Chapter 86: The Base

Sebastian led the way to the top floor, the presidential level ultra-luxury suite.

That was why Benson had asked the question.

Sebastian rubbed his painful ass and said, "I'll take you to a top-secret base!"

Sebastian fumbled with the bedside lamp, pressed it, and soon the wall with the TV moved away.

Benson looked to Sebastian and thought to himself, "Did this guy forget that the Yates and Leach families don't get along? He actually opened the mechanism in front of me?"

Sebastian walked in front and did not forget to take credit with Juliana, "Master, am I great? This is designed by me personally."

Juliana looked at the yellow flowered shirt and white suit pants Sebastian was wearing today, which made him look dandy and noble, but it was ruined by the peacock hair brooch on his chest.

Sebastian, "Here is a revolving staircase to the basement, which connects to the next block."

Juliana looked at him speechlessly, "Can't we just go there directly?"

Sebastian said confidently, "Of course not, otherwise how could it still be called a top-secret base?"

Benson followed quietly, expecting some powerful mechanisms, but it turned out that he had thought too much.
