“Furthermore, there is Spirit-bestowing Tea, which has a certain probability of granting people special abilities. Although it’s acquired, it still has great potential and is incredible.”

Elder Tang opened the floodgates, broadening Jiang Ming’s horizons.

Just in the tea alone, there were countless varieties, many of which were cosmic rarities and quite incredible.

After finishing a cup of tea, Elder Tang stopped the topic.

“Elder Tang, do you have any connections to get the information of the students participating in the Grand Examination this time?” Jiang Ming asked. “Not the students from the 108 Provinces, right? Definitely not. You already have that information. You want the information of those real heaven-defying geniuses.” Elder Tang laughed, “I can’t get the detailed information, but I should be able to try for simple information.”

“What are you waiting for, then!”

“Haha, you cheeky youngster.”

Elder Tang made a move and began contacting his acquaintances. In no time, he got the desired information and forwarded it to Jiang Ming: “Just a brief summary. Only photos, names, and the most basic information.”

“That’s enough!” Jiang Ming was overjoyed and immediately started browsing.

Shi Lei, Supreme Bone, peerless physique.

Yang Jian, born with a Destructive Thunder Eye in the center of his eyebrows.

Ye Bai, Great Wilderness Holy Body.

Chen Bei, Reincarnation Body, extremely terrifying.

Fang Qinghan, awakened the Devouring Body, comprehended the Devouring Path, and forged his own way.

Wang Qiutong, Innate Path Body, suspected to also have divine pupils.

Jun Qiuye, Supreme Ghost Body, bizarre and unpredictable.

Li Ping'an, Great Wilderness Dominator Body.

Jiang Ming cornered his mouth, raising his head to look at Elder Tang: "Is this true or false? According to past experience, this cannot be true, absolutely impossible. Any one of the top twenty can easily become the Martial Arts Champion."

"That's why, your generation is called the Golden Generation, the Death Generation, the Incomprehensible Generation, the Supreme Generation. Unprecedented and unparalleled." Elder Tang showed sympathy, even lowering his voice, "Do you still have a chance to break into the top twenty? Among them, Qiang Jiu is barely possible, Long Aotian is harder, Qin Zhiyan awakened too late, it is a pity, Lan Xin is still a little short."

Jiang Ming was speechless.

He was originally under great pressure.

But after looking at these, he felt a sense of despair.

Look at what they all have.

Great Wilderness Holy Body, Supreme Bone, Great Wilderness Dominator Body, Reincarnation Body, Devouring Body...

As for those who awakened telekinesis and controlled special abilities, they were all ordinary.

"Don't be discouraged." Elder Tang laughed, "Fighting against heaven-defying geniuses can truly witness the terror among the same generation, and also truly serve to sharpen oneself. If you can keep winning, you can forge an invincible mentality. Even if you lose, it is glorious."

“Do you still have confidence, youngster?” Elder Tang asked, mostly out of curiosity.

Even he couldn't see clearly how deep Jiang Ming was.

The young fellow was hiding too deep.

The geniuses present at the Provincial Examination hardly allowed him to show his true fighting power.

“I have confidence, but I have to work hard!” Jiang Ming smirked, his eyes extremely sharp, “The Grand Examination, more than twenty days in total, is enough for me to digest this precipitation. Holy Body? Reincarnation Body? Dominator Body? I'll crush them all beneath my feet with my Mortal Body.” “Great ambition!” Instructor Yu entered the room and couldn't help but praise, “If you achieve the top ten in the Grand Examination, the Provincial Mansion will provide you with a start-up capital of 100 billion. For each advancement, an additional 100 billion. The first place, Martial Arts Champion, will receive 1 trillion, plus the strongest support from within the province, unparalleled.” “Such a huge investment!” Even Elder Tang was shocked.

“This generation is called the strongest in history. It is not too much to support them with the full strength of the province.” Instructor Yu's voice was sonorous, and his gaze was burning, staring at Jiang Ming and saying, “Even if we have to exhaust all our resources to support your growth! This has just been decided at a provincial roundtable meeting. They even asked me to ask you if you have any confidence? If you show the potential to be in the top ten, we will give our full support from now on. Whatever you need, we will send it to you.” “Have they received the list of participants for the Grand Examination?” Elder Tang asked.

“Yes!” Instructor Yu showed an incredible expression, “The candidates in this examinations, no, the heaven-defying geniuses of this generation are truly extraordinary. If they can make it into the top ten, they will surely reach the peak level of martial arts in the future, worthy of the full support of the province. The powerful are what we, Blue Star, truly need.”

“Yin and yang, and space still not enough?” Jiang Ming asked curiously.

“Not enough!” Instructor Yu shook his head, “After all, I don't know what level you have truly comprehended. Could it be...”

He took a deep breath, his heart beating violently, “Have you achieved Great Success?”

Elder Tang also looked over.

“Instructor Yu, you underestimate me too much!” Jiang Ming said, his Qi gushing out, transforming into the Yin-Yang Tai Chi Diagram, changing the nature of his Qi.

One Yin and one Yang, rotating non-stop.

“Yin and Yang, perfection!” Elder Tang sensed it clearly.

“Good!” Instructor Yu praised, his eyes shining even brighter.

Jiang Ming retracted his Qi, pointed with his finger, and the Void trembled gently, causing ripples to spread around.

The tea cup on the table shattered silently.

Elder Tang raised his hand to block, his pupils contracting.

Instructor Yu’s eyes focused, actually spraying out two divine lights, but they were blocked by the ripples, “Space, perfection!”

His voice trembled.

Entering and achieving perfection were completely different concepts.

“Is it enough?” Jiang Ming asked with a smile.

“Enough, more than enough!” Instructor Yu suppressed his excitement and continued, “Of course, the more you have, the more determined they will be to cultivate you!”

“Alright!” With a thought from Jiang Ming, two auras appeared outside his body, one life and one death, perfectly blending together.

As they rotated, it was like a cycle of spring and autumn.

The potted plant beside them quickly withered, but then it bloomed with vitality, the leaves swaying.

“Life and Death Power!” Elder Tang’s pupils shrank, “Perfected!”

“Another one of the Ten Great Intentions, also perfected, unbelievable!” Instructor Yu exclaimed.

Immediately after, the aura changed, and a forbidden zone formed around them, along with oppressive pressure, forming a binding force.

“World Concepts!” Elder Tang went numb.

“Also perfected!” Instructor Yu was numb as well.

“Is it enough?” Jiang Ming asked with a smile.

“Enough, more than enough!” Instructor Yu gasped, “With your comprehension, your talent, if we don’t exert all our effort to cultivate you, we will be struck by lightning. You, kid, are truly defying the heavens. You are the most talented person I have ever seen, without a doubt. Those Tianjiao are powerful because they have awakened special talents, either a Dominator Body or a Supreme Bone. But you? You have an ordinary physique, relying solely on your comprehension, and you have achieved so much. By the way, you also have a powerful physical body. Jiang Ming, you are really going to defy the heavens.”

“Your comprehension is truly rare in history.” Elder Tang exclaimed, looking at Jiang Ming, “You always seem steady, so I suspect you have hidden more! Don’t, please don’t say anything more, leave us some room for afterthought.”

“I can’t say more, otherwise, my little heart can’t take it.” Instructor Yu laughed, “Jiang(student), what do you need?”

“Just say whatever you need directly, the wealth of the Provincial Mansion far exceeds your imagination. In addition, Central Divine Martial College is behind us, so feel free to speak up without any scruples, and don’t worry that today’s support will hinder your future development. No, absolutely not!”

“Okay!” Jiang Ming, feeling the sincerity of the two, thought, “In the Martial Arts path, I have already opened up more than 200 acupoints, and it would be tough to make significant progress in a short period. Opening up a few more or even dozens of acupoints is not very useful!”

“It’s also unlikely for me to break through in the path of Body Refinement in a short time!”

“I need help in the Divine path to comprehend the Soul Realms and step into the Sixth Tier.”

“I only need a guide!”

“I have never experienced the Soul Realms, and I’m clueless. My cultivation level in the Divine path has formed a knowledge barrier, so I need a guide!”

“In addition, I need secret skills for crossing levels in combat and turning the tide against the wind. Don’t be afraid to challenge me, just provide them if you have any.”

“Do you have these?”

Jiang Ming asked expectantly..

Chapter 152 - 109: Sixth Talent

Chapter 152: Chapter 109: Sixth Talent

“Yes!”

Instructor Yu thought for a moment and gave a definite answer, saying that at the latest, the items would be delivered by evening.

As expected, he brought two boxes when it was time for lunch.

Jiang Ming directly carried them back to his room.

The room was spacious, with a bed and even a virtual cabin.

Ignoring everything else, he opened the first box.

The box was not big, and it had rune imprints on it, with an illusion of flowing light. After opening it, there was an incredibly black stone inside.

In an instant, he sensed an unusual aura spreading out.

“Soul Stone!”

“A magical stone born from Heaven and Earth, it is possible to produce it only in a place of extreme yin and evil. It contains the Art of Soul, and it can help comprehend the Soul Realms. After absorbing it, you can enhance the power of the soul, which is considered a divine treasure!”

These were Instructor Yu’s original words.

It can also be seen how precious this item is, and its value is priceless. If he wasn’t talented enough, it would not be possible to obtain such a thing.

“So this is the Soul Realm!”

Jiang Ming suddenly realized and couldn’t help but smile bitterly.

Although the Soul Realms are extremely special, they are only one of the Ten Great Intentions. He has comprehended many others, but he has never achieved this one.

To know that he has the Talent of Soul nominator and also cultivates on the Divine Path, this is simply unbelievable.

Now, comprehending it, he finally realized.

“Knowledge Barrier!”

This was the fundamental reason. Search the website to access chapters of novels early and in the highest quality.

It was clearly in front of him, but he seemed as if he had not seen it.

Jiang Ming closed his eyes and quickly absorbed the power of the soul stone. His Dharma Phase rapidly grew and transformed. Meanwhile, the Soul Realms advanced rapidly.

The Dao Resonance radiated and expanded rapidly, only echoing within the room. It was clear that measures had been taken in these rooms.

“With just this alone, one can see the terrifying foundation of the Saint Academy.”

Jiang Ming had this thought and then completely immersed himself in his cultivation.

The Yin God jumped out of his head, looking no different from him. It was just a miniature version of him. Suddenly, it turned and transformed into the Yin-Yang Method.

The crescent moon embraced the great sun.

Inside the crescent moon, a cinnamon tree swayed, and the fragrance of flowers spread through the air. Under the tree, there was a pure white jade rabbit.

Within the great sun, a Fusang tree was burning with flames. A three-legged Golden Crow roosted on it.

This was his Dharma Phase, which was very peculiar.

Now, as he understood the Soul Realms, the cinnamon tree and the Fusang tree both emitted a strong vitality. One contained the Supreme Yin Power, and the other contained the Supreme Yang Qi.

The jade rabbit became even more agile, spinning around the cinnamon tree and finally leaping onto its branches. The Golden Crow spread its wings and emitted roaring flames while simultaneously letting out a cry that resounded through the sea of souls.

An amazing power spread out, forming a terrifying force field.

“This is the domain!”

Jiang Ming understood it at once.

He broke through and entered the Soul Cultivator Sixth Tier Realm.

The system’s voice rang out just in time, but it was not important now.

Jiang Ming was fully immersed in his cultivation, and his cultivation level soared.

In the Divine Path, understanding is essential.

He had an unparalleled talent, and his accumulation was enough. Now that he had broken the knowledge barrier and shattered the shackles, it was as if the flood dragon soared through the sky, covered in the light of the clouds and turned into a heavenly dragon.

Outside.

“Can he do it?” Instructor Yu looked expectant but also very hesitant.

Because the sixth tier of the Soul Path was a significant threshold.

Understanding the Soul Realms is not something that can be achieved just because you want to!

“If he says it can be done, it will be done.” Elder Tang said in a low voice, echoing around, “Don’t forget, he has comprehended the Intentions of Space, Yin and Yang, Life and Death, World, Thunder, the Five Elements, and many other terrifying Intentions. What kind of comprehension does it take to understand so many incredible Intentions? Plus, there’s the Inch Fist that is considered a forbidden law.”

“It can only be described as a miracle!” Holding a teacup, Instructor Yu gazed at Jiang Ming’s room, and then his eyes lit up, “The shielding power in the room was triggered. It must be due to the shock caused by the power. Could it be that he broke through?”

“Let’s wait!” Elder Tang remained calm, but he was also very nervous.

He knew the difference between the fifth and sixth tiers was massive, like the difference between heaven and earth.

If he broke through, it could be possible to suppress all the Tianjiaos.

At dusk, Jiang Ming walked out with a smile on his face.

“Did you succeed?” Instructor Yu suddenly stood up.

“Of course he did!” Elder Tang was also very excited.

“I did it!” Jiang Ming smiled and said, “I didn’t let you down!”

“Good, good, good!” Instructor Yu was greatly surprised, “It’s been many years since I’ve been this excited and happy!”

“When he takes first place, it will be even happier than now!” Elder Tang was even more delighted.

“Haha, he will indeed!” Although Instructor Yu was a powerful figure, and his mindset was stable. After being happy, he sat down and said, “Come, let’s take a look!”

Elder Tang also revealed a hopeful look.

Once Jiang Ming sat down, the domain of the sixth tier of the Soul Path was released. It was formless and seemed as if nothing had appeared at all.

However, both Elder Tang and Instructor Yu could sense it clearly. They both nodded, truly relieved and let out a long breath.

But in the next moment, both of their pupils shrank.

Because the environment around them had changed.

One by one, trees appeared out of nowhere. Flowers and grasses condensed, and the aromatic fragrance filled the air. The leaves rustled.

There were even birds singing.

The ground beneath them also turned into fertile land.

“Fusing the Soul Realms into the Soul Path Domain is truly magical and extraordinary.” Jiang Ming himself couldn’t help but be amazed, “Within the domain, everything can be transformed, as if it were real..”

Chapter 153 - One Hundred and Nine: The Sixth Talent_2

Chapter 153: Chapter One Hundred and Nine: The Sixth Talent_2

“You’ve actually reached this level!” Coach Yu was taken aback, as he lectured, “This is the essence of the sixth-tier domain. Within the domain, thoughts can realistically evolve all things. This feature truly embodies the illusion territory. It can evolve various powers such as illusions, suppression, bondage, bewilderment, god control, heart elimination, and various kinds of Taoist arts, at will. The domain can also evolve into another kind of power, can you grasp it?”

His breath was slightly uneven.

Elder Tang showed a face full of expectation.

“I’ve mastered it!” Jiang Ming nodded, as the surrounding scenery disappeared, seeming as if the realm had also vanished.

Elder Tang and Coach Yu both felt another strange power, directly penetrating their body protecting Air of Gang, invading the Sea of Consciousness, and attacking their heart and soul.

“The virtualization of the domain can penetrate most of the Air of Gang barriers, even the Heavenly Phenomenon Pressure is hard to resist, directly penetrating into the heart and mind, attacking the soul’s will.” Elder Tang was taken aback as he warded off the energy but still admired, “The path of the sixth realm is divided into creating domains, evolving all things, becoming formless and intangible. You’ve actually reached its peak.”

“The soul is the root and source of one’s body, it is mysterious and unpredictable, transforming from formless to tangible and vice-versa in a blink of an eye. When it reaches the sixth realm and incorporates the soul realms, it becomes more terrifying.” Coach Yu continued, “Soul realm is one of the Ten Great Realms, but it’s unique and its power can match time and space. You are currently at a level where if someone with a slightly weaker will crosses paths with you, you could directly obliterate them. Inside the fifth realm, unless under special circumstances, they can’t resist; even the martial artists of the sixth realm would struggle to cope.”

“When a sixth realm soul evolves in a true form, you can incorporate the power of other realms. This can cause the substantive damage to reach a horrific level,” Elder Tang began to advise. “For example, evolving trees can blend the Wood’s True Intent, Wind’s Intentions, Thunder Scenario, Spatial Realms, etc., if combined together, then...”

His heart shook.

“This method is fraught with difficulties, the key is fusion. If fusion is not good, energy reflux could easily occur, and backlash could happen. This is something you must pay attention to.” Coach Yu continued, “In the past, some have tried this, but after walking on the way of souls, if you want to comprehend other scenarios, it becomes difficult. To my knowledge, at most only four scenarios were blended, which greatly increased their

combat power. If you can blend Yin and Yang, space, and the world, even just one... That..."

He grinned widely.

Jiang Ming listened seriously. All this was priceless experience. As the saying goes, having an elder at home is like having a treasure, a few simple words could save him a lot of time.

Scenarios?

Multitudes?

Blend?

These things really weren't a problem for him at all.

While listening, he had sparks of wisdom erupting in his mind, and he began to deduce various situations, evolving countless ways of slaughter.

They chatted for a long time, and Jiang Ming gained a lot. Search the website to access chapters of novels early and in the highest quality.

He looked outside and wondered, "I am after all, the top selection, and they say that this grand examination was drawn out due to me attracting the extremely terrifying genius. Why has no one come to me? Whether to see me, or to cause trouble?"

Both of them couldn't help but laugh.

"Do you think this is simply something everyone can play at?" Coach Yu laughed, "Everyone who can participate in the grand examination are resolute individuals, why would they cause trouble at such a time. The weak are busy precipitating, the strong don't care. Besides, tomorrow is the grand examination, whether it's a mule or a horse, it will be led to take a walk."

"What I see is that you, youngster, just want to show off and slap some faces." Elder Tang pointed at him.

Jiang Ming could not help but laugh. After a while, he returned to his room to continue his deduction and comprehension.

For him, the time he has now is very valuable.

He sat cross-legged on the bed, as his gaze turned focused, and the details of his personal information appeared before his eyes.

Name: Jiang Ming

Qi Cultivation: Fifth Level (Great Grandmaster, Yin-Yang Scripture)

Body Cultivation: Fifth Revolution (Blood Replacement, Longxiang Heaven Suppressing Skill)

Divine Cultivation: Sixth Tier (Domain, Yin and Yang Spirit Refining Scripture)

Cultivation Skills: Ten Thousand Swords Return to One, Three Swords of Slaying Immortal, Heavenly Footwork, Inch Fist (15th layer), Yin and Yang Prohibition Skill, God Controlling Skill, Sword Control Skill, etc.

Talent: Hundredfold Comprehension, Reincarnation of Nirvana, Soul Dominator, Master of Space, Fate's Love (Temporary Solidification), Infinite Genes (Temporary Solidification)

Mission: Become the Federal Martial Arts Champion in the final stage of the Martial Exam; Comprehend Gene Skill within one year and give the initial successful cultivation to evolve genes

Divine cultivation, sixth tier, there's nothing much to say.

But this talent is somewhat peculiar.

Infinite Genes: You possess a unique capability in this world that allows you to perceive your gene situation clearly: defects, directions for improvement, how to enhance, borrow biological information from other species to perceive their genes, identify their strengths and weaknesses and learn from them, etc. Additionally, your genes have infinite potential for evolution.

Theoretically, you can evolve your genes to perfection by relying on yourself.

Jiang Ming was extremely certain that this was a magical talent.

It didn't increase any cultivation, or amplify any powers.

It simply boosted perception greatly, and the will became even more concise. Even the Yin God underwent a remarkable change.

Closing his eyes, Jiang Ming could perceive the condition of his own genes vividly, and various bits of information rolled in his heart.

The genes support the basic structure and performance of life and store all the information on the race, blood type, gestation, growth, cell death, etc., of life. All physiological phenomena of a biological body, such as birth, growth, decline, disease,

aging, and death, are related to genes. It's also an internal factor determining health. Genes also have dual attributes: the existence of materiality, and the fundamental information of life..

Chapter 154 - 109: Sixth Talent_3

Chapter 154: Chapter 109: Sixth Talent_3

On a broad scale, genes determine the difference between species.

On a smaller scale, genes determine bloodline and talent.

Jiang Ming immersed himself in analyzing how genes were stored, replicated, transcribed, and operated. It was too magical, too unbelievable.

He could perceive, he could discover, but had no clue how to elevate and evolve genes, not even knowing where to start.

“Grasping a Gene Skill and successfully cultivating it within a year, even evolving the gene, that's difficult!

This is genuinely challenging.

More challenging than winning the championship of the United States Major Examination.

Speaking in the perspective of a martial artist, whether from the Martial Arts First Realm or a Martial Arts Eighth Realm expert, their genes are the same. Their strength might differ significantly, but essentially, there is no difference.

Even if an Eighth Layer Martial Artist can cleave mountains and divide seas, their genes haven't undergone any changes and is just the result of self-development.

To evolve genes is to break the shackles of the bloodline and uplift the essence of life.

These are the draws of forbidden power.

Within the Provincial Mansion, Jiang Ming had once inquired about Gene Skills. For the entire Federation, this is a colossal issue, and there may not even be any real successful cases.

Now, he was requested to accomplish this within a year.

Absurd!

“There is endless potential, but there is no sign of hope!”

“Nevermind, let’s test this after the Grand Examination. If it doesn’t work, then I will just give up”

Jiang Ming shook his head, pushing down the idea.

Losing one talent, for him, truly wasn’t much at all.

There are many talents, and just any one would be able to lead him to the pinnacle of martial arts.

He opened another box, and instantaneously, a Slaughter Sword Intent that can kill everything pitched at him, causing his heart to startle.

The four words printed on the book cover were like swords: Slaying Immortal Sword Skill.

Jiang Ming showed a strange expression.

He had speculated about the Three Swords of Slaying Immortal before.

Now there is a Slaying Immortal Sword Skill book in front of him: Could it be similar to what I speculated?

No wonder he had this guess, because the Sword Intent that just flashed by was loaded with the power of destruction, death, demolition, sharpness, and more.

Jiang Ming picked it up carefully to read.

The sword technique constituted nine forms, and it shocked him greatly.

The first form fused the Slaughter Sword Intent, the second form built upon the Slaughter Sword Intent and incorporated Death Sword Intention, the third form added another realm, and so on. Until the sixth form, six realms were merged together to form an unparalleled Sword Intention.

Even without training, Jiang Ming could feel the terrifyingly sharp edge.

Slaughter, death, destruction, sharpness, suppression, speed, six realms. The last three forms of sword technique are different methods of fusing the six realms, and their power varies accordingly.

“Different fusion, different power!”

Jiang Ming etched it in his memory.

There is a note explanation at the end: The power of the realm is the most basic Dao Resonance of Heaven and Earth, without too much inherent metaphysics. The more single realms are understood, the stronger the power.

The fusion between the realms could exhaust changes. Overall, the more realms fused, the stronger it will be. But it's hard to grasp, easy to backlash. However, even the fusion of two kinds of realms can unleash overwhelming power, like the combination between zero and one, it could be infinite. Reminder: this is only a theoretical conjecture.

The way of fusion also follows this principle.

Exhausting the mysteries is inexpressible.

But conjecturing it is harder than reaching the sky.

The deeper True Meaning of Dao Resonance in Heaven and Earth exhibits more changes, and a single True Meaning can also evolve out the ultimate skill.

Dao Resonance, the fundamental of Heaven and Earth, is only expounded upon superficially and applied plainly within the Eighth Realm by the human body.

This is when human power exhausts!

What a pity!

Jiang Ming's eyes were filled with a burst of divine light.

Through this experience, not only had he gained a unique sword technique, but it also broadened his understanding of the concept of “realm”, akin to stepping onto a path that led directly to heaven.

“A realm, single, merged; true meaning, single, merged...”

The thoughts hit Jiang Ming hard and he closed his eyes.

In his mind, he directly created an illusory space, began practicing the Slaying Immortal Sword Skill, and then reenacted and integrated more power of realm to increase the power of the sword form again and again.

Even his Three Swords of Slaying Immortal were completely rethought and redesigned from scratch.

The sword intention that permeated his body became increasingly terrifying.

The next day.

Everyone came out in succession, sitting together for breakfast.

However, at that moment, a terrifying presence suddenly appeared, with an enormous pressure that seemed to cover everything.

Everyone looked horrified.

Under this pressure, even Jiang Ming felt as insignificant as an ant.

Everyone looked up and couldn't help but gasp.

A huge figure appeared in the sky, standing hundreds of feet high, towering over the ground with a vigor that reached the heavens.

Elder Tang and Instructor Yu also showed signs of shock, and quickly stood up and bowed deeply towards the giant figure as a sign of respect.

Jiang Ming and the others followed their lead.

The giant looked at the mountain where Jiang Ming and others were also, and a booming voice came over, "I am Hong Xuanji, the dean of the Saint Academy. Candidates, please enter the Virtual Combat Network at eight o'clock for the announcement of rules and rewards. The examination will commence exactly at nine o'clock. Any delay will result in disqualification."

As the voice faded, the giant figure also suddenly disappeared, as if it never appeared in the first place. [SEARCH the NOVEL_FIRE.NET website](#) to access chapters of novels early and in the highest quality.

"It's actually Dean Hong!" Long Aotian showed a shocked look, then turned to Elder Tang and Instructor Yu, "What level is he at? He can transform into a hundred-foot tall giant, just like a Demon, it's unbelievable."

Qiang Jiu, Qin Zhiyan, and Lan Xin all turned their gazes toward the two powerful men.

"What level?" Elder Tang sighed, "Of course it's human excellence."

"Eighth Layer, Martial Arts Golden Core?" asked Jiang Ming.

Elder Tang just smiled and said nothing.

However, everyone understood that he was at least an existence of the Eight Realms.

Above the Eight Realms?

Perhaps!

Soon, they all finished their breakfast.

“Good luck, everyone! Make it to the top hundred!” Jiang Ming was the first to speak.

“Top hundred? I have to make it there, or when I get back, the old man will definitely beat me up.” Long Aotian swung his fist, “This is a once in a lifetime opportunity, once in a lifetime to become a saint in front of everyone. Don’t aim for the top twenty, just aim for the top hundred.”

“Let’s all do our best!” Lan Xin’s fighting spirit was soaring, it seemed to have increased a lot compared to the time of the Provincial Examination.

Obviously, she had gained much during the cultivation, and the Lan family also had support.

“Top hundred? Hmph, my target is the top twenty, top ten!” Qiang Jiu’s intention with his spear could pierce the sky.

“Top hundred? I’ll give it a try!” Qin Zhiyan clenched her fist, full of self-confidence.

At this time, in the surrounding courtyard, a strong aura was emitted all around. Some filled the sky with sword intention, some had a profound aura, some were deep and vast, and some were obscure and unpredictable, and so on!

All full of a shocking will to fight.

“Good luck then, I hope you all succeed and achieve great results!” Elder Tang gave his blessing.

“When you come out, we will celebrate your success!” Instructor Yu said.

Everyone nodded their heads, then each went back to their rooms, lay down in their virtual pods which had already been checked out.

A moment of darkness later, they entered the Virtual Combat Network.

The Grand Examination officially began..

Chapter 155 - 110: Wood Emperor, Heart of the Universe, Climbing the Sky Ladder

Chapter 155: Chapter 110: Wood Emperor, Heart of the Universe, Climbing the Sky Ladder

In a flash of light, Jiang Ming entered the Virtual Combat Network.

He appeared at the foot of a mountain.

“No, this is a staircase, a white jade staircase!”

Looking up, Jiang Ming was slightly shocked.

In front of him was a staircase that led straight to the sky dome above.

At the bottom, it was very wide, roughly estimated to be thousands of meters long, and narrowing as it went higher.

Other candidates gradually appeared around him.

At the same time, the Grand Exam live-stream began.

The main live-stream room's viewership jumped by hundreds of millions in no time, soon reaching tens of billions, and barrage comments flashed by like streaks of light.

Soon after, provincial and city live-stream rooms gradually branched off.

In Pingyang City, Second Level, many students had come back to their classrooms or gathered on the playground to watch.

After all, two of their school's students had made it to the final round of the Grand Exam, something they had never dared to imagine before.

“I can see Jiang Ming and Qin Zhiyan! This time, they truly made their debut in the United Federation. I'm so envious.”

“Yeah, I'm so envious that it feels like I'm splitting apart!”

"If I could appear in such an occasion, even if it costs me ten years of life, I would be willing!" search the website to access chapters of novels early and in the highest quality.

"Ten years off your life? Get real. With your mediocre talents, not even sacrificing a hundred years would be enough. Heh, in a hundred years, you'll be a skeleton."

"Speaking of which, can the two of them make it into the top ten?"

"Qin Zhiyan can't; she ranked fifth in the provincial examination. But Jiang Ming definitely can. Absolutely. He ranked first in both the sea election and the provincial examination. It's just too impressive."

"Yeah, yeah! Especially in the provincial exam, he stood still from start to finish, sinking all the other geniuses. That scene was so shocking. I wonder how their opponents felt?"

"Haha, they must have felt like dying. They were once-in-a-million geniuses, but their opponent just stood still and defeated them. You can imagine how wonderful that scene was."

"If I could be instantly killed, I'd wish for that too. Sadly, we're not the children of the heavens, and there's nothing we can do!"

"Fatty Fatty, you and Jiang Ming are good buddies, always together. Tell us, how strong is he now?"

Everyone looked at Wang Fatty.

"That youngster is strong enough to reach the sky," bragged Wang Fatty. "Don't worry, he can definitely be the champion of the Federation. After all, he defeated four other geniuses just by standing still. You know Long Aotian, right? He's the one with the True Dragon Bloodline, and how did it go? He was brought to his knees!"

"What about Lan Xin? A hidden major clan with a thousand-year legacy and terrifying background, comprehending the Thunder Realm, and even awakening the Thunder Power at the Innate level, like a reincarnated God of Thunder. What was the result? She was defeated as well."

"Easy peasy, no pressure at all!"

"Among the 108 provinces, our province may not be the strongest, but it still ranks in the upper-middle. Jiang Ming claimed first place in the provincial exam, just by standing still."

"As for the whole Federation, he'll probably just need to move a bit to get first place!"

“No doubt about it!”

“Haha, guys, we’ll be classmates with the Federal Champion in the future. It’s quite impressive to say it, and it’ll make stirring up girls much easier.”

Wang Fatty waved his hand and exaggeratedly boasted.

All the students laughed.

In another classroom,

Yun Xiyao sat, resting her chin on her hand as she watched the live-stream.

As she caught sight of Jiang Ming, her eyes suddenly brightened.

“He was supposed to be mine. If only I had let go of my pride and taken the initiative, he would be following me around.”

“Why was 1 so reserved back then?”

“Is it too late now?”

“It’s not, right?”

“After all, I am a little fairy. I have both beauty and sweetness. I found his contact information and sent him so many messages, but why won’t he reply?”

“Is it a tactic of retreat to advance?”

“Or has he been in closed-door training so much that he doesn’t have time?”

“It should be because he’s making a sprint for the United States Major Examination that he doesn’t have time to check the messages.”

“When he comes back, 1 must give it a try. Yes, 1 will. I’ll just give him a public kiss in the worst case, satisfying his vanity!”

“Once we’re together.”

“I’ll be the wife of the champion, and we’ll travel across the world.”

“And have a son. What should we name him?”

“He will definitely surpass his father, so let’s call him Chunqiu, with all the three thousand years under his control!”

“Mmm, Jiang Chunqiu it is!”

Yun Xiyao showed an intoxicated smile.

In the Virtual Combat Network,

“Could this be the legendary Heavenly Ladder?” Long Aotian appeared beside Jiang Ming, looking ahead in astonishment.

“You know about it?” Qin Zhiyan also appeared.

“I heard about it!” Long Aotian nodded. “It’s said that there’s an incredibly magical Heavenly Ladder in the Tianwu Sacred Academy. By stepping on it, one can temper their will, condense their spirit, and refine their mind, making it seem almost divine. Since we’re here today, I’m afraid that the first test is the Heavenly Ladder.”

“There’s a high probability that’s the case!” Lan Xin nodded. “The first test, the Test of Heart, Climbing the Sky Ladder; this will speed up the selection process. The strong naturally have a strong will.”

“That’s right. Those without a firm will have no qualification to be among the powerful!” Qiang Jiu’s sharpness was revealed; for him, this test could not be more suitable.

The Art of Spear is unyielding and determined with an iron will.

“A test of heart and spirit refinement, huh?” Qin Zhiyan looked serious, glancing around, feeling the strong auras of others. She felt uneasy. “If I can’t even pass the first test...”

Everyone understood her meaning.

If they didn’t make it through the first test, it would indeed be quite embarrassing.

Although just getting to this point meant they were all peerless geniuses.

At this moment, a girl not far away walked towards them. Her body naturally radiated a hazy brilliance, and even Dao Resonance surrounded her, making her look like a fairy descending to the mortal world..

Chapter 156: Chapter 110: Wood Emperor, Heart of the

Cosmos, Climbing the Heavenly Ladder_2

There was a feeling of ascension at any moment.

“Greetings, Jiang (Student), I’ve long heard of your fame, and finally met you!” The girl greeted Jiang Ming with a bow, “Muhuang Star, Luo Qingchen!” “Greetings, Luo (Student)!” Jiang Ming responded with a smile.

But his heart was greatly shocked.

Muhuang Star? This is a life-bearing planet developed by Blue Star, and it got its name because forests and vegetation cover 90% of the entire planet.

Full of vitality, a green ocean.

As for this Luo Qingchen, he knew something about her, for she had an Immortal Spirit Body.

Immortal Spirit?

He really couldn’t guess the specific effects of such a constitution, but it must be terrifying.

“You, with the identity of a commoner, won the first place in the Federation Sea Election, and I noticed you at that time. After learning your detailed information, I made up my mind to participate in this United States Major Examination.” Luo Qingchen’s eyes were scorching, “Especially in the Provincial Examination, standing still and defeating all the geniuses, including the core descendants of the long-standing Qiang Family, the direct descendants of the Dragon Family, and the Tianjiao of the Lan Family, my interest grew even more.”

“Yin and Yang, space, thunder, the overbearing physical body, and comprehending the amplification secret technique Inch Fist, led me to be certain of one thing!”

“Your comprehension has broken through the heavens.”

“Otherwise, with the identity of a commoner, it would be impossible to reach such a level.”

“I consider myself unparalleled in talent and extraordinary in aptitude, but when compared to you, it seems that I’m still lacking, and that’s the fundamental reason I came here!”

“Because I am known as the first body constitution of Taoism!”

“Compared to me, Innate Path Bodies are inferior!”

Luo Qingchen spoke calmly and smoothly, her voice sounded clear and pleasant, but it gave people a faint sense of condescension, as if she was looking down upon all living beings.

This kind of arrogance was deeply ingrained.

“What I want to know now is, how many of the fifteen great realms of comprehension have you grasped?” Luo Qingchen’s eyes were sharp, “In fact, the Five Elements Realm can also be included, but it is inferior to Yin and Yang as it lacks the stronger inclusiveness of Yin and Yang.”

Just this one sentence revealed the depth of her foundation.

And her madness was even more evident.

Jiang Ming’s eyebrows twitched slightly. [Search the website](#) to access chapters of novels early and in the highest quality.

“I know about the Luo Family, a great power passed down through generations, one of the earliest to migrate to Mu Huang Star. I didn’t expect this generation to have an Immortal Spirit Body like you.” Lan Xin came forward, “Is the Immortal Spirit Body really stronger than the Innate Path Body? Not necessarily.”

“I heard that the Immortal Spirit Body has Dao Resonance surrounding it, showing the harmony of Ten Thousand Paths. Furthermore, it is close to the Immortal Spirit Law and has the opportunity to ascend.” A girl in a white dress walked over.

As she moved, a chill rushed towards them.

Her face was delicate, but most importantly, it was white, giving off a cold and indifferent feeling.

“But...” The girl smiled lightly, “The Innate Path Body is a constitution blessed by the Great Path, close to all paths, able to merge intention with Heaven and Earth constantly, like entering the state of enlightenment, and even gaining the support of myriad skills. The Immortal Spirit Body should be considered one of the constitutions of the Path.”

“Bai Bing, the Cold Ice Body!” Luo Qingchen dismissed it with a hint of disdain and looked at Jiang Ming, “You haven’t said how many top realms of comprehension you have mastered?”

“Impolite!” Another female student walked over.

She wore plain clothes, her body upright, but above her head was an ethereal Sword Intention that pierced the sky and broke the cosmos.

It was chilling.

Her face was like a goose egg, her light eyebrows were like sword light, and she exuded an imposing aura.

“Without even saying how many you’ve mastered, you’re pressuring others. The Luo Family, what a great upbringing!” The girl’s voice was soft, but she looked at Jiang Ming and smiled softly, bowing, “Ji Yunning, an orphan from the Ten Thousand Realms Battlefield.”

Jiang Ming bowed back and nodded to Bai Bing.

Bai Bing had a Cold ice body, which seemed ordinary, but if it reached the extreme of coldness, it would be terrifying.

However, Jiang Ming clearly sensed that she had something hidden.

As for Ji Yunning?

She had a natural Sword Bone, with a hidden Sword Intent, clearly possessing the Heavenly Sword Intent, the emperor among the swords, and the supreme among swords.

Having comprehended it early on, he naturally knew its power.

Especially now, after re-deducing the Three Swords of Slaying Immortal, and further deducing the sword skill, he knew the terror of this sword intent even more.

“I’m afraid to say it and make you all feel ashamed.” Luo Qingchen flicked her sleeves and said indifferently, “Moreover, I don’t want to hurt your self-confidence!”

Bai Bing pursed her lips.

Ji Yunning raised her eyebrows slightly.

Many exam candidates around looked towards them with strange expressions.

Long Aotian and his group of four looked at the sky speechlessly.

They were overlooked.

For geniuses, it's really frustrating like being ignored by a dog, but there's nothing they can do about it. Even Long Aotian had to admit that when compared to these Tianjiao, he still fell short.

"Just wait until I further develop my bloodline power and control the power of the True Dragon. They? Hmph!"

He could only think this way and indeed had the confidence to believe so.

Lan Xin, however, revealed a slight smile.

Immortal Spirit Body? Cold Ice Body? Born with Sword Bone?

I am also a born Thunder controller, which also counts as a Thunder Body.

"I wonder if the Immortal Spirit Body will die," Qiang Jiu spoke, and his piercing gun intent that could penetrate everything sent chills down people's spines.

He stared at Luo Qingchen as ripples appeared on her body, blocking the invisible sharpness. She coldly said, "All I know is that if you come across me, you will die!"

"Don't worry, we'll definitely meet!" Qiang Jiu turned around, hands behind his back, and looked at the Sky Ladder, which made Luo Qingchen's eyebrows twitch.

Long Aotian gave him a thumbs up.

At this moment, at the top of the Sky Ladder, countless beautiful lights suddenly appeared and converged into a human figure.

She attracted everyone's attention as soon as she appeared.

Exquisitely beautiful, breathtakingly so.

It seemed as if all the beauty of heaven and earth had been imprinted on her body. She lifted her feet, walking on the void with lotus flowers blossoming with every step she took. She then opened her mouth and said, "The annual United States Major Examination has started again."

"All the geniuses of the Federation have gathered here!"

"Each one of them is the future, hope, and light. Given time, they will surely become the backbone of Blue Star or even rise to the throne of the strongest in Martial Art, guarding our Blue Star!"

Her voice was gentle, but full of passion.

She reminisced about the past, envisioned the future, and focused on the present.

Finally, she announced the rules of the Grand Examination.

“The first round is a screening, and it’s very simple – Climbing the Sky Ladder!”

“This Sky Ladder contains unparalleled magical power, cultivates temperament, refines will, and even tests the soul! It’s more of a cultivation experience than an evaluation, facing ourselves and firming our resolve.” “Regardless if you were the top choice in Sea Election, ranked first in the Provincial Exam, returned from the Ten Thousand Realms Battlefield, or cultivated secretly in a Secret Realm, everyone is equal before the Sky Ladder.” “The higher you climb, the more benefits you get!”

“The top ten will directly advance to the Finals!”

“From eleventh to ninetieth place, they will directly advance to the Semi-Finals!”

“Those after the ninetieth place will participate in the crudest round-robin competition tomorrow, and only the top ten will advance to the Semi-Finals.”

“In the third round, those top ninety candidates will compete for the top ten and join the final top ten in the Finals.”

“These are the rules for this year’s Grand Examination!”

“As for the rewards?”

“All I can say is that they are several levels higher than in the past.”

“The first-place reward is a chance to comprehend the Heart of the Cosmos!”

“The Heart of the Cosmos is our human race’s ultimate treasure!”

“Even Eight Realm Experts do not have the qualifications to use it if they lack enough merit!”

She briefly explained the rules.

As for the Heart of the Cosmos?

Jiang Ming didn’t understand.

Luo Qingchen, however, gasped and her body shuddered slightly, “The first place is mine! No one can take it away, not anyone!”

“It’s mine!” Ji Yunning released an incredibly terrifying Sword Intention, filled with overwhelming confidence.

Many students in the Grand Examination were excited at this moment.

Some of them even radiated divine light, with awe-inspiring momentum, and were extremely terrifying.

Especially for the live audience, Where were these students? They were clearly a group of demon gods, too terrifying and incredible.

“The Heart of the Cosmos is our human race’s ultimate treasure and has a great reputation in the Ten Thousand Realms Battlefield.” Ji Yunning had already calmed her fluctuating emotions and restrained her sharp Sword Intention, glancing at Jiang Ming with a simple explanation, “With its help, one can understand the mysteries of the Universe, the laws of Heaven and Earth, and review oneself and peer into the self, as if analyzing oneself completely and placing the Great Dao of Heaven and Earth in front of your eyes.”

Hiss...

Jiang Ming took a cold breath..

Chapter 157 - 111: The Era of Great Struggle

Chapter 157: Chapter 111: The Era of Great Struggle

Jiang Ming was truly astonished.

There was really such a terrifying thing: comprehending the mysteries of the universe’s operation, observing the ways of heaven and earth, and even sorting out oneself, peering into oneself, as if dissecting oneself completely and clearly, and putting the heavenly path right before your eyes.

“If I were to use it, with my hundredfold comprehension, what kind of chemical reaction would it produce?”

At this moment, Jiang Ming’s heart beat violently.

For the first volume, he must have it.

Now, he had to strive even more.

“June 15th in the year 9918 of the Tianwu Calendar, at 9 AM, the first round of the United States Major Examination begins. Your final position on the ladder and the time you spend there will be your final score.”

The host swung his arm, and thousands of splendid lights fell, creating a beautiful sight. In the end, Jiang Ming and the others found themselves standing involuntarily at the foot of the Heavenly Ladder, neatly arranged, at intervals of more than a meter.

“Brother Jiang, let me compete with you once more. I’ll go up first!” Qiang Jiu glanced at Jiang Ming, his body full of sharp presence, and even more so, a spear’s shadow burst out above his head, piercing the Ninth Heaven.

He stepped onto the white jade staircase with a slight pause, then continued forward.

“Come on!” Long Aotian waved his fist.

“Come on!” Lan Xin also stepped onto the staircase after a fist salute.

“Brother Jiang, I hope you can still reach the top!” Qin Zhiyan gave her blessing and also took a step up.

“Let’s all work hard together!” Jiang Ming nodded to the people around him.

He did not rush up immediately, but instead looked at the candidates who had already set foot on the Heavenly Ladder. This made him notice something off.

Every candidate had a soaring momentum, surrounded by Qi, and even various illusions fell within their reach, and there was no shrinkage of the space in between.

“It’s as if, within a tiny space, everyone has their own separate room, not disturbing each other, yet able to fully erupt.”

Jiang Ming’s pupils contracted. [SEARCH THE WEBSITE TO ACCESS CHAPTERS OF NOVELS EARLY AND IN THE HIGHEST QUALITY.](#)

Shaking his head and suppressing his thoughts, he stepped onto the staircase as well. In an instant, he felt a strange force invading his body, shaking his will and shaking his spirit.

There was also a low whispering sound, reaching deep into his soul, trying to make him relax, and a strange and enchanting scene appeared before his eyes, wanting to shake his heart.

“Interesting!”

Jiang Ming remained unmoved.

The power from the first step was insignificant to him.

Continuing to ascend, he moved forward step by step.

Jiang Ming kept realizing that indeed, this place could temper one's will and refine one's spirit, providing an intangible improvement.

"One realm of cultivation for every nine steps."

He noticed it as well.

The first nine steps corresponded to the Martial Arts First Realm, and so on. Because of his strong will and unyielding spirit, Jiang Ming only slowed down when he reached the 37th step.

This corresponded to the Fifth Realm's mental will.

Jiang Ming looked around and found that most of the candidates had also reached the nearby steps.

"All of them are peerless geniuses!"

But they all slowed down as well.

After a brief comprehension, he continued forward.

This still posed no threat to him, and it didn't even play a role in his cultivation.

Thirty-eight, thirty-nine, forty...

In the blink of an eye, Jiang Ming stopped on the 45th white jade step which corresponded to the will of the peak of the Fifth Realm.

Looking to his left and right, he couldn't help but smile.

More than twenty people had surpassed him.

"There are so many geniuses!"

Even he couldn't help but sigh.

At the very front was a man dressed in white with long hair draped over his shoulders, hands behind his back, and chest held high.

Above his head, divine light gathered and turned into a hanging rainbow, and his chest was filled with dazzling divine light. He looked like a reincarnated immortal, detached from the mortal realm.

This was the Supreme Bone, Shi Lei.

Another one had an overwhelming vitality, like a vast ocean, particularly on top of his head, where the vitality turned into a rainbow with a golden glow.

He was Ye Bai, the Holy Body from Great Wilderness.

There was also someone who seemed to have transformed into a black hole, plundering all power. Jiang Ming noticed that even the strange power emanating from the white jade steps was being torn apart and devoured by this person.

It was extremely terrifying.

Fang Qinghan, the Devouring Body.

There were also Wang Qitong, Luo Qingchen, and so on, all of them surpassing Jiang Ming.

Jiang Ming turned his head and saw that Qiang Jiu was quite far behind, standing only on the 42nd step, his whole body's aura condensed to the extreme, turning into a spear shadow that soared into the sky.

As if sensing something, Qiang Jiu also looked this way. After nodding, his pupils shrank, realizing that Jiang Ming was not exerting any effort at all.

It was as if he were just casually enjoying the scenery during a leisurely stroll.

Qiang Jiu's aura condensed, and he stepped onto the 43rd step.

"You're a good seedling!" A voice sounded from Jiang Ming's right, it was Ji Yunning who was standing there with her hands behind her back.

She looked indifferent, surrounded by sword Qi, and above her head was a condensed and seemingly ethereal Sword Intention, as if she could command all the swords in the world.

Qiang Jiu suddenly turned his head to look at her, bristling with anger.

Good seedling?

Did she really think she was so great?

He had the urge to curse, but looking at her expression, he temporarily suppressed his anger—it was not the time to get angry just yet.

Because he needed to focus on consolidating his mind.

He was already being greatly affected by it.

“You’ve never shown your full strength up to now. Your temperament is even stronger than that of the Supreme Bone.” Ji Yunning said again, “In this generation of Tianjiao, if you can’t step into the 54th Heavenly Ladder, you’re nothing but a mediocre person.”

Jiang Ming glanced at her.

He didn’t expect this girl to be so arrogant.

The 54th step corresponded to the will at the peak of the Sixth Realm. For most geniuses who were only at the Fourth Realm, this was almost an unattainable height.

“Are you confident?” Jiang Ming asked.

“Of course!” Ji Yunning’s tone was indifferent, yet filled with boundless confidence, “Although I am only at the Fifth Level and haven’t even opened half of my acupoints, but...”

She laughed.

Jiang Ming’s pupils shrank.

“I’ve returned from the Ten Thousand Realms Battlefield, and if I didn’t have an iron will, I wouldn’t have been able to survive among the many geniuses.” Ji Yunning said as she withdrew all her Killing Qi and looked at him with slight seriousness. “Seeing my Killing

Qi and not being affected, you must be a decisive person too. Very good, excellent. Only with decisiveness can one go further. Brother Jiang, I'll go ahead. When it's time for the round battle, I will definitely have a good competition with you."

She flicked her clothes and stepped onto the 46th step, corresponding to the willpower of the Sixth Realm.

She slightly wobbled but steadied herself and closed her eyes.

This wasn't because she couldn't do it, but instead she was trying to comprehend.

"Is this what a true genius is?"

"Just how cruel is the Ten Thousand Realms Battlefield?"

Jiang Ming was proud of himself.

He wouldn't lose to anyone.

But now, he truly realized how terrifying these geniuses were, far beyond ordinary people.

They were born strong, and became even more terrifying when they acquired more power.

If he didn't cheat, he would fall behind.

He looked back.

Long Aotian had stepped onto the 42nd step, his Blood Qi surging, and a dragon shadow circled above his head, making him look incredibly imposing, like the son of a True Dragon.

He even directly activated his True Dragon Battle Body, becoming like a small giant, surrounded by the powerful Power of Blood, extremely terrifying.

He had already burst out.

But his demeanor was calm, and it was obvious that he still had a lot of strength left.

Perhaps his combat power was not much different from Qiang Jiu's, but his will was weaker.

Lan Xin and Long Aotian progressed together, surrounded by thunderbolts and electric arcs, and their eyes turned blue, resembling the God of Thunder.

She was not bad either.

Qin Zhiyan, however, was much weaker.

She had just stepped onto the 39th step, which also exceeded the willpower of her realm. Water and Fire surrounded her, and a red-blue bird appeared behind her, seemingly singing to the sky.

“Interesting!”

Jiang Ming’s eyes were focused as he noticed that the Vermillion Flame Icebird’s shadow activated by Qin Zhiyan was gradually becoming more substantial.

It seemed that she was using the Heavenly Ladder to cultivate, further stimulating her bloodline potential.

“Generally, they are all at the Fourth Realm, but most of them possess Fifth Realm willpower. They truly are the genius of the United Federation and cannot be underestimated. Especially this generation...”

He raised his head and couldn’t help shaking his head.

Jiang Ming continued to advance.

He walked steadily, comprehending the force that moved his heart and soul, using it for himself.

At the same time, he comprehended the surrounding principles contained within the mustard seed.

The outside world had already become lively.

Besides mainstream live broadcasts, there were also individual broadcasts, focusing on certain people and their surroundings.

Everyone in the Federation was watching intently.

In the courtyard.

“Those geniuses are truly terrifying. If I had been in their group back then, I would definitely have been overshadowed.” Instructor Yu sighed. “Old Tang, do you think Jiang can still have a chance to take first place?”

“Yes, he definitely can!” Elder Tang laughed. “Who could have imagined he would take first place during the Sea Election? At the Provincial Examination, there were hidden elites like Long Aotian and Lan Xin from the Hidden Major Clan, as well as Qiang Jiu.

Who dared to believe that he could win the championship? Yet, he did it. He even defeated all the geniuses without moving during the Provincial Examination. How incredible.”

“Although there are many geniuses now, he’s not bad. He can really fight them head-on!”

“I believe he can suppress them all!”

“I also believe he can create miracles.”

“Because I saw him grow step by step. It’s truly unbelievable, Little Yu.”

Elder Tang’s voice was resolute.

“If he finally wins first place...” Instructor Yu’s voice trembled. He looked at the projection screen in front of him and frowned. “It’s just too difficult. Look, more than twenty people have surpassed him. The first one, called Shi Lei, has reached the 51st step with his Supreme Bone!”

“Jiang isn’t bad. Look at him; he’s calm and his manifestations aren’t obvious. He’s very steady. I guess he’s comprehending the subtleties of the Heavenly Ladder’s impact on the heart and trying to gain an insight into something.” Elder Tang laughed. “This youngster’s comprehension is absolutely demon-like.”

Pingyang City, Second Level.

“Holy shit, Jiang Ming is really surrounded by beauties. Look, one is surrounded by divine light, another has soaring Sword Qi, and another is enveloped by cold mist. Not only are they beautiful, but they’re also geniuses. If I were him, I’d be happy to die.”

“Is this the glory of being the Top Selection? I really want to slap myself. Why didn’t I cultivate seriously back then? If I did, maybe I could have made it!”

“Haha, Liu Yi, don’t kid yourself! With your two-bit talent, even if you started cultivating in your mother’s womb, it wouldn’t be enough.”

“The competition has begun! Finally, it’s starting. Everyone, watch Jiang Ming take them all on and leave them in the dust.”

“Wait, why is Jiang Ming so slow? He’s been left behind by several steps. Could it be...”

“Has his potential been exhausted? Or is he just incomparable to the real geniuses?”

“Sigh, after all, he’s from the same civilian background as us. He can’t compare to their background or their extraordinary constitutions. The fact that Jiang Ming isn’t left too far behind is enough to prove his talent.”

“Who said that!” Wang Fatty stood up and said, “Jiang Ming is the latest to climb the steps, but the time he takes for each step is almost the same. What does this mean? It means that the ladder test has no effect on him! Besides, even if he can’t win first place in the end, none of us combined could compare to him..”

Chapter 159 - ill: The Era of Great Struggles

Chapter 159: Chapter ill: The Era of Great Struggles

Everyone fell silent.

Then, the classroom started to buzz.

“Holy shit, he’s in sixteenth place now!”

“No, no, he’s in fifteenth place.”

“Jiang Ming is getting faster. No, it’s the others who are slowing down, they’re all slowing down, but Jiang Ming’s speed is still very steady. He’s in thirteenth place now.”

“He’s really fast; he’s already in tenth place.”

“How about that?” Wang Fatty was excited, “It’s not that Jiang Ming can’t do it, it’s that he’s steady. Look at the others, they all started off fast, but what about now? They’ve all slowed down. Even the one in first place, but what about Jiang Ming? He’s still steadily moving forward. He’s in seventh place now, and is the first place far away? It’s definitely not far now. Come on, Jiang Ming!”

He waved his arms and shouted.

“Keep going, Jiang Ming!”

His classmates also shouted in unison.

“Keep going, Jiang Ming!”

The whole school started chanting.

“Keep going, Jiang Ming!”

The voices of Pingyang City all came together and broke through the sky.

Even the entire Tianzhong Province was in turmoil.

This time, Jiang Ming was not only representing Pingyang City but also Tianzhong Province.

On the steps.

Qiang Jiu had already fallen behind, stopping at the forty-fifth step, his Qi transforming into divine light continuously gushing out. The spear's shadow above his head hummed and trembled as if facing a fearsome enemy.

He closed his eyes, and his breath surged to its peak, even using the Intention of Penetration to its full extent, but his body still swayed slightly.

The higher one goes, the stronger the attack coming from each step.

Attacking the mind, shaking the will.

Even involuntarily recalling the past, exposing the most vulnerable side of one's heart, and being plagued by illusions, with all kinds of enchanting sounds echoing in one's ears.

Long Aotian was a position behind Qiang Jiu, his body swaying even more dangerously, seemingly unable to stand steady.

Lan Xin had also reached this step, with thunder roaring and her entire being seeming to have turned into a bolt of lightning, she wasn't much better off either.

Bang...

On the other side, someone forcibly stepped onto the forty-second step, losing his balance, and rolling down until he reached the bottom of the Heavenly Ladder.

Trying to climb up again, he found that it was impossible.

His first round of assessment was over, and he could only stare blankly at the top, then fiercely slap himself, “I shouldn't have been so impatient, if I had been more steady, I could have gone even higher!”

Quite a few people had already failed.

Looking up, none of them felt good.

They were all geniuses, proud figures in the eyes of the Federation, but when compared to others now, they were truly lacking a lot.

Jiang Ming had already reached the fifty-third step.

He raised his head and looked up.

There were a few figures on the fifty-fourth step.

Only a handful.

Shi Lei, the Supreme Bone Stone; Ye Bai, the Holy Body from Great Wilderness; Devouring Body Fang Qinghan; Chen Bei, the Reincarnation Body; Luo Feng, the Tyrant Blade; Innate Dao Body Wang Qiutong; and Li Ping'an, the Dominator Body from Great Wilderness.

All of them stood still on this step, with various phenomena manifesting, like gods or demons.

As for the fifty-third step, there were quite a few people.

Next to him stood Ji Yunning.

At this moment, her Sword Intention was at its peak, and her body was shrouded in endless Sword Qi. Even the Killing Qi lying dormant within her had gushed out and formed armor.

Her pair of eyes stared straight ahead, steady and undeterred, not moved by anything.

Feeling the gaze of Jiang Ming, she glanced over, and her eyes flickered, "I've underestimated you, Brother Jiang."

"It's because you all don't understand me!" Jiang Ming said with a faint smile, "The Heavenly Ladder attacks the mind and shakes the will, and by this step, it has almost reached the extreme limit of the Sixth Realm. With the strength of you, at the Fifth Realm, to have come this far is truly incredible."

"You're in the Sixth Realm?" Ji Yunning's pupils shrank, "Divine? Definitely! Essence, Qi, and Spirit, you've cultivated them all and achieved extraordinary results. I'm impressed, truly impressed!"

This time, she finally put down her arrogance.

"The next part will be interesting!" Ji Yunning suddenly smiled, "Brother Jiang, please!"

She pointed ahead.

Moving her finger was so difficult at this time.

“Fine!” Jiang Ming nodded and stepped onto the fifty-fourth step. This was the true boundary representing the extreme will of the Sixth Realm.

The Supreme Bone Stone and the others all looked over.

Although climbing higher didn’t necessarily mean stronger combat power, it was still a symbol.

“With a commoner’s body stepping here, Brother Jiang, you are truly amazing!” Wang Qitong suddenly spoke up.

“No, I’m also from a commoner’s background!” Fang Qinghan said, cupping his hands toward Jiang Ming, and then took a step onto the fifty-fifth step.

Faintly, one could hear a rumbling sound.

Pausing for a moment, he then took another step forward, his body shaking violently, almost falling, before finally steadying himself.

“Me too!” Luo Feng cupped his hands at Jiang Ming, his Blade Intention becoming more terrifying, blending the intentions of destruction, death, slaughter, despair, mountain-opening, and annihilation with an unparalleled killing blade. He stepped onto the fifty-fifth step as well.

His body also shook violently. Search the [n0vEl\(F\)ire.net](http://www.novel(F)ire.net) website to access chapters of novels early and in the highest quality.

Following that, a massive telekinesis surged out, making his aura stronger and more terrifying, quickly stabilizing his body.

“I’ll fight for first place as well!” Ye Bai smiled and followed closely behind.

“Everyone, let’s compete!”

Jiang Ming’s blood was boiling, and his fighting spirit soared to the skies..

Chapter 160 - 112: The First Conflict, Soul Transformation

Chapter 160: Chapter 112: The First Conflict, Soul Transformation

The fifty-fifth step, akin to the willpower of the seventh realm.

The seventh realm?

Martial arts reach the Heavenly Human Realm, the Way of Souls reaches the Soul heart stage, and body refinement achieves flexibility between big and small.

Terribly horrifying.

Most of them possess the strength of the fifth realm, yet none ever dreamed there could be such a terrifying willpower.

Unbelievable!

In particular, the audience watching the live broadcast, more than a billion people, were stunned when they learned about the mysteries hidden within the Heavenly Ladder.

“The willpower of the fifty-fifth step equals that of the Heavenly Human realm? Yet so many have ascended? Are you telling me these are still students? Are they really just students? I doubt our city’s martial art university’s principal has such capacity!”

“Incredible!”

“Unbelievable, unimaginable!”

“Are students nowadays this strong? It’s understandable if one or two stand out, but so many? Has there been a surge in the energy of Heaven and Earth? Is the cosmos having a massive energy outburst?”

“Look, Jiang Ming, who hails from a small place and was the top pick in the selection, is also preparing to ascend the fifty-fifth step!”

“Can he do it?” Search* The n0vEl(F)ire.net website to access chapters of n0vElS early and in the highest quality.

“I hope he can!”

“Yes, we all hope he can.”

“Come on, Jiang Ming, trample them all underfoot.”

Heavenly Ladder.

Jiang Ming too, with his blood boiling, took a moment to gather himself on the fifty-fourth step before stepping onto the next one. Instantly, he could feel a dreadful power penetrate deep into his soul, with countless terrifying illusions springing up before his eyes.

The fall of the gods, the destruction of Heaven and Earth, the collapse of time and space, etc.

It struck fear into his heart and seemed to plunge his will into darkness.

Images from his previous life also appeared in front of him, making it hard for him to distinguish reality from fantasy.

“So terrifying!”

With a swift thought and a shiver of the soul, Jiang Ming swiftly suppressed all discomfort.

At this moment, all eyes, including Supreme Bone Stone Shi Lei, Holy Body Ye Bai, and Devouring Body Fang Qinghan, were fixed on him.

Having already ascended, they knew the dreadfulness of this step for it was at least ten times more potent than the fifty-fourth step. They too wouldn't have managed to ascend the step if it weren't for their terrifying foundations.

Seeing that Jiang Ming quickly recovered after momentarily appearing confused, they all drew a sharp breath, feeling an intense challenge from him – an unparalleled competitor indeed, as befitting of the first pick in the selection. Only at this point did they truly start to regard Jiang Ming seriously.

Jiang Ming moved slightly, and his other foot also landed on the fifty-fifth step. From beneath his feet, from all directions, a potent spiritual and willpower emerged, setting upon him like a flood.

The longer he stayed, the more formidable the combined power became.

It's simply impossible to stay in a single step for a long time.

In his mind.

The Yin God vibrates, then transforms into the Yin-Yang Method, forming a terrible Yin and Yang defense, warding off the onslaught of attacks and simultaneously deducing the essence of this power.

At the core of the Method, his soul's origin underwent an inexplicable change, albeit subtle.

“Everyone!” Supreme Bone Stone Shi Lei suddenly spoke, his voice booming, “Everyone says that our generation houses countless geniuses, far surpassing all previous generations, and as the Heavenly Ladder attests, this is indeed the case. We, of this generation, are all the Tian Zhi Jiaozi (Proud Sons of Heaven), each housing the ambition to dominate a generation, possessing an invincible foundation and grace, rightfully earning the title of the Golden Generation.” “As the saying goes, in literature there is no first, but in martial arts, there is no second!”

“We are all prodigies, but that’s even more reason to compete.”

“Even if it’s just the preliminary round of the Grand Examination.”

“From this round onwards, none of us would hold back and put forth our best effort. Why wouldn’t we compete for the top spot?”

“First in the preliminary round!”

“No matter if it’s the second or third round!”

“If you are still the first in the fourth round, you will truly establish an invincible stature, elevating your will and evolving your spirit.”

“The prodigy among prodigies, the first among the first!”

“You should understand what this means?”

“Everyone, are you up for it?”

Shi Lei’s voice rang out loud and clear, every word transforming into a force of striking power.

He was full of momentum, like a great emperor with unstoppable force.

“Only by maintaining the first position can you be recognized as a true first, and thereby truly establishing an invincible stance!” Ye Bai immediately responded, “Challenge accepted!”

“Among peers, dominating all is what it means to be truly invincible. Now that we are assembled, a prosperous era that is seldom seen in millennia is formed. From the

moment we set foot on the Heavenly Ladder, it was destined we would pit ourselves against each other.” Luo Feng’s voice was sharp, each word striking as if being a divine sword, cleaving all in its path.

Sharp and exposed.

“Just as in every generation, there is a camaraderie among contemporaries, within it there is also a competition to be the best.” Jun Qiuye also stepped up. He casually waved his sleeve, appearing quite casual. However, his aura, thick like a ghost, gave a terrifying feeling.

As though a ghostly god had crawled out of hell.

“Then let’s compete!” Fang Qinghan opened his mouth wide, and the surrounding primal qi rolled over and rushed into his mouth like a vortex.

This scene was shockingly horrifying.

“How could you do without me!” Innate Dao Body Wang Qiutong was already steadily standing on the fifty-fifth step.

Around her, all 365 acupoints were emitting divine light, each shining like a star, cultivating the spirit within.

Extremely divine.

Along with countless Dao resonances following her.

Especially her eyes, they were glowing with an indescribable divine light.

“In the world where prodigies gather, it is a world of great competition, of course, we have to compete!” Three-Eyed Yang Jian also stepped up.

At this moment, his third eye on his forehead had opened, emitting dreadfully destructive thunder light that was blotting out the attacks rushing in from all directions..

Chapter 161 - 112: The First Conflict, Soul Transformation!

Chapter 161: Chapter 112: The First Conflict, Soul Transformation!

Furthermore, spatial fluctuations appeared around him.

This was an extremely terrifying person.

“I’m the best in the world!” Li Ping’an’s body trembled, and his upper clothes burst open, revealing an extremely strong body.

His muscles knotted, containing explosive power.

The terrifying fluctuation of his Blood Qi was no less than that of the Holy Body, Ye Bai.

What was even more unbelievable was that the power attacking him actually distorted, with much of it slipping away from him.

“Gravity? Attraction?”

Seeing this scene, Jiang Ming’s pupils shrank.

Li Ping’an, the Dominator Body from Great Wilderness, had actually comprehended such strange power, he was also a formidable opponent.

And there were a few others who, by now, had demonstrated powers that made his eyebrows twitch, giving him a strange feeling.

“Life and Death, reality and illusion, Light and Darkness, are not Reincarnation. Only above the utmost limits can one see the deepest abyss, so it’s inevitable to compete.” Chen Bei also stepped forward.

At his abdomen, a strange power bloomed, seeming to nurture a One-party World within.

Even more terrifying was the power to devour, drown, and bury everything, which was by no means inferior to Fang Qinghan.

This person was the Reincarnation Body.

“Who will reach the peak of the Heavenly Ladder? Immortal Spirit Body leads the way, with myriad paths in vain!”

Luo Qingchen appeared to be extremely proud as well. Above her head, it seemed as if an immortal door had opened, releasing strands of Immortal Spirit Qi, making her state always at its peak.

“Who will reach the peak of the Heavenly Ladder? Cold ice leads the way, rendering the Immortal Spirit Body without bearing!” Search the NOVELFire(.)NET website to access chapters of novels early and in the highest quality.

Bai Bing's body emanated extreme cold, snowflakes swirling around her, each snowflake comparable to a Divine Weapon.

Above her head, even more so, a fog loomed, seemingly containing terrifying power.

"Taiyin Law!"

Jiang Ming saw through the opponent's bottom line with just one look.

Not only was Bai Bing an ice-cold body, but her Martial Art cultivation was also unparalleled, and she practiced the Divine, reaching the Sixth Tier realm.

"Who will be the peak? It shall be me, the Supreme Sword Skill!"

Ji Yunning stepped up, swirling sword Qi above her head.

But when she looked at Jiang Ming, her brows furrowed slightly, because she sensed an even more terrifying Sword Intention from within Jiang Ming.

She had not discovered it before.

"If it weren't for this place, where I have to suppress the power of the Heavenly Ladder, I might not have discovered this fellow's deep concealment. Cunning fox!"

Only then did Ji Yunning truly feel the horror of Jiang Ming.

"Who will be the peak of the Heavenly Ladder?" Jiang Ming laughed, "Let's see who is the peak!"

As his words fell, he stepped forward once again, the first to step onto the fifty-sixth step.

Hum...

The power of the Heavenly Ladder surged like a tsunami, wanting to obliterate him completely. His body swayed slightly, and the dormant power of Blood Qi, as vast as mountains and seas, could no longer be hidden— it burst forth in an instant.

The Blood Qi transformed into a red glow, shooting straight into the bullfight.

An invisible yet seemingly tangible wall of Qi surrounded him.

The violent aura made the pupils of other powerful beings shrink.

"What a powerful physique, not much weaker than mine!" Li Ping'an, the Dominator Body from Great Wilderness, was astonished. "Such a profound aura, such a

domineering power, he has gone far in the Body Refinement path. No, he's not a Dominator Body, he's not a Holy Body, he's not a Divine Body, and he's not any special physique."

"An ordinary Mortal Body!" Wang Qitong's eyes shone brightly, revealing an astonished expression. "With only a Fifth-Tier physique, he has almost reached the limit of the potential of his flesh. It's incredible, extremely incredible. The peak of limitations, the extreme restraints, how did he do it?" "A Fifth-Tier Mortal Body and such terrifying Blood Qi?" Li Ping'an was shocked again. "If he had a Dominator Body, then..."

His expression became extremely complicated.

"An Extreme Boundary Ordinary Body, isn't it?" Holy Body Ye Bai also showed a complicated expression. "No wonder his Blood Qi gives me an extremely pure feeling. After refining a Fifth-Tier body, he has a physique not much weaker than mine. Admirable, truly admirable!"

"I even feel somewhat ashamed!" Shi Lei looked down at his chest and couldn't help but smile bitterly. "I'm arrogant and even prouder, but most of this comes from my Supreme Bone. But as for Brother Jiang... Admire!"

It was not only them, Bai Bing and the others also had complicated expressions on their faces.

Especially Long Aotian below, who sensed Jiang Ming's true Blood Qi power and couldn't help but grin: "If he had used this kind of power back then, combined with Inch Fist, maybe he could have blown me to pieces with a single punch. This youngster is truly awesome, it's worth it for me to admit I'm his big brother!"

"Come on, step on them all!"

He waved his arms, but the terrifying power coming from all around made him change his expression and quickly calm his mind.

"Everyone, your talent is in your physique, and mine is in my brain. There's no difference!" Jiang Ming laughed and closed his eyes, carefully dealing with the onslaught of energy from his soul and consciousness.

"Brain? Against the Heavens comprehension, a mutated Spirit?"

With a turn of thought, Ye Bai and the others didn't think about it anymore and continued to climb.

But with just one step, it was as if they were struck by Thunder.

Bai Bing was deathly pale half a step later, already having cold sweat appearing on her, not daring to move any further.

“From now on, it’s going to be difficult!” Three-Eyed Yang Jian’s face turned ugly. “The onslaught of will from the Seventh Realm, one layer after another... Everyone, we’re in big trouble!”

“Not troublesome!” Fang Qinghan whispered and stepped onto the fifty-sixth step, but his body shook violently.

He seemed to have turned into a real black hole, the Devouring, plundering, grinding and annihilating power was at its peak.

Three-Eyed Yang Jian’s face turned ugly.

Luo Qingchen’s face also turned ugly because she only stepped half a step.

“I am an Immortal Spirit Body, how could I lose to a Mortal Body!”

Chapter 162 - 112: The First Conflict, Soul Transformations

Chapter 162: Chapter 112: The First Conflict, Soul Transformations

She roared in her heart, and stepped up with her other foot, but it felt as if she was struck by lightning, and under intense trembling, she couldn’t help but kneel on one knee.

Blood sprayed from her nose.

“Open for me!”

Dao Qi above Luo Feng’s head turned into substance, and combined with incredibly powerful telekinetic force, it cut open the sharp edge in front of him and he forcefully stepped onto the fifty-sixth step.

Compared to her, he stood more steadily.

But the Dao intent was stronger and more terrifying.

“My holy blood paves the way, suppressing all bizarre and inauspicious things!”

As Ye Bai’s voice fell, his overwhelming power of blood turned into a substance laid down on the steps ahead, and he took a step up.

It was just that his face suddenly turned pale.

White in white, even more white.

“I am the supreme, all of the roads obey me!”

Shi Lei completely erupted, he leaped lightly and jumped onto the upper steps.

Jumping like this at this level?

Ye Bai and others were all shocked.

Even Jiang Ming was shocked.

Even the hundreds of billions of people watching the live broadcast were shocked.

“You’re awesome!” Chen Bei raised his thumb, and a bizarre aura suddenly appeared around him, which actually absorbed the attacking power of the Heavenly Ladder. In a moment, he was lifted to the fifty-sixth step.

“You’re even more awesome!” Seeing this scene, Shi Lei couldn’t help but grin.

What the hell?

What kind of ghosts are these?

Jiang Ming felt the urge to curse.

At the fifty-fifth step, everyone was extremely embarrassed, but after the competition, everyone became more relaxed.

Of course, there were also difficulties, such as Bai Bing, and Three-Eyed Yang Jian.

“If you are really awesome, continue on!” Jiang Ming suppressed many thoughts, and with a smirk, he went up a few steps. [SEARCH THE NOVELFIRE .NET WEBSITE](http://www.novelfire.net) TO ACCESS CHAPTERS OF NOVELS EARLY AND IN THE HIGHEST QUALITY.

This time, he was also extremely relaxed.

Really relaxed.

How many of the Ten Great Intentions did he comprehend?

Space, Yin and Yang, Life and Death, Light and Darkness, Immeasurable, Soul, World, a total of seven.

As for other intentions?

If not a hundred, at least a few dozen.

Each comprehension would make the Dao Resonance carry out a tempering and baptism of the soul will, bringing a terrifying increase.

He was still a Sixth-Tier God Cultivator, and his soul was innately strong.

Martial arts practice and body tempering would also strengthen the will.

All these factors added together made him inhuman.

The key point was that Jiang Ming had the Talent of Soul Dominator.

Now as he climbed higher, the bizarre aura of the Heavenly Ladder stimulated his soul will, and it underwent mysterious changes.

Waves of Origin Power seemed to awaken from slumber, making his soul purer, stronger, and increasing his resistance to the will attack from the Heavenly Ladder.

“Is this the passive promotion of the Soul Dominator talent?”

Jiang Ming had some guesses.

However, his easy step onto the fifty-seventh step left Ye Bai and others dumbfounded.

Although we were hiding something, even now at our peak, we are almost at our true limit!

You, Old Gou, are becoming more and more relaxed.

“Everyone, keep going!” Jiang Ming said, taking another step.

Terrifying forces around came from all directions, turning into a Ruyi Heavenly Blade and fiercely slashing at his Spiritual Sea. It easily broke through the ‘domain’ barrier he activated with Dharma Phase, but was easily dispelled when it hit his soul.

Once again, he activated the Soul Realm for defense.

Jiang Ming felt that this time, the Soul Realm was even stronger.

Klang...

Another Ruyi Heavenly Blade came, but this time it was blocked by the defensive light of the evolved domain in his Sea of Consciousness.

“Stimulating my Talent of Soul Dominator and transforming my soul, this is like a heaven-defying opportunity!”

Jiang Ming was overjoyed.

However, Shi Lei and others’ faces were all ugly.

Really ugly.

“How can you be so strong?” Now that Luo Qingchen had steadied herself and saw Jiang Ming, she showed incomprehensible resentment and tried to climb again.

But the invisible force shattered her will, and in response, she was bombarded and fell under the Heavenly Ladder.

“Is that the limit?” Jiang Ming was surprised, “It’s not difficult, everyone, really not difficult, don’t believe me? I’ll try again for you.”

He stepped onto the fifty-ninth step, his body suddenly swayed, but quickly steadied.

He turned around and smiled at Shi Lei and the others, “See, it’s simple.”

Ye Bai and others’ faces were all like they had constipation.

It looked even worse than bashing a dog..

Chapter 163 - 113: The Ultimate Sword, Shaking the Entire Federation

Chapter 163: Chapter 113: The Ultimate Sword, Shaking the Entire Federation

Supreme Bone, Holy Body, Dominator Body, Reincarnation Body, Innate Path Body, Immortal Spirit Body, Sword Bone and more are showing their extraordinary potential.

Especially the power that burst out at the last moment, has already reached a non-human level, far surpassing the same realm.

It's utterly inconceivable.

But it is so.

Jiang Ming, who has always been unremarkable and has no special abilities, managed to keep up with the pace, and in the end, he even surpassed all the prodigies in a surprisingly relaxing way.

Supreme Bone was dumbfounded.

And the Holy Body was also thrown into chaos.

This is completely beyond reason.

In the yard.

Elder Tang and Coach Yu were also dumbfounded.

"Impossible!" Coach Yu stood up with shock, "It would be understandable if he kept up, but now, now... he surpassed the Supreme Bone and others who had burst out with their full strength? He is even more and more ahead? Elder Tang, am I seeing things?"

"I'm seeing things too!" Elder Tang blinked and frowned, then he held his head, finally he broke into laughter, "I told you, he is not weaker than anyone, not weaker than anyone at all, haha, look, he's first again, he did it so easily. What is Supreme Bone, what is Holy Body, what is Dominator Body, What is Immortal Spirit Body, what is Reincarnation Body, all of them are not important, all are crushed and trampled underfoot. Good job, Jiang, you really know how to create miracles, turning impossibility into possibility, awesome!"

Even he couldn't help but giving a thumbs-up.

"Awesome!" Coach Yu was even more excited, "Our province of Tianzhong, haha, we will be soaring through the sky based on his achievements. It is worth the investment. When this round of the Grand Examination comes to an end, we provide him with anything he needs. Opening up all the treasuries, allowing him to attain the greatest improvement in the shortest time. Using the power of the entire province to build our own trump card."

"That's the way!" Elder Tang clapped his thighs, then solemnly said, "Which prodigy doesn't have a powerful family or profound background behind them? They are definitely not willing to be suppressed by the first round of the Grand Examination. They will strive to increase their strength in the shortest time."

“Makes sense!” Coach Yu nodded gravely, “Like the Innate Path Body, all the meridians have been opened, as long as there are ample great elixir pills, the acupoints can be filled rapidly, and then they can attack the Sixth Realm. If the Supreme Bone and others step into the Sixth Realm, then...”

His brow furrowed deeply.

“They could potentially overpower the Seventh realms, definitely be a formidable foe.” Elder Tang continued, “When Jiang comes out, ask him what he needs? Let him also have an explosive growth. As for the things in the treasury? If we don’t use them now, then when?”

“Using resources on him is equivalent to striking on the enemy!” Coach Yu immediately made contact, they reached a consensus in the shortest time: this time, they intend to give their all in training.

No background? The entire Tianzhong is his background!

No heritage? The power of an entire province is his heritage!

All of the 108 Provinces, numerous hidden families, even the Blessed Land of Pocket World, and some life-bearing planets.

Everyone was watching the live broadcast.

And they were all shocked.

Supreme Bone and Reincarnation Body were suppressed?

This is nonsense!

After the shock, it was a wild celebration.

Especially the ordinary people, they were truly ecstatic.

“So what if he has a Mortal Body? He still suppressed all of you!”

The spirits of numerous ordinary people were also rising.

Pingyang City was the most excited of all.

At this moment, the whole city was cheering.

The high-rise buildings were even vibrating with the cheers.

Even though it's just the first round of the Grand Examination, it has already revealed a lot.

"Our student Jiang from our city is no weaker than anyone else!"

Cheers, celebration, firecrackers, fireworks, made the whole city boil with excitement.

The most enthusiastic place was Second Level.

"Jiang Ming is awesome, Jiang Ming is mighty, Jiang Ming is domineering, well done, my little Ming!" In the classroom, Wang Fatty was standing on the table and shouting.

Not only him, everyone else was also extremely excited.

If it was the previous group, it doesn't matter.

Take a look at this group? What the hell are these?

Jiang Ming has surpassed them.

Teacher Chen in the classroom was also so excited that his face was red, shaking with emotion.

"Good job, really good job, the student I taught is stepping on many prodigies. Does this mean, does this mean that my name will be written into the annals of history?"

He shivered with anticipation at this thought.

"Look, look, Jiang Ming is still climbing, oh my god, it's the 60th step. He's so awesome!"

While cheering, they were all also staring at the screen.

On the Heavenly Ladder.

Indeed, Jiang Ming stepped onto the sixtieth step, stood on it, swayed three times, and finally stabilized.

The formidable attack came like a tsunami, destroying the spirit, obliterating the will, it was utterly terrifying.

Just a moment ago, he felt as if he could barely hold on.

But having resisted the first wave, the following ones weren't challenging for him.

His soul was still undergoing metamorphosis, still soaring, resistance was also constantly increasing. He even had a faint feeling that a beam of light was radiating from his spirit, keeping him away from the darkness forever.

“Can I count on the power of the Heavenly Ladder to split my consciousness into two? One part residing in the Yin God Dharma Image, enabling me to attack when I leave my body; the other part controlling my physical body, so that even without the Yin God, I can still fight on my own?”

It’s an idea he had a long time ago, but he had no clue how to do it.

When the Yin God leaves the body and merges with Heaven and Earth, it can unleash the most terrifying power; when the Yin God is in the body, whether it’s magic skills or various clever techniques, their power will be halved.. Chapter 164: Chapter 113: The Ultimate Sword, Shaking the

Entire Federation 2

This is also the real drawback of the Path of the Soul.

The stronger the soul power, the more fragile the physical body becomes.

After closing his eyes for a long time, trying to deduce and evolve, still, he could not find a solution.

“The soul is the root, the foundation, the source, and the master of the body; the mind... also belongs to the soul.”

In the end, Jiang Ming shook his head.

If it cannot be obtained, then temporarily suppress it.

After all, in the past, it seemed that such a situation had never occurred. If he wanted to create it, it would definitely not be an overnight success.

He then turned his attention to the people below.

The number of people on the Heavenly Ladder had decreased significantly.

Only nearly half remained.

However, many of them were tottering, apparently unable to hold on for much longer.

The leader was Shi Lei, the Supreme Bone Stone, who had reached the fifty-eighth step. But he was also unstable, even though terrifying phenomena had erupted from his chest before.

The bright moon above the sea, the golden lotus in the fire, the image of the Immortal King opening the heavens, and the true dragon soaring through the Nine Heavens, all struggled to withstand the terrifying onslaught.

“The attacks of the Heavenly Ladder directly target the mind, and the power of other divine abilities is weakened to a lesser extent.” Jiang Ming understood the true meaning behind this.

The number of steps could not represent the final combat power.

Otherwise, this round alone would have been enough.

Shi Lei finally stabilized himself.

“How’s it going?” Jiang Ming asked with a smile.

“Nothing much!” Shi Lei raised his head and smiled bitterly, “Who could have thought that you had been hiding so deep? No, it should be said that the Provincial Examination after the Sea Election did not force your true strength out. Now that I see it, it’s really unbelievable. Brother Jiang, the first place is yours. You don’t have to wait for us anymore. Your waiting ahead will only put pressure on us, and I still want to try my best here.”

“Brother Jiang, please go ahead!” He raised his hand and pointed to the higher steps.

“Although I don’t want to admit it, you’ve already won this round. Please go ahead!” Ye Bai also said, “In the fourth round, I’ll definitely have a good fight with you.”

“Brother Jiang, please go ahead!”

Li Ping’an, Wang Qiutong, and others also spoke one after another.

Obviously, Jiang Ming at this moment had made them lose their minds to catch

up.

“Alright then.” Jiang Ming said helplessly, “I wanted to proceed alongside you all, but now... what a pity, what a pity...”

You guys are too weak.

Although he didn't say this sentence, everyone could hear it.

Immediately, teeth grinding sounds ensued.

“He really deserves a beating!” Wang Qiutong whispered.

The others all agreed.

“Ladies and gentlemen, then break through your limits and see how far you can go.” Jiang Ming had already turned around, “I also want to see my limit, whether I can step on the last step.”

As soon as his words fell, he began climbing the steps again.

This time, Shi Lei and the others did not move but instead just looked up at him.

They also wanted to see how far Jiang Ming's willpower could go.

Jiang Ming's blood roared like a river and sea.

His Qi surged like a tidal wave.

The soul power was surging to the extreme.

Various realms revolved around him as well.

Many terrifying images appeared around Jiang Ming's body, but they were like flowing clouds, making it impossible to see them clearly.

He spent a very long time on each step.

Then continued to climb.

With another step, Jiang Ming stepped onto the seventy-third step.

This represented the peak of the Seventh Realm's willpower.

Boom...

In an instant, Jiang Ming's vision darkened, and he saw a planet falling from the endless void, directly crashing towards his Sea of Heart.

"Concentrate the Qi and spirit!"

Within the Sea of Consciousness, in the illusion, using the power of the soul as the foundation, he condensed the Qi, integrated it into his blood, and then infused it with the power of the realm. Finally, he evolved into an extremely dazzling sword-light that soared into the sky, cutting the planet in half and then shattering it.

Thousands of fragments turned into falling meteors, plaguing his mind with countless wounds and disorder.

Fortunately, he had managed to block the attack.

Jiang Ming's soul underwent another transformation.

It was fundamentally enhanced and strengthened.

Not to mention others, just in the same level of divine soul attack, it couldn't bother him at all. Even the most bizarre and unpredictable curses would have no effect on him.

After Jiang Ming stabilized, both the Tianjiao on the screens before and on the Heavenly Ladder were all dumbfounded.

"He actually stood firm on the sixty-third step!" Supreme Bone Shi Lei couldn't believe it, "It represents the willpower of the Seventh Realm Peak! I know that there is a huge difference between each step. Within the Seventh Realm, there is a huge gap in strength, with the strong being able to kill the weak in seconds."

"He is really going against the heavens!" Wang Qitong was shocked, "All the students in the Saint Academy are geniuses among geniuses, possessing extremely astonishing talents, usually having special abilities, and even often climbing the Heavenly Ladder to temper themselves. However, even so, many Seventh Realm students can't climb the sixty-third step, but he did it. This is so incredible."

"He definitely has a terrifying soul talent!" Fang Qinghan came to the conclusion, "Otherwise, he would never have reached this point."

Others nodded their heads in agreement.

They still didn't move.

But Bai Bing shook again, obviously unable to hold on for much longer, but still looking at the front.

Not only him,

At least tens of billions of people in front of the screens were also watching.

After a long time, Jiang Ming moved again.

“The sixty-fourth step represents the willpower of the Eighth Realm’s mind and spirit. Can I make it?”

Jiang Ming had no confidence.

He still took a step up, and in an instant, a terrifying force was transmitted from below, sweeping his spirit into a false place.

The Sea of Heart shone brightly, but set off a huge wave.

Below the Sea of Heart, darkness appeared, then enlarged into a hell abyss, from which came the wailing of billions of resentful spirits, endless curses, and eerie cries.

Furthermore, thousands of skeletons emerged, and endless death energy permeated, trying to engulf his spirit completely.

“Soul World, light and dark blend!”

Jiang Ming was extremely tense, making appropriate judgments based on the corresponding power.

All kinds of forces evolved, turning into oppressive power.

The wailing, curse power and so on began to weaken, and gradually disappeared, but under the Sea of Heart, there was still a pitch-dark abyss, constantly trying to engulf his spirit.

Fortunately, he stabilized himself.

Jiang Ming exhaled a foul breath and lifted his other foot onto the sixty-fourth step.

The next moment, the bizarre event suddenly escalated.

Above the sky dome, the great sun that illuminated countless lives suddenly fell, causing the sky to twist, space to rupture, and the earth to ignite towering flames, plunging countless beings into desperate screams.

This scene after scene violently impacted his spirit.

This was what the ‘eyes’ saw.

It was incredibly real.

But Jiang Ming was also very clear that this was an Illusion Territory.

The alternation of illusion and reality made it difficult for him to distinguish.

The Sea of Heart once again rippled, and the abyss of darkness underneath became restless.

It gave him an incredibly terrifying sense of death oppression.

“Heavenly Sword, come out!”

“World Concepts, form a framework and integrate!”

“Yin and Yang fill, Life and Death revolve, Light and Darkness merge, with boundless weight, Space as the boundary, Soul as the bone!”

“Killing, Death, Destruction, Decay, Withering, Thunder, Five Elements... turn into branches and leaves.”

“Blood Qi integrates and penetrates up and down!”

“Open for me!”

Under the extreme pressure, Jiang Ming completely burst out.

All kinds of thoughts, countless conjectures, all turned into actual actions, converging into an ultimate blow.

The soaring Sword Intention tore through the vastness, penetrated the starry sea, and slashed on the falling great sun.

Boom...

With a loud explosion, the heavens and the earth trembled.

The great sun was forcibly split in half, and in an instant, flowing fire scattered, the sky, the heaven and earth, and the land all turned into a sea of fire.

Even Jiang Ming's Sea of Heart was ignited.

The abyss below once again opened its gluttonous mouth, swallowing his whole spirit.

“I actually failed!”

“But my sword succeeded!”

Jiang Ming sank into the darkness.

After a bright light flashed before his eyes, he found himself at the bottom of the Heavenly Ladder.. [SEARCH THE WEBSITE](#) to access chapters of novels early and in the highest quality.

Chapter 165 - 114:1 Want to Break Through

Chapter 165: Chapter 114:1 Want to Break Through

Below the Heavenly Ladder.

Jiang Ming looked up, but the surrounding candidates who had already descended were all staring at him, showing shock.

Half a step to the sixty-fourth step?

This was not unbelievable but a miracle.

“Brother Jiang, how did you do it?” Qin Zhiyan had also completed her journey of climbing the Heavenly Ladder, and at this moment, she came to him with shock and asked, “Do you remember the sea election when you entered the Sky Tower and reached the Sixth Layer? Now, on the Heavenly Ladder, you have reached the Eighth Realm.”

She was genuinely shocked.

“Simple, I just walked and did it!” Jiang Ming laughed.

Qin Zhiyan couldn’t help but roll her eyes.

One by one, the number of candidates on the Heavenly Ladder dwindled.

Finally, Fang Qinghan, the last one, descended. She stopped at the fifty-eighth step, a height that others found hard to reach.

“I thought I could easily win first place when I was born, but...” Bai Bing walked over. “The Holy Body, the Dominator Body, the Reincarnation Body, the Supreme Bone, and

the Innate Path Body dealt a blow to my confidence. However, I will not admit defeat. After today, I will start to improve my strength.”

“In the end, I underestimated you and everyone else in the world,” Luo Qingchen also walked over, shrouded in divine radiance, “I thought the Grand Examination would be a breeze, and I could easily dominate the world!”

She paused, shook her head, and continued, “From now on, I will no longer remain dormant or accumulate resources. I will open the treasury of my clan, request the great elixir pill and directly enhance my cultivation level, filling all of Zhou Tian’s Acupoints, and then comprehend the Heavenly Phenomenon Realm. Brother Jiang, during the finals, I will fight you with Heavenly Phenomenon Power.”

“If you still want to maintain your first place, you’d better work hard!”

“The current first place is so insecure!”

After Luo Qingchen spoke, she raised her snow-white neck.

“This battle, I’ll give it my all, and of course, that includes improving my strength.” Shi Lei looked over. “Brother Jiang, it’s not just them two, but we will all explosively enhance our strength. Because we can’t lose, we all have the pride of Tianjiao and the belief in victory. But the pressure you have put on us is too great. This time, we will spare no effort to prepare and aim for the first place. You’d better be prepared as well, or else, don’t blame us for being too aggressive when we defeat you.”

Three-Eyed Yang Jian, Holy Body Ye Bai, and Reincarnation Body Chen Bei, and others were all high in fighting spirit.

“Then let’s have a fierce battle!” Jiang Ming laughed. “If you don’t fully prepare, I would feel bored. Just like this time climbing the Heavenly Ladder, when I aimed for the first place, and in the end...” [Search the website to access chapters of novels early and in the highest quality.](#)

He shook his head.

“This guy is so infuriating!” Shi Lei felt an urge to swear at him.

Li Ping’an and the others were all itching to attack.

But recalling the situation on the Heavenly Ladder, they couldn’t help but bitterly laugh.

The invincible ambition at that time now seemed like a ridiculous joke.

At this moment, the host appeared. With a gentle wave of her hand, everyone involuntarily flew to the Heavenly Ladder.

Jiang Ming landed on the sixty-third step, and a golden T appeared above his head.

This represented first place.

The candidates also appeared on the corresponding steps, manifesting the ranking order.

Second place – Supreme Bone Shi Lei.

Third place – Devouring Body Fang Qinghan.

Qiang Jiu, ranked seventy-eight.

Long Aotian, ranked eighty-two.

Lan Xin, ranked eighty-five.

Qin Zhiyan, ranked one hundred and eight.

For Tianzhong Province, this was an unprecedented, heaven-defying result.

It was truly heaven-defying.

Four top one-hundred places.

And someone even took the first place.

After confirming the rankings and exchanging some encouraging and celebratory words, as well as explaining the rules for the second round of elimination the next day, the live broadcast ended.

“See you all tomorrow!”

Jiang Ming also bowed his hands to Shi Lei and others before exiting the Virtual Combat Network.

In the room, he opened his eyes.

His body didn't feel uncomfortable.

But compared to before entering, the power of his soul had exploded more than ten times, his will was more resolute and stronger, and even a light of the soul appeared.

“The gains from this time are too great, it's a rare opportunity to consolidate!”

Jiang Ming stood up, turned off the machine, and walked out.

“Welcome back, our hero!” Elder Tang had been waiting at the door for a long time. When he saw Jiang Ming come out, he couldn’t help but laugh heartily.

“He is indeed a hero, the hero of our Tianzhong Province.” Coach Yu was also very excited. “From now on, every corner of the world will know you. A battle that shocked the world will make you famous for all eternity.”

“Coach Yu, you’re flattering me too much!” Jiang Ming quickly waved his hands. Renowned for all eternity?

That was too much pressure for him to handle.

At this moment, the other rooms also opened one after another, and Qiang Jiu, Long Aotian, Lan Xin, and Qin Zhiyan all walked out.

“Welcome back, you guys, in this generation, have broken the historical record of our Tianzhong Province. Today is worth commemorating, and you will surely be recorded in the history of the province. Come, I have prepared a celebration banquet for you.” Coach Yu led the group to the hall.

Here, a sumptuous feast had already been prepared.

“My result is just too bad.” After sitting down, Qin Zhiyan was feeling down.

It was inevitable.

After all, her ranking was the lowest.

If it wasn’t for awakening the power of her mother’s bloodline, her results might have been even worse.

“You have done very well,” Elder Tang comforted. “In previous years, you would have had the strength to compete for the top ten, so don’t belittle yourself. By the way, you have comprehended the Water and Fire Path. In this regard, you can ask him for help. Boy, can you help her?”

“Can I say no?” Jiang Ming laughed. “Sure, of course!”

“Will it not hinder your cultivation?” Qin Zhiyan hesitated..

Chapter 166 - 114:1 Want to Break Through_2

Chapter 166: Chapter 114:1 Want to Break Through_2

“Don’t worry, it won’t affect me.” Jiang Ming said as he looked at Coach Yu, “Although I ranked first in the Heavenly Ladder competition, Shi Lei and the others aren’t discouraged and still have strong confidence. They claim that they will undergo explosive growth in the future, which leaves me without much assurance.”

“I also need help!”

“Help me improve further!”

His eyes were filled with anticipation.

“Whatever you need, just say it!” Coach Yu waved his hand generously and said to Long Aotian and the others, “If you need anything, you can also propose it, and the province will consider providing help. But for Jiang Ming? The decision was already made; we will do our best to assist him, striving for the first place in the Grand Examination. You guys should stop overthinking.”

“We are not three-year-old kids; we know the priorities.” Long Aotian laughed, “Besides, with my situation, unless I get a True Dragon’s Blood or True Dragon’s Heart, it is impossible for me to enter the top twenty. My current goal is to enter the top fifty, which is quite pitiful.”

He scratched his head and couldn’t help but sigh.

Before the Provincial Examination, his goal was to rank first in the Grand Examination.

As a result, he was chastised at the Provincial Examination.

Today’s Heavenly Ladder competition made him see the gap between him and the first-tier geniuses more clearly. Although he was proud, he had no choice but to face reality.

“Elder Tang, Coach Yu, is it really impossible for me?” Lan Xin had taken quite a blow, and her confidence was affected.

“No, it’s not impossible!” Elder Tang said seriously, “You awakened the power of thunder and realized the Thunder Realm; your talent is no less astonishing than any of them. What you lack is foundation and the way of fighting. In simple terms, you had a happy childhood; you haven’t experienced enough hardships, setbacks, or killings. Ask Qiang Jiu about his childhood, and ask Jiang Ming how many lives he has taken.”

“My childhood has always been accompanied by my spear!” Qiang Jiu became even more silent, “My father said that I don’t possess extraordinary talent, so I could only

cultivate the Art of Spear with sweat and hard work. At the age of four, I started practicing with wild beasts.”

“Elder Tang, is it really impossible without extraordinary talent?” He asked back.

“Don’t you already have an answer in your heart?” Elder Tang laughed.

“Yes, Jiang Ming is half the case; he possesses extraordinary comprehension.

Besides, there is another mortal who killed countless people in the Ten Thousand Realms Battlefield.” Qiang Jiu’s eyes brightened, and his spear intent became more solid and terrifying, “What I lack is time.”

“You saw blood early, killed early, but had very few genuine life-and-death fights.” Elder Tang guided, “After all, you are still too young. Qiang Jiu, don’t underestimate yourself. You’re no weaker than anyone else.”

“Thank you, Elder Tang!” Qiang Jiu expressed his gratitude solemnly.

His fighting spirit was even stronger now.

Then they all looked at Jiang Ming.

“I have slaughtered mountain thieves, with blood flowing like rivers; I have destroyed first-tier sects in the World of Secret Realm, piling up corpses like mountains.” Jiang Ming knew that Elder Tang was using his experiences to point out Lan Xin’s shortcomings, so he simply mentioned his past killing experiences, “Once, I invaded the Imperial City and killed a thousand people with a single sword; another time, I invaded the Barbarian Army and slaughtered hundreds of thousands; I also suppressed the Ghost City and killed countless ghosts; I went to the Ten Thousand Demon Mountain and killed all the demons and monsters. Furthermore, I’ve broken through the world’s limits twice and fought against human-shaped lightning.”

“You experienced such bloody battles?” Lan Xin was moved.

“Awesome!” Long Aotian was also shocked.

“I’m really not as good as you!” Qiang Jiu’s pupils shrank, “After the Grand Examination is over, I will enter the World Secret Realm to hone my spear arts. Spears can only achieve greater advancement in actual combat.”

“In the World of Secret Realm, I always took shortcuts while you pushed through.” Qin Zhiyan sighed and asked, “Will human-shaped lightning appear after breaking the world’s limit?”

“Yes! However, it’s too difficult, extremely difficult to break the world’s limit.” Elder Tang looked at Jiang Ming; there was a hint of admiration and pity in his gaze. He explained, “The World of Secret Realm’s bearing limit is the Fifth Realm of Martial Arts, but the human-shaped lightning that appears has opened up 365 acupoints and possesses the power to control thunder as well as the power of Heaven and Earth. The combat power of human-shaped lightning is equivalent to the Sixth Level Peak, and it is almost impossible to defeat.”

Qin Zhiyan looked at Jiang Ming with even more astonished eyes.

“He is just an anomaly; you guys shouldn’t compare yourselves to him. Didn’t you see that on the Heavenly Ladder, even the Supreme Bones almost vomited blood out of anger!” Elder Tang laughed and asked Jiang Ming, “Kid, what do you need? Hurry up and tell us so you can start cultivating right away.”

“I want to make further progress in body refinement, trying to step into the Realm of the Sixth Transition. So, I need some powerful blood-replenishing items.” Jiang Ming naturally didn’t hold back.

“Alright, I’ll have them delivered tonight!” Coach Yu agreed without hesitation.

After dinner, it was already evening.

In the courtyard, Jiang Ming sat and drank tea.

At the same time, he utilized his Water-Fire True Qi, merged with the power of Water-Fire Realm, and enveloped the cultivating Qin Zhiyan within it.

He thus used this intuitive method to promote her growth.

As for whether there will be improvement?

He was not sure since the time was too short.

After putting down the teacup, Jiang Ming split his thoughts into two parts and began his cultivation.

He circulated the Longxiang Heaven Suppressing Skill to temper his bloodlines.

Now, his blood flowed like beads. Each drop of blood contained terrifying power and felt incredibly heavy.

His blood was like mercury.

He had already cultivated the Blood Replacement Realm to the Great Success, but he was still a little short of Perfection. If he cultivated step by step, he would be at most

perfect during the Grand Examination, and the probability of breaking through would be too small.

Humming...

At this moment, a Vermilion Flame Icebird rushed out of Qin Zhiyan's head and let out a cry, then danced happily.

The power of Water and Fire surrounds it, and the Dao Resonance is unparalleled.

"She actually reached the realm of comprehension so quickly!" Jiang Ming was very surprised.

The visions converged, and Qin Zhiyan opened her eyes, smiled at him, and said, "Thank you, Brother Jiang, I really don't know how to repay you!"

"I just happen to need a little maid!"

"Annoying!"

"Haha..." Jiang Ming laughed, "Next, do you want to use Water and Fire as a stepping stone to comprehend Yin and Yang Realm or try to break through to the Fifth Level?"

"Comprehend the Yin and Yang Realm. My goal is to break into the top hundred, so it doesn't matter if I break through or not. I have a poor foundation, and I plan to stay in the Fourth Level realm for some time to increase my accumulation." Qin Zhiyan was clear-headed. [SEARCH* THE website to access chapters of novels early and in the highest quality.](#)

"Then let's first comprehend the Yin and Yang Realm. If you start to comprehend it, it will be easier later!" As Jiang Ming said that, the power of Water and Fire turned into Yin-Yang True Qi, and the Tai Chi diagram began to rotate. The Dao Resonance also spread out.

"Brother Jiang, no need!" Qin Zhiyan hurriedly said, "What you need to do now is to prepare for the battle with all your might."

"Wait until the things are delivered, and you can try to comprehend them!"

"Thank you, Brother Jiang!"

Qin Zhiyan bit her lip and closed her eyes again.

However, the Yin and Yang Realm was too difficult.

At midnight, Instructor Yu delivered the items, and she still hadn't entered the realm, but she had gained some insights, which was a gain.

Qin Zhiyan stood up, bowed, and left.

"Don't be stressed, just give your best!" Instructor Yu handed over a box, "There are instructions inside. If it's not enough, just tell me later!"

"Instructor, then I won't be polite!"

Jiang Ming took the box back to his room.

He opened the box, and inside there were four porcelain bottles side by side, each with an elixir pill, emitting a faint aura.

Underneath the bottles, there was a sheet of instructions.

"Ninefold Treasure Blood Pill!"

The instructions were simple.

There were names and effects.

This was an unparalleled elixir pill specifically for those who were cultivating the Blood Replacement Path, created using nine types of treasure blood and nine types of spiritual medicine.

According to the instructions, if you were entering the Blood Exchange Realm, one pill would take you straight to Blood Replacement Complete.

To describe it as priceless was not an exaggeration.

Instructor Yu sent three pills directly.

Obviously, he knew about his terrifying physique.

The last one was a golden bottle with a Returning Primordial Vajra Pill inside.

This pill could help break through to the Sixth Transition of the Body Refining Realm.

"I'll break through to the Fifth Level and step into the Sixth Transition in one go tonight, so my combat power will rise even further." Jiang Ming thought, and directly swallowed a Ninefold Treasure Blood Pill. In an instant, the room was filled with blood qi as powerful as a tidal wave.

If it weren't for the special power restraining this place, the entire courtyard would have been destroyed.

The next day.

Jiang Ming walked out weirdly.

"How's it going?"

Already waiting, Instructor Yu asked the first question..

Chapter 167 - 115: Turning Ordinary into Immortal, Supreme Bone Nurturing Treasure Technique

Chapter 167: Chapter 115: Turning Ordinary into Immortal, Supreme Bone Nurturing Treasure Technique

After a night of cultivation, Jiang Ming had made significant progress.

"You should have melted one, right?" Coach Yu said again.

"I melted them all." Jiang Ming replied.

"All of them?"

"Yes!"

"What the..." Coach Yu was startled.

It wasn't that he lacked experience; it was because of his wealth of experience that he found Jiang Ming even more terrifying.

Those were Ninefold Treasure Blood Pills. Usually, a person would need at least ten days to half a month to absorb one. Given his understanding of Jiang Ming, it should be no problem to melt one overnight.

But he melted them all now?

"You didn't also melt and absorb the Returning Primordial Vajra Pill, did you?" Coach Yu suddenly reacted, his eyes widening.

“Yes!” Jiang Ming nodded and helplessly said, “It’s a pity, though, that I didn’t break through!”

“Impossible!” Coach Yu couldn’t help but exclaim, “Impossible!”

Those two “impossibles” represented two different meanings.

The first impossibility was, how could he have melted the Returning Primordial Vajra Pill?

In one night’s time.

No, it can only be considered half a night.

He completely melted and absorbed all the three Ninefold Treasure Blood Pills and the Returning Primordial Vajra Pill in such short time, which made Coach Yu lose his composure.

As for the second impossibility?

“After fully melting and absorbing it, why couldn’t you break through?” Coach Yu was greatly puzzled, “Even if your accumulation is extremely profound, with the influx of three elixir pills, you should be able to reach the realm of Perfection. Adding the Returning Primordial Vajra Pill as a catalyst, with your talent, it should be easy to break through.” [SEARCH* The website to access chapters of novels early and in the highest quality.](#)

“His physique is special!” Elder Tang came over, “Don’t forget, during the Provincial Examination, he became the Jade Bone Realm by refining his bones. You should know what this means? It means that he has reached the true limit of a mortal body.”

“Entering the Blood Replacement Realm and reaching the extreme should be expected, right?”

“It’s taken for granted!”

“Then, the effects of the four elixirs must have been digested in this aspect.”

“Young Jiang, is that correct?”

Elder Tang’s reasoning was impeccable.

“Yes!” Jiang Ming nodded, “When I reached the Marrow Cleansing Realm, I had attained a marrow like Silver Frost, not the ordinary foggy-like state, but a real silver color, it’s kind of a limit. I thought I could go further, but I found that, that was the true limit.”

“The same goes for Blood Replacement! My blood was already like mercury. After refining it with these few elixir pills, each drop of blood became incredibly heavy, holding an explosive power. Even the blood began to emit golden light.” He said, making a light cut with his fingernail, only a white mark appeared.

Jiang Ming smiled helplessly, released his Sword Intention, forcefully and hardly made a small cut on his thumb and a drop of blood leaked out, the blood was red but showed golden light.

The wound had already healed.

“Your physique has been refined to a non-human level.” Elder Tang exclaimed.

“It is indeed of a non-human level!” Coach Yu marveled.

“Now I am really at the Perfection of the Blood Replacement Realm, but what I don’t understand is that there are several limits to forging bones and muscles, and only when Jade Bone is formed is it considered the ultimate limit. Why are there only one limit for Marrow Cleansing and Blood Replacement?” Jiang Ming asked.

“You should have guessed it!” Elder Tang uttered mysteriously.

Coach Yu pouted his lips.

These two powerful individuals seemed a bit jealous.

“Is it because breaking the limit of the muscles and bones also, indirectly, enhances the internal organs, blood marrow and breaks various restrictions?” Jiang Ming conjectured, “So, did the Marrow Cleansing and Blood Replacement go smoothly?”

Elder Tang nodded, “The human body is a whole. It is only complete when it works together. The Orthodox Body Refining Method starts from the whole, there is no particular focus, no weak points, whether it is bones and muscles or internal organs, they all progress simultaneously.”

“The body refining method you are practicing now is skin and flesh first, then bones and muscles, then internal organs, next is Marrow Cleansing and Blood Replacement, from outside to inside, gradually progressing, which is a bit easier, but it can easily cause internal injuries. For example, if the bones and muscles are too powerful and the explosive force is terrifying, it can easily harm the internal organs.”

“But as a whole, even if you only focus on tempering the bones and muscles, it will also improve other parts like internal organs, blood marrow, etc, albeit weaker!”

“Your successive breaking through the limits in forging bones and muscles also broke the limits of your body, making the Marrow Cleansing and Blood Replacement Realm relatively simple!”

“But, the real difference between the Orthodox Body Refining Method and your cultivation method lies in the Realm of the Sixth Transition.”

“The Sixth Transition of Vajra Realm requires the power of the whole body to be gathered into one, uniting internal and external, seamless and flawless, power is minutely penetrating, blood Qi is naturally perfect, and there are no more weaknesses!”

“However, there are invisible barriers between the flesh, bones, internal organs, and blood marrow of a person. If you want to enter the Sixth Transition, you must break all the obstacles.”

“You should feel it now!”

“This is also the difficulty of entering the Sixth Transition!”

“The path of body refining you are on, once you reach the extreme limit of the Fifth Transition, it is extremely difficult to progress further. Because you have been reinforcing the internal barriers step by step, breaking them becomes extraordinarily difficult. Among ten people at the extreme limit of the Fifth Transition, it’s uncertain if even one can break through.”

“The Orthodox Body Refining Method cultivates the body as a whole, without distinction between external and internal. As they progress step by step, the internal barriers are gradually weakened. When they reach the extreme limit of the Fifth Transition, they usually can easily cross into the Sixth Transition.” “This is the fundamental reason why the Orthodox Body Refining Method is considered orthodox.”

Elder Tang explained thoroughly.

“So that’s how it is!” Jiang Ming finally understood..

Chapter 168 - 115: Reversing the Ordinary to Become an Immortal, The Supreme Bone Nurtures the Treasure Art_2

Chapter 168: Chapter 115: Reversing the Ordinary to Become an Immortal, The Supreme Bone Nurtures the Treasure Art_2

He also felt a barrier inside his body, distributed all over, vague and unclear, feeling a bit sluggish when mobilizing his blood Qi. He never paid much attention to it before, but now it was becoming more intense.

However, clearly, the barrier between his internal organs and bones was not that strong.

“I once read in a book, but I didn’t really pay attention because I read too many things, and it wasn’t explained in detail. However, I know one thing, the path of Body Refinement, the Realm of the Sixth Transition is the key, which penetrates the whole body, as if it were a piece of iron, and it is called Vajra Body.” Jiang Ming continued, “Vajra is hard and strong, with a hint of immortality. The book states that the Sixth Transition can shape the body, cultivating a variety of incredibly strong physiques, such as the Glass Body, Black Iron Battle Body, Silver Battle Body, Thick Earth Battle Body, Undead Battle Body, Berserker Battle Body and so on. There is even a claim that this realm can reverse a mortal body to a stage comparable to a Holy Body, right?”

“Walking on the path of Body Refinement, forging your bones and muscles is the first key point; The next is the Sixth Transition. Even in the orthodox Body Refinement, the Sixth Transition is the key of keys. It connects the past and the future and is the crucial foundation for a strong future.” Elder Tang was unprecedentedly serious, “Just like the Fourth Realm of Martial Art, you can comprehend many intentions, as strong as the Ten Great Intentions, as weak as the ripples of water, they can be as different as heaven and earth. The Sixth Transition? The most ordinary is to penetrate the whole body, merging internally and externally, the power truly becomes sublimely integrated, like directing your hand. But going further, it’s about forging various physiques, usually called Battle Bodies. Jiang Ming, if you really want to seriously walk the path of Body Refinement, you should pay more attention at the Sixth Transition.”

“Got it!” Jiang Ming nodded, then looked at Coach Yu with a smile on his face, “Can you still support it?”

“Of course!” Coach Yu also smiled, “If I don’t support a genius like you, I’ll be struck by lightning! During the Grand Examination, unlimited support, until you step into the peak of the Sixth Transition, how about that?”

“Thank you!” Jiang Ming expressed his gratitude. Search the website to access chapters of novels early and in the highest quality.

He also understood that although Coach Yu said it was unpaid support, he had to keep it in mind.

If he has the ability in the future, he will definitely return the favor.

After all, that’s his hometown.

Even though he had just arrived, it was still his hometown, his support, and his background.

Qin Zhiyan and the others also came out one after another.

At the dining table!

“Miss Qin, let’s kill them all today, let the blood flow into a river.” Long Aotian started to cheer up.

“Achieving Perfection in Water and Fire, plus your talent and bloodline, it’s not difficult to make it into the top hundred.” Lan Xin contemplated, “As long as we don’t encounter someone with special abilities, there is a 90% chance we could make it.”

“I noticed one person, not old, skinny, probably follows a special Path of Souls: Curse. Be careful if you run into him.” Qiang Jiu also spoke, “Strike with a Lethal Kill, don’t give the opponent any opportunity.”

“Curse?” Jiang Ming frowned, “Bizarre ability, I really hope I can experience it for myself.”

Everyone else looked at him, their eyes unusually odd.

“Isn’t it about gaining more insight?” Jiang Ming laughed, “Besides, based on my conjecture, the path of curse should be a branch of the Soul, and it may even involve the power of fate. Once we’ve experienced it and felt the essence of the curse’s power, we won’t be confused when we encounter it in the future.” “Well said!” Elder Tang agreed greatly, “The power we don’t know is the most terrifying. Once we understand it, we can be prepared to deal with it effectively!”

“Your wisdom is unparalleled!” Jiang Ming showed a thumbs up to Qin Zhiyan and said, “Stay calm, make steady progress, this is the best place to gain experience. With your strength, it really isn’t difficult to make it into the top hundred.”

“Thank you!” Qin Zhiyan expressed her gratitude to the host, “Are you going in again?”

“Of course!” Jiang Ming nodded, “Every student who can make it into the Grand Examination is a genius, a rare genius. Their path of cultivation, their way of fighting, their method of response, all represent the wisdom of many.

Watching the Great War is not only a feast, but it is also the best opportunity to absorb experience, broaden horizons, and enhance accumulation. After all, each of them represents a great force, and through them, we can get a glimpse of the whole picture.”

“Brother Jiang, your breadth of mind, courage, wisdom, and insight are truly beyond ordinary people. Just for these words, among the many talents in the Grand Examination, very few can compare to you,” Lan Xin admired.

Long Aotian deeply agreed.

Even Qiang Jiu had to nod, he looked at Jiang Ming, and his thoughts were also changing.

Elder Tang and Coach Yu looked at each other and both nodded in satisfaction.

With such grand ambition, what great endeavor can't be achieved!

Jiang Ming was embarrassed by all the compliments.

After breakfast, they chatted for a while, and everyone entered the Virtual Combat Network.

This was a massive martial combat field.

The surrounding area was ascending stairs, and in the center was the combat field.

The combat field was tens of thousands of square meters, and Jiang Ming knew it could be expanded as needed.

Next to him, Shi Lei and the others appeared one after another.

Together with him, it was exactly ten people, precisely the top ten that directly entered the finals: Jiang Ming, Shi Lei, Fang Qinghan, Ye Bai, Luo Feng, Chen Bei, Wang Qitong, Jun Qiuye, Li Ping'an, Luo Qingchen.

As for Three-Eyed Yang Jian, Sword Bone Ji Yunning, and Bai Bing, the Cold Ice Body, they were slightly inferior, but no one dared to underestimate them.

“Brother Shi, long time no see.” Jiang Ming looked at Shi Lei next to him and smiled..

Become an Immortal, The Supreme Bone Nurtures the

Treasure Art 3

“My mind has always been calm, but yesterday, my mood was constantly fluctuating, and I even had the idea of stepping on you.” Shi Lei said gloomily, “Yesterday, you were really asking for a beating.”

“Hmm, I agree!” Fang Qinghan nodded.

The gazes of the others looking over here were also particularly unfriendly.

“How can you blame me!” Jiang Ming said innocently, “You all have prestigious backgrounds, either with the Supreme Bone, Holy Body, Reincarnation Body, or Devouring Body. In the past Grand Examinations, the appearance of just one of you would cause a huge sensation, but this time, all of you are here. Facing you all, I feel too much pressure, really, I can’t eat well or sleep well. But it also makes my blood boil even more, being able to compete with you talented ones is a great honor.”

“On the Heavenly Ladder, you guys didn’t disappoint me either, like galloping divine horses, moving forward rapidly, all I could do was silently follow behind and watch your backs!”

“But who would’ve thought, you guys got slower and slower, just as I was wondering if you guys were just all talk. Brother Shi, you suggested not holding back anymore and showing your full strength to compete.”

“At that moment, I was shocked!”

“You guys actually still had something hidden?”

“After the shock, it was ecstasy: as expected of the Supreme Bone and the Holy Body, even at this stage, there are still things hidden, they didn’t disappoint me.”

“Too amazing, it aroused my fighting spirit.”

“Let’s compare then!”

“However, with my blood boiling and advancing boldly, you guys just sprinted a step or two and then gave up.”

“Sigh...”

Jiang Ming’s final sigh was full of disappointment.

However, Shi Lei's face had already twisted, squeezing out a hoarse voice through his teeth: "Brother Jiang, you really deserve a beating, I can hardly hold myself back!"

"Absolutely deserves a slap. How did such a handsome fellow grow up with such a provoking mouth?" Wang Qitong couldn't help but laugh.

"Who would have thought that someone could show off in front of us and make us unable to do anything about it?" Holy Body Ye Bai sighed.

The others couldn't help but shake their heads.

Showing off?

Definitely!

Truthful?

Seems so too.

After all, at the beginning, they were all ahead, unstoppable, but after declaring that they would no longer hold back anything, the newcomer suddenly made rapid progress, and they? On the contrary, they fell far behind. This was more than just a slap in the face!

They were literally stepping on their faces in the mud.

But there was nowhere to reason with it.

"It won't be long before we can fight each other, Brother Jiang, are you ready?" Li Ping'an clenched his fists, his eyes filled with provocation.

"I've just touched on the Curse Skill!" Jun Qiuye revealed a malicious gaze.

"My Overlord's Blade has gone to the next level, and I've successfully cultivated the Escaping Heaven Shuttle!" Luo Feng showed a smile.

Jiang Ming felt waves of ill intent coming at him.

These guys were really all eager to teach him a lesson!

"I'm looking forward to it!" Jiang Ming laughed, "I hope you guys won't disappoint me again."

"Don't worry, my first Treasure Skill is about to be nurtured, and it will definitely give you a surprise!" Shi Lei also laughed.

He smiled very confidently, even with a hint of malicious intent.

This made Jiang Ming's eyebrows jump.

A Treasure Skill nurtured by the Supreme Bone?

He felt his scalp tingling.

In addition, there was the Reincarnation Body, with unknown abilities; Ghost Body Jun Qiuye, who had actually comprehended the Curse Skill, was definitely no small matter.

Luo Qingchen and Wang Qiutong might have already stepped into the Sixth Realm.

And Bai Bing, at the Sixth Tier of Soul Path, hadn't made it into the top ten, but would definitely make it into the Finals, also a formidable opponent.

"All of them are difficult to mess with!"

However, Jiang Ming's eyes became brighter and brighter, and he was looking forward to it even more.

He had a feeling that in this battle, he himself would also have to come to a higher level.

Not far away were the eighty candidates who had directly entered the Semi-Finals.

Opposite them were the candidates ranked below ninetieth, waiting for the second round of fierce battles.

For most of them, the results of this second round would be their final results.

Qin Zhiyan was among them.

Soon, the host appeared.

After the opening speech, the rules were announced: in short, it was still a round-robin scoring system.

However, the battles were divided into ten teams, fighting continuously. After each battle, they would return to their peak state and continue fighting.

In each team, the strongest would be determined, and the ten of them would enter the Semi-Finals.

The candidates ranked ninety-first to one hundred, one per team, would form a relatively fair competition.

Martial combat field.

Ten consecutive battles.

Once teleported up, there was only thirty seconds of preparation time, and the time for battles was also limited to within ten minutes.

If no winner was determined within ten minutes, the Virtual Combat Network would directly judge who was stronger.

This time, there was no such thing as a draw, and it was even more brutal. “Your little girlfriend is starting her first battle!” Shi Lei whispered next to Jiang Ming, “By the way, your taste is really good, her looks, temperament, cultivation level, talent, and personality are all top-notch, she will be able to accompany you in a soaring flight in the future.”

“Stop!” Jiang Ming quickly stopped him from continuing, “We’re just classmates, and she is my class monitor.”

“Her gaze at you can’t fool anyone!” Shi Lei chuckled, “Classmates, childhood sweethearts, together entering the United States Major Examination, being able to step into the top hundred, if you were to become partners, you would definitely be a good match. Besides, you also need someone to take care of trivial matters around you so you don’t get distracted from cultivation, right? She is the best candidate, knowing your background and being able to grow together with you. To be honest, I’m even envious.”

“The happiness of being alone, you don’t understand.” Jiang Ming glanced at him.

“The extreme bliss of being with someone, you understand even less.” Shi Lei winked.

Jiang Ming understood.

However, Shi Lei’s face turned red, and he glared fiercely at Ye Bai: “Be careful, I’ll blow up your Holy Body!”

Chapter 170: Chapter 116: One Hundred Million Kilograms of Attack Power

Through their easy banter, the distance between each other was shortened.

Jiang Ming watched meticulously, taking in every single battle on the ten martial arts stages, absorbing much combat experience from each one.

Most of all, he learned from the wisdom hidden within each candidate's Cultivation Skills.

After Qin Zhiyan took the stage, he paid extra attention.

This class monitor showed a swift growth in her abilities, using the Power of Water and Fire to create a Tai Chi diagram as protection and simultaneously launching counterattacks.

It was clear that she was employing a defensive counterattack strategy for Body Refinement, to grow through combat.

"She's a bit nervous."

Understandably so.

After all, she needed to achieve an undefeated record in her team to get into the Semi-Finals.

Even losing one match could lead to a high chance of elimination.

Extremely cruel.

As expected, Qin Zhiyan emerged victorious.

The fighting was non-stop, intensely fought from start to finish.

Jiang Ming and the others were quietly discussing and commenting.

"Combat is the best method for practicing." Shi Lei sighed, "Especially when you're up against an opponent who's just as strong as you. The life and death encounters provide faster improvement and draw out more of your potential. Every one of them is advancing and they're making no small strides."

"Indeed, it's quite evident." Ye Bai continued, "Especially Jiang's little girlfriend, she uses Water and Fire to display endless Sword Skill. However, she lacked some spontaneity initially. Now she has comprehended the Wind's Intentions and integrated it into her performance, making her Water and Fire Sword Intention more flexible, thus increasing her combat power."

“Her special bloodline has also improved through intense combat.” Wang Qitong said, “And she still has a lot of potential untapped. In the future, she will be no less formidable than Long Aotian, possibly even catching up with us.”

The others nodded in agreement.

All of them had discerning eyes, naturally they could evaluate the depth of the other geniuses. SEARCH the website to access chapters of novels early and in the highest quality.

Jiang Ming silently sat there, his eyes seemed somewhat lost, yet there was an inner brilliance flowing within them. It manifested as sparks of wisdom that became increasingly numerous, eventually igniting into a roaring flame. It was then absorbed into the accumulation of his own insights.

Deep within his Sea of Consciousness, within his mind.

He was ceaselessly rethinking the Secret Skill of Inch Fist, considering its performance.

Observing, absorbing, understanding completely, integrating it into his own Cultivation Skills, then altering it, updating the old with the new, thereby constantly improving himself.

When the day reached dusk, the first round came to an end.

“That was really quick!” Luo Feng stood up and stretched, “Hundreds of candidates, in a rotation system, all finished in one day.”

“There’s a time limit so everyone naturally uses their trump cards and secret techniques as soon as they get on the stage. It’s kill or be killed!” Jun Qiuye laughed, “It’s better this way. Being hesitant is really uninteresting.”

“So when we fight each other later, we should also make it quick?” Chen Bei joked, “When it’s our turn, how about a quick fight?”

“Stop talking your bullshit!” Jun Qiuye scolded, “You youngster are specially designed to suppress me. I have the Supreme Ghost Body, you have the Reincarnation Dao Body. This damn fate is trying to get in my way.”

“Haha...” Fang Qinghan laughed, “He suppresses you, what about me?”

Jun Qiuye rolled his eyes.

This guy possessed a Devouring Body, which was not the least inferior to the Reincarnation Body.

What was more frightening was that he couldn't gauge the depth of Fang Qinghan's abilities. The feeling he got from him was even more fearsome than that of Chen Bei.

"What about me?" Jiang Ming released a spark of light from his fingertip, representing the power of Light.

The light dissolved into Thunder.

"Hahaha..." Ye Bai could no longer hold back his laughter, "Brother Jun, you're so arrogant, but here comes one after another, all being especially designed to suppress you! You possess the Supreme Ghost Body, which is indeed terrifying, but I also have the Saint Body. The Way of the Saint Body contains divine power specially designed to suppress uncanny, ominous powers."

"Don't get cocky. Suppression is only a relative concept. Once the balance shifts, it would mean being counter-suppressed." Jun Qiuye sneeringly retorted.

He also felt a bit regretful in his heart.

He had assumed that this time he would be able to rule supreme with his power, but every new competitor was more abnormal than the last, with several even possessing powers specifically designed to suppress his own.

He felt that fate was against him.

"If I had the power, I would overthrow fate. I would make my own rules!" Jun Qiuye thought.

As expected, Qin Zhiyan secured a spot, advancing into the Semi-Finals.

Without any further delay, Jiang Ming immediately exited the Virtual Combat Network.

Leaving the room, he looked at the fiery sunset, his heart filled with complex emotions.

You can never relive your past life in this world.

Let it go.

Let it go!

"What are your thoughts on this battle?" Elder Tang gestured for him to sit across from him and asked.

"There are so many geniuses!" Jiang Ming sat down, "The greatness of us humans far exceeds the imagination!"

Elder Tang shook his head, not uttering a word.

Jiang Ming frowned, "Is there something you're hiding?"

"Do you really think that those with Saint Bodies and Supreme Bones would casually reveal themselves?" Elder Tang couldn't help but laugh, "You really are clever."

"Under pressure from the Ten Thousand Realms Battlefield?" Jiang Ming pointed towards the sky.

"Correct!" Elder Tang nodded, "The Ten Thousand Realms Battlefield, that's the real cruel place, the grinding mill of flesh and blood. Just like the geniuses who fought today, if they went there, it would be a good outcome if even one out of ten survived."

"Really?" Jiang Ming was shocked.

"Don't think too much about it, what you need to do now is to cultivate diligently." Instructor Yu said, "The blood supplement medicine prepared for you has been delivered, this time, it should be enough for you to make significant progress."

He took out a red bottle and placed it on the table.

Red, as brilliant as fire.

Inside was a red liquid.

"This is Treasure Blood, real Treasure Blood, refined from many monsters, divine beasts, spirit roots, treasure gems, and so on. It's named Blood of Ten Thousand Spirits. Each drop contains a massive amount of Power of Blood. This bottle would be enough to burst ten Body Refiners at the Sphere of the Sixth Transition. You have to be extremely careful when you use it." Instructor Yu looked at the jade bottle, seemingly reluctant to part with it.

He was really in pain.

“This is the bottom of the barrel!” Elder Tang exclaimed, “Back in the day, it was impossible for Central Divine Martial College to obtain even one drop of this for a promising student. To think that it’s all being used now.”

“Good things should be put to good use.” Coach Yu suppressed the reluctance in his heart, “A treasured sword is given to a hero, a beautiful woman loves a talented man, good things should naturally have good masters.”

“Thank you!” Jiang Ming sincerely said, “I’ll go and cultivate now, aiming to reach Sixth Transition Perfection in one go.”

He did not hold back, picked up the jade bottle, and went into the room.

As for dinner?

Obviously not eating.

He didn’t even wait for Qin Zhiyan and the others to come out.

“It’s not just that he is talented, but also so hardworking. If he doesn’t succeed, who will?” Elder Tang was gratified.

Coach Yu deeply agreed.

You think you’re a genius.

You think you’re hardworking.

But there are others who are more genius than you and work harder than you.

So how can you compete?

Long Aotian and the others all came out one after another and congratulated Qin Zhiyan. After all, she had made it into the top hundred.

“We’ve all entered the top hundred, this is truly something to be happy about.” Long Aotian was greatly surprised, “Doesn’t that mean there are many provinces that don’t even have one person?”

“There are 108 provinces in the federation, but only the top hundred are taken. Excluding those from the Ten Thousand Realms Battlefield, the starry sky, and the hidden families, there would be even fewer spots allocated to the 108 provinces. And we’ve taken up five of them.” Lan Xin laughed, “I’m afraid those old men in the provincial mansion would be over the moon.”

“Am I old?” Coach Yu said faintly.

“Ah? Haha, well, you’re in your prime!” Lan Xin quickly changed the subject, “Where’s Jiang Ming? Did he go to cultivate?” Seeing Elder Tang and Coach Yu nod, she couldn’t help but say, “He really doesn’t waste a single moment. Well, I’m going to cultivate too, trying to advance one more rank tomorrow.”

She turned and went back to her own room.

Qiang Jiu, Long Aotian, and Qin Zhiyan looked at each other and eventually went back as well.

“These kids... really are...” Elder Tang shook his head with a smile, “Passionate and enthusiastic!”

“Yes, I’m even envious. It’s a pity that time has passed and youth can’t be turned back.”

In the room.

Jiang Ming sensed the condition of his flesh while cultivating the Longxiang Heaven Suppressing Skill. He had an even clearer grasp of the deeper dividing membrane between his bones, viscera, and marrow.

“Even without outside help, in at most ten days, I can penetrate from top to bottom, merge the inside and outside, and truly form my body into a whole, reaching the realm of impenetrable Vajra.”

He couldn’t be wrong about this.

But what he lacks the most now is time.

Opening the bottle, the surging power of blood Qi formed a vast ocean, instantly flooding the entire room. This was an incredibly terrifying sight, with the blood Qi like a sea, surging and immortal.

Jiang Ming was shocked.

And then came ecstasy.

He opened his mouth and inhaled, and a drop of red liquid fell into his mouth. Jiang Ming discovered that this single drop weighed a thousand pounds and contained the power of mountains and seas.

Swallowing it down, his powerful body felt as if it was being penetrated. He hurriedly operated his cultivation skills to digest this drop of treasure liquid.

The Ten Thousand Spirit Treasure Liquid immediately transformed into an endless torrent of blood Qi, containing a terrifying array of blessings. As his cultivation skills operated, it forcibly broke through the hidden constraints.

Boom...

Burst through the twelve layers, open the twenty-four heavens, invisible from top to bottom, permeate the heavenly human, combine the inside and outside, and forcefully break through the layers of obstacles with an unstoppable force.

His strength also skyrocketed rapidly.

The control of his own body has reached its peak.

With every move he made, his whole body's strength could condense into a powerful force, breaking all laws with the great supernatural power of blood Qi-

Jiang Ming opened his mouth and inhaled another drop of treasure liquid, which fell into his mouth. As he refined it, he further enhanced his strength, strengthened his physique, and tempered his body in all aspects.

The next day.

He walked out of the room, stretched his arms, and a terrifying storm-like torrent erupted inside his body.

"Did you succeed?" Coach Yu, who had been sitting in the courtyard, saw Jiang Ming come out and felt the terrifying aura hidden within his body. His eyes couldn't help but light up.

"He must have succeeded!" Elder Tang revealed a gratified smile, "Looking at his every move, it's all so natural, his power coming straight from the heart, with perfect control. He has clearly stepped into the Realm of the Sixth Transition. Good, very good, hahaha..."

He couldn't help but laugh out loud.

"I knew I couldn't hide it from you two." Jiang Ming smiled and walked over.

At this time, a food delivery robot flew through the sky and delivered the food directly to the dining table inside the house, then flew away.

Jiang Ming and the others didn't find it strange.

"To what extent have you improved?" Coach Yu asked.

Old Tang also looked over.

“The peak of the Sixth Transition, the true peak.” Jiang Ming clenched his fist, and a rumbling sound came from his palm, like muffled thunder. He was somewhat embarrassed, “However, I’ve already digested all the Ten Thousand Spirits Elixir.”

Despite having anticipated it, Coach Yu couldn’t help but grin.

“Demon!” Elder Tang couldn’t help but shake his head, but then said, “Jiang, you should enter the Virtual Combat Network immediately and head to the Measurement Room. Let’s see just how far your pure flesh strength has reached.”

“I also want to know my flesh strength has reached what extent.” Jiang Ming was excited, immediately returned to his room, lied down in the virtual cabin and connected to the network.

Before the Grand Examination started, there were several places in the Virtual Combat Network, one of which was the Measurement Room.

Moments later, Elder Tang and Coach Yu also came here one after another.

They walked straight in.

This place was very spacious, in Old Tang’s words, space could always expand, with no upper limit.

“The Measurement Room is generally used to measure the strength of the flesh,” Elder Tang explained, “Divine strength is mysterious, the power of the soul is elusive and has no basis, so it’s difficult to have a direct manifestation of strength. For example, curses can’t be accurately measured even by the soul force index; and as for qi, if it is emitted with a blade, there are sharp forces incorporated, not very intuitive.”

“Flesh strength is simple and clear, no twists and turns involved, what you see is what you get!”

“When you throw a punch, the numbers are clear!”

“Jiang, give it a try!”

Elder Tang pointed to the machine in front of him.

At this time, another person entered from the other side and was surprised, “Brother Jiang, I didn’t expect you to be here too.”

“Brother Ye!” Jiang Ming looked back and found that it was Holy Body Ye Bai, he couldn’t help but be curious, “Did you also reach the Realm of the Sixth Transition?”

“Yes!” Ye Bai nodded, at the same time he slightly bowed to Elder Tang and Coach Yu, before saying, “The pressure you gave us was too great. To avoid losing face during the decisive battle, I had to use my foundation to improve. Last night, I tapped into the potential of my flesh and jumped directly into the Realm of the Sixth Transition, reaching the peak. So, I came here to test my strength and see what level I’ve reached. Brother Jiang, have you broken through too?”

He looked shocked at this point.

“Same as you!” Jiang Ming laughed.

“You demon!” Ye Bai pointed with his finger, quite speechless, took a deep breath, suppress the waves in his heart and puffed out his chest, “No matter how deep you dig into your flesh, you’ll ultimately still be a mortal body. I have a superior physique, so don’t you think I’ve won before the battle begins?”

“Won beforehand?” Jiang Ming glanced at him, “Back when we were on the Heavenly Ladder, you guys looked down on me one by one, but what happened in the end? Weren’t you all crushed by me?”

“That’s a completely different matter,” Ye Bai snorted, “Don’t believe me? Let’s give it a try!”

“If we’re trying, we’re trying!”

“You go first!”

“I’m stronger than you, so of course you go first!”

“Alright!” Holy Body Ye Bai gritted his teeth, “I’ll show you the power of the Holy Body.”

He shook his body, and a roar like a tsunami came from within him. That vigorous Blood Qi had truly turned into a vast sea.

He took a few steps forward and arrived at the measuring device.

At this point, a strange force descended from the void. Jiang Ming felt his qi being suppressed, unable to mobilize anything, even his soul power was compressed into his mind.

“This is a restriction, it’s just for measuring the pure flesh power!” Seeing Jiang Ming’s confusion, Elder Tang explained it with a sentence.

Coach Yu also watched with a grin.

"I didn't expect this to be possible." Jiang Ming was incredibly surprised.

He found that his qi and soul power were genuinely unable to mobilize even a bit.

Boom...

Ye Bai made his move, throwing a punch that caused a thunderous sound and trembled heaven and earth. This fist contained a destructive storm.

"Goodness, this punch actually produced one hundred vajra power," Coach Yu was slightly surprised, "One vajra power is equivalent to one million kilograms of attack power.. Impressive, truly worthy of being the Holy Body!"

Chapter 172 - 117: Hammer Explosion of the Holy Body

Chapter 172: Chapter 117: Hammer Explosion of the Holy Body

Vajra Force, a unit of measurement for power.

The path of Body Refinement, as it progresses, becomes incredibly powerful, with units like kilograms and tons seeming too small in comparison. So, they have Vajra Force.

"A comprehensive study of thousands of body refiners who had just entered the Vajra Realm, and according to the theoretical calculation, the lowest standard of power is one Vajra Force, equivalent to one million kilograms of force," Coach Yu explained briefly. "The power of an average Sixth Transition peak is just five Vajra Forces."

From this, one could see how terrifying Ye Bai was.

He struck with a force of one hundred Vajra Forces, making him twenty times stronger than an average Sixth Transition Peak.

But this was not the end.

Ye Bai's body shook as his blood Qi boiled, and the power of Blood Qi around him became visible, emitting a golden luster.

His aura became even more ferocious, and there was also a trace of God-like Dao Resonance.

“Open!”

Boom...

A punch as if creating heaven and earth pierced through time and space, falling on the measuring device, and the number rapidly increased, finally stopping at 300!

“Three hundred Vajra Forces!” Even Elder Tang couldn’t help but exclaim, “This should be the inherent divine path endowed by the Holy Body, resulting in a sudden explosive power, reaching three times the original force. However, this is far from the limits of the Holy Body. Ye Bai has not yet fully unleashed the true power of the Holy Body.”

“Your high opinion is appreciated!” Ye Bai nodded, “I have only begun to explore some of the hidden potential of the Holy Body.”

“You’re the real freak!” Jiang Ming could not help but smacking his lips.

Just beginning to tap into the potential?

What if he fully unlocked it?

Wouldn’t that just defy the heavens!

It made Jiang Ming envious and jealous.

“You haven’t seen anything yet!” Ye Bai said with a light laugh. With a howling burst of Blood Qi, he unleashed his full potential, twisted his form, mobilized his entire body’s strength, shook his muscles and organs, and threw an even stronger punch.

Boom...

The sound was like an atomic bomb exploding, deafening, and the measuring device’s numbers jumped rapidly once more, finally stopping at 1500!

“Five times the power burst!” Coach Yu immediately recognized the situation. He didn’t know how to describe the numbers before him.

Demon would be an understatement.

“Correct!” Ye Bai nodded, “My basic power is one hundred Vajra Forces. With the boiling of the Holy Blood, the potential bursts, reaching three hundred Vajra Forces. The punch I cultivated contains a secret technique that amplifies strength, achieving a five-fold explosion, allowing me to make such a powerful attack.”

“You’re awesome!” Jiang Ming was shocked.

1500 Vajra Forces are equivalent to one billion kilograms of attack power.

It's indescribable by just using the word terrifying.

It was enough to blow up an entire aircraft carrier.

The small fist contained such horrifying power, which was simply shocking.

"How about that? Can you still keep me down?" Ye Bai looked at Jiang Ming, his hands on his hips, chin raised slightly. "If you can truly surpass me in terms of pure physical strength, then I will truly be convinced."

His power was so great that even the powerful Sixth Layer Martial Artists of the Heavenly Phenomenon Realm would be obliterated with a single punch. It was truly a monstrous talent.

This was also the basis of his confidence.

"Why not incorporate the power of the spatial realm?" Jiang Ming questioned.

Ye Bai couldn't help rolling his eyes: "The most significant enhancements available for physical strength come from the Infinite Realm and the Spatial Realm. Infinite can greatly enhance one's physical strength, while with Spatial, the punch is formed with spatial shockwaves, making it extremely terrifying. In addition to these, there are the suppressive, heavy, and infinitely vast realms of power. They may be somewhat helpful, but only as auxiliary support, not especially useful!"

"Right, you seem to have comprehended the Spatial Realm!" Ye Bai sneered, "So what? In the face of pure power, it can still be easily crushed."

"Brother Jiang, please!" His delicate face was full of pride.

Elder Tang and Coach Yu were both smiling as they watched.

As for how much strength Jiang Ming could truly unleash in his physical body, they couldn't guess. They were certainly eager to see it now. Search the NovelFire.net website to access chapters of novels early and in the highest quality.

"Do you think he can surpass the Holy Body?"

"Difficult, difficult, difficult. The Holy Body is one of the strongest physiques among humanity. Even in the Ten Thousand Realms Battlefield, it belongs to the top-notch physique. Before the Sixth Transition, no matter how much potential the mortal body has, even if it reaches its true limit, there will still be a limit! The Sixth Transition Realm allows for physique enhancement, but this is by no means something achievable in a short period of time."

Coach Yu nodded in agreement as he listened.

That was what he thought too.

If the power of the mortal body could surpass the Holy Body?

It seemed a bit unrealistic.

However, they still harbored a glimmer of hope.

“Alright, watch how my mortal body suppresses your Holy Body.” Jiang Ming shook his body slightly, releasing the dormant Blood Qi power like a tsunami, forming an invisible wall of viscous strength.

The ferocity of his aura was nothing short of shocking.

“It’s a bit lacking!” Coach Yu whispered.

“Yes, indeed, it’s still lacking quite a bit!” Elder Tang agreed.

This was completely within their expectations.

Jiang Ming bent his waist and stepped forward, throwing a punch like the wind, causing resounding explosions. The fast-jumping numbers stopped moving at 60!

Sixty Vajra Forces.

It was truly heaven-defying.

Twelve times that of an average Sixth Transition peak.

“Even a mortal body can reach this level.” Ye Bai frowned, “Brother Jiang, you’re really powerful. But that’s about it!”

“During the provincial examination, you used the Inch Fist.”

“You must be quite proficient in the power amplification method. But given your age, even with heavenly comprehension, reaching ten times the amplification would be your limit..”

Chapter 173 - 117: Hammer Explosion of the Holy Body_2

Chapter 173: Chapter 117: Hammer Explosion of the Holy Body_2

“Brother Jiang, please!”

After analyzing, Ye Bai raised his hand to signal.

“To some extent, there is a limit to physique, but what about comprehension?” Jiang Ming suddenly smiled, took a step back, and the tendons in his body bulged, bones trembled, blood roared like a mountain collapse and stone cracking, and the heartbeat sounded like ancient war drums.

Various sounds came from his body and eventually converged into one.

Elder Tang’s pupils shrank and he transmitted, “This is the power swirling within the body, layer by layer, forming a terrifying amplification force. Finally, the sound converges into one, which is a complete integration. This punch of his is probably stronger than you can imagine.”

“Even if ordinary people could achieve this kind of amplification, the backlash would instantly turn the body into mush,” Coach Yu sighed. “This kid is truly bizarre.”

They also felt the terrifying vitality within Jiang Ming’s body.

It was far beyond their expectations. Search the website to access chapters of novels early and in the highest quality.

Ye Bai’s eyebrows furrowed.

Facing Jiang Ming’s punch, he felt an inexplicable pressure.

Boom...

The air exploded, creating a vacuum channel directly struck by Jiang Ming. The force that erupted onto the measuring device seemed capable of destroying the measurement room.

The echo disappeared, and the number was fixed: 1042!

Hissss...

This number made Ye Bai, gasp in shock: “Sixteen-fold amplification, seventeen-fold burst, a basic strength of sixty Vajra Force, reaching a level of one thousand and forty-two Vajra Force.”

“Jiang Ming, how can you amplify the force to such an extent?”

“Even with the corresponding secret techniques, it’s harder to practice successfully than reaching the sky!”

“I know the difficulty of practicing amplification secret techniques, layer by layer, the difficulty increases geometrically.”

Ye Bai was completely shocked.

“If I could cultivate to this level, I would definitely dominate the sky, earth, and air.” After being astonished, the look in his eyes turned passionate, and then he laughed lightly, “Still not as good as me, the difference is so much...”

He paused.

The corners of his mouth twitched.

He thought of Jiang Ming’s Spatial Realm.

Jiang Ming glanced at him, revealing a smile. Then he threw another punch, and a bizarre explosive sound suddenly echoed through the air. The air twisted, spreading outward, as if space was cracked, creating a tidal storm.

The Spatial Realm was integrated into the Blood Qi, forming a terrifyingly strange scene. It’s just a pity that space could not be truly torn apart.

“Otherwise, it would be comparable to the earth-shattering effect caused by White Beard, tearing the earth apart, overturning the sky, and stirring the rivers and seas!”

Jiang Ming thought as he saw the number of this punch doubled: 2084!

The power of this punch had surpassed Ye Bai.

“How about it?” Jiang Ming smiled as he turned around.

“You are amazing!” Ye Bai gritted his teeth.

He was defeated in the area he was most proud of.

“But your physique is not as strong as mine. It’s an indisputable fact. You are strong in comprehension,” Ye Bai said unwillingly.

“Really?” Jiang Ming smiled.

The next moment, an immense, immeasurable, vast and infinite feeling radiated from him, as if it was an ancient and desolate suppression, boundless and deep, ancient and vicissitudes, and infinite.

As this Dao Resonance appeared, everyone’s faces changed.

“This power...” Elder Tang’s eyes narrowed, “Immeasurable!”

“The Immeasurable Realm, it’s definitely not wrong!” Instructor Yu was shocked.

He already knew that Jiang Ming possessed the Ten Great Intentions of Yin and Yang, Space, Life and Death, World, and all were perfected.

Now, is there even the Immeasurable Realm?

My god!

Is this guy the son of Heaven?

That’s the Ten Great Intentions!

Now that he has realized half of them, how can he be considered human?

It’s simply against the heavens.

“Holy shit!”

Ye Bai’s eyes widened.

He felt even more incredulous.

“Although the Immeasurable Realm of Comprehension is not as mysterious as Time, it’s still extremely elusive. One cannot touch it, see it, and there’s no reference, making it incredibly difficult to comprehend. I can’t believe he actually comprehended it!” Ye Bai truly couldn’t believe it.

Boom...

Jiang Ming threw another punch.

Before his fist, it was as if a black hole had exploded, whipping up a storm capable of crushing steel into powder in an instant.

Absolute terror.

When the number finally stopped, Ye Bai trembled: 5210!

With a basic Vajra Force of sixty, a seventeen-fold explosion, and after incorporating the Immeasurable Realm of Comprehension, he actually exploded with five times the power.

It was completely stacked with the power amplification secret technique.

An utterly horrifying strike.

If this punch lands on you, would your Holy Body explode or not?" Jiang Ming turned around and asked with a smile.

"How is it possible to achieve a nearly hundred-fold amplification using a basic Vajra Force of sixty? How do you resist the backlash? How can you bear it?" Ye Bai was in disarray.

He was really in disarray.

Elder Tang was puzzled.

Instructor Yu was also confused.

Then the two looked at each other and thought of Jiang Ming's terrifying vitality. Vitality represented life energy and also contained a strong recovery effect.

"Plus, he has an incredibly deep Qi foundation to resist the backlash, right? And don't forget the many Dao Resonances that naturally weaken the backlash!" Elder Tang pondered.

Regardless, Jiang Ming's punch had shattered their existing understanding.

In the Realm of the Sixth Transition, he had unleashed over five thousand Vajra Force.

Generally speaking, the strength of a Sixth Transition Peak realm would only have five Vajra Force. And him? A thousandfold.

"I'm just asking if you admit defeat?" Jiang Ming added.

Ye Bai's face immediately collapsed: "Yes, I admit defeat, of course!"

"Just now, that punch could have probably obliterated me, not just me..." His face twisted slightly, "Supreme Bone, Reincarnation Body, Innate Path Body, Devouring Body, Dominator Body, huh, all would be blasted, none would escape, none would escape."

He was stimulated to the point of being neurotic.

“Pure power can’t block certain bizarre abilities.” Jiang Ming said.

“Get lost!” Ye Bai was furious, “You have the peerless martial arts and unrivaled flesh, even curse power has a strong resistance to you. But who can withstand your punch when practicing curse power? But you’re right, Shi Lei’s Supreme Bone has bred a treasure skill that makes even me shudder; Fang Qinghan’s Devouring Body is even more bizarre than my Holy Body, I heard he devoured a Great Demon and some mysterious life form; Jun Qiuye’s Ghost Body is the most unpredictable, if you’re not careful, you’re sure to capsiz in a ditch; Luo Feng’s knife, unsurpassed!”

“Enough about others!”

“Today, you’ve shattered my confidence, leaving me battered and bruised.”

“Fortunately, my will is strong enough, otherwise, I would have definitely collapsed.”

Yet Ye Bai was still gritting his teeth.

“Actually, I’m really envious of you!” Jiang Ming said, “Whether it’s power amplification or the Immeasurable Realm of Comprehension, both can be acquired through cultivation, but what about the Holy Body? It’s determined by innate factors!”

“Now that you mention it, I feel much better!” Ye Bai exhaled a turbid breath.

“If I had a Holy Body...” Jiang Ming said melancholy, “With a basic Vajra Force of a hundred, the hidden power of the Holy Body could be stimulated to reach three hundred Vajra Force. If it were me, with a seventeen-fold explosion and the five-fold boost of the Immeasurable Realm of Comprehension, oh my god, would my punch blast apart a Seventh realm powerhouse?”

“Three hundred, seventeen times, five times, that is...” Ye Bai’s face twisted again, “25500 Vajra Force!”

“Look, if I had a Holy Body, how terrifying would I be!” Jiang Ming showed a look of envy.

“By saying that, you mean I’m a waste!” Ye Bai roared, “No, I must continue to explore the potential of the Holy Body. If I can reach the limit, even if it’s just the current limit, I should be able to achieve a basic strength of a thousand Vajra Force. I also need to comprehend amplification secret techniques and the Immeasurable Realm of Comprehension!”

“I’m going to cultivate now!”

“I don’t believe that someone as brilliant as me is worse than a mere Mortal Body!”

“The final battle is still more than ten days away.”

“It’s enough time for me to improve further!”

“Jiang Ming, by then, I, I, I...” Ye Bai wanted to threaten him, but when he thought of Jiang Ming’s perversion, he ended up only saying one sentence, “I’ll try to draw with you!”

Then his figure faded, clearly leaving the Virtual Combat Network.

“You little bastard, you deliberately provoked him!” Elder Tang couldn’t help but laugh.

“If I don’t provoke him, how will he try to improve? Only when he’s strong can he be a good opponent.” Jiang Ming smacked his lips, “Holy Body, I’m really envious. Elder Tang, Instructor Yu, do you think a Holy Body can be acquired after birth?”

He had become ambitious..

Chapter 174 - 118 Tang San's Three Strikes, Waste

Chapter 174: Chapter 118 Tang San’s Three Strikes, Waste

Can a Holy Body be created?

Elder Tang and Coach Yu didn’t give a definite answer, only saying that in their knowledge, it was impossible to create one.

However, Blue Star is too small, and the cosmos is too vast.

Who could know what’s possible beyond heaven and earth?

“When you can create the universe in a single thought, not to mention Holy Body, even Innate Holy Body or Chaos Body are only a thought away,” Coach Yu joked.

Jiang Ming’s heart was stirred.

The other’s joke might actually be achievable.

A universe in a single thought?

“Maybe I really can, after all, I have Infinite Genes. Bloodlines are ultimately just genetic variations.”

“Should I seize this opportunity?”

Jiang Ming came up with a small plan.

“Your achievements have already reached an unbelievable level. Your sixth transition body has unleashed Five Thousand Vajra Force. Although there are many geniuses in this Grand Examination, your chances of winning are definitely the highest. At the worst, you can rank within the top five.” Coach Yu was very excited, really excited.

This was their province’s genius, the genius led by him.

A genius destined to outshine countless other Tianjiao.

He couldn’t help but be excited.

“What else do you need? As long as it’s available in the province, we can provide it for you,” Coach Yu boasted once again.

It also carried the expectations of the entire province.

“It’s really difficult for me to improve further now. Soul cultivation requires enlightenment, Martial Arts can’t be achieved overnight, and the path of Body Refinement has also reached a bottleneck!” Jiang Ming pondered.

The corner of Coach Yu’s mouth twitched.

He had cultivated all three laws to an extremely profound level.

How could he explain this?

He was even envious.

“Since my cultivation level is difficult to improve, I can only consider increasing my combat power.” Jiang Ming said, and with a single thought, the Soul Realm appeared, outlining the Inch Fist Skill on the surrounding area.

The specific cultivation content of the Sixteen Levels.

“Jiang Ming, there is no need for this. Supporting you to make a name for yourself in the Grand Examination will, in turn, bring huge invisible benefits to the province with your fame.” Coach Yu naturally understood Jiang Ming’s intentions.

He felt embarrassed to continue asking for benefits, so he brought out the Inch Fist Skill, a peerless secret art, as a form of return.

“I really feel embarrassed only asking for things and not giving back!” Jiang Ming said, “Besides, this is a power technique that I deduced, and it doesn’t have much value for me. If I want to continue deducing, I need more accumulation and precipitation, Coach Yu, if there are any power technique methods, no need for them to be profound, as long as they are different, find more for me so that I can draw inspiration from them!”

“That’s easy, I’ll collect some for you later.” Coach Yu said, and then pondered, “As for your Inch Fist? It can also become a part of our province’s foundation, and not be eligible for purchase without corresponding merit. If there is any profit, 80% will go to you!”

“Good!” Jiang Ming didn’t dwell on this, and hesitated, “Could you find some specimens for me, such as blood, hair, etc., of people with special physiques? It doesn’t have to be limited to humans. If there are any gene cultivation techniques or conjectures, that would be even better.”

“Blood samples are not difficult, but as for gene cultivation techniques?” Coach Yu’s expression changed, “Jiang Ming, even if you have considerations in this area, and even some confidence, I strongly advise you not to try. It’s addictive, and once you immerse yourself in it, even if you have a strong ability to control yourself, you might unknowingly attempt it, resulting in a nine out of ten chance of causing a genetic collapse and dying. The soul is the foundation, but genes also contain a person’s unique information, the real core of the physical body.”

“I just want to enhance my foundation and explore human potential.” Jiang Ming smiled, “Even if I cultivate step by step, I’m still on a grand path, so I won’t self-destruct my future!”

“Then I will collect some, but you must not try to experiment with them easily, even if you are absolutely sure.” Elder Tang said seriously.

Jiang Ming nodded earnestly.

After chatting for a short while, they exited the Virtual Combat Network and returned to reality.

At this time, Qin Zhiyan and the others had already come out.

The breakfast was ready.

“Brother Jiang, bless us all, and let’s all enter the top ten!” Long Aotian raised his wine glass, fantasizing about a wonderful future.

“You haven’t woken up yet!” Lan Xin laughed, “The top ten? It’s good enough to enter the top fifty!”

“You’re not ambitious!” Long Aotian finished his drink, “At least fifty, aiming for the top twenty, and expecting the top ten!”

“You’re talking about me!” Qiang Jiu indifferently added a sentence, “As for you?”

He glanced at him coldly.

“What kind of look is that?” Long Aotian stomped his foot, “Just wait, if I meet you this time, I’ll definitely ruin you.”

“I’m waiting!” Qiang Jiu said indifferently.

Qin Zhiyan just ate her breakfast quietly. Search the website to access chapters of novels early and in the highest quality.

As long as she could enter the top hundred, she wouldn’t ask for anything more.

Coach Yu and Elder Tang just listened happily, watching the young people bicker, feeling the breath of youth, and enjoying a different taste.

After bickering for a while, they once again entered the Virtual Combat Network.

Today was the semi-finals.

Ninety candidates would engage in round-robin battles, but they would be divided into ten battle platforms. The fighting would continue non-stop, and final rankings would be determined by points.

“Brother Jiang, I’ve got some inside information!” Jun Qiuye sat beside Jiang Ming, with a very weird look on his face.

“Brother Jun, stop being mysterious, what’s the news?” Jiang Ming asked.

He also found that these Tian jiao were quite proud.

Inherent pride.

But they didn’t have any arrogance or domineering attitude. If they looked down on someone, they would simply ignore them.

If they recognized someone, they would be quite easygoing.

“Your little girlfriend’s cousin is here.” Jun Qiuye’s face was full of amusement, as he lowered his voice slightly, “Her cousin is named Qin Yi, and he also made it into the top hundred. He will definitely fight your little girlfriend this time. I’ve heard that he plans to take your little girlfriend back to their clan, and there’s even talk of marriage..”

“Proposing a marriage for Brother Jiang’s little girlfriend?” Ye Bai also joined in.

Very enthusiastic, not feeling out of place at all.

Obviously, the competition between the two had brought them closer.

The others also looked sideways. Search* The website to access chapters of novels early and in the highest quality.

“If she doesn’t go back, will Qin Family still force her?” Jiang Ming asked.

He had thought that Qin Family would have come looking for Qin Zhiyan earlier, but they didn’t show up during the Provincial Examination, nor before the Grand Examination,

But now, they were directly approaching.

“Qin Family is considered an ancient family, with a vast and intricate network Although they may not dare to force things, it is hard to avoid underhanded actions.” Jun Qiuyc said, “Do you know which family the proposal is for?”

“JLin, you are such a nag/ Jiang Ming responded impatiently, “Just speak up, there’s no need to be shy!”

“You’re anxious now, aren’t you?” Jun Qiuyc was not annoyed, but laughed instead, “It’s Tang Family’s Tang San Chui!”

“Tang Family?” Jiang Ming furrowed his brow.

This person was in the finals and was considered one of the Tianjiao. He ranked 18th on the Heavenly Ladder, making him quite remarkable.

“Yes!” Jun Qiuyc nodded, “Tang Family is an emerging family with great momentum, and they seem to be on the verge of surpassing Qin Family. Tang Sanchui is the unrivaled genius of this generation, unparalleled, and has entered the Fifth Realm of Martial Arts at the age of seventeen. Furthermore, he is born with a terrifying Wood Dao Divine Power, able to control all plants in the world. I suspect that he is Mu Huang’s Body, a physique even stronger than the Thunder and Lightning Body or Fire Spirit Body.”

“Despite his young age, he is arrogant and ruthless!”

“As far as I know, after Qin Family learned of Qin Zhiyan, their lost clan member, who shone in the Provincial Examination, they became interested.”

“Just like their usual practice, they want to pair their genius girl with an exceptional Tianjiao.”

“Qin Family’s Clan Elders personally went to Tang Family to propose marriage.”

“Their target is Tang Sanchui!”

“And Tang Family did not reject it!”

“It seems that Tang Sanchui is also very satisfied. I heard that after he learned about her relationship with you, he vowed to smash you!”

Jun Qiuye couldn’t help but stir trouble with a smile, “Brother Jiang, aren’t you happy? Aren’t you excited?”

“Damn it, Qin Family is so shameless!” Ye Bai exclaimed, stunned.

“More than shameless, it’s simply eye-opening! They want to arrange a marriage for a clan member who hasn’t even returned, just because she showed amazing talent, without even asking if she’s willing?” Wang Qitong was dumbfounded.

“If it were me...” Luo Qingchen sneered, “I would not stop until I’ve turned Qin Family upside down!”

“There’s more insider information.” Jun Qiuyc laughed again.

He continued, “In the past, Qin Zhiyan’s mother took her away from Qin Family and lived incognito so that her daughter could escape the fate of Qin Family’s women. This means that Qin Zhiyan hasn’t benefited from Qin Family at all and even bears a grudge. After all, her mother died because of what happened back then.”

“Shameless!” Luo Fong spat out two words.

“Indeed, shameless!” Chen Bei nodded, “If it were me, I would not only leave Qin Family alone but also defy their control over my marriage. Hmph!”

“Qin Family is so rotten and yet they have no shame. They will eventually be destroyed by their own actions.” Fang Qinghan’s eyes flashed with cold light. “Brother Jiang, how do you plan to handle it?” Shi Lei inquired.

The others looked over.

“Take it one step at a time!” Jiang Ming said indifferently, “This is the Federation’s world, not Qin Family’s!”

“Exactly!” Shi Lei clapped, “No matter how big a family is, compared to the Federation, they are as insignificant as dust. Not to mention a rotten family like Qin. Moreover, it’s the Grand Examination now, and Brother Jiang is going to rise high. With Saint Academy and the Federation supporting him, there is no need to fear Qin Family. However, they may use some underhanded methods. If there’s anything you need us for, Brother Jiang, just let us know.”

“Brother Jiang, we became friends on the battlefield. We are destined to become True Dragons soaring through the cosmos, We cannot be distracted by trivial matters. If there’s trouble, don’t hesitate.” Ye Bai patted his chest.

The others also expressed their support.

Even if it were just the Heavenly Ladder competition, they had completely accepted Jiang Ming.

“Thankyou!” Jiang Ming held his fists in salute.

He would not reject their kindness, nor would he be pedantic.

The host had taken the stage.

After the opening remarks, the Grand Examination began directly.

The fighting arena transformed into ten battle platforms, with fights happening simultaneously.

Their battles were even more fierce, even more exciting.

Everyone was captivated, their blood boiling.

Any one of them could have had the chance to seize a spot in the top ten or even become the champion in previous years. But this year, they couldn’t even make it into the top ten.

“Your little girlfriend is very strong.” Jun Qiuyc came over again and whispered, “She improves and progresses with every battle. If she has enough time, she could not only make it into the top twenty but also the top fifty. It’s just a pity that there’s not enough time.”

“She has only just awakened her maternal bloodline recently!” Jiang Ming replied.

“I can see that!” Jun Qiuye said, “The Vermilion Flame Icebird is still lacking, but it can evolve and improve through the Way of Yin and Yang. Since you master the Way of Yin and Yang and she has a Water and Fire Bloodline, you’re connected. If you both combine, it’s bound to bring significant improvements to her and even benefit you a lot.”

Chapter 176 - One Hundred and Eighteen: Tang San's Hammer, Waste Material_3

Chapter 176: Chapter One Hundred and Eighteen: Tang San's Hammer, Waste Material_3

“What kind of creature will you merge with?” Jiang Ming glanced at him, “Skeleton? Rotting corpse? Old witch? Zombie? Half-orc?”

“You’re really disgusting!” Jun Qiuye changed color, “Although I have a Ghost Body, I am still a dignified ghost; besides, I am a human, and human blood flows within me.”

“A rotting corpse isn’t bad, Brother Jun, you could really consider it.” Ye Bai laughed.

“If you dare to disgust me again, believe it or not, when we fight, I’ll give you a lifetime of shadows.” Jun Qiuye snorted, “Other people can’t do it, but I can!” “I’m scared, I’m scared!” Ye Bai hurriedly clasped his hands.

They laughed and analyzed the situation of every candidate, their means, and some unique abilities, etc.

It widened Jiang Ming’s horizons, and felt incredible.

For example, one of them actually had eight eyes. Can you believe it?

Another one had four arms, which was extremely terrifying in close combat.

There were too many similar examples.

“Our Blue Star mainly maintains a relatively pure bloodline. It’s only when you go to the outside world that you will find that even the humanoid bloodlines are extremely normal.” Luo Feng sighed, “I’ve seen a lifeform containing a total of nine bloodline powers. Surprisingly, they didn’t die and lived well!”

“How is that possible?” Wang Qitong was shocked, “How did they suppress the bloodline conflict?”

“Who knows!” Luo Feng said, “I’ve also seen a stitched monster that combined the bodies of various races to form a new life. Alas, the Ten Thousand Realms Battlefield is full of lunatics.”

In just a few words, everyone’s heart sank.

At this time, Qin Zhiyan encountered another opponent.

“This is Qin Yi, the strongest genius of this generation in the Qin Family, ranked ninety-nine on the Heavenly Ladder, which is quite extraordinary!” Jun Qiuye poked Jiang Ming and pointed to the sixth battle platform.

“Qin Yi!”

Jiang Ming looked over.

Qin Yi’s face was handsome, elegant, and noble, with a trace of hidden defiance.

That was genuine pride.

“I should call you Sister Zhiyan!” Qin Yi looked at Qin Zhiyan on the opposite side and laughed.

Although he was laughing, he had an air of superiority. [SEARCH THE website to access chapters of novels early and in the highest quality.](#)

“I didn’t expect that you, who were stranded outside, would actually make it to the Grand Examination. When the Clan Elders found out, they were overjoyed and even held banquets to celebrate.” Qin Yi continued, “By the way, after the Grand Examination, you should come back to the clan with me. You’ve been drifting abroad for too long and need to reacquaint yourself with the family, pay respects to our ancestors. Also, to show appreciation for you and the hardships you endured all these years, the Elders have arranged a marriage for you.”

“A marriage for me?” Qin Zhiyan was taken aback.

She had known her opponent's background before and treated him as a stranger, but now that he appeared, he kept talking non-stop.

Actually, she didn't care.

About the Qin Family?

She felt no good feelings.

But now she heard they arranged a marriage?

"You are not worthy of arranging a marriage for me!" Qin Zhiyan suddenly became furious, her murderous intent erupted, "Go to hell!"

She suddenly made a move, the sword light was like a waterfall, performing the Water and Fire Path, and even unleashing the Bloodline power without any reservations.

Moreover, it was with full force.

"You dare to attack me?" Qin Yi's face darkened, and he transmitted his voice, "Being tainted by my Qin family's noble bloodline is your honor, but you don't know how to be grateful, and even want to resist! As expected, lowly bloodlines can't give birth to noble lives, even my Qin family's bloodline has been contaminated."

He simply looked down on her.

She was just a byproduct of a demoness.

To be acknowledged by the Qin family, she didn't know how to be grateful.

"Looking for death!"

Qin Zhiyan became even more furious, her murderous intent soaring.

She completely displayed the Ten Thousand Swords Return to One that Jiang Ming had passed onto her, and in just a short time, she suppressed her opponent.

"Qin family's chosen heir, you're really just trash!" Qin Zhiyan suddenly shouted, "Die, die, die!"

While rotating, she severed her opponent's arm.

Then, she decapitated him with a single sword.

"Waste!"

Qin Zhiyan snorted coldly..

Chapter 177 - 119: Arrival of the Tree World, Jiang Ming's First Battle

Chapter 177: Chapter 119: Arrival of the Tree World, Jiang Ming's First Battle

Qin Family.

Many family elders sat together, and in front of them was a huge projection screen displaying the event. Some were eating exquisite snacks, sipping tea, leisurely watching and chatting cheerfully.

At any angle, they looked like the old aristocratic masters.

“This generation is truly extraordinary, with countless talents surpassing their predecessors. It’s not an exaggeration to call them the Golden Generation. They might not see such a spectacle for a long time.”

“Yeah! Our little Yi made it into the top hundred! What does that mean? It means he can stand alongside the best of the best, and he is destined to stand above the world in the future!”

“Indeed, indeed! This also proves that our Qin Family will continue to flourish.”

“Once little Yi enters the Saint Academy, with so many classmates and friends, his future will be even brighter, and the prestige of our Qin Family will prosper even more!”

“Yes, and that Qin Zhiyan girl isn’t too bad either. Although she’s only half-pure-blooded, she’s still a Qin family girl, and it’s our Qin Family bloodline that has brought her to where she is now. Once she marries Tang Sanchui, our business will expand to Tianluo Province, bringing huge benefits!”

“Right! After the Grand Examination, we will let little Yi bring her back to teach her manners, discipline, and etiquette so she won’t embarrass our Qin Family in the future!”

“You see, Qin Zhiyan and little Yi have faced each other. Haha, the pride of our family shining in the semi-finals of the Grand Examination! Among the one hundred and eight provinces of the federation, which family can compare!” “Our Qin Family is mighty!”

“If Zhiyan knew her place, she would make little Yi’s victory more elegant and exciting!”

“Indeed! Her impure blood is only a support!”

“How dare she call little Yi trash!”

All the clan elders heard the message relayed by Qin Zhiyan and stood up, their faces filled with anger.

“She even dared to kill little Yi? Who gave her the nerve!”

“She called him trash again!”

“This lowly girl is looking for death!”

“Such a lowly bloodline does not appreciate the glory of our family. When the Grand Examination is over, bring her back and use the ancestral rules to teach her the principles.”

“Break her spirit and whip her soul!”

They were all engulfed in rage.

The ancient honor had been tarnished and could only be washed clean with harsh punishment.

Pingyang City, Class Three and Four.

“I didn’t expect our class monitor to have such a background – the Qin Family? But it’s clear that she was abandoned when she was young, oppressed, and now they want her back when they see her success? What a clever plan!”

“What a scum family! They even arranged a marriage for the monitor without her knowledge? This was the Federal Era, not the era of emperors, not the era of families. They still want to control the monitor’s marriage? Screw that!”

“Let’s kill this Qin Yi!”

“By the way, Jiang Ming and Qin Zhiyan are the real golden couple. Handsome guy and beautiful girl, they have been in the same class for three years and entered the Grand Examination together. Don’t you think this is a predestined relationship and a match made in heaven?”

“Absolutely!”

“Do you think Jiang Ming would do anything if the class monitor gets bullied?”

“To not take action would be unworthy of being a man!”

“Even if their relationship isn’t romantic, just because she’s the monitor, just because they’ve been in the same class for three years, just because they’ve entered the Grand Examination together, just because they’re both from the same hometown, he definitely won’t sit idly by while the class monitor is bullied!”

“But can Jiang Ming do it?”

“As long as he wins first place, no, even just the top ten, he definitely can! Don’t forget, this is the Federal Era. They have the backing of the Federation. If they are oppressed by a decaying family, the Federation will lose face!”

Their discussion continued.

Wang Fatty was somewhat worried, but he kept eating high-energy food from his pocket to enhance his abilities.

In another courtyard.

“I wondered why the Qin Family hadn’t shown up yet, but it turns out they were waiting here.” Elder Tang was watching the live broadcast, his eyes narrowed, followed by a sneer. “Qin Family, well, quite a family! Little Yu, if Jiang Ming and Qin Zhiyan were to be bullied, what will you do?”

“Qin Yi may have the Qin Family backing him, but Jiang Ming and Qin Zhiyan have our provincial government, the Federation and the Saint Academy behind them. There’s no way we’ll let a fallen family bully them.” Coach Yu sneered, “If they dare to lay a hand on our students, we’ll cut it off!”

“That’s right, it’s our duty to protect our own students!” Elder Tang nodded, “In the meantime, let’s keep an eye on them. Make sure they don’t use any underhanded tactics. As for facing oppression openly? Let them endure it. It’s a kind of pressure and motivation, a form of training.”

“That would be best. After the Grand Examination, if anyone dares to go after Jiang Ming, it will no longer be simple bureaucracy, but seeking death!” Coach Yu spoke confidently, “The Saint Academy’s genius is not someone they can bully!”

“Bureaucracy represents arrogance, living in the glory of the past, condescending and imperious, viewing themselves as superior to all else, and valuing the family’s glory above everything else...” Elder Tang shook his head, “I’ve seen too much of this kind of stupid decay. Chapter 178: Chapter 119: Arrival of the Tree World, Jiang Ming’s First Battle_2

“I am a lone wolf!” Jiang Ming laughed.

“Haha!” Jun Qiuye couldn’t help but laugh, “The barefoot doesn’t fear those with shoes. Don’t worry, I’ll help you.” Search the website to access chapters of novels early and in the highest quality.

“An ancient and decayed family? Then let’s fight!” Fang Qinghan smiled lightly, seemingly relaxed.

“Let’s fight!” Ye Bai became interested.

The others nodded in succession.

Clearly, they all stood on Jiang Ming’s side.

As for the Qin Family?

They didn’t care that much.

Jiang Ming watched the battle quietly.

Long Aotian's performance was average, playing steadily for the win; Lan Xin wasn't far behind, but it was somewhat difficult for her to make it into the top fifty.

Qiang Jiu, however, was brilliant.

Without too many tricks, his spear was like a dragon, the Intention of Penetration broke through any defense, and its ultimate destructive power could cause anyone a headache.

He met Three-Eyed Yang Jian, who activated his third eye power, and even unleashed his hidden space power, only then was Qiang Jiu defeated.

Still, no one dared to underestimate him.

His lethality was truly terrifying.

"Qiang Jiu, if his cultivation were to be even stronger, even if he only had half of his acupoints opened, he could have the potential to be in the top ten." Shi Lei commented.

Everyone nodded in agreement.

"That Yang Jian kid actually comprehended the Space Art and kept it hidden so well!" Ye Bai complained, "He definitely wanted to give us a hard time, but I'm afraid he didn't expect to be forced to reveal his trump card so soon."

"Miss Ji is also amazing, her Divine Sword Skill shakes the earth and sky, the Power of Vault of Heaven, Heavenly Sword Intent, like the sword master." Luo Feng said, "Especially the path of killing, it contains a great amount of murderous intent. Back when I competed with her, I was almost suppressed."

"Ji Yunning is really strong. No one among us is absolutely sure of being able to defeat her!" Li Ping'an the Dominator Body commented.

The battles were extremely exciting.

Especially when Ji Yunning and Qiang Jiu met, their fierce battle was not only thrilling but also chilling.

Both were the ultimate art of offense.

Attacking each other with offense.

One could be killed if they were not careful.

It was not until then that Qiang Jiu truly showed his edge.

“Compared to the Provincial Examination, his cultivation has improved greatly, and his attack power is much stronger than before. Otherwise, he wouldn’t have been able to fight Ji Yunning for so long. What a pity that he is still weaker!” Jiang Ming saw it clearly.

In the end, Qiang Jiu was too young and his cultivation level was inferior.

If his cultivation were on par with Ji Yunning’s, perhaps he would have a chance of victory, but now, it was really difficult.

Sure enough, not long after, Qiang Jiu was defeated.

Soon after, everyone sat up straight.

Because Ji Yunning and Yang Jian collided.

“Who will win? Who will lose?” Luo Qingchen became slightly more focused.

“It’s difficult for Ji Yunning to win. After all, in addition to Yang Jian’s incredible strength, he also has the third eye and space power. It’s hard for him to lose!” Ye Bai said.

Wang Qitong’s eyes shone like water, but she countered: “Not necessarily. Ji Yunning also has some hidden cards. It’s not certain who will win or lose!” “Maybe, Yang Jian will suffer a great loss!” Luo Feng revealed a strange smile.

It was clear that he knew something about Ji Yunning.

After all, he was also from the Ten Thousand Realms Battlefield.

Jiang Ming watched carefully as well.

Ji Yunning’s Sword Intention soared into the sky.

Three-Eyed Yang Jian held a Triangular Double-Edged Blade, exuding an overwhelming killing intent.

There were Sword Qi in all directions, and the dazzling blade light.

If it weren’t for the Sumeru and Mustard Seed function in the battlefield, the power unleashed would completely engulf the viewing platform.

They were too strong.

And evenly matched.

Three-Eyed Yang Jian finally couldn’t stand it any longer. His brow revealed divine light and opened his third eye, shooting out a Destructive Thunder Light in an instant.

It was too fast.

Ji Yunning didn't have time to evade, she could only form a defensive stance amidst the flowing sword light but was still knocked away.

“Cut!”

Yang Jian didn't want to miss the opportunity, he leaped into the air, his weapon directly aimed at Ji Yunning's head, it was fast, desperate, and fierce.

The blade's aura created a vacuum passage, causing Ji Yunning's face to change drastically.

Just as she was about to be killed, she raised her left hand, and with a light flick, the large halberd suddenly twisted and missed Ji Yunning's body.

Thud...

Ji Yunning's eyes narrowed with a murderous intent.

There was no hint of panic.

Her sword flashed for a moment, appeared in Three-Eyed Yang Jian's throat, and before she stopped, she twisted her wrist, cutting off his head. Three-Eyed Yang Jian, dead!

Until his death, his eyes still held a look of shock.

“What was that ability?” Jun Qiuye was amazed, “Gold State? No, if it were Gold State, it absolutely couldn't have affected Yang Jian's weapon to that extent. The power gathered during a fight isn't so easily affected, right? The Method of Troop Control? Controlling Metal?”

“Controlling Metal!” Luo Feng gave a definite answer.

“Controlling metal, she even has such an ability. Combined with her unparalleled sword skill, it's like a tiger with wings.” Jiang Ming marveled.

“Her attack is sharp, and it can also affect the opponent's weapon. Yang Jian died unbearably under her unexpected move.” Shi Lei laughed, “This kid has always been arrogant. Now his arrogance should be deflated quite a bit. However, if he were prepared, plus his Space Art, it would be extremely difficult for Ji Yunning to defeat him.”

Everyone nodded in agreement.

“If it’s true that she can control metal, she can evolve countless attack methods, allowing her combat power to multiply!” Jiang Ming thought of the Sword Control Skill..

Chapter 179 - 119: Arrival of the Tree World, Jiang Ming's First Battle_3

Chapter 179: Chapter 119: Arrival of the Tree World, Jiang Ming’s First Battle_3

Thousands of swords are out, who can resist them!

It reminded him of Wang Mang, the King of Magnetism.

Suddenly, the thought of Lan Xin crossed Jiang Ming’s mind. With her innate awakening of Thunder Power, what would happen if she developed an electromagnetic cannon?

Shaking his head, he suppressed these thoughts.

His gaze shifted to another battle platform, where Qin Zhiyan was fighting again.

However, her opponent this time caused him to raise an eyebrow.

Brother Jiang...” Jun Qiuye poked him and said maliciously, “Your love rival has appeared.”

”Tang San Chui?” Ye Bai also laughed, “This guy is dangerous. If he humiliates Qin Zhiyan in public... cough, Qin Zhiyan will definitely be furious. But with her cultivation level, I’m afraid she will be at a disadvantage.”

If Qin Zhiyan is at a disadvantage and Tang San Chui makes it to the finals, brothers, how about we beat him up?” Jun Qiuye suggested.

Beat him up!’ Luo Feng was the first to respond.

Beat him up!

The others also seemed to enjoy the chaos.

Even Luo Qingchen and Wang Qitong were eager to join in.

Then let’s beat him up!” Jiang Ming stared at the battlefield,

No matter what, it couldn't change the fact that he and Qin Zhiyan were classmates and fellow townsmen.

On the battlefield.

Miss Qin, I didn't expect that we would meet like this!" Tang San Chui was the first to cup his hands, and then he chose his weapon.

He chose a large hammer.

As expected from the name.

Please!" Qin Zhiyan's expression was indifferent.

Cold personality, rebellious eyes, I like it." Tang San Chui smiled, "Miss Qin, don't you know that your Qin Family's ancestor has already proposed marriage to me, and you arc promised to me?"

Whoever proposes, go marry them. What docs it have to do with me!" Qin Zhiyan coldly shouted, and suddenly made a move, "Die!"

Water and Fire True Qi rushed out, turning into a Tai Chi diagram and forming a defensive posture first.

She had seen Tang San Chui's frightening battle before, so she had to be prepared for the worst.

Wind rose beneath her feet, and she seemed to turn into a lightning bolt and charged over, with tidal waves of Sword Qi, all of which were deadly moves.

You're really disobedient!" Tang San Chui snorted coldly. In an instant, vines appeared around him, quickly growing, and soon engulfed him, blocking Qin Zhiyan outside.

The Sword Qi broke the vines, and his hammer also repelled Qin Zhiyan. He then leapt into the air, as the hammer emitted rings of light, shattering the void and falling down with great force.

It was extremely fierce.

Meanwhile, Qin Zhiyan's footwork appeared soundless vines trying to entangle her, but they were shattered by the surrounding Sword Qi, and then she dodged.

As the two fought, it was obvious that Tang San Chui had the upper hand and suppressed Qin Zhiyan.

Unable to win, he became impatient.

It's time to end this!

Muhuang's Order, Arrival of the Tree World!

As he spoke, an incredible scene appeared around him. Tall trees appeared out of thin air, enclosing the battle platform in the blink of an eye and trapping Qin Zhiyan inside.

This ability!" Qin Zhiyan was shocked. As the sword light fought against the rapidly entangling vines and branches, she destroyed them all. But they seemed to swarm endlessly.

Moreover, the toughness of the trees was increasing.

Inside the Tree World, it's like a domain, so don't struggle!" Tang San Chui appeared in front of her, supported by branches.

At this moment, he was truly the Wood Sovereign,

"What kind of ability is this?" Qin Zhiyan asked in shock.

It contained the power of Wood's True Intent, but Wood's True Intent couldn't create plants, let alone a forest, out of thin air.

There was also the power of Life's True Intent,

But it was even more formidable.

"Wood Sovereign, the God of Nature." Tang San Chui said coldly, "Qin Zhiyan, you have good talent, worthy of being by my side. Admit defeat!"

Qin Zhiyan's eyes glinted with a fierce light. Her inner Qi surged out, turning into Water-Fire Sword Qi, and she charged forward with her body and sword as one.

Overestimating yourself!" Tang San Chui snorted coldly, about to make a move when his pupils narrowed, and he suddenly retreated.

The next moment, a deafening explosion echoed.

Boom...

It was Qin Zhiyan who had detonated all her True Qi, causing a self-explosion that destroyed all the surrounding trees, and he was also blasted away, his clothes tattered, looking extremely miserable.

He even almost ended up perishing together with her.

Lunatic!" Tang San Chui's expression twisted, his eyes cold, "I'll make you regret this."

On the platform.

She actually self-destructed!"¹ Jun Qiuye exclaimed, "What a resolute Miss Qin."

Heroic enough to not concede to men, admirable!" Ye Bai praised.

But a cold light flashed in Jiang Ming's eyes.

After a while, Qiang Jiu fought against his opponent.

The formidable destructive power made Tang San Chui somewhat embarrassed, but unfortunately, the capabilities of the opponents just restrained him, so he couldn't help but lose.

It seemed to have an unspoken understanding.

When Three-Eyed Yang Jian encountered Tang San Chui, he directly massacred him.

Ji Yunning was like this too.

Even Bai Bing easily stepped on him. Search the website to access chapters of novels early and in the highest quality.

The great wars turned into endless cheers, reaching their conclusion.

Ji Yunning ranked first.

Three-Eyed Yang Jian was second.

Tang San Chui ranked fifth.

Qiang Jiu ranked sixteenth, unfortunately.

Tang Aotian managed to kill his way into the forty-second place.

Lan Xin was a little worse, ranking forty-ninth.

Qin Zhiyan ultimately ranked sixty-sixth.

"Everyone, we each have a battle tomorrow; don't let yourselves be dragged out of the top ten!"¹ Jiang Ming smiled, "Fighting!"

Fighting!

Ye Bai was also excited.

Even somewhat nervous.

Everyone returned to reality.

Jiang Ming was the first to go out.

Brother Qiang, Brother Long, Lan, Zhiyan, congratulations, your achievements are not bad!" Seeing the others going out, Jiang Ming hurriedly congratulated, "It's a pity for Brother Qiang, almost making it into the top ten.

"My attack power is not weaker than anyone else's, but after these great battles, I found that my shortcomings are also very obvious: once my speed is restrained, my adaptability is too bad!" Although Qiang Jiu was somewhat disappointed, he also gained a lot, "Next, I want to work hard in this area. Brother Jiang, do you have any teachings for me?"

You lack auxiliary means!" Jiang Ming pondered, "You have enough speed, strong attacks, but what you lack is a means of dealing with restrictions. That is to comprehend the World Concepts and Spatial Realm. World Concepts have the strongest auxiliary effects; if you are restricted yourself, having this ability also limits your opponents, giving you opportunities. As for the Space Art? There's no need to say more; it will make your means more diverse, and it will be difficult for others to limit you. Of course, the best is to comprehend the Ultimate Point Realm above penetration; once the Ultimate Point comes out, the ultimate penetration power will make it difficult for others to limit you. Your destructive power will be others' nightmare! Of course, comprehending Yin and Yang Realm can also help; transforming Yin and Yang into a defense can also make up for your shortcomings."

But that's too difficult!" Qiang Jiu became dispirited.

I can help you!" Jiang Ming smiled, "You try first and see which area you are better at, then I will evolve the corresponding power to help you comprehend!"

Really?

Really!

Thank you, Brother Jiang!

Qiang Jiu was overjoyed.

How many people in this world can master the top ten first-class realms of understanding?

Although he came from a hidden family, the current clan members do not possess any such abilities.

Brother Jiang, there's also me; I am your real younger brother!" Long Aotian directly squeezed Qiang Jiu aside, attracting an angry stare from him.

Lan Xin's shook her head and smiled.

Qin Zhiyan pursed her lips. However, there was a faint trace of worry between her eyebrows.

Your fate is in your own hands; don't think too much!" Jiang Ming looked at her saying.

Yes!" Qin Zhiyan nodded vigorously.

Elder Tang waved for them to come over and sit down.

At this moment, it was already evening.

The setting sun cast a warm glow; everyone chatted and laughed.

Regardless, they had all made it into the top one hundred, which was an unimaginable record for Tianzhong Province.

Especially since Jiang Ming, who had not yet fought, had a chance to fight for first place.

The night slowly descended.

In the room, on the table, more than a hundred secret books had been placed most of which were about physical amplification secret techniques.

Although Coach Yu said they were very ordinary and far from being comparable to Inch Fist, they were enough to make him happy.

In addition, there were several books on gene cultivation conjectures, which were basically theoretical things.

I hope it will help me achieve something!

Jiang Ming sat cross-legged on the bed, his eyes fixed, and the secret books flew open one by one.

The pages of the book turned continuously.

He scanned them with his soul power and read them extremely quickly; in a short time, all the secret books were placed back on the table.

He had already finished reading all of them.

Closing his eyes, a torrent of information rapidly absorbed, digested, and fused into his own accumulation, transforming into a raging inferno of wisdom, to deduce the Inch Fist.

This was the fastest way to enhance combat power.

After a while, Jiang Ming felt a terrifying vibrating force from within his body; the power erupted like a tsunami, but it was dissipated by an unknown force in the room, not causing any disturbance.

The next day!

Jiang Ming went out early and jumped onto the roof, looking at the rising great sun in the east, his fighting intent also surging.

Today, he will face his first battle..

Chapter 180 - One Hundred and Twenty: Master of the Soul, Ten Thousand Years in a Glance

Chapter 180: Chapter One Hundred and Twenty: Master of the Soul, Ten Thousand Years in a Glance

At the dining table.

Though they had only been together for a few days, they were already used to having breakfast and dinner together.

Chatting and laughing, they seemed content.

“Brother Jiang, Yan Jiu, who ranked tenth in the semi-finals, is quite terrifying.” Qiang Jiu said gravely, “His Qi seems to have undergone a bizarre transformation, the quality of which is unprecedented, and it also possesses an extremely frightening cutting ability. My Gang Qi of protection was easily shattered by him. His Qi is as if it has some

sort of spirit, effortlessly defending against my attacks, even when I push my Art of Spear to the ultimate point, it's still difficult to break through his defense in one go. That's the fundamental reason for my defeat."

His lethal strike could not break through the defense, and the opponent seized the opportunity to counterattack.

"Even Brother Jiang may not be able to defend against your strike, but he could." Lan Xin said, "When I faced him, I felt completely crushed. His Qi is truly not ordinary, it's unimaginable."

"Every strand of his Qi is like a sawtooth, easily cutting through the protective Gang Qi and through muscles and bones." Long Aotian frowned, "The feeling he gave me was that his Qi is almost like a living thing."

"Yes, I had the same feeling!" Qiang Jiu nodded.

"I've noticed!" Jiang Ming nodded.

He had been watching the battles all along, and naturally knew some details about the top ten in the semi-finals.

As for this Yan Jiu?

He was his first opponent. Search the NovelFire.net website to access chapters of novels early and in the highest quality.

When he saw the battle, he thought it was very strange. It seemed ordinary, but the Qi was very peculiar. The quality was high, the destructive power was strong, and it seemed almost spiritual in nature.

"It's as if it's made up of individual nanorobots!" Jiang Ming gave an appropriate analogy.

"Exactly like nanorobots, but even more terrifying." Lan Xin nodded, "Elder Tang, Coach Yu, what's the story with him? It's just too incomprehensible."

"He must have consumed some sort of heaven-sent treasure or merged with a treasure, which caused his Qi to mutate and possess special abilities." Coach Yu speculated.

Elder Tang nodded and also sighed, "There are all sorts of wonders in this vast world. When encountering strange abilities, don't panic, and more importantly, don't be afraid. Focus on staying steady, and once you grasp the situation and understand the opponent, it'll be easier to deal with them. For example, if Qiang Jiu fought him again, there's a 60% chance of victory. Of course, if possible, try your best to kill him quickly. Whether his Qi mutated or not, if he's dead, he's nothing."

These words made a lot of sense.

Afterward, Long Aotian and the others discussed the situation of the top ten in the finals.

Each one was unique.

Ran Xin, ranked ninth, was the most bizarre.

“One look and I became lost.” Long Aotian said with a wry smile, “It seems like an illusion, yet not quite, real yet not quite. In just one glance, I had been transported to the Dinosaur Empire and trampled to death.”

He died miserably and pathetically.

“I knew her condition, and her first move was a lethal kill. At that moment, I felt very clearly that I had pierced her, but she just vanished like a bubble. Then, I fell into a fantasy world. Although it was an illusion, it was extremely clear. It didn’t cover up my past memories, nor replay my regrets, but instead completely evolved a fascinating world that made me sink, struggle, feel helpless and desperate.” Qiang Jiu spoke and his mouth twitched.

Lan Xin also gave a bitter smile.

Obviously, she had experienced a similar situation.

One glance to fall, another to kill.

“That’s the Spirit Path in the Path of Souls, the most elusive and unpredictable.” Elder Tang said, “It’s a fundamental contest of willpower. If you can’t resist, you’ll be dragged into a spiritual world she created. In that place, she rules, and it’s almost impossible to resist or fight back. You must have also noticed that anyone who can resist her is quickly killed.”

“The Spirit Path, huh? I never thought I’d see one, it’s considered one of the strongest aids.” Coach Yu sighed, “And then there’s Liu Ruyan, ranked seventh, who is skilled in the Illusion Skill, with her illusion territory affecting reality, making her even more difficult to deal with.”

“I think the most difficult one is Yi Tianyan, ranked sixth, even more terrifying than the first-ranked Ji Yunning. He gives me a very strange feeling.” Qiang Jiu’s face contorted, “Every time I thrust my spear, it seems like he had already anticipated it and could easily dodge from the weakest point. When I pushed harder and made it impossible to dodge, he activated a strange ability that caused my spear tip to deflect. It’s as if, as if he has an extraordinary fortune, his Qi Luck is against heaven, and he has fate’s protection. He is very difficult to kill.”

“Yi Tianyan...” Elder Tang’s brows furrowed deeply, “This child, his future achievements are immeasurable, the power he controls...”

He hesitated for a moment, finally shook his head, and looked at Jiang Ming, “Although his methods are peculiar, his cultivation level is not that strong, and his attacks are average. When the time comes, carefully perceive him, and you might gain something from it.”

Jiang Ming nodded gravely.

Yi Tianyan?

He was the one he paid special attention to.

Although Yang Jian, Ji Yunning, Bai Bing, and others had high rankings, in terms of strangeness, Yi Tianyan was definitely number one.

After breakfast, everyone entered the Virtual Combat Network.

Jiang Ming appeared in his original seat, where, in his row, there were people ranked in the top ten of the Heavenly Ladder.

Across from him, in the audience seats, appeared the top ten in the semi-finals, facing them head-on.

“Everyone, make sure not to fall behind; that would be too embarrassing.” Fang Qinghan joked, “For the next nineteen days, fight with all your might, using your opponents as blades to hone yourselves. This is the best opportunity for cultivation, comparable to a fortuitous encounter..”

Ten Thousand Years_2

Even Jiang Ming agreed.

Peer Tianjiao had a fierce battle, not fearing life and death. There was really no better opportunity for honing oneself.

To know the strength of others and to recognize one's own shortcomings.

The host appeared.

After the opening speech, he explained the rules once again.

It's still a round-robin tournament.

But on the first day, everyone only has one battle.

There are a total of ten battles.

In the following days, there will be ten battles each day, one at a time, and each battle can last up to two hours.

The first battle is between the first place in the Heavenly Ladder and the tenth place in the semi-finals; in short, it's a battle between the first and the twentieth.

The second battle, the second place and the nineteenth place.

And so on.

"Please welcome Jian Ming Jiang from Tianzhong Province!"

"Please welcome Yan Jiu Yan from Sichuan Province!"

As the host's voice fell, both Jiang Ming and the others were teleported to the Battle Platform.

At this moment, the whole world's attention was focused on the two of them.

"Brother Yan!" Jiang Ming took the initiative to greet first.

"Brother Jiang!" Yan Jiu, tall and thin, with a pale face and thin lips, handsome with a sharp edge, responded with a fist. "I have been wanting to fight you for a long time, and today I finally get my wish. Please don't hold back, let me see the true style of the top of the Heaven's Ladder."

"Please go all out as well, Brother Yan!" Jiang Ming said, casually swiping his hand, and a Virtual Screen appeared in front of him, where he could choose his weapons from.

After a little thought, he chose an eight-sided heavy sword.

It weighed eight hundred jin.

He casually played with the sword flower, at ease but made Yan Jiu's pupils shrink.

He also chose a sword, a long sword with green light flowing through it.

"Brother Jiang, I'm making my move!" Yan Jiu, with the demeanor of a gentleman, reminded him before moving swiftly towards Jiang Ming.

The sword was like a ray of light, targeting his throat directly.

Around it, sword Qi gathered. Bizarrely, the sword Qi was pitch-black, turning even the Green-light Sword black.

Jiang Ming felt a chill.

His eyes focused, and he can see more clearly than from the viewing platform.

The black sword Qi seemed to be composed of countless tiny insects, faintly opening their fierce mouths to make horrifying sounds.

"What a bizarre Qi!" Jiang Ming was shocked.

Apart from that.

Yan Jiu's sword was incredibly fast, containing the realms of killing, death, and destruction, fused together to form a terrifying Sword Intention.

With its overwhelming power, the sword destroyed everything in its path.

"Slaying Immortal!"

Jiang Ming suddenly made his move.

Similarly blending the power of killing, death, and destruction, his Sword Qi was frightening, and the True Qi quantity he provoked was similar to the opponent's.

Bang-

After the first collision, Jiang Ming's Sword Qi was destroyed.

"Brother Jiang, are you looking down on me?" Yan Jiu was angry.

Why use the same power of realms as me? What do you mean by that?

Are you slapping me in the face?

He became more aggressive, completely shrouded in thousands of Sword Qi, dancing with the movement of the sword, and enveloping Jiang Ming.

They were dense, like pouring rain.

“Brother Yan, this is a test, isn’t it?” Jiang Ming replied, “We have time anyway!”

As he spoke, his figure shifted, and his long sword transformed into a sword curtain, also triggering a series of Sword Qi to collide with the opponent.

Boom...

The mid-air trembled, and the Sword Qi strangled, creating a spectacular scene.

Thousands of tiny Sword Qi expanded in mid-air, bursting open with bursts of light, incredibly magical, and demonstrating remarkable control ability.

However, it was clear to the discerning eye that Jiang Ming was being suppressed.

If they looked deeper, they would discover Jiang Ming’s horror: he was using a Sword Qi similar to the opponent’s.

This was incredible.

Yan Jiu’s sword technique unfolded, his figure as fast as lightning, circling Jiang Ming and attacking him relentlessly. One sword after another, like a raging storm, tearing apart the sky dome and destroying everything in front of him.

Amidst the destruction, the melody of death was hidden.

Jiang Ming mainly defended.

Suddenly, he reached out and grabbed a strand of Sword Qi. Seemingly sentient, the Sword Qi struggled in his hand while tearing at his protective Gang Qi.

“This Qi...” Jiang Ming’s eyes narrowed as his scalp tingled.

The same amount of True Qi simply couldn’t block this Sword Qi.

Even three or four times the amount couldn’t withstand the cutting of the Sword Qi.

What’s most unbelievable was that each Qi forming the Sword Qi was tiny black dots, and each black dot was like an insect.

Seemingly alive yet not quite so.

It couldn't be more bizarre.

"How did you do it?" Jiang Ming asked in surprise.

"You have your opportunities, and I have my own destiny." Yan Jiu replied, and then sighed, "Brother Jiang, I know you're strong, but after fighting against you, I realize that your strength is so despairing. However, I will not admit defeat."

As he spoke, he suddenly leaped into the air, holding the sword with both hands, and with a single slash, a massive Sword Qi over fifty meters long split the sky dome and descended.

Accompanying it were numerous Sword Qi.

The entire Battle Platform was shrouded in them.

Jiang Ming's eyes focused, and his long sword spun around him, forming a Sword Qi torrent, blocking the opponent while also shattering the Sword Qi. The scattered black Sword Qi didn't dissipate but rapidly gathered towards him.

"Annihilation Storm!"

Yan Jiu, who landed down, shook his body, and True Qi torrents burst out from inside, scattering in all directions, shrouding everything in front of him. In an instant, the black color covered the Battle Platform, causing everyone's scalp to go numb.

The sheer quantity and the bizarre nature of the True Qi made even those watching were moved.

At the center of it all, Jiang Ming furrowed his brow.

Surrounding him, the black storm swept through, effortlessly tearing apart his protective Gang Qi.

"Heavenly Sword!"

Jiang Ming knew that he had to show some of his real skills now..

Chapter 182 - 120: Master of the Mind, Ten

Chapter 182: Chapter 120: Master of the Mind, Ten

Thousand Years in a Glance 3

A Sword Intention, like that of the Supreme Sword Skill, suddenly burst forth, causing the Sword Qi around him to solidify slightly and become more powerful.

The approaching black storm was slightly affected.

“Ten Thousand Swords Return to One!”

As the sword move began, the storm emerged.

The Sword Qi around his body turned into a storm and swept outward, colliding with the black torrent, unleashing terrifying power fluctuations.

Boom, boom, boom...

Like thunder exploding, like a volcano erupting.

Collision, strangulation, annihilation...

The strong suppress the weak; the weak conquer the strong.

This was a life-and-death struggle.

As the black storm was finally suppressed, his Sword Qi also suddenly spread out.

“This is my final move, which I didn’t even use in the semi-finals, and you managed to block it so easily.” Yan Jiuse changed, “You are worthy of being Jiang Ming, the fierce one who has suppressed many Tianjiao. Brother Jiang, I have one more move, can you take it?” [SEARCH THE NOVELFIRE\(.\).NET](http://SEARCHTHENOVELFIRE(.).NET) website to access chapters of novels early and in the highest quality.

“Sword of Annihilation!”

With those four words, man and sword became one, breaking the Sword Qi Storm in a flash, arriving up close.

Jiang Ming’s pupils constricted.

He saw clearly that this was a Forbidden Law. If you don’t kill the enemy, you’ll be killed. Yan Jiu’s move was even more terrifying, integrating his entire mind and will into it.

Even if he kills the enemy, he will die.

This was a move that would end in mutual destruction.

Jiang Ming flicked his long sword, blocking the tip of the sword, but the opponent easily destroyed the Sword Qi.

Tip-to-tip contact.

Crack...

Jiang Ming's long sword reached its limit and suddenly shattered.

It was the first time a weapon had shattered in the entire competition.

This showed that the long sword had reached its breaking point.

There was also the reason that Jiang Ming had not exerted his full strength, lacking the corresponding Qi as a support.

"So strong, really strong!" Jiang Ming exclaimed, and with his finger like a sword, Sword light spewed from the tip, aiming at the opponent's approaching tip of the sword.

"One Point of Black Hole Breaks Ten Thousand Skill!"

This was precisely an interpretation of the Space Art, barely managing to block this blow.

The sword tip stopped.

The Sword Qi flickered uncertainly.

"I couldn't even force you to use your full strength!" exclaimed the Ninth Sword, before vanishing into thin air, leaving only the long sword to fall.

"You're already very strong as it is, breaking my sword and slightly injuring me!" Jiang Ming raised his hand, his index finger now sporting a small trace of blood.

Injured by the opponent's Sword Qi.

But the wound had already healed.

"First battle, Jiang Ming wins, scoring one point!" The host appeared, shouting loudly.

Jiang Ming was sent back to his seat.

Feeling something, he looked towards the other side. Yan Jiu was looking at him with an intense gaze, his lips moving: "I'm strong? Injured you? You call shedding a drop of blood from your fingertip 'injured'?"

His mouth twitched, angrily and seemingly aggrieved.

Jiang Ming rubbed his nose.

"You're really overacting!" Shi Lei laughed, "Despite being ranked twentieth in the genius ranking, you not only didn't exert your full strength, but you only bled a drop of blood due to his move that should have led to mutual destruction. Brother Jiang, you're impressive. I wouldn't dare to face that sword head-on."

"You'll know how impressive he is once you face each other!" Ye Bai said.

Shi Lei glanced at him, somewhat puzzled.

At this time, he was transported to the Battle Platform.

The second battle, Shi Lei, the Supreme Bone Stone, against Ran Xin.

This battle was very fast.

Ran Xin just glanced at him, and Shi Lei's face changed drastically. His body swayed and he spat out a mouthful of impure air, revealing fear and caution in his eyes. He was then defeated in one move.

The top ten students fought one after another.

Although there were ups and downs, they all basically defeated their opponents.

Only Luo Qingchen, the Immortal Spirit Body, lost to Ji Yunning. It wasn't that he wasn't strong, but his opponent was even stronger and was also proficient in the way of combat.

Obviously, Luo Qingchen's experience was too limited.

A shame.

By noontime, today's battles were over.

After returning to reality, Jiang Ming digested his observations from the battles and continued to study the Inch Fist.

A silent night.

On the following day, in the virtual battlefield.

“Ran Xin’s ability is bizarre, Brother Jiang, be careful!” Shi Lei reminded him, “Finish her off with one hit if you can.”

“Knowing Brother Jiang’s understanding, I’m afraid he’ll take the initiative to try out Ran Xin’s abilities.” Wang Qitong spoke, “Brother Jiang, is I right? With such a strong comprehension and high aspirations, how could you not personally experience such a unique ability?”

Jiang Ming gave her a deep look..

Chapter 183 - 121: Opening the Heavens and Earth, Destroying the Cosmos

Chapter 183: Chapter 121: Opening the Heavens and Earth, Destroying the Cosmos

Wang Qitong, that girl, is definitely not ordinary.

She is hiding deep secrets.

Especially her pair of eyes, which seem to be able to see through people’s hearts. Jiang Ming felt a sense of nowhere to hide.

Jiang Ming appeared in the battle arena in a flash.

This was his first match.

His opponent was ranked nineteenth, Ran Xin.

“Jiang (Student)!” Ran Xin greeted Jiang Ming with a smile and a polite bow of the hand.

She looked small, delicate, and sweet-faced. With just a little dressing up, she resembled an incredibly exquisite elf that one couldn’t help but like at first sight. People would want to cradle her in their arms and lavish affection on her.

“Hello, Ran Xin!” Jiang Ming also greeted her.

Neither of them chose weapons.

Between them was a barrier, lasting for thirty seconds as a buffer time.

“Sea Election first, Provincial Examination first, Heaven’s Ladder first, Jiang (Student), you’ve always been my idol. Can we exchange contact information?” Ran Xin’s big eyes blinked, seeming to contain a hint of pleading, making people unable to refuse her.

“Of course, after all, we are going to be classmates soon!” Jiang Ming nodded. Then the two of them exchanged contact information via voice transmission. Ran Xin was delighted and looked at Jiang Ming: “Jiang (Student), you should know my strength, very strong, and very weak. You are first in the Heaven’s Ladder with a strong will, I will surely not be your match. Would you like to enter my world and feel it for yourself?”

Her eyes fluttered.

It was as if a pure little white rabbit opened the door to invite a big gray wolf.

Jiang Ming’s eyes were deep, but in his heart, he sneered: As expected, none of those who could kill their way here were easy to deal with. They looked pure and innocent, but were in fact flesh-eating little foxes.

Enter her world?

Wouldn’t that be sending him into the tiger’s lair?!

And she had even praised him first.

Claimed to be a fan.

Conceded defeat.

Showed a charming smile.

What a crafty little vixen. She deserved a spanking.

“Little demon!” Qin Zhiyan snorted on the viewing platform.

“Indeed, a little demon!” Lan Xin laughed as she covered her mouth and poked Long Aotian, “Do you think Brother Jiang might be seduced by her charms?” “Brother Long definitely would, but it’s hard to say if Brother Jiang would,” Qiang Jiu chimed in. Search the website to access chapters of novels early and in the highest quality.

“Yes, that makes sense!” Lan Xin nodded in agreement.

“Why does nobody ever believe in my character? Am I the kind of person who is stopped in my tracks by beautiful women?” Long Aotian huffed and squinted his eyes.

If it were him, could he resist?

Certainly!

After all, this was a martial combat field in the entire federation; it was important to recognize priorities.

“Brother Jiang definitely will!” Qin Zhiyan whispered.

“How so?” Lan Xin didn’t understand.

Long Aotian and Qiang Jiu also looked over.

“Brother Jiang is of extraordinary strength and iron will, he likes to explore unknown powers. When encountering someone like Ran Xin who possesses mystical ability, he would naturally want to try it out,” Qin Zhiyan said. “Brother Jiang might seem easygoing, but deep down, he’s quite arrogant. In all likelihood, he won’t take Ran Xin too seriously, and will go along with her invitation to gain insight into the essence of her powers.”

“So he is skilled and bold, but there’s also a chance he might capsize in the gutter,” Lan Xin frowned. “This concerns the final ranking of the Grand Examination; Jiang should know the importance of giving his all against every opponent, right?”

“Don’t worry about that,” Long Aotian suddenly said. “He’s already fallen under her pomegranate skirt!”

Everyone hurriedly looked.

On the battle platform.

“Of course!” Jiang Ming agreed with a smile. “How could I disobey an invitation from Ran Xin!”

Ran Xin’s breath hitched, and her eyes suddenly brightened for a moment. An odd power spread out, as if to pervade through time and space. In an instant, it reached deep into Jiang Ming’s soul.

It was invisible and intangible, more bizarre than Soul Power, and difficult to defend against.

Jiang Ming forcefully suppressed his urge to resist in a moment of stress.

This power wasn't as strong as he had imagined and he could have suppressed it.

However, he did not make a move. In the next moment, his mind plunged into the endless darkness.

He could not sense up and down, nor distinguish east, west, south, or north.

There was only darkness around him.

There was no light, no sound, and complete silence.

Jiang Ming guarded his soul, remaining unmoved.

He did not believe that Ran Xin would not come out.

At this moment, a soft light appeared above his head. When he looked up, he was slightly amazed.

Because a crescent moon appeared above, its silver light illuminating the surrounding darkness. Sitting in the center of the crescent moon was a little girl, dangling her little white legs. Who else could it be if not Ran Xin?

This entrance was truly amazing.

"Nothing exists outside the heart, the cosmos is within the heart!" Ran Xin's voice was really pleasant to the ear. As she spoke, she landed in front of Jiang Ming.

The smile on her face was extraordinarily beautiful.

"Jiang (Student), have you never heard of this saying?" With a wave of Ran Xin's hand, the surrounding environment transformed rapidly.

High mountains rose from the ground, turning into long dragon-shaped ridges extending into the distance.

The ground caved in, forming a lake.

Flowers, grass, and trees grew rapidly.

Jiang Ming found himself on a small island in the middle of the lake, sitting in a pavilion. The gentle ripples of the lake spread, the lotus leaves swayed, and fish leaped from the water, creating splashes of ripples.

This scene was incredibly mesmerizing.

"I have never heard of it!" Jiang Ming shook his head and took a seat.

A pot of tea appeared on the table before him, exuding a rich fragrance. He picked up the tea cup without any hesitation and poured himself a cup.

He took a sniff of the tea and his eyes lit up: "Good tea!"

"Of course, it's good tea!" In a flash, Ran Xin was sitting across from Jiang Ming. "I don't know if you're simply ignorant or just bold. I invited you in, and you really came.. Jiang (Student), I don't believe you didn't see through my little trick!"

"What matters if you see clearly or not? As the saying goes, it's romantic to die under peony flowers even as a ghost." Jiang Ming poured a drink for the other party as well, "Invited by a beautiful woman, how could I refuse!"

"Oh, come off it!" Ran Xin curled her lips, "You're the proudest of people, having experienced the world of the secret realm. There's nothing you haven't seen or experienced. It's not easy to tempt you! I guess, you want to test my spirit power, don't you?"

"Yes!" Jiang Ming nodded.

"You are really confident!" Ran Xin's brows furrowed slightly, "Do you know that no one who enters my spiritual world can get out? Most of them know something about me, so they prepare in advance and resist when I attack. If they resist, it will be hard for me to win; if they can't, they're mine."

"That's because you haven't met me!" Jiang Ming twirled the teacup and also surveyed his surroundings, immersing his soul into this illusory yet incredibly real world. He then said, "Given that I voluntarily enter your spirit, could you tell me about Spirit Power? How is it different from Telekinesis and Soul Power?"

"Entering my spirit?" Ran Xin humphed, "Jiang, you are very dishonest!"

She explained, "The soul is the root, and the mind power is the branch. Soul Power and Telekinesis are two sides of the same coin; soul power is inside, elusive and difficult to

understand; telekinesis is outside, tangible and useful in manipulating everything; they can also be seen as Yin and Yang, with soul power as Yin and Telekinesis as Yang. They're of the same essence, but their effects are different."

"As for Spirit Power?" Ran Xin tilted her little head and hesitated, "It's my innate ability. I understand it, but don't know the actual reason. I treat it as a manifestation of the power of will. It's not spiritual, it's not Soul Power, but it's more illusory and more mysterious. As for whether it's a kind of Soul Power, frankly, I'm not sure."

"You're not sure?" The look on Jiang Ming's face was quite strange.

"Yes!" Ran Xin nodded in frustration, "I also practice soul cultivation. Although in the Sea of Consciousness, I can simulate various things and even materialize them to change reality. But when it comes to illusions, they don't compare to Spirit Power!"

"You've also noticed, haven't you? Here, I can create a world, create everything, even life!"

"I can even make a cosmos!"

"And it's incredibly real!"

"How inconceivable!"

"It's entirely subjective, within a thought, I can change the sky and earth, I can create a world!"

"How magical!"

"In here, I am the creator, I am the ruler!"

"And in here, I can change time!"

"Outside is an instant, but in here, millennia pass by."

"But with my ability, I can't maintain it for too long!"

Ran Xin didn't hold back, recounting all the characteristics of her Spirit Power.

"Indeed, it's magical!" A thought passed through Jiang Ming's heart, and he asked, "Can you form a reflection of the spirit in the outside world and observe everything around you?"

“Yes!” Ran Xin had an odd look on her face, “With me at the center, everything around me can be reflected in my heart. But it’s monochrome, without color, without sound, like a three-dimensional black and white photo. People from outside the world wouldn’t sense it unless they are Soul Cultivators with strong will.”

“Is there another spiritual world outside the world? Can you walk in it, like another parallel world?” Jiang Ming asked again.

“No!” Ran Xin became even more curious, “But I vaguely feel there is a barrier between heaven and earth, but I can’t explore it.”

“Jiang, how do you know all this?”

“The path of the spirit is rather rare!”

“So far in the Federation, I wonder if there has been a second person like me!”

She was genuinely curious.

“It’s extrapolated based on what you said!” Jiang Ming rose to his feet, stretching out his hand and grabbing something in front of him, as if he was trying to sense the changes in the power here.

“Extrapolation? Bullshit!” Ran Xin snorted.

She stood up, clapped her hands, and laughingly said, “Jiang, now that you’ve had your tea, it’s time for a test. Show me how confident you are to come into my spiritual sea.”

The moment her words fell, her figure instantly vanished.

The pavilion was also gone.

The lake turned into an abyss, causing Jiang Ming to tumble uncontrollably.

Above his head, a great sun appeared, plummeting rapidly.

With an abyss below him and a falling great sun above him, the scene was terrifying, unconsciously invoking a sense of despair.

But Jiang Ming felt something bizarre. Wasn’t this the same scene that appeared on the Heavenly Ladder?

He steadied his shaking figure.

I released the mighty Qi and grabbed the long sword, which was materialized from condensed Qi, stretched it out, paused slightly, and felt a strong restrictive force.

It seemed to be a rule, or perhaps a limitation imposed by heaven and earth.

“Nothing exists outside the heart!”

“The cosmos is within the heart!”

“In here, you’re the ruler!”

“But I can transcend!”

“Power amplification, ten thousand times!”

“Open for me!”

Jiang Ming roared, and the sword in his hand suddenly extended, reaching tens of thousands of miles in an instant. With a single stroke, the terrifying force split the heaven and earth into two, even the great sun was slashed into halves. “The heart is as strong as its force, right?”

He asked the sky above.

“Correct!” When Ran Xin’s voice sounded, there emerged a giant face on the sky dome as big as a galaxy.

Who else could it be but her?

Her eyes shaped like the sun and the moon stared at Jiang Ming, full of wonder, “Many candidates here have understood this point, but hardly anyone can break the suppression and rules here. But you, you did it with ease..”

Chapter 185 - 121: Creation of Heaven and Earth, Destruction of the Cosmos_3

Chapter 185: Chapter 121: Creation of Heaven and Earth, Destruction of the Cosmos_3

“I’ve broken the rules of two World of Secret Realm before!” Jiang Ming said, “What’s the difference between the Secret Realm and here? For me, this place is more advantageous, because my mind is strong enough.”

“Is that so? In the Cosmic Collapse, you’ll be buried in the cosmos with everything else!”
Ran Xin’s words fell, and an endless galaxy materialized above, then exploding one after another, with a devastating storm sweeping through.

The terrifying power fluctuations shook the mind.

“Trying to shake my mind with a grand scene? When my mind is shaken, I’ll lose power and then become buried!” Jiang Ming immediately understood Ran Xin’s thoughts.

Obviously, the opponent was serious, even starting with a lethal move.

“Cosmic Ruins, let the underworld emerge. Jiang Ming, I’ll send you into the Eighteen Layers of Hell!”

Ran Xin made her move again.

A series of spaces appeared below, evolving into countless resentful spirits and evil ghosts, as well as various horrifying punishments.

At the same time, an endless suction force tried to pull him in.

Hell beneath, collapse above.

Even knowing it’s an illusion, if unable to resist, he would still be buried.

“The mind, truly mysterious and unparalleled!”

“Then...”

“You’re the universe destroyer!”

“I am the creator of Heaven and Earth!”

“Let me grow, grow, grow, grow, grow!”

Jiang Ming’s mind released a dazzling light and infinite self-confidence which enabled him to create Heaven and Earth and the cosmos.

He also grew rapidly and became larger.

In a snap, he reached thousands of meters in height, with no sign of stopping.

Jiang Ming felt that as his power surged and his body grew, the repression from this world grew stronger and more terrifying.

“My heart is boundless, shoreless, infinite, and endless...”

Jiang Ming's mind became even more radiant, forcefully resisting the oppression between Heaven and Earth, with his body continuing to grow, eventually reaching 12,960 kilometers.

His upper body was naked, muscles intertwined.

His entire body was filled with explosive power.

With a slight movement of his feet, the whole Eighteen Layers of Hell were crushed.

"How can you do this?" Ran Xin exclaimed from the depths of the cosmos, followed by a cold snort, "Cosmic Collapse, everything returns to ruins. Jiang Ming, you can't escape the fate of death! Don't struggle, here, I am the ruler, I am the destiny, I am the creator, and I am the ender of everything!"

"But you met me, so you're nothing!" Jiang Ming's voice echoed in the cosmos.

Compared to the vast world, he was still very small.

The storm of destruction was rapidly approaching as well.

"Here comes the axe!"

Jiang Ming roared, grabbing at the void with both hands, and an axe appeared in the air. In an instant, his aura overwhelmed everything, destroying and ending everything, creating new life, bringing a halt to the whole universe as if it would cease to rotate.

"What kind of power did you evolve?"

"The Dao of Creation?" Search the NOVEL_FIRE.NET website to access chapters of novels early and in the highest quality.

"Damn!"

"How can your heart be so extraordinary? Can your mind bear it? Where does your self-confidence come from!"

"Self-confidence, not blind self-confidence!"

"Even self-hypnotic confidence can't do this!"

Ran Xin was in chaos!

"I am the Son of the Great Dao, breaking the decaying cosmos, and creating a new world!" Jiang Ming's whole mind immersed in his self-evolution.

At this moment, he seemed to have transformed into Pangu.

From Chaos, he was born with the responsibility of creating Heaven and Earth, burying the old and creating a new future.

You transformed the universe, so I will become Pangu.

What power is better suited to dealing with the cosmic force than Pangu?

“Creation of Heaven and Earth, open, open, open, open, open...”

Jiang Ming held the axe in both hands, and with each roar, he swung it down.

With one swing, the annihilation storm was destroyed.

Jiang Ming didn't stop; his second swing sent a burst of axe light sweeping across a billion galaxies, splitting the universe apart.

His third swing was even more domineering, annihilating all rules and principles.

The fourth swing's power escalated, annihilating all old orders, burying all matter.

With the fifth swing, the universe descended into chaos, completely shattering all rules and turning into Chaos.

With the sixth swing, a crack appeared in the dark Chaos, marking the line between Heaven and Earth.

Jiang Ming was tireless, exerting an unimaginably terrifying power.

With another swing, Chaos was completely divided, and Heaven and Earth were formed.

The eighth swing released a brilliant light, evolving endless rules, intersecting and creating the framework of the world.

When the ninth swing fell, it gave rise to infinite vitality force, allowing the barren world to be filled with thriving life.

“How about that?” Jiang Ming recovered from his trance, reaching out and plucking Ran Xin from the darkness, placing her in front of him.

His eyes were indifferent, filled with merciless coldness.

“You... are you a god or a demon?” Ran Xin’s face was pale, and she trembled, “You broke my spiritual world, evolved a new one, and now you... you... you occupy my entire mind. Jiang Ming, you’re shameless!”

As she finished, she exploded with anger.

“I have teeth, don’t believe me? Look!” Jiang Ming’s mind gradually returned, and with a sudden grin, he showed off two rows of white teeth.

Ran Xin was stunned, her face flushed with anger..

Chapter 186 - 122: Fate, Old Devil Fang

Chapter 186: Chapter 122: Fate, Old Devil Fang

In the outside world, it was just a blink of an eye.

Jiang Ming’s gaze suddenly sharpened, and his mind returned.

Ran Xin’s face turned pale, and she spat out a mouthful of blood. She glared at Jiang Ming with gritted teeth, followed by a bitter expression on her face. Her spiritual sea had been broken and forcibly destroyed, but then this guy had created a new world in her mind.

Though the creation and destruction of her spiritual world happened in just a thought.

But now, the opponent’s imprint had been left.

“Jiang Ming, you have to take responsibility for me!” Ran Xin’s eyes shifted, revealing a pitiful look on her face, pouting her lips and showing a full face of resentment.

It was as if she was a little wife who had been played with and was about to be abandoned.

Looking very wronged.

“I admit defeat!” She then raised her hand and surrendered. Ran Xin was teleported away.

Jiang Ming, however, looked confused.

Responsibility?

Damn it!

This little girl had set him up!

On the battle platform, the two stood facing each other, but no one knew what happened within the spiritual world.

However, this one sentence would inevitably be interpreted as causing irreparable harm to the other party in a different kind of battlefield.

Unconsciously, various unsightly scenes would flash through one's mind.

After the other party had spoken, she just left, leaving him without a defense.

In the blink of an eye, Jiang Ming returned to his seat.

"Good guy, Brother Jiang, what exactly did you do to make her look like a resentful woman?" Jun Qiuye's face was full of curiosity, and he looked a little gloating. "Today's battle, your flirtatious character will definitely spread throughout the United Federation."

"I was just standing still, what else could I do!" Jiang Ming said helplessly.

"Inside the spiritual world, anything is possible, and you can naturally do whatever you want." Jun Qiuye chuckled, "Tell me, how many positions did you play? Do you want your brother to teach you some tricks?"

"You, a yellow-haired youth, teach me?" Jiang Ming gave him a disdainful look.

Jun Qiuye's face immediately turned red.

"Hehe, Jun Youth!" Ye Bai laughed, "You still go in and out of clubs all day, and get serviced by a dragon for four or five days every month, but you're actually still a youth."

The others laughed one after another. [Search* The website](#) to access chapters of novels early and in the highest quality.

Jun Qiuye's face turned black.

Jiang Ming continued to watch the competition.

His mind was filled with thoughts, recalling every scene of his battle with Ran Xin, especially the part where he let his spiritual power expand infinitely, evolving into Pangu's body, and following the path of the Creation of Heaven and Earth.

“The Path of Destruction!”

“The Path of Creation!”

“The Path of Spirit!”

Jiang Ming’s eyes were misty, and one thought after another flashed through his mind, deducing, reorganizing, spreading, creating, evolving, etc., all finally transforming into his own power.

One day passed in a flash.

After returning to reality, Coach Yu brought a large number of specimens, which were collected from opponents with special physiques or different races, such as blood, hair, etc.

“Do you need any equipment?” Coach Yu asked after handing them over.

“No need, I just need to do a little research!” Jiang Ming was overjoyed. “Thank you, Coach!”

“It’s not a big deal!” Coach Yu laughed. “But for now, the Grand Examination should still be the main focus.”

“Don’t get distracted. The further you go, the harder your opponents will be. Review the videos more, study each person’s tactics, analyze the pros and cons, and find a way to deal with them.” Elder Tang also advised.

Jiang Ming nodded, knowing this to be mature advice.

After Elder Tang and the others left, Long Aotian and the others immediately surrounded him. He eagerly asked, “Tell us, how did you actually bully her?”

“Did she try to seduce you in the spiritual world, but you ended up overpowering her?” Lan Xin also became interested. “In a spiritual realm like an illusion, a single thought can transform into countless changes. If she was broken by you, wouldn’t she have been suppressed by you?”

“Can you move freely?” Qiang Jiu’s eyes were filled with curiosity.

“Since he’s at the prime of his life, and in the spiritual world where the outside world can’t see, and he has the power to control the weather, how could he not be tempted?” Qin Zhiyan said faintly.

“Hmm, hmm, hmm, which man could resist, especially in the end when even Ran Xin spat out blood!” Long Aotian nodded in agreement.

“You guys are really boring!” Jiang Ming said speechlessly. “That was a battlefield!”

“So it’s fine if it wasn’t a battlefield?” Qin Zhiyan said again.

“Hehe, Brother Jiang, that must be your true intention!” Long Aotian couldn’t help but laugh. “By the way, if you two really get together and enter the spiritual world, wouldn’t you be able to explore the heavens and dominate the universe, using all kinds of wonderful techniques.”

“No man is a good thing!” Lan Xin snorted and turned away.

Qin Zhiyan flicked her hair and also turned and left.

Jiang Ming raised his eyebrows and returned to his room.

Long Aotian showed a trace of envy, followed by a helpless sigh.

In the room.

Jiang Ming took out a small jade bottle, containing a drop of bright red blood, with labels indicating the source, such as race, special abilities, and so on.

“Golden Explosive Ape, fierce beast, with its power skyrocketing after going berserk!”

After reading the brief introduction, he opened the bottle. In an instant, a fierce atmosphere hit him. He remained motionless, and with a single thought, the blood flew out and landed in his hand.

Naturally, Jiang Ming could sense the complete genes contained within the blood and compared them with his own, finding a similar part but more complicated.

He could also sense the advantages and disadvantages of life hidden within.

This was the ability of Infinite Genetic Talent.

Jiang Ming examined the samples one by one, sometimes frowning, sometimes puzzled, and finally calming down.

He found that the more powerful the individual, the more complex their genes. Especially for the fierce beasts with innate abilities, their genes were even more complex..

Chapter 187: Chapter 122: Destiny, Old Demon Fang_2

Moreover, the activation of special abilities is due to specific gene fragments. Some are in dominant states, which are abilities that have already been developed, while others are still recessive.

“Recessiveness represents potential and undeveloped abilities!”

According to some data and evidence, it's not hard to understand that bloodline abilities, or innate talents, continuously strengthen as they are developed.

However, there must be corresponding genes.

Only then can there be a foundation for development.

Additionally, some special abilities of human genes are also generally similar.

Having special abilities is because the corresponding genes in the body are added. Awakening is when some genes are activated and become dominant.

But most of them are still in a recessive state, and their abilities continue to strengthen as they are developed.

“X-Men?”

In the process of Jiang Ming's thoughts, he came up with a corresponding reference.

Similar.

But the situation here is obviously more complicated.

“Talent is determined by birth, and it's generally difficult or even impossible to create it afterwards!”

Long Aotian should be a product of bloodline fusion and the combination of Yin and Yang, naturally created.

So, the half-orcs...

Jiang Ming's lips twitched.

“If talent can’t be created afterward, then how can genes transform and sublimate? Is it evolution based on the original genes?”

He rubbed his brows.

Jiang Ming already knew that cultivation was not the genetic transformation but the process of digging out one’s potential. Search* The website to access chapters of novels early and in the highest quality.

From the perspective of genes, it is a process of self-optimization and constantly stimulating recessive genes.

“Too troublesome!”

Jiang Ming temporarily let it go and continued to deduct the Inch Fist technique.

However, his previous analysis inspired him even more in his deductions of Inch Fist.

A silent night.

On the third day!

Jiang Ming came to the Battle Arena again for his third battle.

His opponent, Yi Tianyan.

“Yi, with only the Fourth Level Cultivation and Fourth Tier Dao, it’s somewhat unbelievable that you made it this far!” Jiang Ming looked at his opponent with a solemn expression.

Even if his opponent’s cultivation level was poor.

Truly poor.

Although he had gone down the path of Martial Art and divine ways.

Compared to him, it was still insignificant.

However, the fact that he made it to the Grand Examination Finals was indeed a miracle.

“I’m quite surprised too. I just kept going and somehow ended up here!” Yi Tianyan smiled.

He had a slightly thin body but gave people a sense of elegance.

Even his clothes were Confucian robes. If he were in ancient times, he would undoubtedly be a suave scholar.

“May I ask if you are practicing the Deduction Dao, Destiny Dao, or the Fate Dao?” Jiang Ming inquired through his mind, “Or even, the Way of Cause and Effect?”

“If there’s a definition, calling it the Destiny Dao is more appropriate.” Yi Tianyan sighed lightly and also replied through his thoughts, “I walked this path by coincidence, and once I began, I became lost. If there’s destiny, isn’t it already predetermined? No matter how much we struggle, isn’t everything like a script? If there’s no destiny, then what is this? Will I control fate or end up empty-handed in the end?”

He thought a lot.

“Life is too short; don’t think too much!” Jiang Ming said, “Just keep walking and see. Maybe in the future, you’ll be able to control your fate. Yi, make your move!”

“Alright! Brother Jiang, I won’t hold back!” Yi Tianyan bowed his hands and a sword appeared in front of him.

With just a flick of his wrist, thousands of sword flowers were thrusting at Jiang Ming.

It was an ordinary move, but it contained a strange force which made Jiang Ming feel like he couldn’t dodge or avoid it.

Jiang Ming quickly made his move as well.

The long sword’s light flowed, urging a power that was nearly identical to his opponent’s, yet he was forced back by a single sword from his opponent.

The tip of the sword pointed straight at his throat.

No matter how he tried to evade or block it, it seemed to be easily broken as if it had been anticipated.

Jiang Ming stepped back.

One push after another.

“Can you see the future?” Jiang Ming asked.

While fighting with the opponent, he felt quite uncomfortable.

No matter how he made his move, Yi Tianyan seemed to know everything in advance.

“This is the power of destiny!” Yi Tianyan responded, “Before you make a move, I can sense the trajectory of your upcoming move. It’s not an exaggeration to say that I can see the future, but the time is extremely short. Of course, the disadvantage is also obvious, as you should know.”

Jiang Ming nodded.

The disadvantage he mentioned was that his cultivation level was somewhat inferior. If faced with an overwhelming power, even seeing into the future would be useless.

“Seeing the future, even more mysterious than time itself!” Jiang Ming was astonished.

This was more profound than the power of realm.

Yi Tianyan smiled and continued to attack.

He was unhurried.

Jiang Ming also dealt with it.

The two formed a tacit understanding.

Yi Tianyan knew the gap between him and Jiang Ming. As soon as he made a move, he found that Jiang Ming suppressed his power to a level similar to his and understood Jiang Ming’s plan: to feel the essence of his power.

He didn’t mind and just went along with it.

At the same time, he also sought to hone himself through his opponent.

The two circled around the huge Battle Platform, their swordplay seemingly magnificent, but to those with deep insight, it was meaningless.

“I can’t touch it or see through it!” Half an hour later, Jiang Ming shook his head with emotion, “Through this battle, it has instead given me a little insight into the Power of Time.”

“Brother Jiang, can I say you’re a freak? Your comprehension makes people despair.” Yi Tianyan couldn’t help but smile bitterly.

He was often called an unparalleled genius.

But comparing him to Jiang Ming...

The gap was more than just a little.

After a battle, he actually had a touch of the most mysterious and elusive power of time..

Very few.

It's not an exaggeration to describe it as rare as phoenix feathers and unicorn horns.

"But I still can't grasp the essence of your power!" Jiang Ming sighed.

Yi Tianyan rolled his eyes and said faintly, "This kind of power, if not innately formed or obtained by a heaven-defying opportunity, can only be comprehended by those who reach the Martial Arts Seventh Realm. Brother Jiang, if you're really interested, I'll show you later."

"Brother Yi, thank you!" Jiang Ming didn't expect the other party to take the initiative to promise.

"Brother Jiang, I won't bother you anymore. If we continue like this, I'm afraid it will cause complaints from other candidates!" After saying this, Yi Tianyan retreated and admitted defeat, then disappeared.

Jiang Ming disappeared as well, returning to the viewing platform.

Seeing him appear, Jun Qiuye couldn't help but say, "Brother Jiang, you're really curious about any power. When you fight me, do you also want to dissect me?"

"I want to do it now!" Jiang Ming said with a grin, "Do you want me to feel it?"

"Forget it!" Jun Qiuye sneered, "You, be careful not to learn too much and be dragged down in the future, and then be left far behind by us."

“It doesn’t matter now, after all, we’re young and have plenty of time to try. But once you reach the Martial Arts Heavenly Realm, you need to carefully consider the path to take in the future and focus on it. Otherwise, it will really delay your cultivation!” Wang Qitong said.

“At the Martial Arts Seventh Realm, comprehending a deeper power of Dao Resonance requires you to decide on the path to follow. No matter how talented, there’s a limit to one’s energy.” Fang Qinghan agreed, “As the saying goes, it’s better to specialize in one thing than to be mediocre in multiple. Look at me, I only focus on the Devouring Path. I ask the world, how many can match me! Unfortunately, I haven’t left Blue Star yet and cannot fully utilize my talents. When I reach the Ten Thousand Realms Battlefield, I will soar.” “The Devouring Path, growing through devouring!” Jiang Ming looked at him and inexplicably said, “Do you want to eat people?”

Everyone looked over.

“Devouring is not the same as eating. Besides, would I dare to do that on Blue Star!” Fang Qinghan snorted coldly, “But in the Ten Thousand Realms Battlefield, I will have no scruples!”

His eyes showed longing.

All the people felt a chill in their hearts.

Somehow, they suddenly had a vision in their eyes: Fang Qinghan standing on the earth, opening his mouth to swallow, and countless creatures being swallowed by him, then his aura and power surged with his Devouring power, swallowing the entire Ten Thousand Realms Battlefield.

“Let’s agree first, you can’t target humans!” Wang Qitong’s expression was extremely solemn.

“Yes, absolutely not. Otherwise, I won’t be able to sleep peacefully!” Ye Bai also said.

They all vaguely sensed that Fang Qinghan’s Devouring Body was definitely not as simple as just devouring and digesting.

“Don’t worry, I will never take the initiative within Blue Star. But people from outside Blue Star are not the same as us!” Fang Qinghan said indifferently.

“You’re really ruthless, I can imagine the storm of blood and gore you’ll cause in the Ten Thousand Realms Battlefield, and you’ll definitely be called a Demon Head.” Jiang Ming said mysteriously, “Old Devil Fang!”

“Old Devil Fang? This title is good. From now on, we’ll call him Old Devil Fang!” Ye Bai was the first to approve.

“Old Devil? Am I old?” Fang Qinghan was dissatisfied, “How am I supposed to find a wife in the future!”

Everyone couldn't help but laugh.

In the blink of an eye, another day passed.

Chapter 189 - 123: Fusion Illusion, Contempt from the Opponent

Chapter 189: Chapter 123: Fusion Illusion, Contempt from the Opponent

Round four- Liu Ruyan.

This woman was like a cloud, with a cold demeanor and misty eyes. She gave a sense of being transcendent, as if she was wandering outside the world.

Upon seeing Jiang Ming appear in front of her, she simply greeted him with a bow.

“Miss Liu!” Jiang Ming greeted, and information about her instantly flowed into his mind.

Liu Ruyan, a practitioner of the Divine Path, excelled in illusions.

Although she didn't seem to possess any unique abilities, her illusionary techniques were earth-shattering, overwhelmingly surpassing Yan Jiu, Ran Xin, and the others.

Moreover, her cultivation level of the Divine Path was only at the fifth tier.

If she could kill her way here, there was only one possibility – her illusionary techniques were absolutely terrifyingly powerful.

Liu Ruyan had already chosen her weapon, the Yulin Sword. It was a composite sword made up of ninety-nine small swords.

It could be divided and combined; this was a Mind Master's weapon.

“Please.”

“Please.”

After signalling each other, Liu Ruyan launched her attack directly.

Without any apparent movements from her, an odd force pressed straight into Jiang Ming’s mind, making his spirit seem bewildered. His vision shifted, and surprisingly he found himself in the classroom of Class 34 at Pingyang N0.2 High School.

He was sitting there next to Wang Fatty.

Mr. Chen was lecturing.

“Ming, there’s only one month left till the Grand Exam. How’s your preparation?” Wang Fatty nudged him and whispered, “Should I take you out for some fun, to help you relax a bit?”

Jiang Ming was slightly taken aback.

This was an illusion.

He made a judgement instantly, but following that, his face changed drastically.

Because his memories of the United States Major Exam were rapidly disappearing. No, they were being obscured.

“My passive defenses can’t resist it?”

“Is this the impressive part of her illusionary technique?”

Jiang Ming was shocked.

Truly shocked.

Regarding the strength of will and spirit, among all the talents in the Grand Examination, none could rival him. He had the traces of heaven and earth imprinted on twelve Realms of comprehension. Moreover, his cultivation was at the peak of the sixth tier of the Soul path, and his understanding of the Soul Realms made him frightfully powerful.

The strongest among them was his innate ability – Soul Dominator.

By nature, he had a strong resistance to illusions.

Even immunity.

But the opponent's ability still affected him, even without resistance. Search the website to access chapters of novels early and in the highest quality.

"No wonder she could kill her way here!" Jiang Ming thought. With a shift in his thoughts, the obscured memories became clear again, and his surroundings began to fluctuate.

Looking at Wang Fatty, looking at Mr. Chen, and Class Monitor Qin Zhiyan, he smiled. The ripples around him became bigger, and then, they shattered.

But the classroom was still in front of him.

"This..." Jiang Ming was taken aback for a moment before realizing.

This was a double illusion.

Or rather, it was more appropriate to say it was a reality.

Everything around him was utterly real, turning illusion into reality and replaying the truth, but there was a limitation; his classmates had not yet appeared.

"Broke it so quickly!" A shocked murmur came, followed by countless small swords descending from the ceiling, as if shooting stars, trying to pierce him to death.

Jiang Ming looked up, casually spat out a Soul Storm, the branding in the flying swords was directly destroyed and they fell all over the place.

The next moment, the room transformed, folded, twisted, inverted, the speed of the changes was dizzying. Multiple images of Liu Ruyan also appeared around him, all of them seemed unbelievably real.

Then they pressed towards him.

No room to breathe from all sides, above, below, front, back, left, and right. There were also formidable sharp auras hidden inside the walls.

"A true illusion, coupled with hidden swords ready to strike. It's really formidable!" Jiang Ming said, "Have you mastered the Path of Truth and Illusion?"

"Looks like it!" The reply was very cold.

Jiang Ming's Qi erupted, with the Yin-Yang Energy constantly spinning. He effortlessly passed through the wall and the house, without causing damage to his surroundings.

But hidden swords all got blown away.

“The difference between reality and illusion is just a thought.”

“If you can virtualize the flying swords, that would truly be invincible.”

As Jiang Ming spoke, the Yin-Yang True Intent flowed out, shattering all the walls that were in sight.

“The Path of Illusion is also one of the laws of heaven and earth. It would naturally be affected by the power of Dao Resonance.” As he spoke, he tried the Realm of Water, but the effect was minimal.

The power kept switching, and he gained greater comprehension: “This is also a competition of Dao Resonance. If I can’t suppress you, it’s hard to break through your Path of Truth and Illusion. Even if I could suppress you, it’s hard to break through. Your first illusory realm was the strongest, able to cover memories. If I can’t break free from it I would be at your mercy. Amazing, truly amazing.”

“Am I? I’m still at your mercy!” Liu Ruyan seemed a little displeased.

“Indeed, truly amazing. The first layer is the strongest. If broken, the second layer of truth and illusion aids, conversely could push the first layer to appear again. If I couldn’t break through it quickly, it would repeat itself and I would be trapped. By the way, you also have the Divine Law on standby. Amazing, truly amazing.” Jiang Ming marveled.

Liu Ruyan just snorted coldly.

The surroundings changed again. He was standing on a cliff with abysses on both sides. Above his head, a vortex appeared, thunder snakes slithered, creating a terrifying scene.

Crack...

A thunderbolt fell, aiming directly at his head.

Jiang Ming raised his hand to catch it. The thunder passed through his hand and hit him on the head, giving him quite a shock and making his whole body feel numb.

“Reality and illusion are only separated by a thought. I admire, really admire!” Jiang Ming said again, “Your innate ability is truly unique throughout the ages.” “Do you really think I want this kind of power?” A calm and collected Liu Ruyan suddenly burst into anger, as if she had gone mad.

Thunder kept falling.

This kind of attack can’t harm him.

However, at this moment, his pupils constricted.

Because the vortex in the sky turned into a vertical eye. A breath that could destroy heaven and earth poured down and locked onto him..

Chapter 190 - 123: Fusion Illusion, Contempt from the Opponent_2

Chapter 190: Chapter 123: Fusion Illusion, Contempt from the Opponent_2

“This ability is truly heaven-defying!” Jiang Ming said, with the Soul Path Realm emerging, instantly shattering everything around him.

An overwhelmingly powerful suppression.

The vertical eye disappeared, and the thunder vanished.

Both of them reappeared on the arena, facing each other as if they hadn't moved at all.

“In the face of absolute power, even an Illusion is ultimately insufficient!” Liu Ruyan sighed, somewhat dispirited. She took a deep breath and transmitted her voice to Jiang Ming, “Do you want to know how I got this ability?”

A mocking smile flashed across her lips.

Without waiting for Jiang Ming's response, she said, “I obtained it through struggling in endless fear, sinking in death, and fusing a mysterious illusion when unable to live or die.”

“There was a time when I couldn't distinguish between reality and illusion.”

“There were times when I wanted to destroy the world.”

“There were times when I wanted to self-destruct.”

“Do you still think it's heaven-defying?”

Liu Ruyan mocked with a smile.

Jiang Ming's expression changed.

She turned around to admit defeat and leave, but hesitated for a moment, transmitting her cold voice, "My Illusion is different from Ran Xin's Spirit Power, it can vaguely perceive the opponent's memories and simulate them. What if I recreate your loved ones, countless infants in swaddling clothes, or many elderly people? How would you react?"

"Illusions turning into reality."

"They are just as real."

"Jiang Ming, would you attack?"

"Not attacking, you will surely sink; attacking, haha, haha..."

She admitted defeat and left.

Jiang Ming's face changed again, looking somewhat awkward. He finally sighed, a cold light flashing in his eyes.

Returning to the viewing platform, his mind was still filled with ripples.

"Sigh..." Wang Qitong sighed softly, "She's truly unfortunate. However, if she reaches the Sixth Realm of the Soul Path, she could definitely make it into the top ten, or even the top five!"

Feeling sympathy and acknowledging her strength.

Through one fight after another, the true combat power of each person was revealed. From various divine abilities to mysterious secret techniques, all were eye-opening for Jiang Ming.

But everyone was also growing rapidly.

This was the true purpose of the Grand Examination.

To improve through trials and advance through battles.

But for the entire Federation's audience, this was a rare feast. They cheered and shouted, each victory or defeat able to stir up their emotions to an immeasurable extent.

Jiang Ming paid no attention to all this.

When watching the fights, he continued to deduce Inch Fist techniques, analyze his own genetic information, and study the specimens sent by Coach Yu and so on.

His days were incredibly fulfilling.

The fifth day of the finals.

His opponent was Ren Tianxing.

Cultivation level: Fifth Realm of Martial Arts, with quite a few acupoints opened.

He seemed to have no special abilities, but he had mastered a miraculous teleportation technique.

“Brother Jiang, they say that your comprehension is heaven-defying, and that your pair of divine eyes can probe the essence of the world and see through the abilities of every candidate.”

Ren Tianxing was not tall, and quite chubby. His eyes turned into crescents when he laughed or spoke, looking very cheerful.

However, his name was a bit unusual. Anyone who heard it would think of a tall, handsome, and resolute man.

“Brother Ren, you overestimate me. I’m just an ordinary student.” Jiang Ming smiled, “I don’t have the Supreme Bone or the Holy Body, I don’t have Three Eyes, and I don’t have the ability to control the various powers of Heaven and Earth. As you can see, I have no outstanding attributes.”

As soon as these words were spoken, Ren Tianxing couldn’t help but roll his eyes.

On the viewing platform, there was a lot of cursing.

“This damned guy, he actually says he’s ordinary.” Holy Body Ye Bai was the first to rage, “If he’s ordinary, what the hell are we? Dog shit?”

“You fought with him in private?” Jun Qiuye asked curiously, “Although this damned guy deserves a beating, that’s not enough to make you so angry. You must have been defeated by him, and in the area where you’re most proud. Little Ye, could it be that you lost to him in terms of strength?”

The rest of them all looked over, one after another, their expressions astonished.

Holy Body Ye Bai, with an incredibly strong physical body, was said to be able to push aside everything. Even Dominator Body Li Ping’an was slightly inferior to him.

Shi Lei, the Supreme Bone, was even less confident of rivaling him.

Yet, he was defeated by Jiang Ming?

It felt rather fantastical!

“Sigh!” Ye Bai sighed, “That damned guy is an abnormality, an abnormality that makes people despair. Damn it, his heaven-defying comprehension is the most terrifying ability, practically a cheat code.”

“You really did lose to him in terms of the physical body?” Jun Qiuye was incredibly shocked.

Not just him.

Shi Lei and the others were all dumbstruck too.

“I don’t believe it.” Li Ping’an frowned, “He’s as skinny as a little chick, I could pinch him and make him into a dish, yet he’s stronger than the Holy Body? Impossible, absolutely impossible! Even with an ordinary physique, no matter how heaven-defying, it could never be stronger than the Holy Body.”

“Could it be his Inch Fist?” [Search the website](#) to access chapters of novels early and in the highest quality.

“Even with a tenfold burst of power, it couldn’t stop your Holy Body!”

“Realm of comprehension?”

“You have it too!”

“Moreover, the Holy Body also has prohibited skills and such!”

“From any angle, you should be unbeatable!”

Li Ping’an kept shaking his head.

“There is one possibility!” Wang Qitong’s eyes sparkled, seemingly seeing through the river of fate. When everyone’s gaze turned to her, she said, “He refined his muscles and bones, reaching the Jade Bone Realm, pushing the Mortal Body to its limit. Coupled with Inch Fist, he can unleash an extremely terrifying power.. But that’s not enough! So, the only possibility is that he has also comprehended the Infinite Power!”

Chapter 191 - 123: Fusion Illusion, Contempt from the Opponent_3

Chapter 191: Chapter 123: Fusion Illusion, Contempt from the Opponent_3

“Boundless?!” Shi Lei gasped.

“Boundless!” Li Ping’an’s body trembled, his eyes gleaming with passion.

“Boundless!” Luo Feng gritted his teeth.

“Boundless!” Fang Qinghan’s mouth twitched.

“Is it true?” Shi Lei stared intently at Ye Bai.

“That’s why his comprehension is so against the heavens, filled with despair. The terrifying Inch Fist combined with the boundless Realm of comprehension force, can you imagine the horrific power it can unleash? I’m already in despair!” Ye Bai said with a bitter smile.

“If he’s really comprehended Boundlessness, then he’s my brother – blood brother, absolutely!” Li Ping’an rubbed his hands together, “If I could comprehend the Boundless Realm of comprehension and combine it with my Dominator Body, Shi Lei, I’d be able to blow up your Supreme Bone!”

“If I could comprehend Boundlessness, I could defeat all of you!” Ye Bai said, “Unfortunately, such power is too difficult to grasp. Who in this world has understood it? I don’t know, anyway. If I did, I’d already be seeking their tutelage! However, Jiang Ming, Brother Jiang, hehe...”

“What do you think, how many top Realms has he truly comprehended?” Luo Qingchen asked quietly.

Looking at Jiang Ming in the arena, she no longer felt any pride.

“Yin and Yang, Space, Boundlessness. He walks the Way of Souls and during his fight with Liu Ruyan, it seemed like he unleashed the Soul Path Realm, so there’s Soul as well...” Chen Bci furrowed his brow and said, “We know about these four. What about the ones we don’t? Holy shit, you really are against heaven, I’m numb.”

“What do you say, should I swallow him?” Fang Qinghan pinched his chin.

“Heh...” Ye Bai sneered.

“Hehe...” Shi Lei glanced at him.

“Hehe...” Li Ping’an’s eyes were full of violence.

Wang Qiutong and the others snorted coldly.

“It was just a joke!” Fang Qinghan shrugged, “If I confronted him, I’d have no place to stand. Besides, I wouldn’t dare, who knows how much he’s hiding!” They looked at Jiang Ming again, their gazes different once more.

In the arena.

“Brother Jiang, why are you swearing at people?” Ren Tianxing huffed.

“How did I swear at people?” Jiang Ming was confused.

“You said you’re useless, so during the Sea Election when you were first, and during the Provincial Examination when you were first, and on the Heavenly Ladder when you were first, what does that make us? We’re all worthless, isn’t that a curse?!” Ren Tianxing said gloomily, “I didn’t expect that you, Brother Jiang, are such a person!”

Jiang Ming’s mouth twitched slightly.

“Brother Jiang, it turns out that you look down on everyone!” Ren Tianxing sighed, “No wonder, after all, you want to become a supreme Tianjiao who suppresses the same generation. I understand, I understand!”

Understand my ass!

Jiang Ming almost cursed.

He found that Fatty’s mouth was really owed.

No, it was him who owed.

Having been caught by his words, he now backed himself into a corner.

“You, with one mouth, can really bloom like a lotus. I admit it, in this aspect, I’m not as good as you!” Jiang Ming pointed at him.

“Brother Jiang, you want to admit defeat?” Ren Tianxing’s eyes lit up.

“Heh...” Jiang Ming sneered, “Make your move, don’t say I didn’t give you a chance!”

Ren Tianxing’s body shivered, revealing an awkward smile, and quickly waved his hand: “Competition comes second, friendship first. We’re just learning from each other. Yes, learning from each other. Brother Jiang, please show mercy!”

The next moment, his figure vanished, as if passing through space and time, appearing behind Jiang Ming with his knife already swinging towards his head.

It was extremely fierce.

As if Jiang Ming had anticipated this, his figure also disappeared, appearing behind Ren Tianxing. Before he could make a move, he found Ren Tianxing had vanished again.

“Really fast!”

He couldn’t help but exclaim.

This was Ren Tianxing’s special ability, even he could hardly judge whether it was innate talent or some kind of divine power.

With one step, the Shrinking Ground into Inches technique was activated and he could hardly be described as within reach.

Too fast.

It was like instant teleportation.

“Then let’s see who’s faster!”

Chapter 192 - 124: Ten Thousand Threads, Heart's Punishment

Chapter 192: Chapter 124: Ten Thousand Threads, Heart’s Punishment

Ren Tianxing was very confident in his own speed. Search the NOVELFIRE .NET website to access chapters of novels early and in the highest quality.

Even when facing Jiang Ming, who had mastered Space Power.

This was the fundamental reason for him to go all the way to the finals.

On the Battle Platform, the two figures were like light, constantly flashing, leaving countless substantial afterimages. Due to the Sumeru and Mustard Seed, the entire arena, a full million square meters, was filled with their shadows.

Speed had reached its extreme.

It made the vast majority of spectators unable to see clearly.

It was unknown who was chasing whom.

The live broadcast audience was all dumbfounded.

The candidates on the viewing platform were also shocked.

They were not too surprised by Ren Tianxing's speed, after all, they had already witnessed his many battles, but they were surprised by Jiang Ming.

His speed was also so fast.

"This damn thing, he's hidden too deep!" Ye Bai cursed again, "He's strong, has a high cultivation level, achieved all three cultivation paths, and reached an unfathomable level. Now facing Ren Tianxing with terrifying speed, he's actually competing with him in speed? Damn it, he's slapping faces!"

"Indeed, slapping faces, and your face must be in great pain already." Shi Lei glanced at him, "Suppressing your opponent in their strongest aspect, damn, I can't help but curse. How can such a demon exist!"

"If he suddenly explodes with speed during a major battle, can you guys stop him?" Luo Qingchen spoke in a quiet voice, "At this speed, deliver one punch!"

Everyone couldn't help but shudder.

"I can't help but feel desperate." Shi Lei sighed, "Fortunately, I have the Supreme Bone and an evolutionary treasure technique that transcends realms. In this regard, he can't suppress me!"

"And how do you know that he doesn't have a terrifying Prohibited Skill?" Ye Bai spoke in a quiet voice, "At that time, I was also so confident, but in the end, I almost went into seclusion!"

Shi Lei's breath faltered.

“No matter how many techniques he performs, they are all useless in front of me!” Fang Qinghan said.

He was very confident.

As for exactly how strong he was, nobody knew.

“Under the blade, I cannot believe he can’t be killed!” Luo Feng was even more confident.

“I’m getting a little impatient.” Chen Bei’s eyes burned, “Speed? It can be limited; physical strength? Just a brute, easy to deal with!”

“Heh...” Ye Bai sneered.

Although shocked by Jiang Ming’s strength, they were not willing to admit defeat. Nobody had that intention, and they certainly wouldn’t!

This was the pride of the Tianjiao.

On the Battle Platform.

Jiang Ming and his opponent chased each other, though they occasionally attacked, neither could do anything to the other.

“Stepping on the earth’s veins, carrying the long wind, and traversing through space.” He had already figured out the trick, “You have fused the power of the three Realms of comprehension together to create a divine secret skill. No, you must also have a special constitution, Wind-Light Body? But, your body shape doesn’t look like it at all!”

Jiang Ming was also constantly pondering his opponent’s footwork, and he gained a lot from it.

And his speed was getting faster and faster.

“Stop...” The moment Ren Tianxing finished speaking, he stopped directly five hundred meters away. He looked at Jiang Ming, his face twisted together. He opened his mouth, but didn’t know how to express himself. In the end, he sighed, “I admit defeat, Brother Jiang, Big Brother Jiang, I really admit defeat.”

“In just a short moment, you’ve completely exposed my bottom.”

“Indeed, my footwork is a fusion of space, earth, and wind power. By tapping into the Ground resonance, stepping on the Space Veins, and walking between the wind, the powers are cleverly blended together to create a peerless secret skill.”

“I call it Shenzu Skill!”

“It’s my proudest achievement!”

“But, you’ve learned it in just a short time!”

“Not only did you comprehend space, but you also comprehended the power of Earth’s artistic conception and Wind’s Intentions.”

“It’s the hardest thing to combine Realms, let alone three.”

“You actually learned it!”

“I feel like I’ve seen a ghost.”

“It’s too abnormal.”

“It’s too demoralizing.”

How confident and proud Ren Tianxing was before, he was now just as frustrated.

He really felt beaten down.

If his speed had been restricted, or if his combat power was inferior, that would have been fine.

But in his proudest aspect, not only was his ability taken away by his opponent, but he was also challenged in it.

It was more than just feeling as if he was fucked.

“No, no, no!” Jiang Ming quickly waved his hand, “I haven’t fully understood it yet. How about a couple more laps?”

Ren Tianxing’s breath hitched, his face instantly flushed red. Waving his fist, the power surged, stirring the wind and clouds, but then he sighed again, “You Damn thing, If I could beat you, I would rub you hard.”

“Isn’t the purpose of the Grand Examination to promote mutual improvement? You’ve said it yourself, Competition is secondary, friendship comes first.” Jiang Ming grinned, “Run a few more laps, once I comprehend it thoroughly, I will further sublimate it and deduce an even more powerful footwork, and then teach it to you. Wouldn’t that be an improvement for you?”

“That’s...” Ren Tianxing paused.

“Am I right?” Jiang Ming asked.

“Seems like it!”

“As long as I’m right. You see, you’re just running a few laps, but I have to catch up, study, integrate, and then deduce it further. I’ve done all the hard work and you’re still not happy!”

“I...I...I...” Ren Tianxing stammered, feeling something was off, but he couldn’t quite put his finger on it.

“What are you hesitating for? Hurry up and run!” Jiang Ming urged, “You’re getting a good deal here and still playing innocent!”

“Fine, I’ll run!” Ren Tianxing scratched his head, still feeling something was wrong, but his feet moved anyway..

Chapter 193 - 124: Ten Thousand Threads, Heart's Punishment 2

Chapter 193: Chapter 124: Ten Thousand Threads, Heart’s Punishment 2

The speed is even faster.

Pfft...

Quite a few spectators couldn’t help but burst into laughter.

“This guy, he’s really something, to have actually tricked Ren Tianxing like that.” Jun Qiuye laughed, “He stole his techniques, but it ended up making Ren Tianxing feel guilty.”

“Ren Tianxing is totally dumbfounded by the blow.” Ye Bai sighed, “Can you imagine? His proudest move was learned by the other party after only a few looks, and the feeling is absolutely devastating. He must be thinking how he can continue to advance after integrating it all together.”

“How strong is his comprehension?” Wang Qitong whispered.

Everyone was silent.

They were really silent.

For ordinary people, the better the talent, especially the awakening of special abilities and having a unique constitution, the better.

But for them, the stronger the comprehension, the better.

On the Battle Platform.

Ren Tianxing suddenly stopped, turned around and charged at Jiang Ming: "You've gone too far, go to hell!"

He had finally reacted.

The cold light of his blade flickered, extremely chilling.

Jiang Ming dodged swiftly.

Immediately after, Ren Tianxing's blade light was like a waterfall, reaching its extreme speed, completely trapping Jiang Ming inside, like slicing him into hundreds of pieces.

But Ren Tianxing's face turned pale.

His blade was fast but Jiang Ming's speed was even faster. In the gap between sparks and fire, Jiang Ming dodged his successive attacks, and they were close-range ones at that.

"You freak!" Ren Tianxing sheathed his blade, and couldn't help pointing at Jiang Ming's nose and cursing, "Are you trying to destroy my Dao heart?"

"Once I've learned it, I have to apply it in actual combat. You see, my speed seems to have surpassed yours now. I've advanced further based on the foundation of your footwork. No, there are huge shortcomings in your footwork. I've improved it further, reaching the ultimate sublimation, really stepping on the pulse of the earth, integrating with the power of the wind, and mastering the Space Art. Shrinking Ground into Inches, the ends of the earth are within reach, and with just a slight movement, heaven and earth are under my control." Jiang Ming laughed, "The Shenzu Skill is pursuing flexibility and change, but it seems to be a little insufficient when it comes to traveling."

Ren Tianxing's mouth twitched violently.

"You're amazing..." Ren Tianxing gritted his teeth.

"I plan to improve it further, striving to reach the level comparable to instant teleportation, and even..." Jiang Ming had a sudden thought and blurted out, "Ten Thousand Threads!"

“Ten Thousand Threads?” Ren Tianxing took a deep breath, suppressed the wildness in his heart, and with great effort, pulled out a smile, “Brother Jiang, you just said that after advancing further, you’ll teach me the new method!”

“Of course!” Jiang Ming suppressed all the various thoughts in his mind and immediately passed on the perfected method to him.

Ren Tianxing was taken aback, somewhat dazed, and a moment later, his eyes lit up, he reversed his blade and bowed, “I’m convinced!”

“See you!”

“I really hope I never see you again!” Search* The nOvel(F)ire.net website to access chapters of nOvels early and in the highest quality.

That’s not right, even though you’re a great blow, the improvement is too fast!”

Let’s see each other more often!

“Let’s go!”

He really didn’t want to stay any longer, directly admitting defeat and leaving.

“I’ve had a new insight...” Jiang Ming wanted to keep him, but it was already too late, and he couldn’t help but sigh.

With a flash of light, he was back in his seat.

Jun Qiuye and others were all looking at him.

“Everybody, don’t ask, don’t say, let me think more, think more, I have some insights in my heart, I need to grasp the inspiration!” Jiang Ming hurriedly waved his hand and sat down.

Jun Qiuye opened his mouth and finally silently spit out three words: Damn it!

Damn it!

Even Wang Qitong couldn’t help grinding her teeth.

He learned the Shenzu Skill and further improved it before giving it back to the original owner.

That’s fine.

But you f***ing come back with new inspiration?

Damn!

They all had a feeling of being autistic.

However, Jiang Ming ignored everything else and split his thoughts in two. One part was watching the competition, and the other part was simulating and deducing in his mind.

“Ten Thousand Threads, in the final analysis, is the application of the Space Art, distorting the void, and at the extreme speed, deducing a method like clones, attacking thousands of times in an instant.”

Jiang Ming pondered.

A storm exploded in his mind.

The competition ended for the day.

He was still deducing and simulating back in reality.

Although he gained something, he couldn't finish it.

“Is it because the power of the realm is not enough to control the space when merging the three realms? Or...”

“What if we incorporate the Illusion Skill and the power of light?”

Jiang Ming's thoughts were scattered, and he was constantly deducing.

The sixth day of the finals.

Breakfast.

“Brother Jiang, it's going to be brutal today, right?” Long Aotian drank his porridge and couldn't help but laugh.

“If we don't get fierce now, then when!” Lan Xin also said.

“Definitely fierce!” Qiang Jiu agreed quite a bit.

Qin Zhiyan just bowed her head and ate.

“Young people should be unrestrained. As for the rest, there's nothing to be afraid of!” Coach Yu laughed and said, “The competition is in a virtual battlefield. You can do whatever you want and kill however you want.”

“Follow your heart!” Elder Tang nodded.

“You guys really trust me, huh?” Jiang Ming said helplessly, “That guy, he has awakened the Wood Emperor Dao.”

“What Wood Emperor, just a little grass.” Long Aotian said, “Burn him with fire.”

“Burn fiercely!” Lan Xin encouraged.

They just wanted to see the world in chaos.

After breakfast, Jiang Ming went back to his room and directly entered the virtual battlefield.

Although it was still early, it didn't affect him as he continued to deduce cultivation skills.

Jun Qiuye and the others came in one after another.

They all had strange expressions on their faces.

“Brother Jiang, how are you going to kill him?” Ye Bai whispered, “Here's a suggestion, grab his neck and slam him into the ground. Then, step on his nose with your smelly feet and grind it fiercely. Stink him to death!”

“You're disgusting, and it's a disgrace to the Holy Body!” Jun Qiuye said unhappily, “But Bai's suggestion is not bad. Just stomp on him with your smelly feet and let him know how sinister the world is.”

“In my opinion, control his mind with an Illusion Territory. Then you can make him the laughingstock of the Federation.” Li Ping'an grinned, “For example, strip him naked!”

Everyone gave some suggestions.

It made Wang Qitong and Luo Qingchen unconsciously move away from them. These guys were too vicious.

Jiang Ming just smiled.

Soon, the fights started again.

He appeared in the battlefield, and opposite him was Tang Sanchui, who chose a large hammer.

It was really huge.

“Brother Jiang, I’ve long admired you!” Tang Sanchui stared at Jiang Ming, his expression somewhat cold, “You and Qin Zhiyan are classmates, and I should thank you for taking care of her during the Martial Exam. But, you don’t need to anymore, because I’m here. I’m her fiance.”

“Fiance?” Jiang Ming sneered, “Did she agree?”

“The Qin Family’s Clan Elders personally proposed the marriage!” Tang Sanchui puffed out his chest.

“In other words, she didn’t agree!” Jiang Ming laughed coldly, “The Qin Family is amazing. Now it’s the era of the Federation, arranged marriages have long been abolished. Yet, the Qin Family still wants to turn back the wheels of history and trample on Federation law!”

“I know that when Zhiyan’s mother took her away from the Qin Family, they had already cut ties!”

“Her mother passed away because of this!”

“Now that Miss Qin has entered the United Federation Grand Examination, how is it? The Qin Family still wants to recognize her?”

“They haven’t even seen each other, and they’re directly arranging this marriage?”

“The Qin Family’s face is really big!”

“And you, Tang Sanchui, you’re even more shameless!”

“You really think that your family’s strength allows you to do whatever you want?”

Jiang Ming spoke, his body moved, and it seemed as if he had passed through space and reached Tang Sanchui’s front in a flash.

He was too fast.

Even with his guard up, Tang Sanchui couldn’t dodge in time and was kicked by Jiang Ming and sent flying a hundred meters away.

“You, a mere waste, dare to covet our class president!” Jiang Ming looked at him coldly as he stood up.

Jiang Ming...” Tang Sanchui covered his chest, his anger raging, his eyes blood red.

In front of the whole Federation, he had been scolded.

And kicked.

It was a great humiliation!

“You claim to be her fiance in front of the United Federation without her consent. Tang Sanchui, I’ve seen shameless people, but I’ve never seen anyone as shameless as you.” Jiang Ming narrowed his eyes, his words sharp as a knife, “Calling you shameless is actually complimenting you.”

“You’re courting death!” Tang Sanchui’s anger burned to the ninth heaven, unable to hold back any longer, he roared, “I want you dead!”

“Arrival of the Tree World!

“Wood Dragon Skill!”

“Spiritualization, Strangle!”

He completely erupted..

Chapter 194 - 125: Passing through the checkpoints, eliminating generals, and exploding with one punch.

Chapter 194: Chapter 125: Passing through the checkpoints, eliminating generals, and exploding with one punch.

Tang Sanchui is terrifying.

No one can deny that.

He directly evolved a forest, which was incredibly unbelievable.

The forest seemed alive, with branches and leaves intertwining to form wooden dragons attacking, while bloodthorn vines entwined around them.

Encirclement, restraint, attack, all were fused into one, forming an incomparably powerful domain forbidden area.

Boom...

Jiang Ming's gaze sharpened, and the Yin-Yang Energy sprayed out, forming countless Sword Qi into a Tai Chi diagram, and began to kill madly.

Any tree, any wooden dragon, any vine was shattered.

They couldn't block the Sword Qi's power of Yin and Yang.

"Go die!"

At the same time, Tang Sanchui swung his hammer and fell from mid-air, the force of destruction contained in the hammer causing the void to collapse.

Jiang Ming raised his eyes, and the sword in his hand buzzed, he lifted it to gather Tang Sanchui's neck, and then violently smashed it downward.

Bang...

The earth trembled, and Tang Sanchui spat out a line of blood.

Jiang Ming lifted his foot and stepped on the opponent's face, looked down with indifference and said, "Garbage! And you want to become Miss Qin's fiance? You're not worthy!"

"You deserve to die!"

Tang Sanchui's face contorted, his eyes filled with blood-red anger, but no matter how hard he struggled, he couldn't escape Jiang Ming's foot.

"Die?"

Jiang Ming gave a cold smile, his foot bursting with power, directly crushing the opponent's skull.

Powerful and brutal.

Since the Grand Examination, it was the first time that he had shown such a strong and overpowering force, suppressing it at the flick of a finger.

It was even a humiliating kill.

"Jiang Ming!" Qin Zhiyan on the viewing platform was stunned.

"When Brother Jiang is cruel, he really is terrifying!" Long Aotian exclaimed.

“Not just terrifying, it’s downright scary!” Qiang Jiu nodded in agreement, “We both know how terrifying Tang Sanchui is, but in front of Brother Jiang, he’s like a weak child. But his execution was excellent, truly exhilarating.”

“Such a unique man is really rare in this world. Zhiyan’s heart must have completely fallen,” Lan Xin looked at the side Qin Zhiyan with some sourness.

On the other side.

Tang Sanchui was teleported back to his seat, looking at Jiang Ming who had also been teleported back to his, he clenched his fists and shot fire from his eyes.

His hatred was extreme.

Feeling the surrounding weird gazes, he left the scene directly.

On the viewing platform.

“Brother Jiang, this is a real hero!” Wang Qiutong was the first to give a thumbs up.

“Even more so, a great man!” Luo Qingchen nodded.

“All I can say is that he is too handsome,” Ye Bai smiled, “When I killed him, I had to exert some effort, but I didn’t expect Brother Jiang to be so neat. However, if you gave it your all in one punch, would he have disappeared without a trace?”

Jiang Ming just smiled.

The following battles were still exciting. [Search* The website](#) to access chapters of novels early and in the highest quality.

As he watched the battles, he kept deducing the secrets of the Inch Fist, comprehending the Ten Thousand Threads, and occasionally sorting out the way of gene.

There was too much to grasp.

But time was too short.

Once the Grand Examination was over, he planned to immediately enter the World of Secret Realm and settle down.

Once he had digested the harvest, Jiang Ming was confident that his strength would undergo an explosive growth.

The next day, his opponent was Zhou Tian.

He had a strong cultivation level, he had already opened three hundred acupoints in the Martial Arts Fifth Layer, and evolved into the Zhou Tian Star Defense Skill.

Jiang Ming was almost unable to break through it, and it proved to be the strongest defense he had ever faced.

“Unfortunately, I haven’t opened all the acupoints yet, otherwise, the acupoint vibrations would form the Zhou Tian Star Defense Skill, and I would be confident in withstanding a few waves of attacks even from the Martial Dao Sixth Level Celestial State or the Seventh Heaven and Human Realm!” Zhou Tian was very confident.

Jiang Ming agreed.

Because the opponent’s defense was so strong.

“If I can comprehend the World Concepts and integrate it, then the defense would really be invincible. Unfortunately, the World Concepts are too difficult to comprehend, and up to now, I still have no idea!” Zhou Tian shook his head helplessly.

Jiang Ming’s eyes lit up: “Brother Zhou, I have already perfected the World Concepts. I’ll help you to comprehend them, and you can teach me the Star Defense Skill. How about that?”

“You have not only comprehended the World Concepts but also perfected them?” Zhou Tian looked dumbfounded.

Jiang Ming nodded.

Zhou Tian immediately became excited and hurriedly transmitted a sound: “That’s great! My defense secret, although it is a family heritage secret, it is far inferior to the World Concepts. Brother Jiang, I will ask for your advice after the Grand Examination.”

“Haha, it’s a deal then!” Jiang Ming couldn’t help but feel overjoyed.

In this battle, Zhou Tian lost.

On the eighth round, Jiang Ming faced Bai Bing, who had a cold ice body, and the Soul Power reached the sixth tier.

He was a truly terrifying existence.

With the power of ice, the entire battle platform was frozen, making Jiang Ming feel the bone-chilling coldness.

It also limited his speed.

At the same time, he used the Soul Path Skill and was overwhelmingly powerful.

Jiang Ming also used the Soul Path Skill for the first time, and the two had a collision of soul realms.

Bai Bing was suppressed.

She was completely suppressed.

The power of her soul and her Dharma Phase was much weaker than Jiang Ming's, not even on the same level, causing her to feel incredible.

Especially after Jiang Ming had integrated the World Concepts, Bai Bing simply waved her hand.

"You're a freak!" She snorted and admitted defeat.

The ninth battle.

Three-Eyed Yang Jian.

"Brother Jiang, please defeat me with your full strength!"

He held the Triangular Double-Edged Blade in his hand, and the third eye in the middle of his eyebrows slowly opened..

Chapter 195: Chapter 125: Overcoming Challenges and

Defeating Enemies with One Punch – 2

Even though he was proud, he understood that he was no match for Jiang Ming. His aim was merely to give it his all, even in defeat.

"Alright!" Jiang Ming didn't choose a weapon. Raising his hand, he signaled, "Brother Yang, please."

"Please!" As Yang Jian's voice fell, his third eye flared open, unleashing a Destructive Thunder Light.

It was too fast.

As fast as light.

But Jiang Ming's reaction was even quicker. With a punch, he blasted the divine light apart.

"Is that possible?" Yang Jian was preparing to leap over and attack, but upon seeing this scene, he was dumbstruck.

"You are awesome, you really are. This is... this is..." Yang Jian couldn't finish his words, but bit his tongue and spewed out a drop of blood that spiralled into his third eye.

This time, the light from his third eye was even more terrifying, carrying the power to destroy everything. Search the website to access chapters of novels early and in the highest quality.

Simultaneously, he leaped into mid-air and his Triangular Double-Edged Blade came crashing down.

Jiang Ming raised his hand slightly, and the power of space pervaded. The air in front of him twisted and the sharp edge concentrated on his fingertip blocked the divine light from the third eye.

"Such powerful attack power!" A wound appeared on Jiang Ming's finger and blood seeped out.

Watching the Triangular Double-Edged Blade descend, Jiang Ming's body shuddered and a surging Supreme Yang Qi spewed forth. Behind him, it seemed as though nine suns were rising.

"Nine Suns Divine Fist!"

With a tread, he rose into the air, ceaselessly bombarding the Triangular Double-Edged Blade with both fists, leaving Yang Jian with no chance to attack, but instead sending him flying hundreds of meters high into the sky.

"The twelfth sword, Chilling and Fast!"

Jiang Ming stretched out his hand and composed a sword out of Qi. As it pointed into the air, as though penetrating space and time, it aimed at Yang Jian's forehead from a distance of two to three hundred meters.

"Space Sword!"

At this point, Yang Jian's arm was almost blown apart. Suspended in mid-air and horrified, he felt the incoming attack and his pupil constricted.

"He has brought the Space Art to such a degree!"

His face turned pale with terror.

Although Yang Jian had mastered some Space Power, it was too late for him to avoid the attack. He was penetrated by Chilling and Fast.

On the viewing platform.

"It's not that Brother Yang is not powerful enough, but Jiang Ming is too terrifying. He's going all out now, isn't he?" Ye Bai exclaimed.

"He should be, haven't you noticed? The recent fights have been quick. Is it because he already knows his opponent's strength, and there's no point in prolonging the fight?" Jun Qiuye speculated.

The tenth day.

Jiang Ming's opponent was Ji Yunning, a powerful individual who had returned from the Ten Thousand Realms Battlefield. Her strength was earth-shattering, and her sword skills unparalleled.

She also possessed the ability to control weapons.

"Brother Jiang, let's fight!" Ji Yunning's sword intent soared.

"Alright!" With a long sword in hand, Jiang Ming declared, "Then let's decide the match with sword skills!"

"Kill!" Ji Yunning instigated the attack, her Sword Qi as dense as a forest and the killing intent was shocking. One sword ripped through the sky, and another sword slashed the stars.

She wielded the formidable Sword Qi with Heavenly Sword Intent.

Jiang Ming did the same.

He mainly used the Heavenly Sword Intent.

"Slaying Immortal Sword One!"

"Slaughter Immortal Sword Two!"

“Three Swords of Slaying Immortal!”

Jiang Ming made his move with restraint, suppressing Ji Yunning with just three swords.

“The First Sword of Slaughtering Immortals!”

“The Second Sword of Slaying Immortals!”

“The Third Sword of Slaying Immortals!”

Another three swords, more terrifying than before.

The Slaying Immortal Sword emphasized the integration of slaughter, death, and destruction into its realm of comprehension.

The Sword of Slaughtering Immortals was based on the Slaying Immortal Swords, integrating a massive amount of Blood Qi, making every sword extraordinarily heavy and possessing the power to level mountains.

“Good sword!”

Ji Yunning’s eyes shimmered brightly, full of admiration. However, she continuously retreated, narrowly dodging a sword that might have slain her.

She was completely suppressed.

“Entrapment Immortal Sword One!”

This sword, based on the Slaying Immortal Sword, integrated the Soul Path force. As the sword light fell, it resonated with the souls and swallowed everything in its limitless killing power.

Ji Yunning was slightly stunned. Thankfully her fighting experience was rich, and under the pressure of death, she narrowly dodged.

But her left arm was nearly severed.

Blood gushed out.

“Extinguishing Immortal Sword One!”

Jiang Ming had no intention of showing mercy.

This sword, which combined Qi, Blood Qi, Soul Power, and various other realms into its technique, was the first sword of Extinguishing Immortal, but was as formidable beyond imagination.

As the sword ripped through the sky and suppressed, Ji Yunning felt her breath hitch and the air around her became viscous, as though she fell into a swamp.

Next, the Soul Path force attacked her spirit directly, causing her iron-like will to falter.

“Can’t avoid it!”

Although she quickly recovered, this sword filled her with a sense of desperation. Even the slightest resistance would result in her being slain by the sword.

On the viewing platform.

After Ji Yunning stabilized, she looked over at Jiang Ming and felt stormy waves surging in her heart, “In terms of sword skills, I hadn’t even forced him to use his full strength. How powerful is he exactly?”

“A worthy foe for my lifetime!”

Ji Yunning clenched her fists.

The finals of the eleventh day.

Finally, Jiang Ming’s opponent was Luo Qingchen, ranked tenth on the Heavenly Ladder.

She came from Mu Huang Star.

She was also an Immortal Spirit Body.

Jiang Ming perceived through her numerous battles that she had a formidable recovery ability.

Her Qi seemed inexhaustible.

Moreover, she seemed to be able to merge with the void at any moment. Each of her moves was extremely powerful, as though assisted by Heaven and Earth.

The Immortal Spirit Body had also developed a sort of Domain or Heavenly Phenomenon-like pressure. This was the root of her power.

However, she was strongly killed by Jiang Ming, who used numerous sword techniques.

The twelfth day.

The opponent was Li Ping’an the Dominator Body from Great Wilderness.

“Brother Jiang, if you regard me highly, then use your strongest power!” Li Ping’an’s face was serious.

“Do you really want me to go all out?” Jiang Ming hesitated a bit.

“Of course, I want to see how much my physique falls short in comparison to you. If you can, strike me down with a single punch!” Li Ping’an bowed his hand..

Chapter 196: Chapter 125: Crossing the Pass, Exploding with a Single Punch_3

He did not select a weapon.

A pair of fists is the perfect divine weapon.

With the last word fall, he activated the power of the Dominator Body, his physique suddenly rose to nearly three meters high, the furious aura was like an ancient giant beast

Strong power of Blood Qi gushed out and formed armor around his body.

Invisibly, a pressure swept over, shaking the will of the soul.

”Brother Jiang, I’ll take the first move!” Li Ping’an didn’t hesitate, he raised his hand and pressed down, shouting, “Hundred times gravity, press!”¹

This is his another innate ability, controlling gravity.

This alone is terribly formidable.

Above that, the Battle Body, which is so formidable that it causes despair.

Jiang Ming felt a heavy sinking sensation, feeling like he couldn’t breathe, his body swayed, his Blood Qi fluctuated, he managed to withstand the gravity.

He didn’t even activate the power of any realm.

“Your physique, it’s impressive, there’s no weakness!” Li Ping’an pupils shrank, “Others want to resist my gravity, they can only rely on Qi support, the realm as a barrier. However, you are withstanding it with your physical body!” “Brother Jiang, I’m really not being polite!”

“Eight Wilderness Domineering boxing, die for me!”

Li Ping’an stepped forward.

With each step he took, the ground trembled three times.

He quickly arrived in front of Jiang Ming, a punch caused the air to explode. The surrounding area of his fist was seen to burst into flames due to the excess speed.

Jiang Ming also moved.

“Brother Li, then I won’t be polite either!”

“Inch Fist, nineteenth Layer!”

“Infinite Realm!”

“Burst for me!”

Jiang Ming had completely burst out too.

Over these days, he had derived two more layers of the Inch Fist, reaching the nineteenth layer, each punch amplified nineteen times, bursting out twenty times the power.

His basic strength was Sixty Vajra Force, twenty times was One Thousand Two Hundred Vajra Force.

By integrating the Infinite Realm, the power exploded five more times. This was a complete stacking of power, which allowed this punch of his to directly reach the level of Six Thousand Vajra Force.

A normal Body Refiners at the peak of the Sixth Transition, they only have Five Vajra Force,

But he directly exploded with Six Thousand Vajra Force.

This was incredibly inconceivable.

Bang...

The moment the fists collided, Li Ping'an's face changed terribly, his fist exploded, followed by his arm, all exploded into a mist of blood.

Even half of his body was blasted apart.

This scene was too shocking.

The incredibly powerful Li Ping'an, who had almost no defeats, was blown away by a punch?

The billions of viewers in front of the live broadcast.

The many Tianjiaos on the viewing platform all lost their colors in shock, they couldn't help but stand up straight.

Even Ye Bai, who had anticipated this earlier, also held his breath.

"This guy, he gets stronger every day!" Ye Bai's spirit was shocked, "Pure physical strength, none of us is his opponent, not Brother Li, not Shi Lei, nor me!"

"It's too terrifying!"¹¹ When Li Ping'an returned, he was still scared, "I always thought that I was only slightly less physically strong than Ye Bai. If I continue to develop the Dominator Body, I can surely become the top of the world in the future. But Brother Jiang... If he has the Dominator Body, the Holy Body..."

He dared not continue.

"In the realm of the Sixth Transition of Body Refining, one can rebuild the physique. With his talent, he is bound to transform the Mortal Body into a Precious Body. Who knows, he may develop a constitution comparable to the Dominator Body and the Holy Body. By that time..." As Ye Bai spoke, he couldn't help but smile bitterly.

"We're in the same grade as him, I don't know whether to feel honored or sad!" Li Ping'an sighed, then cheered up and said, "We can learn his Inch Fist and Infinite Realm. Hehe, next step, plunder his foundation, then suppress him and tease him on the ground every day!"¹¹

"Want to learn? I can teach you anytime. As for teasing on the ground?" Jiang Ming returned, smiled and said, "I am always ready for your challenge!" "Brother Jiang, are you really willing to teach?" Li Ping'an was overjoyed, and couldn't help feeling anxious.

"It's nothing big, of course I can teach it!" Jiang Ming laughed.

“Brother Jiang is so generous, from now on, you are my real big brother.

Whether through blades or flames, just say the word and it is done!” Li Ping’an sighed, thinking to himself: I died worthily. Really worth it!

“Brother Jiang, what I admire most about you is this point, domineering, yet still magnanimous!” Jun Qiuye spoke, then his battle spirit soared, “Tomorrow’s battle, Brother Jiang, you must be careful. My methods are not just relying on physical strength to win!”

“I am also looking forward to it, Ghost Body, what kind of constitution is it?” Jiang Ming said, “I must study it thoroughly, I must study it thoroughly!”

Jun Qiuye felt inexplicably cold.

“Let’s choose a surgery table tomorrow, after suppressing this guy Qiuye, in front of the entire United Federation, perform a dissection on him!” Chen Bei laughed.

“This can be done!” Ye Bai’s eyes lit up.

Jiang Ming also smiled..

Chapter 197 - 126: Netherworld Ghost Chaos, Six Paths of Reincarnation, Threat of Death

Chapter 197: Chapter 126: Netherworld Ghost Chaos, Six Paths of Reincarnation, Threat of Death

Jun Qiuye’s methods were bizarre.

Not an illusion, but without spirit power, he could often easily defeat his enemies, unpredictable in his strangeness.

On the battle arena.

“Brother Jiang, I won’t hold back!” Jun Qiuye cupped his hands together, his smile very eerie.

He didn’t choose any weapons.

As his words fell, his split smile reached to the roots of his ears, revealing two rows of dagger-like teeth.

This scene made Jiang Ming raise his eyebrows.

Following that, he noticed the changes in his surroundings, the sky and earth turning gray, shrouded in mist and dead silence.

The battle platform disappeared, as did the audience.

It was as if they were in a different world.

“A domain? No, you didn’t use this method when you were fighting before. It should only affect the spirit?” Jiang Ming spoke, his heart alert.

“This is the special ability hidden within my Supreme Ghost Body, like a spirit but not, like a soul but not, able to create a field of Ghost Chaos that affects the spirit, but also able to bring in one’s true body. I call it the Netherworld Ghost Domain.” Jun Qiuye did not hide, “It is similar to a domain, but even more powerful.”

“I’ve encountered Ran Xin’s spirit power!”

“She pulled me into her spiritual sea, and I in turn pulled her into the Netherworld Ghost Domain. That battle was truly extraordinary and incredibly dangerous.”

“It was even more dangerous than when I faced Bai Bing and Ji Yunning!”

“I am the ruler here!”

“Netherworld Ghost Domain, no living shall enter!”

Jun Qiuye was laughing as he spoke.

The next moment, Jiang Ming felt a chill in his heart and realized that something was rapidly passing through his body.

SEARCH THE website to access chapters of novels early and in the highest quality.

It was vitality!

Jiang Ming understood immediately.

No living shall enter?

If they do, would they be stripped of their vitality?

“A curse!” Jiang Ming’s expression grew heavier, as he spurred the vast power of Blood Qi, forming a barrier outside his body, only slightly reducing the flow. Then, he unleashed the power of Yin-Yang Energy, forming a Yin-Yang Tai Chi diagram, greatly alleviating the flow of vitality.

But it still could not be stopped.

“Sort of!” Jun Qiuye said, “Yin-Yang Realm, the pinnacle of Dao Resonance, really annoying, even able to block my method of stripping away vitality!”

“So...”

“Decay!”

“Wither!”

“Death!”

“Despair!”

“Fear!”

“Weakness!”

“Come forth!”

With a wave of Jun Qiuye’s hand, various bizarre powers swarmed in, directly penetrating the Yin-Yang Tai Chi Diagram and entering his body.

All sorts of negative forces erupted instantly.

“Your ability really is hard to defend against.” Jiang Ming frowned, “Especially when it comes to sneak attacks, it’s even more terrifying.”

As he spoke, he activated the Blood Qi power throughout his body, suppressing various discomforts, and even his Qi was running at its extreme.

But the effects were limited.

Even the power of Yin-Yang Realm could not completely suppress it.

“So, this kind of arena match is not to my advantage!” Jun Qiuye said, shaking his head, “If I can’t even make you flinch like this, I really can’t do anything to you.”

“Hmm!” Jiang Ming nodded, “Even without the power of restraint, with my thick Blood Qi and majestic Qi, it would be difficult to kill me. In the end, you are just not strong enough.”

Jun Qiuye was speechless, his foot stomping down, causing the earth to shake. The surrounding mud churned, and skeletons crawled out, jumping or running, attacking Jiang Ming.

With another wave of his hand, numerous Yin Spirits appeared in the sky, encircling Jiang Ming, emitting terrifying screeches that formed a dreadful impact that reached deep into his spirit.

“Curses, weakening, group attacks, your methods are really extraordinary. To deal with you, the best strategy would be a quick battle. But here is your Netherworld Ghost Domain, to quickly finish you off, it’s probably more difficult than usual.” Jiang Ming spun Yin-Yang Sword Qi around his body, killing the skeletons and destroying the Yin Spirits.

But there were just too many, seemingly endless.

Together with the various negative forces acting on his body, he was bound to lose in the long run.

“If I can’t restrain you, it is really hard to deal with.” Jiang Ming continued, “Having grasped such a terrifying Ghost Path Techniques in a human body, if you enter a world with the Netherworld, you will definitely thrive!”

“If I could really enter such a world, my strength would soar and grow like mad!” Jun Qiuye said, “However, this ability of mine also has a great backlash on me, which is why I have been cultivating in secret and not making any big moves!”

“Side effects? Tell me!” As Jiang Ming remained stationary, killing the encircling attackers while analyzing the situation.

“Backlash, causing personality changes, corroding vitality, etc.” Jun Qiuye said with a bitter smile, “Mastering this power, though powerful, brings about significant side effects! I really fear that one day, I will become neither human nor ghost, that’s the price of mastering power.”

“Is there a way to alleviate it?”

“Yes, but it’s very difficult!”

“Tell me?”

“With my situation, the power of Light and Vitality can alleviate or even completely suppress it. But that is a restricting power, which could severely injure or even kill me.

The best method is the Path of Light and Darkness, using darkness to suppress and light to purify; or the Power of Life and Death, cycling between life and death, dissipating Death Qi and bringing vitality. Alas, it's a pity that the Power of Life and Death and the Path of Light and Darkness are both among the Ten Great Intentions, rare in the world, only to be encountered but not sought after."

"Ah, I wonder how difficult it is? This is simple!"

"Simple?" Jun Qiuye was shocked and then overjoyed, "Brother Jiang, don't tell me you have mastered one of these Powers!"

Chapter 198 - 126: Netherworld Ghost Chaos, Six Paths of Reincarnation. Threat of Death 2

Chapter 198: Chapter 126: Netherworld Ghost Chaos, Six Paths of Reincarnation. Threat of Death 2

Not looking down on anyone!" Jiang Ming laughed.

Damn, you've mastered both!" Jun Qiuye was dumbfounded and then quickly waved his hand. Various skeletons and Yin Spirits dispersed, and he quickly approached Jiang Ming, "Brother Jiang, is it real?"

At this moment, he couldn't care less about the competition or the contest.

You take a look!" Jiang Ming said, and the power of light and darkness flowed out, forming a space.

One half dark, one half light.

It was the Light and Darkness Great Barrier.

With a flash of light, the power of light and darkness disappeared, and the power of life and death emerged. Between the cycles, there was both decay and prosperity, life and death uncertainty.

It's really both light and darkness, and life and death... *sobs*...I don't have to become a ghost anymore." Jun Qiuye cried excitedly, "You don't know how much effort my clan put into finding these two powers, but they couldn't obtain them. Brother Jiang, I didn't expect you to comprehend them. From now on, you are my brother, my own brother."

No big deal, and I'll help you understand life and death or Yin and Yang in the future!" Jiang Ming laughed, but in his heart, he sighed: After all, he was just a sixteen or seventeen-year-old teenager.

Jun Qiuye was even more excited.

This was not just about healing, but about imparting knowledge, a fundamental solution.

If he mastered the Way of Life and Death, then his Supreme Ghost Body would definitely undergo a qualitative change.

Without saying much, Jun Qiuye admitted defeat

Even though he was so proud, he couldn't do anything about these two powers.

The outside world.

People watching were confused.

After just a glance at each other, a gray mist emerged around Jun Qiuye, enveloping the battlefield, but vanished a moment later.

He had already given up.

It was inexplicable.

But they were used to it.

Several people had done this all along.

The next day, Jiang Ming's opponent was Wang Qitong, who was not only an Innate Path Body but also had extraordinary eyes.

What's even scarier was that she had already opened all 365 acupoints to an even higher level and stepped into the Martial Dao Sixth Heavenly Phenomenon Realm.

You've improved quite fast!"¹ Jiang Ming said with mixed emotions.

I was already born with all the acupoints open, and I originally wanted to settle down and strive to comprehend the World Concepts, but unexpectedly, so many demons appeared in this grand examination. In order to get a good ranking, I cultivated various great elixir pills and quickly filled my acupoints, and then realized the Heavenly Phenomenon Way!" Wang Qitong laughed, "I want to fight for the first place too."

As they were talking, the Heavenly Phenomenon Pressure descended.

Above their heads, colorful lights appeared, and five colors flowed.

You entered the Heavenly Phenomenon with the Five Elements Realm?¹ Jiang Ming felt his body sink and was under great pressure.

He had experienced this feeling before.

However, Wang Qitong's Heavenly Phenomenon Pressure was stronger because she had mastered the Way of the Five Elements, which is comparable to the Ten Great Intentions.

Yes!" Wang Qitong nodded, "My goal is the Way of Yin and Yang and the Way of the World, but it's too difficult to comprehend. I've just started to understand Yin and Yang, and I have no clue about the World. Brother Jiang, after the grand examination, can you teach me?"

Her eyes wore burning with a hint of pleading.

Of course!" Jiang Ming had no objections, "If that's all, you still can't beat me!

Thank you!" Wang Qitong showed a delighted smile and pointed to her eyes, "What about these eyes!"

Divine light flowed in her eyes.

I can see the trajectory of your moves and your weaknesses," Wang Qitong didn't hide it but spoke telepathically.

It's still not enough. In the face of absolute power, you're still a bit lacking! Jiang Ming shook his head.

Brother Jiang, you have unparalleled talent and extraordinary comprehension, and you can comprehend various incredible techniques, but I'm not bad either." Wang Qitong wrinkled her nose, "I have been close to the Dao Resonance of Heaven and Earth since I was a child, and everything I learn comes easily. My skills are not worse than yours!"

Then come!

"Alright!

The two fought together.

This time, Jiang Ming displayed various sword skills, from the First Sword to the Seventeenth Sword, which dazzled the spectators.

Especially those who cultivated sword skills were even more shocked, astonished.

He actually comprehended so many scies of sword skills? It's incredible!" The most shocked was Ji Yunning, "Jiang is amazing!"

Then came the Slaying Immortal, Slaughtering Immortal, Entrapping Immortal and Extinguishing Immortal Swords, which defeated Wang Qitong.

I opened all the acupoints, and by the amount of true Qi, you're even more than me; my Innate Path Body has an extremely high-quality true Qi, far beyond what ordinary people can compare, but you're not inferior to me; I have Heavenly Phenomenon Pressure, but you used the World Concepts to fuse many intentions and negated my pressure..." After returning, Wang Qitong looked at Jiang Ming and sighed, "I was defeated by you in just martial arts, and my body was completely beaten up. Brother Jiang, I want to cry. What should I do?"

Would you like to borrow my shoulder?"¹¹ Jiang Ming whispered,

Wang Qitong rolled her eyes,

The following contests were even more intense.

In this round, Jiang Ming fought against Chen Bci, the Reincarnation Body.

Both of them were already familiar with each other, so they didn't hold back on the battle platform and attacked directly after a salute.

Reincarnation Fist!

Chen Bci burst out directly.

His boxing technique was extremely terrifying. The power of every punch circulated and absorbed the scattered power for his own use.

Each punch was stronger than the one before.

By the thirty-sixth punch, even Jiang Ming was shocked.

Too horrifying.

Even more powerful than his Inch Fist when not urging the boundless realm of comprehension.

Boom, boom, boom...

The continuous clashes of the two caused the waves of force to tremble heaven and earth, and twist the void, reaching an extremely terrifying level of power.

Brother Jiang is truly amazing.” Chen Bei’s blood boiled, “I’m done warming up, Brother Jiang. I’m about to unleash everything.”¹¹

Six Realms Reincarnation Fist!

Hell Fist!

This fist was full of sinister ghostly aura, shaking one’s mind and weakening the life force.

Jiang Ming’s eyes suddenly brightened.

He was extremely curious about this opponent.

He counter-attacked with the Nine Suns Divine Fist.

Boom, boom, boom...

Evil Ghost Fist!

This fist actually emitted a sharp screeching sound, causing agitation in one’s heart.

Beast Fist!

This fist was filled with chaotic and berserk energy, extremely wild.

Asura Fist!

Human Realm Fist!¹

Heavenly Fist!

The Asura Path was filled with endless killing qi and murderous intent, the Human Realm was filled with endless desire qi, making people unconsciously indulge; and the Heavenly Fist held the boundless power of the vault of heaven, supreme and suppressing everything, exerting pressure on the soul.

Each fist hold a realm of comprehension.

Jiang Ming was also extremely shocked.

It was only him, as others who faced the Six Realms Reincarnation Fist would definitely experience a collapse in willpower. The strongest power, combined with the different Dao resonances that could shake one’s will, was impossible to defend against.

I still can't do anything to you, Brother Jiang. I still have one last fist!" Chen Bci let out a long roar, and his momentum rose once again, reaching its peak. "Six Realms Reincarnation, all living beings follow!"

The chest of his suddenly exploded, and countless light spots emerged, transforming into animals, plants, humanoid creatures, monsters, and so on.

In an instant, the surroundings of Chen Bci were filled with the illusory images of various creatures, each exuding a powerful aura.

Boom...

As Chen Bci punched through the air, it seemed like he could blast the world apart. At the same time, the evolved creatures erupted with him, each launching a punch.

Their power was gathered together, and it was completely different.

It seemed to cover an area, but it could also merge into one at any time, and it was very bizarre.

This is not an illusion, but reality!"

Jiang Ming was very surprised.

He also discovered that every illusory creature had a complete soul.

Reincarnation Body? Could there really be a Reincarnation World inside it?

Jiang Ming tugged at the corner of his mouth.

Chen Bei's ability genuinely surprised him.

The other's fist also made him feel a real threat.

Inch Fist, nineteen layers!

Boundless Realm of Comprehension!"

Open for me!

Jiang Ming also unleashed his strongest power.

Boom...

When the power burst, his face changed, and he kept retreating.

The strongest force unexpectedly fell short against the opponent.

Brother Jiang, you are indeed strong. Try my next strike!" Chon Bei's eyes focused, and he pointed with one hand, shouting, "Six Realms Impact!"

Buzz...

Countless illusory creatures transformed into light spots, forming a river that flashed towards Jiang Ming's brow in an instant.

For some reason, his brow throbbed wildly.

This time the threat was greater.

Jiang Ming no longer held back, forming a domain world around his body. From the outside, only a vague forbidden area illusion could be seen. However, inside, it had evolved into a true world.

Can those countless souls really resonate and act as one?¹¹

Chapter 199 - 127: Great Devouring Technique, The Forbidden Power

Chapter 199: Chapter 127: Great Devouring Technique, The Forbidden Power

Chen Bei's methods exceeded imagination.

He was too strong.

At this moment, Jiang Ming's Yin God escaped from his body, evolving into a Yin-Yang Dharma Phase. The rotation of Taiyin and Sun formed a suppressing force.

The combination of the Soul Path, the Power of the World, Light and Darkness, and Yin-Yang Dao Resonance formed an incredibly terrifying power. It forcibly suppressed the long river of light particles that had rushed in and then crushed and destroyed them.

It seemed easy, but Jiang Ming had already used all his strength.

However, at this time, Chen Bei suddenly threw a punch. Stepping into the domain, he felt an immense pressure with most of his power being suppressed, making it almost impossible to move. "What is this..." Chen Bei showed an astonished expression, "Your Soul Path Realm has actually evolved to this extent, truly unbelievable."

He was truly shocked.

"In actuality, it's you who makes me feel unbelievable," Jiang Ming said, "What kind of power do you possess? Can you contain living beings within your body? Reincarnation after reincarnation, do you really have a Reincarnation World inside you?"

"More or less!" Chen Bei nodded, "It's the accumulation of my many years. Even if I released it all at once, I couldn't take you down. To be honest, I'm surprised. In this Grand Examination, even with the Holy Body, the Supreme Bone, and the monster Luo Feng, and even the Innate Path Body, I have a great confidence in fighting for the championship. That's because it's not just the power of one person, but the power of many living beings gathered together. But unexpectedly, you've managed to overpower me."

"I feel like you still have some tricks up your sleeve," Jiang Ming said.

Chen Bei laughed, "Indeed, I have methods, but once I use them, I will undoubtedly die, and yet it's not certain that I'll be able to drag you down with me, so it's not really useful!"

"A method for mutual destruction, huh?" Jiang Ming grinned, feeling curious, "Once you reach the Ten Thousand Realms Battlefield, will you be even stronger?"

"Of course!" Chen Bei proudly smiled, "By then, Brother Jiang, it's hard to say who will suppress whom. Alas, honestly, if it weren't for this special World of the Secret Realm, you would have fallen today. It's a pity, such a pity!"

Jiang Ming was speechless.

He also thoroughly understood that the opponent's Reincarnation Body was truly special, so special that it was shocking.

"Brother Jiang, I concede this match, but I will strive to win second place in the following battles!"

The two left and returned to the viewing platform.

However, for the power they demonstrated in their battle, even Ye Bai and Shi Lei were extremely apprehensive.

Jiang Ming was terrifying, which was widely accepted.

But who would have expected that with purely physical power, Jiang Ming was actually forced back? How unimaginable that was.

Moreover, there was the miraculous Six Realms Reincarnation Fist which was even more terrifying.

Their final clash gave everyone chills.

"I have a strong physique, always full of pride and arrogance. Even without diligent cultivation, I think I can easily crush everyone, and I should be the king of this generation," Ye Bai sighed, "But after coming to the Grand Examination, I realized how ignorant I was. Brother Jiang taught me a lesson, and Brother Chen made me feel shame. In the end, I was too complacent, possessing a treasure mountain without knowing how to excavate it."

"You've worked hard enough!" Shi Lei said.

"Compared to Brother Jiang, how hard have I worked!" Ye Bai was truly reflecting on himself.

The competition continued without stopping.

The excitement continued as well.

As for the various things happening outside, Jiang Ming still ignored them all.

Back in reality, he chatted with Long Aotian and the others and then continued immersing himself in cultivation.

Either he sorted out his genes and continued exploring his body's potential, or he pondered over the Inch Fist, wanting to advance further; he also considered the Ten Thousand Threads, hoping to truly deduce and succeed.

On the sixteenth day of the Finals.

The opponent, Luo Feng.

He wore a black tight-fitting combat suit, with a long blade on his back, and even chose a Mind Master Weapon, the Escaping Heaven Shuttle, while a small round shield was strapped to his left arm.

Fully armed.

“Brother Jiang, I won’t be polite!” Luo Feng made his move directly.

The Escaping Heaven Shuttle behind him flew up and turned into thirty-six Flying Blades that attacked. At the same time, he leapt into mid-air, and the blade in his hand slashed towards Jiang Ming’s head.

From the very start, he had completely unleashed his power.

He was a Mind Master, extremely powerful.

His Martial Arts cultivation was also very high, skilled with the blade, interweaving killing, destruction, death, and other Realms of Comprehension into one unparalleled strike.

Jiang Ming’s Qi burst out, forming a Yin-Yang Sword Qi to block the Flying Blades while the sword in his hand blocked the opponent’s strike.

“What a strong power!” In the instant that the swords clashed, he understood that the opponent’s body must be incredibly strong.

Furthermore, he had mastered a powerful technique to exert force that also combined with his Qi, making that single strike just now reach at least the level of one thousand Vajra Forces.

Extremely terrifying.

The Flying Blades spun, their edges cold and sharp.

His offensive approach could definitely rank in the top three among the competitors.

Seeing that he couldn’t defeat Jiang Ming, the shield on his left arm suddenly detached and he leapt onto it, flying into mid-air.

“Escaping Heaven Shuttle, Heavenly Slay!”

With a point of Luo Feng's long blade, the thirty-six Flying Blades combined again into one, transforming back into the Escaping Heaven Shuttle, and whizzed towards Jiang Ming.

The power contained within made Jiang Ming's brow furrow intensely.

"Extinguishing Immortal Sword One!"

Jiang Ming's sword broke through the sky, barely blocking this strike.

"A thirty-six-fold amplification, you've actually comprehended the Dao of Telekinesis to such an extent."

He was very surprised, truly very surprised.

Controlling weapons through the Soul Path and Telekinesis, he could do it too, but he had never delved too deeply into this aspect of understanding.

Not that he didn't want to, but there was too little time and too much to understand..

Chapter 200: Chapter 127: Great Devouring Technique, Forbidden Power 2

"But I still can't defeat you!" Luo Feng bitterly smiled.

In the Ten Thousand Realms Battlefield, among his peers, he almost had no rivals, not even Ji Yunning.

When it came to fighting, he was even more chilling, like a humanoid reaper.

He came back with the intention of obtaining the champion title in the Great Examination, but who knew he would encounter so many monsters.

"Again!" Luo Feng roared loudly.

Escaping Heaven Shuttle attacked.

He also pounced from mid-air.

Both of them fought again.

This time, it was incredibly exciting. The lights of swords and shadows of the blades completely covered the battle platform, and the power that burst out made the air twist to its extreme, making it almost invisible.

It was just too amazing.

The two of them fought each other offensively for half an hour before it ended.

Luo Feng admitted defeat.

He was consuming too much, and in a long fight, he couldn't defeat Jiang Ming, who he found to still be reserving some strength, so he stopped.

However, this battle was very satisfying to watch.

Seventeenth battle, the opponent was Ye Bai.

"You've gotten stronger again!" Jiang Ming looked at him.

"Hanging out with you freaks, I have to get stronger!" Ye Bai said helplessly, "These days, it's the hardest I've worked on my cultivation. I've even used my connections, spent a huge cost, decrypting the Ancient Holy Body's development information, and my strength has also improved a lot."

"I was beaten by Chen Bei!"

"If it weren't for my special Holy Body, I wouldn't have been able to defeat Jun Qiuye!"

"And I was chopped by Luo Feng!"

"My dignity as a Holy Body, it's unbearable!"

Ye Bai was very resentful.

Jiang Ming couldn't help but laugh: "No one to blame but yourself for not working hard enough. Otherwise, it would be you bullying others!"

"Come on! Even if I fully develop my Holy Body, facing Chen Bei or Fang Qinghan, I still would not have any confidence!" Ye Bai shook his head. "Forget it, let's not talk about this. Brother Jiang, how about another mano-a-mano?" "Alright!" Jiang Ming agreed.

Ye Bai's vitality immediately surged, forming a whirlwind, terrifying to the extreme. A wild aura that could be sensed even by the onlookers.

"I've further developed my Holy Body, and my base strength has reached a level of 200 Vajra Force."

"Boiling Holy Blood! Under the secret skill, my burst power reaches five times!"

"With amplification secret technique, it can also burst out five times!"

"Brother Jiang, how about you taste my punch?"

Ye Bai's fist shattered the void.

Jiang Ming was not weak either and collided with him.

They were almost evenly matched.

"Your improvement is truly terrifying!" Jiang Ming couldn't help but envy, "If only I had a Holy Body..."

"If you had a Holy Body, would there be any room left for the others to live!" Ye Bai rolled his eyes and shouted, "Holy Body Pressing, the power of heaviness! Brother Jiang, I'm going all out!"

This pressure was even more frightening than the Heavenly Phenomenon Pressure.

Jiang Ming felt his blood congealing and his strength being suppressed a lot.

With one increase and one decrease, Ye Bai became even more terrifying.

Moreover, his Power of Blood carried a holy Dao Resonance, which made him even more fearsome with the more he fought. [SEARCH THE WEBSITE TO ACCESS CHAPTERS OF NOVELS EARLY AND IN THE HIGHEST QUALITY.](#)

The two of them engaged in close combat.

It was even more intense.

Fist to flesh.

Each collision of their fists was like thousands of thunders exploding.

Both of their endurance levels were extremely terrifying.

They fought for a full hour when Jiang Ming added Creation of Heaven Dao Resonance into the Infinite Power, and finally killed Ye Bai.

The power of Creation of Heaven was something Jiang Ming had realized during his Spiritual Sea's evolution of Pangu. He had just gotten started with this realm of comprehension.

This realm was even more terrifying, containing pure destructive power, capable of destroying everything and ending all things.

At the same time, it also contained the vigorous vitality Dao Resonance.

On the viewing platform.

After being transported back, Ye Bai couldn't help but shiver and looked at Jiang Ming with eyes full of resentment, "In the end, after suppressing me, you used a full forty-nine punches to kill me!"

"I wanted to finish it with one punch, but your body was too strong, so I could only win by quantity." Jiang Ming laughed.

Ye Bai rolled his eyes.

"Both of you are abnormal, with freakishly strong bodies not like humans!" Luo Qingchen snorted lightly, and then said with complexity, "I have the Immortal Spirit Body, which also has the physical potential comparable to a Holy Body, but should I... Should I pick up Body Refinement? What if I become a muscle woman? Indecisive, melancholic, and a headache!"

"If you become all muscular..." Jun Qiuye said, shivering.

The next day.

Jiang Ming's opponent was Fang Qinghan.

Devouring Body.

"I don't know if you can kill me?" Fang Qinghan's fighting spirit surged, "Chen Bei was defeated by me, and Luo Feng couldn't win either. Only Shi Lei barely managed to seriously injure me, but I could still take him down with me."

"I'm not sure!" Jiang Ming's expression was solemn.

He really wasn't sure.

Although the man in front of him was not as bizarre as Chen Bei and not as domineering as Ye Bai, his strength was truly earth-shaking.

Just standing there without moving, Luo Qingchen, Li Ping'an, and the others couldn't do anything to him, and simply admitted defeat.

"But I can give it a try!" Jiang Ming's eyes were bright.

These were indeed all formidable candidates selected from the Heavenly Ladder.

Each one was extremely powerful, surpassing imagination, easily defeating higher-level challengers and breaking free from ordinary confines.

And their strength was mysterious and unpredictable.

"Alright, I'll give it a try too, let's see if I can put an end to your winning streak!" Fang Qinghan said, stepping towards Jiang Ming.

An invisible vortex formed around him as the center.

Air and primal qi were being swallowed one after another.

Even the light was distorted.

Space was shaking.

Jiang Ming stood still, but the Yin-Yang Sword Qi swept out, spreading out to a hundred meters away. However, when it reached Fang Qinghan's surroundings, the Sword Qi was twisted and swallowed.

Even with the support of the Yin and Yang Realm, it still couldn't resist it..
