Chapter 1087 Out of the Circle-

Benson Leach looked at the landing wine: "Then he broke off the relationship. The second brother went abroad and rarely came back, although they all made up later."

Juliana Lewis: "Shouldn't it, Lijia's prominence, still need to send women to please big brothers?"

Benson Leach chuckled out loud: "That's not necessary, but who would think that there is little interest? Moreover, he felt that the girl hindered the second brother's way. Since she can be removed, she can also get benefits, isn't it a good thing?"

This is killing two birds with one stone.

Juliana Lewis nodded. "That second brother just accepted the fact?"

This kind of behavior is very annoying, but it is really what Li Shilong will do.

Benson Leach: "The second brother will definitely not agree. Anyway, a lot of things have happened. Finally, the second brother found that the girl was willing to follow the big brother, and he gave up."

Benson Leach saw that Juliana Lewis was gossiping, so he told some things he knew.
