Chapter 1381: Suppress the Demon

The huge Blood Shadow stood in the horizon and covered the sun. A strong smell of blood spread throughout the area, exuding the power of a Demonic God.

The people in the area looked at the Blood Shadow with fear. Under the demonic aura, the indigenous people lost their courage to resist the Blood Demon Lord.

Although the people were in a state of despair, Mu Chen stood tall in the sky. He held the Crystal Pagoda in his hand, while looking calm.

“Since you want to be the hero of this world, I shall grant you your wish!” The Blood Demon Lord appeared on the huge Blood Shadow and looked down at Mu Chen from above, smiling viciously.

As a member of the Extraterritorial Race, he was familiar with the rankings in The Great Thousand World. Mu Chen was only a mere Complete Earthly Sovereign. In their Fiend Blood Tribe, his level was only slightly higher than the Blood Demon Generals, which was way beneath the Blood Demon Lord’s.

“Descent of the Sangre Sun!” The Blood Demon Lord yelled. He then laughed and immediately stamped his foot.

At that moment, the huge Blood Shadow opened its big mouth and blood rays spurted out to form a humongous Sangre Sun. As the Sangre Sun hung in the sky, the blood rays expanded.

Wherever the blood rays shone, they would destroy everything. Even the city that was beneath it started to rot.

“Go...” The Blood Demon Lord wore a devilish smile as he spoke one chilling word. Immediately, the Sangre Sun whizzed toward Mu Chen as quick as lightning.

“You want to be the savior, don’t you? If you move away, the Sangre Sun will shine on the people in the city, killing them all.” The Blood Demon Lord spoke to Mu Chen with an evil smile, while the Sangre Sun moved closer to Mu Chen.

“Why must you use such despicable methods?” Mu Chen was disgusted when he heard what the Blood Demon Lord had said.

Mu Chen knew that he simply wanted to provoke him to anger, so that he would not move away. But, the Blood Demon Lord had not played his game well, as in Mu Chen’s eyes, the Blood Demon Lord was not at all powerful or intimidating.

As such, Mu Chen remained still and lifted up his head to look at the Sangre Sun. When it was close enough to him, he formed a seal quickly.

Buzz! Buzz!

When Mu Chen changed his seal, several rays of crystal light shot out from his palm. In just a short while, the rays turned into a large Crystal Net. When the large net swirled out, it engulfed the Sangre Sun.

“You do not know who you are dealing with!” The Blood Demon Lord broke out into a smile when he saw what Mu Chen had done.

This was because he knew that the unique power of his Fiend Blood Tribe was terrifyingly corrosive, and once one came into contact with it, the person would be in great trouble, as it would stick close to him. So, when he saw that Mu Chen wanted to take him head-on, he thought that Mu Chen was digging his own grave.

As the Blood Demon Lord was sneering at Mu Chen, the Crystal Net and the Sangre Sun collided. In the next instant, the expression of the Blood Demon Lord completely froze.

This was because he saw that, when the Crystal Net and the Sangre Sun had made contact, the Sangre Sun’s radiance suddenly dimmed. It was as if its power had been sealed!

Swish! Swish!

Red smoke rose up continually from the Sangre Sun, while the Crystal Net kept shrinking, bringing the Sangre Sun down with it. In a short while, the Crystal Net closed up and the Sangre Sun turned into a small Red Spiritual Pearl, which was about the size of a palm. Ancient runes then appeared around the Red Spiritual Pearl, and it looked as though it had been sealed.

As Mu Chen stretched out his hand, the Red Spiritual Pearl flew into it. He then lifted up his head and smiled at the Blood Demon Lord and said, “Take it back.”

Having said that, Mu Chen shook his hand, causing the Red Spiritual Pearl to shoot out towards the top powers from the Fiend Blood Tribe who were in the sky instead of the Blood Demon Lord.

“Move back!” The Blood Demon Lord shouted when he saw this.

Boom!

Just after he shouted, the Red Spiritual Pearl exploded and Blood Waves raged out. All of the top powers who were hit by the Blood Waves turned into ashes, as they were being invaded by the corrosive power.

The red clouds in the sky dispersed right after the top powers were hit. There were a lot of casualties and the situation was a complete mess!

While the Fiend Blood Tribe was suffering this crushing defeat, the indigenous people in the city-state widened their eyes in disbelief. Earlier on, they were still petrified by the destructive attack of the Blood Demon Lord, but in just a short while, the mysterious deity had easily warded it off. He had then killed almost all of the top powers from the Fiend Blood Tribe by giving them a taste of their own medicine!

The queen and the higher authorities stood outside the main hall and trembled with excitement. In all these years, they had never seen the Blood Demon Lord in such a pathetic state. They believed that this mysterious youth might truly possess the power to defeat the Blood Demon Lord!

The Blood Demon Lord looked ghastly pale as he stared at Mu Chen with fiery eyes. Mu Chen had not only fended off his attack, but Mu Chen had reverted his attack back at him! He felt as if Mu Chen had slapped him hard in the face in front of everyone!

“This is just the prelude, and you can’t even take it? The real show is just about to begin now...” Mu Chen spoke with a smile as he looked at the Blood Demon Lord, who had turned pale.

When the Blood Demon Lord heard this, he lifted up his head and his expression changed. At that moment, a huge Crystal Pagoda appeared in the sky and bore down on him, blocking all of his escape routes. The light from the crystal sealed the space up, making it impossible for him to evade it.

Boom! Boom!

The large pagoda landed on the Blood Demon Lord and the huge Blood Shadow, engulfing them entirely. Then, Mu Chen disappeared into the Crystal Pagoda.

As Mu Chen looked at the pale-looking Blood Demon Lord, who was carefully observing the pagoda, he waved his sleeve. Immediately, a Sovereign Spiritual Liquid Torrent swirled out.

When around 50,000,000 Sovereign Spiritual Liquid units had surged out, Mu Chen stopped the flow. He then flicked his fingers and the Sovereign Spiritual Liquid Torrent whizzed out toward the walls of the Crystal Pagoda.

Boom!

Eight ancient ferocious-looking pictures appeared on the walls of the pagoda. The eight pictures looked like Golems and they moved around slowly.

Their upper bodies became real and stuck out from the walls. When they opened their mouths, they swallowed the several thousands of Sovereign Spiritual Liquid units into their bodies.

After they had been fed with the Sovereign Spiritual Liquid, the eight Golems exuded horrifying fluctuations. When the Blood Demon Lord saw the eight Golems, he was alarmed. He could feel a terrorizing oppression that was coming from their spirits.

These Golems have been refined using the Demon Emperors as mediums! The Blood Demon Lord realized frantically. He had seen a familiar fluctuation before! When these eight Golems were still alive, they were probably the Demon Emperors of the Extraterritorial Race!

“Crap! Where did this chap come from? I must not stay here any longer. I must let the other Blood Demon Lords know about this, so that they can join forces to kill him!” The eyes of the Blood Demon Lord glittered frantically as he murmured almost incoherently in his terrified state.

At this moment, he was beyond fearful. He felt the aura of death from the eight Golems coming at him fast and furiously.

“Are you thinking of trying to escape? It is too late for you to do so.” Mu Chen looked at the Blood Demon Lord’s glittering eyes and knew immediately what he was thinking.

He smiled coldly and tapped his finger at the Blood Demon Lord from a distance, then said, “The Eight Budur, Budur destroys the Demonic Light.” Mu Chen’s voice resounded throughout the huge Pagoda.

Swoosh!

The eight Golems on the walls stretched out their sharp fingernails and pointed at the Blood Demon Lord, while eight beams of black light shot out from their fingernails. The beams of black light pierced through the space, then quickly scattered around the Blood Demon Lord to seal off all of his escape routes.

Although the eight beams of black light were not forceful, the Blood Demon Lord was already covered with cold sweat. This was because an indescribable aura of death had come over him.

Crap! How can this fella possess such a powerful attack when he is only a Complete Earthly Sovereign? The Blood Demon Lord shouted frantically in his heart. He could no longer stay calm.

He grit his teeth as blood rays surged in his eyes. In the next instant, his body expanded. Then, with a blast, it exploded!

Endless blood rays raged out, but the eight beams of black light remained unaffected by them. They simply continued to move into the blood rays.

After a short while, a black demonic liquid burst out and darkness took over the place. Everything that had been tainted by the blood rays was now covered by the black liquid.

In less than one minute, the vast blood rays disappeared completely. What was left behind was only a single lump of blood rays that was being chased after by the demonic liquid.

Bang!

The blood rays could no longer take it, so they turned into a human figure. The Blood Demon Lord appeared, and he was in a sorry state. His powerful fluctuations had weakened and he had black spots all over his body.

He gave Mu Chen a fearful look. He had never anticipated that Mu Chen's means would be so horrifying. The moment Mu Chen struck, he did not even have a chance to retaliate.

"You can't kill me. If you kill me, the rest of the Blood Demon Lords will sense it. Then, when they join forces to come and deal with you, you will be doomed!" The Blood Demon Lord shouted out his threat.

"Is that so?" Mu Chen was a little shocked, but he then smiled and said, "I shall not kill you then."

When the Blood Demon Lord heard him, he was elated. However, before he could break even smile, Mu Chen's cold voice resounded throughout the space, "I shall seal you up instead! I have no problem with that."

Buzz! Buzz!

The minute Mu Chen said this, a vast crystal light burst out from the pagoda and gathered together on the Blood Demon Lord's body. As the crystal light shone on the Blood Demon Lord, he realized that the power in his body was weakening at an amazing rate. Soon, it had rendered him unable to move whatsoever.

“I will fight you till my last breath!” The Blood Demon Lord shouted out in fear as he tried to activate his strength to blow himself up.

“Seal!” Mu Chen shouted coldly, not giving him the opportunity to blow himself up.

The crystal light shrunk aggressively and the Blood Demon Lord screamed. His body shrunk speedily, and in a short while, he turned into a red photosphere and hung in the air.

As Mu Chen waved his hand, the red photosphere landed in it. Crystal runes circled on the surface of the red photosphere, and within it, the ferocious face of the Blood Demon Lord peered out at him menacingly.

Mu Chen looked at his ferocious face and smiled. “You have lost.”

The Great Ruler

Chapter 1382: A Request

The crystal pagoda hung quietly above the large city-state with a halo circling above it. The halo exuded a mysterious power. Both the indigenous people and the top powers in the sky from the Fiend Blood Tribe fixed their gazes on the crystal pagoda. They knew that their destiny depended on the one who made it out alive. The one who came out would be the winner.

There was dead silence in the entire area, and there was tension all over. No one dared to open his mouth to say a word.

The higher echelons, who were standing outside the main hall, broke out into a cold sweat. After a long while, they quivered and looked at the queen, who was beside them, and asked softly, “Your Majesty, do you think that the deity will win?”

They had pinned all their hopes on the deity. If he was defeated, there would be bloodshed in the city, and many people would be killed. Even the higher echelons might be killed by the Blood Demon Lord as well.

The elegant queen fixed her gaze on the crystal pagoda. She looked more calm than the rest. She said softly, “Did we not prepare ourselves for the worst to happen? Is there anything worse than carrying on living like beasts?”

When the higher echelons heard what she had said, they nodded in agreement. Instead of living in such a demeaning manner, they might as well be killed. At the least they could still have some dignity.

Buzz!

As they were talking, the crystal pagoda that had been hanging in the air for some time suddenly shook, and everyone in the area stared hard at it. The queen bit her lips, and her hands started to tremble. She was feeling apprehensive. Although they had prepared themselves for the worst, at least they could see a glimpse of hope.

Swoosh!

As the people looked on anxiously, a streamer darted out from the crystal pagoda. It lingered in the sky and turned into a slender figure.

“It is the deity!” When the indigenous people of the city-state saw the figure that had appeared, they shouted out in joy. Many of them were so happy that they started to burst out into tears. Some of them even knelt down and bowed frantically at the figure.

Mu Chen looked at the indigenous people seething with excitement and smiled. He lifted up his hand, and a red photosphere appeared. Inside the photosphere was the face of the ferocious Blood Demon Lord. With this, everyone could tell who had emerged as the winner.

“The deity... has won!” The higher echelons looked at the scene that was before them and were in a daze. They then sat on the floor and stared blankly at the photosphere. No one had expected the Blood Demon Lord, who was almost like a Demonic God to them, to be defeated this day!

The queen, who was standing in front of the higher echelons, looked at Mu Chen in amazement. Tears started to gather in her eyes, and they flowed down on her fair cheeks. She had waited for this day for so long! She had worked so hard just to see this day!

Although she had done all that she could to help this world that was almost on the brink of destruction obtain this haven, she knew that this was only temporary. Their haven could turn into hell any time the Fiend Blood Tribe decided to put an end to it.

She had been living in fear almost every day and every night. However, she could not show her fear to the people, as she knew that she was their pillar. The moment that she fell apart, this haven would collapse as well.

However, this day, the Blood Demon Lord that had appeared invincible to her had been defeated. She suddenly felt that she no longer needed to hang on, and she showed her weaker side, allowing her tears to flow. She finally found hope in a world that was filled with despair.

The indigenous people of the city-state were filled with joy. Conversely, the top powers from the Fiend Blood Tribe were frightened out of their wits. They had never expected their Blood Demon Lord to be defeated.

“Let’s run for our lives. We must tell the other Blood Demon Lords about this!” They looked at one another, and in the next instant, they shot out at the same time and fled in desperation. They wanted to run away from this terrifying youth.

There was suddenly chaos in the sky. All the top powers from the Fiend Blood Tribe suddenly behaved like homeless curs, running around wildly.

Mu Chen looked coldly at the top powers from the Fiend Blood Tribe who were trying to escape. He moved his body and shot up into the sky. The huge Immortal Golden Body appeared behind him, and purple golden light rose up and turned into several large Violet Spears. They then shot out all over the area.

Swoosh! Swoosh!

The large Violet Spears rained down from the heavens like a storm. Every spear that shot out pierced through one Blood Shadow, and the whole area was filled with heart-rending cries. The top powers from the Fiend Blood Tribe fell down from the sky one after another like birds with broken wings...

After a few minutes, the whole area quieted down. Mu Chen had totally wiped out all the top powers from the Fiend Blood Tribe.

Mu Chen had found out from the queen earlier that there were a few Blood Demon Lords in the Fiend Blood Tribe who possessed strength that was near to Heavenly Sovereign-level. If Mu Chen were to take them on one at a time, he had absolute confidence in defeating them. However, once they started to join forces, Mu Chen would not have much of an advantage over them. Thus, he did not want the news to leak out to the rest of the Blood Demon Lords. He had to wipe them out.

The indigenous people of the city swallowed hard, and when they saw that the top powers from the Fiend Blood Tribe had been killed, they looked at Mu Chen with great respect.

Mu Chen waved his sleeve in the sky, and the crystal pagoda turned into a streamer and shot back into his eyes. He then put away the photosphere that had the Blood Demon Lord trapped in it and turned to move toward the main hall.

When Mu Chen landed in the main hall, all of the higher echelons went down on their knees to bow to him, showing great respect for him. Even the queen kneeled down and bowed respectfully to Mu Chen. She said in a clear voice, "Bai Susu shows respect to the deity."

When Mu Chen saw it, he simply smiled and said, "I am not a deity." Having said that, he looked at the advisors who had gathered together and saw that they were trembling in fear. They had managed to get the Grand Advisor out of the stone pillar, and he was standing beside them. All of them looked at Mu Chen with great fear.

Bai Susu noticed Mu Chen looking at them, and she looked coldly at the advisors and said, "Kill these people lest they become an eyesore to the deity."

Swoosh!

The moment she said this, several figures around her dashed out toward the advisors. After a fierce fight, the advisors died on the spot, and even the Grand Advisor, who had been seriously injured by Mu Chen, had no more strength to run away. He was beaten up badly by a group of indigenous people and died a terrible death.

From the look of it, the indigenous people hated the advisors to the core.

When Mu Chen saw it, he was shocked. He glanced at Bai Susu, and he was taken aback by her decisiveness. With a smile, he asked, "Are you doing this to prove your allegiance to me?"

What Bai Susu had done showed that she had decided to make a clean break with the Fiend Blood Tribe.

A smile that was rarely seen appeared on Bai Susu's face, and as she looked at Mu Chen, she said softly, "I trusted you from the beginning."

Mu Chen smiled and said, "I have come to your world with a purpose. Now, I need to have all the information about the Fiend Blood Tribe."

"Deity, please follow me. I will tell you all that I know about them," Bai Susu said respectfully. She then stood up and led the way, signaling to the rest of the echelons not to follow them.

Mu Chen was fine with it, and he caught up with her. They went past a corridor and came to an inner hall.

“Deity, please take a seat.” After leading Mu Chen to a seat, Bai Susu served him tea, and she behaved respectfully and humbly toward him.

Mu Chen did not stand on ceremony with her. He took the cup and said, “Can you tell me about the Fiend Blood Tribe now?”

Bai Susu stood before Mu Chen, and she looked so submissive that she no longer exuded the authority of a queen. She bit her lips and asked softly, “Deity, can I make a request?”

“Request?” Mu Chen raised his brows.

Bai Susu gritted her teeth and asked, “Can a deity teach us how to defend against the Fiend Blood Tribe?”

The power that Mu Chen had displayed was mighty and was a level beyond their reach. However, if they could learn some skills from Mu Chen, it would help them greatly in enhancing their strength. In that case, they would not be so helpless and desperate when they came across the Fiend Blood Tribe again.

Mu Chen was stunned, and he waved his hand. He took a sip from the cup and said, “You are unable to possess the same power that I have.”

He was as powerful as the spiritual energy he had cultivated. This power was unique to the Great Thousand World, and it was impossible for the people from the Lower Planes to cultivate it.

When Bai Susu heard it, she thought that Mu Chen was unwilling to teach them. Her face became pale, and she kneeled down, begging him, saying, “Deity, please save us!”

Having said that, she gritted her teeth and removed her crown. She held the girdle around her waist and pulled it gently. Her beautiful robe fell down from her body, revealing her fair skin. She shivered and looked like a lamb that had been sheared.

She knelt down before Mu Chen with her long hair flowing. The smooth complexion on her back and her behind made her look voluptuous. “Lord, if you will teach us how to be more powerful, I am willing to be your slave. Please help us!”

The girl, who was before Mu Chen, was trembling, and her voice sounded so pitiful that it was heartbreaking.

Poof!

Mu Chen, who was sitting on the chair, was taken by surprise by what the queen had done. In the next instant, he spurted out the tea that was in his mouth.

Chapter 1383: Mount Blood Demon

The mist that was formed by the tea that Mu Chen had just spurted out landed coldly on Bai Susu’s fair skin, causing her to shiver. She felt ashamed of herself, but she grit her teeth and swallowed her pride.

She knew that the future of the beings in their world depended on the youth who was before her. As long as he could teach them to harness the same power, they would no longer have to live in despair.

So, she knelt down before Mu Chen with a submissive attitude. She was like a lamb that was waiting to be slaughtered. As the light shone on her lustrous skin, she looked captivating.

Mu Chen wiped away the tea from his mouth and looked away from the charming girl who was before him. He then cleared his throat and said, "Please put on your clothes."

When Bai Susu heard what Mu Chen had said, she grit her teeth and said with a trembling voice, "Please, grant me my request."

As Mu Chen waved his sleeve, the clothes that were on the floor flew up and covered Bai Susu. He then lowered his head to look at her and said, "I am unable to pass my power to you."

When Bai Susu heard that Mu Chen had rejected her flatly, she turned pale. However, she dared not infuriate him, so she simply stood up with a blank look on her face. Although she had been covered by her clothes, part of her body was still exposed, showing her voluptuous figure.

"Although I cannot pass my strength to you, you need not worry. I will wipe out the Fiend Blood Tribe before I leave this place," Mu Chen said in a serious tone as he looked at Bai Susu, who was in tears.

When Bai Susu heard his oath, she felt better. However, she continued to look at Mu Chen with a forlorn look as she asked, "Lord, do you despise me? If it were not for the sake of my people, I would rather die than degrade myself."

Mu Chen shook his head, then said with a straight face, "I do not look down on you. On the contrary, I admire you."

She was just a girl, but she was willing to sacrifice herself for the sake of her people. She had even put down her dignity and knelt down before Mu Chen. In Mu Chen's eyes, this alone was enough to win his respect.

When Bai Susu saw Mu Chen's sincere look, she was shocked. But, after a while, she felt bitter and her eyes turned red. Previously, she had to put on a false front to look strong, but at this moment, she could let down her guard and just be herself.

"Thank you," she said softly. She was grateful to Mu Chen for his understanding.

Mu Chen nodded with a smile and said, "You have to trust me. It is not that I am unwilling to pass my power to you, but I am unable to do so."

Although Bai Susu was a little disappointed, she simply nodded. She then smiled at Mu Chen and said in a teasing manner, "In that case, my Lord has missed out on a great opportunity. But, if you are still interested, I will still allow you to woo me. I have quite a lot of suitors, but you have an edge over them."

When Mu Chen heard her talking so boldly, he could not help but laugh. Is she trying to flirt with me?

"Cough. Let's get down to business." Mu Chen coughed and changed the subject, as he could not handle her flirting manner.

When Bai Susu saw that Mu Chen was embarrassed, she covered her mouth and laughed. She found Mu Chen to be very interesting. He was so powerful, yet he was able to restrain himself and not be affected by the things of the world.

Bai Susu knew that she was attractive, and she had absolute confidence in her beauty. The looks on her suitors faces had proven that she was correct in her self-appraisal.

When she offered herself to Mu Chen, he could have accepted her and made her his woman. Based on a woman's instinct, Bai Susu sensed that Mu Chen had looked at her with the desires of a man, but he did not allow himself to go through with possessing her.

Once a person's power reached a certain level, he could obtain anything that he wanted, despite what any rules may say. The fact that Mu Chen was able to restrain himself was a rare thing to find in such a person. Thus, Bai Susu found Mu Chen captivating.

"Lord, there are six Blood Demon Lords in the Fiend Blood Tribe. Since one of them has already been killed, there are now only five left," Bai Susu said softly after she had composed herself and served Mu Chen another cup of tea.

She then added, "Among these five Blood Demon Lords, three of them rule over Mount Blood Demon. The other two guard the western and northern regions."

When Mu Chen heard this, a light flashed across his eyes. If the five Blood Demon Lords were not located in the same place, this posed a good opportunity for him!

He looked at Bai Susu and said, "If I take them on one at a time, none of the Blood Demon Lords will be a match for me. However, if they join forces to take me on, the situation will be very different. So, in order to make sure that the situation is in our favor, we have to reduce the number of the Blood Demon Lords to three."

Bai Susu's face turned grim as she said, "In that case, the two Blood Demon Lords who patrol around the world will be the best targets to focus on."

She then added, "Lord, I will pass down an order to not let the news of the defeat of the Blood Demon Lord leak out. However, from what I see, we can only keep it from the other Blood Demon Lords for another half a month. By then, they will have noticed that this Blood Demon Lord has disappeared."

"Half a month..." Mu Chen murmured as he furrowed his brows. They did not even know the current whereabouts of the two Blood Demon Lords, and if Mu Chen had to seek them out, he might need more than half a month to do so.

"Lord, you can leave finding the whereabouts of the two Blood Demon Lords to me. No matter what it takes, I will definitely track them down!" Bai Susu suddenly said with a smile.

Oh? Mu Chen was shocked as he looked at Bai Susu. He had not expected them to be able to discover the whereabouts of the Blood Demon Lords.

When Bai Susu saw Mu Chen's baffled look, she smiled bitterly and said, "There are a number of our people living among the Fiend Blood Tribe. They have suffered in humiliation there, but they have been able to help us obtain some information."

Mu Chen became silent. He now understood the great price that they had to pay for obtaining such information. He was determined for their efforts to not have been in vain.

“Lord, give no more thought to it. As long as we can drive away the Fiend Blood Tribe and let our beings in this world live with dignity, we will do so without fear, even to the point of sacrificing our lives!” Bai Susu said after noticing Mu Chen’s hesitation.

Mu Chen sighed, but did not say another word. For the sake of the world, someone would have to sacrifice himself. It would be naïve to think that everything would go smoothly and according to his wishes.

“I shall leave this part to you, then. As for the Blood Demon Lords, you can leave them to me,” Mu Chen said.

Bai Susu smiled and bent down, revealing her fair skin. She smelled great as she smiled at Mu Chen and said, “Lord, you seem so powerful.”

Mu Chen shook his head as she teased him. He then said, “I need you to help me out.”

“Lord, anything! Please tell me what you need.” Bai Susu sat on the chair lazily and played with her hair.

She then smiled and said, “If you are willing, I will be yours. Whatever you want to know, I will definitely tell you.”

Mu Chen ignored her and waved his sleeve. At that moment, spiritual light flew out from his glabella and formed a Spiritual Energy Screen in front of him. Several scenes appeared on the screen.

Blood was flowing in the world that was shown on the screen, and it covered the entire area. On the peak of a mountain, several shadows shot up into the sky, where there was a space whirlpool. The shadows dashed into the space whirlpool and disappeared, as they were being pursued by streams of blood.

Mu Chen had obtained these scenes from the Sovereign White Dragon. According to what Mu Chen had heard, the shadows belonged to the Sovereign White Dragon and his company.

As Mu Chen was not familiar with the world in the Lower Planes, he hoped that Bai Susu would be able to identify the place where the Sovereign White Dragon had departed from. He believed that he would then be able to summon the thoughts that the Sovereign White Dragon had left behind in order to learn more about the great opportunity that had been mentioned to him.

“I would like to know where this place is.” Mu Chen said as he turned to look at Bai Susu, while pointing at the Spiritual Energy Screen.

However, when he turned his head around, he was shocked to see that Bai Susu, who was smiling just a moment ago, was in tears as she looked blankly at the screen.

“What happened?” Mu Chen frowned.

“Lord, where did you get these images?” Bai Susu asked through her tears.

Mu Chen shrugged and said, "I am here because an elder who is shown in the scene asked me to bring them here. Why do you ask? Do you know them?"

Bai Susu wiped away her tears and muttered, "I thought that they deserted us..."

Having said that, she lifted up her head and nodded at Mu Chen. "Lord, they are our founders. The mountain that you are pointing at was known as Mount Holy Dragon back then. Now, it is known as Mount Blood Demon. This is the headquarters of the Fiend Blood Tribe!"

[The Great Ruler](#)

Chapter 1384: The Holy Dragon Sect

"Mount Blood Demon..." Mu Chen muttered to himself. He looked elated, as he had finally found a lead. Otherwise, he would have been running around like a chicken with its head cut off. However, he was surprised to learn that the Sovereign White Dragon was the founder of Bai Susu's sect.

When Bai Susu saw Mu Chen's shocked look, she sighed. As she recalled the past, she said, "The name of our sect is the Holy Dragon Sect. It used to be the most powerful sect in this world. However, to call it powerful now seems like self-deception."

When she said this, she started to look bitter and said, "After the Fiend Blood Tribe entered our world, we realized how fragile we are. Although the elders of our sect have fought hard with the Fiend Blood Tribe, there is no way to stop them at all."

Mu Chen nodded. After all, this was the Lower Planes. In terms of their standard of living, the Extraterritorial Race was on par, or even higher than the Great Thousand World. When the Extraterritorial Race entered the Lower Planes, it was as though the tigers had barged into the world of the lambs. The power of this world was unable to contend with that of the Extraterritorial Race. After all, not everybody could possess the same ability as the Martial Ancestor... Otherwise, he would not be considered a legendary figure.

"After we were defeated, several elders decided to leave the sect. They knew that there was another world out there, and they wanted to go there to look for some top powers to save our world. They joined hands to force open a crack and left our world. Since then, the rest of us have been waiting for them to come back and save us," Bai Susu said in a low voice.

Mu Chen was silent when he heard it. If he had guessed correctly, the elders that Bai Susu had mentioned were the founders of the Demonic Dragon Palace. She was not aware that these elders whom they had pinned their hopes on had conflicts among themselves, as they held different beliefs. The Sovereign White Dragon had been chased out of the Demonic Dragon Palace, which Mu Chen had later destroyed.

However, Mu Chen did not intend to tell Bai Susu about this. It would be a great blow to her if she knew that other than the Sovereign White Dragon, the rest of the elders had forgotten about the calamity that had taken place in the Lower Planes. They had forgotten about them.

"We have been waiting for them, but there has been no news at all. When the sect was about to be destroyed, I became the sheet anchor of the sect, although I was still very young back then. All the elders used an ancient method to sacrifice their lives and left their strength behind in order to pass it on

to me.” Bai Susu smiled wryly and added, “This is the reason why I possess such great strength. However, it is pitiful that I am still no match for a Blood Demon Lord.”

“You have done a good job, having come this far,” Mu Chen said.

“Lord, have you seen the founders of our Holy Dragon Sect?” Bai Susu looked at Mu Chen in anticipation.

After hesitating for a moment, Mu Chen nodded.

Bai Susu heaved a sigh of relief and said happily, “I know they will never forsake us. They have been looking for a way to save us.”

Mu Chen smiled and spiritual light gathered on his fingertips. It turned into a shadow, revealing the image of the Sovereign White Dragon. “I am here because this elder has asked me to come.”

Bai Susu looked at the image of the Sovereign White Dragon, and emotion flashed in her eyes. She said in a low voice, “This is Founder White Dragon. He is the one who started my lineage.”

She then turned to Mu Chen and bowed down respectfully and said, “Lord, Susu thanks you on behalf of the people in this world.”

Mu Chen waved his sleeve and gently lifted Bai Susu up. He shook his head and did not claim credit for it. He said, “I am here with my own agenda. The Sovereign White Dragon has promised to give me something in return that is too attractive for me to turn down.”

Bai Susu smiled charmingly when she heard it. When she looked at Mu Chen, her eyes were dazzling.

“Now, I know that my destination is Mount Holy Dragon, which is the current Mount Blood Demon.” Mu Chen did not notice her look, but he squinted with a sharp look.

There were three Blood Demon Lords in Mount Blood Demon, and their strength was near Heavenly Sovereign-level. If he wanted to go to the mountain, he had to first kill the three Blood Demon Lords. There would definitely be a fierce fight. This time around, it would no longer be similar to the fight that Mu Chen had had with Reverend Thunder and the rest. It would be a life-and-death fight.

“We will have to kill the two Blood Demon Lords who are patrolling around the world as quickly as we can. If they get wind of this and the five of them join forces, even I will be in trouble.” Although Mu Chen could still retreat unscathed if he had to deal with the five Blood Demon Lords, this world would be exterminated if the Blood Demon Lords were enraged. He would fail in his mission as well. Thus, he had to succeed.

...

The rest of the time, Mu Chen stayed in the city-state and cultivated daily. He conditioned himself to a state whereby he could display the most powerful combat force any time he wished.

Bai Susu did not disturb him. She was either making sure that the news of his fight with the Blood Demon Lord remained a secret, or she would gather news about the two Blood Demon Lords’ whereabouts. A lot of manpower was involved, and she was kept busy dealing with it. Fortunately, she completed the tasks that she had agreed to take on.

Mu Chen suddenly opened his eyes in the cultivation room. He moved his body and was immediately out of the room. He saw Bai Susu standing outside.

"I have received some information," Bai Susu said, the moment she saw Mu Chen.

Mu Chen heaved a sigh of relief. He had been waiting anxiously, as time was not on their side. However, he did not rush Bai Susu, as he did not want the people to get anxious over it.

"A Blood Demon Lord is now in the western region of Tianyuan City. He will be there for half a day," Bai Susu said with a smile.

Mu Chen looked at her smiling face and hesitated before asking, "Have you suffered a great loss?"

Bai Susu was shocked. She then bit her lips and said with a smile, "Some of them were discovered, and they lost their lives."

Mu Chen became silent. Although Bai Susu had made it sound as though it was nothing, he knew that a high price had been paid for this simple piece of information.

"I will make a move now."

"Lord, can you bring me along?" Bai Susu looked at Mu Chen and begged him, saying, "If we succeed, I may be able to get news of the location of the other Blood Demon Lord."

"If we fail..." Bai Susu smiled and continued, "at most we will lose our lives, correct?"

Mu Chen thought for a while and then nodded. Every minute was precious to him. If Bai Susu went with him, he would not have to make a trip back again to obtain the next piece of information.

Seeing that Mu Chen had agreed, Bai Susu gave a lovely smile. She then took a step toward Mu Chen, showing her voluptuous figure more prominently.

"I will have to trouble Lord to give me a lift, then!"

When Mu Chen saw her action, he hesitated for a moment. He then stretched out his arm and wrapped it around Bai Susu's slender waist. Spiritual light surged around them and engulfed them. They then turned into a streamer and shot up into the sky.

...

On a mountain outside Tianyuan City.

A streamer appeared, and Mu Chen stepped forth. He then let go of Bai Susu, who moved back with a blush on her face.

Mu Chen stared at the city in the distance and said, "There is a strong fluctuation in the city. It should be the Blood Demon Lord."

Bai Susu fixed her gaze on the city and clenched her fists. Many people had died in the city, and it was filled with the smell of blood.

"Stay here while I lure the Blood Demon Lord into the mountain. You shall wait here for me," Mu Chen instructed Bai Susu.

Bai Susu nodded obediently. She was not a naïve woman. She knew that she must not be a hindrance to Mu Chen at this moment.

When Mu Chen saw her response, he immediately moved his body and appeared in the sky in the distance. The spiritual energy in his body churned, and suddenly, a powerful spiritual energy fluctuation shot up into the sky.

In the city's main hall, a middle-aged man in a red robe was hugging two petite figures who were shivering with fear. Just as his long teeth were extending out of his mouth, he suddenly squinted when the spiritual energy fluctuation appeared. He waved his sleeve and let go of the two petite figures. After moving his body, he appeared in the sky above the city.

When he looked out, he indistinctly saw a streamer darting toward the mountain. "How dare these people peep at me!" The middle-aged man gave a petrifying smile. Bloody rays appeared under his feet, and he shot across the horizon toward the direction of the streamer.

The two streamers darted into the mountain, with one at the front and the other one following behind.

When Bai Susu saw the scene from a mountain in the distance, she lifted up her chest and took a deep breath. She then sat down cross-legged on the mountain peak. She had no intention to tag along to have a look. Although she was anxious and dying to know the outcome, she knew there was nothing she could do to influence it. In this case, it was not necessary to know the outcome beforehand.

If Mu Chen was defeated, all their hope would be gone. When that happened, she would blow herself up in case she fell into the Fiend Blood Tribe's hands. Dying would be better than the living hell she would endure otherwise.

When Bai Susu thought of it, she heaved a sigh of relief. She then smiled and stretched out her hands lazily, showing her curves. She laid on the ground and looked up at the sky with her big, bright eyes. The sky was still clear as it had been before. This area used to be free from the disgusting smell of blood... How she missed those days.

She smiled and shut her eyes. After a short while, she suddenly opened her eyes. She saw a slender youth standing before her with a smile. He was holding a red photosphere in his hand with blood streaming within it.

When she saw Mu Chen, she gave a charming smile. Her eyes turned soft as she felt her heart melting. "Lord, if you continue to be so cool, I may just fall for you."

Chapter 1385: Wipe Out

The silver linings on the lake glimmered as though whitebaits were dancing within it. Mu Chen and Bai Susu stood on the water, enveloped by spiritual light.

Bai Susu looked in the south-west direction and spoke softly, "According to the latest information that I have received, the Blood Demon Lord Inspector will definitely pass through this area. He is heading to Mount Blood Demon now, so we need to intercept him and kill him here."

Mu Chen narrowed his eyes slightly. "Have they discovered us?"

Bai Susu pondered this, then said with a serious look, "This inspector roams around, so perhaps he knows something, but wants to confirm it, which is why he is heading to Mount Blood Demon to discuss it with the remaining three Blood Demon Lords..."

"Then, we cannot let him get there." Mu Chen nodded. If this Blood Demon Lord reached Mount Blood Demon, they would be more prepared.

Bai Susu nodded her head, then both of them kept silent. After an hour, Mu Chen suddenly opened his eyes and looked towards the south-west direction with a nonchalant expression. "He's here."

Just as Mu Chen finished speaking, rumbling and bloody clouds swept out from the south-west direction. Myriad beasts galloped on the bloody clouds. They all had chains on their bodies and were pulling a massive palace behind them.

Numerous guards from the Fiend Blood Tribe surrounded the palace, which made quite a majestic scene. The bloody clouds dashed towards Mu Chen's and Bai Susu's direction. Apparently, they did not discover them though, as they did not slow down at all.

When the large-scale palace passed over Mu Chen's and Bai Susu's heads, an icy radiance surfaced in Mu Chen's pitch-black eyes. A vast and violent spiritual energy light beam darted out to the sky, as if it was a sky-supporting pillar. The light beam blasted the palace directly!

Boom!

The massive palace almost exploded at once. The spiritual energy was wreaking havoc, finishing off some of the powerhouses of the Fiend Blood Tribe instantly. All of them were thrown off of their feet and the sky was chaotic.

"Who dares to create trouble here?" While the Fiend Blood Tribe was in a mess, a bellow echoed throughout the sky. The voice had a magical power that could calm those panic tribe members down instantly.

"She's a girl?" Mu Chen slightly squinted his eyes when he heard the bellow, as he realized that this Blood Demon Lord was a girl!

A slender and seductive lady in a chiffon dress slowly emerged from the recently exploded palace in the sky. The material on her dress was so thin that it was almost transparent. Occasionally, her visible secret areas drew many admiring looks.

However, the surrounding powerhouses of the Fiend Blood Tribe quickly lowered their heads when she showed up. Their eyes were full of respect and fear.

The seductive Blood Demon Lady Lord had a killing desire in her eyes. She swept her bloody gaze around, then finally focused it at the lake below her.

"I'll take care of the Blood Demon Lord. You take care the rest. Don't let anyone escape." Mu Chen knew that the Blood Demon Lord had sensed their presence when he noticed her gaze. Hence, he immediately dispersed the spiritual light and gave instructions to Bai Susu.

Bai Susu nodded her head. Given her strength, she was much stronger than those Blood Demon Generals. Besides, Mu Chen helped to eliminate some of the most tricky ones. Hence, her task was not that difficult.

Mu Chen did not speak further, but rose in the air slowly in front of the Blood Demon Lady Lord, while all of the powerhouses of the Fiend Blood Tribe stared at him as if they were ready to pounce at him.

The Blood Demon Lady Lord narrowed her eyes at Mu Chen, but a bewitching smile surfaced on her pretty face. "What a handsome young lad. Are you thinking of spending a night with me since you are standing in my way now?"

Her chiffon dress slightly swayed, revealing her fair skin. It was extremely alluring.

Mu Chen put on a smile in the face of her lustful seduction. But, his eyes were as still as a calm lake, as if he were an old monk.

Seeing this, the Blood Demon Lady Lord narrowed her eyes even further. The seductive smile slowly disappeared from her face and was replaced by a fierce and harsh look.

She stared at Mu Chen, then asked, "You had something to do with the missing Blood Palm Lord and Blood Nether Lord, didn't you?"

Mu Chen threw her a surprised look as he said, "Looks like you have discovered it to be true."

"I have been keeping in contact with them, but they suddenly disappeared. So, I knew that there must be more to all of this than meets the eye. But, I never thought that the people from the Great Thousand World would interfere in our business," she said coldly. Apparently, she had guessed Mu Chen's background from his intense and vast spiritual energy.

"Women are indeed hard to deceive." Mu Chen smiled.

As the Blood Demon Lady Lord stared coldly at Mu Chen, the surrounding blood aura surged, emanating a daunting mightiness across the land. However, just when everyone thought that a great war was going to erupt, the Blood Demon Lady Lord suddenly beamed into a bloody ray and charged towards somewhere far away at lightning speed.

This sudden change of events not only befuddled the powerhouses of the Fiend Blood Tribe, but Mu Chen was also stunned for a moment. Then, he laughed and said, "Women are indeed experts in deception."

Apparently, the Blood Demon Lady Lord was feeling uneasy. After all, if Mu Chen could finish the other two Blood Demon Lords off, she knew that he must have powerful means. Hence, she knew that she would not have many chances in defeating him in a solo battle.

So, after learning that Mu Chen was the culprit behind all these things, she did not have the intention to fight him at all. She was simply trying to distract him until she could find a chance to flee. Now, the safest thing for her was to try to make it back to Mount Blood Demon to join forces with the remaining three Blood Demon Lords.

"I've been camping here for so long. How can I let you run away?" Obviously, Mu Chen would not allow this to happen, especially after spending his time camping here.

So, he smiled while flitting into a streamer. He then pierced through the air, chasing behind her at a high speed.

As two beams of streamers flit across the sky, space continued to distort itself. In a flash, they had flown thousands of miles away from their original location.

However, no matter how hard the Blood Demon Lady Lord tried to escape, she could not shake Mu Chen. To make things worse for her, the distance between the two of them was closing up fast.

“Dam*, this fellow is sticky!” she muttered.

The Blood Demon Lady Lord looked paled as she grit her teeth. She never thought that a god-like man would show up in the world that they ruled as the kings.

Boom!

While she was lamenting her predicament, the space on top of her suddenly rumbled. As she looked up in horror, a gigantic Crystal Pagoda dropped from the sky and loomed over her.

The Crystal Pagoda was coming at her so fast, before she could even react to it, it had shrouded her within it. Mu Chen, who was still chasing behind her, smiled faintly and beamed into the Crystal Pagoda.

The pagoda stood quietly in the land. After approximately a half an hour, the space fluctuated as a streamer darted out to Mu Chen.

As Mu Chen held a ball of bloody light. Within the ball of light, there was no bewitching look on the face of the Blood Demon Lady Lord, only fear.

“Dear Lord, if you can spare my life, I’ll be your slave!” The Blood Demon Lady Lord pleaded with a seductive tone to the skies.

Mu Chen smiled, then threw the ball and suppressed it under the pagoda. When he had the chance, he would exterminate them completely.

After getting rid of the Blood Demon Lady Lord, Mu Chen’s tense body started to relax. His plan was dangerous, but it had gone well.

Only three Blood Demon Lords remained in this land. If he could wipe them out, his mission would be complete. Till then, he could obtain the great opportunity that Sovereign White Dragon was talking about.

But, to seal off these three Blood Demon Lords, I already paid close to 300 million in Sovereign Spiritual Liquid...

When he thought of this expense, Mu Chen could not help but feel a little heartache over it. This time, his trip had almost stripped the Mu Estate’s resources completely.

Even though Mandela could understand why he had needed to use them, she was still expressing her unhappiness on her face. After all, the expenses of the Mu Estate were rather high already, and now, everyone had to tighten up their purse strings after Mu Chen’s actions.

Let's hope that the great opportunity can really help me hit the Heavenly Sovereign level. Otherwise, I will lose out on this investment....

Mu Chen shook his head, while smiling bitterly. He then turned around and flit away. A few minutes later, he was back in the air above that same large lake. At this point, the water in the lake had turned into a pool of blood and corpses were floating in it.

Bai Susu stood on the water, exuding a cold killing aura. When her cold and beautiful eyes met with Mu Chen's, they became gentle at once. She then smiled and said, "Congratulations to you for succeeding again!"

Mu Chen smiled as he landed beside Bai Susu and placed his palm on her shoulder. As he did so, spiritual energy surged into her body.

All of a sudden, little red dots surfaced on her white skin, but eventually evaporated. At the same time, the cold killing aura around her dissipated.

"Blood Poison..." she gasped. Seeing those little red spots, Bai Susu had a slight change in her expression. She was unaware that she had been poisoned by the Blood Poison previously.

"Your strength is not weak, but it is rather unstable. You need to cultivate more. Otherwise, you will not make any progress." Mu Chen drew back his palm and reminded her.

"Yes!" Bai Susu answered obediently.

Mu Chen nodded his head and spoke no further. He looked towards the east and grew silent.

After a while, he said, "I'm afraid that the three Blood Demon Lords on Mount Blood Demon have found out about this. I'm guessing that it will be a tough battle."

This time, he was going to have to face three formidable opponents, each of whom were almost at the Heavenly Sovereign level.

The Great Ruler

Chapter 1386: Before the Grand Battle

A majestic mountain stood tall between the heavens and the earth. It looked so grand as the summit was above the clouds. If you looked down from the summit, you would feel like you were on the top of the world.

This was Saint Mountain, but now the mountain was covered in blood. An intense, pungent, bloody smell lingered in the air, and the sky was painted in maroon.

Within the vast mountain, a stream flowed red as if the water were fresh blood. It looked like a place for Blood Demons to cultivate themselves. Countless bloody rays could sometimes be seen floating around in the mountain.

At this time, a thick and viscous blood aura lingered in the deepest area within the mountain. Three figures stood before a gorge with their hands behind their backs. The surrounding bloody aura surged and rippled, shaking the space continuously.

The three of them wore red robes. The one who was standing at the forefront had a pale face with a vertical blood slit that ran between his eyebrows. It exuded a faint but daunting killing aura.

He turned to the other two and said indifferently, "We have primarily confirmed that someone is attacking the Fiend Blood Tribe. Blood Nether Lord and the other two have been apprehended."

The other two fierce-looking Blood Demon Lords could not help but change their expressions. Although they somehow had an idea before they had come here, they were still shocked when their speculations were confirmed.

After all, they had ruled this place without any hindrance for so long. All the powerhouses in this land were not worth mentioning to them, so why had such a formidable opponent suddenly sprouted up?

"He should be from the Great Thousand World," said the fair-skinned Blood Demon Lord.

"D*mn!" The other two Blood Demon Lords twitched their facial muscles and cursed. If it were really a powerhouse from the Great Thousand World, it would be a little tricky. They knew very well that the powerhouses from the Great Thousand World were incomparable with those from the Lower Planes. Their strength could not be belittled.

"But according to my estimation, that person is not a Heavenly Sovereign. He is at most at the same level as we are." The fair-skinned Blood Demon Lord squinted. "Given my speculation, Blood Nether Lord and the other two were taken down separately. If this person were a Heavenly Sovereign, there would be no need for this trouble."

The other two relaxed slightly when they heard this. So long as it was not a Heavenly Sovereign from the Great Thousand World, they could probably still scare off the mystery powerhouse from the Great Thousand World if the three of them joined hands.

"What should we do now?" asked the other two.

The vertical slit between the Blood Demon Lord's eyebrows wriggled slightly. After a while, he slowly said, "Send my orders out. Get all the powerhouses of the Fiend Blood Tribe back to Mount Blood Demon."

The other two Blood Demon Lords were shocked. "Brother, what about those cities we occupied?"

The leader of the Blood Demon Lord said emotionlessly, "Looks like both of you have not got your priorities right. If we are defeated, what is the use of keeping those cities?"

"Is that fellow so formidable?" asked the two of them doubtfully.

"Regardless how formidable this guy might be, we need to prepare for the worst. You must remember what our final objective is..." The Blood Demon Lord leader looked down and gazed at the gorge in front of them. There was a sea of blood in the gorge. The pungent smell of the blood was almost piercing through their noses.

An enormous egg covered in blood was floating in the sea of blood. Hideous runes were engraved on the blood egg. An indescribable ferocious aura exuded from it as if it were nurturing something. The three Blood Demon Lords looked at the bloody egg with blazing hot fires burning within their eyes.

“It was not easy for us to take over this place without letting other clans know about this. With the help of the blood from the spiritual beings in this world, a true king can be nurtured. Once he is born, the Fiend Blood Tribe will have our own Demon Emperor! At that time, the Blood Fiend Tribe will enjoy some status in the Extraterritorial Races. They will not treat us like dirt as before! Our plan has reached the most crucial stage, and no mistakes must be made!”

An ultimate coldness surged within the leader’s eyes. He then turned to the other two Blood Demon Lords and said, “Don’t be too worried about it. I’m only preparing for the worst. If this fellow only dares to sneak behind Blood Nether Lord and the other two, that goes to show that his strength is stronger than theirs by a level. Hence, I doubt he dares to barge into Mount Blood Demon.”

The other two Blood Demon Lords nodded in agreement. Since the three of them would never divide themselves while guarding Mount Blood Demon, the powerhouse of the Great Thousand World would be courting his own death if he was not a Heavenly Sovereign. Hence, they decided to keep this arrogant fellow alive for the time being. They would make him pay a thousand fold once their king was born.

...

Mu Chen and Bai Susu stood on the summit of a mountain in a barren land. Bai Susu looked at a city in the distance while Mu Chen squinted and said, “These powerhouses of the Fiend Blood Tribe are continuously abandoning the cities.”

“They are gathering up at Mount Blood Demon,” Bai Susu said with a stern face. “Looks like the three Blood Demon Lords sensed something amiss.”

Mu Chen nodded slightly. He was not surprised at all. After all, three Blood Demon Lords had fallen out of contact at the same time. This was not a small matter. The other three Blood Demon Lords would be on their guard regardless of how stupid they were.

“They sensed danger, so they are calling back all the powerhouses to secure Mount Blood Demon.” Bai Susu knit her willow-shaped eyebrow slightly and looked at Mu Chen. “What shall we do, Lord?”

Mount Blood Demon was heavily guarded, and the three Blood Demon Lords must be waiting for Mu Chen’s arrival. If they barged into it, it might be a battle that would shake the earth.

Mu Chen laughed when he heard this. “What else? Let’s fight our way through.”

His tonality was light-hearted, as though he were talking about some sightseeing location and not a fearsome battlefield. Even though Bai Susu was a girl, she could not help but feel her blood accelerate when she heard his neutral tonality. Immediately, she pursed her lips into a smile. “Since you’re so confident, we will definitely put our lives at stake.”

Mu Chen smiled. Just as he was about to speak, his expression suddenly froze. He was slightly shocked while looking at the land behind him. Suddenly, many presences were sweeping in like swift, rumbling currents.

Mu Chen looked at that human current in shock. He realized that the current was not made up of the members of the Fiend Blood Tribe, but of the indigenous people from this world. Judging from the scale of it, almost all the indigenous people from this world were rushing toward them.

He turned and looked at Bai Susu.

Looking into his eyes, Bai Susu pursed her lips and smiled. "Lord, this battle concerns our survival. Your goal is the three Blood Demon Lords. The rest do not require you to waste your effort. We will not allow anyone to disturb you."

Mu Chen knit his eyebrow when he heard that. "All of you are fooling around."

The powerhouses of the Fiend Blood Tribe were all grouped together. The indigenous people had quite a number, too, but they might lose their lives in real combat.

Bai Susu smiled. Her voice was soft but determined. "Lord, our hatred for the Fiend Blood Tribe is beyond your imagination. Hence, we have no regrets, even if our people are completely annihilated. So, let us come along with you." Bai Susu bowed to Mu Chen respectfully.

At the same time, the vast and mighty current gathered under the solitary mountain. The countless indigenous people kneeled on one knee. A thunderous voice echoed in the land, "We seek your permission!"

Mu Chen was silent for a while as he looked at this scene. He could see the hatred in the eyes of these people. Apparently, most of them were ready to sacrifice themselves. Even if he wanted to stop them at this time, the people might still just follow behind him.

As such, he sighed softly and said, "If the other party does not make any move, all of you must stay put, too. As long as I kill the three Blood Demon Lords, the Fiend Blood Tribe will collapse."

He was afraid that when he summoned the thought of Sovereign White Dragon, the latter might not fulfill his promise if he was too upset about the death of his tribemates. Hence, he had better try to keep some of the people alive.

"Your order is our command!" Countless voices resounded respectfully between the heavens and the earth. They looked at Mu Chen with genuine respect.

Mu Chen stopped commenting. He nodded slightly to Bai Susu and beamed into a streamer charging somewhere far away. Behind him, the vast and mighty current followed closely while shaking the earth. The current swept across the land. A few days later, their speed gradually slowed down.

A streamer appeared in the sky, and Mu Chen stood with his hands behind his back. His calm eyes looked at the majestic mountain that seemed to be far away. The enormous mountain was poking through the clouds, looking down at the land.

Bai Susu stood at the side and stared at Saint Mountain, which had become bloody and filthy. Her eyes could not help but get red. Thin veins started appearing on her jade-like hands.

Mu Chen looked at the gigantic mountain that was exuding an overwhelming, pungent, bloody odor. Countless figures waited solemnly at the mountain with blood aura lingering in the air.

Mu Chen gazed at the enormous bloody mountain. Suddenly, three bloody rays darted out from Mount Blood Demon. They were suspended in the air and transformed into three bloody figures. Brutal blood aura soared into the sky.

At the same time, a cold voice echoed between the heavens and earth. The killing intent was as solid as if it had materialized. "Ignorant scoundrel. I wanted to let you live longer, yet you barged into my territory. You're cutting your own throat! Since you wish to court your own death, I'll grant your wish today!"

Chapter 1387: One Versus Three Bloody Demons

A bloody aura loomed over the land in front of Mount Blood Demon. As the three bloody figures stood in the sky, three streams of ferocious auras exuded from their bodies. From afar, they looked like three statues of Demonic Gods.

Numerous native powerhouses looked at the three bloody figures and shuddered uncontrollably. The fear in their eyes was evident, as they knew that the three bloody figures before them were the most formidable Blood Demon Lords in the entire Fiend Blood Tribe! Countless top-notch native powerhouses had died at their hands throughout the years.

However, Mu Chen just remained calm and shook his robe lightly. At that moment, a spiritual light surged like a tide, spreading through the other half of the sky. The spiritual light hampered the ferocious aura that was coming from the three Blood Demon Lords.

Bai Susu and the rest felt relieved upon seeing Mu Chen make his move. Their tense bodies slowly relaxed, and they cast admiring gazes towards him.

The leader of the Blood Demon Lord glared at Mu Chen from the top of Mount Blood Demon. He then asked, "You're just a mere Complete Earthly Sovereign, yet you dare to act so tough in front of me? You're too arrogant!"

The leader of the Blood Demon Lord could tell Mu Chen's strength by his Spiritual Energy Fluctuation. Hence, he was quite baffled about it.

Generally, Complete Earthly Sovereigns were almost like their Blood Demon Generals in the clan. So, he had to wonder... How did that three Blood Demon Lords lose to Mu Chen?

Upon hearing his mocking words, Mu Chen smiled and said, "A Complete Earthly Sovereign is good enough for you guys."

"You sure know how to brag!" the other two Blood Demon Lords at the side chided in unison. Their eyes were as sharp as knives as they glared at Mu Chen with hideous looks on their faces.

"Brother, why are you talking so much to a person who is going to die? Let's deal with him together. Kill him first, then throw all of his flesh and blood into the bloody gorge!" one of them said, while the pair's ferocious gazes swept across those native powerhouses behind Mu Chen.

"Fine, let's settle this person together." The leader of the Blood Demon Lords nodded indifferently.

Although he mocked Mu Chen, he remained vigilant. He did not intend to give Mu Chen any chance of attacking him.

Boom!

Three enormous bloody rays soared into the sky from the bodies of the Blood Demon Lords. The mightiness of this shook the earth and the bloody and violent wind howled, bringing a pungent smell along with it.

The three Blood Demon Lords launched an attack altogether, the impact of which was rather earth-shaking. It even shocked Bai Susu, who clenched her fists tightly.

Throughout the last couple of days, she had seen that Mu Chen was indeed formidable. But, it had always been a one-on-one match. Now, he had to fight with the three most formidable Blood Demon Lords!

Shoo!

As the three Blood Demon Lords struck together, the three streams of bloody current pierced through the air like a filthy blood river, sweeping towards Mu Chen. Upon seeing it, Mu Chen swung his robe. A spiritual energy light shield appeared, which protected him.

Boom!

The bloody river bashed the spiritual energy light shield, and as the blood splashed about, the daunting energy seemed to be tearing the sky apart. Hideous smiles surfaced on the three Blood Demon Lords' faces.

The demonic blood river was extremely filthy. Once the spiritual energy contacted it, it would erode the spiritual energy instantly.

However, just as the smiles surfaced on their faces, they were quickly frozen. It was at this moment that a sudden crystal radiance glowed. As the radiance spread out, the bloody river lost its vibrancy in color and eventually dissipated.

The three Blood Demon Lords narrowed their pupils slightly at this time. The crystal radiance then formed into a light coating, shielding the area where Mu Chen was standing.

At the same time, the space twisted beside him. Then, two figures, one dressed in black and the other dressed in white, suddenly appeared beside Mu Chen.

The two figures looked exactly the same as Mu Chen. What most shocking to the three Blood Demon Lords was they had the same tyrannical spiritual energy fluctuation as Mu Chen, too!

"Is this cloning of the spiritual energy? How could both of them have the same mighty strength as the main body?" one of the Blood Demon Lords exclaimed in shock. He seemed to understand a little bit about the means available in the Great Thousand World.

The leader of the Blood Demon Lords said with a cold voice, "Lad, it's no wonder you dared to force your way to Mount Blood Demon. You do have some impressive capabilities."

"Brother, what should we do now?" asked the other Blood Demon Lord calmly. They had now lost their advantage in numbers.

The leader of the Blood Demon Lords darkened his expression. After a while, he let out a burst of unpleasant laughter and said, "I don't believe that his clones share the same combat power with the

main body. Let me handle the main body, while you guys get rid of his clones. Then, we will attack him together!”

The other two Blood Demon Lords nodded unison, indicating that they shared the same thinking. After all, the skill of transforming from one into three without compromising the combat power was scarcely seen in the Extraterritorial Race. So, they highly doubted that a mere Complete Earthly Sovereign could do such a thing!

The two of them then turned into blood rays and charged out. Mu Chen saw them, but remained calm. Then, he threw a nod to the black and white Mu Chens, who both laughed and soared into the sky. They took two different directions, while allowing the two Blood Demon Lords to chase after them.

After a while, the black-robed Mu Chen struck first. A ring on his finger was blinking with lights. The next moment, many figures suddenly dashed out and stood behind him.

Boom!

A vast and mighty fighting spirit rose to the sky and shook the earth. As thousands of troops stood behind the black-robed Mu Chen, their thunderous roars echoed through the land and their powerful fighting spirit transformed into an ocean that floated in the air. The ocean displayed a daunting might as it expanded itself.

This was the Mystery Dragon Army!

The black-robed Mu Chen sat cross-legged in the fighting spirit ocean. He smiled at the Blood Demon Lord, who was looking shocked. He then swung his robe, causing the fighting spirit to sweep towards that Blood Demon Lord with daunting strength.

On the other side, countless Spiritual Seals flew out like shooting stars from the sleeves of the white-robed Mu Chen. These Spiritual Seals merged in the air, and as the countless spiritual energy light rays darted out, an enormous array was condensed and formed. The other Blood Demon Lord, who was following closely behind, was caught in the array.

Bai Susu and the rest of the native powerhouses watched from afar, overwhelmed by what they were seeing. Apparently, they had not expected that Mu Chen would have such formidable means to be able to trap the two Blood Demon Lords with only two clones!

While they were all feeling shocked, the leader of the Blood Demon Lords darkened his expression. He now had to believe that these clones actually possessed an equivalent combat power as Mu Chen’s main body.

“All of you have committed evils in this land. Now, it’s payback time,” said Mu Chen as he looked calmly at the leader of the Blood Demon Lords.

“You are such a bragger. Wait till I destroy your main body! Then, your clones will break down naturally.” The leader of the Blood Demon Lords laughed hideously, while blood rays surged within his eyes.

He immediately opened his mouth and spurted out an endless stream of blood. In the blink of an eye, the blood transformed into a vast, bloody ocean that was suspended in the air.

Roar!

As the bloody ocean swished and swooshed, a ferocious roar came from within it. The next moment, a huge beast crawled out of it!

The body of the gigantic beast was a bloody red, and its killing aura raged into the sky. It looked like a giant ape that had three heads! Its face looked fierce and hideous, like a fearsome beast that had just risen from hell.

Roar!

Once the gigantic bloody beast appeared, it let out a loud bellow. The howl was filled with a ferocious and destructive killing intent.

It immediately fixed its bloody gaze on Mu Chen. Then, a huge bloody ball of light gathered in its mouth. Then, it charged towards Mu Chen, leaving a black trail behind it in the sky.

Mu Chen looked at it and slightly narrowed his eyes. He could sense a dangerous fluctuation coming from the huge bloody beast. This made him grow wary of the strength of the Blood Demon Lords' leader. Basically, his power was one of the strongest among all of the powerhouses, making it close to the Heavenly Sovereign level.

Phew.

Mu Chen took a deep breath as he formed a seal with both of his hands. A violet radiance exploded behind him, creating a colossal violet silhouette.

Shoo!

As the Immortal Golden Body appeared, it condensed and formed hundreds of Immortal God Runes. They shot out like huge dragons and quickly wove themselves into a large violet web in front of Mu Chen.

Bang!

Then, the ball of bloody light swept in with destructive power. It swept across the space before finally bashing into the large, violet web.

Its daunting mightiness squeezed and suppressed the web instantly as the ball of bloody light continued to charge towards Mu Chen. However, Mu Chen did not move an inch.

As the reflection of the destructive ball of light grew bigger in his eyes, he remained calm. Just when Bai Susu and the rest of the people were about to let out numerous panicked exclamations, the gigantic violet web absorbed all of the impact when the ball was just a few feet away from Mu Chen!

The ball of bloody light stopped in front of Mu Chen, as it was tangled up by the huge web! Seeing this, Mu Chen lifted his finger slowly and flicked it gently.

Weng!

The gigantic violet web shook and contracted, sending the ball of bloody light back in the same direction it came from. In the blink of an eye, it sprung right back towards the huge bloody beast!

Roar!

The huge bloody beast roared and clenched its fist as it held up a huge bloody rod. As it swung the rod hard, the returning ball of bloody light exploded. At that moment, a daunting windstorm swept out and lightning flashed throughout the land.

“Hmph, those are some impressive skills...” The bloody glow in the eyes of the leader intensified when he saw Mu Chen’s defense. He then laughed hideously and said, “Next, I will let you have a taste of the daunting Destructive Bloody Beast from our Fiend Blood Tribe!”

Roar!

The Bloody Beast let out a shriek right after the leader of the Blood Demon Lords finished speaking. Then, a visible soundwave swept out. It could clearly be seen that the beast was holding a huge bloody rod.

It then flit into a bloody ray of light and headed towards the Immortal Golden Body. The killing aura it emitted was so destructive, it was as if it wanted to exterminate all of the living beings in the entire world.

As Mu Chen looked at the incoming gigantic beast, he formed a seal with both of his hands immediately, while the Immortal Golden Body under his feet burst out a violet radiance. At the same time, the Immortal God Runes formed themselves into a huge spear within its grasp.

As the Immortal Golden Body swung this golden spear, the spear’s golden radiance was as glaring as the hot sun. Its body then quickly darted out. Countless pairs of shocked eyes were looking at it as it collided ferociously with the incoming enormous Bloody Beast.

At the same time, Mu Chen’s sneer echoed throughout the sky like a clap of thunder. “Let’s see whether your Bloody Beast or my Immortal Golden Body is more superior!”

Chapter 1388: Acceleration

Boom!

The Immortal Golden Body and the enormous Bloody Beast collided ferociously in the sky like two clashing meteors. A loud and earth-shaking explosion could be heard. A visible impact wave swept out violently like a windstorm. The space around them was collapsing, and the land below was quivering.

Roar!

The Bloody Beast let out a deafening roar. The huge, brightly glowing, bloody rod in its hand struck fiercely at the Immortal Golden Body.

Clang!

However, a golden spear shining with a violet aura pierced through space. The sound of metal echoed in the air, and sparks flew out in all directions. The enormous fiery rod was forced to draw back, but the enormous Bloody Beast was extremely fearsome. It charged forward while wielding the rod so quickly,

there were multiple afterimages. The rod blotted out the sky and the land as it smashed down on the Immortal Golden Body. The rod's power was destructive and imposing.

A golden ray burst out of the Immortal Golden Body. It held a large violet spear and charged directly towards the rod like a huge spiritual deity. The spear and the rod collided, shaking the entire land.

Mu Chen looked at the two enormous beings exchanging blows. Lights flickered in his eyes. He charged out suddenly and headed straight towards the leader of the Blood Demon Lords.

The Bloody Beast was indeed extraordinary. It might take a while to take care of it, but if the ringleader was captured, the gang would collapse. So long as he could defeat the leader of the Blood Demon Lords, the Bloody Beast would naturally crumple to its knees.

Seeing Mu Chen charging towards him, the leader of the Blood Demon Lords sneered. "Without your clones and your Sovereign Celestial Body, how dare you challenge me with just your physical body? You are really courting your own death!"

Without all those means, Mu Chen looked just like a mere Complete Earthly Sovereign. Yet, the leader of the Blood Demon Lords had a strength that way surpassed that of the usual Blood Demon Lords. He was even a step away from the Blood Demon Emperor level. Naturally, he would not be afraid of Mu Chen. Hence, he did not back off when he saw Mu Chen approaching. Instead, he stepped forward. The ghostly figure appeared directly in front of Mu Chen. His body shook a little and inflated at once into a giant. He slammed his palm hard on Mu Chen. The slap from the palm burst every inch of space, displaying an extremely daunting force.

What powerful physical strength. The reflection of the bloody palm was enlarging in Mu Chen's pupils as he could feel the palm's power. Mu Chen squinted. Within seconds, crystal light exploded from his pupils. Massive spiritual energy swept out from his body like a flood.

Roar!

Mu Chen curled his fingers into a fist and punched. At the same time, the roaring of a dragon was vaguely heard. The Spirit of the Real Dragon climbed onto his arm, and the dragon's claws merged with Mu Chen's five fingers. The force from the punch was earth-shaking.

Boom!

The fist and the palm collided hard, causing space to explode into fragments. The broken areas looked like black holes. Mu Chen and the leader of the Blood Demon Lords' bodies wavered and darted backward.

What a lad. He actually has a strong physical body! A shocked expression swiped across the leader's face. The mightiness of Mu Chen's physical body was apparently beyond his expectation. However, he was not at all afraid. In the previous collision, he could feel that he had a slight advantage.

The leader of the Blood Demon Lords let out a cold laugh. Without giving Mu Chen a chance to breathe, he darted out once again. The next moment, he launched an attack that rained down like a blizzard on Mu Chen, enveloping him. While Mu Chen's clones and Sovereign Celestial Body were away in a fight, the leader of the Blood Demon Lords wanted to play all his advantages so that he could form a winning strategy!

Boom!

Mu Chen looked solemn when he saw the incoming offense, and the surface of his body surged with a crystal-like glow. The Spirit of the Real Dragon crouched on his arm, circulating its own spiritual energy and the power of the physical body to the maximum.

Mu Chen could feel that the leader of the Blood Demon Lords' strength was much more domineering than that of the rest of the Blood Demon Lords. He was one of the strongest opponents he had met who was not a Heavenly Sovereign. He was, indeed, a tricky opponent.

Bai Susu and the rest of the natives were watching the three battle rings from afar with great trepidation. The combat in each battle ring struck fear into each of them. This level of combat would blow them away completely if they got hit in the slightest.

"Your Majesty, Lord Deity seems to be suppressed by the leader of the Blood Demon Lords." Some of the top-notch native powerhouses gathered around Bai Susu. They looked in Mu Chen's direction with concern. The leader apparently had the upper hand in that battle ring. His raining offense utterly suppressed Mu Chen.

Bai Susu clenched her jade-like hands, but her face was calm. She had been following Mu Chen for the past few days. She knew he had formidable means, but he had yet to display them. Apparently, he was waiting for the best chance to strike. This level of combat was a gamble to see who revealed a weakness first.

Boom!

Mu Chen and the leader of the Blood Demon Lords fired off another blast into the sky. The bright and radiant spiritual energy and bloody ray filled the air. However, the leader had a hideous smile. His neck vibrated a little, and his head stretched out like a snake. Sharp fangs grew from his mouth, and he bit hard towards Mu Chen's neck. At the most critical moment, Mu Chen tilted his head slightly, and the sharp teeth sank right into his shoulder. Blood immediately spurting out.

"Let me suck your blood!" The leader of the Blood Demon Lords laughed hideously. He planned on sucking Mu Chen dry. However, Mu Chen smiled coldly. He swung his sleeve, and a crystal pagoda shot out from it. The pagoda grew in size with the wind. With a boom, it shrouded the two of them.

Mu Chen knew that given his current means, he would have to rely on the Eight Budur to win. However, the leader was moving like a ghost. His body merged with space, and he was always faster than Mu Chen. If Mu Chen were to take out the Budur Pagoda directly, he was afraid he could not capture him inside.

The crystal pagoda swept down onto the leader, and he was shocked. He felt uneasy at the sight of it. To be safe, he wanted to withdraw his sharp fangs immediately. However, he realized that Mu Chen's muscles were contracting, and his muscles were as stiff as iron. He could not move his fangs at all.

Boom!

That moment of hesitation caused the crystal pagoda to fall over their heads, keeping both of them inside while it was suspended quietly in the air.

Inside the pagoda.

Mu Chen retreated. He ignored his bleeding shoulder and smiled at the leader of the Blood Demon Lords who was looking around with a cold face. Mu Chen swung his sleeve, and a torrent formed by Sovereign Spiritual Liquid swept out from it. The vast spiritual energy fluctuation lingered in the pagoda.

This time, Mu Chen used up 80,000,000 drops of Sovereign Spiritual Liquid, as he knew that the leader was too formidable for him. Since he was going after him, he should not be stingy with the Sovereign Spiritual Liquid. He would instead give it everything he had to finish that fellow once and for all.

The torrent swept out, and Mu Chen quickly formed a seal with both hands. Eight hideous-looking ancient demonic portraits surfaced on the pagoda's wall. Half of the bodies were stretching out from the wall. They opened their huge mouths and swallowed all the Sovereign Spiritual Liquid in one shot.

"Budur Demon Exterminating Light!" Cold radiance gathered in Mu Chen's eyes. Without any hesitation, he circulated one of the killing blows in the Eight Budur. The eight demonic portraits stretched and pointed their fiendish fingers at the leader of the Blood Demon Lords. The next moment, eight beams of black light darted out.

As those beams of black light charged at the leader of the Blood Demon Lord, his expression changed drastically, and his eyes filled with horror. Apparently, he could also feel the domineering mightiness of the killing blow and the serious threat that could endanger his life.

"D*mn, this fellow actually has such means!" The leader let out an angry groan. Immediately, he formed a seal with both hands. Vast bloody light surged, and the lights formed a ball of bloody light that shielded him.

Sstz!

When the eight beams of black light shot out and came into contact with the ball of bloody light, they pierced directly through the shield. At the same time, it went through the leader of the Blood Demon Lords.

Ah!

A devastated cry resounded in the air. The leader of the Blood Demon Lords exploded into a pool of blood. The mightiness of the Eight Budur lived up to its name as one of the 36 volumes of Rare Super Powers.

Mu Chen looked at it and swung his sleeves. The Crystal Spiritual Energy enveloped and sealed the pool of blood in the air before transforming it into a crystal light ball. The ball fell into his hand. Mu Chen looked down at the crystal light ball with a frown. The leader of the Blood Demon Lords showed him a hideous and ruthless expression from within the crystal ball before the face slowly disappeared into thin air.

His aura disappeared? This fellow is indeed tricky. Mu Chen kept silent for a while before he grabbed the crystal ball and burst it in his hand. He knew that the leader was not dead. Instead, he had used an unusual way to escape. Even though the leader escaped from death, his body had been destroyed. No matter how far he ran, he had suffered a significant loss, which in turn reduced his combat ability. Thus, he was not much of a threat now.

No matter what he wants to do, I must take this opportunity to finish off the other two Blood Demon Lords. Mu Chen moved out of the pagoda. So long as he finished off the other two, he could deal with the leader of the Blood Demon Lords easily with Qi into Trinity.

...

Back in Mount Blood Demon.

A pool of blood gathered and formed a figure in the bloody gorge that was filled with fresh blood. That pale-looking figure was the leader of the Blood Demon Lords that had been killed by Mu Chen. His body was frail and weak. Apparently, he had suffered a huge blow. With a dark expression, he looked at the other side of the mountain and gritted his teeth. D*mn lad. He actually had such formidable means.

The mightiness exploded out from the eight demonic portraits still struck fear in him at this point in time. Had he not preserved half of his flesh in the blood gorge, he would still be trapped in the pagoda for sure. Even so, his constitution was significantly undermined along with his combat capability.

Since he had exited the battlefield temporarily, Mu Chen would lay his hands on the other two Blood Demon Lords, and they would not be able to hold him off for too long. They no longer had the upper hand, given their current situation.

The leader of the Blood Demon Lords was looking coldly at the bloody egg that was floating in the bloody gorge. Demonic light runes were blinking on the egg as if it was synchronized with a baby's breathing.

"That lad is rather bizarre. If we wish to eliminate him, we need to accelerate our Emperor's birth." The leader of the Blood Demon Lords took a deep breath. He grit his teeth and let out a sharp shriek. As he cried, many powerhouses from the Blood Fiend Tribe walked out from the bloody gorge. They seemed to be under someone's control as they all walked towards the gorge and plunged into it. Once their bodies touched the blood in the gorge, they melted into hot fresh blood and merged with the bloodstream.

All of a sudden, blood spurted out as many powerhouses jumped into gorge consecutively. As more and more fresh blood melted into the bloodstream, the light runes on the demonic bloody egg got brighter. Then, a thin crack slowly emerged on the bloody egg's surface.

Chapter 1389: The Birth of the Blood Emperor

Outside of Mount Blood Demon.

The gigantic crystal pagoda that was suspended in the air suddenly vibrated, while everyone was staring at it. It then quickly reduced in size, while a light figure darted out in front of everyone.

"Lord Deity!" When Bai Susu and the rest of the native powerhouses saw the figure, they could not help but all exclaim in excitement.

Thrill and happiness filled their faces. Apparently, they did not expect that the winner t between Mu Chen and the leader of the Blood Demon Lords would be determined so quickly.

Compared to their raucous excitement, it was dead silent in Mount Blood Demon. Many powerhouses in the Fiend Blood Tribe were horrified by this outcome. They did not expect that the most formidable Blood Demon Lord would be defeated by Mu Chen.

However, Mu Chen was not at all concerned about all of these shocked looks. He cast his gaze towards Mount Blood Demon, but could not sense the fluctuation of the leader. Apparently, he had hidden.

Mu Chen was not at all pleased with the current situation. In fact, he was a little uneasy about it.

In any case, I need to finish the remaining two Blood Demon Lords off... As Mu Chen thought this, a radiance flickered in his eyes.

He then walked to the other battlefield, as he knew that he still must finish them off first, as only when they were dead, would Mu Chen be able to do his best when the leader put up a last fight.

Mu Chen rushed into the battlefield, which was already howling with a Fighting Spirit Ocean. Waves of fighting spirit torrents swept through the sky nonstop, keeping one of the Blood Demon Lords busy.

When Mu Chen appeared on top of the Fighting Spirit Ocean, he was overlooking the Blood Demon Lord, who was trapped. The latter had a sharp change in his expression upon seeing him. He knew that, since Mu Chen had shown up here, the leader of the Blood Demon Lords must have fallen.

“How can this be possible?” exclaimed the Blood Demon Lord. After all, their leader was the strongest among them, so he was amazed to think of how he could lose to this mere Complete Earthly Sovereign!

But regardless of his shock, Mu Chen remained indifferent. He waved his hand, revealing the Immortal Golden Body behind him. Immediately, the Immortal Golden Body dashed into the battlefield, sweeping out the Immortal God Runes.

He did not use the Eight Budur anymore, as the consumption of the Sovereign Spiritual Liquid was too great. Thus, he could only join hands with the black-robed Mu Chen to suppress this Blood Demon Lord.

Boom!

In fact, after Mu Chen entered the battlefield, the Blood Demon Lord, who was maintaining the deadlock, started to lose his ground. In the end, he was forced back by one of the Fighting Spirit Torrents, while a huge violet spear pierced through his chest! As a strong, violet glow was released, his body exploded, which wiped out all of his vitality immediately.

Mu Chen and the black-robed Mu Chen did not stop after killing this Blood Demon Lord, but in a flash, they shifted towards the last battlefield, where the white-robed Mu Chen was engaging in an intense fight with the remaining Blood Demon Lord.

However, when that Blood Demon Lord saw Mu Chen and the black-robed Mu Chen arrive, his face turned as white as a sheet. At that moment, he knew that his fate was sealed.

As such, he grit his teeth and inflated his body. Within moments, he exploded himself!

Boom!

The loud explosive sound echoed throughout the land. Then, as if a huge bloody sun had arisen, red streams of torrent gushed out violently, as if they were going to flood the entire land!

But, before the streams could spread across the land, Mu Chen shook his Budur Pagoda out from his sleeve. Immediately, endless crystal lights started to shine on top of it.

As the lights scanned through the bloody torrents, they toned down their color quickly, then transformed into a red crystals, which dropped from the sky. Among these red crystals that were about to fall from the sky, one beamed out towards the Mount Blood Demon suddenly.

“You can’t run!” Moments after it had beamed out, Mu Chen appeared in front of it.

With a sneer, a crystal light surfaced from his palm, like a light shield, and nabbed that red crystal! Mu Chen saw the horrified Blood Demon Lord show up within the red crystal, and without any mercy, Mu Chen clenched his palm and killed him!

“Don’t get carried away. You all have to die when our emperor is born!” Knowing that he had no chance to escape, the Blood Demon Lord let out a screeching and evil laughter.

Mu Chen broke the red crystal, then threw the broken pieces into the air. With this, Mu Chen had officially defeated the three Blood Demon Lords!

The native powerhouses exploded into deafening cheers. Some of them were so worked up that they even fell to their knees and cried bitterly.

After all, these Blood Demon Lords from the Fiend Blood Tribe had been haunting the natives like a Demonic God for so many years. No matter how much they struggled, they were as helpless as ants under their oppression.

However, the six Blood Demon Lords were all killed by the Lord Deity! The living beings in this world had finally regained some vitality and freedom!

While many natives were kneeling towards Mu Chen and bowing to him, Bai Susu noticed that Mu Chen was not showing any signs of happiness.

So, she flit over and asked in a low voice, “Lord, is there something wrong?”

“That leader of the Blood Demon Lord is not dead yet. He escaped.” Mu Chen looked at the mountain that was standing tall and firm before him, while a spiritual radiance flickered in his eyes. He had been trying to detect the location of the leader.

Bai Susu was slightly shocked when she heard this. “Mount Blood Demon is the base camp for the Fiend Blood Tribe. If the leader of the Blood Demon Lords has escaped, he must have gone there.”

Mu Chen nodded, while an icy radiance flickered in his eyes as he stared at Mount Blood Demon. He then swung his sleeves, causing the Budur Pagoda to shoot out. The pagoda grew in size with the wind, and within seconds, it had grown to 1,000-feet-tall and was suspended on top of Mount Blood Demon.

Not only were the native powerhouses were dumbfounded, but even those powerhouses from the Fiend Blood Tribe were shocked. They started running in all different directions, causing the situation to suddenly turn chaotic.

Mu Chen and his clones formed seals at the same time, injecting a vast amount of spiritual energy into the pagoda. Crystal rays fell from the top, shrouding the entire Mount Blood Demon.

Those bodies of the powerhouses from the Fiend Blood Tribe who touched the crystal ray shrank at a fast speed. Eventually, they turned into pieces of palm-sized crystals.

Ding Dang.

As the crystals fell on the floor, the entire Mount Blood Demon was ringing with a crisp-clear sound. The situation was rather bizarre.

The leader of the Blood Demon Lords looked up to the huge Crystal Pagoda that was hanging in the air. He had a slight change in his expression, as he could sense that the crystal ray was scanning the entire Mount Blood Demon. He believed that the light ray would spot him in no time.

"I must speed up," he murmured as he looked at the bloody egg in the bloody gorge. The cracks were expanding on the surface of the egg, while a daunting fluctuation seemed to be brewing within it.

He bit his lip and let out another shriek. At this moment, many powerhouses from the Fiend Blood Tribe sprouted out from the surroundings. They then jumped into the bloody gorge in order to provide more energy for that bloody egg!

Mu Chen stood outside of Mount Blood Demon, watching as the scene descended into chaos. Even then, the leader of the Blood Demon Lords did not show up.

Mu Chen slightly knit his eyebrows. Suddenly, his eyes narrowed as he sensed a daunting fluctuation surfacing deep within the mountain.

Boom!

Mu Chen's expression turned solemn once he made this discovery. He formed a seal with one hand, and a thousand-foot-tall crystal light pillar beamed out from the hanging pagoda.

It struck hard towards the direction where Mu Chen had sensed the fluctuation. Out of safety concerns, although he did not know what the thing was yet, he knew that he had to destroy it.

Rumble!

The leader of the Blood Demon Lords also sensed that the crystal light pillar was falling from the sky, so he lifted his chin and stared at the incoming light pillar, which was charging downwards like a huge dragon. With a change in his expression, he swung both hands.

At that moment, an endless blood torrent gushed out towards the sky from the bloody gorge. It then formed a gigantic blood shield that shrouded the entire bloody gorge.

Boom!

The crystal light pillar struck hard upon the shield, causing ripples to spread across the surface of the shield. After all, the blood shield was formed with the might of the bloody gorge, and as such, the shield was able to block the attack without shattering.

"I found him," Mu Chen murmured, while he narrowed his eyes outside of Mount Blood Demon.

Without hesitation, he encircled the Budur Pagoda immediately. More crystal light pillars fell from the sky, striking at that location, one after another.

Boom! Boom! Boom!

A violent rainstorm wreaked havoc in the air above the bloody gorge. With the non-stop raining down of the crystal light pillars, the blood shield became thinned and was weakened.

The leader of the Blood Demon Lords darkened his expression when he saw this. He did not expect that Mu Chen would be so decisive to fire off such a destructive offense in order to eliminate all of the unknown factors!

The leader of the Blood Demon Lords turned around and looked at the bloody egg. Even though the egg was filled with cracks on its surface, its shell remained unbroken. The egg seemed to be missing something...

The leader of the Blood Demon Lords pondered for a while. Eventually, he lifted his chin and grit his teeth, then said, "You bastard! Since you want to drive the Fiend Blood Tribe into despair, you shall be the first sacrifice our emperor!"

After he finished shouting, his body vibrated and burst into a bloody torrent. Without any hesitation, the bloody torrent charged towards the huge bloody egg. At the same time, Mu Chen seemed to sense something, as his eyes turned darker and a crystal light pillar blasted open the blood shield. With lightning speed, the pillar pierced through space and bashed hard onto the bloody torrent.

Boom!

A violent explosion spread out in the next moment, while the entire bloody gorge was torn and began collapsing. While the bloody gorge was collapsing, a bloody egg rushed towards the sky and suspended itself quietly on top of Mount Blood Demon's peak.

As Mu Chen looked at the eerie-looking bloody egg, his eyes narrowed. The dangerous aura that it emitted struck fear in his heart.

He circulated his Budur Pagoda, causing countless crystal torrents to sweep down and bash hard onto the gigantic bloody egg. The overspreading crystal torrents fell on the egg with a destructive might.

However, just before they came into contact with the bloody egg, the eggshell finally cracked open. A fair palm then reached out and held the crystal torrents gently within it. At the same time, the torrents burst into pieces...

Chapter 1390: The Power of the Demon Emperor

The pale palm stretched out from the blood egg and lightly gripped the crystal torrent that filled the sky, causing it to explode. The horrific power was enough to bring the whole world into silence.

Mu Chen's expression changed slightly at the moment, gazing sharply at the broken blood egg. As the eggshell shattered, he could feel a terrifying wave of power condense and form.

Boom!

Just then, a huge blood-red beam violently burst out from the eggshell and rose up into the sky, directly hitting the crystal pagoda suspended in the sky. The two collided with a clang, and the crystal pagoda was hurled directly backwards.

Mu Chen's expression was somber. With a wave of his sleeves, the crystal pagoda fell into his sleeves. He stared at the blood egg intensely, with a flash of terror in his eyes.

Creak.

Under his gaze, the blood egg quickly cracked. The pale palm stretched out and peeled off the eggshell. Finally, everybody saw a naked boy stand up from the eggshell. The boy had a slender body, and his eyes were blood-red, as if there were a sea of blood condensing inside. His long white hair fluttered in the wind, making him a charming figure, but the violent destructive energy that emanated from him made the entire Demonic Blood Mountain tremble.

There was no emotion on his attractive face. His blood eyes swept past, cold and indifferent. At the same time, countless gusts of red wind whistled around his body. An indescribable oppression spread, and in the sky, the blood clouds condensed, turning into a blood-red hurricane, falling from the sky and enveloping the whole world.

The top powers of the indigenous people looked at the white-haired boy and started trembling madly. The horrible oppression almost caused them to lose their minds, and their trembling heels almost brought them to their knees.

Bai Susu's pretty face also turned pale. Although she did not know how powerful the white-haired boy was, she intuitively sensed that his skills were through the roof, and he was much stronger than the head Blood Demon Lord.

Standing beside Mu Chen, her petite figure trembled slightly. If her resolve had not been strong enough, she would probably have been unable to withstand the fear she felt from the bottom of her heart, and she would have run away.

When her fear reached the maximum level, Mu Chen gently patted her on the shoulder. The spiritual energy light rays shielded her from the terrible oppression.

"Master." Bai Susu looked at Mu Chen gratefully, but she found that his expression was somber to a degree she had never seen before. His eyes were filled with intense contemplation as he gazed at the white-haired boy.

"I never expected a Demon Emperor to be born into the Fiend Blood Tribe," Mu Chen said slowly. The thing he was most worried about in this trip had finally appeared. A Demon Emperor appearing among the Fiend Blood Tribe was equivalent to a Heavenly Sovereign. Faced with this existence, even Mu Chen could sense the danger. He knew how powerful a Demon Emperor was. He didn't have much confidence when faced with a real Demon Emperor, despite easily defeating the Blood Demon Lord.

"Today's task has just been made more difficult!"

At the top of Blood Demon Mountain, the white-haired boy didn't care about his nudity. He just opened his mouth, and the blood-red eggshell turned into a bloody beam that he swallowed whole.

He then looked at Mu Chen and said indifferently, "Thanks to you, I was born today. Otherwise, my birth would probably have been delayed for hundreds of years." Although he had just been born, he had absorbed a lot of his clan's blood essence. Even the Blood Demon Lord sacrificed his blood essence to irrigate him. He thus owned some of the Blood Demon Lord's memories.

Mu Chen sighed. "I never thought that a Demon Emperor could be born into the Fiend Blood Tribe."

The white-haired boy, who was also the Blood Demon King of the Fiend Blood Tribe, said indifferently, "Though you have contributed to my birth, you still have to die today." His voice was slightly hoarse but completely unemotional, containing a world of indifference.

Mu Chen smiled uncaringly. He knew that it would be life or death when he saw the Blood Demon King, and he never thought there could be an amicable resolution.

"Indeed, I would like to learn some of your tricks."

Mu Chen could not throw in the towel, even though he knew he was a real Demon Emperor. The outcome would only be known after their battle.

"Your blood essence is abundant. I will refine you into a blood slave rather than kill you," the Blood Demon King said while staring at Mu Chen.

Mu Chen smiled as a purplish-gold light shined behind him. The Immortal Golden Body appeared, and he was standing on top of the Immortal Golden Body's head, with the black and white Mu Chens standing on his shoulders, respectively.

The three sat down, and the vast spiritual energy poured into the Immortal Golden Body. All of sudden, a golden beam burst from the Immortal Golden Body, making it look like a huge purplish-gold sun.

Mu Chen had answered the Blood Demon King with his actions.

"He is overestimating himself," the Blood Demon King said indifferently while watching the scene.

Mu Chen didn't reply. The three figures formed a seal, and the purplish-gold God Runes on the Immortal Golden Body's surface condensed and burst out, suspended around its body like a huge dragon. Within a few seconds, 200 Immortal God Runes appeared. Mu Chen did not plan to proceed tentatively, and with the help of the two manifestations, he immediately pushed the number of Immortal God Runes to the extreme.

The Immortal God Runes entrenched themselves, emitting a purplish-gold beam, causing even the void to shake. Even the Blood Demon Lord would be seriously injured in an instant when faced with such huge power.

"Immortal God Runes, Myriad of Change, Immortal God Bell!" Following Mu Chen's yell, the 200 Immortal God Runes burst up into the sky and turned into a huge purplish-gold bell in the next instant. It fell from the sky, leading to an explosion of the void, enveloping the Blood Demon King.

As the golden bell fell, Mu Chen waved his sleeves, and dozens of Immortal God Runes condensed again, turning into a huge gold pillar that whistled out and slammed into the golden bell.

Clang!

The impact shook the world, and the Demonic Blood Mountain started to collapse. The huge sound waves spread, tearing up the sky. All the boulders around the golden bell turned into ashes under the impact of the sound waves, and the entire ground collapsed layer by layer.

This scene horrified countless people. If the external sound waves were that horrific, how devastating the effect was within the golden bell could not be imagined. Mu Chen's blow was very intimidating.

Bai Susu showed her joy. She looked at Mu Chen, but saw that his expression remained somber. He did not relax after his attack. He knew his attack would knock down a Heavenly Sovereign, but it probably did not do much damage to a Demon Emperor.

Just as that thought passed through Mu Chen's mind, the golden bell violently vibrated, and everyone saw a deep palm print appear on the bell.

Ping!

The huge golden bell shattered from the force of the blow, and the Blood Demon King's figure emerged. He was uninjured, apart from some red marks. However, the red marks quickly disappeared.

Hiss!

Bai Susu and the rest inhaled sharply. They never expected the Blood Demon King to be so formidable that such a level of attack was just a minor annoyance to him. Even Bai Susu, who had so much faith in Mu Chen, couldn't help but feel worried when she realized how powerful the Demon Emperor was.

"He is the Demon Emperor, indeed." Mu Chen expected this, but he still sighed when he saw that the Blood Demon King was uninjured. There was a huge difference between the power of the Blood Demon Lord and the Blood Demon Emperor.

On the mountaintop, the Blood Demon King looked at Mu Chen coldly with his blood-red eyes, then lifted his finger and pointed at him. His fingertip emitted a blood ray, and a drop of fresh red blood flew off of his fingertip. The blood droplet turned into a round blood pearl, and with a slight shake, it penetrated through the void and dashed nimbly towards Mu Chen.

Mu Chen watched the scene with a serious expression. He did not dare underestimate it. Taking a deep breath, millions of purple golden lights erupted from the Immortal Golden Body, intertwining and finally forming a Purple Gold Mountain.

Dong!

The blood hurtled towards the mountain that seemed to be made of purple gold.

Boom!

At that instant, as if the sky were going to fall, the seemingly indestructible Purple Golden Mountain collapsed at the moment of contact, and an indescribable force exploded outwards.

Ping!

The sky collapsed, and the earth trembled. The purplish-gold light dissipated in the distorted space. The giant Immortal Golden Body seemed to be severely injured, and it was pushed backwards thousands of miles by the horrifying force, its feet leaving two deep tracks on the ground.

Seeing this, Bai Susu and the indigenous people were horrified. It was the first time they had seen Mu Chen defeated since they had met him. Obviously, the Blood Demon King's strength was way beyond Mu Chen's.

In the distance, the Immortal Golden Body finally recovered, and Mu Chen, who was standing on its head, looked down at its body with a somber expression and found that many cracks had appeared. Just a blow had already caused the Immortal Golden Body to fall into such a state. The Blood Demon King's power was truly formidable.

Huh.

Mu Chen took a deep breath, and his eyes flashed fiercely. The Blood Demon King was indeed formidable, but he had experienced much in life, and he would not go down without a fight. "The battle today is definitely a life-and-death battle."
