

### **191 WINDOWS, PULLEYS AND DOOR REPAIR**

"Student Lu Shu, what is it?" Zhang Haitao was sick of interacting with Lu Shu. Other parents were in their 30s and 40s but Lu Shu was just too young and he accidentally called him Lu Shu student. It's so hard!

"Mr. Zhang, so the parents have a chat group between them? I'd like to join and interact with the other parents to learn from them. After all, I don't have much experience being a guardian," Lu Shu said gleefully.

Zhang Haitao's first reaction was, unbelievable!

But he also had no good reason to reject him. If he were to said there wasn't such a group and got found out, wouldn't that affect the image of his integrity?

He unwillingly sent Lu Shu an invite and after that, he would check the group chat periodically in fear that a conflict might arise between Lu Shu and those victims' parents. But Lu Shu was very quiet, as if such a person never existed.

### **192 SHIFTING MAGICAL ENERGY**

He didn't know what after-effects the distress points from Japan would cause. Lu Shu thought that nothing much could happen since no one knew that the relic was in his possession, be it the heavenly network or the Japanese.

Speaking of the relic, Lu Shu remembered that he wanted to look into the land of seals again before he could really be sure of being able to provide Jiang Shuyi with magical energy. He was of much help and Lu Shu should really do something for him.

And Jiang Shuyi trusted him so much that he had to help him. Anyway, it was just a simple way of helping since he could actually be considered a 'God' in terms of magical energy in Luo Cheng...

He was preparing to send his consciousness into the seal of lands and to control and manage the entire Luo Cheng!

But how could he test it now? He knew the uses of the seal of lands, but he wasn't sure if anyone else knew its ability. They could maybe make use of the clues in the shift of magical energy to find him.

### **193 SEA OF CHI**

Lu Shu had no idea how much chi he should accumulate before unlocking his chi reserves. He never thought that the old man Li Xianyi was just boasting... In fact, although the old man said to accumulate chi before unlocking it, he himself didn't do that.

But Lu Shu had no idea!

So the concept Lu Shu had in mind was that he had to wait for his chi to be fully accumulated, or to wait until he couldn't tolerate it anymore.

As to how long his tolerance was, Li Xianyi had never thought that Lu Shu had so much perseverance and Lu Shu never considered that the old man was scamming him...

At the current extent of Chi, Lu Shu realized that there would be an uproar about every hour. 24 times a day was a conservative estimate.

In the past, Lu Shu could still occasionally sleep at night but not anymore. He had to practice his twinkle stars to keep awake.

## 194 SCAPEGOA

When Lu Shu was done with his training, he recalled the issue regarding Lu Xiaoyu and said to Li Xianyi, "Grandpa, can you continue helping Lu Xiaoyu with her homework at night? I noticed that she has been rather hardworking and didn't you study middle school math? We wouldn't want to waste all that knowledge right?"

"From Li Xianyi's distress, +188!"

Li Xianyi looked at Lu Shu expressionlessly, are you two toying with me?

In reality, Li Xianyi liked the feeling of guiding the young lady through her work. He never had children and always heard stories of grandparents and grandchildren. The elderly taking care of children always brought about happiness.

But how could Li Xianyi find that time? And there wasn't any opportunity. He never even had children so how could he have grandchildren?

## 195 NO LAUGHING!

A streak of white started spreading across the sky, as if tearing the pitch black darkness apart, bringing the world brightness.

Just at this last stretch of darkness, Lu Shu brought Lu Xiaoyu out of their house. They weren't going to switch the test tube themselves, but they were looking for an appropriate place to release the soul.

This was because although Lu Shu could roughly know how much magical energy a class B expert like Li Xianyi could sense, and this soul puppet of theirs was made of smoke and could move about with minimal noise and theoretically couldn't be detected, he wasn't a hundred percent certain that this weird energy would not be sensed by Li Xianyi.

This could be tested out in the future. There was no time left.

As the two of them got further away, a black shadow streamed out of Lu Xiaoyu's chest and cackled hysterically as it started moving off...

### **196 QUALITY TRAINING**

The soul had yet to run out but Lu Xiaoyu was already in a state of fury, "I already told you not to give him that weird pill of yours but you just had to give it to him. Look, now he's gone mad!"

Lu Shu felt there was no point in reasoning with Lu Xiaoyu here as she was too agitated although there was really an evident increase in ability!

"Stop getting angry over this alright," Lu Shu started painstakingly, "You get him out of there first! Don't care about the guard and just escape from the closest exit... No, knock that guard out and get the test tube before back before coming out!"

Lu Xiaoyu was confused. She had painstakingly swapped the two test tubes. Why swap them back?

But when it came to this sort of important decisions, Lu Xiaoyu would heed Lu Shu's instructions regardless of what she thought.

Lu Shu was currently observing the situation closely using his seal of lands and noticed that the two guards outside were still oblivious to the situation inside.

### **197 IS HE LAUGHING AT US?!**

To Lu Shu, his actions previously did give Lu Xiaoyu some doubt. For example, why swap the test tubes back to their original positions when they had already swapped it successfully?

This was because the old man advised them to swap the test tubes, and if the soul puppet was revealed, even if the test tubes were swapped successfully, the old man would know that the soul puppet had something to do with Lu Shu!

If the soul puppet went over right after the old man had just said the test tubes had to be swapped, it would be ridiculous to not be able to draw the link between Lu Shu and the soul puppet.

Lu Shu did not think that the old man would miss this point out. After all, in this world, there was a price to pay for underestimating someone.

So Lu Shu would rather swap the test tube back and ask the old man for help than to reveal the secret of Lu Xiaoyu and him. He did not have the slightest tinge of regret.

### **198 INTELLIGENCE**

The classroom projector was paused, and Li Yixiao was furious, "Is he laughing at me, Li Yixiao? Huh? How dare he laugh at us, what arrogance! I will catch him and make him laugh all he wants!"

All the other practitioners were speechless but they didn't know how to disagree with Li Yixiao's opinion... The other party was indeed laughing...

One of the practitioners spoke carefully, "Could he be mentally ill?!"

Everyone was stunned and started replaying the other party's laughter within their minds. And indeed, the other party's laughter had a silly vibe as if he had no intellect at all... Everyone suddenly realized that what this colleague said was possible!

Li Yixiao calmed down and replayed the video. Something just didn't feel right but

what was it?!

What was the laughter about?!

This simpleton had become a mystery to all of the members of the heavenly network...

### **199 ARE YOUR THOUGHTS SO COMPLICATED?**

"What if... I wish to obtain certain information from a certain location, will you, and them, be able to help?" Lu Shu asked little fury gleefully.

After hearing that, little fury started gesturing, flailing his arms around, pointing outside and making all sorts of weird actions which confused Lu Shu.

Lu Shu replied, "... Are your thoughts so complicated?"

The whole room was suddenly quietened down and little fury saw that Lu Shu didn't understand its intentions. Once again, it started its gestures and actions.

But Lu Shu was still confused and couldn't comprehend little fury at all.

Lu Xiaoyu suddenly butted in, "It's saying that they're too stupid to be of any use."

Little fury nodded.

Lu Shu looked at little fury with a shocked expression, then turned to Lu Xiaoyu, "Are you serious? You can understand that?!"

### **200 LITTLE FURY LEARNING TO READ**

As Lu Shu thought about how to communicate with little fury, he first wondered if there was any way to establish a telepathic communication. After all, wasn't this the

case in movies and television dramas?

But in reality... Lu Shu did not have such an ability up his sleeve, he wasn't even sure if such an ability could be exhibited by anyone in this world.

So he could only use a more realistic approach to this issue. Lu Shu intuitively thought of sign language, as little fury could not speak.

But... Lu Shu looked at little fury's fingers just as he thought of this idea. Squirrels, like humans, had five fingers but one of them was extremely small, hidden behind the rest of the fingers!

How could it display sign language?

Another issue was that Lu Shu didn't know sign language himself...

Then... the only way was to teach it to comprehend words on books!
