

GOF 641

Chapter 641: Conversation with the Half-Mermaid

They had been deploying arrays from late night to the next day.

Outside the killing array, the spirit gathering array was covered with the defense array that was also covered with a concealment array...

The four arrays overlapped each other, which was the largest array combination Han Fei could work out now. Without the help of the Hexagon Starfish, these arrays couldn't be fixed at all.

Seeing that he seemed to be unable to leave, the Hexagon Starfish suggested setting up another concealment array outside Han Fei's concealment array. In this way, no one would discover them.

But Han Fei didn't take his suggestion. He knew that the Hexagon Starfish didn't believe in the effect of his concealment array. But it didn't matter, although his concealment array didn't seem to be so perfect.

But what he wanted was exactly this imperfection. Otherwise, if he perfectly hid it, how could he get the fish to the bait?

After making sure the arrays could be activated at his command, he came out of the arrays.

As soon as Han Fei came out, he perceived that Cao Qiu was flying in the sky 2,000 meters away.

Han Fei jumped out of the water, saying to him via voice transmission, *Why are you still here?*

Cao Qiu looked at Han Fei strangely. *I thought maybe I could give you a hand if you were going to be killed by the Red Demon...*

Han Fei rolled his eyes. *Well you're just in time. Back off 5,000 meters more and don't let anyone get close to this area.*

Cao Qiu wondered, *Then what about you? Where are you going?*

Han Fei grinned. *I'm luring the enemy in deep. I have been here for so long, but I haven't been out to sea.*

In Cao Qiu's view, Han Fei was a lunatic. Didn't he know how dangerous the surrounding area of the Scattered Stars Island was? Didn't he see so many Hanging Fishers only dare to patrol on the coast? How dare he, a peak-level Dangling Fisher who had just gotten a four-star ranking, go deep into the ocean!

Han Fei suddenly figured it out last night.

First of all, he was sure that yesterday's attack was only a test.

He hadn't been out to sea very much recently. The most recent time was when he went to the Path of Giants during the tide of Red Ghosts. Besides that, he made the breakthrough in the sea.

He must have been spotted by those Inferior Man-Fish who escaped. That was why the Red Demon came to investigate him.

But what could the Inferior Man-Fish see from him? Why did the Red Demon bother to drive a group of Inferior Man-Fish and Blue-Patterned Armored Shrimp here to see him?

Han Fei wasn't sure. He guessed that something in him must have caught the Inferior Man-Fish's attention during the breakthrough. This meant that there was something in him that attracted the Red Demon.

In this case, the appearance of the mermaid wasn't accidental but was planned. This showed that the other party might really want to talk to him about something.

Han Fei thought this matter was weird, but couldn't help being curious, so he took the Hexagon Starfish here to set up this killing array.

At this moment, Han Fei went 500 kilometers into the sea, during which an exotic Meteorite Conch jumped away from him.

Han Fei certainly wouldn't let it go! He went deep into the sea to use himself as bait. So, at the very beginning, Little Gold had already attached to him.

So had Little Fatty. Although the Meteorite Conch's speed was not fast, Han Fei wanted to use it as the sealed spirit of his ultra-quality battle suit.

A fight broke out in the water.

Meteorite Conchs devoured meteorite iron and had very strong defense.

More importantly, it was good at escaping by casting off its shell. When it was in danger, it would abandon its shell and escape into the sand.

After fighting for more than ten minutes, Han Fei caught this exotic Meteorite Conch.

Then he threw it into the Demon Purification Pot, and it only took less than three minutes to seal it in his battle suit.

This was a happy surprise, although it was the first time Han Fei used an exotic creature as a weapon spirit. At this moment, his ultra-quality suit was shining with a dazzling gleam.

Huh? Why haven't the Inferior Man-Fish come over? Is it because the noise I made is not big enough?

Han Fei frowned slightly. This was beyond his expectation!

If he was targeted by the sea monster, there should be a lot of Inferior Man-Fish lurking near the Skeleton Shore at this moment.

Could it be that I've guessed wrong?

Han Fei wasn't quite sure and simply began to practice the 108 Desolate God Body under the water.

And he set up a spirit gathering array when he was practicing the 108 Desolate God Body.

Under the dual call of spiritual energy and energy, maybe the Inferior Man-Fish would be attracted over soon.

After about half an hour, the Inferior Man-Fish hadn't been attracted over yet but many other creatures nearby were. Han Fei even saw two exotic creatures among them.

A jellyfish with dazzling light.

A razor clam passed by.

However, neither of these stayed.

Han Fei was about to chase them, but the razor clam bounced away and disappeared.

The jellyfish was almost caught up by Han Fei, but just when Han Fei saw clearly that it was a lighthouse jellyfish, it suddenly burst into a dazzling glare and then disappeared after turning into a shadow.

“Heh! Pretty smart...”

Han Fei was preparing to continue practicing the 108 Desolate God Body when he perceived that a Half-Mermaid had appeared on a submarine reef about 5,000 meters away at some time.

Han Fei’s heart skipped a beat. *Here it is! I didn’t guess wrong. The sea monster is targeting me.*

Han Fei perceived around to see if there was a Red Demon around. However, this time he didn’t find any Red Demons.

In his perception, only this Half-Mermaid was looking in his direction.

I brought no one.

Han Fei’s eyelids twitched. This mermaid was still 5,000 meters away, but it was already able to transmit a message into his ears?

Such a long sound transmission distance was not uncommon, but such a large perception range was really uncommon.

Han Fei was confident, even peak-level Hanging Fishers’ range of perception wouldn’t be larger than his.

Han Fei responded, *Are you waiting for me?*

Yes!

The Half-Mermaid seemed unable to speak as fluently as humans. After all, their physiology was different from that of humans, so their voices seemed to come from the chest, echoing.

However, this Half-Mermaid spoke more fluently than those Han Fei had seen before.

Han Fei asked coldly, *Why me? What do you want?*

The Half-Mermaid replied, *You... Have... A demon weapon on you.*

Han Fei laughed. *Nonsense, I’m a pure-blooded human. How can I have a demon weapon?*

The Half-Mermaid said, *You do. You have the breath of a demon, as well as a precious demon weapon.*

A precious demon weapon?

Han Fei was stunned for a moment. *You mean the sea monster’s weapon?*

Han Fei suddenly thought of the book that he got from the Big Red Trunk.

At that time, Yang Ruoyun wanted to grab it, but he got the upper hand and won it.

But that thing was really weird. The book seemed to be able to hurt his brain. It could hurt him as long as it was open. So Han Fei didn't dare to try opening it again.

Although he didn't know how the mermaid discovered it, *Han Fei would not admit it. Where would I get a sea monster's weapon from? Are you mistaken?*

The mermaid had already swum towards Han Fei, and Han Fei immediately backed away. *Don't come over. Just stay there. I can hear you.*

The mermaid stopped and replied in the distance, *You have... Used it before, so there is... A residual breath of it on you.*

Han Fei's eyes narrowed. He only flipped through the book once and ended up being injured by it. Was it because of that? But why didn't he notice it at all?

Even Old Bai and the teachers didn't notice it. Otherwise, they would have told him already.

The Half-Mermaid said with a ferocious look, *Exchange.*

Exchange?

Han Fei was amused. *Do you mean you want to make a deal with me?*

Han Fei thought to himself, *This is funny! You're a sea monster, but you still want to trade with me, a human, for this thing. This book must be very precious!*

But Han Fei didn't show any signs on his face. He just said indifferently, *Even if I have the so-called sea monster's weapon, what would you give me in exchange for this?*

Spirit Awakening Fluid.

The mermaid bared his teeth and said in the sea, with his long hair dancing with the waves, which made Han Fei feel an illusion that he was communicating with a person.

Han Fei calmed down. *Spirit Awakening Fluid, how much have you got?*

It replied, *3,000 catties.*

Han Fei's body shook. He certainly knew what 3,000 catties of Spirit Awakening Fluid meant!

The price of a catty of Spirit Awakening Fluid had reached 5,000 high-quality pearls. Besides, the demand exceeded the supply.

As far as he knew, it was not easy to exchange high-quality pearls for Spirit Awakening Fluid. People usually gave out their credits in exchange for it.

5,000 credits for one catty. Now, he could only trade for more than 200 catties with all the credits he had got.

But the mermaid said 3,000 catties! He was damn rich!

Han Fei certainly didn't want to make the exchange. He hadn't taken out the book yet and the other party had already bid 3,000 catties for it. If he took it out, the mermaid might offer 10,000 catties.

However, this mermaid was so rich. How could he squeeze all the Spirit Awakening Fluid out of it?

Chapter 642: Each With His Own Axe to Grind

Han Fei's mind was racing. He was thinking about the possibility of trading.

He stretched out with his mind, *Not to mention whether or not I even have the demon weapon that you say, if I do, why do you think I will sell it to you?*

The Half-Mermaid replied, *You, can't use it...*

Han Fei sneered. *I can't use it, so I have to give it to you? If you use it to deal with humans, wouldn't I become a traitor to humans?*

The mermaid said, spitting and swallowing seawater, *5,000 catties.*

Han Fei was speechless. *Is this a problem of how many catties? This is a matter of principle!*

The Half-Mermaid thought for a moment. *From the remaining breath, only worth 5,000 catties.*

Han Fei frowned. He wouldn't have thought that the sea monster would f*cking trade with a human.

However, he was reluctant to give up 5,000 catties of Spirit Awakening Fluid! Even if he spent all his money, he wouldn't be able to buy so much. He was certainly tempted by the mermaid's offer.

Han Fei immediately said, *10,000 catties, if you can give me this much, I'll sell it to you.*

The Half-Mermaid retorted, *5,000 catties, it's only worth so much. You can choose not to sell it, but I'll take this place.*

Han Fei was speechless. *No bargain? And you even threatened by me? How dare you threaten me?*

Han Fei pondered for a moment. *Let me think about it for a day. If I agree to sell it to you, I'll be waiting for you at the bottom of the sea at this time tomorrow. But don't play any tricks. I won't come alone.*

The Half-Mermaid was silent for a moment. *More than 10 people, more than four stars, the transaction is canceled.*

With that, the mermaid turned around and disappeared into the vast sea.

Han Fei frowned. He certainly wouldn't trade with this mermaid. Otherwise, if it was found out, Han Fei might be killed on the spot.

But he did want 5,000 catties of Spirit Awakening Fluid.

Han Fei licked his lips and said to the Hexagon Starfish, "Master Hexagon, how do you think we can fix this mermaid?"

The Hexagon Starfish squirmed. "I didn't dare to probe its strength."

"It's okay. That Half-Mermaid is definitely not weak though. Let's kill it tomorrow night."

...

When Han Fei said 'kill', it meant poisoning it to death or killing it with those two ancient jade pieces Cao Qiu gave to him.

It was unrealistic to turn to others for help because he couldn't explain it. Why would a mermaid come here? Why did the mermaid come here with Spirit Awakening Fluid?

Besides, once the Spirit Awakening Fluid was exposed, it was uncertain how much he could get.

Han Fei wanted to turn to Wang Dashuai for help, but then he thought, wouldn't it arouse others' suspicion? After all, a six-star master would easily draw others' attention.

Only by killing the mermaid alone could it be possible for him to take all the Spirit Awakening Fluid.

Of course, the risk was huge, but the gains would also be huge. If Little Black upgraded to level-39 or 40, he would be a better help to him, which would be like giving wings to a tiger.

At this moment, the only thing Han Fei wasn't sure about was how far the mermaid's perception range was.

After pondering carefully, Han Fei still decided to do it. He was a crazy adventurer in nature. His reason simply couldn't rein his craziness underneath.

"That's it. Take Cao Qiu with me and give him a little bit of Spirit Awakening Fluid as a reward. Umm, 200 catties should be enough..."

...

That night, in the place of the arrays, 2,000 meters away, Cao Qiu was flying.

Cao Qiu shuddered. "Why did you only bring me here? If the sea monster army comes, I can't save you."

"It's okay. I have a way to escape. Besides, there won't be any sea monster army at all. We might face a sea monster of the Hidden Fisher level."

"Wow!"

Cao Qiu immediately took a breath. "Are you crazy? How dare you provoke a sea monster that strong!"

Han Fei said, "That's why I asked you to come with me! I'll count on you to save me."

Cao Qiu was speechless. "Me? No, I don't fight, I don't fight..."

Cao Qiu's head was shaking like a rattle, and he had already made up his mind no matter what Han Fei said, he wouldn't join the fight.

Han Fei patted him on the shoulder. "You don't have to fight. Just throw your trump cards out at that time! I promise I'll pay you back... By the way, stay away from the battlefield. The attack range of a Hidden Fisher is large. I can't guarantee that you won't be affected."

Swish!

Under Han Fei's astonished gaze, Cao Qiu had flown far away. Han Fei put a hand on his shoulder and pressed the Hexagon Starfish who was about to run. "What are you doing? Don't tell me you don't have confidence in the array you set up yourself."

The six big eyes of the Hexagon Starfish turned like a top. "Starfish has no confidence. Starfish hasn't set up a killing array before."

Han Fei sneered. "If you have no confidence, then let's die together in the coming fight!"

In the arrays, Han Fei opened the concealment array a little bit, revealing a trace of flaw, and he was practicing the 108 Desolate God Body in the center of the arrays.

Han Fei solidified these arrays as much as he could and today he specially added three high-quality spiritual stones to solidify them.

It would be a good thing if the Half-Mermaid couldn't find the flaws of the concealment array, which showed that its strength was much weaker than what he imagined.

An hour passed.

Two hours passed.

There was a breeze on the sea, and no fishing boats passed by. At this moment, almost all members of the Eighth Battalion were waiting for news on the Skeleton Shore.

Han Fei just sent eight squads to patrol the sea areas as usual. Otherwise, if the mermaid found out that no one was patrolling on the shore, it might alarm it.

When the three moons hung high and the moonlight shone brightly on the sea, Han Fei suddenly stopped practicing. He saw someone coming over as fast as lightning.

That figure was rushing at Han Fei's concealment array. Its goal was very clear. Han Fei couldn't help but wonder whether these arrays could block it.

Thousands of meters away from Han Fei, the Half-Mermaid's voice came. *Why... Is there an array?*

Han Fei stood in the array and smiled faintly. *Of course it's to prevent you from killing me. I set up a two-layer defense array and a spirit gathering array to support the former. Why, are you afraid of the arrays?*

Remove them!

Han Fei shook his head. *No chance! Since you have seen through the concealment array, you shouldn't be afraid. I thought, rather than bring people with me, it is better to set up some arrays. Otherwise, unless I brought a Hidden Fisher over, who can resist you? Only when I trade with you in the arrays can I feel safe.*

The Half-Mermaid just thought for a moment, and then entered the concealment array with a deadpan look.

As Han Fei said, unless there was a Hidden Fisher, no one would be able to resist it. Besides, it found no abnormalities around.

At this moment, a string of data appeared in Han Fei's eyes.

<Name> Half-Mermaid (Ordinary Sea Monster)

<Introduction> A sea monster with consciousness and sanity, an opposite race of mankind, good at mermaid combat skills. Because they take different cultivation methods from humans, their combat characteristics are different and unknown.

<Level> 52

<Spiritual Energy> 6842/6842

<Demonic Heritage> Level-Five, Mid-Quality

<Realm> Sea Monster

<Companion Spirit> Overlord Squid

<Unabsorbable>

...

After seeing this information, Han Fei was shocked. As he expected, this Half-Mermaid was a Hidden Fisher and was about to be a peak-level one.

Trading with such a creature was like asking a tiger for its skin.

Han Fei could be sure that this Half-Mermaid's combat power was much greater than the Red Demon of the same level.

Mo Qianshang he killed in the level-three fishery was also a Half-Mermaid.

It was fair to say that he could be number one among the younger generation in the 36 towns in terms of strength.

Concealment, concealment meant preventing others from discovering you.

When the Half-Mermaid entered the concealment array, Han Fei calmed down, purposely glanced at his shoulder, and then said to the mermaid, *Where is the Spirit Awakening Fluid?*

The Half-Mermaid stared at Han Fei. *The demon weapon...*

Han Fei said coldly, *Show me the Spirit Awakening Fluid first. I know you are very strong, but I also have some trump cards. Otherwise, how can I dare to trade with you?*

The mermaid was not good-looking. There was no flesh on its face, its cheekbones were prominent, and gills could be seen undulating on its neck. And they always bared their teeth, which made them look scary.

The Half-Mermaid's mouth opened, and a Sea Swallowing Seashell was spat out. It opened and there was a pool of blue liquid inside.

With just such a quick glance, Han Fei didn't see how much Spirit Awakening Fluid there was.

If Han Fei hadn't bought Spirit Awakening Fluid from Faceless before, he would have thought that the mermaid was cheating him. But just now, he did perceive it was Spirit Awakening Fluid and its quantity was quite large.

The Half-Mermaid said again, *The demon weapon*.

Han Fei perceived again. Although the other party would notice it, it didn't matter. Only when he was careful could the other party believe him.

When he confirmed that there were no other people within 5,000 meters, he issued an order in his heart and a strange red book suddenly appeared in front of him.

Hum!

The eyes of the mermaid suddenly widened as if it was looking at something incredible.

However, before it could see it clearly, Han Fei had put the book away. This book could injure his brain, so Han Fei was usually reluctant to touch it. Every time he entered Forge the Universe, he would just ignore this book.

However, seeing the mermaid's expression, Han Fei frowned. It seemed that this book was definitely worth more than 5,000 catties of Spirit Awakening Fluid!

However, he wasn't anxious because he didn't plan to give it to this mermaid in the first place. He suddenly glanced over his shoulder again.

Before the Hexagon Starfish did anything, the Half-Mermaid suddenly jumped up and clawed at the defense array with its five dark blue claws.

Han Fei immediately shouted, "Do it now!"

Chapter 643: A Narrow Escape!

At the moment Han Fei shouted, the array at Han Fei's feet was fading, and the real defense array and killing array were precisely at the feet of the mermaid.

Han Fei sneered. "It seems that you have no plans to trade with me either. We're even."

The defense array was dimmed, and after the Half-Mermaid's strike, it was almost dimmed by half.

After all, the Hexagon Starfish was only level-43. Although he was a mysterious creature, it was still quite difficult for him to trap a sea monster above level-50.

But Han Fei hadn't planned to trap it for long. At the moment the mermaid struck, dozens of catties of Poison God were wrapped in the Infinity Water which entangled the mermaid.

Hiss!

The mermaid couldn't roar, but could only make an unpleasant hiss.

Then the seabed was shaking. Han Fei could perceive that a large number of marine creatures were swarming over.

Han Fei's face changed slightly. Could the sea monster control ordinary marine creatures? He had thought that sea monsters would only manipulate certain marine creatures, such as Big Sword Water Fleas, Tide Calling Crabs, Blue-Patterned Armored Shrimp, and the like.

But at this moment, in Han Fei's perception, almost all the creatures nearby were swarming in.

"Killing array, activate!"

"Infinity Water, burst."

In the defense array, the mermaid still failed to break the defense array in the second blow. However, after this blow, the entire defense array was dim, and the attacked area was already cracked.

The Hexagon Starfish said in a panic, "I can't trap it any longer."

And it was only a minute since the mermaid began to attack the defense array.

At this moment, purple columns of light shot out from the underground. This was the killing array laid by the Hexagon Starfish. At this moment, almost all the spiritual energy gathered by Han Fei's Spirit Gathering Array was absorbed by the killing array.

At this time, the seabed was already rioting.

Han Fei perceived that Red Demons were drawing closer.

Han Fei immediately shouted to his waist tag, "Ask for the highest level of reinforcements!"

20 kilometers was short, very short.

Han Fei hurriedly held an ancient jade piece in his hand. *A blow from a peak-level Hidden Fisher will definitely be able to beat you, a level-52 mermaid!*

The ancient jade shattered, and a terrifying fist shadow formed on the seabed.

"Ahhhhh!"

The sea monster in the killing array was stunned and had no time to attack the killing array. A huge squid appeared.

Han Fei only had the time to take a quick glimpse of the squid. Was this the sea monster's companion spirit, Overlord Squid?

The seawater churned up and a fist mark shooting out of the ancient jade bombarded over with huge waves.

On the sea, with a swoosh, Cao Qiu flew into the high sky where Han Fei was, calling, "The highest alarm, Red Demons are invading, hurry up..."

In the distance, two Red Demons had already flown halfway through in only a minute.

Han Fei saw liquid spouting from the mermaid's mouth and knew that the Poison God had worked. At this time, holding the Blood-Drinking Knife, wearing an ultra-quality battle suit, and stepping on the Six

Spirit Armor, he had launched a spiritual energy protective cover and Majestic Mystic Spell and had Little Fatty and Little Gold attached to him.

With all his strength, he launched the Draw Technique and threw out a slash with the Invincible Knife Intent. No matter if it worked or not, he had only gotten one chance. Once the Red Demons arrived, he wouldn't have a chance any longer.

Hum...

Before the shadow of the fist arrived, the Half-Mermaid was already locked. The powerful spiritual energy even shattered the killing array.

Han Fei saw that the huge Overlord Squid was punched through by the fist. Han Fei's Blood-Drinking Knife followed closely, stabbing the mermaid's chest in the mud.

Thud!

The fist mark was so powerful that it blasted a big hole on the seabed. This mermaid was drenched in blood, dead.

Coupled with Han Fei's slash, although it was a Hidden Fisher, it was impossible for it to survive.

Just when Han Fei was about to collect the body triumphantly.

Suddenly, the mermaid who hadn't actually died thrust its fleshless fingers into Han Fei's chest as fast as a bolt of lightning.

"How can it be?"

Bang!

Six Spirit Armor, shattered.

Spiritual energy protective cover, shattered.

Its finger bones actually pierced through the ultra-quality battle suit that had just had a spirit sealed in.

Then, the finger bones went further and injected a powerful demonic breath into Han Fei's body, with the intention to destroy Han Fei's body.

But this Half-Mermaid didn't expect Han Fei's physique to be so strong. Although Han Fei's entire chest was already badly mutilated, its claws still couldn't tear his chest open!

The almost invincible Indestructible Body was so powerless in front of a Hidden Fisher. At this moment, Han Fei felt the breath of death.

The Half-Mermaid's dying blow was so sudden that Han Fei didn't even have time to use the Amulet.

Besides, being delayed by the Half-Mermaid, Han Fei had lost the opportunity to escape.

The two Red Demons were only 500 meters away. One of the Red Demons had already thrown out the harpoon in its hand.

In an instant, the Amulet given by Old Bai had been used by Han Fei. A milky white barrier shielded in front of Han Fei.

That harpoon appeared almost simultaneously with Han Fei's Amulet. The Amulet flickered and didn't shatter.

At this moment, Han Fei heard Cao Qiu's voice transmission, *Use the other jade!*

Han Fei smiled bitterly. *How the f*ck do I have the time to use it? Everything happened literally in a flash.*

In less than three minutes, a Hidden Fisher was killed.

However, shielded by the Amulet, Han Fei took the time to crush the second ancient jade, and at the same time, collected the corpse of the Half-Mermaid into Forge the Universe.

A fist mark shot out again and there were shadows of fists in the 100 meters surrounding him. The two Red Demons who were already locked had no chance to escape at all.

They seemed to know that they couldn't escape, and a dark red bone spear appeared in the hands of the two Red Demons almost simultaneously, which obviously wasn't the two Red Demon's own means.

These two bone spears were hurled straight at Han Fei.

Almost at the same time, the bone spears shot out, they hit the Amulet. Under the two blows comparable to a strike of a Hidden Fisher, the Amulet lasted for two minutes before it shattered and Han Fei was sent flying backward more than 800 meters.

Swish!

Six purple columns of light rose and the six-gate array opened, blocking the two spears.

Crack!

The six-door array shattered, and the spears pierced Han Fei's shoulders.

Puff...

Han Fei sprayed out a mouthful of blood.

The ultra-quality battle suit was punctured and deflated, and harsh rubbing sounds, like a death knell, rang in Han Fei's ears.

In the end, the two spears pierced Han Fei's shoulders.

Puff...

Han Fei vomited another mouthful of blood. The tips of the spears failed to penetrate Han Fei but stopped against Han Fei's gleaming, crystal-clear skeleton.

At this time, Han Fei had no idea whether the fist mark had killed the two Red Demons or not because above the sky, a fishing hook dropped, tied up Han Fei, and pulled him into the sky.

The one who saved him was certainly Cao Qiu who didn't dare to get too close.

When Han Fei was stabbed by the two spears, he quickly hooked Han Fei off the seabed. Otherwise, the rioting creatures on the seabed might tear Han Fei into pieces.

Puff!

In mid-air, when Han Fei was pulled onto the fishing boat, he vomited a mouthful of blood again.

Han Fei, drenched in blood, gritted his teeth and said in a trembling voice, "Damn it, it's too f*cking strong."

The Hexagon Starfish fell from Han Fei's shoulder and his six big eyes were already blurred. Just now, although Han Fei took most of the damage, he was also shocked by those forces. At this moment, he had collapsed on the fishing boat.

Cao Qiu panicked and was about to run when Han Fei said with difficulty, "The Red Demons."

Cao Qiu almost cried. "What time is this? And you're still thinking of the Red Demons?"

Han Fei's eyes widened. "They... They were killed... By me. They... Are all... My points."

After saying this, Han Fei fainted.

This time, it was a narrow escape indeed.

He had thought that he was already cautious enough. The defense arrays, the six-door array, the ultra-quality battle suit, the Indestructible Body, the Six Spirit Armor.. Little Fatty... As well as Forge the Universe, where he could hide.

However, he was still almost killed. Just now, he almost used the Immortal Seal.

If it weren't for the six-door array appearing in time, which blocked a lot of the power of the two spears, he would have used the Immortal Seal.

...

When Han Fei woke up, his whole body was in pain. Both shoulders, as if pressed against two boulders, couldn't move.

And in his chest, he could feel a force trying to shatter his internal organs. However, fortunately, the Indestructible Body was powerful enough to stop that force.

Swish!

He cast the Divine Healing Technique on himself, let out a long sigh, and then slowly opened his eyes.

However, as soon as he opened his eyes, he found that he was actually locked in a steel cage.

Han Fei: "???"

Han Fei looked around only to find there were cages attached to his cage on both sides, which also had cages attached.

"F*ck, where is this?"

“Hey!”

Suddenly, a sneer came from the side. “Hey, are you not dead yet? The demonic breath entered your body and two spears pierced your shoulders, but you’re still alive. You’re really lucky!”

Chapter 644: Slovenly Uncle

Han Fei turned his head and looked at the person who was speaking. The one jesting him was a shabby and unkempt middle-aged man with his hands full of dirt.

Han Fei felt this person seemed very happy but didn’t know what he was happy about.

Han Fei couldn’t help but ask, “Where is this?”

The man chuckled and said, “Where is this? This is a prison! The notorious Scattered Stars Prison! You don’t even know this? Oh, yes, you were in a coma when you were carried here.”

Han Fei frowned and wanted to sit up. Unfortunately, his injury hadn’t healed yet, and it seems that the person who treated him didn’t try his best.

Han Fei could only cast a Divine Healing Technique on himself.

“Why am I in jail? I killed two f*cking Red Demons, right? I should be rewarded!”

Lying on his back, Han Fei turned to ask the slovenly middle-aged man, “Who sent me in?”

“Who else? Except for the jailer, who can enter the Scattered Stars Prison? By the way, what did you commit?”

“I killed two Red Demons. Who the hell brought me here?”

“Puff!”

The man sneered. “Just you? A peak-level Dangling Fisher killed two Red Demons? Do you believe it yourself?”

Han Fei snorted. “Whatever...”

Han Fei was in a bad mood now. No one would be in a good mood if they woke up and found themselves in jail, would they?

The slovenly uncle still nagged, “How can you, a peak-level Dangling Fisher, get a four-star waist tag? Did you bribe to get it?”

Han Fei was annoyed. “Yes, I bribed you.”

“Tsk! Don’t talk to me like that. But I’m afraid you probably won’t be able to get out in a short time. All you can do is enjoy the Scattered Stars Prison! I’ve seen many people die here.”

Han Fei was speechless. “Enjoy it yourself! I’m still young, so I won’t be with you.”

Han Fei didn’t bother to look at this person. He couldn’t tell this guy’s real strength, but it should be stronger than his. However, it seemed that he had been locked up here for so long that his brain didn’t work well.

“Hey! Young man, what is your name?”

“Young man, don’t be so cold.”

“I’ve finally got someone who can talk with me. Let’s chat?”

“Young man...”

Han Fei said angrily, “Can you leave me alone? You’re too noisy. Maybe I’ll get out in two days. I don’t want to talk to you!”

The man laughed. “Get out? In two days? I have to say you’re too naive!”

Han Fei turned his head and refused to talk to this nag.

However, this guy was nagging for an hour without stopping.

And an hour later, Han Fei could already sit up. Then he found out that the Sea Swallowing Seashell on him had disappeared.

He didn’t use that Sea Swallowing Seashell often, and there was only an ultra-quality spiritual tool, some high-quality spiritual tools, and things like spiritual spring in it whose value didn’t exceed 20,000 high-quality pearls.

It must have been taken by someone.

But the ring given by the Time Dragon Carp was still on his finger. It seemed that someone had tried to take it off but failed.

Han Fei couldn’t help sweating behind his back. Fortunately, the b*stard who brought him here didn’t cut off his finger. Otherwise, he would definitely take revenge.

Han Fei slightly moved his body and found that his shoulder bone was slightly cracked and his chest was still burning with pain. After all, the mermaid’s hand pierced his chest.

All around, there were empty cells. The walls here were covered with salt and the damp air mingled with the smell of seawater. However, to his surprise, the floor was not paved with ordinary bluestone, and the cages were not wooden.

It seemed that the materials used in these cells were very good. Was it to prevent prisoners from breaking out?

“Huh?”

Han Fei watched for a while and suddenly felt a little cool on his chest... *Huh! Why did the demonic breath there become so little?*

Han Fei was suddenly surprised to find that the strange breath filling his body was fading.

When Han Fei looked inside carefully, he found that the seed that had never moved in his Dantian was actually slowly turning. A faint red mist was surrounding the seed.

“Huh!”

“Is the seed absorbing the demonic breath?”

Han Fei’s first reaction was shocking. Then, he was astonished.

What was this seed? Why could it absorb demonic breath?

Han Fei quickly closed his eyes and glanced at his data.

<Owner> Han Fei

Level: 39 (peak-level Dangling Fisher)

Spiritual Energy: 182655 (7888)

Spiritual Power: 1299/1299

Perception Range: 9999 meters

Spiritual Heritage: Level-5, High-Quality <Upgradable>

Spiritual Beast: Twin Yin-Yang Spirit Swallowing Fish <Level-36>

Major Art: Void Breaking Technique, Volume Four of Void Fishing (Demon-Level, Divine-Quality)

...

The data stunned Han Fei. His upper limit of spiritual energy had risen by more than 200 points? How did it increase?

Han Fei couldn’t help taking a breath. Even if he practiced the 108 Desolate God Body, the upper limit couldn’t rise so fast. How many days since his last breakthrough? Was it because of the fight with the sea monster?

Or was it because the seed absorbed the demonic breath?

Han Fei wasn’t quite sure. However, in terms of this growth rate, this was a good thing! This meant that at least he gained something from the battle with the mermaid.

In addition to the corpse of the Half-Mermaid in Forge the Universe and a large amount of Spirit Awakening Fluid in its Sea Swallowing Seashell, there seemed to be some unexpected gains.

Three hours later.

Han Fei still saw no one coming, so he asked the slovenly uncle, “Where are the jailers? Is there no one in this prison?”

The uncle grinned. “Yo! You’re finally talking to me, huh?”

Han Fei rolled his eyes. “Will you tell me or not?”

“OK, OK... The Scattered Stars Prison! Umm, it’s not a place ordinary people can come in! We are on the third floor, so of course, no one is here! The jailers are eating and drinking happily on the first floor. Who would come to the third floor?”

Han Fei frowned. “The third floor? What kind of people are locked up on the third floor?”

The slovenly uncle said, "Normally, you're unqualified to be locked up here. Usually, only Hidden Fishers will be imprisoned here. It's simply a miracle that you, a peak-level Dangling Fisher, are imprisoned on the third floor..."

Han Fei's face was dull. What exactly happened during his coma? Why was he suddenly locked up here?

Han Fei looked at the slovenly uncle suspiciously. "Then what about you? Are you a Hidden Fisher?"

The slovenly uncle grinned and showed his black teeth. "Sure. I'm a very strong Hidden Fisher."

Han Fei smiled. "Then why were you locked up here?"

The slovenly uncle sneered. "Why? Colluding with sea monsters! I was caught, so I was locked in here."

"Huh!"

Han Fei was stunned. "Did you collude with sea monsters?"

"So what? I did business with sea monsters and made a lot of money. But some b*stard sold me out! I've been here for three years."

"Three years?"

Han Fei exclaimed, "Why didn't they kill you since you colluded with sea monsters?"

The slovenly uncle disdainfully said, "There were originally five people in this cell. And we were all sent to war. Now I am the only one left."

Han Fei nodded. "Make use of prisoners. That's understandable."

"You know shit. How could they charge me for colluding with sea monsters? Those half-fish half-man things have a lot of good things. What's wrong with me wanting to trade with them? I didn't betray human beings... But they just locked me up here for no reason!"

Han Fei squinted at him. "How can you prove you didn't betray humans?"

The slovenly uncle shrugged. "They're too inflexible! Humans and sea monsters fight for nothing more than Spirit Awakening Fluid. The biggest Spirit Awakening Fluid excavation site is in the Transverse Mountains, which is controlled by those in power, so what's wrong with the common cultivators getting something from sea monsters?"

Han Fei was taken aback. "Huh? Isn't Spirit Awakening Fluid mined in the Undersea Chimney? Why did you say it's the Transverse Mountains?"

The slovenly uncle was taken aback for a moment. "Oh! I forgot that you are a Dangling Fisher. After all, there are few Undersea Chimneys. Every time an Undersea Chimney is discovered, a big battle will break out and people scramble for it crazily. The one in the Transverse Mountains is controlled by humans and is to supply the Thousand Star City and the 36 Towns. We are risking our lives fighting on Scattered Stars Island but will get no Spirit Awakening Fluid at all."

The slovenly uncle became angrier and angrier. "They don't distribute any Spirit Awakening Fluid to us and we can't grab any either. Even if we snatch some, it won't belong to us... So what's wrong with me trading with sea monsters? Do I deserve to be locked up here?"

Han Fei: "..."

One day later.

Han Fei's injuries completely recovered, the demonic breath that rushed inside him almost disappeared, and his upper limit of spiritual energy was increased again, reaching 7,912 points.

Not surprisingly, 7,999 points was another bottleneck for him. But how long had it been since he became a peak-level Dangling Fisher? Han Fei felt it was like a windfall!

Chapter 645: Colluded with A Sea Monster?

The slovenly uncle called Zhang Teng was a Hidden Fisher and was originally a six-star killer.

Because he was fighting alone on the ocean for a long time, over time, he gradually started doing business with sea monsters.

In Han Fei's view, this was simply ridiculous. Your job was to kill sea monsters but they still traded with you?

However, they did. And it was found out by the management of the Scattered Stars Island.

So he was immediately thrown into the Scattered Stars Prison and was locked up here ever since.

There was no one else here, so the two of them just chatted.

Han Fei wanted to get some information about the Scattered Stars Island from Zhang Teng's mouth. After all, a strong Hidden Fisher must know more than him.

They chatted and chatted...

"The three-zone..."

"Pass."

"Two pairs."

"Bomb."

"Straight..."

The two actually started to play cards.

Zhang Teng sighed, "These are interesting!"

Han Fei grinned and said, "Of course, I invented it."

"You?"

Han Fei chuckled. "Yes... But I don't want to play anymore... We've been playing cards for so long, but why didn't anyone show up?"

Zhang Teng laughed. "No one will come."

Han Fei was speechless. "Why? Don't they need to interrogate me?"

"You colluded with a sea monster. Why do they need to interrogate you?"

"Huh?"

Han Fei was helpless. "Who the hell colluded with sea monsters? I killed two red monsters!"

Zhang Teng suddenly asked, "When you were carried in, you were full of demonic breath. At that moment, I thought you were a sea monster... Did you transform from a sea monster?"

Han Fei was surprised. "How could it be? Do I look like a sea monster? Oh... You mean I'm locked up here because they thought I was a sea monster?"

Zhang Teng chuckled and said, "Yes! When you were carried in, even I thought that you were a sea monster and that even if you were not, you must be related to sea monsters. However, after such a long time, the demonic breath in you seemed to dissipate, which seems to be absorbed by your body... If I were them, I would have caught you too."

Han Fei narrowed his eyes, "Huh? Did I absorb the demonic breath? Why didn't I know? Is it because of my healing technique?"

Han Fei thought to himself, *The demonic breath was absorbed by me indeed, which seemed to do me great good.*

When the mermaid made its final blow, it almost stuffed all its remaining demonic energy into his body.

Originally, it was intended to destroy the vitality in his body and let him die with it.

However, it didn't know that Han Fei had such a strong physique, nor did it expect that Han Fei had a seed in his body that could absorb demonic breath.

For the first time, Han Fei looked at this seed squarely.

He remembered Luo Xiaobai also got a seed before.

Old Bai once mentioned that he would have to find his own way, which reminded Han Fei of the road he walked out unconsciously in Ren Tianfei's cave, thinking that the seed was the road.

Now, Han Fei was not sure. Why could this thing absorb demonic breath?

Zhang Teng smacked his mouth and waved his hand. "Healing techniques can heal wounds but can't get rid of demonic breath. Although demonic breath will escape, there will always be residuals, and it won't escape so quickly..."

As he said this, Zhang Teng squinted at Han Fei. "So, you still have something to do with sea monsters, right?"

Han Fei said angrily, "Bullsh*t, I have an innocent background. I killed Red Demons and the second son of the Cao Family in the Thousand Star City can testify for me. I used the blow sealed in an ancient jade piece to kill the Red Demons. Who the f*ck has anything to do with sea monsters?"

Zhang Teng grinned. "Not necessarily! Maybe someone is a sea monster, but he doesn't know it. But you really don't look like a sea monster."

"Huh?"

Han Fei looked sideways at him. "What do you mean?"

Zhang Teng stretched lazily. "You look too human."

Han Fei: "..."

Han Fei was helpless. "Are you scolding me? I was originally a person. What do you mean by I 'look' human?"

Zhang Teng laughed. "If you are a sea monster, then you must be very high-leveled. You'll need a level-7 demonic heritage to perfectly transform into a human... Well, no, perhaps even higher."

Han Fei was about to say, *I don't have a level-7 spiritual heritage yet, and how can I have a level-7 demonic heritage?*

But then he suddenly paused and felt a chill down his spine.

As a peak-level Dangling Fisher who came to Scattered Stars Island for the first time, how could he know what demonic heritage was? Why was he not surprised at all when he heard about demonic heritage?

Han Fei didn't even dare to move his eyeballs. He looked a little dazed but in his heart, he knew instantly... This guy was definitely not a prisoner who had been imprisoned for three years!

This Zhang Teng was definitely a fake prisoner. He seemed to be friendly to him just because he wanted to trick the truth from his mouth when he was not paying attention.

If he answered this question in the wrong way, he would be immediately convicted of colluding with sea monsters.

Han Fei gave a confused look. "Huh? Wait a minute... What is a demonic heritage?"

Zhang Teng's eyes blinked faintly, and he said calmly, "Oh! Sea monsters are actually a race similar to human beings. But we live on the Floating Islands, while they live in the sea. We are born enemies. Their demonic heritage is equivalent to our spiritual heritage."

Han Fei looked astonished. "You mean, the sea monsters, like us, cultivate with spiritual heritages?"

Zhang Teng shrugged. "We call it demonic heritage. However, someone said he once saw the king of sea monsters, who looked almost the same as humans."

"Wow!"

Han Fei pretended to be ignorant. "Really?"

Zhang Teng smacked his tongue. "It's similar to a human! Both in speech and behavior and the cultivation methods."

Han Fei couldn't help but ask, "Then can it still be called a sea monster? Shouldn't sea monsters be full of demonic breath?"

Zhang Teng lazily said, "Alas! Maybe their demonic heritage is just like our high-quality spiritual heritage. Do you know how it feels having a level-9 spiritual heritage?"

Han Fei said weakly, "You mean, if their demonic heritage is high enough, they won't have any demonic breath in them?"

Zhang Teng swung his dirty hair. "It's possible. I'm afraid it will only be exposed under some special circumstances. For example, when they're seriously injured..."

While talking, Zhang Teng looked at Han Fei with a smile.

Han Fei pointed to himself and sneered. "Me? What the f*ck are you talking about? If what you guess is true, that kind of a figure must be very precious for sea monsters! How would sea monsters let it risk its life to come to the human world?"

Zhang Teng smiled. "That's true. So I said you didn't look like a sea monster."

With that said, Zhang Teng took out a pot of wine and took himself two sips.

Han Fei was surprised. "Where did you get the wine?"

Zhang Teng blinked at Han Fei and said. "Just a small trick. I secretly hid a Sea Swallowing Seashell. But it has been three years, and the wine in it is almost finished. Want a sip?"

Han Fei disdainfully said, "Let me smell it."

"Heh! Are you afraid that I will put poison in the wine?"

Han Fei curled his lips. "I'm afraid the quality of your wine is too poor."

Zhang Teng was surprised. "Come on, this is treasure here! I'd rather save it for myself. Besides, do you think you still have a chance to get out?"

Han Fei snorted. "I'm definitely able to get out. I'm not a sea monster. If they keep locking me up here, believe it or not, my teacher will come and smash this Scattered Stars Prison!"

"Oh? Your teacher is so strong?"

Han Fei said proudly, "Of course! He is a Hidden Fisher! It'll simply be a breeze for him to kill them all."

Zhang Teng felt silent. *What a braggart! What makes you think Hidden Fishers are capable of that?*

Han Fei was more certain that this man was not a prisoner. If the Scattered Stars Prison was really as powerful as he described, how could they allow him to keep a Sea Swallowing Seashell?

Han Fei asked, "Hey, how do you think sea monsters cultivate? Why do the Inferior Man-Fish and Red Demons look different?"

Zhang Teng cast a surprised look at him. "Huh? You don't know why?"

Han Fei was helpless. "I am not a sea monster. How would I know?"

Zhang Teng snorted. "Well, sea monsters are actually not much different from humans. In fact, there are different levels of sea monsters. Some creatures become monsters after producing wisdom. We call this realm Spirit Awakening..."

"The lowest-level sea monsters have three realms: Spirit Awakening, Worldliness Transcending, and Spirit Guarding. In theory, they respectively correspond to the three realms of fisher, fishing master, and great fishing master."

Han Fei was amused. "Can they be called sea monsters?"

"Listen to me. After the Spirit Guarding stage, a sea monster can awaken and thus formally cultivate. In theory, it's at the same level as a Dangling Fisher then. Of course, sea monsters may awaken at any stage, so it's just a theoretical correspondence."

Han Fei prodded, "And then?"

"And then? After awakening, it'll enter the Demonization stage, at which it will continue to grow and evolve. Only in this way it can truly become a sea monster... Therefore, at the Demonization stage, it is equivalent to a Hanging Fisher... And above this level, it will become a true sea monster and be as intelligent as humans. If it continues to pursue its cultivation, it'll become a Sea Spirit, which is the highest level for sea monsters."

Han Fei's eyes flickered.

Spirit Awakening, Worldliness Transcending, Spirit Guarding, Awakening, Demonization, Sea Monster, and Sea Spirit...

So sea monsters actually followed such a cultivation route. Under normal circumstances, a sea spirit was already equivalent to a Law Enforcer.

But he was still a bit confused. Yang Ruoyun was only at the Demonization stage back then, wasn't she? But why was she as intelligent as human beings?

Chapter 646: The Prison Token

It was the first time Han Fei heard about the cultivation path of sea monsters, so he was quite curious and kept asking Zhang Teng more.

Anyway, Zhang Teng was a fake prisoner and was trying to trick information out of his mouth, so Zhang Teng would tell him what he wanted to know.

Han Fei sat cross-legged and leaned against Zhang Teng's cage. "And then? What's after Sea Spirit? Isn't it the same level as Explorer?"

Zhang Teng was puzzled. *Why did he ask me this question? Does he really have nothing to do with sea monsters?*

But he just smiled and said, "It is, in theory. But that level is too high. Who knows? Right now, Red Demons we can see are mostly at the Demonization stage... But sea monsters are different from humans. Sometimes, even if it has the strength of a Hidden Fisher, it is still at the Demonization stage."

Han Fei smacked his lips and said, "Suppose there is a level-100 big fish, such as a creature like the Cloud Whale, that suddenly transforms into a demon. Is it still at the Demonization stage?"

Zhang Teng waved his hands. "I don't know... Who knows this?"

Han Fei sighed. "Forget it. What does that have to do with me? I'm a man who killed two Red Demons..."

Suddenly, Han Fei grabbed the cage and shouted to the outside, "Hello? Anyone here? Has everyone fallen into a sea trench?"

Zhang Teng sneered and said, "Stop shouting. If shouting was useful, I would have gotten out already."

Han Fei grunted. "Why did they lock me up here? I'm a genius who killed Red Demons."

Zhang Teng was speechless. "What's the big deal of it? Under our feet, there is even someone who has killed a group of sea spirits! Isn't he also locked up here?"

"Huh?"

Han Fei was stunned. "What did you say? Killed sea spirits? Is that to say... There is even someone who has killed creatures of the Law Enforcer level in this prison?"

Zhang Teng shrugged, but didn't deny.

Han Fei immediately took a breath. "F*ck... Under our feet?"

Zhang Teng smiled. "Yes! On the fourth floor."

Han Fei looked at Zhang Teng suspiciously. "Aren't you a prisoner? How do you know that there is a fourth floor in the Scattered Stars Prison?"

"I am a prisoner, but I am also a strong master! I could have become a seven-star master. Is it strange for me to know this information?"

Han Fei swallowed. "Why is that person locked up in the Scattered Stars Prison if he can kill sea spirits?"

Zhang Teng shook his head. "Who knows? Maybe he was in a relationship with a sea spirit! After all, sea spirits are almost the same as humans."

"Bullsh*t!"

Han Fei scoffed. "Are you out of your mind? Who would be in a relationship with a fish?"

Zhang Teng chuckled. "Whatever, it's none of our business anyway."

...

They chatted for a long time and Han Fei behaved like a noob who knew nothing at all.

At the same time, he was thinking about how to prove to Zhang Teng that he was a human.

Han Fei was racking his brain. He had never imagined that one day, he would have to prove that he was a human... It was really ridiculous!

So Han Fei began to practice the 108 Desolate God Body in his cell.

The 108 Desolate God Body had been upgraded into a heaven-level divine-quality combat skill, with which he could absorb spiritual energy from the air.

Han Fei stomped and a spirit gathering formation appeared under his feet. Then he began to practice the 108 Desolate God Body and the surrounding spiritual energy all gathered around him and was extremely pure.

As he expected, Zhang Teng immediately asked, "Huh? What kind of body refining technique is this? It seems quite high-leveled!"

Han Fei smiled and said, "Of course! Don't you know where I come from?"

Zhang Teng shook his head. "Where are you from?"

"Humph, if I tell you, I'm afraid you'll be scared to death."

Zhang Teng sneered. "You wouldn't say that if you knew what I've experienced on the ocean!"

Han Fei grinned. "It's different. Do you know the Thug Academy? 'That' Thug Academy that once swept through the 36 towns and the Thousand Star City. This body refining technique was invented by the founder of our academy."

Zhang Teng rolled his eyes. *What a braggart! I have already investigated you thoroughly. If it weren't for the fact that you're from the Thug Academy, I would have killed you already and wouldn't bother to pretend to be a prisoner!*

However, what was body refining about? Refining physique, meridians, and bones...

At this moment, pure spiritual energy flowed in Han Fei's meridians. Han Fei purposely made it flow very slowly in his body.

Zhang Teng watched for a while and finally confirmed that Han Fei was a human.

He didn't know if sea monsters had such meridians, but if Han Fei was really a sea monster, then the spiritual energy flowing in his body couldn't be so pure.

"Cough! Well..."

Han Fei interrupted him, "Don't disturb me. I'm cultivating."

"Actually..."

Han Fei said angrily, "Hey, I told you not to disturb me! Didn't you hear me? I'll cultivate hard to break through to be a Hanging Fisher quickly."

Zhang Teng was amused. He turned around and appeared outside the cage. When he walked to Han Fei's cage, Han Fei happened to look up...

At the moment their eyes met, Han Fei sank to the ground in shock. "F*ck... How did you get out of the cage?"

Han Fei looked at the cage next door. No one was in it.

Seeing Han Fei's stunned expression, Zhang Teng smiled and shook all the dirt off his body with spiritual energy. Then he put on a brand-new dark green robe.

Around his waist, there was a seven-star waist tag, and the one hanging with the waist tag turned out to be a... Prison Token?

Han Fei was dumbfounded.

His gaze fell on the Prison Token and he was lost in his thoughts.

Is this Prison Token the token of the Scattered Stars Prison? The same token that Master Hexagon Starfish has?

Han Fei was really confused. The Hexagon Starfish was kept in the ordinary fishery by Ren Tianfei 300 years ago. So the Prison Token Han Fei held was produced at least 300 years ago.

If only people at the seven-star rank could wear a Prison Token, how could the Hexagon Starfish get the Prison Token?

So it was strange indeed that the Prison Token appeared in the Hexagon Starfish's treasury.

Han Fei remembered that he once asked the Hexagon Starfish where he got the Prison Token, but he said he didn't remember.

How could the Hexagon Starfish remember? He only liked shining things and this black plain Prison Token definitely wouldn't draw his attention. Therefore, it was unlikely that this token was picked up from the bottom of the sea by the Hexagon Starfish.

Since it was not picked up, it must have been put in his treasury by someone else.

But who did it? Why did he put it in the treasury of the Hexagon Starfish?

The only person Han Fei could think of was Ren Tianfei. But why did he do it? Did Ren Tianfei leave it there for him?

"Hiss!"

Han Fei couldn't help taking a breath.

If so, why didn't Ren Tianfei just tell him?

And if it wasn't Ren Tianfei, who did it?

However, in Zhang Teng's eyes, Han Fei was surprised because he suddenly became a seven-star powerhouse.

He was very satisfied with Han Fei's current expression. This made him more comfortable than buttering up to him.

However, the two of them were thinking of completely different things.

"Ahem!"

Zhang Teng leisurely said, "Han Fei, one of the deputy captains of the Eighth Battalion. The younger generation of the Thug Academy thirty years later is truly extraordinary. At such a young age, you dare to challenge Red Demons. That's very courageous of you."

Han Fei acted as if he suddenly realized something. "Were you testing me just now?"

Zhang Teng nodded lightly. "You can say that! Although I can basically be sure that you are not a sea monster, I still have a few questions for you."

Han Fei pretended to gnash his teeth with anger. "What questions?"

Zhang Teng continued, "Firstly, what kind of ring is the one on your finger? I have pinched it, but it's extremely hard and can't be broken or taken off unless I chop off your finger."

Han Fei sneered. "Then why didn't you chop off my finger?"

Zhang Teng smiled and said, "I wanted to, but when I was about to do it, a strange force burst out of it and almost injured me. If I had really chopped off your finger, I might have been in danger."

Han Fei bared his teeth and said angrily, "I've given outstanding service to the island, but you wanted to chop off my finger?!"

Zhang Teng smiled faintly. "I didn't do it, did I? So, what is the ring?"

Han Fei snorted. "A gift from an elder. You should be grateful you didn't chop off my finger. Otherwise, it'll be too late for you to regret it."

Zhang Teng narrowed his eyes but didn't say anything. He just thought he might underestimate the Thug Academy.

"Okay, the second question, did you get your current physique with the body refining technique you practiced just now?"

Han Fei sneered in his heart. *Here it comes...*

Ren Tianfei had once told him that before coming to the Unknown Place, he should practice a body-refining technique and could never expose the Indestructible Body.

Sure enough, at this moment, someone was suspicious of his physique.

Han Fei rolled his eyes and said, "Isn't this nonsense? Is my body refining technique not strong enough? But don't you think about getting it from me. If you dare to snatch it, you'll be subject to the revenge of the Thug Academy."

Zhang Teng frowned. "How can a heaven-level high-quality body refining technique be so powerful? I ask you again. Think carefully before you answer... Do you really only have this body refining technique?"

Chapter 647: Released From Prison

Han Fei looked at Zhang Teng calmly without blinking. "Who told you that it's a heaven-level high-quality body refining technique?"

Zhang Teng was surprised. "Then what level is it?"

Han Fei grinned faintly. "Heaven-level, divine-quality."

"Impossible!"

Zhang Teng suddenly grabbed the cage and stared at Han Fei. "There is no divine-quality combat skill in this world."

Han Fei laughed. "You can go to the Thug Academy and ask! As long as you are not afraid of being thrown out... The Thug Academy once swept through the Thousand Star City, so we certainly have some trump cards!"

Zhang Teng stared straight at Han Fei. "Humph, do you think I dare not do it? I will continue to investigate this matter..."

Han Fei said nonchalantly, "Go ahead."

Han Fei was sure Zhang Teng couldn't find out anything. This 108 Desolate God Body was deduced from the 108 Spirit-Absorbing War Bodies.

But neither of the combat skills could help him achieve his current physique. Old Bai had certainly found it out, but he never asked him about it.

Even if Old Bai knew that he was practicing the Indestructible Body, so what?

Although he didn't know the secrets of the Thug Academy, he was sure there must be enmity between the Thug Academy and the Thousand Star City. Only certain characters in the Thousand Star City were qualified to become the Thug Academy's enemies.

Otherwise, from what he knew of Old Bai, he would have taken revenge earlier.

Han Fei smiled and said, "Master Zhang, is there anything else you would like to ask? I'll definitely tell you everything I know."

Zhang Teng calmed down and said with a smile, "I do have some more questions, but I'm afraid you can't answer them. How did the demonic breath in your body disappear? Just tell me the truth."

Han Fei said indifferently, "Alas! Have you ever heard of a law?"

"A law? What law?"

Han Fei said matter-of-factly, "The law of conservation of energy."

Zhang Teng frowned. "What is that?"

Han Fei grinned. "As you know, everything in the world is energy, and matter will not be annihilated, but will only continue to exist in the world in a certain way. I am not a sea monster, so I really don't know what that demonic breath thing is about. But I guess the demonic breath turned into another kind of energy and maybe was absorbed by me or dissipated into the air..."

Zhang Teng sneered. "Law of conservation of energy? This is just the Tao of Heaven. Your explanation made some sense, but..."

Zhang Teng stretched out two fingers, pointed at his eyes, and pointed at Han Fei. "If you are hiding something, it is impossible to escape my eyes."

Squeak!

The cage suddenly opened automatically, and Zhang Teng said lightly, "Okay, you can go now!"

Han Fei was surprised. "Am I released?"

Zhang Teng smiled and said, "You can continue to stay here if you'd like. What I told you was not a lie. This third floor is really built for locking up Hidden Fishers."

Han Fei looked at the circle of empty cells. "So, were the Hidden Fishers locked up here really sent to the battlefield as front line pawns?"

"Yes!"

...

Passing by the second floor and the first floor, Han Fei met three jailers in total.

Han Fei looked at their waists and discovered that only Zhang Teng had the Prison Token, and now he was sure that his Prison Token definitely wouldn't have appeared in the treasury of the Hexagon Starfish for no reason.

Above the ground.

It was a big black room, in which nothing could be seen. Out of the room, it was a courtyard. At this moment, there was a huge door on the ground in the courtyard.

Then Han Fei found that Wang Dashuai, Xia Xiaochan, Zhang Xuanyu, Le Renkuang, Luo Xiaobai, and Cao Qiu were all here.

At the moment Zhang Teng came out, the huge door suddenly flew up, turning into a huge shadow, and smashed at Zhang Teng.

Upon seeing this, Han Fei jumped to the side immediately.

Zhang Teng punched out, and with a boom, he took seven or eight steps back.

Zhang Teng said angrily, "Wang Dashuai, what the hell are you doing?! Don't forget where this place is!"

Although there was a touch of anger on Wang Dashuai's face, he didn't look ferocious, but he spoke quite domineeringly, "My junior brother has performed meritorious service. How can you suspect my junior brother? Do you want to die?"

He held the door high and suddenly smashed it down. With a loud bang, the whole room was smashed into powder.

Two big axes appeared on Zhang Teng's hands, with which he blocked the huge door, shouting angrily, "Wang Dashuai, how dare you mess around with our Scattered Stars Prison!"

Wang Dashuai sneered and his burly body suddenly jumped up. Brandishing the huge door, he kept smashing it at Zhang Teng, who had to retreat one step after another.

“That’s enough!”

Zhang Teng brandished his axes. “Wang Dashuai, do you want to enter the Scattered Stars Prison yourself?”

Wang Dashuai grinned and said, “Try me!”

At this moment, Han Fei shouted, “Senior Brother Dashuai, it’s alright. I’m fine...”

Wang Dashuai stopped and turned his eyes to Han Fei. “Huh? Junior Brother, did this bastard bully you?”

Han Fei showed a weird smile. “Senior Brother Dashuai, it’s okay... I had a very happy conversation with Master Zhang Teng in the prison.”

Xia Xiaochan appeared next to Han Fei. “Humph, happy conversation? I heard that you were carried in unconscious.”

The Hexagon Starfish was hanging on Xia Xiaochan’s shoulders. “Starfish told them. Starfish couldn’t do anything when they carried you into the jail!”

Han Fei stroked Xia Xiaochan’s hair. “It doesn’t matter. It was a bump in the road.”

Then he looked at the Hexagon Starfish. “For the sake of your bravery that day, I’ll get you some treasure later.”

The Hexagon Starfish’s eyes lit up. “Really? Don’t you lie to starfish!”

Han Fei nodded. “Of course. The benefits will be beyond your imagination...”

Zhang Xuanyu asked, “Feifei, are you okay?”

Le Renkuang added, “Han Fei, did he injure you? I heard that no one is released from the Scattered Stars Prison safe and sound.”

Cao Qiu nodded repeatedly. “Yes, I went to find reinforcements immediately at that time. But it was only now that we made it here.”

Han Fei glanced back at the room that had become a ruin and said with a smile, “It’s okay. I did have a happy conversation with Master Zhang Teng. Maybe I’ll come back someday. Let’s show Master Zhang some respect.”

“Come back?”

Wang Dashuai immediately widened his eyes. “This place is not good. Don’t come back.”

Han Fei smiled and said, “Who knows? Master Zhang, I won’t compensate for this house! The Sea Swallowing Seashell you got from me should be able to cover the loss.”

Wang Dashuai turned to Zhang Teng. “Give the Sea Swallowing Seashell back.”

Han Fei hurriedly tugged at Wang Dashuai's arm. "Well, Senior Brother Dashuai, it's just a Sea Swallowing Seashell. Master Zhang can keep it as a gift."

Wang Dashuai laughed. "All right. It's up to you!"

Clang!

Wang Dashuai carried the door and glanced at Zhang Teng. "You should be thankful that my junior brother is fine. Otherwise, I would flatten you into a fish skin!"

The corners of Zhang Teng's mouth twitched and he sneered. "Really? Get the seven-star rank first!"

Wang Dashuai scoffed. "Junior Brother, ready to go?"

Han Fei had already taken Xia Xiaochan's hand. "OK, let's find a place to have a big meal."

After leaving the Scattered Stars Prison, Han Fei discovered that it was very remote here.

Wang Dashuai suddenly said, "There are many people guarding here! Many of them are very strong."

Han Fei was astonished. "Then why did you smash that room? Will it cause you trouble?"

Wang Dashuai shook his head. "It's okay. They won't do anything unless something big happens."

Han Fei said to Cao Qiu, "Cao Qiu, thanks!"

Cao Qiu chuckled. "You really should thank me. If I hadn't fished you out of the sea, you might have been eaten by marine creatures."

"What happened after? Was there a fish tide?"

Cao Qiu shook his head. "Didn't we release the highest-level alarm? All of a sudden, eight Guards Regiments came and directly leveled the Skeleton Shore."

Han Fei took a deep breath. "That's good."

Xia Xiaochan glared at Han Fei. "Good? I heard that you were almost killed!"

Han Fei bared his teeth. "How can I be killed so easily? But the opponent's combat effectiveness was indeed beyond my expectations. We must not fight head-on against Hidden Fisher-level creatures now. We are no match for them indeed."

Everyone rolled their eyes. Isn't this bullshit? Don't you know what your realm is? How can you fight head-on against a Hidden Fisher?

Cao Qiu whined, "My Ancient Jade!"

Han Fei patted Cao Qiu on the shoulder. "This time, all the credits are yours. Besides, I will help you seal some spirits in your weapons."

"Huh? Han Fei, why do you suddenly become so generous?"

Han Fei was taken aback. "Really?"

Everyone nodded. "Yes!"

Everyone was already surprised when Han Fei said he would reward the Hexagon Starfish just now. Since when was Han Fei so generous?

Han Fei chuckled. "Money is not important. What matters is our friendship! Let's go and have a big meal..."

Only Han Fei knew that he was so generous because he wanted to get some more Ancient Jade from Cao Qiu. The Ancient Jade was simply too powerful!

Chapter 648 Gains

They didn't intend to cause trouble for Wang Dashuai in the first place.

After all, although Wang Dashuai was from the Thug Academy, he was not as close to them as they were to each other.

Moreover, when they had to turn to Wang Dashuai for help, it meant that they had begun to cause trouble. This was not a good start.

At this moment, they found a place in the Transverse Mountain and began to eat hot pot.

Luo Xiaobai frowned. "Senior Brother, someone is watching us."

In the forest, Luo Xiaobai's perception range should be the farthest. With grass and trees as her eyes, she knew better about the surrounding situation than Han Fei.

Wang Dashuai said gently, "It's okay, we're not in the Scattered Stars Prison. Anyone who enters the Transverse Mountain will be monitored."

Han Fei asked, "Is there a secret in this Transverse Mountain?"

Zhang Teng told him that one of the largest producing areas of Spirit Awakening Fluid was in the Transverse Mountain. If what he said was true, then the entire Transverse Mountain should be the most heavily guarded place in the entire Scattered Stars Island.

At that time, Han Fei wondered why Zhang Teng told him that.

Now he knew that Zhang Teng told him that because he was very confident in the security of the Transverse Mountain. He told Han Fei that just to see what his response would be.

Wang Dashuai laughed and said, "Yes! But, don't mind it, and don't try to break in. The strongest people in the Scattered Stars City are almost all in the Transverse Mountain."

Han Fei frowned. Sure enough, the strongest are all here! That means this is the safest place on the Scattered Stars Island.

Han Fei picked up a piece of lobster meat and asked, "Senior Brother, do you know where there is a plantation on the island?" Wang Dashuai was holding a large piece of sea cucumber meat in his hands and chewing happily. Hearing Han Fei's words, he was stunned. "Plantation? Is there a plantation on the Scattered Stars Island?"

Xia Xiaochan and others also looked at Han Fei. "Does the Thug Academy have a territory on the Scattered Stars Island?"

Han Fei grinned. "Well! Just guessing." Han Fei was confused. Strange! From what he knew of Old Jiang and Jiang Qin, if they decided to settle on the Scattered Stars Island, they would definitely have built a plantation.

Zhang Xuanyu thought for a moment. "I think it's possible. Maybe we also have some junior uncles on the Scattered Stars Island."

Wang Dashuai shook his head. "No, no, no junior uncle here. You do have a senior sister and senior brother, but they are not on the island now."

"Huh?"

Xia Xiaochan exclaimed, "A senior brother and a senior sister?"

Le Renkuang hurriedly said, "So including you, there are three of you?"

Wang Dashuai laughed. "Yeah! They went out and I guarded our home. By the way, before you become intermediate Hanging Fishers, don't go to sea."

After that, Wang Dashuai looked at Han Fei. "Junior Brother, don't go out for now."

Han Fei was surprised. "Is it very dangerous?"

Wang Dashuai glanced at Cao Qiu who was immersed in the meal and patted Cao Qiu with his big hand. "Well, can you excuse us for a while?"

Cao Qiu paused and said, "I'll just concentrate on the food. I won't eavesdrop!"

Xia Xiaochan tilted her head and looked at Cao Qiu. "Is it delicious?"

Cao Qiu froze and said in his head, I really won't listen!

Han Fei thought for a moment. After all, he survived this time thanks to Cao Qiu's Ancient Jade, which was extremely precious.

So he said, "Senior Brother, it's okay. Just don't talk about important matters."

Wang Dashuai laughed. "It's nothing big, but your senior brother and senior sister have a lot of enemies outside. If you don't hide your identity, you may have trouble going out."

Everyone glanced at each other and understood. It was just like when they were in the level-three fishery, they caused a lot of troubles and were hunted down by the entire fishery.

Cao Qiu thought to himself of how he investigated the Thug Academy.

Unfortunately, he only found out that the Thug Academy used to be very powerful. However, most of the information about it had long since been erased. Now it seemed that this school was not that simple! People from this academy seemed to be all pretty strong.

Han Fei was about to ask Wang Dashuai about the Bone Yard. But in the end, he didn't ask anything. He hadn't found Old Jiang yet. Why was he in a hurry to find the Bone Yard?

In the end, under the strong "condemnation" of everyone, Han Fei was asked to act low-key and not to mess around.

After the meal, they didn't stay long. Since Han Fei was fine, they went back.

But Xia Xiaochan hadn't left, neither had Cao Qiu.

At this moment, Han Fei and Xia Xiaochan were both staring at Cao Qiu.

Cao Qiu looked confused. "Huh? Why are you looking at me?"

Han Fei said crossly, "Why are you still here? Wanna be the third wheel?"

Cao Qiu came to realize why they were staring at him. "Oh, yes! Then I'm leaving, I'm leaving..."

Smack!

After Cao Qiu left, Han Fei was immediately slapped on his back. He looked back only to see Xia Xiaochan glaring at him. "How dare you? You're not even a Hanging Fisher yet and already have got the guts to provoke a Hidden Fisher?"

Han Fei was speechless. "I didn't! They came at me."

"When you took the big starfish away, I felt something was wrong. And I asked you but you said it was alright." Han Fei replied, "It was alright! If you don't believe me, ask Master Hexagon." At this moment, the Hexagon Starfish was on Xia Xiaochan's shoulders. "He lied... Starfish almost died..."

Han Fei was angry. "Do you know how to speak? You idiot!"

But Xia Xiaochan snorted. "Forget it, can you still fight now?"

Han Fei was stunned for a moment. "What's the matter? I can!"

Xia Xiaochan blushed. "Then let's find a place and have a fight, I feel..."

Han Fei's expression changed. "Are you going to go crazy again?"

Xia Xiaochan nodded. "After I came to the Scattered Stars Island, I almost lost control several times. However, the feeling was not strong, so I plan to burst out all at once."

Han Fei couldn't help taking a breath. "So can you control precisely the time you lose control?"

Xia Xiaochan tilted her head. "Only narrowly, but in the past two days, I could barely control it, so I might have to have a fight..."

Han Fei looked serious and was no longer in the mood for a date. "Come on, follow me to the Skeleton Shore."

Xia Xiaochan was surprised. "Wasn't there just a big battle over there?"

Han Fei chuckled. "That's why it's safe now!"

Two hours later.

Han Fei lay panting in a door of the Hexagon Starfish, throwing one Divine Healing Technique after another on himself.

Han Fei muttered, "You are too fierce, aren't you? Now the only weapons you use are Divine Weapons. My eight sets of ultra-quality battle suits were destroyed just now."

Xia Xiaochan squatted aggrievedly beside Han Fei. "Does... Does it hurt?"

Han Fei coughed. "Of course... It hurts like hell..."

Xia Xiaochan's strength had improved a lot. Xia Xiaochan, who was only a junior Hanging Fisher, was as powerful as a peak-level Hanging Fisher when she was fighting against Han Fei with the Divine Weapon daggers.

Of course, it was mainly because of the pair of Divine Weapons. Han Fei was stabbed seven times in his stomach, and there were no less than 50 wounds on his body.

If it were someone else, such as that idiot Gong Wenhai, he would have definitely been stabbed to death by Xia Xiaochan.

Xia Xiaochan stretched out her hand awkwardly. "May I rub it for you..." "Cough! Um, girl, give me a kiss. It can ease the pain."

"Nice try..." Now Xia Xiaochan was no longer that gullible. If he had known it earlier, he would have done more with her back then.

Han Fei couldn't help but regret that it was really a big loss.

"Alas!"

At the time, Xia Xiaochan suddenly sighed. "I don't know why, but recently I have been practicing more and more smoothly. I feel that my strength is growing rapidly. I should be able to become an intermediate Hanging Fisher in less than two months."

Han Fei almost vomited blood. Gosh, I tried my best and finally made a breakthrough, but I haven't become a Hanging Fisher yet!

Han Fei gritted his teeth. "It seems that I should become a Hanging Fisher as quickly as possible. Otherwise, if you go crazy again, I may be hacked to death by you!"

Xia Xiaochan squatted on the ground with one hand on her chin, looking unhappy.

Han Fei said softly, "Close your eyes."

Xia Xiaochan shrank back. "No."

Han Fei sighed. "I have a gift for you."

"Really?"

Han Fei said again, "Close your eyes first."

“Mua...”

“Ah! Han Fei, you are shameless.”

Han Fei laughed. “So what?”

“I’m gonna beat you to death.” They frolicked for a while and Han Fei lay on the ground. “Okay, stop it. I do have a gift for you.”

With that said, Han Fei took out about 500 catties of Spirit Awakening Fluid. This time, he actually obtained less than 5,000 catties of Spirit Awakening Fluid. The mermaid lied to him. There were only about 3,000 catties in its Sea Swallowing Seashell.

However, Han Fei was already content. This thing was so precious that 3,000 catties was already quite a lot.

Xia Xiaochan was shocked. “Huh! Spirit Awakening Fluid?”

Han Fei handed it over and said, “I got it from the sea monsters. That’s why I had the battle with them.”

Xia Xiaochan paused for a moment but didn’t take it, saying, “I can’t use it now.”

“Huh? Why?”

“I told you, my strength is growing too fast and I need to slow down, so I can’t use Spirit Awakening Fluid now.”

Han Fei was suspicious. “Maybe it can suppress your illness?”

Xia Xiaochan shook her head. “No, it can’t. I drank a lot of Spirit Awakening Fluid last time, but it didn’t help suppress my illness at all. On the contrary, it seemed to be able to boost my strength faster.”

At this time, the Hexagon Starfish quickly said, “I want it! Starfish wants it. Starfish is in desperate need of Spirit Awakening Fluid. I think I’m going to make a breakthrough.”

Han Fei was speechless, frowning, and said, “Yeah, there is nothing you don’t want. Fine, I’ll give you 200 catties for now. Don’t waste it.”

Chapter 649 An Ingenious Use of Spirit Awakening Fluid

When Xia Xiaochan left, she was going to leave the Hexagon Starfish to Han Fei because she felt that Han Fei needed it more.

But Han Fei refused, on the grounds that he should be under surveillance for some time, so it wasn’t convenient to bring Master Hexagon with him.

As for the Spirit Awakening Fluid, although it was a good thing, Xia Xiaochan didn’t want it because she needed to suppress her realm.

Camp on the Skeleton Shore.

When Han Fei came back, many people immediately swarmed over.

Wu Xiaoxiao exclaimed, "Captain, you're finally back!"

You Lingyun added, "Huh? Captain, your strength seems to have improved again. That's really fast."

Someone said, "Captain, are you okay? I heard that you were seriously injured in the battle a few days ago."

Han Fei smiled and said, "It's okay, it's okay. I came back safe and sound, didn't I? Come on, give me your points! This time I was seriously injured and spent a lot of money. Pay me back now. I need money to buy medicine..."

Upon hearing that, everyone drew a long face.

Now, everyone in the Eighth Battalion was so poverty-stricken that they didn't even dare to go out on holiday. Han Fei grinned cheerfully. This time, it was more scary than hurtful and his gains were huge. He had earned a lot of credits in addition to Spirit Awakening Fluid.

Now his points must have almost exceeded 2 million!

Although it wasn't even close to 8 million, many a little made a mickle. When everyone paid him back, the credits should be enough.

After collecting the points, Han Fei said, smiling, "Now dismiss. For the next while, we'll have to keep an eye on the shore and can't slack off. You Lingyun, come with me."

In the woods.

You Lingyun asked, "Captain, what's the matter?"

"Tell me, what happened later that day?"

You Lingyun froze for a moment and said immediately, "We didn't actually fight for long after receiving your voice transmission. Because the highest-level alarm was issued, the reinforcements came very quickly. Nearly 20,000 people entered the sea and swept across the shore with irresistible force. The marine creatures on the Skeleton Shore were almost exterminated."

Han Fei took a breath. "I'm not asking this. I'm asking, after that day, has anyone come to investigate?" You Lingyun looked at Han Fei and nodded earnestly. "Yes, and more than once, especially the area where you were fighting, which was circled as a restricted area the next day. There have been people searching for something there."

Han Fei fell into a reverie. He didn't say anything about the half-mermaid, but others might find out about it.

The strong masters could guess what happened on the battlefield by checking the combat traces. Han Fei wasn't sure whether the existence of the half-mermaid had already been discovered or not.

However, even if someone came to ask about it, he could just say that the half-mermaid ran away. Anyway, it was impossible for them to find the mermaid's corpse.

Moreover, Cao Qiu's Ancient Jade was so powerful that the half-mermaid was killed without any chance to fight back. There shouldn't be many traces left.

Cao Qiu was still studying his Poison God. When he saw Han Fei, Cao Qiu's first words were, "Did the Poison God work at the time?"

Han Fei thought for a moment. After the Poison God wrapped the half-mermaid, the latter was vomiting its internal organs out, which he witnessed with his own eyes, so he immediately nodded. "Yes, the Poison God is indeed more powerful than the Poison King."

Cao Qiu asked, "But it takes time, right?"

"Huh?"

Cao Qiu rubbed his head. "I've thought about it. The attack of poison takes time. But real strong masters won't give us any time for it to take effect. So, I just tried adjusting the formula of the Poison God."

Han Fei frowned. "You adjusted it again?"

Cao Qiu grinned. "I added Chaotic Spirit Grass in it. Now after the Poison God enters the body, it will explode instantly. In this way, the poison can take effect quickly."

Han Fei's mouth twitched. "OK, but take your time! I brought you a gift."

"What is it?"

Han Fei handed 500 catties of Spirit Awakening Fluid to him. "This was found on the sea monster, totaling 1,000 catties. Let's go halves! After all, what really killed those sea monsters was your Ancient Jade."

Cao Qiu's eyes widened. "Spirit Awakening Fluid? 500 catties? Isn't that equivalent to 2.5 million credit points?"

For Cao Qiu, he was not short of money, but he was seriously lacking in points. He never fought, so the source of points was scarce.

And there was very little Spirit Awakening Fluid for sale in the market, and most of them could only be exchanged with credits. Therefore, no matter how powerful the Cao Family was in the Thousand Star City, it wasn't easy for him to get 500 catties of Spirit Awakening Fluid.

Therefore, at this moment, Cao Qiu laughed from ear to ear. "500 catties, it'll be enough for me to thoroughly remold myself."

Han Fei was surprised. "Remold yourself?" Cao Qiu was shocked. "Don't you know?"

Han Fei: "???"

Cao Qiu explained, "You don't even know? It's said that Spirit Awakening Fluid can nourish one's body and slowly refine it to become a flawless body. And there is even a certain chance that it will promote the upgrading of spiritual heritage!"

Han Fei frowned. "Really? If it is really so powerful, wouldn't there early be an invincible sea monster? And wouldn't conquering the Scattered Stars Island be as easy as a pie for them?"

Cao Qiu chuckled. "I don't know, so I'll have a try first." Han Fei was willing to give the Spirit Awakening Fluid to Cao Qiu. Although this little fatty refused to fight, he had a lot of good things on him. Han Fei thought maybe he could borrow something from him again in the future.

"Well, Qiuqiu! Do you still have any Ancient Jade? Can you give me another one?"

Cao Qiu immediately shrank back. "No more, no more... Even if I did, I can't give it to you now. What if you make trouble again?"

Han Fei was a little surprised. Cao Qiu's attitude was quite decisive. Maybe he could slowly persuade him into giving him another piece of Ancient Jade. After all, it was really a powerful trump card. After a few words with Cao Qiu, Han Fei entered his treehouse.

After setting up a concealment array, Han Fei didn't summon his spiritual beasts or contractual spiritual beasts. Instead, he took out a can of Spirit Awakening Fluid and began to drink it.

Today, when fighting with Xia Xiaochan, Han Fei discovered that the realm did decide strength. He should break through to the realm of Hanging Fisher as soon as possible. Otherwise, his combat power couldn't be improved quickly.

After drinking 10 catties of Spirit Awakening Fluid in one breath, Han Fei felt that his head suddenly went blank as if he was drunk, as if he were in a mist.

In front of him, a black light flashed and disappeared without a trace.

"Huh! A black light?"

Black and light were incompatible words. Black represented darkness and light represented brightness. The two shouldn't appear at the same time. But at that moment, Han Fei did see a black light.

However, before having time to think about it, Han Fei suddenly felt refreshed as if a spring breeze and drizzle had blown his mind.

Then he felt that his meridians were numb and itchy, with strands of emerald green color blending into his flesh and bones.

"Huh?"

Han Fei discovered that his physique seemed to be undergoing slight changes. It felt just like the first time he swallowed a spiritual fruit.

The effect of 10 catties of Spirit Awakening Fluid quickly dissipated, and Han Fei immediately swallowed another 10 catties without hesitation.

Then he discovered a strange phenomenon.

His upper limit of spiritual energy of 7,912 points was slowly decreasing, slowly becoming 7,900 points, 7,850 points, 7,800 points... When his upper limit of spiritual energy was lowered to 7,800 points, however, Han Fei didn't feel that his physique was weakened. Instead, he felt that his strength and capacity for spiritual energy were better than before.

Immediately afterwards, the data began to rise. After taking 50 catties of Spirit Awakening Fluid, his upper limit of spiritual energy had risen to 7,900 points again.

After taking 100 catties of Spirit Awakening Fluid, it had reached 7,980 points.

But then it didn't increase again. After taking another 100 catties of Spirit Awakening Fluid, Han Fei suddenly discovered that his upper limit of spiritual energy was stuck at 7,999 points and no longer rose. "Huh? It seems I'm ready for a breakthrough." Han Fei was a little stunned. In the past, he gave all the Spirit Awakening Fluid he got to Little Black, Little White and the other beasts, but didn't use it on himself.

But now, Han Fei found that the Spirit Awakening Fluid actually worked even better on humans.

He immediately practiced the 108 Desolate God Body once again, which he found easier to complete although his upper limit of spiritual energy didn't change at all.

Sure enough, the Spirit Awakening Fluid, just like the Spirit Swallowing Fish Soup, could boost one's physique.

Han Fei was quite sure that the Spirit Awakening Fluid could not improve his realm but his physique. Although he drank 200 catties of Spirit Awakening Fluid, his upper limit of spiritual energy was only raised from 7,912 to 7,999 points.

And this slight change was due to a change in physique.

And now, after Han Fei just broke through to be a peak-level Dangling Fisher three or two days ago, he felt he was going to make another breakthrough. This seemed a bit too fast.

"Forget it. Let's do it half a month later."

Han Fei didn't choose to make the breakthrough immediately. He was just released from the Scattered Stars Prison, and there must be someone keeping an eye on him.

If he made a breakthrough only three days after the last one, it would arouse someone's suspicion.

Moreover, his current combat power was sufficient. If he made the breakthrough, he might be transferred away from the Eighth Battalion! That would be the last thing he wanted to have happen. After all, he hadn't recovered all his points yet!

Chapter 650 Become A Hanging Fisher

A month later.

There was only a small fish tide on the Skeleton Shore and nothing big happened in the last month.

Every day, everyone was fishing and hunting in the sea.

In order to repay their debts, everyone had tried their best to earn points. During the period, although some people died, the number was extremely small, with less than 5 people. At a place like the Scattered Stars Island, this mortality rate was extremely low.

And in the Eighth Battalion, the richest one should be Han Fei who had almost earned 6 million credit points, already close to 8 million.

Hum!

This morning, many people went to sea.

Suddenly, the spiritual energy within a radius of tens of kilometers gathered towards the Skeleton Shore Camp.

“Huh! Someone is making a breakthrough.”

“That’s strange! Why is there such a loud noise? Is someone breaking through to be an advanced Hanging Fisher?”

“Oh, isn’t the spiritual energy gathering towards where Captain Han lives?”

“Let’s go have a look.”

You Lingyun, Wu Xiaoxiao, and the others had already waited outside of Han Fei’s treehouse.

“Sister Lingyun, I can’t imagine how strong Captain will be if he makes another breakthrough!” Wu Xiaoxiao said expectantly.

You Lingyun nodded seriously. “The Eighth Battalion will be invincible then.”

“It’s so strong! Look at the gathering spiritual energy. The breakthrough to become a Hanging Fisher shouldn’t be like this.”

Gu Daliang held his armor box. “The captain’s physique is really tough.”

Little did they know that Han Fei had tried his best to cover up this breakthrough.

Every time he made a breakthrough, he required a huge amount of spiritual energy. He needed to set up a spirit gathering array to attract the surrounding spiritual energy to cover up the spiritual energy constantly pouring out of Forge the Universe. After half an hour, the spiritual energy was still gathering. Han Fei had already consumed nearly 5 million points of spiritual energy and he was about to break the barrier. With a lot of spiritual energy expended, Han Fei became thinner, so he had to swallow two big mouthfuls of Candle Dragon Blood to stabilize the process of the breakthrough.

Crack!

With a crack, the surrounding spiritual energy vibrated and Han Fei’s body seemed to suddenly become a dried river. He shattered three high-quality spiritual stones in a row and narrowly supplied the spiritual energy he needed.

Perhaps because his Void Fishing Technique was too high-leveled, when he made the breakthrough, he consumed more spiritual energy than others.

Besides, he not only needed to breakthrough, but also needed to stabilize his realm, accomplishing the whole task in one stroke. Therefore, Han Fei had to continue to supply the spiritual energy required.

Outside, many people exclaimed.

“Huh? Hasn’t Captain Han finished his breakthrough? Why hasn’t the spiritual vortex stopped?”

Someone guessed, “Perhaps he needs to stabilize his realm after the breakthrough.”

You Lingyun reached out, No one is allowed to peep! We must not affect the captain’s breakthrough

You Lingyun informed everyone by means of sound transmission. After all, speaking out was very likely to affect Han Fei.

But little did You Lingyun know that Han Fei could hear You Lingyun’s voice transmission now!

Huh? Can I eavesdrop on others now? This was the first thought in Han Fei’s mind. Before he had the time to be happy, however, he suddenly discovered that his supply of spiritual energy was slowly diminishing. He immediately looked inside his body only to find that the originally smoothly flowing spiritual energy had begun to thicken. Only after about ten minutes did Han Fei let out a sigh of relief.

It turned out that it was not that the spiritual energy became sticky, but it turned into a spiritual fluid in his body.

Han Fei suddenly remembered what Xiao Zhan and Wen Renyu once said, “Dangling fishers were only low-level cultivators and only by becoming a Hanging Fisher could one formally step on the path of cultivation.”

Could it be that this breakthrough started with spiritual energy turning into spiritual fluid? The transformation of spiritual energy into spiritual fluid lasted for about half an hour.

In this breakthrough, Han Fei consumed a total of about 8 million points of spiritual energy.

When the breakthrough was finally completed, Han Fei immediately looked at his data.

<Owner> Han Fei

Level: 42 (Junior Hanging Fisher)

Spiritual Energy: 146,655 (9,001)

Spiritual Power: 1,501/1,501

Perception Range: 9,999 meters

Spiritual Heritage: Level-5, High-Quality

Spiritual Beast: Twin Yin-Yang Spirit Swallowing Fish (Level-38) Main Art: Void Breaking Technique, Volume Four of Void Fishing (Demon-Level, Divine-Quality)

“How can I be level-42?”

Han Fei was stunned when he saw the number 42.

It shouldn’t be! According to his experience, he should be level-43 now, a well-established junior Hanging Fisher.

Obviously, something went wrong.

He was a Hanging Fisher but was only level-42.

Besides, his upper limit of spiritual energy had become 9,001 with an increase of 1,002 points, but Han Fei always felt something was wrong.

The upper limit was supposed to rise quite a bit after this breakthrough, but it didn't. Han Fei checked his realm and level and his heart sank.

The advantage of the Void Fishing Art on rapid breakthroughs was gone. And although he was level-42 now, his realm was not stable.

However, Han Fei didn't panic. After all, Xia Xiaochan and the others all upgraded like this. In a small realm, the upgrading rate should be relatively fast. He would find out in the future.

But his spiritual power did increase a lot. Not only had he broken a barrier, but he also seemed to grow a little more than he expected in this aspect. Now he could continue to absorb Soul Crystals or the God Scaring Painting.

This was good news. When facing the half-mermaid, Han Fei discovered that the other party's perception range was greater than his own. It could be said that under the offensive attack of powerful masters, whoever had greater perception range would take the upper hand! This was beyond doubt.

Therefore, Han Fei knew that now Soul Crystals must also be included in his purchase plan.

With this in mind, Han Fei frowned. He hadn't collected enough points to buy the Million Poison Fruit yet, but now he also needed to buy Soul Crystals. He didn't have that many points!

Only in a month, the catties of Spirit Awakening Fluid had already been used up by him.

He used all the Spirit Awakening Fluid on his beasts except for the 200 catties he used on himself and what he gave away.

Little Gold had been upgraded by three levels, reaching level-38.

Nine Tails by one level, reaching level-38.

Little Black and Little White by two levels, reaching level-38. Little Fatty was fed 200 catties of Spirit Awakening Fluid, but his level remained unchanged, still at level-38.

They had consumed almost 2,000 catties of Spirit Awakening Fluid. Han Fei couldn't help but sigh. It turned out that the Scattered Stars Island was the most expensive place to stay.

Of course, after spending huge sums of money and countless prices, Han Fei had also gained good benefits. His beasts' combat power had improved a lot.

At least, Han Fei was confident that most Hanging Fishers, if not all, wouldn't be able to beat him.

As for those geniuses, they would be defeated by him sooner or later.

However, Han Fei had only been on the Scattered Stars Island for more than two months, so he was not in a hurry.

When all his beasts reached level-40 and gained some unknown inheritance and he became an advanced Hanging Fisher with some Divine Weapons, he would truly have a place on the Scattered Stars Island.

As for now, he was better off staying on the island and not going to sea. Because once he went in, he might never be able to get out.

In the treehouse.

Han Fei was eavesdropping on other people's voice transmissions.

Someone said, Hey! Where do you think Han Fei is from? He upgrades really fast! It only took him two months to become a Hanging Fisher from an advanced Dangling Fisher... The speed is simply scary.

Someone responded, And don't forget he is a body refiner. This is the really scary part. A girl said, Xin'er, do you think it possible for me to drug Han Fei and make him faint?

Why?

After he faints, I can f*ck him and make him my man!

Puff... Cough, cough...

In the cabin, Han Fei choked and thought, Are these girls serious?

They are too dangerous! We boys have to protect ourselves against these horrible women!

Since he had coughed, he could only go out.

Han Fei smiled and said, "Haha, I had a sudden inspiration this morning and then made a breakthrough. I was really lucky..."

"Congratulations to Captain Han for breaking through to be a Hanging Fisher."

"Han Fei, your breakthrough speed is truly fast."

"Captain Han, I find your temperament has changed."

Han Fei laughed. "Cut the crap! I know that many of you have almost paid off your debt. Is there anyone else who wants to refine an ultra-quality spiritual weapon? I'm available now, and the price is the same as before." Everyone immediately fell silent, thinking, this guy is tempting us again.

Many people hadn't paid off their debt, and they smiled bitterly, saying, "Captain Han, let us collect enough points first. We haven't accumulated enough materials, spiritual energy, or credits, not even close." Han Fei smiled. "No hurry. By the way, I will go to the Refining Hall these next few days. If something happens to the Skeleton Shore, remember to find me in the Refining Hall."

Wu Xiaoxiao stepped forward. "Captain, you haven't taken us to the sea for a long time."

Han Fei paused. "Huh? Really? You know I'm too busy! Wait for me to come back. Then I'll take you to sweep across the Skeleton Shore. As for now, well, you can ask Cao Qiu to take you to the sea. He will take my place for now..."
