

# HYPERDIMENSIONAL UNIVERSE: I HAVE THREE THOUSAND ULTIMATE TALENTS

Chapter 510: Chapter 328 Final Chapter\_3

Seeing one of them, Jiang Ming's eyes lit up, and his Heart of Heavenly God thumped violently.

"Bai Bing, you break through here, I'll go ahead first!"

With a thought, all the insights regarding Breaking Through were imparted to her, and he left behind a trace of Divine Power of Heavenly God to prevent accidents.

"What realm has he reached?"

Bai Bing watched Jiang Ming leave, her face full of shock.

She also began to absorb the information, preparing for her breakthrough. Jiang Ming took a step and crossed through layers of space, arriving above a vast ocean.

This was the Boundary Sea.

It ran through three thousand bubbles and merged with the large worlds in between.

It was a huge Secret Realm.

With a focused gaze, beneath the water, there were innumerable Demigod Realm creatures, with the more terrifying ones the deeper one looked.

At the very bottom, the creatures of the Demigod Realm possessed divine-like majestic powers and there were many forbidden areas emitting the terrifying might of Lower Gods, Middle Gods, and even Upper Gods.

Below the Boundary Sea, there were countless Secret Realms.

He saw that Shi Lei had arrived here and also that Ye Fan had arrived, both finding their own fortunes, and seeing that there was no danger, he no longer paid attention.

Jiang Ming's figure dissipated and then reappeared at the very bottom of the Boundary Sea.

This place was pitch-black, with an incredibly terrifying pressure.

Even Upper Gods had to tread carefully.

With a casual sweep of his hand, he opened a temporal-spatial gate and stepped through it.

Hum...

The moment he entered, the World Tree within Jiang Ming began to tremble, manifesting a natural sense of exhilarated joy.

But Jiang Ming was startled.

Because in front of him was a segment of a dead tree trunk.

If it were just an ordinary tree trunk, it would have been fine, but this trunk was large enough to penetrate the Galaxy, burst open the Cosmic Starry Sky, and was three thousand times larger than the battlefield of the Multi-Universe Genius Battle.

“The trunk of the World Tree!”

In that instant, Jiang Ming had his realization.

It was the trunk of a once-deceased World Tree.

His own World Tree was what remained after the other’s death, nurtured and born from him.

Fortune favored his mind, and with a great wave of his hand, the World Tree was released from his Inner World and instantly took root in the trunk. The World Tree rejoiced as it devoured the Creation Essence within the trunk, growing at an incredibly fast rate.

At the same time, a river of Creation Essence also permeated through time and space into his body.

Jiang Ming’s aura climbed once again.

Boom-

After a long time, he broke the shackles of the Heavenly God Realm, stepping into an entirely new level.

The Ancient God Realm!

But he did not stop there, reaching the peak of the Ancient God Realm and then breaking through the constraints, entering the God King Realm.

He only stopped when he reached the pinnacle of the God King Realm.

The World Tree had absorbed the trunk completely, reaching a height of thirty trillion light-years.

Boundless and limitless, a single tree could unfold three thousand universes.

This was still far from the ultimate limit of the World Tree.

“Above the God King lies the God Emperor, the Supreme God!”

“I am still not quite invincible!”

As his realm improved, Jiang Ming also received vast information from the unknown, such as the Super-dimensional Universe, also known as the God Realm.

In the God Realm, Heavenly Gods suppress a region, while God Kings rule the boundless.

There are only four God Emperor-level mighty beings.

And the Supreme God?

There are none at all.

The battlefield of the Multi-Universe Genius Battle was created through the joint effort of God Emperors.

But at this time, the System, which had been silent for a long time, rang out again.

“Congratulations to the host for reaching the God King Realm, completing the novice task, and beginning true growth!”

“Now, three rewards will be given to the host!”

“First, fusion of numerous innate abilities into the Talent: Chaos Master!”

“Second, the grant of a River of Primordial Chaos Essence!”

“Third, a chance for enlightenment of the Supreme Law of this universe!”

“Host, you come from the Origin Land of the Various Heavens Chaos Sea, that is Earth, blessed by the great primordial path, evolving into the Talent System. Now that you have entered the growth phase, with the conferring of the final three rewards, it will shatter and dissolve.”

“Host, strive to grow, transcend the primordial chaos, transcend the Great Dao!”

The System’s last words carried a hint of emotional fluctuation.

Before Jiang Ming could react, his array of innate abilities began to merge into one.

Meanwhile, a boundless essence infused into his body, and he promptly summoned the World Tree back, swiftly shrinking it before letting it settle in his Inner World.

Jiang Ming's mind also fell into the midst of comprehending the Dao, grasping the highest laws.

With enlightenment, the River of Primordial Chaos Essence, and the ancient existence of the World Tree to suppress, his realm climbed once again.

Boom...

The God Emperor Realm.

Apex!

After a long pause, he leaped upwards, reaching the God Emperor, the pinnacle of God Emperors, and finally stepped into the supreme God level before he stopped.

"Is this what it means to be a supreme God?"

After Jiang Ming came to his senses, he shook his head.

He was now able to observe the multi-universe with a single thought, yet he felt no sense of achievement.

Because this power came too easily.

His gaze intensified, piercing through immeasurable time and space, he saw a place enveloped by endless purple streams. Upon slight investigation, his divine thought was crushed.

That was Earth.

The origin of the Primordial Chaos Sea.

The cradle of the Dao.

"The birthplace that emerged from the primordial nothingness."

Jiang Ming's eyes held complex emotions.

With a casual flick of his finger, a brand that was concealed here appeared, condensing into a form.

A youthful appearance, yet enshrouded with the aura of a God Emperor.

"Thank you!"

Jiang Ming smiled.

He had understood everything. The person before him was merely a manifestation of a brand, none other than the Tai Chu of the Human Clan. At the peak of God Kings, he was considered one of the giants in the God Realm.

The World Tree seed was left behind in the Blue Star Secret Realm by him, inadvertently attracted by the supreme Dao Resonance harbored within Jiang Ming, thus coming into his possession.

Tai Chu stayed here knowing that the one who got the World Tree seed would eventually come here. If it was someone from the Human Clan, all was well, but if not, he would resolve the matter himself.

Little did he know that he would be awakened by the shock of inconceivable power, only to witness an incredible spectacle.

The one before him had leapt from a Heavenly God to a God Emperor level in one bound and then proceeded to a higher level.

Supreme God.

Tai Chu had an incredibly complex expression.

“The World Tree has brought me no small amount of fortunes; now, I shall bestow upon you a fortune that may aid you in attaining the seat of a God Emperor!”

Jiang Ming casually pointed, and a supreme force entered the other’s body, which through the subtle connection, entered his original form.

His figure also vanished without a trace.

When he reappeared, he was already above the Boundary Sea.

Light radiated from his body, releasing streams of energy that merged into the bodies of Wang Qitong, Ran Xin, Ye Fan, and others.

He also provided it to many on Blue Star who were related to him.

Naturally, his children were not omitted.

With another wave of his hand, friends who had died in the World of secret realm and others were all revived.

Reversing creation was a mere trifle to him.

His previous incarnation, as well as the parents of his former self, were also revived by him.

But their previous information was erased; they were given new identities and fortunes as well.

“Earth, what kind of place is it in the end?”

Jiang Ming took a step out, transcending immeasurable time and space, and through the Chaos World, eventually arriving outside Earth.

Ahead was the Divine Forbidden Area.

Looking from the inside, there was nothing unusual.

From the outside, it held great terror.

Even he dared not enter recklessly.

“Can I go back?”

As Jiang Ming contemplated, he saw a figure fly out from Earth, vanishing in a flash, eluding even his pursuit, beyond his scrutiny.

“Another transmigrator!”

He laughed.

- The book is completed, and it could be considered as having a rushed ending. The World of secret realm is somewhat of a failure, especially the Nine Domains comprehensive martial arts world... Well, it's all in the past. There's no point in continuing this book, as there are not many readers following it, and to keep writing would mean starvation, since I'm a full-time writer.

This is not a wrap-up ending, but it's still a form of closure for everyone.

I bow in apology.

I will devote myself fully to the new book, which will be started in a few days.

I hope my old friends will continue to support me.

The journey in the world of martial arts is long; we shall meet again another day..
