

GOF 931

Chapter 931: I, Myself Am Invincible

Han Fei looked around blankly. *Aren't I climbing stairs? Why am I here?*

With previous experience, Han Fei was very afraid that he may have teleported back hundreds of years. He didn't want to go through what happened in the Heavenly Desolate City again.

And why was he in this damn place? Isn't this the Bone Jar Plain?

Jiang Qin had said that six Law Enforcers had once died here!

Han Fei released his perception and found it still didn't work. He looked up and only saw clouds floating in the sky as if everything was real.

Huh! Is this a test?

Han Fei frowned. He wasn't sure whether this Bone Jar Plain was the one he had just flown over or some similar place. If it was, this was the only route to go to the Sky City. Would he be discovered by others?

Of course, what he was afraid of was not the people passing by. Han Fei was confident they couldn't kill him.

At the moment, the most dangerous things were those big jars.

Those jars were like big tanks. Some littered on the ground individually, and some were piled up together. He wondered what was in them.

Since I'm already here, let's check them out. Enforcers are not omnipotent! Besides, I also have the law of gravity... I should be no weaker than them.

Cheering himself on in his mind, Han Fei strode towards a single jar that lay on the ground.

When he looked inside, he found a corpse curled up inside the jar. From its body size, it had to be a child.

Huh? If there is no danger here, where does the danger come from?

Han Fei snapped his fingers and thought of the divination technique, but immediately shivered. *I feel the danger all around...*

Han Fei turned around and looked. But there was nothing but the jars!

Suddenly, his heart did a flip. His body twisted in an abnormal posture, and a black shadow flew past his side.

Han Fei hurriedly stepped back and shouted, "Little Fatty, attach."

Then to his shock, in the jar he just checked, a corpse was standing. It was the kid's corpse!

"Hiss!"

Han Fei gasped in horror because he saw one body after another crawling out of the jars and standing on the jars. Looking around, corpses were everywhere.

“F*ck! So this is why it’s called the Bone Jar Plain!”

His Phantom Glass Wings spread, but Han Fei didn’t move, nor did the corpses. However, he found that among all the jars, a corpse in the distance was looking at him.

It looked like a real person. However, the man didn’t move either. He just stood there quietly, looking at him.

“Haha! What are you looking at?”

Han Fei shouted, “What? Do you want to gang up on me? Can anyone say something?”

Then he saw that the kid’s corpse who were closest to him, only five or six meters away, had already pounced towards him.

Not only the child, but other corpses also rushed over. There were adults, children, old people, men, and women...

BAM!

Han Fei smashed the kid’s corpse with a punch, and his eyes were cold. “Who else?”

Han Fei felt as though he hit a piece of steel. The opponent’s body was tough, but its strength was only equal to that of a junior Hidden Fisher.

Boom! Boom! Boom!

Han Fei kept punching in all directions, sending many corpses flying. With the power of more than 7 million kilograms, he could easily crush ordinary advanced Hidden Fishers.

Boom! Boom! Boom!

Han Fei didn’t use the Art of Invincibility, but every punch he made carried an invincible momentum.

He found that everyone was moving except for the person looking at him. Therefore, Han Fei ran straight at that person.

At the same time, he tried to capture the man with the Void Lines. However, he found that these people had no souls at all and couldn’t be caught by him.

“That’s weird. They’re really just a bunch of corpses.”

Half an hour later...

Han Fei was full of killing intent. There were no fewer than 3,000 corpses destroyed by him. Among them, the strongest one was equivalent to an advanced Hidden Fisher.

However, under the bombardment of punches, the opponents simply had no power to fight back.

But Han Fei was tired!

This meant that every time he shot out a punch, he had to use a lot of energy for the burst of power.

Swish! Swish! Swish!

Han Fei flashed and broke through the siege, releasing a lot of clones to fight the corpses.

Han Fei shouted, "You know what, I don't want to fight."

Hum!

Under the terrifying gravity, all the corpses around Han Fei lay down. These unconscious corpses could do nothing except use their instinctive resistance.

Han Fei flexed his neck and wrist and walked forward step by step. Even he himself didn't notice that every time he took a step, the footprints behind him turned golden, and the fearless momentum on him increased a bit.

Han Fei said as he walked, "If the so-called Bone Jar Plain and Bone Yard only have such little power, how can they stop so many people?"

Suddenly, an icy voice sounded, "You are wrong!"

Hum!

Han Fei suddenly discovered that the law of gravity had failed. This made him frown. He tried to use the law of gravity again, but it didn't work.

"My power?"

Han Fei sneered. "Even if I can't use the power of law, so what? Do you think these corpses can stop me?"

The golden fist marks blasted out, and the corpses along the way were all shattered.

Han Fei felt that the long-existing bottleneck of the Art of Invincibility had loosened, and many images appeared in his mind.

"Huh! No!"

Han Fei was surprised to find that the images in his mind showed the strong master fighting on different battlefields.

It was very similar to what he was facing now. His mind was full of enemies and battles.

It seemed that there was no end to the battle.

Where was Ye Baiyu? Han Fei didn't know.

If he was on the Bone Jar Plain, would Ye Baiyu be here too? Han Fei was sure he had a Sea Token too.

Then, there was only one answer: different people would encounter different scenes after they walked up the steps.

He was fighting on the Bone Jar Plain, while the others were probably in other scenarios.

Han Fei didn't know what he was fighting. The corpses? And why was he fighting them? What's the point of it?

Three hours later.

Han Fei started to put energy fruit in his mouth. However, the corpses rushing from all directions didn't decrease at all as if they were endless.

One day later.

Han Fei felt that his arms were sore, and his reaction time was no longer as fast. Many corpses were already able to touch him.

However, he had activated the Indestructible Body, so even if he let them attack him, they wouldn't be able to kill him.

For some reason, Han Fei suddenly dropped his hands, letting the corpses attack him.

One punch, two punches... A hundred punches, a thousand punches.

Han Fei was knocked to the ground and suddenly saw his footprints. Why did the footprints glow with a golden aura?

BAM!

Sending these corpses flying with a powerful punch, Han Fei found that there were footprints along the way, which all had a golden glow.

"A road?"

Han Fei's heart did a flip: was this his road?

But that was not right!

What did it mean? Was his road one of fighting?

Before, when he was in the Abyssal Chasm, he seemed to have seen his road. The road was very narrow, and there were endless sea creatures ramming at him.

However, on the current road, he just punched, punched, and then punched. Was this his destiny?

Now Han Fei had forgotten that he was fighting. He just subconsciously punched, attacked, and walked forward.

He was thinking, What kind of road am I taking?

It was said that after the realm of Hidden Fisher, with each breakthrough, one would have huge changes. This had been proven by his increase in strength.

But for a long time, he was a little confused about his own path.

From the first combat skill he had learned, to his cultivation of knives, fists, bows, footwork, seals, and even swords...

There were so many things that he had learned, so many that he sometimes forgot some of them. When he had just become a Hidden Fisher, he felt that he should learn as much as possible and then work out a way to integrate them, like what Zhang Xuanyu did, to carve out a road of his own.

Han Fei believed that if Zhang Xuanyu was climbing these steps, it would be easy for him to go to the top.

But Zhang Xuanyu wasn't as lucky as him. Because of that, Zhang Xuanyu couldn't contend with him.

But since he had great luck, why was it still so hard for him to choose his own road?

He wanted to create a combat skill of his own, a knife technique because he was best at using knives.

But how could combat skills be a road?

Then Han Fei thought of the Cosmic Sword. He should have refined this sword long ago. However, every time he thought of it, he just wanted to put it off and had been putting it off until now.

Now he couldn't help wondering why he didn't want to refine it yet...

Han Fei suddenly discovered that he seemed to have been instinctively resisting it.

Han Fei subconsciously threw out a punch, smashing a corpse into pieces, and muttered, "Is it my fists? The road of invincibility is a road in itself, isn't it?"

"No, fist techniques are just a combat skill. Why is the Art of Invincibility a fist technique?"

Suddenly, the images in Han Fei's mind stopped abruptly.

Han Fei stopped subconsciously.

At this moment, he forgot that there were corpses around him, but strangely, the corpses didn't attack him.

He shouted, "Yes! Why is the Art of Invincibility a fist technique?"

"This is the road of that person. He opened up the road of invincibility with his fist technique. But the fist technique is *his* fist technique, and invincibility is not something relating to combat skills."

Suddenly...

Han Fei raised his head. "Invincibility is invincibility. What does it have to do with combat skills? I am invincible myself."

The Blood-Drinking Knife appeared in his hand, and he brandished it randomly as the golden knife light flashed across and all the bones were shattered.

Han Fei took the golden seal again. The golden glow dazzled and cleared the way through.

Then he pulled out the Cosmic Sword and slashed, and a golden light glared.

Then he used stick techniques.

Han Fei raised his head, his momentum soaring. “Invincibility is just pure invincibility. I’m invincible no matter what combat skill I use. I’m invincible because of me!”

Crack!

With a crisp sound, the sight in front of Han Fei suddenly changed, and he returned to the steps.

However, now he was standing in the middle of the steps. Looking down, he could see the fake corpse of Ren Tianfei, and looking up, there was no obstacle anymore.

Han Fei smiled. “Invincibility is not a technique. I am invincible. I am invincible with whatever combat skill I use.”

In an instant, the traces of Art of Invincibility in Han Fei’s mind disappeared.

He had finally mastered the Art of Invincibility.

It could also be said that the Art of Invincibility had disappeared.

With this epiphany, Han Fei felt that his strength had been improved in all aspects. He had had an epiphany about his realm.

Han Fei clenched his fists. In terms of strength, he had already had the power of 8 million kilograms.

Step by step, Han Fei walked up the steps. Without hindrance anymore, he reached the top in a moment.

At this moment, Han Fei saw a person... Ye Baiyu.

Chapter 932: Devil Change

The moment he saw Ye Baiyu, Han Fei knew why.

Ye Baiyu pursued speed. This was his road.

Therefore, Han Fei didn’t see Ye Baiyu when he came in. Because he knew what his road was, he could reach the top quickly.

At this moment, Han Fei had guessed why so many people from the Emyrean Waterfall had come here. They were here to find their roads.

However, Han Fei didn’t know how many of them had a Sea Token.

Without the Sea Token, they wouldn’t be able to see these steps, not to mention set foot on their own roads.

At this moment, Han Fei’s mind had never been so clear. He was about to embark on a road of invincibility. No one could stop him from advancing on the road. He would be invincible, now and in the future.

At this moment, the barrier to the Law Enforcer realm had been broken, which meant that when he was breaking through to become a Law Enforcer, there would be no barrier for him.

Of course, this didn’t mean Han Fei was already invincible.

But in his own spiritual world, he was already invincible.

On the basis of self-invincibility, what he should do and learn was completely up to him.

As for what law he would enforce, Han Fei had already got a clue, but he was still considering his options.

...

Ye Baiyu looked back at Han Fei and was surprised. "You made it up?"

Han Fei grinned. "Yes."

Ye Baiyu took a breath. "You found your road so easily? You're really a genius. I think we should not be enemies. What do you think?"

Han Fei smiled. "Oh, but I think we are. Have you given up on the Sea Quelling Painting?"

Ye Baiyu said, "It has nothing to do with whether we are enemies or not, right? Whoever grabs the painting takes it. Without hostility to each other, we're not enemies."

Han Fei sneered. "In this place, whoever tries to contend for the painting is my enemy."

Ye Baiyu frowned. "Han Fei, aren't you too overbearing?"

Han Fei smiled. "Am I?"

Ye Baiyu was a bit angry. "Yes! We all have the right to contend for the painting. It depends on our own abilities. Do you mean I should surrender it to you even if I grab it?"

Han Fei laughed. "First of all, I don't think you have a chance to grab it. Secondly, even if you grab it, you'll have to give it up."

Ye Baiyu was furious. "Han Fei, do you know what you are talking about? You are making the entire Thousand Star City your enemy."

Han Fei disdainfully said, "So what? Those who contend for this painting are all my enemies."

Han Fei looked up at the temple-like building.

In front of the building, there was a transparent barrier, and Han Fei said casually, "You have come so early but haven't entered yet... It seems that you can't get in, am I right?"

Ye Baiyu retreated to the side, taking a defensive stance. "Han Fei, I have already tried. To enter here, you need a sufficient number of Sea Tokens. I'm afraid we can't enter for the time being."

Han Fei smiled. "Then why don't you give me your Sea Token and let me in?"

Ye Baiyu also smiled. "I knew someone would try to snatch it, so my Sea Token has been taken back. This is the trick of the designer to prevent someone from snatching other's Sea Tokens. If you don't believe me, you can take out your Sea Token and have a try."

Han Fei frowned. As he turned over his palm, a Sea Token appeared in his hands. It trembled slightly, flew up from Han Fei's hand, and merged with the spiritual barrier.

Han Fei felt it a pity that Ye Baiyu arrived one step ahead and handed in his Sea Token in advance.

Han Fei wasn't sure if the first person to hand over the Sea Token would have some advantage, so he looked at Ye Baiyu. "How many Sea Tokens do you have?"

Ye Baiyu was taken aback for a moment. "Of course one. Sea Tokens are extremely rare. It's very lucky to be able to get even one. What do you mean?"

Han Fei smiled. "Okay, I think I'm luckier than you."

Han Fei was relieved to know that Ye Baiyu only had one Sea Token. Although he wasn't the first to come, he had more Sea Tokens!

He flipped his hands again, and two more Sea Tokens appeared and flew towards the barrier.

Seeing this scene, Ye Baiyu widened his eyes. "You... You have three?"

Han Fei grinned and looked at Ye Baiyu meaningfully. "Can't I have three of them? Now, give me a reason not to kick you out. Either you go down these steps, or I will send you down."

Ye Baiyu's eyes flickered. "Han Fei, don't go too far. In terms of strength, I am not as good as you, but are you faster than me?"

Han Fei grinned. "Try me!"

The moment he said this, he flashed past like a phantom without even unfolding the Phantom Glass Wings. The speed was so fast that even Ye Baiyu was shocked.

Swish... Swish... Swish...

Ye Baiyu's body shuttled like white light, and Han Fei like a shadow. Dozens of minutes later, Han Fei frowned slightly.

Although his footwork had been greatly improved, he still had a big gap from this guy in terms of speed.

However, Han Fei didn't panic. As soon as he activated the Overlord Technique, his speed skyrocketed.

Han Fei stretched out a hand and almost caught Ye Baiyu. The latter was horrified and activated a sect method to double his speed.

Ye Baiyu shouted, "Han Fei, although I don't know why your speed has become so fast, don't forget, my family has been famous for its speed for thousands of years. You can't catch me."

Han Fei frowned and suddenly stopped. He felt that something was wrong with the Overlord Technique.

Ignoring Ye Baiyu, Han Fei checked it and was surprised to find that the speed of the Overlord Technique had dropped from 8 times to 7 times.

Huh? Why is this?

Hmm! The power of the Overlord Technique depends on the strength of the user. I've just had an epiphany. Could it be that my strength has increased too much, leading to an increase in my strength, but a weakening of the power of the Overlord Technique?

Yes, that must be the case. The Overlord Technique, after all, is only heaven-level, mid-quality. Ultimately, the efficiency of this technique decreased because I have become stronger.

However, Han Fei smiled coldly. It only required 30 million points of spiritual energy to deduce the Overlord Technique, and he had more than enough spiritual energy to do so.

Seeing Han Fei no longer chasing after him, Ye Baiyu heaved a sigh of relief. He thought that Han Fei stopped because he found that he couldn't keep up with him.

However, he began to panic.

Han Fei's strength was horrible indeed. In his generation, no one was comparable to him.

Besides, Han Fei's peak speed just now reached 60% of his. This was unbelievable!

He still remembered on the Steps into the Sea, his peak speed could surpass Han Fei by more than 10 times.

Standing still, Han Fei muttered, "Deduce."

Ye Baiyu frowned as he found that Han Fei's spiritual energy fluctuated violently like a wave. Does Han Fei still have a secret method?

Han Fei even tilted his head and glanced at him. His meaningful smile was a bit scary in his eyes.

In fact, Han Fei found out that Ye Baiyu was no longer comparable to him in speed.

Once he activated the Agility of Wind, coupled with the Overlord Technique, it was possible for him to catch Ye Baiyu.

The only good thing that Ye Baiyu still had was the Star Teleportation Technique.

After a while, the Overlord Technique was deduced, and new information emerged in his mind.

Devil Change <Heaven-Level, Divine-Quality>

Remarks: A secret method, which uses huge energy as a sacrifice to summon the devil. It can increase the user's combat power by many times in a short time depending on the level of the user.

Current improvement: 10 times

Disadvantages: The stronger the improvement, the more energy consumption. If the energy consumption is too large, the body's potential will be overdrawn.

Deduced Art: N/A

Deduction consumption: 0/100 million

When Han Fei saw the information, he was stunned. *What does the overlord have to do with the devil?*

It wasn't because there was a "devil" in the name, but the name seemed a little creepy and sounded as if the guy who had created this method was demonized.

However, Han Fei didn't care about it.

Seeing the 10-fold increase, he was very excited. If his current strength was increased 10 times, he might even have a chance to beat the green dragon.

Although he was still a lot weaker than the dragon, at least he would have the power to fight back instead of running for his life.

After a long time, Han Fei grinned. "I say it again, leave on your own terms, or should I kick you down?"

Ye Baiyu frowned. "Han Fei, do you have to be such a jerk? Besides, you can't catch me!"

Hum!

Activating Devil Change, Han Fei felt his body swell and terrifying power came upon him. At the same time, he was a little irritable.

Han Fei disappeared and his speed surged, which stunned Ye Baiyu.

Ye Baiyu instantly activated all his secret methods. However, he was astonished to find that Han Fei's speed was much faster than before!

For a time, before the temple, two shadows flickered. Because the speed was too fast, it seemed that there was no one here at all.

After a while, Han Fei saw that Ye Baiyu's breath was a little unstable, which could be the reason for the lack of spiritual energy. Immediately, he shouted and his speed was pushed to its limit.

BAM!

Just when Han Fei almost caught Ye Baiyu, a bolt of lightning suddenly struck down and hit Han Fei.

Ye Baiyu freaked out. *How can this b*stard's speed become so fast? It doesn't make sense! No one can be faster than the Ye Family people. This is common knowledge in the Thousand Star City!*

If it weren't for the sudden lightning strike, Ye Baiyu felt that he would have been caught by Han Fei.

Han Fei had long been accustomed to the power of lightning.

Now being bombarded, he was only a bit out of breath. An electric arc flashed in his flesh and blood, but it was not unbearable to him.

However, he wouldn't be able to catch Ye Baiyu now!

Ye Baiyu said, "Han Fei, it seems that fighting is not allowed here."

"Humph! Then let me try again."

A moment later, when Han Fei was about to tie Ye Baiyu up with the Void Lines, another lightning bolt struck down. This made Han Fei feel helpless. *What a dumb rule!*

Recovering from the shock once again, Ye Baiyu burst into laughter. "Haha! Even God helps me! Han Fei, come on, hit me! I won't run away, come on..."

Han Fei curled his lips. "Let's see how long you'll be laughing!"

Chapter 933: All Arrived

The temple glowed green and waves of water rippled out.

Han Fei tried putting his hand on the spiritual barrier and found that the barrier was extremely soft, without any resistance. However, no matter how hard he tried, he couldn't move forward even an inch.

Standing on the steps, he looked down and could vaguely see a black spot, which was probably Ren Tianfei's fake body.

Han Fei said, "When you came up, was there a person sitting on the steps?"

Ye Baiyu wondered, "What? I met no one when I came in."

"Huh?"

Han Fei's eyes suddenly narrowed. *What does this mean?*

Han Fei asked, "When you climbed the steps, didn't you see a skeleton on the steps?"

Knowing that Han Fei couldn't hurt him, Ye Baiyu said casually, "Did you see anyone there? Except for the steps, there was nothing. Haha, maybe you are being targeted by some creatures here."

Han Fei frowned. *How can this be possible? Wasn't Ren Tianfei just sitting there? Even now I can still see a black spot. Is it an illusion?*

No, Ye Baiyu doesn't have to lie to me. It must mean that different people see different things in this place...

Han Fei said, "What can you see when you look down from here?"

Ye Baiyu said, "Steps... Like a road."

Ye Baiyu was attracted by Han Fei's topic and said, "Are you worried what we see is different? Actually, this is just the beginning. If you can't even get through this, you won't be eligible to grab the painting."

Han Fei sat on the steps, motionless, and ignored Ye Baiyu. *If Ren Tianfei doesn't exist, why do I see him?*

Or, maybe he exists, but Ye Baiyu can't see him?

Han Fei pulled out his fishing rod. Anyway, Ren Tianfei was not far away. He could hook Ren Tianfei's fake body and pull him over.

However, then he found that he couldn't cast out the fishing line at all.

"You can't cast it down?"

Ye Baiyu was also surprised. "It seems that we have to wait!"

Han Fei was speechless. Then why did he hurry here? He might as well have grabbed more resources outside first.

There were so many good things in the Sky City! Since there were various kinds of weird creatures here, there must be some treasures too.

It was a pity that he spent almost all of his time on the road. After grabbing the Sea Quelling Painting, he would take some time to search this city for treasures.

They waited for a whole day.

Here, day and night were almost the same as in the outside world.

At this moment, there was a bright moon and sparkling stars in the sky, looking quite beautiful.

At this moment, a person suddenly appeared on the steps.

“Shier?”

Han Fei couldn't help but let out a cry of surprise.

He had thought that the next would be Cao Qiu or Cao Tian, but he didn't expect Yue Shier to be so quick.

When Yue Shier saw Han Fei, he was also overjoyed. “Han Fei! You're so fast?”

Ye Baiyu hummed beside him. “I'm faster than him.”

Yue Shier glanced at Ye Baiyu and shook his head slightly. “I don't know you.”

Now Han Fei knew that this dude was definitely not that simple.

He flew over the mountain, but how did Yue Shier come over? Fly here as well? How did he solve the big bird in the sky?

Han Fei had a good impression of Yue Shier. He wasn't clear of his real strength, but he was a simple and honest person and seemed to be trustworthy.

Han Fei said, “Shier, have you seen anyone else?”

Yue Shier said, “Nameless was with me. He should be coming soon!”

Han Fei said, “It shouldn't be difficult for Nameless. But, Shier, I'm really curious about what road you took?”

Yue Shier smiled, but didn't answer.

It was understandable.

Han Fei didn't continue to ask but said, “Alright! Since Nameless is coming soon, let's eat a hot pot!”

Ye Baiyu couldn't help licking his lips. He had tasted hot pot. However, before he spoke, Han Fei said, “I don't know you well. Don't join us.”

About half an hour.

When the soup boiled in the cauldron and the fragrance wafted, another figure appeared on the steps.

Nameless saw Han Fei and Yue Shier at a glance and was slightly surprised. Then he walked over and sat down silently. In his opinion, it was normal for Han Fei and Yue Shier to have made it here.

He knew their strength.

Han Fei glanced at Nameless and handed over a pair of chopsticks. "We have waited for you for a long time. Let's get started."

Nameless said lightly, "Wait for Qing Chen. He should be coming soon."

Han Fei was stunned. *Qing Chen? Is this sluggard so strong? Can he be the fifth person to arrive?*

The next minute, Qing Chen appeared on the steps. Seeing them, he shouted, "Thank the sea gods, Brother Han, have you already cooked a meal? Come on, count me in..."

Han Fei was speechless. "Don't tell me there is still someone behind! I don't want to wait anymore."

Qing Chen was taken aback for a moment. "What does it have to do with me? I don't care if there is anyone behind me! Wow, it smells so good. I'm starting to eat!"

In a short while, four people from the Empyrean Waterfall had arrived. This stunned Ye Baiyu. Are the people of the Empyrean Waterfall so strong?

Han Fei had just picked up a piece of fish meat when he saw a blue light flying by, entering the spiritual barrier.

Han Fei had just seen this scene. This was what happened when a Sea Token entered the spiritual barrier. However, no one appeared on the steps. This showed that someone had failed.

Nameless asked, "A Sea Token?"

Han Fei put some fish meat into his mouth and mumbled, "Yeah! It seems that someone has failed."

Nameless and the other two took out their Sea Tokens at the same time, and then the Sea Tokens turned into blue light and entered the spiritual barrier.

Qing Chen smiled and said, "No wonder you are waiting here. It turns out that no one can enter until all Sea Tokens enter the barrier."

Watching them talking and laughing, Ye Baiyu who was isolated couldn't help but snort. "Han Fei, didn't you just say that all the people coming here were your enemies? Why are you eating with your enemies?"

However, the Qing Chen trio didn't care at all, especially Qing Chen who was eating happily and mumbling, "Who is this guy?"

Han Fei smiled. "He's from the Ye Family in the Thousand Star City."

Qing Chen couldn't help laughing. "The family that escapes the fastest? Tsk, how is he even here?"

Ye Baiyu was pissed off. "What are you talking about?"

Nameless faintly glanced at him. "He is right. Last time, a Ye Family person challenged me but couldn't even stand a single attack. It's really... Shameful."

Ye Baiyu's face turned green with anger. "What are you talking about? Your sword wouldn't even be able to touch me!"

Han Fei said, "Come on, Ye Baiyu, don't try to sow discord among us. Yes, I said that. Now the three of them are all my enemies. But why can't I eat with my enemies? It's none of your business."

Qing Chen laughed. "That's right, it's none of your business."

At this moment, another person came. It was actually Cao Jiaren.

Han Fei's eyes narrowed slightly. Wasn't it said that the Cao Family bet on Cao Qiu? Why did Cao Jiaren arrive first?

Cao Jiaren frowned slightly when she saw them, and then glanced at Ye Baiyu. However, she didn't say anything but walked to the side and sat cross-legged.

At midnight, people arrived one after another.

Youye, Ning Jingyao, Li Luoluo, Wang Dashuai...

When Wang Dashuai saw them, he immediately smiled kindly. "Little Junior Brother, you're really fast!"

Han Fei glanced at Wang Dashuai and immediately asked, "Where is sister-in-law? And Senior Brother Chu and Senior Sister Mu? Have you seen Tang Ge?"

Wang Dashuai said, "Bai Lu didn't have a Sea Token and can't come up. I didn't see Linyuan. He should be coming soon. By the way, Tang Ge may not come. His little wife gave me his Sea Token."

At this moment.

Swish!

A green light shot into the spiritual barrier, but no one came onto the steps. This was the sixth time that Han Fei had seen such a scene, which meant that he had six fewer competitors.

Han Fei was surprised. "You said Mu Ling gave you her Sea Token? Why?"

Wang Dashuai smiled shyly. "She said she gave up but couldn't find you, so she just gave it to me. I didn't see you either, so I brought it up."

Han Fei smiled. Tang Ge's wife is not bad!

...

When the morning dawned, there were as many as 60 people here with 12 people who failed. There were more than 20 people from the Emyrean Waterfall. This made Han Fei a little speechless: there are really so many talents in the Emyrean Waterfall!

There were about 10 of them who Han Fei knew well, but now they were all his enemies, which made Han Fei feel somewhat helpless.

When the 82nd person came up, it was Cao Qiu.

Han Fei couldn't help being surprised. *I underestimated Cao Qiu!*

This guy had found his own road! Wasn't he determined to be a great inventor? Was his road the one of invention?

Since Cao Qiu could come up, it showed that he was quite talented and was actually not as timid and fearful as he appeared. He should be careful of Cao Qiu.

However, at this moment, there was only one person left.

Of the 99 Sea Tokens, 16 of them flew over automatically. At this moment, there were 82 people here, so there was only one left.

Just after Cao Qiu, a person appeared on the steps. Han Fei's heart trembled when he saw this man.

"F*ck! Come on!"

Han Fei's eyes flickered. This person seemed to be the young version of Ren Tianfei!

At this moment, this person also took a look at Han Fei without any expression.

But Han Fei was 100% sure that this guy was Ren Tianfei!

This guy was just the dummy sitting on the first floor. Now he had used some special means to come up.

And he looked exactly like a real person.

Chapter 934: Sea Quelling Painting

"Little Junior Brother, what's wrong with you? Is there a problem with that person?"

Chu Linyuan had already come up.

However, Mu Qingchuan didn't come up because she didn't have a Sea Token. And Chu Linyuan and Wang Dashuai came up for nothing but to help Han Fei.

Han Fei shook his head. "No problem. Let's just wait for the spiritual barrier to open."

Everyone looked at Ren Tianfei because he was the only one who didn't speak. Some people couldn't help being curious because they had never seen this person before.

Someone said, "Do you know this guy? Where is he from?"

Someone shook his head. "No, he seems to be from the Emyrean Waterfall."

But the people from the Emyrean Waterfall were also curious about him. Li Luolu's eyes widened.

"Hey, hey! I feel that this person seems to be very powerful, but why is he the last one to come up?"

Yoye smiled faintly. "He knew he would attract the most attention if he came up last."

Chu Linyuan said, "Little Junior Brother, remember, from now on, be careful. Even if it's me and Dashuai, if you find that we are not right, don't have any contact with us. When necessary, you may treat us as enemies..."

Han Fei frowned. "Is it that horrible?"

Chu Linyuan said solemnly. "Yes, you must take it seriously. I didn't tell you about some things before lest our thinking limits you. In fact, the Sea Quelling Painting is not just a painting, and the danger here is not normal. You'll find out when you see it."

Han Fei couldn't help but wonder, "Seriously?"

Chu Linyuan nodded. "Very serious."

Han Fei nodded. "Okay!"

Chu Linyuan seemed very serious.

He would just roll with the punches. No matter what the secret of the Sea Quelling Painting was, he would find out.

When everyone looked at Ren Tianfei, the guy chuckled. "Do you want my Sea Token? It's simple. On the way here, my Sea Swallowing Seashell was smashed. Now I want ten thousand catties of spiritual spring and ten thousand kilograms of Spirit Awakening Fluid, a low-quality Divine battle suit, a low-quality Divine long stick, 10,000 high-quality spiritual stones, 1,000 energy fruits, and spiritual energy fruit each... OK, that's all."

Someone was dumbfounded. "Is this guy an idiot? What does it have to do with us that his things are gone? Does he think we are stupid?"

A sect disciple shouted, "Are you out of your mind? Why should we give these things to you?"

Yang Deyu yelled angrily, "You must be crazy! What are you going to do if we don't give them to you?"

For a while, everyone was outraged. They had never seen such a shameless person before.

Only Han Fei figured out the reason almost instantly.

When he came, Ren Tianfei was close to death. He had been sitting there because he had nothing on him.

Han Fei could be sure that the last person to come was robbed by Ren Tianfei and probably had been killed by him.

He came up last after snatching that person's Sea Token. Because of the restrictions here, no one could attack him, so he could unscrupulously demand whatever he wanted now.

This old fox!

Han Fei was shocked. *Ren Tianfei is really a cunning fox! Why didn't I think of this?*

If it were him, he would have just given Ren Tianfei whatever he demanded.

But Han Fei didn't understand why Ren Tianfei didn't ask him for these things in the first place.

Ren Tianfei smiled and said, "Then I won't take out my Sea Token. Bite me! Anyway, without my Sea Token, you can't do anything... I don't mind. Let's just wait here."

"Ahhhhh! I'm gonna kill you."

Yang Deyu jumped up in a rage, chopping at Ren Tianfei with an axe.

However, Ren Tianfei was just picking his ears, his face full of disdain.

Boom!

A bolt of thunder smashed down, directly smashing Yang Deyu to the ground.

Ren Tianfei smiled. "Oh! Why are you kneeling down to me? You don't have to be so polite."

"Puff!"

Han Fei couldn't help but laugh, he said to Ren Tianfei via voice transmission, *Why don't you ask for more?*

Ren Tianfei didn't even look at Han Fei, but a voice rang in Han Fei's head, *Idiot, do you think others can't hear your voice transmission? It's no use asking for more. Everything I need is in the Sea Quelling Painting.*

Han Fei. "???"

For a time, several people looked at Han Fei.

However, no one said anything, and Han Fei didn't know what they were thinking.

Han Fei threw out 1,000 kilograms of Spirit Awakening Fluid and said, "Look at you, aren't you descendants of big clans or disciples of major sects? Why are you stingy about these trivial things? Can't you scrape these things together?"

Ren Tianfei reached out, took the mass of Spirit Awakening Fluid, and swallowed it. "See, there are still some sensible people here. What about the rest of you?"

He said lazily, "I will give you ten seconds time to consider. After ten seconds, I'll charge double."

For a while, most people looked gloomy and wanted to kill Ren Tianfei.

But the thunder reminded them of this damn rule. If Ren Tianfei didn't take the initiative to take out the Sea Token, other people couldn't do anything to him!

Suddenly, Gong Yue Han said, "I can give you 5,000 catties of spiritual spring."

Suddenly, some people realized that those who gave out their resources first could choose what to give. Who would be willing to give out Divine weapons?

Cao Jia said, "I'll also give you 5,000 catties of spiritual spring."

Sun Mu added, "500 spiritual energy fruits."

Zhang Wen was about to say he would give out spiritual spring but Cao Jiaren got ahead of him, so he immediately shouted, "I can give 2,000 high-quality spiritual stones!"

The others quickly followed them.

"I'll give you 1,000 high-quality spiritual stones."

“I can give 300 energy fruits.”

“Me, 300 spiritual energy fruits.”

Finally, when there were only low-quality Divine weapons left, everyone looked at Zhang Wen.

Zhang Wen was speechless. “Why are you looking at me? I’ve given him 2,000 high-quality spiritual stones!”

Li Heiye said, “Brother Zhang, your family is the richest. You should give him the Divine weapons he wants.”

Li Baizhou echoed, “Yes, Brother Zhang, don’t be stingy.”

Zhang Wen’s face turned black, and in the end, he gritted his teeth and said, “Fine, I’ll give him a low-quality Divine battle suit.”

Suddenly, Ren Tianfei pointed to Cao Tian. “Hey, you. Yes, you. Give me your gloves, I don’t want a long stick anymore.”

Cao Tian frowned but then gave an honest smile. “Do you know me?”

Ren Tianfei chuckled. “The Cao Family! The clans good at fist techniques in the Thousand Star City are only the Cao Family and Chen Family. I guess you are from the Cao Family. Are you giving them to me or not?”

Just as Han Fei suggested, now he demanded more.

The honest smile disappeared from Cao Tian’s face. He reluctantly threw his gloves to Ren Tianfei.

The latter took them casually and rubbed them to erase Cao Tian’s soul mark. Seeing this, many people were shocked: this man is quite strong.

Han Fei couldn’t help admiring Ren Tianfei. *This is really a unique way of robbing! The victims even scrambled to give him what he wanted. I should learn this trick for future use.*

After receiving all he wanted, under the angry stare of the others, Ren Tianfei reached into his clothes and a Sea Token appeared in his hand, which then turned into a flash of blue light and flew into the spiritual barrier.

Chu Linyuan said to Han Fei in a voice transmission, *Little Junior Brother, be careful of this person. He’s really cunning.*

Han Fei thought, *If I tell you this guy is actually a Venerable expert, will you be scared to death?*

He heard from Old Han that Ren Tianfei was once a Venerable expert but was beaten disabled by someone.

So he couldn’t be just a Hidden Fisher. Ren Tianfei made this dummy sit here for decades or even hundreds of years. How could it be an ordinary dummy?

Buzz! Buzz! Buzz~

The spiritual barrier began to ripple and then disappeared.

Like a flash of light, Ye Baiyu had already pushed the door of the temple open.

However, the next second, Ye Baiyu was sent flying backward. A terrifying force shook him back.

At this time, a painting scroll slowly flew out of the door, floating in the air.

Someone was overjoyed. "The Sea Quelling Painting!"

Yang Deyu jumped up, reaching out to grab it.

Chen Aochen punched the air, Mo Feiyan swung her whip out, and more than 20 people took action at the same time.

Boom... Boom... Boom... Boom...

Bolts of lightning fell one after another, and all of these people stiffened and plunged to the ground.

Han Fei smiled contemptuously. *These idiots! If the Sea Quelling Painting could be obtained in this way, why did we take so much effort to come here?*

Someone shouted, "Everyone, this is not the time to grab the painting. Let's wait for a while."

Yang Deyu cursed, "F*ck, how dare it hit me? I'm gonna tear it up!"

Han Fei said leisurely, "OK, do it then. Show me."

Yang Deyu glanced at Han Fei. "Humph! Han Fei, you have offended a lot of people here. Don't be so arrogant. I can fight you for 500 rounds."

Han Fei smiled contemptuously. "Cut the crap, OK?"

Yang Deyu snorted, swearing in his heart, *I'm gonna kill you one day.*

In mid-air...

The scroll opened, the golden brilliance was overflowing in the sky, and the clouds dissipated.

The scroll was up to three meters tall and was unfolded inch by inch. After the golden light dissipated, Han Fei saw rolling mountains, surging rivers, billowing oceans, flowers, birds, fish, and insects...

And the painting was still opening...

Then everyone saw a floating island with a peculiar shape, prominent edges and corners, and pedestrians on it.

In the upper half of the Sea Quelling Painting, there was also a dense starry sky.

When Han Fei saw the starry sky, he suddenly felt something was wrong.

The stars in the painting should be arranged in disorder, but in that painting, there were 28 constellations and 36 stars. In the vast galaxy, there were still many other stars that seemed to be messy but were actually arranged regularly.

In the painting, there was almost everything: scenes of mountains, rivers, forests, water, and fire...

It was hard to imagine there were so many mysteries gathered in a single painting!

But in this painting, everything was very harmonious, like a painting of a whole country.

Han Fei took a breath. He understood. The Sea Tokens were the key to open the Sea Quelling Painting.

When the key opened the door, all beings could enter the painting.

Chapter 935: Professional Painting Examiner

Everyone was dumbfounded. They all lived on the ocean, on the floating island, but had never seen such a painting.

Zhai Shun from the Mountain Sea Pavilion said, "At first sight, I can tell this painting is extraordinary."

Chu Xun from the Grand Void Academy sneered. "You're telling me. If it was ordinary, why would we be here?"

Next to Han Fei, Qing Chen smacked his tongue. "It seems that the better-looking things are, the more dangerous they are. This always seems to be the case..."

Han Fei nodded slightly. "I think the same. Why don't you give up? I'll help you take the risk."

Qing Chen: "..."

Chu Linyuan sighed. "The scene is too grand. It shows that the world in the painting is huge."

Li Luoluo said, "Ah! This painting itself is a treasure, but how can we get it?"

Youye smiled and said, "Don't you know yet? We'll have to go into the painting and find the thing that can control this painting before we can take it!"

Nameless pointed to a mountain peak and said, "This peak looks really impressive."

Ning Jingyao scratched his head and said, "Why aren't there any knife-like peaks?"

Everyone was looking at the painting, including Han Fei. But he was looking at it from a different perspective.

The array of stars he saw was weird and was almost all-inclusive, but he thought there must be something wrong with it.

He tried to enter the star map with an array but failed. In particular, what was the relationship between the floating island in the painting and the star map?

Most people were looking at the floating island. In most people's minds, where people gathered, there would be treasures.

Almost everyone thought the key to the painting was the city.

But Han Fei thought that the key to the painting was definitely not only this city. He regarded this painting as a landscape of mountains and rivers.

However, if it was a landscape of mountains and rivers, why was it called the Sea Quelling Painting?

Suddenly, Han Fei paused. *Was there a floating island back then? At that time, the ocean hadn't overtaken the land, and everything was living in harmony. Where did the floating island come from?*

Mountains, rivers, earth, the floating island, star maps, what is the relationship between these?

Han Fei looked at the edge of the painting and found that this painting was actually not complete.

Han Fei couldn't help thinking, *Could there actually be many Sea Quelling Paintings?*

If there are, what would happen if all the pictures were put together?

But Han Fei immediately laughed. *How could it be so easy? A single Sea Quelling Painting is already a Sea Quelling Bizarre Treasure. How could it be possible to put multiple Sea Quelling Paintings together?*

Han Fei couldn't help but look at Ren Tianfei. The latter still looked lazy and casual.

He turned his gaze to the painting again, the golden light had disappeared, and the painting had been fully unfolded. The whole painting was 3 meters wide and more than 20 meters long. At this moment, it fluttered with the wind, like a jade edict descending from the sky.

Swish!

All of a sudden, a white shadow flashed. It was Ye Baiyu again. He dove into the painting.

Ye Baiyu's figure seemed to be thrown into the water and disappeared.

Someone immediately shouted, "No, we can't let him get ahead of us!"

"Humph, the painting is mine. No one else can grab it."

"Let's see which of us has the best luck."

Swish... Swish... Swish...

One person after another got into the painting, including Nameless, Youye, Li Luoluo, and others beside Han Fei.

Almost in a minute, there were no more than 20 people left before the painting. Everyone else had entered the painting.

Han Fei looked at Wang Dashuai and Chu Linyuan. "Senior Brother, I don't think we will be together after we go in. So, please go in first!"

Chu Linyuan frowned and said, "Little Junior Brother, what if we are in there together?"

Han Fei shook his head. "Impossible. We will definitely not be together. We are fighting for a chance, more than the painting itself. Everyone's luck is different, so it is impossible for us to be together."

Chu Linyuan pondered. "Okay, I will go in with Dashuai and explore the way for you."

At the other end, the three of the Cao Family were still there. Looking at the painting, Cao Jiaren was in a daze, or to be exact, musing.

After a while, seven or eight more people entered.

Qing Chen shrugged. "Fine, I'm going in. Brother Han, take your time if you want to look at it carefully!"

Yue Shier scratched his head. "I can't find anything special from the painting! I'm going in it too!"

After a while, among the people still left here, Sun Mu gave Han Fei a faint look. "I'll wait for you inside."

Mo Feiyan looked at Han Fei and snorted. "Don't trouble me anymore."

Now there were only six people left.

Han Fei, Ren Tianfei, the three from the Cao Family, and Gong Yuehan.

Gong Yuehan came to Han Fei and asked, "What are you looking at?"

Han Fei said leisurely, "Do you think I'd tell you what I was looking at? Oh, the ocean is full of water. Oh, that horse has four legs..."

Gong Yuehan: "..."

Gong Yuehan was not stupid. Now she could still get an overview of the whole painting. But if she went into it, she would be like a drop in the ocean and lose her direction.

Ignoring Gong Yuehan, Han Fei went to Ren Tianfei and nudged him, asking, "You've been watching the painting for a long time. Have you gained any insight?"

Ren Tianfei looked at Han Fei with a smile. "Even if I have, why should I tell you?"

Han Fei shrugged. "Well, maybe I can correct you if you're wrong."

"Humph!"

After half an hour, Gong Yuehan seemed to discover something and got into the painting.

At the other end, Cao Qiu waved at Han Fei and said, "Han Fei, why aren't you in?"

Han Fei chuckled. "I still want to have another hot pot."

Cao Qiu nodded. "I'll eat with you!"

Han Fei said, "Well, then I don't want to eat anymore..."

Cao Jiaren had scanned the painting many times. She was sure that there was a problem with the starry sky, but could not find what the problem was.

She was not an array master. She just intuitively felt that the starry sky and the earth seemed to be related.

Less than half an hour later, Cao Jiaren seemed to say something to Cao Qiu and Cao Tian. Then she turned her head and glanced at Han Fei and Ren Tianfei, saying, "Let's go in!"

When only he and Ren Tianfei were left here, Han Fei stopped pretending. "Old guy, what does the star arrangement mean? You have studied it for more than 300 years. Don't tell me you have no idea."

Ren Tianfei bared his teeth and looked at Han Fei. "You know me?"

Han Fei put a hand on Ren Tianfei's shoulder. "Old Ren, don't pretend. You're Ren Tianfei, right? Come on, tell me what you know of the painting!"

Ren Tianfei smacked his tongue. "I didn't expect that I would find a disciple like you. If I tell you all I know, what is your use?"

Han Fei sneered and said, "What use am I? Of course, to create an ocean and become a king! Alas, you guys are too useless and I know I'm the chosen one..."

Han Fei said, "So, the floating island in the painting is not the Thousand Star City, right? The stars seem to be arranged according to some array, which I don't know. In other words, the mountains, rivers, lakes, and seas in this painting are all corresponding to constellations and stars. If one wants to take the painting, he just needs to understand these stars. But there are still some things hidden in the painting."

Ren Tianfei looked at Han Fei in surprise. "Oh? You're quite smart. Keep speaking."

Han Fei smacked his tongue. "The painting is not important. The important thing is that there is a chance to become a king. Therefore, it is not important whether you can control this painting. There must be one thing in this painting that has nothing to do with the painting itself."

Ren Tianfei couldn't help becoming serious. "Not bad! Yes, compared to the chance of becoming a king, this painting is really not important. If you find the opportunity, it doesn't matter if the painting belongs to you or not. I came to this conclusion after thinking for a long time. Unexpectedly, you came to the same conclusion after such a short time. No wonder you could find my treasures."

Han Fei chuckled. "I'm flattered. So, you have been visualizing it for more than 300 years now. What have you come up with?"

Ren Tianfei shook his head. "At first I couldn't figure it out, but I'm sure what we're looking for must be very small and not a substantive object. I even thought about whether it would be a drop of water in the ocean? But then it would be impossible for me to find it. So, after thinking about it, I thought I still had to control this painting. Then, through the control of this painting, I could exclude the things that didn't belong to this painting, so that it was possible for me to find the opportunity."

Han Fei said in a bad mood, "So I still have to grab the painting first?"

Ren Tianfei chuckled. "Otherwise, what else can you do?"

Han Fei said, "The five elements in this painting are all complete, so the thing must be outside the five elements."

Suddenly, Han Fei's heart did a flip. *If it is outside of the five elements, only the starry sky is left.*

But how can people reach the starry sky?

Ren Tianfei shook his head. "Humans cannot reach the starry sky. Even if the thing is in the starry sky, how can you get it?"

Yes, what he said was right.

Ren Tianfei pointed to a star in the sky and said, "Look, this star is hidden among the stars. If you don't pay attention, you can't find its subtle changes! It keeps flickering, and every time it flickers, it turns red!"

Han Fei frowned. "Will it change color?"

Ren Tianfei nodded. "In a moment, it will change color."

After about half an hour, about an hour from the unfolding of the painting, Han Fei saw the star turn red and immediately took a breath. "That's it..."

Ren Tianfei sneered. "Yes, but what can you do? How can you reach it?"

Chapter 936: Tree Spirit

Pictures popped up in front of Han Fei's eyes, and he had mixed feelings.

He remarked, "Old Ren, did you really never come up with a way of taking it out after you found it?"

Ren Tianfen snorted. "I would've taken it if I could. Do you understand now? If you do, get inside!"

Han Fei rolled his eyes. "How can I understand so quickly? I need to watch it longer."

Han Fei truly wanted to watch it longer. In the pictures, apart from the distribution of stars, the coexistence of the five elements seemed to enhance them.

If Han Fei's guess was correct, the five elements were among the keys too.

Huh? If all the stars fell down, they would form the Eight Diagrams, wouldn't they? Wait, who can possibly understand the Eight Diagrams here? Is it a coincidence? But there has to be Yin and Yang if there are Eight Diagrams...

But Han Fei didn't know anything about this!

Ren Tianfen said, "It's impossible for you to understand it just by watching. You have to get inside in order to comprehend it."

Han Fei looked at Ren Tianfen. "You're not coming?"

Ren Tianfen smiled casually. "Of course I am."

Han Fei was quiet for a moment. "How do I come out?"

Ren Tianfen said, "Easy. You'll automatically come out in seven days. If you don't find anything in seven days, you'll wait for next year!"

Han Fei gasped hard. He didn't know that he only had seven days!

Ren Tianfen stepped forward. "I'll go inside first. It depends on your luck whether or not you can acquire the painting. Fighting is not forbidden inside. Just kill whoever is from the Thousand Star City even if they're so-called Heavenly Talents."

Han Fei was lost for words. "That's easier said than done."

Ren Tianfen said, "Unfortunately, I've been separated from my body for too long. But since you have an Indestructible Body, everything should be fine for you in there as long as you're not trapped by the Nine Sound Maze."

Han Fei asked in surprise, "Nine Sound Maze?"

Ren Tianfen said, "Not everybody who enters the painting can come out. The Nine Sound Maze contains the nine sounds of the ultimate truth. Of course, there may be more sounds, but you can only hear nine of them in the painting. If you're caught in them, you'll be caught in the painting. Not everybody will come out."

"Nine sounds? Are they related to Jiuyin Ling?"

Han Fei didn't think it was right. They were probably not related to Jiuyin Ling but the Comfort and Nature Technique...

Han Fei couldn't help but wonder if the person that Jiang Qin had been looking for was trapped in the painting.

Jiang Qin had always been searching eagerly, yet she gave away the opportunity to him. It seemed that she had high hopes for him!

Thinking that, Han Fei said, "Okay, I'm going in."

...

The moment Han Fei and Ren Tianfen stepped into the painting, Han Fei found that he was alone.

As he expected, everybody who entered the painting would end up in a random location.

This time, Han Fei didn't appear in the sky or the ocean.

He showed up on a mountaintop next to a steep cliff. The view was quite magnificent.

"How splendid!"

The painting depicted a world where wind was blowing and stars were shining.

Han Fei looked around. Did it mean anything that he appeared on this mountaintop?

Wind was not among the five elements. Rather, it was one of the Eight Diagrams...

Han Fei rubbed his head. Wait, wait. He must not think that way. This wasn't his world. If he thought that way, there would be too much information he wasn't aware of, and it would never be possible to crack the secret of the Sea Quelling Painting.

"There has to be a pattern."

Han Fei didn't start searching blindly. Instead, he sat on the cliff and considered what it was that he should look for here.

Han Fei unconsciously performed divination. Then, he vaguely sensed something wrong about the place he was sitting.

Huh? The spiritual energy is extraordinarily abundant here. This is a great spot for training...

Han Fei was quite amused. If he were an ordinary person, he could've worked as a fortune teller with this skill.

Wait a minute!

Han Fei suddenly rose. He didn't come here for nothing. This was a great place for training, as well as a place where natural essence gathered.

Is it luck?

Han Fei's eyes glittered. *Right! The competition for the Sea Quelling Painting is one of luck anyway. If I gather other people's luck, won't I dominate all the luck here?*

Han Fei thought something through. Getting to the bottom of it, he had to win.

But didn't it mean he had to kill other people. That seemed to be the only way to take away their luck.

He tried practicing the Void Fishing Art on the mountaintop. There was nothing special except that the training was faster and purer.

Han Fei looked up at the sky. It was already dawn and the stars were dim. Nothing wrong could be seen.

Hum!

Han Fei jumped off of the cliff and unfolded the Phantom Glass Wings. Next to the cliff was a dense forest and swamp at its bottom. There were vine bridges that seemed to be built by humans among some trees.

I must be in one of the forests in the painting. Considering the cliff, I must be the one close to the bottom left corner.

Now that he had come in, he was no longer anxious. He didn't find the source of the problem even with Ren Tianfen's guidance, so he probably had to travel across what was labeled as the Land of Five Elements.

Han Fei remembered that there was a mangrove on the top left corner of the Sea Quelling Painting. He decided to check it first after he was done here.

...

In the forest, to his surprise, Han Fei didn't find any strange beasts. He found some small fish swimming inside the water, but their levels were very low and they were similar to the big yellow fish. They had nothing special about them.

The forest, on the other hand, was dim and quiet. Nothing could be heard except the flowing water. Vines dangled down from the trees that had been worn out by time.

Han Fei summoned Little White and kept Little Black in Forge the Universe in case of any accident.

Han Fei asked, "Daughter, do you feel any special treasures here?"

Little White swam around Han Fei like a fairy.

It left sparkles falling from its trail, which amazed Han Fei, as it indicated that the breakthrough was extraordinary!

After only three seconds, Little White said innocently, “Dad, there’s a powerful vibe, but nothing dangerous.”

“Powerful, but not dangerous?”

Han Fei instantly said with a smile, “Take me there.”

If Little White said it wasn’t dangerous, it couldn’t be. Han Fei moved at full speed and came to the source of the powerful vibe shortly.

At this moment, Han Fei opened his mouth and exclaimed, “What a thick tree!”

In front of Han Fei’s eyes was a huge tree!

Its diameter was probably above five hundred meters, which was shockingly thick. Also, the tree didn’t look very tall, mostly because it grew inside a deep pit with one side against the cliff.

Information popped up in Han Fei’s eyes.

<Name> Tree Spirit

<Introduction> A special and weird creature that’s between a life and a law of nature. It loves serenity and contains infinite vitality. It’s a symbol of life.

<Level> 69

<Quality> Legendary

<Spiritual Energy> ???

<Battle Techniques> Sweet Drizzle, Death Reverse

<Unabsorbable>

Han Fei gasped hard when he saw “Legendary”. A level-69 legendary creature? This was not just any legendary creature; it was truly legendary!

It was a top expert, comparable to a Law Enforcer, but was probably as strong as an Explorer.

If human beings and other creatures in nature were to be compared, if they were of the same level, human beings were only as strong as the rare or exotic creatures.

If the quality of a creature was legendary, only the Heavenly Talents among human beings could compete with them.

However, they couldn’t beat anything legendary at all. Only the once-in-a-hundred-year top Heavenly Talent could fight them. The case with the Nine-Tailed Mantis Shrimp was the same.

Human beings of the same level as the Nine-Tailed Mantis Shrimp could hardly beat it.

At this moment, if this level-69 legendary tree was dangerous, Han Fei didn't think that he could beat it at all even though he had the invincibility skill, which wouldn't work on a target whose level was so high.

"Huh, a human being!"

While Han Fei was thinking, he heard an old voice.

Han Fei instantly stepped back. "Mr. Tree?"

Han Fei was quite adaptive. When he heard the voice, the very first thing he thought was that it came from this tree, like what happened with the Leafless Tree.

An illusion appeared in front of the tree. He was an old man with white hair and beard and held a club. He was staring at Han Fei in a friendly way.

Han Fei's pupils contracted. *The tree can turn into a human?*

He asked in surprise, "Senior Tree?"

The old man waved his hands, and a wooden table and vine chairs appeared. He said casually, "Human beings don't often come here... Until recently."

Han Fei asked in surprise, "Who else came?"

The old man replied, "Several men came a few decades ago. I offered some treasures to each of them."

Han Fei's lips twitched. *You call a few decades ago recent? I wasn't even born yet back then!*

Han Fei saw a wooden teapot, and Spirit Awakening Fluid inside it.

Han Fei was quite stunned. Wasn't it too much of a luxury to entertain guests with that?

Chapter 937: Fire Seed

Han Fei picked up a cup of Spirit Awakening Fluid and remarked, "Senior, is there a lot of Spirit Awakening Fluid here?"

The old man chuckled. "It is a law. Laws are everywhere in the world, but do you think there are a lot?"

Han Fei realized that Old Jiang was correct, and the Spirit Awakening Fluid was exactly a law. Otherwise, it wouldn't just disappear after it was drunk. Little White and Little Black would've died of indigestion if it were common fluid.

Han Fei looked at the old man. "Senior, this is a world too?"

The old man nodded. "Someone created the sky, and someone created the earth. How could this not be a world?"

Han Fei's pupils contracted, and he asked in shock, "Are you saying that this world was created by someone?"

The old man nodded with a smile. "Naturally."

Han Fei instantly thought of the kings establishing seas. Why was it called establishing seas? Were seas created too?

Han Fei asked in amazement, "Senior, do you mean that the kings can create the sky, the earth, and the seas?"

The old man shook his head. "I didn't say that. The kings can only establish seas. Creating the sky and the earth are beyond them."

The old man looked at Han Fei with a vague smile.

As a result, Han Fei had a horrifying speculation. The Sea Quelling Painting's creator might not be a king at all but an even stronger expert...

Han Fei thought of something. Ren Tianfen was certainly aware of that, but he never told him anything.

If this world wasn't created by a king, it was only natural that treasures to become kings were hidden here. Many experts liked to leave opportunities for the future generations.

Han Fei took a deep breath. "There are other levels above kings? What are they?"

The old man looked up at the sky and changed the topic, "It's too distant."

Seeing that, Han Fei ventured, "The... Open sky?"

The old man simply smiled without saying anything. "Human, you're lucky to have come to my place after you came in. Things wouldn't have looked too good if you showed up somewhere else."

Han Fei's pupils contracted. "What do you mean? Are other places dangerous?"

The old man said, "This world is called a Sea Quelling Bizarre Treasure for two reasons, partly because there are another four fellows who are just as strong as me, and partly because of the grand array here that can kill Explorers."

Han Fei took a deep breath. "There are another four legendary experts at the peak of the Law Enforcer level? Wait, the Sea Quelling Bizarre Treasure should be more powerful, right?"

The old man slightly nodded. "Of course, the stronger the person who wields it is, the more powerful it will be. If a King masters it, they can kill someone in the Venerable level easily."

Han Fei realized that the Sea Quelling Bizarre Treasures were only powerful in the right hands.

However, Han Fei asked warily, "Senior, why are you telling me this?"

The old man smiled. "I'm just a tree! I'm not good at fighting or killing. I tell every person who comes here these things. After all, every newcomer may master this world in the end."

Han Fei asked in confusion, "What's in it for you by informing us outsiders? If my guess is correct, anyone who controls this world will be your master, right?"

Nobody would let go of the opportunity of having five legendary creatures at their will!

The old man nodded. "You're right! If he is qualified to control this world, what's wrong with honoring him as our master? You can talk to the others later. I think someone must be talking to them already, but the conversation won't be so easy."

Han Fei thought quickly in silence for a moment, before he suddenly said, "So, none of you will really kill an outsider? You're just testing the outsiders and seeing who's qualified to control this world?"

The old man nodded.

Han Fei asked again, "Then I want to ask you something else. Since you're so knowledgeable, do you know of ways to control this world?"

The old man smiled. "You're too innocent. Passing our test and winning our approval is only one of the steps. Someone won our approval many years ago. Unfortunately, he didn't make it to the end, and he couldn't control this world."

Han Fei raised his eyebrows. "Oh? Is it so easy to win your approval?"

Han Fei had no doubt that the old man was talking about Ren Tianfen, who won their approval but failed the following test. Otherwise, he would've claimed the painting.

When Ren Tianfen was outside, he had already told Han Fei about the treasures of the kings, but he never mentioned the five guys, probably because in his eyes, it was easy to win their approval.

He watched Han Fei speculate for a long time when they were outside, probably because he was testing him. Even if Han Fei didn't come up with anything, he would've told him. After all, he probably didn't have a chance, as his real body wasn't here at all.

So, the key to the problem had nothing to do with the five legendary creatures.

Therefore, Han Fei simply skipped them and asked, "Senior, I will win the others' approval. I'd like to know what else I should do."

The old man said in admiration, "That's the pride of a top expert. If you pass our test, you will be faced with the Nine Sounds Maze."

Han Fei instantly asked, "What is this?"

The old man revealed the truth without hiding anything. "The Nine Sounds are the laws made by the creator of this world. Seven of the sounds are known as seven feelings, namely happiness, anger, sorrow, ecstasy, fright, devastation, and reminiscence... You can find out the last two sounds!"

Han Fei instantly had a bad feeling.

Seven feelings? Arriving with them as laws? What did it mean?

Clearly, the old man was aware of the last two sounds, but he was reluctant, or maybe unable, to tell him. Why?

Also, the Nine Sounds seemed to match those in who cultivated the Comfort and Nature Technique.

The Comfort and Nature Technique mentioned that, in order to grow stronger, one must forget their feelings. That was why Han Fei didn't feel good.

Han Fei asked, "Senior, there must be other tests apart from the Nine Sounds Maze. Where is that town?"

The old man poured a cup of Spirit Awakening Fluid for Han Fei and said slowly, "That we do not know. After all, we weren't here when this world was first created, but the Nine Sounds were. So, you must investigate the town on your own."

Han Fei heaved a sigh and asked in the end, "Senior, what is with the distribution of stars in the sky?"

The old man shook his head. "That's something unknown to us, just like the town."

Han Fei was rather lost for words. *So, the five of you don't know much either!*

Han Fei suddenly asked, "Senior, what if I don't go to your fellows' place?"

The old man smiled casually, "You'll be hunted by them because they don't know if you're qualified to control this world. Of course, you can escape from them if you're capable enough."

Han Fei rose. "Last question. Senior, do you have anything for me?"

The old man looked at Han Fei thoughtfully and then gave him a seed. "Alright, you may leave. You should know where the other four are. If you can't even find them, there's no way that you can master this world."

Han Fei nodded and flapped the Phantom Glass Wings, soaring up to the sky. Of course he could find them based on the five elements. There was a volcano in the mangrove on the top left corner of the Sea Quelling Painting, and magma seemed to be flowing out.

Han Fei dashed forward crazily with the Wind God Boat. It was also a good chance for him to find out how huge the space was. Although the Tree Spirit never said much, he admitted there were levels above the King realm who could create the sky. So, he might as well call them Sky Openers.

Han Fei intended to find out the size of the world that a Sky Opener could create.

The Sea Quelling Painting was three meters wide and twenty meters long.

However, it took Han Fei almost two hours to cover the three meters.

At this moment, Han Fei looked at the mangrove down below which was ablaze with flames. *9,000 kilometers wide. By deduction, this painting is about 60,000 kilometers long.*

Han Fei swallowed. *Is this the size of a world that a Sky Opener can create?*

It would take the Wind God Boat an entire day to reach one end of the painting from the other end.

Han Fei was caught in a dilemma. He remembered that the ocean was on the west side of the painting, which meant that it would take him a day to meet the guy in the water.

No, absolutely not. I only have seven days. It's enough for me to meet four monsters. After I meet this guy here, I have to go to the mountain that Wuming always craves. That mountain is high and must be a place where legendary creatures live.

Earth was virtuous and gave birth to vitality. There was an area on the left side of the painting where plants and beasts gathered. The creature that represented Earth, as well as the one in the ocean, was probably not easy to meet.

Han Fei couldn't help but grin at this moment. He was truly a lucky man. He had learned so much information from the Tree Spirit. Ninety thousand kilometers away, it had to be the fiery legendary expert's territory, and the journey had been quite smooth.

Hum!

Han Fei jumped off from the boat, not into the woods, but on the top of the volcano.

BAM!

After landing, Han Fei simply shouted, "Senior, I intend to master this world. Please check if I'm qualified!"

Chila!

After Han Fei's roar, flames rose to the sky from the woods, and magma erupted from the volcano.

A cold voice echoed, "Enter the woods."

Han Fei's lips curled, and he quickly dashed into the countless flames.

However, after running for three hundred kilometers, Han Fei found another person in the flames.

Han Fei even knew the guy, who had few interactions with him. However, when he threw a party at the Empyrean Waterfall, this guy did come.

"Liu Shan?"

Liu Shan suddenly opened his eyes. "Han Fei, have you found the mysteries of this world?"

Han Fei grinned. "I won't tell you anything."

As he talked, Han Fei looked around and spread out his senses, only to find that a fireball was drifting close.

Han Fei asked, "Senior, what do you think? Do you need to pick between us?"

Han Fei looked at the approaching fireball regretfully. He had been here for a long time, but the fireball never appeared. It showed up the moment Han Fei came. It was obvious that he wasn't appreciated!

When the fireball arrived, Han Fei saw information in his eyes.

<Name> Fire Seed

<Introduction> One of the spiritual flames in nature. It's the only fire that's been confined to this world and can burn anything that isn't a Sea Quelling Bizarre Treasures.

<Level> 69

<Quality> Legendary

<Spiritual Energy> ???

<Battle Techniques> Furious Burning

<Unabsorbable>

Han Fei crossed his hands and asked, "Senior, I've just come from Senior Tree Spirit, and I'm in a hurry. How would you like to test me?"

Chapter 938: Punishing Saber

Creepy and crimson eyes appeared on the fireball.

When the fireball came to a halt, the temperature of the environment soared to the point where normal Hidden Fishers couldn't endure. Even Han Fei's hair was set ablaze.

Han Fei said, "Senior, is this enough? I won't look very good if my clothes are burnt up."

A cold voice echoed in the wind, "What's it to me?"

Hum!

The fire surged again, and Han Fei instantly took off the Feather Suit of Wind. Instantly, he lost all his hair and became bald.

Liu Shan, who was next to him, hesitated for a moment because he had always been familiar with fire, but then his Semi-Divine battle suit melted. However, probably because he was familiar with fire, he still had his head even after he lost his clothes.

Both of them were naked, and they were rather awkward.

The Fire Seed asked, "Did you come from the Tree Spirit?"

Han Fei nodded. "Yes."

The Fire Seed asked again, "Where are you going to?"

Han Fei glanced at Liu Shan and said straightly, "That high mountain."

The cold voice continued, "The Punishing Saber is the strongest of us. Are you sure you're going there?"

Han Fei didn't know that it was named Punishing Saber. He wondered what the creature would look like.

Han Fei said with a smile, "As I said, I'm in a hurry. I have to go to places that are nearest to me. That's the nearest one."

Pondering for a moment, the Fire Seed looked at Liu Shan. "What do you want to say?"

Liu Ye frowned. He didn't know anything! He arrived here and searched for a while, but he didn't find anything. He thought he had to cultivate here while he continued the search...

As it turned out, it wasn't the truth at all. But what could he do since he didn't know anything?

Han Fei had cried that he wanted to master this world the moment he came. He also mentioned the Tree Spirit. It seemed that he knew many more things!

Not knowing how to respond, Liu Shan simply said, "I'm here to fight."

Han Fei rolled his eyes at Liu Shan. "Do you even know what you're fighting for?"

Liu Shan seemed determined. "Whatever it is, I'm fighting for it."

The Fire Seed said cruelly, "Since both of you want it, you should fight first."

The Fire Seed looked at Han Fei. "If you're in a hurry, fine. You'll pass if you defeat him in a hundred seconds."

"A hundred seconds?"

Han Fei put on a smile.

Liu Ye grinned too. He had seen Han Fei fight and knew that he was good, but he didn't think that the man could beat him in a hundred seconds if he tried his best!

Han Fei nodded. "Okay!"

Liu Shan bellowed, "Fusion... Fire God Body."

Hum!

The temperature rose again, but Han Fei wasn't scared at all. He saw that a weird-looking dark red lobster melted with Liu Shan, but the man didn't use his contractual spiritual beast, which was easy to understand. One reason was that his contractual spiritual beasts weren't well developed, and another reason was that Liu Shan knew that they wouldn't work for him.

Either way, Han Fei didn't really care.

As for the Fire God Body, Han Fei was even less interested. It was just a secret technique that boosted Liu Shan's strength by three times. Under this enhancement, he was equal to a junior Law Enforcer.

However, Han Fei wasn't scared at all.

"Devil Change!"

Boom!!!

A fist mark punched out. It was as brilliant as the sun amidst the surging flames. The terrifying force was unstoppable. That was exactly Han Fei's power.

"Fire Dragon Punch!"

BAM!

Crack! Crack! Crack!

Liu Shan was knocked away and rolled a thousand meters with more than ten broken bones.

Han Fei looked back at the Fire Seed. "Senior, it's done."

Hum!

Fire rose on Han Fei's skin and caused cracks on it, but he didn't even bat an eye.

The Fire Seed looked at Han Fei thoughtfully. "Method of invincibility. Not bad. Alright, you have my approval."

Han Fei smiled. "Senior, do you have any advice for me?"

The Fire Seed shook. "No. The Tree Spirit must've told you everything you should know."

Han Fei was slightly regretful, but then he dropped it and said, "Senior, the Tree Spirit gave me a seed."

The Fire Seed paused for a moment and shot out a stone to Han Fei, who caught it and found that it was a red fiery stone.

Han Fei looked at Liu Shan. "You're too weak for the competition here. You might as well train for a couple of days and leave when the time is up."

Swoosh!

Han Fei rose to the sky towards the high mountain peak without any delay.

Liu Shan was still astounded at Han Fei's strength. The man was only an intermediate Hidden Fisher, yet he had horrifying strength.

It was not a gap between their battle techniques at all, but one between absolute strength. He couldn't help but remark, "What a terrifying man!"

The Fire Seed flew back into the volcano without even looking at Liu Shan. What could this guy fight for if he couldn't even endure one punch?

In the sky, the Wind God Boat darted out as a red streak of light. The mountain was in the center 15,000 kilometers away.

After flying 8,000 kilometers, Han Fei found that a disciple from the Origin Returning Peak was tailing him. He had met this guy named Feng Yifei before.

Han Fei instantly halted the boat. "Why are you following me?"

Feng Yifei said, "Why do you think I'm following you?"

Without further ado, Han Fei simply put away the Wind God Boat. "I'll send you to bed for your stay here."

Feng Yi Fei: "???"

...

When Han Fei was about to send the man to bed, in the ocean on the right side of the Sea Quelling Painting, Mo Feiyan crossed her hands. "Thank you for your approval, Senior."

In the fertile land of plants and beasts, Cao Tian nodded. "Thank you, Senior Xie, but this world belongs to my brother. His enemies are my enemies."

On the top mountain, there was a grass cottage and a furnace burning inside.

Outside of the cottage was a tree laden with pink fruits. If Han Fei were here, he would've recognized that the fruits were peaches.

At this moment, outside of the cottage...

Three men were lying next to Wuming. He frowned. "Senior, is this not enough?"

A cold voice came out of the cottage, "Yes, but you're free to wait if you want to."

Wuming slightly frowned. He had just heard the tales from the Punishing Saber, and he didn't really want to waste his time here.

However, Wuming wasn't in too much of a hurry either. He simply sat in front of the cottage and waited for whoever might come.

Half an hour passed in the blink of an eye, and a streak of light darted close from the sky.

Wuming opened his eyes and put on a smile. "Ning Jingyao?"

However, before Ning Jingyao arrived, a red streak of light swooshed close. The Wind God Boat came too.

Wuming was slightly surprised, but on second thought, it did make sense.

Seeing that Han Fei almost arrived at the same time as he did, Ning Jingyao chuckled. "What a coincidence! All three of us are here!"

Han Fei had just finished off Feng Yifei, who delayed him for a while. When he saw Wuming and Ning Jingyao, he couldn't help but smile. "Heh, I didn't expect to see you. It seems that I need to carry out my real strength now."

Ning Jingyao grinned. "Han Fei, don't you think your level is too low?"

Han Fei smiled. "You think my speed of advancement is slow? You're the one who should be worried. I'm catching up to you in no time!"

Wuming asked casually, "How should we fight?"

Ning Jingyao replied, "Let me pay respects to this senior first."

Han Fei, however, saw the peach tree and exclaimed, "Peaches!"

Shua!

Han Fei flashed to the peach tree, picked a peach, and wiped it with his clothes. He then bit the fruit and said, "Senior, I'll take this world."

Ning Jingyao laughed. "Senior, don't listen to him. He's just kidding."

Wuming looked at Han Fei. "How should we fight?"

Swish!

An intimidating vibe burst out from the cottage, and a cold voice said, "Every time, my place has the most visitors. I don't care how you fight. This swordsman is not bad: he has my approval. As for the other two, show me your strength first. As for those on the ground, get the hell out of here."

Han Fei saw that one of them was Chu Xun from the Grand Void Academy, and the other two didn't belong to any group.

Ning Jingyao looked at them and said, "Hey, are you not going to hide? I don't want the aftermath of our battle to kill you."

Chu Xun gritted his teeth and vomited a mouthful of blood. "Thank you for your time!"

The three of them left one after another with heavy wounds. Were they weak? Certainly not. Han Fei remembered that Chu Xun was quite a remarkable Heavenly Talent.

However, the five legendary experts didn't want remarkable; they wanted the best. So, the normal Heavenly Talents could only be kicked out of here.

Wuming asked for a third time, "How should we fight? I'm in a hurry."

Han Fei smiled. "Let's fight together. You can attack whoever you want however you want."

Ning Jingyao grinned. "Interesting. Let's do it."

The Punishing Saber said coldly, "Fight in the sky."

Swoosh! Swoosh! Swoosh!

All three of them soared to the sky in a triangle.

They went on a rampage almost at the same time.

"Devil Change!"

"Star Demon Saber!"

"Three Thousand Swords!"

Instantly, the sky changed, and the stars and the sun were appearing at the same time, with torrents of saber aura.

There were also thousands of overwhelming swords that descended from the sky.

There were also dragon roars, intimidating blade auras that cut through the void, and godly unstoppable bodies.

Chapter 939: Earth Nine

Sharp auras were rising to the sky from the cottage.

Because they were friends, Han Fei didn't use the Void Lines or Flash. He wasn't afraid of a fair and square fight at all.

At this moment, blades were surging like tides. Han Fei slashed at Ning Jingyao, Ning Jingyao bombarded Wuming with the power of stars, and Wuming cut Han Fei with the light from the sky as a sword.

Boom!

Han Fei shaped a fist mark and broke the illusions of the heavenly swords with three punches. He then punched at Wuming again.

Yang Deyu was dumbfounded when he arrived. He didn't expect to see such a fierce battle.

The Punishing Saber's voice came to Yang Deyu's ears, "If you want my approval, join the fight."

Yang Deyu took a deep breath and realized that he had arrived at a bad time. However, there was no turning back anymore. He simply roared, "War God Will! I have an axe that can cut anything apart..."

The Punishing Saber hesitated inside the cottage. The visitors this time all seemed strong. Any of the four men here would've won his approval if they had come before.

But now that they had come all together, should he approve of one of them, or all of them?

If he approved one of them, wouldn't he have to wait again if the candidate didn't make it to the end?

Never mind. I'll let them pass as long as they're as strong as the man who wields an axe. Right, he'll be the reference. The following visitors who aren't as strong as him will be eliminated.

The Punishing Saber felt like it had made the best decision. It wondered if anyone could master this world. It was rather excited, for if anyone mastered this world, its rise wouldn't be far away.

BAM!

Yang Deyu was the first to fall. His face was bruised and swollen, and he had bleeding wounds all over his body.

Veins were bulging on his body. "S-Sons of b*tches, you're unbelievable!"

BAM!

Ning Jingyao was smashed into the ground, and the shape of a human was printed on the mountaintop.

Pu!

A spring of blood erupted, and Ning Jingyao rose back to his feet and looked up at the sky, before he scratched his head. "I knew his body was strong, but I didn't know it was so strong. His fists..."

"Hoooooo!"

Crack!

A dragon roar echoed, and Han Fei descended from the sky and punched Wuming, whose sword dragon was shattered by one attack.

BAM!

Wuming sank into the soil under the punch, leaving only his head exposed to the air. All his facial organs were bleeding.

Han Fei seemed as daunting as before. He was covered in blood, but that was fine. He was stuffing energy fruits into his mouth while using the Divine Healing Technique on himself.

Han Fei landed and glanced at Yang Deyu. "If you hadn't performed your strongest attack, I would've waited longer to fight you."

Yang Deyu hissed. "If I hadn't performed the attack, I would've been slain by you!"

Ning Jingyao heaved a sigh. "What a shame. I would've been strong if it were a night with stars."

Han Fei mocked, "Enough. Your body won't get any sturdier at night."

Wuming turned into a sword and threw himself out of the soil. His clothes were stained but he stood proudly. "Huh! How many waves of force do you have?"

Han Fei calculated for a moment and found that he had eight waves. But it was easy for him to borrow power and deal up to ten waves.

Inside the cottage, the Punishing Saber's cold voice came out, "Alright, all four of you have my approval. There are more tests in this world. Let's see which of you can pass all of them."

Han Fei was slightly stunned. They won the approval even though they had been crushed?

Han Fei instantly said, "Senior, may I take a peach away?"

The Punishing Saber said, "Yes."

Wuming and the others didn't know why Han Fei wanted the peach. Ning Jingyao asked in confusion, "Is it a great spiritual fruit?"

Han Fei shook his head. "No, it's just a normal spiritual fruit."

Ning Jingyao didn't believe it. He picked a peach and took it too.

Wuming had no interest in foods, so he didn't pick any.

Yang Deyu, on the other hand, had other thoughts. While Han Fei was a gourmand, why would he eat a normal spiritual fruit? There must be something more to it! So, he picked one of the peaches too.

Han Fei was lost for words. "Hey, hey, hey. Do you love peaches too?"

"Baji!"

Han Fei bit the fruit and enjoyed the flowing juice.

Yang Deyu was stunned. Did Han Fei really pick the peach to eat it? He didn't know what to say about this kid.

Ning Jingyao had a bite of the fruit too as Han Fei did. His eyes glittered, as it tasted rather good.

Han Fei said, "In that case, I'll be on my way. Don't follow me."

Yang Deyu chuckled. "Who's going to follow you?"

Ning Jingyao looked at Yang Deyu as if he were an idiot. At this moment, everybody had the same purpose. Han Fei must be going to the next senior. Was he not?

Wuming rose to the sky. "I'll be on my way too."

Ning Jingyao finished the peach quickly and threw its pit off the cliff. Then, he flew away too.

Holding the peach, Yang Deyu scratched his head and left too.

The Punishing Saber inside the cottage, on the other hand, was lost for words at the three fools.

The guy with transparent wings put the peach away after one bite. However, the other three people were different. One of them didn't pick any fruit, one of them ate the fruit and dropped its pit, and the last one held the peach like a moron. Could it really trust them?

The Punishing Saber knew Han Fei's purpose very well.

The very first thing Han Fei did after coming here was pick a fruit. Of course, it was not because he was eager to eat it, but because the peaches could only be found here, and having a fruit meant winning his approval.

It was quite smart that Han Fei had picked the fruit without even fighting. The Punishing Saber would've given him approval even if he wasn't as strong.

As for the other three fools, the Punishing Saber thought that they were too stupid.

The place became empty again, and nobody entered the cottage. Otherwise, they would be surprised to see that the Punishing Saber was not a living creature but a saber in the furnace whose flames were flickering, as if it were wondering if it had made a wrong decision.

...

Han Fei put away the peach.

A moment earlier, he punched Yang Deyu quite heavily and aggressively.

The man was different from Wuming and Ning Jingyao, who were friends of Han Fei. He was confident of defeating them and controlling this world.

However, Han Fei wasn't related to Yang Deyu at all. He had intended to kill Yang Deyu with that punch, but at the last moment, he felt scared and didn't think he should kill anyone.

His fear came from inside the cottage.

Han Fei mumbled, "The five legends don't really want anyone to die. They want more people to win their approval, so that the odds of someone mastering this world will be greater."

Han Fei was certain that the five creatures really hoped that someone could master this world, probably because they already had enough of this place and were eager to go out.

Han Fei didn't intend to go to the ocean, mainly because it was too far away. While there were rivers on the land, the legendary creature that represented water probably lived in the ocean, which better fit it.

Han Fei was going to the legendary creature that represented earth.

That place was only ten thousand kilometers from the cottage.

Han Fei had observed the painting, talked to the Tree Spirit, and fought Wuming and the others during the day. Night had already fallen, and there were only the last two hours to go until midnight.

Han Fei arrived at his destination.

He landed. There were a bunch of rabbits hiding in their lair, a rat that was digging holes, a wild cat that was peeping at him, and birds that were sleeping in their nests.

But for some reason, those creatures were just the most ordinary animals.

Han Fei didn't shout but announced telepathically, *Senior, I plan to master his world. I've won the approval of the Tree Spirit, the Fire Seed, and the Punishing Saber. Here is evidence.*

While talking, Han Fei took out a seed, a fire stone, and a peach that had been bitten, and let them float in midair.

Right after Han Fei said that, a steady and reassuring voice came, "Wait for two hours."

Han Fei slightly frowned. Wouldn't it be a waste of time?

However, there were six days and two hours to go, and he could afford waiting for two hours.

So, Han Fei simply lay down on the grass and stared at the starry sky. He was amazed at the strength of the Sky Opener who had established a world.

The stars still looked weird to Han Fei, who paid special attention to the star that Ren Tianfen pointed out. He gazed at it for half an hour, only to find that the star changed its color and quivered. He wondered if his eyes were deceiving him.

Exactly at this moment, a bear that had a bizarre hairstyle crawled to him. At first, Han Fei thought that it was the legendary creature, but then he realized that it was just a lazy bear.

Lazy bears were known for their messy hair, and their habit of digging out ant nests with their big claws and sucking the panicked insects.

This lazy bear was only level-21. Clearly, it couldn't be the legendary creature.

That bear moved to Han Fei and then fell asleep right next to him.

Han Fei: "???"

A moment later, a wild cat, which seemed to have realized that Han Fei wasn't a bad person, also walked close and lay down next to Han Fei. It even nuzzled Han Fei's hand.

Han Fei didn't know what to say. What a pastoral life!

Han Fei thought that this legendary creature definitely had a good temper, so he closed his eyes and fell asleep.

He was sleeping for real. It was very easy for a cultivator to sleep. All they needed to do was keep their head blank for one minute, but they would wake up immediately if any expert arrived.

At one point, Han Fei felt that a tongue was licking him. He opened his eyes and then saw a pangolin that had golden scales.

A string of data appeared in his eyes.

<Name> Earth Nine

<Introduction> It used to be a spiritual fruit, until it was swallowed by a pangolin. It assumed the pangolin's body and ate the ninth sound in nature. It knows that everything is illusionary and loves everything. So, it's named Earth Nine. Earth Nine loves every creature and never fights. There has been no exception.

<Level> 69

<Quality> Legendary

<Spiritual Energy> ???

<Battle Techniques> Void Escape, Armored Cage, Invincible Body

<Unabsorbable>

Earth Nine glanced at Han Fei. "Everybody was sleeping earlier. It was not the right time for conversation. We can talk now."

Chapter 940: Sound of Fear

When he saw Earth Nine's information, Han Fei was quite shocked. It had eaten the ninth sound in nature?

How? Was sound edible?

Besides, Earth Nine was originally a spiritual fruit. What kind of spiritual fruit could have self-awareness and occupy someone else's body?

Earth Nine gazed at Han Fei. "You seem surprised."

Han Fei rose and then found that the lazy bear was using his leg as a pillow. He was quite lost for words. Were these animals not scared of strangers at all?

Han Fei pushed the lazy bear's head away, but it simply changed its posture and kept sleeping.

He looked around and found that a lot of little animals had gathered around, including foxes, rabbits, butterflies, etc. All sorts of creatures could be found.

Han Fei thought that Earth Nine did love all creatures. It seemed like quite a harmonious scene.

Han Fei smiled. "Senior, I intend to master this world. I'm in a hurry. How do you want to test me, Senior?"

Earth Nine said with its long and narrow mouth. "I have no objection. You've passed my test by treating these animals friendly. Are you going to Water Luster next?"

Han Fei didn't know that the fifth creature was named Water Luster.

Han Fei shook his head. "No, I don't have the time. I'm planning to listen to the Nine Sounds."

"Huh?"

Earth Nine said rather awkwardly, "Well, maybe you will only be able to hear eight sounds, as I've already eaten the ninth sound."

Han Fei pretended to be shocked and exclaimed, "You ate it? Can you eat sound?"

Earth Nine shook its head. "The Nine Sounds aren't just sounds, but laws in this world. I had a special talent that allowed me to swallow the sound. So, only Eight Sounds are left right now."

Han Fei pretended to be surprised. Then, he changed the subject, "Senior, are the remaining Eight Sounds simple? Do you know why the distribution of stars is so special in this world?"

Earth Nine shook its head. "I don't know anything about the stars, but the Eight Sounds aren't simple. Aren't you in a hurry?"

Han Fei smiled and said, "Yes, but I still wanted to ask. How many people have come to your place?"

Earth Nine replied solemnly, "Eighteen. Nine of them didn't win my approval."

Han Fei was surprised. Even someone as benevolent as Earth Nine would fail someone?

Earth Nine said, "I don't want my future master to be uncaring and unsympathetic."

Han Fei got it. "Senior, may I know what the eighth sound is?"

Earth Nine replied solemnly, "Forgetting."

Han Fei raised his eyebrows. The sound of forgetting? It was exactly like in the Comfort and Nature Technique.

As he expected, Jiuyin Ling's ancestor had heard the technique from the Sea Quelling Painting.

Also, Jiuyin Ling's ancestor must have been very strong to hear all the Nine Sounds. However, her ancestor didn't acquire the Sea Quelling Painting, which indicated the failure of the final test.

If the eighth sound was forgetting, the ninth sound must be the sound of love. That sound had been swallowed by Earth Nine, which lowered the difficulty of the test.

Nevertheless, Han Fei wondered what the sound of forgetting was really like and how to resolve it.

Above all, Han Fei further confirmed that something was seriously wrong with Jiuyin Ling's Comfort and Nature Technique.

Han Fei crossed his hands and said, "Senior, can you eat the eighth sound?"

Earth Nine: "..."

Earth Nine shook its head solemnly. "No. I lost my swallowing ability after eating the ninth sound. Also, the eighth sound contradicts the ninth one. I can't eat it even if I wanted to."

Han Fei nodded his head, deep in thought. "Senior, do you have any keepsakes for me?"

Earth Nine thought for a moment and threw a scale to Han Fei.

Han Fei heaved a sigh. "Very well. I'll be on my way."

"Wait a minute!"

Han Fei was about to leave, when Earth Nine stopped him and said, "Water Luster is as unapproachable as Fire Seed. If you don't meet it, it will be hard to deal with when it comes to you."

Han Fei smiled. "Thank you for your information. Right, Senior, where can I hear the Nine Sounds?"

Earth Nine thought for a moment. "Somewhere closer to the town."

Han Fei smiled. "Okay!"

Han Fei left without hesitation. He heard Earth Nine's advice but didn't consider it a big deal.

He already had four keepsakes, and he didn't think that Water Luster would give him a hard time. After all, all the five creatures were looking for a master for the Sea Quelling Painting. There was no reason why Water Luster would give him a hard time...

The first day had passed. Han Fei didn't think the following days would be easy. Through the conversation with the Tree Spirit and Earth Nine, Han Fei believed that the eighth sound was the key.

The Nine Sounds, on the other hand, was just one test. After passing it, he had to take other tests in the town.

He wondered if there was any way for him to pick the star from the sky.

Han Fei was rather lost for words. Since when had he become so strong to think that he could pick stars from the sky?

However, Han Fei had no time to bother with that for now. If everything went out as planned, he would be the first to pass the tests of the five legendary experts.

Oh, wait, four legendary experts. The fifth one was ignored for now.

About half an hour later, Han Fei saw a land that seemed to be covered in an array. Everything there had special arrangements and fit the distribution of the stars. It could be seen obviously.

Also, the vague mist made the scene even more splendid.

Naturally, Han Fei was not in a hurry to dash into this place, even though he was only five thousand kilometers away from the town.

The mist and the starry array had locked down the area. Of course, he could fly to the sky and then over to the town. However, it meant that he would pass the floating island and reach the other side of the Sea Quelling Painting.

Moving to the top of the Sea Quelling Painting along the mist, Han Fei finally confirmed that all the nine thousand kilometers had been locked down. The mist wasn't thick, and it stretched far away.

He hadn't seen anyone after flying for such a long time. Whoever was qualified to fight for the Sea Quelling Painting must still be looking for the five legendary experts.

Han Fei grinned. Since he had to go there anyway, he might as well do it now.

Hum!

Han Fei stepped into the mist. Immediately, the scene changed, and he came to the surface of the sea.

"Huh? Is this an illusion? Or something else?"

Bang!

A bell seemed to be echoing between the sky and the sea.

"Huh?"

Tides rose high and smashed Han Fei. At this moment, he knew that it was the test.

However, the next moment, a pair of shockingly huge wings, which belonged to a green bird that was more than three hundred meters long, rose. It stood in front of Han Fei.

"Water Luster?"

Han Fei frowned. Was it because he never visited it?

However, this couldn't be Water Luster's real self, because he didn't see any information.

Nevertheless, Han Fei felt like a mountain had just been imposed on him, and he was enshrouded in a terrifying aura.

A crisp and cold voice said, "Human, you don't intend to meet me?"

Han Fei narrowed his eyes and took out the seed, the fiery stone, the peach and the scale.

Han Fei said, "Senior Water Luster, I've won the approvals of four seniors. I would've visited you if you were closer. I intend to control this world, and you want the Sea Quelling Painting to have a new master. If so, why do you want me to waste my time?"

"Huala!"

The sky was instantly filled with dark clouds, and high tides were rising on the surface of the sea. The air became cold. The big bird was threatening.

For some reason, Han Fei felt that his heart was palpitating.

"Huh?" A feeling of fear proliferated in his heart.

Water Luster said coldly, "Human, do you think you don't need to win my approval because you've got the others'? You think I'm nothing?"

Han Fei said solemnly, "Absolutely not. Senior, even if you don't trust me, don't you trust the other four seniors?"

Water Luster flapped its wings. "Why would I care about them? Since you didn't come, I'll just kill you..."

Han Fei saw that the tides had been raised almost three hundred meters high. Faced with such enormous tides, Han Fei couldn't help but wonder if the bird was getting serious and this wasn't an illusion at all.

However, Han Fei's eyes flashed. "I said I would control this world. We've met and talked. You don't have a reason to kill me. I'm the first one to come here anyway. So, you are the sound of fear, right?"

Before Water Luster said anything, Han Fei sneered. "I've felt fear growing in my heart ever since you showed up. However, do you not know that I've been walking on the path of invincibility?"

Hum!

A golden fist raged out and punched at Water Luster, who was much larger than Han Fei himself.

Han Fei roared, "I'm going to take this world. What can you do?"

Bam! Bam! Bam!

Dozens of holes were left in the tides.

Water Luster shrieked, and lightning struck Han Fei. But Han Fei wasn't intimidated at all, as he had faced many bolts of lightning in his life.

When the tides three hundred meters high came at him overwhelmingly, Han Fei remained still.

Han Fei stared at Water Luster. "You chose the worst law of sound. I'm determined to control this place, and I'm going to beat anything in my way..."

BAM!

The tides poured and knocked Han Fei over.

However, Han Fei returned to the mist in the next second.

Han Fei put on a smile. "Just as I expected... Huh, it's not an illusion?"

Han Fei was drenched, and his internal organs were rolling. There was also blood on his chest. He was quite astonished.

"Damn it! It's not an illusion?"

Han Fei had a speculation. Maybe this place had truly transferred him to the surface of the sea with the star arrays.

He was pretty sure that the fear in his heart was a test.

Did it mean that he had met Water Luster and passed the sound of fear?

Han Fei gasped and cast the Divine Healing Technique on himself. He also filled his mouth with energy fruits.

He was lost for words. This was just the sound of fear, and it wasn't an illusion at all. What about the other seven sounds?
