

### 1171 SAFETY ROUTE

Although Israel was infuriated by Lu Shu, she did not finish the mutton but instead, left more than half behind.

She asked Lu Shu, "Don't you need to eat?"

"I am not hungry," said Lu Shu, "Leave it for later. It's better to save some for later as I am not sure how much longer it would take for the remains to end."

"How much longer do you think it will take?" asked Israel.

"Would you believe what I say?" asked Lu Shu.

"I will believe whatever you say," affirmed Israel.

"One month's time," said Lu Shu as he sighed. Actually, he felt that the determining factor depended on when he was able to find the core and secret of the remains.

This remains was too special. Others might not be able to end it. Even Lu Xiaoyu, who had two masters with her, was unable to end it.

The reason for the deduction was simple. The remains were prepared for Lu Shu. The doer should undo what he had done.

The person who buried the remains had probably surpassed the master realm. Therefore, a master could not do anything he wanted when he entered.

Disregarding the secret of the remains, simply the possibility that creatures of the master realm could exist in the remains was sufficient to make Lu Shu wary.

Did the sleeping tortoise reach the master realm? Lu Shu thought that it probably did.

The remains were like a Pandora's box. If the creatures were released, it would be a disaster for the Earth and the Luniverse.

So here came the question, who exactly had the capability to secretly bury this potentially catastrophic tool?

Lu Shu had an answer to that question but he was not sure.

Israel, on the other hand, did not know. The Ninth Heavenly King whom she wanted to interview was beside her.

The next morning, Lu Shu came out of the tent. When the other Practitioners in the campsite saw Israel who followed behind Lu Shu, they greeted Lu Shu with a look that treated Lu Shu as one of themselves.

To them, Lu Shu was in the same boat as them.

In fact, every practitioner was afraid that they would be criticised after they left. After all, the campsite symbolized the regression of humankind. However, they were unwilling to give up the benefits and enjoyment they had. Therefore, it would be good if they could pull more people onto their boat.

In fact, many people were thinking if they could make use of such a lifestyle to promote the service for Practitioners by controlling ordinary people?

Did people not used to keep slaves? Perhaps they could obtain such a skill too?

To many Practitioners, they desired to have the skill to control ordinary people!

Meanwhile, the ordinary people, including the women who were not chosen, began to work willingly as that was the only way to get food.

Now, there were more ordinary people than practitioners. In such a situation, the Practitioners became "scarce materials".

Lu Shu did not bother about this. He asked the leader curiously, "What exactly is the secret of the remains?"

At this moment, the sentence that Lu Shu was thinking about was "you better f\*cking reply to me quickly, or else you may die".

However, the leader smiled mysteriously. "You will know if you follow us for a hunt today."

Lu Shu thought, "Why are the highest ranking Rank Two candidates hunting? What do they want to hunt for?"

In the morning, only about ten practitioners were left behind to look after the campsite while the rest packed up and headed out. Lu Shu realized that amongst other things, the Practitioners had to bring their food with them.

They were very afraid that all their food and tents would be stolen by others after they returned from their hunt.

Although there was a basic order in the campsite, there was no basic trust.

Lu Shu did a brief calculation and found that there were only about 70 Practitioners in the campsite who had dissimilar capabilities. There were over 200 ordinary people who did not have self-defense capabilities.

Amongst all the Practitioners, only Lu Shu went empty-handed. Israel hesitated for a long time and finally secretly passed Lu Shu the remaining cube of mutton. "You are going out to hunt, bring some food to fuel your body."

Lu Shu smiled. "It's alright, there's a lot of food outside."

After a long time, Israel finally understood Lu Shu's intention. Why did he treat all the creatures outside as food?! Did he know that he was in the remains?

"From Israel Moore's distress, +666!"

At this moment, someone shouted, "Move!"

Lu Shu left without looking back. Israel stood behind him and hesitated for a long time. She realized that she was suddenly worried for Lu Shu, what if he met danger outside?

However, thinking about Lu Shu's attitude, Israel was very certain that Lu Shu was completely not interested in herself.

Some men purposely acted proud in front of her but were playing hard to get.

However, Israel knew that Lu Shu was not playing hard to get, he only had her cheque in mind...

At this moment, Israel suddenly thought, Lu Shu said that the person he liked was prettier than her, he must be boasting!

Lu Shu followed behind the group of Practitioners. The leader led them to an unknown location as though he was very familiar with the route. Along the way, there were odd-looking stones and the sand colored scenery made it look as though they were walking in the desert.

At this moment, the leader came behind the team and smiled to Lu Shu. "You are a newcomer, what do you feel about our campsite?"

Lu Shu thought that the leader indeed appealed to everyone. In order to gain the heart of him, a low-rank practitioner, he was able to treat him warmly. Lu Shu asked curiously, "Where does this road lead to, would there be danger?"

"Rest assured, we have explored this place for three days and there has never been a creature..." as the leader spoke, they suddenly heard a roar from a distance...

The leader thought as he saw the wave of sand from afar, 'I jinxed myself...'

Meanwhile, Lu Shu felt even more desperate. He knew what was coming...

A herd of wild cows dashed over and the Practitioners scurried in fear. However, before they could take a few steps, they were caught. The herd of cows looked at Lu Shu who was in the middle of the crowd. 'Is there no lightning for us to eat today?! If not, we will come over and ask you again tomorrow...'

### **1172 BITING BACK**

The leader turned back and saw the herd of cows. He was dumbfounded. His survival instincts forced him to get rid of any unnecessary actions. He subconsciously lay on the floor and played dead.

It would be very dangerous for him to lay on the floor, as the herd of cows would be able to trample him.

But he could not outrun them, nor could he defeat them. He had never seen such animals. He could only pray that they did not eat humans...

The leader was uncomfortable. He had shown off by saying that this path was safer. He had almost thumped his chest as he promised. His words had come back to bite him very quickly!

The cows were enormous and tall. To people of the Earth, a cow that was two storeys tall was like a black tower. Its presence alone could cause them to suffocate!

There was lightning inside the cows' stomachs. Occasional flashes could be seen on the surface of the stomach.

The secret practitioners, who had been exuding a commanding presence in front of the ordinary people, either grabbed their heads and squatted down, or lay down and played dead. It was as if the cows would not be able to see them.

The people near the cows could even feel the loud and warm breath of the cows. They even felt slightly numb, as if they had been electrocuted!

How much had they evolved to reach this power? No one dared to test how strong these cows were!

But they did not see the gazes that the herd of cows exchanged with Lu Shu. Lu Shu was the most dumbfounded. He did not expect these cows to be able to find him every

day. He did not expect them to ask him whether there would be any lightning either.

It was like when he was at home. Everyday, Lu Xiaoyu would ask him whether there was any stir-fried tomato and scrambled eggs!

What in the world?! Chen Zuan and Cheng Qiuqiao could fly too. Why did they not find them instead?

Hm? Lu Shu suddenly realized a problem. He looked at them. "Have you seen any other humans who cause lightning when they fly?"

The cows looked at him. "Only you. Hurry up."

Lu Shu returned a look. "It's inconvenient today. Maybe next time."

The cows were slightly disappointed. "Sure."

They exchanged glances without any difficulty. Their thoughts were transmitted to each other like voices. Lu Shu sighed with relief. He had finally chased the cows away.

Then, the herd of cows turned and ran off. They disappeared very quickly. There was the occasional sound of thunder from their stomachs.

What kinds of cows were these? For some reason, Lu Shu felt that they occupied a high position in the remains. They could come and go as they wished.

But Lu Shu also received a piece of information. Chen Zuan, Lu Xiaoyu, Coral, Cheng Qiuqiao, and the rest might not have been sent into this forbidden land. They

were outside the forbidden land.

Ordinary people would have to climb in order to see more, but Rank One experts could simply fly into the sky!

Thus, to these cows, he was the only human who could fly in the forbidden land. This meant that Lu Shu's assumption that there was an area of the remains outside the forbidden land was true. Lu Xiaoyu and the rest were in that area.

Lu Shu heaved a sigh of relief. After all, the information he had obtained from the skeleton was that it was safer outside.

Suddenly, Lu Shu thought of something. Could he befriend this herd of cows and follow them around?

Perhaps the native creatures would know even more secrets about the remains.

But Lu Shu was not in a rush. He knew that the herd of cows would find him tomorrow. Lu Shu was very sure of this...

The thunderous sound of the cows leaving caused the secret practitioners to feel as if they had a new lease of life. They got up and watched the cows leave. One of them asked, "Did they leave just like that?"

Everyone had been playing dead. They did not even dare to open their eyes. Thus, they did not know what had happened.

The leader was the most fearful. As he watched the cows, he thought, what in the world? Had they come just to slap him in the face?

The leader could not think of another possibility. To him, the herd of cows had come to humiliate him...

"From Antell Stewart's distress, +999..."

Lu Shu was amused. The herd of cows had come because of him. Thus, the distress points that the seventy secret practitioners had produced all belonged to him!

Lu Shu thought about it. When would the herd of cows come tomorrow? The herd of cows seemed rather kind. He might be able to blend in with them!

Lu Shu turned back and saw the female Practitioner who had been solicitous towards him. She was staring at Lu Shu. He realized that she had seen the herd of cows!

The herd of cows had come uninvited yesterday afternoon. The only people who had seen this were the people on Israel's helicopter. They had talked about this before?

The herd of cows had come again. The female Practitioner was not foolish. She immediately associated it with Lu Shu!

Lu Shu smiled at her, but did not say anything.

As they continued to advance, the female Practitioner suddenly came to Lu Shu. She softly said, "I know that they are here for you. Am I right?"

Lu Shu declined to comment. He asked, "What do you think the secret of the remains they have been talking about is?"

The female Practitioner panicked. "I know that you don't trust me, but I only want protection. If you are willing to protect me, I will keep my mouth shut. You can do whatever you want to do with me. Although Israel is good-looking, she will definitely not serve others."

Lu Shu thought about it and said, "You are not in as much danger as you think you are. This foreign place has simply made you feel unsafe, so you desperately need someone to protect you. Don't panic. Learn how to face danger correctly. Females have to love themselves more. On the one hand, I have rejected you because I cannot wait until the remains end. On the other hand, you are not very good-looking either..."

The female Practitioner said, "Do you think I am dirty? I am a virgin. I am very clean."

Lu Shu was unhappy. "If you Virgos[1] are clean, then am I dirty as a Sagittarius?"

The female Practitioner was dumbfounded.

Were they talking about the same thing?

Could they have a proper conversation? Why had the conversation become so infuriating?!

Lu Shu was thinking about it. He had always celebrated his birthday on the 12th of December. It was when he was sent to the orphanage. More accurately, he did not know his horoscope. He did not know his date of birth either.

The female Practitioner was silent. Then, she said, "You are different from them."

"Indeed." Lu Shu cheerily nodded his head.

"You have never touched Israel, right?" The female Practitioner asked.

Lu Shu was puzzled. He looked at the female Practitioner. "No. Why?"

The female Practitioner said with disdain, "Hmph! And you say that you're a Sagittarius!"

Lu Shu was dumbfounded.

### **1173 BARRIER OF THE FORBIDDEN LAND**

Lu Shu was not actually a Sagittarius, but he was unhappy with what the female Practitioner had said...

He thought that this female Practitioner would reveal secrets from other Practitioner in exchange for resources, but she did not do so. She had more morals than he had expected.

In reality, whether someone had morals had nothing to do with how dangerous their situation was. This was something that Lu Shu admitted he was wrong about.

Lu Shu despised the poor attitude the two cameramen had shown last night. He preferred this magnanimous female Practitioner.

The leader did not speak to Lu Shu. He was embarrassed. He had said that this route was very safe, but a herd of cows had come.

He was worried that if he said something else, another strange thing would appear.

After the Practitioners encountered the herd of cows, they wanted to go back. They had not recovered from their shock.

But if they did not hunt, what would they eat? They had run out of antelope meat. They had shared their rations with the ordinary people as well in order to maintain their superiority and order.

Everyone had to find a way out. If not, they could only slowly wait for death in the campsite.

Lu Shu followed behind the group and observed their surroundings. The road they were walking on became more and more rugged.

This was not a hill. It had not been eroded by the wind either.

The ground in the remains had taken on a strange form after being distorted by energy. It seemed both frighteningly and mysteriously vast.

The leader suddenly crouched. The female Practitioner softly said to Lu Shu, "Yesterday, I asked them. They had found a strange place where creatures commit suicide. On the first day, they picked up three bodies of dead animals who had committed suicide. Thus, they felt that they had discovered the secret of this place."

Lu Shu was dumbfounded. "Why did they commit suicide?"

"I don't know," said the female Practitioner.

They slowly crawled on the ground and advanced, as if they were afraid of being

discovered. Then, a giant white serpent appeared and slithered towards Lu Shu and the rest. Its enormous body left massive marks on the ground. It was as if it had created a river.

The giant serpent was as large as a train. Lu Shu had goosebumps looking at it. When the white scales of the serpent rubbed against one another, there was a crashing sound.

This was probably the largest creature Lu Shu had seen in his life, other than that giant tortoise. Lu Shu could feel the power of natural laws from its body!

With this power, even if it was not of the Master Realm, it was probably close!

Lu Shu had only heard of such white serpents in the Legend of the White Snake, but there were no celestial beings here!

At that moment, the secret practitioners held their breath in shock. What would happen if such creatures were released on Earth? How many of such creatures were there in the remains?

The serpent advanced forwards. Suddenly, white lightning appeared in front of it. It blocked the serpent, preventing it from advancing.

The lightning covered the sky. Lu Shu was puzzled. Was this the barrier of the forbidden land?!

After he had learned about the barrier of the forbidden land from Lu Kongming, he had been thinking about how to find it. He would only be able to find a way out if he did so.

They had encountered the barrier, but Lu Shu did not think that escaping would be that simple.

It seemed as if the giant serpent did not accept this fact. It slammed into the barrier. Its white scales seemed to have been scorched by the electric net, but it could not go through.

Lu Shu now understood why the female Practitioner said that creatures had committed suicide. There was no difference between this and committing suicide!

But when Lu Shu thought that the giant serpent was about to die, there was the thunderous sound of galloping in the distance. Lu Shu was dumbfounded. He was all too familiar with this sound. It was the herd of cows who ate lightning!

The white serpent had also heard this. It did not even turn back. It went back into the hole it had appeared from.

Its white scales were badly damaged. It had suffered severe injuries!

Lu Shu suddenly had a realization. The barrier existed to keep out strong creatures like this white serpent. They were imprisoned here, preventing them from causing trouble.

But creatures like the white serpent were intelligent. How could they be willing to wait for thousands of years in this bleak and desolate place? Thus, this had happened.

The herd of cows ran towards the barrier. Lu Shu almost laughed out loud. They were too late. There was no more lightning!

Wait. No!

Lu Shu suddenly thought of something. The cows were the natural enemies of lightning. Could they eat the lightning barrier?

But at that moment, Lu Shu suddenly saw the herd of cows stop in front of the barrier. There was the loud sound of thunder from their stomachs. It was as if the heaven and the earth were shaking.

The cows opened their mouths and spat out the lightning in their stomachs. They started to make up for the lightning that the white serpent had used up!

Lu Shu had thought that the cows were stuck in the forbidden land. Now, he realized that the cows were the guardians of the forbidden land!

While others exerted great physical strength to exhaust the lightning barrier, the cows quickly ran over to make up for the exhausted lightning. It would be strange if someone was able to escape...

They ate lightning to replenish the barrier. Were they walking portable batteries?

Lu Shu felt that he absolutely could not feed the cows with lightning. He was still stuck here! The more the cows ate lightning, the stronger the barrier would become!

No wonder the white serpent ran away when it heard the sound of the cows approaching. It was afraid of them.

Luckily, Lu Shu had not taken any action. To be honest, he felt that it would take a lot of work to deal with the white serpent.

These creatures would create a lot of chaos, regardless of whether they were on Earth or in the Luniverse, but they had been thrown in here.

Lu Shu, Nie Ting, and the rest had thought about it. Whoever was able to obtain the relic would control the entire remains. He could not enter the door in the Seal of Lands, but this did not mean that he would never be able to do so.

Now, whoever was able to control the remains, would control the switch to destroy the world.

If the owner of the relic was willing to do so, the moment the creatures in the remains were released, no matter whether it was the Luniverse or the Earth, civilization would be attacked. It would be a true human catastrophe.

There were masters among humans, but there were masters here too. What Lu Shu had seen was simply the tip of the iceberg. What other frightening things existed here?

Wait. Who was the owner of this herd of cows? Were they able to make the cows listen to their commands?

### **1174 RUN OUT OF PROVISIONS**

Lu Shu thought that someone had definitely released this herd of cows here. They had received orders as well. If the other creatures in the remains were prisoners, then these cows were prison wardens.

The leader among the secret practitioners was dumbfounded. Was this the herd of cows that had come to "visit" them? Were they so ferocious?

Earlier, they had encountered creatures who had slammed into their deaths, but they

were probably too weak. The lightning barrier had not been exhausted. Thus, the herd of cows had not appeared.

Thus, the leader and the rest thought that they had discovered the secret of the remains. They could occasionally come and pick up the dead bodies of the creatures. They were fresh and delicious. They could even restore their strength.

This misconception made the leader feel that it was not that difficult to survive in the remains. At least, they were able to continue living.

But today's events shocked him. He now understood that humans were the weak ones in the remains! These creatures were ancient beasts!

Someone softly asked, "What do we do now?"

His voice trembled as he spoke.

"Let's return to the campsite." The leader panicked as well. After he advanced to Rank Two, he was part of the upper class in the cultivation realm. Many people had to politely greet him when they saw him.

But when he saw the white serpent and the herd of cows that fed on lightning, humans were insignificant.

"Did someone capture these creatures?" Someone asked softly.

"If that was the case, then I am grateful for them. If these creatures were on Earth, what would Earth be like now?" The leader sighed with emotion.

The entire group returned empty-handed. On the way back, they did not even have the time to think about what they would do without any food. Their heads were filled with the concern on whether they would be able to survive in this dangerous place!

On the way back, the female Practitioner came to Lu Shu and softly asked, "Why does the herd of cows keep looking for you? Who in the world are you?"

Lu Shu cheerily shook his head. "I don't know either."

He was not panicking. After all, compared to the other Practitioners or ordinary people, his ability to protect himself did not worry him to the extent that he could not sleep.

"I know that you don't want to tell me. But relax. I will not tell the others," promised the female Practitioner.

Lu Shu looked at her. Suddenly, he laughed. "Thank you."

As Lu Shu spoke, he shoved two pieces of hardtack into her pocket. She did not see where Lu Shu had taken the food out from, but she did not hesitate. She quickly pushed the hardtacks deep into her pocket.

She knew that when there was a lack of food, having food was very frightening to a low-levelled Practitioner.

There was a saying in China. As long as everyone showed love, the world would become more pleasant.

Suddenly, the female Practitioner said, "Be careful. I won't say anything, but I can't

say the same for the rest."

Lu Shu laughed cheerily. "Yes, I know."

Then, Lu Shu gave her two more hardtacks...

The female Practitioner was dumbfounded!

What was this? Were you a vending machine? Every sentence of concern gave her two hardtacks?!

The female Practitioner tried something. "You are very handsome."

"Ha ha ha, is that so?" Lu Shu beamed with joy. He gave the female Practitioner another four hardtacks!

The female Practitioner tried again. "You are the most handsome person on Earth!"

Lu Shu said with a sense of justice, "There is always someone better than me. You cannot be so absolute. Add 'one of'."

"Oh. You are one of the most handsome people on Earth!" The female Practitioner rephrased herself. She felt that he was rather modest.

Then, she looked on helplessly as Lu Shu gave her another six hardtacks. To be honest, Lu Shu had thousands of this in the Seal of Lands. The female Practitioner kept quiet.

Lu Shu was dumbfounded. "Continue. Why did you stop?"

As Lu Shu spoke, he was about to take out more hardtacks...

The female Practitioner laughed bitterly. "My pocket can't fit any more..."

Her pocket was full. If not, it would not take much for her to praise him...

If she tried to fit more things into her pocket, others would realize that there was something wrong. Thankfully, she was wearing a tracksuit. If not, it would have been obvious with just two pieces.

The female Practitioner looked at Lu Shu. She had never realized that Lu Shu had so many things. Where did these hardtacks come from?!

Suddenly, the female Practitioner realized that Lu Shu was someone who possessed invisible storage equipment!

If not, where did these hardtacks come from?

Less than 100 people in the cultivation realm had invisible storage equipment. They were all at the top of the food chain in the cultivation realm. They were the true experts.

A praise could be traded for food. This was equivalent to obtaining a way out.

The female Practitioner had never experienced such relaxing remains. She was able to obtain a chance of surviving with just one sentence. Compared to the other Practitioners, she was very lucky.

So the true expert had been by her side all this time.

She was thankful that she had received good karma. If not, she would have to worry about what to eat at night. There was practically no more food in the campsite!

But she knew that Lu Shu would not remain in the campsite for long. The campsite could not contain Lu Shu.

After they returned to the campsite, everyone sat by the bonfire with a worried look on their faces. They were thinking of a way out. They could no longer rely on their "secret" to survival. They might die the next time they went there. What would they do now?

The ordinary people could immediately tell that they had not been successful with their hunt. They did not dare to ask any questions. Israel came to Lu Shu and softly asked, "What's wrong? Did you fail? Are you hungry? I still have some mutton. You can eat it."

Lu Shu looked at her and smiled. "Why are you worried about me? You should eat it. Furthermore, there is no more food in the campsite. Someone might be eyeing your uneaten mutton."

This scared Israel. She hurried back to her campsite and secretly ate her mutton.

Israel was an ordinary person. What she had to do was to leave this dangerous place.

Some people in the campsite had started to discuss their escape plan. They even talked about the herd of cows. Lu Shu saw the two cameramen approach the leader. They were secretly talking about something.

Israel saw this as well. She furrowed her eyebrows and said, "What are they talking about?"

Lu Shu laughed. "They are probably talking about how to die."

Israel was dumbfounded. She sensed the massive confidence from this young man. She had seen the same calmness while interviewing many established people in power!

### **1175 MYSTERIOUS GUES**

The leader and the two cameramen were gossiping. Although the few of them were deliberately hiding something, Lu Shu could tell that they were glancing over at him occasionally.

They were trying to deceive themselves and did not have the special training to escape from a Rank One's intuitions. Therefore, no matter how prudent they were when they peeked at Lu Shu, they were still discovered by him...

Perhaps, both the leader and the cameramen did not know who they were trying to prey on.

Lu Shu was waiting for them to signal for help. However, the leader patted the two cameramen's shoulders and left after giving both of them a small piece of dry rations.

The two cameramen were not satisfied with that reward and wanted to fight for more. However, after they started complaining, the leader took the dry rations away from them...

That was really unfortunate. Lu Shu felt sorry for the two cameramen. They had done their best but did not receive anything.

Actually, this was the usual ending for most greedy people like them as they would get sabotaged by their own greed.

However, what surprised Lu Shu was the fact that after chasing the two cameramen away, the leader did not directly head over to look for Lu Shu. Instead, he gathered everyone and asked for a meeting!

"A meeting, what for?" someone asked.

"Right now, our campsite has to make a choice involving life and death, we need everyone to gather to discuss some matters," said the leader.

Lu Shu pouted. He saw the leader secretly talking to some of his followers. He must have had some ideas.

He claimed that he wanted everyone to make a decision together. However, in reality, he would probably head in the direction with that group of individuals.

A group of them sat beside the bonfire with the practitioners in the center and ordinary people in the outer circle. Suddenly, the hierarchy of the campsite was shown. Ordinary people did not even have the position to take a seat.

The leader suddenly said as he stood in the middle of the circle, "You guys have probably heard, there's not much food left in our campsite. Moreover, the hunting method we used in the past is obsolete so we need to discuss a new measure to tackle this problem."

Lu Shu almost laughed out loud upon hearing that. They had the guts to claim that

they went for a hunt although they were simply taking advantage of others...

"From today onwards," said the leader, "All the food shall be given to the Practitioners first. All the resources shall be distributed evenly. This is in order to ensure the survival of the campsite. Does anyone have any objections?"

The campsite was silent. As the beneficiaries, the Practitioners did not have any objections. On the other hand, the ordinary people were afraid to comment.

At this moment, the leader looked at Lu Shu. "Do you have any objections?"

The leader said, "... No..."

"From Antell Stewart's distress, +666..."

"Then what's the point of our discussion," said Lu Shu.

"Alright, let's go on to the next topic," interrupted the leader. He could not allow Lu Shu to continue or nothing could be accomplished! The leader changed the topic and asked Lu Shu, "How do you think we should look for a way out?"

Lu Shu thought, "This brat could not hold it in any longer." However, he was much more straightforward than Lu Shu thought he would be.

Since the start, Lu Shu knew that the leader did not have any good intentions. However, he thought that since they were holding a meeting, they would have to wait till the end to see his true colors.

Were the meetings in China not all the same? Start off by putting on a show and

saying the important things casually in the end. Everyone tried to hide their opinions and did not want others to know their true intentions. At the end of the day, everyone was just putting on a show.

However, the style here was different from China's. It was straight to the point.

After seeing Lu Shu keeping silent, the leader signalled to his followers. Many people around the bonfire stared unkindly at Lu Shu.

A follower stood up and said to Lu Shu, "We are asking you a question, do you still want to be protected in the campsite? If not, get out!"

The female practitioner beside him wanted to laugh. Why would an expert who had the invisible storage equipment need the campsite's protection? Clearly not.

Then, at this moment, footsteps were heard outside the campsite. Everyone stared in horror into the dark. The bonfire could only light up a limited region around it so they could not see the person's features clearly. However, his footsteps were heavy and it painted an image of a strong man in everyone's minds immediately.

Lu Shu frowned too. Nobody would dare to randomly run around in the remains at night, so who was it? Could there be other experts hiding in Yellowstone National Park?

Or... The creatures from the remains?

The figure in the dark gradually appeared. Everyone was stunned. It was a handsome young man with a good figure. The reason behind the heavy footsteps was because he was lugging a huge bear on his shoulders.

The bear was a few times bigger than the young man. Therefore, the contrast was extremely obvious and it felt as though they were watching a movie.

The bear was already dead but Lu Shu noticed something strange when he saw the neck of the bear. It looked as though it was killed after being hit on the neck by someone!

A bear had a strong life. Many people thought that the lion was the best at attacking, followed by tiger then leopard. However, they were fooled by fairytales.

A bear was definitely ranked in the top three in terms of attacking power.

Evolution of creatures were regulated. The Matthew Effect was common knowledge. So if the young man was able to defeat the bear so easily, how powerful could he be?

Lu Shu frowned. He could not tell the power waves from the young man!

What was happening? Where did this powerful individual come from? Why was he omitted from the reports of the Heavenly Network? Lu Shu was wondering if he was a creature that evolved into a human? However, he was wearing clothes.

There were cases where creatures evolved to become man. Although Little Fury was not capable of doing that and the herd of cows did not evolve, Hai Gongzi had done it.

Lu Shu had yet to figure out the conditions needed for creatures to evolve into humans. Or could it be by choice?

The young man threw the bear onto the ground and smiled at the people around the

bonfire who were staring blankly at him, "Why aren't you welcoming me? I brought a welcome gift for you."

Lu Shu did not speak. He was speaking fluent Mandarin. How did he not meet him in China, was he a foreign Chinese or a creature from the remains? He could not put a finger on it and could only wait for the young man to reveal other clues.

### **1176 THE APPEARANCE OF THE NINTH HEAVENLY KING!**

"Anyone understand and speak Mandarin?" asked the leader.

Everyone in the campsite looked at the Asians, wondering if they happened to know how to speak Mandarin.

Lu Shu did not speak. He did not speak in Mandarin to anyone since he entered the remains. There were many Asians who did not know how to speak Mandarin anyway.

However, after eliminating the rest, everyone looked towards Lu Shu in the end. The leader asked Lu Shu, "Do you know how to speak Mandarin?"

Lu Shu shrugged. "No, I am from North America."

He would definitely not want to talk to the young man. He suspected that he was a powerful creature of the remains who had powers beyond his imagination!

Asian, black hair, black eyes, and typical Asian features.

The mysterious young man was wearing a windbreaker that was not very fitting. Lu Shu examined him from head to toe. The windbreaker was torn and had blood stains.

Lu Shu was confused. He could not tell the young man's capability but he could

confirm that he was definitely not a weak man.

He had also seen the bear before. It was a Rank One creature. One had to be a Rank One in order to kill a Rank One, right? He could possibly be of the Master Realm!

However, the question came again. As an expert who had the capabilities of a Rank One, how did he get injured? Moreover, the herd of cows had clearly said that there was only one human who could attract the lightning in the forbidden land. Unless the young man was so calm that he did not fly after he entered the forbidden land?

In any case, there were many suspicious points about the young man. Lu Shu suspected that he could have worn someone else's clothes and hence it was not fitting. The owner of the clothes could have been killed by another creature, and the young man must have had a purpose to impersonate a human.

Anyway, Lu Shu felt that the young man was a creature of the remains and could possibly be more powerful than the white serpent.

As Lu Shu was thinking about the identity of the young man, the leader did not believe him. After a while, he said to Lu Shu using broken Mandarin, "You are a fool."

Lu Shu replied calmly in Mandarin, "F\*ck you."

The leader was silent.

Israel was speechless.

"From Antell Stewart's distress, +666..."

Did Lu Shu not just claim that he did not know how to speak Mandarin?! Although the leader did not understand what Lu Shu meant, he could instantly infer from Lu Shu's expression and tone that Lu Shu was scolding him...

Meanwhile, the leader only knew how to speak that sentence, which he had learnt from an Asian lady who scolded him in the past. At this moment, Lu Shu was wondering where the leader had learnt it from. The way he scolded someone was so uncharismatic.

Lu Shu sighed. He had to control his temper better, how could he curse someone like that? That was really incorrect.

The leader did not dwell on that. Instead, he asked Lu Shu, "Is this bear for us? What did he say?"

Lu Shu shrugged and translated, "It's not for you, he said that the bear is meant as a greeting gift for me, and asked you guys if you welcome him?"

Why was it for Lu Shu only? Why was Lu Shu so shameless, the flow of logic was not even there. He wanted to make use of his proficiency in both Mandarin and English to take possession of the bear?

Anyone would know that the bear was not meant for Lu Shu alone. Israel nearly laughed out loud. She had noticed that Lu Shu was shameless long ago.

However, nobody in the campsite noticed that detail. The young man's appearance was too powerful. With that huge bear, nobody dared to challenge him.

Why did the leader and the rest like to take advantage of the lightning barrier? It was because they felt that they could not beat the creatures after encountering a few of them.

Even if they were of the same standard, the creatures were definitely more powerful than humans.

If they had a choice, who would want to fight with a creature? Nobody.

Yet now, the young man appeared with a bear and wanted to give the bear to the campsite as a greeting gift? What exactly was happening?

"Have you guys heard of him before?" asked the leader softly. Although the young man gave them food, he was worried that his status in the campsite would be lost.

"No," said the man beside him.

Nobody would forget the young man after seeing him.

Suddenly, the young man continued asking, "Does nobody understand me?"

The leader said to Lu Shu, "Tell him that we welcome him!"

Of course, they had to welcome someone who brought them food. However, the leader was slightly worried that the arrival of the young man would affect his status in the campsite?

At this moment, Israel suddenly rushed towards the young man and asked, "Are you the Ninth Heavenly King of the Heavenly Network?!"

Asian, young, powerful, mysterious, were they not all of the characteristic features of the Ninth Heavenly King?

Initially, Israel wanted to interview Lu Shu and was thinking about the Ninth Heavenly King all day long. Now that someone with matching features had appeared, she immediately associated him with the Ninth Heavenly King!

Everyone around the bonfire was stunned. The Ninth Heavenly King? The most cruel Ninth Heavenly King in the Heavenly Network?

The young man turned to Lu Shu. "What did she say?"

Lu Shu smiled. "She asked if you killed the bear?"

The young man nodded. "Yes."

Lu Shu turned and translated, "He said that he is the Ninth Heavenly King."

At this moment, everyone's expression changed. The young man matched the characteristic features of the Ninth Heavenly King perfectly. Asian, young, powerful, mysterious...

Everyone started panicking. There was nothing good from meeting the Ninth Heavenly King. Would the Ninth Heavenly King give a greeting gift? An entire bear?

The young man suddenly felt awkward. Why did the expressions of the people suddenly change as they looked at him? Why did they look as though they were afraid of him? Was there anything wrong?

Could it be that he was able to kill the bear? However, it was a creature of the remains, why were they afraid?

Meanwhile, Lu Shu was annoyed too. What kind of expression were those, was the Ninth Heavenly King so terrifying? Huh?

Should they not admire and respect the Ninth Heavenly King instead?

The young man looked at Lu Shu. "Tell them that I have no ill intentions."

Lu Shu nodded and translated to the leader, "The Ninth Heavenly King did not steal your food, so why are you guys looking at him like this? Stop doing that or all of you will end up like the bear."

The leader was speechless.

Israel asked carefully, "He said such a long sentence?!"

**1177 I'M WAITING AT BULAO CITY!**

Lu Shu looked at Israel and the rest. They were in disbelief. He was upset. "What? If you don't like my translation, then do it yourself. Chinese is wide-ranging and profound. Are you able to understand?"

Of course, the leader and the rest knew that there was definitely something wrong with the translation, but they could not tell where. After all, they did not know that they had recognized the wrong person. They did not know that the true Ninth Heavenly King was helping them to translate!

Israel asked Lu Shu, "Could you ask him whether I can interview him?"

Lu Shu felt that this was inappropriate. After all, she was like a weapon. All the powerful people in the cultivation realm she had interviewed were all dead. Although this young man was not him, but he carried the name of the Ninth Heavenly King...

By the bonfire, the campsite fell silent. Everyone was dumbfounded by the sudden appearance of the "Ninth Heavenly King".

But they felt that the Ninth Heavenly King did not seem as annoying as in the legends. He seemed rather compassionate.

Suddenly, someone softly asked, "Wasn't it said that the Ninth Heavenly King is handsome? He cannot be considered good-looking. Isn't he different from the legends?"

Lu Shu's expression turned dark. He looked at where the voice came from. He wanted to see who had said so...

Someone else said, "That is word of mouth. Who can say for sure? We have never seen the Ninth Heavenly King."

Israel looked at Lu Shu expectantly. At that moment, the mysterious young man suddenly interrupted everyone. "I have come to ask one thing."

The campsite quietened down. Lu Shu translated this for everyone. The next moment, the mysterious young man suddenly took out an old scroll. He opened it up, revealing the picture on the scroll.

Lu Shu was dumbfounded. He was very sure that this mysterious young man was definitely a powerful creature in the remains.

He was lucky that he had concealed his identity. He did not know whether this mysterious young man was friend or foe!

The picture was very simple. Someone had used a brush to draw on the paper...  
Corpsedog! Concealed Arrow! Head-twisting gourd!

There were only three things, but Lu Shu could not be mistaken. He was far too familiar with these three items.

The rest of the people in the campsite looked at one another helplessly. Since they had never seen Lu Shu, they definitely had not seen these three mythical objects. Thus, they completely could not understand the scroll that the mysterious young man had shown them.

The mysterious young man smiled. "Have you seen the person who has used these three mythical objects? If you do, please tell me. I will give them a great opportunity!"

Lu Shu translated. "Have you seen these objects? If you do, please secretly tell me..."

Body language transcended national borders. The mysterious young man could infer an answer from their expressions. He had been observing their expressions as he was worried that Lu Shu would cheat him. But it seemed like Lu Shu had translated properly. After all, these people seemed to be puzzled and doubtful. This made sense.

But the mysterious young man had not observed someone. He had not observed Lu Shu...

If he had stared at Lu Shu, he would have realized that Lu Shu's pupils had rapidly

contracted at that moment!

Lu Shu casually asked, "Are you finding the owner of these three items?"

"Yes." The mysterious young man smiled and nodded.

"Why are you finding him? If we see him, we can help pass a message," said Lu Shu.

The mysterious young man tilted his head and thought about it. Suddenly, he smiled.

"Sure. Please tell him that I am waiting for him at Bulao City outside the forbidden land."

Then, the mysterious young man turned and walked back into the darkness. He did not injure anyone, nor did he have any other motives. He had just come to look for Lu Shu.

If Lu Shu was not sure whether the remains had existed because of him, he could be sure now.

Everyone in the campsite was dumbfounded. Someone carefully asked, "Did the Ninth Heavenly King leave just like that? Did he leave without cheating us?!"

Israel looked disappointed as she watched the mysterious young man left. She felt that this encounter with the Ninth Heavenly King had left a lasting impression on her...

Lu Shu was silent. Who was this mysterious young man? Where was Bulao City?

The young man was probably very sure about what would happen when the remains opened. Thus, he changed into modern clothes to find someone who would definitely

appear when the remains opened, Lu Shu.

What made him so sure that Lu Shu would definitely appear? Lu Shu felt that this mysterious young man was full of mysteries. He did not even dare to probe the young man. He did not even know his name!

Lu Shu felt that he should leave. He had to find a way to leave the forbidden land, then uncover the secret behind the remains and find all the clues leading to the mysterious young man.

Perhaps the mysterious young man knew everything. This was the reason Lu Shu had come to the remains.

Suddenly, the leader asked, "What was the last thing he said to you? Why haven't you translated it?"

Lu Shu snapped back to reality. "He said that after we get out, we have to say good things about the Ninth Heavenly King. We have to say that he is handsome, that he is a good person, that he is approachable, harmonious, and amiable."

The leader was silent.

Israel was speechless.

Everyone in the campsite had been hungry for a day. They did not have the energy to deal with this. They quickly distributed the bear meat.

To Lu Shu, every detail about what had happened just now was very important, but to these people, it was simply a brief interlude.

Israel had not moved. Lu Shu asked curiously, "Don't you admire him? Why don't you follow him?"

Israel shook her head. "The gap between me and him is far too large. Even an ordinary person like me can feel his strength."

Lu Shu thought about it. Was the young man really that fantastic? Who had defeated a Rank One bear in the middle of the night? Everyone would think that he was powerful as well...

Lu Shu smiled. "So you gave up just because of that?"

Israel sorted her feelings. She smiled at Lu Shu. "I think that it's more reliable being with you."

"No, wait." Lu Shu was unhappy. "What do you mean? Is the gap between you and I not that large?"

He, Lu Xiaoshu, the Ninth Heavenly King, could not stand this humiliation!

Not long after, the leader suddenly carried a piece of cooked bear meat and walked over to Israel. He smiled at Israel and said, "I couldn't recognize you with all that dust on your face. But your colleague told me that you are Israel, that famous female reporter."

As he spoke, he looked at Lu Shu in disdain. It was a provocative look.

Lu Shu furrowed his eyebrows. Did Israel's two colleagues betray information about

Israel in exchange for food? He did not forget the scene where the two cameramen secretly chatted with the leader.

### **1178 BETRAYAL AND SELLING OU**

Lu Shu had thought that the two cameramen had obtained the hardtacks after selling his information, but he did not take it to heart. After all, everyone here combined would not be able to defeat him.

There were despicable people everywhere. This was very normal.

But when Lu Shu realized that they had betrayed Israel, he felt uncomfortable. They could resort to unscrupulous means in exchange for food and survival, but betraying their female colleague was too much.

Everyone knew that these secret practitioners had given up on their morals. The only thing that prevented them from turning into beasts was the publicity and punishment they would face after they escaped the remains.

Now, the two cameramen probably knew the consequences of betraying Israel. Israel had to face this cruel reality!

A beautiful woman, and a famous woman. To these beasts, her attractiveness far exceeded that of an ordinary woman. This was why Israel had smeared dust on her face.

Lu Shu calmly smiled and looked at the two cameramen, who were fearfully hiding at the corner of the campsite. "If the two of you sold my information, then forget it..."

The leader interrupted him. "Ha ha ha ha, did you think that they didn't betray you?"

Lu Shu was speechless.

Oh. So he had been involved as well... Lu Shu had just thought that he had not been betrayed. It had come back to bite him so quickly.

The leader held the cooked bear meat. The juices shone and dripped down. A Rank One creature had been used as food. Lu Shu had never eaten such luxurious food.

"I am in charge of this camp. If you want to get food, leave him from today onwards. Serve me instead," said the leader.

At that moment, everyone in the campsite quietly looked at them. Some of them could not continue watching. But the leader was the strongest person in the campsite. Even if they were unhappy, no one dared to say anything.

There was no doubt that human civilization had regressed. But what else could they do?

There were times when this world was very cold. Israel helplessly looked around, but everyone's expressions were cold.

Israel looked at Lu Shu. Then, she laughed bitterly. "I know that you will help me, but you cannot defeat him. I know that you are a good person."

At that moment, the leader laughed coldly. "Do you really think that there is nothing behind him?"

He said to Lu Shu, "The herd of cows suddenly appeared in front of you twice. Why? Can you explain?"

Lu Shu was thinking about something. It was as if he was not planning to reply!

But the leader continued to speak. "The herd of cows are not normal. They seem to be the guardians of this place. They have definitely looked for you for a reason. Do you have the treasure of the remains? Is that why they are attracted to you?"

This was simply a distortion of the truth. The Practitioners knew that the herd of cows had not attacked them. Even if the herd of cows did not come, they could not easily pick up food.

But the leader wanted to be in a commanding position. He wanted others to agree with his decision. Furthermore, he knew that the other Practitioners would tacitly agree with him and become his accomplices.

"Aren't you planning to explain to us?" The leader's gaze grew intense. When they realized that there was something wrong with the herd of cows, they subconsciously thought that Lu Shu had obtained some treasure. They had come here to look for treasure!

Thus, the leader wanted to know what Lu Shu was hiding! This was what he desired most. He did not even want to kill Lu Shu!

But Lu Shu suddenly furrowed his eyebrows and stood up. "I think that something is wrong."

The leader was dumbfounded. "What do you mean? Don't..."

Suddenly, he saw a fist approach him at the speed of lightning. Then, he felt his head spin. The muscles and skin on his face started to tremble because of the massive

force!

Lu Shu's punch sent the leader to the floor. He could not get up!

The campsite was dead silent. Everyone looked at Lu Shu. They could not understand what had just happened. How did a weak practitioner suddenly knock out a Rank Two expert with a punch?

The leader was on the floor. His legs were trembling. Everyone hoped that he had not died with just a punch...

Why? Why did the young man suddenly turn violent? Everyone could feel the violence!

Israel was still sitting on the ground. She looked up at Lu Shu, who seemed especially tall! A girl would expect a superhero to save her when she was in danger. Her superhero had finally appeared...

"That is my bear meat," said Lu Shu.

"What?" Israel was dumbfounded. It was as if she did not hear what Lu Shu had said properly. He had saved her, right? Why was he talking about bear meat?

Everyone watched as Lu Shu kicked the leader. He said with an indignant tone, "I said that something was wrong. Didn't I say when I was translating? That bear meat is for me only!"

Israel was dumbfounded. The young man was still a young man. He was not a superhero. He was greedy till the very end!

Suddenly, some people felt that the mysterious young man did not match the characteristics of the Ninth Heavenly King. He was not lowly, and was very handsome. He did not cheat people at all.

But the person in front of them fulfilled all the characteristics of the Ninth Heavenly King!

Lu Shu looked at Israel and smiled. "Are you surprised?"

"Yes." Israel nodded her head.

Lu Shu pouted. "I'll leave the two cameramen to you. I can assure you that they do not dare move." He turned and looked at the cameramen. "What do you think?"

The two cameramen were terrified. The leader was definitely dead!

Israel suddenly picked up a stone and walked towards the cameramen. She wanted to break their legs, but when she approached them, she grew soft-hearted. In the end, she smashed the stone against their arms, but their bones did not break.

"Is he dead?" Israel looked at the leader.

"No. He is still on his last breath, but he will not survive in the remains in this state."

Lu Shu asked, "Do you think that I am cruel?"

Israel thought for a long time. In the end, she shook her head. "He wanted to kill you as well. So you are not cruel."

Lu Shu smiled. "Do you remember what I said?"

"What?" Israel asked, frustrated.

Lu Shu stood by the bonfire and looked at her. "Welcome to the world of the remains."

### **1179 LEAVE THE CAMPSITE**

The remains were like this. Order was destroyed. One gained respect through their strength.

Practitioners who ate Rank One creatures would feel as if they were brimming with vital energy. They would feel like they had unlimited strength. Even ordinary people could feel a transformation.

Rank Ones were able to achieve resonance with the heaven and the earth. Ordinary people could not absorb much of the energy in the meat of creatures, but even then, Rank Ones had a massive amount of energy. This resulted in a positive transformation.

Were first-class ingredients on Earth expensive? Definitely.

It was not a secret that a fish could be sold for hundreds of thousands of dollars, or even for millions. Tycoons often looked for rare first-class ingredients.

Thus, if this Rank One bear, who could even cause a transformation in ordinary people, was put on the market, its value could not even be estimated.

This was also the reason for Lu Shu's heartache...

He had forgotten about this while he was analyzing the mysterious young man. When

he finally remembered, one of the bear's arms had been removed...

The bear was as mighty as a tall building. An arm made Lu Shu's heart ache, to the point that it was about to explode. How much money had he lost?

Everyone in the campsite looked at Lu Shu in fear. The leader was still on the ground. His legs were still trembling. Some people had bear meat in their mouths, but did not dare to swallow it. They were afraid that they would end up like the leader!

A Rank Five Practitioner had suddenly become a demon king. They could not wrap their heads around this. How did the situation suddenly change?!

Lu Shu glanced at them, irritated. He waved his hand and said, "Just eat. What? Do you think I can make you spit it out? If you are not disgusted, I am! After you are done, sign the bill! 100 thousand dollars for each piece of meat!"

No matter whether these people could afford it, Lu Shu felt that he could not lose money!

Even if ordinary people ate, forget it. There was a rule in the campsite that Practitioners ate first. Thus, they had to compensate Lu Shu. They had received benefits in the campsite. No one knew exactly how much they had benefited.

Thus, Lu Shu had no sympathy for them. He had suffered tyrannical abuse for so long. It was time to receive his interest!

Some Practitioners felt that something was wrong. They wanted to take this opportunity to escape the campsite. After all, the walls of the campsite were not high. They could simply jump over.

Some of them jumped out, only to find themselves jumping back in. Before they could understand what was going on, they saw hundreds of gray threads in the sky. It was as if an intelligent being was forcing the secret practitioners back.

Then, the situation at the campsite suddenly changed completely. The secret practitioners, who were eating bear meat, lined up in front of Lu Shu. Lu Shu held a notebook and a pen. "Write properly for me. Did you hear me? Do you know the consequences of writing nonsense? All those who owe me money will have to pay me back!"

Israel stared blankly at this strange situation, but she was not thinking about how Lu Shu demanded payment from these people. She was thinking about the gray threads!

When she had been forced to the ground, a gray thread had appeared from the ground and took the lives of three secret practitioners.

Israel had almost forgotten about this. At first, she thought that Lu Shu had attacked, but it did not seem to be the case. Lu Shu had an innocent expression then. He was totally focused on the mutton!

Israel had thought about it. Did Lu Shu save her?

Now, when she saw the Sparrow Shade, she immediately understood that Lu Shu had saved her once.

The young man's acting was very good. Everyone had been tricked!

She guessed that he was a Rank Three. He had even looked shocked and asked her not

to tell the rest!

It was settled. Israel was now happy. She sat by the bonfire, supporting her chin with her hands. She felt that even the Oscar's owed Lu Shu a golden person.

But exactly how strong was Lu Shu?

Israel suddenly had a brave guess, but she could not verify it.

But Israel was suddenly in anguish. She understood that the gap between her and the young man far exceeded her expectations. Earlier, she had thought about marrying him when she was in danger. It did not seem like a bad idea.

When Lu Shu said that the person he liked was more good-looking than her, Israel thought that he was boasting. But now, if this was his true identity, this young man was not bragging...

At that moment, Lu Shu shouted at a secret practitioner, "What are you writing? How crooked! Write neatly for me. Did you hear me? Everyone owes me 100 thousand dollars, not any less!"

A huge wave of distress points was produced. The Practitioners were bitter. This was probably the most expensive dinner they had eaten in their lives!

Israel suddenly asked, "Who in the world are you?!"

Lu Shu looked at Israel and smiled. "You should be more concerned about how to survive in the remains."

Then, Lu Shu turned and said to all of the Practitioners, "Do you think that you can do whatever you like in the remains? Haven't you experienced a civilized society? Once you leave society, you are no different from beasts. Aren't you embarrassed? Don't cheat people in the future. Do you understand?"

The secret practitioners were about to cry. Speak for yourself!

After Lu Shu made everyone write their names, he stood up in satisfaction. Then, he stored the rest of the bear into the seal of lands. Israel mulled over what Lu Shu had said. What did he mean?

Did Lu Shu not plan on protecting them?

Israel was puzzled. She asked, "Are you leaving?"

Lu Shu thought about it and said, "Yes. The place we are in is the forbidden land of the remains. There seems to be a vast world of remains outside. I am going to think of a way to break through the barrier of the forbidden land. I have more important things to do outside!"

"Oh." Israel was disappointed. She knew that this campsite could not contain Lu Shu, but she did not expect their separation to be this quick. He did not seem reluctant to leave.

"Will we meet again in the future?" Israel asked.

Lu Shu smiled. "Probably not."

After all, Lu Shu would go to the Luniverse after this. After that, he would go home

and spend the rest of his days there. He would have no interactions with Israel. There would not be many opportunities to meet in the future.

Israel was silent. She mustered up the courage and was going to say something, when Lu Shu walked into the night. He disappeared.

It was as if he had never appeared. He had only left the campsite as a heavy creditor...

### **1180 BLAZING CLOUD FOALS**

"Who do you think he is?"

After Lu Shu left, someone suddenly asked after a long silence.

Lu Shu's identity was even more mysterious than the mysterious young man. Tonight had been full of twists and turns, leaving the secret practitioners dumbfounded.

"Do you think that his characteristics match that of a certain famous person in the Heavenly Network?" Someone asked softly.

"Are you talking about the Ninth Heavenly King?" Someone asked, "But the Ninth Heavenly King just left, right?"

"Greedy, a cheater, despicable, Asian. Aren't these characteristics of the Ninth Heavenly King?" The person who first spoke asked, "Have you seen anyone like him?"

"Yes, yes, yes. There are some other characteristics. For example, you will experience symptoms like heartache, nausea, and headaches when you are with him..."

They had not yet wiped off the blood on their faces!

"According to what you have said, I think he is the Ninth Heavenly King. Look at his attack, the strength with which he killed the leader in one punch, and his calm expression. I don't think ordinary Rank Ones can do that. Only masters are capable of doing so."

"Actually, peak Rank Ones would be able to do the same," said someone.

"I don't care. I just think that he is the Ninth Heavenly King..."

"Then who was that mysterious young man? He said that he was the Ninth Heavenly King!"

"Are you dumb?" They did not know whether to laugh or to cry. "Did you understand what the mysterious young man was saying? We relied on a translation. He translated in any way he wished. I felt that something was wrong when he was translating. A short sentence turned into a long one."

"I heard that eastern civilizations are special..."

"Go away. I'm debating with you. That mysterious young man is definitely not the Ninth Heavenly King. I will say one simple thing. Would the Ninth Heavenly King give you a bear for no reason? If he did, would he still be the Ninth Heavenly King?"

"Then who is he...?"

Everyone was dumbfounded. He was right. If the young man who had just left was the Ninth Heavenly King, then who was the previous person?

How many in the world would be able to kill a bear with one punch?!

While they were discussing, Israel was spacing out. She suddenly felt that this journey to the remains was the strangest experience in her life.

She had always been the top student in school. They lived in a wealthy area and were not lacking money. After she graduated, she produced stunning results.

But the world of ordinary people was too boring for her. This was the reason why she suddenly involved herself in hot news about the cultivation realm.

Everyone in the supernatural world seemed to have magic. They could do anything.

The magically rich era caused many people like Israel to be disappointed. When they realized that people around them were able to awaken, they hoped for the day that they suddenly became superhuman too.

It was like waiting for a grand golden ticket, but in the end, only very few people would be able to obtain it.

After coming to the remains, although she had experienced a lot of danger, but this was the real cultivation realm that Israel had never experienced before. It was dangerous and real. It was like an adventure.

But she was not the female protagonist in this adventure movie. She was simply her.

Israel could not quite accept this, especially the scene where Lu Shu just left!

Suddenly, Israel felt her entire body burning up. It was as if some energy was being

summoned by her willpower. Israel watched as flames suddenly burst forth from her hands... had she awakened?!

The people around Israel looked at her, puzzled. Israel's hair was on fire. The strands of hair swayed, but did not burn.

They all knew that Israel was an ordinary person. How did she suddenly awaken?!

Suddenly, there was the sound of galloping from outside the campsite. There was an owner of a ranch near Yellowstone National Park among them who had reared horses. The steps were heavy and powerful. They were good horses!

One could even say that those who reared horses were obsessed with them. They were like people who liked luxury cars. The sound of galloping touched their hearts!

They had reared many horses, but they were shocked by these stable and powerful gallops. These were good horses, far better than they had expected.

Everyone peeked over the wall and looked out. They wanted to see what was happening, but were afraid of being discovered.

"What... what kinds of horses are these?" Someone gasped in shock. "There are flames on their hooves! Blazing clouds!"

The horses were much more well-built than they had expected, but it was still acceptable, unlike the bear that was a few times larger than usual. Every creature had different kinds of evolution. Some evolved in terms of physique, but others developed strange abilities.

Their hooves produced fire. They were like creatures that had emerged from an abyss. It was shocking!

"What rank are they?"

"Don't allow yourself to be discovered. They can trample our campsite. None of us would be able to survive!"

But at that moment, someone gasped in shock. "Look. Is someone chasing them?"

"Let me have a look..."

Many people looked as well... were they not chasing someone?

The person was running behind the horses. He stretched out his hand and touched a horse. The horse then disappeared into thin air.

Everyone took a look at the horses. They were evidently panicking...

The herd of horses, who made them feel afraid, was trying to escape from someone... this was probably the gap between people.

Everyone in the campsite only dared to poke their heads out. Then, they watched Lu Shu chase after the horses as if he had nothing else to do... what happened to breaking the barrier? Was this the important thing you had to attend to? Did you forget about all of those when you saw the horses?

At that moment, Lu Shu saw the row of shocked faces above the wall. He roared, "All of them are mine. No one is allowed to come!"

Then, Lu Shu chased the horses and disappeared in the distance. Everyone knew that this herd of horses was done for!

"If you tell me that he is not the Ninth Heavenly King, I will not believe you, even if you kill me!" Someone said, "Who else could it be other than him?!"

But they did not know that when Lu Shu was leaving, he bumped into this herd of horses. They were exactly the same as Duanmu Huangqi's Blazing Cloud Foals!

Duanmu Huangqi only had two, but there were over a hundred here! Who had released so many creatures into the remains?!
