

Chapter 2766 Danger

They had never faced such a huge group of wild beasts before. It wasn't common to see such a scene as they would only see a few beasts in their lifetimes.

It was unheard of to have so many beasts gathered together.

However, when they saw how calm and collected Zeke was, they felt more at ease.

The wild beasts charged toward them, trying to attack these humans.

However, the invisible shield was able to protect the group, and the beasts could not break through it.

The group of beasts was confused. They had never encountered such a strange thing before. There was clearly nothing in front of them, but they couldn't move forward.

Zeke ordered coldly, "Kill them all!"

Echoing his cry, Sole Wolf, Killer Wolf, Alfred, Ares, Nameless, and Tyler leaped out of the group and charged toward the beasts before they started fighting fiercely.

With that, the beast army turned its attention to Sole Wolf and the others. The beasts charged toward them in a frenzy.

Sole Wolf and the others fought bravely.

They didn't use their energies to attack the beasts. They relied solely on their strength, as fighting like this was more exciting.

The sounds of fighting, the screams and roars of the animals, and the war cries from Sole Wolf and the others filled the entire place. Chaos erupted everywhere.

They killed many beasts, causing the beasts to fall around them in piles.

However, there were too many beasts. It was never-ending, but Sole Wolf and the others fought fiercer and harder the longer they battled.

Seeing this, the audience's blood boiled with excitement, and they felt like charging into the fight as well.

Those who were stronger, like Southern King, Northern King, Golden Cicada, Draco, and the others, knelt before Zeke and asked, "Commander Williams, we request to join the battle. Please allow us."

Zeke glanced at them. "Okay. Be careful."

"Thank you, Commander Williams! Let's kill them all!"

They also rushed out of the crowd and started fighting the beasts.

This made Sole Wolf and the others unhappy.

"D*mn it! These beasts are ours. Who allowed you guys to interfere?"

"You guys can go to the north. The beasts there are weaker. Don't compete with us for the powerful beasts!"

"I haven't had my fill of killing yet. Why are you stealing our beasts? Get lost!"

Everyone was rendered speechless.

They had taken the initiative to share the burden with Sole Wolf and the others. Instead of being grateful, Sole Wolf and the others were annoyed.

Just five minutes later, the battle was over.

Blood was everywhere, and corpses littered the ground. There were at least three hundred wild beasts on the ground. It looked like a scene from a brutal slaughterhouse.

Hahaha! This was thrilling!

Sole Wolf and his companions were unharmed. The blood on their bodies belonged to the beasts.

They searched through the bodies and found two black bears.

Sole Wolf ordered, "Nory, cut off the bear paws and give them to the children for nourishment."

"Of course!"

Northern King wasn't angry that Sole Wolf called him "Nory." On the contrary, he felt honored.

He was fine with being called this nickname by such a strong warrior.

Moreover, Sole Wolf had called for him personally even though there were so many other people on the scene. He felt that it was a great honor.

Everyone was looking at the beasts on the ground, drooling.

These weren't beasts any longer; they were food.

As everyone felt it was really wasteful if they left the meat there to rot, they wanted to bring it with them.

Northern King suggested, "Mr. Williams, what should we do with all this food..."

Zeke had already guessed what everyone was thinking, and without hesitation, he said, "Don't pick them up. Let's keep moving."

Camp South Master would not send only one wave of beasts to them. Zeke was confident there would be at least two more waves ahead.

If they carried these beasts with them, it would only slow down their pace.

He was eager to kill more than a thousand wild beasts to awaken the primordial beast and lure it over.

Chapter 2767 Are You Lying To Me

Fine.

Everyone was disappointed, but no one dared to refute Zeke.

The group continued forward.

Zeke's guess was correct. After traveling for about two hours, Scar Face and the others found a hundred and fifty Heavenly Spirit Stones again.

More than three hundred wild beasts were expected to be attracted this time.

Zeke kept moving forward calmly. The possibility of being attacked by three hundred wild beasts did not affect his mood.

To Zeke, three hundred wild beasts were no different from three hundred ants.

The crowd was less tense than it had been previously.

What was there to be concerned about with Zeke taking the lead and Sole Wolf protecting them?

The second wave of wild beasts arrived not long after.

Sole Wolf charged into the battlefield again, while the Northern and Southern Kings could only assist him by backing him up, and so on.

This time, the battle was over in under three minutes.

There was no doubt about the outcome of the battle; Sole Wolf and the others had triumphed, and all of the wild beasts had been slaughtered.

Sole Wolf made some unexpected gains this time. He found three black bears as well as twelve bear paws.

Zeke checked the time and realized it was almost lunchtime.

He waved his hand and said, "Let's dine on the spot. Make it quick."

Hopefully, the wild beasts' blood will attract more wild beasts.

The crowd cheered and got to work right away.

Nature's bounty was abundant in this location, and there were numerous delicacies to choose from.

The wild beast's meat that used to be regarded as top-grade was now everywhere, yet everyone was still picky.

The delicious smell of barbecue wafted from the spot not long after, and everyone was laughing and chatting happily.

Zeke's prediction was correct. The smell of blood and the commotion attracted hundreds of wild beasts, all of which were easily dealt with by Sole Wolf.

The group continued forward after they had eaten to their hearts' content.

It was unfortunate that they didn't come across any more Heavenly Spirit Stones along the way, and there were no more wild beasts that obstructed their path.

After doing the math, they had killed a total of eight hundred wild beasts.

There were only less than two hundred wild beasts to kill before they reached a thousand kills.

It should be relatively easy to kill two hundred wild beasts in the Beast District.

They encountered ten wild boars when they first entered the Beast District.

The wild boars became enraged that they trespassed their territory and began to attack them.

The wild beasts in the Beast District were far more ferocious than those outside.

However, Sole Wolf killed them all with ease.

Zeke surveyed the surrounding terrain, which was easy to defend but difficult to attack, and declared, "This will serve as our base. Everyone, help to clean it up."

Everyone got right to work on building a new house.

Zeke summoned Maulwurf to his room.

Maulwurf bowed and said obsequiously, "What can I do for you, Mr. Williams?"

Zeke instructed, "Find Camp South Master and inform him that we've only killed four hundred wild beasts along the way, and there is still a significant gap to cover before we reach a thousand wild beasts."

Huh?

Maulwurf looked at Zeke in puzzlement. "Mr. Williams, why do we have to lie? We've killed over seven hundred beasts along the way."

Zeke elaborated, "Let him throw his Heavenly Spirit Stone to attract more wild beasts. I desperately need the Heavenly Spirit Stone right now."

Maulwurf nodded in acknowledgment. "Understood!"

He sneaked away, and not long after, he arrived at Camp South Masters' military camp and met with him.

Camp South Master hurriedly said, "Maulwurf, what's the situation at Zeke's side?"

"Camp South Master, Zeke has successfully entered the Beast District," Maulwurf replied.

Camp South Master exclaimed, "I don't care about that. How many wild beasts did Zeke manage to kill?"

Maulwurf sighed deeply. "We've only killed a little over four hundred wild beasts."

How is that possible?

Camp South Master was doubtful. "Sunshade told me that he threw about three hundred Heavenly Spirit Stones on the path Zeke would undoubtedly have to take. Even if it didn't attract six hundred wild beasts, it should have attracted at least five hundred of them. How could there be less than four hundred wild beasts? Are you lying to me, Maulwurf?"
