Chapter 1073 Misunderstanding-

Juliana Lewis looked up at Li Slack. He looked a little fierce, but what he said seemed to be easy to get along with.

Li relaxed to see Juliana Lewis looked over, also slightly nodded.

Benson Leach asked Li Songjin: "The second brother should know what caused Li's family to become like this?"

Li Songjin: "Yes, my mother is the leader of a criminal group in The Night Wolves, and then my eldest brother broke the law and even kidnapped three younger siblings as hostages, which almost caused great disaster."

As he spoke, Li relaxed and looked at Juliana Lewis and lowered his head: "I apologize to my three younger siblings for this. They almost hurt you."

Juliana Lewis said, "Don't do this. This is what they do. It has nothing to do with you."

As long as you don't want to avenge them, everyone can still live in peace.

Li relaxed and looked up: "Thank you for your understanding."

Benson Leach: "What did my second brother do abroad these years?"

Li Songjin: "I have done a little business, and I still like reading at most. I don't care much about things at home, and I rarely come back."
