As long as Li Shilong and these people go in, the days can be stable.

In this way, even if one day, he really has something, Juliana Lewis can live safely.

Three senior brothers agree with Benson Leach's practice.

Benson Leach called directly: "Black Hawk, blockade S City Airport, and highway junctions, etc., never let Li Shilong and others escape from S City."

Three senior brothers looked up and looked at Benson Leach deeply: "Li Shilong..."

Benson Leach said to the three brothers: "Li Shilong is the biggest drug lord in Daxia. Hallucinogens have been modified and turned into drugs and flowed to the world."

Therefore, to seal the city and set up checkpoints, it is impossible for Li Shilong to run away.

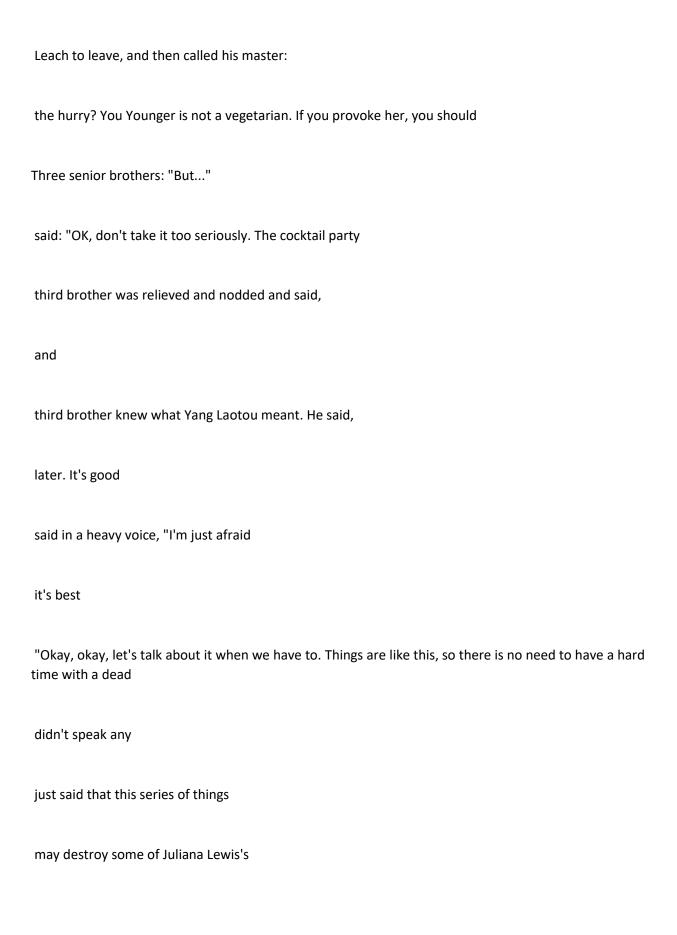

Three senior brothers looked gloomy. He said to Benson Leach, "You go to find a little wine. She may still be in danger. Li Shilong is eyeing her. I have other plans here."

Benson Leach looked at the three senior brothers and asked him, "Three senior brothers, let me ask you a question. If I can't control my situation, can I do anything by myself?"

The three brothers were silent for a moment, shook their heads and said, "No."

Benson Leach didn't say much and drove away directly.
