

SPARE ME, GREAT LORD!

1071 UPON PROMULGATION, CHENG QIUQIAO'S LAW SHALL BE STRICTLY ENFORCED!

Cheng Qiuqiao stood on the city wall and did not move. His fingers, covered by the bronze armor, had produced cracks in the wall.

The battle in the sky was soul-stirring, but he could not do anything.

"What repair?" Cheng Qiuqiao said in a low voice, "What nonsense are you talking about now? If you can survive, you don't need to repair my car. I can even give you my car."

To be honest, when Cheng Qiuqiao knew that Chen Zuan had advanced to Rank One because of his anger and sadness over Cheng Qiuqiao, Cheng Qiuqiao would be lying if he said that he was not touched.

There were times when they felt that this world was tumultuous. There were no true feelings. The society was very cold. Being touched was simply associated with politeness.

When Chen Zuan had advanced, everyone said that they were envious of Cheng Qiuqiao for having such a friend. He was lucky to have a friend who advanced due to his sadness and anger over him.

Back then, Cheng Qiuqiao said with a dark expression on his face, "Isn't Chen Zuan the lucky one to have a friend like me who helped him to advance?"

Although he had said so, Cheng Qiuqiao did feel that he was lucky.

At first, he did not like Chen Zuan, as he was very disappointing and foolish. All he liked to do was slack off. He would even force Cheng Qiuqiao to play truant with him.

He would smack his lips when he ate. He did not wash his dishes after eating either. His feet were so smelly that the smell could suffocate mosquitoes.

But Chen Zuan, who was full of flaws, was very trustworthy...

Cheng Qiuqiao felt that his greatest pride was choosing the species research specialization. He had met friends like Lu Shu, Lu Xiaoyu, Cao Qingci, and Chen Zuan!

Yes, friends!

Chen Zuan roared angrily in the sky. His long sword had broken.

Li Yixiao and Nalan Que defended against the attacks from the Rank One patrons with their backs against each other. Li Yixiao typically talked about divorcing Nalan Que, but he defended Nalan Que from a majority of the attacks.

The patrons from the Black Feather Army were ferocious, as if they already had victory in their hands.

But at that moment, there was suddenly a strange sound coming from the sky. Even the clouds dispersed.

Cheng Qiuqiao, who had been calmly standing on the wall, suddenly released massive waves of energy. No one expected Cheng Qiuqiao to be able to advance at such a

time!

Back then, Chen Zuan had advanced because of Cheng Qiuqiao. Now, Cheng Qiuqiao had advanced for Chen Zuan. Their friendship was as bright as the sun and the moon!

It was as if time had stopped on the battlefield. Cheng Qiuqiao took off his helmet and calmly said, "The flapping of the birds' wings can no longer be heard."

The young man on the city wall had not advanced to the master realm, but he had expressed power similar to that of a natural law!

What was this?!

And how did the people here know the poems written by the King of Gods?

It was an expression describing how the birds had all disappeared.

But it seemed like a spontaneous action when Cheng Qiuqiao muttered these words. He had stopped everyone in this area from flying!

No matter whether it was the Flood of Bronze or the Black Feather Army, they were all shocked. No one expected Cheng Qiuqiao to advance now. No one expected Cheng Qiuqiao to not sing the little conch song either. He now had an even more impressive method.

Cheng Qiuqiao laughed. "Ha ha ha ha. Cheng Qiuqiao, you are amazing! But I still prefer the little conch!"

"Heh heh," said Cheng Qiuqiao expressionlessly.

Chen Zuan flew down. He was going to kill the Rank One patron, who had lost his ability to fly.

Cheng Qiuqiao expressionlessly chanted the next word. "The..."

Before he could complete the expression, all of his Spirit Qi had been controlled by just one word!

The flapping of the birds' wings can no longer be heard. The steps of people can no longer be found!

The second sentence was much more frightening than the first. Thus, Cheng Qiuqiao could not complete his sentence.

It was like when he had mastered the little conch song back then. Only that song would produce an effect. When he advanced to Rank One, he had chosen this poem to represent his leveled-up skill. But he could only say the first sentence with his current abilities.

However, Cheng Qiuqiao knew that he would eventually be able to say the second sentence as well!

Chen Zuan and Li Yixiao chased after the Rank One patrons, who were falling from the sky. They knew that this was an opportunity that Cheng Qiuqiao had obtained after much difficulty. They had to seize this chance!

But this period of time was far too short. Even after exerting their strength, they only had the time to kill two Rank One patrons. They had exhausted almost all their

strength.

Earlier on, it had taken four of them to defend against the nine Rank One patrons. They had all forcibly raised their strength. Now, they had to suffer the consequences. Their foundation had been damaged. They would not be able to advance to Shen Cang Jing.

From the dawn of the magically rich era to the present day, many people had decided to give up on their future in order to protect their beliefs. They would even give up their lives.

Liu Xiu had done so. Zhao Yongchen had done so. Chen Zuan had done so. Nalan Que, Li Yixiao, and Chen Baili had done so as well!

They had no strength to continue fighting. It was as if they were at the end of their journey as heroes.

But even then, they were still heroes!

Chen Zuan and the rest stood among the Black Feather Army. The Black Feather Army did not even dare to approach them. Suddenly, a member of the Flood of Bronze roared from the wall, "Who dares to go down and save them with me?"

"I will go with you!"

"Me too!"

But at that moment, soldiers from the Black Feather Army did not pour out of the space pathway. This time, a red wave surged forth.

When the Black Feather Army saw this, they were shocked. "The Wei Wu Army! Why are they here?"

A group of black soldiers from among the Wei Wu Army flew into the sky. The Black Feather Army was dumbfounded. Over 50 Rank Ones were in the sky!

No matter whether it was the Black Feather Army or the Flood of Bronze, they all gasped in shock. It was their first time seeing so many Rank Ones fly in the sky. It was very majestic!

Zhang Weiyu and the rest cleaned up the patrons in the sky without any difficulties. When the Imperial Dragon Soldiers reappeared among the humans, they were invincible.

There were many Black Feather Army soldiers, but no matter how many people they had, they would not be able to stop over 50 Rank Ones working together. They had enough power to dominate the world, but were now being controlled by Lu Shu.

The Black Feather Army started to collapse! They were about to be defeated!

At that moment, one of the young men from the Wei Wu Army looked up at the Flood of Bronze and shouted, "Are you the Heavenly Network? My Great Lord said that he is your Ninth Heavenly King. He told us to come here and help you fight! He and Great Lord Xiaoyu will arrive soon. There are still thousands of Black Feather Army soldiers out there who have not been killed!"

1072 RETURN TO EARTH! A NEW ERA!

Return to Earth! A New Era!

Translator: Atlas Studios Editor: Atlas Studios

The Heavenly Network knew about the Wei Wu Army, as they had caught the chief logistics officer of the Black Feather Army, Li Ke. Thus, they knew that Lu Shu had been impressive in leading the Wei Wu Army, but this was only limited to when the Wei Wu Army had defeated Li Liang. Back then, Li Liang had not been punished by Duanmu Huangqi. He was still the leader of the Black Feather Army.

When they had captured Chen Yuxuan and killed the rest, the Wei Wu Army had not entered the palace. Thus, they obtained information from the soldiers of the Black Feather Army that Lu Shu might have gone to the palace and had become a disciple of the Sword Hut. However, there was no updated information about the Wei Wu Army.

Thus, Chen Zuan and the rest knew that Lu Shu had become the commander of the Wei Wu Army. Furthermore, he was not leading a weak army.

Suddenly, everyone felt that there was something wrong with this information. How was this not weak? Could you call an army with over 50 Rank One experts not weak? They were invincible!

No matter whether it was the Heavenly Network or the Black Feather Army, they were all dumbfounded. They had 500 thousand Black Feather Army soldiers and 21 Rank One patrons dealing with the Wei Wu Army. They had thought that this plan was foolproof.

However, when they saw the 50 Rank One experts, they suspected that their men were all dead!

When the Black Feather Army saw the Wei Wu Army, their heart sank. Now, their hearts sank even further, as the Wei Wu Army had swarmed over!

They had nowhere to run!

Of course, they could escape to the wilderness in Longmen Mountain. But as long as one was not foolish, they would understand that this was the home ground of their enemy. They had a large fortress and the entire world on their side. Would they be able to survive even if they ran away? Perhaps in their dreams...

The entire Black Feather Army was in despair!

Where had the Lord of Heaven gone? Where had the masters gone?

It could not be that they were defeated, right?

The Black Feather Army could only put their hopes on Duanmu Huangqi and the rest. They could only hope that they would win and turn the situation around, at least before Lu Shu reached them!

Chen Zuan had been willing to die. After all, he, Li Yixiao, and the rest were surrounded by the Black Feather Army. Even if the Flood of Bronze rushed over, they would not be able to make it.

But now, the situation had changed in a ferocious way!

The Wei Wu Army, who had acknowledged Lu Shu as their leader, was much stronger than they had expected!

How many Class A's did the Heavenly Network have? Chen Zuan got goosebumps as he watched Zhang Weiyu and the rest fly in the air. They were amazing!

The Imperial Palace Soldiers were like harvesters in the sky. All the Black Feather Army soldiers fell to the ground like wheat.

The ferocious Black Feather Army was at a disadvantage. They could not even retaliate.

The Wei Wu Army had been fighting for a long time. Li Heitan and the rest were fatigued. Even their tridents had broken due to the high intensity of battle, but these people were ferocious. Once their tridents broke, they used the prongs of the trident as sticks. They waved them in the air, creating a large gust of wind that blew away a few Black Feather Army soldiers!

They had 5000 experts who were on the same level as Heavenly Kings. This was the army that Lu Shu had nurtured with his refresher fruits!

In reality, Lu Shu should have advanced at a faster rate, as he had skills that were different from that of ordinary people. People often underestimated the power of the celestial map.

If Lu Shu had started a massacre, and did not care about his ethics, he would have advanced to the master realm.

But Lu Shu was not this kind of person. He did not feel that unlimited power was of utmost importance.

If Lu Shu had become a butcher, he would never be able to make friends with the Heavenly Network.

If someone had given Lu Shu two choices to walk to two different paths, Lu Shu would still choose this path, as this path brought him more happiness!

Li Heitan and Liu Yizhao led the Wei Wu Army and killed their way through. They approached Chen Zuan. Li Heitan looked at the Flood of Bronze on the city wall, then looked at Chen Zuan's broken bronze armor. "Are you from the Heavenly Network as well?"

"Yes." Chen Zuan tried to control his excitement. "I am Lu Shu's brother!"

Li Heitan was dumbfounded. He asked frankly, "Have you given money to our Great Lord?"

Liu Yizhao suddenly started scolding him. "Heitan, something will happen to you eventually!"

Li Heitan scratched his head. "Yes, yes, yes. I have to hide my inadequacy by keeping quiet..."

Liu Yizhao looked at Chen Zuan. He realized that although the Black Feather Army had surrounded Chen Zuan and the rest, they did not attack.

Liu Yizhao understood the Black Feather Army very well. If they had not been scared by the murders, they would not fear anyone.

This proved how dauntless Chen Zuan and the rest were before they had arrived. Even the Black Feather Army was afraid of them.

"I am Liu Yizhao." Liu Yizhao introduced himself with a smile. "I am a scout for the

Wei Wu Army. Apologies for our late arrival.”

Suddenly, Chen Zuan was touched beyond description. His words were very genuine.

Earlier, he had said that he would survive and wait for the return of Brother Shu, but he did not expect himself to be able to do so. It was like his desire to become a Heavenly King. It was simply a way to motivate himself.

But now, the entire Flood of Bronze was thinking about the same thing.

Back then, when they encountered danger at the Tiger’s Back fortress, Chen Zuan had thought that if Lu Shu was around, they would not have experienced so much difficulty. Thus, Lu Shu suddenly arrived on the back of a dragon and dropped swords from the sky.

Now that they encountered danger at the Longmen fortress, he would arrive as promised. The Ninth Heavenly King of the Heavenly Network did not disappoint!

They did not expect Lu Shu to appear with celestial troops and generals. They had anticipated his arrival for a long time. Lu Shu was finally about to return.

At that moment, a young man and a young girl happily walked out of the space pathway. “Oh, are you almost done fighting?”

Everyone looked at him. All eyes were on Lu Shu!

Lu Shu looked at Chen Zuan. “Are you a Class A now?”

Chen Zuan wailed. “What took you so long?”

Chen Zuan was only 18 years old. He was supposed to be a first year student in the Luo Shen Cultivation College.

But in this era, heroes would have to rise.

At that moment, Chaos was sleeping on the World Tree at the Changbai Mountains. When Lu Shu stepped on Earth, it suddenly jolted awake. It chirped and flew towards Luo City.

Coral, who was sitting by the World Tree, suddenly looked in the southwest direction. A leaf appeared in front of her. There were words written on the leaf. “He is back.”

“Yes.” Coral nodded her head and fell silent once again. No one knew what she was thinking about.

At that moment, Lu Shu looked at Chen Zuan and the rest. He smiled. “Don’t be too quick to be happy. Where is Nie Ting and the rest? Kill these people from the West Region before thinking about the past!”

1073 ARMOR THAT SHOOK MOUNTAINS

For some reason, when Lu Shu brought the Wei Wu Army back to Earth, even after the Wei Wu Army had defeated their enemies, the Heavenly Network was still uneasy.

They had no way to determine what exactly the Wei Wu Army was doing, and what objectives they had. After all, they had not made any deals with the Wei Wu Army. They did not know their natural disposition. Furthermore, they were very strong.

But the moment Lu Shu appeared, they calmed down, as they knew that the overall situation had been settled. Although they could not determine whether the Wei Wu

Army was on their side, they could confirm that Lu Shu was.

After so many years, everyone understood Lu Shu's natural disposition.

Although he was rather rude at times, he was always reliable.

When Li Yixiao saw the magical armor on the bodies of the Wei Wu Army soldiers, his eyes lit up. There were so many sets of magical armor! Lu Shu had probably earned big money in the Luniverse!

Chen Baili pointed to the south. "Principal Nie and Heavenly King Shi headed in that direction. Be careful. There are three enemy Shen Cang Jing's. I think that I don't have to elaborate. You know them better than we do."

"Heavenly King Shi?" Lu Shu was dumbfounded. His impression of Shi Xuejin was that of a person who made pancakes in the courtyard at the Capital. Why was he on the battlefield?

Chen Zuan explained, "When the Black Feather Army infiltrated the Earth for the first time, Mama Shi advanced to Shen Cang Jing in just four steps..."

Chen Baili, who was beside him, slapped the back of his head. "Who allowed you to give Heavenly King Shi nicknames?"

Chen Zuan felt that he had been treated unfairly. "I wasn't the first one who did it. I learnt it from someone else."

Chen Baili slapped the back of his head once again. "Why can't you learn better things?!"

Chen Zuan was speechless. Even though he was ferocious and had advanced to Class A, his granduncle was still his granduncle!

Lu Shu gasped in shock. Was Shi Xuejin so fierce now?

When the others saw Lu Shu's reaction, they were very calm, as they had the same reaction back then.

Everyone had a similar impression of Shi Xuejin. A majority of the training techniques in the Heavenly Network had been created by Shi Xuejin, but Shi Xuejin was just an ordinary person. Thus, everyone saw Shi Xuejin as the first "researcher" in the Heavenly Network. No one thought that he would become one of their top powers overnight.

This difference was far too large. It was rather difficult to accept!

To be honest, Lu Shu respected Shi Xuejin, as he knew how much loneliness Shi Xuejin had to endure before reaching this stage.

But it was still fine. Nie Ting understood and supported him.

Duanmu Huangqi was a thorn in Lu Shu's flesh. Duanmu Huangqi probably thought the same, but he definitely did not think that the Wei Wu Army and Lu Shu would become the straw that broke his back!

Furthermore, this straw was rather rough!

The Flood of Bronze watched as the Imperial Dragon Soldiers followed Lu Shu and

flew to the south. This scene was shocking, as the strength of the Wei Wu Army had far exceeded their expectations.

Lu Shu did not panic. He had wanted to use the Imperial Dragon Soldiers to deal with the three masters. Although their chance of winning was very low, they still had a chance.

His wish of working together with Nie Ting to eliminate the three masters from the West Region had come true. Furthermore, Shi Xuejin had given him a big surprise.

Thus, with the entire Wei Wu Army up against a master, Lu Shu felt that they would be able to win with ease!

As they flew, they could see collapsed mountains and split rivers everywhere. The peaks of mountains were broken. Roads had been devastated. River beds had been destroyed. These were the effects of a master attacking. If there had been civilians here, they would have died.

Lu Shu felt that it was time to end this war. If they continued to fight like this, they would bring massive harm to the Earth. According to Lu Shu, he had returned home. He wanted to live a peaceful life, not continue to fight and kill.

With a master like Duanmu Huangqi focused on him, Lu Shu felt that he could not live his days well. He would not be able to carry out his ideas.

Before long, Lu Shu could sense strong waves of energy. The waves of energy produced by a fight between masters surged like a tsunami. Lu Shu's expression grew serious. "Be careful. Kill Duanmu Huangqi first."

"Yes." Zhang Weiyu and the rest answered in unison. They went into formation behind Lu Shu. The black armor that had been stolen from the soldiers of the sea seemed to exist to win from a position of weakness.

When typical Rank Ones wore the armor, it was simply more durable than normal magical armor. But when dozens of Rank Ones wore the armor, they could attack experts who were stronger than them.

Lu Shu could see Shi Xuejin protecting Nie Ting in the distance. He blocked the fatal attacks from the three masters, while Nie Ting continued to press forward, as if he did not have any worries.

When Lu Shu and the rest flew closer, they sensed that the cooperation between Nie Ting and Shi Xuejin was flawless. One attacked, while the other defended. Nie Ting naturally had murderous intent. He preferred to defend by attacking. On the other hand, Shi Xuejin was more steady and did things in a systematic manner.

In the past, Nie Ting killed people at the speed of lightning. He had never met any evenly-matched opponents. Even if the masters from the West Region fought alone, they would have died very quickly.

But once the number of enemies increased, Nie Ting's weakness was exposed. He did not have enough defensive tactics.

But now, Shi Xuejin was beside Nie Ting. He fiercely protected Nie Ting. Nie Ting did not have to think about guarding himself. He could focus on killing. His ferocity seemed to engulf the heaven and the earth!

Even Lu Shu was scared when he saw this. The current Nie Ting was frightening. He

was at his full power.

But it was not the time to think about this. Lu Shu lead Zhang Weiyu and the rest, creating a formation. He had worn the black armor in order to protect himself. The Rank One experts clad in black armor seemed to form a whole.

Suddenly, an unexpected event occurred. When Duanmu Huangqi saw Lu Shu and the rest, he stopped and led the two other masters to retreat. "The armor that shakes mountains! Why is it in your hands?"

Duanmu Huangqi seemed to be afraid, but he was not afraid of the armor that Lu Shu and the rest were wearing. They were afraid of the people in the armor!

The armor that shakes mountains? Lu Shu was dumbfounded. Was there a history behind this armor? Back then, he had asked Zhang Weiyu and the rest about this, but they had never seen the armor. However, Duanmu Huangqi recognized it!

1074 WE CANNOT LEAVE BEHIND ANYONE WE ARE SUPPOSED TO KILL IN THIS LIFETIME

When Lu Shu and the rest had joined the battle, Duanmu Huangqi had given up on killing Nie Ting and Shi Xuejin. This was enough to see their fear.

At times like this, no matter whether it was the armor that shakes mountains, or the armor that transcends hills, he would kill Duanmu Huangqi before anything!

Lu Shu made his move. The Imperial Dragon Soldiers moved out as well. The Imperial Dragon Soldiers maintained a tight formation around Lu Shu. They were like a chess board that was about to suppress Duanmu Huangqi.

Nie Ting and Shi Xuejin had just seen Lu Shu, who had returned. There was

excitement and surprise in Nie Ting's eyes. He had just told Shi Xuejin that Lu Shu would definitely return if he had heard that the Earth was in trouble. As expected, he had returned.

Earlier, he was worried that even if he and Shi Xuejin were able to fend off these three masters, it would be difficult for the Flood of Bronze to deal with the Black Feather Army.

It was a very difficult situation, as the overall strength of the Earth was no match for that of the Luniverse.

But now, when they saw Lu Shu approaching from the Longmen fortress, they subconsciously heaved a sigh of relief. The situation here was settled!

This trust was built over a very long period of time. It was unconditional.

When Shi Xuejin saw the Imperial Dragon Soldiers protecting Lu Shu, he suddenly felt that Nie Ting had been constantly angry at Lu Shu in order to make him a Heavenly King. They had fought for almost a year, but this was Nie Ting's wisest decision in protecting the Heavenly Network.

In conclusion, his anger had not been for nothing...

It was as if Duanmu Huangqi did not expect Lu Shu to be so resolute and charge directly towards him. Lu Shu also did not expect Duanmu Huangqi to lead the other two masters to retreat.

A grand Lord of Heaven had retreated while facing a Rank One expert!

With victory in hand, Lu Shu suddenly felt uncomfortable. It was as if a power-packed punch had hit the air!

"Stay there! Don't run away!" Lu Shu roared angrily!

"From Duanmu Huangqi's distress, +999!"

Duanmu Huangqi grew pale. He felt humiliation that he had never felt before. It had been a long time since he had been chased by a Rank One!

But this time, it was different. Just as Lu Shu had guessed, the armor that shook mountains was important. He had to figure out what was happening.

There was something strange about the land of forefathers!

The next moment, Duanmu Huangqi took out a purple pearl and crushed it. When Lu Shu saw the purple pearl, he felt that things were not going well. He had seen this pearl before, when he had committed a massacre on the limestone road!

Back then, Lu Shu felt that this purple pearl was very mysterious. It could open up a space pathway. Back then, he thought that this was a method that masters could use. After all, masters could break space.

But now, it looked as if this method was beyond the masters. If Duanmu Huangqi was able to create a portal and leave the Earth, he did not have to rely on external help.

The purple pearl was probably very precious. If not, Duanmu Huangqi would not have taken out the pearl in times of danger.

Suddenly, after the purple pearl shattered, it created a space pathway like the one before. Duanmu Huangqi led the two masters and walked into the pathway.

Lu Shu tried to chase them, but the space pathway had closed!

A Lord of Heaven had led a mission, but his army had suffered heavy losses. In the end, they had no choice but to escape.

Lu Shu, Nie Ting, and Shi Xuejin flew back to the Longmen fortress. This time, the Earth had won. They did not have to rely on any cheap tricks.

But Lu Shu could not be happy. Lu Shu thought that they had come at an appropriate time. They had only taken 30 minutes to kill their way to the space pathway after it had opened. He had even used all of his invisible aurablades and used Johnson's materialization ability to open up the path.

When they reached the space pathway, Lu Shu ordered the Wei Wu Army to enter the space pathway and provide support. He and Lu Xiaoyu would stop the remaining 500 thousand Black Feather Army soldiers. This was a very courageous move!

The two of them only walked into the space pathway after he had used Sparrow Shade to kill the entire Black Feather Army.

But even if their arrival had been timely, some comrades in the Flood of Bronze had died. However, they had suffered few losses overall. After all, there would definitely be fatalities in war. Only strange armies like the Wei Wu Army would be able to completely dominate the battle.

Lu Shu, who had been happy earlier, suddenly felt sad over the deaths of his

comrades. Once he was used to leading the Wei Wu Army, he had thought that he could control the Flood of Bronze as well. The battles he had experienced could not be classified as cruel. It was not that their enemies were weak. It was just that the Wei Wu Army was too strong!

It was said that only men who went through wars would truly mature. Experiencing war meant experiencing life and death of themselves, their loved ones, and their friends.

But Lu Shu's mind was filled with the thought that the chief offender, Duanmu Huangqi had not died!

The Black Feather Army outside the space pathway had been killed. Those who had been defeated retreated into Longmen Mountain. The Flood of Bronze no longer had to do anything. The Wei Wu Army took over them. Wei Wu Army could not be more familiar with dealing with the Black Feather Army.

Lu Shu had understood that Duanmu Huangqi was just a performer. No matter whether it was the 21 tattooed patrons, or someone behind Duanmu Huangqi, there was definitely someone else involved. The purple pearl was not from Duanmu Huangqi. He did not yet have this ability!

The fog surrounding the world seemed to have dispersed, but water condensed once again. Now, fog surrounded the world again.

But Lu Shu did not think too far for now. He looked at the corpses from the Flood of Bronze at the entrance of the fortress. Their durable bronze armor was broken.

When Lu Shu saw this, he could not maintain his emotions. Something ruthless was

beating in his chest. It was hard to control.

It was as if there was a beast in his heart. It had been sleeping for a long time, but was about to awaken.

Lu Shu looked at Zhang Weiyu. "Tell the Wei Wu Army to gather. I will wait for you at the space pathway."

Zhang Weiyu immediately knew what Lu Shu wanted to do, but the calm Zhang Weiyu did not stop Lu Shu. He had no feelings towards the Flood of Bronze. The Flood of Bronze was not an army that he had trained. But he had stopped doubting Lu Shu's decisions since a long time ago.

At that moment, there were waves of energy from the space pathway. The space pathway had closed. Lu Shu was dumbfounded.

Suddenly, Lu Shu turned and said to Network, "Don't worry. I will not leave behind anyone I am supposed to kill in this lifetime. After I am done with my affairs in the Heavenly Network, Heavenly King Shi and I will follow you to that world. After all... I have to take revenge for them as well."

Lu Shu calmly turned and looked at Nie Ting. "That's settled then."

1075 HAS THERE BEEN A MISUNDERSTANDING?

Martyrs needed respect and a burial. After the space pathway closed, the first thing everyone had to do was to lay the deceased to rest.

Some said that there was nothing more major than life and death, but some people saw responsibility as more important than their own lives.

The funeral was not grand, but thousands of practitioners from the Heavenly Network

sent them off.

The space pathway was closed for now. The Black Feather Army had been eliminated as well. It was time for the Heavenly Network to rest and recuperate. Nie Ting asked Zhong Yutang to rotate everyone's days off. They were not relaxing, but the people could not be constantly be alert. There had to be a balance.

War was very important, but the soldiers of the Heavenly Network were not machines. They could not continue being used after simply refueling them.

Nie Ting even allowed them to take turns drinking alcohol. This was an additional reward!

Everyone was reasonable. They knew that the space pathway was opening more frequently. Thus, it was very important to adjust their condition as quickly as possible.

During this crucial time, Lu Shu had brought the Heavenly Network a pleasant surprise. This surprise was not simply their victory. He had brought back some resources as well.

Chen Zuan, Chen Baili, Li Yixiao, and Nalan Que had broken their foundations during battle in order to forcibly increase their strength.

They were not the exceptions. All the Practitioners who were above Class D in the Heavenly Network had mastered the technique of forcibly increasing their strength. They had called this the glory bullet of the Practitioners. Their lives would be at risk.

Did they have to risk their lives during the war? Of course. Thus, Nie Ting did some calculations. At least 5000 had used this technique during the battle. It was sufficient

to prove the intensity of the battle.

This was a huge hit to the Heavenly Network. This meant that over 5000 people were no longer able to train! Their strength would stay at their current stage for the rest of their lives, and might even drop!

What should they do? Nie Ting looked at Lu Shu...

Lu Shu's heart ached, to the point that his hands started to tremble. 5000 refresher fruits. No one would buy 5000 oranges from a fruit stall...

But it was not time for this. When they had killed the Black Feather Army, most of the soldiers had provided him with 1000 distress points before they died. At first, Lu Shu felt that he had more than enough distress points. He might even be able to complete the fifth level of Nebula. Now, he had to spend these points.

Things had finally settled down. Lu Shu could only grit his teeth and exchange his distress points for refresher fruit. He promised that he would earn back these distress points from his comrades one day...

The process of eating the refresher fruits was conducted in secret. In order to protect this secret, Nie Ting controlled the entire process. He gave out the fruits one by one. Everyone who ate the fruit had to sign an agreement that they would keep this a secret.

When his comrades ate the fruits and were pleasantly surprised at the recovery of their foundation, for some reason, they had an unpleasant premonition. It was as if a frightening presence was staring at them. They did not know whether it was just them...

Lu Xiaoyu sat at the edge of the city wall and watched the sunset. Little Fury quietly accompanied her on her shoulder. Lu Xiaoyu suddenly said, "It's great to be back, right?"

When Lu Xiaoyu learned that Lu Shu was willing to contribute over 5000 refresher fruits, she was rather surprised. This was not the Lu Shu of the past.

But when she thought about all the friends they would have in the future, it did not seem to bad.

The sun sinking in the horizon was rather warm. Lu Xiaoyu felt as if the dark corners in her heart had been lit up.

"But it's not over." Lu Xiaoyu suddenly said, "It's fine. We will always accompany him, right?"

Little Fury nodded its head with force.

At the same time, Nie Ting and Lu Shu were in the fortress. Nie Ting looked at Lu Shu and said, "Thanks for your bronze armor. If not, the consequences would have been more severe."

The magical armor had been overlooked by the people of the Luniverse, as wars had not occurred in the Luniverse for a very long time. However, when war broke out, people would understand that a reliable set of armor would save their lives!

This was the value of the magical armor. If they did not have the bronze armor, the Heavenly Network would have suffered heavier losses.

"Let me thank you on behalf of them," said Nie Ting, "and on behalf of the Heavenly Network."

Lu Shu laughed cheerily. "We are all on the same side."

"But it is a pity." Shi Xuejin, who was beside them, said, "This time, over 4000 sets of bronze armor have been destroyed. A majority of them are broken beyond repair. This means that the future Flood of Bronze will only have 15 thousand people.

Furthermore, we still have 50 thousand people in the Heavenly Network who can fight, but do not have any armor."

Suddenly, Lu Shu suddenly thought of something. His eyes lit up. "That's right! I brought you some local specialties from the Luniverse!"

When Nie Ting and Shi Xuejin heard this, they were dumbfounded. They were talking about serious affairs. Why did he talk about local specialties? Was it the time to eat... what?!

All the members of the Heavenly Network, Nie Ting, Li Yixiao, Nalan Que, Shi Xuejin, Chen Zuan... everyone held their breath in shock. They almost turned this place into a vacuum...

Of course, this was an exaggeration, but Nie Ting and the rest was very shocked. They watched as Lu Shu took out sets after sets of magical armor from the Seal of Lands. It was as if he had an endless supply!

Even Nie Ting and Shi Xuejin, who had seen the rest of the world, were dumbstruck. Were these the local specialties that Lu Shu was talking about? Did you understand

the meaning of "local specialties"?

"From Nie Ting's distress, +666!"

"From Chen Zuan's distress, +666!"

"From..."

"Brother Shu, are these local specialties?" Chen Zuan was shocked.

Lu Shu asked, "Can these be produced on Earth?"

"No..."

He took half an hour to take out all the armor. Nie Ting and the rest were numb. Lu Shu clapped his hands. "There are 36 thousand sets here that are just as good as the bronze armor. Although the color is different, I suggest that the Flood of Bronze should keep its name, as it represents honor."

Nie Ting nodded his head. Lu Shu was right.

The name "Flood of Bronze" bore the weight of blood and honor. Now, Lu Shu had brought many local specialties from the Luniverse, giving the Flood of Bronze a new lease of life!

50 thousand soldiers in the Flood of Bronze? Chen Zuan's eyes lit up. Suddenly, he was excited for the future!

1076 MODERN CIVILIZATION

36 thousand sets of magical armor was an extremely frightening number. It had been difficult for the Sun and Song families, who were wealthy families in the palace, to

purchase the armor. It could be seen that not many sets of magical armor existed in the Luniverse.

But the war had arrived suddenly. The Black Feather Army had been completely defeated by the Wei Wu Army before any news could get out. Thus, the Luniverse was silent. No one knew what had happened, and could not ask for information.

All they knew was that the Black Feather Army forces fighting at the Wanshe Plains had completely disappeared. Wanshe Plains was filled with corpses. Blood seeped into the ground.

On the other hand, the Wei Wu Army and a portion of the Black Feather Army had disappeared into the space pathway.

No one knew what had happened and what this meant. Everyone only knew that Duanmu Huangqi was alive. He had brought two masters back to the West Capital!

Nie Ting and the rest were taking inventory of the surprise Lu Shu had brought back. At first, the Flood of Bronze only had 20 thousand sets of bronze armor. They had lost 4000 sets because of this war.

The average strength in the Heavenly Network was lower than that of the Luniverse. They had completely relied on the bronze armor to increase their strength and reduce fatalities. The decrease in the number of bronze armor sets made Nie Ting, Zhong Yutang, and the rest somewhat worried.

After all, if they had fewer sets of bronze armor, it would mean that the Heavenly Network would suffer even more losses if they had another battle in the future.

But now, not only had Lu Shu eliminated the danger for the Heavenly Network, he had even brought back many local specialties!

The use of the phrase "local specialties" made Chen Zuan assume that magical armor grew on trees in the Luniverse...

"Brother Shu." Chen Zuan suddenly asked, "Are there any difference between the Luniverse and Earth? For example, is there anything very common in the Luniverse that is rare on Earth?"

Cheng Qiuqiao asked, "I think it's magical weapons. There must be many magical weapons there."

Li Yixiao guessed. "Magical stones? Are there a lot of magical stones there?"

Everyone looked at Lu Shu. After all, Lu Shu had the right to answer this question.

What was very common in the Luniverse that was rare on Earth? Lu Shu looked at Chen Zuan and paused for two seconds. "People of the Luniverse?"

"From Chen Zuan's distress, +666!"

"From Li Yixiao's distress, +666!"

"From..."

Everyone suddenly felt that Lu Shu had actually returned. The Lu Shu they had not seen for a long time was actually back.

Nie Ting asked Zhong Yutang to store the magical armor in the warehouse. Then, they reorganized the Flood of Bronze based on the current strength of the Heavenly Network.

There were only 50 thousand sets of armor. Thus, the remaining 10 thousand people could only act as backup. Although Lu Shu had brought back many sets of magical armor, many people could not wear them.

As for the integration of the Wei Wu Army, Nie Ting and Lu Shu silently decided to talk about it at a later time, as it was a sensitive issue.

The Wei Wu Army only recognized Lu Shu as their leader. There were 59 people wearing the black armor, excluding Lu Shu and Lu Xiaoyu. There were 56 Imperial Palace Soldiers including Zhang Weiyu, as well as Liu Yizhao, Li Liang, and Yi Qian.

They were a frightening force. It was not an exaggeration to say that they were able to overturn the Earth.

Thus, they had to be careful with the Wei Wu Army. Lu Shu had asked Zhang Weiyu to lead the Wei Wu Army and follow Hao Zhichao. They would settle the issues of meals and accommodation.

The Wei Wu Army was not worried. They had understood that this was the hometown of their Great Lord. Everyone was very familiar with their Great Lord.

Zhang Weiyu had also understood that Lu Shu had definitely lost his strength due to some reasons before going to the Luniverse. Thus, he had formed a few misunderstandings.

It was precisely because Lu Shu was not a Rank Six practitioner that he was able to perform in such a unique manner wherever he went.

It was very shocking for a Rank Six to be able to use sword energy.

When the Wei Wu Army walked into the fortress, they could feel the gazes of admiration from the members of the Heavenly Network. Although they were unfamiliar with one another, their relationship with Lu Shu caused them to get closer.

The Ninth Heavenly King and the head of the Wei Wu Army. When Lu Shu's identities merged, the gap between them narrowed. Furthermore, the Wei Wu Army had been a great help to the Heavenly Network!

When Lu Shu asked Zhang Weiyu to follow Hao Zhichao, Hao Zhichao asked, "Do you have any other requests, other than food and lodging?"

Lu Shu thought about it. "There's nothing else from me. Zhang Weiyu, do you have any requests? They will be able to fulfill your requests as long as they are not too extreme."

Zhang Weiyu thought about it and said, "Could you give us some books to read? We want to understand the history, culture, geography, and environment of this place."

To Zhang Weiyu, he did not just have to consider simple things like eating and sleeping. He was still in charge of the affairs in the Wei Wu Army. Thus, he had many things to consider.

This request of books would not be too extreme, right?

Just as Hao Zhichao was about to agree, Lu Shu's expression suddenly changed. Lu Shu said with bitter hatred, "Rest well for now. Why read books? No reading of books! Eat and go to sleep!"

Hao Zhichao and Zhang Weiyu were dumbfounded. What was this?!

Lu Shu waved his hand. "Go do what you have to do. Eat well and sleep well. Don't read any books!"

Zhang Weiyu was dumbfounded. The Lu Shu of the past was not like this. The Wei Wu Army had to do homework while riding on their horses. Why the sudden drastic change...

But Lu Shu did not explain much to them. He continued discussing with Nie Ting. There were far too many things to discuss.

Zhang Weiyu was worried that the Heavenly Network would not have done any preparations to accept them. Thus, it would be slightly chaotic.

He realized that he had been overly anxious. This organization called the Heavenly Network was highly efficient. Zhang Weiyu sighed when he saw this. It was as if everything was neat and followed the rules.

They stayed in cement houses. The house was clean. They could even take hot showers.

Typically, modern military campsites would have a shower at every level. Li Heitan followed Hao Zhichao's instructions and turned on a shower. Sure enough, hot water flowed out!

It was very convenient to use the toilets as well. The water would flush everything away!

This was a huge hit to the world outlook of the Wei Wu Army. It was a chemical reaction that would definitely be produced when old and modern civilizations clashed.

However, Zhang Weiyu was relieved that the Heavenly Network did not deploy anyone to supervise them. They treated the Wei Wu Army like their own allies.

1077 GUANGDONG DISHES

Was Zhang Weiyu worried about not enough food, clothes, and sleep? Of course not.

At his level, he no longer had any desire for food and other material goods. Thus, he was worried. What if the Heavenly Network treated the Wei Wu Army like outsiders?

It would be dejecting if they were constantly supervised and could not go out.

It was said that those of a different race had different mindsets. This idea was the same on Earth and in the Luniverse. It was normal for Zhang Weiyu to be worried about this.

But the Heavenly Network had given him a surprise. No one supervised them or rejected them. They felt at home, although this home was rather foreign.

The Wei Wu Army had fought from Nangeng City to the Wanshe Plains. No one cared about taking showers. When they were fighting, they did not feel anything. But once they were done, they realized that they were all smelly.

Then, Hao Zhichao deployed people to bring them to the showers. They had showers with hot water, and convenient daily amenities. After they were done showering,

some felt that this was treatment only aristocrats could enjoy.

They asked out of curiosity and discovered that everyone here showered this way!

It was as if they had come to the palace from the country. They were curious about everything. However, Zhang Weiyu observed closely. The members of the Heavenly Network did not mock them.

In reality, most people would laugh at them. If you brought a friend to visit the palace for the first time, you would find it amusing when your friend was amazed, as you were familiar with everything.

But the Heavenly Network was different. They patiently explained everything to them. They did not mock them.

Suddenly Zhang Weiyu felt that it would not be a bad idea to stay here. Back then, when Lu Shu said that he wanted to bring them to his hometown, Zhang Weiyu was rather worried, but did not oppose Lu Shu, as he could not do so.

Now, he felt that this was a pleasant surprise.

When it was time to eat, Hao Zhichao brought them to the canteen. The canteen was very big. Furthermore, Zhang Weiyu was amazed at the concrete infrastructure.

Hao Zhichao was somewhat embarrassed. He explained, "Many of our cooks are not experienced due to the war. Thus, the meals they make may not be very good. I told them about today, but the meals may not be to your liking."

Zhang Weiyu did not care about this kind of thing now. He smiled. "If we can have

hot meals, that will be good. We are not too particular."

When it was time to eat, everyone took their trays and lined up for food. There was braised pork, sour and spicy potatoes, fiery chicken...

When the Wei Wu Army saw these, they did not know what they were, but they smelled very good.

There was a lack of seasonings and things to eat in the Luniverse. The food was not as fragrant as that of on Earth.

Zhang Weiyu looked down on him. "Heitan, don't be deceived by your surroundings. You must have perseverance in training. You must be able to reject temptations."

"Try some," said Li Heitan.

Zhang Weiyu casually ate one bite. "Hm?!!!"

When Zhang Weiyu and the rest ate, they felt as if they had been tricked. How could this not be delicious? Was this what they meant by it might not taste good?

This was amazing!

While they felt that the food was delicious, the cooks almost collapsed. When the Wei Wu Army came, Lu Xiaoyu told them to eat as much as they wanted. After all, it was not their home.

Thus, Li Heitan and the rest ate as much as they wanted. The canteen had prepared food for 20 thousand people, but it was still not enough for the Wei Wu Army!

Lu Shu was still discussing official affairs with Nie Ting. Suddenly Nie Ting thought of something. He suddenly waved at Lu Xiaoyu, who was on the city wall. "Xiaoyu, come here! I have a present for you!"

Lu Xiaoyu turned around. When she heard that Nie Ting had a present for her, she smiled and her eyes turned into crescent moons. "I'm coming!"

Nie Ting led a group of people on horses. They went to the secret jail at the Longmen fortress. The Black Feather Army soldiers they had captured were here. They tried to obtain information from them to paint a complete picture of the Luniverse.

But this information was not longer very important, as Lu Shu would tell them everything they wanted to know.

If Lu Shu did not know something, these ordinary soldiers of the Black Feather Army probably would not know either.

Furthermore, the people who understood the Luniverse most on Earth were the Imperial Palace Soldiers.

The secret jail was not as dark as they had expected. It had been modified from a residential house.

Everyone here had broken foundations. They had become ordinary people. Thus, there was no difference from an ordinary jail.

It was harsh to destroy their foundations, but Nie Ting was willing to be harsh towards his enemies. This was to prevent them from using their strength to escape the jail.

What if they injured the civilians and their soldiers while escaping?

The secret jail was tightly guarded, but it looked like a normal jail from the outside. There was sunlight, a parade square, a basketball court, and exercise facilities. This was a display of humanitarianism. It was a pity that the prisoners here could not play basketball...

The offenders were locked up by themselves. There was a window on every door that seemed to be blocked with metal bars. The people outside could see what was happening inside. The people inside could also see what was happening outside through the metal bars.

When they passed by one of the houses, they suddenly saw an offender leaning on the metal bars. He said to Chen Zuan, "Come here. Come. Let me tell you a secret."

Chen Zuan was dumbfounded. He looked at the rest. The person leading the way said, "That person is crazy. He's called Li Ke. He was the chief logistics officer of the Black Feather Army that we first caught. At first, he was fine. For some reason, he started to go crazy."

"That can't be right. There must be a reason behind his insanity." Chen Zuan was curious. Li Ke asked Chen Zuan to come over, saying that he had a secret to tell him.

The head of the prison explained. "At first, we gave him our best delicacies in exchange for information. Later on, someone teased him and asked whether he wanted to try Guangdong dishes. He asked what was the best-tasting thing in Guangdong. The person said that the best thing in Guangdong was the Fujian people. Then, he went crazy..."

Cheng Qiuqiao sighed. "... he is far too weak. Don't tell me that he is acting."

Lu Shu looked at Chen Zuan and paused for two seconds. Then, he said to Chen Zuan, "Go and listen to what he had to say to you."

Chen Zuan was very curious. When Lu Shu said this, Chen Zuan no longer hesitated. The moment he approached Li Ke, Li Ke said, "Peh!"

A mouth of spit that Chen Zuan would never forget fell on his face...

Chen Zuan went crazy. "Open the door. Did you hear me? I will kill him! Open the door!"

"From Chen Zuan's distress, +666!"

1078 SEIZE THE NATURAL LAWS OF MASTERS!

"Wait. Brother Shu, why didn't you go and listen?" Chen Zuan looked at Lu Shu.

Lu Shu waved. "I don't want to be spit on."

No wonder Lu Shu seemed curious, but did not go and listen. He was protecting himself!

If Lu Shu had not encouraged Chen Zuan, Chen Zuan would not have been spit on!

Chen Zuan felt that ever since he had started training, the longest path he had taken was Brother Shu's path!

When Shi Xuejin saw this, he suddenly felt that the atmosphere had become more cheerful after Lu Shu had returned.

After Lu Shu left, although Chen Zuan had become much more reliable, Cheng Qiuqiao and Chen Zuan seemed like completely different people. They were no longer as cheerful.

The Heavenly Network had been filled with a tense atmosphere as they prepared for battle. It was completely different now. They had become much happier.

They continued walking in. Suddenly, Lu Shu realized that the present Nie Ting had prepared for Lu Xiaoyu was very unusual.

When they saw the present, they were shocked. Chen Yuxuan was in a solitary cell. He was on the verge of death. Mysterious black veins covered his face. He seemed completely disabled.

Although Lu Shu had a guess, he wanted to confirm it. "This is..."

"He is the first master who came from the West Region, Chen Yuxuan," said Nie Ting calmly. Then, he turned and smiled at Lu Xiaoyu. "You should be able to capture the spirit of a master, right?"

Lu Xiaoyu's eyes lit up. It was as if she had been given a pillow just as she was about to take a nap. She did not have the natural law of a master that would allow her spirits to advance!

Lu Shu felt that this was very impressive. Nie Ting had presented Lu Xiaoyu with a master as a gift.

Not only was Lu Shu surprised, even Chen Zuan and the rest found it hard to believe.

They looked at Nie Ting, who had a warm gaze. Was this the same Heavenly King Nie that had been killing with determination...

Although it sounded very frightening to present a life as a gift, no one felt any mercy for him. Many of their comrades had been sacrificed. If the people from the West Region had not come, would they experience these losses?

If the people of the Luniverse learned that a master in the land of forefathers treated another master as a gift, Nie Ting's name would spread in the Luniverse within three days.

The people in the Heavenly Network felt that Nie Ting spoiled Xiaoyu.

Lu Shu opened the door and walked into the cell. He forced a refresher fruit into Chen Yuxuan's mouth. Suddenly, Chen Yuxuan sprang back to life like a plant in spring. His strength started to increase.

Before he could celebrate, he heard the young man in front of him say, "Go there and wait for Duanmu Huangqi. I will send him to you very quickly."

Chen Yuxuan did not expect himself to fall into an abyss just after receiving hope.

Lu Shu turned and looked at Lu Xiaoyu. "Is it done?"

"Yes." Lu Xiaoyu smiled. Then, she took out a pack of potato chips from her space ring and passed it to Nie Ting. "This is for you."

Nie Ting did not seem to be offended. He took the pack of chips and opened it. He started munching on them.

Chen Zuan was confused. Why were you so happy receiving a pack of chips in exchange for a master? Were you really Nie Ting?

"Xiaoyu, do you still have any chips?" Chen Zuan asked.

Lu Xiaoyu smiled. "Buy them yourself."

Chen Zuan was dumbstruck.

"From Chen Zuan's distress, +666!"

Shi Xuejin watched Nie Ting eat. He looked at the packet of chips. Then, Nie Ting turned around. He did not even let Shi Xuejin watch him...

Shi Xuejin cleared his throat. "Xiaoyu, I have a gift for you as well."

Everyone was dumbfounded. Were they competing to give Lu Xiaoyu presents? Why was she treated so well?

But this time, Lu Shu was truly surprised. A large pile of white sand flew out of Shi Xuejin's invisible storage equipment.

"Deep Sea White Sand?!" Lu Shu was shocked.

They had used Deep Sea White Sand before, but they only had two fists' worth of sand. In the past, half of the sand could be used to protect Lu Xiaoyu like armor, while the other half was used to attack.

But Lu Xiaoyu had grown taller. Thus, the Deep Sea White Sand was only enough to form her armor...

But this surprise came very quickly. Lu Shu felt that not only could the Deep Sea White Sand form armor, it could easily form an entire person...

Nie Ting glanced at Shi Xuejin. There was a message behind his gaze. "Your present is not bad."

Then, they ate a packet of chips each.

Lu Shu had wasted a refresher fruit and fed it to Chen Yuxuan. He was worried that if his foundation had not recovered, Lu Xiaoyu would capture a disabled spirit. Thus, this wastage had been worth it.

After all, the distress points he had lost was made up by the distress points Chen Yuxuan had produced when he died.

Lu Shu thought about it. One refresher fruit cost 1000 points. When a person died, they gave him 1000 distress points as well. Was there some logic behind this?

But it was not the time to think about this. Lu Xiaoyu did not choose to materialize Chen Yuxuan. Instead, she seized his natural law and gave it to Anthony!

It was not that she disliked Chen Yuxuan because his combat power was not higher. In reality, masters were all able to deliver earth-shaking attacks. But in terms of functionality, if they were going to fight in the future, Anthony would be more useful.

Earlier, when they had been attacking, Lu Shu and Lu Xiaoyu realized that if Anthony

was able to advance to the master realm, there would be great improvements in underground transport.

It would not be impossible to raid the palace without anyone noticing!

Furthermore, they had more Deep Sea White Sand. Anthony would not lose to other masters even if he fought in the air.

Quality over quantity. Since Lu Xiaoyu was familiar with the attack techniques of earth-type Metahumans, she would definitely make use of what she was best at.

It would have been great if Duanmu Huangqi and the rest had remained. Lu Shu felt a sense of regret. If there were three more people, Lu Xiaoyu would become the strongest power in the world. There would be no question. Would you be afraid if someone had four masters in their possession...

Thus, Lu Shu grew more and more excited for the opening of the space pathway. This time, he would not be forced to go there. He would not travel alone either. This was the meaning of joining the Heavenly Network.

"What do we do now?" Chen Zuan asked.

Lu Shu suddenly said, "Drink alcohol!"

The deceased were left to rest in peace. Those who were alive drank alcohol.

What was in the past was in the past. New people would protect the new era.

1079 THE MYSTERY OF THE BARRIER BETWEEN THE TWO WORLDS

The alcohol that the Heavenly Network drank at night was neither premium alcohol nor one that everyone could drink. Even though all of them knew how the space

pathway would open, they had to wait for a while. However, the problem was that the tradition of the Heavenly Network did not allow them to do anything they wanted.

What if the space pathway opened that night?

At this moment, Lu Shu had told Nie Ting his thoughts. There could be someone backing Duanmu Huangqi and controlling everything. Therefore, even if the Black Feather Army perished, they could not let their guards down.

After all, Duanmu Huangqi had yet to die and nobody knew who was backing Duanmu Huangqi.

At this moment, Nie Ting started to think about how to face the Luniverse. In the past, Nie Ting would think that it was better for him to mind his own business.

That was because the Heavenly Network was not good at attacking. They were better at defending.

However, times had changed. The Heavenly Network was not good at attacking but Nie Ting suddenly realized that the earth was like a luring target in the eyes of people in the Luniverse.

Pathways had opened in North America and Northern Europe. However, only some people from the Luniverse barged in accidentally like Li Ke. Nobody had found the correct entrance yet.

However, the practitioners from the Luniverse were surprised when they entered. The reason was neither the food nor the discovery of magical stone mines. The reason was because they found out that there was a large number of people without a leader!

In the Luniverse, people were assets. They served as the supply of slaves!

Lu Shu and Nie Ting did not expect that. Initially, they thought that the Luniverse would not be interested in the Earth. However, they discovered that the Luniverse's perception on keeping slaves was completely different from that of the Earth's.

Moreover, they did not keep slaves based on trades. They had broken free from the restrictions of the King of Gods and viewed the people on Earth as properties which they could "pick up" as and when they liked.

In the Luniverse, ordinary villagers had their register as an ordinary villager. One had to sign a slave contract with an ordinary villager and report it before the villager was officially considered one's slave. This was a rule made by the old King of Gods in order to protect the villagers. However, the implementation of the rule faced many problems.

When the old King of Gods was around, the slave owners did not dare to do anything funny. However, after the old King of Gods was no longer around, the moral degeneration of the society began to get worse.

And now when they arrived on Earth, they did not have to report to anyone. Without any restrictions, they started labelling people as slaves directly!

However, some of the attitude of the people in the Luniverse were sufficient to ring a warning bell on Earth. The parties did not view each other equally, they were thinking about whether they could steal one's resources.

This was not the speciality of people from the Luniverse. In fact, in the history of the

development of people on Earth, there were many cases of how one invaded others.

The situation in Northern Europe was still alright. The entrance was beside the Holy Palace and one would get surrounded by the Deities once they stepped out.

However, the situation was different in North America. The people from the Luniverse who entered accidentally made 100 over stamps for slaves overnight. Fortunately, the Phoenix Society discovered this in time.

Lu Shu's first reaction after entering the Luniverse was, 'Why is this place so under-developed?' That was because the "basic infrastructure" and "production" was too under-developed. To put it simply, their technical skills were extremely bad.

However, when the people from the Luniverse went to the Earth, they also felt that the Earth was under-developed. Why was the average capabilities of people so bad?!

This was the difference between the culture of technology and culture of training. Both of their ideologies were extremely different!

However, at this moment, Lu Shu was thinking about a question. If the space pathway on the Changbai Mountains was left behind by the old King of Gods for himself, then what about the Longmen Mountain, Northern Europe and North America?

Did one space pathway mean that a powerful individual from the Luniverse had broken through the barrier between the two worlds and landed on Earth?

Based on the information they had so far, it was not easy for one to break through the barrier between the two worlds. At least, Duanmu Huangqi was unable to do that!

However, was it only possible for one to be at a higher level than the master realm to accomplish that? That did not make sense, only three people on the Luniverse accomplished that.

Lu Shu felt that he should keep this question in mind. Northern Europe... If his speculation was accurate, who would come from Northern Europe?

Lu Shu fell silent.

When he was drinking at night, Lu Shu was extremely happy. To Zhang Weiyu and the rest, they were in a new environment. To Lu Shu, on the other hand, he had returned home.

Lu Shu was a person who liked to stay at home and did not like to be out and about.

When he was in the Luniverse, he felt that he did not belong there as everything was somewhat unrelated to him. He was only willing to be a passer-by.

As he was drinking, Li Yixiao ran over sneakily, "Brother!"

Lu Shu looked at Li Yixiao while smiling, "You are planning to do something to the Luniverse again?"

"I know the Luniverse is very dangerous," said Li Yixiao as he lowered his volume, "I am saying this while I am high from the alcohol. You don't know how difficult my time is at home. So, I decided to head over to the Luniverse the next round when the space pathway is opened... Is it easy to earn money over there?"

Lu Shu was happy. The last sentence finally made Li Yixiao speak his mind. Then, Lu

Shu saw Nalan Que's figure and shouted, "Look after Heavenly King Li, he is about to head to the Luniverse."

Nalan Que frowned immediately. Li Yixiao had to explain for a long time to calm her down.

"Brother," said Li Yixiao as he frowned, "You were not like this last time, did you forget the days when we earned money together?"

Lu Shu said, "I am doing this for your sake. The Luniverse is a dangerous place, you should avoid it at all cost. To be honest, the Luniverse is like an abyss, even if you go over, it won't make a difference."

Lu Shu said this sincerely. He really did not want to see Li Yixiao die over there. Although Li Yixiao was already very powerful, it was too dangerous, especially since the masters were moving to the frontline.

At this moment, Hao Zhichao who was beside him said, "Li Yixiao, are you so afraid of Heavenly King Nalan?"

Li Yixiao was extremely unhappy. "You think that my wife is very strict because you only see how I give in to her when I am outside. I endure this treatment because I respect her. Back at home, she cooks for me, washes my clothes, serves me tea and cleans the house, you do not see all of that!"

Lu Shu kept silent for two seconds. "Can you see it yourself?"

Li Yixiao sighed, "I can't f*cking see anything..."

1080 BLACK FEATHER ARMY'S SNEAK ATTACK

Li Yixiao's plan to earn money from the Luniverse was definitely going to be a failure. Therefore, he could only drink to get over it.

To be honest, Li Yixiao and Nalan Que had experienced the transition from misery to happiness then to misery. Both of them forcefully upgraded their realms in the battle with the Black Feather Army at the Longmen Fortress, causing injuries to their foundations.

Before they ate the refresher fruit, both of their powers fell to Grade B!

At this moment, Nalan Que comforted Li Yixiao, saying that even if they could no longer practice, they would stay along with each other forever. When she saw Li Yixiao in despair, she promised that she would increase his daily pocket money to 30 dollars.

The couple lived a hard life. If their visuals were suitable, they could have filmed a drama.

However, before Li Yixiao could feel happy, their foundations recovered.

Therefore, Li Yixiao asked Nalan Que if what she said earlier was still valid. Nalan Que said no mercilessly.

How unlucky was he!

Lu Shu drank a lot that night and did not even know when he got drunk.

However, he did not have to worry. As long as Lu Xiaoyu was not drunk, he could return home safely. Lu Xiaoyu, on the other hand, never drank.

Lu Xiaoyu, with the help of Anthony brought drunkard Lu Shu back to the small apartment located in the 4th district of the XingShu Road. As it was uninhabited for a long time, the furniture had a layer of dust. Nevertheless, Anthony was good at cleaning and the room was sparkling clean in the blink of an eye.

Anthony placed Lu Shu on the bed. Lu Xiaoyu moved a chair over and sat beside Lu Shu, quietly looking at him. Lu Shu had already fallen asleep.

This was the first time Lu Xiaoyu saw Lu Shu drunk. In the past, Lu Shu drank but had never gotten drunk. One reason was because he never drank so much alcohol in the past as it was expensive. Another reason was because Lu Shu did not like the feeling of losing consciousness.

This time, be it the death of his battlemates in the Flood of Bronze or some other forms of stress, Lu Shu decided to fully relax.

Lu Xiaoyu did not stop him as she knew that it was extremely difficult for Lu Shu to fully relax. In the past, he always had to bear some form of responsibility and forced himself to continue advancing.

Lu Xiaoyu could sense that Lu Shu was trying to escape from something. This did not feel like Lu Shu anymore.

However, was it important to Lu Xiaoyu? No.

No matter whether Lu Shu chose to run away or face it, as long as she was in his plans, it was enough.

On the second morning, while they were still asleep, Li Heitan and Zhang Weiyu heard shouts coming from the outside of their house. However, they were not worried as the shout was too familiar.

'One two one, one two one, one two three four.'

Zhang Weiyu could feel the discipline and coordination behind the neat footsteps. However, everyone was mature-minded and would not run over to join in the exercise immediately after being influenced. That would be extremely embarrassing.

"They woke up so early, I don't think we can continue sleeping, what should we do?" asked Li Heitan. He felt that it did not make sense for them to continue sleeping while others were practising outside.

At this moment, Lu Shu's voice could be heard from behind, "Then do homework."

At this moment, Li Heitan felt like slapping himself. What was he doing? What was wrong with sleeping? Wasn't it comfortable to sleep?

"From Li Heitan's distress, +666!"

"From..."

Lu Shu was feeling pitiful for exchanging his distress points for the refresher fruit. His desire for distress points was like his stubbornness towards money.

Moreover, he needed the Wei Wu Army to assimilate into the current world as soon as possible and familiarize themselves. Therefore, he asked some students from the Cultivation College to act as intern teachers. All of this was discussed with Nie Ting

and many of the people were people that Lu Shu had known. For example, Bai Nuo whom he had met in the competition at the Cultivation College. Lu Shu remembered that she had a lot of fans at that time.

However, those who were called over from the Heavenly Network to act as interns were bothered by the fact that Heavenly King Lu emphasized for them not to teach ancient poems... Moreover, they had to give homework...

During the assimilation process of the Wei Wu Army, two sets of ideologies would definitely clash.

During the lesson while the students were understanding the humanities and environment, Zhang Weiyu was curious. "Are there really no slaves in this world?"

Bai Nuo thought about it and replied, "It is not accurate to say that. There are some small remote countries with slaves but that was only a small portion. We live by the ideology that everyone is equal."

Most of the people in the Wei Wu Army were once slaves and had been roamers whom everyone despised. Therefore, when Bai Nuo spoke about the ideology that "everyone is equal", everyone was inspired.

However, Bai Nuo explained, "We are still not at the stage of 'everyone is equal' yet. However, there should not be any suppression like that in the case of a slave owner and a slave."

As for why they were not at the stage of 'everyone is equal', it was a societal problem that all societies were unable to avoid.

When they had lessons in the morning, the Wei Wu Army felt refreshed. Everything they learnt was new things and extremely tempting.

This new world seemed to be very interesting.

However, at night, everyone started to break down, they had to study at night!

Moreover, although there had fun during the seven lessons in the day, seven pieces of homework at night was not fun!

This affected the Wei Wu Army greatly. The most direct effect could be seen by how the canteen prepared food for 30,000 people for the 5000 soldiers in the Wei Wu Army so that they would not feel hungry.

At night, the chef realized that all the soldiers in the Wei Wu Army were extremely exhausted. They only ate a portion for 10,000 people! This was completely unlike the normal Wei Wu Army!

The next morning when Lu Shu headed to Wei Wu Army's territory, he heard Li Heitan shouting as he ran towards Lu Shu. Lu Shu was stunned for a moment. "What are you doing?"

Li Heitan said anxiously, "King, the Black Feather Army came over to our territory to steal, we didn't catch them!"

"Black Feather Army?" Lu Shu did not expect that to happen. He knew that there were some soldiers left in the wild and the Heavenly Network was searching for them to prevent them from hurting the villagers. However, he did not expect the soldiers of the Black Feather Army to be so daring and came back to the Longmen Fortress to

steal? How did they get in?

Lu Shu asked curiously, "What did they steal?"

Li Heitan cried, "They took my worksheet!"

Lu Shu's face turned black immediately. "Scram!"
