

Invincible Uncle-Grandmaster - Chapter 191 – 200

Chapter 191: Su Li

“Stop! What are you doing in broad daylight?!”

As soon as the words fell, everyone felt a gust of wind blow past them, and then a woman full of heroic spirit appeared in front of them. She was dressed in a white robe and had slanted eyes.

The woman carried a heavy sword on her back, and her entire body emitted a dense killing intent that was incomparably fierce and made it impossible for the others to look straight at her.

“Who are you? How dare you interfere in the affairs of the Fish Dragon Gang!”

The scar-faced woman was fearless. She raised the long saber in her hand and aimed it at the woman.

No matter what, she was still a Heaven Stage cultivator. How could she be so easily frightened by the other party’s words?

“Hehe, so many women are bullying a single boy. Don’t you feel ashamed?”

The white-robed woman narrowed her eyes and sneered.

“Hmph, this person killed the hall master of our Fish Dragon Gang. His crimes are unforgivable. I suggest you stay out of this. Otherwise, don’t blame me for being impolite!” The scar-faced woman said angrily.

Hearing this, the white-robed woman first looked at the corpse that was like a King Kong Barbie on the ground, then looked at Qin Jue and said righteously, “Is that right? I think it’s most likely because this person has ill intentions towards this youth that she was killed, right?”

“...”

The scar-faced woman was immediately speechless. After all, it was the truth. Even she couldn’t help but have evil thoughts after seeing Qin Jue, let alone that Hall Master Yang who was even more lustful than her.

“Hmph, cut the crap. This has nothing to do with you. Since he had killed the hall master of our Fish Dragon Gang, he must pay the price!” After a moment of silence, the scar-faced woman shouted sternly.

“Sorry, I just can’t help myself from interfering when I see injustice. Since you refuse to realize your mistakes, let’s see if your saber is faster or my sword is better.”

At this point, the white-robed woman paused and continued, “No, you don’t even deserve to be killed by my sword.”

“You!”

The scar-faced woman was furious. “You’re courting death!”

As soon as she finished speaking, the aura of a peak Heaven Stage expert instantly soared into the sky, and it caused the surrounding grass to sway continuously.

Seeing this, the other members of the Fish Dragon Gang hurriedly dispersed and shouted in unison, “Boss is mighty! Boss is mighty!”

“Peak Heaven Stage huh...”

Facing the scar-faced woman whose aura was fully released, the white-robed woman curled her lips in disdain and turned to Qin Jue. “Don’t worry, don’t be afraid. Big Sister will protect you.”

Qin Jue :”...”

He had just experienced being harassed by a woman yesterday, and today, he was being protected by a woman. He really did not know whether to laugh or to cry.

Hai, perhaps this was the trouble of being too handsome!

...

“Take this, Dragon Slash!”

The scar-faced woman waved her large saber, leaving behind afterimages. She slashed at the white-robed woman with enough power to split a small mountain apart!

“You overestimate yourself.”

The white-robed woman stretched out her slender fingers and raised them slightly.

“Rise!”

In an instant, a terrifying spirit energy fluctuation spread out. With the white-robed woman as the center, it quickly formed a circle of visible energy ripples that enveloped all the members of the Fish Dragon Gang, including the scar-faced woman.

Then, the scar-faced woman froze as if she had been immobilized by an Immobilizing Spell. She could not move at all. The spirit energy emitted by the long saber was also frozen in midair, looking exceptionally strange.

“A... a domain, you are a Supreme Stage expert.”

The scar-faced woman opened her mouth in horror.

That’s right, the white-robed woman had activated a domain power that only Supreme Stage experts and above could use.

Logically speaking, a Supreme Stage expert’s domain could at most limit the speed of a Heaven Stage expert, especially since the scar-faced woman had already reached the peak of the Heaven Stage.

However, the white-robed woman was able to still freeze the scar-faced woman in place. Thus, it could be seen how powerful she was.

“You guessed right. Too bad there’s no reward.” The white-robed woman grinned and said happily.

“No!”

The scar-faced woman was about to beg for mercy when the white-robed woman suddenly took a step forward. She arrived beside the scar-faced woman and returned to her original spot.

At the same time, the scar-faced woman’s head fell with a bang, her face still filled with fear when it dropped.

From the beginning to the end, the white-robed woman had not pulled out the heavy sword on her back. It was as she had said, the scar-faced woman was not qualified to be killed by her sword.

“ ... ”

There was dead silence!

After a brief daze, all the members of the Fish Dragon Gang shivered and kept quiet out of fear. They could hardly believe their eyes.

Their leader had died just like that?

The white-robed woman removed her domain and looked down at the remaining members of the Fish Dragon Gang. She smiled. “What? You want to die with her?”

The dozen or so members of the Fish Dragon Gang were shocked and shook their heads hurriedly.

“Then get lost.”

Hua!

In the next moment, all the members of the Fish Dragon Gang immediately scattered, not caring about their leader.

They valued their lives more!

The white-robed woman snorted and landed beside Qin Jue. “Are you alright?”

“ ... ”

Do I look like I’m not alright?

“No.”

Shaking his head, Qin Jue hesitated for a moment and added, “Thank you.”

No matter what, the other party had helped out of goodwill, so he naturally had to thank her.

“Hahaha, there’s no need to thank me.”

The white-robed woman patted her chest and said indifferently.

It was only at this moment that Qin Jue noticed that the white-robed woman’s chest was surprisingly big, almost bursting her clothes and would probably shake furiously when slapped.

“By the way, what’s your name? And why are you here alone? It’s too dangerous here so it’s best for boys not to run around.”

“ ... ”

Taking a deep breath, Qin Jue said truthfully, “I’m Qin Jue.”

“Qin Jue? Good name. Hehe, my name is Su Li. I’m preparing to go to the frontlines to resist the demon race from another world.”

The white-robed woman smiled naturally.

“Demon race from another world? What demon race?”

“You don’t know?”

Su Li was shocked.

“I don’t know.”

Qin Jue seriously pondered for a moment but didn’t find anything about the demon race from the tall woman’s memories.

Presumably, because the tall woman’s cultivation was too low and she was located in a remote area, she did not know what was going on outside.

“Fine.”

Seeing that Qin Jue really didn’t seem to know, Su Li deliberated over her words and explained, “Actually, I also just found out not long ago. I heard that half a year ago, a spatial rift suddenly appeared in the Far East, and a large number of demon race experts from another world surged out from there. Wherever they passed, living beings were plunged into misery, suffering, and death. Before this, the Far East was protected by some top factions and there wasn’t any news. However, for some reason, more and more demon experts

had appeared as of recently. Eventually, those top factions couldn't hold the fort any longer and could only summon other cultivators to help."

"I only planned to help after seeing the summoning order."

Those itinerant cultivators who were willing to stand forward to defend against foreign enemies at such a time often had a strong sense of responsibility and justice in their hearts. No wonder Su Li would stand forward to save Qin Jue.

After hearing Su Li's explanation, Qin Jue was surprised. It seemed that such dimensional wars didn't just exist in novels.

In fact, if not for the differences in environment, the Spirit Central World would have already started a war with the Hell World.

Even if there was no war, there were still existences like the Eternal Night Emperor who would cross over to the other world. It was still unknown whether there were any cultivators from the Hell World that had crossed over to the Spirit Central World.

"Oh, also, I remember that it was mentioned in the summoning order that the demon experts are coming from a place called the Asura World."

As if recalling something, Su Li continued.

"???"

Qin Jue was stunned. The Asura World?

Invincible Uncle-Grandmaster - Chapter 192 - Far East

Chapter 192: Far East

"Asura World..."

Qin Jue was stunned. Then he remembered the Spirit Clan. Was it the same Asura World he knew about?

After all, Qin Jue had learned from the memories of the Spirit Clan's First Elder that due to the scarcity of cultivation resources, the inhabitants of the Asura World had no choice but to rely on invading other worlds and

plundering more resources to strengthen themselves. Moreover, such a situation had already persisted for more than ten thousand years.

In that case, the Asura World should still be around and was yet to be destroyed.

However, why had they not made an attempt to head to the Spirit Central World in the past thousands of years?

Given the Spirit Central World's surface-level strength and abundance of resources, it should have been their primary target.

Since the Asura World could forcefully tear open a spatial rift in the Profound Mysteries Realm, why had they not done the same and invaded the Spirit Central World for the past thousands of years?

What exactly happened during this period?

Qin Jue was puzzled.

"What is it?"

Seeing Qin Jue frowning in thought, Su Li asked.

"Nothing."

Qin Jue regained his senses and shook his head. "Can I go with you?"

"Huh?"

Su Li thought that she had misheard. "Where?"

"To the frontlines."

"No, you're a boy. How can you go to a place like that? It's too dangerous."

Su Li's expression changed as she refused.

Qin Jue : "..."

"Since you're unwilling to bring me along, I'll just have to go there myself."

With that said, Qin Jue lightly stomped his foot and turned into a stream of light that flew towards the horizon.

“Hey, wait. Fine, I’ll agree.”

Su Li panicked and hurriedly chased after him. “You boys are so troublesome.”

Qin Jue :”...”

For some reason, he suddenly wanted to punch Su Li.

“Come with me, but you have to remember that you can’t run around casually. A beautiful boy like you will easily be targeted by some bad people.”

Su Li’s expression was solemn as she attempted to intimidate Qin Jue.

Hearing this, Qin Jue couldn’t help but roll his eyes. If he had known this would happen, he would have gone alone. It would have saved him so much trouble.

But no matter what, Su Li could be considered to be his “savior”. He couldn’t just leave without saying goodbye. Therefore, under Su Li’s lead, the two of them quickly left this area and headed towards the Far East.

Because Su Li was only at the Supreme Stage, their speed couldn’t be considered fast. Moreover, because Su Li was worried that Qin Jue wouldn’t be able to keep up, she deliberately slowed down, so it wasn’t until evening that the two of them flew more than a thousand kilometers.

“There’s a town up ahead. Let’s rest there for the night.” Su Li yawned and said lazily.

It was hard to imagine that this was a Supreme Stage expert, but in a way, Su Li’s personality was actually very similar to Qin Jue’s.

The difference was that Su Li liked to interfere when she saw injustice. Compared to Qin Jue, she was much more friendly.

As soon as they entered the town, the two of them attracted many curious gazes. After all, they were both peerless beauties. No matter where they went, they would still be dazzling existences.

Hu!

Su Li did not hesitate to spread out her spirit energy. The aura that belonged to a Supreme Stage expert immediately made some fellows with ill intentions shrink back and quietly retreat.

In such a place, Supreme Stage experts were invincible existences, so why would anyone dare to jump out and court death?

“Boss, are there any more rooms here?” Su Li walked into an inn and asked loudly.

“Yes, yes, yes.”

The boss was a charming woman. After seeing Qin Jue and Su Li, she raised her eyebrows and said meaningfully, “But there’s only one room left. Do you still want it?”

Glancing at Qin Jue, Su Li said indifferently, “Yes.”

“Alright.”

Entering the room, Su Li first looked around before saying seriously, “I want to cultivate tonight. You can sleep by yourself.”

As soon as she finished speaking, Su Li didn’t waste her breath any longer. Her eyes narrowed as she directly sat cross-legged and entered a cultivation state.

Qin Jue didn’t know whether to laugh or to cry. How could he not tell that the reason why Su Li stopped to rest was because she was worried that he would be exhausted?

At this rate, it would take them at least half a month to reach the frontlines.

It could only be said that Su Li had greatly underestimated him. If one didn’t know better, they would probably think that he played the role of the woman between the two of them. Wait... that was the norm of this world, after all.

Sighing, Qin Jue slowly laid down. He had to think of a way to travel faster tomorrow no matter what.

The next morning, before dawn, Su Li woke up from her cultivation and looked at Qin Jue, who was sleeping soundly on the bed. Su Li was slightly absent-minded.

Although he was sleeping, Qin Jue's temperament was still impossible to hide. His face was especially charming and it could be said to be beautiful from any angle. Even Su Li couldn't help but be intoxicated by it.

Therefore, Su Li subconsciously stood up and walked towards Qin Jue.

At this moment, Qin Jue suddenly opened his eyes and happened to see Su Li's outstretched finger. Their eyes met, and the atmosphere was extremely awkward for a moment.

"Uh... don't misunderstand. I just wanted to make sure you're covered by the blanket."

Su Li hurriedly retracted her arm and forced a smile.

"..."

Qin Jue didn't speak and directly got up. "Let's go."

"Huh? Ohhh."

Su Li was stunned and nodded repeatedly.

In the next few days, the two of them continued to advance towards the Far East. Perhaps even Su Li did not notice it, but their speed was constantly increasing. They had gone from traveling 10,000 kilometers on the first day to now traveling 100,000 kilometers in a day.

Three days later, the two of them finally arrived in the Far East.

This was naturally because Qin Jue had used some special method. It was just that Su Li couldn't detect it.

Otherwise, with Su Li's cultivation, even if she flew at full speed, it would take at least ten days for her to reach the Far East.

The so-called Far East was actually a chaotic area close to the edge of the continent. Because the spirit qi was rather mixed, the environment here was very harsh.

In the past, when many cultivators had nowhere else to go after offending powerful factions, they would choose to flee here to hide. It could be said all kinds of people and experts were mixed together here. As time passed, these people gathered together and started to form many cities and factions.

However, with the invasion of the demon race from another world, these cities and factions had long been destroyed, leaving behind countless ruins.

Before they even approached, they could already sense the nearby smell of blood and the violent spirit energy flowing in the air. Clearly, war was a frequent occurrence here.

“Is this the Far East?”

Qin Jue raised his eyes and looked over. He discovered that a storm had gathered at the end of his field of vision, and some lightning that was wreaking havoc. It was as if he was looking at the end of the world, and it was especially sinister and terrifying.

This was the case for every region close to the edge of the continent. Some cultivators with low cultivation levels would even be swept into the void and die if they were careless. This was also why those large factions were usually unwilling to settle here.

“Yeah.”

Su Li nodded, slightly puzzled. “Strange, how did we get here so fast?”

Up until now, Su Li still didn’t understand how they could arrive at the Far East so quickly with the speed they were traveling at. She found it to be inconceivable.

“Forget it. I’m done thinking about it.”

After thinking for a long time, Su Li could not figure it out. In the end, she simply chose to give up. She then took out a jade tablet and inserted her spirit energy to activate it. A white light immediately rushed out and pointed into the distance.

That was the location of the camp set up by the Profound Mysteries Realm to resist the Asura World experts.

Chapter 193: Sacred Artifact City

There were many factions and clans in the Profound Mysteries Realm and the total territory was not inferior to the Spirit Central World at all.

As the strongest region, the Eastern Region contained a total of three super factions and nine top factions.

Among the three super factions were the Demi-Immortal Institute, the Seven Stars Palace, and the Hanging Tower.

The first to discover the spatial rift was the faction nearest to the Far East, the Demi-Immortal Institute.

In the Profound Mysteries Realm, the Demi-Immortal Institute was not only incomparably powerful, but also a respected holy land in the hearts of many cultivators.

The reason was simple. There were countless experts who had come from the Demi-Immortal Institute, and they were scattered throughout the entire Profound Mysteries Realm. Some of them had already become powerful and dependable beings of the realm, and were renowned throughout the world.

In addition, according to the ancient records, the Demi-Immortal Institute was the source of cultivation.

All of the cultivation techniques that the cultivators of the Profound Mysteries Realm cultivated were basically related to the Demi-Immortal Institute. They were either passed down from the institute, or they were created based on the cultivation techniques of the institute.

In any case, the Demi-Immortal Institute was considered to be very important.

Basically, anyone that had power in this realm was pretty much considered to be a disciple of the Demi-Immortal Institute. Under such circumstances, who would dare disrespect the Demi-Immortal Institute?

In fact, by the time the Demi-Immortal Institute discovered the spatial rift, most places in the Far East were already reduced to ruins.

Caught off guard, experts from the Demi-Immortal Institute were forced to retreat again and again, and the Asura World Army even got close to expanding past the Far East.

Fortunately, the Demi-Immortal Institute reacted quickly. After realizing the seriousness of the situation, they immediately led their experts here to stop the Asura World Army in its tracks.

Because of the importance of the matter, the Demi-Immortal Institute didn't hide the news from the other two super factions.

Thus, the Seven Star Palace and the Hanging Tower joined the battlefield one after another and also began fighting the Asura World Army.

At their level, the people in charge of these super factions were already old monsters that had lived for thousands of years. They were not idiots so how could they not understand the principle of unity at a time like this?

Moreover, wherever the Asura World Army passed, lives would be lost and the land would become barren.

If they did not fight back, then what awaited them would only be death.

As the three super factions fought alongside each other, the Asura World Army was suddenly unable to fight back and was defeated.

Just as the three super factions were about to defeat the Asura World Army in one go and close the spatial rift, more Asura World experts suddenly appeared. For a time, even the three super factions were unable to resist!

Therefore, three months ago, the nine top factions had also joined the war one after another. Unfortunately, it was still difficult for them to win.

Now, the three super factions had no choice but to issue a summons to gather all the cultivators in the world. It could be seen how tense the situation was.

"The camp set up by the resisting factions of the Profound Mysteries Realm is up ahead."

Su Li pointed at a city in the distance.

This city was blue-grey in color. Runes circulated around it, and it was densely packed. It looked exceptionally sturdy and did not look like it was a temporary settlement.

As if seeing Qin Jue's confusion, Su Li explained, "This city is actually a quasi-sacred artifact of the Demi-Immortal Institute. It was used because of the urgent situation of the battle."

Qin Jue's face was full of surprise. Such a large quasi-sacred artifact?

Speaking of which, Qin Jue also had a quasi-sacred artifact in his storage ring, and it was from the Asura World. However, compared to this city in front of him, the difference between the two quasi-sacred artifacts was like the difference between heaven and earth.

"Stop right there, identify yourselves!"

Before they could approach the city, several female cultivators dressed in armor and with grave expressions flew over to stop the two.

"I'm an itinerant cultivator who came to help after seeing the summoning order." Su Li said indifferently.

With her peak Supreme Stage cultivation, she might not be of much use in this war, but she would still not be chased away.

"What about him?"

The female cultivator in the lead looked at Qin Jue and frowned. "You actually brought a man here. What are you doing here?"

Qin Jue : "..."

Were men not allowed on the battlefield?

Hearing this, Qin Jue's body trembled. His entire body was covered in cold sweat on a hot day, and his limbs were cold.

It seemed that true evil resided in the human realm and not in hell. When is this world going to become a better place?

How should us men live in order to satisfy you women? Why are these tears falling... Uh, never mind the tears.

“He’s my friend and also wants to help.”

After a moment of hesitation, Su Li said.

“No, he’s too weak.”

The female cultivator in the lead shook her head in refusal.

In their opinion, Qin Jue seemed so thin and weak that they thought he was at most an Earth Stage expert. If so, he simply didn’t have the qualifications to participate in this war.

Qin Jue couldn’t be bothered to waste his breath. He raised his hand and punched the distant hill.

Boom!

Rocks flew everywhere. A few breaths later, a kilometer-long gully appeared in front of everyone, and the mountain was flattened.

“...”

The female cultivator in the lead blinked her eyes, somewhat at a loss.

Everyone was puzzled.

Not only her, but the other cultivators were also dumbfounded, including Su Li.

“Can we go in now?”

Qin Jue retracted his fist and said indifferently.

“S-Sure.”

The female cultivator in the lead nodded, still unable to react.

Qin Jue didn’t care what the other party thought and directly flew towards the city not far away.

“Wait.”

Su Li suddenly woke up and chased after Qin Jue in disbelief. “Did you throw that punch just now?”

“Obviously?”

“If you’re so powerful, why didn’t you tell me earlier?”

Su Li blushed and suddenly remembered that she had tried to protect Qin Jue yesterday.

With the strength Qin Jue had displayed just now, why would he need her protection?

“You never asked me.”

Qin Jue said matter-of-factly.

Uh... that did seem to be the case.

Su Li thought for a moment and was speechless.

From the beginning, she had assumed that Qin Jue was very weak. Only now did she realize that she wasn’t able to see through Qin Jue’s cultivation from the beginning. If he was weaker than her, how could she not see through his cultivation?

After figuring this out, Su Li opened her mouth and could not help but ask, “Then what stage are you at?”

“I don’t know.”

Su Li :”...”

Alright, forget it!

In fact, Qin Jue really didn’t know, but he was certain that he wasn’t within the scope of the ten realms of the Great Void Stage.

After another round of inspection, the two of them finally entered the city. The first thing they saw were many cultivators coming and going. Each of them was above the Heaven Stage, and even Supreme Stage and Legendary Stage cultivators could be seen everywhere.

Countless high-level cultivators had gathered here. There were experts from the three great super factions and cultivators from the nine top factions, as well as itinerant cultivators from other middle-tier factions.

In short, there were at least a hundred thousand cultivators in this quasi-sacred artifact city, and most of them were women. There were very few men.

Therefore, after Qin Jue appeared, he immediately became the focus of everyone's attention.

Qin Jue was more or less used to this kind of gaze.

Under the female guard's lead, Qin Jue and Su Li quickly arrived outside a courtyard.

Due to the seriousness of the situation, all the factions and itinerant cultivators who saw the summons for this war were temporarily arranged to live in the city to avoid being suddenly attacked by the Asura World Army.

Qin Jue and Su Li were naturally no exception.

Chapter 194: Night Attack

To any normal man, Sacred Artifact City was no different from heaven. This was because 99% of the cultivators who came here were women.

Furthermore, because they absorbed spirit qi every day to cultivate, almost every single one of them was very beautiful. If one didn't know better, one would think that they were from the Women Kingdom.

As everyone knew, high-level cultivators could already reconstruct their bodies and stay young forever. Unless one went to a dark place like the Hell World, it was very rare to see ugly monsters.

Qin Jue found it hard to imagine the scene of the war: a group of women rushing up to kill the enemies while men hid behind.

Of course, it wasn't that there were no male cultivators in Sacred Artifact City. For example, among the nine top factions, one of the leaders was a male who had reached the Great Sage Stage.

However, the ratio was too skewed.

In the entire Profound Mysteries Realm, there was no other male Great Sage Stage expert.

Strictly speaking, the gender imbalance world was even more exaggerated. This was because the cultivation speed of men in this world was far slower than women, and they were even restricted by many other factors.

Although there were fewer high-level female cultivators in other worlds, their sex did not affect their cultivation. Geniuses like Su Yan and Luo Weiwei would still become extraordinary in the future and not be inferior to the Saint Stage experts.

However, in the Profound Mysteries Realm, it was as if something was suppressing male cultivators. Whether it was their meridians, spirit qi, or cultivation techniques, men were always at a disadvantage. It was no wonder that female cultivators could rise up.

Qin Jue and Su Li did as they were told and entered the courtyard. There were already many cultivators from all over the Profound Mysteries Realm inside the courtyard. They were either talking about their cultivation insights or discussing this invasion. It was rather noisy.

No one paid much attention to Su Li. After all, they were not interested in women.

But when they saw Qin Jue, their eyes lit up and they were shocked.

“What a handsome youth!”

“Yeah, those eyes are so beautiful.”

“Ah, I’m dead!”

“...”

Everyone whispered to each other, their eyes burning like flames, wishing they could skin Qin Jue alive.

“But... why is there a man here?”

Someone whispered.

Most of the male cultivators who were able to participate in this war were either the leaders of some faction or extremely powerful itinerant cultivators. They had specialized guest houses and should not have appeared here at all.

As soon as these words were spoken, everyone looked at Su Li.

“He’s probably her male pet.”

“How lucky of her to find such a beautiful male pet.”

“Heh, bringing your pet into war. You really don’t know what’s good for you.”

“...”

Su Li :”...”

For a moment, she did not know how to explain.

But on second thought, it would be great if Qin Jue was really her male pet, but... how was she supposed to handle a pet she couldn’t beat?!

“Did you also see the summons and come to help?”

At this moment, a beautiful female cultivator stepped forward and asked.

Although Sacred Artifact City was very large, it was divided into several regions. The cultivators arranged in this region were basically all itinerant cultivators, so they were also relatively easier to talk to.

“Yes.”

Su Li nodded and said, “My name is Su Li, and this is my friend, Qin Jue. Nice to meet you all.”

In other places, Su Li might be an invincible existence that could act wantonly.

However, in Sacred Artifact City, even the weakest cultivator had a Heaven Stage cultivation. The courtyard in front of her was filled with Supreme Stage cultivators, so Su Li naturally had to restrain herself.

“Hahaha, no problem.”

“You’re too polite. We’re all here to resist the demon race, so it’s only right for us to take care of each other.”

“That’s right, that’s right.”

“ ... ”

...

...

Although these cultivators were still secretly discussing Su Li a second ago, at this moment, they conversed enthusiastically, as if they were friends that had not seen each other for a long time.

They were here to resist the demon race and not to travel. If they were careless, they might even die tomorrow, so could they afford to offend anyone at this time?

If someone suddenly played tricks on you on the battlefield, you would die without even knowing the cause.

“Thank you, everyone.”

Su Li cupped her fists without any expression. She was already used to such situations.

After all, Supreme Supreme Stage itinerant cultivators were rarely simple.

Qin Jue didn't care what these cultivators thought. Almost the moment he entered Sacred Artifact City, his spirit sense quickly swept through the entire city, not missing a single corner.

What surprised Qin Jue was that he actually discovered a Great Void Stage expert. From the looks of it, the other party should be the institute director of the Demi-Immortal Institute.

Although the other party was only at the first realm of the Great Void Stage, he was still absolutely invincible in the Profound Mysteries Realm.

No wonder the Demi-Immortal Institute was known as the source of all martial arts in the Profound Mysteries Realm.

In addition, Qin Jue also discovered that the eight Great Sage Stage experts all had deep and solemn auras.

Clearly, all the top experts of the Profound Mysteries Realm had gathered here, waiting to fight the Asura World Army.

It was no exaggeration to say that this war would be able to determine the fate of the Profound Mysteries Realm. Even if they manage to win, they would most likely still suffer heavy losses.

However, if they lost, it would be an absolute disaster for the entire Profound Mysteries Realm.

This was also why those middle-tier factions and itinerant cultivators had traveled thousands of kilometers to help. In a dimensional war, factions have to work past their grudges and unite in order to survive.

At night, cold wind whistled like winter. A scarlet full moon hung in the horizon, charming and alluring.

Because of the special celestial structure of this world, the moon in this world would turn red every once in a while, making it exceptionally strange.

At this moment, the sleeping Qin Jue felt the ground shake and he suddenly woke up.

“What is happening?”

Qin Jue frowned. He hated being disturbed by irrelevant people when he was sleeping.

Pushing open the door, the courtyard was already filled with cultivators. Su Li also ran out.

“What happened?”

“It seems to be a night attack by the demon race. They’re attacking the Great City Barrier Formation.”

“We should go and take a look.”

Hu la.

In an instant, countless cultivators soared into the sky and flew towards the city gate. It was a magnificent sight.

“Let’s also go and take a look.”

Su Li patted the heavy sword on her back and said in a deep voice.

Not long after, the two of them arrived on the city wall. Sure enough, they saw many black figures attacking the city protecting formation as they caused layer after layer of visible energy ripples that shook the heavens and the earth. The person in the lead was actually a Grand Saint Stage expert!

Fortunately, Sacred Artifact City was a quasi-sacred artifact, and the Great City Barrier Formation had also been strengthened multiple times before this. Even Grand Saint Stage experts would struggle to break through it in a short period of time.

“You overestimate yourself.”

Suddenly, an incomparably powerful aura rose from the center of Sacred Artifact City. It instantly swept out for thousands of kilometers and swept through the void.

The many black figures that were attacking the Great City Barrier Formation immediately grunted and retreated. They were actually injured by the spirit energy fluctuations!

“Hmph, all of you can die.”

The voice sounded again with killing intent.

How could these normally high and mighty Great Sage Stage experts tolerate being attacked by a Grand Saint Stage expert?

“Wait!” Before he could finish speaking, Qin Jue suddenly interrupted Wu Ying.

The leader of the black figures quickly screamed, “Don’t kill me! I have something to say.”

Chapter 195: Decisive Battle

Translator: Atlas Studios Editor: Atlas Studios

“Wait! I have something to say!” The leader of the black figures hurriedly shouted, afraid that the other party would rush up and slap him to death.

After all, he was no different from an ant in front of a Great Sage Stage expert.

As soon as these words were spoken, the originally unstoppable spirit energy suddenly stopped and turned into countless specks of light that dissipated.

Immediately after, everyone felt their vision blur, and a woman in a red robe with wide sleeves appeared out of thin air.

The woman couldn't be said to be beautiful, but her every move was irresistibly charming.

The moment she opened her eyes, thunder seemed to flash in the night, illuminating the mountains and rivers in a tragic manner.

Some cultivators standing on the city wall immediately recognized the red-robed woman and shouted in surprise, "It's the Seven Star Palace Master, the Seven Star Divine Maiden!"

The Seven Star Palace was one of the three great super factions of the Profound Mysteries Realm. The faction was unparalleled in the world because of their special cultivation techniques.

The Seven Star Divine Maiden was only second to the institute director of the Demi-Immortal Institute. Many cultivators subconsciously heaved sighs of relief.

At the same time, the black figures hidden outside the city grunted again, trembling in fear.

Especially the Grand Saint Stage expert in the lead, he almost couldn't help but turn around and flee.

Even though the other party was a woman, the pressure she gave him was too strong!

"What is it?"

The lips of the Seven Star Divine Maiden parted slightly as she said faintly.

"I'm here to post a letter of challenge."

As he spoke, a ball of light flew out and floated outside the Great City Barrier Formation.

Seeing this, the Seven Star Divine Maiden stretched out her slender fingers and lightly grabbed. That ball of light immediately fell into her hand, and there were only two words inside: "Battle Tomorrow."

"Hehe, are you finally willing to accept the battle?"

The Seven Star Divine Maiden laughed instead of being angry, revealing an incomparably charming smile.

On the other side, the black figure quietly retreated and prepared to leave.

"Wait."

"Just now, you attacked because you wanted to test out how sturdy this Great City Barrier Formation is, right?"

"..."

The Grand Saint Stage expert immediately began to sweat when he heard this, not knowing how to answer.

"In that case, you won't be going back."

As soon as she finished speaking, the Seven Star Divine Maiden raised her hand and waved it.

The entire world became distorted at this moment.

Compared to before, this palm did not have any spirit energy fluctuations. However, regardless of whether it was the leading Grand Saint Stage expert or the black figures, they all dissipated with the wind like smoke and dust, leaving nothing behind.

Witnessing this scene, the surrounding Profound Mysteries Realm cultivators were all dumbfounded. Was this the power of a Great Sage Stage expert?

Too terrifying!

"The Divine Maiden is invincible!" Someone shouted. After a moment of silence, everyone immediately chimed in, "The Divine Maiden is invincible!"

"The Divine Maiden is invincible!" Someone shouted. After a moment of silence, everyone immediately chimed in, "The Divine Maiden is invincible!"

“ ... ”

After she had killed the Grand Saint Stage expert with a single move, the surrounding cultivators that were previously anxious were suddenly reinvigorated with confidence. They were extremely excited.

This was what the Seven Star Divine Maiden wanted to see.

As for what she said about them testing out the Great City Barrier Formation, it was only a random excuse. However, based on the Grand Saint Stage expert's reaction, she seemed to have guessed correctly.

Thinking of this, the Seven Star Divine Maiden retracted her gaze and pressed her hands together. In an instant, the entire Sacred Artifact City became so quiet that even a pin drop could be heard. Everyone looked at this Seven Star Palace Master with worshipful expressions.

“Fellow comrades, the demon race has sent a letter to challenge us to fight tomorrow.”

“I think you all know that this war is very likely to determine the survival of the Profound Mysteries Realm, so we have to win no matter what, understand?”

“Understood!”

Everyone cheered.

“Very good.”

The Seven Star Divine Maiden nodded in satisfaction. “Also, let me make this clear first. This war can only be fought head-on, and you are not allowed to retreat. Otherwise, what awaits us is destruction.”

“Therefore, all deserters will be killed without mercy!”

The Seven Star Divine Maiden's words were sonorous and powerful, and her killing intent was awe-inspiring. She was clearly not joking.

“We won't retreat. We swear to protect the Profound Mysteries Realm!”

“We won't retreat. We swear to protect the Profound Mysteries Realm!”

“ ... ”

The deafening shouts lasted for ten minutes or so before stopping. It made one's blood boil. Even Su Li was infected as she raised her arms and shouted.

Qin Jue was probably the only one present who remained unaffected.

To be honest, this was the first time he had seen so many women gathered together. As far as the eye could see, the scene was rather spectacular.

After the chatting ended, high-level cultivators began to enter one after another, dividing the cultivators into several hundred teams of various sizes according to their strength so that they could be commanded.

After all, this war was not only a battle between high-level experts. After all, they still needed to deal with the big army from the Asura World.

However, the people that mattered were still those peak experts.

It was only at dawn that the hundred thousand cultivators were fully "sorted" out.

Qin Jue was viewed as having the same strength as Su Li. He was regarded as a Supreme Stage expert and was sorted into a team of twenty Supreme Stage experts. Their mission was very simple: to stop the Asura World army from advancing.

There were more than ten other teams that were like them. A lineup with such a large number of Supreme Stage experts was simply unimaginable in the Southern Land of the Spirit Central World.

However, here, Supreme Stage experts were only considered as lackeys and were not qualified to join the top tier battle circles.

Not to mention a Supreme Stage expert, even a Legendary Stage expert was not qualified to do so. The shockwaves from the battle between those Saint Stage experts could easily injure them.

This was the scale of a dimensional war.

As the red moon fell and the sun rose in the east, a pitch-black city suddenly appeared at the end of Qin Jue's field of vision. It was still far away a moment

ago, but all of a sudden, it was now only thousands of meters away from the Sacred Artifact City.

This pitch-black city was the same as the Sacred Artifact City. Both were quasi-sacred artifacts. One didn't need to think to know that it came from the Asura World.

"A familiar spirit energy aura."

Qin Jue took a deep breath and muttered to himself.

It would appear that this Asura World was indeed the Asura World that he knew of.

Hu –

Nine beams of light rose from the pitch-black city and pierced into the sky. And in the light, nine figures were faintly discernible, filled with a dense killing intent.

Among them, eight were Great Sages, and one was at the Great Void Stage. They happened to have matched the experts from the Profound Mysteries Realm equally in strength.

Soon, nine beams of light also rose from Sacred Artifact City one after another without any fear.

"It seems that you guys are the strongest existences of your world."

The Great Void Stage expert who belonged to the Asura World took a step forward and said, "If you are willing to surrender now and obediently move aside, perhaps I can let bygones be bygones and spare your lives."

The person who spoke was a man whose entire body was enveloped by armor. He emitted a cold aura that caused others to shudder, as if he was accompanied by the god of death, causing him to have a ghastly and strange aura.

Before he could finish speaking, the institute director of the Demi-Immortal Institute shouted angrily, "How arrogant! I am interested in finding out how you plan on killing me!"

"Stubborn fellow. Since you're courting death, come at me."

As soon as he finished speaking, the man grunted coldly and directly created a temporary space before flying in.

At their level, if they fought with their full strength, it would be enough to destroy the Profound Mysteries Realm. Unless one of them was as strong as Long Zhen and could crush the opponents instantly, they could not afford to fight in the Profound Mysteries Realm.

“I’m not afraid of you!”

The institute director followed closely behind.

The other sixteen Great Sage Stage experts looked at each other and also entered the temporary space.

The war had officially begun!

Chapter 196: Army-Breaking Slash

Translator: Atlas Studios Editor: Atlas Studios

Profound Mysteries Realm, the Eastern Region, Far East.

Boom!

With a deafening bang, the war officially began!

“Kill!”

As the invaders, the experts of the Asura World naturally attacked first.

Tens of thousands of warriors rushed out of the pitch-black city. Each of them held a weapon and were fully armed. They rushed towards Sacred Artifact City like a flood of steel, suffocating everyone.

It was precisely by relying on the powerful army and incomparable high-level combat strength that the inhabitants of the Asura World could continue to wage such dimensional wars for more than ten thousand years and plunder the cultivation resources of other worlds.

Although a large number of experts would die in each dimensional war, by relying on the cultivation resources they plundered, they could quickly produce more experts to make up for the gap.

This was also the so-called making up for war with war.

At the same time, on the city walls, a Grand Saint Stage expert responsible for leading the battle cried out coldly, “All Heaven Stage cultivators, listen up. Let’s go!”

“Yes!”

In an instant, tens of thousands of Heaven Stage cultivators flew up from the Sacred Artifact City and majestically welcomed the Asura World Army.

Almost all of these Heaven Stage cultivators were women, so their bodies seemed even more delicate and weak compared to the Asura World Army. However, every one of their faces was filled with determination, without any fear.

Finally, the two forces quickly crossed thousands of meters and collided!

“Bastard, die!”

A female cultivator at the front waved her spear, bringing with it a shrill sound as it tore through the air. It instantly pierced through several Asura World warriors, even shattering their Essence Souls!

Pu! Pu! Pu!

After shaking off the corpse on the spear, the female cultivator continued to charge forwards. With more than a dozen companions, she continued forwards, forcefully tearing out a gap in the Asura World Army.

Wherever she passed, almost no one was a match for her. She was even able to instantly kill someone of the same level!

But soon, the Asura World Army reacted. Then, a figure with a head of red hair suddenly appeared and blocked in front of the female cultivator. No matter how she attacked, she could no longer move and was faintly suppressed.

Another dozen or so female cultivators were also entangled by the Asura World experts and were unable to continue forward.

Although the morale of the Profound Mysteries Realm cultivators who had come to provide support had soared because of the Seven Star Divine

Maiden, the Asura World Army were still more experienced. They had experienced countless dimensional wars before so how could they be frightened by these female cultivators?

The war quickly started to become more intense. In such a large-scale battle, Heaven Stage cultivators were basically no different from cannon fodder. If one was careless, they would be killed instantly.

Because of their rich experience, the Asura World Army gradually began to gain the upper hand. On the other hand, because most of the people on the Profound Mysteries Realm's side were itinerant cultivators, their coordination was clearly slightly lower. In the beginning, it might not be a big deal, but as time passed, the cultivators from the Profound Mysteries Realm could only retreat in defeat.

In the end, even Grand Saint Stage experts and Saint Stage experts that were giving orders started joining the battle. However, in order to not affect the low-level cultivators below, they had set their battlefield high in the sky.

Even so, the lower-level cultivators could still feel the terrifying spirit energy fluctuations. They could even faintly see the spatial rifts that were torn open above their head, looking sinister and terrifying.

As for the Supreme Stage experts and the Legendary Stage experts, they had long become the cornerstones of this war and were fighting crazily.

After all, they were the most threatening existences on the battlefield before the outcome of the battle between the Saint Stage experts was decided.

Su Li was naturally no exception.

“Rip!”

Su Li's giant sword that weighed more than a thousand grams cut through the sky and struck an Asura World expert, directly splitting him in half. Blood sprayed out and the scene was incomparably bloody.

1

Due to the special nature of her cultivation technique, Su Li was rarely matched by cultivators of the same stage. At this moment, three seemingly

invincible Supreme Stage experts from the Asura World had already been killed by her.

Just as Su Li aimed at her next opponent and was about to step forward, a killing intent suddenly enveloped her.

Sensing this killing intent, Su Li instantly froze on the spot and revealed a shocked expression because she noticed that this killing intent actually belonged to a Legendary Stage expert!

Although Su Li was invincible among her peers, it did not mean that she could challenge Legendary Stage experts, especially not in a chaotic battlefield.

However, that killing intent had no intention of letting Su Li off. It got closer and closer. Just as it was about to erupt with a thunderous attack, Qin Jue, who had been standing on the side, suddenly raised his hand and punched out.

Boom!

With a loud bang, Qin Jue's punch was like a lightning bolt, piercing through gold and splitting stone.

Immediately after, Su Li felt that the killing intent that had locked onto her had disappeared.

"What happened?"

Su Li hurriedly raised her head and noticed that the Legendary Stage expert seemed to have evaporated into thin air, leaving nothing behind.

"You... killed that fellow?"

Su Li stiffly turned her head and looked at Qin Jue.

Hearing this, Qin Jue smiled and didn't answer. He took a sip of spirit wine and flew straight towards the Asura World Army.

"Stop! What are you doing?!"

Su Li was shocked. Going deep into the enemy camp alone at this time was almost no different from courting death. Even a Legendary Stage expert might be instantly killed by the shockwave.

Qin Jue acted as if he didn't hear Su Li's words and continued forward. Along the way, all the Asura World experts in front of Qin Jue, regardless of their level, were all killed with a single punch.

In fact, with Qin Jue's strength, there was no need for him to go through so much trouble. But now that the cultivators of the Profound Mysteries Realm and the Asura World army were mixed together, if he punched mindlessly, both sides would probably disappear from the world, so Qin Jue decided that his best course of action was to directly break through the enemy's army and kill their strongest commander.

Qin Jue's actions quickly attracted the attention of the other cultivators.

It couldn't be helped. It was hard not to notice him. After all, Qin Jue was too arrogant. He openly went deep into enemy territory on his own. No matter who he faced, he would just kill the other party with a single punch. He was simply invincible and had even killed the strongest Legendary Stage expert on the battlefield.

"Who is that man? He's so powerful. Why haven't I heard of him before?"

"He should be the holy son of a large faction."

"If even a man is doing so well, what reason do we have to retreat? Kill!"

"Kill!"

"..."

Qin Jue didn't care what those Profound Mysteries Realm cultivators thought. In the blink of an eye, he had already slaughtered his way out of the Asura World army and was headed straight for the pitch-black city.

Over there, the Grand Saint Stage expert in charge of commanding the Asura World army was staring fixedly at Qin Jue with a gloomy expression.

"You're courting death!" The projection said as Qin Jue grabbed his head.

Gritting his teeth, Luo Feng directly took out his pseudo-sacred artifact, the "World Destruction Divine Arrow", and instantly activated it to the maximum.

As the commander-in-chief of the Asura World Army in this war, how could Luo Feng tolerate such provocation as a dignified Grand Saint Stage expert?

Swoosh!

In the next moment, the World Destruction Divine Arrow shot out a beam of light that was filled with an endless destructive aura. Wherever it passed, space would shatter, as if it wanted to cut heaven and earth into two.

As everyone knew, only after gaining sentience could a spirit artifact be called a sacred artifact.

And below the sacred artifact were the quasi-sacred artifacts and pseudo-sacred artifacts.

Although a pseudo-sacred artifact was far inferior to a quasi-sacred artifact or a sacred artifact, it could still increase the user's strength by at least 50%.

Facing the arrow that Luo Feng shot out with a pseudo-sacred artifact, Qin Jue's expression remained normal. He slowly raised his palm and lightly swiped.

Crack!

Chapter 197: Sweep

Qin Jue's counterattack looked ordinary and completely casual.

There was no storm, no spirit energy fluctuations, and even his sleeves did not sway.

Seeing this scene, Luo Feng couldn't help but smile coldly. Had he already given up on resisting?

As expected, the living beings of this world were simply unable to contend against them.

Only when Qin Jue's palm completely slapped out did Luo Feng finally realize how stupid he was.

As if he had lost his nerve, Luo Feng was suddenly unable to feel his breathing, nor could he feel his heartbeat. All that was left in his sight were those five well-defined fingers, as if they were inviting him into the depths of hell, making him horrified.

Crack!

The air exploded.

The light that Luo Feng shot out was directly destroyed by the boundless wind. After that, this wind lightly swept past Luo Feng's body before he could even react in time.

Immediately after, the wind swept past the tall buildings, fortresses, and other buildings behind them until it flew out from the back of the city, raising smoke and dust that filled the sky.

After a while, Luo Feng turned his head with difficulty and discovered that a mountain peak that stood behind the city had actually been flattened when the dust and smoke fell!

“How is this possible...”

Luo Feng muttered to himself as the pseudo-sacred artifact World Destruction Divine Arrow in his hand exploded with a bang, turning into ashes that dissipated.

Crack!

As the World Destruction Divine Arrow exploded, a visible crack appeared on Luo Feng's face, like a shattered mirror that emitted light.

Crack. Crack.

With another few light sounds, the cracks on Luo Feng's face began to spread out. More and more light bloomed until it covered his entire body!

It wasn't just Luo Feng. All the Asura World experts in this city, regardless of their level, also had cracks appear on their faces at this moment, as if they would shatter like porcelain at any moment.

“No...”

Luo Feng opened his mouth as if he wanted to say something.

But in the next second, he slowly fell to the ground, turning into countless flesh and blood fragments that lost their vitality. He looked like a work of art.

At the same time, the other Asura World experts also fell, turning into flesh and blood fragments. Everyone in that city had been instantly dealt with!

Along with the others, some of the soldiers who weren't supposed to attack until later also died mysteriously before they could even show their faces.

Seeing this, Qin Jue retracted his palm and blew out a breath.

Hu –

A breeze blew past. The pitch-black city dissipated with the wind, just like the World Destroying Divine Arrow did before. The wind also blew away the flesh and blood of Luo Feng and the other Asura World experts.

Silence...

Before this, no one would have thought that they would experience such a quiet moment during the dimensional war. Some hadn't even noticed that they were gasping in surprise.

This was especially true for those Asura World warriors. Several breaths ago, they were still fighting wantonly, wishing to release all their spirit energy and kill their enemies.

But now, all that was left in them was fear!

One had to know that before the outcome of the other Saint Stage experts was decided, Luo Feng had been the strongest presence on the Asura World's side.

Furthermore, Luo Feng had experienced many dimensional wars and had even led the army to defeat three Martial Dao Worlds in the past.

Therefore, with him around, the Asura World warriors were full of confidence.

And yet he had died so easily.

Also, the entire city had disappeared along with him.

Could it be that there was another Great Sage Stage expert hidden in the Profound Mysteries Realm?

In their eyes, apart from Great Sage cultivators, no one else was capable of killing the living beings of an entire city with a single strike.

At this moment, regardless of whether it was the Asura World warriors or the Profound Mysteries Realm cultivators, they were all stunned to the core and were speechless. Su Li was especially shocked.

She felt like she was dreaming.

That's right, she must be dreaming.

Thinking of this, Su Li chopped off the head of the Asura World expert in front of her. A few drops of blood immediately scattered on her face, feeling somewhat warm.

Uh... it doesn't seem like I'm dreaming!

...

"I'll leave the rest to you."

After saying this, Qin Jue flew into the sky and disappeared, leaving behind the dumbfounded cultivators.

Luo Feng had already been dealt with and the rest were only Heaven Stage, Supreme Stage, and Legendary Stage experts. If the Grand Saint Stage expert in charge of the Profound Mysteries Realm attacked now, no one would be able to stop him.

After an unknown period of time, the Grand Saint Stage expert finally reacted. Then, he rushed out of Sacred Artifact City without hesitation and shouted, "Kill!"

The aura of a Grand Saint Stage expert was immediately released without holding back, sweeping through the entire battlefield.

...

At the same time, Qin Jue had already arrived in the sky and joined the battle between experts above the Saint Stage.

A moment later, Qin Jue tore open the temporary space created by the Asura World expert, leaving behind a group of cultivators with sluggish eyes.

As for those Asura World experts outside the temporary space, their souls had long been destroyed. They were deadlier than dead.

As soon as he entered the temporary space, two waves of spirit energy flew over, enough to heavily injure a Grand Saint Stage expert

No wonder they had specially created a temporary space. Otherwise, before the outcome could be determined, the others would have already been dead.

Qin Jue's aura was activated, and the two spirit energy fluctuations immediately disappeared.

He casually swept his gaze and realized that two Great Void Stage experts were in the depths of this space, while the other dozen or so Great Sages were closer to the outer perimeter.

The spirit energy shockwaves that flew over just now were caused by the battle between the Seven Star Divine Maiden and an Asura World expert.

However, judging from the situation, the Seven Star Divine Maiden seemed to be at a disadvantage.

Bang!

With a dull bang, the Seven Star Divine Maiden retreated repeatedly, leaving a trace of blood at the corner of her mouth. She looked incomparably miserable, no longer having the noble and charming appearance of last night.

For a peak Great Sage Stage Seven Star Divine Maiden to be in such a sorry state, it could be seen how powerful the other party was.

"I didn't expect you to last that long. Interesting."

The person fighting the Seven Star Divine Maiden was a white-haired, middle-aged man with sunken eyes.

He sized up the Seven Star Divine Maiden and smacked his lips. "If I can use you as a human furnace, I might be able to break through my shackles and step into the Great Void Stage."

At this point, the middle-aged man's gaze became more intense.

"Don't even think about it!"

The Seven Star Divine Maiden gritted her teeth and formed several hand signs. A beautiful purple lotus suddenly appeared between her brows, and her

aura rose in a straight line. She only stopped when she reached the critical point of the Great Sage Stage.

“Mm? A secret technique to increase your strength?”

The middle-aged man sneered. “Hehe, I want to see how long this secret technique can last you.”

Although the strength of the Seven Star Divine Maiden had increased greatly, the middle-aged man was not afraid at all.

Even if she increased her cultivation, the Seven Star Divine Maiden would at most be on par with him.

And these cultivation-increasing secret techniques would also often cause an extremely great burden on the body. Over time, it might even affect the foundation and backfire on the body. Therefore, the middle-aged man wasn't worried.

Hearing this, the Seven Star Divine Maiden remained silent. Her figure directly disappeared from where she stood, as if she had never existed.

The middle-aged man frowned slightly and was slightly stunned. He could no longer sense the aura of the Seven Star Divine Maiden.

Buzz!

Twelve purple pillars of light suddenly rose in different directions and surrounded the middle-aged man. They quickly emitted dense purple gas, isolating the middle-aged man's vision and spirit sense.

“What is this?”

The middle-aged man finally realized the danger and became vigilant.

“Did you think I was using a secret technique?”

The Seven Star Divine Maiden's cold voice sounded from all directions. It was impossible to tell her exact location.

“Fool, this is my true strength.”

As soon as he finished speaking, the middle aged man felt a pair of eyes slowly open in front of him, and they flickered with a strange violet light!

Ocular Technique!

Even though the middle-aged man had already maintained full vigilance and did not have any flaws, unfortunately, an ocular technique did not require any flaws to work. Even someone as strong as the middle-aged man would be temporarily stunned.

Bang!

In the purple fog, a stream of spirit energy suddenly tore through the air and blasted onto the middle-aged man. If not for his powerful body, this attack alone would have severely injured him.

Before the middle-aged man could react, another spirit energy stream tore through the sky without any warning.

From the battle just now, the Seven Star Divine Maiden had already realized that she could not fight the middle-aged man in close combat. Therefore, she chose to use an ocular technique to complement her domain's "sneak attack".

At present, this method was indeed very useful. It beat the middle-aged man until he was almost unable to fight back.

Chapter 198: This Is the End

Ocular techniques were one of the most universally dangerous techniques.

This was because high-level ocular techniques could even work on flawless opponents. In other words, they made the flawless flawed, making them impossible to guard against.

One had to know that in a fight between high-level cultivators, the slightest bit of carelessness would result in one's death, let alone fights that involved ocular techniques.

Luo Yuan was now in a situation where he could die at any moment.

Before this, Luo Yuan had always thought that he was invincible against anyone under the Great Void Stage.

Only now did he realize that he had been absurd to think that.

This was because he had been completely unable to fight back from the beginning to the end. He couldn't even find the true body of the Seven Star Divine Maiden. He could only allow his opponent to attack him continuously while he dodged miserably.

“Damn it!”

Spitting out a mouthful of blood, Luo Yuan's entire face instantly turned as pale as paper.

After being attacked repeatedly, even someone as strong as Luo Yuan was finding the attacks more and more difficult to withstand. If this continued, he would probably be beaten to death sooner or later.

“In that case, I can only use that move.”

Taking a deep breath, Luo Yuan bit his tongue and burned his blood essence!

Rumble!

Suddenly, it was as if someone set ablaze some firecrackers as the heavens and the earth shook furiously. Immediately after, one couldn't help but feel that a terrifying and suppressive existence had awakened and descended into this temporary space.

Sensing this aura, the surrounding Great Sage Stage experts all revealed shocked expressions and felt their hearts palpitate.

“General Luo, General Luo is using the Asura Saint Body!” An Asura World expert familiar with Luo Yuan shouted.

“What? Isn't that the First Elder's ultimate technique?”

Another Asura World expert also chimed in with a dumbfounded expression.

“They were actually able to force General Luo to use this move. Looks like that woman is dead meat.”

...

At the same time, Luo Yuan spat out another mouthful of blood. His face became even paler, but he smiled. "Although it's only a projection of the Asura Saint Body, it's enough to deal with you."

Bang!

Almost at the moment the Asura Saint Body's projection descended, the twelve purple pillars of light failed to withstand it and exploded. The purple fog also dissipated, revealing the Seven Star Divine Maiden.

"What is this?"

The Seven Star Divine Maiden's expression changed slightly. She was shocked and bewildered.

A huge figure floated above Luo Yuan's head. It was thousands of meters tall and seemed neither human nor beast. It looked dignified.

Most importantly, in the vision of the Seven Star Divine Maiden, that huge figure contained boundless spirit energy. It had already surpassed the scope of the Great Sage Stage, and was far superior to her.

"At this point, it seems like I can't use you as a human furnace anymore."

At this point, holding back would be no different from courting death.

"Kill!"

Luo Yuan pointed his finger in the air. The Asura Saint Body above his head immediately emitted thousands of beams of light that shot towards the Seven Star Divine Maiden.

Seeing this, the Seven Star Divine Maiden hurriedly retreated, trying to dodge those lights. Unfortunately, she was still a step too late. She was enveloped by the light and froze in place.

"Argh!"

The Seven Star Divine Maiden let out a muffled groan as she realized that she had lost control of her body!

Seeing that the attack of the Asura Saint Body was about to land, the Seven Star Divine Maiden didn't have the time to think too much. All of the spirit

energy in her body condensed, and then purple flames burned in her eyes, piercing through the void and piercing through Luo Yuan!

On the other side, Luo Yuan immediately felt as if he had suffered a heavy blow and almost fainted. Even the Asura Saint Body was affected and its attack had also been greatly weakened. Even the shackles on the Seven Star Divine Maiden had been loosened, giving her a chance to catch her breath.

Therefore, the moment the attack fell, the Seven Star Divine Maiden also managed to raise a spirit energy shield.

Boom!

The two spirit energies collided, and the Seven Star Divine Maiden was immediately sent flying. Her aura fell in a straight line, but she did not die.

After that, the Asura Saint Body also turned into specks of light and slowly disappeared.

Although Luo Yuan did not hesitate to use his trump card and had summoned a projection of the Asura Saint Body, the Seven Star Divine Maiden was still able to fight him to the death thanks to her ocular technique.

“Dammit! I never expected that she would be so difficult to deal with.”

Wiping the blood from the corner of his mouth, Luo Yuan’s expression was slightly sinister.

He had never imagined that the Seven Star Divine Maiden would be so powerful. Especially those eyes of hers, they made him suffer greatly.

If he had not forcefully used the Asura Saint Body, even his ashes would have been scattered.

“It’s not over yet.”

The Seven Star Divine Maiden grinned. She was just about to burn her lifespan and attack again when a hand suddenly stopped her. “Alright, leave the rest to me.”

“Who are you?”

The Seven Star Divine Maiden was slightly stunned as she looked at the white-robed youth who had suddenly appeared in front of her.

After all, the Seven Star Divine Maiden had never been told to stop by a man before.

“Uh...”

Qin Jue scratched his head and answered seriously, “You can call me Qin Jue.”

Even with her vast experience, the Seven Star Divine Maiden was still instantly dazed when she saw Qin Jue’s appearance.

If Qin Jue was nothing more than just a handsome boy, the Seven Star Divine Maiden might not have cared.

But Qin Jue was different. Apart from his incomparably handsome appearance, he also had an indescribable temperament from head to toe. He was like an immortal that had descended to the mortal world, unfathomable and making people want to worship him.

“Be careful!” Just as Qin Jue was thinking, the girl suddenly reminded him.

The Seven Star Divine Maiden suddenly regained her senses and screamed.

“Die!”

In the distance, Luo Yuan’s expression was sinister. He punched out, and vast spirit energy instantly hit Qin Jue!

Bang!

With a loud bang, spirit energy wreaked havoc as it swept past like a blade, splitting space into countless pieces.

If it were any other Great Sage Stage expert, they would probably be severely injured.

However, Qin Jue stood in place as if nothing had happened. He turned his head in confusion, as if he didn’t understand what was going on.

On the other hand, although Luo Yuan didn't come into direct contact with Qin Jue, the backlash from this punch still caused him to vomit blood from his mouth and nose. The bones in his entire body cracked and broke. He had completely lost his ability to fight.

“ ... ”

“Looks like I don't even have to do anything.”

Qin Jue shrugged his shoulders.

The Seven Star Divine Maiden :” ... ”

What just happened?

Did he really just cause such a backlash to Luo Yuan without relying on anything other than his physical body? Moreover, Luo Yuan was already at the peak of the Great Sage Stage. Just how strong was this man?

Was he at the first or second realm of the Great Void Stage?

The Seven Star Divine Maiden found this to be rather absurd.

Since when did a Great Void Stage expert appear in the Profound Mysteries Realm? And what was even more absurd was that this person was a man?

Qin Jue couldn't have cared less. In any case, Luo Yuan had already lost his combat strength. It was now time for him to deal with the others.

Soon, Qin Jue circled around this temporary space. No matter how strong those Great Sage Stage experts were, they were basically all punched one after another without any ability to resist. They couldn't even escape.

Not long after, only the Asura World Great Void Stage expert was left.

Perhaps it was because the battle was too intense, the Great Void Stage expert actually hadn't noticed the commotion here. In any case, Qin Jue was not planning on killing the other party.

After all, the reason why he had made a move was not because he couldn't stand the injustice. Instead, he simply wanted to find the specific coordinates to the Spirit Central World.

Given his cultivation and status, perhaps this Great Void Stage expert knew.

Thinking like this, Qin Jue no longer hesitated and directly rushed into the battle.

After all, it was about time he ended all this.

Boom!

Qin Jue stretched out his two flawless white palms and easily received and nullified the attacks of both sides.

“Let’s end this here.” The old man on the left said.

Chapter 199: Clues

“Let’s end this here.” The old man on the left said.

Qin Jue’s fingers moved slightly, crushing the attacks of both sides. He stood in the middle and said indifferently.

Seeing this, the institute director and the Asura World expert were both stunned, revealing blank expressions. They couldn’t figure out where Qin Jue had jumped out from.

However, the two of them were rather on guard and believed that the other party was helping their opponent.

After all, how could someone who could so easily withstand their attacks be an ordinary person?

Therefore, the two of them subconsciously asked, “Who are you?”

After hearing what the other party said, the two of them were even more dumbfounded. What was going on?

This person wasn’t an ally of my opponent?

Qin Jue placed his hands behind his back and indifferently said, “Among all the experts sent by the Asura World this time, you should be the strongest, right?”

Upon hearing this, Luo Jie frowned slightly and looked rather vigilant.

He was indeed the strongest expert who had invaded the Profound Mysteries Realm this time, but didn't the Profound Mysteries Realm only have one Great Void Stage expert?

What was going on now?

At the same time, the institute director heaved a sigh of relief. As long as the other party wasn't helping out his opponent, it would be fine.

"Mm? What about Luo Yuan and the others?"

Only at this moment did Luo Jie notice that the people who had come with him had disappeared.

"There's no need to look for it. They're already dead." Qin Jue asked casually.

"What?!"

Luo Jie was alarmed and immediately spread his spirit sense to search for them. Unfortunately, he couldn't find anything.

So many Great Sage Stage experts were actually killed in such a short period of time? Luo Jie found it unbelievable.

Of course, that was not the main point. The main point was that one of them was Luo Jie's younger brother!

"Did you do it?" Luo Jie, who was hidden under the armor, questioned.

"That's right."

Qin Jue nodded without hiding anything.

"You're courting death!" The projection said as Qin Jue grabbed his head.

Luo Jie was unable to restrain his anger as his spirit energy surged. For a moment, he was in a magnificent state!

Crack!

As Luo Jie released all his spirit energy, the armor covering his body immediately cracked and fell off, revealing the burly body inside.

At this moment, Luo Jie had forcefully broken through the first realm of the Great Void Stage and stepped into the second realm!

Witnessing this scene, the expression of the institute director changed slightly. It turned out that Luo Jie had been hiding his strength the entire time!

“All of you will have to die.” Luo Jie said coldly.

“Is this your trump card?”

Qin Jue didn't seem surprised and was even slightly disappointed.

He could even instantly kill the Eternal Night Emperor, who was at the fifth realm of the Great Void Stage, let alone a second realm expert.

Moreover, the Eternal Night Emperor possessed two types of spirit energy. He was no ordinary fifth realm Great Void Stage expert. In comparison, Luo Jie was simply not worth mentioning.

“Hmph, stop trying to act mysterious.”

Luo Jie immediately circulated his spirit energy and rushed towards Qin Jue.

He wanted to make this shameless youth pay the price!

However, before Luo Jie could move any further, Qin Jue had already appeared in front of him like a ghost. His five slender fingers directly ignored all defense and grabbed his neck!

“Ah...”

Luo Jie opened his mouth and realized that he was unable to move. Even his spirit energy had lost its connection. It was as if all the meridians in his body had been sealed and could not be used.

The projection was puzzled.

Even if his opponent was in the third realm of the Great Void Stage, it was impossible for him to seal all his meridians in such a short period of time, right?

Could it be that the youth in front of him was an expert at the fourth or even fifth realm of the Great Void Stage?

“That’s all you got?”

Qin Jue curled his lips and sneered.

“ ... ”

In front of Luo Jie, Qin Jue’s appearance made him seem exceptionally thin and weak, as if he could be beaten down with a single punch. But at this moment, Qin Jue had restrained Luo Jie with a single move, forming a sharp contrast between their abilities.

On the other side, the institute director of the Demi-Immortal Institute was staring in shock, unable to believe her eyes.

From beginning to end, she had been unable to figure out Qin Jue’s moves. And now, Qin Jue had inexplicably kept Luo Jie frozen in place.

Was this really the same Asura World expert that she was struggling to fight against just now? Was there a mistake somewhere?

“Do you know about the Spirit Central World?”

Qin Jue wasn’t in a hurry to kill Luo Jie but asked.

“Spirit Central World?”

Luo Jie was stunned and revealed a blank expression, as if he didn’t know what Qin Jue was talking about.

Qin Jue frowned and immediately used the soul searching technique without hesitation. He had no interest in talking nonsense with Luo Jie.

After a while, Qin Jue casually threw away Luo Jie, who now had a severely injured Essence Soul, and fell into deep thought.

In fact, Luo Jie was indeed unaware of the existence of the Spirit Central World.

However, from Luo Jie’s memories, Qin Jue learned that there were countless experts in the Asura World. Also, these experts were divided into more than ten armies and each army was responsible for different worlds. Therefore, it was normal for Luo Jie not to know about a world that they had failed to invade thousands of years ago.

It seemed Qin Jue needed to personally make a trip to the Asura World.

Qin Jue fell into deep thought.

At present, the Asura World should be the only place with information regarding the exact location of the Spirit Central World. Qin Jue didn't want to continue staying in this world where men were inferior to women.

Although the rules of this world would not affect him at all, he still wanted to go back as he had lived in the Spirit Central World for ten years. His senior brother, disciples, and pet were all there, so how could he abandon them?

“Um... Senior...”

At this time, the institute director carefully stepped forward with a hesitant expression, afraid that she would accidentally anger Qin Jue and end up like Luo Jie.

“What's wrong?” Qin Jue was puzzled.

“May I kill him?”

The institute director pointed at the unconscious Luo Jie.

At this moment, Luo Jie's Essence Soul was severely injured. It was the best opportunity to kill him.

If it weren't for Qin Jue, the institute director would have made a move long ago.

Qin Jue :”...”

“Yes.” Qin Jue said as he rolled his eyes.

In any case, Qin Jue had already searched his soul, so this guy was useless to him.

“Thank you.”

Hearing this, the institute director was overjoyed. She immediately formed a sword with her finger and slashed at Luo Jie's head.

With a 'pfft' sound, Luo Jie, who had a severely injured Essence Soul, had his head chopped off. Following that, the institute director used her spirit energy to shatter his Essence Soul.

Until his death, it was likely that Luo Jie did not even know what was going on.

With that, the institute director bowed again. "Thank you for helping us, Senior."

If it weren't for Qin Jue, with Luo Jie's true strength, Luo Jie would have been able to cause a disaster for the entire Profound Mysteries Realm. As for the institute director, she would have definitely been the first to bear the brunt of it and died.

It was true that Qin Jue was a man and men were inferior here. However, with his strength, so what if he was a man?

However, the institute director couldn't figure out when such a powerful existence had appeared in the Profound Mysteries Realm.

She was also unaware that Qin Jue had come from somewhere else.

"Yeah."

Nodding, Qin Jue didn't say anything else. He raised his hand, tore open the temporary space, and flew out.

Everyone looked at each other and hurriedly followed behind, not daring to speak at all.

Qin Jue's performance just now had completely won them over.

Basically, the situation was similar to how proud men would submit to a peerless beauty after she revealed unparalleled charm in front of them. It was just that their genders have been swapped.

When Qin Jue and the others came out of the temporary space, the war outside had basically ended. Without the Saint Stage experts, the remaining Asura World Army was easy to deal with.

Moreover, after witnessing Qin Jue destroy the city with a single punch, how could those warriors from the Asura World still have the mood to continue fighting? They had already exceeded expectations by not fleeing.

Chapter 200: Taken Advantage of

With the last Asura World expert killed, the end of this war also arrived.

Before this, no one would have imagined that the dimensional war that determined the survival of the Profound Mysteries Realm would end in such an unexpected way.

After checking, they even discovered that the total casualties of all the cultivators on their side had not even reached a hundred. It was simply unbelievable.

One had to know that even a war between two ordinary middle-tier factions would produce more casualties than this. It was simply inconceivable for a dimensional war to have such an outcome.

In other words, the struggles they had endured, the summons they had posted, and the cultivators they had mobilized had all led up to... a war that was no different from a fight between children.

And all of this was because of Qin Jue.

Relying on his own strength, he had turned the tide and saved the Profound Mysteries Realm!

Otherwise, with the current strength of the Profound Mysteries Realm, it was absolutely impossible for them to defeat the invaders from the Asura World.

When Qin Jue flew out of the temporary space, the entire place was incomparably silent. Everyone looked at him with worshipful eyes, as if they were looking at a god and didn't dare to profane him in the slightest.

Among them, the one with the most complicated feelings was none other than Su Li. She had originally guessed that Qin Jue was very likely a Great Sage Stage expert.

But now it seemed that Qin Jue was likely to have surpassed the Great Sage Stage.

Although they didn't know what happened in the temporary space, they had all still witnessed Qin Jue bringing out the others in less than 15 minutes after entering. Even an idiot would be able to understand what was going on.

“Are you okay?”

Qin Jue didn't care about everyone's gazes. He went up to Su Li and asked with a smile.

The peak experts of the Profound Mysteries Realm looked at each other and chose to stay where they were, not following Qin Jue.

“I-I'm fine.”

Su Li was stunned for a moment before she said with a flattered look.

Qin Jue was rather helpless about this. This was also why he was unwilling to reveal his strength, because once he revealed his strength, the people around him would most likely find it hard to accept it and change their behavior towards him.

Even if you still treated them as friends, they still couldn't help but feel inferior. After all, this was a world of cultivation.

In comparison, heartless fellows like Bai Ye and Long Zhen didn't have so many burdens. This was why Qin Jue chose to stay in the Xuanyi Mountain Sect and never left.

“I didn't know you were so powerful.”

After hesitating for a long time, Su Li couldn't help but say.

Now that she thought about how she had “saved” Qin Jue earlier, she found it funny. Why would someone as strong as him need her help?

“Yeah.”

Qin Jue nodded and looked into the distance. “It's about time for me to leave.”

“Huh? Where to?”

Su Li was stunned.

“Hehe, I forgot to tell you that I don't belong to this world.”

Qin Jue smiled.

“What?”

Su Li’s eyes suddenly widened, revealing a surprised expression. But on second thought, if Qin Jue did come from the outside world, it would explain why he was so powerful.

Moreover, during the time she had been in contact with Qin Jue, she had indeed sensed that his actions were somewhat strange. He did not seem to be as weak as other men.

Earlier, because she was in a hurry to rush to the Far East, Su Li didn’t pay much attention to it, but now, it had become powerful evidence.

“Then why did you help us?”

Qin Jue was stunned. He pondered for a moment and said, “Because this group of demons also invaded my world.”

“I see.” Su Li understood.

“Are you returning to your own world?”

“No!”

Qin Jue said meaningfully, “I am going to the Asura World.”

Su Li was shocked when she heard this. “Asura World? That place should be very dangerous, right?”

“Uh... it’s not dangerous for me.”

Qin Jue shrugged his shoulders. “But if I want to return to my world, I have to pass through there.”

“I see. Then I wish you a safe trip.”

Taking a deep breath, Su Li said with a complicated expression.

As an itinerant cultivator, Su Li had seen countless life and death separations. But this time, she had an indescribable feeling about this separation.

“Yeah.”

Nodding his head again, Qin Jue took out a storage ring and said, "This is for you."

"What is it?"

Puzzled, Su Li took the storage ring and swept it with her spirit sense. Immediately, her face was filled with shock.

"I... I can't take this."

All kinds of rare treasures and cultivation resources were stored in this storage ring. All of them were of high quality. They were enough for an ordinary person to cultivate from the Yellow Stage to the Saint Stage. How could Su Li accept such valuable treasures?

"Take it. Don't worry, the others won't notice."

He had just obtained this storage ring from Luo Jie. In any case, he had already collected a large amount of cultivation resources for Bai Ye when he plundered the Spirit Clan. Thus, it wasn't a big deal for him to give this storage ring to Su Li.

Moreover, he had deliberately used his spirit energy to isolate this space so that the outside world wouldn't find out about it. Otherwise, it would be inevitable that people would have some sinister thoughts.

"But..."

"No buts."

Qin Jue directly interrupted Su Li with a wave of his hand. "You don't want to stay at the Supreme Stage forever, right?"

Su Li was instantly speechless, not knowing how to answer.

Indeed, which cultivator didn't want to grow stronger?

After a long silence, Su Li braced herself and said, "In that case, thank you."

Seeing Su Li accept it, Qin Jue was rather satisfied. He then flew up and prepared to leave.

From Luo Jie's memories, Qin Jue had already learned where the spatial rift was. After passing through it, he also planned on closing it.

After sweeping through the Asura World, they should also no longer have any strength to invade this place again.

"Wait!" Before he could finish speaking, Qin Jue suddenly interrupted Wu Ying.

Gritting her teeth, Su Li suddenly called out to Qin Jue.

"Anything else?"

Qin Jue subconsciously turned his head. In the next moment, Su Li's lips suddenly assaulted his face!

In an instant, Qin Jue was stunned. What was going on?

Even the Eternal Night Emperor's detonation of the Hell World didn't have such a great impact on him.

Without waiting for Qin Jue to react, Su Li had already turned around and flew away.

Qin Jue : "..."

Everyone was puzzled.

For a moment, he forgot who he was and where he was.

Uh, but... she did smell good.

Su Li couldn't be considered as a peerless beauty, but she had sharp brows, bright eyes, and a heroic spirit, which was Qin Jue's type. If they weren't in the Profound Mysteries Realm, Qin Jue might have considered it.

Wait!

Qin Jue suddenly regained his senses.

Did I get taken advantage of just now?

After all, in this world, men were the submissive ones!

If it happened in the Spirit Central World, it would be like a man forcefully kissing a woman!

Forget it, forget it.

In any case, he was not a man of this world, so he did not feel taken advantage of.

Watching Su Li gradually leave, Qin Jue retracted his gaze and then flew towards the spatial rift.

Those Profound Mysteries Realm experts didn't know what Qin Jue wanted to do. They didn't dare to say anything and also didn't dare to follow him. They could only obediently stay in place.

"Help me take good care of that woman."

Before leaving, Qin Jue transmitted his voice with his spirit energy.

The woman he was talking about was naturally Su Li.

"Yes!"

The institute director nodded.

...

Not long after, Qin Jue passed through thousands of kilometers and arrived at the border area of the Profound Mysteries Realm.

As they were close to the void, every world's edge contained various storms and turbulence.

Even Supreme Stage experts would be swept away if they were careless. At best, their foundation would be shaken, and at worst, they would die.

This was why the Asura World had set up a spatial rift here, making it difficult for others to discover it.

The price was that if they encountered any special circumstances, it would easily cause spatial turbulence and cause the spatial passageway to collapse.

Back then, when the Asura World cultivators invaded the Spirit Central World, it was precisely because Long Zhen had advanced to the Great Sage Stage that many abnormalities had been created. That was why the spatial passageway had collapsed, causing their army to suffer heavy casualties.
