Bao Jiaguo is busy. He said to Juliana Lewis, "I'll tell you about this matter when Benson Leach and you are all right."

He said to Juliana Lewis with certainty: "However, you do have antibodies in your blood. Adding this antibody is the real antidote, otherwise it is useless to add anything and how to mix it."

As he said, Bao Jiaguo said: "This is why you have been unable to find out what the other ingredient is."

With this sentence, Bao Jiaguo didn't say it again, because he was busy.

Benson Leach hasn't woken up yet, so he needs to extract antibodies from his blood quickly.

After Juliana Lewis stunned, he didn't ask again.
