

Chapter 293

Sofia's P.O.V.

Holy Fuck. For a moment I thought Izabella was standing at the top of the stairs, only to realize quickly that it is Tali.

I quickly leave the hallway and find a place to make a phone call to my Brother, I wonder if he and Talon were aware of what walked out of their lives. Even though I doubt that Talon knew who his Mate truly was.

After two rings he picks up the phone and I ask "Is Talon there or is there a way to connect him to this call." My brother tells me to hold on and after a minute I hear Talon's voice.

"Roger, Talon. I just found out something I doubt the two of you were aware of. I am still at the palace trying to find out why Tali is here and I have found the answer."

Roger interrupts me and tells me to get to the point. "Well, she is the Daughter of Princess Izabella. She looks just like her."

Talon starts cussing and swearing and my Brother is quiet for once in his life. "What do you mean, Sofia? Talon's Mate was named Bella and she was Wolfless, just like Tali." My Brother growls.

"She didn't shift at eighteen, because she has a Lycan and not a Wolf. Talon is a Werewolf and normally that means his children will be Werewolves too, but Izabella was a Royal and she gave her Royal bloodline to her Daughter.

Which also answers another question you have had for years, Talon." And I wait until he asks what that is. "You marked Alena before Bella was actually dead. A Werewolf can't hear the heartbeat of a Lycan in the last hours of their life."

I tell Roger I send him a picture I took of Tali and a picture I still had of Izabella. For a few moments it is quiet at the other end of the line and then I hear both men gasp.

"Fuck, my Mate was a Royal and she never told me." I hear Talon whisper and I hear Roger mumble to someone on his end.

"What the fuck do you mean? My Mother was a Royal, are you fucking kidding me." I hear and Roger says "Ayden, calm down. It is a good thing, because that means you are related to the Royal family."

I keep listening to the men on the other end of the line for a few more minutes and then I disconnect the call. He might be related to the Royal family, but it will do him no good if he is anything like his Father or my Brother.

Alpha Talon's P.O.V.

My Mate was Princess Izabella and she never told me, what the fuck. I am pacing in front of my desk as my Werewolf decides to put in his two dimes.

"She never said anything, because she must have known that we would have taken advantage of it. Think about the things we could have done under the protection of the Royal family."

And I smile, knowing that he is right. We would have gotten away with so much, just waving around our status as Royals.

Now I understand why Alena never conceived, because we were never truly mated. And now I have a new chance at getting my third son, I can keep my control over the Pack and with my status as Tali's Father I will be able to do much more than I have done so far.

Thinking about what I can get away with, my Wolf flashes me a few images that makes my cock harden and I know I need to find someone to slake my needs on.

I hear a noise coming from the kitchen and I hope Jean is not in there, because ever since we took care of Alena she has been flaunting herself in front of me. I peak around the corner to see who it is and a smile crosses my face as I see it is Jean's Daughter, Eva.

She is twenty-one and from what I have seen she is a shy, little thing.

I walk in and she squeals as she notices my presence. "Alpha Talon, I am sorry. You just startled me. Is there something I can do for you?" She asks as she keeps her eyes on the floor.

She is a beautiful girl with a small waist and big breasts and that is just the way I like them. I sit down on a chair and tell her to stand in front of me. She is wearing a dress, just as I order all my staff to dress.

"Look at me." I say and her eyes lock with mine. I open my pants and pull out my cock, stroking it up and down as I keep looking in to her eyes. I can see her chest moving up and down as she starts to breath heavily.

"Like what you see, Doll?" She turns beet-red at my words and I chuckle. "I am never gentle, I take what I want when I want it. Get to my room and make sure you're naked by the time I get there." She nods and rushes out of the kitchen.

Moments later I hear Jean ask "Need some help with that, Alpha?" As she walks towards me slowly.

I look at her and for a second I think of just walking out of the room, but my Wolf has a better idea. "No need, Jean. I will enjoy shoving this in to your Daughter."

I hear her gasp as I walk away and I chuckle as I imagine the look on her face at my words.

I open the door to my room and there she is, sitting on the edge of my bed. Naked, just as I requested.

I quickly take my clothes off as I watch her, her nipples are stiff and she is breathing heavily. I ask her if she has heard stories about me from other girls and she says "Yes, Alpha. I have heard some of them talk about you."

I ask her what she thought of those stories and my jaw drops as she tells me that she always felt jealous of those girls. That she would go over those stories at night to satisfy herself.

My Wolf loses it and pushes forward "I am going to have fun with you, Little One. Get on the bed and spread those legs for me." He demands and she turns to climb on to the bed.

As soon as both her knees are on the bed, we have a great view of her pussy and we grab her hips to hold her in place. "I have changed my mind, this will do." And as we finish speaking, we pull her back slamming our cock in to her core.

We don't stop as we breach her hymen, she screams for a second and as soon as we start slamming in to her she starts moaning. She pushes her ass back as our cock slides in to her soaking wet pussy.

I don't think I have ever felt this good while pounding in to a pussy and I feel my cock grow as her pussy clutches around my cock. "Please, Alpha. Harder" She begs and I have no intention of denying her.

With one hand I hold on to her hip, while the other finds its way to her clit. I pinch it and she moans loudly asking me to do it again. I pinch it harder as I slam my cock in to her to the hilt.

My hand on her hip slides towards her ass and without thinking about it twice I start pushing my thumb in. At first she tries to get away, but soon she gives up and starts pushing back on my cock and my thumb.

"Think she might enjoy some company?" My Wolf groans in my head as we keep pounding her. Thinking about sharing her with another makes me move faster and harder.

"Alpha, I am going to come." She whispers and I tell her to hold it off, that she is not allowed to come until I tell her to. She moans and whimpers as I keep sliding my cock in and out of her.

I replace my thumb with two fingers and shove them deep in to her ass. My balls tighten and I tell her to come, we both come at the same time and I shoot my load in to her pussy.

We both collapse on the bed and I pull her close to me, so I can whisper in her ear "Next time I fuck you, I won't be alone."
