

Got Busted 78

Chapter 78: Jealous

Zach was also nervous, because it was the first time the specific medicine was used and he didn't know if there were any side effects after all.

He had done some research and found that Lidoderm 7 was currently the most suitable and most effective way to control Benson's condition.

It took one minute to get the results of this test.

But this minute was a long time for those who waited.

Zach was nervous as he watched the value change gradually and finally, he laughed out loud, "Grandpa Leach, it's back to normal. It's 0.5."

In Benson's case, it was only when the value was 0 that he completely recovered and would not get sick again.

0.5 meant that his condition was under control and would not flare up anytime soon.

Old Mr. Leach was completely relieved, but soon, he was worried again, "Will his..."

Would the attacks of his disease become more frequent and dangerous in the future?
