

Chapter 2765 Agonizing Screams

D*mn it. If I had known it would turn out like this, I wouldn't have run. Why didn't we trust Commander Williams? We're getting what we deserve now.

Such were the thoughts running through their minds. They couldn't even return now, as the black bear had blocked their way. The only thing they could do was run as fast as they could.

However, it was impossible for a human to outrun a black bear. It didn't take long for the bear to catch up with them.

The black bear leaped again and pounced toward the group.

It's all over.

The group's hearts sank, and they closed their eyes in despair.

We were only just starting to enjoy our lives, yet we threw it all away. It's all over for us! We deserve it!

Zeke transmitted his voice to Sole Wolf and the others through energy, "What are you waiting for? Do something now!"

Sole Wolf chuckled and replied, "I'm just teaching them a lesson. How dare they not listen to you! They are paying the price now!"

"Do it!"

With that, Sole Wolf leaped from the group and swung his arm. A thick rope caught the black bear that was in mid-air.

At that moment, the black bear's claws were about to grab one of the runaways' heads.

Sole Wolf pulled hard, and the bear was yanked backward, tumbling several times on the ground before it finally stopped.

The moment the black bear landed, the ground shook violently.

The person who had nearly had his head bashed in by the bear was stunned.

What happened? The black bear's claw touched my head. I can still feel the warmth of its paw. Why did it suddenly retract its paw? Did it have a change of heart?

He turned around and realized that it was Sole Wolf and his companions who had saved his life.

The group was overwhelmed with gratitude and quickly knelt before Lone Wolf and the others. "Thank you for saving our lives. Thank you for saving our lives!"

Sole Wolf uttered coldly, "Hurry up and gather with the rest of the group. Do you want to stay here and wait for your deaths?"

They quickly scrambled toward the group, silently swearing that they would never leave the group till death.

The black bear went into a frenzy. It stood on two legs and pounded its chest in anger. It even ripped off chunks of fur on its chest.

Sole Wolf, Killer Wolf, Ares, and Tyler surrounded the black bear and snickered at it.

"Haha! It's rare to see such a gigantic black bear."

"It may be big, but it's not smart. It's quite cute."

"I heard bear paws are delicious, and I haven't tried them before! I have to try it now!"

"I want the left front leg. Don't try to snatch it from me!"

"I want the right hind leg. Don't try to snatch it from me."

If the black bear could understand the conversation between the people, it would certainly be furious.

It might rather die than get humiliated like this!

The black bear rushed toward Sole Wolf in a mad frenzy.

Sole Wolf grabbed the black bear's left front leg.

The other three also rushed forward and easily caught the remaining three legs of the beast.

They grabbed all four legs of the black bear before it could attack, causing it to fly into a towering rage.

It had never suffered such humiliation before.

Following Sole Wolf's command, all of them exerted force.

The black bear's four legs were torn off simultaneously.

The black bear let out a desperate and tragic cry before dying on the spot.

Looking at the huge bear paws, Sole Wolf was about to drool. "I heard that bear paws are great for nourishment. Let's feast on it tonight."

Zeke spoke up, "Sole Wolf, keep your bear paw. You guys can share it among yourselves. Give the other three paws to the children to eat for their nourishment."

"Sure!" Sole Wolf readily agreed.

After dealing with the black bear, the main forces of the beast army arrived.

This beast army was densely packed. It was impossible to see the end of the army at one glance.

The roars of various beasts blended together, making it more terrifying.

The cold glints reflected from their sharp claws made people shudder with fear.
