, he would consider the real Million Knife Art.

Five days after Han Fei organized the Sea Swallowing Seashells, Xia Xiaochan woke up.

She immediately looked at Han Fei. "Hey! How many Soul Crystals did you take exactly? Why has my perception range only been expanded to 1,900 meters after I absorbed more than a hundred of them? How did you make it to five thousand meters?"
