

HYPERDIMENSIONAL UNIVERSE: I HAVE THREE THOUSAND ULTIMATE TALENTS

Chapter 508: Chapter 328 Final Chapter_1

Heavenly Essence Strike, fusing all of Jiang Ming's strength.

Bang...

This single finger strike could pierce through three thousand worlds, shattering the incoming red light and scattering it around. On closer inspection, Jiang Ming realized that these were clearly snapped tendons.

He reached out to grab a piece, and as he twisted it in his hand, a terrifyingly powerful force surged, nearly exploding his palm.

A thought crossed Jiang Ming's mind, and he sensed the World Tree within his Inner World stirring. He quickly extended a tentacle from his palm and stabbed it into the tendon.

The piece of tendon seemed to meet its natural enemy, contorting violently, but in the next moment, it quickly withered away, and the World Tree inside his Inner World grew several inches taller.

This change took Jiang Ming by surprise.

After all, his World Tree was too massive, with an origin robust beyond common sense.

If he were to take it out, it could easily burst a Mortal World.

This was also because he was the master, merged with the Inner World, that he remained unscathed.

"This piece of tendon is insignificant to the corpse. If..."

Jiang Ming sensed the World Tree's desire.

He was also restless.

Sitting cross-legged, tendrils of the World Tree reached out from within him, taking root in the ground, stretching rapidly towards the corpse, arriving in the blink of an eye.

The red hairs on it seemed to sense the danger and morphed into little red figures leaping out, trying to kill the tendrils, but were effortlessly absorbed.

More tendons transformed into spears for an attack, among various other divine and unimaginable changes, unleashing the might to destroy heavens and earth. Yet nothing could stop them.

Absolutely nothing.

It seemed as if the World Tree was the natural nemesis of the ancient corpse.

Boom...

Jiang Ming sensed that the tendrils had pierced into the ancient corpse, but within it lurked a power so terrifyingly immense that even he shuddered.

A single drop of its blood could kill him a hundred thousand times over.

Too terrifying.

Had his Mind God not been fused with the World Tree, the sheer frightening power contained in the blood would have obliterated his consciousness.

“What exactly is this existence?”

This time, Jiang Ming was truly shocked.

He felt that the ancient corpse in its lifetime was definitely not weaker than the Heavenly God powerful beings that had crossed realms to attack him.

Yet now, no matter how destructive waves of force erupted from within the corpse, the tendrils could not be destroyed.

Soon after, Jiang Ming felt streams of explosive power pouring into him.

The World Tree began to grow wildly.

At the same time, the refined power divided into rivers of essence, pouring into his Inner World, causing it to expand rapidly.

The speed of evolution increased a hundred thousand times.

The Origin Force expanded like an inflating balloon.

New rules emerged one after another.

Jiang Ming's heart trembled with excitement.

With a thought, he also released a thin stream of essence into Bai Bing, allowing her to further refine her strength, enhance her foundation, and prepare for her eventual path to divinity.

Bai Bing was instantly thrilled.

The ancient corpse trembled, raising terrifying torrents within which a will capable of annihilating the Myriad Heavens Worlds was held. Yet, these torrents could not shake a single tendril.

As Time passed, the ancient corpse gradually withered away.

Jiang Ming's Inner World had evolved to a terrifyingly extreme degree, with all three thousand laws born, reaching the level of a true Perfect World.

The Martial Spirit transformed, Heavenly rules were born.

Divinity condensed, reaching the ultimate sublimation.

Jiang Ming's cultivation level of enlightenment directly reached the pinnacle of Demigod. Such a rapid and intense transformation, not even he himself had anticipated such a tremendous fortuity.

Meanwhile.

The ancient corpse trembled, and a hidden, horrifying Great Array activated, materializing numerous purple snakes that stormed towards him but were held back by Jiang Ming's World Projection.

Indeed, just the World Projection held them off.

And even grew stronger, grinding the Purple Snakes to death.

The transformation of the Inner World was terrifying to the extreme.

Boom...

Eventually, the ancient corpse was absorbed completely, and this massive mountain belly blasted open and began to collapse while a purple river appeared, circling around Jiang Ming before flowing towards him.

"So that's how it is!"

Jiang Ming did not stop it, as he now understood what was happening.

The ancient corpse was a Divine Spirit, a Heavenly God of the utmost level. In a long-gone era, it was slain and suppressed here, and a Peerless Great Array was laid out, gradually eroding the will imprint inside the ancient corpse.

Now that the ancient corpse was entirely absorbed, the Great Array no longer had any reason to exist. The leftover tremendous fortune turned into a purple river, serving as his reward.

Rustling...

The World Tree trembled, welcoming the purple river, rapidly digesting it. A portion was used for its own growth, and another infused into the Inner World to continue its evolution.

At this moment, the Inner World had grown to an incredibly vast extent.

It was more expansive than the former Great Qian Dynasty, so much so that even a Starry Sky had evolved.

Though Jiang Ming's Martial Spirit was still at the Demigod level, the absolute Power he possessed was no weaker than that of Divine Spirits, perhaps even stronger.

He finally opened his eyes.

"Brother Jiang!" The shock on Bai Bing's face had not subsided.

She knew the terror of the corpse, yet such a formidable being had been rapidly absorbed in front of her.

Unfathomably incredible.

Beyond any common understanding.

Additionally, because she received the Skill of Three Elements Fusion from Jiang Ming, her cultivation in all three elements had reached the pinnacle of Demigod, with a depth of foundation beyond imagining.

She had also gained the true Skill of Three Elements Fusion.

Bai Bing felt that she could ascend to divinity right then..
