

## Chapter 2740 Zeke Unleashes His Power

Boom!

The wall was shaking even more from that impact, causing more guards to fall off and get crushed by the beasts.

Having reached its limits, the wall could crumble at any given moment.

“Someone go inform Mr. Williams right away! Hurry!” the men shouted anxiously as they knew they were going to lose the battle for sure.

Unbeknownst to them, someone had run off to inform Zeke the moment the beasts showed up.

Zeke was in the middle of crafting divine weapons when he heard about the attack. He immediately stopped what he was doing and rushed over as quickly as his legs could carry him.

Along the way, he kept wondering if the enemy had placed the Heavenly Spirit Stone in his Centuria's district and attracted the beasts just to stop him from crafting divine weapons.

That's a little crazy, though. Why would they go to such lengths just to harass me?

Zeke had just arrived at the wall when the beasts knocked it down.

Noticing that a piece of the broken wall was about to fall on a little girl, Zeke quickly released a burst of energy and pulled the girl into his arms, saving her from being crushed.

As one of the beasts charged toward them, Zeke released yet another burst of energy and instantly turned the beast into a bloody mist.

The other beasts in the area gathered around the opening that they had created in an attempt to breach the city.

After placing the girl down on the ground, Zeke lunged at the opening in the wall to block the path of the beasts and stop them from entering the city.

Everyone broke out in a cold sweat in Zeke's stead when they saw what he was doing.

What is Commander Williams trying to do? Is he using himself to block the hole in the wall? He's just one man, though! How can he possibly stop twenty ferocious beasts on his own?

While they had no idea how things would turn out, this was undeniably the most magnificent sight they had ever seen.

As the first wave of ten beasts charged at Zeke, he set up an energy barrier in front of him.

Boom!

The ten beasts only managed to shake the energy barrier a little when they rammed into it at full speed.

The next thing they knew, the energy barrier had wrapped itself around them like a blanket. Zeke then used his mental energy to control the energy barrier and crushed all ten of the beasts in an instant. There were bloody limbs and chunks of flesh flying everywhere, making it a truly gruesome sight to behold.

Everyone's jaws dropped when they saw that.

Oh, my goodness! Commander Williams sure is powerful! I kind of wish he wouldn't crush the beasts when killing them. They look really delicious, so we could really have had a feast with their flesh!

There was fear in the eyes of the ten remaining beasts after they witnessed the gruesome deaths of their companions.

Because of how powerful they had become, the beasts had developed intelligence and were capable of feeling fear.

However, that fear only lasted a few seconds as they continued charging at Zeke like a pack of rabid dogs.

That was when Zeke realized there could be an invisible, external force driving the beasts to attack him at all costs.

Zeke was about to engage them in battle when Fortuna came out of his body and floated in front of him.

As Fortuna had no physical form, Zeke was the only person who could see it.

However, the beasts seemed to be able to see Fortuna as well.

All ten beasts stopped in their tracks the moment Fortuna appeared. They then curled up and shivered in fear, much to Zeke's surprise.

Looks like Fortuna was right about being the king of these beasts in the past. That's why they're all kneeling before it!

Zeke ordered Fortuna in his head, Listen up, Fortuna! I need you to order these beasts to surrender immediately! We must capture them alive!

Zeke figured the beasts must have become sentient if they were this powerful, so he wanted to try communicating with them and ask them why they attacked them.

He needed to confirm if their attack was related to the Heavenly Spirit Stones that were dumped in his Centuria's district and the reason behind it.

However, Fortuna did not obey his orders this time.
