

### 141 SETTING UP A WEAPONS STALL

The members of heavenly network jumped off the cliff and just when the Class D leader was about to greet Lu Shu, Lu Shu hugged the spear tightly and looked at them warily, "it's mine!"

The class D expert was speechless while the rest had a face of disbelief. Who would have thought that Lu Shu would react this way?!

"From Liu Xuanyu's distress, +288..."

"From... "

In his mind, Lu Shu was screaming in shock after seeing the names. Aren't these people the 'fans' who contributed a huge sum of distress points the previous two times?! Damn it, I've misunderstood. Seems like I never had any fans...

Lu Shu finally understood what had happened. Based on the timeline, the first time these people contributed distress points was when he stole the second spear. So they saw?

### 142 HUGE GOLD CHAINS AND SMALL WATCHES

Lu Shu really admired his own ability to think of the plan of trading under such a pressing circumstance. In this dangerous remain, daoyuan students and soldiers were not prepared. Evidently, the heavenly network had never planned for the soldiers and students to be in the remains as well. The news from Jiang Shuyi also agreed with this: The heavenly network would prevent daoyuan students from entering the remain.

Ultimately, this extremely different remain spoiled all of their plans. No one predicted the remain to be so different from the previous encounters.

In such a circumstance, which student would bring along a huge amount of money with him?

But it was different when it came to stuff like jewelry. Some kids from wealthy families might not have much cash with them at this moment, but whatever they wore was of great quality.

This method of trading would solve the problem of not having enough money.

### **143 WHO WANTS TO LEECH OFF YOU?**

This canyon was extremely long and the hundred of them walked for what felt like tens of kilometers but still, the end was yet to be seen.

Some of the students were apprehensive, afraid something even more dangerous might appear ahead. However, the heavenly network and soldiers did not have the slightest tinge of second thoughts. Since they were here, they were supposed to search the remains.

In the end, the students who wanted to back out did not dare to. How could they survive alone without the protection of anyone?

The reason they did not buy weapons from Lu Shu was that they knew they were under protection anyway.

Lu Shu then chatted with Zhao Xuanyu with the main purpose of understanding whatever he was unclear of. After all, he had just reached the border of the core of the remain.

### **144 CORPSEDOG!**

But no matter what, if the other party wanted the exchange, Lu Shu would make the deal.

Lu Shu had never heard of the Omega brand of watches. Not to mean that other people's goods were fake but Lu Shu had no experiences with luxury goods. One watch for 31k... He couldn't comprehend the rich people's world. Even as he now obtained the watch, the first thought he had was to sell it to buy Lu Xiaoyu food.

If this went on, they both could finally travel. The money was definitely enough and Lu Xiaoyu had never left Luo Cheng city before... Neither did Lu Shu...

Lu Shu was handed the watch and when everyone thought he was going to keep it in his pocket, Lu Shu wore it on his left arm. Now, his left arm had two and his right had one.

What the... the onlookers were confused.

### **145 CAO QINGCI**

If Lu Shu's actual aptitude was one of his closely-guarded secrets, then his system and celestial map were secrets which he had to conceal no matter what.

Till this day, he still did not understand the use of that flame in his heart. The little sapling on his palm grew along with his strength, and now there were leaves on it as well.

Lu Shu wasn't sure what the flame would turn into. He didn't know what the sapling on his palm would become when he completed lighting up all the stars.

The only thing he could do now was to wait patiently and keep all his secrets close to his heart.

That scene made Lu Shu raise his guard once more. Lu Shu realized that the secrets

within his body were far greater and deeper than what he had imagined.

Luckily there were so many people here so there was no need to exhibit so much of his strength.

### **146 BLOOMING BUSINESS**

But even if he didn't say, it didn't mean that the student wasn't curious. His words were too vague, what a lack of sincerity! I've already told you about Cao Qingci, what are you still babbling about?!

Only after further questioning did the student realize that the Lu Shu classmate he was talking about was a far superior being than Cao Qingci, "That's too amazing. Are you sure? So while you guys were hiding, he defeated those nine skeletons by himself?"

This student was still protecting his image and never mentioned how he did not plan to fight and was being protected the whole time. That would be embarrassing.

He didn't think of the shame which would come now, what did he do earlier?

### **147 MEETING**

"Don't be anxious, don't be anxious! There's enough for everyone!"

"This gold chain's weight doesn't feel right... Damn, it's discolored?!"

"How much did you buy your watch for?"

"Bro, your watch is really too fake. How am I supposed to believe that this watch is worth ten thousand dollars when there are cartoons on it? Is this the Ultraman's version? Bye!"

"Last five spears, I'm keeping them for my own use!"

"Not selling the fruits!"

"That student who bought a spear just now, it seems like this beautiful lady beside you wants a sword... It's fine, it's fine if you don't have a gold chain. I'm not that greedy, your watch seems quite decent..."

In the end, Lu Shu wielded his last remaining sword, "It's the last one. Someone has offered a Longines worth 16000 dollars. Anyone willing to offer more?"

There were huge crowds of people in front of Lu Shu now, it was absolutely packed.

### **148 CULTIVATING SWORD WITH EFFOR**

The main objective of this meeting wasn't to recruit students like Lu Shu and Cao Qingci, but to discuss how to proceed with the exploration of the remains in the pothole.

If every site of remains had a relic, given that this place was the heart of the remains, and that mysterious sightings were the most abundant here, the relic must be down there. It was really a giveaway question this time.

When someone thought about giveaway questions, they once again contributed distress points to Lu Shu. Lu Shu kept his usual smile and didn't have any visible reaction.

"Let's see what's under there first," Class C Zhong Yutang said, "Can the newly invented drone be operated here?"

A practitioner at the side, carrying a silver box, shook his head, "Still not working."

## 149 HEARTBROKEN SQUIRREL

Those who heard the commotion hurried over and many were shocked to see Li Yixieo carrying two fruit trees. Dumbstruck, Zhong Yuteng asked, "Li Yixieo, you disappeared for so long just to pluck these trees?!"

"What are you talking about?" Li Yixieo carried the two fruit trees and continued walking, "I was afraid you guys would be hungry."

All of a sudden, a squirrel appeared from within the tree crown and stood at the top, angrily chirping at Li Yixieo. It then plucked off a fruit and threw it at the back of Li Yixieo's head as Li Yixieo turned around angrily, "I've tolerated you for a long time! Stop throwing fruits at me!"

At this time, the squirrel suddenly noticed Lu Shu within the crowd and was even angrier. One stole fruits and one uprooted the entire fruit tree, can't believe they're a gang!

It then plucked another fruit and threw it at Lu Shu. Li Yixieo said happily, "My little bro, you stole its fruits too?"

Those who heard the commotion hurried over and many were shocked to see Li Yixiao carrying two fruit trees. Dumbstruck, Zhong Yutang asked, "Li Yixiao, you disappeared for so long just to pluck these trees?!"

"What are you talking about?" Li Yixiao carried the two fruit trees and continued walking, "I was afraid you guys would be hungry."

All of a sudden, a squirrel appeared from within the tree crown and stood at akimbo, angrily chirping at Li Yixiao. It then plucked off a fruit and threw it at the back of Li Yixiao's head as Li Yixiao turned around angrily, "I've tolerated you for a long time! Stop throwing fruits at me!"

At this time, the squirrel suddenly noticed Lu Shu within the crowd and was even angrier. One stole fruits and one uprooted the entire fruit tree, can't believe they're a gang!

It then plucked another fruit and threw it at Lu Shu. Li Yixiao said happily, "My little bro, you stole its fruits too?"

### **150 BRIBING THE LITTLE SQUIRREL**

Lu Shu glanced down at the little squirrel and saw its teary face, as though it was trying to grasp onto a fruit that was disappearing into thin air. He felt sorry but how could he possibly comfort it? The fruits inside his pockets... they were originally from the squirrel's tree...

After some thought, Lu Shu took out a green fruit from his back pocket and offered the little squirrel. The little squirrel saw the fruit it had lost and looked at it for awhile, before looking at Lu Shu momentarily. It couldn't believe that this human was this kind-hearted!

Based on his appearance, he didn't look like a decent person.

But the little squirrel couldn't overcome its basic instincts as it hugged the fruit it had previously lost and, still teary-eyed, collapsed onto Lu Shu's palms...

Lu Shu suddenly thought that if he could bribe this little squirrel into eating the fruits from his system, what would happen?
